

Nazi Press Says FDR Message 'Arrogant' And Hints His Head 'Soft'

By LOUIS P. LOCHNER
 BERLIN, Jan. 8 (AP)—The German afternoon press, with a unanimity apparently preconceived, declared today that President Roosevelt's Monday message to congress was historically inaccurate and would have practically no bearing on the outcome of the war.

Britain's doom is sealed, the newspapers declared, and American aid will come too late.
 The Deutsche Allgemeine Zeitung headlined the comment on President Roosevelt's message "Economic Arguments for a Lost Cause." Hours before the afternoon papers appeared, the editorial tack they

followed had been foretold by authoritative quarters.
 BERLIN, Jan. 8 (AP)—The German press, replying to President Roosevelt on behalf of the German people, will call his Monday message to congress "arrogant beyond description and, as compared with his fire-

side talk, even less dignified, more abnormally nervous and more night with historical inaccuracies," it was authoritatively reported today.
 The press also, it was said, will assert that, no matter what aid Roosevelt may decide to give Britain, it will be too late.

There will not be any official German reaction on the grounds that the President's message to congress Monday "brought no new viewpoints which would make it worthwhile to take official cognizance," the same sources said.
 It was said that the press would

hark back to the slogan "don't let yourself be provoked," used by the Nazis when, before 1933, they "used to be insulted, egged and stoned during their propaganda marches."
 It was reported that the press would say:
 "The German people can only shake their heads at the President

who says the American people should keep their hearts soft but their heads hard—they'll wonder how the President's own head looks inside. x x x
 "The message constitutes provocation to Germany, Italy, Japan and Russia."

Roosevelt, the press was expected to say, completely misunderstands and misreads historical and territorial processes in Europe, yet "with an arrogance that simply cannot be excused" tries to deny these processes and paint the German people

Jaycees Announce Plans For Huge Recreation Hall

One of Pampa's greatest needs, a recreation building-gymnasium, is about to become a reality.

For years Pampans who have developed recreation and social problems here have pushed plan after plan to erect such a building but all such proposals ended in a dead end street.

Then yesterday out of a clear sky, so to speak, Jimmy Dodge, president-elect of the Junior Chamber of Commerce, announced that the National Youth Administration would furnish \$5,994 if Pampa would furnish the remainder of the \$12,425 necessary to construct the building.

Ever since last summer, the Jaycees, led by Mr. Dodge, have been working on plans to build the structure. Blueprints complete to the last nail have been finished for months. The Jaycees have considered and studied scores of ways to finance the huge building, but all of them have come to naught. Then last week the Jaycees learned that NYA would put up the money for labor. If Pampa would furnish the materials.

The \$5,994 offer was so generous that not only the Jaycees but the city and officials of several civic clubs felt that Pampa could not afford to turn down the offer, and they resolved the rest of the money would be raised in some way. So today Mr. Dodge had this to say to Pampans:

"This is our big opportunity to help solve our recreation and social problem. We have talked about it for years. Now the goal seems in sight; the dream is near fulfillment—if we act. If you want to subscribe to this building fund from \$1 to the entire amount let us know. Your name will go down as a benefactor. We've got to raise the money quick. If you have any ideas how to raise it, let us know. We are open to suggestions. This building belongs to you and to Pampa—we can't afford not to build it. Can Pampa turn down \$6,000 in wages for its unemployed youth? Can we turn down the opportunity to erect this gymnasium? I know that you will say, 'I should say not!'"

Of course, the NYA has not approved.

Worley Elected Secretary Of Demo Delegation

WASHINGTON, Jan. 8 (AP)—Texas members of congress today elected Representative Wright Patman of Texarkana chairman of the solid Democratic delegation for the next two years.

Representative Eugene Worley of Shamrock was elected secretary of the delegation to succeed Representative Ed Gossett of Wichita Falls.

Patman succeeds Representative Luther Johnson of Corsicana, who was chosen at the caucus the state's representative on the house steering committee. Federal Judge Marvin Jones last session was the delegation representative.

Representative W. R. Poage of Waco was endorsed by the delegation as its choice for a position on the house agriculture committee if the state is permitted to retain two seats in that body.

Strong opposition may be expected to this, however, in the opinion of Representative Milton West of Brownsville. A member of the house ways and means committee, which makes committee assignments, West said he would fight for Poage's placement on the farm group. Judge Jones last session was chairman of that body.

British Fast Surrounding Tobruk Port

Nazis Claim Plane Sank Heavily-Laden Merchant Ship

(By The Associated Press)

Italy's last major defense base in eastern Libya, the port of Tobruk, was reported cut off from rescue today—"another Bardia"—with its garrison of 30,000 Fascist troops caught in the tightening trap of the British army of the Nile.

Sea blockade and tank encirclement of the Egyptian border, were said to effectively bar any large reinforcements.

In the aerial siege of Britain, the Germans reported a Nazi combat plane sank a heavily-laden 8,000-ton merchant ship 300 miles west of Ireland this morning, blowing the vessel to pieces in three dive attacks.

Hitler's high command reported also that a lone German speedboat boldly raiding the English east coast near the mouth of the Thames river, attacked a British convoy and sank a 2,500-ton merchantman.

In another attack, a Nazi scouting plane was said to have scored several hits on a ship of a British minesweeper flotilla in the North sea and left it in a "burning, sinking condition."

On the Greek-Italian war front, the RAF command reported British bombers, flying through snow, sleet, and rain, delivered a fiery attack on the mid-Albanian town of Elbasani, key Italian supply base.

High explosives and incendiary bombs were seen to hit several military stores buildings, causing a number of fires," the RAF communique said.

Red Cross figures listed more than 14,000 Italians taken prisoner by the Greeks since the war began.

Premier Mussolini's high command gave no hint of the dawn of the siege of Tobruk, with the daily Fascist war bulletin declaring merely that "patrol and artillery actions were reported between Bardia and Tobruk."

Official British reports said the British had captured El Adem, 15 miles south of their new objective, and British mechanized units were said to have shot past Tobruk to block the road from the west.

"Our planes torpedoed an enemy destroyer near Salum, Egypt," the Italian high command said.

"Patrols, fighters, and assault plane's machine-gunned and bombed enemy mechanized forces with shrapnel bombs."

The Fascist communique acknowledged an RAF raid on Tripoli, in western Libya, in which four were killed, 10 wounded.

On the Greek front, the Italians asserted, "heavy losses" were inflicted on convoy and troops from the Aegean kingdom and three

Five Prisoners On Parole In County

A check-up of paroled prisoners was begun yesterday afternoon by the members of the new Gray county parole board which held its first meeting here yesterday afternoon in the offices of State Representative Ennis Favors.

Rep. Favors, chairman of the board, reported that Gray county parole board has only five prisoners on parole from state institutions. Two of these are out of the state and the other three are in nearby cities.

Parolees are required to report once monthly to individual parole supervisors to which they have been assigned. Members of the county parole board at yesterday's meeting were Curtis Douglas, W. R. Frazier, John DeWeese, and Rep. Favors. Tex Mikesell, remaining member of the board, is in the East on vacation.

Mr. Favors was elected secretary of the board, and Mr. Douglas was appointed vice chairman to serve while Mr. Favors is engaged in his legislative duties at Austin. Mr. Favors will leave for Austin Friday.

Further Shifts Made In City Positions

Shifts in positions of three city employees were approved by the city commission at its meeting yesterday.

The commission authorized the change of Oran J. Payne from building inspector to water department superintendent at a salary of \$200 a month; T. P. Johnston, from police department to assistant water superintendent; and Hobart (Blackie) Burnett from street department to meterman-in-the-water department.

Payne was named last week as water superintendent to succeed Andy J. Crocker, resigned, but technically the appointment of Payne did not become official until yesterday.

Salaries of Johnston and Burnett were not given in the order granting their transfers.

As police patrolman, Johnston is listed on city records at \$130 a month. Burnett, a street sweeper operator, at \$120.

Payne will be in a position to help out on building inspections, his former position, for which he was paid \$185 a month, and Johnston, who is an electrician, can aid R. R. Jones, on that type of work, it was pointed out by the city manager.

Burnett has been working in the street department, but has had training at Tulsa as a meter repairman during the W. A. Bratton administration. He worked at this trade until the city abolished his special job, then went to the street department.

Monthly Salaries Allowed
 As assistant to Payne, Johnston replaces P. G. Massey whose resignation was accepted along with that of his superior on December 31. Massey's salary was \$130 a month.

Reason given why no salaries were stated in the order assigning Johnston and Burnett to new jobs was that the commission wanted to make a fair adjustment of salaries in view of the change in their work and allow an increase if the work merited it, according to a city official.

City Manager Steve Matthews said he would confer with the commission before final decision is made on other changes in the department.

No Protesting Delegation
 Monday five employees of the department, quit their jobs and their places were filled with other men. A rumor was afloat Tuesday that

Shake-Up In Admiralty Of Fleet Bared

WASHINGTON, Jan. 8 (AP)—Secretary Knox announced today that President Roosevelt had authorized an increase of 42,000 in the manpower of the fleet. Simultaneously the navy chief ordered a far-reaching shake-up in fleet command and organization.

Knox announced that Rear Admiral Husband E. Kimmel was replacing Admiral James O. Richardson, as commander in chief of the United States Pacific fleet. He also becomes commander in chief of the combined fleets.

Admiral Richardson will report to the secretary of the navy for undischarged duty.

The new commander in chief of the fleets is a native of Henderson, Ky. At present he commands the cruisers of the United States battle force.

Knox disclosed the presidential action and his own orders at a press conference at which he also was asked about the possibility of making additional United States destroyers available to the British.

"I don't think any more destroyers can be detached from our fleet without seriously impairing its efficiency," he declared.

He added, however, that the final decision was not up to him.

Knox disclosed that the navy planned to acquire congress shortly authority to build 280 auxiliary vessels, such as submarine chasers, mine sweepers, and patrol boats.

Knox said the nation's warships were being reorganized into three fleets—the United States Atlantic fleet, the United States Pacific fleet, and the United States Asiatic fleet.

He described this as "a rearrangement which really fits the facts."

The principal change will be in the name of the present Atlantic patrol force. That force has been built up gradually, Knox said, until it now includes 125 ships.

To Lease Oil Land

AUSTIN, Jan. 8 (AP)—State owned land in the Sabine River bed south of Hawkins, site of a new oil discovery, will be submitted to mineral lease bids March 4.

The school land board will meet Jan. 21 to determine the boundaries of the area, in Wood county, to be offered for lease.

Greater Pampa Has 13,488 Population

Pampa is a city of homes, according to figures just released by the U. S. Census Bureau. It is estimated that there are 3,817 dwellings in Pampa which has a population of 12,598.

The number of homes in Pampa, including the Talley addition, is estimated at 4,070 with the population of greater Pampa being 13,488. In Gray county it is estimated that there are 6,776 occupied dwellings with the county population being 23,847.

According to the figures there is an average of 3.52 persons to a dwelling in Pampa.

Population and number of families in counties of the Pampa area, taken from the final 1940 U. S. census figures and compiled by the Pampa Chamber of Commerce, follows:

COUNTIES	POPULATION	NO. DWELLINGS OCCUPIED
Armstrong	2,472	690
Carson	6,563	1,757
Donley	7,498	2,016
Gray	33,847	6,776
Hemphill	4,161	1,139
Hutchinson	19,054	5,300
Robertson	1,289	360
Wheeler	12,385	3,235
TOTALS	77,269	21,773
	(Average number per dwelling 3.63)	
Pampa	12,598	3,817
	(Per dwelling 3.52)	
Borger	10,006	2,892
	Pampa—including Talley Addition	4,070*
	Pampa and Talley Addition	13,488

*Estimated. Used 3.52 factor divided into 690 population of Talley Addition to get 233 additional occupied dwellings for Talley Addition.

There would be a slight increase in number of families over number of occupied dwellings to account for two or more families in an occupied dwelling but we have no way of estimating number.

10 Billions Marked For U. S. Defense

Cost Of Aiding Britain Not Even Computed Yet

WASHINGTON, Jan. 8 (AP)—President Roosevelt asked congress today for \$17,485,528,049 in an unprecedented peace-time budget reflecting a world at war and the huge cost of preparing for total defense.

Mr. Roosevelt allotted \$10,811,314,600 of his 1942 budget exclusively to national defense, estimated the deficit for the year beginning July 1, at \$9,210,043,049, and foretold a public debt pushed by that deficit to a record \$38,267,065,056 by June 30, 1942.

The budget made no provisions for the cost of aid to Britain, Greece and China—an extensive program to be covered in subsequent appropriation requests. Congressional leaders said the overall cost of this alone might eventually total \$10,000,000,000, but were uncertain how great the actual cash outlay would have to be before the first year.

Irrespective of these future aid requests, nothing in treasury history compared with the huge figures presented to the senate and house since the last year of the world war when spending reached \$18,522,895,000 and the deficit \$13,370,638,000.

"A wry turn of fate places this burden of defense on the backs of a peace-loving people," the president said of the budget which was read, by clerks.

But, Mr. Roosevelt continued, even these big sums—62 per cent of them earmarked for defense—were only "a forecast of things to come. x x x No one can predict the ultimate cost of a program that is still in development."

The sole guiding "marker" down the road, he added, was "a command to defend our democratic way of life."

In line with the assertion of his annual message that the nation put "patriotism ahead of pocket-books" in helping defray defense costs, the chief executive called for increased taxation, but made no specific recommendations.

Counting today's recommendations, the president estimated that since June, 1940, defense appropriations, authorizations, and requests aggregated \$28,480,000,000.

The only reason today's requests were not higher, he told reporters, was industry's apparent inability to produce any more weapons than had been budgeted.

In this connection, however, Mr. Roosevelt revealed a \$3,000,000,000 program of factory construction to increase industrial defense capacity—mostly privately financed—and said the budget still might be boosted if some of these new factories could get into production quickly enough.

Tax revenues, he said, would reach the highest point in American history at \$8,275,435,000 in the 1942 fiscal year—exceeding 1928 by \$7,000,000,000—and thereby would produce the greater tax yields.

Turning to non-defense costs, which he set \$600,000,000 from the 1940 totals, the chief executive explained the absence of deeper reductions in these words:

"Democracy as a way of life is equally at stake. x x x Only by maintaining these activities (relief, social-security, regular government activities, etc.) can we claim the effective use of resources which our democratic system is expected to yield, and thus justify the expenditures required for its defense."

Summarizing the \$28,480,000,000 defense program, undertaken since

BROILED MEATS

When broiling meats, best results will be obtained by turning the meat only once. Broil on one side until the steak or chops are nicely browned, season and turn. Then broil on the other side, season and spread with butter. Serve on a hot platter with appropriate garnish. Length of time for broiling depends on the distance of the meat from the flame, the thickness of the meat and individual taste—whether you like meat rare or well done.

The War Today

By DeWitt MacKENZIE
If you want a gauge by which to measure the military potentialities of the chief belligerents in the European war—and maybe pick yourself the winner—you can take it from the conquest of Bardia in the Libyan desert.

Bardia fell in a simultaneous triple assault—from land, from the air, and from the sea. Here we have the perfect example of the efficiency of a combination of the three fighting services working in unison.

Such coordination of the forces of a first class power is calculated to be invincible, unless countered in kind.

If you can name the belligerent which has the three services best developed, or has the facilities for developing them well and rapidly, then you have found the potential winner of the war.

The Greco-Britain victory over the Italians in Greece and Albania was at least partly due to the fact that the allies could call on the British fleet, thereby being able to counter the Fascist air attacks.

France was plowed under by the Germans partly because she was woefully weak in the air—partly because of other circumstances including Nazi fifth column activities.

These and other operations of the war have taught us another basic truth. Most experts now agree that, if we are dealing with major powers, there isn't likely to be a simple victory without invasion by land, sea power and air power, either separately or together.

That's why Germany is straining every nerve to try to find an opening to invade England. Hitler has used everything he had in an effort to knock John Bull out, and now recognizes that he must get troops ashore to do the job.

Farewell

Every draft number called, every mobilization order issued, every call to duty brings one long aching moment—farewell. Photo above shows how most of the men called to duty all over the U. S. spend that last minute. Here Charles E. Sherwood gets a farewell embrace from his sister Jean and her other naval reservists of Washington, D. C., embarked for active duty.

1000 Housing Units Planned At Corpus

WASHINGTON, Jan. 8. (AP)—Construction of 1,000 new family dwelling units at Corpus Christi to meet a "critical shortage of housing" which came with the location of a naval air school there is proposed by the National Defense Commission.

This construction program is in addition to that underway, in which 950 family units are being erected by governmental agencies to house naval and civilian personnel connected with the air school.

The defense commission, in making public a report on housing needs at points where naval and military reservations are located, disclosed that 500 of the 1,000 units proposed at Corpus Christi would be built by a governmental agency.

Oil Industry In Texas To Go Under Microscope Soon

AUSTIN, Jan. 8. (AP)—The oil industry in Texas, the nation's top producing state, goes under the legislative microscope next week.

The lawmakers, convening Jan. 14 in biennial session, will focus attention both on regulation and taxation of the gigantic industry and speculation of possible results is rife.

consideration are expiration of the general proration laws and Texas' authority for participation in the interstate oil compact commission in 1941; revision of the marginal well statute, a frequent point of contention; and proration of oil recovered through recycling processes which are increasing in Texas.

Most interceptor planes climb at a 40-degree angle. Taxation, an ever present subject in legislative halls, is due for a renewal and various members have expressed opinions favoring a boost in natural resources imposts, including oil.

German Munitions Train Explodes

BUDAPEST, Jan. 8. (AP)—The explosion of a German munitions train which crashed into another train on one of the three main lines from Hungary to Rumania damaged a large part of the town of Berezovo Ufalva today and wrecked the tracks.

The town is near what used to be the Hungarian-Rumanian frontier before Rumania ceded Transylvania to Hungary, and is about midway between Pospoladny and Nagyvarad. (This route has been used by the Germans to have heavy troop reinforcements, reported as high as 600,000 men, through Hungary into Rumania.)

The number of casualties was not learned immediately. Hungarian censorship clamped down on further details of the accident.

Tax On Crude Oil And Gas Proposed

AUSTIN, Jan. 8. (AP)—One of the first specific proposals to increase taxes on natural resources at the session of the legislature which convenes next week would seek to raise \$23,000,000 additional revenue from crude oil and natural gas.

A bill which Rep. Ben Sharpe of Paris is said he would introduce would boost the tax on crude from the 2 3/4 cents a barrel now levied to five cents, and would tax natural gas one cent per 1,000 cubic feet as it came from the processing refinery instead of at the well.

Sharpe said oil now yielded \$21,000,000 and the larger tax would up the return by \$13,000,000. Income from the gas tax would be increased from \$500,000, the current yield, to \$5,000,000.

"If those who want additional revenue run wild," he cautioned, "they likely will get nothing."

SERIAL STORY

CONSCRIPT'S WIFE

BY BETTY WALLACE

COPYRIGHT, 1941. NEA SERVICE, INC.

Paul was sarcastic about the way Suzanne set the table, took over the task himself. "It's simply not your line, Sue." Martha moved in between them then, laughing, ordered Paul into the living room. Suzanne was furious.

YESTERDAY, Bill seems almost glad to get away from the drab routine of the store. And before Martha realizes it, the day for Bill's leaving has arrived. Paul goes to the train with them. As Bill waves, she tells Paul to look out for Martha. The train leaves. Martha says Paul, "It's Conscript's wife show."

PAUL FOLLOWS ORDERS

CHAPTER III

MARTHA MARSHALL stood on the platform, watching with tear-blurred eyes as the lights of the train grew dimmer and dinner in the distance. She scarcely noticed when the crowd of people began pushing toward the stairs. Someone behind her said wearily, "Well, that's over."

Paul touched her arm. "You didn't eat dinner," he said. "Do you want to stop somewhere and have something now?" "I-I couldn't, Paul." "Out in the car, Butch was whining, his nose pressed against the glass. He bounded out as Martha opened the door. He held her hand. Then he looked behind her. His head cocked to one side, inquiringly. He seemed to be asking, "Where's Bill?"

"He's gone, boy," murmured Martha. "Gone for a long time. There's just you and me, now." "Well," Paul said, gently. "There's me, too. Remember, I promised Bill I'd look after you." Martha didn't answer. She patted the dog's head and remembered the far-away day she and Bill had first seen him. He'd been a scrawny little pup in the arms of a weeping small boy.

"My father don't want him," the boy said, huddled up on the curbstone. He had looked at them with tragic brown eyes. "I just can't take him to the pound. They'll eat him." The puppy had pathetic bowed legs and a funny, wrinkled little nose. Martha had reached for him and the little boy asked eagerly, "Do you want him, Miss?"

Bill cursed himself for ever having bought the animal. Yet he was the one who said, "It's tough on you, coming home from the office and straightening the dump, anyway. Let's get a woman to help—she could fix our dinner, and then she'd be here to let the pup out during the day." "Martha," said Paul, touching her arm. "Martha, what is it?"

"You call up Suzanne right away! The first thing to do is drive the blues out of the apartment with a steak dinner, radio music, and loud talk." So at 5 o'clock Suzanne drove up to the plant in her mart gray coupe. Martha and Paul squeezed in. They stopped at a supermarket and bought quantities of food. In the kitchen, Martha donned an apron and Paul, appropriating the only other available, began supervising production. He was sarcastic about the way Suzanne set the table, took over the task himself.

"It's simply not your line, Sue," Martha moved in between them then, laughing, ordered Paul into the living room. Suzanne was furious. "You make the coffee, Sue. Anyone can make coffee. Just measure it right, add—"

Camp Bowie Clamps Down On Soldiers

BROWNWOOD, Jan. 8 (AP)—All members of the Camp Bowie command, including officers as well as enlisted men, today were forbidden to secure prescriptions from civilian doctors in Brownwood or vicinity, and a 10:30 p. m. curfew was clamped down on enlisted men visiting public places in Brownwood.

The order, issued by Major General Claude V. Birkhead, commander of the 36th division, specifically stated it was not to be construed as forbidding the employ of civilian physicians to give medical treatment to the families of enlisted men.

Brownwood is situated in a dry county. Beer is not legally sold, and the only legal hard liquor available must be bought upon prescription issued by a physician. The curfew for enlisted men will not apply on Saturdays and on days preceding holidays. The order in regard to prescriptions stated that there were adequate medical facilities at the camp to take care of all legitimate calls for treatment.
