

'I've Been Framed' Is Coplon's Cry

WASHINGTON (AP)—Judith Coplon screamed "I've been framed" over and over today at the examination in her espionage trial.

When Prosecutor John M. Kelly, Jr., finally said "that's all," Miss Coplon remained seated on the witness stand.

Whether or not their claim proved correct, it was clear that the Senate's parliamentary situation had changed drastically.

The unifying factor was an unexpected move yesterday by Senator Lucas of Illinois, the leader of the Senate Democrats.

He introduced a new "plant seizure" proposal which he told reporters President Truman would obviously approve.

Lucas introduced his plan in such a way as to make injunctions the big issue.

He introduced a new "plant seizure" proposal which he told reporters President Truman would obviously approve.

That wheat farmers in and around Canadian have filled a car of wheat for distribution through the Christian Rural Overseas Program to needy families in Europe.

Fort believes a combine shortage may soon appear here if the rains keep falling.

Yesterday 10 combines were reported idle in the Pampa area.

Acheson Says Russia on Defensive 'In Struggle for Soul of Europe'

Reds Hold Fast to Grip on Germany

WASHINGTON (AP)—Secretary of State Acheson is convinced Russia is now on the defensive in "the struggle for the soul of Europe"—and must be kept that way.

Acheson's prescription for keeping the advantage is to drive ahead steadily with the measures already in effect or proposed Marshall Plan aid, the North Atlantic Treaty, and the administration's arms-for-Europe program.

The secretary detailed at a news conference his thoughts on "where we go from here."

First he denounced the attacks of the Communist-led regime in Czechoslovakia on Archbishop Josef Beran as a violation of the "rights of conscience and the decencies of civilization."

Then Acheson launched into an analysis of the Paris meeting. The big four conference, Acheson said, served — like the gauge on a steam boiler — to measure the pressures between Russia and the West.

"I don't understand this whole case," she screamed. "I am innocent. I will always say that I'm innocent and that I am being framed."

She said that she did not know whether Valentine A. Gubitchev, the Russian with whom she was arrested, was in the "conspiracy," but she screamed that Gubitchev had left her to make a phone call only ten minutes before the FBI seized them.

Kelley finally managed to ask her how many persons participated in the "frame-up."

She said she did not know but shouted she was certain that Whearty and H. P. Shapiro, a Justice Department attorney with whom she had admitted holding all-night trysts, were among them.

She also named William E. Foley, her last Justice Department boss.

Her earlier denial that she was "framed" was "a lie."

Pampa News

VOL. 47—NO. 312 (10 PAGES) PAMPA, TEXAS, FRIDAY, JUNE 24, 1949

LATEST BULLETINS

Night Rider Probe
WASHINGTON (AP)—Attorney General Tom Clark today ordered a full field investigation by the Justice Department into recent night rider violence in Alabama.

The announcement said that members of the Ku Klux Klan were "purported" to be involved in the same time Congressional committee ordered public hearings of Alabama floggings.

Some Southern representatives warned Congress to keep hands off.

Hiss Perjury Trial
NEW YORK (AP)—Alger Hiss testified at his perjury trial today that the last time he saw Whittaker Chambers, former courier for a Red spy ring, was in "late May or early June, 1938."

The former high State Department official thus denied one of the two counts of the perjury indictment against him that he lied when he said he had not seen Chambers since Jan. 1, 1937.

Chambers, the government's key witness in its charges against Hiss, was excluded by the court.

Fire Wrecks Supply House At Navy Lab
WASHINGTON (AP)—Fire wrecked a supply warehouse at the Navy's Naval Research Laboratory early today and for a time threatened a nearby building containing high explosives.

City firemen brought the flames under control after about a half hour. Police also went to the scene but were excluded by armed Marine guards.

The fire was confined to a two-story brick, steel and concrete building containing laboratory supplies and equipment.

Only eight feet away, in a 50-acre, fenced-in area, is a ballistics laboratory containing explosives.

A Navy spokesman said only a small amount of explosives were in the adjoining building.

However, a man familiar with the Army installation said there were enough that, if reached by the flames, the entire southeast section of Washington would have blown up.

A Naval Board of Inquiry was ordered to determine the cause of the blaze.

Firemen Make Two Minor Fire Calls
Firemen had two runs yesterday and today, but both were minor fires, Fire Chief Ernest Winborne said.

At 1:20 p. m. yesterday they were called to the Pampa Machine Company, 120 S. Hobart, where some oil-soaked discarded lumber became ignited.

The lumber was stacked behind the building and caught fire when employees of the company were burning grass.

A gas line between the houses at 424 Starkweather broke early this morning and became ignited. Firemen were called at 7:25 a. m. and extinguished the fire in a short time.

Melody Maids of Beaumont Date House, Senate Pages
WASHINGTON (AP)—Forty-four pretty girls from deep South Texas are putting their hometown on the map around these parts.

They are the "Melody Maids of Beaumont."

Free X-Ray Survey Starts Tomorrow in Legion Hall

Beginning at 10 a. m. tomorrow, Gray County residents will have the opportunity to have one of the most valuable of health check-ups free of charge.

The State Health Department's mobile X-ray unit arrived here yesterday and will complete arrangements today for the week-long X-ray survey.

The American Legion-VFW Hall, headquarters for the survey, will be open from 10 a. m. until 8 p. m. tomorrow. The survey will begin again at 9 a. m. Monday and last until 6 p. m.

Tuesday, Thursday and Friday, the X-ray service will be operating from 9 a. m. to 6 p. m. Wednesday the survey will operate from 10 a. m. to 6 p. m.

The survey will complete its work in Pampa one week from tomorrow and will be open from 10 a. m. until 6 p. m.

On July 6 and 7, the survey will operate from the D. Y. S. Motor Company at McLean in order to give residents in that section of the county an opportunity to be X-rayed.

"Two minutes of your time now may get you 40 years later," Philip W. Gauss, tuberculosis field worker, told residents who attended the organizational meeting for the 1949 X-ray survey.

Tuberculosis kills about 55,000 people in the U. S. each year, 40,000 of which are 30 years of age or over. At the present time at least a million persons are sick with the disease.

"Early TB gives no warning," Gauss said.

Three Fined \$50 for DWI
Fines of \$50 and costs were slapped on three men yesterday and today by County Judge Bruce Parker for driving while intoxicated.

Wirt E. Ellis, 728 N. Nelson, fined the morning after entering a plea of guilty, was picked up last night by City Police in the 1400 block of E. Francis where he had driven, officers said, on a lawn.

William Thorpe Combs, carrying a Kansas driver's license, was picked up early Thursday morning by City Police in the 300 block of E. Francis after he was reported by police to have run two stop signs. Combs entered a plea of guilty before Judge Parker yesterday.

Conda T. Long, whose license gave his address as Midland, was picked up early Wednesday night by City Police in the 300 block of S. Cuyler. Police said Long backed his car out from the curb and almost hit another car. Long entered a plea of guilty and was assessed the minimum \$50 fine.

The driver's licenses of all three were automatically suspended for six months and surrendered to the county clerk's office.

Plant Explodes
TOKYO (AP)—Japan's largest chemical fertilizer plant exploded today, killing 18 persons and injuring 52 others, 12 seriously.

34 INJURED IN CRASH LANDING—At least 34 persons were injured when the American Airlines "City of San Antonio" crash landed near Memphis, skidding across a field, across a highway at the edge of the field, and into a tree. This aerial view shows the path taken by the skidding plane after it hit. (AP Wirephoto)

Appeals for Blood Donors for Pampan Made in Galveston

Appeals for blood donors were published in Galveston yesterday as doctors worked on a Pampa woman whose family has had more than its share of hard luck, the Associated Press reported.

The woman, Mrs. Alfred Reynolds of Pampa, was flown to the John Sealy Hospital at Galveston June 11 by Roy Webb, Jr. She has had more than 31 blood transfusions since last November to counteract a rare type of anemia which prevents reproduction of white corpuscles.

Six of the transfusions have been given to her since she was brought to the state hospital at Galveston. She has exhausted the supply of her type of blood in the Red Cross blood bank at Galveston and appeals for donors are being made to replenish the bank supply.

According to information received here yesterday afternoon, Mrs. Reynolds is "doing as well as can be expected."

Mrs. Paul Hill, Pampa Red Cross executive, reported that the woman in charge of the Galveston Red Cross met Mrs. Reynolds at the airport when Webb's plane landed. She took her to the hospital, where preparation for the transfusion had been made in advance for her admittance, and waited until Mrs. Reynolds' first transfusion was completed.

The Sealy Hospital is a state hospital operated in conjunction with the University of Texas Medical College at Galveston, and no fees are charged the patients. However, Reynolds, who is staying with his wife, has to meet his own living expenses.

Mrs. Reynolds' family has been struck repeatedly by hard luck. Her husband underwent a serious operation Feb. 26. Their daughter, Sandra Louise, needs an operation to prevent a badly burned hand from becoming deformed. The child fell against a gas heater in December, 1947, when she was only a year old.

Reynolds has exhausted his personal savings and his hospital credit here, friends and associates revealed. When Mrs. Reynolds needed hospital care and several transfusions recently and no money was available for her treatment, Reynolds' fellow workers at the Cabot Bowers plant chipped in several hundred dollars to help meet her expenses.

Her physician made arrangements for her admittance to the Sealy Hospital when it became apparent she would need more specialized care than was available here.

WE SAW...
A large skeleton hanging across W. Foster in front of the American Legion-VFW Hall this morning. Guess it demonstrates what may happen to residents who feel they're just too busy to stop in the hall for an X-ray.

Two File for Ward Two City Post

Two businessmen tossed their hats into the ring for the Ward 2, city commissioner race late yesterday afternoon and early this morning.

First to file his affidavit as a candidate for the office was Myron A. Marx, Jr., 1025 Twiford, who is in partnership with his father in the Texas Electrical Appliance Co., W. Browning and N. Frost.

Marx came to Pampa in 1946 after his discharge from the Army Air Force, with the rank of captain. Marx, a veteran of five years in the Army, spent 18 months with the 80th Fighter Group in the China-Burma-India Theatre. A native of Oklahoma, he attended New Mexico Military Institute and went into civilian life for three years before signing up with the Oklahoma National Guard prior to the war.

Shortly after 9 a. m. today, Dale Pinson, partner in the Hall and Pinson Hardware, 700 W. Foster, filed his affidavit declaring himself a candidate.

The father of two boys, Gary 10, and Lynn 6, both Woodrow Wilson School pupils, Pinson resides at 1021 E. Browning.

Pinson came to Pampa in 1934 and started working for the Compton Service Station on S. Cuyler. Later he worked up into a partnership and now is co-owner of the Hall and Pinson Station.

Potential candidates have until 5 p. m. today—the deadline—to file their declarations of candidacy.

The special city commissioner election is being held Monday to fill the vacancy created by the resignation of former City Commissioner Vernon L. Hobbs.

Search for Thornton Slayers Moves to Elk City Vicinity

AMARILLO (AP)—The Potter County Sheriff's Department said today a young couple, sought in the murder of W. A. Thornton, were believed to have been seen early yesterday morning in Elk City, Okla.

The sheriff's office also announced that Thornton and a young man and woman were seen at Adrian, Tex., enroute to Amarillo, a few hours before Thornton was slain Wednesday night.

The body of the famed oil field explosives expert was found in a tourist court here yesterday. A nation-wide search was being pressed today for the young couple who went there with Thornton Wednesday night.

Earlier the Sheriff's Department had said the man and woman left the scene of the slaying in Thornton's automobile.

The officers said Thornton was seen alone at Tucumcari, N.M., Wednesday afternoon.

But later in the afternoon, Thornton, carrying a young man and young woman in the car, stopped at a service station in Adrian, Tex., the Sheriff's Department said.

Thornton bought gasoline and signed for it. The service station attendant definitely identified the explosives expert.

A porter at the tourist court at first reported the couple left late Wednesday night in a blue sedan. Police today said they had established that the automobile was Thornton's black Chrysler sedan.

It was a four-door 1948 model.

ISLAND OF ESCAPE

By Hugh Lawrence Nelson

THE SPY: Bea Cosgrove, unattested that Lily Warren's death was suicide, has just proved to herself and Fred Hillwell that the skills of the other Spenser Islanders are worthless. But her activities seem pretty well known to George Bascombe and others on the island. However, a strong gathering over the island and the islanders, eight of them altogether, retire to the home of the owner, Henry Gough Harting. Suddenly an alarm is given. There is a fire sweeping through the dry grass of the island.

XXVIII
HENRY HARDING almost knocked Mabel Jones down as he burst into the main room. He carried a 30-30 rifle.

"Billwell, stand away from the others. I'll kill you for lighting a fire in this wind."
"I didn't!" Fred said quickly. "No one could see it in the muck. Why and how could I light it now?"

"It's no beacon," Bascombe said. "It's a fire in the long grass and the brush. It's growing fast."
Bea Cosgrove heard the snick as Harding automatically lowered the cocked hammer of the rifle. He pushed to a place by the window, turned quickly. His voice carried authority when he spoke. "We've got one chance to stop or turn that fire. We'll go to the shed for tools. Shovels. Hoes. All of you follow me. I'll show you where we can backfire. We may be able to save the house if it rains soon enough."

Henry Harding stuck his shovel upright in the ground, put his long flashlight on a rock so its beam stabbed toward the opposite side of the island. "We'll backfire here." He had to shout to make himself heard.

The others were breathless and gasping from the long run with their tools and equipment. "Make grass bundles," Harding commanded. He showed them how to twist the tough, long-stemmed grass into compact brown masses, that burned fiercely when he lit them with his hoard of matches. He showed them how to scatter

over area. A few more, and her feet were stinging lead. She tripped, fell heavily. She got up with the aid of the shovel, left it as she stumbled on.

The earth trembled beneath her aching body. In a few seconds a dull rumbling came to her. "Thunder," she muttered loudly in the direction of the sound. She knew at once it was not thunder.

BEYOND the main house, from the cove and lower storerooms, flames were leaping high into the air. Gasoline-fed flames. The house, the scuttling water tower, made a silhouette against their brightness.

As Bea stared, the house lifted into the air. It moved slowly, in one piece. As it settled back, it disintegrated.

The earth trembled beneath her, a heavier jar. Concussion pushed at her. There was no sign now of the house or tower.

She was suddenly conscious of growing light near by. She turned quickly to face intense heat. The main flames had jumped the backfire in a dozen places. Its several spearheads were joining into a new solid front.

Bea forced herself to her feet, ran as she could see others running toward the rock outcrop. The scant check of the charred path gave them a few precious minutes to race along the fire's face toward shelter.

It was a near thing for some. A spending of the last strength of desperation for others. And for a time they had to fight for even their scant margin of safety, had to beat at encroaching flames running along paths of grass.

Then the main fire was past. It swept down the island, roaring and chuckling again, apparently unchecked by the slowly increasing rain. Its brilliance merged with the leaping flames from the cove.

"All here? All here?" Hoarse questioning voices. A counting of figures. "All here! All here!"
One man stood apart, his face turned up toward the rain, his lips moving silently, in the passing freight.

(To Be Continued)

Follow Road Sign Shapes, Says Greer

AUSTIN — Would you drive with your head tucked under the dashboard of your car?

It's as sensible to do that, State Highway Engineer D. C. Greer says, as to ignore warning signs along the streets and highways. "Either one represents a case of flying blind," Greer said, "and cars aren't equipped for blind flying."

The Texas Highway Department is cooperating this month with the Texas Safety Association in an effort to improve the importance of traffic markers on motorists and pedestrians alike.

"Traffic signs and signals and pavement markings cover almost every situation that can be anticipated, yet the regularly with which they are ignored is appalling," Greer says. "A conscientious observation of traffic signs would help greatly to reduce traffic accidents."

Greer pointed out that traffic signs are easily recognized by their distinctive shapes, even at a distance that makes their lettering illegible. And he urged

Physician Faces Assault Charge

GRAND PRAIRIE, Tex. — (AP) — A Grand Prairie physician was free under \$2,500 bond today on charges of criminally assaulting a 25-year-old married woman while giving her a medical examination.

Dr. A. D. Donnelly, about 50, was arrested by local officers on complaint of the woman's husband. Police said the woman claimed the assault took place in a physician's office.

The lifting power of helium is about 90 percent that of hydrogen.

drivers to increase their own traffic protection by learning what these shapes are.

"Round markers are used to indicate approaches to railroad crossings," he said. "The familiar 'cross-buck' marks the crossing itself. Oblong signs indicate speed limits or other regulatory instructions. Diamond shaped signs warn of danger ahead. Eight-sided signs are used only for stop signs."

The Highway Engineer emphasized that every sign has a meaning and a purpose and is installed for the protection and guidance of the people only after study by traffic engineers has established its advisability.

Sterilization Most Important Factor in Food Establishment

Sterilization is the most important factor of the city and county Health Department's inspection: at food and drinking establishments in and around Pampa, R. M. Mundine, Jr., sanitary

inspector, said this morning. "Sterilization of equipment at cafes, restaurants, drug stores, soda fountains, bakeries, confectionary establishments and other places where food or drink is served to the public is of utmost importance," he said.

All dishes, receptacles and utensils are required to be washed and sterilized after each use. The state, county and city health standards for sterilization are that a three vat compartment be used for sterilization. The first vat, heated to a temperature of between 125 and 135 degrees F, should be filled with soapy water.

"After the dishes have been washed, they should be put into a wire basket and rinsed in the second vat several times," he added. "The water in the second vat should be about the same temperature as the first."

Vat number three, the sterilization vat, should be heated to at least 170 degrees and the dishes immersed in the vat for at least three minutes.

"Each vat should have a separate burner under it," he added. Employees should be careful, after the utensil has been sterilized, never to touch any part of it that comes in contact with the mouth of the customer. As the concluding safeguard, the utensils should be stored so they will not be contaminated, it was said.

Mundine has asked that every food or drink proprietor get a thermometer and place it near his sterilization unit so the dish washer may check for the correct temperatures.

"Also, we ask that no dish, receptacle or utensil that is chipped, cracked or broken be used or kept for use at any public eating or drinking establishment," Mundine said.

He added that the Health Department further asks the cooperation of proprietors that no napkins, straws, toothpicks, crackers, cut lemons, pies or similar foods be left unprotected from dust, dirt, insects, rodents and all other possible sources of contamination.

Auto Production Will Set Record

DETROIT — (AP) — Another post-war weekly production record for the automobile industry was forecast today by Automotive News. The trade paper predicted American plants would produce 144,981 cars this week.

Last week, despite scattered walkouts and subsequent shutdowns because of the heat, production hit 140,008 vehicles.

Burlington Is Cited for Safety Record

A special award of honor for exceptional service to safety has been conferred on the Burlington Lines by the National Safety Council in connection with its centennial anniversary celebration. The citation to the railroad states:

"The prevention of accidents to its passengers and employees has been the steadfast goal of Burlington Lines since its founding 100 years ago. The success of its resolute efforts over the century is proved by its outstanding record and the consistent improvement in that record, year after year."

"In every year since 1930, the employee casualty rate of Burlington Lines has been substantially below the average rate of all Class I railroads. And in 1948 its rate not only was 20 percent better than in 1947, but was 35 percent better than the average—a conspicuous achievement in a safety-conscious industry."

In connection with the award announcement, Ned H. Dearborn, president of the council, said: "On its centennial anniversary, the railroad should be honored not just for the passage of years, but for what it has achieved during the past century. In accident prevention, its achievement has been noteworthy, and the Council's award is richly deserved."

Rites Held for Mobeetie Pioneer

Funeral services were held for C. M. Scott, longtime resident of Mobeetie, at 2 p. m. today in the Blackburn-Shaw Memorial Chapel in Amarillo. The 81-year-old pioneer died yesterday at St. Anthony's Hospital after a long illness.

Mr. Scott lived in Mobeetie from 1908 until 1944 when he moved to Amarillo. He was a member of the Mobeetie Baptist Church and had been active in church work all his life.

Survivors include three sons, E. T. and Green Scott of Amarillo and H. B. Scott of Oklahoma City; two daughters, Mrs. Ima Redden of Aurora, Ore., and Miss Eddie Mae Scott of Childress.

The Rev. Ray Rozell, assistant pastor of the First Baptist Church in Amarillo, officiated at the services. Burial was at the Childress Cemetery.

Gordon Takes All-Star Second Base Job Lead

CHICAGO — (AP) — Joe Gordon, Cleveland Indians' veteran, has overtaken Cass Michaels of the Chicago White Sox in the scramble for the American League's second base position in the 14th annual All-Star Baseball Game at Brooklyn's Ebbets Field July 12.
 Thursday's statistics show Gordon slipping ahead of Michaels by 170 votes. Gordon, who appears in seven All-Star Games has been named on 431,748 of the 1,423,187 ballots. Michaels, leader at the position since the opening of the poll June 20, has collected 428,938 votes.
 The balloting will end at midnight next Wednesday.
 The vote tabulation to date:
NATIONAL LEAGUE
 First base — Mike New York, 336,513; Waitkus, Philadelphia, 318,842; Hodges, Brooklyn, 314,793.
 Second base — J. Robinson, Brooklyn, 592,294; Schoendienst, St. Louis, 343,103; Verban Chicago, 248,486.
 Third base — Kaack, St. Louis, 428,861; S. Gordon, New York, 418,703; Elliott, Boston, 312,992.
 Shortstop — Reese, Brooklyn, 442,176; Marion, St. Louis, 403,824; Dark, Boston, 327,232.
 Catcher — Seminick, Philadelphia, 392,588; Campanella, Brooklyn, 371,604; Cooper, Cincinnati, 177,917.
 Outfielders — Musial, St. Louis, 536,204; Kiner, Pittsburgh, 564,973; Marshall, New York, 482,518; Thomson, New York, 435,420; Slaughter, St. Louis, 428,826.
AMERICAN LEAGUE
 First base — E. Robinson, Washington, 404,683; Vernon, Cleveland, 319,948; Fain, Philadelphia, 248,255.

Athletics Easily Top White Sox, 11-4

PHILADELPHIA — (AP) — A 14-hit batting attack, which included Sam Chapman's eighth homer of the year, carried Philadelphia to an easy 11-4 decision over Chicago last night as rookie southpaw Alex Kellner chalked up his tenth pitching triumph.

Cats Extend Lead in Texas League

By The Associated Press
 Fort Worth made it eleven straight victories last night and didn't even have to do it the hard way.
 Joe Landrum blanked San Antonio, 2-0, in boosting the Cats' lead over second place Dallas to one and one-half games. He gave up only three hits.
 Dallas lost ground by dropping a wild, 12-14, decision to Houston and, in other games, Oklahoma City beat Shreveport, 7-5, and Beaumont whipped Tulsa, 6-2.
 The Cats' victory streak matched the Texas League's best previous string this year, set by Dallas the beginning of the season.
 John Crocco held Fort Worth to five hits, but the Cats bunched four of them for single runs in the fourth, fifth and seventh innings.
 Dallas blew a five-run lead as Houston exploded for six runs in the seventh inning and then went on to edge the Eagles by two runs. Gerry Burnmeister hit a homer for the Buffs in the big upspring. Jerry Witt and Buck Frierson each hit grand-slam homers for Dallas.
 Two runs in the eighth inning on Mill Nielsen's single clinched Oklahoma City's narrow victory. Beaumont broke loose in the seventh and eighth innings to sink Tulsa. Keith Thomas had a homer for the Exporters and a Jerry Snyder two doubles in these innings.

Yank Hurler Misses No-Hitter by Foot

NEW YORK — (AP) — The Yankees' Tommy Byrne came within a foot of pitching a no-hitter last night as New York humbled the Detroit Tigers, 12-0. The lefthander hurled seven hitless innings before shortstop Johnny Ligon laced out the lone Tiger safety — a single that fell one foot fair inside the leftfield foul line.

Charles Wants Bout With Winner Of British Championship Bout

CHICAGO — (AP) — Ezzard Charles, enriched by \$33,837.30 and the NBA share of Joe Louis' vacated heavyweight crown, Thursday made plans to meet the winner of London's Sept. 6 Lee Savold-Bruce Woodcock fight for the undisputed crown.
 "I'm not going to fight no Gus Lesnevich," said Jake Mintz, one of the four managers of the new champ, "no Joey Maxim. I'm going to accept the challenge of the Savold-Woodcock winner."
 "I ain't doing nothing without the okay of the IBC (International Boxing Club) or Harry Markson (New York IBC boxing director)," Mintz, the lord high executioner of the English language, was in superb form as he hopped between cameramen to greet his victorious "tiger" from Cincinnati.
 Charles, wearing a slight patch over his left eye and an egg-shaped mouse underneath the orb, appeared at a downtown hotel to accept the Police Gazette belt, designating him as world champ. He had little to say, but Mintz made up for that.
 "Abe Greene (NBA commissioner) should be commended," he said, "for his magnificent work in arranging this contest."
 Jim Norris, a partner with Joe Louis and Art Wirtz in the IBC, expressed himself as "well satisfied" with the crown of 25,392 which paid a gross gate of \$246,548.
 "Charles fought a well-planned fight," said Norris, "he was cautious against a fellow who knocked Louis down three times. No, we definitely do not plan any rematch."
 Norris estimated there was a "some sort of a profit" for the promoters but "no melon." According to the breakdown of the receipts, including \$37,500 for radio and television, the promoters had about \$97,716.80 out of which to take promotional expenses, undercard and their profit.
 "Jake has promised to give Savold the shot if he gets past Woodcock," said Norris. "If they could move up that September fight we might have the winner fight Charles late in September."
 Willie Anderson and D. Bobby Jones both won four U. S. Open golf titles, more than any player.

Bosox Whitewash St. Louis Browns, 7-0

BOSTON — (AP) — Rookie left-hander Maurice McDermott pitched a three hit shutout last night in steering the Boston Red Sox to a 7-0 triumph over the St. Louis Browns. McDermott faced only 28 batters in winning his second major league victory. He walked two and struck out six. Four Boston double plays limited the Browns to one left on base.

Dodgers Pound Out 7-2 Win Over Reds

CINCINNATI — (AP) — The Brooklyn Dodgers touched three Cincinnati pitchers for only seven hits but Burt Shotton's men easily whipped the Reds, 7-2, yesterday behind the steady hurling of Joe Hatten. Marvin Harker homered for the league leading Brooks in the sixth.

Americans Advance At Wimbledon Meet

LONDON — (AP) — Defending Champion Bob Falkenberg and Jaroslav Droby nipped off a couple of threatened upsets in the fifth set yesterday to gain berths in the last 16 of the Wimbledon Tennis Championships.
 The six other seeded men stars, three of them Americans, survived a day of heat and thrills with straight set triumphs witnessed by more than 25,000 fans.
 Falkenberg used his five inch height advantage and his devastating service to out Josefa Asboth, 31-year-old Hungarian who taught tennis to the Russians last winter. Settling any doubts, the fourth-seeded Yank from Beverly Hills rocketed in a service ace for the match point to win 6-4, 7-5, 3-6, 6-4, 6-3.
 Robert (Red) Rolfe scored runs in 19 consecutive games for the New York Yankees in 1939, an American League record.
 Crescents, Calif., tumbled Switzerland's number one, Rene Buser, 6-3, 6-2, 7-5 in somewhat longer time than was expected of the top-seeded favorite.

Longhorns Move To NCAA Finals

WICHITA, Kans. — (AP) — The University of Texas Longhorns were heavy favorites today to win the National Collegiate Baseball Tournament.
 The meet enters the quarter-final round tonight.
 The Texans, who won their second game of the double elimination meet by walloping Wake Forest, 8-1, last night, hit it out tonight while the defending champion Southern California Trojans battle Wake Forest.
 The Longhorns meet the U.S.C.-Wake Forest winner for the title tomorrow night. Texas, only unbeaten team in the field, needs only one more victory to clinch the national title. A doubleheader will be played Saturday in event the Longhorns lose the first game.
 Southern California kept in the race last night by eliminating St. John's College of Brooklyn, 12-4.
