FREE FROM LIVING TOMB—Paul Makushak, bearded, tattered and shoeless, sits in a Brooklyn, N. Y., police station following his release from a tomb-like cubicle in a Brooklyn home in which his mother sealed him when World War II broke out. The 33-year-old former college student told police "I'd like to go back." (AP Wirephoto)

Papers Found in Defendant's Purse Carried FBI Secrets

WASHINGTON (AP) — Federal Judge Albert L. Reeves denied today a defense motion to prevent the prosecution from using papers taken from Judith Coplon in her trial here on espionage charges. Judge Reeves also denied a defense motion for a mistrial, and another to expunge from the record an FBI statement telling what was in Miss Coplon's purse when she was arrested March 1 in New York with Valentine A. Gubitchev, a Russian. The FBI agent who made the

2nd School Bill Passes

AUSTIN (AP) — The House today passed the minimum foundation school bill — second of the Gilmer-Alkin measures — on second reading, 97 to 18. Another major piece of legislation was sent to the calendar by the House Appropriations Committee. It was a bill appropriating \$5 million dollars for state departments during the next two years.

Gulf Honors Employees

Eight employees of the Gulf Oil Corporation, production department, were honored for their service this week at ceremonies held in Borger. A. C. Hatfield, zone superintendent of production, made the presentations of engraved certificates and jeweled emblems. Twenty-five awards were given to Ward B. Haas and Harry H. Threatt, Middleton T. Buck, Bonner H. Eubanks, and Acton M. Nash received 20-year awards. Fifteen-year service honors were presented to Euel B. Davis, Clarence F. McGinnis, and Martin Stubb.

Two Teachers Added To McLean Faculty

McLEAN (Special) — Two new teachers have been added to the McLean High School faculty. Superintendent Logan Cummings announced. Sue Lynn Guthrie of Memphis, Tex., will have charge of the home making department. This course has not been offered since the resignation of Miss Nell Still at mid-term. Tommy C. Hulsey of Olton will teach science.

THE WEATHER

WEST TEXAS: Cloudy to partly cloudy, scattered evening thunder showers in Panhandle. South Plains and east of Pecos river tonight and Friday. Not much change in temperatures. HST Believes Red Act in Good Faith

WASHINGTON (AP) — President Truman said today he believes the Russians are acting in good faith in their new moves toward lifting of the Berlin blockade. The President told a news conference that if he didn't think the Russian feelers were advanced in good faith, the United States would not be continuing conversations on the matter. These conversations have now reached the stage of final decision with Russia controlling the next move.

Lost Child, Found --Behind Davenport

SEATTLE (AP) — After sheriff's deputies, neighbors and her frantic mother combed the neighborhood for her, they found a two-year-old Suzanne McNeese yesterday. She was catnapping behind the living room davenport.

Merchants to Take Part in Calf Roping

McLEAN — One of the features of the American Legion-sponsored three-day rodeo at McLean this weekend will be a calf roping event for McLean merchants, many of whom have had little experience in the saddle to say nothing of calf roping technique. The highlight of the rodeo, however, will be a 20-pole cow pony relay race to be run from Shamrock to McLean Saturday morning.

All Officers Reelected to Fire Dept.

CANADIAN (Special) — All officers of the Canadian Volunteer Fire Department were reelected last night at its regular semi-monthly meeting. Election of officers is held on the second regular meeting in April of odd-numbered years. The officers serve two-year terms.

Esso Cuts Price On Diesel Fuel

NEW YORK (AP) — Esso Export Corp. announced today reductions of 17 cents a barrel for marine diesel fuel oil and marine diesel medium at North Atlantic and Gulf Coast ports and a reduction of 21 cents in marine diesel medium at Morehead City and Wilmington, N. C., and Charleston, S. C.

It's Been Lively 25 Years for Joe Shelton, Superintendent of Busses for Pampa Schools

By JIM McCLUSKEY News Staff Writer A quarter of a century serving as bus superintendent of the Pampa Independent School District seems quite a while to Joe Shelton, even if the best years of his life are still ahead of him. Yes, in 1924 Joe first assumed the management of the five Pampa school busses. During the intervening years, Joe has managed to accumulate busses until he now has 18 school busses. Though only starting his 25th year of life, Joe boasts he "beat the town here." He was born in the Old Eldridge Stage Stand, about seven miles northwest of Alameda. His parents, Mr. and Mrs. Charles E. Shelton, are said to have been the first white couple to marry in Gray County. His mother was the former Miss Janie Woods. Arriving in Pampa in 1902 at the tender age of 14, Joe was busy

Nine Others Killed, Bandits Unknown

MANILA (AP) — Mrs. Aurora Quezon, widow of the Philippines' first president, her daughter and son-in-law were killed today in a bloody machine gun ambush that brought death to 10 persons. Ten others were wounded. President Elpidio Quirino, notified of the ambush in the mountains of Northern Luzon, ordered an immediate campaign against the killers, whom he identified as bandits. The Quezon party, with an armed constabulary escort, left Manila shortly after 5 a.m. local time for Baler on the northeast coast of Luzon. The 60-year-old widow was to have unveiled a marker in memory of her husband, Manuel Quezon.

Hester Takes Stand in Trial For Murder of School Dean

CLEBURNE, Tex. (AP) — Arthur Clayton Hester, admitted slayer of his guardian, Dr. John Lord, took the stand for cross-examination at his murder trial here today. Hester nervously testified at length in his own behalf last night. He is charged with bludgeoning Lord with a slender metal rod.

Negroes Fail in Effort to Enter at TU

AUSTIN (AP) — Thirty-five young Negroes tried unsuccessfully yesterday to register at the University of Texas. Then, a parading band of 75 young Negroes and whites carried an old fight to end segregation of the races in education to the Texas Legislature and to Governor Beauford Jester. Eleven white students from the University of Texas were in the group, took the stand for education.

Legion Blasted for Asking Flags' Return

FORT WORTH (AP) — Daughters of the Republic of Texas leveled their historical guns at the American Legion today and fired a broadside of bitter words for suggesting that captured Mexican battleflags be returned to Mexico. Fort Worth's Van Zandt Chapter, D.R.T., called the Legion's Executive Committee action in Austin last Sunday "interference in a period of history that is not its concern."

Legion Blasted for Asking Flags' Return

MARKS OF A BEATING—Patrolman Oliver Wallace examines marks on the back of Robert McClary, six-years old, whose mother, Mrs. Elva McClary, was booked at St. Louis, Mo., on suspicion of common assault. Neighbors complained that she had beaten her children with a shower hose. Robert's sister, Betty, eight, holds the hose. (AP Wirephoto)

New Demo Patronage Rules May Leave Many Out in Cold

WASHINGTON (AP) — President Truman said today Democratic votes in Congress on Taft-Hartley repeal will be a test of party loyalty. He put actions of the lawmakers on other Democratic platform measures in much the same class. Thus Mr. Truman indicated that the senators and representatives who fail to go along with striking out the two-year-old labor law and adhering to other platform pledges will have little to say about who gets federal jobs.

New Demo Patronage Rules May Leave Many Out in Cold

WASHINGTON (AP) — President Truman said today Democratic votes in Congress on Taft-Hartley repeal will be a test of party loyalty. He put actions of the lawmakers on other Democratic platform measures in much the same class. Thus Mr. Truman indicated that the senators and representatives who fail to go along with striking out the two-year-old labor law and adhering to other platform pledges will have little to say about who gets federal jobs.

License Tag Receipts Pass \$100,000

Vehicle registration receipts in Gray County again went over the \$100,000 mark this year with the county realizing a take so far of \$115,095.50. According to state law the county retains the first \$50,000 taken in on sales of auto license tags. From there on the county splits 50-50 with the state. The money collected by the county from auto tag sales is used for lateral roads and is prorated between the precincts according to their budgets and needs for the year.

Hail Storms Hit Texas

By The Associated Press Jolting hail storms struck several West Texas communities last night and early today. Hailstones hit here, Kermit and Big Lake. In each case, the hail rain and wind were the worst in local history. The hailstorms took the weather spotlight from Victoria and in South Texas, where the swollen Guadalupe River was climbing to dangerous heights. Every roof in Big Lake was damaged and all west windows knocked out. Big Lake is 68 miles west of San Angelo. Big Lake's new elementary school and gymnasium were severely damaged by water. Broken windows allowed the soaking 3.25-inch rain to pour into the building.

Rumor Is Untrue, Office Stays Here

Col. Ernest Thompson of the Railroad Commission told The News by phone at noon the rumor that the commission office would be moved from Pampa to Amarillo is false. Col. Thompson said "We never heard of it, never thought of it, never considered it, and aren't going to do it." He said he called The News when Pampa residents called at Commissioner Olim Culberson's office today to inquire about the rumor. Culberson was not in at the time. The residents were not named by Thompson. It would be uneconomical to move the office to Amarillo, he said, because "we put the office where the field is, and we are going to keep it there," he stated.

Reserve Cadets To Train at Ft. Sill

FORT SILL, Okla. (AP) — Plans have been completed at Fort Sill for training 329 artillery ROTC cadets for six weeks beginning June 20. The cadets will come from the Southern, Colorado, Arkansas and Missouri. NOTICE TO Pampa News Subscribers IN PAMPA If You Fail to Receive Your Copy of THE PAMPA NEWS Please call 666 between the hours of 5:30 and 7:00 p. m. on week days, and 6:30 and 10:00 a. m. on Sundays.

WE HEARD ...

Why Pampa has been having so much rain lately. Many Pampans got the spring urge and washed their cars. Besides the storm doors at the Postoffice have just been taken off for the summer.

'My Time Is Your Time'—Or Is It?

Emmett C. Clockworthy awakens Sunday morning, April 24, in a cold sweat—Daylight Saving Time has reared its ugly head. He thinks he set the clocks an hour ahead last night—or was it back? He has to catch a train this morning at 9:32. Or is it 8:32? Maybe 10:32. All very terrifying to Mister C. You can avoid his trepidation by moving the hands of your clocks one hour AHEAD before retiring Saturday night, April 23. Or if you want to do things up right, stay awake until 2 a. m. Sunday, when DST officially starts, and advance the clocks to 3 a. m. at that time.

Hay Bales May Feature More Practical Silhouette

Hay bales next season may feature a new, more practical silhouette, according to farm "fashion" experts.

J. Leo Ahart, a farmer-agricultural engineer in Dow City, Iowa, has been conducting tests with rounded bales, and he writes in the Country Gentleman, a national farm magazine, that they are proving more advantageous than traditional bales.

He has found, says the story, that cylindrical baling insures the quality of the hay and lessens storage and handling problems.

After an inch of rain Ahart scratched through a one-inch surface on the rounded bale and found the underlying hay dry. He claims that the surface acts as a thatched roof and keeps the hay from too much contact with the ground.

The best way to store the bales, according to Ahart, is to stack them upright. This method, he says, automatically forms vertical air ducts around every bale and

"a beautiful curing job results." The trucker employed by Ahart was also impressed by the round bales when he found that they allowed him a full ton more per truck load and eliminated the necessity of taking his truck up steep inclines for loading. When the ground is hilly, the bales can be rolled to the truck with very little effort.

To assemble the bales, Ahart suggests a heavy, wide windrow for fast work and perfect round bales. What is best, he claims, is two heavy side-delivered windrows rolled together—not on top of each other, but adjacent. With a heavy, wide windrow, Ahart says, a farmer can turn out three to four bales per minute of desirable average weight even though he has to stop each time the machine makes a bale. "Round bales," Ahart says, "handle nicely with regular hay hooks." An 85-pound bale has proved best for handling and storing, and two 20-foot planks laid

on a low wagon truck make a handy frame for hauling 30 bales put on in four tiers.

The final suggestion from Ahart in connection with the round-baling operation is to be sure the baler follows the windrow in the direction the mower traveled. This enables the pickup to do a cleaner job.

VACATION IN ITALY
 LONDON—(AP)—Princess Margaret, with a maid and a Scotland Yard guard, took off today in a special plane for a month's vacation in Italy.

IT'S AN ILL PILL
 BEAUMONT, Tex. — (AP)—Following the rough airplane flight of the Brooklyn Dodgers from Vero Beach, Fla., to this city, a new type of salesman showed up at their hotel. He had a pill to prevent "motion sickness." The Dodgers declined with thanks.

The first people to devote themselves chiefly to commerce were the Physicians, who developed their fishing boats into a commercial fleet.

New Stamp on Sale at Office

Three-cent Puerto Rico gubernatorial election commemorative stamps were placed on sale this morning at the Postoffice, W. B. Weathered, postmaster, said.

The Pampa Postoffice received 5,000 of the special-delivery size stamps. The central design of the stamp depicts a rural Puerto Rican holding a cogwheel, representing industry, and a ballot box, representing the Jan. 2, 1949, election for governor of the island.

 MIAMI — (AP)—Contract for the riding services of Logan Batchelor, apprentice sensation of Florida racing, has been leased to Gustave Ring of Washington, D. C.

'Take 'Er In, Gov'ner'

An old-fashioned hip bath is delivered to Maria Carroll, 87, by an employee of London's Old People's Welfare Department. The door-to-door bath service is available to old folks who have no bathing facilities in their homes. After the bath, the tub is picked up and loaned to someone else.

He Was 'Dead' for Three Minutes

Tommy Billings, 6, relaxes happily in a New York hospital after being "dead" for three minutes while on the operating table to have his adenoids removed. When the youngster's heart stopped beating, Lt.-Comdr. Richard Gaillard made a two-inch incision (note scar on boy's chest) over Tommy's heart and massaged it until it began beating again.

Coal Industry Forms Policy

WASHINGTON — (AP)—Southern soft coal operators today broke away from the rest of the industry and prepared to negotiate a separate contract with John L. Lewis if necessary.

President Joseph E. Moody of the Southern Coal Producers Association said his directors believed they had formulated a definite policy for negotiating with Lewis and the United Mine Workers this year. The other operators, meeting here yesterday and today, have not yet reached that stage, he said.

Moody already has asked Lewis to begin negotiations for a contract to replace the one expiring June 30. Lewis has not yet replied.

The other operators, meantime, scheduled a meeting to consider Lewis' new contract strategy—a gentle plea for a settlement without a strike this summer.

Ezra Van Horn, temporary chairman, said "no conclusions were reached" at yesterday's meeting.

That was before they saw the softly-worded statement by Lewis. The mine operators' chief usually blasts the operators in preliminary skirmishing over work contracts.

Booze Party For Rats Gives With the Dope

By FRANK CAREY AP Science Reporter

WASHINGTON (AP) — A theory that a special kind of nutritional deficiency plays an important role in causing cancer, mental disease and other mystifying maladies was advanced by a team of Texas researchers.

Dr. Roger J. Williams and two colleagues of the University of Texas suggested that allergies, arthritis, cardiovascular (heart) disease, multiple sclerosis, alcoholism and drug addiction may also fall within the same category.

Their theory is based on the results of a free-for-all booze party they threw for some rats and mice in a laboratory down in Austin.

They told the National Academy of Sciences that as a result of research on alcoholism among the rodents they had developed the new concept of "genetrophic disease" — "geneto" meaning something inherited, and "trophic" referring to nutrition.

"A genetrophic disease, of which we believe alcoholism is an example," they told the academy's annual meeting, "is one arising from nutritional deficiency which, in turn, has its basis in a genetically-controlled augmented requirement for one or more specific nutritional elements."

Lon Chaney Has Turned Author

By BOB THOMAS HOLLYWOOD — Lon Chaney, boogie-man Lon Chaney has now turned author.

The actor has penned his own horror scripts which he plans for early production. It will be new-style horror, he said on the "Captain China" set.

Chaney is not as horrid off-screen as he is on. He regularly visits homes for deaf and underprivileged children.

June Haver may play another figure of theatrical history. The gal, who has made a career of period musicals, looks set for the role of Eva Tanguay in "I Don't Care," which George Jessel is producing.

New Chemical Fiber Developed

NEW YORK (AP) — The Celanese Corp. of America has announced development of a new chemical staple fiber in the rayon group called celcos (pronounced sell-kose).

For the consumer, company officials said it would mean fabrics of new designs, colors and characteristics. It is described as ideal for women's suitings and dress goods, and many types of men's suitings.

Harry Price, Celanese vice president in charge of sales, said the new third member of the rayon, staple fiber group is set about midway between acetate and viscose staple fibers, with acetate characteristics predominating.

W-Y ?

and viscose staple fibers, with acetate characteristics predominating. Celcos fabrics can be dyed with many dyes used on cotton or viscose rayon, as well as standard cellulose acetate dyes.

It takes a pair of grunting cheaters to give Kifaru's horn a trim at the Philadelphia Zoo. Assistant keeper Pat Manichini gets ready to do the clipping, while head keeper John Resgan, right, and curator Fred Ulmer look on. The black rhinoceros in position for the operation: Dehorning was a precautionary measure, because tough Kifaru will soon rejoin his mate Kenya.

Age Doesn't Mean a Thing Says Actress

By BOB THOMAS HOLLYWOOD — Being old, remarked Gloria Swanson, with perfect logic, merely means that you have lived longer.

"I think it's a crime," the ageless movie queen continued, "that in America age is treated as something distasteful — a burden which people carry on their backs like a bag of rocks. No other country considers age that way. In China, for instance, old people are revered."

Miss Swanson looks a good 10 or 15 years younger than the 80 she admits to. She advertises her age freely. One reason is that most people guess her to be old.

"Often in powder rooms I hear women discussing my age. They usually guess 10 or 20 years older than I really am. Not only that, but a studio driver here told me he had trouble convincing a friend that I was still alive."

She explained why she's considered older than she really is: she started her film career at 14-15; she never was an ingénue, but began as a siren.

"Age means nothing," she emphasized. "Why I can name you four top actresses in the movies, and they're not playing grand-mama roles, either — who come within a year or two of my age. And maybe one in a couple of years older, too." Unfortunately, she didn't name names.

The natural question is: how does she stay so young? Some of it is mental, she said. A lot of it is heredity. Her mother is still a good-looking woman at 70, and she recalls her great-grandmother as being apple-cheeked at 84.

Most important of all, she said, is how you eat.

Railroded

Bill Morris, Jr., 13, of Okemuncie, Nev., pets his dog Queenie after saving her and himself from death. Trapped on a trestle by an oncoming fast freight, Bill grabbed the dog and lay prone between the tracks as 11 cars of the 80-car train passed over them and ground to a stop. Scrambling out from under, Bill fell 18 feet into a river bed, breaking his right arm. His head was grazed by the engine pilot.

NEW YORK — (AP) — Joe DiMaggio, Tommy Henrich and Charlie Keller of the Yankees form a really veteran outfield when they are in action. They have been playing together since 1939, with time out for war duty.

The trio missed all of the '44 and '45 seasons. DiMaggio was in the Army three seasons; Henrich in the Coast Guard four years and Keller in the Merchant Marines two seasons.

RETAIN PHOENIX CAMP

PHOENIX, Ariz. — (AP) — The New York Giants have signed an agreement to continue their spring training chores here through 1954.

Thirty-three national soccer teams will compete for the World Soccer Cup in Brazil next year.

Home From the Wars

Ralph J. Bunche, acting UN mediator for Palestine, gets a hearty welcome from his 5-year-old son Ralph, Jr., as he arrives in New York from the Near East. Now that his peace mission is completed, Bunche said he would ask the Security Council to take action to eliminate the position of mediator.

PERMANE MISSING

NEW YORK — (AP) — They miss Bobby Permane around Jamaica racetrack. The young bouter will be out for most of the year due to a broken collar bone sustained in a fall at Gulfstream Park in March. He rode 70 New York winners in 1948 to rank as third leading jockey in the Empire State.

CALUMET TOPS

NEW YORK — (AP) — Calumet Farm won 13 out of a possible 34 races in New York last year and led stables in money won in the state with \$390,172. C. V. Whitney's horses won 44 out of 212 races and \$339,765 to rank second.

Akron, Ohio, was so named because it was believed to be the highest point of land in the state. The word is Greek for "summit."

McLean

McLEAN — (Special) — The Assembly of God church closed a two-week revival Saturday, conducted by Rev. Bob Rider of Denver, Colo. Rev. Luther R. Groom is the pastor.

Mr. and Mrs. Bill Day and daughter, Karen, have returned from Dallas where they attended a furniture market. They were accompanied by Mrs. Day's parents, Mr. and Mrs. W. R. Franks of Wellington.

Mrs. J. T. McCarty is visiting with relatives in East Texas.

Mrs. Guy D. Pharris and son, Robert Lee, have returned from a ten-day trip to Ohio where they visited relatives.

Mr. and Mrs. Rex Shedrick and

son are home after a visit with relatives in Oklahoma City and Edmond, Okla.

Mr. and Mrs. Carl Jones spent Sunday visiting Mr. and Mrs. Albert Bailey and Mr. and Mrs. L. E. Cobb at Estelline.

The Seniors of the high school presented a play, "Desperate Ambrose," under the sponsorship of Mrs. Jim Back and A. D. Shaver.

Mr. and Mrs. Bryan Burrows of Pauls Valley, Okla., were recent visitors in the home of their daughter, Mrs. Johnnie Mertel.

Mrs. Annie Corbett and children left the first of the week after spending several days here with their parents and grandparents, Mr. and Mrs. N. A. Greer.

Bobby Orrick spent Easter with

his grandparents, Mr. and Mrs. W. L. Orrick, in Shamrock.

Mr. and Mrs. H. H. Sanders and Mrs. Olen Davis of Liberty and Mrs. Edwin Sanders of McLean were Pampa visitors Monday.

Mrs. Herschel McCarty and son, Jimmy, have gone to Las Cruces, N. M., for a visit with Mr. and Mrs. George McCarty.

Mr. and Mrs. Lester Dysart and son, Gayle, have returned from a visit with relatives at Pauls Valley, Okla., and Dallas.

Long ago "medicine women" used eyestones — various small, smooth objects — to remove cinders, dust particles, etc., from the eye.

Gracie Says

By GRACIE ALLEN
Well, the war with the Nazis and Japanese ended four years ago, but only now are the first signs of an armistice appearing in the hot and cold running war between landlords and their tenants.

In Great Neck, N. Y., a real-estate man wants to make his tenants happy, so he's providing them with Saturday-night dances, music lessons and baby-sitters at bargain rates.

At the same time, in Los Angeles, they're starting night-school classes for apartment-house managers. The idea is to teach the managers that there are better ways of reasoning with tenants than reouting all the building mice through the bedrooms.

I mentioned all this to our

landlord, and he admitted he had maybe been a little harsh. So now I have to cook dinner for him only once a week, and George will just have to wash his car instead of doing that and mowing his lawn, too.

The Human Race

'Melting Pot' Era of Our History Closes

NEW YORK, N. Y. — About 97 percent of the children now born in the United States have mothers who themselves are native born, according to the statisticians of the Metropolitan Life Insurance Company, who see in this fact the closing of the "melting pot" era of our history.

Out of the 3,290,000 births registered in the United States in 1946, less than 100,000 were to foreign-born mothers. This was only one half the number of such births registered as recently as 1933. By contrast, births to native white women increased 73 percent from 1933 to 1946.

The sharp drop in births to foreign-born mothers is the result of restrictions upon immigration during the past quarter century. The foreign-born population has not been replenished, and the number of women at the childbearing ages has decreased rapidly in recent years. At present, less than one-tenth of the foreign-born women are in the 20- to 34-year range, while more than one quarter of the native women are at these childbearing ages.

A study by the statisticians shows that the proportion of births to foreign-born women is three times as high in large

Insist on Cleanliness Says Doctor

AUSTIN — Emphasizing the importance of proper sanitation standards in public eating establishments, Dr. Geo. W. Cox, state health officer, urges the patrons of such establishments to insist upon cleanliness in the preparation and dispensing of foods.

The health authorities cannot maintain daily inspection of cafes and other food handling places, and if the public is careless in accepting insanitary conditions, dozens of infectious diseases can be transmitted to the public from insanitary food and utensils.

"Food handlers should be taught constantly throughout the state," Dr. Cox said, "and every cafe owner should take advantage of these schools to see that his personnel is trained in the sanitary methods of preparing, storing and dispensing food."

Reliable estimates say there are about 3,000,000 coin-operating vending machines in this country, outside of coin-telephones and parcel lockers.

food to the public. If that is their profession, they should qualify themselves to do the work safely. This is the restaurant owner's responsibility to his patrons."

The public should insist upon a cafe being free from roaches, flies, and other insects; cracked dishes should never be used; tables and linens, as well as dishes and silverware should be scrupulously clean, and milk should be served in the original container, with the cap intact. They should note whether or not a cafe displays a placard stating that its standards of sanitation have been approved by local or State health officials.

"Obviously the best in sanitation can be had only through close cooperation between the public, and health officials. As long as the public approves and accepts insanitary conditions in eating establishments, they will continue to exist," Dr. Cox warned.

Whooping Crane Near Extinction

CORPUS CHRISTI — (AP) — The whooping crane, a stately bird balanced on the edge of extinction, has flown north again.

The huge white bird with the rusty-red head is headed for mysterious nesting grounds in Canada which have defied years of search by ornithologists.

It's a trying time for the bird-lovers. They fear the whooper, like the passenger pigeon and the dodo, may become extinct.

The time of danger is when the whooper migrates, traveling from South Texas to Canada and passing over the heads of trigger-happy hunters. In their winter nesting grounds on the 164,000-acre Aransas game refuge near here, the whooper is protected by wardens. In his Canadian nesting grounds he is protected by the fact no one has found his nests.

In tight family groups, 23 wild cranes began taking to the air from the refuge near here April 13. In a few days almost all were gone. Only four were left — a pair in captivity, a cripple and the cripple's mate. The mate refused to leave.

Those 32 constitute almost the entire world population of whoopers, which once winged by the hundreds over the heads of awestruck settlers of the South and Midwest.

Recent records showed that there were only three others living. One was at Gothenburg, Neb., one in a Louisiana zoo and one in the London zoo.

Extinction crept up on the whooping crane as it did on the passenger pigeon. No one noticed at first that their numbers were dropping. Hunters continued to kill the graceful creature.

But laws were passed forbidding slaughter of the whooper.

NOTICE TO BIDDERS

Sealed proposals addressed to the Mayor and City Commission of the City of Pampa, Texas, will be received at the office of the City Secretary, City Hall, Pampa, Texas, until 1:30 P. M., 10 May 1949, for furnishing all necessary materials, machinery, equipment, superintendence and labor for furnishing and installing two deep well turbine pumps.

Bidder's must submit Cashier's or Certified Check issued by a bank satisfactory to the Owner, or a Bidder's Bond from a reliable Surety Company, payable without recourse to the order of the Surety Company in an amount not less than five (5%) percent of the largest possible contract, as a guaranty that Bidder will enter into a contract and execute bond and guaranty in the forms provided within ten (10) days after notice of award of contract to him. Bids without required check or proposal Bond will not be considered.

The successful Bidder must furnish performance bond in the amount of 100 percent of the total contract price as a Surety Company holding a permit from the State of Texas to act as Surety or other Surety or Sureties acceptable to the OWNER.

All lump sum and unit prices must be stated in bid script and figures. The Owner reserves the right to reject any or all bids and to waive formalities in case of ambiguity or lack of clearness in stating the prices in the bid script. The Bidder is authorized to consider the most advantageous construction thereof, or to reject the bid. Unreasonable (or "unbalanced") unit prices will authorize the OWNER to reject any bid.

Bidder is expected to inspect the site of the work and to inform themselves regarding all local conditions. Attention is called to the fact that there must be paid on this project not less than the general prevailing rates of wages which have been established by the OWNER as the following:

- Mechanic, Workman or Type of Labor.
- General Prevailing per diem wage based on 8 hour working day.
- General Prevailing Hourly wage.
- Skilled, 2. \$12.00 to \$22.00. 3. \$1.50 to \$2.75.
- Semi-Skilled, 2. \$8.00 to \$12.00. 3. \$1.00 to \$1.50.
- Unskilled, 2. \$8.00. 3. \$1.00.

(Detailed Labor Classifications and Corresponding Wage Rates are set out in the Specifications.)

The Bidder's attention is also called to the special provisions concerning minimum wage rates and hours of employment included in the specifications and that compliance must be insured with House Bill No. 64 of the 43rd Legislature and House Bill No. 115 of the 44th Legislature of the State of Texas, and also all Federal Wages and Hours Legislation applicable.

Instructions to bidders, proposal forms, specifications and plans are on file at the office of the City Secretary at Pampa, Texas.

Copies may be secured from Roberts & Merriman, Consulting Engineers, 218 N. Russell, Pampa, Texas, or 1330 Avenue Q, Lubbock, Texas upon deposit of \$25.00 each, which deposit will be returned to the Bidder on submission of a bona fide bid on the work, with such plans and Specifications or upon returning the Plans and Specifications immediately after examination of same and advising the ENGINEER that bid will not be submitted; otherwise, the deposit shall be forfeited. No obligation is assumed to return deposits under other conditions.

Britain's Free Dental Care Packs 'Em In

This dental clinic in London's Guys Hospital can treat 40 patients at one time and is always filled to capacity, with many more patients packing the waiting rooms. Free dental care is part of Britain's nine-month-old national medical program. Although some Britons doubt the effectiveness of the program, millions have signed up under its "cradle to grave" terms. Current discussion of a national health program for the U. S. includes mention of the British plan.

Leaves From a Correspondent's Life Note Book

By HAL BOYLE
NEW YORK — (AP) — If you ever had an idea and tried to turn it into money, the story of Dick James may interest you. He taught a piece of coiled wire to walk downstairs. Now it makes him an excellent living. James, a 31-year-old former marine engineer, is the inventor of "Slinky," a revolutionary new mechanical toy. Slinky is nothing but a 78-foot piece of high carbon clockspring steel wire arranged in 92 coils. He looks like an old-fashioned bedspring pressed flat—so the coils touch. But Slinky can do things. A child can take him in his hands and play the coils back and forth like a silent accordion. Put Slinky on the top of a staircase and flip his top coil over, and Slinky will coil and uncoil his way down the stairs like a rhythmic snake. "He changed my whole life," said James, who has sold 2,500,000 Slinkys and expects to market another 1,000,000 this year. Back in 1943 he was working in a Philadelphia shipyard. He began fooling with some round elastic wire used to suspend meters

that registered the horsepower output of ship machinery. "The coils of round wire would not stand up," he said. "So just for fun I had the company make me up a couple of dozen samples of flat wire. "It wasn't until the next year that I learned I could make the coils walk downstairs. My son, Tom, and the other kids in the neighborhood were fascinated. I gave one coil to a boy in bed with the mumps. His parents said he had had so much fun with it I should sell the coils as toys. "But James found then how much resistance there is in the world against a new idea. "Finally one department store agreed to let me use one end of a counter for an evening. "I brought along 400 coils and sold them in an hour and a half. They gave me an immediate order for 5,000." James had to borrow money to buy the coils from a factory that made them to his specifications. A month later he quit his \$5,000 a year marine engineering job. Now James is manufacturing the coils himself and is arranging to have them made and sold in four foreign countries. PLENTY OF WATER More water supplies out of One Thousand Springs into the Snake river, near Buhl, Ida., than is used by all cities of more than 100,000 population in the United States.

Sales Volume Of Autos Is Due to Let Up

By DAVID J. WILKIE
AP Automotive Editor
DETROIT — (AP) — Is the auto industry putting too much emphasis on production? Right now car and truck output already exceeds demand for all but a few makes in the lower price bracket. Up until eight or 10 months ago the industry had a huge backlog of unfilled orders. Dealers were pleading with the factories for more cars. But something happened. Perhaps it was chiefly the steadily mounting prices. Whatever it was it shook out a substantial part of the unfilled orders. The price cuts that have been made so far this year were encouraging to some extent. However, for most car buyers the price cuts don't amount to very much. Neither did they stimulate demand very greatly. The industry is selling a large

volume of new cars at present. It will continue to sell nearly 100,000 a week between now and mid-July. But unless there is some serious interruption the assembly lines will turn out far more than that average during the next 12 weeks. And the sales volume after mid-year cannot keep up with the average of the April-May-June period.

DEPENDS ON BLOOD

The size of the brain does not prove the intelligence of a person, according to an eminent Philadelphia doctor. The blood supply and composition of the brain makes a man a scholar or a maniac, he says.

People who have eaten the meat of alligators and crocodiles report that it is comparable to pork in taste and tenderness when it is well cooked.

Commission To Conduct Well Tests

Gas well test procedure for all connected wells in the Panhandle field has been distributed to all operators by the Railroad Commission office here. Deliverability of the wells will be determined in tests starting May 1. The tests must be concluded by August 31. The announcement to operators said. The order makes two stipulations: 1. Deliverability tests will be run on all connected wells which, since last year's deliverability test period, have completed, reworked or retested and which have a potential assigned as determined or adjusted by some other test than a deliverability test. 2. All gas wells having a potential assigned to them as indicated from a deliverability test will have said potential adjusted by the shut-in pressure factor as follows: the old potential times the shut-in pressure squared (abs) over the old shut-in pressure squared (abs). The statement said that operators "taking these tests are requested to submit the calculated tests" to the commission office in the City Hall "as soon as possible after such tests have been taken and no later than two weeks after said test has been taken." The shut-in pressure will be taken during 66- and 78-hour limits as prescribed by law, it was said. The shut-in period, it was announced, "shall be preceded by a flow period at the allowable rate for a period of not less than 72 continuous hours."

Food Price Index For Week Declines

NEW YORK — (AP) — The Dun & Bradstreet wholesale food price index this week declined one cent to \$5.67 — which brought it to just one cent higher than the 28-month low of last Feb. 8. A year ago the index was 16.1 percent higher at \$6.76. The figure represents the total cost at wholesale of a pound each of 31 foods in general use.

KIDNEYS MUST REMOVE EXCESS ACIDS

Help 15 Miles of Kidney Tubes Flush Out Poisonous Waste
When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 60 years. Doan's gives happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

The estimated number of machines in the U. S. selling liquids, in bottles or cups, is about 423,000.

Possible Sites for New Test Range

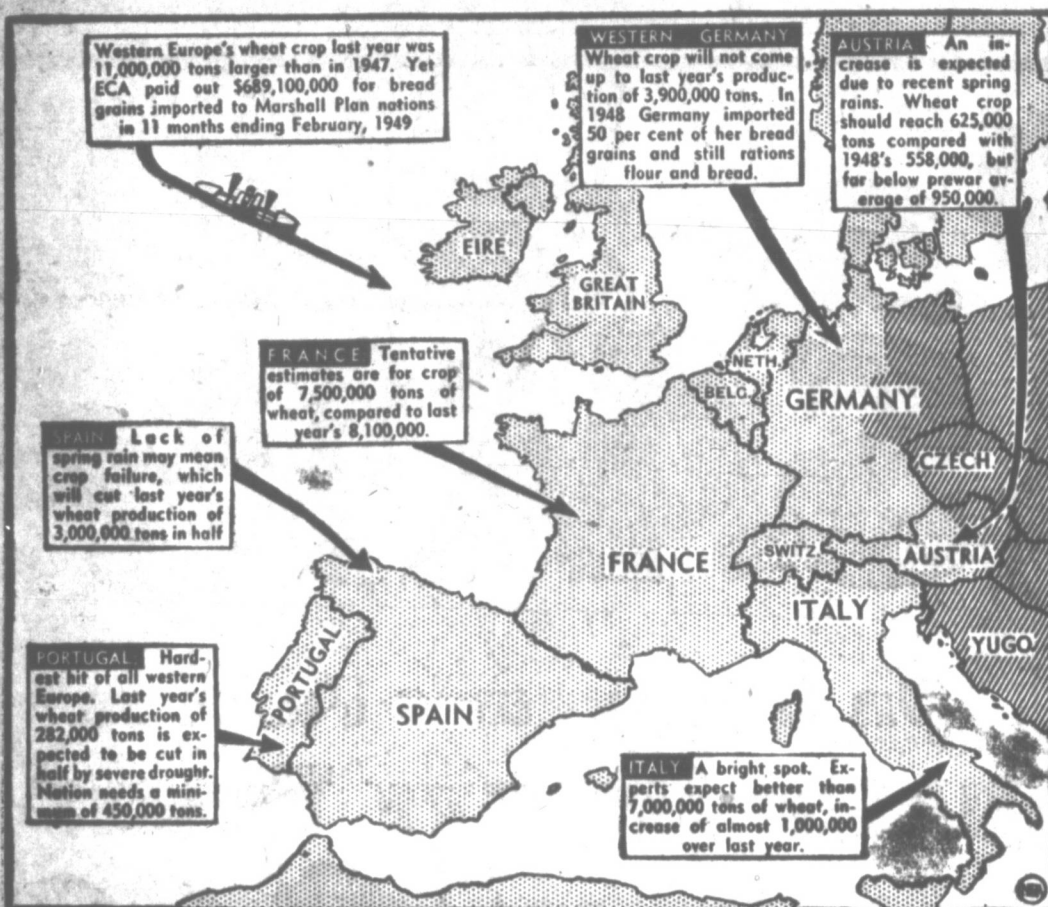

These maps show closure of the Point Mugu, Calif., and Banana River Naval Air Station, Fla., areas, which Defense officials are considering as sites for the proposed \$200,000,000 guided missile test center. Both sites are now used as test ranges but are inadequate for longer range missiles. Point Mugu uses Begg's Rock for its present target area, as shown. The proposed, extreme long range test center eventually would have a community of 12,000 persons.

The snap-snap of brushes sounded like machine-gun fire when these 96 workers painted a crippled war veteran's five-room house in a record-breaking two minutes and 33 seconds. The \$20,000 home belongs to Bob Hoelze, 23, crippled by a Japanese machine gunner when he was 19. It was given the former Marine by fellow citizens of New Brunswick, N. J., in recognition of his war record. Hoelze, seated at left in wheelchair, beside his fiancée, Frances Elaine Noll, watches the sweeping second hand of the big clock set up to time the painters. All volunteers, they were members of Local 834 (AFL) Painters and Decorators Union. House won't be completely finished until just before Hoelze's marriage to Miss Noll, June 12.

Drought Perils Western Europe Wheat Crop

Most countries of western Europe will need larger imports of wheat from the U.S. and Argentina this year because drought, due to lack of winter snow and rain, will cut crops considerably below last year's bumper harvest. The 1948 grain crop was nearly at prewar level, but still does not solve Europe's food problems because meat and dairy production is down and the population up eight per cent since 1938. This map gives the country-by-country situation.

Mainly About People

Mr. and Mrs. Duane Hogsett and daughter, Rita Lynn, have been transferred to Pampa from East Chicago, Ind., by the Cities Service Oil Company. At present they are staying at the home of his parents, Mr. and Mrs. Frank Hogsett, 112 Finley.

Members of the Order of the Eastern Star are invited to attend the constituting service of the Wheeler chapter at 7:30 p. m. Saturday. All desiring to go, phone 1983W.

Taking a vacation? If your vacation is to be a scenic tour, see your Pampa News Carrier. He will be glad to save your paper to be delivered to you upon your return.

For Sale by owner, 413 Magnolia, newly decorated 2-bedroom home. Fenced back yard. Ph. 4071W.

Mr. and Mrs. Henry McGee visited their daughter and son-in-law in Tulsa, Okla., and to see the dog-wood in bloom.

Fuller brush, P. 2182J. 514 Cook. Mr. and Mrs. Ernest Dowell, San Angelo, recently visited in the home of Mr. and Mrs. Vester Dowell, 452 Hughes.

Pop Corn Has Possibilities

A professor has popped up with a lot of possibilities for popcorn. An article in the Capper's Farmer says the man who has new ideas about popcorn is B. L. Weaver, a vegetable crops professor at Illinois College of Agriculture.

Weaver admits that nearly everybody likes popcorn. Still it is pretty much a delicacy for movie and winter-evening munching. This isn't doing justice to the popcorn, says an article in the nationally-circulated farm magazine about Weaver's popcorn experiments.

"Weaver points out popcorn should be a variety food as well as a special treat," the story reports. "It is nourishing, too—contains more kick than ordinary corn. He and the college home economics people ground popcorn into coarse flour and learned it wouldn't take up moisture. The women pronounced it no good for thickening, but it made an excellent cooked cereal."

"The Illinois home economists have issued a leaflet that is full of ideas for using popcorn in the menu. Among the taste ticklers listed are cheese popcorn, spiced popcorn pudding, apple popcorn crisp and popcorn meat loaf."

"Try this on a Sunday evening," says one recipe. "Pop corn and run it thru the food chopper. Put two cups of water and one-half teaspoon salt into a double boiler. When the water is boiling rapidly pour in four cups of the ground popped corn. Cook until thickened. You'll come up with a fluffy, hot cereal somewhat like oatmeal that isn't over wet or underdone. The next morning you can slice what's left and fry like mush."

The farm magazine says Weaver has been growing and selecting popcorn for popping volume, flavor and tenderness. In 1940 he started inbreeding in preparation for hybrids. Last year he had 25 hybrids out of 25 single crosses that increased more than 27 times in size after popping. He has had one cross that tested a 25 volume increase after popping.

Engineer Talks On Importance of Dirt for Highways

OKLAHOMA CITY, Okla.—"Dirt is an important material for no other reason than because it occurs in all nations," Herbert E. Worley, research engineer of the Kansas Highway Commission told the American Society of Civil Engineers in a convention here.

Speaking before the Soil Mechanics Division of this 96-year-old society, he pointed out that from Kansas soils, "over eleven thousand triaxial compression tests have been conducted in connection with the design of 1,000 miles of highways. Less than one percent of highways built according to the design for flexible pavements developed by the commission has shown distress."

Soils are now evaluated according to their physical properties, either for foundation or as materials of construction. Some of the tests which evaluate soils for engineering purposes are triaxial compression, box shear, plate bearing, cone bearing, California bearing ratio, consolidation, compaction, plasticity and grading.

Worley said under field conditions the materials surrounding a column of soil under a wheel load provides lateral support to it. In a similar manner, a triaxial compression test provides lateral support to a specimen of the soil, while a vertical test load is applied to it. The test allows expulsion of water from the specimen as the test progresses similar to the loss of water under field conditions.

After describing Kansas soil testing methods in detail, Worley emphasized that such tests provide a sound basis for economical pavements.

In the Middle Ages only kings were permitted to own anvils, which were part of the regalia of European courts.

The Great Lake or Mackinaw trout sometimes reaches a weight of from 80 to 85 pounds, although it usually weighs between 15 and 20.

The city of Bayton possibly as early as 3000 B. C. was a market place to which, metals, wool and grain were brought.

Across a 350-mile stretch of wilderness in Labrador there is believed to be a solid trough of iron ore running anywhere from 10 to 60 miles wide.

Birds can see most of the colors humans can see.

When Sultan Selim I of Turkey conquered Persia in the 16th Century he included in his loot a number of tile makers and took them back to Turkey.

Turtles have no teeth, but their jaws have sharp biting surfaces.

HST Hopes Calder Will Head Army

WASHINGTON — (AP) — President Truman said today he hopes that Curtis E. Calder, New York utilities executive, will accept appointment as secretary of the Army.

Mr. Truman also told a news conference that Jonathan Daniels, editor of the Raleigh (N. C.) News and Observer is under consideration for appointment as secretary of the Navy.

Describing Calder as a very capable man, Mr. Truman said he had talked with him three or four days ago and he hoped he would accept the job.

Told that a high defense official had said yesterday that the utilities executive would take over the post within 60 days — a statement that Calder later denied — Mr. Truman smilingly observed that the announcement wasn't made by him.

At the same time, the President said there was no foundation in fact for fears that the Marine Corps might be eliminated of the Navy's air arm absorbed by the Air Force.

He said that report was like the prognostications people read in the columns.

A reporter interjected that the apprehensions were raised by John L. Sullivan when he resigned as secretary of the Navy earlier this week.

The President said he did not read Sullivan's letter to Secretary of Defense Johnson, protesting against cancellation of the Navy's plans to build a super airplane carrier.

Collegially, Chairman Vinson (D-Ga.) released a statement from Secretary Johnson denying that there are any plans afoot to transfer Marine and Naval aviation to other services.

NINE

(Continued from Page 1)

guerrilla fighters during the war with Japan, a Lieutenant Lizzam and three constabulary privates.

The wounded included Maj. Gen. Rafael Jalandini, retired army chief of staff, who notified President Quirino and the Philippine Red Cross of the ambush. The general returned to Manila late today.

In Baguio, President Quirino ordered the constabulary and army to rush reinforcements to troubled Nueva Ecija province to undertake a general campaign against bandits. The President said he could not believe the attack had been led by Communist directed armed peasants called khlukhahaps.

He said that Mrs. Quezon was loved too much by these people to be harmed by them.

There were reports that the bodies had been looted of jewelry and valuables. Quirino said this was a further indication that the attackers were bandits and not huks.

Only last week the President had announced that the huks had been broken into small, ineffective bands and reduced to mauling for food.

There was evidence of shock and anger from Filipinos.

Maj. Gen. Johnathan Anderson, chief of the U. S. military advisory group in the Philippines, termed the ambush slayings "a terrible occurrence."

State funeral services will be held.

Mrs. Quezon was beloved by Filipinos for her charity work with children, for leading the suffrage movement for Filipino women and as chairman of the Philippine Red Cross.

HST

now hurting Russia more than it ever harmed the West; that the men in the Kremlin must have realized that the success of the air lift in supplying Berlin has become a symbol of Western power all over Germany. The Russians therefore are believed to have decided to end the blockade.

2. In thus trying to close out the losing deal the Russians are nevertheless anxious to salvage some advantage for themselves.

If possible, they would like to snarl up the Western German government project. At the same time they are expected to claim credit for a great new peace move as a result of the easing of tensions over Berlin.

PAGE 8 Pampa News, Thursday, April 22, 1949

New Shanghai Constabulary See Action

Squad members of Shanghai's crack police constabulary search a rickshaw boy and his passenger suspected of carrying unlicensed weapons. Organized about a year ago, the "flying fortress" policemen are prepared to deal with any emergency and may be called upon to fight if Shanghai is defended against Communist capture or prevent the wild looting experienced by Nanking.

Civilization Said Product Of Symbols

SHAMROCK — (Special) — The 26th annual conference of the Texas Congress of Parents and Teachers, which convened in Shamrock Tuesday and Wednesday, was highlighted with a number of addresses by outstanding speakers of this area.

Rev. George York of Pampa, psychiatrist, who spoke of "Opportunities Unlimited," stressed the cooperation of the home, church and school in giving the youth of today moral and ethical advantages.

Dr. Howard Reid of Amarillo, psychologist, who spoke on the subject: "Ventures in Understanding," discussed various symbols, which influenced the lives of each generation, to the extent that we are the product of all the experiences that have gone before," he declared.

Charles M. Rogers, superintendent of Amarillo public schools, in his talk on "Legislation," discussed the Gilmer-Aikin bill extensively, emphasizing that it is the most far-reaching legislation affecting Texas schools for many years. He was assisted in a panel discussion by Supt. George Graham of Hereford, and Principal J. S. Evans of Amarillo.

A school of instruction was conducted by the state president, Mrs. J. H. Moore of Deport, who was assisted by three state chairmen, Mrs. W. D. DeGrassi, Amarillo; Mrs. Jack Little, Dallas; and Mrs. W. A. Cawthon of Paris.

A well-rounded program was given with many speakers taking part in stressing education for the youth and the parent.

The Board of Managers presented Mrs. J. C. Alexander, president of the Eighth District who presided over the sessions, with a life membership in the Texas Congress of Parents and Teachers.

TOP CAGE COACHES

BEAUMONT, Tex. — The Texas High School Coaches Association will hold its annual coaching school here in August. It will again be the "world's largest" coaching school with more than 1,000 enrolled.

But for once football appears destined to take a back seat. The two top basketball coaches of the nation will be here to lecture on this sport. Adolph Rupp of Kentucky, whose team was national champion and Hank Hanford of Oklahoma A&M, whose team bowed to Kentucky in the NCAA finals, were the selections.

The Flying Dragon glides from tree to tree on webs of thin skin, which stretch over its movable ribs.

HESTER

(Continued from Page 1)

ed as a caretaker and paid \$50 a month.

The youth testified Dr. Lord resumed "improper advances and I didn't like it a bit."

"Three days before the fight," he related, "I went to Fort Worth and fooled around doing nothing in particular."

"I came in late the night before the fight and went to bed. Dr. Lord came into my room that morning and we had the argument about the car and about the money I was supposed to get."

He said Dr. Lord had paid him only \$35 in salary from the time they went to the farm in January until March.

He said after the fight, he threw the metal rod out in the yard, packed his clothes, got the car and drove to Burlington "where I got a coke."

He said he went to Coahoma where the car broke down. Then he said, he caught a bus to Big Spring, a ride to Odessa and successive rides to Pecos, El Paso and Los Angeles.

He got in touch with a sister in Los Angeles. When he went to her apartment in Los Angeles, police were waiting for him.

Hester said he did not know until he was taken to the police station in Los Angeles that Dr. Lord had died.

Hester lived for some years in the state orphanage at Corsicana. Dr. Lord's guardianship of him was made final in 1946.

Crack New Shanghai Police Ready for Action

These members of Shanghai's crack police constabulary hold up their Tommy guns for inspection. Outfitted with the best equipment and arms, the policemen were organized about a year ago and are prepared to deal with any emergency. With Communist armies advancing on the city, they may be pressed into action for defense or prevent the widespread looting and anarchy that

State Tries to Prove Sanity Of Defendant in Murder Case

The state today continued to call rebuttal witnesses in the trial of Richard W. McGee, charged with the July 7, 1948, slaying of R. L. Allston, Lubbock grocery executive, in an attempt to prove the defendant sane.

The state started its rebuttal yesterday afternoon when court reconvened following the defense resting of its case.

A rebuttal witness called by the state this morning stated that the defendant had been sane and insane.

The witness, Dr. W. E. Baugh, for 42 years health officer of Lubbock County, told Special Prosecutor Dupree that after he had made a complete study of records and testimony in the case so far offered, he was of the opinion that McGee was sane at the time of the shooting and was sane at this time.

"I believe McGee knew the difference between right and wrong and the nature and consequences of his act," Dr. Baugh said.

Upon cross-examination by Defense Counsel Col. E. A. Simpson, Dr. Baugh stated that "medically and psychiatrically speaking, McGee was insane at the time he shot and killed R. L. Allston."

Dr. Baugh tried to explain that "legally speaking" McGee is sane as construed under the laws of Texas. The defense objected on the grounds that Dr. Baugh was not qualified to speak in legal terms and recross-examined him to reiterate the fact that Dr. Baugh believed he was "medically insane."

Simpson read from the eminent authorities on mental diseases, Dr. Malloy and Dr. Gray. Upon questioning, Dr. Baugh admitted that he agreed in part with these doctors that McGee fell into the category of insanity explained in the texts; that he had shown many of the symptoms which would lead to a conclusion of insanity.

When state's attorneys continued their questioning of the witness, Dr. Baugh was to repeat his earlier answers that McGee knew "the difference between right and wrong and the nature and consequences of the crime."

The directly opposed answers could only be acceptable on the basis that one was made in the understanding of the legal definition and the other with the medical definition.

The defense objected and was sustained in any legal construction being played in the answers by the witness.

Dr. Baugh said every human being deviated from the normal at some time or another. In medical terms deviation is a form of insanity.

Simpson asked: "Then everyone of every race and color is insane?"

"Medically speaking that is correct," Dr. Baugh answered.

"Then there is no such thing as normal," Simpson asked.

"That is right," Dr. Baugh said.

"Then there can't be any norm to deviate from then, can there?"

"I guess not," Dr. Baugh answered.

A string of 26 rebuttal witnesses paraded to the stand yesterday under direct questioning by Special Prosecutor George Dupree and testified that McGee was sane in their opinion.

Under cross-examination by Simpson, Mrs. O. W. Allston, Pampa, sister-in-law of the slain man, said:

"If I were a man on the jury I probably would give him the electric chair."

Earlier, Simpson asked the dead man's brother-in-law, William O. Lamb, Lubbock, who had been called to the stand:

"You would like to see this jury give Richard McGee the electric chair, wouldn't you?"

"Yes sir, I would," Lynn replied from the stand.

District Attorney Lloyd Croslin objected to questioning along the line of punishment for the defendant. Judge Dan Blair sustained the objection.

Texas City Damage Case In Fourth Day

HOUSTON — (AP) — Addition of certain materials to ammonium nitrate increases the danger as a fire hazard, it was related in the Texas City damage suit trial.

The state trial to determine the United States government's liability for \$200,000,000 in damage suits filed since the Texas City disaster of April 16-17, 1947, enters its fourth day today.

Tuesday a witness testified that fertilizer grade ammonium nitrate involved in ship explosions at Brest, France, and at Texas City came from the same factories in the United States.

More than 50 were killed as the result of fire and explosions at Texas City, started when the freighter Grandcamp caught fire and exploded.

The SS Ocean Victory exploded at Brest on July 25, 1947. Forty-nine were killed.

A witness yesterday told Federal Judge T. M. Kennerly that fire leading to an explosion on the Ocean Victory started in a hold which had not been opened at Brest.

Another, J. N. Pearre, of the Joliet, Ill., arsenal, testified by deposition that the coating of ammonium nitrate grains with a substance containing petroleum, rosin and paraffin makes it more dangerous with regards fire.

He denied that he knew the introduction of these materials made it more explosive.

Pearre, an industrial engineer, also testified that in the manufacturing process concern was a felt about the danger of ammo-

State Tries to Prove Sanity Of Defendant in Murder Case

The state today continued to call rebuttal witnesses in the trial of Richard W. McGee, charged with the July 7, 1948, slaying of R. L. Allston, Lubbock grocery executive, in an attempt to prove the defendant sane.

The state started its rebuttal yesterday afternoon when court reconvened following the defense resting of its case.

A rebuttal witness called by the state this morning stated that the defendant had been sane and insane.

The witness, Dr. W. E. Baugh, for 42 years health officer of Lubbock County, told Special Prosecutor Dupree that after he had made a complete study of records and testimony in the case so far offered, he was of the opinion that McGee was sane at the time of the shooting and was sane at this time.

"I believe McGee knew the difference between right and wrong and the nature and consequences of his act," Dr. Baugh said.

Upon cross-examination by Defense Counsel Col. E. A. Simpson, Dr. Baugh stated that "medically and psychiatrically speaking, McGee was insane at the time he shot and killed R. L. Allston."

Dr. Baugh tried to explain that "legally speaking" McGee is sane as construed under the laws of Texas. The defense objected on the grounds that Dr. Baugh was not qualified to speak in legal terms and recross-examined him to reiterate the fact that Dr. Baugh believed he was "medically insane."

Simpson read from the eminent authorities on mental diseases, Dr. Malloy and Dr. Gray. Upon questioning, Dr. Baugh admitted that he agreed in part with these doctors that McGee fell into the category of insanity explained in the texts; that he had shown many of the symptoms which would lead to a conclusion of insanity.

When state's attorneys continued their questioning of the witness, Dr. Baugh was to repeat his earlier answers that McGee knew "the difference between right and wrong and the nature and consequences of the crime."

The directly opposed answers could only be acceptable on the basis that one was made in the understanding of the legal definition and the other with the medical definition.

The defense objected and was sustained in any legal construction being played in the answers by the witness.

Dr. Baugh said every human being deviated from the normal at some time or another. In medical terms deviation is a form of insanity.

Simpson asked: "Then everyone of every race and color is insane?"

"Medically speaking that is correct," Dr. Baugh answered.

"Then there is no such thing as normal," Simpson asked.

"That is right," Dr. Baugh said.

"Then there can't be any norm to deviate from then, can there?"

"I guess not," Dr. Baugh answered.

A string of 26 rebuttal witnesses paraded to the stand yesterday under direct questioning by Special Prosecutor George Dupree and testified that McGee was sane in their opinion.

Under cross-examination by Simpson, Mrs. O. W. Allston, Pampa, sister-in-law of the slain man, said:

"If I were a man on the jury I probably would give him the electric chair."

Earlier, Simpson asked the dead man's brother-in-law, William O. Lamb, Lubbock, who had been called to the stand:

"You would like to see this jury give Richard McGee the electric chair, wouldn't you?"

"Yes sir, I would," Lynn replied from the stand.

District Attorney Lloyd Croslin objected to questioning along the line of punishment for the defendant. Judge Dan Blair sustained the objection.

NEW

(Continued from Page 1)

continue to have first call in naming prospective appointees to fill jobs as federal judges, marshals, attorneys, postmasters and census takers.

This will leave out in the political cold, as far as major job patronage is concerned, groups formed in some Southern states before the election to sponsor Mr. Truman's candidacy when the regular Democratic leaders went off the reservation to back the Thurmond-Wright States' Rights ticket.

These groups are reported to have been successful in some instances in stopping the appointment of persons who had been urged for federal jobs in their states by members of the House and Senate and who had been cleared by the Democratic National Committee.

That apparently was one reason McGrath led a contingent of Democratic leaders to see Mr. Truman at the White House yesterday.

Out of the conference came an agreement that nobody who openly opposed Mr. Truman's selection — or who went around making nasty personal remarks about the President because of his civil rights program — will get a patronage job.

TEXAS CITY DAMAGE CASE

HOUSTON — (AP) — Addition of certain materials to ammonium nitrate increases the danger as a fire hazard, it was related in the Texas City damage suit trial.

The state trial to determine the United States government's liability for \$200,000,000 in damage suits filed since the Texas City disaster of April 16-17, 1947, enters its fourth day today.

Tuesday a witness testified that fertilizer grade ammonium nitrate involved in ship explosions at Brest, France, and at Texas City came from the same factories in the United States.

More than 50 were killed as the result of fire and explosions at Texas City, started when the freighter Grandcamp caught fire and exploded.

The SS Ocean Victory exploded at Brest on July 25, 1947. Forty-nine were killed.

A witness yesterday told Federal Judge T. M. Kennerly that fire leading to an explosion on the Ocean Victory started in a hold which had not been opened at Brest.

Another, J. N. Pearre, of the Joliet, Ill., arsenal, testified by deposition that the coating of ammonium nitrate grains with a substance containing petroleum, rosin and paraffin makes it more dangerous with regards fire.

He denied that he knew the introduction of these materials made it more explosive.

Pearre, an industrial engineer, also testified that in the manufacturing process concern was a felt about the danger of ammo-

PAPERS

(Continued from Page 1)

Coplon's "private papers."

Granville said this is the "exact language" of a statement found in Miss Coplon's purse:

"I have not been able (and don't think I will) to get the nitium nitrate becoming contaminated with what is known technically as carbonaceous materials and that, before Texas City, the deterioration of the paper bags in which the fertilizer was shipped presented a serious problem.

Army ordinance, he said, in carrying out the fertilizer program adopted the entire procedure fixed by the Tennessee Valley Authority for this product.

The several thousand plaintiffs in the 300 individual suits are contending the government was negligent in that it either knew or should have known the dangerous characteristics of the fertilizer and yet did not give proper warning to those who might come in contact with it.

top secret FBI report which described to Michael on Soviet and Communist intelligence activities in the U. S. . . when I saw the report for a minute, I breezed through it rapidly, remember very little. It was about 115 pages in length; summarized first Soviet "intelligence" activities, including Martens, Lora, Poynts, Altschuler, Silvermaster, et al. It had heading on Soviet UN delegation but that was all I remember. The rest of the report, I think was on Polish, Yugo, etc. activities. . . ."

Miss Coplon later told reporters "Michael" referred to the Archangel.

Palmer said the reference to Michael was all part of an "allegory" that was to go into a novel Miss Coplon planned to write.

Miss Coplon herself showed reporters this passage in the court Bible about the Archangel Michael in Chapter 12 of Revelations: "And there was war in Heaven; Michael and his angels fought against the dragons; and the dragons fought his angels."

Palmer, in a news conference at the time of Miss Coplon's arraignment here, said she was gathering material for a novel with a political background. She has denied guilt of any espionage activity.

Crack New Shanghai Police Ready for Action

These members of Shanghai's crack police constabulary hold up their Tommy guns for inspection. Outfitted with the best equipment and arms, the policemen were organized about a year ago and are prepared to deal with any emergency. With Communist armies advancing on the city, they may be pressed into action for defense or prevent the widespread looting and anarchy that

New Low-Slung Streamliner Hugs the Rails

The first train ever built in America based on the Spanish "Patentes Talgo" is now ready in Berwick, Pa., for testing and demonstration across the nation. Built by the American Car and Foundry Co., the revolutionary streamliner literally hugs the rails. The locomotive is two feet lower than a standard diesel-electric and coaches four feet lower than present-day equipment without loss of interior space. Floor level in the coaches is only 18 inches above the rails.

Polio Victim Takes to the Road

Fred Snite, Jr., Chicago's famed iron lung patient, tries out his new specially built bus which enables him to view the scenery as he travels. With him in Miami Beach, Fla., are left to right, his father, Fred Snite, Sr., his daughters Marie, Kitty and Pinky, and his wife. Formerly the polio victim, who winters in Florida every year, had to travel in a special railroad car.

He's Studying to Be a Romeo

Blueboy, a parakeet with a 150-word vocabulary, gets a taste of apple from his mistress and trainer, Mrs. Morely D. Jacob, of St. Louis, Mo. Mrs. Jacob thinks Blueboy, who likes to show off even in his sleep, is well enough prepared to learn a love poem next. Not only does he speak full sentences, but he lets loose low wolf whistles.

Trans-Atlantic Marketing

John Highmore, left, of Southampton, a waiter on the SS Coronica, and E. J. Barnes, also of Southampton, steward on the Queen Mary, stock up on food supplies in a New York supermarket. Now that the British government allows its seamen to have more American dollars while in port here, they're spending their shore leave shopping for food and clothes to take home to their families.

By DICK KLEINER

HOLLYWOOD STEADY, COLBERT'S BANGS, GO

By BOB THOMAS
HOLLYWOOD — (AP) — Another Hollywood landmark has bitten the dust, figuratively speaking. This time it's Claudette Colbert's bangs. She has abandoned them for her role as a Japanese prison camp inmate in "Three Came Back." It will be the first time in 17 years she has appeared without them on the screen.

The film town seemed to be getting more self-conscious. Of the 23 big-time pictures shooting here, three were about Hollywood.

Charlie Chaplin and Mary Pickford, who have lived the film business these many years with their stormy control of United Artists, almost sold out. But they reneged at the last mo-

ment and more lively years for UA are assured.

Another edict of full production ahead came out of reactivated Warner Brothers, and two horse operas were put into the works there. At least one star, Alexis Smith, was on suspension.

Some of Selznick studio's property was on the auction block this week, and David O. was soon to be off for Europe to see his potential bride, Jennifer Jones.

Having raised \$301,000 for its own needy, big-hearted Hollywood now pledged \$448,000 for Jewish relief.

One of the biggest stories of the month involved nothing scandalous, but the fact that a former child star (Shirley Temple) was now eligible to vote.

In Washington there were talks about getting a better deal for American films in England. The prospect brought a new wave of optimism about economic conditions in Hollywood. But despite a few days of sunshine, fog had set in, and many folks found it was still chilly standing in line for their unemployment checks.

In 23 years we have saved over \$100,000,000.00 for our clients

INVOKES NEW CONSTITUTION
BUENOS AIRES — (AP) — The Argentine government invoked its new constitution Monday to outlaw the communist-led Argentine slav union.

Platform-Eye View

A floor level only 18 inches above the rails brings passengers aboard a revolutionary streamliner down to the level of people standing on the station platform. Built by the American Car and Foundry Co. in Berwick, Pa., the new train is based on the Spanish "Patentes Talgo" and is now ready for testing and demonstration across the nation. The locomotive is two feet lower than a standard diesel-electric and coaches four feet lower than present-day equipment.

Morrow Talks With Truman

WASHINGTON — (AP) — Wright Morrow, Texas Democratic National Committee, talked with President Truman at the White House Monday.

Morrow told reporters he gave the President "a report on the Texas political situation." The Texan pronounced the Democratic party in good shape in Texas.

He would not discuss his differences with some members of the State Executive Committee who want him replaced as national committeeman.

"I haven't any controversy," he said. "I feel very happy about the situation in Texas and about the Democratic Party there."

Morrow said he brought to Washington a check for \$15,000 which he presented to the Democratic National Committee as profits from a Jefferson-Jackson dinner at Corpus Christi. He said plans are underway for a big Jefferson-Jackson barbecue at Lubbock May 6. A previous dinner at Austin raised \$40,000, he said.

Asked about efforts to oust him as national committeeman, he said he was elected in the same way as other committeemen for a four-year term.

He said he supported President Truman in the 1948 campaign as a member of the Finance Com-

From where I sit... by Joe Marsh

How We Licked The Parking Problem

For a while it looked like we'd have to put up parking meters. Folks working in town—including some of the store owners—were taking up all of the space along Main Street.

Farmers coming in to shop never found a place to park, and sometimes had to lug stuff a half mile or so. Some started to do their buying in other towns. Finally, store owners and farmers had a get-together—with the result that the empty field near the depot was fixed up for all-day parking.

Now farmers get their shopping done comfortably, and the merchants have a better place to park than they had before. Just look a little friendly co-operation to make everybody happy.

From where I sit, most differences can be ironed out by just talking things over—maybe with a cup of coffee or glass of beer—and seeing the other person's side of it. Next time you have a problem or a little difference to settle, why not try just that?

Joe Marsh

Members of the McMurtry Dancing School who will participate in the benefit show sponsored by the American Legion are pictured above. Left to right: Janice Isbell, Kay Jean Myers, Betty Wylie, Ina Jo Hawthorne, Marchita Hall, Sally Cobb, Barbara Fry, Romilda Noland, and Shirley Cotham.

**American Legion Auxiliary Sponsors Dance Studio
In Annual 'Stars of Tomorrow' Dance Recital Friday**

The American Legion Auxiliary will sponsor the McMurtry Studio of Dancing in its annual "Stars of Tomorrow" dance recital, at 8 p. m. Friday in the Senior High School Auditorium.

Featured on the program are the following numbers: "Tin Pan Parade," a song and dance by Carmelita Hogan; "The Doll on the Music Box," a dance by Judith Thomas, with a reading by Mrs. N. Dudley Steele; "Drum Sticks," a tap solo by Kay Jean Meyers; "Buttons and Bows," by Marilyn Steele; "The Snow Bird," Rogers, Marilyn Steele, Earnie an interpretative toe solo by Shirley Jean Cotham.

Numbers during the second part of the performance include: "Acrobatic Tricks and Stunts," by Jan Dyer; "Tennessee Saturday Night," a boogie couple by Wesley and Ietta Byers; "Hot Licks," a tap solo by Betty Wylie; "Dance Caprice," a toe solo by Romilda Noland; "Dance Orientale," by Ina Jo Hawthorne.

"That's My Baby," a tap solo, by Shirley Jean Cotham. Part three will feature: "Ball Variations" by Jan Dyer; "Rhumba Tap," by Barbara Frye; "Daffodils," by Sally Cobb; "Boogie Polyrhythms," by Janice Isbell; "Spanish Night," a piano selection by Wesley Byers, a puppets of Mrs. May Foreman, Carr; and "Sugar Foot," a tap solo by Marcheta Hall.

There will also be group dances, including "Rose and Blue Ballet," by Anita Guidry, Zeoporia Hall, Carmelita Hogan, Marica Ann Rogers, Marilyn Steele, Earnie Jean Storm, Sherilyn Sykes, and Jacquelyn Hoyler.

"A Tiny Tots Style Show" will be given by Zeoporia Hall, Lawrence McMurtry III, Anita Guidry, L. D. Steel, Maxine Grossman, Barbara Holt, Shirley Neal, Beryl Nash, Carma Lee Long, Judith Thomas, and Jimmie Storm. Mistress of ceremonies is Bonnie Glaxner.

pa since 1925. Mrs. L. C. McMurtry has sold her studio and is planning to leave Pampa. During the past 24 years Mrs. McMurtry has taught dancing to approximately 200 boys and girls in this community. She has assisted in many types of community programs and her leaving is viewed as a loss by her friends here.

**Wednesday Study
Club Is Guest
Of Mobeetie Club**

WHEELER — (Special) — Members of the Wednesday Study Club were guests of the Blue Bonnet Study Club of Mobeetie Saturday afternoon at the ranch home of Mrs. Grady Harris.

A book review of "Slender Huton of Canadiana" was given by Mrs. Preston Huton of Canadiana.

Those attending from Wheeler were: Mmes. R. D. Holt, Nelson Porter, Frank Wolford, Jimmie Mitchener, J. M. Porter and D. O. Beene.

There are about 250,000 cigarette vending machines now in operation in the United States.

**Gray HD Council
Outlines Plans
For Dress Review**

A report of the plans for the 4-H dress review to be held at the Palm Room, May 14, was given by Mrs. Emmitt Osborne at the Gray County Home Demonstration Council meeting at 2 p. m. Monday.

Home demonstration week will be May 1-7 and plans for the celebration were reported by Mrs. Dorothy Chase.

A training school on frozen foods will be held at 2 p. m. May 9, in the Home Demonstration office.

The clubs were reminded that the six months reports are to be filed by May 30, and all clubs must submit their suggestions to the chairman of the Yearbook Committee by May 12.

Mrs. Connor O'Neil and Mrs. Carl Smith gave a report on the district meeting of THDA held at Canyon recently.

Mrs. Mary Anne Duke, county agent, asked each club to select a club member and her husband to learn to operate the visual aid equipment.

Miss Doris Leggett, district agent, was introduced by the president, Mrs. H. B. Taylor, Jr., and gave a talk to the group. During the recreation period Mrs. Lowell Osborne showed slides of the 4-H girls dress review at the state meeting held in Dallas last fall.

The following committee chairmen reported: Mrs. O. A. Wagner, yearbook; Mrs. Lowell Osborne, recreation; Mr. Clifford Rutledge, 4-H; Mrs. Henry Urbanczyk, marketing; Mrs. Chas. Warminski, fair; Mrs. Ernest McFright, education and expansion; Mrs. O. A. Wagner, assistant reporter.

The following club presidents reported on activities of their respective clubs: Mrs. Chas. Warminski, Bell; Mrs. A. W. Griggs, Hopkins; Mrs. C. L. Cudney, Yerten; Mrs. Lowell Osborne for Mrs. Harold Osborne, Wayside; Mrs. Ray Robertson, Worthwhile; no report from Letors.

The first modern geography book, in English and written for schools, appeared in 1746. Its author was the British king's geographer.

**Glazier Couple
Celebrate 25th
Anniversary**

GLAZIER — (Special) — Mr. and Mrs. Jack Porter celebrated their 25th wedding anniversary Saturday with a steak dinner served al fresco style in the back yard of the Roy Carson Wilson home in Higgins.

Afterwards, the group went to a dance at Arnett, Okla.

Besides the guests of honor, others present were: Mr. and Mrs. Hurdle Smith, Mr. and Mrs. Clint Wright, Mr. and Mrs. Raymond Williams, Mr. and Mrs. Fred Frass, Mr. and Mrs. Doc Murphy, and Dec, Mr. and Mrs. P. D. Gross, Jr., Mr. and Mrs. W. A. Murphy of Lipscomb, Mr. and Mrs. Clyde Dewey and daughter, and Ray Wilson and Nelly Mae and daughters, Susie and Leona.

**Littlefield-Johnson
Vows Exchanged**

Miss Marion Littlefield, daughter of Mr. and Mrs. J. F. Littlefield of Springfield, Ark., became the bride of John L. B. Johnson, son of Mr. and Mrs. Earl Johnson of Groom, Tex., in a double ring ceremony performed by J. F. Crenshaw at 9 a. m. Sunday, April 17, at the Church of Christ.

The bride wore a powder blue dressmaker suit with navy accessories. Her corsage was of three miniature orchids backed by white net.

Mrs. Jack Stephens was the bride's only attendant. She was attired in a wine suit with navy accessories and wore a corsage of white split carnations and sweet peas. Jack Stephens was best man.

The bride is teaching in the Pampa public schools. The bridegroom is farming near Groom, Tex.

**McLean Music Club
Meets With Teacher**

McLEAN — (Special) — The Music Club for Junior high and high school students recently met in the studio of their instructor, Mrs. Willie Boyett with Floella Cubine, vice president, in charge.

Shirley Allison and Patricia Ferguson played six selections each. Others appearing on the program were: Dicky Sligar, Billy James Rainwater, Ann Cooper, Barbara Nelle Williams, Sue Glass, Darlene Shaddit, Barbara Beck, Norma Chapman, Floella Cubine, Betty Jean McClellan, Patsy and Peggy Tindall, Donna and June Stubblefield.

Frosted cakes were served by Mrs. W. R. Ferguson and Mrs. Clifford Allison to 18 members and 18 guests.

Honor roll members named are: Johnny Haymes, McClellan, Williams, Sligar, Chapman, Cubine, Ferguson, and Tindall girls.

At the close of 1947, about 30 percent of the United States work force had group insurance averaging \$2,000 apiece.

**Sub Debs Have
Club Photo Taken**

A photo of the Sub Deb Club was taken at the club meeting Tuesday at the home of Ann Sidwell. Moving pictures of the girls were taken by E. C. Sidwell.

Plans for the Senior Tea and Mother's Day Tea were discussed. The next meeting will be held at the home of Dorothy Dixon, 608 N. Gray.

OF COURSE IN OUR HOME WE HAVE ALL THE LATEST GADGETS, REGARDLESS OF COST— OF COURSE!

MY MOTHER HAS AN AUTOMATIC DISHWASHER— ALL SHE DOES IS PUT THE DISHES IN, PUSH A BUTTON AND THE MACHINE WASHES AND DRIES THEM!

MY MOTHER HAS A BETTER DISH-WASHER THAN THAT— IT GATHERS THE DISHES FROM THE TABLE, WASHES, DRIES THEM AND PUTS THEM IN THE CUPBOARD!

HEAVENS, WHAT KIND OF AWASHER IS IT?

LITTLE OLD ME!

Dukes Battle Oiler 9-3; At Clovis Tonight

WARREN'S WARMUP

QUESTION: Everyone knows that Lou Gehrig played the most consecutive games, but who holds the second longest string?

SPRING FOOTBALL: The interscholastic league appears to be pulling another "boner" by even considering the permitting of spring football practice again in the high schools in the state. The matter is now being voted upon by the coaches of the state high schools, after being prohibited the past year.

Most football coaches would probably vote for the spring football training period. Their salary comes from football, and the better the team that is turned out, the more wages the coach can ask for. But getting a boy out for spring football isn't being fair to the boy. The majority of boys get enough football during the football season and would much rather participate in the sports as their seasons roll around.

When spring comes, the boys want to play baseball, golf, tennis and participate in track. It's not fair to the boy to make him devote his time to football rather than the other sports. Perhaps a boy can develop far more skill in one of the spring sports that he would be forced to neglect due to spring football practice. A boy that is going to college can be expected to have spring football because he is more than likely there on a football scholarship, which, like a professional player, requires him to play the game, and he is duty-bound to play football when told to.

But the interscholastic high school athletic program isn't designed primarily to develop football talent. It is supposed to offer all of the students in the schools a chance to participate in all forms of competitive sports competition. If football practice is once again permitted in the spring, it will minimize all of the other spring activity because most football coaches will insist that the boys who are to be playing football next season be out for that spring football period, regardless if they desire to play and are needed on other spring athletic teams. One reason that baseball has been shoved so far to the rear in the springtime has been the spring football period. But now, with football out, baseball, for the first time, will be played right down to the state championship.

I say, give the boys a chance to play the sports in the proper seasons. Keep spring football off the calendar.

ANSWER: Gus Suhr, slugging first baseman with the Pittsburgh Pirates a decade ago, holds the second longest string of consecutive games participated in, 822.

Stephens Leads Boston to Win; Giants Beat Dodgers

American League
BOSTON — (AP) — For the second time this season Vern Stephens drove in five runs in a single game as he walked off the two mighty home runs to lead Boston's Red Sox to a 10-6 victory over the Philadelphia Athletics yesterday before 12,677 happy fans.

Stephens' first four-bagger was lowering smog which cleared away and smacked in leftfield and scored two mates ahead of him in the first inning.

Plate umpire Art Passarella was shaken in the fourth inning when he was knocked down as Don DiMaggio was tagged out at the plate while sliding.

Philadelphia Athletics pitcher Phil Nease was 2-1 with a 2.11 ERA. He pitched 7 1/3 innings, allowing 10 runs, 11 hits and 11 walks. He struck out 11 batters.

National League
NEW YORK — (AP) — Rookie outfielder Pete Milne's pinch-hit home run with the bases loaded in the seventh inning gave the New York Giants an 11-8 victory over the Brooklyn Dodgers yesterday and moved them back into the league lead.

Milne's blow-off relief pitcher Ezra (Pat) McClothlin, was a line drive that eluded centerfielder Duke Snider and rolled past him to the centerfield wall.

Brooklyn Athletics pitcher Phil Nease was 2-1 with a 2.11 ERA. He pitched 7 1/3 innings, allowing 10 runs, 11 hits and 11 walks. He struck out 11 batters.

Virgil Butler Third Southpaw to Stop Oilers This Season; Oilers Get 6 Hits

For the third time in this young season, and out of four losses, a lefthander held the magic wand over the Pampa Oilers bats. Last night the Oilers closed out their two-game series with the Albuquerque Dukes by losing 9-3. Tonight the Oilers are in Clovis for a two-game series, and will return home Saturday and Sunday to meet the Lubbock Hubbers.

Manager Hershel Martin, Les Mulcahy and Allan Maul led a 14-hit assault on pitcher Charles Bodine while Virgil Butler, Willye Albuquerque lefthander, was holding the Pampa bats under control.

Maul blasted a home run with Cliff McClain on base in the first inning to put the Dukes in front and there they stayed with never an uneasy moment following. Mulcahy knocked the ball out of the lot for another round-tripper in the fifth with a runner on base.

Martin tripled once and singled twice. The only man in the Albuquerque lineup who failed to get a hit was Babe Fuhrmann. And he walked twice.

The Duke's big inning was the fourth when Mulcahy's home run, Dave Steger's triple, singles by Martin, Butler and McClain and a base on balls produced five runs. A pair of singles, a walk and an infield grounder that turned into a double play were enough for another tally in the fifth. Martin's triple and Mulcahy's single were good for the ninth runner in the seventh round. Dave Teyema tripled to centerfield in the second inning and came home on a wild pitch in the first Pampa marker.

Butler showed signs of tiring in the last two innings and Martin had reserves warming up steadily, but they never were

Lubbock Protest Not Allowed

DALLAS — (AP) — A protest by the Lubbock Baseball Club was disallowed yesterday by Milton Price, president of the West Texas-New Mexico League.

Price said the protest was based solely on an umpire's judgment and could not be upheld. The Lubbock club had protested an interference ruling by Umpire Crain in a game with Albuquerque April 25. The play occurred in the second inning, with Albuquerque leading, 3-0.

Albuquerque won the game 11-3.

Army-Navy at Philly

PHILADELPHIA — (AP) — Mayor Bernard Samuel Wednesday announced that the 1949 Army-Navy football game will be played in Philadelphia's Municipal Stadium.

Injuries to Key Men Mar Baseball Games Yesterday

Associated Press Sports Writer

Injuries to Stan Rojek, Bob Elliott and Lou Bourdeau, all key men in the major league pen, overshadowed the scores in today's baseball news.

A pitched ball by Ken Johnson, fifth St. Louis pitcher, struck Rojek, Pittsburgh shortstop, near the left eye in the ninth inning last night at Sportsman's Park.

Early reports from the hospital indicated no fracture was found. The incident took most of the zing out of the Pirates' 7-1 victory over the Cardinals.

The Boston Braves' hopes of repeating as National League champs took a sharp drop when third baseman Elliott was hit on the knee and carried off the field. The big power man of the Boston attack was felled by a line drive off the bat of Puddin' Head Jones, of the Phillies. Later it developed that Elliott's injury was not considered serious.

Despite Elliott's accident, the Braves shut out the Phils, 2-0. Bourdeau was forced to leave the Cleveland-Chicago White Sox afternoon game when hit on the left elbow by pitcher Orval Grove. X-ray pictures showed the injury apparently was only a bruise.

Houston Game Televised in Ohio

DAYTON, O. — (AP) — A Houston, Tex., baseball game flashed across the television screens of several Dayton residents last night. Ernest Adams, chief engineer of Dayton's video station WHO-TV reported "fairly good" reception. He explained unusual atmospheric conditions resulted in reception of the distant program.

The WLEF-TV Houston impulses were trapped in the upper atmosphere and were reflected back to the earth," Adams said.

A number of Cincinnati television spectators also reported seeing the Houston baseball game on their screens.

Vets Spark Indians

CLEVELAND — (AP) — Home runs by Micky Vernon and Ken Keltner sparked the Cleveland Indians to an 11-3 victory over the Chicago White Sox yesterday. The Indians blasted five White Sox hurlers for six hits.

Tribe Manager Lou Boudreau was hit on the left elbow by a pitcher ball in the seventh and retired from the game.

Spahn Blanks Phillies

PHILADELPHIA — (AP) — Warren Spahn of the Boston Braves gained his first victory of the season last night as he blanked the Philadelphia Phillies with three hits for a 2-0 decision. The Braves bunched three of their six hits off Robin Roberts for all of their runs in the second inning.

Bob Elliott was forced out of the game in the second inning when he was hit below the left kneecap by a line drive off the bat of Willie Jones.

Boston Athletics pitcher Phil Nease was 2-1 with a 2.11 ERA. He pitched 7 1/3 innings, allowing 10 runs, 11 hits and 11 walks. He struck out 11 batters.

Cubs Batter Cincy

CHICAGO — (AP) — Johnny Vander Meer was battered off the mound with a six-run uprising by the Chicago Cubs yesterday and they coasted in from the dugout for a 6-2 victory over the Cincinnati Reds before a Ladies' Day crowd of 23,220.

Nats Rally to Win

WASHINGTON — (AP) — The Washington Senators rallied for three runs with two out in the ninth inning, then scored the winning run in the tenth to defeat the New York Yankees, 4-3, here last night. The victory snapped a seven-game losing streak for Washington and also broke a 20-inning scoreless stretch.

Browns Beat Hal

DETROIT — (AP) — Righthander Karl Drews bested Hal Newhouser in a 12-inning pitching duel yesterday as the St. Louis Browns beat the Detroit Tigers, 4 to 3. The victory snapped the Browns' seven game losing streak.

Dickson Beats Cards

ST. LOUIS — (AP) — The Pittsburgh Pirates pushed in four runs in the first inning, then went on for a 7-1 victory over the St. Louis Cardinals last night. Murry Dickson hurled the Pirate victory as the club moved into a first place tie with the New York Giants in the National League.

Buffs Sell Fielder

HOUSTON — (AP) — Eddie Knoblauch, veteran leftfielder, was sold by the Houston Buffs Wednesday to the Shreveport Sports.

Sokol VS. Sokol

PRAGUE — (AP) — Along with other reforms in Czechoslovakia, old names of football teams have been changed.

Some are the capitalists who used to support the soccer clubs and write checks to cover deficits at the end of the season.

Now all sports activities are gathered under the control of the government organization, Sokol, and every sports club has Sokol in its name.

Cerdan Defends Title

NEW YORK — (AP) — The Tournament of Champions, Inc., announced that world middleweight champion Marcel Cerdan definitely will defend his title in the Polo Grounds June 21 against Steve Belisio, Jake Lamotta or Rocky Graziano.

Harvesters Play Borger Tomorrow

The Pampa Harvesters are scheduled to play the Borger Bulldogs in Borger tomorrow afternoon, weather permitting. The Harvesters, who have lost three straight District 1-A-A baseball games, must win in order to retain a chance for the title.

Borger beat the Harvesters a week ago, sending them home with only one hit in the seven-inning tilt.

Organize New Semi-Pro Club

Pampa may soon be represented by a semi-pro baseball team. Attempts are being made to organize a team to play independent ball. The first meeting was scheduled for last night, but due to the bad weather it was postponed and will be held at 6 o'clock tonight, in the first floor of the County Courthouse.

The plans call for playing independent games during the week in the surrounding towns that have light. If a ballpark is made available, the team will play home Sunday afternoons.

Already there are many fellows who have indicated interest in the team, most of whom played some professional ball at one time or another. Last season many of the fellows played with Mott in the Red River Valley League, but now hope to organize their own team.

Anyone who would be interested in playing is urged to attend the meeting tonight.

Rojek Injuries Not Critical

ST. LOUIS — (AP) — A pitched ball struck Pittsburgh Pirate shortstop Stan Rojek on the left side of his face last night.

Dr. Robert Hyland, St. Louis surgeon, termed the injury serious but not critical.

A ball, pitched by St. Louis Cardinal hurler Ken Johnson, hit Rojek just to the left of his left eye in the ninth inning of the Pirates-Cardinal game.

Rojek fell, then got up and started to the Pirate dugout. He walked a short distance and then collapsed just as his teammates reached him.

He appeared from a distance to be unconscious but teammates said he was conscious but dazed the entire time.

ATKINSON STARS IN N. Y.
NEW YORK — (AP) — Of the seven racing meetings in New York state during 1948, Jockey Ted Atkinson was the leading rider at five and tied for honors during another. The Slasher rode 188 winners and his mounts earned \$1,164,412. Eddie Arcore, four-time Kentucky Derby winner, rode 108 New York winners.

The estimated number of juke boxes operating in the United States now is 275,000.

Deloris Hawthorne Is All-Events Bowling Champ

The annual Women's City Bowling Tournament was held last weekend at the Pampa Bowl with Deloris Hawthorne walking off with the all-events trophy, with a total of 1,457 pins in scratch play.

Individual singles winner was Helen Mohon, who rolled games of 180, 157, 168, plus a 96-pin handicap, for a total series of 601. Second place went to Ina Petrie, who rolled 188, 167, 161, plus 72 handicap, for a 588 series. In third place was Florence Mounce with a 585 series on games of 148, 148, 145 and 144 handicap.

The doubles championship was won by Veta Carson and Elaine Riddle. Riddle rolled a 598 series and Carson a 561, for a total of 1,157. Second place was won by the team of Marcella Dickerson and Oak Allee Whittle. Dickerson rolled a 553, Whittle a 564, for a total of 1,117. In third place was the duo of Alice McConnell and Ina Petrie. McConnell had 558, Petrie 553, for a total of 1,111.

Reeves Olds won the team championship, with a total of 2,297 pins. Team members and their scores were: Jackie Massey, 430; Ethel Bryan, 363; Beverly Candler, 368; Mazie Howell, 565; Jean Duenkel, 442. The team also had a 120-pin handicap. Second place went to the Blackburn-Shaw-Sims team of Betty Brake, Elaine Riddle, Lili Baxter, Veta Carson and Deloris Hawthorne, who rolled a 2,281 team total. The Patrick's team took third, with a 2,287 total. Joyce Oswalt, Anne Neel, Oak Allee Whittle, Della McGonigal and Deloris Hawthorne are members of the team. Fourth place went to Myrtle Rittenhouse, Joyce Oswalt, Orpha Mitchell, Margaret Wells and Sue McFall, who rolled 2,228.

The team, doubles and singles were all handicap events. Many prizes were donated for the tournament by the following merchants: Parker's Blossom Shop, LaNora Theater, Furr Food, Montgomery Ward, Sparks' Cleaners, Price Greenhouse, Vantine's White Goods, Super Market, M. E. Moses, Ideal Food Store, Super Dog, Dr. Pepper, Bert A. Howell and Co., Piggy Wiggy, Pampa Bowl, John Austin, R. C. Anthony, Levine's, City Drug, Franklin's, J. C. Penney Co., Harvester Drug, Mitchell's Grocery, Modern Beauty Shop, Leder's Jewelry, Behrman's, Orchid Beauty Shop, Zale Jewelry, Smith Studio, Berry's Drug, Patrick's, Bentley's, Perkins Drug, Pampa Furniture and Thompson Hardware.

New Champions Slated at Relays

DES MOINES — (AP) — An entire new set of champions will parade to the victory stand in the university section of the Drake Relays.

Only the speedy Texas A&M mile team will be back to defend a university relays title tomorrow and Saturday. And the Aggies may be dethroned.

The University of Texas, its squad riddled by injuries, isn't able to try for repeat championships in the 440, 800, the distance medley and the four-mile relays.

The Aggies won last year in 3:15.2 and have done 3:17.1 this year. But Missouri won the mile at the Kansas Games in 3:16.5.

Byrl Thompson, Minnesota Sophomore, and George Kadera of Texas A&M are rated top contenders in the distance. Thompson has a mark of 169 feet, 2 5/8 inches and Kadera has done 169-2.

The superstition that finding a horseshoe and nailing it over the door brings good luck appears to be merely a modification of a belief in early times when horseshoes were rare and were believed to have a protective charm.

One at a Time

Phil Rizzuto throws the ball dangerously close to Eddie Joost's head as the Athletics' shortstop slides into Little Scooter, arms outstretched, successfully breaking up a double play at Yankee Stadium. The Philadelphia shortstop is forced by Elmer Valo, Umpire. Red Jones calls him out. The A's won, 3-2.

Sain and Newhouser Differ On How to Get in Shape

By JOE REICHLER
AP Newsfeatures

NEW YORK — Johnny Sain, curve ball artist of the Boston Braves, and Hal Newhouser, southpaw ace of the Detroit Tigers, have completely different ideas on how to prepare themselves for the opening day of the season.

Sain believes that a pitcher should concentrate on getting his arm in shape, and not worry too much about his legs. Consequently he is not a firm believer in running as a form of exercise.

"The arm is the most important part of the body of a pitcher," he says. "The main thing is to get that in shape. The best way to get the arm in shape is to pitch. If you will do enough of that, the legs will take care of themselves."

Newhouser, a student of the art of conditioning, scoffs at Sain's theory. He goes along with most hurlers who believe that the first duty of a pitcher is get the legs in shape.

"You must get yourself in condition from the ground up," he says. "By that I mean, first get the legs in shape, then the stomach, wind and finally the arm. I don't care how strong your arm is, try and pitch a full nine-inning game and see how rubbery your legs get if they're not in perfect condition."

"Your legs must be strong in any sport. A slight twist or wrench of the leg can cause a sprain in the back or arm. I golf for almost a month just to get my legs in shape. I believe in lots of running. Get your legs in shape and the arm will take care of itself."

So here are two contrasting ideas on how to get in condition and who is there to say which is more correct? Sain won 24 games last year, pitching 28 complete games. It marked the third straight year he gained 20 or more triumphs.

Newhouser was no slouch either. He captured 21 games, the fourth time in the last five years that he has topped 20.

Newhouser is 27, Sain 30. Sain broke into organized baseball in 1927, two years before Hal took up the game as a career. Newhouser, however, reached the big leagues after one season in the minors, while Sain knocked around five years before he got his chance with the Braves.

Three years in the service have kept Sain's victory total down to 69 as compared to 152 for Newhouser in nine years of pitching.

Tattooing was once common among primitive peoples in various parts of the world.

Who Will Polly Beat in Finals?

NEW ORLEANS — (AP) — Who will Polly Riley beat in the finals?

That's what spectators at the Women's Southern Golf Association Tournament are asking.

The Fort Worth, Tex., golfer hasn't gotten into the finals yet, but the general opinion is she'll make it without too much trouble.

Margaret Gunther, last year's runnerup from Memphis, has the inside track among most of the fans to play, Miss Riley again this year.

Some of the pros watching the tournament think that Dorothy Kirby will make the finals.

Miss Riley today meets Betty MacKinnon of Mt. Pleasant, Tex., who qualified with an 80, three strokes off Miss Riley's medal 77.

Assault on Way To Comeback

KINGSVILLE (AP) — Assault, winner of turfdom's triple crown in 1946, is on his way to Belmont Park on Long Island to make his bid for a comeback, the King Ranch announced today.

The Texas comet and 15 other King Ranch racemores left by train last night and will arrive at Belmont Park Friday.

Trainer William Egan said Assault is in good condition and added that he expected the six-year-old to establish his fitness for bigtime competition soon.

In 1946, Assault, son of Bold Venture, won the Kentucky Derby, the Preakness and the Belmont. Later he was temporarily retired to the ranch stable here because of lameness.

Max Hirsch, King Ranch trainer, will take charge of the horses when they arrive at Belmont.

EAT PLENTY AND TAKE OFF UGLY FAT

When you buy Barconate, you buy a preparation for taking off weight. You do not say any more, "I need a diet" to fortify you against weakness while on a starvation diet. You need never know a hungry moment while taking this preparation. Barconate is the original grapefruit juice recipe for weight reduction.

Just go to your drugist and ask for four ounces of liquid Barconate. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. Then take just two tablespoons twice a day. That's all there is to it.

If the very first bottle doesn't show you the simple, easy way to take off ugly fat, return the empty bottle for your money back.

Lost 56 pounds

Here is what Mrs. L. J. Bryant, P. O. Box 44, Whitehouse, Texas, wrote us: "I want to tell you what Barconate has done for me. I weighed 160 pounds when I started taking it. I now weigh 112. I have taken my dress size down from size 42 to 44 and never felt better in my life and everybody tells me how much nicer I look than I did."

"I am still taking Barconate as I would not get my weight down to 105 or 110 pounds."

Pitchers' Bats Win TL Games

By WILBUR MARTIN
Associated Press Staff

A couple of pitchers stood out in the Texas League last night in the role of batters.

Pinchhitting pitcher Roy Sanner doubled home two runs to give Dallas a 4-3 decision over Tulsa and pitcher Gale Pringle broke San Antonio's seven-game winning streak with a single that gave Beaumont a 1-0 win over the Missions.

San Antonio had stretched its string to seven by downing the Exporters, 6-4, in the first game of the twin bill. In the nightcap, Pringle went all the way, gave up only eight hits and in the tenth inning singled Harold Daniels home with the only run of the game.

Shreveport won again last night, defeating Houston, 5-2.

Fort Worth and Oklahoma City were rained out.

The same teams meet again tonight, with Fort Worth and Oklahoma City playing a doubleheader.

Sanner's double in the eighth gave Dallas its 13th victory in 14 starts.

Tulsa took a two-run lead in the first inning and the Oilers led, 3-2, going into the eighth. That's the inning the pinchhitting pitcher came through.

Charlie Grant's two-run homer and Don Lenhardt's three-run circuit clout paced San Antonio's victory in the first game of its twin bill.

Three unearned runs in the first inning gave Shreveport a lead it held all the way.

Longhorn League Gets Underway

By The Associated Press

The free-hitting Class D Longhorn League kicked off its third year of operation last night. Big Spring, Odessa, Roswell and San Angelo won opening games.

A crowd of about 4000 watched big Bob Cruce, who tied baseball's home run record last year, spark a four-run rally in the seventh inning to give the New Mexico town a 5-4 win over Midland.

Johnny Baker held Ballinger to four hits as San Angelo took a 6-2 win from the Cats.

Big Spring and Odessa played rain-shortened games. Big Spring beat Vernon, 6-0, in five innings. Odessa downed Sweetwater 6-2 in the same time.

Don't Worry About the Showing of Your Team

By WHITNEY MARTIN
NEW YORK — It doesn't do much good to call attention to the position of the teams in the major league races right now.

By the time you take an afternoon nap a team might have dropped from first place to fourth or come up from the cellar to the first division.

The placing of the teams at this stage throws little light on the final outcome.

The Chicago White Sox were in second place a couple of days ago but we have an idea you'll have to look fast if you want to see them even as high as the first division again.

At the same time the New York Yankees and the New York Giants were leading their respective leagues. We aren't convinced the clubs are that good.

The Giants in the past have shown a lot of early foot, and then have broken as the race settled down.

All spring the theory was that if the Giants could come up with even fair pitching, they would be a team to beat, and when their pitchers went the route in four of the first six games the fans bubbled with glee.

The mound showing was impressive but we recall the situation had much in common with that of last year, when the club also was away galloping.

After the impressive start the Giants just couldn't stand the pace.

The Yankees as of last Monday had lost only one game, but we saw them in a couple of their victories and couldn't get over the impression they were winning not because they were good but because the opposition on those occasions wasn't so good.

Of course, a victory now counts just as much as one in September. There's nothing like having a cushion to fall back on when the going gets tough. Many a race horse has grabbed a fat lead with an early sprint and gone on to win despite the closing rush of the more durable rivals.

Softball Meeting Scheduled for Monday

All managers, or a representative of teams that are entered in the Industrial Softball League this season must be present at a meeting to be held May 2 in the City Court Room. The roster of the team must be ready and completed, or the team will not be allowed to enter the league.

Play will start soon after the rosters are in and the schedule has been completed.

Marshall Heads East Texas Baseball Loop

By The Associated Press

The Marshall Browns are at the top of the standings in the East Texas Baseball League today after kicking the Gladewater Bears 4-2 last night.

The Tyler Trojans slipped from the top by losing to the Henderson Oilers 7-4. Longview moved up from fifth to a tie with Bryan and Tyler for second place by beating the Paris Panthers 5-2. And Bryan knocked Kilgore from second to third place with a 5-1 lacing.

Marshall's Merton Merkle scattered nine Gladewater hits to hurt the Browns to victory over the Bears.

Michigan State's 1948 football team ranked fourth in the nation in total offense with an average of 402.7 yards per game.

Students Win in Journalism Meet

The combined scores of Seniors John Allen and Nanene Campbell brought Pampa High School first place rating in the journalism division at the regional AA1 interscholastic contest at Lubbock.

The Pampa team received 430 points, the Childress team 308 points and the Amarillo team, 299 points. Allen placed second for the individual scoring and will represent Pampa High at the state interscholastic contest May 5.

Marianna Johnson of Amarillo was judged first place winner. Mary Lou Watts, Childress, third, and Nanene, fourth.

The journalism team contest was divided into five topics. Nanene received first place in copy-reading, second in headline writing and fourth in editorial writing. John got first place rating in feature writing, third in copy-reading, third in editorial writing and fourth in news writing.

At the same time Patty Bolin, Senior, was awarded third in the ready writing contest. She wrote on "Harris." Other literary entries from Pampa High included Catherine McNamara and Ervina McDowell, typing; and Mike Ellis, number sense.

ROGER THE LODGER

By Elizabeth R. Roberts

THE STORY: Roger has returned to live with the Roberts after winning a scholarship to college. He is a trouble maker and a prankster. He is a trouble maker and a prankster. He is a trouble maker and a prankster.

BY THE TIME I told Rob the story next morning, I could also add that the radiator was bent in a perfect V for Victory, that both headlights were gone, both front fenders smashed, and that the cylinder head was probably cracked. It would take six months, if we were lucky, to get the necessary parts to repair the damage.

"Why, you—your crazy galoot, you!" Rob exploded at Roger. "You—you big palooka, you." I was astonished at the moderation with which he dealt with Roger. For a moment I thought the shock had been too much for him.

"Have you insurance?" Roger asked in his voice of sweet reasonableness.

"Insurance?" Rob bellowed. "Why, you fool, do you think I'd ask an insurance company to stand a loss like this? I'd rather hold me up with a gun. I'll tell you I'll pay half and I'll pay half. That's who'll pay for it. Maybe that'll teach you something about automobiles. And if I teach me not to be such a damned idiot as ever to let you handle a car of mine again. (It didn't) Insurance!" he spat out.

Robbie got the idea that maybe we didn't need Roger to make our life complete. "Get rid of him," he said next morning. "Tell him to move. We don't want him."

"But the OPA doesn't operate that way."

"The OPA? Now what have they got to do with it?"

"The OPA won't let you make a tenant move unless he's guilty of moral turpitude, doesn't pay his rent, or you're getting entirely out of business."

"That's it!" Rob exclaimed. "We're having a fire sale. We're going outta business. Tell him I won't say Roger listened at keyholes, but I will say that every-

"MUSIC MAN"

Mars Looks Down at Evil On This Earth

By HAL BOYLE
NEW YORK — (AP) — In a vast mansion on Mars the president of that planet sat listening to the music of the spheres—the melody made by the stars in their courses.

But into the universal symphony came a jarring sound.

"Again that discordant note!" he exclaimed. "This time I'm going to do something about it. It's been ruining my concerts for the last 10,000 years."

So he called his wise men together. They reported:

"Sir, the jarring noise comes from an obscure planet known on Earth, our neighbor in this constellation."

"The president had his leading stellar explorer, Rado, brought to him.

"Rado," said the vexed chief-titan. "Trot down to Earth and see why that flyspeck in the sky is out of tune."

Exactly a year and a day later Rado returned to Mars.

"Well, what is the Earth like?" asked the president.

"It is a beautiful globe, washed by soft seas," said Rado. "It is capped at both ends by mountains and wide fields covered with a cool white substance known as snow. And between the caps are green fields and towering cities full of living things."

"Why is it out of tune then?" said the president crossly.

"I think it is the people."

"What, in the name of the milky way, are people?"

"There are two forms of life that move about," said the explorer. "One kind is people. The other kind is animals. The people have enslaved some animals and driven the rest into the wilderness."

"How savage!" cried the president. "That explains the discordant note."

"No sir," said Rado. "There is more to it than that. After enslaving the animals, the different peoples began enslaving each other. And they destroy themselves in great disastrous wars. The wars they send up ruin the music of the stars."

"What do these repulsive creatures that call themselves people look like?"

Rado reached into his space-

Officer Candidate School Scheduled

The next Air Force Officer Candidate School will begin July 7 at Lackland Air Force Base, San Antonio, M-Sgt. Davis A. Brown, in charge of the Pampa Army recruiting office, said today.

The school is open to both men and women applicants, Brown said. The women are candidates for commissions in the WAF. Successful applicants receive six months of thorough training at the Air Force school and upon graduation receive reserve commissions as second lieutenants. They then are assigned to three years' active duty in which they are given the opportunity to qualify for a regular commission.

Further information may be obtained from the local recruiting office in the basement of the Postoffice.

Both gold and iron rings were worn in early times by the Persians and Hindus.
