

Pampa Will Repel Mock Air Attack In Blackout Saturday Night

Pampa today was preparing to repel an air attack, scheduled for Saturday night.

Mortars and searchlights have been assembled, the Red Cross, Boy Scouts, firemen, air raid precautions, and the Texas Defense Guard mobilized to resist the bombing, due at 10:10 o'clock tomorrow night.

Street lights will be cut off, merchants store windows will be taped and lights on front of stores cut off voluntarily by the proprietors, as the fire siren starts its steady warning note.

Motorists will be asked to cut off their lights, and all other persons are asked to at least shutter the lights, if they keep them on, within their houses and places of business.

Searchlights of 5,000-watt power, with 36-inch solars will project their light from a downtown building in to the sky, seeking to spot the invading planes.

A Waco biplane will be the pivot craft of the attack. Bombs will be fired 300 feet into the air from mortars in an attempt to "hit" the plane.

Boy Scouts, acting as observers, will notify the fire department when the attacking planes are sighted. Then the siren will sound, lights will go out, and volunteer workers will take their posts.

Firing of the last star shell will be the signal for the departure of the plane, and the "all clear" blast on the fire siren. This is set for 10:25.

This will differ from the warning signal, in that the siren will be sounded at intervals.

Members of Company D, Texas Defense Guard, will assemble at 9 o'clock tomorrow night at the city hall, where the guard house will be established, guards formed, and from which point guard details will move to their posts at 9:30.

Governor Coke Stevenson, who will be honored at a luncheon here at noon tomorrow, prior to his leaving for Borger to attend a Texas Press Association barbecue that afternoon, will be invited to return to Pampa for the black-out demonstration.

The black-out will be put on by various groups, including the Pampa Jaycees, who are to act as A. R. P., and will be community-wide in scope.

Press Association barbecue that afternoon, will be invited to return to Pampa for the black-out demonstration.

The black-out will be put on by various groups, including the Pampa Jaycees, who are to act as A. R. P., and will be community-wide in scope.

PAMPA TO BE HOST TO GOVERNOR TOMORROW

Three Nazi Foes Die On Guillotine

PARIS, Sept. 26 (AP)—The first three men sentenced to death by the powerful tribunal of state were executed today on the guillotine in the courtyard of Santé prison.

Authoritative sources said the court, a French tribunal created to show the Germans the French themselves could handle the opposition problem and to forestall the spread of German reprisals, was expected to hand down a new list of condemnations soon.

All three put to death today were communists: Adolphe Guyot, communist leader of the Seine (Paris) department, Jacques Woog and former Deputy Jean Cathelins.

The name of Gabriel Peri, another former communist deputy, was mentioned as probably among those whose cases now have been decided at further sittings of the tribunal.

A fourth man who was given the death sentence six days ago, Fresco Foscardi, has not been found. He was tried in Absentia.

All those sentenced so far have been convicted in secret sessions of fomenting or organizing disorders. This court is separate from the anti-communist tribunal which deals with communist activities.

Wallace Takes Over Issuance Of Export Licenses

By LLOYD LEHRBAS
WASHINGTON, Sept. 26 (AP)—The economic defense board headed by Vice President Wallace further centralized control of economic warfare and kindred defense measures today by taking over the issuance of all export licenses in the \$4,000,000,000-a-year foreign trade of the United States.

In line with President Roosevelt's order of Sept. 15 to "intensify the policy of preventing shipments to Axis-dominated countries," the economic defense board began absorption of the state department's division of controls, which heretofore has collaborated with the export control administration in regulating exports and issuance of export licenses.

Wallace's super-defense board already has taken over the previously independent and army-directed export control administration with the objective of integrating its functions into the broader work of the board.

At the same time the economic defense organization issued a supplementary "black list" containing the names of 300 persons and firms in the other American republics to whom no more shipments of American goods will be permitted.

The 300 "black listed" firms have been added to the original "proclaimed list of certain blocked nations" which contained more than 1,800 individuals and firms in Latin American countries. The names of 65 firms on the original list were deleted yesterday because "satisfactory corrective action" had been taken.

In announcing the original "black list" it was stated it was comprised of persons or firms "deemed to be acting for the benefit of Germany or Italy or nationals of those countries and persons to whom the exportation directly or indirectly, of various articles or materials is deemed detrimental to the interest of national defense."

Wife Sleeps On While Neighbors Stone Hubby

BROOKFIELD, Mo., Sept. 26 (AP)—Roy Jarrett, Jr., told his wife he would join her at her parents' home, but she slept right through the alarm but she set for his 4:30 arrival.

He tried throwing rocks at her window and when that didn't work spied a nearby ladder by which he climbed to her room.

The neighbors heard the commotion and jumped to conclusions. Rocks came hurtling up at Jarrett until his finally awakened wife dispersed the nightshirt parade.

Washington Greets Duke Of Windsor

WASHINGTON, Sept. 26 (AP)—Cheering crowds of clerks and stenographers greeted the Duke of Windsor today as he paid official calls on the Secretary of War Henry Stimson and under-secretary of Navy James V. Forrestal. His American-born Duchess did not accompany him.

The former King Edward VIII was hailed excitedly by hundreds of war and navy department employees who jammed the entrances to the building and blocked corridors in their anxiety to see the man who abdicated his throne for love and now is governor of the Bahamas.

SSB Approves Texas Children Aid Plans

WASHINGTON, Sept. 26 (AP)—The Social Security Board approved today Texas plans for aid to dependent children and to blind persons over 21 years of age.

Preliminary estimates indicated about 3,000 needy blind and around 20,000 children would be placed on the assistance rolls by the end of December. Payments will average \$8 monthly for each child and \$20 monthly for each blind person.

The board allotted to Texas \$12,500 for the July-September and \$65,000 for the October-December quarters for aid to the blind; also \$20,000 for the July-September and \$215,000 for the October-December quarters for aid to children.

I HEARD . . .

W. C. deCordova telling about going dove hunting northeast of Pampa yesterday afternoon and flushing a covey of scissor-tails. There were hundreds and hundreds of birds but no doves.

Welcome Boots Adams! We are proud to be connected with Phillips Petroleum Co. Hampton's Garage. (Adv.)

German Pressure On Leningrad Increasing

War Briefs

(By The Associated Press)

Whole battalions of German shock troops have been blown to pieces by minefields in a strong attack on the Crimea, advisers reaching London said today, and the Russians were reported to have the situation well in hand after stemming two Nazi assaults.

German parachute troops used in the attack likewise were declared to have been annihilated.

In the siege of Leningrad, the Russians admitted that German siege armies were steadily increasing their pressure despite colossal losses, but declared that a series of battles had hurled the Germans back from several advanced lines.

Red Star, the Soviet army newspaper, reported that Russian troops at one point on Leningrad's approaches had gained five miles and recaptured four villages.

Nazi parachute troops and infantry were reported continuing the assault on the Crimean peninsula, battering fiercely at Soviet lines stretched across the bottleneck Ferekop Isthmus, only five to eight miles wide.

The terrain was described as advantageous for the Russians, with numerous small lakes and marshlands forming natural defense barriers.

To the north, Adolf Hitler's high command reported that the destruction of four Red armies trapped east of Kiev was "progressing relentlessly," with the number of Soviet prisoners now standing at 482,000.

This claim followed an official Soviet denial of an earlier Berlin announcement that 380,000 Russian troops had been captured in the Kiev battle.

Calling the Nazi assertion "a fresh Hitlerite fake," a Red army communique reported:

"The fierce struggle is continuing on the Kiev front."

The British radio, quoting a Moscow spokesman, said the Germans launched their initial attack on the Crimea Wednesday night, hurling tanks, mechanized infantry and a number of parachute troops into the assault after a heavy artillery bombardment.

The Russians waited behind vast mine fields," the account continued. "Whole battalions of Germans are said to have been blown to pieces."

The enemy withdrew to re-form, eight hours later. But they were caught in the fire of Russian long-range artillery from the isthmus and from the bay to the west of the isthmus.

"Just before noon yesterday, the German attack was renewed. One German infiltration was made in the Russian lines but it was soon surrounded and annihilated."

Strategically important as the site of Russia's great Black Sea naval base of Sevastopol, the Crimean peninsula would also provide a stepping-stone for a German thrust into the Caucasus oil fields across the narrow mouth of the Sea of Azov.

Coinciding with this reported blow to Hitler's invasion forces in the far south, Berlin admitted that the Russians were attacking with mounting fury on the north central front, apparently in the vicinity of Velich, 70 miles northwest of Smolensk.

Nazi military dispatches said great masses of Russian troops were storming German trenches on the east bank of the Dvina river but had been unable to break through.

In the same area, Soviet reports said the Germans had been routed with more than 2,500 Nazis killed.

On the bloody Leningrad front, German dispatches pictured the old-time capital of Imperial Russia as being slowly reduced to ruins as house-to-house fighting raged without halt in suburban areas.

Motorist's Dream Has Come True

FNID, Okla., Sept. 26 (AP)—The motorist's dream has come true! Just dig a hole and it fills up with high grade gasoline as fast as you can use it. And there's 2,000,000 gallons more where that comes from.

The thing started when a water well filled up with gasoline. Excited neighbors dug holes, which also filled up with gasoline.

They tried the fuel in automobile tanks. It worked fine and sales fell off sharply. The tax commission, noting the decline, sent an inspector to investigate.

Inquiry disclosed the gasoline probably had been leaking from big storage tanks of the Champion Refining company.

Company officials said the fuel had seeped into sands 25 to 30 feet under the surface of the ground and in running through the sands had been refined further. They offered to buy the fuel at four cents a gallon.

They estimated the shallow holes had yielded 150,000 gallons and 2,000,000 gallons may yet be recovered. This would mean a profit of \$80,000 to property owners if they sell it back.

The gasoline measured up to motor fuel specifications.

Blind Legislator Resigns From House

SAN ANTONIO, Sept. 26 (AP)—Lon E. Alsip of Carthage, blind member of the Texas house of representatives since 1930, announced here Thursday night that he has resigned from the legislature, effective next Wednesday, when he will start work with the Texas unemployment compensation department.

Alsip made the announcement to Miss Irma Grace Johnston, president of the San Antonio Pilot club following a meeting of the club at which Alsip was the guest speaker. He said that he has already given his resignation to Gov. Coke R. Stevenson.

He was first elected to the legislature in 1930 and has served in the house since that time. He is a native of Panola county, and has operated a music store in Carthage.

Texas Fair To Have Great Postal Show

WASHINGTON, Sept. 26 (AP)—Arrangements have been completed for the showing at the Texas State Fair in October of one of the most complete postal exhibits displayed anywhere by the post office department.

Plans were announced by Burriss Jackson, Hillsboro, Tex., postmaster, after a conference with Postmaster General Frank C. Walker and other high postal officials. Exhibits on the fair grounds, in Dallas, will include displays of the latest foreign airmail routes operated by the department.

(An Editorial)

Naturally the Top O' Texas of which Pampa is a part is more than pleased to be host to the notables who will visit here this week-end, and The News, on behalf of the wide-awake, energetic citizenry of the Panhandle wishes to welcome Governor Coke Stevenson, Congressman Gene Worley and Kenneth S. Adams, president of the Phillips Petroleum company.

It is a tribute to various enterprising groups in Pampa, including the Chamber of Commerce, the Industrial committee, the Girl Scout sponsors, that Pampa will have an opportunity to entertain these distinguished visitors today and tomorrow. It is a rare event, because seldom does the occasion arrive when the town has the privilege of being host to so many outstanding citizens.

The Top O' Texas will entertain these visitors in the reserved, yet impulsively affectionate manner that is typical of the region. Residents of the pampas want these gentlemen "on their side," and yet all Pampans are asking is the opportunity to be friendly and hospitable.

Only 5,192 Tank Cars Available, Says Ickes

WASHINGTON, Sept. 26 (AP)—Secretary Ickes, the petroleum coordinator, said today a "factual inventory" had found a net surplus of only 5,192 rail tank cars available to haul petroleum to the Atlantic seaboard.

This finding sharply disagreed with a contention by J. J. Pelley, president of the Association of American Railroads that 20,000 idle tank cars were available for operation in the oil emergency.

The survey Ickes quoted was made by the East Coast Transportation committee of the oil industry.

The senate committee which investigated the oil situation in the east reported there was no shortage, that unnecessary alarm had been created, and suggested that restrictions on gasoline sales be lifted.

State Publicity Spotlight Fixed On Visits Here

Pampa was sharply focused in the spotlight of state-wide publicity today due to the arrival this morning of Kenneth S. (Boots) Adams, president of the Phillips Petroleum company, and Congressman Gene Worley, both of whom attended a conference of the Industrial committee of the Chamber of Commerce this afternoon.

A subject of the conference was the proposed plans to convert to industrial or defense project uses the huge gas and petroleum resources of the Panhandle oil fields of which Pampa and Borger are the chief towns.

This committee met with Mr. Worley and Mr. Adams directly after the luncheon at noon today when Mr. Worley was chief speaker.

Tomorrow, the publicity battery will be trained even more on Pampa. Tomorrow noon, approximately 450 Pampans will be hosts to Governor Coke Stevenson at a luncheon at the high school cafeteria.

It is Congressman Worley's first trip to the Panhandle since he left for Washington last December to take his seat in congress, and the speech today was his first since his return. He will speak tomorrow at Borger and on next Friday at Amarillo. Governor Stevenson will also make his first speech in the Panhandle tomorrow, Pampa. Tomorrow afternoon he will speak at Borger and on Sunday and Monday he will be in Amarillo.

The Associated Press at Dallas has asked full coverage on the return of Governor Stevenson to Congress. Worley and Mr. Adams, and on the luncheon for Stevenson here tomorrow.

Lights glimmered in the mansion before daylight today as Governor Coke R. Stevenson who likes to travel about the country set out for the Texas Panhandle.

He chose to drive because "I can go one way and come back another." It is a suggestion that he take a train the governor said.

"I would miss 20 filling stations," he likes to stop at filling stations, and chat with the boys.

The governor scheduled Pampa for Borger visits tomorrow. At Borger he intended to attend a barbecue honoring Dave Warren, president of the Texas Press Association and publisher of the Borger Herald.

At Amarillo he scheduled an address before a labor group Sunday and planned to attend opening festivities of the Tri-State Fair Monday.

First "open house" at the Girl Scout camp will be at 5 o'clock when a barbecue will be served by civic clubs, the beef being donated by Mel B. Davis. The camp is located due east of LeFors on the John L. Sullivan ranch. Mr. Sullivan, one of the Girl Scout's 13 acres on the north bank of the Red river. The camp is reached by driving due east of LeFors, past the Coltex Gasoline plant. Markers will be placed along the route east of LeFors.

Mr. Adams will speak to members of the Pampa civic clubs, parents of the Girl Scouts, Girl Scout leaders and a number of invited guests. The barbecue will begin at 5 o'clock with Mr. Adams speaking at 6:15 o'clock.

While the barbecue is being served, girls of Pampa's 10 troops will present skits on Girl Scout activities. Mrs. Handia Bengie will introduce the skits.

Besides Mr. Adams, honored guests at the barbecue will include Miss Edith Sissett of Dallas, director of the Cactus Region of Girl Scouts which includes Texas, Oklahoma and New Mexico, Mrs. Roy Cullum of Amarillo, national board member, and other officials. Walter Rogers will be master of ceremonies.

Wooldridge Corporal In Army Air Corps

Woodrow F. Wooldridge of Pampa, now stationed at the new Air Corps advanced flying school, Victoria, Tex., was promoted this week to the rank of corporal in the United States Army Air Corps. He is a member of the 48th School Squadron.

This new air base in the southeastern part of the Lobe Star state is in the last stage of construction. As a gunnery and tactical school for future pilots, approximately 440 advanced aviation cadets will be received here for 10 weeks of aerial training.

Of the field's 177 authorized buildings, 137 are ready for service. Three huge hangars, the runway, apron, and radio range station are but days away from completion. Authorizations for construction are now well over \$4,000,000.

Lieut. Col. Warren E. Carter is commanding officer. The field will be staffed by 200 commissioned officers.

O'Daniel Suffers Practical Joke, Involving Mule

WASHINGTON, Sept. 26 (AP)—It must have been a practical joke, mused Senator W. Lee O'Daniel of Texas.

Someone who purported to be from a local moving company telephoned one of the senator's aides yesterday that a 325-pound mule had come from Chicago prepaid by a group of Republicans and asked for instructions as to where to deliver it.

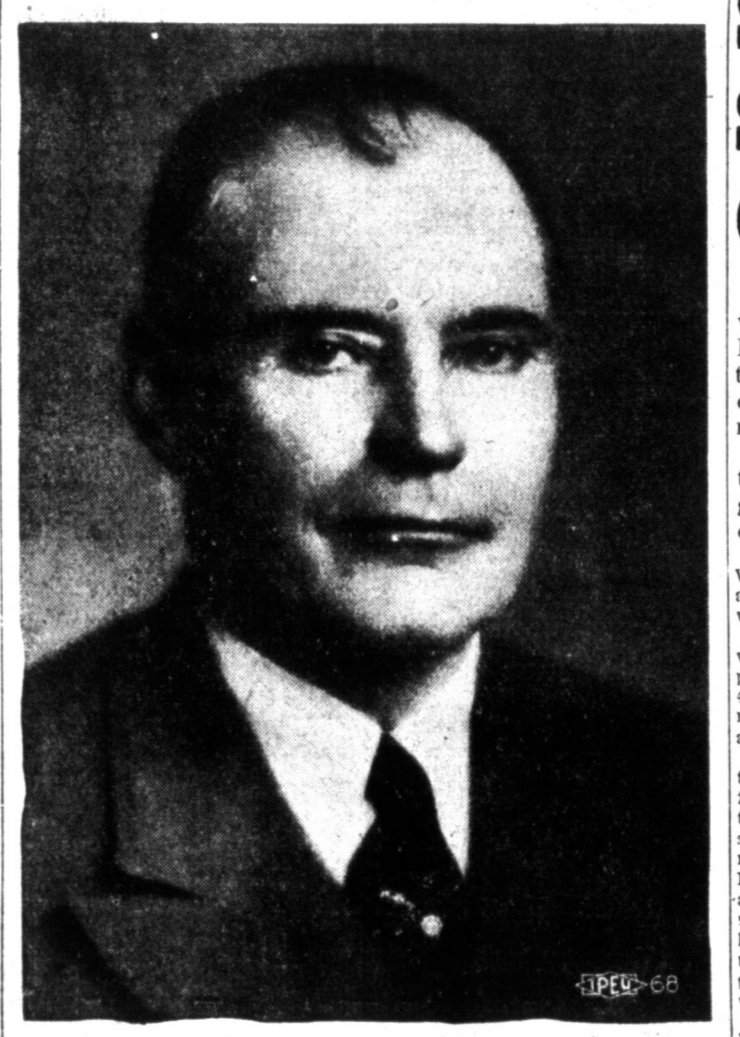

The stunned secretary directed that the animal be delivered at a back door of the senate office building. The senator was informed, and he and a reporter and a photographer awaited the mule's arrival.

They waited an embarrassingly long time, and then the phone rang again. The voice of the person who had called before said the truck would go to the Plaza, in front of the capitol itself. But it was a false alarm.

"A practical joke," commented O'Daniel.

Tooth Marks Catch Up With Useful Burglar

ST. PAUL, Sept. 26 (AP)—Tooth marks in a half eaten apple solved a number of school and home burglaries.

Governor Coke Stevenson

You Can Eat With Coke For 35 Cents

Did you ever eat with a governor? If not, you'll have a chance at this experience at noon here tomorrow when Pampa and other Panhandle cities turn out for a luncheon honoring Texas' governor, Coke Stevenson.

It won't be one of those \$25-a-plate affairs, but a meal within the budget of the average man.

The cost of a ticket is only 35 cents. Those who want tickets had better get them now, but if they wait until the last minute, the chances are there will be no room in the high school cafeteria left to accommodate them.

Tickets can be obtained at the Wilson drug, either of the two banks, or at the office of the chamber of commerce.

Representative Ennis C. Favors of Pampa will accompany the governor to Pampa. He will go to Amarillo, where a breakfast will be held at 7:30 o'clock tomorrow morning, at an Amarillo hotel, honoring Governor Stevenson.

After the breakfast, the governor and Rep. Favors will come to Pampa in the governor's car.

Governor Stevenson is a typical Texan, so he will spend his time in Pampa before the luncheon, visiting around downtown. At 11 o'clock he will be in the city commission room at the city hall, ready to say "hello" and to meet all who call.

Delegations from five counties, other than Gray, will attend the luncheon. Rep. Favors said. These will come from Collingsworth, Donley, Wheeler, Wellington and Carson.

There is no change in the luncheon program as previously announced.

Rep. Favors will introduce the governor, who will make a speech. The address will be broadcast over Pampa Radio Station KPDM.

Pampa's mayor, Fred Thompson, will preside. Introduction of visitors will be by Frank Culberson, president of the Pampa Board of City Development. Opening the program will be the invocation, delivered by the Rev. Edgar Henshaw, pastor of St. Matthew's Episcopal church of Pampa.

After the luncheon the governor, accompanied by the delegation from Borger, will return with them to that city where a barbecue is to be held honoring David M. Warren, president of the Texas Press association.

Nazis Capture 574,000 Reds

NEW YORK, Sept. 26 (AP)—A DNB radio announcement late today said 574,000 Russian soldiers had now been captured in the mop-up of the east reported there was no shortage, that unnecessary alarm had been created, and suggested that restrictions on gasoline sales be lifted.

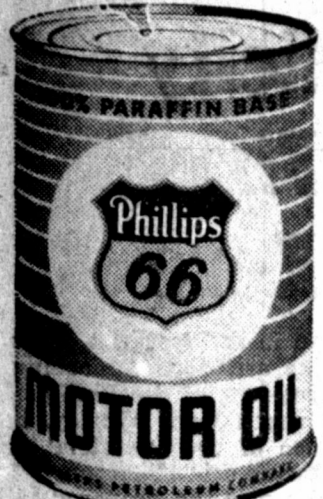

Galveston To Get Housing Project

WASHINGTON, Sept. 26 (AP)—The U. S. Housing Authority awarded a \$728,700 contract to McCough Brothers, Houston, Texas, for construction of a 236-unit low rent housing project at Galveston, Tex. The project is to be known as Palm Terrace.

K. S. "Boots" Adams

YOU CAN'T SEE... SMELL... OR TASTE
Oil Quality

You know it's tough to tell oil quality by looking at it. You can't even test it very quickly.

That is why, when you are buying a lubricant to protect your motor-car investment, it is so important to rely on the good name of the oil and its maker.

Millions of motorists know from experience that Phillips 66 Motor Oil is a lubricant with a good name, backed by a great name.

Yes sir! Phillips 66 is the name to remember when you make the regular 1,000-mile replacement, or put in lighter oil for the winter.

PHILLIPS 66 MOTOR OIL

Local Council Of Church Women Will Be Host At Meeting Of District Seven

District seven of Texas Council of Church Women will meet in the First Christian church of Pampa on October 10 for an all-day session.

Presiding will be Mrs. J. W. Sanders of Amarillo, district chairman, and Mrs. E. C. Seaman of Amarillo, president of the Texas Council, will give a report at that time of the national convention in Columbus, Ohio, which she will attend next week and of the Texas executive board meeting which will be held in Fort Worth on October 7 and 8.

At a called meeting of the executive board presided over by Mrs. F. E. Leech, president of the local Council, plans were made for the district session which will bring to Pampa women from Amarillo, Canyon, Hereford, Perryton, Plainview, and Panhandle.

In charge of the covered dish luncheon to be served at noon will be the representatives of the Texas Council with Mrs. D. V. Burton as chairman. The presidents of the local church groups will act as hospitality committee of which Mrs. H. H. Boynton will be chairman. Mrs. Rudolph Taylor and Mrs. E. L. Anderson are in charge of the music.

Present at the executive board meeting were Mrs. F. E. Leech, E. L. Biggestaff, J. E. Beard, Rudolph Taylor, C. Gordon Bayless, C. V. Burton, R. Gilchrist, H. H. Boynton, E. L. Anderson, and Fred Roberts.

Three Eastern Star Chapters Entertain Mrs. Robbie Dyer

SPECIAL TO THE NEWS
PANHANDLE, Sept. 26—The Panhandle, Groom, and Claude chapters of Order of Eastern Star entertained this week honoring Mrs. Robbie Dyer, grand matron, of Amarillo. Five other grand officers were also present.

Mrs. J. L. White of Panhandle introduced the following program: Piano solo, Miss Ethel Townsend, Groom chapter; reading, "Green Pastures," Mrs. Coe Clegg, Panhandle chapter; vocal duet, Mrs. Landon and Mrs. Newt Taylor, Panhandle chapter; skit, Claude chapter; vocal solo, Mrs. John Luther, Claude chapter; and reading, Mrs. Mamie Williams, Groom chapter.

The meeting was followed by a social hour and refreshments were served.

New Officers Of Fine Arts Club Fed At Dinner

LEFORS, Sept. 26—Honoring new members, LeFors Fine Arts club met for dinner at Vanline's White Way Drive Inn in Pampa this week.

New members present were Mrs. A. J. Hill and Misses Fern Holland, Kathleen Haws, Ina Scott, and Lurline Brown.

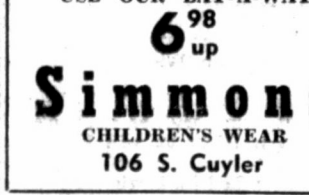

Those present, in addition to the new members, were Mrs. J. D. Fouburg, Rex Reeves, R. V. Reed, Charles Earhart, J. H. Duncan, Merrill Ellis, and Misses Clara Anderson, Ruth Darnall, Ione Gill, Ila Mae Hastings, Myrtle Lilly, Mildred Matteson, Goldie Potts, Maidee Thompson, and Ariel Williams.

Future Homemakers Club Of Canadian Has Open Meeting

SPECIAL TO THE NEWS
CANADIAN, Sept. 26—Mrs. Jeanette Pickens, teacher of home economics department in Canadian High school, sponsored an open meeting of the Future Homemakers club in the high school auditorium Tuesday evening.

The club president, Gertrude Henderson, and her official staff were seated on the stage.

Members attending were La Fawn Cain, Eloise Cox, Juanita Hensley, Evaline Wilson, Vinita Crawford, Glennis Savage, Dorothy Sportsman, Mary Pearl Johnson, Delois Dames, Jean Verker, Juanita Esquivel, Alice Farnsworth, Marie Baker, Fannie J. Bussell, Mary Nan Tandy, and Jane Stovall.

After the usual opening, 17 girls were initiated into membership; Glennis Savage, representing the "spirit of homemaking," leading in a pretty candle-light ceremony. These girls were Betty Young, Audrey Good, Doris Green, Kathleen Reed, Nina Jean Long, Billie Ruth Ruppe, Bonnie Wilson, Ella Hill, Elizabeth Crow, Nita June Elsen, Betty Rathjen, Shirley Sprague, Mary Lindley, Patsy Kemp, Doris Elaine Reed, Mary Caudle, and Rosene Davis.

Jane Stovall played soft music at the opening of the session and Nadalle Hutt played during the initiation ceremony. Following the initiation, the girls sang their club song, "Sing Your Way Home," led by L. E. Cooper, director of music in the Canadian public schools.

Many more girls and a few boys who have been initiated to membership in the Future Homemakers club will take their pledge at a future meeting.

At the close of the club meeting, Mrs. Pickens invited the guests to assemble in the dining-room of the home economics department where punch and macaroons, made by the girls, were served by club members from a linen covered table decorated in yellow and white, the club colors. Yellow marigolds and white gladioli formed a flower piece and yellow tapers shed a soft glow over the table.

Guests for the club meeting and tea were Mrs. Joseph M. Noble, Mrs. John M. Carpenter, Mrs. John O. Stovall, Mrs. Sam Isaacs, Mrs. Virginia Stone, Miss Virginia Line, Miss Virginia Goode, L. E. Cooper, and Winston Wood.

Officers of the Future Homemakers club are Gertrude Henderson, president; Betty Whitlock, vice-president; Ruth Studer, secretary; Jane Stovall, treasurer; Natalie Huton, pianist; Elizabeth Ann Reed, reporter; Margaret Puckett, parliamentarian; and Mrs. Jeanette Pickens, sponsor.

Art And Civic Club Meets In Home Of Mrs. Roy Calvert

SPECIAL TO THE NEWS
LEFORS, Sept. 26—LeFors Art and Civic club met last week in the home of Mrs. E. F. Calvert which was beautifully decorated with autumn flowers.

Official vacancies in the club were filled by electing the following officers: President, Miss Ione Gill; vice-president, Mrs. Francis Smith; secretary, Mrs. Joe Champron; reporter, Mrs. Bill Mosley.

The program for the year's study was presented to the club by Mrs. Ben Pearson, chairman of the year-book committee.

Mrs. Francis Smith read and discussed the club constitution.

Club members present were Mrs. Hank Breining, Francis Smith, Ralph Orden, Bruce Hall, Ben Pearson, Bill Mosley, Edward Vincent, Joe Clark, Joe Champion, Rex Reeves, Merrill Ellis, Arlie Carpen-ter, Silnut Barham, the hostess, and Miss Ione Gill. Guests present were Misses Goldie Potts, Ina Scott, Kathleen Haws, Fern Holland, and Lurline Beutman.

Refreshments of nut spice cake and fruit punch were served.

Hat Parade: Tricky New Fashions Make Exciting Debut In Fall Openings

By MARIAN YOUNG
NEW YORK—The first showing of a new season's hats was exciting—and the current displays of new fall models certainly live up to the rule. New York's top-ranking milliners have produced plenty to stir up the buyers, fashion editors and photographers from all over the country who have been looking at hats and more hats until they go to sleep at night, muttering, "Berets, wimples, deeper crowns; berets, wimples, deeper crowns."

The most newsworthy berets are those with draped backs. These frame the face, so that no hair shows, and then hang down over the neckline as if they were a cape. Others form a soft cluster of fabric at the nape of the neck. John-Frederics call their "parachute" berets. Florence Reichman calls hers "upswept berets with back interest" and "variations of the wimple back."

REVIVAL OF CLOCHE AND WIMPLE

Not only have crowns become deeper, as everyone predicted they would, but they now are deep to the point of covering every inch of the head. In this category, the cloche is king.

The cloche, in case you have forgotten, is that little business we pulled down over our ears back in the early twenties. To know exactly what the 1941 cloche looks like, find a snapshot of yourself and sisters, taken in 1924.

Wimples are all over the lot. Milliners, however, prefer to have them called "hat draperies" or "hat scarfs." Whether you like the wimple or not, the fact remains that yards of flowing material fall from the back or the front of a crocheted hat are the American Revolution. Copley red is the new color in this smart saloon. It's the shade made famous by Sir Singleton Copley who painted the portraits of practically all of the heroes of Revolutionary War times. Benjamin Franklin's three-cornered hat is a beautiful tricornie in Copley red and black felt. Lafayette's bicorne is of black felt with an edging of gold cord. "Rogers Rangers" has an untanned, swashbuckling brim. "Philadelphia Lady" is reminiscent of Quaker bonnets.

At Florence Reichman's, the "pompadour scoops" stopped the show. These are small hats, set on the back of the head, with tiny curved brims which fit over the top of the pompadour. Mrs. Reichman shows these in felt with curved felt brims and in lush, more luxurious materials with curved brims in ostrich feathers.

In addition to parachute berets, bloused crowns, towering turbans, girt-wheels with shoulder-shading brims, the cloche, turban and a good selection of wide-brimmed sports felts with enormously high crowns. John-Frederics show an amazing group of "little things you can play around with."

Figure Controlling

Well-happy findings! Let me know how you make out.

8995

If you wear any size from 34 to 52, here's a slip which will be grand for your figure. It has panties to match, flat in front with tiny pleats and gathered on an elastic band in back. A straight four-gore construction does the job of making this one of the smoothest fitting slips you ever made for yourself. The top is just as simple, it goes together perfectly and is most effective as a figure-molding brasserie section. It may be made with built-up shoulder straps or ribbon straps.

Pattern No. 8995 is in sizes 34 to 52. Size 36 slip takes 1 1/3 yards 38-inch fabric, 1 yard ribbon for shoulder straps; Panties, 1 1/4 yards.

For this attractive pattern send 15 cents in coin, your name, address, pattern number, and size to The Pampa News Today's Pattern Service, 311 W. Wacker Drive, Chicago, Ill.

Have you seen the attractive new Fashion Book for fall—a complete review of the new styles for all size ranges? Get your copy today. Pattern 15c, Pattern Book 15c. Old Pattern and Pattern Book ordered together 25c.

Bridge Lamp Furniture But Lamper Isn't

By IRVING PERLMETER

WASHINGTON, Sept. 26 (AP)—A lamp is furniture but a lamp is not. This isn't double talk; it is just the 24-hour a day advice being poured out of the Federal Reserve board in interpreting the tallent credit regulations which are the first of this month.

While doubting that confusion over restrictions were any more than to be expected, one sleepy-eyed official said there were still a lot of questions to be answered after his staff worked nights for four days.

The rules set minimum down payments up to one-third of an article's price and fixed a maximum time of months for paying the balance on different types of merchandise.

Furniture seems to be one of the items excluded. The board ruled out by excluding floor coverings and draperies from the definition of "furniture."

Since then the experts have ruled, separate occasions, that lamps,

mirrors, unpainted furniture, stools, kitchen and breakfast room sets, porch tables, chairs, swings, and kitchen cabinets are "furniture."

But chinaware, cooking utensils, ordinary electric fans, wall clocks, and non-electric carpet sweepers are not furniture.

Then, there's the problem of one of these new-fangled gadgets that is part radio and part bed or other furniture. The required down payment on radios is 20 per cent, but only 10 per cent on furniture. The board solved this one saying whichever part of the gadget cost most determined the classification. Thus a \$100 bed with a built-in \$15 radio is still a bed.

The procedure is still too new, officials said, for all the kinks to be straightened out.

But for the customer, it's simple. All he has to do is go to his favorite store and buy on whatever terms the store is willing to offer. In most cases, officials said, these terms are no different than they have been. Cash or single-payment charge account transactions are not regulated at all. The rules cover only installment sales.

Lubbock Observes 300th Day Without Traffic Fatality

LUBBOCK, Sept. 26 (AP)—Lubbock observed its 300th day without a traffic fatality today.

And if the day passes without a fatal accident, members of the Junior chamber of commerce plan for a concerted campaign to make it 305 or more.

The deathless day count started last November after two persons were killed on a downtown street within 24 hours.

Breaks Repaired In Denver Gas Line
DENVER, Sept. 26 (AP)—Nearly exhausted workmen completed today a by-pass line around flood breaks in the natural gas main supplying gas to a score of Colorado cities, but pressure sufficient to restore service cannot be obtained until tonight.

ARLISS FINED FOR FAILURE TO LIST U. S. SECURITIES
LONDON, Sept. 26 (AP)—George Arliss, veteran English stage and screen star, was fined \$4,500 (about \$18,000) today after pleading guilty "subject to mitigating circumstances" to a charge of neglecting to register United States and Canadian securities with the Bank of England.

IS YOUR HOME A VERITABLE BLACKOUT?
Is your home dark and gloomy . . . like you were trying to have a blackout every night? It really needn't be—all you have to do is to get a few 100 and 150-watt electric light bulbs to replace the dim ones you now are trying to see by, and your home will really be a cheerful place.

U. S. Defense Needs Reflected In County Order

Uncle Sam's need for machinery was reflected here today in an order of the Gray county commissioners. At their regular meeting Thursday, the commissioners accepted the bid of the E. B. George Tractor & Machinery company on one 75-horsepower Caterpillar motor tractor. The order is subject to cancellation if delivery is not made within 90 days on the \$6,650 machine. Explaining the clause, County Judge Sherman White said: "The sale of this equipment is so conditioned, so subject to strikes, war, the O. P. M., that we just decided we'd have a condition of our own."

Wilson Rites Will Be Held Saturday

Funeral services for William Lige Wilson, 52, will be conducted at 10 o'clock Saturday morning in the chapel of the Duenkel-Carmichael Funeral home by the Rev. E. M. Dunsworth, pastor of Calvary Baptist church. Burial will be in Fairview cemetery. Mr. Wilson died in a local hospital early Wednesday morning following a stroke while in the city hall Tuesday afternoon. He had been a resident of Pampa since 1928, working in the oilfield here. Survivors are the widow, a daughter and three sons.

Albuquerque To Be Bomber Crew Center

WASHINGTON, Sept. 26 (AP)—Five-man army crews for big bombers will train at Albuquerque, N. M. The war department, announcing this today, said Undersecretary Robert P. Patterson had approved a \$559,760 contract with Transcontinental and Western Air, Inc., for the training. The crews, consisting of a pilot, co-pilot, navigator, flight engineer, and radio operator, will be chosen from the army's ferrying command, which has the assignment of delivering planes from Pacific coast plants to Atlantic coast ports for transfer to Great Britain. The training will be in operation of four-engine planes. More than 19 crews, the war department said, will form the first class this month.

LATE NEWS

(Continued from Page 1) lyric writers of the past three decades, and author of the song, "If You Were the Only Girl in the World," died yesterday at Ipswich.

WASHINGTON, Sept. 26 (AP)—The Federal Power Commission announced today it would not recommend the continuation, beyond Sept. 28, of daylight saving time in any region of the United States.

SCHENECTADY, N. Y., Sept. 26 (AP)—Henry S. Morgan, son of J. Pierpont Morgan, resigned today as a director of the General Electric Company to assume a position in the priorities division of the U. S. navy department in Washington.

BERLIN, Sept. 26 (AP)—A DNB dispatch today indicated a German expectation that the war on the eastern front would continue into the winter and hinted at new German offensives.

MOSCOW, Sept. 26 (AP)—Fighting near the ancient city of Novogorod, which the Red army abandoned a month ago, still is raging with the Russians successfully thwarting all German attempts to cross the Volkov river, a front line dispatch to the Red Star reported today.

Norwegian Travels 7,000 Miles To Get U. S. Citizenship

LAREDO, Sept. 26 (AP)—A 7,000-mile trip by boat and train enabled Master Sgt. Olaf Bjornstal, 44, of the 897th U. S. engineers stationed at Camp Yukatat, Alaska, to obtain his citizenship papers. Bjornstal came to this country from his native Norway when he was 14. He enlisted in the United States engineers when he was 23. He applied previously for American citizenship, but let the application lapse because of his transfer from one post to another. While stationed at Fort McIntosh at Laredo he applied again, but was transferred before he could become a citizen. He took his oath of citizenship at a special hearing before Federal Judge T. M. Kennerly at Houston several days ago.

Indo-China Protests Arrests By Japs

VICHY, Unoccupied France, Sept. 26 (AP)—French Indo-China authorities have protested vigorously to Japan charging violation of French sovereignty as a result of sudden, widespread arrests by Japanese troops in the French colony, it was announced officially today. The strongly worded protest declared the action of the Japanese command was "an indisputable violation of French sovereignty despite the solemn guarantee by the Japanese government in all accords signed up until now between it and the French government." Full French sovereignty in the Asiatic colony was insisted on in a protocol signed between France and Japan only two months ago giving Japanese troops the right to occupy bases in southern French Indo-China. Second Army Puts 350 Tanks Into Maneuvers

By RICE YAHNER WITH THE THIRD ARMY IN LOUISIANA, Sept. 26 (AP)—The third army aimed its two fastest and most powerful divisions at the second army today, swinging its mechanized force and a motorized infantry division across the Sabine river and starting a drive northward. With more than 350 tanks as the striking power, the second armored division hit the road during the night, drove up through East Texas and struck for the flank of Lieutenant General Ben Lear's army defending Shreveport. Supported by the second infantry division, artillery, infantry and engineers in trucks able to keep up with the 25-mile-an-hour battle pace of the tanks, it was the most powerful team that has been assembled in the Louisiana war games. Meanwhile to the east slower divisions were pushing northward from the Red river to the Texas-Louisiana border. General George C. Marshall, army chief of staff, was on hand to witness the unprecedented field exercises between the two armies with the biggest battle of the Louisiana war games in the making. The nearly 400 planes of the third army air task force were sent on bombing and fighting missions in preparations for a crushing attack but disposition of the force was kept secret as long as possible. During the night third army planes kept tabs on movements of the enemy by dropping flares so bright that divisional insignias on the vehicles could be read from medium bombers. The Lake Charles airport was bombed this morning by second army planes but the ground was clear of planes at the time.

Football Will Die, Says Phog Allen

LIBERTY, Mo., Sept. 26 (AP)—Dr. F. G. (Phog) Allen, head basketball coach at the University of Kansas, predicts inter-collegiate football will cease to exist as a big business after the war. "The economic structure of the nation will be such that no money will be available to pay the athletes as it is being done today," he told the William Jewell college football team at a kickoff dinner last night.

Market Briefs

NEW YORK, Sept. 26 (AP)—Scattered stocks grasped at recovery straws with mild success in today's market but many leaders exhibited a notable lack of rallying power. Selling dried up at the start and, for a while, blue chips were well distributed. Few weak spots then appeared and gains were cleared in numerous cases. Trends stiffened for a few moments, rails and specialties in the final hour and the close was moderately mixed.

Dealings were sluggish throughout with transfers for the full proceedings around 500,000 shares against 1,170,000 shares in yesterday's slump. Am Can 2 3/4, 2 3/4, 84, 84. Mainly About People

Regular meeting of the Pampa Lions club was held a noon Thursday. There was no program. Announcement was made by Arthur M. Teed of the barbecue to be given by the Girl Scouts this afternoon near LeFors. Attendance at the Lions luncheon was 40. There will be no kid dance at the Southern Club tonight. Manager. (Adv.)

County Judge Sherman White, County Attorney Joe Gordon, County Clerk Richard Thut, and Sheriff Cal Rose, were among Pampans attending the fifth annual Alumnae fair at Alameer yesterday. Others from Pampa included Mrs. W. E. James, Mrs. Glen Pool, Clarence Loveless. All members of the county commissioners court also attended the fair. Wanted to rent by responsible man, large bedroom, private bath, large closet space. Nicely furnished. Prefer Cook-Adams. Write box 387. (Adv.)

An amendment of \$3,000 in the road and bridge fund budget was approved by the county commissioners this morning for the induction of a large school. A list of other courses to be offered will be given in the Sunday paper.

James Gordon McConnell was named leader and E. L. Henderson assistant leader of the 10 Gray county selectees who left here this morning for the induction of a station at Fort Bliss. Gray county is to furnish 15 selectees for the next call, which will be on October 9.

A bargain in indirect lighting fixtures. Used less than 2 years. Excellent condition. Inquire Pampa News. (Adv.)

Mrs. Dan Glaxner, 701 N. Gray, was dismissed this week from the McCleary Clinic & Hospital, at Excelsior Springs, Mo. She has been under treatment there since September 11 and is now much improved in health.

Second week of the September term of 31st district court will open here Monday. It will be the first jury week of the term. A panel of 45 petit jurors are to report. Members of the grand jury completed their work for the week and adjourned yesterday for October. No more indictments beside those made the preceding day were returned. The grand jury is to reconvene on October 13.

Married in a ceremony yesterday afternoon in which Justice of the Peace D. B. Henry officiated, were Martin Alex Lee and Mrs. Dora Ethel Gray. Recorded in 31st district court yesterday was the dismissal of 13 divorce cases for the reason that they had been on docket for several terms without appearance of either party. First of the 13 was filed on January 19, 1940; last on August 5 of this year. A divorce was granted in 31st district court yesterday in the case of Ethel Alberta Larner vs. Thomas Earl Larner. Ethel Larner was awarded custody of Thomas Charles Larner, minor; defendant is to pay \$20 a month toward child's support.

Longhorn Offered To Washington Zoo

WASHINGTON, Sept. 26 (AP)—Sightseers in the capital's famous zoological park soon will be able to gaze upon a genuine Texas Longhorn steer. The zoo is one of the largest in the country and contains rare animals, but in its 50-year history it has never had a Longhorn. Gift of a 1200-pound specimen, which has roamed the Tom East quarter-million-acre ranch in south Texas, was offered Dr. William M. Mann, director of the park, by Representative Patman (D-Tex.) on behalf of East. Presentation of the animal is expected to be made in a couple of weeks through the Texas Club of Washington, which Patman heads. An official of the Texas Cattle Raisers association, Joe Montague of Fort Worth, worked out plans for the presentation with Patman and Dr. Mann. He said the steer had a horn-spread of 8 feet. The East ranch is near the great King ranch, owned by the family of Representative Kleberg (D-Tex.). East and Kleberg are brothers-in-law.

New Course In Gas Industry Offered

By C. M. DAVIS, Coordinator A new course in gas measurement and gas handling is now ready for the night school program. The course will include a brief history of the gas industry, practice in the use of all kinds of equipment employed in gas measurement, field trips to see the equipment in operation and other interesting features. Reno Stinson has spent a great deal of time in working on this course which has been simplified so that everyone will get worth while information from it.

Watch for the registration slip which gives the full list of courses that will be offered in this year's vocational program. Remember to send your registration slips thru your company mail so that your area coordinator can collect them or cut out the registration slip from the newspaper and send it to P. O. box 955, Pampa. Listen each night over KPDN between 6:05-6:10 for information about the vocational program. Remember the organization meeting at 8 p. m. Thursday night, Oct. 2, in the Pampa Junior High school auditorium. Mr. Barton Doucette has been secured to teach blue print reading and sketching for the industrial trades and petroleum industry. He has had a few years' experience in practical engineering and has also had vocational teaching experience. A list of other courses to be offered will be given in the Sunday paper. KPDN carries more information about the industrial classes each night between 6:00 p. m.-6:15 p. m.

High Winds Sink Ship In Caribbean

(By The Associated Press) High winds in the Caribbean and on the New England coast early today had two ships in trouble and had caused some damage inland. The 3,900-ton S. S. Essex reported she was hard aground near Southeast lighthouse on Block Island, R. I. A motor life boat from the Block Island coast guard station took off the Essex' crew. The sea was smooth except for a light swell. Coastguards expressed the opinion the steamer was so hard aground she was "likely to stay there."

From the Caribbean, where a hurricane was reported northwest of Curaeao, came the distress call of the S. S. Ethel Skatel, which reported she was sinking. A coast guard cutter from Puerto Rico was on a 400-mile run to the ship's last reported position 200 miles south of Haiti. Winds reaching a velocity of 98 mph swept across Buffalo, N. Y.

Pennsylvania now has more miles of hard surface road than any other state.

Yesterdays blowing down trees and causing other property damage.

The coast guard reported all small Lake Erie boats had made port before the storm struck. Rochester, N. Y., reported a 60-mile wind and some damage to automobiles and small boats. Canton, N. Y., police reported highways "black with felled trees and power lines" and advised against travel in northern New York. In Ohio, property loss was counted in hundreds of thousands of dollars and at least one person was known to have died as result of a near-hurricane which swept across portions of the state yesterday. A farmer was killed at West Jefferson, O., by a falling tree.

Miami Remodels School Buildings

MIAMI, Sept. 26—Workmen have been busy since before the opening of school completing improvements in different departments both in grade school and high school. Most attractive is the new reception room opening into the offices of superintendent and principal which has been converted from the agriculture room on the

first floor of the building. For agriculture and F. P. A. the students meet in the room formerly used by the band, and a well-equipped shop has been installed in the basement.

A hand room is being completed in the former shop located on the south corner of the school grounds. This will be much more roomy, private, and satisfactory all around for the band and the rest of the school, as practice will not interfere with study periods.

Changes in grade school largely have been made to facilitate departmental teaching as the students now change to different rooms for different subjects in the upper grades, instead of the teachers changing rooms.

The United States has more than 4,000,000 motor trucks.

Today's War Analysis

By DEWITT MACKENZIE

The most important news from the Russo-German war front is the Moscow claim that the Bolsheviks have thrown back a heavy Nazi attack on the strategic Crimean peninsula, inflicting severe losses on the enemy.

The assault by the Nazis represents an attempt to gain control of the Black sea for an attack on the lower Caucasus in conjunction with the German drive through the Ukraine toward the northern gateway to the Caucasus. The loss of the Crimea, on which lies the chief Soviet naval base of Sevastopol, would represent a major disaster for the Reds.

Beyond this, while literally millions of tired, grimy soldiers continue the bloody thousand-mile battle at close grips, the Russian theater hasn't produced a report from either side which on the face of it would greatly alter the position during the past twenty-four hours.

Maybe there has been an invisible change. Perhaps a hard-pressed line somewhere has grown brittle and will snap before long, letting all hell roll through the gap. War is like that.

We do know that the Germans have unleashed more power against the besieged city of Leningrad, but the soldiers and civilians who side by side are defending this ancient and proud metropolis still hold their ground. Likewise in the Ukraine the Nazis continue to fling themselves against hard-bitten Marshal Budenny's army in their effort to smash through into the Caucasus.

Hitler's headquarters claims that the Nazis are continuing to destroy the four Red armies which the German high command announced several days ago had been surrounded east of Kiev, capital of the Ukraine. The number of prisoners is said to have swelled to the colossal total of 492,000.

Moscow describes the German claim of the wholesale capture of Reds in the Kiev sector as "a fresh Hitlerite fake." Time will tell which side is right.

Speaking of fakes, that is a curious tale which comes out of Berlin today that the reason German Jews are compelled to wear a yellow star of David on their left breasts is because all German nationals in the United States are forced to wear the swastika. Nazi officials say the

Friedeman Testifies in Espionage Trial

NEW YORK, Sept. 26 (AP)—Testimony that the United States had obtained German bombsights and was using parts of them was introduced today at the trial of 16 men charged with espionage conspiracy.

William Friedeman, Federal Bureau of Investigation agent, testified

that he had eavesdropped on a conversation March 7, 1941, between William Seboid, FBI counter-espionage agent, and Hermann Lang, a defendant accused of selling secrets of the American-made Norden bombsight to the German government.

Friedeman said he was hidden in an adjoining room when Lang, a German-born draftsman of the Carl L. Norden company, entered the office. He said the talk eventually came around to bombsights.

"Lang said his plant was being enlarged," Friedeman testified. "He told Seboid, 'Bombsight instruments which had been taken from German planes being experimented with at my plant and certain parts are being used. Send this across.'"

"Seboid said he would," Friedeman testified. "Seboid, who testified earlier that he had been commissioned by the German Gestapo to erect a secret radio station and did so in collaboration with the FBI-identified Lang as one of dozens of German spies with whom he worked."

Protective reflectors molded of lucite resin now are mounted on approximately 500,000 automobiles in California, one of the first states to require these reflectors.

Congress Reported To Have Rejected Neutrality Repeal

By WM. R. ARDERY

WASHINGTON, Sept. 26 (AP)—Administration lieutenants in congress were reported today to have rejected a proposal for outright repeal of the neutrality act and to be ready to work instead for legislation making vital revisions.

The repeal proposal was introduced yesterday by Senator McKellar (D-Tenn.), a consistent administration supporter. McKellar, who told the senate that the neutrality law established a policy which "no great nation like ours can indulge in," said today he had acted entirely on his own responsibility. He added he did not know whether the administration would approve complete repeal of the neutrality law.

One well-advised leader told reporters that McKellar's measure was not acceptable to the administration. He said the legislation recommend-

ed by President Roosevelt next week probably would follow the lines indicated Wednesday by Chairman Connally (D-Tex.) of the senate foreign relations committee. Connally suggested that the neutrality law be amended to permit the arming of American ships and to allow them to enter presently-forbidden belligerent ports and combat zones.

The Texas senator declared that some provisions of the neutrality law—such as that granting the government control over munitions exports—should be retained.

Cornett And Arnold Will Also Start

The "other" Pampa Harvester backfield is scheduled to start the game against the Clovis Wildcats here tonight at 8 o'clock. It's been a long time since a Harvester team has boasted two backsfield but this year the green and gold has had combinations and the one that did not start last week will get the nod tonight.

Barker Starts Calling College Grid Winners

Panthers To Play Tigers Friday Night

PANHANDLE, Sept. 26.—The Panhandle Panthers will meet the McLean Tigers in a non-conference game in Panhandle, Friday night, Sept. 26 at 8 o'clock.

The Panthers go into the game as the underdogs due to the illness or injuries of six members of the squad, four of them lettermen, J. T. Broadway, halfback, Roy Carney, tackle, and John Baird O'Keefe, end, are out with the flu. Injuries are keeping out of the lineup Joe Bill Little, guard, Odell Williamson, end, and Leroy Cox, end.

In the season standing McLean has won all games played, defeating White Deer 28-0, and Phillips, regional champions of last year, 7-6. The Panthers won over Claude 13-7 and lost to Shamrock 19-0.

Coaches Jack Atkins and Steve Shepherd expect to send into the game a fighting squad of Panthers to give the Tigers a real battle. The probable starting line-up is: center, Bill Dickinson; guards, Frank Stevenson and Dellis Russ; tackles, Junior Kammer and Wilbur Harts. Ends, Robert Bonner and Boyd DeWald; quarterback, Gabe Herndon; half backs, Spicer Gripp and Ed Patrick; and fullback, Wilfred Boyles. Of these the only letterman is Robert Bonner.

McLEAN, Sept. 26.—The McLean Tigers will come out of their home jungle for their first game on foreign territory tonight when they meet Panhandle.

Fresh from a 25 to 0 victory over White Deer and a 6 to 7 upset over Phillips, it remains to be seen whether the McLean lads can trample the foe on the other than the home range.

Coach Sewell Cox has been making changes in the line-up Friday. The most important probably will be taking Kenneth Dyer from his right end position and placing him in the backfield as a short man. Dyer is the man who has been throwing such savagely effective blocks. Tackling this place will probably be taken over by Robert Batson, or maybe Jack Lisman.

There was some doubt as to whether Arthur Boyd, who suffered a leg injury at his right guard position in the Phillips game, might open the fracas but he is getting along nicely and will be in the line-up unless something unforeseen comes up, Cox said.

It is rumored that Panhandle has one of the strongest lines they have had in years. Two of their tackles are reported to tip the scales at 220 pounds each. Bob Dwight, center, and the heaviest lineman McLean has to offer, will have to hold a rock in each hand to pull the team up to 170 pounds, but local dopsters are anticipating no great trouble in the ground gaining department.

Texas, TCU And Baylor Picked To Win

NEW YORK, Sept. 26 (AP)—Being chapter one of the 1941 version of that ancient and interesting, if unimportant, football guessing game in which every man's on his own and frequently wishes he wasn't.

Washington-Minnesota: How do you like that for the first Saturday of the season? Jimmy Phelan's Huskies have serious designs on the coast conference title but this guesser will take Minnesota where that old rascal, rumor, says Bruce Smith will make everyone forget All-America George Franck, effective this week.

Tulane-Boston college: The Eagles from Massachusetts, Sugar Bowl champions, have lost their coach and a flock of stars since last season but the squad as a whole seems even more powerful than a year ago. Tulane, probably much stronger than a year ago, looks like a contender in the Southeastern conference. Absolutely a sheer guess, Boston college.

Stanford-Oregon: Take another look at that calendar, boy. Are you sure it's only September? Experts in the Northwest think Oregon is the likely dark-horse of the coast conference. We'll find out in a hurry. In the meantime, one vote for Stanford.

Purdue-Vanderbilt: Speed to burn on this Purdue outfit, Vanderbilt's on the upgrade. At this early stage it's simply blind man's bluff. All right, Purdue.

Ohio State-Missouri: In which Paul Brown makes his coaching debut at Ohio State. The Buckeyes should do less now-you-see-it-now-you-don't stuff and more scoring. This should be close but Ohio State.

Notre Dame-Arizona: No pushover but Notre Dame should get Frank Leahy's coaching regime off on the right foot.

Duke-Wake Forest: It seems unanimous that Duke will lead the Southern conference parade. We won't argue—yet. Therefore, Duke.

Colorado-Texas: Dana Bible's Longhorns—Jack Crain, Pete Layden and company—are the ones to beat in the Southwest. They should take this one eased up.

Georgetown-Mississippi: In which the nation's capital will take a Colored, playing Sam Houston State Oct. 1 to blast off the lid.

Here's how they look in the opening hours:

Texas vs. Colorado at Boulder—Texas by a comfortable margin.

Texas-Christian vs. Tulsa at Fort Worth—T. C. U. in a wild scoring battle.

Baylor vs. Hardin-Simmons at Waco—Baylor to end the Cowboys' 14-game winning streak but it's a close thing.

Southern Methodist vs. North Texas State at Dallas—the usual tough first half but with S. M. U. winning by a couple of touchdowns or so.

Texas A. and M. vs. Sam Houston State at College Station—the Aggies may find Sam Houston more than a breather but don't worry too much about the Kimbrough-Cadets: They can take care of themselves.

Arkansas vs. Central Oklahoma State at Fayetteville—we'll take Arkansas with only a minimum of trouble.

Washington State-U. C. L. A.: T. A. C. L. A. Navy-William and Mary: The Tars may well be one of the East's real powers and rate the nod here.

Temple-Kansas: Can't get past Temple.

Mississippi State-Florida: Florida's coming up but may not be ready for this one. Mississippi State.

Kentucky-Virginia Tech: Taking Kentucky's Wildcats.

Louisiana State-Holy Cross: Both look for better seasons and this ballot for Louisiana State is based solely on whatever edge a home team may enjoy.

Virginia Military-Clemson: Looks like Clemson.

North Carolina State-Davidson: Picking State.

North Carolina-South Carolina: The Gamecocks have some first-class players but the bulge belongs to North Carolina.

Washington and Lee-Sewanee: Like W. and L.

Virginia-LaFayette: Unbeaten last year, LaFayette has no star as bright as Virginia's Ed Dudley. He may sell the difference. Virginia.

Texas Christian-Tulsa: Tulsa upset the Horned Frogs a year ago and might again. Just to be stubborn, T. C. U.

Oklahoma-Oklahoma A. and M.: The Sooners, under a new coach, Devey Luster, should prove tough. Oklahoma.

Skipping over the chalklines otherwise: Denver over Iowa State; Montana over Brigham Young; Wyoming over Greeley; San Jose State over Utah State; Utah over Idaho; Colorado State over Colorado Mines; Iowa over Drake.

AP Will Give Full Coverage Of World Series

NEW YORK, Sept. 26 (AP)—The new coverage of the National League and American League series, which will be given by the Associated Press Sports Writer and the University of Texas Longhorns play the University of Colorado a top inter-sectional game of the day.

While Colorado is not ranked among the country's major powers, the Buffaloes do sport a veteran-splintered team of strong possibilities. One that should either confirm reports of Texas' brilliance or burst the bubble before it starts to float.

Last season Texas crushed Colorado 29-7 in its opening game. It's not likely to be that top-heavy this time. The long trip, loss by Texas of Stan Mauldin, veteran tackle-center, because of a fractured wrist, and possible limited action by Jack Crain and Noble Doss, backfield stars nursing injuries, should make it a rugged test for the Longhorns.

Colorado has 15 lettermen but appears weak on reserve strength, something Texas doesn't have. They are three deep in Longhornville.

This will be one of two inter-sectional games as all but Rice of the Southwest conference teams swing into action.

The Christian university opens with Tulsa in a battle due to test the Frogs' new-found air magic—and also to test the stamina of a reserveless line.

Rice does not start the drive this week, playing Sam Houston State Oct. 1 to blast off the lid.

Here's how they look in the opening hours:

Texas vs. Colorado at Boulder—Texas by a comfortable margin.

Texas-Christian vs. Tulsa at Fort Worth—T. C. U. in a wild scoring battle.

Baylor vs. Hardin-Simmons at Waco—Baylor to end the Cowboys' 14-game winning streak but it's a close thing.

Southern Methodist vs. North Texas State at Dallas—the usual tough first half but with S. M. U. winning by a couple of touchdowns or so.

Texas A. and M. vs. Sam Houston State at College Station—the Aggies may find Sam Houston more than a breather but don't worry too much about the Kimbrough-Cadets: They can take care of themselves.

Arkansas vs. Central Oklahoma State at Fayetteville—we'll take Arkansas with only a minimum of trouble.

Texas Tech Claims Fastest Team In Nation

LUBBOCK, Sept. 26 (AP)—Texas Tech's football team wishes to test ponderous boys on the other side swoosh.

Out here they claim it's the fastest team in the nation. The backfield averages 11.4 seconds for 100 yards in full equipment on soft, grassed turf.

And the line isn't the least bit slow. For instance, Avon Sewalk, 235-pound tackle who is 6 feet 3 inches tall, raced the century in 13 flat carrying all the regular gridiron paraphernalia.

The average weight of the Red Raiders at 180 pounds—a comfortable size for speed and power combined.

The coaches don't say so but Tech has visions of another Bowl game. Twice the Raiders were in the picture, the last time in 1939 against St. Mary's Gales in the Cotton Bowl.

A team with two potential All-Americans should have what it takes. Anyway, they're booming Charlie Dvoracek, 194-pound ironman fullback, and Clarence Tillery, 187-pound end.

Dell Morgan, who succeeded Pete Cawthon as coach, this season after Tech in 16 years had won 104 games, lost 44 and tied 14, says after working at Auburn and Rice and looking over the fullbacks in the south and southwest, that Dvoracek is the best of them.

There are as many motor cars in operation in the state of New York as there are in Germany, Italy and Japan combined.

Always keep the tires equipped with valve caps to shut dust and dirt out of the valve neck.

THE PAMPA NEWS

Talbot Picks Lou Nova To Whip Louis Monday

By GAYLE TALBOT (By The Associated Press)

NEW YORK, Sept. 26 (AP)—Looking back on Joe Louis' fights and recalling the ferocity with which he has torn into the big fellows he could hit easily, practically routing them with a rain of punches, takes a lot of will power to pick Lou Nova to win the heavyweight championship from the big negro.

There is the additional hazard that most "professionals" of the fight game—the men who undoubtedly know the business best—are stringing along with the bomber.

Perhaps a score of managers, trainers and promoters encountered yesterday at Nova's camp virtually were unanimous in believing that the champion would belt Nova out inside 10 rounds when they meet Monday night at the Polo grounds.

Monday night happens to have had a hunch for a long time that Nova was the one fighter with the physical equipment and the heart required to whip Louis, and there is no sense in backing down now.

Maybe he won't, and maybe he will be only another heart-broken heavyweight after he has sampled the Louis dynamite, but it will be after a terrific fight. That much is certain.

The principal thing is that Nova can take it. Louis will clout him many a time, probably will have him on the floor not long after the bell rings. But the surest thing in the world is that Nova will get up. And he is trained to travel for 15 rounds at the only pace he knows. Joe, to repeat, has not fought a man like that. He might not like it.

Dodgers Tear Clothes Off, Wreck Train

By JUDSON BAILEY

NEW YORK, Sept. 26. (AP)—Brooklyn went batty over its new National League pennant today but nobody was nearly as delirious as the Dodgers themselves.

During the four hours it took their special train to make the trip home from Boston last night they steam-heated up the greatest celebration any baseball team ever has had for the clinching of a championship.

President Larry MacPhail, who had remained here to pass out World Series tickets, set up the party with a telephone call to Boston stocking the train with champagne.

The wheels hardly had started rolling before the car's started popping—and by the time the effervescent entourage pulled into Grand Central station a little before midnight the Dodgers were hilarious and the train was a wreck.

The Dodgers let down their hair and howled—and it was something to behold.

Somebody thought it would be a grand idea to rip the shirt off Coach Charley Dressen and before his chummy companions were finished they had him almost in the nude. Then they started on each other and more shirts were ripped to pieces within a few minutes than a laundry could do in 10 years.

All the blinds in the dining car were torn down, too, but that came later.

Pee-wee Reese and Pistol Pete Reiser pried up and down the aisles scurrying everybody with champagne, until the kids were tipped off that that was something to drink. Then they turned to shampooing the porters and waiters who screamed snaph.

This went on for hours and for miles and miles—but you get the general idea.

It was the unbelievable end to an unimaginable tour that lasted for two weeks and was more like traveling circus than a ball club on a business trip.

Clown Prince Dodgers New Kings Of National League

By JUDSON BAILEY

Associated Press Sports Writer

The Brooklyn Dodgers, long the clown prince of baseball, are the new kings of the National League.

The Kids from Kings county, New York (the same as the borough of Brooklyn to everybody except the district attorney) came through in royal glory at Boston with a 6-0 conquest of the Braves yesterday and clinched their first pennant in 21 years.

The St. Louis Cardinals cooperated by losing a 3-1 decision at Pittsburgh to bring the most strenuous championship struggle in recent years to a sudden stop.

As a result of the victory and defeat, the Redbirds were left 2½ games behind the Dodgers with each club having two games left to play.

The standings today:

Games To Play			
Won	Lost	Pct.	Behind Play
Brooklyn	99	53 .651	.. . 2
St. Louis	96	55 .636	2½ .. 2

Somehow the session at Boston, perfectly played on the part of the Dodgers, seemed like an anti-climax. The Bums had had to battle for every inch in their furious, almost frantic, foray against the western clubs of the league and even against the lowly Phillies.

In Boston yesterday they knew they were in and were just marking time. But they certainly can keep time. They never missed a beat.

Whitlow Wyatt, their friendly, baldish pitching ace, produced a masterful five-hit performance to achieve his seventh shutout and 22nd victory of the season. His teammates loosed a vigorous offensive which young Pete Reiser clinically

ST. LOUIS, Sept. 26.—(AP)—The Cardinals' victory over the Dodgers yesterday was a 3-1 decision at Pittsburgh.

BOSTON, Sept. 26.—(AP)—The Brooklyn Dodgers defeated the Boston Braves yesterday 6-0.

ST. LOUIS, Sept. 26.—(AP)—The Cardinals' victory over the Dodgers yesterday was a 3-1 decision at Pittsburgh.

An Independent Democratic newspaper, publishing the news fairly and impartially at all times and supporting in its editorial columns the principles which it believes to be right and opposing those questions which it believes to be wrong, regardless of party politics.

PLEDGE OF ALLEGIANCE—"I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one nation indivisible, with liberty and justice for all."

Utilities Meet Emergency

To just what extent have the executives of the private electric utility industry risen to the needs of the national emergency? An answer to that important question was recently given by a high government official—Basil Manly of the federal power commission. Mr. Manly described negotiations between the commission and a leading Eastern utility concerning power production for major defense industries. Those negotiations ended in complete agreement on two essential principles: first, that there should be no excess profits in meeting the requirements of national defense; and second, that the investment facilities useful only during the emergency should be amortized during that period.

"It is important," he said, "to emphasize the fact that this agreement was reached with the concurrence of the utility involved. The executives of American utilities do not in my opinion, desire or expect to earn excess profits from their activities in meeting the enormous demands for power arising out of the requirements for national defense. With rare exceptions they have cooperated wholeheartedly with the government in meeting those demands. And, in those cases where efforts may be made to convert the nation's power requirements into additional dollars of excess profits, the regulatory processes of the state and federal commissions should be, and will be, exerted effectively to restrain them."

The spirit shown by utility managements is the kind of spirit which will make this vast defense program a "total" success in a world involved in "total" war. It is particularly noteworthy in the light of the vicious, progress-delaying political attacks being made on the industry by a group of self-seeking politicians whose real goal is the ultimate socialization of all this country's basic resources. Given a chance, private enterprise will prevent any power shortages in this country—and will do it with private money, not tax money. In the name of national defense, it is high time to call off the utility-baiters in congress and other branches of government.

Disgraceful Demand

The act of 1,250,000 railroad workers in authorizing a strike because impossible wage demands have not been met, presents the country with a dangerous defense problem.

The railroad workers have deliberately refused mediation and arbitration. They have held tenaciously to wage demands which, if accepted in their entirety, would cost the railroads the sum of \$900,000,000 a year—more than 20 times the average net income of the railroad industry in 10 years ending 1940! They have said, in effect, that if the railroads and the government mediation board do not capitulate, a defense program on which the very life of free, democratic government in the world may depend, will be brought to a standstill.

These railroad workers are the highest paid major working group in this country—and that means they are the highest paid in the world. Their hour and working standards are unsurpassed in any industry. An elaborate, government-enforced arbitration system exists to protect them against any injustice. Their wages are higher than in the boom year of 1929, even as their living costs are lower. Yet they vote for a strike—despite the need for accelerating the arms program, despite the president's declaration of an unlimited national emergency which demands the full, the unqualified cooperation of every American. No one needs to be told what stoppage of rail transport would mean. The vast bulk of war production, no less than normal production, must move by rail, and by rail alone. Thus, a railroad strike in this country would do more for Hitler and his Axis than a dozen military victories in Europe.

It is impossible to exaggerate the gravity of this situation: 1,250,000 highly paid, highly favored workers are threatening an out and out holdup strike against the safety of 130,000,000 Americans. This is a disgraceful example of war profiteering.

Oil For America

As an example of how American industry responds in an emergency, on its own initiative the Socoy-Vacuum Oil company recently increased the use of tank cars and barges, in place of its tankers which were taken over by the government. While this involves higher costs, it helps relieve the oil situation in the East, as this one company is now moving more than 15,000 additional barrels of oil a day, and expects to greatly increase that figure soon.

This is an example of how the oil industry is doing everything possible to meet an abnormal situation. There is an abundance of oil producing capacity, and the problem is simply one of transportation resulting from the transfer of tankers to Britain.

American industry, of its own volition, has always moved swiftly whenever a new situation arose. The oil industry is efficiently performing one of the biggest jobs in its history.

The Nation's Press

LINDBERGH, WILKIE, AND THE JEWS (Chicago Tribune) Col. Lindbergh and Mr. Wilkie have within the last week brought into the public forum the relation of the American Jews to the drive to push this nation into war.

This is a question that The Tribune, in common with almost all other newspapers, would be reluctant to discuss in normal times. But these are not normal times and what follows here is printed in the belief that it is better to handle the subject in public discussion than to leave it to the savagery of irresponsible pri-

Common Ground

By R. C. HOLLES This column contends there can be no satisfactory progress until we measure the shares of each man by the common yardstick of the God-given equal right to create and enjoy anything anyone else has a right to create and enjoy.

THE RIGHT TO EXPRESS AN OPINION

Invariably those people who advocate more and more government or authority under revealed religion, when they are discussing a question and cannot explain how their theories will work out, will make this statement—"I have as good a right to express my opinion as you have."

They would leave the impression by this statement that their opinion is equally useful and should have equal consideration and influence as the opinion of those who do not contradict their proclaimed belief in the accepted axiom, that all should be equal before God and a just government.

In the United States anyone has a legal right to express his opinion unless it is to overthrow the government by force. The purpose of permitting people to express their almost unlimited opinions, no matter how absurd, contradictory or harmful they would be if put into practice, is that these people may have an opportunity to learn by having their contradictions pointed out to them. It also prevents any one from having too much dangerous authority.

And if man cannot answer questions about how his short cuts to improving the lot of the workers will make it possible for each and every man to get more for a given amount of work, then this man, if he continues to express these contradictory opinions, should be regarded as one unable to reason or simply is trying to promote his own selfish interests without regard to the inherent rights of others.

In either case, his opinions should have no influence or consideration in our social relations. To continue to express an opinion when one cannot logically answer questions about his theories that would take away from another an equal right to express an opinion, is either a wicked or thoughtless. It is either to fail to understand the necessity of the oneness of mankind and the principle that all men have equal rights to pursue happiness or to be a pure individualist and to think only of self, as an animal more nearly does.

Of course, as Herbert Spencer said, "It is for each to utter that which he sincerely believes to be true and add his unit of influence to all other units of influence and let the results work themselves out."

But the man who will not answer questions has no right to contend that his opinion is as worthy of consideration or respect as the opinion of a man who will answer questions and whose opinions are in harmony with the law of equal freedom.

A REAL ISOLATION

What those people who are opposed to millions of American boys losing their lives in Europe are trying to do is to isolate our people from Europe's hatreds and wars.

It is important to understand what is meant when the word "isolation" is used.

Private conversations. We doubt if many of our readers are unaware of the prevalence of those conversations in the last year. We might interject here that so far as The Tribune is concerned, as an organization, it has no other racial problems. The proportion of Jewish employes is, we imagine, roughly parallel to the proportion of Jews in the population of Chicago, and it includes two of the writers for this page. This is, of course, accidental. They were not hired because they were Jews, but like all the other employees, because they were the people best qualified for the jobs they hold. The only virtue we claim in the matter is the common sense that refuses to let prejudice deny us a group of capable coworkers.

Col. Lindbergh said that the Jews of America, as a group, are working for Jew, also he conceded that a few far sighted Jews see the folly of this course and oppose it. He might have added that other racial groups whose hardships have been overrun by Hitler are also working for war. But neither these other groups nor the Jews are unanimous in this. It may be recalled that while the only ward in Chicago that voted for war in The Tribune's poll was predominantly Jewish, the community that voted gave only the barest majority for war.

Jews, as Col. Lindbergh said, have every reason to hate and fear Hitler because of what he has done to the Jews in Europe. But the case does not stop there. Other Americans no more wish to be treated as Hitler has treated the Germans than American Jews wish to be treated as he has treated the Jews. The case for American participation in the war does not rest on detestation of Hitler. If it did, our navy, with the consent of the whole nation, would have started across the Atlantic the day Poland was invaded.

Opposition to war does not rest either on any liking for Hitler or the slightest trust in his intentions regarding this country. It rests, first, on the sound military evidence that whatever his intentions, he is powerless to execute them against an adequately prepared America; and second, on the fact that our participation in the war will bring on this nation bankruptcy and a centralized, despotic government different in no essential detail from Hitler's despotism.

It is only among war mongers that there is any talk of pro-Hitlerism. That has had little effect on most Americans, but it may have had effect on some Jewish people. It is an unjust stigma of favoring the bitterest enemy of their race, have adopted a course designed in the long run to subject them to the very persecution they fear. Hard times and despotic government, the inevitable results of our participation in the war, are the necessary forerunners of persecution.

Other Americans have but one demand that they may rightfully make of American Jews and that is the same demand that they rightfully make of Americans of British, Polish, Italian, Irish, or any other descent. It is that they think and act as Americans. This does not mean that they should abandon religion, or customs, or sentimental ties. It does mean that in political matters, and particularly in matters touching our foreign relations, they should be wholly American and not members of any racial group.

We have mentioned Mr. Wilkie. He attempted, without success, to foist a common heresy on the senate—namely, that to criticize a Jew for anything is to be guilty of anti-Semitism. The motion picture producers of Hollywood are not under fire for being Jewish, although a number of them are of this faith. They are under fire for engaging in propaganda for war, and to drag out the false issue of anti-Semitism, as Mr. Wilkie has done, does them and all other Jews in America a great disservice.

The greatest genius is he who learns most from others.—LIBERTY, A Magazine of Religious Freedom.

When a state limits the thinking of men, it betrays meanness and hypocrisy among its citizens.—LIBERTY, A Magazine of Religious Freedom.

"GEE, YOU SCARED ME—I THOUGHT YOU WERE CHAPLIN!"

Around Hollywood

By PAUL HARRISON

HOLLYWOOD, Sept. 26.—For any movie customer who has grown a little tired of the symmetrical landscape of stellar faces, the rugged pan of Jean Gabin will be a welcome change of scenery. Sculpturally, it is of the truly heroic mold—like the Rocky Mountains—but the only screen hero Gabin resembles is Spencer Tracy.

In this country, following the releases of such pictures as "Pope Le Moko" and "Grande Illusion," Gabin became generally identified as "the Spencer Tracy of France." And the fans of that unhappy nation refer to him as "the Jean Gabin of America."

Such a situation would whip up jealous rivalry between two average—and particularly, feminine stars, but Gabin and Tracy are pals. Soon after the Frenchman came here, he spent an evening together. Gabin knew no more than six words of English, and Tracy hadn't ever learned to pronounce his guest's name. (It's Ga-bann, with the last syllable accented.) "Being actors, they made a game of trying to make each other understood. By the time Gabin went home he could say with fair clarity: "Okay, but make it a short one."

BROOKLYN ACCENT You ought to hear him now. In a little more than two months the newcomer has learned to speak American without accent and with few of the inverted phrases that many foreigners use. Matter of fact, he sounds amazingly like Jimmy Cagney.

All this has been done in four daily hours of studying by a fellow who generally played hooky from school and ran away from his father at the age of 12. Gabin has revised other early tastes. His father, a cabaret comedian, always had urged Jean to be an actor but the son wanted a part of it. What he most wanted, for awhile, was to be a prizefighter like his brother-in-law.

So he fought and worked in a foundry, and presently had to put in his two years of military service. Out of that, and unable to find any sort of job, he finally allowed his father to find something for him—a place as a chorus boy in the Folies Bergere. Gabin thus became the most unusual-looking gentleman of the ensemble since Wallace Beery's hoofing days on Broadway.

He became a song-and-dance man, soon was doing comedy and (what he hated) on the stage and in French pictures. It was through dramatic parts that he got to be a top star in his own country.

LIKES HIS GINGER Gabin trotted around with Marlene Dietrich when he first was brought to Hollywood. His current attraction, though, is Ginger Rogers. Back in France, he admitted, friends used to rib him about the blind crush he had developed for Ginger, just from seeing some of her pictures.

It was several weeks before Tim Miss Rogers, and by that time he had learned enough English to ask her for a date. They're getting along fine.

People You Know

By Archer Fullingim

The Francis Avenue Red says that if you think women are cowards, just blow your auto horn to make the woman who drives a car with license No. 493-460 get out of the way.

Gus Hallborg, former Pampa Oil-cr, back in Pampa for a visit, finished up the season with San Diego, after pitching for Anaheim all summer. He is carrying a middle finger in a steel brace due to a chipped bone suffered recently.

Gus was elated that his former manager, Grover Setz, pulled the Clovis team out of the cellar to the championship, although he regretted that Pampa did not do better than it did.

"I wonder why Grover doesn't get in the big-time managerial business," said Gus. "I believe he's got the stuff." Oh yes, one reason why Gus came back to visit in Pampa is dark-eyed, dark-haired and pretty Mary Jane Davis.

Mrs. Stella Pollard

In observance of Gold Star Mother week, this column dedicates the following poem to Mrs. Stella Pollard, above, whose son, Edward Pollard, was killed in the Argonne during the World War. Another son of Mrs. Pollard, Maurice, is also a World War veteran. Mrs. Pollard has lived in Pampa since 1926. Her home and place of business are at 610 West Foster.

This column has learned to appreciate her gentility, sweet disposition and kindness.

GOLD STAR MOTHER They took her bright-eyed boy away To die on the fields afar, And so they took her sky away And left her with a star.

The patter of his baby feet With daylight used to start, His baby shoes are empty now As empty as her heart.

And there's his helmet, worn while he Was fighting for the cause; Fighting out on foreign soil A war to end all wars.

Her boy who loved the goldenrod That flamed on hills of home, Was killed on some unfriendly shore Across the bitter foam.

One day a year her grateful land Bedizens her with praise; One day a year she tries to smile, But oh—the other days.

To save metal, oil for the mechanized armies of Germany is carried in bottles made from waste paper.

Sunday School Lesson

NATIONS MUST HARVEST TRUE FRUITS OF VICTORY TO INSURE LASTING PEACE

Text: Revelation 21-17, 10-12, 22-24

By WILLIAM E. GILROY, D. D.

Editor of Advice

Our last lesson was one of overcoming and victory, but many things remind us that while victory at a certain stage in conflict is the all-important thing, what is ultimately more important is what happens after victory. Within our own time we have seen a world war won, and the nations that won it losing the peace because they failed to reap the true fruits of victory.

In this lesson we come to the fulfillment of history in the achieving of all that victory makes worthwhile. It is a glorious picture that the Book of Revelation paints for us in his description of the New Jerusalem.

The picture is poetical and symbolic, but here again the realities of it are not hard to grasp. Lovers of the sea might wonder why it had no place in the ultimate blending of heaven and earth, but the sea for the ancient world represented incredible dangers. It separated countries and peoples, and without the triumphs of modern navigation it was full of peril.

It is instructive that the writer represents the Holy City, the New Jerusalem, as "coming down." In his conception there is to be an earthly realization of God's triumph; it is not merely a matter of earth ascending toward heaven. The picture that he gives is in striking contrast with the earth and world as we know it. For those to whom the author of the book was writing, even with their Christian faith and fortitude, the world was a place of sorrow and trial. Yet God was to wipe away the tear from every eye; there would be no more death; no more mourning or crying.

Instructive also is the fact that the seer saw no temple or church in the Holy City. The city itself had become the Church. All of life in this New Jerusalem was holy, and all its relationships were the relationships of worship and truth.

Is this only a dream, or is it something for the attainment of which men may live and work and pray? Shall we see the nations walking in the midst of the light of this Holy City and the kings of the earth bringing their glory into it?

It is a vision that has been realized in the lives of some men. There are those who have lived unselfishly and nobly in the spirit of a world made perfect. If it has been realized for some, is not this the hope that it may be realized for others and that earth and heaven shall yet truly meet in the New Jerusalem?

If the whole of humanity were as good as some good men whom we have seen and known, the dream would be realizable. Who can say that humanity may yet be as good as those who represent humanity at its best?

So They Say The protection we devise for our dependents will prove as fragile as an empty eggshell unless Hitler is defeated.

—LEWIS W. DOUGLAS to the National Association of Life Underwriters.

It is a magnificent time of challenge and a wonderful thing to be alive today and faithful to the place that belongs to us.

—ROBERT ESKINLEY, director, emeritus, Town Hall.

The Hitler house is built upon the sands, and the winds are blowing.

—Vive President HENRY A. WALLACE.

TEX'S TOPICS

By Tex DeWeese

JUST got to checking the desk memo and discovered that this will be one of the busiest week-ends in Pampa history. First there was the luncheon at noon for K. S. Adams, Phillips Petroleum Co. president, and U. S. Rep. Gene Worley.

This evening comes the Girl Scout barbecue, east of LeFors where Mr. Adams will speak. This afternoon and tonight brings the annual flower show of the Pampa Garden club in City auditorium.

The blackouts will attract thousands of Pampans downtown and also hundreds of visitors from out of the city. A thrilling program has been arranged to make this event one of the most realistic of the kind staged here.

It is set to begin at 10 p. m. Saturday. Pampans hope that Governor Stevenson, who goes to Berger from here tomorrow afternoon, will be able to come back at night for the blackout defense demonstration being sponsored by the Pampa unit of Texas Defense Guards.

FOR the benefit of those who are ill or who cannot possibly get downtown for the blackout demonstration, Radio Station KPON will stay on the air until 10:30 o'clock Saturday night in order to broadcast a bomb-by-bomb account of the air-raid, defense effort. KPON microphones will be set up on Clydes street in front of the LaNora theater and station announcers will describe the blackout and air attack from that point.

Soldiers will patrol the streets, representatives of the Red Cross Emergency Committee will be on duty. Jayce members will serve as air raid wardens. Boy Scouts will take over the role of lookouts and warn the city of approaching enemy planes by relaying the word to Fire Chief Ben White who will officially proclaim blackout time by sounding the Central fire station siren in one long, continuous blast.

The "all clear" signal will come 15 minutes later with intermittent blasts of the siren.

The only main switch in the city to be pulled at blackout time will be the one controlling street lights. All other blackout precautions will be voluntary on the part of businessmen, motorists, and persons in the residential districts.

It is asked that the fullest cooperation possible be given to throw Pampa into complete darkness for the 15-minute period. Flots of the raiding planes will be announced by siren and station announcers will describe the blackout insofar as it is possible and practical.

GIANT searchlights will sweep the night skies from atop the LaNora theater building. These lights will endeavor to pick up the raiding planes. The searchlights will be tested tonight.

At the southwestern Bell Telephone offices everything will go on an emergency basis during the blackout and air raid. Telephone officials welcome the opportunity to test their efficiency in emergency conditions and the test there will be as realistic as possible since telephone communications are one of the most vital factors in time of hazardous emergencies.

A number of downtown merchants plan to tape their windows and board them up in air raid precautions. Judging from the wholehearted cooperation being received from the sheriff's office, police department, fire department, the mayor, city manager, Defense Guard, Boy Scouts, Red Cross, and the public in general—tomorrow night's blackout test in Pampa should be one of the most thorough of any yet staged in Texas.

Behind The News In Washington

By JACK STINNETT

WASHINGTON—It certainly takes Hollywood to cover a Senate investigation of the Hollywood.

What the Hollywood journalists had to say on the findings of Sen. D. Worth Clark's committee to investigate alleged movie propaganda has some of the local talent gasping.

"Senate Investigation a Joke" read one of the headlines. "Senate Hearing Still a Big Yawn" said a Hollywood trade paper. A third blared: "Investigation in Deeper Bog."

When the Senate's "movie propaganda" subcommittee opened its hearings, Hollywood descended on Washington with a resounding thump. Committee members claimed that one trade paper (the Hollywood Reporter) had eight to ten reporters in town.

SOME GUYS NAMED JOE That remains to be proved. I know some of the Hollywood Reporter gang, but the only strangers I saw around were Irving Hoffman, the Reporter's Broadway columnist and caricaturist; Jack Moffitt, one-time movie critic of the Kansas City Star and more recently scenarist for Paramount; and a man named Alexander, whom I hadn't met before.

Add to these a few of the old stand-bys who ordinarily earn an honest penny reporting for the other film trade papers, and you will have all of the list that I could supply, under oath—but the way these boys filled the columns of their Hollywood sheets made the coverage seem something special.

To say the least, it was Washington's introduction to Hollywood coverage—and to say even less, it left some of the investigators a bit groggy.

After all, if you can remember when a story earned such a headline as "Nye Holds Floor All Day"—Talks Lot, Proves Nothing—you are one memory jump ahead of yours truly. The story said something to the effect that the law of supply and demand seemed "to have been passed over the veto of Senator Gerald Nye."

There's also the law of compensation is continued. "That's the one which caused Senator Clark to be a bit dissatisfied yesterday. Heaped from the savor of the lost look of a W. C. Fields straight man when Senator Ernest McFadden, the only administration member of the committee, thought to be a stooge, revealed himself a Lone Ranger."

ON THE CUFF straight Hollywood talk, but it has the Washington boys so numb they don't know whether to use telegraph appreciation.

When one columnist suggested that the committee investigate all purported propaganda pictures from inception to finished product, Hoffman said that the Senate would "be reading the tabloids from Cairo and the Brown Derby, and Gregory LaCava will have to have his shirts laundered in Washington."

Yesteryear In The News

Ten Years Ago Today Development of Pampa's newest water well was started and was progressing satisfactorily, according to City Manager E. M. Gwin.

George Briggs, manager of the Pampa Board of City Development, left for Muskogee, Okla., to supervise the placing and showing of the mammoth exhibit of Panhandle of Texas, Inc.

Five Years Ago Today Boy Scout troop 80 continued at the head of all troops in the Adobe Walls council in Court of Honor leadership.

Pampa's city tax rate for 1936 was fixed at \$1.50 per \$100 valuation when city commissioners approved and passed emergency legislation allocating tax money and establishing dates for quarterly payments.

should be one of the most thorough of any yet staged in Texas.

SERIAL STORY

BRIDE FROM THE SKY

BY HELEN WELSHIMER

COPYRIGHT, 1941, NEA SERVICE, INC.

THE STORY: Judy Allen has been kidnapped on her wedding day by an impostor, and she is being taken to a remote island. Her fiancé, Phil, is trying to find her. The impostor is a man who looks like Phil but is really a criminal named Phil McGoosey. Judy is being held in a room with a window that looks out onto a beautiful view. She is very nervous and is trying to figure out how to escape. Phil is also very nervous and is trying to find a way to rescue her. The story is a serial story, meaning it is published in installments.

wrapped parachute slide to the floor. Anyway, she knew how to adjust the parachute, for Sandy had taught her all about it.

The ship floated smoothly on its star-flecked sea now that the shimmer of rain was over. Once Sandy started to go into a tail-spin. He caught himself in the action and changed into a monotonous course.

No need to worry about air pockets, Judy remembered. You only struck them when there was light. Without the sun the air was dark and free.

Anyway, this was an absurd nightmare—riding down the sky in her grandmother's wedding dress, with a determined young pilot who thought he had stolen a bride for himself.

COME place, far below, musicians wove an aisle of music down which six bridesmaids were waiting to come. Their eyes must be fearful under the cartwheel hats, and the slim sapphire bracelets which she had given them for gifts must be shining wonderfully.

And her mother— Judy pictured her embarrassment. Back of it there would be fear, too.

There couldn't be a wedding, though, for the bride was gone. The bride wouldn't be back for a long time. Phil—how had she ever doubted that it was Phil she wanted to marry? She could see his lean profile over there some place in the sky, could hear him trying to send a message of comfort.

Surely the police had been notified by now and streamlined white cars with magnified voices were telling of the disappearance of a bride in a froth of tulle and foam and white embroidered slippers. The bride's attire would make first page, this time, instead of the social lead.

She giggled gently as the cord that tied the packet which held the parachute opened. Intent on his course, Sandy had deserted her for the moment. Even the mirror had been changed.

She looked down.

Water—miles of it. Sandy was measuring the distance until he would be above it. He was starting for Canada where nothing could stop him until it was far too late to resurrect tonight's wedding. Oh, why did Sandy run through her life like a Fifth Column, ferreting out things that were none of his business?

IN the distance she saw the lights of an airport. Sandy would have to pass it before he swung out across the lake.

Swiftly she adjusted the parachute over her wedding dress. It took a few minutes for her to fit it into place.

She began to talk as she worked so Sandy would have no suspicion. "Peg won't like to be the holder of the torch for you. Maybe she'll refuse to take you back and that would be too bad." A cynical thread was woven through her husky tones.

"I planned this little stunt without her advice..."

Sandy's rough, bright head turned just as Judy opened the cabin door.

"Sorry, darling, I get out here. Thanks for the nice evening." She blew him a kiss and stepped on to the wing. It seemed to her for a second that there was nothing in the world but eternity sweeping by and a pair of gray eyes, frightened, loving, yet admiring.

She had heard that a food jumper always falls on his back, head first. She did. She was falling down... down... down. She was caught in a prairie of winds. She reached for the rip cord. Suppose she couldn't pull it?

Suppose— Suddenly the plunge was broken. A great sustaining tide steadied her. The white silk balloon had opened. Far up in the sky she was safe.

Gently she was floating earthward. Now and then she felt a strange wind that turned her to the left or to the right. She looked up. The hum of Sandy's motor was fainter. She knew that he was not running away. He had gone higher to give her more room.

Then a new roar of motors sounded very close. In a second she had sensed the trouble. A new ship was about to take off and she was in its path!

Sports Roundup

By HUGH S. FULLERTON, JR.

NEW YORK, Sept. 26 (The Special News Service)—Over in Brooklyn they're insisting that it wasn't a hurricane at all that struck Texas—only a concerted sigh of relief from Dodger fans throughout the country when they realized the Bums were safely "in." It wasn't anything compared with the storm that hit Flatbush and its environs last night... The Brooklyn Eagle splashed it all over the front page in two words, "We Win"—and nobody had to ask what that meant. Websters, all over town, doubled their orders and then told their regular customers they'd better speak for one in advance if they wanted to read all about it in the morning.

Take A Chance Dept. Football special for Friday is Hapes and Hovious to hit Hoyas hard—or Ole Miss can't miss... This dept. also likes Temple over Kansas, Denver to beat Iowa State, but not by much that meant. Websters, all over town, doubled their orders and then told their regular customers they'd better speak for one in advance if they wanted to read all about it in the morning.

Today's Guest Star Bob Stedler, Buffalo Evening News: "in the little red book of baseball, there is a section devoted to knobby problems. The Cleveland Indians should be included."

Cleaning the Cuff Manager Julian Black figures that about \$7,000 of Joe Louis' income will go to pay for three weeks' training at Greenwood Lake although the gate for his camp exhibition covers part of it... Mickey Walker is closing the doors of his Poughkeepsie, N. Y., restaurant but plans to open one in his home town, Elizabethtown, N. J., before he starts his winter refereeing chores... When Bernie Bierman went to see his son, Billy, play for St. Paul Academy the other night he almost missed the big play—Billy's run with an intercepted pass—because the kids kept him so busy giving out autographs.

Hank Leiber is back home in Tucson, Ariz., with orders to rest for six months... Notre Dame has banned portable radios and movie cameras at its home games this season... Bill (Bobo) Spencer, Missouri's crack place-kicker, warmed up the other day by booting 35 in a row, then back after a breather to kick 36 straight.

Last Show An entry in a pet show at Westhampton, N. Y., the other day was a champion great dane, owned by Harkness Edwards and entered by Edwards' eight-year-old son... When the kid came home proudly displaying the red second-place ribbon, Edwards asked what does had topped the big fellow that had been cleaning up on the show circuit... "Dog?" replied the kid. "We were beaten by a pig."

Twelve states in the Union have laws against driving too slowly.

FUNNY BUSINESS

Little Harvester

(VOL. 11, NO. 1) FRIDAY, SEPTEMBER 26, 1941

Sagebrush

Gates at the west end of the hall on second and third floors will normally be used when some group is being put on in the auditorium, to keep students and other spectators back, but at the present, they're being employed as pleasant playpens for boys of the school.

Well, isn't that the way all children react to anything new?

John Kimbrough, All-American fullback of 1940, says if he ever has a son he'll not be scrambling about in the mud. He'll be sitting in the stand, holding some pretty girl's hand.

The student's prayer these days is that the sun will stage a blackout for a day or two. Why? Well, because there are as yet no lights in the classrooms and you certainly can't study in the dark.

The High School Parent-Teacher's Association met at the high school Thursday night for the purpose of greeting new members and making plans for the year. Principal D. F. Osborne said this morning. Mrs. W. I. Campbell, chairman, presided at the meeting.

Several musical numbers were given. Mr. James Edwards was in charge of the games.

Would you be so kind and condescending, so low and bending as to close the door? Looks simple in print but you should hear Miss Christine Brannon of the English department, say it—it sounds like Greek.

Food for thought is that the first floor hall would make a swell place to dance the Conga. Then too, the new gymnasium isn't so bad.

Tommy Howell and Carolyn Cloud have been trying for years to come up in the world, but so far Tommy has reached only about here, and Carolyn to here. Anyway they're a cute duo.

Mickey Rafferty was alone at the football game the other night, but then a girl can't be cheerleader and sit in the grandstand too.

The tops of shiny new tables and desks in our high school, will not be allowed to become dull with dust this year for two new colored maids will polish not only tables, but show case windows and other equipment.

Maids have been hired in all of Pampa's public schools this year for the first time in the history of the Pampa school system.

Every morning when the students arrive, they cannot fail to notice Katy Nickles and Roberta Davis plodding about the building with a dust cloth in their hands. Until long after the students have gone, the two maids are cleaning and seeing that the building is spic, if not span.

Katy is jolly and has a bubbling personality while Roberta is more quiet and talks little. Both insist that the work is pleasant and that the students have been very nice.

Charlotte Cline, one of Fort Worth's recent contributors to P. H. S. is certainly going over big (and we aren't referring to physical size) with the student body, male and female. We'd say rather an accomplishment!

Not only are Mr. B. R. Nuckols fifth hour Algebra class good mathematicians but they are also good guessers.

When the students were asked on their Algebra test last Friday what they thought the final score between Pampa and Burk Burnett would be, Mr. Nuckols was surprised to find that some of the students were better guessers than he. He guessed the final score to be 13-7, but some of the mathematicians guessed 19-7, the correct score.

What good is Algebra and Plane Geometry? Such a question asks many times a day by harried students, never phases Miss Loraine Bruce, math teacher, who cheerfully responds with the right answer at the right time.

To most students Algebra and Geometry will help them to solve their every day problems in life with more ease. Also some students will enter into occupations that will call for their knowledge of Algebra and Higher Mathematics.

Tty baking mix or bran or raisin bread in pans. KC Baking Powder cans instead of loaf pans. These smaller sized molds can easily be cut into dainty sandwiches. Grease the can well so the bread will slip out easily. It usually takes 3 cans to handle as much dough as one loaf pan.

THE BEGGAR
Across the street, in silent mood,
There sits a beggar blind.
Ah, how blessed is he, in that,
He cannot see mankind.
Bill Bell

Pampa, Clovis Renew Rivalry Tonight

Twenty Post Graduates Enroll At High School

Twenty post graduates were enrolled by Monday morning in Pampa High school, making an 82 per cent increase over last year's post graduate enrollment. Mrs. Lou Roberts, registrar, said Thursday.

The post graduates class is composed of Bobby McClendon, Evelyn Barnes, June Marie Amick, Betty Mounts, Frances Babbone, Jack White, Clarence Simmons, Vera Sackett, Delbert Meek, Ethel Lane, Tampa Mae Kemmer, Homer Johnson, Melvin Dawson, Kenneth Homer, Grover Helskel, Eileen Green, H. E. Crocker, Paul Barrett, Inez Cooper, and Bobby Gilchrist.

Mr. Herod has a long day ahead when he arrives at school at 8 o'clock each morning. He first goes through the absentees of the day before, and makes a list of the students he wishes to see. He then sends for them and talks to them about the "why's and wherefore's" of their absence from school.

"Usually," Mr. Herod says, "the students tell the truth about their absence. Some of the excuses given are 'had a flat tire; Maxine didn't get breakfast on time; teacher did not let me out of class in time; couldn't work my lock; pigs got out of the pen; or I overslept.'"

Every period, Mr. Herod, with the help of his assistants, checks on those who are tardy or absent from classes. He then makes a list of these students and calls their parents.

Many students come to Mr. Herod for help with their problems. For the students whose plans include college, he helps them in selecting a vocation or profession and in preparing for it.

Gleanings
"Triple-Treat" Joe will assist the Baylor cheer leaders this year. The little bear will be seen totting a football on the back of the head and a leader's shirt, giving the pigskin a mighty Baylor boot and accurately throwing a touchdown pass.

"The Daily Lariat, Waco Texas 'Going steady' is just an attempt on the part of the boy to reduce competition."
—The Coyote News.

There was a time when a young-student cried
On Saturday night with a woeful bleat,
But now he sings in his youthful pride:
"Scrub me, Mama, with a boogie beat."

—McClintock Record, Oakland, California.

MY FORD
Once I had a very nice Ford
It ran most of the time,
Every time I came to school
The kids all said 'twas fine.

All the tires are in good shape,
Except they won't hold air,
And I get so tired of patches
I sometimes pull my hair.

The lights they are all shiny,
All they need is to give some light,
And when I ride out in the dark
I sometimes want to fight.

And when I put in water
It goes right on the ground
I'd just as soon not have it
But it's the best that I have found.

With this old Ford of mine
I've had a lot of fun,
Is the parts to make it run,
—W. J. Black—Hi Times, Dalhart, Texas.

Oldest university in South America is the University of San Marcos, in Lima, Peru, founded in 1561.

Patsy Dunigan Has Unusual Hobby In Saving Wishbones

Have you ever heard of anyone saving chicken wishbones or pulley bones as a hobby? Patsy Dunigan, sophomore, admits that this is a bit unusual, but confesses that she has a collection of 14 bones.

The idea occurred to Pat one day last August while eating a chicken dinner. The bone drying process, Pat says, is very simple. The bones dried until it is brittle, and a coating of shellac is applied to it. It is then carefully placed in her collection box.

Course In Bible To Be Accredited

Bible is being accredited this year for the first time in the Pampa high school system. Selected as instructor for the course is Rev. Newton Starnes, pastor of the Harrah Methodist Church.

The class will study both Old and New Testament, Rev. Starnes said.

The landscaping at the new high school building will include concrete fence lining the walks of the front of the building and hedges bordering the fences. Within the hedges will be a lawn with rows of flowers.

At the west side of the building will be a lining of trees and hedges, and a 25 foot boulevard drive leading to a parking lot in the rear of the building.

At the east side of the building will be two tennis courts with asphalt topping.

Plans have been made to finish by the time school starts next year.

Total Of Nine New Teachers Added To Staff

Tomberlin Heads Journalism Class

Nine new faculty members have completed their first two weeks of teaching and getting acquainted at Pampa High school. They are: Jacques Farnum, Miss Frances Munson, Miss Pearl Green, Hood Willis, Jack Davis, Newton Starnes, Miss Maxine Richardson, Robert S. Ratcliffe, and Miss Margaret Tomberlin.

Mr. Farnum, new band director, graduate of Colorado College of Education, is taking the place of Mr. Jim Nevins. Mr. Farnum was band director at Sam Houston grade school last year.

Miss Munson, who is filling the place left vacant by Miss Maybelle Taylor as librarian, received her B.A. degree at Canyon and her B.S. in library science. Miss Munson was formerly librarian at Panhandle High School.

Miss Green, American history and sociology teacher, has taken the place of Miss Rachel Sweeney. Miss Green received her B.A. and M.A. degrees at the University of Oklahoma at Norman.

Mr. Willis, agriculture instructor, is a graduate of Texas Technological college, Lubbock. He has worked on a Master's degree at Colorado A. & M.

Mr. Ratcliffe, speech and drama teacher, received his B.A. degree at Indiana State Teachers college and his M.A. degree at Northwestern University, Evanston, Ill. He was previously associated with the theater.

Miss Richardson, physical education superintendent, was formerly a member of the Pampa Junior High school faculty.

Mr. Starnes, pastor of the Harrah Methodist church, is instructor of the Bible course which is for the first time accredited in Pampa High school.

Business manager of the Harvesters and teacher of history, is Jack Davis, former coach of the Junior High Pee-Wees.

Taking over the journalism class is Miss Tomberlin, who received her B.A. degree at the University of Oklahoma, Norman. Miss Tomberlin was formerly taught at Mary Hardin-Baylor college at Belton, Texas.

Little Girl Pigtails Are High School's Newest Fashion

Replacing the long bob this year with many high school and college juniors, the new hair fad, little-girl pigtails, is being sported by many of the high school girls.

Some of the new girls have had their hair braided and braided seemed to be the easiest way of appearing neat. It has continued through the school year because it saves so much time.

Mary Nelson and Imogene Sperry, juniors, seemed to be the first ones to appear in high school with this coiffure, but a host of girls have followed their example, and pigtails can now be seen in every shade, size, and style.

The most popular method of arrangement is to braid the hair into two pigtail-like ends with brightly colored ribbons and brush the hair in front into a pompadour or reverse curls. If the hair is long enough it is sometimes combed into a single Daisy Mae-ish braid down the back. The new girls who have had their braids around their heads. Others twist them into round biscuits at the back. Instead of letting them hang over their shoulders, some girls tie the pigtails together with a single ribbon.

As the various methods of arranging these pigtails are almost limitless, so is the variety of ribbons to them with. There are plaid ribbons, plain ribbons, large ribbons, small ribbons, in fact all kinds of ribbons. Ribbons to match the dress are popular. Red, white and blue ones strike a patriotic note. Instead of using some of these attractive and different ribbons, colored bands sometimes bind the ends of pigtails.

Pigtails are easy to arrange, they save time, they are different—altogether the newest fad-fashion as the best thing yet!

Science Equipment Installed Last Week

Equipment for chemistry, home economics and biology laboratories arrived last week, enabling classes to begin on schedule, Principal D. F. Osborne has announced. They have been installed in the science laboratories.

There are six sewing tables in the home economics department. The chemistry laboratory has three tables equipped for chemical experiments.

First School Dance of Year Will Be Sponsored By Student Council

Following the football game tonight will be a nickelodeon dance in the high school gymnasium. This dance will be sponsored by the Student Council of Pampa High school, and will be the first activity of that organization for the present school year. Admission will be 30 cents a couple and 25 cents for stag.

The dance will be for high school students exclusively, with the Clovis football team as guests of honor. Music will be furnished by a nickelodeon, and popular songs and orchestra of the day will be featured.

The dance will begin immediately after the game. Informality will be the keynote. Approximately 200 students are expected to attend the function which marks the initial use of the gymnasium for a social function.

Shorthand Class Sends Out SOS For More Males

Boys may be at a definite disadvantage in a home making class, but since the scarcity of the male element is beginning to be felt in Mrs. Russell Holloway's shorthand class, the members hereby send out an official SOS for male members.

For the first time in the history of Pampa High school, there are no boys in the shorthand class. And there are eighteen new tables and thirty-six new chairs with not one single boy to grace the class. What would happen if a wondering mouse should stroll through the room on a boy, this is the last appeal. You can't possibly work too hard because, could you believe it—the class will not have any books for at least two months.

Senior High School Has Sixty-Four New Students

Sixty-four new students have enrolled in Pampa High school this year. These students came to Pampa from all over Texas and from several different states.

The new students and their former homes are as follows: Joe Looper, Groome, Texas; J. B. Dumas, Plainsfield, Kansas; Bobbie Kilion, Borger, Texas; Colleen Bergin, Madeline, Louisiana; Lena Ruth Hatvey, Paris, Texas; Lorena Savage, LeFors, Texas; Geneva Fleetwood, Boynton, Oklahoma; Vivian Gipson, Foraker, Oklahoma; Norma Allison, Borger, Texas; Norma Jean Ritter, Grandview, Texas; Merle McCracken, Grandview, Texas; David Gill, Kilgore, Texas; Frances Crocker, White Deer, Texas.

Margaret Vose, Dallas, Texas; Patsy Walker, Kingsmill, Texas; Fay De Looch, Springfield, Louisiana; Sammie Smith, New Mexico; Bill Lom, Lorton, Kansas; Joellen Risley, Shamrock, Texas; Jean Garrison, Shamrock, Texas; Robert Anderson, Middlebourne, West Virginia; George Vose, Dallas, Texas; Lawrence Mitchell, Borger, Texas; Maurice Newton, Jefferson, Texas; Floyd Taylor, Wichita Falls, Texas; Billie Block, Dumas, Texas; H. R. Alexander, Amarillo, Texas; Madeline Rusk, White Deer, Texas; Lou Wanda Saine, Hobbs, New Mexico; Thomas Bates, Laketon, Texas; Anna Bell Martin, Ellsboro, Texas; Lawrence Sims, Somerville, South Carolina; Raymond Comer, New Deal, Texas; Charlotte Cline, Fort Worth, Texas; Junior Bell, Shattuck, Oklahoma; Billy Ritter, White Deer, Texas; Dell Falls, Hastings, Oklahoma; Bessie Ray Hommon, Durham, Oklahoma.

Walter Skinner, Lweland, Texas; Mary Ruth Goodwin, Fort Worth, Texas; Lucille Balch, Winlock, Texas; Virginia Windsor, Hamtville, Arkansas; Jimmy Herring, Stinnett, Texas; Betty Lou Courtney, Borger, Texas; Louise Herring, Stinnett, Texas; Wilbur Wells, Guyton, Oklahoma; John Wells, Guyton, Oklahoma; Joyce Shaffer, Cambridge, Kansas; Lonnie Gene Richardson, Phillips, Texas; Maxine Jones, McPherson, Kansas; Raymond Blodgett, White Deer, Texas; Phoebe Blodgett, White Deer, Texas; Dewey Morrison, Salem, Illinois; Jean Quisenberry, White Deer, Texas; Durwood Morrison, Graham, Texas; George Mae Lowery, Fort Worth, Texas; Dorothy Williford, White Deer, Texas; Mekley Jo Hearne, Dumas, Texas; Eleanor Mitchell, Mexico, Texas; Winfred Royer, Mobeetie, Texas; Kathryn Homer, Healdton, Oklahoma; Hubert Lom, Burton, Kansas.

Students who enrolled late are not included in this list.

Twenty-One Pupils Enrolled In D. O.

Twenty-one students have enrolled in Diversified Occupations to form the largest beginning class in Pampa High school. The number of girls students in this class has decreased, while the number of boys have increased, W. H. Galloway, coordinator of Diversified Occupations, announced.

Among this year's class, are several in new lines of work. Many new pupils will train as office assistants, carpenters, and sheet metal workers. The furniture and grocery business both have students for the first time.

Fifty-Five Students Enrolled For Band

Mr. Jacques Farnum, director of the high school band, reported that 55 students have enrolled for band, but between 65 and 70 are expected when registration is completed. The band will give a concert at the Tri-State Fair in Amarillo September 29.

Election of officers will be held some time this week.

Twenty Adults Enroll In Commercial Class

Twenty students are enrolled in the part-time commercial class for adult office workers, which is being conducted at the high school by Miss Ruby Foster, commercial and stenographic instructor.

Courses in typing, beginning and advanced shorthand are being given.

Seven baby calves, sixty pigs, and twelve head of cattle have been started since July by the Future Farmers of America, Mr. Hood Willis, instructor in agriculture, and sponsor of the FFA, estimated.

Council Prexy To Be Elected Wednesday

Nominations for the office of president of the Student Council, as announced by Aubrey Steele, co-sponsor of the organization, are Gret'n Ann Bruton, Phillip Slocott, Betty Jean Myers, Mickey Rafferty, Joe Blackwood, and Cecil Bradford. Voting on the candidates will take place during home room period Wednesday afternoon. The person receiving the most votes will be named president and next, vice president.

"Very careful study should be made of each candidate's qualification, and much thought given to each one before casting your vote. The position is one of great responsibility and requires a person with ability and foresight to fill it," said Mr. Steele.

Voting will be by secret ballot in the different home rooms. Each student will be given a separate ballot and on it will indicate his or her first, second, and third choice. Any ballot that does not contain three names with the choice of first, second and third indicated by the names, will be declared void and thrown out.

The primary qualifications of the nominees are that they have attended Pampa High school for the past two semesters and have failed not over one-half credit of work during the last semester.

Results of the election will be announced in the Little Harvester next Friday, Mickey Rafferty, editor, said.

The candidates will campaign up until the time for election next afternoon.

Wednesday morning at assembly they will be introduced by their campaign managers. In the past skits have been given by each candidate in the assembly.

First meeting of the Student Council will be held next Thursday at 3 o'clock. The newly elected president will preside at the meeting. Election of the other officers of the organization will take place at that time. The vice president will, of course, be selected by the student body.

The council is composed of the various home room presidents. Home room vice presidents will be alternates.

Teams Will Be Evenly Matched As To Weight

Major handicap of the Harvesters will be the temporary loss of both reserve centers because of injury. This leaves Leslie "Iron Man" Burge to handle the job. If Burge is injured before or during the game, Pampa's chances against Clovis will be greatly lessened. Jerry Kerbow, one reserve center, received a broken wrist in scrimmage Monday. Earl Snyder, other reserve center, received a broken finger a few weeks ago.

Up to now the Wildcats have engaged in two contests, winning one and playing a scoreless tie with the defending state champion Clayton team.

Chevis Starnes, spark plugs of the Clovis line-up will be Dick and Jim Colvin, ball-carrying twins, and John Daugherty, hard-hitting fullback.

Coaches Prejan and Best have decided to abolish the so-called "second string." Each week's starting line-up will be entirely dependent upon the showing of the boys during the week's scrimmage.

Pampa Defeats Bulldog

In last week's game with Burk Burnett, the reserve backfield far exceeded the expectations of many of the fans and they will probably play much of tonight's game. At the time the paper went to press, a starting line-up was not available but the backfield probably consisted of the following: quarterback, Arthur and Dunham, halfbacks, and Boyles at fullback. The line will remain much the same as that which started against the Bulldogs.

Waters, fullback made the Harvesters first touchdown last Friday on line plunge after a 59 yard march. Phillips failed to kick the extra point. The Pampa's next score came on a long pass by Halter to Arthur, 155 yards and halfback Phillips again missed the goal posts in his try for a conversion. The Harvesters last touchdown was made by Arnold on a reverse from Halter, Edson made the conversion.

Intramural Sports Open To Girls As Well As To Boys

Plans have been made for the girls as well as the boys to participate in intramural games. Miss Maxine Richardson, physical education teacher said Thursday.

A coach selected from each home room will get the name of each girl and the particular sport or sports in which she would like to take part. All girls not taking physical education, are urged and invited to start practicing for the coming meet in kicken basketball.

The following sports will be offered and each home room should have a team or representative for each event. Kickpen baseball, speedball, volleyball, basketball, and softball are the team sports. Checkquet, ping-pong, badminton, archery, paddle tennis are individual sports. Tennis will be offered in the early part of spring but only for doubles.

Home room coaches will meet in room 121 Thursday, Oct. 2.

Munson Replaces Taylor As Head Of P. H. S. Library

Miss Frances Munson, formerly of Panhandle High school, has replaced Miss Maybelle Taylor as librarian. She stated that there are 140 new books in the library and 10 more have been ordered.

Ten girls and two boys are working as library assistants this year. There are two assistants each period, one at noon, and one after school. A fine of two cents per day will be charged for each overdue week book, and five cents per period for each period book.

Miss Munson, while she thinks the whole school is grand, is especially proud of her new charging desk.

Plane geometry and advanced arithmetic classes are under the direction of B. G. Gordon, head of the mathematics department, who announced that he will follow the same books and outline as in previous years.

Morgan-Roberg-Blenridge's, Plain Geometry book is being used for the sixth year by the Plain Geometry classes. For the third year Stone Maloney, New Higher Arithmetic, is being used by the advanced arithmetic classes.

Included among the many modern appliances being installed in the new high school building is a two-way public address system. The system will originate in Mr. Osborne's office and will facilitate the making of announcements.

If any student is wanted in the office the announcement will be made over the system.

This system has come into popular demand during the past few years and nearly all up-to-date schools have installed it as standard equipment.
