Do You Really Want to Take Off That Ugly Fat?

Recently there has been a number of new reducing preparations on the market, some of them based on the diet and vitamin "plan." It is obvious that vitamins will not reduce the body weight, so one must depend on diet to reduce. But it is also obvious that one cannot go on a strange. vious that one cannot go on a stren-uous diet over a protracted period, and any weight lost will be restored f the former eating habits are gone

and willing to help raise funds for our children's cancer ward at Memorial Hospital. Their club members furnished the money to give the children their Christmas

party at the hospital. In giving me today's 'lesson hand, Fishbein said that regardless of how often I publish the trump distribution that is in it even good players slip up on the proper way to play it. He wanted to point out today the importance where to win trick number one. In many cases it does not make any difference, but quite often, where you win the first trick is the key to winning or losing the

opponents win the

three heart tricks. When East wins the third trick with the ace of healts, he leads back a club. Where should declarer win the first club trick? If he wins it in dummy with the queen, he will have to cash the ace of spades and then lead a small spade; but he will not be able to get into dummy to pick up East's fourth spade and he will lose the contract. Therefore he must win the first trick in his own hand and conserve the entry into dummy. When declarer wins the first club trick in his own hand with the jack, he then leads a spade to the ace and West shows out. Now he leads a small spade and if East plays the ten-spot, de-clarer wins with the queen, and he has the club entry into dummy to take the other spade finesse. "Bear in mind," said Fishbein, "that if West "holds the four spades to the jack-ten, you never can pick up all of the out-standing trumps. But when you hold this type of trump distri-

WOMEN

"Once, active in war work, the women of San Diego, Calif., could not keep their hands still after the war; they formed a Button Club, whose members are making miniature cactus gardens sewed onto large buttons, to be distributed to naval hospital patients," says the cutline under a newspaper picture of a group of women at work around a large table.

It's rather pathetic, isn't it, that women who did real, honest-to-goodness work during the wary wars, in peacetime have to keep their hands busy by making button gardens?

The initiation is to take place Sunday, Jan. 9, in the City Club Room. New members received their pictures which were taken at the presentation dance.

THE STORY: Life seems bright THE STOR?: Life seems bright and beautiful to sixteen-year-old Merry Carson, whose big moment is Tip Kennedy, captain of the high school football team. When Tip suggests they become formally engaged after they finish school. Merry is dazed with happiness. But that very evening she walks into a strange scene at home. NEW YORK -(P)- Harrison Dillard, the nation's premier hurl-er and one of the world's fastest humans, was named today as the athlete who made the outstanding

comeback of 1948.

The Baldwin Wallace track man was cited for his remarkable 100-meter victory in the Olumpics following his failure to qualify for hurdles in the Olum-

ic tryouts. Dillard's feats earned him 14 first place votes, six seconds and three thirds from the 96 participating sports writers in the year-end Associated Press poll for a first place total of 57 votes. Stan. Musial, St. Louis Cardinal

outfielder, was runner-up to Dil-lard with 46 points. For boosting his batting average from .312 to a league-leading .376, and pacing the loop in runs batted in, runs scored, hits, doubles, triples, total bases and slugging average, Mus-ial received 11 first place nom-inations, six seconds and one

NCAA Headaches

SAN FRANCISCO -(P)- The "National Collegiate Athletic As-sociation sat down at the conference table Tuesday to ponder its multiple headache: Are too many bowl games? Will television cut collegiate gate receipts? And what about the "platoon system" of football substitutions? These are only a few of the puzzlers. The NCAA not only makes the rules for college sports; nowadays it also sets up codes of behavior for its 300-ode member schools.

A special NCAA committee has been studying the football bowl situation and is due to report before NCAA sessions are adjourned next weekend. Officially, no one is talking — yet — about is talking — yet — about bowl games. Unofficially, one coach said: "Leave my name out and just say something will have to be done, sooner or later."

Stars Plan Personal **Appearances** By BOB THOMAS HOLLYWOOD —(P)— Look out, citizens, movie stars are coming

your way.
The new year will find more and more Hollywood personalities going out to meet the public. It's a factor that will help im-

prove the film industry's public relations, but there's an important commercial matter, too. One film figure told me it will add \$300,-000 to \$400,000 to a picture's gross if the star will help call attention to it with a national A recent event proved how im-portant this is. Samuel Goldwyn fired Teresa. Wright when she

refused to make a New York appearance with his latest film. Gregory Peck is not in the academy running for the first time in three years. He didn't have a picture released in 1948. Robert Young still plans to do "The World and Little Willie" for his own company, Cavalier. The film was called off when All makes repaired and all work goar anteed. 24, hour service.
