# RUSSIA SHOWS NEW FORCE IN MAY DAY PARADE

## Lindbergh Accused In British House

LONDON, May 1 (AP)—R. A. Butler, undersecretary of foreign affairs, answered "yes" in the house of commons today to a member who asked him whether Charles A. Lindbergh had not "consistently" always used his influence to prevent effective action against Germany.

His questioner was Conservative Member S. V. T. Adams.

The brief discussion involving Lindbergh brought a statement from Butler that the American flier's views on the strength of the Soviet Union about the time of the Munich pact in September, 1938, were considered of "no undue significance" by the British government.

The house cheered this declaration.

Butler refused to answer Laborite Ellis Smith's query whether Lindbergh had used his influence "along with a well-known lady member of this house."

Also responding to a question, Butler said records showed that Lindbergh's views were available for the government's consideration.

Asked, however, whether Lindbergh ever had been interviewed by the foreign office, the undersecretary answered, "not as far as I am aware."

Clement E. Attlee, lord privy seal, who often acts as Prime Minister Churchill's lieutenant on the commons floor, promised the house he would arrange the fullest possible information on the battle of the Atlantic in view of interest in this country and the United States.

## 'Aunt Lizzie,' 110 Years Old, All Set To Get Married

SAPULPA, Okla., May 1 (AP)—If "Aunt Lizzie" Deevers wasn't in bed with influenza, she'd be celebrating her 110th birthday today by walking down a church aisle a bride for the tenth time.

The bright-eyed, witty little Sapulpan, feeling "fresh as a flapper" and itching to be up and about, admitted she was in love again, this time with John Knight, a 77-year-old neighbor.

"I'm just a fast-steppin', giddy girl," she said. "We're going to get married soon as I'm able to get up and cook."

Now that romance has come into her life again, Aunt Lizzie said she needed only three things to make her birthday complete—a monkey, a canary bird, and "a ride in one of them airplanes."

Aunt Lizzie's father was a full-blooded Cherokee Indian. Her mother was Irish and Dutch.

"That's the meanest mixture they is," she commented. "That's why I'm tough. Man, I've been snake bit six times, been bit by a mad dog once, had nine husbands, and I'm still here."

She walked with the Cherokees over the "trail of tears" to Oklahoma and still is mad at palefaces because "they wouldn't let us stop and bury my pore old grandmother," who died on the trail.

She smokes a pipe and uses snuff, but when offered a cigarette she shook her head.

"No, sir, I don't smoke them things, and I don't like to see any woman do that at all. Me, I like snuff and I don't dip it. I eat it."

She lives in a three-room home at the edge of town with her son, Henry Pinkman, who will be eligible for an old age pension in two years. She has heard from her 11 other children in many years.

Mention of the war in Europe makes Aunt Lizzie's eyes blaze.

## Accused Spearman Slayer Will Be Returned To Texas

CHICAGO, May 1 (AP)—Orin J. Brown, 59, was turned over to the Sheriff of Hansford county, Tex., today for the trial there on a charge of slaying Mrs. Leota Frances Murphy of Marion, Ind.

His extradition on a governor's warrant was granted when he failed to file a petition for a writ of habeas corpus within a 24-hour period set by Chief Justice James F. Fardy in criminal court yesterday.

The state's attorney's office said Sheriff H. L. Wilbanks would leave for Texas immediately with the prisoner who denied any connection with the case.

## I Heard . . .

Fire Chief Ben White remarking that his smoke eaters have decided that their chief contribution to clean-up week will be to dig up the fire station lawn in an effort to kill the dandelions, which have "taken over" the soil in excellent condition for working.

Ladies hats properly cleaned and blocked. Call Roberts the Hat Man. (Adv.)

## FIRST DEFENSE BOND SOLD HERE

The first United States Defense Savings Bond sold in Pampa this morning was purchased by Mr. and Mrs. Paul Blankenburg of LeFors. Mr. Blankenburg is shown above receiving the bond from Postmaster C. H. Walker, while Mrs. Blankenburg smilingly looks on. Mr.

## Six Trainees For May Quota Named

Names of the six men from Gray county who will comprise the May 5 quota of trainees were released today by the Gray County Selective Service board.

The men are to report at 4 o'clock Sunday afternoon at 301 Court House, where they will receive final instructions, select a leader and an assistant leader.

Although time was not definitely settled, it was expected the men would leave at 6:45 a. m., Monday, to go to Amarillo. From Amarillo they are to go to the induction station at Fort Bliss.

Pampans in the group are William Alfred Crump, V-1433, a volunteer; Wayne E. Lash, 815; 609 Edgar Lafayette Scoggins; 1019 Smith Jennings Meador, Jr. The other two are both of McLean, Glen Marshall Daugherty, V-1872, a volunteer; and Temple Troy Smith, 993.

## Choir Will Sing Contest Songs Here Tonight

Climaxing a year's hard study, the Pampa capella choir will present its annual concert at 8 o'clock tonight in the high school auditorium.

Ticket sales are good, Miss Helen Martin, director, said this morning, and indications were that sufficient money would be obtained to at least pay for hotel bills and entry fees of the Pampa musicians in the state festival to be held in Waco on May 7.

There are 39 members in the choir. Contest numbers, the songs that the choir will sing at Waco, are featured on the program. For the choir, the numbers are Handel's "Hallelujah Amen," Palestrina's "Adoramus Te," and Cain's "Say Thou Lovest Me."

Miss Lucille Johnson, soloist, will sing the contest song, Del Riego's "Homing."

The Tonettes, girls vocal trio, will sing several popular songs, including "Do I Worry?"

## Morgenthau Drafts Plan To Pay Taxes On Installment

WASHINGTON, May 1 (AP)—Secretary Morgenthau announced today the treasury was "working on a plan" to enable citizens to prepay their taxes under the heavy rates being considered by congress.

He said he could not give details, but generally the treasury was thinking of selling a special kind of security which could be used by taxpayers to pay their taxes instead of paying cash.

"A man expecting to pay \$120 income tax could prepare himself by buying a \$10 security every month of the preceding year. When tax time came around, he would turn over the securities, and avoid the necessity of borrowing money or disturbing his personal budget in order to meet his tax bill."

Morgenthau said defense savings stamps and bonds, which went on sale today, were not adaptable to this purpose, and a different type of security was being studied.

Rep. Dewey (R-Ill) proposed today that individuals be permitted to make advance payments in anticipation of estate taxes and that such payments be deductible from the estate in figuring the final tax.

Dewey, a former assistant treasury secretary under President Coolidge, contended that the government would derive an advantage from the immediate receipt of money and that his proposal also would aid thousands of small business men to protect their businesses from "the shock of sudden tax liability."

## Kreiser's Condition Worse

NEW YORK, May 1 (AP)—The condition of Fritz Kreiser, 66-year-old violinist, who was injured by a truck on Madison Avenue Saturday, was said to be "not so good" in a bulletin issued at Roosevelt hospital at 11:30 a. m. today.

The 7 a. m. bulletin had said his condition was "unchanged" and that he had not yet fully regained consciousness. He suffered a skull fracture and other injuries.

## Wheat In Storage

AUSTIN, May 1 (AP)—Stocks of wheat in Texas interior mills, elevators and warehouses on April 1 were estimated by the agricultural marketing service today at 9,125,000 bushels, by far the largest April 1 stocks since estimates were begun in 1931.

## Father Of Four Sons In Army Buys Bonds

The American way of life is dear to Mr. and Mrs. Paul Blankenburg and their five sons. They firmly believe that democracy must survive and they are doing their bit in two ways. Mr. and Mrs. Blankenburg today purchased the first United States Defense Savings Bonds sold in Pampa and four of the five Blankenburg sons are serving as volunteers in the army and navy. The fifth is too young.

Mr. and Mrs. Blankenburg live at LeFors where he is employed by The Texas company.

Twenty-four years ago Mr. Blankenburg believed democracy must survive. Less than 30 days after President Woodrow Wilson had told America that this nation should enter the war, Mr. Blankenburg took up arms for his country and he didn't lay them down until what he hoped would be permanent peace had been established.

Now there is another crisis, Mr. Blankenburg is too old to serve his country actively but he can do two things and he is doing both well. He is purchasing defense savings bonds and he is serving with the Texas Defense Guard here.

When their sons said they wanted to do their bit, Mr. and Mrs. Blankenburg didn't stand in their way. When they learned that the defense savings bonds were to be placed on sale they took their surplus of cash and bought bonds to help Uncle Sam finance his defense program.

Gayward Evers, an adopted son, was the first of the Blankenburg boys to enlist. He enlisted in September of 1937, served one term and re-enlisted in September of 1940. He is stationed at the 12th air base at Kelly Field, San Antonio, Texas.

William Alvin Blankenburg next decided to enlist and on August 3, 1938, he enlisted in the army. At present he is a master mechanic with the field artillery school at Fort Sill, Lawton, Okla.

Thirteenth son to enlist was Charles Blankenburg who on Sept. 2, 1940, enlisted in the 23rd Infantry. He is at present stationed at Fort Sam Houston, San Antonio.

Last son to enlist was Paul Blankenburg who decided on the navy. He signed on January 30, 1941, and is now a seaman on board the U. S. S. Brooklyn some place in the Pacific ocean.

The fifth son is John Blankenburg who is not old enough to enlist, but who marks the calendar every day until he can join the navy. He is a student in the LeFors Junior High school.

In Big Battles

Mr. Blankenburg was born in Madison, S. D., but moved to Texas with his parents when a very small child, settling in Grayson county. He came to Gray county 28 years ago with an independent telephone company. For the past 13 years he has been with the Texas company, stationed at LeFors.

Mr. Blankenburg enlisted in Amarillo in May 1917 and was assigned to the 6th Infantry at El Paso. He was later transferred to the 54th Infantry at Ft. Oglethorpe, Ga. He went to France with the 54th and served with that company through the famous battles of the Meuse-Argonne, Verdun and other.

See FATHER BUYS, Page 6

## Committee To Push Sale Of Bonds Named

Postmaster C. H. Walker has been named chairman of the Gray County Defense Bond committee and he has called a meeting of committee members for tomorrow morning at 10:30 o'clock in the civil service room in the basement of the postoffice. The committee consists of residents of Pampa, McLean, and LeFors.

Purpose of the committee is to arrange for speakers at club meetings, to arrange educational programs in schools, to distribute posters and literature, to acquaint employes with details of the bond sale plans, etc.

Governor W. Lee O'Daniel has designated the week beginning May 1, Defense Bond and Saving Stamp Week in Texas.

First bond in Pampa was sold to Mr. and Mrs. Paul Blankenburg of LeFors.

The first 25-cent savings stamp was sold to J. G. Sturgeon, Jr.; the first \$1 stamp to Dudley Hallmark and the first \$5 stamp to Harbord "Sonny" Cox.

Up to noon today 25 bonds of various denominations had been purchased here.

Bonds are on sale at the postoffice, the First National bank, and the Citizens Bank and Trust. Stamps are on sale at the postoffice.

Members of the county committee, of which Postmaster Walker is chairman, are E. S. Vicars, L. L. Sone, R. S. McConnell, Mel B. Davis, Walter Rogers, Dan Williams, Reno Stinson, Farris Oden, F. E. Imel, Mrs. E. L. Green, Jr., Mrs. Frank Perry, Mrs. L. L. McCollum, Tex DeWesse, and Carl Benefield, all of Pampa; O. A. Cryer, J. B. Hembre, Johnnie Beck, and C. O. Green, all of McLean; B. J. Diehl, F. E. Bull, and Hank Breining, all of LeFors.

## Alarm Clock Used As Indianan Takes Life

SOUTH BEND, Ind., May 1 (AP)—Coroner T. T. Goraszewski told today how a man found dead in a tourist cabin used an alarm clock as a table and a bottle of chemicals substances to take his life.

The coroner, who identified the man as Dr. Robert Calph, an Elk-hart, Ind., podiatrist, said that when authorities approached the cabin outside nearby Mishawaka yesterday, they found a red-lettered sign in the window reading: "Keep Out. Poison Gas."

After airing the cabin, authorities entered, found the body and that Goraszewski said in this death-dealing arrangement.

"On a table was a bottle of chemical substance and suspended above it was a can containing another poisonous compound. Attached to the can was a string which extended to the key of the alarm clock. When the alarm rang, the key wound the string around it, spilling the compound in the can into the substance in the bottle. Thus, the coroner said, a death-dealing gas was generated."

## Dallas Police Seek Slayer To Lowery Field

DALLAS, May 1 (AP)—Police today were seeking a man who allegedly shot Sam Sarrus, 45, six times as he sat in a downtown cafe. His condition was critical.

Private First Class Horace DeWitt Henry, son of Hattie Heffin of 119 S. Nelson street, has been sent by special order of Lieutenant-Colonel George M. Palmer, post commander of the Air Corps Basic Flying school at San Angelo, to the Army Air Corps Technical school at Lowery Field, Denver, Colo., where he will pursue a course in air corps and technical supply.

P.F.C. Henry won this appointment in an open competitive examination given to all men at this station. Upon completion of his course, P.F.C. Henry will be assigned to a key position in Uncle Sam's rapidly expanding defense program.

## Austin Buys \$30,000 In Defense Bonds In Hour

AUSTIN, May 1 (AP)—Residents of the state capital bought an estimated \$30,000 of defense bonds during the first hour of their sale today.

## Late News

BERLIN, May 1 (AP)—The German news agency, DNE, said the Athens radio today broadcast an order by War Minister Bakos for demobilization of the entire Greek army.

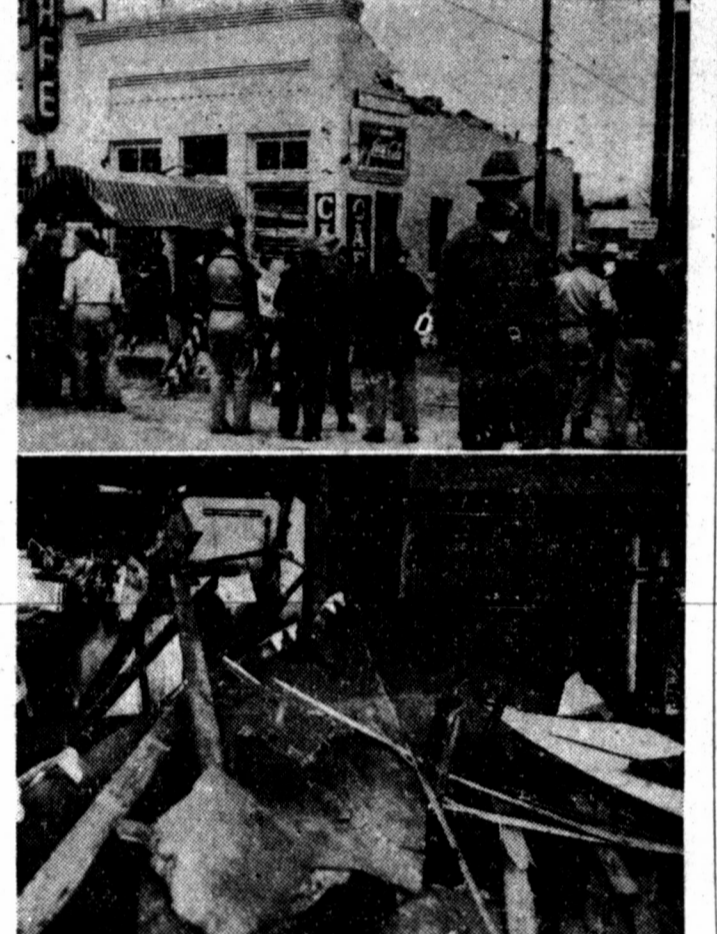

(Apparently Bakos is a member of the new German dominated government for occupied Greece.)

Forecast for Pampa and vicinity: cloudy with showers and thunderstorms this afternoon, tonight, and Friday; not much change in temperature.

## SCENES AT McLEAN EXPLOSION

Gray county's "New London" explosion, minus the loss of life and occurring at a safe instead of a school, made the interior of Hibler's cafe in McLean look like it had been hit by a fire bomb shortly after noon Tuesday. Upper photo shows the crowd gathering outside the cafe after the gas explosion which blew windows and doors into the street, blasted a part of the roof, and hurled the ceiling down and splintered the floor (lower photo). These pictures were made by Ed Weiss, of Pampa, who with Wilbur DePauw, also of Pampa, were in the cafe at the time the explosion occurred. There were 20 persons in all in the place. Eight required medical attention, but none were critically injured.

## Spelling Makes Comeback, Meanies Spelled With Ease In Junior High

Parents who are always complaining that Johnny or Mary "can't spell worth nuthin'" will be interested to learn that the accomplished speller is coming back into his own—at least in Junior high school where an intensive, streamlined course in spelling is taught.

Many of you remember the days, or have heard about them, when the Blue Book speller was the chief book in the book set, and when people's opinion of your education depended solely upon your ability to spell.

Well, over in Junior high they don't have Friday afternoon spelling matches and spell words like bois d' arc and other useless words, but they spell words they use every day. Leonard P. Ayres, noted speller, discovered that people are more inclined to misspell ordinary words one uses every day than the six-bit words.

So Junior high school has learned to spell hundreds of words that most people misspell. This spelling drill took place during an intramural spelling contest, directed by Mrs. John Rankin. Results announced today showed that the seventh grade average was 92.27, the eighth grade, 93.44, and the ninth grade, 97.35. The students in all those grades—more than 750—spelled 100 words selected from a contest list that contains about as many words as the old-time speller. The 100 words were sent to each home room teacher who conducted the contest.

Shipping experts said the transfer of a cargo from one tanker to another is not a difficult operation, such as would be involved in the transfer of general cargo from one vessel to another.

## Postal Receipts For April Show Increase

Pampa's postal receipts for the month of April this year were \$57 more than for the same month last year, Postmaster Walker said today. Receipts last month were \$3,945.80 compared with \$7,988.60 for April of 1940.

Postmaster Walker was well pleased with the increase because April business last year was the best in several years.

## Stark Family Of 10 Biggest To Register Yet In Fiesta Canvass

Thousands of registrations poured into the Pampa News today as school children who took them home yesterday brought them to their parents to fill out and bring them back today. As a result of the new flood of registrations, Texas and Oklahoma are running neck and neck, and believe it or not, Missouri is third in the number of natives from that state living here.

It may be that Oklahoma will overtake Texas because sections of this school district where Oklahoma boys are known to be most numerous have not been heard from.

The largest family to register today is the A. P. Stark family which lives at 427 South Faulkner. There are ten members of this family, one married and one in the army but they all call Pampa their home. Several members of the family were born at Neodesha, Kas., one in Missouri and three in Texas.

Pampans who have not filled out the blank are urged to climb on the band wagon and add their name to the native state registrations. The names and other information will be printed in the special edition for the "Top O' Texas" Fiesta.

The blank positively will not be published in The News longer than another week.

Native states and towns of today's registrants follow:

D. B. Love, Mammoth Cave, Ky. A. P. Stark, Neodesha, Kas. Mrs. A. P. Stark, Elliott, Mo. Andrew R. Stark, Richards, Tex. See STARK FAMILY, Page 6

## Huns Renew Shelling Of Dover Area

British Land More Troops In Iraq To Guard Oil

MOSCOW, May 1 (AP)—The Red army showed mammoth new motorized mechanized forces in its traditional May Day parade today, with tank-borne infantry and masses of motorized artillery filling Red Square.

Two mortars mounted on trucks were among the new machines adapted to modern lightning war.

A warning by Defense Commissar S. K. Timoshenko that Soviet Russia is ready "to offer an annihilating rebuff to any encroachment by imperialists" ushered in a great display of the Red army's might today as the Communist party celebrated May Day in traditional fashion.

Timoshenko's warning was issued in a special order of the day acclaiming Russia's achievements during the past year and emphasizing steps taken to reorganize her armed forces "in the light of experience and modern warfare" at the behest of Joseph Stalin.

He declared that it is the Soviet government's intention to adhere to a peaceful policy, but asserted soberly that "the present international situation is pregnant with all kinds of surprises."

"In these conditions," Timoshenko said, "the Red army must keep its powder dry and be in constant mobilization and preparedness so that no 'accident' and no tricks of foreign enemies can catch us un-awares."

## ON THE ENGLISH SOUTH-EAST COAST, May 1 (AP)—German cannon renewed the shelling of the Dover area tonight.

Shortly after 6 p. m. (noon, E. S. T.) two salvos of four shells each thundered across the Dover strait from the Nazi-occupied French coast.

German long-range guns some 20 miles away across the narrowest neck of the channel pounded this area for seven hours Tuesday, contributing to the theory of some British sources that an invasion attempt may be next on the Nazi military schedule.

The guns roared tonight despite limited visibility and the explosion from each salvo shook the district for miles.

Great Britain landed more troops in the rich Mediterranean oil kingdom of Iraq today, turned the big guns of her fleet on Axis columns in Africa and virtually completed the removal of 48,000 E. E. F. soldiers from the last campaign in Greece.

The London radio said the arrival of a second British contingent in Iraq had provoked German movements on the part of the Iraq army, which might be regarded as a threat to the security of the British air base at Habanya.

"The Iraq administration is being pressed by his majesty's government to move these troops as soon as possible so as to avoid the risk of any incident," the radio said.

Britain has heavy investments in the Iraq oil fields, which might become the target of a Nazi attack to provide fuel for Adolf Hitler's mechanized armies.

The British admiralty announced that the fleet executed a "successful bombardment" of Axis troops and supplies in the Greek campaign, while the British war office declared more than 80 per cent of the 60,000 E. E. F. troops who fought to defend the Aegean kingdom had been rescued by sea.

A communique by the British middle-east command indicated that at least some of the 9,000 remaining men were still being removed from the bullet-spattered beaches of the Grecian Peloponnese. Total E. E. F. casualties were listed at 3,000 killed and wounded.

Australia's acting prime minister, A. W. Fadden, in Melbourne, announced the "colossal" German casualties. He gave no specific figures.

Simultaneously, authoritative quarters in London said a second contingent of British troops had been landed at Basra, Iraq, at the head of the Persian gulf—apparently a move to counter any German threat to Iraq's rich Mosul oil fields.

Other British troops landed there April 17-18.

Informed military circles in London freely predicted that a grand-scale Nazi assault on Egypt and the Suez canal, by the way of French-mandated Syria and Palestine, would break within 10 days.

At the same time, these sources

### Fill Out This Blank For Top O' Texas Folks Fiesta

On June 12, 13 and 14 the only celebration of its kind ever held in America will draw tens of thousands of people to Pampa: It will be the Top O' Texas Folks Fiesta, and that means it will be a celebration for just folks, not just for big shots nor just for the forgotten man, but for all folks. One big attraction of the Fiesta will be the Parade of All States and Nations which will consist of floats representing all states and nations which have natives living in this territory. Each float will be decorated in the dominant color of the state flag, state flower, state motto. The Pampa News and the Junior Chamber of Commerce are making a canvass to determine the native states of the population of this territory. You are invited to fill out this blank regardless of whether or not you plan to attend the Fiesta. Natives of Texas as well as of other states and nations are asked to fill out the blank. Please print your name, address and other information.

### Sweet Cleaner

This, folks, is to get you into the spirit of clean-up-fixup time. Lucille Casey of Newark, N. J., has been chosen "Miss Spring Cleaning" by Home Makers Guild of America.

### Johnson Calls His Dismissal 'Unwise'

WASHINGTON, May 1 (AP)—In the opinion of Hugh S. Johnson, President Roosevelt's action in denying a renewal of his commission as a brigadier general in the reserve corps was "neither very wise nor very consistent with what at least used to be a very close and precious friendship."

### Page Mr. Poe

Air of mystery worthy of Edgar Allan Poe's pen prevails as masked Austrian gives blood in New York for Red Cross national defense blood bank. He said he feared reprisals on relatives still in Austria.

### Hula Honey

Cutest trick of Nassau season is hula-hula by little Lynde Sudduth, who moves Hawaii to the Bahamas, grass skirt and all, 'Tike's from Greenwich, Conn.

### Forest Fires Subdued In 5 Eastern States

(By The Associated Press) Forest fires that struck at five eastern states for the second time within a fortnight were either quelled or virtually under control today (Thursday). New Jersey again suffered the brunt of woodland blazes as more than two dozen fires laid waste to 3,600 acres yesterday. Although the fires were reported in check today, conditions were termed "extremely critical."

### U. S. Patrols In Indian Ocean Hinted

WASHINGTON, May 1 (AP)—The rapidly developing Axis threat to Britain's position astride the strategic Suez Canal caused speculation today in diplomatic quarters on the likelihood of U. S. navy patrol operations in the Indian Ocean along the lanes traveled by shipments of lease lend supplies that may be bound for Egypt via the Gulf of Aden-Red Sea route.

### TEXAS OIL COMPANIES FURNISH PRODUCTION FREE FOR USE OF STUDENTS IN ADULT VOCATIONAL CLASSES CONDUCTED BY THE STATE DEPARTMENT OF EDUCATION. APPROXIMATELY 14,000 TEXANS HAVE TAKEN THESE COURSES TO DATE.

### Haicher Wars On Pampa Prostitutes

A war on Pampa prostitutes has been started by Constable Jess Haicher who declares he is going to run them out of town. He has made four arrests in two days and has just started, he said today. "Three of the women arrested entered pleas of guilty on vagrancy charges. Two paid their fines and were ordered to leave town. The third woman is still in jail. The fourth woman arrested pleaded not guilty and was remanded to jail for trial. "I have had many complaints about women boldly trying to pick up men on the streets," Constable Haicher said, "and the practice is going to stop."

### President Asks Funds To Build Road To Canal

WASHINGTON, May 1 (AP)—President Roosevelt asked congress today to authorize a \$20,000,000 appropriation for construction of an inter-American highway as far as the Panama canal.

Secretary Hull, along with a draft of legislation, proposing that the United States pay two-thirds of the cost of construction of the road through the Central American countries. Among other things, Hull said the highway would be valuable for defense.

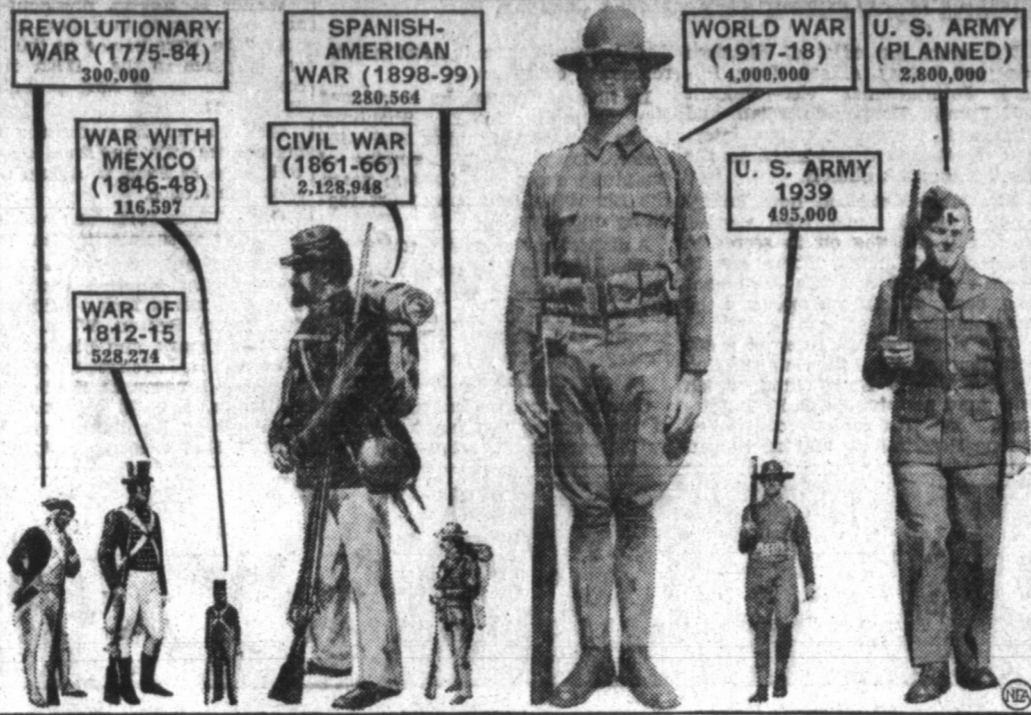

The road already has been completed to a point south of Mexico City, but to reach the canal it must cross the difficult terrain of Central American jungles.

The projected appropriation would "enable the United States," Hull said, "to cooperate with the governments of the American republics situated in Central America, that is with the governments of the republics of Costa Rica, El Salvador, Guatemala, Honduras, Nicaragua, and Panama in the survey and construction of the proposed inter-American highway."

Hull gave six additional reasons, beyond the defense value, why he believed the United States should help finance the highway.

Improved transportation within and between the several countries and the United States.  
Development of new lands and new natural resources.  
Increased employment and maintenance of economic structures.  
Increased tourist traffic.  
Increased market for United States automobiles, parts, and garage equipment.  
Expenditure of the bulk of the appropriation in the United States.

### U. S. Visions Biggest Peacetime Army: 2,800,000 Men

Plans are now under way to increase the strength of the U. S. Army, now passing the million mark, to 2,800,000 men. Pictograph compares the mobilization with strength of the army as it was two years ago and during major wars. Civil War figure is for Union army; the Confederate army numbered between 700,000 and 800,000 men.

### Axis Troops Crack Outer Defenses Of Tobruk, Libyan Port

CAIRO, Egypt, May 1 (AP)—Axis troops penetrated the outer defenses of British-held Tobruk this morning, but "fighting is continuing" at the Libyan port, British headquarters announced.

Its communiqué said the attack was launched last night by infantry striking at the hold-out British garrison inside the Axis lines "in some strength, supported by numerous tanks."

The British have held out under siege at Tobruk for about three weeks despite the Axis re-conquest of Libya. German and Italian units swept beyond, by-passing the strong-hold, and crossed from Libya to Egyptian soil in the region of Salun, 80 miles eastward.

In that time, the British garrison has been under almost constant air attack and has repelled several mechanized thrusts. Nevertheless, it has taken the initiative several times, officers reporting sorties into the Axis lines and the capture of some prisoners.

On the East African front, the headquarters war bulletin said 5,500 Italians and 2,400 Colonial troops as well as 83 guns had been counted so far as seized around British-captured Dessie, Ethiopia.

**Senatorial Race Chief Topic**

WASHINGTON, May 1 (AP)—The Texas senatorial race was the chief topic at a luncheon here yesterday of the Texas congressional delega-

tion. With two members of the delegation, Rep. Martin Dies and Rep. Lyndon Johnson, already seeking the place left vacant by the death of Morris Sheppard, there was talk that another member might soon start campaigning for the place. Rep. Wright Patman, chairman of

the delegation, has been mentioned as a likely candidate. Yesterday he asked his colleagues to appoint a vice-chairman, and they obliged by naming Rep. R. E. Thomason of El Paso.

Speaker Sam Rayburn was presented a 750-piece set of China, each piece gold-bordered and bearing the seal showing the speaker's rostrum, mace, and the United States flag. The presentation was made by Rep. Fritz Lanham.

Several Texans in Washington on business also attended the luncheon, held in the speaker's room of the capitol. They included Walter Hammond, president of the Texas farm bureau federation, and Roy Miller of Corpus Christi.

The loss of insured turkeys during the midwestern blizzard last fall was so great that some companies no longer will insure them.

**Not Even Dictators Can Stop Rotary, Vice-President Says**

Not even the edict of dictators can stop Rotary, Allison Ware, Rotary International vice-president told Pampa, Berger, Canadian, and Shamrock Rotarians at an inter-city meeting held last night in the First Methodist church.

Mr. Ware described how Rotary clubs, banned under Nazi regime, were still carrying on in secret in Finland and Japan. There are 14 countries in which the movement has been officially suppressed by the conquerors.

The vice-president received a \$50 contribution from the Pampa club for the Rotary Relief fund, which is a fund maintained and administered by Rotarians, distributed among Rotary clubs and subsequent

distribution to those in need in their respective countries. In this connection, he mentioned the Rotary club of Shantung, China, located 1,800 miles in the interior. Despite daily bombing of Shantung every day for two years, the Shantung Rotarians meet regularly once a week.

A district governor at a conference received \$175 to turn over to a Chinese Rotary club. The club accepted the gift with thanks, then turned around and donated \$70 into the Rotary Relief fund for other clubs.

Elect Conference Delegates Charlie Burton was toastmaster at the meeting last night attended by 130 persons, Rotarians and their

**U. S. To Tighten Helium Plant Guard**

WASHINGTON, May 1 (AP)—Rigid precautions against sabotage at the world's only helium plant, at Amarillo, Texas, were announced today by the Bureau of Mines.

Bureau Director R. R. Sayers said steel towers for armed guards were being erected at strategic points, and the bureau ordered officials at the plant to exclude all unauthorized persons.

The rare gas, used for inflation of lighter-than-air craft, is being supplied to the army and navy. The Amarillo plant has a production capacity of 24,000,000 feet of helium annually.

Noble, B. M. Bryant, T. D. Wiggins, Frank Phillips, R. M. Hobby, and Herman Mowery.

**Coast Guard May Be Turned Over To Navy**

WASHINGTON, May 1 (AP)—Secretary Morgenthau indicated today that President Roosevelt has made a decision about turning over the sea-going part of the coast guard to the navy.

At a press conference, Morgenthau was asked whether anything had been decided and replied "Yes, but I can't talk about it."

Ordinarily, the coast guard joins the navy only in time of war, but recently the navy revealed it was negotiating for immediate transfer of the seagoing vessels. The disclosure followed the transfer of ten coast guard cutters to Great Britain.

The step would give the navy about 25 seagoing ships, some of them roughly equivalent to destroyers.

# Legislator Gets Tired Of 'Foolishness'

(By The Associated Press)  
 AUSTIN, May 1 (AP)—The hour was nearing midnight and the House of Representatives was wrangling over an adjournment motion which had interrupted work on a calendar of local and uncontested bills.

Finally 72-year-old J. H. Martin, labor-representative from Wichita Falls, stalked to the floor microphone and pushed his way through a cluster of his colleagues.

Serving his first term in the legislature, also his initial venture into

politics, Martin seldom enters into house debates.

But this was one argument in which he wanted a word.

"Mr. Speaker," he boomed, "I ask to be excused, I ain't no hoot owl or a monkey and I've had about enough of this foolishness."

Latest speculation on the inspiration behind Governor W. Lee O'Daniel's U. S. senate appointment: San Jacinto Day was coming up. Directly opposite the governor's first floor capitol office is a large painting of Santa Anna's surrender to General Sam Houston at the Battle of San Jacinto.

To the right of this painting is one of the late Senator Morris Sheppard.

Whether the governor actually walked out of his office, saw the two paintings side by side and decided to name General Houston's

87-year-old son to the post is conjecture.

The Smiths hold a slight edge for representation in the 47th legislature, but the Keleys, Martins and Moores at least have one of their number in both houses.

The Smith cognomen lays claim to a plurality with Senator John Lee Smith of Throckmorton and two members in the lower chamber, J. O. Smith of Egin and Magus F. Smith of Pleasanton.

Each branch has one of the other three names, in Senator Jesse E. Martin of Fort Worth and Rep. J. H. Martin of Wichita Falls, Senator Weaver Moore of Houston and Rep. Choice Moore of Bonham, and Senator Rogers Kelley of Edinburg and Rep. Kirby Kelley of Huntsville.

Although without a namesake in the senate, the Dicksons, Reeds, and Harrises are on double duty in the house. There we find Rep. Fagan

Dickson of San Antonio and Rep. R. Temple Dickson of Sweetwater, Rep. W. O. Reed of Dallas and Rep. Jasper N. Reed of Texarkana, and Rep. Fred Harris of Dallas and Rep. L. W. Harris of Whitney.

**Hitler Moves People From Yugoslavia**  
 BUDAPEST, Hungary, May 1 (AP)—The military commander of the Hungarian-occupied part of Yugoslavia has ordered "all Serbs, Bosnians, Montenegrins, Gypsies, and Jews, and their descendants who were not Hungarian citizens before Oct. 31, 1918," to move out within three days beginning at 8 a. m., May 28.

(The Hungarians reclaimed three small areas of Yugoslavia after the German dissolution of the Kingdom created partly out of the former Austro-Hungarian empire after the first World War.)

# Workers Go Back To Coal Mines With Pay Hike

(By The Associated Press)  
 Back to the mines was the order of the day in the soft coal industry following a month's idleness occasioned by a wage dispute.

Southern mine operators and officers of the CIO United Mine Workers agreed yesterday on temporary wage schedules, including a basic increase of \$1 a day, which permitted immediate resumption of coal digging. Northern operators had perfected their arrangements with the union earlier, and half the northern mines already were at work.

Spokesmen for the southern producers predicted that two-thirds of

their mines would be in production again today. Negotiations looking toward a more permanent operating agreement are to be resumed in New York May 12.

Meanwhile, the national defense mediation board in Washington prepared to examine the differences between the CIO United Automobile Workers and General Motors corporation, which has caused the threat of a strike at the firm's 61 widely-scattered factories.

A General Motors official announced that the union had rejected an offer of \$15,000,000 in wage increases, and he added that the union's demands would amount to \$50,000,000 a year.

The house rules committee gave a measure of legislative right-of-way to the Vinson bill providing a cooling-off period prior to strikes in defense industries. However, Democrat leader McCormack (Mass.) said other bills would be

considered ahead of the controversial measure.

Speaking at Harrisburg, Pa., last night, John L. Lewis, president of the CIO United Mine Workers, asserted that labor must be given a larger participation in government "to protect the institutions on which democracy depends." He added that the government must have the help of labor to win "this war—if there is to be a war."

**\$55,000 Worth Of Bonds Sold At Marfa**  
 MARFA, May 1 (AP)—Sale of United States Defense Savings Bonds totaled \$55,000 at 9 a. m., today in this town of 3,866 population.

There were 70 buyers, including three who invested \$10,000 each.

North America has more species of game birds than any other continent.

# What's Wrong With Southwest? Plenty!

Editor's note: What's wrong with the Southwest? That should be done about it? The national resources planning board has its own ideas about it. The matter is fully discussed in a series of stories, of which the following is number one.—The A. P.

By J. B. KRUEGER  
Associated Press Staff  
The Southwest is a young land, rich in resources, peopled with persons younger than the rest of the U. S. can boast of—but it needs its face lifted.

A roomful of experts sat down at a table in Dallas this week to ponder these thoughts and polish up a years-long plan to increase the contentment and prosperity of Oklahoma, Texas, Louisiana and Arkansas.

They are members of the regional advisory committee of the national resources planning board. Their job will be to apportion among themselves further study of long-range planning, to take which the federal government has been working on since the days of Herbert Hoover.

The national planning board and its regional Dallas office have just brought out a brand-new report on what should be done in the various states to make their people healthier, wealthier and wiser. The regional advisors, who helped with the report, will carry on from there.

They haven't overlooked much. The report recommends efforts to reduce land-tax delinquency, halt aimless farm migration, conserve soil and water on erodible land, get the most out of forest lands, protect life and property from floods through reservoirs, floodways, levees and dams, insure irrigation waters for the Rio Grande valley, build super-highways, devise a larger system of airports, and control mosquitoes and rodents.

What's wrong with Texas as she is?

Plenty, says the planning board report, and that goes for Oklahoma, Arkansas, and Louisiana. Item: "It is estimated that the natural gas reserves in the midcontinent and Gulf Coast fields range from 47 to 51 trillion cubic feet, or about 50 per cent of the total gas reserves of the United States. It is said that millions of dollars worth of natural gas are blown away into the air every day because the producing fields are so far away from the south-central region, 200,000 of whom, with proper financial assistance, could become farm owners within the next 10 years."

Item: "It is estimated that of the 275,000 acres in the region, a complete coordinated soil and water conservation program is needed on some 190,000,000 acres, or 69 per cent of the total acreage."

Item: "x x x The great majority of raw materials produced within the region are shipped elsewhere for processing, although plentiful supplies of fuel and other materials and facilities required by industry are available, and nearly 10 per cent of the potential consumers in the nation reside within the region."

The board winds up with an overall indictment: "Faced now with recurring droughts, inadequate water control, over-grazed pastures, uneconomic

## BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.

The kidneys are nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start heading backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eye, headaches and dizziness. Frequent or scanty passages with smarting and burning sensations show there's something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes wash out poisonous waste from the blood. Get Doan's Pills.

**GOOD FOOD is Good Health**

There is no substitute for the healthful goodness of good foods. Doctors and dieticians the world over are agreed on that! Food is the one necessity which the human body must have, and above all the human body must have high quality food to really make it healthful and strong. At Irvings you will find that these body building foods, and also you will find that these high quality foods are priced at a reasonable budget saving price. Drop in and do your grocery shopping at Irvings and you will find out that—

## Market Briefs

NEW YORK, May 1. (AP)—Strength of import commodities again took the play away from securities in today's financial markets.

Business never achieved any real momentum and transfers for the full proceedings were around 500,000 shares, one of the low figures of the year.

In the stock division McKesson & Robbins preferreds made new high for the year. Ahead most of the time also were Santa Fe, Chesapeake & Ohio, Lott, Standard Oil of N. J., Kennecott, Montgomery Ward and Cerro de Pasco.

Bellechem Steel dipped, although others in this group were followers of a fall in iron. Resistant also were Sears Roebuck, Consolidated Edison, Westinghouse, Air Reduction, J. C. Penney and Johns-Manville.

Bonds were uneven with scattered rails improving. Wheat at Chicago was unchanged to up 1/2 cent a bushel and corn unchanged to ahead 1/4. Cotton, in lite grades, was up 15 to 25 cents a bale.

Sheep, salable and total 9,000; bids and sales around steady on all classes; spring lambs mostly 8.75-9.75, few good and choice 10.00; 40-50; clipped lambs 7.50-8.25; aged weathers 8.50; clipped feeder lambs 6.75 down.

## Detroit Police Probe Infant Market Racket

DETROIT, May 1. (AP)—Police officers and members of the Wayne county prosecutor's staff hoped today to climax their two-month investigation of a group of persons suspected of "buying and selling" the babies of unmarried mothers.

Progress of the investigation was disclosed yesterday by police following the arrest of a 47-year-old grandmother on a tentative charge of conspiracy to violate the state adoption laws.

Another woman was reported sought for questioning, and Lt. Nell Coolidge of the women's police division said a number of doctors and lawyers may be involved.

Lt. Coolidge said unwed, expectant mothers apparently were given hospital care and sums of money, averaging \$50, for their babies, who were sold to childless couples for amounts as high as \$1,000.

Bocon has the oldest subway system in the United States.

**GALA SCENE OF ALL-AMERICAN FINALS**

Here's the goal toward which the Pampa boys are competing in The Pampa News-Pampa Lions Club Soap Box Derby, to be held here on July 17-18, are aiming. Shown above

is a colorful scene of a section of the grandstand at Derby Downs, Akron, Ohio, where the All-American Soap Box derby finals will be held August 17, just one month after the Pampa race. Thousands of spectators

can be accommodated in the grandstand and bleacher seats at Akron. Last year a crowd estimated at more than 100,000 saw the race, in which Mark Bratton of Pampa was one of the contenders.

**Mutual And Ascap Reach Agreement**

NEW YORK, May 1. (AP)—The Mutual Broadcasting system announced today it had reached an agreement with American Society of Composers, Authors and Publishers on a proposal that may return 1,250,000 ASCAP-controlled songs to its airways shortly after an absence of four months.

**Our Boots Derby Favorite**

LOUISVILLE, Ky., May 1. (AP)—Our Boots was made an 8-5 choice to capture the Kentucky Derby Saturday in the final quotations listed today by a leading Kentucky betting commissioner.

Porter's Cap was established the second choice at 2-1 with Whirlaway and Dispose third at 6-1 each.

Scientists foresee common use of a vacuum concrete which will dry in an hour and be crackproof.

**C-C Proposes Moratorium On Strikes**

WASHINGTON, May 1. (AP)—A proposal for a moratorium on strikes in defense industries through the joint efforts of "patriotic labor and industrial leaders" was placed before the United States Chamber of Commerce today by its resolutions committee.

The proposed resolution also declared it to be "intolerable" that anyone should threaten to interrupt defense production "for purposes of coercion" and added that "such acts are offenses against the public safety, and offenders should be subject to the penalties of the laws they violate."

Another proposed resolution, on "federal finance," called for a \$2,000,000,000 reduction in non-defense expenditures and for tax increases in unspecified amounts which should be "limited in duration to the period of the emergency with the burden fairly distributed."

The resolution did not comment on the administration's \$3,500,000,000 defense tax program, but Ellsworth C. Alford, chairman of the chamber's finance committee, in a speech this morning described the methods by which the treasury would raise the money as "severe and unrealistic."

He said the goal was "realistic," but suggested that with a \$2,000,000,000 slash in non-defense outlays, the government might raise \$2,500,000,000 through a flat income tax increase and from excise and sales levies and possibly a small payroll tax. These he declared, would place less burden on taxpayers in the \$2,000 to \$20,000 class than would the treasury's proposed methods.

The resolution on national defense declared that defense production must go "given the 'right-of-way' all down the line," and declared that "all available productive manpower, working at maximum productive efficiency, will be required if we are to accomplish the supreme effort of superimposing the program of defense production on our normal conditions." The resolutions made no reference to the British-aid program.

Other salient points of the policy statement included:

Control of petroleum production by any federal bureau was opposed, as were all suggestions for breaking up the oil industry into separate parts, such as production, refining, transportation, and marketing.

The battle of Lexington was fought April 19, 1775.

**Testimony Ends In Alford Murder Trial**

SAN ANTONIO, May 1. (AP)—Testimony in the trial of James B. Alford, charged in criminal district court with the March 14 murder of R. L. Agnew, San Antonio Engineer Salesman, came to an abrupt end at 10:45 a. m. today when the defense in a surprise move, announced that it would present no witnesses and rested its case.

The prosecution had earlier announced that it expected to complete its case not later than noon today and rested at 10:45 a. m. after presenting eight prosecution witnesses during the morning. The announcement that the defense would rest was made immediately by Ben F. Cone, Alford's attorney, representing Alford.

Judge W. W. McCrory, presiding at the trial, began drawing up his charge to the jury. Final arguments by defense and state attorneys were to begin at 2 p. m.

**Hill Claims O'Daniel Tried To Defeat Bill**

AUSTIN, May 1. (AP)—Governor W. Lee O'Daniel did everything in his power to defeat the \$22,000,000 Omnibus Tax bill which the legislature passed Tuesday, Senator Joe Hill of Henderson charged on the senate floor today.

Moreover, the governor attempted in last year's campaign to "purge" out of the legislature the men most responsible for the bill's passage, especially Rep. G. C. Morris of Greenville, author and chief sponsor of the bill, Hill declared.

He asserted O'Daniel only a few Sundays ago, in a radio talk, had said the Omnibus bill was "spattered after that stinking old S.J.R. 12," Sales-Natural Resource Tax Constitutional Amendment rejected by the last legislature.

**'Moocher' And 'Aw Foocy' In Finals Of Coursing Meet**

SALINA, Kas., May 1. (AP)—A couple of racing greyhounds with catchy names will settle the futurity stake championship of the National Coursing association's spring meet today.

They are "Moocher," owned by Mrs. Molly Gibbs, Fairbills, N. J., and "Aw Foocy," entry of B. E. Randle, Idana, Kas.

Finalists in the futurity consolation are "Billy" and "Mathematics," respective entries of J. O. Hopkins, Waco, Tex., and Delta Kennels, Rio Vista, Calif.

### Camp Life

(By The Associated Press)  
**CAMP ROBINSON, Ark.**—A squad was in a tent taking instructions in chemical warfare. The tutoring officer broke several vials of tear gas and ordered: "Take off your masks and run."  
 Sergeant H. P. Grounds, former Haskell Institute football player, was the first to reach the narrow door. But there his progress ceased. He was stuck, with half his 220 pound bulk inside and the other half in the great outdoors.  
 The other men, tears coursing down their cheeks, formed a flying wedge, rushed forward and—nump!—the sergeant popped out like a champagne cork on New Year's eve.

**CAMP WHEELER, Ga.**—The

award of the week, with leather palms, went to a New England trainee. He arrived on a sultry day, with a pair of ice skates.

**CAMP SHELBY, Miss.**—When a company second cook was about to depart on furlough for Columbus, Ohio, the first cook suggested that he look up his (the first cook's) sweetheart there.  
 The second cook informed the first cook by letter subsequently that he had called on the young lady and, moreover, he married her.

**CAMP BLANDING, Fla.**—General Luther Gore took his place in the ranks of the rookies at this post with a wide grin.  
 General—That's his given name and not an army title—commented: "I may be a buck private at camp, but I'm still General to the folks back home in Pinellas county."

**CAMP BARKELEY, Tex.**—During a lull in a 48th division maneuver, Capt. William E. Rabb sprawled on the grass to rest.  
 Presently he experienced a strange sensation. He glanced along his length uneasily. He saw a snake, four and a half feet long, wriggling across his legs.  
 He remained still until the reptile had completed the crossing; then arose—persuaded very probably, that peace has its perils, too.

**CAMP WHEELER, Ga.**—The

### Funeral Held For Wheeler Pioneer

Special To The NEWS  
**WHEELER, May 1**—Funeral services were held Tuesday afternoon at 2:30 o'clock for C. H. Clay, 79, at the Methodist church, the Rev. Murray Fogarty officiating.  
 Mr. Clay died at the family home Monday morning at 2 o'clock, after being seriously ill for a week. Burial was in the Wheeler cemetery under direction of Clay's funeral home of Shamrock.  
 A native of Arkansas, he settled in Kaufman county, Texas, with his parents at an early age. He married Miss Ellen Townley Dec. 22, 1887. Mr. Clay moved to Wheeler county in 1905, and lived on a farm two miles southeast of Wheeler for several years, later moving to Wheeler.

Survivors include the widow; one son, Monroe Clay; two daughters, Mrs. Madge Page of LeFors, and Mrs. Henry Walser of Wheeler; two sisters, Mrs. Mattie Williams of Shamrock, and Mrs. Deal Gardner of Terrell. Also surviving are 12 grandchildren, and 18 great-grandchildren.

### Groom Seniors Start Practice On Annual Play

Special To The NEWS  
**GROOM, May 1**—The seniors of Groom High school started practice on their class play Wednesday in the school auditorium. The play will be given May 16 so that the seniors might use the money obtained to help defray graduation expenses.  
 The name of the play is "Feudin' in the Hills." The cast is made up of J. C. Watley, Flora Glenn Robinson, Bethel Garner, Betty Jo Martin, Maxine Black, Alfred Lehnick, Ebej-Clark, Rosalie James, Elhiedra Kuehler, and Ivon Williams.

The legislature necessary. "Yes," he replied, "I can think of two or three things that would make it very necessary."  
 He declined to say what those things might be.  
 The house yesterday tabled a May 13 sine die resolution by a vote of 100 to 28.  
 A similar resolution has been offered in the senate, but not been put to a vote.

### Stevenson Suggests Legislative Recess

**AUSTIN, May 1**—Lieut. Gov. Coke R. Stevenson thinks it might be a good idea for the legislature to recess instead of adjourn.  
 He corrected Senator Houghton Brownlee of Austin when Brownlee referred to adjournment of the legislature May 13.  
 "You mean we're going to recess, don't you?" Stevenson inquired.  
 Brownlee smiled.  
 Asked whether he was merely joking, Stevenson said: "No, I wasn't joking at all, but I don't know how the senate feels about it."  
 If the legislature decides to recess, instead of adjourn, at the end of the 120-day session, 12 days hence, it can reconvene without a call of the governor.  
 Stevenson was asked whether he thought anything might come up that would make another session of

An Independent Democratic newspaper, publishing the news fairly and impartially at all times and supporting in its editorial columns the principles which it believes to be right and opposing those questions which it believes to be wrong, regardless of party politics.

Opportunities To Serve

Opportunities for service in the national defense are increasing every day. It is getting close to the point now where every man, woman and child can find something to do to help if he is willing. Latest opportunity is for a half-million or more men and women to enlist as volunteers for an air-raid observers' corps. That is a simple civilian service aimed at getting the army the quickest possible information on the appearance of enemy planes. The observers are so assigned that no plane can approach the covered territory without being instantly spotted and reported by one or more observers, whose instantly telephoned reports will show a central headquarters not only the location but the direction and speed of the attacking force.

Ye Of Little Faith

As always, it is the simple, humble people who come to bat when freedom is threatened. We wish every person we have heard recently muttering in his long gray beard that democracy is about through could read the letters that come pouring in to the White House and the treasury at Washington, with dollar bills and small checks pinned to them. A 13-year-old New Jersey girl sends a dollar, saying, "Please use this for army pay roll." A letter laboriously typed on ruled paper, "I do not pay income tax. I'm too old for war duty. But I owe this to my government that has given me independence and liberty." So they come streaming in, touching evidence that many who have the smallest material stake in freedom drink deepest of its spiritual values. They make one feel ashamed to be downhearted.

Behind The News

By PETER EDSON

The Pampa News Washington Correspondent WASHINGTON, May 1—There are no two ways about it—functions of the administration of your federal government are so complex that it is impossible for anyone not entirely familiar with the workings of any particular agency to keep track of what it does. Even most members of congress who passed the laws creating most of these agencies, or at least money to keep them going, are just as confused as a taxpayer.

This sad observation is made today after watching Sidney Hillman for the fourth time appear before a congressional committee to tell the story of his job as associate director general of the Office of Production Management. In all four acts, Hillman had to go through the same routine, explaining with superhuman patience things which every congressman should know but obviously doesn't. It's enough to make you cry.

SHOULD DRAW PICTURES What these congressmen have trouble in fathoming is the simple fact that OPM was set up by the president as a purely advisory board, and that it has no judicial or executive power. Equally incomprehensible has been the fact that although the OPM has a labor division which Hillman heads, the function of that labor division is principally to insure an adequate supply of labor for defense industries and not to settle labor disputes—a function assigned to the Conciliation Service in the department of labor, and to the National Defense Mediation board.

Inability or unwillingness to retain this picture is most apparent in the questions which Hillman answered repeatedly: Why hadn't he personally moved in to settle the coal strike or the Ford strike or any other strike? The obvious answer that he had no authority to do so had no standing whatever before the committee. Hillman was head of the labor division of OPM, and OPM was running the defense effort, wasn't it? Therefore, Hillman should have done something about it. The inference was that Hillman was personally responsible for all this and it was now up to congress to set things right. No wonder perspiration popped out on his forehead and a roll of his neck stood out above his coat collar as he patiently, smilingly argued it out without once losing his temper.

ALL GET THE SAME Every other key witness before these committees has had a similar experience. John D. Bigger was persistently asked about labor and priorities, though he is the expert on production. Secretary of War Stimson and Secretary of Navy Knox were both asked about production, and so was William H. Davis, vice-chairman of the mediation board. Irrelevant and unnecessary questions fly all over these committee rooms and what good they do is something impossible to tell.

An obvious explanation would be that congressmen are perhaps woefully uninformed on even the things that get printed in the newspapers—the fact that Ford strikers offered to let the men on defense jobs keep on working, the fact that the coal miners offered to keep on working the mines if terms of settlements were made retroactive to April 1, the fact that A. F. of L. building trades have already outlawed jurisdictional strikes. And so on, unendingly. More purposeless questions have been asked in these investigations, based on lack of information, than you will hear in any sixth-grade schoolroom. Lack of information on current affairs is not the only reason for this waste effort. As stated before, the government has become too complicated for anyone to keep up on and congressmen are too busy with political appointments, job seekers and affairs of their own district. Too many men are sent to Washington just to cause they can get elected. The result is that we have a congress ruled by

Common Ground

By R. C. HOYLES

This column contends there can be no satisfactory program until we measure the share of each man by the common yardstick of the God-given equal right to create and enjoy anything anyone else has a right to create and enjoy.

PRINTERS UNION LIMITS OUTPUT The trouble with labor unions is, they do not understand that every time a worker produces some wealth, he is really raising the wages of all other workers in the world who desire to exchange the products of their labor for other kinds of wealth.

Because they do not understand this and believe wages can be artificial and have no relation whatever to production, they refuse to make any contracts based on piece work and even now have begun to pass union rules that limit output. They have for years limited the hours a union man dare work without demanding prohibitive wages and later sharing his regular work with other workers.

In a recent bulletin of the Typographical Journal appeared the following: "July 8 the bonus system of machine composition passed out of existence in Chicago newspaper offices, in accordance with the contract signed by No. 16 and the publishers in June, 1939. About forty new situations were created. Bonuses based on agreed extra production are prohibited by the contract. THE HERALD-AMERICAN CHAPEL INSTRUCTED ITS CHAIRMAN TO PREFER CHARGES IN THE NAME OF THE CHAPEL, AGAINST ANY MEMBER SETTING MORE THAN THE CONTRACTUALLY AGREED-ON AMOUNT OF TYPE, ANY EXCESS COMPOSITION BEING CONSTRUED AS EVIDENCE OF AN ILLEGAL INDIVIDUAL AGREEMENT BETWEEN THE OFFICE AND THE OFFENDING MEMBER."

What a wicked waste of human energy! Here we have men making themselves standardized machines. Making rules where the man with ability and who is able to set more type than the agreed amount is prevented from so doing. He has to slow down. He has to refuse to use the talents God gave him to help reduce poverty and raise the real wages of all other workers in a different line.

Can anyone think of any thing more wicked and un-Christian than a rule like this? What the unions do not seem to understand is that these extra situations and this extra pay, lower the real wages of every consumer buying the printed product. If they do understand, then they have no respect or regard whatsoever for other workers.

And when the plumbers, carpenters, railroad men, tailors, etc., all do the same thing, all the workers have a lower standard of living.

It is little wonder that Germany is sweeping over Europe, when the so-called democratic countries in Europe adopted tactics like the printers and the unions in the United States are adopting. It is a law of nature that what is not used must be lost; and when people are so shortsighted as to prevent human beings from having the right to use their talents and bless their fellowman, then the Divine Architect eventually sees to it that the nation that so mismanages the lives of people comes under the control of some nation that does not have such a degree of mismanagement. These self-proclaimed Messiahs are fooling the working man in claiming that modern labor unions are good for the worker.

AN ENGLISH-FRENCHMAN'S IDEA OF LENGTH OF WAR

I had the pleasure recently of talking with Baron de Veauce of the Chateau de Veauce, France. His home is about thirty miles from Vichy. He is, or was, mayor of the village. He does not know now whether his absence has deposed him or not.

He left Liverpool April 1. He tells me that francs in France were exchangeable at the rate of 43 for \$1. In New York, however, he exchanged francs at the rate of 162 for \$1. In other words, he gave 50,000 francs for \$312.

He said he came to hear what the American people had to say and not to express his opinions. He did, however, say that he thought the war would last for a good many years, probably ten or twenty. He believed that America would get into the war; that nine out of ten people in America wanted to get into war.

When asked why France fell so quickly, he said the French people were living in a Maginot Line complex, or living in a Fool's Paradise; that even when Germany went into the lowlands, the French people still thought they were safe; that when France was producing 15 airplanes a month, Germany was producing 1500 a month.

He thought we were very prosperous in this country. When he was told we had not been prosperous for ten years, he said we were very, very prosperous as compared with England and France.

He explained that his wife, who was an American, does not believe the United States should get into this war. She contends that the American people did not get the English and French into this war and it is up to the English and French to get themselves out.

The Baron de Veauce expects to return, with his wife, to France by way of Lisbon in two or three weeks.

BARBS

Looking at the bright side—suppose you lived at the North Pole and hubby stayed out all night? Whenever you feel like turning up your nose at people, remember the law of gravity. "Artist Marries Model"—headline. At last, the model wife! Burglar in Michigan jailed for robbing a baby's bank. Read that to father. The cheapest-looking thing at a bargain counter is a man. Misery doesn't love company that stays for dinner. emotions and not by facts. Everyone is all excited about labor trouble now and some new legislation will be passed in an effort to do something about it. What is overlooked is that Bethlehem Steel has already been cited by the National Labor Relations board 67 times, and that the time to have settled the Ford strike was four years ago, when trouble first began. And the fact that the two worst strikes of the defense effort have taken place in states which had compulsory "cooling off" periods, Michigan and Wisconsin, goes for nothing.

YEP

Around Hollywood

Lucie Neville is pinch-hitting for Paul Harrison, now touring army camps and defense industries.

BY LUCIE NEVILLE NEA Service Staff Correspondent HOLLYWOOD, May 1.—The "Dive Bomber" company and Director Michael Curtiz are back from location at the navy's San Diego air base, and Curtiz is a changed man. He didn't try to break rules and get his ears slapped down, but after five weeks of iron-clad discipline, studio red tape looks like pink satin ribbon to him.

He was completely confused and baffled by a strange, new world that neither knew nor cared about the way things were done in Hollywood, if they didn't coincide with the navy's way. It was painful to the hard-working Curtiz, especially on sunny days, that a camera couldn't turn after 4 p.m. The movies work as long as a director holds his company, but naval base hours are 8 a.m. to 4 p.m.

To understand Curtiz' bewilderment, realize that he lives, thinks and talks only in terms of pictures, and director of some 50 films, his slightest wish is a command. Worst shock he got was the day 200 planes and 2000 men were being lined up for a magnificent display and he was told "You can have one shot." That was impossible, he protested. Any scene was filmed at least twice, if only for protection. One shot, said the navy calmly. He could have a couple of rehearsals but that was as long as they would paralyze the air base. His reward was a perfect one take.

RIGHT SMOKE WRONG DIRECTION He was allowed only a skeleton picture crew and cast a 50 on a three-day cruise aboard the aircraft carrier Enterprise. The regular location company numbered 150, but officials made some concessions. When Curtiz requested that picturesque black smoke stream out of the funnels, he got it—even though inky smoke is a navy disgrace, indication of bad firing.

Beaming, the director took a squint through the lens, then gave a gasp of dismay, turned to Lieut.-Comdr. Charles Brown and spread his hands. "But, Commander!" he wailed, "the smoke iss blowing in the wrong di-rection!" The officer laughed, until he was helpless and ordered the carrier's course changed.

Curtiz hadn't known how to explain in military terms. The only language he speaks is plain Hollywood, but the navy learned to translate that, understood when it heard him say to his assistant director, "Sherry, there is one thing more I know I cannot have, but—will you get it, please?" An official asked Sherry what was wanted, obtained it in a couple of minutes.

FROM FROE TO FRENDE This combination of firmness and friendliness made a tremendous impression on the little director. He has been a naturalized citizen for eight years but still was overwhelmed by courtesy of navy flyers and their wives who came to his cocktail parties and invited him to theirs. "Just think!" Curtiz said, marveling. "In the last war, I am in the Hungarian artillery. And now . . . look! . . . they like me."

Best proof of the hotel's acceptance of the "Dive Bomber" company wasn't Errol Flynn's hobnobbing with society. It was the regular afternoon sight of "Limy," the proprietor, having tea with a clique of diamond-doggers. They remembered that he liked his brew double-strength, piled him with sandwiches and sugar cakes, and asked no questions about the cinema.

People You Know

By Archer Fullingim

George Davis, son of Mr. and Mrs. E. V. Davis, long-time residents of Pampa, is on his first voyage as a U. S. sailor. His ship, the U. S. S. Henderson arrived at Honolulu around April 20, and left several days later for the Island of Midway, a U. S. possession. The cruise will take George to China before it heads back for the U. S. George's brother Glenn Earl Davis, a pre-med student at Texas Tech, was one of 24 students who had a three-point or "A" average. He was the only one from Pampa on the honor roll. John R. Bestrand of White Deer was also one of the 24 names on the coveted roll. Glenn Earl is a charter member of the pre-med club, and at the club's annual banquet his high grades were the subject of comment by one of the speakers. It should be borne in mind that the honor roll represents the entire student body at Tech and not a certain class or school. . . . On behalf of all his friends and of Pampa we congratulate Glenn Earl on his grades and at the same time express our great pride in his notable achievement, and from now on he's going to be Dr. Davis to this one. Naturally, Mr. and Mrs. Davis are proud of their two sons, one preparing to defend his country and the other preparing to defend the citizens of that country from the diseases and injuries that plague mankind.

Principal Winston Savage is reading Winston Churchill's latest book, "Blood, Sand and Tears," a collection of W.C.'s speeches.

Cranium Crackers

WAR MATHEMATICS Mathematics often figures in the strategy of war. See how good a general or admiral you would make by solving this tricky trio of problems about planes, warships, and troops on the move.

1. A British Wellington bomber flies 550 miles from London to Berlin, drops its 27,000-pound bomb load there, then flies back. If the entire trip took five hours, including 36 minutes spent finding objectives and releasing bombs, what was bomber's average speed on actual flight to and from Berlin?

2. The British cruiser Orion traveled 600 nautical miles from its base at Alexandria, Egypt, to the Ionian Sea. It cruised around for three hours locating Italian warships, then spent five hours luring the enemy vessels to contact with other British vessels and in firing. After the morning and the British left there Tuesday morning. If the British catch up with the Italians at Addis Ababa Saturday morning, how fast was each body of troops traveling?

Answers on Classified page with society. It was the regular afternoon sight of "Limy," the proprietor, having tea with a clique of diamond-doggers. They remembered that he liked his brew double-strength, piled him with sandwiches and sugar cakes, and asked no questions about the cinema.

THE LOOKING GLASS

By Mme. Stella Hovit

Two chores darkened the radiance of Myrtle's early years: gathering the eggs and churning. Gathering the eggs involved you with hens determined to set and she was mortally afraid of them. She got the longest pole she could find and stuck it under the hen and rolled the eggs out. Other times, if the hen looked too savage she just did nothing and pretended she'd looked in all the nests.

Churning was exultating monotony. Butter was all very well, but if left to her own devices Myrtle would have put lard on her bread and skipped churning. Her mother worried very much about the moral fibre of her daughter and thought that these two despised tasks would strengthen her character.

Churning was worse in summer. It went on forever. It helped to pour cold water down the hole in the lid, but you weren't supposed to use any tricks. It ruined the butter milk. Anyhow, it only helped a little.

Myrtle used to look at the Daisy fly killer on the window ledge and wonder if she ate one of the wicks would she die and be forever free of churning. There she splashed it again. You had to keep the stick vertical or you'd splash it.

Often her mother would go through the kitchen and see Myrtle churning and crying with the tears splashing on to the churn. Sometimes, when she was a little uncertain about the way to develop moral character, she'd take pity and tell Myrtle to go and run down a chicken for dinner or gather chips and cut some small sticks for the stove.

Myrtle wasn't a lazy child. And there wasn't any sense in humoring her. Nobody was ever humored in Myrtle's household. There was work and you did it, food and you ate it, and no remarks passed.

Myrtle was in the third grade at school when she solved the churning problem. The only periodical they got was the Saturday Evening Post, and one day while churning, Myrtle discovered that she knew about every third word. She got so absorbed in trying to read the story that she forgot the moratorium of churning. Methodically, her right arm pumped up and down while she tried to puzzle out the story. Here and there she got a glimmer and as it was a western yarn with much shooting, she was greatly excited. The butter was made before she knew it.

She never did master her fear of setting hens but when she grew up she wrote some stories for the Saturday Evening Post, out of gratitude.

TEX'S TOPICS

By Tex DeVeese

The subpoena said to appear in court by 10 a. m. Wednesday, so we walked up the Wheeler courthouse steps at 9:45 a. m. just to give the state and the defense a 15-minute bonus in time. . . . Once inside, however, it was learned that the case in which we had been summoned as a witness was second in line for call and that court would not even be convened until 1:30 p. m. . . . So along about 1:45 o'clock in the afternoon the news was broken that our case would come up at 10 o'clock in the morning five days later. . . . On top of all that comes the dawn that we are not the witness wanted in the first place. . . . Would we please take the subpoena back to Pampa for E. B. Emerson, courthouse reporter for The News. . . . We would. . . . And we did.

And, if it hadn't been for District Attorney Bud Martin (although we had been called by the defense) and Fred Ashley, the power and light man at Wheeler, the day would have been a bust. . . . But the courteous district attorney entertained us for awhile and then Mr. Ashley took us out to his new home, two weeks old, on the edge of town and introduced us to the first apricot orchard we had ever seen. . . . The trees on his place are so loaded with apricots you wouldn't believe it unless you saw it. . . . Maybe we haven't been observant enough, but also saw our first snowball bushes since leaving the East.

INCIDENTALLY, we had a date with Mr. Ashley to pick up a replica of Lincoln's log cabin birthplace at Hodgenville, Ky., which he is contributing for a window display at Top O' Texas Fiesta time. . . . Went back twice and couldn't find him, so this is a reminder to him that we still want it. . . . Mr. Ashley, a Kentuckian, also is getting ready to register for the Fiesta. . . . Says he notices that the Kentuckians in the area are slipping behind a little in the registration now being conducted by The News. . . . Wheeler is a busy place when court is in session, and when court convened at 1:30 p. m. yesterday the district courtroom was packed upstairs and down. . . . The audience was made up of ranchers, merchants, school boys and girls. Cofeed twice and lunched once in Jim's Cafe where the fetching waitress usually outlucked the patrons on matching to see whose nickel goes into the juke box, yours or hers.

At lunch we had the pleasure of sitting at the same table with Phil Spidy and Barron Chapman of the Panhandle Power & Light Co., Berger. . . . They were in Wheeler on business. . . . Fourth party at the table was Mr. Ashley, mentioned before. . . . Mr. Spidy, a native Englishman, who lived at Brighton, talked much of the war, as did the rest of us. . . . Then the subject got around to Lindbergh and his resignation as a colonel in the U. S. air reserves. . . . This really got hot with Mr. Ashley taking up for Lindbergh and Mr. Spidy siding with President Roosevelt. . . . Mr. Ashley thought it possible all this resignation hullabaloo and so forth was just a smoke-screen so Lindbergh could get chummy with the Germans and learn their secrets for FDR. . . . Mr. Spidy opined that FDR could get all the secrets he needed without Lindbergh and that the latter smelled like a Nazi-Fascist to him.

WELL, we weren't getting anywhere, so it was suggested that we had to see the judge. . . . Which broke it up with the argument unsettled. . . . So back over to the courthouse where we met with W. R. Fraze, than whom there is no better court stenographer. . . . The judge comes in, court convenes, attorneys thrash out a matter before the bench as the courtroom audience strains its ears in a room where the acoustics are almost nil. . . . Finally one case in which we have no interest is scheduled for trial right then, and all witnesses in the case which the crowd had come to hear are dismissed until 10 o'clock Monday morning. . . . This lets us out. Just then we are spied by District Judge W. R. Ewing who calls us up to the bench for a chat and slight remuneration for not appearing in the Wheeler court more often. . . . We say hello and goodbye to the judge, skip down the stairs to be chased by the attorney for the defense who has a parting suggestion will make him very unhappy.

The War Today

By DEWITT MACKENZIE

One of the most extraordinary documents of the war is the "abstract exploration" of peace terms published editorially by the Japan Times-Advertiser of Tokyo, an influential newspaper which reputedly speaks often with the tongue of the Japanese foreign office.

The terms are in the language of the Axis-Napoleonic in scope and definitely those of conquerors. The United States and Britain in effect are relegated to the position of defeated nations, the newspaper calmly blinking that fact that this country is a non-belligerent.

That this is an Axis-sanctioned peace-feeler is obvious. Were there any question about the Japanese government's interest in the venture it would be removed by the fact that the great news agency, Domei, broadcast the text of the editorial to the whole world.

Naturally Japan wouldn't countenance such a move unless Fuhrer Hitler had nodded acquiescence. The way the thing is done, however, makes it easy for the Axis to disavow the idea if it produces an adverse reaction.

The "exploration" coolly, and without so much as "by our leave," divides the world into spheres of influence on the principle that "to the stronger powers must go the greatest opportunities for developing the world." Might makes right, or words to that effect. The paper uses Hitler's spheres of influence for the triple alliance—Germany, Italy, and Japan—as the basis for its speculations.

The powers which would rule the world are Germany, with Italy as "junior partner" (whatever that means, and one can only assume it forecasts a hard back-seat for Rome), Japan, Russia, the United States, and the British empire. France, crushed and helpless, is no longer a power. On thumb-nail the suggestions in part run something like this:

Europe, the Near East and northern Africa would be assigned to Herr Hitler. England would remain the seat of the British empire, but authority would be transferred gradually to Canada-England, presumably being shunted into the position of a fourth-rate power. Britain would clear out of the Mediterranean altogether, leaving it to the Fuhrer and his "junior partner." The great British naval bases in the Mediterranean and the Far East would be demilitarized. The American bases in the Pacific also would be demilitarized. Our sphere of influence would be the western hemisphere, but Germany, Japan, and Italy would be granted an open door to South America. There would be naval parity all around.

There is more of the scheme, but taken as a whole it presents a picture of a dominant Axis, which would grow stronger with each passing year because of its special facilities. The great central figure—the world leader—in this combination naturally would be Herr Hitler. "This exploration" has no value as the basis for peace negotiations, of course. Neither Britain nor the United States would give the terms a second glance. The proposals are both interesting and important, however, as showing the objectives of the Axis powers, and their desire to secure peace if they can get the big end of the deal.

So They Say

Intensify your will, oppose Greek pride to enemy force and enemy temptations. Have courage—good days will come again. Long live the nation. —KING GEORGE'S farewell to Greece.

The British people have the courage to confront "ugly facts" and the strength to "look them squarely in the face." It is now up to America to do the same. —President MORLEY of Haverford college.

On the inside pocket we have a subpoena for Mr. Emerson. . . . It will make him very unhappy.

SIDE GLANCES

### May 13 Suggested As Date For Adjournment Of Legislature

(By The Associated Press)  
 Austin, May 1—Amid wholesale flow of bills between houses of the legislature and to Governor W. Lee O'Daniel for signature—indicating approaching adjournment of the regular session—lawmakers today awaited O'Daniel's action on the \$22,000,000 tax bill.

The measure, nearly tripling social security spending in Texas, was due on the governor's desk for approval and most legislators were betting he would sign it—and possibly run for the vacant U. S. senate seat.

Both houses must agree on a date for adjournment before they can quit and one such resolution, specifying May 13, the day the legislators' salaries drop from \$10 a day to \$5, was proposed yesterday in the senate. Several have appeared in the house but as yet there has been no action.

O'Daniel urged eleven-hour adjournment of a bill recommended by Attorney General Gerald G. Mann. The legislation would curtail participation of utility corporations in municipal bond elections.

The governor also asked speedy appropriation of \$1,025,000 to bolster old age pensions payments, due a

lash of \$3 each this month. The omnibus tax bill provided \$1,000,000 a month until Sept. 1. O'Daniel believed the funds from the bill, if signed, would come too late.

A house bill authorizing a \$1,250,000 loan from the county road and district indebtedness fund to forestall a pension cut rested in a senate committee.

The house killed, after friendly wrangling, a proposed constitutional amendment increasing the term of elective state, district and precinct officers from two to four years. The proposal also would have paid legislators \$10 a day the year around.

Apparently ready for conference committee consideration was a bill limiting issuance of liquor prescriptions to 100 in 90 days by physicians in dry counties.

Bills receiving final approval in either house included ones to lift the 100-acre restriction on county parks, authorize counties to use money seized in gambling raids for investigations, permit courts to commit delinquent children to homes in addition to institutions, require examinations for recording agents and solicitors for insurance companies, authorize counties and home rule cities by local option elections to

### Canadian Boy Enters Soap Box Derby

First out-of-town entry in the third annual Pampa News-Pampa Lions Club Soap Box Derby was entered here this week, when Carlton Studer, Jr., 15-year-old son of the well-known Canadian man, registered to compete in the model automobile races to be held July 17-18.

Total number of entries is now 60. These boys and all others wishing to enter the derby should be at the Rex theater at 10:30 o'clock Saturday morning when the third in a series of instructive talks on the derby will be held.

Jim Edwards, Pampa recreation project superintendent, will be there to tell the boys how his crafts shop equipment can be used by the boys and of other help he will give them; John Weichel, automobile mechanic who spoke at the clinic session last Saturday, will return to tell the boys about brakes; and Mark Bratton, 1940 city champion, will have some more information to give on design and construction.

### Back to Britain for More Pictures

Marcel Wallenstein, manager of Planet News, which supplies European pictures to NEA Service and this newspaper, boards clipper for return to London after short stay in New York.

### Bill Outlaws Prison 'Bat'

(By The Associated Press)  
 AUSTIN, May 1—The dreaded "bat," leather whip with which Texas penitentiary prisoners are sometimes punished, was on the way out today.

Senate approval of a house bill abolishing prison whipping sent the measure to the governor.

If the chief executive approved the bill, penitentiary flogging would be a misdemeanor.

The senate's action was a high-light in a crowded legislative day which saw also:

Introduction of a resolution setting May 13 for dine die adjournment of the general session. The resolution offered by Senators Harold Beck of Texasarkana and Allan Shivers of Fort Arthur was not acted on immediately.

Governor O'Daniel's submission to the senate of John C. Reed of Wichita Falls as his nominee for state labor commissioner succeeding Joe Kunschik of Austin whose resignation recently was refused confirmation by the upper chamber.

### Americans Begin Buying Bonds And Savings Stamps

WASHINGTON, May 1 (AP)—Urged by President Roosevelt to participate in the nation's "all-out effort to perpetuate democracy," Americans young and old stepped up to post office and bank windows today to begin investing in defense savings bonds and stamps.

Public sale of the new securities started throughout the country today. The President led the way last night, launching the bond sale program in a national broadcast address. He announced he was buying a bond (of \$500 denomination, the white house said later) for Mrs. Roosevelt, and 10 defense savings stamps (25-cent denomination) for each of his grandchildren.

In "a frank and clear appeal for

financial support to pay for our arming, and to pay for the American existence of later generations," the President expressed hope that the sale of bonds and stamps would "reach down to the individual and the family in every community, and on every farm, in every state and every possession of the United States."

Postoffices, banks, department stores and other organizations will participate in the sale of the bonds in denominations, from \$25 to \$10,000, and of the saving stamps (25 cents to \$5), which bear no interest but can be exchanged for the interest-bearing securities.

BULLETIN . . . N . . . N (TE)  
 ROME, May 1 (AP)—British forces were put to flight by Axis scouting units with losses of armored equipment in the region of Salum, Egyptian frontier post just over the Libyan border, the Italian high command reported today.

**100 Expected To Enter Amateur Golf Tourney**  
 BEAUMONT, May 1 (AP)—With 89 entrants already registered for the qualifying round today of the thirty-fifth annual Texas Amateur Golf championship, the Beaumont Country club hopes for a field of more than 100 players before the deadline is reached this afternoon at 2 o'clock. Qualifying over the tree-lined course, in tip-top condition, began this morning at 8:30 o'clock.

Par was threatened yesterday but never conquered as the well-known par busting brigade, comprised of Bill Coffey, present defending champion, Bobby Riegel, 1938 winner, Jack Tinnin, present Dallas city champion, but who now registers from the Braeburn Country club in Houston, Joe Worthington of Kingsville, the 1940 runner-up, Iverson Martin, Fort Worth shot-maker who captured four invitations last year in a row, Ed Anderson and Jack Burke, Jr., both of Houston, swung out in championship fashion for early tune-up rounds.

Other lesser knowns in the firing line today include Dick Martin, and Louis Becker of Dallas, O. L. Finley, Bill Gibbs, John Anderson and Jack Menefee, all of Luffkin and who incidentally will represent the Luffkin team brigade, Jack Denike of San Antonio, Earl Shelton of Austin, Fred Shultz and Dave Clark of Galveston. Beaumont's local talent is comprised of Tyrrell Garth, Jr., former Beaumont Country club champ; Mark Moore, Bobby Wolff, Kyle Alford, present municipal champion; Bert Parker, citywide finalist, E. E. Ames, present city-wide champion and state many runner-up, Percy Byerly and A. J. Doyal, who both register from the Orange Country club. Conroy Flowers is also a member of the Orange club, but a resident of Port Arthur, and at sometime or other has held every divot title Port Arthur had to offer.

### 100 Expected To Enter Amateur Golf Tourney

(By The Associated Press)  
 LONDON, May 1—At least 80 per cent of the British expeditionary force in Greece—or about 48,000 men—has been taken safely from the fiery beaches of that conquered kingdom, the army announced today, amid speculation as to whether Adolf Hitler's next blow would be aimed at the near East or at this island itself.

Some informed military circles said a grand scale German attack on Egypt and the Suez Canal by way of Syria and Palestine was likely within 10 days while others expressed belief the Nazi high command again was contemplating invasion of England very soon.

The language of the middle East command communique announcing the withdrawal of 48,000 men from the bullet-spattered beaches of southern Greece indicated that the perilous operation was proceeding in order to get at least some of the 9,000 remaining men away. Prime Minister Churchill said yesterday the British had suffered 3,000 casualties in Greece.

Because the Germans had gained full control of land and sea during the fighting around Thermopylae and because they had smashed the only good embarkation port—Piraeus—the British re-embarkation "had to take place from open beaches against continual enemy pressure on land and heavy, repeated attacks from the air," a communique said.

"In such circumstances the withdrawal of large numbers of troops could only be effected at the cost of heavy losses of vehicles and equipment, while rear guards which cover the withdrawal may have to sacrifice themselves to secure the re-embarkation of others."

### Fleet Rounded Up To Carry Supplies Abroad

WASHINGTON, May 1 (AP)—By order of the President, the Maritime commission today began rounding up "at least" 2,000,000 tons of cargo ships to form a great fleet which will carry abroad "vital war materials" now piling up in American ports, and bring in the raw stocks needed by defense industries.

President Roosevelt, himself, was reported ready to order the prompt requisitioning of refugee vessels in United States ports as one of the first steps toward the objective.

Requisitioning of 89 Axis and Danish vessels aggregating 300,000 tons would provide—as a starter—approximately 15 per cent of the 2,000,000 tons the President called for "at the earliest possible moment" to transport the raw materials required by American defense industries and the war supplies needed by nations resisting aggression.

"Vital war materials are piling up at the ports or delayed at the factories," Mr. Roosevelt declared. "We must supply those ships and at once."

The President emphasized the urgent need for increased shipping facilities last night in instructions to Admiral Emory S. Land, chairman of the Maritime commission.

Land was directed to "secure the service of at least 2,000,000 tons of merchant shipping" and to plan operations so as to "make their cargo space immediately effective in accomplishing our objective of all-out aid to the democracies."

Admiral Land's task, as outlined by the President:

- To arrange for foreign ships or ships which are to be transferred to foreign registry (presumably British) to be placed in service along routes to combat zones, including Great Britain.
- Reallocation of American-flag ships, including those soon to be completed, on routes outside combat zones, in order that every cargo they carry would be directly or indirectly useful in national defense efforts and the "winning by the democracies of the battle now being waged in the Atlantic."

### Shamrock Boosters Hear SMU President

Special to The News  
 SHAMROCK, May 1—Wallace Fields, former Shamrock High school athlete, was among the 125 cadets who graduated from the Air Corps Advanced Flying school at Stockton, Calif., on April 25. He received the rating of second lieutenant in the air corps reserve, and will be assigned to three years active duty in the locality of his choice.

Lieutenant Fields is the son of Mr. and Mrs. H. T. Fields of this city, and is a graduate of Shamrock High school and of Texas Technological college, Lubbock.

# MPARTLAND WAS FIRST GAME OF SEASON FROM SPUDS

## Gassers, Big Spring Have Won 5 Games

WICHITA FALLS, May 1—John McFarland, Pampa's tall left-handed chucker, had things well under control here yesterday when he pitched the Oilers to their first victory of the season, a 13 to 0 slaughter of the Spuders.

McFarland gave the Spuders only six singles and although he walked five, he never let a runner get as far as third base.

Monty Montgomery or Frank Grabek is scheduled to go today for the Oilers, opposed by old Red Lucas, famous lefthander.

Sam Malvica paced the Oilers at the plate yesterday with three singles. Manager Dutch Fraher, Hatfield and Reynolds followed with a double and single each. Phillips got three singles for Wichita Falls.

Borger's Gassers continued their uninterrupted string of victories yesterday when they downed Lubbock 9 to 4 with Gilbert Vannoy, former Pampa Oiler, on the mound. Big Spring, loser of only one game, defeated Amarillo 2 to 0. Clovis drubbed Lamesa 6 to 0 in the other game.

Borger has now won five straight games, while Big Spring, a Brooklyn Dodger farm, has won five and lost one. Pampa and Wichita Falls are tied for the cellar, with one win and four losses each.

The box score:

PAMPA		AB	R	H	PO	A	E

## 700 From 7 To 70 Appear In National Roller Skating

Yesterday's ninth victory at Brooklyn came on the anniversary of their ninth straight last spring in Cincinnati, the day Tex Carleton pitched his no-hitter. What has the Flatbush fans jittery today is the memory that Brooklyn was beaten a year ago today by Bucky Walters, who was slated to try to stop the Dodger onrush again this afternoon.

Johnny Vander Meer put the brakes on Brooklyn for seven innings yesterday, scattering three singles and striking out eight while his teammates routed Kirby Higbe, for 3-0 lead. But in the eighth inning Dixie Walker and Joe Medwick hit home runs, sandwiched around a walk, to tie the score and in the ninth Mickey Owen and Pee-wee Reese smacked a pair of doubles for a run to win 4-3.

The Cardinals hopped on Hal Schumacher for a dozen hits, including homers by Country Slaughter and Johnny Mize, to whip the New York Giants again 6-4. Young Sam Nahem kept out of trouble till the eighth, when Babe Young homered with two on. The Giants got only six hits.

The Chicago Cubs clustered four runs and struck out six as the Phillies punned the Pirates 8-4.

The Cleveland Indians extended their winning string to six by overtaking the Philadelphia Athletics 6-5 on Ken Keltner's two-run homer with two out in the ninth inning. The Detroit Tigers finally roused from their hitting slump to roar out with 18 hits and subdue the Boston Red Sox 12-8.

The Chicago White Sox held onto second place in the junior circuit by beating the Washington Senators 5-1, scoring four runs in the eighth inning when Ken Chase blew up and walked three.

Joe Gordon and Marius Russo led the New York Yankees to vengeance against the St. Louis Browns, 7-1.

## Dodgers Climb Into First Place In National League

**By JUDSON BAILEY**  
Associated Press Sports Writer

The National League race is in its typical spring squeeze, tighter than the cover on a baseball.

The Brooklyn Dodgers climbed into first place Monday by winning their seventh straight game. Tuesday they won their eighth and slipped into a tie. Yesterday they won their ninth in succession and dropped into second place.

This would seem to be going full speed forward in reverse and that may be just as clear as trying to explain the actual jam now involving the Dodgers and the St. Louis Cardinals.

Brooklyn has won 13 games and lost 4 for a .765 percentage, while St. Louis has a record of 10 and 3 for .769. Actually, on the basis of games won and lost, the Dodgers are in front of the Redbirds by a full game, but because the Cardinals have played fewer games, and lost less, they have an advantage in percentage.

Yesterday's ninth victory at Brooklyn came on the anniversary of their ninth straight last spring in Cincinnati, the day Tex Carleton pitched his no-hitter. What has the Flatbush fans jittery today is the memory that Brooklyn was beaten a year ago today by Bucky Walters, who was slated to try to stop the Dodger onrush again this afternoon.

The Chicago White Sox held onto second place in the junior circuit by beating the Washington Senators 5-1, scoring four runs in the eighth inning when Ken Chase blew up and walked three.

Joe Gordon and Marius Russo led the New York Yankees to vengeance against the St. Louis Browns, 7-1.

## No Favorites In Kentucky Derby Classic

**BY ORLO ROBERTSON**  
LOUISVILLE Ky., May 1 (AP)—War news was all but shunted to the sidelines today as this horse loving community plunged headlong into its annual guessing game.

The daily papers still head-lined the news from abroad but along the main drags, in hotel lobbies, barber shops, and taverns the No. 1 question did not concern war. It was: Who will win the \$75,000 Kentucky Derby over Churchill Downs' classic mile and a quarter late Saturday afternoon.

Eleven three-year-olds, survivors of an original field of 112, are expected to answer the call to "Boots and Saddles" around 5:45 p. m. Eastern Standard Time, before some 75,000 fans but there's not a Bimelech, Johnston of War Admiral among the lot.

There's Our Boots, winner of the high 1940 Belmont Futurity which never has sent its victor on to capture the Derby; Whirlaway, top money winning two-year-old of last year; Dispose, good enough to whip Florida's top three-year-olds in the Flamingo at Hialeah Park and Porter's Cap, who showed the way home in the \$50,000 Santa Anita Derby and Chesapeake Stakes at Havre De Grace.

All but Dispose figure to be high in the wagering—Our Boots because of his fine showing in the Bluegrass Stakes at Keeneland; Whirlaway because of his fast closing second to Blue Pair in Tuesday's Derby trial and Porter's Cap because of his Santa Anita and Chesapeake triumphs and the ownership of Charles S. (Lucky) Howard. Lady Luck has been running for Howard since the west coast automobile dealer purchased Seabiscuit a few years back and there are many who think she'll be on hand again to help Buddy Hias foot the Cap home.

## Phillips Will Fire First Baseball In Semi-Pro League

ENID Okla., May 1 (AP)—Any public official can toss out the first baseball and start one game, but Governor Leon C. Phillips will fire his best pitch across the plate here Sunday and send 80,000 semi-pro teams into action on 40,000 diamonds.

Phillips, a former University of Oklahoma athlete, will take his signal from George H. Sliser, once a pretty fair ball player himself and now National Semi-Pro Commissioner.

Actually, the governor's heave will open a game between the Champlin Refiners of Enid, national semi-pro champions, and an Oklahoma City team.

But the game has been designated the key contest for official launching of the semi-pro season from coast to coast.

The estimate of 40,000 games comes from the national semi-pro baseball congress which is to time for the start of all of them at 3 p. m. (CST) Sunday.

From the 80,000 teams will come the 32 survivors of district eliminations, which qualify for the 1941 national tournament at Wichita, Kas., Aug. 15 to 27.

Try some rains in your biscuit, the next time you make them. Raisins are an excellent source of iron.

## Sports Roundup

NEW YORK, May 1—Paste this California feed box special in your derby: Porters Cap, Dispose, Starederby, in that order. . . Abe Simon, who has insured his hands for 25 thousand \$, is the first pug on record to roe same. . . Abrahams taking no chances on his dukes being put out of commission before the (if and when) Joe Louis encore. . . Lou Tufano was so tickled when his Market Wise won the Wood Memorial last week, he gave Trainer George Carroll and Jockey Don Meade checks for \$5,000 each. . . Lou Novikov off warns the bench. It was the old balljoo got him.

Yep, that's them.

First place or last, they're the same old Dodgers. . . The other day they made a double play to start the fifth and the entire crew, pitcher, infielders and outfielders, came charging into the bench thinking the inning was over.

**Sports Bulletin Board**

Blue Pair the Derby candidate, which changed hands for \$40,000 recently, was just about to be sold to Louis B. Mayer, the movie magnate, for \$100,000 when it hurt a leg last February. . . Oklahoma U. is trying to book Auburn for a 1942 football date. . . Attention, Boston: Francis Zivic says his return bout with Mike Kaplan will go to either New York or Pittsburgh despite a \$17,500 guarantee from Boston parties. . . Uncle Sam is beckoning Kenneth Simons, one of the best sports columnists in Kansas and his place on the Pittsburgh Headlight-Sun is being taken over by Frank Hansford. . . It took Paddy Berg eight months to write her new tome on golf.

## 700 From 7 To 70 Appear In National Roller Skating

Yesterday's ninth victory at Brooklyn came on the anniversary of their ninth straight last spring in Cincinnati, the day Tex Carleton pitched his no-hitter. What has the Flatbush fans jittery today is the memory that Brooklyn was beaten a year ago today by Bucky Walters, who was slated to try to stop the Dodger onrush again this afternoon.

Johnny Vander Meer put the brakes on Brooklyn for seven innings yesterday, scattering three singles and striking out eight while his teammates routed Kirby Higbe, for 3-0 lead. But in the eighth inning Dixie Walker and Joe Medwick hit home runs, sandwiched around a walk, to tie the score and in the ninth Mickey Owen and Pee-wee Reese smacked a pair of doubles for a run to win 4-3.

The Cardinals hopped on Hal Schumacher for a dozen hits, including homers by Country Slaughter and Johnny Mize, to whip the New York Giants again 6-4. Young Sam Nahem kept out of trouble till the eighth, when Babe Young homered with two on. The Giants got only six hits.

The Chicago Cubs clustered four runs and struck out six as the Phillies punned the Pirates 8-4.

The Cleveland Indians extended their winning string to six by overtaking the Philadelphia Athletics 6-5 on Ken Keltner's two-run homer with two out in the ninth inning. The Detroit Tigers finally roused from their hitting slump to roar out with 18 hits and subdue the Boston Red Sox 12-8.

The Chicago White Sox held onto second place in the junior circuit by beating the Washington Senators 5-1, scoring four runs in the eighth inning when Ken Chase blew up and walked three.

Joe Gordon and Marius Russo led the New York Yankees to vengeance against the St. Louis Browns, 7-1.

The native of the Netherlands missed ice skating so much in the summer that he attached rollers to strips of wood on his shoes. . . There are rules and regulations and a lingo peculiar to the pastime. About 90 per cent of school children own skates or hold part interest in a pair. You'd be surprised, too, to see the number of what clothes advertisements call "stylish slouch" persons gliding or sliding, as the case may be, over rinks and sidewalks.

**CHAMPION TAKES UP SPORT FOR HEALTH**

Roller skating has even been mentioned as a preventive for stomach plicers. Pretty Mary Keating, a Massachusetts state champion from Weymouth, reports a physician advised her to take up skating when she was threatened with that ailment.

Miss Keating did and now she's as healthy an Irish lass as you could hope to see and a dance skater de luxe.

It costs amateurs about \$50 to prepare for national meets—from \$5 to \$20 for uniforms and \$30 for one pair of skates. Maple wood rollers cost \$12.50 a set. Bearings are more expensive.

**RINK OPERATORS DEFRAY STAR SKATERS' EXPENSES**

Skaters prepare for tournaments by skating for four to seven nights a week, depending on the condition of their bankrolls. Most rinks charge from 30 to 50 cents a night, outfitting the customer with a pair of \$25 fiber-wheeled skates which clamp onto street shoes. A few fancy rinks such as Radio City in New York charge as much as \$1. Here patrons are supplied with shoe skates costing from \$17 to \$60 a pair.

Rink operators furnish the better skaters transportation to the national meet and give them \$4 a day for expenses.

When it came time to introduce Harry Stuhldreher at a Des Moines dinner the other night, the toastmaster stumbled all over the name, unable to pronounce it. . . Harry got up and addressed the guy thusly: "That's all right, partner, I had the same trouble with it until I was eight years old."

**Caught On The Fly**

Victor O. (Boston Globe) Jones, who has been waging a one-man campaign to have big league scoreboards flash "hit" or "error" on doubtful plays, will be interested to learn the Giants have started doing same. . . note to six residents of Torrington, Conn.: The son of John Enochborough, one of Joe Louis' managers, is a promising quarter-punter at Michigan. . . Bill Keefe, of the New Orleans Times-Picayune, who called the first three horses in the 1936 derby, has the gout and will be missing at Louisville Saturday for the first time in 20 years. . .

**Today's Guest Star**

James E. Doyle, Cleveland plaindealer: "Derby tip: Our Boots—and shoes for the baby?"

**It's About Time**

This is May day and the Cincinnati Reds are hoping they'll be able to put on a big parade over in Flatbush this afternoon.

## Don't Overlook White Sox, Says Manager Mack

CLEVELAND, May 1 (AP)—"Don't overlook the White Sox," Manager Connie Mack of the Philadelphia Athletics said last night in a banquet speech.

Discussing the American League pennant race, the 78-year-old leader added Chicago has "what a pennant-winning team must have—pitching."

"I am not making predictions this year," Mack declared, "but I will say this: The team with the best pitching staff will win the pennant. We used to figure pitching about 70 per cent of a ball club's strength—I would say now that 90 per cent isn't too much."

## Heavy Artillery

Roller skating has even been mentioned as a preventive for stomach plicers. Pretty Mary Keating, a Massachusetts state champion from Weymouth, reports a physician advised her to take up skating when she was threatened with that ailment.

Miss Keating did and now she's as healthy an Irish lass as you could hope to see and a dance skater de luxe.

It costs amateurs about \$50 to prepare for national meets—from \$5 to \$20 for uniforms and \$30 for one pair of skates. Maple wood rollers cost \$12.50 a set. Bearings are more expensive.

Try some rains in your biscuit, the next time you make them. Raisins are an excellent source of iron.

## 28 Baseball Games Washed Out In Texas In Two Weeks

(By The Associated Press)

It's been so damp this year that Texas league players complain they haven't been able to get the milder off their uniforms and pitchers claim they have to rub the moss off the ball before hurling it in the direction of the batter.

Bucketfuls of aqua have washed out 28 baseball games since the league season opened a little more than two weeks ago. Club owners wonder desperately how they can arrange enough doubleheaders to take care of the deferred games.

Bored baseball writers are thumbing through record books to see if the current rainy season hasn't established a high-water mark for the number of postponed contests.

The Dallas at Houston, and Tulsa at Shreveport games were called off last night because of a continuation of the daily plague which the heavens have released hereabouts. However, the San Antonio Missions, who managed to play only one of their first eight home games, got underway and squeezed out a 2-1 victory over the Fort Worth Cats on the latter's ground, The Oklahoma City Indians, who have to make up three rained-out contests, eased through with a 1-0 win over their hosts, the Beaumont Exporters.

## Texans Urged To Enter National Open Golf Tourney

**By HAROLD V. RATLIFF**

DALLAS, May 1 (AP)—A man-sized drive is brewing in Texas to get everybody who can lift a driver entered in the National Open Golf tournament at Fort Worth, June 5, 6, and 7.

The reason: Texans have done a deal of talking about how good their amateurs are and the fans would like to see for themselves now that they will have the chance to witness a national open in their own state.

As Larry Nabholz, veteran pro who has played against the best of them in the open, puts it, it behooves all Texas golfers to see their entries go in, regardless of whether they intend to compete, in order to boost the total.

Because it is the entry list that sets the allotment for sectional qualifying.

The more places allotted to Dallas and Houston, sites of the sectional qualifying, the more chances there are of having a flock of top amateurs shooting for the big prize at Colonial club in June.

There will not be many resident Texas pros playing in the sectional rounds, thus leaving the way open for the amateurs to take the lion's share of the spots. That's where the bulging entry list comes in.

Nabholz, who is the pro at Lakewood Country club, Dallas, keeps in close touch with the situation over the state, and he picked these as probably having the best chances to qualify: Billy Bob Coffey of Fort Worth, Jack Mygger, Harry Todd,

## Groom Schools Will Run On 12-Year Plan

Special To The News

GROOM, May 1—At a recent meeting of the board of education it was decided that Groom school adopt the 12-grade plan for the school year 1941-1942. This adoption was in accordance with the greater number of schools in Texas, as estimates are now made that approximately 805 Texas schools will operate on this plan during the coming year.

The grade placement of pupils will not be disturbed in high school as the grade was added in grammar school by splitting the work given in the fifth, sixth, and seventh grades into approximately the same work to be given in the fifth, sixth, seventh, and eighth grades. This special arrangement was used to give weak pupils eight year's work before entering high school. The beginning first grade class will begin on a balanced eight-year elementary course.

YESTERDAY: Disturbed by the mystery telegram, Carolyn reveals the envelope, leaves it on Leana's desk. Then she investigates the situation. The X-999 is to be carried in a freight car, accompanied by guards.

CAROLYN WORKS FAST

CHAPTER XV BOB came to Carolyn's home because it was the quickest way for them to meet. She had snatched on the first clothes available and she literally ran into the night when his car swerved to the curb.

"Oh, Bob!" She tried to speak calmly. "The X-999 was not on that freight train! It is still safe here in the city!" "I helped put it on myself, yesterday morning!"

"No! You put on dummy packages! Bob—listen, I know you don't understand, but Ken Palmer and I removed those inner leaden boxes and substituted rocks! Yes, rocks!"

"But Carolyn—" He was beginning to believe, at least to hope. He gripped her shoulders now. "I was going to tell you but you were away all day yesterday. Ken and I did our work at 2 in the morning. The stuff is safe. I—Bob, I had a sort of tip. A hunch! Don't ask me any more yet. Just come on let me drive!"

She ran around to the wheel and when he had collected his wits again they were well out toward their Schoenfeld Laboratory. "What are we going to do?" he asked.

"I want to stop your worrying. If you won't ask too many questions. Bob, I—oh, you must trust me! You must! I mean, about why I did it."

He was silent for a block longer. "Of course, Carolyn. I am so deeply grateful now that I would do anything you ask. Frankly, I am almost sick with the letdown. You have no idea what a strain this has been!"

"Yes, I think I have."

SHE took him right into the compound and to the laboratory proper. He was surprised to see several of his hired guards still on duty. "I ordered them to stay," she explained. "And paid them."

She had a key to the laboratory door. "I copied your key, Bob. Had it done. Stuck yours on chewing gum to get a mold, then used candle wax. A keysmith cut one easily from that. I—forgive me, Bob! And wait!"

She let him in and the door closed behind them. For a moment they stood in semi-darkness. Only the great looming form of the Schoenfeld cyclotron assailed them, silhouetted in part against the high windows. Lesser machines, bulky and strangely ominous even by day, were lurking beasts here at night, great black forms about the vast room.

"Perhaps it is best not to turn on the main lights," she said. "Wait—a desk lamp!" She crossed to the sturdy oak cabinet table where work sheets were usually spread out. In a moment she had the small light burning.

"Bob—please." He came over. He was still in somewhat of a daze. While he watched, she swung back one of the four broad bottom doors of the cabinet. Gingly she then lifted the lid of a strong wooden packing box. Bob peered in.

He saw four small leaden cases, sealed, cushioned in crude but effective burlap padding. He knew them to be his own. "Carolyn!" He barely breathed that, but it was a speech of infinite relief and gratitude.

LEST state police and newspaper reporters flood the laboratory, Bob hastened to go back downtown. He didn't want too much attention to him and his work. He explained to police that his shipment had been chemicals only and that he couldn't imagine who would steal them, nor why.

One of the train robbers was caught. He talked freely. "I tell you, I don't know what we was after!" he kept saying. "We was hired to bring off a heavy box. It musta been a money box, but somebody beat us to it and put in rocks! Springs and cotton around 'em, yeh! Damndest thing I ever seen. But we not paid first!"

"Who paid you?" "Didn't know him. Didn't care. Figured we'd just open the box ourselves and take what we wanted, see? The dirty double-crossing—" He was profane about the rocks, even though the robbers themselves had planned the first double-cross.

By mid-morning Leana Sormi had returned, heard of the robbery and she rushed to Bob with every possible aid and sympathy. Carolyn left them at state police headquarters. She was strangely keyed up now. She even forgot to eat.

"I have to move fast!" she told herself, shrewdly. She called a taxi, went to a bank and took out all the \$340 she had saved. Next she ordered a taxi driver to take her to the municipal airport, and there she made another business deal.

By upon her taxi driver had her back at the laboratory again, and when she alighted this time she smiled her sweetest at him and said, "I need a strong man to help me carry something."

"That's me, miss!" the driver answered with alacrity. "You want a trunk moved? I'll make room on the back rack." "Not a trunk, a box. And—I'd be ever so much happier if it went inside. On the seat itself, I—here!" She thrust a \$5 bill at him.

He grinned. "Lady, I'll carry the box in me teeth if you want!" SHE asked two of the guards to help him. The box was small but astonishingly heavy. She explained, in partial truth, that it contained some leaden forms which Dr. Hale wanted moved, and some "other heavy junk." Her heart went bump-bump-bump double time during the whole loading procedure.

Some 40 minutes later she had transferred the box to an airplane, a powerful cabin ship now under her personal lease, with pilot awaiting orders. She told the pilot she would be back.

"We going after another box, miss?" her taxi driver asked as they drove away from the municipal air field this second time. "No. After a—man." "Himmmmmm!" He grinned. "Elopement, I bet!" She sighed at that, in a much-needed relaxation. "I wish it were. Driver, how in the world does a—a self-respecting girl pursue a man?"

Flashes Of Life

(By The Associated Press) PLEASANTVILLE, N. Y.—Mr. and Mrs. Charles Chamberlain have been living here for nine months, but until today didn't know their address.

Their four-block-long street bore the names Chamberlain Drive, Bedell Place, Rock Way and Pierce Drive until the Chamberlain's plea to the village board resulted in abolition of the first three.

HUNTINGTON, Ind. — Charles Payne, 63, walking by the Wabash river, saw a dog struggling in mid-stream, weighted down by a collar and chain.

He took off his coat and shoes, put a pocket knife between his teeth, swam out and cut the collar off.

The dog, freed of the weight, swam to the bank with Payne.

CHICAGO—Chan Chong, a Chinese, was standing on a street corner when two autos collided at the intersection. One of the cars, thrown out of control, scooped Chong up on its bumper, carried him through a drug store window. The machine struck a soda fountain, tipping it over and pinning two clerks against a wall. Chong and the clerks were injured.

STERLING, Ill.—Button, button, who has the button? Well, Mrs. Christine Butser has for one. In fact she has a collection of more than 8,000 buttons, amassed during the years as a hobby. She says no two are alike.

# Miss Burton Tolbert Becomes Bride Of Jeff Bearden Wednesday

## Couple To Be At Home In Pampa Following Trip

The marriage of Miss Burton Tolbert and Jeff D. Bearden was solemnized in an impressive ceremony at 4 o'clock Wednesday afternoon in the First Methodist church in the presence of a large group of relatives and friends. The bride is the daughter of Mr. and Mrs. Weimer S. Tolbert, and Mr. Bearden is the son of Mr. and Mrs. J. M. Bearden of Littlefield.

The single ring ceremony was read by the Rev. W. M. Pearce, minister, before an altar lighted with tapers in tall white candelabra. Classic white urns of gladioli were arranged before a setting of Woodwardia and Kentia palms, and Northern ferns decorated the low rail. Arrangements of white gladioli marked the pews.

Preceding the service, Mrs. Kermit Lawson played "Ah, Sweet Mystery of Life" (Herbert) at the organ, after which Miss Louise Smith sang "Because" (D'Hardelot), and "I Love You Truly" (Bond), with Mrs. Lawson as accompanist. As the bridal procession entered, Mrs. Lawson played the Bridal Chorus from Lohengrin (Wagner) and Mendelssohn's Wedding March as the recessional.

The bride, who was given in marriage by her father, wore a gown of white satin, fashioned with a close-fitting bodice, and leg-of-mutton sleeves. Small satin buttons extended from the sweetheart neckline to the low waistline from which the full flared skirt fell into a short train. Her finger-tip veil was held in place by a coronet of orange blossoms, and she carried a shower bouquet of gardenias and stephanotis. For "something old" she wore a single strand of pearls given to her grandmother by her grandfather.

The bride's sister, Miss Mildred Tolbert, served as maid of honor, wearing a blue marquisette frock designed with a sweetheart neckline, long full sleeves, and bouffant skirt. She wore a hat of half blossom pink carnations and carried a colonial bouquet of matching flowers.

James Weir attended Mr. Bearden as best man. Ushers were James L. Myers, Steve Matthews, and Alvin Bell.

The wedding ceremony was followed with a reception in the home of the bride's grandmother, Mrs. A. J. McAfee. Receiving with the bride and bridegroom, were Mrs. Tolbert, Mrs. McAfee, and Miss Tolbert.

In the dining room the bride's table was centered with three wedding bell cakes arranged before tall, white tapers and white florets of gladioli embedded in maline. The entire arrangement was encircled in maline. Bouquets of white gladioli were used throughout the house. Miss Dorothy Jo Taylor served punch from a crystal bowl and Miss Johnnie Hodge presided at the cake. Mrs. Alvin Bell had charge of the bride's book.

Following the reception, the couple left on a wedding trip to Houston and other southern points. They will be at home in the Houk apartments after May 15.

For travel, Mrs. Bearden wore a suit of milk chocolate brown and beige with matching accessories and a corsage of gardenias.

The bride, who is a daughter of a prominent pioneer family, is popular in the social groups of Pampa. She was graduated from Pampa High school and later attended Texas Technological college at Lubbock. Mrs. Bearden is a member of Upsilon chapter of Beta Sigma Phi sorority of which she recently was elected president.

Mr. Bearden, who is representative for the Franklin Life Insurance company, is a director of the local Kiwanis club and is a member of the Junior Chamber of Commerce.

Out-of-town guests at the wedding included the bridegroom's brother, Woodrow, and Mrs. Bearden of Lubbock; Mr. and Mrs. H. Banks Jones of Amarillo, and Mr. and Mrs. Don Wyatt of Amarillo.

At the rehearsal dinner Tuesday evening in the Schneider hotel, an arrangement of vari-colored tulips centered the table. Those attending were Mr. and Mrs. Tolbert, Mrs. Kermit Lawson, Mildred Tolbert, Miss Louise Smith, James Weir, Steve Matthews, James L. Myers, Alvin Bell, and the bride and bridegroom.

### POPULAR APRIL BRIDE

Mrs. Jeff D. Bearden was Miss Burton Tolbert before her marriage which was solemnized in a beautiful ceremony Wednesday afternoon at 4 o'clock in the First Methodist church with the Rev. W. M. Pearce, minister, officiating.

### NEW PLAY FROCK

This type of flaring front-button frock looks sweet on girls of all sizes between 4 and 12. It's easy to make, easy to get into, and easy to iron, because you can spread it out flat on the board. Choose crisp cottons for this—plique, percale, gingham, or broadcloth, and trim with ric-rac.

Pattern No. 8907 is designed in even sizes 4 to 12 years. Size 6, 2 1/4 yards 35-inch material without nap; 1 1/4 yards ric-rac.

For this attractive pattern send 15c in coin, your name, address, pattern number, and size to The Pampa News Today's Pattern Service, 211 W. Wacker Drive, Chicago.

### Pampan Conducts Memorial Service At Final Session Of Convention

Mrs. Garnet Reeves of Pampa conducted the memorial service, "Members in Memory," at the concluding session of the twentieth annual spring convention of the seventh district, Texas Federation of Women's clubs today in Amarillo.

Today's program included the following: 8:30 o'clock, early morning session, informal continuation of discussion of April 30.

9 o'clock, convention called to order; invocation, Luther Roberts, pastor, Central Church of Christ; salute to the flag, Mrs. Walton Hale, Florida, leader; convention singing; report, fine art department, Mrs. Robert Hester, Levelland; business publicity clinic, Miss Margaret Turner, Lubbock; Mrs. Evelyn Boyd, Mrs. Wayne O'Keefe, Mrs. Aubrey Jackson, Amarillo, and Mrs. R. J. Turentine, Denton; report, American Citizenship department, Mrs. T. B. McCarter, Canyon; music, Amarillo College Girls' quartet, Dean F. D. Jackson, director; report on yearbook department, Mrs. J. M. Crews, Childress; chairman; report public welfare department, Mrs. R. Kincaid, Crowley, chairman.

Address, "Our Water Supply Today and Tomorrow," State Water Board, Plainview; music, Hall County Rural School chorus, Miss Mary Foreman, director; report, Miss Vera Topp Gilchrist; "The Ladies' Study Club of Ideal Meets," Mrs. W. N. Hester, leader; report on yearbook judging, Mrs. E. B. Guver, Borger.

Members in memory, memorial service, Mrs. Garnet Reeves, Pampa; resolutions; announcements.

12 o'clock, May Day luncheon and award session, Mrs. A. J. Volley, toastmaster; invocation; address, Mrs. Joseph M. Perkins, Eastland, director, General Federation of Women's Clubs; music, MacDowell Club chorus, choral solo, Mrs. E. A. Paschal, director; awards; invitation to 1942 convention, Mrs. E. A. Paschal, director; "The Seasons," Mrs. E. A. Paschal, director; awards; invitation to 1942 convention, Mrs. E. A. Paschal, director.

Although registration for the convention was closed Tuesday with 340 names on the list, a much larger crowd attended Wednesday.

The reason was the influx of junior clubwomen who arrived for the morning club report sessions and the luncheon honoring junior club officers and members.

The juniors were in town bright and early, for their day began at 8:15 o'clock with a forum conducted by Mrs. J. M. Crews of Childress, district junior club chairman.

Included on the forum were a discussion of "What the Federation Can Do for the Junior Clubs" by Mrs. F. W. Walker of Plainview, T. F. W. C. president; and "What the Junior Clubs Can Do for the Federation" by Mrs. Lyle Holmes of Shamrock.

At the same hour, Mrs. J. A. Hill of Canyon presided for a senior club forum, on "Better Clubs for 1941-1942," Mrs. Meade F. Griffin of Plainview discussed "some timely projects" and Mrs. T. Jean Rodgers of Canyon discussed "A State Program Service."

After the convention was called to order by the district president, Mrs. H. F. Godeke of Lubbock, and routine announcements were made, the convention was adjourned for report sessions, delegates meeting in groups of junior clubs, city and county federation and senior clubs.

At 11:10 o'clock, the convention re-assembled for a talk by Dr. Earl G. Hamlett, pastor of the Polk Street Methodist church, on "Spiritual Defense." This phase of the program was arranged because of the need for an improved spiritual attitude in the national defense program, the convention theme being "Education for Democracy's Defense."

Highlight of the afternoon's program was an address on "Current Problems Shared by South American Countries and the United States" by Wes Izzard of the Globe-News.

Wednesday's program will be conducted with the annual Fine Arts program, arranged by Mrs. Robert Hester of Levelland, district fine arts chairman.

Club women of Texas need to recapture the faith in democracy held by their forefathers; to have their belief in equality, justice and freedom, Mrs. J. W. Walker of Plainview, president of the Texas Federation of Women's Clubs, told the Seventh District in convention assembled Tuesday night at the First

### Kingsmill HD Club Meets In Home Of Mrs. McBride

Kingsmill Home Demonstration club met in the home of Mrs. W. H. McBride at Kingsmill recently for an all-day session.

Two pieces of furniture, a console table made from two radio cabinets, and a rocking chair, belonging to Mrs. A. R. Walberg, were finished.

Mrs. Julia E. Kelley, who conducted the demonstration, stated that in refinishing furniture the beauty of the wood should be emphasized and not hidden by the use of paint and varnish.

The old finish was removed from the furniture by sanding and commercial varnish remover; then the furniture was washed with turpentine until the old finish was removed. A coating of boiled linseed oil was applied and the objects were placed in the sun to dry. Mrs. Kelley pointed out that this should be repeated for three days and then the surface should be smoothed with a cloth dipped in oil and powdered pumice stone. The articles should then be waxed with good furniture wax.

During the business session conducted by Mrs. O. G. Smith, president.

Invocation was said by Mrs. Ruth Delzell, then a musical program followed. Mrs. R. N. McKitterick sang and Mrs. Elizabeth Tucker played a violin solo. Mrs. A. D. Steed and Mrs. Beckie Reeder Arnold played piano accompaniments. Mrs. R. H. Hester played a piano solo.

Mrs. Tom Currie talked briefly on the founding of the Pierian club, and of the Potter county Federation. She named the eight founders who are still members of her club.

The luncheon table was U-shaped and blue flowers decorated the speakers' table. Smaller baskets of the same flowers decorated the sides of the table.

Mrs. I. D. Cole, assistant local program chairman for the convention, gave souvenir pencils to all the board members and honor guests at the luncheon.

A dinner Wednesday in the Fellowship Hall of Central Presbyterian church honored past district and state presidents, Mrs. J. E. Griggs, president of the Potter county Federation, served as toastmaster.

Athenaeum, Twentieth Century and Junior Child Study clubs served as hostesses during the Potter county Federation entertained with a traditional high tea at 3 o'clock Tuesday afternoon in the Federation club rooms. This will be the only group social of the convention. Approximately 500 club delegates, officials and visitors called.

Mrs. Thomas and T. P. Johnson Marry In Sayre

The marriage of Mrs. Ruth S. Thomas and T. P. Johnson was solemnized in Sayre, Oklahoma, on April 24.

Mr. Johnson is employed by the Pampa Water department. The couple is at home here.

### Women Golfers Hold Putt And Approach Test

A putt and approach contest featured the meeting of the Ladies Golf association yesterday morning at the Pampa Country club.

Each contestant was given three balls, placed 30 yards off the green with the object being to pitch the balls over a trap, onto the green, and sink the putts.

There were nine contestants. Mrs. R. M. Bellamy was first with seven; Mrs. F. A. Howard, second, eight; Mrs. Charlie Thut and Mrs. Carl Luedders each made nine, and Mrs. Art Swanson and Mrs. A. J. Beagle each made 12.

A handicap tourney is the contest for next week's meeting. The time of 9:30 a. m., was definitely set as the time for the regular Wednesday meetings.

Discussed at the meeting yesterday was a plan to join an inter-city golf association representing the three Amarillo links, two at Borger, and Pampa.

Winslow is to be the camp director, and the Rev. R. J. Snell, chaplain. The service at 8 p. m., will be in charge of the minister, the Rev. R. J. Snell.

### St. Matthew's YPL To Hear Talk By Lubbock Minister

The Rev. John A. Winslow, Rector of St. Paul's Episcopal church, Lubbock, and minister for the students at Texas Technological college, will be the guest speaker at the meeting of the Young People's Service league of St. Matthews Episcopal church Sunday night at 8:45 o'clock and will speak afterward at the regularly scheduled evening service at 8 o'clock.

Parents of the members of the league are asked to attend the league meeting as the subject for discussion is the young people's camp this summer, of which the Rev. J. A.
