# Russians Claim Edge As 4,000 Tanks Clash In Mighty Battle

# JOHNSON LEADS LEO BY 5,000 VOTES

## Steel Giants Block Way Of Hun Hordes

### Red Air Force Claims Successes On All Fronts

(By The Associated Press) MOSCOW, Sunday, June 29.—In probably the greatest tank battle the world ever has witnessed, German and Russian steel monsters are clashing all up and down the front in former Poland, with 4,000 of them locked in mortal combat in the Lask sector alone. It was reported today by the Russian information bureau.

In general, the Russian communiqué stressed that the German advance is being held up by this terrific defense, with Nazi losses running into high but untold figures.

Particularly in the direction of Minsk, capital of White Russia which appears as a prime German objective, German tanks were halted, the Russians asserted.

The communiqué spoke of the Red army inflicting important losses on the Nazi in rear guard actions while withdrawing to new positions, but did not locate this retreat.

Elsewhere its communiqué was a tale of stubborn fighting, with Russian troops and airmen either holding their own or gaining the upper hand.

"Our troops took many prisoners, a great number of whom were in an intoxicated condition," the communiqué said.

It claimed also the destruction of 300 tanks of the Nazi 39th tank corps up to Friday night in the continuing battle in the Minsk area.

Telling thus of having smashed the deepest and most menacing of the Nazi spear thrusts into Soviet territory, along the historic invasion route which Napoleon chose in 1812, the Russian announcement said succinctly:

"Fighting is still in progress." It stated the Red air force with a series of successes over all the fronts, noting especially that two monitors, river gunboats, were sunk by air bombs near Tulcea, on the Danube river in Rumania.

Seven German planes were mentioned as shot down at various points Saturday.

## All-States Picnic To Be Widely Advertised

Further plans for a great Labor Day picnic symbolic of free America, a united Republic free of class consciousness and sectional prejudices, will be made Monday night in the county courtroom at a meeting of representatives of the various state clubs.

The picnic was planned last Monday night when W. R. Prazee was named general picnic chairman, and members of the various state clubs was appointed on his committee.

"The primary purpose of the meeting," said Mr. Prazee "will be to get the committees compactly formed, create sub-committees and form an executive committee composed of the chairmen of the sub-committees."

All members of state clubs interviewed by a representative of The News were enthusiastic about the old-fashioned basket picnic idea, and indications were that this would be no ordinary picnic.

Everybody is invited because everybody comes from some state. The only requirement for attending the picnic will be to bring a basket of food.

State club members also indicated that some plan would undoubtedly be worked out so that the state clubs would spread their picnic supper in state groups.

Jim Nalley, and Finis Stilwell, Jaycee representatives of the entertainment committee, said that an entertainment program that would command national interest would probably be worked out.

Plans for publicizing the picnic all over the Panhandle are now under way. The picnic will be publicized to natives of the various states by the 1941 Fiesta, it was said. A trip composed of cars representing each state has been proposed. Under this plan the name of the state would be carried on banners on each side of the car, and an invitation would be given to natives of the various states to attend the picnic and join the state clubs.

"Come to the picnic and meet the natives of your state," was suggested as a slogan.

All members of the committee appointed last Monday night were urged to attend the meeting.

FDR Expected To Speak On July 4

HYDE PARK, N. Y., June 28 (AP)—President Roosevelt is expected to speak to his fellow Americans at 3 p. m. (CST) on July 4, leading them in what he has termed a "grand re-dedication to liberty."

Mr. Roosevelt is expected to ask every American participating in a nationwide Independence day celebration to join him in the pledge of allegiance to the flag.

## DOWN THAT LONG, LONG TRAIL—TO WASHINGTON?

Big-smiling, big-hatted Lyndon Johnson roared into the lead in the Senatorial election Saturday with a happy wife by his side, and the victory cries of backers echoing in his heart.

Large photo above shows Johnson's mother, Mrs. Sam Johnson, in her first hours out of a Temple hospital receiving a tribute from the citizens of Temple. Presenting the flowers are Miss Sue Ann Myers, left, and Miss Jen Banks Collier, right. Johnson is telling his mother she looks "cute," apparently.

Bottom left shows in one brief glance what Mrs. Lyndon thinks about the proceedings, "wonderful—wish you were here!" Inset at lower right—man at work, meaning Mr. J. himself. This is typical of the little groups Johnson stopped to chat with.

## FDR Signs Several Bills At Hyde Park

BY DOUGLAS E. CORNELL HYDE PARK, N. Y., June 28 (AP)—President Roosevelt spent a quiet, diversified Saturday at his country home disposing of business that always stacks up near the end of the government's fiscal year, consulting Washington officials by telephone on the international situation, and keeping an interesting eye on the special senatorial election in Texas.

Several bills which had to be signed before the end of the fiscal year at midnight Monday were approved by the President. More were expected to arrive by airplane from Washington, including a \$10,384,821,824 war department appropriation, as soon as congress finished action on them.

Signed today were measures which: Extend the life of the federal housing administration from July 1, 1941, to July 1, 1944, and increase the limits of its insured loans from \$100,000,000 to \$185,000,000 for modernization and repair.

Appropriate, for expenses in the year beginning Tuesday, \$21,822,467 for the state department, \$179,009,100 for the commerce department, \$66,307,500 for the justice department and federal judiciary and \$188,325,923 for the interior department. In addition, interior received authority to make contracts up to \$16,875,000.

Presidential Secretary William D. Hassett said that he had asked Mr. Roosevelt about reports that Frank Murphy, associate justice of the supreme court, would replace Henry L. Stimson as secretary of war. He said the President held him stories like that were "solely to be attributed to the heat wave."

Deeming it inadvisable to close down the government plants because of the urgency of the defense program, Mr. Roosevelt declined to excuse federal employees from working their regular four hours next Saturday, the day after the Fourth of July.

In the field of domestic affairs, the race for the senate seat of the late Morris Sheppard of Texas caught the President's attention because of his desire that Representative Lyndon Johnson be elected. Johnson, a

## New Dealer Gains On Governor In Midnight Count

The Texas Election Bureau at 12:30 o'clock this morning gave Lyndon Johnson a lead of approximately 5,000 votes over Governor W. Lee O'Daniel in the senatorial race. The congressman was leading by only 3,000 votes in the 12 o'clock count. Previously the governor had cut down Johnson's lead from 15,000 votes. Whether Johnson could hold his lead or could gain further votes was a question only the complete count would reveal.

Special From Texas Election Bureau

DALLAS, June 28—Still uncertain late Saturday night was the outcome of the hard fought Texas race for the seat of the late Senator Morris Sheppard, representative Lyndon B. Johnson, who campaigned under the New Deal banner, was in the lead but was closely pressed by the dimpled Gov. W. Lee O'Daniel, whose strength increased as late returns poured in from the rural sections.

Late tabulations of the Texas Election Bureau of its copyrighted figures showing incomplete returns from more than four fifths of the counties, showed Gerald C. Mann in third place; while Martin Dies trailed lamely in fourth. Of the other candidates, who received relatively few votes, the lead was taken by Sam Morris of Del Rio, Baptist minister and radio advocate of liquor prohibition.

Johnson and Dies each appeared to have carried his own congressional district. Mann's strength came largely from northeast Texas. Johnson received a big vote in the larger cities but also ran ahead in many rural counties, particularly in central and southwest Texas. O'Daniel was running strong in the high plains.

Returns at 12:30 a. m.—249 counties, 81 complete: Sean 104, Calvin 44, Davis 154, Dies 74,510, Fisher 96, Gilliland 35, Harding 43, Hatfield 55, Head 47, Heath 29, Hicks 49, Johnson 163,491, King 106, Mann 132,807, Morris 988, Newsome 40, O'Daniel 158,733, Ryan 40, Schulz 45, Somerville 24, Thompson 90, Walker 17, Welch 23, Williams 53. Republican, Elvins 162, Independent, Jones 52, Communist, Brooks 39.

Returns 11:30 p. m. from 241 counties, 70 complete: Sean 59, Calvin 24, Davis 46, Dies 71,612, Fisher 64, Gilliland 33, Harding 29, Hatfield 31, Head 34, Heath 19, Hicks 35, Johnson 150,871, King 81, Mann 125,140, Morris 820, Newsome 27, O'Daniel 147,761, Ryan 24, Schulz 37, Somerville 10, Thompson 54, Walker 14, Williams 30, Republican, Elvins 113, Ind. Jones 28, Communist Brooks 26.

DALLAS—Representative Lyndon B. Johnson still held his lead in the Texas senatorial race as the Texas election bureau made its 11 p. m. tabulation of copyrighted figures.

See JOHNSON, Page 6

## Man Sits On Track, Freight Train Stops

Officers of the sheriff's department didn't beat the bushes but they did beat the weeds Friday afternoon looking for a man who sat in the middle of a Santa Fe track a half mile east of the city limits and forced a long freight train to stop.

Engineer, fireman and brakeman managed to remove the man and the train proceeded on its way. Someone called the sheriff's department but when the officers arrived the man had disappeared. A search of the high weeds along the track started and after nearly an hour the officers found their man.

Taken to the courthouse the man said he had been released from the veterans hospital in Amarillo on Thursday. He was detained pending investigation of his claims.

Don't forget fishing opens at Lake McClellan Tuesday, July 8th at 5 a. m. (Adv.)

Local draft board members issued the following notice to registrants yesterday:

Notice is hereby given that all male persons who have, or will, attain the age of 21 years on or before July 1, 1941, or who reside in, or are within Gray county, Texas, next Tuesday, July 1, 1941, and who have not heretofore registered as required by the Selective Service Act of 1940, are required by such law and by the proclamation of the President of the United States to present themselves to the Gray County Selective Service Board and its appointed special registrars in the court house at Pampa, Texas, between the hours of 7 a. m. and 9 p. m. on said date for the purpose of registering for selective service.

Failure to comply with the selective service law and register for service is an offense against the Government of the United States and punishable as such.

The cooperation of all persons affected by this law will be expected and appreciated.

GRAY COUNTY LOCAL BOARD, John F. Sturgeon, chairman, C. P. Buckler, member, C. H. Walker, member.

## Chief Wilkinson Completes FBI Training Course

Upon completing twelve weeks of training, Chief of Police John B. Wilkinson of the Pampa, Texas, Police department, today was awarded a certificate of completion of the FBI National Police Academy Training Course at the graduation exercises held in the Great Hall of the United States Department of Justice building, Washington, D. C., with J. Edgar Hoover, director of the Federal Bureau of Investigation, presiding. Thirty-seven additional police officers from twenty-five states, the District of Columbia, and the Philippine Islands, were graduated at the same time.

The FBI National Police Academy was founded on June 28, 1935, in order to provide a program of training for local and state law enforcement officials and as an extension of the Federal Bureau of Investigation's program of cooperation.

If the games today are cancelled the Malvica night will be held on July 3 when the Oilers come back for three games with Grover Seitz and his Clovis Pioneers.

## Many Boys Have Completed Racers For Soap Box Derby July 17 And 18

Interest is growing in fever pitch for the third annual Pampa News-Lions Club Soap Box Derby to be held here July 17 and 18 at Derby Downs, three miles north of Pampa on the old Miami highway.

Many boys already have completed their racers and others are nearing completion. It was stated Saturday by Dr. H. L. Wilder, chairman of the entry committee.

Upwards of 65 to 70 boys are expected to take part in the Pampa derby this year to see who will be crowned Pampa champion and win the coveted trophy and all-expense trip to Akron, Ohio, to compete in the All-American Soap Box Derby there on Aug. 17.

In addition to the trip to Akron and the national finals, the M. E. Coyle trophy for victory in the Pampa race, and medals for the first three places in both Classes A and B, gold-finish medals will be presented this year to the builders of the best designed car and the car with the best designed brakes.

These new awards for the Pampa derby parallel the award list at Akron and are made, according to D. L. Parker, general chairman of the race.

## Heaviest Rain Blows Down Much Wheat

Last night's torrential rain caused untold damage to the wheat crop in this section, elevator men and farmers reported. The rain, accompanied by a 43-mile-an-hour wind part of the time, blew the grain down and it is doubtful if it will rise.

A heavy shower fell late in the afternoon. The downpour last night was one of the heaviest witnessed here in many years. The underpass on South Barnes street was closed to traffic and the intersection of Hobart and Ripley streets was flooded, cutting off traffic from the west. The dip on Brown street was also full and it was impossible for traffic to move into Pampa from the south and west.

Total rainfall yesterday was 1.49 inches. On Friday 22 inch of rain fell. Total rain for the year to date is 17.39 inches.

The rainfall last night probably was much greater than the amount gauged because of the strong wind which blew over the gauge. Pampa streets ran curb to curb with water for more than an hour. Rain blew under doors of houses and stores causing considerable damage.

Even if wheat is not damaged to

## Boy Struck By Car And Seriously Hurt

Charles Watson, five-year-old son of Mr. and Mrs. H. H. Watson, 533 South Somerville street, was given a 50-50 chance last night to recover from injuries received when he was struck by a car at the intersection of West Brown and Somerville streets at 6:30 o'clock Friday evening.

The child suffered a fractured skull, fractured leg and serious bruises and lacerations.

Clovis Duff, driver of the car which struck the child, was charged with aggravated assault with a motor vehicle yesterday and released on bond of \$1,000, which was posted Saturday afternoon.

City officers who investigated the accident and made the arrest, said that the child was struck before striking the child, which was hauled 18 feet. The officers said they were able to trace the tire marks for their measurements.

Witnesses said the child had started to cross Brown street at the intersection when the accident occurred, according to officers.

Mr. Watson, a truck driver, was on a run when the accident happened, but he was contacted and returned to Pampa early Saturday morning.

Mr. Duff is an employee of the Gulf Production company, officers said.

## Catholics Oppose Aid To Russia

NEW YORK, June 28 (AP)—Opposite views on American aid to Russia in her war against Nazi Germany were announced today by two Catholic groups.

The Catholic War Veterans, Inc., said it had asked President Roosevelt to reconsider his intention to aid Russia, while 15 prominent Catholic clergymen and laymen said "Hitler's attack upon Russia must not be allowed to confuse us."

## SHETLAND PONY FEATURE OF PLAYGROUND PROGRAM

A trained pony which does tricks for the kiddies and then carries them on rides around the playground is one of the features of the summer playground at Baker school, sponsored by the Pampa Recreation council of which Jim Edwards

is director. The pony, above, is named Bill. He is owned and trained by Mr. and Mrs. J. T. Wylie whose four-year-old daughter Betty Ann is riding Bill as he does his tricks. Dozens of children stand around Bill waiting for a ride. Bill, a

# Hemphill County Wildcat Drilling Below 3,100 Feet

The Indian Territory Illuminating Oil company is wasting no time making hole in the Panhandle's newest wildcat, the ITIO No. 1 Wiggins in section 55, block 1, I&GN survey, Hemphill county. Drilling was reported below 3,100 feet Saturday and nearly ready to set 5 7/8 inch casing.

The ITIO wildcat is located in a 10,000 acre tract secured following nearly a year of checking the territory. The well is located two miles north of Meridota which is halfway between Miami and Canton. It is about 30 miles from nearest production, in the Pampa field. It is about 25 miles southeast of where the Chicken Creek Oil company drilled two tests on the Decker ranch in Roberts county northeast of Pampa. Both found pay but not in commercial quantity.

Amadio's wildcat, the R. and J. Drilling company's No. 1 Pavillard three miles northeast of the city limits, was reported drilling at 2,550 feet Friday.

Activity in the Panhandle field dropped back to normal last week after two weeks of the most active location drive in the Panhandle field, a total of 112 locations being staked in the two-week period. New locations last week totaled 18 with six in Hutchinson county, five in Gray, four in Wheeler, two in Moore, and one in Potter.

Ben Garber and Spike Pagans of Pampa came into the Panhandle drilling picture for the first time last week when they secured a lease on the Fannie Lovett lease in section 25, block B-2, H&GN survey, and staked a test. The area was opened three weeks ago by the W. H. Taylor Oil company which brought in a 350-barrel well, three miles from nearest production. Since then Taylor has staked five locations and J. L. McMahon secured a lease on the Lovett and staked six locations.

Nine new oil wells were gauged last week adding 1,560 barrels of oil to the field potential. One gas well was gauged for 18,500,000 cubic feet. Gray county led the new completions with four of the wells. The Rock Oil company completed its second well on the west outskirts of Pampa, in the Vicars estate, good for 212 barrels.

Completions by counties follow:

**In Gray county**  
Cady, Connor and Crenshaw No. 4, Holmes, section 106, block 3, I&GN survey, gauged 151 barrels.  
King Oil co., No. 8 Donkin, section 140, block 3, I&GN survey, tested 139 barrels.  
Rock Oil co., No. 2 Vicars Heirs, section 114, block 3, I&GN survey, was given a potential of 212 barrels.  
Skelly Oil co., No. 124 Schaefer ranch, section 136, block 3, I&GN survey, gauged 373 barrels.

**In Hutchinson county**  
Phillips Petroleum co., No. 8 Kay, section 27, block M-29, TCRS survey, tested 157 barrels.  
Phillips Petroleum co., No. 72 Cockrell ranch, section 3, block M-21, TCRS survey, gauged 130 barrels.

**In Wheeler county**  
Jenkins and Fortman No. 4 Sloss, section 90, block 24, I&GN survey, gauged 358 barrels.

**In Carson county**  
E. W. Means, No. C-4, section 4, block 9, I&GN survey, gauged 40 barrels.

Gas well gauged:  
**In Carson county**  
Cities Service Gas co., No. 40A

## Bucharest Reports Fierce Bombing

NEW YORK, June 28 (AP)—The Budapest radio reported at 7:15 p. m. (CST) tonight that Bucharest, capital of Rumania, was "just now" bombed, with considerable damage and many civilian deaths.

No casualties were caused by Russian attacks on Constanta, said this report heard by NBC, because the city had been evacuated.

The Budapest radio also said Russians were blowing up bridges and tunnels leading into the Carpathian-Ukraine and were retreating swiftly in the Baltic states with violent fighting on all fronts.

Soviet bombers attacked Hungarian territory in the Carpathian region and damaged a highway. A passenger train was machine gunned during the action and an engineer wounded.

Canada imported rubber and its products to a value of \$16,116,000 in 1939.

## KPND Radio Chat

**BY BILL BROWNE**  
When KTBS in Hot Springs, Ark., decided to have a Mena Day program away back in 1931, they started something. The Lions club from Mena, Ark., provided the entertainment. And a man named Chester Lauck, president of the Mena Lions, organized the show.

As part of the entertainment Lauck planned to participate in a black-face act with Norris Goff, another Mena business man. But when they reached KTBS studio they found burnt cork already too much in evidence. So right at the last minute they switched to a comedy act based on Ozark characters that they had met in business. It was strictly an impromptu act, and even the names of the characters were coined as the show went on the air.

Goff called himself "Abner" because he once knew a man with that name, and Lauck, because he didn't know anyone named "Lum," chose that as his name.

Lum and Abner clicked that night, and KTBS had them put on a series of broadcasts. After they had finished eight of these, Goff obtained a letter from his father to the president of a cereal company in Chicago, and one addition landed them a job as summer substitutes for Gene and Glenn, NBC comedians, on July 20, 1931. They began a long series of programs from Chicago. That started a rapid climb for Lum and Abner, which led them to Hollywood where they have been for more than a year working in pictures.

They are returning on the air now in their eleventh year as interpreters of life in Pine Ridge, and their fifteen-minute programs will be broadcast over KPND each Monday, Tuesday, Thursday and Friday at 12:15.

The absence of Ray Monday's voice over KPND through the past week has been because of Ray's vacation trip to Missouri. Ray and his bride of a few months, the former Miss Friday Emerson, left here a week ago today for a trip up into Missouri, Mrs. Monday's home state. They are expected back about mid-week.

Two new studio musical programs are being broadcast over KPND now. Fred Warren, new director of the Staff Frolic musicians, who was absent from yesterday's broadcast, will present his corps of musicians each Monday, Wednesday and Friday. They will play popular music.

Jack Andrews is giving a program of accordion music each Thursday evening at 8 o'clock.

Another debut on the air was that of Lowell Kendrick, studio engineer, last Friday morning on the Adam and Eva program. Lowell played the part of the grocery boy. Though he hasn't received any fan mail to speak of, his two lines made a fine impression on the other members of the staff. Lowell has been working Friday morning for a long time, but he has always kept away from live mikes. However, he was caught in a weak moment and was prevailed upon to take a part on that Adam and Eva program.

Adam and Eva have had several "bird voices" on their recent broadcasts. Once it was a little boy, once a drunk on the telephone, once a colored maid, then the grocery delivery boy, and Adam's room mate from college finally arrived to say two lines Friday morning.

Incidentally, the Adam and Eva script writers want to acknowledge an excellent script sent in last week by one of the program's steady listeners. It was used almost verbatim. You probably heard it Thursday morning. It was the one about the walk home from down town at night when Adam tripped over a garden hose that had been left across the sidewalk, and then carelessly picked it up and squirted water all over Eva. Then the wind blew a tree limb across Eva's head and her hat went gaily down the street, with the injured Adam limping after. We left them with a storm coming up and a fourteen block walk ahead of them.

The Circle C Ranch Hands, who have entertained KPND listeners at 10 o'clock each morning, will not be heard for a while now as they are going to Hollywood to make a picture.

**Tulsa Daily World Announces Policies**  
TULSA, Okla., June 28 (AP)—The Tulsa Daily World and The Tulsa Tribune announced tonight a merger of their mechanical, circulation, and business departments but "will continue to maintain separate, independent, and competitive news and editorial staffs, and separate independent editorial expressions."

The facilities and equipment of The World and The Tribune will be consolidated and co-ordinated in the present World building, as an agency "to more efficiently conduct publication of both newspapers," the Newspaper Printing corporation, has been set up.

The editors of The Tulsa Tribune will have no control over the editorial policies of The Tulsa World, and the editors of The Tulsa World will have no control over the editorial policies of The Tulsa Tribune, said announcements signed by Eugene Lorton, publisher of The World, and Richard Lloyd Jones, publisher of The Tribune.

The Tribune will publish its daily afternoon paper, but will discontinue Sunday editions. The World will continue its morning editions and on July 6 an enlarged Sunday World will appear in which will be consolidated the best of The Tribune and World Sunday comic features. On and after July 5 The Tribune will publish a larger Saturday edition containing features previously found in The Sunday Tribune.

## Senators At Odds On Aid To Russians

**BY WILLIAM B. ARDERY**  
WASHINGTON, June 28 (AP)—Several senators differing on general foreign policy agreed today that any substantial American aid for Russia would necessitate a multi-billion-dollar increase in the present \$7,000,000,000 lend-lease program and appropriation of large new sums for armament plants.

At the same time, there was speculation in congressional quarters that the administration might soon ask additional money for the lend-lease program. President Roosevelt has promised all possible aid for Russia in fighting Germany.

Senator Byrd (D-Va.) told reporters he had heard rumors that more lend-lease money would be asked, but that he did not see how much aid could be given Russia. This country, he declared, "is not producing enough military equipment for its own needs and those of Great Britain."

Senator Pepper (D-Fla.) said "congress will give the President any reasonable sum" and added: "If we don't spend \$5,000,000,000 or so to stop Hitler in Europe now then it will cost us five to 20 times \$5,000,000,000 to stop him later."

Expressions of other senators interviewed varied.

The veteran Senator Glass (D-Va.) asked, "where would we get the money from?" If further appropriations were granted for aid to Russia.

Senator Adams (D-Colo.) declared that the \$7,000,000,000 outlay under the original lend-lease program was based on British estimates of that country's needs for American products. The total figure, he added, was considerably less than that suggested by Great Britain.

Senator Mead (D-N.Y.) saying that this country would always have to realize a fundamental conflict between American and Russian political philosophies, declared he saw nothing that could be done for Russia under the existing lend-lease program. While approving administration steps to give Russia help, Mead added that "there will have to be a new lend-lease bill" before the Soviet could be paced in the same category as Great Britain.

**Ford Son Weds**  
DETROIT, June 28 (AP)—The marriage of Benson Ford, second son of Mr. and Mrs. Edsel Ford, to Miss Edith McNaughton will take place July 9, it was announced today.

Great Salt Lake, in Utah, is more than four times as large as the Dead Sea.

## Army Command Weak, General Tells Officers

**BY RICE YAHNER**  
With the Army in Tennessee, June 28 (AP)—Summing up a month of simulated warfare by 77,000 soldiers under his command, Lieutenant General Ben Lear declared today "our chain of command (from the officers down to the ranks) is weak—weak to the extent that if this condition is allowed to continue, the chain, at its weak links, will break whenever an emergency imposes a heavy load."

A soldier of 43 years experience, General Lear, commander of the second field army, struck out at a meeting of about 300 staff and field officers assembled to hear his opinion of the maneuvering of the 5th, 27th, and 30th infantry divisions and the second armored division in the field in Tennessee since June 2.

Of the first field test of one of America's new armored divisions, General Lear said "offensive action by armored forces can be restricted and denied freedom of movement by trained and adequately armed troops."

"The lack of sufficient anti-tank weapons had handicapped all units in providing an effective defense against the armored division. In view of the present importance of the development of an anti-tank defense and as a stimulus to training, this deficiency needs prompt correction."

Much of the general's remarks concerning the month's training

## British Want Daring Raids On Coasts

**(By The Associated Press)**  
LONDON, June 28—Agitation grew in Britain tonight for daring attacks by army and navy raiders on the German-held continental coasts, now that the Nazis' backs are turned, and one general suggested that amphibian tanks join them in a general offensive teamed with the great, continuing RAF aerial assaults.

General J. F. C. Fuller, one of the first British generals to exploit the use of tanks in the World war, called in the "Sunday Pictorial" for "tip and run" raids by the army and navy on "the coasts of countries now occupied by Germany"

He was pointedly directed to faults in command which, he said, he had observed personally.

"Cases were found where sergeants, corporals and privates in great numbers did not know the nature and details of the exercises being conducted," the tall, hard-hitting general declared.

"This state of affairs is not the fault of the soldier. It is the fault of the officers above him and it must be corrected. x x x x."

"Dissemination of information, regulations and orders from the division commander to the private should and must be immediate, automatic and of second-nature."

Strong German forces would have to be diverted to protect these coasts, he declared.

Long an exponent of amphibian tanks, General Fuller said that in 1931 Vickers-Armstrong put "an efficient amphibian light tank" on the market, and he added that "if we have such a tank our path is easy."

"The public is growing restive now that there seems to be a special opportunity to strike at Germany while she is preoccupied with Russia on the East."

They want more than the heavy air raids, already of record proportions, that continued today with a smashing attack on a huge power plant at Comines, near Lille, one of the key plants in heavily industrialized northern France.

Raiders operating in skies almost cleared of German opposition knocked down five German planes, boosting the British figures of 2,068 in all theaters and bringing the toll of German aircraft claimed since last Saturday to 120.

But the British now are clamoring for more than this.

"This chance may not recur," wrote one military correspondent.

"Tens of thousands of raiders smashing up communications, airfields and factories would bring real relief to our Russian allies while doing a vital service to ourselves."

**POWER AND SPEED... the unbeatable combination**

THE ASSOCIATED PRESS News Photo staff is the largest of its kind in existence. Moreover, APNP's organization abroad is the largest such outside the United States. In addition, the output of photographers on hundreds of AP newspapers is available to the AP—the association's cooperative principle in practice.

The AP Wirephoto network carries pictures from coast to coast with the speed of light. It is the world's only picture service operating over its own leased wire system.

Power of resources and speed of transmission, utilized with skill and perception by news photo experts—this is the unbeatable combination that is daily making "the picture with the story" an accepted accomplishment in nearly 800 AP newspapers.

Approximately 800 AP newspapers now benefit directly from AP Wirephoto, either as subscribers to Wirephoto or companion services, or to Telemats, the only news photo mat service based on Wirephotos.

# Optimistic Soap Box Derby Chief Points Way For '41 American Boy

### Parents Should Read This Article To Their Children

The world of opportunity is desperately under-populated, and the boys and young men of tomorrow will be welcomed settlers. This world we live in today is not done— is, instead, only begun—and the builders of tomorrow's bright new world will have a host of advantages when they come to grips with the questions it will bring.

So says C. F. Kettering, Soap Box Derby chief and ranking mechanical wizard in a nation whose youth, year by year, comes into an ever-increasing legacy of scientific progress. Staunchest advocate of opportunity for every person who will accept its omnipresent challenge, Kettering— "Boss" in the sprawling research laboratories of General Motors—is America's No. 1 enthusiast.

"Why," says he, "Young America is coming into a world that is only begun, a world that despite the accumulated toll of centuries, still admits want, disease, hardship. When today's young men and their sons and grandsons of tomorrow have finished with it, we'll be a little nearer the kind of world we ought to have."

Deriding those crepe-hanging oldsters who lament that "youth hasn't a chance; it's all been done," Kettering pointed to a score of so-called "revolutionary" developments in the past 30 years.

"When they tell us in research that a thing can't be done," he said, "that's all we need to know. That's our cue to go ahead and do it. We don't know how we're going to do it. We don't know what we'll need or what we'll use to do it. That's not important. A research laboratory is not a building full of shiny equipment—it's a state of mind. If you recognize a challenge when you see one, if you accept it and start to work to answer it, then you've engaged in research whether you like it or not."

An eminently learned and widely-respected thinker who classifies himself as "a professional amateur," Kettering is today recognized as industry's foremost trouble-shooter, a scientist, an inventor, a research worker whose contribution to modern living have eased the daily burdens of millions.

Modestly, he disclaims credit. "All it takes is a pair of hands, a mind to guide them, and a purpose. A degree from the most highly regarded university won't guarantee that you'll invent tomorrow's greatest boon. Nor will a finely equipped laboratory. But give a man a purpose or a need, give him a pair of hands that have been trained to handle

angles of a thing until eventually we lick it.

"The young people of today stand on the threshold of a world with opportunities that existed only two or three decades ago. What they don't realize, apparently, is that the threshold today is immeasurably higher than it was then. Because progress has continued, our general level of information is higher today than 10 years ago—than yesterday, for that matter. So each young man who completes his school work and starts looking for a job has a better chance than his dad did. It's elementary. The young fellow knows more than his dad did—the world is doing more in scores of entirely new fields. Naturally he'll find his place in the picture quicker.

"Each generation, in picking up what is transmitted to it from preceding generations, has a firmer, surer footing, a better foundation upon which to base the structures it will rear in the future.

"Some people like to hark back to the 'age of opportunity.' There never was such a thing. Or, rather, there is always an 'age of opportunity.' It was here yesterday, is with us now, and certainly will be here tomorrow.

"It don't think there was ever a man born who wasn't born into an 'age of opportunity.' The main thing to remember is that opportunity is within us, is offered to rich and poor alike, is entirely democratic. But we dare not back into it, for we need to keep our eyes and our hands ahead.

"Intelligent ignorance, that keeps a man dissatisfied with the wall, 'It can't be done' is a pre-requisite for the research worker. And I think it holds equally true in any other field."

"These young fellows are well started. Sure, they need a push, a stimulus, and the derby is doing a great service because it gives them something to 'crystallize' around. Its directive interest, brings out their mental alertness and requires finger technique. These boys can't sit around a carpenter shop and 'absorb' their derby car. They can't dream up a racer. They have to sit down and plan it out, then build it. You must think from the inside out, not from the outside in.

"Progress doesn't come in leaps, these boys discover. It's a slow, weary, laborious process. It's the same with research. People come to me and say: 'Mr. Kettering, research must be the most thrilling sort of work in the world. It's so dramatic!'

"Yes, I answer, 'research is about as thrilling and dramatic as a fly stuck on a piece of fly-paper on a farmer's kitchen.' You've watched a fly struggle to get loose. The minute he gets one foot free, another is stuck. Well, that's the way we are. We find each problem so tangled up with a score more that we simply have to plug away at all

the instruments of a profession, and a thinking mind to tackle the problem and direct the manual activity, and your 'research' is under way.

"For example, thousands of boys throughout the country take part in the Soap Box Derby, which Chevrolet, this summer for the eighth year, will co-sponsor with leading newspapers. The Pampa News is now sponsoring its third annual derby. Most of those youngsters are average boys, just like the kids on your block. If there weren't something like the derby to provide them with incentive—they'd probably spend the summer simply playing.

"You see what I mean? When purpose is brought into their lives, when the directive influence of the derby draws them out of themselves, they immediately become young research engineers, building, creating, developing.

"These young fellows are well started. Sure, they need a push, a stimulus, and the derby is doing a great service because it gives them something to 'crystallize' around. Its directive interest, brings out their mental alertness and requires finger technique. These boys can't sit around a carpenter shop and 'absorb' their derby car. They can't dream up a racer. They have to sit down and plan it out, then build it. You must think from the inside out, not from the outside in.

"You see what I mean? When purpose is brought into their lives, when the directive influence of the derby draws them out of themselves, they immediately become young research engineers, building, creating, developing.

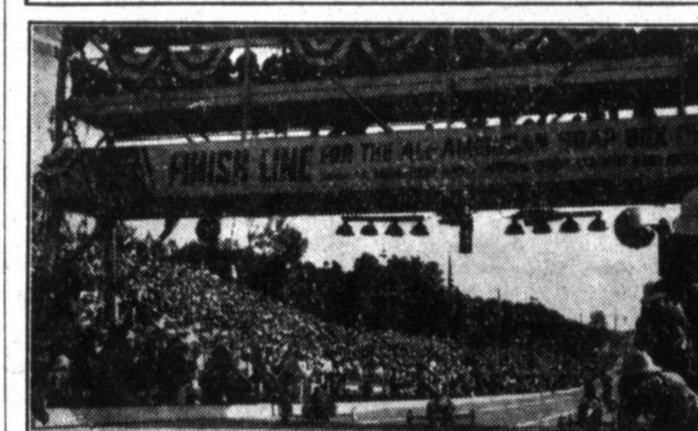

## WILL PAMPA BOY WIN IT AGAIN?

Renowned as America's No. 1 mechanical wizard, C. F. Kettering, vice-president of General Motors Corp., and director of the G. M. research laboratories, is an ardent friend of youth. Annually, at the All-American Soap Box Derby, Mr. Kettering pays tribute to the youth bringing the best-designed race car to the national finals, offering the handsome gold-finish award shown above. C. P. Flisken (left), advertising manager of Chevrolet, national sponsor of the race with

leading newspapers throughout the country, receives the trophy from Mr. Kettering for presentation to the Derby's best designer at the eighth annual national finals Aug. 17 in Akron, Ohio. Last year this national trophy was won by Mark Bratton, Pampa 1940 champ. The soap box racer which won the award for young Bratton now is on display at The Pampa News. Pampa's 1941 races to pick a champion for the trip to Akron will be held here at Derby Downs July 17 and 18.

## 1940 Finals Finish

Across the finish line at Derby Downs, Akron, O., flash three little cars, in the final heat of the 1940 All-American Soap Box Derby, won by Tommy Fisher, age 12, Detroit, in the right lane above. Second was Robert Londerec, Charleston, W. Va. (left lane), and third was George Smith, Akron. Shown above is a part of the crowd of more than 100,000 race fans who gathered for the seventh annual running of the Derby. A record total of 130 drivers took part in the 1940 race. More than 150 are expected to participate in the eighth annual Derby, to be held this year at Akron on Aug. 17.

## War Department Wants Power To Send Troops Out Of Hemisphere

WASHINGTON, June 28. (AP)—Word circulated at the capitol today that the war department wanted a congressional declaration of a national emergency and brought out immediate manifestations of opposition.

Such a declaration would permit national guardsmen and selective service trainees to be kept in active service indefinitely, and would also lift the present restriction on the President's powers to send troops out of the western hemisphere.

Representative Woodrum (D-Va.) expressed his views in the house by declaring that such a proposal would bring a "little storm of protest by one member of congress who has gone 100 per cent with the administration's foreign policy."

And Representative Starnes (D-Ala.) said congress and the people were ready to spend any amount and exert whatever effort was required to safeguard the western hemisphere, but that there was no plan or intention of this country's going to war.

In executive departments, meantime, the defense program itself was pushed ahead and there were new moves to ease its impact on civilians.

The war department disclosed development of a radio device capable of detecting approach of enemy aircraft miles away and announced a recruiting program for technicians to man a series of listening posts along the coasts and at island outposts.

The Office of Production Management announced the defense housing projects would be given first call over civilian housing on available supplies of building materials.

The federal power commission formally declared an emergency to exist in southeastern states where there is a power shortage and asked for reduced consumption for non-defense purposes.

From the bituminous coal division came an official acknowledgment that the nation may face a coal shortage this winter due, in part, to over-taxed transportation facilities.

The government already is urging householders to buy coal this summer.

The maritime commission reported that work was 60 to 90 days ahead of schedule on most of the 312 "ugly duckling" cargo ships ordered in its original schedule called for completion of only one ship this year, the commission said 10 might be placed in operation.

In his youth, George Washington made the trip to Barbados, in the West Indies.

With the exception of Ireland, beavers once were found in every country in Europe.

## Hillbilly Boys Fiddle And Leo Reads Returns

AUSTIN, June 28. (AP)—The hillbilly boys played with zip and Governor Lee O'Daniel read election returns in wise-cracking good humor to a big crowd gathered under multicolored lights on grounds of the executive mansion here tonight.

In his headquarters at a hotel several blocks from the mansion, Congressman Lyndon B. Johnson, like the governor a major candidate for the U. S. Senate, watched with a throng of friends the unfolding of the special election drama.

When early returns showed the governor trailing Johnson, he commented to the crowd that they were mostly from the cities and that later ones from the rural districts and small towns would be very different.

Not as large as that which attended the mansion party last year when O'Daniel was re-elected, the crowd stood and sat on the grass of the lawn and now and then applauded in the flower beds along the walks.

Two huge water barrels were placed handily to slake the thirsty. Inside the mansion members of the governor's official family milled about.

Among the officials were Reuben Williams, member of the state highway commission; Frank Davis, member of the state board of control; William Lawson, secretary of state, and Tom L. Beauchamp, associate justice of the state court of criminal appeals.

The governor's orchestra, just returned from a long campaign tour with him, started the evening's serenade with "Beautiful Texas," O'Daniel's own composition, drawing heavy applause from the crowd in front of the mansion porch.

Johnson, weary from his campaign efforts, arrived in the afternoon from Johnson City, where he voted, and slept until the returns began coming in.

His supporters, including former schoolmates at Southwest Texas State Teachers college, crowded his headquarters and buzzed about on the mezzanine floor of the hotel.

Mrs. Sam Johnson, the congressman's mother, answered a knock on the door of his suite, saying he had "taken something" to make him sleep.

Johnson appeared in the door of his bedroom, dressed in a pair of green-striped pajamas, his curly black hair tousled.

Drowsily, he said he would be shaved, bathed and dressed in about 20 minutes.

Johnson made his last speech of the campaign today at Johnson City, where a holiday had been declared in honor of the occasion.

He planned to rest in Austin after the arduous campaign.

Another watch party included Lieut. Gov. Coke Stevenson of Junction, Tex., Lincolnshire veteran Jimmie H. Cook, county attorney who would succeed O'Daniel as governor if the latter were elected senator.

With him in the lieutenant-governor's apartment at the capitol where his mother-in-law, Mrs. Beatrice Wright of Junction; his son, Coke, Jr., county attorney of Kemble county, his son's wife and their two small children; Senator A. M. Aiken, Jr. of Paris, chairman of the senate finance committee, and Mrs. Aiken.

Mrs. Coke Stevenson, Sr., was ill in a hospital and the lieutenant-governor spent part of the evening with her.

As the evening wore on there seemed to be less pep at the mansion although the hillbilly boys kept sawing away.

Mrs. O'Daniel, in navy blue, moved about, trying to make everyone have a good time. Pretty Molly, the O'Daniels' daughter, was all over the place, accompanied by her new fiancé, Jack D. Wraether, Jr., of Tyler.

Asked if he would appoint another interim senator, to succeed Andrew Jackson Houston who died Thursday night, O'Daniel said he would have no statement on the subject tonight.

## Pythians Honor Judge Lindsey

Knights of Pythias members from several lodges in the Panhandle met in Pampa Thursday night to honor Judge Victor H. Lindsey, district deputy grand chancellor, and Dr. O. H. Ater, grand vice chancellor. Fifty-four members attended the dinner and meeting.

The Rev. E. Lee Stanford of Miami and stated the purpose of your organization is wonderful. If we could bring its spirit to all our citizenry what a wonderful thing it would be. It breathes the spirit of friendship, charity and benevolence. I suggest that you go before congress and ask for a charter."

The suggestion was adopted. Dr. Ater said, in 1864 the Knights of Pythias order became the first American order ever chartered by act of congress.

Dr. Lindsey, explaining further the outstanding record of the order, revealed that on the 72nd anniversary of the order, February 19, 1939, the rank of Knighthood was conferred on President Franklin Roosevelt in the reception room of the White House which had been converted into a lodge room for the ceremony. Eighty-five members from all points of the compass met to confer the degree.

"It was the first time in history that a president of the United States was initiated into a fraternal organization in the White House during his tenure in office," Judge Lindsey said.

## Mainly About People

Ethiel Lane, son of Mr. and Mrs. Henry Lane, left Friday for Lubbock where he enrolled at Draughon's Business college for a year. He graduated from Pampa High school in May.

Dr. Thomas, foot specialist, will be in Pampa July 1 and 2 using new methods in arch and bunion corrections. Nature provides means by which bodily ills can be corrected if we know how to put these means to work. This method works on old and young. Your feet will return to normal in a few months as you go about your everyday tasks. See Dr. Thomas at Hillson Hotel Tuesday and Wednesday. Phone 646. (Adv.)

Nita Rose McCarty, daughter of Mr. and Mrs. L. J. McCarty, left yesterday for Denver, Colo., where she will visit relatives for the next month.

Will sacrifice for cash \$350.00 according to 120 base. Call 850. (Adv.)

Roy Wilmesmeier of Houston, formerly of Pampa, is visiting friends here this week.

Lost: License plate 201 farm 811. Pampa News. (Adv.)

Dr. and Mrs. Donald Davis of Albuquerque, N. M., have moved to Pampa to make their home. They will be associated with Mrs. J. V. McCallister, chiropractor.

For rent: bedroom adjoining bath, cool, close in. 314 N. Gray. (Adv.)

Guests in the home of Mr. and Mrs. C. C. Bradshaw are their daughters, Mrs. R. W. Logan, and Mr. Logan, of Corpus Christi, and their grandchildren, Dorothy, Hattie and Charles Leach of Dilley.

Plan your swimming party at Lake McClellan Sand Beach Life guard on duty continually. Suits, towels, lockers, etc., available. Plenty of shallow water for the kids. (Adv.)

The Pampa school board will meet in called session Wednesday afternoon to open bids for a new school in the negro section of the city.

For Sale: 4 room house. Just north of depot. Kingsmill, Texas. (Adv.)

The Woodmen of the World will meet in regular session Tuesday night at 8 o'clock in the Knights of Pythias hall over the State theater. It is important that all officers and members be present. The captain of the degree team requests all members of the team be present. Refreshments will be served after the meeting.

Lost: Brown zipper billfold. Sec. No. 445-05-7090. Containing \$40 in cash, by working man. Return to Pampa News for reward. (Adv.)

Mrs. Margaret Sullins left Friday for Hollywood, California, where she will study ballet dancing during the summer months.

Lost: License plate 201 farm 811. Pampa News. (Adv.)

Mrs. George Berlin has returned from Ft. Worth, Oklahoma, where she visited with her mother, Mrs. L. P. Norwood, who accompanied her home.

Gray County Top O' Texas fifth Sunday singing will be held at the Alameda High school beginning at 10:30 o'clock this morning.

Mrs. J. R. Cooper of Compton, California, is visiting with her daughter, Mrs. Clyde Ives, and Mr. Ives.

Mrs. H. F. Barnhart has returned after visiting with her daughter, Mrs. E. E. Smith, in Amarillo, and with her son, John Barnhart, and family at Kress.

Mrs. C. A. Jones and son, Don, are visiting with relatives in Breckridge.

Miss Betty Whitlow of Borger visited with her grandparents, Mr. and Mrs. Rex Watkins, last week.

Marjory Lawrence left Saturday morning for a two week's vacation in Oklahoma City.

Miss Doris Alexander has returned after spending the week with her sister, Mrs. O. G. Morgan, in Gainesville.

Y. C. Chesney of Seminole is visiting with his sister, Mrs. Dayton White.

Mrs. W. A. Smith and daughter, Mrs. James E. Duncan, and Mr. Duncan, left Friday for their home in Dallas to visit with Mrs. L. H. Greene. Mrs. Smith is an aunt of Mrs. Greene.

George Berlin left Friday morning on a fishing trip to Pearl Lake, Colorado.

Mr. and Mrs. Rex Watkins are spending the day in Borger with Mr. and Mrs. Glen Whitlow, who will entertain with a birthday dinner for Mrs. Whitlow.

Mr. and Mrs. John Browning and son are vacationing in Little Rock, Arkansas.

Mrs. Martel Peters of Inglewood, California, who has been visiting here, left Friday for Wichita Falls where she will visit before returning to California.

## Transportation Disputes Settled

(By The Associated Press) Peaceful settlements of labor disputes involving transportation workers in the great defense production areas of New York and Pittsburgh were reached yesterday (Saturday).

Mayor F. H. LaGuardia announced an agreement averting a threatened strike in Gotham's city-owned transit system on which thousands travel daily to scores of factories and shipping centers concerned with defense goods.

The transport workers union (CIO) and the city agreed, LaGuardia said, to continue an existing contract until the courts could decide whether the city can legally contact with the union in the future. That meant cancellation of a union order for a walkout of 32,000 workers at midnight Monday, the time at which the present contract expires.

The union demands a \$1 a day increase for all employees. Rates now range from the minimum of \$24.96 a week for car cleaners to the maximum figure for motormen of \$53.

At Pittsburgh, AFL teamsters agreed to return to work, ending a walkout of about 1,200 men which began 28 days ago and which interfered with the shipment and handling of defense materials in Pittsburgh's munitions mills.

The strikers agreed to go back to their jobs under a proposal of the defense mediation board for increases of six cents an hour for some classifications and 0 cents for others. The union originally demanded a flat 40-cent boost over the basis rate of 85 cents an hour. Final determination on the dispute will be made by the board at a series of meetings to begin Monday.

The Pampa school board will meet in called session Wednesday afternoon to open bids for a new school in the negro section of the city.

For Sale: 4 room house. Just north of depot. Kingsmill, Texas. (Adv.)

The Woodmen of the World will meet in regular session Tuesday night at 8 o'clock in the Knights of Pythias hall over the State theater. It is important that all officers and members be present. The captain of the degree team requests all members of the team be present. Refreshments will be served after the meeting.

Mr. and Mrs. John Browning and son are vacationing in Little Rock, Arkansas.

Mrs. Martel Peters of Inglewood, California, who has been visiting here, left Friday for Wichita Falls where she will visit before returning to California.

Mr. and Mrs. W. H. Dempster visited with the Rev. and Mrs. Huber in McLean Thursday evening.

Mrs. May Moore, teacher in the schools at Olton, is visiting with her aunt and uncle, Mr. and Mrs. Ben Hilburn.

Mrs. Goldie Zimmerman of Shidler, Oklahoma, left this morning after visiting with her sister, Mrs. E. A. Harris.

Mr. Bert Persons and Elmeda Persons of El Dorado, Kansas, are visiting in the home of Mr. and Mrs. Grover Foster.

Marriage licenses were issued yesterday to Joe V. Swink and Mrs. Effie McElroy and to W. T. Wilborn and Miss Eileen Marshall.

Mel Dunn, former Pampa now an instructor at Hicks Field, Dallas, is spending the week-end here.

Police were informed last night that a small child had been bitten by a large white playing in the 900 block on Wilks street. The officers were looking for the dog to place it under observation.

FDR (Continued from Page 1) staunch new dealer, is one of 25 candidates. Mr. Roosevelt sent Johnson a telegram yesterday in which he termed preposterous a proposal of Governor W. Lee O'Daniel, another candidate, that Texas set up her own defense force.

Home-Stretch Spurt Any Time You Say PLENTY of men can run a mile around a cinder track. But those who win races—and championships—are the ones who can turn on the plus when it's needed. Probably that's why you hear so much these days about Buick's exclusive Compound Carburetion. It gives you an engine that will cruise right along with the distance runners and pile up plenty of miles for your gasoline money. But any time you want plus-performance—a home-stretch spurt—just step down on the gas treadle. Instantly, you send an extra carburetor into action. You step up the supply of both gasoline and air—and virtually give yourself a bigger engine to get you places in a hurry. That means thrills—plenty of them. It means, also, efficiency—proper use of every drop of fuel without useless waste. It bears out the Big Point about this 1941 Buick—that on size, style, comfort, room and ability, it's far and away the top value of the year. To see how true that is, just go size one up against the low delivered prices your nearest Buick dealer is asking. \$930 For the Business Coupe (illustrated above) including Compound Carburetion, delivered at Flint, Mich. State tax, optional equipment and accessories—extra. Prices and specifications subject to change without notice. "Best Buick Yet" EXEMPLAR OF GENERAL MOTORS VALUE TEX EVANS BUICK CO., INC. 204 N. Too hot to shop? These hot days I just phone 801 for everything I need! One call to MONTGOMERY WARD and my shopping's done! I can get anything at Wards—a lawn mower—an inner tube for the car—cool clothes for the baby! It's grand to have Wards catalog as well as the store to shop from! Yes, you can order anything in the catalog order department at the store! Shopping at Wards is as convenient as it is economical nowadays! And you can buy anything at the store or in the catalogs on monthly payments! Montgomery Ward 217-19 N. Cuyler Phone 801

THE PAMPA NEWS

Published every evening, except Saturday, and Sunday morning by the Pampa News, 212 West Foster Avenue, Pampa, Texas. Phone 656. All departments.

MEMBER OF THE ASSOCIATED PRESS (Full Lease) wire. The Associated Press is exclusively entitled to the use for publication of all news dispatches credited to it or otherwise credited to this paper and also the regular news published herein.

Entered as second class matter March 15, 1937, at the post office at Pampa, Texas, under the act of March 3, 1879. National Advertising Representative: Texas Daily Press League, New York, St. Louis, Kansas City, Los Angeles, San Francisco and Chicago.

Subscription Rates: BY CARRIER in Pampa, 30c per week, \$8c per month. Paid in advance, \$2.50 per three months, \$5.00 per six months, \$10.00 per year. BY MAIL, payable in advance, anywhere in the Pampa area, \$1.50 per year. Outside of the Pampa area, \$7.50 per year. Price per single copy 5 cents. No mail orders accepted in localities served by carrier delivery.

An independent Democratic newspaper, publishing the news fairly and impartially at all times and supporting in its editorial columns the principles which it believes to be right and opposing those questions which it believes to be wrong, regardless of party politics.

Vacationing

Summer comes, school closes, vacation time begins. There will be less vacation this summer than usual, because of our frenzied defense preparations and the millions of people absorbed by army and industry and occupations connected with them.

Where to go? What to do? There are the faithful ones who throng contentedly to the same place, to do the same things, summer after summer. And there are the nomadic and adventurous ones who always want to see new places and meet new people and do new things.

The supreme vacationer never ceases in his desire to go everywhere and see everything and do everything, while life lasts and the sun rises and sets and the world turns on its axis.

And some rare souls, condemned to a stay-at-home or stay-at-work existence, possibly even to spend life in a chair or a bed, are the best travelers of all, because they have inexhaustible imagination. Many who gad about endlessly get little out of it for lack of that quality.

'A Long, Long Time'

They used to sing it in 1917-18, one of those catchy little songs that stick—"I May Be Gone for a Long, Long Time." Nobody who went into the armed services in those days knew for how long it would be, except that it would be for as long as it took to do the job.

Now it appears that the National Guard may be retained in federal service longer than the year for which it was called. The War department is asking this of congress.

If this is done, it will mean inconvenience for many, genuine hardship for some, for many of these 289,800 National Guardsmen, including their 21,800 officers, are older men with responsibilities.

Only one thing will really restore these and other Americans now in khaki to normal civil life. That is an end of the conditions which brought them there in the first place.

Behind The News

WASHINGTON, June 28—When the senate confirmed the elevation of Democratic Senator James F. Byrnes to the U. S. supreme court, it did it unanimously and so quickly that no one had time to take out a stop watch.

Last March, Sen. Charles L. McNary, minority leader, called at the White House and told the president that it was the unanimous opinion of the senate Republicans that Senator Byrnes should have the vacancy created by retirement of Associate Justice James C. McReynolds.

This was, of course, a great tribute to an able and respected adversary, but some politicians invariably cast a fishy eye on tributes from "the other side of the aisle." A few suspicious Democrats wondered if their GOP foes weren't pulling a fast one—and among themselves, privately, voiced their fears.

Now, some Washington wags are saying that the president, in removing from the political arena the cleverest liaison man he has had in congress has done one of the nicest things he could do for the opposing party.

MIXED HIS MEDICINES It's not necessary to wag with the wags to admit the truth of this. Senator Byrnes has been the most potent shepherd of administration legislation in the senate for at least eight years. I haven't found many who will agree that he has any formula—but in almost every case, it appears that he has mixed soothing syrup with his bad medicine to such an extent that not even the opposition came out of the rukus with any complaints against the South Carolina senator about what they had had to swallow.

Even when "Jimmy" went against the home team—and he did, importantly, several times—he was always welcomed back into the line-up with a lot of heartiness. When he fought in the ranks against the chief executive, he seemed to be able to do it without acquiring or leaving any scars.

He rammed the two-billion-dollar veterans' bonus bill through over the president's veto; he backed his senior colleague, Sen. E. D. "Cotton Ed" Smith, in the famous purge elections after the latter had been placed on the blacklist. He opposed the wage and hour bill. He backed out of the senate majority leader race to throw his weight for Sen. Pat Harrison, who lost to the administration-favored Sen. Alben Barkley by only one vote. But it was Senator Barkley himself who recently accompanied Harrison and Sen. Carter Glass to the White House to urge Byrnes for the supreme court job.

In the supreme court reorganization fight, Byrnes was in the forefront for the administration. It was a bitter battle—and for Byrnes and the administration, a lost cause—yet a very few years later, friends and foes alike were willing to join hands and insist that Byrnes be given a lifetime job on the same bench that opponents had shouted he was trying to sabotage.

HELL BE MISSED Is it any wonder that some Democrats got a little suspicious and murmured that maybe the opposition was trying to bury one of their ablest political gladiators?

If there had been, it might have been dispelled when it became apparent that Byrnes' nomination to the court had been postponed until after the \$7,000,000,000 lend-lease bill fight and when the rumor leaked out the other day that he would stay on in the senate—in spite of his appointment and confirmation—until Majority Leader Barkley returned from his long illness.

The president has put some of his most capable

The Nation's Press

MOORE MAGGOTS IN THE APPLE

(Los Angeles Times)

Whether or not they throw any additional light on the mystery of Rudolf Hess, the reported suicide of Admiral Bohn and arrest of Dr. Karl Haushofer, both intimates of the No. 3 Nazi who fled to Scotland, are additional indications that all is not well in the high inner circles of German officialdom. Admiral Bohn, chief of the Hitler sea forces in Norway, is supposed to have killed himself after being questioned by agents of the home Gestapo; Dr. Haushofer to have been imprisoned for incautious expressions of fear for the future of Germany.

The Haushofer arrest, if verified, may prove of great significance. According to an article in a recent issue of Current History and Forum, by Frederic Sonder Jr., Haushofer has long been the real brains of Nazidom. Through his staff of 1000 "scientists, technicians and spies," constituting the Geopolitical Institute of Munich, Mr. Sonder says, from what are described as personal knowledge and official sources, that Haushofer has dictated all of Hitler's moves from the very beginning. "Ribbentrop's diplomatic corps, Himmler's Gestapo, Goebbels' Propaganda Ministry, Brauchitsch's army and the party itself are but instruments of this super-brain of Nazidom," he writes.

If this super-planner has been discredited and jailed as the British hear, it would seem to mean not only that the Nazis have lost their mainspring, but that Hitler has so far departed from a heretofore successful program as to alienate and frighten his chief adviser.

IS THIS A SERIOUS WAR FOR BRITAIN?

(Chicago Tribune)

Responsible critics in parliament say that the British war effort is deliberately slowed down by the attitude of British labor. Labor Minister Ernest Bevin was a target. Henderson Stewart said that the arms factories "are the frequent scenes of deliberate slackening, deliberate idleness." He said that man for man and machine for machine the workers were not turning out "more than 50 per cent of what they did in the last war."

Lord Southwood, a newspaper proprietor whose publications include the labor organ, The Herald, reminded the workers that the British forces were obliged to fight with inadequate equipment, and that a minute on the job might mean a life.

Mr. Bevin confessed a disappointment and appealed to the workers not to have it on their conscience that if an invasion took place the lack of proper defense was their responsibility. These comments are by men who should be informed. They would indicate that certain elements are not taking the war seriously as a life and death matter for the British people.

BRITAIN DOESN'T 'OWN' EMPIRE

Norman Angell Corrects Some Misconceptions Regarding Dominion

(Norman Angell in Survey Graphic)

Obviously it is of vital concern to Americans to know whether the picture of England as the owner of a vast estate paying tribute to the inhabitants of the British islands is a true picture or not. For on the verdict depends whether America is aiding justice or injustice; freedom or mere imperialist advantage.

What are the facts? Great Britain does not "own" the empire at all. Not merely has John Bull no proprietary rights whatever in these overseas territories, but the British government draws no tribute at all from Canada, or Australia, or South Africa, or New Zealand, or Newfoundland, or Ireland, or India, or from any colony whatsoever. Indeed, the boot is very much on the other leg, in that the British taxpayer is often mulcted for the defense and development of the overseas territories.

Nor is that all, or the most important part. Not merely do the British people not "own" the overseas "possessions," they do not even govern the greater part of them. For during the last seventy years Britain has carried on a process of de-imperialization, so that what was originally an empire, has, for the greater part ceased to be one; what were originally colonies have become independent states, over which Britain has surrendered all control.

The independence for which the thirteen American colonies had to wage war has been granted to Canada, Australia, New Zealand, South Africa, Eire, Newfoundland, and will be granted tomorrow to India, without war.

WHO CAUSED THE LABOR MESS?

By George Rothwell Brown

(Los Angeles Examiner)

President Roosevelt at last has come to realize the truth about the labor mess he has created in this country.

He wouldn't believe it when the employers, the big industrialists for which the New Deal has been gunning for eight years, told him. He had to find it out for himself.

He found it out with a vengeance in the matter of the strike at the Inglewood plant of North American Aviation, Inc. He found it out, because he found himself in precisely the jam with labor that the great big industrialists of this country had found themselves in during the hectic business-baiting days of the Socialist-Labor left wing.

Mr. Roosevelt's jam was this: That on the one hand he had pledged himself to victory against Hitler, and on the other hand, the left wing of the political coalition which gave him his third term, was interfering with the carrying out of that pledge of victory.

THE FUTURE OF PICKETING

(New York Sun)

A fascinating glimpse of the future of picketing may be had in West Forty-fourth street. Delegates of the International Brotherhood of Teamsters and Chauffeurs are picketing the Shubert Theater, seeking to brand it as unfair and to dissuade the public from patronizing it, and this is not because the theater employs a single non-union worker, whether actor, stage hand or usher.

Because the private chauffeur of the actress who came from the east for four weeks of interviewing and researching, then lost all his notes on his way to the train. . . . In Preston Sturges' new picture, "Sullivan's Travels," he has Veronica Lake ask Joel McCrea whether he believes Olson's theory is crazy. The answer: "Only in a very practical way."

NO QUIET

(New York Sun)

Can't understand why the Gene Tierney-"Count" Oleg Cassini marriage is being represented as the result of a three-weeks' romance. They met last December, have been on the verge of elopement for the past three months. . . . Sad tale idea of the year: Warner's deal with Columbia Ois Skinner, the amazing actress who single-handedly plays all the roles in dramatic sketches, for a series of two-reel pictures.

NO QUIET

(New York Sun)

For the first time in years studios are being swamped with fan mail. It's coming from selectees in the camps. A lot of the boys write long, chatty letters to favorite players, but most of them want photographs of the camp brigade. Something in a bathing suit, please.

Jack Oakie halled the Negro comic, Willie Best, on the Burbank lot and asked what he was doing. "Ah'm workin' in a pitcher," drawled Best. "What part are you playin'?" persisted Oakie, and Willie replied: "Ah'm playin' the part of a cullud man."

General Hugh A. Drum of the United States army did not attend West Point.

THE FACTORIES AT NIGHT

Around Hollywood

By PAUL HARRISON

NEA Services Staffs Correspondent

HOLLYWOOD, June 28—Behind the screen: Nothing but increasingly bad business could have persuaded any large number of theater owners to unite against the double bill. Visitors attending the exhibitors' convention here still weren't sure that second features were the final answer to the industry's problem. Do you know what they say about a town that loses its baseball franchise because a town won't support it? They say it's dead. . . . Why everybody in business here ought to attend every game. . . . and if they don't I'm in favor of waiting on them! And that includes you, too! "Whew! Okay, lady, take it easy! We'll go, but don't shove!"

Doyle Auld's greatest ambition from the time he could throw a ball was to be a major league baseball player. This week he is getting his first chance at Tucson where he is now a professional baseball player. He got his chance about a week ago when the Cincinnati Reds held a school at McAllen for prospective players. Hank Severid had charge and he must have liked Doyle's looks for he gave him a contract, and sent him to Tucson, Ariz., a Class C league. . . . You remember Doyle, the son of Mrs. Minnie Johnson of Pampa, where four or five Ollers board and room while they are in town. . . . Doyle was a Harvard football and basket ball star, and when he was graduated from Pampa high school he was among the top five in his class in grades. . . . He is now six feet and three inches tall and weighs more than 175 pounds. He used to play with the Pampa Pioneers several years ago. . . . Congratulations, Doyle, we know that you will make good, but if you don't make the grade in Tucson, we know that you will make it somewhere else. You can't keep down a fellow with your intelligence, strength and determination.

Letter from David Niven to Hollywood friends says he's a major in the tank corps now and boss of a dozen of the mobile fortresses. He has named the tanks Bedy, Ginger, Greta, Lana, Bette, Paulette, Ann, Claudette, Madeleine, Deanna, Rita, and Mae. Mae's the big one. . . . A larger percentage of husky stunt men than of actors have been rejected by the medical examiners of local draft boards. Writers seem to be in the worst condition of all. When friends asked Martin Greene how he fared in the examination, he said, "They took one look and sent me home in a taxi."

FASHION NOTES: Some of the cuties heretofore are layering their fingernails red, white, and blue. . . . Title puzzle: "Lord Epping Sees a Ghost" has been changed to "Mexican Spiffire's Baby." . . . Most appropriate title of the month: "Flying Blind," for a picture about Hollywood's aerial elopements. . . . Best idea of the year: Warner's deal with Columbia Ois Skinner, the amazing actress who single-handedly plays all the roles in dramatic sketches, for a series of two-reel pictures.

People You Know

By Archer Fullingim

Speaking of baseball this column is still full of the subject, and expects to be until Pampa does right by our little Nell who in this case is that youthful, enthusiastic Oiler baseball team which has been playing its heart out all season with applause scattered that you'd think they were listening to Lindbergh! An indignant woman correspondent writes in her nickel's worth as follows: "I'm going to personally take apart the next person I hear booing those boys. . . . Big the crowd has not been big enough to support a sandlot team say about a town that loses its baseball franchise because a town won't support it? They say it's dead. . . . Why everybody in business here ought to attend every game. . . . and if they don't I'm in favor of waiting on them! And that includes you, too! "Whew! Okay, lady, take it easy! THE LOOKING GLASS

GENELEE CLIENTS

By Stella Holt

Joe, hash sling and owner of Joe's Greasy Spoon, liked genteel people. From the day he took over the Greasy Spoon he tried to improve the tone of his clientele. He had the utmost regard for laboring men but he could not see that a man in greasy overalls having five cent coffee and a piece of apple pie was any better than a prettily dressed blonde stenographer also taking her five cent coffee and apple pie.

Joe welcomed ladies as the sign said. He liked to have them around so he was naturally gracious to Rachelle. Rachelle had that je ne sais quoi that distinguishes the European from the possessors of plain American wham. Joe went for Rachelle in a big way and soon knew a lot about her. She and her family were refugees, emigrants, as she preferred to put it, from the storm on the continent. They were more fortunate than others for their money had been placed in America. Rachelle's family lived in a pleasant apartment on Riverside Drive. Many other lonely families lived there, too, far from their homelands.

Rachelle appreciated the atmosphere of Joe's Greasy Spoon and his reasonable prices. She used to meet her emigre friends there and they would take a stall where the fan made it cool and have very good times talking about the old country.

And one fine day Rachelle said to Joe: "We all love your place. It is all we find with the European flavor." Joe, who was as American as a three decker western sandwich on toast, was puzzled.

"You have the feeling for time, you respect it. You do not hurry the client out of the Greasy Spoon. We all miss the coffee shops of Europe. Here it is a little bit like that. We can make the rendezvous, read the paper and write the letters."

But while Rachelle and her genteel friends were reading the newspapers and writing the letters Joe's business fell in ruins. You couldn't let people sit all night for a five cent cup of coffee. You'd have to charge a dollar a cup to make any charge and maybe not then. Joe saw himself the victim of his own liking for genteel people.

Faced with bankruptcy Joe closed the place and there was a sign which said "closed for alterations." The Greasy Spoon reopened on quite a different basis. The "Ladies Invited" card was no longer in the window. Painted on the window were the words "Quick Service." All the tables had been removed and a series of counters installed.

Rachelle and her European friends came back and were bewildered. The European heart resents a counter. It is so vulgar they say, like eating out of a trough. It was a long time before Joe put back the "Ladies Invited" sign in the window.

Mexican Broadcast Scheduled Tonight DALLAS, June 28 (AP)—Mexican Consul Luis Perez Abreu said today that all Mexicans living in the United States are requested by the Mexican government to listen Sunday from 10 to 11 p. m. to a special national hook-up of Mexican radio stations.

The program will be dedicated to Mexicans living abroad, he said.

Some Reach If a man had arms and fingers proportionally as large to his size as those of a bat, he would have a reach of 30 feet from fingertip to fingertip.

Six thousand tons of paper are used to print an edition of London's telephone directory.

TEX'S TOPICS

By Tex DeWesse

NEWSPAPER editors and columnists get some screwy letters, but we have received some kind of a "all-time low" communication in a screwball. . . . This particular letter, written on June 7, is the product of a person who gives us not a whit of credit for having any brain cells at all. . . . The letter, a bold-faced forgery, was authored by one whose memory is not over 30 days long. . . . By that we mean the letter-writer apparently had forgotten another letter he had sent to The News under still another assumed name about May 10. . . . Although the letters are supposed to be from two entirely unrelated (in any manner) sources, they were written by the same person.

For the benefit of this letter writer we wish to inform him now that we have known there is no such person as the signature signed to this letter, that it is against the law to try to pull what he tried to get away with in Uncle Sam's mail, that we are not going to publish anything we must appear to be, and that if it becomes necessary to do so we will expose "Don Dyer" alias "Hap Hanson" for the colossal fake that he really is. . . . And, if he wishes to make something of it, he can find us in our office almost any time during the day. . . . Another thing the "gentleman" should remember the next time he figures on sending out fake letters—is that he made one slip in each of the letters that was equal to his true signature.

WE may be a sucker for a lot of things, but not for the hallucinations of a cracked mind. . . . Bar-num said, "there's a sucker born every minute." . . . We'd like to add to that: . . . There's also a sucker CAUGHT every minute. . . . We'll have more to say about this later. . . . Really, it's a lulu. . . . Particularly, if and when we decide to peg him publicly. . . . If Hitler's propaganda minister ever gets bumped off, this "gentleman" would make a good substitute. . . . Enough of this now, but keep it in mind.

If we are correctly informed, last week or so this week is "Be Kind to Waitress Week," and obviously something should be done about it—we're not quite sure what. The National Restaurant Association hasn't been very explicit. . . . Is the idea to be more polite to waitresses, or to give them bigger tips, or to date them for a dance or a movie, or just to meet them on a friendly level and jolly them along so that they'll like giving fellow three peas of butter and two pieces of pie, or what?

# 1,000 Persons Take Part In Play Program

Just to give a rough idea of the scope of recreational and playground activities in Pampa, despite the inclement weather in June, nearly 1,000 persons a day participated in the summer program.

Day playground programs are conducted at the Baker, Horace Maen, Woodrow Wilson, and Carver (Negro) schools and at the swimming pool. Five nights weekly a playground program for both adults and children is held at Central park.

The summer play program, sponsored by the city, women's clubs, and the Pampa school system, is under supervision of Jim Edwards, Works Progress Administrator representative, who has had years of experience in playground and activity programs.

Sports, dramatics, music, games, and instruction in crafts are enjoyed by both old and young at no cost. The recreation department furnishes leaders to conduct activities at parties and picnics and has movable games which are sent to various parts of the Panhandle to provide entertainment at picnics.

The summer play program gives children something to do during the summer months when they are out of school. It keeps the kids off the streets and alleys and gives them supervised play and instruction in various things which they can do at home.

Some of the activities of the recreation council follow:

- 1—Operates six playgrounds. On all playgrounds, including negro ground, children and adults engage in sports, athletics, dramatics, and music, with special story-telling hour added.
- 2—Has night program. Operates five nights weekly in Central park, featuring all the activities enjoyed on the day playgrounds.
- 3—Craft shop. Has a large adult attendance as well as children, where one may find instruction in woodcraft, basketry, paper mache, puppetry, flower making, plaster casting and sculpturing, metal scroll work, metal casting, metal tapping, construction of all archery equipment, needlecraft, rug making, feathercraft, etc.
- 4—Special events and tournaments are held each week, either at the night program in Central park or in the day time at the municipal swimming pool. Appropriate awards are given winners in all the special events and tournaments.
- 5—Hundreds of Pampa children enjoy free swims each Tuesday and Thursday morning at the municipal swimming pool, where life guards

are on duty and free instruction in swimming is given.

6—A trailer owned by the recreation department and loaded with playground equipment is sent out to various parts of the Panhandle, to provide entertainment for church and school, company, clubs, and various organizations. Wherever their picnics are held, a modern playground is set up by the recreation department.

7—The recreation department furnishes leaders in social recreation to parties, clubs, etc. And have been and will continue to give instruction in social recreation.

8—Pampa's recreation program does not show partiality to any one phase of activity but gives a well-rounded program in all activities, both day and night, for the old and young the year around.

9—The average daily attendance for June, despite the rainy weather, has been 777. The Pampa recreation program is sponsored by City of Pampa, Women's Federated clubs, and city schools. The Pampa Recreation Council is composed of Mayor Fred Thompson, chairman; Mrs. Otis Humphrey, president of Women's Federated clubs, who is executive secretary; the Rev. Robert Boshen, James Massa, L. L. Sone, Tex DeWeese, and Judge C. E. McGrew.

## MANY BOYS

(Continued from Page 1)

The Pampa derby, in order to encourage derby race car builders to improve their designing and construction. At the national finals handsome trophies are given for outstanding designs.

Many derby fans from out-of-town are expected in Pampa for the 1941 races, Mr. Parker said last night.

Top prize for this racing event is 25 cents and any money goes into the Pampa Lions club fund for under-privileged children. So, in addition to seeing the greatest amateur sporting event in the world for boys, race fans get an opportunity to help a good cause.

Tickets now are on sale by all members of the Pampa Lions club and merchants downtown have books of tickets.

There will be plenty of parking space at the derby track which is laid out on a hill in a natural amphitheater where you can drive your car and see every detail of the race without getting out of your automobile.

New and special lighting arrangements have been arranged for this year and the derby race course will be lighted as bright as day, Mr. Parker said.

Race time on both nights, Thursday and Friday nights, July 17 and 18, is 8 o'clock.

Originally, the term "antler" applied only to the first branch of a deer's horn.

The only major sport played in the United States that is wholly American in origin is baseball.

North Carolina produced 600,000,000 pounds of tobacco, largest crop of its history, in 1940.

## MARCELLE WATERS WINS BICYCLE SAFETY CONTEST

Little Marcelle Waters, beautiful 6-year-old daughter of Mr. and Mrs. U. G. Waters, 418 South Cuyler street, won the large trophy given by Montgomery Ward company here in the bicycle safety contest in which 40 boys and girls entered decorated bicycles. The little winner is pictured above receiving the trophy from the Rev. Paul Briggs, one of the judges. Other judges were Harry E. Hoare, left, and Assistant Police

Chief Jeff D. Guthrie. Marcelle carried out the safety theme. She was dressed as a Red Cross nurse. Her bicycle was gayly decorated and in a basket on the front of her bicycle she had a doll in a bed, behind which were two American flags. Twelve prizes were awarded.

Other winners who received prizes of merchandise were Troy Ray, Joe Stringer, Joe Ed Mackey, Gerald Dee Edwards, Kenneth Osborn, Dorothy Riley,

Bryan Edwards, Betty Van Huss, G. K. Reading, D. B. Jameson and Virgil Van Hus. Following the parade the 40 entrants were served cold drinks and presented with theater passes, courtesy of the LaNora theater.

It was Pampa's first bicycle safety contest and M. C. Johnson, store manager, was greatly pleased. He is now making plans for a bigger and better 1941 contest.

## STEEL GIANTS

(Continued from Page 1)

Bessarabia. It already had claimed annihilation of an infantry regiment along the Prut.

Listing them by name, it asserted some German airmen had surrendered voluntarily to the Russians and had written an appeal to others of the Luftwaffe to do likewise.

Some Finnish soldiers also have crossed into Russia and surrendered with the word, "we do not want to fight against the Soviet Union," the information bureau's summary stated.

In general, the picture drawn by the Soviet command last night remained essentially the same—the Russians still standing in the buffer state areas that once were part of Poland, Lithuania and Rumania, with great and bloody battle being waged from northern Lithuania to the Black Sea.

The conflict threatened hourly to break in full fury on the northern, or Finnish, part of the 2,000-mile front through a German drive on the Soviets' Arctic port of Murmansk, through the onslaught of 1,000,000 Russians massed on Finland's border or, more probably, both at the same time.

The Finnish radio announced suspension today of traffic on the Inkoo-Pernio section of the railway from Helsinki to Turku.

That stretch is near the Hanko naval base which Finland lost to Russia in the 1939-40 war. Its closure indicated the possibility of a battle for possession of strategic Hanko.

Behind the entire war front bisecting a continent from White sea to Black—the greatest of all history's battle lines—there stirred, still feebly, an ideological movement which Adolf Hitler hoped to nurture into a "crusade" by western Europe against the citadel of Communism.

Hitler, who invaded Poland Sept. 1, 1939, with his eastern front secured by nonaggression and economic collaboration pacts with Russia, one week ago today capped futile demands for further concessions with a blitzkrieg invasion and immediately set out to mobilize all Europe, Nazi-captured or influenced, for what he called a "holy war."

Yesterday the six Lutheran bishops of Finland asked churchgoers to rally to the "God-given cause" of defense of the Christian faith against "the barbaric enemy."

Last night (Sat.) Pope Pius XII prayed to the tomb of St. Peter on the eve of a radio address in which he was expected to make known to the world his views on the war German is waging against Russia—a war to which Italy already has offered support, in which Rumania has joined Germany and in which Finland and other German-dominated states stand as ready allies.

L'Osservatore Romano, a Vatican City newspaper, said the Pope would "expound his views on the subject of divine providence in human events." Nothing came from official circles, but the Vatican concern over atheistic Communism has been oft-expressed.

On Sunday also, at long last, the German high command has promised that "our big successes in the eastern theater of war will be made known in special announcements."

That was the sum of official statement yesterday on the course of the seven-day-old campaign. DNB, which is an official news agency but does not speak with the official authority of Hitler headquarters, sought to content the German people in the interim with a declaration that the Red army's 97th division had been "broken up and destroyed."

DNB did not say what place the division had held on the 1,000-mile active front—the Baltic to Black sea line—and the world at large got its only detail account of the war from the more prolific communique writers of the Kremlin.

The Russian reports told of a steadfast resistance to German-Rumanian forces from Przemysl south and on the Prut river, dividing line between Bessarabia and Rumania, and of deadly battle covering Russian withdrawal to "prepared positions"—presumably the fortifications of the old Russian

frontier—from the Polish sector fronting Minsk in White Russia.

In the Minsk action, the Red army claimed, a blitzkrieg coalition of planes, tanks and artillery pounded a German Panzer column into disordered rout, in reverse along the path that Napoleon followed in 1812 enroute to Moscow.

An "enemy"—that is German, Rumanian or of German-Rumanian attempt to cross the Prut river into Bessarabia was said to have been shattered with annihilation of an infantry regiment through use of a cavalry division. This illustrated use of one of Russia's trumps, numerical superiority.

South of Minsk, and separated from that battle sector by the labyrinth of the Pinsk marshes, in the Luck-Lowow sector of occupied Poland, a great battle surged to and fro during Friday night and early Saturday.

The outcome of this battle was not known, but the Red army claimed that the German attempt to outflank Lowow was repulsed.

It was in defense of Minsk, 20 miles inside the old Russian border with Poland, and 150 miles from the nearest point of east that the German attack was east their own blitzkrieg—literally lightning war.

In the Minsk direction (area) our troops, by a lightning onslaught of tank units, air force and artillery, and enemy tank units and the headquarters of the 9th tank corps," a Russian communique said.

"In this battle our forces captured trophies, war prisoners and documents relating to operations."

Of the Baltic sector, the Red army reported that the enemy operations "for the extermination of motorized and mechanized enemy units" in the Sialia area. This town is in Lithuania, on the way to Riga, capital of Latvia.

On the western front, British pilots went on with their greatest aerial offensive. They heavily raided a big power plant at Comines, near Lille in industrialized northern France—this to cap an overnight assault which was said in London to have left uncontrollable fires raging in the great German seaport and shipbuilding center of Bremen.

There were indications that the British public wanted even heavier blows struck.

"This chance," wrote a British military correspondent, "may not recur. Tens of thousands of raiders smashing up communications, airfields and factories would bring relief to our Russian allies while doing a vital service to ourselves."

Johnson

(Continued from Page 1)

showing incomplete results in more than four-fifths of the counties. Returns from rural counties, however, showed Gov. W. Lee O'Daniel following closely in second place and left the outcome uncertain. Gerald Mann was in third place, while Dies was running a poor fourth. Johnson and Dies appeared to have carried their own congressional

Governor W. Lee O'Daniel as usual carried Gray county yesterday in the U. S. senatorial election. O'Daniel polled 499 of the 1,258 votes cast, with all the ballots accounted for except the Laketon box.

Gerald Mann was second with 389, Johnson third with 210 and Dies fourth with 148.

The courthouse box gave Mann his biggest majority with 128 votes, second was Johnson with 45. O'Daniel was third with 25. Baker school gave O'Daniel 86 votes and Dies 18, Mann 16 and Johnson 8.

O'Daniel carried the McLean, Odd Fellows, Tex Evans Buick, Horace Mann, Phillips, Alaneer and LeFors boxes.

The total vote was even lower than anticipated. The normal vote in Gray county is between 5,000 and 6,000.

Personal districts, while Mann's strength came largely from northeast Texas.

Returns at 10:15 p. m. from 161 counties out of 254, 14 complete: Bean, 23, Calvin 4, Davis 23, Dies 41,842, Fisher 24, Gilliland 18, Harding 15, Hatfield 10, Head 12, Heath

## RAIN

(Continued from Page 1)

the extent predicted last night, farmers will not be able to get into their fields for days. The rain will also cut the grade of the wheat considerably, it was stated.

An electrical display followed the heavy rain and the weather forecasters for showers and thunder-showers Sunday and Monday.

Hail damaged thousands of acres of wheat in this section of the Panhandle Friday afternoon, according to reports received by hail insurance companies here. The immediate Pampa area was not touched by the devastating hail but wide areas east, south and west of the city were damaged all the way from 20 to 100 per cent.

One section of the hail storm was reported to have stretched from a point three miles north of the Pearlman Gasoline plant, five miles northwest of Pampa, south to the Grandview school area and then east to the canyons southwest of LeFors. The strip was from one to three miles wide and damage was from 20 to 100 per cent.

Another and much heavier hail was reported to have started on the Clark ranch in Roberts county and roared almost due south between Pampa and Laketon through the Farrington community and west around the McFarle community to the breaks. The strip was from four to six miles wide and damage was from 50 to 100 per cent.

The Groom community, which had two previous storms, was also hit Friday afternoon but damage was not reported as great as in other areas. A report was also received here that the area south of White Deer was hit.

Between two and three inches of rain was reported in the Miami area and large trees were washed down usually dry creeks. In U. S. places between Pampa and Miami U. S. Highway 60 was closed to traffic for a short time because of water across the road.

Pampa received a heavy rain, estimated at about a half inch, but at the weather station less than a half mile east of the city the rainfall was only 22 inches.

Cutting of wheat, which had begun in most sections, was delayed at least a day because of the rain.

Some of the best wheat in the section, northeast of Pampa, was completely destroyed, according to County Agent Ralph Thomas. He reported that Joe Rose, north of Laketon, had cut some wheat that made 40 bushels to the acre and that wheat in the Farrington community was running as high as 30 bushels.

The wheat crop in this area cannot be estimated, the county agent said. The yield will be all the way from five bushels to 30 bushels, he said, but the average cannot be even closely estimated.

Some of the wheat making the best yield was believed destroyed by worms and rust. Mr. Thomas said. Local elevators were paying 83 cents yesterday or two cents under the Friday price.

General cutting in this area is expected to start Monday, providing no more rain falls.

11, Hicks 18, Johnson 95,652, King 10, Mann 77,816, Morris 366, Newsome 9, O'Daniel, 82,174, Ryan 11, Schulz 9, Somerville 7, Thompson 30, Waller 1, Welch 4, Williams 4. Republican, Elvins 49. Ind. Jones 16, Communist, Brooks 8.

Returns at 10 p. m. from 197 counties, 25 complete, Dies 53,304, Johnson 117,855, Mann 98,707, O'Daniel 109,681.

DALLAS—Tabulations of the Texas Election Bureau at nine p. m. showed a strong lead for Lyndon B. Johnson in the Texas race for the seat of the late Senator Morris Sheppard. Representative Johnson, whose campaign has the blessing of President Roosevelt, had 34.8 per cent of the total vote. Gov. W. Lee O'Daniel was in second place with 26.4 per cent of the vote. Gerald C. Mann followed closely with 24.8 per cent, while Martin Dies trailed in fourth place with 13.9 per cent. This compilation included returns, mostly incomplete from seventy-four counties.

## Huge Crowd Sees Planes Land Here

By MARJORIE MAXWELL

Pampa air enthusiasts received a real thrill yesterday as the Civilian Pilots Alcade, made up of pilots from four different states, took over in grand style and turned the Pampa airport into a veritable sea of color.

Browning avenue from the city limits to the golf course, Frances avenue, and the vacant lots between Frances and Browning were jammed with cars filled with Pampanos who watched the beautiful ships gracefully land and take off. Thousands walked to the field and inspected the planes and greeted the 64 flying visitors who flew here in the 36 planes.

Big planes, little planes, mid-sized planes—red, yellow, blue, and silver planes—34 of them in the largest air tour ever to visit this part of the Panhandle.

Represented in the tour were planes from Enid, El Reno, Ardmore, Ada, Clinton, Weatherford, and Oklahoma City, Okla.; Arkansas City, Kans.; St. Louis, Mo., and Dallas.

Bert Sponhaltz of Oklahoma City, chairman of the tour in the air, thanked for the entire group for the wonderful reception, and stated that it was the largest and most enthusiastic crowd they had encountered on the trip. The crowd was allowed to inspect the planes and the group consisted of the following makes: Aerona, Cessna, Taylorcraft, Cub Coupes, Culver Cadets, Stinson, Luscombe, Waco, Fairchild, and Eroupee.

The Eroupee, that sleep silver job that created such excitement, belonged to Mr. Kingery, a member of the Pilot's association. There was plenty of hangar flying going on in regard to that Eroupee, for it is supposed to be one of the easiest planes to fly—having no rudder bars. It is all done with a simple twist of the wrist. The only thing necessary is some time in the air.

After leaving Pampa, the Alcade proceeded to Amarillo for a banquet and dance to be held in their honor at the Amarillo hotel. And from Amarillo, today, home to Oklahoma City, to end the 11th annual Oklahoma air tour.

And just for the benefit of the women, there was one aviatrix in the group.

The visiting aviators were welcomed by Mayor Fred Thompson with the response by Mr. Sponhaltz. Several members of the tour made short talks. The program was broadcast over station KPND.

In London, the trucks of street sweepers have special compartments for refuse that can be tied to the tree species in the United States have known medicinal value.

tion with local and state law enforcement agencies. The regular course of instruction which was conducted by the members of today's graduating class included subjects under the following general headings: Scientific and Technical Writing; Firearms Training and First Aid; Investigations, Enforcement and Regulatory Procedure; Tests and Practical Experience; Police Administration and Organization; and Teaching Methods.

The members also received intensive instruction in the investigative problems arising in connection with the National Defense program. Emphasis was placed on espionage and sabotage investigations which they will conduct under the direction of the FBI in keeping with its Peace Officers' Mobilization Plan for National Defense.

The primary purpose of the FBI National Academy is to train selected officers in the latest methods

of crime detection in order that they may return to their respective police organizations and impart the training received at Washington, D. C., to the members of their local departments.

With the completion of the seventeenth session of the FBI National Police Academy, 591 graduates have returned to their communities and have made instruction available to over 90,000 police officers. In addition, foreign representatives have been graduated from the academy representing the Royal Canadian Mounted Police; the Quebec Provincial Police; New Scotland Yard, London, England; the Shanghai Municipal Police, Shanghai, China and one of the members of the class graduating today is a lieutenant in the Philippine Constabulary, Manila, Philippine Islands.

Chief Wilkinson is a native of the state of Texas, having been born at Cisco, Texas, on December 15, 1911. He graduated from the Springlake High School, Springlake, Texas, where he was a member of the football team and he also attended Hardin and Simmons university at Abilene, Texas. Chief Wilkinson entered law enforcement work on June 1, 1938, when he became a member of the Texas State Highway Patrol where he established an enviable record and reputation as a law enforcement officer. On July 1, 1940, he resigned from the State Highway Patrol to accept his present position as chief of police of Pampa, Texas.

Chief Wilkinson entered the seventeenth session of the FBI National Police Academy on April 7, 1941. During the course of instruction at the academy, he has qualified in the use of firearms used in police work and in combat and self-defense methods. In addition he has completed courses in Scientific and Technical Crime Detection, Investigation of espionage and sabotage cases and other courses which have been adapted to better equip him to fulfill his duties as a law enforcement officer and to qualify him to instruct others in the latest methods of criminal investigation and crime detection.

## Pampa Women Asked To Work On Red Cross Garments For Fall Quota

### Just Between Us Girls

By Johanna Davis

Square your shoulders to the world! It's easy to give in. Lift you chin a little higher! You were made to win. Grit your teeth, but smile, don't frown. We must all bear our bit. It's not the load that weighs us down - It's the way we carry it.

With the approach of Independence Day, we are reminded that four times a year Americans feel a surge of emotion known as patriotism. On Lincoln's birthday, Washington's birthday, Memorial day, and Fourth of July. . . . Local youngsters and some adults, too, are beginning the celebration of the Fourth early as usual with a fireworks. . . . By Friday we will be ready for some cotton to put in our ears.

One of the busiest couples we have noticed is Alleith and Bob Curry who have just moved in their new home. . . . All of the rooms are artistically arranged from the kitchen with tiny red roses on the wallpaper to the living room with its beautiful marble fireplace. . . . When Cleora Stanard and Lorene Postma of Coleman called last week, Alleith put them to work helping make fringe for her bedroom drapes. . . . One feature about the house which we particularly like is the door bell. The chimes at the front door ring twice and at the back door, only once.

Business and Professional Women of Pampa have named Mrs. Glen Pool as their delegate to the National Federation of Business and Professional Women's biennial convention at Los Angeles, July 6-11. . . . Mrs. Pool, who was the local club's first president, attended the first international B.P.W. convention at Geneva, Switzerland, in June, 1929. . . . The Past President's club, which includes the 11 former presidents of the organization, are donating a defense bond to the Pampa group. . . . Lillian Melchior made the first mint cups which decorated the tables at the B.P.W. installation banquet.

Frequent visitors are Lorene and Wilmer Postma of Coleman. . . . This friendly pair, who formerly lived in Pampa, stopped here enroute to New Mexico for a vacation. . . . Mr. Postma, who is Boy Scout field executive, finds that scouting is booming in his district and that the lack of leadership is the biggest problem. . . . National defense seems to have some effect on it.

An artistic trio includes Mrs. S. C. Evans, Mrs. Palestine Gething, and Mrs. Jerry Boston, who decorated the table for group. . . . The Friendship class of the First Methodist church last week. . . . Patriotic colors were used on the table.

Living in town, we almost forget what pretty vegetable gardens grow in the country. . . . Last week we went with Mrs. Charles Vaughn to the home of her parents, Mr. and Mrs. R. E. Johnson, south of town, to gather some turnip greens and a fresh "crop" of mosquito bites. . . . The Johnsons have beans, black-eyed peas, carrots, beets, turnip and mustard greens, okra, and numerous other vegetables growing in their garden.

Shirley Ann Jordan, six-year-old daughter of Mr. and Mrs. Rufe Jordan, surely is her Daddy's pal. . . . Shirley, who is always full of pep, has a cowgirl costume and boots which she wears when she rides horseback with her father.

Rainbow Girls are proud of the record which they set last week when selling doughnuts. . . . The girls took orders for the doughnuts during the week and on Saturday delivered 100 dozen doughnuts.

If this season's crop of over 250,000 American brides were to choose traditional wedding gowns of cotton (which require from 10 to 18 yards of fabric), they could reduce the national cotton surplus by nearly four million fabric yards.

### Lunch And Lawn Supper Given For Janice Purviance

Pre-nuptial courtesies honoring Miss Janice Purviance, bride-elect of Frank Albrecht, were given Friday when Mrs. Clinton Henry and Mrs. Clyde Fatheree entertained with a luncheon at the Schneider hotel and Mrs. Gene Fatheree and Miss Lucille Bell were hostesses at a lawn supper.

### Missionary Speaks At Bethany Class Lunch At Church

Bethany class members of the First Baptist church were entertained at a covered dish luncheon at the church Thursday at noon. . . . Miss Blanche Rose Walker, missionary, spoke on "Christianity in China." . . . Members present were Mmes. Louis Davis, Charles Kentling, R. E. Newton, D. W. Slaton, E. Stidman, T. L. Anderson, W. E. James, A. B. Kitchens, Elia Brake, Cora Patterson, J. B. Barrett, W. E. Towe, Frank Johnson, J. W. Crout, Willie Rudisill, C. L. McKinney, H. H. Kayser, W. A. Baxter, J. E. Reeves, and H. C. Willis.

### Mrs. Spence Hostess At Coltexo Sunshine H. D. Club Meeting

"Accessories for the Living Room" was discussed by Mrs. Julia E. Kelley at a meeting of the Coltexo Sunshine Home Demonstration club held Thursday in the home of Mrs. Leo Roy Spence. . . . "Any article, no matter how small, is an improvement to the living room if it is something that is a pleasure to the family," Mrs. Kelley said. . . . During the business session, Mrs. Melvin L. Roberts, club president, was elected to represent the club at the short course to be held at College Station in July. . . . Those present at the meeting were Mrs. J. E. Layman, a visitor, and Mmes. Julia E. Kelley, N. C. Jordan, Kenneth Irwin, Melvin L. Roberts, H. C. Osborn, Otto Pate, Elgan Harrel, and Leo Roy Spence.

### Happy Hour Sewing Club Meets In Home Of Member Recently

ROXANA, June 28—Mrs. J. C. Lewis was hostess to members of Happy Hour Sewing club recently. . . . The afternoon was spent in cutting and piecing a quilt for the hostess. . . . In the business session officers for the next six months were elected as follows: Mrs. Charles Milligan, president; Mrs. L. A. Pinkham, vice-president; and Mrs. D. M. Covey, secretary and treasurer. . . . Club members presented towels to Mrs. J. C. Lewis. The club gift was won by Mrs. Mary Essary, a visitor from Tishomingo, Okla. . . . Plans were made for a picnic to be held soon. . . . A fried chicken luncheon was served to members, Mmes. Pat Mitchell, D. M. Covey, L. A. Pinkham, H. W. Pierce, Paul Thurmond, and Roy Charles Milligan, a visitor, Mrs. Mary Essary. . . . The club will meet July 8 with Mrs. Charles Milligan.

### Style Camera Snaps Socialites At United Hunts' Meet At Piping Rock Club

Perfect picture of mature chic is Mrs. Howard C. Brokaw, left, pictured with her daughter, Edna. Her black silk ensemble includes a simply tailored dress with white piping edging on neckline and the brief jacket. Miss Brokaw wears a checked dress, black jacket with revers to match the dress.

Much has been said and written about the smartness of "mother and daughter" clothes. Now it seems that they have really caught on, as evidenced by the photograph above, taken at the United Hunts races at Piping Rock Club, L. I. Wearing identical dresses of cotton with striped material applied across the front in pinafore effect, are Mrs. Joseph J. Keon, left, and her daughter, Audrey.

Among the smartest spectators at the United Hunts meet was Mrs. John Jacob Astor, above, in a print jacket suit with moderately slim skirt and a full peplum. Her hat, which she carried, was an abbreviated affair of white straw with white veiling.

### Production Rooms To Be Open Five Days Each Week

Beginning tomorrow the Pampa chapter of the Red Cross will have its production rooms open five afternoons a week so that every woman in Pampa and the surrounding territory may find it convenient to do some Red Cross work. . . . The national organization is asking that every woman in the country give at least 18 hours of her time toward completing the fall garments. . . . The local chapter's quota, which is to be completed by Dec. 31, is as follows: Women's sweaters, 64; men's sweaters, 32; children's sweaters, 128; children's knitted suits, 30; men's socks, 60 pairs; women's shawls, 40; hospital bed shirts, 72; layettes, 100; girls' cotton dresses, 192; girls' woolen skirts, 150; girls' woolen dresses, 80; women's cotton dresses, 24; women's woolen dresses, 50; women's woolen skirts, 74; operating gowns, 34; convalescent robes, 30; hospital pajamas, 20; and toddler packs, 40. . . . These toddler packs, which are for youngsters between the ages of nine months and four years, contain one sweater, one pair of mittens, one beanie, one woolen snow suit, two pairs rompers, two undershirts, 10 diapers, and two sleepers. . . . Mrs. J. B. White, secretary of the Pampa chapter, has asked that various groups decide on what they want to make and call for the material at the production rooms in the post office. . . . Knitting instructions will be given from now on each Monday and Wednesday afternoons between 3 and 5 o'clock in the production rooms. On Mondays Mrs. DeLea Vicars will be in charge and on Wednesday, Mrs. V. L. Hobbs. Tuesday and Thursday afternoons from 3 to 5 o'clock, garments will be cut and instructions will be given for sewing them with Mrs. L. L. Davis in charge on Tuesdays and Mrs. Doyle Osborne on Thursdays. Friday afternoons between 3 and 5 o'clock, Mrs. S. G. Surratt will give instructions in crocheting the circular shawls. . . . On any day during the hours that the production rooms are open, dresses, sweaters, and shawls will be distributed by the woman in charge that day but no other instructions will be given except those designated for that day. . . . Dresses and instructions for sewing them are still obtainable at any time from Mrs. Omer Russell, 312 North Gillespie.

### Bridal Showers Given As Courtesy To Mrs. Tidwell

As a post-nuptial courtesy to Mrs. Bill Tidwell, who was Miss Geneva Welton before her recent marriage, Mrs. John Haggard and Mrs. Jim Pierson entertained with a bridal shower at the home of Mrs. Haggard. . . . Betty Plank, Ed Dreiss, Glen Stafford, Joyce Taylor, Betty Jean Myers, Billy Blackstone, Norma Jean McKinney, Nevin Johnston, VaRue

### Breakfast Given At Church By Faithful Workers

Members of Faithful Workers class of First Baptist church met last week at the church for breakfast. . . . Red, white, and blue flowers decorated the tables and the patriotic color note was repeated in the plate favors. . . . The devotional was presented by Mrs. Garnet Reeves. The class attended the morning revival service following the breakfast. . . . Mrs. Rupert Orr's group made arrangements for the entertainment. . . . One special guest was Mrs. T. B. Solomon of New Mexico. Others present were Mmes. G. L. Craddock, Garnet Reeves, Fuller Barnett, V. L. Hobbs, D. H. Coffey, Lige Huffman, Clyde Winchester, Elsie Batson, Rupert Orr, Walter Kirby, E. L. Anderson, Marie Quance, E. A. Ellis, J. C. Vollmert, K. W. Solomon, C. B. Tilstrom, E. M. Keller, H. E. Eaton, Joe R. Foster, Fritz Waechter, Art Tripp of Stamford, A. G. Keith, Thelma Batson, Vesta Mosley, R. W. Tucker, Tom Duvall, C. Gordon Bayless, A. V. Lowery, and Hulie Beard.

### Couple Feted At Surprise Event In New Home

Complimenting Mr. and Mrs. Robert Curry, who have moved into their new home at 1128 Charles street, Mrs. Earl Gobbie, Mrs. Charles Vaughn, Mrs. R. M. Klinger, and Miss Cleora Stanard were hostesses at a surprise housewarming and china shower Friday evening. . . . After the guests inspected the house, gifts were opened by Mrs. Curry. The remainder of the evening was spent informally. . . . Refreshments of cookies and punch were served by the hostess. . . . Attending were Mr. and Mrs. Arthur M. Teed, Mr. and Mrs. Mick Prigmore, Mr. and Mrs. Fred Thompson, Mr. and Mrs. E. E. Shelhamer, Mr. and Mrs. Jeff Bearden, Mr. and Mrs. Postma of Coleman, Mr. and Mrs. Roy Johnson, Mr. and Mrs. Ray Kuhn, Mr. and Mrs. Earl Bobble of Shamrock, Mr. and Mrs. R. M. Klinger, Mrs. Raymond Harrah, Mrs. Charles Vaughn, Miss Louise Smith, Miss Helen Houston, Miss Johnnie Hodge, Miss Dorothy Jo Taylor, Miss Cleora Stanard, and Miss Johnnie Davis. . . . Gifts were sent by Mr. and Mrs. W. G. Gaskins, Mr. and Mrs. James Myers, and Mrs. Alta Stanard.

### Rebekah Lodges To Have Joint Installation

A combined installation of Rebekah lodges in Pampa, Borger, and Amarillo will be conducted at Amarillo on July 10, it was announced at the weekly meeting of the local lodge Thursday night in the I.O.O.F. hall. . . . Those who did not take gifts for the orphans home to this meeting are asked to do so next week. . . . Attending were Ellen Kretzmeier, Gladys Rupp, Hattie Day, Cora Kolb, Kelley Brummett, Edna Braly, Fairs Beard, Etta Crisler, Lois King, Zola Donald, Ruby Wylie, Elsie Cone, Pearl Cordell, Pearl Castka, Mae Forsyth, Dorothy Voyles, Tressie Hall, Arline Neighbors, Sannie Sullivan, and Lilye Noblitt.

### Mrs. Black Hostess At Young Women's Auxiliary Meeting

SKELLYTOWN, June 28—Young Women's Auxiliary of the First Baptist church of Skellytown met in the home of the counselor, Mrs. A. Black, this week for a regular meeting. . . . The meeting opened with a Devotional from the Gospel of John, "Behold the Lamb of God Cometh." . . . In a short business meeting, Willie Lee Freeman was elected president and Marie Stansell, acting secretary. . . . The next meeting will be held in the home of Mrs. A. Black. The program will be from "The Window of Y.W.A."

In the whirl of Fashion . . .

the new V-ETTE Whirlpool Brassiere

\$2.00

"The Stitching Goes Round and Round Moulding Your Bust Every Inch of the Way"

The circular rows of soft-thread stitching mould the bust into youthful accented curves and prevent shrinking of the brassiere so that it retains its shape after repeated washings. A reinforced centre "V" gives the separation indentation so important in today's fashionable figure.

were 25 layettes. Work has started on the new quota and several calls have been made for volunteer workers to knit, cut out garments, and sew.
An excited young woman was Dorothy Burson who left last week with her husband, Dell, for Ottawa, Canada. If he is accepted as an instructor in the Canadian Royal Air Force, Dorothy wants to participate in women's flying activities there as well as in the Beta Sigma Phi Canadian War Effort. Dorothy is a member of the Pampa chapter of the sorority, whose Canadian and American chapters presented a check for \$1,750 to the Red Cross for a completely equipped ambulance to be sent to England.

NOBODY IS INTERESTED IN:

Whether or not I slept last night. A detailed account of my health during the last month. The food fancies of my family. What a trial my husband's family is to me. What I told my maid when she asked for a day off besides her regular Thursday afternoon. My reducing diet. More than one cute remark of any of my children. Snow to Rain. Moisture content of snow varies considerably, but the average requirement is 10 to 12 inches of snow for an inch of water.

Mrs. Fatheree Wins First In Handicap Tourney At Club

Mrs. Clyde Fatheree was first-place winner with a net score of 30 in the handicap tournament conducted by Ladies Golf association at the Country club last week. Mrs. Ernie Voss was the other winner with a 33 net score.

Miss Alline Stanford And Buford Forbes Wed In New Mexico

SHAMROCK, June 28—Mr. and Mrs. Gordon Stanford announce the marriage of their daughter, Alline, to Buford Forbes, son of Mr. and Mrs. Louis Forbes, of Tucumcari, New Mexico. The ceremony was read at 2:30 o'clock Monday afternoon in the parsonage of the Church of Christ at Hollis, Okla., R. L. Roberts, pastor, read the single ring ceremony. The bride wore a blue and eggshell dress with white accessories. Her corsage was of sweetheart roses and baby breath. For her "something old" she wore an heirloom brooch of gold belonging to her grandmother. Miss Geraldine Martin acted as maid of honor and the young couple were attended by Mr. and Mrs. Stanford. Mrs. Forbes attended high school in Shamrock where she was a popular member of the younger set. She was active in church and civic affairs. Mr. Forbes is a graduate of the Tucumcari High school and has made his home in that city for a number of years, where he is associated with the Southern Pacific Railroad. The bride and bridegroom will make their home in Tucumcari.

Episcopal Auxiliary To Meet In Surratt Home On Monday

Woman's Auxiliary of St. Matthew's Episcopal church will have a called meeting tomorrow afternoon at 4 o'clock in the home of Mrs. S. G. Surratt, 610 North West street. The committee on redecorating the rectory will make a report and plans will be made for a reception honoring the Rev. Edgar W. Henshaw and Mrs. Henshaw, who will arrive this week. Rev. Henshaw, who will be the new minister in charge of St. Matthew's, comes to Pampa from Clarendon, where he has been stationed for the past year and a half. He replaces the Rev. R. J. Snell, who recently accepted appointment as rector of St. Mary's parish at Big Spring.

Surprise Shower Given As Courtesy To Mrs. Moyer

A surprise layette shower was given to honor Mrs. Luke Moyer at the home of Mrs. Evia Shewmaker. Hostesses were Mrs. Bill Switzer and Mrs. Bessie Southard. Mrs. Ernie Hooker accompanied Mrs. Moyer to the hostess' home, which was decorated with pink and blue garden flowers. Various games were played and prizes were awarded to Mrs. J. J. Mangis, C. W. Morris, Sam B. Wade, Bessie Southard, Luke Moyer, and Miss Kathryn Mitchell. After refreshments of ice cream and cake were served gifts were then presented in a pink and blue basket to the honoree by Mrs. Compton Pendleton. The guest list included Mrs. J. L. Gates, Earl Cockrell, Sam B. Wade, Earl Maddox, Jack Mullins, Buck Smith, J. J. Mangis, Carl Baer, Bill Switzer, Ernie Hooker, C. W. Morris, A. B. Wade, Franklin W. Baer, Jack McDowd, J. W. Hickey, Bessie Southard, E. C. King, Jr., Norman Clemmons, Compton Pendleton, Evia Shewmaker, and Misses Kathryn Mitchell, Charlene Spencer, Carolyn Sue Baer, Barbara Jean Morris, and Barbara Ann Baer, and Messrs. Perry Dunn and Teddy Ray Gates. Gifts were sent by Mrs. Charles Spencer, J. A. Stephenson, E. E. Morris, W. L. Black, Ed Doughly, Gene Stevens, Books Fleming, J. M. Hittfield, Mae Stubbfield, Harold Baer and Mack Wingett; Misses Dorothy White, Ila Lee Southard, Tommie Jo Pendleton, and Messrs. Clarence Moore, West Hickey, and J. A. Stephenson.

Weekly Meeting Of Lillie Hundley Circle Conducted

Lillie Hundley circle's weekly meeting was conducted in the home of Mrs. C. H. Batt with Mrs. W. H. Dempster leading the Bible study from Genesis. The group joined in singing "Jesus Calls Us" and Mrs. Betty Small led in prayer. Following the business session presided over by Mrs. G. E. McMinn, Mrs. D. M. Scutler led in prayer. Attending were Mrs. A. E. Butler, D. M. Scafe, O. H. Gilstrap, Walton Dempster, A. H. Jones, V. Johnson, C. E. McMinn, C. W. Anglin, H. C. Smith, and two visitors, Mrs. Betty Small and Mrs. Crowley.

Six Groups Of Women's Council To Meet Wednesday

Women's Council of First Christian church will have monthly group meetings on Wednesday afternoon at 2:30 o'clock. Members of group one will meet in the home of Mrs. Walter Nelson, 618 North Somerville street, with Mrs. J. F. Meers as hostess. A meeting of group two will be conducted in the home of Mrs. Ben Capner, 920 North Ward street, while group three's meeting will be held in the home of Mrs. Joe Don Carlos, 209 North Starkweather, at 2 o'clock. A program for group four members will be given in the home of Mrs. Bert Kaiser, 728 West Buckler avenue, and a meeting of group five will be conducted in the home of Mrs. R. B. Allen, 923 Rham street. Group six will meet with Mrs. A. O. Allston, 728 North Yeager street. Aircraft de-icers, developed during the past 10 years and widely used by airlines as protection against formation of ice in flight, are now being installed on military airplanes.

Red Cross Work Discussed By Ladies Aid Group

SKELLYTOWN, June 28—Ladies Aid Society of the Community church of Skellytown met at the church in regular session with Mrs. A. D. Ackerman, president, presiding. The meeting opened with a song, "Blessed Assurance," followed with prayer by Mrs. Frank Genett. In the business session the group discussed doing Red Cross work. It was voted to buy wallpaper to paper the parsonage. Mrs. Frank Genett gave the devotional on "Let Us Return to God." Mrs. Rolla Sparks and Mrs. J. C. Jarvis led in a discussion on the Bible lesson from "Revelation." Mrs. O. L. Statton will give the devotional at the next meeting. The meeting closed with a song, "What A Friend," and a prayer by Mrs. H. C. Boyd. Those present were Mesdames A. D. Ackerman, O. L. Statton, J. C. Jarvis, S. C. Dickey, R. Castleberry, Ray Hawkins, Berry Barnes, Rolla Sparks, Roy Christopher, Frank Fulfer, Frank Genett, Hazle Thurlow, and H. C. Boyd. Halifax is Canada's chief port on the Atlantic seacoast.

War Picture With Laugh To Be Shown At LaNora This Week

Pampa theatergoers will have variety this week as pics to be presented will include drama, comedy, war with a laugh, air stories and westerns.

An added attraction will be the pictures of the Joe Louis-Billy Conn fight to be shown at the LaNora theater Thursday night at the midnight preview and on Friday and Saturday.

For the fourth time in the past two years, four top Hollywood names have gotten together to turn out another important Hollywood production, "One Night in Lisbon," which opens Sunday at the LaNora theatre.

They are the box office team, Madeleine Carroll and Fred MacMurray, producer-director Edward H. Griffith and Virginia Van Upp, famous screen writer.

Griffith arranged with Paramount's London office to supply necessary material for his timely film. This included air raid shelter pictures and diagrams; blackout rules and regulations; methods of handling fires; actual uniforms; posters and signs of all kinds; "all clear" signals and other details necessary to give the audience an authentic feeling of the movie's backgrounds.

The first half of the film takes place in war-torn London; the story then moves to Lisbon—Europe's last free city of wine, women, and song.

Paramount photographers and sound men managed to film and record actual London air-raids, screaming sirens and exploding bombs, and fire fighting. Actors playing fire wardens in the film got some unexpected experience when one of the prop buildings in the studio actually caught fire.

Several of them, volunteer firemen in private life, put out the blaze in record time.

The majority of the all star cast were born under the British flag which may, in part, account for their inspiring performances. Top names include Madeleine Carroll, born in England, where she started her stage and screen career; Patricia Morison, though not born in England, was taken there by her English parents to live as a child.

John Loder, English born and bred, who held the distinction of being the youngest commissioned lieutenant in the British army during the last World War; Reginald Denny, who did his bit for his native country when he served in the Royal Flying Corps back in 1917; and Dame May Whitty, Hollywood's only English titled actress.

Herbert Marshall and Virginia Bruce are starred in Columbia's "Adventure in Washington," new drama which plays Thursday at the LaNora theater, with young Gene Reynolds, new boy star, heading the featured supporting cast.

Directed by Alfred E. Green, "Adventure in Washington" has been praised by Hollywood's preview critics as an exciting screen adventure, as a moving and entertaining motion picture, which brilliantly captures all the breathless tempo and excitement which is the American capital today.

Screwballs of the screen, the Marx Brothers, will be on the screen for the LaNora Midnight preview on Thursday night, and Friday and Saturday, in "The Big Store," one of their funniest pictures.

The realization that Jane Withers has blossomed into an attractive young lady came to the 20th Century-Fox make-up department with startling suddenness during the filming of her latest picture, "A Very Young Lady," to be seen Sunday through Tuesday at the Rex.

Until recently, only five minutes were required to prepare Jane for the movie cameras; a slight touch of lipstick and a quick hairbrushing sufficed. Today, however, Jane has

THIS WEEK IN PAMPA THEATERS

LaNORA

Prevue Saturday night, and Sunday through Wednesday: "One Night in Lisbon," with Fred MacMurray and Madeleine Carroll.

Thursday only: "Adventure in Washington," with Virginia Bruce and Herbert Marshall.

Prevue Thursday night, and Friday and Saturday: "The Big Store," with the Marx Brothers.

REX

Prevue Saturday night, and Sunday through Tuesday: "A Very Young Lady," with Jane Withers.

Wednesday and Thursday: "The Bride Wore Crutches," with Ted North and Lynn Roberts.

Friday and Saturday: "Frontier Vengeance," with Don Barry.

STATE

Sunday and Monday: "Flight Command," with Robert Taylor and Ruth Hussey.

Tuesday only: "One Night in the Tropics," with Abbott and Costello.

Wednesday and Thursday: "Give Us Wings," with the Dead-End Kids.

Friday and Saturday: "Border Legion," with Roy Rogers.

CROWN

Sunday, Monday, and Tuesday: "Bringing Up Baby," with Cary Grant, Katharine Hepburn. Also comedy and news.

Wednesday and Thursday: "Scattergood Baines pulls the Strings," with Guy Kibbee, Carol Hughes, and John Archer.

Friday and Saturday: "Wrangler's Roost."

JANE'S REALLY GROWN UP

Jane's a grown-up girl in "A Very Young Lady," to be shown at the Rex on Sunday, Monday, and Tuesday. She plays with Nancy Kelly and John Sutton. Jane Withers is the Jane in question and in the picture she's at a finishing school only she nearly finishes the school.

ON DIFFERENT SIDES

Katharine Hepburn and Cary Grant are on opposite sides of the bars in the scene from "Bringing Up Baby," to be shown at the Crown theater Sunday, Monday, and Tuesday. The picture is classed as the top Grant-Hepburn picture of all time.

Market Briefs

Table with columns for NEW YORK STOCKS and NEW YORK CUREB, listing various stocks and their prices.

CHICAGO GRAIN

CHICAGO, June 28. (AP)—Heavy selling orders that poured into all commodity markets on the heels of Administrator Leon Henderson's "speculation" warning knocked grain, soybeans and lard prices down sharply here today.

Wheat tumbled 4 cents, corn more than a cent, rye 2 1/2 to 5 cents, soybeans 8 cents a bushel and lard \$1 per hundred pounds. Beans and yard were down as much as trading rules would permit in one session. Even with this sharp setback, however, wheat showed net gains of 1 to almost 2 cents compared with a week ago while soybeans were more than 4 cents higher.

Henderson's warning and his disclosure that "collar" is planned for cottonseed oil well below current quotations dwarfed all other grain market factors. While cottonseed oil is not closely related to the grain trade, it is competitive with lard and soybeans and recent gains in oil have been accompanied by sharp upturns of other fats and oils, with grains and other commodities borrowing strength sympathetically.

Although wheat rallied in late dealings, due to short covering and some buying attributed to mills, the close was 3 1/2-3 3/4 cents lower than yesterday, with July \$1.03 1/2-1.03 and September \$1.04 1/2-1.04. Corn closed 1 1/4-1 1/2 off, July 75 1/2, September 75 1/2-76; oats 9 1/2-10; soybeans 8 1/2-8 3/4; rye 2 1/2-2 3/4 and lard \$1 lower.

FORT WORTH LIVESTOCK

FORT WORTH, June 28. (AP)—U. S. Dept. Agr.—Cattle 400; calves 25. Today's trade nominal. Top mature steers 11.00; top steer yearlings 11.50; top cows 7.75; top bulls 7.75.

Hogs salable 100; steady to ten cents higher, top 10.70; packing sows steady mostly 5.50-5.75. Sheep: salable 100; today's trade nominal. Top spring lambs 16.75; top clipped lambs 8.50; fat ewes 3.40-4.00.

Negro Woman's Trial Scheduled Monday

Fifth week of district court will begin Monday with the case of the State of Texas vs. Bertha Childress, negro woman, charged with murder without malice, scheduled for trial.

No special venire has been called. The negro woman was charged in connection with the knife death of her husband, Eddie Childress, on the night of April 21 at a negro dance here. They were residents of Borger.

Jurors summoned for the week are:

- L. H. Earthman, Alanreed; U. H. Hall, Pampa; W. J. O'Neal, Pampa; W. R. James, Densworth; J. S. Moore, McLean; A. A. Proctor, Pampa; Roy Hall, Pampa; Luther Felty, McLean; Charlie Back, McLean; Geo. Moore, Pampa; E. R. Ware, Laketon; Ernest Dowell, McLean; H. P. Snyder, Pampa; T. A. Boyd, McLean; R. T. Dickinson, McLean; Tom Clayton, Pampa; John R. Davis, Groom; J. B. Horn, Pampa; D. C. Carpenter, McLean; F. H. Bourland, McLean.

John Scott, McLean; John B. Ayers, Pampa; B. P. Addington, Pampa; L. H. Nicholson, McLean; C. W. Fuks, Pampa; Harris King, McLean; G. W. Elms, Alanreed; Warren Finley, Pampa; R. M. Gibson, Alanreed; H. H. Heiskell, Pampa; F. L. Lewis, Groom; T. S. Stanton, Pampa; J. T. Cox, Pampa; C. E. Cooke, McLean; Charles Cousins, McLean; Paul H. Gray, Pampa; C. E. Humphrie, Pampa; R. B. Thompson, Pampa; L. H. Sullins, Pampa; Homer Abbott, McLean.

The South Pole is on a plateau 10,000 feet high, but the North Pole is at sea level.

THEY'RE IN WASHINGTON NOW

A microphone is one way to tell the world and Virginia Bruce does exactly that in Columbia's "Adventure in Washington," at the LaNora theater Thursday. Herbert Marshall, her co-star, is seen as a United States senator; Virginia, as a radio reporter keeping up with the dramatic tempo of history in the making. Young Gene Reynolds, new boy star, is featured.

FIRST LAUGH OF WAR AT LANORA

Fred MacMurray, an American flier who ferries U. S. bombers to the R.A.F., finds love, laughter, and excitement when he meets beautiful Madeleine Carroll in "One Night in Lisbon," Paramount's up-to-the-minute comedy drama which opened last night at the LaNora theater. A bomb siren starts his chase, but this blonde siren sets the pace for a fast-moving, rollicking love affair that starts in a London air-raid shelter and winds up in the mysterious city of Lisbon.

Army May Make Drastic Change In Induction Procedure

WASHINGTON, June 28 (AP)—The army was reported considering today a drastic change in selective service induction procedure whereby the physical and mental fitness of trainees would be ascertained officially long before the men leave for camp.

The new system will be based on experiments underway in Pennsylvania for more than a month. Officials in charge of the selective service program said that this method, possibly with some modifications, undoubtedly would be extended to other states.

At present, except in Pennsylvania, prospective trainees must report to a regular army induction center, ready for immediate induction, before they receive final physical and psychiatric examinations. In many cases men, who had been passed by local selective service physicians, have failed to meet the requirements of the army examinations and have been sent back home as unacceptable.

Since several hundred thousand have been turned down—the principal cause has been bad teeth—this system has aroused widespread criticism and demands for change have gone both to the army and to selective service headquarters. The Pennsylvania experiment was undertaken in an effort to solve the problem.

In that state, since late May, prospective selectees have been given their final examinations as near to their homes as possible. This

enabled the army to examine all selectees 10 to 30 days before they actually had to sever their civilian connections and go into camp. Those who were rejected were thus spared the embarrassment of leaving their jobs, telling their friends goodbye and going away to the army only to return home in three or four days and announce they were turned down.

The Indian tribal name Assiniboine means "stone boiler," from the practice of cooking by dropping hot stones into vessels of water.

Director Lists Instructions For Registering

AUSTIN, June 28 (AP)—Local boards throughout Texas are ready for the selective service registration on July 1. General J. Watt Page, state director, announced today.

To be registered were citizens and aliens who reached their 21st birthday on or before July 1, 1941 and subsequent to October 16, 1940, provided they had not previously registered.

The men were required to register with the local board at their place of residence or wherever they happened to be on July 1 between 7 a. m. and 9 p. m.

The registrant must answer all questions asked by the registrar for notation on the registration card," the announcement said. It added:

"He must give his full name, including middle name, if any, and should have with him papers of identification showing it to be his true name.

"It is particularly important that the registrant describe his place of residence in detail as well as to give full particulars as to the address at which he would most readily receive mail sent to him."

Pointing out that these major requirements applied to registrants who were physically able to present themselves to proper registration places, General Page said that special provisions had been made to register the sick in hospitals, persons confined to asylums, jails and similar institutions and persons sick but not in hospitals.

Lum and Abner's programs, which will be broadcast over KPDN tomorrow at 12:15, and at the same time every Monday, Tuesday, Thursday and Friday thereafter.

Those of you who enjoy good, clean, wholesome radio programs will find one of the best when you tune in KPDN for Lum and Abner tomorrow at 12:15 and at the same time every Monday, Tuesday, Thursday and Friday thereafter.

Plane Dives 661 Miles An Hour

By PAUL H. MASON DAYTON, O., June 28 (AP)—A civilian test pilot's screening a special dive at a record 661 miles an hour in an army ship over Wright Field was viewed today as accentuating the work of military and civil test-fliers and the excellence and performance of America's expanding air force.

The pilot, Bob Fausel of Curtiss-Wright corporation, Buffalo, N. Y., made the dive April 7, 1940, in a ship since vastly improved in type. Complete details were not disclosed but confirmation came from Curtiss-Wright officials in New York.

Fausel's speed—a mile every 5.44 seconds—was 41 miles faster than the accepted, though unofficial, record dive last year by Andy McDonough, who screened a special dive at 620 miles an hour in a Curtiss-Wright P-40, which he ferried from Buffalo for delivery to Wright Field, the air corps' huge testing and experimental laboratory at this cradle-city of aviation.

Others agreed that any squadron able to dive upon an enemy formation, either aerial or ground, at 11 miles a minute would have tremendous advantage even though such lightning descent would subject personnel to considerable physical stress.

Concerning a "great difference" in strains imposed upon a ship in level flight and in a dive, airmen emphasized that Fausel's knifing power-thrust demonstrated Yankee engineering and production excellence to superlative degree.

Others agreed that any squadron able to dive upon an enemy formation, either aerial or ground, at 11 miles a minute would have tremendous advantage even though such lightning descent would subject personnel to considerable physical stress.

The "Crusade for Christ" meeting has been conducted along the lines of a church loyalty campaign in which every member of the church was challenged to manifest his loyalty to Christ and the church. Rev. Bayless said. In announcing the final service of the campaign, Rev. Bayless urged every member to attend the evening service when he will speak on "Eternity's Last Call."

ANSWERS TO CRACKERS

Questions on Editorial Page 1. Chief Justice Hughes, now 79, has been an associate justice of the U. S. Supreme Court (1910-19), governor of New York (1906-10), secretary of the state (1901-05) and Republican presidential candidate in 1916.

2. John Rutledge was an associate justice, 1789-91; was chief justice, 1795-96; Charles Evans Hughes was associate justice, 1910-16; chief justice, 1930-41.

3. John Jay was first chief justice, Chief Justice John Marshall, 1801-35, held that post the longest.

4. Longest Supreme Court term was 34 years. It was served by Chief Justice Marshall and by Associate Justices Story (1811-45), Field (1863-97), and Harlan (1877-1911).

5. William Howard Taft was chief justice before Hughes. Holmes was an associate justice, never chief justice.

SERIAL STORY

CALIBAN FROM CALEB

BY NORMAN KAHL

COPYRIGHT, 1941, NEA SERVICE, INC.

YESTERDAY WITH Castaloni... AUGUS dashes back to the truck... through a large French window... into Castaloni's room.

PEACE—IT'S WONDERFUL

CHAPTER XII

IT IS UNDOUBTED the sight of that frying pan that unnerves Castaloni. He tries to duck as Adoreen swings the pan down on his head, but he is a little too late.

The bullet rips a hole in the rug, and in the next instant Adoreen clips him behind the knees just as Angus shoves his fist into the racketeer's face.

"Oh, my goodness," says Adoreen, with a pardonable touch of pride. "Look what I've done."

Adoreen hesitates a second as if she is going to melt, and then her eyes snap back to normal. "Right now we've got to do something about this. Will that truck run?"

"Sure. I guess so. I'll make it run."

It is hard to understand how Angus gets that truck back as far as he does. Maybe the people who see him along the way just don't believe it. Or maybe they don't want to go fooling around with anything they are sure is supernatural.

Anyway, it is not until after Angus and Adoreen have crossed back into Manhattan that they hear the wail of a siren over the rattle of loose tin. It makes no difference to Angus this time if a policeman wishes to converse with him, since he is headed for Inspector Callahan's office anyway.

What Angus isn't expecting is the gun this copper jerks out of his holster and points at him. He has seen enough guns for one day, and it doesn't make him feel any easier that this one has a blue uniform behind it.

"Don't move! Just don't move!" the officer barks, and Angus can see that this member of the law is young and that this is probably the first time he has pointed a gun at anyone. "Keep your hands up and come out of there—both of you."

Angus is annoyed. "Wait a minute, Officer. You got this all wrong."

"Wrong, am I? I suppose the license number doesn't check with the report we got? I suppose you didn't steal this truck?"

"Well, maybe I did, but—" The patrolman grips his gun tighter. "Okay, that's enough. I gotta warn you that you better keep your mouth shut, 'cause anything you say can be used against you." For the first time the cop looks at Adoreen carefully.

"What's your name?" he asks Adoreen. Adoreen is quivering. "Adoreen Margate," she says, forgetting she has decided to be just plain Adoreen Micklethwaite again.

The cop takes a step back. "I thought so. Come over here, Miss Margate. Put your hands down. You're safe now. You must have had a terrible experience."

He turns to somebody in the crowd. "Call Inspector Callahan. Tell him Officer Krinkel told you to call, and tell him to rush down here because I've got a dangerous kidnaper covered."

ANGUS and Adoreen are still arguing with Officer Krinkel and with two other cops who have come up when an avalanche of police cars come roaring up. In two seconds, the street is jammed with policemen and detectives, and there are more Tommy guns aimed at Angus than the whole A. E. F. had in the Argonne. Angus is relieved to see Inspector Callahan.

"Hello, Inspector," says Angus. "Make these fellows put their guns away. This is all a mistake."

A couple of husky patrolmen grab Callahan because it looks as if he is going to pitch forward in a dead faint. Then he pulls himself together and looks murderously at Angus.

Adoreen walks over to Callahan. "This is all a mistake, Inspector. Angus didn't do anything, except maybe steal that truck." Callahan explodes. "Except steal that truck! Young lady, may I recite to you, as well as my shattered mind will permit, that section of New York state's criminal code which provides—"

"I mean," says Adoreen, "he had to steal that truck. You see, some men were going to kill him, and they took him out in the country. So he had to beat them up a little, and then he had to steal the truck to get back."

Callahan is still skeptical. "So he comes back and kidnaps you?" "No, Angus didn't do that. Mr. Fitzwater did. He's the man who gave me the job at the Purple Pelican. Only his name isn't Fitzwater—it's Castaloni, and he's a crook."

"All right, boys—hide 'em," Callahan orders. The officers put away their guns. "Now, Miss Micklethwaite, I'm beginning to get interested. Maybe this story is on the level. Anyway, we'll try to pick up Castaloni, now that we know who he is, and question him."

Angus leans against the truck. "You won't have to do that, Inspector," he says. "He's right here—in the back of the truck. The three fellows who wanted to kill me are in there, too. They work for Mr. Castaloni."

IN a flash, all the guns are out again, and they are pointed at the truck. Callahan grabs the doors and swings them open, and everybody jumps back. When they see the four squirming men, tied up neat as Christmas presents, they put their guns away.

When the Inspector is finished with the racketeer, he gives some orders and looks around for Angus and Adoreen. He finds them standing in the shadow of a building on the sidewalk. Angus' arm is around Adoreen's slim waist, and they don't seem to be interested in any further technicalities of the law.

"I don't like to interrupt," says Callahan in a kindly sort of gruff voice, "but Spike Mudge is ready to speak his piece, and something tells me Castaloni won't be hard to crack. Spike already told me the brocoli racket is nipped in the bud. I hate to admit it, MacPhillips, but you did a pretty thorough job."

Angus is flustered. "Aw, it ain't much, Inspector. Addie here did most of it."

"Just one more thing," the Inspector interrupts. "I've been thinking, MacPhillips, that if you're gonna be hanging around New York, I'd feel safer if I knew just where you were all the time. Now I can get you a good job. And after you satisfy the residence requirement, maybe you can pass the exams and get on the force. If you're gonna stick around, I'd just as soon have you on our side. How about it?"

"Gosh, Inspector," says Angus. "That sure is nice of you." He turns to Adoreen and reaches out for one of her hands. "Addie, do you suppose you could marry a guy what's gonna be a cop?"

"I guess so, Angus," she murmurs. "I guess if the New York police department can get used to you, so can I."

THE END.

Skilled Workers Needed Now By Civil Service

A Job-Opportunity List is currently published by the U. S. Civil Service Commission at semi-monthly intervals showing the skilled workers needed by government agencies for national defense positions.

This list, which contains concise information about these positions for which qualified applicants have been especially difficult to locate, carries the titles of over 50 different positions, and is eagerly consulted at post offices and local offices of the U. S. Employment Service by machinists, toolmakers, and other skilled workers who want to go to work for Uncle Sam.

The latest issue of this "United States Civil Service Commission Consolidated List"—as it is officially and completely called—shows that shore establishments of the navy, and arsenals, armories, and air depots of the war department need workers for such varied employments as aircraft engine test operators, instrument makers, lens grinders, gage makers, gage checkers, aircraft electricians, parachute mechanics, ordnance men, procurement inspectors, harness-machine operators, iron workers, tool-grinding machine operators, and bombsight mechanics.

Positions are now open at yards and arsenals throughout the United States at such varied locations as Bremerton, Washington; Pensacola, Florida; San Antonio, Texas; Springfield, Massachusetts; and Dayton, Ohio. Over 100 qualified machinists are needed at Watertown Arsenal, Massachusetts; almost 200 lens grinders could be employed immediately at Frankford Arsenal, Pennsylvania; 200 shipfitters are being sought for the yard at Bremerton, Washington; and over 150 aircraft sheet-metal workers are needed at San Antonio, Texas.

appointed, a telegram from the appointing officer telling them when and where to appear for their first day's work in "Democracy's Arsenal."

South Carolina is the only state which does not grant divorces.

"We're a little short on new equipment—you'll have to use some older stuff for a while."

FUNNY BUSINESS

"Fifteen thousand feet of film shot for the hoodup—and when Caesar meets Antony the egg says, 'Boot man!'"

**Olds Will Continue New Car Production**

Stimulated by a new car demand unprecedented in the company's 44-year history, Oldsmobile will aim to continue new car production well into mid-summer months. Present plans anticipate manufacturing schedules extending through July. This was the announcement made in Lansing yesterday by S. E. Skinner, Oldsmobile's general manager, reviewing the company's progress in car production as well as in national defense participation.

"Oldsmobile will endeavor to supply cars to its customers as long as materials and man power are available," said Skinner. "Of course, there will be the seasonal let-up on car production during the summer months, but as this period arrives many of the men will be transferred to defense work," he added. "Several hundred men have already been transferred from car production to other departments in our armament program. In Oldsmobile's hydraulic drive plant we propose to operate during the change-over period in order to keep pace with the demand. Hydra-matic drive continues to grow in popularity and is more in demand today than when first introduced by Oldsmobile. More than 100,000 hydra-matic-equipped Oldsmobiles are now in daily service."

**Defense Halted By 'Failures' and 'Delays,' Says Military Committee**

WASHINGTON, June 28 (AP)—In a sharply critical report on defense progress, the house military committee asserted today that a series of major "failures" and "delays" had led to a present serious lack of strategic materials.

The deficiencies, the committee added in a voluminous report based on weeks of study, were attributable largely to "absence of a responsible head with authority and power," but also to national preoccupation in recent years with "social reform rather than national security."

The report spoke, too, of a need for "vision" on the part of government officials and observed:

"The administration has been too prone when difficult problems arose to easily dispose of them by creating another board, only to add to the confusion of the assortment of agencies we now have."

As for the lack of strategic materials, the report said:

A shortage of aluminum is "critical" because of inadequate power and fabrication facilities.

Rubber is not available in sufficient quantities primarily because of a lack of ships and refusal by some shippers to carry the commodity.

Defense officials disclosed yesterday plans to build new aluminum

plants to turn out 600,000,000 pounds a year, raising the national output to 1,400,000,000 pounds.

In informed quarters today, it was reported that airplane production this summer would lag primarily because of shortage of essential materials. May output was 1,334 planes compared with 1,389 in April.

The house committee's report listed these as short-comings in connection with the defense program:

- "Failure on the part of congress, the administration and the public to initiate a stock pile program at an earlier date.
- "Failure to entrust to a responsible head the full authority to carry out the will of congress in the legislation enacted.
- "Failure of a sense of urgency on the part of officials of purchasing organizations.
- "The delay in establishing conservation methods and the use of substitutes for fear of creating unemployment.
- "Unwarranted delays in building plants and facilities for the conversion of raw materials into finished products."

In connection with the fourth point, the study said:

"We do not wish to single out the automotive industry as an example because we fully realize its vital part in our industrial and civil life, but this industry was too long allowed to consume sorely needed defense materials in this first year of our defense effort."

**NAVY WANTS MACHINISTS**

The U. S. navy has started direct hiring of civil service machinists at the Bethlehem Shipbuilding corp., yards in San Francisco as A.F.L. pickets were withdrawn for the first time since May 12. Here workmen are hanging a sign at the registration office where several workmen are waiting to resume work.

**Correct Tire Inflation Will Save Gasoline**

What has tire inflation to do with increased gasoline consumption? This is an important consideration today with thought turning nationally to ways and means of making the gasoline supply go farthest as an aid in defense planning.

The engineers, according to Charlie Gunn, local Goodyear dealer, have over a period of years made extensive tests and comparisons, finding that a slight reduction in air content of tires increases gasoline consumption.

"On the 6.00-16 size, popular on a large group of cars in current use," said Mr. Gunn, "28 pounds of air is normal pressure, but reduced to 24 pounds, or say roughly, reduced 14 per cent, will increase the car owner's gasoline consumption two-and-one-half per cent. That is, if the highways over which he travels are smooth, but if they're rough, he will get even less miles per gallon."

"That is a good reason for watching tire inflations—seeing that they are up to recommended figures, so that the owner will get the ultimate safe mile possible from each tire," he continued.

"And one more point," concluded Mr. Gunn, "right now is an especially good time to replace worn tires. We are conducting a tire sale from now to July 5, offering real savings on Goodyear tires."

**Service Made Easier On '41 Pontiac Cars**

When changes are made in engineering or design Pontiac engineers always have in mind making it easier to perform the customary periodic servicing that every car needs, says D. U. Bathrick, general sales manager of Pontiac Motor division.

"Two examples of engineering changes in the 1941 Pontiac cars over previous models, which simplify servicing are found in the hood and the instrument panel," Bathrick pointed out.

"The hood on the 1941 models extends down to the fenders thus eliminating the hood side panels. This change obviates the necessity of removing a hood side panel for service on the engine."

"It required from seven to eight minutes to remove each hood side panel on previous models. Although some engine operations can be performed without the removal of the hood side panel, such operations as adjusting valves, working on the fuel pump, oil pump, generator, and starter used to call for removal of the side panels before this work could be performed."

**Louisiana State Golfer Wins Title**

COLUMBIA, O., June 28 (AP)—Earl Stewart of Louisiana State won the National Intercollegiate Golf championship today by defeating Ray Brownell of Stanford 3 and 1 after a thrilling display of par-shattering golf.

The 19-year-old Stewart, who suffered a broken collar bone seven weeks ago and took the cast off

only 11 days ago, was the tournament midget. He won the title by sinking a six-foot putt for a birdie deuce on the 35th hole of the 36-hole final match.

Brownell displayed one of tournament's finest pieces of sportsmanship earlier in the match by refusing to take the 18th hole on a technicality.

Stanford won the team title earlier in the week.

The Ozark mountains rise in Illinois and extend into Missouri and Arkansas.

**Vacation Varieties!**

Here's a 5 Star Vacation Route designed to fill every desire of young or old, child or adult for a Vacation filled with exactly the things you want to do.

**\*HOTEL WASHINGTON**  
Washington, D. C.

**Hampton Moves Into New Garage Location**

Announcement was made Saturday by H. T. Hampton, veteran garage man and automobile dealer in Pampa, that he is moving his business from its old location at 113 N. Frost to the new building just completed on the site of the Old Schneider Hotel garage on S. Frost.

Mr. Hampton also announced change of the firm name from Hampton and Campbell to the H. T. Hampton garage. The new garage will open Tuesday in a new and modern building constructed after fire destroyed the old Schneider garage last March. Mr. Hampton, in the storage, sales and service garage business here for 15 years, said his new business will feature 24-hour service.

**U. S. Fighter Planes Down Axis Ships**

LONDON, June 28 (AP)—New United States-built Tomahawk fighter planes were reported today by the air ministry news service to have fought their first major air battle with Axis planes in North Africa Thursday, shooting down "at least 12" German and Italian planes.

(The Tomahawk is a Curtiss P-40 single-seat monoplane powered by a 1,000-horsepower engine.)

The Tomahawks accompanied United States-built Martin bombers on a raid against Gazala air-drome where six planes were destroyed and other damaged, the news service said.

**World War Deaths**

According to the estimates, the World War cost the lives of 8,000,000 directly, while another 4,000,000 died prematurely from indirect causes of the war.

**A friendly light at the garden gate**

Welcome your guests with a friendly light that shows the way to your door. The light at the gate is more than a gesture of hospitality, too. It's safety insurance, since prowlers prefer to do their work in the dark.

**Floodlights for Gardens--Tennis Courts**

Light up your garden, your tennis or badminton courts, and enjoy them for longer hours than daylight provides. Floodlights are easily installed. We'll be glad to send someone to make a survey and recommendations.
