Program, Banquet To Honor Volunteers

36th Division, National Guard, Called By FDR

WASHINGTON, Nov. 21 (AP)—The war department announced that President Roosevelt had signed orders calling approximately 26,700 additional national guard troops into active federal service for a year, including the 36th division, Texas national guard.

The order also covered the 1,377 officers and enlisted men of the 56th cavalry brigade (Texas), already ordered inducted into the federal service "as soon as practicable" after November 18, who form the third increment of the guard ordered to active duty. They will be concentrated temporarily at Fort Bliss, Tex., and will be transferred to the Mexican border to relieve regular army units early in 1941.

The 36th (less the 38th tank company) will train at Camp Bowie, Brownwood.

Those also ordered to duty next Monday included these units:

11th observation squadron, Texas, to Brownwood.

31st division (less 31st tank company), from Florida, Alabama, Mississippi, and Louisiana, to Camp Blanton, Fla.

16th observation squadron, Alabama, to Jacksonville, Fla.

16th cavalry (horse-mechanized) Illinois, to camp Livingston, La.

Returnable Tax Aim Of Farmers Union

DENVER, Nov. 21 (AP)—Enactment of a federal tax on farm products sold on the home market, the revenue to be returned to farmers, is a chief objective of the Farmers Cooperative and Educational Union.

The union, before closing its 36th annual convention yesterday, approved the "certificate plan" for making up the difference between the market price on farm commodities and a pre-determined "fair price." It would operate as follows:

Each farmer would receive certificates for his "domestic allotment"—representing his share of the national market based on his past production. After his crops were harvested, the farmer could cash these certificates, the money coming from the tax on the products.

James G. Patton, Denver, head of the Colorado union, was named national president and James M. Graves, Perkins, Okla., was re-elected secretary-treasurer.

I Heard....

That Fred Roberts, Boy Scout executive, brought back proof that he had been through a snowstorm yesterday while visiting in Boise City, Guyton and Goodwell in the Oklahoma Panhandle. He had a couple of inches of snow on the top of his car when he arrived home. He said it rained and then snowed most of the day and that farmers in the area were jubilant.

Collections For Roll Call Here Total \$1,600

Collections in the annual Red Cross roll call in progress here totaled \$1,600 today, Chairman Hal H. Lucas reported. He was optimistic that the final figure would be much greater than last year. He urged workers of the business district to make every effort possible to complete the drive this week.

Chairman Lucas today received the following telegram from Governor W. Lee O'Daniel: "Your chapter's success in present Red Cross roll call will be definite contribution to national defense and will reflect our national solidarity in this crucial period. A great active membership in Texas is essential. Please carry on until the membership invitation in Red Cross is extended to every adult citizen."

Number of individual memberships have not been compiled because Mrs. J. E. White, executive secretary, has been kept busy on case work as a result of the recent cold period.

Chairman Lucas today appealed to workers to make immediate reports to Mrs. White. Some workers have yet to turn in their first report while others have been heard from only once or twice.

Three new 100 per cent memberships were reported today when the facilities of Baker and Horace Mann schools and the Bert Curry company were added to the list of 30 already published.

Some 100 per cent members may not have been listed because workers have not reported.

War Flashes

LONDON, Nov. 21 (AP)—Attacking in waves for several hours, British bombers showered their high explosives and incendiary bombs on quays, docks and warehouses at Duisburg-Rohrort, world's largest river port in Germany last night, the air ministry reported today.

The ministry said the raid "must inevitably have disorganized essential traffic and destroyed indispensable war materials."

HYDE PARK, N. Y., Nov. 21 (AP)—President Roosevelt today through a secretary today that the nation's most efficient bomb sight remained a military secret and was not being released to Britain along with 48 bombing planes.

The bombers being made available to Britain," the secretary said, "are equipped with the Sperry bomb sight which, in relation to the more efficient Norden sight, is considered more or less obsolete. The Norden sight, of course, remains an American military secret."

Anti-Aircraft Fire Meets Nazi Bombers

LONDON, Nov. 21 (AP)—London's sirens sounded two daylight alerts in quick succession today, shortly after raiders were reported over scattered towns in England.

The raiders defied a gale over the channel to make their daylight attack on Britain, and even as they crossed a heavy cross-channel gun fire raged below them, in spite of low visibility.

'WHITE PAPER' ON DARK DEEDS

Behind a copy of the House bill ordering his investigation of un-American activity, Rep. Martin Dies, of Texas, pictured above in Washington, holds the "white paper" he declares holds evidence of dark plans by Axis

consular agents in the U. S. Following this first report on Nazi agents' activity here, released today, Congressman Dies plans to reveal similar reports on Japanese, Italian, and Russian agents.

Dies Bares German Designs On U. S.

America Can Be Thankful For People Like These

JACKSONVILLE, Fla., Nov. 21 (AP)—A migrant worker applied to the state welfare board's Camp Blending surplus commodity distribution point for groceries to feed his family.

Hours later the same man, looking very tired but relieved, showed up again and dumped the same 40-pound load on the counter. He explained that just as he got back to his camp, another worker who had already been paid offered to stake him in until his check came in—so he returned the free food in order that it might be given to someone in greater need.

Then he turned and started the two-mile walk back home.

Late News

TOPEKA, Kas., Nov. 21 (AP)—Re-election of Gov. Payne Ratner, Republican, was indicated today in returns showing him leading by 336 votes with less than 300 outstanding ballots still to be canvassed. Only three counties remained to be tabulated in a race so close that it has remained undecided for 16 days after the votes were cast. Even in his present state, it is clouded with threats of court action by the Democrats in behalf of William H. Burke, Little River stockman and banker.

WASHINGTON, Nov. 21 (AP)—Delivery of a 400-mile-per-hour fighter plane to the navy and performance tests of a new medium bomber and a primary training plane for the army marked fresh progress today in the aerial phase of the defense program.

AUSTIN, Nov. 21 (AP)—The highest salaried appointive position in the state government, the chairmanship of the Texas Unemployment Commission, has been assigned for the next six years to Claude A. Williams, assistant secretary of state since the start of Governor W. Lee O'Daniel's administration.

Governor O'Daniel late yesterday appointed Williams to the office, which carries an annual salary of \$7,500 and is considered one of the prime appointments a governor can make.

Williams succeeds Orville S. Carpenter, an appointee of Governor James V. Allred, who has held the job nearly four years, having been appointed shortly after the commission was created in 1936. Carpenter's term expired today.

In the governor's recent campaign for re-election, Williams took a leave of absence from the state department to work in O'Daniel's behalf.

Several other important appointments of Governor O'Daniel, he faces confirmation or rejection by the senate at the next session of the legislature.

Dr. Brown Gives Lectures On Cancer

Third and concluding talk in a series of radio lectures on cancer was delivered at 6:30 o'clock last night over Radio Station KPDN by Dr. R. Malcolm Brown.

These programs have been sponsored by the Women's Field Army for Cancer Control of which Mrs. G. C. Walstad is program chairman.

Dr. R. M. Bellamy is to address members of the Pampa Rotary club on the subject of the club's regular weekly luncheon next Wednesday noon.

"Early cancer is curable. Fight it with knowledge," is the slogan of the field army against cancer.

The Tuesday night talk over KPDN, Mrs. Jerold Franklin, local nurse, quoted figures on the cancer mortality rate in Texas:

"In 1923 out of every 100,000 people in Texas 31.7 persons died of cancer. In 1937, out of every 100,000 people in Texas 69.3 persons died of this disease—for the year 1940 we may expect 83.6 persons out of every 100,000 people to succumb to this dread disease. Bringing these figures down to our city, it means that during the past year eleven persons in Pampa have died from cancer," said Mrs. Franklin.

O'Daniel Rewards Campaign Worker With Fattest Job

AUSTIN, Nov. 21 (AP)—The highest salaried appointive position in the state government, the chairmanship of the Texas Unemployment Commission, has been assigned for the next six years to Claude A. Williams, assistant secretary of state since the start of Governor W. Lee O'Daniel's administration.

Soviet Russia May Accept Trade Treaty

Britain's New Vice Commander Of Air Captured

LONDON, Nov. 21 (AP)—Lord Halifax, foreign secretary, told parliament today that Britain had made "certain proposals" for a trade agreement with Soviet Russia and "had some reasons to believe" the proposals would be acceptable.

Proposals also have been made, he disclosed in a speech to the house of lords, for "a compromise settlement arising out of Soviet annexations of territory" with regard to British obligations. Friction has arisen out of Russia's absorption of the three Baltic states last summer.

Adolf Hitler, the foreign secretary declared, is pursuing "this usual policy" of "combined cajolery and brutality" with France.

Rumania's premier, Gen. Ion Antonescu, and Foreign Minister Prince Coudin Sturza, arrived in Germany today, strengthening the current belief that Rumania, already dominated by the Nazis, is about to join the Axis powers.

In Berlin the German high command asserted that German speedboats since the start of the war have sunk six British destroyers and two submarines and other war vessels, totaling 11,300 tons, and also 212,000 tons of merchant shipping.

The Italian high command announced the capture of Britain's new vice-commander of the air forces in the middle east, Air Marshal Owen Tudor Boyd, and six other men, four of them officers, who made a forced landing in Sicily en route to the Near East.

The British air ministry later acknowledged Boyd was an Italian prisoner.

Dispatches received in Bucharest from Sofia, Bulgaria, predicted that Bulgaria would change her attitude of "defensive neutrality" as a result of Axis political activity and make definite claims on Greece.

Bulgaria is not formally aligned with the Berlin-Rome-Tokyo powers, but German sources in Rumania have suggested that she may follow Hungary's example and find her place in Europe's "new order."

Adolf Hitler, Field Marshal General Gerd von Rundstedt, and Joachim von Ribbentrop, Nazi foreign minister, left Vienna last night and presumably were to see Antonescu and Prince Sturza in Germany.

Antonescu has just had conversations with Premier Mussolini at which observers presumed the groundwork was laid for Rumania to follow Hungary into a 10-year military, political and economic pact with Germany, Italy and Japan.

This diplomatic activity on the part of the Axis was seen as aimed at Britain—by forming an Axis highway to the borders of Greece and Turkey, especially for a thrust into the Near Eastern oil fields and the Suez canal.

In Greece, meanwhile, Greek troops were reported to have driven a wedge through the center of the Italian lines, forcing the Italians to make a hasty flight six miles within the Albanian border.

A spokesman for the Athens government said the Italians were retreating so hurriedly that the Greeks could not possibly be too far from the break-through, he said, occurred at Metzan, Albania, northwest of Koriza, Greece.

The Greeks also announced they had reached the outskirts of Koriza.

President Spending Thanksgiving At Hyde Park Manor

HYDE PARK, N. Y., Nov. 21 (AP)—President Roosevelt returned today to the sprawling stone and stucco home in which he was born to spend Thanksgiving day there for the first time since he became the nation's chief executive.

With the United States at peace in a world scourged by war, the president came home from Washington to carve a turkey at a family dinner much like those in many another American household.

Mr. Roosevelt broke a personal Thanksgiving tradition, however, by passing up his annual November visit to Warm Springs, Ga., with the exception of 1936, when he went to South America, the president has presided every year since he first was elected chief executive at a Thanksgiving dinner for patients of the Georgia Warm Springs foundation for victims of infantile paralysis.

This year, wars in other lands have made him reluctant to get too far away from Washington.

I Saw.... Jimmy Dodge hunting somebody to cook a duck which some hunter brought him. His wife has gone to visit her folks in Lewton, and Jimmy doesn't know how to cook it. Got any ideas?

Burma Road Clogged With War Essentials

By C. YATES McDANIEL
LASHIO, Burma, Nov. 21. (P)—A stream of military, medical and industrial essentials is rolling along the Burma road into China at the rate of 12,000 tons a month, despite Japanese aerial bombing and strafing of the route which twists and climbs 755 miles from the British railroad at Lashio to Kunming, key-point of free China's supply system. The Japanese have bombed half a dozen refueling stations along the 635-mile Chinese section of the road, have scored direct hits on several of its 500 bridges, and have strafed truck caravans toiling through the mile-high mountain

passes, but traffic never has been held up more than 48 hours.

Almost daily at least 300 trucks leave the Lashio depots of seven different transport organizations in convoys formed according to the Chinese, Indian or Shan (Burmese racial group) nationality of their drivers.

The truck fleets and their loads, preponderantly from America, keep China's arsenals working. I saw plentiful evidence that China is striving to reorganize its exports—virtually halted after Japanese entry into the northern part of French Indo-China—and re-route trade to the Burma road. Nearly a third of the trucks which formerly returned empty from Kunming now are bringing pay loads to this railroad—wood, oil, bristles, hides, silk, and some tungsten.

108 'Enemy' Troops Reported Killed

LONDON, Nov. 21. (P)—The British middle east command reported today that 108 "enemy" troops were killed in an engagement in the western desert of Egypt Tuesday at "small cost" to the British forces.

Five Italian tanks were destroyed and six were severely damaged, the communique from Cairo said.

A heavy cross-channel gun duel broke out shortly after 9 a. m. today despite thick mist which cut visibility down to barely a mile and winds of gale force.

British bombers also hammered the German inland port of Duisburg-Rohrort in "a large scale at-

tack" last night, the air ministry announced.

Damage was done to shipping and warehouses, it said, "and many fires and explosions occurred."

Other British air squadrons attacked German air bases and the "invasion ports" of Lorient, Cherbourg, Dunkerque and Ostend, the communique said.

It acknowledged that one British plane was missing.

Despite the wind and near-freezing weather, the roof-rider replied: "No thanks, I've got my radio rigged up here. It won't work inside."

Other British air squadrons attacked German air bases and the "invasion ports" of Lorient, Cherbourg, Dunkerque and Ostend, the communique said.

It acknowledged that one British plane was missing.

Applications For CCC Will Be Accepted

Gray county youths between the ages of 17 and 23 will have another opportunity in January to apply for enrollment in the Civilian Conservation Corps. Applications should be made at once with Mrs. Willie Baines, Gray county case worker, with office at the court house.

On October 16, Gray county sent its full quota of 16 applicants to the CCC camp at Ferris. All were accepted and are now in training at the Ferris camp.

Explanation of the work of the CCC is contained in the following department of public welfare release:

Not Relief Agency
Long ago the CCC ceased being an agency of relief, made up only of boys whose families were receiving some type of assistance. Now the main eligibility qualifications are good character, desire for employment, willingness to learn, 17 to 23 1/2 years of age.

Those boys with natural aptitudes and interest in mechanics will find plenty of opportunities in CCC camps to learn both the theory and practical sides of gasoline motors under trained instructors. There are over 43,000 units of automotive equipment in the CCC, the largest fleet of motorized equipment in the United States. Over 100,000 expert truck and tractor drivers are turned out each year, and other thousands are trained to do the most complete over-hauling and repair jobs.

Telephone line construction, building of roads and bridges, radio and signal communications, photography, first aid and many other skills of important defense value are being given attention. Over 5,000 cooks are in training all the time, and, henceforth, many more and better ones will be turned out.

Members of the CCC who have no dependents are now allowed to have \$25 of their monthly pay remain on deposit with the finance officer, and receive the accumulated amount upon discharge, thereby providing themselves with resources to tide them over until employment is found or to allow them to enter some business, or continue their education.

Fifteen hundred CCC camps, each containing 200 boys, staffed with men trained in administration and executive duties, provide employment, training, and healthful surroundings for 300,000 boys the year round. Over 2,750,000 have been members of the corps since its organization in April of 1933; in Texas alone, over 135,000 have been selected, returning to their families over \$40,000,000.

JONES

(Continued From Page One)
determined to practice the Spanish which he has taken it upon himself to learn in the past couple of years.

Latest indications from official sources are that the Wallace good will mission will consist of Mayor and Mrs. Maury Maverick of San Antonio, Texas; Colonel Patrick Hurley, legal adviser to the Sinclair Oil corporation and Mrs. Hurley; Senator and Mrs. Sheridan Downey of California; Representative and Mrs. Sol Bloom of New York; Mr. and Mrs. Sidney Hillman; Representative Marvin Jones of Texas; and Maurice Davidson, president of the Society of Friends of Mexico and Mrs. Davidson, of New York.

Other prominent men originally asked to join the good will group but who for pressing reasons are not able to leave the country at this time are Jesse Jones, secretary of commerce and federal loan administrator, Secretary of Treasury Henry Morgenthau, Acting Secretary of State Sumner Welles, and Mayor Fiorello LaGuardia of New York.

Mrs. Noel Dalton Dies Of Illness Of Three Days

Mrs. Noel L. Dalton, 29, died this morning in a local hospital of an illness of three days. Death was of a heart ailment following an operation. She had been a resident of Pampa for 10 years, coming here from Edmond, Okla. Mr. Dalton is manager of the Baash-Ross Tool company.

Mrs. Dalton was born in Stroud, Okla., where she attended school. The body will be taken to the family home, 1229 North Charles street, tonight where it will lie at rest until time of services which are pending. Arrangements will be in charge of Duemkel-Carmichael Funeral home.

Surviving Mrs. Dalton are the husband, a daughter June, and a son Noel Eddon, her parents, Mr. and Mrs. E. L. Turner, Stroud, Okla.; six sisters, Mrs. Viola Key, Chandler, Okla., Mrs. Cecile Stowe, Leadville, Colo., Mrs. Pauline Bean, Bremeron, Wash., Miss Maybelle Turner, Pampa, Miss Gladys Turner and Miss Fatsy Turner, both of Stroud, and one brother, Paul Turner, Pampa.

DIES

(Continued From Page One)
said, was "typically characteristic of the thoroughness of the German mind and its ability to foresee in great detail future developments."

"The plan lacks nothing in its effectiveness or in detail for the contemplated organization, not merely of industry and trade, but also proposals to combine these spheres of activity with a great banking institution to underwrite and support the financing of German industry, and trade activities," the report said.

The report asserted that the plan showed a "very definite link" with German industrial life by providing that activities in this country should be directed from a bureau to be established in the German ministry in Berlin.

Discussing the transoceanic news service, the report said that Manfred Zapp was sent to the United States from Berlin late in 1938 to increase the scope of the agency's effectiveness not only in this country but also in Canada, Mexico and Central and South America.

Among documents printed in the report was a letter signed by Hans Thomsen, charge d'affaires of the German embassy in Washington, August 30, 1938. This letter, the committee said, "would indicate that the official representatives of the Nazi government in the United States were definitely interested in the operations of trans-oceanic news service and Manfred Zapp."

The letter said that "it is of paramount importance that a crossing of wires with the work of the D. N. B. New York and Washington, be absolutely avoided."

D. N. B. was described in the report as "the regular news reporting service of the German government."

Johnny Gets His Gun

ROOKIE MUST LEARN TO TAKE CARE OF HIS \$75.00 WORTH OF CLOTHES

One of a series taking a draftee into Uncle Sam's new army.

By MILTON BRONNER
NEA Service Staff Correspondent
WASHINGTON, Nov. 21—John Q. Citizen will learn early in his career as a private that his uniform is a mighty important thing.

His non-commissioned officers, as well as regular officers, will carefully inspect the condition of his uniform and his rifle.

When clothing supplies are issued to the draftee, he will be carefully measured and the sizes will be recorded, so that replacements for worn-out articles can easily be supplied. The draftee is given clothes valued by the government at \$75.00.

The articles are two waist belts made of webbing, one leather, usually olive drab field cap, two olive

Here is the next step for Gray county volunteers, and for all others from this county sent to the induction station at Lubbock. If a draftee is not given deferred rating by the local board, he is given physical examination to see if he is fit for active duty.

Even the friendly hammers of the monster have to tread carefully, outside the turret, the mighty blast will rip off a man's clothes, singe his hair and send him spinning. The gun leaps back six feet. The whole ship with its thousands of tons of weight, shudders and plunges with a salvo. Everything loose and breakable is carefully stowed away beforehand.

Such a gun weighs up to 130 tons and a ship may carry from six to twelve of them, usually 14 or 16 inches. They are arranged in turrets of two, three or four guns each. The turrets are simply revolving gun houses, with motors for raising, lowering or turning the guns. The shell is raised by a hoist to the open breech. Up to 650 pounds of powder, brought up in silk bags, is stuffed behind it.

These guns are the primary battering of a battleship, the biggest striking power of the fleet. The secondary battery consists of four and six inch guns, from twelve to twenty of them to a ship. They weigh from two to eight tons a-piece and have a range of four miles.

Their targets are submarines, destroyers and cruisers, the outer fringes of the enemy fleet which move in ahead of the battleships. At these, they pour shells weighing from 30 to 150 pounds, armor piercing projectiles, cylindrical shells against submarines, star shells which will light up a mile of ocean for night firing, high explosive against small ships or troops, and shells filled with lethal gas.

The anti-aircraft batteries consist of four to eight guns of from three to five inches. Late models of these will send shells up almost seven miles to chase enemy aircraft.

The committee take up the suggested changes in the law. Taft later agreed to a delay until after the election.

The contemplated changes include an amendment which would prohibit discrimination against craft unions in labor board decisions.

In general, the house-approved proposals would provide for divorcement of the labor board's administrative and judicial functions, give employers the right to invoke the board's services, permit the President to name a new three-member board and make changes in procedure.

Bulbs Burst If Left In Sockets When Battleship Fires Big Guns

(Editor's Note: If you sometimes wonder why it costs so much to build and operate the United States floating fortresses, read this story, the fourth of a series of six daily stories on our navy, which when completed will be the largest in the world. Tomorrow: Airplanes are the eyes of a modern navy.)

By W. B. RAGSDALE
WASHINGTON, Nov. 21 (AP)—When the big guns of a battleship roar in anger, all living things within 18 miles move with care.

For one of these 16-inchers will throw a ton of TNT, housed in an armor-piercing shell of steel, that far with ease, in an arc high above the waves.

When the shell lands, the steel goes tearing through armor. The TNT explodes with a force and fury that rends and tears things that were built to withstand such mighty batterings.

Even the friendly hammers of the monster have to tread carefully, outside the turret, the mighty blast will rip off a man's clothes, singe his hair and send him spinning.

The gun leaps back six feet. The whole ship with its thousands of tons of weight, shudders and plunges with a salvo. Everything loose and breakable is carefully stowed away beforehand.

A penciled sign "draft board" has been placed on the third floor landing of the court house steps to direct registrants to the board's office. "Draft," "registration," and "conscription" are the names used by registrants for the board, which is officially known as Gray County Selective Service No. 1.

Thanksgiving Day meant little to a majority of Pampans, with only two banks, postoffice, TSES office, and department of public welfare closed today.

Change in Wagner Act Being Sought
WASHINGTON, Nov. 21 (AP)—Advocates of changes in the Wagner labor relations act gained ground today with an announcement by Chairman Thomas (D-Utah) that the senate labor committee would consider a group of house-approved amendments next week.

The house voted early last June in favor of making changes in the labor law, but the amendments since have been gathering dust in the senate committee.

Thomas disclosed that Senator Taft (R-Ohio) had renewed a demand, first made in September, that

the committee take up the suggested changes in the law. Taft later agreed to a delay until after the election.

The contemplated changes include an amendment which would prohibit discrimination against craft unions in labor board decisions.

In general, the house-approved proposals would provide for divorcement of the labor board's administrative and judicial functions, give employers the right to invoke the board's services, permit the President to name a new three-member board and make changes in procedure.

Italians Claim To Have Captured New British Air Chief

ROME, Nov. 21 (AP)—The capture of the new vice commander of the British air forces in the middle east, Air Marshal Owen Tudor Boyd, was announced today by the Italian high command.

Tudor, former commander of the British balloon barrage forces, and six other men, including four officers, were captured in Sicily when a forced landing, its communique said.

He was reported en route from England to take over the post when his plane went down.

(Air Vice-Marshal Boyd, a World War veteran, joined the Royal Air Force in 1916 after serving in the Indian army. He was director of air ministry's personal services from 1936 to 1938.)

Fascist troops smashed repeated Greek attacks along the Albanian front, particularly in the Koritza sector, the daily communique said.

The Italians said seven British planes were shot down in flames in an air battle over Egypt.

During the first six months of 1940, the airlines of the United States have flown 453,777,176 passenger miles.

During June, 1940, the airlines of the United States flew a total of 101,172,222 passenger miles, an increase of 59.14 per cent over June, 1939.

In an effort to secure greater interchangeability of parts in the mechanized forces of the army, gas tank patterns have been reduced from eight types to three, speedometers from six to one, fan belts from 23 to one, and batteries from 29 to one.

These are only a few of the most prominent bulges that go into the muscles of the fleet, a few of the callouses on the thick skin that must guard it from danger. More of them are being added day by day.

They are some of the reasons why it costs over a million dollars a year to maintain and operate each big ship—not counting pay for the men and the cost of naval shore establishments.

And inside the true hull is a third bulkhead. The space between each of these three skins is filled with water tight compartments into which water might be locked if the ship were hit, allowing the vessel to move steadily along in the line of battle.

Strike Still Unbroken

DOWNY, Calif., Nov. 21 (AP)—Government negotiators, striving to iron out a labor dispute which has tied up the big Vultee Aircraft plant—and \$84,000,000 in military contracts—for nearly a week, still were unsuccessful today.

One of the government representatives, N. Arnold Tollee, assistant to Defense Commission Labor Coordinator Sidney Hillman, left for Washington—but without any announcement regarding progress of the discussions.

The investigation, the committee said, was concerned not only with work of the various organizations named, but also with the individual activities of "Dr. Frederic Ernest Ferdinand Auhagen," whom investigators questioned for many days in Washington, and "Dr. Frederic Kertess," described as an American citizen whose firm, the Chemical Marketing company, (10 E. 40th street, N. Y. C.) was said by the committee to be "classified as an American concern."

The report said of Kertess: "The evidence x x x disclosed that Dr. Kertess and his firm have, and are engaged in activities which tend to show that their allegiance to the Nazi government is of prime importance, to the exclusion of any other country."

Four Germans, One Bomber-Killed In Duel
LONDON, Nov. 21 (AP)—In a swift-running machine-gun fight, a British Spitfire overhauled and rammed a German Heinkel bomber today, causing both planes to crash and killing the four men in the bomber and the Spitfire's pilot. A fireman also was killed by a bomb exploded by fire in the bomber's wreckage.

Delta Handa Club Entertained With Bridge-Luncheon

Mrs. Jack Smith and Mrs. Bob Tripphorn were co-hostesses to members of Delta Handa Bridge club at a bridge-luncheon in the Schneider hotel on Wednesday.

Bronze, yellow, and white mums were used in decorating the table.

High score in the bridge games was made by Mrs. Gaston Harbor, second high, Mrs. George Pollard; low, Miss Olive Daugherty; and deuce, Mrs. Albert Reynolds.

Members present were Mrs. Allen Evans, Mrs. Gaston Harbor, Mrs. Tom Rose, Jr., Mrs. Paul Schneider, Mrs. Phil McGrath, Mrs. Albert Reynolds; Miss Janice Purviance, Miss Flora Deen Finley, Miss Olive Daugherty, and the hostesses, Mrs. George Pollard and Mrs. Jack Smith.

The next meeting of the club will be held on December 4 with Miss Daugherty as hostess.

Woman's Study Club Has Annual Guest Day Tea This Week

MIAMI, Nov. 21—Annual guest day tea was given by the Woman's Study club Tuesday afternoon in the home of Mrs. Hettie Seiber.

As a special feature of the tea, the club sponsored a book shower for the county library. As each member responded to roll call she presented the two guests she had invited.

Mrs. W. R. Campbell, club president, welcomed the guests and introduced the guest speaker, Mrs. Arthur Corse of Laketon. After giving a short biographical picture of the author, Mrs. Corse reviewed that popular best-seller, Jan Struther's "Mrs. Miniver."

The club presented Mrs. Corse with a set of crystal goblets.

Hot spiced tea, sandwiches, and cookies were served to Meses, Arthur Corse, J. B. Saul, M. F. Stephens, Roy Mathers, W. L. Russell, M. W. O'Loughlin, Windom Allen, W. P. Locke, Lee Newman, Dallas George, C. W. Bowers, J. K. McKenzie, C. T. Locke, J. G. Ramsay, Edna Newman, S. E. Fitzgerald, W. E. Campbell, H. E. Baird, J. A. Mead, Agatha Locke, C. S. Seiber, and Hettie Seiber.

PINAFORES ARE FAVORITES

PATTERN 8797

You can have this high-style fashion in your own wardrobe and in your favorite fabric at a very trifling cost with this easy-to-make pattern, No. 8797. Pinafores are the delight of high school girls because they're nice with sweaters and with extra blouses. They're pets of the college campus, too!

With one good basic pattern like this you can make up two or three versions of this pretty fashion. Have one in plaid wool for cold days with a dark blouse; for parties and movie dates try a pastel challis or thin wool with a chiffon blouse. They will look like two different dresses and you'll look prettily dressed on all occasions. Note the easy fullness of the skirt and the smooth midriff.

Pattern No. 8797 is designed for sizes 11, 13, 15, 17, and 19. Size 13 requires for jumper 2 1/2 yards of 54-inch material, and for blouse with short sleeves 1 2/3 yards of 35 or 39-inch material, or 1 1/2 yards for short sleeves.

For a PATTERN of this attractive model send 15c IN COIN, YOUR NAME, ADDRESS, STYLE NUMBER and SIZE to The Pampa News Today's Pattern Service, 211 W. Wacker Drive, Chicago, Ill.

Everything new! Everything smart! Fashions for everybody from little 2s to stately size 52! Wearable, practical variations that will fit right into your daily life and give endless satisfaction. That's what you'll find in the new Fall and Winter Fashion Book! Send for it this very day!

Pattern, 15c; Pattern Book, 15c. One pattern and Pattern Book, ordered together, 25c.

Review To Be Feature Of Arts Program Monday

For the second in the series of arts programs sponsored by the American Association of University Women, Mrs. Hol Wagner will review "Who Walk Alone," a new biography by Perry Burgess, next Monday evening at 7:30 o'clock in the city club rooms.

The true story of a Spanish American war veteran, "Who Walk Alone" is a story of suffering but not of defeat. Everything Ned Langford wanted to live for was smashed, everything he wanted to achieve was beyond his reach, yet out of the debris he emerged sufficient courage and will power to help himself and others in a new and frightening world. There were no heroes about his attitude; no saintliness to alleviate his martyrdom. He took it on the chin like a man, and his story, told with authenticity and without sentimentality, makes tremendous, dramatic reading.

The review will be open to the public for a small admission charge.

Mrs. Roberts Speaks On Parents At AAUW Education Group

Parent Education group, sponsored by American Association of University Women, met in the city club rooms with Mrs. Frank D. Smith and Mrs. R. H. Nestel as hostesses.

Roll call was answered with safety helps for busy mothers.

During the business session presided over by Mrs. Carlton Hancock, Mrs. Joe Tooley told of four books in the public library which would be interesting and helpful to members of this group. They are "Child Psychology" by Brooks, "No Place Like Home" by Ellenwood, "High, Wide, and Deep" by Dickenson, and "Keep a Sound Mind" by Morgan. She asked that members read these books if possible.

Mrs. Fred Roberts, guest speaker, spoke on the subject, "Parents," particularly stressing the part of the mother in rearing her children.

She stated that a mother can make a happy home in spite of circumstances and that she has a tremendous responsibility and privilege in rearing her children to be good citizens.

Refreshments were served to Meses, M. E. Lamb, Carlton Hancock, E. Embrook, Joe Tooley, R. F. Bleefeld, members, and Mrs. Fred Roberts, guest.

Woman's Club Has Annual Guest Day This Week

Special To The NEWS
CANADIAN, Nov. 21—The Woman's club annual guest day was a gala affair in spite of inclement weather which prevailed.

Fellowship luncheon at the Methodist church was decorated with fall flowers and the national emblem. Table decorations, programs, and favors were in patriotic tone, the program being one on "International Goodwill."

Attractive handmade covers held printed programs, menu, and words of songs to be used for assembly singing.

Flates were laid for the following: Mrs. G. W. Ayers, Mrs. Charles Teas, Mrs. Carlton A. Studer, Mrs. E. J. Cussens, Mrs. Malouf Abraham, Mrs. Tom Abraham, Mrs. Fred Miller, Mrs. Dan Wild, Mrs. C. W. Allen, Mrs. Albert P. Knollenberg, Mrs. E. H. Snyder, Mrs. George L. Bader, Mrs. Walter M. Bader, Mrs. C. W. Callaway, Mrs. J. H. Fleke, Mrs. L. S. Hardage, Mrs. J. M. Carpenter, Mrs. Frank Shaller, Mrs. Tom Carver, Mrs. C. W. Miss Georgia Engle, Mrs. E. S. F. Brainerd, Mrs. Francis V. McQuiddy, Mrs. G. K. Engle.

Mrs. W. A. Fite, Mrs. Bill Flewelling, Mrs. R. M. Hobby, Mrs. George Mathers, Mrs. Sam Isaacs, Mrs. W. E. Pritchard, Mrs. Paul Hostie, Mrs. H. E. Hoover, Mrs. George Tubb.

Mrs. John H. Jones, Mrs. Emmett McMorris, Mrs. Frank P. McMorris, Mrs. Bruce Waterfield, Mrs. J. B. Lindley, Mrs. Walter Jones, Mrs. D. Marcus, Mrs. R. N. Matthews, Mrs. R. F. Cayton, Mrs. D. L. McCree, Mrs. John Caylor, Mrs. Lawrence Cleveland.

Mrs. Lewis Merry, Mrs. George Mason, Mrs. Wendell Rice, Mrs. J. D. Raymond, Mrs. John O. Stovall, Mrs. Jepp Todd, Mrs. Ben Scott, Mrs. H. C. White, Mrs. G. W. Britz, Mrs. Earl O'Harell, Mrs. Charles Tubb, Mrs. Ray Hopkins, Mrs. John Isaacs, Mrs. W. D. Fisher.

Mrs. Harry S. Wilbur Junior, Mrs. Paul V. Bryant, Mrs. Ferman Williams, Mrs. Gilford Carter, Miss Charlotte Gerlach, Miss Lola Studer, Mrs. H. H. Marks, Mrs. S. E. Allison, Mrs. John Payne, Mrs. Ben Hill, Mrs. Will Crow, and Mrs. R. H. Cowan.

Presiding was Mrs. G. W. Ayres, president of the Woman's club, who welcomed the guests, following an invocation by Mrs. D. L. McCree.

After luncheon, the following program was rendered: group singing of the national airs; a reading, "An Armistice Day Editorial," by Mrs. J. Dave Raymond, and these musical numbers:

By the Waters of Minnetonka, Mrs. J. M. Carpenter; Estrellita, by Miss Georgia Engle; Sewellia, by Mrs. Earl O'Harell; and a sacred duet, From Greenland's Icy Mountain, by Meses, W. A. Fite and R. N. Matthews.

A pair of rats could invite more than 20,000,000 descendants, or nine generations, to their golden anniversary.

Both Canadian railways, the National and Pacific, offer annual trophies for the best trout caught in the waters of Lake Nipigon, Ontario.

Retirement Fund For Teachers Convention Topic

FORT WORTH, Nov. 21 (AP)—Texas teachers here for the opening today of their state association convention heard the association executive committee's endorsement of renewed efforts to bring about functioning of the teacher retirement plan.

Formal notice that the committee had given unanimous approval to such efforts and to the federal labor amendment, was high order of opening business.

Only yesterday in Austin Attorney General Gerald Mann delivered an opinion that the legislature could appropriate directly from the general revenue fund to provide the state's contribution to the teacher retirement financing.

Headquarters of the association estimated last night 3,000 visitors had arrived and predicted there would be 10,000 as sessions progressed.

Association members said W. B. Winn, superintendent of public schools at Lubbock, would be placed in nomination for the presidency tomorrow by C. J. L. Glavin, representing the West Texas association, and should be a strong candidate.

Charles H. Tennyson of Wichita Falls was not eligible for re-election as president. Three vice presidents are to be chosen.

Governor O'Daniel's 168-member educational commission held an open meeting yesterday and saw controversy develop over proposed consolidation of small rural school districts in the state by reducing the number from 4,000 to 600.

H. W. Stillwell of Texarkana, commission head, said that at the request of the governor the 90-page report of recommendations, providing for complete reorganization of the Texas public school system, had not been made public.

Ladies Aid Society Has Bible Study

Special to The NEWS
SKEELLYTOWN, Nov. 21—The Ladies Aid Society of the Community church of Skellytown met this week at the church for Bible study.

The meeting opened with a song, "Work For the Night Is Coming," led by Mrs. Hazel Thurlow, accompanied by Mrs. John Beigle at the piano. Prayer followed by Mrs. Chester Strickland.

In the business meeting presided over by Mrs. Arlie Ackerman, president, plans were made for a social and grab bag sale at the next meeting. Each person attending is to bring a gift not to exceed twenty-five cents and a quarter to buy a gift.

Mrs. Hazel Thurlow and Mrs. John Beigle were appointed by the president to prepare the program for the social.

The devotional, "The Garden of the Soul," was given by Mrs. Frank Genet, including a song, "Bringing In the Sheaves," by the group. Mrs. Genet read a poem, "Paradise," which she had composed. The lesson was taught by Mrs. Wilbur Waggoner. The meeting was concluded with a song, "Wonderful Words of Life," and a prayer by Mrs. H. C. Boyd.

The attending were Mesdames Arlie Ackerman, John Beigle, Chester Strickland, H. C. Boyd, Frank Genet, Castleberry, Hazel Thurlow, S. C. Dickey, Ray Hawkins, Paul Kennedy, and Wilbur Waggoner.

Mrs. Webb Named Honoree At Event

Special to The NEWS
SKEELLYTOWN, Nov. 21—Mrs. Charlie Webb was named honoree at a party given at her home in Skellytown.

Pink, blue, and white predominated in the decorations of the entertaining rooms, gift wrappings and refreshments of ice cream, wafers and nuts.

Various appropriate games were directed by the hostess with awards being won by Mrs. Joe Wedge and Mrs. A. A. McElrath who in turn presented them to the honoree.

OKLAHOMA CITY, Nov. 21 (AP)—(U. S. Dept. Agr.)—Cattle salable and total 500; calves 300; four or five loads steers from local feed lots; other killing classes scarce; trade mostly clean on butcher cattle at steady to strong rates; short load good light steers 10.25; load medium short fat steers 9.00; one load at 7.50; others unsold; few beef cows 5.50-6.00; canners and cutters 3.25-4.75; bulls quoted 5.00-6.25; weaners and slaughter calves scarce, unchanged; few calves 5.00-5.40; stockers nominal.

U. S. Seaman Rescued From Barrel Island

SAN JUAN, Puerto Rico, Nov. 21.—An American seaman rescued from Barrel Island was released today after being questioned about his experiences by agents of the federal bureau of investigation. The reason for the questioning was not disclosed.

Brought here by the coast guard cutter Unalaga after nearly dying of thirst on Desecheo Island, William P. O'Brien of St. Louis, Mo., said he was shipwrecked with Clifford Russell, another seaman, of Louisville, Ky. Having lost track of time, O'Brien did not know whether he was on the island 11 or 14 days.

Man Appeals From Draft Board To Get Into Army

LOUISVILLE, Ky., Nov. 21 (AP)—The first man to appeal from a Louisville draft board ruling wants in!

After his own draft board physician and one from an advisory board turned him down because of what they considered a faulty heart, Herbert Kern, 22, spent his own money for a specialist's opinion in an effort to get into the army via the volunteer route.

The specialist said that Kern's heart was sound enough for army service and, armed with that finding, Kern plans to present his case at the next draft board meeting.

Mission Work In Europe Topic Of Baptist Society

Special to The NEWS
MIAMI, Nov. 21.—B. W. M. S. met in the home of Mrs. R. E. Webster this week with Mary Lou Dunn as hostess.

Mrs. Ollie Duniven, who has been elected the new circle chairman since Mrs. Ritchey's withdrawal from service, led the devotional from the book of Acts.

Mrs. Moulton Hawes gave a history of early Christianity in Europe and the beginnings of Baptist work there. Mrs. E. H. Hopkins' talk brought out fact that in spite of hardships and persecution, European Baptists and missionaries are remaining steadfast.

Prayer by Mrs. J. A. Lee concluded the program. During the business session plans were made for the December week of prayer, which has been set aside as the first week of that month.

In preparation for it, Mrs. W. P. Locke will teach the book, "Publishing Glad Tidings," next Monday afternoon at the church, beginning at 1:00 o'clock.

Edward, Duke of Windsor, is an amateur magician, and is particularly adept at slight-of-hand and card tricks.

Birds have tails of seven different types—cuneate, emarginate, forked, graduated, pointed, rounded, and squared.

Daniels Predicts What World Will Be Like In 2040

MEXICO CITY, Nov. 21 (AP)—U. S. Ambassador Joseph Daniels predicted today "there will not be a king or queen or emperor" holding power "by right of inheritance or life tenure" in 2040, nor any dictator seizing power by force or holding it by denial of the popular will.

In a prepared Thanksgiving day address at a church here, the ambassador said that "colonialism and imperialism will be as dead and turned to clay as imperial Caesar," that "every man who tills the soil will own the land he cultivates," that education from kindergarten to the highest post-graduate work would be "free to all," that there would be no strikes, no need for standing armies, great navies or militarized aircraft beyond an "international police force," and "universal freedom of religion would be respected."

He said his great thankfulness today was "because I dare to believe that in history as in nature the darkest hour is just before the dawn, and that the coming century will witness more miracles for human well-being than in any other 100 years which have preceded it."

New Symbol of National Unity

A group of New Yorkers has organized a "Good Loser Club," composed of Roosevelt and Willkie partisans, and dedicated to national unity behind the successful candidate. The club is distributing the poster pictured above, hoping the idea will spread to other communities so that Americans, bitterly divided over the recent election, will close ranks and present a united front to the world.

Scouters To Meet In Borger Friday

President Raymond Harrah, Executive Fred Roberts, and other officers of the Adobe Walls Boy Scout council will be in Borger Friday night to attend the annual meeting of the Hutchinson county district of the council.

White Deer P-TA Has Program This Week On Education

Special to The NEWS
WHITE DEER, Nov. 21—"Audio-visual Education" was the subject of discussion at a meeting of the Parent-Teachers Association, Monday evening at the grade school, with Glenn F. Davis, high school principal, as leader.

Discussing the "Educational Use of the Radio," Harold Drummond, principal of the grade school, named several educational broadcasts, particularly the Texas School of the Air, that are available to the students through the four school radios, and showed how they might be used in class work.

Such broadcasts, he said, involve preliminary preparation on the part of the teacher and the pupils, no activity during the program, but varied activities following. He added that student broadcasts afforded excellent training in dictation, poise, writing and other skills.

With pupils from the fourth grade, Miss Esther Plank, teacher, gave a demonstration lesson on rubber, using the ballpoint owned by the school to add visual information and interest.

Mrs. B. R. Weaks, teacher of social science in the high school, demonstrated the use of motion pictures in instruction. Since her civics class had just finished a study of the national government, she chose the film "Washington, the Nation's Capitol," and presented both the preliminary and follow-up discussion.

In the absence of the president, Mrs. John Skaggs, Miss Odessie Howell, vice-president, presided, and J. W. Everly gave the invocation.

Refreshments were served by mothers of the children in the third and fourth grades.

AFL To Drive Out Labor Racketeers, Says Key Official

NEW ORLEANS, Nov. 21 (AP)—Success—in some form—for a measure that would drive racketeers out of its labor unions was forecast today by a key man in the American Federation of Labor.

But while the rest of the AFL convention delegates observed Thanksgiving day, representatives of the International Ladies' Garment Workers, which has 100,000 members in the New York area, met to consider demands for a wage hike and the possibility of a strike.

David Dubinsky, one of the authors of the anti-racketeering measure and president of the garment workers, said: "Our ILGW general executive board, which meets every three months, was called into session today to work out a new contract for the one expiring Feb. 1."

"We'll want to preserve our present 36-hour week and may ask for higher wages. Because of these and other demands we will also consider the possibility of a strike."

"I don't see how the convention can fail to act favorably on the anti-racketeering resolution," said an official who is a member of the AFL executive council and the resolutions committee.

The executive council in its annual report condemned gangsterism within unions but acknowledged that the general body of the AFL lacked constitutional authority to deal with the problem as it arose in individual unions.

Miami Christian Church Fall Rally To Be Held Sunday

Special to The NEWS
MIAMI, Nov. 21—The annual fall rally and basket dinner which is usually held in October, but was postponed this year, will be held at the First Christian church Sunday, November 24.

The Rev. Patrick Henry of Ft. Worth has been secured to bring the messages, both morning and afternoon. The Rev. Mr. Henry has been secretary of the State Christian society for 11 years. He is a former pastor at Wichita Falls and other large churches in the state.

A number of people are expected to attend from Pampa, Canadian, and other neighboring towns.

Wife Was Fat No Longer Attractive

Special to The NEWS
The above headlines appeared in a New York newspaper in connection with a divorce trial that had attracted wide attention: "She was a beautiful woman" one witness testified, "but she got fat and is not attractive any more."

Thousands of women are getting fat and losing their appeal just because they do not know how to diet. If you are fat, how would you like to lose it and at the same time gain in physical charm and attractiveness—more energy—greater activity?

Why not do what thousands of women have done to get rid of pounds and keep it up for thirty days? Cut out pastries and fatty meats and go light on potatoes, butter, cream and sugar. Then weigh yourself and see how many pounds you have lost.

A bottle of Kruschen Salts will last you for 4 weeks and costs but little. Back and throat sore for a bottle of Kruschen, plain or new effervescent—sparkling—pleasant—and start today to lose fat. Satisfaction guaranteed or money back.

King George Pays Tribute To U. S. Aid

LONDON, Nov. 21 (AP)—King George VI solemnly pledged his empire to fight "until freedom is made secure" in a speech today from the throne opening a new session of parliament.

Speaking later in the House of Commons, Prime Minister Churchill expressed "a measure of confidence" that Britain would be able to repel the Axis invaders in Egypt.

King George paid a tribute to United States aid to Britain both in his opening speech today and in another pronouncing the old session yesterday. The latter was read by Lord Simon, the Lord Chancellor.

Today the king attended the ceremony in the House of Lords clad in the uniform of an admiral of the fleet.

Queen Elizabeth accompanied him, wearing a gown and coat of deep purple. The ceremony was shorn of much of its customary pomp because of the war.

The king made his opening four-minute address in firm measured tones, declaring that the relations of the British government with the United States "could not be more cordial." He said he had learned "with the utmost satisfaction" of an "ever increasing volume" of munitions of war arriving from America.

The king also revealed his "gratification" at the exchange of British defense bases for American destroyers.

Churchill said "the valiant and sudden uprising" of the Greeks had already "almost purged" their soil of an attack which he described as "pure and unmitigated brigandage."

The prime minister expressed hope that Britain would be able to give from her resources, "always heavily strained," a "helpful measure of assistance to the Greeks" and that "we shall be able to discharge our responsibility to Egypt in defending its soil and guarding the vital artery of the Suez canal."

"Even if the whole of the homes all over the country are levelled," Churchill said, "we shall still be found all standing together and we shall build them up again after the fighting is over."

Parliament, he said, stood as custodian of the people's "surrendered liberties," and "its most sacred duty will be to restore them in their fullness when victory has crowned our exertions and our perseverance."

Before blowing over a large tree on the Hammon ranch, at Mecca, Calif., in 1898, a windstorm moved a truck that would have been crushed by the tree's fall.

Brittany is a province of northwestern France. A peninsula, bordering on the English channel, its inhabitants are known as Bretons.

Harris Food Stores To Observe Fourth Anniversary Here With Sale

Tomorrow will be a significant day for A. T. Pumphrey, assistant manager of Harris Food Stores, 322 W. Kingsmill.

It will mark the completion of six years with the concern, as Pumphrey is one of seven volunteers from this county who leave here

Saturday for the induction station at Lubbock. He is believed to be the first Pampa groceryman to volunteer under the selective service act. On the eve of Pumphrey's departure, the Harris Food stores here will be observing their fourth anniversary in Pampa, with a sale starting tomorrow and extending through Wednesday. Pumphrey has been with the firm ever since it was established in Pampa.

Commenting on the concern's business in Pampa, Otis R. Pumphrey, general manager of the Pampa stores, said: "We have had a nice increase in business each year and 1940 was the largest year since Harris Food stores were organized. "Our stores are individually operated. Each employe is a part of the business and all employes are local tax-payers. We are a part of Pampa, own our property and take an active part in civic development. "Invested here we have over \$7,500. "Harris Food stores are a Panhandle institution and we have operated in this part of Texas for over 30 years. "Fair dealings have made us a host of friends." Personnel of the stores, 322 W. Kingsmill, Otis R. Pumphrey, general manager of both stores; L. E. West, manager market department; A. T. Pumphrey, assistant manager; Q. B. Beavers, head checker; Garvin Elkins, vegetable department manager; Bob Crouch, stock department; Harry Jennings and

Oklahoma City And Tulsa Agree To Drop Ancient Feud

TULSA, Okla., Nov. 21 (AP)—Tulsa and Oklahoma City may soon enter a new era of "co-operation." Mayor C. H. Veale of Tulsa said he recently conferred with Mayor R. A. Hefner of Oklahoma City and that both agreed Oklahoma is suffering because of the competition between the state's two largest cities. Such is the case, said Veale, in regards to federal projects. Oklahoma City wants a project and Tulsa wants the same project, explained Veale. "As a result, the state's representatives in Washington are put on the spot and are afraid to do much for fear of incurring the disfavor of the other. "Mayor Hefner and I both agreed that co-operation would be a great benefit." Veale said there was no discussion of "details and specific items" but that he would confer later this month with Hefner and Oklahoma City Manager C. A. Quinn.

Otis R. Pumphrey, above, is general manager of the two Harris Food stores, located in Pampa, one at 322 W. Kingsmill, the other at 306 S. Cuyler. The stores are observing their fourth anniversary in Pampa with an anniversary sale at both stores, starting today and extending through Wednesday. Pumphrey came to Pampa in 1930. He had been manager of the Ideal Food stores in Elkhart, Kas., and at Dalhart prior to his joining the Harris Food stores in 1934. He owns his home here, and is an active civic worker as a director of the junior chamber of commerce, member of the senior chamber of commerce, member of trade promotion committee, and of the Rotary club.

Ratner Drafted Law That Gave Him Vote Lead

TOPEKA, Kas., Nov. 21 (AP)—Gov. Payne Ratner, Republican who proclaimed Nov. 28 Thanksgiving day in Kansas, will celebrate on President Roosevelt's day of Thanksgiving after all.

He finally had regained the lead, although only by votes, in his contest for re-election over William H. Burke, Democratic banker from Little River. Official returns, still incomplete 16 days after the election, gave Ratner 425,213 and Burke 425,180. State employes held an impromptu celebration.

"Even if it is President Roosevelt's Thanksgiving day, we're going to celebrate," they shouted. Still to be counted by the state canvassing board are absentee votes, cast outside the state, for 15 of Kansas' 105 counties.

Ratner owes his hopes of victory in this amazing election—Wendell Willkie carried the state by 120,000 votes—to a law he sponsored through the legislature 11 years ago.

The law permits Kansans out of the state on election day to cast absentee ballots. Previously only federal employes and persons in the military services could so vote. It is these out-of-state absentee ballots—7,100 of them—which are being tallied now and which have switched the lead from 1,800 for Burke to 33 for Ratner.

Ratner, from the railroad town of Parsons, explained that he was interested primarily in the voting rights of trainmen whose schedules took them away on election days when he introduced that bill in 1929.

"If there ever was a case of bread cast upon the waters, this is it," he exclaimed.

Ratner will eat turkey today, in a condition of celebration of victory. But he still may eat crow on his own Thanksgiving day, for by that time all the votes will have been counted and Burke isn't conceding defeat.

CIO Votes Against

Totalitarianism

ATLANTIC CITY, N. J., Nov. 21 (AP)—The Congress of Industrial Organizations adopted today a resolution declaring "dictatorship and totalitarianism of Nazism, Communism and Fascism as inimical to the welfare of labor and destructive to our form of government."

The resolution, however, did not contain any reference to the proposal of the Amalgamated Clothing Workers to bar Communists and Fascists from CIO offices.

Thomas Kennedy, as chairman of the resolutions committee, moved for its adoption as "a plain, simple reaffirmation of the policies of the CIO and John L. Lewis."

"It is not conceived in red-baiting, hysteria or witch-hunting," he said. An overwhelming majority stood up for passage of the resolution after the convention first had voted against throwing the controversial issue open to debate.

Vice President Phillip Murray, presiding, announced adoption "by what the chair believes to be the unanimous vote of this convention."

FDR Invites Tax Leaders To Supper

WASHINGTON, Nov. 21 (AP)—Four top congressional tax leaders, it was learned today, have been invited to an informal White House supper with President Roosevelt for the first of a series of conferences expected to result in a general revision of the nation's tax laws to meet national defense expenditures. The invitations—for the evening of Nov. 29—went to Chairman Harrison (D.-Miss.) and Senator George (D.-Ga.) of the senate finance committee and Chairman Doughton (D.-N. C.) and Rep. Cooper (D.-Tenn.) of the house ways and means committee.

In addition to taxes, the discussions are expected to include the question of increasing the present \$40,000,000,000 federal debt limit.

An Independent Democratic newspaper, publishing the news fairly and impartially at all times and supporting in its editorial columns the principles which it believes to be right and opposing those questions which it believes to be wrong, regardless of party politics.

'If You Believe in America . . .'

Many years ago the townspeople of a small village in the Old Country held a great celebration in the public square. For years there had been no war and they had worked hard to raise good crops. Their children had grown strong and healthy. And for this they were thankful. What better way, the mayor had asked, could they express their thankfulness than by celebrating together? So he proclaimed a holiday, asking each person to pour a bottle of wine into the tavernous cask that stood near the village fountain. This they would share together.

When this great day arrived, there was a man who filled his bottle with water. There would be so much wine, he thought, a little water would not be noticed. He was a good man and he meant no harm. So he stood in line with the others and poured his bottle of water into the cask. When it came time for the ceremony, the mayor stood next to the cask and spoke fine words of their happiness and what a great thing it was to share this great happiness. But when he turned the heavy wooden spigot to drink his toast, nothing but water ran into his cup. Everyone had thought a "little water" would not be noticed.

This parable, of course, has an obvious moral. Today we say "let George do it." It is the attitude that "someone else" will do something that should be done. Today the Red Cross is doing a big job for the America in which you and I live. They are not doing it alone, nor can they continue without the support of every American who believes in their great work.

If you believe in giving food, clothing and shelter to the thousands plunged into suffering and despair each year by natural disaster, then you believe in the Red Cross. Or, if you believe in an organization which works hand-in-hand with our growing military forces in maintaining nation-wide reserve of nurses and medical technicians, and which helps keep the morale of service men where it should be, then you believe in the Red Cross. If you believe it is a good thing to train hundreds of thousands each year to intelligently give first aid to accident victims, then you believe in the Red Cross. And, if you believe in an organization whose volunteers give their life's blood that others may live, then you believe in the Red Cross.

These are the reasons why more than 7,000,000 American men and women last year believed in, and joined, the Red Cross. In a few days the 1940 Red Cross Roll Call for memberships will come to a close. Every American who is able to do so should have his name on this roll. It is not compulsory. You really don't have to join the Red Cross. You can shrug your shoulders like the man who poured a bottle of water into the wine cask. But if you believe in America, you believe in the Red Cross—and you will want to join. That is the way we do things in this country.

Behind The News

By BRUCE CATTON, Staff Writer, The Pampa News Washington Correspondent

WASHINGTON, November 21.—While the general public thinks in terms of battleships and cruisers when it talks about building up the navy, one of the most important parts of the navy's defense program involves much less spectacular units.

Along with the current construction program, the navy is energetically pushing the purchase of privately-owned yachts for its auxiliary fleet. Since July 1 it has bought 130 ships, ranging all the way from big merchant vessels to diminutive yachts and harbor tugs. All of these craft are considered as essential to the navy's proper operation as are the big fighting ships themselves.

For the merchant ships there is a variety of uses. Some of the bigger vessels—like the "president" liners, for instance—are put into service as transports. Others are converted into seaplane tenders, submarine tenders or destroyer tenders. The former Maritime Commission cargo-carrier Shooting Star, as a sample, is about to go into navy service as an ammunition carrier. A large number of tankers will serve the fleet as oilers.

Former yachts, meanwhile, are being converted into patrol vessels. Harold Vanderbilt's "Vara" is becoming a submarine chase. Col. Edward A. Deeds' "Lotusland" is being turned into a coastal-mine layer. The sleek "Orion," bought from the J. Forstmann estate, is being commissioned as a gunboat.

CAN COPE WITH SUBS The job of converting these yachts to naval uses is fairly simple. Hulls and frames must be inspected to see how many guns can be supported and where they can be placed. Fancy fittings are taken out. Lavish guest-stateroom suites are knocked out and replaced by the spartan cabins naval officers are used to. What used to be a state dining saloon may lose its paneling and its hangings, get a coat of slate-grey, and become part of the berth deck for enlisted men.

Point is that, once converted, the ex-yacht becomes a useful patrol vessel for the Atlantic coastline. It couldn't enter a regular battle line, but it can cope with submarines or converted merchantmen and release bigger ships for combat duty.

Not to be confused with famed San Simeon is the William Randolph Hearst ranch of 154,000 acres purchased by the army for \$2,000,000. The California property is about 40 miles north of San Simeon and inland. The ranch lies midway between Fort Ord and Camp San Luis Obispo and will be used as a training and maneuvering area. Washington understands no camp will be built there.

NEW DODGE TO HELP DEFENSE How can a factory not engaged in defense produc-

Common Ground

By E. C. HOLES

This column contends there can be no satisfactory program until we assume the status of each man by the common yardstick of the Golden Rule right to create and enjoy anything anyone else has a right to create and enjoy.

DO GOVERNMENTS NEED TO DECAY? We invariably hear the statement that anything that grows must perish. Pseudo political economists constantly repeat this metaphor. This error that governments need to decay was answered some ninety years ago by Frederic Bastiat, a great French political economist in his second volume of "Harmonies of Political Economy."

Now that we are in such a state of decadence for the last quarter of a century in our political, social and economic life, the remarks of this great student are timely. "The crash of empires even is not the retrogradation of humanity, and the ancient models of civilization have only been dissolved in order to make room for a civilization still more advanced. Dynasties may be extinguished; the forms of government may be changed; yet the progress of the human race may not be less continued. The fall of states is like the fall of leaves in autumn. It fertilizes the soil; contributes to the return of spring; and promises to future generations a richer vegetation, and more abundant harvest. Nay, even in a purely national point of view, this theory of necessary decadence is as false as it is antiquated. In the life of no people can we possibly perceive any cause of inevitable decline. The analogy which has so frequently given rise to a comparison between a nation and an individual, and led men to attribute to the one as to the other an infancy and an old age, is nothing better than a false metaphor. A community is being incessantly renewed. Let its institutions be elastic and flexible, so that in place of coming in collision with those new powers to which the human mind gives birth, they shall be so organized as to admit of this expansion of intellectual energy and accommodate themselves to it; and we see no reason why such institutions should not flourish in eternal youth. But whatever may be thought of the fragility and fall of empires, it must never be forgotten that society, which in its aggregate represents the human race, is constituted upon more solid bases. The more we study it, the more we shall be convinced that it too, like the human body, is provided with a curative force, a vis medicatrix, which delivers it from the evils which afflict it; and that it carries in its bosom, moreover, a progressive force; and is by the latter urged on to improvements to which we can assign no limits."

So do not be too pessimistic. We have been transgressing God's laws and nature always punishes people for errors. When we fail to use our foresight, we are punished. The punishment is as necessary as a reward. The present mania for violating the Commandment, "Thou shalt not steal," will eventually stop because of the suffering that will arouse people to realize the evil effects of stealing; that is, of the government collectively taking from one and giving to another. This decay and unemployment is simply a cleansing process. We have not yet gone far enough to see our errors. Eventually we will see. Of course, foresight is the best way of learning, but if we cannot learn by foresight, we will have to learn by feeling, through our stomachs and our bodies.

When Miss Rogers went to the election, she was not too pessimistic. We have been transgressing God's laws and nature always punishes people for errors. When we fail to use our foresight, we are punished. The punishment is as necessary as a reward. The present mania for violating the Commandment, "Thou shalt not steal," will eventually stop because of the suffering that will arouse people to realize the evil effects of stealing; that is, of the government collectively taking from one and giving to another. This decay and unemployment is simply a cleansing process. We have not yet gone far enough to see our errors. Eventually we will see. Of course, foresight is the best way of learning, but if we cannot learn by foresight, we will have to learn by feeling, through our stomachs and our bodies.

LET CITIES ROOSEVELT VOTE

The election shows that Roosevelt got most of his majority out of eighteen of the larger cities. This means that he got the vote where citizens could make a living by more minute division of labor. Anyone who could put a bolt on rapidly or do any little thing rapidly goes to the cities because in the country, in the rural districts, the individual has to be more diversified in order to market his talents. In other words, in the cities where the least thinking on the part of the masses is necessary to make a living, is where most of the majority of the Roosevelt votes came from. Then again it is where Bosses Kelly, Nash, Hague, etc., hold office by buying votes with political patronage. In the cities, from the slums, where people do not understand the responsibilities of one man to another is where most of the Roosevelt votes came from. Nice company for New Dealers because their deception finds pitifully helpless, but none-the-less fertile ground.

The Nation's Press

PRESS MENDS ITS WAYS (New York Times)

That morning the citizen found in his morning paper two front-page stories about Secretary Ickes. In one column Mr. Ickes submitted his resignation as Secretary of the Interior. In another column Mr. Ickes told the reporters that he had no free press in America. The newspaper supports President Roosevelt in three elections was ridiculously below the popular vote.

That night the citizen dreamed that every newspaper in the country issued a special edition with a front-page editorial in big type. The editorials unanimously warned President Roosevelt not to permit Mr. Ickes' departure from the Cabinet. The editorials went on to say that the country could bear up under nearly any imaginable handicap, such as a doubling of the national debt or of unemployment or the threat of an armed invasion, but the loss of Mr. Ickes at Washington would be a catastrophe.

Next morning Secretary Ickes called in the reporters and said he was glad to see a new desire on the part of the American press to live up to its duty and our citizen woke up with a start.

We shouldn't be at all surprised if by now the Dove of Peace isn't becoming a little cuckoo. —Washington Post.

Mrs. Elsa Schiaparelli, apparel designer, says all Paris is impressed by the way American men spend money on their wives. Well, it's nice that Paris is doing to contribute to defense? The Forstmann Woolen Co. of Passaic, N. J., has an answer. Recently the company's self-improvement courses in machine shop practice and blueprint reading were thrown open to non-employees. Enrollment tripled to about 75. Graduates of the 16-week courses are expected to be absorbed by nearby aircraft plants.

WORTH LOOKING INTO

Around Hollywood

By PAUL HARRISON, NEA Service Staff Correspondent

HOLLYWOOD, Nov. 21.—Behind the screen: They say that in football when an irresistible force meets an immovable object, the result is time out. It's the same with the salary squabble between Ann Sheridan and her studio; neither side will yield, and she remains on suspension.

An attempt was made to arrange an "accidental" meeting between her and a studio executive which could have saved face for both of them and maybe led to a peace talk. But Ann didn't show up.

"Hollywood" is inclined to blame George Brent for coaching her into this sit-out strike. He did the same for Bette Davis when they were romancing, and the drama-gal went back to the studio in court.

Lucille Ball, who has been dithering over the Cuban song-and-dance boy, Desi Arnaz, ever since they worked together in "Too Many Girls," almost choked on a line she had to speak in "Three Cities and a God." It was a contemptuous remark that "Latin is lousy lovers," and it was written into the script merely to rib the actress. Miss Ball didn't know that Hays office won't pass the word lousy.

With a new contract being written for her at RKO, Ginger Rogers isn't so sure she wants to be just an actress and would like to do anything. Her latest deal is with Fred Astaire, which reminds her that during their last one, Astaire had the film of one of their dance numbers equipped with special sound effects.

When Miss Rogers went to the rushes she was horrified as her solo tapping clattered like cavalry crossing a bridge. When she struck a pose and arched a leg to begin a dance, she creaked like a dry axle of a season. Her legs ended with heavy thuds, and the finale brought a crash of dishes and a blackout.

Wait Disney, setting playdates and leasing theaters for the next two years, estimates his "Fantasia" will gross \$15,000,000 in that time. Howard Hughes, the lanky, wealthy toolmaker and flyer, finally is all set to resume picture production where he left off with "Front Page" and "Scarface." First on his new schedule is "The Outlaw," with Howard Hawks directing.

Sign reported on a London movie that was damaged by "Smash Hit!": "Most encouraging evidence of growing anti-Nazi sentiment in the Argentine is that 'The Man I Married' has been approved for general release." Twentieth-Fox has another bitter blow for Hitler on the fire. George Murphy was a campaigner with the Hollywood committee for Wilkie and isn't forgetting his arguments. The hooding actor has refused a third term as president of the West Side Tennis club.

"It isn't that Sylvia Sydney has a poker face; she merely knows how to look woebegone while holding three jacks and a pair of nines. Clifford Odets and Aben Kandel paid \$400 to watch a few such performances. Speaking of poker and acting, Martin Greene says there are two ways to know when Charles Coburn has a good hand; his face lights up, and then he plays it wrong. Orson Welles is planning a picture about colorful Maury Maverick, former U. S. representative and now mayor of San Antonio.

Metromen are taking bows for the discovery of Phillip Dorn, who's drawing such praise for his role in "Escape," and here's how he was found: M-G-M acted Universal for a glimpse of a test made of a certain actress who was being considered for an important role. She

People You Know

By Archer Fullingim

Wanted: some person who wears size No. 14 shoes to break in a pair of new kicks for this one. All day yesterday when we tried to break them in we were reminded of the days when we used to go to town (Paducah) and about noon (this one and his brother's) would begin begging, "Pappy, can we go to the wagon yard and pull off our shoes. They're killin' us!" We were wearing them then.

The smell of paint has driven Father Harry Zienta of Sacred Heart church, White Deer, away from the rectory. They are repainting, etc. the church rectory, and if there's one thing that Father Zienta is allergic to it is paint. Tuesday night he stayed at the house of John Urbanczyk, who is the father of Billy Urbanczyk, the 14-year-old flash on the White Deer team.

Bill Corinn, naturalized American who is a native of Greece, says that the Greeks could whip the Italians with rocks. Bill owns a cafe in Pampa.

V. L. (Puzzy) Boyles had often heard about it but had never seen it, but he did last week when he went on an elk hunt to Gunnison, Colo. While he and Ben Garber were hunting up three one of the two men who were camped right across the creek from them was shot to death by his partner dead—right through the ear. The man was weeping hysterically, and he is now in care of a hospital in Colorado. They brought the dead man out by pack-horse the next day. Boyles said he knew the man who was killed and that he visited their camp the night before. He said the man who did the killing kept crying, "Oh why did he move that bush!"

The Pampa men got their elk, all right, but couldn't get any horses to pack them out. However the guides are going to ship the elk to here. The ground up there was covered with three feet of snow, Boyles said.

Cranium Crackers

FOREIGN PHRASES Here are five foreign phrases which frequently appear in English literature. Can you give the English expression which most nearly corresponds to the meaning of each? 1. Ad Valorem. 2. Fiat Justitia, ruat cœlum. 3. Au jour le jour. 4. Bête noire. 5. Mens sana in corpore sano. Answers on Classified Page

Bennets' Mother Dead

NEW YORK, Nov. 21.—Mrs. Adrienne Morrison, 52, mother of actresses Constance and Joan Bennett, was found dead today in the bathroom of her apartment at 61 East 66th street. Another daughter, Barbara, is the wife of singer Morton Downey.

HIGHLIGHTS FROM LATEST BOOKS

By JOHN SELBY, "I RODE WITH STONEWALL," Henry Kyd Douglas; (Chapel Hill: \$3).

It is a little unfair to pick out one chapter from Henry Kyd Douglas' "I Rode With Stonewall" and talk almost altogether about it, but that is what we shall do. But first, the reason for the book. . . . The author served in the Confederate army as a young man, through the War Between the States. He tasted the bloody future, first, shortly after he met an old man on the road near Harper's Ferry, and because the old man was having difficulty with a heavy load, went home for his father's carriage horses and helped him over the hill. The old man was John Brown, and soon there came Brown's raid, and Brown's execution. Presently Douglas was in the army, in the brigade known as "Stonewall," and under Jackson, who always insisted the nicknames belonged to the brigade and not to him.

Douglas was young and attractive to the ladies. His story of the war is thus half military, half personal. He knew the Southern commanders as men and writes of them so.

His chapter on Jackson is a sort of summary. Jackson was gentle and tender of manner in his personal life, Douglas writes, yet he could deny an officer leave to see his dying wife with these words: "Man, man, do you love your wife more than your country?" But one day as he was riding with his command down a Virginia highway an old woman asked him if her son would pass that way. Jackson dismounted, learned that the boy was in his old brigade and stationed a courier with the mother to see that he was allowed to stay with her until next day.

Jackson was active, daring and by no means erratic, Douglas writes. He believed in maneuvers rather than smashing through, partly because he never had a strong enough force to smash with. He was difficult among women, quiet among men, severe only when faced with incompetence or neglect. He was always doing the unexpected—he said that if his coat knew what he intended to do in a campaign, he would throw it away. And he was loved by his men, some of whom, when old, were found one morning sleeping under the base of his statue in Richmond—to be with him once more.

Douglas' book was written in 1899 and published this month, 37 years after its author's death. It is a valuable book.

Canadian To Hold Union Thanksgiving Services Tomorrow

SPECIAL TO THE NEWS CANADIAN, Nov. 21.—Union Thanksgiving services were held at 8 a. m. today in the First Methodist church here. Rev. W. Russell Coatsney, pastor of the First Christian church will deliver the sermon.

Members of the Ministerial alliance agreed to observe November 21, the day set aside as Thanksgiving in the proclamation of President Roosevelt and of Governor W. Lee O'Daniel.

Hundreds of little paper mills in China, India, Japan and other oriental countries still manufacture paper by hand methods. A cake will not sink during baking if a pint of water is placed in a vessel at the back of the oven. Milk kept in a roomy, shallow basin will keep sweet longer than if put in a jug. "Now remember, Doctor—don't spend the evening asking people 'How's that leg of yours coming along?' or 'Doing anything for that cough?'"

TEX'S TOPICS

By DeWesse

THERE'S something fascinating about a cold, dismal, half rainy, half sleepy day. . . . Or had you already noticed it? Those of you who like the mountains probably could picture a lazy afternoon on a day like yesterday just loitering around a snowed-in cabin. . . . Cracking in the fireplace, plenty of provisions in the larder, lots of good reading material, a radio to keep in touch with Hitler, and anything else that your individual taste might elect to go with a picture like that.

This is official Thanksgiving Day in Texas and some 32 other states throughout the nation. . . . However, Pampa has decided to hold off on the observance of Thanksgiving until next Thursday which is the date of the annual Pampa-Amarillo football game. . . . Personally, we shall always observe Thanksgiving Day on the day that Thanksgiving is observed because it falls either on or around our birthday which makes a double holiday at least. . . . But, this year several very important things will happen during this week in which some of our birthday and the Thanksgiving holiday. . . . And, that reminds us that there are only 28 more shopping days until Christmas.

IN HIS book, "Flying Over Ethiopia," Vittorio Mussolini, describing a bombing plane action against a cavalry unit, writes: "We arrived upon them unobserved and immediately dropped our explosives. One group of horses fell, giving me the impression of a budding rose unfolding as the bomb fell in their midst and blew them up. It was exceptionally good fun. . . . Nice people, these so-called leaders in our civilized nations of the earth. . . . Wes Izzard, Amarillo radio newscaster, who spoke at the Jaycee luncheon here Tuesday, said he has been broadcasting the news for many years now, but it marks the first time he could sit in the presence of another newscaster at work. . . . Mr. Izzard was forced to listen as we put on our regular Tuesday noon newscast from the Jaycee meet.

That rain J. W. Wells, over at White Deer, was wishing for the other day really came just as he ordered it. . . . Ranchers and farmers say it was just the "ticket." . . . The month of the one of the two midges riding down the street on their little tricycles, but don't ask us to tell it to you. . . . A group of Pampa Kiwanians, headed by Fred Thompson, governor-elect of the Texas-Oklahoma district, will go to Stinnett tonight to attend the presentation of the charter to a new Kiwanis club there. . . . The group will leave the city hall at 6 o'clock.

Mrs. T. D. Hobart reports that the El Progresso, Pampa's oldest literary club, has as its project the very worthy movement of collecting books and magazines for the library at Pampa negro school. . . . If you wish to contribute to this library you can send your books to Mrs. Ethel Todd, city librarian, or you magazines to Mrs. S. L. Lewis, phone 456.

A good definition of charm is when a lady appears to be listening to your discussion of international affairs and all the time she is thinking about her winter wardrobe. . . . Where's Elmer?

Let us pay more attention to what government aid may do us as well as what it may do for us. —CLARK L. BRODY, Michigan Farm bureau official.

Profits will necessarily have to become secondary and national security first. —Navy Secretary KNOX.

A scientific tax law would place all death taxes in a sinking fund . . . applied annually in its entirety against the retirement of the national debt. —HENRY H. HEIMANN, executive manager, National Association of Credit Men.

It is up to the people to decide the future course of the new soldiers of the line. The midlands have yet to withstand this test.

Of course, people will think I am a liar and a fool, but I don't care about making any money from this picture (Fantasia). —WALT DISNEY, movie producer.

The War Today

By FRED VANDERSCHMIDT

It is not coincidence that Ernest Bevin, the man to whom workaday England looks with trust and hope, chose to outline the British government's war aim of social security on the very day that Coventry buried its bomb dead in a long and ugly cash in the earth and when the other cities of the midlands searched for new dead in the bomb-made rubble.

"Things can never be as they were. . . . The old age has passed," said the minister of labor, bluntly. This man of toil was talking to the midlands, sending to countless bleak little workers' villas a message of hope in a black hour for faith and morale. Not after the war, but now, he said, the nation's whole economic life must be devoted to the goal of security for "the community as a whole."

The midlands is the fortress of England, not merely the fortress of her industry, but the staunch heart of the nation's spirit. Here is the Merrie England of old: All the way from Banbury Cross to Nottingham, this land of the Domesday book, of civil war, of weavers and dyers, of "Coventry blue," of piping hot buns and cool, brown ale and the stories of Mother Goose. . . . Here, also, is grim and grinding poverty and vast industrial wealth, the dole and the lord lieutenant.

It is amazing that the Germans have not descended with all their force on these towns before, but instead have bent with their air-borne rage at London. There are more vital military objectives to the square foot in Birmingham or even Coventry than there are to the square mile in London. These towns do not have the defenses of London. Here there are no deep shelters. The government said they would cost too much and take too much time to build.

The midlands cities are crowded, compact; the midlands worker lives close to his father. There are 12,000 acres in the city of Coventry, and some 200,000 people live there, or did live there. There are 51,147 acres for the million souls of Birmingham to share amongst them. . . . There are two explanations for the belated German attack on the midlands and the vicious siege of London: One, that Britain made its greatest city a successful lure; second, that Hitler wanted to save England's industries, the nation's greatest prize, for himself, so long as his chances of invasion seemed successful. The second carries the most logic.

London's morale has not cracked. The people there are now soldiers of the line. The midlands have yet to withstand this test.

College girls of today are very well balanced emotionally and socially, but English grammar is something they don't seem to have been concerned with. —M. P. NELSON, the Career Institute.

Let us pay more attention to what government aid may do us as well as what it may do for us. —CLARK L. BRODY, Michigan Farm bureau official.

Profits will necessarily have to become secondary and national security first. —Navy Secretary KNOX.

Aggies Will Play In Cotton Bowl If Not In Rose Bowl

By FELIX R. McKNIGHT
 DALLAS, Tex., Nov. 21. (AP)—Not a sound has come out of Cotton Bowl officials, but some pretty frenzied work is going on underneath as regards contacting some of the nation's biggest teams for a possible appearance in the Dallas classic on New Year's day.

On the basis that the Texas Aggies are not in the Rose Bowl by quite a good bit of yardage, the Cotton Bowlers are still courting the Aggies and have been reasonably assured they will play here if not in the Rose Bowl. Otherwise, it will probably be the conference runner-up vs. one of the following:

Boston College, Tennessee, Fordham (and there's a sleeper), Alabama, Nebraska, Mississippi, Georgetown, possibly Texas Tech, Mississippi State, Santa Clara.

Limber-legged Bill Henderson, the Texas Aggie sophomore end sensation who bagged eight passes in a row for 117 yards against Rice, now has picked up 325 yards on aerials to lead his closest competitor, Healey of Arkansas, by 104 yards.

Quiet Jess Neely, speaking of the forthcoming TCU game, said: "I hope they don't have a Bill Henderson. He is the best pass receiver I have ever seen in football."

Today's guest stars: Al Reese, Galveston News: "When Ted Weems, the blue-clad back, left the Aggie game the Owls did worse than no good. They should have called him from the bench with: Little Boy Blue, Come blow your horn, Kimbrough's on my tummy, Robnett's on my corn."

Pam Hall, Fort Worth Star-Telegram: "What we'd like to see would be a game between the current Aggies and that 1938 TCU team. They'd need a 10-acre field and the turf would have to be nailed down."

Dim Freeman, Houston Chronicle: "Several persons have asked me what happened to Rice against the Aggies. Well, in the first place the Texas Aggies happened to them."

Off the notious counter: Coach Mack Saxon of Texas Mines sneaked away from football the other day at El Paso and shot a hole-in-one on a round of golf. . . Fifteen

Cornell May Come Back

By HARRY GRAYSON
 NEA Service Sports Editor

Stepped in football lore of generations are America's traditional football classics bringing another great season to a close on most college fronts, Nov. 23.

Cornell, surfeited with success, bogged down a little against a surprising Dartmouth array, but Carl Snavely's efficient and well-drilled seniors should snap out of it against Pennsylvania, and illustrious varsity careers with a smashing victory.

Yale made a remarkable stand against Princeton, but Harvard appears 10 points stronger.

A further aerial bombardment, this time by an expert—Dave Allerdice—figures to tumble Army to another defeat at Princeton.

Dartmouth, having found the spark, has a fine chance of spilling Brown.

Penn State and Lafayette should maintain their unbeaten strings against Pittsburgh and Lehigh, respectively, the Leopards with no trouble at all.

Columbia has the goods with which to edge Colgate. Georgetown will bounce back with considerable spare in its match with George Washington. Manhattan seems to be a couple of touchdowns better than Holy Cross, and Duquesne holds the same advantage over Villanova.

Charley Maar will be constant threat to Michigan when Ohio State gets within place-kicking range. John Hallabrin holds ball.

Special To The NEWS
 SHAMROCK, Nov. 21.—The district 3-A football race was thrown into a mad scramble as results of Friday night's games.

In conference play Shamrock's floundering Irishmen went down before the onslaught of an inspired Wheeler Mustang team 7 to 6. Clarendon came from behind to outscore McLean's Tigers 18 to 13. LeFors showed a surprising reversal of fortune to turn back the Wellington Skyrockets 28 to 13.

These surprising upsets of the league leading McLean and Shamrock teams has thrown the district championship race into a muddle of many possibilities. Clarendon, which has finished its conference play, is assured of a tie for the district crown. McLean who has heretofore been undefeated, could tie with Clarendon by defeating the Shamrock Irishmen on Friday. On the other hand if the Irish could defeat McLean they could be tied for the crown with Clarendon. If, however, the Tigers and Irish should play a tie game, the crown would go to the Clarendon Broncs.

So, the district breathlessly awaits the results from the McLean-Shamrock game which will be played under the lights of Denver field in Shamrock on Friday.

Conference standing of teams to date:

Team	W.	L.	T.	Pct.
Clarendon	6	1	0	.857
McLean	5	1	0	.833
Shamrock	5	1	0	.833
LeFors	3	3	1	.500
Wheeler	2	4	0	.429
Wellington	2	4	1	.333
Memphis	1	4	2	.200
Lakeview	0	7	0	.000

CARDS WORTHY BOWLERS IF THEY DEFEAT BEARS

There is no sense in voting against the from-rags-to-riches Stanford now—in the Big Game... the gorgeous spectacle that is the Cardinals' meeting with California.

The Golden Bears have come on like Stagehand in the stretch, however, and if Clark Shaughnessy's amazing young men get over this one, they will indeed be worthy representatives of the golden slope in the Pasadena Rose Bowl, Jan. 1.

A splendid Washington squad appears too well balanced for U. C. L. A. Washington State has its hands full at Gonzaga.

With Bill deCorrevont pitching, Red Hahnstein running and Alf Bauman playing plenty of tackle, Northwestern is due for a break, and has a grand opportunity of dealing Notre Dame another reverse. It's Marquette at Detroit, largely because the Titans will be lucky to get back from Spokane in time to keep the appointment.

Ohio State could save a disastrous season by repelling Michigan, but Tom Harmon, Forest Evashevski and other brilliant Wolverines are not the kind to bow out with a defeat.

Illinois is another team that could make up for a lot of lost time, but Bill Green, Bill Gallagher and some more Iowans suddenly found the range at Notre Dame.

Purdue should keep the Old Oaken Bucket in another low-scoring affair with Indiana.

There will be stern and improvised resistance, but Minnesota will continue its unbridled march at Wisconsin.

Merle Hapes and Junie Hovious, the Touchdown Twins, easily could burn will find Boston College too rough, and Temple travels a long way to make the same discovery at Oklahoma.

Iowa State usually stirs up plenty of headaches for Nebraska, but the Cornhuskers should prevail.

In the Rocky Mountain area, Colorado State gets a shaky vote over Brigham Young, and Utah has a tremendous bulge on Wyoming.

But, by this time, all hands have learned to steer clear of football pools.

Four District Champions Due To Emerge Today

McLean And Shamrock Play Crucial Game Friday Night

Special To The NEWS
 SHAMROCK, Nov. 21.—The eyes of district 3-A will be turned to Shamrock on Friday night, Nov. 22, when the Shamrock Irishmen play host to the McLean Tigers in their annual grid battle.

While there is always a great rivalry between the two teams, this year's encounter bears unusual interest because of the bearing the results of the game may have on the district championship.

Both McLean and Shamrock have one loss in conference play this season. McLean dropped a hard-fought game to Clarendon last Friday night 19 to 13, while the Irish were losing a tough one to the Wheeler Mustangs 7 to 6. Clarendon also has one loss which was administered by the Shamrock lads in a last minute touchdown from an intercepted pass earlier in the season.

In this important affair the district champion may be decided. With three teams in the district having one defeat each and Clarendon having finished its schedule, Friday night's game is certain to produce a tie in the district unless the Irish and Tigers should play to a draw, which would give Clarendon a clear title to the district flag. The only other alternative is that the winner of Friday night's game will be in a tie with the Broncs.

The McLean team is rated stronger than the Irish with a strong line and two outstanding backs, John Kelly Lee, senior back, has accounted for at least one touchdown run in each of the last six games and is a constant threat. Braxton, line punting fullback for the Tigers, has made steady gains in ever game of the season and has been a power on the defense.

The Irish boast no star in their lineup and have won five conference games to date on deception and team work, but by much smaller scores than the Tigers. Comparative scores indicate that McLean should take the game by at least seven points and tie with Clarendon for the district winner.

The calendar was considered set aside for the college schedule makers. For several years, however, the trend has been toward sticking to Saturdays exclusively, and the confusion over the celebration of Thanksgiving the last two years has just about cooked the day's goose as well as the turkey, so far as football is concerned.

As a result, the only game in the east today involving a major team will be Fordham's tracas with Arkansas at the local Polo Grounds. This might have been attractive entree on the holiday menu when it was scheduled, but the Rams are once-beaten and the Razorbacks have won only two out of seven engagements.

Fans in the Baltimore area will be entertained, presumably, by the battle of a strong little eleven from Rutgers and the staggering Terrapins of the University of Maryland.

In the south Virginia Military and Virginia Tech will keep their annual gridiron date while the University of Richmond Spiders engage William and Mary.

The headliner for the rest of the country will be the annual struggle between Kansas and Missouri.

Undefeated Texas Tech and St. Louis university come to grips in another leading mid-western dispute.

(By The Associated Press)
 Four district champions are expected to emerge today from a round of 27 games starting off the most crucial week-end of Texas school-boy football.

The winner of the Amarillo-Lubbock tilt will be acclaimed as the champion of district 1 although both teams still have conference games on the schedule after today.

It's definitely the showdown in the Fort Worth district where Masonic Home's mighty mites will be aiming at an undefeated, untied and un-

scored on district campaign. The Masons meet once-beaten Poly. Unless Poly stages an upset the title will be determined.

Stephenville has Brownwood standing in the way of an undisputed Oil Belt pennant. The Yellow Jackets need only a tie with Brownwood today to clinch honors.

In district 11, Kilgore plays at Tyler. A tie would eliminate Tyler from the race and throw Kilgore into a deadlock for the top with Longview, should the latter defeat Marshall. Victory for Kilgore would give the Bulldogs the championship.

One finalist in the district 16 campaign will be decided. Corpus Christi's young and speedy Buccaciers meet Robstown's veterans for the north zone title today. Harlingen plays Brownsville for the south zone crown tomorrow. Brownsville must win to gain a tie for the top.

Fourteen games are scheduled in the state tomorrow with three Saturday.

One game was played last night, Nacogdoches beating Henderson 14-12 in district 12. The game meant nothing in the title race.

The Clevelander said today, "This time I'm going to battle for the people—especially the underprivileged and the youngsters."

Kilbane won his boxing title in 1912 from Abe Attell and lost it to Eugene Criqui in 1923. He has spent most of the ensuing years in physical education work.

Groom And Divide Teams To Play At Clarendon

Special To The NEWS
 GROOM, Nov. 21.—Elated over winning their district championship game with Booker by the decisive score of 47-14, the Groom Tigers during practice Monday discovered they had a game with Divide, Texas.

This game is to be played in Clarendon on Saturday afternoon, Nov. 23. This game should hold particular interest to football fans of surrounding towns who wish to see some hard tackling, stunning blocking, and fancy passing and ball carrying, as either team has not lost a game this season.

Divide High school is located in Nolan county near Sweetwater, and is practically the same size as Groom. Divide, during the last few years, had an outstandingly strong six-man football team. This year they won easily the district 14 title and over-ran all opposition by the total score of 246 points to their opponents' 26. They are sure to be one of the best six-man teams in Texas, and the Tigers are wanting to meet them on equal footing Saturday.

The Tigers report only one injury from the hard fought game against Booker and that is their quarterback, Kenneth Black, who may get to see part of the game from the sidelines because of an injured shoulder.

Crowds Will Say Farewell To Christman

By HAROLD CLAASSEN
 COLUMBIA, Mo., Nov. 21 (AP)—Tradition has pulled crowds to the Kansas-Missouri football games for 46 years. Today the expected 20,000 spectators at their forty-ninth meeting will be there saying farewell to a tow-headed kid, Paul Christman, the Tigers' laughing boy.

Even the forecasts of near-freezing temperatures and murky skies won't keep them away.

Christman, just in case you aren't abreast of your gridironology, is the young man who has gained approximately two and a quarter miles of ground while in control of a football for a trio of Missouri teams on 26 different fall afternoons.

Mr. Christman will go down in Big Six history for the 413 passes he has thrown up to today, for the 189 that reached their mark and for the 3,822 yards he gained by both running and passing.

But he also will be remembered as the young man who came to college—first to Purdue and then to Missouri—with the somewhat original idea that football could be played for fun as well as keeps.

That's the reason for his "Verily, I stinketh" while reclining on that portion of his body midway between head and heels in the 19 to 9 shellacking by Ohio State last season. One glance at the mirror convinced him his slightly pugged nose wasn't a bit sinister and that he couldn't qualify as the boo-boo type of player.

Since then he's laughed his way through despite an inward nervousness that makes it impossible to eat on the day of a game and sends him to church for an hour's meditation before each kickoff.

The pass-master's farewell closes one of the brightest periods in Missouri football history. Nineteen of those 26 games were triumphs. Missouri won its first Big Six title last year, and made its first appearance in a bowl.

When green goggles are placed over their eyes, chameleons turn green.

tackle, who scouted Long Island... Best line of the week was banged out by the fellow who called Clark Shaughnessy a "refugee from a string of Chicago goose-eggs."

Sports Roundup

By EDDIE BRIETZ
 CINCINNATI, Nov. 21 (AP)—The gossips say Carl Snavely is shopping—which may or may not be in line with that rumored Cornell de-emphasizing program... Five clubs are bidding for Eddie Miller, star shortstop of the Boston Bees... Here's a tip: When Minnesota plays Wisconsin Saturday, the spot will be ripe for an upset if there ever was one... Those who ought to know say the Texas Aggies haven't been unwrapped this season. The smart guys out here don't figure Kentucky will beat Tennessee but they do think it will be a dog fight, like North Carolina and Duke, for instance... Georgetown has given up hope of getting a bowl bid and will settle for a post-season game with St. Mary's in San Francisco.

Monday AM Quarterbacks
 Looks like the boys around the drug store finally won a game on Monday—the one Cornell gave back to the Indians.

Tom Stidham, Oklahoma U's smart coach, says Harold Lahar, 214-pound guard and ace downfield blocker, is the best pro football prospect he ever coached.

The Cocktail Hour
 The Celtics college griders were so pleased with their victory over Long Island U. they bought a pipe for Tuppy Kosmick, former Cornell

On the average, motorists in New South Wales, Australia, run their cars for about 10 years.

ELECTION NOTICE
TO ALL QUALIFIED VOTERS OF THE CITY OF PAMPA, GRAY COUNTY, TEXAS:

Whereas, on the 17th day of September, 1940, the City Commission of the City of Pampa, Gray County, Texas, duly passed its ordinance No. 207, by virtue of which, subject to the obligations, terms and provisions thereof and for various considerations, there was granted to the Southwestern Public Service Company a franchise to use the streets and alleys of said City for the transportation and sale of electrical energy to the citizens of said City and others;

Whereas, a written petition was filed with the said City Commission, requesting said City to call an election for the purpose of allowing the qualified voters of said City to determine whether or not such franchise should be granted; and

Whereas, the said City Commission on November 12th, 1940, as requested in said petition, ordered a special election to be held within the hours prescribed by law on December 4, 1940, at the City Hall in said City to determine whether or not such franchise should be granted to said Southwestern Public Service Company; and that the Mayor of said City should give notice thereof as required by law.

Now, Therefore, Notice is Hereby Given that an election will be held in the City Hall of the City of Pampa on December 4, 1940; that the polls will be open at 8 a. m. and close at 7 p. m.; that such election will be held to determine whether or not such franchise shall be granted to said Southwestern Public Service Company; that at such election all qualified voters of said City shall be entitled to vote. Those desiring to vote for the granting of such franchise shall vote on the ballots provided for that purpose.

"FOR THE GRANTING OF A FRANCHISE" and those desiring to vote against the granting of such franchise shall vote "AGAINST THE GRANTING OF A FRANCHISE" on such ballots.

If a majority of those voting at such election shall vote in favor of granting a franchise, then such franchise shall take effect in accordance with its terms, but otherwise if there be no such majority.

In Testimony whereof, witness my hand and the seal of said City, this 13th day of November, 1940.

FRED THOMPSON, Mayor.

(November 13, 1940.)

Phillips And Hereford To Play Dec. 6

Special To The News

PHILLIPS, Nov. 21—The Phillips Blackhawks closed their brilliant football season with a spectacular, though predictable, win over the White Deer Bucks Friday afternoon in the Hawks stadium and will meet Hereford in a bi-district game.

The Phillips boys beat their opponents 21-0, clinching the district 2-A championship decisively. The season's record for the Blackhawks is nine wins out of nine games.

The next step on the football ladder will be regional playoffs. Phillips will meet Hereford, the district 1-A champion, at Phillips December 6. The time and place for the bi-district championship class A football game, was decided Friday evening in Amarillo, with representatives of both contenders present.

Superintendent Bob Vaughn and Coach "Chesty" Walker were the Phillips representatives and Superintendent Knox Elnard and Coach Max Best from Hereford.

Highlights in Friday afternoon's Blackhawks victory over the White Deer touch-down plays: a pass from R. L. Cooper to "Manny" Jackson for the first score; a 23-yard run by Cooper in the fourth quarter for the second touch-down; and a plunge through center by Cooper. He cut the third and last score, Jim Braden, left end, converted the three extra points to make the total of 21 points.

Even without the points to prove the Phillips boys won the game through statistics, Phillips had 15 first downs to White Deer's 6, and gained 220 yards on the ground to the Bucks' 107 yards.

For some comparable information concerning Hereford and Phillips, it is interesting to note that both teams played White Deer. Hereford lost only one game during the season and that was a one-point loss to White Deer in the Panhandle area current season. This fact, however, doesn't count for much in the present set-up for Hereford as it improved considerably during the latter part of their schedule.

Phillips' victory over the Bucks is expected to be present for the afternoon game. A special train is to be run up from Hereford for this bi-district game, and many people from other parts of the Panhandle are expected to be present for the afternoon game.

Coach "Chesty" Walker, the Phillips mentor, has given his boys a week off from practice and scrimmaging to relax and enjoy the coming battle. The Phillips boys have come through their tough schedule with practically no injuries. R. L. Cooper has a bad knee, but is expected to be ready to play at the middle of the season.

As a queer quirk of fate, one of the Blackhawks varsity boys was injured painfully Friday on his way from the playing field to the dressing room. He cut his leg on a piece of wire, sustaining an injury which will probably keep him on the bench during the championship play-offs.

A round of social activities will be the reward for the boys on the football team. Such activities, naturally, will not be begun until after all football has been taken care of. One banquet will be given the Hawks and their coaches prior to their forth-coming engagement, however, is expected to be present for the afternoon game.

Clark Griffith of Washington, Joe Cronin of the Boston Red Sox, Cy Slapnicka of Cleveland, and Bill De Witt of the St. Louis Browns.

"Griff will be called up regularly to see if he could make a trade," Zeller said. "So did Cronin and Slapnicka. We talked frequently with St. Louis and once in a while with Chicago.

"Even if we didn't get to first base on a deal—and usually we didn't—it was nice to hear from these fellows. It helped us to keep up with what was going on in the rest of the league."

Debunked
Contrary to popular belief, March 17th is the anniversary of the day on which St. Patrick is supposed to have died, not the anniversary of his birth.

More than 14,000 teeth have been counted in the month of a normal snail, according to claims of a British dentist.

The increasingly rapid gain in the number of starlings is the most serious threat to bird life in North America.

General Manager Zeller Lonesome For Phone Calls
DETROIT, Nov. 21 (AP)—Some of the zest is gone from life in the front office of the Detroit Tigers.

A good many weeks have passed since the Tigers won the American league championship, then bowed to the Cincinnati Reds in the World Series, and General Manager Jack Zeller is lonesome.

The American league ruling forbidding the champion from trading with other clubs in the league has topped off a lot of Zeller's fun.

"Why," he said, "I haven't even had a chance to give a rumor since we won the pennant."

Zeller's voice seemed sad. He said he missed the telephone calls from

THE 1940 GORILLA SQUAD

The high school Gorilla football squad, pictured above, will be honored with a banquet in the high school cafeteria tomorrow night.

The banquet will be served by their mothers. The Gorillas this year had six wins against two losses but one of the losses was nullified when the team they played declared itself ineligible because of one player who failed to meet the league requirements.

The Gorillas as pictured above are: Top row, left to right: Herbert Maynard, assistant coach, Reginald Bridges, LeRoy Thomas, Bobby Edson, Frank Shotwell, Dempsey Davis, Harry Abbott, L. J. Halter, Gene Winget, Jack Lane, Royce Bailey, Aubrey Pollock, Coach Oscar Hinger, Jack Waters and Douglas Loveless are not in the picture.

Bottom row, left to right: Billy Olse, manager, Cecil Bradford.

San Francisco Dons To Play At Abilene Saturday

(By The Associated Press)
Two of Texas' three undefeated, "bowling" college football teams see action this week, with both expected to come through.

The other—Texas A. and M., sitting at the Rose Bowl—rests until Nov. 28 when the Aggies battle their traditional rivals, the University of Texas.

Texas Tech, undefeated but once tied, is in St. Louis today to meet the St. Louis university Billikins. St. Louis U. lost to Centenary, a team Tech defeated.

Hardin-Simmons, unbeaten and untied, meets the university of San Francisco Dons at Abilene Saturday. The Dons have lost four games and tied one but they've met such worthies as Stanford, Santa Clara and St. Mary's three coast powers, and the Creighton Bluejays.

Two Texas college conference championships hang in the balance this week-end.

Texas A. and M., one of the toughest of the nation's smaller colleges, plays West Texas State at Canyon Saturday. The Javelinas defeated St. Mary's, the other member of the Alamo Conference, and can win a clear claim to the title with a victory over West Texas State.

A triple-threat for the lead looms in the Texas conference. Howard Payne is certain to finish with the top three, the Yellow Jackets having already finished their schedule with one defeat. Abilene Christian college can clinch a tie for the top with a victory tomorrow over McMurry at Abilene. It is the same for Texas Wesleyan, which plays Daniel Baker at Brownwood Saturday night.

Harmon Ranks Only 8th As Offensive Ace

SEATTLE, Nov. 21 (AP)—A few 1939 football statistical marks have already been gobbled up like today's turkey but it appears that Michigan's Tom Harmon will have to share a yard-eating feast against Ohio State Saturday if he's going to surpass his performance of last year.

American football statistical bureau figures released today show Harmon ranking eighth as a total offensive threat with 1,069 yards, compared to his 1939 total of 1,336 which ranked him second to UCLA's Kenny Washington.

Meanwhile, the irrepressible Johnny Knolls of Creighton had a field day against South Dakota last week-end and took over first place as the nation's total offensive leader with 1,151 yards.

A sophomore, Jimmy Reynolds of Oklahoma A. and M., ranks second to Knolls with 1,125 yards, with his 263 plays establishing him as the country's workhorse.

Bill Sewell of Washington State college continues to lead the nation's forward passers in the number of completions, with 65 bulleyses in 137 attempts.

Paul Christian of Missouri, the "passenger" of the passing leads in yards with 151, and his 964 aerial yards in eight games already passes the 1939 mark of 962 set by Kay Eakin of Arkansas in 10 games.

The leaders also include: Pauling—Owen Price, Texas Tech, idle at 48.15; Jack Jacobs, Oklahoma, hurt after one play against Missouri last week so his average stands at 47.50; Dick McGowan, Auburn, 44.19; Glenn Dobbs, Tulsa, 43.44.

Gorilla Football Team Banquet To Be Friday Night

Members of the Pampa High school Gorilla football squad, their fathers and coaches Oscar Hinger and Herbert Maynard will be guests at a banquet Friday night served by mothers of the boys. The banquet will be served at 7 o'clock in the high school cafeteria.

Bill Olse manager of the team, will be toastmaster. Guests will include Mrs. Hinger, Coach Odu Mitchell and Mrs. Mitchell, Coach J. C. Prejan and Mrs. Prejan, and Stup, and Mrs. L. B. Bower.

The Gorillas have the number one record of all Pampa school football teams with six wins and two losses, but one loss was wiped out when Miami was found ineligible.

Members of the team are Captain L. J. Halter, Co-Captain Royce Bailey, Kenneth Rad, Frank Shotwell, LeRoy Thomas, Bobby Edson, Bill Abernathy, Joe Bob Zimmerman, Jack Lane, Gene Winget, Bill Grooman, Richard Stephens, J. D. Sackett, Dempsey Davis, Cecil Bradford, Reginald Bridges, Douglas Loveless, Harry Abbott, Dan Barnard, Harold Henson, Jack Waters.

The dry spell of 1939 exceeded in duration and aridity any ever recorded in 95 years of U. S. Weather bureau records.

SERIAL STORY DUDE COLLEGE BY OREN ARNOLD

YESTERDAY, Andre... town of Pueblo and its college, and eight miles to one side she could spot her father's new ranch. She shifted her direction, still roaring, gunned her ship downward, and edged off just enough to land easily on the broad mesa...

What happened, Miss Ronica? he demanded. "The ship's fine, Barton. But where's daddy?" "In the porch hammock. He's still saddle sore."

At the Tanks he strapped a rifle and holster on his saddle, filled his pistol cartridge belt, and again bade Ronnie goodbye. "If I'm not back by nightfall, said he, 'you take the car and go home, then send a man back to help me.'"

32 States Of Nation Eating Turkey Today

(By The Associated Press)

Under roofs unmenaged by bombers and at dinners prepared without ration cards, Americans in 32 states today returned fervent thanks for a nation at peace.

The rest of the nation will celebrate Thanksgiving a week from today, but regardless of date both observances have the traditional spirit of the day in common.

President Roosevelt, like millions of other citizens, fell in with the mellowed custom of a family holiday—church services, a quiet home dinner, and hours of friendly talk.

Mr. and Mrs. Roosevelt visited at Hyde Park, N. Y., with the President's mother, Mrs. Sara Delano Roosevelt.

Churches held special Thanksgiving services for communicants seeking spiritual reassurance in a world at war.

The Atlanta Constitution swept all war news from its front page and devoted the entire space to accounts of holiday festivities and a picture of three small girls kneeling in church services—confident of showers of blessings, fearing no shower of bombs.

Although thanks for peace and freedom were the keynote of the day, they came from a nation looking to its defenses as the pilgrims looked to their ready muskets on the first Thanksgiving.

Planes and tanks moved along on factory assembly lines; ships of a formidable fleet observed the day at sea, and citizen soldiers feasted on turkey in new army mess halls still redolent of fresh sawed lumber.

The 16 states which decided to defer their official Thanksgiving celebrations until next Thursday were Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, Arkansas, Florida, North Carolina, Tennessee, Oklahoma, Kansas, Iowa, South Dakota, Pennsylvania and Nevada.

Favorable weather conditions were expected to result in heavy holiday traffic. Safety directors warned against careless driving on clogged highways.

The holiday got a touch of Pan-American flavor in an announcement from Venezuela that an Inter-American society there would broadcast a Thanksgiving greeting to the United States tonight.

A trans-Atlantic radio hookup was arranged between New York and London to permit three American boy scouts to exchange greetings with English members of the organization.

Defense Courses Open At Groom

Special to The NEWS

GROOM, Nov. 21.—The United States government is offering to Groom, and surrounding rural communities, a program of shop training in connection with the program of national defense. The shop program, including motor work, metal work, woodwork, and electrical work, is open to any youth between the ages of 17 and 24 inclusive.

It is understood that those participating in the program will not place themselves liable to military call any more than others. It is a program to give shop training to more youths that they might be better workers in factories and shops on which our national defense preparation rests.

The immense program, already underway in the north, is being administered through the U. S. office of education. The office of education is administering it through the state directors of vocational agriculture. The program must have at least 65 per cent of its students from the rural areas.

The provisions of the Groom community, through the school, are these: Groom must furnish enough boys of the correct age, perhaps about 15, and a building for the class. The national defense program will furnish an instructor, tools and equipment, supplies used, and certain other approved expenditures.

It seems that Groom's first problem is to determine if there are enough boys wishing this type of work to warrant its introduction. The boys may come from Groom, Jericho, Grandview, Schaffer, Lark, or other surrounding rural areas. It is urged that those interested see Dalton Ford, local school superintendent. If unable to see him, a card showing interest in the work would suffice.

Sooner Solon Pleads For Purge Of 'Isms'

GLADEWATER, Nov. 21. (AP)—

Senator Josh Lee (D-Okla.) in a speech here advocated purging American payrolls of every Communist, Fascist and member of a German-American Bund, declaring "We need not finance these destructive elements."

Speaking at a meeting of parents whose children were attending a vocational guidance conference, the Oklahoma senator last night urged redoubling our present defense program and backed the investigation into alleged subversive activities made by the Dies committee.

Lee said all profits should be taken out of armament and said that aid should be extended to Great Britain regardless of her ability to pay.

"The only language the dictator understands is spoken from the mouths of cannon, with tongues of flame," Lee said. "Let's speak to Hitler and send word by England. Our chance of escaping war is to get ready for Hitler before Hitler gets ready for us."

Tokyo's metropolitan police approve the showing of news reels in subway stations of the city.

Governor May Get Pittman's Seat

Governor E. P. Carville of Nevada, above, is among those prominently mentioned as a possible successor to the late Senator Key Pittman's seat. In the recent election, Senator Pittman had been re-elected for another six-year term.

Wheat Acreage Allotments For 1941 Increase

Wheat acreage allotments for 1941 show an increase over the figures for the past year, according to a survey completed by the Texas Wheat Improvement association.

The organization's chief aim is to improve the quality of wheat raised in Texas where in 1941 there will be approximately 4,233,335 acres.

"Texas farmers have cooperated in the wheat work to the extent of purchasing certified wheat seed," the report stated. "The wheat improvement program in Texas is operating for the purpose of improving the wheat grown from the standpoint of production, marketing, milling and baking qualifications."

All counties in this section of the Panhandle will have more wheat acreage in 1941 than in 1940, according to the report.

The allotted acreage for Gray county in 1941 will be 106,538 acres compared with 103,772 acres in 1940.

County	1940	1941
Carson	168,814	170,890
Donley	11,117	11,229
Hansford	208,399	212,757
Hemphill	26,102	27,067
Fitchinson	63,992	65,247
Lipscomb	114,698	115,582
Ochiltree	241,312	246,156
Roberts	29,955	30,159
Wheeler	14,260	14,260

Farmers Guests Of Rotary Club

Pampa Rotarians entertained farmers as their guests on the club's annual rural-urban program held at noon yesterday.

Attendance at the luncheon was 88. In charge of the program was Cal Farley of Amarillo.

Miss Vesta O'Dell, the sweetheart of the Amarillo club, was introduced as a pianist with a perfect pitch. She played two piano solos.

With Miss Jean Farley, daughter of Cal Farley, and Marilyn Cornelius, Miss O'Dell formed a vocal trio. Maverick club member, Bobby Davis, performed a tap dance, and another Maverick member, Joe (Joe E. Brown) Sharp, gave a monologue. A former Pampa, Cecil (Stutter-in') Sam Hunter, performed a comic stunt, as "Count Molotoff," organizing Rotary clubs. Hitler and Mussolini were among characters impersonated.

All appearing on the program were of Amarillo. Introduced to the club were the 50 farmers present.

Visitors were John Hill and A. A. Meredith, director of WPA district 16, both of Amarillo, and Harlan Herrick of Wichita, Kas., all visiting Rotarians; T. D. Lively of Birmingham, Ala., a brother of Travis Lively of Pampa; Lynn Blackwell, County Judge Sherman White, and District Attorney Clifford Braly, all of Pampa.

CIO Convention To Vote On Dictators

ATLANTIC CITY, N. J., Nov. 21. (AP)—

A declaration against the philosophy of Communism, Nazism and Fascism was reported drafted and ready for a vote in the CIO convention today.

For a week there has been open agitation for CIO action on such a policy and for a showdown between so-called left and right wing groups. Proposals calling for the adoption of this policy have been under consideration in the resolutions committee since CIO members gathered here in their third convention to determine policies they would follow after John L. Lewis retires from CIO's presidency.

The Amalgamated Clothing Workers' Union headed by Sidney Hillman, labor member of the national defense commission, played a leading part in the drive, supporting a resolution to condemn Communism, Fascism and Nazism, and also a proposal to put into CIO's constitution an amendment which would make members of any of the three Isms ineligible to hold paid jobs in CIO offices.

The Communist issue has been described by well-informed labor men as one of the problems involved in the consideration of Philip Murray as Lewis' successor in the CIO presidency.

Publisher Due For 'Great Awakening,' Says Attorney

By JAMES MARLOW

NEW ORLEANS, Nov. 21. (AP)—A New Deal spokesman addressing the American Federation of Labor convention here said today the result of the last general election gave American publishers their "greatest shocks," and added some publishers are due for a "great awakening."

Sol A. Rosenblatt, general counsel of the Democratic national committee, told the convention "those publishers who for years have been saying 'the public' and 'the public' are due for a great awakening."

"Freedom of the press must mean something more than the right of the publisher to express any views he happens to hold on any public question, to refuse to publish the utterances of those who seek to controvert him, or to give over his whole publication to the sole purpose of furthering his individual and class interests."

"As has been said," Rosenblatt continued, "that the greatest shock ever experienced by the newspapers of America was to wake up on the morning of Nov. 4, 1936 and discover that they had no influence in the presidential election."

"A greater shock overtook them on Nov. 6, 1940, when the great majority of American people gave their suffrages to President Roosevelt and returned him to the White House to continue his inspiring leadership of the nation. The newspapers this year were twice as solidly united against him as they were in the campaign of 1936."

Emphasizing that a "truly" free press must be supported, Rosenblatt declared "the fact is that with all its faults the American press today is freer than any other in the world."

"In discussing the responsibility of the press I do not mean to suggest that this is the only direction in which Democracy must strengthen itself."

Rosenblatt then suggested a "more modern viewpoint" is needed in the profession of law and that the "weak spots in our democracy" must be sought out and remedied.

The convention, yesterday enthusiastic over President Roosevelt's message urging truce between the AFL and Congress of Industrial Organizations, solemnly pondered the gloomy forecasts of their leaders.

"It has been said," Rosenblatt continued, "that the greatest shock ever experienced by the newspapers of America was to wake up on the morning of Nov. 4, 1936 and discover that they had no influence in the presidential election."

Court Can't Say If County Wet Or Dry

AUSTIN, Nov. 21. (AP)—Item for

historians and liquor dealers: As far as the state court of criminal appeals is concerned, and it's just about the highest authority in this instance, the status of Hockley county as dry or wet is unknown.

Hockley county was once a part of Bexar county. The court records also show it was later attached to Lubbock county which, in May, 1910, held an election and decided to prohibit the sale of intoxicating liquors.

In the case at hand, the state contended the election included Hockley county but the court ruled Lubbock county could hold an election without affecting any territory attached to it for judicial purposes.

"There is no proof by which we may know whether the citizens of Hockley county participated in the election," the court said, adding "we express no opinion."

Therefore, the tribunal reversed and ordered prosecution dismissed in the case of Norman Green, convicted of unlawfully transporting liquor in Hockley county and fined \$100.

Miami To Observe New Thanksgiving

Special to The NEWS

MIAMI, Nov. 21.—A special Thanksgiving service with all the churches in town invited to take part will be conducted at the Baptist church this evening at 7:30. The Rev. H. T. Sullivan, pastor of the Line Avenue Baptist church, Amarillo, will have charge of the service.

The local church has been without a pastor since the resignation of H. B. Cornillion a month ago. A unanimous call has been extended to Rev. Sullivan to accept the Miami pastorate.

National guardsmen of the 56th cavalry, hard at mustering into the regular army before going to camp at Fort Bliss, grabbed turkey and the fixings between physical exami-

nations. The boys at Dallas, a good example, were set on to 500 pounds of turkey, dressing and delicacies in spreads at armories. In regular camps the army set its traditional good holiday table.

The governor's office stuck to Nov. 21, but the agriculture and secretary of state's department planned to take both holidays. The comptroller's department shut down today and arranged half-holiday on the 28th. Federal workers stayed with the President.

University of Texas students called it "Franksgiving." They started a three-day holiday; will have no classes Nov. 28, but will go back to work after the football game. Their football team didn't stop work for the holidays.

State Democratic Chairman E. B. German's gun was unnotched but he could eat venison for Thanksgiving if he had a mind to.

The rancher on whose place German hunted gave him a deer, and just as last year, when he missed his buck, Mrs. German shot one down.

Turkey with some of the trimmings, none spicy, was in store for those footballers not performing. The Southern Methodist Mustangs shifted their workout to the morning to be ready for their noon feed.

Thanksgiving Observed By Many Texans

By W. POTTS BOSWELL

Associated Press Staff

The second Thanksgiving, new style, found a hangover from tradition still plaguing some Texans but a lot of turkey meat moving down thousands of eager gullets in military training camps and induction centers was a counterbalance.

Some state employes at Austin had a "please don't mention it" look. They got today's holiday, all right, but have to work when the University of Texas and Texas A. and M. play football Nov. 28.

Some folks had a right to be blue. Take Claud Simpson of Dallas, all hepped up with visions of roast turkey and fried chicken. Somebody stole his turkey and chicken Thanksgiving eve from his back porch ice box.

And Hugo E. Glenwelve of Fredericksburg, wounded when he instead of the turkey was shot on a hunting trip. He spent his Thanksgiving in bed.

But thousands of school kids on holiday were happy, unbothered by tradition, and there were countless charitable remembrances which made the day happy for many of the underprivileged.
