

Mass Meeting Friday Morning to Outline Rail Action

PAMPA GIVEN 7 YEARS

MAYOR ASKS FIRMS TO BE REPRESENTED

Guarantee to Give Right-of-Way to Denver Road Must Be Made Before Work Will Begin.

COST ESTIMATED

Postponement for Year Is Likely If City Fails to Join Other Points Along 114-Mile Route.

Faced with the problem of obtaining right-of-way for the Childress-Pampa line of the Fort Worth and Denver railway within 10 days or seeing construction of the road postponed indefinitely, Pampa business men resolved yesterday afternoon to meet at the city auditorium Friday morning from 9:30 until 11:30 o'clock, all citizens will be given an opportunity to express their views regarding furnishing of the right-of-way.

In a mass meeting, proclaimed by Mayor D. W. Osborne to be held at the city auditorium Friday morning from 9:30 until 11:30 o'clock, all citizens will be given an opportunity to express their views regarding furnishing of the right-of-way.

Mayor Osborne, at the request of citizens who discussed the situation yesterday with Denver officials, requested "owners of the various places of business in the city to close them for the purpose of permitting all citizens to attend the meeting." Shoppers are asked to either buy their groceries before 9:30 or after 11:30 o'clock.

Need Guarantee Pampa business men expect to furnish the Denver with a guarantee to the right-of-way within 10 days. Judge Barwise said that other towns along the route will submit similar guarantees within that time. He estimated that actual construction would begin the middle of August if facilities are provided. Mr. Barwise said 70 per cent of the line's total cost would be expended for labor employed in the various communities. "We plan to use local labor and teams when possible. Our plan is to scatter sub-contract development in mailing contracts securing bids for the work will be asked to employ local labor."

In his proclamation, Mayor Osborne stated that the mass meeting was being called because "it is to the mutual benefit of all citizens and persons owning property within the city of Pampa and is for the best interest of the city that construction of such railroad be commenced at the earliest date possible."

Tariff Is Issue On Its Birthday

WASHINGTON, June 17. (AP)—Its first birthday finds the Hawley-Smoot tariff a lusterful political issue promising more robustness with the approach of the 1932 presidential race.

It was a year ago today that President Hoover signed the bill over which congress had labored 18 months. Two days earlier he had announced his approval with the statement: "No tariff bill has ever been enacted or ever will be enacted under the present system that will be perfect. x x x x x It is bound to contain some inequalities and inequitable compromises. There are items upon which duties will prove too high and others upon which duties will prove too low."

Since he signed the bill, President Hoover has approved eight recommendations from the commission for decreased rates, three for increases and five to leave the congressional figures unchanged. Three proposals for lower rates he returned without approval for new investigations. The commission has about half completed work on 47 inquiries ordered by the senate covering 86 items.

Since the enactment of the Hawley-Smoot law, many foreign countries have made tariff adjustments mostly upward.

Lone Robber Holds Up Farmers' Bank at Orlando, Okla., Taking \$600—President Shoots at Him

GUTHRIE, Okla., June 17. (AP)—Two men were arrested today in connection with the robbery this morning of the Farmers bank at Orlando. The approximately \$995 loot was recovered, the officers said.

ORLANDO, Okla., June 17. (AP)—A robber today obtained between \$600 and \$900 from the Farmers bank here and escaped. The bank president fired at him.

The man, alone in a small motor car, drove southward out of town. J. E. Schaffer, bank president, said he pierced the motor car with one bullet.

Others in the bank at the time of the robbery were Miss Ruth Goe, bookkeeper, and two customers, Thomas Finnell and D. L. Meagher. The robber apparently started to force them to enter the vault, the president said, but became alarmed and fled.

Fire Insurance Survey Here Will Last Six Weeks, Inspector Says

In preparation for the promulgation of a new schedule of fire insurance rates for Pampa, representatives of the Texas fire insurance department will be here for about the next six weeks, Eugene Smith, in charge of the state group, said today.

For the last few days the fire insurance rate inspectors have been completing their survey of Kingsmill and arranging their maps and files preparatory to inspecting buildings in Pampa.

State on Deficiency Basis But to Come Out of Red Temporarily

AUSTIN, June 17. (AP)—Outstanding warrants issued against the general revenue fund today totaled \$967,000, the treasury department announced. Payment of warrants issued on general revenue funds was stopped yesterday and the state went on a deficiency basis.

Treasurer, yesterday estimated the deficit would total between \$3,500,000 and \$4,000,000 by Sept. 1, and that the state would be on deficiency until the bulk of the tax money started pouring in next January.

Calls for warrants will be issued whenever there is sufficient money in the treasury, officials said. Receipts from the cigarette tax and sundry receipts will be used to pay off warrants drawn on the general revenues.

"Miss Universe," Belgium's Entry at Galveston, Weeps After Triumph

GALVESTON, June 17. (AP)—A 17-year-old girl who has courage enough to fly an airplane broke down before the acclaim that came to her last night when she was selected "Miss Universe" in the 12th annual International Beauty pageant.

Tired, perhaps, from the almost endless parade she and her fellow contenders had made before the judges and spectators, Miss Belgium, black-haired Netta Duchateau, all but swooned when the beauty crown was placed on her head. She left the stage, clasped her chap-erone in her arms, and began weeping.

All efforts to calm her were unavailing, for the time being, and she was taken immediately to her hotel. The typical modern girl, athletic, blond Miss United States, Miss Anne Lee Patterson of Ludlow, Ky., went down in defeat before the old world brunette.

The judges conferred almost endlessly, and seemed to have had a hard time agreeing. Their choice is five feet 6 3/4 inches tall and weighs 127 pounds, considerably bigger than Miss United States.

Miss Belgium cannot speak English but her chaperone, whose di-rection itself is difficult, said the girl had been graduated from high school last year and had a pilot's license. How frequently she flew could not be learned.

A stage contract, and perhaps a chance at the movies awaits Miss Duchateau, the first foreign girl to win the pageant since 1929.

Miss Universe won \$2,500 and a silver plaque; Miss United States \$900.

Miss Memphis, Tenn., black-haired Lena Thomas, hotel boss, took third prize of \$300; Miss Germany, Daisy Freiberg, said to be a bar-onesse, fourth prize of \$150, and Miss Atlanta, Ga., Pat Hill, brown-haired and tall, fifth prize of \$100.

Farm Woman Is Lightning Victim ABILENE, June 17. (AP)—Mrs. Jack Shannon, 31, was killed by lightning today as she was opening a wire gate on her husband's farm one mile north of Hawley, near here. Rain was not falling at the time, and Shannon, who was plowing about 60 yards away, was not aware of the tragedy until, rounding a turn, he saw his wife crumpled be-side the gate. Bursts of rain fol-lowed.

INCREASE OF 15 PER CENT IS REQUESTED

Immediate Approval of Plan Is Urged to Stabilize Bonds of Companies; Profits Decline

DANGER IS SEEN

Source of Funds for Building New Lines May Dry Up If Roads Cannot Make Reasonable Earnings.

WASHINGTON, June 17. (AP)—The railroads of the United States today presented to the Interstate Commerce Commission their petition for a 15 per cent increase in freight rates as a means of meeting the emergency caused by the drastic decline in operating revenues.

Last Thursday the executives of eastern, western, and southern roads meeting in New York City, finally decided to request the blanket in-crease designed to yield annually \$400,000,000 in additional gross in-come.

As evidence of their desire for assistance without undue delay, the carriers recommended that the com-mission's investigation of their ap-plication be of a "limited charac-ter" for the purpose of determining whether the new schedule should be allowed to become effective without the 90-day suspension usually or-dered when rate revisions are made.

Even if this procedure is fol-lowed, it is unofficially pointed out, it probably will be early autumn be-fore the necessary hearings can be completed and a decision reached.

"An Emergency" The brief, asserting that the roads were "confronted with an emergen-cy threatening serious impairment of their financial resources and their capacity to assure the public a continuance of efficient and ade-quate service," said the increased revenues would yield an annual rail-way net operating income equal to less than four per cent on the value of their property. The fair return prescribed by law is 5.75 per cent, but during the first four months of this year, the application said, the return had fallen to a basis of 2 1/4 per cent from the class-one carriers.

The brief emphasized the danger of an impaired credit position and its effect on railroad securities, espe-cially bonds. If the roads were getting a fair return, it said, "rail-way securities which are now ap-propiate for insurance, savings banks, and trust investments would continue to maintain that status."

The petition recalled that the roads had clung to their policy, an-nounced late in 1929, of continuing a normal program of expenditures "as long as it could be justified from the standpoint of the trust reposed by the railroad security holders in the management of the carriers who were administering property which, though devoted to public use, is nev-ertheless private property."

Concerning wages, the brief stated that the railroad executives had concluded that "if that question must be met and dealt with, it must be at a later stage."

Truck Problem Complex The problem of motor truck com-petition is "one of great complexity and detail," the brief declared, and "no program dealing comprehensi-vely with this feature of the situa-tion can be worked out now."

"It is not possible to make a re-liable estimate of the amount of railway traffic which is now sub-ject to motor truck competition un-der existing railway freight rates," and still less possible to make a re-liable estimate of the extent to which the roads could be expected to lose business.

The road-builders pointed out that it required \$5,000 for any paving company to move into any new ter-ritory, and that his company could save the county that amount on the bid if the county should decide to pave the road soon.

Dalhart Inventor Patents Valve of Drastic Design

DALHART, June 17. (Special)—Earl W. Griffith, 23, son of Mr. and Mrs. W. L. Griffith of Dalhart, has perfected a rotary valve for motors that promises to revolutionize man-ufacture and operation of the American motor car. It has been patented and Mr. Griffith has been literally swamped with offers from brokers and others who have ex-aminied the blueprints and specifi-cations of the invention at Wash-ington, D. C.

It will eliminate the ordinary type of valves, valve tappets, springs and keep virtually all noise out of the motor, Mr. Griffith says.

Hoover Honors Two Presidents and G. A. R.

With the dedication of the tombs of two former presidents, an address before Indiana editors and a review of the G. A. R. reunion parade, President Hoover is having a busy June. Going first to Indianapolis, Mr. Hoover addressed the Indiana Republican Editorial association there on the night of June 15; the following day he dedicated the Harding Memorial, above, at Marion, Ohio, and also reviewed the internal revenue division of the internal revenue department at Springfield, Ill. Originally dedicated by President Grant in 1874, Mr. Hoover and a line of Civil War heroes like those whom he honored at Columbus, are also shown here.

Phillips Comes Back As Buyer In This Field

Phillips Petroleum company today announced its return to the purchasing field in the Panhandle through its buying agency, the Philtex company.

Notices have been posted in Gray and Hutchinson counties that it will buy 5,000 barrels of oil daily for the Phillips refinery at Borger. It is understood that depletion of gasoline stocks compelled the company to re-enter the purchasing field. It was also learned that Phillips has established new gasoline markets in the Great Lakes area and northern states of the Middle West. Gasoline made by Phillips in Gray and Hutchinson counties is piped to St. Louis. The new markets will be served by pipeline and by train, it was said.

H. J. Corcoran, proration umpire here, said that "it would be a fine thing" if the Philtex does re-enter the purchasing field. He had not been informed of the company's in-tention this morning. "The Pan-handle situation would clear up greatly if the Philtex should take 5,000 barrels," he said.

An unconfirmed announcement that certain purchasing companies in Gray county are paying a premium for crude oil in Gray county was also made today. Mr. Corcoran said that he had heard similar reports but had no information regarding the truth of them.

Optimists who declared that the premium is being paid expressed confidence that the Panhandle is due for a raise in the price of oil in the near future. It was said that stocks of "bootleg" oil which have depressed the market in the Pan-handle have been disposed of, and the demand for oil is increasing.

Worth of Members Stressed at Rotary

"The accomplishments of your club in your community will be measured by the worthwhile activi-ties of the individual members," John Sturgeon told members of the Rotary club today. He talked on the outsider's impression of the Rotary club and its members, in a program arranged by Frank Keim. Philip Bond, Neil McCullough, and Lynn Boyd made talks on the ac-tivity of the club and its accom-plishments.

ENTERS PLEA OF GUILTY IN MASK TRIAL

Jury Deliberates 5 Minutes Before Returning Verdict; Kidnaping Case Involved at Corsicana.

CERF SATISFIED

Charge of Robbery With Firearms Still Pending at Dallas—Others To Be Tried Soon.

CORSICANA, June 17. (AP)—Jimmie Nash, Corsicana youth, today was given a seven-year pen-ten-tary sentence by a jury which convicted him of assault upon a person while masked or in dis-guise. He was indicted with four other men in connection with the abduction and \$15,000 ransoming of Robert Cerf, son of a Corsicana bank president.

Norris Lovett, defense attorney, entered a plea of guilty for young Nash and the jury was selected from the jury panel for the week without argument by attorneys.

Cleo G. Miller, criminal district attorney, then read the indictment to the jury, after which Nash was asked to stand. When questioned by District Judge Hawkins Scarborough he said his plea of guilty was voluntary and of his own free will.

Isaac N. Cerf, president of the State National bank of Corsicana and father of Robert Cerf, the kidnaping victim, was called as a witness and related details of events which occurred on the night of the kidnaping.

The jury deliberated less than five minutes after the case was sub-mitted and returned a verdict of seven years imprisonment. Judge Scarborough pronounced the sentence.

District Attorney Miller read a confession made by Nash and recom-mended to the jury that the state and the Cerf family would be satisfied with the seven-year penalty.

Young Nash's wife and his par-ents, Mr. and Mrs. C. S. Nash, and his brother, Doyle Nash, the latter indicted in connection with the same case, were in the courtroom this morning. The indictments against Doyle Nash were dismissed upon recommendation of the county attorney, prior to the trial of Currie Caldwell, first of the five men indicted to be tried. Caldwell was convicted and given a 12-year sentence.

Charles of robbery with firearms still are pending in Dallas county against Jimmie and Doyle Nash and Oliver Clapp, another of the quiet indicted here.

Lubbock Real Estate Man Kills Self With Gun

LUBBOCK, June 17. (AP)—A bullet hole bored in the right temple and a pistol clamped in the right hand, the body of Guy U. Davis, about 40, real estate operator and former apartment house operator, was found in his room at a rooming house here this morning.

Justice of the Peace H. K. Porter, following a joint investigation with County Attorney Vaughn Wil-son, returned a verdict that Davis was "killed by a self-inflicted pistol shot some time after midnight."

R. J. Williams, owner of the house at which Davis roomed, found the body when he went to Davis' room to deliver a message. The nature of the message was not learned.

Investigators found no letter which they believed would indicate a motive for the shooting. Five one-dollar bills were found in the room.

Davis' widow, operator of a camp at Ruidoso, N. M., filed suit for divorce last year, but no court action had been taken on the petition.

Food Complaints Invited By City

Complaints of tainted meats or spoiled eggs being sold should be filed with the city health service immediately upon purchase. Dr. T. J. Worrell, city health officer, an-nounced today.

Although several rumors of tainted meats being sold within the city have reached Dr. Worrell, no com-plaints have been filed with the city health service. The sale of tainted meats or spoiled eggs is a violation of the law and violators in Pampa will be prosecuted to the fullest extent of the statute, Dr. Worrell stated.

Some FEMININE Fancies

By HOLLYCE SELLERS HINKLE

Informality of a church entertainment makes this form of social life one of the most pleasant during the warm months.

The writer of this column went to the Christian council banquet last evening and was flattered with an invitation to sit at one of the tables of honored guests.

All tables were beautifully florid. From the number of garden flowers seen on those tables, it looks as if Pampa should have an outstanding exhibition in the flower department of the fair next fall.

In the process of conversation we learned:

That Mrs. L. K. Stout painted literally tubs of Easter eggs when she was a little girl. The deviled eggs reminded her of the fact.

That Mrs. Mabel Davis was quite fond of deviled eggs. She enjoyed snuffing eggs after eating her deviled course.

That when Mrs. Davis set the example, it was learned that deviled were favorites of a number of others at the table. Also that Mrs. Davis was much admired in her green crepe suit, with shoes and hat to match.

That Mrs. John Beverly still remembered the church wagon breakfast given at the state meeting of Business and Professional Women's clubs in Amarillo.

That Mrs. Paul Kaschke was enthused over the bridge tournament that will be sponsored soon by the A. A. U. W.

That the Rev. F. W. O'Malley is an Irishman.

Rev. O'Malley was the only man in attendance. He explained it thus:

"In a gathering of American Beauty roses, it is only appropriate that a Wild Irish rose should be in the midst."

Again with apologies to the Rev. O'Malley:

"Once a young girl who had done office work all her life married a man whose mother was a good cook. She was determined to bake him a cake like his mother made."

"When the husband came home from work he found his bride sobbing 'I baked you a cake.'"

"Why that's nothing to cry about, darling."

"But the cat ate it."

"Don't worry, dear. I'll buy you another cat!"

The Wayside club met yesterday at the home of Mrs. Will M. Jackson at 2:30 o'clock.

A lesson on parliamentary law was studied and plans for the club's exhibits were made.

Refreshments of ice cream and cake were served to Mesdames H. H. Isbell, Tom Clayton, W. L. Herndon Jr., E. McJunkin, E. A. Shackleton, Ed Seitz, W. Benton, Earl Thomas, and four visitors.

Insurgents Gather Armies for Attack

HONGKONG, June 17. (AP)—The insurgent government at Canton mustered its armies in Kwangtung and Kwangsi provinces today to repel the expected attack by 200,000 nationalist government troops and the swarm of réds which President Chiang Kai-shek announced he would drive from devastated Kwangsi and Hunan provinces.

Canton's huge population feared Chiang's asserted campaign to eradicate réds and bandits as but a covering movement for a drive upon the armies of the insurgent government demanding his downfall.

Another blow was aimed at the Cantonese government by Fen. Chen Ming-shu, ousted nationalist governor of Canton who returned from Japan a few days ago to plague the wipers of his office. As price for his support of his two divisions of troops in Kwangsi, Chen was reported to have demanded restoration of offices previously held by him and his friends, and the rearming of his five "peace preservation" regiments in Canton.

Dancing and bridge furnished diversion for the guests and punch was served throughout the evening.

Those attending were: Misses Billie Burton of Littlefield, Viola Haggard, Egan Jones, Oetha Jones, Catherine Benson, Ruth Wakeman, Lorene Nicholson, Dahl Campbell, Myrtle Ethel Seeds, Ouida Chappell, Anne Clayton, and Messrs. Arthur Seeds, Raymond Taylor, Vernon Lawrence, Walter Johnson, Tex Berry, Paul Sharp, Hal Wakeman, James and Glick Smith, Alie Barnett, Bill Barnett, Billie Hyde, George Glover, Webster Russell of Breckenridge, Jack Foster, Russell Kennedy, Max Marbaugh, Olin Bernard, Dick Benton, Don Saulsbury, Tom Clayton, the hostess and the honoree.

LEAGUE GROUP GIVEN PICNIC

Twenty-five young people, members of the H-league, First Methodist church, met at the church at 5:30 o'clock yesterday afternoon and went in automobiles to the McConnell pasture near Pampa for a picnic.

The evening was spent in playing lively games, and an elaborate picnic supper was spread.

JALWART TEXAN HAS BIG SHARE IN NAVY'S VICTORY

SHERMAN BOY RELATES HOW UPSET MADE

Unexpected Stamina Left Big Cornell Crew Behind on Hudson River.

POUGHKEEPSIE, N. Y., June 17. (P)—Unexpectedly, the Navy ruled the intercollegiate seas today with a lapse of a half dozen years.

When nine eight-oared crews started in heavy rain in the climax race of the intercollegiate regatta last evening, the Naval academy's stalwarts were just a boatload of strong back young men, going nowhere in particular so far as the experts and most of the crowd were concerned.

Less than 20 minutes later, this same boatload was acclaimed the victor in the classic four-mile varsity race down the Hudson as it handed a clean-cut beating to the heavily-favored Cornell crew, defending champion.

Whether it was just the Navy's day in sudden return to form or the result of a switch that sent Raymond P. Hunter of Sherman, Tex., to the stroking position for the first time in his competitive career, these midshipmen rowed like champions.

Their time was 18 minutes, 54.1-5 seconds, the third fastest time ever registered on the Hudson for the four-mile route.

"Made Up Minds" POUGHKEEPSIE, N. Y., June 17. (P)—There was nothing to it, if you listen to Raymond P. Hunter, husky product of Sherman, Tex., who stroked Navy's shell to a surprising victory over eight of the strongest crews in the land on the rainswept Hudson.

"All we did was make up our mind to beat Cornell, and when we did that there wasn't anything left to do," said the handsome six-footer who was elevated to stroke by Coach "Old Dick" Glendon only a fortnight ago.

"I just sat there and watched Cornell out of the tail of my eye, and when I saw they couldn't overhaul us I knew we had it. We didn't worry about Washington and the rest."

"You know, the coach must not have thought much of our chances. He left us long before the race started and he saw it all from the observation train. He even let us select the shell we wanted to use. I guess he must be pretty happy."

What was the secret of the Midshipmen's showing in the "big" event after they had taken several likings in shorter races? Had they been "laying back" and concentrating on the Poughkeepsie?

Men Very Calm "Not at all," said the big Texan. "We've been doing our level best all year, but we just couldn't get going right until today. We went out there determined to come through for coach, and every man in the boat had it in mind as he went down the river. Every man was calm from start to finish, just rowing his best."

"For the first two miles we didn't strain ourselves, about 32 strokes to the minute and keeping Cornell back of us. Then when they stepped up their stroke, we went up to about 34 and held that to the three-mile mark."

"We could hear the Cornell coxswain telling his men that we wouldn't hold it, that we would tire in the last mile and they would pass us. We answered that by putting our beat up to 35 or 36 for the next half mile and then showing it to 38 or 39 for the last half. We could have gone higher than that if we had needed to, but by that time we were out in front and knew they couldn't overhaul us."

"It was a great feeling when we slipped past the finish line. We've thought we had a good crew for the last two years, but we were licked in 1929 and swamped last year. This was the last chance for five of us and, boy, are we happy?"

Co-Ed Is Threat to Mrs. Hill At St. Louis Meet

ST. LOUIS COUNTRY CLUB, June 17. (P)—A new threat against the aspirations of Mrs. O. S. Hill to regain the Trans-Mississippi championship she lost by default to Mrs. Hubert S. Clarke of Oklahoma City, has been advanced by Lucille Robinson of Des Moines, a Drake university co-ed.

Shooting long and accurately, Miss Robinson played 11 holes in par yesterday in defeating Mrs. C. G. Gaffney of Little Rock, 9 and 7. Miss Robinson's second round opponent today in the fifth annual Trans-Mississippi tournament was Mrs. Perry Flisk of DeKalb, Ill., former women's western champion.

The 19-year-old Iowa girl's game yesterday ranked her as a favorite to represent the upper bracket in the finals, although that group includes Mrs. Clarke, the defending champion; Ann Webster of Leavenworth, Kansas champion; and Betty Bruen of Kansas City.

BEAUMONT IS STILL TOPPING HER LEAGUE

Bridegroom Dean Loses Game He Promised Wife as Wedding Present.

By BILL PARKER
Associated Press Sports Writer.
Beaumont retained the Texas league pennant lead Tuesday afternoon by lacing Wichita Falls 4 to 3.

Not only did the win keep the Exporters and first place intact, but it also registered his eighth win this season against two defeats. Hamlin allowed five hits, two of them going beyond the wall for home runs by Bud Hurling and Bochy Koch. It was a day of miserable fielding for both clubs, each finishing the game with five errors.

San Antonio refused to leave the warmth Tuesday night at the Alamogordo city, they won their twelfth victory in their last thirteen starts, whipping Shreveport, 8 to 5. The Sports committed five errors which overshadowed their ten hits. Moore, the big Indian hurler, went the route for the Indians.

Jerome "Dizzy" Dean, who joined the bridegroom league Monday, went after his eleventh victory Tuesday night at Houston against Fort Worth. Dean had promised his bride a win over the Cats as a baseball wedding present, but he was defeated 4 to 3. Dean started by holding the Cats in check for six scoreless innings, but he weakened in the seventh for the Cats' first run, and in the first of the ninth "Dizzy" got plastered over the ball lot for three runs. Houston outdid the Cats 9 to 7 and played perfect ball behind Dean while the Cats bobbled three chances behind the jitching of Dick McCabe.

A good ball club is duty bound to get a winning break along the rough pennant road, and Tuesday night at Galveston, Dallas got a big break in the second inning when they stored six runs to beat Galveston 7 to 4. Lefty Minogue and Lou Garland hurried for the Steers and made the Buccaneers walk the plank with four hits.

Cleburne Tourney Develops Upset As Moreland Is Beaten

CLEBURNE, June 17. (P)—The semi-final rounds of the Cleburne Country club's third annual invitation tournament were reached today with J. E. Shive of Waxahachie, who upset the dope yesterday by vanquishing young Gus Moreland, consistently picked to win the championship paired with Madison Reed of Fort Worth, who eliminated Jimmie Phillips of Ranger.

Billie Spencer of Dallas was scheduled to meet Bug McKinney of Del Rio in the opening round of the semi-finals.

Moreland, winner of the 1930 Cleburne Country club tourney, lost to Shive, one up in 19 holes in the second round. Moreland had advanced to the quarter finals early yesterday by turning back Lee Battle of Cleburne. Shive at the same time was eliminating Woodrow Robinson of Stephenville.

BY ALAN GOULD

I talked with Stanford's coach, Dink Templeton, the day he decided to take the wraps off his Twenty Grand of the collegiate cinders. Ben Eastman, and turn him loose for the east to rave about.

"I've had my fingers crossed all morning," Dink readily admitted. "I don't know what Ben will do out here. I've brought too many good middle distance runners back east and had them disappoint me to be sure what will happen."

"But Big Ben can run, when he is right. Don't make any mistake about that. I'm not kidding you when I say this boy is the greatest I have ever seen."

After Eastman forced W. Williams of U. S. C. to a world's record quarter-mile and then returned 55 minutes later to breeze a winning half mile in 1:54.4, the critical eastern boys were ready to take Dink's words literally and add a few embellishments of their own.

For sheer beauty of style and as a half-miler I would not class Eastman with the great Englishman, Douglas G. A. Lowe, the nearest thing to poetry of motion that modern tracks have known, not excepting the well known Paavo Nurmi.

However, Eastman has the stuff to be unbeatable at the 440 and 880 for his next two years of college competition. He is better now than Ted Meredith was when the famous Penn flier was a sophomore.

Meredith won the I. C. A. A. A. 440 in his first varsity season in 1924. Eastman did his trial heat under heavy wraps in 48.3 and was at least 47.8 as he forced Williams to hit the tape in the final in 47.4, equaling the mark Meredith set at Cambridge in his senior year.

Just A Kid
Big Ben is just a gangling kid now, with great natural equipment, a big shock of sandy hair and a modest disposition. Not even his college mates can make him think he has done anything out of the ordinary. He likes to run, but has considerable to learn yet about pace.

Williams is more of the greyhound type, with greater experience than Eastman and a terrific finishing "kick". These two ought to restore your Uncle Samuel's supremacy in the Olympic middle distance races in 1932, something your uncle has not enjoyed since Reidpath won the 440 and Meredith the 880 at Stockholm in 1912.

The east yielded middle distance honors to these far western fliers in the history of the 55-year-old I. C. A. A. A. games. Hendrix of California twice won the 440 in 1920-21, but Eastman was the first coast runner to break through the old guard's phalanx in the 880.

De La Fuente appeared with the Indians last night during the Shreveport game.

List of Favorites Is Still Intact at Chicago Tourney

CHICAGO, June 17. (P)—The list of favorites was intact today as the singles of the western lawn tennis championships went into its third day.

Marcel Rainville of Montreal, Canadian Davis cup player, won his only match yesterday from Dr. Lars Ljungroot of Chicago, 6-2, 6-0, and Harris Coggeshall of Des Moines, defending champion, defeated John Bauman, another Chicagoan, 6-3, 7-5, to remain in the running.

Scott Rexinger of Chicago, Big Ten singles champion, won his third rounder from Colbert Sheldon, Chicago, 6-4, 2-6, 6-4, and H. L. Bowman, New Jersey, metropolitan champion, moved up by defeating Stanley Drake, Chicago, 6-1, 6-2.

YESTERDAY'S STARS

By The Associated Press
Dave Harris, Senators—Tripled in ninth with bases filled to tie score and scored winning run on error against Browns, 11-10.

George Watkins and Frank Priebe, Cardinals—Hit homers in ninth to beat Phillies, 2-1.

That's a difficult question to answer, but I think the best one I can give you is my opinion that he has not yet reached the limit of his ability."

Former Longhorn Is With Indians Now

SAN ANTONIO, June 17. (P)—Mike De La Fuente, former longhorn, ace of the 1930 and 1931 University of Texas Longhorns, was with the San Antonio Indians today.

Manager Robertson will decide within the next five days if the crafty Del Rio possesses the stuff necessary to put him over in the Texas league.

HOME CLUBS HAVE BETTER OF CONTESTS

Senators Have Close Call But Win Fourteenth Tilt Out of Fifteen

By HUGH S. FULLERON JR., Associated Press Sports Writer.

In the round of inter-sectional games which is coming to a close in the big leagues, the clubs of the two home sectors have far outshone the visitors. With a few games left for today before the scenes of activity shift, the eastern clubs of the American league have turned in 36 victories against 15 for the western invaders. In the National league, the visiting teams from the East have won 23 games since the series started June 1 while the west has recorded 32 triumphs.

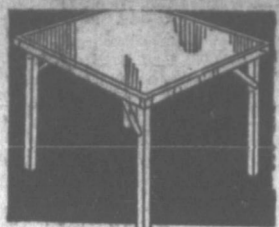

Washington has far outdone all rivals, winning 14 games out of 15. The Senators had a narrow escape yesterday when they handed St. Louis a nine-run lead in the first three innings, but they slowly cut down the margin and finally won out 11 to 10. All the other American league games were rained out yesterday.

The league leading St. Louis Cardinals took first place for the National league's east-west round yesterday by beating the Phillies 2-1 in a battle that combined fine pitching with home runs. Up to the ninth inning

NOTICE TO THE PUBLIC

Any erroneous reflection upon the character, standing, or reputation of any individual, firm, concern or corporation that may appear in the columns of the Pampa Daily News will be gladly corrected when called to the attention of the editor. It is not the intention of this newspaper to injure any individual, firm or corporation, and corrections will be made, when warranted, as prominently as was the wrongfully published reference or article.

LET'S CLINCH THAT ROAD NOW!

Pampa needs to be "annexed to Texas" through construction of a line from this city to Childress, affording a connection with rail systems in the central portion of the state.

The importance of this direct route is, under existing conditions, tremendous. A city does not stand still; it either moves forward or tends toward retardation. There is no doubt but that construction of the line would relieve unemployment greatly, raise property values throughout the county, and spur general development.

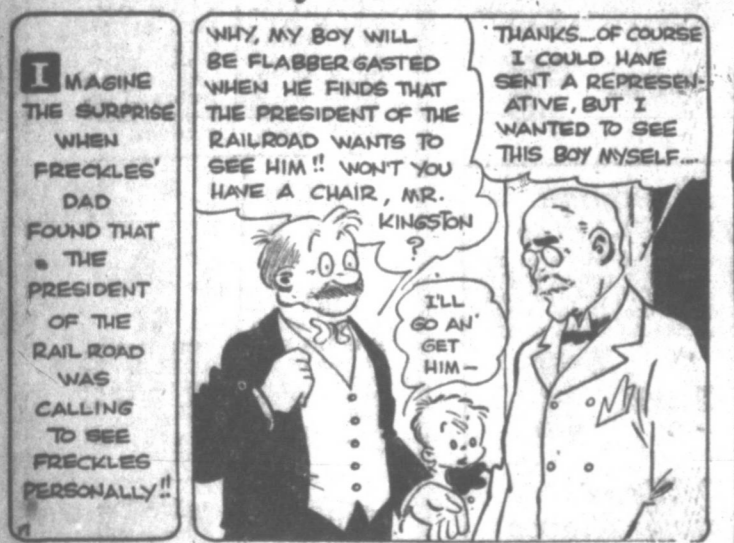

The time to build is NOW. Railroads are hard hit. They are asking for a 15 per cent increase in freight rates in order to wipe out danger of deficits. It is fortunate for Pampa that a strong system like the Burlington is ready to penetrate this area.

If there is no doubt as to the desirability—the imperative necessity—of the proposed line, then citizens must unite in taking steps necessary to start construction. Pampa has waged a long and brilliant fight for the line. The writer has been in close touch with those seeking the I. C. C. permit and he also knows how citizens generally have been "on pins and needles" awaiting news of the Washington decision. When favorable action was taken, THE NEWS issued an extra which was eagerly bought throughout the community.

It was shown clearly that Pampans never quit fighting. We cannot afford to quit now. Let's attend the mass meeting Friday morning and clinch the new railroad while the time is ripe and the opportunity here. Delay would likely prove very costly, and certainly the risk is too great. PAMPA MUST GET THAT NEW RAILROAD NOW!

California Has Climate Suitable For Golf Playing

The California climate, not precisely known to fame, seems to exert a vivifying influence on the performance of golfers far enough from the first blush of youth to be in halting distance of three-score-and-ten, and even past it.

While attending the final match of the Southern California amateur championship I talked with Daris L. Daris about the recent British amateur championship, won by a young collegian (or university man) named Smith.

ONE MORE GIRL

BEHIN HERE TODAY Beryl Borden, secretly in love with Tommy Wilson, delays his elopement with her half-sister, Irene Everett, but fails to convince him that it is his duty to finish college.

She secures an audition and Beryl goes to the studio with her. While waiting, Beryl croons melodies at a piano. A director hears and is charmed by her voice. He gives her a test and offers a contract which elates the girl but her joy is blighted by Irene's snarls and the family blame Beryl. Irene promises to elope with Tommy but his aunt dies and the marriage is postponed.

Beryl's debut is a success. She tries to forget her hopeless love by going to gay parties with the wealthy Frederic Gaylord. When Beryl becomes ill Irene tries to win Prentiss' interest. He is deceived by her pose of childish innocence. Tommy manages his uncle's theater and while he considers this job secure he lacks confidence in his uncle because of money lost in a hasty investment. Tommy is wondering about this investment when his uncle enters the room.

NOW GO ON WITH THE STORY CHAPTER XXV "Well, what do you think?" Uncle George exclaimed. "Tommy at the ladies' table?" "When Beryl disconnected the older man a trifle, but he wasn't going to let Tommy see that.

Uncle George sat on the bed, put his hat down beside him, and waited for Tommy to speak. "Better guess you won't want the job I've got for you, but don't come whining around to me when you see what a fool you've been."

"I'll come whining around to you when I've more good money to throw at you than Tommy told him. His uncle strode from the room, muttering something about ungrateful puppies. Tommy grabbed his hat and left the house. He did not go directly to the Everetts', but walked a few blocks out of his way to cool off before seeing Irene.

"Think of what?" Tommy countered, scowling at him. "You'd never guess," he answered. "And before I tell you I want you to know something of what it means to me—this thing that has happened."

"What's happened?" Tommy cut in sharply. "Don't be in a hurry," Mr. Hoffman advised. "Just listen a minute. I want you to see matters the way they appear to me."

Tommy would not be silent. "So there are two sides to what's happened, are there?" "Well, maybe," his uncle agreed, and added with a touch of smugness: "I don't want you to think I haven't considered you in the matter."

"Yes?" Tommy's infection was full of doubt. "Yes, I have. I'll do something for you, but I had to think of myself. Why, this is what I've been working for, for the past 10 years! I settle everything for me. I can quit now—I'll have enough."

"Tommy eyed him narrowly. With what money he'd got from his wife's estate, Uncle George should have plenty, the young man was thinking. "I'm not so young as I used to be," his uncle was saying. "I've tried for years to sell the building but the town's been overbuilt and didn't need a thing—except a post-office. I knew that had to come and I knew I had the site for it—the money never thought possible even though his trust in his uncle was not deep. Instinctively he looked for the dark side where George Hoffman was concerned.

Fall's Hope Gone As Hoover Talks

WASHINGTON, June 17. (AP)—Albert B. Fall apparently had no hope for executive clemency today as a result of the remarks of President Hoover yesterday in dedicating the Harding memorial at Marion, Ohio.

The former secretary of the interior in the Harding cabinet was indirectly referred to by Mr. Hoover, who praised Warren G. Harding and denounced those who betrayed him. Fall is at El Paso, Texas, awaiting a physical examination by government physicians to determine whether he is able to serve a year in prison for his conviction of receiving a \$100,000 bribe from Edward L. Doheny, wealthy oil man, in the leasing of government oil lands. He also was fined \$100,000. His efforts to have his conviction set aside failed when the supreme court refused to review his case.

Although the president mentioned no names in speaking at the former president's memorial, he said men had betrayed Harding and it was later proved in the courts of the land that these men had betrayed not alone the friendship and trust of their staunch and loyal friend but they had betrayed their country. Fall is in poor health and his physicians have said he was too weak and aged to undertake the journey to Washington to be committed to jail.

Jewelry Is Stolen In New York Raid

NEW YORK, June 17. (AP)—Three robbers today shrouded their way into the home of S. Stanwood Menken, former chairman of the National Security league, bound two maids and then forced Mrs. Menken to open a vault containing \$150,000 in jewelry. Snapping up the jewels, the robbers ran into fashionable Fifty-second street and escaped.

The men bound up two maids before going to the bedroom occupied by Mrs. Menken. She had been awakened by the noise made by the men and was dressing when they entered her room. They told her to keep quiet.

"Just show us where you keep your jewelry," one of them said. With revolvers threatening her, Mrs. Menken led the men to the basement and to the vault. When they had taken all the gems they bound her as they left.

New Gas Outlet To Be Provided

OKLAHOMA CITY, Okla., June 17. (AP)—Outlet for 1,750,000,000 cubic feet of gas daily from the Oklahoma City oil and gas field appeared in prospect today to cheer operators who all have felt the pinch of prorations and low prices through the last year and a half.

Earl R. Ernsberger, president and organizer of the Western Service corporation, announced last night that preliminary surveys have been completed and construction will be begun at an early date on a gigantic pipeline project from the city field north and eastward through Tulsa to out of state points. Ernsberger, who formerly headed the Southwestern Light and Power corporation, declined to say whether service franchises had been obtained to dispose of the huge gas supply available.

Cost of the proposed line was estimated at \$14,000,000. Other gas fields along the proposed route would boost the potential daily flow available by 2,000,000,000 cubic feet, Ernsberger said.

Flying Boat Fails Attempting to Rise

NATAL, Brazil, June 17. (AP)—The German flying boat DO-X attempted today to take off for Bahia, but was unable to rise from the river. It was announced it would be necessary to clean the ship's floats before she would be able to fly. It was expected that she would get off later today or tomorrow. Mail planes regularly make the flight to Bahia in less than five hours.

Autogiro Fliers to Move to Arizona

EL PASO, June 17. (AP)—Mr. and Mrs. Walter Hoffman were to fly their autogiro to Lordsburg, N. M., and Tucson and Maricopa, Ariz., today, after arriving here yesterday from Mexico, opposite Prentiss, where they landed believing they were coming down on United States soil.

They were obliged to remain grounded in Mexico, pending disposal of certain formalities. They said Mexican officials treated them with utmost courtesy. The Hoffmans were flying from New York to their home in Santa Barbara, Calif.

Pros to Gather and Standardize Help for Ruffer

COLUMBUS, O., June 17. (AP)—The first annual conference of the Professional Golfers' association of America will be held here June 23 and 24, in conjunction with the Hyde up matches to be played at the Scioto Country club on June 26 and 27.

Officials of the P. G. A. plan to make this their first convention, the first step in a nationwide program to standardize methods of golf teaching.

The slow motion pictures of leading professionals, which have been made by George Sargent, pro at Scioto, will be the basis for special study.

More than 600 professionals, who are expected to attend, also will make a study of the play in the cup matches.

Shop arrangements to increase sales and service, pro manufacturing, team work and advertising are among problems the professional golfers will have up for discussion.

COTTON EVEN
NEW ORLEANS, June 17. (AP)—Although Liverpool came in slightly worse than due, cotton here opened steady, first trades showing no change to two points decline. The market soon rallied on good trade buying and price fixing, July trading up to 8.83, October to 9.21 and December to 9.44, or 2 to 4 points above the opening prices. Later in the first hour the market eased off 5 to 7 points on realizing and some selling by ring traders in advance of the weekly weather report, expected to be favorable.
October traded down to 9.16 and December to 9.37 at the end of the first hour the market was steady but at the lows.

terday rather than attempt to refute that pile of evidence. In a single word, repeated two times—"guilty"—he paid eloquent tribute to those evidence-getters. Their work resulted in charges that he evaded taxes on a six-year income of \$1,038,654 and that he and 68 others conspired against the prohibition law at least 5,000 times.

One group of the men behind the evidence has been dubbed the "untouchables." It consists of eight young prohibition agents headed by 28-year-old Elliot Ness. They gained their name because beer money could not buy them off. Their activities have come in for high praise since the prohibition conspiracy indictment, the result of their work, was returned Friday. Prohibition Director Woodcock at Washington has promised an investigation and report to commend them publicly.
The other group, responsible for the two income tax indictments, had the less spectacular task of ferreting out the sources of gangster incomes. Agents of the intelligence unit of the internal revenue bureau did this work, directed in Chicago by A. P. Madden and in Washington by Chief Elmer L. Irey.

RAILROADS—

(Continued From Page 1)
which any given increase in railway freight rates would further divert traffic from the railroads to this form of transportation.
"Although there are instances of long distance hauls by motor trucks, the area of effective competition appears, generally speaking, at present to be measured by the distance of 150 to 200 miles. The rate structure of the steam carriers is particularly wanting in that flexibility which would enable them to meet this competition. x x x"
The railroads apparently have not entertained the thought of increasing passenger fares.

Auto Cuts Traffic
"The disuse of railway facilities by owners of automobiles," said the brief, "and the increase in the extent of motor bus service makes it evident that passenger traffic will not sustain further increases."
"In view of these considerations," the petition asserted, "the carriers propose that they be permitted to increase all freight rates and charges, including joint rail and water rates and charges, 15 per cent, with such adjustments in the case of coal, coke, and certain other commodities as will preserve existing differentials; that as to freight traffic, generally, this increase be permitted to become effective by the

use of percentage supplements; that as to coal, coke, and certain other commodities, specific tariffs complying with the ordinary requirements of tariff publication be filed."

Hoover at Tomb of Abraham Lincoln

SPRINGFIELD, Ill., June 17. (AP)—The memory of Abraham Lincoln brought President Hoover today to the emancipator's tomb.

The home and the very room in which Lincoln received word of his nomination in 1860 beckoned Mr. and Mrs. Hoover for a brief visit before dedicating the reconstructed tomb.

Rebuilt after 57 years, the tomb was first dedicated in 1874 by President Ulysses S. Grant.

SPRINGFIELD, Ill., June 17. (AP)—Secretary Lamont today telephoned the aviation division of the commerce department and ordered the three pilots who flew over the Harding memorial during the dedication exercises yesterday grounded until an investigation could be made.

The commerce secretary's action was taken after President Hoover called on him to make an example

of the three. Two of the planes flew in the vicinity of the crowd once but another machine passed over several times. Mr. Lamont joined the presidential special train at Columbus last night.

DEATH THREAT FOUND

NEW YORK, June 17. (AP)—Detectives attempting to solve the Starr Faithful mystery were told today that six days before the 25-year-old girl's body was found on Long Beach she wrote a letter to a man with whom she is believed to have been in love, declaring: "When you receive this I will be dead."

GRAINS HIGHER

CHICAGO, June 17. (AP)—Scorching temperatures, 100 and above, reported in Canadian and American spring wheat territory led to early higher prices for grains today. Much increased crop damage in drought regions was expected to result. Opening unchanged to 1-1/2 cent off, wheat afterward rose all around. Corn started unchanged to 1-3/4 higher and subsequently showed a general advance.
