ly will ask an unwilling Con-gress to extend the peacetime draft for three more years. It was learned that Secretary of Defense Johnson and Secretary of State Acheson will urge the extension at the next session as a necessary part of the all-out defense against communism. The present act, passed by reluctant Congress in 1948, i due to expire June 24.

Johnson's request to the Senate and House merely asked a threeyear extension of the draft act as t stands now.

Since the present act is con-siderably less than the administration originally asked, this appeared to be a concession to a strong Congressional feeling that the need for the draft no longer exists.
