**Rayburn Promises Anti-Strike Action As John Lewis Defies FDR In Letter**

E. F. Young  
\*\*\*  
**Judge Young, Resident For 36 Years, Dies**

Justice of the Peace Edgar Feodore Young, 75, died at the family home, 629 East Browning avenue, Sunday morning, following a long illness. He had been a resident of Gray county for nearly 36 years and was serving his third term as justice of the peace of precinct one, Pampa.

Funeral services were conducted at 10 o'clock this morning in the chapel of the Duenkell-Carmichael Funeral home by the Rev. C. Gordon Bayless, pastor of the First Baptist church. Burial was in Fairview cemetery.

Judge Young was born in Logan county, Ky., but at an early age moved to Arkansas. Nearly 63 years ago he married Dudley Faulkner at Jonesboro, Ark., and they moved to the Texas frontier. In 1900, with their family, they moved to Comanche county in the Indian Territory, making the trip by covered wagon.

In 1906 the Youngs moved to Gray county, taking up land a half mile south of Pampa. Later they moved to a farm four miles north of Pampa where they resided until 1914 when ill health forced him to quit farming. The family then moved to Pampa where Mr. Young purchased 20 acres of land within the present city limits. The Young residence at 629 Browning is located on the tract.

When Pampa started to grow the acreage was taken into the city and was later sold as residential lots. Although in failing health for several months, Judge Young went to his office in the courthouse almost daily until Oct. 28, when he became bedfast.

All offices in the courthouse were closed this morning during services. Judge Young is survived by the widow, two daughters, Mrs. H. B. Taylor and Mrs. Joe Elliott, both of Pampa; two sons, Floyd Young of Pampa, and Fred Young of Austin; also 11 grandchildren and two great-grandchildren.

Pallbearers were Cal Rose, D. R. Henry, L. R. Taylor, Sherman White, Ernest Baird, Charlie Thut, Quinn Killingsworth.

Honorary pallbearers were C. W. Masters, C. P. Sloan, John Tate, Ewing Leech, Lee Ledrick, Baker Henry, John Andrews, John McKamey, Hugh Isbell, Noah Kite, Billy Taylor, Glen Carruth, Ben Barrett, Henry Simmons, A. L. Simmons, and Bud Cottrell.

**Too Old**  
VICTORIA, Nov. 17 (AP)—Corporal Eldon Ketter of Canton, Ohio, made application for aviation cadet training.

It was returned, on it in bold letters was stamped "Too old."

The personnel classification clerk at the advanced flying school here had erroneously listed him as being born July 14, 1918.

**Seven Texans Die In Ranger Truck Crash**

RANGER, Nov. 17 (AP)—Sheets of flame from an exploded gasoline tank leaped out from the scene of a truck crash and took the lives of seven persons.

The dead were James Gollahon, 38, and his son, James M., 15, of Carrollton, Texas; Alvin and Nolan Johnson, 29 and 27, brothers, of Lewisville, Texas; Garland Branton, 45, and Lester Barnes, 45, both of Eastland, and Ellise Granville of Fort Worth.

Thirty or more spectators were sprayed with the blazing fluid.

Investigating officers said the accident occurred seven miles east of here Saturday night when a lumber-laden truck stalled on a hill and put out flames to warn approaching vehicles. Another truck crashed into it, and leaking gasoline was ignited by the flames.

Flames spread to both machines. About 20 minutes later the blaze reached a 50-gallon tank on the side of the lumber truck.

Roy Ely of Abilene and Don Erwin of Dallas were critically burned. Kenneth E. Duffern of Abilene, a bus driver, was burned on the face, hands, and shoulder when he helped to fight the fire.

Two men atop the lumber truck, attempting to displace the load, were blown into a roadside ditch 35 feet deep by the force of the explosion.

Burned clothing and debris from the trucks littered the site. Some of the injured rushed to hospitals in ambulances and private vehicles, arrived with their clothing still on fire.

Firemen and two trucks from Ranger, under the direction of Fire Chief George Murphy, battled the blaze until 4 a. m. yesterday.

**Junior High Band To Play Concert At API Meeting**

The 80-piece Pampa Junior High school band, directed by Ray Robbins, will present a varied concert in the city auditorium preceding the regular meeting of the Pampa chapter of the American Petroleum Institute tomorrow night.

The concert will begin promptly at 8 o'clock.

Director Robbins will present his band in a concert of marches, overtures and popular numbers. Following the concert the members of the band will be guests of the API chapter at a party at the LaNora theater.

**Jap Premier Says Patience Near End**

(By The Associated Press)  
The destiny of the Pacific stood at a crisis today.

Japan stated her demands for understanding—an effect calling for reversal of the United States' major policies in the Orient—and on their satisfaction may depend peace or war.

With them went a blunt warning that Japan's patience is reaching its end.

While these declarations were being made in Tokyo, a special Japanese envoy in the United States arranged to see Secretary of State Hull for what he called a "fighting chance" to avoid war.

But in Washington and elsewhere, on both sides of the world, there was pessimism.

By MAX HILL  
TOKYO, Nov. 17 (AP)—Japan's premier, General Hideki Tojo, informed a grave and hushed diet today of the empire's minimum requirements for peace in the Pacific.

Such measures of hostile character as economic blockade, a halt to what he called military encirclement and hands off Japan's conflict with China.

He spoke after Foreign Minister Shigenori Togo had warned bluntly that little time was left for negotiations to satisfy those terms.

The house of peers, to which the ministerial messages were delivered, gave them unanimous, standing votes of approval.

These were the salient points set forth by the premier before the special extraordinary session of the diet which, in an atmosphere of ominous tension, is expected quickly to vote an extraordinary war fund of 3,000,000,000 yen (nominal \$74,000,000).

"The Japanese government," he said, "expects: 1. Third powers to refrain from obstructing successful conclusion of the China affair which Japan has in view."

"2. Countries surrounding our empire will not only refrain from presenting a direct military menace but nullify such measures of hostile character as economic blockade and restore economic relations with Japan."

Tojo charged specifically that the United States, Britain, China, and the Netherlands East Indies were responsible for what he called "military encirclement" of Japan, he said, had risen as a major barrier to far eastern unity.

And, he asserted, "The economic blockade resorted to by non-belligerent powers constitutes a very little less hostile than carrying on armed warfare."

**German Ship Flying U. S. Flag Seized**

WASHINGTON, Nov. 17 (AP)—A navy escort steamed slowly toward port today with a badly-damaged Axis merchantman captured in the south Atlantic.

The blockade runner was caught by an unnamed U. S. cruiser in equatorial waters on Nov. 6, but the navy department withheld news of the seizure until last night—a fact which led to the belief that the ship was within a few hours of port.

The crew of the ship tried to cut her as soon as the cruiser ordered her to heave to, the navy reported, but quick action by a salvage party of bluejackets kept the vessel afloat, although badly damaged and unseaworthy.

The navy department had nothing to say regarding the exact nationality of the vessel and her crew, or about her destination. Neither did it identify the port to which the ship was being taken, except that it was one "within jurisdiction of a United States court."

The navy gave this account of the ten-day-old incident.

The cruiser—presumably on a patrol mission—came upon the merchantman at dawn and decided there was something suspicious.

**Xmas Lights To Be Turned On In Pampa, Dec. 1**

A premier of the annual Santa Day, sponsored by the Pampa Junior Chamber of Commerce, will be held here on the night of December 1, five days in advance of Santa Day, when Christmas lights will be turned on and 3,000 yards of jumper roping strung in downtown Pampa.

Singing of carols will also be held on December 1, in connection with the advance view of the celebration.

Pampa firemen are working over the Christmas lights, checking for short circuits, and making needed repairs. They volunteered their services to the Jaycees for this job and this is the first year the firemen have participated in this manner.

Directed by Jay Thompson, the Jaycees will put up 7,000 sacks of candy, issue 10,000 theater and candy tickets for distribution to children.

A meeting of Santa Day chairman and Jaycees directors will be held at 7:30 o'clock tonight at the Pampa Chamber of Commerce office. Reports will be made by the chairmen to the directors on the progress of plans for the celebration.

As in the past, the Jaycees will call on schools in the Pampa area and distribute tickets to the children.

An innovation in the Santa Day celebration this year will be that schools will not be called on as a whole to march in the parade. They will be 45 of the larger boys, ages 12 to 14, who will be in the parade. Reason for the change is that cold weather of previous celebrations has been a hardship on youngsters.

**Miners Stay Away From Coal Pits**

WASHINGTON, Nov. 17 (AP)—Speaker Rayburn said flatly today that the house would be given an opportunity to pass on defense strike legislation "at the earliest date consistent with proper consideration."

He declined to specify whether a bill to prevent strikes in defense industry would be called up for action this week, saying that it "might take some time" because we "certainly want to pass considered legislation."

Rayburn took the floor last week during debate on the neutrality act to assert that he would "follow or lead" in any movement to deal "sanely" with the labor situation.

**All Roll Call Workers Asked To File Reports**

WASHINGTON, Nov. 17 (AP)—John L. Lewis informed President Roosevelt by letter today that the United Mine Workers had refused to accept an open shop agreement in the captive coal mines because it would "invalidate" other agreements in operation throughout the soft coal mining industry.

He told the President that, officers of the union had no authority to execute an open shop agreement, "thereby destroying the assets of the membership represented by existing collective bargaining agreements."

The union shop was the sole issue in the dispute which culminated in a work stoppage today in the captive mines.

Lewis did not call at the White House, as he had been requested to do when Mr. Roosevelt asked last Friday that negotiations be extended over the week-end in an eleven-hour attempt to halt the threatened shutdowns in captive mines which supply coal to steel mills.

Commercial coal mines, which unlike the captives, sell their product in the open market, are operating under a union shop agreement.

At the time that the letter to the President was released, Lewis was telling the UMW policy committee that he blamed the present strife in the coal pits squarely on President Eugene G. Grace of the Bethlehem Steel company.

Lewis' addressing an open meeting of the UMW policy committee, said he was convinced Benjamin Fairless of United States Steel company and Frank Purnell, head of Youngstown Sheet and Tube company were ready to sign the union shop agreement, but were prevented by "that sinister figure Grace."

The three steel company executives, Fairless, Grace and Purnell, were to go to the White House today to present their report, but White House officials said they had no information how or when labor representatives would follow suit.

UMW's decision brought the current labor crisis to a breaking point. Storm signals were flying in congress and the capital waited momentarily for the President to order decisive countermeasures.

The White House was silent, pending formal notification of the collapse of settlement negotiations, but Mr. Roosevelt already has given his pledge to congress that the government proposes to see this thing through and keep the mines operating, regardless of the negotiations outcome.

**'Many Things' Discussed By Kurusu, FDR**

WASHINGTON, Nov. 17 (AP)—A formal conference brought President Roosevelt and Japan's special envoy, Saburo Kurusu, together to move the clock hour today to talk of "many things" centering around the explosive Far Eastern situation.

But there was no indication immediately whether any satisfactory progress had been made toward achieving a better understanding on Pacific problems between this country and Japan or whether any decisions were approaching which might lead to assurance of continued peace in the Pacific.

Kurusu was accompanied to the White House by the Japanese ambassador, Kichisaburo Nomura, and Secretary of State Hull.

The two Japanese dodged questions about the conversation although the ambassador reported that "many things" were said. What they were was something which he did not care to discuss.

As they entered a waiting limousine, he said.

**Flier From Pampa 'Chutes To Safety'**

PARK CITY, Utah, Nov. 17 (AP)—Two army airmen, one of them Major R. E. L. Pirtle, 88th reconnaissance squadron commander, were killed today when a biplane spun a two-motored lumber on a wooded Wasatch mountain ridge.

One body, tentatively identified as that of Major Pirtle, a native of Council Grove, Kas., was found two miles from the plane wreckage. Attached to his body was his harness parachute, apparently ripped as he jumped from the plane, thus plummeting him to the earth.

Referring to a body burned with the wreckage of the plane, army authorities at Salt Lake City commented, "This then, must be Anderson."

Previously unaccounted for, in a report of the 88th reconnaissance squadron, Pirtle was listed as having been killed in action on Oct. 25, 1941.

One parachute was hanging from the top of a tree 50 yards from the plane and another was wrapped around a nearby tree.

It was thought possible one flier may have been caught by the plunging craft and searchers were scouting the area in an effort to determine whether a second body might be in the rubble.

The two-motored B-18 plane en route home from Denver to Fort Douglas, Utah, on a routine training flight, apparently became unmanageable in a heavy gale that had driven it 18 miles off its course.

The five who parachuted to safety, and were brought to a Park City hospital, included: Second Lieut. M. Simmons, Pampa, Tex.

**Rev. Bowen To Be M. E. Pastor Here**

A new pastor will be in the pulpit of the First Methodist church next Sunday. He is the Rev. E. B. Bowen of Sweetwater, who will succeed the Rev. W. M. Pearce. The latter has been pastor of the local church for the past four years. He has been transferred to Sweetwater where he will be district superintendent of the Vernon district. Rev. Pearce was formerly pastor at Vernon.

These changes, along with others were made at the Northwest Texas conference. Announcement of appointments of pastors was made Sunday afternoon.

**Georgian Urges Law To Curb Strikes**

WASHINGTON, Nov. 17 (AP)—Rep. Cox (D-Ga.), acting chairman of the House Rules committee, urged congress today to act swiftly on legislation to curb defense strikes without awaiting settlement of the captive coal mine tie-up because President Roosevelt "is still in the talking stage."

Opening a committee hearing on the administration's long-delayed price control bill, Cox served notice that the committee might decide to "put the lid" on that measure until the question of labor legislation had been settled.

**Late News**

WASHINGTON, Nov. 17 (AP)—The supreme court today ordered oral argument on December 8 to determine whether Texas should be granted permission to institute proceedings before the tribunal seeking to have upheld a rate order.

**Nazis Claim Capture Of Kerch In Crimea**

(By The Associated Press)  
The war of nerves between Japan and the United States and her potential allies attained full crisis pitch today, coinciding with a break in the German-Russian conflict which apparently gave German the Caucasus approach she needed to keep her invasion on the march.

**ISAW . . . .**

More ducks than this corner ever saw in his life at one time on Lake McChellen. At the west end among the trees the ducks were so noisy you can't hear yourself think. Motor boats would run through them and they would rise up into the clouds and then settle back down. But don't get excited. These ducks know they can't be shot on government property and the laws forbidding carrying firearms is absolutely forbidden.

### 11 Lives Lost In Texas Accidents

(By The Associated Press)

Eleven lives were lost in Texas accidents last week-end, seven of them when a truck's gasoline tank exploded near Ranger, spraying flames over spectators who had gathered at the scene of a crash.

The dead were James Gollahan, 38, and his son, James M., 15, of Carrollton, Texas; Alvin and Nolan Johnson, 29 and 27, brothers of Lewisville, Texas; Garland Branton, 45, and Lester Barnes, 45, both of Eastland, and Ellis Granville of Fort Worth.

Ted Wade, 26, of Tulsa, Okla., stunt man with a show, died at Galveston during the performance when his "dynamite wagon" blew up.

Dr. J. Hillard Camp, 38, member of a leading Pecos family, accidentally shot himself while cleaning a gun in his home.

Pvt. Edwin F. Kimmey, 25, of Randolph Field, near San Antonio, was killed when his car overturned south of Austin.

W. B. Holland, 41, was fatally injured when his car was struck by a passenger train at a crossing in front of his Corsicana home.

### UNITED STATES CIVIL SERVICE EXAMINATION

The United States Civil Service Commission announces an open competitive examination for Mechanic Learner (for filling the position of Student-Trainee Aircraft and Engine Mechanic) for employment in the War Department, Air Corps, San Antonio Air Depot, Duncan Field, San Antonio, Texas, and sub-depots of the San Antonio Air Depot at various Air Corps establishments throughout the states of Texas and Louisiana, or elsewhere, as the needs of the service require.

Application may be filed with the manager, Tenth U. S. Civil Service District, Customhouse, New Orleans, Louisiana, until further notice.

Applicants will be notified when and where to appear for the written examination.

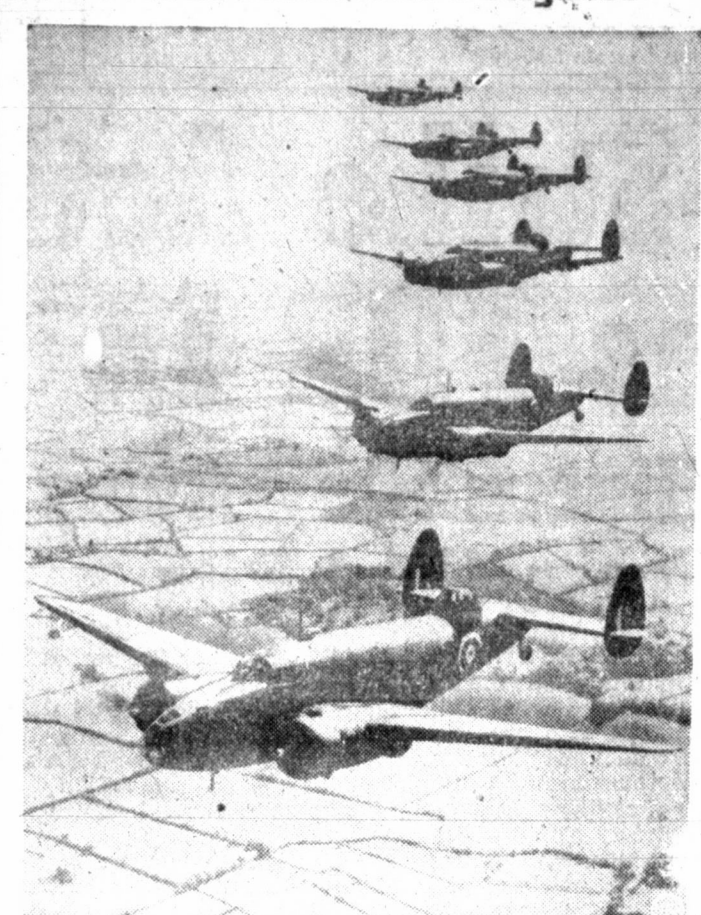

Application blanks may be obtained from the Secretary, Board of U. S. Civil Service Examiners at any first- or second-class post office in the states of Texas and Louisiana, or from the Manager, Tenth U. S. Civil Service District, Customhouse, New Orleans, Louisiana.

### British Modification Of U. S. Planes Irks American Designers

AMERICAN BOMBERS like the Lockheed Hudsons pictured here in flight over Britain "are better planes than anything England has in the same line."

By PAUL MANNING  
NEA Service Staff Correspondent  
LONDON, Nov. 17.—Friction between British and American airplane experts has reached the point where several American plane manufacturers are said to have threatened privately to stop production for the Royal Air Force.

"Heart-breaking modifications" ordered by the British for crack modern fighters and bombers imported from the United States have been a chief cause of contention. In addition the advice of American experts sent to England with each new type of imported plane has been frequently disregarded.

American army officials and representatives of the plane manufacturers were also embittered when planes that had run the blockade were either left in unopened packing cases or altered radically after long delay.

As a result, some American manufacturers privately took the attitude of a "better cleaning always" Pampa Dry Cleaners.

### Ship Like the Whitley or Hampden, "MODIFICATIONS" KEEP PLANES GROUNDED

The prime reason why it takes so long to get many of these planes into the air is that many modifications are made before they are labeled "ready for action." Some changes are good, of course. They changed the Bell Alrobra's 37-mm. cannon to a 30-mm. because the fire power was still good enough to disintegrate an enemy plane, and at the same time more shells could be carried with the lighter gun being used.

But according to one observer, for every good modification two unnecessary changes are made. The Tomahawk fighter, for instance, is equipped with a specially designed lightweight generator placed on a rubber mount.

There's an air ministry rule, however, that an English-made generator must be used. The British unit is much heavier without being more efficient, and after forty hours the generator breaks through the rubber mounting, putting the plane out of service. The plane consequently is labeled as "another American plane" that is not so good.

A test pilot told me they also insisted on taking off highly-efficient American windshield wipers on the planes sent over and substituting ones that he finds freeze at high altitude.

There are other items, too, and according to one colonel of the U. S. Army Air Force over here recently, it all adds up to 1,300 man hours of work before an American plane is ready for the air—once it gets to England.

British mechanics also insist on servicing American engines in the

### Meteor Falls On Hutchinson Ranch

Rattlesnakes and meteors are twin perils on the ranch of Dr. R. A. Duncan of Amarillo, located in Hutchinson county, northwest of White Deer.

Buck Moore, ranch foreman, was riding over the ranch Saturday afternoon. He thought he heard an airplane falling. Moore glanced up, saw a huge ball of fire shooting toward him.

A second later a mass of flames smashed into the ground 40 feet from Moore and dug a pit. The mass apparently was a small meteor.

Dr. Duncan, the ranch owner, went out to look the thing over Sunday afternoon. Warned that the section was swarming with rattlesnakes, he took several rifles and pistols with him, killed 45 snakes by shooting from his car. Ranchers had killed 35 the preceding day.

The pasture was formerly a prairie dog village and the snakes had apparently "holed up" for the winter.

high-altitude fighter. It all reminded me, in fact, of the title of a neat little document which has been issued by Air Ministry officials to RAF pilots who are likely to come in contact with Americans. It is called "How to Treat Americans." Point One: "Don't tell them that their airplanes are no good."

A plan for using automobile license plates for a five-year period in order to conserve steel for national defense has been outlined by Rep. John W. Gwynne of Iowa.

### THIS WEEK IN PAMPA THEATERS

**LANORA**  
Today through Wednesday: "One Foot in Heaven," Fredric March, Martha Scott.  
Thursday, Friday, Saturday: "The Men in Her Life," Conrad Veidt, Loretta Young.

**Mr. Telephone** will wear plastic TO SAVE METAL FOR UNCLE SAM

We're ready with a wartime telephone in which plastic and steel replace the more vital defense metals—zinc, aluminum, magnesium. It's not a makeshift telephone—it's a good telephone.

In the months ahead, however, you may find it hard to get one. Where all lines in our cables are taken up we can't add new customers quickly, because nearly all the additional cable we can get is required for vital defense construction.

We're making every substitution, salvaging every bit of usable equipment to keep up with orders as well as we can.

We hope that our record over more than 60 years is evidence that we will always be doing our best to keep your service as good as conditions permit.

## Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, or you are to have your money back.

### Litvinoff Plane Safe

TEHERAN, Iran, Nov. 17 (AP)—A plane bearing Maxim Litvinoff, Soviet ambassador to the United States, and U. S. Ambassador Laurence Steinhardt landed safely at noon today, five days after departing from Kulyabyev, Russia, in a snowstorm.

All of Canada's output of platinum and allied metals comes from the nickel-copper ores of Ontario's Sudbury area.

## Canadian Red Cross Makes 800 Garments

Special To The NEWS  
 CANADIAN, Nov. 17—Mrs. E. H. Snyder who has been supervising the Red Cross sewing room since last year expects to be able to make shipment of completed garments next week, well towards 800 in all.

The quota received last summer was due to be finished and shipped by Dec. 31, but the work is almost completed and will be ready to be packed Monday.

Russell Carver and Tom Abraham will assist the ladies in getting the garments properly boxed and crated for shipment. Russell Nolan, who lost his life in a train-auto crash recently, was one of the young men who had volunteered to assist with the packing.

The quota called for 98 dresses but 135 have been made. Seventy knitted-garments, sized for women, men, and children have been made. Mrs. John Jones has been in charge of this knitting.

Twenty knittings of 27 pieces each, have been made. The knitted caps and sacques among these garments were supervised by Mrs. C. C. Sticklely.

## More Sheep Than Cattle Raised In Lone Star State

Special To The NEWS  
 AUSTIN, Nov. 17—Texas, traditionally the home of the booted and spurred cowboy, actually raises more sheep than cattle, a report of the livestock industry in the state by J. E. McDonald, agriculture commissioner, shows.

Leading all types of livestock production in the state, sheep reported totaled 8,477,809 head. Cattle are second with 6,281,537, including 1,146,766 milk cows, the commissioner said. Hogs ranks third, with 1,513,912.

The four leading sheep-producing counties, in the order of their rank, include Val Verde county, 517,980; Crockett, 390,290; Tom Green, 338,422; and Pecos, 328,022.

Leaders in the production of cattle, all types, include Harris county, 106,437; Webb, 73,277; Victoria, 67,981; and Brazoria, 63,915, making at total for state of 6,281,537.

Mrs. Snyder reported that more than 200 women have assisted with either knitting or sewing for the Red Cross for Hemphill county's quota the past few months. Women of Glazier, Canadian, and the County Home Demonstration clubs have all taken work to their homes; garments all patterned or

## Suicide Ted Wade Lives Up To Name In Circus Of Death

GALVESTON, Nov. 17 (AP)—The advance story described Capt. Bob Ward's Daredie Aces show as a circus of death.

Stressed as a feature attraction was the dynamite wagon act, in which "a car is loaded with 50 sticks of dynamite and completely blown to bits with the driver still in the seat as the charge is ignited and set off."

"Anything can happen in this stunt and everything usually does. So many drivers have been injured attempting it that Captain Ward has contemplated striking the feature from the program."

However, Suicide Ted Wade insists upon staying with the dynamite wagon and claims to be the only person in the world performing the feat.

Last night the 26-year-old Tulsa, Okla., stunt man drove the dynamite wagon to a far corner of the stadium.

## Butterflies' wings consist of a network of double tubes with the inner tube being filled with air, and the outer with blood.

# AAU Splits Wide Open At Convention

By SID FEDER  
PHILADELPHIA, Nov. 17 (AP)—After two days of beer and skittles, during which the convention program succeeded in making as many as you please, the Amateur Athletic Union split wide open today on the candidacy of Lawrence Di Benedetto for his second full term as president.

The New Orleans proxy was the choice of the convention caucus to succeed himself and bearing a caucus candidate in the past has been about as rare as buying a drink in this city on a Sunday. Yet, the Metropolitan (New York district) Association, the A. U. opposed the choice so strongly it was prepared to nominate James M. Roche, a New Haven (Conn.) insurance man, for the job when the 400 delegates got together to elect officers at the final business meeting.

This row busted open during the annual convention banquet, after the conclave had gone through a long session disposing of such business as naming sites for next year's various national championship competitions—Dallas for the track and field, and approving more than 150 records for running, jumping, throwing, swimming and an assortment of other sports all the way to pitching horseshoes.

Although no one wanted to be quoted about the election business, it was learned the break-up was caused over control of the A. U. and for that reason the New Yorkers objected to re-election of the southerner who took office to fill the unexpired term of a president who died, and was elected for a full year in 1940.

The track and field championships were sent south for the first time since 1910. They almost went to New Orleans some time ago, but were shifted to Lincoln, Neb., when the southern city said it could not hold them if negro athletes were permitted to compete.

The Variety Club of Texas guaranteed the A. U. \$8,000 to defray the expenses of competing athletes next year, and Dallas got the call over Chicago and Philadelphia after Delegates F. C. Cobb and J. C. Massenberg said they would have no objection to any eligible athlete.

In addition to selection of Dallas, such other little meets were awarded as men's basketball to Denver, men's swimming to Yale, and women's track to Ocean City, N. J.

# Waterboy Now In Third Place Among Passers

By GAIL FOWLER  
SEATTLE, Nov. 17 (AP)—As a waterboy, about the only pass he ever made was with a towel—until one day Head Coach Puz Merritt of Pomona College saw him fling long left-handed passes to an assistant football manager.

So the ersatz waterboy, 140 pounds of him named Billy Kent, was drafted for halfback duties a few weeks back, and today he's in third place among the leading pass-pitchers in the American Football Statistical Bureau's rankings of minor college players. He's completed 35 out of 70 passes for 354 yards.

The passing leader is Doug Rehner of the Dickinson Red Devils at Carlisle, Pa. Playing with a losing club, Rehner has completed 77 passes out of 156 attempts for 831 yards.

In second place, but with much more effective tossing, and playing for a team that's won 17 straight, is Marvin Tommerverk, Tommerverk, the little All-America halfback from Pacific Lutheran college near Tacoma, Wash. Tommerverk has completed 77—and found his target with 45 for the high total of 898 yards.

With Tommerverk's 518 rushing yards, he's amassed 1,414 yards to lead the minors in total offense. Since his team signed to play College of the Pacific at Tacoma November 28, Tommerverk has thrown more games, including tonight's against weak Linfield, in order to become the first in bureau history to smash 2,000 yards in one season.

Ben Collins, the driving back from West Texas State, has 1,241 yards and 1,039 yards to rank first among the rushers. His teammate, Sanderson, lugged the ball 925 yards to rank second.

Nothing official has been heard yet from East Texas State, where J. C. Meeks is supposed to have completed terrific total offensive records.

Remains of saltpeter vats and pipes used in preparing gunpowder for American defense in the War of 1812, are still to be seen at Mammoth Cave National Park, Ky.

Civilian air raid deaths for all England in the first eight months of 1941 total 19,778.

# THE PAMPA NEWS

(VOL. 39, NO. 191) MONDAY, NOVEMBER 17, 1941 PAGE 7

## TCU Surges Back Into Southwest Title Battle

(By The Associated Press)  
The Texas Christian University Horned Frogs, just on the fringe of the football class for two seasons of Southwest conference football, have surged back for a possible share of the glory.

## Aggies One Of Four Major Unbeaten Teams Of Nation

Counted out of the race a month ago after dropping before the boisterous Texas Aggies, the Frogs today are knocking at the door with a couple of sensational sophomores doing the pounding.

## Sports Roundup

By HUGH FULLERTON, JR.  
NEW YORK, Nov. 17 (The Special News Service)—This week's 864 question (you might get more for the right answer) is where are the Bowl promoters going to find enough teams to go around? . . . The only big teams with clean records that might be interested are Duke, Duquesne, the Texas Aggies, Case or Colorado college might go for the Sun Bowl. . . . Judge Landis will be 75 years old Thursday and Clark Griffith will be 72. Other guys in the baseball business can call it a year.

Today's Guest Star  
B. M. Atkinson, Jr., Louisville Times: "A lot of times it's the dope on the horse rather than the horse in the horse that causes trouble."

One-Minute Sport Page  
At Madison Square Garden the other night, Gus Leanevich's handlers came up with a new-fangled spray for shooting water on their fighter between rounds. . . . Tami Mauriello's seconds improve on that stunt when they toted in the first oxygen flask ever used in the Garden ring. . . . Someone said it was necessary to overcome the bias of hot air that Pete (The Fox) Kelly was turning on Tami between rounds. . . . Arnold P. Muehl of Granville, Iowa, must have set a record recently when he bowled 18 strikes in a row without getting a 300 game. Eight came at the end of one game and ten in the next.

Goofy Golf  
Guys who break their necks trying to break 100 on a golf course won't be any happier to light next 11-year-old Frank McManus of Yonkers, N. Y., has shot the Leewood course in 79 and averages in the 80's. He won't take a lesson from the pro and his only practice is to play around two or three times when he can get away from school. . . . Phil Axt, crack Bloomfield, N. J., amateur, couldn't be lured out on the links when he came home on furlough from Fort Jackson, S. C. . . . He wasn't interested in more footwork after two months of maneuvers.

Sportpourri  
Of the 2,000 fighters whose records Nat Flescher is putting into his new boxing encyclopedia, the oldest active boxer is Tod Morgan, who started back in 1920 and was signed recently to fight next month for the lightweight championship of Australia. . . . The guy with the most fights was Johnny Dundee with 300—nobody knows how many of them were against Benny Leonard. . . . The Horned Frogs could share the Southwest crown by winning their remaining two games and if Texas repeats its 1940 win over the Aggies.

Last Word  
When a Chicago promoter tried to match Jimmy Johnson's light heavyweight, Tommy Tucker, with Booker Beckwith, Jimmy Tucker said: "My Tommy Tucker stopped your Johnny Olan. This, after what my Booker Pastor did to your Booker Beckwith, makes me the greatest menace Chicago has had since Widow O'Leary's cow."

The city of New York had a population of less than 400,000 a hundred years ago.

The Vatican, at Rome, contains several thousand rooms and is the world's largest residence.

Indians of Santo Domingo Pueblo in northern New Mexico believe that eagles control the movements of the clouds.

Mariupol, Sea of Azov port, changed hands 21 times during the Russian civil war but was finally taken by the Red forces in 1920.

## BIT'S ABOUT BOWLING

Toppling 2,688 pins, the National Tank company bowling team of Pampa won first place in the Amarillo Globe-News Panhandle open bowling tournament which closed last night. Dr. Pepper of Pampa took third place in the same division, with 2,529 pins.

Pampa women bowlers went to Berger yesterday to roll exhibition games. Ronley's Shoppe took three straight from Powder Puff Beauty Shoppe and Six's Pig Stand won two out of three from Essie Turner, Inc., of Berger.

What about this T. C. U. team that was beaten badly by A. & M. and lost to Fordham yet had, the stuff to defeat Texas?  
Well, it has two of the finest sophomore football players in the nation right now. Emory Nix, who earned fame as a member of the 1938 Corpus Christi high school state championship team, stepped in and delivered when great little Kyle Gillespie went down with a broken leg. Then, from nowhere, came Van Hall, lanky 188-pounder from Kaufman. Together these two are making T. C. U. click—Nix with his passing and running, Hall with his running and punting.

There never was anything wrong with the Frog line and now Dean Bagley, who had been promising things but never quite came up to expectations, has blossomed as a real ball-carrying threat.

The Frogs are going to be tough from here on out and the Aggies better not slip.

Texas, crushed over its 14-7 loss to T. C. U. Saturday that sent championship and bowl hopes spinning, needs this week getting up a mad for the Aggies at College Station Thanksgiving day.

The Aggies also rest and they need it. While they beat Rice 19-6 to remain undefeated and untied, the big Red is not in very good playing condition.

Southern Methodist and Baylor play at Dallas Saturday with fourth place in the conference standing at stake. S. M. U. beat Arkansas 14-7 last week to close out the Razorbacks' conference season with a goose egg in the previous contest.

Baylor, badly crippled since its 7-7 tie with Texas, fell before Tulsa 20-13 in a volley of passes that gave the Golden Hurricane two fourth-quarter touchdowns.

Arkansas moves to Memphis Saturday to play the Rebels. The Rebels won last year but don't appear up to it this time.

## 13 District Titles Still To Be Decided

By HAROLD V. RATLIFF  
Associated Press Sports Writer  
A schoolboy football campaign so weird that form can be considered something of an upset roared into the crucial stretch today with thirteen district championships hanging in the balance.

Games are such favorites as Masonic Home and Lufkin, the former definitely out of the race because of ineffectibility, the latter hanging on the ropes and accorded only an outside chance of bounding back.

Three champions marked time: Wichita Falls in District 2, Yalata in District 4 and Amom Carter Riverside (Fort Worth) in District 7.

The Fort Worth team has not clinched an undisputed title but can be considered "in" because it now is undefeated since Masonic Home forfeited its victories and only defeated Fort Worth Tech stands in the way.

But even if Tech upset Carter, it would not necessarily mean robbing it of a championship. Carter would then finish in a tie for the lead with Poly (Fort Worth), should the latter win from Masonic Home, but Carter has already defeated Poly.

At least five other championships are expected to be decided this week. Unbeaten Highland Park (Dallas) plays Denton, which has been twice tied, and a victory for the Highlanders would clinch honors in District 6.

Sunset and Woodrow Wilson, both unbeaten and untied, meet for the Dallas championship. All other teams are out of the race.

Mineral Wells and Breckenridge battle for the District 9 crown. They are in the same position as Sunset and Woodrow Wilson in the Dallas area.

Temple and Waco decide the championship of District 10. Temple needs no more than a tie. Defeat would deadlock Temple with Waco for the lead.

Goose Creek tangles with Conroe in District 14. A tie would give Goose Creek the championship. Defeat would throw the race into a deadlock between these two teams.

In District 15 Austin has only a tie to Kerrville to sew up honors but would fall into a tie for the lead through a defeat.

In most of the other districts it is possible to determine champions

## Amarillo Will Run Special To Thursday Game

Amarillo will move to Pampa by train and by car Thursday to see the big game of the year between the Pampa Harvesters and the Amarillo Sandies. A special train carrying Amarillo fans will leave at 12:30 p. m., arriving at the Santa Fe station here at 1:30 o'clock.

The Pampa Harvester band, student body and Pampa fans will meet the visitors at the station and a parade will be formed with the route to the 100 block on East Browning where cars and buses will be available to take the visitors to Harvester park. The 100 block on East Browning will be closed to traffic and all buses and cars carrying fans to the game will be located in that block.

Amarillo fans will then be taken to the game via North Ballard and North Duncan streets. Return to town after the game will be over the same route.

Pampa fans are asked to use streets west of Ballard and to park south and west of the playing field. Pampa fans will sit in the west stands and Amarillo fans in the east stands.

Arrangements are being made to handle a crowd of 10,000 fans. Tickets are going fast at the office of the school business manager in the city hall.

And while all the pre-game activity is in progress, the Harvesters are quietly preparing for the Sandstorm.

### THE PAMPA NEWS

Published every evening, except Saturday, and Sunday morning by the Pampa News, 222 West Foster Avenue, Pampa, Texas. Phone 446—All departments.

#### MEMBER OF THE ASSOCIATED PRESS (Full Licensed Wire)

The Associated Press is exclusively entitled to the use for publication of all news dispatches credited to it or otherwise credited to this paper and also the regular news published hereunder.

#### PLEDGE OF ALLEGIANCE

"I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one nation indivisible, with liberty and justice for all."

### The Red Cross Appeal

On the night of October 16, the U. S. destroyer Kearny, proceeding in the North Atlantic off Iceland, was struck by a torpedo. Among the injured was Chief Boatswain's Mate Leonard Frontakowski. His life depended on the immediate arrival of blood plasma for an emergency transfusion. While another destroyer steamed to the side of the stricken Kearny, carrying a naval surgeon, a plane loaded with blood plasma donated by Red Cross volunteers took off from an undesignated Iceland air base.

### Gallant 'Little Norway'

Their beloved home country, with its snow-capped mountains and deep dark fjords, may be under the cruel domination of the Nazis, but gallant Norwegians from all parts of the world have established a "Little Norway" on the water front of Toronto. Here the Norwegian flag floats in the Canadian breeze. Here officers and men toast King Haakon. Out of funds which escaped the clutches of the German invaders, the Norwegian government-in-exile has built barracks and hangars where Norsemen are training as airmen to join battle against their hated foe. They came, not only from secure posts in China, in the Argentine, in the United States, but from whalers in the lonely waters of the Arctic and even by slipping through the Nazi cordon in Norway itself.

### The Nation's Press

To read the stories of the great bombing raids on London, to see the pictures of the roaring fires and crumbling walls gives an impression that most of the city must be leveled. Yet we know that this is not the case.

### DAMAGE FROM BOMBING

How much actual damage is being done by these ferocious bombings? The Economist, British financial journal, estimates that damage to British property from German bombing in the first two years of the war comes to \$480,000,000. They reached the estimate from the actual figures of an insurance company which found losses to its London holdings had reached 3 1/2 per cent.

### WHEN BARGAINING MATURES

In the course of a luncheon address the other day, Chairman William H. Davis, of the National Defense Mediation Board, said: "The final balance of mature collective bargaining will be reached only after the employers counter-organize on an industry-wide basis."

### PENSACOLA'S SAD EXPERIENCE

Commenting on a recent Post-Dispatch editorial noting the wide variance in milk prices over the country, the Pensacola (Fla.) Journal presents some interesting information about its own city's experience. The state milk board recently approved an increase in Pensacola from 15 to 17 cents a quart, making its rate among the highest in the United States. Dairy men had called for the increase because, they said, prices of feed labor and other factors had gone up. At

### Common Ground

By R. G. HOLLIS

#### NEED A NEW TRANSLATION OF NEW TESTAMENT

There certainly is one verse in the Bible that needs a new translation. It is the 26th verse of the 15th Chapter of St. Luke. According to the King James version, the verse is: "If any man come to me, and hate not his father, and mother and wife, and children, and brethren and sisters, and his own life also, he cannot be my disciple."

I was surprised in looking up the translation of Weymouth, Goodspeed and Moffatt that they all gave practically the same translation. It is impossible to believe that Jesus advocated a Christian hating his father, his mother, his children and himself with the same meaning of the word "hate" that we now have.

Weymouth, in his translation, gives a footnote, as follows:

"This word must be interpreted in the light of a sanctified commonsense. Taken literally it is as impossible to Jesus as to ourselves."

Certainly Jesus meant that we should love our father, mother and ourselves less than we did the principles he stood for, if we were to follow him. We must put natural laws before our own personal welfare or the welfare of any of our relations.

This same thought was expressed in Matthew 10:37:

"Whoever loves father or mother more than me is not worthy of me, and any one who loves son or daughter more than me is not worthy of me."

This principle, when properly interpreted, is one of the most important principles set down by Jesus. It is, in reality, the same as the First Commandment, "Thou shalt love thy God."

An law which all history gives evidence that we must obey, if we will have peace, happiness and tranquility, is that we have equal respect for the rights of all other people. "Equal" and "all" are measurable, understandable, predictable, formulable and systematic. We must not put ourselves above any other individual, as to the rights to pursue happiness; not that we are equal in weight, strength, or mentality. God created no two people alike, in this respect. But as Jefferson said, "The God who gave us life, gave us liberty at the same time."

This is a law, it seems to me, which we must have more regard for than we do our mother, father, sister, children or ourselves, if we will follow the teachings of Jesus and, thus, have the Kingdom of Heaven within us.

### NEW RELIEFERS

Probably most people do not realize it now, but sooner or later they will understand that the Administration leaders have put millions and millions more men on relief. They have, in fact, put all the enemies of Hitler on relief to be supported by the workers in the United States. The load is too big. We cannot even support all the people who can be born in the United States, if we attempt to keep them alive without requiring them to work.

### RADIO MONOPOLY AND THE WAR DEBATE

The America First committee held its most important mass meeting in recent weeks the other evening in New York. The speakers were Sen Wheeler, John Cudahy, and Col. Lindbergh, and 32,000 people jammed Madison Square Garden to hear them.

The America First committee charges that the radio monopolists are denying the right to hear both sides of the war debate. It is a justified charge. It is ridiculous that two men, Mr. Saroff of NBC and Mr. Paley of Columbia, should hold in their hands the power to grant or deny the major broadcasting facilities of the nation as whimsy moves them.

It is also a bad thing for the radio chains themselves. By refusing to carry the speeches they disappointed and aggravated millions of their listeners. This feeling of betrayal on the part of the radio listeners was reflected in an unusual large number of telephone inquiries received by The Tribune regarding broadcasting arrangements for the meeting.

### ELEVEN FOR ONE

Part of the confusion in connection with the war to which reference is made every day in conversation arises out of the fact this is the first modern, mechanized conflict, or "total war" which the world has seen.

### THE NEED FOR GIVING UP THINGS

### Around Hollywood

By PAUL HARRISON  
HOLLYWOOD, Nov. 17—It's true that Jack Oake is still playing college freshman roles, and that many of the boy-meets-girl situations in the movies involve pairs of well-preserved veterans who are in fear and danger of becoming grand-children, but youth is beginning to get a break in Hollywood.

There are a few striking evidences of the trend around several studios, but most examples are at Paramount. Just starting is "Out of the Frying Pan," with Edward H. Griffith producing and directing a top-budgeted version of the play without a star name in the cast.

Although no players have been chosen yet for "For Whom the Bell Tolls," it seems likely that Henry King will make it with people of whom you've never heard. And it will be one of the really big pictures of the year—although I'm not sure which year.

### A LAD'S JOB

An important drama now under way is "This Gun for Hire." Veronica Lake and Robert Preston have the romantic leads, but the real acting role belongs to a slim, brisnie young man named Alan Ladd.

### SLAVE DRIVER

Miss Carol worked hard and drove her client hard to win every possible break. She shot him a test for the soda-jerker's role in "Meet John Doe" and he sat up all one night drinking coffee and learning the eight-page speech which did so much for the career of Regis Toomey, who eventually got the part.

### SO THEY SAY

We can—and we shall—establish an economic floor below which no American citizen, whatever his personal misfortunes may be, can fall. The ultimate success of democracy will depend upon the maintenance of such a foundation.

### People You Know

Yesterday was a Sunday when not even the preachers could have objected to the movie fare in Pampa because at the Crown and at the LaNora were two soul-stirring and eloquent sermons. Both vigorously denounced the devil and his works. As I walked into the Crown, a woman stopped at the box office and told Naida Graham that "that was the best picture I ever saw."

There is still a lot of talk about the Gulf of California by Mr. Leigh and a party of friends and scientists. I, for one, know so little about the Gulf that I did not know that nobody else knew much either. This is true of most people, I imagine, and certainly this is the book to correct the situation.

### Yesteryear In The News

Ten Years Ago Today  
Rainsfurners and a tornado swept the Panhandle. The wind struck one farm 13 miles north of Pampa. Wallace Beery, film star, flying his plane to the coast, was forced down in a wheat field north of Pampa.

### CRANIUM CRACKERS

WORLD RULERS  
War has driven many of Europe's rulers from their seat of government, but there are others throughout the world still in power. Match up each of the following rulers with his proper country and give his title.

- |              |             |
|--------------|-------------|
| 1. Vargas    | a. Ireland  |
| 2. Hirohito  | b. Mexico   |
| 3. De Valera | c. Zanzibar |
| 4. Gamacho   | d. Peru     |
| 5. Faruk     | e. Cuba     |
| 6. Prado     | f. Brazil   |
| 7. Harub     | g. Egypt    |
| 8. Batista   | h. Japan    |

### Behind The News In Washington

By JACK STINNETT  
WASHINGTON—This talk about economy in non-defense governmental agencies isn't all hokey, by any means.

In the first place, the government has got to make a stentorian effort to offset the squawk that is going up over the land when all the new taxes start taking the hide off John Q. Public's pocketbook.

That kind of reasoning is driving some federal officials to settle down to some head-thumping and although little has been done so far, the pressure is increasing to streamline the mechanics of government and eliminate all the frills that have nothing to do with national defense.

Also under consideration is another executive order which would prevent non-defense agencies from filling vacancies without proving that their entire machine would operate unless the job were taken over by a replacement employee.

All of this talk about stripping the non-defense agencies of all but essential functions wouldn't mean much if the present classification of "national defense" agencies is continued. Today, there are so few "non-defense" agencies that you could hardly find them with a microscope.

Under a re-definition, only the first line defense agencies, such as War, Navy, OPM, office of emergency management, OPM, Price Administration, and one or two others would get this rating. The rest would have to streamline or bust.

### SIDE GLANCES

By Galbraith  
Cowbirds do not build nests but lay eggs in nests of other birds, which unknowingly raise the cowbird young.

### TEX'S TOPICS

By Tex DeWeese  
MONNA Dell Corley, Skellytown, has written two poems, "Spring Caresser" and "Call of My Heart" which will appear shortly in the 1941 Pageant of Poetry, an outstanding collection of poems written by contemporary American poets. . . . The book is to be published by Pacific States Publishers, Los Angeles. . . . We took the crystal ball down off the shelf, dusted it off, took a peep and there it was—just as clear as could be—a win for Pampa over Amarillo Thursday. . . . We know some winning the Harvester for some reason or other there was bound to secrecy, that makes us believe more than ever that Amarillo will be torpedoed and sunk.

Incidentally, we've been trying to find something in the Amarillo News about this forthcoming game. . . . There's been little or no mention of it since last Thursday's paper. . . . Sports Editor Harry Hoare has asked for some dope about the team for the enlightenment of the fans on this sports news and they haven't answered that request either. . . . If the current swell weather continues, there should be an "all-out" crowd on hand at Harvester Stadium Thursday afternoon.

HAD you thought of it this way? Defense bonds should be bought for selfish as well as patriotic reasons. U. S. government obligations are the closest approach you can find to a riskless investment. . . . Any rate of return in excess of the going rate left off government bonds represents compensation to the investor for the probability that the principal will not be returned intact. . . . In a borrower's market such as exists today, investment with the Harvester adds a risk yield only slightly more than that of really top grade. . . . Conservation of capital is difficult enough in normal periods, but it is an even more exacting task under present conditions.

EVERYBODY has seen garages lined inside with old auto license plates tacked up on the wall. But only in America. No other country would have been able to afford such a prodigious waste of sheet metal.

Under a re-definition, only the first line defense agencies, such as War, Navy, OPM, office of emergency management, OPM, Price Administration, and one or two others would get this rating. The rest would have to streamline or bust.

In England the cost of living rose approximately 28 per cent between the outbreak of war in September, 1939, and July 1, 1941, according to the Ministry of Labor.

Governmental surveys show that 78 per cent of all driving by farmers was for "necessity" purposes.

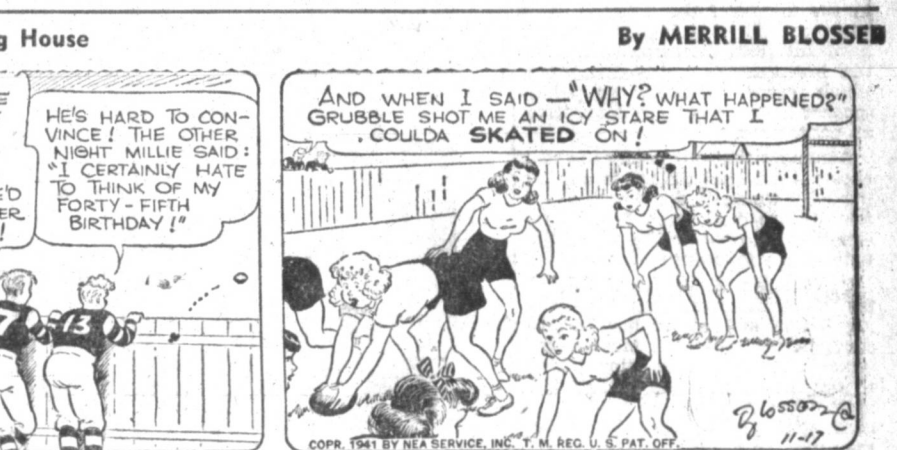

"Boy, wouldn't I give a million dollars if I had that guy Hitler where I've got you, Mr. Enderby!"

SERIAL STORY FOR THE LOVE OF PETE! BY BURTON BENJAMIN

THE STORY: When State's star footballer Pete Laird loses his head at a crucial point in the game...

NICE BLOCKING, BOY CHAPTER XII GEORGE LANDERS looked up from his hospital bed and saw Pete Laird in the doorway. "Get out of here!" he growled.

Steelers Fail To Throw Single Pass In Pro Game

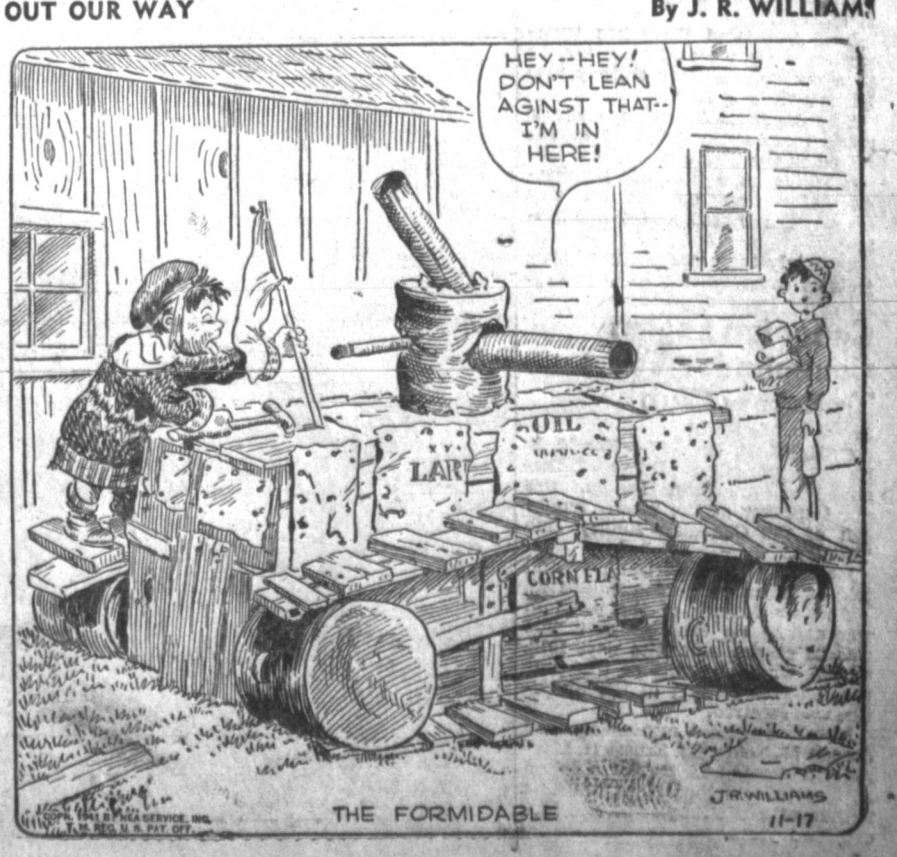

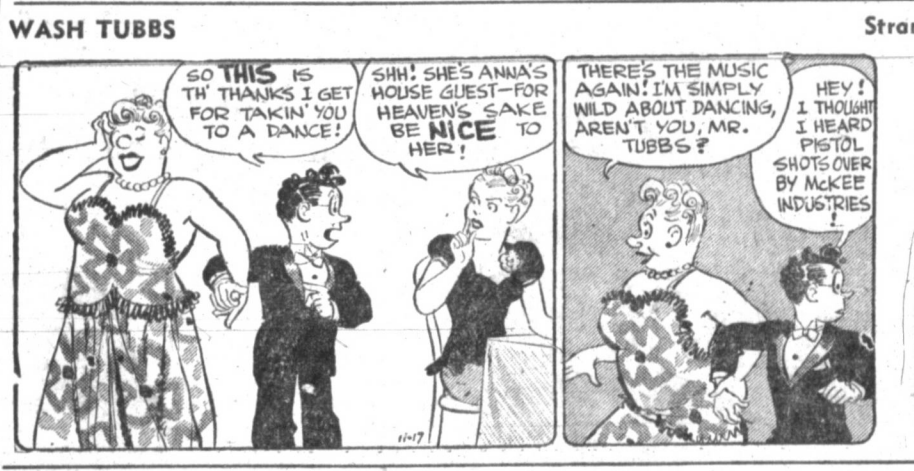

CHICAGO, Nov. 17. (AP)—Either they'll come up with the eastern division next Sunday or the National football league races will be in one royal scramble.

T. F. Tiltman, flight surgeon of the 43rd bombardment group, started for the all but impenetrable wreck area in a cold rain last night.

Bomber Crashes In Maine Woods, Four Men Believed Dead

BANGOR, Me., Nov. 17. (AP)—Soldiers and workmen pushed into trackless, boggy woodlands today toward the charred wreckage of an army bomber...

## Today's War Analysis

By DEWITT MACKENZIE

The war-time news censorship imposed by a country is the clinical thermometer which records the state of well-being of that country.

The severity of the censorship is in direct ratio to the feverishness of the situation, that is, to the degree of nervous tension.

Thus a lax censorship means that all's well, and there's nothing to cogitate. A rigid censorship may mean either that things aren't moving in the right direction, or that there are impending developments which the government doesn't want to have advertised.

The German government has banned the Berlin representatives of three American broadcasting companies from the air—the National Broadcasting company, the Columbia Broadcasting system and the Mutual Broadcasting system. It is charged that these representatives submitted unjustified complaints to their companies without previously negotiating with the Reich Broadcasting company.

Now irrespective of the arguments over these charges, the thermometer would seem to register a state of nervous tension in Germany. That doesn't necessarily mean that bad fortune is casting its somber shadow across Herr Hitler's path of conquest. It might mean that, but it also might signify that the Fuehrer is brewing another dose of medicine for the Allies.

Take it all in all, there are indications that we have to deal with a combination of circumstances involving both worries and projects. The fact is that the next few months may see a vast swing in the war pendulum.

There has been no sign of further restrictions on news handled by wire or telephone. However, broadcasting is in a class by itself.

In the case of cabled or telephoned news, the German government sees in the American papers the printed record of what is given the public. But in the broadcast services there is no satisfactory gauge, since the only true record is in the minds of the listeners, and who can tell what impression they have got from clever inflections of the broadcaster's voice—inflections which, every air expert or public speaker knows, can be as descriptive as pantomime.

Assuming that our premise is well chosen, and that Berlin is getting publicity which it doesn't want, or fears future disclosures, I think we can find reasons for the Nazi attitude in the following:

Debit side: Hitler has fallen so far behind in his program for crushing Russia and winter has him in such an icy grip that Moscow reports Nazi soldiers are being frozen to death. Berlin denies this, but there is no denying his armies are encountering such difficulties that they may be stalled until spring. If this should happen he would have suffered a major defeat.

German losses in lives and equipment has been terrific, a fact which cannot long be concealed from the home public and is bound to cause depression. The conclusive victory and the fruits thereof which had been promised the people still evade Nazi arms. Clearly the privations of another belt-tightening winter must be endured. On top of that comes Propaganda Minister Goebbels' gloomy call upon the population to prepare for a longer war and one requiring vast national sacrifice if victory is to be achieved.

The Allies are growing stronger. American production is beginning to hit its stride. The Nazis have lost heavily in the striking power which they had before their attack on Russia.

Credit side: Hitler still retains the initiative. He must keep striking and there is no doubt that he is preparing fresh ventures. Where will he strike?

It is likely that if his present drive for the Caucasus and its oil moves well, he will pursue it. Berlin today claims the capture of the fortified port of Kerch in the eastern Crimea, and this might permit him to fling troops across the narrow strait into the Caucasus. It is clear that the Fuehrer intends to wage fierce war against shipping in the Atlantic.

Beyond that is speculation. He might try to compel the Turks to give him passage through their country for an assault on the middle east. He might even attack Turkey to force a way. Another Axis assault on Egypt from Libya is possible.

The Associated Press has trustworthy advices that France is close to a decision to enter entirely into Hitler's "new order."

The Japanese-American crisis is made more tense by the demands voiced in the Tokyo diet today, giving Hitler hope that his far-eastern ally may embark on war against the United States and Britain.

Certainly there are plenty of subjects to cause tension in Germany.

## Canadian Legion Commander Talks To Rotary Club

SPECIAL TO THE NEWS  
CANADIAN, Nov. 17—Harold B. Reed, commander of Zytch-Owens Post American Legion, was guest speaker at the weekly luncheon of the Canadian Rotary club Tuesday.

He talked on "Americanism" and told of American Legion objectives. Another feature of the program was calling on each member who was in service Armistice day, 1918, to tell where he was at the time the news of signing of the armistice was received.

Members present responding were Joseph M. Noble, Dr. Ernest H. Morris, Dr. Edward H. Snyder, Carlton A. Studer, and Earl Rhea, the last named with the longest service record, two years.

## Eggs Called Body Builders

Eggs are playing a very important part in improving the

health defense of the nation. O. R. Pumphrey, chairman of the Gray County Food Industry committee, said.

"In this time of national emergency we must all work together to make America strong. The Surplus Marketing administration and

other government agencies with the aid of farmers, industry and consumers are working together to improve the diets of everyone.

For example, eggs can be purchased by clients of the food stamp program with their blue food order stamps. It is our hope that all

homemakers in this community will serve more eggs. According to studies made by the bureau of home economics, United States Department of Agriculture, eggs count among the best of body builders," Mr. Pumphrey said.

The chairman gave these suggestions on the nutritive value of eggs as well as some cooking hints and recipes he discovered in a publication issued by the bureau of home economics:

"The protein in both the yolk and the white is the efficient kind that is needed by the body for growth

and repair of tissues. Eggs are an outstanding source of iron and they are rich in calcium and phosphorus.

"Vitamins that are found in eggs, are A, B-1, D, G, and the pellagra-preventive factor. They are also an excellent source of proteins and minerals. An egg a day

has a place in every well-balanced diet. If that isn't possible at least three or four eggs a week. Children should have at least one egg a day."

Approximately 125,000,000 separate shipments are handled annually by the railroads.

"...and do be careful!"

"Five mornings a week, nine months a year, we mothers of Texas get our children ready for school.

"In our home and a million other Texas homes, that's one of the first and most important duties of a mother's day. Sometimes Dad finds out what a job it is when he has to do it by himself."

\* \* \*

All of us want our children to have the best education possible. Most of us look to the public schools for this.

Fortunately, Texas has the best public schools in the South. Helping to build and operate them is the Texas petroleum industry which pays 24 million dollars a year in taxes for school purposes.

These petroleum taxes pay an average of one-fourth the cost of educating our children. Altogether, they meet the entire expense of schooling nearly 400,000 Texas boys and girls.

In addition, oil has contributed substantially to the 70 million dollar permanent school fund. Oil is also responsible for much of the 30 million dollar permanent university fund, which has made possible the expansion of the University of Texas and A. & M. College.

Furthermore, taxes on petroleum products add another 11½ million dollars a year for the schools of our State.

Our children get a better education today because of the Texas petroleum industry.
