

United States Is in Dilemma as France Remains Firm FLIERS TAKE LONG HOP

WASHINGTON EXPECTED TO TAKE ACTION

Public Opinion Will Permit No Acceptance of Plan Advanced by Hoover on World Debts.

LAVAL IS CORDIAL Rupture in Conversations Is Likely, However; German Attitude Is Resented in French Republic.

WASHINGTON, June 30. (AP)—The American government stood firmly today upon the debt moratorium plan as originally announced by President Hoover and awaited the next European development.

Conferences between the American envoys and French officials temporarily were in recess in Paris, but there was no apparent diminution in the attention President Hoover was giving the situation.

He conferred for an hour and a half in the forenoon with acting Secretary Caste of the state department and Mills of treasury. The two officials left shortly before the regular cabinet meeting and expected to return later in the day.

PARIS, June 30. (AP)—Secretary of the Treasury Andrew W. Mellon and Premier Laval today were confronted with the necessity of making concessions to insure the success of the Hoover moratorium proposal.

The premier was quoted by the newspaper Excelsior as saying that he remained "cordial but firm" and that the issue would be settled tomorrow.

"Mr. Hoover can entrench himself behind his congress," M. Laval said. "I can entrench myself behind the chamber of deputies which has given me its answer. I feel we have reached the limit of concessions. Public opinion would not admit us going further."

The French conditions of acceptance were conveyed to Mr. Mellon in a second conference with French statesmen last night after the premier had hastily summoned a meeting of the cabinet to approve his stand.

The Conditions They are: First, that Germany must remit her unconditional annuity under the Young plan for the fiscal year of 1931 to the Bank for International Settlements, the proceeds to be allotted to central European nations requiring economic aid.

Second, that this payment be considered identical with any other annuity so that France could use it as a guarantee to the World bank in case Germany should ask for a moratorium at the end of the holiday.

Third, that the conditional payment be met by Germany within five years.

President Hoover had proposed that both interest and principal payments on all inter-allied war debts and German reparations be postponed without qualification for a period of one year from July 1, 1931.

The second condition is said to be the most important from the French viewpoint inasmuch as it involves the inviolability of Germany reparations and the integrity of the Young plan, whereas the first and third are technical considerations which do not embody a principle.

There was a feeling of apprehension that Washington may give too little importance to France's latest counter-proposals. The French delegates clearly expect President Hoover to take into account Premier Laval's rigid mandate from the chamber, which is likely to be reinforced by the more conservative senate.

Robbins Is Off to Seattle

Refuelling Plane Also Is Moving to Point of Take-off to Tokyo.

FORT WORTH, June 30. (AP)—Reg L. Robbins and his navigator, H. S. Cones, took off from the municipal airport here at 4:50 a. m. today for Seattle, Wash., from where they will attempt a non-stop flight to Tokyo.

They were followed five minutes later by a refueling plane, the crew of which is composed of Jimmy Mattern and Nick Greener. "We expect to start the flight as soon as possible after reaching Seattle," Robbins said in parting. "If the weather permits and local conditions do not prevent, we will take off from Seattle tomorrow." Robbins and Jones planned to reach Seattle late this afternoon. They will give their Wright J-T motor a final checking to make sure of its stability for the 55 hours of flying estimated for the trip. The refueling ship will go directly to Fairbanks, Alaska, probably stopping tonight at Bismark, N. D. At Fairbanks Mattern and Greener will load the plane gasoline tanks (they will hold 700 gallons) and wait for the arrival of the Seattle-Tokyo fliers, giving them fuel at Fairbanks and Nome. The latter expect to reach Fairbanks in 15 hours. They should have enough fuel to carry them on to Nome, 530 miles further. However, if their supply runs short they will be able to make contact with the refueling ship and take on enough gasoline to reach Nome. The refuelers will fly alongside until they reach Nome. While the cockpit of the Lockheed will accommodate only one person, Jones will relieve Robbins at the stick by crawling over the gasoline tank and through a small doorway. When he is not flying Jones will occupy tiny quarters in the rear. A small desk has been rigged for his maps and charts. In this position he also will handle the hose during refueling contacts for a doorway has been cut in the ceiling of the cabin.

Rain Stops Heat Wave—Harvest Is Not Yet Over

Light rainfall from the west started falling in Pampa at 1 o'clock today, affording relief from the heat but causing apprehension of those in the wheat harvest. Operations of combines would have to cease if the precipitation dampened the wheat. Rather general local showers were predicted.

By The Associated Press. America scanned the skies today for relief from torrid temperatures, but found none immediately in sight east of the Rockies.

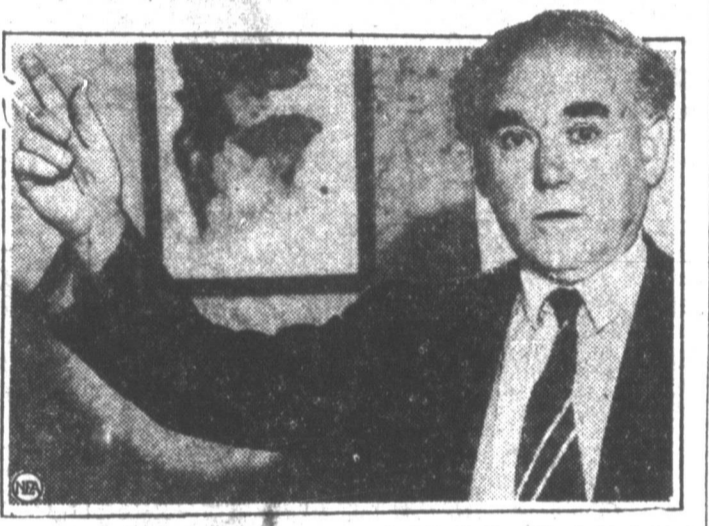

Summer's offensive even swirled into the heretofore moderate east, New York had its first heat death, Manhattan awoke to a cool 66. But the mercury soared 20 degrees in five hours and kept going.

In Baltimore the thermometer was expected to register near 100 degrees during the day. In Washington it was 95. The south still roared; likewise the middle-west.

In Monticello, Ga., it was 108. But in Washington state, overcoats were needed early today. At Baker the thermometer skidded down to two degrees above freezing. Kalspell, Mont., almost frosted its breath at 30.

Relief for the whole nation hangs in the sky over eastern Washington, but a stagnated low pressure area over North Dakota prevents the cooling high pressure area from moving eastward.

Preaches 21 Hours, Sets Record

Archbishop McSabin Kenworthy above, talked himself right into a world marathon championship at Los Angeles by preaching for 21 continuous hours. He uttered 2253 104,945 words, beating the 20-hour non-stop record set recently by Rev. A. Futterer.

GAIN IN LIGHT METERS IS PROOF OF STABILITY IN CITY

Population Calculated on This Basis Would Be 11,390, Curry Estimates.

If light meters are to be used as a population gauge, and they are in most cities, then Pampa's population has not only remained consistent in the last year but has shown some increase.

On July 1, 1930, the Southwestern Public Service company had 2,271 meter connections in Pampa. Today, exactly one year later, the number of meter connections was 2,278, a gain of seven during the 12-month period.

W. H. Curry, local manager, explained today that the company estimates one meter serves a population of five persons. This is the average number, even though it might seem to be greater since many apartment houses in the city, housing 50 persons and more, have only one meter.

Using the number of meters as a population indicator, the total number of people in the city this time last year was 11,353. Computing by the same system, the 1931 population is 11,390, a noteworthy gain considering adverse conditions in the wheat and oil industries.

Barbecue Is Held North of Alanreed

Sheriff and Mrs. Lon L. Blanche, Mrs. John B. Hesse and children, and Mr. and Mrs. Siler Hopkins attended a barbecue and fireworks display last night on the Johnson ranch, six miles north of Alanreed. A swimming party preceded the barbecue. The local people were guests of E. C. Reese, foreman.

Local Men Sign Document But Drive for \$60,000 Only Half Completed.

Bearing Pampa's telegraphic guarantee to furnish right-of-way for the Fort Worth and Denver railroad, Gen. John A. Hulen left Fort Worth for Chicago this morning to present it and similar commitments to Burlington directors.

General Hulen Carries Guarantee of Pampa to Furnish Railway Facilities

Local Men Sign Document But Drive for \$60,000 Only Half Completed. A group of business men gathered at the chamber of commerce this morning to plan completion of the drive for the necessary \$60,000. About half of that amount has been raised. Those who signed the guarantee said that they did so because they had faith the citizenship of Pampa would back them up by providing the additional sum.

Cranfill Plan Argued

SMALLER OIL OUTLET ASKED BY OPPONENTS

Railroad Commission Hearing More Argument Upon Plan It Will Approve and Try to Enforce.

LAWS DEMANDED

Potential of Million Barrels Daily for East Texas Is Claimed; Violations of Orders Cited.

AUSTIN, June 30. (AP)—The asserted plan of the Cranfill plan of East Texas oil conservation were explained again here today as the railroad commission took additional testimony on which to base a new proration order.

C. P. Burton, pipeline operator, said the small pipelines had agreed to help carry out the Cranfill plan if it should be ratified. Pat M. Neff, commissioner, asked Burton if he had ever heard of any other law which was observed through agreement instead of through a statute compelling its enforcement and Burton admitted he had not.

Opponents of the Cranfill plan contended for a smaller outlet under a potential basis and requested a special session of the legislature to enact laws to prevent violations.

W. L. Goldston Jr. of Houston, geologist for the Cranfill-Reynolds Oil company, said the field could produce 300,000 barrels daily without causing physical waste. However, Captain J. F. Lucey of Dallas, chairman of the committee sponsoring the Cranfill well proration method, had agreed yesterday to have the limit set at 250,000 barrels daily.

Attorneys for the central proration committee which opposed the Cranfill plan, elicited that the Cranfill-Reynolds company and Burton had violated the commission's last proration order. Attorneys' objections to questions about why they had violated it were sustained by the commission.

Goldston predicted that the immense field, when fully developed, would have five or six thousand wells and would be capable of producing 1,000,000 barrels daily without physical waste.

John Suman of the Humble company reiterated that his company (See CRANFILL, Page 8)

Scattering Rains Slow Harvest In This Territory

One of the showers that A. G. (Friday) Brandon predicted would fall before harvest is over stopped combines in this community and in other portions of the county for several hours this afternoon.

The showers were of a few minutes duration but were sufficient to dampen the wheat. The shower spotted this community, and some fields were wet to harvest while adjoining fields were untouched by rain. Heaviest rain fell southwest of Pampa. Wheat truck drivers reported roads were slippery.

Mr. Brandon based his prediction upon 26 years residence in Gray county. During those years it has always rained at some stage of the harvest, he said.

Wheat was bringing 32 and 33 cents per bushel on the local market. The Santa Fe shipped out 30 cars yesterday and 23 today. Farmers are rapidly filling up their storage and are beginning to bring it in to the elevators, grain dealers said. Today's run was considerably larger than yesterday's at the elevators.

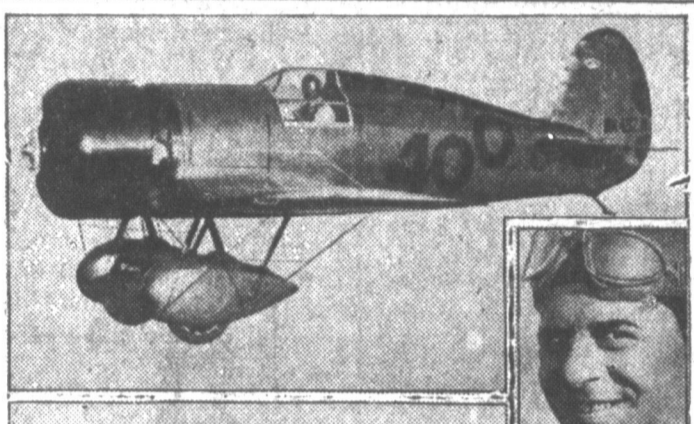

GENERAL HULEN CARRIES GUARANTEE OF PAMPA TO FURNISH RAILWAY FACILITIES

Local Men Sign Document But Drive for \$60,000 Only Half Completed. A group of business men gathered at the chamber of commerce this morning to plan completion of the drive for the necessary \$60,000. About half of that amount has been raised. Those who signed the guarantee said that they did so because they had faith the citizenship of Pampa would back them up by providing the additional sum.

A further check will be made this afternoon, when all solicitors were to report. The first contributor to raise his subscription was Dr. W. B. Wild. The physician's first donation was \$80. He raised it to \$100.

Mrs. May Foreman Carr and son Malcolm are visiting in Tulsa, Okla. They will return to Pampa Wednesday.

Parachute Saves Doolittle

Hair-trigger thinking and a parachute are the only two reasons why Major James H. Doolittle, inset, is alive today. The former ace stunt flier of the army was roaring along at 235 miles per hour in his new plane, as shown above, at an altitude of 100 feet over the East St. Louis, Ill., airport when fabric tore loose from the wings. He nosed the plane up sharply to 300 feet, rolled it over onto its back and "bailed out," landing safely while the speedy new plane in which he hoped to set new records, crashed. Wreckage of the ship is shown below surrounded by spectators. Doolittle saved his life once before by leaping when the wings came off an army plane he was stunting at the national air races in Cleveland in 1929.

Both Post and Gatty appeared more tired than when they went to bed last night at 10:30 p. m. They ate sparingly of the breakfast which had been prepared and stepped into the ship.

Although the plane lifted with some difficulty due to the 350 gallons of gasoline, once in the air she responded rapidly to the controls and lost no time in getting straightened out toward their goal.

As Post climbed into the ship he turned to one of the mechanics and said, "boy, why get to New York? I'm going to sleep 48 hours straight."

Their rest here was one of the longest the airmen have had since they left New York a week ago. Gatty's arm was "paining" him some when he arrived at the field but he insisted it was all right and would be completely healed "within a day or two."

With its crossing of the northern Pacific, the Winnie Mae takes a place alongside the famous monoplane Southern Cross and the distinction of having flown across both oceans in long hops.

The Southern Cross flew from Oakland, Calif., to Australia in three long jumps—Honolulu and Suva being intermediate stops—in 1928 and later flew from Ireland to Newfoundland with its same pilot, Wing Commander Charles Kingsford Smith.

The Winnie Mae has made no ocean flight comparable to the memorable dash of the Southern Cross from Hawaii to Suva, 3,138 miles, but it hopped over some 2,000 miles of the north Pacific yesterday.

Numerous planes have flown from Alaska to Siberia and back in the vicinity of Bering Straits, and the army round the world fliers negotiated the northern ocean in several jumps by way of the Kurile and Aleutian islands, but the feat of the Winnie Mae was the first of its particular kind.

From Khabarovsk the fliers passed over about 200 miles of the Siberian coast region and then crossed the Straits of Tartary, Saghalien Island, the Sea of Okhotsk and the Kamchatka peninsula before heading over the wide stretch of the Bering sea to Nome.

Post and Gatty thus far have greatly exceeded the speed of the Graf Zeppelin, which went around the world in 21 days 7 hours 34 minutes.

FISCAL YEAR ENDS WASHINGTON, June 30. (AP)—Though the United States government today was ending its 1931 fiscal year it will not know until tomorrow about noon just how much of a deficit it will have.

The last daily statement of the treasury showed that on last Saturday there was a deficit of \$667,906,122.

EDMONTON IS GOAL OF TWO OKLAHOMANS

Post and Gatty, Weary From Terrific Pace, Will Be Welcomed as First to Thrill West Canada.

IN CLOSE CALLS

Takeoff With Heavy Load Is Difficult; Mrs. Gatty Racing Through Here to New York for Welcome.

FAIRBANKS, Alaska, June 30. (AP)—Wiley Post and Harold Gatty took off here at 3:24 a. m. (7:24 a. m. GST) today for Edmonton, Alberta, 1,450 miles.

Due to the heavy load of gasoline Post was unable to get the Winnie Mae into the air on the first trip down the field.

After taxiing back to the start, the Oklahoman gunned her and the ship rolled slowly down the field, rising in time to clear a woodpile by only a few feet.

Post nosed his ship around and circled the field to gain altitude. As the fliers soared over the hangar where eight mechanics had worked all night to condition the ship, they waved and then turned the nose of the plane due south.

As the Winnie Mae disappeared from sight she was gaining altitude and speed with ideal weather conditions prevailing in the vicinity and all along the route to the Canadian city.

Fliers Up Early The fliers were at the field at 2:30 a. m., and supervised the finishing touches of servicing the plane.

Both Post and Gatty appeared more tired than when they went to bed last night at 10:30 p. m. They ate sparingly of the breakfast which had been prepared and stepped into the ship.

Although the plane lifted with some difficulty due to the 350 gallons of gasoline, once in the air she responded rapidly to the controls and lost no time in getting straightened out toward their goal.

As Post climbed into the ship he turned to one of the mechanics and said, "boy, why get to New York? I'm going to sleep 48 hours straight."

Their rest here was one of the longest the airmen have had since they left New York a week ago. Gatty's arm was "paining" him some when he arrived at the field but he insisted it was all right and would be completely healed "within a day or two."

FEDERAL INSPECTORS WILL INSTALL NEW POSTMASTER

D. E. Cecil Preparing for His Tenure Under Appointment of President.

Two postal inspectors are due to arrive here today to complete arrangements which will result in the installation of D. E. Cecil as postmaster. Their arrival was expected before afternoon.

Postmaster Wm. A. Crawford described the visit of the inspectors as "checking in" and "check out." Mr. Crawford returned Saturday night from a two weeks' vacation in New Mexico. After he retires as postmaster, he and his family will move to Dallas, where Mr. Crawford will be employed by the Santa Fe railway company.

Mr. Crawford estimates that two days will be required by the inspectors to make an audit of the postoffice books. Mr. Cecil will take charge of the postoffice as soon as the auditors finish their inspection. Mr. Cecil, who has been connected with the Kees & Thomas store for the last six years, was appointed postmaster by President Hoover two weeks ago.

Herring Funeral Is Being Held Today

AMARILLO, June 30. (AP)—Services for Col. C. T. Herring, 81, native Texan and pioneer cattleman, banker, financier and city builder, who died here early Monday, will be held from the Central Presbyterian church at 4 p. m. today. Burial will be in the Llano pantheon in this city.

Life-long friends and business associates, including the full membership of the Amarillo Rotary club were named as active and honorary pallbearers.

New Paving Will Be Opened Later in Current Week

The paving on highway No. 33 from Pampa to the Carson county line will be opened the latter part of the week, probably Thursday, the Stuckey Construction company announced this morning. A report that it would be opened tomorrow is incorrect, it was said. It was announced several weeks ago that the strip of concrete would be opened July 3.

In order to eliminate the wavy condition that makes riding over the Carson county pavement a series of risings and fallings, the concrete on the new strip was laid in slabs of about 700 feet in length.

Gulf Will Clean Out Old Well

Instructions to clean out Gulf Production company's Combs No. 1 section 38, block 3, have been received at the local office of the company. The well was drilled a year and a half ago.

Past experience in cleaning out wells and deepening in the Wilcox, Bowers and LeFors areas proved highly profitable. In 95 per cent of the wells that were cleaned out and deepened production has been much greater than the initial production.

Two months ago wells cleaned out by Wilcox produced more than they did when first brought in.

Most of the wells in the area southeast of Pampa were drilled to first pay, and deepening has always resulted in an increase in the production.

It is understood that the Gulf is considering cleaning out other wells in the area. In the past, successful cleaning out and deepening wells has resulted in similar operations on offset leases.

Angry Merchant Recovers Funds From 2 Robbers

CARROLLTON, June 30. (AP)—It makes Ben Myers, Carrollton grocer, "mad as a hornet" to be robbed. Two men held him up today and robbed him of \$60, as he was delivering groceries in the edge of town.

The more he thought about it, after they drove away, the angrier he became. He jumped into his car and chased the robbers, crowded their car into a ditch and by threatening them with angry flourishes of his automobile crank, compelled them to return the money. He drove back to Carrollton, leaving the robbers with their car stranded in the ditch.

Negroes May Have Slain Young Folk

DALLAS, June 30. (AP)—Information indicating that negroes may have been the slayers of Abs Schreiber, 19, of Galveston, and his sweetheart, Miss Pauline Corman, 17, of Dallas, was obtained by police investigators today when a Dallas pawnbroker identified a pistol found near the scene of the killing as one he sold last week to two negroes.

Meanwhile, Bertillon experts continued to pore over finger prints made on the windows and doors of the Carson county pavement a series of risings and fallings, the concrete on the new strip was laid in slabs of about 700 feet in length.

THE WEATHER

WEST TEXAS: Partly cloudy, probably showers tonight and Wednesday.

—AND A SMILE RIO DE JANEIRO. (AP)—Heavy overcasts are being worn generally. The first cold snap of winter is on.

WENATCHEE, Wash. (AP)—There has been snow in the Wenatchee mountains. A storm lasted an hour and a half. The fall on Buck Creek ridge was two feet deep.

PAMPA GROCERY ADVERTISING

Last Friday's Pampa Daily NEWS carried eleven advertisements of local grocery firms. The Pampa NEWS is in its 25th year and it has developed this advertising patronage because of service and results. The NEWS now is carrying almost all of the local grocery advertising, as well as national schedules, exclusively.

More and more the merchants of Pampa are learning that THE NEWS and POST ALONE will sell the people of this trade territory. Many merchants have experimented with inferior mediums the past few months or even years and now they are coming back to the old reliable NEWS-POST in droves.

Today merchants must watch every expense. Only the shrewdest of merchants can pull through these times, and it is a waste to duplicate advertising costs in Pampa. As merchants come back to THE NEWS-POST more and more, they are learning that increased space is possible because of elimination of unnecessary mediums.

The NEWS-POST has recalled time after time the history of newspaper business not only in Texas, but in other places. A city the size of Pampa will support only one substantial newspaper enterprise. The NEWS was established 24 years ago last April. It has the confidence of the old timers because of past services; it has the good will of the newcomers because of fighting for the building of a greater Pampa.

Just as THE NEWS will sell merchandise for grocers, so will it sell goods for other lines. Let's cut out the "me too" and the fake advertising; then Pampa merchants will realize the increased results they should have.

FIXING RESPONSIBILITY

Gerard Swope undoubtedly struck a popular note in telling the International Chamber of Commerce that the "dole is harmful both for the man who gets it and for the community that pays it. However, he followed it by pointing to a fact that is often ignored—that industry itself must find some fair and workable alternative if the dole is to be avoided.

This fact, self-evident as it is, gets overlooked with surprising frequency. The dole has been damned from one side of the world to the other in the last decade; the alternative to the dole has not been given much attention.

The evils of the dole are fairly obvious. England is painfully familiar with them. Hundreds of thousands of young Englishmen are growing into manhood without ever having held jobs in their lives. They have not had to work. The government has supported them. Some of them prefer to remain unemployed. Why work, when a kind government will pay you a wage anyway?

It is no wonder that industrialists have looked on the dole as a radical device only one degree better than outright Communism. But, as Mr. Swope points out, there is another side to it.

England is paying the dole because she has to. Unemployment has been widespread and chronic ever since the war. England has missed actual revolution, in the years since 1918, by an incredibly narrow margin—the

margin of the despised dole. With all of its evils, the dole has kept the nation from collapse.

In this country, today, we are having our troubles with unemployment. It has been widespread enough and it has lasted long enough to make many people look wistfully at the British dole system. Mr. Swope, in condemning the dole system, very properly goes on to say that if industry wants to avoid the dole it must, by its own forethought and planning, avoid unemployment.

That, after all, is what it all comes down to. The ordinary man is entitled to a job. If his country's economic system is so poorly constructed and so badly synchronized that he cannot get one, he is entitled to some sort of pittance that will keep him and his family from starvation.

Industry, naturally, abhors the dole. Too often it forgets the responsibility to which Mr. Swope has pointed—that industrial leadership must make the dole unnecessary. Mr. Swope has done the country a great service in making that responsibility clear—NEA.

ARGUMENT BY RADIO

It is interesting to note that Germany and Russia are conducting a sort of verbal war by radio these days.

It began when Soviet broadcasting stations started sending out revolutionary speeches in the German language—for the consumption, obviously, of potential communistic converts on the German side of the border.

Now the Germans have retaliated by broadcasting, in Russian lectures criticizing conditions in Soviet Russia.

This particular squabble will probably be ironed out peaceably enough in short order. But the germs of a real international argument are there. Modern science, by facilitating international communication, seems to have provided one more source of possible friction—Plainview News.

Canoes, according to a navigation order, must carry lights at night. Which will probably mean less romance in the light of new regulations.

Fake Baron Gets Two-Year Sentence

NEW YORK, June 30. (AP)—George Robert Gabor, an immigrant who at various times trades his real name for "Baron Von Krupp" and "Taft Thew Jr.," and imposed on two ambassadors and half a dozen governors, was sentenced to two years imprisonment by Federal Judge John C. Knox today. Several years ago, Gabor said, after he had courted a society girl in Wilmington, Del., and passed a worthless check, he was deported to Hungary. He came back on a fraudulent passport but sentence was suspended on his promise to "leave the country and stay out." Once again he came back and only recently finished a term at McNeil Island penitentiary, California, for fraud. Upon his discharge he was brought back to New York on a charge of violating his parole.

COUPLE ON LEISURELY TRIP AROUND GLOBE NOW

NEW YORK, June 30. (AP)—While Wiley Post and Harold Gatty are streaking their restless way around the world—sleepless nights and roaring days—another round-the-world pair—Mr. and Mrs. Charles Beasley Day of Paterson, N. J., are flying leisurely along toward the Orient. Radio messages to friends today said the Days planned to take off from Bucharest before nightfall and to reach Istanbul, Turkey, Thursday. Their plane, "The Enfant," has flown them from London, where they arrived by steamer from New York. The plane was built by Day. Plans call for their arrival in Shanghai, China, in August. They will then return to America by steamer, finishing the journey by a cross-country flight.

RAILROAD IS SOLD

OKLAHOMA CITY, June 30. (AP) Sale of the Beaver, Meade and Englewood railroad to the M-K-T Railroad company will become effective at midnight tonight, officials of the former road announced today. The deal for the line, which runs 105 miles through Beaver and Keys in the Oklahoma Panhandle, will

East Texas Hikes Nation's Production

WASHINGTON, June 30. (AP)—The Commerce department today said daily production of crude oil during May was 52,000 barrels higher than in April.

Total production for the month was 77,164,000 barrels, a daily average of 2,489,000 compared with production in May, 1930, of 80,342,000 barrels.

The daily average production for May this year although higher than April, was 103,000 barrels below the daily average of May, 1930.

The report said Texas was the chief source of gain during May, the average output in that state rising from 893,000 barrels in April to 951,000 in May.

The major portion of the Texas gain was in the East Texas field, where the daily output rose from 251,000 barrels in April to 306,000 barrels in May.

A total of 247 producing wells were completed in East Texas in May as against 197 in April. The May completions, however, had a much smaller average daily initial flow than the April completions.

MANY STUDENTS EXPECTING TO BECOME LAWYERS

AUSTIN, June 30.—More than 150 young men and women this summer are casting longing eyes at the legal profession and are preparing themselves to join that profession by way of a degree from the University of Texas School of Law. The summer enrollment in that school exceeds by nearly a score of students any previous figures for the first term of the summer session. Six courses are being offered each term, three of which are for first-year students. Contracts, equity and evidence run throughout the summer, while criminal law, partnership, water rights, taxation, suretyship and agency are courses which are offered for a single term each. The regular teaching staff of the school of law is augmented by Dr. Edmund M. Morgan, visiting professor from Harvard university.

A jury out seven minutes in New York delivered a death verdict. There were fewer marriages and fewer divorces in Missouri in 1930 than in 1929.

FLIERS IN GERA

GERA, Germany, June 30. (AP)—Otto Hillig and Holger Horitz, American trans-Atlantic fliers, arrived here at 1:45 p. m. from Berlin.

GIVEN ACQUITTAL

NEW YORK, June 30. (AP)—Henry Stein and Samuel Greenberg were acquitted today of the murder of Vivian Gordon, alleged black-mailer and vice inquiry witness.

LEAVE your old tires at TIRE SAFETY HEADQUARTERS GET DIRECTIONS on page 5

MISS HALL FLYING MIDLAND, June 30. (AP)—Miss Winnie Mae Hall, after whom the globe-circling Post-Gatty airplane was named, stopped over at the Midland airport at noon today en route to El Paso where she will spend the night before continuing her flight to the Pacific coast. She was traveling in a sister ship to the Post-Gatty plane.

ASSISTANTS NAMED AUSTIN, June 30.—Student assistants in the school of law during the summer session include Edmund D. Dyché of Amarillo and Leroy Jeffers of Holland, quizmasters, and Clifford Mays of Fort Worth, Gus Hodges of Greenville and James Marberry of Austin, student librarians.

COMMERCE, June 30. (AP)—The Commerce Oil and Developing company ceased operations yesterday after fulfilling a contract to drill the Abilowich oil test well three miles east of here to a depth of 3,000 feet. The test was described as a dry hole at 3,030 feet. Hunt county citizens interested in the well were considering drilling the test hole to a greater depth.

BRIDGE-LUNCHEON IS GIVEN BY MRS. PORTER MALONE

Week-End Outing and Other Pleasure Trips Taken by Noelette Folk

HOSTESS USED SWEET PEAS AND DAISIES IN DECORATING FOR TODAY'S ENTERTAINMENT

London Bridge club members gathered in the home of Mrs. Porter Malone this morning at 10:30 o'clock for a prettily planned bridge-luncheon. The hostess' aunt, Mrs. H. N. Barnett of Austin, was a special guest for the occasion.

Games were played in rooms decorated with sweet peas and daisies, chosen to stress a pink and green color scheme. Attractive awards were given for high score, low score, and high cut.

Glass baskets filled with sweet peas were placed on the table at 1 o'clock, when a three-course luncheon was served.

Members attending were Mesdames R. G. Hughes, J. Wade Dunham, John Stander, E. Otto Stander, J. D. Sugg, W. E. Coffey, Clarence Barrett, P. O. Sanders, Arthur Swanson Julian Barrett, Justine Devine, and the hostess.

Tennessee Queen

Being named the most beautiful co-ed at the University of Tennessee was only a starter for Miss Mary Peffer, above, of Fountain City. Now she has been chosen to represent her state at the annual Rhododendron Festival to be held in Asheville, N. C.

Birth Rates of Cities on Decline

WASHINGTON, June 30. (AP) — Blame for a decreasing American birth rate has been laid by Warren S. Thompson, census expert, to the American city.

In cities, he says in a monograph, children are an afterthought. In the country there is a place for them.

"Not life, not living, but things constitute the ultimate realities of city life," he believes, "—tangibles, countable, cumulative things are criteria of success."

Comparing unmarried men in the city and country, he writes: "A man can live comfortably, even luxuriously in the city as well as in the country. There is a job of any kind in the city at which one cannot succeed more easily and quickly without a wife, to say nothing of children. The opposite is true in the country. There the bachelor does not find living easy. Without a wife and homemaker he is lonely and uncomfortable and does not succeed any better for seeing wife and children."

Spain Proposes to Abolish All Titles

MADRID, June 30. (AP) — A proposed constitution providing for universal suffrage, religious freedom and abolition of titles of nobility will be submitted to the newly elected national assembly when it convenes July 14.

The preliminary draft, as formulated by a government commission, will first be passed on by the cabinet, possibly this week.

It stipulates that women shall be allowed to participate for the first time in the election of deputies, that all creeds will be allowed to religious freedom and that the ancient distinctions of aristocracy shall be no more. The Catholic church would become a "corporation" and the state would have no official religion.

Supreme authority would be vested in the republican government in Madrid although the provinces might organize for local administrative purposes. The president would be elected for a term of six years by a majority of the senate and lower house in joint session.

The senate would be made up of 240 members chosen equally among the "cultural" and "labor" entities, and the lower house would consist of 470 deputies elected by popular suffrage.

Largest Teachers Institute Planned

CANYON, June 30. (Special) — Initial plans for the largest Panhandle Teachers institute ever held, were laid this week, according to announcement by F. E. Savage, superintendent of the West Texas State Teachers college training school, who is in charge of arrangements for the meet.

The institute will take place on Sept. 3, 4, and 5 on the campus of the West Texas State Teachers college, members of the executive committee, who were in Canyon this week conferring on matters pertaining to the meet, announced.

From all indications Mr. Savage declared that the attendance this year will be larger than it has ever been. More of the larger city schools of the Panhandle will take part in the institute this fall. This is due, he says, to the fact that the state teachers association will meet in Amarillo in November.

The institution this year will be more on the association type than those of the past. A number of strong speakers and prominent educators will appear on the program. An entertainment feature will be a trip to the Palo Duro park.

9 OUT OF 10 PEOPLE
have been waiting for the good news on page 5

Some FEMININE Fancies

By HOLLYCE SELLERS HINKLE

"If the football season should open tomorrow, there would be a high school band ready to do its part," said "Pop" Frazier this morning. Mr. Frazier is expecting great things of the band next fall. He has 22 pupils in his summer band class.

July 4, the time of picnics, fireworks, and chiggers, is nearly here, and with so many attractions on the north plains, Pampans are finding it hard to decide where to go.

One of the largest events for local people, if it is held, will be the all-day picnic Saturday for members of the American Legion, the American Legion auxiliary, and their families. An interesting program has been planned for this occasion.

There has been some talk, however, of postponing this picnic until August, since it will conflict with other attractions if held on the Fourth. Final decision will be made at a meeting of the American Legion this evening at 8 o'clock at the legion hall.

Thousands of north plains and Oklahoma persons will gather at Canadian for the annual Anvil Park rodeo sponsored by C. A. Studer and sons.

Horses are not trained to buck. Some are just naturally mean. The Canadian folk want that remembered at the rodeo.

What's more, contestants will attempt to ride the Brahmas, to which anything wearing leggings and walking on two legs is an irritant. The steers, sacred in India, are said to be able to "out-swear" anything on four legs. Calf roping, trick roping, and trick riding will be among other attractions.

A number of Pampans also are expected to attend the Dalhart rodeo, the largest attraction in that section of the country, while others will be at the rodeo and terrapin derby in Shamrock on July 3 and 4.

The old-timers reunion and rodeo will draw thousands of persons to LeFors July 3 and 4. Sheriff Lon Blanset is working to make the occasion one of real importance to the north plains.

A bathing revue and other attractions in and around Amarillo will draw a number of Pampans to that city. Harding's ranch near Amarillo is always a popular spot for picnickers on holidays.

Scores of family groups, parties of friends or relatives, and small organizations will take their lunches, bathing suits, fishing poles, or fireworks to Palo Duro canyons, LeFors, Miami, or other attractive spots near the city for a day of fun.

YOUNG PEOPLE LEAVE TODAY FOR MISSOURI

Marjorie Buckler, Louise Walstad, Tom Rose Jr., and Rex Rose, all of Pampa, left Amarillo by train this morning at 8:15 o'clock for Dallas, where the Texas party will meet before going to Branson, Mo., to spend the summer at camp. They were accompanied to Amarillo by Mr. and Mrs. Tom Rose, Mr. and Mrs. C. P. Buckler, and Anne Buckler.

The girls are to attend Kickapoo camp and the boys, Kugahoo camp. Both camps are on Taseycomo lake and cover 55 acres. They are supervised by Mr. and Mrs. C. L. Ford of Dallas, while Mrs. Tom White of Amarillo is dietitian.

The lake on which the camps are located are formed by a dam across the White river. The dam banks the water up for 25 miles.

Cooperative play is stressed throughout the camp, and swimming, boating, and athletic contests will be among the sports.

Of particular interest are the side trips, one of which will be a 40-mile steamboat trip.

COMING EVENTS

WEDNESDAY
Woman's Missionary council, First Christian church, will meet at 2:30 o'clock at the church. Division I will be in charge of the program.

Bethany circle will be hostess at a meeting of the Central Baptist W. M. S. at 3 o'clock at the church.

The Mooseheart Legion will meet at 8 o'clock at Locust Grove club.

Episcopal auxiliary will have a called meeting at 2:30 o'clock in the home of Mrs. C. P. Buckler. Plans will be made for a large benefit entertainment.

Mrs. Richard Shields will be leader at a meeting of the Presbyterian auxiliary at 3 o'clock at the church.

Officers and teacher of the Amoma class, First Baptist church, will meet at 3 o'clock with Mrs. Clyde Garner, president.

Church Leaders For Birth Control

DELAWARE, Ohio, June 30. (AP) Leaders of the Methodist Episcopal church meeting here are in favor of physicians and social workers giving birth control information to "duly married couples."

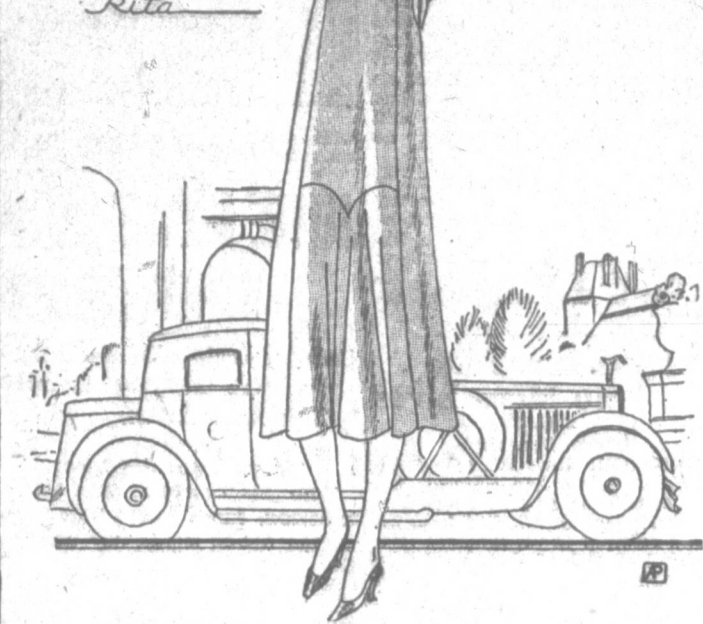

They adopted a report yesterday of a commission headed by Dr. William C. Cole of Brooklyn, N. Y., which based its recommendations on economics and health and changing of family life.

"It is time that some pioneering religious body take the leadership in a humane and righteous campaign for the education of the people in the ethics of birth control," the report said.

GIVEN TWO YEARS
TEKARKANA, Ark., June 30. (AP) George Lloyd Baker, 21, today was at liberty under a two-year suspended sentence after pleading guilty yesterday to a charge of murder in connection with the fatal shooting of his mother.

MODES OF THE MOMENT

PARIS

DANCE IS HELD BY MARY ELLEN COOK TO COMPLIMENT VISITORS

Mary Ellen Cook was hostess to a group of friends with a dance last evening in the home of her parents, Mr. and Mrs. C. C. Cook. The event was to honor Miss Johnaphone Briscoe of Chickasha, Okla., and Powell Briscoe of Oklahoma City, who have been Miss Cook's guest for several days and have attended some form of entertainment each day during their stay.

Funch was served throughout the evening at the dance, and a sandwich and ice course was served at a late hour.

The guest list follows:
Dorothy Doucette, Pauline Barnard, Melba Graham, Bonnie Nell Gordon of Miami, Christine Cook, Alice Ingram, Virginia Rose, Marjorie Buckler, Margaret Bryson, Louise Walstad, Lucille Cole, Mary Ann Moyer, Esther Stark, Miss Talley of Austin, LeFors Doucette, Albert Doucette, Gene Fatherson.

Ray McNeill, Paul Camp, Joe Kahl, John Moseley, Curtis Stark, Vernon Lawrence, Paul Sharp, Fletcher Carson, Berkeley Oldley, Harry Cook, Charles Thomas, Clarence Brumley, Tom Braly, Clifford Braly II, Siler Faulkner Jr., Wanda Barnard.

H. L. Ledrick, T. P. Dimean, Lewis Sprinkle, Bill Kelley, Durwood

PICNICS GIVEN SMALL GROUPS PROVE POPULAR

NOELETTE, June 30.—Small outings have been the most popular form of entertainment in Noelette during the last days of June. Many week-end trips also have been taken, and a few persons are on their vacation.

Mr. and Mrs. E. I. High and children and Mrs. Joe Randle and daughter, Monty Jo, have returned after a two-week trip to Oklahoma and Missouri.

Mr. and Mrs. John Rush and children, Mr. and Mrs. J. E. Carlson and son, and Mr. Sellers of Tulsa, returned Sunday after a fishing trip to New Mexico.

Mrs. R. Ostrom of Hobbs, N. M., is visiting her parents, Mr. and Mrs. Frank Martin.

Mr. and Mrs. A. Steinbacher and children left Wednesday for a visit in Tulsa.

Mrs. John McCollum and daughter, Bernice, and Leon Sharpe are visiting Mrs. McCollum's mother, Mrs. Biggs, in Stephenville.

W. T. Sanders of Drumright, Okla., is visiting in the home of Joe Randle and E. I. High.

Mr. and Mrs. R. E. Maupin and Wayne Grove are spending the week fishing in New Mexico.

George Stockwell returned to his home in Wynona, Okla., after an extended visit with his grandparents, Mr. and Mrs. D. F. Turnell.

Mr. and Mrs. R. G. Donnelly and daughter, Zola Grace and Colleen, left Monday for a visit with relatives in Oklahoma and Missouri.

Jack Sharpe of Blanton visited in the home of John McCollum this week.

Mrs. Ralph Cain and son, Billy, have returned to Bartlesville, Okla., after a two-week visit here.

Mrs. R. E. Showers and son are visiting her daughter, Mrs. G. G. Noel in Spearman.

Mrs. Albert Bartz and son, Roy, spent the week-end in the W. J. Bartz home in LeFors.

Georgia Bullock, daughter of Mr. and Mrs. James Bullock, has been ill this week.

M. L. Dowd of Lawton, Okla., is transacting business here this week.

Mrs. Leonard Cannon and daughter,

Birthday Party Is Held at Mobeetie

MOBEETIE, June 30.—Multi-colored crepe paper and flowers were used to adorn the refreshment table when Mrs. F. P. Hoare entertained her little granddaughter, Belle Heare, and Mary Thomas with a birthday party Friday.

The little girls blew out the candles on their cakes, which were cut and served with pink lemonade.

Out-of-door games then were played and pictures were taken.

The hostess was assisted by Mesdames Jack Miller, Sam Thomas, S. F. Cox, and Roscoe Thomas in entertaining the following: Maurita and Hoyte Dunn, Drummond D. and Harry Thomas, Wayland Harrison, F. P. Hoare Jr., Peggy Love, June Fox, Doris Key, Cora Lee Jordan, Maurine Hunt, Madell and Silve Lee Reynolds, Catherine Miller, Virginia Veri and Tressa Godwin, and the honorees.

ter, Leona, visited her parents, Mr. and Mrs. B. L. Love in Borger Saturday.

Mr. and Mrs. Don Dewey and daughter, Norma, are visiting relatives in Oklahoma this week.

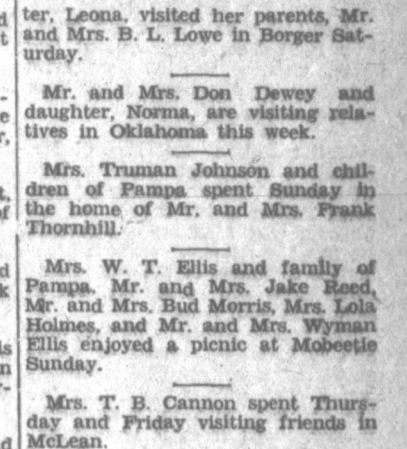

Mrs. Truman Johnson and children of Pampa, spent Sunday in the home of Mr. and Mrs. Frank Thornhill.

Mrs. W. T. Ellis and family of Pampa, Mr. and Mrs. Jake Reed, Mr. and Mrs. Bud Morris, Mrs. Lola Holmes, and Mr. and Mrs. Wynna Ellis enjoyed a picnic at Mobeetie Sunday.

Mrs. T. B. Cannon spent Thursday and Friday visiting friends in McLean.

CHANGE OF LIFE

"I used Cardui about sixteen years ago, and found it helpful," says Mrs. Ruth Scott of Tusculuma, Ala. "I also used it during change of life. I was very nervous and my back was weak. I did not sleep well at night, and was restless and very worn-out in daytime. I took Cardui at this time. It built me up and from then I have been well and strong."

Water Sill Tire Company Is Occupying Its Beautiful New Home

PLANT COSTS \$20,000 WITH FINE DEVICES

Flood Lights Illuminate West Foster Building Very Efficiently.

At night now, two floodlights illuminate as if it were day the new home of the Walter Sill Tire company at 401-82 West Foster recently completed at a cost of \$20,000. It replaced the old structure built by the owner, Paul Kasishke, four years ago.

The floodlights are a sort of key-note to the place. The light each of the two sheds upon the building is equivalent to 1,000 candles. The lighting is extraordinary. A General tire sign, 16 feet wide and four feet long on the top at the front contains 212 light bulbs. Lighted advertising globes are placed at intervals on the top around the building.

The east driveway which slopes to the street from the building is laid with concrete and is 100 feet long and 45 feet wide. The north driveway is 35 feet long and 50 feet wide. Texaco and Cities Service gasoline is dispensed from four pumps at the east front.

Sill Is Manager
Walter Sill, a relative of Mr. Kasishke, is manager and has held that position for almost three years. John Patton is in charge of the washing and greasing department. He has two helpers, William Kimbrell is in charge of the vulcanizing department and assists Mr. Sill in selling General tires.

The building itself is 25 feet wide and 90 feet long. Brick of various colors was used in constructing it. The walls of the front office are covered with fancy-patterned plaster. This room is used exclusively for an office and a display room. However, it does contain a sanitary water cooler which does not necessitate drinking cups.

The basement at the front part of the building is 25 feet wide and 18 feet long. It is used as a sales and stock room. There is a phone in the basement and one in the office. The two rooms are also connected by buzzers.

The next department is the vulcanizing room. Modern overhead doors connect each of the four departments with the east driveway. The washing and greasing department has two hydraulic grease lifts for using in greasing, tire-changing and crank-case service. The specialized lubrication service uses several kinds of grease in greasing a car. Each department is separated from the other by tile and concrete partitions. The washing department is equipped with a high-pressure washer and two hydraulic lifts for washing.

Beside each door on the outside is a shapely evergreen shrub. A woman's rest-room, tastefully furnished, is located at the front of the building. The men's rest-room is located at the rear.

All equipment in the building is new. Two cars can be washed and two can be greased at the same time—while four automobiles are being serviced with gasoline on the driveway. The tire repair room is fully equipped.

The new place was erected in the most depressing period of the alleged depression. "We have been here four years, and we expect to be here many more," Mr. Kasishke said. "There might be a depression but it has nothing to do with our confidence in Pampa. The new home of the 'Pampa Lub' expresses that confidence. We have no qualms about the future and no fears for our investment. Our business in the past justified erection of the new building."

To every customer who visits the station tomorrow and has the crank case of his car drained, the last quart to fill the crank case will be free. If a car holds five quarts of oil the owner will be charged for only four quarts.

Walter F. Sill (above) is manager of the Walter Sill Tire company, on West Foster avenue, which will formally open its fine new building tomorrow.

RESIGNATIONS TO BE URGED

Dry Forces Attack Those Who Say Prohibition Doomed to Fail.

ATLANTA, June 30. (AP)—Resignation of office holders who say prohibition cannot be enforced is demanded by Georgia dry leaders and a group of their followers.

Resolutions expressing full faith in prohibition and asking that every official who says enforcement is impossible "resign from an office which he has thereby traitorously betrayed" were adopted at a mass meeting here last night after addresses by former Congressman William D. Upshaw, Dr. Mary Harris Armor, W. C. T. U. worker, Allicus Webb, superintendent of the Texas Anti-Saloon league, and W. A. Covington, one of the sponsors of Georgia's prohibition law.

The meeting followed a statement of Mayor James L. Key in France and the announcement of Chief of Police James Beavers that Atlanta could not hire enough policemen to stop bootlegging.

Mrs. Armor said that "there are thousands of people in Georgia who would burn at the stake rather than permit the 18th amendment to be changed in the slightest."

Referring to Mayor Key's recital of a visit to a New York speak-easy in order to investigate prohibition conditions, Webb said that the mayor of his home town, Dallas, Tex., "doesn't go to speakies, but he sends the police."

Covington said that "the way to deal with this liquor question is to make it criminal to sell or give the stuff away."

Body of Girl Is Taken From River

DEKALB, June 30. (AP)—The body of Miss Myrtle Proctor, 22, one of five persons who lost their lives in the Red river Sunday night, was recovered from the stream last night.

Several hours earlier searchers found the body of Mrs. Gladys Roberts, 28. Search for the two bodies had lasted for many hours.

Mrs. Roberts and Miss Proctor were members of a party of five who crossed the Red river to the Oklahoma side to enter shallow water. A log dragged them into water between 15 and 20 feet deep. J. D. Simers, 38, Tom Roberts, 26, and Joe Bailey Roman, 9, were drowned at the same time. Their bodies were recovered Sunday night.

JUDGE IS APPOINTED
AUSTIN, June 30. (AP)—Gov. Ross S. Sterling today appointed Lex Smith of Teague to succeed W. R. Boyd of the same town as district judge of the 87th district. Boyd resigned, effective tomorrow, because of failing health.

CONTRACTOR OWNS PLANT

Paul Kasishke Shows Faith in Community—Sill Is Pleased With City.

Paul Kasishke, local rig building contractor, is the owner of the Walter F. Sill Tire company at the corner of Foster avenue and Somerville street. The company has just moved into its new \$20,000 brick home.

Mr. Kasishke moved to Pampa four years ago and since that time has been one of Pampa's boosters. Three years ago he purchased the Pampa Lubrication company and a short time later Walter F. Sill came to Pampa from Kalamazoo, Mich., to become manager of the station.

Two months ago Mr. Kasishke, believing in Pampa, decided to erect the new home for his business and enlarge its scope. He also decided to change the name of the company. "Pampa is the one bright spot in the country today and I believe Pampa will continue to be the best place in the country," Mr. Kasishke said. "Pampa and Gray county have been my home for four years and I hope it will always be home," he said.

"When Mr. Kasishke asked me to come to Pampa I did not have any idea what it would be like but he painted a glowing picture of a city with a great future, so I came to Pampa," Mr. Sill said. "It is the one city in the country," he declared.

Car Mishaps Take Two More Lives

(Drive Carefully)

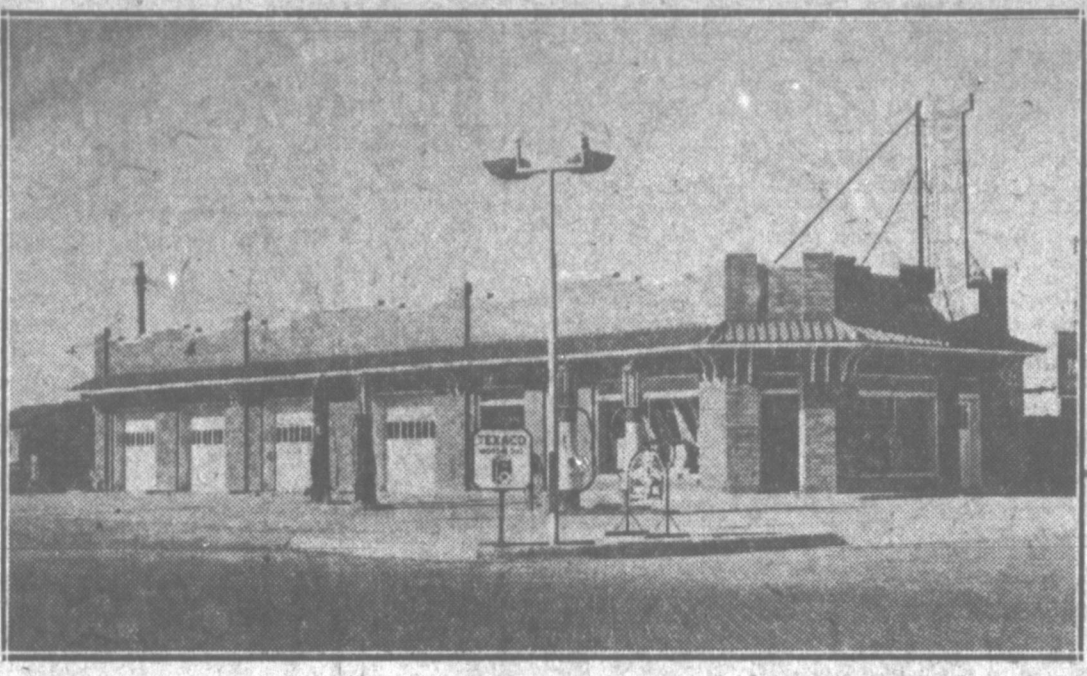

HOUSTON, June 30. (AP)—Automobile accidents had claimed the lives of two more persons today. Charles Monsur, 37, died from injuries received in an accident near Nome last Saturday and Clayton P. McPherson, 37, of Friendswood, strangled under his overturned car on the League City road five miles from Friendswood last night.

Monsur was en route to Beaumont to attend a funeral when his car struck a concrete post. McPherson is survived by his bride of six weeks and his mother.

WILL DETAIL SHOOTING
WASHINGTON, June 30. (AP)—The state department is preparing to supply the Mexican government with full information on the fatal shooting of two Mexican students at Ardmore, Okla., and the acquittal of former Deputy William E. Guess.

GLADEWATER ENDANGERED
TYLER, June 30. (AP)—The brush fire which threatened the town of Gladewater last night was reported under control today. The fire was expected to continue burning today, or longer, but was not considered dangerous.

JUNE HEAT WAVE NOW INTO EIGHTH DAY—RELIEF SEEN

By the Associated Press
With little chance of relief before tomorrow, June's record heat wave stalked for an eighth day through the nation today.

While the central states were most affected, some sections of the east, south and west also suffered beneath searing temperatures. The Pacific and Atlantic coast areas for the most part, however, enjoyed moderate weather.

Despite local showers and cooling breezes, in many localities, the toll of deaths, attributable to the sun's extraordinary reign, exceeded 500, with more than 230 dying within the last 24 hours.

The wave, disastrous as it is to mankind, was likewise taking its toll of animals. Throughout Illinois, Iowa and Indiana farm beasts were reported dropping dead in the fields. Iowa farmers were watching with heavy hearts as their grain crops turned brown and corn leaves shriveled. Other midwestern farmers were outfitting the sun by working in their fields at night. And, as though the blistering tempera-

Young Girls and Aunt Are Drowned

PONCA CITY, Okla., June 30. (AP)—Two young sisters and their aunt lost their lives in the Arkansas river near here last night. Eleanor Dotson, 9 years old, her sister, Esther, 13, and their aunt, Mrs. Pearl Hunter, 21, drowned last night when they stepped into a deep hole while bathing near the sisters' home a mile east of here.

MULESHOE MAN KILLED
FARWELL, June 30. (AP)—Hugh Kennedy, Muleshoe business man, was instantly killed last night when his car crashed into a truck on the highway one mile west of Farwell.

Crops Burning Down While Farmers Mourn; Human Toll Also Great.

ASK RAIL EXTENSION
WASHINGTON, June 30. (AP)—The Atchison, Topeka, and Santa Fe railroad and its subsidiary, the Elkhart and Santa Fe, asked permission from the Interstate Commerce Commission today to extend the line of the latter 17 miles from Clayton, N. M., to Mt. Dora. The extension is a portion of a 110-mile line proposed to be built from Felt, Okla., to Colmer, N. M.

INDICTMENTS THROWN OUT
ANDERSON, June 30. (AP)—Indictments against A. W. Morris, former Montgomery county judge and Leo W. Budde of Conroe, were thrown out here late yesterday by District Judge S. W. Dean, on motion of defense counsel.

The case of Morris was the first on the docket. The charge was embezzlement of \$100 from the First State bank of Conroe. The indictment named the injured party only as the First State bank, and Judge Dean sustained the motion of the defense.

IS THERE ANY REAL DIFFERENCE IN GASOLINE?
The answer is—Just drive up to the Texaco pump. Then notice how much better your engine performs. Better in pick-up, power, mileage and smoothness. The new Texaco is decidedly different.
When you see the Texaco sign stop and have your oil checked. If it needs changing the attendant will be glad to drain your crank case and refill with the correct grade of the new Texaco Crack-Proof Motor Oil.

OLD TIRES ARE DANGEROUS DURING HOTTEST WEATHER

Trying to Obtain Last Few Miles of Wear Often Causes Tragedies.

Approach of hot weather has been reminding hundreds of motorists in Pampa that they have been trusting their lives much too long to worn-out tires or poorly-built tires that would have been replaced long ago if proper safety precautions had been observed.

"More drivers have been taking chances with disaster during the past 15 months than ever before," said Walter Sill of the Walter Sill Tire company. "They have been hoping that their tires would hold out a few more miles, but most of them haven't been any too confident that they would."

"It is to enable these drivers to get rid of their old rubber and replace it with safe, new tires that will carry them safely through the hot weather, which is so tough on inadequate tires, that we are inaugurating our annual trade-in sale, when special and unusual allowances are made for old tires traded in for new rubber."

"It was the General Tire and Rubber company that inaugurated this type of sale some years ago. In order to make it possible for every car-owner in Pampa to ride on safe tires this summer, we are making more generous allowances in this sale for old tires than we ever have made before."

"Tire prices, of course, are much lower than they ever have been before, but it is not likely that they will remain long at their present low prices, so that it is a matter of economy to equip one's cars with new, safe tires at this time, even if there are a few remaining miles of wear in the old tires now in use."

Mr. Sill added that, because of the prevailing low prices of tires, Generals can now be obtained more cheaply than ordinary tires could be bought a few years ago and that, with trade-in allowances, the cost of changing over to Generals is now amazingly low.

SLAYER IS EXAMINED

SAN ANTONIO, June 30. (AP) — Robert Compton Jr., 24-year-old Gonzales man, was charged with the murder of Miss Lillian Nagel, 17-year-old Brackenridge senior school graduate, in an indictment returned by a grand jury in the 37th district court here today.

Compton is at present under observation at the San Antonio State hospital.

Toe Itch

Athlete's Foot and Hand Itch
Why suffer from the queer skin disease causing severe itching of toes and feet, cracking, peeling skin, blisters, Ringworm, Trench Foot or Crotch Itch, when you can avoid infection and quickly heal your skin with Dr. Nixon's Nixoderin? Based on the famous English Hospital formula, discovered by a leading London skin specialist, Dr. Nixon's Nixoderin acts with amazing speed, because designed for this particular skin disease. Nixoderin is guaranteed. It must stop itch and quickly heal your skin or the small cost will be refunded.

Richards Drug Co.

NOTICE TO PAVING CONTRACTORS

Sealed proposals will be received by the City Commission of the City of Pampa, Texas, at the City Hall, up to 2:30 p. m., Tuesday, July 7, 1931, for the construction of certain street improvements on Ripley street and Hobart street in the City of Pampa, Texas, such improvements to consist of grading, raising, and paving upon such streets. Some approximate quantities are as follows:

- Pavement—12,228.04 sq. yds.
- Curb—5,481.58 lineal feet.
- Gutter—9,017.42 lineal feet.
- Concrete headers—622.46 lineal feet.
- Earth excavation—2,631 cubic yds.
- Culverts—39.69 cubic yards class A concrete.
- Culverts—1917 pounds reinforced steel.
- Culverts—96 cubic yards structural excavation.

Proposals will be considered on plain concrete pavement and vibro-tilt concrete pavement. Plans and specifications may be seen and forms of proposals obtained at the office of C. L. Stine, engineer, City Hall, Pampa, Texas. A certified check in the amount of 5 per cent of bid must accompany proposals.

The successful bidder will be required to give good and sufficient bond in the full amount of the contract price for the faithful performance of such contract, executed by some surety company authorized to do business in the State of Texas in accordance with the provisions of Article 5160 Revised Statutes of 1925, and amendments thereto.

It is also proposed that the City will pay one-half of the total cost of such improvements exclusive of curb and gutter.

It is the intention of the City Commission to issue time warrants of the City of Pampa in a total amount not exceeding \$20,000.00 to pay the contractor for the city's part of the cost of such improvements; such time warrants to bear interest at the rate of 6 per cent per annum and to mature serially over a period of time not exceeding 30 years.

In the event bids submitted shall make it appear to the best interest of the City to make payment of the city's part of such cost in cash, the right is reserved to make payment in cash, and bidders are requested to submit bids on such basis of payment in addition to proposal to accept time warrants.

The commission reserves the right to reject any and all bids.

D. W. OSBORNE, Mayor.
F. M. GWIN, City Mgr.

Garnishment of Crop Loan Illegal

TEXARKANA, Ark., June 30. (AP) Judge Dexter Bush, of Miller county circuit court, today upheld the ruling of Judge Louis Josephs, of municipal court, that government crop loans are not subject to garnishment.

The case which was said to be

the first of its kind in the country, was appealed from municipal court. The issue resulted when O'Dwyer and Ahern, a Texarkana business concern, sought a \$80 attachment against the bank account of A. A. Quillen, of Fouke. The garnishment covered a \$39.34 debt which Quillen admitted owing.

Both Judge Josephs and Judge Bush held that "property of the defendant, which has been dedicated by law to a particular purpose, cannot be diverted from that purpose by garnishment proceedings."

Hoover May Take Hand in Strikes

WASHINGTON, June 30. (AP) —

President Hoover today informed John L. Lewis, president of the United Mine Workers of America that the administration desired to lend every possible assistance "to any constructive program put forward" by coal operators and miners.

The president's telegram was in answer to a letter in which Lewis requested the president to call a conference of operators and miners to settle difficulties arising out of conditions in the bituminous districts.

The communications received from Lewis and from the mine workers council, the president wrote, have been referred to the secretaries of commerce and labor who have been asked to advise on the manner in which the government might

contribute helpfully in any movement to advance the well-being of operators.

Discrimination in Oklahoma Area Is Denied by Umpire

GUTHRIE, Okla., June 30. (AP) — Efforts of the Champlin refining company to show in federal district court here that discrimination exists in the Oklahoma City oil field under proration laws, were opposed by testimony of Ray M. Collins, corporation commission umpire, today.

The Champlin company is attacking the commission's power to

make and enforce proration rules in flush fields.

Collins submitted a list of contributors to the Seminole Proration commission. He said that only the Garber, cement, and Deer Creek fields are not prorated.

Attorneys for Champlin sought to show discrimination in pipeline takings from various fields and that the proration committees failed to provide pipeline outlet for the Oklahoma City field where the company has four wells.

Collins testified that he had no authority to allocate pipeline runs and that outlet depended upon purchasing companies' demands.

Asked as to the effect of the east Texas field on Oklahoma crude prices, Collins said that whether

prorated or not a new flush field has a tendency to lower prices.

Testifying in attempts to show proration was not price fixing the witness said that in 1926 when the greater Seminole field was prorated, oil was \$2 per barrel and that it declined to \$1.07.

HILL JURY SELECTED

SAN ANGELO, June 30. (AP) — The jury in the case of Alva Hill, 23, charged with murder in connection with the fatal stabbing of John R. Kiser, dairyman, here June 10, was completed at 2:30 o'clock this afternoon and taking of testimony was begun. J. E. Blackwell, Miles farmer, was the twelfth juror chosen.

JACK WON'T FIGHT

RENO, Nev., June 30. (AP) — Jack Dempsey, former heavyweight champion, said here today he had turned down an offer to fight at Cleveland, in September, the winner of the Schmeling-Stribling championship bout. The offer was made, he said, by Ed Bangs, Cleveland newspaper man associated with promotion of the Schmeling-Stribling fight July 3.

TO PUSH PROSECUTION

WASHINGTON, June 30. (AP) — Attorney General Mitchell today announced plans to increase justice department operations against buck-et shops and firms selling worthless securities through prosecution under the mail fraud acts.

STARTING TOMORROW AT 7 A. M.

WALTER SILL

Announcing

Our 6th Annual
TRADE-IN SALE

We have gone the absolute limit in the way of price reductions. You tell us what your old tires are worth. You save money regardless of make or condition of your present tires. This sale also applies on change-overs on new car equipment tires to Generals. Regular 30 day terms or our famous General Tire Acceptance plan of easy payments. SCHEMLING IS CONFIDENT AS HE FINISHES WORKOUTS

CONVICTION TO BE IDEAL ON DAY OF FIGHT

German Titleholder Will Play Round of Golf for Final Exercise.

BY CHARLES DUNKLEY
Associated Press Sports Writer
CLEVELAND, June 30. (AP)—Young Stribling, confident and carefree, winds up five weeks of intensive training tonight in his quest for the world's heavyweight championship.

The smiling young Georgian, challenging Max Schmeling, the German titleholder, will do his final boxing in the cool of evening at his camp, Geauga lake. Stribling, regarding his condition as perfect, plans to breeze through a light workout of four rounds. After the last glove goes swishing through the air, Stribling will desert his camp, which has been his home since early May and go into seclusion, occupying a residence in an exclusive residential district of Cleveland.

Ma Does Cooking
Ma Stribling and his Pa will accompany him with Ma doing the cooking, and otherwise caring for her son until he jumps into the ring to meet Schmeling in the 15-round title battle in Cleveland's new municipal stadium Friday night.

Schmeling enjoyed a day of rest yesterday, preparatory to finishing up his training today and tomorrow. The young German intends to do only light work today, boxing possibly four or five rounds. The finish tomorrow will be of the lightest nature. Schmeling intends to loaf and play his usual game of golf on Thursday and depart for Cleveland by motor on Friday morning, arriving just in time to weigh in on noon.

The referee question was settled to the satisfaction of all concerned yesterday with the selection of George Blake of Los Angeles as the third man in the ring. Blake enjoys an enviable record in boxing, for his honesty and respect of others in the sport.

Referee Is Popular

Blake, himself an excellent boxer, has the distinction of having developed two American Olympic champions, who later became world professional title holders. They are Fidel LaBarba and Jackie Pilette. Blake taught them to box while they were members of the Los Angeles club team of which Blake was boxing instructor. Blake holds a referee's license as well as a manager's license on the Pacific coast. Bob Edgren, noted boxing authority and member of the California State Athletic commission, regards the selection of Blake as referee as a master stroke. Edgren regards Blake as the outstanding referee on the Pacific coast. If not in America, Blake has refereed much due to his managerial connections with LaBarba. He refused the assignment when it was first offered him but was later prevailed upon to accept it. The commission also named the two alternate alternate referees but their names were withheld until the day of the fight.

BOTTOMLEY PUSHED OUT OF OLD POST

Sunny Jim Recovers From Injury to Find Slugger in His Place.

By GAYLE TALBOT JR.
Associated Press Sports Writer.
Although Jim Bottomley has recovered from the injury that knocked him out of the Cardinal lineup several weeks ago, his chances of reclaiming his post at first base for the National league champions appear to be slim.

Jimmy Collins, the slugger from Rochester who got his chance when Bottomley went out, continues to hold down the initial cushion like a veteran and his hitting has been hard and timely. As long as he can maintain his present clip, it is doubtful if Bottomley will see fit to put the veteran "Sunny Jim" back in the lineup.

If Collins makes the grade, he will be the second rookie to break through the veteran combination that started the campaign for the champions. Pepper Martin, another from the Rochester "farm," has fought his way to a regular berth in the outfield.

Collins supplied the punch that beat the Giants, 5 to 3, in the first game of their "crucial" series at the Polo Grounds. With two out in the ninth and the score tied, he nicked Carl Hubbell for a clean single that drove across the winning runs. The victory increased the Cardinals' lead over the Giants to two and a half games.

The Brooklyn Robins, meantime, chalked up their fifth straight win at the expense of the Cincinnati Reds, 6 to 4, and were only a half game behind the third place Chicago Cubs, who dropped a slugfest to the Phillies, 11 to 10.

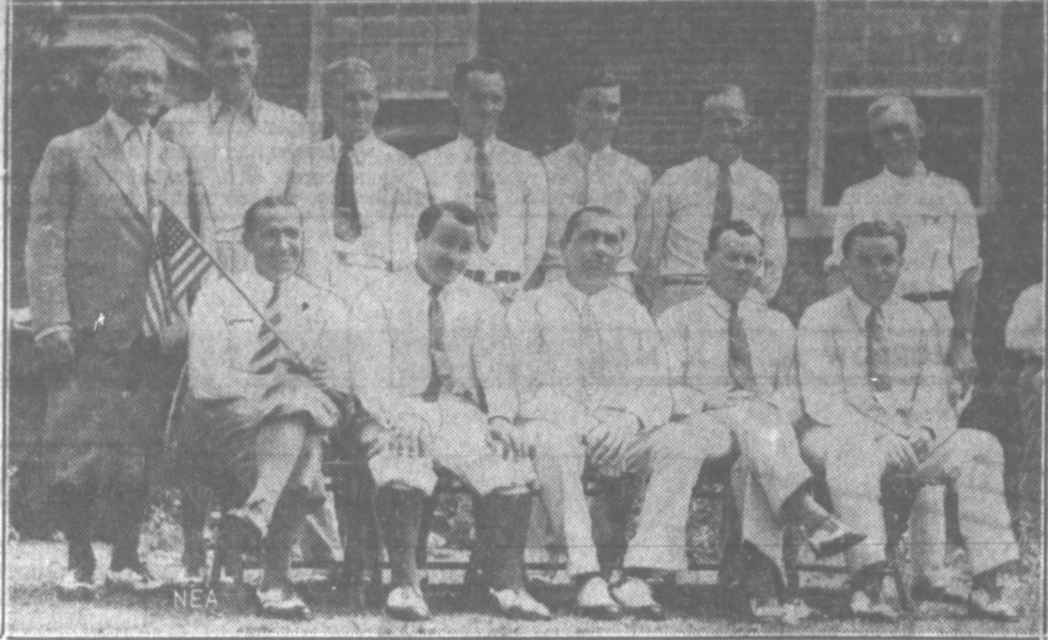

The Cubs ran into too much Chuck Klein up at Philadelphia. The Phillies' brilliant left fielder drove across five runs with a homer, triple and single and himself scored four.

Ray Kremer's four-hit pitching gave the Pirates a 4 to 2 victory over the Braves.

Washington passed up another opportunity to whitewash down the Athletics, led over the American league field when they dropped the series final to Chicago, 9 to 7.

Detroit scored its first victory of the year over the Athletics, 6 to 6. The St. Louis "Brown" winning

American Defenders of Ryder Cup

Here are the Americans chosen to meet the challenge of the British Ryder Cup team at the Scioto Country Club course, Columbus, O. In the front row, left to right, are Leo Diegel, Gene Sarazen, Walter Hagen, Al Espinosa and Billy Burke. Standing, left to right, are Albert E. Gates, Horton Smith, Craig Wood, Denny Shute, Johnny Farrell, Wiffy Cox and George Sargent. Gates is business administrator of the P. G. A., and Sargent, open champion in 1929, is professional at the Scioto club.

BEAUMONT IS SURE TO GET TIE AT LAST

Exporters Face Spudders in Last Game Before End of Period.

By BILL PARKER
Associated Press Sports Writer.
The worst deal the Beaumont Exporters can get out of the Texas league first half pennant race which closes tonight is a tie. Del Baker's hustling Exporters, sensations of the league this year, beat Wichita Falls 4 and 3 Monday to clinch a tie and perhaps the first half, since Houston lost to Fort Worth, allowing the Exporters to take a full game lead.

In Tuesday's games, if the Exporters should lose to Wichita Falls and Houston trim Fort Worth, it would leave the first half in a deadlock. But if the Exporters can beat Wichita Falls they will have the first half flag in the bag regardless of how the Houston and Fort Worth game ends.

George Hollerson, recently obtained from Hollywood of the Pacific Coast league, pitched his second game for the Exporters, limiting the Spudders to nine hits.

Aiding Hollerson Monday was Roy Fritz's mighty bat that exploded with a pair of home runs, giving the Exporters the talismans needed to win. Fritz's circuit wallop in the eighth broke a 3-all tie. Pressnell pitched stellar baseball for the Spudders. He fanned seven batters and allowed 12 hits.

Defeated in a double-header Sunday which knocked them completely out of the first half pennant race, the Fort Worth Cats staged the goose and gander act at Fort Worth Monday night by defeating the Buffaloes 2 to 1. The Buffaloes needed Monday's game like everything, but the Cats went after their revenge and got it to the extent that they just about erased the Bayou City boys from the running. While the defeat didn't exactly eliminate the Buffaloes, a lot will have to happen Tuesday for them to end in a tie with the Exporters.

Leon Chagnon pitched great ball for the Cats Monday night. Leon loosened the strings on his assortment of curves and held Houston to six hits.

Hanson, who had won six and lost three up to Monday night, pitched for the Buffaloes, and what a game he uncovered. He held the hard-pounding Cats to four hits, but never could he get over a two-run handicap dished up to him in the first inning.

In Dallas, the Steers and San Antonio Indians, both waiting for a second half to start, unrolled a double-header. Dallas won the first 6 to 5 when James, second baseman, stole home in the last of the ninth to rob Tom Eteff of a well-pitched game. With George Murray on the mound, the Steers won the midnight battle, 3 to 0.

At Shreveport, the Sports staged a two-run rally in the last of the ninth to beat Galveston, 5 to 4.

AMERICAN MAY HAVE CHARGE OF ZEPPELIN

WASHINGTON, June 30. (AP)— Coast guard headquarters announced today that Lieutenant Commander Edward H. Smith, invited to make the flight to the North Pole on the Graf Zeppelin as the American representative, has been asked to navigate the huge airship in its polar flight.

Smith intends to study ice conditions during the flight. For years he has been the chief ice expert in the international ice patrol conducted by the coast guard in steamer lanes in the North Atlantic ocean.

MAN CHARGED

TEXARKANA, Ark., June 30. (AP)— Homer Cook, 30, was charged today with assault to murder in connection with the shooting yesterday of O. E. Pigg, 44, after an alleged dispute. Pigg was reported recovering at a Texarkana hospital.

streak was snapped at eight straight when Wilcy Moore, the Red Sox veteran, set them down, 4 to 2. Cleveland took both ends of a double bill with the Yankees, 15 to 6 and 4 to 2.

hooks and slides william braucher

ROBINS RAMPANT

They may have laughed when Uncle Robbie's Balmness Boys started off the season with a tail-spin. But when they started to play!

Those old Balmness Boys have started to fight. Materially assisted by an old man named Jack Quinn for whom the rocking chair has been waiting a score of years, and a discarded saw named Joe Shaute who was sent away washed up last year, the Balmness Boys have burst out into a fine frenzy. Watch out for them up there around the top.

The team this year has what it sadly lacked during its slump of 1930. That is competitiveness. It might be added, especially as far as the Cardinals are concerned.

A little episode that occurred when the team was in St. Louis recently forecasts some furious action between the two teams when they meet again. Catcher Al Lopez, from the little Spanish town near Tampa known as Ybor City, allowed the spirit of the Conquistadors to rise up warmly within him during an argument with George Watkins of the Cards.

Al started a crushing right for Watkins' jaw, but it missed its mark. Watkins started one right back at Al. He was wild, too. Then players separated—the two with no harm done except spiritually.

"I'd lay one hundred bucks on the line," said Lopez the next day, "if I had that right swing back that I first threw at him. He ducked under it and got into a clinch. I got my right hand free but Chick

DID YOU KNOW THAT—

Billy Burke's 289 over the Scioto course becomes more remarkable when you recall that Bobby Jones played it in 293 five years ago. . . . Burke was using the new ball; Jones the old. . . . The Western Open has been a fixture since 1899. . . . Ed Engley's winning score of 280 equaled the fourth best score in the history of the event. . . . Tommy Armour's record of 273 of two years ago was made over an easy course. . . . The Ozaukee Country club at Milwaukee. . . . There were 36 scores better than 300 that year.

Retort Courteous

Lopez had a pretty good day outside of that. The fiery little Brooklyn catcher protested violently when Umpire Donnelly interfered with a throw to second base. Lopez, whose facial resemblance to Mickey Cochrane is remarkable, also can peg a word or two that burns.

Old Sarge Gabby Street came out to remonstrate with the way Lopez was rebuking Mr. Donnelly. Then spake Senior Lopez in this wise to Professor Street:

"Get back into your box, you bush league mugg! When you're wanted, Branch Rickey will send for you."

Well, of all the nerve!

Abilene Girl Is Seeking Damages of Former Fiance

ABILENE, June 30. (AP)— Testimony got under way today in 104th court here in a \$50,000 breach of promise suit brought by Miss Marguerite A. Roberts, Abilene, against J. Louis Keel, Roswell, New Mexico.

The plaintiff, now 21, and the defendant, nearing 33, met here in the spring of 1929. Keel's father, wealthy ranchman, now dead, having lived here then. Miss Roberts alleged in her petition that Keel asked her to marry him, that their engagement continued for more than two years as he frequently postponed marriage, and that in January of this year she was "horrified and humiliated" to learn of his marriage to Mrs. Lillian Watkins of El Paso.

The defendant denies any betrothal, answering that he and Miss Roberts were only good friends. He charged that the breach of promise action was "inspired and instigated by said plaintiff's mother, without basis and without foundation, when plaintiff has admitted that she has no complaint against defendant."

Keel's one-third ownership in a house in Abilene formerly occupied by his father, is involved, Miss Roberts alleges he offered her the place, and she caused attachment proceedings to be levied against it. Trial of several days duration is indicated.

MARKETS AT A GLANCE

New York: Stocks heavy; U. S. Steel breaks par. Bonds easy; foreign heavy. Curb heavy; small losses in dull trading. Foreign exchanges irregular; Spanish peseta strong. Cotton lower; easy cables, poor trade demand. Sugar steady; trade support. Coffee lower; European selling. Chicago: Wheat steady; insufficient rain American northwest. Corn steady; bullish weather. Cattle irregular. Hogs lower.

CHARGE DISMISSED

AMARILLO, June 30. (AP)— A contempt of court charge against John Graves, county jailer, was dismissed today by Judge Henry S. Bishop, and the assessment of a \$100 fine was revoked. The charge grew out of a trip to Austin by Graves, accompanied by a prisoner who was to appear before the pardon board. It was contended the prisoner was removed from the county without proper authority.

PLAINVIEW, June 30. (AP)—

The grain exchange here had inspected 1500 cars of new wheat at noon today. Harvesting was under way in Castro county northwest of Plainview, where an exceptionally high yield was expected. Dimmitt was expected to ship 1900 cars in the movement which will start this week.

Fargo Fighter Floors Foreign Favorite

And that was that. Inst. Suarez, of the Argentine, and lightweight title aspirant, had been favored to win over Billy Petrolle, the Fargo Express, in their scheduled ten-round match at Madison Square Garden, New York. But in one of the most spectacular ring battles in recent years the North Dakota veteran administered a severe beating that was climaxed by a hard right-hand drive that sent Suarez down and out. Here's the scene as Referee Binzy finished the count that spoiled defeat but not disgrace to the vanquished fighter.

SCORE OF GREAT GOLFERS TUNING UP AT INVERNESS

Foreign Threat Appears More Potent Than It Has For Several Years.

BY PAUL MICKELSON
Associated Press Sports Writer
TOLEDO, Ohio, June 30. (AP)— Inverness, scene of the most stirring finish the National Open golf championship ever produced, may duplicate its dramatic show of 1930 this week when the world's finest craftsmen of the links meet once more.

More than a score of the game's most famous masters, all players of unquestioned ability and with golden chances to win the coveted prize of American golf, are sprinkled among the 146 stars who start out on the 72-hole medal struggle Thursday. It appears to be the most evenly matched field in the big show's 37-year run. The competition promises to be hotter than the blistering hot weather.

It was at Inverness in 1920 that Harry Vardon made his last gallant fight for the title after 25 years of golfing greatness on both sides of the Atlantic only to fall on the final 18-hole round and watch Ted Ray take the title back to England.

That was the last time the cherished trophy slipped from the possession of the Americans, but Inverness, with its purgatory of traps and narrow fairways, may again reward the foreign invaders. Fourteen are entered in the tussle this week and several of them are granted big chances to win if they can endure the heat spell that looms as a more disturbing menace today than the course itself.

England has perhaps its greatest field in modern open play entered. All 10 members of its Ryder cup teams, now more accustomed to the current heat wave after the struggle at Scioto, are in the fray, and the stand-outs among them are Arthur Havers, veteran Abe Mitchell, young Billy Davies, and the two Whitcomb brothers. The recalcitrant Henry Cotton, hailed as one of Britain's greatest golfers, is here, too, with Percy Alliss, another son of England, who registers from Germany where he is headquartered.

Except for a dark horse threat from the Philippines in Larry Montes, the man with the magic putter, the rest of the field for the promised close finish Saturday is comprised of Americans, one of a score of whom can win without causing the experts to thumb record books to find out who they happen to be. There are the unquestioned "big seven" professionals of American golf, Tommy Armour, Gene Sarazen, Walter Hagen, Mac Smith, George Von Elm, Horton Smith, and Johnny Farrell, all of whom are determined to win the prize.

Machine Gun Is Successfully Used to Shoot Valve Off

KILGORE, June 30. (AP)— A machine gun was successfully used in shooting the valve off tubing at the burning Bell and Graddy well today, Claude Bell reported.

Efforts were being made to kill the well with high pressure pumps and extinguish the fire. Workmen were also digging a tunnel to a point 20 feet below the surface at well casing.

In the event of the pressure and capping methods failing to extinguish the fire, an attempt will be made to divert oil from the well through the tunnel.

CHARGE DISMISSED

AMARILLO, June 30. (AP)— A contempt of court charge against John Graves, county jailer, was dismissed today by Judge Henry S. Bishop, and the assessment of a \$100 fine was revoked. The charge grew out of a trip to Austin by Graves, accompanied by a prisoner who was to appear before the pardon board. It was contended the prisoner was removed from the county without proper authority.

PLAINVIEW, June 30. (AP)—

MAY DISBAR LAWYER

FORT WORTH, June 30. (AP)— A motion for permanent disbarment of J. Forrest McCutcheon, attorney, from practice in United States district court was submitted to Federal Judge Wilson today by Alex Mood, assistant federal district attorney.

TWO MEN FREED

HOUSTON, June 30. (AP)— Two defendants in the Richmond liquor conspiracy case were acquitted on instructed verdicts when Federal Judge T. M. Kennerly opened his charge to the jury this afternoon.

They were Joe Bingham Crawford, a deputy under former Sheriff H. Wyatt Collins of Fort Bend county, and Delle Johnson, a negro. Their names were not brought out in the testimony.

HOLD ZEPPELIN PRACTICE

FRIEDRICHSHAFEN, Ger., June 30. (AP)—The Graf Zeppelin left early today on a practice cruise as far as Iceland in preparation for its scientific excursion into the Arctic next month.

Dr. Hugo Eckener was in command and among the 12 passengers aboard were his daughter Lottie, Frau Von Schiller, wife of one of the navigators, and Lieut. Commander Edward H. Smith of the United States Coast Guard.

WILL HEAR MOTION

ARDMORE, Okla., June 30. (AP)— District Judge Asa E. Walden of the Carter county district court announced today he would hear on July 20, a motion to dismiss or otherwise dispose of cases in which W. E. Guess and Cecil Crosby, former deputy sheriffs, are charged with slaying Manuel Garcia Gomez, Mexican student.

NEW YORK, June 30. (AP)—

Ninety new federal prohibition agents early today raided 20 speakeasies, restaurants and cordial shops and arrested 32 men on charges of liquor violations.

Sister MARY'S KITCHEN

BY SISTER MARY
NEA SERVICE WRITER

Chicken is always a safe choice to serve a group of people whose tastes are not well known to the hostess. Everyone likes it and even those on a reducing diet usually eat it.

Broiled chicken appeals to many people and the meat is tender and delicious. Fried chicken is a toothsome morsel, a bit more substantial than the broiled meat, but tender and delicately flavored. A chicken of frying size also can be roasted to excellent advantage and is particularly suitable for summer dinners.

Of course these methods of cooking bespeak birds fresh from the market, but there are so many times a chicken is not available, when fresh chicken is not available, that the busy housewife will find it well worth her while to become acquainted with the many excellent brands of canned chicken on the market.

Take Care in Heating
There is one precaution to keep in mind when reheating precooked chicken, be it canned or left-over. Do not let the meat actually cook during the reheating process. It not only loses its flavor but becomes tough and dry. Cook the sauce thoroughly and add the chicken just long enough to reheat it.

Chicken a la King is a popular standby, but seems rather prosaic compared with some of the newer combinations.

There are Chinese chicken and Hawaiian chicken and East Indian curry of chicken, chicken paprika and an infinite number of dishes that have a exotic, suggestive flavor or most alluring in hot weather.

Chinese chicken is served on toast or in crusties.

Three cups diced chicken, 1 cup drained crushed pineapple, 3 tablespoons butter, 2 tablespoons flour, 1-2 teaspoon salt, 1-4 teaspoon white pepper, 3-4 cups chicken stock.

The chicken stock can be made by dissolving one or two bouillon cubes in 11-2 cups boiling water.

Melt butter and add pineapple. Cook a few minutes and stir over flour mixed with salt and pepper. Stir until thoroughly blended and slowly add stock, stirring constantly.

Cook and stir until mixture boils hard. Add sliced chicken and cook over hot water for 15 minutes. Serve garnished with chopped salted almonds and a cube of currant jelly or Bar-le-Duc currants.

Curry of chicken is served in a border of rice with a garnish of shredded coconut, currant jelly and chopped almonds.

Curry of Chicken
Three tablespoons flour, 1 small onion, 3 tablespoons butter, 1 teaspoon curry powder, 1 scant teaspoon salt, 1 cup thin cream, 11-2 cups chicken stock, 3 cups diced chicken, 4 cups cooked rice, 1-2 cup shredded coconut, 4 tablespoons chopped almonds, 4 tablespoons currant jelly.

Melt butter and add onion finely minced. Cook over a low fire until onion is tender. Add flour, curry powder and salt mixed and stirred. Stir and cook until bubbling and frothy. Add cream and stock and cook, stirring constantly until mixture boils. Cook three minutes and add sliced chicken. Cook over boiling water for ten minutes and serve in a border of rice. Arrange coconut in a band across the center of the curry, place a line of jelly on either side of coconut, and put the nuts in mounds at the ends, just inside the border.

Chicken snow is a combination of chicken and potatoes that is unusual and practical.

Chicken Snow
Two cups hot diced potatoes, 2 tablespoons butter, 1 egg, 1-2 teaspoon salt, 1-2 cup hot milk, 2 cups diced chicken, 1 teaspoon minced parsley.

Beat egg until light and add with butter, salt and milk to potatoes. Beat hard and add chicken and parsley. Turn into a buttered baking dish and bake 20 minutes in a moderate oven. Serve with creamed peas and fruit salad.

Mexican Students Protest Acquittal of Deputy Slayer

MEXICO CITY, June 30. (AP)—The National University student body published a strongly worded protest in today's newspapers concerning the acquittal of Deputy Sheriff W. E. Guesz at Ardmore, Okla., in the killing of two Mexican students.

"In the name of universal justice we energetically protest against the lack of equity or spirit of honesty shown by the jury of Ardmore" and the protest said "once again Yankee imperialism, with the impunity of the strong and forgetting the sacred duty of hospitality which falls on civilized countries, has drenched American soil with noble Mexican blood to satisfy a racial passion."

"Mexican students call to the attention of the world this farce committed by pseudo justice and unanimously protest against this offense to their country."

Foreign Minister Genaro Estrada in commenting last night on Guesz' acquittal said it would bring reproval not only in Mexico but also in American public opinion. He said Mexico could not consider the incident closed.

RETURNS TO WICHITA
Mrs. Sara Burgess has returned to her home in Wichita, Kans., after a visit with Mrs. Marian Walcott and Mrs. H. L. Ledrick.

THE MARRIAGE GIRL

by RUTH DEWEY GROVES
AUTHOR OF "THE HUSBAND HUNTER," ETC.

BEGIN HERE TODAY
Beryl Braden loves Tommy Wilson and prevents his elopement with her half-sister, Irene Everett. The latter is fiercer when she fails and Beryl secures a radio contract, Beryl tries to forget her hopeless love by going to parties with Irene's friends, Irene learns that Beryl is rich and tries to win him from Beryl.

Tommy's aunt dies and he loses both job and money through her husband. Tommy tells Irene and she breaks their engagement. When Irene asks her to marry him she agrees. In despair Tommy drinks heavily. Beryl finds him and tries to cheer him up. Fearing Beryl will expose her deceit, Irene slips away and marries Freddie.

Beryl develops a serious throat ailment and a noted specialist advises rest and caution. She disobeys when she hears that Tommy has joined a gang of bootleggers. She slips out in her wheelchair to beg him to leave them. Her throat ailment worsens and she is told that her singing career is over. When Tommy hears this and realizes it was to save him that she made the sacrifice he reforms and resolves to go back to college. He attends night classes, working in a garage during the day. He and Beryl enjoy many outings together. Then Irene wires that she is coming home.

NOW GO ON WITH THE STORY CHAPTER XXXVII
Mrs. Everett's face was beaming when she handed the telegram to Beryl. On the short journey from the front door to Beryl's room she had built magic plans for the near future.

Beryl read the message at a glance and handed it back. "There!" her mother declared triumphantly. "Irene is coming home to help us. I knew she would do something!"

"She only said she's coming home," Beryl ventured.

"Now you needn't start talking like that," Mrs. Everett returned. "I won't have you picking on her while she's here. You and her father have said enough about her."

OIL MAN KILLS SELF
DALLAS, June 30. (AP)—The body of L. P. Hammond, 45, Wichita Falls oil man, who was shot to death at a hotel here last night, was sent to Wichita Falls today for burial.

The coroner returned a verdict of suicide.

Miss Maxine Gwin is visiting her sister, Mrs. J. V. Polk, in Elk City, Okla. Mrs. Polk last week visited in the home of her parents, Mr. and Mrs. F. M. Gwin, and her sister returned with her Sunday.

Story of Goldfish and Ailing Feline

NORTHBROOK, Ill., June 30. (AP)—Charles Sutherland took his troubles to the police yesterday and announced it was too late for relief he had the satisfaction of knowing what happened.

"I haven't an enemy in the world," Sutherland said when he came to police to help him solve the mystery of his life-losing goldfish.

"In addition my cat is sick."

What the pepper was sprinkled on the cat's nose was not retained. A small white mouse was found in the kitchen last evening.

"An X-ray," said the investigating officer. "Let's have the cat and the mouse brought here."

Crude Production in Sharp Decline
TULSA, Okla., June 30. (AP)—Daily average crude oil production at the Tulsa basin decreased 30,000 barrels last week, totaling 2,445,000 barrels, the Tulsa Oil and Gas Association announced.

Oklahoma's output, estimated at 540,000 barrels, was 15,000 barrels under the preceding week's figure, while eastern Texas showed a reduction of 11,000 barrels with a production of 300,000 barrels.

The entire mid-continent area, which includes Oklahoma and eastern Texas, had a crop of 23,000 barrels with a yield of 1,905,535 barrels. Oklahoma was the producer of 540,000 barrels.

Eastern production remained almost constant, totaling 110,000 barrels, a gain of 500 barrels.

The rocky Mountain area registered a decline of 1,113 barrels with an output of 97,257 barrels.

California's production fell 4,500 barrels to 510,250 barrels.

CLARK TRIAL SET
LOS ANGELES, June 30. (AP)—Superior Judge William C. Doran has set Aug. 3 as the date for the trial of David H. Clark, accused of slaying Charles H. Crawford and Herbert Spencer, political figures, May 20.

Mr. and Mrs. V. A. Bailey and daughter, Marceline, will leave tomorrow for Oklahoma City, Okla., where they will visit relatives. Mr. Bailey is an employee of the Halliburton Oil Well Cementing company.

SURE IS HOT!
EVANSTON, Ill., June 30. (AP)—Miss Johanna Donnelly was alarmed about Willard Robinson. She had an engagement with him last Thursday. He failed to keep it and all her attempts to communicate with him failed. She appealed to police. They found him in his home yesterday sitting in a bath tub where he said he had been reading magazines ever since the current heat wave began.

Crime Probe To End at Midnight

WASHINGTON, June 30. (AP)—One of President Hoover's commissions, once the highest focal point of interest in the nation, today dissolved quietly into its 11 component parts.

The president's national commission on law observance and enforcement, more often called the Wickersham commission, did not reach the end of its allotted span until midnight tonight when the remainder of its \$500,000 appropriation reverted to the government.

But the commission's once immaculate offices and equipment today were in the hands of the movers. All its members save two had departed. And prospects were that after tonight Chairman Wickersham alone would remain in the capital.

Here is the commission's record: Ten reports have been delivered to the government printer or deposited at the White House; four others, one of them the still-controverted study of prohibition, have been made public. Of the half million dollars appropriated for this work approximately \$20,000 can be returned to the treasury.

At commission headquarters the view was expressed that only when a final history of the commission's activities and expenditures is written and accepted with a "well done" by President Hoover, will the commission actually cease to exist. It was not created by law but by executive command.

In order to attain this end a temporary commission headquarters has been established near the White House, equipped to accommodate only Chairman Wickersham and a small staff. There the fifteenth report will be written.

HARVEST HALF OVER
AMARILLO, June 30. (AP)—Estimates made yesterday by the Amarillo News through a compilation of figures showed that approximately 15,000,000 bushels of wheat, or about one-third of the Panhandle's total crop has been harvested. Of that amount it was estimated that 4,000,000 bushels were stored or piled on the ground.

Bengal Tigers at Large in Mexico

PACHUCA, Mexico, June 30. (AP)—A circus train, erected 18 years ago is believed to be responsible for existence in the mountains near Villa Del Carbon of a colony of ferocious Bengal tigers, which sometimes descend to prey upon cattle in the lower lands and are known to have killed several persons.

A tiger and two tigrises escaped when the "Maravilla" circus train was wrecked in 1913 near the Villa and they are believed to have been the progenitors of the numerous beasts of their kind that now dwell in the mountains. Bengal tigers do not exist anywhere else in America.

Shields and Wood Survive Threat of English Doubles Net Players

WIMBLEDON STADIUM, Eng., June 30. (AP)—Frank X. Shields and Sidney B. Wood Jr., America's two representatives in the semi-finals of men's singles today went into the semi-final round of men's doubles with a five-set victory over J. C. Gregory and Ian G. Collins, of England. The scores were 3-6, 6-3, 3-6, 6-4, 6-3.

George Hughes and Fred Perry advanced to the quarter-finals of men's doubles, defeating G. Lytleton Rogers and Hiro Satoh, 6-3, 6-4, 4-6, 7-5.

Henri Cochet and Mrs. Eileen Bennett Whittingstall advanced in mixed doubles with a straight set victory over Hiro Satoh and Miss Thomas, of England, 6-1, 6-4.

The American youngsters probably will meet Henri Cochet and Jacques Brugnon, and the veteran French Davis cup doubles team, in the semi-finals.

The five-set struggle was reminiscent of Shields uphill match against H. W. (Bunny) Austin in the quarter-finals of the singles yesterday.

Gregory and Collins were on top of Shields and Wood in all the play, the American victory largely being due to Wood's fine service and all-around court game.

The turning point of the match came in the fourth set with the score four games all and Shields serving.

Shields had been wild and erratic up to then but he steadied, won his service and then he and Wood broke through Gregory to take the set.

The Englishmen led 3-1 in the fifth and deciding set before Shields and Wood got going. Wood was all over the court, playing a fine game and Shields finally got his service to working.

Wood won his service and they broke Collins to square the match.

Shields then won his service at love, three of his serves going for aces. They broke Gregory's service to lead five-three and Wood then clinched the set and match with his burning service.

MAKES SKI RECORD

SEATTLE, Wash., June 30. (AP)—A hitherto unaccomplished ascent of Mount Baker, 10,750 feet high, from the north side, has been made by Milana Junk of Munich, Germany, a foremost woman skier, and three men companions. The peak is in the Cascade mountains in northern Washington.

The party made the climb Sunday, overcoming sleet, snow, and the rigors of a mountain storm, and returned to this city yesterday.

"Pop" Frazier estimated there were 200 Pampans in Miami Friday evening when the 30 boys of the high school band gave an open-air concert there.

Most of the Pampa group included high school students and their friends or families. "It was an appreciative group of Miami residents who attended the concert," said Mr. Frazier.

"It seemed the whole town 'turned out' for the occasion."

Markets

COTTON ERRATIC

NEW ORLEANS, June 30. (AP)—The cotton market had an irregular opening today, first trades showing 4 points up to 4 down, which however was better than due on the poor Liverpool cables and the fact that New York opened easier, and the foreign news relative to the Hoover proposal was not favorable.

Prices eased off after the start, October trading down to 10.14 and December to 10.37, or 15 to 17 points under yesterday's close.

Near the end of the first hour, the market was steadier and had rallied 3 to 4 points from the lows on moderate trade buying.

GRAINS LOWER

CHICAGO, June 30. (AP)—Grains went downward early today. Influenced by weakness of stock and by France's halting of Hoover moratorium plans. Rains in Canada and suggestions of a breakup in the heat wave tended also to give an advantage to bears.

Opening 3-8 to 1 cent off, wheat afterward held near the initial limit. Corn started at 3-8 decline to 1-4 advance and subsequently receded all around.

CHICAGO GRAIN

CHICAGO, June 30. (AP)—Wheat: No sales.

Corn: No. 1 mixed 61; No. 1 yellow 61 1-2 to 62; No. 2 white 62.

Oats: No. 2 white 30 3-4 to 31; No. 3 white 29 1-2 to 3-4.

Pampa market, 33 cents today.

Sheep 6,000; lambs fully 25 lower; yearlings weak to 25 lower; odd lot sheep steady; top native lambs \$7; lambs, good and choice, 90 lbs. down \$6.25@7.35; ewes, medium to choice, 150 lbs., down \$1@1.75.

CRANFILL—

Continued from page 1

would support any plan which would bring about ratable takings.

The Gulf and the Sinclair companies declared for the Cranfill plan. The Gulf company said it believed the East Texas field had the right to capture any market it could.

E. L. Caster of the Arkansas Fuel Oil company said his company would support any plan which all the other operators and pipeline companies obeyed.

Crane said the Texas company had obeyed proration but this policy could not continue if the other operators persisted in violating it.

Opponents of the Cranfill plan wanted the East Texas production limited to 200,000 barrels daily. Several of them conferred with Gov. Ross S. Sterling regarding a special session. They quoted the governor as stating that the extraordinary session was "nearer."

Ex-Crown Prince As He Is Now

NEA Berlin Bureau. Had the World war taken an opposite turn with the Germans victorious, this man would have been a powerful figure today instead of a mere gentleman of leisure. This is the latest photo of the former Crown Prince Wilhelm of Germany, eldest son of the ex-kaiser, as he attended an international tennis match in Berlin the other day.

GOOD WISHES DENIED

STRIBLING BEFORE FIGHT

ATLANTA, Ga., June 30. (AP)—The Georgia house of representatives today tabled a motion which would have put it on record as wishing W. L. "Young" Stribling success in his heavyweight boxing championship fight with Max Schmeling at Cleveland Friday night.

Stribling's home is in Macon, Ga. The Stribling resolution caused quite a furor when introduced, several members taking the floor to speak for or against it.

The final opinion of the legislators was that their time was too valuable to be taken up with such resolutions.

Newspaper Folk Restless Watching "The Front Page"

To sit as quiet onlookers while others "cover" momentous happenings for their newspapers is not an easy task for reporters. Yet NEWS-POST employees received the same thrill as the actors portrayed when they viewed "The Front Page" at La Nora theater last evening as the guests of C. B. Akers.

Pat O'Brien in the picture was a typical young reporter, ambitious and intelligent, yet becoming shiftless because of the long, uncertain hours he was required to work and his necessary contact with criminals and other undesirable characters.

"The Front Page" Lewis Milestone has poured his finest directorial efforts. The reporter in action is well-portrayed in the rapid-tempo comedy-drama.

SUSPECT IS KILLED

WEST PALM BEACH, Fla., June 30. (AP)—A suspected bootlegger was killed here last night in a pistol fight with a federal prohibition agent in disguise.

The agent, Neil Evans of Jacksonville, and another officer, said they bargained with W. E. Griffin for the liquor and he delivered it in an automobile.

When they disclosed their identity they said Griffin drew a revolver and started shooting.

DENIED CITIZENSHIP

FORT WORTH, June 30. (AP)—Citizenship in the United States was denied Eilhu Danied Ryden, dean of Southwestern Junior college at Keene, because of his refusal Tuesday morning to take the oath of allegiance requiring him to bear arms for the country in time of war. The young theologian, who came to this country from Sweden with his parents when he was a year old, said he considered the taking of human life contrary to the principles of Christianity. He is 31 years old.

90, He's Killer

"This has taken 25 years off my life," declared Colonel H. A. (Buffalo Bill) Lewis, 90, above, Confederate veteran, as he pleaded self-defense at his hearing for the fatal stabbing of Henry Mayberry, 24, at Chattanooga, Tenn. Colonel Lewis says he was a pal of Buffalo Bill and prior to that he fought the Indians with General Custer.

Mr. and Mrs. Grant Anderson returned Sunday after a three-week trip to Dallas, Perryton, and Ardmore, Okla.

Woman's Missionary council, Christian church, will meet at 2:30 o'clock Wednesday afternoon at the church.

Mr. and Mrs. Joe Smith and daughter have returned after a visit to Mineral Wells.

Another Shooting Puzzles Dallas

DALLAS, June 30. (AP)—Confronted by another reported shooting by a hijacker in the vicinity where Abs. Schrieder, of Galveston, and his fiancée, Miss Pauline Corman, were slain Sunday morning, authorities redoubled efforts today to solve the mystery surrounding the "double slaying."

George Stroud, 20, told of being kidnaped last night by an armed man who threatened him with death "the same as the couple got." He said the man made him drive his car to a small park in the suburbs, where he robbed him of \$135 and shot him in the leg when he attempted to resist.

The robber then tied him hand and foot with handkerchiefs and escaped in a car with two other men, Stroud said.

According to Stroud, he was driving his car along a street when the robber hailed him. Stroud said he stopped and the man walked to the car, manning him with a pistol as he climbed into the seat.

South American Business Improves

WASHINGTON, June 30. (AP)—Definite improvement in business conditions in a number of South American countries has been noted by American trade officials.

The department of commerce said today in its weekly review that a slight but perceptible upward trend was reported from Brazil and Argentina with fairly good business in Porto Rico.

The improvement in Brazil and Argentina was credited largely to improvement in exchange. Department representatives in Brazil reported that domestic industries have been the chief beneficiaries of the improvement but that during July resumption of buying imported merchandise may be expected.

The general static tone appeared improved by increases in raw silk prices and strengthening of cotton yarn and textile markets but heavy unemployment continued.

Further depression, the department said, seemed to be the rule in Central America.

Consider your Adam's Apple!!*

Don't Rasp Your Throat With Harsh Irritants

"Reach for a LUCKY instead"

Consider the Garden of Eden. When that old serpent put Eve up to the idea of handing Adam an apple, he may have been doing them both a good turn—for where would we be today, ladies and gentlemen, without our Adam's Apple. If we didn't have our Adam's Apple, we couldn't sing, we couldn't even speak. For your Adam's Apple is your Larynx—your voice box—it contains your vocal chords. So—Consider your Adam's Apple. Be careful in your choice of cigarettes. Remember—the serpent in the smokers' Garden of Eden—harsh irritants are present in all raw tobaccos. Don't rasp your throat with harsh irritants. Reach for a LUCKY instead. Remember, LUCKY STRIKE is the only cigarette in America that through its exclusive "TOASTING" Process expels certain harsh irritants present in all raw tobaccos. These expelled irritants are sold to manufacturers of chemical compounds. They are not present in your LUCKY STRIKE. And so we say, "Consider your Adam's Apple."

LUCKIES are always kind to your throat

"It's toasted"

Including the use of Ultra Violet Rays

Sunshine Mellows—Heat Purifies

Your Throat Protection—against irritation—against cough
