(PRICE FIVE CENTS)

Good Evening

Man is made not to question, but to adore.—Young.

\$10,000 OFFER TO SAVE THEIR LIVES

Physicians at Putnam, Conn., fight for the lives of the brothers of Marianne, who were struck by the hit-skip auto of Long Island debutante Audrey Gray. Henry Gray, Audrey's father, has offered to pay \$10,000 for medical specialists. Willard, age 14, top, has had an arm amputated. Gerald, lower, age 10, is most seriously hurt.

Case Held Open In Boston Death

BOSTON, July 25 (AP)—Pending arrival from Texas of Mrs. C. Stuart Johnson, police held open today the case of a man tentatively identified as her husband, a West Texas Teachers College instructor, who died yesterday a few hours after he had been found unconscious in a 50-cent lodging house.

Mrs. Johnson said she doubted the identification, however, and Pro-noreason for her husband's presence in Boston. She left Texas hurriedly, after being notified of the death, with J. A. Hill, president of the teachers college.

Edward M. Maisei of Buffalo, N. Y., and Cambridge, a Harvard student, who found Johnson in a comatose condition, said he was sure of the identification, however, an Professor J. W. Stovall of Oklahoma said Johnson left Norman, Okla., on July 8, "under peculiar circumstances."

Stovall said Johnson had been studying for a Ph. D. this summer and left with another man in an automobile, taking no clothing and only about \$1.50 in money. Maisei said Johnson came here about two weeks ago to transact personal business with him.

Safety Lane Tests To Begin Saturday

State highway patrolmen who will conduct car safety tests here will not arrive until Saturday, it was learned today. A letter received last Friday by city officers stated that the officers would be here on that day.

Boy, 6, Learns What Makes Bullfrog Tick

NORRISTOWN, Pa., July 25 (AP)—This is a frog story that has most fish stories beat by four legs and 12 hours.

Mrs. Jane McLaughlin's wrist which slipped through a crack in a bath house floor. An attendant fished for it, but a bullfrog got there first.

Mrs. McLaughlin's six-year-old nephew, Frank Supple, wriggled under the bath house until he heard ticks instead of croaks. He caught and killed the frog. An autopsy was performed. There was the watch.

I Heard—

That Mrs. Eddie Beavers, wife of the Pampa Oiler catcher, she used to play at the Presbyterian church at Bartlesville, Okla. . . Oh's and Ah's from members of the Boy Scout Board of Review as they studied oil and water color paintings and pen and pencil sketches which Alan Chamberlidge of LeFors presented as material for a merit badge in painting.

JAP NAVY BLOCKS RIVER

Price Collapse Perplexes Grain Trade

Wheat Goes To Storage Under Loan Subsidy

Record Lows Being Written On World Grain Blackboard

CHICAGO, July 25 (AP)—Collapse of grain prices far below levels which Uncle Sam deems compatible with American farm prosperity today gave the grain trade its most perplexing puzzle in years.

Wheat values are scraping seven-year-low levels while corn is the lowest in six years. Rye and oats also are at or near four to six-year lows. This is the situation despite governmental efforts to maintain prices at a higher level. It reflects world conditions to a large extent.

This does not mean, however, that current low market prices are the figures at which all farmers are selling their major grain crops. A record breaking volume of wheat is going into storage, most of it under loans guaranteeing producers a price well above the market. Much of the commercial supply of 1938 corn also is stored under loans much higher than market prices and loans are expected by traders to be advanced on the new crop when it is harvested.

Traders Are Stumped
Even so, the slump of values so far below these guaranteed prices had many traders stumped. Before the start of trading today wheat for September delivery was quoted around 60 1/2 cents, lowest in 10 months and with exception of the bottom reached last September the lowest in seven years. A year ago the price was close to 70 cents, two years ago, \$1.20. Wheat has lost almost 20 cents since the first of June. Opening price for wheat today was 61-61 1/2.

The average loan offered to farmers on 1939 wheat was 61 cents, which compares with prices ranging from 25 to 35 cents and even lower in the country.

Sagging wheat prices are not peculiar to the United States. In fact, they are part of a world-wide panorama of slumping values. At Liverpool and Winnipeg, where wheat futures are below 50 cents, a dime or more cheaper than in Chicago, record lows are being written up on the blackboards.

Government efforts in this country, through loan, crop reduction

See WHEAT, Page 8

Schools Buy New 30-Passenger Bus

Pampa school board members in recent session last night purchased a 30-passenger Superior school bus to be delivered by Sept. 1 of this year. The bus was purchased thru the Culbertson-Smalling Chevrolet company.

Plans are to place the new bus on the route east of the city where two small, old model buses have been operated in the past.

"I believe the one new bus will be able to cover the route previously covered by two of the old ones," Joe Shelton, bus superintendent, told the board.

The board also purchased a new power lawn mower to be used at Harvester park and on school lawns.

Spanked Wife Fails To Get Her Divorce

MONTGOMERY, Ala., July 25 (AP)—An Alabama wife, the state supreme court has decided, may not divorce her husband merely because he gave her a spanking.

Justice A. B. Foster held the husband in question spanked his spouse "as he would a child" and that this was wholly unjustified and reprehensible. The court, however, dissolved a lower court divorce and ordered a \$30 monthly separate maintenance judgment to stand.

The row, the justice said, started about a widow living across the street.

Tourists Courts Combed For Two Slaying Suspects

PHOENIX, July 25 (AP)—Maricopa county sheriff's deputies and Phoenix police started a "shake-down" of tourist courts and small hotels in the Salt River valley today seeking two young motorcyclists wanted for questioning in connection with the robbery-slaying of Walter J. Dickson, 64-year-old Spur, Texas, merchant. Dickson was found badly beaten near Holbrook, July 18. He died that night.

Corpus Christi Brunet Is Selected Sweetheart No. 1

FORT WORTH, July 25 (AP)—Miss Wanda Teknor, Corpus Christi, Brunet, was chosen Texas sweetheart No. 1 from among 38 contestants representing as many cities and towns at the Casa Manana revue here last night.

Charges Her Ex-Hubby Spends Alimony On Screen's 'Oomph Girl'

LOS ANGELES, July 25 (AP)—Pretty Zelma Dewar charged today her divorced husband takes "Oomph Girl" Ann Sheridan to the night spots, although he's \$335 behind in his alimony payments.

Not only that, Mrs. Dewar said as she went to court with a demand that film cutter Frank Dewar, Jr., keep up the \$40 weekly payments awarded her a year ago, but he takes along Miss Sheridan's secretary, Gwynn Woodford.

The mother of three children, Mrs. Dewar estimated her husband's income at \$100 a week but described the manner in which he spends his money as "wanton."

Britain Ready To Make Drive On Terrorists

Outlawed Irish Army Target Of New Legislative Act

LONDON, July 25 (AP)—Britain was set today for a lightning-like drive to thwart any Irish Republican army sabotage and terrorism with official disclosure 5,000 suspects were under day and night surveillance.

Official sources stated there would be an "immediate" roundup upon enactment of a government emergency bill designed to crush the outlawed I.R.A. A. Quick raids on homes of known I.R.A. members and sympathizers would be made under extraordinary powers granted by the measure, it was said, and "many" might be deported forthwith.

The bill sped toward final passage before Parliament's scheduled adjournment Aug. 4 after a personal appeal by Home Secretary Sir Samuel Hoare who declared I.R.A. terrorism was "stimulated by foreign organizations," and timed to coincide with international crises.

The bill was passed on second reading last night and advanced to third reading by lawmakers who had heard Sir Samuel outline a document called "Plan S." It was under this plan, he asserted, I.R.A. terrorists were operating.

He hinted it might have been worked out by the staff of some foreign power. It called for blasting of parliament buildings, wrecking key industries, and polluting water supplies.

Meanwhile reports that R. S. Hudson, secretary for overseas trade, might be forced to resign were still by Prime Minister Chamberlain's public exoneration of him in the House of Commons yesterday. Chamberlain said there was no impropriety in Hudson's discussing with Dr. Helmuth Wohlthat, German trade expert, possibilities of enabling Germany to return to a policy of negotiation and disarmament through a huge loan and a colonial settlement.

Kidnaped Pastor Freed By Arabs

JERUSALEM, July 25 (AP)—The Reverend Groul R. Goldner, kidnaped a week ago by an Arab band, was released late today. He appeared worn and exhausted when he reached Jerusalem.

Return of the young Magador, Ohio, pastor ended a nerve-racking experience for his aged father, the Rev. Jacob Goldner of Cleveland, who broke down during the protracted negotiations which brought alternative hopes and fears for his son's safety.

Three Killed As Car And Truck Collide

BEEVILLE, July 25 (AP)—Three persons were killed shortly after midnight in a truck-automobile crash a mile and a half south of Skidmore on U. S. highway 181.

The dead are Mrs. Minnie Gibson, 32, Beeville; Pete Reader, 22, Beeville; and Dwayne Palmer, 22, Beeville. They were occupants of the automobile, a light model coupe.

Former State Official Dies

WINNSBORO, July 25 (AP)—Funeral services were arranged here this afternoon for W. A. Nabor, 72, former state railroad commissioner under Gov. Pat Neff. He died yesterday.

Thousands Swarm To Scene Of Gold Strike

NOGALES, Sonora, Mexico, July 25 (AP)—Rich strikes southwest of here have sent thousands of Mexicans swarming to the gold field around Mesquite, which in recent weeks has been transformed from a tiny village (population: 20) into a boom town of 4,000 inhabitants.

The gold field has been extended over an area of six miles from the spot where Francisco Arballo first struck pay dirt several weeks ago, and average daily production was estimated at 20 pounds by W. C. Greene, Cananea, Mexico, mining executive.

Jaycees Hear Cooper

State Prexy Noon Luncheon Speaker Today

Urges Local Group To Continue Splendid Work In Pampa

Describing the junior chambers of commerce as representing the effort of young Americans to perpetuate democratic ideals, W. O. Cooper of Dallas, president of the Texas Junior Chamber of Commerce, praised the work of the Pampa organization and asked their continued support of the state association at the Pampa Jaycee luncheon at noon today.

President Cooper told the 40 persons attending the luncheon that all of the Jaycee projects, juvenile welfare, traffic safety, Americanism, and public health, could be summed up in that description.

"Anything we can do for our communities—these things have an intangible value and a value that will not be at once apparent, but all serve to do more good than we realize," Mr. Cooper said.

Lads Work In Pampa
He praised Pampa for pioneering in this section in the formation of a junior chamber of commerce, complimented the members for their civic activities, and said Pampa was really the center of this area.

"No one can say they've seen Texas until they've seen the Panhandle. Here I find the kind of Texas we Yankees in Dallas read about."

President Cooper urged that Pampa be well represented at the state convention to be held in Galveston next April, and that Texas have a big delegation at the national convention to be held in Washington in June.

R. G. Hughes introduced the state president, saying the official was a man of keen intellect, pleasing personality, and a "fighting Jaycee heart."

D. L. Parker, acting president of the Pampa Jaycees, presided at the meeting today.

E. J. Lewis of Pampa and Tom Wingate, president of the Amarillo Junior Chamber of Commerce, were introduced as guests.

Mr. Cooper, accompanied by Mr. Wingate, left immediately after the luncheon for Amarillo, where he took a plane at 2 o'clock for the return trip to Dallas.

Delegation Goes To Amarillo
Last night 16 Pampans went to Amarillo where the Amarillo Junior Chamber of Commerce was presented with the national charter.

Kidnaped Pastor Freed By Arabs

JERUSALEM, July 25 (AP)—The Reverend Groul R. Goldner, kidnaped a week ago by an Arab band, was released late today. He appeared worn and exhausted when he reached Jerusalem.

Return of the young Magador, Ohio, pastor ended a nerve-racking experience for his aged father, the Rev. Jacob Goldner of Cleveland, who broke down during the protracted negotiations which brought alternative hopes and fears for his son's safety.

Three Killed As Car And Truck Collide

BEEVILLE, July 25 (AP)—Three persons were killed shortly after midnight in a truck-automobile crash a mile and a half south of Skidmore on U. S. highway 181.

The dead are Mrs. Minnie Gibson, 32, Beeville; Pete Reader, 22, Beeville; and Dwayne Palmer, 22, Beeville. They were occupants of the automobile, a light model coupe.

Former State Official Dies

WINNSBORO, July 25 (AP)—Funeral services were arranged here this afternoon for W. A. Nabor, 72, former state railroad commissioner under Gov. Pat Neff. He died yesterday.

Thousands Swarm To Scene Of Gold Strike

NOGALES, Sonora, Mexico, July 25 (AP)—Rich strikes southwest of here have sent thousands of Mexicans swarming to the gold field around Mesquite, which in recent weeks has been transformed from a tiny village (population: 20) into a boom town of 4,000 inhabitants.

The gold field has been extended over an area of six miles from the spot where Francisco Arballo first struck pay dirt several weeks ago, and average daily production was estimated at 20 pounds by W. C. Greene, Cananea, Mexico, mining executive.

DICKINSON'S BAD, GOOD NEIGHBORS... CRUSADER AT DAWN

Gov. Luren Dickinson can find nothing more harmful than a Sunday Charlotte is a quiet farming town; its population is 5,500. Drinking hits its weekly high on Saturdays when farmers come to town.

Swain takes girl friend out for nothing more harmful than a Sunday Charlotte is a quiet farming town; its population is 5,500. Drinking hits its weekly high on Saturdays when farmers come to town.

Slazing campaigner against "bad" morals and liquor, Michigan's 80-year-old Gov. Luren D. Dickinson declares night life. Here he is in down-to-earth, sober, moral, morning activity—frying an egg for breakfast.

Uncle Sam Won't Make Any Change In China Policy

WASHINGTON, July 25 (AP)—Well-spread observers predicted today the straight line of United States policy in China would suffer no deviation through Britain's recognition of Japan's "special requirements" in China.

As state department officials studied implications of Britain's agreement yesterday not to interfere with Japanese forces in China, it was made clear the United States had no intention of signing a similar agreement.

There was some expectation, however, that the Japanese, having extracted some important declarations from Britain, might turn to the United States with similar hopes.

Generally, high placed opinion in Washington regretted effect the Anglo-Japanese accord would have on Chinese morale. It was feared the Japanese would make the widest possible use of it among the Chinese, and give it the largest possible interpretation, to convince them that the British had backed down and abandoned China.

Vandenberg Flays Huge Lending Bill

WASHINGTON, July 25 (AP)—Senator Vandenberg (R., Mich.) termed the administration's \$2,400,000,000 lending bill today "a device for cheating the debt limit, for socializing business, and for another tug at boot-strap lifting."

He issued a statement, while the senate leadership worked for early approval of the measure, and while reports circulated a coalition of democrats and republicans would try to bottle up the legislation in the house rules committee.

"This," said Vandenberg, "is the final spree of the spendthrifts who think they can make an \$80,000,000,000 country out of a \$60,000,000,000 country by borrowing the difference."

Man Found Shot In Car, Dies Few Hours Later

SAN ANTONIO, July 25 (AP)—Found with a .22 caliber bullet wound in his right temple, a man tentatively identified as E. R. Hardee of San Antonio, died in the County hospital early today.

The man was discovered by Radio Patrolman P. M. Wright about midnight, when he investigated a parked car with the lights burning. Wright found the man wounded and unconscious. He was taken to the hospital but died there a few hours later.

Committee Sidetracks Rivers and Harbors Bill

WASHINGTON, July 25 (AP)—Senator McNary (R.-Or.) said today the Senate Commerce committee had voted to sidetrack the \$407,000,000 omnibus rivers and harbors bill until next session.

Leaving the committee room, McNary told reporters the committee did not vote on a proposal by Senator Bailey (D.-Ic.) to cut the project authorization to \$37,850 and call the bill up for immediate action.

Farley Likely Target In Democratic Fight

WASHINGTON, July 25 (AP)—Efforts of "Big Jim" Farley to hold the Democratic party together are bringing him into the axonomic spot of the peacekeeper where he is likely to become a target for both sides.

Thus far, there are no signs he has pledged himself to any person for the 1940 Presidential race. Many here wondered whether his week-end conference with President Roosevelt had lodged him among the group of third term advocates.

Ousted Official Faces Grand Jury

NEW ORLEANS, July 25 (AP)—William G. Rankin, removed by Gov. Earl K. Long yesterday as state conservation commissioner, today was summoned as a witness here by the federal grand jury which this week has been concerned with an inquiry into alleged income tax evasions and investigation of "hot oil" matters in the state.

Federal District Attorney Rene A. Viocha, who announced Rankin had been called, did not indicate the matters the jury sought to question Rankin about.

WASHINGTON, July 25 (AP)—John Rogge, in charge of the justice department's criminal division, said today the federal government was "intensifying" its investigation of alleged violations of federal statutes in Louisiana.

Longview Painter Asphyxiates Self In Parked Car

TYLER, July 25 (AP)—Albert C. Emke, 51, Longview painter, parked his car in front of a country church, attached a hose to the exhaust pipe and sat back to await death.

Constable Price Killon found him dead there today after a farmer notified him he had seen the coupe parked in front of the Dean church, between Winona and Gladewater. Justice of the Peace I. J. Fortner of Winona, returned a verdict of suicide.

Seaman Held For Death Of Shipmate

PORT ARTHUR, July 25 (AP)—William Terry, 22, Newport News seaman, was held under \$1,000 bond today after an examining trial on murder charges in connection with the stabbing of seaman Walter Thomas.

Man Found Shot In Car, Dies Few Hours Later

SAN ANTONIO, July 25 (AP)—Found with a .22 caliber bullet wound in his right temple, a man tentatively identified as E. R. Hardee of San Antonio, died in the County hospital early today.

The man was discovered by Radio Patrolman P. M. Wright about midnight, when he investigated a parked car with the lights burning. Wright found the man wounded and unconscious. He was taken to the hospital but died there a few hours later.

U. S. Gunboat Sails To Beat Closing Order

Canton Water Way To Be Closed For 'Military Purposes'

HONGKONG, July 25 (AP)—The Japanese consul at Canton has notified consular authorities of other nations, including the United States, that for "military reasons" the Japanese navy will close the Canton river for two weeks starting at midnight tomorrow.

The move was reliably reported in this British Crown colony to be in the nature of a blockade to cut shipping between Hongkong and Canton and in conjunction with this measure, it was said, the Japanese planned a blockade of British and French concessions on Canton's Shamen island.

Sentries To Be Posted
It was reported Japanese sentries would be posted at both bridge entrances to Shamen where the United States consulate and American business houses also are located.

The Shamen sentries, it was disclosed, will search all persons entering or leaving the island—a practice similar to that followed in the Japanese blockade of the British and French concessions at Tientsin, started June 14.

Foreigners generally believed closing of the Canton river to third power shipping was designed to facilitate troop movements.

A United States gunboat sails from Hongkong about 60 miles up the Canton estuary tomorrow, to reach the South China mainland before the river closing goes into effect.

Dispatches from Chungking told of an air raid on that Chinese capital last evening.

Chinese officials withheld official comment on the memorandum of agreement in the British-Japanese conversations at Tokyo pending study of the official text.

Anti-British Measures Intensified In North China

SHANGHAI, July 25 (AP)—Anti-British measures were intensified in North China and new British-Japanese friction arose in Shanghai today in the face of Britain's promise at Tokyo to stay out of the way of the Japanese army in China.

The British consul-general at Shanghai protested to the Japanese consul-general against detention of H. Rose, chief of the international settlement municipal council's public health department, by police of the Japanese-dominated Shanghai municipality.

"Rose, 100 Chinese and a Russian, all employees of the department, were detained on orders of the Chinese," it was said.

Youthful Orator In Pampa Tonight

Tiffin Reed, 17-year-old Fort Worth orator, and his brother, Ardis, 10-year-old singer, will be the leading speakers on a Townsend rally program to be held at 8:30 o'clock tonight on the lawn on the north side of the courthouse.

The youthful speaker returns to Pampa, where he spoke last Tuesday night after making appearances in Borger, Dumas, Dalhart, Perryton, McLean, and Plainview.

Reed was graduated from a Fort Worth high school this year and local Townsendsites say his speech will be forceful. They especially ask that young people of Pampa attend the meeting tonight.

A public address system is to be installed.

Newton P. Willis, W. R. Ewing, district judge, and Clifford Brady, will be local speakers on the program, according to club officers.

The Pampa summer band, directed by A. C. Cox, is scheduled to play at the rally.

Spending Has Flopped

Apparently the only protection the nation has against further stable increases in the staggering national debt lies in the reluctance of Congress to again raise the legal debt limit. That limit is now set at \$45,000,000,000. And the current debt comes uncomfortably close to that mark.

The recent proposed plan whereby the government's lending powers would be increased almost \$4,000,000,000, which would appear neither in the budget nor the debt, is designed to eliminate the protection of the debt limit. No plan ever devised could do more to promote eventual national bankruptcy. It is proposed that this money be spent for all manner of purposes—roads and bridges, rural electrification, waterworks, etc. If it is sound to use trick book-keeping methods to spend \$4,000,000,000 in these ways, why not spend ten, twenty, fifty, a hundred billion? It wouldn't appear in the debt.

Isn't it about time, instead of proposing schemes to get around the debt limit law, that our legislators considered paring, not increasing expenses—and balancing, not further distorting, an inflated budget? Spending for spending's sake has been a flop—and one of the most costly flops in world history. Let's try economy—it certainly couldn't produce any worse results.

The WPA 'Strikes'

There is both tragedy and comedy to be found in the various "strikes" of WPA workers which followed Congress' passage of a bill providing that these relief beneficiaries should work full time for their money, rather than a day or two a week.

In general, the strikers demand "higher wages," inasmuch as working hours were to be increased. And this shows the amazing attitude of a segment of relief workers toward their jobs. They have come to regard relief as a permanent profession—not as a temporary and unfortunate necessity. They believe the taxpayers owe them a life-long living, whether or not they produce anything useful. They regard themselves as a class apart, signed up indefinitely on the public payroll.

Those WPA officials who announced that striking workers would be discharged after five days, simply did their duty. And they did more than that—they illustrated the forgotten fact that relief should be regarded as something to leave at the earliest opportunity, and not as a career. It is a salutary thing that many of the strikers returned to their relief jobs in a chastened mood.

Relief is a form of charity—that and nothing more. It should be provided when absolutely necessary, but it should not be classed as a "profession."

The Nation's Press

COMPETITION — FREE ENTERPRISE (Chicago Daily News)

What has been the plainly marked policy of American business, as a whole, ever since that fateful day in October, 1929, when our flimsy house of paper profits, following upon a period of frenzied borrowing upon FUTURE prospects, collapsed about our head?

IT HAS CONSISTED OF AN UNCEASING EFFORT BY LEADERS OF COMMERCE, INDUSTRY, LABOR AND AGRICULTURE TO KEEP PRICES UP!

This in the face of a fall in income from eighty billions in 1929, to a low of forty billions in 1932. The farmers were subsidized NOT to grow crops, when millions of people in the cities were without many of the necessities. The labor unions insisted upon wage and hour schedules that increased unit-costs of manufactured products, and thus inexorably reduced sales volume, and increased unemployment. Industry sought shelter from a competitive price war behind the NRA, which it cried loud for and helped to organize. Commerce demanded the bolstering aid of an RFC to shield it from the penalties of overcapitalization. And all this was done in a futile effort to preserve the price level of an eighty billion dollar income, on a forty billion dollar national pay check.

No wonder we piled up a debt of twenty billion dollars. No wonder taxes mounted until out of every dollar of a depleted income everyone surrendered THIRTY-EIGHT cents to the tax collectors!

AND WE DID THIS WHILE STEALING COMPETITION

We said we wanted to preserve the free enterprise system, but we deliberately sidestepped the sole corrective in that system that makes it work.

We would not face the realities. We refused to pay the inexorable price of our excesses and our follies of the wild, mad days of the 20's. We are either going to witness a steady slide into the hopeless, level morass of a socialized civilization and economy, or we are going to face the bitter truth to which history, with unerring finger, points. The ONLY way this, or any other nation, has recovered from previous depressions was to let prices follow the immutable law of a sharply lessened demand to lower levels, until they reach the bottom, following as they will, and must, the lowered purchasing power of depression income. We have tried all sorts of artificial expedients to avoid this, but none of them has succeeded. None will succeed. None ever has.

We will get back to a healthy free enterprise system, and a new prosperity, when we remove the restraints and impediments we have put in the way of real competition. Excessively high tariffs, which make a monopoly of our domestic markets for certain favored industries, are one of the artificial barriers that must be swept aside. The efforts of labor leaders to raise wages and shorten hours, in a time of depression, and thus increase unit-costs, is another deterrent to a revival of widespread employment and the return of good times. Trying, by means of loans from the government, to keep afloat businesses that ought to undergo capital reorganization, only helps to postpone ultimate recovery. Paying billions of dollars in subsidies to farmers for not growing crops, has left the farmer worse off than he was before the government assumed control of agriculture, and has increased food costs to the consumer, including the worker out of a job.

And we have all been guilty. We are intellectual

Sharing The Comforts Of Life

By R. C. Hoiles

NEW DEAL'S ECONOMIC POLICY IN BOOK FORM

A New Dealer loaned me a book, called "An Economic Program for American Democracy." The book says it is published by seven Harvard and Tufts Economists.

It is interesting to note, however, that "Who's Who in America" for 1939 does not list a single one of these so-called Harvard and Tufts Economists.

After reading the book, one sees exactly where Roosevelt gets his idea of spending. The only difference between Roosevelt's speech to the retailers and the book, is the book goes farther than Roosevelt did. Evidently Roosevelt is not yet ready to publicly advocate some of the things that are bound to follow the spending policy.

The book draws the conclusion that the 1933-1937 recovery had its origin in the Federal government's contribution to community expenditure and that the whole process of cumulative expansion of income, output, and employment rested upon public spending as a foundation.

The book contends that the two reasons for necessity of public spending and difficulty of furnishing employment is that the frontiers are gone and the population is not increasing as rapidly as it did in the past. They do not, however, define what they mean by frontiers.

They contend the reduction in spending in 1937, was the cause of the decline in re-employment. They concluded, because they spent and the re-employment happened at the same time, that this was the cause of the decline in recovery when the spending was reduced.

The book even goes so far as to say that "an expanding economy not only can, but must, continually increase the total volume of debt outstanding."

"Trouble comes only when the nation falters in the course of its economic expansion. The expansion of debt at a rate sufficient to absorb the nation's savings is both sound and necessary.

"It is ridiculous to maintain that debt in general must be repaid.

"The Federal government's program of increased expenditures has been of inestimable social benefit.

"The experience of the last five years has demonstrated that government spending can raise the national income to a prosperity level. The real problem is how to keep it there. This apparently is worrying many of the New Dealers themselves. For the moment their fears are held in abeyance; the immediate task is to get things going again. But a year or two from now—provided the present recovery program is carried out with sufficient vigor—the long-run problem will become acute.

"Why do we anticipate trouble? Why is it not possible to rely on the national income to maintain itself at a high level once the government has succeeded in getting it there?"

The book even goes so far as to advocate that if the banks will not continue to loan money indefinitely, there must be forced loans by the government taking over the banks.

COMMUNIST PARTY AND THE UNITED STATES GOVERNMENT

Herbert Benjamin, secretary of the Workers' Alliance, says, "I am unable to see any real difference between the doctrines of the Communist Party and those of the Government of the United States."

There is very little difference. The United States is buying control by confiscating the fruits of the labor of the energetic to distribute for votes. The United States has come to have very little respect for a man having the fruits of his own work, just as they do in Russia. In Russia they shoot them, when they disagree. Here they take their property, take their ability to use their natural talents and make them serfs. It won't be long, however, if the process of regimentation continues, that there will be no personal liberty in the United States. We only differ from Russia in a small degree. Time will make us as completely despotic, with complete loss of liberty, as in Russia, if we continue. History has proved this to be true, every time the government begins to regiment economic conditions.

Behind The News Of The Day

By BRUCE CAITON

WASHINGTON—A storm which may have profound effects on next year's political campaign is gathering strength over the country's meat packing industry. If it breaks in the shape of a nation-wide strike—as it seems likely to do—its political implications are apt to be far-reaching.

The strike threat comes from the CIO's Packing House Workers' Organizing Committee, which claims 78,000 members among the 129,000 workers in the meat slaughtering industry. Specifically it is directed at Armour and Co. for refusal to enter into collective bargaining negotiations on a national basis.

Threats are made that the principal Armour plants in 14 cities will be closed down if the strike takes place, and it is more or less taken for granted that once the strike begins it will spread to the others of the "big four" packing houses—Swift, Cudahy, and Wilson.

All of this shapes up like a serious and costly strike; but on the surface there seems to be no reason to suppose it would have any more of a political angle than any other big costly strike.

However, the recent convention of 1400 delegates of the Packing House Workers' Organizing Committee in Chicago—which authorized a strike call in the event that Armour continues to refuse to negotiate—looked the unusual step of passing a resolution stating that the union is willing to leave with President Roosevelt the final decision whether negotiations should take place.

Beyond that, there is the fact that, in this strike,

ly dishonest if we try to load it all on the shoulders of the New Dealers. They did, in the main, what the majority of us wanted them to do—that is, try to avoid the penalty of our own folly. Now, when all of the New Deal expedients have failed, we raise a great cry that we want a return to the old, accustomed successful methods of a free economy.

If we do, then there is one vital move upon which the majority of us must agree, and that is, actually to restore COMPETITION.

THE DANDY LITTLE CLEANER-UPPER

Around Hollywood

By ROBBIN COONS

HOLLYWOOD.—The movie camera gets a lot of credit for trickery that it hasn't done. The camera itself is tricky enough, but mostly what it does is merely photograph the tricks prepared for it by experts in the art.

Veteran in trickery is short, genial Paul Widlicka, who has been doing movie magic for 20 years and still has tricks to spare. Mr. Widlicka (hereinafter to be called Paul) is Samuel Goldwyn's head wizard, and he's been doing some first-class "wizzing by Widlicka" for Gary Cooper's flicker, "The Real Glory."

Paul has been making "The Real Glory" a real gory flicker. A lot of his work will be wasted as far as American audiences are concerned, because American censors—and audiences—are a little squeamish. But in Europe the fans can take it, and they love it. They don't mind (at least we're told) seeing a Filipino's head cut off with a bolo. And they aren't particular about whose head is cut off, either.

To do this screen murder Paul found the smallest Filipino around town and put a false head and shoulders on him, with a neck of sponge rubber. Through the neck runs a tube from a bulb filled with red blood. When the knife whacks the neck, off goes the head. Simultaneously, the Filipino presses the bulb and great quantities of gore gush up. It's nice.

Shooting a man in the head is nice, too—and simple. The victim squeals and claps his hand over the spot where the "bullet" struck, and blood gushes through his fingers. The victim is holding a pigeon's egg filled with prop blood in his hand. Clap—and the blood flows.

"The Real Glory" deals with the Moro insurrection in 1906. The Moros (who doubtless would have liked their movies straight and gory) were bloodthirsty fellows who went around puncturing Filipino abdomens at every opportunity. There are several Filipinos given the treatment (but for European fans only) in the picture. Paul put false fronts on the selected victims—fronts equipped with zippers. A thread in the hand of a prop man off-screen jerked the zipper open at the proper moment and there you were. There everything was, in fact, but not (be duly grateful) for the American screen.

Paul used to be a cabinet maker.

The Family Doctor

Dr. Morris Fishbein

After the disease called infantile paralysis has wrought its ravages upon the body of the child or adult, the orthopedic surgeon makes a study of the muscles and nerves of the body to find out exactly what harm has been done.

In this examination he studies, first of all, the ability of the person to walk and the characteristics of the limp which may be left by the disease. Then he carefully tests each one of the groups of muscles in the legs, and in the arms, regarding whether or not these muscles can function at all and also by means of various spring devices the amount of power that the muscles can exert.

This is a laborious and time-consuming process. In general, the muscle groups are classified as normal, weak, very weak, or else being without power. Examination is also made of the spine and of the muscles of the abdomen.

The deformities most frequently seen are contractures of the hip, of the knee, overextension of the knee and of the feet, as well as deformities in the arms and hands. These deformities develop because of the unbalanced action of the muscles—the one that is paralyzed being unable to pull against those that are not paralyzed. As these muscles fail to be used, they tend to degenerate so that contractures occur and also fibrous changes.

After the specialist has determined exactly how much damage has been done, he then considers the possibilities for bringing relief or cure. His first step is usually the correction of deformities. Of course, if the orthopedic surgeon has been called in consultation early, he may be able to correct those that are relatively simple. Obviously such an operation demands a thorough knowledge of the muscles and of the mechanics of muscle action. In the forearm, for example, the muscles may be shifted about at the will of the surgeon to replace those that are not paralyzed. Before a muscle is moved, however, it must be determined that it has the power to do the work that will be demanded of it in its new location and that it will be possible in this new location to give it a relatively "straight pull" so that it can work at a good mechanical advantage. One must also be certain that the muscle for which it is being substituted is completely without function and that it will not regain its power after rest. Of course, should this occur, a new muscle imbalance will be developed in another direction.

operations are rarely completely successful. Ten or 15 years ago the possibility was approached with a great deal of enthusiasm, but nowadays we have begun to be able to evaluate the results.

In some of these operations muscles of one group which pull in a certain direction may be released from their attachments and attached to other bones so as to pull in the opposite direction. Obviously such an operation demands a thorough knowledge of the muscles and of the mechanics of muscle action. In the forearm, for example, the muscles may be shifted about at the will of the surgeon to replace those that are not paralyzed. Before a muscle is moved, however, it must be determined that it has the power to do the work that will be demanded of it in its new location and that it will be possible in this new location to give it a relatively "straight pull" so that it can work at a good mechanical advantage. DOUG CORRIGAN was forced to give up the traditional leather jacket for a white suit at his wedding. First landmark on his latest wrong-way flight... German war dead, buried in France, are being transferred to German soil. That is out of line for Herr Hitler. Usually, he just takes in the territory and saves the work... Rome has asked Coney Island heads for information; Italy may build one of its own. That would give Mussolini another excuse for baring his chest.

The United States holds 58 per cent of the world's visible gold supply. Visible to whom? In England, says Joe Kennedy, ambassador to Britain, one makes good by what he "prevents happening rather than causes to happen." Something like the head of a business firm.

REMEMBER, just a couple of years ago, when the "tax tokens" swept the country? They were the little discs or other counters used to pay sales taxes in fractions of a cent, so that taxpayers need pay no more than actuality due... But now they are actually in use in only a few states. The "billion-dollar coin" refuses to become a "fraction-of-a-cent" country?

Alabama, for instance, used lead tokens. It couldn't keep the public supplied. This was because, the Federation of Tax Administrators found out, people were using them for lead washers in applying tar paper to roofs. At 1 mill apiece, they cost less than washers... Money-thinkers, please note.

FUTURE well-being of women depends on democracy, says a feminist. Say, men, do you suppose we are really going to get it in the home, too? President Roosevelt can't be flattered about the House agreement to establish a library for his papers. The representatives accompanied the tribute by slashing the proposed admission charge to two bits.

Summer "barn theaters" offer a fine reprieve. But in one of them, it's reported, the same cow sticks her rear through the window in every drama.

MEDICINE can see no ill effects from drinking ice water in hot weather. The profession specifies water, however... Congress is still in session. This may turn out to be a plot by congressmen to make their wives go on vacation by themselves.

Well, the old crystal ball has come thru again... The Pampa Oilers are on top of that. Well, the Tex-New Mex heap today, you will notice by a glance at the standings on the sports page... The crystal sometimes falls, but not often... It said Pampa would be on top by July 15... It went on top July 25... Have you ever mistaken a one for a two?... And, as far as that's concerned it was on top even before July 15, if you wish to get technical about it.

Oilers Leave Home Pecked In League Lead

Barons Licked Again, 16 To 7 For 3 In Row

A bunch of slur-happy Oilers left Pampa today for the All-Star game in Lubbock tonight, and from there they will go to Big Spring for three games before returning home on Saturday night to oppose their league rivals, the Clovis Oilers, in a three-game series, one Saturday night and two on Sunday afternoon. Then Berger will be here for a series.

The Oilers closed their most successful home stand for the season last night with a 16 to 7 victory over the Big Spring Barons. It was the Oilers' seventh win during their nine-game home appearance which was needed to send them into undisputed leadership in the league as Lubbock dropped an 8 to 7 decision to the rejuvenated Berger Gassers.

Manager Grover Seitz and his Oilers came home the night of July 17 and in the nine games played since then they slugged out a total of 106 base hits or an average of nearly 12 a game. The Oilers took three from Midland, three from Big Spring and then dropped two out of three to the cellar-dwelling Lamesas.

New Pitcher Relieved

Hallbour, new pitcher taken on by the Oilers when he was released last Saturday night, by Lamesa, was Manager Seitz' choice to tame the Barons. The big fellow got along fairly well behind a long lead until the fourth inning when two walks and four hits, including Stacey's triple, accounted for four runs. Then Seitz called in Verrengia, the slender veteran of the staff pitched sensational four-hit ball rest of the way.

Trantham, One of the Barons' Best

Trantham, one of the Barons' best, started but was relieved by Jodie Marek after a couple of Oilers' slughters. Marek, one of the league's leading pitchers, was hit hard and he was relieved by Conover, who finished.

Each Team Scored in Opening Inning

Each team scored in the opening inning. Big Spring when Lloyd singled and Walton doubled and Pampa when Moss tripled and scored on a wild pitch.

Oilers On Spruce

The Oilers put on a scoring spree in the second. Bailey opened the show with a walk and Hallbour singled. Moss forced Hallbour but Jordan and Seitz came through with singles, scoring two runs. The Oilers led the game 5-0.

Marek Nicked for Four Hits

Marek was nicked for four hits and two runs in his two innings on the hill, so Conover was sent in to finish.

Jordan Leads Attack

Jerry Jordan led the Oiler attack with a double and three singles on six times at bat. "Little Dynamite" Guynes came through with three singles on his four times up and Lloyd Summers bagged three singles on five trips to the plate.

Once More Walton Gave Oiler Pitchers Misery

Once more Walton gave Oiler pitchers misery when he hit a home run, double and single.

Manager Tony Rego Put on One of His Shows

Manager Tony Rego put on one of his shows when in the second he didn't like an umpiring decision. He called all his players in and they held a huddle around the plate with the umpire in the middle. While that spectacle was going on, Manager Seitz and his players had the ball and strike umpire dizzy demanding him to forfeit the game.

Later Rego Marched into Left Field

Later Rego marched into left field and escorted Hillin to the bench when he missed a fly ball and a few minutes later he raced into centerfield and gave Walton a lecture when that worthy threw to third instead of second, allowing two runs to advance.

Guynes Stalls Show

Pampa's "Little Dynamite," Eddy Guynes, staged another show for the

Who's Who On The Oilers

(Note to readers: The following is one of a series of biographical and analytical articles about individual members of the Oilers. The author, Sam Fenberg, knows the team probably as well as any fan in town. Sam, as most sport fans know, is the popular KPDN announcer of Oiler games.)

BY SAM FENBERG.

"Old Harve" Hutton as his teammates call him, is the grand-daddy of the Oiler baseball team. Every team must have a few old heads and Hutton has been a great help to Grover Seitz in handling all of the youngsters that have tried to win regular berths with the Pampa team.

A native of Allus, Okla., Harvey first started his career with a semi-pro team of Tipton, Okla., where he played during the seasons of 1927 through 1931. During these four years Hutton was a great pitcher, beating some of the fastest semi-pro clubs in the nation. The Muskogee team of the Western Association made Harvey such a great offer that he signed to pitch for them during the season of 1932. Due to the depression that hit throughout the nation that year when the Muskogee club suffered severe losses during the season baseball was not resumed the next year and Hutton was then a free agent to make any deal he could for himself.

Baseball for the next few years was not so profitable and when Harvey had an opportunity to again play semi-pro ball with a steady job throughout the entire year, he moved to Pampa where he was employed by the Coltex company and played ball with this team during the seasons of 1934 and 1935. The seasons of 1936 and 1937 found Hutton as a member of the famous Road Runner team of Pampa which gained recognition throughout the entire southwest as one of the fastest semi-pro teams in the nation.

When baseball was forgotten in Pampa for the season of 1938, Hutton retired outside of pitching several games for the Clinton, Okla., team where he soon regained the form that made him one of the outstanding pitchers that ever pitched in these parts.

The admittance of Pampa into organized baseball offered Harvey a chance to sign with Pampa and he has been a regular starter, participating in 17 games with a record of nine wins and six losses. Always ready to take his turn on the mound, Harvey is one of the hardest working players in the line-up and with the knowledge that he has gained over a long period of years in baseball he has proven to be a great help to the Pampa team.

Hutton is married and has a boy christened Harvey Jr. and both Mr. and Mrs. Hutton intend to make Pampa their permanent home. A real veteran in this old game of baseball will make Hutton a valuable man to always have on the payroll and his knowledge lends a great assistance to Manager Grover Seitz many times throughout the season.

game was called at the end of the sixth inning with the score 129 to 119. One of the shortstops made 24 errors in one inning.

Personal Mention: Bo McMillin, Indiana football coach, is painting his house. When a numerology expert failed to find out what all the fuss was about, Hutchinson, Okla., club in the Western Association, the Hutchinson Herald decided to do something about the situation. So now it prints the club standings in reverse.

Six Pampa Golfers To Play In Tourney

Pampa's entries in the Amarillo Country Club Invitation tournament which will open Thursday will not be numerous but they'll be choice, according to Pete Nossent, Pampa Country club pro.

Six local golfers have already signified their intention of playing in the tournament and several others are still undecided. Entered to date are Grover Austh, Jr., Lefty Cox, E. W. Voss, Larry Tennyard, Floyd Ward and Tommy White.

Sixty golfers have entered but the field is expected to reach 200 before the deadline.

Frank Wolff Becomes King Of Wrestlers

Frank Wolff regained his crown as king of the lightweights here last night when he took two out of three falls from Pete Belcastro in the main event of Cliff Chambers' wrestling program. It was a rough and gory affair from the opening gong.

Belcastro took the first fall in 16 minutes when Referee Otto Ludwig became temporarily blind and couldn't see Belcastro's Wolff's foot up in the ropes. Wolff had to pat the mat.

Belcastro opened proceedings by slugging and biting and then using one-finger holds. When the referee failed to stop the punishment, Wolff took command and slugged his way out of trouble.

The second fall lasted 15 minutes with Wolff winning with a step over toe hold. Wolff was still mad over the first fall when he entered the ring and he swarmed Belcastro from the opening gong.

The Wolff took the third and deciding fall in eight minutes after Ludwig had allowed Belcastro to use the ropes and foul repeatedly. Fans threatened to get in the ring and do the refereeing but Ludwig woke up in time to aver a riot. Wolff took the fall with another step over toe hold.

Charl Carr of Indiana turned out to be the new grapple on the card and he made a hit on his first appearance. He took everything Detroit's Dale Haddock could give and then came back to punish Haddock with holds. Carr turned out to be a past master at using elbows, knees and slams, all in a legal manner.

When Karl Gray failed to put in an appearance, Sugi Hayamaka took over but dropped a 17-minute decision to Billy McEwin in the opener.

North All Stars Doped To Beat South Tonight

Boasting more hitting power, the northern division team is favored to capture the West Texas-New Mexico league's first annual all-star battle at Lubbock tonight from the southerners.

The team picked from Amarillo, Pampa, Borger and Clovis has a .344 average at bat, led by Gordon Nell of Pampa, who has hit at a .416 clip. The team from Lubbock, Lamesa, Big Spring, and Midland has an average of .323.

Probable starting mound selections are Lefty Lucas of Lamesa for the south and Roscoe Hunt of Clovis for the north.

All box seats for the big game have been sold out since last Saturday. General admittance price is 40 cents and the erection of new bleachers has increased the seating capacity of Parris field to 4,000. Officials say that tonight's crowd will be the largest ever to see a baseball game in Lubbock. Starting time is 8:30 o'clock.

Potocar Replaces Rabe.

Manager Dick Ratliff of the North side is expected to name Borger's Potocar to catch in the place of the injured Neal Rabe who won the starting job in the voting. Rabe is nursing a serious cut on his foot and will be out of the game for several weeks.

Manager Jodie Tate of the South-erners will have Hack Miller, Lubbock's home run artist, for his starting catcher.

The two teams stack up as just about even in the matter of hitting and fielding averages. However, one of the top hitters hereabouts is whether Gordon Nell, league's leading hitter of Pampa, or Miller will do the long range firing.

Ratliff will have Dorman of Amarillo, Grabek of Pampa, and Potocar of Clovis to take over the mound duties when Hunt's time is up.

Harris, Marek and Piet.

When Lucas gets through with his assignment Manager Tate will pick his next hurler from Harris of Lubbock, Marek of Big Spring, and Piet of Midland.

Umpires for the game were assigned by League President Milton E. Price. The officials will be Buster Capps, Don Fritz, Steve Smith, and Earl Cartwright.

The other players of the teams, listed by positions:

NORTH—First base, Wagner; second base, Barnhill; shortstop, Guynes; third base, Harrison; left field, Smith; center field, Seitz; right field, Nell; Pampa; Adams, utility.

SOUTH—First base, Wooten; second base, Decker; shortstop, Parker; third base, Capps; left field, Stacey; center field, Fullenwider; right field, Carr; Spangler, utility.

League Leaders Home For Series

By HUGH S. FULLERTON Jr., Associated Press Sports-Writer.

It's hard to see any way to keep the current major league leaders from improving their positions during the way today, but the way of warning, a couple of visiting teams from other sections may be red hot.

New York's mighty Yankees and Cincinnati's Reds looked practically invincible on their recent road tours.

The Yankees showed all their usual batting power and the pitching was so good Manager Joe McCarthy was hard put to give his moundman more than one workout a week.

The Reds didn't hit as hard, but they didn't have with the kind of floundering they got from Paul Deringer, Bucky Walters, Whitey Moore and company.

And it's axiomatic that any team should be able to do better in familiar surroundings than it can while traveling from one strange park to another.

So much for the leaders, but how about such contenders as the Chicago White Sox, Boston Bees, and Detroit Tigers? Only the Pale Horse are in position to bid for the lead, but they're all in good spots to cause trouble.

The White Sox open at Boston today with a doubleheader against the second-place Red Soxers. The Sox have a better record than they did last year and they're just about five in the west and they just about had to in order to keep their three-game margin over the Chicagoans.

The White Sox, who have climbed from fifth place to third with 18 victories in 25 games, took nine out of 13 from their eastern rivals, including two of three from the Yankees.

The Bees were the only eastern team to get an even break against the National league's first division. And they have the pitching to go places.

The Giants have lost nine straight, their mound department looks shot and they have practically no infield left. They slipped off second to sixth in the standings, but they're still dangerous. Bill Jurge's suspension will be up Wednesday so they'll have a shortstop again and Catcher Harry Danning is due to rejoin the team in St. Louis. Tom Hafey may fill the bill at third base. He'll have to go for George Myatt, underwent a knee operation yesterday and won't be back for a long time.

Brooklyn's Dodgers are the most wrecked club right now, even though they picked up a .300 hitting out of Heller when they bought Fred (Dixie) Walker from Detroit yesterday. Besides Whit Wyatt, their most reliable pitcher, who is out with a leg injury, they've lost Van Mungo for some six weeks and Cookie Lavagetto and Art Parks are getting around on wobbly pins. Mungo went into run for Parks Sunday, slid for second and broke his left ankle.

Denver Post's Tournament To Open Thursday

DENVER, July 25. (AP)—One of the fastest fields in recent tournament history will open the Denver Post's 24th annual baseball tourney at Merchants park Thursday afternoon.

The lineup includes the defending champions, the Duncan, Okla., Halliburtons, and the winners of the first, second and fourth places in the national semi-pro tournament at Wichita, Kas., last year. These clubs are the Buford, Ga., Bona-Alens, the Mount Pleasant, Texas. Other entries include the Ethiopian Clowns, a negro outfit that calls Florida its headquarters.

Mixed-Foursomes Enjoy Tourney

Several Pampa golfers enjoyed a mixed-foursome tournament over the Pampa Country club course Sunday afternoon with Russ Allen's team defeating Art Swanson's team.

The mixed-foursome tournament was the first staged here and the entries were not as numerous as expected. Those that played, however, got a big kick out of the game and are calling for more tourneys.

Eddie Curtis Wins Bronc Riding Title

SALT LAKE CITY, July 25. (AP)—Eddie Curtis of El Reno, Okla., rode high, wide and handsome to capture the bronc riding championship in the Covered Wagon Days rodeo which ended last night.

Ward Watkins of Thatcher, Colo., was second and Vic Schwarz of Wichita Falls, Texas, third.

The calf roping title went to Royce Sewall of Clarksville, Texas. Jim Whiteman of Clarksville, Texas, rode the Brahma bulls to a championship.

Defeats Mar Missions And Rebels Record

(By The Associated Press.)

The San Antonio Missions and Dallas Rebels had their winning streaks broken last night and the Oklahoma City Indians ended their long drought on victories.

After winning seven straight the Missions—still leading the Texas league—were dropped last night by the Shreveport Sports, 7 to 6.

Ed Greer stopped Dallas' row of wins at six when he pitched his Fort Worth Cats to a 3 to 1 victory.

Ed Greer allowed Tulsa eight scattered hits as the Indians broke over into the win column with an 8 to 1 conquest.

Hal Manders pitched the Beaumont Exporters to a 4 to 0 shutout over the Houston Buffs.

Tonight's games:

Beaumont at Dallas.

San Antonio at Fort Worth.

Shreveport at Tulsa.

Houston at Oklahoma City.
