THE PAMPA NEWS

FINNS TREAD THE SCORCHED EARTH—Above: Across still-smoking earth, past Soviet defense positions which Finnish censor says "have been bombarded into impotence by Finnish artillery." Finnish shock troops in Karelian isthmus push on toward embattled Leningrad. The smoke of fiercer battle drifts over the horizon.

Left: These were the homes of a Finnish city in the area ceded to Russia after the first Russo-Finnish war. Now only these top-heavy odds and ends remain after heavy fighting in which Finns recaptured city on their way towards Leningrad.

### El Progreso Begins New Season At Lunch Tuesday

Marking the opening of the 1941-42 season for the El Progreso club was a luncheon yesterday in the city club rooms.

Setting the autumn color note was an attractive arrangement of fruit which centered the table.

Mrs. George Briggs, retiring president, introduced Mrs. Walter Purviance, new president, who presented other officers for the year.

Roll call was answered by the members with interesting things which they had seen or read during the summer.

Attending were Meses. John V. Andrews, Robert Boshen, George Briggs, C. P. Buckler, W. R. Ewing, T. D. Hobart, P. C. Ledrick, Dave Pope, W. Purviance, Charles Thur, James Todd, George Walstad, Sr., E. L. Biggerstaff, and D. V. Burton.

Arrangements for the luncheon were made by Mrs. Buckler, Mrs. Todd, and Mrs. Pope.

**CHEERFUL WORK ROOM**

Even if your laundry room is in the basement it can be a cheerful place to work. Spotless white tubs, plenty of available working table space, convenient shelves for laundry supplies, whitewashed walls, fresh curtains at the windows, and even a picture or two will make the weekly laundry seem a lighter task.

### Two Pampanos Have Part On Palo Duro WMU Program Tuesday

One hundred fifty women attended the annual meeting of the Women's Missionary Union of the Palo Duro association yesterday at the First Baptist church in Amarillo when the response was given by Mrs. C. Gordon Bayless of Pampa following the address of welcome by Mrs. Howard Trigg of Amarillo. Mrs. J. C. McKenzie was re-elected to her fourth term as president, and the following other officers were elected:

Mrs. Joe A. Jenkins, re-elected corresponding secretary and treasurer; Mrs. Charles Dye of Claude, recording secretary, and Miss Mittie Hamblin, young people's secretary succeeding Mrs. Ira Powell of Borger. Standing committees will be appointed soon, Mrs. McKenzie said.

**Memorial Service Held**

The union voted to give monthly checks to three ministerial students from this associational area. The money will be contributed by the 25 societies in the association.

Following reports from all standing committees was an impressive candlelight memorial service conducted by Mrs. Jess Slade, who read appropriate scripture, and Mrs. C. N. Hallmark, who sang "The Home of the Soul."

Reports from standing committees were followed by a message concerning young people's work by Mrs. C. O. Huber of McLean.

The morning devotionals was by Mrs. A. D. Foreman, Jr. The program included two hymns, "Jesus Saves" and "The Light of the World Is Jesus," led by Mrs. Harry Miner and a musical presentation by Mr. and Mrs. John Josey. Mrs. F. E. Leech of Pampa read resolutions of thanks to all persons and firms contributing to the success of the meeting. Mrs. Leech, who served as president for seven years, said the meeting was the best she had ever attended. Lunch was served at noon.

### Woodrow Wilson P-TA Will Have Initial Meeting Next Week

At the first executive board meeting of Woodrow Wilson Parent-Teacher association Tuesday afternoon in the school, plans were made to postpone the initial monthly meeting of the P-T. A. from tomorrow until Thursday of next week because school is just now getting underway.

The resignation of Mrs. Lewis Tarpley as president of the unit was accepted with regrets by the board and Mrs. Alice Cockrell, vice-president, will be her successor.

Three committee chairmen named were Mrs. Sam Anisman, telephone; Mrs. Orville Bratton, recreation; and Miss Genele Ketchum, art.

Plans were discussed for a hamburger supper to be given later this fall and arrangements were made to continue the luncheons and study groups throughout this year.

More than 100 mothers and teachers joined the Woodrow Wilson P-T. A. on the first day of school.

Seven board members attended the meeting yesterday.

### ACTION FROCK

It's easy to see that your school daughter will highly approve if you make her this gay, carefree frock. It is brimming over with youthful smartness gained by the straight buttoning down the front, the sailor collar, and the set-in belt which nips the waistline so neatly. You can make it in no time at all—and the style is equally good for washable cottons, corduroy, gabardine, striped rayon mixtures, or serge.

Pattern No. 8025 is in sizes 8 to 16 years. Size 10 requires 3 1/2 yards 35-inch material with 3/4 yards braid for collar, puffs, pockets, and belt.

### Marsha Monahans To Be Crowned 'Little Miss Pampa' On Friday Night

Marsha Kay Monahans will be crowned as "Little Miss Pampa" in a colorful coronation ceremony Friday evening on the stage of the LaNora theater.

The surprising result came Tuesday evening when the final contest which has been sponsored by Upsilon chapter of Beta Sigma Phi sorority in cooperation with 30 local merchants.

Little Marsha Kay, who ranked in fourth place in Monday's count, had a total of 31,030 votes when the poll closed Tuesday afternoon. Her picture was displayed at Thompson Hardware, Marsha Kay, who will be three years of age in November, is the daughter of Mr. and Mrs. William Monahans. Also she is the granddaughter of Mr. and Mrs. Vance Rhea and Mr. and Mrs. J. L. Wheatley.

Phyllis Annette Goldfine, Zale's Jewelry remaining in first place until the final day, won second place with 20,450 votes. With 17,350 votes, Maxine Chapman, Ideal Food, received third place.

In the final tabulation of votes the following results were shown:

### Be Ready To Carry Your Defense Burden By Learning How To Lift Loads Without Injury

By ALICIA HART

Not to be outdone by other patriotic organizations and individuals, a famous beauty salon now offers its own answer to the ubiquitous question: "But what can I do to help with the national defense program?"

On the premise that healthy women with strong arms and backs will be a great deal more useful in times of emergency and stress than delicate little flowers who gasp for breath when walking uphill and cannot lift anything heavier than a loaf of bread, the salon outlines a program.

It includes the giving of exercise, posture and health courses to teach women how to carry heavy burdens without getting tired; how to push a heavily laden bicycle or other vehicle; how to carry one end of a stretcher without straining the back or running the risk of an abdominal rupture.

"The proper way to lift a heavy weight," the experts at the salon say, "is always to keep the knees bent slightly, the pelvis tucked under with the lower tip of the spine well forward and the ribs as high as possible, and the hips as far back as possible."

**HOW TO ESCAPE UNDU STRAIN**

Keeping knees straight, they point out, arching the back and letting the lower tip of the spine stick out behind is likely to result in undue strain on the back or, worse yet, a rupture.

"They go on to say that now is the time for every woman to begin doing exercises to strengthen the arms and pectoral muscles and those controlling the abdomen. Otherwise, she'll never be able to lift a pail of water or any other heavy object above her head. Before you scoff at the idea of women ever having to carry heavy objects, read again anything you can find on what women in England have to do these days.

"The only way to learn to walk miles without getting very tired is to begin right now—today—to walk at least two miles every day. At the end of the month, resolve to walk three miles a day," the salon advisers continue. "All walking should be done on flat heels, with weight on the outside of the feet and toes pointed forward. Take big steps. And do not let the upper half of the body settle down into hip sockets. Keep chest high, stomach in, with lower ribs pulled up and away from hips."

**REHEARSAL FOR STYLE SHOW WILL BE HELD TONIGHT**

Rehearsal for the style show to be presented at the president's reception of the City Council of Clubs Thursday evening in the city club rooms will be held tonight at 8 o'clock in the city club rooms.

Another rehearsal will be held Thursday morning at 10 o'clock in the club rooms.

THE GOOD OLD SUMMERTIME—AND HOW IT FLIES

Around Hollywood

By PAUL HARRISON HOLLYWOOD, Sept. 10.—The prolific team of Harry Revel and Mort Green today told this department how in 15 noisy minutes to write a popular song...

Revel, an established composer with hundreds of tunes to his credit, has written for Hollywood ever since the invention of sound...

They went to New York and labored in seclusion to build up a backlog of material. In a year they wrote 268 songs, each one with some particular entertainer in mind...

They can have it in two minutes," said Revel, reaching for a sheaf of unpublished ditties in the Lamour file. And now, in "Malaya," the songstress is warbling Greene's and Revel's "A Pull Moon and an Em-ployee."

More and more they're expressing story ideas a song comes from a title. When I saw them, for instance, Greene had come out of a trance with "The Light of My Life Went Out Last Night—With Somebody Else," and Revel had done a melodic phrase to fit it...

Behind The News In Washington

By SIGRID ARNE (Pinch-Hitting for Jack Stinnett) WASHINGTON—There's quite a brawl brewing here over the oily subject of butter versus margarine.

The committee issued, among other things, a sample day's diet which would furnish the necessary vitamins and minerals, and still would cost only 32 cents for the three meals.

One of the characters on the program said "Many people are finding out they can save quite a bit of money by using margarine instead of butter. It's quite a lot cheaper."

He said the radio performers did their level best to put over the idea that oleomargarine, under the new formula promulgated by the food and drug administration, was equal if not superior to butter in food value, and added that "they boldly urged consumers to buy also instead of butter."

Rep. W. R. Poage of Texas arose to remind his fellow members that there is another set of American farmers quite interested in the popularity of margarine—the men who supply the fats and oils, such as live-stock men and soy-bean growers.

Don't be surprised if that margarine tax argument turns into a serious defense matter. That's the way these Washington brawls develop.

More than 600 cars passed through safety lanes here in three and a half hours as state highway patrolmen and city officers started the annual check on brakes, lights, horns, etc.

More than 20,000 children in England are being brought up by 15,000 foster mothers, under supervision of health inspectors.

Now the time has come when the words "all men" can have genuine and useful meaning.

Today's War Analysis

By DEWITT MACKENZIE On the basis of somewhat auspicious signs one is not too optimistic in believing that a real effort has been made during the past few days in the direction of an accord between the United States and Japan over the grave differences which have arisen as the result of Tokyo's expansionist policy.

It would be folly, however, not to recognize that war is skulking outside the doors of the Japanese council chambers where midnight oil has been burning.

Should the government give up this carding program, which already has cost so many lives in battle and has brought the country to grave economic straits, there certainly would be a mighty outcry from the public.

Oil For The East

In its first week of hearings the special senate committee investigating the oil shortage has uncovered some valuable facts and heard one or two plausible suggestions for remedying the situation.

Mr. Pelley presented figures gathered by his association showing that there are 125,000 tank cars in the United States suitable for moving oil and that about 20,000 of these could be put into immediate transportation service.

The program which has been suggested starts with an agreement by the railroads to adjust freight rates downward in order to reduce the hauling costs. Then, if Assistant Attorney General Thurman Arnold will guarantee the oil companies immunity from prosecution because of their collaboration, the way will be open to dividing the costs over all transportation services.

Mr. Pelley is confident that within a fortnight the railroads could be delivering 200,000 barrels a day to the East. Since that is 26,000 barrels more than the office of the petroleum coordinator estimates the shortage to be, the problem would thus be solved.

The Nation's Press

Mr. Shinwell's forecast of a fortnight ago that the announcement of sinkings was to be stopped has proved correct. The shipping losses for June announced on Tuesday are the admiralty's swan song. The policy of announcing sinkings has always been anathema in some official circles and the compromise after March, when monthly instead of weekly totals were given, did not remove the pressure for secrecy.

HUMAN RIGHTS INCLUDE PROPERTY

Los Angeles Examiner—By Benjamin de Casseres) The other night I heard a Pinky scream over the radio that "human rights are superior to property rights."

I would agree with Pinky if I could separate "human rights" from "property rights," but I find that where one is lost so is the other.

It is the right to be free—free to think, free to speak, free to worship, free to labor and free to collect the fruits of labor—property. When this right to collect private property for use and bestowal as one wills is restrained because it is private property, then immediately the liberties of the individual are encroached upon.

# Harvesters, Wildcats Show Possibilities In Scrimmage

## Two Sets Of Backs Show Equal Power

**By HARRY HOARE**  
The Pampa Harvesters have possibilities. They proved it yesterday afternoon on a long scrimmage with a tough Canadian Wildcat eleven at Harvesters park. Although still ragged and with timing still off, the Harvesters showed flashes of power, speed and deception and blocking was better than usual. The Harvesters made four touchdowns to one for the Wildcats.

We're not saying the Harvesters will win the district but if they continue to show the stuff they put out yesterday and improve as they should they might scare the daylight out of the favorites.

The Harvesters line is big, but of course not nearly as big as the Amario Bandies, and the backfield is faster and more deceptive than anticipated.

Coaches Buck Prejan and Mac Best selected for starters Otis and Flanagan, ends; Phillips and Chesler, tackles; Burnett and Meyer, guards; Buge, center; Edmondson, quarterback; Mendo and Hollis, halfbacks; and Waters, fullback. Then they substituted a backfield composed of Halter, quarterback; Arthur and Dunham, halfbacks; and Boyles, fullback, and there wasn't much difference noticeable in the play of the two backfields.

**Harvesters Have Two Backfields**  
In fact it looks as though the Harvesters will be able to use the two backfield systems with little weakening of the team. The fullbacks showed early power and the other backs handled themselves well considering the short practice period.

Line replacements might cause the coaches some worry. The starting seven are big and rugged but they'll need help against bigger boys. Reserves who should be able to answer the call without weakening the team could be Cornett at end, Abernathy at guard, Kerbow and tackle, Berry at the backfield, and others. Missing from yesterday's workout were Harry Kerbow and Snyder, both centers, and Allen, expected to be a tackle replacement, who has failed to report for practice for several days.

It's too early yet to name a definite starting lineup or to predict on the outcome of the conference race but if the boys keep on fighting and improving we'll be satisfied," Coach Buck Prejan said yesterday's scrimmage. "The boys have a lot to learn but they're the type who want to learn and will try hard."

Coach Bill Mack Gibson of the Wildcats had more boys in uniform than the Harvesters and he had some mighty big and good boys. The Cats showed that they'll be hard from in Class A ranks this year. In L. Briggs, quarterback, and Smith, fullback, the Wildcats have a couple of husky ball carriers and good passers while Briggs is about as good a punter as one would want on a football field. The line has a bunch of hulkies who are plenty hard to move.

**Both Backfields Score**  
The ball was placed on the 20-yard line and given to the Wildcats who were the visitors. With coaches on the field directing plays and pointing out faults the ball changed hands three times before the Harvesters broke through, scoring when Edmondson flipped a 30-yard pass to Otis who crossed the line standing up.

Hollis gave the Harvesters another touchdown just before the rest period when he scooted six yards.

With the other backfield working the second half and with two other reserves in the line, Halter plunged across from the three-yard line for a counter and Arthur closed the scoring by scooting 40 yards after a punt were wide as Edison pointed the way.

Canadian scored on the last play of the scrimmage when Briggs shot across the line.

The Wildcat starters, who should get the call for the opening game, were Esquivel and B. Briggs, ends; Hutchinson and Jennings, tackles; Whinkle and Murray, guards; Voorhees, center; L. Briggs, quarter; James and King, halves; Smith, full.

Charles Whelchel, Larry Drake and the rest of the Big Spring Bombers took the first game of the West Texas-New Mexico league playoff series from the Clovis Pioneers last night 6 to 1. The two teams played here tonight in Big Spring before moving to Clovis for two games and three if necessary. Should the series go past the five games the teams will move back to Big Spring.

Long, lean Charlie Whelchel pitched four-hit ball for the Bombers while Drake blasted out two home runs and two singles for a perfect night at the plate. Reeves also chipped in with a home run to give the Bombers all six runs on homers.

Not to be outdone in the four-ply department, Billy Daniels parked one out of the park in the seventh for Clovis' only run. Daniels also hit a double and single to get three of the four Clovis hits off Whelchel.

The Pioneers were without their flash defensive star, Third baseman Tony Range who had a bruised elbow landed a few hours before the game and was unable to play. Manager Grover Seitz went to third in place of Range and didn't have a chance.

Hewitt worked for the Pioneers, giving up 11 hits.  
Tonight Manager Jodie Tate of the Bombers is scheduled to come back with Kohout while Seitz will send Jim Rollins, his ace chucker, to the mound in an effort to even the series.

## Bucks To Play At McLean On Friday Night

**WHITE DEER**, Sept. 10 - The White Deer Bucks will play their opening game of the football season at McLean, Friday night at 8 o'clock.

Although 35 boys are out for practice, only three are lettermen from last year's squad. These are Willis Aubert, Willie Urbanczyk, and A. C. Hourigan, all in the backfield.

Coach B. E. McCollum is assisted this year by Charles Churchill, outstanding football player at East Texas State college at Commerce last year.

The Buck's schedule is: Sept. 12—McLean, here. Sept. 19—Shamrock, there. Oct. 3—Tulsa, here. Oct. 10—Canyon, here. Oct. 17—Panhandle, there (conference). Oct. 24—Perryton, here (conference). Oct. 31—Canadian, there (conference). Nov. 14—Phillips, here (conference).

All of these are night games, beginning at 8 o'clock except that with Phillips, which will be played at 2:30 o'clock in the afternoon.

## Nebraska Has Big, Tough And Experienced Line

**By RANDALL BLAKE**  
LINCOLN, Neb., Sept. 10 (AP)—A big, tough, experienced line bars the way of any Big Six squad with thoughts of taking the conference football title away from Nebraska.

It will be anchored by Clarence Herndon and Vic Schleich, rated as fine a pair of tackles as can be found in the loop. Both stand six feet or better and hit the 200 or over mark.

At the flanks are Robert Ludwick and Fred Preston, with George Abel, probably the hardest tackler in the conference with his 200 pounds and a sprinter's speed, at one guard and Fred Meier at the pivot post.

The other guard post probably will go to William Bryant or Lynn Myers, both of whom saw action last year although not enough to letter, or Herb Von Goetz, a sophomore.

These are the lads who make Coach Major Lawrence Jones a pretty chipper fellow despite the loss of 13 seniors by graduation, four players on the road through the draft and one to defense industry from the squad that went to the Rose Bowl after last year's one defeat season.

"We do," Jones commented, "look like a fine defensive team, but I'm not sure that the boys can do offensively. Loss of all our experienced quarterbacks means that strategy will be a problem. Then there's the question of reserves."

The number one choice for quarterback appears to be Marvin Athey, a six-foot, 180-pound sophomore who throws a mean ball. Behind him will be Mike Francis, who is after the All-America flanker honor; Allen Zikmund, a sophomore sensation at wingback in the Rose Bowl game, and Dale Bradley, 175-pound tackle.

"Can't I get you a glass of water?"  
"I'm too busy, lady," Donovan quipped, "just throw me a bucketful and I'll catch a mouthful on the way."

Presently the window was opened again and a pail of water was dumped on the unhappy warrior.

## Dallas And Tulsa Win Games In League Playoff

**(By The Associated Press)**  
Dallas and Tulsa emerged victorious in the opening Texas league Shaughnessy playoffs last night, each by the trifling margin of one run.

The Rebels, held hitless for eight innings, rose up in fury against the favored Houston Buffs and scored four runs in the final inning. A surprised crowd of 3,600 Houston fans watched while the band from Dallas suddenly unleashed a powerful attack against Freddy Martin and drove the youthful pitcher from the mound.

Tulsa scratched out a 2-1 win over the Sports before an overflow crowd of more than 8,000 Shreveport fans. Young Henry Wyse, Ole ace right-hander, appeared to have a slight edge over his opponent, veteran Jack Brillhart, although each pitcher allowed the same number of hits—six.

Tonight righthander Gordon Maltzberger will pitch for Dallas in the second game at Houston, while the Buffs will depend upon Ted Wilks, another right-hander, who won 21 games this season. Maltzberger has chalked up 15 victories.

In the second contest at Shreveport, Emil Kush will take the mound in an effort to make it two in a row for Tulsa. Orville Grove has been selected as the Sport hurler.

Outfielder Norman DeWesse started the Dallas rally last night. Bunting for Catcher Bill Crowin, he doubled to center field for the first Rebel hit of the game. The encouraged Dallas team then went to work on Martin and soon had amassed one more run than the Buffs had entered the final frame.

Wyse made the first hit for Tulsa—a pop fly intended as a sacrifice to advance Jose Hernandez, who had drawn a base on balls. Bruno Zelazo sacrificed and moved up runners, and Marvin Rickert smashed a single to left, scoring both men on base.

Tony York knocked a two-bagger in the seventh to start Shreveport on a scoring drive. Del Frier fanned, the Brillhart, and Ray Taylor, Sport second sacker, singled to score York.

## Bible Says Dream Of Title Could Become A Nightmare

**By HAROLD V. RATLIFF**  
AUSTIN, Sept. 10 (AP)—Cool, calculating D. X. Bible lists three reasons why the dream of a University of Texas football championship could be transformed into a nightmare.

Unruffled by September Rose Bowl talk, Bible praises his team's chances but points out just what would happen should the Longhorns make one little slip.

"I would say that the three major things to worry about are possible loss of a key man, a muddy field for a crucial game and failure of the team to keep its spirits up for each test."

Bible does have just key men, but two—Pete Layden, punting, plunging star, and Jack Crain, probably the most dangerous running back the Southwest conference has ever known.

"But loss of either of these men would materially cut the effectiveness of the other," Bible declared. "They go together, making each a distinct threat but dependent upon the other."

The coach was emphatic in stating that one of his major worries was the weather.

"You know that Texas will not have a mud team," he explained. "Our backs are light and fast and slow down our offense."

The third point brought an expression of admiration from Bible on the long victory streak of Texas A. and M. before the Longhorns cut it short at 19 with an upset here last Thanksgiving day.

"I marvel at the way A. and M. players could keep their spirit up over that long stretch," Bible commented. "It certainly is a difficult proposition for a coach, especially when every team is pointing for him."

The Longhorn mentor had much to say about a team "on the spot."

"You know, any little slip we make may mean an unsuccessful year in the eyes of the fans," he said and grimaced. "Just one little slip."

In a squad of 43 that reported for practice, the coach found 18 lettermen, 15 of them seniors.

It has been estimated that 680,149,000 chickens were raised in the United States during 1940.

SERIAL STORY

BRIDE FROM THE SKY

BY HELEN WELSHIMER

Copyright, 1941, NEA Service, Inc.

THE STORY: Associate magazine editor Judy Allen is not sure she loves her husband Ammerman until his disappearance on a test flight from New York to the west coast indicates he may have crashed. Judy tries to carry on at her office, finally asks attorney Philip Rogers, another editor, if he will go somewhere with her. "And if I do?" Phil asks.

NEWS ABOUT SANDY

CHAPTER III

FOR a fraction of an instant, Judy hesitated at Philip Rogers' calm and steady words. "And if I do?" he had asked, knowing that her quest, whatever it was, would concern Sandy.

"I want you to charter a plane and help me hunt for Sandy," she whispered. "When we find him... when we find him, Phil, won't there be time enough to say what we will do? I have some money... I'll give the office boy my bank book and pay for anything I can. I'll pay the rest of my debt later. I promise I will." Her eyes supplicated.

Phil came closer, took the slim hands in his, held them. His eyes were kinder than Judy had known they could be. His lips did not laugh.

"Never mind the bank book," he said. "Skyways Incorporated is one of our clients. I'll get a plane and we'll leave as soon as possible. Better get a cab and run down home to dress and be ready. Wait for me at your apartment."

It seemed to Judy that the cab stopped for a red light or a traffic jam at every intersection. Was life forever to be like that? Would one obstacle after another keep one from the Promised Land?

Maybe no one ever knew how close it had been until its spires disappeared. She was turning the key in the wide door of the old red brick house where she lived before she remembered that she had not told her secretary where she was going. Nor had she notified her editor. It was funny how the amenities of life went on when you didn't know if life had hurt you or merely frightened you.

Two telephone calls straightened out the tangled web of the day. She had a week's vacation due her from the previous summer.

The managing editor said, "Judy honey, if someone close to you is missing, of course you must go! Luck go with you, child, and it will do Sara good to work a little harder."

Sara Fuller, the secretary-assistant to Judy, tall, graceful, slim, with black hair and cool green eyes, waited patiently on the line until Judy gave a brief explanation of her work.

"There is no need to explain anything really, Miss Allen," he rich, amused voice said. "I quite understand it all, perhaps some of it a little better than you do."

"For instance, just what?" Judy's husky voice asked. Then she remembered, "Oh, the layout on summer shoes! You were sweet to pick out the ones we wanted. But, Sara, I go have another job for you. My notes on the sketch about a stylist personality are in order, typewriter, left hand, in my desk. Will you make a copy, two carbons, and turn them over to Miss Barnard?"

FBI For Years Taps Nazi Radio To U. S.

NEW YORK, Sept. 10 (AP)—The Federal Bureau of Investigation for a year and a half has been acting on German espionage instructions from Hamburg as received through a specially built radio station on Long Island. It was testified today in the trial of 16 men charged with spying for the Reich.

William G. Sebald, German-born government informer, said the FBI station—erected after he received from Hamburg 14 instructions ordering it to be built—had cleared between 200 and 300 messages to and from a German spy center in Hamburg.

LeFors Students Hear Program By Hawaiian Visitor

Special To The NEWS: LeFORS, Sept. 10—Hawaii's history and its songs were the topics of a program presented in the first assembly of LeFors school, held recently.

The program was by Abe Akaka, a Hawaiian, who is visiting in the home of Principal J. H. Duncan. Mr. Akaka is attending the University of Chicago doing graduate work where he is studying to be a missionary for Hawaii. He has been in the states one year and plans to be here two more.

Her telephone rang softly, gently, and she flew to answer. Phil answered her eager greeting. "Good news?" She fingered the cord nervously.

Later she was to remember the instant's silence before the girl's voice came back, keyed to a happy voice. "Yes, I shall be glad to do that."

One hour passed. That was all right. It would take Phil a while to round up an airplane and driver. Two hours. Three hours. What did people do when there was all the time in the world in which to wait? Tears were no good.

HER telephone rang softly, gently, and she flew to answer. Phil answered her eager greeting. "Good news?" She fingered the telephone cord nervously. "Tell me quick, Phil, I can't wait."

"Where, Phil, where?" Oh, could anyone be so composed, so quiet when half of a miracle was happening?

"Down in a plateau somewhere in the mountains in Colorado. He's alive, apparently not hurt badly. He's with some company, some people who have a lodge."

She fainted then, and the telephone gave back the busy signal until Phil severed the connection, slipped his arms into a spring overcoat and hurried out to the long, low-slung car that waited for him.

Sandy apparently had been located. He was glad. He did not want the tall young man with the far-seeing eyes and ruffled hair to die. He was made for living.

Then, too, if Sandy went away forever as a hero, what chance would he, Philip Rogers, for all his health and social position, have with a russet-haired girl whose eyes knew all the color tones from leaf-brown to deepest purple?

He was relieved that his rival would fly back. Relieved, too, that there was no longer need of another rescue ship. Relieved until he saw the glory fade from Judy's eyes as he tried to explain.

"You mean we aren't going?" she asked at last in low, quiet tones.

### Paul Hill Will Deliver Radio Speech Thursday

Unity is America's best insurance against the internal decay which leads to the collapse of democracy, declares Paul D. Hill who is scheduled to deliver the tenth in a series of "Speak Up for Democracy" radio talks to be broadcast over Station KPND at 8:15 p. m. Thursday under the sponsorship of the Veterans of Foreign Wars of the United States.

"Unity for Victory" provides the theme for the address by Mr. Hill who will speak as a member of Pampa Post No. 1657, stressing an appeal to individual citizens to do their part in America's national defense program through the promotion of a "good neighbor" policy within the borders of our own country.

The "Speak Up for Democracy" campaign to strengthen faith in Americanism was launched by the Veterans of Foreign Wars of the United States in December, 1940. Under the supervision of National Headquarters in Kansas City, Missouri, and in cooperation with the radio industry of the nation, local V. F. W. speakers broadcast a talk on the eleventh day of each month.

This date was selected in commemoration of the eleventh hour, of the eleventh day, of the eleventh month in 1918 when the Armistice brought an end to hostilities for the A. E. F.

On September 11, V. F. W. speakers will be heard over a total of 428 radio stations. It is estimated these Americanism talks are reaching the ears of at least 40 million persons. Because they are being broadcast over local stations at different hours of the day, these monthly radio Americanism bombardments succeed in reaching different groups of radio listeners with varying listening habits.

In congratulating the Veterans of Foreign Wars of the United States upon the effectiveness of this radio project, Rupert Hughes, noted author and playwright, recently referred to this "Speak Up for Democracy" program as a magnificent idea for awakening and stimulating patriotic ardor at a time when it needs to be kindled and re-kindled without cessation."

**Offers \$100 To Clear Snow Off Pikes Peak**

COLORADO SPRINGS, Sept. 10 (AP)—It's worth more than \$100, Suh, to clean the snow off the top of Pike's Peak.

William Johnson was determined to drive to the summit. They told him about an eight-inch snow above timberline and he countered with a \$100 offer to have the road cleared.

Mr. Johnson, who is from Corinth, Miss., found no takers.

### Pampans To Attend Mid-Continent Meet

G. B. Cree has just been notified of his appointment as chairman of the Pampans attendance and golf committee for the Texas Mid-Continent Oil and Gas Association's convention Oct. 9, 10, and 11 at Beaumont.

Mr. Cree will be assisted by a committee of leading local oil and business men in arranging for the Pampa delegation to attend the Texas Mid-Continent meeting. The committee also will select the local golf team to compete in the annual oil men's golf tournament Oct. 10 on the Beaumont Country Club course.

A number of local oil operators are expected to attend the convention, which will celebrate the fortieth anniversary of Spindletop, Texas' most famous oil field. Featuring the anniversary observance will be the dedication of a monument of Texas granite on the site of the discovery well, the Lucas gusher.

Among those taking part in the anniversary ceremonies will be many leading oil operators and officials who got their start at Spindletop in the boom days of 1901. A reunion of the old-timers attending and a wildcat jamboree will be other features of the celebration.

"Pampans will be unusually well represented at the Texas Mid-Continent's 1941 meeting," Mr. Cree said. "This is not only because of the anniversary celebration but also because of the many new problems facing the oil industry which will be discussed at the business sessions. Among the speakers will be Lord Marley, deputy speaker of the House of Lords, as well as several outstanding leaders of the national and Texas petroleum industries."

Local committeemen who will arrange for the delegation and golf team from here are: M. B. Davis, E. J. Dunigan, Jr., Lynn Boyd, George Berlin, Gene Sidwell, R. G. Allen, Ray Hagan, and B. O. Lilly.

### General War Games To Begin Sunday

WITH ARMIES IN LOUISIANA, Sept. 10. (AP)—Their month of "warmup" maneuvers ended, the approximately 500,000 men of the second and third armies prepared today to move into position for the start of the general headquarters war games beginning Sunday.

For two weeks the 150,000 troops of Lieut.-General Ben Lear's second army will match military might with that of Lieut.-General Walter Krueger's third army of 350,000 men in warfare involving every branch of the army.

Meanwhile, the half million troops were given a mid-week holiday from the rigors of preliminary maneuvers which saw the second army drive down from Arkansas in simulated warfare and the third army engaged in intra-corps war games.

### Priorities Board Refuses To Grant Steel For Pipeline

WASHINGTON, Sept. 10 (AP)—Chairman Maloney (D-Conn.) of the special senate committee investigating the eastern gasoline and petroleum situation suggested today that a price increase of less than one cent a gallon would remedy all threats of shortage.

Senator Maloney said such an increase would cover the additional cost of moving a large supply of petroleum overland by railroad tank cars to more than offset shortages resulting from diversion of tankerships to British service.

A few hours earlier the supply priorities and allocations board had spiked a plan for immediate construction of an \$80,000,000 pipe line from Texas to the east coast—a project advocated by Secretary of the Interior Ickes and agreed to by a number of large oil companies.

The board simply refused to grant priorities, at the present time, for the steel needed to build the line. Admiral Emory S. Land, chairman of the maritime commission, has contended repeatedly that the steel was needed more for ships.

While the SPAB did not pass on ultimate construction of the pipeline, the decision apparently blocked any chance that the line might be completed by next spring, as originally proposed.

### German To Be Studied

BATON ROUGE, Sept. 10. (AP)—Louisiana state university for the first time will offer military students this year a course in military German for studying official German military reports, and as a possible aid to students who might be called upon to fight on German soil.

A fish belonging to a family supposed to have been extinct for millions of years was caught in 1939.

### City Dads Pay Bills And Discuss Trees, Rental Of Sales Barn

In the longest meeting held in three months—lasting two and one-half hours—the city commission yesterday transacted a variety of business extending from a discussion of the condition of the trees in Central park to payment of monthly bills for August totaling \$12,750.96.

Out of this total, however, \$5,352 is for a Caterpillar maintainer. An order passed at the meeting provides for the issuance of a warrant to the First National bank of Pampa to take up a voucher issued to R. B. George Tractor & Machinery company, of Amarillo.

Payment is extended over a 12-month period, with interest at 4 per cent.

There were 89 bills in all, not including those for the recreation project, amounting to \$37.60, which were listed separately.

### Deal On Sales Barn

The city has been trying to secure a contract on the operation of the sales barn at Recreation park since the old agreement of Thomas Cox and the city was dropped by mutual consent.

Yesterday, it had a tentative offer, when Loyd Otten of Amarillo appeared before the commission and discussed the proposition.

Mr. Otten wanted the city to put in tanks which he estimated would cost from \$5 to \$6 each. He said it was necessary that there be a sufficient supply of water at all times for the cattle he would receive.

City Manager Steve Matthews interposed that this would mean the laying of water lines to the park.

Then the conversation veered around to the city manager's statement that whether the tanks were put in depended on what kind of contract was effected. Mr. Otten asked: "What kind of a contract do you want?"

The city manager was in favor of

a 20 per cent gross revenue on the proceeds of the person operating the sales barn. However, Commissioner George B. Cree, favored a flat rental basis, and the city manager thought that \$50 a month should be the price paid in such case.

Mr. Otten demurred at paying this much, saying he thought the price too high. The question of the time the contract was to be in effect also came up, the prospective bidder saying he might not want the place for an entire year if he found it was not a paying venture, and the city manager countering with the statement that the city did not want to go to the expense of tanks and installation of water lines, if the other party was only going to be there temporarily.

No agreement was reached on the deal, other than the city manager stating he would write to Mr. Otten and inform him of what sort of arrangement the city was prepared to offer, in line with yesterday's conversation.

### Hear Horticulturist

Earlier in the session, William N. Hiatt, formerly at Shamrock with the U. S. Forestry service, now in private business, appeared before the commission.

He sought two things: regulation of horticulturists operating in Pampa through a local board and a system of examinations and licenses; and an agreement to work over the trees in Central park.

Hiatt claimed the trees needed attention, mentioned the prevalence in the city, he claimed, of bagworms and red spiders. The commission took no action on either proposition, other than to recommend study of a sample municipal ordinance covering horticulturists, and asked Mr. Hiatt to see the city manager again.

Renewal of insurance policies, a routine bit of business that crops

up at periodic intervals in municipal affairs, occupied a part of the city commission's time at its meeting Tuesday.

Digest of the discussion was the passage of an order providing for the approval of the insurance policy of J. L. Brewer, trash hauler, on his truck. The approval also covered another policy. One was with the Metropolitan Casualty Insurance company of New York; the other with the Firemen's Insurance company of Newark.

Also approved, in another order, was a renewal of the Maryland Casualty company (Baltimore) policy covering the municipal swimming pool, until July 9, 1942.

All three policies were for public liability and property damage. In the case of the first two, premiums are paid by the policy-holder; in the third, by the city.

Alvin Bell, representing the Panhandle Insurance agency, appeared before the commission to discuss an insurance proposition designed to include coverage in current policies on four additional city owned vehicles.
