MUSSOLINI'S SON KILLED IN AIRPLANE CRASH

Forms Mailed To 'S' Men In Gray County

The "S" men get their turn now. Questionnaires to the selectees registered under the selective service act on July 21 were mailed today to the 60 Gray county men who became 21 years old since October 16, 1940, date of the first R-day. Last batch of questionnaires to the original registrants was mailed a month ago.

Those to whom questionnaires were mailed by the Gray County Selective Service Board, with order number, address Pampa, unless otherwise noted:

- S-1289—Ivan Turner, McLean.
- S-1287—James David Back, Jr., McLean.
- S-1314—Harold Leon Haslam.
- S-1340—George Douglas Camp.
- S-1387—A. P. Coombes.
- S-1394—Thomas Edwin Ammons.
- S-1421—Jewell Morgan Walker (mailed June 12).
- S-1448—Zachary De' Armond Blaine.
- S-1477—John Crockett Alexander.
- S-1504—C. B. Simpson, McLean.
- S-1530—Lloyd Gayden Evans, McLean.
- S-1557—Leo Camp.
- S-1584—Meredith Dewitt Wilson.
- S-1610—Harley Wayne Cumble (enlisted in army).
- S-1637—Warren Willis Bowers.
- S-1664—William Earl Andrews.
- S-1692—R. V. Plato.
- S-1719—John Arthur King.
- S-1746—Haywood Strickland Hulender, LeFors.
- S-1773—Billy Eugene Tidwell.
- S-1800—Neal Francis Hollar.
- S-1828—J. W. Armstead.
- S-1854—Roy Vernon Spangler.
- S-1879—Oswald Judson Tibbets, Alameda.
- S-1906—Gerald Richard Elshimer.
- S-1933—Jerald Dean Beaty.
- S-1960—John Wesley Kidwell.
- S-1987—James Weldon Bullard.
- S-2013—Ray Nolan Robertson.
- S-2040—Ola Ernest Myatt.
- S-2067—George William Donald Jones.
- S-2094—Oscar Wendell Love.
- S-2121—LeRoy Ehrlich.
- S-2148—Jimmie Wallace Giddens.
- S-2174—Lewis Graves Jones.
- S-2201—Leo Moore.

See FORMS MAILED, Page 5

Captain Euchner To Visit Pampa Friday

Captain Perry C. Euchner, accompanied by Sgt. Reynolds and Corporal Morris, all of the El Paso Recruiting district, will visit in Pampa Friday in the interest of organizing a Pampa Flying Cadet unit.

Captain Euchner will make a brief talk and present an interesting moving picture in front of the city hall at 3:30 o'clock Friday night.

Picture to be presented will be in technicolor and will show duties and work of the United States Air Corps, both flight and technical.

The Pampa chapter, Veterans of Foreign Wars, is sponsoring the Pampa unit and eight names have already been furnished Sgt. Harvey M. Gist, local recruiting officer, as candidates. Five of them have taken the physical examination but they have not reported the result to Sgt. Gist who would like for them to contact him immediately.

If as many as 20 men enlist in the air corps they will be formed into a Pampa unit and will take all their training together. Labbok has formed three units and Amarillo one.

While in Pampa Captain Euchner will be at the Schneider hotel where he will meet with youths desiring to join the air corps.

Johnny's Plenty Tough

KANSAS CITY, Aug. 7 (AP)—When an automobile tangles with 10-year-old Johnny Snodgrass it just has to look out for itself.

He slipped through the top of his father's car and into the windshield of another when they collided. The windshield was smashed, Johnny's head was only scratched.

Preserve vitamins by freezing. Frozen foods have appetite appeal. Bartlett's Frozen Foods. (Adv.)

MOTORISTS PLEASE CONSERVE

Secretary of the Interior and Oil Coordinator Harold Ickes pastes on his car window the first of stickers soon to be distributed to motorists pleading to use one-third less gasoline in a drive for the conservation of fuel.

Nazis Push Attack Toward Leningrad

Russian troops were reported battling fiercely to stem a two-headed drive on Leningrad today, with Nazi columns striking from the south along the shores of Lake Peipus and German-Finnish forces attacking from the north on the Karelian isthmus, within 75 miles of the city.

Soviet reports indicated that the push from the north had temporarily abated overnight but noted heavy fighting south of the old-time capital of the Czars.

A Reuters (British news agency) dispatch from Moscow declared, however, that the Soviet high command was confident that the Germans will reach neither Kiev nor Leningrad, let alone Moscow itself. German military dispatches pictured the strongest Nazi blows as falling on Russian forces in the Ukraine, and the Germans declared that the remainder of Red army troops surrounded in that grain-rich province were now "facing destruction."

The German high command asserted yesterday that Nazi troops were "at the gateway of Kiev," the capital.

On the African war front, Axis bombers raided the Suez Canal area today, killing 30 and wounding 35.

A Red army bulletin reported that Russian troops had routed one of Adolf Hitler's elite "todon kopie" (death's head) divisions, slitting the field with 2,500 Germans killed and wounded.

The Soviet communiqué quoted an captured German lance corporal as saying that the division, formed of Hitler's blackshirt Schutzstaffel detachments, had orders to deal a "decisive blow" in one of the main sectors of the eastern front.

Under Russian artillery fire, the communiqué related, German "tanks, motorcycles, machine-guns and mine-throwers and mutilated bodies of Fascist soldiers were flung into the air and when the "todon kopie" wavered, Red army men launched a bayonet charge and completed the rout of the Fascist division.

All last night, the Soviet high command said, German troops stormed Red army positions on the Estonia front, driving toward Leningrad in what appeared to be the "new theater" of offensive operations mentioned yesterday by the Nazi high command.

The Russians also reported violent all-night fighting in the sectors of Sniolensk, 230 miles west of Moscow, and Bel Tserkov, 50 miles south of Kiev, the Ukraine capital — the same battle zones which have appeared regularly in Soviet communiques.

In the far East crisis, the British sounded a stiff new warning to See NAZIS PUSH, Page 5

Late News

WASHINGTON, Aug. 7 (AP)—Harold Ickes, defense petroleum administrator, said today four American tanker ships were being turned over to Russia to haul aviation gasoline.

Action, Not Words, Needed From Vichy

WASHINGTON, Aug. 7 (AP)—Secretary of State Hull indicated today that American relations with the Vichy government depended more on French action in defending French territory than on assurances just received from Vichy.

He has received a French note substantially along the lines reported in press dispatches from Vichy, the secretary told his press conference.

Asked whether these new assurances were satisfactory, Hull said he still wished to know more about what was going on in Vichy.

The French note was reported to have expressed Vichy's intentions of defending the empire in its own way.

Hull's remarks led some observers to infer that the note itself failed to satisfy the American government entirely on the question of defense of French Africa and other territory under resistance to Axis demands for military bases and other concessions.

The note, which Hull indicated might be made public later, followed a statement last week by Sumner Welles, then acting secretary of state, in which he declared that American relations with Vichy and authorities in French territories would be governed by the manifest effectiveness with which those authorities endeavor to protect these territories from domination and control by those powers which are seeking to extend their rule by force and conquest or by the threat thereof.

Walkouts Tie Up 2 Shipyard Projects

(By The Associated Press) Big shipyards, working on defense contracts, at Kearny, N. J., and Brooklyn, N. Y., were hit by walkouts today involving both CIO and AFL workers.

The yard at Kearny of the Federal Shipbuilding and Dry Dock company alone was working on \$493,000,000 worth of naval and merchant ship construction. A CIO-called strike there became effective at midnight.

CIO members affected were said by the union to total 22,000. The number of AFL teamsters picketing Brooklyn shipbuilding yards of the Bethlehem Steel company was not made immediately known.

Trouble started at the Bethlehem Brooklyn yards when members of the CIO industrial union of marine and shipbuilding workers declared a holiday in a wage dispute. Chris Matheson, union business agent, said 6,000 members were involved. Details of the disputed wages were not immediately available.

Shortly thereafter it developed that the AFL teamsters also were in a separate dispute with Bethlehem at the same plants, when the teamsters threw up picket lines. An AFL spokesman said the company had refused a union demand for a contract providing a flat pay increase from 72 cents to 81 an hour.

James B. Carey, secretary of the CIO, said the national organization would give "all support and cooperation" to the international officers of the industrial union of marine and shipbuilding workers of America in the strike at Kearny.

He added that he did not know anything about the circumstances involved in the same union's walkout at the Bethlehem Brooklyn yards and would confer with union officials before making any comment on that dispute.

Matheson said the union declared the holiday "to protest the stalling of the negotiations with the union by Bethlehem Steel." He added that "stoppage was 100 per cent effective." Manhattan and Brooklyn offices of Bethlehem Steel declined to discuss the matter.

Matheson said the local had no contract with the company but that the Bethlehem Steel had agreed to negotiate a contract and that the stoppage was ordered because of disagreement over wages.

Also of high importance to the nation's defense program was a dispute involving 38,000 California aircraft workers, referred last night to the national defense mediation board after a two-months stalemate.

Members of the CIO industrial union of marine and shipbuilding workers of America threw a picket line in front of the Federal Shipbuilding and Drydock company at Kearny, N. J., where a cruiser, six destroyers, three tankers and two cargo boats rest on the ways.

The union, which claims 16,000 of the extra 17,000 employees as members, turned back 1,000 night shift men at the gates. There were no disorders. Police armed with riot guns and tear gas bombs stood by but they confined their efforts to observation and traffic duties. The picketers admitted maintenance men and union guards to the plant.

Only last Sunday some 6,000 union members had voted to rescind an earlier strike ballot decision and grant the demands of the national defense mediation board for a working contract. Those recommendations included a modified union shop, vacation adjustments and a 12 per cent wage increase, which the company already had paid retroactively to June 24.

Despite this vote, the local union's executive board decided yesterday to call the strike.

A union spokesman said that before the 12 per cent wage increase was granted, the hourly scale was: first class mechanics, \$1; second class mechanics, 95 cents; third class mechanics, 80 cents; first class handymen, 82 cents; second class handymen, 76 cents; helpers, 65 cents; laborers, 62 cents.

Peter Flynn, vice president of the local union, said the chief point at issue was a "modified union shop, upon which the company insists but which the union seems determined not to grant."

The California aircraft wage dispute involved 38,000 employes of the Lockheed Aircraft corporation, Burbank, Calif., and its subsidiary, Vega. Dale Reid, president of the AFL machinists union, said the company had refused to grant a

Senae Votes For 18-Month Draft Extension Bill

WASHINGTON, Aug. 7 (AP)—With administration forces in command the senate voted today to extend the military draft and conscription laws, to include guardsmen, reserves and enlisted men in uniform 18 months beyond their present active service periods.

After beating off a Republican-sponsored attempt yesterday to amend the bill, the chamber adopted an amendment by Senator Thomas (D-Utah) to pending legislation fixing the maximum service liability of selectees, guardsmen and reservists at 2½ years, instead of the present 1 year. Men who enlisted for three years could be retained 4½ years. The vote was 44 to 28.

Previously, sponsors had proposed that the citizen soldiers and regulars be kept in uniform for an indefinite period.

The Thomas amendment provided that congress could extend the additional 18-month period if it subsequently found it necessary to do so in the interest of national defense.

In debate preceding the vote, Senator Johnson (R-Calif.) asserted that the legislation would "break faith with young men whose lips are sealed."

Opening the seventh day of debate on a measure to lengthen active periods by 18 months, the white haired Californian protested that the army's rank and file had been forbidden to express its opinion about the proposal.

How, he demanded, could the senate disregard a general understanding at the time of enactment of the selective service act that draftees were to serve only 12 months?

British Wait For American Aid In East

(By The Associated Press) LONDON, Aug. 7.—British expects little Thailand to resist any Japanese invasion, and British aid in such event will hinge on the willingness of the United States to cooperate in strong measures, an authoritative source declared today.

The implication was that the United States must be willing to cooperate in more than an economic blockade of Japan if Britain is to give strong backing to Thailand.

That British imperial forces were making ready for any Japanese thrust into Thailand—which might be either or both a threat to Singapore and the Burma Road lifeline of the Chungking Chinese government—was indicated by a Reuters agency dispatch from Singapore.

Quoting the Singapore office of the ministry of information, it said that in British Burma and south China all preparations are being made to smash any Japanese attempt to cut the Burma Road or move further westward.

The British are looking toward a policy of British-American cooperation extending beyond diplomatic and economic measures, applicable not only to the present situation of Thailand but to the entire Far East.

Thailand is in a "position of danger," a British informant said in an authoritative world military review. He added that the nation's army numbers but 50,000 and its equipment is limited but its air force "makes up in quality what is lacks in size."

This source refused flatly to say that Britain would help Thailand, pinning the answer to that question on the United States' attitude.

In Melbourne, the Australian navy minister, William M. Hughes, asserted that it was Japan's to decide whether there was to be peace or war in the Pacific.

The Thailand government declared today that the nation was ready to do business with any nation but contemplated special treatment for none.

The British are loath to estimate Thailand's chance of resistance optimistically. They acknowledge, however, that her little army is specially trained and fitted for fighting in the steaming jungles in that land of the white elephant.

Government To Take Over All Nippon Shipping

TOKYO, Aug. 7 (AP)—Japan's big shipping companies announced acceptance today of a government plan for centralized "wartime control" of the empire's merchant marine.

The plan calls for establishment of a central maritime transportation control association to direct all shipping in wartime.

Already Nippon Yusen Kaisha, Japan's largest ship company, has announced suspension of its services to the United States. (Domei, Japanese news agency, reported that Osaka Shosen Kaisha, second largest, also had suspended its service to the United States.)

Japan wants to maintain friendly relations with Thailand and considers unwarranted yesterday's statements by U. S. Secretary of State Hull and British Foreign Secretary Eden of concern over her intentions, the Japanese board of information said today.

Hull said Japan's intentions toward Thailand were of increasing concern to the United States and Eden warned a Japanese move into Thailand would bring about "a most serious situation between Great Britain and Japan."

The board charged that reports in United States and British newspapers indicating Japan was threatening Thailand tended "to worsen the feeling of the Japanese toward Britain and the United States."

It declared at the same time that press dispatches from the Far East reported British forces in Malaya may occupy Thai bases.

The Japan Times and Advertiser, controlled by the foreign office, said the British were accusing Japan of aggressive intentions toward Thailand to mask their own plans.

"Japan has no designs on Thailand," the paper said. "It is on good terms with that state. By raising the bogey of Japan, Britain really is camouflaging its plan to take aggressive action for strengthening Singapore through advance bases at the expense of Thailand's independence."

Informed sources here indicated today there was little doubt Japan would weigh carefully any further action in southeastern Asia now that so much attention has been focused on that area.

It's better to buy Stars, then see them. Williams-Sill sells them. (Adv.)

SILK SAVER

Proving that cotton hose can be glamorous, what with silk rationing upon-us-for-national defense, are the cotton-clad underpins of Ruth Ford of the movies.

Baffling Malady Takes 60 Lives In North Dakota

FARGO, N. D., Aug. 7 (AP)—A baffling malady, possibly mosquito-borne, has a special medical corps headed by federal doctors working night and day in the northwest in an attempt to stop spread of the disease which has killed some 60 persons in little more than a month.

Doctors call the infection encephalitis. The layman knows it better as sleeping sickness. Just when it comes from, just where it goes, is unknown.

The grave problem confronting medical scientists gathered here under leadership of Dr. James P. Leake, of Washington, medical director of the U. S. public health service.

The outbreak apparently started somewhere in the area a few weeks ago. Since then it has spread, touching many parts of the state and scattered sections of South Dakota and Minnesota. The latest death count is 37 in North Dakota, 19 in Minnesota and three in South Dakota, but the toll already is probably higher than those figures.

Navy Radio Used By FDR On Yacht Trip

WASHINGTON, Aug. 7 (AP)—President Roosevelt, on a yachting vacation off New England, was reported today to be keeping in close touch with international affairs by navy radio.

The report was in a dispatch from the U. S. S. Potomac, which also said that the presidential party's fishing luck was good and that excellent weather was attending the cruise.

The communication made no mention of rumors current in various world capitals for the last two days that it was possible Mr. Roosevelt might meet Prime Minister Winston Churchill of Great Britain somewhere in the North Atlantic.

Mexican Describes Rescue From Desert

YUMA, Ariz., Aug. 7 (AP)—Socorro Cornejo may see thousands of cars in the years to come, but none will give her the same joy as the sight of the truck driven by an itinerant peddler who rescued her after six days of suffering and grief in the hot Sonora desert.

"I saw Francisco Arvallo's truck coming but I didn't believe it," she said, lying in a hospital bed and relating the details of the ordeal.

"I took off my hat and waved it and tried to cry for help."

Arvallo brought the 19-year-old girl and Francisco Flores, 23, here yesterday for treatment. They were the only survivors of a party of nine who were trying to follow a dangerous and abandoned road through the dunes from Santa Anna, Sonora, to Mexicali.

One by one five of her relatives and two companions died after their truck ran out of gasoline 17 miles from the little border town of San Luis and their food and water were consumed.

Her four-year-old niece, Elisa Flores, died in her arms. Next to go was Domingo Rocha, then her brothers, Elias and Rafael Cornejo, followed by her father, German Cornejo, and two men picked up en route, Tomas Ponce and an old man called Yocupico.

Both survivors told of trying to get blood from their wrists to satisfy their thirst.

Veteran Of Three Wars Testing Ship

Il Duce Flies To Pisa Where Bomber Fell

(By The Associated Press) ROME, Aug. 7.—Captain Bruno Mussolini, 23, who added by his father's admittance to "Il Duce dangerously," was killed today in the crash of a long range bomber he was testing as commander of a detachment that was to use the plane.

He died at 10 a. m., near Pisa, and four hours afterward the Rome radio announced his "glorious death at a post of combat."

Bruno was born April 22, 1918, at Milan where his father, as head of the young Fascist movement, was editing the newspaper Il Popolo d'Italia. Bruno was the premier's second son.

Il Duce, himself a pilot, flew at once to Pisa with his chief of air force, General Francisco Pricolo.

Two other flyers—the second pilot and a mechanic—were killed in the crash while the remaining members of the eight-man crew were injured.

"This morning Captain Bruno Mussolini died gloriously near Pisa following an accident in the flight of an experimental plane," said the official announcement.

Thus ended a young life into which action in three wars had been jammed, along with the thrills of trans-Atlantic flight, air and motor racing.

In Ethiopia Bruno Mussolini bombed the armies of Haile Selassie, in Spain he bombed Alicante, Barcelona, Valencia and Cartagena and in the present war he loosed bombs over falling France and later took part in raids against the Greeks and in other Mediterranean operations.

The last included, the Italian radio said, "risky" actions over the central Mediterranean, where Bruno showed "great daring," and scouting flights over Malta; "not long ago he was placed in command of an important detachment" of long range bombers, also serving as a test pilot.

He was one of Italy's greatest boxing fans, being president of the Italian Boxing Federation.

Bruno was married in 1936 to Gina Ruberti. They had one child, Marina, now 17 months old. The death leaves Premier Mussolini with 39 children, Countess Edia Ciano, 30, wife of Foreign Minister Count Galeazzo Ciano; Anna Maria, 11, Vittorio, 24, and Romano, 13.

The Italian radio announcer, breaking the news to the nation, said that Bruno could be "considered as having fallen for his country."

He always had "lived dangerously," the broadcaster said, calling him "one of the most representative members of Fascist youth."

He showed "a high sense of sacrifice as a volunteer fighter in Spain's anti-Bolshevik war," the announcer added. In that conflict, Bruno won medals for valor.

Bruno also piloted planes for Italy in the Ethiopian war in 1935-36 and the current European war. Little had been known of his activities in the present war until the disclosure that he had died as a test pilot.

Then it was told that he had been in action against France on the western front last year, in the Mediterranean theater, and on the Albanian and Greek fronts.

Texas Delegation Agrees To Agree

WASHINGTON, Aug. 7 (AP)—A pledge of cooperation was exchanged by Senator W. Lee O'Daniel and other members of the Texas congressional delegation, it was reported yesterday.

Among those who attended a luncheon at which the pledge was supposed to have been made were two of O'Daniel's opponents in the recent senatorial election, Reps. Lyndon Johnson of Johnson City and Martin Dies of Orange. Both shook hands with the new senator.

Observers, including newspapermen, were not invited to attend the affair.

Today's Rumor Deflator:

EDITORS NOTE: Wild rumors of the type not carried by The Associated Press, flood the world almost daily. From time to time as these rumors are deflated, The Pampa News plans to carry brief items headed "Today's Rumor Deflator."

Billion Dollar Boost In Tax Bill Suggested

WASHINGTON, Aug. 7 (AP)—A billion dollar boost in the house-approved \$3,206,200,000 tax bill was suggested today by Senator Connally (D-Tex.).

He said that the senate should try to write that much in additional taxes in an effort to offset the mounting cost of national defense.

Senate finance committees generally have agreed that their group should so revamp the tax measure as to make up \$328,000,000 in revenue lost when the house voted down a recommendation of its ways and means committee that husbands and

wives be required to file joint returns when both had incomes.

Connally, a member of the finance committee, said in an interview, however, that "the cost of defense had increased considerably since the ways and means committee set out to raise \$3,500,000,000 of extra money."

One widely-discussed method of increasing revenue was a proposal, recommended by President Roosevelt but rejected by the ways and means committee, that the present individual income tax exemptions be reduced from \$2,000 to \$1,500 for married persons and from \$800 to \$750 for single individuals.

On this subject Connally thought a cut in the exemption for married couples might be feasible, but expressed doubt that anything would be gained by reducing single persons' exemption from \$900 to \$750.

The Texan said it might be possible to increase income tax rates "all down the line" to raise additional funds.

The senate finance group continued its closed sessions with treasury and congressional tax experts today, and planned to hear Secretary Morgenthau when open hearings start tomorrow.

Father Leaps Off Bridge With Son, 4

LOUISVILLE, Ky., Aug. 7 (AP)—James M. Hamm, 23-year-old Jeffersonville, Ind., Veneer company employe, leaped 80 feet into the Ohio river from Municipal bridge with his son Barney, 4, in his arms.

Shakily he told coast guardmen who quickly reached him yesterday: "I just wanted to find out if my wife really cared anything about me and my son."

Neither Hamm nor Barney was hurt seriously.

Hamm, arrested by Louisville police, faces a charge of disorderly conduct.

India's Nobel Prize Dies At Calcutta

CALCUTTA, India, Aug. 7 (AP)—Rabindranath Tagore, 80—famed as India's greatest modern poet and winner of the Nobel prize for literature in 1913, died here today after a protracted illness.

Tagore, who was seriously ill last October but made a remarkable recovery, underwent an operation recently for a kidney ailment.

Practically unknown to readers of the western world before he was accorded the Nobel prize, Tagore's writings were translated into many languages in recent years and achieved the rank of best sellers.

A great scholar, educator and social reformer as well as a poet, he had travelled widely throughout Europe and the Americas, lecturing and reciting.

He himself regarded as one of his greatest achievements the unique school he established in 1901 near Calcutta, which grew into a world famous center of culture known as Visva-Bharati (international university).

Nazis Claim Losses Light At Smolensk

BERLIN, Aug. 7 (AP)—German losses were moderate compared with the "extraordinarily high" losses of the Red army in the battle of Smolensk, the high command declared today, reiterating that the fierce struggle in front of Moscow has ended victoriously for Adolf Hitler's armies.

"This was the follow-up report in which the high command yesterday promised to tell point by point how Germany's soldiers pierced the Stalin line and drove a salient deep toward Moscow."

D.N.B., official German news agency, reported what it called the last futile attempt of Russian forces to break out of encirclement east of Smolensk.

A Red army unit, betrayed by the point of its bayonets in a grain-field, it said, was annihilated by a German attack. Two cavalry regiments and 12 tanks were destroyed, the agency said.

Revisla Harvey, Pampa Youth, Now Sergeant Harvey

Announcement has been received here from Lieutenant Lawrence I. Beckedorf, commanding Company "I," 15th Infantry stationed at Ft. Lewis, Wash., that Corporal Revisla J. Harvey of Pampa has been promoted to the rank of sergeant. Young Harvey, who has been in the service for the past two years, is the son of Mrs. Minnie Harvey, American hotel, Pampa. He is a graduate of Pampa High school where he was active in athletic cir-

cles. Later he was a star baseball player with local junior and senior teams. He is an Eagle Scout. Military authorities at Ft. Lewis stated that Sgt. Harvey's promotion was based on his attention to duty and soldierly qualities.

Panhandle Boy Wins Award Of Lone Star

SPECIAL TO THE NEWS
PANHANDLE, Aug. 7.—The Lone Star farmer award was given to L. O. Martin, member of the local F. F. A. chapter, recently. He has done very creditable work for the past three years and was a member of the dairy judging team which placed first at the Texas Tech contest last spring. Thirty other boys in area 1 have been advanced to this degree. A number of boys in the Panhandle chapter are working toward this goal, according to J. P. Smith, advisor and agricultural instructor in the high school.

Pampa Rotarians Hear Police Chief

Work of the national police academy was explained to Pampa Rotarians at their regular weekly luncheon at noon Wednesday by John B. Wilkinson, Pampa chief of police. Another speaker on the program was Harley Sadler, Sweetwater Rotarian, and showman, whose show is current in Pampa. Introduced as a new member was T. O. Johnson. Attendance at the luncheon was 37. Visiting Rotarians were C. H. Everett, Ardmore, Okla., W. A. McIntosh, superintendent of schools, Boyer, Blaine Puckett, Shamrock, Okla., Mitchell, Marshall. Local visitors were Bob Huff, Jay Thompson, and Clifford Braly.

Many Civil Service Exams Announced

The Civil Service Commission today announced the following three examinations for which applications will be rated as soon as practicable after receipt at the Commission's Washington, D. C. office until further notice.

Student Physiotherapy Aide, \$1,420 a year, less a deduction for subsistence and quarters; and **Apprentice Physiotherapy Aide**, \$1,440 a year. Student aides are to be employed at the Army Medical Center, Washington, D. C., and apprentice aides are to be assigned to Army Hospitals throughout the United States and its territories. Apprentices must have completed certain study in physiotherapy. Students must have had an appropriate 4-year course in physical education.

For employment in St. Elizabeths Hospital, Washington, D. C., the Commission has announced examinations for Junior Medical Officer (Rotating Internship) and Junior Medical Officer (Psychiatric Residency); each position paying \$2,000 a year. Applicants for the rotating internship must be fourth-year students in a Class A medical school. For psychiatric resident applicants must have a medical degree and must have completed a year's internship before they may enter on duty. Applications must be on file in the Commission's Washington office not later than November 15, 1941.

The Commission also has announced an examination for Junior Soil Conservationist, \$2,000 a year, in the Soil Conservation Service, Department of Agriculture. Specified college study in agriculture is required for this position. Applications must be filed at the Commission's Washington office not later than December 31, 1941. Announcement also has been made of an examination for Photogrammetric and Topographic Engineering Aides, the salaries ranging from \$1,620 to \$2,800. Applicants must have had certain civil engineering experience including some photogrammetric or topographic work. Education may be substituted for part of the general experience. For these examinations applications will be rated as soon as practicable after receipt until June 30, 1942. Full information as to the requirements for these examinations, and application forms, may be obtained from V. Darnell, Secretary of the Board of U. S. Civil Service Examiners, at the post office or customhouse in this city, or from the Secretary of the Board of U. S. Civil Service Examiners, or any first or second class post office.

British Ready To Defend Burma Road

LONDON, Aug. 7 (AP)—A Reuters dispatch from Singapore today quoted the Singapore office of the ministry of information as declaring that "in Burma and south China all preparations are ready to smash any Japanese attempt to cut the Burma road or move further westward."

This apparently referred to the possibility of a Japanese move into Thailand from bases in Indo-China or an attempt to invade China's southwestern province of Yunnan, through which the Burma road, chief supply line of the Chinese armies runs.

Reuters said that the parallel "hands off Thailand" warnings by Secretary of State Hull and Foreign Secretary Anthony Eden were re-

40-Mile Speed Limit Suggested By Adams

State Police Commissioner Lynn G. Adams today suggested a nationwide 40-mile speed limit fixed by the federal government as the best way to conserve gasoline in America's efforts to save fuel for defense purposes.

In addition to cutting down consumption of fuel, the veteran of 30 years police and highway work added "on top of that, you'd get a by-product in the saving of lives... velocity kills people."

Authorities said that should the warning need to be backed up with action it would be shown that Malaysia and Burma were ready to meet any emergency.

Leaders Expect Early Showdown On Draft Bill

WASHINGTON, Aug. 7 (AP)—Expressing concern lest delays disrupt the army's plans for garrisoning distant outposts, administration leaders worked today for a senate showdown on legislation to extend the rank and file's military service 18 months.

to reach a final vote before sundown. Despite a mild limitation now in effect, the chamber consumed the entire working day yesterday in debate on one amendment. With house leaders waiting impatiently to begin consideration of the measure there, Senator Pepper (D-Fla.) said he feared any further senate delay might postpone final enactment so long that the general staff would be put to needless difficulties in replacing or reconstructing units containing national guardsmen and others scheduled to be mustered out soon under the present limitation of one year.

Gen. George C. Marshall, chief of staff, told the military committee recently that unless congress passed the legislation quickly a national guard anti-aircraft regiment acutely needed in Hawaii would sail for home August 15 to be demobilized. Similar situations prevailed, Marshall said, at other distant bases. Pepper told reporters this was one reason why he was willing, if necessary, to accept an amendment sponsored by a majority of the military committee to limit the proposed extension of service for selectees, guardsmen, reserves and enlisted men to 18 months.

FARM FEDERATION SPEAKERS

J. Walter Hammond, left, and E. R. Alexander, right, will be the principal speakers at the autumn series of district 1 meetings of the Texas Farm Bureau federation, of which Mr. Hammond is president and Mr. Alexander general manager.

One meeting will be held in Lubbock tomorrow, one in Amarillo Monday. Gray is one of the 22 counties comprising district 1, and each county is expected to send at least 25 persons to the meetings.

Mainly About People

Ralph Kenniston, Amarillo, deputy collector of internal revenue, was in Pampa today.

\$5.00 reward for return of small tan dog, lost on LePore highway. Phone 255, Pampa. (Adv.)

Mr. and Mrs. Wayne Hart of Austin are in Pampa visiting Mr. Hart's grandfather, W. S. Wilson.

Wanted: Girl for general housework for couple. Call 353 before 6:30 or 794 after. (Adv.)

Miss Mary Gartner, area 31 supervisor of the department of public welfare, Pampa, was dismissed today from St. Anthony's hospital in Amarillo, where she underwent an operation July 25.

Will Fuller, brush agent, please call Mrs. Stroup, ph. 6667

Regular meeting of the Gray county commissioners will be held Monday.

For rent: 3 room modern furnished house, 124 S. Nelson, rear. (N. of tracks). Phone 10071. (Adv.)

Guests here of Mr. and Mrs. John B. Leland are Mrs. Ethel Jones and daughter Jeanine, of Adair, Okla. Mrs. Jones is a sister of Mrs. Leland and of O. K. Gaylor.

For rent: Two room modern furnished house. Also two room semi-modern house. Bills paid. 535 S. Somerville. (Adv.)

Mrs. Retta Davis of Denver is a guest of Mr. and Mrs. O. K. Gaylor. Mrs. Davis is the mother of Mrs. Gaylor.

Dance to Pinky Powell's new and better orchestra at the Southern Club Saturday night. (Adv.)

Company D, Texas Defense Guard, will assemble at 7 o'clock tonight at 706 W. Foster for the regular semi-weekly drill. Due to the ground being occupied by Sadler's show, the company will hold its drill at a location to be announced when the members gather tonight.

Manufacturers Meet To Discuss Silk Problem

WASHINGTON, Aug. 7 (AP)—Silk manufacturers and representatives of their employees assembled here today hopeful of remedying some of the confusion into which the industry was thrown last week by the government order abruptly freezing all silk stocks.

Yet, in advance of the meeting, a survey of hosiery manufacturers indicated that in two months or less American women would find the retail supply of silk stockings exhausted and would be shopping for other types of hose.

The conference was called, in part, to discuss changeovers in knitting processes which would assure continued glamour for the feminine American ankle, but with fillets other than silk.

Another big problem was to keep down unemployment as a result of the drastic changes made necessary by the freezing order and the consequent dwindling supply of silk. Thirteen mills in eastern Pennsylvania partially suspended operations yesterday.

Engineer Invents Radio Locator

LONDON, Aug. 7 (AP)—A radio locator for finding persons trapped under debris of bombed buildings has been invented by R. C. Moore, Brighton electrical engineer. It is an electrical amplifying device and padded loud speaker three feet tall. The bell of the horn is placed against heaps of ruins absorbing every sound. Tests showed deep breathing, tapping and whistlers were clearly heard.

Arkansas Society To Picnic In Park

Another in the series of club picnics by state societies will be held at Central park at 7 o'clock tomorrow night when the Arkansas club holds an outing.

The Arkansas picnic is a preliminary to the All-States picnic to be held on Labor Day at Central park.

A meeting of the executive committee, consisting of the chairmen of sub-committees, met last night and discussed plans made by the respective committees.

Besides the state organizations, the American Legion, Pampa Min-

Tired Kidneys Often Bring Sleepless Nights

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up nights. Frequent or nearly constant awakenings and burning sometimes show there is something wrong with your kidneys or bladder. Don't neglect this condition and lose valuable, restful sleep.

When disorder of kidney function causes pain, leg pain, loss of pep and energy, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Exes Of Texas Tech Dance At McClellan

A picnic-dance was held by Texas Tech exes last night at Lake McClellan. Thirty-two persons attended. Another meeting of the Top O' Texas Alumni association has been called for Wednesday night, August 13, at the Pythian Lodge hall, located over the State theater.

Attending the outing at the lake last night were Ernestine McCann, Ardmore, Okla.; Ruby Mason of Post; Ray Palmer and June McMurry, both of Clarendon; Gordon Carlisle of Lubbock; Elizabeth Burton, Antlers, Okla.; and the following, all of Pampa:

Kelton Miller, Bill Crawford, Elizabeth Mullinax, Johnny Wells, Helen Hialock, Andy Walker, Mr. and Mrs. Bob Triplehorn, Maxie Fann, J. W. Stover, Betty Shryock, Bill Mathews, Burton Doucette, Mary and Martha Price, Warren Finley, Mr. and Mrs. Robert Mason, Norma Jean McKinney, Harold Haslam, Tom Sweatman, Adalen Brazil, Otto Rice, Jane Kerbow.

Movies Separate Brenda And Bill

HOLLYWOOD, Aug. 7 (AP)—The movies are where boy meets girl, marries her . . . and goes on an endless honeymoon.

William Holden met his girl, Brenda Marshall, and married her.

Three days later, she left for a movie location in Canada. Brenda's coming home tomorrow afternoon, but . . .

Holden's film company leaves tomorrow morning for Carson City, Nev.

Sunshine for Night Fighters

RAF night pilots sleep most of the day, get little natural sunshine. So Lord Nuffield has given sun ray lamps to their stations. Here he is, center, watching the boys soak up those vitamins.

Northern Ireland Next U. S. Base?

Northern Ireland, the section allied to Britain, is on Congressional tongues these days as hints are dropped that it may become a U. S. base. Closeup map shows principal cities of Northern Ireland and many bays (boughs) that would form excellent shelters for naval craft engaged in patrolling convoy routes shown in second map.

NAZIS PUSH

(Continued From Page 1)

Japan, declaring that "all preparations are ready to smash any Japanese attempt to cut the Burma road or move further westward."

The warning apparently referred to a possible Japanese move into Thailand from bases in French Indo-China or an attempt to invade China's southwest province of Yunnan, through which the Burma road feeds supplies to Chinese armies in the north.

An authoritative British war review in London said that Thailand was expected to resist any Japanese encroachment and that British aid to the Thais would be conditioned by the American response to the situation.

The same source declared that while the Germans still held the initiative in the 47-day-old Russian campaign, the Nazi high command was gravely concerned over "the slowness of the advance and the very heavy casualties."

"Halted at Smolensk, facing Moscow," the Germans are turning southeast from Bel Tserkov, in the Ukraine, in a push toward the Caucasus," the British report said.

"There has been no great change in the situation in the last 24 hours."

"It is increasingly clear that on all other fronts the third great German offensive has been held

and that progress in the Ukraine is very slow."

Hitler's high command asserted that German losses were "moderate" compared with the "extraordinarily high" casualties suffered by the Russians—the latter estimated by DNB, the official German news agency, at 3,000,000 killed.

WALKOUT

(Continued from Page 1)

union shop and requested 12 cents an hour blanket wage increases. He said the company had offered to raise the present minimum wage for new employes from 51 to 60 cents an hour.

The national railway mediation board called a meeting of its members for Monday in Washington, presumably to discuss the threatened strike of 1,200,000 railroad workers. The board is expected to intervene in the dispute, in case a strike vote now in progress results in a decision to walk out, and if the carriers and their employes fail to get together. The brotherhoods have asked wage increases which the railroads say aggregate \$900,000,000 a year.

ROOT IMPORTS
Annually, the United States imports 7,000,000 pounds of roots from which rotenone, highly poisonous insecticide harmless to birds and other animals, is derived.

Hay! Cut It!

Not since Henry VIII had the grass in London's Parliament Square gone uncut, but wartime neglect allowed it to grow waist-high. So these men got scythes and started making hay in the shadow of Big Ben.

Stevenson Sees Road Bonds As Only Issue

AUSTIN, Aug. 7 (AP)—Governor Coke R. Stevenson said today he knew of no subjects which should be considered at a special session of the legislature except the road bond financing bill.

At a press conference, he said in answer to questions that the constitution provided the governor might convene the legislature on extraordinary occasions and the only emergency of which he was informed pertained to the county bond situation.

He added that he had been asked to submit and not to submit the Clark bill authorizing the railroad commission to prorate Texas' allowable on a statewide instead of a pool basis.

Stevenson has never said that he would call an extraordinary session but has urged all elements to get things on a compromise which would solve the road bond problem and make a session worthwhile.

Cars Collide And Three Lose Lives

RALLS, Crosby County, Aug. 7 (AP)—Three women were killed in an automobile collision near here yesterday.

Miss Gladys Davis, 33, and Miss Anna Belle Birchfield, 30, nurses at Camp Wolters, riding in one car, and Mrs. Will Kiplinger of Dallas, about 60, riding in the other machine, lost their lives.

Serious injuries were suffered by Mr. and Mrs. Carlton Chappell and their two-year-old daughter, of Dallas. They were taken to a Lubbock hospital. Mrs. Kiplinger was Mrs. Chappell's mother.

The Chappells and Mrs. Kiplinger were en route to Dallas from a California vacation. The two nurses were going to Cone, near Ralls, for a visit.

BAND

(Continued from Page 1)

he was federalized, he directed the Howard Payne band.

Band members, most soldiers think, lead an easy life but Knief denies that.

"Don't we get up before anybody else? And we get some of the less desirable jobs—guard duty, helping clean up kitchens, etc."

The musicians get a lot of kidding because they carry no weapons. They are razed as soldiers without guns.

"Aw, we've got weapons," said one bandsman. "We carry nigger shot-sters."

"Well," chimed in another, "we may not have guns, but boy, we've got lots of girls."

Axis Seen Behind Jap Pressure Bid

By LLOYD LEHRBAS

WASHINGTON, Aug. 7 (AP)—The United States government, it was learned today, believes that Japan's pressure bid for control of Thailand is part of a well-patterned Axis plan to seize control of the oceans and thereby dominate the world.

The latest Japanese moves were described as dovetailing perfectly with Germany's demands on Vichy for military and naval bases in French colonial possessions, particularly at Dakar.

All evidence available, an informed source stated, points to a coordinated drive by Germany to control all strategic bases in the Atlantic, while Japan seizes similar objectives in the Pacific.

"When—and if—Germany and

Japan accomplish that ambitious objective," a ranking official said, "the Axis powers could join forces across the southern oceans and dominate the seas, isolating the Americas for a coordinated attack from the Pacific and the Atlantic."

To win that "stranglehold on the world," it was pointed out, the Germans and Japanese must first seize the British and French strong points that dominate the world's seaways, and officials said that the aggressive plans now in motion have that objective.

Since Japan represents one of the jaws in the gigantic pincers movement, an authoritative source stated, Japanese encroachment in Indo-China and Thailand cannot be considered in the category of isolated aggression, but must be treated as a vital element in the Nazi's grand strategy.

For this reason, it was explained,

the United States has assumed a forceful diplomatic policy designed both to stiffen French resistance to German demands and to warn Japan against further military adventures in the south Pacific before it is too late.

... so I became Buddha's buddy!

In my dream, the glowering Buddha believed that he was weary of inhaling scented incense... and that he, too, was in a mood to enjoy the delightful fragrance of grand-tastin' Grand Prize Beer.

It took me but a jiffy to pour him a sparkling glassful of Grand Prize. He breathed deeply of its inviting aroma, sampled its grand-tastin' goodness, then proclaimed me his life-long buddy.

Well, sir, the next morning I visited the little Buddha on our mantle—the very same figure that loomed so immense in my dream. Right then and there I toasted the covetous Buddha for his good taste in preferring Grand Prize to his accustomed incense.

You see, friends, the deep mellowness and intriguing flavor of this grand-tastin' brand makes you its devotee in a hurry. So why not take this suggestion — send out now for Grand Prize Beer in bottles or Keglined cans. Believe me, you'll be in for a grand time.

GRAND PRIZE IS GRAND-TASTIN'

Alaskan Watch Maneuvers ANCHORAGE, Alaska, Aug. 7 (AP)—Big guns of the Alaska defense command, firing in target practice over Cook inlet, yesterday gave Anchorage residents some idea of what war is like. Practically everybody in town quit work and went to vantage points to watch the maneuvers. The blasts from the guns shook houses and rattled dishes.

NOTICE OF BOARD OF EQUALIZATION MEETING

In obedience to the order of the Board of Equalization, regularly convened and sitting, notice is hereby given that said Board of Equalization will be in session at its regular meeting place in the Court House in the town of Pampa, Gray County, Texas, at 10:00 o'clock A. M., on the 25th day of August, 1941, for the purpose of determining, fixing and equalizing the value of any and all taxable property situated in Gray County, Texas, for taxable purposes for the year 1941, and any and all persons interested or having business with said Board are hereby notified to be present.

CHARLES THUT, County Clerk, Gray County, Texas. Pampa, Texas. 2nd day of August, 1941.

Crippled Gold Sox Take Last Game From Pampa Oilers 9 To 7

Team Moves To Lubbock For Series

Amarillo's crippled Gold Sox played one of their hospitalized teammates last night and beat the Pampa Oilers 9 to 7 in the last game of the season between the two teams in Amarillo. Al Gracey, new Pampa pitcher, went the route for Amarillo and excepting for first and seventh inning on-slaughts got along fairly well.

Tonight the Oilers go to Lubbock where they face the Hubbers who won two out of three from the Big Spring Bombers. The team returns home on the night of August 12 for five games in three days with the Amarillo Gold Sox.

Playing with four pitchers in the lineup last night the Gold Sox staged an all out effort and it paid dividends. They got to Gracey for two runs on four hits in the first inning and then added seven in the seventh when Manager Hale left his new chumper on the mound all the way. The Oilers came back within two runs of tying the score in the last inning but couldn't overcome the lead.

Homer Matney tried to pull the Oilers out with four singles on five trips to the plate. Frank Scott bagged two singles while Emmet Fletchinger tied Gordon Neil in home runs for the season by parking his second in two nights.

Bus Dorman started for Amarillo and had the Oilers eating out of his hands until the final innings when he was weakened and Kid Kridler took over.

With three players in the hospital with mumps and two on the sidelines with injuries, Manager Bubber Jonnard had Pitcher DeCroo in relief field, Pitcher Reynolds in left field, and Pitcher Risinger on third base. It was little Joe DeCroo who beat the Oilers in his sensational catches of fly balls.

The Sox were to have received assistance from an independent team but help failed to arrive in time for last night's game.

Daffy Dodgers Bound Back Into National League Lead

Associated Press Sports Writer

Somewhat always in rocking the boat in the National League, the boys ride along on an even keel for a couple of days and then, just when the fans take a deep breath of satisfaction, the jitters begin to bounce.

Today the Brooklyn Dodgers have bounced back into first place with a six-game winning streak and a margin of three percentage points over the St. Louis Cardinals, while the Pittsburgh Pirates, yesterday nine games out of first place, today are only eight and still spouting fire and fury.

The Cardinals backed out of the scene by losing a 6-1 struggle to the Cincinnati Reds, whose southpaw star, Johnny Vander Meer, limited the Cards to eight hits.

With the score of Cincinnati's conquest posted on the big black board in the Fenwick Grounds, the Dodgers stormed out in front of 52,791 New York fans last night and downed the Giants 3-1.

The Pirates achieved their fifth straight and 17th triumph in 20 games by overwhelming the Chicago Cubs 12-3.

Five-hit hitting by Manny Salvo brought the Boston Braves a 6-0 shutout against the Phillies in another night game.

The New York Yankees divided a doubleheader with the Boston Red Sox, but still managed to increase their big American league lead by a half game through Cleveland's loss to Detroit.

Tex Hughson and Mike Ryba held the Yanks to six hits in the first game, two of them homers by Joe DiMaggio and Joe Gordon, as the Red Soxers smashed to a 6-3 victory. In the nightcap Marvin Brewer held Boston to five hits and DiMaggio doubled two runs across in the sixth inning for the margin of a 3-1 triumph.

The Detroit Tigers scored 11 runs in one tremendous third inning explosion to beat the Indians 11-2.

The St. Louis Browns made use of a five-run fourth inning to take the first game of their doubleheader from the Chicago White Sox 9-6, but Lefty Thornton Lee came back with a six-hit pitching job to give the Sox the second 5-2.

The Washington whippers the Philadelphia Athletics 5-1 in a night game.

After being credited with three decisions over Giants in as many days, Ernie White, young left-hander, returned to box for St. Louis Cardinals after one day's rest to let Braves down with seven hits and make it four victories in five days.

Sports Roundup

BY EDDIE BRITZ
NEW YORK, Aug. 7—(The Special News Service)—Help! Help! Here's a chance for you guys to do a good turn for the defense program. Earl Kelly of the Louisville Courier-Journal proposes football teams for army camps and plants doing defense work to compete against each other. Senator Happy Chandler has agreed to sponsor a trophy if leagues can be organized. They would like to hear some good ideas on how to set up the program... That talk about DiMaggio getting \$80,000 next year gives everybody a laugh. Just the same he's already getting a whole lot more than the \$35,000 he was supposed to have signed for last winter. Joe is no dumb gazabo. He knows when he's well paid. He may ask for a healthy raise, but not in Babe Ruth's class.

The Fort Side of It
Left-handers have been more effective than righthanders in the American Association this year... The only club which has a winning percentage against both pitching styles is Louisville... Leave it up to us Kernels, suh!

Sports Cocktail
Connie Mack has conceded the pennant to the Yankees. He told us much at the world's press last year... He picks his own A's to finish in the first division... Lou Nova, still vacationing in Malibu, thinks he can knock Louis out in less than ten rounds... If you want to get down a good bet on the National Singles Tennis championship, take Riggs, although bridegroom Frankie Kavacs still has plenty of backing... Pete Fox, who hit three doubles in game Tuesday for the Red Sox, had made an extra base blow till last week... Fall River and Pawtucket, the National and Open soccer champions of the United States, are reported planning to withdraw from the American league and help form a new circuit.

Today's Guest Star
Lynn C. Doyle, Philadelphia Evening Bulletin: "Boston wants the Louis-Nova entertainment... Now that Grove has his 300, they want to look at a fellow who can really pitch."
Pitcher Wanted
How's this for an all-star team composed of National league managers... Jimmy Wilson, catcher; Bill Terry, first base; Frankie Frisch, second base; Leo Durocher, shortstop; Bill McKechnie, third base; Bill Skowron, pitcher; Doc Prothro and Casey Stengel, outfielders... They would have to pick up a pitcher somewhere... But if they found a good one it would bust up the team because every fellow would want to keep him for his own club.

Beware of Entanglements
Out in Utah, H. Colbert of the Heating Center ball club got a home run on a ball that should have been a double... Colbert was caught by his pants on the barbed wire fence and Colbert had circled the bases before he could squirm loose.

Only 643 Entered In USGA Amateur

NEW YORK, Aug. 7 (AP)—The 45th Amateur championship of the United States Golf Association, which will be played Aug. 25-30 at the Omaha Field Club, has attracted only 643 entries—a fact which may be significant to the people who hold the mortgages on a lot of golf clubs.

This total is the smallest, with one exception, since 1933. There was a drop in 1937 from the record 1,118 to 819, but the main reason was that the tourney was played at Portland, Ore., and most eastern golfers thought that was too far away. Since 1938, the figures have dwindled steadily.

At the same time, the Public Links tournament, sponsored by the U. S. G. A., has become increasingly popular with a total entry of about 2,000 this year. These figures seem to bear out the trend observed elsewhere, away from the expensive private clubs toward the pay-as-you-play courses. The amateur, with a few exceptions, is restricted to players from U. S. G. A. member clubs.

Fred McGahey To Be Given Trial With Pampa Oilers

Fred McGahey, Pampa, who received his baseball training from "Uncle Billy" Ditch at the University of Texas, today joined the Pampa Oiler ball team in the West Texas-New Mexico league and will be given a trial at second base.

Young McGahey left with the team for Lubbock and may be in the lineup tonight in place of Manager Sam Hale.

McGahey has been playing ball with the Pampa All Stars, independent team, and his play at the shortstop position has been outstanding. Manager Hale, who has been in ill health lately, believes young McGahey is a prospect. He has a good eye at the plate and his fielding has been faultless.

Tonight in Lubbock the Oilers will try to win with Frank Grabek on the mound. Grabek pitched his best game of the season last Saturday night when the Oilers beat the Borger Gassers 4 to 3, scoring four runs in the ninth.

McGahey organized the All Stars but has turned the team over to Bob Bailey and Lloyd Summers, former Oiler stars. The All Stars will play the Pampa Junior Oilers this evening at 5:30 o'clock. On Sunday afternoon the All Stars will play the Phillips 66 team of Borger at Road runner park here. Game time will be 2:30 o'clock.

Rebels And Cats Play 12 Innings To 1-1 Tie Score
(By The Associated Press)
The third-place Dallas Rebels, rounding into a smoothly functioning ball club, and the fifth-place Fort Worth Cats staged a tremendous 12-inning struggle that ended in a 1-1 tie last night.

The Rebels ended the longest home stay of the season after two games had battled in ding-dong fashion before a throng of howling fans in a game that was finally called to permit the Cats to catch a train.

Playing at Tulsa, the Oilers swept a twin bill with the Oklahoma City Indians, taking the first 8-1 and the seven-inning nightcap 7-4.

The San Antonio Missions ended a four-game home series last Saturday 2-0 decision from the Shreveport Sports.

The Houston juggernaut functioned as usual. Ted Wilks turning in his seventeenth win of the season to give the Buffs a 3-0 triumph over Beaumont at Houston.

Two decades ago, only 15 per cent of all wage earners owned an automobile, motorcycle or bicycle. Today, ownership of automobiles among industrial workers runs high, reaching 75 per cent in some industries.

Pampa Boatmen To Compete In Fryer Races

Boats, boats and still more boats are slated to dock at Lake Fryer at Peryton Saturday and Sunday in accordance to word being received here this week, and many believe the annual Lake Fryer celebration will be the site of the Panhandle's largest amateur racing classics of the future.

The course on Lake Fryer is perfect for all types of boats from power sloop to hydroplanes. Earl McConnell, popular racing starter of Pampa, said this week, "and the amateur pilots appreciate Peryton's sponsorship of amateur events."

The Peryton Chamber of Commerce is sponsoring all program races Sunday.

Heretofore, McConnell continued, "the lakes have thrown races open to professionals and amateurs alike, thereby working a hardship on the amateur drivers. After all, there are 50 amateur drivers to one pro in the Panhandle and the boys feel that Peryton has established a precedent in recognizing the simon pure boys."

Amateurs invited for the Lake Fryer meet not counting some 10 drivers at Canadian who have been contacted personally and have assured local officials they would attend include:

Lubbock Boating club; J. J. Armstrong, Clovis; Bob Foster, Canyon; Hugh Tull, Bob Green, Hugh Etter, Jim Norma, George Taylor and W. L. Pearson, Plainview; Wade Spillars, Tulsa; Walter Pyle, Hobbs, Pyle, Walter Pyle, Jr., D. Hollingsworth, Melvin Parker, Bob Connelly, Claude Ruby, Borger.

H. H. Annell, Jim Bynum, Ray Pinkney, Dale Smith, Howard Saunders, Zed Doshier, Jim Golding, W. W. Woodley, Phil Reppert, Trent Davis, Dave Britain, Peck Vermillion, Dewey Ashcroft, Virgil Beavers, Jess Proctor, Lewis Blackwell, Joe Clements, Tex Thornton, Tom Eldredge, W. T. Mosley, Joe Nelson Mosley, Walter Irvin, Jess Rogers, Russell Hatcher, Snow Jenson, Carter Matthews, Tom Wingate, Clyde Bray, Dr. John Barr, Waymon Ramsey, Bill Lampe, Pat Veazy, and George Lurch, Amarillo.

Joe Gordon, Earl McConnell, L. O. Horn, Bert Howell, Adrien Owens, E. C. Kipatrick, Paul Hughes, Frank Huskins, Jack Lyons, Roy Branscum, Alva Phillips, Artie Shaw, Pete Colgrove, Clifford Bray, Pampa; Albe Jones, Paducah.

Many other own boats throughout the region and they are urged to enter any race they desire with no entry fee being required, Mr. McConnell said.

GROWTH OF U. S.
In 1910, the third United States census showed a population of 77,239,891, an increase of 36.4 per cent over the 1880 census figure.

MOTORBOATS
There are more than 300,000 registered motorboats in the United States, and it is estimated there may be 200,000 unregistered boats and outboard motors in use.

ETIQUET
In parts of Denmark, it is bad form to pour milk over oatmeal. A pat Collins of Broadmoor, one up. Don Repplogle, Stanford golf squad member from Oklahoma City, ripped Hime Clark of Denver out of the running, 6 and 5.

Second round pairings include: Walker vs. Price; Collins vs. John Oliver, Amarillo, Tex.; Benson vs. Francis Fleming, Evansville, Ind.;

Don Looney Hopes To Break Record

HERSHEY, Pa., Aug. 7 (AP)—Don Looney, one of the best forward pass nappers in the business, is going to try and break his own National pro league record this year—but it's secondary to the Pittsburgh Steelers winning the division championship.

The soft-spoken, lanky son of a Texas Christian university, who established a record of 58 catches for 707 yards with the Philadelphia Eagles last year, asserted today "I'll be tryin' for a new mark," but added:

"The thing I want most of all is to win that championship. It sure would be nice to get into those playoffs next December."

Next December, incidentally, Looney said he plans to marry Miss Cordothy Hall, a Texas Christian co-ed. Don, who graduated in 1940, is now working on a master's degree in business.

Two things may keep the 23-year-old end from breaking the mark he set as a freshman in the big time.

First, little Davey O'Brien, another illustrious football son of Texas Christian, will no longer be in the throwing end of the passes. O'Brien left the Eagles at the end of last season to join the Federal Bureau of Investigation.

The second is best put by Co-coach Walt Kiesling:

"We're going to concentrate on a running attack this year. If we find a good passer, naturally we're going to use him, but we're not going to sacrifice the rest of the attack for a passer."

Charley Coe Bows Out At Broadmoor

COLORADO SPRINGS, Colo., Aug. 7 (AP)—Charley Coe parked his young frame on a bench by the first tee today while his two co-medalists in the Broadmoor Invitational Golf tournament drove off toward the left again.

Coe, Oklahoma high school golf champion from Ardmore, went one down to defeat at the hands of Dan Walker of Denver yesterday. L. B. (Bud) Maytag, Colorado Springs, and John Kraft, Denver, who shared the medal at par 70 with him, came in with comfortable victories.

Maytag ousted Don Brown of Denver on the 14th hole, 6 and 4. The washing machine spin paired off with Thomas Green of Fairfax, Okla., today.

Kraft, a school teacher, slammed Harry Misselline of Tulsa, Okla., into the championship flight consolidation rounds with a 3 and 2 win, to meet young Harvey Cowan of Beaumont, Tex., today.

Also into the consolation bracket went 1939 Invitational champ Eddie Stokes of Denver; Coach Charlie Hyatt of the Bartlesville, Okla., Phillips Oilers, former All-American basketball player, and Frank English, veteran Denver linksman.

Stokes bowed to H. F. Benson, Colorado Springs, 1 and 2, mainly because of an unruly putter. Hyatt lost to Will Price, Jr., of Wichita, Kas., 3 and 2, and English went out before the steady swinging of a Pat Collins of Broadmoor, one up.

Don Repplogle, Stanford golf squad member from Oklahoma City, ripped Hime Clark of Denver out of the running, 6 and 5.

Second round pairings include: Walker vs. Price; Collins vs. John Oliver, Amarillo, Tex.; Benson vs. Francis Fleming, Evansville, Ind.;

Bill Gallon Wins Hambletonian Race

GOSHEN, N. Y., Aug. 7 (AP)—Three years ago R. J. Johnston, wealthy Charles H. N. Cotton textile manufacturer, set in the stands at Good Time park and thrilled to the sight of Melvin Hanover winning the classic Hambletonian. He decided he would like to see his silks coming down there in front and quickly changed his thoughts into action.

A year later he stepped into the sales ring at Lawrence Sheppard's Hanover, Pa., Show farms and bid in Ashley Hanover for \$1,800. He promptly changed the name of the son of Sandy Flash to Bill Gallon, the name of a close friend and former business partner from New York.

His next step was to turn the colt over to Lee Smith, 47-year-old, weatherbeaten, 145-pound trainer from Tadeville. Al Smith had been in and out of the grand circuit for years but he had done most of his racing in smaller southern and midwestern leagues.

Yesterday the combination of horse-trainer and owner achieved what many others have tried to do for years—they won the Hambletonian, as 25,000 fans cheered themselves hoarse. With Smith giving Bill a perfect drive the Johnston-owned colt came back from defeat in the first heat to win the final two miles and the purse of \$20,365.95.

ARCHAEOLOGICAL FIND
The site of Nevada's state prison is an excavation from a hill in the form of a bowl. The fossil of a large elephant was uncovered during excavations, and further search brought other discoveries of prehistoric animals.

Market Briefs

NEW YORK, Aug. 7 (AP)—Stocks tried to crawl out of the red house today, but average the market had been unchanged or lower since July 28—but many leaders were unsteady.

Intervals of activity were succeeded by exceptionally slack periods and transfers for the five hours approximated 100,000 shares.

Among stocks reaching new 1941 highs were American Woolen common and preferred which again reflected a little demand based on the company's six-monthly run-up in net and expectations sizeable dividend accruals on the senior issue might be paid.

Occasional advances were noted for Santa Fe, Goodrich, Goodyear, J. I. Case, International Harvester, Sears Roebuck, Fajardo Sugar, Du Pont, J. C. Penney and Westinghouse.

In difficulties most of the day were U. S. Steel, Bethlehem, General Motors, Chrysler, American Telephone, Great Northern, Southern Railway, American Smelting, Douglas Aircraft, Texas Corp., and United Aircraft.

Bonds were uneven. Commodities were irregularly higher. Wheat at which was unchanged to up 1/2 cent a bushel and corn at 1/8 cent a bushel in late trading, was down 1/8 cent.

Chicago Wheat: High 1.12 1/2, Low 1.12, Close 1.12 1/4. Sept. 1.13 1/4, Dec. 1.13, May 1.13 1/4. Chicago Grain: Corn closed about a cent below yesterday's high but 1/4 cent higher than yesterday's high.

Chicago Produce: Butter, receipts 1,140,441; easier; creamery 89 score 22; 90 centinals, carlots 34 1/2; other prices unchanged.

Kansas City Livestock: Aug. 7 (AP)—U. S. Dept. Agr.—Hogs 1,500; slow, uneven; steady 10-10 higher; beef steers 34 1/2; average; mostly advance on heavies; top 11.10; good and choice 10-24 lbs 10.85-11.00.

Fort Worth Livestock: Aug. 7 (AP)—U. S. Dept. Agr.—Cattle 1,700; calves 700; most classes cattle fully steady, cows stronger, calves and stockers slow, about steady.

Oklahoma City Livestock: Aug. 7 (AP)—U. S. Dept. Agr.—Cattle 1,800; calves 600; killing classes slow, steady; two loads medium caked grass steers 9.00-50; choice fed yearling steers held above 11.00; cows slow, little done.

Today's War Analysis

By Dewitt Mackenzie

Well, one can only say about Nazidom's claim of victory and wholesale destruction of Russian troops that the ghost of the Red Army continues to rattle its chains in a remarkably lively manner.

On the face of the sweeping German announcement made yesterday the Muscovite position would seem to be catastrophic, what with an estimated 4,000,000 men killed and captured, and the vital center of the Red line opposite Moscow laid wide open.

Yet not only do the Bolsheviks deny these claims but their defense has in fact been functioning in amazing fashion up to the present—and what's the answer to that?

One paradoxical aspect of the position lies in the fact that while the invaders assert the powerful Smolensk gateway to the capital has been smashed, they apparently have made no move to exploit the achievement.

Taking it all in all, the Nazis have rather laid themselves open to the query of whether Herr Hitler really has got hold of a sound bit of fruit or is holding a dead sea apple which looks beautiful but turns to ashes cause they are on the offensive.

Soon we shall know whether there is, as the invaders claim, a hole in the line opposite Moscow. If the Nazis exploit the position, there is a hole; if they don't exploit it, then we shall know that we have to deal with fiction.

Whether the Russians are about to do a strategic withdrawal or not, a vital factor is whether they have plenty of fresh, well-trained and well equipped reserves ready for the second line defenses, and for the all important counter-attacks.

Early Fort Worth Car Dealer Dies: FORT WORTH, Aug. 7 (AP)—Hubb Diggs, 58, former Fort Worth automobile dealer for 17 years and an advocate of better roads, died early today after a long illness.

One of the city's first automobile dealers, Mr. Diggs handled Ford motor cars from 1915 to 1932. During that period he was credited by the company with selling more cars than any of its dealers in the southwest.

He was a booster for better roads in Tarrant county and West Texas. As an advocate of improved highways conditions, he and several others bore the cost of a bond election in 1917 for widening bridges and development of county roads.

Since Jan. 1, 1939, Pacific Coast aircraft payrolls have risen more than 600 per cent.

Thailand Expected To Resist Japanese: LONDON, Aug. 7 (AP)—Thailand is expected to resist any attempt by Japan to invade her and British aid, military or material, will be conditioned by the American response to the situation.

Ten RAF Planes Fail To Return From Raid: LONDON, Aug. 7 (AP)—The RAF reported today successful raids on industrial centers of western Germany and shipping off the coast of Holland but admitted that from its wide-ranging operations yesterday and last night 10 planes are missing.

It was indicated that the assault was renewed on northern France today.

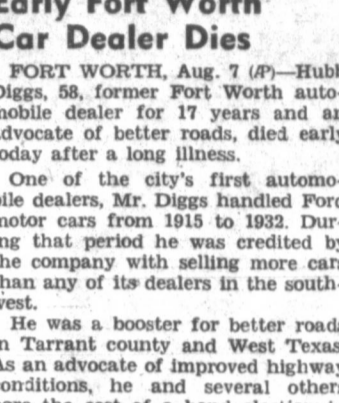

Again the night attacks were centered on Frankfurt, Mannheim and Karlsruhe in a continuation of the methodical pounding of German targets, and the communiqué reported "huge fires were started and a considerable weight of bombs was dropped on each city." These raids, however, cost eight planes.

The air ministry said that Blenheim bombers "searching for enemy shipping in daylight yesterday" attacked a destroyer-protected convoy off the Dutch coast and "after the attack one ship was seen to be down by the stern with smoke pouring from it."

The British said six German planes had been destroyed in the last 24 hours.

The United States has approximately 2,300 landing fields of all kinds.

Executive Board Of B-PW Outlines Fall Activities

Outlining the health program for the ensuing year, Ursula McCarty, health chairman of the Business and Professional Women's club, pointed out at an executive board meeting Tuesday evening in the private dining room of the White Way Drive Inn that the project will be the care of underprivileged children.

To assist her with the project, Miss McCarty appointed Blanch Drescher, as vice chairman, Virginia Parton, and Frances Craver as the committee for the year.

Rosemary Wasson, membership chairman, presented new names to be voted on by the entire club. Publicity chairman, Lillian McNutt, named Gypsy Malloy and Jessye Stroup on the publicity committee.

A letter was read from Dora Davis, district one chairman, stating that the district conference will be held in Pampa on October 11 and 12 and a meeting of all presidents in the district will be held to complete arrangements. Lillian Jordan, attendance and arrangement chairman for the conference, announced that the Schneider hotel will be the headquarters for the two-day session.

National Business and Professional Women's week will be observed October 5-11 with "Strengthened

Democracy for Defense" as the theme of the week.

Grace Pool was named chairman of the hobby show to be held next month. All interested in entering collections are asked to call or write Mrs. Pool.

A donation of 15 dollars was made for the United Service Organizations.

On the fourth Tuesday in September the club will have its annual membership roundup with the social committee, Mayme Counselor, chairman, Laura Belle Cornelius, Effie Atchison, and Mildred Lafferty, in charge. The meeting of the club will be held on the fourth Tuesday of August at the home of Vera Lard where a picnic lunch will be served.

Present were Mayme Counselor, Letha Northrup, Blanch Anderson, Audrey Fowler, Vera Lard, Lillian Jordan, Ursula McCarty, Lillian McNutt, Madeline Murray, Rosemary Wasson, Katha Timm, Ruba McConnell, Lillian McWright, and Mildred Overall.

Two Council Groups Have Breakfast At Church Wednesday

Members of group three of Women's Council of First Christian church met Wednesday morning at 9 o'clock at the church as guests of group one for a breakfast after which each group met in a class room for regular program and business.

The lesson on "The Missionary of China," was given by Mrs. De Lea Vicars and Mrs. D. V. Burton. The devotional on "Christianity and Democracy as Liberty" was presented by Mrs. N. A. Purdy.

Thirteen members and one visitor, Mrs. Tom Eckerd, were present.

"Social Flop" Of 20 Needs Five-Year Plan To Follow

By RUTH MILLETT

Instead of deciding "I'm a social flop," the girl of twenty who realizes she hasn't what it takes to shine in a crowd of her own age should make up her mind to be a success at twenty-five.

That gives her five years in which to develop the traits and qualities that will make her an interesting, attractive young woman—even though she wasn't a howling success as a girl.

In five years an intelligent girl who puts her mind to it can turn herself into just about the kind of mature adult she wants to be.

If she hasn't beauty, she can learn in five years how to be chic. If she hasn't the pretty, soft type of femininity that gets labeled sex appeal, she can make the most of the assets she has and make them count in her friendships.

A young woman can have as many friends of both sexes as she wants, whether she is beautiful or not, if she has the warm kind of personality that makes others instinctively trust her, has a pleasant and ready laugh, has the poise that comes from a healthy self-respect, knows how to be kind in little ways and makes the most of what looks she does have.

FORMULA FOR FUTURE SUCCESS

So these are the things the girl of twenty who looks on herself as a social flop should start thinking about. If she can get into her mind a concrete idea of what she wants to be like in another five years—and forgets about not being what she wants to be right now—she can succeed.

It will encourage her if she will look around at some of the attractive young women of 25 and 30 who are just doing dandy—and think about what they were like five years ago.

She'll find a reassuring number of women weren't nearly as attractive as girls as they are as young women.

Watermelon Feast Honors Private Earl Caldwell

Honoring Private Earl Caldwell of Fort Sill, Oklahoma, a watermelon feast was held at Lake McClellan this week.

Boat riding entertained the group during the evening.

Attending were Edythe Shearer, Kelson Miller, Leon Holloway, Annabelle Holloway, Burt Graham, Charles Darling, Alma Mae Darling, Janet McMillen, Blanch McMillen, Margaret Brummett, Helen Dudley, Ernest Miller, Lillian Snow, and the guest of honor.

Private Caldwell spent the week-end in Pampa visiting with friends.

The Social Calendar

FRIDAY
Vienna club will meet at 8 o'clock in the home of Mrs. Sam Williams at Phillips plant.

Order of Rainbow for Girls will have a picnic at Lake McClellan. The girls, their parents, and other guests will leave Masonic hall at 6:30 o'clock.

Wayside Home Demonstration club will meet in the home of Mrs. Wood Osborne.

LaRosa sorority will have a "howdy" dance at 9 o'clock in the Schneider hotel.

A monthly meeting of Pampa Garden club will be held at 9:15 o'clock in the city club rooms.

A regular meeting of Wayside Home Demonstration club will be held.

MONDAY
Pythian Sisters Pampa temple number 41 will meet at 7:30 o'clock.

McClough Memorial Women's Society of Christian Service will meet.

All circles of Woman's Missionary society of First Baptist church will meet at 2:30 o'clock.

Central Baptist Women's Missionary society will meet in circles at 2:30 o'clock.

All circles of Calvary Baptist Women's Missionary society will meet.

A monthly meeting of Pampa Garden club will have a demonstration on canning in the home of Mrs. N. B. Cude with Mrs. Julia E. Kelley in charge.

TUESDAY
Miss Mary Price will be hostess to B. G. K. club at 7:30 o'clock.

Veterans of Foreign Wars auxiliary will meet at 7:30 o'clock in the Legion hall.

Nazarene Women's Missionary society will meet at 2 o'clock.

Ladies Bible class of Francis Avenue Church of Christ will meet at 2:30 o'clock in the church.

A weekly meeting of B. G. K. club will be held at 7:30 o'clock.

Amazons Women's Missionary society will meet at 2 o'clock in the mission.

A regular meeting of Ester club will be held.

LOW WAISTLINE

A slimming new frock which rates high in fashion newness. The longer top with skirt attached at a low waistline in a new silhouette which you will see again and again in fall fashions. Our version has a simple front buttoning, open neckline top tapered with darts to fit closely through the natural waistline. The skirt features front and back fullness. Start your sewing for the new season with this popular style.

Pattern No. 8999 is in sizes 12 to 20. Size 14 dress, open neckline, 4 1/2 yards 39-inch material. For a collar (separately sketched) allow 1/3 yard contrast fabric.

Class President Hostess To Reaper Members Wednesday

Reapers class of Central Baptist church met in the home of Mrs. Frank Elliott Wednesday afternoon for a monthly social and business meeting.

The entertainment rooms were decorated with summer flowers.

Roll call was answered with a scripture verse on guidance and Mrs. J. L. Barnard gave the devotional.

A nominating committee, including Mrs. Albert Taylor, Mrs. Hugh Peoples, and Mrs. Earl Griffin, was appointed. Plans were made for the coming year and Mrs. Elliott, president, expressed thanks to all for their cooperation during the past year. Mrs. C. A. Jones asked the class to serve at the Workers Conference next Tuesday at the church.

Florence Wagner entertained the group with accordion and piano selections. A Bible quiz conducted by Mrs. C. A. Jones during the past year. Mrs. C. A. Jones asked the class to serve at the Workers Conference next Tuesday at the church.

Hints on How to Win

Your last line may be about Oxydol or Camay, or both, or neither.

A trial of Oxydol and Camay, as these soaps are improved today may suggest many last lines. That is one reason for the contest—to induce you to try these better soaps.

In your washer, Oxydol's the soap that gets clothes snowy white with maximum speed.

In tub, washer or dishpan, gives up to 3 times the suds of many soaps, cup for cup, and is kinder to hands than a whole group of well-known washday soaps, tested repeatedly. Amazingly "sneeze-proof," too—with no loss of sudsing speed, washing performance or mildness.

Today's Camay—with its greater mildness—is an important help to every woman who wants her skin to be lovely.

For Camay is milder by actual recorded test—in tests against ten other popular beauty soaps, Camay was milder than any of them. So let this milder Camay help you to a lovelier skin.

Get the handy entry blank from your dealer or use a plain sheet of paper.

Winners will be announced on the Radio "Guiding Light" and "Woman in White" programs. See your local newspaper for time and stations.

Look for this display!

SAFE OXYDOL WASHES CLOTHES WHITE
Mild Camay helps keep your skin right.
Don't take it from me. Use both and you'll see.

Write out your last line and send it together with 1 Camay wrapper and 1 Oxydol box-top, any size, (or facsimiles), to Camay-Oxydol, Dept. 2, Box 25, Cincinnati, Ohio. Print your name, address.

Gray County Will Be Represented At Farm Bureau Meeting

Gray is one of the 22 counties comprising district 1 of the Texas Farm Bureau federation that will be represented at the autumn series of district meetings, one to be held at Lubbock tomorrow, the other at Amarillo Monday.

W. M. Deck, Ochiltree county wheat farmer and director of the Texas Farm Bureau federation from this district, will be in charge of the Amarillo meeting, beginning at 10:00 a. m., Herring hotel.

This meeting was previously scheduled for Friday, August 15, but the date has been changed, according to Director Deck.

Farmers of this area may well thank the Farm Bureau organization for the great increase in price of wheat above last year, Deck states. "Eighty-five per cent parity loans as a floor for the wheat market have not been provided without the wholehearted support of farm bureau members in 41 states and the leadership of Edward A. O'Neal, president of the American Farm Bureau federation, J. Walter Hammond, president of the Texas Farm Bureau, and other state leaders testifying before congressional committees. Congress was made to realize that farmers deserve full parity prices."

Deck further advises that the world supply of wheat is sufficient for more than two years, and that the world price is now near 40 cents per bushel. "Without marketing quotas and the wheat loan serving as a floor for

the wheat market, we would be receiving only 40 cents per bushel," Deck declared. "A word of warning to the wheat farmers, however, is that this loan applies to 1941 crops only. We must band together in our Farm Bureau organizations throughout the nation to hold this loan for 1942 crops and for consecutive years."

Speakers on the program will include J. Walter Hammond, E. R. Alexander, general manager of the Texas organization, and farm men and women from the various counties. All in attendance will have a part in the discussion, according to Deck's plans.

The Farm Bureau meeting held in Amarillo last March 12 was attended by more than 200 farmers and farm leaders. Deck expects a larger attendance at the Monday conference.

District 1 is composed of the following counties: Armstrong, Carson, Childress, Collingsworth, Dallam, Deaf Smith, Donley, Gray, Hall, Hansford, Hartley, Hemphill, Hutchinson, Lipscomb, Moore, Ochiltree, Oldham, Potter, Randall, Roberts, Sherman, and Wheeler.

Each of the above counties is expected to be represented by more than 25 representatives.

WASHINGTON GROWS

Eleventh largest city in the United States is Washington, D. C., with a population of 663,163 in the 1940 census. The 1930 figure for the city was 486,869.

VALUABLE LAND

The Pen district is probably England's most valuable agricultural land. Areas suitable for market gardening there produce as much as \$500 an acre.

Advices Russians

Foremost British authority on German tactics, Lieut.-Gen. Frank Mason-MacFarlane, above, has arrived in Moscow with British military and economic mission to help Russia plot battle against invasion.

U. S. Closely Watches Far East Situation

WASHINGTON, Aug. 7 (AP)—The United States gave the closest attention today to the intensifying Thailand crisis, which informed officials termed a Japanese pressure play fraught with potential dangers for American interests and possessions in the south Pacific.

Waiting in developments, the state department maintained official silence as to what policy the United States would pursue if Japan should force Thailand to yield to its demands and become a part of Japanese-dominated "greater East Asia co-prosperity sphere."

Whatever action Britain takes, these sources predicted, will receive full support from the United States. The United States is not prepared to sit idly by and watch Japan absorb Thailand—the last small independent nation remaining in south Asia.

The surrender of Indo-China military bases "to a power whose territorial ambitions are apparent," Welles declared, presents a situation "which has a direct bearing upon the problem of American security."

Flight Instructors Have Headaches Too

A flying cadet at Randolph Field, Texas, was slated for special "skull drill" this week after giving flight instruction officers of Class 41-H some bad moments during recent navigation flights to nearby Texas cities.

Major H. L. Mace, commander of flight operations, was directing the plane movements by radio when the cadet broadcast that his fuel tanks were empty.

Amazed that a student airplane could have been sent out without adequate gasoline supply, Major Mace radioed the cadet to re-check, and was told the tanks were "practically empty."

Adopting a fatherly tone to keep the cadet from becoming confused, Major Mace said, "look around and see if you can find a good field to land in."

The cadet did not reply, and Major Mace radioed back for a position report. The Pen district is probably England's most valuable agricultural land. Areas suitable for market gardening there produce as much as \$500 an acre.

AP War Correspondent Resigns To Write Book

NEW YORK, Aug. 7 (AP)—Robert St. John, who returned to the United States recently after nearly two years as a war correspondent for the Associated Press in the Balkans, has resigned to devote his efforts to radio work, lecturing, and writing a book on his experiences abroad.

In a letter to Kent Cooper, general manager of the Associated Press, St. John expressed regret at leaving the service because, he said, "I am and always have been and always will be loyal to the (A.P.). He added: "However, with my own country on the verge of war, I feel I have a duty. There are certain useful functions I can perform on the basis of what I have been through. I feel almost in a crusading spirit in my desire to talk about the realities of the situation."

Only at Wards!

stunning wool suit-dresses 4.98

WE SIMPLY CANNOT DUPLICATE THEM NOW AT DOLLARS MORE

We don't like to rush you, but if you want one of these priceless little suits, come as fast as you can! No one else has them and we can't get any more. Separate skirt and jacket in wonderfully soft Shetland-type wool. (75% new wool, 25% reprocessed wool.) Add a blouse in the Fall and you have a suit that really looks "executive." Later it's a snug two-piece dress to wear under coats. Classic tailored types or soft dressmakers in timber green, soldier blue, cinnamon and burgundy wine. Sizes range from 12 to 18.

THE PAMPA NEWS

Published every evening, except Saturday, and Sunday morning by the Pampa News, 252 West Foster Avenue, Pampa, Texas.

MEMBER OF THE ASSOCIATED PRESS (Full-Featured wire). The Associated Press is exclusively entitled to the use for publication of all news dispatches...

Entered as second class matter March 19, 1927, at the post-office at Pampa, Texas, under the act of March 3, 1879.

BY CARRIER in Pampa, 28¢ per week, \$9.00 per month. Paid in advance. \$2.50 per three months, \$6.00 per six months.

An Independent Democratic newspaper, publishing the news fairly and impartially at all times and supporting in its editorial columns the principles which it believes to be right and opposing those which it believes to be wrong.

PLEDGE OF ALLEGIANCE—"I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one nation indivisible, with liberty and justice for all"

Deeds, Not Words

Mass merchandising has said, time and again, that it considers one of its paramount duties today to do all in its power to preserve the standard of living of the American people—and that it will fight profiteering and speculation, and hold prices for all manner of commodities to the lowest possible level.

In this, the consumer can always be of great service. It should be thoroughly understood that there is no justification whatsoever for what might be termed "price hysteria."

In the meantime, the stores which sell us our food and clothes and furniture and other commodities are demonstrating anew the quality and the character of the American retail industry in all fields.

Wonder Horse Leads Field

Few of us realize to how great an extent the arms program depends upon adequate transportation.

The factories that are making the materials and munitions of war are located in all sections of the country. Much of the goods is produced by subcontractors—by shops that make small parts which must be shipped hundreds or thousands of miles to the points where they are assembled.

Great bulk of this transportation load is borne by the railroads—the other carriers are simply valuable adjuncts of rail service.

They have speeded up trains. They have bought and are buying new cars by the hundreds of thousands. They have bought new and more powerful locomotives.

The Nation's Press

THE FOUNDATION FIRST (The Wall Street Journal)

The situation described in Mr. Duffield's dispatch from Washington, published in yesterday's issue of this newspaper, is summarized in his opening sentence: "The defense agencies wish President Roosevelt would reorganize them."

To "reorganize" anything is merely to make a new "organization" more suited to the particular end in view, than that which previously existed. It is a question whether the word "organize" would not have been more exact in the present case.

Men organize for some purpose. A purpose implies a general plan for common action. That requires a master blueprint expressing the general plan. Our present purpose is "national defense."

For instance: Defense means the construction of "ramparts." Where should our ramparts be placed and what kind of ramparts should they be? To answer that question—which is essentially one in time and space—the plan must be based upon as careful an estimate and appraisal of the enemy's plan as can be made.

Common Ground

This column contends there can be no satisfactory progress until we measure the share of each man by the common yardstick of the God-given right to create and enjoy anything anyone else has a right to create and enjoy.

AN EXPERT ON ECONOMY EXPLAINS (Continued)

What Are the Facts and Where Are We Heading?

"First: Government officials are reluctant to recommend or discuss specific reductions. When Mr. Eccles, chairman of the board of governors of the Federal Reserve Board, testified here last week, he was unusually well informed regarding various methods of raising money through taxation, but he seemed unable to furnish any information regarding the amount of unnecessary non-defense expenses existing or any methods of reducing them.

"I regret that the intelligence which so ably furnished information on the many methods of raising money was not able to present one specific recommendation for reducing unnecessary expenses, although Mr. Morgenthau, another official, had previously stated (Page 13, Report No. 1 of the Ways and Means Committee Hearings): 'If the matter were very carefully examined, we believe it is possible to reduce the total (non-defense expenditures) by \$1,000,000,000.'"

"Second: Unnecessary and unjustifiable non-defense expenditures are increasing. In December, 1940, there were 285,731 young men in CCC. A month later there were 298,159 (Page 7, Employment and Payrolls, January, 1941). Think of it, gentlemen, while drafting men in the army and seeking volunteers for the navy, we are actually increasing the CCC enrollment of men of draft age. (CCC has been budgeted at \$265,000,000 for 1942.) As each enrollee costs the Government about \$1,000 per year, this would represent an increased cost of \$12,500,000 per year for the 12,428 men enrolled in January, over the total enrollment as of December 31. Why is it so difficult for our Government experts to recognize that this expense can, and should be, reduced?"

"Third: I have estimated that between one and two billion dollars of non-defense items can be eliminated from the budget, details of which will be given later.

"Gentlemen, I am not an economist, banker, mathematician, tax expert, nor student of the law, but I believe that common ordinary horse sense will enable anyone to see that you can't pay off \$110,000,000,000 as long as these conditions continue (except, of course, through the currency devaluation type of inflation which has been so disastrous to European countries during the past 20 years). If we are to avoid this catastrophe, a different type of thinking must be developed among Government officials. They must be just as deeply interested in reducing expenses and in pruning waste as they are in raising increased revenue.

(To Be Continued)

place of our ramparts.

Presumably there is somewhere in Washington such an estimate of the enemy's plan and such a plan of our own to meet it. But we have not been told of either, or even that either exists. It is only a beginning. There must be a number of secondary blueprints each of a part of a master print and each part related to every other and to the whole. Even that is only a beginning for blueprints by themselves accomplish nothing.

It is here that organization must come in. The essence of good organization is such a correlation of activities in the various departments of activity as will result in smooth working of the whole machine. This requires direction, direction at the top spreading out like a system of human bodily nerves through every part of the body, all governed from the brain. It is the conspicuous lack of such a nerve system in the defense job that is the burden of Mr. Duffield's report. That this lack should be a matter of complaint by the very men who are engaged on the various parts of the job is the best evidence of its existence.

It is hardly surprising that many people are uneasy about the whole business, perhaps most of all because they do not know what is the master plan on which the Government is proceeding. No one wants to pry into military or naval secrets, but there is no reason why the public should not be told enough about the defense job as a whole to satisfy it that, first, it is a defense job and not a war job, second, that there is a comprehensive plan for its execution, and third, that there is a real organization for carrying out that plan.

ROOSEVELT TAX NO. 14

The tax bill—the 14th Roosevelt revenue measure—which is being rushed through congress is a record breaker. It provides for revenue of 3 1/2 billion dollars. Never before has any government undertaken to raise so much money by a single financial measure.

The 3 1/2 billions provided by this bill will be piled on top of collections authorized by existing laws, making a total of 13 billion dollars. That is more money than any government ever collected in a year from its people.

During the World War the government never asked the people to pay more than 5 1/2 billion dollars in any year.

Great as these figures are, they are dwarfed when compared with the expenditures which have been authorized. The OFM has announced that down to July 26 total appropriations and contract authorizations for defense purposes total 50 billion, 785 million dollars.

And 50 billion is not the end. Leading figures in the national administration are crying out for us to begin the shooting war on Germany as soon as possible. When the measure to hold the draftees in service after the end of one year was pending administration leaders fought hard against the provision prohibiting the use of the citizen army in another American expeditionary force. What would another AEF cost? Gen. Marshall has testified before congress that he could not duplicate the German military machine for less than 100 billions.

Representative Doughton, chairman of the ways and means committee, has obtained a special rule restricting debate on the new tax bill. He wants the bill passed in the shortest possible time, so that his committee can begin its work on the 1942 tax bill. With the 1941 bill just out of committee, Mr. Doughton says, that still further boosts in next year's tax bill are certain. It is suggested that the 15th Roosevelt tax law will provide for a federal sales tax, applying to necessities as well as luxuries, and still higher income tax rates with people with lower incomes paying more, and drastic reduction of the exemptions.

SSH! DADDY IS BUSY!

Around Hollywood

BY PAUL HARRISON

HOLLYWOOD, Aug. 7.—It's news when a Hollywoodian can find a profitable deal in a studio contract, because those bewildering diagrams run on for about 10 pages—whereas—es and why—notes, covering everything from industrial exigencies to the way the party-of-the-second-part conducts his private life and combs his hair.

So the screen colony is chucking at the news BKO now is paying Carson Kahn \$1,000 a week to tote a rifle in a training camp. The 28-year-old director almost certainly is the most highly paid private in the army.

This has happened because, by some oversight, BKO neglected to provide against a national emergency. When the director received an order to report for induction, the studio followed the Hollywood rule by sending him a check for four weeks' salary. His agent sent it back. He pointed out that the United States was not at war, that the contract was still in force, and that it would be broken any time the studio quit paying off.

Of course, the company had a perfect right to do that, but in that case Kahn also would have the right to make a deal with another studio as soon as he got out of the service. At least two other companies would be happy to hire the able Mr. Kahn at \$3,000 a week.

BOB IS HOPPED

In all the years that gossip-bongers, commentators and other critics have been writing for Ensign and its people, the greatest amount of local indignation has resulted from a recent piece in a national magazine about Bob Hope.

Main trouble with the Hope story was that after building him up as a selfish penny-pincher who endorsed a fantastic wage, it failed to make any mention of his benefactions, especially the charity performances. There is no question that Bob Hope plays more benefits than anybody else in the whole realm of entertainment.

During his four years in pictures there have been several hundred of them, and there is no record of his ever having turned down such an appearance, except those which were promotional rackets.

During his recent vacation, the first in four years, Hope had been ordered by his studio to turn down all benefit requests so that he could get more rest. He disregarded the ban, played an afternoon show in Toronto for 3,500 R. A. F. cadets—some about to leave for England—and then did a night show which netted \$5,000 for bombing victims.

ENTER CROSBY

Bob Hope's friendly feud with Bing Crosby indirectly provided some of the damaging material in the magazine article. The writer, who apparently checked his sense of humor before going to the Lakeside Country Club to interview Hope, later found Crosby in the locker room and asked for some information about the comic which hadn't been printed. Crosby said about all he knew was that when they played golf together Hope was a har-r-r-d man with a dollar.

Crosby is used to being called, by Hope, "that little fat man who sings," and having Hope say, "Crosby never pays any income tax; he just asks the government how much it needs." They made facetious cracks about the two of them splitting \$2 bets. Such remarks apparently were the basis of the tightwad article.

WORLD'S WICKEDEST

One of the wickedest cities in the world is Irkutsk, Siberia, where as many as 500 murders have been committed annually, although its population does not exceed 120,000. Arrests average one in every 50 murders and only half the arrests are followed by convictions.

Highlights From Latest Books

TWO NOVELISTS LOOK AT TODAY'S NEW ENGLAND

The novelists have discovered New England—the good and the bad. But mostly the bad, "Bright Was Their Destiny" by John De Meyer (Funk: \$2.50) is an indictment of New England's present-day aristocracy, with an assortment of nostalgic tears for the stalwart ancestors who founded and maintained the hierarchies.

It is the story of Pat Walker and her brother Terse, who step over the tracks to invade the ancestral domain of the Osgoods. The Osgood family has a substantial hand in almost every enterprise in the city that is named after the family.

Pat winds up marrying Bill, who has something of his grandmother's fierce realism and reckless courage and some of his father's pride and weakness. The story moves through strikes and floods and family decay. In a crisis, Bill's family pride stands uppermost, and Pat divorces him. But she finds that it isn't the end yet—more nearly the beginning.

Even if you love New England, you won't find it in your heart to condemn Mr. De Meyer. For he too loves New England. He is less bitter than he is hurt by what has been happening. And he sees a way out—a way to save this section from the crushing effects of Pilgrim sons who have lost the bright vision.

A farmer at heart, a banker by circumstances, George Hadlock is the extraordinary, lovable creation of Novelist Freeman Tilden in "Better See George" (Harper: \$2.50).

George is a remnant of a generation that is almost gone—those New England men of hard, common sense, who were never disillusioned because they started out with no illusions about life. Forced to become a banker by a board of directors who refused to consider anyone else, George works at a littered desk, keeps one eye on the townsmen.

"Better See George" is the warm portrait of a kindly man—so human, so intimate that the reader feels he is sitting with him out under the big elm tree on the farm or in the kitchen while George is straining the milk.

So They Say

One day... it will fall upon the New World to uphold and defend the civilization which has already begun to decay in the Old. And only by Thrill will that be accomplished.

Whatever may be in store for you, you can count on the people. They will not fall us.

This is a revolt of mankind against the divisions and disorders of the past.

THE LOOKING GLASS

By Stella Hunt

The Drunkard John Hanson was drunk for 30 years. He became sober at 57 and the hangover killed him. John Hanson did not drink alcohol. Work was his drug. He worked steadily for 30 years to forget life and when his drug was taken from him he was a pathetic, slobbering man, aged by his dissipation far beyond his years.

At 21 John had married a strikingly beautiful girl but she was not beautiful to John when he really got to know her. She was a hard woman who felt that the world owed her a great deal. She soon saw that she had made a sorry marriage and she bore down on John in an effort to improve her bargain. The result was partially satisfactory to both parties.

John accepted every odd job that came his way in addition to his regular work. These were mostly the tedious lettering jobs which his firm gave out at 50 cents an hour. He would sit at his desk often till midnight. And he spent the better part of Sundays there too.

He was proud to give Maudie the extra money and glad to be spending his life in the quiet of his office with the all absorbing problems of lettering and displays. It suited Maudie well enough too.

But work was always satisfactory. Work was the magic curtain that closed out the world. John used to listen in total incomprehension to the young men howling about Saturdays-off and shorter days. The last thing John wanted was a Saturday off or shorter day. He thought the young men very lazy and disrespectful of the sacredness of toil.

And then he was retired. The children were gone. He could no longer escape Maudie. Nor could he escape Pearl. The vision of Pearl in a pink summer dress kept reappearing. Now that he had time to listen to the radio he was always hearing tunes that reminded him of Pearl. She had loved him when he was 25. For two years she had loved him but at 27 he had found his drug that enabled him to endure the presence of Maudie and the absence of Pearl.

They were swinging the old tunes now and it was strange to see a tired old man crying softly over a piece of swine music.

A BID FOR A SMILE

The new minister was visiting his flock and getting acquainted. "Do you take any periodicals?" he inquired of one housewife.

"Well, I don't myself," she replied, "but my husband takes 'em often. I do wish you could get him to sign the pledge."

"A bashful swain had made up his mind to pop the question to his dream girl, but he couldn't steel himself to the direct approach. The best he could manage was this leading question: 'Darling, could you marry a man like me?'"

"Yes," she replied thoughtfully, and then added, "if he wasn't too much like you."

TEX'S TOPICS

By Tex DeWeese

Mr. and Mrs. N. B. Sessions, of Clarkdale, Miss., started out Sunday for a 75-mile drive to Memphis, Tenn. They had planned to go no farther, but upon arrival in Memphis, they got the idea it might be a fine thing to drive on to Pampa, Texas, and visit Mr. Sessions' sister, Mrs. Horace McBee, N. Somerville street...

Roy Chism, the auto mechanic, is getting ready to take off on a well-earned vacation in the mountains where he expects to do some trout fishing. Which reminds us that vacation time reaches its peak in this month of August...

With the colder season approaching, it might be well to warn you not to take it too hard. Have you discovered yet that vacation travel broadens and flattens you at the same time? It shouldn't be so hard to keep cool in Washington with all these frozen foreign funds lying around...

Ambition is a fine thing—but the thermometer has too doggone much of it. Scientists are seeking a substitute for gasoline. Only one we know of is a pair of shoes...

There are very few states that have either parks or national monuments. There is hardly anything that the vacationist could demand that these government owned and supervised spots don't offer.

SECOND NOTICE: There's a bad hole in the pavement at the east intersection of Cuyler and Atchison streets. It should be filled up...

DEFENSE LEADERS Along with government defense jobs go many high-sounding titles. Match each man in the first list with his correct position in the second list.

- 1. Florelle H. La Guardia. 2. Leon Handerson. 3. Harry Hopkins. 4. Harold Ickes. 5. William S. Egan. 6. Edward Stettinus, Jr.

BUTTERFLY VS. THISTLE The painted lady butterfly owes its wide distribution to the fact that it thrives on a plant which has been most successful in gaining a foothold throughout the world. This is the thistle whose seeds travel 1,000 miles or more.

SIDE GLANCES

"After she's knocked out everyone in the place with her paralyzing beauty, maybe she'll deign to recognize us!"

SERIAL STORY

LESSONS IN LOVE

BY JERRY BRONDFIELD

COPYRIGHT, 1941, NEA SERVICE, INC.

YESTERDAY: Standing on the edge of Larry Grover's swimming pool, Barbara is suddenly picked up by Dugan Blake and carried into the water. Dugan explains he was just collecting his coat. Later, after everyone else is in bed, Barbara hears sounds coming from the kitchen. She investigates, and Dugan, preparing a late snack, is breaking a paper bag and fighting with Dugan. Barbara is clasped in his strong arms and she herself kissing him.

She couldn't help saying what she did. It was too perfect a spot. "Beating a retreat, eh, before you do irreparable damage to yourself?"

His mouth set for an instant. "Don't worry about me. I recover fast from something that isn't good for me."

To Barbara it was like walking smack into a door in the dark.

"He's staggering . . . as usual. And as usual he probably will need a bodyguard to protect him from the sweet young things."

"Oh, I datsay he'll manage to break away to dance with you at least once," Uncle Hank told her. "That is, if you don't wear that 'keep-your-distance' look you usually have whenever he's in the room."

She wanted to laugh. If only Uncle Hank knew what had happened last week-end.

CHAPTER X

BARBARA hung to Dugan for a few seconds longer after he had released the pressure of his arms. She tried to collect her thoughts.

Dugan Blake had kissed her and she had returned his kiss. Why? . . . Why? . . . she asked herself over again.

As abruptly as he had taken her in his arms, he left her and went over to straddle a chair. His face was expressionless.

"According to the book, I'm supposed to say something melodramatic, like 'I shouldn't have done that.' Well, whether I should or shouldn't have is a moot point. I did it for only one reason. I'm always doing what my impulses dictate, and I suddenly got an impulse to kiss you then."

She felt disappointed. "Oh, is that the reason?"

He looked at her sharply. "I guess so."

"You guess so. For a minute," she said brightly, "I thought you finally were succumbing to my charms."

"You say 'finally' as though it were inevitable."

He got up and took her hand. She made a move as if to withdraw it, but he tightened his hold.

Dugan smiled tightly. "Maybe I shouldn't be a hypocrite. Maybe it was inevitable. Maybe it's me that's being fooled, and not you."

Something jumped inside of her—something she knew wasn't supposed to happen to her. She laughed nervously. "Quite a speech for you."

She turned to the stove. "Well, this is where we came in. How about those eggs?"

"I'm not hungry any more," he said. "Maybe we'd better go to bed."

BARBARA hardly saw Dugan during the next four days. Once he practiced with Larry's Briar Hill polo team. Most of the time he spent in New York with Uncle Hank.

Uncle Hank came back from New York alone on Wednesday night.

"Dugan's having dinner with some people tonight, Barbara," he said, drawing her to a chair. "Sit down. I want to tell you something."

He took her hand in both of his. "I found out today what's at the bottom of this Midwest Oil business."

"Yes?" she said eagerly.

"Chap by the name of Bert Lipscomb was Dugan's roommate at school. Pretty close roommate, I understand. Well, Bert's father is president of Midwest. There was an attempt to squeeze Old Man Lipscomb out of the company, but he found it out just in time."

"When he had to work fast. There had to be a reorganization, but things were in a mess. In order to swing it he had to get an awful lot done in a very short time. There was no one he could trust . . . until his son remembered Dugan."

Uncle Hank sat down beside Barbara. "Well, substantially, that's the story. Dugan couldn't turn down his old roommate, and he didn't dare breathe a word to anyone. Circumstances just put him smack in the middle . . . and we, like fools, jumped to conclusions."

"And I guess we jumped too far and too fast," she admitted.

He looked at her quizzically. "You like him?"

"He's frightfully handsome, but he's too superior for his own good. I like men to be superior, but I like them more like—like, well, like Larry Grover. He's a superior type, too, but at least he'll bend once in a while."

Uncle Hank chuckled. "You're going to the country club dance with Grover Friday night, aren't you? How about Dugan?"

DUGAN brushed a spot of powder off his white jacket—powder which a "sweet young thing" had deposited while dancing—and leaned on the veranda railing with Rod Porter, No. 2 man on the Briar Hill polo team.

"Not a very good stunt, this dancing business, for gents who play a round-robin polo tournament in two days," Rod said.

Dugan laughed. "You're right. We won't be able to climb aboard a horse. With seven teams entered, how many games do you think the winner will eventually play?"

"About three," Porter guessed.

"Unless there's a bye somewhere along the line. Anyway, we ought to beat that Spring Mountain outfit tomorrow morning."

Dugan nodded absently. He had just noticed Barbara and Larry walking off the terrace toward the garden.

From within the clubhouse, the melodic throbbing of the orchestra floated out through the open windows. He could hear the laughter and all the sounds in the night which spoke of carefree gaiety.

Dugan knew suddenly that he was going to miss much of this. On Monday he would leave for Oklahoma. Oklahoma and the black dirt and the still blacker gold which rushed and gushed from the ground.

It was good to think of that too, because that was his life and he loved it.

His reverie was broken as another "sweet young thing" grabbed his arm.

"This is our dance, but I don't want to dance," she wailed.

"C'mon, show me the garden and the moon."

He tried to protest but she dragged him off down the walk.

"Isn't this gorgeous," his companion breathed, but Dugan didn't notice.

All he saw was Larry Grover and Barbara behind a silvery birch tree.

Barbara was in Larry's arms and he was kissing her.

(To Be Continued)

Heavy Increase In State Revenue Due To New Tax On Oil

AUSTIN, Aug. 7 (AP)—A heavy increase in state revenue as a result of greater taxes on oil imposed at the recent general session of the legislature was reported by Comptroller George H. Sheppard today.

The tax on oil production yielded \$2,005,644 for June, compared with \$1,109,981 for the same month a year ago, an increase of \$895,663.

Part of the increase, however, was attributable to larger production which in June this year totalled 41,267,281 barrels against 37,661,769 in June, 1940.

In addition to the production, or gross receipts, tax, a tax of 3/10 cent per barrel on pipelines to support the railroad and other conservation agencies yielded \$77,369, making the total income from oil in June \$2,083,013.

The production tax under the new law, as it was under the old, is on a basis of a flat levy on oil sold below \$1 a barrel and on a percentage of value when the price is more than \$1.

The new tax is 4.125 cents a barrel when the price is less than \$1 and 4.244 per cent of value when more than \$1, compared with the old basis of 2 1/2 cents and 2 1/2 per cent.

The comptroller reported that prior to the new law's enactment the average tax per barrel of oil produced was 2.947 cents, while for June at the increased rate it averaged 4.86 cents.

Growing Crops In Texas Improving

AUSTIN, Aug. 7 (AP)—The condition of growing crops in Texas continued to improve last week as hot, dry weather prevailed, the U. S. department of agriculture reported today.

"In a few localities top soil moisture was short, but practically nowhere was the shortage serious, due to the excellent sub-soil moisture, which scattered light showers and cultivated toward the harvest angle."

Harvest of wheat, oats and barley was nearly completed in all sections, and plowing of cleared fields moved forward.

Rice continued to make good growth and improved in condition. The week was ideal for harvesting hay, much of which was reported coarse and over-mature.

Corn prospects improved as most of the crop neared maturity, and grain sorghum likewise advanced toward maturity with some late acreage needing rain.

Pecans were falling to live up to earlier promise in most of the state. "Cotton continued to show improvement in all areas through the third week of hot, dry cotton weather," the report declared. "The crop was reported mostly fair to good."

"Receptions are the southeastern area and some counties in the south

and east, where it was only fair as the result of extreme lateness and insect infestations. Weevil and boll worm damage was reported generally in the important blackland area but weather conditions have favored insect control and the crop was fruiting rapidly.

"The crop in the northwest districts, while late and just beginning to bloom, was making excellent progress under favorable moisture conditions. Picking was started in a number of southern counties, although it was not general except in the lower valley."

Cotton Stamp Plan To Be Effective Soon

As soon as cotton acreage on individual farms in Gray county has been measured and approved, the cotton stamp plan is due to go into effect in this county.

Compliance work is well under way and the plan is expected to be in operation in a short time, County Farm Agent Ralph R. Thomas said today.

In Gray the plan means that 225 farmers will exchange an estimated \$7,000 of cotton stamps for cotton goods during this year; over the state, 500,000 farmers will exchange an estimated \$8,000,000 of cotton stamps.

Cotton growers, who reduce below the smaller of their 1940 planted acres or 1941 cotton allotment, are eligible to receive stamps at 10 cents per pound times the normal yield of the acres voluntarily reduced.

The stamps may be exchanged for cotton goods at stores cooperating in this program.

\$25,000,000 Allotted
The supplementary cotton program, for which \$25,000,000 was allotted, is designed to reduce cotton acreage still further than is provided under the 1941 agricultural conservation program.

Participation in the program is optional with cotton farmers. The final date for indicating participation in the voluntary program was June 14, and the first stamps were distributed July 21.

Due to excessive rains at planting time, and floods over the state after cotton had been planted, a larger per cent of Texas cotton growers are qualifying for stamps

than had been anticipated, Vance said.

Provisions under the supplementary program limited the amount of stamps to \$25 for producers interested in one cotton crop, and \$50 for farmers interested in more than one cotton crop.

Japs Turn To Ocean To Get Scrap Iron

NEW YORK, Aug. 7 (AP)—Cut off from her American supply of scrap iron, Japan has turned to the ocean to get this essential munitions product, sources here said today, reporting that Japanese salvage firms had begun operations to raise shipwrecks in waters under Japanese control.

Listed as a possible source of 15,000 tons of metal is the \$8,000,000 American liner President Hoover, which grounded on Hoishito island, near Formosa, on Nov. 12, 1937. Japan already has taken about 7,000 tons from the wreck.

Arizona Ranchers Want Valuation On Cattle Increased

PHOENIX, Ariz., Aug. 7 (AP)—Arizona cattlemen want the valuation of range cattle increased from \$14 to \$16 per head.

They said they will place their request today before the state tax commission.

The Arizona cattle growers association gave this explanation: In recent years, cattlemen have followed a policy of asking a fair valuation on range cattle, with the promise that they would willingly bear an increase when the price of beef warranted it.

Beef prices now make a \$2 per head valuation boost equitable, the association said.

'Hair's Breadth' Is Coarse Work In U. S. Army Plants

In the light of modern American precision workmanship, anything as coarse as "a hair's breadth" would hardly pass the inspector. Above, keen eyes watch as a 155-mm. gun barrel is rifled.

By NEA SERVICE

If the mills of defense seem to grind slowly, it's partly because they have to grind, so exceedingly fine.

In the making of parts for guns and engines during the World War, master mechanics talked in ultimate measurements of a few thousandths of an inch. In preparing for today's high-velocity, super-speed warfare, 1-10,000th of an inch is the common unit of machine tolerance.

In a few cases, they even speak of millionths. These are heavy pieces of metal, such as crankshafts, which are as delicately finished as your watch, and far more carefully inspected.

Precision workmanship, applied to new steels so hard that a file can't scratch them, gives vital extra efficiency to engines of war. At the Pratt & Whitney factory, in East Hartford, Conn., master gauges for the daily checking of all micrometers are kept at a constant tempera-

ture in an air-conditioned room to prevent their slightest variation. For some jobs in a few factories, hypersensitive electrical measuring devices are required.

The old phrase, "a hair's breadth," today would be as vague and gross a term as "an hour's walk" or "an arm's length."

EVEN WARMTH OF MEN'S HANDS HAS AN EFFECT

In a Springfield, Mass., plant where fuel injector pumps are made for Diesel engines, workmen had trouble fitting sleeves inside barrels, though preliminary checking showed that the dimensions were right. Finally, it was discovered that the warmth of the men's hands, during the few moments of handling the thin cylinders, caused enough expansion so that the parts just would not go together.

Similarly, in the Allison engine factory at Indianapolis, steel cylinder liners deliberately are made larger than the holes bored for them in the aluminum blocks. The cylinder blocks are heated to produce minute expansion while the tubes are contracted at 71 degrees below zero. Quickly then, the liners are slipped into the holes, and when the aluminum shrinks and the steel swells, the pieces are permanently locked.

Here's a good example of what precision manufacture means to guns: When Germany began its westward invasion last year, both the French and British had 37 mm. cannon which proved pathetically ineffectual against tanks. The United States however, is going right ahead making thousands of 37-mm. anti-tank guns, the reason being that ours are so superior that they're virtually a different weapon.

A new armor-piercing shell is important, of course, but so are the increased velocity and range. The bores of our cannon, of all sizes, instead of merely being cut out of steel, now are honed with fine abrasive stones or something pretty close to the hardness, smoothness, and perfection of a diamond.

At the Rock Island, Ill., arsenal the tolerances on these jobs are from 40 to 60 one-millionths of an inch.

This year the government has advertised for bids from private industry for the manufacture of recoil assemblies. And in this most highly mechanized of all nations there apparently was nobody who wanted such a contract. Representatives of various companies came to watch government craftsmen at work, but they decided the requirements would be too much of a headache for a commercial venture.

GARAND RIFLE COMPLEX IN MANUFACTURE

The Garand rifle, new semi-automatic weapon of the army and marine corps, is easy to take apart in the field, but tremendously complex in its manufacture. Ordnance officials know that sooner or later—in battle if not through plotted theft—one of those rifles is going to pass into the hands of unfriendly powers. But they're not much concerned about it. The parts of the Garand must be so precisely machined that it would take more than two years for any nation's experts to figure them out and tool up to begin pro-

ducing them in quantity.

Maybe you're wondering about that large-scale, detailed diagram of the Garand which was published in a national magazine late last year. Well, some of our ordnance officers are wondering, too—they're trying to guess how many busy foreign copyists have gone crazy trying to follow that diagram in making a gun that would work. Frankly, the drawing was neither complete nor accurate; as a disclosure of a military secret, it might well have been a picture of an antique flintlock.

Visitors in engine plants often comment on the way all parts are finished. Non-wearing surfaces (such as the shank of a connecting rod or the counterbalances on a crankshaft) are ground and polished like fancy hardware. At the Packard marine engine plant, you can learn the reason: detection of flaws.

A workman shows you a smooth, bright part and challenges you to find anything wrong with it. When you can't, he clamps it between a couple of lead plates on a machine and throws a switch. While current flows, he pours on a stream of oil, bearing microscopic steel dust. Magnetic polarization causes metal to cling to the outline of an invisible crack—a long, critical flaw which if undetected would wreck a costly engine.

Every piece is tested in that way, and polishing is necessary so that tell-tale groups of the metallic dust can be seen. In some large forgings in other kinds of defense manufacture—such as parts of the landing gear on Lockheed planes—the metal is x-rayed. This is expensive but still is well worth while. They find air bubbles or internal cracks in about 20 per cent of the material.

The water will be carried forward to some base camps and battle areas in railroad tank cars moving forward with the daily train of food supplies. Other camps will receive their share from fleets of tank trucks with a 750-gallon capacity.

A soldier in combat, the army says, can do very well on two quarts of water a day but the horses need three to five gallons daily.

Soldiers To Have Plenty Of Water

CAMP POLK, La., Aug. 7 (AP)—The army said today it was prepared to supply more than 1,500,000 gallons of purified water daily for the 500,000 soldiers who will need plenty of it for drinking, bathing and cooking in the late summer maneuvers in Louisiana.

Each of the 19 divisions participating in the maneuvers will have its own mobile purification plant capable of purifying at least 75,000 gallons daily.

The main supply for drinking and cooking will be from streams and lakes and from town and city mains in the "occupied" territory.

The purification units consist of a rapid sand filter through which water is forced by pumps to be purified by filtration through charcoal and the addition of chlorine.

In many cases there will be long hauls between the time the water leaves the purification plants and the moment it is poured into the soldier's canteen or kitchen utensils.

The water will be carried forward to some base camps and battle areas in railroad tank cars moving forward with the daily train of food supplies. Other camps will receive their share from fleets of tank trucks with a 750-gallon capacity.

A soldier in combat, the army says, can do very well on two quarts of water a day but the horses need three to five gallons daily.

Ickes Recommends 5-Point Program

WASHINGTON, Aug. 7 (AP)—A five-point program designed to save from 20 to 35 per cent of gasoline consumed by commercial vehicles in 16 eastern states was proclaimed today by Defense Petroleum Coordinator Ickes.

Tying this with the service station curfew in the tightening program to meet a predicted east coast oil shortage, the coordinator recommended voluntary further curtailment of the use of motor fuel by:

1. Eliminating bulk and wholesale deliveries on Saturdays.
2. Eliminating retail deliveries to not more than one each day over a given area.
3. Reducing the deliveries of per-

ishables to as few each day as possible.

4. Eliminating special deliveries.

5. Urging consumers to cooperate by carrying small packages instead of requesting deliveries.

Ickes wrote governors of the affected states that his recommendations eliminated any possibility that concerted action by the operators would be in violation of the anti-trust laws.
