CHAMBERLAIN DUE TO OUST CABINET HEADS

WRATH OF FARMERS AROUSED

Farmers living north of Dallas, Texas are ready to take justice in their own hands if authorities are unable to stop vandalism at the Rogers community church. High school students have been using the burial grounds nearby for petting parties and have destroyed much church property. Shown above is a member of the vigilance committee that has threatened to act if the vandalism is not stopped.

Fugitive Taken To Federal Reformatory

Lindell Morrow, alias James (Jim) Marson Taylor, 31-year-old Gray county welder arrested Friday after having escaped 13 years ago from a federal reformatory, was taken from Gray county jail today, bound for the federal reformatory at La Tuna, Texas.

Morrow had been convicted of an automobile theft in Illinois in 1927. He was sent to a federal reformatory in Chillicothe, Ohio, from which he escaped after serving about a year of a three-year sentence.

Whether Morrow would be required to serve out his full term, be pardoned soon, or the case against him dismissed was unknown to county officers here.

Morrow claimed, in an interview given at county jail Saturday, that he had never been in any trouble since his escape, had worked hard, and had been a good citizen. He alleged that the charge against him was the result of his driving a car in which he had been invited to ride while on a hitch-hiking trip to North Dakota to work in the harvest.

The Gray county man had lived near Pampa since 1937, is married, and the father of two children, a son, 4, and a daughter, 5. His family was unaware of his ever being a convict until his arrest Friday at Lake McClellan, where he was employed, by an FBI agent.

Income Taxes Running Ahead

WASHINGTON, March 21 (AP)—Secretary Morgenthau said today that preliminary estimates of annual income tax collections were running 31.2 per cent ahead of last year and "comfortably ahead" of President Roosevelt's budget estimate.

The treasury secretary said at a press conference that telegraphic reports from regional collection offices showed collection of \$221,000,000 of income taxes in the first 20 days of March, compared with \$437,000,000 in the same period last year.

March collections are always the biggest for income taxes because annual returns and at least first quarter installment payments are due on March 15.

At the same time, Morgenthau repudiated proposals to use some of the \$2,000,000,000 in the treasury's stabilization fund to avoid the debt limit.

"I certainly am not going to use the stabilization fund or any other trick method to avoid the debt limit," the treasury head said.

"It is strictly up to Congress and if they vote to spend money which will exceed the limit, it is up to them to do something about the limit."

"I don't think the \$45,000,000,000 limit is very important. There is no reason why it should not be 47, or 48 billion dollars. I would not worry if it was \$50,000,000,000."

"But it should be done in an open, legal way by Congress."

Also, Morgenthau said, he does not regard avoidance of the debt limit a justifiable use of the stabilization fund, which he termed a "nest egg" to be used in some "unforeseen national emergency."

"In this crazy world," he continued, "the time may come when we will get down on our knees and thank God that we've got this nest egg to use in an emergency."

I Heard . . .

That Howard Boyd has two quail making their home in his back yard.

That O. L. Boyington received two boats from the factory today and he's acting to get them on Lake McClellan.

Good Friday Services Scheduled At Churches

Final services in the observance of Holy Week will be held tomorrow at the First Methodist, Holy Souls Catholic, and St. Matthew's Episcopal churches.

At the Methodist church, Rev. J. Howard Williams, pastor of the First Baptist church of Amarillo, and Captain Herman Lambrecht of the Salvation Army, Pampa, will be in charge of the services, held from 12:30 to 1:15 in the afternoon.

Two outstanding musical events of the Easter season are the cantatas, "The Seven Last Words of Christ" and "The Holy City," which are to be presented Friday night and Sunday afternoon, respectively.

"The Seven Last Words of Christ" will be sung by the choir of the First Methodist church under the direction of Lester Aldrich Friday night at 8 o'clock in the church. Special soloists are featured in the presentation which is to be accompanied with music at the organ by Mrs. John Skelly and Mrs. H. A. Yoder.

On Sunday afternoon at 4:30 o'clock in the First Christian church Mrs. May Foreman Carr will direct the singing of "The Holy City." Several out-of-town artists will assist with both programs.

Dr. R. C. Snodgrass, pastor of the First Christian church of Amarillo, and Rev. E. M. Dunsworth, pastor of the Calvary Baptist church of Pampa, conducted the services at the Methodist church today.

The series of services, sponsored by the Pampa Ministerial Alliance, started Tuesday and will continue tomorrow. Attendance at each of the services has been 200.

At Holy Souls Catholic church, observance of Good Friday will start with the 8:30 o'clock mass tomorrow morning with the Mass of the Pre-Sanctified. At the mass, altars will be stripped.

From 12 noon to 3 o'clock will be held the three-hour service, which will include the meditation of the Passion of Christ, the Seven Last Words, Way of the Cross, and special hymns. For the benefit of those who cannot attend during the hour information will be held at 8 o'clock that night.

Eucharistic Procession Today

Children marched in the Eucharistic procession held in connection with the mass at 8:30 o'clock this morning. Elevation of the Blessed Sacrament is to continue at the church throughout today.

On Easter Sunday, masses will be held at 8 and 10 o'clock. Children will bring the Easter egg hunt to the church at 10 o'clock.

All children of the parish and of Holy Souls school are invited to join in the Easter egg hunt to be held at the church grounds at 9 o'clock Monday morning, after mass.

St. Matthew's

Holy Communion and a sermon in parts of the observance of Maundy Thursday will be held at St. Matthew's Episcopal church at 7:30 o'clock tonight.

A meditative service on the crucifixion will be held from noon to 1 o'clock tomorrow.

Children up to the age of 10 will have an Easter egg hunt on the church lawn at 4 o'clock Saturday afternoon.

At Holy Communion will be observed at 8 o'clock Sunday morning, followed by church school at 9:45. Members are asked to bring mite boxes. At 11 o'clock Holy Communion will also be celebrated and the sermon delivered.

Gasser Roars Wild At Artesia, N. M.

ARTESIA, N. M., March 21 (AP)—A million cubic feet gasser that roared wild west of here today put this town right on top of a possible oil pool and caused the biggest excitement since the first big oil production was encountered years ago east of Artesia.

The gasser belongs to a 20-year-old boy, William Dooley, Jr., who braved the fears of these community officials and hit gas at 938 feet, about half the production depth in the oil field east of here.

Dooley is the son of Will Dooley, who pioneered the Artesia oil field.

29 Pay To Guess When Pride-And-Joy Will Be Born

MINNEAPOLIS, March 21 (AP)—George Bestrom got so tired having friends ask when his first pride-and-joy was due that he started the "Bestrom baby sweepstakes."

Now when they ask he sells them a ticket at \$1 a chance—29 have bought.

The sweepstakes has a slogan: "You pay your money and you name the time."

It has a handicap: "The best medical authority indicates about April 6."

It is limited to "amateurs."

The race is: "Name the date and hour."

The raffle-off is: "A 10 cent administrative fee deducted from each \$1 by the sponsor" (Bestrom).

The expectant father said he wasn't sure whether "my wife is going to molder me for this" but since everyone seemed so interested in the event he decided to cash in "because it is costing me a lotta dough."

First prize lawn hose, one and two ply. Guaranteed. Hoffman's Service Station, 623 West Foster.

Daily Reports Given City By Utility Firm

Pampa Operations Included In Texas District Accounts

Acknowledgment of the city commission's resolutions of March 14, asking for an inspection of the Southwestern Public Service company's records relating to operating costs and revenues, kilowatt hours consumed in Pampa, and peak loads, was made in a letter to the city commission from J. E. Cunningham, Amarillo, general manager, Tuesday.

The city commission's resolution was in line with the proposed purchase of the Pampa plant of the utility firm and its operation as a municipal department.

Send Daily Reports

With the electric firm's reply was sent copies of the daily substation report for each day of the year ending February 29, 1940 for the Pampa central substation, thru which energy is supplied for Pampa and vicinity.

These substation reports show the daily readings of the station meter measuring the energy used from the transmission line and the power generated at the local plant at such times as it was in operation for emergency or auxiliary service, and also the daily peak loads in kilowatts and the time at which the peak occurred and, in fact, all the requested kilowatt and kilowatt hour information.

Accounting By Districts

The letter further states: "You have already been supplied with a copy of our regular annual report to the City giving information on revenues and operating costs for the year ending December 31, 1939. This report was prepared in the same manner as that regularly filed with the city in the past at this time of the year."

"As you have been advised in previous years at the time of the accounting is set up on the basis of the hour information by districts, our Pampa operations being included in Texas district accounts."

The accounting is set up on a district basis, the district being an operating unit consisting of a year.

See REPORTS, Page 4

2 British Liners Leave N. Y. Harbor

NEW YORK, March 21 (AP)—Two of the proudest liners of the British merchant fleet ploughed uncertain waters today in a gamble with war-time hazards of the high seas.

Slightly more than 12 hours after the 12,739-ton Mauretania last night slipped out through a misty rain from the pier where she had been tied up for three months, the giant Queen Mary nosed out into the sunlit Hudson and passed down the bay.

The destination of the two liners was known only to their commanders, who sailed under sealed orders, not to be opened until they were well at sea, but presumably sending them on dangerous missions as troop ships.

Both liners were draped in their camouflage gray, their windows blackened and all signs of identity blotted out.

Expanded Program For Scouts To Be Theme Of Meeting

An expanded program for the Adobe Walls Boy Scout council will be the theme of a meeting of the council executive board here on April 10.

Earl McClure of Dallas, deputy regional executive, will be here to discuss the new program. Raymond Harrah of Pampa, president of the council, will be in charge of the meeting.

The Adobe Walls council now has the largest number of Scouts since Executive Fred Roberts came to Pampa in 1937 his report reveals. When he came there were 55 troops with 1,045 boys registered. Because of failure to register troops or other causes, 12 troops and 171 Scouts were dropped. Now there are 65 troops and 1,049 registered Scouts in the council besides many cub packs.

It is believed not more than three troops will have to be dropped this year which is an exceptionally fine record according to Mr. McClure who was a visitor here this week.

Renaud Becomes French Premier

PARIS, March 21 (AP)—Energetic Paul Renaud today formally took the helm of the French government as premier and origin minister of a broadened "win the war" coalition cabinet drawn from the socialists on the left to groups of the right.

Edouard Daladier, whom Renaud succeeded as premier, stayed in the new ministry as minister of national defense. Renaud's former portfolio in the finance ministry went to Lucien Lamoureux.

Renaud and five other ministers constitute the inner war cabinet.

The five are: Daladier; Camille Chautemps, vice premier; Cesar Champinchi, navy minister; Senator Raoul Dautry, armament.

2,330 Car License Plates Sold Here

Payment of automobile registration fees at the office of F. E. Leech, county tax officer, has shown a consistent rise in the past three days, but declined today, April 1 is the deadline.

To date 2,000 passenger car, 280 truck, and 50 farm licenses for 1940 have been issued. Mr. Leech estimates, a total of 2,330.

Receipts from the registration of motor vehicles today were \$2,588.10. For Wednesday the amount was \$5,382.30, Tuesday, \$4,177.50, Monday, \$3,462.80.

Firestone lawn hose, one and two ply. Guaranteed. Hoffman's Service Station, 623 West Foster.

British Will Likely Bomb Subs' Bases

German Claims Belittled By Admiralty

LONDON, March 21 (AP)—Parliament recessed for the Easter holidays today amid growing reports that Prime Minister Chamberlain would reconstruct his cabinet during the interval before sittings are resumed April 1.

The house of commons sessions ended with outspoken criticism of two cabinet members. Chancellor of the Exchequer Sir John Simon and Lord Privy Seal Sir Samuel Hoare, voiced by Gregory Mander of the Liberal opposition.

"It is widely felt throughout the country that the chancellor of the exchequer and the lord privy seal are heavy liabilities both at home and abroad," he said.

Speculation outside commons mentioned Air Minister Sir Kingsley Wood and Supply Minister Leslie Burgin as ministers likely to be displaced by the prime minister in reshaping his cabinet for more vigorous prosecution of war tasks.

The air ministry, meanwhile, announced that one German plane had appeared today over the Shetland Islands and then vanished without dropping bombs when British fighting craft took to the air.

Children in the locality left their schools for air raid shelters during a 15-minute raid warning.

British Vessel Bombed

A British vessel, its name undisclosed, was bombed last night off the south coast. Five members of the crew were killed.

Germany's gun-bristling submarine bases in the Baltic are the next portable targets of British bombers, it was reported today as the belligerents disputed the results of their heavy exchange of blows across the North Sea.

The admiralty belittled a German contention that nine British warships and merchantmen had been sunk in an air attack on the North Sea.

See CHAMBERLAIN, Page 4

2 Doberman Pinscher Dogs Entered In Show

Several hours after Frank Dial entered his 5:50 Baltimore retriever, Siskadee Texas Queen, in the Pampa handle dog and bond show to be held here April 7, two of the most interesting dogs yet encountered were entered.

They are Doberman Pinschers, Simba and Tiptin, both owned by Earl Scheig, 804 North Gray. The breed is well-known in the East, but it is believed that the Scheigs have the only Doberman Pinschers in Pampa. The breed originated in Germany in the 1800s. The dogs have short hair and are black and brown. They are big, and very obedient. That is, the Scheig dogs obey Mrs. Scheig to the letter.

Several changes in the original plans for holding the show were announced today. Entrance fee for entering one dog will be two tickets to the show, both of which will cost 50 cents. A person may use the tickets or sell them, as he prefers. This arrangement will enable many children to enter, and also give them a chance to earn the entrance fees. Persons entering dogs will be admitted free.

If it is a pretty day the show will be held at the grandstand at Recreation park. The dog bench will be built next to the railing at the front. Interest in the show is growing daily, and from 125 to 150 dogs are expected to be entered by the deadline which will be noon the day of the show.

Hundreds of people are expected to attend from all over the Panhandle.

Because this is the first Panhandle-wide dog show ever held, hundreds of people are expected to come from all over the Panhandle to view the animals. Trophies will be given winners of all breeds and to the grand champion. Admission to the grandstand will be 25 cents per person. Competent judges will be used.

Dog owners are urged to fill out the entry blank below and mail, or bring it to the News.

Recent entries include the following:

Pat King, 115 N. West, Chow
 Fred H. Brownlee, Pampa, Chow
 Marjorie Richardson, Canadian, Pekinese
 Don Stevens, 1142 West, Chow

See DOG SHOW, Page 4

You Don't Have To Own Property To Vote April 2

Requirements for voting in Pampa's city election on April 2, when a mayor and two city commissioners are to be elected, are the same as for any other election. F. E. Leech, county tax officer, said today.

Mr. Leech's office is in charge of poll tax receipts and exemption certificates, required of voters in all elections.

To vote in the city election, one does not have to be a property owner, except in the case of a bond election in which case the voters must be a property owner and in addition his name must appear on the tax rolls. The April 2 election is to elect city officials.

In cases where voters have moved from one precinct of the city to another in the same city since securing their poll tax receipt or exemption certificate, these voters must come to the county tax office and secure a transfer not later than four days prior to the election.

To vote in the election called for April 2, Pampans must have poll tax receipts or exemption certificates, be 21 or older, citizens of the United States, residents of the state for one year, the county six months, city six months.

Place of the election will be the city hall, with George W. Briggs as manager, A. A. Tleman and Mrs. Glen Pool, judges, and Alex Schneider and Charles Burton as clerks.

Pampans To Attend Laketon Box Supper

C. A. Huff and his Chamber of Commerce goodwill committeemen will lead a group of Pampans to Laketon school Friday night for the first box supper of the year.

The trippers will leave from the city hall at 7:30 o'clock. Those without transportation may call the Chamber of Commerce, telephone 383, and register.

"Everyone is invited to go out to Laketon and have a good time," Mr. Huff announced today. "The supper is being sponsored by the school P.-T. A. and proceeds will be used to purchase equipment for the school."

Jimmie Olson Given 'Best Cowboy' Award

Jimmie Olson of Pampa was awarded the Montgomery Ward & Co. saddle for the all-around cowboy championship at the Fort Worth Stock show recently.

In addition to the fine stamped saddle, Olson received a total of \$500 in cash, including the award for bullrogin.

Announcement of the Fort Worth awards was made in a bulletin of the Southwest Rodeo association, of which Carl A. Studer of Canadian is secretary, released today.

I Saw . . .

Thousands of eggs being dyed for C. P. Pursey's 16th annual Easter egg hunt at Miami for the children of the Northeast Panhandle. Not only are Miami children invited but Pampa children also. Last year 350 children entered. Mr. Pursey gives prizes of suckers, and candy for the children who find the most eggs. The hunt is held at the Pursey home which is on the left just as you enter Miami. Mr. Pursey started the Easter egg hunt 10 years ago and says he expects to keep it up as long as he lives. He says he has more fun that day than any day during the year.

All Bets Off On 'Line Is Busy'

"Swap telephone numbers. Then, if you get to work on it, you'll be wearing engagement rings in 90 days," said an Oklahoma City preacher to his congregation of 40 men and 150 women the other day. His "Amen" if those 60 men get themselves engaged to the 150 women, will the telephone company be expected to straighten out the kinks in the swapping? You needn't answer. Only please remember that a call to 695 is all that is needed to get a classified want inserted the way and you will be connected directly with results.

Noted Psychologist Writes New Feature To Start In News Monday

By MADELIN BLITZSTEIN
NEA Service Special Correspondent

Dr. Donald A. Laird, Ph. D., Sc. D., handsome, graying, goateed veteran of college lecture halls and experimental laboratories, was named today as the next celebrity to join the staff of The News to contribute a series of 18 articles on questions of modern psychology and living. First of Dr. Laird's short daily discussions "Does It Pay to Tell About Our Troubles?" will appear in The News on Monday.

Dr. Laird is no "ivory-tower" professor who spends his time with long-winded theories, and he looks offended if someone asks him what practical application there is to modern psychology. As a matter of fact, Dr. Laird, who was graduated from the University of Dubuque, Iowa, some years ago, and who was engaged in giving mental tests in the United States navy during World War No. 1 to detect men who had mental peculiarities, is, in his own words, a "peace-loving psychologist interested in doing research which will help people get along" rather than in arguing with this or that psychologist about his pet theories.

APPLIES HORSE SENSE TO PSYCHOLOGY
Like Mr. Dooley, Dr. Laird believes that if it works, there is something to it, even though the thing that works may disagree with even your own pet belief.

Dr. Laird's background is not that of a pedagogue whose sole interest is education. A native Hoosier, he started out from scratch and made his first salary—fifty cents a week—helping out in the printing end of a county weekly.

At college he began by specializing in chemistry; then he switched to biology and physics, and finally he chose the field of psychology for his doctor's thesis. Thus he brought to his study of people and their reactions to circumstances a practical, scientific background.

In recent years he has not only been successively connected with a long list of universities as a member of the faculty, including Wyoming, Iowa, Northwestern, Colgate and Yale, as well as giving lectures at Mount Holyoke, Vassar, Stevens Institute of Technology, Army War College, Lafayette, Hobart and the Wharton School of the University of Pennsylvania. For 14 years he was director of the famed psychological laboratories at Colgate university.

Dr. Laird's articles will appear in The News under the general title of "Right or Wrong About People."

Some psychologists say a person's interest in life can be measured by his newspaper reading habits. If he finds at least one story of interest to him on each page, he probably lives a "well-rounded life."

Dr. Donald A. Laird... interested in helping people get along.

Finland Asks Aid For U. S. Volunteers

HELSINKI, March 21 (AP)—American volunteers in Finland will remain indefinitely, it was disclosed today by the Finnish association, which appealed for continued contributions of supplies for the American unit.

American volunteers, continuing to arrive, are being assigned with their unit to border patrol duty and reconstruction work.

The newspaper Uusi Suomi said today that Finland's coalition war government, formed by Premier Risto Ryti Dec. 1, the day after Russia started her invasion, is expected to resign immediately after the Easter holidays.

The newspaper said it was likely that President Kyosti Kallio would ask Ryti to remain as premier.

Meanwhile, the removal of Pines from the Karelian Isthmus, ceded to Russia in the peace treaty of Moscow, March 12, has virtually been completed.

Fastest Climbing Plane Given Test

ST. LOUIS, March 21 (AP)—A "deadly" defensive weapon against bombers—an "interceptor" plane which can climb at a rate of more than a mile a minute—is being produced for an undisclosed foreign government at the St. Louis plant of Curtiss-Wright corporation.

Test flights of the first plane off the production line yesterday showed it was "the fastest climbing type in the United States as well as the fastest climbing plane in the world, to our knowledge," said C. W. France, general manager of the factory.

The ship fairly leaped off the ground after a short run and the test pilot reported later he flew vertically during part of the flight. The plane has a speed well over 300 miles an hour.

"This type of plane is much more effective than anti-aircraft batteries in combating high-flying enemy bombers because of its mobility and the rapidity with which it may be directed against an attack," France said.

Market Briefs

NEW YORK, March 21 (AP)—Stock market buyers panned a flat market for the day, even favorites lost altitude in the tail-end of the session.

European affairs, particularly intensification of aerial warfare, brought further stimulation for the plane group at the opening. Spotty business trends in some sectors, however, served to chill bullish propensities for various industrial base advances, resulting in a point of no return for selected issues. The morning, were cut down substantially or eliminated after mid-day. Closing prices were moderately mixed.

One incentive for traders to cash in small profits according to the medium rallies of the past few days, brokers said, was the fact the exchange will be closed tomorrow for the good Friday holiday.

With the ticker tape frequently resting in the final two hours, transfers were around 850,000 shares.

OKLAHOMA CITY, March 21 (AP)—(U. S. Dept. Agr.)—Cattle: total 900; calves 200; little done on few beef steers; underdone steady on most killing classes of cattle; beef cows mostly 5.00-6.50; culler and cullers 3.25-5.00; bulls 3.00-4.25; weaners to 10.00; must slaughter calves 5.00-6.50; few to 9.00 and above; slaughter best steers; better grades yearlings and calves fully tandy; most sales 6.50-9.25.

Hogs: salable 1,550; total 1,800; unevenly steady to 10 higher; top 5.30; most sales good 17.00-20.00; 2.10-2.50; 140-160; the majority 4.00-5.00; packing sows 3.75-4.25; stags to 3.75; stock pigs 2.50-3.00.

Sheep: salable and total 1,000; early sales medium to good; fed steers 3.00-3.50; some held upward to 10.00; good fed heifers 8.75-9.50; most fat cows 8.50-10.00; odd sausage bulls up to 6.50; good to choice weaners 8.75-10.00-10.00.

Sheep: salable 2,500; total 3,300; no early sales; best fed lambs held above 10.10.

CHICAGO PRODUCE

CHICAGO, March 21 (AP)—Butter 17-7.00, steady prices unchanged. Eggs 31-35, steady, prices unchanged. Poultry live, 4 trucks, steady prices unchanged.

CHICAGO GRAIN

CHICAGO, March 21 (AP)—Nervous price fluctuations characterized wheat trading today in the market absorbed profitable sales and bargains placed against both wheat coming into commercial channels.

This resulted in a fractionally lower close although prices at one stage were almost cent higher than yesterday due partly to continued buying based on European developments.

Wheat closed 1/2 lower than yesterday. May \$1.65 1/2, July \$1.05 1/2. Corn unchanged to 1/2, May 50 1/2, July 57 1/2. Oats 5 1/2 lower.

Table with 3 columns: Month, High, Low, Close. Includes May, July, Sept.

Harrah Chapel Conducts Class In Church Membership

A class in instruction for church membership is being held at Harrah Chapel Methodist church Thursday and Friday at 4:30 o'clock and Saturday morning at 10 o'clock.

Tonight the fourth in a series of services in the Spiritual Clinic being conducted at Harrah chapel will be held with the pastor, the Rev. H. H. Bratcher, speaking on the topic "Doctor Quick Says."

Friday night will mark the close of the two series of services, one held at McCullough Memorial last week and one this week at Harrah chapel, when a communion service will be held with both churches participating.

Gulf Employees To Be Honored Tonight

Many employees of the Gulf Oil corporation in the Pampa field will be honored at a banquet in Pampa tonight. Honor men will be company 10 years or more.

There are 80 men in the field who are honor men and more than 30 of them work in the Pampa area. Several company officials will be present at the banquet and meeting.

The silk industry in China has flourished for 4,000 years.

Austin And Tobey May Bury Hatchet

WASHINGTON, March 21 (AP)—Declaring "the little census blitzkrieg" had about spent its force, William L. Austin, director of the census, appealed today to senator Tobey (R-NH) to make peace by admitting that he had erred in his denunciation of questions to be asked in the enumeration.

The census director made public a long letter to the senator, who recently won the senate commerce committee's approval of a resolution asking the census bureau to abandon proposed inquiries about personal income. Tobey appealed vainly yesterday to senator Barkley of Kentucky, the democratic leader, for an agreement that the resolution would be taken up in the senate before the census started April 2.

O'Daniel Puts Out Industrial Pamphlet

AUSTIN, March 21 (AP)—Governor W. Lee O'Daniel was in the publishing business today—in a very minor way.

Although it did not mention the governor's name, a pamphlet called "Texas Industrialization News" issued from the executive department's industrial division yesterday, was published "occasionally" in the interests of O'Daniel's industrial campaign, was paid for out of the department's funds and would be mailed members of O'Daniel's local industrialization committees and others.

Each one a mirror masterpiece at an attractively low price! FREE! We have a limited supply of the Nurre Booklet—"How Famous Decorators Would Use Mirrors in Your Home." It gives helpful hints on decoration—tells how to choose a mirror that gives undistorted reflections and will not flake, peel or discolor. Ask for it!

TEXAS FURNITURE CO. "WE ARE INTERESTED IN YOUR HOME"

Russia Should Be Studied By Americans, Says Lecturer

Whether Americans like what the Russians are doing or not, Soviet Russia holds the balance of power in Europe and the industrial progress makes it a rival of the United States, Dr. John A. Morrison of the University of Chicago, told a crowd of 500 persons at a lecture delivered at 8 o'clock last night in the Pampa High school auditorium.

He described Americans who did not like to talk about Russia as being in the same class as those citizens who in 1917 banned German from the schools.

"We must park our emotions at the door," Dr. Morrison said. "The interest is what governs most countries. That same self interest may lead us to war, but at least we will go into it with our eyes open.

Bad Season For Experts

"You know we Americans like to think of ourselves as a practical people. Truth is, we are sentimentalists, crusaders."

Proceeding his prophecy that the "war in Europe has just begun," Dr. Morrison humorously pointed out how two forecasts of his went awry: one that the Nazi-Soviet pact would never happen, the other that Russia would not go to war.

"These are bad days for experts," the lecturer commented. "They have more casualties in their ranks than occur on the western front—which may or may not mean anything."

Dr. Morrison in 1930 and 1932 was a member of the Anatolian Expedition of the Oriental Institute of the University of Chicago. In 1937 he attended the 17th international geological congress in Moscow, participating in its Siberian excursion.

At the outbreak of the war, September 1, 1939, he was in Moscow, leaving several days later by airplane.

Old Suit Buys Ticket

An old suit was the means Dr. Morrison used to obtain money for plane fare. He said he had taken an old suit of his on the trip to Russia, to wear out.

As American dollars could be changed into rubles, but rubles not into dollars, Dr. Morrison did not wish to be the loser in any exchange transactions.

Therefore, he took the suit to a store and it was sold to the merchant for 350 rubles. Cost of the 69-hour plane trip from Moscow to Stockholm was 315 rubles, Dr. Morrison said.

Contains 11 Republics

Tracing the rise of the Soviet power, the lecturer said industry in Russia was a series of jumps on the five-year plan and the nation was now in its third "jump."

These salient facts were cited: The Union of Socialist Soviet Republics, correct name of the country, consists of 11 major republics, with a population of 11 million persons, representing 180 nationalities, and speaking 150 dialects and languages.

Third Industrial Nation

Soviet Russia has 10 time zones, is 3,000 miles long north and south, 6,000 miles east and west, contains the biggest black land belt of fertile soil in the world; has the world's greatest forest.

In world industrial rank, Soviet Russia is now third. A decade ago it was sixth. It leads the world in oil reserves, is world's second greatest oil producer, has second greatest world supply of coal, ranks in the same place in gold production, and has the greatest world natural resources of copper, lead, zinc, magnesium, chrome, tungsten, and bauxite.

The greater part of the Soviet Union is in Asia. Here, as a parallel to the western part of the United States, are arising steel mills, railroads, and other industries, a Russian "Youngtown" area. One of these regions is in the Urals, the other near Mongolia.

Convicts Built Canal

Projects of the Soviet Union were explained by the speaker. These included the Moscow water supply from the Volga, and the Volga canal, built by 100,000 convicts, the Moscow subway with its 85 stations, each in different architectural style, and the use of marble, granite, alabaster, mosaic, and murals in the work.

"Stalinque" Architecture

Architectural styles were described, including the 1923 international concrete-lattice hotels and apartment houses, and the newer style known by aliens as "late Stalinque." Also described was a model of the proposed Palace of the Soviets, a building designed to be 113 feet higher than the Empire State building, and surmounted with a 300 foot stainless steel statue of Lenin, with auditorium to seat 21,000 persons, having 148 elevators, 62 escalators.

Humor Enlivens Talk

Interspersed throughout the lecture were the speaker's timely and intelligent quips. Lantern slides were exhibited to give more insight into the talk.

In the forum held after the lecture, it was brought out that Russians pay a sales tax, can accumulate on kind of goods, can go to churches and have worship there and in their homes, family life is encouraged to cut down juvenile delinquency, socialized medicine is in practice in strange contrast to the inhuman waste of lives in construction, purges, and the famine of 1932 when three million Ukrainians perished.

Travis Lively, president of the Pampa Rotary club, was in charge of the program. Preceding Dr. Morrison's appearance, the Pampa High school band entertained the crowd, directed by A. C. Cox.

Wreck Theory

COLUMBIA, S. C., March 21 (AP)—Former state representative D. A. G. Ousie has his own theory about why automobiles "kill more people than trains."

In a talk to legislators, the elderly ex-lawmaker commented that "an engineer doesn't hug the firmman. That's the reason."

South Africa is the world's greatest producer of gold, the United States second, Canada third.

Gov. Olson May Not Extradite Floridan

SACRAMENTO, CALIF., March 21 (AP)—Gov. Culbert L. Olson, studying amazing charges of cruel and inhuman treatment of Florida chain gang convicts, says he is convinced that Harry Blossdale should not be extradited to the Ralford, Fla., prison from which he escaped five years ago.

The governor, who talked by telephone yesterday with Gov. Fred B. Come of Florida, said he believes Blossdale had become fully rehabilitated during the five years he had lived in California since his escape.

Olson said he would not definitely deny the extradition request, however, "until I hear further from Gov. Come."

Blossdale admitted he escaped from a jail at Tallahassee while being returned to the road camp after hospitalization.

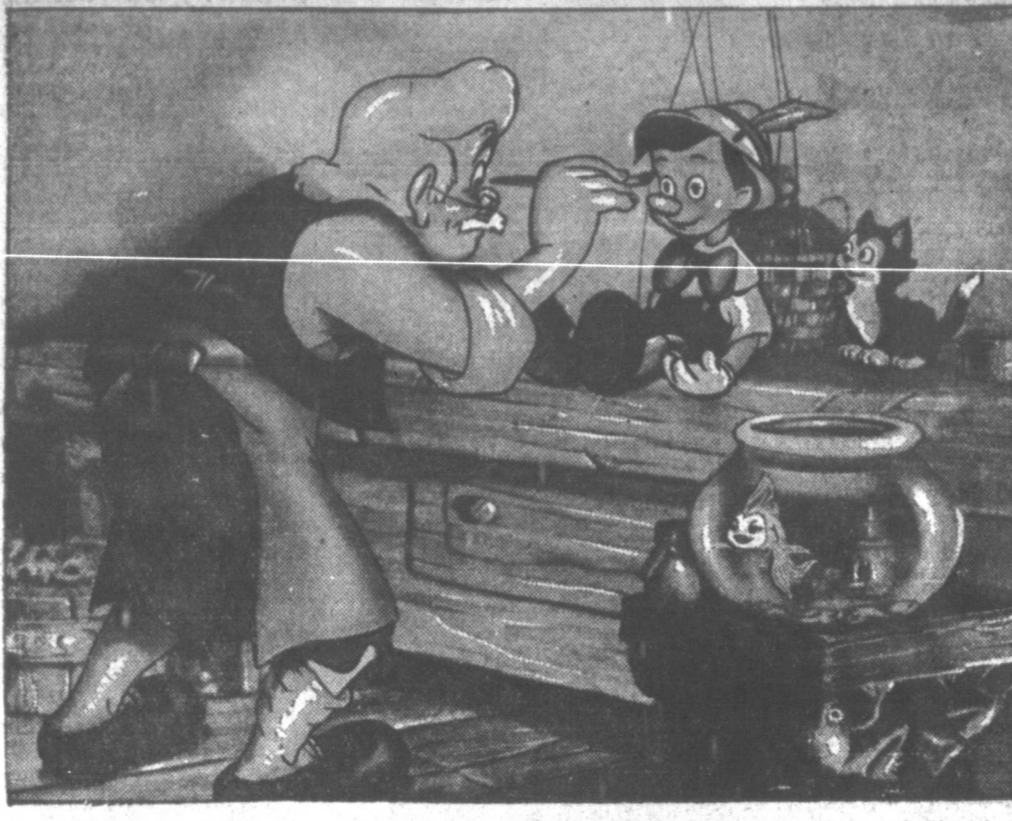

Olson Zareck, attorney for the fugitive, said Blossdale had lived in Los Angeles without any attempt at concealment and using his true name. She presented scores of letters, telegrams, petitions and affidavits protesting the extradition of the world war veteran, who was sentenced to a 15-year term for robbery.

Blossdale charged that road gang prisoners were treated so inhumanly several convicts chopped off hands or feet to escape work.

Documents bore tales of floggings, suspension by the wrists, starvation rations, sweat-box torture and the shooting to death of prisoners by guards.

The charges brought a vigorous appeal from Florida prison officials.

NEW DISNEY PICTURE OPENS HERE FRIDAY

Geppetto, the old woodcarver, puts the finishing touches on the puppet he wishes were a real son, Pinocchio, the kitten and Cleo the goldfish smile approval of the old toymaker's handiwork, in an early scene in Walt Disney's second feature-length picture, "Pinocchio," filmed in multiplane technicolor and released by RKO Radio. Pinocchio comes to life and encounters many hilarious and exciting adventures in a production that is a worthy rival to "Snow White and the Seven Dwarfs." The picture is having its first Pampa handling showing in Pampa, starting a week's run Friday at the Crown theater.

Ukulele Ike Returns In "Pinocchio"

By JACK STINNET
(AP) Feature Service Writer
NEW YORK—If you haven't met Jimmy Cricket, it's because you haven't seen Walt Disney's "Pinocchio" or because your memory's too short to recall Cliff Edwards, the round-faced, pop-eyed little fellow, whose ukulele crooning made musical history in the jazzman days of the Turbulent Twenties.

Jimmy Cricket is the Dopey of "Pinocchio." He's the unheralded star, the comedy sensation. From the moment he opens Disney's new masterpiece, warbling in his crickety tenor, "When You Wish Upon A Star," the audience is his.

And Jimmy Cricket is Cliff Edwards—Cliff reduced to animated line of color.

Of Uncertain Age

When you first meet Jimmy, he is in rags and tatters, evidently fallen on lean days. Cliff had them, too. When you see Jimmy last, he's proudly polishing a golden badge for work well done. Cliff has had his golden rewards, too, for songs well sung.

Like Jimmy Cricket, Cliff Edwards is ageless. He was born on a houseboat, somewhere on the Mississippi. He recollects vaguely that he was told it was in the vicinity of Hannibal, Mo., but whoever told him that forgot to mention when it was.

It's never worried Cliff, but it kept him out of the last war.

"Dawgone disappointment, too," says Cliff. "I didn't want to fight. Just figured it'd be fun to go out to Yaphank and sing with Irving Berlin and the boys."

Cliff was in Chicago in those days. I forgot to ask him if it was one of his up years or down years. He probably wouldn't remember anyway. You get the idea that being up or down never made much difference to Cliff.

It's a matter of record that the ukulele was his big break. Ukulele made the ukulele business a major industry. He was the first of the kingpin crooners. Nostalgic souls can still go lush over the memory of Cliff's warbling of "June Night." Sales of his recordings mounted to eight figures. He was starred in Broadway musicals. He went to Hollywood in the big money.

His Voice Was In 'Gone'

The ukule era passed, but Cliff stayed on. He's never been out of work for long. Hardly a critic failed to note with praise his bit in "Gone With the Wind"—even though there, too, only his voice was heard.

There's nothing in his career, though, that Cliff has enjoyed as much as being Jimmy Cricket.

"Dawgone if that little bug doesn't get to you. I went to see the picture the other night. First time. Yessir. And I laughed and I cried like everybody else. Dawgone if I didn't. I'm going back some more. I'm going to get up there in that balcony on Saturday and just watch those kids.

"You know what I'd like to do? I'd like to spend the rest of my life working for Walt Disney. Dawgone if I wouldn't. He's the greatest guy in Hollywood."

Then, for no reason at all, Cliff

Canyon To Be Site Of NYA Aero Unit

AUSTIN, March 20 (AP)—The National Youth Administration will establish Junior Aeronautical Mechanics units April 15 at Waco, Marshall, Fort Worth, Canyon, Houston and Ranger, State Director J. C. Kellam announced today.

Kellam said the units would permit underprivileged youth to learn fundamentals of an industry fast becoming one of the foremost in the country. The course will include aerodynamics, mechanical drawing, sheet and metal work, welding, fabric work.

In a talk to legislators, the elderly ex-lawmaker commented that "an engineer doesn't hug the firmman. That's the reason."

South Africa is the world's greatest producer of gold, the United States second, Canada third.

Juror Talks Right Back At Attorney

PITTSBURGH, March 21 (AP)—Coleman Malone isn't one to let a question go unanswered.

Defense Attorney Samuel Strauss was trying to convince a jury that Norwood Long, 35, waiter, didn't get \$528 that Mrs. Stella Pistorius charged he converted fraudulently.

"Do you believe," declared Strauss in his argument, "that a woman whose husband was working on the WPA would be carrying \$528 in her stockings? I wouldn't."

"I wouldn't believe it either," answered Laborer Malone, foreman of the jury.

The attorney cautioned him about procedure and repeated the question.

"I still wouldn't believe it," continued Strauss.

"I wouldn't either," came back Malone.

A mistrial was declared.

Higher Court Records

AUSTIN, March 20 (AP)—Proceedings in the Supreme Court today included:

Applications dismissed W. O. J. Coyle vs. judgment;

Luther McKinley et al vs R. L. Galt et al, Gregg; J. S. Webb vs C. R. I. & G. Ry., Co. et al, Potter.

Application dismissed for want of jurisdiction:

Dowlen et al, Jefferson; The Travelers Ins. Co. vs the Reed Co., Jefferson; Ben Robinson vs Connecticut General Life Ins. Co., Jefferson.

Motions for rehearing submitted:

T. & P. R. Co. vs Beatrice Compton, Galveston.

Rio Grande Valley Has Soaking Rain

HARLINGEN, March 21 (AP)—Farmers and cattlemen of the Rio Grande valley were wearing broad grins today occasioned by a soaking rain that covered a wide area and broke a six-month drought.

Corn, cotton, truck gardens, fruit trees, citrus and ranch lands were greatly benefited by the downpour which ranged up to two inches.

The rain, however, was not sufficient to replenish the Rio Grande which has been running very low.

Greco-American Editor Visits Pampa

Leonidas N. Stellakis, New York City editor and publisher of The Pampa News, nationally circulated Greco-American newspaper, and one of the nation's outstanding foreign language newspapermen, paid a visit Wednesday to The Pampa News.

Mr. Stellakis, a cousin of Philip Crown, owner of the Crown theater in Pampa, stopped off in Pampa with Mr. Crown. He left last night for Amarillo and will go to Dallas and Oklahoma City before returning to New York.

Member Of Art Academy Will Teach At WTSC

CANYON, March 21—Grant Reynolds, distinguished American artist, who will be a member of the faculty of the Palo Duro school of art here next summer, has just been elected an associate member of the National Academy in New York.

The academy is the only national institution with a long tradition of representing the best things in American art, and membership in it is achieved by relatively few artists. Among its members have been Winslow Homer, Sargent, George Inness, Eakins, LaFarge, Whistler, George Bellows, and other notables in American art.

Mr. Reynolds will be artist-in-residence at the art school here for six weeks beginning June 4. It will be the fourth session for the art school managed by Miss Isabel Robinson of West Texas State college. Miss Robinson will teach during a portion of the summer. Other members of the faculty will be Derrald Swineford, who will teach pottery, modeling and wood carving, Alice Nichols, specialist in metal work and drifery, and Donald Weisman of Illinois, who will teach art education and history. The art school will continue through all 12 weeks of the summer session.

Members of the art colony will live in picturesque Buffalo Courts, the athletic plant dormitory, which will undergo a considerable improvement before the summer session. The large recreation hall will be used as a studio. Daily trips will be made to nearby canyons, lakes, streams and ranches.

The island of Madagascar is nearly as large as the state of Texas.

HAPPY RELIEF FROM PAINFUL BACKACHE

Many of those gnawing, nagging, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, loss of pep, and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Mobeetie-Allison Girls Nose Out Reydon 27-23

Special To THE NEWS

MOBEETIE, March 21—The Mobeetie-Allison girls basketball team, organized to meet Modesto of California Tuesday night here, went to Reydon, Okla., last night where they defeated an All Star team 27 to 23 in an overtime game. The Reydon team will enter the Oklahoma A. A. U. tournament this week-end.

With Smith and Shelton of Mobeetie making 10 points each and Garner, of Allison holding McGree of Reydon to 10 points, the game was a thriller from whistle to whistle. McGee is tall and one of Oklahoma's outstanding players but she was unable to break away from Garner to run up her usual 20 and 30 points.

Three members of the Reydon team were from Weatherford college and others from top teams in the area.

When the fourth quarter ended the score was tied at 19 to 19. In the overtime the Texas scoring team broke loose for the win.

M. D. Blankenship of Mobeetie and John Peoples of Allison coached the Texas girls composed of players from the 1939-40 Mobeetie school team which was runner-up in the state tournament this year and girls from last year's Allison state high school and A. A. U. championship team.

BITS ABOUT BOWLING

The Humble Oilers turned giant killers in the Oil Belt Bowling League at Berry alley last night to take three straight games from the league leading Texas company. The Kiwanis club dropped Barnes & Hastings two out of three.

Humble bowlers topped 2,542 pins. Kiwanis club 2,602 and Barnes & Hastings 2,588 while Texas company rolled 2,414 in losing. R. M. Johnson of the clubmen rolled high game of 229 and high series of 582 pins.

Dog Fashions Start In U. S. Show Rings

NEW YORK, March 21—Pet dog fashions start in the pure-bred bench show rings. Sometimes certain breeds become national fads after they have gained prominence through competition in American Kennel club fixtures. Again, they remain as "models" that are exclusive to the large fraternity of pure-bred breeders and exhibitors. The fanciers would rather have their dogs remain popular among breeders than become numerous among laymen. When a breed reaches the stage of popularity it is in such demand that it is not indiscriminately and the quality deteriorates.

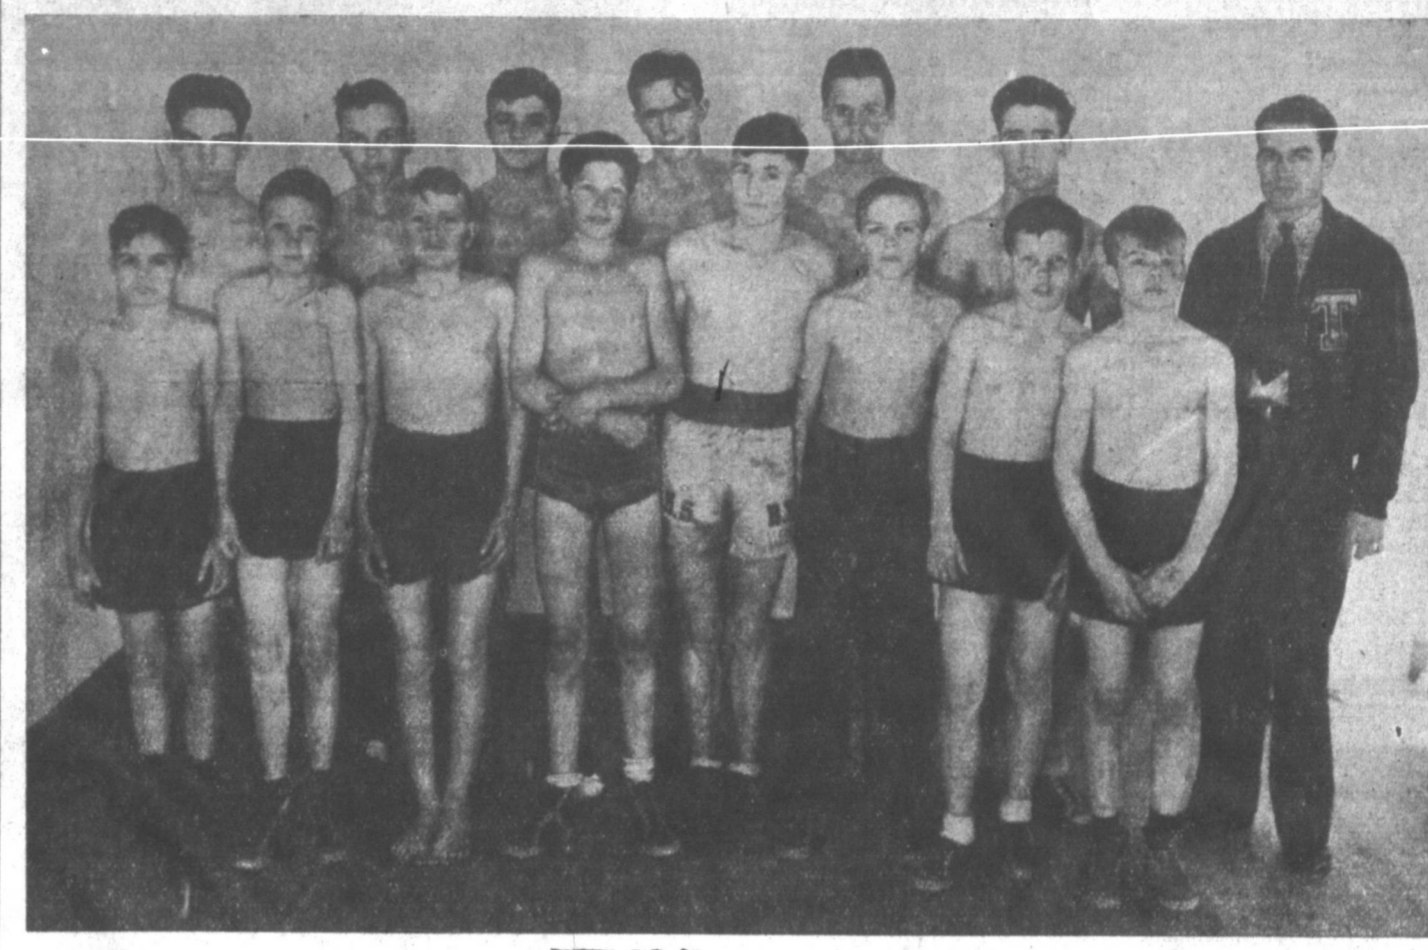

Any breed that attains foremost popularity ranking usually remains at the top rank in AKC Stud Book registrations for six or eight years. When the peak of its climb has been reached it takes a nose dive that may carry it down to 25th place or more. This was the case with the German shepherd, which now has fought its way back to 19th place. Incidentally, judges of this breed say that we now have far better specimens in the United States than when one third of all dogs registered by the AKC were of this breed.

The breeds whose names get into the headlines and streamers as a result of winning major show honors usually start moving upward. Apparently dog lovers scan their newspapers very quickly, for plenty of other breeds are mentioned in smaller type.

During 1939 there were several newcomers to the ranks of those breeds which have set dogs up to best in show. The Saluki was one. The big moment for this ancient Egyptian breed coming at the Wilmington, Del., show. In Reno, Nev., a Keeshond captured best of all breeds, and new interest was stirred in this Dutch variety. At Springfield, Mass., a Great Pyrenees landed the foremost award, and now many want to own specimens of this Basque shepherd's helper.

Curiously, the size or any other detail of the breed's make-up has little effect on the dog lover once the fad to own a certain type of dog hits him.

STRONG STINNETT RATTLER BOXING TEAM COMING FRIDAY

This Stinnett Rattler boxing team is composed of many mitters who rank as strong contenders to represent the northern division in the tournament of champions with the south

division. Stinnett last Saturday night took four first places in the finals of its own tournament to tie Pampa for top honors. The Rattlers, coached by Floyd Mur-

ry, now are preparing for the Pampa meet this week. Left to right, front row: Leroy Sargent, Grady Wilkins, Noble Hendren, Ivan Luginbuhl, Bud Yount, G. W. Denny, Donald

King, Jack Sessions. Back row: Jack Williamson, Jack Sargent, Pat Lankford, Warren Denny, Earl Jasper, Charles Strother, Coach Floyd Murry.

Fights Will Open Friday Night At Gym

Classy high school boxers will vie for honors at the Pampa high school gymnasium Friday and Saturday nights beginning at 8 o'clock. Several of the boys are undefeated this season with the bunch being led by ambidextrous Echrif of Follett, Bugs Denny and Roland Berger, both of Stinnett.

There'll be fights on the card that if staged in some large city would draw thousands of fans.

Close Fights Expected

Another outstanding fight in the Stinnett tournament and one that is liable to take the card here will be the meeting of Doug Loveless of Pampa and Pat Lankford of Stinnett, a couple of terrific hitters. Lankford won the nod in Stinnett but hurt his hand.

A boy by the name of Youek from Follett is at present ruling the roost in the 135-pound class but he'll have to win again here to prove that he's better than Roy Yount of Pampa who lost a hairline decision in Stinnett. Ray is the boy who lets his punches drive about six inches yet land with the speed of a pile driver.

Lefty Pendleton of Pampa reigns at 145 pounds but his title will be in a precarious position here with Calloway of Canadian and Larkey of Follett in the same weight division.

The heavy divisions will be contested here with Jennings and Bassell of Canadian and Carlisle and Mullings of Pampa winners by default in Stinnett, defending the top four classes.

Little Fellows Good

All the glory doesn't go to the big boys. There's Bugs Denny of Stinnett, a 75-pounder, who has not been whipped this season. Pampa's Johnny Campbell will try to do that here. Billy Gise of Pampa rules in the 85 pound class with Bug Yount of Stinnett at 105 and Roland Berger of the same school the 95 pound title. He also is undefeated this year.

Canadian and Follett will have stronger teams, with more weight, according to Bill Anderson, business manager of athletics.

Cosch Oscar Hinger has been working his boys at top speed and he hopes to have "Foot" Green ready to compete at 155 pounds.

Stinnett boys were scheduled to enter another tournament Tuesday night but the date was changed so that the battles will be in top shape for Friday and Saturday nights.

Admission will be 25 cents for students and 40 cents for adults. Third man in the ring will be J. H. Duncan of LeFors. Judges have not been named.

Phillips Will Play Hollywood Quintet Tonight

DENVER, March 21 (AP)—Quarterfinal bracketings in the National A. A. U. tournament tonight bridge a broad basketball belt stretching from wind-lashed Lake Michigan to the palm-shaded Hollywood Hills.

A sellout crowd of close to 7,000 is assured for the big "garoon night."

The eight teams from seven states—California has two—number the sentimental favorites. Denver's national champion Nuggets and the Bartlesville, Okla., Phillips 66 powerhouse, runnerup last year and in 1937.

Also on deck is a little college team that has been beaten frequently this season and must be surprised to be this far along—Idaho university, southern branch, from Pocatello.

The luck of the draw sends the Nuggets against the collegians.

The Phillips open the show against the Hollywood Twentieth Century—both of them long on veteran talent.

The St. Louis Rangers will take the court against the Oakland Golden States. These four teams and the Nuggets are seeded entrants.

The Seattle Savages will close the performance against the Chicago Acme Steel.

Hollywood had the tightest squeeze in yesterday's third round, outpointing a long-shooting Shreveport, La., team, 36 to 34.

Amarillo To Dedicate New Golf Course

AMARILLO, March 21—The City of Amarillo is giving five days of free play on the new municipal grass green golf course as a get-acquainted offer for Panhandle golfers.

The free play will be from Monday through Friday (March 25 to 29, inc.). Attention of players is called to the two-day postponement of the course opening, originally scheduled for this week-end.

"It was more than two months ago that we set this date for the course opening," said Mayor Ross Rogers. "We are going to miss this date by just two days, and although we are greatly disappointed we're nearly attaining the goal at which we were shooting."

The new 8-hole grass course was built for \$42,000. It has a fine brick clubhouse which cost \$17,000. The high pressure water system will irrigate the 18 fairways as well as the greens. More than 1,600 trees have been set out on the links.

Length of the par 71 course is 6,426 yards from the back of the tees, 6,069 yards from the front edges of the tees to the front of the greens. Two months were spent on the course construction.

Mayor Rogers emphasized that the free play offer is made to all Panhandle golfers. From Monday through Friday next week all can play as guests of the city.

Sports Roundup

By EDDIE BRIEZE

NEW YORK, March 21 (AP)—Dick Chapman, the golfing blue blood, is writing a book dealing with the exploits of the 15 best amateurs in the republic. . . . If Herbert Wood decides to let Lawrin try a comeback, his first start will be made at Churchill Downs where he won the derby in 1938. . . . Joe Louis has been named an honorary justice of the peace at Greenwood Lake, N. Y., where he is training for Johnny Paycheck. . . . Florida scribes report that next to Bill Jurges, the best-looking infielder with the Giants is Burgess Whitehead, who was figured to have a tough time landing a substitute's berth.

Horsemen are wondering who is behind the "Blue Grass Club," a new racing book which is offering better odds than Jimmy Carroll's St. Louis book. Joe For instance, the "Blue Grass Club" has Blimech down at 4-1 straight, 2-1 place and even money show. . . . Carroll and the others are quoting him at only 3-1. Joe Cronin is in the muzzling this week yelling, "We'll beat the Yankees!"

Today's Guest Star

John P. Carmichael, Chicago Daily News, "Hank Greenberg, the Tiger slugger, has his own private rooting section in Lakeland. . . . Each day he brings in some 10 or 15 colored lads by the simple expedient of hitting a practice ball over the fence. . . . The lad who fetches it back gets in free."

Jim London's latest interview: "Wrestling must be cleaned up—tomorrow must go or pasture will die. . . . Dana X. Bible has 'em four deep down at Texas U.—still they say the guy has lost 18 pounds since he went down there on that \$15,000 contract."

Names Is Names

Last year the Detroit Tigers had Leslie Fleming and a Robert Harris on their spring roster. . . . This year they also have a Leslie Fleming and a Robert Harris at Lakeland, but they're two different guys.

Add Names Is Names

And the Fairview high school basket ball squad of Dayton, Ohio, has a player named Ken Dribble.

Hogan Should Win Tourney At Pinehurst

By BILL BONI

PINEHURST, N. C., March 21 (AP)—The path was smoothed today for Ben Hogan to turn what so far has been a promising golf career into a successful one with his first major tournament victory.

Ben himself had done the most vital smoothing by posting a record total of 193 for the first 36 holes of this Dutch variety. At Springfield, Mass., a Great Pyrenees landed the foremost award, and now many want to own specimens of this Basque shepherd's helper.

Curiously, the size or any other detail of the breed's make-up has little effect on the dog lover once the fad to own a certain type of dog hits him.

But tournament officials sought to help him along by placing him in the last threesome to leave the starting tee. That means all other returns will be in when Hogan comes marching home, and there'll be no possibility of his losing the \$1,000 first money by not knowing what scores he had to beat to get it.

Everything, therefore, appeared to be up to Hogan. From the way he played for two days there didn't seem a chance he'd fall.

When Benjamin fired his brilliant 66 in the first round Tuesday, there were a few who claimed it was a "break," but the White Plains, N. Y., Star brought even them over to his side by following with a five-under par 67 that left the crowd pop-eyed the rest of the field speechless.

Chief figures in the race for also-ran honors, and the slim chance of catching Hogan, were Sam Snead and Johnny Reva. They started this morning's third round with shots back Nelson, U. S. open and defending champion, was at 142, with a good back view of the lad who has been using to such selling effect a driver given him by Nelson.

Sport Lights

By FELIX R. MCKNIGHT

DALLAS, March 21 (AP)—Ill fortune and stalesness today chilled chances for a Rice Institute victory in the N. C. A. A. sectional basketball tournament at Kansas City.

Sprained ankles slowed down Frankie Carswell, the all-conference guard and chief ball handler, and Capt. Levi Craddock, named to the second all-conference squad. Craddock seemed definitely out of the Southwest conference championship lineup when Carswell was in droopy condition.

Coach Byron (Buster) Brannon planned to replace Craddock with Placido Gomez; let Carswell hobble through.

Only a few days ago Texas Wesleyan college of Fort Worth, Texas conference champions, wound up a great season in the invitational collegiate tournament at Kansas City with a record of 23 triumphs, only three defeats.

Now they're ready to start spring basketball training three weeks hence!

Baseball's most unique training camp will be set up here tomorrow. Karl Peterson's Kansas City Cadet club, a junior baseball team, will train in Texas, sunshine Friday, Saturday and Sunday—and then go on back home. Last year the grid wasn't so strenuous. They worked only two days.

Coach Peterson reports he will have his roster of nine men on hand only eight could make it last season. They move from one sandlot diamond to another for the spring drills. They usually play a game the last day.

Coach Mac Miller of Brownwood High school holds a record no one has ever challenged.

While a member of the team back in 1928, he racked 62 points in a 30-minute game against Locker High. May held a slight edge of 68-2 at the half. The Locker lads sneaked out of town at the half.

Immediately preceding the Locker incident, Miller continued, May had stifled Blanket for the county class B championship, 98-0 and then piled into Brownwood, 82-2.

But they were finally licked. Stephenville beat them in the third extra period of their district tournament game.

"We always suspected," muses Miller, "that it was that stank of bananas we ate just before the game that threw us off stride."

Two Texas Tech huskies, Red Williams, center the past three years, and Bill Davis, great tackle, signed with the professional New York Giants and Chicago Cardinal football team recently. Williams became rather famous around the 1936 Plains country after playing 495 minutes of the 1938 season and 475 minutes last year.

Latin-American lads will have their own boxing tournament at San Antonio April 1. Teams from Laredo, Corpus Christi, Austin and other cities have been invited. Charlie Aldridge, 115 N. San Marcos street, at San Antonio is handling the entries for the unique event.

One of the former champs, Tommy Olivari, won the Hearst national diamond belt lightweight title in '38 and was quarter-finalist in the 1939 National A. A. U. meet.

General John J. Pershing's first military service was as a second lieutenant of cavalry in the Arizona Indian campaign in 1885 and 1886.

That came his way with a flourish. Dick Vostal, a blocking back like his late brother, Rice's immortal "Red," showed rare promise for the Whites, as did dynamic little J. P. Wood, a letterman back.

Keystone Combination May Be Cleveland's Solution

By GAYLE TALBOT

FORT MEYERS, Fla., March 21 (AP)—There is a popular baseball saying, tinted faintly with irony, that the Cleveland Indians always win the pennant this time of year. Nevertheless, when three Cleveland baseball writers named McAulry, Cobblehead and Gibbons, greeted this visitor and demanded to be him that the Indians finish ahead of the Boston Red Sox in the coming American league race, they aroused a suspicion something might be going on here among the royal palms.

It wasn't too difficult to discover what the boys were excited about. Though he at first attempted to laugh the matter off, Manager Oscar Vitt soon broke down and admitted the writers probably were thinking about his new keystone combination. Louis Boudreau at shortstop and Ray Mack at second base.

This young pair joined the Indians from Buffalo last season and their performance was sensational. Inspired by their fielding, the Indians won 19 of their last 23 games to finish a fast closing third behind Boston.

"I guess the boys think that with Boudreau and Mack in there all the way we ought to beat the Red Sox this time," said Oscar. "I'll admit it looks like we've solved our biggest problem."

Hal Trusky back at first and Ken Keltner at third. It looks like the Indians might finally have an infield to rival either the Yankees or the Red Sox. They still lack the batting power of either of their principal rivals, but their pitching is better than Boston's.

The Indians possess a sound outfield trio in Ben Chapman, Jeff Heath and Roy Weatherly, all potential 300 hitters, with Beau Bell in reserve. They have one acceptable catcher now in Rolfe Hemsley, and will have another as soon as Frankie Pylak comes to terms.

As long as Bob Feller and Mel Harder keep their health, the Indians will get superb pitching a big part of the time. Johnny Allen, who formerly rounded out a formidable mound trio, hopes to make a comeback after an indifferent season.

Oscar was asked if his club looked good enough to beat the Red Sox, then why mightn't it go right on and tumble the Yankees?

"Now, now," interrupted the Indian pilot. "Let's take 'em one at a time. Let's wait and see how Ruffing goes this year."

Training Camp Briefs

(By The Associated Press)

SAN ANTONIO—To fortify their catching department since Joe Glenn has extended his holdout, the St. Louis Browns have signed George Susce, who was released unconditionally by the Pittsburgh Pirates.

SAN BERNARDINO, Calif.—Pitching woes again have beset Manager Gabby Hartnett of the Chicago Cubs. Clay Bryant, who pitched only 31 innings last year but was believed recovered from his lame arm, complained yesterday of a new soreness. Vance Page also showed up with a sore arm and asked to be excused from today's assignment against Pittsburgh. Rookies Jake Mooty and Vern Olsen have similar troubles.

FORT MEYERS, Fla.—A sensational relief hurler in 1938 and a complete flop in 1939, Johnny Humphries today declared himself a candidate for regular starting mound assignments with the Cleveland Indians this season.

In seven innings of exhibition game twirling Humphries has allowed four hits, two bases on balls and has not been scored upon.

WINTER HAVEN, Fla.—A few more stunts of the kind young Dick Conger has been pulling for the Detroit Tigers will make him a "spring sensation." Never in probability before the west coast exhibition has pitched nine scoreless innings and allowed only two hits.

SARASOTA, Fla.—There was a note of cheerfulness in the St. Louis Cardinals' camp today upon learning that holdout Joe Medwick was bound from St. Louis for a salary conference with vice president Branch Rickey.

Europeans Fight For Country, Even On Court, Says Star

DENVER, March 21 (AP)—In the jittery little nations clustered south of war-split Finland basketball is a deadly serious business, but spectators never boo. They just whistle, which means about the same thing.

Whistling is a Baltic brother of the American Bronx cheer, says big Frank Lubin, who is mighty glad to be playing basketball in America again instead of in Europe.

He's in a position to know. He coached and played on the Lithuanian team that won the European tournament at Kaunas last year.

Lubin, a good-looking veteran of A. A. U. basketball, is competing with the Hollywood Twentieth Century team in his fifth national meet. He is a native of Los Angeles although his parents were born in Lithuania.

"I came back in December and I'm darned glad," he said. "Things in Europe are bad. The hatred over there between nations is enough to make you sick, and it's carried right out into the basketball court."

"You're fighting for your country when you play over there and if a player loafs even a little bit, the coach pulls him out."

Europeans Fight For Country, Even On Court, Says Star

Moose Hartman Plays Tackle In Spring Football

HOUSTON, March 21 (AP)—The Rice Institute's spring football practice, 30 days of the hardest work the Owls have seen in years, has come to an end, and Coach Jess Neely has pronounced himself pleased with the attitude and accomplishments of his team.

But Neely, who came to Rice from Clemson to succeed Jimmy Kitts after the past gridiron season, takes pains to speak only in terms of "team."

He leaves the setting apart of individual stars to the fans, and said fans did some picking, especially in the final game scrimmage for Finnish relief.

That game, a bristling encounter between the Blues, or returning regulars, and the Whites, or newcomers, saw the verdict go to the Whites, 28-12, and the leather crack often.

The sensation of the game was Thomas Allen Weems of Rockdale, lean young man who previously had been famed most for shot and dunks feats. Proved to be a phenomenal punter. Weems wound up an end of the game with a 50-yard punt.

Lacrosse—First game April 19; same two feet of snow.

Crew—First race April 27; Long Branch and Onondaga lake training sites ice-locked.

Football—Spring training due to start April 1; they're making snowmen in Archbold stadium.

Snowy Outlook For Syracuse Athletes

SYRACUSE, N. Y., March 21 (AP)—Spring brings this Syracuse university sports outlook:

Baseball—First game scheduled April 17; diamond under two feet of snow.

Lacrosse—First game April 19; same two feet of snow.

Crew—First race April 27; Long Branch and Onondaga lake training sites ice-locked.

Football—Spring training due to start April 1; they're making snowmen in Archbold stadium.

Phillips Asks California To Join Compact

TULSA, Okla., March 21 (AP)—The oil industry marked up new records for production and gasoline stocks but their effect was tempered somewhat today by a better feeling reported in the motor fuel market. Stocks of finished and unfinished gasoline marched over the 100,000,000-barrel mark for the first time in history to 100,616,000, the American Petroleum Institute reported.

Crude oil production for the nation also reached a new peak of 3,890,050 barrels daily.

But on the market side, spring demand apparently was being felt. Two Tulsa concerns reported a quarter cent rise in Oklahoma natural gasoline since last Saturday.

Some published prices for house brand gasoline in the midcontinent area were up a quarter cent this week. Refiners earned the market tone firmer with demand also good for third-grade gasoline, kerosene, tractor and diesel fuels.

In the export trade, one marketer said a cable from London advised that Great Britain has banned shipment from the United States of lub-

INVENTOR WILL DEMONSTRATE 'DEADLY' BOMB

Lester P. Barlow, who claims to have invented the world's "most deadly" bomb, has obtained an agreement to demonstrate his invention before members of Congress and army and navy officials. Shown above is the joint Congressional committee that heard Barlow's plea to test the new explosive. They are, left to right, Rep. Charles Faddis; Secretary of War Harry Woodring; Rep. Andrew May, chairman of the house military affairs committee; Sen. Morris Sheppard, chairman of the senate military affairs committee; Rep. Ralph Church and Barlow.

ricants to Belgium, Denmark and the Netherlands.

Gov. Leon C. Phillips of Oklahoma, in an address to the Pacific coast division of the API in Los Angeles, urged California to join the interstate oil compact commission.

"We want California to join with us," said Phillips, chairman of the commission, "so that we can present a solid front against the bureaucracies in Washington who would regiment a great industry, obliterate state lines and destroy our dual form of government."

He declared backers of the Cole bill, which would regulate the industry, are putting "great emphasis on the fact that Illinois and California would not join their sister states in enacting and enforcing adequate laws" for conservation.

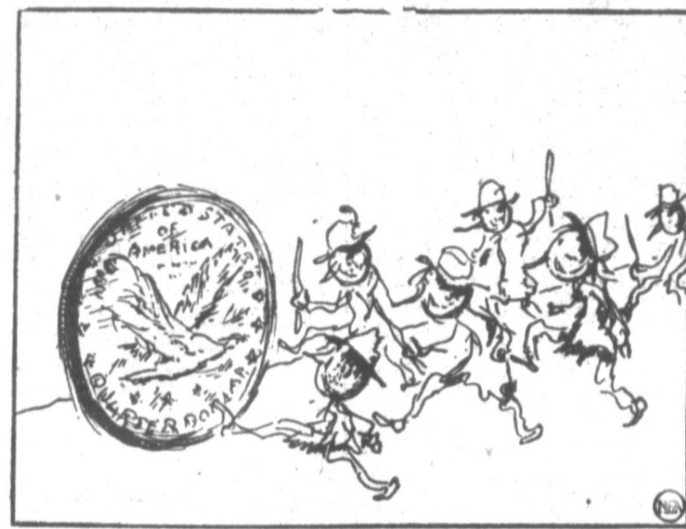

Illinois displaced Oklahoma as the third largest oil producing state in the nation.

In the field, the Oil and Gas Journal reported 500 completions for the week ended March 16, compared with 521 the previous week, and 408 a year ago.

Twenty-two devonian lime wells were completed in the Salem field of Illinois and Jasper county got a new pool. The Stoltenberg pool of Ellsworth county, Kansas, was extended in three directions. . . . A wildcat, five miles southeast of Stroud, Okla., was showing for a pool opener. . . . Montague county, North Texas, acreage prices are ranging from \$10 to \$100 an acre after completion of two deep discoveries. . . . A new tinsleep sand pool was opened in Carbon county, Wyoming.

THE STORY OF DEMOCRACY

By Hendrik Willem van Loon
Illustrated by the author

Bad money drives out good money, and bad democracy will always drive out good democracy.

CHAPTER FOURTEEN

It may seem that I have somewhat stressed the Athenian democracy at the expense of all further experiments in government by the people. But it all happened so long ago that we are in possession of every detail connected with this tragedy and can study the problem from that distance which alone allows us to be completely impartial and neutral in our final conclusions.

This so-called Golden Age of Greek democracy showed us the magnificent achievements that could be accomplished by a "government of the people" when it enjoyed the leadership of men of exceptional ability, integrity and an unselfish desire to work only for the glory of the community at large.

But it also gave us a clear picture of what must happen the moment these men disappeared from the scene and their places are taken by those corrupt and dishonest individuals who use their oratorical abilities to hypnotize the masses up to the point where they lose all ability to judge for themselves and will acclaim as their heroes and leaders the very men who will soon afterwards betray them and carry them to destruction.

There once was an Englishman by the name of Thomas Gresham. He lived during the first half of the sixteenth century and was Queen Elizabeth's financial adviser. As that august lady was always hard up for money (as all medieval sovereigns were bound to be in a day when most people went through

Federal Old-Age And Survivors Insurance Facts

What Old-Age Insurance Means to Young Workers

Twenty-five out of every hundred persons who applied for social-security account numbers last year were boys and girls under the age of 19. More than 2 1/2 million workers under age 25 applied for social-security account numbers in 1938. Over half of these were men. Few of them perhaps realized that a social-security account means future protection for their families as well as for themselves. Under the amended Social Security act the old-age and survivors insurance program provides supplemental monthly benefits for the aged wives and minor children of annuitants, and for the survivors of insured workers who die.

Young workers under age 25 have received credit on the records of the Social Security board for more than 8 1/2 billion dollars, since this insurance program first went into operation on January 1, 1937.

Each worker in employment covered by the old-age and survivors insurance system must have a social-security account number. This number serves to identify his individual social-security account, in which his wages are recorded by the Social Security board. That is why it is important that every worker have only one account number and that he tell it to each employer he has. The employer must know the account number so that he may report the worker's wages correctly to the government.

Surgeons Favor Use Of Ten-Cent Thread

NEW ORLEANS, La., March 21 (AP)—Surgeons are beginning to use cotton thread bought at the ten-cent store to stitch wounds and surgical operations.

"They are not using it because of its cheapness but because it is superior to other surgical suture material in holding wound edges together after injuries and operations.

Cotton, surgeons of Tulane University and Louisiana State Medical schools declared today, has the advantages of being smoother than either linen or silk and thus does not provoke the irritations of the tiny blood vessels of the body which cause fibrosis, or tissue growth through and around the stitches.

It is also preferable to catgut, one surgeon declared, because it is not absorbed rapidly in the body. Catgut disintegrates within a few days and unless a wound has healed properly the edges may reopen and make a second operation necessary. Cotton stitches hold indefinitely.

MATRICIDE

Arnold Benson, above, 21-year-old sanitarium inmate, pushed his mother, Mrs. Albert Darver, Dallas, Texas, into the Trinity river near here where she drowned. The matricide climaxed a walk following dinner at the Darver's home where Benson was a guest for the day.

Cash Doesn't Want To Be Returned To Texas Penitentiary

BOULDER, Colo., March 21 (AP)—Robert Lacy Cash, escaped convict wanted by officers of two states, said today he would prefer to be taken to Arizona rather than Texas.

He is under sentence for slaying in Texas and is charged with burglary in Arizona.

Cash, who escaped three times from Texas officers in 16 months, was arrested by Sheriff Richard and Deputy Sheriff Arthur Everson as he drove into a cabin camp nine miles east of Boulder.

Both Texas and Arizona officials announced they would come for the prisoner.

"I don't want to go back to Texas," Cash told the sheriff.

Cash was convicted at Dallas for the slaying of Harry Leon Hoffman, a Brooklyn, N. Y., salesman, on Nov. 11, 1937. He was sentenced to life imprisonment but on Oct.

20, 1938, he walked out during a prison rodeo.

After being recaptured he stole a car and fled under fire for his second escape, on Feb. 2, 1939. He was captured near Stinnett, Texas, last December. While being taken back to prison he and two other men overpowered prison agent W. R. Crane near Buffalo, Texas, last Jan. 13. The trio fled in a stolen automobile.

Sheriff Richard learned Cash's identity when a camp operator reported he was suspicious of the fugitive's actions.

Census-Taker To Get \$2.40 For \$12

BAY SHORE, N. Y., March 21 (AP)—Charlie Buhler is going to earn about \$2.40 next month at a cost to him of \$12.

Buhler is the census enumerator for Fire Island, a popular summer retreat for New Yorkers. He came over the mainland to attend a census enumerator's school and learned, among other things, that he will receive four cents a head

Interdicted Church To Reopen Thursday

CLEVELAND, March 21 (AP)—Holy Thursday mass will reopen Holy Redeemer Catholic church, closed by a month-old interdict that followed parishioners' rebellion against selection of a new priest.

Archbishop Joseph Schrembs lifted his interdict against 1,500 members of the Italian-American parish as they expressed repentance at a meeting arranged at their request.

Each pledged unqualified submission to lawful ecclesiastical authority.

The outcome permits parishioners to again participate in sacraments of the church.

"Hot" Check Record Admitted By Dahl

NEW YORK, March 21 (AP)—With a brisk "Yes, sir," Harold E. (Whitey) Dahl, 30-year-old American aviator who returned from Spain Sunday after spending nearly three years in jail as a prisoner of war, acknowledged in the police lineup today that he had issued checks without sufficient funds in Los Angeles.

Acting Police Lieut. James Pyke said Dahl also admitted that he had been arrested four times since 1928, when he was charged with larceny on a check case in Evansville, Ill.

Other arrests, he said, included: 1935—Apprehended in Texas as a fugitive and sent back to Arizona, where a bad check charge was dismissed; 1936—Arrested in Los Angeles for cashing a worthless check, received one-year suspended sentence; Again in 1936—Arrested in Texas as a fugitive from California, case dismissed.

The money from one broadcast would clear up this whole thing," said the flier, adding that he had been on his way to make a broadcast when he was taken into custody last night.

Meanwhile, Dahl's platinum blonde wife, Edith Rogers, a torch singer whose photograph-plea to Generalissimo Francisco Franco was credited with saving her husband from a firing squad, said she understood Dahl had been arrested here because of a "mixup."

Mrs. Dahl said she had apparently been jailed on an old warrant from Los Angeles, mailed before west coast authorities decided not to incur the expense of extraditing her husband.

Dahl's attorney previously said he would seek his release on bail, adding that the soldier of fortune would insist upon an extradition hearing before the governor of New York if California "really wants him."

Easter Lambs Coming From Only 2 States

SAN FRANCISCO, March 21 (AP)—California and Arizona are furnishing the nation's Easter leg of lamb this year. They are being paid well for it, too.

The earliest Easter in 27 years finds only these two states in shape to ship spring lambs in quantity to the big annual market.

So lambs from Bakersfield and Southward have been sold at \$11 to \$11.75 per 100 pounds in Denver, Omaha and Kansas City.

W. P. Wing, secretary of the California Wool Growers Association, said New York wholesale butchers were paying 24 to 25 cents a pound for dressed lamb. Lately it had been around 18 to 19 cents.

Later delivery of lambs has been booked at \$8.50 to \$9 per hundred, live, in California markets. Average weights run 80 to 84 lbs.

Good returns are being realized on wool, too. A new record has been predicted—Wing estimated the clip would run around 30 million pounds. Last year's record was 28,132,000 pounds.

Shearing is as much as two weeks ahead of last year. Bakersfield reports a clip of 1,500,000 pounds already in the bag.

"CHEVROLET'S FIRST AGAIN!"

GENERAL MOTORS' NUMBER ONE CAR IS THE NATION'S NUMBER ONE CAR

In Value... In Road Action with Economy... In Sales!

The nation looks to General Motors for genuine motor car leadership!

You will find convincing proof of this in the fact that General Motors' number one car, Chevrolet for '40, is also the nation's number one car in dollar value and in sales!

Chevrolet's great list of quality features makes Chevrolet the outstanding car value of 1940.

And, of course, it's the sales leader—for the ninth time in the last ten years!

Eye It... Try It... Buy It!

SERIAL STORY

\$15 A WEEK BY LOUISE HOLMES

COPYRIGHT, 1940, NEA SERVICE, INC.

YESTERDAY Steve tells Ann he is still in love with her, but she reminds him that she is a servant. Ann finds the work has been buying large quantities of food, too much for use. She senses trouble. Late one night, Irene comes to Ann's room to chat.

CHAPTER XXVI

Irene said, "When we met at the Athens Club party I had no idea that you were a bread-winner. You looked so ultra that night."

"I stepped out of type for the evening."

"I don't want to be nosy, but you're different, Ann. Where is your family? Why are you a housekeeper—if you don't mind telling me?"

"My parents are dead, they were killed in an accident. I don't know much about my father's people. Mother came from Seattle. Perhaps I have cousins and uncles and aunts out there. I never looked into it."

"Are you absolutely on your own?"

"Yes."

"I give you credit, Ann. I couldn't earn enough to buy a bowl of bread and milk."

"They talked on like two girls in the same walk of life. Irene asked, 'Where's that good-looking man who was with you at the Athens Club?'"

"He's out in Moline, floor-walking a 10-cent store." Ann's face shadowed.

Watching her, Irene said, "I thought you two were in love."

"People like us can't afford to be in love."

"I'm having a lot of fun at the moment being in love," Irene confessed. "Dad would throw a fit if he knew." She laughed delightedly.

"Steve Claybourne?" Ann asked. "No. Jeff Fortner—he's an orchestra leader," Irene sighed. "I'll get over it, but I hate to see a new kind of thrill."

"You're not going to marry him?"

"Goodness, no. I don't fancy myself as the wife of an orchestra leader. I'll marry Steve some day. We're not in love, but we go with the same crowd and like to do the same things. I'll marry Steve when I get around to it."

Ann laughed. "Does he know it?"

"Oh, I suppose he feels like I do, that we'll make a nice pair when we each want to be half of a pair."

"Would you care if he fell in love with someone else?" Ann was thinking of the conversation on the stairs the previous evening.

"No, I wouldn't care. We're both looking around a little. I might even fall in love." She got up from the bed. "I'd better be getting dressed."

ANN was ready for bed when the telephone rang. She waited for Rose to answer but, when the bell kept up its monotonous rattling, she went to the upstairs sitting room.

"Mr. Temple's residence," she said.

"Ann? Steve talking."

"Hello, Steve."

"How'd you like to go for a ride on the lake? It's a swellish night."

"Honestly, Steve, I'm too tired. It'll do you good. I'll have you back in an hour if you say so. The moon is not quite full, but tipsy."

"Are you, too?"

Steve laughed. "My state of intoxication is well in hand, lady." It was dark in the sitting room and the moonlight made a puddle on the carpet. It would be gorgeous on the lake. The Temple garden's slope down to the water's edge. A dock reached far out into the lake. Ann could imagine Steve's launch put-putting up to the dock in the silvery light. For a moment she was tempted.

Then, "Steve, try to understand. Mr. Temple and Irene and Blake are wonderful to me, but after all, I'm not a member of the family. I have work to do and plenty of it. I can't go tooting off at this hour of the night."

"Doesn't a housekeeper rate a boy friend?"

"Perhaps after she gets her housekeeping under control."

"Then you won't go?"

"Not tonight, Steve. Thank you." Ann was not too pleased that Steve had asked her to slip out of the house for a midnight cruise. It nearly emphasized the difference in their stations. He seemed to read her thoughts.

"Don't think I'm trying to back-door you," he said. "What I told you last night goes. If you don't watch out I'll ask John Temple for your hand."

"Steve—stay in your own back yard and I'll stay in mine. That's the better way."

THREE hectic days passed. Against terrific odds, Ann made progress. She decided on a new market and clipped Plunket's objections short.

"I could have both you and your uncle arrested for what's been going on," she said. Plunket retired to menacing silence. It was on the third night that Ann saw the cook whisk out of her room as she turned the corner in

the second floor corridor.

"Plunket—" she called sharply. There was no answer and she was half inclined to believe that she had imagined the visit. Blake, home for a few days, dashed out of his room, begging for help with his dress tie, and Ann forgot the incident.

The following morning Mr. Temple came down to breakfast with a grievance. "My watch has disappeared," he grumbled, frowning and fumbling at his waistcoat pocket. "I know I had it when I came home last evening. Remember distinctly of taking it out of my pocket when I changed to tennis clothes before dinner."

"That's queer," Ann said. "It couldn't have got very far."

Rose, who had been serving the fruit, vanished into the kitchen. When breakfast was finished Mr. Temple asked Ann to ring for the maids. They came into the dining room, Rose and Beth and Plunket.

"Has anyone seen my watch?" Mr. Temple asked, scrutinizing each face in turn.

Rose and Beth shook their heads. Plunket looked meaningfully at Ann.

"I don't want to be suspicious," Mr. Temple went on, "but several things have disappeared around here. When I took my late wife's jewels to the bank I found that a two-karat diamond was missing. No one knew anything. The last time Irene gave a luncheon, two dozen salad forks could not be found."

"I've turned to Ann. Please check the silver, Miss Brown. We'll compare it with my list."

She nodded and he continued. "I've overlooked these items, in each case believing that there was some reasonable excuse, but—he pounded the table and his voice rose—"I'll be damned if my watch can get away without a fight. I've carried that watch for 25 years and I intend to carry it to the end of my days. If I don't find the watch on my dresser when I return tonight I'll send for the police. You may go."

Plunket stepped out of line. "May I see you alone, Mr. Temple, sir?"

"All right—in the library," he snapped.

Plunket gave Ann a long, expressive look as she left the dining room. She said spitefully, "I'm advising you not to let Miss Brown go upstairs until you see me."

All at once Ann knew what it was all about. She had been framed by Plunket and her relatives. It was their subtle way of getting rid of her.

Advertisements In Newspaper Scented

ST. LOUIS, March 21 (AP)—Getting a scent for their cents. St. Louisans not only read but sniffed their newspapers today. Printed in green ink, a candy advertisement in the Globe-Democrat carried a fragrant aroma of peppermint. A department store advertisement in the Post-Dispatch, printed in pink, was scented with the spicy odor of a new cologne. The nose appeal was obtained by mixing peppermint and perfume with the ink.

Winning Colleen Honored By Lions

Special To The NEWS
McLEAN, March 21—Miss Opal Tedder, selected as "Colleen" of the St. Patrick's day celebration in Shamrock Monday, was the honor guest of the McLean Lions club at its regular weekly meeting Tuesday. Miss Tedder was introduced to the club by Dr. C. B. Benson, and received an enthusiastic reception from the members. Other guests were Charlie Thut, W. E. James, W. B. Weathered, Earl Daley, Ralph Thomas and Tony Israel, of Pampa, Paul M. Bruce of Alameda, and Ralph Pumby of McLean. Guy Crawford of McLean, was introduced to the club as its newest member.

Hull-Farley Ticket Talk Again Revived

WASHINGTON, March 21 (AP)—Talk of a Hull-Farley democratic ticket was revived on Capitol Hill today as discussion of the Postmaster General's unreserved announcement of his candidacy ran the gamut of interpretation.

Most senators expressed the opinion the cabinet officer, in saying flatly his name would be presented to the democratic national convention, did so believing that President Roosevelt would not be a candidate for a third term.

A few interpreted the announcement as placing Farley in the same category as president Garner—a candidate whether the President runs or not. Farley would not clear up this point in talking to reporters yesterday at Springfield, Mass.

One influential new deal senator from the east, as close to the chief executive as anyone in Congress, said he did not know what was in the President's mind but he thought Farley had acted in the belief that Mr. Roosevelt wanted to retire.

"I believe a Hull-Farley ticket would make a good ticket," added this senator. Like many others, he felt Farley is not challenging the President in the sense that Garner is, and has not closed the door to supporting Mr. Roosevelt should the latter run.

Garner forces, however, expressed private elation over Farley's action. They voiced the opinion that Farley was in the race to stay, third term candidacy or not.

But any hope which the Garnerites might have held for a Coalition of forces to "stop Roosevelt" appeared to have been blunted by Farley's statement that he was "in no combination with anybody."

Secretary Hull has kept aloof from candidacy talk, and restricted his activities to running the state department.

New Plane Makes 7 Miles Per Minute

WASHINGTON, March 21 (AP)—Keen allied interest in a seven-mile-a-minute American warplane may accelerate a showdown in the administration's policy on foreign purchases of aircraft.

The fighter is the army air corps' P-38, a heavily-armed two-motor Lockheed which the war department has just released—in a modified version—for sale abroad. The catch in the release is that without a secret device, the plane cannot make top speed.

It appeared likely the question of the P-38 might be raised when the House military committee opens its investigation of warplane purchases next week.

How far negotiations on the P-38 have progressed was not clear.

Informed aviation sources pointed out that any negotiations for a substantial order of P-38 planes seemed

Today's War Fashion Hint

Foreboding and sinister is this latest war fashion, issued recently in Paris to anti-gas squads. Of specially-treated black paper, it is so light that several reserve suits may be carried.

Anglo-Finnish Alliance

The engagement of Margaret Shaw (above), of York, England, to Hjalmar Procopo, popular Finnish Minister to the United States, was recently announced.

likely to involve the question of the administration's policy.

Louis Johnson, assistant secretary of war, emphasized that the secret device—probably a supercharger—had not been released for export. President Roosevelt said military secrets which other nations could not duplicate would be kept confidential as long as possible.

Crude Estimate Up One Per Cent

WASHINGTON, March 21 (AP)—The bureau of mines estimated the April market demand for domestic crude oil today at 3,550,000 barrels daily or a total of 106,500,000 barrels.

This is 1 per cent (40,000 barrels) more than the estimated demand for March and 2 per cent more than the actual demand last April.

Estimated daily average crude oil demands by states, included:

State	April	March
Texas	1,332,000	1,330,000
Oklahoma	413,000	420,000
Louisiana	287,000	383,200
New Mexico	100,000	103,200
Arkansas	64,500	65,500

The bureau estimated the April demand for motor fuel at 47,500,000 barrels, an increase of 8 per cent over the abnormally low demand of 43,977,000 last April. Exports, it said, probably will be about 2,800,000 barrels or 863,000 less than a year ago.

Officials estimated a decrease of 1,700,000 barrels in gasoline stocks next month. They stood at 100,000,000 on February 29.

'Spring Fever' Only State Of The Mind, Says Medical Expert

PHILADELPHIA, March 21 (AP)—Grandmother probably will never believe it but take the word of experts—she was all wrong when she gave generous doses of sulphur and molasses as a cure for "spring fever." There isn't any such thing.

That listless feeling you get around this time of year, two medical authorities agreed today, isn't something that you can prescribe medicine for, or analyze under cause and effect. It is, well—

"It's all a myth—a state of mind," says Dr. Robert A. Reimann, professor of medicine at Jefferson Medical College.

"When the weather gets warm, people begin to think of going fishing and going on vacations. But they can't because they have to keep working. So they feel against the restraint and become restless. That's all spring fever is."

Dr. Myer Solis-Cohen, chairman of the county medical society's public relations committee, explains it this way:

"The feeling you describe as spring fever is probably due to the fact that the body has become accustomed to cold weather all winter and too suddenly is called upon to make adjustments to warm weather. Probably the nerves controlling the blood vessels don't make the adjustment without upsetting you a bit."

Quick Vote On Farm Parity Fund Sought

WASHINGTON, March 21 (AP)—The senate's powerful spend-for-the-farmer coalition pressed for a quick vote on the agricultural appropriation bill today after routing economy forces and voting a \$212,000,000 farm parity fund.

While the unbudgeted item was winning an easy 63 to 19 victory late yesterday, there were these other developments in Congress:

1. The House labor committee stood by its previous proposal to add two members to the three-man labor board and refused to accept changes in the board procedure recommended by the Smith investigating committee.
2. The senate authorized an investigation of wire tapping which may hear political complaints in several states.
3. Encouraged by the treasury's report of higher income tax receipts, senate leader Barkley (D-Ky.) said it appeared "very unlikely" that there would be a new tax bill this session.

Barkley made his tax prediction despite indications the House would join the senate in voting for parity payments and other farm funds President Roosevelt did not recommend. Some congressmen earlier had expressed concern that the increased appropriations might require additional taxes.

The parity payments, similar to those authorized for the current year, are designed to give farmers the same purchasing power which they had in 1909-14. The money would be divided among corn, wheat, cotton, rice and tobacco growers who take part in the crop control program, and would be in addition to the soil conservation benefits.

The House labor committee refused to yield in its opposition to drastic revision of the Wagner act. The committee discarded three

foundation stones of the Smith committee's 17 recommendations. Those would:

- Say that an employer, during contract negotiations with a union, would not have to put any agreement into writing;
- Let an employer discuss any sub-

ject with his workers providing he did not use coercion or intimidation; Prevent the labor board from aiding any worker convicted of willful violence of destruction of property.

The United States Coast Guard maintains an academy for training its officers at New London, Conn.
