

Official Tryouts For Soap Box Derby Cars To Be Held Monday At 4 O'clock

Here's some big news that boys who have entered The Pampa News-Lions Club second annual Soap Box Derby long have been waiting to hear.

The official tryouts of all cars to be entered in the race at Derby Downs, three miles out on the old Miami highway, will be held at the derby hill next Monday at 4 p. m. First race each night will be run at 7:30 p. m. July 18 and 19.

Every boy who plans to race his

and each boy race will go down the hill alone.

After the trial run on Monday all cars will be returned to the High school gymnasium for a final check-up by the official derby inspectors. If corrections or changes are needed in any of the cars the owners will be notified Tuesday afternoon. All cars will be stored at the High school gym and kept under guard there after the Monday trial runs.

Again, on Thursday, cars will be transported to the track, the night of the preliminary runs. Boys will be given time to make a final check of their cars before the race.

Weights of cars and drivers will be checked at the High school gym Monday evening after the trial runs. The public is invited to see the soap box racers at the High school gymnasium on Tuesday and Wednesday. No person will be permitted to touch the cars except the derby officials on duty.

While the cars are at the gym they will be inspected by a secret committee which will announce at the end of the soap box derby finals Friday night the winners of prizes for the best upholstered car, the best designed car and the best set of brakes.

Steel driving helmets will be given to all boys Monday afternoon at the trial runs. The official

Pampa News T-sweater will be presented to each boy just before the first night's race on Thursday. Helmets and T-sweaters are to be worn in the races. After the races they become the property of the boys who raced.

Tickets for the derby will sell for 15 and 25 cents. All money over expenses goes into the Lions club's underprivileged children's fund.

The winner of the Pampa championship will get an all-expense trip to Akron where he will compete on Aug. 11 with city champions from more than 100 U. S. cities and from Canada, Panama, and Mexico.

There also are many prizes for the local heat winners. The beautiful Coyle Trophy also goes to the Pampa champion to be crowned after the Friday night finals.

Officials of The News and the Lions club decided to hold this

year's races at night instead of in the daytime in order to escape the heat and to give more persons an opportunity to see the derby. The course will be well-lighted and there will be plenty of parking space on the natural amphitheater which borders each side of the race course.

A public address system will keep the race crowd posted on all activities at the race track.

The Weather

Showers and thunderstorms over Panhandle tonight and in northern half Friday; cooler in northern half.

Bus May Disqualify W. Lee, Says Lawyer

AUSTIN, July 11.—(AP)—Governor W. Lee O'Daniel today declined to comment on a statement by T. H. McGregor, attorney of Austin and a former state senator, suggesting O'Daniel might have disqualified himself in the gubernatorial campaign by accepting from friends a sound truck reported to have cost \$15,000.

This Monday practice run is a requirement that each boy must fulfill. There will be no competition

McGregor supported O'Daniel in his successful campaign two years ago and recently has sharply criticized his policies.

He pointed out that a statute limits expenditures by a candidate for governor to \$8,000 in the first primary and also prohibits campaign contributions except for certain specific purposes.

The value of the bus and the fact it is not enumerated in the list of purposes for which contributions may be made and used raises a question of disqualification, McGregor declared.

The law authorizes quo warranto proceedings by any citizen in any district court to bar the name of a candidate who has violated the statute from the primary or general election ballot.

"Is there any difference between giving a candidate \$15,000 in money to be used for transportation and which the candidate would have to report and which would exceed the limit which he could spend, and giving him a \$15,000 automobile for transportation purposes in his campaign?" McGregor queried.

Two prominent attorneys, who declined to be quoted, made these observations:

1. That the supreme court has held the constitution prescribes the qualifications for a governor and the legislature cannot add or take away from them.

2. That there might be a question whether the bus was actually given

All Quiet As Mexicans Eye Many Troops

MEXICO CITY, July 11 (AP)—The sight of heavy detachments of police and soldiers, many of them armed with machine guns, appeared quieted riotous Mexicans today and no early disorders were reported as returning boards started tabulating returns in Sunday's presidential election.

The vote was restricted in some districts as many as 200 men guarded tabulating places, commanding all approaches.

Trucks were parked for several blocks around rival political headquarters, apparently awaiting any emergency call.

Both General Manuel Avila Camacho, the administration candidate, and his principal opponent, General Juan Andreu Almazan, predicted victory as the ballot counting began at 186 district centers.

Mexico's army of 52,000 was divided among these centers. Approximately 12,000 police and soldiers were on duty here.

Through torrential rains, trucks and busses brought several thousand persons, chiefly peasants, into Mexico City last night to strengthen forces of the PRM, administration political party.

Yesterday General Juan Andreu Almazan, independent presidential candidate, warned the government that trucks were bringing "gunmen here to massacre the people." But last night trucks rumbled into the capital, and hundreds of strangers slept in headquarters of the PRM, and in campaign offices of General Manuel Avila Camacho, the PRM candidate.

Apparently irked at Almazan's showing here Sunday—described by independent newspapers as an overwhelming Almazan victory—PRM forces obviously were determined to dominate the scene today.

More than 50 persons, about 30 in the capital alone, were killed in Sunday's election disorders.

The War Today

By DEWITT MACKENZIE

If we could have lifted the roof off the Munich conference of the German-Italian partnership yesterday, we probably should have found the conferees as much concerned with the I. Anglo-British naval battle in the Mediterranean as with the war-threats in the Balkans.

Actually the dangerous Balkan situation and this initial clash between the British and Italian navies are intimately related and both have a vital bearing on the Hitlerian plans for domination of Europe.

For this battle on the Mediterranean marks the beginning of a new phase of the war. It is to determine who rules the seas.

Upon the outcome hinges control of the entire Mediterranean area, the near east and the Balkans.

To Mussolini has been assigned the task of smashing England's naval might and clearing the British out of "our sea," as the Italians like to think of the Mediterranean.

Rival accounts of this opening engagement are contradictory and leave much to be desired.

The most striking indication of British initiative was the determined and well-nigh unprecedented effort she took to prevent the French navy from falling into German hands. No nation which didn't mean business would challenge world opinion by going to the extreme of taking or sinking with loss of life the bulk of her ally's fleet.

Almost equally impressive has been the way in which the Britons have been carrying the air-war to Germany, and fighting toe to toe with the Nazis in aerial battles.

Whether this is an indication on the British power of resistance to the coming German onslaught is hardly a matter of pure speculation. However, it can be taken as meaning dogged determination.

In view of the manner in which things are moving in the Mediterranean and in the Balkans, one would rather expect Hitler to make his big assault on England quickly so to avoid getting caught in difficulties on other fronts.

Hitler's immediate worry is the danger of an upheaval in the Balkans, which would cut him off from badly needed supplies and create a threat at his own back door. It is understood that Hitler has told Hungary to lay off for the time being. That doesn't settle the matter, of course, but any delay is to the Fuehrer's advantage.

Meanwhile, the Turks have been expecting to receive demands from Russia at any moment for a share in control of the Dardanelles straits—one of the world's most important strategic positions—which form the gateway between the Mediterranean and the Black Sea. It even was said that plans had been made to call the Turkish parliament to consider these demands tomorrow.

Heat Continues Night And Day Here

The heat demon carried on a total war against Pampans last night, continuing the days attack that sent the mercury spinning up to 105 degrees at 3:35 o'clock yesterday afternoon, the day's maximum. Wednesday's minimum was 88 degrees at 5:30 a. m.

Pampans, accustomed to the ordinarily cool Panhandle nights, were sleepy-eyed this morning, for temperatures did not start dropping to any great extent until 2:30 o'clock, when the thermometer registered 75 degrees.

It was 92 degrees at 6 o'clock last night, 92 at 9, and 85 at midnight. It was believed to be the hottest night on record.

Early this morning the temperature was 85 degrees.

Some hope of cooler weather was seen in the U. S. Weather bureau forecast for West Texas; showers and thunderstorms over the Panhandle tonight and northern half Friday; cooler in northern half.

DIES REVEALS TEXAS BUND

Mrs. Hans Ackermann, left, wife of publisher of Taylor, Texas, Herald, a German-language newspaper, waits to testify before Rep. Martin Dies in his investigation into un-American activities of foreign agents in the U. S. at Austin, Texas. Her husband admitted being a member of the Kyffhauser Society, which is reported to be active in Houston, Texas. In center is Max Keilber, half owner of Taylor Herald. At right, Hermann Koeter, president of the Kyffhauser Society of Houston, who appeared before Dies to deny that his group is engaged in any subversive activities.

WASHINGTON, July 11.—(AP)—The national advisory defense commission announced today that it had placed orders totaling \$100,000,000 with airplane manufacturing companies for 25,000 airplanes for the army and navy.

Dr. George J. Mead, aeronautical adviser to the commission, declared at a press conference that since July 1, the army and navy had been working closely with industrial representatives and that the Reconstruction Finance corporation had joined in the aircraft development program by agreeing to lend funds to industrial companies to finance necessary expansion of plant facilities.

In addition, he said, the national advisory committee for aeronautics has recently received \$8,400,000 through a presidential order for the building of an engine research laboratory, probably at Langley Field, Va.

The army and navy have pooled their technical work and agreed on joint standards for engines, propellers, designs and other details in order to facilitate the program.

Approximately 25 per cent of the planes to be built will be for the navy, the remainder being army bombers, pursuit and reconnaissance planes.

Airplane manufacturers have been asked to re-quote prices on the basis of the new quantities of airplanes to be manufactured, Dr. Mead declared.

WASHINGTON, July 11 (AP)—The possibility that 25,000 warplanes may be added to army and navy forces within two years developed today in a defense commission announcement that contracts for \$100,000,000 worth had been let in recent days and that other contracts were rapidly being consummated.

Dr. George J. Mead, aeronautical adviser to the commission, told a press conference of cooperative efforts between the airplane manufacturing industry, the army and navy, and the Reconstruction Finance corporation to achieve the goal.

First planes under the new contracts are expected to be delivered within four or five months with production to be stepped up as rapidly as possible. One estimate was that all 25,000 could be on hand by July 1942, if not sooner.

100 Absentee Votes Handled By Clerk

A total of 100 absentee ballots have been handled by the office of the county clerk since absentee voting opened Sunday.

There are only a few persons appearing at the office to cast ballots and ballots that have been mailed out are slow in being returned. Most of those sent out were mailed to Pampa, McLean, and LeFors school teachers, now on vacation.

Absentee voting will end on July 24, three days before the first Democratic primary election.

British Defenses Take Steady Toll

(By The Associated Press)

LONDON, July 11.—Twelve enemy planes were shot down and many more damaged by British warplanes during heavy attacks today around the coasts of England, the air ministry announced.

(By The Associated Press)

LONDON, July 11.—Germany's bombers, in unrelenting raids, blasted England from coast to coast with bombs today and turned machine-guns on civilians in the streets of towns, but England's defenses took a steady toll.

The government reported "a few" deaths.

At least eight German raiders were reported shot down—three in the southwest, five from one south coast port—by British fighters and coordinated anti-aircraft fire which kept the attackers high in the sky.

British warplanes, striking again at Italy, were reported by the admiralty to have sunk an Italian destroyer and a depot or store ship in a Sicilian harbor.

War Flashes

WASHINGTON, July 11 (AP)—Secretary Hull said today that reported German activities in Latin America in connection with the forthcoming Havana conference apparently was a species of intimidation of nations whose sovereignty was entitled to the fullest respect.

LONDON, July 11.—(AP)—Foreign Affairs Under-Secretary R. A. Butler told the house of commons tonight that success in Britain's attempts to make friends with Soviet Russia had "appeared more likely" in recent months.

ROME, July 11.—(AP)—Military headquarters announced today that 151 Italian fliers were killed or missing and 103 wounded in the first 20 days of the war against Britain.

A list of casualties headed by the name of Marshal Italo Balbo (recently killed in Africa) showed 76 dead and 75 missing up to June 30.

LONDON, July 11.—(AP)—The Admiralty issued a statement today denying the official Italian report that Italian planes had seriously damaged the British battle cruiser Hood and aircraft carrier Ark Royal.

Roller Skating To Be Free Tonight On North West

Free roller skating, sponsored by the Summer Recreation Program, will be held tonight between 7:30 and 9:30 o'clock in the 500 block on North West street, which will be roped off for the occasion.

There'll be music for the skating through facilities of a loud speaker system. The Rev. Robert Bosham, pastor of the First Presbyterian church, will be guest conductor for the evening.

Everyone, kids and adults, is invited to enjoy the skating which will be conducted one night each week during the rest of the summer months.

Late News

HARRISBURG, Pa., July 11 (AP)—An attaché of Governor Arthur H. James' office said today he had been informed that a bomb planted near the scene of the Republican national convention had been intended "for the governor."

AUSTIN, July 11 (AP)—Governor W. Lee O'Daniel today personally tendered to Congressman Martin Dies information he had received on un-American activities.

WASHINGTON, July 11 (AP)—Renomination of President Roosevelt to a third term was demanded today by members of the house who signed a statement setting forth their position.

A Fine Distinction

Hobbes are not "tramps," contends Jeff Davis, grand chief hobo of the Hoboes of the World. They're traveling workers—printers, bricklayers, farm hands, builders—and all they ask is an opportunity, he says. Well, that's all anyone asks for, is an opportunity. The same holds true with classified ads. If you'll just give them an opportunity to work for you, you will never be without a classified ad again. World War Tanks No Match For 75s
PORT LEWIS, Wash., July 11—(AP)—The army now knows from first hand observation the effectiveness of a 75 millimeter shrapnel fired point blank at a moving target.

Two World War tanks were blown to pieces yesterday in a demonstration staged by gunners of the field artillery. Only two or three shots were required to put the tanks out of action and then the artillerymen proceeded to pound them to bits at their leisure.

Selected short subjects.

Willkie To Invade Democratic South In Ballot Quest

COLORADO SPRINGS, Colo., July 11.—(AP)—Wendell L. Willkie said today he would make an active campaign for votes in the "solid" Democratic south. Willkie told reporters that while his campaign plans were indefinite, he would "undoubtedly" make a number of talks in the south during the coming campaign. The Republican nominee, here for a vacation with Mrs. Willkie,

said he would spend today "just reading and resting." He will attend a barbecue today and motor to Denver tomorrow for a conference with Colorado Republican leaders. The nominee talked yesterday with Gov. Ralph L. Carr of Colorado. Carr asserted that Willkie would sweep the west in the November election—and added to reporters: "I'm not kidding you." Carr said he had found pro-Willkie sentiment in New Mexico, Wyoming, Oklahoma and Texas. "But," he added, "I don't want to give any guarantees about Texas."

Candidates To File Expenses Next Week

Filing of second campaign expense reports of candidates in the first Democratic primary to be held July 27, is to start Monday and end Friday. For the first reports, filed in the period June 27-July 1, there were 37 candidates who submitted lists of their expenses to the office of the county clerk.

Bud Martin of Wheeler, candidate for 31st district attorney, was high in the amount spent, with \$359.50 listed, of which \$122.50 was credited to advertising and \$103 to traveling expense. Low was W. W. Cumberledge, candidate for constable of precinct 1, LeFors. His total expense was only \$1.35 for cards. Expenses listed on the report were classified in four groups, advertising, printing, traveling, and miscellaneous. Some candidates listed ballot assessments, others did not. Advertisements in newspapers, directories, blotters, placards, pie-suppers, cuts, rulers, gas and oil, poll tax lists and matches were items listed. In the non-contested races, P. E. Leech, county tax assessor, was high with \$130.50, followed by Joe Gordon, county attorney, \$100. W. E. James, county treasurer, \$91.04, Sherman White, county judge, \$72.30. J. V. New, candidate for county clerk, spent \$159.74, while the incumbent, Charlie Thut, spent \$197. C. M. Carpenter, unopposed for county commissioner of precinct 4, spent \$23.65. Only two candidates for sheriff filed expense reports, Cal Rose, incumbent, \$150, Clarence Loveless, \$180.

Other reports were: District clerk, R. E. Gatlin, \$159.25; Miriam Wilson, \$158.56; Earl Isley, \$136.75; R. R. Watson, \$106.57. Justices of the Peace Justice of the peace, precinct 1, LeFors, H. Boy Held In Brutal Slaying Of Child SAN LUIS OBISPO, Calif., July 11.—(AP)—A 14-year-old boy who authorities said admitted attacking and bludgeoning to death an 8-year-old girl, was held in the county jail today while the district attorney's office considered how to prosecute him. Victim of the slaying was Gayle Jones, daughter of Mr. and Mrs. J. C. Jones of Morro Bay, who was a pupil at a private school for mal-adjusted children, which her alleged killer also attended. District Attorney Anthony Brazil said the boy had confessed beating the child to death with a rock. She was found nude and unconscious in a canyon near the school early yesterday and died soon after removal to a hospital. Russia is considered in Rome to be the only "non-Balkan power" likely to try to expand in that zone. Axis Afraid Of Russian Invasion In Balkan States

ROME, July 11.—(AP)—Italian Foreign Minister Count Ciano's leghorn newspaper Il Telegrafo indicated today, as he returned from important conferences in Germany, that Germany and Italy had prevailed on Hungary to stay out of Rumania in order to avert a war in the Balkans which Il Telegrafo said might bring invasion by "non-Balkan powers." Hungary's representatives were swung to holding off on their claims upon Rumania's district of Transylvania at yesterday's meeting at Munich. Count Ciano returned to report to Premier Mussolini on this meeting as well as upon his conference with Fuehrer Hitler last Sunday.

Pampa Ordinance Considered One Of Best In State

Pampa's trash and garbage ordinance is considered one of the best in the state and many cities are adopting it, City Manager Steve Matthews revealed today. "I have had several letters from other cities in the state asking for copies of the ordinance," the city manager said. "The ordinance was highly recommended at a recent meeting of the Texas League of Municipalities. The commission which passed the ordinance is to be commended." Latest inquiry was received today from Electra. City Manager Matthews revealed today that he plans to have all the garbage and trash trucks painted white and screens placed over them to keep paper and refuse from blowing away. Germans Kept Daladier In North Africa

VICHY, France, July 11.—(AP)—Former Premier Edouard Daladier and other leaders of the French government were believed today to be in North Africa and prevented from returning for yesterday's assembly because the German-French armistice committee at Wiesbaden denied them transport. The strange story of the movements of Daladier and other French leaders was told dramatically, in part by Vice-Premier Pierre Laval in an address to the assembly yesterday. The Wiesbaden committee, Laval charged, kept the absent leaders from the assembly by denying them transport. Thus, Daladier, former cabinet ministers Georges Mandel, Cesar Campinchi, Lyon Delbos and others were kept away. They sailed from a French port the day the Reynaud government fell and Marshal Henri Philippe Petain asked the Germans for armistice terms. Jules Jannetty, elderly president of the senate, read a telegram of protest from Daladier and the others against their inability to be present. Many of the deputies of the extreme right jeered and both Jean-

300 Planes Flew Against British Fleet

(By The Associated Press) New light on the controversial question of "battleship vs. plane" in actual combat was cast today with the disclosure by General Francesco Priolo, Italian air chief, that 300 Italian planes engaged in the battle of British and Italian war fleets in the Mediterranean.

By contrast, Sir Andrew Cunningham, commander-in-chief of the British Mediterranean fleet, reported that his ships suffered not a single casualty.

The Italian high command, in a belated communique, insisted however that Italian bombing planes set fire to the 42,100-ton British battle cruiser Hood, world's biggest warship, scored two bomb hits on the deck of the 22,000-ton aircraft carrier Ark Royal, and two on another English battleship.

The British admiralty issued a formal denial.

The Italian air blows occurred Tuesday in an attack on the British fleet south of the Balearic Islands, the high command asserted.

This was apparently the opening clash of the undecided battle between the British and Italian navies for control of the Mediterranean—climaxed when the Fascist war fleet reportedly was driven to the shelter of shore defense guns.

In the eastern Mediterranean official Soviet quarters insisted today that Russia has no intention of making any demands on Turkey.

"There are no reasons for the U. S. S. R. to attempt to get control of the Dardanelles," a spokesman said. "Our relations with Turkey are good, and the straits are open to us."

Comparative quiet prevailed in western Europe, after yesterday's great aerial battle over Britain, though some German planes attacked various areas and the government reported "a few" deaths.

Prince Without A Country

Happily unaware that he is a royal refugee without a country is 15-month-old Prince Alexander, pictured clutching his nurse's hand during an outing in London.

Members of the commission are Chairman A. E. Wood of Austin, Murrell Buckner of Dallas, Gene Howe of Amarillo, Dan Davenport of Mission, D. K. Martin of San Antonio and W. O. Yarborough of Corpus Christi, the latter two appointed by O'Daniel.

The terms of Wood and Howe expire Sept. 1, 1941.

More than a year ago the commission, at its own request, was investigated by the state senate investigating committee and given a clean slate.

Mrs. Coe said she believed a representative of the people should be sincere, efficient, unbiased and in a financial position not to have to depend on graft to continue in office.

In case the incumbent decides not to seek re-election, Senator Coe said she plans to be a candidate for United States congress.

O'Daniel Refuses To Meet With Game Commission

AUSTIN, July 11 (AP)—Governor W. Lee O'Daniel today refused to accept the invitation of one member of the state Game Commission to meet with it and explain his campaign remarks condemning the body as a "millionaire sportsman club."

"I won't have time to talk to them today," the governor said. "I don't know when I will have time to meet with them."

In his campaign for re-election, O'Daniel, in an address at Waco last week said:

"I might simply mention the State Game, Fish and Oyster Commission, which I like to look at as the millionaire sportsman club, with all expenses paid by the Texas taxpayers, with all its 74 boats, large and small, and with its horde of game wardens and with its own bank account, and with authority to actually sell some of the natural resources of the state and spend the money in any manner it desires."

"It is one of the most powerful oligarchies in the state."

"I finally got two members on that six-member board, and it will be another year before I can appoint two more, thus making a majority, and really get it cleaned out."

The commission, which receives no pay for its services in directing wildlife conservation efforts of the state, scheduled a meeting this afternoon. A reply to O'Daniel's remarks is expected.

Members of the commission are Chairman A. E. Wood of Austin, Murrell Buckner of Dallas, Gene Howe of Amarillo, Dan Davenport of Mission, D. K. Martin of San Antonio and W. O. Yarborough of Corpus Christi, the latter two appointed by O'Daniel.

Market Briefs

NEW YORK, July 11 (AP)—Early trading tendencies displayed by Stocks and Averages today failed to inspire other stock market groups to any great extent and extreme gains running to two or more points were substantially cut or erased at the close.

Improved Wall Street sentiment at the start was attributed partly to word the Washington administration would urge repeal of profits limitations on Aircraft and Shipbuilders and permit all manufacturers of munitions to write off expansion costs over a 5-year period.

After the initial upswing, dealers reverted to their sluggish crawl and advances soon began to fade. Transfers for the full session were somewhat above 300,000 shares.

Early Passage Of Hatch Bill Seen

WASHINGTON, July 11 (AP)—Overwhelming house passage of the Hatch anti-politics bill assured today its early final enactment, for the senate had only to agree to minor amendments before sending the legislation to President Roosevelt.

Both the chief executive and Wendell Willkie, Republican presidential nominee, have endorsed the measure. It bars political activity by state, county and municipal workers paid in part with federal funds.

With the potent backing of the two party heads, the bill went through the house in less than two days, although in the spring it had been a major controversy. The final house vote last night was 243 to 122, with 89 Democrats, 152 Republicans and 2 Progressives favoring

enactment. Opposed were 120 Democrats, Rep. Ball (R-Conn) and Rep. Marcantonio (A-I-NY).

Violators will be subject to dismissal. State and local agencies which do not dismiss violators will be liable to a penalty equal to the accused employee's compensation for two years. Such cases are subject to review by federal courts.

Although the bill in general limits national campaign contributions by individuals and organizations, including business concerns, to \$5,000 a year, state and local party committees were exempted from this provision under a last minute amendment offered by Rep. Vreeland (R-NJ).

Firms under contract or seeking a contract, to be financed in any part with federal funds, are denied the right to make any political contributions.

Another provision bars contributions in the form of purchases of such articles as the Democrats' 1938 "Campaign Book," which in some cases brought \$100 a copy, or advertising therein.

Germany Claims Shipping Toll Higher Than '18

BERLIN, July 11 (AP)—The high command announced today that 609,000 tons of "enemy commercial shipping" was destroyed by German submarines during the six weeks ending July 8.

This may be compared to the average of 250,000 tons lost monthly by the United Kingdom by all action in the 21-month unrestricted World War campaign which Germany launched in February, 1917.

The reported rate of destruction against Britain in the present war already equals the fiercest period of the unrestricted campaign—the early months of 1917—when the British Isles at one time were said to have had only a three-week supply of food.

Thus, Germans declare that their submarine warfare is turning into a starvation blockade of the British Isles. The 609,000 tons cited in today's communique excludes the tonnage sent to the bottom by air attack.

The high command declared that German submarines are averaging more than 100,000 tons of shipping weekly in their forays, and the authoritative commentary Dienst Ausland asserted that 3,000,000 tons of neutral and enemy shipping have been sunk by the German navy alone, exclusive of aircraft sinkings.

(The British, who lost 7,830,765 tons in the whole World War, have acknowledged losses in the present conflict which total nearly 1,000,000 tons.)

CHICAGO, July 11 (AP)—Democrats turned toward their convention city today talking about a third term for President Roosevelt and a platform declaration against sending Americans to fight in European wars.

Goodrich Discusses Farm Problems

"In the security of the farmer lies the security of America," emphasized Lewis Goodrich, Wheeler county candidate for Congress, in a talk over KPND, Pampa, at noon today.

"In order for America to prosper, our farmers must prosper." Sketching a part of his early life on a farm near Shamrock when droughts and dust storms swept away his father's farm and life savings, Goodrich stated that he is in favor of keeping the farm program adequate and up-to-date to enable farmers to keep their farms, conserve their soil and plan for a more secure future.

"I am in favor of the tenant-purchase program as a means of helping to solve many problems of both landlords and tenants and I am in favor of other programs which encourage farmers to plan carefully and make their lives more secure." Goodrich will speak from 12 to 12:15 o'clock over KPND Monday, Thursday and Friday of next week. The last week of the campaign he will speak five times from KGNC, Amarillo.

The executive board of the Pampa chapter of the American Red Cross will meet at 8 o'clock tomorrow night in the county court room. It has been announced by Mrs. Jessie T. White, executive secretary.

Delegates and alternates to the department convention at Laredo, August 18-20, will be chosen and 1940-41 officers elected when Kerley-Crossman American Legion post 334 holds its regular meeting at 8 o'clock tonight at the Legion hut.

Candidates Night To Be Observed By Methodists

Candidate's night will be observed at the First Methodist church Sunday evening at 8 o'clock when the pastor, the Rev. W. M. Pearce, will deliver a special message at the service to be conducted on the church lawn.

Special music is to be included at the service.

All candidates of the county and district are invited to attend. They will be introduced by the pastor.

U. S. Ambulance Drivers In Nazi Hands To Be Freed

BERLIN, July 11 (AP)—All American ambulance drivers known to be in German hands are to be freed promptly, some after trying experiences, the German high command informed the U. S. Embassy today.

Four who were missing many weeks finally were located in Brussels. After their capture, these men continued to assist British and French wounded behind the German lines until all had been cared for.

The high command said all the American drivers would be released promptly, if arrangements could be made to send them home.

Just Imagine, Chief!

DALLAS, July 11 (AP)—Just imagine, Police Chief J. M. Welch wrote in an order to his force, "a policeman off duty, bareheaded, wearing a suit of baby blue color, open-toed sandals, his shirt tail out and a gun hidden somewhere in the pleats of his slacks. "Suppose he needs his pistol quickly, he would practically have to unlace himself."

In the future Dallas officers are to dress like policemen—both on and off duty.

Plane Factory Loses Trade Of Nine Republics

By DEVON FRANCIS Associated Press Aviation Editor LOS ANGELES, July 11—In the last four months one leading American aircraft manufacturing company has "lost" the trade of nine South American republics to European competitors largely because of the latter's barter system.

In the ordinary times that would stir interest only in financial circles, but today, with air rearmament and hemisphere defense intimately associated in the public mind, the character of our trade with South America takes on more than a passing significance.

Two facts stand out in our air rearmament drive in relation to South American trade: That continent is virtually a virgin area for the development of air transportation, and the airplane—and particularly the military airplane—has become a symbol of might to Latin American peoples.

The competition between United States and European countries for aircraft sales in South America was dramatized at Lima, Peru, several years ago when Italian military

planes and aircraft of our navy frankly vied for top honors in performance before the Peruvian public during an air conference.

Today such competition has become more than an interesting side-show to the panorama of world events because, in the words of President Roosevelt:

"Para, Brazil, is but 4 flying hours to Caracas, Venezuela; and Venezuela but 2 1/2 hours to Cuba and the Canal Zone; and Cuba and the Canal Zone are 2 1/2 hours to St. Louis, Kansas City and Omaha."

That was part of the data submitted by Mr. Roosevelt to Congress in his special message May 16 suggesting an air force of 50,000 airplanes.

In spite of the European war the two leading European aircraft manufacturing companies have a brisk export trade, Germany and Italy, having pressed their commercial advantages in both the transport and sales fields.

Eight Injured In Clarendon Crash

CLARENDON, July 11 (AP)—Eight passengers escaped with minor injuries but Fred Darby, 35, of Wichita Falls, driver was seriously injured early today in a collision between a Bowen bus and a truck loaded with watermelons, two miles east of here. J. J. Davis and his son, J. L. Davis,

both of Sunset, who were in the truck, escaped injury.

Bus passengers included: Mrs. Mary Cooper of Dallas; Mrs. B. P. Matthews and daughter, Anna Bell, of Blooming Grove; Mrs. E. T. Rowden, Charles Connelly and Mrs. J. R. Dever of Amarillo; and Luther Nichols of Byers. The eighth passenger was not immediately identified.

Darby's left leg was amputated at a hospital here today. Physicians said his condition was critical.

HAPPY RELIEF FROM PAINFUL BACKACHE

Many of those gnawing, nagging, painful backaches people blame on tools or strains are often caused by tired kidneys—and may be relieved when treated in the right way.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with soaring and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

German Press Gives Advice To Democrats

BERLIN, July 11.—(AP)—Hungary, as a friend of both Germany and Italy, definitely has joined the common front against England in southeastern Europe, authorized German sources declared today.

The German Press devoted increased attention today to United States affairs, speculating on what effect Nazi victories would have on the Democratic national convention.

The Deutsche Allgemeine Zeitung suggested anyone at the Chicago convention "still placing the British fate ahead of the American should bear in mind that France's fate was sealed in six weeks."

"There still is a quarter of a year before the United States presidential election, and a decision in Europe will scarcely wait that long," the paper said.

The three states will resist any attempts to carry the war to the Balkans, it was asserted.

The German sources said that the Hungarian leaders, Premier Count Pal Teleky and Foreign Minister Count Istvan Csaky, gave assurances in their Munich conference with the Germans and Italians that they would wait patiently for revision of Balkan territories until scores first had been settled with England.

The German reaction came as Teleky and Csaky returned to Buda-

Why Hitler's War Machine Rolls Over Europe

Additional spending will probably run U. S. defense figure for fiscal year 1940-41 close to the four billion dollar mark, but that's just a puff in the powder horn compared to the 100 billion Hitler is believed to have spent to build his war machine. Pictograph shows estimated U. S. and belligerent defense expenditures for 1940-41 and totals for period since Hitler became German chancellor (March, 1933), to the end of the coming fiscal year.

President May Break Silence Friday Morning

WASHINGTON, July 11.—(AP)—The big question in Washington today no longer is "will President Roosevelt run for a third term?" but how will he announce his decision?

Nearly everyone in the capital takes it for granted that the president will accept Democratic renomination next week.

Will it be a dramatic statement to the whole nation, or will it be a quiet anti-climax to the third term argument which has been running for nearly four years?

It would not surprise some politicians if the President were to fly to Chicago to address the 1,094 convention delegates in person. Since he became chief executive he has not flown.

A few hold to the theory that he will say before the convention begins that he does not wish renomination, but that he will be "drafted" and will accede in the long run.

In such a case, the belief is that he will make a radio speech to the nation explaining that the defense emergency motivates him to break tradition.

Senator Wheeler (D-Mont) is one of those who believes that the President will disclose his intentions before Monday.

If Mr. Roosevelt is going to say anything this week, his press conference tomorrow morning may furnish the final opportunity, for he

The public is invited to attend the event, which will be sponsored by the children's division of the church.

220 Italians And Albanians Die As Motorship Burns

ROME, July 11 (AP)—Two hundred Italian and Albanian officers and men lost their lives when the Italian motorship Paganini burned and sank June 28 off Durazzo, Albania, it was officially announced today.

The ship was en route from Bari, Italy, to Durazzo with 920 soldiers and 30 seamen aboard.

Escorting ships went to the rescue at once, the communique said.

Hungary Told To Drop Campaign For Transylvania

BUDAPEST, July 11 (AP)—Premier Count Pal Teleky and Foreign Minister Count Istvan Csaky returned today from Munich to explain to an expectant public that Hungary must drop her campaign for immediate return of Transylvania from Rumania.

Responsible sources confirmed reports from Berlin that this was one of the things Adolf Hitler made clear in his talks with these two leaders yesterday.

These sources admitted the government and its frontier mobilization had received a severe jolt.

Some diplomatic quarters foresaw the possibility the Teleky government might be forced out and replaced by a completely pro-Nazi regime.

The premier informed the nation in a communique of his confidence in the Axis powers' efforts to lay a foundation for a lasting peace in Europe.

He stressed that Hungary had entered a deep friendship with Germany.

"This friendship brings duties for our nation," he said.

"These duties are that we should not speak much, but trust, work and obey. With this I came home."

The press suggested Hungary had been promised an important role in the final settlement of European problems.

Constitution For Paraguay Drafted

ASUNCION, Paraguay, July 11.—(AP)—A new constitution for Paraguay, presented as creating "an organic, reformist and nationalist democracy" and described officially as one of the most advanced in the western hemisphere, will be submitted to a nationwide plebiscite Aug. 4.

It was promulgated last night by Gen. Jose Felix Estigarribia, president of Paraguay since Aug. 15, 1939, and virtual dictator since last Feb. 18.

It centralizes administration of the country's affairs, provides for state regulation of production and protection of workmen and government assignment of public lands to farmers.

It decrees that public interests must not be overshadowed by private interests and gives the government a notable increase of power in the social and economic spheres.

It creates a state council representing government, rural industries, finance, commerce, education, religion and the army and navy.

The term of office for the president is changed from four years to five. Members of both chambers of congress also are to serve five years.

British Bomb Smashes Nazi Guns

English censor, passing this picture, said it shows R. A. F. bomb putting out of action new big guns and emplacement cut by Germans in chalk cliff at Calais, France. Presumably Nazi guns were of calibre to shoot across English Channel. Dark edge of photo at top shows where cliff ends, overlooking Straits of Dover, here only 23 miles wide.

Galeazzo Ciano, another of the conferees at Munich, returned to report to Mussolini.

Informed German sources here asserted that Germany, Italy and Hungary "are united in complete solidarity on all questions of peace, war and the economic stability of the southeast."

Hungary, they said, now sees eye

Railway Express Strike Deferred

WASHINGTON, July 11 (AP)—President Roosevelt, using "last resort" procedure, has deferred the threatened strike of 30,000 employees of the Railways Express Agency, Inc.

The chief executive intervened yesterday after a Friday deadline was set for the walkout of the agency's union clerks and terminal workers. Dispute over working hours was the main issue.

In halting the threatened strike and ordering creation of a fact finding commission, Mr. Roosevelt invoked the emergency measures authorized by the railway labor act.

Hines Almost Calls Name Of Governor

By DAVE CHEAVENS
Associated Press Staff
Highway Commissioner Harry Hines is one candidate for governor who is not having much to say about his opponents, including Gov. W. Lee O'Daniel.

Yesterday at Seagoville he came very near mentioning O'Daniel's name, but he let it go with a reference to "the present governor." He was firm, but mild, in criticizing the governor's stand on pensions.

"Two years ago it was known Texas could not exceed federal regulations in matching pension money," he said. "I have nothing against the present governor personally, and I haven't been saying much about him in my campaign, but now he says the federal regulations have been changed. The empty promises made so glibly have resulted in a cut in pensions. This long delayed job of meeting social security obligations can and must be done."

Other candidates yesterday were not so restrained in their references to the incumbent.

Ernest O. Thompson renewed his attack at Henderson, sarcastically asking O'Daniel if he could stop a blitzkrieg with biscuits and referring to him as a "do nothing" governor. He again assailed a sales tax, particularly the transactions levy once proposed by O'Daniel.

At Paris, Jerry Sadler said: "When the governor comes to Paris, ask him why, with the greatest legislative majority any governor ever had, he failed to pay old age pensions as he promised. Ask him why he muffed the ball and didn't pay the old folks."

James E. Ferguson has not let the governor escape his barbs in several campaign speeches, and he has especially mocked O'Daniel's radio broadcasting style. Arlon B. Cyclopedia Davis takes every opportunity to assail O'Daniel and his policies, mostly in statements to the press.

Promotion Asked By Gene Worley On Basis Of Ausin Record

Eugene Worley of Wheeler county, who says he waited on tables and sold advertising in school newspapers to earn his way through Texas A. & M. College and the University of Texas, was in town this week in the interest of his candidacy for Congress. Smiling from ear to ear, the young shambler legislator, who in his early 30's lays claim to six years of experience in law-making as a member of the state legislature, stepped from his old-hotel room and immediately started contacting local voters.

"I announced at the start of my campaign two months ago," he said, "I did not have the money to buy expensive radio time, billboard advertising and printed literature but would have to depend on hard work and personal contacts. Without aid of paid workers or press agents I have launched a fast-stepping tour of the Panhandle which has caused astute political observers to sit up and take notice."

"The good people of Wheeler, Gray, Collingsworth and Donley counties were kind enough to send me down to Austin as their state representative when I was studying law at the University of Texas six years ago," said Worley. "I finished my studies and my neighbors and friends in those four Panhandle counties have twice sent me back to Austin as their representative. I have tried to make them an honest employee and it was a source of pride to me that no one in the four counties had indicated he would oppose me if I saw fit to announce for the same office for a fourth term. Instead, I decided to make the race for congress and I appreciate the words of encouragement my home people have given me."

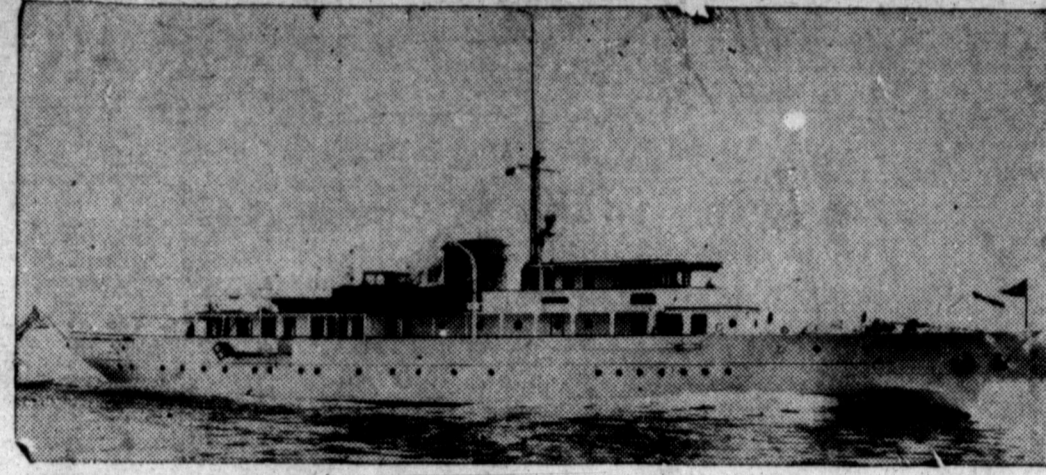

"I did not accomplish everything I set out to accomplish in the Texas legislature and I would not presume to tell you I can change the laws of our nation if you send me to Washington. I will do my best to represent the views of the average citizen and I believe my six years experience at Austin will be helpful to me."

"I helped pass the Panhandle Water Conservation Authority and went down the line for the independent oil and gas operator and for the small royalty and land owner. I voted to protect organized labor against exploitation by greedy capitalists."

"I hope," said Worley, "that you will take the trouble to examine my record at Austin. I believe my vote on important legislation will bear the closest scrutiny, and as one friend put it, I went to Austin six years ago with the seat of my pants out, and they are still out. I am not ashamed of the fact that I am broke after having served in the Texas legislature for six continuous years. I feel that I have been amply paid in the knowledge gained, and believe that if I am honored with election to Congress, that I have the necessary background to fill the job with credit to the people of the Panhandle."

Swing Music Keeps Wolf From Door
SEATTLE, July 11 (AP)—Take it on the word of Stanton Bennett, chief engineer for American "farthest north" commercial broadcasting station in Fairbanks, Alaska, radio is keeping the wolves away in Alaska. In story books hungry wolves watch soundtracks bed down for the night and then pounce upon them when all is quiet. But now, Bennett, a Seattle visitor today declared, a prospector on the trail, before going to sleep, hauls out a portable radio and listens to swing music. And after a while the wolves in the neighborhood get sleepy and go along home.

Helis, Louisiana's Mystery Man Of Oil, Believed Arranging Export Deal With Mexican Government

William George (Bill) Helis, mysterious Greek financier who reportedly handled oil production negotiations for Huey Long, his associates and successors

In Louisiana, Helis and his family have just arrived in New York on a freighter from Greece, where Helis held exclusive oil production rights—from the crown. It is now reported Helis will go to New Orleans and thence to Mexico aboard his yacht, the William Helis the 2nd, to negotiate for further petroleum concessions below the Rio Grande.

By NEA Service
NEW YORK, July 11 — William Helis, the mysterious oil operator who was a power behind the Long political machine in Louisiana, and who has just returned after 15 months' activity in Greece, is believed about to engineer a deal for vast quantities of Mexican oil.

Helis, the Greek dishwasher immigrant who rose to dizzy heights of power and wealth, has refused to discuss either future plans or the result of his operations in Greece, where he leased 50,000 square miles of oil lands from King George II in 1939. But Helis is believed Mexico-bound. His yacht is loading in New Orleans for a sea voyage. Crates, boxes and trunks, some said to contain a vast jewel collection, are being put aboard. Sailors hint Mexico is the destination.

During the past few weeks Louisiana banking circles have noted quiet liquidation of properties which made Helis the richest man in the state. Shares in the Emerald Petroleum Co., at Levell, and thousands of acres in Bayou Lafourch, richest oil district in the state are reported changing hands.

All these moves convince the informed that the Zaharoff oil is readying another move on the international chessboard. Helis isn't

available, but the most likely move would be some kind of a deal with the Mexican government similar to that made last year with King George of Greece.

Mexico, since expropriation of American and British oil properties two years ago, has had trouble marketing its output. Whether Helis might be dealing with President Cardenas or with opposition candidate Juan Andreu Almazan is not known, but the rumor persists that if Britain is defeated, Mexican oil will start flowing to German-dominated Europe in a vast stream through Helis' dealings.

Since April, 1939, when Helis went to Greece, his Pennsylvania-Dutch wife has been living on a lavish scale in Nassau, Bahamas. Though their New Orleans mansion was closed, members of the family have been seen recently entering and leaving the back door.

An aura of mystery has surrounded Helis since his meteoric Louisiana rise in the Long era. He is accustomed to dealing on a giant scale, and his record as producer and manipulator makes it almost certain that if he goes to Mexico it will not be for the sake of the climate.

England Does Not Have Enough Ships To Export Children

LONDON, July 11 (AP)—England's children may have to see it through at home, after all. There are indications that plans to send as many as possible of them to the dominions of the United States, far from German bombs, may have to be dropped or curtailed.

The Evening News said today an official statement could be expected soon. Lack of adequate convoys was advanced as one reason for the situation.

There has been widespread criticism of the departure of numerous well-to-do adult Britons traveling to the United States with their children, but officials denied any favoritism. They said more than 75 per cent of the children selected for removal belonged to families requiring government help to send them overseas. Parents must pay full passage for their children and send them to homes they select.

NEW YORK, July 11 (AP)—J. Roland Robinson said today that "plans for large-scale evacuation of children to the United States and Canada as formed by the British overseas reception board are being pressed with the utmost vigor."

"Any comments appearing in the British newspapers 'merely represent the views of the papers concerned,'" said Robinson, official liaison representative between the British overseas reception board and the national child refugee committee.

Robinson said the reception board had booked all available accommodations on British ships up to the end of August.

Burton Reports On Havana Convention

Vocal solos by Mrs. B. A. Norris, accompanied by Miss Margaret Carr, and a report on the Rotary International convention held in Havana, Cuba, June 9-14, given by President Charlie Burton, comprised the program of the Pampa Rotary club's regular weekly luncheon at noon Wednesday.

Attendance at the luncheon was 41, including two guests, C. H. Everett, Rotarian from Ardmore, Okla., and Police Chief John B. Wilkinson, guest of Steve Matthews, city manager.

Five Convicts Flee From Prison Farm

HOUSTON, July 11 (AP)—Five convicts were missing today from the central prison farm near Sugar Land. The five—Cora Hudson, Rex Brannon, S. D. Vowell, La Verne Hartzell and George S. Ray—were missed at a checkup in the bunkhouse last night. They had reported for the supper checkup.

None was believed to have secured a weapon. Hudson, from Navasota, was serving 70 years for robbery in Smith county; Brannon, of Mexia, five years for automobile theft from Navarro County; Cowell, of Coahoma, 68 years for robbery and kidnapping in Johnson county; Hartzell, of Canada, robbery in Reeves county, and Ray, of Indiana, eight years for burglary and theft in Jefferson county.

Eduardo Hay III

MEXICO CITY, July 11 (AP)—General Eduardo Hay, minister of foreign relations, is ill and official circles said he doubtless would be unable to represent Mexico at the pan-American meeting in Havana this month.

There was speculation Francisco Castillo Najera, Mexican ambassador might be named.

'We Will Not Send Our Men To Europe,' President Promises

WASHINGTON, July 11 (AP)—Highlights of President Roosevelt's message yesterday asking "a further appropriation of \$4,848,171,957 for the national defense: This nation through sacrifice and work and unity proposes to remain free.

The apologists for depotism and those who aid them by whispering defeatism or appeasement, assert that because we have not devoted our full energies to arms and to preparation for war that we are now incapable of defense. I refute that imputation.

We will not use our arms in a war of aggression; we will not send our men to take part in European wars. But we will repel aggression against the United States or the Western Hemisphere.

Let no man here or elsewhere believe that we are weak. If the United States is to have any defense, it must have total defense. We can not defend ourselves a little here and a little there. We

Scotch Whiskey Still Flowing

NEW YORK, July 11 (AP)—The flow of Scotch whiskey to this country continues despite the war, liquor men report, largely because Britannia still rules the waves.

As long as Great Britain retains its sea control, and provided German bombs don't find Scotland's whiskey warehouses, Americans will have little difficulty getting Scotch for their highballs.

Prices continue at about pre-war levels (except for the new U. S. defense tax).

Missourian Loses His Vision Again

ELDON, Mo., July 11 (AP)—Olin Routen, who regained his sight suddenly last February after four years of blindness, has lost his vision again.

A bright light flashed in his eyes one night last week. Started, he cried out. "Then everything went black," he said.

Since then he has been as blind as he was after an accident more than four years ago. Routen's physician explains his affliction as photophobia—"fear of light" and says: "He will see again when his fear of light is broken by a firm conviction that he can see."

Republican Plank 'Poisonous,' Says Secretary Wallace

WASHINGTON, July 11 (AP)—Secretary Wallace asserted today that the "same forces" which drafted what he called the "poisonous" Republican platform farm plank also chose Senator McNary of Oregon to be the vice presidential nominee as "bait for the farm vote."

President Roosevelt's chief of the Agriculture department made the statements to a national conference of about 350 county farm agents and members of state AAA committees. The conference, called to consider 1941 crop programs, probably included "many Republicans," Wallace said, and all those present, he added, were subject to the Hatch anti-political act.

"What I say may be political in nature," he continued, "but it is for the welfare of the nation and of agriculture."

Then remarking that a presidential election was in the offing, he told the group that "this may or not be my last appearance before such a conference."

Shared Advantage, Shared Burden

The forthcoming Pan American meeting at Havana is going to provide some very practical tests of mutualism.

If the American nations are to co-operate for their common advantage, it is obvious that they ought to share responsibilities.

For instance: Dr. Oswaldo Aranha, Brazil's foreign minister, has indicated that he does not believe European possessions in the Americas ought to change hands "by unilateral action."

That is right enough, and we believe the United States would go along with it. But Dr. Aranha has decided not to go himself to the Havana conference, but to send a representative.

The United States has clearly indicated that it would prefer to handle any such problems jointly. For 10 years it has labored to make the Monroe Doctrine not merely a policy of the United States government, but a joint policy of all the American republics.

Let no one make any mistake about it. If there is a threat of seizure of Caribbean islands or other South American territories whose occupation by a European power would endanger the Panama Canal, the United States will act alone if necessary.

It would be helpful if, even before the Havana meeting, both presidential candidates could make clear that in inter-American matters there is no party. U. S. diplomacy is often handicapped by the feeling among other American countries that a change of administration may mean a change of policy.

But in the present emergency both parties are bound by the logic of events to closely similar inter-American policies. To have both candidates say so, perhaps even in a joint statement, forthrightly and definitely, would probably help smooth the path of the American emissaries to Havana.

It will act together with the other republics if they have by that time decided to carry their fair share of the burden. But if they have not, if they shilly-shally along and seem reluctant to join in mutual action, then the United States will act alone.

But it will act. It has no other choice.

Behind The News

WASHINGTON—If you are not thinking what the nomination of Wendell L. Willkie has done to "the third term" and the New Deal, you should be—because Washington is talking about nothing else.

Trying to shift all this talk down and pass it on to you is a sore, but I'm going to try. Eliminating all the guessers who are shooting blind (and still may be right), the situation, as the capital politicians see it, drops into two grooves: (1) Roosevelt must run again; (2) Roosevelt won't run again.

That many sound true, but it really isn't and out of a mere summary of these two opposites we may get somewhere. Let's see.

1. There are scads of politicians here who feel that FDR must be drafted to show Flash Willkie up as a mere flash in the pan. They concede that Willkie has some appeal to the susceptible American imagination, but say he really is just a smart Democratic (there was a time back in the home town when they called him a radical and the extremists thought of him as a "dangerous red") utilities man, who has switched his allegiance to the Republicans.

Because Roosevelt is the only man, these observers declare, who can "save us from Willkie," he will have to answer the draft of his party, no matter what his personal inclinations are.

2. Here is where a good many wild guesses, as well as some darn good political reasoning, come into the picture.

Nobody intimate with the President... I mean those who really know him... ever has said that he WANTS to run again. On the other hand, these persons insist that the President is tired and convinced that his health would suffer from a third term. If he could be sure all the things he has fought for, nationally and internationally, would be carried on, they say, he would be happy to pass the ball to some one else and return to the sidelines.

But in view of the fact that Willkie seems to be a formidable opponent and the Democratic party is certain to demand that Roosevelt run again, what arguments could be put up that would absolve him from the charge of quitting in the middle of the road?

There are several, but only one or two need be mentioned.

JUST SUPPOSE... Suppose Roosevelt said—"Nominate (for example) Hull and I'll take the stump in his behalf."

Wouldn't FDR be as vital a factor campaigning for his own choice as he would be campaigning for himself? There would then be no third-term issue. Nobody could accuse the President of wanting to be a dictator or to abdicate these considerations, the facts that Roosevelt has very little to gain if he runs again and a terrific amount to lose if he loses; that many of his backers feel he could serve the party best by stepping out now and kibitzing through the next four years, no matter who goes in (and maybe run again in 1944); that he REALLY IS tired and does need a rest; that his family, including Mrs. R., is against his serving another term; and that, if Willkie should be elected over a New Deal candidate, the Roosevelt ideology would, in its broad lines, be carried forward anyhow, since Willkie and the President really are in accord on most major issues.

These are things being said in Washington. The

"CALL LABOR"

We have call money and time money. Now, we have more and more of "call labor" and less and less of steady labor.

What I mean by call money is money borrowed that the lender has the right to demand its payment any time and will not contract for the borrower to keep it for a given period. This kind of money is very hard to use to any advantage. It is usually a very low priced money; the lender of which has no personal use for it. Only operators who are very venturesome and risky will borrow much of this kind of money, even if it does save money, because it is so dangerous and the borrower is likely to have to liquidate his holdings, which often cannot be liquidated for the amount of the debt.

Honest Men Prevented From Contracting

Under labor union contracts, all labor is "call labor". No worker dare contract for any length of time. No matter how honest and dependable and desirous a workman may be of entering into an agreement with an employer that if the employer will proceed with an operation that will furnish the worker a steady job for some time, the individual laborer is prevented from making agreement with the employer that he will stay with him for this time, even if the employer agrees to pay him a given amount for a given amount of work.

It is easy to see how an employer would hesitate to start even a small project if he could not depend upon his help. For example, a man would hesitate to contract to buy a supply of cows and contract to supply a given amount of milk daily, if he could not be assured that he would have help during that period.

Then began a procession of doughty old dolls who either didn't quite look the part or couldn't act it. Metro sold the movie rights to Warner Brothers, and the search continued. Not long ago it almost culminated in the selection of Elsa Maxwell. But the new, Tuboat Annie is Marjorie Rameau.

WHERE ARE THE PENNIES GOING? (Daily Oklahomaian)

President Roosevelt said Monday, in connection with the new tax law: "We are asking even our humblest citizens to contribute their mite. It is our duty to see that the burden is equitably distributed, according to ability to pay so that a few do not gain from the sacrifices of the many."

Mary will cheerfully pay an extra penny or two on her movie ticket. Jack will pay a little more for fishing tackle. Invisible taxes will fall upon the working man. No one will object to sacrifice if that sacrifice means more guns, airplanes and ammunition for defense. In fact all of us would gladly give 10 times as much if it would safeguard our nation from invasion.

Pampa Scores Four Runs In Ninth To Win

Prather Hits Homer With Two Aboard

Big Dutch Prather came through in a big way last night when in the ninth inning with his team trailing by three runs he hit over the centerfield fence with two mates aboard to tie up the old ball game. From there the Pampa Oilers went on to win 9 to 8 from the Lamesa Lobes. Tonight the Clovis Pioneers will be here for the first of a two-game series.

Last game of the present Oiler home stay will be tomorrow night which will be "Ladies Night," when all women will be admitted for the government tax. Gus Halbourg will pitch the other, unless Manager Grover Seitz changes his mind.

The Oilers won last night's game the hard way, having to come from behind twice. The win came on an error that counts in baseball.

The victory gave Lefty Rex Dilbeck his 15th win for the season against four losses, to make him the leading pitcher in the league.

Guyne's A Star

Little Eddie Guyne, former Pampa shortstop, tried to pull his team ahead and he did a heroic job for eight innings. But it wasn't in the books that he could go all night without an error and he booted one to open the ninth inning and put a man on base. He also made a bad throw on the play that lost his team the game but the first baseman, Byington, should have completed the play. Instead, he misjudged the ball and the winning run crossed the plate. Guyne made eight assists and two putouts, and worked in two double plays.

Pampa pitchers will learn sometime not to throw low balls to Jodie Beeler of the Lobes who last night baged his fifth home run in three games. Guyne hit three singles and Spangler added a triple and a double and a steal home for his night's work.

Spangler opened the ball game by hitting a triple. Guyne was an infield out and Beeler fanned. With the count two and two on Stevens, Spangler stole home while Dilbeck loafed around the mound. Stevens struck out on the next pitch. The steal home pretty nearly cost Dilbeck the game.

Lamesa added another in the second when, after Brown and Byington had struck out, giving Dilbeck four in a row, Byington and Pridie doubled in succession.

Others Come To Life

The Oilers came alive in the third to score four runs. Knobles beat out an infield hit and second, Malvia filed out. Seitz doubled and went to third on a passed ball. Prather walked, the fifth batter to receive bases on balls off Miller in the three innings. Summers then rattled the boards in right center for two bases and went to third on the throw in from where he scored when Jordan backed Brown against the centerfield fence.

No more change resulted until the sixth when Lamesa sent three runs across the plate. Guyne singled and the ball got away from Potter. Beeler homered. The next two were infield outs on nice plays by Malvia. Brown walked. Then Byington hit to right and Potter tried to make a shoestring catch instead of playing safe and the ball went to the fence, Byington drawing up at third, but three runs had crossed the plate and Lamesa was ahead.

Three more runs crossed the plate in the seventh. Miller was safe when Prather dropped Clutter's hard, low throw of Miller's grounder. The play should have been an easy out but Clutter for the second time in the game had to wind up to throw the ball instead of making a snap throw to Prather. Spangler doubled. Guyne fanned and then Beeler was walked intentionally, filling the bases. Patterson hitting for Stevens grounded to third and Jordan threw Miller out at the plate. Summers' relay to first was too late to get Patterson. Hood was safe on a hit to second which Clutter fumbled, and Beeler scored. Brown then dumped one over second which neither Seitz

STRETCHING A POINT

nor Clutter could reach and another run crossed the plate.

Prather Hits One

The Oilers added a run in the eighth when Prather singled and went to second when the ball got away from Patterson. Summers drew his third walk of the night and his seventh in two games. Jordan forced Summers. Potter then doubled to score Prather. Clutter and Dilbeck fanned.

Then came the ninth after Lamesa had two men on base. Knobles filed out. Malvia was safe on Guyne's error. Seitz walked and Prather hit his 13th homer of the season. That was the end for Miller and Foree took the mound. He walked Summers. Jordan singled. Potter was walked intentionally and Tysko relieved Foree. He uncocked a wild pitch to Clutter and Summers started home but Pridie, Lamesa catcher, made a quick recovery and threw to Tysko who caught Summers at the plate. Clutter then hit to short and the throw to Byington was fast but high. Byington, however, misjudged the ball and Clutter was safe as Jordan crossed the plate with the winning run.

Jared Jordan and Sam Malvia came up with the prize plays of the night. Jordan's when he went to the fence for a foul and Malvia on several hot grounders which he fielded perfectly.

Demaret Favorite To Capture Title

BEAUMONT, July 10 (AP)—Smiling Jim Demaret, Houston's outstanding gift to big time golf, rules a favorite to capture the Texas P. G. A. open tournament starting tomorrow over the Beaumont country club course.

More than 100 of the state's top pros and amateurs are shooting practice rounds and participating in the pro-amateur event, today's feature of the four-day siege of golf.

Demaret warmed up with an easy 72, even par, yesterday but the hot-test round of the day was a 69 by Ray Hill of Henderson, a newcomer to the P. G. A. Tom Menefee of San Antonio shot a neat 70 and Barney Clark of Beaumont, the host pro, had a 71.

The first 36 holes of the open will be played tomorrow and at the same time the four top pro scorers will qualify for the national P. G. A.

The final 36 holes are scheduled Saturday while Sunday the pros and amateurs square off against each other in the annual Texas cup matches.

The professionals playing in the cup matches will be the dozen low scorers of the P. G. A. The amateurs were selected by a committee of the Texas Professional Golfers Association.

Levy Lynch of Dallas, last year's P. G. A. title winner, shot a 73 in a warm-up yesterday.

Hemsley Cures Feller's Wild Spell With Simple Suggestion

Rolly Hemsley points out things to Bob Feller.

BY HARRY GRAYSON
NEA Service Sports Editor

St. Louis, July 11—Rolly Hemsley, here for the All-Star game, reveals how he first curbed and then cured Bob Feller's wildness with the simplest of pitching suggestions.

When the now famous battery-mates—the kid and the veteran—first were brought together on a team, Hemsley immediately noticed that Feller looked at the ground before pitching.

"Keep your eye on the target, Bob. Never take it off," Hemsley told the youngster. "With your stuff all you have to do is get the ball over the plate. Just try to hit my glove."

The two have practically been playing catch ever since.

It was the pitching knowledge the then 19-year-old Feller absorbed on that barnstorming trip that led him to tell Cyril C. Snipnick that Hemsley was the best catcher to whom he had ever pitched, and to suggest the Cleveland club make a deal for the one-time coal miner.

HEMSLEY SAYS FELLER WILL BE EVEN BETTER

Feller's influence had as much to do with Hemsley's reformation as any other one thing. The faith which the upstanding farm boy showed in Hemsley did what advice and neglect couldn't do in Philadelphia, Chicago, Cincinnati and St. Louis.

"He's as fine a boy as he is a pitcher," beams the 33-year-old backstop. "And he's going to be an even better pitcher."

It is difficult to imagine Feller much more formidable than he is, but Hemsley points out that Rapid Robert has yet to develop anything like a slider or knuckle ball.

TRIES TO CATCH WITH HAND IN LEATHER CAST

Hemsley has been out with a bruise on the butt of his left hand. It was not caused by Feller's cannon balls, as you might suspect, but is the result of the Old Rollercoaster falling over Jimmy Foss in going to first base.

Hemsley, who until he straightened out didn't care if he ever caught, is now trying to catch with the hand in a leather cast.

"That is how proud Rolly Hemsley is of being the baterymate of and the man to whom baseball's greatest pitcher listens for pitching advice."

Dizzy Dean To Start For North In All-Star Game

FORT WORTH, July 11—(AP)—Power, good pitching and youth stood on the side of the Southerners for the Texas League's fifth annual all-star game here tonight.

But the Northerners, guided by one of baseball's wisest heads, Rogers Hornsby, were cooking up a surprise for the kids from the South and the some 8,000 fans expected.

Maybe it's pitching staff is a trifle old, but baseball men have a hunch that when you throw Dizzy Dean, Clay Touchstone and Ed (Bearcats) Greer in there for three-inning stretches, there won't be too many base hits.

All the cunning and speed they own can be thrown into three-inning periods, when they know six more frames won't follow. It may be something the South hadn't expected.

Dean, a bulging 450 earned run average beside his name for the five games he has twirled since returning to the league in a last-ditch effort to renound a dying arm, will start for the North, Hornsby announced. The loquacious ex-soldier and major leaguer was high man in the voting conducted by fans.

He will be opposed by Bob Muncrief of San Antonio, a strapping fellow who has won 17 and lost only four. Muncrief, incidentally, is winning his games on the up-and-up. His earned run average of 1.77 is the lowest, and he will start for the North, Hornsby announced.

Behind Muncrief will come Howard Pollett, sensational Houston left-hander who won 12 consecutive games and then lapsed. Other Southern hurlers available include Coombs of Shreveport, the old man of the South at 32; Manders and Trucks of Beaumont and Ed Wissman of Houston. This sextet has won 69 (70) games.

Only two veterans are on the South roster—but two valuable ones. Fred of Shreveport and old Nick Cullop of Houston, two clouting outfielders.

National League Pepped Up Over 1940 World Series

By BILL WHITE
Associated Press Sports Writer

You hardly can blame the National leaguers for being excited. For the first time in five years, winning the league championship will be an honor—not a one way ticket to the guillotine.

In the past four years if a team won the pennant, it simply meant the unfortunates had to suffer the humiliation of playing the Yankees. But the National league all-stars, as they went back today to their various teams to resume the business of selecting a league champion, did so with a lit and a swagger that has been noticeably missing in the past.

For, out in St. Louis, they had seen for themselves what they had been reading all spring and summer—that the Yankees are just another ball club this year.

So winning this year's National league title becomes a feat worth accomplishing, carrying with it, as it does, the possibility of also winning the World Series. Even a black-out couldn't hide the fact that when the Nats scored three of their runs in that 4-0 shelling, the backbone of the American league team was Bill Dickey, catcher; Red Ruffing, pitcher; Joe Gordon, second base, and Joe DiMaggio, centerfield—Yankees all.

So you'll pardon the emancipated National League the rest of the

summer, if they act a little cocky. They hardly can wait to see how it feels to enter a World Series without having their admirers shake their heads sadly.

SERIAL STORY

PEACE--SHE'S WONDERFUL BY ISABEL WAITT

COPYRIGHT, 1940. NEA SERVICE, INC.

YESTERDAY, Bertrand wives Rhoda to postpone her wedding. Denny suddenly appears in the desert. Ogden leaves. Peace is left behind and Carole jumps from the moving train. Denny watches, helplessly, as they disappear in the distance.

CHAPTER X

DENNY struggled to the rail to leap from the speeding train, but other passengers held him back. "Don't be a fool! They'll be all right. You'd be killed!" "Caleb—Mr. Ogden will pick them up in his car!" called Mrs. King, from the rear. "Unless, of course, a coyote or a rattlesnake—"

"They'll be all right," the conductor reiterated. "Shack right near the track. See it? Your run-away must have been in it or we'd have seen her. Darned lucky the young lady didn't hurt herself, jumping off my train!" Indignation emanated from him.

"Carole, Denny realized, had risked her life. A fine person he was to be entrusted with the care of a child. "I can't stand it!" Rhoda blazed. "This is the end, Wayne Dennis. Shut up, will you?" Denny grabbed the conductor's arm.

"When do we stop? Can I get a car or—it'll be getting dark—a plane? Where are we, anyway? In Arizona?" "There are wolves after dark!" a woman piped up. "And gila monsters. Oh, I'm going to faint!"

The conductor drew Denny away from the pack. Denny could get off at the first station. He could get a car, or, possibly, wire Winslow for a plane. Sure, there'd be time before dark. Daylight lasted in Arizona. More than likely this Mr. Ogden would have seen the whole business, and would pick up Carole and Peace and bring them to the very same station, before Denny had made his arrangements. Nothing to worry about, but that train couldn't be delayed another minute. He would have to make about a hundred miles from Winslow.

Mrs. King stood at Denny's elbow, wiping her eyes. "I wish I'd never given Caleb \$500 for that option on his old oil well." "Five hundred dollars, madam? So that's it!" The conductor sighed as if the limited meant the weight of the world. "Better let Mr. Dennis telegraph your bank to stop payment."

"B-b-but I gave him cash." "We'll do something after I find Peace," Denny told her. And this was the woman who'd

put the police on his trail. And she was going to watch out for Carole. Sucker! In his misery Denny almost pined her.

In a few minutes the train slowed down at a cluster of "dobe shacks. Could that be a station? And a battered roadster beside it! "Good luck!" called several passengers.

"Pick you up en route, if you get a plane," the conductor said. "If we don't, wait for me in Los Angeles," Denny instructed Rhoda. "Coconut Grove!" It was the only place he could think of at the moment, since their previous plans had been to go on at once to La Jolla. Rhoda would have to look out for herself. His anxiety was so great he forgot to kiss her goodby.

A wan young station agent greeted him as he hopped off. "Jumpin' bullfrogs—a passenger!" Denny had explained the predicament before the train was under way. "Can I take your car?" "Sure, buddy. Only poor Liz has a flat. Patch her up in a jiffy."

"What would you do," Denny put it up to him, "if you had two girls lost in the desert and one on the limited?" The agent scratched his rump and head. "Me? I'd telegraph for a plane. Car couldn't catch the train, even without a flat. Then I'd pick up the lost girls and get 'em safely aboard the train at first possible station, and head for Mexico by my lonesome."

Denny heard the click of the instrument, while he watched a group of barefoot, half-naked Mexican children playing in the sand. The station agent accepted a cigarette. "Be here before you can say 'Jack Robinson. Hop on your folks stick to the tracks and don't try to wander off. Not much twilight here in Arizona. Old sun smears itself all over the sky and plops out of sight. Lots of time before dark, though."

The dark, Denny smothered a rising fear. "It seemed years before he heard the droning of the plane. Already the sun had splashed sunset gold across the sky. The light still held, and the afterglow would follow briefly. A little crowd gathered from nowhere to watch the plane land.

"Goodby, buddy!" The agent waved away Denny's bill. "Good luck, and when you find 'em, take my advice and best it to Mexico. Three girls—no harem for me." Denny climbed into the plane. "Follow the track east. There's

nothing near the spot but a tumble-down shack, but it's before you, Carole. Sucker! The pilot knew his business and every inch of the country.

Denny felt comforted, if only the sky didn't fall in. Upward they soared, over a vast expanse of sand, mountain rimmed in the distance. The plane was sailing smoothly. "That it?" It couldn't be possible! They had only been a few minutes in the air, yet there was the ribbon of a road where the dot of a car had been, toward which Denny had seen Ogden run. Only no Carole was in sight, waving, as she should have been.

"Looks like it, only where are they?" Gone with that Texan? And if so, where? "Let's land and investigate." "The pilot set the plane down like a baby, and the two men headed for the shack. "Look. They've been here," Denny said. "See those tracks?" He pointed to the impressions of a boot by small high heels and those of a child's shoe. "Peace! Carole!"

They pushed open the door and stepped into a windowless hovel, with a dirt floor covered with debris. The only sound to greet them was a loud snore, coming from a half-breed Mexican-Indian sleeping in a corner. The pilot was outside studying the tracks again. "They came here, all right, and then they ran. See, Mr. Dennis, how much deeper these tracks are?"

"Carole! Peace! Where are you?" Denny shouted with all his might. "Oh, Denny! Oh, Denny!" The cry came faintly to his ears. And facing it, he made out two little figures running toward him from sagebrush back of the shack. "There they are!" Denny raced to meet them. He caught Carole in his arms, as she came panting up, dragging Peace.

"Oh, Denny! That awful man! If it hadn't been you! We were hiding behind those mesquite bushes. We heard the plane, but we had to be sure who was in it, because we were afraid he'd come back for the money. We came out as soon as we heard you call." "Did that man molest you?" Train or no train, he'd go back and make him pay for it.

"She means Mr. Hogden!" Peace piped, delighted when the pilot picked her up and carried her. "He stole my little Joany, the horrid old thing!" "And that isn't all he stole," Carole said. "Wait till you hear."

Flying Ambulances Used By Germans

WASHINGTON, July 11 (AP)—Nazi airplane ambulances have been employed effectively in rushing wounded soldiers back from the front, says a report by Dr. W. Tompkins, staff surgeon of the German air forces, reprinted by the Military Surgeon, official journal of the association of military surgeons of the United States.

The German army medical corps is using its field hospitals only for emergency work, he wrote. The seriously wounded are put into flying ambulances for immediate transfer to back area hospitals equipped for major operations and complete care.

At least several hundred planes are believed to have been in constant use as ambulances. They carry a surgeon, nurses, and emergency equipment.

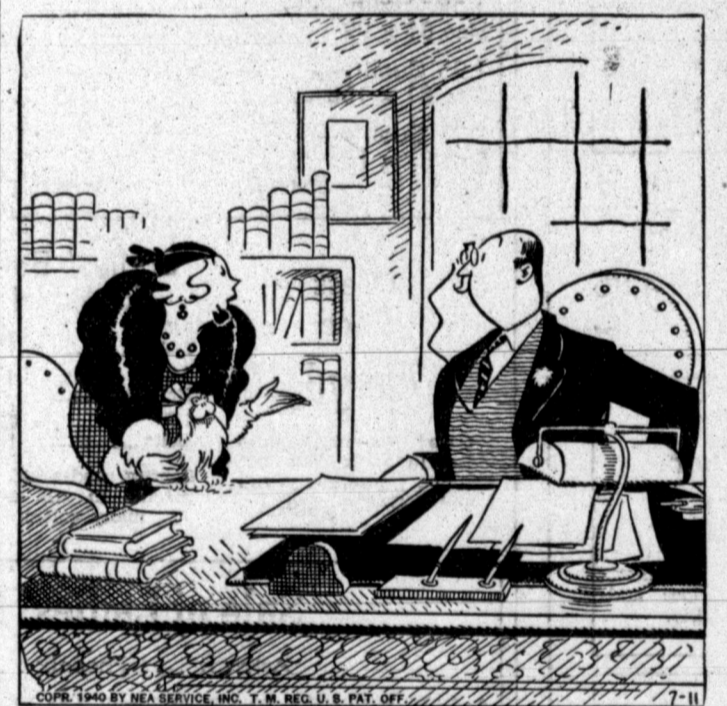

125,000 Bottles Of Pop For Demos

CHICAGO, July 11 (AP)—The Chicago stadium is getting its young face lifted for the national Democratic convention next week. Although built only 11 years ago the huge indoor stadium already is becoming one of the historic spots in the nation's second city.

Stadium concessionaires have stocked the larder with these items: 100,000 bottles of beer, 125,000 bottles of soda pop, 30,000 gallons of

draft beer, 75,000 ice cream bars, 20,000 ham, 10,000 roast beef, and 25,000 bags of peanuts. 25,000 bags of popcorn, 150,000 cups of coffee, 5,000 cheese sandwiches, and 75,000 hot dogs.
