

Last School Bill Before Legislature

AUSTIN—(AP)—The final version of the one remaining Gilmer-Aikin school reform bill was laid before the Legislature today.

The House-Senate Conference Committee's rewrite of the minimum foundation measure (S.B. 116) by Senator Otis Lock of Lufkin will not be debated until tomorrow. Chairman Jim Taylor of the Conference Committee said it wanted senators and representatives to study it 24 hours before it is called up for final action.

Taylor said the final report includes all the vital House amendments and makes no material change in the bill as originally adopted. No change is made in the \$2,400 minimum teacher salary provision.

Revisions in the transportation aid section were designed to help sparsely settled areas financially, Taylor said.

The Legislature has completed action on Senate Bills, 115, by Taylor, and 117, by Senator A. M. Aikin, Jr., of Paris, the other two measures putting the revolutionary Gilmer-Aikin public school plan into effect.

Under the minimum foundation bill as finally approved by the Conference Committee, the new set-up would be administered by the state auditor until the new commissioner of education is appointed and qualified. Election of the new state Board of Education would not come until next fall, and an interim administrator was needed to carry on.

The 51st Legislature today dragged into its 20th week, apparently headed toward a new tax bill.

Final Senate passage of the Lamar College and soil conservation money bills was a good bet this week. Pending appropriations and money bills already approved add up to around 46 million dollars more than available revenue.

With many legislative leaders agreeing that it will be impossible for conference committees to slice that much from pending bills to balance the budget, it began to appear more certain that added taxation would be the answer.

A House subcommittee may report on a tax bill that has been under study for several weeks. Final action on the remaining Gilmer-Aikin public school bill was also in prospect for tomorrow.

This could touch off new heated debate in both the House and Senate, but ultimate approval of the measure is regarded as a certainty.

For this late in the session, there was a fairly heavy schedule of committee work, in addition to conference committee tasks.

Tight at 7:30 the House Committee on Highways and Roads takes up a Senate bill involving hail, wind and tornado insurance.

The Senate has approved a bill which would permit insurance companies to write full coverage on the three. At present a \$100 deductible clause is mandatory.

Another insurance bill which would require county mutual companies to maintain a \$10,000 surplus will be heard before the House Insurance Committee Tuesday at 9 a.m. Its author is Senator William T. Moore of Bryan.

AMERICAN FLAGS WAVE OVER GRAVES

By The Associated Press

Little American flags waved above the graves of the nation's war dead today—a Memorial Day dedicated to their memory and to the hope that peace may reign supreme.

In proclaiming the day of honor for "our heroic dead," President Truman said this is a fitting occasion when—

"The people of our nation... may appeal to almighty God for help in turning the steps of the world to the paths of permanent peace."

By the Presidential proclamation, the hour beginning at 9 a.m. CST was set aside as a period for uniting in prayer.

At home and overseas, the graves of soldiers, sailors, Marines, airmen and Coast Guardsmen were each assigned an American flag. Wreaths and other tributes of flowers were in addition.

"The count can be marked 'paid in full,'" said Secretary of Defense Louis Johnson, "only" (See AMERICAN, Page 2)

Julian, Aged Treasurer of U.S., Killed

WASHINGTON—(AP)—William A. Julian, aged treasurer of the United States, was killed yesterday morning in an automobile accident en route to a country club to play a round of golf.

Julian had served in his treasury post for 18 years and during that time had issued \$87,000,000 worth of currency. His signature appears on U. S. paper money, opposite that of the secretary of the Treasury.

A quiet man, he was seen little in formal society. Various records gave his age at from 78 to 87; friends said the latter was probably more nearly correct. Julian himself never discussed his age.

Death came in a head-on collision with another car on a county road in nearby Bethesda, Md. Two men in the other car were only slightly hurt; no charges were filed in the accident.

Julian was appointed to the job of treasurer by Franklin D. Roosevelt in 1933. The position is held at the pleasure of the president with no fixed expiration date.

The treasurer has the job of receiving and disbursing public money, issuing and redeeming paper currency and coins.

Julian was born on a Kentucky farm and rose to become a manufacturer and president of the Queen City Trust Company of Cincinnati.

Mrs. Julian died last March 26. The couple had no children.

Funeral services were set for 1:30 p.m. EST Wednesday at a Washington funeral home. The burial will be private.

Ford Strike Is Settled

DETROIT—(AP)—About 1,200 Ford maintenance workers returned to their jobs today at the conclusion of the CIO United Auto Workers 24-day strike.

But the Ford Motor Co. estimated it may be two weeks before full production is resumed in all its plants and 106,000 employees are back on the job.

An agreement leaving the main issue in the speed-up dispute to arbitration was reached early Sunday after days of steady negotiations. About 65,000 UAW members employed in the truck Rouge and Lincoln plants ratified it by big margins at meetings later in the day.

Maloney Rites Tomorrow at 10

Funeral services for Billy Frank Maloney, 6, will be held from the Harrah Methodist Church tomorrow morning.

Billy, son of Mr. and Mrs. Willard W. Maloney, 821 Brunow, was born Oct. 11, 1942, in Memphis, Tex., and has lived in Pampa since he was two years old. He died at 3:50 a.m. Sunday in a local hospital. He became ill last Wednesday.

In addition to his parents, he is survived by one sister, Miss Jewell; one brother, Willard Ray; and by his grandparents, Mrs. Janis Maloney and Mrs. C. C. Palmer, all of Pampa.

Services will be held at 10 a.m. tomorrow with the Rev. E. C. Armstrong, pastor, officiating. Burial, under the direction of the Duenkel-Carmichael Funeral Home, will be in Fairview Cemetery.

Pallbearers will be: Billy James Hargis, Freddy Leon Harris, Wayne Reeves and Wilburn Stevens.

New Chinese Premier Named

CANTON, China—(AP)—Ku Cheng was nominated as National Premier today to succeed Cen Ho Ying-Chin, who has been trying to resign for some time.

The nomination by the Central Political Council of the Kuomintang, the government party, is to be presented to the Legislative Yuan Tuesday, with approval expected. Ku is former president of Judicial Yuan and a veteran legislator.

Two American Engineers Killed in Bolivian Strike Violence

LA PAZ, Bolivia—(AP)—The Bolivian Interior Ministry announced today that two American engineers were killed and five other Americans were wounded in strike violence at the Patino Tin Mines in Catavi. Still another American is reported missing.

The ministry's communique said 550 strikers have been arrested. It listed seven persons killed as having been killed. Other unconfirmed accounts said about 20 strikers also had lost their lives. Casualties among the strikers were difficult to determine because the bodies were removed.

Rioting strikers hurled dynamite bombs at troops sent to the scene.

D. C. Derringer, general manager of the mines, identified the dead Americans as T. H. O'Connor of Pasadena, Calif., and Albert Krefling of Seattle, Wash. He said in a telephone interview that the missing American is H. T. Peterson of Biwabik, Minn.

Fifteen persons, including seven American engineers, were seized by the rioting strikers Saturday, Derringer said. The workers took them to union headquarters, where they were reported beaten.

O'Connor was said to have been shot in the neck while at the union's headquarters. Krefling reportedly died of wounds caused when a striker threw a stick of dynamite at the hostages. (An official report reaching the State Department in Washington said Wilbur J. Cook of Reno, Nev., and Patrick Green of Wenatchee, Wash., were "serious" (See FIVE, Page 3)

Miami Trial Is Continued Until Aug. 29

MIAMI—(Special)—The rape and sodomy trial of L. C. McMinn, 31, and Eugene Baker, 44, both of Canadian, scheduled to start today in 51st District Court in Miami, has been continued until Aug. 29.

The motion for continuance by Curtis Douglass of Pampa, defense attorney, was granted by Judge Lewis M. Goodrich when Douglass said one witness for the defense was out of the state.

Douglass said a Cecil Clements, who would appear for the defense, was out of the state and would not be available until about the second week in June.

A previous motion for severance by Douglass on behalf of Baker was also sustained by the court. This means that two separate trials will be held and only McMinn would have gone on trial today.

Judge Goodrich overruled a motion to quash the sodomy indictments. The motion was filed on grounds that "the indictments did not allege penetration for the purpose of carnal copulation."

The motion by Douglass was overruled only after considerable argument by Counsel W. L. McMinn, special prosecutor, and District Attorney Tom Braly. The motion for continuance, too, was sustained only after long argument. (See MIAMI, Page 2)

New Record Set in '500' Auto Race

INDIANAPOLIS—(AP)—The team of Billy Holland and Mauri Rose today was engaged in a record breaking duel of speed at the half way mark of the 500 Mile Automobile Race.

Holland, of Reading, Pa., led at 250 miles with Rose, South Bend, Ind., just 28 1/2 seconds behind him. Jole Chitwood, Reading, Pa., was third with George Connor, Los Angeles, also a teammate of the pace setter, fourth.

Holland's time was 2:43:18, record for the distance. His average was 120.918 miles an hour.

Rose and Holland finished one-two in the 1948 race.

Duke Nalon, Sherman Oaks, Calif., cracked into the north wall after legging for more than 80 miles in his Novi Mobil Special. Rex Mays, Glendale, Calif., moved in front but stopped with magneto trouble. Then it was Lee Wallard, Reading, Pa., in the lead, only to be eliminated by a fuel line leak.

Holland went ahead at 180 miles and ran as if he intended to stay there.

Nalon's crackup left him with painful burns on the hands and face, but seemingly not critically hurt. It was blamed on loss of a wheel.

There was the usual rash of accidents early in the race as white traffic was heavy. Charles Vah Acker, South Bend, Ind., escaped with scratches when his car crashed on the northwest turn.

George Lynch, Detroit, got a broken axle out of a spill on the southeast turn.

Behind the Blue Crown boys (See NEW RECORD, Page 2)

Summer High School Opens

Registration for Pampa High's summer school opened at 8:30 a.m. today and the classes will start at 7:30 a.m. tomorrow.

Frank Wilson, principal, said this morning.

Students who wish to attend summer school still may register tomorrow, he added.

History, English and mathematics will be taught by Miss Madge Ruak, Miss Margaret Jones and Mrs. Lois Turner, respectively. Students may take one or two or all three of the half-credit courses.

Work done in summer school is on the same credit basis as the long sessions. The students are expected to be at school only when they have classes.

School days will open at 7 a.m. and close at 12 noon. The classes will be taught eight weeks, ending July 22.

Approximately 25 Seniors are expected to graduate at the close of summer school.

Burned Boy Is in Coma

VERNON—(AP)—Donnie Woodard was in a coma most of the time this morning when he was rational he worried about his pet cow, Old Jersey.

"Don't let anyone else milk her," the plucky 10-year-old farm boy—70 percent of whose body is covered by deep burns—told his father.

Doctors have expressed amazement that Donnie survives. They said most patients with so much of their skin burned died within six to twelve hours.

Donnie was weaker today than yesterday, but his fever was down to 100, a drop of one degree from yesterday.

An older brother accidentally threw a bucket of gasoline over Donnie 20 days ago while they were burning weeds.

4 Die in Sinking

School days were related reports from Cebu today set the number of dead at 44 in the sinking last Wednesday of a coastal boat.

Originally 24 had been reported drowned. Fifty-five survivors reached shore.

VOL. 47—NO. 291 (10 PAGES) PAMPA, TEXAS, MONDAY, MAY 30, 1949

Pampa Methodists Have New Pastor

The Rev. H. Clyde Smith, who has been pastor of the First Methodist Church for the past three years, has been transferred to Abilene as the district superintendent of the Abilene District of the Methodist Church.

The change was announced yesterday in Amarillo by Bishop W. C. Martin of Dallas at the closing session of the Northwest Texas Methodist Conference.

Rev. Smith simply changes places with Dr. Orion W. Carter, who is expected to be in Pampa in time to occupy the pulpit for the regular services next Sunday.

Other changes in churches in the Top of Texas area were also announced by Bishop Martin.

S. Duane Bruce, former pastor of the Methodist Church at White Deer, has been transferred to Albany, and his place is being taken by J. T. Bucknab, former pastor at Higgins.

John English from Baird has taken the place of Stanley W. Hayne, former pastor at Clarendon, who has retired.

At Groom Carl P. McMasters has been moved to the Perryford District and his place is being taken by Conrad Ryan, formerly at Plains.

H. A. Longino, formerly at McLean, has been transferred to Higgins, and his place will be filled by H. B. Hicks from Sunray.

J. W. Rosenberg and Alan Harvey-Brooks also changed places. Rosenberg will take the church at Burnsvista and Harvey-Brooks will take over the Miami church.

E. C. Armstrong and E. H. Martin, pastors of the Harrah and McCullough Methodist churches in Pampa, have been returned to their pastorates, as have the pastors at McGoff and (See METHODISTS, Page 3)

253 Die on Memorial Weekend

The Memorial Day weekend was cut short violently for at least 253 of the nation's holiday pleasure seekers.

With the homeward rush still to come, the traffic deaths mounted to 166 before noon today. Fifty-two persons were drowned, and 36 died as the result of miscellaneous accidents.

The National Safety Council had predicted that 215 persons would be killed during the three-day weekend, not counting those who will die later of injuries suffered in auto accidents. The Council estimated that 30,000,000 automobiles would move on the nation's highways during the period.

The deaths by states (traffic, drowning, miscellaneous):

- Alabama 2 0 0; Arkansas 3 0 1; California 11 4 7; Colorado 1 1 1; Connecticut 6 1 1; Florida 2 2 0; Georgia 7 0 0; Idaho 0 0 1; Illinois 14 2 2; Indiana 5 0 0; Iowa 3 2 0; Kansas 5 0 0; Kentucky 3 2 0; Louisiana 1 0 0; Maine 1 0 0; Maryland 2 0 0; Massachusetts 4 0 1; Michigan 8 3 0; Minnesota 2 2 1; Missouri 1 0 0; Montana 1 0 0; New Hampshire 2 0 0; New Jersey 3 2 0; New Mexico 1 0 0; New York 10 3 2; North Carolina 8 3 0; Ohio 14 1 5; Oklahoma 2 0 1; Oregon 2 0 0; Pennsylvania 14 0 2; South Carolina 4 0 0; Tennessee 4 2 1; Texas 8 5 5; Vermont 1 0 0; Virginia 6 2 0; Washington 0 2 1; West Virginia 5 2 0; Wisconsin 4 6 0.

Soviet Must Alter to Get More Goods

TOBONO—(AP)—A U. S. cabinet officer gave Russia and her satellites a broad hint today that the country has today altered its policy to buy more of the U. S. goods they want—by changing their ways.

Secretary of Commerce Sawyer said "no rigid formula" governs the 16-month-old policy of denying U. S. industrial goods as well as outright military aid to the Soviet bloc and the "procedure is still flexible."

Admitting frankly that "we are utilizing export control to implement our foreign policy," the U. S. official added:

"It is clear that so far as possible we should, and we wish to, permit the free flow of trade between all parts of Europe and between all parts of Europe and the United States.

"If improvement in the relations between Eastern and Western Europe takes place, we can look for a larger volume of trade to the benefit of both the East and the West."

This clue on how the Soviet can win a sailing of the currently tight "ban" against her buying here—the first indication that the U. S. would let up, on condition—was tossed out while foreign affairs chiefs tested the temperature of the cold war at a meeting in Paris.

Sawyer inserted it in a speech prepared for the opening of the second Canadian International Trade Fair. The speech dealt largely with U. S. support of efforts to bring about an expansion of world trade, largely through removal of trade restrictions.

Pioneer of Texas Dies

Funeral services for Mrs. Emma Dunwoody, 81, a pioneer settler of Central Texas, will be held tomorrow afternoon.

Mrs. Dunwoody was born Dec. 24, 1867, in Fayetteville, Ark., and came as a bride in 1889 to Dickens County, Tex., where she and her husband, Charles Sidney, were among the 15 pioneer settlers in the area before the county was organized.

She lived in Dickens County until 1927, when she moved to Lubbock for 13 years and to Santa Barbara, Calif., for six years.

She died at 5:45 p.m. Sunday at the home of her son, Guy Dunwoody, 1410 Alcock, where she had been living the past three years. She was a member of the Central Baptist Church.

In addition to her son, Guy, she is survived by two daughters, Mrs. Mary Pruitt, Santa Barbara, and Mrs. Paul Hardwick of Lubbock.

Funeral services will be held at the Central Baptist Church at 3 p.m. tomorrow with the Rev. Hal Upchurch, pastor of the church, officiating.

Burial, by the Duenkel-Carmichael Funeral Home, will be in the Panhandle Cemetery beside her husband, who died Jan. 26, 1941.

Pallbearers will be: G. C. Stark, Earl Griffin, Fay Bearden, J. B. Hilburn, E. D. Williams, L. C. Yeager.

Kinnison Rites Set Tomorrow

Funeral services and military burial rites for Wayne Kinnison, 34, will be held tomorrow.

Christened Kenneth Wayne, he was born June 22, 1915, at Lefors and moved to Pampa with his parents shortly after his birth. He had been in the Air Force for the past six years and was stationed at Kirtland AF Base, Albuquerque, N.M., at the time of his death at 8:35 p.m. Saturday.

He was a member of the 293rd Supply and Maintenance Squadron, and had served two years in India during the war.

The body was taken this afternoon to the home of his mother, Mrs. J. D. Kinnison, 121 N. Wynne, where it will remain until an hour before the services. The casket will not be open at the chapel. Besides his mother, he is survived by one sister, Mrs. Emma Moore.

Services will be held at 4 p.m. tomorrow from the Duenkel-Carmichael Chapel with H. P. Mathieu, Christian Science reader, officiating.

The Pampa post of the American Legion will have charge of military burial rites at the graveside in Fairview Cemetery, and Legionnaires will also serve as pallbearers.

Robinson Rites at 2 Tomorrow

Funeral services for Mrs. Mildred J. Robinson, 325 N. Hobart, will be conducted at 2 p.m. tomorrow at the First Presbyterian Church, with Dr. Douglas Nelson, pastor of the church, officiating.

Mrs. Robinson died Saturday morning at the Groom Hospital, following an illness of about two weeks.

She is survived by her husband, A. D. Robinson, Pampa; a son, Keith; a daughter, Alice Jean, both of Pampa; four brothers and eight sisters.

Pallbearers will include Charles Burton, K. W. Bunch, H. H. Boynton, O. D. Cobb, Cecil Myers and J. E. Martin.

Burial will follow at Fairview Cemetery under the direction of the Duenkel-Carmichael Funeral Home.

Students Learn Art of Weaving

Indians have nothing on Miss Verdie Denton's sixth-grade art students. For the past semester more than 100 Junior High School students have been learning the art of weaving.

Miss Denton became interested in weaving in 1941 when she attended Columbia University. She bought a loom and always meant to study it and use it.

"I'm learning just about as much through the students as I have through weaving books," she said. "Seems the students are always coming up with something new."

Four students may use the looms at one time. The students cooperate with each other and as a result get the job done much quicker through their combined efforts.

Using college text books on weaving, the students do every bit of the weaving from threading the large loom to putting the thread for the throw rugs, place mats and bath mats in place.

The students have taken such an interest in weaving that it ranks second in popularity in the sixth grade art classes. Wood carving still continues to be the all-around favorite.

The school also has five small looms that are kept constantly in use throughout the school year. However, students have to use the smaller looms individually and can make nothing but six-inch strips.

Clean-Up Drive Begins Again

Residents in Ward 3—southeastern section of Pampa—have been requested to have trash in their alleys tomorrow, Wednesday and Thursday.

Weather permitting, the city will renew the clean-up, fix-up, paint-up drive tomorrow. After completing Ward 3, according to Fire Chief Ernest Wimborne, plans call for early completion of Wards 2 and 1 trash pick-up.

Vishinsky, Prosecutor, To Perform

PARIS—(AP)—Russia rejected today the West's proposals for uniting Germany under the Bonn Constitution, a French source reported.

PARIS—(AP)—Soviet Foreign Minister Andrei Vishinsky, who rose to fame as a prosecutor in the 1939 Moscow "purge" trials, is expected to cross-examine the foreign ministers of the Western powers today.

Vishinski reportedly has a barrage of questions ready on the Western proposal to extend the Bonn Constitution for a West German federal republic to Eastern Germany.

He is to meet Secretary of State Dean Acheson, Foreign Secretary Ernest Bevin and Foreign Minister Robert Schuman at 8:30 a.m. CST.

Authoritative sources in the Western camp predicted the Russians eventually would reject the Western offer. These sources feel no doubt that pro-western groups will win a free election in all German lands and the iron curtain will be pushed back to the Polish and Czechoslovak frontiers.

Initial Soviet comment, voiced (See VISHINSKY, Page 2)

Sovietized Constitution Is Ratified

BERLIN—(AP)—The Russian-controlled German Peoples Congress ratified by a show of hands today a Sovietized Constitution it wants to make the basic law for all Germany. Only one of the 2,000 delegates abstained officially. There was no debate.

The ratification came as the windup of a two-day meeting in the East Berlin Opera House. The Constitution of a "German Democratic Republic" is the Soviet zone's answer to the West German Constitution recently adopted at Bonn and ratified by the 11 German states of the three Western occupation zones.

Earlier, the Congress named Gerhard Eisler, Communist leader who fled the United States, to a list of 60 candidates for the Russian-approved German People's Council for Eastern Germany.

The 52-year-old German-born Communist leader is expected to reach here via Poland in a few days. Eisler was freed by a British court which refused a United States request for his extradition last week. He has not lived in Germany since the Soviet zone.

The list drawn up by the Communists, described the alleged top Communist agent as a professor at Leipzig University.

Yesterday, the delegates heard a speaker declare the Berlin rail-strike would have flared into a third world war but for the Soviet Union's "love for peace."

Dr. Otto Nuschke, chairman of the Soviet-licensed Christian Democratic Party in East Germany, charged that U. S. Brig. Gen. Frank L. Howley's recent expulsion of Soviet-controlled railway police from the American sector could have been the spark to touch off an explosion.

The Soviet-zone police guarded West sector railroads under a 1946 four-power agreement.

Police Report Minor Accidents

Two minor auto accidents over the weekend were about the only incident reported to the Police Department.

Two cars collided at 9:35 p.m. Saturday at the intersection of West and Foster. About \$50 damage was done to the 1949 Mercury, owned by J. B. Shields, 608 N. Sumner.

The other car, a 1940 Nash convertible, was not damaged. It was driven by Louis Matthews Garcia of Panhandle.

At 10:20 a.m. yesterday two other vehicles collided on Hobart. A 1947 Ford truck, driven by Ralph E. Broadbent, 837 N. Brunow, was not damaged. Approximately \$40 damage was done to the 1943 Buick trailer, driven by Robert Lee Jobe of Lake Charles, La.

Miss Oppenheimer To Review Book For Forum Club

SHAMROCK — (Special) — Evelyn Oppenheimer will review "Bright Leaf" in the Clark Auditorium June 2, at 8 p.m. Miss Oppenheimer is sponsored by the Forum Club. Born in Dallas, she received her Ph. D. degree at the University of Chicago, where she became a member of Phi Beta Kappa. After experience as a literary critic and feature story writer on Chicago newspapers, she returned to Texas for a career on the lecture platform. She has also had her own radio show and has contributed articles to some magazines. At present, Miss Oppenheimer is presenting a regular series of review programs at Sanger Bros. in Dallas, in addition to her tour schedule. The public is invited to attend.

Fresh Shrimp Cookery

Fresh shrimp should be cooked carefully — not too long, in a small amount of water. Put a cup of water in a heavy saucepan with a tightly fitting cover and add three or four peppercorns, the top of a celery stalk, a bay leaf, and a teaspoon of salt; bring to a boil and simmer for about five minutes. Now add a pound of shrimp, bring rapidly to a boil again, cover, and simmer for about five minutes for small or medium shrimp. Jumbo shrimp may require a few minutes extra cooking time. Drain, peel, and remove the black vein with a small sharp knife.

Piano Symphony Schedule For Practices Released

The schedule for the Piano Symphony rehearsals has been released by Mrs. May Foreman Carr.

All rehearsals will be held in the Carr Studio at 409 N. Frost St.

All old members are requested to bring all copies used in former assemblies. The first general rehearsal will be held Monday evening, June 20, at the Tarpley Music Store.

Tonight at 7 the following will meet to rehearse: Miss Eloise Lane, Mrs. O. J. Payne, Mr. Jack Andrews and Miss Betty Jane Boynton. At 8 p.m. Mmes. J. F. Curtis, A. M. Teed, Frank Stallings, and H. A. Yoder will meet.

Tuesday at 7 p.m. Mmes. G. L. Dauser, Lily Hartfield, L. D. Pagan, and Albert Lubenski will rehearse and at 8 p.m. Mmes. Malcom, E. L. Gallimore, J. F. Curtis, A. M. Teed, Frank Stallings, and H. A. Yoder will meet.

For Thursday at 7 p.m., Mmes. Betty Brock, Helen Matthews, Kathrine Reynolds, and E. E. Thompson will meet, and at 8 p.m. Mmes. Malcom, E. L. Gallimore, Jones and Ramon Wilson and Miss Elsie Donaldson, will rehearse.

Rehearsing on Friday evening at 7 will be Mmes. Mary Beth Wright, Charlotte Aliston, Etta Frances Hancy and Joyce Harrah. At 8 p.m., Mmes. W. L. Rowntree, A. A. Schumeman, L. N. Atchison, and L. H. Langston will meet.

For Thursday at 7 p.m., Mmes. Betty Brock, Helen Matthews, Kathrine Reynolds, and E. E. Thompson will meet, and at 8 p.m. Mmes. Malcom, E. L. Gallimore, Jones and Ramon Wilson and Miss Elsie Donaldson, will rehearse.

Rehearsing on Friday evening at 7 will be Mmes. Mary Beth Wright, Charlotte Aliston, Etta Frances Hancy and Joyce Harrah. At 8 p.m., Mmes. W. L. Rowntree, A. A. Schumeman, L. N. Atchison, and L. H. Langston will meet.

Saturday afternoon at 1:30 Kay

Lunch Room Is Big Business at Shamrock School

SHAMROCK — (Special) — Operation of the North Ward School Lunch Room is a big business. During the first eight months of the past school term, 43,708 lunches were served to students — a daily average of 290 servings. The operation cost for the eight months was \$14,520.29. The government paid \$3,627.77 toward the expenses and potatoes, canned tomatoes, cheese, orange juice, tomato juice, apple sauce, dried eggs, milk, and many other commodities were received through government agencies. Each meal has been served with a choice of fruit juice, a half pint of milk, meat plus vegetables, salad and dessert. The commodities furnished by the government, and financial help from several local organizations and individuals, have made it possible to serve better meals and buy additional equipment. This year \$1,706.74 has been spent on equipment. Of the lunches served, 3,018 were served to students who were unable to pay for them. Mrs. Tommy O'Gorman is supervisor of the P-TA sponsored lunch room. Her assistants are: Mmes. F. L. Fletcher, Tom Morgan, Add Turnbow, and Douglas Greenhill.

Mrs. Rapstine Is Sewing President Of Northern Club

Mrs. Herbert Rapstine was elected president of the Northern Sewing Club at its meeting in the home of Mrs. Ber. Hand.

Mrs. Rapstine succeeds Mrs. Melvin Beighle.

Other business included the revealing of secret pals and drawing for next year's pal.

Other officers elected were: Mrs. Lowell Dahlgren, vice president; and Mrs. Ben Hand, secretary and treasurer.

Those present were: Mmes. Delmar Parsons, Al Shubing, Elbert Wyrick, Carl Moran, Lowell Dahlgren, Bill Barenthin, Charlie Hodges, Charlie Trantham, Jack Waters, Herbert Rapstine, Wayne Johnson, and Walter Smith.

The next meeting will be Thursday, June 9, in the home of Mrs. Charlie Hodges.

Speech Students Will Present Two Recitals

SHAMROCK — (Special) — Speech students of Mrs. Everette Smith will present two recitals, one tonight and one tomorrow night at 8 in the Clark Auditorium.

Junior High and Senior High students will be presented Monday evening and pre-school age through fifth grade pupils will appear Tuesday.

The program will consist of readings, music, songs, and dances.

Mrs. Keeney Honored Friday on Birthday

Mrs. Jennie Keeney was honored on her 75th birthday Friday evening in the home of Mrs. B. R. Nuckola, 213 N. Faulkner.

Those attending or participating were: Mmes. D. M. Scaler, Bill Mitchell, Hulla Ears, J. W. Morris, W. Ayres, E. Sidham, R. W. Tucker, Glen R. Crouse, L. H. Green, C. B. Lemons, L. F. Easter, A. B. Schiffman, W. B. Henry, I. S. Jameson and the hostess and honoree.

Federated Women Will Hold Annual Meeting

AUSTIN, Tex. — (AP) — The Texas Federation of Women's Clubs will hold its annual convention at headquarters here Nov. 15-18, Mrs. John J. Perry, Sweetwater, president, said today.

New officers to be elected at the meeting will be installed by Mrs. Hiram C. Houghton, Red Oak, Texas, vice president of the General Federation.

Candidates are: Mrs. J. Howard Hodges, Midland, for president; Mrs. T. M. West, San Antonio, first vice president; Mrs. John O. Douglas, Houston, and Mrs. L. James Wathen, Dallas, second vice president; Mrs. W. E. Cantrell, Lometa, secretary, and Mrs. U. L. Wille, Matador, treasurer.

Miss Greta Miller, daughter of Mr. and Mrs. L. R. Miller, will present piano selections tomorrow night in Miss Donaldson's recital at 8, in the Church of the Brethren.

Mrs. Pirkle Hostess To Firemen Auxiliary

Mrs. Vernon Pirkle was hostess to the Firemen's Auxiliary in the fire station recreation room Thursday evening.

Plans were made to buy material and make dresses for an orphan's home. They also made plans to send money to Boy's Ranch in Amarillo.

Those present were: Mmes. A. L. Ferguson, Tom Haggard, Lewis Bowers, Albert Furness, Emmitt Hunt, E. L. Gardner, Pete Pierce, Paul Skidmore, Otto Doggett, Ernest Winborne, and one guest, Mrs. Jake Winborne.

Greenland was first settled in the 10th Century.

Wilson and June Guill will rehearse, and at 2:30, Wesley Byars, Phoebe Osborne, Dan Stallings and Ruth Puffer will meet.

P-TA Completes Year In Shamrock School

SHAMROCK — (Special) — The North Ward P-TA voted to award Mrs. Lewis Goodrich a life membership for her work in that organization.

The theme of the year's work has been "The Home." Among many of the projects which have been undertaken by this group have been: contributions for equipment to the school lunch room, health clinics including dental inspection and TB tests, redecoration of Clark Auditorium, and sponsorship of the Eighth District of the Texas Congress of Parents and Teachers Association meeting in Shamrock.

Officers for the immediate past year have been: Mrs. Rufus Dodgen, president; Mrs. Lyle Holmes, vice president; Mrs. J. D. Malow, secretary; and Mrs. Howard Weatherby, treasurer.

Mrs. Leonard Sweetwood Is Honored With Shower in Mrs. York's Home

Mrs. Leonard Sweetwood, nee Lynn Hogsett, Ellen Ann Prather, and Master Danny Hogsett.

Out-of-town guests were Mrs. Albert Jacobs from Spearman, and Mrs. Ledru Jacobs of Tahoka.

Mrs. Sweetwood and her mother, Mrs. Frank Hogsett, were presented a corsage of red roses. Bouquets in sea shells decorated the receiving rooms.

Games were played with the prizes going to Mrs. York and Mrs. J. L. Love.

The refreshment table was laid with a hand-made lace cloth, centered with an arrangement of red roses and flanked by green candles in antique onyx holders on a reflector. Miss Haskew presided at the punch bowl and Mrs. Duane F. Hogsett served the cake, assisted by Miss Avanelle Hogsett.

Mrs. Derrel E. Hogsett presided at the guest register.

Those participating were: Mmes. J. L. Love, W. R. Scott, Frank Hogsett, Duane Hogsett, Carl Lam, Hubert-Lam, Loyd Davies, W. E. Dulaney, C. E. Powell, L. F. Batson, Bill Erwin, Claude Schell, Thelma Lively, Opal Frasier, Ruby Wiley, Joan Thornton, Polly Stevens, Irma Crouse, Derrel E. Hogsett, Irma Sexton, Clarice Vehon, Jean Prather, Elmond Jacobs, and Misses Avanelle Hogsett, Bootsie Hogsett, Mary E. McKamey, Rita

Asparagus Preparation

Asparagus is particularly delicious when served with finely crushed cracker crumbs that have been lightly browned in butter or margarine. Garnish with thin slices of hard-cooked egg.

95 Percent of Golfer's Woe is Caused by Faulty Grip

Pros Play With Hands, Duffers With Bodies

First of a series written for NEA Service

By GENE SARAZEN
Winner of Them All

Your golf game begins by holding the club.

Because 95 percent of a golfer's trouble is caused by a faulty grip, I am starting this series with the grip.

Masters play with their hands. Duffers play with their bodies. Let your hands be the generals of your game.

The body follows the hands. Harry Vardon introduced the overlapping grip, and since his time the great names of golf with few exceptions, have made it the more popular of the two.

The interlocking grip, used successfully by Francis Ouimet, Claude Harmon, Chick Harbert and myself, is the only other proper grip.

I will explain the reasons for my preference in the next article.

Let me here stress the fact that the overlapping grip is preferable only if you possess large hands to make it work.

Note the illustration.

The left thumb is on the shaft, held in the fingers of the right hand and the palm of the left.

We note that the little finger of the right hand overlaps the forefinger of the left, thus the name of the grip.

This grip makes the two hands work as a unit because they are closer together.

The left hand acts as the hinge on a door, controls the swing.

To be placed properly, you should be able to see three knuckles of your left hand while addressing the ball.

The "reminder grip" is a great aid in the proper position of this all-important hand. By placing the left hand to fit on this flattened surface of the club shaft, the knuckles will be in their proper place.

The left thumb on the shaft prevents the wrists from breaking as much as might be desired, decreasing the flexibility. This results in a slight loss of

The overlapping grip.

Jacobs' Condition OK

LONG BRANCH, N. J. — (AP) — Retired boxing promoter Mike Jacobs, who underwent an operation Saturday, was reported in good condition last night at Monmouth Memorial Hospital.

In general, however, the golfer will be steadier with this grip.

Let the size of your hands determine which grip to use. Once you decide, stick to that grip, and forget about experimenting.

Jackie Robinson provided the punch that brought Hatten his hard-earned victory. The Negro second sacker stung with the bases loaded and two out in the seventh to drive in the tying and winning runs.

The victory, scored before 24,249 fans, gave the Dodgers the series, 2-1.

Boston AB R H C Brooklyn AB R H C
Stucky 2b 3 1 1 0
Fletcher 1b 3 0 0 0
Larkin 1b 1 0 0 0
Beiser 4 0 0 0
Elliott 4 1 1 0
Conner 2 0 0 0
Masi 4 0 0 0
Spahn 3 0 0 0
Totals 31 2 2 0

Brooklyn AB R H C Boston AB R H C
E. Spahn 1b 3 0 0 0
Dank 2b 3 0 0 0
Mills 3b 3 0 0 0
Brooklyn 8 1B 1 0 0 0
Winner - Hatten (4-2). Loser - Spahn (5-4).

Accompanying each article is a diagram or picture to aid in the explanation of the article itself. The first article, published today, has to do with the proper gripping of the club. Future articles will tell about more gripping, the proper swing and use of the woods, the importance of the arms and wrists, the use of the putter, and of course many other little supposedly insignificant things that will improve your game.

Perhaps after a thorough study of all the articles, plus the proper application, the following poem, which seems to have been written especially for my game, will not be applicable:

If my drives are satisfactory
And if my irons are working keen,
I know I'm in for trouble;
When I get up on the green;
For I'll always then my putter
Takes a delight in acting up
And my score is really ruined
When at last I hit the cup.

Here's hoping that you golfers will enjoy the series and that it will be beneficial to you and your game.

ANSWER: The only team in the major leagues that has never finished up in last place is the Detroit Tigers.

JUNIOR BASEBALL: After the last article on the organization of a junior baseball team or league here this summer I have had a couple of more requests by the young fellows to get something started. The latest was an 11-year-old boy who wanted very badly to play baseball this summer.

He had played during the spring with his grade school team and he wanted to play all summer long. He said that he could practice anytime of the day as he wasn't busy. When asked if he was playing any softball in the Kiwanis-Church League he answered no, that his church wasn't sponsoring a team, although many of the boys had asked the minister to have one.

This corner thinks that it would be beneficial to the church and the youth of the city to have all of the churches enter this league this summer. The boys all want to play, and the church is under no obligation other than to let the boys together to start the team. The Kiwanis Club is doing a fine thing for the youth of the city in providing this league, fully sponsored, and everyone should take advantage of this opportunity to give all of the children a chance at fine, clean, wholesome sport.

Of the ten ties recorded in the national league home run hitting championship, Mel Ott of the New York Giants figured in three.

National League Race in Philadelphia Among Braves, Giants and Phillies

Giants Pushed 15 Frames to Defeat Phillies

PHILADELPHIA — (AP) — Hank Behrman pitched a seven inning one-hit shutout Sunday as the New York Giants whipped the Philadelphia Phillies 3-0 in the nightcap of a twinbill curtailed by the Pennsylvania Sunday curfew law. Bobby Thomson smashed a two-run homer in the 15th inning of the opener to give the Giants a 4-2 victory. The game was the longest of the year in the major league this season.

PHILADELPHIA — (AP) — Hank Behrman pitched a seven inning one-hit shutout Sunday as the New York Giants whipped the Philadelphia Phillies 3-0 in the nightcap of a twinbill curtailed by the Pennsylvania Sunday curfew law. Bobby Thomson smashed a two-run homer in the 15th inning of the opener to give the Giants a 4-2 victory. The game was the longest of the year in the major league this season.

More Play Rooms Used For Television Locations

"Should I install my television set in the living room, the dining room or the recreation room?" This is one of the first questions a prospective owner asks his television service engineer.

Most families, engineers report, have the installation made in the living room — where viewing and seating arrangements are comfortable. Recently, however, there has been a trend toward installing or moving sets to dining rooms and recreation rooms.

Reasons for the switch, according to veteran video fans, are that it takes the wear and tear of the living room and saves the whole family from becoming anti-social.

If the dining room is easily accessible to the living room, an installation there offers the advantage of serving audiences in both rooms. This location also permits the family to eat together while a show is in progress. (There are two schools of thought on whether this is an advantage.)

The basement recreation room also is a popular television location, especially if there are children in the house. Set owners soon learn that the home becomes the mecca for all the youngsters in the neighborhood.

Before installing a set in the basement, it is important to provide a warm, dry and well-ventilated room for the comfort of the viewers. Basement rooms finished with insulating board meet these comfort requirements. Either large, easy-to-handle insulating building boards or long, narrow planks can be applied over nailing strips attached to masonry walls or can be nailed directly to partition framing. This material serves the dual purpose of an in-

ulation and a finish. When basement walls and ceiling are finished with insulating board or insulating tileboards, building specialists point out, a third advantage is gained. In addition to providing insulation and decoration, insulating board acts as a noise quieter. Naturally, this will improve listening and restrict youthful participation to the television room.

Keep the television set away from the window-glare of western and southern exposures. Unnecessarily long lead-in wires should be avoided because they tend to pick up street and neighborhood disturbances.

Contracts for 360 Apartments Are Let in Houston

AUSTIN—(AP)—Houston put construction of 360 apartment units under contract to bolster the state's building total last week.

The Texas Contractor, trade publication, reported that construction awards for the week amounted to \$8,771,898. The Houston apartments accounted for \$2,250,000 of the total.

Total residential building amounted to \$4,786,500. It included 85 residences costing less than \$7,000 and 81 more expensive residences. Apartments, providing 368 one-family units and one duplex apartment.

Non-residential construction amounted to \$3,224,069 and engineering projects \$760,082.

The awards showed a decline from the previous week's \$13,835,262. The accumulated total for the year climbed to \$377,861,596.

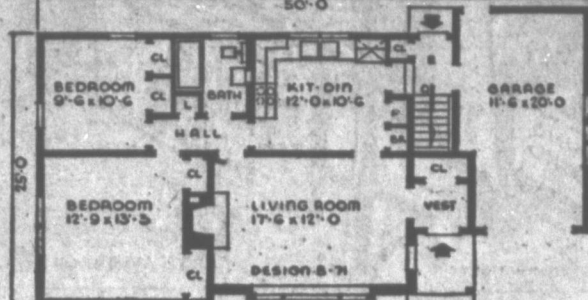

Heavy Rain Hits Northeast Texas

By the Associated Press

Heavy rain fell in part of Northeast Texas Saturday from near Dallas to the Texarkana area. There were thunderstorms on the Texas Coast and in the Panhandle. Thunderheads hanging on at dusk caused a forecast of continued scattered showers.

The rain was so heavy just west of Caddo Mills water blocked the Dallas-Greenville highway for a few minutes. Cotton was damaged in spots by washing. Rain was heavy at Mount Pleasant, Mount Vernon, Sulphur Spring, Greenville, and Texarkana.

BUILDING NEWS

THE BENNETT is planned to have wide over-hanging eaves, a picture window and stone or brick facing on the living room walls. These features add interest to the front elevation.

The balance of The Bennett has wide siding. Concrete or cinder blocks can be substituted for the exterior walls. The roof is covered with asphalt shingles. Addition of a garage to the side of this small house gives it a spacious appearance from the front.

Beat the Heat By Ventilating And Insulating

In the Spring a home owner's fancy turns to thoughts of summer comfort. There are three things a home owner can do now, according to housing experts, to prepare for the hot days ahead. One is to insulate, another is to provide for proper ventilation and third is to put exterior trimmings and surroundings to work.

Wall and ceiling insulation, the experts say, can reduce the inside temperature of your house in summer by from ten to fifteen degrees. The same insulation will work to your advantage this winter by making your home more comfortable and easier to heat.

Homes already built can be insulated in several ways. For summer comfort, insulation experts advise insulating the upper part of the house, either at the attic floor level or in the roof. Insulation of both roof and side-walls, of course, is advisable for winter fuel economy. High side windows in the bedroom offer additional wall space for furniture.

The main body of The Bennett is 33 feet by 34 feet. It has an area of 817 square feet, without the garage. There is a volume of 11,423 cubic feet, including the full basement.

Where Should Line Be Drawn Regarding Federal Funds?

By JAMES MARLOW

WASHINGTON (AP)—When a man is being educated with government money, how far should the government go in trying to find out whether he's a Communist?

That's one of the important questions emerging from the present rumpus over the way the Atomic Energy Commission does things. Congress is investigating the AEC now. It all started this way:

The work they're picked to do is of two kinds: secret work for the government in the field of the atom; or non-secret work, using some product of the atom, such as in cancer research.

The AEC leaves the picking to the National Research Council.

The council has been primarily interested in a young man's brains, not his political beliefs.

A young man chosen for secret work doesn't get the job unless the FBI checks and is sure he's not a Communist. If he's chosen for non-secret work there's no FBI check.

Because this country badly needs the best scientific brains in the field of atomic energy, Congress has voted the AEC millions to help educate outstanding young scientists chosen for non-secret work.

This month the Senate discovered that a young scientist chosen for an AEC fellowship in non-secret work was a Communist. That started the storm.

Sensors questioned David E. Lillenthal, chairman of the AEC, about this case. He said he does not think the government should spend money educating a Communist, but —

He indicated opposition to the idea of an FBI investigation of young scientists chosen for non-secret work.

But why should the top scientists — and Lillenthal, who says he accepts their judgment in the matter — be against an FBI investigation of young scientists not doing secret work?

They argue: Some of those badly needed young scientists in the atomic field would be discouraged from entering it at all if they thought they had to go through an FBI examination. And —

If an FBI probe starts in this field, simply because government money is being used al-

NEW HOME: Think about that dream house of yours. Then think about setting aside something from each pay for Savings Bonds. Today 5,500,000 workers are saving \$100,000,000 each month through the Payroll Savings Plan.

though no secret work is involved, it's the first step toward opening the door to the FBI in other fields of education.

Patch in Time Saves Concrete

By ROBERT SCHARIF
Written for NEA Service

Winter weather probably left a lot of minor cracks in the concrete walks, floors, and foundations around your house. But they won't be minor long unless you go after these small repairs, because unpatched cracks and

CLEAN, SHARP UNDERCUT IS NEEDED TO PROVIDE A KEY FOR THE NEW CONCRETE FILLING.

breaks grow until major replacements are necessary. Proper preparation is important, since new concrete does not bond well with old.

The old concrete must be undercut so the new will be locked in place. Open up the crack or break with a cold chisel and hammer, and cut away the old

WHEN AN EXPOSED EDGE OF CONCRETE IS BROKEN, A WOODEN FORM, AS SHOWN, IS REQUIRED.

concrete so the bottom of the cut is wider than the top. In patching a worn spot, the entire area to be covered should be cut out to a uniform depth so the patch will be of the same thickness throughout.

A mixture suitable for patching jobs is one part cement and three parts sand, with just enough water to make a paste that can be spread smoothly and easily with a trowel. A ready-mixed patching cement, found in hardware and other stores, requires only the addition of water.

Before applying the patching compound, wet old surfaces thoroughly with clean water to increase adhesion of old to new and prevent drying of the mix.

Use the trowel point to press concrete into place. Fill slightly above the level of the old work to allow for shrinkage as the new mix sets. A straightedge may be used to level off the excess about one hour after it has been laid.

The patch should be kept damp for several days to allow the new cement to cure; if it dries too rapidly, it will be weak and sandy.

If the concrete wall has separated from the floor, the joint must be able to withstand some movement and often water pressure. Undercut the floor, then place the concrete fill over calcium base to provide a permanent seal.

Fewer Persons Yielding to Decay Can Be Caused by Poor Upkeep

NEW YORK—(AP)—Fewer persons this year are yielding to the urge to "have a little business of my own."

And more of those who started up—especially the Johnny-come-latelies—are giving up the fight.

Business failures have been on the uptrend this year. The general business slump has speeded this up, but there have been other factors cited by observers.

Chief one is that many of the firms that folded were only fly-by-nighters anyway. They were started to take advantage of a rank out-and-out sellers' market.

All the businessmen needed was a source of supply. He could sell anything he could lay his hands on.

Since last summer this definitely hasn't been the case. Once there were plenty of goods to be had, buyers tended to confine purchases to the old established firms. The new and unfamiliar folded.

Tied in with that is another factor. Many of the firms failing this year were started to offer substitutes—either in kind or quality—for goods or services in short supply.

When the need for substitutes was gone, so too were the firms, in many cases.

But this failure trend is rising only when compared with the preceding postwar years. Failures are still well below the prewar total.

For example, last week 172 business houses closed their doors. In the similar week last year there were 92 failures, and in the like week of 1947 there were only 88.

But in the corresponding 1939 week 289 folded, according to Dun & Bradstreet. So far this year 2,538 have failed, compared with 1,972 in the same time last year.

The statistical agency also reports on new business incorporations. Starts this April number 7,273. That was 4.8 percent below March, and 21.1 percent below April, 1948.

where they would not be usable. The Public Buildings Administration is also making a study of the effect of color and lighting on production and improved morale. In this study, which is to be completed in June, the work load is even, the employees are all carefully checked as to the normal amount of work done and the effect of color and lighting is determined under identical working conditions.

FALLING MOON
The moon's circular orbit results from its own movement and a fall toward the earth, caused by the gravitational pull of the latter.

Water delivered to the city of Rome by the great system of aqueducts in the First Century A. D. has been estimated at about 92,000,000 gallons a day.

FUNNY BUSINESS BY HERSCHBERGER

"Nothing much, neighbor—we just wondered if you looked like us do at six in the morning!"

THE RIGHT WAY TO PAINT YOUR HOUSE

WITH JUST TWO COATS...

BPS FIRST COATER...

Made to do a better job of hiding the old, dirty surface. Dries with a subdued gloss finish. Covers more surface in less time, and brushes on without the usual "pull."

BPS HOUSE PAINT...

The tough, elastic film gives longer-lasting protection against wear and weather. The smooth glossy finish stays clean and looks fresh and attractive for many years.

I speak the password primal I give the sign of democracy; by God I'll accept nothing which all cannot have their counterpart on the same terms. Wait Whitman.

You Can't Tell

More than half a dozen government witnesses in the trial of 11 leading Communists have testified they were undercover agents for the FBI in the Communist Party.

One of the latest, a young bank employee, told the court he had attended a party meeting the very night before his testimony. This so stunned one of the defendants that he called the witness, "a little rat."

The case has reached the stage, however, where it would not be too great a surprise to expect the defendants themselves to take the stand and announce that he, too, was working for J. Edgar Hoover.

King-Size

The retail business done by the armed services in post exchanges and ship's stores probably was never just peanuts. But by last year the output of 588 retail units had grown to \$431,000,000 worth of goods for the 12 months.

Prediction: Windy

Hotter Speaker Rayburn predicts the current Congress is in for a long engagement this year, probably until late August or September. He apparently arrived at this conclusion after looking at the mountain of unfinished bills in both houses and after realizing that what Congress terms "full and free discussion" of a measure can be stretched to as much as four weeks of talk.

From McLean To Get Degrees

McLEAN — (Special) — Four McLean students and one former student will be among the 191 graduates at West Texas State College at Canyon. Thomas William Berk, son of Mr. and Mrs. O. Beck, John Lewis Chapman, son of Mr. and Mrs. Brent Chapman of Keller, and Kathryn Brooks, daughter of Mr. and Mrs. Horace Brooks; Mrs. Eustace Walton, daughter of Mr. and Mrs. Earl Eustace; and Mrs. Ann Berger Carter, daughter of Mr. and Mrs. Culbertson C. Carter, former McLean residents, all will receive their bachelor degrees at commencement exercises June 10.

Washington.....by Peter Edson

WASHINGTON — (NEA) — There are too many pigs. This little statement will not refer to the kind of pig that is to be devoured by the population is made up of 400 million four-legged creatures easily identifiable by their jowls, fat-backed, round pickled feet — complete round squeal to curly tail.

Fair Enough — Pegler

By WESTBROOK PEGLER (Copyright, 1949)

Golf (pronounced golf, so sometimes got) is a game in which the player strikes a small, resilient ball with a variety of expensive sticks or clubs with wooden or metal heads. The object of the striker is to cause the golf ball to fall into a series of small holes in the earth. A game usually consists of eight strokes known as "holes" which are not to be confused, however, with the actual holes in the earth. These are about the size of an old-time Happy Hoosigan soup can or the opening of the conventional Mason jar which came into wide use in the state of Georgia during the prohibition era (1919-1933) as a vessel for the law spirits.

The stages known as "holes" vary in length from 140 to 150 yards to 650 yards, but most of the stages are of an average length or distance of 40 yards. There is a theoretical set of values which would have it that the striker should be able to propel the little resilient ball into the hole in the earth in a prescribed number of blows, i.e., three such blows in the case of the short "holes," four strokes for the medium, or average "holes," and five for the "long holes."

The temptation to deceive their companions and opponents by forgetting strokes which have missed, i.e., "whiffies," or penalty-strokes which should be added to the number of strokes, is a common circumstance, exaggerating, indeed there have been serious proposals that an arbitrary basic impost of from five to ten strokes for each "hole" shall be printed on the score-cards to neutralize this element of human weakness. This plan has been rejected on the ground that some golfers are more honest, or to put it another way, worse liars, than others and the game continues to be scored in a more or less fair manner.

Among friends in golf circles and in trade-and-customer circles it has been found more pleasant to continue to look one another right in the eye and say, "Well, that gives me an even five" or "four" or "three" as the case may be, and for the parties to even things up in the same way. One never says "You are a liar." One says "Nice going." Noblesse oblige. In the case of the salesman playing the old fool, it is customary to walk up quickly to one's partner and say, "Well, when one's partner lies in any where within 25 feet of the hole, or "cup," and knock his ball away, saying "That is a gimme." It is also customary to let him beat you by from one to three strokes, but to let him win within ten or fifteen dollars on the round. If he has any self-respect he then will invite you to his home or take you out to a night club and make you dance yourself bow-legged with his fat wife on his hip, but in the end, will give you an order for a large shipment of whatever it is that you are selling.

The Republic of Brazil is bounded by all except two of the South American republics as well as the Gulf of Guianas. Gladys Parker. I GUESS WE'LL HAVE TO GIVE HER ARTIFICIAL RESPIRATION. YEAH, IT WAS AN ARTIFICIAL DROWNING.

Washington.....by Peter Edson

WASHINGTON — (NEA) — There are too many pigs. This little statement will not refer to the kind of pig that is to be devoured by the population is made up of 400 million four-legged creatures easily identifiable by their jowls, fat-backed, round pickled feet — complete round squeal to curly tail. There was a second purchase program from November, 1933, to May, 1934. Two million pigs were bought then for another \$18,000,000. All pigs weighing over 80 pounds and bought by the government were processed as dry salt pork and given to the poor. The little pigs weighing under 80 pounds were too small to process. As one farm expert now recalls, "these were the little pigs that grew wings and flew right up to heaven amid howls of protest against such public slaughter."

LOOKING AHEAD

By GEORGE S. JENSON, President, National Whirligig

When the question is put fairly and squarely to my fellow Americans, I believe there are few of them who will honestly admit a craving for more government. Most Americans are reluctant to accept money directly or indirectly from the government, whether or not they know where it all comes from. Yes, guess Americans known as Joe Doe still has high respect for his own initiative and industriousness.

Of course, everybody has a soft spot for his underdog, yet Joe knows his heart that government can't help the little fellow by pulling down somebody else. He knows you can't really help people by having the government steal from some one to give to others a practice that makes the government both thief and benefactor. He sees politicians use this line to get office and to stay in office. Candidates elect to office to do things for people, with other people's money of course.

Nevertheless, our friend Joe is puzzled, like most other plain Americans. This is a time of plenty and high production. He is pulling down the best wages he ever earned, yet he's having an awful time taking care of himself and family. What Joe does not know is that he is working only about 27 hours a week for himself; the rest of his 40-hour work week goes to the government. In fact, all of us together are working for ourselves only two out of every three days we work.

One third of what we produce, then, goes for the operation of government. This is a time of plenty and high production. He is pulling down the best wages he ever earned, yet he's having an awful time taking care of himself and family. What Joe does not know is that he is working only about 27 hours a week for himself; the rest of his 40-hour work week goes to the government. In fact, all of us together are working for ourselves only two out of every three days we work.

Until now, it was thought that she had no interest in politics or political questions. Her salons have not been noted for discussion of serious, economic, political or intellectual subjects. She supplied excellent food and liquor, and there was always a piano on which Mr. Truman could perform. She seemed to be the perfect, detached and unselfish hostess, just trying to give a good time to the harassed man in the White House. So she has been written up in several weekly and monthly gossip magazines.

AMAZONIANS — The story of this struggle of administration in Amazonians begins on the very day that President Truman was inaugurated last January. The booming Mrs. India Edwards, head of the Women's Division of the Democratic National Committee, announced that she was a plumping for a feminine member of the cabinet as a successor to Frances Perkins.

For Whom the Toll? FEDERAL TOLL GATE

National Whirligig news behind the news

WASHINGTON — President Truman has become the center of a hair-pulling contest involving women who have backed him politically and a few determined hostesses who have dined and wined him socially in a style to which he was unaccustomed as even as a United States senator.

Then Mrs. Mesta, Mrs. Edwards and Mrs. Emma Guffey Miller, sister of the former Pennsylvania senator, now a has-been, dropped their sights. They asked for appointment of a woman to the job of assistant director of the Women's Bureau.

When the trade union and professional and business women, the Washington socialites and the head of the Truman campaign last fall heard of the Mesta-Edwards-Guffey movement, they immediately got busy. They sent protesting delegations to National Chairman Mesta, and to Labor Secretary Tobin. They persuaded the head men of the A. F. of L. and CIO — William Green and Philip Murray, respectively — to telegraph and telephone their protests against the Mesta-Miller, dark horse candidate.

When Archie asked Dinah Shore how long she had been away from Duffy's Tavern, she answered: "Two years, eleven months, three weeks, two days, seven hours and 22 minutes." When he chided her for counting, she quipped: "I always count my blessings." He told Helen Traubel, the opera star, that in the tavern visitors had a choice of their ownish menu. "And judging by appearances," he said, "I think you've been taking it when you should have been leaving it."

When Archie told Gertrude Lawrence that he was her new Noel Coward, she replied: "You're half right." He once urged Sophie Tucker to make a picture with him. Said he, "Sophie, Hollywood is calling you." She replied: "If you make the picture, I can hear what they're calling me."

Dental Service Course Slated

AUSTIN — A two-week course in dental service operations and administration will be available to all Dental Corps officers of the Organized Reserve Corps and National Guard, Col. Oscar E. Abbott, executive for the Texas Military District, announced here. The course will be conducted at the Army Medical Department Research and Graduate School, Army Medical Center, Washington, D. C. Reporting date is on July 7 and will continue through July 22.

IN HOLLYWOOD

BY ERSKINE JOHNSON NEA Staff Correspondent

HOLLYWOOD — (NEA) — Hollywood has had its professional ribbers from time to time, but no one has made insults pay off quite like Ed "Archie" Gardner on his "Duffy's Tavern" radio show. Archie has insulted 'em all — from Oscar winners to Metropolitan opera stars to the idols of bobby-soxers.

Others have demanded changes in the script. Here are some of Archie's best insults: Rudy Vallee was introduced as a radio star of the old silent days "sort of a prehistoric Perry Como."

"Remember the time you bought a crystal set and thought there was something wrong with it?" asked Archie. "Well, Vallee was the guy." He defined Lauren Bacall as "the dame with the husky throat who, like Tallulah Bankhead on a clear day, she inspired the 'Lauren' in 'Laurengitz'."

Archie dubbed Hildegarde as "the rich man's Cass Daley" and Marlene Dietrich "the baritone Margaret Truman." "Actually," added Archie, "I'm very fond of Marlene. With them legs, she's made more successful crossings than the Matson Line. They've earned her a couple of weeks that this guy is so round, so firm and so jolly puffed!"

When Archie asked Dinah Shore how long she had been away from Duffy's Tavern, she answered: "Two years, eleven months, three weeks, two days, seven hours and 22 minutes." When he chided her for counting, she quipped: "I always count my blessings."

When Archie told Gertrude Lawrence that he was her new Noel Coward, she replied: "You're half right." He once urged Sophie Tucker to make a picture with him. Said he, "Sophie, Hollywood is calling you." She replied: "If you make the picture, I can hear what they're calling me."

Success Secrets

By ELMER WHEELER One of the secrets of success is to take an idea that has been successful, and transplant it into another field. The idea for the super drug store came from the Super Grocery Stores in California. There are many other ideas neglected, examples. But one of the most unusual is the idea of Donald E. Florsheim, who has taken the big city "department store" idea — transplanted it to the country — and started a million dollar business.

A few years ago Florsheim's poultry business was in a sorry state as a result of a fire. Henry Feldman liked his idea of a rural department store, so the two of them set up such a store out in the country about a mile from Milford, Ohio and about 20 miles from Cincinnati. Cattle graze behind the store. The henhouse is within plain view of the customers. The pork sold in the market was running around behind the store a few days before. The store has all the advantages of a big city super store — with the added attraction of "fresh meat."

There is an orchestra born every week and an apology for a singer can be heard any time of the day or night. — Sir Thomas Beecham, conductor, London Philharmonic Orchestra. It is optimistic nonsense to suppose that with all Asia in Communist hands, Japan and the Philippines will remain peacefully on our side. — Maj.-Gen. Claire L. Chennault.

The whole of progressive mankind approves this peace-loving policy of the Soviet State. — Soviet Armed Forces Minister Alexander Vassilievsky. We want Congress to know that we repeat of the Taft-Hartley Act is our firm objective and we will continue to fight for it no matter how prolonged or difficult the struggle. — AFL President William Green.

Business Thriving at New H & M Service Station

This Is How It Appears From Outside; Is Jointly Owned

Dean Monday and Lloyd Hamilton, the first part of April, started into business for themselves. They took over the 301 W. Foster location and formed the H&M (Hamilton and Monday) Service Station.

Since they have had the station, they have put in improvement after improvement in the station's service and equipment. The truck (above) is theirs and is constantly engaged in service to Pampans.

A Sheppard wheel balancer is one of the latest additions to the new H&M Service Station. The wheel balancer is the answer to Pampans who have wheel troubles, for the workmanship of the H&M employees is something that should be investigated.

Dean and Lloyd already have a thriving business going on in the convenient location across from the Fire Station. Both men have had several years experience in the service station business and really are in the "know" when it comes to servicing cars.

Billy Joe Johnson and Thomas Gray, porter recently were added to the H&M employees. Gray is one of the best auto washers in existence — for example — he washed 19 cars the other Saturday. Each car looked almost like new when he finished with it.

Featuring Mobilgas, Mobil batteries, Mobil tires and tubes, Sei-

94, Number For Pampans

C. M. "Peg" Whittle, for the past 17 years has served Pampans with his taxis. The modern two-way radio equipment now installed at the Company is a far cry from taxi service the old way.

Peg now has 12 cabs that he keeps washed and shined up. Most of the cabs are two-way radio controlled to provide that speedier, more dependable service that has for a long time been associated with the name, "Peg's Cab Company."

Fourteen men serve Peg as drivers. Their pleasant manners make riding in a Peg's cab worthwhile.

Other equipment in the shop includes a Bendix two-way land station with eight mobile units. On order is a new telephone switchboard, which will assure even speedier telephone service to the many Pampans who call upon the service of the company.

Special services provided by the company are—a phone call when desired—information from the city and rural directories at any time—and messenger service for the phone company on long distance calls.

Whether or not the sun shines—whether or not the wind blows—whether or not nature does something worse to dampen the spirits of Pampans, Peg's cabs are always ready upon call.

For many Pampans, the best number in the phone book already is 94. Even with the recent drenching Pampans has received, Peg's cabs have continued to give that special service, known only to Peg's cab users.

When it is fairly nice out many Pampans still want to get somewhere in a hurry. Rather than walking in hot weather, just remember the telephone number, 94.

SERVICE FROM SHAMROCK
The Shamrock Service Station, 400 W. Foster, is well-known in these parts for its courtesy. Charlie Ford, manager, and all of his employees treat customers the way they want to be treated.

MADE IN PAMPA

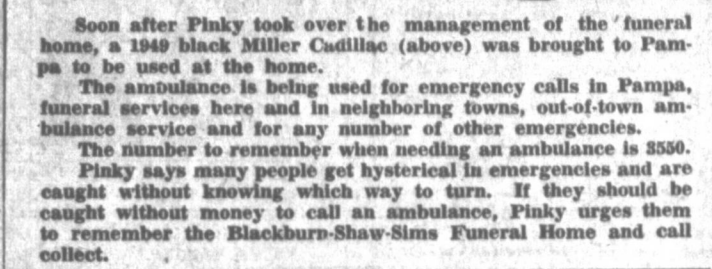

Blackburn-Shaw-Sims Is Gaining Popularity Here

It didn't take Pampans long to become aware of the courteous, speedy and dependable service provided by the Blackburn-Shaw-Sims Funeral Home.

"Pinky" Sims, co-owner and manager, came to Pampa March 1 to remodel the Clegg Funeral Home and change it to the Blackburn-Shaw-Sims Funeral Home.

One would scarcely recognize the remodeled home as the same place. Improvements include padded green leatherette-covered doors, new carpeting, new wallpaper, paint, enlarged casket room, completely remodeled preparing room, pulpit in chapel room, improved music room and many other improvements that took days of hard work.

Pinky is assisted at the home by Bob Baldwin of Borger. He also serves as funeral director. Since Pinky arrived in Pampa three months ago he has joined the First Methodist Church, Kiwanis Club, Chamber of Commerce and frequently is seen at civic gatherings, doing his part in the improvement of Pampa.

Soon after Pinky took over the management of the funeral home, a 1949 black Miller Cadillac (above) was brought to Pampa to be used at the home.

The ambulance is being used for emergency calls in Pampa, funeral services here and in neighboring towns, out-of-town ambulance service and for any number of other emergencies.

The number to remember when needing an ambulance is 3550. Pinky says many people get hysterical in emergencies and are caught without knowing which way to turn. If they should be caught without money to call an ambulance, Pinky urges them to remember the Blackburn-Shaw-Sims Funeral Home and call collect.

Richard Drug Has Five Major Departments to Serve All Needs

PLENTY OF MERCHANDISE—This interior view of Richard Drug, 107 W. Kingsmill, shows just how much is available at the drug. For the past 25 years, Richard Drug has served Pampans. Five major departments found there are cosmetics, photography, prescription, patent medicine and drugs.

Lewis Motor Company Is Place For All Makes of Automobiles

ONE-STOP SERVICE FOR ALL CARS—Yes, Lewis Motor Company, 211 N. Ballard, is the place for Pampans' cars. The motor company has been operated by Wesley Lewis for the past two and one-half years. Further, the motor company is the agency for Studebakers.

Among earliest examples of American folk art are glassware objects blown after hours by glass workers for themselves and their friends, from the tag end of the glasspot.

Golden Loaf Bread BAKED FRESH DAILY

Fi-Blak Time Is Still Here

Now that the rains have subsided Pampans should be even more aware of the fact that their homes should be insulated.

Fi-Blak, the only genuine rock wool, is handled by W. H. Lane, owner of the Home Insulation Company.

Besides preventing wall sweating, Fi-Blak is fireproof and is just what is needed in every home. Spring is the logical time of the year for Pampans to get the redecorating urge. No other investment is more practical than insulating homes with Fi-Blak, the shield of comfort.

Lane has lived in Pampa for the past 20 years and well knows that Pampans should have their homes protected against this changing Panhandle weather. He offers free estimates of the cost of Fi-Blak insulation jobs.

Many people keep putting off home insulation though they realize it must be done sooner or later. Insulation is no better than the man who installs it—which is another reason why Pampans should pick up their phones and call 732-W. If they contact Lane and get the job done right with Fi-Blak, they can be assured of getting the right insulation and the right man to do the job.

Pampans who are in the process of building homes should look into the insulation situation. The natural time to install insulation is when the house is first built, as it is less expensive then.

When Shopping Remember—Golden Loaf

Practically every grocery in town handles Pampa Baking Company's Golden Loaf white, wholewheat and rye bread.

Found in the red and Orange wrapper, Golden Loaf is baked daily by Roy Boyd and Cecil Rainey.

Frank Rapstine, owner of Pampa Baking Company, certainly knows what Pampans like in the way of fancy pastries. The savory flavor of these Golden Loaf butter-flake rolls — the lusciousness of doughnuts that are baked fresh daily — the raisin bread—

Stone hours at the Pampa Baking Company are from 8 a. m. to 10 p. m. weekdays and from 9 a. m. to 8:30 p. m. Saturdays.

Another taste treat that may be obtained at the bakery is pie. Between 50 and 60 fruit pies and about 20 cream pies are baked daily. Kinds of fruit pies are apple, apricot, cherry, pineapple, mince and raisin. Cream pies baked there include coconut, lemon, chocolate, cherry, apple and cream.

The bakery services neighboring towns, as well as Pampa. The other towns profiting from Pampa's Golden Loaf bakers are White Deer, Skellytown, Panhandle and Borger. Trucks are sent daily to these towns.

Rapstine strives to please Pampans by always having seasonal products on hand.

USE MULTITINT
MultiTint paint, truly a new paint discovery, is available at the Pampa Glass and Paint Company, 117 N. Frost. Under the joint ownership of M. B. Warden, D. B. Harrison and E. E. Harrison, the store has served Pampans since Feb. 2.

COSTON'S FINE PASTRY LINE
Coston's Bakery, 109 W. Francis, features every imaginable type of fine pastry. Cookies — cakes — pies — breads — are made by Clay Coston, owner.

INSURANCE IS NEEDED
Insurance is needed by everyone. The Martin-Turner Insurance Agency, 107 N. Frost, handles every type insurance and offers comprehensive coverage.

RAIN OR SHINE

D. Monday Shows Added Features

Dean Monday, co-owner of H&M Service Station, is shown displaying some of the merchandise sold there. The rack of tires at the right are both Mobil and Seiberling and Mobil auto accessories.

The new Sheppard wheel balancer is one of the latest additions to the station. Lloyd and Dean are tops when it comes to balancing auto wheels.

Seiberling sealed-air tubes were almost forgotten during the war years because they were so hard to get. Now, however, Seiberling tires and tubes are once again available to car owners who put the welfare of their cars on top.

The interior of the station, with its white and grey color scheme, is kept spotless. H&M has one of the cleanest and most modern service station interiors in town.

For the past month it was not unusual to drive up to the station to have the car serviced to see Dean, Lloyd, Billy Joe Johnson, filling station attendant, or Thomas Gray, porter, with paint brushes in their hands.

Many people who remember the station before it was taken over by Hamilton and Monday say the station doesn't look as if it were the same place. The inside of the company is now roomy as well as being kept spotless.

Pictured at the left are Gates car mats. The mats keep out cold, dust, motor fumes and are becoming more popular with Pampans who think a lot of their cars.

Besides the many accessories found at the company, candy and tobacco are now available at the clean H&M. It is little wonder why the service station is becoming increasingly more popular by the day.

Many people will use no gasoline other than Mobilgas. Mobile products are featured at the station. Included are Mobil batteries, Mobil tires and tubes

Canadian and Colorado Rivers Projects: Would Care for Water Problems—Krug

HOUSTON — (AP) — Development of the Canadian and Colorado Rivers is the only solution to water problems of the Southern High Plains of West Texas, says Secretary of Interior Krug.

These are the closest sources of additional water supply he declared Thursday night at a "save the soil and save Texas" dinner.

In his speech he pointed out that ground water supply in the plains area is being withdrawn at a rate of 20 gallons for every gallon returned from normal rainfall.

"If this present trend continues, water will be taken from the wells at an even greater rate and this disturbing disparity between withdrawal and recharge will increase."

Krug said the problem had grown rapidly since 1934. Then, there were only 300 wells in the area, irrigating about 35,000 acres.

In 1948 over 10,500 wells irrigated 1,250,000 acres. More than 1,000,000 acre feet of water was drawn from these wells in 1948. The significance of this large withdrawal of ground water is apparent when you remember that only 50,000 acre feet is returned to this same basin every year.

In considering possible solutions, the secretary said: "The cities in the Southern part of the area can best be served from the reservoir of the proposed Robert Lee Reclamation Project and we believe the cities in the Northern part can be taken care of from a reservoir site on the Canadian River near Amarillo."

For the remainder of the state, Krug said, the over-all water picture is considerably brighter because there is no progressive depletion of ground water.

He indicated, however, the Gulf Coast area, with its rapidly increasing population and growing industries, may be headed into a water crisis.

Houston and other gulf areas, he said, could be supplied with no great engineering difficulty from one of four or five different rivers.

But he added:

"The actual future demand on any single river cannot be determined until the demands of the entire Gulf Coast on all rivers are considered."

He said this situation has made it necessary to suspend irrigation investigations temporarily on the coast and concentrate on determination of probable magnitudes of future water demand for all purposes from the Sabine River to Corpus Christi.

"To this end," he said, "we have commissioned the University of Texas to study future development of the Gulf Coast and estimate future demand for water for municipal and industrial purposes."

Contest Over Election Fails

ODessa — (AP) — A suit to declare E. M. Farris winner in a City Council election has been dismissed by District Judge Paul Moss.

Results of the election gave Cal Smith a small plurality. Farris said the sample ballot was not posted the required 10 days before the election. He said that didn't give him time to correct a clerk's error.

Farris asserted he filed for the council first, so his name should have been listed first on the ballot. He said Smith's name appeared first.

Moss ruled he couldn't throw out an election because of a clerk's mistake.

Exchanges on Summer Schedule

NEW YORK — (AP) — Major security and commodity exchanges Saturday began their summer schedules under which most of them will be closed each Saturday through Sept. 24.

The first weekend closing will be stretched to three days, since all domestic markets shut down Monday for Memorial Day observance.

The cotton exchanges will resume Saturday sessions Sept. 3.

ISLAND OF ESCAPE

THE STORY: Henry Gough Harding, wealthy and middle-aged, has sought refuge from the world on Spare Island. He is to select a bride from four lonely women, Bea Cosgrove, Mabel Jones, Agnes Firth and Lily Warren, who are his guests. Fishermen appear on the island demanding water which they have agreed to give them, but Harding breaks the jaw of one man who hurls his pipe and smokes in the forbidden. Then Miss Firth, while tending sheep, discovers four fresh graves and runs screaming to the house.

"I'm a patient man," Harding said irritably, "but I detest hysterics. You women are all old enough to think for a moment before you indulge yourselves that way."

"But the graves," Agnes repeated.

"I told you there were large building operations here. There was much blasting necessary. Four workmen were killed, and buried."

"But the flowers? There are fresh flowers on one grave."

"Flowers? Oh. The fishermen of course. They're ignorant and superstitious. I even had a little trouble with them after the premature blast killed the men. Something about wanting a priest and hallowed ground. But it doesn't pay to pamper. . . . But we're getting away from the point. There is no room or reason for fear here. There must be a mutual trust. One of you may join with me in beginning the Spare Island dynasty."

Agnes Firth drew herself up stiffly. "You've pointed out how old we are. Have you thought it might be a trifle late for us to help you in that project?"

Harding looked blank.

"Speak for yourself, honey," Lily Warren said. "Just speak for yourself."

Agnes smiled. "I'd best get back to the sheep. I—I'm sorry I was so silly."

"Very well," Harding said. "And don't worry too much about the sheep. They know their way around."

"There is no room or reason for fear here," Harding said. "There must be a mutual trust."

"I'll do the best I can," Miss Firth mumbled. She stumbled away.

Lily Warren smiled. "What a gal. Can't make up her mind whether to be glad, sad or mad."

DURING the next days, life on Spare Island began to assume form without as yet attaining a routine. There were some jolts in the shaking down process.

Lily Warren, in the course of her duties, found underwear, night clothes, shoes and stockings among the supplies and handed them out according to her own ideas. Bea had no reason for complaint. Agnes accepted them without question. Mabel Jones looked at hers and took them to Harding.

"Mrs. Warren's a poor judge of size," she said. "Couldn't I have some that fit?"

"Of course," he said. "There's

Oklahoma's Legislature Quits Work

OKLAHOMA CITY — (AP) — Oklahoma's highest paid, highest spending legislature in history has finally quit, 144 days after it opened Jan. 4.

Its work isn't done, though. Gov. Roy J. Turner already has announced he will call a special session this fall following the \$38,000,000 bond issue special election on Sept. 27.

The Legislature spent some \$142,500,000, nearly all of the anticipated revenue for the next two years. The final amount will not be determined until a final Turner sign-off or vetoes all the measures passed in the last few days.

The state gas tax was increased one cent a gallon to six and one half cents. The money will go for rural roads.

Marble boards were legalized for amusement only.

Repeal of prohibition and the proposed veterans bonus, two of the hottest issues, died in the closing days with no action taken. Supporters had wanted each submitted at a statewide special election, either Sept. 27 or at the primaries July 4, 1950.

The solons were the highest paid in the nation, at \$15 per day for the first 75 legislative days and after that \$100 per month.

Previously they were paid \$6 per day for 60 days, then \$2 daily.

State colleges and universities were opened to Negroes by state law for the first time in history. To comply with federal court orders, the Legislature permitted them to attend state schools, if courses are not offered at the only Negro college in the state, Langston University.

It's a Long Climb for Radio Actors

NEW YORK — (AP) — How would you like to be 24 years old and realize you were making as much money as you did at 67?

Wendell Holmes is in this position. He is one of the better-known voices from the void that come out of your radio box.

And his career is a good example of the hardships in radio acting, a field to which many feel themselves called — but few hear themselves chosen. For to many golden voices radio offers a pearly reward.

"There are about 5,000 radio actors here," said Holmes. "And last year they averaged \$16 a week salary. Only about 500 manage to earn a truckdriver's living."

Holmes, an ex-child Chautauque star, is now among the top 100 radio actors whose income reaches several hundred dollars a week. But it took him 15 years to get there. And many were hungry years.

"When I started in 1934 I got \$20 a week for working on 30 shows," he said wryly.

Since then Holmes has been the voice of Winston Churchill on a number of radio programs and March of Time films. He is currently in three daytime soap opera serials. He also plays Dr. Watson on the MBS Sherlock Holmes program and also narrates the title role in another MBS production, Scattergood Baines.

"So far I haven't been introduced on the air as Scattergood Baines," he said with a mild shrug. "But it's a tongue-tie someone's bound to make eventually."

At the age of 6 he won an oratorical contest in Middleport, O., and a Chautauque scout signed him up.

"For the next four years I got \$500 a week or more," he recalled. "That about ruined me, as I've never been able to equal it since."

For two seasons he toured with William Jennings Bryan. The boy gave matinee monologues. Bryan held the natives spellbound with a four-hour tent oration in the evening.

"I never heard a more tremendous voice," said Holmes. "Bryan could make 10,000 people hear him, and he didn't use a microphone."

"One day our car became stuck in a West Virginia dirt road. Bryan got out in the rain, rolled up his sleeves and helped pry us out of the mud. He said some language to the mud stronger than he ever used on the platform."

Cotton Shipper Opens Jail for War Veteran

RUTLAND, Vt. — (AP) — A sympathetic Tennessee cotton shipper contributed funds that opened the doors of Rutland Jail Thursday for one of three war veterans held under a century-old law for non-payment of court judgments.

Ralph H. D. Fugatt, 29, a combat veteran, was released after spending 82 days in jail.

The court judgment, totaling \$2,682.39, arising from an automobile accident, was paid by Edward Sanders of Memphis, who said he read of Fugatt's plight and "sympathized" with him.

The veteran has claimed from the outset that he did not have funds to meet the judgment.

The other two veterans, Bernard J. Smith, 23, of Fair Haven, and Frederic L. Lapan, 26, of Marshfield, are still held. Smith owes \$2,900 and Lapan \$450 on accident judgments.

The tropical bread-fruit tree has many uses: Its fruit is a dietary mainstay; its wood is used for canoes; its inner bark, for the manufacture of cloth, and its juice for glue.

Her Highness Rita Is Wife of A Future Spiritual Leader

By DEWITT MACKENZIE
AP Foreign Affairs Analyst

Her Highness Rita Hayworth has married into a position which is unique, or will be when her husband, Prince Aly Khan, succeeds his father, the Aga Khan, as head of the great Ismailiah sect of Mohammedans.

The Aga Khan's religious title is Iman, which is somewhat similar to that of Caliph. He claims direct descent from the Prophet Mohammed, and as Iman, is spiritual leader of many millions of people in India, Afghanistan, Khorasan, Persia, Arabia, Central Asia, Syria and Morocco.

There is no other position comparable to this.

The Aga Khan also has the title of Prince, and is addressed as "Your Highness," like the now dethroned Indian maharajahs. This title also is accorded his sons. Thus Rita will be called Princess, and in due course presumably will have the distinction

of being the wife of the Iman, since Aly is heir to that position.

Being a purely spiritual ruler, the Aga Khan has no princely palaces (Aga Hall) in Bombay and mansions in other places. So his reputedly vast income (a part from what he derives from the fortune amassed by himself and his predecessors) comes from offerings from his followers. What these donations amount to hasn't been disclosed to the public. Obviously the total could be huge, but here it should be noted that the Aga Khan gives big sums for charitable purposes among his

Her Highness Rita Is Wife of A Future Spiritual Leader

people.

Prince Aly apparently takes after his father in liking the West—spending much of his time in Europe and America. That should be all to the good for her wife, as she says she is continuing her screen career and moreover I feel sure she wouldn't care to be anchored in India indefinitely.

It is a wonderful country to visit, and Miss Rita would be a strange girl if she didn't want to see her husband's home in Poona — Yerowda Palace — but many Westerners find the climate and life difficult after a bit.

Under the Mohammedan creed a man may have more than one wife at a time. However, neither the Aga Khan nor Aly has taken advantage of this privilege. The Aga Khan has been married three times, his first wife being Italian and the other two French.
