Good Evening

One man's word is no man's word; we should quietly hear both sides.—Goethe.

FRENCH SURRENDER SCHEDULED TOMORROW

Jaycees Pay Debts, Still Have Money

The 1940 Top O' Texas Fiesta was a financial success for the first time since 1937, Jimmy Dodge and Otis Pumphrey, co-chairmen, announced today. Credit for the financial success was accredited largely to the invaluable cooperation of the U. S. Coronado Canteen Centennial commission in bringing to Pampa the Coronado Entrada show and to the fact that expenses were closely watched and held to a minimum. The show proved to be a financial success as well as a big success from an entertainment standpoint. Practically all the Fiesta bills are now paid, and the committee has had sufficient funds to pay the huge Fiesta deficit of 1939, with a little balance to spare, Dodge and Pumphrey have announced. Only a few unchecked and unverified bills are yet unpaid at the Fiesta headquarters in the city hall and checks will be issued for them as soon as the proper committee chairman can be contacted to okay the bills. It is estimated that at least \$125 balance will be left on hand for a start on the 1941 Fiesta, after all bills are paid, including the 1939 deficit accounts.

Two 'Celebrating' Negresses Jailed

Too much "June tenth" celebrating resulted in two negresses being put in county jail last night, both booked on charges of drunkenness and disturbance of the peace. Those arrested were Carrie Ross, 38, assessed a fine of \$14.15, and Merline Brownrigg, 29, \$100 and costs, according to records of the sheriff's office. The two were arrested by Deputy Sheriff Dan Cambern near the Four Corners on the Berger road. A negro man was taking the two to Berger, after the women became noisy in the flats. Deputy Cambern said one of the women was in the car fighting with the man, while the other was running up and down the highway where the car was stopped. Both women had scratches as the result of their altercation and one had a small laceration on her forehead, appearing to have resulted from a bite. In making the arrest, the deputy had one of the pockets of his khaki jacket ripped loose, his twisted out of shape and a wrist scratched, when one of the women resisted being taken in custody. A crowd of 150 persons had gathered and were watching the fracas when the officer appeared on the scene, Deputy Cambern said.

City Police Have Somebody's Rim

City police have a new tire rim that the owner may have by identifying it. The rim was abandoned in the Martins Motor company used car lot last night by two men, believed to have been frightened away while trying to steal a tire to fit the rim. The attempted theft was reported by a salesman who said he drove past the lot about midnight and saw two men trying to remove a tire from the top of a car. They ran when the salesman stopped at the lot. An attempt to steal a car at another used car lot was reported today.

Maggie, Jiggs Also Live In Dallas

DALLAS, June 20 (AP)—Police R. T. Whittle and C. W. Cole refused to arrest a drunken husband on his own premises. The wife obligingly dragged him to the sidewalk. The officers then refused to arrest him because he had been moved to public property against his will. The wife deposited him in the police car. The officers reluctantly took him to jail.

Georgian Heads Kiwanis

MINNEAPOLIS, June 20 (AP)—Election of Mark A. Smith of Thomson, Ga., as 1940-41 president of Kiwanis International was announced today at the annual convention.

I Heard ...

Earl Bradshaw, project superintendent at Lake McClellan, defy the curse that's supposed to fall upon the heads of Panhandle weather prophets, and predict that the lake region will get a heavy rain or two before June 24. He backed up his prediction with cash. The lake is to be officially opened July 4 and what Bradshaw was getting at was that there will be plenty of water in it long before the opening day.

FIRE-HOSE COOLS MEXICAN HOTHEADS

The end of an election campaign riot in Mexico City. Over 40 persons were injured in the clash between Young Socialists and law student supporters of Gen. Juan Almazan. Photo shows friend and foe alike fleeing up the street as police use fire-hose to disperse the mob.

Commission Raises Panhandle Allowable

AUSTIN, June 20 (AP)—A majority of the Texas railroad commission today ordered all Texas oil fields shut down on June 23 and 30, slashed 17,110 barrels from the allowable of certain Southwest Texas fields and stipulated five general shutdown days in July and August. The order was said by members Jerry Sadler and Ernest O. Thompson to be the solution to the problem of overproduction and further loss of foreign markets. Sadler estimated the two June shutdown days with the slash in Southwest Texas output, effective Saturday, would result in a net daily average statewide production of 1,115,000 barrels. The U. S. Bureau of Mines recommendation for June production in Texas was 1,344,000. The officials said the five shut-in days each for July and August applied to the East Texas field which otherwise would have been closed 14 days each month. This will result in an estimated daily average production in East Texas of 425,000 barrels compared to a current 380,000 barrels. Effective July 1 the East Texas field will return to an allowable formula based on 2.32 per cent of each well's hourly potential. This method of allocation was upheld by the Supreme Court of the United States in a recent decision. A further readjustment effective July 1 will be a 20-barrel allowable for Panhandle wells which now are assigned a permissive 14.6 barrels a day, Sadler said. The Panhandle readjustment will result in a daily increase of about 20,000 barrels, Thompson explained. The officials estimated average statewide daily production in July and August would be 1,300,000 barrels. See COMMISSION, Page 5

The War Today

By DEWITT MacKENZIE
Herr Hitler's seeming slowness in dealing with France's request for armistice terms has permitted the Nazi army to continue smashing at the exhausted French forces and overrunning still further important territory and cities. Fascist circles in Rome rather let the cat out of the bag this morning when they said that virtually complete occupation of France by the German and Italian armies was probable before the French were handed the ax. That naturally puts the screws on the unhappy French government. The reason for this maneuver needn't be sought far. Indeed, the German radio today unconsciously summed the thing up for us very nearly in a broadcast picked up in London. This stated that "members of the French government are not all agreed on the question of laying down arms."

Duke And Duchess Headed For Spain

CANNES, France, June 19 (AP)—(5:30 p. m.—10:30 a. m., C. S. Delayed)—The Duke of Windsor left his Riviera residence by automobile today headed for Spain. The American-born duchess already had departed. The Duke had been in the south of France since late May, after leaving his post as liaison officer between the French and British armies. With the duchess, he was staying at their villa at Cap d'Antibes, near Cannes. Officials in London denied, however, that he had left the army and, on June 8, said he was visiting French troops on the nearby Italian border and would return shortly to "the headquarters of his mission." This "mission" was not explained. Shortly before the duke departed today, he was reported to have told the British consul at Cannes he did not plan to return to England.

Jarvis Delivers First Wheat Here

First load of 1940 wheat was delivered to A. A. Tiemann at the Great West Mill and Elevator yesterday afternoon by Bill Jarvis, who lives two miles north of Pampa. Mr. Jarvis received a premium of \$7.50 for delivering the first wheat. He also delivered the first load last year. The wheat, according to Mr. Tiemann, was green, testing only 51. Price paid for the wheat was on a 60-cent per bushel basis for 60 grade wheat or 51 cents a bushel. Mr. Jarvis delivered 65 bushels. Yield on the particular field was estimated by Mr. Jarvis at about 12 bushels to the acre. The wheat was grown on the old Bridges farm. Wheat is ripening fast and cutting is expected to start generally next week. Farmers have been hoping for additional rain but none fell in this section and now it is too late, they report. Volume of wheat this year is expected to be light because of drought and recent hail. Best looking crops are north and west of Pampa.

'Too Harsh' Terms May Be Refused

(By The Associated Press)
Hostilities between France and the axis armies are expected to cease Friday—or Saturday at the latest—the official Italian news agency reported today, asserting that French plenipotentiaries have started back to Bordeaux with the terms dictated by Hitler and Mussolini. The place of meeting between the French envoys, who arrived in a snow-white plane "somewhere" in German-occupied northern France, was not given. Hitler's high command meanwhile announced the fall of Lyon, France's third largest city, and the capture of more than 200,000 prisoners, including General Altmeyer, commander of the 10th French army. Fifty thousand French Poilus from the eastern Maginot line surrendered their arms this morning to Swiss soldiers and poured across the Swiss frontier. Waves of German planes, attacking from midnight to dawn, rained new death and destruction on England in the opening phase of the "battle for Britain" in a cryptic report, declared that "members of the French government are not at all agreed on the question of laying down arms." The report, which was unconfirmed, reports that France has learned the gist of the axis terms, found them too harsh for the nation's honor, and resolved to fight on. These reports said President Lebrun and members of his government were ready to flee to Algiers, North Africa, to carry on the war from there, even if German troops captured all France. The French admitted Nazi troops have occupied Lyon, rich industrial city, 200 miles south of Paris, but dispatches from Geneva simultaneously gave the first hint that the German mechanized machine has begun the war out and falter. The population of Geneva from the battle zone told of seeing quantities of abandoned German tanks, armored cars and motorcycles along the main highways. Nazi motorcycle troops were reported sweeping the countryside in search of needed gasoline supplies. Nevertheless, under dwindling French resistance, Hitler's armies swept further down into France, the high command announced. Brest, French Atlantic port below Cherbourg, where the American expeditionary force landed tens of thousands of men in 1917-18, fell to the Nazi columns, the official command said. Other German troops racing down toward Bordeaux crossed the lower Loire river—France's intended new line of defense if the fight goes on—between Nantes and Tours. While over 100 German warplanes bombed England, others raided the refugee-swollen temporary capital of Bordeaux four times during the night, killing or wounding 60 persons. Six civilians were killed and 60 injured in the widespread bombing over England. This was the second successive night of renewed German air attacks on the British Isles. Twelve persons were reported killed and 30 injured the night before. Royal air force planes struck back in assaults on objectives in Germany and behind Nazi lines in France. There were seemingly conflicting accounts of French activity. Masses of French planes were reported in flight to North Africa. Some of them were forced down at Spanish ports and islands before reaching their destination. Reports reaching Switzerland, however, stated French planes and troops from North Africa had crossed the Mediterranean under naval convoy to help check the German drive in southeastern France. The French said their troops had delivered a "new battle" on the middle Loire river before withdrawing to "a more favorable line." French armies from the Maginot line were reported retreating southward in Lorraine before the advancing German columns. In Germany, the watchword was "England is next. The Berlin press issued warnings to Britain in command. See SURRENDER, Page 5

Only Gray And Hutchinson Gain In Population

Only two of the 17 counties in the 23rd census district, which includes the 17 northeast counties of the Panhandle with Pampa the headquarters, showed increases in population according to a preliminary announcement today by Carroll Smyers, district census supervisor. The population of Gray and Hutchinson. Present population of Gray county, subject to change in Washington, is 23,847 compared with 22,990 in 1930, an increase of 1,757. The population of Hutchinson county is now 19,054 compared with 14,848 in 1930, or an increase of 4,206. Both Pampa and Borger had large increases in population which more than carried the losses of smaller cities and communities. Pampa's population jumped from 10,470 to 12,680 according to preliminary figures while Borger's population increased from 6,540 to 10,000. Only other cities in the 17 counties to register increases were Canadian, Gruver, Matador and Roaring Springs. Although no true figure on the population of "greater" Pampa is available because the outlying additions such as Talley addition, Lavender addition, etc., were included in the precinct population, it is estimated that "greater" Pampa has a population slightly in excess of 15,000, according to H. C. Coffey, chairman of the Democratic party of Gray county, who discussed the figure with Mr. Smyers. The following is a preliminary announcement of county census figures in the 23rd district as released today by Mr. Smyers:

County	1930	1940
Arlington	3,329	2,472
Armstrong	5,590	4,056
Brown	7,745	6,563
Childress	16,044	12,147
Collingworth	14,461	10,328
Cottle	9,395	7,060
Dove	10,262	7,498
Gray	22,990	23,847
Hall	16,966	12,104
Hansford	3,548	2,782
Hemphill	4,637	4,161
Hutchinson	14,848	19,054
LeFlore	4,512	3,790
Lipscomb	6,812	4,995
Motley	5,224	4,211
Ochiltree	1,457	1,289
Wheeler	15,555	12,385

British Claim Air Win Over Italians

CAIRO, Egypt, June 20 (AP)—Britain's royal air force reported today that its planes had met Italian fighters in an air battle off Benghazi, Egypt, shooting down three of the Italian planes and severely damaging two others. One British fighter plane was missing. The clash occurred yesterday, the R. A. F. said, with Italian fighters engaging British bombers and fighters. A communique reporting the battle said that, as a result of aerial activity in the past 24 hours, three Italian had lost eight planes, certainly and probably five more. About 35 miles on the Mediterranean, but about 35 miles east of the Libyan border.

Meador Doesn't Take Stand--Case To Jury

At noon today the case of State of Texas vs. P. M. Meador, charged with murder, went to the jury in final district court. Final arguments in the case were heard this forenoon, with Clifford Braly, district attorney, making the first speech. He was followed by Julius Dorenfeldt and E. A. Simpson, defense attorneys, with John P. Sturgeon making the final speech on behalf of the state. In his charge to the jury Judge Ewing specified the law on murder and on negligent homicide in the second degree. The latter has a penalty of a \$3,000 fine and three years imprisonment. From two years to life are alternatives for the death penalty. The case was based on an automobile-motorcycle collision three miles east of Pampa on the night of September 2, 1939, in which W. D. (Bill) Kelley, Pampa youth, was fatally injured, and serious injuries were suffered by his companion, Clifford F. Jones, 31, also of Pampa. Charged in 2 indictments, Meador had been indicted on a charge of murder and on another charge of failure to stop and render aid. It was on the first charge that he was tried. The case had been twice postponed in prior terms of district court here. The defendant was not put on the stand during the course of the trial, which opened Monday. Testimony started Tuesday afternoon. Both the state and the defense attorneys introduced portions of a written statement, signed by Meador. This statement was the basis of an issue. Gist of the statement is that Meador came to Pampa about noon Saturday, drank a couple of bottles of beer, started home about 8 o'clock that night. He recounts in the statement that "there was a car coming from the east and just as I passed this car the motorcycle appeared. It looked like it was coming toward me, making 90 miles an hour. I think it was coming toward me. It looked like it was right against me when I first saw it." He then described putting on

War Flashes

LONDON, June 20 (AP)—The Admiralty announced today that the armed merchant cruiser Andania, 13,950 tons, had been torpedoed and sunk. The announcement said that the freighter Juniper in northern Norwegian waters was overdue and considered lost. Two members of the Andania's crew were injured, but the entire ship's company was landed at a British port, a communique said. WASHINGTON, June 20 (AP)—After hearing testimony that 10,000 planes would not be adequate for a proposed two-ocean fleet, the House Naval committee recommended today a navy air force of 15,000 planes. The testimony was given by Rear Admiral John H. Towers, chief of the naval air corps, who recalled that a lately enacted law put a 10,000-plane ceiling on the navy. But that, he reminded the committee, was before a new \$4,000,000,000 expansion of the fleet, designed to give it the size of a two-ocean navy, was projected. Democracy remains pretty attractive, as it is symbolized by comely Rozanne Murray, above. A New York committee recently declared she "most typifies the American girl of today," awarded her the title of "Miss Democracy of 1940."

MISS DEMOCRACY

Democracy remains pretty attractive, as it is symbolized by comely Rozanne Murray, above. A New York committee recently declared she "most typifies the American girl of today," awarded her the title of "Miss Democracy of 1940."

British Isles Raided Again

LONDON, June 20—A Nazi air fleet authoritatively put at considerably more than 100 planes, dumped hundreds of bombs on England, Scotland and Wales last night and early today in the most extensive air raid of the war on this island kingdom. At least six civilians were killed and "some sixty" injured, the government announced. It was the second raid in as many days on Britain and, considering the number of bombs dropped, the reported damage was slight. The Nazis apparently changed their line of attack and aimed more at the industrial areas than on Tuesday night, when 12 were killed. British airmen exacted their toll of the raiders—downing three bombers while other airmen were shot down. The government reported, wrecking hangars and destroying aircraft on the ground at German-occupied airports in France. Anti-aircraft fire accounted for another Nazi raider while several others were badly damaged. Meanwhile, more help has arrived for Britain from Australia and New Zealand. Thousands of fighting Anzacs landed from world-famous liners at a British port, shouting for a "chance at Jerry." The raids provided a realistic prelude to a secret session of parliament this afternoon on the subject of home defense. Prime Minister Winston Churchill and War Minister Anthony Eden were expected to speak. Last night, 50 members of parliament, representing all parties, drafted for presentation to the session a program which would enroll the entire population for defense and establish a special ministry to combat fifth column activities. Authoritative circles today denied Britain was trying to bluff Germany into the war. Rumors to that effect. See BRITISH ISLES, Page 5

Knox And Stimson Named To Cabinet

WASHINGTON, June 20 (AP)—President Roosevelt took steps to form a coalition cabinet today by submitting to the senate nominations of Colonel Frank Knox to be secretary of the navy, and Henry L. Stimson to be secretary of war. Knox, publisher of the Chicago Daily News, was Republican vice presidential candidate in 1936. Stimson was secretary of state in the Hoover administration, and secretary of war under President Taft. The submission of the nomination was accompanied by a white house announcement—without amplification—that secretary Woodring has resigned his cabinet portfolio, effective on senate confirmation of the nomination of his successor. White house officials did say Woodring's letter of resignation was "so personal" that the custom would not be followed and it would not be made public. Knox will succeed Charles Edison, whose resignation as navy secretary becomes effective June 24. Edison quit the cabinet in protest when New Jersey on the Democratic slate.

People Must Pay Defense Price, Says Connally

DALLAS, June 20 (AP)—Senator Tom Connally of Marlin envisions an "invulnerable and unconquerable" United States when its defense program is complete—but the people of this country must make "tremendous sacrifices" of money and comfort to make it so. Connally suggested that after passage of a temporary tax bill that Congress get to work on a measure "reconstructing and revising the entire federal tax structure." He sent a statement to the Dallas Times Herald today saying in part: "The United States is concerned with the security of the entire western hemisphere from alien or foreign influences. On June 17 the foreign relations committee, of which I am a member, secured passage through the senate of a joint resolution giving statutory reaffirmation of the Monroe Doctrine and serving notice on the world that the United States government will neither tolerate nor permit the transfer of title of any foreign lands in the western hemisphere from one non-American power to another. This means that we shall prevent by armed action, if necessary, the conquest of any European possessions in the western world, either those of France, Great Britain, The Netherlands, Denmark, Norway or any other powers. "I favor sending naval vessels to any threatened point in the western hemisphere. Our national arms and resources are pledged to the maintenance of this doctrine. "When our program of national defense shall have been completed the United States will be invulnerable and unconquerable. No power on earth can successfully attack us. This vast program is being prosecuted with the greatest speed. "The people of the United States

Twins Join Navy

HOUSTON, June 20 (AP)—The score here is 4-2 in favor of the navy. The army recruiting office announced proudly a set of twins, Paul and Bernice Drayton of Clodine, had applied for enlistment. The navy office, across the hall, rejoined that it had two sets—Howard F. and Harold L. Cook of Burnet and Marvin F. and Marvin T. Sluder of Temple.

I Saw ...

Judge Ewing getting a laugh in the court-rooms when he told Major Simpson that no Gray county jury needed an hour to eat dinner and two hours to rest. "Besides," the judge said, "people don't eat dinner in Pampa; they eat supper—just remember that."

Brand New Nerve Tester

Opening 3,585 matches on the open top of a beer bottle in 11 hours was Dr. Thomas H. Stagger's way of proving his steady nerves and patience. The doctor is a neurologist at Cleveland, Ohio. The top of the pile was 10 inches across when it collapsed. Thrilling, eh? But one question, doctor: What became of the contents of the bottle? None of our affairs? Correct. Our business is to say that Pampa News' want-ads are the best result getters for the money that you can find. Start using them yourself and you too will be satisfied. THE PAMPA NEWS

Congratulations—

Mr. and Mrs. C. R. Haubert are the parents of a daughter, born this morning at a local hospital. She weighed 8-pounds 9 ounces and was named Gloria Joan.

Coffee And Bridal Shower Given To Compliment Miss Helen Draper

Complimenting Miss Helen Draper, whose marriage to Lieutenant Robert J. Gibbons of Olmstead, Pennsylvania, will be solemnized Saturday at Randolph Field chapel near San Antonio, Mrs. Sherman White and Mrs. J. C. Richey were co-hostesses at a coffee and shower given Tuesday morning in the home of Mrs. White, 610 North Frost street.

Receiving the guests were members of the house party, Mrs. E. Cobb, Mrs. Jim White, Mrs. Robert Williams, Mrs. F. C. Maddox, Mrs. Frank Elliott, Mrs. Wilson Boyd of McLean, and Mrs. W. B. Upham of McLean.

Pouring coffee, which was served with fruits and individual cakes, were Mrs. Jim White, Mrs. F. C. Maddox, and Mrs. Robert Williams. They were assisted in serving by Mrs. Boyd and Mrs. Elliott.

Centering the table, which was laid with a cutwork linen cloth, was a gold and blue army airplane on a landing field foundation, decorated with streamers, balloons and baby breath. The airplane was made by Bill White, son of the hostess. Repeating the chosen color scheme, blue and gold flowers were used throughout the entertainment rooms.

Members of the house party wore corsages of blue delphinium and snapdragons while Miss Draper and her mother, Mrs. N. F. Maddox, wore corsages of pastel shades.

The gifts were opened and displayed for inspection. Mrs. F. C. Maddox presided over the bride's book.

Registering in the bride's book presided over by Mrs. Cobb were Mrs. H. A. Wright, H. C. Schofield, W. J. Foster, Bob Gordon, Raymond W. Harrah, H. B. Carlson, C. T. Hunkapillar, Lee Harrah, H. B. Landrum, Roger S. McConnell, W. R. Ewing, Joe Gordon, S. C. Evans, C. C. Cockerill, J. M. Turner, C. W. Briscoe, Jr., W. C. Hutchinson, Tom Darby, Joe Shelton, Bryant Caraway, Ida Adams, John Hesse, Howard Neath, M. K. Griffith, Hol Wagner, W. D. Waters, C. H. Schulkey, L. L. McCoy, Garnet Reeves, R. E. Ray, Roy Bourland, Travis Lively, Jessie Group, J. T. Roberts, William T. Fraser, B. W. Rose, Tom Rose, H. T. Hampton, William Tinsley, Lynnes Frances Hampton, and Mary Lynn Schofield, and members of the house party.

Gifts were sent by Meses, Lacy Ayres, Luther Pieson, Frances Smith, W. Purviance, E. N. Armstrong, Dorothy Fullbright, J. L. Wheatley, Ann Heskew, Julia B.

LaRosa Sorority Plans Cake Sale At Regular Meeting

At a meeting of LaRosa sorority Wednesday night in the home of Miss Doris Archer, plans were discussed for a cake sale to be given soon.

Preceding the meeting refreshments of sandwiches and punch were served.

Attending were Meses Barbara Matthews, Doris Archer, Eula Taylor, Edna Earl Denmore, Tolene Davis, Doris Taylor, Kathleen Palmer, Juanita Leonard of Dumas, Margaret Bradley, and Evelyn Fullbright of Amarillo.

It's Lucky 'Helpless' People Get Married

By RUTH MILLET How do you suppose the following men and women got along before they were married?

The wife who claims she wouldn't know what to do with herself if her husband left her alone for an evening to go out with his friends?

The husband who can't get off in the morning without the little woman's "finding" everything he wants to wear?

The wife who practices all comments on politics and world affairs with "John says—"

The husband who blames everything that goes wrong on his better half?

The wife who can't keep a check-book straight or pull a tray of ice cubes out of the refrigerator?

The husband whose wife claims everything they have done is due to her managing?

The wife who uses her husband's peculiarities as bridge table conversation?

The husband who starts all of his speeches with a crack about the wife being the boss?

The wife who is known only as "The Jones' wife"?

The husband who considers it his wife's job to answer all letters he receives from his relatives?

The wife who feels she is superior to any and all unmarried women, simply because she is married?

The husband who lets everyone understand that he would be a darling fellow, lead an exciting life if marriage didn't interfere?

Marriage Of Miss Bergman And William Powledge Revealed

Special To The NEWS SHAMROCK, June 20—Mrs. C. E. Bergman announces the marriage of her daughter, Peggy, to William Powledge, son of Mr. and Mrs. W. A. Powledge. The wedding was an event of last Wednesday in Clarendon with the Rev. G. T. Palmer, uncle of the groom, reading the impressive ceremony.

Both young people are well known in Shamrock. The bride was born and reared here and was graduated from the local high school in 1938. She has been associated with the Commercial Loan company for the past two years. Mr. Powledge formerly lived in Allison, where he attended school and is now associated with the United Parts store in Shamrock.

The couple will make their home here.

Mrs. Baird Hostess At Forty-Two Club

Special To The NEWS MIAAMI, June 20—Mrs. H. E. Baird was hostess to the Tuesday Forty-Two club this week.

At the conclusion of the playing Mrs. J. L. Seiber held high score.

Those present were Mesdames W. R. Campbell, R. E. Webster, C. Carmichael, J. L. Seiber, J. A. Mead, J. E. George, W. W. Davis, Dan Kivchen, J. E. Kinney, M. W. O'Moulchin, and H. E. Baird of Miami, and Mrs. Jack Dickerson of St. Louis, Mo.

EARRINGS ARE IN AGAIN

Earrings are important again. Some of the newest slip on at the top of the ear, or if you wish to be unique, clip on earrings in the lobe of one ear and one at the top of the other ear. Almost any type of earring is good—jewelry-encrusted pieces that fit the curve of the ear itself, pendant gypsy rings, but on earrings of gold or pearl or colored stones, earrings that have matching necklaces and bracelets—but it is important to choose types that will become your facial contours.

General Meeting Of Society Held At Central Church

Central Baptist Woman's Missionary society met at the church Wednesday afternoon for a general business session.

Following the opening song, "Take My Life," Mrs. S. L. Anderson led in prayer and Mrs. T. D. Sumrall gave the devotional from Isaiah: 6. Sannie Sue Barnard and Mary Etta Burba sang a duet.

In the business hour conducted by Mrs. O. H. Gilstrap, chairman of the standing committees gave monthly and quarterly reports.

Mrs. John Evans, counselor for the G. A. introduced Aurora Edmonds, Mary Jean Evans, and Doris Taylor, who have been the various phases of G. A. work. Miss Grace NeCase spoke on Y. W. A. work and led in prayer.

Attending were 17 members, three G. A. girls, and one Y. W. A. member.

MODERN MENUS

By MRS. GAYNOR MADDOX When the crowd gathers for a week-end party, try these good but inexpensive recipes.

Casserole of Chili (Serves 12)

Two-thirds cup of oil or drippings, 2 pounds ground beef (hamburger may be substituted), 3/4 tablespoons chili powder, 1 teaspoon salt, 1 minced small clove garlic, 1/2 cups chopped onion, 1/2 cups quartered ripe olives, 1/2 quarts drained, cooked, seasoned Mexican red beans, 1 quart liquid from beans.

Six cups water, 1/2 teaspoon salt, 3 tablespoons butter, 1/2 cups yellow cornmeal, ripe olives for garnish.

Heat oil in large skillet. Add meat and cook and stir about 10 minutes. Add chili powder, salt, garlic, onion and quartered olives, and continue cooking and stirring about 5 minutes. Combine with beans and liquid, and stir to blend. Combine 5 cups water, salt and butter and bring to a boil.

Moisten corn meal with remaining 1 cup water and stir into boiling water. Cook and stir about 5 minutes. Cool slightly. Cover bottom and sides of a 3 1/2 quart casserole or baking pan with cornmeal mixture, retaining about 1-3 for top.

Pour chili into lined casserole and circle top with remaining cornmeal. Garnish with whole ripe olives. Bake in a moderate oven (375 degrees F.) about 30 minutes.

Miniature Hams with Raisin Sauce

One-half cup raisins, 3 cups cooked or canned ham, 1/2 cup ground mustard, 2 eggs, 1/2 cup flour, apple, whole cloves.

Raise raisins, drain and put through food chopper. Drain honey thoroughly and put through food chopper. Skin and most of fat should be removed. Grind raisins and honey together. Ground meat should be measured without packing. Combine raisins, honey, ham, mustard, beaten eggs and flour, and stir until baked in a moderate oven (375 degrees F.) about 10 minutes.

Cut small rounds from uncooked apple. Make small hole in center of rounds and insert a raisin. Place a small wedge of apple in the small end of each ham to form straight "bone."

Place "hams" in greased shallow pan. Bake in a hot oven (450 degrees F.) 20 to 25 minutes. Baste once or twice with sauce while baking. Serve with hot raisin sauce.

Senior Training Union Has Picnic

Special To The NEWS LEFORS, June 20—Tuesday evening the Senior Training union had a moonlight picnic for the members and guests.

The picnic was held at the picnic grounds for an hour and spread their picnic lunch of sandwiches, cookies, and iced soda pop.

Members and guests attending were Bernice Cole, J. A. Jackson, Ruth Kratzer, Gladys Nipper, Gladys Taylor, A. D. Arrington, Christine Stouffer, Leo Ferguson, Bobbie Combs, Rex Lee Jones, Mildred Kratzer, Delbert Cole, Mildred and Juanita Skaggs, Ann Cooper, of Ranger, Tex., Elmer Lee, and Mr. and Mrs. P. B. Kratzer, who chaperoned the group.

REJUVENATE CHEERLESS KITCHEN

Spring is as good a time as any for brightening that cheerless kitchen you have promised yourself you would do something about all winter. Even if the budget won't stand for complete modernization, probably it can be stretched to cover fresh, light-colored paint for walls, woodwork and furniture, new linoleum for the floor, harmonizing oilcloth for shelves and crisp washable window curtains. If kitchen canisters and accessories have become somewhat battered, paint these too, and add some amusing decals. Perhaps a more convenient arrangement of furniture could be worked out also. It's amazing how much smoother usually tiresome tasks are accomplished in a cheerful room.

NEW SUNGLASSES ARE SMART

Sunglasses are no longer merely protecting eyes from glaring sunshine; they are designed to be flattering as well. Styles are so varied that it's possible to choose just the one that does most for your features. The newest plastic glasses have ultra-modern lines and are made in vivid, as well as conservative shades. Some of the oxford models fold up until they fit into the tiny cases no larger than a powder compact. For formal wear, there are new lorgnette types in expensive-looking cases. Another new model combines plastic with bridge and temples of metal, and is so constructed that the end pieces are eliminated.

Marriage Of Miss Smith And Jay Harris Announced

Mr. and Mrs. Joe M. Smith announce the marriage of their daughter, Miss Phyllis Smith, and Jay Harris, which was solemnized June 7 with the Rev. Robert Boshen, pastor of First Presbyterian church, officiating.

Mrs. Harris, who is a graduate of Bracketridge high school of San Antonio, attended Kansas City Art Institute at Kansas City, Missouri.

Mr. Harris, a native of Mississippi, attended Texas University. He is employed by Beckman Incorporated.

Three Hostesses Entertain With Shower For Bride

Special To The NEWS MIAMI, June 20—The entertaining, before were decorated with garden flowers when Mesdames B. F. Talley, Lowell Osborne, and Herbert Hollabaugh were hostesses in the home of Mrs. Talley at a shower Tuesday afternoon for Mrs. LeFors.

Miss Juanita Haynes played soft music during the arrival and seating of the guests. After a large array of miscellaneous gifts was presented to the honoree by Mrs. Talley, those present were served an iced course.

Mrs. Althart was formerly Miss Dorothy Walker and was reared in Miami. Since her graduation from McMurray college, she has been teaching school near Abilene.

PAINTING FURNITURE

When painting unfinished furniture, before applying the paint, be sure that the surfaces are well sanded, so that they will be perfectly smooth and even. Different types of paint require different methods of application—so study the directions on the can and follow them closely. It's important, too, that each coat be absolutely dry before the next is applied. Many of the new paints, however, dry very rapidly, so the job need not be long and tedious.

Jovena Jackson Honored At Party On Eighth Birthday

Special To The NEWS LEFORS, June 20—Mrs. J. T. Jackson honored her daughter, Jovena, with a birthday party in her home on her eighth birthday anniversary.

Winnie Minter and Bonetta Libby had charge of the games which were played on the lawn. Balloons as favors were given to each child attending.

Refreshments of ice cream and cake were served to the following guests: LaVaughn and Marilyn Mullins, June Bull, Eulain and Leroy Ellis, Barbara Jean Barrett, Mary Ann and Norma Byrd, Patty Carpenter, Cherrie Newsum, B. J. Farmer, Barbara McCullick, and Mrs. McCullick, and the honoree.

Closer Relations Between U. S. And Mexico Foreseen

By MAX BOYD

WASHINGTON, June 20 (AP)—Closer relations between the United States and Mexico were envisioned in government and diplomatic circles today as a result of European war developments.

Officials cited as evidence President Cardenas' recent expression of sympathy for France and the statements of other Mexican leaders that their country desired to cooperate with its northern neighbor.

Campaign utterances of General Juan Andreu Almazan and General Manuel Avila Camacho, candidates in Mexico's presidential election July 7, have likewise been studied with interest here.

General Camacho, candidate of the Cardenas administration, has advocated "an armed stand against any Communist or Fascist move that threatens the principals of democracy." He promised that, if elected, he would "work for a better understanding with other nations of the Americas."

In a recent speech General Almazan called for a United Front by Mexico and the United States against both Nazi and Communist elements to protect liberty and the governments of the two nations.

The principal argument between the United States and Mexico in recent years has been over the Mexican seizure of American-owned oil properties.

Unable to sell the output of these properties to the American companies from which they were expropriated, Mexico turned to selling oil on a barter basis to Germany. The outbreak of the European war and the institution of the British blockade closed this market.

Mexico has refused to arbitrate the claims of American oil companies, as Secretary Hull suggested, but in May she reached a settlement with one of the concerns—the Sinclair Oil company—and is now selling oil to it.

Trade between the two countries generally is on the rise. United States exports of merchandise to Mexico totaled \$62,016,000 in 1938, increased to \$83,177,000 in 1939, and amounted to \$90,566,000 in the first four months of this year.

General imports into the United States from Mexico aggregated \$49,030,000 in 1938, \$56,321,000 in 1939, and \$25,745,000 in the first four months of this year.

Following the expropriation of American-owned oil properties, the United States government ended its policy of giving Mexico a definite commitment to buy a certain amount of silver regularly. However, it continued to buy Mexican silver in the world market, along with that produced in other countries.

Kiwanians Beat Lions Club 9-2

Pampa's Civic club baseball league warmed up before the starting of the official season yesterday when the Kiwanis club won a 9 to 2 game from the Lions.

Greely "Doc" Warner, who used to pitch for the old Claude team, served time up for the Kiwanians and he looked like a winner of the game. Travis Lively was drafted to catch. Hugh Ellis and Malcolm Brown tried to stop the Kiwanians with Cal Rose and Hal Wagner doing duty behind the plate.

Black Oilers Beat Memphians 8 to 3

Pampa negroes figured their emancipation day celebration here yesterday a success when their Black Oilers won an 8 to 3 baseball game from the Memphis Black Cats at Road Runner park.

"King David" Walker had his first ball his dippy-doodle working perfectly as he fanned nine and allowed only five hits.

The Oilers scored two runs in the second to tie up the game after Memphis had made a brace in the first. The fourth saw the Oilers make another run and from then on it was the Oilers game.

One in the fifth and another in the sixth put the Pampa negroes farther in front and they iced the game in the seventh with a three run rally. Memphis made their other score in the eighth.

"Dizzy" Dean, catcher, Birdseye, first baseman, and Granville, outfielder, led the Pampa Black Oilers both at bat and in the field.

French 'Swallow' Nazis At Lyon

GENEVA, FRENCH - SWISS FRONTIER, June 20 (AP)—French defense lines literally opened the way for German motorized columns to capture Lyon today—and then "swallowed" the invaders by closing by closing ranks outside the city again.

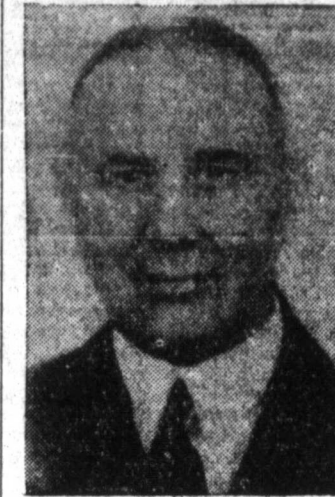

If the French reject Germany's peace terms, it was said, Nazi troops in Lyon and other captured French cities may find themselves cut off.

The German columns were permitted to pass unopposed through the French lines en route to Lyon when the city was declared "open" this morning to save it from destruction.

Previously until the word of Lyon's "open" status came at dawn, the city—third largest in France—had been staunchly defended by the reorganizing French army.

Military observers said the French, far from crumbling, seemed following new tactics. They were opening up bare motorized columns, which now appear weak in effectiveness and equipment, then closing up behind them.

EVANGELIST

G. A. DUNN

At the Central church of Christ a gospel meeting begins this evening and will continue through June 30. Evangelist G. A. Dunn, above, of Dallas, will do the preaching and Albert Smith, local evangelist for the church, will direct the congregational singing. Services will be conducted at 10 a. m. and 8:15 p. m. each day. Sunday afternoon at 2:30 o'clock there will be singing at the church building.

Higher Court Records

AUSTIN, June 20 (AP)—Supreme court proceedings Wednesday included the following: Certified questions answered: Traders & General Ins. Co., vs. W. B. Jenkins, Potter. Applications dismissed W. O. J.—correct judgment.

M. McFaddin et al vs. Oakwood Realty Co., Jefferson; M. D. Sumter et al vs. Humble Oil and Refining Co., Jefferson.

AUSTIN, June 19 (AP)—Proceedings in the court of criminal appeals included: Affirmed: Buster Phillips from Bosque; James Galdi from Dallas; H. Reese from Harris; Mrs. Jim Weeks from Johnson; Fred Solsona from Bexar. Reversed and remanded: James Wright from Lampasas; Joe Rushing from Fisher.

State's motion for rehearing overruled: Alex Fambro from Taylor. Submitted on appellant's motion for rehearing: B. H. Huntsman from Gray; B. C. Williams from Wichita; Joe Lee from Grayson; J. C. Butler from Smith (5 cases); Ambus Wofford from Smith (5 cases); Jon Wofford from Smith (6 cases); Albert Tubb from Gregg; R. L. (Bob) Hash from Wichita.

PHILADELPHIA, June 20 (AP)—John I. Lewis, head of the CIO, told the Republican resolutions committee today labor "has no cause to feel any confidence in the Republican party in recent years because the Republicans in this such, has practically abandoned labor."

Lewis spoke before the resolutions committee as it met five days in advance of the Republican national convention to receive recommendations on planks for the party's 1940 platform.

Lewis asserted he represented 10,000,000 members of the CIO and other groups who "seek no special privileges at the expense of other groups in America. They do believe they have certain inalienable rights."

Lewis asserted the Republican party is in a position to "render a great service to our country and its citizens" if it becomes this year "the party of the people and, in fact, will represent the people and not necessarily the interests of the coupon clippers of this country or of those who believe that the future of the nation lies in their ability to beat labor to its needs and exploit the people of this country economically and politically."

Italy Claims Air Victories

(By The Associated Press) ROME, June 20—Italy's air power was flung today into operations over a vast zone in the Mediterranean and far down the eastern coast of Africa as Stefani, official Italian news agency, declared that by Saturday at the latest, there will be no more fighting between the axis powers and battered France.

French plenipotentiaries already have met the Germans, said Stefani, and are en route back to Bordeaux, presumably with harsh Nazi terms for peace in their hands.

The Italian high command declared its widespread air raids had caused great damage at many points and had destroyed British tanks in a fight on the frontier between Egypt and Libya.

Italians, said the command, bombed such points as the French Mediterranean possession, Corsica, Ligurian coast and in Sardinia, the coast of the Red Sea and other points in Sudan and Kenya.

In the sea war, said the Italians, a 2,500-ton French destroyer was sunk by an Italian submarine. A competent Italian source indicated the Axis peace terms would be presented to France on a "take it or leave it" basis.

Fascist circles considered it probable France would be occupied almost completely by German and Italian forces before an armistice was reached. The newspaper Il Popolo di Roma said the pincers formed by German forces and the Italian army along the Alpine frontiers was about to close in on the only French army reported here still intact.

MEMBER OF THE ASSOCIATED PRESS (Full Licensed Wire). The Associated Press is exclusively entitled to the use for publication of all news dispatches credited to it or otherwise credited to this paper and also the regular news published herein.

Entered as second class matter March 16, 1927, at the post office at Pampa, Texas, under the act of March 3, 1879. National Advertising Representatives: Texas Daily Press League, New York, St. Louis, Kansas City, Los Angeles, San Francisco and Chicago.

Subscription Rates: BY CARRIER in Pampa, 20c per week, \$6 per month. Paid in advance. \$1.50 per three months, \$3.00 per six months, \$10.00 per year. BY MAIL, payable in advance, in Gray and adjoining counties, also Hansford, Ochiltree, and Lipscomb counties, \$4.50 per year. Outside above named counties, \$5.00 per year. Price per single copy 5 cents. No mail orders accepted in localities served by carrier delivery.

An independent Democratic newspaper, publishing the news fairly and impartially at all times and supporting in its editorial columns the principles which it believes to be right and opposing those questions which it believes to be wrong, regardless of party politics.

Where Do We Stand Now?

France is fallen. Britain can do no more than make a last-ditch stand. No one can now challenge Germany's domination of Europe.

What does this mean to the United States? First, there need be no regret that we backed France. It was the decent, humane, civilized thing to do.

But that is no reason to fool ourselves. We face a new Europe, for better or for worse. The question of the French possessions in the West Indies is immediate.

Best disposition would be to make these territories independent, entrusting their defense to a joint mandate of all the American nations.

Our blanket promise to defend all South America looks tougher day by day. Caribbean Central America and Northern South America we must defend simply because to defend them is to defend ourselves.

In the far East, vast French and British possessions are now exposed to hazards. Exactly what our interests are in those regions is subject to serious debate.

Plans are already under way to meet the challenge of trade which will come when all the exports of Europe are handled through a central German clearing-house.

But it will mean less foreign trade. We must, despite our principles, become more self-contained.

Amid all these uncertainties, one thing is quite clear: We must, without delay build military defenses of all kinds on a scale we never thought possible.

Behind The News

WASHINGTON, June 20—Some of the most high-powered political maneuvering seen here in many a day has been going on in connection with the drive to amend the Wagner act—and the end is not yet, by a long shot.

So far the high command of the A. F. of L. has outmaneuvered its rivals in the C. I. O. Scene of the next maneuvering will be the Senate, and so far it is anybody's game.

The skirmishing began early this spring, when FDR finally decided that something must be done to clip the Labor Board's wings and tone down the act itself.

Therefore all enlisted men who are expected to risk their lives for the safety of the nation, if necessary, have every right to demand and to expect the benefits of the Wagner labor relations act.

About this time Congressman Howard Smith of Virginia got busy on his own hook. He went to President Green of the A. F. of L. to see if they couldn't work out a deal.

Then a fellow-member of Smith's investigating committee, Congressman Routhen of Ohio, came to the rescue. Through him, the broken negotiations were resumed, and in the end there was an agreement.

This left Mrs. Norton high, dry and nowhere. She thought the A. F. of L. was back of her, and not until the debate was in full swing did she find it on the firing line opposing her.

Chances are pretty good that the federation can do this. If it succeeds, the bill that will finally become law will be just about what the original Norion amendments provided for, five men on the board instead of three, provisions to protect craft unions from being swamped and drowned in waves of industrial union-

Common Ground

This column contends there can be no satisfactory progress until we measure the shares of each man by the common yardstick of the God-given equal right to create and enjoy anything anyone else has a right to create and enjoy.

The ordinary person does not realize what the new taxes mean to the working man; nor does he realize how it shows up the hypocrisy of the New Deal.

It will be remembered that the head of our nation said, "The national debt is unimportant because we only owe it to ourselves."

Of course the national debt is important. Every consistent person knows that. The New Dealers, however, did not want to add new taxes before because they knew it would be unpopular.

But when this tax is added to the other taxes, it means fewer jobs and lower wages. This is what the inexperienced students of political economy do not understand.

The new income tax in the middle brackets, instead of being an increase of ten per cent, is an increase of fifty per cent.

Even before these new taxes, the total amount invested in new enterprise for the first five months of this year was \$514,000,000; this compared with \$4,483,000,000 for the year 1930.

So every time a taxing system prevents wealth being invested in preserving or improving the tools used by workers, it reduces the amount of wealth that can be produced by labor and, consequently, reduces the pay that workers can get.

So the new tax bill certainly proves how hokus hokus and how hypocritical the statement of the New Dealers really was when they tried to make the public believe that "the national debt is unimportant because we only owe it to ourselves."

But contradictions to the New Dealers, are nothing new. People have come to such a loose state of morals that a man's word being of no value does not seem to perturb him.

Inasmuch as the New Deal and people generally have had so much to say about the importance of security, it might be well to quote what Shakespeare had to say about security:

"And you all know security is mortal's chiefest enemy."

But now we seem to say that Shakespeare was wrong; that we can have such a thing as security. We have what is called the Social Security Law that taxes the efficient to take care of the shiftless.

We have security, security, security. We think of nothing but security. And Shakespeare's statement, "And you all know security is mortal's chiefest enemy," is as true today as when Shakespeare wrote it.

The Nation's Press

What President Roosevelt says perchance is right. There must be no lowering of social or economic standards for defensive war preparations.

Therefore all enlisted men who are expected to risk their lives for the safety of the nation, if necessary, have every right to demand and to expect the benefits of the Wagner labor relations act.

Another novel, nearly finished, will deal with northern California lumbering. He hopes his big-town, glamour-town, and industrial-town books will form, in trilogy, a three-dimensional pattern of America.

George W. Briggs, manager of the Board of City Development, returned from Brownsville where he attended the annual Chamber of Commerce school of executives.

Olin E. Hinkle was elected president of the Lions club for the ensuing year at the annual election of officers.

Franklin D. Roosevelt was also elected Franklin.

EUROPE

Around Hollywood

By PAUL HARRISON NEA Service Staff Correspondent HOLLYWOOD, June 20—Out at Warner Brothers' film foundry they're making "City for Conquest."

While all the reviving was going on, Kandel was around town working for other studios. The author didn't seem much disappointed at not being asked to make his book into a scenario.

Even without the unfilmable parts, the Kandel best-seller contains enough material for about six features. The one being used is the story of Joey the boxfighter and his girl Beila and his brother Bert.

With Jimmy Cagney and Ann Sheridan in the top roles, the picture should make a lot of money, and may be very good, too. But it won't be "City for Conquest."

One of Kandel's plays, "Hot Money," but none of his books except "City for Conquest" has been made into a movie.

"You take an honest, able youngster, maybe off a newspaper, and plant him in a studio at \$300 a week and right away he figures he's an object of special benevolence.

Cranium Crackers

A presidential campaign is nearing again. How well do you know the names of American presidents? The following questions will test

People You Know

By Archer Fullingim All of the Pampa boys played major roles at the Lone Star Boys State convention held last week at Austin. We have seen and talked to Billy Moomts every day for the last five years except when he was out of town.

Wayne was elected secretary of his party at the first meeting. He was elected temporary port-maitrean at the constitutional convention. He was also elected local commissioner, one of the seven major offices. As for Ross, he sat down at the front and led in the debate on the constitution.

Employers seek college trained men to provide future leadership. Except for a few party, during the recreation period, most of the boys would go swimming but Ross would always go fishing.

Everybody want an American flag these days; they like for it to come constantly within their range of vision so, that they can look at its stars and stripes and feel secure even from the bad dream that Europe has become.

On his first job, the graduate should remain inconspicuous as a college man in the eyes of other workers at least until he is well oriented and has the "feel" of the organization.

One of the greatest aids to college men is actual working experience before graduation, say during summer vacations (if obtainable then) or during a year out of school.

Co-operative colleges which regularly schedule quarter or half years at work in between similar intervals of college work, are on the right track. They are bringing education and the needs of business and industry into close relationship, and are giving the student an opportunity to build a perspective which the student without experience must lack.

The opportunity to try one's self at work under real discipline, to observe different jobs at different levels, to understand worker attitudes through close contacts at an earlier age, may prove to be guidance aids out of all proportion to the remuneration received.

That many graduates find the doors to employment and promotion wide open is more than a matter of luck. It suggests that those who have trouble may be definitely at fault, and need a clearer understanding of what is expected and the procedure involved.

With this in mind, our college and Y. M. C. A. personnel bureaus are giving increasing effort to occupational guidance and to the art and strategy of job finding.

JOBS for JUNE GRADUATES

SELL YOURSELF IF YOU EXPECT TO SELL FOR YOUR EMPLOYER BY MAX B. ROBINSON Director of Co-operative Work, Penn College Y. M. C. A. Cleveland

Sell yourself—not your college degree. The employer is only interested in what you can accomplish for him. Your degree in itself guarantees nothing.

Know what you want apply for something definite. And don't forget the smile. These pointers and many others each year are offered to college seniors about to seek their places in business or industry.

JEHOVAH'S Witnesses, a comparatively harmless religious sect whose members are being pushed around a bit because they refuse to salute the American flag, ought to take the hint and not insist so vigorously, particularly at this time, in flaunting their views before the public.

One of Jehovah's witnesses, active in Pampa, paid us a call last night to express appreciation for mention made in this space that there really is no point to roughing them up because they are so comparatively harmless and ineffective.

JEHOVAH'S Witnesses, this Pampa man explained, do not salute the American flag because "it is a form of religion which constitutes idolatry, and that Jehovah's Witnesses believe that saluting the flag is a violation of God's law."

Personally, it sounds like a lot of hooey, and this explanation for not saluting the flag. But if they want to believe that way, there is no law in this land compelling them to salute the flag.

MEADOR TRIAL

(Continued from Page 1)

the brakes, how he jerked the car loose from the motorcycle, looked around, saw no one, tried to stop a car, then drove on toward home.

Meador's statement then tells how his car went dead and how he got assistance to get it home.

Testimony in the case was concluded Wednesday afternoon, when the defense followed the state by two minutes in announcing a rest.

On the witness stand yesterday Chester Meador, brother of the defendant, testified that he had told Sheriff Ramsey of Miami that his brother was in the automobile.

Amariillo Testifies J. W. Jackson of Amariillo, farmer, a brother-in-law of the defendant, said he was in Pampa on September 2 and saw Purvis in three different places here, in front of the First National bank, beside his car across the street from the bank and in the "Palace" domino parlor.

Saw Three Vehicles There was a second automobile, also headed west, behind the motorcycle, he testified. Upton identified the location of the scene of the accident as 3.2 miles from the Santa Fe depot on U. S. Highway 90.

Measurements Queried Chester Meador was called to the stand a second time. He testified concerning measurements he had made and his investigation of the location of the accident.

Front Claimed Undamaged Clifford Jones was called to the stand and testified that he knew of no motorcycle coming along the road from the east.

BRITISH ISLES

(Continued from page 1)

are "most definitely untrue," these circles said. All that Britain asks, they said, is that Egypt execute her military alliance locally and in spirit, and that anything which would hamper British military operations be discouraged.

Legion Post Will Meet Here Tonight

Regular meeting of Kerley-Crossman post of the American Legion will be held at 8 o'clock tonight at the hut.

Negroes Stage Big Emancipation Day Program in Pampa

More than a thousand persons were served barbecue here yesterday when negroes of the Panhandle gathered for the observance of Emancipation day. Negroes were present from Amarillo, Borger, Shamrock, Memphis and other Panhandle cities.

Gray-Wheeler Union To Meet Tonight At Local Church

Young People's division of the First Methodist church will be host this evening at 8 o'clock to the Gray-Wheeler union, composed of Methodist churches at Shamrock, McLean, Alameda, Wheeler, Mobeetie, LeFors, and the local churches.

Three Indicted In Lubbock Bombings

LUBBOCK, June 20 (AP)—Three indictments were the law's answer to the second of two bombings of the homes of Lubbock court officials.

A 2nd district grand jury this morning reported to Judge Daniel A. Blair three true bills charging four offenses to two defendants.

Cow Has Triplets

KANSAS CITY, June 20 (AP)—A red cow won a reprieve from the packing house by giving birth to triplet heifer calves.

Scout Camp To Be Opened In August

Camp Ki-O-Wah, official camp of the Adobe Walls Boy Scout council, will be opened for one week beginning August 18, it was revealed today by Executive Fred Roberts.

Scout Camp To Be Opened In August

Three weeks of camp ended last Sunday after 236 boys had attended. Many of those boys want to spend another week in camp and several boys who were unable to attend the past camp have asked that another week be held later in the year.

Scout Camp To Be Opened In August

Registration can be made any time at Scout headquarters here. If enough boys register, the camp will be opened for two weeks in August, Executive Roberts said today.

Scout Camp To Be Opened In August

Camp Ki-O-Wah, official camp of the Adobe Walls Boy Scout council, will be opened for one week beginning August 18, it was revealed today by Executive Fred Roberts.

Third Largest French City, Lyon, Falls

(By The Associated Press)
BORDEAUX, June 20—France gave up her third largest city, Lyon, to German invaders today while a snow-white plane carried her supplicants for a soldier's peace to a rendezvous with Adolf Hitler or his agents.

The Reichsfuehrer's term for halting the blitzkrieg still were undisclosed publicly.

The French council of ministers, meeting with President Lebrun, pondered the grave situation of France amid unconfirmed reports that the French somehow had prevailed the Hitler terms, had found them too harsh and had decided to continue the fight, possibly from French North Africa.

A communiqué said that the president and ministers went into an hour and a half session at 9 a. m. (2 a. m., C. S. T.), but the announcement gave no reason for the meeting.

The presence of Lebrun at least amended one phase of the France-light-on rumors, for it had been said that the president as well as other leaders had gone or were ready to go to Algiers, a department of France in North Africa, there to set up the structure of government for a continued fight.

The most exact, if incomplete, word on the future of France, however, was that a white plane of peace—hastily painted to spare it from German airmen and anti-aircraft gunners—left a southern French airport early this morning with three French plenipotentiaries to receive the German terms.

Delivery of the peace terms to France will not be conclusive. They must be acted upon by the French government. Meanwhile the war went on.

Planes Kill 60
 As if to demonstrate the Reich's overpowering aerial superiority, German planes during the night roared down upon this provisional capital on the Atlantic seaboard for Bordeaux' first bombardment of the war. Unofficial estimates said that more than 60 persons were killed or injured.

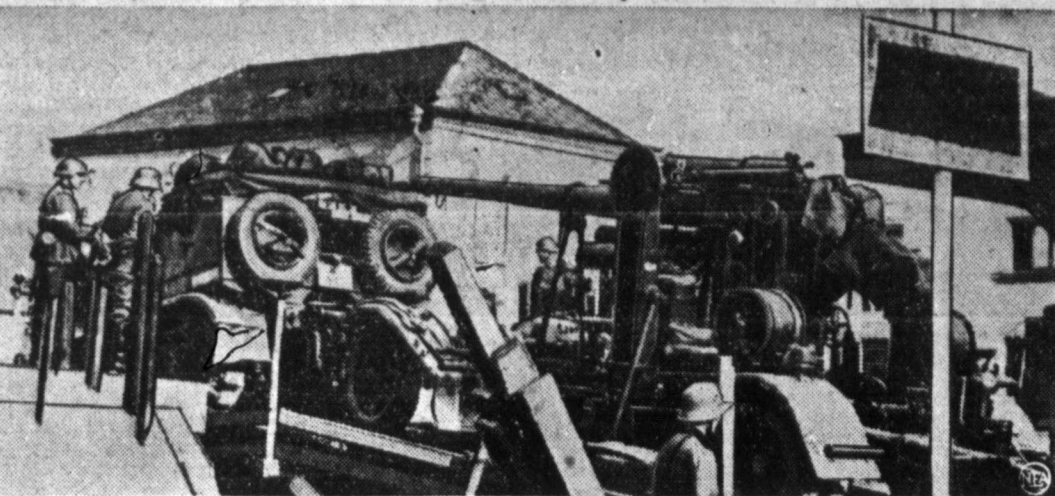

Of Germany's new conquests of French soil, the French reported

Now Many Wear FALSE TEETH
 With Little Worry
 Eat, talk, laugh or sneeze without fear of insecure false teeth dropping, slipping or wobbling. FASTEETH holds plates firmly and more comfortably. This pleasant powder has no gummy, gooey, pasty taste or feeling. Doesn't cause nausea. It's alkaline (not-acid). Checks "plate odor" (denture breath). Get FASTEETH at any drug store.

If They Can't Go Through, They Go Over

In case you wonder what happened when Nazi mechanized forces encountered those steel rail tank traps built to block just such an invasion, here's one answer. Caterpillar truck, hauling anti-aircraft gun, is rolling right over one, on wooden ramp dropped by engineers. Note Nazi censor has blacked out name of Belgian town from signpost at right.

that Lyon (normal population of 570,000) was occupied by German forces driving down the Allier and Rhone valleys.

Five German parachutists dropping behind the fighting front during the night were arrested, the French said.

Reports from Lyon said the city was calm and public services were functioning.

Lyon police patrolled without arms.

Could Squeeze Libya
 It was pointed out that if France should choose to continue the fight from Africa, she and Britain could squeeze Italian Libya. (A large part of the French navy presumably is in the Mediterranean, and in Spain it was said French military planes had been flying in large numbers from France to North Africa. It was reported today from Geneva, however, French warplanes and troops from North Africa had crossed the Mediterranean to help the French armies in France halt the German drive in the southeast.)

France's armies were fighting in isolated groups, although a military commentator said last night, "each nevertheless has conserved its cohesion of maneuver in retreat."

The French were declared to have engaged the central German forces in "a new battle" on the middle Loire river before withdrawing to "establish themselves on a more favorable line."

The French were backed up against the Mediterranean, the Pyrenees mountains along the Spanish border and the Atlantic ocean.

Nazis See Nothing 'Sensational' In United States Note
 BERLIN, June 20 (AP)—Authorized German sources said today that the United States' note invoking the Monroe Doctrine is in accord with the German conception of "America for Americans and Europe for Europeans."

These quarters said they saw "nothing sensational" in the note, delivered to Germany and other belligerents, informing them that the United States will not countenance any change of territory in the Americas from one non-American sovereignty to another.

Bear Traps For Tanks Proposed By Patent Seekers

By EDDY GILMORE
 WASHINGTON, June 20 (AP)—Amid the country's plans for national defense, inventors are flooding the patent office with ideas ranging from Bear traps for enemy tanks to a proposal for enlisting whales in a war against submarines.

Every week brings a new batch of ideas which the patent office calls impractical and which it rejects.

The tank trap suggestion came from a man who said he had spent years trapping bears and big game, and that a huge steel trap would work just as well on a tank as on a grizzly.

The whale plans came from a man who said that whales could be captured, equipped with submarine-fouling armor, and released to raise havoc with the enemy.

Another man said he had a machine which could be installed at strategic points and when a fifth columnist came along with a concealed map, the machine would sound an alarm.

This was called a "map detector."

Still another rejected invention called for an apparatus which its creator claimed not only would catch bombs dropped from the air, but would doze them in water.

A man who wouldn't go into detail said he had an idea for an anti-dive bomber. The general theory behind it was a machine shooting out such a strong current of air that the plane couldn't dive into it.

One inventor had a plan for important highways to be mined with gadgets which would cause nails to rise out of the pavement and puncture the tires of enemy motorcycle riders.

Results Announced For Economy Run
 Final results of a series of nation-wide economy runs, announced by the Ford Motor Company, according to Tom Rose, of the Rose Motor Company, show that an average gasoline mileage of 20.83 miles per gallon was established by a group of 34 Mercury cars in tours equal to a distance of more than four times around the world at the equator.

The tests were conducted in Pampa and throughout the United States and the cars negotiated a total of 112,206 miles over every

One Of Rarest Documents In World Found
 BERKELEY, Calif., June 20 (AP)—An anthropologist's successful four-year search for the rare old document known as the Codex Fernandez Leal, picturing a Mexican Indian migration sometime between the eighth and fifteenth centuries, was hailed today as a signal contribution to early Mexican history.

The document, some nine feet long and so fragile it suggests an Egyptian parchment, was probably made from so-called wild silk, experts say, and painted with mineral and vegetable colorings of astonishing brilliance. It is said to be at least 500 years old.

The search was conducted by Dr. John Barr Tompkins, research fellow in anthropology at the University of California.

The Codex was found, wrapped in brown paper, in a seldom visited corner of the Crocker First National Bank's storage vault in San Francisco. It is to be turned over by W. W. Crocker to the Bancroft library here.

Dr. Herbert I. Priestly, Bancroft librarian, pronounced the Codex "one of the rarest documents in the world."

Dr. Tompkins said he feared half the Codex, including some sheets depicting certain ritualistic scenes, was lost. What is preserved pictures a long migration of an unidentified Indian tribe from a point in what is now Guatemala, northward through the Isthmus Tehuantepec.

Experts say the tribe may have been the Quatecan of the Aztec period, whose descendants still live in Oaxaca. The pictures show battles, ceremonial dances, human sacrifices, and many scenes of mountains, rivers and trees believed painted by the Mexican artist and migration recorder.

Dr. Tompkins learned of the existence of the document through special studies of pre-Spanish rituals still in use in the Sierra Madre region of Mexico.

The trail led finally to San Francisco where a housekeeper in the home of the late W. H. Crocker, then took up the search. It was two years, however, before the document was finally unearthed in the bank vault.

kind of road, encountering weather that included everything from snow, ice, mud and rain to bright sunshine. Traffic conditions varied from snail's-pace, big city traffic jams to the freedom of open roads.

Tom Connally Sponsors War Profits Taxes

By WILLIAM B. ARDERY
 WASHINGTON, June 20 (AP)—A defiant senate ignored administration pleas for a non-controversial revenue bill last night and approved defense tax legislation only after voting stringent levies on those who would profit from war.

The chamber agreed to the lower income tax exemptions and most of the excise tax boosts which the house passed in an effort to raise an extra \$1,000,000,000 a year. Then the senate added:

1. An immediate excess profits tax on all corporations to produce between \$400,000,000 and \$600,000,000 annually.
2. War profits taxes which Senator Connally (D-Tex.), the sponsor, estimated would raise about \$2,000,000,000 a year from individuals and possibly a like amount from corporations. The levy would go into effect only upon a congressional declaration of war.

"This amendment," Connally said, "mills the old cow down to the point of exhaustion, but it doesn't quite put her out of business."

The legislation now goes to a joint senate-house committee, which many lawmakers predicted would throw out the senate proposals.

Senator La Follette (Prog-Wis.) argued that the country would regard as "pure sham" any revenue bill which increased income taxes on individuals and made no provision for draining off excess profits from industries which profit from the European war.

The tax bill would create 2,190,000 new taxpayers by reducing present income exemptions from \$2,500 to \$2,000 for married persons and from \$1,000 to \$800 for single persons.

It would add 1 per cent to existing corporation taxes, increase all individual income tax payments by a flat 10 per cent, boost surtaxes on incomes between \$9,000 and \$100,000, and increase such so-called "nuisance taxes" as those on gasoline, liquor, beer, amusements, radios and mechanical refrigerators.

The federal debt limit would be raised from \$45,000,000,000 to \$49,000,000,000, and a special \$400,000,000 of defense bonds would be paid off with revenue from the new taxes over a five-year period.

Stolen Car Returned
 CENTER, TEX., June 20 (AP)—Immagine deputy sheriff Joel Fleming's surprise when a young man walked into the office and said:

"Here are the keys to an automobile I stole in Beaumont. I got drunk here Monday night and took the car without knowing what I was doing."

Beaumont officers confirmed the story.

The young man was jailed.

Texan Invents Electric Gun
 DALLAS, June 20 (AP)—A flashless electric machine gun may become available to the United States army.

A Pittsburgh manufacturing company (Westinghouse) will study the weapon and attempt to perfect it. The gun is the invention of Virgil Rigby of Hull, Tex.

Still in the experimental stage, the gun has a muzzle velocity of 400 feet a second. Experts say it must spit out its bullets at 3,000 feet a second to be effective.

Rigby said the war department had promised to test the gun if a working model of higher power can be made.

B. D. Atwell, engineer for the Pittsburgh firm's plant here, said the principle of the gun is sound but "it will take a much higher muzzle velocity to make a war weapon of the gun."

Atwell said 44 caliber bullets fired from the inventor's model had the force of pellets from an air rifle.

Magnetic coils perk the bullets through the gun barrel. The coils may be operated from batteries or from a power line.

Concealed troops with electric machine guns could silently mow down enemy troops, who would find it difficult to spot the machine gunners.

U. S. Will Lend Mexico Ten Millions To Create Army

MEXICO CITY, June 20 (AP)—A high source declared today President Lazaro Cardenas had approved a program which would more than quadruple Mexico's armed forces with the aid of the United States.

This source asserted that within a few weeks a credit of more than \$10,000,000 from the United States would be made available to the Mexican government to carry out this expansion under 60 technical experts from the United States army and navy.

Additional millions would be allocated later by the Mexican finance ministry, it was reported.

The United States government was said to be determined that Mexico should not be used as an avenue of invasion by any aggressor power, and it was understood the American credits would be made available on generous terms.

The American determination was said to have been communicated to President Cardenas before Tuesday's cabinet session, at which universal military training and "other defense measures" were endorsed for submission next month to an extraordinary session of congress.

This defense program was reported on high authority to include:

- Increase of the standing army to more than 300,000. The Mexican army now counts 112,000 men, including those on reserve lists.
- Increase of the officer corps by approximately 10,000, of whom 1,000 would be sent to American army centers for special training.
- Acquisition of six destroyers from the United States to strengthen the Mexican navy.
- Establishment of air bases at strategic points around Puerto Mexico, Acapulco, Tampico, Salina Cruz, Vera Cruz and Quintana Roo.
- Improvement of port facilities at Vera Cruz, Puerto Mexico and Salina Cruz—including deepening of channels, new wharves and repair and supply facilities.
- Rapid completion of Mexico's section of the Pan-American highway and improvement of roads so that motorized troops could be moved swiftly between Mexico City and Vera Cruz and Acapulco.
- Improvement of the railway across the Tehuantepec isthmus in southern Mexico to the United States with the understanding the latter would put the line in usable condition. Cost of repairing the railroad was estimated at \$5,000,000.

Want To Reduce Your Waisiline? Then Join Army

SAN ANTONIO, June 20 (AP)—To 300 business men who want to reduce waist lines and think they can take it Uncle Sam offers 30 days in military camp at bargain rates.

The invitation to those between the ages of 25 and 50 was extended yesterday by Col. W. B. Tuttle, civilian aide to the secretary of war for the eighth corps area.

Two hundred will be trained at Camp Bullis, Tex., and 100 at Fort Sill, Okla., July 9 to Aug. 7. A charge of \$25.50 each covers rations and incidentals. The government will furnish uniforms, equipment and quarters.

"They'll drill under a broiling Southwestern sun and receive instructions similar to that in the Plattsburg camps during the World War."

Applicants "must be civic and business leaders."

None will be accepted who is eligible for any existing citizens military training corps course, a member of the national guard, reserve officers training corps or who is on a retired or pension list of the military or naval reserve.

Vitamin B Cures Kinds Of Eyestrain
 CHICAGO, June 20 (AP)—New evidence that a vitamin cures certain kinds of eyestrain, burning and itching eyelids and painful sensitivity to strong light was reported today.

Doctors who made similar tests found that riboflavin, part of the vitamin B complex, "caused prompt and sometimes dramatic relief" of such ocular symptoms in persons lacking enough of the vitamin in their diet.

Forty-seven patients with these eye disorders were cured by taking the vitamin in tablet or capsule form. It was reported in the Journal of the American Medical Association.

Mild cases were cleared up by the concentrated vitamin in only 24 hours, while ordinarily 36 to 48 hours was required to eliminate the more severe symptoms.

BACKACHE, LEG PAINS, MAY BE DANGER SIGN Of Tired Kidneys
 Backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.

The kidneys are Nature's chief way of taking excess and poisonous waste out of the blood. They help most people pass about 3 pints.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backache, rheumatic pains, leg pains, loss of energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

YOUTH DIRECTOR

Third in a series of addresses will be delivered by the Rev. Charles Kasinger, youth director of the Townsend movement, at 7:30 o'clock tonight at the court house. The Rev. Kasinger is an organizer in the Townsend movement and comes here from New Mexico. His appearance in Pampa follows the speech of Dr. Francis E. Townsend in Amarillo last week. A hundred Pampans were in the crowd hearing Dr. Townsend in an address delivered at the municipal auditorium.

Texan Invents Electric Gun
 DALLAS, June 20 (AP)—A flashless electric machine gun may become available to the United States army.

A Pittsburgh manufacturing company (Westinghouse) will study the weapon and attempt to perfect it. The gun is the invention of Virgil Rigby of Hull, Tex.

Odessa Team Will Play Opening Game Here

Pampa Noses Out Midland In 4-2 Tilt

Pampa's Oilers and Midland's Cowboys did an about face here last night when they played one of the best ball games of the season, the Oilers winning 4 to 2. On Tuesday night the teams staged a wild affair which Midland won 26 to 11.

Tonight at 9 o'clock at Road Runner park the Oilers met the Odessa Barons in the first of a four-game series. Yes, it will be the Odessa Barons, unless the name is later changed, that will play here. Big Spring no longer having a baseball team. President Milton Price yesterday approved the transfer of the Big Spring franchise to Odessa after a vote of league managers. The season for Odessa fans will open June 26 with Midland furnishing the opposition.

Tonight's game will be delayed until 9 o'clock so that fans may hear the Joe Louis-Arturo Godoy heavyweight championship fight which will begin at 8 o'clock. Should the fight end before the final game, the game will start earlier.

An effort was being made today by the Odessa management to secure a radio and loud speaker so that early arrivals at the park may hear the fight.

Tomorrow night the Oilers and Barons will play a doubleheader, the first game scheduled for 6:30 o'clock with the second under the lights. One admission will be charged for the two games.

Stork Shower Saturday

Saturday night with Big Spring will not only be ladies' night but will be the occasion of a "stork shower" honoring Mrs. Ben Parrish, wife of one of the Odessa pitchers. A large box into which fans will place their gifts will be located at the park entrance and the presentation will be made after the seventh inning of the game.

Lefty Rex Dilbeck and Sam Malvia combined to beat the Cowboys in a well played game last night. Dilbeck scattered nine hits and fanned eight while Malvia came up with 11 assists and three putouts without an error. He figured in three double plays.

So effective was Dilbeck, especially in the clutches, that not a Pampa outfielder made a putout. Four of the balls hit to the outfield went for doubles and one for a triple and that was when Dilbeck tightened. He didn't walk a batter, and only twice did he have the count 3 and 2 on the batter.

Engles Too Late

Engles of the Cowboys pitched great ball after the third inning, allowing only one hit. Only 15 bat-

Gene Worley To Be Guest Speaker At July 4 Rodeo

ters faced him the last five innings. The Oilers scored in the first inning when Otis led off with a single. Malvia went out to second. Seitz and Prather walked. Summers came through with a single that scored the two men.

Clutter singled to open the second inning but was forced at second. Otis singled. Seitz walked to fill the bases and Prather also walked sending Dilbeck across the plate. Summers forced Prather.

Jordan was safe on an error opening the third inning but was forced by Potter, who immediately stole second. Clutter walked and Dilbeck parked a double against the fence scoring Potter. From then on the Oilers got only one man on base.

Only 21 batters faced Dilbeck until the seventh when Seitz tripled and scored on Schmidt's single. The ninth saw Hale double and score on another single by Schmidt. The third double play of the night killed the rally.

Prize play of the night went to Greer. Midland shortstop, who timed his leap perfectly to rob Malvia of a sure hit. The ball was several feet over Greer's head but he jumped high to make the catch.

Godoy Will Get Second Chance At Joe Louis

NEW YORK, June 20 (AP)—Arturo Godoy of Chile, who is something less than an inspired fighter, gets his second chance at the world heavyweight championship tonight, when, barring rain, he meets Joe Louis over the 15-round route in Yankee Stadium.

Their scrap last February was far from sensational, yet the mere fact that he lasted 15 rounds with the negro champion qualified the South

Additional Sports On Page 8

American iron man for an encore. The betting is 5 to 1 against Godoy lifting the title, yet most experts give him an excellent chance of going the limit again.

The build-up for this, Louis's eleventh defense of his crown, has emphasized the negro's well known pride in the power of his fists and his dislike of having an opponent remain erect at the final bell. He has without fail knocked out every man he met the second time, and his followers are convinced he will smash Godoy tonight.

He might, at that, but the task promises difficulties. Louis is in better shape than he was the other time and he is in a vengeful frame of mind. But so is his rugged, powerful rival in better condition, and Godoy besides is brimming with confidence born of their other bout. In size they are about a stand-off.

Louis has promised to take more chances than in the first fight, when he was super-cautious of hurting his mits on Godoy's head. His advisers say he is going to toss punches and "make Godoy fight."

here July 18-19, has been called for 7:30 o'clock Tuesday night in the county court room, by Sherman White, general chairman.

Boys from Kellerville and McLain as well as from Pampa have entered the model automobile race. Chairman White said. Entries to date total more than 100. There is still time for more boys to enter. Inspection of all automobiles of entrants will be made two days prior to the opening of the derby, with contestants bringing their cars to the high school gymnasium.

CANADIAN, June 20 (Special)—Eugene Worley of Shamrock, aspirant to the congressional post now held by Marvin Jones, will be guest speaker during Canadian's Anvil Park Rodeo this year, appearing at 3 o'clock Wednesday afternoon, July 3.

Mr. Worley, who is now ill with a "strep" throat, today (June 19) accepted the invitation extended by Jap Todd, chairman of the distinguished guests committee. Canadian auditorium will be the site of the talk.

Following Mr. Worley's address there will be a parade, showing modes of transportation through the ages, starting at 5 o'clock in Canadian.

Rodeos in shady Anvil Park, five miles east of the city, are scheduled at 8 o'clock the evenings of July 3 and 4 and on Thursday afternoon, July 4, at 2 o'clock. Such trophies as Deeds and Jigs Burk of Comanche, Okla., Ace Soward of Buffalo, Okla., Slim Whaley of Tulsa, Okla., and Clyde Brown of Tulsa, Okla., will be on hand endeavoring to handle the toughest and meanest animals on the continent. Contract to furnish stock for the two performances is with the famous Beutler Brothers, owners of the wildest Brahmas and bucking horseflesh in the Southwest.

Anvil Park this year will present two new features in the rodeo performances. One is the wild mule scramble, with cowboys riding unbroken mules, and all coming from the shutes at the same time. The second new feature is in reality a revival in Texas of one of the principal events of rodeos back along 1888, when Canadian produced the first such rodeo in the state. C. A. Studer, rodeo secretary, promises the event to be one of the most thrilling and interesting of the show.

For those with itchy feet the rodeo is sponsoring three dances, on the nights of July 2, 3 and 4, with music by Ray Hummel, in the Canadian auditorium.

An usual Brahmas bull riding will be one of the featured contests. Over 100 of these human killers have been obtained under the contract and are being brought here for Anvil Park.

Old times of the country will be out in large numbers swapping yarns.

The American League Scores

BROWNS BEAT BOSTON

ST. LOUIS, June 20 (AP)—After Spotting Boston four runs, the Browns came back to run 10 times and defeated the Red Sox yesterday 6 to 4, for their second straight victory over the league leaders and the fourth in a row. Walter Judnich hit a home run for the Browns with a man on and singled with the bases full.

Bank Opens Account For Baby Parrish

A new savings account was opened at the Citizens Bank and Trust company today and it was in the name of "Baby" Parrish. The amount of the deposit was \$5 and it was made by Bob McCoy, bank president, as a gift to the future heir or heiress of Mr. and Mrs. Ben Parrish.

Parrish is a pitcher for the Pampa Oilers. On Saturday night at Road Runner park when the Odessa Barons and the Pampa Oilers play before a Ladies Night crowd, fans will honor Mrs. Parrish with a stork shower. The bank book will be one of the gifts presented to Mr. and Mrs. Parrish Saturday night.

Anyone desiring to add to the savings account may contact R. L. Edmondson, chairman of the committee arranging for the big "stork shower."

A large box will be placed at the entrance to the park and anyone desiring to leave gifts for the baby before Saturday night may do so tonight and tomorrow night.

Anything will be appreciated by the future parents, Mr. Edmondson said today.

Dodgers And Cards Get Mixed Up In Fist Fight

By JUDSON BAILEY
Associated Press Sports Writer

In a rough and tumble fight for the National League pennant, no club is better fitted to triumph than the Brooklyn Dodgers.

That's why they're back in a virtual tie with the Cincinnati Reds today for the first place.

The 8-3 trouncing they gave the St. Louis Cardinals last night gave them a percentage of .600. The Reds, idle yesterday, have a mark of .3603, if carried into the realm of higher mathematics, and still are technically half a game in front.

The shadow of Ducky Medwick's unfortunate "beating" hovered over the game.

Manager Billy Southworth of the Cards kept Fitcher Bob Bowman, who threw the ball that struck Medwick, away from the park to avert trouble, but in the third inning Catcher Mickey Owen of St. Louis and Manager-Shortstop Leo Durocher of the Dodgers got into a fist fight, and the going was tense from start to finish.

But hard-running Dodgers ended their own four-game losing streak and the Cards' six-game winning streak in one swift swoop. They pounded Fiddler Bill McGee for nine hits in seven and two-thirds innings and these, linked with the

errors and two double steals that worked, easily brought Whitlow Wyatt his sixth victory.

The other other National League engagement was at Boston, where the Pittsburgh Pirates battered the Bees, 5-1, behind Joe Bowman's effective hurling.

In the American league, the St. Louis Browns again rose up and bumped the Boston Red Sox, 6-4. The Yankees were held to seven widely spaced hits by Lefty Thornton Lee and shut out, 1-0, in Chicago. It was the world champions' fourth straight loss.

The Detroit Tigers assumed exclusive possession of second place by whipping the Philadelphia Athletics in both ends of a doubleheader, 5-4 and 9-4, while the Cleveland Indians stopped the Washington Senators, 4-1.

Rideouts Finish First And Second In Buffalo Race

BUFFALO, N. Y., June 20 (AP)—Blaine and Wayne Rideout, the North Texas State runners, finished second and third here yesterday in the mile event of the 20th annual track and field meet sponsored by

Racquet Club To Be Reorganized

Reorganization of the Pampa Racquet club will take place at a meeting of all local tennis players Friday night at 7:30 in the city hall. Rob Brown, retiring president, will preside.

A call to everyone interested in tennis to be present has been made by President Brown. Many important matters will be discussed, including plans for a big invitation tournament here, possibly sponsored by the Pampa Junior Chamber of Commerce.

The club also has received invitations from several clubs to participate in dual invitation and open tournaments.

the Erie Police club of Buffalo and nearby Crystal Beach, Ont.

The Rideout twins alternated in the lead for the first three-quarters of the Erie mile, only to lose to Walter Mehl, 23, University of Wisconsin law student. The time was 4:23.8. Blaine Rideout finished second, 12 yards behind Mehl, with his twin three yards back and Ted Nehrlich, Downtown Y. M. C. A., Buffalo, in fourth place.

SERIAL STORY

Ticket to Hollywood

BY W. H. PEARS

COPYRIGHT, 1940, NEA SERVICE, INC.

YESTERDAY, Francie decides to use a woman's wiles to get the ticket from Gusty. After a dance, she urges him to park at the airport. Gusty is falling for her line, succumbing to the influence of moonlight and perfume when Francie mentions the ticket. Suddenly, Gusty refuses to surrender it, drives Francie home.

CHAPTER IV

FRANCIE slept on a tear-wet pillow. She awakened late, sunshine curled like a warm, yellow kitten on her bed. The gentle breeze puffed at the lace curtains. She brushed her hair languidly, studying her face in the mirror. Last night's tears had left shadows under her eyes. No color showed in her smooth, young cheeks. Francie suddenly felt herself very much the Lady of Sorrow. She arranged her hair in severe lines away from her ears, and scorned all make-up.

Downstairs she paused outside the living room, hearing her father say, "As usual, Hat, you're making Wagnerian tragedy out of a simple quarrel. Francie'll patch things up with Gusty and forget all about this fool ticket." Aunt Hat said, "Indeed, John? I hardly expected you to understand."

"I think I understand Francie," Mr. Weston said wistfully. "She's got too much common sense to let this get her down." "Young dreams..." Aunt Hat murmured. "How little a man understands them! A soul crying for artistic expression. Ah, the poor child."

As if this were her cue, Francie entered the room. Without conscious effort, she had slipped into the role assigned to her by Aunt Hat. The white, quilted robe made her seem fragile. Her eyes held a faraway look.

John Weston scrutinized his daughter sharply. "Good morning, dear. Have a good sleep?" "I-I guess so, Pops."

"Is anything wrong, Francie?" John Weston asked. "I saw you go out with Gusty last night. Haven't you patched up your quarrel?"

Francie said frigidly, "My opinion of Gusty Gair has not changed, Pops."

"Oh," he returned to the Sunday paper, his brow furrowed.

From the kitchen Aunt Hat called, "Do have coffee, dear."

Francie obeyed languidly. Tipping the droplet, Aunt Hat whispered, "Did you get it, Francie? Oh, you did! You show the strain you've been under. That's it, isn't it, Francie?"

Truth, poised upon Francie's tongue, was never uttered. Aunt Hat was so eager, so sure that her

methods couldn't fail. Francie simply hadn't the courage to admit that Gusty had been too smart for them. Besides, what difference could it make? Pops wouldn't take them to Hollywood, anyway.

She said, "Everything's all right, Aunt Hat." "Oh, darling, I'm so glad! You've no idea what this trip means to me."

Francie said, "You're pretty sure Pops will go."

"Trust me, Francie. I've only begun to work on him."

THE next few days bore out Aunt Hat's assertion. Morning and evening Francie would hear the discussion going on. Unwittingly, she herself contributed to the cause by falling deeper into her Lady of Sorrow role. Each day she waited for Gusty to come and beg forgiveness, but he remained stubbornly away. Each day Francie's pallor deepened.

At the dinner table Wednesday evening, John Weston said, "Francie, you haven't eaten a thing all week. You're losing weight. Just what is the matter?"

Francie said wanly, "Nothing, Pops."

"Your Aunt Hat doesn't agree, Francie. She thinks you need a change. Hollywood, perhaps. How does that sound?"

"Oh, John," Aunt Hat bubbled, "you've really decided to take us?"

"I'm trying to look at it unselfishly," John Weston admitted. "Goodness knows I don't want to be the only one to enjoy the vacation. I can fish in California, I guess."

For a moment Francie was infected with her aunt's enthusiasm. Even without the ticket it would be fun. And you could never tell what might happen. Some big director might see her and...

"It's a long trip," Mr. Weston was saying, "but maybe it'll do us all good. Hat's worked hard and deserves a rest. And I'm hoping, Francie, that once you've satisfied your curiosity about Hollywood, you'll get your appetite back and be a normal girl. Well, do you like the idea?"

"Oh, Pops..." Francie hugged him tight. "You're so swell to us. I-I think I'll have one of those pork chops now..."

THE week bustled by in a frenzy of shopping and packing. There was no time to think of Gusty. Whenever Aunt Hat mentioned the ticket, Francie evaded a direct answer. She didn't want to lie, nor could she bring herself to tell the truth. Aunt Hat's whole vacation would be ruined if she knew.

Friday evening John Weston

said, "I had Gusty tune up the car today, Francie."

Francie feigned disinterest, went on packing.

"He asked about the trip, what route we were taking and all. I told him he ought to drop over and say goodby."

Francie blushed. "Pops, you shouldn't..."

"Gusty said he guessed it wouldn't be such a hot idea."

"N-no, it wouldn't," Francie said.

But she watched for him all evening. Now that Gusty knew she was going, the only decent thing he could do would be to bring her the ticket...

At 10 o'clock she gave up and went to bed.

John Weston had everyone awake at daylight. They were all too excited to eat breakfast. When they finally piled into the big sedan, Francie could hardly believe they were starting for Hollywood. Why, anything could happen in Hollywood! She might even see Jerry Finney...

"Say goodby to the old town for a whole month," Mr. Weston laughed.

Francie gazed back at the unimpressive skyline of Elspeth City. How drab it looked! How glad she was to get away from it! From small-minded people like Gusty Gair.

Mr. Weston said, "Think he'll wait for you, Francie?"

"I-I don't want him to!" Francie cried. "I'm through with Gusty."

AND yet, as they drove along, she caught herself worrying about all the girls in Elspeth City who were crazy over Gusty. They were always chasing after him. Well, they'd have a clear field now. All Francie hoped was that no one like that disgusting Tilda Blake would catch Gusty.

John Weston drove at a moderate speed. Francie, in a fever of excitement, wondered how she could stand the long hours until they got to Hollywood.

At sundown, Mr. Weston decided to stop at the next cabin camp. They pulled up before a long row of stucco buildings and he went inside to register.

Aunt Hat had gone to inspect the sleeping quarters. Francie was alone in the car. Suddenly she sat upright in astonishment. She could scarcely believe her eyes. Down the road sped a debilitated old roadster. Behind the wheel sat a black-haired young man. He slowed down as he passed and mooded his assorted cow horns.

He raised one hand in the air, grinned. "Hi-yah, Sugar!" Gusty Gair belted.

U. S. Naval Bases In Latin-America May Be Proposed

(By The Associated Press) WASHINGTON, June 20.—Establishment of Latin-American bases for the United States navy, a usually well-informed source said today, may be one of the subjects raised at the projected Pan-American conference on hemisphere problems of military and economic defense. Both aircraft and fleet bases would be involved in any such discussion, this official said. Under Secretary of State Sumner Welles announced yesterday that the government had communicated with all 21 American republics, suggesting that an extraordinary conference be held immediately to consider all problems confronting the hemisphere as a result of the turn of events abroad. The conference proposal was made known after Secretary Hull disclosed that notes had been sent Monday to Germany and Italy saying that the United States would not entertain any transfer of the British, French or Dutch possessions in the new world to a non-American country. The matter of navy bases in Latin-American nations, it was emphasized, is still in the discussion stage.

Once Feared Quicksands Now No Match For Modern Tractor

By MAY STEVENS ISAACS
Special To The NEWS
CANADIAN, June 19.—The modern tractor with enormous, rubber-tired wheels passes easily over the once much dreaded sands of the local stream beds.

The quicksands of the old South Canadian river and its tributaries have always been dreaded by those finding it necessary or desirable to ford over them.

In the early years those who faced the difficulty of fording for the first time and without knowledge of the ways of quicksands, sometimes met with disaster.

There is the tale of a loaded freight wagon, many years ago, which went down the river a total loss. People in buckboards who had good river teams which swam easily, yet lost their belongings which simply floated out of the rig and away.

Hard to Ford
Men who forded herds of cattle faced difficulty and hard work, sometimes losing a few head, but usually the cooperation between the cowboys and their ponies brought the herd over intact, even though all concerned were weary to the point of exhaustion from their tussle with the river.

We recall a time not too many years ago, not too recently either, when the Country club on the north side of the river was new and a group of 40 persons went over for a fish fry. There was no wagon bridge so all went out the lane past the C. H. Shaller place and forded the river about three miles east of Canadian. It was a perfect day and the ford not troublesome.

Water Half-Mile Wide
Late in the afternoon, we started homeward and, on reaching the river, faced a solid sheet of water covering the entire bottom lands, fully a half mile wide. A rise had come down during the day, not unusual then or now.

Some distance out a load of watermelons from the truck farm of Judge T. B. Humphrey, pioneer settler and schoolteacher in this section, was making its way over, we thought the horses swimming.

Noticing that the husband lowered the buggy top as he put our horses into the water with the remark, "I'll bet they stick." We thought he referred to our team and held our breath all the way across. He said later that he meant the load of watermelons, but they came over safely, too.

Buggy Floats
Our horses were used to the river and the quicksand so were not disturbed when they struck swimming depth, the buggy floating on top of the water.

Just last week a tractor nego-

lated five miles of Red Deer creek bed going from Canadian for work on the ranch belonging to Mr. Darrell Wiggins near Merriola. It made it much more easily than it could have over the broken terrain of the pastures which it otherwise must have traveled.

Merit System Board Begins Functioning

AUSTIN, June 20 (AP)—Possibly for the first time in history, Texas today had a merit system board to examine the qualifications of prospective state employees.

Governor W. Lee O'Daniel yesterday named Dr. Emmette S. Redford of the University of Texas, Dr. T. W. Leland of Texas A. & M. college and Dr. J. O. Ellsworth of Texas Technological college to the board which will function primarily for state boards administering federal social security functions.

"Other state departments are invited to cooperate with the board and in the future select their employees from those who pass the tests prescribed by this merit board although, of course, such participation by other departments will not be compulsory at this time," O'Daniel said. "The experience of this merit system board will also provide material for consideration by the next legislature."

The governor noted that a merit system he had advocated failed of approval in the last legislature despite a preponderantly favorable opinion of lawmakers obtained by him in a pre-legislative canvass.

Mobile Dental Unit Comes Today To WTSC

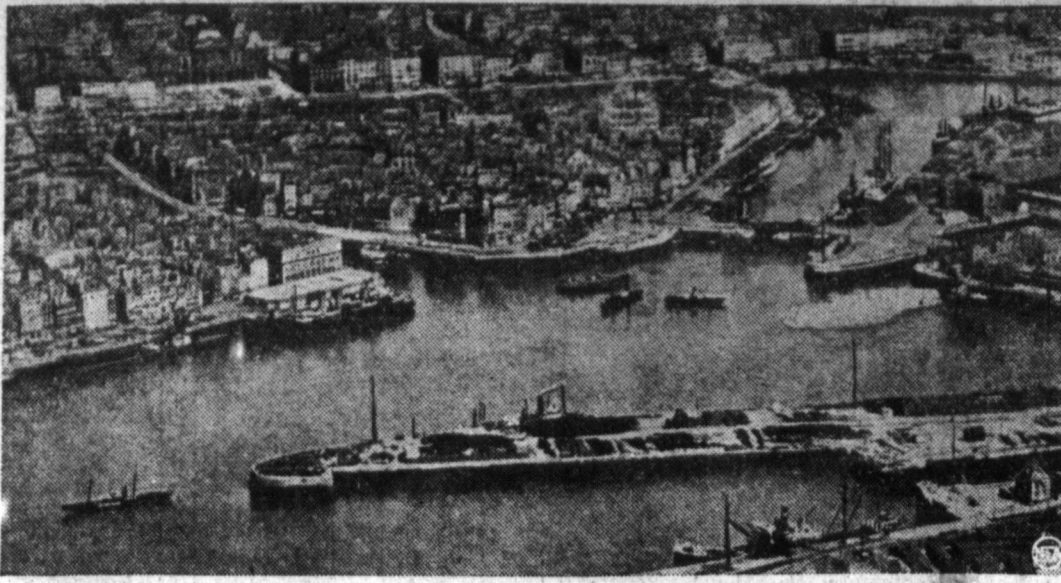

CANYON, June 20.—Dental health education has taken to the road, in a house-trailer furnished with modern equipment for dental education and clinical treatment.

One of these mobile dental units, used by the state department of health in the public schools of Texas is on exhibit at the campus of West Texas State college until 5 o'clock this afternoon.

A staff dentist from the state department of health will demonstrate in his movable office the clinical corrections for children as carried on in Texas public schools on a nine months basis.

The purpose of the unit is to acquaint the school child with the dentist and accomplish health education as well as perform corrective work.

Famed French Port Bombed by Nazis

Le Havre, whose salmon-colored cliffs have given millions of Americans their first glimpse of France, joined the growing list of French cities bombed by German planes. The view above shows the harbor, one of the most important in France, showered with explosive and incendiary bombs in repeated raids.

Indiana Woman Hears 'Hopper Can Jump Ocean'

By EDDY GILMORE
WASHINGTON, June 20 (AP)—The United States already is engaged in a terrific war—on bugs.

The 17-year locust is coming around again. The house appropriations committee recommends a \$500,000 fund to battle the chinch bug. The agriculture department asks an additional \$380,000 to combat the pink bollworm.

Bugs, bang, and boom! Rumors are afloat. The agriculture department has received a letter from a woman in Indiana who asked if it were true that a European power has developed a super grasshopper which could leap across the ocean.

"The department, however, is calm. 'The insects are bad,' said an expert, 'but generally speaking, they are no worse than usual.' Few people, especially city dwellers, know it, but the United States abounds in borer-from-within, and the government annually spends thousands of dollars tracking them down.

There are the squash-vine borer, the flat-headed apple tree borer, and the round-headed borer. When it comes to alien insects entrenched on American soil, here are some of the sums requested to control them:

Japanese beetle \$397,840
Mexican fruit fly \$176,138
European corn borer \$28,239
Thurberia weevil \$693,600

But these are not all the insect fifth columnists whose activities are constantly under inspection by the bureau of entomology and plant quarantine.

In the bureau's files you'll find names and descriptions of the worst sort of unregistered aliens, such as the Harlequin bug, Puerto Rican mole cricket, the cotton louse, and the striped blister beetle.

Some have disguises, too. There's not only the chinch bug, but the false chinch bug as well.

Delegates Named By Wheeler HD Council

Special To The NEWS
SHAMROCK, June 20.—The Wheeler County High Demonstration club council selected as its delegates to the short course at A. and M. college July 11-12, Mrs. Hester Dodson of Twitty, Mrs. Ruby McCoy of Allison, and Mrs. J. A. Buleason of Shamrock.

Alternate voting delegates will be Mrs. H. H. Liles of Twitty, Mrs. Ernest Deering of Pagan, and Mrs. D. O'Gorman of Magic City. Other delegates are Mrs. Eva Rutledge of Head and Mrs. H. F. Krug of D. H. S.

The council voted to send Mrs. Milt Williams of Twitty to attend a meeting of the Land Use Planning group and Mrs. Jim Risner of Wheeler to attend the girls sponsor meeting at College Station which will be held during the short course.

Mrs. Paul Stauffer tendered her resignation as educational chairman of the council and Mrs. Juanita Levitt of Allison was appointed to fill this office.

Attending the council meeting were Mrs. Hester Dodson, Glen King and H. H. Liles of Twitty; Forrest Carver of Center; Fann Partridge, Al Burlison and George Close of Shamrock; W. D. Key and H. L. Trimble of Mountain View; Fay Bearden of Mobeetie; Henry Pitcock and A. B. Pond of Kelton. Mrs. T. C. Harless and D. O'Gorman of Magic City; Carl Levitt and Ruby McCoy of Allison; Paul Macina and Miss Susan Hrncliar of Pagan; Eva Rutledge of Head; H. F. Krug and Jack Bass of Davis; W. H. Lee, Clarence Zybach and Clint Higgins of Briscoe; Jim Wisner, J. H. Watts, Miss Lucille Chance and Miss Opal Duncan of Wheeler; M. A. Pillars and Milt Williams of the Country Neighbors club.

Oil Industry Has Eyes On Texas

TULSA, Okla., June 20 (AP)—Attention of the mid-continent petroleum industry was divided today between the reality of excess stocks, grown more burdensome with the fall of exports, and the possibility of a wartime emergency demand.

While Texas operators pondered fast-swelling gasoline and crude oil stocks, President Roosevelt late yesterday urged the industry to be ready to meet at once any need that might arise.

A majority of the Texans in an emergency hearing opposed a general shutdown of all the wells of the No. 1 oil state, hard hit by the Gulf Coast export slump attributed to loss of European markets.

The railroad commission, Texas' oil regulatory body which called the hearing, ordered a canvass of crude purchasers' nominations by districts today.

Meanwhile, President Roosevelt emphasized that the war-torn world's oil picture might change from one 24 hours to another; that the American export trade curtailed one day might have new outlets the next.

Some Oklahoma observers consider the Texas situation localized, pointing out that the allowances there had exceeded bureau of mines estimates of demand.

A major point of issue in the Texas hearing was whether production should be cut in given districts, such as the Gulf Coast area which was permitted special allowances to meet foreign demand, or should be absorbed by the state generally.

Indian Defense Tactics Adopted By British Isles

LONDON, June 20 (AP)—England has adopted early American anti-Indian defense tactics with the erection of blockhouses over the countryside to combat an expected German invasion, it was disclosed today.

War Minister Anthony Eden, in a written answer to a question in the house of commons, said the following measures had "been noted":

1. Erection of blockhouses or elevated armored machine-gun posts in various parts of the country, especially flat areas;

2. Provision of rockets to spread the alarm of enemy parachute descent "with a view to possible interruption of telephonic and telegraphic communications";

3. Protection of buses and trucks with bullet-proof armor, arming them with Bren guns, and holding them at strategic points to guard against parachute landings, troop-carrying planes and speedboats.

4. Supplying arms to railway signal posts, especially in isolated areas, and adequate steps for the protection of locomotive sheds.

Social Security Board Outlines Age Proof Ways

Special To The NEWS
AMARILLO, June 20.—Do you know your own age?

If you do, then another question arises—can you prove the date of birth?

This is a question many workers seem to be worrying about because the Social Security board is requesting proof of age from each individual who files a claim for federal old-age and survivor insurance.

Registration of births is practically a new thing in many parts of this country. Not many states maintained accurate records regarding births until a few years ago.

Registration of births is practically a new thing in many parts of this country. Not many states maintained accurate records regarding births until a few years ago.

There are various means of proving one's age, such as: Registration of the birth of a child by its parents in the family Bible.

Baptismal record. Date of birth as it appears on a life insurance policy if issued prior to August 14, 1935.

Date of birth as shown on an individual's application for membership in a lodge, fraternal group, or labor union, if dated prior to August 14, 1935.

Affidavits by sisters or brothers. Affidavits by parents, of course, are sufficient proof of date of birth.

There are few 65-year old persons whose mothers and fathers are living, but middle-aged and young workers might well secure proof of date of birth from their parents and file the proof away with their social security account number. Such an affidavit will come in handy when the worker becomes 65 years old and desires to file claim for old-age insurance.

If you have a proof of age problem, or any other problem connected with your old-age and survivor insurance account, the manager of your nearest Social Security board field office will be glad to cooperate with you in every way in straightening out your difficulty.

The manager of the field office will help you without any charge whatever. There is no need to employ an attorney; just call on your

Firearms Not Needed In Texas 31 Years Ago, Europeans Informed

Special To The NEWS
SAN ANTONIO, June 20.—Just 31 years ago Europeans who were prospective tourists to the United

States were assured in a Baedeker guide that they need not carry firearms, travel in America having become as safe as in "the most civilized parts of Europe."

This was recalled today by J. Frank Davis, state supervisor of the Texas WPA Writers' project, a recounting some of the problems involved in preparing the Texas state guide which will be off the press next month.

"That Baedeker," he said, "also advised that European visitors should bring their own matches, buttons, ribbons, needles and thread. It was a good guide in many respects, but no guidebook to so vast a country as the United States, or so vast a state as Texas, could be made even halfway complete or accurate by any private publisher without so much travel and research that the price of the volume would have to be prohibitive.

No one tried it again after 1909 until the WPA program was set up, when the need for employment by writers, researchers, map-makers and artists made it practicable to use their services in compiling the American Guide Series, to include a volume covering each state.

Iodine Makes Human Motherhood Easier

SEATTLE, June 20 (AP)—Discovery that iodine makes human motherhood easier was reported to the American association for the advancement of science here today.

Small quantities of iodine were given to expectant mothers at the University of Oregon medical school. Some remarkable results were reported by doctors F. B. Zener, Milkanth M. Phatak and N. A. David.

The women reported a greater sense of well-being before the babies were born. There were fewer abnormalities of labor during birth.

Afterward they were better able to nurse the babies. Finally they recovered more quickly.

King Leopold's Children Enter Spain

IRUN, Spain (on the French border), June 20 (AP)—The three children of King Leopold of Belgium entered Spain last night by automobile en route to Portugal.

Former Belgian Premier Paul Van Zeeland and other Belgian officials and diplomatic and consular officers of several nations also crossed the border from France.

Social Security board field office, located at 324 New Post Office building, Amarillo.
