Rules Group Okays Curb On Bureaus

WASHINGTON, Feb. 7 (AP)—Legislation to subject the orders and regulations of all federal bureaus to the review of the courts—a kind of proposal which drew criticism from some administration senators a year ago—was cleared to the House today by the unanimous action of its rules committee.

At the same time the House received a report on the measure from the judiciary committee which said that there are approximately 130 different federal agencies in the government, and added:

"The law must provide that the governors shall be governed and the regulators shall be regulated. If our present form of government is to endure."

Similar legislation was passed by the Senate last session but was called back for reconstruction as the result of protests by some administration supporters.

During an explanation of the measure to the rules committee, Rep. Walter (D-Penn.), its author, declared that Chester T. Lane, counsel for the securities commission, had once said he was a better judge of what Congress intended than any member of the judiciary.

Rep. Smith (D-Va.), a member of the rules committee and chairman of a special House group which has been investigating the labor relations board, inquired whether the measure would subject administrative agencies to the rules of evidence which prevail in court trials.

Walter replied that it would not, this requirement having been omitted to avoid charges that the bill would place agencies in a "strait-jacket."

"Some folks are beginning to think they need a strait-jacket," Smith observed.

Walter said the question raised by the bill was simply whether we are going to provide our citizens with a day in court.

Smith remarked that he was "just afraid you haven't gone far enough."

Other developments of the day at the capitol included: Presentation to the Senate Labor committee of what John L. Lewis called "documentary proof" that AFL counsel had the aid of "reactionary and anti-labor" corporations in preparing proposed amendments to the Wagner Labor Relations act.

Election by the House of Rep. Rayburn of Texas, the Democratic leader, as speaker pro tempore during the illness of speaker Barkley, who is suffering from a slight attack of influenza.

She Didn't Get What He Promised To Give
PITTSBURGH, Feb. 7 (AP)—Mrs. Anna Ballant Winkler, 24, seeking a divorce 88 days after her wedding, told Judge M. A. Musmanno she got married at the end of a two-day courtship because her husband offered "the world with a fence around it." Judge Musmanno took her plea under advisement, suggesting that she "get a decree" before accepting such a promise again.

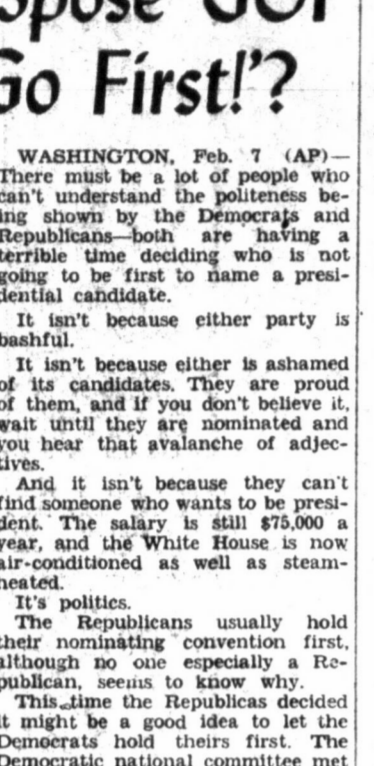

Woman Freezes To Death After Fall Of Eighty Feet
McKEESPORT, Pa., Feb. 7 (AP)—Mrs. Mary Pavlovic, 29-year-old mother, broke her back, right leg and right arm in an 80-foot plunge from a bridge when she fell to death as she lay helpless on the ice-covered Youngbush river. Detectives said she apparently jumped from the bridge seven hours before her body was found yesterday.

A Defy To Women
The French Senate membership 314 has just reaffirmed its declaration that the husband has the right to choose the family's home, to rule in family disputes, in short, that he is the head of the family. Well, 50 million Frenchmen can't be wrong, but evidently 314 French Senators can't be right. No doubt that's why French papers carry such ineffective classified want-ads.

ATHLETES TO AID RELIEF FUND

Paavo Nurmi, "the Flying Finn," smiles his approval as Taisto Maki, Finnish athlete hailed as 1939's best runner, gives a kiss to a comely member of New York's Finnish colony.

WASHINGTON, Feb. 7 (AP)—There must be a lot of people who can't understand the politeness being shown by the Democrats and Republicans—both are having a terrible time deciding who is not going to be first to name a presidential candidate.

It isn't because either party is bashful. It isn't because either is ashamed of its candidates. They are proud of them, and if you don't believe it wait until they are nominated and you hear that avalanche of adjectives.

And it isn't because they can't find someone who wants to be president. The Republicans still have 900 a year, and the White House is now air-conditioned as well as steam-heated.

It's politics. The Republicans usually hold their nominating convention first, although no one especially a Republican, seems to know why.

This time the Republicans decided it might be a good idea to let the Democrats hold theirs first. The Democratic national committee met here this week, decided to hold the convention in Chicago, but left the time up to Chairman James A. Farley.

Farley said he would not make up his mind until after the Republican national committee meets on Feb. 16. This means he will look over the calendar and set a later date than the opposition does.

However, if the Republicans wanted to continue the game, they could decide on a city Feb. 16 and then let Chairman John Hamilton decide on a date just to cross up the Democrats.

This you-go-first stuff could go on almost indefinitely were it not for the fact that when Democrats or Republicans convene they have to have somewhere to meet, eat and sleep.

Conventions last from six days to a month, and they attract thousands of people. Arrangements for handling the crowds cannot be made overnight.

Something's got to happen soon. After all—the election will be held in November.

Author Will Try To Get Son Of Common-Law Wife

NEW YORK, Feb. 7 (AP)—Newlywed Ludwig Lewison, an immigrant intellectual who wooed and won three women while writing 24 books, set out today to gain custody of his six-year-old son from his self-designated common-law wife.

The 56-year-old novelist, literary critic, scholar and translator, said he and his bride of a day, dark-eyed Edna Mahley, 31, a former newspaper reporter, would go to court, if necessary, to get back the boy.

"I am determined to get Jimmy back," said the gray-haired writer, who has set up housekeeping in his Riverside Drive apartment.

Lewison said plump Thelma Spear, concert singer, poetess and mother of his son, in "a friendly, mutual agreement" last summer had given him custody of the boy, but later got him back by "tricking" his housekeeper.

Miss Spear, holding blue-eyed Jimmy by the hand and trailed by her attorney, tried to stop the Lewison-Mahley wedding in Baltimore yesterday by rushing into the city, tearfully protesting: "This wedding must not take place. I have been his wife, his nurse, his soul."

The ceremony went on—three hours later—despite her hysterical objections, and her attorney, Bernard Sandler of New York, made a bigamy complaint against Lewison. Baltimore State's Attorney J. Bernard Wells said he would confer with judicial authorities to determine if a bigamy charge was justified.

Oil Companies Seek Dismissal Of Trust Charges
WASHINGTON, Feb. 7—Counsel for twelve major oil companies and five individuals asked the supreme court today to dismiss the justice department's anti-trust suit charging them with conspiracy to raise the price of gasoline sold in ten mid-western states.

William J. Donovan, who was assistant to the attorney general in charge of anti-trust prosecutions during the Coolidge administration, argued that the companies had engaged only "in a voluntary cooperative effort" to remove a "competitive evil—distress gasoline."

A final decision is expected in a few weeks.

War Flashes

LONDON, Feb. 7 (AP)—The steamer Munster, 4,304 tons, sank today following an explosion in which 20 were injured. More than 200 passengers and members of the crew reached land safely.

Most of the survivors from the Munster, a British vessel, were brought ashore by a tramp steamer.

One survivor said the explosion occurred this morning accompanied by "a blue flash and a terrific blast."

HELSINKI, Feb. 7 (AP)—Today's Finnish army communique stated that the Russians have lost 1,500 dead in the last few days in fighting at Kuhna in north Finland, where the invaders have been making repeated efforts to advance.

Northeast of Lake Ladoga, the Finns said, the defenders dispersed an entire Russian ski battalion, killing 300 men.

Sentence Affirmed In Kidnaping Case
AUSTIN, Feb. 7 (AP)—A five-year penitentiary sentence given Ernie Hardie for kidnaping a dormitory attendant at the state training school, Gatesville, was confirmed by the court of criminal appeals today.

The state charged that Hardie and a companion last April forced C. L. Kirby, the attendant, to accompany them when they fled the institution. The youths were met by the insurance company's driver, Kirby, tied and gagged, was released at Malakoff.

Mrs. Schmiedeke To Be Paid \$4,000 In Death Of Husband
DALLAS, Feb. 7 (AP)—The Travelers Insurance company today is to pay a \$4,000 accident policy to the widow of the late Herbert A. Schmiedeke, Dallas salesman found dead in a Pampa hotel room and whose body was disinterred for an autopsy.

The payment is to be made in Federal Judge W. H. Atwell's court where the widow, Mrs. Gertrude Wilhelmina Schmiedeke, brought suit some time ago and which a jury had given a verdict for the insurance company.

Payment hinged on cause of death, the coroner having attributed it to heart disease.

Unemployment Claim Of State Senator Denied
HARRISBURG, Pa., Feb. 7 (AP)—The claim for unemployment compensation was rejected today.

Eroe, a Lawrence county Democrat, contended he has been "totally unemployed" since he lost a job as a salesman last December. His \$2,500 salary as state senator, he said, was paid solely for attending legislative sessions.

Scouts To Elect Officials Tonight
Ham And Eggers Want To Learn--Horseplay Out

Johnny Campbell, Raymond Perkins Head Two Tickets

Boy Scouts of Gray county will become "men for a night" and conduct an election just like the boys. The boys will meet tonight at 7:30 o'clock in the city auditorium and will elect county and city officials who will serve and conduct business for one hour Saturday morning.

Only Boy Scouts who present registration cards will be admitted to the auditorium. All adults interested in the Boy Scout movement will be welcomed at the election.

Each registered Scout will be given a ballot bearing the names of candidates and he will vote for candidates of his choice. Election judges will canvass the returns and announce winners immediately following the election.

All Scouts attending the election tonight will be presented a ticket which will entitle him to attend a "Boy Scout Matinee" at the LaNora theater at 9:30 o'clock Saturday morning when Carl Benefield will give a special showing of "Charlie McCarthy Detective."

Cubs will secure tickets through cubmasters who are asked to call at the Boy Scout office in the city hall and secure tickets. Only registered Cubs will be admitted. Tickets on which boys will vote tonight follow:

Candidates for the various elective offices, "Be Prepared" ticket named first, follows:
For Mayor: Raymond Perkins, troop 14; Johnnie Campbell, troop 16; For Commissioner No. 1: Dale Harrell, troop 8; Harold Cobb, troop 4; For Commissioner No. 2: John Tom McCoy, troop 13; Bill White, troop 16; Sheriff: No candidate; John Paul McKinley, troop 16; District Judge: Reginald Bridges, troop 16.

City To Give Consideration To Tax Offer

Commission Meets And Acknowledges Company's Letter

Acknowledgement of the receipt of a letter from J. E. Cunningham, Amarillo, general manager of the Southwestern Public Service company, in which the utility concern offered to pay the city of Pampa a franchise had been voted to abolish the positions of former veteran employees who previously had been discharged.

The offer of the company proposes to change the wording of an existing franchise purchase clause and states that the company is willing to embody in a new franchise a tax of 2 per cent of the utility's gross annual revenue. This tax would produce additional taxes to the city amounting to \$4,137 a year, based on present revenues.

Assurance of a full and thorough consideration by the city commission of the utility concern's offer was given in a letter, entered upon the minutes, and signed by Mayor Ed S. Carr.

Asked if the commission had decided to accept or reject the offer, the mayor said no action had been taken to date. Questioned as to when such action might be expected, the mayor said that remained in the future. No conference has been scheduled with representatives of the utility concern to discuss the matter. Mayor Carr replied in answer to another inquiry.

A copy of the letter, sent in reply to the communication of Mr. Cunningham, dated February 7, 1940, addressed to The Southwestern Public Service company, Amarillo, Texas, attention, Mr. J. E. Cunningham, general manager, reads:

"Dear Sir:
This will acknowledge receipt of your letter of February 5, 1940 in which you set out an offer, in addition to offers heretofore made, as consideration to be paid by the Southwestern Public Service company to the City of Pampa for a franchise for the use of streets and public alleyways in Pampa, which you desire the city of Pampa to

'Complete' Aid For Finland Demanded

Board Of Control Abolishes 4 Offices

AUSTIN, Feb. 7 (AP)—Four positions in the Austin staff of the board of control apparently were permanently vacant today.

A majority of the board which acts as the government's purchasing agent and supervises the elementary institution system yesterday voted to abolish the positions of former veteran employees who previously had been discharged.

Chairman Harry Knox, Jr., and member Frank Davis, appointees of governor W. Lee O'Daniel, voted to eliminate the positions which paid \$11,800 a year while member Tom Deberry, named by former governor James V. Allred, voted against the action.

The abolished positions were those of director of elementary construction, formerly held by Clark Wright; public building inspector, held by A. G. Barry, and two consulting engineers, occupied by E. M. Williams and H. W. Olson.

Knox declared the positions were unnecessary since there was no elementary construction scheduled. Duties of the building inspector, he said would be transferred to the board's engineering division.

G. J. Carlisle was elected to succeed M. B. Lee who had been dismissed as chief of the elementary claims division.

'Kin-Mothers' Irks Mother-In-Law Head Of Amarillo Club

AMARILLO, Feb. 7 (AP)—Here, where the National Mother-in-Law club originated six years ago, the charter members were incensed today over the suggestion yesterday by the Mother-in-Law Association of New York that the term "kin-mother" be substituted for "mother-in-law."

The Mother-in-Law club was launched by Publisher Gene Howe in honor of his own mother-in-law, Mrs. Nellie Donald. Today Mrs. Donald, national honorary president, indignantly denied that the New York organization had any right to tamper with the name "mother-in-law."

"Amarillo is headquarters for the National Mother-in-Law club," she declared. "The name mother-in-law is good enough for us, and we resent any attempt to change it."

The Amarillo organization and many others associated with it observe March 5 as National Mother-in-Law Day. Celebrations are being planned in a dozen cities. Two years ago the Mother-in-Law club of Amarillo entertained Mrs. Franklin D. Roosevelt on March 5 with a celebration.

Paris, Feb. 7 (AP)—A popular movement in France to sweep the government into "complete" aid for Finland in her war against Russia assumed steam roller proportions today.

The authoritative newspaper Le Temps devoted both its editorials to aid for Finland, asserting this must be "effective, complete and total."

The newspaper said flatly it was no longer possible to separate the "Russian-Finnish war from the European war properly speaking."

The newspaper's demand for quick aid to the Finns came on the heels of insistence by Premier Daladier's own radical-socialist party that France go to the aid of the little Baltic state.

Britain Orders Evacuated Children To Go To School

LONDON, Feb. 7 (AP)—The British government served notice on 400,000 British school children today that their war-time holiday must end to save them from a "growing demoralization."

Lord de la Warr, president of the board of education, announced in the House of Lords that school attendance for children still living in the so-called danger areas, will be made compulsory.

The new policy was announced in reply to a question from the Archbishop of Canterbury.

Out of nearly 1,250,000 children now in the danger areas—those from which children were removed early in the war to places safer from air raids—about 400,000 are getting no schooling, de la Warr said.

De la Warr said that whatever the risks of air raids—and he said he thought they still were great—"we must see that every child goes to school somewhere."

Firing Squad Takes Life Of German Spy

NANCY, France, Feb. 7 (AP)—Dr. Karl Roos, 60-year-old Alsatian autonomy leader, convicted of espionage for Germany, was executed at dawn today by a firing squad. President Albert Lebrun had refused his plea for clemency.

On last Oct. 27, immediately after Roos was convicted, he was reported to have been shot, but actually the execution had been delayed pending action on his appeal.

A soldier named Lobstein was sentenced to death with Roos by a military tribunal. He, too, previously was reported executed, but it was disclosed today the sentence had been commuted by President Lebrun to life imprisonment at hard labor.

They was the first civil trial and execution of Irish Republican extremists since 1867.

They also were the first death sentences handed down since the I. R. A.—outlawed in Great Britain and Ireland—began its violent campaign a little more than a year ago

Money Lenders Law Upheld At Austin

AUSTIN, Feb. 7 (AP)—A Beaumont city ordinance licensing and regulating money lenders was in effect held valid today by the supreme court.

The tribunal refused to review a Beaumont civil appeals court ruling upholding the ordinance. The civil appeals court said the ordinance was made up entirely of provisions held valid by the supreme court in the case of Berry vs. Fort Worth, involving legality of a Fort Worth ordinance.

The state's highest tribunal dissolved its temporary injunction against enforcement of the Beaumont ordinance. The injunction had been issued to be in effect until the case was acted upon.

The Beaumont ordinance applies to persons and firms lending money without security. It provides that records of the lenders, showing interest charged, must be kept open to inspection by city officials.

Nation Waits With Anxiety For Violence

Young Men Go To Death At Same Moment

LIVERPOOL, England, Feb. 7 (AP)—Sixteen-year-old Brendan Behan of Dublin made a speech today as he was sentenced to three years imprisonment for possessing explosives.

"It is my proud privilege and honor to stand in this British court to testify to the unyielding determination of the Irish people to regain every inch of our national territory," he said.

DUBLIN, Feb. 7 (AP)—An atmosphere of tension and gloom was evident in the capital of Ireland today as news spread of the execution of two members of the outlawed Irish Republican army at Birmingham, England.

A procession with black flags marched in Dublin and sent a deputation to protest to the Irish government against the executions.

DUBLIN, Feb. 7 (AP)—The Mansion House committee, which worked vainly to gain reprieves for the two Irishmen executed at Birmingham, issued a call to Irishmen through the world today to strive until "English aggression" is ended.

A small protest procession was held but there were no disorders. "The committee declared "England has shown that she cares nothing for the good will of Ireland and is equally contemptuous of the opinion of all sections of the Irish people."

BIRMINGHAM, England, Feb. 7 (AP)—Twenty members of the outlawed Irish Republican army died on the gallows today in bleak, fog-shrouded Winton Green gaol, and Great Britain waited vigilantly for the reaction of the Irish Nationalists.

As a clock chimed nine, the hour of doom, those in a throng outside the prison bared their heads in the chill mist. There was no sign of a demonstration.

Silent as the crowd watched when, seven minutes later, a prison official tacked up notices of the execution on a small door in the execution of the prison gate. The notices disclosed the names of the men, James Richards, 29, and Peter Barnes, 22, went to death at the same moment.

The watchers then were permitted to form a line which filed slowly past the gate and its slips of paper. They read the formal statement that "the judgment of death has been executed. . . ."

Thousands of police reinforcements were held on overtime duty in London and other large cities on the possibility that the execution might signal a new outbreak of terrorism—if not civil conflict in Ireland.

Extra guards had patrolled the prison grounds and Birmingham police that nearby the formal statement that "the judgment of death has been executed. . . ."

SCOUTING BECKONS ALL BOYS

When the Boy Scouts of America celebrates its 30th birthday on Thursday, February 8, all of the 1,330,000 Scouts, Cubs, and Scout leaders will re-dedicate themselves to the service motive which has characterized the movement for three decades. Scouting offers adventure, fun and achievement—attractive to all boys—through the democratic life of the Scout troop and patrol, as essential ingredients in its character-influencing program for the boys of America. Drawing on the rich experience of the movement, local and national Scout leaders anticipate the opportunity to serve more boys annually.

Advancement and promotion of scouting rather than individual gain is the platform of the "Be Prepared Party" in the Boy Scout election to be held tonight at 7:30 o'clock in the city auditorium, according to Leo Southern Jr., general chairman of the party. "Be Prepared" is the Boy Scouts of America motto.

The "Be Prepared Party" consists of Troops 14, 20, 13, 21, 19 and 18. The boys are making a big fight to defeat the "Ham and Eggers" party and they point to the defeat that party suffered in the recent California election.

Boys elected to office, city and county, will serve for one hour Saturday morning.

The eight-point program of the "Be Prepared Party" is:

- 1—Every Scout an active Scout.
- 2—Every troop a camping troop.
- 3—Every Scout in Camp Ki-O-Wah this year.
- 4—Every troop on a budget plan.
- 5—Stamp your way to camp (using Scout stamp books).
- 6—Trail the Eagle.
- 7—A good turn every day.
- 8—Every Scout in church every Sunday.

Sabotage Theories In Explosion Dismissed

LOUVIERS, COLO., Feb. 7 (AP)—Investigators dismissed today all theories of sabotage in the explosion of 1600 pounds of dynamite that killed two women and injured two others at the Louviers plant of the E. I. Dupont de Nemours & Co., 20 miles south of Denver.

Arnold Berg, 31, and Ernest W. Smith, Jr., 32, were blown to pieces yesterday.

Fourth Lesson On Normal Youth To Be Given Thursday

Junior High Parents study group will meet Thursday at 1:30 o'clock in the cafeteria with Mrs. Carl Boston directing the fourth lesson on "Educational Maladjustments and Conduct Problems" from the book, "Normal Youth and Its Everyday Problems" by Dr. Douglas A. Thom.

Of all the adolescent behavior problems, none causes the parent more concern than the child's ability to keep pace with others of his age in his school work.

Most parents would make great sacrifices to protect their children from the unhappy experiences and the mental anguish which awaits them as they progress in the journey through life without allowing them to meet life as it actually exists, and thus they miss the protection, which knowledge and experience give human beings for meeting life's two most devastating foes, fear and failure.

The correction of undesirable habits, personality traits, and attitudes, which require thoughtful and intelligent effort will also be discussed.

Employees Of News And Radio Station Have Party Tuesday

Entertaining wives of employees of The Pampa News and radio station KPDN as well as employees of both offices, Mrs. Ray Barnes was hostess at a party in her home Tuesday night. Also the event was the observance of the birthday of the hostess.

AN APPRECIATED VALENTINE

Loin lamb chops just "go" on the menu of the luncheon or dinner party for St. Valentine's Day. And when they are broiled to a turn and arranged as shown in the accompanying photograph, they are sure to make a hit with the guests at your party.

The garnishes suggested here are simple but effective. Peach halves are topped with hearty cut from canned cranberry jelly. The hot baking powder biscuits are cut in heart shape to further emphasize the Valentine motif.

And broiling lamb chops is simple, too, if you do it the modern way. Here are the easy steps: Turn heat high; place chops on

A musical number will be given by a group of pupils under the direction of Herbert Miller and Mrs. F. W. Shotwell will bring a short message on founders day.

Mrs. Homer Lively, hospitality chairman, will serve the birthday cake and a silver offering will be taken for the benefit of the national association.

A nominating committee is to be elected at this meeting to nominate officers for next year.

All friends and patrons of the school are urged to be present.

Mrs. Stone Leads Program At Harrah Chapel WMS Meeting

Woman's Missionary society of Harrah chapel met this week for a regular session in the church.

After the meeting was called to order by Mrs. H. M. Stone, president, a song, "Whispering Hope," was sung. Following a short business session, Mrs. Stone presented the program on "The Life of Young J. Allen" with Mrs. R. L. Timmons talking points.

The group voted to meet next Wednesday, February 14, instead of Monday, February 12, because of the meeting in Amarillo on Monday.

The study of "Home Land Harvest" will be started next Wednesday with Mrs. J. E. Beard as study leader.

Five members attended the meeting.

Miss Edwards To Represent West Texas At Show

A section of the cattle country embracing far West Texas will be represented by Miss Anna Belle Edwards, 16, of Big Spring, as a ranch hand, first, at the Southwestern Exposition and Fair show in Fort Worth, March 8-17.

She is one of the eight ranch girls who will play the role of "debutantes of the range" at the Fort Worth show. Miss Edwards is a daughter of Mr. and Mrs. Marion Edwards. She comes from a long line of ranch people. Her grandfather, W. P. Edwards, has extensive holdings in the Big Spring area.

Summertime for Miss Edwards means a trip to her father's ranch south of Big Spring where she rides and ropes and takes part in various ranch chores. She is a junior in the Big Spring High school, is business manager of El Rodeo, high school annual, and a member of the high school pep squad. Next to riding, dancing is her favorite pastime.

Miss Edwards was one of the six West Texas girls who represented this state at the Madison Square Garden rodeo in New York City last fall.

At the world championship rodeo in Fort Worth, she will be riding the noted brown cutting horse on which her sister, Mitty Neil, won a contest at the Midland rodeo last summer. Anna Belle was picked as a 1940 ranch girl at the Midland event.

Raymond Brumley Host To Men Of Couples Class

Men of the Couples Class of First Methodist church met in the home of Raymond Brumley Tuesday night for a smoker.

After games were played, refreshments of peanut cake and coffee were served.

Attending were A. C. Andrews, Ed Wood, Irl Smith, Harry Kelley, Wallace Fuller, Frank Chapman, Earl Plank, Elmer Gallean, Raymond Brumley, Homer Lively, Doy Saubury, Pete Hiefield, Audrey Steele, Raymond Shannon, and James Smith.

Mrs. Ward Hostess At Nurses Club Meeting This Week

A meeting of the Registered Nurses club was held in the home of Mrs. Floyd Ward on Monday evening.

Following a business session, a questionnaire on medical terms was conducted.

Another meeting of the club will be held on March 4 when each nurse is to present five questions and answers on cells of the body.

Attending this meeting were Miss Mary Schwind, Mrs. Joe Stephens, Miss Jerold Franklin, Miss Bolton, Miss Doris English, Mrs. Kemper, Mrs. J. G. Wheeler, and the hostess.

Chevrolet Sales Up 45 Per Cent Over 1939 Period

January sales showed an increase of 45 per cent over January, 1939, and more than 350,000 new cars and trucks have been sold nationally by Chevrolet dealers since October, according to William E. Holler, Chevrolet general sales manager, Detroit.

Mr. Holler was honored with an "Appreciation Day" in connection with a zone meeting of 200 Chevrolet dealers and officials of the Oklahoma City Zone, held Monday at the Biltmore hotel in Oklahoma City, where dealers and officials were guests of John L. Matthews, zone manager.

Present from Pampa were Frank Culbertson of the Culbertson-Small Chevrolet company, Carl Goetze, salesman, and Wayne Phelps, advertising salesman of The Pampa News. They returned to Pampa at 3 o'clock Tuesday afternoon.

The Tulsa World, Tulsa Tribune, and Amarillo Times were other newspapers represented at the meeting. Special recognition was accorded the newspapers at luncheon Monday in the civic room of the hotel. Jim Braden, Chevrolet press representative, was among the national company officials present. Also present were four members of Mr. Holler's staff.

Such policies as the planning partnership where there is a committee of 10 dealers on new car planning and 10 dealers on used car planning in every one of the 45 zones in the United States—enables Chevrolet dealers to transmit directly the practical merchandising plans and programs they feel are necessary for their own interests and the interests of their own communities. And when these are brought through the regions and national committees in Detroit they become national policies which immediately affect the sales policies making them most practical in field operation.

It is a matter of record that 63 per cent of all the recommendations made by the dealers have actually become the Chevrolet retail selling policies nationally.

Britain Sending Planes To Finland

LONDON, Feb. 7 (AP)—R. A. Butler, undersecretary for foreign affairs, asked in the House of Commons today if the government would consider sending bombers and crews to Finland, replied that Britain already was sending planes and that he understood fliers were available in Finland.

The House cheered Major General Sir Alfred Knox, conservative, when he asked if every possible step was being taken to send aid quickly to Finland, who, he said, was fighting for the whole of civilization.

Butler recalled that Prime Minister Chamberlain said yesterday that the government realized the urgency of the question.

Thirty miles east of Botwood, Newfoundland, is the largest airport in North America. It has three times the runway area of any airport in the United States, is situated on a high, dry plateau 500 feet above sea level and occupies 1,000 acres.

Garner Lines Up With Economy

WASHINGTON, Feb. 7 (AP)—Vice President Garner actively aligned himself today with the economy forces in the senate, some of his friends disclosed, by a pledge to oppose any suggested increases in appropriations and to vote for decreases whenever possible.

Following his vote to break senate the yesterday and thus cut \$115,250 off the amount the House approved for the civil aeronautics authority, Garner was quoted by some senators as having told them: "When it comes to voting to reduce appropriations, I am going to vote 'yes' and when it comes to increasing appropriations, I am going to vote 'no'."

Garner's vote—his first since April 17, 1934—revived the economy drive which had suffered a reverse earlier when the senate overrode an effort by senator Overton (D-La.) to trim from the \$1,138,693,528 supply bill for independent agencies an item of \$710,000 for the national resources planning board.

The county on the Overton amendment appeared at first to be 34 to 24. The vice president, permitted to vote only in the event of a tie, told friends afterward that he was preparing to vote "yes" to carry the amendment when senator Stewart (D-Ten) walked into the chamber and voted "no" to clinch its defeat.

27 White Deer Pupils Visit News Office

Bright-eyed and eager for information, 27 pupils of the seventh grade language arts class of the White Deer elementary school, made a tour yesterday afternoon of The Pampa News, studying all three departments, business, editorial, and mechanical.

It was the mechanical department, with its linotypes, saws, monotype equipment, and the huge press that attracted the interest of the students. Work of each person in the department was explained to the students by Cecil Barnett, floorman.

He described in detail the process by which copy is converted into type and how from type a newspaper is printed.

Preceding the trip through the composing and press rooms, a reporter showed the class the location of the business and editorial departments, briefly explaining the functions of each. Copies of Tuesday's issue of The News were given each student.

The White Deer students made the trip in a bus of the White Deer Independent school district, and were accompanied by their teacher, Miss Melva Gamewell.

Students making the tour of the News plant were Wagnita Newman, Billie Louise O'Neal, Betty Ann Fleming, Nina Lou Miller, Vivian Heath, La Vone Taylor, Nelrose Horion, Nellie McFaridge, Leatrice Hull, Eula Mae Stovall, Mildred Warminski, Jane McCreary, Veda Earp, Madeleine Rusk, Doris Crumpacker, Billy Joe Seitz, Ray B. Hodges, Lewis Rusk, Wilfred Urbaneky, Rufus Wood, Frank Howell, Carl King, Carroll Pearson, Oscar Lee Williams, Billy White, Lawrence Hester, and J. L. Dorsey.

'Pelley Letters' Taken From Record

WASHINGTON, Feb. 7 (AP)—The hullabaloo over the mysterious "Pelley Letters" was ended today by their removal from the House record, but a new Dies committee episode was in the making—examination of William Dudley Pelley about his Silver Shirt activities.

The soft-spoken, goateed Pelley, who had been sought for months by the committee and its agents, popped up yesterday and was reported ready to testify on committee charges that his organization is probably the largest Fascist group in the United States.

First, however, he helped bring about a quick denouement of the furore over the letters used by Rep. Hook (D-Mich.) in a recent House statement designed to show a connection between Chairman Dies (D-Tex) and Pelley.

The latter told a house rules subcommittee yesterday that the documents were rank forgeries and that he gave Dies "a clean bill of health."

David Mayne of Washington, a longtime aide of Pelley who had produced the letters, followed him on the stand and calmly said that he had manufactured them "right out of the clear air."

It wasn't long before Hook arose in the House, said the letters were the "figment of somebody's imagination," and withdrew them from the Congressional Record.

Boy Scout Week Opens in Pampa Tomorrow

Pampa joins with the rest of the nation this week in observing Boy Scout week which opens tomorrow. The Boy Scout Movement was founded in America thirty years ago this week. Most of us have watched it grow and gain in influence, with great satisfaction.

It is something vital to "The American Way" and through three decades, its service has gained the confidence of all people. It would be difficult to point to any single quality of the Movement and say with positiveness, "Here is what makes Scouting great."

Read its stirring words. They are worth memorizing and more than that, they should be lived by all of us who have the high privilege of being Americans.

He is reverent toward God. He is faithful in his religious duties, and respects the convictions of others in matters of custom and religion.

All Americans worthy of the name, all who believe in the declaration of Independence, the Bill of Rights and the Constitution of the United States have an abiding faith in such a principle because it is their very guarantee that so long as it is a living thing they will always be free and independent.

What's The Big Secret?

The public's business is none of the public's business.

That appears to be the attitude of Pampa's city officials in barring a representative of The News from Monday night's "star chamber" session, called to discuss the city commission's proposal to put the city into the power business.

Just what could be the reason for barring a newspaper reporter from a meeting where business of vital interest to the taxpayers is to be discussed?

What is the reason for city officials not wishing to let the general public know what's going on at these meetings?

Why are just a few citizens invited to the meetings?

Why aren't the meetings thrown open to the public-at-large?

Is there anything wrong with letting everybody know what the commission plans to do in connection with the municipal plant proposal?

Why do city officials hold their "municipal plant meetings" in the closed-door privacy of the city manager's office instead of out in the open at regular sessions?

Whenever public officials adopt the closed-door policy on public issues—matters of importance to the people who elected them—it is time to begin wondering and time to begin asking questions.

What are city officials trying to do that these officials apparently have decided is none of the public's concern?

Do the men who are invited to these meetings wonder why they are the only ones invited?

What would they think if THEY were not invited? We have no quarrel with the men who WERE invited—they, no doubt, attend in good faith—but what about taxpayers who WERE NOT invited?

Don't they have an equal right to know what's going on?

Uninvited taxpayers cannot be advised of what's going on if city officials continue to transact business behind the scenes with newspaper reporters barred.

Isn't the entire procedure just a bit unusual?

And, summing up these questions: What's the big secret?

Behind The News

WASHINGTON, Feb. 7.—One absorbing mystery right now is the way the famous Smith committee has dealt with the Labor Board. It has been rough but not nearly as rough as everyone expected it to be.

Committee spent months assembling documents to use as exhibits, and so far has used only a fraction of them. Instead of calling in everyone who had a grudge against the board, it confined itself almost entirely to board employees and board records. Then it swung around and invited Board Members Madden and Smith to take the stand and answer the charges that had been made.

This isn't at all what was anticipated, and it has people guessing. One curious accompaniment is that while most congressmen seem to feel the labor act will be amended, hardly any are expecting any really drastic changes to be approved.

HIS SENATORS AND BOBIES

Charles W. Eliot, director of National Resources Planning Board, visited the White House recently to explain how he was going to try to sell a Senate committee on the board's usefulness.

The board's job is pretty complicated, and the explanation was pretty involved. Finally, FDR tapped him on the arm.

"Listen, Charlie," he said. "The committee wants it simpler. It will be like the very boring lady who sits next to you at dinner parties and says, 'Yes, I know, Mr. Eliot—but what do you do?'"

IS MAJORITY RULE DEMOCRACY AS LEAGUE OF WOMEN VOTERS CLAIM?

I have just read minute essays on democracy as published and sent out by the National League of Women Voters. In their letter, sent out with the folder, they say, "We feel sure that you, as editor will welcome this opportunity of cooperating with the League of Women Voters in their attempt to bring an ever-increasing number of people to the realization of what the term Democracy really signifies."

It seems to me that a bulletin of this kind, issued by women is strong evidence that women's franchise was a mistake. When a group of women, who believe themselves capable of being leaders, send out essays on democracy that make such untrue and untruthful statements about democracy as this folder does, it shows that they themselves have a long way to go in their understanding of what democracy means.

In their fourth article, under the heading, "By The People," they make this statement: "Their systems (democracy) of government are not all alike, but three features are common to them all—a representative system, rule of the majority and popular suffrage."

The women of the league would lead the people to believe that the United States is a land of majority rule.

The facts of the matter are that, according to the last census, the voters representing 11,877,608 people in the United States could not change the Constitution which was established by voters representing less than a million people. In other words, it would take over 100 people, under certain circumstances, to vote for a change of Constitution as compared with one man, who voted originally to adopt the covenants set forth in the Constitution.

The explanation for the above statement is as follows: It takes three-fourths of the states to ratify an amendment. So a fraction over one-fourth, or 13 states, can prevent an amendment from passing. The population of 35 states having the largest population in the United States totals 11,877,608 people. All of these people could vote for an amendment or a change of covenant of the Constitution, and they could not change it.

While this same document was established when we had a population in 1890, nearest census, of 3,569,056. At that time in most states only property owners voted, nor did women vote at that time, so it is reasonable to say that less than a million people and their children established a Constitution. And it only took a majority in each state to ratify so the Constitution was properly adopted by voters representing a half-million people, including children. Yet, now 11,877,608 people cannot change the will of half a million people when the Constitution was adopted.

The framers of the Constitution never had any thought of making this a majority rule country. They well realized that if they did, the majority, who do not cherish liberty or freedom, or understand it, would destroy the liberty and the freedom of the minority and chaos would prevail.

So, when the League of Women Voters would educate the people to believe that our country, or a democracy, is based on majority rule, instead of on "a way of life" that each man is entitled to the fruits of his labor, in order to be free, then these ladies, without knowing it, are only further confusing the people and causing more misery, suffering and poverty.

So, it seems absurd for women who pose as leaders and educators to be sending out essays on democracy with such errors and such misrepresentations. The kind of a democracy we want and the kind of a democracy the framers of the Constitution tried to establish, is one that will permit the greatest possible freedom for every individual and the greatest prosperity for men as a whole.

The columns of this paper are open, of course, to any member of the League of Women Voters to give evidence that democracy really means majority rule or that the above conclusions are not factual.

DIFFERENT KINDS OF COMPETITION

Competition is something that cannot be eliminated. It will pop up in one form or another. If it is not competition as to which one will get the most service in exchange for another service, as the New Dealers, Socialists and Republican Protectionists object to, we will still have competition.

But the competition will be a rivalry of idleness, stupidity and improvidence.

It seems that we are competing very rapidly and very viciously as to what man can get on the government payroll, either as a job or as a dole. Never was there such competition of this kind. When we object to natural competition, the free and natural exchange of equal service mutually agreed upon, we are bound to have the kind of competition we are having now.

REWARD IS SMALL IN HIGHBOY FILMS

The economic perils of high-browism in films as compared to the financial virtues of other films are being pointed out in the new book "The High Boy" by Thomas Jefferson.

And if the Wise be the happy man, as these sages say, he must be virtuous too; for without virtue happiness cannot be.—Thomas Jefferson.

framed and will go to the theaters by spring. Photographed by Bob Flaherty for Paramount's U. S. Film Service, it is tentatively titled "The Land" and deals with the way soil erosion and mechanized agriculture are driving people off the land.

WAR HINDERS WEATHER FORECASTING

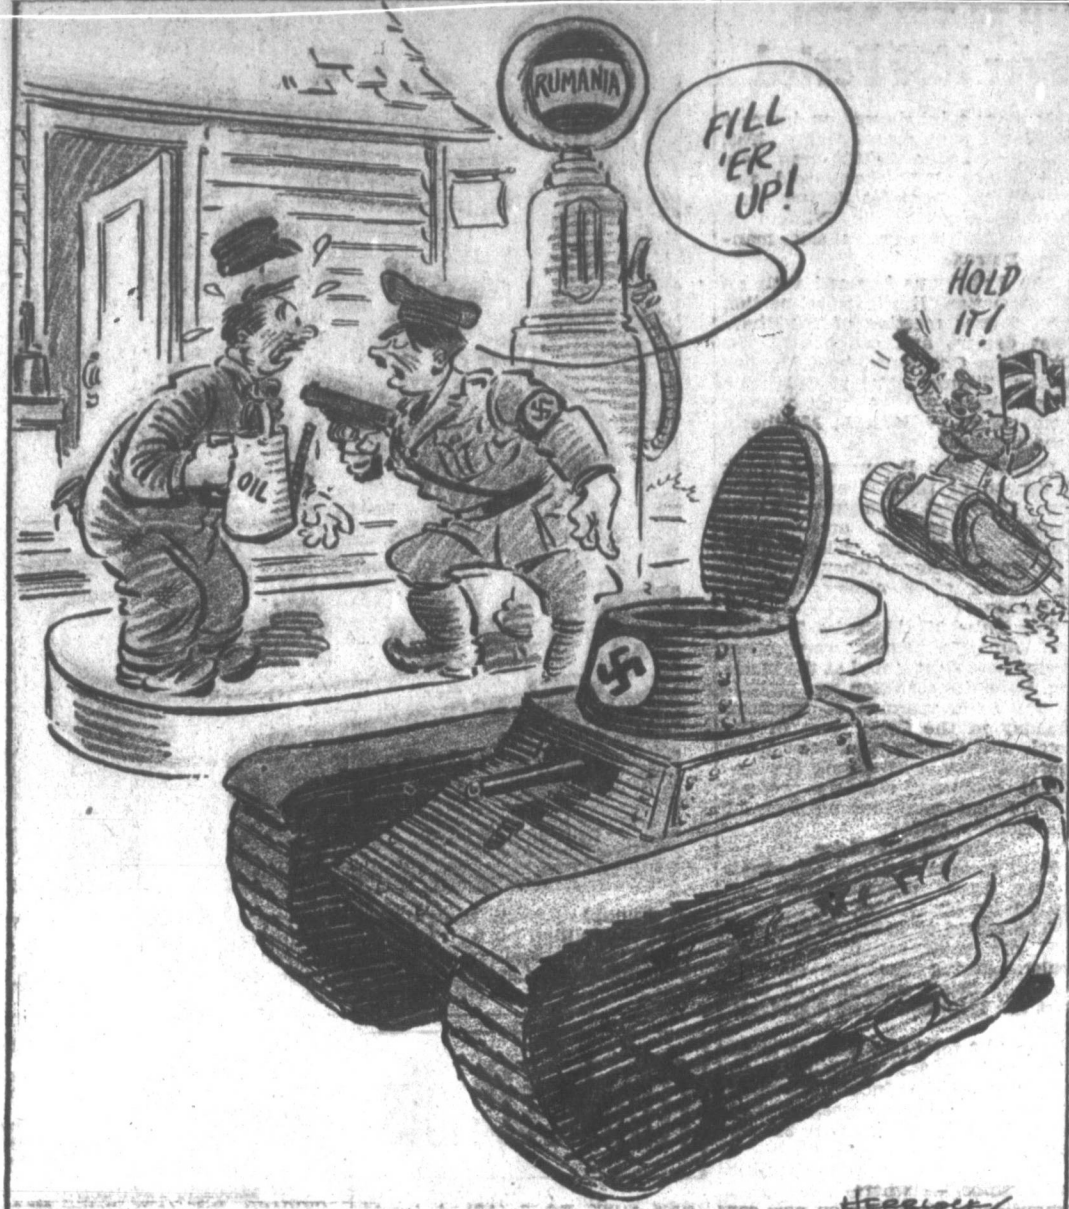

It sounds like a gag, but the Weather Bureau really would have been able to give the country better advice warning of that recent cold wave if there hadn't been a war in Europe.

That works out like this: The war has raised hob with the bureau's reporting service. European meteorological stations are no longer sending reports on weather conditions, and ships at sea have stopped sending reports because they're afraid submarines will spot their position.

Most important of all, Canadian stations have stopped reporting.

This particular cold wave got started up in Alaska; and it seems atmospheric conditions in Eastern Canada and the Great Lakes region were such that they weren't anything to keep the wave from going right down to the Gulf. Weather Bureau had no hope from Canada and hence couldn't forecast just where the cold wave would go. (They couldn't have stopped it, of course, if they had seen it coming.)

FILLING-STATION DRAMA

Around Hollywood

HOLLYWOOD, Feb. 7.—I don't know what has come over the modes lately unless this surge of thoughtful drama is just another cycle, after all, like super-westerns, drawing-room slapstick, sea sagas and such.

It seems only yesterday that we were gently jeering the picture makers as a bunch of panty-waists (and ex-manufacturers of panty-waists), and now they've gone metaphysical on us with eloquent screen plays about life and death and problems of the soul. They've done sociological, too, notably with "Grapes of Wrath" and political, with "Mr. Smith" and some of the upcoming anti-Nazi stuff.

One of these days, some producer even may rise up and spit in the eye of the censors. But, pending that millennium, you'll have to take the boys' credit for plenty of courage in these financially unprofitable times. With European countries holding out most of their theater receipts for the purchase of material to entertain their enemies, Hollywood needs all the sure-fire pictures it can make. Economically, this is a bad time for artistic experiments. As a Warner Bros. executive walked recently when the studio borrowed \$5,000,000 on Wall Street: "Seems like all we make is 'prestige films.' What this company needs is some 'mopra pictures' for a change."

CAPRA IS WORKING ON JOHN DOE EPIC

Hollywood's cycle of soul stuff began last year with "On Borrowed Time," which did a lot less business than it deserved. The trend continues in "The Sign of the Cross," concerning the great adventures of life, love, and death.

Frank Capra is preparing "The Life and Death of John Doe," which is intended to be retitled "Mr. Deeds Goes to Heaven." And half a dozen writers are working on an adaptation of "Shadow and Substance." They have reason to worry, for they are competing with "The Sign of the Cross," which has been filmed since 1936.

REWARD IS SMALL IN HIGHBOY FILMS

The economic perils of high-browism in films as compared to the financial virtues of other films are being pointed out in the new book "The High Boy" by Thomas Jefferson.

And if the Wise be the happy man, as these sages say, he must be virtuous too; for without virtue happiness cannot be.—Thomas Jefferson.

framed and will go to the theaters by spring. Photographed by Bob Flaherty for Paramount's U. S. Film Service, it is tentatively titled "The Land" and deals with the way soil erosion and mechanized agriculture are driving people off the land.

Department of Agriculture officials, who fathered the idea, are excited about it.

WAR HINDERS WEATHER FORECASTING

It sounds like a gag, but the Weather Bureau really would have been able to give the country better advice warning of that recent cold wave if there hadn't been a war in Europe.

That works out like this: The war has raised hob with the bureau's reporting service. European meteorological stations are no longer sending reports on weather conditions, and ships at sea have stopped sending reports because they're afraid submarines will spot their position.

Most important of all, Canadian stations have stopped reporting.

This particular cold wave got started up in Alaska; and it seems atmospheric conditions in Eastern Canada and the Great Lakes region were such that they weren't anything to keep the wave from going right down to the Gulf. Weather Bureau had no hope from Canada and hence couldn't forecast just where the cold wave would go. (They couldn't have stopped it, of course, if they had seen it coming.)

People You Know

By Archer Fullingim

For the first time since they started playing basketball here crowds have been coming out to see the Harvester reserves, popularly known as "Glamor Pants," play basketball and being curious as to why the public is so fond of the boys, I went over to the high school and picked up some interesting information about the boys who wear the "exotic trousers."

All are juniors and sophomores and were back next year. Junior Frasier, the tallest of the lot, was born and raised on a farm near Pampa. He is quiet and says little. Durdward Mitchell, brother of the coach, apparently got his first name from "Lena Rivers," popular novel of about 30 years ago whose hero was named "Durdward." A. C. Enloe has lived practically all of his life at all camps near Pampa. Thomas Dewey, brother of James (Admiral Dewey) of the Harvesters, two or three years ago, has the typical "Okie drawl and sort of reminds you of Bob Burns when he talks. All he's got to do to send the Harvesters into spasms of laughter is to open his mouth and start talking. Says Thomas, "You wanna know why they call us 'Glamor Pants? Well, I'll tell you. Every place we go the girls go for Enloe and Billy Mounds and Frasier! And especially Billy!" However, probably because they're younger, the boys don't get much attention from girls or talk about them as much as the Harvesters. "Thomas Dewey plays the French harp well, especially nigger blues music, and Tom Cox, his sidkick, talks back at him in Spanish that Thomas can't understand. Once some student accused the boys of being cocky. They've lost only two games, and Dewey said, "Cocky! Why, we haven't got enough sense to get cocky!" And that seemed to settle the argument.

For many years, pernicious anemia was considered invariably fatal. We recognize two kinds of anemia—pernicious anemia, and the ordinary anemia associated with various infectious diseases, loss of blood. The latter is the kind that appears in babies after birth, and in young girls.

Anemia in young girls, called "green sickness" and known scientifically as chlorosis, has apparently almost completely disappeared. Recognition of the fact that young girls must take an adequate diet, particularly a sufficient amount of iron, has been largely responsible for overcoming this type of anemia. However, good hygiene and a diet with iron did not seem to control the condition called pernicious anemia. The chief factor in ordinary anemia is a decreased amount of hemoglobin, or red coloring matter in the blood; in pernicious anemia, the chief factor is a constant reduction in the number of red blood cells.

This condition was first described by a physician named Addison, in 1855. Apparently there was little significant advance in our knowledge of the condition from then until 1926, when a group of investigators culminated their work by showing definitely that the disease was due to absence of a specific substance, contained in liver.

For this work Doctors Minot, Whipple, and Murphy received the Nobel Prize. Whipple and his associates had studied anemias in dogs and had found that a diet rich in liver was regularly followed by improvement of the anemia which was reproduced artificially in the experimental animal.

An investigator named Castle and his associates demonstrated that pernicious anemia appears when a certain substance, found in the wall of the stomach and in the gastric juice is absent.

Today a wide variety of substances has been prepared, which represent the active principle that is missing in this condition. When these substances are put into the body, there are changes in the blood with a rapid increase in the number of red blood cells up to normal level.

At first it was necessary to feed vast amounts of ordinary calves' liver. Today, there are preparations that can be injected into the muscles; some that can be injected directly into the veins. Other preparations can be taken in capsules or added to foods.

Response is so certain that this method of treatment is invariably listed among the 10 most important Magic Bullets.

Rev. Sadler Resigns From Welfare Board

AUSTIN, Feb. 7.—Governor W. Lee O'Daniel is expected to select a successor soon to Rev. M. E. Sadler of Austin, who resigned yesterday as a member of the State Public Welfare Board.

The resignation was the second change in membership of the board since its creation September 1, 1937. Norman Strong of Beaumont quit in November.

Sadler said demands of the office were so great that he felt it was not fair to his pastorate to continue. He is pastor of the Central Christian church here.

Remaining members of the board are Marvin Leonard of Fort Worth and Frank S. Roberts of Breckenridge.

reported nursing presidential ambitions himself, has been the only important independent leader holding aloof from a unification campaign on behalf of Almazan, principal anti-government candidate.

Tex's Topics

By Tex DeWeese

IT was Thomas Jefferson who said: "Cherish the spirit of our people and keep alive their attention. Do not be too severe upon their errors, but reclaim them by enlightening them. If once they become inattentive to public affairs, you and I, and Congress and assemblies, judges and governors, shall all become wolves."

A taxpayer who fails to understand why newspaper reporters should be barred from City Hall meetings where the public's business is being discussed—such as happened last Monday night—should be in a position to suggest that taxpayers get together and hold an indignation meeting on the manner in which city officials are secretly carrying on their municipal plant plans.

RUSSIA has placed a bid with Hollywood for three pictures, "The Grapes of Wrath," "Alexander's Ragtime Band," and "The Old Chango." No doubt they wanted the first one to show Ivan Ofulich the terrors of capitalist America, the second as a relief from Slavic music, and the third to show what they intended to do to those "invading" Finns in Helsinki.

Uncle Mort says that just when the clouds began to have a silver lining, the country went on the gold standard. Confucius says: When city officials run out of gas, maybe people also let air out of tires.

SWOOD swallows, surrenders agree, live comparatively safe lives. This should be good news to people who eat peas with a knife. Chicago is planning a new offensive on racketeering. Candidate Dewey shouldn't get that Washington job he's after, maybe he can be talked into going to the Windy City to brush up a little. The Japanese want the American public to protest against abrogation of the trade treaty. Somehow they must have the idea we can't get along without their light bulbs which never work.

Roosevelt now has six Alaskan delegates in his pocket. They'll be nice to save for a stormy day. John Barrymore is back on the Broadway after 15 years. The event was celebrated by nothing more than a domestic riot.

THE movement to break off diplomatic relations with Russia gains momentum. Only Communists and vodka drinkers are against it. After 25 years, a woman paid five cents for a valentine she pilfered when she was a small girl. Maybe the boy she sent it to finally got around to popping the question. Hardware men are featuring lavender boxes to get women to buy garden tools—which would be a notable item if they could also figure out a way to get the girls to use them.

STORIES IN STAMPS

ALMOST every bride and groom have a wedding picture, but few have theirs so widely circulated as were the wedding pictures of Iran's Crown Prince Mohammed Riza and Princess Fawzia of Egypt. The royal couple are pictured on the Iran (Persia) issue above.

The 2600th anniversary of the "birth of Japan" will be commemorated by four Japanese stamps to be released during 1940. Designs for two of the stamps, for release in February, have been announced. The 2-zen value will show the sacred golden bird; the 10-zen, pottery and trout.

War slogans are now appearing in British mail. "Grow More Food" and "Dig for Victory" are the first of such wartime appeals to be incorporated into stamp cancellations.

Russian Notables

It is not always easy for Americans to remember Russian names because of the involved spellings. The following persons are known well enough, however, to make identification relatively simple. Underline the term that best describes each.

1. Feodor Chaliapin: (a) physicist, (b) explorer, (c) singer, (d) statesman.

2. Vladimir Lenin: (a) governor of Siberia, (b) aide to Czar Nicholas II, (c) painter, (d) revolutionary leader.

3. Count Alexei Tolstoy: (a) author, (b) musician, (c) aviator, (d) inventor.

4. Peter Tchaikovsky: (a) dramatist, (b) composer, (c) engineer, (d) physician.

5. Anna Pavlova: (a) actress, (b) dancer, (c) feminist, (d) writer.

RIGHT YEARS Democrats Congressmen From INDIANA

THE INTELLIGENTIA The intellectuals have gone sterile. The pen's power and their fellow travelers in the lecture field and in the book review business have lost touch.

There are many signs that this is so but one proves it particularly. It is the attitude of the intelligentsia toward the Dies committee. How they tried to laugh it to scorn! "Shirley Temple, a Communist!" Imagine! There was not a word of testimony before the committee that she was. All that was said was that her name had been used with other movie stars in a telegram of felicitations to a Communist paper in Paris. That fact no one has denied.

But the truth was not important to those who write with pink ink. The committee had to face the Japs, but it did not will, gradually, have the people—of the intellectuals—began to say, "This man Dies is getting the lowdown. Better listen." The average American came to the conclusion that this committee may have mistaken more than any Congressional body since Hector was a young dog, but that it had also made more home runs.

This attitude of the rank and file American became known to his Congressman. In the face of insults from the intelligentsia of Union Square and Greenwich Village, the Little Red House in Georgetown, D. C., and disparaging remarks of cabinet rank, the Congressmen voted last February ten to one to continue the Dies Committee. And this year, the House voted more than sixteen to one for continuance.

Meantime the Gallup Poll indicates that the people themselves are heavily in favor of the Committee. But not the pen pushers. They are still faithful to their ink. In a separate poll of 200 of the "leading" writers and intellectuals of the nation voted three to one that the Dies Committee preferred. It is lucky that these self-styled leaders of American thought never get enough votes from any source to be elected to Congress!

Well, Washington is still talking about that "nonpartisan" Jackson Day dinner. It seemed cute at the time to pillow Charles McNary and Joe Martin and Austin of Vermont like beetles on pins, and to boo Senator Hatch, one of the many Democrats who still think that elections are not elections.

But like a joke that misfires; the whole idea no longer seems so clever. Here was a "nonpartisan" speech in which these Republican were "razed" because they preferred to get it over the radio. The "partisan" address of the evening was given an hour before by Mr. Attorney General Jackson, speaking in Cleveland. In it was woven the outrageous lie of the terrible plight of the Republic if it should try to struggle along for another four years without Mr. Roosevelt—and Mr. Jackson!

But now the trick is explained to the puzzled students. According to the Moby-Dick Newsweek, the two speeches were carefully prepared by Thomas G. Corcoran—intellectual de luxe.

Not only did Mr. Corcoran arrange the stage play, but he had a hand in writing both speeches. The nonpartisan one pleading for brotherly love, and the partisan one pleading for a third term.

good many are saying that they could manage for awhile now with less cleverness and more character. Right is no longer a thrill. Some plain rugged Americanism and common honesty would be relished right now. Someone like Grover Cleveland or Tom Marshall. Or on the Republican side Charles E. Hughes or William E. Borah. When they make mistakes they were honest mistakes; if I make myself plain.

But Borah is dead. The intelligentsia made fun of the "old fossil" while he lived as the London Punch made fun of Abraham Lincoln. But I venture to say the nation is not going to let the intelligentsia write the Senator's epitaph. His mistakes will be overlooked, his character remembered. And in the end that is about all that counts.

On the greatest issue facing the world—constitutional government or arbitrary power—Borah of Idaho built from granite. If human liberty is sacred, the Constitution is sacred. These were his last words in the Senate of his beloved country. They should be carved upon his tomb.

Hope Favors Catfish's Erratic Bulldogs

Borgans Will Play In City Gym Thursday

Coch Mitchell had considerable uneasiness today after he learned that Borgans' erratic and unpredictable Bulldogs not only have the edge on Pampa's Harvesters on the basis of comparative scores but they will come to Pampa tomorrow night almost favorites to beat the Harvesters.

Here's the way the dice favors Coach Cattin Smith's Bulldogs: Canyon beat Pampa 34 to 32; Phillips beat Borgers 37 to 32. Those scores show that Phillips beat Borgers by the same score that it beat Canyon, five points, and Canyon beat Pampa two points. If you would like to get technical about it, those scores indicate that Borgers is two points better than Pampa! But of course you couldn't make the Harvesters believe that Borgers which hasn't cut much ice in the district basketball picture yet, is better than they are.

Here's another and more recent slight on the strength of Borgers. Last night, Phillips beat the Bulldogs 34 to 19, but the score at the third quarter was 17 to 15. Then the Bulldogs fought it out and believe that if the Bulldogs could play an entire game without letting down they would make it grievous for any club in the district, including Phillips which is as one of the strongest teams in the Panhandle.

The Catfish and his Bulldogs are pointing for the Pampa game here tomorrow night, and it is extremely likely that they will be inclined to put the pressure on and keep it on during the entire game, for Borgers ever since the Catfish came to Bulldog town, has felt that it had a flux over Pampa basketball teams.

Last night the Phillips B team defeated the Borgers sisters 25 to 11, and the Phillips girls defeated the Borgers girls 37 to 28, as the Phillips players swept the series a second time. So it's a check now that Phillips will represent Hutchinson county in the district meet here Feb. 23 and 24.

Friday night the Harvesters will go to Amarillo to play the Sandies in a Big Five conference battle.

Another indication of the strength of the Phillips quintet was shown Saturday night at Dalhart where the Blackhaws were nosed out 21 to 19 by the regional championship Wolves who have two of their stars back from last year.

The first game tomorrow night will start at 7 o'clock with the "slamnor pants" and the Borgers reserves opening the doubleheader. The second game will begin at 8 o'clock.

All of Coach Mitchell's Harvesters are in good physical condition.

Slammin' Sammy Crowd-Getter At Texas Open

SAN ANTONIO, Feb. 7 (AP)—Slammin' Sammy Sneed was the crowd-getter here today as the nation's top professional golfers crowded the Texas open in preparation for the Texas open tournament starting Friday.

Sneed has not been with the pros in their western tour but he said upon arrival here that he was going to share his share of \$20,000 offered at San Antonio, Houston and New Orleans during the coming two weeks.

Sammy shot a practice round yesterday and hung up a 70, one under par. Al Espinosa and Jug McSpaden each got a 69 but the largest gallery hung around the slammer.

The first feature on the program is the pro-amateur event, scheduled tomorrow. An estimated 75 two-omes will take part.

All the members of the Ryder Cup team will be here except Henry Picard who is to have a new addition to his family in a few days.

About two-thirds of the pros already are here with Byron Nelson, the National Open champion; Paul Runyan and Jimmy Thompson due to pull in today.

Among outstanding amateurs to play in the pro-amateur event are Johnny Dawson of Chicago and John Barnum of Edinburg, Tex.

A hundred golfers invaded the course yesterday for the first tune-up rounds.

The Texas Open offers \$5,000 in cash for the winners.

Erie Anglers Catch Cold Fish

Fishing is freezing when it's done out on the windswept ice of Lake Erie, but the hardy men of Buffalo, N. Y., like it that way. Method is to put up a canvas windbreak, chisel holes of stove-lid size in ice, and drop in lines with minnow bait. William Leach displays frosted catch.

Indianapolis Speedway Manager Has Never Been Around It In Car

By GAYLE TALBOT
MIAMI BEACH, Feb. 7 (AP)—While the woods are full of men who never have been around the Indianapolis speedway in a racing car, it is surprising to learn that one of their number is T. E. (Pop) Myers, the general manager of the big speed plant.

Though never having met him before in the flesh, I had always had a vague impression that Myers probably took a spin around the brick sander every morning before breakfast, seeing that the turns were properly banked and generally keeping the place tidied up for the annual Memorial day 500-miler.

"No," said the grey-haired veteran, "I've never gone around it in a racing car and I never expect to. If a car ever started skidding on one of those turns, and with me in it, I'd be scared to death. I went around the old Speedway by speedway once back in my youth, and the experience has lasted me to this day."

The man who annually plays host to around 150,000 spectators is here accumulating a fan.

Myers generally is acknowledged to know more about racing than any living man. The roar of motors and the smell of burning castor oil have been his very existence.

"I'll tell you anything you want to know about racing," he said, "but don't ask me to name the best driver I ever saw, or even the best half-dozen. I did that once and I haven't heard the last of it yet."

"I'll only go this far. I'll say that I don't believe some of the stars of other years could have driven successfully today. Not that they weren't great drivers, some of them, but it's just that increased speed has brought an entirely different technique. The old-timers who averaged only 85 miles an hour might have had trouble if they had suddenly begun hitting 130, like they do now."

"A driver who expects to get anywhere in the big race now must be in perfect physical condition. The tremendous speed they hit doesn't allow any margin for error. Every reaction must be automatic."

The most important thing about the Indianapolis race, Myers says, is the part it has played in the improvement of the automobile. In his long years at the speedway he has seen dozens of refinements tested and proved in the gruelling race.

"The next big thing probably will be the use of alcohol for fuel instead of gasoline," he predicts. "A couple of cars used alcohol in the race last year and got good results. It's too expensive now for commercial use—about a dollar a gallon—but it could be produced a lot more cheaply in quantity, using surplus farm products."

Fenske Will Look Forward From Now On

MADISON, Wis., Feb. 7 (AP)—Charles (Chuck) Fenske has decided that his "looking" in the future is going to be confined strictly to the forward variety.

The 24-year-old University of Wisconsin graduate student, whose performance in winning the Wanamaker mile in New York stamps him as the possible "miler" of the year, made that decision today as he recalled an incident which occurred during the race Saturday night.

Fenske went into the last quarter far ahead of the field but because of the roar of the crowd was unable to hear a coaching signal as to his lead.

"I looked back not once but three times," Fenske recalled, "and was told later those glances probably cost me three-tenths of a second by disturbing my stride."

The long-striding star, stepping the Wanamaker mile in 4:07.4, established a new Madison Square Garden record—a mark only three seconds below the fastest indoor mile ever run in the United States.

"Since a majority of the races in which I can now participate are in the east, I have found it especially difficult to make the long trips, with consequent loss of sleep, and still be in peak form for the races," Fenske said. "I can always do better when I have been on the scene for several days, following a regular schedule."

For this reason, Fenske asserted, he would like to establish himself with a school or business firm in or near New York.

Fenske's home is in West Allis, Wis., a suburb of Milwaukee, and it was there that a newspaper delivery job set him on the way to superb muscular development.

"It was a German language newspaper," he explained, "and there was so much distance between my customers that I had to trot most of the evening to get around my route."

"I will be leaving the university in June," he said, "but I expect to continue running for several more years."

Practically self-supporting throughout his collegiate career, he has found that a self-imposed training routine and his studies allowed him to participate in no other campus activities.

Top Weight Will Be 145 Pounds In Friday Fights

When Pampa and LeFors high school boxers battle in a dual meet in the Pampa high school gymnasium Friday night, beginning at 8 o'clock, top weight will be 145 pounds. That is because Coach Oscar Hinger of the Pampa squad can't find boxers in the 155, 165, light heavyweight and heavyweight divisions.

But the smaller battlers are expected to make fans forget the

Negro Cagers Defeated

NEW ORLEANS, Feb. 7 (AP)—Xavier university's powerful negro basketball team suffered its first defeat on home soil in six years last night, losing to Bishop college, Marshall, La., 28-26.

Redmond of Bishop scored 13 points for high tally honors.

Betty Jameson Wins Florida Golf Match

PALM BEACH, Fla., Feb. 7 (AP)—The better players, some of whom had narrow escapes in the first round, began colliding today in the Palm Beach women's golf tournament.

National Champion Betty Jameson of San Antonio, Tex., who came from behind to stay in the running, expected only a reasonable amount of difficulty against Mrs. R. E. Jarrett of Philadelphia.

Jean Bauer of Providence, R. I., last year's winner, faced Neoma Copic of Toledo, O. Other quarter-final tilts, included: Elizabeth Hicks of Long Beach, Calif., vs. Mrs. Briggs S. Cunningham of Green Farms, Conn.

Miss Jameson stepped up the race yesterday to whip Clara Callender of Long Beach, Calif., 4 and 3.

Cager Piles Up 83 Points In One Game

HENDERSON, Tenn., Feb. 7 (AP)—Attention basketball players. Here's a scoring mark to shoot at.

Six-foot Ulys Brook, Freed-Hardeman college forward, rang up 83 points last night, as his team defeated Bethel college of McKenzie, Tenn., 101-21. His score: first quarter, 22; second, 16; third, 28; fourth, 17.

Hornback And Bible Beaten At Amarillo

Finals in the Amarillo Golden Gloves amateur boxing tournament will be held tonight in the Armory, beginning at 8 o'clock. Twelve bouts will be presented.

One former Pampa Golden Gloves champion will be in action tonight and two boys who participated in last year's tournament will also be battling for a title.

A. C. Burleson of Amarillo, 1938 lightweight champion who has graduated into a welterweight, last night defeated Joe Hornback of Canadian in a furious bout. Hornback won the title here last year.

Another 1938 Pampa champion bit the dust last night when Jake Bible of Alameda lost on a technical knockout to Don Livingston of Borgers in the second round.

League Clay, who lost the light heavyweight title here last year, is now residing in Clovis and tonight he'll meet Truett Johnson of Amarillo. Morris Lamb of Groom, a strong contender here last year, will box R. C. Ashlock of Hereford in the middleweight division.

Pairings for tonight follow:

Tonight's Pairings
Lightweights (semi-final) — Joe Burks, Phillips, vs. Edward Clark Nelson, Borgers
Clyde Peabody, Clarendon, vs. Ted Johnson, Amarillo.
Welterweights (semi-final) — Billy Stroup, Borgers, vs. Dewey Donahoe, Dalhart
A. Burleson, Amarillo, vs. Bob Rutledge, Clovis.

Championship Fights
Light-heavyweight — Truett Johnson, Amarillo, vs. League Clay, Portales.
Flyweight — Bobbie Fitzsimmons, Portales, vs. Junior S. Hamby, Texhoma, Okla.
Featherweight — Douglas Anderson, Panhandle, vs. Don Livingston, Borgers
Middleweight — R. C. Ashlock, Hereford, vs. Morris Lamb, Groom.
Bantamweight — Frankie Montoya, Portales, vs. Frank Cannon, Clarendon.
Heavyweight — Lloyd Bostick, Portales, vs. Roy Priolo, Amarillo.
Lightweight — winners of the semi-finals.
Welterweight — winners of the semi-finals.

Sports Roundup

By EDDIE BRIEZZ
NEW YORK, Feb. 7 (AP)—Ralph Graham, former Kansas State grid great, has the post position in the race for Coach Wags Fry's old job out there. Graham now is one of Bo McMillan's assistants at Indiana.

Jumping Joe Jackson, the New Mexico Aggie cage star who inherited \$50,000, was laid low by the mid-term exams.

Joe Jacobs is around town predicting Arturo Godoy will go the route with Joe Louis.

Over the River

Having acquired Roy Cullenbine (batting average .240) the Dodgers now are talking about trading Ernie Koy who hits a .280 clip. . . No use to keep good men, you know.

Dave Castiloux, the lightweight who doesn't smoke nor drink, is saving his dough to buy a tavern in Montreal. . . The Texas Aggie-Tulane Sugar Bowl game pictures are playing in big engagements in the Texas State town.

Today's Guest Star

Morgan Blake, Atlanta Journal: "Judge Landis has now clarified rule 11 to the point where it is utterly incomprehensible."

Fellow who said golf is an old man's game must have had something there. The venerable Mike Brad shot the front nine of the Miami-Biltmore course in 30-five under—the other day. . . Archie San Romani, the miler, is dickering for a job as music teacher in a Maine high school.

He's In for It

Benny McCoy is a very smart young man and a good ball player . . . but he also is a rash talker. He has publicly announced he will invest part of that \$45,000 in insurance. . . Better disconnect that telephone, Butch.

Bits About Bowling

Led by Hap Baxter with a game of 233 pins and a series of 618, Voss Cleaners won two out of three games from Cabot Shops last night to retain their lead in the Major Bowling League. Boating Enthusiasts To Meet In Pampa Tonight

Galento Afraid Godoy Will Lick Joe Louis Friday Night

Organization of a boat club will be discussed when boating enthusiasts meet at 8 o'clock tonight in the McConnell Implement Warehouse, at 112 North Ward street. Everyone interested in boating is urged to attend the meeting. Refreshments will be served.

Tonight's meeting is not for Pampa boaters only but for everyone in this section of the Panhandle. With promise that Lake McClellan will be open for boating this summer, enthusiasts are eager to get an organization started.

More than 100 persons in and around Pampa are known to have boats or motors while many in Miami, Canadian, McLean, LeFors, White Deer, Panhandle, Borgers and other cities have boats or plan to secure boats.

"You don't need to own a boat or a motor to attend tonight's meeting," one member of the committee in charge of the gathering stated today. "Everyone interested in boating will be welcomed."

Rideout Explains Spurt In Millrose Mile As Accident

PHILADELPHIA, Feb. 7 (AP)—If Elaine Rideout pulls another "accident" when he matches strides with Glenn Cunningham and Chuck Fenske here Friday, Philadelphians are in for a corking mile race in the opinion of Lawson Robertson.

The director of the third annual Penn A. C. track meet recalled that the Texan's fast first quarter "made the race" in the Millrose mile when Fenske broke the tape in 4:07.4.

Rideout explained his unexpected spurt as "really an accident—I ran faster than I intended," as he paused during a workout for the Penn A. C. meet.

He said he figured on running the first quarter in 60 or 61 seconds. Instead he went the distance in 56.8 to push himself 25 yards in front of the rest of the field.

The possibility of another Rideout "accident" in addition to another duel between Cunningham and his nemesis, Fenske, led Robertson to venture: "I see no reason why there won't be a 4:10 mile or better."

Frogs Drop 60th Cage Game 46-45 To Mustang Quint

DALLAS, Feb. 7 (AP)—The Texas Christian university Horned Frogs claimed their record of being the most "consistent" Southwest conference basketball team today—they're still in the cellar, a place set aside for them since 1934.

Last night the Frogs dropped their 60th conference game against five victories in five and a half seasons, tumbling before Southern Methodist university 46-35.

The Mustangs, as a result, forged into fifth place and Friday and Saturday play the sixth-place outfit, Arkansas Razorbacks, at Fayetteville to see if they can remain there.

The big game of the week, however, will be at Austin when the leading Texas Longhorns battle Baylor's Bears, right now looking as the toughest team to beat in the conference and needing all victories to remain in the running.

Coach Neely To Be Welcomed Tonight

HOUSTON, Feb. 7 (AP)—Jess Neely, the Southwest conference's newest football coach, gets his official welcome tonight.

There will be a dinner to which about 1,000 men have been invited to greet the man who becomes coach of the Rice Owls, replacing Jimmy Kitts.

Delegations are expected from Galveston, San Antonio, Beaumont, Fort Arthur, Corpus Christi and Bay City.

National Home For Broken-Down Fighters Proposed

BALTIMORE, Feb. 17 (AP)—A national home for broken-down prize fighters whose ring days are past and futures are dim was proposed today by Stanley Scherr, chairman of the Maryland athletic commission.

It would be a haven in a sunny clime where the battered ring performers get their ailments treated after taking the count from Father Time. It would be financed by all states, with a national governing body in charge.

Scherr said he would propose establishment of such a home at the National Boxing association's annual meeting in Milwaukee next September.

Fans Invited To See Game... No Admission

Coach Oscar Hinger's high-stepping Sophomores, undefeated in conference play, will tangle with a formidable foe here tonight at 7:30 o'clock when they meet the Stinnet Rattlers. Only one game will be played and there will be no admission charge made.

Basketball fans are invited to see the future Harvesters in action. With the exception of one guard, every boy on the starting line-up scores high in the air. Pat Flanagan is the tallest of the bunch, standing slightly over six feet. Then come Leslie Burge, Allen, Ott and Halter. Scoring honors for the season so far are about even among Burge, Flanagan, Ott and Halter. Allen has been the defensive star.

The Sophomores have lost only three games this season, dropping decisions to Class A Sperrman and Dalhart in tournaments and losing to the Harvesters second string.

Stinnet is reported to have a strong team. Recently the Rattlers held the Borgers Bulldogs until the final quarter before fading.

An example of industrial wastes put to commercial use is slag wool. It is made from iron, copper or lead blast furnace slag, alone or mixed with flux materials.

Finns Fear 'Chute Machine-Gunners

HELSINKI, Feb. 7 (AP)—The nightmare possibility of attacks by parachuting machine-gunners, loosed far behind the lines, was advanced today as the Finns noted mysterious scouting activities by Soviet Russian planes over territory suitable to such a "martian" maneuver.

The Finns have reported the scouting of previous attempts on a small scale by marksmen who killed the parachutists in the air.

If great numbers should be dropped, however, it was said they might prove troublesome to the rear lines of the Karelian Isthmus defenses and divert Finnish troops from the southeastern fronts where they have been holding the Russians at bay since the invasion began Nov. 30.

The Soviet aerial scouts were sighted yesterday over the vast Salma like system, north of Vilpuri.

Some military observers believed the Russians might try to drop sizable detachments on the stretches of ice in this wild countryside where the chances of landing alive would be enhanced.

1,670 Boy Scouts, Leaders To Take Part In Scout Week

Throughout the fifteen counties of the Adobe Walls Boy Scout Council the 1,670 boys and leaders will participate in the 30th Anniversary of the founding of the Boy Scouts of America from February 8-14.

Although the activities in the council will be most noticeable in the communities having the largest number of Scouts, each Scout unit will do its part by participating in this nationwide program. Letters from various parts of the Council announcing the activities for the week give evidence of keen interest on the part of both boys and adults in this anniversary event.

The activities for Gray county will begin with the annual election of the Boy Scout officials for the county and city at 7:30 P. M. Wednesday in the auditorium of the city hall. Two tickets have been drawn and the candidates named but very little information has been released about the preliminary election party. Some of the adult leaders have indicated that the election will really be "hot" and they would like to encourage the attendance of all adults at this meeting, especially Scout leaders, parents, and Scout leaders.

Scouts elected at the polls on Wednesday night will take over their elected offices on Saturday at 11 o'clock and it is hoped that the outgoing officers will cooperate by giving the necessary instructions and explanations to these new officials.

Program Planned

On Thursday evening at 7:30, Troops 13, 16, and 80 will participate in the annual Father and Son Banquet of the First Methodist Church to which all other Scouts and leaders are cordially invited.

Troop 4 of the First Christian church also plans a Father and Son Banquet at this same time to which all other Scouts and leaders are cordially invited.

On Friday night the Scouts of Troop 14 and the Cubs of Pack 14, co-sponsored by the Presbyterian church, will entertain their Scouts and Cubes with a "Chill" supper. The Scouts and Cubs will have charge of the program and it is indicated that the fathers will be royally entertained.

Other Troops throughout the council city and have planned other activities but it is hoped that each and every Scout troop will participate in its various activities long enough to listen to the National Broadcast of our Honorary President Franklin D. Roosevelt at 9:30 P. M. Thursday. National President Walter Head and Chief Scout Executive James West will speak on this program. At this time each Scout troop will re-dedicate itself to the Scout Oath and Law.

On Sunday, February 11, Scouts and Cubs and their leaders will attend their various churches, in uniform. In many churches special programs have been arranged for this anniversary service. Many ministers of the area will deliver appropriate sermons for the day.

Radio programs over KPDM are planned and Scouts and leaders are asked to keep tuned to this station for announcements of new developments in the activities of the Scout and Cub memberships showed a fine increase during 1939 and it is hoped that with the splendid ground work laid the past year the objective of 1939 boys of the roster by the end of 1940 will be reached. Ending the year with 980

Scouts, the increase was only 14% over 1938. The Cubs increased 200% however growing from 91 to 182.

The Scouters membership jumped from 342 to 458 and the Cubbers from 20 to 596. The grand total at the close of 1939 was 1656 while the 1938 figure was 1260. For 1940 there is an objective of 69 Troops and 14 Cub Packs, showing an increase over 1939 of 17 Troops and 6 Cub Packs.

New troops are expected to be organized in Pampa, Borger, Memphis, Wellington, Shamrock, McLean, Canadian, Miami, Perryton, Guymon, Hardesty, Spearman, Lakeview, Darrouzett, and possibly others. Pack will also be organized in a number of these communities during the year.

The Senior Scouting program is making an interest among the older boys and it is hoped that before the year ends a number of active Explorer or Sea Scout patrols will be established in the larger troops. Up to now very little interest has been shown in the older boy program of scouting by way of this route.

The greatest satisfaction is that of the increase in scouter membership during the past year as this is an indication that the council has now the necessary man power to carry on the program Scouting.

On Friday night the Scouts of Troop 14 and the Cubs of Pack 14, co-sponsored by the Presbyterian church, will entertain their Scouts and Cubes with a "Chill" supper. The Scouts and Cubs will have charge of the program and it is indicated that the fathers will be royally entertained.

Other Troops throughout the council city and have planned other activities but it is hoped that each and every Scout troop will participate in its various activities long enough to listen to the National Broadcast of our Honorary President Franklin D. Roosevelt at 9:30 P. M. Thursday. National President Walter Head and Chief Scout Executive James West will speak on this program. At this time each Scout troop will re-dedicate itself to the Scout Oath and Law.

On Sunday, February 11, Scouts and Cubs and their leaders will attend their various churches, in uniform. In many churches special programs have been arranged for this anniversary service. Many ministers of the area will deliver appropriate sermons for the day.

Radio programs over KPDM are planned and Scouts and leaders are asked to keep tuned to this station for announcements of new developments in the activities of the Scout and Cub memberships showed a fine increase during 1939 and it is hoped that with the splendid ground work laid the past year the objective of 1939 boys of the roster by the end of 1940 will be reached. SERIAL STORY

THE CAPTAIN'S DAUGHTER

BY HELEN WORDEN

YESTERDAY: Lynda is surprised when Mike Donovan calls on her again. Angry with Dan, she is determined to enlist Lynda's help in saving the boy from Marie. Their visit is interrupted by the arrival of the newspaper and its story of the fight. Lynda promises to stick by Dan.

CHAPTER XV

MARIE LA PORTE was in a reckless mood. It showed in the bright flush of her cheeks, the shining stars of her dark eyes and her excited talk. The newspaper reference to Dan Donovan's engagement to Lynda Martin had hurt more than she thought possible. Her one thought was to conceal it.

"Oh, Tommy, did you ever see anything so dazzling?" she exclaimed as they got off the bus at Times Square. "Look at Broadway."

It was as if a magician had veiled a drab scene in a shower of gleaming diamonds. The insistent clamor of automobile horns, the shuffle of a million feet and the hum of human voices lost their irritating quality and became part of an Arabian Nights spectacle.

"Not bad," Tommy took Marie by the arm and pushed through the crowds. "Here is Diamond Jim's. Like to have a drink?"

All eyes focused on the two as he ordered. Tommy showed his love in every possessive gesture. On the other hand, those watching could not quite make up their minds about Marie. While she offered ample inspiration for romance, whether or not it was with the boy at her side puzzled them.

In turn, Marie wondered about the people around her. She had often heard of this place, but nothing had prepared her for the hodge-podge of human beings swarming in and out. It was half-way house at the crossroads of the world. The drinks and food were cheap enough to make it popular with an unimaginable sort of people; here a tanned blond with over-rouged lips, there a ham actor, easily distinguishable by his pseudo-English accent.

Marie, her temper nearing the breaking point, was seized with a sudden, inconsistent fury. "You're always trying to boss me," she stamped her foot. "I won't have it."

Mrs. Atwood, unwilling to be involved, had slipped back to her table. Tommy called for the check, but before he got it Marie was gone. He darted after her, but finding her in the crowd was next to impossible. He raced down the subway steps, hoping to find her on the platform. He thought he saw her get in a south-bound train, but its doors banged

shut before he could jump aboard. Cursing, he leaned against a pillar and waited for the next train.

HE was right, Marie had boarded the train he missed. Her one thought now was to escape Tommy and be with her father and mother, and yet she feared to return. How could she have been so lacking in feeling as to cause them anxiety? After all, her father, difficult as he was, had only her interest at heart. She wished he understood her unhappiness.

ONCE in bed, Marie fell into an exhausted sleep. Once or twice during the night, she stirred uneasily as the barge rocked. Vaguely she wondered why it rocked. When she awoke in the morning she thought she saw trees through the window.

"It must be dreaming," she said to herself, and got up to look out. There was water all around the barge. The Molly was in the middle of the Hudson river. Marie recognized the Poughkeepsie bridge.

"Mama," she cried, running out into the main cabin, "what has happened?"

Her mother, already dressed, was getting breakfast. "We're going to Three Rivers," she said. "Your father felt you wouldn't be safe until he got you away from New York."

Marie was furious. "What about my job?"

"Your first thought, however, had been of Dan and not her work at Varnet's. Still in her nightgown, she flew up to the deck. Just as in the stern, keeping an eye on the towline that connected the Molly with the tugboat. He didn't see his daughter dart swiftly over to a valve and open it wide, but he heard her shout a few moments later.

"Papa," she cried. "The valves are leaking. The Molly will sink if we go on."
