40 Tickets Sold For Demo Dinner

A total of 40 tickets were sold today at a downtown office yesterday for the district-wide Democratic banquet to be held at 7:30 o'clock Tuesday night in Pampa. The high school gymnasium will probably be the banquet location, if a sufficient number of reservations are made.

H. C. Coffey, chairman of the Gray County Democratic Executive committee, said that he had sold 40 tickets himself yesterday and that other members of the committee were also working on ticket sales, but that no report had been received as to their progress.

Reservations from 14 of the 28 Panhandle counties already total 75 and twice that number of out-of-town reservations are being planned. Highest ranking Democratic party officials in the state, headed by E. B. Germany of Dallas, state Democratic chairman, and Mrs. Clara B. Driscoll of Corpus Christi, Texas national committeewoman, are to be honored at the affair.

4 Dances May Be Held Here On Birthday

Southern Club And Red School To Be Site Of 2 Dances

Pampa may celebrate the president's birthday with four dances, instead of the usual three, on the night of January 30, according to plans made at a meeting of the Gray county committee held at 7:30 o'clock last night in the BCD committee room at the city hall.

R. R. Watson, chairman, said plans were not yet complete so that names of orchestras could be announced. The Southern club has been obtained for one dance, and the Red school building for another.

There will be no advance sale of tickets, persons attending the dances are to secure their tickets at the places where the dances will be held.

Cost of tickets, orchestras, time, and other arrangements for the four dances are to be determined at another committee meeting scheduled for 7:30 o'clock next Tuesday night in the BCD committee room.

A short subject motion picture, in which appears Tyrone Power, in the interest of the president's campaign against infantile paralysis, has been ordered and is to be shown at the LaNora theater, starting January 22, Mr. Watson said.

Mrs. H. H. Heibel is chairman of the committee planning for the old timers dance. Due to cold weather, a meeting of the committee could not be held last night as had been planned. A meeting will be held tonight or tomorrow night, the chairman said.

Stars of radio, stage and screen have been lined up by Eddie Cantor, chairman of the "March of Dimes of the Air," to appear with him on a nation-wide, three-network broadcast for a send-off to the 1940 March of Dimes to fight infantile paralysis. The program will be broadcast tomorrow from 10 to 11 p. m. (CST) over all networks (NBC-CBS-MBS).

Names that scale high in the radio realm will fill the full hour of combined network time with such drawing cards as Jack Benny, who is assistant chairman of the "March of Dimes of the Air," with Mary Livingstone and Rochester; Gene Boswell, who has first-hand knowledge of the fight against infantile paralysis; Bing Crosby, Rudy Vallee, Burns and Allen, Bob Hope, Fibber McGee and Molly, Frank Parker, Meredith Willson, Kenny Baker and Fanny Brice, plus Sidney H. Fields as Eddie Cantor's famous Mr. Guffy.

Soviet Apologizes To Norway, Sweden

STOCKHOLM, Jan. 19 (AP)—Soviet apologizes for territorial violations of Sweden and Norway by Russian warplanes gave those countries today that "accidents might happen" in the plant.

The apologists from Moscow, pleading accidental trespassing in answer to formal Swedish and Norwegian protests, came while divided counsel left in and was Scandinavian would respond to proposals for greater aid to Finland and military cooperation by the northern nations.

Although some Swedish opinion leaned toward increased support for Finland and was attentive to a socialist-proposed northern "defense league," reaction to any deviation from strict neutrality was cold in other quarters here and in Norway. Denmark held aloof from the issue, both officially and editorially, although there were indications of her concern.

The Soviet note to Sweden was in response to representations against the bombing of Kallak island, on the far side of the Gulf of Bothnia from Finland, last Sunday.

The Russians made no mention of bombs having been dropped and acknowledged that only two craft, lost in a snowstorm, flew over Kallak.

Neither J. H. Endicott, the bus driver, nor the one passenger was injured. The car, driven by Dr. Tanner, was so badly wrecked it took more than an hour to extricate the two bodies.

America's Card Authority

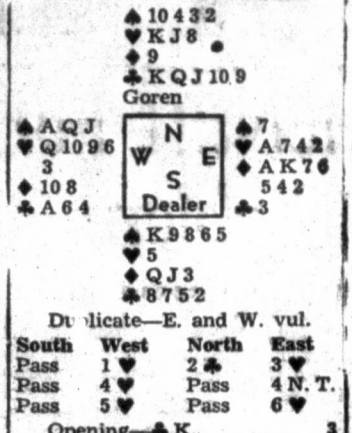

Charles H. Goren of Philadelphia has established himself as one of the outstanding players of the country. His name is engraved on nearly 100 different trophies in the eastern part of the United States. This year he is again one of the national team-of-four champions. For the third consecutive year, he and his teammates have won this title.

Today's hand is one that helped him to win the 1939 championship. He was able to defeat a slam contract with his play, while his teammates made the contract at the other table.

The opening lead was won by the club ace. West led the heart queen, Goren (North) covered and the ace won. Another heart was led and Goren was in with the jack.

It was clear to him that if dummy's diamonds were solid, the slam could not be beaten. The only hope was that West would have to ruff a diamond to establish the suit. In this case, declarer would have to find a side re-entry to dummy, which could only be the fourth trump.

Goren, therefore, led the queen of clubs, forcing dummy to ruff and the killing vital re-entry. Declarer made a brave effort, by cashing all his trumps and then trying to break the diamonds, but the unequal split beat him.

Education Group And Junior High P-T-A Unit Meet

Junior High school Parent Education group of the Parent-Teacher association met Thursday afternoon at school with Mrs. Leo Southern introducing the book, "Normal Youth and Everyday Problems" by Douglas A. Thom.

After Mrs. Southern gave a short sketch of the author's life, she introduced the book, by saying that it deals with the adolescent period.

"This is the period of years between childhood and adulthood, generally considered to include the years from 12 to 20. There was a time when mental ailments were treated with superstitious home remedies but today we have come to know that there is an underlying cause of these problems and have begun to try to understand and treat them.

"During this period the parents should be very patient, as guiding and directing the adolescent is not a science."

Mrs. Southern stated that this book would take up many of the problems of the adolescent.

The group will meet next Thursday at 1:30 o'clock in the high school auditorium.

Following the parent education group meeting yesterday, a monthly meeting of the P-T-A unit was conducted with Mrs. H. H. Boynton leading the business session and introducing Mrs. Horace McBee, leader of the group.

In presenting the devotional on "The Underlying Philosophy of Life," the Rev. H. H. Bratcher, pastor of McCullough-Harrath Methodist church, said that the American people are prone to judge or say that success is made in terms of dollars and cents. That is not all there is to success, he pointed out. Man does not live by bread alone and life does not consist of just the things one possesses, he concluded.

Harry Kelley, coordinator of diversified occupations in the high school, explained the work of his program.

The student enrolled with Mr. Kelley is required to have 2,000 clock hours in order to receive credit, and this requires two years to complete the course. After finishing the study, the student is able to hold a job.

Nineteen students are enrolled at present in this program which only covers occupations that colleges do not include in their curriculum. It is for the student who does not plan to go to college and they must be 16 years of age and spend two years in the program. Part of this time is under Mr. Kelley's instruction and the other part in employment of the occupation which the student is studying, he stated.

Following this discussion, Superintendent L. L. Spone spoke on "Preparation to Earn and a Job."

"Today the colleges dictate what we teach in our schools. We have only 40 per cent of the school to college; the student who does not go to college then is left out. We need to teach something that concerns all students and the high school should be able to take a student who is able to take a job immediately after finishing school."

He also stated that the attitude of students should be changed toward manual labor. He said the challenge of the school is to see that every child who goes through school should be able to find employment.

Writer Cites Importance Of Birthday Party

By VICKI BAUM

Widely Known Author and Playwright

PACIFIC PALISADES, Calif., Jan. 19.—Not too many years ago, when I first came to the United States, I was hardly conscious of the existence of infantile paralysis. Tyne, I had seen those upon whom the disease had left its mark—apparently healthy men and women in wheelchairs, children with metal braces supporting shrunkens and twisted limbs—but I had thought of them as victims of unfortunate accidents. Then, through the information spread by the president's birthday parties, there came an awakening to the dangers of the dread and mysterious disease, of the scourge which periodically reached out for young and old, rich and poor, strong and weak, my neighbor's children and my own.

When a local epidemic of infantile paralysis occurred, I, like other mothers, made an effort to protect my children. And in that effort I learned how much good had already been done—the quicker recognition of the disease, the treatments by exercise and massage, the experiments for the purpose of prevention—but I also learned how pitifully weak we still were; how much remained to be tried out, to be discovered, to be tried out.

This year, more than ever, I count myself lucky and privileged to help in a cause like the fight on infantile paralysis, conducted through the aid and example of the president. In other parts of the world people are taxed to the breaking point, are forced to give up everything; yet they cannot determine to what uses their wealth shall be put. It is expended in the creation of more perfect, more splendid machines of destruction, in killing more people more efficiently.

But we, in this country, have the incredible fortune to be able to send our dime, marching to the White House, and to say, "These dimes shall not build a torpedo, but an iron lung; these dimes shall not pay a soldier, but a nurse; these dimes shall not construct bombs, but a hospital; these dimes shall not kill a man, but let a child live!" And when we have helped to the best of our ability, we can be content that we have also struck a blow for our ideals of freedom and humanity; by having made possible health and happiness for a human being, we have won the only victory that is worthwhile and lasting.

Sharing The Comforts Of Life --

By R. C. Hoiles
MEASURING WHAT EACH MAN PRODUCES

There are two ways of measuring what each man produces. The first is by some arbitrary individual, or group of individuals, deciding what each man should receive. This is the way it is done in Russia, Germany and Italy. We are rapidly approaching this method.

Power Settlement Would Meet Popular Approval

It is probable that negotiations soon will be resumed between the City and the Southwestern Public Service Company concerning terms for extension of the company's existing franchise.

TAXES AND THE CONSUMER

For a quarter of a century, in the United States and, in fact, all over the world, the doctrine has been spread that there is some magical way of taxing which does not fall on the consumer.

From the standpoint of good business, it is to be hoped that this is the case and that these negotiations will bear fruit in a mutually satisfactory settlement of the utility issue.

Behind The News

WASHINGTON, Jan. 19.—That the Labor Board's 13 women review attorneys are very good-looking may have pleased the Smith investigating committee, before which six of them testified, but it was only incidental to the committee's main point.

A FORGOTTEN AXIOM

For the last quarter of a century, both the Republicans and Democrats have forgotten a fundamental axiom, or principle, in Economics, written by Frederic Bastiat in his book, "Economic Sophisms," nearly a century ago. He said:

CLAIM INEXPERIENCED GIRLS DO VITAL WORK

Toland wants to show that the board entrusted a vital part of its work to young and inexperienced lawyers. A review attorney passes on the record of a case sent in by a trial examiner and, roughly speaking, tells the board what it's all about.

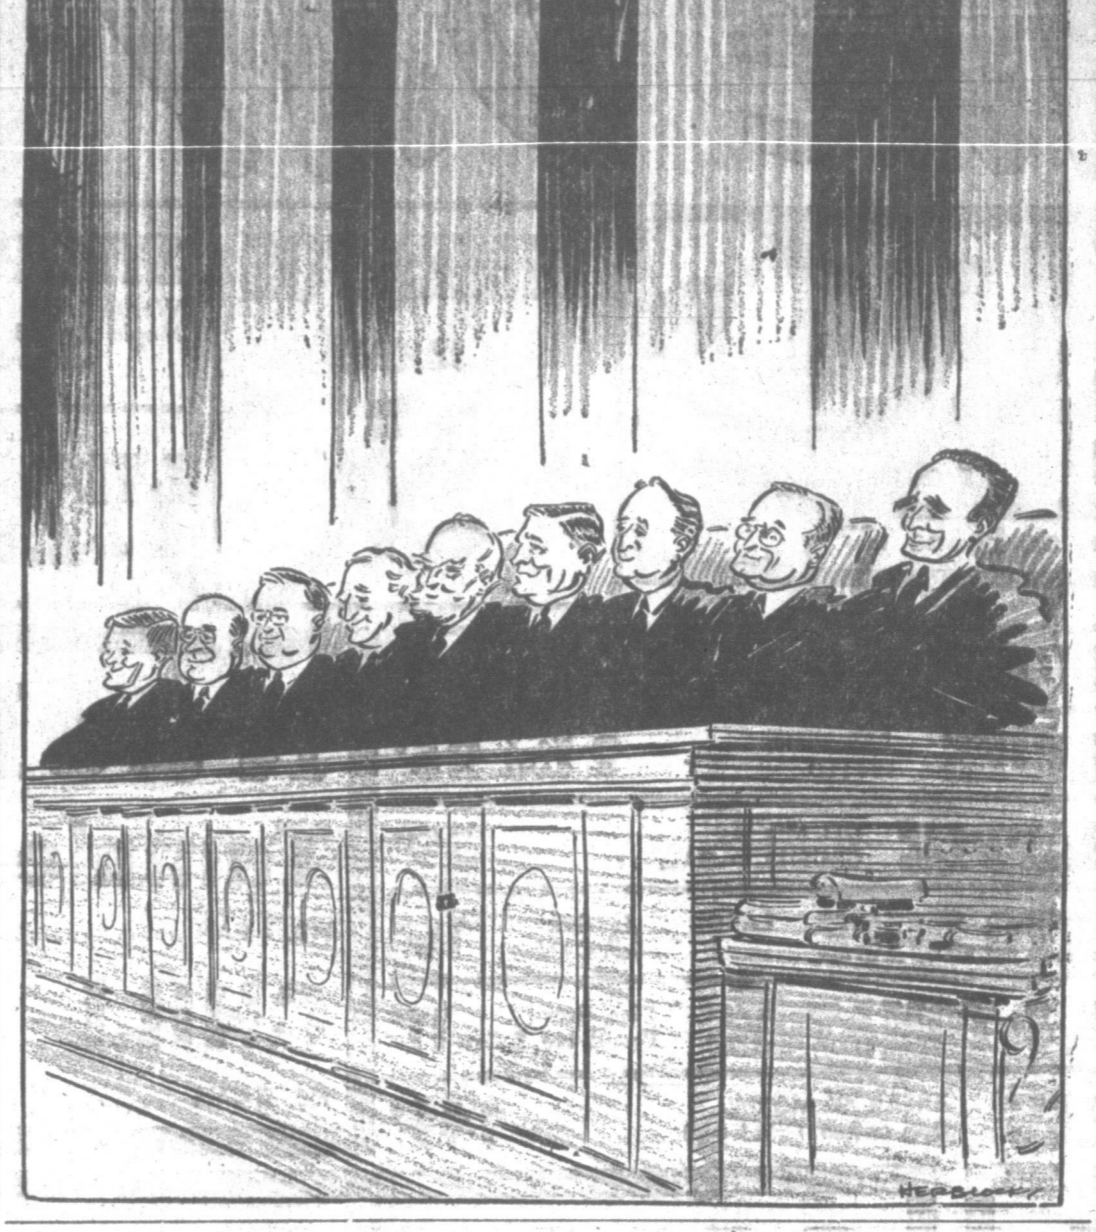

The Nation's Press

Secretary of Agriculture Henry A. Wallace has not pulled another rabbit out of his hat to present to the farmers of the United States. He has pulled out an old rabbit and called it by another name. The rabbit used to be known as "processing tax," but now it is the "certificate plan."

AND ONE OF THEM HAS CHANGED DIAPERS

Toland insists that this gives the review attorneys a awful lot of power—too much for youthful lawyers. Charles Fishy, the board's general counsel, denies this folly.

Pampa travelers returning from Corpus Christi report that quite a few former residents of this town are getting up in the world in that Gulf coast city. They say that R. B. Dr. Morris Fishbein

Once an infection of this type has occurred, there is little to be gained by moderate methods of treatment. It is absolutely necessary to remove the infection completely. This means not only evacuation of all pus from the soft tissues, but, in some instances, attention to the covering of the bone as well. Then it is necessary to apply wet dressings of hot antiseptic solutions for a long period to make certain that the infection is brought completely under control.

THE PROBLEMS OF AGRICULTURE By WALTER E. SPAHR Professor of Economics, New York University

The problems of agriculture, as we prefer to deal with them in this country, have two fundamental aspects: one is the economic, the other is the political. Doubtless every reasonable person would agree immediately that the agricultural problems should be analyzed to deal with the economic situation, and that the solution should be in accordance with the economic conditions of the situation, and not the political conditions.

Midwest Shivers From Icy Blasts

(By The Associated Press)

Unrelenting arctic blasts decreed another day of sub-zero chill for the midwest today and deep down the mercury below the freezing level virtually everywhere except the Gulf states.

The bitter cold which swept in from the Canadian northwest has advanced from the Rockies to the Appalachian region. Little relief was expected until next week.

The intense cold was blamed for many fires as householders added fuel to overtaxed stoves. Sales of winter clothing and fuel increased. Consumption of electricity and gas spurred.

Virtually all of Montana suffered from sub-zero cold. A freak gale ripped off roofs and uprooted trees in the White River valley in Washington.

February Crude Allowable Upped

WASHINGTON, Jan. 19 (AP)—The Bureau of Mines today estimated the February market demand for domestic crude oil at 102,340,000 barrels for the month, or 3,539,000 daily.

This, officials said, was 40,700 barrels or 1 per cent less than the estimated January demand and 7 per cent more than the actual demand of last February.

The bureau's estimate of the daily average crude oil demand by states included:

STATE Feb. Jan.
Texas 1,371,400 1,411,000
Oklahoma 1,220,000 1,230,000
Louisiana 252,800 254,200
Kansas 155,500 160,600
New Mexico 100,300 101,900

February demands for motor fuel, the bureau said, likely would total 37,300,000 barrels or 4 per cent more than the actual demand last February.

The bureau estimated motor fuel exports for February at 2,900,000 barrels compared with 3,800,000 in January.

It estimated crude oil exports at 5,000,000 barrels compared with 5,700,000 for January and with actual exports of 4,800,000 last February.

Officials estimated stocks of finished and unfinished gasoline as of November 30 at 76,780,000 barrels. With an increase of 6,800,000 barrels in finished stocks in February, they said stocks at the end of the month should approximate 83,600,000 barrels.

Officials reported an indicated gain in the demand for all oils of 6 per cent above the relatively high levels of last year.

Daily average crude oil production and runs to stills during the four weeks December 3 to 30 were 3,710,000 and 3,429,000 barrels, respectively. During this period total crude oil stocks increased 3,444,000 barrels, 47,000 of which were foreign, leaving a net increase in domestic stocks of 3,397,000 barrels or 121,000 barrels daily.

The bureau said the apparent demand for domestic crude during the period was 2,655,000 barrels daily.

Law Would Hasten Notary Appointments

Texas citizens who wish appointments as notaries public may be permitted to make application directly to the secretary of state, instead of waiting until the legislature is in session, if a new law passed by the 46th legislature last year is approved by the voters as an amendment to the constitution next November.

In the past persons wishing to become notaries had to file their names with the secretary of the state during sessions of the legislature.

This has proven an inconvenience in cases where towns have "boom" and there has been a sudden need of papers to be notarized, when there were only one or two notaries in the town.

To become a notary a person must be 21 or more years old and a resident of the county for which application is made. Appointments terminate on June 1 of odd-numbered years.

If the amendment does not carry, the act providing that notaries public may be appointed at any time by the secretary of state will be declared null and void.

Pampa Lions Plan Inter-City Meetings

Pampa Lions will present programs for the Amarillo and Borger clubs as meetings to be held in those cities on February 13 and February 21 respectively. It was announced at the regular weekly luncheon of the Pampa Lions club at noon Thursday at the First Methodist church.

Ralph Dunbar was appointed chairman of a committee to arrange the programs to be given by the local club.

In charge of the program here Thursday was Duane Hestberg, motion picture entitled "Security," an Institute of Life Insurance release, was shown by John H. Plant. Attendance at the luncheon was 63.

M'NUTT

McNutt cited a clause in the law saying the funds were appropriated for administering the act and "for no other purpose," but added "in view of the fact that this would entail no added expense, and that what you desire is a means of giving these county employes the status of state workers in respect to the law, I will discuss the problem with the social security board."

"If the governor would ever call a special session of the legislature we could get through whatever legislation is necessary," observed County Judge Dave Miller of Tarrant county.

Judge Hoffmeyer added: "But nothing could prevail upon Governor O'Daniel to call a special session."

County Judge C. C. Randle of Waxahachie said many WPA projects were being held up for lack of certified labor, in spite of the fact hundreds of persons in areas where the work was proposed were literally starving.

The WPA is spending \$7,000,000 monthly in Texas employing about 68,000 men, Randle said, and this sum could be increased to \$10,000,000 if certified labor were available.

AUSTIN, Jan. 19 (AP)—Governor W. Lee O'Daniel today distinguished again that he did not consider a special session of the legislature necessary to solve Texas' WPA intake problem.

Horses Eat Bark
A Finnish detachment which reported occupation of a Russian camp in the Salla area shortly after the Red army's departure said flesh had been sliced from dead horses, apparently for food, and that the bark was gnawed from trees, probably by horses seeking fodder.

To the south, the Finnish communiqué said, "several strong enemy patrols" were wiped out in the Aittajoki and Kuhmo areas.

It was reported officially that in raids on southern Finland yesterday Soviet planes dropped 300 bombs and that attempts were made to machine-gun persons in several communities.

Damage was reported slight, however, and no loss of life was recorded.

A central committee headed by Finland's former premier Almo Calander is administering relief funds raised by the United States committee of which former president Herbert Hoover is chairman.

Six hundred thousand dollars of these funds already have reached Finland and are being used for clothing and food for more than 600,000 refugees from the war zone.

Qualifications For Auditions Outlined

AUSTIN, Jan. 19 (AP)—Qualifications of applicants for Leopold Stokowski's All-America youth symphony auditions, being conducted by the National Youth Administration, were established for Texas by the State Selection committee at a meeting here today. J. C. Kellam, state NYA administrator, announced.

Taking its cue, Kellam said, from the famed Philadelphia conductor's own set of requirements, the committee specified that general qualifications require applicants to be between the ages of 18 and 25, to read music fluently, to possess good technique, musical feeling, and imagination.

No restrictions will be made as to sex, race, or color.

He added candidates will be asked to play one representative passage from a standard symphony repertoire and one solo work, both to be judged on the basis of musicianship, color and variety of tone, and interpretation.

"No quotas," the state administrator said, "have been set as to the number of musicians to be selected from each district to compete in the state auditions, but local selection committees have been asked to choose the most outstanding young musicians in their districts."

Britain Will Halt Imports Of Cotton

LONDON, Jan. 19 (AP)—The imports of surplus American cotton under the 1939 cotton-rubber barter deal will be halted for three months beginning in February, the supply ministry announced last night.

Without explaining the action, an authoritative source said it would be wrong to assume that Britain lacked shipping facilities or the rubber to deliver in exchange for the cotton. Some observers, however, considered it likely that ship space was more needed for other materials from the United States.

Credit Union Will Name New Officers

Directors of the Pampa Teachers Federal District Credit union will meet Monday morning to elect officers for 1940. The directors elected for the year are L. L. Bone, Joe Shelton, Doyle Osborne, Frank Monroe and Roy McMillen. Frank Monroe is retiring president.

Brown Stars In Goal Shooting -- Pampa Wins

Local Doctor Makes 9 Out Of 10 Shots

By THE ROVING REPORTER

Although the Harvesters almost skunked Plainview 28 to 17, and the little "glamor pants" reserves finally hit the dot 17 to 15 before Plainview's elongated B team, Dr. Malcolm Brown, local physician, stole the show at the basketball doubleheader last night by dropping the ball through the mesh in nine free throws out of ten.

The doc fairly bowled the crowd over. The fans couldn't believe their eyes, and when Dr. Brown who was raised at Dalhart, made the first shot he threw at the basket the cheering was tremendous; then after each shot the yelling and the clapping increased. The sharpshooting doc missed the ninth basket but he swished the net on the tenth try. Then just to show it was not a fluke he shot an eleventh try and made it.

The Harvesters and reserves stood around bug-eyed watching the doc who had not touched a basketball since 1935, and the Roving Reporter knows that to be a fact. The R. R. did not allow the doc or the other two contestants to throw any practice shots. Morris Enloe, formerly one of Coach Mitchell's Harvesters (about 1930), made two out of ten, and Clarence Kennedy who played for El Reno, Okla., in 1924, made one out of ten.

Doc Challenges Doc

Before the game Dr. W. L. Campbell challenged Dr. Brown to a free-throwing match, and this match will take place at the next game—to be announced later. At the same game, Charlie Duenkel, former Harvester of about 15 years ago, will make shots with Pedro Diaz of Miami, if Mr. Diaz will come over.

However, Dr. Brown will positively appear on the program again unless professional duties make it impossible. He promised to give his free-throw exhibition at the next game—after the R. R. had received requests, in person and by telephone, to put the doc back on the program. Is there any one who wants to bet he can't make 16 out of 19? Free-throwing contestants may practice henceforth.

Dr. Brown played basketball for Dalhart High school, the Panhandle Aggies, Baylor university and various amateur, pro and semi-pro basketball teams in Dallas.

Again last night, the reserves' game was the most interesting. The score was deadlocked time and again, and was tied up two minutes before the final whistle. The "glamor pants" grabbed a

Texas Aggies Will Play Only 8 Games In 1940

six-point lead in the first quarter and were leading 9 to 6 at the half. They led until midway of the fourth quarter.

It must have been the smiling, personable youngsters' night to lose, because they couldn't hit the basket, even in crisp shots when no Bulldog was within elbow-reach. They missed literally dozens of set-ups. It was the first defeat the reserves had suffered this year, and if you are a betting man you could say a little wagger like the "glamor pants" won't take a licking when they go to Plainview. They have been in a slight shooting slump, mainly because they may not have been hustling as much in practice as they might have, and this showed up last night like a sore thumb. At any rate, they have not kept pace with the Harvesters in improvement—but they made a resolution last night to get back on the right practice track.

Bulldogs Too Tall

It appeared that every member of the team was off-form, and all were suffering from miss-shoots. However, Tom Cox, Enloe, Frasher, Mounds and Durward Mitchell handled the ball as cleverly and flashily as usual. Plainview had the best defense the reserves have faced this season. The Bulldog reserves were tall and big. Knox, Plainview forward, and Enloe, reserve forward, led the scoring for their teams with 6 and 7 points respectively. Pampa was leading 14 to 10 at the beginning of the fourth quarter. Cletus Mitchell, forward, and Thomas Dewey, guard, replaced Cox and Mitchell for a couple of minutes midway in the last periods.

Dunaway's Shots Beauties

There was never any question about the second game—it was obvious that the Harvesters were the superior team soon after the opening whistle. Bearden and Dunaway led the scoring, with Pete dominating the point making in the first half and Red in the second half. Dunaway poured points through the mesh with difficult one-handed shots throughout the first half, and Bearden capitalized on set-ups, rebounds and trick under-the-basket passing in the last half.

The score was 9 to 2 at the first quarter, 17 to 9 at the half, 29 to 13 at the third. The game was fast and smooth. Only five fouls were assessed on both teams by Referee J. C. Knowles of Borger who called both games fairly, capably and with admirable presence of mind.

Some of the younger spectators

justly bood one of Mr. Knowles' decisions and this outburst had sportsmanship brought Supt. L. L. Sone to the floor with a plea for such bocking to cease. It did.

Seth Cox looked well at the forward position, and Terrell played better than he has this season at the center-guard berth. He is improving rapidly. Although Chief Carmichael, in declining other inter-sectional games, said "athletes attend Texas A. and M. primarily to get an education."

Turn To Page 10 For Additional Sports

He played his seventh game without making a field goal, he seemed to be getting "warmer" last night as the ball bounced in and out, and Chief also seemed to be getting the hang of playing guard.

California Considers Barring Armstrong

LOS ANGELES, Jan. 19 (AP)—The California Athletic Commission scheduled a hearing today to decide whether Henry Armstrong shall be barred from ring combat in the state for his announced refusal to go through with a bout with Ceterino Garcia Feb. 22.

Linked with Armstrong's ultimatum was a charge that the Hollywood stadium, operated by the Hollywood Post of the American Legion, discriminates against the use of Negro boxers in its arena.

The stadium club members in the Hollywood plant, and Armstrong recently declared in the east he wouldn't fulfill his part of the Garcia contract because of alleged discrimination against his race.

Bonura Will Talk Over His Troubles With Giants' Chief

NEW ORLEANS, Jan. 19 (AP)—Zeke Bonura, equally at home in a baseball park, a ballroom or a cabage patch, declared today he would get that salary business straightened out as soon as he talked to President Horace C. Stoneham of the New York Giants.

The big first baseman, a sensation a couple of weeks ago when he reigned over a Mardi Gras ball in a costume of rhinestones and satin, scoffed at the idea he could take his troubles to Baseball Commissioner K. M. Landis.

It had been suggested that as a result of Landis' recent ruling made free agents of 92 players owned by Detroit, players who thought the management "done 'em wrong" might seek the commissioner's help.

"That's all news to me," said Bonura as he checked off crates of apples being carried from the warehouse of J. Bonura and Son to awaiting truck, "you can't take anything like that to the judge. I wouldn't think of it."

"Listen, everything's going to be all right. They haven't talked contract to me yet. They tried to cut me bad—I won't say how much, but it was bad. But just as soon as Mr. Stoneham and I sit down and talk things over it will be all straightened out."

Little Leads Survivors Of Frisco Meet

By RUSS NEWLAND

SAN FRANCISCO, Jan. 19 (AP)—Man to man battles succeeded player vs. par tests today as 22 qualifiers of the \$5,000 San Francisco match play open golf tournament paired off in first round struggles over the Lake Merced course.

William Lawson Little, one time British and U. S. amateur champion, led survivors of the 36-hole trials.

Medalist and already winner of \$225, as the result of topping the field with a 70-60-139, Little drew Willie Coggin, husky San Francisco amateur as his first opponent.

Off his most recent showing, plus his victory in the Los Angeles open two weeks ago, the stocky young pro from Bretton Woods, N. H., was the post time favorite. Coggin qualified with a 147.

Five former winners in the ten year history of the San Francisco open clubbed qualifying positions on the par 72 course. They were Dick Metz of Oak Park, Ill., 1939 winner; Harold McSpaden of Winchester, Mass.; Jimmy Demaret of Houston, Tex., who won the Oakland open last week, Craig Wood of Mammoth, N. Y., and Little.

Wood qualified with a 142 and faced W. A. "Lefty" Slackhouse of Seguin, Tex., in the first round. Slackhouse got in with a 148.

Demaret, second low qualifier with 141, squared off with Charley Sheppard, Oakland, Calif., entry in with a 147.

Metz reached match play with a 144 and his opponent, John McFlauere of Los Angeles qualified at 149.

Other first round pairings and qualifying scores included:

Al Krueger (144) Beloit, Wis., vs. Charles Klein (148) Alice, Texas.

Hank Plans Just Three More Fights

By SID FEDER

NEW YORK, Jan. 19 (AP)—Despite the innumerable "cliches" and "bites" put on Henry Armstrong's bankroll by the less fortunate members of the fight fraternity, the steaks and French fries are "insured" for the belting buzz-saw and his family as long as he lives.

So, his financial house in order, Henry is looking ahead to just three more fights before he turns for keeps from the gentle art of scrambling ears to writing poetry.

His campaign is (1) to whip Pedro Montanes in defense of his welterweight championship in Madison Square garden next Wednesday night, (2) to follow that up with another successful defense of the 147-pound laurels against Al Davis in an outdoor show, and (3) then to abdicate his throne to try for a crack at the half of the middleweight title owned by Ceterino Garcia.

"It's not that I'm fed up with fighting," the little Negro said today as he went through a four-round boxing drill in preparation for Montanes. "But I get awful tired bouncing around the country to make matches. There's no time to just sit around and relax. I like to write and I like music, but right now there's no time for either."

Now that he has the "coconuts" in his annules and some paying property in Los Angeles, Henry the Hammer figures he can do the things he wants. He has spent his spare time in the last two and a half years writing his biography, "The Okey Road," but he's going to hold up its publication until he has hung up the gloves.

Although his annuities will return him about \$100 a week, even if he takes another nickel is paid toward them.

Every Member Of Basketball Team Named Johnson

PRINCETON, Ill., Jan. 19 (AP)—Coach Herbert Baker of the Bureau Township High school basketball team doesn't have any trouble picking his starting lineup.

He looks at the scorer and says: "Johnson will play."

There are six lads named Johnson on his squad and most of them are interrelated. The Johnson clan consists of Charles Johnson, Wayne Johnson, and two brother combinations, Junior and Gordon Johnson, and John B. and Gayle Johnson.

Canyon To Play Bucks Tonight

WHITE DEER, Jan. 18—The White Deer Bucks will play a return game with the Canyon Eagles here Friday night signed Armstrong and Garcia for the Wout, and planned to stage it at Wrigley Field.

Negro organizations for some time have protested because Negroes were not booked for engagements in the Hollywood plant, and Armstrong recently declared in the east he wouldn't fulfill his part of the Garcia contract because of alleged discrimination against his race.

Rice Leading Southwest Conference Cage Battle

(By The Associated Press)

Rice Institute's Owls perched at the top of the heap today (Friday) in the southwest conference basketball race.

The Houston team turned on the heat at College Station last night to defeat the Aggies 62 to 44 and unseat the Cadets who had occupied the top spot.

Rice boasts three wins against one loss—the opening game in which they bowled to the Texas Longhorns. Dopesters figured Rice, Texas and Arkansas would scrap it out for the top spot.

The defeat left the Aggies with a record of two wins and one loss. Still another big hump remained immediately in front of the Aggies. On Saturday night Southern Methodist, a fine team that has dropped close ones to Texas and Rice, invades College Station, Texas and Arkansas would scrap it out for the top spot.

One of the most important series of the week finds Arkansas at Waco Friday and Saturday nights for dates with Baylor. The Razorbacks, starting as they did last year, pounced on Texas last weekend, 54-44, after losing the opener to the Longhorns, 52-33.

The Pipers lost their first three games in '38 and then finished with a burst of ten straight victories. Baylor, to date, has disappointed. In its only two appearances, the Bears dropped games to Southern Methodist and the Aggies—both by three points.

Texas should improve its standing with ease in a Saturday night game at Austin against Texas Christian, still without a triumph.

National Semi-Pro Baseball Congress Active Over U. S.

WICHITA, KANS., Jan. 19 (AP)—The very foundation of baseball is the Sandlotter, who in recent years has been organized into a nationwide program through the national semi-pro baseball congress.

Although baseball is starting on its second century, the congress in comparison, is a youngster, being but five-years old. Yet its activities are spread in every state in the union, and in four foreign nations. More than 400,000 players, it is estimated, are actively engaged yearly in league and tournament play.

The year 1940 will mean that thousands of teams—composed of youngsters and veterans too old to play in organized baseball—will start mass play on May 5 in Wichita where commissioner George H. Sleser will fire the first ball from a cannon.

In this great mass play there will be school nines, farm community teams, industrial teams and teams from the great centers of population. Boys and men from every walk of life will mingle.

Teams then will start league competition under the direction of the national organization, which will award a trophy to the various winners. Players will be under one national contract system in that they will not be permitted to jump from one club to another without release.

Starting early in July there will be district tournaments and then 48 state tours to decide the clubs which will be represented in the finals at Wichita, Aug. 16-28. From the finals will come the United

States representative in the semi-pro world series in Puerto Rico. Semi-pro baseball, which was organized and about to be taken over in 1931 by old man depression and the mushroom growth of softball, is now thoroughly organized. Even the umpires are joined in a national association sponsored by the congress. There was an increase of 25 per cent in the number of teams competing last year. The increase is expected to be even larger this year.

Fencing is one of the most popular sports in northern England.

SERIAL STORY BLACKOUT BY RUTH AYERS

COPYRIGHT, 1939, NEA SERVICE, INC.

YESTERDAY: Released by A. R. P. ... Mary is hurried to Scotland Yard to tell her story of Carla's plot to sink an airplane carrier.

CHAPTER XXIV

WHEN Mary reached Soho Square she was startled to find a caller.

A shriveled little old man was waiting. Mary found something familiar about him although she could not place him at first.

"I've a note for you, Mrs. Lenox," he handed her a folded paper. She recognized Vincent's writing.

"Darling," she read, "I must see you at once. It's terribly important. Will you please come with the bearer?"

Mary dashed cold water on her face. With a quick make-up she was ready.

"I'm to go with you," she told the old man. He nodded.

When they reached the shop the shutters were still drawn. The proprietor drew a key from his pocket and let her in the front door.

"He's in the back room," he directed Mary. She walked through the shop, rich with the odor of a hundred mellow blends.

"I'm in one of my customary jams," he was deploring, but his face was ashen.

"I know about your jam, Vincent," she spoke softly. "I had to be the one to inform you, Carla Marchetta kidnaped me yesterday.

"You told them?" Vincent straightened. "Why, Mary, couldn't you see what it would

mean? What might happen to me?"

"I wasn't thinking of you," she said with fire. "I was thinking of saving the Regency and the lives of a thousand men!"

He stroked the scar on his temple with indecision. "But because of what I did you will get a break. You won't face a firing squad. But you will be interned for the duration of the war."

"I suppose this means you're through with me," His manner changed.

"No," she answered. "I'm going to stick by you. I feel it's the least I can do since I had to involve you."

He reached for her hand. "This may be our last time together. Let's make the best of it. If I had only an hour with you I could make everything clear. I want to tell you about Carla—about what a fool she made of me. Come," he was commanding. "I've a car at the side. Let's ride."

HIS plight was so desperate and he asked such a little thing. Mary had not the heart to refuse him. She allowed herself to be led out a side door and into a tiny two-seater Vincent had borrowed.

"You asked about Carla and I told you the truth," he deftly directed the little car through the throngs of London's work bound.

"But not all of it. I was ashamed to tell it all, I guess. The night of the air raid, I did receive a message from Carla, as you guessed. Inadvertently, I told her we were sailing on the Moravia at 3 o'clock. I had no idea this piece of information was vital to her. I know we'd been warned to secrecy but I regarded Carla as a friend. But what a friend she turned out to be!"

"You've never told me the true story of how you missed the Moravia's sailing. Was Carla in that, too?"

"Yes, of course." His voice was full of disillusion. "It was a stall. Something about a sick uncle in Bristol. I flew there. I was tricked into it, believing I'd have plenty of time to get back and sell with you. But something went wrong with the plane and I panicked in a field, miles from no-

where. I know now she had it all planned. She thought I'd be useful to her and she didn't want me to sail on the Moravia."

"You knew she sent an enamored Continental boy on the boat?" Mary's words rang bitterly.

"Yes, I learned it later. She tricked him into sailing to watch you."

"Me—why me?"

"She was afraid you knew something or suspected something through me. When she found you didn't die after all, she was frantic."

The car was well out of London. An industrial suburb gave way to open fields. In the flat country, the single hangar of a small airport loomed like a large barn.

Vincent drew the car to a spot before a sandy spread of ground.

"But Vincent?" Mary was aghast. "You're not quitting—you're not running away?"

"YOU said you were going to stick by me," he replied as he snapped back the emergency brake. "No matter what I've done, I love you and I've found a way out for both of us."

She was uncomprehending. "I've made my plans," he continued decisively. "I knew something was wrong when I saw those Scotland Yard men and I acted fast. If I stay here and am interned it will wreck my whole life. I won't go to prison. It would be hopeless for both of us."

She drew back in horror. "I've plans for us, a beautiful honeymoon. We'll see the sparkle of the sun on the blue Mediterranean. We'll swim in its waters and toast on its warm sands. At night the moon will come up out of Africa. You'll see the palms silhouetted against it, black and bending in the wind."

The picture he painted was bright indeed. "I'll get a job for a commercial company and maybe you can come on some of the flights," he went on. "You'll see the Arabs around their camp fires at night in the desert. They'll be making their coffee and the smell is heavenly. And if a war comes that promises adventure I'll enlist for the excitement."

A trim little ship was warming its motor. "No! No!" Mary tried to hang back. "You can't leave like this. You were responsible for the sinking of the Moravia... for the death of Anna Winters and all the rest. You can't run away. You can never be happy!"

For answer, he hurried her toward the waiting plane. (To Be Concluded)

St. Patrick's Day May Be April Third

LAWRENCE, Mass., Jan. 19 (AP)—The 17th of March—the birth date of St. Patrick and a great day for the Irish—may be observed on April 3, this year.

Joseph E. Kerrigan, national president of the ancient order of Hibernians, explained that March 17 falls on Palm Sunday, followed by holy week and other feast days which take precedence in the liturgy of the Catholic church. As a result, he said, the April date might be the first on which Ireland's Patron Saint could be honored properly.

Inquiries from all sections of the country have caused the national president to ask the advice of Monsignor Fulton J. Sheen of Catholic University, Washington, D. C., who is national chaplain of the order.

Forty-three secretaries of state of the United States have been lawyers.

Small Favors New 20-Acre Spacing Plan

AUSTIN, Jan. 19 (AP)—A proposal for 20-acre spacing of new oil wells in Texas brought prompt criticism from operators at a state-wide production hearing before the Railroad Commission here today.

Proposed by Commissioner Jerry Sadler who asserted the industry was at the cross roads and something had to be done to prevent unnecessary drilling, the regulation is favored by the entire commission.

Operators generally claimed 20-acre spacing was arbitrary because it would not take into consideration varying conditions in different fields, although some defended the suggestion on grounds it provided exceptions to prevent waste or consolidation.

Sadler pointed to 417 well completions in the first 12 days of 1940, a rate of 10,000 for the year, in stressing need for curtailing Texas production. The U. S. Bureau of Mines estimate for 1940 production for Texas oil was announced at 1,371,400 barrels daily, a decrease of 39,600 under the January estimate.

Average spacing in Texas is now 2 1/2 acres and decreasing demands will require cutting back allowances of most current producers.

Charles Roesser, independent operator from Fort Worth, branded 20-acre spacing as a "wholly impractical approach to the problem" because it did not consider sand depth and other factors in fields which will be opened in the future.

"The only way to restrict drilling is to put a top allowable on every pool and hold it there," he said.

R. E. Hardwick, Jack Blacklock and R. E. Schofield also criticized 20-acre spacing but W. Edward Lee of Longview sprung to its defense with a declaration that commission would increase or decrease the pattern for any field in order to satisfy the characteristics of the pool. The order would not be restrictive.

State Senator Clint Small of Amarillo said operators probably misunderstood the commission's intentions which he interpreted were in the interest of conservation.

"It is readily apparent it would not apply to fields already drilled," he said.

"It is just a guide in the development of fields and would apply to new areas only until sufficient wells were completed to determine the characteristics of the pool."

Garner Urged To Enter Name In Ohio Primary

WASHINGTON, Jan. 19 (AP)—Ohio supporters are urging Vice President Garner to put his name on the dotted line under a request for the Buckeye state's 52 delegates to the National Democratic convention.

Under Ohio law, those seeking election as delegates for a particular candidate must have his written consent. These statements of consent must be filed by March 15, well before the May primary.

Garner was reported today to be undecided as to whether he should enter his name in the Ohio contest, but one of his friends declared he was leaning toward the view that a fight for delegates might be the best political course.

The Ohio situation has raised a big question mark as to what course Senator Donahay (D-Ohio) may pursue. Donahay, a "favorite son" candidate, did little to clarify it in a statement yesterday that he had not decided whether he would file in the Democratic primary and that he was not a candidate for president or vice president.

Arthur L. Limbach, Ohio Democratic chairman, said earlier this week the state delegation would be pledged to Donahay but that the delegates would be quick to vote for President Roosevelt if a strong third-term movement developed.

Garner was said to be considering the question of whether he could not obtain at least part of the Ohio delegation if he entered his name

Taber Threatens To Block Defense Bill

WASHINGTON, Jan. 19 (AP)—Representative Taber (R-Ny) threatened today to block an administration proposal under which Congress could approve \$186,800,000 worth of national defense expenditures without increasing this year's deficit.

He served notice he intended to fight all plans to give government agencies the right to commit Congress to future expenditures through the use of contract authorizations.
