Post-Gatty Journey Around Globe Will Be Most Colorful of All Projects; Record is Their Ambition.

## REBUILD SHIPS

Ruth Nichols May Be in Race With Own Sex; One Arctic Flight to Pole Will Be Among Attempts.

By OSCAR LEIDING  
Associated Press Aviation Editor.

NEW YORK, June 9. (AP)—Aviation raises the curtain on another ocean flying season with plans to rival the dazzling feats of 1927.

Not since Lindbergh blazed his lonely trail to Paris and the aeronautic world was swept into a mighty wave of daring flights have so many ventures been projected.

Three round-the-world flights by Wiley Post with Harold Gatty, and Clyde Pangborn with Hugh Herndon Jr., near the time when only favorable weather will decide the actual starts.

The Post-Gatty venture is the most ambitious, with a goal of ten days or less in a race against time over a 16,000-mile route. The other pair is intent on breaking the 30-day record of the Graf Zeppelin.

Bernat Balchen, pilot on Admiral Byrd's trans-Atlantic and South pole flights, has said he intends to fly around the world. But he has announced no details.

A fourth projected round-the-world flight, by John Henry Means and Vance Breese, was called off in face of Russian objection to flight over its territory.

The Green Flash, monoplane wrecked by Roger Williams and Lewis Yancey on the takeoff for a trans-Atlantic flight, is being rebuilt by Ben Zabor and Emil Baugin for same venture, depending upon what repairs are available when the plane is in flying trim.

Eight airplane flights over the Atlantic, besides the round-the-world flights, are in the spotlights with Otto Hillig and Holgar Hoeris in a contemplated Newfoundland-Denmark trip and Ruth Nichols planning a solo hop to Paris as the nearest to being ready.

Miss Nichols, society woman and sports flier, may find a rival in Edith Elizabeth McCall, of Galt, Ontario, who has announced preliminary plans to fly the Atlantic alone. But her plans seem uncertain.

Women Active  
Laura Ingalls, who won her pilot's license while working as a secretary in St. Louis, has announced that she will attempt a flight across the Atlantic, probably from New York to Paris, in the latter part of the summer. She has given out few details regarding her plans.

A plane owned by Capt. George Endres and Alexander Magray is at Roosevelt field. They plan to fly to Budapest.

Proposed Flights  
NEW YORK. (AP)—Ocean flying traffic will be heavy this season, if the many projected ventures are carried out. Major American flights so far arranged with a degree of certainty are:

Round-the-World  
Wiley Post and Harold Gatty in Lockheed-Vega.

Clyde Pangborn and Hugh Herndon Jr., in Bellanca.

Trans-Atlantic  
Ruth Nichols, Newfoundland to Paris, in Lockheed-Vega.

Otto Hillig and Holgar Hoeris, Newfoundland to Copenhagen, in Bellanca.

Comm. Donald B. MacMillan and C. F. Rocheville, Boston to London and return, in Lockheed-Vega.

Col. James C. Fitzmaurice and A. S. Stanford Jr., New York to London, in Sikorsky amphibian.

Capt. Roy Ammel, New York to Paris, in Lockheed-Siris.

Laura Ingalls, in unnamed plane, New York to Paris.

Mrs. Geraldine Grey Loffredo, Buffalo to Rome in Bellanca monoplane.

Trans-Pacific  
Mr. and Mrs. Chas. Lindbergh in special built plane over north pole.

Mrs. Geraldine Grey Loffredo, wife of a Buffalo photographer, has announced that she will attempt a good will flight from Buffalo to Rome with Renate Donati, Italian war ace, as co-pilot.

Two flights "with a purpose" are planned by Comm. Donald B. MacMillan, noted Arctic explorer, and Col. James Fitzmaurice, Irish pilot of the German man-of-war, Bremen, conqueror of the Atlantic in westerly flight.

MacMillan, with C. F. Rocheville as pilot, hopes to make a round trip flight from Boston to London to survey possibilities of using a far northern route for regular transoceanic travel.

### Fifi on Her Second Honeymoon

Here are the nation's two most famous newlyweds, Mr. and Mrs. Fowler McCormick, photographed on their honeymoon at East Hampden, N. Y., shortly after their wedding. McCormick, 32, is grandson of John D. Rockefeller Sr., and the bride is the former Mrs. Fifi Stillman, 31, divorced wife of James A. Stillman, New York financier. McCormick is generally credited with having effected a successful, but short-lived, reconciliation between the Stillmans after their sensational divorce charges.

## HOLMAN KENNEDY, CLARENDON BANKER, HEADS ASSOCIATION

### Dallas Grain Man Compliments Federal Farm Board Upon Its Program.

AMARILLO, June 9. (AP)—Holman Kennedy of Clarendon was elected president of the Panhandle Bankers' association at the close of the 27th annual convention here today. Other officers elected were: L. B. Steel, Dalhart, first vice-president; C. A. Gibner, Spearman, second vice-president; T. S. Stevenson, Floydada, treasurer, and T. E. Noel, Memphis, treasurer.

Addresses by A. B. Culbertson, trust officer of the First National bank of Fort Worth; Ford Brandenburg, vice-president of the Amarillo Cattle Loan company; J. Perry Burrus, Dallas grain man; and Leon L. Mottlo, of the Federal Intermediate Credit bank of Houston, featured the closing session.

More than 215 bankers attended the two-day meeting.

"Within 10 years Texas will be second, if not first, in the production of wheat," Burrus told the bankers.

"Acreage reduction must come but it will come in the states where 100 acres is considered a big field and not in this area, where they talk of sections of wheat." He added he had no fear of competition of Russia, where the cost of production is certain to be high.

Burrus complimented the farm board on its work and said that in his opinion many banks in the agricultural sections would have failed without the board's support of the grain market.

### CRASH VICTIM DIES

GILMER, June 9. (AP)—Mrs. F. D. Futrell, 73, died last night of injuries received Saturday when the automobile in which she was riding was struck by a Cotton Belt freight car. Her daughter, who was driving, jumped clear of the automobile before the freight car struck, but Mrs. Futrell failed to clear the automobile and was injured internally.

## CROSBY AND GUESS MUST STAND TRIAL

Reasonable Bond to Be Allowed by County Attorney Shilling; Vigorous Investigation is Under Way.

### MEXICO ANGERED

Brutal Assassination Charged by Newspaper; Hoover Sends His Regret to President of Neighbor Republic

ARDMORE, Okla., June 9. (AP)—Murder charges were filed here today against Deputy Sheriff William Guess and Cecil Crosby for the slaying early yesterday of Emilio Cortes Rubio, young cousin of the president of Mexico, and his chum, Manuel Gomez.

The peace officers, who professed to welcome the charges in order that they might prove their contention that Guess fired after the youths had wielded pistols, were to be given a preliminary examination this afternoon before Carter County Judge Charles N. Champion.

Charges were filed by Marvin Shilling, county attorney, after both Gov. William H. Murray of Oklahoma and Senor H. Valdez, Mexican consul at Oklahoma City, had made formal requests for a vigorous investigation and prosecution, if such seemed necessary.

The youths, both college students on their way to their homes in Mexico with Salvador Cortes Rubio, 24, another cousin of President Ortiz Rubio of the southern republic, were slain at their parked car in a residential section here early yesterday. Salvador Cortes Rubio was unhurt and remained here. He said he thought his companions believed the officers to be holding men although the officers said they informed the youths of their official capacity.

County Attorney Shilling said he would offer evidence at this afternoon's hearing although the officers might waive an immediate defense. They will be tried quickly, he said, soon after the opening of criminal trials scheduled for June 22.

Senor Valdez was on hand to represent his government.

MEXICO CITY, June 9. (AP)—Dispatches from Morelia to the newspaper La Prensa today said news of the killing at Ardmore, Okla., yesterday of Emilio Cortes Rubio and Manuel Gomez had aroused considerable anti-American sentiment.

The two boys were the only sons of prominent families in Morelia and it was feared anti-American demonstrations may occur when the bodies are brought home for burial.

Headlines in Mexico City's newspapers this morning referred to the killings as brutal and barbarous.

The newspapers expressed hope that the men who shot the boys will be "brought to justice."

## French Liner Being Refloated

GALVESTON, June 9. (AP)—Dredging operations to refloat the French liner Guadeloupe, aground in Bolivar roads near the entrance to Galveston harbor, were in progress today.

Officials said several days might be required to free the vessel, which has 225 passengers aboard. The ship ran ashore Sunday night.

With calm weather prevailing, the ship was believed in no immediate danger. All passengers were remaining aboard. Among them were a number of Texas students who embarked for a vacation tour of Europe. The vessel is destined for Havre, via New Orleans and Havana.

## CLOUDBURST AT OUTAQUE HITS HOMES

Reon, Kelsay, and Cleone Fuston Are Washed From House as Mother Strives in Vain to Save Them.

### SHE IS RESCUED

Father and Another Son Were in Turkey When 9-Inch Rain Falls; One Body Not Yet Found.

TURKEY, June 9. (AP)—Three children of the Fuston family, living nine miles north of Turkey, were drowned last night when a cloudburst, amounting to nine inches of rain, swept down Kemp creek and washed the children and their mother from the house.

The children drowned were two boys, Reon, 9, and Kelsay, 13, and a girl, Cleone, 11. The mother escaped by clinging to a tree. She attempted to rescue the children as she saw them being swept past her by the flood but was unable to hold them. The waters receded at 4 a. m. today and she was rescued by neighbors.

The father and another son were in Turkey and were unable to return home because of the flood. Early today, the body of Reon was found in a drift 200 yards from the home and shortly after 9 a. m. the body of Cleone was found lodged in a barbed wire fence at a bridge two and a half miles downstream. At noon, the body of Kelsay had not been recovered.

The Fuston house was shifted seven feet by the crush of water. Across the stream, the home of Vesta George, farmer, was swept away by the water but the family escaped to higher ground before the flood struck.

## Indian Commits Suicide After He Kills His Wife

POPCA CITY, Okla., June 9. (AP) Returning at daylight to his home near Washington, where last night he shot and killed his wife, Toby Farnsworth, today committed suicide.

Sheriff Joe Cooper of Kay county was at the home investigating the slaying of the woman when Farnsworth returned, peeped in the window and asked if his wife were dead. The sheriff said he replied in the affirmative and that the Indian then shot himself.

Officers said Farnsworth had fled after shooting his wife, a white woman.

Three children—Viola, 16; John, 11, and a 2-year-old infant were at the home.

Officers believed the shootings climaxed a series of domestic quarrels.

## Two Men Killed In Liquor Battle

DENVER, June 9. (AP)—At least two men were dead and two wounded today as the result of what police said was a gun fight between a party of hijackers and the operators of a liquor still on a ranch east of Denver.

The dead were identified as Lawrence Jackson and J. B. Priestley, both of Denver, who police said were hijackers.

It was believed the wounded men would be in condition to lead the officers to the scene later today. They said they were unable to give an accurate description of the ranch but could take officers to it.

## Estes Hits Back At Oil Men Who Criticized Him

DALLAS, June 9. (AP)—Carl L. Estes, Tyler editor and secretary of the East Texas Lease, Royalty and Producers' association, replied today to criticism of him yesterday by Ed Landreth and Charles F. Roeser, Fort Worth oil operators, at a meeting here of independent oil producers.

In a statement issued here, Estes declared:

"I hope those gentlemen who met here yesterday to 'save the oil industry' and 'solve the problem of low price and over-production of that commodity in emergency fashion' went away satisfied with their labors for the day, especially the oratory, with the feeling that something of constructive value had been accomplished."

"Uninformed"  
The Fort Worth oil men had charged Estes with "uninformed and incompetent leadership" of opposition in East Texas to production of production in the new field.

"If directing shafts of personal abuse at the head of a country newspaper editor from the brushy red hills of east Texas, who has fought for the rights of the impoverished people of his section to be permitted to develop a great oil field, constitutes a 'solution of the oil problem in emergency style,' then those who attacked me so savagely yesterday should have truly made some real progress," Estes asserted.

"I understand that about half of the time of the 'oil salivation meeting' was consumed in finding fault with Dan Moody, Tom Crankfill and the country editor."

"I wonder why they did not charge me with responsibility for the world-wide depression, for the flood of foreign oil pouring into this country, tax free, by the millions of barrels yearly; why they did not take a rap at mother nature for placing a veritable ocean of oil under those pine-clad hills over in east Texas; why a resolution was not offered to hand 'Dad' C. M. Joiner for ever discovering the vast east Texas oil field in the first place. I wonder why they did not place responsibility at my door for the 'cracking of a major company's bull whiff' in the form of penalty cuts against east Texas; why they did not berate me for turning

## Fans Are Urged To Buy Baseball Tickets at Once

A plea to baseball fans to purchase their tickets to games in the proposed Panhandle league now, was made this morning by Jim "Bad News" Galloway, manager of the Pampa team. A total of 2,500 tickets went on sale this morning. These may be purchased at the Diamond shop. A committee of citizens is interviewing merchants and business men this morning.

Mr. Galloway said that during the first day the tickets were placed on sale in Amarillo, 1,000 tickets were sold. Merchants bought tickets for their employees in most cases, he said. Tickets are one dollar each.

Whether the league will be organized will be decided at a meeting tomorrow at Amarillo. It will be necessary for four clubs to raise \$1,000 by that time and turn it over to Alvin Gardner, president of the Texas league.

## From Lindbergh Family Album

Here are the first and last Lindberghs to cross the Atlantic, taken from the family album. While the present Colonel Lindbergh (shown above with his dog at the age of 10) made the trip in 33 1-2 hours, it took his grandfather, August Lindbergh, (below) six whole weeks when he crossed from Sweden on a sailing ship to settle in Minnesota in 1859. These hitherto unpublished pictures are copyrighted by McCall's Magazine and are being used in a new Lindbergh biography.

## FATHER-IN-LAW OF SLAIN WOMAN IS UNDER CHARGE

J. F. Barrett Says Shooting of Woman Grew Out of "Fuss" Between Them.

DIMITT, June 9. (AP)—J. F. Barrett, whose daughter-in-law, Mrs. Nona Barrett, 20, was found shot to death Monday morning in her yard, 20 miles southwest of here, today was charged formally with the murder.

Barrett, arrested Monday night by Sheriff John Flanagan near House, N. M., is being held in jail at Hereford.

Both Sheriff Flanagan and Charles Dean, county attorney of Castro county, said they would fight any effort to secure bail for Barrett.

In jail at Hereford, Barrett is reported to have made a statement to Dean. None of the details of the statement was made public, but Dean intimated Barrett said "it was just a fuss between myself and my daughter-in-law."

Mrs. Barrett's bullet-riddled body was found a short time before noon Monday by George Keller and members of his family, who live two miles from the Barrett place.

Barrett was arrested at a residence six miles west of House, N. M., late yesterday by Sheriff John Flanagan. The sheriff said the man waived extradition but he declined to say whether the accused had been returned across the state line.

Officers said Mrs. Barrett was at home with her 10-month-old baby when the shooting occurred. Two loads of shot from a 12-gauge shotgun took effect, one in her left arm and the other just below the heart. A third charge missed.

After the shooting, the alleged slayer took the woman's baby to his own residence, about two miles away, then went to the George Keller home and asked Keller and his wife to accompany him. They found Mrs. Barrett's body lying in the yard. While Keller telephoned county officers, the man disappeared.

Officers said they had been unable to obtain any details regarding the shooting, or to learn any probable cause. The husband of the slain woman said he knew of no trouble between his wife and the accused relative.

DENVER MAN THREATENED  
DENVER, June 9. (AP)—Calvin F. Fleming, Denver lumberman, and his household were under police guard today, the result of receipt by Fleming of a letter threatening him with death unless he gave \$10,000 to "the deadly six." Police have been working on the case since Saturday.

JEWELRY IS STOLEN  
NEW YORK, June 9. (AP)—Two armed men entered the shop of the Lido Jewels, Inc., in Madison avenue today, bound and gagged the proprietor, Morris Levins, and escaped with \$30,000 in jewelry.

## COURTESY TO VISITORS IS VITAL

A little thing-like thoughtful courtesy will help build a city. Pampa's future rests in part upon her position as a wholesale and retail trading point for the surrounding territory.

Making out-of-town shoppers feel at home is a serious problem. A city's reputation is what people think of it, and thinking is contagious. A few disgruntled visitors can work great harm with their complaints in their home communities.

Lately there have been several instances which deserve thought on the part of officials. Double parking by residents is rightly banned, but visitors who have been in the habit of using this method of picking up groceries may not be expected to realize the change in policy. It must be realized that harshness makes a visitor very wrathful, and that he will carry a grudge whether he has to "tell it to the judge" or simply is warned too severely.

It should be the intention of officers to get acquainted with visitors and to be of service to them, rather than to accuse them, in manner of words, of being nuisances. Pampa officers by being courteous can make trading here desirable. By being gruff they can drive trade away. It is to be expected that Pampa officers shall earn a reputation for courtesy to our out-of-town guests.

The sight of a uniform arouses apprehension in the mind of the average visitor. Mannerisms of the officer are magnified by reason of this conscious or sub-conscious fear. Let the uniformed man act gruffly and you have a case of unadulterated peeve on the part of the reprimanded visitor. But let the officer prove friendly and helpful and you have a valuable ally in the shopper.

City traffic laws of this country are notoriously lacking in uniformity. Some cities have "left turn" signs showing when such a turn is permitted, and it is as-

## FRECKLES AND HIS FRIENDS By Blosser

sumed that you cannot so steer without this sign. Other cities have "no left turn" signs and you may turn anywhere there is no such warning. This is one of many examples of confusion. Moreover, law enforcement is erratic with respect to such laws and visitors should be given courtesy cards showing what is the intention of the city.

How to make shopping easier for visitors is one of the city's most vital problems.

By RODNEY DUTCHER  
WASHINGTON, June 9 (NEA).—The police of Washington collect doors. Lately they have accumulated a dozen of them.

It's a strange hobby but, just as stamp collectors do not bother with the common two-cent ones and coin collectors do not go in for modern pennies and nickels, the police do not concern themselves with ordinary doors such as yours and mine.

The doors in the collection at headquarters are stout, thick affairs and when they are not made entirely of steel you are likely to find that they really are two doors, clamped together, with a heavy sheet of steel in between. Each one usually has four or five large bolts and more often than not there is a little hole or barred grate through which it appears that someone might have wanted to be looking at you. Sometimes it takes four coppers to carry one of these doors.

The police say they get the doors from speakeasies and gambling joints, those being the only kind of doors in which they are interested. They also advance a quaint theory that the barriers were constructed and installed in order to keep the police from coming into those places and, if anyone were to become so unmanly, to resist attacks made with axes and crowbars.

A three-fold purpose inspires this door collecting. After a door is removed there is no longer any barricade against the police. Also the proprietor, even if he has escaped arrest, is likely to be discouraged, for even if he makes himself another special door he is likely to lose that, too. And, finally, the reason the police treasure the doors at headquarters is that they can use them in court as evidence tending to show that there must have been something funny about a place that had a door like that.

The warrantless raids in which the doors are acquired have been drawing crowds in the heart of Washington and are seriously inconveniencing patrons of the more pretentious drinking and gambling places. They followed a series of shootings which seemed connected with the capital's "underworld" and revealed the existence of a rather surprising number of joints right in the middle of the town. The coppers, it appears, must buy liquor or participate in gambling in order to get a warrant for such a place. Everyone knows who the coppers are, so that has been very difficult.

But three detective sergeants started out, visiting places and collecting doors. They found that if they stayed around long enough demanding entrance they were usually admitted. Even if they weren't they had

the satisfaction of knowing that they had frightened the operators into dumping their liquor down the sink.

The proprietor of one club got into the habit of making a speech like this to his guests:  
"Gentlemen, it seems that the law is without. I can assure you that it will require the law at least 45 minutes to burn through our new iron door, even if it uses a blowtorch. Meanwhile, before we proceed to dump, all refreshments are on the house. You may drink as rapidly as you like, gentlemen, and no holds barred. If the law finally invades us I trust that you will give your names as Bishop Cannon, Andrew Volstead, Clarence True Wilson and other similar names that may occur to you."

As a matter of fact, when the law finally entered and took away the door, the seven customers present all gave the name of "Smith."

Sometimes it takes nearly an hour to chop or crowbar a door from its moorings.

There is question whether the recent series of warrantless raids will result in many instances of convictions for law violation, but life is becoming a bore for many of the gents who have been doing business behind those doors.

## Debt Payments To U. S. May Stop On Part Of England

LONDON, June 9. (AP)—The possibility of suspension of debt payments to the United States occupied a large part today in newspaper speculation over the results of a week-end conference between German and British officials.

The Daily Mail featured a dispatch from the Vossische Zeitung of Berlin predicting that the Reich would demand postponement of the "deferable" payments of the Young plan as soon as Chancellor Heinrich Brüning and Foreign Minister Julius Curtius return from their conference with British officials.

If this occurs, the Mail said, France and Italy might feel obliged to suspend payments to the United States on their war debts and Great Britain would be placed in a difficult position in the same connection.

The possibility of calling for a general suspension of payments to the United States in the event of Germany's default is occupying the minds of European statesmen, the paper said, and "it is abundantly evident that a grave new economic issue is arising."

Informed quarters are increasingly convinced that the promise of "international collaboration" at Chequers and the coming visit of Secretary of State Henry L. Stimson and Andrew W. Mellon, secretary of the treasury, foreshadow a concerted move on the part of all nations to review the general subject of war debts and reparations.

Significance is attached to Chancellor Brüning's statement before the Anglo-German association yesterday that he hoped the Chequers meeting would be "not an isolated act but a new milestone in the development of international understanding."

# WIFE OF PRESIDENT HONORED WITH STEAK FRY HERE

## EVENT HELD AS FAREWELL FOR MRS. BRABHAM

Mrs. Tom W. Brabham was honored by a group of local friends with a steak fry Monday evening at an interesting canyon spot near Pampa. The event was a farewell courtesy to Mrs. Brabham before her departure for Fort Worth, where her husband, who has been pastor of the First Methodist church for the last four years, will assume the responsibilities of the presidency at Texas Woman's college.

Tomorrow evening Mrs. Brabham will be honored by the Methodist Woman's Missionary society when the group gathers for a picnic at the home of Mrs. W. Purviance at 6:30 o'clock.

Hostesses for the steak fry were Mesdames W. D. Campbell, C. T. Hunkapillar, Roger McCounell, and R. B. Fisher.

Guests met in the Hunkapillar home at 6:30 o'clock and went in automobiles to the chosen spot, where the supper was cooked and served and numerous informal games were directed by Supt. and Mrs. R. B. Fisher, Lynn Boyd, and Miss Kate Zachary.

The following attended the outing: Mesdames Tom Rose, J. M. Dodson, Lynn Boyd, S. A. Hurst, and children, Siler Faulkner, G. C. Walstead, F. L. Elliott, Tom W. Brabham and children, C. T. Hunkapillar and children, Roger McCounell, W. R. Campbell, R. B. Fisher, and Miss Kate Zachary.

### Some FEMINE Fancies

"Miss Greater West Texas" was "all pep and enthusiasm" this morning as she planned her wardrobe for her trip to Galveston. And no less enthusiastic was David Dallas, who arrived with Mrs. Dallas from Lubbock this morning to take Miss Leona Leedom, the title winner, to the contest city.

Mr. Dallas declared the party should leave by 2 o'clock this afternoon. Miss Leedom protested that it couldn't be done. The clothes had not been selected.

Miss Leedom has promised that a description of the wardrobe would be furnished the readers of this column. There will be several evening dresses, several sport dresses, a pair of beach pajamas, and all needed accessories.

As she posed for a picture this morning, Miss Leedom was wearing a pale pink evening frock of crepe with a short jacket. Her straw hat was of the same shade of pink and the only other color was a blue bracelet.

And for another picture, Miss Leedom posed in the pink bathing suit which has already had a part in bringing her fame.

The home of Mrs. Ivy Duncan made an attractive background for the pictures and a huge bouquet of roses lent added beauty.

When asked what she planned to do "when she won at Galveston," the West Texas beauty declared, "I don't dare plan that far ahead. Wait until I win."

Miss Leedom's success is attributed to her perfect poise and attractive walk as well as to her figure. "Where did she get that poise?" asked Mr. Dallas, and we answered "partly from the training of her mother, who has spent some time studying the art of gaining the best possible stage appearance, and partly from her general cultural training, including a study of music and dramatics."

All West Texas is wishing for Miss Leedom a delightful trip to Galveston, climaxed with a glorious success!

### ALL IS READY FOR FUNCTION THIS EVENING

Three hundred persons are expected to participate in the bridge tournament sponsored this evening at 8:15 o'clock in the Mitchell building. The tournament is under the direction of the Pampa Library association and is for the benefit of the library.

The hostesses include Mrs. C. M. Bryson, general hostess, and Mesdames Raymond Harrah, W. C. Mitchell, Frank C. Allison, S. A. Burns, C. W. Stovell, Ivy Duncan, I. Baum, Arthur Swanson, O. H. Booth, Mel Davis, Glen Pool, H. H. Hicks, Frank Lard, Kees, F. M. Perry, William M. Craven, C. G. Cook, Roy Sewell, C. P. Buckler, James Todd, Jr., and Miss Mabel Davis. Any one wishing to attend or to assist is asked to telephone one of the hostesses.

A favor will be given for the highest score made, as well as the highest score made by guests of each hostess.

Mrs. C. P. Buckler is general chairman of the event. She is assisted by Mrs. James Todd, Jr. Librarian, and Mrs. W. R. Campbell. Refreshments will be furnished by the Brown Cracker company and Ocea Cola Bottling company, while the use of the building will come as a courtesy of Dr. and Mrs. W. C. Mitchell.

DeLea Vears and D. D. Robinson of the First National bank are transacting business in Amarillo today.

### Shades Suit Varied Color Schemes

BY MARGERY TAYLOR Interior Decoration Editor, McCall's Magazine. Written for Pampa Daily News.

No longer is it the job of the window shade merely to keep out the glare and gossip.

The new art of choosing shades demands that they harmonize with the architecture and the interior. They must be decoratively right—both from the outside and the inside.

There is a large skyscraper in New York, annually visited by thousands, that furnishes an object lesson in creating this harmony between shades and exterior design.

The architect has insisted that the modernistic lines he has designed for the building must not be spoiled by inharmonious colors of shades. So each of the 4,000 windows has its proper shade, light or dark, white or black.

The example may properly be followed on a smaller scale so as to maintain the decorative and architectural harmony of the home, large or small.

Each type of house has its appropriate shade. White stucco, concrete or stone, for instance, require egg-shell white shades. Green shades, obviously, are right for colonial houses with green blinds. Brick houses with white trim usually take white shades, while tapestry brick leaves a choice of tan, grey, green or a soft dull blue.

The California stucco house, when it has that rose pink tint, will look its best with shades of ivory, dove grey, stone or faun color.

But don't give up hope if the color which is in harmony with the exterior would look "terrible" inside. For in the versatile modern shades one may obtain a different color on each side—in any combination.

And some of the very new shades kill another traditional bugbear of the housekeeper. No longer must shades pass the years collecting dust and cracking and fraying, for they are made to wear—and to wash.

With care they may be kept as clean as the windows they serve. Hot water, soap, and a brush will bring back their fresh color and help keep it for many years.

### QUILTS OF ALL TYPES WILL BE IN SHOW HERE

Quilts are still being entered in the Presbyterian quilt show to be held Thursday, Friday, and Saturday in the high school auditorium, according to Mrs. R. F. Dirksen, director of the event.

Every design imaginable has been entered. Some of them very plain and some very elaborate.

Among the most attractive are two flower garden quilts made of print materials in every color of the rainbow.

A colonial rose quilt is entered in the applique division. It is made of three shades of rose, combined with green.

An "A B C" baby quilt, designed of pink and white sateen, is entered in the baby quilt division. There is a separate block for each letter in the alphabet.

One hand-embroidered quilt features a flower-basket design in many colors. One basket is embroidered in each block and the blocks are joined with pink sateen.

A sunburst quilt is made in a star design, deep orange in the middle and shaded to light yellow as the colors approach the edge of the quilt.

One quilt, entered by the Presbyterian women of White Deer, gives a complete history of the church to which the women belong. A picture of the church is embroidered in the center, and on each block is embroidered some interesting facts regarding the church.

Unusually unique is a hand-painted farm quilt of white sateen. Each block is painted to represent some farm implement or animal, and around the edge is painted a fence. Each picture is outlined with quilting.

A rainbow quilt contains rainbow colored strips running the full length of the quilt. At the top of the quilt in old English letters are the words "In God We Trust."

Numerous old quilts, of interest not only because of their age, but because of the old-fashioned materials and designs, will be entered.

All wishing to enter quilts are asked to leave them at the Presbyterian manse before Thursday morning. A fee of 25 cents will be charged for each quilt entered.

The show is open to the public and an admission fee of 10 cents will be charged. Proceeds are to be used for the Presbyterian building fund.

Interesting programs will be given Friday and Saturday evenings.

### Britain Will Want Silver Conference, Senator Predicts

SHANGHAI, June 9. (AP)—Senator Key Pittman of Nevada predicted today that Great Britain soon will remove its asserted opposition to a formal international silver conference as a result of the reaction in America to his statement here Monday.

"I predict that within a matter of days," the United States senator said, "the British government will inform the American government that Great Britain is willing to participate in a formal silver conference of interested governments."

## RUFFING HAS FIVE MINUTES OF FIREWORKS

Lefty Grove First Pitcher To Win Ten Games This Season.

BY GAYLE TALBOT JR.  
Associated Press Sports Writer  
Charles Rufus Ruffing of the Cleveland Indians in about five minutes yesterday to last him the rest of this life.

For eight innings they were docile. During that interval they obtained just one single. The Yanks, meantime, had grooved two of their three hits off Wes Ferrell to score a run in the fifth.

The Indians jumped the reservation in the ninth. Dick Porter started it with a triple down the left line, whereupon Johnny Hodapp delivered a single that brought him in. Earl Averill belted a homer into the right bleachers, and then Morgan drew a walk and loped in on Myatt's triple. That was how it ended, 4 to 1. In addition to marking Ferrell's ninth victory in 11 games, the triumph gave the tribe 12 out of its last 14 and five out of seven for its present eastern invasion.

Lefty Grove and Jimmy Fox divided honors as the Athletics mauled Detroit again, 7 to 3. Grove, allowing seven hits, became the first pitcher in either league to register 10 victories this year.

Fox led the champion's assault with a brace of homers and a single. Walt Stewart southpawed the Boston Red Sox into submission, 4 to 0, pulling the Browns out of the American league cellar.

An eight-run blitz in the second inning featured Washington's 18 to 4 win over the Chicago White Sox. For the eighth straight game the Senators used only one pitcher, Bob Burke limiting the Sox to eight hits.

The New York Giants won their second victory out of seven starts in the west when crafty Clarence Mitchell set the Cubs down, 6 to 1.

Rain prevented the only other tilt in the nation, that between the Phillies and Pirates at Pittsburgh.

FORT WORTH, June 9. (AP)—While his former Davis Cup buddies are on a high sea, bound for France and another try at the Davis Cup, Wilmer Allison, Texas' biggest gift to the tennis world, opened the annual Texas District Tennis association tournament here yesterday with an easy victory.

Allison's match was ranked as the feature of the opening day of the state championship grind in which 76 players announced ready to serve yesterday morning in the men's singles. So large was the field that all first round matches were not completed.

Tournament officials seeded 16 players with Allison first and Jimmy Quick of Dallas second. All these seeded players who played yesterday, proved themselves worthy of the honor by triumphing.

By The Associated Press  
Monday was indeed blue for Dallas and Fort Worth, who are not having very much luck in their ambitions to click as 1931 Texas league pennant winners.

The Cats, who slid from first place to third, and are still sliding, were completely in the dark Monday night at Fort Worth, where they lost to Wichita Falls, 11 to 5.

The old story of a cast-off getting revenge was uncovered at Dallas Monday night when Ralph Erickson, southpaw who failed to make good with Dallas, made Dallas be good by limiting the Steers to five hits as Shreveport won 4 to 2.

Just before the start of the first game, Jerome "Diszy" Dean announced he had postponed his wedding scheduled Wednesday night in the Houston party-so in order to put on some sort of ceremony the Buffaloes scored six runs in the first three innings to take a lead the Exporters could not overtake.

THE BERRY GARDEN

BEGIN HERE TODAY Beryl Borden, secretly in love with Tommy Wilson, succeeds in delaying his elopement with her half-sister, Irene Everett, but fails to convince him that it is his duty to his family to finish college.

Later Irene postpones the marriage date believing she is to become a radio singer. Securing an audition, she permits Beryl to go to the studio with her. While waiting in an anti-room Beryl sits down at a piano and croons melodiously. One of the directors hears her and gives her a private test. He promises a contract later. Irene fails and is furious when she hears of Beryl's success.

They plan another elopement but Tommy's aunt dies and again the wedding is postponed. Irene is disappointed because Tommy is not the sole heir, but Mr. Hoffman wants a housekeeper and offers inducements to Irene to marry and take charge of the home.

Now GO ON WITH THE STORY Aunt Emma's sister, Ernestine, went home and the Hoffman marriage was left without a housekeeper. Mr. Hoffman did not wish to engage a hired one with Irene so soon to be installed in the place. No use spoiling the girl, he reasoned.

The part-time maid came in as usual, but things went a bit to pot. Mrs. Everett came over with Irene a time or two and restored the house temporarily to a semblance of order but to this Irene objected. Her mother agreed with her when she pointed out the folly of letting Mr. Hoffman get any wrong ideas about her doing housework.

Beryl stayed away. She couldn't endure being around Tommy and Irene when they were together. The way Tommy's eyes twinkled and Irene in a sort of worshipful daze fairly tortured Beryl. She could understand that there was no reason why Tommy should love her but how on earth had it happened to her for Irene?

She had acted differently, however, if she'd been still in the cashier's cage of her stepfather's store. Then she might have seen for herself how Tommy was faring at home in regard to meals. Tonight she could be different. He was doing the marketing, and buying canned goods by the armful. That would have been all right but he never bought fresh vegetables and fruit to go with the tinned products.

All that Beryl knew of his hunger for home cooking such as his aunt had provided was thinking about his appetite when he came to eat at the Everett table. "Whoever said," she thought, "that people in love have no appetite didn't know so much."

Ordinarily when Tommy came to the house and Beryl was at home she found an excuse for departing as soon as she could. One night when she was particularly miserable over Tommy's blindness she went to her room. He was unhappy for a particular reason. Beryl had granted a date, and it was an unusual date. It was with a young man who might, very possibly, want to make love to her. She'd had dates before but they were friendship dates.

Usually with a boy she'd known all her life and who couldn't be suspected of being in love with her. When she did think there might be something of the kind in a boy's mind Beryl refused to go out with him alone. She had a feeling that even if she were ridiculous in being true to Tommy she was better for being true to herself.

Tonight as she changed into one of her lovely new party dresses—dresses that wrung Irene's soul with envy—she actually suffered the remorse of unfaithfulness. Her love for Tommy was a very real thing. She belonged to him wholly and unalterably. What did it matter if he knew nothing about her? It was her love and it was for her to tend or neglect it. Now she had chosen deliberately to neglect this love.

It was the fair thing to do, she had reasoned, when she made the date. Fair to herself. Certainly.

Process Server Sees Lindbergh, Gets Jaw Struck

NEW YORK, June 9. (AP)—A process server had a tender jaw today because he was punched after serving a summons in a civil suit against Col. Charles A. Lindbergh.

The colonel and Mrs. Lindbergh were in the cockpit of their Lockheed plane at Natick Beach, Queens, ready to take off on a test flight with their newly attached pontoons yesterday afternoon when a process server climbed on the craft and handed a paper to the colonel.

The flier grinned, took it, and put it in his pocket. The process server was happy for a moment only. "It's a cinch to ease Lindbergh," he said. "He's easier than the little fellows."

A mechanic with a big grimy fist swung and toppled the process server with one blow. From friends of the Lindberghs, it was learned that the suit was initiated by a clipping bureau. The same source said that Lindbergh had deposited a check with a bureau for clippings on his Atlantic flight and he delivered to him a new perfume that Mr. Gaylord, senior, had sent her. He had said he might name it for her.

Prentiss was talking with Irene when Beryl joined them. Tommy was looking on with a scowl. Beryl went up to Prentiss and put out her hands in greeting. Laughingly she said, "You're a little late. Don't you know you mustn't keep an important person waiting?"

"Be yourself, young lady," he retorted. "You just help me out." Beryl expected that he would pay her the usual compliment, "And are you pretty?" She wished he would, for Tommy's benefit. But he appeared to have nothing of the kind in mind. Although he grinned at her she saw that he was looking over her shoulder at Irene. In his eyes was a light that she had never seen kindled there before.

Chemistry Continues Leadership in Providing Wonders of Achievement

By ARTHUR D. LITTLE (Copyright, 1931, by The Associated Press) BOSTON, June 9. (AP)—That chemistry is still living up to its reputation as a creative science is shown by the many interesting recent developments for which the workers in chemical laboratories are largely responsible.

New problems and new opportunities for the architect are presented by the new materials of construction which chemistry has recently made available. Among these are the stainless steels employed to such striking effect on the upper reaches of the Chrysler building, structural I-beams of aluminum which permit great saving in weight, new types of concrete in which the weight has been reduced as much as 40 per cent, quick setting cements, a new gypsum product of approximately twice the compressive and tensile strength of high grade molding plaster and much harder, new varieties of paints and varnishes made from synthetic resins having glyceric acid bases and requiring in their application neither linseed oil nor turpentine, and what is perhaps still more significant, structural units of glass for partitions and outside walls.

We are at the beginning of a phenomenal development in the already important industries employing plastics and many new types of the synthetic resins which form the base of these molding compounds are already available. They are soon to be familiar to us in furniture, wall panels, and even in molded products in addition to a multitude of smaller products from ash trays to tableware, and in every variety of brilliant color.

Chemists have also been doing surprising things with both petroleum and rubber. They have developed accelerators which so speed up the process as to triple the output of a tire plant; they have produced antioxidants which greatly prolong the life of rubber; they have devised means for the electro-deposition of rubber by which articles may be rubber plated. Of greater importance perhaps is a process by which a rubber lining for tank cars and chemical equipment is firmly and permanently joined to the steel or other metal.

In case of petroleum we find the chemist now producing a whole series of alcohols from the waste gases of the oil refineries, and it seems altogether probable that these chemical methods may ultimately displace those depending upon fermentation. From these synthetic alcohols many other compounds and special solvents are readily made.

### FLIGHTS—

(Continued from Page 1)

S. Stanford Jr. plans to fly with a pay load of mail and light express from New York to London by way of Newfoundland and Dublin.

Capt. Roy Ammel, Chicago broker, has announced plans to fly the Atlantic in a low-wing monoplane with a retractable landing gear. He made a non-stop flight from New York to Panama last year after abandoning a projected trip to Europe.

The Graf Zeppelin is to be flown to Spitzbergen and then to the North Pole for a tryout with Nautilus, submarine in charge of Sir Hubert Wilkins.

Two German airplane flights westerly over the Atlantic are scheduled, one by the DO-X, monster flying boat now en route, and the other late in the summer by Capt. Wolfgang von Gronau with the same men who flew across with him a year ago.

**To Study Weather**

Von Gronau's flight, to start from Iceland, will be made to study weather conditions and determine the feasibility of an air line from Europe to America by way of Greenland.

Two fliers planned to fly the Pacific. Thomas Ash Jr., an American, took over the City of Tacoma used by Harold Bromley for a round-trip journey from Japan to the United States, but abandoned the project.

Seiji Yoshihara, young Japanese, plans to carry on in a flight by easy stages from Tokyo with the ultimate goal at Washington, D. C.

The Lindberghs have plans near completion for a Pacific crossing.

the light on the wide distance between the price of a barrel of crude oil and that of a gallon of gasoline. Which has contributed its part toward forcing a reduction in the price of gasoline in most parts of this state; why I was not held responsible for the low price of cotton, wheat, cucumbers, cow peas, peaches, the election of Herbert Hoover—who opposes a tariff on foreign oil; the drought in Arkansas last year and the break-down of prohibition.

**Neglected to State**

"Messrs. Rceser and Landreth neglected to tell those attending the Dallas meeting that they accompanied me to the Travis county court house in Austin on April 23, stood up before Judge J. D. Moore and entered into a solemn agreement, whereby we all agreed that hostilities in the prostration war, which I had carried to the courts on behalf of the East Texas Lease, Royalty and Producers' association, could cease for a period of 60 days. During that time all participants were to seek to bring about a stabilization program and I in turn

**STATE OF TEXAS, COUNTY OF GRAY, NOTICE**

WHEREAS, the undersigned, has for the past 220 days been in possession of certain personal property belonging to S. M. Gustin, whose residence is unknown, and described as follows:

One 1929 Nash Standard Coupe, Engine No. 125745, Serial No. 60693, License No. 952-375, and the undersigned holds a warehouseman's lien on said property to secure his charges in the amount of \$73.23 due for more than 220 days past as per contract between said unknown parties; which is reasonable and customary compensation for storage on such car.

WHEREAS, the said S. M. Gustin has been duly notified by publication as requires by law to come forward and pay such charge and have failed and refused to do so;

NOW, THEREFORE, notice is hereby given that on the 1st day of July, 1931, the same being the first Wednesday in July, between the hours of ten o'clock a. m. and four o'clock p. m. at Pampa, Texas, at Hampton & Campbell Storage Garage in the town of Pampa, Texas, the place, owing to the nature of such property is the most convenient to exhibit same to the purchasers at said sale, I will sell said property at public sale, following the manner of sale under execution and apply the proceeds to the payment of such storage, any balance to be turned over to the persons entitled to same.

WITNESS MY HAND this 9th day of June, A. D. 1931.

was to refrain from pressing the injunction suit against the railroad commission. It was general understood that neither side would do anything to strengthen their respective positions in the court house prior to July 1.

"These gentlemen failed to tell the Dallas mass meeting and the people of Texas through the newspapers that within 72 hours after the agreement became effective, they were running around down in Austin, moulding legislative 'minnie balls' for their prostration guns, while I was down in east Texas living up to my part of the agreement by writing editorials urging every one to line up and give prostration a fair trial during the truce period. They didn't tell those present that every barrel of oil in which I have an interest has been prorated since the agreement was made."

### Long Hours of Questioning Fail To Reveal Thieves

Questioning of strangers, idle men, and job-hunters in the city was continued by officers of the sheriff's department and city police until 1 o'clock this morning. The city was literally raked for suspects that might have been connected with four burglaries committed in Pampa during the weekend.

Scores of persons were rounded up and taken to the city hall and courthouse for questioning. The investigations yielded no arrests. Places broken into Sunday night were the Casino club, Levine's store, and Panza Drug No. 2. The knob was knocked off the safe at the Nels Walberg farm equipment company, Saturday night.

Sheriff Lon Blanset said this morning that inquiries he had made revealed that a "swarm of loafers and bums" poured into the city Saturday night and left Sunday night. He declared that a closer check will be kept upon all visitors to the city henceforth.

### Scout Training Course Begins

Boy Scouts of Pampa will attend an educational training course beginning this evening at 8 o'clock in the basement of the First Methodist church.

The course is under the direction of County Supt. John B. Hessey. Those assisting are August Gordon, J. D. Sackett, John I. Bradley, Jake Erwin, Rufe Thompson, and Carl Boston. Marvin J. Paul, Boy Scout executive of Amarillo, also will be present and address the boys this evening.

The next lesson of the course will be taught next Tuesday evening at the same time and place, while the third lesson will take the form of an overnight out-of-door trip on the following Saturday night.

Certificates will be given the boys who take the course.

The Boy Scouts board of review will meet June 15 in the basement of the Methodist church with the Rev. A. A. Hyde in charge. The court of honor will be held on June 19 with J. D. Sackett and John I. Bradley in charge of the program. This will be the largest court of honor ever held in the Panhandle.

**COTTON STEADY**

NEW ORLEANS, June 9. (AP)—Although Liverpool came in considerably lower than due, cotton here had a steady opening today, first trades showing no change to four points down. Prices eased off slightly in the early trading, October dropping to 8.74 and December to 8.97, or 2 to 4 points under yesterday's close. Later in the first hour, considerable trade buying developed as well as short covering and prices rallied 12 points from the early lows, October advancing to 8.86 and December to 9.09.

At the end of the first hour the market was steady and near the highs.

Rev. Joseph Wonderly is visiting in Amarillo. He will return to Pampa the latter part of the week.

J. C. Crawford Jr. is somewhat improved, according to information received today from Houston where he is a patient in a hospital. His father, J. T. Crawford of Pampa is visiting him.

Dr. A. Cole and family, who have been visiting in northern Arkansas is due to return Thursday.

### VERY NERVOUS AND DEPRESSED

"A few years ago, I was in a very nervous condition," writes Mrs. P. L. Reynolds, 327 W. Main St., Spartanburg, S. C. "I was terribly depressed. I felt every day just like something awful was going to happen. I did not sleep well at night. I had awful crying spells and did not know what in the world I was crying about. My mother told me to try Cardui. After my first bottle, I was better. I took several bottles and it did me a world of good. I quit having the nervous, blue feeling, and was soon all right. I have taken it since, just as a tonic."
