Britons Ready for 'Cross-Channel Duel With Nazis'

A British gun-crew races on the double-quick to man one of the huge coast-defense guns that line the shores of England. Guns like this, firing 370-pound shells, staged a bitter duel across the English Channel with Nazis' long-range guns in German-controlled French ports.

 used during lunch at which the two foreign ministers took part?
 Despite the unheralded nature of the parade, the entourages from Berlin and Rome mustered a show of ceremony never lacking from such events.

Clothes Make the Man (and Family)

Clothes, says the old saying, make the man. This family evidently believes they make the woman and child and dolly, too. The tricky "for-the-whole-family" outfit was hit of recent New York style show. Jackets are green rayon, with tan rayon-slacks. Skirts are tanerine, hats white felt banded in green to match jackets.

HITLER

(Continued From Page 1)
 lin, commenting on the meeting, declared:
 "Remember that when both statesmen met last July 2, the enemy power was in bad shape. Events have a way of casting their shadows before them."
 British commentators in London took another view. The government-controlled British broadcasting corporation declared dryly:
 "Apparently the dictators are having difficulties and are trying to find some way out."
 "It seems that each of the Axis partners wants to get help from the other—and both want to discuss ways and means of keeping the United States out of their fight with Great Britain."

ROOSEVELT

(Continued From Page 1)
 measure of interference in the internal policies of the United States but because of the President's foreign policy and because of everything which he stands for in the eyes of the Italians and Germans."
 Mr. Roosevelt also read a section of the story which said that "as far as the United States is concerned, the Axis is interested primarily in keeping it out of the war and trying to prevent or minimize its help to Great Britain."
 In reply to further questions, Mr. Roosevelt said that there had been some discussion of letting Canadians use private American flying schools for aviation training, but that no consideration had been given to letting Canada undertake military training of aviators in southern states.
 He said also that Canada had bought some old World-War type tanks from the United States for training purposes, but that he doubted whether most of them would move under their own power and said that not many were involved in any case.
 (At Detroit, it was reported yesterday that 105 old tanks had crossed into Canada.)
 From time to time, as at the present, he said, many Latin-American officers come here to look over defense projects. In the same way, Mr. Roosevelt continued, American officers are in Latin American countries, and it is perfectly obvious they are discussing facilities, such as airports and whether there enough of them.
 Information is being exchanged, the President asserted, on what is needed up here and down there.

Intr'ing. No End

Many and varied, and some fairly onerous, no doubt, are the duties of the Governor of one of His Majesty's Crown Colonies. One of the more pleasant ones is pictured above, where the Duke of Windsor and the Duchess, sheltered from the hot Bahamas sun under a half-pint parasol, examine press clippings and silver cups won by the Shoreham Aquatic Club of Nassau at recent swimming meets in the U. S. and Canada. In background are Major Grav Phillips and Neville Hall, Shoreman coach

President To Visit Defense Projects In Pennsylvania, Ohio

WASHINGTON, Oct. 4 (AP)—Johnstown, Pa., and Columbus, Ohio, were added today to a tentative itinerary for President Roosevelt's trip next week to defense projects beyond the Alleghenies.
 One formal speech will be made on the trip, at Dayton, Ohio, October 12, when Mr. Roosevelt will broadcast a report on preparedness to all the western hemispheres.
 The tentative schedule calls for the chief executive to leave Washington shortly before midnight October 10, and stop at Johnstown the following morning.
 His special train will take the President to Pittsburgh, where he will arrive shortly before noon.
 Mr. Roosevelt is to reach Youngstown, Ohio, in mid-afternoon for tour industrial plants in that area.
 Next the special train will move to Columbus, where Mr. Roosevelt will leave it about 10 a. m. the next day to visit Fort Hayes, headquarters of the fifth army corps.
 He will spend about an hour in Columbus and then move on to Dayton, Ohio.
 President Roosevelt listed an address for the week of October 21, but told reporters he had no expectation of speaking in Madison Square Garden October 23.
 The Democratic national committee had leased the Garden for the 25th. It was there that the chief executive made the climax speeches of his 1932 and 1936 campaigns.

Plane Contract Signed

WASHINGTON, Oct. 4 (AP)—The war department signed today the last of a series of contracts for the 18,941 planes for which congress provided funds at this session.
 The order completing the immediate aircraft purchasing program was a \$37,770,981 contract awarded North American Aviation, Inc., Inglewood, Calif.

Bike Bowl Is No Bowl of Roses

Here's photographic evidence that six-day bike racing is all it's cracked up to be when it comes to thrills. Archie Bolaert, left, and Charley Bergna receive first aid from attendants after hurling 15 feet over the guard rail and completely out of the saucer on which they were competing in Washington. Bergna was hospitalized for treatment of possible skull fracture.

Excess Spending Of Willkieites Claimed

WASHINGTON, Oct. 4 (AP)—Oli-ver A. Quayle, Democratic party treasurer, charged today that independent groups supporting Wendell L. Willkie for president would spend "many times the \$3,000,000 limit allowed by the Hatch act."
 He drew a reply from C. B. Goodspeed, Republican treasurer, that an unfair interpretation of the law might prevent the Republican party "from presenting its candidate to the people."
 The exchange was before the special senate committee appointed to police this year's elections.
 Quayle insisted that the Democratic committee was controlling all finances of groups supporting President Roosevelt and would comply with the "spirit as well as the letter of the Hatch act."

 Attending the meeting was a mixed crowd of Republicans and of Anti-Roosevelt voters. Some had switched their votes in past years, sometimes voting Democratic, and at other times Republican.
 Present were Dan E. Williams, George Cree, Tex DeWeese, Ray F. Barnes, Hamp Waddell, J. B. Orr, L. C. Peddicord, Paul Clifford, Cleve Huff, E. C. Sidwell, E. L. Wilder, Gus Baldrige, Tom White.

Inland Boy Gains Wish For Sea Burial

RICHMOND, Va., Oct. 4 (AP)—Charles Harold Nelson loved the sea.
 Boats and sailing and anything that smacked of the salt or rolled with the wave of Chesapeake Bay took most of the Richmonder's leisure hours—a throwback, perhaps, to his Danish ancestry.
 Nelson was a young man, yet he had spoken the wish that he'd prefer the sea in death even as he loved it in life.
 A few weeks ago Charles Harold Nelson was killed just four days after his 27th birthday. He was struck down near his home, 60 miles inland, by an automobile.
 After a cemetery burial, his family and friends recalled his wish about the sea, a wish whose fulfillment was not kept waiting.
 Quietly and at night the coffin was disinterred and taken to the coast. Near Gloucester banks a boat was waiting. Six men and a woman went aboard with the coffin.
 Three hours later the boat returned and the seven passengers left quietly, leaving Charles Harold Nelson where he wanted to be.

Married People Have Edge On Single Ones

EAGLE ROCK, Calif., Oct. 4 (AP)—Married people have fewer problems than unmarried and are more successful in avoiding prison, insane asylums and the undertaker, Dr. Paul Popenoe, general director of the Institute of Family Relations, declared today.
 "The extraordinarily high rate of insanity, suicide and imprisonment, and the short span of life, of the single, divorced and widowed, as compared with married persons, is the best possible evidence that those outside of marriage do not lack serious problems," he said in an address prepared for delivery at a conference of the institute.
 A study of 5,000 persons made by the national recreation association, Dr. Popenoe said, "showed that it is the unmarried, not the married, who slump steadily into a rut."
 Dr. Popenoe cited "the fact that the divorce rate of college graduate women is four times as high as that of college graduate men" as indicating that "the present education of women, largely dominated by unmarried women, is a failure in too many instances."

Another Drug Store Added By Cretney

ADDITION of another unit to the drug store system of W. F. Cretney of Amarillo, formerly of Pampa, was made in Amarillo this week.
 The new unit, located in the Furr Food building, corner of Fillmore and Tenth, Amarillo, was formerly the Doherty Drug company.
 Cretney stores are located in Pampa, Borger, and Amarillo. Addition of the new Amarillo store makes two Cretney stores in that city.

Earthquake Rocks North Chili Cities

SANTIAGO, Chill., Oct. 4 (AP)—Several buildings were destroyed or damaged by a series of earthquakes which shook Chile's northern provinces early today, the ministry of the interior announced.
 The shocks, apparently strongest in the region of Iquique, were felt intermittently over a period of six hours.
 No reports have been received of any casualties.

Morrison Praises Factory Workers

LONDON, Oct. 4 (AP)—Britain's new minister of home security, Herbert Morrison, said in a broadcast today that British factory workers had "turned the cry of our enemies—that democracy is effete and decadent—into an historic joke."
 Morrison told Britons that "no man can promise you safety," but he said he was determined "to do everything possible to ward off danger, to lessen hardship and to organize some measure of rest and decent living for those of you who suffer directly."
 "We are all of us leading dangerous lives and we must keep our chins up and take our risks," he said.

Building Ward Tunnel

In building the Ward tunnel of southern California, 5,200,000 pounds of explosives and 1,150,000 pounds of drill steel were used.

COLDS—FIGHT MISERY where you feel it—rub on fast-acting VICKS VAPORUB

What is a turkey doing in an **October** gasoline ad?

This great American bird is the symbol of festivity and family reunion, just as the Phillips 66 Shield is the symbol of extra high test gasoline without extra price.

Of course, it's rushing the season a little to broadcast his picture before Thanksgiving... but it dramatizes and high lights the money-saving facts about a remarkable motor fuel which does not rush the season!

NEW Phillips 66 Poly Gas is not merely high test without higher price. It is the right high-test for the month in which you buy it. Matched and re-matched to your weather every thirty days. Proved by continuous laboratory and field surveys to be the outstanding custom-tailored gasoline. More accurately engineered, all year 'round, to the month-by-month differences in climate than any other gasoline.

Today, NEW Phillips 66 Poly Gas is better than ever. At regular price... mind you, no premium... it delivers practically the same kind of anti-knock performance for which you formerly had to pay 2¢ extra per gallon. And even now, premium price gasolines only infrequently equal or exceed the volatility (high test) of NEW Phillips 66 at its lower cost.

If you have any doubt about what this means in pep and power... in zip and pick-up... in plus mileage and minus knock... stop for a trial tankful, at any Orange and Black 66 Shield.

Army Prepares to Welcome National Guardsmen

Here's photographic proof that Uncle Sam is literally expanding his muscles for defense. To provide accommodations for the National Guardsmen recently called to active service means new Army camp facilities all over the nation. Fort Dix, N. J., needed a \$5,500,000 building program to take care of its 30,000 incoming New York and New Jersey guardsmen. Above, one of its many new barracks gets under way. Below, workmen speed one of the three runways, each a mile long, for Fort Dix's new air port.

Barker Picks Tennessee, Texas, TCU And Nebraska

By HERB BARKER

NEW YORK, Oct. 4 (AP)—Aiming at the week's football winners and maybe hitting a few:

Tennessee-Duke: Two great southern powers in Saturday's stand-out game, marked by a renewal of the personal rivalry between Bob Neyland and Wallace Wade. The coin spins and says... Tennessee.

Minnesota - Nebraska: Another even-steven affair. Minnesota looked fast and alert against Washington; Nebraska, supposedly is coming up with a real power-house such as the

Huskers used to put on the field. Out of the hat... Nebraska.

Cornell-Colgate: Cornell.

Southern California-Oregon State: A flier on Oregon State.

Princeton-Vanderbilt: The visiting Commodores should find out whether Princeton is as good as touted, Princeton.

Northernwestern over Syracuse. Ohio State-Purdue: Those Buckeyes look like the goods. Ohio State.

Pitt-Missouri: It's just possible Paul Christianan will pass the Panthers dizzy but this hunch goes to Pitt.

Indiana-Texas: One of the toughest of them all. Bo McMillin may have a sleeper at Indiana this year but the choice here is Texas.

Michigan over Michigan State.

Sania Clara over U. C. L. A. Yale over Virginia. Stanford over Oregon.

St. Marys over California. Washington over Idaho.

Texas Christian-Arkansas: No way to judge so the coin says T. C. U. Texas Aggies-Tulsa: The Aggies but it might be close.

Southern Methodist-North Texas Teachers: Baylor just got past the teachers a week ago but the choice must be Southern Methodist.

Rice-Centenary: Taking Rice. Notre Dame-College of Pacific: Apparently A. A. Stagg's bringing the far westerners into South Bend mostly for educational purposes.

Notre Dame. Marquette-Wisconsin: Probably close but we'll take a chance on Wisconsin.

Tulane-Auburn: It's hard to believe Tulane is as bad as it looked against Boston College. Put it down to sheer stubbornness but this vote goes to Tulane.

Louisiana State-Holy Cross: Don't risk any fortune on this. Out comes

the coin and reads... Holy Cross.

Kansas State-Colorado: A flier on Colorado.

Oklahoma-Oklahoma A. & M.: Picking Oklahoma.

Denver-Baylor: Taking Baylor.

DETROIT, Oct. 4 (AP)—Football tip: Tomorrow's Notre Dame-College of the Pacific score will be a lot closer than that of yours guys think.

Apparently Fowler Crooley, Jr., isn't worrying about the world's series, even if he does own the Redies.

Last week-end he went to New Mexico on a fishing expedition and hasn't been seen since... Todd tells Gies and McKechnie could run the club good enough to suit him.

Clark Griffith says Cleveland has no business tinkering with Bucky Harris (if he have) because he is under contract... Paul Derringer admitted today he hit \$1,000 on himself to win Wednesday's opener.

Sports cocktail: Birdie Tebbets and Charlie Gehring of the Tigers will leave on a Caribbean cruise immediately after the series... Both of Texas Christian's first string ends are converted fullbacks... Charles Bicknell, a triple threat sophomore and a former mayor of Father Flanagan's Boys' Town, near Omaha, Neb., is battling hard for a regular berth on the U. of Portland (Ore.) grid squad this year.

Short Shorts

Since returning to the majors Jimmy Rippe has swatted five homers, each of which won a ball game...

This week's football special: Virginia to trim Yale... Harold Hanna of Cedar Rapids, Ia., will get two tickets to the Iowa-Wisconsin football game from the Cedar Rapids Gazette for correctly calling the finishing positions of all eight National league teams.

Willkie Flays Administration Of Wagner Act

WILLIAM WILKIE, Republican presidential nominee, today flayed the administration of the Wagner Labor act, touched off a statewide party drive that moved today into eastern Pennsylvania cities.

It was the first time that Wendell L. Willkie and Senator Charles L. McNary of Oregon, running mates on the Republican national ticket, had spoken from the same platform. An audience last night in brightly-lit Forbes field, estimated by police at 30,000, cheered them again and again.

Willkie, upholding the principle of collective bargaining in a speech devoted to labor problems, described administration of the Wagner act as "one of the most shocking tragedies in the history of American industrial relations."

"It's trouble lies in the main," he said, "not with the act, but with its administration."

The Presidential nominee said that he stood for "full rights for labor," adding that "with increased rights go increased responsibilities." His prepared text contained a statement that as President he would try to end the civil war within labor's ranks, but the section was omitted in delivery because, Willkie said, he was exceeding his radio time.

Willkie offered several recommendations regarding labor, including improvement of the federal conciliation service, decentralization of government labor activities, encouragement for states in settling labor disputes, enforcement of both north and south of wage and hour standards, extension of the social security program, and a voice for labor "in the councils of our government."

Battle Planes Fly Over Rumania To Probe Sabotage

BUCHAREST, Oct. 4 (AP)—Eighteen Rumanian battle planes flew in a "defensive reconnaissance flight" over Rumanian oil fields and Bucharest authorities said today as they pressed an investigation of alleged British sabotage plots against gasoline shipments for Germany.

Some of the planes were German-made Messerschmitts. Secret police for hours questioned A. Miller, director of the British-dominated Astra-Romana Oil company, who was suddenly turned over to them today by persons reported to have kidnaped him two days ago.

British legation officials, after interviewing the oil man in his cell, said he had been beaten during the 48 hours he had been held by a band of youths in plain clothes.

The British legation promised a "sensational statement" later about the Miller case.

It said that still unknown was the whereabouts of Percy Clark, 60, president of a Ploesti oil engineering firm, who the legation charged was kidnaped yesterday in circumstances similar to the seizure of Miller.

Nazis Claim London Gas Plant Bombed

BERLIN, Oct. 4 (AP)—Bombings of gas works in northwestern London, ammunition plants in Coventry and Chester in England's industrial Midlands, and of British aviation camps were reported by the German high command today.

A communique said the air war against Britain was carried out yesterday despite bad weather, but informed sources said the attacks were materially reduced from their previous scale.

Only one British plane was able to penetrate western German territory because of the unfavorable weather, and its attack resulted in no noteworthy damage, the high command said, but it was admitted that attacks had been made on the Norwegian coast.

High flames shot from the gas works attacked in northwestern London, the communique said, and direct hits were registered on assembly shops and machine shops of two armament works at Chester, south of Liverpool, and Coventry, 75 miles northwest of London.

Hangars, barracks, runways and airplanes were reported destroyed in attacks on an airport in Cornwall. In a raid on a fliers' camp at Sheerness, on the south side of the Thames estuary, direct hits were reported on troops and barracks.

Columns of trucks transporting troops north of London were declared to have been scattered by attacks by single planes.

Only three British planes and four German planes were reported lost. Authorized Nazis minimized the military effectiveness of British bombing attacks on Germany during September, claimed new successes for their own air arm and reported British shipping losses since the war started now totaled 7,000,000 tons.

Berliners, meanwhile, enjoyed a respite from air raid alarms—getting their first uninterrupted sleep in six nights.

Recapitulating the heightened aerial warfare for September, German informants said the British dropped 300,000 pounds of bombs on territory but only 1.8 per cent of these hit military targets.

Forty-eight per cent of the British bombs fell on open fields, it was claimed, while 50.4 per cent fell on civilian objectives such as workers' settlements, schools, hospitals and churches.

The report was based only on bombings of Germany proper. British plane losses during August and September were put at 2,474 against only 708 for Germany.

The latest German figures would indicate that British shipping losses have averaged nearly 1,000,000 tons a month since July 1. Up to that time Germany claimed to have destroyed 4,329,213 tons.

More than 100 German planes flew over London yesterday and dropped 300,000 pounds of bombs on the British capital, causing "great

Spearman Lynx Meet Bucks In Conference Till

WHITE DEER, Oct. 4.—With two victories to their credit this season, the White Deer Bucks will meet the Spearman Lynx here Friday night at 8 o'clock.

The Bucks downed the Tulia Horndogs 13 to 0 in their first game of the season and ran up a score of 38 to 0 over Canyon here last Friday night. Spearman fell before the Canadian Wildcats 53 to 14 last week. The Bucks, therefore, would seem to have considerable edge over the Lynx, but are not expecting a set-up by any means.

Probable starters for the Bucks will be Matheson, Gores, Jett, Tomlin, Quarry, Mook, Noel, Weaver, Urbanczyk, Aubert, and Russell.

destruction" and setting many fires. DNE, official news agency, reported.

Authorized sources declared one Nazi warplane dropped a bomb of heaviest caliber directly in front of a 25-car British troop train, creating "a unique picture of destruction."

Mexicans Do Not Desire Strife, Chaos

By JACK B. KRUEGER
Associated Press Staff

A touring Texan's eye view of Mexico may interest the homefolks who wonder what is happening politically south of the border.

First off, the Mexicans a tourist bumps into seems much more excited and worried about the talk in the U. S. of Mexican revolution than they are about actual trouble in their country. Mexicans are critical of such talk among us and understand it. It hurts the business of merchants, hotelmen and others who profit from the formerly-abundant American tourist dollar. Mexicans remember 1937 as the peak tourist year.

The Mexican generally feels his country is growing up and out of the stage of feudal squabbles and internal wars created by the warlords of other years. No longer do Pancho Villas tear around the country, picaresquely shooting up the place and scampers away from the federal troops. Middle-class, literate Mexicans tell you the country is run from Mexico City and that the Presidente gives the orders.

This suggests the revolution already has come, quite bloodlessly, to good-neighbor Mexico and the suggestion is strengthened by the generally unperturbed way the Mexicans took their recent election. A car-watcher in Nuevo Laredo—said "everybody in Mexico" was for President-elect Camacho. Every other one asked said "everybody in Mexico" voted for General Almazan, who when last heard from said he intended taking over on Dec. 1, Camacho or no Camacho.

The run of Mexicans this tourist met seemed agreed that whatever

happens, they do not want strife, internal disorder or chaos.

From the available news reports it appears that, even in Monterrey and Chihuahua where Almazan was a power, two recent flurries of shooting (which the government alleged were attempts to get a revolt going) were knocked in the head before any signs of popular active support appeared.

Alamo Refinery Employs Start Credit Union

Special To The NEWS
PHILLIPS, Oct. 4.—The Alamo Refinery Credit union met for its organizational meeting Tuesday evening at 7:30 in the high school auditorium.

The union, chartered by the Federal Credit union of the Farm Credit administration in Washington, D. C., is limited to refinery employees only. Other departments of the Phillips Petroleum company have such an organization in operation.

Henry L. Peterson, field representative of the Federal Credit union, met with approximately one hundred men present at the Tuesday meeting. Mr. Peterson offered suggestions and routed the meeting through routine channels in order to expedite organization of the body into an affiliated union.

Epworth League At Phillips Begins Autumn Meetings

Special To The NEWS
PHILLIPS, Oct. 4.—The Epworth league of the Phillips Methodist church has begun its fall program. Beginning with this Sunday evening's meeting, the league will institute special programs conducted by and participated in by the members of the class, as well as their leaders.

The program will begin at 6:45 o'clock with the following persons taking part: Scripture reading, by James Epps; prayer, by E. T. Evans; vocal solo, by Pat Knight.

A discussion of the 25 articles of religion will be conducted, with open forum, by Rev. E. J. West. Miss Dorothy Deane Tucker, vice-president of the Epworth league, will be the leader for Sunday evening's meeting.

Answering Your Questions About CONSCRIPTION

DRAFTES WILL VOTE THIS YEAR BECAUSE THEY'LL BE AT HOME; AFTER THAT, HERE'S THE SETUP

One of a series of daily articles by Milton Bronner interpreting new rulings on the selective service law and answering questions of The Pampa News readers.

By MILTON BRONNER
Manager, NEA-The Pampa News
Selective Service Information Bureau

WASHINGTON, Oct. 4.—A great many people are asking whether Selective Service draftees will lose their votes by being called to the colors this year.

The short, clear answer to the draft's first 400,000 young men is: "Don't worry. You will have your vote for the good reason that you probably won't be drafted until Nov. 15 or later."

The government was very anxious to have selective service enacted into law by Congress and signed by the President many weeks ago. But valuable time elapsed while Congress discussed the bill, so when it was finally passed, the President found Oct. 16 the most convenient date upon which some 16,500,000 men between the ages of 21 and 35 could be called upon to register.

He had to set the date that far forward because it takes time to have all the registration cards and certificates of registration printed and distributed to the states and territories. In each state, time will be necessary to distribute these things to the boards of the various counties.

CONSCRIPTION TAKES TIME
Once the 16,500,000 are registered, it will take considerable time to classify the cards and to handle them. Then will come the lottery at Washington, when the numbers will be drawn which will mean the actual calling up of men who will fill out questionnaires. Upon information obtained on these questionnaires will depend whether a registered man is

by away from home on election day, 1941. A good many states have provisions allowing men in the armed service of the nation to vote, even though they're away from home.

HERE'S THE LINE-UP
The following table shows the arrangements for absentee voting and registration for voting as compiled for Congressman F. L. Crawford of Michigan by the law division of the Library of Congress:

In the above table it will be observed that many states permit absentee voting of soldiers, but do not allow absentee registration.

In most cases this means that in order to be allowed to vote as an absentee, the soldier must come home personally to register in his precinct. In other cases the voter must register by sending an elector's oath that he is a resident of a certain precinct. In still other cases a member of the soldier's family may register for him.

Last Big Defense Bill Delivered To President's Desk

WASHINGTON, Oct. 4 (AP)—The last big defense appropriations bill delivered to the President's desk, congressional leaders redoubled efforts today to clear the remaining important legislation from their slates so that a recess might be taken sometime next week, possibly Tuesday.

Both the senate and house turned in speedy performances yesterday on the \$1,428,000,000 defense appropriation bill—last of the big preparedness "money measures" expected this session. The senate whipped it through without either debate or a second vote, then the house concurred in the senate version and hurried the legislation to the White house for President Roosevelt's signature. The bulk of the funds carried by the bill will go for the expenses of the conscription program and the expanding army.

The senate also approved another item connected with defense—the \$200,000,000 war department civil functions bill.

Senator Barkley called for prompt action today on still another supplementary defense measure, an authorization of \$24,000,000 of river and harbor projects.

On the recess subject, house leaders have been talking about a series of three-day lay-offs under an agreement that no important business be transacted unless members were notified.

FHM Club Formed By Phillips Girls

Special To The NEWS
PHILLIPS, Oct. 4.—Girls in the homemaking department of the high school formed a Future Homemakers club this week. Only those girls who are taking home economics or have had it are eligible for membership in the organization.

The club has set the second and fourth Wednesdays of each month as meeting days.

An election of officers was held at this week's meeting with the following girls chosen to lead this year's club: Lorene Hall, president; Doris Marney, secretary; Hazel Roundtree, vice-president; Mary Frances Griffin, treasurer; and Margaret Porter, reporter.

Candle light initiation services will be held for freshman girls next Wednesday evening.

The 75 members of the club are planning on attending the area meeting in Canyon the latter part of this month.

Draftees Will Begin Going To Camp Nov. 14

WASHINGTON, Oct. 4 (AP)—Authoritative sources said today that Nov. 14 was the earliest date contemplated for induction into the army of men drafted under the new compulsory military service law.

Indications were that the number called then would be comparatively small and some officials estimated that possibly fewer than 100,000 draftees would be in the service by Jan. 1, compared with earlier estimates of 400,000.

Spokesmen for the selective service committee asserted their machinery would be in readiness to begin furnishing men to the army by Nov. 14 but it was pointed out that because of the burdens imposed on the army by mobilization of the national guard and by the continued expansion of the regular army through volunteer enlistments, it would not have the facilities for more than 100,000 trainees before the first of the year.

By the terms of the conscription act, the number of trainees inducted is limited by the availability of "adequate" housing and medical facilities.

Work already is in progress or is "being initiated," the war department reported, on tent camp sites at \$8,000,000 each for national guard divisions; seven cantonments at \$10,000,000 each for the regular army and six for guard divisions; one cantonment and four tent camps for anti-aircraft training centers, and on 13 recruit reception depots to cost \$275,000 each.

WD Pep Squad Names Leaders

Special To The NEWS
WHITE DEER, Oct. 4.—Dolores Bishop, Martha Jo Freeman, and Kenneth Huey have been elected leaders of the student-body pep squad of the White Deer High school.

The girls pep squad was disbanded this year and the entire school is to compose the routing section. Students secure tickets from the merchants both here and at Skellytown and have the north end of the grandstand reserved for them.

Last week at the football game with Canyon, six girls and two boys working in groups led the cheering section and this week the three leaders were selected from the eight. Costumes of these leaders, will be furnished by the school.

Electric Refrigeration

See Your Dealer Today!

Food is the essential item to the home . . . keeping the cost within a budget sometimes presents a problem.

Today's new, modern electric refrigeration does away with the worry of food buying. Greater capacity, faster freezing, and more economical operation makes electric refrigeration the key to lower cost of living.

It is possible to plan week menus and buy the needed items to fill every portion of the menu a week in advance. An electric refrigerator is your "budget balancer!"

City of Pampa and the Southwestern Public Service Company has been prepared and was, at a meeting of the City Commission of the City of Pampa held on September 11, 1940, in accordance with Ordinance known as Ordinance No. 307, and entitled: ORDINANCE No. 307. Ordinance granting to Southwestern Public Service Company, a private corporation, its successors and assigns, a franchise, license, right of way and privilege to construct, equip, maintain and operate in the City of Pampa, Texas, water, electric systems and plants to manufacture, use, store, sell, distribute, convey or otherwise establish, conduct, serve, supply and furnish said City and its inhabitants with electric light, heat and power, and to use the streets, alleys, highways, bridges and other public grounds of said City for said purpose...

ARTICLE V. That the following rules and regulations be and they are hereby made and established as a portion of this ordinance, to-wit: Section 1. All bills for electrical energy and power service rendered are due when billed for the preceding month, and if not paid within ten (10) days thereafter, the said Company shall have the right to cut off and disconnect said service and shall not be compelled to resume the furnishing of service until the bill for energy consumed has been paid. Section 2. No claim shall be made against said Southwestern Public Service Company, its successors and assigns, for its failure to supply light and power, when such light and power service shall be interrupted by the breaking of any wire, pole, or connection, or by any public enemy or unavoidable accident, or by fire, riot, insurrection, strikes or lockouts, action by any military authorities, or by any Act of God or the elements, or any causes beyond the Company's control; provided, however, even in such cases, due diligence shall be exercised to restore service as soon as practicable after the cause of interruption has been removed. Section 3. The manager or accredited employee of the Southwestern Public Service Company, its successors and assigns, shall have free access to all reasonable hours, to any part of the service wires, fixtures or appliances, and to any portion of the premises of any customer for the purpose of inspecting same, and of having access to the systems and plants to manufacture, use, store, sell, distribute, convey or otherwise establish, conduct, serve, supply and furnish said City and its inhabitants with electric light, heat and power, and to use the streets, alleys, highways, bridges and other public grounds of said City, authorizing and empowering it to construct, purchase, own, establish and maintain electric lines, poles, wires, plant and system in said City upon the terms and conditions specified in this ordinance. Section 4. The franchise rights and powers herein granted shall not be in force for a term of years ending on the 1st day of August, A. D. 1960.

ARTICLE VI. Section 1. That the said Southwestern Public Service Company, its successors and assigns, shall be and are hereby required to furnish any and all citizens or residents alike for like or similar service within the corporate limits of the City of Pampa, Texas, and to use the streets, alleys, highways, bridges and other public grounds of said City to construct, maintain and operate electric transmission lines, transformers and other facilities for the purpose of supplying electric energy to users of the same within or without the corporate limits of said City of Pampa. Section 2. The rates to be charged by the Southwestern Public Service Company, its successors and assigns, shall be and are hereby required to furnish any and all citizens or residents alike for like or similar service within the corporate limits of the City of Pampa, Texas, and to use the streets, alleys, highways, bridges and other public grounds of said City to construct, maintain and operate electric transmission lines, transformers and other facilities for the purpose of supplying electric energy to users of the same within or without the corporate limits of said City of Pampa.

SERIAL STORY THIS COULD BE YOUR STORY BY MARGUERITE GAHAGAN

ALL characters, organizations and incidents of this serial are entirely fictitious. YESTERDAY: Betty and Vera's glove in the office, but Vera explains its loss easily. Mr. Clark is gone. Sue Mary realizes that he can't help her, that she must solve the problem herself. What if Nick and Vera have anticipated discovery? In that case, Sue Mary would be made a fool.

MEET ME HERE—TONIGHT

CHAPTER XXIII

LUNCHTIME came and Sue Mary put on the wide-brimmed straw hat that made her look like a little girl, deepened the golden glints in her brown eyes. Her tan linen dress flared from the hips in the same way it had delighted her, when she had worn it for the first time weeks ago. The bangles on her wrist still jingled merrily, but she was too absorbed in her distraught thoughts to feel the confidence a well-groomed girl usually possesses.

She was so absorbed that she literally ran into Nick before she saw him in the lobby of the office building.

"So blind you can't see me?" he demanded, taking her by the elbows and shoving her back away from the crowd coming from the elevators. "I'm not sure that pleases me."

She drew a frightened breath, but managed to hide her fears and smile. "After all, one doesn't expect to see you here."

"But here I am, and guess why?" His dark face was close to hers and his eyes looked deep into her startled brown ones.

"To see you, my dear. When a man's in love he wants to see his girl. And there seem to be less and less chances these days. Sue Mary, you know that. At the hall there are always people; people wanting me to do this and that; asking questions, wanting to talk. And at the apartment—"

"But Nick—" She didn't know what was coming, but she instinctively prepared herself. "What else—?"

"I have to talk to you, darling."

and back, and planting of hedge to form a windbreak for the arcades. Local labor will be used and the work is expected to start within a week or ten days, approval having been received two weeks ago and money to be available soon.

On Manhattan Island, there still is a cave which the early Indians used as a home. Horses of the Orient sometimes are shod with shoes made of shark skin.

WASHINGTON, Oct. 4 (AP)—Representative West (D-Tex) announced today that Lawrence M. Lawson, International Boundary Commissioner, would call a meeting on October 20 of Rio Grande valley water users to discuss with engineers a \$54,643,000 irrigation and flood control project.

West and Lawson have just concluded a series of conferences with State department officials on the project. Lawson left Washington last night for Texas to make arrangements for the meeting, to be held in a valley city to be selected. Engineers to be present at the meeting, West said, are those who drafted plans for the concrete-lined canal and reservoirs between Zapata, Tex., and the Gulf of Mexico. Under discussion will be any changes that might be thought advisable before legislation to authorize and appropriate for the work is pushed in congress.

President Roosevelt has requested the Budget bureau to make allowance in the next fiscal year's budget for \$5,000,000 to start construction on the project.

WHITE DEER, Oct. 4—Martha Jo Freeman has been named editor-in-chief of the school annual, The Antler, for 1940-41. Kenneth Huey is business manager. Other members of the staff are: Dolores Bishop, assistant business manager; Herbert Rapstine, art editor; Virgil Romack and Naomi Nadeau, Komack and Dallen Komack, snapshot editors; Bill Hinkley and Aury Adams, sports editors; Jo Simmons, feature editor; Mildred Haggerty, organizations editor; and Dorothy Colgrove, typist. These students were chosen by the faculty committee from a group who made written applications for positions on the staff.

Sponsors are Misses Odessie Howell and Virginia Martin. CANADIAN, Oct. 4—A WPA program for improvement of the local high school grounds has been approved and the sum of \$1,967 dollars will be applied for this work. Superintendent J. M. Italian Army Moves Near Greek Border

ATHENS, Greece, Oct. 4. (AP)—Italian army forces in Albania totaling 120,000 men and 120 tanks, have shifted their positions to new posts near the Greek frontier in the past few days, official sources said today.

Troop movements from Italy to Albania, Italy's recently acquired territory in the Balkans, have been frequent recently, and numerous ships are available in the Adriatic to speed additional forces across the narrow sea if needed, Greek government circles said.

Official sources, however, expressed belief that Italian strength in Albania still was under 200,000 men. "All precautions have been taken by Greece against surprise from any quarter," official sources declared.

The Fascist press several weeks ago voiced demands for a share of Greece's northern Epirus on behalf of Albania.

Reports of Italian troop movements reached here as Adolf Hitler and Premier Mussolini were engaged in a dramatic conference at Brenner Pass.

The Greek army is virtually on a

basis of "permanent concentration." Border garrisons have been fully manned since the anti-Greek campaign in the Italian press became hottest more than a month ago.

The government decreed that all unoccupied houses in the country could be requisitioned should air raids force removal of populations from cities.

THE STORY OF YOUR NEWSPAPER

I AM THE ADVERTISING MAN

This is one of a series telling the story of your newspaper. The Pampa News is presenting these articles in connection with National Newspaper Week, Oct. 1-8.

I'm the advertising man. I am the oil on the wheels of progress. They might move without me, but they wouldn't move so swiftly or so efficiently.

I am the link between the people who want to sell and the people who want to buy. It is my job to bring people together—to bring people who want jobs to people who want help—to bring people who have lost a treasured possession to people who may have found it—to bring the person who seeks shelter to him

who has shelter to offer—to bring buyer and seller together, as a car-buretor mixes air and gasoline to produce a mixture latent with power.

I am an agent of progress. Who has built a better mouse trap? I am the signpost that directs the world to his door. Are there newer and better products, newer and better ways of doing things? Through me the world learns of them. In that way I serve progress.

The little girl who has lost a beloved puppy, the aging man who wants to sell out the business to which he has devoted a lifetime, the innovator with a new machine or a new process, the great merchant with his fairland of new things to sell—all these I serve, and

many more. I am alert and aggressive. Opportunity is the goods in which I deal; I am trained to see it and to discover it. From the full-page display ad with its compelling message, to the tiniest liner with its whispered suggestion, I am ready to serve, and untold millions have found me useful.

They seldom credit me with being an educator. But I am, I teach new and better ways of doing things—I am a gadfly constantly bothering and preventing people from getting set in their ways.

In a business civilization, I am the spark-plug of business. In a world where people grow farther and farther apart, I bring them together.

TOOLMAKERS WANTED

To meet the great demand for toolmakers for the National Defense Program, the United States Civil Service Commission urges qualified persons to apply for this position. Immediate appointments are to be made at ordnance and naval establishments in Philadelphia, Pa.; Boston, Springfield, and Watertown, Mass.; Watervliet, N. Y.; and Washington, D. C. Approximately 600 appointments will be made in the Frankford Arsenal alone. The pay scales vary according to the place of employment, ranging from \$6.24 a day to \$1.17 an hour.

Applicants must have completed a 4-year apprenticeship as toolmaker, or must have had 4 years of practical experience in the trade. They must be able to read blueprints and must be experienced in the use of precision gauges, measuring instruments, etc.

The proper application forms may be obtained from V. Darnell, Secretary, Board of U. S. Civil Service Examiners, at the post office or custohouse in this city, or from the secretary of the board of examiners at any first or second-class post office.

Women's Club Of Canadian Meets In Member's Home

Special To The NEWS

CANADIAN, Oct. 4.—Women's club met in the home of Mrs. N. Abraham this week with Mrs. Malouf Abraham hostess to 27 members.

Mrs. Fernan Williams was elected treasurer to fill a vacancy.

Mrs. Bill Fiewelling was chosen to represent the club on the Fine Arts program at the Seventh district meeting of the Texas Federation of Music clubs to be held in Quanah, Oct. 12-13.

Mrs. Sam Isaacs reported on the fall board meeting of TFMC in Stanford last week. She gave the state president's objective as the advancement of church music in Texas.

Dr. Lota M. Spell, chairman of History of Music in Texas and author of the book of that title, urged clubs to give thought to the wealth of music here with our own Texas composers and their work.

Mrs. Perkins, chairman of Bible Pageantry, is making an enthusiastic appeal to local clubs to include pageantry in their programs.

Program for the afternoon was "The Story of Tapestry," given by Mrs. Dan Witt; and "The History of Linen" was given by Mrs. J. D. Raymond.

At the close of the session, Mrs. Abraham invited the ladies to go over the home and view the exquisite work in linen, embroidery and tapestry, the inlaid desk, tables, and chairs, the numerous works of art which filled the rooms. Many of these were brought home by Mr. and Mrs. Abraham from their extended trip to Syria and Palestine last year.

Out-of-town guests were Mrs. Hicks of Canon City, Kansas, mother of Mrs. Raymond, and Mrs. D. M. Wiggins of Las Cruces, New Mexico. Mrs. Wiggins and her husband (now Dr. D. M. Wiggins) formerly taught in the Canadian High school.

U. S. Army Plans Mass 'Chute Jump

FORT BENNING, Ga., Oct. 4. (AP)—The United States army is planning to unveil results of several months experimental training for parachute troops before 20 army chiefs of nine Latin American nations, here on a tour of this country's defense preparations.

The mass jump—the first semi-public demonstration by the army—is scheduled for Saturday morning and will follow today's demonstration of more than 25,000 troops at this largest infantry post in North America.

Fifteen men of a group of 40 soldiers and two officers, who have been training in various sections of the country the past several months, will drop from an army transport near Lawson field—the fort's airport.

The visiting chiefs of staff from Bolivia, Colombia, Costa Rica, Guatemala, Honduras, Peru, and Uruguay, and high ranking officers from the Dominican republic and Panama will see red and blue forces opposing each other in extensive action today.

The visiting officers left Washington Wednesday and visited Langley field and Fort Monroe in Virginia before coming here. They will fly to San Antonio, Tex., Saturday, stopping briefly at Barksdale field, La.

Mrs. Boyd Presides For Ladies Aid Group

SKELLYTOWN, Oct. 4.—Members of Ladies Aid of the Community church of Skellytown met at the church recently with Mrs. H. C. Boyd, president, presiding.

Reports from the visiting committee, consisting of Mrs. Hazel Thurlow and Mrs. S. C. Dickey, were given. The committee was dismissed and a new committee, Mrs. B. J. Osborn, and Mrs. Chester Strickland, was appointed.

"The Leadeth Me" was the opening song led by Mrs. Hazel Thurlow and accompanied by Mrs. John Beighle at the piano. Mrs. B. J. Osborn led the group in prayer.

A solo, "God Bless America," was sung by Mrs. Thurlow, who was joined later in the song by the group. Mrs. Chester Strickland gave the devotional on "When Trouble Troubles You, Shut-Up" and "Gee, I'm Glad I Am An American."

The program was closed with a prayer by Mrs. H. C. Boyd. The next meeting will be in the form of a study and the lesson will be taken from first and second Corinthians, with Mrs. Wilbur Waggoner giving the devotional.

Those attending were Mesdames J. C. Jarvis, Ray Hawkins, Bill Hinkley, Chester Strickland, H. C. Boyd, B. J. Osborn, Hazel Thurlow, John Beighle, R. C. King, Bert Castleberry, A. W. Rogers, S. C. Dickey, Bill Price, A. M. Edwards, W. L. Waggoner, and J. C. Kennedy.
