## MOVEMENT STARTED TO SAVE LIFE OF MONCUS TWITTY

### POSSE SURROUNDS CHICO BANK BANDIT ON MORRIS RANCH

Pampa oil operators are becoming widely known on account of the part they are playing in the affairs of the Independent Petroleum association of Texas.

The oil tariff is needed to put petroleum production upon a par with agricultural and cattle raising. Without a tariff, the American standard of living tends to be depressed along with the price of crude oil to the level of competing foreign countries and foreign cheap labor. America must keep her prices above the world level and must produce what she needs for her own consumption. There is little hope of selling raw materials in the world market.

Do you value your citizenship and the rights thereof? Do you pay your poll tax before the deadline, Saturday.

Those who have jobs are fortunate, and in most cases are better off than they were a year or two ago. The reason is not hard to find. It is because the price of commodities are lower. Those who are still continuing at their tasks are doing well and that sharpens the contrast with those who are jobless.

The Lo Quax Homo Sexority club wishes to correct a misunderstanding over its name, and to apologize for any unintentional giving of a wrong impression. The club has dropped the "sexority" part of its name. It is a society of high school students who wanted an ordinary social organization with a "different" name. The club thought of the word "sexority," but that referred to girls only, and of fraternity, which indicated "brothers" only. Both sexes were in the membership. Someone suggested "sexority" as meaning both boys and girls in the membership. The name stuck. Though illogical, it was different. But a few people misunderstood the significance and the Latin has been reduced to Lo Quax Homo club. That's all there is to it.

What's in a name? Sometimes not much. For instance, the Lo Quax Homo club is a society of high school students who wanted an ordinary social organization with a "different" name. The club thought of the word "sexority," but that referred to girls only, and of fraternity, which indicated "brothers" only. Both sexes were in the membership. Someone suggested "sexority" as meaning both boys and girls in the membership. The name stuck. Though illogical, it was different. But a few people misunderstood the significance and the Latin has been reduced to Lo Quax Homo club. That's all there is to it.

Weather forecasting is becoming easy. Just mark it "fair" and follow it. This paragraph will probably inspire a snow storm. A newcomer says the never spent a more delightful winter anywhere than here. It has been warmer in Pampa than in Central Texas. Boost our weather.

It is true that indictments can be brought against the young folk of any generation. But you give me the same privilege about delinquency into the sins of the oldsters and their die-hard hypocrites and the fur will fly there, too.

Weather forecasting is becoming easy. Just mark it "fair" and follow it. This paragraph will probably inspire a snow storm. A newcomer says the never spent a more delightful winter anywhere than here. It has been warmer in Pampa than in Central Texas. Boost our weather.

It is about time for the Panpan to begin boosting our nearby scenery in New Mexico. Everyone who has not seen the caverns should do so this year. They are worth a trip or several of them.

Strange is human nature. Queer are human aspirations. Were India given her freedom, her scores of millionaires would soon be involved in a chaotic revolution. But 96 pounds of bone and withered skin—Mahatma Gandhi—has inspired worship among the millions who share his desire for autonomy.

Children men are hard at work getting the right-of-way for the Pampa road from their city to the Collingworth county line. The first 77 miles from Childrens will be graded soon. The Rock Island, which is doing preliminary work on its Quannah-Shamrock line, is building a "Y" at Shamrock now.

**NEGRO STOLE BEAN**  
QUANAH, Texas, Jan. 29. (AP)—A Quannah negro destroyed market scales that cost \$100 to get a brass bean that he sold to a junk dealer for 40 cents. By tracing the missing bean from the scales, officers arrested the negro.

## OFFICERS HIT BANDIT IN LEG WHILE ON RUN

ABOUT \$1,500 TAKEN FROM BANK EARLY THURSDAY

## COMBING UNDERBRUSH

CITIZENS JOIN BAND IN SEARCH FOR ROBBER

CHICO, Texas, Jan. 29. (AP)—While a posse directed by Sheriff Will Workman of Wise county was continuing an all night search in the rough, wooded 8,000 acre Morris ranch for the robber who held up the First State bank of Chico early today and escaped with \$1,500, authorities tonight identified the bandit's automobile as one stolen Tuesday from a Bridgeport dam worker named Rose.

The vehicle was abandoned by its driver west of Cundiff after a running battle between the robber and a posse. While the bandit car was speeding west of state highway No. 39, it was riddled with bullets fired by pursuers and was left by the robber when the motor became overheated.

The bandit quit his car, limping visibly. He was seen carrying a satchel believed to contain the bank loot.

Fosses tracked him to the Morris ranch, a short distance north of Wizard Wells, where the trail ended. The ranch, hilly and densely covered with underbrush, provided such a hiding place for the robber that officers believed would make it difficult to apprehend him. Plans for bringing bloodhounds here from the state penitentiary at Huntsville to track the fugitive were abandoned late today when officers were unable to obtain a plane to bring the dogs here.

At nightfall a number of citizens who formed the posse left for their homes but officers continued with the aid of lanterns to comb the brush country.

## Hi-Y Constitution Will Be Adopted

Constitution of the Hi-Y club of the Pampa high school will probably be adopted at the next meeting of the club Wednesday.

At this week's meeting a sample constitution that had been drafted by the committee was discussed but no action was taken.

John Fisher, member of the Hi-Y at Tulsa, opened the meeting last Wednesday by showing the local members how the ritual should be followed. The opening exercises included the salute and pledge to the flag, a song, and the saying of the Lord's prayer.

A picture of the club has been taken for publication in the 1931 Harvest yearbook of the school. Superintendent R. B. Fisher made an inspirational talk to the members at the meeting last Wednesday.

**TO BE ROOFED SOON**  
If there are no delays, the Gordon and Buckler buildings being erected on North Cuyler, between the United Drygoods store and the Oil Bell grocery, should be roofed in by the last of next week, John T. Glover, contractor, said last night.

## A Willing Market

Here is a wide open market of willing, eager people who are ready to buy anything you have to offer. Here, daily, merchandise from eggs to automobiles finds quick sale. Here, too, is the city's greatest employment bureau and the greatest place in town for barter and trade. Consider your problems now and work out their solution with low cost through News and Post Want-Ad columns.

The News and Post bring more results because more than twice as many people read the News and Post.

**"FIRST IN PAMPA"**  
An 18x40 addition will be completed this week at the Hilltop grocery, John T. Glover, contractor, said yesterday.

## CAPTURED RUM SCHOONER TAKEN TO PORT

NEA New York Bureau  
Captured with a cargo of liquor reported to be worth more than \$50,000, the Canadian rum-running schooner Josephine K. is shown above between coast guard boats as she was brought into New York harbor. The captain, William P. Chase, 41-year-old Nova Scotian, was mortally wounded by a one-pound shell fired through the pilot house of his ship during an exciting chase off Ambrose light. Fifteen hundred cases of Scotch whiskey were confiscated and two other vessels, a tug and a barge, were seized with a crew of 16. A board of inquiry was appointed to investigate the shelling of the rum schooner.

## LONGVIEW OIL FIELD ACTIVE

NEW PIPELINES WILL BE RUSHED SOON TO NEW OIL AREA

DALLAS, Tex., Jan. 29. (AP)—Three new pipelines or extensions of existing lines, a new refinery and development of a pumping station are among projects to cost approximately 1,000,000 being undertaken in the new East Texas oil field.

Survey has been completed for a new pipeline to extend about 70 miles from the Moncrief-Farrrell-Arkansas Fuel Oil company's No. 1 Lathrop, five miles north of Longview, to the Louisiana Oil & Refining Corporation refinery near Shreveport. The pipeline of six-inch welded pipe, is estimated to cost about \$450,000 and will be built by the Arkansas Fuel Oil company. Preparations were being made to start work on it at once.

The Humble company reported work would be rushed on a 13-mile connection with its Van-Shreveport pipeline. This connection would cost about \$160,000.

With a line south to Kilgore and then to the Henderson field, the Humble would offer a pipeline outlet for the new field which oil men asserted it has needed to make possible its development. The new pumping station at Longview is a part of the Humble's program, which includes establishment of additional tankage and offices there. Two 55,000 barrel storage tanks are to be erected. No figure was available here on the amount the Humble company would spend at Longview.

Erection of a refinery of 5,000 to 10,000 gallons daily capacity at Tyler was planned by E. L. Chapman and G. L. Rowsay, to be connected by a six-inch pipeline with the Joiner-Bateman areas.

## Spur Rail Line Nears Completion

By February 15, the rail line between Heaton and the Colteco and Peerless carbon black plants will be completed and turned over to the Santa Fe for operations. L. W. Klein, Santa Fe agent, said yesterday.

Ballasting and completing the spurs into the two carbon black plants is being done this week. Length of the line is eight and nine-tenths miles. When the line is turned over to the Santa Fe for operation, it will have required about 45 days in all for the work, Mr. Klein said.

The Spearman-Boise City line is the next construction job of the Santa Fe in this section.

**BUILD ADDITION**  
An 18x40 addition will be completed this week at the Hilltop grocery, John T. Glover, contractor, said yesterday.

## Harry Sinclair Is Pleased With New Field At Longview

LONGVIEW, Texas, Jan. 29. (AP)—Harry F. Sinclair, chairman of the board of the Consolidated Oil company, said here today he believed "the East Texas oil field the biggest I have ever seen in the making and I believe it has never yet been scratched."

"From reports I have received," the oil man continued, "I believe gushers of tremendous proportions will be uncovered, even greater than those of the Permian field of West Texas and the great gusher fields of old Mexico."

Sinclair arrived in a special car and went immediately to the site of the Lathrop gusher. He said he planned to bring a large number of drilling rigs into the new field to develop his holdings.

"I am ready to spend several hundred thousand—yes several millions, in this new field," he declared. "We drove all through the country getting here and it looks better than the Seminole or Oklahoma City fields."

He said he would open offices here before he left and admitted that he planned to look over the entire East Texas field.

## Eight Are Dead In Mine Blast

WHITE HAVEN, Cumberland, Eng., Jan. 29. (AP)—Eight miners were known to have been killed by a violent explosion in the Haig coal pit tonight and it was feared that from 20 to 35 others shared the same fate.

The bodies of the eight dead were brought up shortly after relief workers got busy, and 30 men suffering from gas were removed from an adjacent mine.

About 200 men were down in the Haig pit—which is a deep mine with workings running some miles beneath the sea near here—when a mighty blast occurred in the part known as "Number 3 north district."

As soon as the explosion was heard, rescue parties were organized to go down in the mine and physicians and nurses were assembled at the pit-head. Rescue parties went down well-equipped with special apparatus, but were handicapped in fighting afterdamp. They pushed ahead as fast as possible and quickly set up those who had escaped injury altogether or were slightly gassed.

**WORK PROGRESSES**  
Steel decking at the Combs-Worley building will be started during the next week, John R. Roby announced yesterday. The plumbers and electricians started their work in the basement of the structure yesterday. Brick and terra-cotta work is being done on the building this week.

Vera Joe Welch had a minor operation at the Pampa hospital yesterday.

J. M. McDonald will leave this morning on a business trip to Amarillo.

## GRAVE ENTRY IS UNSOLVED

NO ARRESTS MADE FOR ENTERING GRAVE OF WOMAN

Officers last night investigating the opening of the grave of Mrs. Clyde Felker recently by some unknown persons were still unable to give any reason for the act.

Evidence surrounding the case showed that persons had stole out of the cemetery in the dead of night, opened the grave of the woman, stood the body up against the walls of earth and removed the stockings from her legs and replaced the body and recovered the grave. A shovel, apparently stolen from the Santa Fe yards, was left in the fresh earth above the casket.

Lumps of earth and a half-burnt match were on the inside of the casket and the lining was torn when it was removed by orders of the coroner when the sexton reported the grave had been entered.

The casket was on view yesterday in the Stephenson Mortuary, where the body was taken for a post mortem examination and the viscera removed and shipped to Austin for an analysis to be made.

Footprints were plain on the lid of the casket which was inclosed inside of an outer box. The body apparently had not been harmed, it was reported.

Various theories have been advanced about the motive for the entrance of the grave but so far none have been solved. Officers said early last night no arrests had been made as yet.

## Body Of Taylor Is Sent To Newcastle

The body of C. H. "Bert" Taylor, 45, carpenter foreman for the Phillips Petroleum company, who was slain on a road three and one-half miles west of LeFors early Wednesday morning, was sent to Newcastle, Pa., on the train yesterday afternoon.

Mr. and Mrs. J. C. Alexander accompanied the body. Mr. Alexander is a cousin of the slain man and is a drilling contractor at Bomers. Other relatives will join the Alexander's at Bartlesville, Okla., for the trip to Newcastle, Pa., where Taylor's burial will be made.

Funeral services were held at 1:30 o'clock yesterday afternoon.

**TAYLOR IS NEW TEACHER**  
R. A. Taylor, Jr., of Baylor university, has taken up his duties at Pampa high school as teacher of history to the freshmen and sophomore classes. He succeeds A. M. Fox, who is teaching and attending classes at Oklahoma A. and M. college at Stillwater, Okla. Mr. Fox intends to return to Pampa in the autumn after he has completed work on his master's degree.

## FACES DEATH IN CHAIR FOR GIRL ATTACK

INSANITY IS CLAIMED BY PERSONS WHO SEE TWITTY

## SEEK GOVERNOR'S AID

PROPOSE CIRCULATING PETITION TO ASK LIFE TERM

A movement that might save Moncus Twitty from the electric chair was started by local citizens here this week.

Twitty was sentenced to death by a jury on a charge of criminally attacking his three-year-old niece in a tent at LeFors. The sentence was recently affirmed by the court of criminal appeals.

Claim insanity  
Many local citizens, including Judge W. R. Ewing, former Sheriff E. S. Graves, District Attorney Raymond Allred and others have never been quite convinced that Twitty at best is a pathetic case. It was Dr. V. E. von Brunow's opinion at the time of the sanity hearing on Twitty that the latter was a moron. Many are not quite certain that he was not insane, or that he is subject to mental lapses, spells of morbidity.

Before he left the courthouse on Jan. 1, Hermann Wachsmuth, former jailer, denied that Twitty had been acting sane for the last few months.

Slumped in Chair  
Preceding the trial and just before it, Twitty refused to say a word but sat slumped on his bunk or in a chair with chin hanging on his chest. About a month after the trial, he began to take notice of things and would comb his hair which he previously would not do. Since then, Mr. Wachsmuth said, he has been sane enough at times, but every day or two he would sit for hours, looking into space and never blinking an eyelid. Prisoners in the county jail are convinced that he is insane at times.

It has been proposed to circulate a petition asking the governor to commute Twitty's sentence to life imprisonment. Interested citizens are considering retaining an attorney to diagnose his mental condition before they take any action to ward commuting the sentence. If they are convinced that Twitty is insane an effort will be made to save him from the electric chair, it is understood.

Some of the persons interested in the case point out that although the crime alleged to have been committed by Twitty was inhuman and brutal, no life was taken.

In a statement to the district attorney the day after the crime, Twitty said that he was "crazy drunk" on the night the child was attacked.

## Independents Are Heard By Senate

WASHINGTON, Jan. 29. (AP)—American independent oil producers told the senate commerce committee today their existence was stake on legislative proposals to restrict foreign importations of oil.

Importations of cheaper oil from South America by the organized oil companies were blamed for a big share of an estimated 100,000 unemployed in the mid-continent field by Orville Bullington of Wichita Falls, Texas.

Bullington added that Russia now loomed as "the most serious threat" to the entire American oil industry, saying 2,000,000 barrels were sent into this country recently by the Soviets at a price far below that which could be met by American producers.

Chairman Johnson, of the commerce committee, called the hearings on the measure of Senator Capper, Republican, Kansas, proposing to restrict crude oil importations to 16,000,000 barrels annually; and on the resolution of Senator Shortridge, Republican, California, proposing a tariff on oil. He said opponents would be heard next week and he declared in favor of an immediate decision on the question by the committee.

Mr. and Mrs. B. Q. Adams are the parents of a nine pound boy born Thursday morning at the Worley hospital.

Mr. and Mrs. C. M. Lyon saw "Flying High" in Amarillo last night.

## Legge Says Acreage Must Be Reduced

SPRINGFIELD, Ill., Jan. 29. (AP)—Alexander Legge, chairman of the federal farm board, warned today that the price of wheat can not be efficiently stabilized if the 1930 surplus is repeated.

In an interview prior to an address tonight at the Illinois Agricultural association's annual convention, the farm board head asserted "crop reduction is absolutely necessary if the American farmer wishes to put the wheat market back on its feet."

United States, Legge said, must try out of the export market with its wheat since other producers, especially Russia, are flooding the consuming countries with all the wheat they need. When that step is taken by America, Legge said, only the domestic price "pegged" through efforts of the farm board need concern the wheat raisers of this country.

## TEXAS LEADS IN OIL YIELD

PANHANDLE OIL FIELD DROPS IN OUTPUT DURING YEAR

Again, proud Texans can boast that Texas is first in the production of oil. In 1930, Texas led even more convincingly than in 1928 and 1929. In the previous year, according to figures compiled by the Oil and Gas Journal, Texas' 34,735 wells produced 292,393,102 barrels, compared with Oklahoma's 216,114,591 barrels, and California's 228,191,899 barrels.

Initial production in the Panhandle totaled 178,878 barrels as compared with 278,953 barrels in 1929. Total production of the Panhandle in 1930 was 32,492,032 barrels, as compared with 31,745,794 barrels in 1929.

Gray county led the Panhandle and North Texas by a big figure. The daily average was 21,782,549 barrels. Hutchinson county was second with a daily average of 7,285,486 barrels.

Regarding future developments in the Panhandle, the Journal says: "While but few new pools or extensions have been brought in in the Panhandle district during the year, and development in the old fields has been held to a minimum, especially during the last six months of the year, gas development has taken on major aspects in this district, with more attention focused on it in years to come due to the fact that the Panhandle district is rated as the largest gas and helium gas producing area in the world, with thousands of potential gas producing areas yet undrilled."

"The gas producing and marketing activities include 10 lines out of the Panhandle district in various directions."

## Secretary Mellon Continues Stand

WASHINGTON, Jan. 29. (AP)—Secretary Mellon carried his opposition to cashing veterans bonus certificates to the house ways and means committee today when he was met by a question whether the bond market was "manipulated" yesterday to "agree" with his warning.

Under Secretary Mills answered the question. He said the reaction of the bond market naturally followed reports that congress seriously was considering conversion proposals and "was to be expected."

Representative Rainey of Illinois, a Democrat, asked the question.

Mills came in for a general quiz by Representative Garner of Texas, the Democratic leader, on Mellon's statement yesterday at the other end of the capitol that a deficit of \$375,000,000 was anticipated.

**STUDENTS AT SHOW**  
Vocational agriculture students, who represented Pampa high school at the Carson County Poultry show in Pampa yesterday, were: Reginald Brown, Ralph Byrum, Buford Crawford. These three boys, with C. L. Balch as alternate, were members of a poultry judging team at the show. There were 57 boys in the teams at the show.

**HOLD DESERTER**  
Deputies Clyde Garner and Warren Belcher arrested a man last night who is alleged to be a deserter from the U. S. army at Ft. Francis, Warren, Wyo. He is being held in the county jail pending orders from army officers. It is charged that the man left the army May 8, 1930.

## MAJOR EVANS TESTIFIES IN MURDER TRIAL

SAYS THOMPSON WAS ONE OF SLAYERS OF CRABTREE

## PEGGY DAWSON IN CHAIR

TELLS OF THREATS ON SLAIN MAN'S LIFE AT HER HOUSE

VERNON, Texas, Jan. 29. (AP)—Emmett Thompson, on trial for the murder of Homer Crabtree near LeFors, Gray county, last November this afternoon, was named as one of two men seen kicking and beating Crabtree, in the testimony of Major Evans. Evans identified Thompson and Carl Heifer as the pair he saw beating Crabtree.

Evans, who previously had said he did not know either Thompson or Heifer at the time, said he saw Thompson the night after Crabtree was slain and identified him as one of Crabtree's assailants.

Saw Attack  
The witness was vigorously cross-examined by R. E. Underwood, who questioned him regarding his position near the scene at the time he saw the attack. He said from where he stood, the attack on Crabtree in a nearby ravine was clearly visible.

He testified that both assailants dragged Crabtree from an automobile and kicked him. He said one of the men went to a junkpile and returned with some object he could not see plainly. Then Evans, who was driving a truck to a gravel pit, continued on his way, returning later with Charley Cooper. They saw one man standing over Crabtree, Evans said. The other assailant was not visible.

Find Blood  
Evans told of returning later and finding footprints and a large spot of blood.

Peggy Dawson, who followed Heifer and Thompson came to her house the day of the killing and asked for liquor. She said both Heifer and Crabtree Thompson saying he was going to "beat him to stomp the life out of Crabtree."

## Hawks Is Named In Wentz's Place

OKLAHOMA CITY, Jan. 29. (AP)—A "Murray man," Sam Hawks, formally was elected today to replace Lew Wentz, millionaire Republican, as chairman of the state highway commission while Wentz questioned the authority of Governor W. H. Murray to dictate the change.

Hawks, designated chairman by the governor, was placed in office with the approval of S. C. Bowers, the other Democratic commissioner. Wentz remains as a member of the board, it was indicated.

The Ponca City oil man did not vote and after the reorganization had been carried out, issued a formal statement saying Murray's order removing him as chairman has "absolutely no effect" except insofar as commission members desired to follow it. He denied Murray charges that he had not cooperated with commission associates.

## Examining Trial Of Jones Is Postponed

MIDLAND, Jan. 29. (AP)—Due partly to absence of District Attorney W. R. Smith, whose wife is ill, examining trial for Buck Jones, charged with the slaying of Weldon L. Russell, Abilene real estate man at a party here Saturday night, was delayed probably indefinitely today. The hearing was scheduled for 2 o'clock.

Judge M. R. Hill, who was to conduct the hearing, indicated there is a possibility the hearing may be held Friday. A 10th district court grand jury is to convene Monday and it is expected the slaying will be investigated.

## THE WEATHER

TEXAS — Fair in north, partly cloudy in south portion, with scattered showers in Rio Grande valley Friday; Saturday partly cloudy; Light to moderate northerly to easterly wind on the coast.

## PROGRAM HELD BY WOMEN OF BAPTIST WMS

LESSON FROM ROYAL SERVICE STUDIED BY GROUP

"Challenge of the Unfinished Task" was the subject of a program from Royal Service given at a meeting of the Central Baptist Woman's Missionary society Wednesday afternoon.

Dr. Sherman said, director of the Child Research center, Washington, D. C., made that statement here today before the 24th annual farmers week and marketing conference of the Georgia State college of agriculture.

Dr. Sherman said a survey was made by 32 parents, who were asked to keep account of the ways in which their children annoyed them. They carried small notebooks around with them and kept a record each day of the week.

The greatest number of annoyances, Dr. Sherman said, was caused by disobedience, but all sorts of conditions were put down as annoying. Some parents were annoyed because their children were too slow, others because they were too quick or alert. A few parents were annoyed because the children were not neat, while others were disturbed by their primping.

"The results," Dr. Sherman said, "showed that the attitudes of the parents, their emotions at a given time, and their feelings of well-being affected greatly the kind and number of annoyances with their children."

Discussing "education of parenthood," he said the problem of personal welfare and of happiness can be solved by properly preparing the youth for life—and education for parenthood can do much in this respect.

"Many people still believe that a child develops naturally and that what he inherits determines what he will be later on. But our work with children in the past 25 years has given proof that the way in which a child is brought up determines what he will be later on as a youth and as an adult."

"The most easily influenced of all a child's development is personality. All of us can agree that one of the most important causes of unhappiness is a personality which fits in poorly with conditions and with other people."

Members of the Altar society were entertained at the home of Mrs. Emmet Dwyer, Wednesday, February 11, 3 o'clock, with Mrs. Ed Carrigan acting as co-hostess.

## CHARM CHATS

standing with the feet apart, or walking or sitting so, is extremely ungraceful. It imparts to the figure a striking crudity which no amount of exquisite grooming or impeccable complexion can atone for.

This deplorable habit likewise conduces, because of certain exact principles of physics, to that sag of the body which causes the abdomen to protrude.

The often-heard admonition to "hold the stomach in" is not clearly scientific. One should not try to maintain a series of telegraphic commands to the abdominal muscles to "hold in." Such a procedure would entail constant remembering—to try to do something unnatural. Even if it were possible it would not be desirable, because the constant tension of the muscles thus produced would impart a strained and wholly artificial effect. Breathing would be stiff and shallow. One

couldn't relax and be oneself at all. Rather than that, remember the poise of the body upon feet which are kept modestly close together. Remember shoulders gently and easily up and back, and chin in. And the abdominal region brought into line with the waist-line straightness of the body. This is something very different from the stress and tension of mere abdominal muscles "held in."

STINNETT, Texas, Jan. 29. (AP)—Although pipeline construction companies are building cottages and camps as fast as possible to house their employes, this city is overrun by workmen on the various lines under construction out of the Panhandle field.

Apartments and rent houses in Stinnett have been taken in the rush, and new ones are being built.

Plans for the event were made at an officers' meeting Monday afternoon at the church, the gathering being opened in prayer by Mrs. R. E. Stonestier.

Those present were Mrs. Stonestier, Mrs. L. A. Satterwhite, Mrs. L. W. Hardcastle, Mrs. L. H. Anderson, Mrs. A. W. Mann, Mrs. D. L. Lunsford, and Mrs. E. L. Yeargan.

# For GINGER'S SAKE

Because life was so slow in the little town of Red Thrush, Iowa, Ginger Ella Tolliver conceived the idea of a Junior Country club to save the younger set from utter boredom. It was to be exclusive—no parents allowed, no babies. Accordingly, she arranged for the purchase of the Mill Rush farm, a 10-acre tract with an old house on it, and proceeded, with the assistance of her friends, to overhaul and furnish it.

Ginger was the daughter of a minister and the stepdaughter of a very wealthy woman, the former Phil Van Doorn, who was a tolerant person and a crazy about Ginger. One day, while the rehabilitation of the club house was going on, an artist called at the kitchen of the Tolliver home and offered to do a portrait in exchange for a meal. After he had shaved off his beard Ginger found to her surprise that he was good looking. He had studied in Paris and his name was Bard Holloway.

Ginger, who was never at a loss for ideas, thought it would be a good one if Bard remained for a while in Red Thrush, instead of wandering about the country like a hobnob. He could pick up some money painting portraits for families who would be flattered—especially if the Tollivers sponsored him. And he could do the mural decorations in the new club house, for Ginger was bound it would be a success.

So Ginger gets her stepmother, Phil, to invite him to stay with the Tollivers, but the artist demurs. He is a stranger, he says; it would be taking advantage. But Phil makes him accept.

**NOW GO ON WITH THE STORY**  
CHAPTER XII

"Oh, no," said Phil warmly. "You mustn't leave them here. You must take them in. We'll have a big tea some afternoon and show them—since Ginger feels that Red Thrush should have its portrait done. Be very careful with these, Hamill. Put them in the library and see that they do not get scratched in any way."

At Ginger's smirk of triumph she smiled kindly.

"I hope all your hoboos turn out as well, you naughty thing," she whispered.

"I'm terribly happy," interrupted Bard with a pleased laugh. "I don't know why—but I seem to have sort of got some place, if you know what I mean. As if I had found some one who belonged to me."

Ginger nodded her bright head. "I know just what you mean," she said. "I feel as if some one had just come home after a long and dangerous journey."

Phil cleared her throat deprecatingly. "You might just run the car over there in the corner out of the way," she said dryly. "Ginger has her own roadster, and can probably be persuaded to chauffeur you about while you are here."

"I hope so," he said. "I'm nearly out of gas."

When they followed Hamill to the house, with the last load, Phil, with Ginger at her heels, conducted him to the room designed for his use.

"I suggested this room," she explained. "I know the furniture in the best room is simply priceless and all that, but this view is better and a good artist should prefer view to value."

"This is just great," said Bard. "You are awfully good to me. You know, Mrs. Tolliver, I think I must have been very lonely. I didn't realize it, but I am sure I was because now I don't feel that way at all. I'll try not to stay too long—and I'll be on my very best behavior every minute. I won't wipe my feet on the guest towels, nor smudge crayon on the table linens—that sort of thing."

Phil smiled at him. "You're a nice boy," she said. "If you will just help me keep Ginger from being too bored for a while I shall be really grateful to you."

"Bored?" he gasped. "Here? With you? Oh, she couldn't be."

"As soon as you are ready," Ginger interrupted briskly, "you hurry right down. I want to take you out to Mill Rush to show you what I want done. We're in a great hurry to get it in shape."

When they had left him and were alone together Phil's voice, though kind, was gently firm. "You must take Patty with you, Ginger," she said.

"Oh, Phil. Then some one will have to sit in the rumble seat—and it's bound to be—"

"Be a nice Ginger and don't argue with your stepmother," said Phil. "Remember that he has lived abroad and is used to the Paris brand of conventions for Nice Women."

"He must be conventional! Latin Quarter and the Bohemia of Greenwich Village."

"If he has found the Latin Quarter any more Bohemian than a Methodist parsonage, he is an abandoned creature and would best be on his way. We're in a great hurry to get it in shape."

his feet out of his hands for so much as 10 minutes, his place was filled with a dozen scats—almost before his back was turned. If a painter abandoned paint and brush at the usual unica hour of five, inevitably after his return next morning he found the paint eroded of paint and the work—for which he was to have been paid by the hour—completed.

In the presence of 10 solid acres of ardent volunteers, the only way for an honest man to make a living was to work from daylight to dark and to eat with his instruments of labor under his feet. There was no waiting for the sun to shine at Mill Rush. Every time a paid laborer laid off, a dozen free substitutes leaped into the breach with a cry of joy.

The result was that when Ginger, who found that three congenial spirits could ride very comfortably indeed in the front seat of the Dido, introduced Bard Holloway to Mill Rush, she had good reason to be proud of her proprietorship.

The grounds were entirely cleared of dead brushwood, weeds and window blind debris. The wood lane leading from the highway was a pleasant winding drive free of treacherous ruts and tire-bruising stones. Early spring wild flowers and hardy grasses were springing up and every bough was curling into leaf.

The porches had been enlarged and re-enforced and were decked out like stage-sets in a variety of porch furniture garnered from a hundred homes, freshly stained a rugged, rustic brown, and upholstered with cretonne in orange and red.

The broken windows had been replaced, the shutters repaired and painted a deep ivory; the tennis court was ready for the net; swings were suspended from the hardest trees; chains were hung for the hammocks.

Three small garden plots had been spaded up and sown with seeds for early vegetables, each tract carefully lined and marked. Chickens were strutting cheerfully in their fenced enclosure, and on the jet of pastureland on the hillside a Jersey cow grazed in serene contentment that her declining days had fallen in pleasant places, and Mrs. Carter, the old mare, bore her dignified companionship.

Ginger unlocked the door with something of a flourish.

"Welcome," she cried heartily, "to Joie de Vivre a la Middle West."

The interior of the house was ready for occupancy except that some of the contributions of bedroom furniture had not yet been collected from the donors.

As Ginger said, "What you pay for, you get first," and having paid for the chairs and tables in the dining room, although she was not yet sure but it should be called the ballroom—it was fully furnished. There was an immense fireplace at each end, since two large rooms had been thrown together, and the tables were ranged along the walls with a carefully studied carelessness of effect, tables for two, for four, a few for six, and against the wall on the left, for the use of convivial club crowds, an imitation refectory table with benches, which could seat 20 without crowding.

Bard studied the large room with its handsomely paneled walls with great interest.

"I don't know," he said thoughtfully. "It is very nice as it is. Those pale walls with the black frames will make a stunning background for pretty living girls in brilliant gowns. Seems almost a shame to clutter up that soft tone with flamboyant modern stuff. Why not try it first with just one figure in each panel? And no queer birds and girls and that sort of tripe."

Why not alternate types? In one panel have a demure little Puritan going to church, then a French danseuse strutting her stuff? Maybe a pirate swinging his cutlass and after that a pilgrim sketch one figure like that in each panel, and then later on if we want to we can put one object in each panel as a background—a church for the Puritan, I suppose, a corner of Cafe de la Paix for her sister next door, a rakeship boat for the pirate and a strutting turkey back of Papa Pilgrim. That sort of thing. Wouldn't it be more unusual and more harmonious?"

Ginger professed herself willing to be pleased with anything and urged him to get to work immediately before something turned up to interfere with her wishes.

"And while you're doing it, Patty and I'll breeze around town in the Dido and gather up the rest of the donations that they are holding out on us."

Contests Are Diversions  
Circle 2, meeting at the home of Mrs. Edwin Vicars, enjoyed an afternoon of contests.

The business session, for which Mrs. J. G. Stroup, temporary chairman, presided, was opened with sentence prayers, and the following officers were elected: Mrs. W. H. Nichols, chairman; Mrs. J. L. Van Pelt, secretary-treasurer; Mrs. Horace McBee, voice agent; Mrs. Leo Hill, member of the courtesy committee; Mrs. M. M. Robinson, social service; Mrs. Siler Faulkner, flowers.

Members present were Mrs. O. H. Booth, Mrs. J. G. Stroup,

# KALLIO WINS OVER TEX IN PLA-MOR BOUT

## WATKINS TAKES FIRST FALL BUT FAILS IN NEXT TWO

Gus Kallio, the mighty Finn, won over Tex Watkins, the ex-pro, in two out of three falls in the main match at the Pla-Mor auditorium last night. Watkins won the first fall after 25 1-2 minutes of punishing holds and plenty of rolls and aerial trips about the ring. Watkins used a Boston grab hold to win the first fall.

Kallio used the self-strangle hold to win both the second and third falls, the second fall being won in 7 minutes, and the third in 16.

In the preliminaries, Hunter, the Tulsa Flash, 146 pounds, won over Kelly 149 pounds of Pampa, in three minutes. E. L. Brown, 146 pounds, and Red Michael, both of Pampa, wrestled to a draw in the ten minute limit.

The card last night was one that provided plenty of thrills for the fans. Kallio simply would not give up to Watkins and both men endured tremendous punishment. Kallio seemed to have no trouble in finishing Tex about the ring, and he came out of holds that seemed impossible to break, as well as applying a few of his own. The Boston grab hold that he used in winning the first fall, had the Finn absolutely helpless.

# PERRYTON WINNER OVER PAMPA TEAMS

PERRYTON, Jan. 29. (Special)—Perryton girls and boys basketball teams defeated the two teams from Pampa here tonight in rather one-sided games. The scores in the girls game was Perryton 33, Pampa 15; boys, Perryton 30, Pampa 10.

The Perryton coaches led the scoring in both games from the start to the finish.

Pampa teams left here tonight for Canadian where they will play Altus, Okla., there tomorrow night.

# Arkansas Solons Pass Relief Bill

LITTLE ROCK, Ark., Jan. 29. (AP)—The general assembly moved to aid Arkansas drought stricken farmers today.

The house passed a bill to provide \$15,000,000 to be loaned for feeding farm families and financing 1931 crops, and the senate exempted from taxation farm lands on which less than a 4 per cent return was made last year.

Identical bills were introduced in both houses to provide \$1,500,000 by the state to be loaned to agricultural credit corporations to provide capital stock, which would be pledged with the federal intermediate credit bank of St. Louis, for loans by farmers on which to plant and make crops the coming season.

# No More Piles

How to End Terrible Agony Without Salves or Cutting

External treatments cannot permanently end Piles. Nor does cutting remove the cause. The cause is internal—bad circulation of the blood in the lower bowel. The veins are flabby—the bowel walls are flabby—this is the most deadly, but curable, and safely rid yourself of piles an internal medicine must be used to heal and strengthen the affected parts.

Dr. J. S. Kumpner, specialist, after years of study discovered a real internal Pile remedy. He named his prescription HEM-ROD, and prescribed it for 1000 patients, with the marvelous record of success in 900 cases, and then decided every Pile sufferer should be able to get HEM-ROD from their own druggists.

Don't waste time on external remedies or think of the pain and expense of an operation until you have tried HEM-ROD. Fatherese Drug Company will supply you and guarantee money-back if it does not end all Pile misery. No. 4

# CHARGE PROSELYTING OF PLAYERS FOR ARMY

WASHINGTON, Jan. 29. (AP)—Charges that football authorities at West Point were proselyting pro-secting of football players have been laid before the war department by Representative Hamilton Fish, Republican, New York.

A thorough investigation into the activities of W. T. Wrightson, a member of the Army Athletic Commission and Paul Carroll, a cadet in connection with alleged efforts to have Kenneth Goff, star Rhode Island state football player, enter the academy, has been demanded by Fish.

Fish asked in a letter to General Douglas MacArthur, chief of staff, that Wrightson's name be stricken from the rolls of the Army Athletic Association.

# SHUTE-YOUNG PLACE FIRST IN OPEN VI

## COME IN SIX UNDER PAR TO LEAD IN GOLF TOURNAMENT

By GAYLE TALBOT, Jr., Associated Press Sports Writer  
SAN ANTONIO, Jan. 29. (AP)—Denny Shute, young Volubus Ohio professional, and Lorraine Young, 20-year-old San Antonio amateur, combined today to score a 65, six under par for the Brackenridge Park course, and placed first in the amateur-pro event, preliminary to the \$6,500 Texas open.

Shute and his youthful partner were even-up for the muddy 18 holes, each scoring a 71, even par, but they displayed some fine teamwork to lead the field by two strokes. Shute did his fancy work on the first nine here he had to 33, and Young came in with a 32 helping his professional partner on five holes. Between them, they registered seven three's on the last nine holes.

Four teams tied for second place with 67's. They were Sam Schneider, San Antonio professional and Lieut. Gus Shea, San Antonio amateur; John Golden, Stamford, Conn., and Byron Nelson, Fort Worth, Texas; Al Espinosa, Chicago, and Lieut. H. M. Turner, San Antonio; and Abe Espinosa and Jack Wood, San Marcos, Texas.

Victory in today's event was worth \$100 to Shute and a gold medal to his amateur partner, Young. The professionals in the four combinations tying at 67 divided \$125, representing second and third prizes.

Four teams finished with 69's, just out of the money. They were Frank Walsh, Chicago pro and Bud McKinley, Del Rio, Texas, amateur; Tom Lally, San Antonio, pro and Edgar O'Quinn, San Antonio; Edwin Jeneig, Houston, professional and Phil George, Liberty, Texas, pro and James Galt, New York.

A drizzling rain that had fallen for three days and kept many of the contestants indoors lapsed today. Prospects were for fair weather tomorrow, when the money-shooters will get away on the 72-hole grind for the capital prize. Eighteen holes are scheduled tomorrow, the same number Saturday and the final 36 Sunday. First prize will be \$1,500.

As a result of his fine showing today, Shute became an outstanding favorite to retain his Texas open title. Last year the middle-west star compiled a total of 277, seven strokes better than par, to lead the field. He displayed the same mastery of Brackenridge Park today.

# HARPER IS CHAMP IN BILLIARD TILT

CHICAGO, Jan. 29. (AP)—Robert B. Harper, Denver, defending champion, won the opening block in the national amateur three cushion challenge match against Dr. Andrew J. Harris, Chicago, today, 50-34, in 61 innings.

Harper gained an early lead and never was in danger. Harper's high run was for the Harris' five, star-cupped better than par, to lead the field. He displayed the same mastery of Brackenridge Park today.

# SCHOOLS WILL CUT OUT DRILL DURING SPRING

## GRIDIRON PRACTICE TO BE ELIMINATED BY EASTERN TEAMS

By FOSTER HAILEY, Associated Press Sports Writer  
NEW YORK, Jan. 29. (AP)—The trend of moderation, shown in football fields by coaches and graduate managers at their annual pow-wows in New York City during the Christmas holidays, already is bearing fruit in elimination of reduction of spring practice at many of the leading eastern colleges and universities.

Thirty-three colleges today were asked by the Associated Press as to their plans for spring practice. Thirteen continue the practice, although on a curtailed scale. Eleven plan no spring practice. Nine, including the Big Three—Harvard, Yale and Princeton—have come to no definite decision. Indications are, however, the Big Three and probably several other of the "undecided" list will not call out a football squad this spring.

The list of those that will continue spring practices includes the Naval Academy, Rutgers, Dartmouth, Cornell, Syracuse, Colgate, Pennsylvania, Washington and Jefferson, Dickinson, Penn State, Bucknell and Temple. Temple, however, will have only one week of drill and the program will be short at several other places.

The Military Academy, University of Delaware, Rider College, at Trenton, N. J., Haverford, Swarthmore, the University of Maryland, Pennsylvania Military, Allegheny, Carnegie Tech., Geneva, and Lafayette will issue no football equipment until next September. It's going to be a strictly "fall sport" at those institutions.

The old Big Three, as well as Columbia, New York University, Fordham, Brown, West Virginia and the University of Pennsylvania have no decision.

The very fact no spring practice has been announced at those institutions gives an indication as to which way the wind is blowing. Harvard is to make a definite decision on the matter Monday, with expectation spring drill will be called off. Yale will act at the board of control meeting Feb. 9, and Columbia and New York University early next month.

# Sport Slants

by ALAN GOULD - ASSOCIATED PRESS SPORTS EDITOR

There is no disagreement on the theory that Jack Dempsey, if he makes any first comeback at all, must try it this year, but there are at least two outstanding obstacles to the return of Old John.

The first is his own lack of an incentive, unless the big money lure is too substantial to resist.

The second is the lack of a promoter of the type of Tex Rickard, willing to take a gamble and shoot the works.

There are some other factors, such as the very important one as to whether Dempsey again can get into real fighting condition. For that matter, he rather thinks he could do so, but he admits that the vital urge to attempt another battle is largely missing.

The whole situation has changed so far as I am concerned," he said in a chat around the dinner table.

"When I was fighting for the championship, there was a real incentive. I took a great deal of pride in my ability to stick to the top line after an outdoor 'natural' Tully, I was convinced I could regain it in the next year.

"That's all over now. I don't like the idea of giving up for a lack of money. It is attractive and no doubt I could collect a chunk for a fight after an outdoor 'natural' Tully, I was convinced I could regain it in the next year.

"I can do pretty well without putting the gloves on. Then maybe in a few years I can settle down to some steady business."

In spite of the business depression that has hit the Madison Square Garden box-office a number of heavy wallops, the situation is ripe for an outdoor "natural" such as a return Dempsey-Sharkey match this year.

New York has been left and dry in the heavyweight shuffle so far for 1931, with Stribling and Schmeling slated to fight for the title somewhere in the mid-west, presumably Chicago, and the winner committed to meet Carnera later in the same locality.

Sharkey also is "out in the cold," despite the fact that the Three Dukes of the New York Boxing Commission consider him the No. 1 heavyweight.

The Madison Square Garden millionaires might recoup with Dempsey but they have been embroiled in their own troubles; increasingly so since the death of Tex Rickard. Until these are solved or unless there is a big shake-up, the chances are slim that an attempt will be made to regain control of the heavyweight situation, once so firmly dominated by Rickard.

# OBSERVE ANNIVERSARY

MEMPHIS, Texas, Jan. 29. (AP)—Mr. and Mrs. J. W. Wells of Memphis recently celebrated their sixty-fifth wedding anniversary. They have been residents of Memphis almost 30 years, and are the parents of J. Claude Wells, veteran newspaper man of the Panhandle.

# TO BUY COTTONSEED

CHILDRESS, Texas, Jan. 29. (AP)—The local Chamber of Commerce will buy 20,000 bushels of cottonseed for sale to Childress county farmers at cost. The large order will reduce the price considerably, chamber officials said.

Mrs. John Haggard underwent a major operation Wednesday at the Pampa hospital.

A. C. Sailer had a minor operation Wednesday at the Pampa hospital.

# WRESTLING CLASS TO MEET THIS AFTERNOON

Pampa high school boys who are interested in wrestling will have their third meeting at 3:30 o'clock this afternoon in the High School gymnasium.

John Fisher has been assisting B. O. Gordon, teacher of the class, in demonstrating holds and the defense for them. The class sessions Wednesday and Thursday were devoted to the elementary principles of the sport.

On account of the many students using the gymnasium, it is still uncertain as to the exact schedule of the class. Mr. Gordon is planning to have the use of a vacant classroom in the building on the east side of the campus for his class, if the room can be obtained.

C. A. Rodgers, Don Reno, and John Fisher, are the most likely jolking members of the class at present.

Boys who have definitely announced their intention to become members of the class, and their weights, are: John Pafford, 210; John Fisher, 156; Ed Burch, 170; Phillip Powell, 186; William Ragsdale, 160; Jim Pool, 170; H. L. Ledrick, 150; Max Marbaugh, 155; Earl Rogers, 140; C. A. Rodgers, 115; Don Reno, 140; Sam Keith, 137; John Kinkead, 120; Charles Hewitt, 165; Ivey Berry, 160; Bob Langdon, 145.

# MILLER TO BE HEAD COACH OF NAVY CREW

ANI APOLIS, Md., Jan. 29. (AP)—Edgar E. (Rip) Miller, all-American guard at Notre Dame in 1924 and line coach at the Naval Academy the past five years, will succeed Army Bill Ingram as head football coach. It was learned at the academy today.

Miller has been a member of the coaching staff at the academy since 1926, when Ingram first took over the grid reins and turned out an undefeated team. He came to the academy fresh from the Notre Dame outfit which made history in football world, being one of the line "mules" who made possible the record of the Four Horsemen of that year.

Naval Academy athletic officials would neither confirm nor deny that Miller had been selected for the vacancy created when Ingram signed a contract to become head coach at the University of California, but did say he would return to the academy as a coach.

A high athletic official said, however, that Miller had been agreed on, but that the formal announcement of the appointment would not be made for several days.

# BRITISH LIGHTWEIGHT IN NEW YORK FIGHT

NEW YORK, Jan. 29. (AP)—Jackie Kid Berg, crack British lightweight, tackle Herman Perlick, Kalamazoo, Mich., for the third time tomorrow night in the feature attraction at Madison Square Garden. Twice before, Berg has thrown the better half of a pair of fighting twins for a loss.

The match involves the trick junior welterweight championship which Berg won in England from Murray Callahan, Chicago, a couple of years ago. The title is not recognized in this state, but the boys are scheduled to weight 140 pounds, the class limit. Berg, with one match under his belt after a long vacation in England, is a prohibitive favorite.

# What Is Gum-Dipping?

**Gum-Dipping** is the Firestone trade name for that patented, basic process which makes Firestone Tires fundamentally different from all other tires. It is one of the reasons why Firestone, through many years, has easily been able to make good the statement: "Most miles per dollar." It is not something done to a tire after it is made. It is something very vital done before the tire is made.

**If cotton rubs** against cotton, the tire soon heats up and collapses. That is why the square-woven fabric tires were so short-lived. Then came the tires with parallel cords that could not saw each other. The best square-woven fabric tire would go scarcely four thousand miles.

**Eight pounds** of fine, pure rubber are, by the patented Gum-Dipping process, integrated into every one hundred pounds of cotton cords. This means three extra pounds of pure rubber added to an average set of tires—and added where it means most to the strength and the life of the tire. This extra rubber all goes into the cords of the tire—where you never see it.

**Why** does Firestone put in this extra value? And what does it mean to you? It means just this. The performance—the extra value—has been shown for years on the road and in the laboratory. It has been proved that Gum-Dipping:

—increases the flexing life of a cotton cord by 58%.

—increases tire life by from 25% to more than 40%, according to the severity of the service—the more severe the service, the higher the percentage.

**Firestone** Gum-Dipped Tires are not just tires. They are thirty years of organized experience. They are sold only through Firestone Service Dealers and Service Stores and only as Firestone Gum-Dipped Tires—bearing the Firestone name and bearing the Firestone emblem that appears on this page.

**Wherever you live—**city or country—a fresh and complete stock of Firestone products is near-by.

DEGRADING THE CAPITAL

There has just come to our desk one of the most dismaying little booklets that any American could see: a booklet issued by the American Nature Association, presenting a long series of photographs of the highway entrances to Washington, the American capital.

Washington is praised, with good reason, as one of the most beautiful cities in the world. It is a city that every American hopes to visit, if he has not done so already; a city which draws automobile tourists by the thousands every month in the year. Every American takes pride in its appearance.

But this little booklet provides an unpleasant shock. It shows that the highway approaches to the capital, far from being beautiful, as they should be, have been degraded and made ugly by some of the most blatant and inexcusable displays of billboards advertising seen anywhere in the country.

Hot dog stands, ramshackle filling stations, long rows of billboards, small signs tacked everywhere in helter-skelter profusion—these are the sights that greet the eyes of the motorists who enter Washington. In one suburb there is a lovely little war memorial at a fork in the roads—surrounded by 18 billboards, most of them put up since the memorial was built. The Lee highway from the south leads through a magnificent wooded section—and is lined with billboards for miles. The Rockville pike, another potentially charming highway, is dotted with innumerable signs. The Langley road, passing through charming rural scenery, has a similar quota of signs.

As the pamphlet says: "It is incredible that the principal highway approaches to the national capital of a people endowed with idealism and wealth should be permitted to remain repellingly ugly. Today most of the roads leading into Washington are narrow, with ill-kept roadsides, sometimes denuded of their native trees, seldom replanted, but bordered with unsightly billboards, large and small, with garish conglomerate collections of commercial buildings, peppered with miscellaneous advertising."

Such a condition is an outrage on the whole nation. There seems to be no remedy, at law; all each motorist can do is vow not to buy any products advertised in that manner. That might bring the advertisers to their senses.

About New York

By RICHARD MASSOCK NEW YORK—Theodore of the Ritz has gone Park avenue and now he's Theodore of the Ritz; Theodore's last name is Szarvas, but not many New Yorkers know that. Ncr do they know that he was Theodore II.

The first Theodore was surnamed Tize. He left to manage a restaurant and the hotel looked around among the available waiters in town for another headwaiter, with the name he had made famous.

It was publicly reported that the second Theodore was paid regularly by a number of wealthy men for the privilege of being recognized by him when they entered with their friends.

MANHATTANOTES Among the unemployed are 500 architects and architectural draftsmen, for whom the architect's emergency employment committee is trying to find relief. Of these, 130 are said by the committee to be in desperate need.

Aged Constable Resigns Office

WELLINGTON, Texas, Jan. 29. (AP)—Wellington voters didn't realize it, but M. L. Boss was getting too old for his job as constable. He did realize it, however, and resigned soon after he had been sworn in for the eleventh time.

PLAINVIEW, Jan. 29. (AP)—This city will be host to the annual convention of the Panhandle Press association April 17 and 18.

MENU for the FAMILY

By SISER MARY NEA Service Writer Since there are several types of food which are never so good as when they are cooked in deep fat, perhaps a few suggestions regarding this method of cooking will be helpful to home-makers.

The digestibility of fried foods has long been a much discussed question. There is no doubt but that fats of all kinds require a longer time for digestion than some other foodstuffs, but properly fried foods cooked in deep fat at the correct temperature do not absorb a large amount of fat and can be included in the diet of the healthy person without fear of digestive disorders.

The temperature of the fat in deep fat frying is of utmost importance. It is this that determines to a great degree the digestibility of the food. A correctly fried croquette or fritter or any other food does not "soak fat" if the temperature is carefully watched, but even if some fat is absorbed there is nothing particularly unwholesome about it, except its added richness, provided the fat was not overheated. It is the overheating of fat that makes fried foods harmful.

Vegetable Oils Preferred Any good clean fat or oil is suitable for deep fat frying and, if given proper care, can be used over and over again. Vegetable oils can usually be heated to a higher temperature without scorching than animal fats. For this reason some housekeepers prefer vegetable oils. However, drippings from roasting meats and other unsalted fats that accumulate from meats can be clarified and used.

To clarify fat, add sliced raw potatoes, washed but not pared, to cold fat. Heat very slowly and when the bubbling in the fat due to the water in the potatoes ceases and the potato slices are floating, remove from fire and strain through double thickness of cheesecloth. The fat should be strained through double cheesecloth each time it is used. This removes any particles of food or flour that have settled to the bottom of the frying kettle during cooking. Careful straining each time and an occasional clarifying keep the fat sweet and clear.

The use of a fat thermometer makes it possible to maintain an even and accurate temperature during the entire cooking process. This insures against fat scalded foods and over-heated fat. Fritters, doughnuts and uncooked mixtures generally are put into fat at a temperature of 370 degrees Fahrenheit. A temperature of 350 degrees should be maintained.

Croquettes and cooked mixtures such as fish cakes, as well as small fish and oysters, are cooked in fat heated to 390 degrees Fahrenheit.

Daily Menu BREAKFAST—Sliced bananas with cereal and cream, crisp broiled bacon, potatoes hashed in milk, graham muffins, milk, coffee. LUNCHEON—Creamed scallops in ramekins, carrot-cabbage-and-pepper salad, toasted muffins, stewed dried apricots, vanilla wafers, milk, tea. DINNER—Veal roast, stuffed onions, baked spinach, creamed salsify, chocolate bread pudding, milk, coffee.

MARKETS

WHEAT ADVANCES By JOHN P. BOUGHAN Associated Press Market Editor CHICAGO, Jan. 29. (AP)—Wheat advanced more than 2 1/2 cents a bushel today to the highest level in two weeks and held most of the gain.

Manchester cabled that there was a fair home demand for cloths but export trade was quieter. Despite the favorable cables, the market here pined 1 to 3 points down and continued to ease off in early trading and selling by ring traders until March dropped to 10.25 May to 10.50 and October to 10.97 down 4 to 5 points from the previous close.

Wheat closed irregular, varying from a shade lower to 2 cents up, corn at 1/2 to 1 1/2 gain, oats 1/2 to 3/4 advanced and provisions 5 to 35 cents down.

Laet estimates put export purchase of North American wheat at 2,750,000 bushels in the last 48 hours, mostly Canadian spring and durum. Sharp attention was given to reports of increasing dearth of moisture, much of the United States winter wheat belt having been practically without adequate rain for three months.

All deliveries of corn momentarily overdue yesterday's record low prices, unequalled since 1922, but gradually without adequate rain for three months. Winnipeg advices said southern Saskatchewan and Southern Alberta have had no snow all winter, and that dust blowing in many places covered the railway fences.

Cising indemnities: wheat May (bids) 81 1/2; July 62 1/2, 68 1/2; Corn: March 62 1/2, 64 1/2; May 64 1/2, 66 1/2; July 65 1/2, 67 1/2; Sept. (bids) 65 1/2.

CATTLE TRADE SLOW KANSAS CITY, Jan. 29. (AP)—(U. S. Dept. of Agr.)—Although eastern dressed beef markets reported a very slow demand with prices weak to lower, packers displayed moderate interest in the light to moderate supplies of killing cattle. Matured steers at Chicago and Kansas City cleared at 11.00. Short fed steers sold around 7.25-9.75. Bulk of stocker and feeder steers are selling from 6.50-8.50 with choice light yearling

MOB LYNCHES YOUNG FARMER WHO KILLED SIX IN ONE FAMILY

SCHAFFER, N. D., Jan. 29. (AP)—Reverting to the days before law and order came to the West, a mob from the old cow country where Theodore Roosevelt punched cattle in his youth, battered its way into the county jail here early today and lynched a 22-year-old farmer who had confessed slaying a family of six.

Secretly but swiftly the mob gathered at the jail about 1 a. m. and crashed its way into the slayer's cell. When the crowd disappeared, as swiftly and as silently as it had formed, Charles Bannon, youthful slayer of A. E. Haven family, was left hanging from a bridge over Cherry Creek, about a quarter of a mile from town, his neck was broken.

Apparently the mob came from nearby farms that once were a part of a great cattle country about 60 miles north of Medora, where Roosevelt rode the range in his early days, and pioneers frequently took the law into their own hands. None of the mob was recognized.

It was the twelfth lynching in the history of the state, seven white men, three Indians and a negro having fallen victims to mobs previously.

Young Bannon died pleading that his father, James F. Bannon, also held for the killings, be not harmed. The youth, in his confession had declared he alone was responsible for the Haven family massacre, which he said, occurred after a quarrel last February. The mob made no effort to molest the elder Bannon, but he was removed to Williston as a matter of precaution.

WINNIE COMES AS "LIFE OF PARTY"

"The Life of the Party" the latest Warner Brothers and Vitaphone comedy in natural color, which opens at the La Nora theater today, for a run of two days, marks the return of Winnie Lightner in her most hilarious role. The tomboy of the talkies outdoes even her own New York song plunger who decides to turn gold digger. She rides a superstitious horse, on a Havana racetrack—barely escapes jail—manages a sugar-daddy-hunt for a pal and falls in for no mean reward for herself.

Irene Delroy, the Broadway stage star who made her screen debut in "Nancy From Naples," depicts the role of a beautiful gold digger who is manager by Winnie on a straight 10 per cent basis. Jack Whiting, New York musical comedy star, is seen as the young millionaire whose timely gallantry saves the two girls from the police. Charles Judels, who will be remembered as the excitable hotel manager in "Oh Sallee Behave," is seen as the amorous diste-shop proprietor who follows Winnie and Irene to Havana to recover his stolen dresses.

Making his talking picture debut in "The Life of the Party," Charles Butterworth, the inimitable comedian, plays the role of a Kentucky horseman.
