Mother, Two Small Sons Plunge 13 Stories To Death

Tragedy Seen Aftermath Of Nazi Invasion

Woman Brooded Over Lost Fortune In Czechoslovakia

CHICAGO, Aug. 4 (AP)—A middle-aged mother and her two young sons—members of a wealthy Czechoslovakian family whose fortune disappeared in the Nazi absorption of their homeland—plunged to death last night from the thirteenth floor of the Conroy hotel.

The three bodies struck almost simultaneously on the sidewalk of Michigan avenue. A taxi driver shouted in horror and a park policeman, William Goudeau, standing some 300 feet away, came running. The woman was dead when she arrived. He thought the little boys might still be alive and rushed their broken bodies, clad in sun suits, to a hospital but they, too, were dead.

She was Mrs. Karl Langer, 43, and her two sons, Karl Tommy, 6, and Jan Michael, 4. The husband and father, a 46-year-old former textile manufacturer in Prague, Czechoslovakia, was found in his basement apartment home on the West Side.

Mrs. Hermine Well, a relative, said the Langers were Jewish. Mrs. Langer's left wrist was slashed and a blood-stained razor blade was found in the hotel room.

When Mrs. Langer registered at the hotel she asked for "a nice airy room."

On the way to their room she told the elevator operator: "The boys are tired; they are going to see their daddy in the morning."

Shocked by the tragedy, his unfamiliarity with the English language adding to his anguish, Langer was taken to Central police station by sympathetic officers. He clutched

U. S. Seeks Hoax Sender Of SOS

MIAMI, Fla., Aug. 4 (AP)—Federal radio officials pursued their quest today for the perpetrator of an apparent hoax that caused a day-long search by the coast guard and three private vessels for a phantom burning ship.

Arthur S. Fish of the Federal Communications Commission office here said investigators were sifting clues indicating the distress messages which were sounded for several hours early yesterday might have come from a land radio station in the Tampa area.

Senders of spurious SOS signals are liable under federal law to a \$10,000 fine and three years' imprisonment.

For seven hours commercial and coast guard radio communication along the Atlantic seaboard was tied up as an evidently inexperienced operator sent dramatic and fantastic messages purporting to come from the British oil tanker Dunkwa Lloyd of London later reported the Dunkwa was safe at Rotterdam.

Humble Application To Be Heard Aug. 16

AUSTIN, Aug. 4 (AP)—Chairman Lewis A. Smith of the railroad commission announced today an application for increased allowances by the Humble Oil and Refining company, largest operator in the East Texas field, would be heard Aug. 16.

Smith testified a disagreement between Commissioners Jerry Sadler and Ernest O. Thompson, who, while agreed on a date of Aug. 14, differed on the scope of the proposed hearing. Sadler wanted to hear Humble's application only while Thompson preferred listening to engineering testimony from all applicants, including Gulf, Sinclair, Selby, and other companies.

He Wins Wife-Colling Contest—But, How!

WARSAW, Va., Aug. 4 (AP)—Edward Garland's booming shout won him the wife-colling contest at the Richmond county picnic—bawd he gets home.

The judges—all women—awarded him the prize for his call of: "Hey-y-y, Battle-axe!"

Roche Elected Head Of Legion

Group To Plan Community Picnic

The third annual community picnic, sponsored by the local post of the American Legion, will begin to take shape tomorrow when a committee composed of I. J. Huval, Paul D. Hill, M. F. Roche, and Charlie Maisel meets to make preliminary plans for the event. The picnic is to be held on Labor day.

Roche, member of the committee, is the new commander of the Kerley-Crossman post. He, and other new officers, were elected at the post's meeting last night, succeeding Commander I. J. Huval, also a member of the community picnic committee.

Ray F. Barnes was elected first vice-commander, E. J. Dunigan, Jr., second vice-commander; W. C. de Cordova, finance officer; Rev. C. Gordon Bayless, chaplain; A. D. Monteth, historian; C. E. Cary, service officer; Harry Beall, sergeant-at-arms, and Charles Henson, color bearer.

Gabe Hagerty and Fred Pender were election judges. Installation

London Blast Injures Scores

LONDON, Aug. 4 (AP)—Scores were injured today, 12 seriously enough to be kept in hospitals, when a gas explosion attributed to a short-circuited fire-alarm box tore through the roof of a building near St. Paul's cathedral.

A number of plain windows on the south side of the famous cathedral were broken, but stained glass windows escaped damage.

The explosion occurred in a building being demolished. Workmen were flung 20 feet from girders of the building and police

Workmen were flung 20 feet from girders of the building and police combed the ruins for any possibly trapped.

Shoppers cut by flying glass and other fragments were among the injured. Some 50 casualties were admitted to hospitals.

Shortly afterward an explosion occurred in a box of letters being unloaded from a mail truck at Preston railway station and a few minutes later a fire broke out in a letter box at Blackburn, indicating a renewal of sabotage attributed to the Irish Republican Army.

The terrorist campaign has been dormant since one man was killed July 25 in an explosion at King's Cross station.

Mexican Oil Problem Settlement Doubtful

WASHINGTON, Aug. 4 (AP)—Diplomatic circles were pessimistic today over the possibility of settling the Mexican oil controversy on the basis of that government's new proposals to the American oil companies.

The chief point at issue appeared to be that of control and management of the American expropriated oil properties in Mexico, valued unofficially at about \$150,000,000.

The opinion was expressed in some quarters that the American companies were not being offered sufficient voice in the management of their holdings to enable them to make enough profit which over a period of years would pay them back for eventual loss of the properties.

Congress And FDR In Accord On Defense

WASHINGTON, Aug. 4 (AP)—President Roosevelt's program for the greatest expansion of American defenses since World War days was enacted by the Congress today, but leaders regarded ruefully the unsolved questions of foreign policy which will confront them in January.

The dozen or so principal enactments of this session dealing directly with foreign affairs involved a decision on the basic questions dividing Congress and the President:

How far should the government go in protecting American interests abroad and in cooperating with other nations in seeking to safeguard world peace? Should the sale of arms to warring nations be permitted?

An exception to the foreign policy discord was the sign of agreement among some leaders of both parties on the administration's sudden and unexpected notice cancelling the 199 commercial treaty with Japan.

This action clears the way for Congressional debate on an embargo against shipment to Japan of raw materials aiding that nation in its undeclared war on China.

Thus, unless a European explosion should bring a call for a special session in the meantime, Congress in January will face the two momentous issues of the Japanese embargo and revision of the neutrality law.

From leading senators of both parties, Mr. Roosevelt has extracted the promise neutrality legislation will be released from the foreign relations committee and take its place among the very first subjects debated when Congress reconvenes. The committee declined to send the legislation to the Senate floor this year after the House defied administration wishes and retained a modified embargo against the sale of arms to warring nations.

The warm reception given the President's defense recommendations was in contrast with the cold shoulder turned to some other proposals.

Pampa Gets .03-Inch In Thursday Shower

Pampa's first August precipitation was recorded when a .03-inch rainfall was measured Thursday afternoon in the official U. S. gauge at the KPDM transmitter station east of the city.

The light shower yesterday pushed the annual amount of rainfall to date up to 14.49 inches. The July total was 1.38 inches.

July precipitation in Pampa totaled 1.38 inches, exceeding rainfall for two of the preceding months, February and March. February has been the driest month to date, with only .04-inch precipitation. March rainfall totaled .35-inch.

June was Pampa's "rainy season," with precipitation of 5.66 inches, the largest amount of any month for the year to date.

Texans Voice Opinions On John Garner

Lone Star Delegation Would Hate To See Showdown Fight

WASHINGTON, Aug. 4 (AP)—The Texas congressional delegation would hate to see a "showdown" fight arise between Franklin D. Roosevelt and John Nance Garner in the 1940 presidential campaign.

Reluctantly they made replies to queries as to how they would stand should such a situation arise.

On the one side there's party loyalty to the democratic chief, on the whole sincerely admired. On the other there's close friendship, admiration and high esteem for a fellow Texan.

Best example of the dilemma is said to be the case of House Majority Leader Sam Rayburn of Bonham, friend and close advisor of the President. Colleagues say he and Vice President Garner are each other's closest friend.

Rayburn declined to discuss his views, but other Texas congressmen with whom he has served many years said if a final showdown did come he undoubtedly would stick to Garner.

"The political views of the vice president's and Rayburn's certainly coincide more than do those of Rayburn and President Roosevelt," commented a veteran Texas legislator "not to mention the bond of friendship between Sam and Mr. Garner."

Sheriff Checks On Jailed Youth

A youth found lying unconscious beside the road a half mile east of Pampa yesterday morning is being held in the county jail here for investigation, Sheriff Cal Rose said today.

After regaining consciousness late yesterday afternoon, the youth told Wesley hospital attendants that his name was Tom Morris and that his home was in Detroit. Later he told Sheriff Rose that he was walking along the road near a refinery (Doninger Refineries, Inc.) when "everything went black and I didn't remember anything until I woke up in the hospital."

Sheriff Rose took the youth to the court house to "clean up" and it was there that Constable Charlie Nicholson of McLean recognized the youth as the one who had fainted near McLean Wednesday afternoon.

Constable Nicholson said he took the youth to the McLean jail after he had regained consciousness, fed him and gave him a bed for the night and after giving him breakfast yesterday released him. He said there were three men with the youth.

'Hot Foot' Joke Costs Life Of Its Victim

PHILADELPHIA, Aug. 4 (AP)—A "hot foot" Carl Allen's friends gave him was no joke. Because of it he died.

The 27-year-old jobless stevedore slipped while in his room with three friends last month. They poured a cleaning fluid on the sole of his shoe and touched a match to it. Allen's pants caught fire and the burns later became infected. He died last night.

90-Mile-An-Hour Chase Ends As Fleeing Car Hits Dirt And Rolls

Old Man Luck rode with Pampa police officers and a pair of fleeing car thieves at an early hour this morning. The chase started at the "Four Corners" west of the Talley addition and ended 10 miles due south when the Buick sedan being driven by the two men overturned after striking soft dirt.

Officers Jeff Guthrie and Lawrence Flaherty, driving in the police car, said they reached a speed of nearly 90 miles an hour as they chased the speeding Buick over the dirt road. The officers said they were gaining on the fleeing car when it overturned in a cloud of dust and rolled over at least four times.

The two men came out of the wreck with only slight cuts and bruises. The car, owned by Geo. Cain, proprietor of the Marland Hotel, Borger, was badly damaged.

This morning Deputy Sheriff Dale Lane of Borger came to Pampa and took charge of R. L. East of Borger and E. J. Sargent former Pampa

HATCH: HOT MAN IN WASHINGTON

New Mexico's Senator Carl Hatch, who added political heat to Washington high temperature when he obtained passage of his bill to keep government employees out of politics, tries to cool himself off as he walks down Capitol steps following a session in senate chamber. To help keep the senator cool, President Roosevelt signed the bill day before yesterday.

Charles D. Arnett, one of four Democrats seeking gubernatorial nomination, has asked Attorney General Frank Murphy for "protection under the new law charging he is illegally harassed by use of the WPA." He also requested the state attorney general to "see to it that state employees do not violate the spirit of the law."

Observers generally concede that the Democratic fight is between John Young Brown, openly supported by Senate Majority Leader Alben Barkley, and Lieutenant Governor Keen Johnson, backed by Governor James B. Hargis, and Senator A. B. "Happy" Chandler, Ulysses G. Foster of Harlan county is the fourth candidate.

There also are four Republican candidates for governor, John Sherman Cooper, King Swope, G. Tom Hawkins and L. O. Smith. The race, observers say, appears to be between Cooper and Swope.

Brown claims support of the New Deal. Johnson has been endorsed by the state organization of the American Federation of Labor.

Parliament Adjourns After Warning Japs

LONDON, Aug. 4 (AP)—Parliament adjourned today for a two-month vacation after hearing Prime Minister Chamberlain warn Japan Great Britain might find it necessary "in certain circumstances" to send a fleet to the Far East.

The prime minister, in one of the bluntest declarations he has made on British-Japanese difficulties, said he hoped no one would think "it absolutely out of the question for such circumstances to arise."

"I do not say that as a threat," he added, "but only as a warning."

Vernon Man Shot By Vagrant At Bastrop

BASTROP, Aug. 4 (AP)—Harris Shelton, 30, of Vernon, was shot in a railroad freight car near here last night by a vagrant.

Garland Rogers, also of Vernon, Shelton's companion, told officers there was no argument preceding the shooting.

The assailant quit the train at Phelan, three miles from here. Shelton was brought to a hospital here, where his condition was reported serious.

Senate Bloc Wins Battle On Loan Cash

Drive Renewed To Adjourn Congress By Tomorrow

WASHINGTON, Aug. 4 (AP)—\$119,000,000 farm fund was restored to the session today by a Senate appropriation bill by a Senate committee today in a renewed drive to adjourn Congress tomorrow night.

The action came almost simultaneously with endorsement by President Roosevelt of Secretary Wallace's insistence that the money, for the commodity credit corporation, be restored to the third deficiency bill, from which it was slashed by the House.

At his press conference the President said the secretary of agriculture was right in emphasizing need for \$119,000,000 for the federal loan agency.

Wallace urged that the Senate write the sum into the third deficiency bill from which it was eliminated by the House. The money, Wallace said, was essential to continuation of the farm loan program, and he declared prices of major farm crops would fall and the entire farm program be threatened, if it was not granted.

Controversy over the farm fund was the main threat to adjournment Saturday night. Senate Majority Leader Barkley said the leadership still hoped the plan to quit then would go through.

Barkley said he planned a night session to speed work on the deficiency measure.

Stamford Man To Speak In Pampa

C. E. Coombes, Sr., of Stamford, will be the principal speaker at the monthly joint Chamber of Commerce luncheon next Tuesday noon in the basement of the First Methodist church. President Farris Oden of the Board of City Development announced today.

Mr. Coombes is an eminent West Texas and an attorney at Stamford. He is a past president of the West Texas Chamber of Commerce and Republican primaries Saturday will be the nation's first since the Hatch law, prohibiting most federal employees from participating in elections became operative.

Charles D. Arnett, one of four Democrats seeking gubernatorial nomination, has asked Attorney General Frank Murphy for "protection under the new law charging he is illegally harassed by use of the WPA." He also requested the state attorney general to "see to it that state employees do not violate the spirit of the law."

Man Confesses He Shot Texas Woman

LOS ANGELES, Aug. 4 (AP)—Del. Lieut. Frank Jagers said today Fred H. Little, 45-year-old aviation plant employee, had confessed shooting to death Mrs. Mammie Louise Moore, 43, of Denton, Texas, last Friday night.

Little, arrested last night, already had been named in a formal murder complaint. Jagers quoted Little as saying he and Mrs. Moore quarreled during the evening and that she refused to enter the home compartment of his car. She took his revolver and shot him in the breast.

Then, the officer continued, Little admitted seeing the gun and shooting Mrs. Moore three times, later leaving her body in a Long Beach park.

Injuries Fatal To Rail Foreman

ADA, Okla., Aug. 4 (AP)—Joe Stridman, 50, Denton, Texas, wife foreman of a crew of Negro railroad workers, died today of injuries suffered when a motorcar and trailer jumped the tracks of the Kansas, Oklahoma and Gulf railway between Bristow and Wapanucka yesterday.

Eight of the 70 Negroes in the crew were injured but were reported recovering.

Workmen said a storm had blown a cattle guard onto the tracks.

Bathing Counteracts Torrid Temperatures

When the red line on the thermometer heads for the ceiling and the sultry summer sun beats down, there's nothing like bathing to lower the temperature and raise the morale.

Even though the mercury keeps on soaring, the combination of soap and water makes for comfort. For the best way of keeping cool in summer is keeping clean.

A warm bath with a cool shower or rinse at the finish is preferable to a cold one. Cold water acts as a stimulant and once the initial chill subsides the final reaction is likely to be one of heat. Warm water, on the other hand, brings a soothing reaction. Although it first draws an increased amount of blood to the skin surface, the blood soon subsides to normal and a feeling of coolness results.

Another reason why warm baths, with a good lather of soap, make for a cold one. Cold water acts as a stimulant and once the initial chill subsides the final reaction is likely to be one of heat. Warm water, on the other hand, brings a soothing reaction. Although it first draws an increased amount of blood to the skin surface, the blood soon subsides to normal and a feeling of coolness results.

Program And Party Planned For Endeavor

Young People's Christian Endeavor members of First Christian church met in the home of Mr. and Mrs. Tony Smith for a regular business and social session Thursday evening.

Following the devotional by Wayne Hutchins, plans were made for a program on "Beauty of the Common Place," to be given Sunday evening with Fred Lamb as leader.

The society will have a skating party Thursday evening of next week.

Refreshments of cookies, lemonade, and watermelon were served to Marjorie Whipple, Dorothy Wentworth, Fern Black, Lucille Smith, Helen Madeira, Wayne Hutchins, Emer Whipple, Charles Madeira, Fred Lamb, and Tony Smith.

Heroine in Sea Rescue Drama

Screams of 19-year-old Cynthia Chapin, alone of Hartford, Conn., brought tugboat to rescue of 32 companions in capsize cabin cruiser off Branford, Conn., after she swam a quarter mile through fog and darkness in Long Island Sound until her cries attracted attention.

Wheeler HD Camp To Be Held On Thursday

SHAMROCK, Aug. 4.—The annual encampment of the home demonstration club women of the county will be held Thursday at Lake 680 in the Ramsdell community.

Each member will have a special guest for the supper and program. Members of the group will enjoy boating and recreation at the lake during the afternoon and preceding the supper and program. Husbands of the club women will be guests at the supper and the program following.

The Ramsdell club will act as hostesses to the county group. Entertainment will be in the form of stunts given by each club. The County Recreational association will have a program. After the program the club women will remain overnight at the county group. Entertainment will be in the form of a swim and breakfast the next morning before returning home.

Mind Your Manners

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

1. What is the limit to the number of times that a man can cut in on the same girl at a dance?

2. Is it all right for the man to go first when getting into a boat with a girl?

3. In a large crowd—as at a ball park—should a man precede or follow the woman he is accompanying?

4. Should a person having a coughing spell ask to be excused from the company?

5. If you don't know exactly what a dish on the menu is, may you ask the waiter?

What would you say if— Your hostess says, "This is Miss Smith." Would you say—

(a) How do you do? (b) How do you do, Miss Smith? (c) Glad to know you?

Answers: 1. There is no limit, though he must not cut back on the man who takes her home. 2. Yes, so that he can help the girl. 3. Certainly. Best "What Would You Do" solution—either (a) or (b).

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

1. Should the silver for serving be placed beside the dishes or in them?

2. Should iced coffee be served a cup?

3. May paper napkins be used for a very informal meal served out-of-doors?

4. In setting a table, where should one place the water glass?

5. Is it proper to talk about sickness or accidents at the table?

Answers: 1. Beside them. 2. In a glass. 3. Yes. 4. At the tip of the knife. 5. No. Best "What Would You Do" solution—(b).

Church Members And Guests Have All-Day Picnic

Members and friends of Central Baptist church were entertained with a picnic at the ranch home of Mr. and Mrs. W. R. Morrison Thursday.

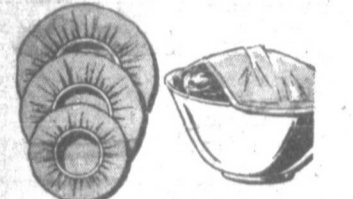

Each one attending took a basket lunch which was served at noon.

Green Inheritance Taxes Only \$540

AUSTIN, Aug. 4 (AP)—State inheritance taxes on the Col. E. H. R. Green estate which once was thought might net the state \$13,000,000, actually will amount to only \$540, Comptroller George H. Sheppard disclosed today.

Despite extended efforts and a lengthy fight waged by former Attorney General William McCraw, Texas lost her claim in the U. S. Supreme Court to the legal residence of the eccentric multi-millionaire.

Sheppard said the federal estate tax examiner for the court placed a value of \$2,710 on Green's real estate in Texas while the net value of the deceased's entire holdings was set at \$37,327,084.

State inheritance tax laws, the comptroller continued, provided the tax should be 80 per cent of the taxes determined by federal authorities. The federal tax on Green's Texas holdings figured \$675.

Judge Rules Husband Entitled To Use Of At Least One Room

CHICAGO, Aug. 4 (AP)—A husband is entitled to use his bedroom, if he has one, says Judge Joseph Sabath.

The judgment was pronounced yesterday after John Kubu, 61, complained he had three bedrooms in his home but had to do his sleeping in a cot in the kitchen.

He testified his wife occupied one bedroom and her two daughters by a previous marriage the others. Judge Sabath, deferring a decision on Kubu's petition for a divorce, declared:

"Meanwhile, one of the bedrooms must be placed at the disposal of Mr. Kubu and he shall be unmolesated in his use of it."

50 Persons Injured In 3-Bus Collision

ARLINGTON, Mass., Aug. 4 (AP)—Because a bus driver stopped his big machine suddenly to avoid striking a woman leading a dog across the street, three buses collided and approximately 50 persons, veterans and members of their families attending the Disabled American Veterans convention in Boston, were injured.

All of the injured were treated at nearby hospitals, but only six women were held for further observation.

A motorcade of almost 20 buses, carrying visitors on a tour of historic Concord and Lexington, was en route to Cambridge when the accident occurred.

Detective's Action Saves \$93 For Texan

NEW YORK, Aug. 4 (AP)—A suspicious pickpocket squad detective saved Eugene Dougherty of Ft. Worth, Tex., \$93.

The detective, James Abrams, saw Dougherty leave the Pennsylvania station with another man and followed. They stopped in an arcade some blocks away, and Dougherty's companion suddenly ran out. Abrams stopped him. He was booked as Harry Gibson and charged with assault and he was asked in the police lineup today whether he had struck Dougherty and taken his money.

"Well," Abrams quoted him as saying, "I had the money in my pocket."

Walter Doesn't Like To Have Girls Forget

NEW YORK, Aug. 4 (AP)—Susan Hayward, 22, movie starlet, walked into trouble when she dropped into the office of Walter Thornton, operator of a beauty model bureau, to say hello.

Rising to greet her yesterday, Thornton handed her a summons in a \$100,000 suit charging breach of contract.

"It was the only thing I could do," Thornton said, "I made her famous. When she left for Hollywood, on a contract I got her with Selznick, she kissed us all good-bye at the train—and cried—and then proceeded to forget all about us."

He said the \$100,000 was 10 per cent of the million he expected her to make on her film contract.

WAR AND A WOMAN BY BETTY WALLACE

Yesterday, Linda packs hurriedly for her trip home. The train leaves at 10:30. She has only three hours to get ready.

CHAPTER VIII

The car hummed over the road. Jimmy's eyes were intent, his hands on the wheel very sure. The needle of the speedometer hovered at 55, went to 60.

Linda did not notice what they were passing. All she saw was his profile, so impressively dear, so unutterably important to her even though two weeks ago she had never seen it at all.

"You and your dad are very close, aren't you?" Jimmy ventured at last. "If it—if it'll help you to talk, I wish you would."

"There's not much to say," she answered. "I—I guess it goes too deep."

"I lost my folks when I was 15," he told her slowly. "I think I know what you're going through."

"Fifteen! Oh, I'm so sorry..." "I missed a great deal. Marcia's father and mine were lifelong friends. He—he sort of adopted me, afterward. I was in prep school, and then at the Academy. And always there was the Kings' home to go back to."

She realized, suddenly, that he was explaining. Explaining about Marcia. They had been thrown together so much. She seemed to hear Marcia's voice again. "I've loved him since I was knee high."

Queer, that it was that same element of proximity, of long acquaintance, which had drawn her to George.

"My—my fiancé—has been a friend of Daddy's a long time, too," she was saying. "He likes the same things Daddy does. They have long arguments over what did or didn't happen in ancient Rome. They discuss Caesar's campaigns, and the meaning of obscure passages in the Aeneid."

on. "They're both—both bitterly opposed to big navies and armaments and all that. They think the common people of the country don't want them. They think all that leads to war."

"The Services are very cliquish and headstrong," he admitted. "No use saying we don't take the attitude that war is inevitable."

"But that's a defeatist attitude. That brings it so much closer—just admitting that it must come!" The color rose in her cheeks.

"Do you think all the nations of the world are apt to scuttle their battleships and dismember their fighting planes?" Now he was actually smiling. "It seems to me they tried that once."

SHE felt the sense of their argument slipping away from her. Her head ached. "I guess it doesn't matter what I think," she said wearily.

"It doesn't matter what a hundred million other small, unimportant men and women in the country think. We're not in the saddle. The handful who are, are running us. Oh, where are we now? How far have we gone? I wish we were in Mobile!"

Jimmy glanced at his wrist watch. "We've lots of time. The plane doesn't leave until 10:35 to-night."

"Thirty-five. It wasn't even dark yet."

"Would you like to stop and get some coffee?" There was gnawing emptiness inside her, she realized. "That would be fine," she told him gratefully.

He didn't answer. Linda closed her eyes. She never knew how long she had slept, but when she awoke, all warm and refreshed, her head was on his shoulder. She sat up swiftly, a blush prickling under her fair skin.

"His eyes smiled at her, wordlessly. The steady driving continued. Now it was twilight. There was a bridge, looming ahead. "We're going over Mobile Bay."

"You mustn't stay with me until the plane comes," she said in sudden panic. "Dump me at the airport. I'll be right in."

"No, you think I'm anxious to be rid of you, Linda?" He was trying to sound light. Her eyes dropped.

"Marcia will be anxious about you. And there's the party—" "Listen, Linda. All my eyes his tone had changed. His eyes had changed, and a bunch of muscles at his jaw were taut.

"Let's cut out this pretending. We haven't much longer. Sooner or later we'll have to talk this out, and I—I've got to do it now!"

"No, Jimmy. You'll be sorry. You don't mean it. You can't..." "I do mean it. And you mean it. A thing like this doesn't happen more than once in a lifetime to a man and a woman. It's happened to us. We didn't go looking for it. It just burst—like a bomb in our faces."

"Bomb!" she choked. "Oh—stop! Stop!"

"My father," she moaned faintly. "He's dying. Jimmy, Jimmy. I can't think of myself now."

Two-Way Spiral: There has been so much talk of the "vicious spiral" of descending business conditions, that we forget that all such spirals can work both ways.

The Nation's Press

THE STRIKE THAT FAILED (Los Angeles (Cal.) Times): One distinct gain from the incident (WPA strike) is that it has brought into strong relief the fact that the WPA itself has been a monumental failure.

EASY KIND OF RELIGION: In Henry E. Jackson's edition of the Thomas Jefferson Bible, in attempting to show how far away we have strayed from the religion of Jesus, the author quotes Mr. Wells:

LESSON IN DIVISION (Birmingham (Ala.) Age-Herald): Haygood Paterson, Alabama's commissioner of agriculture, has wired officials of Wisconsin, pleading that the western state remove its taxes and licenses on oleomargarine and salad oils.

Behind The News Of The Day: Pampa News Washington Correspondent: WASHINGTON, Aug. 4—The private opinion of WPA officials here is that the abortive prevailing-wage strike was just about the worst thing that could possibly have been served to the ordinary man on relief.

PICKETING RESTRICTIONS (Dallas, Texas, News): In labor disputes, people wax violent on the subject of their prejudices. It is difficult for one party to the squabble to respect the rights of the other fellow or concede that he has rights.

Trouble Ahead: The WPA administration itself doesn't like this a bit, and while it believes in rotating the jobs, it wants some more flexible system than the straight 18-month rule provided by Congress.

GAGSTER USES MR. CATTON: Some of the country's most accomplished drop-of-the-hat ribbers are members of Congress. One of them is Dudley White, Republican from Ohio.

Sharing The Comforts Of Life: By R. C. Hoiles: PROSPERITY DUE TO APPROACH TO LIBERTY OR NATURAL RESOURCES: A Pharisee who prays in public, with whom I come in contact, tries to set forth the idea that our prosperity in this country has been due to the quantity of our natural resources rather than the kind of a government that permitted the greatest liberty for EACH individual.

What Goes On Inside There?: ATLANTIC OCEAN, FRANCE, FRANKO, THE MEDITERRANEAN, AFRICA, HERBROCK: A cartoon illustration showing a man in a top hat looking at a map of the world with a question mark above his head.

The Family Doctor: Dr. Morris Fishbein: Each year in the United States about 200 people die as a result of serious injuries received while diving.

So They Say: Well, this is certainly very nice. It's one of the bets I missed—but then, I never would have been able to get away with it.

A Bid For A Smile: DUAL NATURE: A splendid example of vilification in political oratory is John Randolph's remark about Edward Livingston: "He is a man of splendid abilities, but utterly corrupt. Like a rotten mackerel by moonlight he shines and stinks."

Young Widow Takes Slain Sheriff's Job: RUSK, Aug. 4 (AP)—Sherokee county had a woman sheriff today. Mrs. Bill Brunt, 26-year-old widow of the sheriff who was shot to death in a pistol battle yesterday, was named his successor and took the oath of office immediately.

Sharing The Comforts Of Life

PROSPERITY DUE TO APPROACH TO LIBERTY OR NATURAL RESOURCES: A Pharisee who prays in public, with whom I come in contact, tries to set forth the idea that our prosperity in this country has been due to the quantity of our natural resources rather than the kind of a government that permitted the greatest liberty for EACH individual.

When it is pointed out that we still have the natural resources in this country and ask why we have the depression, this Pharisee contends that the wealth is in the hands of a few; that the Standard Oil, for instance, has so much of the natural resources, it is impossible to have prosperity.

This individual fails to realize that these natural resources are of no value to any owner unless they can be traded for other forms of wealth. Would this individual contend that we could have prosperity if these natural resources had not been discovered? Because this wealth has been discovered, he seems to reason that we are poorer; that we would be better off if we did not know where this wealth was.

It is just an example of the absurd reasoning of these meddlers and reformers. They will jump at any alibi as an excuse for their theories of government control not having accomplished what they proclaimed it would accomplish.

Of course, there could not be prosperity without some place to live and some natural resources to work on. There have been plenty of natural resources in Russia and South America, but these countries never developed the prosperity we did in America.

The American Indians with their lack of respect for rights in property would never have developed a high standard of living. And we developed this prosperity in America because the people loved liberty and established a form of government that more nearly permitted universal liberty than any other people in all the world.

It is very definite that, because we have digressed from this idea of universal liberty and adopted a creed of hate, covetousness and envy, and that some are too rich, we have the worst and longest depression in the world. With all the scientific inventions produced in the last quarter of a century, there now should be more production and more prosperity in this country than there ever has been in the past, if it were not for the shortcomings of the government in protecting the rights of each man to the fruits of his labor.

LESSON IN DIVISION (Birmingham (Ala.) Age-Herald): Haygood Paterson, Alabama's commissioner of agriculture, has wired officials of Wisconsin, pleading that the western state remove its taxes and licenses on oleomargarine and salad oils.

GAGSTER USES MR. CATTON: Some of the country's most accomplished drop-of-the-hat ribbers are members of Congress. One of them is Dudley White, Republican from Ohio.

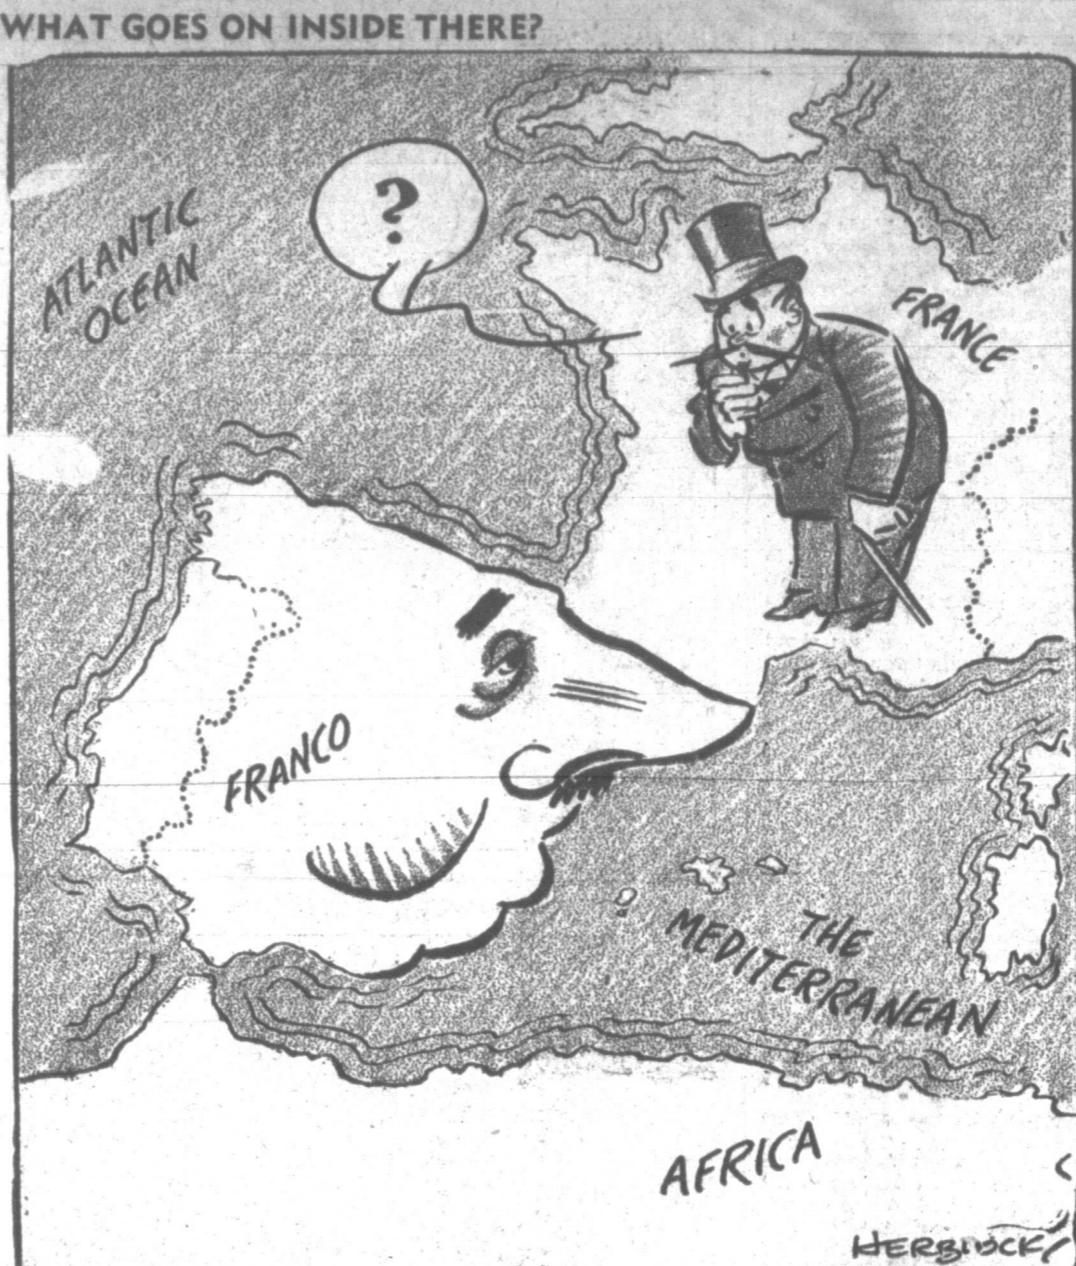

Sharing The Comforts Of Life: By R. C. Hoiles: PROSPERITY DUE TO APPROACH TO LIBERTY OR NATURAL RESOURCES: A Pharisee who prays in public, with whom I come in contact, tries to set forth the idea that our prosperity in this country has been due to the quantity of our natural resources rather than the kind of a government that permitted the greatest liberty for EACH individual.

When it is pointed out that we still have the natural resources in this country and ask why we have the depression, this Pharisee contends that the wealth is in the hands of a few; that the Standard Oil, for instance, has so much of the natural resources, it is impossible to have prosperity.

This individual fails to realize that these natural resources are of no value to any owner unless they can be traded for other forms of wealth. Would this individual contend that we could have prosperity if these natural resources had not been discovered? Because this wealth has been discovered, he seems to reason that we are poorer; that we would be better off if we did not know where this wealth was.

It is just an example of the absurd reasoning of these meddlers and reformers. They will jump at any alibi as an excuse for their theories of government control not having accomplished what they proclaimed it would accomplish.

Of course, there could not be prosperity without some place to live and some natural resources to work on. There have been plenty of natural resources in Russia and South America, but these countries never developed the prosperity we did in America.

Around Hollywood

By PAUL HARRISON: HOLLYWOOD, Aug. 2.—An actor who believes in thorough preparation for his roles is Mr. Akim Tamiroff. He is almost as difficult as Mr. Paul Muni about refusing a part unless he can have the script weeks in advance so that he can get in the mood.

If Tamiroff is to play a surgeon, he calls up a distinguished doctor and arranges to watch some operations. If he is to play a violin, he calls up Jascha Heifetz. Once he played a deaf mute, but not before he had hired a similarly afflicted news vendor to teach him the sign language.

The other day Tamiroff stepped into the cast of "Are Husbands Necessary?" as a window washer. After memorizing all his lines he had gone down into Los Angeles to learn how to wash windows. He found an expert in an office building and began to explain his mission.

"I," he said, "am Akim Tamiroff, am?" "Ha!" beamed the professional. "Welcome, comrade! I, too, am a Russian. I am Ivan Polotski. We are comrades!"

"I am not here to talk about the politics," said Tamiroff. "What I want—" "So you are a White Russian!" sneered Mr. Polotski. "I am not the White Russian nor yet the Red Russian. I was born in Russia, yes, but now I am in America."

"You think I am not in America also?" demanded Mr. Polotski. "Yet I am a Russian. Maybe you are than a Trotskyist!" "My friend—" "Now you talk like Roosevelt!" "I do not talk like anybody. All I want to know is about washing windows."

"Already I belong to one union," said Ivan. "See, here it is—my card." Calling Callahan: Tamiroff decided to begin all over. He said, "I am not from any union. I do not belong to a union. I want only some information."

"So!" snorted Polotski. "A spy of the interests! You think I would tell about my comrades Go away from here!" "It is only that I am an actor," said Tamiroff patiently. "I act in the movies. In my new picture I must wash win—"

"Pictures!" exclaimed the delighted Ivan. "Comrade, you have made a discovery; always I have wanted to act in pictures! I go with you—" "I am not discovering anybody. I want you only to teach me how to wash windows and I will pay you well for it. This is because I must wash windows in this picture with Madeleine Carroll and Fred Mac—"

"Madeleine Carroll?" "Yes." "Comrade," said Mr. Polotski earnestly, "the work is hard but forward, I want you to meet Bruce Townsend. He's the son of old Doc Townsend, and he's here checking up on the way we fellows voted on his dad's pension bill."

Congressman Blank had had an active flirtation with the Townsends, but had finally voted against the Townsend bill, and he enjoyed meeting the supposed son of Dr. Townsend about as much as Trotsky would enjoy running into a band of Stalin's OGPU on a dark night. But he rallied manfully, and spent a good 15 minutes explaining how he approved of old-age pensions in principle and believed that Dr. Townsend was doing a great work, but could not, in conscience, vote for the famous revolving pension fund.

White sat back and enjoyed it, while a sizeable ring of his colleagues looked on and swallowed their smiles. In the end, White rang down the curtain on it by turning to the reporter solemnly and saying, "Well, the money is nothing. You can rest. Tomorrow afternoon I will come and wash Madeleine Carroll's windows myself."

News Clearing House

IS IT ANY WONDER? Fellow Citizens—Is it any wonder the non-thinking public—meaning nearly everybody—is thoroughly befuddled, completely mystified, utterly bewildered, etc? Just read these:

Do you know the mechanics of a steam engine? If not, you will miss the force of the expression "Dead Center." You see, when the piston of a steam engine stops as near either end of the cylinder as it is possible to go, a full head of steam may be turned into the cylinder without any result. Plenty of power in the cylinder, plenty more in the boiler, abundant fuel to make all the steam needed, but no motion.

Now comes the noted writer on social and political questions, R. C. Hoiles in his column, Sharing the Comforts of Life. Hear what he has to say: "There never has been evidence submitted by anyone to show that we have resources of men and materials adequate to supply plenty for all of beauty, health, safety, comfort, entertainment, let alone understanding."

Have you digested the economic papulum given by Mr. Hoiles? Then take this from that super-eminent authority, Charles F. Kettering, the man who has done more than any other to lift General Motors from mediocrity to actual "Tops" in production. This from Mr. Kettering: "Today we have an unusual condition because there is an EXCESS OF MATERIALS, AN EXCESS OF MONEY, AN EXCESS OF MAN POWER."

Let us have a clear, concise analysis of these three. First, the Federal Boys would have us believe that all we need do is to give a good hard pull on the fly-wheel—enough to move the piston an inch or less, instantly we have the entire plant in production. Exactly the thing the government has been doing the past six years. Pump-priming is, to the pump, exactly what a pull on the fly-wheel is to the steam engine. It has done much, but it hasn't lasted. It can't last.

Next is Mr. Hoiles who says we never had sufficient of either men or materials. (At this point, please notice that Mr. Hoiles very distinctly does NOT talk of insufficient money.) Suppose him to be right in this. No, I'm not going to suppose anything of the sort. It has been shown over and over again that we have in earth, air, water abundant raw materials to supply ALL the legitimate wants, needs, of ALL the people in the whole-wide world. Now I wish to ask Mr. Hoiles one question: Given the scientific knowledge, the mechanical skill, the equipment we have, is it possible for a man to produce enough to supply his own needs—working as he does in cooperation with others of his kind? If so, then we have enough man power. If not, then Nature has made a big mistake. Will the gentleman kindly tell us how to remedy this error for a man to produce enough to supply his own needs—working as he does in cooperation with others of his kind? Pampa, Borger Girls Meet In Softball Finals

Last Games To Be Played In White Deer

The Edmondson Musketeers of Pampa and the Borger All-Stars will meet tonight at White Deer in the first game of a series to determine the girls' softball champion of the Panhandle and the team that will represent this section at the state tournament in Dallas.

Borger went into the playoff Wednesday night with a close win over Skellytown. Last night the Musketeers played their outstanding game of the season to defeat Skellytown 23 to 4 and enter the final series with Pampa.

The teams will play a best two out of three series with the second game set for Saturday night, also in White Deer. If a third game is necessary to declare a champion, it will be played on Monday night on the same diamond.

DeAnn Lewis, the former DeAnn Heiskell, and Avis Heiskell probably will be the Musketeer battery for tonight with Borger using Rhoda and Clark, the combination that has been undefeated in the tournament to date.

The Musketeers hit the ball hard and fielded smartly last night in eliminating Skellytown. Evelyn Smart started for the Musketeers but was relieved by Lewis, who in turn gave way to Virginia Fore. Avis Heiskell was behind the plate. Fore helped her cause with two home runs and Lewis added another.

Nelson and Bodie tried to stem the Musketeer attack with Beight behind the plate.

More than 600 fans witnessed last night's game and an even larger crowd is expected tonight. The outfield probably will have to be turned into a bleacher for the final games.

Riggs Defeats Hunt In Pair's 36th Net Tilt

SOUTHAMPTON, N. Y., Aug. 4 (AP)—The bitterest feud in tennis—one which gains more rancor as it grows more one-sided—was still hot today, but the latest development in the battle undoubtedly has given both Bobby Riggs and Joe Hunt, navy academy midshipman, more respect for each other.

They have carried their rivalry through 36 tough struggles, now with Riggs winning 31, the latest a three-set, 4-6, 6-3, 7-5 clash which sent the Chicagoan into the semifinals of the Meadow club tournament yesterday.

Hunt's game battle, which enabled him to defeat the third set long after he was worn down by the heat of his own recent inactivity, impressed Riggs as he hadn't been impressed before throughout their long feud.

Riggs plays Bob Kamrath of Austin, Texas, in the semi-finals today. Kamrath advanced when Henry Prusoff, who eliminated Betsy Grant the opening day, defaulted due to a trouble from an old injury.

The lower bracket semi-finalists are Sidney Wood of New York and Ernest Sutter of New Orleans.

The largest vegetable markets in the United States are, respectively, New York, Chicago, Los Angeles and Philadelphia.

Kiwanians And Lions Battle To 12-12 Tie In 'Dream Game'

Old Sol won the baseball game that was scheduled to have been between the Kiwanis and Lions club teams yesterday evening. The old gent in the sky dropped out of site with the score tied at 12 and 12 in the sixth inning and since no one was on hand to turn on the artificial lights the victory went to the third entry—Old Sol.

Now the Kiwanians are claiming the right to play the champion Rotarians even though last night's game went to a tie. The Kiwanis club slugs say they showed much better form than the Lions and therefore should meet the champs.

On the other hand, the Lions claim that they should meet the Rotarians again. If the Kiwanians couldn't beat the Lions they wouldn't have a chance against the big shots, declare the Lions.

While the two teams wrangled over the situation today, the manager of the Rotary club nine remarked that it might be a good idea if the best players from both teams were picked to oppose the Rotarians.

And did that wisecrack burn up the Lions and Kiwanians? Voss started on the mound for the Kiwanians but was relieved by Jarratt, who in turn gave way to Weathered after he had been doing the receiving. Bell finished behind the plate.

Owens, Osborne and Bourland dished up the shoofs for the Lions with Sheriff Cal Rose behind the plate all the way.

Sensational plays were numerous but probably the most startling of all was Calvin Jones who made a one-handed stab of a line drive in a deep center. For a time the Lions thought the Kiwanians had struck Grover Seltz of the Pampa Oilers into the game but it was Jones.

Glenn Cunningham, 30 Today, Will "Eat, Sleep And Fish"

PEABODY, Kas., Aug. 4 (AP)—Glenn Cunningham, whose hobby is clipping seconds off mile records, dedicated his thirtieth birthday today to "eating, sleeping and fishing." He hopes the lethargy will add a few pounds—the first step in a campaign for a 1940 Olympic championship.

Glenn came here with his wife and daughter in mid-July 14 pounds underweight following a strenuous season in the celery and olive banquet league and a track campaign specked with losses.

As Dr. Cunningham of the University of Kansas extension department he motored over the state's bleak highways all winter and spring lecturing on "How to Keep Fit." He developed a pair of muscle tight travel legs.

Those same legs turned traitor during the running season and trackman Cunningham's methodical dieting to get back in shape cut his weight from the customary 168 pounds to 154.

He will return to Lawrence Sept. 10 to resume his lecturing and start light workouts.

His conditioning for the Olympic games will be carried on with special zest. In 1932, while still a University of Kansas student, he hurried to fourth place in the 1,500 meters behind the record-breaking Luigi Beccali of Italy.

Four years later he suffered a disturbing defeat when he chased Jack Lovelock, the New Zealand gazelle, across the finish line in 3:47.8 for the metric mile. It was a full second better than the world record and almost three seconds better than Beccali's winning time.

Childress Tennis Players Will Be In Pampa Sunday
A strong team of Childress tennis players will invade Pampa Sunday afternoon for a dual match with Pampa stars. Play will begin at 1 o'clock on the courts at Central park.

The meet will include three singles and three doubles matches with Leo Recknagel, Francis Smith, Harry Jameyson, Trevor Wolfe, Tom Braly, Rob Brown and either Joe Key or Kimble Neel representing Pampa.

In a series at Childress last month, local players are planning to stage a tournament soon. It has not yet been decided whether it will be a Pampa tournament, a county tournament or an open tournament.

Indians Climb Out Of Texas League Cellar

A war dance was in order in the camp of the Oklahoma City Indians today for they were out of the Texas league cellar. It's true they're not far out—they're tied for seventh place—but they're out.

The Redskins tallied in the last half of the ninth inning to nose out Beaumont's Exporters, 4 to 3. Shreveport gained ground on the other three first division clubs by smothering Dallas 10 to 4 behind the steady pitching of Brillheart who scattered 10 Rebel hits.

Despite five errors the Tulsa Oilers slowed the league-leading San Antonio Missions, 6 to 5. Shortstop Broder, who had committed three costly bobbles, made up for his lapses with a double in the ninth to score the winning run.

Fort Worth's Cats romped on the Houston Buffs to the tune of 14 to 2. Starr was touched for nine hits but the Buffs couldn't put them together.

Transmississippi Medalist Opposes Todd At Broadmoor. COLORADO SPRINGS, Aug. 4 (AP)—Harry Todd of Dallas, seeking to add the Broadmoor invitational title to his Western Amateur golf honors, drew a tough opponent today in the round of eight.

It was Rufus King, Wichita Falls, Texas, medalist in the recent Transmississippi tournament on the Broadmoor layout.

Todd stayed within par figures yesterday to oust Harry Strasburger of Coffeyville, Kas., last of the former Broadmoor winners in the round of 16 by a 2 to 2 margin. King eliminated Lamar Seelingson, Houston, Texas, 6 and 5—two under par for the 13 holes played.

Other matches today: Pat Collins, Colorado Springs, vs. C. N. Payne, Denver; Eddie Held, Denver, vs. Eddie Stokes, Denver; and Earle Berthill, Sapulpa, Okla., vs. G. P. Faust, Galesburg, Ill.

Yankees Turn On Steam To Swamp Tigers 12 To 3

By JUDSON BAILEY Associated Press Sports Writer Like an automobile going up hill, the New York Yankees always seem able to shift into second gear and roll right over their most forbidding obstacles.

After losing half a dozen games in a row and getting a lot of people excited in early June, the world champions reeled off 13 victories in their next 15 games.

Yesterday they meshed their gears again in a 16-hit attack on Detroit to halt a three-game skid and set the Tigers' back on their proper perch, 12-3.

Joe Di Maggio led the off-fog-faned Yankee uprising with two more home runs and a single, bringing in five tallies.

The Boston Red Sox grimly hanging within holering distance of the lead, had just as easy an afternoon in scalping the Cleveland Indians, 17-6.

Following the free-hitting pattern, the Chicago Red Sox, grimly hanging within holering distance of the lead, had just as easy an afternoon in scalping the Cleveland Indians, 17-6.

The Washington Senators swept their session with the St. Louis Browns with a 9-5 victory in the finale. Young George Washington Cape put this one across, hitting a triple, a double and a single, slicing three bases and scoring three runs.

In the National League the second place St. Louis Cardinals extended their current winning streak to five games with a double victory over the battered Boston Bees, and picked up a full notch on the Cincinnati Reds, who were rained out with the Giants.

Lon Warneke went the route for the first time since May 30 with an eight-hit exhibit in the first game, winning 5-1. They took the nightcap 4-3.

The Brooklyn Dodgers climbed into a fifth-place tie by taking the deciding game of their series at Pittsburgh 4-1.

The Chicago Cubs plastered another defeat on the Phillies, 9-6, to give Bill Lee his 12th victory of the year.

Young Californian Beats Alice Marble

EAST HAMPTON, N. Y., Aug. 4 (AP)—Alice Marble finally has lost a set at tennis.

The blonde California national and Wimbledon champion had breezed through every opponent this year without so much as losing a set. So when Pauline Betz, rising young Los Angeles player, turned the trick yesterday at the start of their quarter-final match in the Maidenstone club invitation tournament, there was considerable buzzing through the stands.

Alice didn't let it get any farther than that, however. After dropping the first set 3-6, she came right back to polish off the coast youngster at 6-1, 6-4 and move into the semifinals.

Miss Marble tangles with Dorothy Workman of Los Angeles today, while Helen Jacobs faces Mrs. Sarah Palfrey Fabyan.

Season's Largest Wrestling Crowd Expected Monday Night

Promoter Cliff Chambers is preparing to handle the largest wrestling crowd in recent months at the Pampa athletic arena on Monday night when Charlie Carr and Tiger Billy McEwin meet in the main event, supported by an all-star cast.

With no baseball game here, wrestling fans who have been following the national sport will be able to get in a night with the grunt and grunt experts. The roof has been taken from the arena and it will be nice and cool, excepting in the ring.

Supporting the Carr-McEwin battle will be a semi-final between Houston's George Waggoner, a classy piece of wrestling machinery, and John Nemanic, rough and tough mauler who is a referee in between times.

Opening the card at 8:30 should be another hip-top battle. For the benefit of fans who haven't seen Charlie Carr in action let it be said that he's a natural. He's a crowd pleaser if there ever was one and if anyone can down the wild Tiger it should be Carr, say the faithful fans.

Just 25 years ago "The Hag" won his first National Open championship at Midlothian. Recently friends of Hag and Midlothian club members decided it would be fitting to mark the anniversary with a tournament in his honor—and to show they weren't just talking they subscribed \$5,400 as prize money.

Hagen will team with the veteran Gene Sarazen to form the most colorful entry. The gallery no doubt would like to see the Hagen-Sarazen team win the event, but this isn't likely, in view of such combinations as Ralph Guldahl-Sam Sneed; Byron Nelson-Dick Metz; Henry Pickard-Johnny Revolta; Denny Shute-Ernie Harrison; Paul Runyan-Horton Smith; Jimmy Thompson-Tommy Armour; and Ed Dudley-Billy Burke.

These two—Buford, Ga., national semi-pro champion, and Enid, Okla., semi-pro titleholder—will tangle tonight. Each team has won three games.

Enid Undefeated In Denver Tournament

DENVER, Aug. 4 (AP)—Some of the most terrific hitting in the 24-year history of the Denver Post semi-pro baseball tournament left only two teams in the undefeated class today.

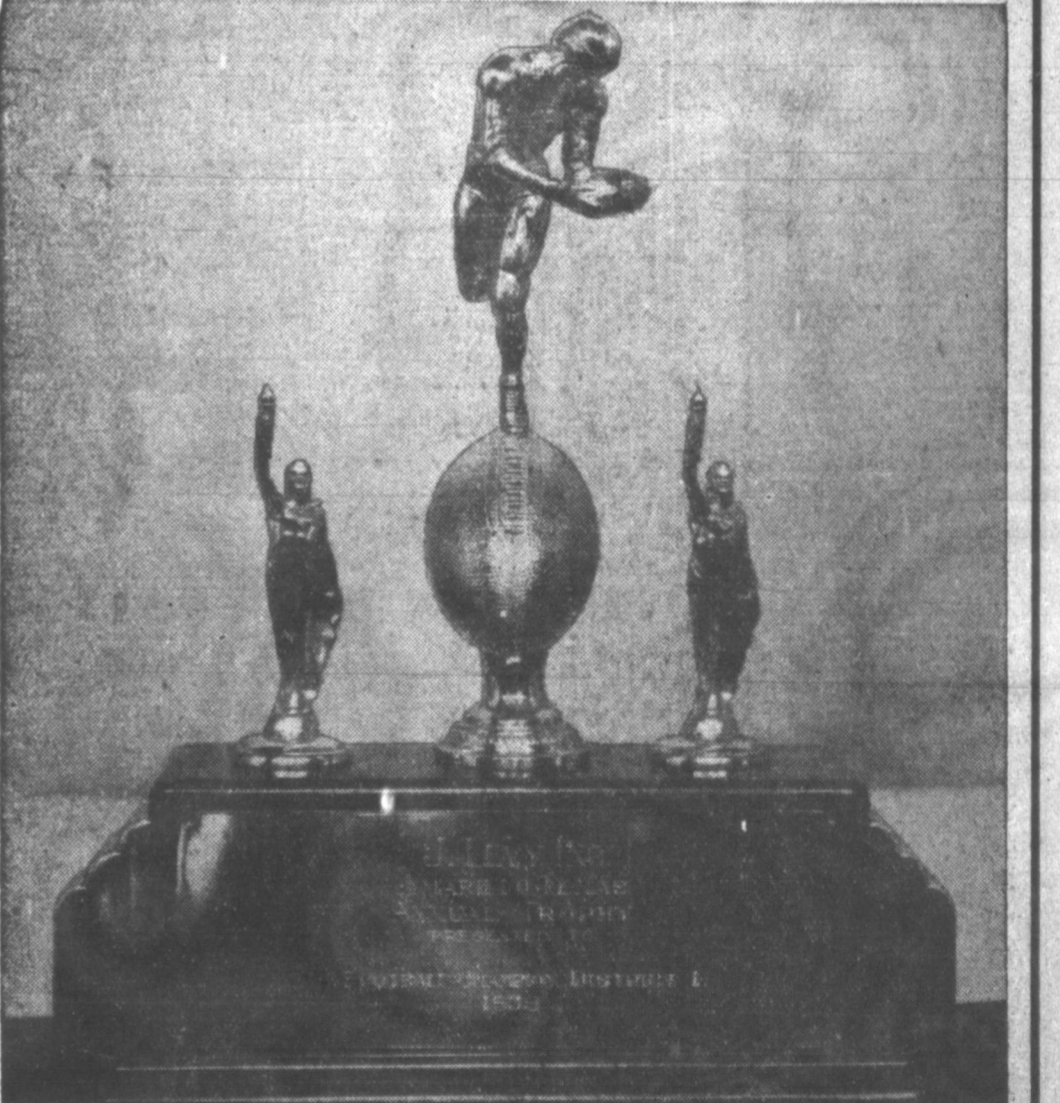

These two—Buford, Ga., national semi-pro champion, and Enid, Okla., semi-pro titleholder—will tangle tonight. Each team has won three games.

Former Harvester Football Star To New Mexico College

Carl Smith, former Pampa Harvester football star who graduated from Cameron Junior college at Lawton, Okla., last May, will enroll at New Mexico college, Las Cruces, N. M., this fall. He is the son of Mr. and Mrs. R. A. Smith. He has been working in New Mexico since graduating.

Carl was an all-state guard with Pampa high school and he was named on the Oklahoma Junior college all-state team two years in succession while at Cameron college, playing with the Aggies.

The New Mexico Aggies' schedule for this fall will include games with Fort Hays, Arkansas state, Arizona state, Arizona university, Oklahoma A. & M., New Mexico university, Hardin-Simmons and Texas College of Mines.

This year's schedule is one of the toughest ever scheduled for the Aggies.

Spirit Will Be Sermon Subject. "Spirit" is the subject of the lesson-sermon which will be read in all Churches of Christ, Scientist, on Sunday, August 6. The Golden Text is: "What man knoweth the things of a man, save the spirit of man which is in him? even so the things of God knoweth no man, but the Spirit of God" (1 Corinthians 2:11). Among the citations which comprise the lesson-sermon is the following from the Bible: "This I say unto you, Walk in the Spirit, and ye shall not fulfill the lust of the flesh" (Galatians 5:16). The lesson-sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Let us feel the divine energy of Spirit, bringing us into newness of life and recognizing no mortal nor material power as able to destroy. Let us rejoice that we are subject to the divine powers that be. Such is the true Science of being" (page 249). Jax's Winning Streak Broken By Henderson

(By The Associated Press.) The five-game winning streak of the Jacksonville Jax, resting in the East Texas League cellar, was at an end today but it took the leading Henderson Oilers to stop them. Four-hit flinging by Gene Hinrichs gave Henderson a 7-1 victory last night. Dutch Becker and Jack Calvey honored to help Palestine defeat Longview 6 to 1. Fine relief pitching by Ralph Pate enabled Tyler to bring home an 8 to 6 decision over Marshall. Home runs by Perko and Sanders helped Kilgore to a 10 to 4 victory over Texarkana. Tonight's games: Henderson at Jacksonville, Longview at Palestine, Texarkana at Kilgore, Marshall at Tyler.

Player Hurt Trying To Catch Baseball Dropped 800 Feet

SAN FRANCISCO, Aug. 4 (AP)—An attempt to set a new record for catching a baseball dropped from a great height cost Joe Sprinz, veteran catcher for the Pacific Coast League San Francisco Seals, a compound jaw fracture, the loss of teeth and ragged lacerations of both lips. At a celebration of baseball day at the Golden Gate Exposition yesterday, five baseballs were dropped 800 feet from a blimp cruising over Treasury Island. Four balls fell out of range. Sprinz circled under the fifth and held his glove up. The ball struck the glove with terrific force, and the glove smashed against his face. He dropped to the ground in great pain and failed to hang onto the baseball. Sprinz will be out of baseball a month or more.

California Bruins To Play Baylor At Waco Next Autumn

LOS ANGELES, Aug. 4 (AP)—The Bruins of the University of California at Los Angeles may meet the Bears of Baylor in a post-season football game at Waco, next fall. Graduate manager Bill Ackerman of UCLA said negotiations had been under way with Baylor, "as well as Rice, Oklahoma and Arizona" but did not indicate how far the discussions had gone. B. R. Temple, described as an unofficial representative of Baylor, said in addition to the post season contest, a two-year home-and-home series between the schools is being considered.

A few days after Mike Kreevich of the White Sox hurt his shoulder in a collision with another player, his kid brother, Johnny, of the Joplin miners, hurt himself in identically the same manner. The Dodgers offered to sign up one Metro Sooki, a southpaw rookie from the Pennsylvania coal region. Did he jump at it? He did not. He said: "I'll have to sleep on that one, gent."

SUNDAY SCHOOL LESSON

ELIJAH: A LIFE OF COURAGE. Text: I Kings 18:30-39. By WILLIAM E. GILROY, D. D., Editor of Advance.

"A life of courage" is the description of Elijah for the purposes of this lesson. It might have been "a man of faith" for Elijah's courage was essentially associated with the depth and strength of his faith. We have seen that King Aza and his son, King Jehoshaphat, were both confronted with wide-spread corruption in Israel because of the idolatrous worship in which the people were imitating pagan peoples who surrounded them. As we have indicated, this was not merely a matter of mistaken ideas in religion, but the worship of Baal was associated with licentious practices contrary to the fine ideals of home, family, and social relationships, which were so incultured by the religion of Israel.

We forget perhaps at times the extent to which these ideals of home life and integrity of love relationships are a product of Jewish life and religion. It would be well, in an age when, without idolatrous worship, or without idolatrous worship in other forms, there seems so great danger of society's lapsing into loose and evil practices, if we could revive something of that nobility and purity of life upon which Elijah insisted. Elijah seemed to have stood with the minority in Israel, though he had a great many more followers than he was disposed to believe in his moments of discouragement. Our lesson centers around the famous test by fire, in which Elijah had a sign from heaven and put the prophets of Baal to rout. We can neither explain nor comment upon the miraculous aspect of the narrative, but the one thing that does stand out so strongly is the integrity and honor of Elijah in contrast with the trickery and deceit that have always been a part of false religion and of the activity of false prophets. The ultimate test of the true, as distinguished from the false, is the sincerity and unselfishness of all true religious faith and action. Elijah was not in any sense a self-seeker, nor had he in mind the establishing of his own power or authority. He began in his test by fire by calling all the people to him. We must remember that, despite the high teachings and ideals that emerged, it was a crude and raw age when people were more apt to be influenced by outward demonstrations than by the inner integrity of truth and righteousness. The people were tremendously impressed with the miracle that they saw, and we are told that they fell on their faces and said, "Jehovah, he is God; Jehovah, he is God."

How genuine was this demonstration and its repentance we cannot tell, but Elijah's triumph as the prophet of the living God was complete. That is, it was complete except for Elijah himself. As has so often happened in the world, we find the man of courage despondent and weakening after he has fulfilled his purpose. He cries out to God in a voice of despair even in his hour of victory, complaining that all Israel has become recreant and that he only is left among the faithful. The divine voice had to remind him that 7,000 had not bowed the knee to Baal, which after all was a considerable company in support of the prophet. It is in accord with human experience that the hour of deep discouragement often follows the time of greatest triumph. Perhaps it is due to the fact that even a good man succumbs to the physical strain, and that the demerit of doubt or of discouragement attacks him when he has the least strength to resist. But Elijah stands, none the less, as a great figure of faith and of courage. We think of him in his hour of faith and victory, rather than in his mood of unwarranted isolation. He was only one among the faithful.
