

Enthusiasm Runs High As Many Native State Fiesta Clubs Are Organized

Natives of the middle western states of North Dakota, South Dakota, Minnesota, Wisconsin, Michigan, Illinois, Nebraska, Ohio, and the western state of Colorado, and the eastern states of New York, New Jersey, Maryland, Delaware will organize Top O' Texas Polka Fiesta clubs tonight at 8 o'clock in the courthouse and city hall.

Natives of the Dakotas, Minnesota, Wisconsin, Michigan, Illinois, Nebraska will meet in the city hall auditorium. Jimmie Dodge will preside temporarily.

Interested in this fiesta and they're going to have a float in the parade of all states and nations at the Fiesta, and they're going to have a queen, too," Mr. Stilwell said.

Natives of New York, New Jersey, Maryland, Delaware and Washington, D. C. will meet in the county courtroom with Dr. C. H. Schulky in charge.

Natives of the Dakotas, Minnesota, Wisconsin, Michigan, Illinois, Nebraska, Ohio, and Iowa will meet in the district courtroom with F. M. Stilwell who last night reported that the enthusiasm of the Pennsylvanians was greater than any group to date.

expected to attend the second meetings of all the societies. Nearly all the states have scheduled second meetings.

Meanwhile plans for the Fiesta are shaping up nicely, according to L. H. (Jack) Johnson, general chairman.

detour around the underpass now under construction. The parade will be held on two of the three days, Friday and Saturday, June 13 and 14.

The Weather

West Texas: Partly cloudy to cloudy with showers and thunderstorms this afternoon, tonight and Friday. Cooler in the Panhandle tonight.

Increasing Nazi Sky Troops Gain Two Footholds In Crete

BANDIT LOOTS LEVELLAND BANK OF \$20,533

British Navy Stops Forces Sent By Sea

Isolated Successes Minimized By Great Britain

(By The Associated Press)

Dropping out of the skies by thousands, Adolf Hitler's aerial invaders seized the old capital of Crete today and gained another foothold in the Suda Bay region—site of a big British naval base—but British warships smashed attempts to land sea-borne troops on the island.

With a 3-day-old battle mounting in violence, Prime Minister Churchill acknowledged that Nazi parachute troops had invaded the town of Candia, in central Crete, the old-time capital.

British middle east headquarters in Cairo coincidentally reported that the German "sky troops" had gained a temporary foothold in the Meloni sector, 15 miles south of Candia, the Crete capital, seat of King George II's Greek government.

"The fighting is continuing with intensity," Churchill said. "The Germans are using large numbers of parachutists and these are being increased daily."

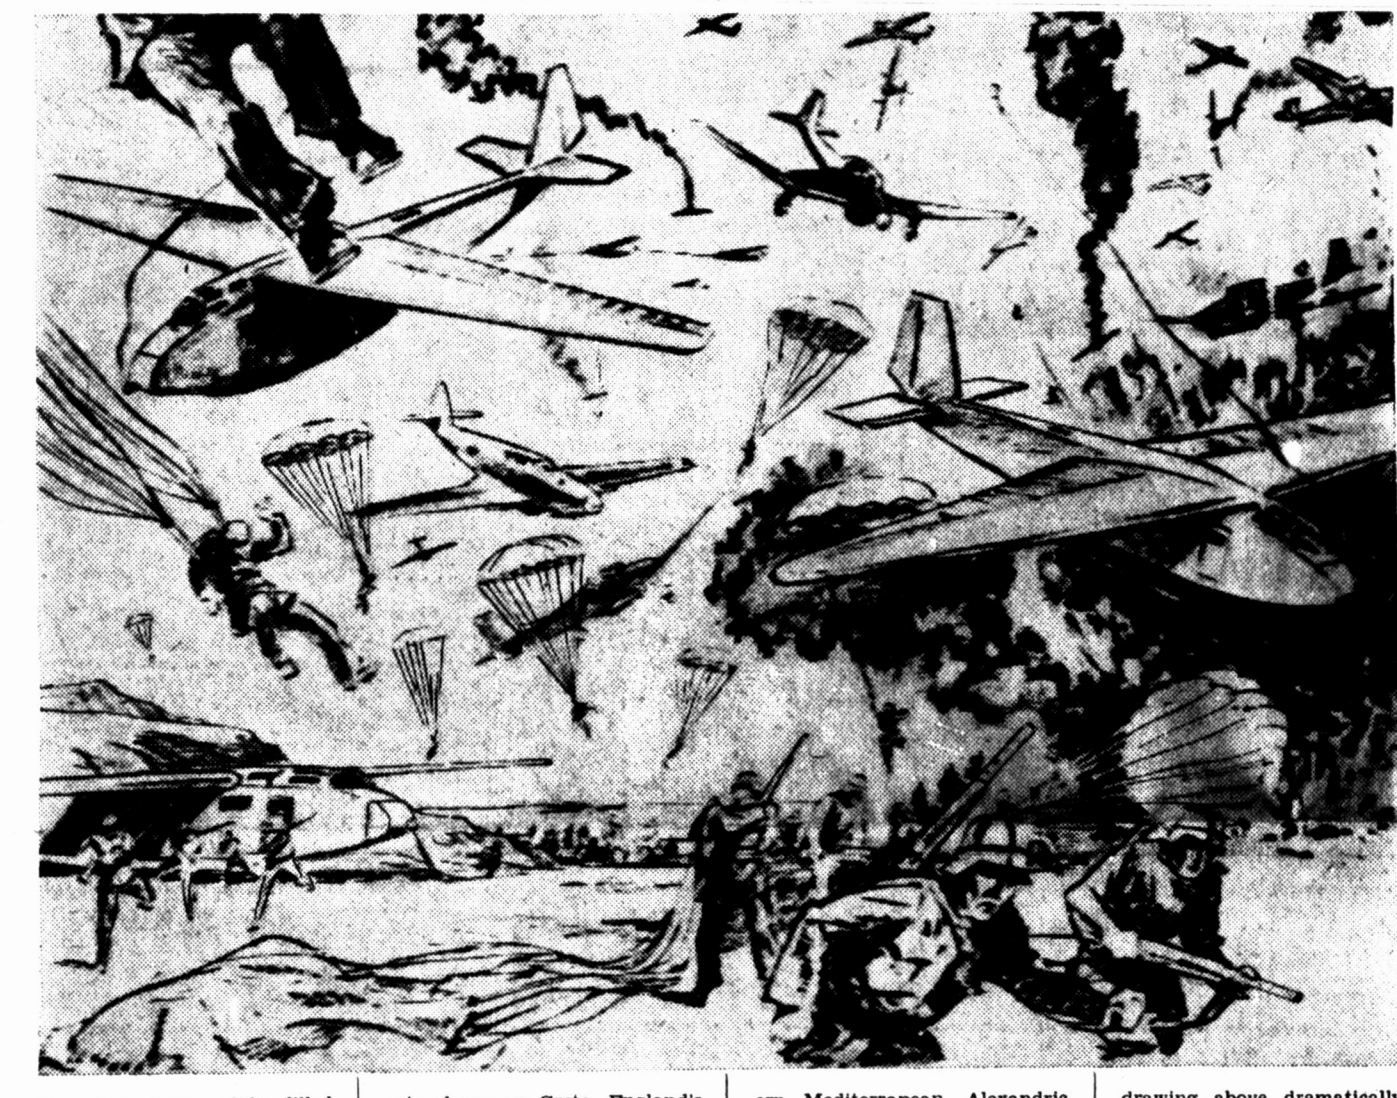

The prime minister said that, "although the situation is in hand, the Germans have gained some local successes at heavy cost."

He announced that the Germans began "very much larger attempts" at naval landings today and that a convoy of 30 German ships en route to Crete was sighted this morning "and presumably was attacked, although my information stops at that point."

Simultaneously, the British delivered a stiff warning to the French government at Vichy that France was expected to "declare policy of collaboration" with Germany, British forces will strike the enemy . . . without any distinction between occupied and unoccupied territory.

British Foreign Secretary Anthony Eden, advising parliament on the possibility of open hostilities between the Allies of less than a year ago, declared the Vichy government had "embarked on a course which must . . .

AIR-BLITZ SMASHES AT BRITAIN'S MEDITERRANEAN STRONGHOLD

Dropping from glider-filled skies, German parachute troops rain down on Crete, England's strategic key base to the Eastern Mediterranean, Alexandria and the Suez Canal. Artist's drawing, above, dramatically illustrates blitz landing.

It Keeps On Raining Here, Day And Night

The old Pampa custom of dodging puddles was going full force today as rain continued to fall for the third consecutive day, and gutters of downtown Pampa streets turned into miniature canals.

More rain, and cooler temperatures were forecast for this afternoon, tonight, and Friday.

A heavy downpour around 9 o'clock this morning put 46 inches of precipitation into the ground, and made the rainfall total, 1.22 inches for the past three days, 4.07 inches for the month, and 9.34 inches for the annual.

Baseball fans moaned the showers. Rain has caused the cancellation of nine Oiler games to date, the last three in a row. Wichita Falls won't play the Oilers here tonight. The Gold Sox of Amarillo had their game last night and the night before called off on account of rain.

Forecast for Pampa and vicinity: partly cloudy to cloudy, and cooler, with showers and thundershowers this afternoon, tonight, and Friday.

Minimum temperature in Pampa today was 53, maximum up to early this afternoon, 66.

Board Buys \$15,000 Worth Of Furniture

The Pampa school board purchased approximately \$15,000 worth of furniture for the new high school building yesterday afternoon following two days spent inspecting more than a carload of samples exhibited by 10 of the largest manufacturers of school equipment in the nation.

The board purchased auditorium seats, folding chairs, window shades, desks, tables and classroom chairs and desks from four different bidders.

Laboratory equipment bids were opened but no purchases made. The board will decide on that type of equipment at a later meeting. Yet to be purchased for the building are lighting fixtures, stage equipment and cafeteria equipment.

The board met in called session Tuesday morning. Members viewed displays of equipment placed in rooms in the new school building both morning and afternoon on Tuesday and on Wednesday morning before letting contracts yesterday afternoon.

Work on the building is progressing rapidly now and the building should be ready for the opening of the fall semester on September 1.

From the American Seating company of Dallas the board purchased 616 upholstered seat, panel back, opera seats for the main floor of the new auditorium and 319 wood seat, panel back, opera seats for the balcony, and 530 folding chairs for the cafeteria at a total cost of \$6,058.66.

The American Desk company of Temple was awarded a contract for 30 spring tables, 25 bookkeeping tables, 20 library tables, 75 cafeteria tables, 155 chairs, 37 teacher desks, and 23 files at a total cost of \$3,700.

The Bickley School and Church Furniture company of Houston, bidding through the Home Builders Supply company of Pampa, was the successful bidder for 750 classroom chairs and desks at a total cost of \$4,500.

Window shades for the south and east side of the building, numbering 225, were purchased from the Southwest Seating company of San Antonio at a total cost of \$1,100. The shades are of heavy material, dark khaki color.

Coltexpo Employee Has Same Serial, Order Numbers

Gray county has duplicated the record of Twin Falls, Ida., in having a selective service registrant with the same serial and order numbers.

Twin Falls had 1,345 registrants, Gray county, 3,396. The Gray county man with the same numbers is Jake Leggett, Coltexpo corporation employee, LeFors, former catcher on the Coltexo nine. His numbers are 1323, and he has been classified in Class 3.

At Twin Falls, the registrant with corresponding numbers was Archie A. Baker, 732.

Same order numbers and serial numbers are a rare occurrence. The Twin Falls board's case was mentioned in the May 15 issue of a national selective service publication.

In the story, the board asked if there were any similar cases over the United States.

The office of the Gray county board is today citing the local case to the national publication.

Exactly how the numbers happened to correspond is not known; it "just happened," was the only explanation the selective service office could make of the case.

Serial numbers were assigned by local boards, following R-day, Oct. 16, last year. Then the national headquarters set up the tables under which order numbers were listed.

Humble Hikes Oil Price 10 Cents Barrel

Hess Plane Peppered By RAF Bullets

LONDON, May 22 (AP)—Rudolf Hess, the runaway deputy Fuehrer of Nazi Germany, bailed out of his Messerschmitt May 10 after hot pursuit by an RAF Defiant fighting plane, Air Secretary Archibald Sinclair told the House of Commons today.

The Sinclair statement, one of the most revealing official statements so far in the Hess case, thus contained a possible explanation of the bullet holes which the British found in the tail of Hess' wrecked Messerschmitt.

The British Defiant was "hot on the trail" of the Messerschmitt, following it in the darkness, when Hess bailed out, Sinclair said. He did not say, however, whether the Defiant fired on the Messerschmitt.

The Duke of Hamilton, premier Scottish peer and RAF squadron leader, for whom Hess is said to have asked when he was picked up, never met the deputy Fuehrer before the night he confronted Hess as a prisoner of war, the air secretary said.

He declared that Hamilton, 38-year-old "sporting Duke," did not even "recognize the prisoner" when he faced him after obtaining leave from his RAF station.

This statement further heightened the mystery of Hess' coming. One of the German versions of the affair was that Hess hoped to make contact with Hamilton to further a hallucatory peace plan.

There were reports following this that Hamilton had met Hess before the war on trips to Germany notably the Olympic games in 1936.

The Humble Oil and Refining company went other companies one better in their hike in price of Panhandle crude oil yesterday afternoon by announcing a 10-cent a barrel increase for all crude oil it purchased in Texas and New Mexico, with the exception of the Talco and Hawkins fields where a seven cent increase was announced.

Three other companies hiked the price of crude in the Panhandle nine cents a barrel earlier in the week. To date none of the other purchasers have met the increase but they are expected to do so within the next day or two.

Top price being paid by the Humble company is \$1.12 per barrel while three other companies set a top of \$1.11.

First raise in price was announced Monday afternoon by Phillips Petroleum company. The Shamrock

Two-Gun Man Locks Ten In Bank Vault

LEVELLAND, May 22 (AP)—The First National bank of Levelland was looted of \$20,533.77 today by a two-gun man who locked 10 employees in the vault.

The employees were released 15 minutes later when they called out the combination to "Paul H. Godwin." The looper was released 19 minutes later when they called out the combination.

Peace officers throughout the South Plains of Texas and Eastern New Mexico were converging on Levelland and throwing up a cordon on principal highways.

Locked in the vault were Lloyd Luna, bookkeeper; Mrs. Nadyn DeWees, secretary; W. H. Gaskin, Jr., bookkeeper; Fred Barker, assistant cashier; J. L. Black, bookkeeper; William R. Sewell, vice president; Mrs. Woodrow Cobb, teller; Woodrow Cobb, assistant cashier, and the janitor, Nathan Alexander.

The employees were released 15 minutes later when they called out the combination to "Paul H. Godwin," a tax official, and C. D. Bass, Hockley county clerk.

Barker gave the following account of the robbery:

"The bandit was about 5 feet 11 inches tall, weighed about 155 pounds, was slender, wore khaki clothing, gloves, had on a cap and under it a skull cap that held in place a white mask.

"He was young and apparently fair.

"He carried two .32 caliber pistols. The bandit appeared at the bank early. When the janitor came down the man already was in the bank. The negro was told to sit tight and do what he was told.

"The man had drilled holes outside in the bottom of a back window of the bank and had unlatched the window and climbed in.

"He told us to sit around naturally as possible, inquiring he didn't want us giving any tip of what was going on."

Allies Losing Battle Of Atlantic, Says Admiral Glassford

SHANGHAI, May 22 (AP)—Rear Admiral William Glassford, commander of the United States Yangtze naval patrol, declared tonight that the battle of the Atlantic "at this moment is being lost by the allies."

"We are not only facing inevitable defeat of England and collapse of the British empire, but also defeat of the United States unless something is done," he added.

Glassford told an audience of Chinese and American business men here that something must be done "to stop the sinking of allied ships in the Atlantic, which are going on faster than they can be replaced."

"Once again," he declared, "it is the United States' job to save England."

"Once again we are asked to build a colossal merchant marine to carry war supplies to England. We shall do it. But if it is not evident soon, this will not be enough. These ships must get safely across the Atlantic."

Referring to the possibility of convoys, the Admiral said "this is the one real and deadly effective solution, but just how we are to insure safe passage of the Atlantic remains to be seen."

Stimson Assails Neutrality Act

WASHINGTON, May 22 (AP)—Secretary Stimson assailed the neutrality act today as "a violation of our most sacred and important tradition of foreign policy, freedom of the seas."

Like Secretary of the Navy Knox who yesterday termed the act barring American shipping from war zones a "terrible blunder," Stimson stressed he was speaking as an individual rather than as secretary of war.

Stimson added, however, that what he described as a conflict between the neutrality act and the freedom of the seas principle would have to be "very carefully considered," however, in delivering munitions to Great Britain.

"It's for others to decide whether repeal of the act is an urgent matter now," he told a press conference inquirer.

'Booze' Banned At Army Camps By O'Daniel

AUSTIN, May 22 (AP)—Declaring "Booze conditions" near army training centers in Texas "demoralizing," Governor W. Lee O'Daniel today asked the legislature to bar intoxicating beverages for 10 miles about such areas.

The bill he submitted along with his special message would carry such prohibition also with reference to places where ships, airplanes, tanks or other military supplies were produced under government contract.

Sale, barter and transport of intoxicating beverages would be banned under penalty of two to five years penitentiary imprisonment.

The attorney general would be empowered to enjoin violations of the law and suit could be maintained in Travis county (Austin).

Prohibited areas would be "within 10 miles" of any part of land or buildings occupied or controlled by the governor and used as a "fort, arsenal, training camp, quarters or place" where soldiers, sailors, marines or aviators of the army, navy or national guard are quartered or trained.

Sacramental wine or liquors for medicine would be exempted.

Senate Votes To Adjourn June 3

AUSTIN, May 22 (AP)—The senate today adopted a resolution to adjourn this regular session of the legislature sine die on June 3.

The house, however, rejected a sine die adjournment proposal.

Recently the house adopted a resolution under which the legislature would not adjourn but would recess from June 2 to July 15.

The house resolution to adjourn sine die May 31 by Reps. H. F. Howington of Comanche, Omar Burkett of Cleco and others, was tabled, 74 to 35.

'Does NYA Help Boys And Girls To Get Jobs?' 'Yes,' Says Texas Record

Note to Readers: In view of the plan to sponsor NYA projects in Pampa, you will be interested in reading the following article. Pampa is one of the few large cities in Texas which has not taken advantage of the NYA program, which in childhood alone has a payroll of \$50,000 a year; however, that sum is negligible in comparison with the training the youth get. The following article will give you an idea of the kind of training youth get in NYA projects.

Members of the Pampa NYA advisory board whose duty it is to recommend projects and get them set up through a sponsor include C. N. Gann, Jimmie Dodge, the Rev. Bob Boshea, M. C. Johnson.

Late News

LONDON, May 22 (AP)—British naval patrols have intercepted the 13,467-ton French tanker Sheherazade enroute to French North Africa with an oil cargo from the United States. It was made known today, and it was understood this was done with the full consent of Washington.

NEW YORK, May 22 (AP)—The German radio broadcast today that ten dive bombers had sunk a British cruiser off Crete and had severely damaged two others.

LONDON, May 22 (AP)—British fighting planes on Crete were withdrawn after the German parachutists and air-borne troop attack started because of "the pronounced disadvantage under which our fighters were operating" it was authoritatively disclosed today.

I Heard . . .

Emmett Ellis announcing this morning that he was on his way to the city hall to report that the bridge on Kingsmill creek (street) between the city hall and the courthouse, had been washed out.

Yo' all look at yo' hat, everybody else do! Roberts, the Hat Man. (ad.)

I Saw . . .

Joe Gordon and Cliff Braly this morning and they said they wanted to enter a float in the Fiesta parade—their sail boat on Lake McChellian. "But it may be a necessity by that time," said Joe.

Pennsylvanians Elect Shryock President

Small in numbers but large in interest, the natives of the Quaker, Creole, Tarheel states, and of Florida and West Virginia got together last night in two meetings held at the county court room to elect their representatives to the Top O' Texas Polka Fiesta, to be held here June 12, 13, and 14.

Largest group was the Pennsylvanians. They are to meet again at 8 o'clock tomorrow night to nominate their queen. Officers elected by the Quakers were F. E. Shryock, president; Mrs. Louella E. Howell, vice-president; Miss June Marie Hoover, secretary.

At the other meeting, held at the same time in the county court room, Louisiana was represented by Mrs. J. E. Torrey; North Carolina by J. E. Yoder and Miss Sallie Cahill; Florida by Ollie Durham; West Virginia by Mr. and Mrs. C. E. Tennant and Mrs. Roy Showers, Sr. Mrs. Showers was elected secretary of the West Virginians.

Call meetings of these states are to be held soon, after state registration lists have been checked.

Missouri and Oklahoma will vie for space in the district court room at 8 o'clock tomorrow night. The Showers already had their meeting set for the court room, but the Sooners are vowing they'll live up to the reputation of getting there first, if they have to take to canoes to get to the court house.

It's all a part of the state societies set up in the Top O' Texas Polka Fiesta. The Missourians have perfected their organization, but the Sooners have yet to elect permanent officers, decide on their float, and how a beauty queen shall be elected.

Wheat Allotment Cut 7,000,000 Acres

WASHINGTON, May 22 (AP)—Secretary of Agriculture Wickard today established a national wheat allotment of 55,000,000 acres for the 1942 crop.

The secretary said a reduction in production was necessary because of a mounting surplus and loss of export markets.

The 55,000,000-acre allotment is the minimum allowed by corn control legislation.

It will be apportioned among growers on the basis of a formula set up by law.

Announcement of the smaller allotment was made at the agriculture department prepared to hold a grower referendum May 31 on marketing quotas for this year's wheat crop.

Special Instruction To Be Given Mexican School Children

MEXICO CITY, May 22 (AP)—The ministry of public education has ordered special instruction given Mexico's 2,000,000 school children on President Avila Camacho's reasons for aligning the nation with the United States and the other Americans in defense of democracy.

An elaborate pamphlet containing material for such instruction was distributed yesterday to directors and inspectors of the nation's 25,000 schools.

Education Minister Luis Sanchez Ponton wrote in an introduction to the pamphlet:

"The ministry of public education requests its collaborators to second with faith and enthusiasm the government which has taken the only attitude compatible with our historic antecedents and with our loyal democratic principles.

"Mexico has done more than add itself to the other republics of the American continent in whom breathe the same love of liberty, of justice and of respect for the independence and sovereignty of the nations which form the western hemisphere."

Mister Big

Oh, say can he see? Yes, but probably not far, because this modern Gulliver, an English Home Guard, watches from ramparts of miniature castle he built himself. He charges admission and receipts go to charity.

Britain On Deal To Buy Refugee Snips

WASHINGTON, May 22 (AP)—Great Britain, it was learned authoritatively today, is negotiating with Latin-American nations for the purchase of some of the 100-odd refugee foreign merchantmen now idle in hemisphere ports.

The negotiations, it was learned, parallel existing discussions between Sir Arthur Salter, chief of the British shipping mission, and the U. S. Maritime commission, whereby Britain hopes to obtain some merchant tonnage when the United States formally requisitions the 84 foreign ships now under official surveillance here.

The success of British efforts, it was said, would hinge largely on the deliberations of the Inter-American financial and economic committee, representing all 21 American republics, which convened today to consider the whole seizure question.

The envoys of the American nations will present their governments' views concerning the most feasible ways in which refugee foreign ships may be utilized for the benefit of the trade and defense of the western hemisphere. A unified hemisphere policy on the subject is the objective.

One proposal made would place all requisitioned foreign vessels in "pools" from which cut-off ships would be drawn to meet hemisphere requirements. Many Latin-American nations have suffered severely from the shipping shortage caused by heavy British and neutral losses and transfers from the Latin-American service.

Should this proposal be adopted, it was understood that Great Britain would be given the opportunity of negotiating for the purchase or charter of "surplus" vessels.

The election was held on May 15, but due to the absence of County Judge Sherman White, out of town on a business trip to Austin, the county commissioners have not yet canvassed the election returns.

About 600,000 persons in the United States are victims of epileptic seizures.

Sale Of Liquor At McLean Outlawed

Sale of liquor in precincts 5 and 17 (McLean) was outlawed as the result of the special election held there recently, when 209 persons voted against the sale of liquor, to 78 for.

By precincts the vote was: 5, for prohibiting sale, 94, against, 33; precinct 17, for prohibiting sale, 115, against 45. Presiding judge of precinct 5 was D. M. Davis, of 17, T. J. Coffey. The two precincts

Parent Education Group Observes Guest Day At Tea

Members of the American Association of University Women Parent Education group and their guests were entertained at a tea, Tuesday afternoon in the city club rooms with Mrs. Carlton Nance as hostess.

Mrs. R. F. Bielefeldt was in charge of the registry and Mrs. W. A. Rankin poured tea at the table which was attractively decorated with a centerpiece of red roses.

During the roll call, members introduced their guests and told of a good parent education book.

Mrs. Hol Wagner conducted the installation of officers for the coming year. They are Mrs. W. A. Rankin, president; Mrs. R. H. Nensiel, vice-president; Mrs. Fred L. Radcliff, secretary; Mrs. R. K. Edenborough, treasurer; and Mrs. P. O. Gaut, reporter.

Mrs. M. E. Lamb, who had charge of the program, introduced Mrs. J. D. Beach, a guest, who spoke on "What the Child Should Have in Personality Preparation for School." She discussed the responsibility of the mother in training the child the first five years of his life and mentioned some of the things a teacher expects of the child entering school.

Following the program, Mrs. W. A. Rankin presented a gift from the group to Mrs. Carlton Nance, president.

Mrs. Nance announced that the club will have a called-business meeting on May 29.

Guests registering were Meses. J. B. Johnson, Edwin Vicars, Fred Roberts, Hol Wagner, J. D. Beach, and Fred Thompson.

Members attending were Meses. R. K. Edenborough, Wiley, Day, Frank D. Smith, Joe Tooley, R. H. Nensiel, Foster Fletcher, J. K. Coats, Perry Gaut, Fred L. Radcliff, R. F. Bielefeldt, M. E. Lamb, and Carlton Nance.

Picnic Planned By BGK Club For Tuesday Evening

A picnic for next Tuesday evening at Lake McClellan was planned at the weekly meeting of B.G.K. club in the home of Mrs. Bill McCarty.

The members will meet at the home of Miss Elizabeth Mullinax at 6:30 o'clock and go to the lake in a group.

Following the business session, a kitchen shower was given for Miss Donna Jo Berry, bride-elect of Clinton Evans.

Present were Meses. Jack Smith, Bob Triplehorn, George Pollard, Gerald Fowler, Freda Barrett, Bill McCarty, Wayne Phelps, Allen Evans, Bud Martin, Ed Myatt, Gaston Burd, Tom Rose, Jr., Skeet Wise, Dan Smith, Bill Gray; and Meses Adalen Brazil, Betty Jo Thurman, Elizabeth Mullinax, Lucille Bell, Donna Jo Berry, and Jane Kerbow.

Flower Garden Is Setting For AAUW Event Honoring Senior Girls, Mothers

A garden of spring flowers in pastel shades formed the setting for the fourteenth annual reception given by American Association of University Women for graduating senior girls and their mothers Tuesday evening in the city club rooms.

Japanese lanterns lighted the room where garden furniture was arranged on the stage which was decorated with a white picket fence, vine-covered trellises, grass, and flower boxes.

Painted daisies centered the white covered table which was lighted with green candles. Sprays encircled the punch bowl at which Mrs. V. P. Sheldon presided. Green napkins embellished with A. A. U. W. and pinks on the plates completed the pastel color note. As each girl was served, Miss Lorraine Bruce presented her with a miniature leatherette program.

Mrs. Wagner Presides

Mrs. Hol Wagner, president, welcomed the guests after which Mrs. George Prief, program chairman, presented Miss Janice Purviance who sang "The World Is Waiting for the Sunrise" and "Mary, You're A Little Bit Old Fashioned" with Miss Katherine Pearce playing the accompaniment.

Elizabeth Reynolds entertained with a ballet dance which will be presented by pupils of Constance Ferguson under the sponsorship of the Girl Scouts Friday evening. Mrs. Robert Carter was the accompanist.

Motion pictures in technicolor were shown of life on various college campuses.

Each girl was given a self-analysis booklet on "Shall I Go to College?" A. A. U. W. offered to meet during the summer with girls desiring help in making plans to attend college in the fall.

The committee which planned decorations, favors, and refreshments included Meses. Robert Boshen, H. V. Mathews, F. E. Leech, Perry O. Gaut, R. H. Sanford, Aubrey Steele, and Frank D. Smith. Other members of the program committee are Meses. J. B. White and V. P. Sheldon.

Woman's Club Has Final Meeting Of Year At Canadian

CANADIAN, May 22.—Woman's club meeting was held Tuesday afternoon in the Woman's Christian Temperance building parlors. This was the closing session for the club year, the next regular meeting to be held the first Tuesday in September.

Officers for the coming club year assumed their duties at the close of the session.

Mrs. C. W. Callaway called the program. Mrs. Lewis Merry discussed "Iron and Brass Implements of the English and American Homes." The many uses to which brass was put in Colonial times were explained and that a young woman's hope chest contained four sets of brass fire tongs, numerous brass candle sticks and brass snuffers, and irons, and many other articles of brass for use in her prospective home.

She called attention to the present popularity of using iron for gateways, for grills, in stairways.

Miss Georgia Engle played a piano solo, "Humoresque Negro" by Homer Grunn, and Mrs. R. M. Hobdy and Miss Engle sang the duet, "One Fleeting Hour" with Mrs. Bill Frelling at the piano.

Mrs. G. W. Ayers, club president, Mrs. F. N. Williams, and Miss Georgia Engle reported on various parts of the programs of the district meeting held last month in Amarillo.

Dues for the coming club year were paid by members present and the following officers installed: Miss Georgia Engle, president; Mrs. C. W. Callaway, first vice-president; Mrs. H. S. Wilbur, second vice-president; Mrs. F. N. Williams, treasurer; Mrs. George L. Bader, corresponding secretary; and Mrs. Malouf Abraham, secretary.

The president appointed Mrs. J. D. Raymond, parliamentarian; Mrs. C. W. Callaway, club representative to the Girl Scouts; Mrs. White, chairman, art committee; Mrs. H. S. Wilbur, chairman, music committee; Mrs. C. W. Callaway, chairman of the literature committee; and Mrs. J. D. Raymond, chairman of the membership committee.

TO BE IN RECITAL SATURDAY

Hopkins, right, Marlene, who is the daughter of Mr. and Mrs. Audell Swafford, will play Spinning Song (Ellenreath), and Flower Song (Lange), while Martha Ann, daughter of Mr. and Mrs. J. A. Hopkins, is to play "At the Country Fair" (Martin), and Airy Fairies (Spaulding). The public is invited to attend the recital.

Legion Auxiliary Plans Observance Of Poppy Day

"Memories of the past and hopes for the future—that is what goes into the making of a memorial poppy," said Mrs. W. L. Heskew, as she took one of the poppies apart and explained its structure at the American Legion hall here today.

The Legion hall is blooming with poppies as the auxiliary women complete preparations for the annual observance of Poppy Day here next Saturday. The little red flowers of memory are being taken from the boxes in which they came from Waco hospital, where they were made by disabled war veterans, and arranged for distribution on the streets on Poppy Day.

The poppies are made in exact replica of the wild poppies of France and Belgium which grew in such profusion on the World War battlefields, said Mrs. Heskew. They are shaped from crepe paper with wire stems. The disabled men who make them often work under great handicaps, but acquire remarkable skill in producing a close resemblance to the natural flower.

Many hundreds of men who could not possibly find or perform other work are given employment by the auxiliary in the poppy program. As this employment is restricted to those receiving little or no government compensation and who have families to support, the money they earn brings vital help to a large number of homes. More than \$100,000 has been paid by the auxiliary this year in wages to the poppy makers.

"The men who make the flowers are the comrades of those in whose honor the poppies are worn," Mrs. Heskew explained. "They are the ones who were not called upon to give their lives but to give the health and strength which makes life worthwhile. Into the little flowers they place great memories of the past and from the work they derive new hope for the future."

Sub Deb Club To Meet Tonight In Home Of Member

Miss Betty Lee Thomasson will be hostess to members of the Sub Deb club this evening at 7 o'clock in her home.

Graduating seniors who are members of the club were honored at a formal reception given recently in the home of Miss Betty Ann Culbertson by sophomores and juniors of the organization.

Corsages of gold flowers tied with blue ribbons and compacts decorated with Sub Deb emblems were presented by the hostess group to the seniors.

In the business session which followed the tea, plans were made for the meeting tonight and the dance to be given June 7 at the Country club.

Juniors and sophomores attending were Meses Betty Ann Culbertson, Frances Shier, Dorothy Drescher, Betty Lee Thomasson, Gretchen Ann Brunton, Ruthie Shier, Martha Pierson, and Elaine Carlson.

Seniors included Meses Betty McAfee, Betty Plank, Harriett Price, Lee Williams, Tolene Davis, Vera Lee Brunow, and Frankie Foster.

Mrs. Biggerstaff Gives Program At Auxiliary Meeting

Mrs. Clyde Fatheree and Mrs. Clinton Henry were hostesses at the meeting of Woman's Auxiliary of First Presbyterian church Wednesday afternoon in the church.

Following the business session conducted by Mrs. Fred Roberts, president, Mrs. E. L. Biggerstaff presided as leader of the program.

At the ensuing five meetings of the auxiliary Mrs. George Prief will review chapters from the book, "Dare You Face Facts" by Muriel Lester.

Mrs. Biggerstaff gave a paper on "Alaska" in which she mentioned that the only accredited high school for native boys and girls in Alaska is the Sheldon Jackson Presbyterian high school.

After the program, refreshments were served by the hostesses to 32 members, and Mrs. Bruce Pratt was welcomed as a new member.

Retiring Matron

Mrs. W. M. Voyles, retiring worthy matron of the Order of Eastern Star, will be honored with Ralph Irwin, retiring worthy patron, at the annual Eastern Star banquet Friday evening at 7:30 o'clock in the Schneider hotel. Reservations for the event are in charge of Mrs. Roy Sewell, and Mrs. W. C. deCordova.

THOUGHTFUL NOTES

The thoughtful hostess keeps in her guest room a supply of toilet articles her guest may have forgotten in last-minute packing—sample sizes of hand lotion, talcum and all-purpose face cream, small packets of clean powder puffs and cleansing tissues, bobby pins and hairpins, a comb and toothbrush, clothes brush—all of which can be purchased inexpensively in department or dime stores, but which can mean a lot in comfort to her guest.

ARRID Cream Deodorant

Stops Perspiration

1. Does not rot dresses, does not irritate skin.

2. No waiting to dry. Can be used right after shaving.

3. Instantly stops perspiration for 1 to 3 days. Removes odor from perspiration.

4. A pure, white, greaseless, stainless vanishing cream.

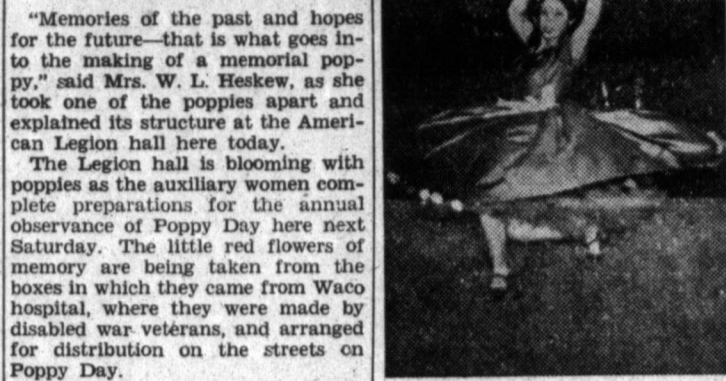

5. Arrid has been awarded the Approval Seal of the American Institute of Laundering for being harmless to fabrics.

25 MILLION jars of Arrid have been sold. Try a jar today!

ARRID

39¢ a jar (All stores selling toilet goods also in 10¢ and 59¢ jars)

GYPSY DANCER

Another dancer to be presented by Constance Ferguson in the Miniature Russian Ballet Friday night at 8 o'clock in the high school auditorium under the sponsorship of local Girl Scouts, is Margaret Sullivan, pictured above, in costume for the gypsy dance. A string ensemble under the direction of Carl Adams will assist with the program.

Three Pampa Girls Honored At Annual Recognition Service

Four Gray county girls, three of them from Pampa, were among those recognized at the annual Texas Technological college's recognition service at Lubbock recently.

They were: Miss Dorothy Burton, daughter of Mr. and Mrs. C. A. Burton, Pampa, for outstanding work in the junior council; Miss Betty Shroyck, daughter of Mr. and Mrs. F. E. Shroyck, Pampa, doing outstanding work as Treasurer; member of Women's Press club, member of Alpha Chi, and for being selected a member of the Forum for 1941-42.

Miss Maxine Wheatley, daughter of Mr. and Mrs. J. L. Wheatley, Pampa, for membership in Alpha Psi Omega, national dramatic fraternity; hospitality chairman for Interscholastic Association of Women Students convention, 51 activity points and B plus average.

Miss Wanda McLaughlin, daughter of Mr. and Mrs. Charles McLaughlin of Laketon, for maintaining an A-average.

Recital Will Be Presented By Mrs. Gallman Saturday
Mrs. Flaude Gallman will present her piano pupils in a recital in the Fellowship hall of First Methodist church Saturday night at 8 o'clock. Assisting on the program will be Jimmy Comstock, Mary Jean Evans, and Phyllis Ann Parker, expression students from Horace Mann school. The public is invited to attend the presentation.

Minister Attends District Meeting Of Women's Society
Special To The NEWS
CANADIAN, May 22—Rev. Uel D. Crosby, pastor of the First Methodist church here, attended the district meeting of the Society for Christian Service, the women's organization of the church. Four women of the church, Mesdames Mabel Teas, Perry Patterson, Virgil Davis, and R. C. May, also attended. This district meeting was held in San Jacinto Methodist church. Those who attended the annual conference last month made reports.

HANDSOME DESSERT
A dessert your guests will crow over—your regular recipe for tapioca cream with black cherries. Alternate the chilled tapioca with the black cherries in parfait glasses and top with lightly whipped cream. Florida, with 4,298 square miles, has the greatest inland water area of any state.

PARTY FROCK

8946

Here is a simple frock you can make in record short time—a pretty ruffle sleeve frock which we suggest as a party dress, particularly if you finish the hem with a ruffle and add the bow at the sweet, square neckline. In plain everyday fabric it is a cool frock and practical because it will launder so easily.

Pattern No. 8946 is for sizes 2, 3, 4, 5, and 6 years. Size 3 years requires 1 1/2 yards of 36-inch fabric for the dress alone; slip, 1 2/3 yards; panties 3/4 yard.

For this attractive pattern send 15 cents in coin, your name, address, pattern number, and size to The Pampa News Today's Pattern Service, 211 W. Wacker Drive, Chicago, Ill.

Have you seen our new Summer Fashion book? More than 100 fascinating styles for you and the children. Pattern, 15; Pattern Book, 15c; One Pattern and Pattern Book, ordered together, 25c.

Woman's Study Club Has Final Meeting Of Year At Miami
Special To The NEWS
MIAMI, May 22—Mrs. J. A. Mead was hostess Tuesday afternoon to the last meeting of the Woman's Study club for the year in a business and social meeting.

Mrs. W. R. Campbell was leader of the program which was a discussion of labor and the war, based on an article from the Atlantic Monthly written by Sumner Fitcher. Mrs. Campbell gave a biography of the author. She was assisted in the outline of the main topic by Mrs. Baird and Mrs. Agatha Locke. During the business session it was voted by the club to give its part on the furniture for Federation headquarters at Austin, and to cooperate with the Home Progress club in sponsoring a city park for Miami. Mrs. Baird was elected vice-president in the place of Mrs. Barnett who resigned. With Mrs. W. R. Campbell, retiring president, acting as installing officer, the following officers were installed for the succeeding year's work: Mrs. John Newman, president; Mrs. H. E. Baird, vice-president; Mrs. E. Lee Stanford, secretary; Mrs. J. E. Kinney, treasurer; Mrs. J. L. Seiber, parliamentarian. Mrs. Agatha Locke, press reporter; Mrs. W. R. Campbell, critic. A social hour followed.

Girl Scouts To Present Ballet Friday Evening

Girl Scouts of Pampa will present Constance Ferguson's Miniature Russian ballet at the high school auditorium Friday evening at 8 o'clock with Carl Adam's string ensemble assisting.

The program to be given is as following:
Ballet music from the opera, Rosamund (Schubert), Viennese Melody, folk song arrangement, string ensemble; Butterflies (Strauss), Edwina Lee Emerson, Phyllis Scheig, Arvilla Patterson, Nancy Patterson, and Rosebud, Janet Blackburn; Sprite (Tschalkowsky), Wynliou Cox; Starlight (Fetras), Elizabeth Reynolds; Dew Drop (Laurendeau), Joan Sawyer; Amaryllis (Ghys), Imaare Watson; Elf (Tschalkowsky), Edwina Lee Emerson; Vianna Woods (Strauss), Zita Ann Kennedy; Minuet-Caprice (Kopen), Emperor Waltz (Johann Strauss), string ensemble.

Polka (Folk Tune), Marcella Hall, Carolyn Mundy, Billy Westerfield, Wayne Holm, Olive Steed, Janice Holm, Bryan Hall, Martha Mullins, Charles Steed, and Duane Holm; Gypsy (Krentzlin), Margaret Sullins; Sailors Hornpipe (Folk Tune), Elizabeth Reynolds; Highland Fling (Folk Tune), Wynliou Cox; Irish Jig (Folk Tune), Marcella Hall and Billy Westerfield; Frog (Renton), Doris Anne Davis; Squirrels (Laurendeau), Phyllis Scheig; Edwina Lee Emerson and Nancy Patterson; Les Sylphides (Chopin), Zita Ann Kennedy, Wynliou Cox, Joan Sawyer, Imaare Watson, Elizabeth Reynolds, and Margaret Sullins.

Accompanists will be Mrs. Robert Carter and Mrs. A. D. Steed. A synopsis of the presentation compiled by those in charge of the program, is as following:

Butterflies, which was the opening number of the ballet, "Fairy Carnival," produced first in 1934. A rosebud bids the butterflies dance for the king and queen of Fairyland. The music is taken from the opera Fiedermans, by Strauss. Sprite is also taken from the "Fairy Carnival." A sprite dancing for the joy of existence. Music is from Tschalkowsky's Nutcracker Suite under the title of "Dance of the Mirtilons." Starlight—if starlight should take on human form, we might see something like this. Dew Drop Fairy is from "Fairy Carnival." With her costume fashioned of water, the duty of this fairy was to shake dew from her finger tips in the early morning hours. Amaryllis Gavotte—as might have been danced in the court of Louis XIV. Squirrels—a butterfly presents a nut to twin squirrels. They play with it until it cracks open and a huge green worm emerges, frightening them away.

Elf—from "Fairy Carnival" the little red elf sneaks upon the scene, and finding itself alone, dances for its own amusement. Vianna Woods—a woodland nymph dancing to the strains of the familiar Strauss music. Polka, consists of the little Indian, Cradle, and Camille, folk dances of the old Southwest as danced in Santa Fe, New Mexico, during Fiesta. Gypsy—as a caravan of gypsies comes to a halt in the square, one of their girls whirls into a dance, hesitating to beg coins between the steps of her dance. Jasper, the frog, contributes his part to festivities in "Fairy Carnival."

Sailors Hornpipe, Highland Fling, and Irish Jig are authentic folk dances of the British Isles as taught to Miss Ferguson by the daughter of an old dancing master in Scotland. Les Sylphides, a romantic reverie, is taken from a ballet without a story. Into a romantic glade, bathed in the dripping silver of moonbeams, comes dancers, pure white skirts rather long as Taglioni, to her worn them, transport us to another world to music of Chopin. Les Sylphides, a suite of classical dances is one of the oldest ballets, originally created some hundred years ago by Filippo Taglioni for his daughter Marie Taglioni. Through this medium the frail Italian ballerina conquered Vienna, Paris, London, and St. Petersburg with her exquisite grace and charm. Since there have been many recreations of Les Sylphides. Same music and spirit, but different choreography, and sometimes different names. Anna Pavlova and company danced it under the name of Choplanna. When Theodore Kosloff presents it, he calls it Chopin Memories, and uses over a hundred dancers. The nocturne from this suite to be used Friday night was arranged by Miss Ferguson after Mr. Kosloff's Choreography.

All costumes were designed by Miss Ferguson for this performance which closes all activities of the school in Pampa for this season.

Intermediate R. A. Organized At First Baptist Church

Sponsored by the Woman's Missionary society of First Baptist church, the Intermediate R. A. for boys between the ages of 15 and 17, inclusive, was organized Tuesday evenings at the church by Mrs. Rufa Jordan and Mrs. T. D. Alford. Mrs. Jordan is young people's leader of the W.M.S. and Mrs. Alford is to be counselor for the group. She will have charge of the programs at each night meeting, and a local man will be named to have charge of the recreation which will include picnics, softball games, hikes, and other outdoor activities for the summer. Next week the R. A. will have a business meeting and officers will be elected. Announcement of the exact time will be made at church Sunday and later in the newspaper. All boys of 15, 16, and 17 years of age are invited by Mrs. Alford to be present at the next meeting so they will be charter members. Present at the initial meeting were Gordon Bayless, Alvin Reeves, Gene Alford, J. V. Mosley, Harold Oraddock, and Otis Davis.

A Maxwell House that's 55% richer in extra-flavor coffees! Today, more than ever, good to the last drop!

Now more than ever . . . GOOD TO THE LAST DROP.

Mainly About People

Members of the Gray County Tuberculosis association will meet at 7:30 o'clock tonight in the county court room.
Wanted: Girl for general housework and care of small child. Must stay nights. Apply 219 N. Gillespie. (Adv.)
A humorous description of the difficulties of arranging programs was the subject of a talk by Glen Moody, program chairman, at the Rotary club's regular weekly luncheon yesterday. Attendance was 42, including two visiting Rotarians, Jack Phillips of Borger, and Neil McCullough of Albuquerque, N. M., formerly of Pampa.
Company D, 14th battalion, Texas Defense Guard, is to meet at 7 o'clock tonight at the American Legion hut.
Dan Williams returned last night from a business trip to Austin.
Bill Micklins of Wichita Falls, former Pampian, is here on a few day's visit.
L. E. Sarter reported to city police last night the loss of a 1940 Packard sedan, taken from West Brown street.
Two more minor accidents were investigated by city police yesterday afternoon, both caused by slippery streets.
Bud Mooney reported to city police today the theft of a rifle from his car.
Garnet Reeves returned last night from a business trip to Lubbock.
City Manager Steve Matthews returned yesterday from Greenville, where he had been visiting his parents.
The monthly Boy Scout Court of Honor will be held Saturday night at 7:30 o'clock in the district courtroom. Meeting night has been changed from Monday night.

Binocular-Camera

Barry Whitehead, official, tries out new combination binoculars and 16 mm. motion picture camera with which eight patrol judges will photograph races in entirety at Hollywood Park, Inglewood, Calif.

War's Worst

This young Englishman probably thinks things can't get much worse now that younger set licks candy-coated carrots instead of real all-day suckers. Tragedy results from war measure to conserve sugar.

Market Briefs

NEW YORK, May 22 (AP)—Bearing news received the principal slant in Wall Street today for reversing the stock market rallying trend.
Losses ran to a point or so at the worst and dealings, slow most of the time, picked up on the downward flurry. Designs were reduced in a few cases as weak and scattered favorites managed to emerge with modest plus signs. Transfers were around 450,000 shares.
North American, Celanese and American Tobacco "11" were among issues touching new 1941 bottoms.
In the falling division were U. S. Steel, Bethlehem, General Motors, U. S. Rubber, Sears Roebuck, International Harvester, Santa Fe, Central Standard Oil (N. J.), Texas Corp. and Phillips Petroleum.
Western Union and Postal Telegraph preferred dipped despite the proposal of the presidents of both companies to congressional committee that all units of the telegraph industry be permitted to consolidate for more economical service.
Contesting the trend were International Paper, preferred, American Woolen preferred, Allied Chemical and United Aircraft.
Wheat and corn at Chicago cut their losses substantially at the finish but the former was off 3/4 to 2 1/2 cents a bushel and the latter down 1/4 to 1 1/2. Cotton, in late trades, was 40 to 70 cents a bale lower. U. S. government bonds pushed up but corporate loans were bit shaky.

All Set for the Big Leap

This is how parachute troops ready to jump would look to you if you were winging along underneath a transport plane. Four British chutists are just practicing in a dummy fuselage at a training station.

Heavy Showers Continue To Fall

Heavy showers continued to fall today over west and southwest Texas, and the weather bureau promised no let-up in conditions bringing the record-breaking moisture to many points.
An area of high pressure, moving in fast from the northwest with cool air, will continue to precipitate moisture in a low pressure area that is relatively stationary over the rain region, the Dallas weather bureau said.
No promise of a let-up was in sight immediately, the forecast calling for continued showers and thunderstorms, with cooler predicted for the Panhandle tonight.
Thursday morning it was raining at Muleshoe and Clearfork, and showers fell during the night at some Plains and Panhandle stations.
Heaviest rainfall was in the southwest coastal area, where Corpus Christi had a 24-hour total of 4.33 inches. Alice, LBS, Brownsville 2.10, Mission 1.62.
Muleshoe reported 1.13 and continued hard rains.
Air miles flown increased from 7,000,000 miles per fatal accident in 1936 to 40,000,000 miles in 1940.
The annual number of pneumonia cases in the United States is about 500,000. Before introduction of sulfanilamide, about 160,000 were fatal.
To man the fleet now being contemplated, the U. S. Navy must train 16,000 officers by 1947.

Canadian To Sell Thousand Poppies

SPECIAL TO THE NEWS: 22—Mrs. Jim Poindexter will be in charge of the annual poppy sale sponsored by Zybach-Owens post, American Legion, and the ladies' auxiliary, to be held Saturday.
Daughters of Legionnaires will be sales girls under direction of Mrs. Poindexter, each serving one half day. These girls are:
Joyce Bernson, Jeanette Pickens, Roberta Culbertson, Mary Johnson, Betty Ann Studer, Judith Reed, Elizabeth Crow, Clara Davenport, Natalie Hutton, Margaret Hutchinson, Joan Chambers, Mary Spurlin, Helen Studer, and Mary Pearl Spiller.
Poppies will be sold for 10 cents up, according to the interest of the purchaser. A thousand flowers have been secured from the veteran's hospital, Legion, Texas, and the sponsors hope to sell them all. Ten members of Zybach-Owens post and three of the auxiliary reside in Higgins. Mrs. Tom Snodgrass will be in charge of the Poppy sale there Saturday, using daughters of those Legionnaires. For sales girls, all money received from the Saturday sale in both towns will be placed in the organization's fund for child welfare and rehabilitation.
E. C. Fisher is post commander and Mrs. Jennie Bernson is president of the ladies' auxiliary.

More Testimony Presented Against Reformatory Heads

AUSTIN, May 22 (AP)—An opinion that the training system at the Gatesville State Reformatory for boys necessitated whipping for inmates and bred antagonism between boys and overseers was studied today by a legislative committee.
The house of representatives committee on electrocution institutions last night continued its investigation of the reformatory and heard C. A. Maberry of Bay City, former institution employee, testify the system could be greatly improved if what he termed more modern methods were employed.
Maberry, who said he worked at a similar institution at Karney, Neb., before being employed at Gatesville, asserted a system of dividing inmates into groups and hiring men better qualified to handle boys would, in his opinion, reduce the corporal punishment administered.
"Under the present system," he said, "a boy may come out of the school with a fear of punishment but is little better equipped mentally than when he went in."
"I tried to get officials there interested in a merit system but it concluded with me quitting after the superintendent wanted to discharge me."
Maberry, who said he worked at the reformatory between 1923 and 1932, declared that while he was there, a grandstand for the athletic field was torn down to build a mile barn.
Other witnesses not employed at the school were questioned.

NEW YORK CUBS

BRITISH NAVY

(Continued from Page 1)
place the resources and territories of France increasingly at the disposal of Germany.

In the heightening 3-day-old battle of Crete, the British said two German transports and a number of Greek boats headed for the British-defended island were sunk by British warships.

Empire headquarters in Cairo said losses among Nazi "chute and airborne troops were "even heavier than before."

German gains were described as only isolated successes. "By nightfall, the situation was satisfactory in every area except Malemi," the communique said.

In that sector, it declared, operations to deal with the Germans "are now in progress."

German reports previously indicated that the British fleet had swung into action in the defense of Crete, asserting that Air Marshal Hermann Goering's Luftwaffe, aided by Fascist torpedo planes, damaged a British battleship, six cruisers and a destroyer in the eastern Mediterranean.

The British radio said the Germans might now be drawing on a second air-borne division—making 14,000 Nazi air troops involved in the momentous struggle—and admitted the possibility also that the Germans might be attempting to land tanks from boats.

"Enemy landings by air are continuing," British middle east headquarters said tersely.

Recounting yesterday's action, the communique declared: "British and New Zealand forces, assisted by Greeks and Cretans, all rendered a magnificent account of themselves. Fighting with splendid courage and dash, our empire forces with their gallant allies delivered three successful counter-attacks."

In Berlin, a Nazi spokesman challenged British reports of big German losses in the conflict, declaring: "We will tell the whole story soon, and the world then may judge what actually was accomplished in the region of the Mediterranean."

Cairo dispatches said 1,000 Nazis were killed or captured, in the first day's fighting.

Still another development found reports circulating in German-occupied Paris that defense forces in the French Caribbean island of Martinique had received orders to prepare for an American attack.

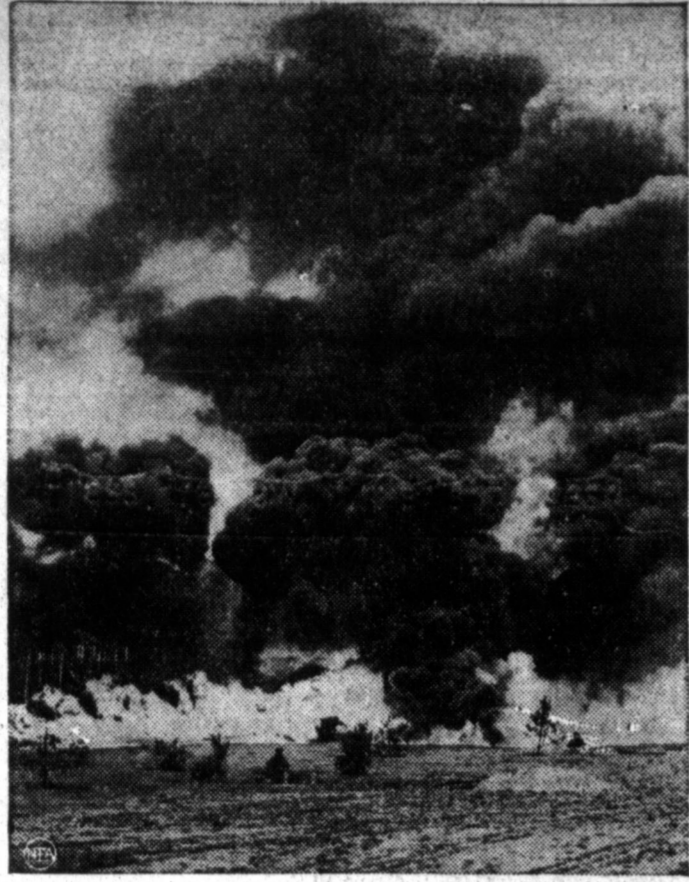

The Paris newspaper Le Matin said that the defense of Martinique would center on a fortress where huge gold reserves of the Bank of France are cached—and that its defenders would blow up the fort as a last resort.

In this connection, the French have repeatedly expressed nervousness that the United States might be planning to take over Martinique, particularly since the Vichy government of chief of state Philippe Petain has begun active cooperation with Germany.

"The invasion attempt appears to be in hand," a British spokesman said briefly.

The Berlin radio broadcast a Baghdad report that Iraq planes—now said to be heavily reinforced by the German Luftwaffe—had executed surprise attacks on a British airbase at Amman, the capital of British-mandated Transjordan.

Press Preview, Hitler's Hottest

Flame-throwers combat "enemy" tanks somewhere in Germany in demonstration of new Nazi maneuvers staged for the press. German censor-passed caption says these are newly improved weapons. Note soldiers observing from holes.

which adjoins both Syria and Iraq. "This was the first Iraq air attack against a British stronghold outside Iraq," the German broadcast said.

Meanwhile, officially unconfirmed reports said Gen. Charles De Gaulle's British-aided "Free French" troops were advancing into Syria from Palestine.

If true, this would mean that the Allies had seized the initiative on land, striking into the French-ruled colony next door to Iraq before the expected arrival of German troops. Nazi military supplies—and possibly troops—were reported rolling by train through Turkey en route to the developing middle east war theater.

As a further indication that Great Britain intends to make a desperate fight to halt Germany's march to the east, BBC reported that contingents of Australian and New Zealand troops had strongly reinforced the British garrison on the island of Cyprus, off Syria, 350 miles east of Crete.

As viewed by the British, if the Germans take Crete, their next attack will fall on Cyprus in a drive to establish a "bridge" across the eastern Mediterranean to Syria.

Reuters, British news agency, and radio Brazzaville, "Free French" station in French equatorial Africa, both reported that "Free French" troops were driving into Syria from Palestine and that a full regiment of French regulars in Syria was believed to have deserted to join the De Gaulles.

Countering British maneuvers, French troops were reported on the march in Syria and adjacent French-mandated Lebanon, and long-Idle French warships began exercises in the harbor at Beirut, pointing up a warning by French High Commissioner Gen. Henri Dentz that Syria's army was ready "to meet force with force."

Two other developments, taken together, stirred speculation that Germany may be preparing to "seal up" occupied France against foreign eyes—possibly with a view to making final moves for the long-heralded attempt to invade England.

The Germans announced that all nations have been asked to close their embassies and legations in Paris, in occupied France, and shift them to unoccupied Vichy.

Field Marshal Walter von Brauchitsch, commander in chief of the German army, arrived in Paris on an undisclosed mission. At the same time, a Berlin spokesman scoffed at the theory that the assault on Crete was a full-dress rehearsal for an attempt to invade the British Isles.

"The water jump to Crete has frequently been compared to the English channel crossing by amateur military strategists," the spokesman said. "But it is not German practice to make its military plans so transparent."

"There are important differences in the strategic situations," he went on. "For instance, Crete is four times as far from the European mainland as is England."

NYA

(Continued from Page 1)

of them finished the course. Eighty-four asked for jobs. Eighty-four got them.

In Brenham, where 70 to 80 girls live in a dormitory while learning commercial and clerical work, 70 of last year's class are employed. They got their experience by going downtown four hours a day and working as secretaries, receptionists and typists in tax-supported offices. They spent the other four hours of their working day taking typing, shorthand, business English, book-keeping.

Negro girls operate an NYA community center at Cuero under sponsorship of the negro people of the town. As soon as the NYA can recommend one of the girls, she gets a job in service in a home. They learn cooking, house cleaning, table service, care of children, and even such niceties as how to answer a telephone and receive visitors.

A contractor building cantonments at Fort Bliss, El Paso, needed workers. One hundred and fifty NYA boys were furnished him through the Texas State Employment service. They are reported to be doing satisfactory work.

An NYA woodworking shop at

Abilene was closed when the 33 boys working in it got jobs helping build Camp Barkley. One boy drew a wage of \$1.12 per hour, more than that of his NYA supervisor.

One hundred and 20 boys have left the NYA project at Fort Worth's municipal airport in the last six months to take private employment. This is a huge turnover, since the project is set up for only 88 boys at a time.

Twenty-one of them are at Hicks Field near Fort Worth as mechanics' helpers. Six are with American Airlines. Seven are employed by the city of Fort Worth to assist in operating the municipal airport. Civil Aeronautics Authority has taken three. Private flying companies have taken 25 as mechanics' helpers and to operate substations.

Nine are working at Duncan Field, San Antonio. One is at Randolph Field enlisted as an army flier. Money earned by all of them advanced from \$16 a month, their NYA salary on the project, to at least \$88.

One boy now makes \$200 a month as an instructor in an aircraft school.

Eighty girls live in a residence center at Mineral Wells, and do clerical work in downtown tax-supported offices. The area supervisor reports that 92 per cent of them went into private employment during the months of January and February, 1941.

A city spokesman, sewing room is being set up by the NYA in Waco. Several garment factories in the city, busy with big government orders, have assured the agency that as fast as it can recommend girls they will be given private employment.

At Houston early in April state NYA leaders talked with representatives of the shipbuilding industry. "Tell us the kind of work experience our NYA boys ought to be given to develop the basic skills needed in shipbuilding, and we'll give it to them," the NYA men said. "Give us boys who have developed good sound work habits and we'll build ships with them" was the answer.

So the whole NYA shop program within the radius of Houston, Beaumont, Port Arthur and Orange will be keyed to the needs of this phase of national defense.

At El Paso, where 75 girls employed by the NYA are sewing with power machines—the kind used in garment factories—42 girls left the project in March to take private employment, 160 within the last few months. As many as 50 a month are getting jobs now, and Texas State Employment Service has a standing order from several garment factories to furnish them girls as fast as the NYA will recommend them.

BANDIT LOOTS

(Continued from Page 1)

on to the next employe to enter the bank.

"At one time, he told Black and me to get off a table where we had been sitting and getting good looks at him. He made us sit in a chair with our backs turned.

"When each employe would come in the bandit would ask if he knew the combination to the safe. When my turn came to enter the bank I was in two feet of the door when it flashed over me what was happening. I could have escaped, I believe, but I was afraid the bandit would get rough with the others.

"I knew the combination, which had been changed only a few days ago, but I wouldn't tell the bandit. "When Mr. Cobb came in, however, he admitted he could open the safe, and it took him about a minute to do so.

"The bandit made us pile the currency out on the floor where it could be scooped up easily, then he forced us into the vault and turned the lock on us.

"He had asked the negro janitor earlier in the morning, 'what's the best way out of here to New Mexico?'"

Officials theorized the bandit would use one of two roads, that to Lubbock or that to Morton.

Officials of the bank, capitalized at \$37,500 and having a surplus of \$24,000, said all the money was in currency.

No check had been completed to show denominations of all the currency.

Laughs In The Legislature

AUSTIN, May 22 (AP)—Rain interrupted a session of the senate when Senator William E. Stone of Galveston, explaining a bill said to the president:

"I'd like for the West Texas senators to hear this. They're over at the window watching it rain for the first time in 30 years."

"Senator Winfield (who is from Fort Stockton) told me he didn't care," remarked Senator Weaver Moore of Houston. "He's seen it rain, but he'd like for his grown daughter to see it."

Before the senate was the question of printing in the Journal, a newspaper column praising Mrs. Coke Stevenson and Bob Barker, secretary of the senate.

"Is there objection," asked the lieutenant governor. Then he added: "The chair hears none except Bob's and he doesn't count."

Winfield had the secretary read a message from the West Texas Chamber of Commerce congratulating the legislature on passing a law dealing with the Big Bend National park and making an appropriation to the project.

"Let's include that in the Journal," suggested Senator A. M. Aiken, Jr., of Paris, chairman of the Senate Finance committee, and close guardian of state appropriations. "I want it available to show these West Texans when we have to pass a state income tax to pay for that park."

Senator R. A. Weinert of Seguin was feeling pessimistic about the way things were going. A vote was being taken, but he had about lost all hope.

"Which," he inquired, "is the losing side?"

"Aye," said a colleague. "I vote aye," said Weinert.

The senate passed a bill making it illegal to kill a homing pigeon.

"How can you tell a homing pigeon from any other kind?" asked Senator Clay Cotten of Palestine.

"Makes no difference," Senator Allan Shivers of Port Arthur told him, "to anybody but the pigeon."

Senator Ben Ramsey of San Augustine tried to tack on an amendment providing \$2,000 for a county in his district to a bill under consideration.

"I think," commented Weinert, "he got that figure out of the ceiling fan."

Female Tars
Russian ships employ 21,974 women sailors on river craft and 8,805 on seagoing vessels. Women are captains of several of the nation's ships.

Arizona's Capital
Phoenix has been Arizona's capital since 1880. For a brief period, Tucson was the capital and Prescott was first capital of the state.

New British Chief in Atlantic Battle

Frederick James Leathers, above, is Britain's new Atlantic battle chief as first minister of war-time communications, shipping and transport. He was born in London's east end, worked many years in a shipping firm, is now a baron at 60.

Officers Elected By Panhandle Rotarians

PANHANDLE, May 22—Election of officers was held at the last regular meeting of the Rotary club Friday, with the following result: Frank R. Murray, president; J. H. O'Neal, secretary; Coe Cleek, treasurer; F. A. Paul and J. P. Ford, directors.

"Democracy in Crisis" was the subject used by F. A. Paul in a talk which was the main part of the program. Miss Mary Ruth Evans entertained with a piano selection.

W. A. Hottman, Ft. Worth; N. F. Nelson, Forest Barren; E. Kanzer, and Herman Axelrod, Amarillo, were visitors at the meeting.

Sulphur "Aid"
The air in some of our big industrial centers is polluted with sulphur, equal to 100 tons of sulphuric acid to the square mile, according to estimates.

Flashes Of Life

(By The Associated Press)
INDIANAPOLIS—As firemen arrived at a burning apartment Mrs. Elizabeth Steele, 39, emerged from a smoke-filled stairway clad only in pajamas and a bathrobe, but triumphantly carrying a new summer hat.

Firemen said she wanted to return to rescue a new pair of shoes, but they restrained her.

ELLWOOD CITY, Pa.—An Ellwood City youth, called in the draft, eyed his wardrobe with a calculating gleam and then acted.

Before leaving for the induction station he spent considerable time painting several signs which he fastened to all his clothes. The signs—for benefit of two younger brothers—read:

"Keep away from these clothes. I am only going away for a year."

KANSAS CITY—Several months ago a slight, gray-haired woman who said she needed the money sold Guy M. Babst a pair of antique earrings for \$20.

Each was set with a clear red stone and a small diamond. The woman said they were heirlooms. She didn't know their value.

Babst, an antique dealer, put them in a display case and forgot about them. Another dealer saw the set, identified the stones as rubies and said it was worth \$3,000. A third said the pieces were not worth that much, but seemed eager to buy them.

Babst says he won't sell them until he finds the woman so she can share any profit.

ALBUQUERQUE—George Gibson believes in fishing on a mass production basis.

It was no trick at all for him to catch five trout, 12 to 16 inches long, with a single cast.

Someone had tied them on a line. Gibson's hook snagged the string as it floated through the water.

U. S. Thinks It's About Time Texas Found Out Stick-Horse Days Gone

BY J. R. KRUEGER
Associated Press Staff

Uncle Sam thinks it's about time Texas discovered that it's stick-horse days are over.

The National Resources planning board knows that Texas and its neighbors in Louisiana, Arkansas and Oklahoma are a proud lot and like to remember the stirring early days of this land of mountains, plains and forests.

The NRPB concedes the glorious past, but wants southwesterners to take a close look at and get to work on the problems that a machine age and growing population are forcing upon them.

In a newly-issued report to the president, the planning board's regional office in Dallas has dredged up scores of indictments against conditions in Texas and her neighbors to the north and east.

And it names the remedies. No one should smile at some of them because the NRPB has thought about this a good deal and has worked out a long-range plan to remove the existing ills.

Plan fragments: People must be moved onto lands that can support them, with population concentrated along the Mississippi, Arkansas, Red and other Oklahoma farm belt and in the Rio Grande valley.

Permanent population should remain at a minimum in the Texas range lands, Ozark-Ouachita mountains, tidal marshlands and to a less extent in the piney woods region.

The great gas-producing fields in West and East Texas must stop wasting the millions of feet of fuel that blows into the air every day.

The board says that can be done by using natural gas instead of other fuels, and by extending pipelines to still more industrial cities.

Fuels are exhaustible, and water power is not. To conserve fuel, therefore, means to use them sparingly, while to conserve water power means to use it fully.

The region is generally lacking in potential water power sites as compared with other parts of the United States. It is estimated that the region (Texas, Oklahoma, Arkansas

and Louisiana) has about six billion kilowatt hours per year of potential dependable water power development, which is less than two per cent of the total for the nation.

The aches and pains of farms and farming profoundly distress the planning board, which wants to stop the aimless migration of farm workers, reduce farm tenancy, and put the land to uses it is suited for.

The settlement of Oklahoma was suddenly and destructively. In 1889 x x x thousands of people rushed in overnight and seized the first land they could find, x x x.

Today we find that much land is overcrowded, farm incomes are low, housing is poor, and relief loads high.

The land resources have been wasted by inexperienced handling and erosion. The board says some lands in the region should never have been put to plow. It wants forest lands made forests again and grazing acreage left for that purpose.

To this end the federal government already has purchased 650,000 acres of worn-out land and withdrawn it from cultivation. It has turned them into parks, game preserves, pastures and forests.

Irrigation the Southwest has hardly scratched the surface, the report adds. To reduce the effects of drought, reservoirs must be built on the plains. Cities and industrial plants must stop polluting the life-giving rivers.

And landless folk who yearn for their own farms must be given the chance to buy them. (The federal government has been doing so to some extent.)

"In addition to needed legislation, financial assistance should be extended immediately to from 40 to 60 thousand tenant farmers, x x x to enable them to become farm owners x x x."

Another angle to the farm problem: "It is estimated that there are approximately 5,000,000 acres or more of agriculturally submarginal tax delinquent rural land in the region, much of which will revert eventually to public ownership. x x x There is a definite need for perfected state legislation x x x."

"x x x Arkansas recently enacted a land policy law under which no tax-forfeited or other public land may be sold or donated unless so classified and controlled for logical public or private use."

What seems incredible to the NRPB, however, is that Texas and her neighbors, gifted with natural resources few lands can boast, should let New England weave its cotton, Chicago slaughter its cattle or Boston process its wool.

Great factories could be run on the natural gas wasted every day in Texas. The region has 10 per cent of the population and only five per cent of the industrial plants. It creates only four per cent, by value, of all the manufactured products.

"In the region there is a population of nearly 13,000,000, which x x x is a sizable consumer market and uses a great diversity of products. "All four states are conscious of the vast stores of diversified minerals, the agricultural, forestry and energy resources, the transportation facilities and other elements present that would contribute to successful industrialization."

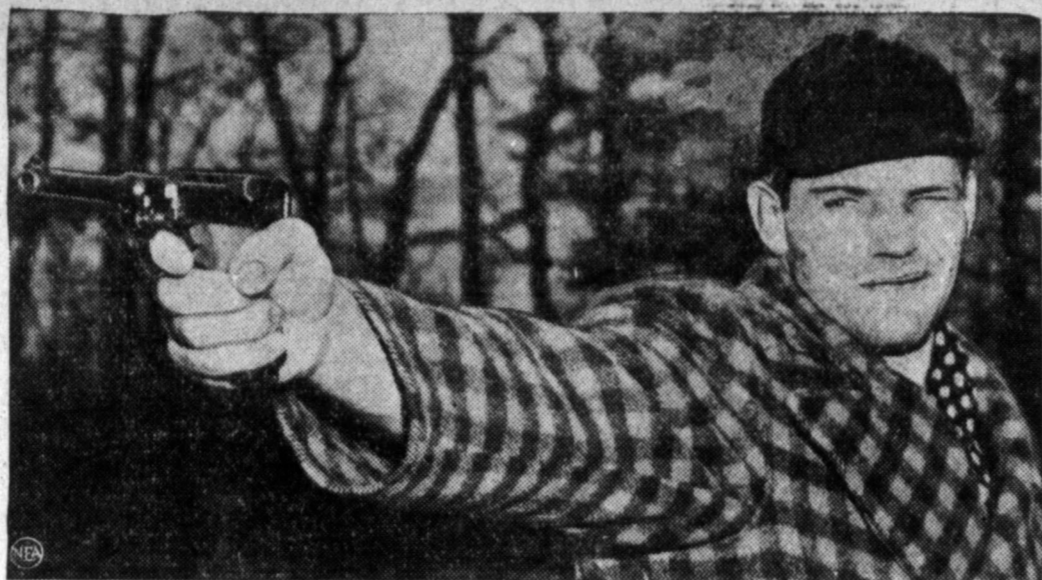

But there is no question that boxing has gone way back, and the art of intubing also disappeared with feinting and knockout wallop.

How the newer customers would have enjoyed some of the old-time fallers, such as Bill Squires, Bombardier Wells, Joe Beckett, Fred Fulton, Farmer Lodge and Quentin Romero Rojas.

Some of the more recent fallers, such as Phil Scott, Kayo Christner, Knute Hansen, Big Boy Peterson, and Vittorio Campolo were fairly accomplished, but none quite matched the artistry of the finest of the old school.

Squires was called the Australian quince because he fell like an overripe one leaving the parent stem.

He'd Better Have It Along Friday Night

Buddy Baer sharpens eye in practice with pistol. He'd better bring it along when he tackles Joe Louis

BETTER NOT BALK

BY HARRY GRAYSON
NEA Service Staff Editor

WASHINGTON, May 21.—Buddy Baer has little to recommend him other than size, and there is much too much of that, yet The Bum-of-the-Month club is making its current and enlarged edition a best seller at Griffith stadium, Friday, May 23.

With a heavy Negro vote solidly behind Joe Louis, indications are that Publisher Jacobs will dispose of 30,000 copies at from \$2.50 to \$15 for a \$150,000 gate.

Cabinet members, senators, congressmen, White House attaches and members of the various legations, attracted by what is advertised as the capital's first world heavyweight championship fight, are advised to squeeze into their seats early.

Against a formidable opponent, Buddy Baer has a more pronounced inferiority complex than his brother Max.

He is slower than was Swain in the Kentucky Derby and there is so much of him to be hit—6 feet, 6 inches and 240 pounds—that his appearance against Louis is expected to be brief.

Buddy Baer, whom the ballyhoosers say is out to avenge the knockout of his brother, landed the appointment when in a Washington match the washed-up never was roly-poly Tony Galento, resigned as did Max in his affair with Louis.

BLUNT OUT-BULLED BAER ONLY FOUR MONTHS AGO

Eddie Blunt, knocked out by Lem Franklin, out-bulled Buddy in Oakland four months ago. Buddy ran out of gas in the seventh round against Gunnar Barlund. He dropped decisions to Babe Hunt, Ford Smith and Andre Lenglet.

But it is a profitable stop on the Louis program and it keeps him in training for Billy Conn at the Peaches Granches on June 18. After that, it probably will be Abe Simon in New York in July, Bob Pastor in Hollywood in August, and Lou Nova in New York in September.

Louis is an obliging cuss.

But there is no question that boxing has gone way back, and the art of intubing also disappeared with feinting and knockout wallop.

How the newer customers would have enjoyed some of the old-time fallers, such as Bill Squires, Bombardier Wells, Joe Beckett, Fred Fulton, Farmer Lodge and Quentin Romero Rojas.

Some of the more recent fallers, such as Phil Scott, Kayo Christner, Knute Hansen, Big Boy Peterson, and Vittorio Campolo were fairly accomplished, but none quite matched the artistry of the finest of the old school.

Squires was called the Australian quince because he fell like an overripe one leaving the parent stem.

BOXING GAME NEEDS SOME FINISHED FOLDER-UPPERS

Beckett, the daddy of them all, and Wells never failed to live up to the fine old tradition of British heavyweights. Theirs was a permanent resin rash and they fell straight forward.

Fulton took nine on a dirty look when he didn't fall automatically upon leaving his stool.

Lodge was awkwardly clever in falling, and so sincere.

Rojas slid to the deck like an avalanche in his native Andes.

Scott's falling was marred by claims of foul. Phanting Phil got out everything, including injunctions, en route to the floor.

Hansen slumped downward with a camp-stool effect, and the Dane's breaking his falls with his knees counted heavily against him.

Vittorio Campolo went down right smartly, but made the mistake of shaking his head once all of him was on the deck.

Quivering accentuates true form in falling in the prize ring, but a first-fighter faller simply does not shake his head.

I hope Buddy Baer's fall isn't marred by faults.

Boxing right now requires many things, not the least of which is a finished group of folder-uppers.

CUT LINES

Buddy Baer sharpens eye in practice with pistol.

Panhandle Adopts 12-Grade System

Special To The NEWS

PANHANDLE, May 22.—The 12-grade system for the local schools has been adopted by the Panhandle school board, according to a report from the last meeting of the board, Tuesday evening.

The final decision was made after considering a letter from L. A. Woods, state superintendent, who stated that the 12-grade system was the recognized pattern for Texas schools, with four high school grades and eight elementary grades.

Text books for this type of organization have been adopted by the state board of education, officially recognizing the system.

Selectees In Class 3-A Asked To Join Texas Defense Guard

Members of the Texas Defense Guard were cheered yesterday by the increased importance given their organization by the announcement that a drive to recruit a million or more volunteers to man the home defenses in any wartime emergency would be one of the first objectives of the newly-created office of civilian defense.

Plans are that selectees rated in Class 3-A (men given a deferred status because they have dependents to support) shall be organized and trained in protecting life and property in their localities in coordination with the home guard units already established in many states.

There will be other men trained besides the ones in Class 3-A, but it is from 3-A that a large proportion of men are expected to come.

Pampa's Company 5 Months Old

Pampa's company of the Texas Defense Guard, organized last January, has been drilling intensively on the schools of the soldier, squad, and platoon.

Officers of the company are E. J. Dunigan, Jr., captain; Carl M. Smith, first lieutenant; Roy Bourland, second lieutenant.

Uniforms for Company D have been ordered and are due to arrive in Pampa soon.

Borger (Company B) was the first one in the Panhandle. It has made an enviable record, is up to its full quota of 67, and even has a waiting list.

Charles J. Maisel, formerly of Pampa, and fifth division commander of the American Legion, is the captain commanding the Borger unit. John Oliver is first lieutenant.

Purpose Explained

Milton Meier, Borger Daily Herald reporter, in a by-lined story, writes: "At present the local unit has been designated as an infantry company. It probably will continue this way, but there is a possibility that it may be transformed into an anti-aircraft unit owing to the presence of vital war industries in the vicinity."

The motive dominating the Borger company and all other units of the Guard, is stated by Meier: "They work together with one spirit and one purpose in mind—to prepare themselves for action should they ever be needed. They receive no pay—and like it. The men know preparedness pays—they have seen too many countries crased from the map of Europe for lack of it. That

is the real pay—security. When the time comes, if the time comes, the local unit will be prepared."

Liquor Store May Stay Open June 28

AUSTIN, May 22 (AP)—Retail beer and liquor establishments will not have to close their doors June 28 for the U. S. senatorial election, in the opinion of Attorney General Gerald C. Mann.

The attorney general so ruled yesterday in response to a query by County Attorney Tom Seay of Amarillo.

The election, because of its special nature, also will require two election judges and two clerks per precinct, the ruling said.

LOOK! Fine China TABLEWARE

in These Packages of Delicious, Healthful Mother's Oats

Here's an opportunity every woman will want to accept! Authorities say many American diets lack Thiamin (Vitamin B1), a great "spark-plug" vitamin. Yet, for adults, no Thiamin means no pep, no sound nerves, no good looks. Youngsters need it, too, for proper growth. And just think—Nature packed Mother's Oats, rich in food-energy, with enough Thiamin to "spark" itself and twice as much additional food into energy. Made it up to 50% richer than other whole grain cereals in proteins for building strong muscles (not fat).

So today at your grocer's look for the Mother's Oats package containing a gay piece of new china. It's lovely, useful china-ware that's bound to delight you because it's made by one of America's leading china manufacturers. And remember—Mother's Oats is easy to prepare, money-saving, extra healthful! Hurry to your grocer's now.

SERIAL STORY

THREE TO MAKE READY

BY W. H. PEARS

Copyright, 1941, NEA Service, Inc.

YESTERDAY, Tony advised Paula to keep close check on Chris, who she has a hunch is fraternizing with the enemy.

A KISS-A PROMISE

CHAPTER IX PAULA went to her knees at Tony's side, grinding the seagreen formal into the wet grass.

"Tony! Tony!" Paula whispered, shaking him. "Say something, Tony! Are you hurt?"

"Then, realizing the absurdity of the question, she fought down her panic and called for help. But already the entire party was streaming into the wet, murky night to escape the fumes of the stench bomb.

"Tony's hurt!" she shrieked. "Come on, we'll move him to the porch."

"No, don't touch him," Paula commanded, remembering that she had read never to move an injured person. "Call the hospital, get an ambulance!"

Gathered in a circle around her, the fraternity boys talked in low tones. Paula heard Hal say:

"Fellows, we know who pulled this dirty stunt. I don't know how you feel about it, but I'm not leaving Cardman until I get a crack at that bunch!"

"We're with you, Hal!" "All the way, kid!"

"Wait till they hold a meeting!" In the distance Paula heard the wail of an ambulance siren, and a few moments later the big white car lurched to a stop in front of the house.

Tony was lifted inside and Paula followed. Four or five boys clung to the side of the ambulance.

AT the hospital they remained downstairs, but Paula waited outside the door while Tony was being examined.

Presently a young interne came out and smiled at her.

"Slight concussion," he said. "Nothing to worry about, but we'll want to keep him under observation a day or two."

"M-may I see him?" "As soon as they get him settled in a room. The interne slipped his hand under her elbow.

"Now suppose you relax before we have to put you to bed, too?"

"I'm all right," Paula murmured, grateful for his support. He opened the door for her and withdrew. Paula was alone with

Tony. He lay very still, his eyes closed. A large, purple bruise discolored his forehead.

Paula bent herself on the edge of the bed, taking his hand. Tony shifted his head from side to side, mumbled. Paula bent close to catch his words.

"Don't fret, Tony dear," she soothed, brushing his hair from his eyes. "Just try to rest."

For the first time Tony seemed aware of her presence. His fingers curved around Paula's hand, clung.

"Paula . . ." he said faintly. "Yes, Tony?"

"I love you so. I know how you feel about Chris, but . . . I've got to tell you. I've wanted to before . . . I didn't have the nerve."

"Oh, Tony . . ."

His name was almost a sob on her lips. Dr. Lud had warned her, of course, but still she was not prepared to hear the confession from Tony's own lips.

Her pulses pounded insistently with pure knowledge of the truth.

"Would you kiss me, Paula?" Tony mumbled.

Paula bent, pressed her lips against Tony's. She told herself that it was only nerves that made the room whirl. She told herself that it was only to humor a sick man that she kissed him. But when the interne knocked and entered he saw a flushed and lovely Paula.

"Young woman," he said, "we can't keep you here all night."

Paula gave Tony's hand a final squeeze. "Good night, Tony," she said softly. "I'll see you in the morning."

DOWNSTAIRS, the fraternity boys, having received word of Tony's condition, had departed. Paula pulled the wrap tightly about her and prepared to brave the rain.

Outside a tall figure moved from the shadows and came toward her. A cry of alarm sprang to her throat, and then she recognized Chris.

"How is he, Paula?" Chris asked tightly. "How's Tony?"

Paula said coldly, "He's not badly hurt, Chris."

He fell into step beside her. The rain had stopped momentarily, but Chris, minus a coat, was soaked to the skin.

"Chris," Paula asked, "how did you know Tony was hurt?"

"Why, I . . . I heard it, Paula. From one of the boys."

"Don't lie to me, Chris!" Paula's voice sharpened. "You wouldn't have dared talk to them tonight. They'd knock anyone down they even thought was connected with the League."

They walked a while without speaking.

Chris said abruptly, "You don't think that I . . ."

"I don't know what to think, Chris. You don't usually lie."

"I'm not lying now, Paula. I tell you I had nothing to do with Tony's getting hurt. Can't you believe that?"

"How can I, Chris?" she asked shakily. "You broke your case with me. Somehow, you knew right away about Tony's injury. You admitted to me that you had something important to do tonight. Oh, Chris, you're asking too much of me."

"I'm still asking it, Paula. Will you believe me?"

DEEP in her heart Paula did believe him, but she was too angry, too upset, to admit it. She said, "Weren't you with Kilo tonight?"

"I saw her," Chris admitted. "Before or after they broke up the party?"

Paula expected Chris's temper to flare at the question, but he said without resentment, "Both times."

"And yet you had nothing to do with that stench bomb?"

They had reached the Gamma Tau-house now. A light burned in the vestibule showing Paula the grim, tight line of Chris's jaw. She waited for his reply, determined this time to believe his denial. But it never came.

Chris said, "Paula, I wouldn't have had Tony hurt for anything in the world."

"Oh, Chris," Paula cried, "you're all tangled up in lies. Don't you see how serious this can be? If Bill Jenks ever gets hold of the story he'll make a scandal out of it, and Big Barney can march right in and take control of Cardman."

"Tell the truth," Paula begged. "Maybe you have done wrong, but it's not too late to fix things. Won't you get it off your chest, Chris?"

"I-I can't, Paula," Chris muttered, his gaze fixed on the ground. "Don't ask me why."

"All right, Chris. We've been friends a long time, but I-I guess you don't need me any longer."

"Paula, wait!" Chris said desperately. "Don't feel like that. Oh, gosh, Paula, I do need you now . . . more than ever. Stick by me."

The sight of Chris all broken up—carefree, reckless Chris—was more than Paula could stand. She said with a rush of pity and tenderness, "Yes, Chris, I'll stick."

Looney Praises Lyndon Johnson As FDR Friend

McKINNEY, May 22—Everett L. Looney told people here that Congressman Lyndon Johnson, candidate for the U. S. Senate, had successfully advanced claims for Texas for national recognition in the past ten years.

In the 40th speech in four days for Johnson, Looney, widely-known Texas Attorney, declared that this state had benefitted greatly from the congressman's labors in Washington.

He recited as evidence of Johnson's efforts the flood control and power generating dams on the Lower Colorado river, the giant air training base at Corpus Christi, the shipyard at Orange and Houston, and the Naval ROTC at the University of Texas.

"Lyndon Johnson knows how to get things done. He's had experience in Washington—10 years of experience—that equips him for the Morris Sheppard vacancy."

Looney asserted Johnson had rather be a "yes" senator working with the President than a "no" senator commingling with the Lindberghs, Vandenburgs and Fish's to smack constantly at the commander-in-chief.

"Our President needs unity in carrying out the great preparedness program. Lyndon Johnson, the Morris Sheppard always did, stands ready to give the President all-out help." He said Johnson has tried to be a good right arm for the chief executive.

Looney charged that not a single opponent of Johnson had pledged President Roosevelt unqualified support.

Not one of them has offered assurance that the President could depend on them in a time when America should not dabble and debate," he said.

He said that since Mr. Roosevelt had been President, Johnson had been one of his most ardent standard bearers.

Looney reviewed Johnson's program indicating a pension system, cheap electricity for every rural home, reduced interest rates for farmers, aid to England, full parity prices for farmers and retentions of the 27 1/2 cents depletion allowance on oil property for income.

Carson Sends Four Trainees To Army

SPECIAL TO THE NEWS PANHANDLE, May 22—Two volunteers, Arnold Clarence Koenig and Raymond Bradley Baker, filled Carson county's quota for the twelfth call on Texas for men for the army's selective draft training, according to a report from the local draft board.

Leaving Tuesday were Robert Aubrey Thompson, Jr., and Ray Samuel Bunker, both of White Deer, for induction into the United States armed forces at El Paso.

Listed as possible replacements in case of rejections at the El

Paso station are J. B. Tabor, L. F. Cleek, Charles Leo Raef, and L. D. Crites.

Questionnaires were mailed last week by the Carson county draft board to 46 registrants, with order numbers 377 to 425 inclusive.

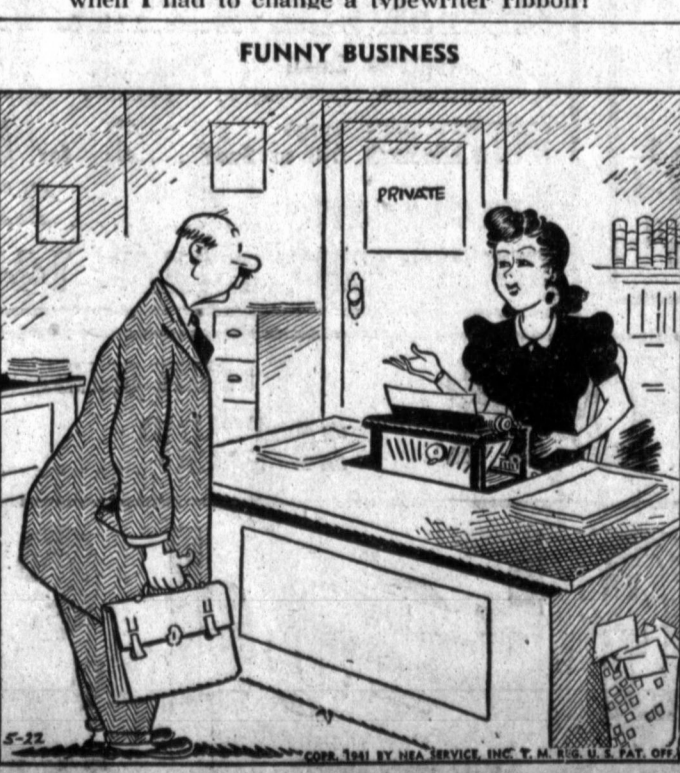

Americans spend more than \$600,000,000 a year for dry cleaning.

State Flag Of Oklahoma Only 14 Days Old

Oklahoma is 31 years old as a state but the state flag is the newest one in the Union, according to a change made by the Oklahoma legislature just 14 days ago.

The amendment provides that the word "Oklahoma" in white letters be placed beneath the shield. This resolution amends section 1, chapter 234, of the Oklahoma session laws of 1925, and that law superseded the senate concurrent resolution 25 of the third legislature.

Design of the Oklahoma flag is a sky blue field with a circular rawhide shield of an American Indian warrior with six-pointed crosses on the face. The lower half of the shield is fringed with seven pendant eagle feathers and superimposed upon the face of the shield a calumet, crossed at right angles by an olive branch.

The word "Oklahoma" appears beneath the shield.

Governor Leon C. Phillips approved the bill on May 9, according to a letter from Ralph Hudson, librarian, Oklahoma state library, Oklahoma City.

Rose Vs. Mistletoe

A new state flower may be adopted by the Sooners as well as the remodeled flag. The lowly mistletoe, present state flower, is without a friend. Some want to see the cowboy rose adopted.

Others want the verberna, coreopsis, or gallardia. Governor Phillips favors the cowboy rose, which is as common in Oklahoma as bluebonnets are in Texas.

Reason for wanting the cowboy rose is its appropriateness and the fact that it grows in every section of the state.

Mistletoe is a parasitical growth, not obtainable the year 'round. Traditionally, it was chosen because it represents the severest weather, when all other plant life is gone. This was the argument put forth when anyone mentioned that the mistletoe was a parasite.

"Too Much Cowboy"

Mrs. C. L. Chase, president of the Oklahoma Association of Garden Clubs, appeared before the senate Monday to speak for the clubs.

She didn't champion mistletoe, but cautioned against haste in selecting the cowboy rose, saying the state had already received enough publicity about cowboys.

Prospects for the cowboy rose wilted when the bill was stricken from the calendar along with other measures. However, it still has a chance to bloom by being substituted in the jacket of some other measure which has been read three times in each house.

French Tanker Seized

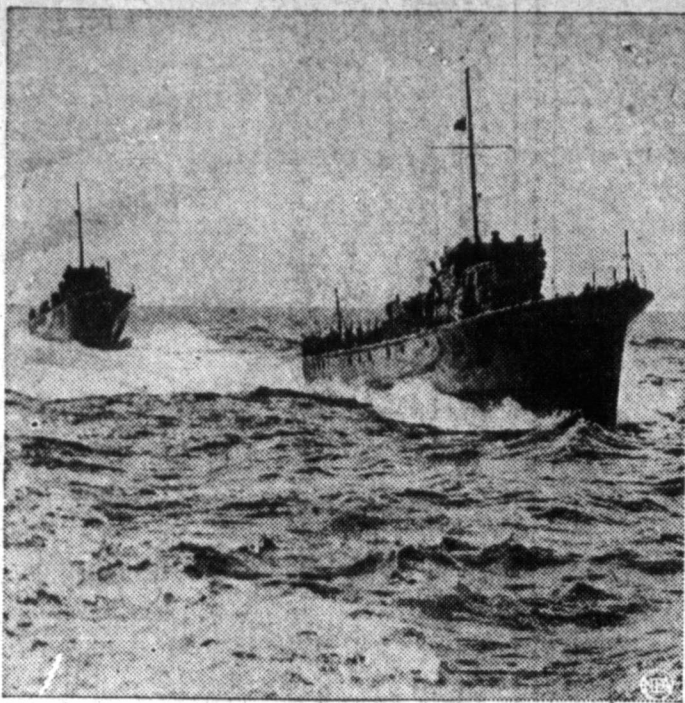

LONDON, May 22 (AP)—British naval patrols have intercepted in the Atlantic the French tanker Scherhazade, bound for Casablanca, North Africa, with a cargo of oil from a United States port. It was learned from officials in London today.

British authorities granted the Scherhazade a navicert "some time ago" to carry the cargo. It was stated, but "actions of the last day or so by the Vichy government, particularly in Syria, had a very sharpening effect, not only in London, but in Washington."

Baby Destroyers Scout the Atlantic

Pocket destroyers, newest British weapon to offset mounting toll in Battle of the Atlantic, cut swiftly through the water in search of German submarines. These "Handmaidens of the Navy" are carry motor launches, built in Britain from American parts. They carry depth charges, machine guns, anti-aircraft weapons.

Mediation Board Prepares To Act In Coal Controversy

(By The Associated Press)

The national mediation board prepared today to act for a second time in the soft coal wage controversy, while in some other labor disputes tension appeared to be easing.

Contract negotiations between the CIO United Mine Workers and the southern Appalachian operators were broken off in New York yesterday, with both sides issuing sharp public statements. In newspaper advertisements, the southern mine owners charged that John L. Lewis, UMW president, was attempting to become "dictator of this country" by gaining a "death grip" on the flow of bituminous coal industries. In answer, K. C. Adams, spokesman for Lewis, called the southern operators "mock patriots."

The union and southern operators were to appear before the mediation board at Washington tomorrow morning, and the northern operators and the union Saturday. After a general work stoppage throughout the industry in April, the northern operators agreed to increase wages from \$6 to \$7 a day, and the southern entered a temporary agreement to raise the basic wage from \$5.60 to \$6.60, but were unwilling to eliminate the 40-cent secondary differential as the union demanded.

A longshoremen's strike at Buffalo, N. Y., and a walkout of 5,000 laborers at an army shell-loading plant being built near Ravenna, Ohio were reported ended. The AFL longshoremen switched from a previous stand and decided to accept a pay increase of 7 1/2 cents an hour which had been awarded by a federal arbitrator who was called into the dispute involving two Great Lakes package freight lines. The new basic wage for longshoremen, boatmen, extra warehouse checkers and dock clerks became 87 1/2 cents an hour, with 77 1/2 cents for warehousemen.

The Ravenna laborers agreed to return to work for 10 days while their demands for wage increases were negotiated. An AFL construction official had declared the strike

Revival Started By Panhandle Baptists

Special To The NEWS

PANHANDLE, May 22—Rev. E. M. Weathers, pastor of the local Baptist church, announced the beginning of a two-week revival meeting began at the church here Sunday. Services were not held at the Sunday evening hour because of the bacchalaureate services at the high school.

Bee Nichols, educational director of the First Baptist church at Hobart, Okla., is the evangelist in charge of the song services. Services are being held at 10 a. m. each morning and at 8 p. m. each evening, with a young peoples meeting planned for 7 p. m.

Capitol Court Records

AUSTIN, May 22 (AP)—Proceedings in the Court of Criminal Appeals: Affirmed—W. C. Welch from Jefferson. Appellant's second motion for rehearing granted. Judgment reformed and affirmed—M. A. Kuhn from Harrison. Submitted on brief and oral argument—H. A. Colley from Smith; G. L. Huey from Smith. Submitted on brief for state—Paul Schroeder from Wichita; Logan Dickson from Smith. Submitted on appellant's motion for rehearing—O. B. Sloan from Harrison.

Looks Like Lion

People used to snicker when Haile Selassie was called the "conquering lion of Judah," but the old boy is really getting to look pretty tough after all these wars, as witness this new picture made in his native Ethiopia.

Munition Maids

Girl workers tighten caps on completed bombs as production of fragmentation bombs for U. S. and Britain moves into high gear at E. G. Budd plant in Philadelphia.

Children Pick Up Laziness From Parents—Perhaps

COLLEGE STATION, May 22 (AP)—Children aren't born lazy—they learn to be. This tip to parents comes from

Douca Hale, extension service specialist in family relations, who explains that young children are energetic and eager to find out new things about the world around them. Children may learn to be lazy if adults give them too much supervision, she states. Some adults watch children so closely they have

no opportunity to experience new yet simple undertakings in their own way. Some children are lazy because people around them are lazy, the specialist says, calling attention to the fact children are great imitators. Then there are children who use

laziness as a means of getting what they want. Minute Bat A bat so small that it crawls through cracks in bamboo stems, and rests inside the hollow joints, is native to the East Indies.
