10,000 AMERICANS FIGHTING FOR BRITAIN

FIFTH AVENUE KILLERS FAIL IN ESCAPE ATTEMPT

"Mad dogs," Anthony Esposito, left, being carried and William, right, both doomed to electric chair for 5th Avenue, New York, holdup murders, are dragged back to cells at Sing Sing prison after failing to make good a planned escape.

Dr. Brunow's Funeral To Be Held Saturday

Funeral services for Dr. V. E. von Brunow, 79, will be conducted at 10 o'clock Saturday morning in the First Baptist church by the Rev. H. R. Whitley, pastor of the First Baptist church, Haskell, and the Rev. C. Gordon Bayless, pastor of First Baptist church here. Burial will be in Fairview cemetery under direction of Duenkel-Carmichael Funeral home.

The body will lie at rest at the Duenkel-Carmichael Funeral home until 10 o'clock Saturday morning. Dr. Brunow, Pampa's first physician, died in a local hospital at 2:15 o'clock yesterday afternoon. He became ill Saturday morning and was taken to the hospital Saturday night.

Dr. Brunow came to Pampa in 1903 as physician and postmaster. His office and the postoffice were then located in a small frame building where the new Brunow Building stands. Soon after coming to Pampa Dr. Brunow organized the executive committee of the Republican party in Gray county and he was its only chairman. He was a member of the Elks club and the Kiwanis club, in which he was very active.

Born in Charleston, S. C., in 1862, Dr. Brunow moved with his parents to East Prussia at the age of two and went to the Mel Davis ranch where they assisted cowboys branding cattle. From the looks of the four they lost.

LOOK! PARADE VALUES. This is your guide sign to the greatest values ever offered in Pampa. Through the coordinated efforts of all Pampa merchants, this city-wide event, Monday, May 12, until 17, will demonstrate the vast facilities and wide selection of merchandise and service offered by the retail establishments of Pampa.

WATCH for Sunday's NEWS. You will find a special window sticker on the front page that when properly filled in will permit you the privilege of parking in the down-town district as long as you like while shopping during this outstanding event.

23 Boys And 17 Girls Born During April

Forty births were registered in Pampa during the month of April, according to certificates on file at the office of the city tax assessor and collector, W. C. de Cordova, who is also registrar of births.

As in the past three months, boys outnumbered girls, there having been 23 boys and 17 girls born during April. There were only seven deaths in Pampa during the month of April, according to death certificates on file. Birth certificates on file follow: James Eugene, son of Mr. and Mrs. James P. Boswell; Jackie, son of Mr. and Mrs. Bonnie Brown; Max Drew, son of Mr. and Mrs. Max W. Brown, LeFors; Margie Ann, daughter of Mr. and Mrs. Jerry W. Browning; Diana Rose, daughter of Mr. and Mrs. Kent K. Carpenter, Borger; Raymond Lee, son of Mr. and Mrs. Leamon Duke (negro).

Ronald Leon, son of Mr. and Mrs. Charles L. Elshelmer, Jr.; Staley, son of Mr. and Mrs. Siler Faulkner, Jr.; Gary Evan, son of Mr. and Mrs. V. Garland Prashier; Thomas Wade, son of Mr. and Mrs. Thomas E. Garrett, White Deer; Baby Boy, son of Mr. and Mrs. Kenneth E. Guyer; White Deer; Gloria Marie, daughter of Mr. and Mrs. Wallace E. Gillespie; Leland Gerald, son of Mr. and Mrs. George A. Hanson, White Deer; Allen Edward, son of Mr. and Mrs. Edd Harmon.

Baby Girl, daughter of Mr. and Mrs. John W. Harper, Skellytown; Tommy Edward, son of Mr. and Mrs. Russell L. Herring, LeFors; Joe Lawrence, son of Mr. and Mrs. Edwin Howard, McLean; Tommie Joyce, daughter of Mr. and Mrs. Charles H. Jenkins; Patricia Ann, daughter of Mr. and Mrs. Sam J. Keith; Ann Elizabeth, daughter of Mr. and Mrs. Russell H. Kennedy; Doris Jean, daughter of Mr. and Mrs. Leonard N. Killough; Beverly Mae, daughter of Mr. and Mrs. Mulford N. Knight; Jimmy, son of Mr. and Mrs. Tillman Lamb, White Deer. Earnest Lang, son of Mr. and Mrs. Euel M. Lane; Hubert Edward, son of Mr. and Mrs. Hubert E. Martin, Sr.; Baby Boy, son of Mr. and Mrs. Carl T. Mayberry; Baby Boy, son of Mr. and Mrs. Emery E. Morse; Linda Louise, daughter of Mr. and Mrs. E. Hansford Ousley, Jr.; Gordon Paul, son of Dr. and Mrs. Adrien Owens; Patricia Carrie, daughter of Mr. and Mrs. E. H. Pollard; Roy Harlan, son of Mr. and Mrs. Roy L. Prescott; Sandra Kay, daughter of Mr. and Mrs. Jess W. Reno. Raymond Earl, son of Mr. and Mrs. James G. Robertson; Lynda Cail, daughter of Mr. and Mrs. David T. Sharp, Skellytown; Kenneth Wayne, son of Mr. and Mrs. Willard C. Smith, McLean; Barbara Lea, daughter of Mr. and Mrs. Lee K. Stone; Sandra Sue, daughter of Mr. and Mrs. E. Bernard Stueben, Skellytown; James Allen, son of Mr. and Mrs. James A. Sturdivant; Joann Walden, daughter of Mr. and Mrs. Fred Thompson; Judith Ann, daughter of Mr. and Mrs. Henry G. Wilhelm.

Late News LONDON, May 8 (AP)—The destruction of 12 German planes in daylight tonight over England and off the coast, with the loss of only one RAF fighter, was claimed by the British tonight. AUSTIN, May 8 (AP)—The senate today rejected the appointment of Jeff Davis of Dallas as chairman of the state liquor control board.

Stamp Headquarters To Be Ready Tuesday

Popenoe Tells Essentials Of Ideal Marriage

Concluding a series of four lectures here, Dr. Paul Popenoe, family relations counselor of Los Angeles, addressed a crowd of young people and men and women last night at the high school auditorium to mark the ideal marriage was one in which the husband and wife had an equal division of personality traits.

Some marriages succeed even though one partner has a character that is nearly 100 per cent dominated by the other, but the best chance for success is one in which the man and wife know each other's personality traits in advance and learn to divide their responsibilities equally.

Wednesday afternoon, Dr. Popenoe addressed a group of women in the high school auditorium on "Success in Marriage," which he said was based on the parents' ability to send their children to college had only two children, whereas parents who could not do so and had children in institutions for the feeble-minded, had an average of five children to the family.

Wednesday morning Dr. Popenoe addressed junior high and high school students. He advocated the three-day waiting period between issuance of marriage licenses and the ceremony; pointed out the declining birthrate in the U. S.; and said that a survey showed that parents able to send their children to college had only two children, whereas parents who could not do so and had children in institutions for the feeble-minded, had an average of five children to the family.

Wednesday morning Dr. Popenoe addressed junior high and high school students. He advocated the three-day waiting period between issuance of marriage licenses and the ceremony; pointed out the declining birthrate in the U. S.; and said that a survey showed that parents able to send their children to college had only two children, whereas parents who could not do so and had children in institutions for the feeble-minded, had an average of five children to the family.

Congratulations—Mr. and Mrs. E. G. Lowrance, 504 Magnolia street, are the parents of a daughter, weighing seven pounds, five ounces, born Wednesday in a local hospital. She has been named Mary Louise.

Stamp Headquarters To Be Ready Tuesday

Headquarters of the food stamp plan in Gray county are expected to be set up by Tuesday at 535 S. Cuyler, J. E. Yoder, Gray county issuing officer said today. The plan is scheduled to begin operation on May 16.

Carpenters are at work now on the building's interior, remodeling it for office use. East and south side of the building will continue to be used as a commodity warehouse.

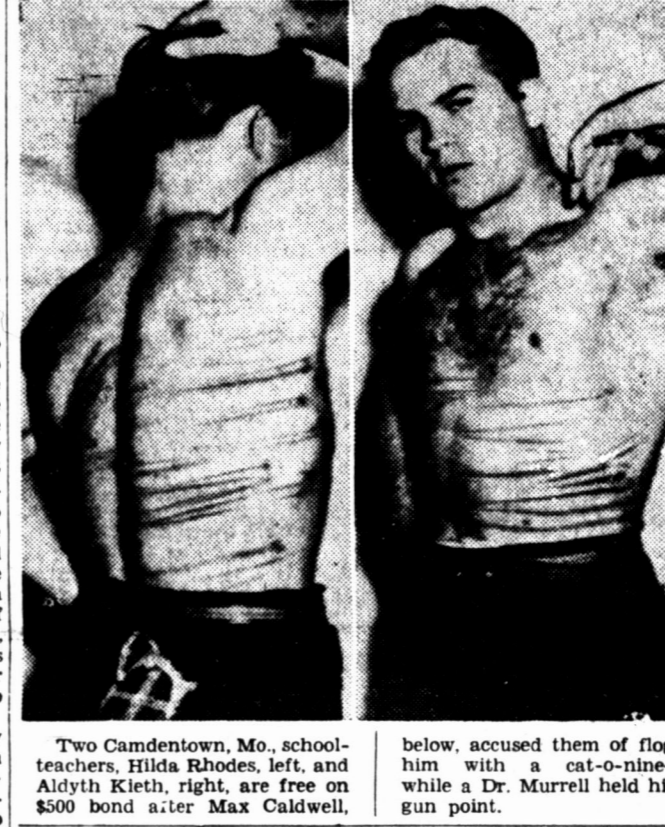

Food stamps are issued in two colors: Orange and Blue. Each stamp is worth twenty-five cents. The United States government gives blue stamps free with each purchase of orange stamps. Food Stamps may be exchanged for food articles at any participating retail food store.

Orange Stamps may be used to buy any food product taken home for human consumption. Food stamps cannot be used to purchase alcoholic beverages or tobacco, in any form, or for the purchase of household articles, such as soap, starch, fuels, matches, mops, brooms and other non-food items, nor for livestock. Stamps cannot be used to pay for food eaten at the store.

Blue Stamps can be used only to purchase farm products which the secretary of agriculture has designated as surplus. A list of the surplus commodities will be mailed to participating retail food stores. The latest list of items must always be posted in participating retail food stores.

Information for Eligibles 1. Who is eligible to participate in the food stamp plan? Answer: Any householder living in Gray county who has been certified as receiving or eligible to receive public assistance by the Gray county Department of Public Welfare. These families include cases certified for: (1) Old Age Assistance, (2) WPA (employed workers on a WPA project receiving security wages), (3) WPA-AA (awaiting assignment to project), (4) Commodity only commodities, (5) General Relief (families receiving direct relief).

TEACHERS FACE FLOGGING CHARGES

Two Camdentown, Mo., school-teachers, Hilda Rhodes, left, and Aldyth Kiehl, right, are free on \$500 bond after Max Caldwell, below, accused them of flogging him with a cat-o-nine-tails while Dr. Murrell held him at gun point.

All Americans Asked To Attend Ceremony

Every resident of Gray and adjoining counties is to take part in the "I Am An American Day" ceremony to be held at 3:30 o'clock Sunday afternoon, May 18, at Harvester park.

Both men and women who have become of voting age since May 18, 1940, and both men and women who have received their naturalization papers since May 18, 1940, should register on the blank form below. These were clarifications made today by the committee in charge of the observance.

University 'Tarzan' Meets Downfall BATOM ROUGE, La., May 8 (AP)—For the time being the Louisiana State university campus "Tarzan," George W. Miller of San Antonio, points upward.

RAF Downs 22 Bombers During Night

Berlin Gets Set For Heavy Bombings This Summer (By The Associated Press) Axis warplanes delivered a two-hour assault on Britain's vital Suez canal during the night, the British reported today, and struck with mounting violence at the island kingdom itself by daylight.

Nazi pilots reported big fires were raging in Manchester, English industrial city. German daylight raiders attacked Dover's balloon barrage, machine-gunned the streets in a southeast English town, and clashed with RAF defense planes in a series of blazing dogfights over the English channel.

The raid on Suez was believed to have been the longest there since the war began. British officials in Cairo acknowledged that "some damage" was inflicted on Egyptian state railway property but said there were no casualties.

Adolf Hitler's Luftwaffe stabbed at British coastal defenses with mounting violence today, machine-gunning the streets in a southeast town, attacking the Dover balloon barrage and clashing with RAF fighters in a series of battles high over the English channel.

Dispatches from London compared the Nazi hij-and-run forays with the furious daylight activity of last fall. It was estimated in London that 300 German bombers flew over Britain during the night.

Short Route Between Shamrock And Dumas Will Be Publicized The publicity committee of the Pampa Chamber of Commerce, of which Crawford Atkinson is chairman, will visit cities on the short routes between Shamrock and Dumas, through Pampa, next Tuesday distributing strip maps showing the two short routes between Shamrock and Dumas.

I Saw.... Last night Grover Gets sitting in stands when Shilling, Big Spring second baseman was kicked out of the game for cussing the umpire. As Shilling passed through the grandstand, Gets yelled, "Hey, fellow, I wouldn't let a little umpire do that to me. Go on back and play ball."

All County Schools To Close By May 27

Gray county schools will start closing the 1940-41 session next week when commencement exercises are held at the Laketon school, on May 16.

Closing date for Farrington, Webb, Back, and Grandview schools is May 23; for Hopkins 1 and 2, May 27.

County Superintendent W. B. Weathered is to address the graduating class of Webb on the night of May 20, and the seventh grade graduates of the Alnreed school on May 27.

All of the county schools will operate under the 12-year grade plan in 1941-42, Supt. Weathered said. Part of the schools functioned under the new system during the current school year.

Tired Kidneys Often Bring Sleepless Nights

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up at night. Frequent urination during the night is something wrong with your kidneys or bladder. Don't neglect this condition and lose valuable, restful sleep.

When disorder of kidney function permits poisonous matter to remain in your blood, it may also cause nagging backache, rheumatism, leg pains, loss of pep and energy, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Nazis Acting For Italy In U. S., Says Newspaper

NEW YORK, May 8 (AP)—The New York Post says in a copyright story today that the Italian diplomatic service in this country has ceased to function as an independent body, and that all of its mail, diplomatic and other, all of its personnel and funds have been taken over by German representatives.

While the Italians still occupy their offices and have the largest consular staff of any foreign country except Mexico, the story says, they can take no action without German approval.

The newspaper adds that on March 31 all 51 Italian consulates were told to get in touch with the nearest German consulates where instructions would await them.

These new instructions were said to have advised the Italian officials that all diplomatic mail thereafter would carry double locks and that keys for one set of these locks would be in possession of appropriate German authorities.

The instructions further said that all records involving all finances and fund-raising activities should be open to the Germans, the Post says, and that personnel of Italian consulates and semi-official agencies were to be checked by the Germans to make certain there were no anti-Nazi among them.

Some 300 places in Lincolnshire and Yorkshire, England, have names which show they originally were Danish settlements.

Pampa To Tulsa Highway Group Meet In Allison

The Pampa to Tulsa Highway association was organized in Allison yesterday afternoon when representatives from Pampa, Mobeetie, Allison, Reydin, Okla., and Cheyenne, Okla., met to name the association and to discuss plans for having the road between Mobeetie and Cheyenne, Okla., designated by the states of Texas and Oklahoma.

County Judge D. A. Hunt of Wheeler county reported that he would contact state highway engineers and have them inspect the road from Mobeetie to the Oklahoma line and that later he would head a delegation to Austin to appear before the highway commission asking that the road be designated a state highway.

The Oklahoma highway commission has already announced that it will designate the strip from Cheyenne to the Texas line providing the Texas commission designates the portion in Texas.

Attending the meeting from Pampa were Edwin Vickers, Im Collins, Sid Patterson, Crawford Atkinson, Vernon Hall, Howard Buckingham, Ed Myatt and Garnet Reeves.

Stamp Sales In Local Schools Reach Peak

Mrs. J. L. Lester's first grade room in Woodrow Wilson school is the first in the school to report 100 per cent sale of federal savings stamps. The perfect record was made through purchase of stamps by individuals and through a class fund, raised for entertainment purposes.

Best record of straight individual sales is in Miss Mary Herriague's fourth grade room where 16 out of 30 students purchased stamps.

Two students in the school purchased bonds.

Sale of the savings stamps in local schools has been so great that only a few are now available and Postmaster C. H. Walker has had to place another large order.

Principal Aaron Meek of Baker school reported that he went to Miami yesterday to secure some stamps.

The office set up in junior high school has had to close because of lack of stamps.

Other schools also reported selling nearly out and now the campaign will rest until more stamps are received.

Walker Funeral To Be Held Friday

Funeral services for James Robert Walker, 74, will be conducted at 10:30 o'clock Friday morning in the chapel at Huffman-Nelson Funeral home by the Rev. Orlow Rusher, pastor of Fourfold Gospel church, New York City. Burial will be in Fairview cemetery.

Mr. Walker, Pampa resident for 13 years, died at his home here Sunday of a heart ailment.

The Rev. and Mrs. Rusher, and Mr. Walker's daughter, Miss Elizabeth Walker, arrived from New York last night.

There Is No 'Magda' Lupescu, Even Carol Calls Her 'Elena'

BY JOHN EVANS
Chief of the Associated Press Foreign Service

ABOARD THE SS EXCAMBION, AT SEA, May 8 (AP)—There is no "Magda" Lupescu.

The companion of ex-King Carol in his 10 years on the throne of Rumania and in exile was named Elena and she has no other name. Who first called her Magda and why neither she nor Carol knows. She thinks French newspapers first used the name Magda through carelessness or ignorance.

Since Carol never mentioned her and never publicly replied to attacks on her, her true name never was known and apparently she remained in such discreet obscurity throughout the 16 years of friendship with the Rumanian monarch that her personality and appearance likewise were masked from the public.

Pictures and descriptions of her generally made her appear to be short, fat and with heavy-lidded eyes. In reality she is a tall, slender, cultured woman with soft reddish blonde hair.

Being on shipboard with her for a week I was anxious to learn what manner of person had inspired a king to remain loyal to so many years, often at great political and personal risk. I found an intellectual, charming, interesting woman with a certain odd beauty.

Mme. Lupescu, instead of being short, is five feet eight inches tall and says she weighs 123 pounds. She seems rather frail but she says: "I think I ski rather well, I play golf, I like walking and mountain-climbing, I ride horseback, I like hunting and I play tennis."

Speaking in French, Mme. Lupescu told frankly and easily of her life and likes.

"I know what often has been said of me but you can see for yourself that the picture the world has is not fair," she said.

Her hair never has had a permanent wave. It is cut rather long, is parted low on the right side and the ends curl outward and upward at the back. She has a heavy natural wave that needs only "setting" when her hair is washed.

There are some lines of anxiety on her face and forehead but they are so faint as to be hardly noticed.

She agreed that women seldom tell their ages but didn't disagree with my calculation that she must be about 35 or 36, although she looks younger. She met Carol in Bucharest, 16 years ago, when she probably was about 20.

She has eight wardrobe trunks with her, for about 40 dresses and sports outfits.

"I wear black, white and mauve that is near to violet, which is my favorite color," she commented.

Motorized

Highest ratio of ownership of motor vehicles on American farms is in southern and central California, where 97 out of every 100 farm families own such vehicles.

Young Mother Slain In Desert

SAN BERNARDINO, Calif., May 8 (AP)—A young mother was killed, her baby was placed in her arms, and her house guest was critically wounded by a gunman in the desert near Cajon Pass early today.

Mrs. Jean Wells, 20, of San Bernardino was slain, Rose Destree, 17, of Escondido, wounded, crawled to a highway and attracted motorists, who rushed her to a hospital for an emergency operation. Mrs. Wells' 12-month-old daughter was rescued by officers.

Mrs. Wells' husband, Ray, was missing and officers said he might have been harmed.

Undersheriff J. W. Stocker made a statewide police broadcast asking for the arrest of Alfred Wells, Mrs. Wells' brother-in-law.

Stocker said Miss Destree told this story: Wells, angry that his half-sister, Violet, had left his home, went to Mrs. Jean Wells' house about midnight. He demanded that she and Mrs. Destree help find Violet.

Wells drove the woman and baby into the desert, then forced them to walk half a mile through brush. He forced Mrs. Wells to write a note to her husband, Ray, asking him to tell where Violet had gone.

Then Wells killed Mrs. Jean Wells, shot Miss Destree, placed the baby in its mother's arms and left, believing Miss Destree was dead, also.

Women's Federation Announces Names Of Outstanding Women

WASHINGTON, May 8 (AP)—The General Federation of Women's clubs today announced its selection of 13 women in 30 occupations as representing "the great strides made by women in the past 50 years."

The women, who include Mrs. Franklin D. Roosevelt and Mrs. Charles A. Whiting, as "indubitably successful pioneers" have been invited to the General Federation's Golden Jubilee Triennial convention in Atlantic City, N. J., May 19-24.

The list includes: Business—Mrs. Eleanor Patterson, Washington newspaper publisher; Government service—Secretary of Labor Frances Perkins.

Humanitarian service—Mrs. Franklin D. Roosevelt; Journalism—Dorothy M. Dix of New Orleans.

Politics—Jeannette Rankin of Mont., first congresswoman; Mrs. Nellie Taylor Ross, first woman governor (Wyoming); Sen. Estelle Caraway of Arkansas, first woman to be re-elected U. S. senator; Mrs. Miriam A. Ferguson, former governor of Texas.

BPW Will Have Annual Mother's Day Breakfast

An annual event in the activities of Business and Professional Women's club is the Mother's Day breakfast to be held Sunday morning at 8:45 o'clock in the Schneider hotel.

Plans for the affair were made at a monthly meeting of the club's executive board this week in the club rooms.

A convention call to Lubbek was read from Meta Meadow, president, and letter from Austin asking for the local club's support for the state convention in 1942.

On May 21 the commercial merit award will be presented to a commercial student in the high school by the education committee.

Jury service is to be introduced into the senate Wednesday, it was announced. The election of officers will be conducted at the meeting next Tuesday evening and each member is asked to send her nomination ballot to Madge Rusk.

B. P. W. club is to have charge of the setting the date and sending out invitations for the Council of Club president reception next fall.

Attending the meeting were Mildred Overall, Lillian Jordan, Ruby McConnell, Vera Lard, Opal Wright, Jess Bumpass, Madge Rusk, Dalton Hall, Rowena Wasson, Madge Gee, Frances Craver, Letha Northup, Lillian McNutt, Audrey Prowler, Mildred Lafferty, Ruth Walstead, and Madeline Murray.

Bread Demonstration Conducted For H. D. Club Representatives

Representatives from five clubs met recently in Mrs. Julia E. Kelley's apartment for a demonstration on yeast breads presented by Mrs. Kelley, who was assisted by Mrs. Melvin L. Roberts.

Gray county wheat was used in whole wheat bread which was made, baked and served at the meeting.

Those attending were Meses. Oad Oatlin, Laketon; G. W. Schaffer, Eliseonnet; R. E. House and W. E. Boudreau, Wayside; H. C. Osborne, and Melvin L. Roberts, Coltexo Sunshine; S. E. Elkins, Kingsmill; and Mrs. Julia E. Kelley.

STARCHED WHITE PIQUE

Some of the smartest new hats seen in millinery departments are of starched white pique. You'll find these in all sorts of flattering shapes, both large and small, and they'll add a delightfully young and fresh accent to your navy blue or black costume. They're just as becoming, too, with beige and gray.

AT THE THEATRE TODAY!

LaNORA Phone 1231

TO PLAY FRIDAY

Marilyn Keck, daughter of Mr. and Mrs. L. E. Keck, is to play a piano solo, Rustle of Spring, (Sitting), at the spring recital to be presented Friday evening at 7:30 o'clock in the First Christian church by students of Mrs. May Foreman Carr. The annual program is to be given in observance of National Music week.

EASY TO IRON

You'll love this because you can spread it out flat on the board to iron—and even more because it's such a breezy, saucy, waist-beltting style, buttoned down the back like a small girl's pinafore! Choose giddy, colorful cottons for this; flowered chintz or percale, checked gingham, striped linen. Easy to make.

Pattern No. 8941 is designed in odd sizes 11 to 19. Size 13, 4 3/4 yards of 35-inch material.

For this attractive pattern send 15 cents in coin, your name, address, pattern number, and size to The Pampa News Today's Pattern Service, 211 W. Wacker Drive, Chicago, Ill.

HAVE YOU SEEN OUR NEW SUMMER Fashion book? More than 100 fascinating styles for and the children. Pattern, 15c; Pattern Book, 15c; One Pattern and Pattern Book, ordered together, 25c.

COLOR FOR LIBRARY

A library should have a restful atmosphere. Soft colors help to create this feeling. Starting off with mahogany furniture, one might select a soft, light brown paper or dull paint for the walls, cretonne draperies and slipcovers of a subdued floral pattern in lovely muted shades of blue, brown and rose, and a rug of a warm brown tone that will contribute pleasingly to the room's general tone of quiet, restrained harmony.

Miss Yokley And James Woodyard Wed At Canadian

CANADIAN, May 8—Simplicity and charm marked the wedding of Miss Sydna Yokley, daughter of Mr. and Mrs. J. L. Yokley, to James H. Woodyard, son of Mr. and Mrs. G. W. Woodyard of Fort Arthur, at 12 o'clock noon Wednesday, in the home of the bride's parents.

The Rev. W. H. Drake, pastor of the Presbyterian church, read the simple ring ceremony before the fireplace. The mantel held a crystal bowl of white bridal roses, wedge-wed Iris and lighted tapers. Floor baskets holding peach colored gladiolus banked the fireplace.

Mr. and Mrs. J. T. Burnett, cousins of the bride, were the only attendants. Mrs. Burnett's frock was of black sheer and her corsage was of black sheer with a corsage of gardenias.

The bride, who was given in marriage by her father, wore a black sheer frock with a corsage of gardenias. Mrs. Yokley, mother of the bride, wore black sheer with corsage of palest pink roses. Mrs. W. H. Woodyard, mother of the groom, wore a corsage of tallisman roses.

The bride out the tiered wedding cake which was outlined with scattered brides roses. A quaint music box furnished bridal numbers.

Mrs. Woodyard's wedding costume was a redingote of black sheer, cartwheel black Millan hat, black and white accessories and a gardenia corsage.

The bride has held stellar roles as a leading ranch girl, expert horsewoman and was a rodeo queen at Ft. Worth, Amarillo, Woodward, Okla., Top O' Texas, Pampa, Canadian, appeared in movie reels and had been featured in the American Magazine. After graduating from the Canadian High school she attended T. C. U. at Ft. Worth.

The groom attended Ben Bord's Playhouse at Los Angeles, California and T. C. U. at Ft. Worth, and has attended a government welding school.

The couple left for a tour of unannounced destination. Guests included only immediate relatives and were Mr. and Mrs. G. W. Woodyard of Fort Arthur; Mr. and Mrs. Newton Willis and daughter, Lonna, of Pampa; Mr. and Mrs. C. D. Yoekly, Mr. and Mrs. E. S. F. Brinard and Mrs. W. H. Drake, all of Canadian.

Homecoming Lunch Given By Members Of Study Club

SKELLYTOWN, May 8—Eleanor Roosevelt Study club was hostess to former members at a homecoming luncheon held at the home of Mrs. Ivan Reeder on Tuesday.

The club colors were carried out in the table decorations with crystal bowls of orchid iris flanked by yellow lilies, yellow and orchid pinks and a place card.

Mrs. Earl New, who was toast-mistress, gave a welcome to the guests and Mrs. T. B. Barron of Pampa gave the response. Mrs. K. A. Sorenson gave the invocation. Mrs. Henry Johnson read the letters of regret from former members unable to attend.

Mrs. P. E. Stephenson was leader for the program on "Thought" and gave a paper on "How We Think." Mrs. New presented "Thoughts and the True" and Mrs. Kermit Lawson closed the program with "Classic Thought Expressions."

Guests present were Mrs. Max Haise of Shamrock, Mrs. Ed Canady of Cunningham, Kansas, Mrs. Harry Sherrick of Higgins, Mrs. Hubert Bratcher of Groom, Mrs. T. B. Barron, Mrs. E. J. Haslam, and Mrs. Loune Clagg, all of Pampa; Mrs. Stella Tomlin and Mrs. Collins of Skellytown.

Members present were Meses. John L. Allen, Black; Earl New, O. L. Statton, J. C. Jarvis, C. O. Strickland, S. C. Dickey, P. E. Stephenson, W. W. Waggoner, Ivan Reeder, H. J. Johnson, J. A. Arwood, George Heath, Andy Ackum, Paul Kennedy, and Kermit Lawson.

Woman's Club Has Program Observing National Music Week

On Mother's Day You'll Feel As Young As Daughter If You Change Hair-Do

Pretty and practical is the softly upswep evening coiffure, upper right, finished with an attractive cluster of tiny roses and a sprig or two of mimosa. For

the sweet-faced woman at upper left, the expert designed chic hair-do with upward "in fashion" lines that are sure to make the wearer feel and therefore

look younger. These are excellent examples of smart, up-to-date coiffures that, while chic, enhance the dignity and poise of the older woman's charm.

BY ALICIA HART

Beauty and fashion experts know that when a woman is perfectly groomed, with hair and clothes that are style-right for the moment, she's sure to feel and therefore look younger than she is. When she's wearing what is "in fashion," she feels right and gay and young and self-confident.

Put any woman in a hat which is definitely outmoded or let her continue to wear her hair in a way that looks 1931 instead of 1941 and she'll feel the opposite of gay and young and self-confident.

This business of keeping up with current hair styles is more important to the morale than a great many of our older women seem to realize. If you are still wearing your hair straight down all the way around, try having it lifted upward at least at the front. Wear it that way for two weeks, whether you like it or not, and see whether it makes a difference in the way you feel about yourself.

RIGHT MOMENT TO TRY MODERNIZATION

As an example of the "in fashion" theory, consider earrings. Five years ago half the people you knew considered earrings to be "very aging, my dear." Now those same people and a great many others as well will say that "earrings are such fun to wear, and they make a face seem younger, don't you think?"

Unless you are the sophisticated, leader-of-fashion type, taking up a new fashion immediately it appears probably will make you feel pretty silly and thus undermine your self-confidence. But waiting too long to try it is at least equally bad management of your personal appearance.

Right now, a short time before Mother's Day, is the perfect moment for the mature woman to decide to try a little modernization. She might consult her hairdresser about what to do with the knot of hair she's been wearing on the back of her head for thirty years. Flattened out, moved upward to the crown of the head and posed behind some variation of the pompadour, that same

Coltexo Sunshine HD Club To Give Radio Program

Important nutrition facts will be discussed when the Coltexo Sunshine Home Demonstration club presents a program over Radio Station KPDM Saturday morning at 11 o'clock.

The part that food plays in the diet will be discussed by Mrs. Melvin L. Roberts and what foods are required daily in order to have a well-balanced diet will be given by Mrs. Kenneth Irwin.

KEEP PIANO TUNEFUL

To keep your piano in good condition, manufacturers advise servicing and tuning at least twice a year. If you purchase a brand new piano, they suggest servicing and tuning four times the first year.

Eastern Stars Will Take Handkerchiefs, Scraps To Meeting

Observing Mother's Day, members of the local Order of Eastern Star will meet Friday night in the Masonic hall at 8 o'clock for a program to be presented by men of the Order.

Each member is to take handkerchiefs which will be sent to two members who have moved away. Also scraps are to be donated for a box to be sent to the Eastern Star home at Arlington.

Calvary Baptist WMS Circles Have Joint Meeting

At a combined meeting of all three circles of Woman's Missionary Society of Calvary Baptist church, a Royal Service program was presented and a business session was conducted.

Blanch Grove circle had charge of the program with Mrs. Sam Riley as leader of the discussion on "An Urgent Gospel to Direct Youth." Following the opening song and prayer, the devotional was given by Mrs. J. H. Tucker. Topics discussed were "The Way of the Young" by Mrs. E. E. Brown; "Along Missionary Paths" by Mrs. Gordon Smith, "Helps Along the Way" by Mrs. J. L. Pritchard, and "A Sacred Trust" by Mrs. C. C. Teague.

The program also included a song, "Jesus Saves," and a prayer by Mrs. L. L. Brewer. The business session was conducted by Mrs. L. C. Vandenberg.

Present were Meses. B. F. Walker, Gordon Smith, L. L. Brewer, J. L. Bowers, Jr., Claude Crane, C. A. Fixler, E. B. Brown, C. C. Teague, J. L. Pritchard, J. H. Scaryery, J. H. Tucker, L. C. Vandenberg, Sam Riley, and Moore.

All three circles will meet at the church Monday afternoon at 2:30 o'clock for an industrial session. The personal service chairman asked that each member bring fruit for sunshine baskets to be sent to shut-ins.

Coltexo Sunshine Home Demonstration club will meet at 1:30 o'clock in the home of Mrs. H. C. Pampa Garden club will have a flower show and tea at 2 o'clock in the club room.

Order of Eastern Star will have a called meeting at 8 o'clock in the Masonic hall. A Mother-Daughter banquet will be served at 7:30 o'clock in the Church of the Brethren.

Red Cross knitting class will meet at 7:30 o'clock in the city club rooms. A regular meeting of the Wayside Home Demonstration club will be held in the home of Mrs. L. R. Taylor.

SATURDAY AND SUNDAY Business and Professional Women's club will have a Mother's Day breakfast at 8:45 o'clock in the Schneider hotel.

Upsilon chapter of Beta Sigma Phi sorority members and their mothers will attend the First Presbyterian church in a group.

A district meeting of the Diocesan Council at Calhoun Park will be held at the parochial school hall.

MONDAY All three circles of Woman's Missionary Society of Calvary Baptist church will meet at 2:30 o'clock in the church for an industrial session. Each one is to take fruit.

Woman's Society of Christian Service of First Methodist church will meet in circles at 2:30 o'clock.

McDonough Memorial Woman's Society of Christian Service will meet at 2:30 o'clock in the church.

A meeting of Herrah Methodist Women's Society of Christian Service will be held at 2 o'clock in the church.

First Baptist Women's Missionary society will meet in circles at 2:30 o'clock.

A meeting of Central Baptist Women's Missionary society will be held at 2:30 o'clock.

Mann To Talk Over Radio Friday Night

(By The Associated Press)
Attorney General Gerald C. Mann, senatorial candidate, spent yesterday in Dallas conferring with workers at his campaign headquarters. He was scheduled to deliver a radio address at 8:30 p. m. Friday over the Texas Quality network.

Rep. Mann Dies stepped up his campaign for the United States Senate by declaring last night that the American peace mobilization is advising young men in the East how to escape the draft.

Speaking at Gainesville, the chairman of the house committee on un-American activities asserted that the organization has gained thousands of recruits and "is seeking jobs in aircraft and other defense industries for its members and spreading Nazi propaganda designed to impede the defense program and undermine the morale of conscriptees."

Carrying on his campaign in a talk at Plainview, Rep. Lyndon Johnson urged that the United States become the strongest nation in the world. He asserted that essential war material was lacking at army camps he recently visited.

Johnson was scheduled to speak at Greenville at 3 p. m. today. He expected to attend a reception at Dallas Saturday morning.

Arlon B. (Cyclone) Davis, another senatorial candidate, said he would make his opening campaign speech at Mount Vernon at 1 p. m. Saturday.

At Austin Joe T. Stedham, representing the joint labor legislative board, said that Texas labor is considering the advisability of entering a candidate in the senatorial race because "no candidate who has so far announced has definitely expressed his stand with respect to the laboring classes."

Swastika Brands Him as Nazi Spy

Admiration for Adolf Hitler put the Indian sign on Bruno Johannes Valinski, 31, above, Riverhead, N. Y., hotel waiter. After swastika was found branded on his left arm, he admitted to federal agent the was a German Gestapo agent.

Carbon Black Bill Arouses Sen. Martin

AUSTIN, May 8 (AP)—Senator Jesse Martin of Fort Worth resched into his zoological vocabulary for an effective argument for a bill dealing with carbon black.

He said people were "hollering wolf."

He spoke of the "big fish eating the little fish."

He hinted there was "a bug under a chip."

Then he finished the circus parade by warning his colleagues not to be "led down a blind alley."

On Lieutenant Governor Coke Stevenson's desk was a batch of bills passed by the house of representatives, where oratorical battles are frequent.

It reminded Stevenson of the war. "The chair signs in the presence of the senate," he said, "the blood, sweat and tears of last week."

Lots of reasons are heard for early sine die adjournment of the session and now the weather has come into the picture:

Said Rep. Woodrow Bean of Sierra Blanca:

"Every one of my calves have the worms because of this wet weather and I want to go home and attend to them."

"The gentleman from Harris, Mr. Dallas," said Speaker Leonard in recognizing Rep. Fred Harris of Dallas for a motion.

A few seconds later Leonard made the same inadvertent twist of the tongue and laughingly apologized: "It confuses me just to look at him."

Harris laughed louder than anyone else.

Tired of "too many stag functions," Rep. Jimmie Phillips went fishing, made a big haul and announced to the house:

"We will have a fish fry Wednesday night—and bring your wives."

Cotton may be king of Texas crops but rice took top billing this season. A bag of the staple turned up on the desk of every member prior to consideration of a bill taxing milled rice for promotion of the industry through advertising.

It played a traditional role lately when Rep. Gene McNamara of Waco and his bride were publicly presented to the house.

Rep. Jimmie Phillips from Angleton, in the rice county showered the couple with rice—finishing off his bag by dumping it down McNamara's coat collar.

300 Tobacco Growers Protest Tax Hike

WASHINGTON, May 8 (AP)—Three hundred tobacco growers jammed the house Ways and Means committee room today to protest that proposed increases in tobacco taxes would single them out for "unjust" tax treatment.

A spokesman, J. C. Lanier of Greenville, N. C., asked that levies be made on coffee, tea and golf balls before further increases are made in the taxes on cigarettes, manufactured tobacco and cigars. The farmers, he said, would be hardest hit by any new tobacco imposts.

Lanier, saying that he was a World War veteran, declared that the tobacco growers were "100 per cent behind" the defense aid efforts, of which the proposed tobacco tax increase would be a part, but urged that all farmers of all commodities be treated alike.

With the backing of 20 house members from tobacco states, Lanier urged that congress reject the treasury's proposal to boost the cigarette tax to 8 cents per pack of 20 from the present 6½ cents and the doubling of rates on cigars and manufactured tobacco. The cigar taxes range from 75 cents to \$13.50 per thousand and the manufactured tobacco levy is 18 cents per pound.

Also before the committee was a plan designed, among other things, to increase the number of income taxpayers in the better-paid wage earner group.

Proposed by Chairman Marriner S. Eccles of the Federal Reserve Board, the plan would lower exemptions for married couples to \$1,500 from the present \$2,000 and the credit for dependents to \$300 from \$400, but would moderate a schedule of new high income surtaxes recommended by the treasury.

Franz Elected Dairy Show Superintendent

PLAINVIEW, May 8 (AP)—Charley Franz of Canyon was elected president of the Panhandle Plains Dairy Show association last night.

Swisher county Jersey breeders took home purple ribbons following judging of that breed yesterday. Holstein-Friesians and Guernseys were featured today.

Homer Norton, Texas A. and M. football coach, will be the speaker tonight at the Aggie annual roundup.

Now Many Wear FALSE TEETH

With More Comfort

FASTTEETH, a pleasant alkaline (non-acid) powder, holds false teeth more firmly. To eat and talk in more comfort, just sprinkle a little FASTTEETH on your plates. No sunny, soapy, party taste or feeling. Checks "white color" (denture breath). Get FASTTEETH at any drug

French Payments To Hitler Reduced

VICHY, France, May 8 (AP)—A semi-official source indicated today that the French-German armistice convention would be modified as a result of negotiations in Paris from which Vice Premier Admiral Jean Darlan returned this morning.

A prediction to this effect, made to French newspapermen at a conference, followed disclosure only yesterday that Darlan and German authorities in Paris had reached an agreement "envisaging" a 100,000,000-franc reduction in the 400,000,000-franc charged France daily for support of the German army of occupation.

A statement in the French press said only "that in view of the dragging out of the war in certain parts, the armistice convention must be modified in a spirit of mutual understanding."

Engagement Of Judy Garland May Be Announced Soon

HOLLYWOOD, May 8 (AP)—Will Judy Garland, like Deanna Durbin, choose her 19th birthday to announce her engagement?

Friends say she will, at a big party June 10. Dave Rose, song writer whose ring she wears on her little finger, would be the lucky guy.

The actress said "It's only a birthday party and nothing else. Dave and I are not thinking of marriage."

But Judy's friends said they'd be surprised if she doesn't surprise them with a betrothal announcement.

NOW 55% RICHER

in Extra-Flavor Coffees!

A HINT to hostesses: If you take pride in serving good coffee—you'll welcome this new Maxwell House! For it is 55% richer in choice, extra-flavor coffees from the highlands of Central and South America. These better coffees have always been limited in availability. But our buyers are able to obtain a careful selection, and each variety adds its own special quality of flavor, body, or fragrance.

All over Texas, folks are cheering for this supremely fine coffee... roasted by the "Radiant Roast" process... packed in the Vita-Fresh vacuum tin... and 55% richer in extra-flavor coffees!

RAF DOWNS

(Continued from Page 1) a slight penetration along a 2,000 yard front of Tobruk's outer defenses and that new British works had been thrown up there.

In the war in the air, the British tallied a new record for RAF night fighters—the overnight destruction of 22 Nazi bombers—and the London air ministry reported strong RAF attacks on Brest, the Nazi U-boat base at St. Nazaire, docks at Bremen, oil refineries at the mouth of the Loire river in France, and docks and shipping at Bergen, Norway.

RAF raiders delivered "a heavy and particularly successful attack" on the German battleships Scharnhorst and Gneisenau at Brest, the air ministry said, scoring direct hits with heavy armor-piercing bombs on both ships.

DNB, the official German news agency, said Nazi undersers raiders sank 29,959 tons of British shipping in the north Atlantic.

British anti-aircraft guns were credited with shooting down a German bomber in the night, making a total of 73 German night raiders destroyed over England thus far in May—only 14 less than in the entire month of April.

The sharp increase might be due to bright moonlit nights bringing greater numbers of German planes to shoot at, or improved accuracy on the part of RAF defense fighters.

A "BRITISH" commentator observed, however, that "the boys are getting better at interception."

It was another bad night for British cities. Liverpool suffered its seventh straight assault after dark, and a British communiqué noted tersely

AMERICANS

(Continued from Page 1) C. J. Goldston, Kiwanis; Dan Kennedy, American Legion.

Committees were formed, with Webb, Goldston, and C. H. Walker, assigned the job of arranging for the speaker; Behrman, Kuhn, and Fender, to secure participation of bands.

Webb and Kennedy are to arrange for the military unit, Kennedy for the grounds; Kuhn, public address system; Matthews, traffic.

Publicity will be in charge of the committee headed by Frank Monroe and Matthews.

'How Can You Tell If's Love?' Popenoe Asks Students Here

Dr. Paul Popenoe, counselor in family relations, spoke in high school assembly yesterday on "How Do You Know If's Love?"

In discussing his subject Dr. Popenoe asserted that there the emotional levels of the participants in a marriage is of more importance than the physical age.

Dr. Popenoe named five distinct emotional ages. They were: Childhood, the age in which the individual thinks only of himself. (Some individuals never get past this stage).

Love of Parents was next mentioned. Freud originated this idea, sometimes called the Aedipus complex. Some people never marry because of sentimental attachment for one of their parents.

Next followed the gang age, in which boys and girls think only of their sex, preferably in groups. After the gang come the lines when boys and girls are interested in practically all members of the opposite sex.

Last stage of the emotional level comes when the people love each other to the point that their lives are shaped to meet common needs, and they are made happy by common interests.

Informal quarters said the recent successes against German night raiders might be attributed largely to these factors:

1. The RAF is getting more adequate numbers of various type of planes.

2. Defending fighters are always more successful on moonlit nights. Full moon is due Sunday.

3. Raiders are more easily intercepted when they are forced to fly over the Alps.

4. Night pilots are gaining experience. The Alps are said to have risen from a seaway four to seven times their present width.

County Court Jury List Announced

The panel listed these names: C. Cox, H. B. Taylor, Fred Woodall, Clarence Barrett, Dan Dean, Thomas J. McGarrity, J. R. Phillips, C. C. Nipper, M. C. Johnson, B. F. Browder, Z. H. Mundy, Finis Jordan, F. A. Peek, DeLea Vicars, Roy Sewell, W. C. Breining, J. B. Austin.

Addresses of jurors were not listed on the panel, but a majority are of Pampa.

Sentry Guards U. S. Union Plot Abroad

SOMEWHERE IN ENGLAND.—May 8. (AP)—A military sentry paced a plot 20 feet square in the moonlight.

The American Eagle squadron is quartered nearby.

"What's he guarding, a military secret?" a visitor asked.

"Shh," said a pilot officer, "it's a big secret all right."

It must be to have an armed guard by night—and someone with a watchful eye always on hand by day, too—but it looks like nothing more than a garden patch.

"Is this hallowed ground?" the visitor asked.

Young Vandals Destroy Trees In Central Park

Vandalism of Pampa boys, some of high school age, roused the wrath of city officials today. The tearing off of the tops of drinking fountains recently re-installed, and the wanton use of young trees as climbing poles and swings in Central park last night didn't put city officials in too happy

frame-of-mind this morning. Neither did the arrogant attitude of some of the youngsters endear them to those responsible for park property. Some of the boys "cussed out" park employes when the workers reprimanded them for their misuse of public property. "Those trees were recently set out and are too small to be used to climb," said City Manager Steve Matthews today. "These trees cost money and we don't like to see them damaged." The city manager also said there had been complaints of boys hanging around parked automobiles at Road Runner park.

Appropriations-Next Job Of Legislature

AUSTIN, May 8 (AP)—One of the biggest jobs of the legislature's regular session, making appropriations totaling many millions of dollars to run the government another two years, moved into the home stretch today.

The senate planned to consider on the floor its bill appropriating for state educational institutions, the only one of the major money measures which had not gone to conference committees for adjustment of differences between the houses.

The house of representatives late yesterday, climaxing several days of intermittent labor on it, passed finally the appropriation bill to finance state departments.

The bill totalled \$30,350,000 for both years of the new biennium, approximately \$4,500,000 more than the total of the senate bill and about \$7,500,000 above the appropriations for the current two-year fiscal period.

The action wiped the house's slate clean of major appropriation bills, which, in addition to the departmental and educational, were the rural aid, the eleemosynary and the judiciary.

During floor consideration, the house added nearly \$2,000,000 to the appropriations which the house appropriations committee, after long hearings, had recommended.

Major additions were \$1,500,000 to buy land for the Big Bend park project and approximately \$500,000 for armory rentals and debt servicing on 50 National Guard buildings proposed to be built by an RFC loan.

U. S. And Canada Will Speed Up Aid Program

By LLOYD LEHRBAS
WASHINGTON, May 8 (AP)—The United States and Canada will set up closely collaborating economic defense boards in the immediate future, it was learned authoritatively today, to speed up mobilization of North American resources for aid-to-Britain and hemisphere defense.

In the economic, industrial and financial fields, the new boards would complement the work of the joint U. S.-Canadian defense board set up a year ago to coordinate the military and naval defense preparations of the Dominion and this country.

The immediate task of the new economic boards, it was said, will be to expedite the program contemplated in the agreement for joint U. S.-Canadian productive efforts which President Roosevelt and Prime Minister Mackenzie King announced on April 20.

To this end, the twin boards will coordinate the interchange of raw materials and manufactured products required for speedy assistance to Britain and other embattled nations, as well as for the hemisphere republics now bolstering their defenses.

Synchronize the production of arms, planes and munitions so as to take full advantage of all present and planned manufacturing facilities, without duplication of effort; and collaborate in solving economic, industrial and financial problems to achieve the maximum defense and British aid results for both nations.

The twin boards, it was learned, will also make a long-range study of ways and means to "cushion" the economic after-effects of the war.

Ninety-five patches were required to repair damages to wings of an airplane caught in a hailstorm in South Dakota in 1939.

Indianapolis erected a bronze marker at the former home of the 23rd president of the United States, Benjamin Harrison.

Price Controller

Leon Henderson, above, heads newly created Office of Price Administration and Civilian Supply charged with keeping prices in line during defense boom.

House Bill Would Bar German Films

AUSTIN, May 8 (AP)—A resolution advocating the banning of German-made movies from American theaters today was referred by the House of Representatives to its committee on military affairs.

By Rep. Clayton Bray of Longview, the resolution asserted that Germany had prohibited the showing of American motion pictures in that country, and, in addition, the German movies were dispensers of propaganda.

The resolution was sent to committee on a voice vote after brief discussion.

Rep. Fagan Dickson facetiously asked if Bray would accept an amendment also to bar German-composed music.

"Will you agree to bar Bach and Beethoven?" he asked.

Dickson said such prohibition smacked of the methods of Hitler.

'Fake' Licenses For Drivers Punishable

Special To The NEWS.
AUSTIN, May 8—The use of a fictitious, invalid or altered driver's license is an offense punishable by a fine of not more than \$200 under the new driver's license law, it was pointed out today by Col. Homer Garrison, Jr., state police director.

Any person lending a driver's license to another person is subject to the same penalty. It is also a violation to fail or refuse to surrender to the department of public safety any license which has been suspended, cancelled or revoked, or to have in one's possession more than one operator's, commercial operator's or chauffeur's license that is currently valid.

Any person who makes any false affidavit in securing a driver's license is guilty of false swearing, and upon conviction shall be punished by not less than two or more than five years in the penitentiary.

Senator Would Trade Flags With Mexico

AUSTIN, May 8 (AP)—Texas-Mexican war trophies would become symbols of peace under the terms of a resolution introduced in the senate today.

The resolution proposes that the flags captured by Santa Anna at the Alamo and by Sam Houston at San Jacinto be exchanged as a gesture of friendship.

The Texas flag captured by the Mexicans is now in a Mexico City museum; the Mexican flag taken by Texans is now in Austin.

"No gesture on our part," said Senator Clem Fain of Livingston, author of the resolution, "could better show our desire to live in peace with our neighbor to the south."

The resolution, which called for a celebration in connection with the exchange of historic flags, was sent at Fain's request to the senate state affairs committee.

Eels store up water in their heads, enabling them to breathe through their gills even when traveling overland.

Oilers Come From Behind To Lambast Bombers 9-6

Great relief pitching by Lefty Frank Grabek, after Frank Graber had been taken from the game to make way for a pinchhitter, great defensive play by Homer Matney in centerfield, and a pinch triple by Frank Scott, who hadn't bagged a hit since Sunday after noon, all played important parts in the Pampa Oilers' 9 to 6 victory over the Big Spring Bombers here last night.

Grabek gave up four hits for four runs in the first inning and then tightened, allowing only one hit until the seventh when a single and two doubles gave the Bombers two more runs and what appeared to be the game.

But the Oilers, who had scored one in the first and added one in the third and another in the fifth, were still in the game and blasted across a half dozen scores in the lucky seventh to tie the game.

Tonight the Oilers and Bombers will tangle again, at 8:15 o'clock at Road Runner park. Tomorrow night the Oilers will play the Oilers in the first game of a three-game series.

Bush will probably be on the mound for the Oilers tonight, opposed by Schultz, last year by Lamesa. Bush is from Cherryvale, Kan., and was secured from the House of David. He is a youngster with great possibilities. Manager Dutch Prather believes.

Bombers Open Strong
Things looked mighty dark for the Oilers last night when, in the third inning with one away, Haney, Greer, Stevens and Poitras singled in succession and two extra bases were gifts when Matney let ground balls get away from him. Later he really redeemed himself by making one of the outstanding catches of the year.

Peterson singled for the Bombers in the second but from then until the seventh Grabek pitched sensational ball, not allowing a single hit. In the seventh Haney and Greer singled in succession and Shilling singled. Three walks in the fourth filled the bases but Grabek pitched his way out of the hole.

Two walks and singles by Bills and Prather gave the Oilers one in the first. An error, fielders choice, walk and Malvica's single added another in the third. The Oilers doubled in succession and Shilling singled. Three walks in the fourth filled the bases but Grabek pitched his way out of the hole.

New Vander Meer Better Than No-Hitter Flash Of '38

By HARRY GRAYSON
NEA Service Sports Editor

NEW YORK, May 7—Johnny Vander Meer looked himself last fall when he returned from Indianapolis in time to win three games for the Cincinnati Reds, including the one that clinched the flag.

There is no longer any doubt about Vander Meer's complete comeback. The Paterson Peashooter is a more solid slinger than the kid who in 1938 became the first in 100 years of baseball to turn in successive no-hit, no-run games.

Vander Meer lost a tough one to the Cardinals when the breaks went against him in his initial outing this trip. He fanned eight, yielded seven hits. Then he struck out 12 Cubs, shut them out with four blows. Next he held the Pirates hitless for six rounds, trimming them 10-3.

Vander Meer suffered a recurrence of an appendix disorder and developed a sore arm, but it was lack of control that sent him to the minors.

Many pitchers, especially left-handers, are a long time developing. Vander Meer might have been ahead of schedule when he wrote mound history.

Two years after his record performance, he found he wasn't properly balanced. He released the ball too soon, which made him wild high.

FREAK DELIVERIES PUT HURLERS ON RIGHT TRACK
Bob Grove and others rowed hard rows to the top. Lonecoming Lefty was wintered in 37, turned out to be a regular on his first campaign with the Athletics, toled seven years before he became a highly efficient American league workman.

Jim Turner and Lou Fette were 30 when they came up to take 20 games apiece for the Boston Red Sox in '24. Steve O'Neill pitched seven in 1921. What Wyatt and Luke Hamlin of Brooklyn, and Al Smith of Cleveland, pitched 11 years before crashing the headlines.

When the lowly Phillies gave up on him, Smith wanted to quit the game. Steve O'Neill talked him into reporting to Buffalo. Like Carl Hubbell, he developed a screwball and last year became a regular on a potential American league pennant winner.

Wiz Kremer had been trying to fool hitters for 10 seasons when he helped Pittsburgh pitch in '24. The Pirates now have another like him. Rip Sewell was 32 years old and had thrown nine years when he became the Bucs' ace in '40.

Dutch Leonard developed a knuckle ball, which isn't a knucker at all. Steve O'Neill talked him into reporting to get back into the majors. He had pitched nine years before he took 20 games for Washington in '39.

Thornton Lee pitched as long before making a name for himself with the White Sox.

PITCHERS BOUNCE BACK WITH SOMETHING NEW
Bucky Walters played baseball eight years—third base seven—before finding himself as a pitcher with the Phillies.

Claude Passeau of the Cubs requires eight seasons to get going. Charlie Ruffing pitched seven years before striking the stride with the Red Sox, which led to his being traded to the Yankees.

Rufus the Red, who won 20 or more games for the world champions for four straight years, twice lost more games than any other American league dealer—25 and 22 for the Red Sox in '28-'29.

Al Milnar had been at it seven years when he came through with 18 victories for Cleveland last term. For Cup Davis spent a half dozen years in the minors.

"Shall I make an acceptance speech?" he laughed. "We're all for you," the crowd called back. That seemed to be the consensus of Fort Custer.

Horses cannot exert a continuous horsepower for more than a few hours. Rome is farther north than New York City. Kentucky ranks second in the use of lime on farm lands in the states. The equipment was always there.

Coaches To Pick 11 Boys Who'll Scrimmage Exes

Coaches Buck Prejean and Mac Best of the Pampa Harvesters will turn judges tomorrow afternoon. They won't occupy any bench in any courthouse but will work up and down Harvester field watching the Harvesters in the last intra-squad scrimmage of the season, beginning about 4:15 o'clock and open to the public.

After the scrimmage the coaches will name the 11 boys who will start against the ex-Harvesters still in school in the closing game of the spring training period on the night of May 10, at Harvester park.

Every boy in uniform will be given an opportunity to show his stuff during the scrimmage. The Harvesters have been working out for nearly a month and have shown rapid improvement. The 30 days allowed for spring practice will end Friday of next week.

An effort is being made to do away with spring training. Coaches Prejean and Best are not in favor of the change. They say the boys cannot possibly get in shape, learn plays and be ready to play after three weeks of practice in the fall.

Cleveland And Cardinals Again Go Down In Defeat

BY JUDDON BAILEY
Associated Press Sports Writer

There are no miracle teams in the Major leagues this year and the pennant races today are as wide open as the day the season started.

After scoring alone on spectacular winning streaks until their followers were fanned into a dangerous state of excitement the Cleveland Indians and St. Louis Cardinals now have lost two games in a row and both in the American and National leagues are in as much confusion as when their first instructional strike began ten days ago.

The Dodgers, in fact, destroyed the legend that St. Louis had a collection of supernumeraries. They swung out a 4-3 decision in a gripping drama that ended like a musical comedy when Manager Billy Southworth switched his pitchers four times for six batters in the last two innings and in spite of this intense strategy let Brooklyn load the bases without a hit and with none out in the ninth.

The Indians, who had great pitching and timely hitting during their 11-game winning streak, got neither against the New York Yankees as they swung out a 4-3 decision in a gripping drama that ended like a musical comedy when Manager Billy Southworth switched his pitchers four times for six batters in the last two innings and in spite of this intense strategy let Brooklyn load the bases without a hit and with none out in the ninth.

The St. Louis Browns captured a marathon 14-inning affair from the Philadelphia Athletics 6-5. A homer by Ernie Lombardi was the only run of the game as the Cincinnati Reds squeezed the New York Yankees 1-0.

The Chicago Cubs climbed out of the cellar by lambasting the Phillies 11-2. Jim Tobin also pitched and batted his way to a 7-6 victory for the Boston Braves against the Pittsburgh Pirates.

Houston's Pollet Valued At \$50,000 By Club's Head

By WILLIAM T. RIVES
HOUSTON, May 8—Nineteen-year-old Howard Pollet, who missed last night his chance to tie the Texas league record for consecutive shutouts—four—is a far better pitcher than last year, when his club president said he was worth \$50,000 on the open market.

It is a reasonable assumption, of course, that a young pitcher should improve with experience, but anyone else except unassuming Pollet might have succumbed to swelling of the noggin after reading the columns of raves about his performance.

The black-haired, handsome Houston ace, who is only three years away from sandlot baseball in New Orleans, already has set two Texas league marks.

Last year he won 13 straight games then the season's start in the three straight shutouts he has pitched this year, he allowed only 11 hits, which are two less than Joe Guynn of Waco gave up during a similar break "way back in 1907."

One of his shut-outs included a hitless against Shreveport. Last night against Tulsa he started impressively for his fourth shut-out in a row, but lost control in the sixth inning and was removed by Manager Eddie Dyer.

"Pollet is a better pitcher now than during last season," Dyer said. "He is a smart kid, young, strong and willing. All this publicity hasn't turned his head. Some other youngster might get so swell-headed you couldn't teach him anything, but not Pollet."

Dyer asserted Pollet's performance thus far this year is more impressive in the light of the fact that the club doesn't have brutal power such as it unleashed on occasion last season to pull pitchers, including Pollet on occasion, out of holes.

The kid is not ready for the majors yet, said Dyer. "He has a few things to learn, but he's young and has plenty of time."

Dyer would be willing to let Pollet go to the St. Louis Cardinals, of whose family the Bufts are members, at any time this season if the Redbirds needed him and would assure him a starting berth.

defense has cut into plans for Charles City's annual soap box derby.

Orders for eight sets of wheels and axles for the competing vehicles were cancelled by a manufacturer's boycott because materials used in their construction were needed for national defense orders.

OMAHA—Maybe curiosity killed the cat, but stubbornness killed Charles Patrick's two mules.

Being led down the street, they balked and ran away, colliding with a truck. Result: Two stubborn mules, dead.

Old Fire
An underground coal fire has been burning for 54 years in New Straitsville, Ohio. One family there by cooking dinner in their back yard by placing the c-oking pots on the ground.

Port of London
The Port of London extends 67 miles to Tilbury, at the mouth of the Thames, from Teddington Lock above the British capital.

CHARLES CITY, Ia.—National

GRAYSON'S SCORE BOARD

BY HARRY GRAYSON
NEA Service Sports Editor

Connie Mack said it used to be that pitching was 90 per cent of a baseball club. He now contends it is 90.

The venerable manager of the Athletics points to the Giants' early rush as further proof of what a club can do when the pitching is sound.

Mack, who a year ago predicted the Yankees' downfall, now likes the New Yorks over Cleveland.

Though the Indians have the amazing Bob Feller topping a staff considered exceptionally formidable, Mack has an idea the Yankees will get superior pitching day in and day out from Ruffing, Bonham, Russo and Gomez, not to mention Donald and the rest.

Gomez' comeback gives the Colonel Jakes a terrific lift. Feller has been the life of the party on the field and off—for 10 years, and when he is going well carries the others with him.

Pittsburgh is still trying to figure out why Bill Benswanger sold Mace Brown, one of the better relief workers, to Brooklyn.

Even if it is certified, a \$25,000 check can't strike out a batter with the winning run on third.

May 30 and 31 are tentative dates of the benefit golf match between Ty Cobb and Babe Ruth, 18 holes in Boston and a round in New York.

As long as the old bitches have the urge to once more appear in public, why the golf course.

Wouldn't you think baseball would find spots for its greatest figures? Nothing would please Gregory Rice, who has cracked the world indoor two and three-mile records three times apiece, more than setting a new outdoor two-mile mark in his home town, Missoula, May 16.

Pollet Driven From Mound At Houston

(By The Associated Press)
Young Howard Pollet, sensational moundman who looks like the Texas legislator's gift to the big time, disappeared last night, after even the best of 'em can't pitch scoreless baseball forever.

The 19-year-old Houston Buff started a game with the Tulsa Oilers at Houston and was driven from the mound after turning in 29 consecutive scoreless rounds. Even so, the league-leading Buffs went on to win 7 to 5.

The Fort Worth Cats, playing an afternoon game at Beaumont, overwhelmed the Exporters 10-0, in night games Oklahoma City led 6-0 to the San Antonio Missions on the latter's home grounds, and the Shreveport Sports, playing on their own lot, scored a 4-1 victory over the Dallas Braves.

BOSTON AMERICAN LEAGUE
BOSTON—The Boston Braves won a 7-6 victory over the Pittsburgh Pirates.

950 Workers In Indiana Plant Strike

(By The Associated Press) Delivery of 150,000 worth of airplane parts and anti-aircraft gun mounts were rendered uncertain today by a strike at Allison-Chalmers factory at LaPorte, Ind., and a threatened walkout at the Hudson Motor company, Detroit.

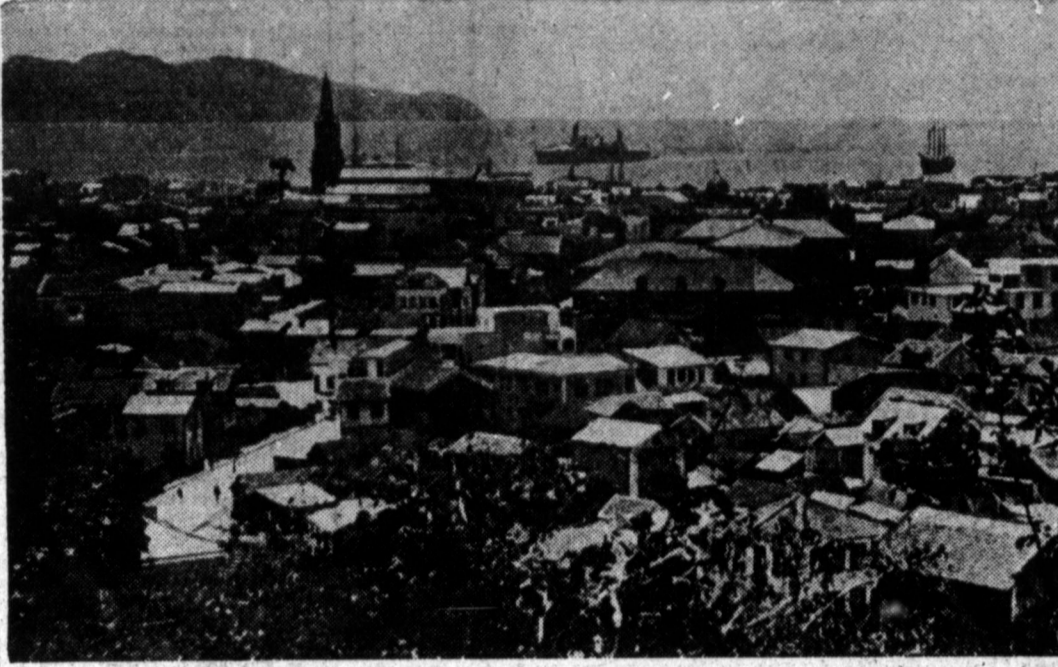

Nearly all the 950 employees of the Indiana concern struck yesterday, calling for union security, wage increases and a "more substantial contract." Union and company officials did not disclose the present wage scale or the increases sought.

The plant has \$5,000,000 in defense orders and has been making gun mounts. The Hudson factory at Detroit has been working on \$10,000,000 worth of airplane parts and in addition is building a \$20,000,000 naval ordnance plant.

The National Mediation Board at Washington, currently seeking to avert a threatened strike against General Motors corporation, got a new assignment—a wage dispute at the Bendix Aviation plant, south Bend, Ind.

Washington Hears Nazis Gain Grip On Martinique

Reports Say Gestapo Agents, Arriving Disguised As 'Refugees,' Dominate Local Police, Arrest Pro-British

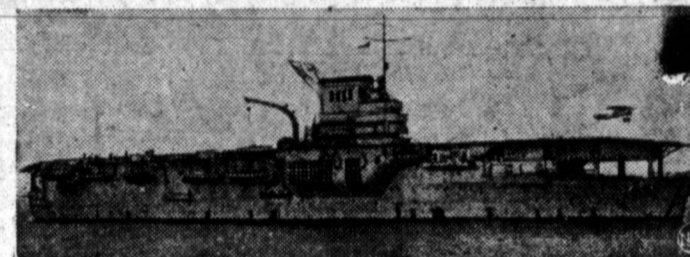

The above view of Port de France, Martinique, shows its excellent harbor, guarded by adjacent highlands.

Among French ships in Martinique harbor is the great aircraft carrier Bearn, pictured at right. Aboard it are nearly 100 American warplanes and \$500,000,000 of French gold.

A pro-Nazi Martinique would weaken the chain of actual and projected British-American defense bases screening the Panama canal as seen on map at right.

By THOMAS M. JOHNSON, SEA Service Military Writer WASHINGTON, May 7—The French West Indies island of Martinique is becoming a Nazi foothold in this hemisphere, according to reports received here.

Gestapo agents, aided by pro-Vichy French, have instituted a local reign of terror and other activities disturbing to the United States government.

Many were searched on the streets for weapons and cameras. Others simply disappeared.

The auxiliary cruiser Barfluer, lying in Port de France harbor, is said to be a floating prison. Her crew has lately been reinforced by sailors from France hand-picked for loyalty to anti-British Admiral Darlan.

Seven hundred of these new arrivals are distributed among the five Vichy warships at Port de France, including the big Bearn, carrier of nearly 100 American airplanes and \$500,000,000 of French gold.

"FIRST EUROPEAN DICTATORSHIP IN AMERICA" Report says these vessels have been ordered to resist any possible British or American invasion of the colony.

Already Admiral Robert, under Vichy orders, has made Martinique the first European dictatorship in America by abolishing its democratic government and assuming full power. His government publishes official propaganda that is anti-democratic and pro-Axis.

Many Martiniquois and democratic Frenchmen have urged us to walk in, take our base, protect our interests and theirs, and then when the war was won, give it all back to them.

Many reports of Nazi penetration in Martinique, similar trend reported in northern colony.

Vichy officials here deny reports of Nazi penetration in Martinique, similar trend reported in northern colony.

This astonishes the little French colony, for not only have Spaniards never before come there, but the fishing is so bad that the 1,500 marooned Frenchmen are being supported by Canada and the United States.

For fishing they must go mostly to Greenland, where the United States has just established a protectorate and got authority to establish bases.

Spanish Falangistas have often fronted for the Gestapo in South America.

Direct Hits Made On Nazi Battleships LONDON, May 8 (AP)—British air raiders made direct hits on the battleships Scharnhorst and Gneiseau with heavy armor-piercing bombs in an attack on the German naval base at Brest last night, the air ministry announced today.

Attacks also were made, a communiqué said, on the Nazi submarine base at St. Nazaire, docks at Bremen, oil refineries at the mouth of the Loire river and docks and shipping at Bergen, Norway.

The British acknowledged that two planes were missing from the night's operations.

Texans Asked To Help Raise Fund To Maintain Lee's Ancestral Home

HOUSTON, May 8 (AP)—A committee of prominent Texans headed by Federal Judge Joseph C. Hutcheson, Jr., of Houston, has been named in the nation-wide campaign to raise a permanent endowment fund to maintain Stratford Hall, ancestral home of the Lee governor and birthplace of Robert E. Lee.

"Stratford Hall," said Judge Hutcheson in announcing the campaign, "has recaptured its glorious and romantic past. It belongs to all time because the Lees who lived there accomplished things that are of timeless significance. It is a symbol for present and future generations, of the priceless traditions, the eternal values so magnificently espoused and lived by the Lees."

Stratford Hall, in Westmoreland county, Va., was built in 1725 by Thomas Lee, colonial governor of Virginia. The estate, comprising the mansion, minor buildings and 1100 acres of meadow stretching two miles along the Potomac river, has been restored to its early appearance as a Virginia plantation.

Noted sons of Stratford include Richard Henry Lee and Francis Lightfoot Lee, leaders in the first movement of the colonies toward independence, and signers of the Declaration of Independence; also "Light Horse Harry" Lee, whose eloquence is said to have made possible ratification of the Constitution by Virginia.

Restoration of Stratford Hall was started in 1929, when the Robert E. Lee Memorial Foundation acquired the plantation after it had been out of ownership of the Lee family for a century.

Activities and industries of the plantation have been revived. Various agricultural projects are carried on under direction of the resident superintendent, Major-General B. F. Cheatham, U. S. A.—retired, Hon. Sam Rayburn of Texas, Speaker of the House, is donor of the thoroughbred cattle that graze in Stratford meadows.

Commenting on the significance of Stratford Hall as a symbol of American ideals and traditions, Judge Hutcheson said:

"Since the outbreak of the present war, our people have been more than ever mindful of the value of democratic liberties, and more appreciative of the achievement of our statesmen and patriots who made possible the independence and democratic United States. Among those leaders, none stand out with greater lustre than the Lees, whom we honor in the preservation of Stratford Hall."

"That line of statesmen, diplomats and heroes, which had its flowering in the great Robert E. Lee, lived and fought for the ideals that are under savage attack in much of the world today. Our object is to preserve Stratford Hall as a shrine of American democracy," Judge Hutcheson said.

In addition to Judge Hutcheson, the state committee of the Lee Foundation includes:

Lea Davis, of Washington, D. C.; L. Clayton of Houston, vice chairman; Gene Howe of Amarillo; Dr. Homer P. Rainey and Judge Ben H. Powell of Austin; Preston B. Doherty of Beaumont; Mrs. Lewis M. Dabney, of Dallas; Nathan Adams, Dr. Umphrey Lee and Leslie Wagner of Dallas; Sam Young of El Paso; Amos G. Carter and George Thompson, Jr., of Fort Worth; Rabbi Henry Cohen and George Sealy of Galveston; Mrs. Lewis M. Dabney, W. P. Hobby, Miss Ima Hogg of Houston; Ernest Kurth, Lufkin; Mrs. Edgar Tobin, John Bennett, Leroy G. Benman and J. B. Frost of San Antonio; Gus F. Taylor of Tyler; Mrs. Len Davis of Waxahatchee; R. A. King of Wichita Falls. Members of the national advisory board include Franklin D. Roosevelt, Senator Carter Glass of Virginia, and others prominent in public life.

Sam R. Lowry, vice president of the First National bank in Houston, is treasurer of the Texas committee. Contributions for the Stratford Hall endowment fund are being sent to him.

Mayer Still Gets Highest U. S. Salary WASHINGTON, May 8 (AP)—Louis B. Mayer kept top ranking as America's highest paid executive last year, receiving \$67,048 as managing director of production for Loew's, Inc., motion picture company.

This was brought out today in a study of annual salaries of all reports filed by large corporations with the securities commission.

Mayer's remuneration from Loew's was \$6,677 more than in the previous year. He had no close competition for first place. The second highest on the pay list was Eugene G. Grace with \$478,144 as president of Bethlehem Steel corporation.

George W. Hill received \$456,415 as president of the American Tobacco company and appeared to be a safe third.

These figures do not represent America's largest incomes, however, since many persons who get only small salaries or no salaries at all have large incomes from investments.

The treasury reported recently that 41 persons paid taxes last year on 1939 incomes of \$1,000,000 or more.

Behind the top three in salaries or other remuneration came Hunt Stromberg, who got \$332,267 as supervisor of production for Loew's, and Nicholas M. Schenck, who was paid \$318,881 as president.

The \$200,000 bracket included: W. C. Fields, \$225,000, and Deanna (Edna Mae) Durbin, \$209,833, both paid by Universal Pictures company, Inc.

Bing Crosby was paid \$150,000 by Universal pictures.

Lowest Infant Mortality With 35.4 babies out of every 1000 dying during their first year, Minnesota has the lowest infant mortality rate in the United States.

July 1 Selected As Registration Day

WASHINGTON, May 8 (AP)—Army and selective service officials were reported today to have decided on July 1 as the date for registration of approximately 1,000,000 men who have become 21 years old since the first selective service enrollment last October.

The registration will take place at the headquarters of the 6,500 local draft boards now functioning, and authorities said it would be a "fairly simple job" compared with last fall when 16,500,000 men, 21 to 35, were signed up for possible military training.

The date for the new registration will be formally fixed in a proclamation by President Roosevelt. Authorities indicated that the day now tentatively agreed upon was chosen to give the new group of prospective trainees time to learn whether they are apt to be called for service this fall so they can arrange their school or employment plans accordingly.

Now that the initial groups of trainees have been inducted to provide cadres of more mature men around which to build up the new army, it was learned that war department officials are considering shifting the emphasis to younger men.

One plan reported under consideration would be for the war department to advise selective service headquarters officially that hereafter it would take no men above a certain age. Some authorities were understood to favor 30 as the top age limit, while others prefer it as low as 26 years.

Although a man is not an expert at it, it is able to climb trees well.

Number Of Texas Towns Considered For Powder Plants

WASHINGTON, May 8 (AP)—Brig. Gen. H. E. Rutherford of the munitions board said a number of Texas towns were under consideration as sites for a munitions plant or plants.

He said it would be decidedly premature to presume that Eastland or Marshall or any other town was in a particularly favorable position to be selected.

Other sources said the Marshall Chamber of Commerce had recently submitted a strong case to the board on behalf of Marshall. Several months ago a group of West Texan filed application for locating a plant in the Cisco-Eastland area.

Texans Asked To Help Raise Fund To Maintain Lee's Ancestral Home

HOUSTON, May 8 (AP)—A committee of prominent Texans headed by Federal Judge Joseph C. Hutcheson, Jr., of Houston, has been named in the nation-wide campaign to raise a permanent endowment fund to maintain Stratford Hall, ancestral home of the Lee governor and birthplace of Robert E. Lee.

"Stratford Hall," said Judge Hutcheson in announcing the campaign, "has recaptured its glorious and romantic past. Watch Out For Children!

The most thoughtless people in the world are the children.

What motorist at some time or other has not glimpsed on his brakes and savagely twisted his steering wheel to avoid hitting a child playing in the middle of the road?

An event like that usually occasions some eloquent cuss-words and subsequent stony dinner table comment which runs like this: "Why don't the So-and-So's keep their brats out of the street?"

The trouble, you gather, lies with the children and their parents, which is largely true, but does not change the situation.

As the warm weather arrives and children on scooters, skates and bicycles fill the streets, Pampa police issue a special appeal to motorists to be careful—to watch out for the children.

We should all take it to heart and act accordingly. The grown man or woman has had years of experience of life. The child has not.

The adult is well acquainted with morgues and hospitals and ambulances and undertakers and doctors. He understands what happens when a large inert object like an automobile or truck hurtles into a small, yielding object like a human being.

Even then the adult makes mistakes, and sometimes pays for them with his life.

The child knows none of this. The child has no appreciation of reality. Life is a dream. Children have troubles, but they are more the "growing pains" of childhood than actual physical suffering. And the child has no conception of death.

The schools, the home, the officers of the law do the best they can in educating children on the ways of safety. But it is at best an inspirational education, not based on experience.

The biggest responsibility for the protection of our children must still rest with the motorist. PLEASE BE CAREFUL!

Behind The News

By PETER EDSON
 The Pampa News Washington Correspondent

WASHINGTON, May 8—You could ask for no better example of the kind of international business competition the United States is going to run into after this war is over—than in Portugal today, where three international airlines are waiting for a chance to apply for and begin commercial passenger and express transoceanic flights to this country. All three companies are ostensibly Portuguese, but the catch is that one of the companies, the Iberia line now running service from Lisbon to Barcelona and Cape Verde islands, has German and Italian backing; another, Aero Portuguesa, now running service from Lisbon to Tangiers, is French; while the third, Servicos Aereos Portuguesas, running from Lisbon to Spain, is German.

The background is this:

Pan American Airways, which now runs the clipper service to Lisbon, has exclusive rights with the Portuguese government for the operation of an airline between Portugal and the United States. Kicking around congress for the past few months has been the postoffice appropriation bill for 1942. The senate appropriations committee, reversing the decision of the house, has added \$800,000 to this bill as a subsidy to the new American Export Airlines for one flight every two weeks between New York and Lisbon. Pan American now schedules three flights a week over the route and, under this same appropriation bill, would be granted a subsidy for a fourth weekly trip.

TOUGH ONE FOR STATE DEPARTMENT

Much oratory may be expected over these subsidies. Even if the senate does pass the bill as recommended by the appropriations committee it must go back to the house for conference and further arguing. The basic issue at stake is whether the United States government is to subsidize two airlines for international service or stick to just one, the existing Pan American Airways. If the latter is the policy, Pan American would be given full government backing to compete with foreign airlines in the further development of its lines to Europe, Africa, Asia, New Zealand, and Central and South America.

The U. S. department of state comes into this situation in a peculiar manner. As mentioned, Pan American now holds an exclusive agreement with the Portuguese government for operation to Lisbon. The U. S. Civil Aeronautics board, however, has issued a certificate to American Export Airlines, authorizing it to fly to Lisbon, though before it could operate Pan American would have to surrender its agreement with the Portuguese government, and a new agreement would have to be worked out by the department of state. This could be done only on the basis of granting Portuguese airlines equal and reciprocal rights with the American lines, trip for trip.

PORTUGUESE COMPANIES DUMMIES

The catch here, of course, is that there are no purely Portuguese companies with sufficient resources of either capital, equipment or experience to operate airlines into the United States. Such companies must therefore be dummy Portuguese corporations like Iberia, Aero Portuguesa, and Servicos Aereos Portuguesas, with Italian, French and German control.

If reciprocal rights were granted these companies to fly, trip for trip across the Atlantic with American clipper, the United States would be in the strange position of granting rights for commercial planes of countries which are at war with Britain to base on the United States, observe U. S. neutrality patrols, convoys and shipping to England.

Common Ground

By R. O. HOYLES

This column contends there can be no satisfactory program until we measure the shades of each man by the common yardstick of the God-given equal right to create and enjoy anything unless it is a right to create and enjoy.

UNINTERRUPTED SERVICE AND CIVILIZATION

There could be no advance in civilization if there could not be continuity of services between men.

If different groups of workers who produce and exchange could not be depended upon, to furnish, without sudden interruption, continuous service, then there could be very few exchanges between people. Then each person would have to attempt to supply all his own wants.

It is this fear of sudden stoppage of services and materials that causes nations to attempt to be self-containing. If people could not rely on a dependable water service from those who were furnishing the water service, each person would have to have his own water supply. In fact, if people could not depend on continuity of service of any necessity, they would have to supply all their own necessities themselves.

Only by exchanging and specialization can there be large production, a high standard of living, a large population enjoying a constantly increasing prosperity and culture.

Labor Unions' Abrupt Stoppage of Service

The labor unions in America make their biggest mistake by abruptly discontinuing services without any notice. If all people did as labor unions do and would guarantee no continuity of service and would not agree to penalize themselves and pay for the damage they did by abruptly stopping service, then there could be no civilization. Then we would be like animals, being governed by the tooth and the claw. Then there would be no dependability.

Of course, those people who have not had actual experience with labor unions will contend that labor unions will give a forfeiture for failing to perform service.

But no national labor union has ever made a two-way contract that binds the workers. They do not guarantee (and by guarantee we mean put up assets to be forfeited to compensate for damage), to do anything. Their contract is only an option that they will perform a service if, at the moment, it seems to them to be to their advantage to do so; but if they do not perform the service, they will not reimburse the other party of the contract for the damage they have done, nor will they even permit any of its members to use their conscience in fulfilling an inferior agreement.

All they do is to infer that they will do so and so, but they never agree to do anything.

This unreliable custom of labor unions of abrupt discontinuance of service greatly inconveniences the other parties to the transaction. This is the method they have of extorting wages out of line with what they are entitled to receive.

The labor unions use exactly the same methods in getting their wages, as dictators do. They infer they will carry out an agreement, but they give no bond and reserve the right to change their mind without notice and without a forfeiture for the damage they do.

There can be no civilization where people will not pay for the damage they do for violating an implied or inferred promise.

This is what most well-meaning people, who think that labor unions help the working man, fail to understand. They do not understand that everytime a labor union causes a sudden stoppage of service, the real wages of all the consumers of that service have been lowered.

They do not understand that every time a worker produces any service that other people want, he raises the real standard of living, the real wages of all the people in the world who are producing other things to exchange for this service.

Yes, civilization depends entirely upon continuity of service—Services that the customers can depend upon receiving without abrupt and arbitrary stoppage.

PROTECTION

The Oceans have different effects on the American people. First: it is a great factor of safety against foreign invasion. Every military authority agrees to this.

On the other hand, it is a very dangerous thing. It is dangerous because many people fail to realize how much moral principles and dependability play in preserving and developing society.

Many people think that because the Atlantic and Pacific Oceans are a safety from foreign invasion, we need not fear our future progress, they overlook the danger of our people destroying themselves by covetousness and misunderstandings that result in class legislation.

This class legislation prevents men, capable of large production, from being able to use their faculties to benefit themselves by serving others.

When laws so interfere with this important factor of individual management in the growth and development of any country, then sooner or later that nation becomes so poor and poverty-stricken that it is easy prey to demagogues within and foreign aggression from without.

While this process might be slow, there is no question that if continued, these discriminatory laws can only result in complete decadence and collapse of the people.

So the oceans are not complete protection because they tend to make people think they are safe. They become satisfied with themselves and are not constantly increasing their knowledge over the forces of nature, as the Divine Architect intended mankind to do.

OUR NAVY STRESSES ARMOR

(Frank Knox, Secretary of the Navy, in the Saturday Evening Post)

Every man-of-war is a compromise among the three main characteristics of gun power, speed and protection, none of which can be had in quantity without cutting down on the others. During peace periods there is a tendency in most navies to sacrifice for speed. It is the quality whose value is most easily perceived in maneuvers; whereas sailors never learn how useful armor can be till genuine angry shells come beating on belt and turret.

For many years our navy has been remarkable for its resistance to the speed trend, its concentration on armor and on a system of tactics and strategy based on the use of armor.

The fifteen ships of our battle line and the new ships that will join that line this summer have from two to four more inches of belt armor than those of any other nation but the Germans. The Germans have bought protection for their new ships by sacrificing gun power; they mount only eight 15-inch guns against the nine 16-inch of our North Carolinas, which means that each German vessel throws something like 16,000 pounds

'NO, WILBURY!'

Around Hollywood

Lucie Neville is pinch-biting for Paul Harrison, now touring army camps and defense industries.

By LUCIE NEVILLE
 NEA Service Staff Correspondent

HOLLYWOOD, May 8—Being married to an actress is naturally no novelty in Movietown, but Edward G. Bergen says it has some aspects that are bewildering and upsetting. He says unhesitatingly that sometimes he feels that he's married to three or four women, and while this is a romantic sensation, it makes him feel slightly sinful.

"One day I'm married to a blond, the next to a brunet and the week after that to a red-head," he said. "I have my breakfast with a nice, quiet blond girl with a blue ribbon in her hair. I come home that night to a creature who looks like a Main Street B girl, a hostess in a club."

Actually there is nothing unusual or scandalous about it, Mr. Bergen has only one wife—Eve Arden. Currently she's playing a shady lady in "Manpower" with Marlene Dietrich whose screen character is even less on the sunny side, but Bergen is willing to overlook that. What confuses and really troubles him is this chameleon-like hair.

FIRST A BLOND

Miss Arden, or rather Mrs. Bergen, has had more haircolor changes than most actresses. In her first Ziegfeld Follies show, she was a platinum blond. When she worked for the Theater Guild, she became a more conservative shade—brunet. Back in the Follies, she turned red-head overnight.

Entering the movies, she was a fluffly golden blond for "Stage Door," a brunette for "Letter of Introduction." In "Manpower," she's a yellow or straw blond. You gather that Miss Arden has very sturdy hair that can put up a nice fight when cornered by a coiffeur.

"Not only do I live with this array of strange and lovely women," Bergen said patiently, "but I find that each one has a different character. For a long time I lived with Marlene Dietrich—er—so to speak." That was during the Broadway run of "Two for the Show," in which Miss Arden gave an imitation of the movie actress, singing in a deep, heavily accented voice. She had to rehearse the imitation constantly, so she acted like Miss Dietrich at home, too.

Now that his wife is going to be an ash-blond, Bergen is hopeful of the first time. Seems that's her natural shade.

ROZ RUSSELL—RENT AGENT

A local bachelor who spends a lot of time in New York, has a handsome Beverly Hills home which he rents while he's away. The other day, a real estate agent called to ask if his house were on the market—she had a prospective customer. It wasn't just then and he was about to tell her when she said, "Miss Rosalind Russell is looking for a place for a friend who's coming from the east, and I thought yours would be perfect."

The young man was electrified. Miss Russell was his secret crush but he had never met her. So he did a quick about-face and said his house certainly was for rent, but he'd like to show it to them personally. Lots of conveniences and the view and such they might miss. It was a wonderful afternoon, now, he doesn't know what to do. He hadn't planned to go to New York but it looks as he'll have to.

People You Know

By Archer Fullingim

Elmer (Red) Watkins of Pampa, junior class president at McMurry college, Abilene, has been elected president of the school's student body for the 1941-42 term.

He was winner, 168 votes to 105, over Ainsworth Gates of Dallas. Red has been class president two years; he has played three years on the golf team, was manager of the football team for two years, and was elected one of the school's representatives this year to the Who's Who in American colleges and universities.

Red is a graduate of Pampa high school and he was similarly active here in school functions. Arvo Goddard was elected to the same position at West Texas State college, Canyon.

Arvo is also a graduate of the local high school, and was a popular student here.

Here's an excerpt from an editorial in the Chicago Daily News that should interest every parent: "Virtually every child in America is reading color 'comic' magazines, a poisonous mushroom growth of the last two years. Ten million copies of the sex-horror serials are sold every month. One million dollars are taken from the pockets of America's children in exchange for graphic insanity. Frankly we were not perturbed when we first heard about the rise of the action 'comics'. We imagined (as do most parents) that they were no worse than the 'funnies' in the newspapers. But a careful examination of the 108 periodicals now on the stands shocked us into activity. At least 70 per cent of the total were of a nature no respectable newspaper would think of accepting. . . . We found that the bulk of these lurid publications depend for their appeal upon maxims, murder, torture and abduction—often with a child as the victim. . . . Badly drawn, badly written and badly printed—a strain on young eyes and young nervous systems—the effect of these paper-pulp nightmares is that of a violent stimulant. . . . Their hypodermic injection of sex and murder make the child impatient with better, though quieter, stories. Unless we want a coming generation even more ferocious than the present one, parents and teachers throughout America must band together to break the 'comic' magazine. . . ."

THE LOOKING GLASS

CASE HISTORY
 By Stella Holit

He was young, earnest, and Anna was his first case. He had four long years of medicine ahead of him before he could become a doctor. But here was Anna right in his apartment house, a thin, frightened psychopathic case whose own father considered her nuts. It was the father who invited him in to see if the medical student had any theories as to what was wrong with Anna.

The student found out. Anna had all her life been terrified of her domineering father. She had never been allowed to leave the house without permission; never allowed to invite anyone in. She was always told she was a nitwit. As she grew older she grew in fear of the world beyond her door. A trip to the store became a terrifying experience. She covered in mortal terror of traffic and people.

Slowly the student doctor gained her confidence. Patiently he guided her out to the streets for brief excursions. After three months they accomplished a short bus ride. At the end of the year the medical student saw that he had made much progress but Anna was far from being a normal person. She still cried before her father who had robbed her of confidence in herself.

To lose your first case is a discouraging business and our doctor was not to be daunted. He knew that Anna could get well if she had someone to care about her and have confidence in her. Her father cared but he believed firmly that she was crazy.

If someone loved Anna enough to marry her! That would give her faith in herself. There being no one to do so, the young doctor took her very quietly to the city hall and married her himself. He then took her home and made no announcement. He still had three years of medicine to do.

From the day of her marriage Anna became a new person. She asserted her independence in little ways about the home and developed likes and dislikes for the proposed excursions. She no longer feared to go out alone and even kept the doctor waiting when they met by appointment. She spent a good deal of time making herself beautiful. She braved her father's wrath by changing her dresses to him and when he became too abusive she told him very calmly that she had been a married woman for almost three years and that it was no longer necessary for her to be scolded like a child.

The doctor in the years that followed often regretted his success with his first patient. Completely released from her domineering father she became domineering herself. In the shadow of her assertive personality the doctor works, but he has no spirit to go forward into those wide realms of service to which his talents called him.

TEX'S TOPICS

By Tex DeWesse

DR. V. E. von Brunow was a friend of ours. Like hundreds of those who knew him from daily associations, we stop to mourn his passing. He was a part of Pampa. The Brunow building at the southeast corner of Cuyler and Foster was Pampa's first business block. It stands there now as a monument to this man who put Pampa first, last and always in his affections. This was his home. . . . Although educated in Germany, Dr. Brunow was born in the United States, was an American and lived the American way and ideals until the very end. . . . He was one of this column's very severest critics, and we admired him for his frankness, for his fairness in saying what he had to say to your face. . . . Dr. Brunow was not the kind of person to berate you behind your back. . . . He looked you straight in the eye when he had criticisms. . . . He was equally as ready with a word of praise when he thought you had come.

★ ★ ★

While he was taken to Germany when a child and was educated there, Dr. Brunow carried a hatred of Hitler that was outspoken in criticism of the totalitarian way of life. . . . He was vitally interested in his government, and although he stood in a small minority locally for his political beliefs as a staunch supporter of the Republican party in Gray county, serving his party as county executive chairman. . . . Pampa has lost one of its most enthusiastic boosters in the death of Dr. Brunow.

THE careers of John and James Woods, nine-year-old twins of New York City, were supposed to prove something or other, we forget what. Anyhow, when they were infants, Johnny was separated from his brother and parents and reared scientifically. He seemed quite remarkable, too, in the attainment of early skills in use of mind and muscles. Jimmy, meanwhile, stayed at home and was treated about like any healthy baby in a normal family.

★ ★ ★

When the boys were two years old, or thereabouts, Johnny went home and began to live just as Jimmy did. It wasn't long before they were about equal in ability to do all the things normal kids do. . . . When they started to school, however, Jimmy began to show a little edge over Johnny. On the eve of their recent birthday, Jimmy was a grade ahead of Johnny in school and beat him at a spelling test.

★ ★ ★

IT'S TOO bad Jimmy got ahead in school. That may be as hard on him as on Johnny. And we hope he doesn't win all the games. There ought to be plenty of give-and-take between children. Companionship rather than rivalry should be more wholesome for these twins, too. . . . For scientific upbringing, fortunately it does not have to stand or fall on this single experiment.

★ ★ ★

Officers who have been taken prisoners in the European war have their salaries paid by the government of the country holding them in custody. . . . Yes, sir, the Nazi officers in British prison camps get their pay checks from the British government and the British officers in Nazi prisons get their pay from the German government. . . . Once more note the statement that 50 per cent of the wives of this country are not certain of their husbands, age, his birth date or the amount of his salary. . . . In England, no one wife in hundred knows how much salary her husband gets a week.

★ ★ ★

NOTE preference for a lipstick guaranteed to furnish a make-up that will survive a "three minute kiss. . . . That's a long kiss. . . . Average kiss lasts about twenty seconds. To get an idea how long a three minute kiss is, why don't you try a timed kiss with your wife? If not married, perhaps you can persuade your girl or your sister or somebody else sister to try this experiment in the interests of science. . . . As for lipstick, when are they going to make one that will not leave its mark on the face of the recipient of a kiss or on soda fountain and cocktail glasses or on the napkins of the bridge party hostess?

The War Today

BY DEWITT MACKENZIE

The destructive bombings of Belfast this week, with heavy civilian casualties, have brought me to inquiry as to just why the Nazi should devote so much energy to this capital of northern Ireland, and other towns of Ulster, which seem to be on the edge of the war and are far from the German air bases. . . . On first thought it might indeed seem that the Hitlerites were going out of their way to bomb Ulster, but actually it's one of the most important bases—military, naval and industrial—in the British Isles. . . . Were Belfast, close to enemy air-domes it like it could have been just about wiped off the map long ago.

Ulster forms one of the district commands of the British army, with headquarters in Belfast. A large force is maintained there, ready to defend Ulster and rush to the aid of southern (Eire) in event of enemy invasion.

Belfast has great shipyards which are racing to help defeat the U-boat campaign. Neighboring Londonderry also is a shipbuilding center.

Even more important is the fact that warships based at Belfast, and warplanes operating from Ulster airbases, accord vital protection for ships carrying American aid to Britain. Most trans-Atlantic shipping now has to go around northern Ireland and down into the Irish Sea past Belfast because England's great east and south coast ports have been fairly well knocked out by enemy action.

The above is one of many questions at hand from readers concerning the war in the air. Innumerable people want to know why the British don't bomb Berlin more by way of reprisal for the bloody assaults on Britain. Let's allow British Minister of Economic Warfare Dalton to answer that one:

"I would rather see the Leuna (Germany) synthetic oil plant a smoking heap of rubble than destroy every single dwelling house in Berlin."

A speech-making exaggeration? No, it's military horse-sense. The point is that one of Germany's great lacks is oil, and Leuna is one of Hitler's mainstays.

If the Nazi could be deprived of oil, it would end the war. So it's more profitable to bomb Leuna than to exact an eye for an eye by bombing Berlin. A similar argument explains why the royal air force concentrates on the big German industrial centers.

Bombing of civilians has no military value unless it weakens morale. More often than not it merely infuriates them and makes them more determined than ever. However, British Premier Churchill, after viewing the destruction of little homes in Manchester the other day, declared:

"It is a tragedy, but they'll get it back threefold."

Another query—why haven't the British bombed the Rumanian oil fields?

The real reason for the non-bombing of Rumania seems to rest in unavailability. Bases weren't available near enough for small bombers, and the heavy, long-distance machines were lacking. Greek bases couldn't be used at first because the Greeks were afraid this might precipitate a Nazi invasion. When the invasion did come, the British were too busy to loiter about Rumania.

Texas Oil Facts

Petroleum refining is the largest manufacturing industry in Texas, representing 41 per cent of all manufactures in this state.

Texas now mines approximately 82 per cent as much crude oil as it produces.

Texas consumers use about three-fourths as much natural gas as Texas produces.

Texas produces one-third of all the natural gasoline made in the United States.

Texas produces approximately 86 per cent of all the carbon black manufactured in the United States.

So They Say

The United States may have confidence in the friends of Colombia and in her capacity to prevent all danger to the (Panama) Canal by way of her territory.

—DR. EDUARDO SANTOS, president of Colombia.

If America is to be free, America must help wherever freedom is threatened.

—WILLIAM ALLEN WHITE, editor.

There is no neutrality. We are confronted with a danger. Let us go to meet it with arrogance.

—EZEQUIEL PADILLA, Mexican secretary of state.

Big papers, little papers, Democratic, Republican, New Deal, and Independent, are as different as the communities they serve. . . . may the great melting pot never attempt to pour us into a common mold.

—FRANK S. HOY, Lewiston, Me., publisher.

We cannot turn our industrial machine largely to making the things of war rather than the things of peace and have a higher standard of living.

—MARRINER ECCLES, Federal Reserve Board chairman.

Motor vehicle registrations throughout the world have increased more than 28 per cent during the last seven years.

CITIZENS IN OFFICE

Nearly every public office carries with it some citizenship requirement of the holder. Here are some questions about citizens and their eligibility for various offices.

1. Is a man 32 years old, who became a naturalized citizen when he was 23, eligible to become a U. S. senator?

2. Can a man become a member of the House of representatives at the age of 28 if he was naturalized when he was 23?

3. Who was the first natural-born citizen to become U. S. president?

4. What is the youngest age a naturalized citizen could be to become a member of congress?

5. Could a naturalized citizen become U. S. vice president?

SERIAL STORY

LOVE POWER

BY OREN ARNOLD

COPYRIGHT, 1941, NEA SERVICE, INC.

YESTERDAY Bob Hale's work goes on. A city is built in the shadow of the mountain. Scientists come to work at the X-999. A city is built in the shadow of the mountain. Scientists come to work at the X-999. A city is built in the shadow of the mountain. Scientists come to work at the X-999.

LEANA SORMI had free access, hence was not interrupted when she came quietly along there one morning carrying a wrapped package. As she had done before, she stopped at the guard shack only to pick up an electric hand lantern. Complete electric lighting had been strung in, but lanterns were carried for emergency use. She remained in the shaft for more than an hour. Then she returned the lantern. If the guards noticed that she came out without her package, they had no occasion to think that fact important.

Actually, Leana had concealed her improvised radio receiver and generator under small stones a few feet from the box and the leaden insulators where the X-999 rested. Then she buried insulated wires that ran from the generator directly to the main box, up to the heavy leaden cases. With extreme care, then, she lifted the lid of one leaden case, inserted an ordinary percussion cap such as workmen use constantly to explode dynamite, and left it there connected to her two wires.

It was ticklish business, really, but she experienced no fear; a scientist has no "nerves," and certainly Leana Sormi worked with calculating precision. She knew that the whole installation here would not likely be seen for months even if she did nothing more about it. But her plans called for spectacular action within the next few hours.

"Now," she told herself with calm satisfaction. "I have but to get the stupid girl in here. And that won't be hard!"

SHE had decided to complete all the preparations this morning, because she was absent from normal laboratory duties anyway. Another hour or two couldn't possibly excite any suspicion. Interest mayhap—somebody might inquire politely if she had been ill—but nothing of suspicion. Thus she could now take the sending apparatus, the transmitter tuned carefully with the receiver in the mine shaft, and hide it outside as planned.

She had already taken it, piece-meal lest it arouse curiosity, to a point out of sight of the village. This had been done on little after-dinner hikes apparently for her recreation. As unobtrusively as possible she departed again, went to her cache and took the transmitter farther around the slope of Mummy Ridge, the somewhat lesser formation that faced Tonto Peak. She walked almost two miles. This winding around the rock hills was tiresome, but essential.

She had no idea just how much damage might be done by the ultimate explosion—there was no way of knowing, of course. Deep inside Tonto as the stuff was, the set-off probably could do little more than cause a rumbling, like the gallons of nitro-glycerine often exploded down in oil wells and such. But, to be doubly safe, Leana went nearly a mile from Tonto even in direct line. And concealed her transmitter there on the rocky slope of Mummy Ridge.

Then she came back to the village and calmly went to her work. She made it a point to mention that she had awakened with a headache this morning, and had walked in the open air in order to clear it and freshen her mind. The other workers were politely sympathetic.

If they had chanced to observe her more closely during that day, they would have detected a certain tension. She did not concentrate as well as usual.

Often, during the afternoon, Miss Sormi seemed preoccupied, staring off with narrowed eyes, and looking almost angry. As a matter of fact, Robert Hale did see it. He came to her.

"You look tired, Leana," he said, kindly. "I think you are working too hard."

She turned to him, studied his face carefully a moment, then forced a stiff little smile.

"See here," he went on somewhat eagerly. "you mustn't slave so hard and stay alone so much. I—Why I am to blame for that!" It was as if he had just realized it, and was contrite. "Look, Leana, Carolyn and I were going for a horseback ride at 4 o'clock. She is such a gay company. Ride with us, will you? Please do!"

Her smile froze, and her eyes narrowed again.

However innocent his invitation was, he couldn't have said a more unfortunate thing! "Carolyn and I" indeed!

mitter which she built to serve this one particular need. The transmitter was easily portable.

Entrance to the old mine shaft, deep in which the X-999 was now safely stored, was guarded in shifts by three men. These three stayed in an old refurbished shack that had once been the control station for the narrow-gauge railway into the mine. It was near the track, 300 yards or so around the solid granite side of Tonto Mountain. Because the track lay there on a narrow ledge, no one could approach the actual mine tunnel entrance without being seen from this house.

Leana Sormi had free access, hence was not interrupted when she came quietly along there one morning carrying a wrapped package. As she had done before, she stopped at the guard shack only to pick up an electric hand lantern. Complete electric lighting had been strung in, but lanterns were carried for emergency use. Oil Industry Riding High On Crest Of Price Increases

AUSTIN, May 8 (AP)—The oil industry currently is riding high on the crest of the recent widespread price increases and the prospect of continuing strong demand for refined products.

This is the viewpoint of oil sources in the capital of the state which produces approximately half of the nation's output of crude.

Olin Culberson, member of the state railroad commission which regulates the industry in Texas, pointed out that demand for crude was 11 per cent above the same month last year.

Based on generally improving business conditions, his opinion was that the greater demand would continue at even a greater rate.

The industry was just on the threshold of the normally heavier consumption period of the year, due to weather more conducive to automobile travel, he pointed out.

This year, he said, more people were going back to work, had more money and were buying more automobiles, and as a result peak gasoline consumption this summer should be very high.

"The increased crude prices last month reflect a good condition in the industry, and I anticipate still further increases," he asserted.

Another factor tending to show the healthy situation was heavy withdrawals in the last two weeks which necessarily would cause more demand for crude, he said.

The fact is the industry is in an "unusually strong situation," Culberson stated.

Results Of T. B. Survey Announced

SAN ANTONIO, May 8 (AP)—The belief that tuberculosis is fatal more often to younger women than older women was disputed today by Holland Hudson, director of the National Tuberculosis Association Rehabilitation service, in discussing a study of 6,000 patients at a session of the 37th annual meeting of the association here.

This study was made of the patients five years after discharged from 75 public sanatoria, Hudson said, under the direction of the late Jessamine S. Whitney, N.T.A. statistician. It was completed just before her death in March.

Hudson said there were more (56 per cent) women in the 16-24 age group surviving at the end of five years than in any other age group. This survey was among 3,654 women discharged in 1933.

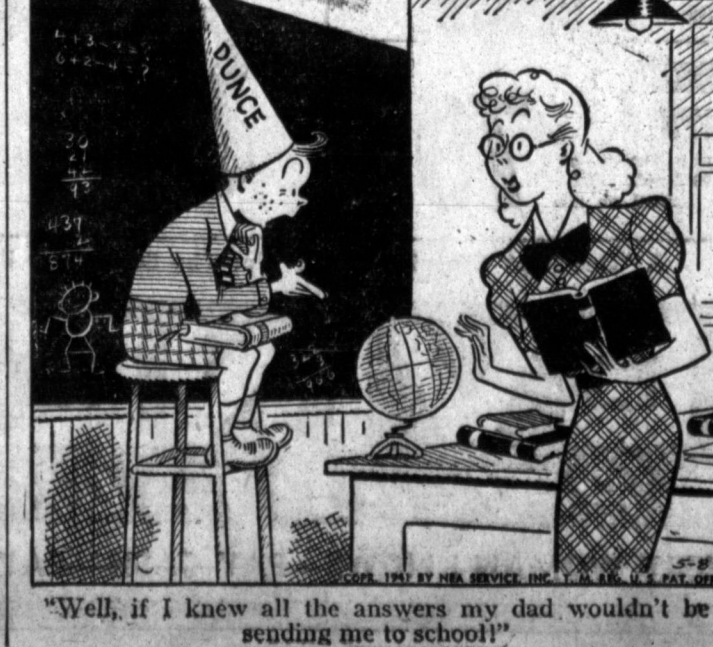

He further pointed out that results of the survey emphasized the urgency of finding tuberculosis in its early stages. At the end of five years, he said, 72 per cent of the discharged patients who had been admitted to the sanatoria with early tuberculosis were living, while only 39 per cent of those who entered in advanced stages were still alive.

Dr. Lewis J. Moorman of Oklahoma City, a former president of the American Trudeau society, said at a session yesterday that a woman who has recovered from tuberculosis should wait until she has been cured for two years before having children.

"The army may be making men out of us, George, but why do they keep paying us boys' wages?"

Pampans Can Obtain Data On SS Credits

The Amarillo Social Security Board field office has on hand a supply of post cards, already addressed to the Social Security Board, bearing a printed request on the opposite side with space provided for the sender's signature, his social security number, and post office address. This card, when signed and mailed, will bring to the individual signing the card a statement of all wages credited to his old-age and survivors insurance account, Dewey Reed, manager, said today. "Every worker should be interest-

ed in knowing the status of his old-age and survivors insurance account since the amount of his insurance benefits are based on wages credited to his account. To obtain a statement as to his wage credits, a wage earner must only secure one of these post cards, fill in the blanks as indicated, attach a one-cent stamp, and place it in a mail box. Within the time necessary for the card to go to Baltimore and come back to his mailing address, he will be in possession of the information requested.

Reed emphasized the importance of securing wage statements in cases where workers have been or expect to be inducted into the military service and persons change from covered to non-covered employment. "It's just like a savings account," he said, "and anyone possessing a savings account wants to know how much he has put away for a rainy day."

The Amarillo Social Security Board field office will be glad to furnish these cards to individuals or employee groups in such quantities as desired, upon request by mail or in person.

Court Affirms Two Death Sentences

AUSTIN, May 8 (AP)—Death in the electric chair came a step nearer today for Rogers Lee King, Johnson county negro, and Arlin P. Reese of Limestone county who were convicted of murder.

The Court of Criminal Appeals affirmed convictions and death sentences for each. King, accused of shooting H. M. Wallace in a robbery Sept. 26, 1940, had asked that the indictment be quashed on grounds of racial discrimination by the commissioners who selected the grand jury which indicted him.

The trial court refused the motion and the Appellate Court upheld it stating King had failed to show discrimination. It pointed to testimony showing that of 20 to 25 negroes summoned for jury service in Johnson county in the past 10 years only one was able to qualify.

The high court also found no error in the trial of Reese, charged with shooting Lizzie Reinhardt whose body was found on a roadside near Corsicana, Aug. 30, 1930.

THIS WEEK IN PAMPA THEATERS

British Nudes Swap Stares For Stares With RAF Pilots

By EDDIE GILMORE
GREEN HILLS, Hartfordshire, England, May 8 (AP)—Britain's biggest nudist camp has faced the fact that modern war is war in the air and now trades stare for stare with RAF pilots who conduct low-altitude reconnaissance flights over the camp.

"They seem to be over the camp a great deal," said the proprietor, his black beard streaming in the cold May wind, "but I expect they'll get used to us as we're getting used to them."

At first the nudists, who sprawled on the greenward within the wooded nudist camp, thought of not-footing it for the bushes whenever inquisitive fliers swooped over.

"But, everything in life being relative," the proprietor philosophized, "we adjusted ourselves. Nowadays, we just look up at them as they look down at us."

It didn't take the RAF patrols long to spot the 10-acre park which is dedicated to the absorption of sunshine and fresh air in the altogether.

"If those pilots are as good at locating their targets across the water as they were in finding us, they will serve their country nobly," he said.

The proprietor's wife explained that the nudists do not shun their responsibilities during air raids.

"The nights are too cold now, of course, for fire-watching in the nude," she said, "but on summer nights we'll be out with our tin hats on."

Speaking above the hum of a Spitfire cutting dizzy circles overhead, they said the war of first had threatened to cramp nudist activities but that affairs now were nearing normal in the shed-your-shirt circuit.

The only wild cactus found in Michigan is the prickly pear, or Indian fig.

One member of the poppy family, papaver somniferum, is the source of the narcotic, opium.

Rabbit fur is used for making felt for hats.

MOTHER'S DAY... Next Sunday Is Hers...

Gifts Wrapped Free
MAY 11th
You Will Remember Your Mother "Best" With a "Gift" From Levines!
Certainly You'll Save!
Give Mother DRESSES 7⁹⁸ Sizes 8 to 44
Dresses especially styled for every type figure will be seen in this group - care to suit the taste of young or older mothers... or the Miss in town... Navies, Blacks, Flowered and Pastels.
