

Coplon Espionage Case Goes to Jury

Bitterness Marks Case Final Pleas

WASHINGTON (AP)—The Judith Coplon espionage case went to a federal court jury at 8:55 a. m. (CST) today.

Police Now Know Name of Man Sought

AMARILLO (AP)—The Potter County sheriff's office said today it knows the name of the man it is seeking in the murder of W. A. (Tex) Thornton, famed oil field explosives expert.

The announcement was made after Sheriff Paul Gaither telephoned his office from Albuquerque.

Gaither said the name was obtained from a laundry mark found in the Amarillo tourist court where Thornton was slain.

Thornton's beaten body was found in the tourist court June 23. Officers are seeking a man and woman who went to the motel with Thornton the night before.

Gaither said the laundry mark in the trousers was from an Albuquerque cleaning shop.

He said he had located the cleaning shop and had obtained a good description of the man.

He said the suspect is between 22 and 25 years of age, has black hair and one protruding front tooth.

He is between five feet seven and nine inches tall and weighs from 140 to 160 pounds.

The name of the young woman sought is not yet known.

Gaither, however, described her as from 22 to 24 years of age; five feet 10 inches in height and said her weight is from 120 to 135 pounds.

She is a very attractive girl, fair skinned, with black or brown hair, said the sheriff.

Meanwhile officers continued a search in North Central Kansas for a young hitchhiking couple.

Sheriff Maurice Horne of Beloit, Kans., traced the pair to a junction of U. S. Highway 81 and 24 yesterday after they left a hotel at Beloit without their luggage.

Chest X-Ray Total Still On the Rise

Gray County residents continue to jump at the opportunity of getting a valuable chest X-ray free of charge.

At the close of the third day of the survey yesterday, 3,780 persons had been X-rayed.

Personnel of the mobile X-ray unit are pleased with the Gray County turnout, it was said yesterday there were 1,130 county residents X-rayed.

The service will continue to be provided at the American Legion-VPW Hall until 6 p. m. today, tomorrow's and Friday's hours will be from 9 a. m. until 6 p. m. while Saturday, the final day in Pampa, will see the service open from 10 a. m. until 5 p. m.

Twenty-one registrars assisted at the hall yesterday. They were: Mrs. Z. R. Osborne, H. P. Dostler, C. L. Mason, L. N. Atchison, Frank Hunt, C. W. Gilmore, Charles Thut, Frank Culbertson, W. B. Weatherford, O. K. Gaylor, Fred Thompson, H. D. Foster, Lillian Kelley, Albert Doucette, Jean Haw, Harry Longren, Burton Doucette, Miss Jeanne Hollis and Doris Owen.

Girl Scouts of Troop 9 today are assisting at the Legion Hall. They are providing nursery and baby sitting services for mothers who wish to be X-rayed.

Three Senior Scouts are handling the public address system at 100 N. Cuyler, reminding residents to be X-rayed. They are: Melvin Peoples, Post 80; Jackie Weatherford, Troop 80; and Jerry Coley, Post 80.

Firemen Answer Two Minor Calls

Two minor fires occurred yesterday afternoon and early this morning.

Firemen were called to the Cabot hangars late yesterday afternoon to extinguish a truck fire. The truck had trash in its dump bed which became ignited. No damage resulted.

At 5:15 a. m. today, the firemen were called to extinguish a car fire. The car, a 1941 Buick owned by Charlie Nolan, was not damaged excessively.

THE WEATHER U. S. WEATHER BUREAU

WEST TEXAS: Partly cloudy, a few widely scattered late afternoon or early evening showers through the afternoon, tonight and Thursday; not much change in temperatures.

OKLAHOMA: Partly cloudy and comfortable but humid today, tonight and Thursday; a few local thunderstorms tonight.

Boy Admits Guilt In Church-Slaying

ROANOKE Va. — (AP) — In the face of a surprise defense admission that 16-year-old Dana Marie Weaver met death at the hands of Lee Scott, the state began its prosecution of a first degree murder charge against the high school athlete today.

Showdown on Marshall Plan Trade at Hand

PARIS — (AP) — Britain faces a showdown with other Marshall Plan nations on how trade should be conducted among the nations of Europe.

The seven-member Consultative Committee of the Organization for European Economic Cooperation (OEEC) met for a little more than half an hour this morning and decided to turn the whole problem over to the full 19-nation organization later in the day.

An OEEC spokesman described the morning meeting as "just a formal gathering" and said: "The real debate will begin now, and it will probably go on tomorrow."

W. Averell Harriman, U. S. ambassador-at-large for the Marshall Plan attended the session. A spokesman for him denied reports published in London that Harriman had threatened to cut Marshall Plan aid to Britain unless the British agreed to American proposals.

The stakes in national prestige and perhaps even national economic stability seems large in comparison with the immediate dollar stakes.

Last week the top economic experts of Britain, France and Belgium met in Brussels but could not resolve their differences. It was a question of the others not being able to reach an agreement with Sir Stafford Cripps, Britain's iron-willed chancellor of the exchequer.

The question is whether such nations will make their own trade agreements with the other nations singly, or will all the nations set up general principles, agree on their currency relationship, and then take steps toward multilateralism.

If the cabinet ministers decide that Western Europe's economy has recovered sufficiently for the countries to give up dependence on barrier agreements, they may vote for free trade among all the nations.

The United States, furnishing the Marshall Plan dollars, favors free trade. Belgium, the most prosperous of the Marshall Plan countries, would like to see an advance toward that objective.

Britain, while favoring the theory of multilateralism, is in the position of defending bilateralism. Cripps feels the time is not yet ripe for multilateral trade. He is fearful it might have

Jail Death Will Be Investigated

SNYDER — (AP) — District Attorney Eidon Mahon today was to investigate the death of Robert C. Sperry, 48-year-old oil field worker who was found dead in the Scurry County Jail here Monday night.

Sperry's bruised and beaten body was discovered about 8:30 p. m. just one hour after he had been placed in jail on a drunkenness charge.

No charges had been filed Tuesday, but Sheriff Lloyd Meritt said one of the prisoners who were in custody with Sperry would be released until the investigation is completed.

Sperry was placed in the jail "run-around" with five other prisoners. The prisoners later called the sheriff, telling him Sperry was dead.

Sperry is survived by his son, Robert Sperry, Jr., of Wichita Falls, five brothers, and three sisters.

Examiner Will Start Vacation

Beginning Saturday there will be no drivers' license examinations given in the Pampa district until July 11.

Examiner Patrolman Walter Roberts will start his annual vacation beginning July 2.

The regular schedule on Friday, however, will be observed by the Pampa station as usual.

CHIANG REPORTED SEEN

HONG KONG — (AP) — Dispatches from Canton today said Generalissimo Chiang Kai-shek, retired Nationalist President, landed in the refugee capital yesterday.

Funds Sought to Improve Local Colored Day Nursery

The Council of Colored Women in Pampa at present are engaged in a drive for funds to improve the colored day nursery.

One of the most badly needed projects at the nursery is the installation of bathroom facilities, including sewerage connections. The women hope to raise enough money in Pampa to complete this major project before winter sets in.

The council recently purchased a surplus Army barracks, which has been turned into a nursery for colored babies and small children. It accommodates about 30 baby beds, which are needed at the present time.

LEWIS COMFORTS COAL OPERATOR—John L. Lewis, (left) president of the United Mine Workers, offers mock condolences to Hubert H. Howard, representative of the Illinois Mine Operators, during contract negotiations at White Sulphur Springs, W. Va. Lewis offered to keep the mines open during negotiations if the coal operators would agree to a three-day work week. They didn't. (AP Wirephoto)

Miller Returns to Valley to Tackle Financial Troubles

By BOB JOHNSON, JR. MISSION, Tex. — (AP) — "I wasn't too damn badly lost," said Sam L. Miller, reported missing while court troubles piled up against his Rio Grande Valley financial holdings.

Miller flew back to Mission yesterday from Mobile, Ala. He had landed there after returning from Guatemala on his own banana boat.

Miller said he spent "two or three days" at Puerto Barrios, Guatemala, while the boat loaded bananas.

"If anybody had asked customers down there about me," he said, "they could have found me pretty damn easily."

While Miller was gone, suits were filed against several of the eight corporations he heads. They total \$221,014. At San Juan, the

Valley State Bank closed its doors Sunday. Miller was one of its directors and principal stockholders. Payroll checks from his concerns bounced.

"All I can tell you is I'm back on the job trying to work these things out," said the financier, who was named McAllen's "most valuable citizen" in 1939.

Later, McAllen Attorney Orville Cox, who represents several plaintiffs, said Miller told him he would call a meeting of his creditors but had not decided when.

Miller had been reported missing for more than a week. Associates said they were told he had left the valley for his health—destination unknown.

Miller said he simply decided to work out the crisis. (See MILLER, Page 10)

Pampans Advised as to Precautions Against Polio

There are certain polio precautions that should be taken in the event the disease should break out. R. M. Mundine, Jr., city and county sanitary inspector, said this morning.

"June through September is the time infantile paralysis generally is on the upswing in the U. S.," he said.

During an outbreak of infantile paralysis one should be alert to any early signs of illness, especially in children, the health inspector said.

"Do not assume that a stomach upset with vomiting, constipation, diarrhea, severe headache or signs of a cold are of no importance," he said. "These may be among the first symptoms of infantile paralysis."

The Health Department recommends that all children as well as adults' sick with unexplained fever should be put to bed and isolated pending medical diagnosis.

Further, a physician should be called immediately. "Today there is no known prevention of polio," he said. "All that can be done is to provide the best possible care."

The physicians' Health Department, and the National Foundation for Infantile Paralysis recommend the following precautions: Avoid overtiring and extreme fatigue. Avoid sudden chilling such as would come from a plunge into cold water on a hot day. Give careful attention to personal cleanliness. Try to avoid tonal and adenoid operations during an epidemic. Use the purest possible milk and water. Do not swim in polluted water. Maintain community sanitation at a high level at all times. Avoid unnecessary contact with persons with any illness suspicious of infantile paralysis.

"Although polio is a frightful disease," he said, "needless fear and panic only causes more trouble."

The city now has a DDT spraying program in progress in an effort to prevent the occurrence of polio. Under the program come the following items: All streets and alley drainage ditches are being sprayed, trash and garbage cans, city dump grounds, trash and garbage trucks are all being sprayed in both the business district and residential section of Pampa.

Annexation Election Site Is Selected

The July 25 annexation election for qualified voters in the Love and Seeds Additions will be held in the Hogue-Mills Equipment building, 821 W. Brown, Jerry Nelson, 789 W. Wilkes, was appointed presiding election judge. His assistants have not yet been named.

The election is being held to determine whether the majority of property owners, qualified to vote, want to be annexed to the city.

Injunction Phase Is 'Unacceptable'

WASHINGTON (AP)—The AFL asked today that the Senate kill the administration's labor bill, now amended to embrace the Taft-Hartley Law's injunction powers.

The move meant abandoning for this session of Congress the labor-Truman Democrats' drive to repeal the T-H Law.

AFL President William Green wrote Senator Lucas of Illinois, Democratic leader, that the action of the Senate in adding "national emergency" injunction authority to that bill makes it "absolutely unacceptable."

CIO officials, stunned by yesterday's Senate action, already had resigned themselves to keeping the Taft-Hartley Act for two more years.

Green said a meeting of AFL union representatives this morning unanimously approved a move by Lucas to bring a speedy end to the Senate labor debate.

"We feel that amendments designed to make the Taft bill more palatable would be useless and a waste of time," Green wrote Lucas.

He said he hoped the Senate would go ahead and vote on (R-Ohio) and then defeat the bill. Taft put through the "national emergency" injunctions feature by a 60-40 vote yesterday.

The Ohio Republican predicted a similar victory for the rest of his program, which is designed to keep the "essentials" of the Taft-Hartley Act while making a number of changes.

Arthur Goldberg, general counsel of the CIO, said: "We might as well face the fact that we have the Taft-Hartley Act until after the 1950 elections."

He said the Senate's crucial decision on emergency injunctions apparently forecast adoption of the rest of the Taft bill. And he said that if Taft's ideas are approved by the Senate and House, the bill "would have to be vetoed."

A veto, if upheld by Congress, would leave the present law intact.

An AFL spokesman said only that the Senate's action "is a setback but not a defeat in our long-run drive to get the Taft-Hartley Act repealed." He was not optimistic over action this year, however.

Senator Lucas of Illinois, the Democratic leader of the Senate, told a reporter the outlook "doesn't look too bright in view of what happened yesterday."

He meant the 60-40 vote in favor of the Taft plan to delay critical strikes by Taft-Hartley style injunctions or government

(See BILL, Page 10)

U.S. Refuses To Recognize Port Order

WASHINGTON (AP)—The United States today refused to recognize as legal a Chinese government order closing ports in Chinese Communist hands.

The State Department announced a note to the government at Canton declaring that this country "cannot admit the legality" of barriers against shipping into the Communist ports unless the Chinese government "declares and maintains an effective blockade."

A Secretary of State Acheson told a news conference there are many historical precedents for the American position. He described it as reserving the rights of American citizens in the Chinese situation.

The British government, Acheson said, has taken a somewhat more extreme position than that of the United States.

On other matters, Acheson told his news conference:

1. That the United States and other nations have agreed that the question of recognizing the Chinese Communist government is not a live issue at this time. He said that he had not seen a letter addressed to President Truman by 21 senators last week opposing recognition.

2. That Treasury Secretary Snyder's coming trip to Europe had been planned for some time, and is not designed to deal specifically with the British dollar situation. Acheson said the combined statemanship of the Western powers ought to be able to work out the crisis.

3. The proposal for arms aid to the Atlantic Pact countries of Europe and to other nations—totaling \$1,450,000,000—will go up to Congress soon but no exact date has been set yet.

4. He does not know this government's acceptance of the British-Argentine trade agreement, as announced yesterday, means the United States would have no objection to similar two-way trade pacts between other governments.

Acheson consulted his notes on this subject, then said the crystal ball into which he was gazing was not clear.

Pool to Close For Cleaning

There will be no swimming at the Municipal Pool Friday. City Manager Dick Peppin announced this morning.

The pool will be drained after swimming hours Thursday to be scrubbed out and refilled. The process of cleaning and refilling will take one full day, Saturday, the pool will resume operations.

The pool has been averaging 215 paid admissions per day since it opened for the season.

Rotary Club Officers Are Installed

"Anything is possible if you don't care who gets the credit," charged Steve Matthews, former city manager, in installing ten incoming Rotary Club officers at an installation banquet Tuesday night. The banquet was held at the Country Club.

Jack Sullivan was installed president; E. Douglas Carver,

vice president; DeLea Vicars, secretary-treasurer and Albert Doucette, assistant secretary-treasurer. Bob Clements, Travis Lively, Finley Vineyard, Ben Guill, Fred Neslage and Quentin Williams were installed directors. This is the third consecutive term for Vicars as secretary-treasurer and second term for Guill as director.

Charles Burton was master of ceremonies at Rotary's special Ladies' Night and installation banquet. Welcome to wives and recognition of guests was made by Fred Neslage.

Twenty-two Rotarians had not missed a weekly meeting for a year. As recognition, their wives were given carnation corsages by Rex Rose, chairman of Rotary Attendance Committees. Ten members were recognized for having missed only one meeting for the year.

Special-recognition was given Mrs. Johnnie Sandy and Mrs. Irvin Cole by out-going President E. Douglas Carver and club presentations were made by Mayor C. A. Huff.

Dinner music for the 123 members, wives and guests was by Ken Bennett.

"If it comes from a hardware store, we have it at Lewis," adv.

White Deer Plans Show

WHITE DEER — The White Deer County Fair Department again this July Fourth is sponsoring a fireworks display. The event will be held in connection with two softball games. All events will be at Lions Baseball Park.

The display will start at 9 p. m. At 7:45 p. m. the Fire Department team will play the Church of Christ; and following the fireworks display, the Methodist team will play the Cargray team. Glen Young, club officer, said "Last year's display drew a large crowd and received much praise from the people of the community. This year's display will feature aerial bombs and shells and will be much larger than last year's."

There will be no charge, it was announced.

Boys Urged to Finish Racers

Boys are urged to complete their Soap Box Derby racers as soon as possible. If there are any questions, they should be directed to Swindle at The News, or Brown at Culbertson's.

The race is sponsored by Chevrolet Division, the local auto company, the newspaper, and the Pampa Lions Club. The winner will enter the international finals at Akron, Ohio, in August.

Auto Accident Is Fatal to Ex-Convict

FAIRFIELD — (AP) — John Davis Buggan, 25, released from the state prison last Thursday died yesterday of injuries received in an automobile accident Sunday.

Sheriff Homer Robertson said Buggan and a companion were traveling in a car stolen at Houston Saturday night.

Robertson said Buggan's companion left the car after it skidded and crashed into a telephone post. He said the man was arrested later that day in Huntsville.

WE SAW ...

The huge Gray County X-ray progress thermometer this morning in front of the First National Bank registering close to 4,000. While the actual temperature is rising fast, the number of X-rays is increasing even faster.

ORDINANCE PASSED ON 1ST READING

The City Commission yesterday passed on first reading a rezoning ordinance calling for minor changes in the present zoning code and passed a nine-block paving ordinance on its second reading.

The rezoning ordinance calls for extension of the fire zone on S. Cuyler from Tule to Five Points; extension of the commercial zone to one full block between S. Cuyler and S. Ballard—the affected area lies between Ford and Brown; and the extension of the commercial zone for an additional 106 feet south from W. Wilks between Robert and Dwight.

The nine blocks included in the paving ordinance are parts of Sunset Drive, Kentucky, Williston, Russell, George, Ballard, Sumner, Schison and S. West.

The commission continued discussion on ways of financing the paving program for city and the financial part to be borne by property owners. No definite conclusion was reached.

Approval of a \$4,800 installment to the Anderson-Young Electric Co., Lubbock, for three pumps and motors was approved by the commission. This leaves a balance of approximately \$2,000 to be paid on the machinery. It will be paid after installation and test runs of the equipment.

Nearly Half Gray Wheat Is Harvested

At the end of the day approximately 45 percent of Gray County's wheat is expected to be harvested. L. P. Fort, manager of the local office of the Texas Employment Commission, said this morning.

"With continued hot, clear weather most of the wheat in the county will soon be harvested," he added.

The biggest part of the wheat is expected to be cut by July 5. Some fields of wheat are still green and will not be ready to harvest until about the middle of July, it was said.

"There was no combine shortage (See NEARLY, Page 10)

# Former Texas Adjutant General Washington Station Operator

**LIKES HIS WORK**—Harry Knox, who held down a \$10,000-a-year job as aide to former U. S. Senator W. Lee O'Daniel and who is a former Texas adjutant general, says he is happy now as a lone night attendant at a suburban Washington, D. C., auto service station. The 48-year-old former Brownwood, Texas, merchant is shown June 21 at his work. He says when "I come home with my \$50 (a week) I feel good." (AP Photo)

By **TEX EASLEY**  
AP Washington Service

WASHINGTON — (AP) — Former Texas Adjutant General Harry Knox, who held down a \$10,000-a-year job as aide to W. Lee O'Daniel when the latter was in the U. S. Senate, is now the lone night attendant at a suburban filling station.

His title is night manager, but he is the whole shebang. He wipes the windshields, fills up the gas tanks, checks the tires. He changes oil and fixes flats.

The 48-year-old, former Brownwood wholesale merchant, one-time chairman of the Texas State Board of Control and in charge of vast expenditures of tax funds, is philosophical.

His salary is \$50.00 a week. He works from 11 p.m. to 8 a.m. His wife and 14-year-old daughter tip-toe lightly about their apartment during the day while he gets his sleep.

Interviewed at his home shortly before his "breakfast" the other evening, he said:

"You know, when I come home now with my \$50, I feel good. I sure enough feel like one of the common citizens."

He paused for a moment, then

son, and from Rep. Clark Fisher of San Angelo. The latter represents the district which includes Brownwood. (Incidentally, Knox made an unsuccessful race for Congress when Fisher was elected for his first term, in 1942.)

"It seems that every time I tried for a job," he continued, "they'd find there was no vacancy for a man of my qualifications."

"One agency executive remarked, 'I learned that he wouldn't touch that man with a 40-foot pole.' Another sent word to one of my endorsers that they couldn't take me on because O'Daniel had caused them so much trouble."

"That's not correct, but I know perfectly well that the reason I couldn't get a government job was because of my affiliation with O'Daniel."

Satisfied that he wouldn't be able to get on the government payroll, Knox then began to look elsewhere for work.

He says he hopes eventually to retire to a farm or ranch along the shores of Lake Brownwood, but that right now he wants to stay in Washington and pay off a mortgage on a six family-unit apartment house he acquired a year and a half ago.

The red-brick three-story building Court Lawn and next to the big street from the U. S. Supreme is located directly across the apartment building, which O'Daniel owned while he was in the Senate. Knox declined to state what he paid for his property, but said he wouldn't sell it for \$50,000.

"I'm paying it off in regular payments just like you'd pay for your home," he added.

"I figure I'll have it paid off in 13 1/2 years. No, the rents I get from the five apartments we rent out isn't enough to take care of the payments and upkeep."

Knox says he plans to acquire a filling station of his own, when he finds one he can lease at a reasonable figure.

The station he operates is owned by a major oil company. He thinks the financial risk is too great for an individual to build a big expensive filling station of his own. The experience he is getting now, which even includes scrubbing the oil spots off of a concrete parking apron during the "wee hours of the morning, w.c. come in handy when and if he does take over a station for himself, he figures.

Answering a parting question about politics, he said he personally never intends to run again for public office. He inferred however, that perhaps he would like some day to again be in a good appointive position.

"You know," he added, "there is talk that O'Daniel might run for governor again.

"Maybe he ought to. The expenses of the Texas state government have risen to three and a half times what they were when he was governor."

## ★ IN HOLLYWOOD ★

BY **ERIKINE JOHNSON**  
NEA Staff Correspondent

**HOLLYWOOD** — (NEA) — Bob Mitchum's next role at RKO will be a tough, irresponsible character in a story by Don Hartman, who will also direct. Wendell Corey will share the billing. Hartman's yarn was titled "Christmas Gift" but will reach the screen with a new tag.

The RKO front office thought a marquee reading "Bob Mitchum in 'Christmas Gift'" would be just a little incongruous.

Adele Jergins went to San Fernando Valley to judge a beauty contest. The other judges looked at Adele and voted her the winner.

These foolish things remind me of Hollywood:

A local night club, with a chorus of 16, features one show number in which each picks a man from the audience and dances with him. The other night business was so bad there were only 12 men in the audience. Four girls had to dance with each other!

Jean Harlow's film biography is close to the production stages. Writers are working on the yarn for Marin Productions. Jean's mother, Mrs. Jean Ballo, who sold the rights, gets final script approval.

**CAUSE AND EFFECT?**  
P. J. Clark's famous Third Avenue bar in New York, featured in "Lost Weekend," has been sold and will become an antique shop. Maybe the picture had that effect on it.

Frances Langford and Jon Hall are back in town for a possible co-starring role in "Daisy Marsh." They've blossomed into quite a team for personal appearances.

Even cattle get make-up in Hollywood. Two hundred and fifty white-faced cattle hired for "The Fighting Plainsman" became dyed-faced cattle via a vegetable dye job so they'd photograph better in Cinecolor.

**Endurable Note:** "Adam's Rib" is the fifth time Katharine Hepburn and Spencer Tracy have portrayed man and wife on the screen.

**TV THREAT**  
I asked one of the town's biggest film executives about the television threat to movies. "You can use this," he said, "but don't quote me. The studios would fry me in oil."

He predicted television will bring Hollywood's latest films into private homes and will play a big part in motion picture revenue. But TV won't kill off existing theaters.

He said: "We'll be selling big-star films to television either by commercial sponsorship or by direct charges via telephone bills. Existing theaters will go on showing films. But new theaters will not be built. Revenue from television will take the place of new houses which normally would be built as the nation's population increases."

The revenue percentage? He figures it will level off at one-third from television, two-thirds from theaters.

Ruth Chatterton is completing a novel . . . Helen O'Connell, the once top band vocalist, will keep her fourth date with the stork. Father is wealthy Clifford Smith. Robert Ellis, a 15-year-old radio actor hired to support Shirley Temple in "A Kiss for Corliss," was asked if he knew how to handle comedy lines. Cracked Ellis: "All the way from Joe Miller to Bennett Cerf."

## Solon Criticizes Movie Industry

**OKLAHOMA CITY** — (AP) — An Oklahoma senator of Indian descent who criticized the movie industry during the legislative session earlier this year has leveled a new blast.

Sen. J. Gladston Emery, Wilburton, took issue with a statement recently by Arthur H. Debra, official of the Motion Picture Association of America.

Emery has been contending that movies are portraying the American Indian unfavorably by showing them as the villain. Debra had quoted statistics showing that in 27 of 36 movies last year portraying Indians, the treatment was "saccharine."

In a letter to Debra, Emery said:

"Never has the Indian been portrayed as the defender of his homeland in his meager attempt to preserve his homeland from the white aggressor."

"By sitting through 'Custer's Last Stand' some years back twice, I've seen the Indians win twice. Of course that was a 'massacre' because the Indians won," he continued.

"The pot shots my folks took at wagon trains was no more than is done now on occasion when we find a trespasser on our property."

"Try to depict the American as he was and is and we shall see and believe. We don't go 'statistic' much in these parts—especially when the white man keeps the book."

## Leaves From a Correspondent's Life Notebook

By **HAL BOYLE**  
NEW YORK — (AP) — Capt. Bob Anderson isn't worried about his own team.

But he is worried about the caliber of the enemy ball team that will trot into the Polo Grounds against his outfit the night of July 28. And, of course, he's fretting already about the attendance.

"Last year we drew only about 9,000," he said indignantly. "What do you think we play in—wheel-chairs? This year we're hoping for 30,000."

The game is one of the most unusual sports events in New York. It'll be the 17th annual baseball contest between amputee war veterans.

"We're trying to raise \$100,000 for an amputee information and research center here," said Anderson. "But the main thing is to get the public out so we can show them an amputee can do anything they can."

Bob, 25, lost his left arm to a German artillery shell in 1945. He is shortstop and captain of the arm amputee team. The rival team is made up of leg amputees.

"All the players on both teams are vets from the second World War," he said. The first World War vets are getting paunchy and slowing up. We want to keep the game fast. And these leg amputees are really fast. They say their pitcher, Bert Shepard, can still run a hundred yards in around 12 seconds."

Shepard, a former big leaguer, is now player-manager with the Waterbury, Conn., Timers in the Colonial League. Several other amputees are semi-pro players.

Like many another amputee young Anderson is angry at what he believes is senseless job discrimination against men who have lost arms or legs in war or industrial accidents.

It isn't a personal problem with Bob. Bob started a small retail egg route and saved enough to buy a truck. Now he has four trucks, four employees and a \$19,000 a year income.

"Most people think it's a disadvantage to lose an arm," he said. "I think it's an asset. It teaches you to use your head instead of your brawn. And I don't regret a minute I spent in the Army. It made me grow up fast."

**Made by Automotive Engineers**

By DAVID J. WILKE  
 DETROIT — (AP) — Automotive and petroleum industry engineers are doing a lot of research on dual fuel systems. The goal, of course, is to get more miles per dollar out of gasoline. Right now, the experts say the average motorist wastes more gasoline than he uses. Part of this is due to inefficient combustion. Most of it, however, is due to the engine's fuel system. The ideal fuel system would feed the engine higher quality fuel for starting and heavy going only. Once the car is underway and moving on fairly level surface, lower grade fuel would be used. One leading car maker in

have made some significant advances in dual fuel research. Heart of the system is the carburetor which automatically switches from one to another quality fuel. Separate tanks for the two grades of fuel are required. In this respect the system differs from some others that have

fuel quality by injecting alcohol at the right time. Details of the device being developed by one of the major car builders have not been disclosed. They probably will not be made known until the system has been perfected.

**Clinic Slated**

AUSTIN — (AP) — Cotton mill men and merchants will swap ideas with technicians at a clinic here June 30-July 1. It will be the second annual clinic sponsored by the Cotton

Two inventors of scientific cotton instruments will speak. They are Dr. G. F. Hertel, University of Tennessee researcher who developed the fibergraph for measuring fiber length distribution, and George Piffenberger of Chicago Manufacturing Company's Re-

for of the air permeator, which measures fiber fineness. With all the other changes in autos, why not eliminate the windshield wipers so cops won't have any place to put those traffic tickets

**Final Day of Balloting Stalls**

CHICAGO —(AP)— Three starters for each the American and National Leagues remained doubtful today as the nation-wide voting for the All-Star Game in Brooklyn July 12 neared an end. Baseball's battle of ballots, already topping a record 3,000,000 votes, will close at midnight today.

In the American League, the fans were undecided about shortstop, second base, and catcher. In the National League, competition still was close at first, third and catcher.

Late returns caused one change among leaders. Stan Musial of the Cardinals recaptured first place from Pittsburgh's Ralph Kiner among National League outfielders. 1,082,487 votes to 1,046,612.

**NATIONAL**

First base — Miss. New York, 684,128; Waikuku, Philadelphia, 682,518; Hodges, Brooklyn 621,922.

Second base — J. Robinson, Brooklyn, 1,109,126; Schoendienst, St. Louis, 692,517; Verban, Chicago, 467,038.

Third base — Kazak, St. Louis, 872,949; S. Gordon, New York, 831,142; Elliott, Boston, 559,386.

Shortstop — Reese, Brooklyn, 894,944; Marion, St. Louis, 771,526; Dark, Boston, 638,307.

Catcher — Semlinick, Philadelphia, 713,258; Campanella, Brooklyn, 680,852; Cooper, Cincinnati, 531,538.

Outfielders — Musial, St. Louis, 1,082,487; Kiner, Pittsburgh, 1,046,612; Marshall, New York, 996,338; Slaughter, St. Louis, 934,104; Thompson, New York, 895,208; Lockman, New York, 551,519; Pafko, Chicago, 493,584; Ashburn, Philadelphia, 456,444.

**AMERICAN**

First base — E. Robinson, Washington, 848,784; Vernon, Cleveland, 473,284; Goodman, Boston, 468,103.

Second base — Michaels, Chicago, 883,248; J. Gordon, Cleveland, 831,122; Friddy, St. Louis, 472,886.

Third base — Kell, Detroit, 887,184; Dillingier, St. Louis, 804,408; Brown, New York, 691,653.

Shortstop — Joost, Philadelphia, 851,416; Stephens, Boston, 442,784; Boudreau, Cleveland, 442,784.

**Sport Shots**

By HAROLD V. RATLIFF  
Associated Press Sports Editor

DALLAS — (AP) — Wilmer Allison, Texas' most famous tennis player, finds the game a lot different today than when he was a member of the American Davis Cup team.

He isn't speaking of the style or the quality because they play it now like they always did and there are more good tennisists than ever before. He's talking about the financial angles—the days of the so-called "tennis bums."

Allison was referee of the National Collegiate Tournament held in Austin last week. He had a lot to say about the tennis greats of yesterday who made a living playing the game although in the classification of amateurs.

Twenty years ago tennis players could participate in all the tournaments they wanted to and do it twelve months out of the year. They got expenses of \$5.00 per day plus travel costs and were given equipment unlimited. They couldn't make both ends meet on the \$5.00 so they chiseled on the side—gifts, unsanctioned tournaments, exhibitions; sale of equipment. "I remember one fellow who offered a tennis star \$100 if he could sink a six-inch putt on the golf course and told him if he missed he could have another chance," Allison said.

Wilmer, who was in national and international tennis from 1926 through 1937, didn't go in for such stuff and it actually cost him \$5,000 of his own money to play the game. But he says he doesn't know of a better investment. "That was pretty cheap for all the travels I got," he explains. "I visited 20 countries."

The reason the tennis bums have disappeared is because of the rule that says the players can participate in only eight tournaments a year not counting those abroad, sectional and Davis Cup competition. They also now get \$12.00 a day for board and lodging. That doesn't pay it all but it does better than the \$5.00. The limited number of tournaments removes the incentive to chisel.

Allison, who was to become national champion and to play on nine Davis Cup teams—the only Texan ever in Davis Cup play—was less than sensational his first year on tour—he won only one set.

It was also that year that Bill Tilden, the greatest of all tennis players was asked what he thought of Allison as a player. Tilden said Allison had absolutely no future in tennis.

"I was greatly discouraged over that statement," says Allison. "But if I had known what I know now—that Tilden never was right on any prophecy he ever made—I wouldn't have felt so badly."

But Allison does think Tilden the greatest player that ever lived. "It was because of his legs," Wilmer says. "He could run all day."

The Texas Interscholastic League Class AA Baseball Tournament at Austin is a success both in play and financially. The tournament drew 6,800 paid admissions at 80 cents for adults and 30 cents for children. Enough money was taken in on each team coming to the tournament received 10 cents a mile travel expenses and each will get \$250 from the profits.

There were 635 schools in Texas as schoolboy baseball this year, an increase of 150 over last year. The football coaches probably won't like that news—too many

**REWARD FOR TENNIS WIN**—Bobby Riggs gets a kiss from his wife as they hold the national professional tennis championship trophy at Forest Hills, New York. Riggs won the trophy and took the 1949 title by beating Don Budge, 9-7, 8-6, 6-4, 7-5. It was the fourth meeting of Riggs and Budge in the finals. Budge won in 1943 and Riggs won in 1946 and 1947. (AP Wirephoto)

**Around — Cooper**

PITTSBURGH — (AP) — Walker Cooper is shedding no tears for the manager he left behind—Lloyd Leo Durocher.

The 24-year-old Cincinnati catcher is convinced the scrappy New York Giants manager wanted to be rid of him. He indicates the feeling was mutual.

"We never had words," Cooper said today. "But I always felt he never wanted me around and it was just a question of time when he would get rid of me."

Cooper was traded to the Reds June 13 in a straight player deal for catcher Ray Mueller. A few days later, the Giants sold catcher Mickey Livingston to the Boston Braves.

"I thought Livingston was a better catcher than the two fellows (Mueller and Wes Westrum) that Durocher has now," Cooper continued. "I don't know why he got rid of me."

He added with a twinkle in his eye: "Somebody said it was because Livingston went around with me. I just wasn't very popular with Leo."

Of Durocher's managerial methods, the big catcher said: "I don't think he uses the right tactics in handling players. You can get on some fellows and help them. You get on others and you hurt them. Durocher jumps on everyone."

**James Garner to Receive Grid Award**

HOUSTON — (AP) — James Garner, all-state end at Amarillo, is to receive a trophy today for being selected the state's outstanding schoolboy football player last fall.

The trophy will be presented at an Amarillo Junior Chamber of Commerce luncheon by representatives of the University of Houston.

Garner was selected the outstanding schoolboy player by members of the Texas Sports Writers Association and was honored at a University of Houston banquet on January 19.

University of Texas Intercollegiate League rules prevented his receiving the trophy prior to his completion of scholastic eligibility.

Three representatives of the University of Houston, sponsors of the annual trophy, will leave here today for Amarillo.

**Thousand Texans Will Be Killed or Injured July 4**

AUSTIN — (AP) — A thousand Texans will be killed or injured because of July 4 celebrations, the Texas Safety Association predicted.

This was the association's preview of holiday violence: Nine hundred persons will be hurt in traffic accidents. Twenty-seven will be killed in auto accidents. Twenty-five will die as suicides or murder victims. A dozen will be drowned. Fifteen more will die in plane crashes, fires, and other accidents.

The lynching of Negroes in the South is no more evil nor more disgraceful to our country's name than is this silly wholesale accusation being made against random persons, high and low, ignorantly accusing them of communism, fellow travelerism, what not.

—Novelist Pearl Buck.

**Gray Uncertain On Future in Baseball**

DALLAS — (AP) — Fete Gray, one-armed outfielder with the Dallas club of the Texas League, was given his outright release Tuesday.

R. W. Burnett, owner of the Dallas club, said the release was made in order to make room on the roster for Jim Kirby, recently obtained from the Southern Association through the Chicago Cubs.

Gray, who figured in an incident Saturday which led to his arrest and subsequent release when it was found he was not intoxicated, said he would go to his home in Nanticoke, Pa., where he owns a business being operated by his brother.

He said he was uncertain about his baseball future. He once played in the big leagues.

Pythian games were established at Delphi, Greece, in 586 B. C.

**Homer by Snider Wins For Dodgers, 5-3**

PHILADELPHIA — (AP) — Duke Snider's three-run homer off pitcher Robin Roberts in the seventh inning gave the Brooklyn Dodgers a 5 to 3 victory over the Philadelphia Phillies last night at Shibe Park. Preacher Roe went the distance to record his seventh victory of the season for the league leaders.

# SCHAFER CAMP IS NEAR SKELLYTOWN

CHILDREN play along the street at the Schaffer Camp. There is plenty of shade, too.

## Enemies Once, Friends Now

OSAKA, Japan — (AP) — They were enemies once. Tomoyuki Sahara, who lost a leg in battle, stood on a street corner singing. He beat time with his artificial leg. No one paid any attention. His money box was empty.

Two U. S. soldiers came into view. One carried a guitar. They stood awhile, then took over the act.

One soldier cut loose on the guitar. His buddy sang. Japanese began to stop. There was a crowd before long. Money was showered down.

When the money box could hold no more, the American soldiers vanished into the crowd. They left so fast an overwhelmed Sahara had no chance to thank them.

Sunday brings more fatal accidents than any other day of the week. The day of rest — in peace!

## Nine Childress Boy Scouts Have Enough Camping

CHILDRESS — (AP) — There's nothing like a little camping trip. But nine Childress Boy Scouts have had enough for a while.

Early this month they left on their annual tour through Colorado, New Mexico, Wyoming and Utah.

Near Ouray, Utah, they decided to descend the Green River in four boats, loaded with their camping gear. They sent their bus — the "Bonehead" — on ahead about 100 miles where they were to re-assemble.

The third day on the river, three of the four boats capsized in the rapids. One Scout, David Jameson, went overboard and was unable to swim. Fortunately, he had a life preserver tied around him.

One of the boys was lost for five hours after the mishap. A searching party got considerably scratched up looking for him. The loss from the overturned boats: four pairs of pants, six pairs of shoes, one rifle, tenting, and bedding — and the three boats.

They found a hermit living in a shack. He fed them and gave shoes to two Scouts. Two other Scouts were wearing rags around their feet. The hermit, after the Scouts had rested two days, drew a map for them. It showed where they would find the highway where the bus was waiting.

Two boys detailed as an advance party on the way out got lost. So did the boys following them. Eventually they reached the spot marked on the map. It was an intersection of four highways. There was no bus. They tried all four highways, for several miles each way.

They were dead tired. A local rancher happened by in a truck. They loaded wearily into the truck, eventually found their bus.

Now they're home. No camping for a long while.

**Galveston Company Buys Fort Travis**

DALLAS — (AP) — The M. and M. Construction Company of Galveston paid \$51,275.74 for historic Fort Travis near Galveston.

The War Assets Administration said yesterday the bid, highest of ten submitted, had been accepted. The old fort on Bolivar Peninsula was used as a guard for Galveston Bay during the war and as a submarine base.

The sale included 96.2 acres of land and 27 buildings.

## 100 Warships In Defensive Operations

By DEWITT MACKENZIE  
AP Foreign Affairs Analyst

More than 100 warships—British, French, Dutch and Belgian—are assembling on England's west coast for naval exercises. These operations are defensive.

The international aspect of this fleet in peacetime maneuvers probably is unique.

Meantime, British, American and Dutch warplanes are waging over Britain a mock war. It's purpose is to test John Bull's defenses against an attack with atom bombs — from any quarter. Here again the international aspect is unique.

This is Britain's first major

second day of the operation. London (which suffered so terribly from bombing during the late war) was "saved" by the defensive air fleet, though several midland and coastal cities suffered "extensive damage."

The British defensive forces were jubilant. These two operations are being carried out without blast of trumpet, although they comprise a historic event. There is no comment from the governments concerned as to the meaning. The event is left to speak for itself, and broadly it does. However, we shouldn't dismiss it lightly.

The exercises seem to be calculated to serve two important purposes: (1) they afford striking advertisement of the determination of the Western democracies to stand together defensively; (2) they provide invaluable defensive experience.

The operations presumably are in part a gesture toward Moscow. Their international aspect serves notice that the Atlantic Pact is more than a piece of paper. Rus-

to be put into operation and implemented, but there are times when action speaks louder than words, and this is one of them.

Indeed, the Muscovites understand action better than words. The current action gets added emphasis from the fact that it is being carried out by four important members of the Atlantic Treaty.

But the propaganda value of the exercises doesn't stop with Russia. They provide practical evidence to the harassed nations of Western Europe that the Atlantic alliance means what it says. That is important, because these countries would be sitting right under the big guns if another war should come.

## Sunday Drills Seventh Well Near Calgary

CALGARY, Alberta, Canada—A 2,992 barrels per day oil well, the seventh producer on its Redwater section, has been brought in by Sunray Oil Corp. and Pacific Petroleum Ltd. in LSD Sec. 2-53-22W of 4th M. Alberta, Canada. The P.A.S.C. Redwater No. 2 is producing 35 degree gravity oil, on potential test, at rate of 108 barrels per hour. Casing was set at 3240 feet in the D3 zone, total depth 5222 feet.

Sunday and its Canadian partners have five other proven locations on their Redwater tract, P.A.S.C. No. 2 is drilling and nearing completion.

The Sunray and Pacific Petroleum No. 1 on their Dallas block LSD 9 Sec. 19-59-R23 West of 4th M. has penetrated a gas sand at 28-2700 feet, indicating natural gas flow of 10 million cubic feet daily. This gas and other gas in the 30,000 acre tract will be available for the proposed Westcoast Transmission Company's international pipe line.

The oil industry is rushing plans for refinery expansion in the Canadian prairie provinces and for pipe lines to permit expansion of markets for the Dominion's crude oil.

Although none were in use in 1941, by 1947 there were 10,000 self-propelled combines in operation on American farms. These combines were one of the many innovations during the war years that have made the farm a major factor in today's ever growing use of oil.

Left, Reverend Wilson was accompanied by his wife and son who were honor guests at a surprise party following the tour.

### Texas' Completions Above Last Year

AUSTIN — (AP) — Completion of 179 oil wells last week ran the year's total to 4,213 compared with 3,409 a year ago.

The Railroad Commission reported 18 gas well completions. The 1948 total of 344 is slightly ahead of last year's 303. There were 83 dry holes. Wildcat operations brought in eight oil wells, two gasers, and 48 dry holes.

Ninety-nine wells were plugged, 82 of them dry, and 17 oil. The total average calendar day allowable was 2,013,839 barrels, an increase of 9,230 for the week.

The American flag should be placed in or near the polling places on every election day.

### Texas Co. Makes Five Changes in Organization

The Texas Company officials announced several organizational changes made in a meeting of the Board of Directors June 24. The announcement was released in Pampa by D. J. Gribbon, district superintendent for The Texas Co.

R. F. Baker, general manager of the Domestic Producing Department, New York, was elected a vice president in charge of domestic producing operations. He succeeds R. Ogario.

Ogario, who was vice president in charge of Domestic Producing, was made chairman of Executive Producing Committee which will consider crude oil production policy on a world-wide basis. He remains a director and a vice president in the company.

L. H. Lindeman, treasurer, was elected a vice president in charge of financial matters. He has been with the company since 1910 in the Treasury Department.

Robert Fisher, assistant treasurer, was elected treasurer to succeed Lindeman. He too, has been with the company since 1910.

### Routine Developments

#### CARSON COUNTY

The Texas Co. C. R. Garner "D," staked location Sec. 103 Blk. 4 I&GN Survey offsetting G. B. Cree No. 1-B Garner.

Cabot Co. No. 4-A Brown, waiting on Commission test at total depth of 2,910 feet.

Skelly Herring No. 19, plugging back bottom hole water.

Stanolind Percival No. 4, drilling at 3,120 in dolomite. Seven inch casing to be set at 3,140 and drilled in with cable tools.

Cabot Co. R. C. Ware, et al., No. 20, spudded Tuesday, drilling at approximately 250 feet.

#### GRAY COUNTY

Humble Oil & Refining Co. H. E. Merten No. 15, staked location 990 feet from N and 2375 feet from E lines of S-240 of N-2 Sec 87, Blk. 2, H&GN Survey.

Cabot No. 1 Morse-Shell, testing and cleaning out.

Sinclair A-9, drilling through cement plug.

Humble Oil & Refining Co. Jackson 8, preparing to set 4 1/2 inch liner.

The Texas Co. E. E. Getting No. 7, installing pumping unit. The Texas Co. 48 Saunders, on location. The Texas Co. No. 48 Saunders, on location Sec. 1, Blk. 1, S&R Survey offsetting Lafors Petroleum Co. No. 5 Saunders.

Kewanee No. 2 Ash "A," drilling at 1,600.

Humble Oil & Refining Co. No. 4 Binkley, setting 5 1/2 inch liner at 2,275 feet.

The Texas Co. No. 8 Key, installing pumping unit.

#### HANSFORD COUNTY

Sinclair No. 21 Johnson Ranch "B," swabbing and testing.

Skelly S. P. Jackson, waiting on orders.

Stanolind Francis No. 1, drilling at 3,115.

#### SHERMAN COUNTY

Skelly Worton "A" 1, waiting on cement to set on 7 inch casing.

Skelly Worton "A" 2, moving in rotary.

Skelly Worton "B," shut in waiting to take potential at 3,121 feet.

Skelly Worton "C," waiting to acidize at 3,110 feet.

Today 80 percent of the land on the nation's farms is plowed by tractors. In the case of wheat, oats and other small grains, 90 percent of the seeding and harvesting is done with oil-powered equipment. These are some of the reasons for America's tremendous use of oil.

America's farms are producing 51 percent more food than in 1935, with a million fewer farm workers. Food production has increased tremendously, as the farm has been mechanized, largely with equipment using oil products.

Delaware has the lowest mean elevation in the nation; Colorado, the highest.

## THE DRILLER'S LOG

By RUD ANDERSON

According to President Truman's Council of Economic Advisors, Texas is threatened with an "economic tailspin" unless some action is taken to conserve our natural resources. The advisors, in a report to the President observed "... when oil and gas are gone, the Southwest will indeed be a blighted area unless other economic activities have been developed."

They cautioned that resources should not be wasted or used uneconomically. To bring this about they recommended the price be raised to such extent that other fuels would be used in other parts of the nation. The East, for example, is using more and more gas, transported to them via the Big Inch, et al. It seems they have an abundance of coal and water while all we have for fuel is our gas and oil. In other words, let the East use their coal so that we will have something to use ourselves umpteen years from now.

Then the Council recommended a heavy severance tax or some other means of revenue from oil to be placed in a separate trust fund and used only for further economic development. Texas and Louisiana already have severance taxes but Texas uses most of her in place of a state income tax.

This report transcends any argument as to the amount of oil left in the ground in any part of the nation. It merely points out that one of these days, the Southwest is going to be on the short end of the oil business and now is the time to prepare for the worst. That could be pretty sound observation.

Drilling crew on a Humble deep test wildcat in Cass County are on vacation this week. The test was to have gone down to around 12,000 feet but pipe and casing were pulled and the well cemented at only 7,600. Tests apparently had not been unfavorable although nothing to become exuberant over. This might be some indication that the big companies want an almost sure thing when they drill.

That being the case, maybe someone believes that the American darko has something after all. Shell and Union Producing on the other end of the basin in Beckham County, Oklahoma, are getting some pretty good wells and Shell likes its wells enough around there to stake locations on two more. These wells offset the company's No. 1 Walker and No. 1 Cantrell.

There is no special award for it, but if there were I would like to pin one on Continental and Cities Service for the daily drilling reports they send to newspapers every other day. There would be much better coverage of the oil industry if more companies adopted such a policy.

Something like that could be easily adaptable to the situation here in Pampa. There are a great number of wells being drilled in the Panhandle. There are a great number on which we have no way of checking. Perhaps the drilling company is out of town, or, in the case of independents, no report is made to the main office until the well is completed.

One man can't possibly keep current on all routine development in the Panhandle. The scouts don't even do that. They get together once a week and exchange information. Then too, the information they have is, in most cases, a week old. So, a daily or even semi-weekly report would be the answer to anybody's prayers. Continental and Cities Service are on the right track.

The horse and mule population on American farms has steadily declined since 1935, while the number of tractors has increased just as steadily during the same period. More than three million tractors now in use on the nation's farms represent a 186 percent increase since 1935. This is just another factor in the ever-increasing use of oil products to produce more food.

### Movie Star Plus Oil Equals Wildcat Suit

ROBY — (AP) — Randolph Scott, a shoot-em up Western movie star, and six other persons have been sued by Stanolind Oil and Gas Co. for six sections of land.

Scott and Arthur A. Cameron of Los Angeles, another defendant, said Saturday they had staked a deep wildcat well, contracted to 8,900 feet, in the land in question. It is in Fisher County, three miles east and south of Rotan. Stanolind asks title to the land, possession, unspecified damages and costs of the suit, filed in 104th District Court here. Other defendants are J. R. Berner, H. B. Poff and Stephen D.

## A Change is in Order...

# Change to OIL-PLATING!

**Better Coverage!**  
... An extra shield of lubricant is fastened to the working parts of your engine when you OIL-PLATE with Conoco N<sup>o</sup> Motor Oil. That means unflinching protection from wear — smooth car performance.

**Safety! ... OIL-PLATING** clings to your engine somewhat like grease clings to a "seasoned" skillet. It can't all drain down, not even overnight. That means safe starting — no "dry-friction" destruction when you press the starter.

**Security! ...** There's another additive in Conoco N<sup>o</sup>, too! It fights combustion acids — combats carbon and sludge. Conoco N<sup>o</sup> is thorough in protecting cars!

**Bank the Difference! ...** An OIL-PLATED engine means fewer repair bills. You need fewer quarts between drains. Your engine keeps its now-car power longer. Save and be safe — with Conoco N<sup>o</sup> Motor Oil.

**Oil-Plate today at your Conoco Mileage Merchant's!**

Copyright 1949, Continental Oil Company

OIL FIRE RAGES — Fire fighters, using a shield improvised against the terrific heat, battle the roaring flames from an oil well at Huntington, Beach, Calif. Unable to check the blasting well above ground, fire fighters were trying to stop it by pumping salt water into a neighboring well in an effort to saturate the oil strata below the fire. (AP Wirephoto)

Skellytown

SKELLYTOWN—(Special)—Mr. and Mrs. L. L. Chesler of Electrica visited recently in the home of their daughters, Mrs. Melvin Beighle and Mrs. Howard Patton.

Mr. and Mrs. Frank Carpenter and Donnell Ray visited over the weekend in Geary, Okla.

Mr. and Mrs. J. E. Clancy, Mr. and Mrs. H. L. Osborne and Larry, Mr. and Mrs. G. A. Papp and daughter, Mr. and Mrs. J. A. Osborne and children, and Mr. and Mrs. Jim Grant all spent the weekend at Buffalo Lake.

Mr. and Mrs. A. V. Beckworth and children of Dumas visited over the weekend in the home of Mr. and Mrs. Ben Lick and family.

Mr. and Mrs. A. W. Shubring and Myrna, and Mr. and Mrs. G. A. Pope and daughters visited last weekend at the new Northern Natural Plant in Guymon, Okla.

Mr. and Mrs. Gerald Seright of Plainview visited her parents, Mr. and Mrs. G. T. Studebaker, over the weekend.

Mrs. Mildred Williams visited last weekend in Wichita Falls.

Mrs. Lola Faye Hughes of Panhandle visited her sister and family, Mrs. Floyd Hand, recently.

Speaker Says Price System Doomed

CANADIAN—(Special)—Free enterprise and the capitalist system of living will be gone in ten years if we don't do something about it now, "Pinky" Vineyard of Pampa told the Rotary Club of Canadian at a special ladies' day program Tuesday in the WCTU Building.

Housing Bill Trimmed to Senate Size

WASHINGTON—(AP)—The whole public housing section was knocked out of the administration's vast housing bill today—subject to a later vote.

With the aid of some Southern Democrats, Republicans mustered a 168 to 165 vote to knock out of the House floor a provision for \$10,000,000 public housing units to be financed by annual federal payments of \$308,000,000.

The rallying cry of the opponents of the provision was "socialism."

The action could be reversed later.

WASHINGTON—(AP)—The House trimmed its housing bill down to Senate size today. It cut the public housing program from 1,000,000 to 810,000 units and the yearly subsidy from \$400,000,000 to \$308,000,000, as the Senate had done.

The action, on a voice vote, may give the bill a little easier going.

A Republican attempt to make the cut deeper was batted down. Chairman Spence (D-Ky) of the Banking Committee, in line with instructions of a Democratic Party huddle, offered the amendment to bring the House bill into line with the measure the Senate passed weeks ago.

But it still was uncertain just when the House would get around to a final vote on its revised bill.

Rep. Albert M. Cole (R-Kans.) tried to put over the bigger cut. He didn't say anything about the number of units. But he proposed slashing the annual subsidy from \$400,000,000 to \$180,000,000.

He got licked by a 90 to 84 standing vote.

Lodge Initiates 14 New Members

In an atmosphere of as much pomp and circumstance as the hot weather permitted, a class of 14 candidates was initiated into the Pampa Lodge 1385, Loyal Order of Moose last night in the Palm Room, City Hall.

Members of the Burger Ritual and Drill Teams had charge of the ceremony for the Pampa candidates.

Following the initiatory ceremony Governor J. B. Maguire told new members they were eligible to attend the lodge's first social—a covered-dish supper to be held at 7:15 p. m. Tuesday, July 5.

Members will be informed by postcard during the week telling them where the covered dish social will be held.

Officers of the Burger lodge repeated their invitation to the Pampa lodge to attend the opening ceremonies of the new Burger Moose Home on Thursday, the Saturday night dance and the banquet on July 8. Pampa members planning to attend were requested to let Secretary Vincent Kersey know by next Tuesday so preparations can be made for them in Burger. All of the planned socials so far include the wives or girl friends of members.

Welding Courses To Begin July 1

Herbert Denny, vocational course instructor in the Veterans Administration courses being offered here, said today the following men have signed up for two welding courses starting July 1:

Class Number 1: J. L. Phillips, Merle C. McWhorter, and N. L. Roland. The courses are open to veterans. The courses are full at this time, he said, but veterans are encouraged to have papers ready if they wish to take courses later.

Class Number 2: Lloyd W. Gooch, Jack R. Stewart, William D. Fowler, Elmer J. Rupp, Edward L. Morris, James H. Stumpner, Olen Lee Pitts, Edward Jernigan, and a man whose last name is Wilson. Denny urged all men to be present.

Class Number 1 meets Monday, Wednesday and Friday, at 6 p. m. on the first two days and at 8:30 p. m. on Friday.

NAVAL EXERCISES

LONDON—(AP)—More than 100 British, French, Dutch and Belgian warships headed today for England's West Coast for one of the largest peacetime naval exercises in history.

Available at Veterans Hall

The most complete stock of sporting goods in the Panhandle is at the Sportsman Store.

Mr. and Mrs. G. C. Carlisle and Patsy have returned from a trip to Colorado where they visited Mr. and Mrs. Carl Maddox and sons. They also visited in Kansas and Oklahoma.

MILLER

(Continued From Page 1) to make a trip to Puerto Barrios, Guatemala, on the Marjorie E, one of several motor vessels he owns.

"I went down on the boat and came back on it," he said. "I was latched as supercargo. That's the way it's usually done with owners."

Miller said V. F. Neuhaus, president of the McAllen State Bank and the First State Bank and Trust Company of Mission, was waiting for him at Mobile.

Payroll accounts in the two banks are among those tied up by suits against Miller.

Miller was told customs men at Mobile had quoted him as receiving a telephone call, telling them it was long distance and adding, "I have to catch a plane out of town right away."

He laughed heartily. "There was no phone call to it," he said. "We handle a little business to take care of and when we get done we just came back on an ordinary manner."

Miller and Neuhaus flew to Mission in a private plane, a twin-engine Beechcraft piloted by A. R. Westbrook.

The financier told the Associated Press in a telephone interview that he got back to Mission about 3 p. m.

"Now I'm in conference with a bunch of folks," he said. "I don't much believe they'll want to be named."

"I believe this is all we ought to give you at the present time—might handicap our efforts to straighten this thing out."

The Valley State Bank at San Juan is expected to pay off about 60 to 85 cents to depositors.

State Banking Commissioner J. M. Falkner said yesterday chances for organization of a new bank at San Juan are good.

A new suit filed yesterday by Falkner was against Miller and the Hidalgo Distributing Company, McAllen. The suit was on a \$25,000 note by which Miller secured a note from the Valley State Bank.

Miller is chairman of the McAllen Municipal Utilities Board and past president of the McAllen Chamber of Commerce. The Miller Municipal Airport at McAllen was named for him.

Miller got his start as a nurseryman in Mission in 1923. Later he expanded his interests to banks, savings and loan companies, gas field development, and food companies.

He was reached yesterday in Neuhaus' office. Neuhaus answered the telephone. He was later he had gone to Mobile and returned with Miller.

"Whoa," he said, laughing. "You're carrying me along pretty fast."

After a moment's silence, he said: "That's right, I was in Mobile."

Asked if Miller were in the office and would come to the phone, he hesitated again, chuckled and said: "Yes, he says 'yes.'"

Of Red Cross

Fred Neisage was named chairman of the Pampa Chapter of the American Red Cross this morning at a meeting of the Board of Directors at the Red Cross Office.

Other officers elected included: Mickey Ledrick, vice chairman; Joe Fischer, treasurer; and Mrs. Jude Jordan, secretary.

Ledrick, Jack Edmondson and Albert Doucette were each elected for a three-year term on the Board of Directors at the annual Red Cross meeting last month.

Other board members attending the morning meeting were Mrs. Douglas Nelson, J. R. Sparkman, Lefora, and Sherman White.

After the election of officers, the board discussed current Red Cross cases.

Members of the board asked the executive secretary, Mrs. Mildred Hill, make monthly letter summaries of current cases so the board members will be better informed on the local Red Cross activities.

There were no injuries, but a 1934 Plymouth sedan, driven by Joseph A. DeGrace, 614 W. Foster, sustained over \$100 damage at 3:20 p. m. yesterday when in collision with a 1940 Ree truck and semitrailer at the S. Russell and W. Atchison intersection.

According to Chief of Police Louis Allen, who says the accident, DeGrace was traveling south on Russell and made a U-turn at the intersection. As he started going north the truck, traveling west on Atchison, struck DeGrace's car on the right side.

The truck was owned and driven by L. C. Bridges, Hastings, Okla. DeGrace was charged by police with failure to yield right-of-way to the truck.

Damage to the truck was estimated at less than \$100.

Willow Run Plant Conversion Film Is Shown Jaycees

A film showing the conversion of Ford's Willow Run plant from auto production to the making of B-24 bombers was shown to the Pampa Junior Chamber of Commerce at its regular weekly luncheon meeting yesterday.

The picture was obtained by Jack Morgan, sales manager of Tom Rose Ford agency. The film was made in the early days of the late war and showed the mammoth retooling and redesigning job required to change over to airplane production.

Two guests were present at yesterday's meeting: J. W. Garman III, a guest of John Garman, and Charlie Podes of New York City, a guest of Rusty Ward.

TOKYO—(AP)—Between 25 and 35 persons were reported killed and 1,000 houses destroyed or damaged today by a heavy rainstorm in Southeastern Kyushu.

NEARLY

(Continued From Page 1) age in the immediate vicinity," Fort said. "Further, we still have an ample supply of laborers."

Meanwhile, the Associated Press said this morning the wheat harvest has reached its peak in Deaf Smith County, one of Texas's biggest wheat producers. About 20 percent of the county's 382,017 acres of wheat has been cut.

Wheat yields in Texas this year have ranged as low as five bushels per acre on dry land—and as high as 45 bushels per acre on irrigated land, the report said.

Some elevators expect to continue taking wheat for another week before they put up the "filled-up" sign. Storage is beginning to be quite a problem, but no wheat has piled up on the ground in any quantity, as yet.

The Wheat Harvest Control Office at Amarillo reported yesterday that much progress is being made in the 1949 Panhandle harvest, despite scattered showers in some areas at the beginning of the week.

Potter and Randall Counties have estimated they are 95 percent complete; Oldham, 30 percent; Armstrong, 70; Hartley, 20; Moore, 22; Carson, 40; Sherman, 20; Darr, 25; Dackinham, 20; Roberts, 65; Hansford, 45; Ochiltree, 60; Lipscomb, 65; Swisher, 80; Floyd and Motley, 85.

COPLON

(Continued From Page 1) pleas of attorneys yesterday. The jury was presented with the conflicting pictures of the tiny brunette: a clever spy in Russia's behalf—or an innocent person, "framed" by the Justice Department.

Closing for the government, Kelley said Russia's espionage agents found in Miss Coplon "precisely what they wanted—a girl willing to sell out her country."

Available at Veterans Hall

The most complete stock of sporting goods in the Panhandle is at the Sportsman Store.

Mr. and Mrs. G. C. Carlisle and Patsy have returned from a trip to Colorado where they visited Mr. and Mrs. Carl Maddox and sons. They also visited in Kansas and Oklahoma.

MILLER

(Continued From Page 1) to make a trip to Puerto Barrios, Guatemala, on the Marjorie E, one of several motor vessels he owns.

"I went down on the boat and came back on it," he said. "I was latched as supercargo. That's the way it's usually done with owners."

Miller said V. F. Neuhaus, president of the McAllen State Bank and the First State Bank and Trust Company of Mission, was waiting for him at Mobile.

Payroll accounts in the two banks are among those tied up by suits against Miller.

Miller was told customs men at Mobile had quoted him as receiving a telephone call, telling them it was long distance and adding, "I have to catch a plane out of town right away."

He laughed heartily. "There was no phone call to it," he said. "We handle a little business to take care of and when we get done we just came back on an ordinary manner."

Miller and Neuhaus flew to Mission in a private plane, a twin-engine Beechcraft piloted by A. R. Westbrook.

The financier told the Associated Press in a telephone interview that he got back to Mission about 3 p. m.

"Now I'm in conference with a bunch of folks," he said. "I don't much believe they'll want to be named."

"I believe this is all we ought to give you at the present time—might handicap our efforts to straighten this thing out."

The Valley State Bank at San Juan is expected to pay off about 60 to 85 cents to depositors.

State Banking Commissioner J. M. Falkner said yesterday chances for organization of a new bank at San Juan are good.

A new suit filed yesterday by Falkner was against Miller and the Hidalgo Distributing Company, McAllen. The suit was on a \$25,000 note by which Miller secured a note from the Valley State Bank.

Miller is chairman of the McAllen Municipal Utilities Board and past president of the McAllen Chamber of Commerce. The Miller Municipal Airport at McAllen was named for him.

Miller got his start as a nurseryman in Mission in 1923. Later he expanded his interests to banks, savings and loan companies, gas field development, and food companies.

He was reached yesterday in Neuhaus' office. Neuhaus answered the telephone. He was later he had gone to Mobile and returned with Miller.

"Whoa," he said, laughing. "You're carrying me along pretty fast."

After a moment's silence, he said: "That's right, I was in Mobile."

Asked if Miller were in the office and would come to the phone, he hesitated again, chuckled and said: "Yes, he says 'yes.'"

Of Red Cross

Fred Neisage was named chairman of the Pampa Chapter of the American Red Cross this morning at a meeting of the Board of Directors at the Red Cross Office.

Other officers elected included: Mickey Ledrick, vice chairman; Joe Fischer, treasurer; and Mrs. Jude Jordan, secretary.

Ledrick, Jack Edmondson and Albert Doucette were each elected for a three-year term on the Board of Directors at the annual Red Cross meeting last month.

Other board members attending the morning meeting were Mrs. Douglas Nelson, J. R. Sparkman, Lefora, and Sherman White.

After the election of officers, the board discussed current Red Cross cases.

Members of the board asked the executive secretary, Mrs. Mildred Hill, make monthly letter summaries of current cases so the board members will be better informed on the local Red Cross activities.

There were no injuries, but a 1934 Plymouth sedan, driven by Joseph A. DeGrace, 614 W. Foster, sustained over \$100 damage at 3:20 p. m. yesterday when in collision with a 1940 Ree truck and semitrailer at the S. Russell and W. Atchison intersection.

According to Chief of Police Louis Allen, who says the accident, DeGrace was traveling south on Russell and made a U-turn at the intersection. As he started going north the truck, traveling west on Atchison, struck DeGrace's car on the right side.

The truck was owned and driven by L. C. Bridges, Hastings, Okla. DeGrace was charged by police with failure to yield right-of-way to the truck.

Damage to the truck was estimated at less than \$100.

Set Tomorrow

Funeral services for Homer Hathaway, 40, who was born and reared in Mobeetie will be held tomorrow afternoon.

Hathaway died at 1:30 a. m. today in the Berger hospital after an illness of about five years. He was an electrician for the Phillips Petroleum Co., and had moved to Berger seven years ago.

In addition to his wife, Anita, he is survived by two sons, Harold and Harvey; by three daughters, Arlene, Gayle, and Melba; by three brothers, Lester of Mobeetie, Arthur of Oklahoma City, and Elmer of Wichita Falls; and by three sisters, Mrs. Ethel Johnson of Fremont, Neb., Mrs. Edna Waters of Wharton, and Mrs. Ora Moore of Daming, N.M.

Services will be held at 2:30 p. m. tomorrow from the Wells St. Church of Christ with Van Broun officiating.

The body will lie in state at the Duaneck-Carmichael Funeral Home until service.

Funeral services will be held at 2:30 p. m. tomorrow from the Wells St. Church of Christ with Van Broun officiating.

'JEEP' ALL-WHEEL DRIVE MEANS ALL-YEAR USEFULNESS

There are no idle seasons with the Universal 'Jeep'. With 4-wheel-drive traction and pulling power, it is ready for work any day in the year and there is practically no limit to what you can do with it. The versatile 'Jeep' pulls a plow as readily as it carries a load of milk cans... operates both hydraulic-lift and pull-type implements and can be used with almost any kind of tilling and harvesting equipment... travels on or off the road with trailed loads up to 5,500 pounds. But best of all, the usefulness of the 'Jeep' is not confined to any single kind of work but includes the year-around functions of row truck, pick-up, tractor and mobile power unit.

## Clumsiness Is Serious Charge

WP 134—CLUMSINESS  
By ALICIA WART  
NEA Staff Writer

The most serious indictment of a woman's charms is made when you say that she is clumsy. As serious as this charge is, no one who travels on packed public conveyances or walks into crowded buildings can fail to level it at many women.

A man's clumsiness is quite often excused. A woman's never is. There seems to be more of an obligation upon a woman's part to discipline her hands and feet.

The woman who hasn't educated her hands not to jab bus passengers with her umbrella or feet not to trample over everything in her path as she teeters down the aisle needs badly to train these clumsy members.

The need would be to realize that hands and feet are pushovers for mischief, unless their owners watch over them. Control over any wild tendencies to jab other people or step on them is necessary until a woman can feel confident of the good behavior of her feet and hands in crowded places, and again in the more intimate social gatherings where their bad behavior is certain to annoy friends.

Mobile is the only seaport in Alabama.

## Saucy Straws in the Sun... With Cotton

NEW YORK—(NEA)—Fashion takes over Anglo-U.S. relations by making matches between hats of Bahamian straw and wardrobes of American cotton.

To find unusual textures and colors of natural straw, hat-designer Mary E. Goodfellow went to the Bahamas for "silver top" palmetto and brown cocconut. The results are a new "M.E.G." collection of gay color-spiced rollers, sombreros, cloches and saleros in neutral shades of straw which can go anywhere this summer that a cotton dress or a cotton suit can go.—EFSIE KINARD, NEA Fashion Editor.

Millinery stars in the collection of Bahamian straws styled for wear with American summer cottons are the hats pictured. Neutral-toned "silver top" palmetto straw makes the rippled cloche which the picnicker wears (above). The brown and white dotted band encircling the crown drapes easily over the brim. The golfer's sunshade (top right) of pale beige cocconut straw is brightened by a boldly striped tie silk band. Western-styled sombrero (center right) of palmetto straw ties under the chin with a red cord which also rings the crown. Interwoven light and dark cocconut straw forms interesting pattern for roller (bottom right) which has striped cotton band around crown.

## Budgeting Saves Money for Fun

By ALICIA WART  
A teen-ager and her money are soon parted. Allowances grow fatter, but by the end of the week it's the unusual Miss who isn't scraping the bottom of the till with nothing much to show for money spent.

Better budgeting can fix that. Don't expect miracles on a shoe-string. With a little planning, however, even tiny allowances have been known to provide a hard cash bottom to airy dreams of vacation, college wardrobes, dancing classes, etc.

The trick is figuring out what you have to spend and what you really want your money to do for you. Then how to budget it, more or less, till that long-range dream becomes a reality.

First, if you're nursing a grudge about your allowance, have it out at a family confab. Learn the facts and figures; there is, after all, just so much money to go around.

You can give your budget a boost: Baby-sitting, gardening, marketing, and tutoring are proven ways of garnering coin. Farm girls have made extra money raising poultry and livestock. Your talents can pay off too—draw posters placards for local organizations, sew accessories, make jewelry.

One warning, however: don't get so busy filling up the piggy bank for that long-haul dream that you forget about the day-to-day pleasures of the soda fountain, swimming pool and movies. Keep the budget flexible enough to work for you but let it provide a little play for you too.

## McKENNEY ON BRIDGE

By WILLIAM E. MCKENNEY  
America's Card Authority  
Written for NEA Service

Bridge players will tell you that the game of bridge is not based on luck, but on science. However, Donald Richards, the young baritone, believes that luck does play a part in life.

He got his start in singing because an agency called him up one day, thinking he was somebody else. To this day Donald does not know who they thought he was — but they told him they had him booked for six weeks at the Hollywood Beach Hotel in Florida for \$175. It was not until he was on the train that he learned it was \$175 a week.

Upon his arrival at the hotel, he handed the orchestra leader four songs. "Where are your orchestrations?" he was asked. Donald looked bewildered, but luck stayed with him. "Go to bed, Donald," said the orchestra leader. "If anyone wants you, you have laryngitis tonight." By working all night, the director had music prepared for Donald the next day.

He has gone a long way since then. He was the original Woody Mahoney in "Finian's Rainbow," the male lead in "Along Fifth Avenue," and now he is on a personal tour. Donald predicts that "Younger Than Springtime," a recording he made recently, will be one of the big hits of the year.

Some players blame bad luck for losing a contract, but ability will win in most cases. In today's hand, if declarer tries to establish the spade suit first, he can easily be defeated. But if he starts the diamond suit right away, he probably will make a spade, two hearts, two diamonds and four clubs.

Of course, with double-dummy defense, West could jump in with the ace of diamonds, shift to a spade, and when East wins the spade trick, he can lead diamonds. But that is rather difficult defense even when you are looking at all of the cards, isn't it?

## Woman Is Daughter Of Canadian Man

Miss Pauline Cotner, Pampa, whose engagement was announced in Sunday's issue of The News, is the daughter of W. C. Cotner, Canadian. Her father was not listed in the story.

Miss Cotner will be married Aug. 2 at the First Methodist Church here to Leon W. Daugherty, it was announced.

## Theta Rhos Initiate, Install 30 At Beginning Fete of Borger Club

The local Theta Rho Club initiated and installed 30 members of the Borger Theta Rhos last Saturday to make the third club that the local girls have started since the group's organization in 1944.

On July 15, the girls will begin a club in Shamrock.

Mrs. E. N. Franklin and Mrs. Georgia Ford, state officers, instituted the Borger Club with the assistance of Miss Sadie Patterson, state advisor of Theta Rho.

The Pampa Club conferred the degree on 18 girls and 12 Rebekahs, and then presented their floor work exhibition spelling "Sadie." Following the exhibition, Miss Patterson presented the local treasurer, Miss Dolores Cramb, a check for the club.

The initiation and installation team members, in white formal, were: Miss Jeanne Hollis, past president; Miss Norma Killian, president; Miss Reba Killian, vice president; Miss Julia Bradford, chaplain; Miss Roberta Nicholson, conductor; Miss Donna Franklin, warden; Miss Betty Conklin, inside guardian; Miss Shirley Shultz, outside guardian; Miss Bernice Priest, marshal; Miss Barbara Patterson, right supporter to president; Miss Marilyn Frazier, left supporter to president; Miss Jerry King, right supporter to vice president; Miss Dolores Cramb, left supporter to vice president; and Mrs. E. N. Franklin, musician.

Others attending from Pampa were: Mr. E. N. Franklin, Mrs. Roy Kretzinger, Mr. and Mrs. Leo Brazwell, Mr. and Mrs. Chester Nicholson, and Mr. and Mrs. R. B. Brummett.

The Pampa club is the holder of the third consecutive State Championship.

About 200 people were present.

## WE, THE WOMEN

BY RUTH MILLETT  
NEA Staff Writer

Answering these questions honestly ought to give you a fair idea of whether or not you and your husband are still the young couple you like to think you are, or if you are gradually becoming staid, middle-aged folks.

Have you settled down to your own "crowd," content to see the same people over and over and not the least bit interested in enlarging your circle of friends?

Have you given up all interest in active sports, because it is easier to listen to a ball game on the radio than to get out and enjoy the out-of-doors?

Are possessions your big interest in life?

MEETING-NEWCOMERS

When you meet a newcomer are you critical of him if his ideas are a bit different from your own, instead of welcoming him as a stimulating influence?

Do you always plan to do things with other people, feeling that the evening is a flop if you don't have at least one other couple along?

Have you stopped caring a great deal about each other's opinions and quit trying to please each other in small ways?

Are you afraid to take a chance or try out new ideas?

If most of your answers are "Yes"—you may be closer to being a staid middle-aged couple than you've ever admitted you are.

## NIGHT CREAM FOR FEET

Summer means beach days and beach days mean bare feet. If you don't want to play ostrich and hide your feet in the sand, soften hard, calousy areas with your favorite night cream.

With bathing season here, it's more fun to see the peeling of the belles than hear it.

## For Basket Fete At Borger Park

Mrs. Walter J. Smith was a hostess to the Northern Natural Sewing Club Thursday evening, June 23.

Plans were made during the business meeting to hold the annual company basket dinner at Borger Park, June 30.

Mrs. Smith entertained her guests with a "By-Word and Thimble" program. Each person received a prize.

Refreshment plates consisting of pressed country style chicken sandwiches, potato salad and iced fruit punch were served by the hostess.

Those attending were: Mmes. A. L. Downs, Bryan Wilkerson, Stanley Beck, Charles Tranham.

**Four Babies Die With Strange Illness**  
LAKE WALKER, Fla. (AP)—A strange illness that turned newborn babies a bluish tinge at times caused the death of a fourth infant Tuesday.

Miss Irene Kelly, superintendent of Lake Wales Hospital, said doctors believe the attacks were caused by poisoning from a laundry dye used in marking diapers. The five infants became ill June 21 a few hours after the first batch of diapers marked with a new dye containing analine oil was used, Miss Kelly said.

The American Medical Association Journal urged special precautions against poisoning babies with analine dyes used to mark diapers. The journal said 72 cases of poisoning from coal tar derivative dyes had been reported and that five infants had died.

## Business Slump Expected to Get More Painful Shortly

(EDITOR'S NOTE: Some industries have been hit harder than others in the "piecemeal" recession we are undergoing. The situation is surveyed by Sam Dawson, Associated Press business news columnist, in the following article, the second of three taking our business pulse at mid-1949.)

By SAM DAWSON  
NEW YORK (AP)—

The slump is expected to get a good deal more painful shortly. Some big key industries, like steel and autos, have yet to feel it. And when they really cut back, it'll raise hob with all business in the industrial Midwest and East.

The wailing and moaning you've heard to date will just be a whisper to what you'll hear before this year's over.

At the same time, a number of other industries have brighter prospects for the second half of

Gloomiest outlooks just now are for steel, other metals, coal and railroads.

Steel hit its peak in a booming first quarter, is now sliding downhill fast, expects to hit bottom the first of next year and start back up in the spring quarter. It hasn't trimmed prices much yet.

Non-ferrous metals cut prices drastically after demand died in March. A number of mines have closed, others have cut back the work week. Many feel the worst will be over by August or September.

Coal has been over-produced. Cold weather will help, but whether costs and prices can be brought down to help in its fight with fuel oil and natural gas depends a lot on what comes out of the talks with John L. Lewis.

Railroad carloadings average lower this year. The roads are pretty well reconciled to having traffic fall off still more the last half.

Industries farther along the readjustment trail but still having troubles are furniture, clothing, shoes, textiles, retail trade and airlines.

Furniture output is running about 20 percent behind last year, but it was a lot worse than that a few months ago. The shoe industry ran into trouble two years ago and is beginning to recover now. Clothing sales and production are now in pretty good balance, but far below the peak.

Cotton textile mills had their shakedown in production and prices a year ago, and expect to benefit from any upturn.

Wool mill production hit a low point in April and has made its first hesitant upward step. Might get going again the first of the year.

Retail trade felt the slump first, when customers balked at prices. Department store dollar sales are below last year, but unit volume is holding high.

Airlines went sour after the

half doubtful, are autos and utilities.

Auto order backlogs may disappear this fall, but the industry is still producing at top speed, giving at least token price cuts and earnest pep talks to salesmen.

Utilities fear the general business slump may carry this winter's power demand below last year's record high.

Industries still largely unreconstructed but with prospects brighter for the second half of the year are construction and oil.

Building of homes is running behind last year and may sluff off further next winter. Industrial building is also easing off. But public and institutional building is increasing.

Oil production was cut back sharply recently but the price of crude oil is still near the peak. Demand is expected to pick up enough to send production and sales higher. Whether, or when, prices will drop still has the industry guessing.

Riding along on the cushions of government supports are the farmers. Optimistic are the grocers. And perhaps the cheeriest of them all are the airplane builders.

Farm income is down about 10 percent from last year. But the farmer counts on the government to keep things from getting much worse. However, nothing in sight indicates the farmer will be better off next year.

Grocery prices are expected to drop about five percent more by the end of the year, but store sales unit volume will stay high.

The aircraft industry looks on 1948 and 1947 as the years of the big slump. Plane orders now keep prospects bright for some time to come.

## And Make a New Acquaintance

MRS. WALTER STEIN, above. This picture was taken in Germany.

We became acquainted with an interesting newcomer to Pampa the other day through the publication of a picture taken in Germany. As a matter of fact, the cutlines under the picture, by the Associated Press, were wrong; and she set us right.

Mrs. Walter Stein, formerly of Munich, Germany, and now of 1024 E. Browning, said it was not true that the "Mirror Hall" of Herrenchiemsee Castle, Bavaria, had been closed to the public for 20 years, as the picture caption said.

She and her husband visited it on their honeymoon after they

CORNICANA (AP)—Cornicana's city elections were held last Saturday.

Robert V. Yarbber yesterday filed the contesting petition, attacking results of the election which extended the city limits, set a tax rate and separated the

allowed to vote. The election was held last Saturday.

African slaves were first introduced in America in 1619, the first shipment going to Jamestown.

## Make This Home Recipe To Take Off Ugly Fat

It's simple. It's amazing. How quickly one may lose pounds of bulk, unobtrusively, fast right in your own home. Make this recipe yourself. It's easy—no trouble at all and costs little. It contains nothing harmful. Just as to your druggist and ask for four ounces of liquid Barcostrale. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. Then take two tablespoons twice a day. That's all there is to it.

If the very first bottle doesn't show the simple, easy way to lose bulky fat and help regulate slender, more graceful curves; if it doesn't make you feel better, more energetic, more confident, more beautiful, more attractive, more graceful, more slender, more graceful curves; if it doesn't seem to disappear almost like magic from neck, chin, arms, back, abdomen, hips, calves and ankles, just return the empty bottle for your money back.

Follow the easy way outlined by many who have tried this plan and help bring back slurring curves and graceful slenderness. Note how quickly bulky fat disappears—how much better you feel. Here alive, radiant, appearing and active.

10 pounds lost in 10 days

Mrs. M. C. Britton, and W. Whitford, San Antonio, Texas, writes us as follows: "I am a faithful user of Barcostrale. I had started for weeks without your product and needed so badly to lose 10 pounds, so I started using Barcostrale and ten days was over for I lost the 10 pounds in 10 days. I now weigh 100 pounds."

"I eat what I want and hold my same weight."

## Right in the heart of the work season, SMITH'S QUALITY SHOES announce a new price on all men's work shoes.

## The Valley Should Let Florida Governor in on Their Secret

By WILLIAM C. BARNARD  
DALLAS — (AP)— Personal note to Chambers of Commerce in McAllen, Harlingen and Brownsville.

Don't keep the Rio Grande Valley a secret any longer—let Gov. Fuller Warren of Florida know what you have down there. The Governor and his honey-blond bride flew through Dallas this week on their way from California to Florida.

## Election Dates May Be Changed

AUSTIN — (AP)— The attorney general has ruled that it was legal to change the dates for an election on proposed Constitutional amendments.

Atty. Gen. Price Daniel issued the opinion at the request of Speaker of the House Durwood Manford.

In the proposed Constitutional amendments approved by the Legislature this year, the date set for a vote by the people was Sept. 24.

Manford noted that this Legislature might want to submit more proposed amendments to the people. Since the proposals must be published in newspapers for three months prior to election time, these later amendments would have to be submitted at a later election. Manford said that would be considerable extra expense.

The Senate passed a resolution changing the Sept. 24 date to Nov. 8. Manford asked for Daniel's opinion before the House took any action. Daniel said it could be done by a joint resolution passed by both the Senate and House.

"Poor Richard's Almanac," the most famous of such Colonial publications, made Benjamin Franklin a rich man.

Warren and his beautiful 23-year-old bride were married in Los Angeles Sunday. They left Dallas in a Delta airliner, bound for Pensacola, Fla. At Fort Walton, near Pensacola, they'll continue their honeymoon at a private residence several days before the Governor resumes his executive duties. Just whose private residence, the Governor declined to say. "We'd like a little privacy and rest," he explained.

Warren cleared up one point—

he wasn't traveling incognito. It had been reported that he was going under the name of A. M. Cradick.

"How in the world did you pick a name like that?" a reporter asked curiously.

Warren laughed. "I didn't pick it," he said. "A. M. Cradick is an attorney friend of mine in Los Angeles and he got the tickets for me. But the tickets are in my name."

He pulled out the tickets as proof. Sure enough, they were.
