

Sinclair to Run New Deep-Test

Pampa News

VOL. 48—NO. 96 (20 PAGES) PAMPA, TEXAS, THURSDAY, JULY 28, 1949

New Development Follows Big Show of Gas in No. 2

By BUD ANDERSON News Oil Editor
A new deep-test by Sinclair Oil and Gas Co., to be located about one mile north of the Lips No. 2 in Roberts County, was reported today by Sinclair officials.

Present plans are to test the Ellenberger well, according to geologists, should be hit around 10,500 feet. However, Sinclair wants a good test of the Simpson and Ellenberger and is preparing to drill the Lips No. 3 from 12,000 to 14,000 feet if necessary. This was the latest development following reports yesterday of a big show of gas in the Lips No. 2.

The No. 2, located 1980 feet from the north and east lines of section 18T, bk 13, T&NO Survey, 36 miles northwest of Miami and one and a half miles northwest of the discovery well, Lips No. 1, flowed 10,300,000 cubic feet of gas through a five-eighths-inch choke in a two-hour test. Calculated open hole flow was 36,440,000 cubic feet of gas.

Operators also recovered 30 feet of mud and about two gallons of distillate.

Gas sand was topped at 8,118 feet with the test being taken between 8,127 and 8,191 feet. The formation was in the Pennsylvania.

Drilling was to continue, according to Sinclair officials, to 9,000 feet to test possible oil zones in line in the upper Mississippian. This zone should be hit around 8,500 feet.

Officials state the morning acid test was taken in the Mississippi on April 22 and if no commercial show appeared, the well would be plugged back to the present depth and produced for gas.

Seven-inch pipe has already been set and it would be in (See NEW, Page 8)

Acheson Says Prompt Aid Necessary

WASHINGTON (AP)—Secretary of State Acheson told Congress today the United States should begin promptly to help rearm Western Europe because "the possibilities of huge Soviet forces cannot be ignored."

Leading off the administration's drive for Congressional approval of the foreign arms program, Acheson pictured Western European countries as living under the shadow and constant fear of Russian armies which are the greatest the world has known.

He also suggested that Russia is approaching a crossroads in its policies toward the West where it may have to choose whether to continue trying conquest by political means or to resort to "military means."

Acheson appeared before the House Foreign Affairs Committee. Acheson said "the mere presence" of the large Russian forces "has had a psychological effect that has been damaging to recovery and stability, and has been a major influence in the loss of freedom in important areas of Europe."

"Nor can the possibilities of direct military aggression be ignored," he said. "When political aggression fails, as it has failed so far in Western Europe, totalitarian regimes are often tempted to gain their ends by military means, particularly when they consider that no effective resistance is possible."

Acheson repeatedly told the committee that if this country would be in the pincer of the North Atlantic Treaty with military assistance he believes peace would be secured.

"The fundamental pledge of the treaty, that an attack on one signatory will mean an attack on all, closes the door to aggression."

President Truman asked for a \$1,400,000,000 one-year program to start, most of it for the past year.

It would permit the United States to furnish military equipment to past countries and other nations in the interest of promoting international peace and resisting aggression. Dollar assistance could be furnished to increase arms production in friendly countries.

New Farm Law Planned

WASHINGTON (AP)—A team of seven Republican and Democratic senators buckled down today to the task of whipping a new farm program into shape. Headed by Senators Anderson (D-Mich.) and Aiken (R-Vt.), the lawmakers are trying to write a substitute for both the present law and another measure passed under Aiken's sponsorship last year and due to go into effect in January.

The Aiken law is based on a flexible price support program. It would allow federal price supports on some crops to dip as low as 60 percent of parity.

The present law sets most supports at 90 percent. As compromise, Aiken offered to raise the price-support floors in his own bill.

"I think government supports should range from 90 to 75 percent of parity for the basic crops," Aiken said in an interview. "And from 90 percent down to zero for the non-basics."

Anderson, chairman of the agriculture subcommittee drafting new farm legislation, said the battle between rigidly fixed government price props and the flexible supports — which would drop to discourage surplus production — is undecided.

WEST MONROE, La. (AP)—Members of the Trinity Baptist Church in West Monroe have turned the other cheek to a new pastor's home next door to a brick church Sunday during a heavy rain. The Rev. Filer Seals and the Board of Deacons went into a huddle. Yesterday they ran the following notice in the Monroe News-Star:

"Somebody evidently in search of a bed cut a window screen at the rear of our church Sunday night, and proceeding to the kindergarten room, crawled into an upstairs bedroom where he slept for the night. So far as is known nothing in the church has been disturbed.

"We wish to state that if anyone wants a night's lodgings, he can obtain it by calling at the pastor's home next door to the church. A key to one of the five doors will be cheerfully loaned."

Let's go Evinruding. See them at Lewis Hardware.—adv.

Polio Cases Far Ahead Of Last Year

By The Associated Press
Infantile paralysis cases in 1949 are running far ahead of 1948 — the second worst polio year in U.S. history.

An Associated Press survey today showed 5,935 cases over the nation through July 27, with 337 polio deaths.

In 1944 the total for the same date was 4,176. Totals for 1944 eventually reached 19,029, topped only by 27,363 in 1916.

The U.S. Public Health Service in Washington reported the 6,339 cases as of July 23 this year was 38.4 percent higher than the 4,580 reported through the same date in 1948 — and 1948 was a near-record year.

The polio appeared to be gaining strength. Government figures showed 1,444 new cases during the week ending July 23. This was an increase of 47.5 percent over the same week of 1948, which had 979. In 1944, there were 915 new cases for the week ending July 27.

For the most part the polio upsurge appeared to be fairly evenly distributed over the nation. Only scattered epidemic areas were reported.

At least 33 states reported a step-up in the polio rate. Eight showed a decline.

Nineteen states have had more than 100 cases this year compared with only seven states above the 100 mark at the same time last year.

Nearly two-thirds of the nation's polio was centered in nine states. The leaders were Texas, 1,123; California 708; Arkansas 458; Oklahoma 440; New York 353; Missouri 302; Minnesota 288; Michigan 270; and Illinois 259.

Oklahoma authorities said more than half the state's 440 cases have recovered. They said they had enough equipment to take care of patients but not enough trained personnel.

New York City, which has had 14 polio deaths since July 1, issued an emergency call for nurses.

The Red Cross said Arkansas was one of the hardest hit states in the nation. Most of the victims were stricken during May, June and July.

Texas health directors said the state "has had more polio this year than ever before in its history." There were 67 polio deaths during the first six months.

CIO Head Holds Club Over Hawaii

HONOLULU (AP)—Hawaii's Legislature called into emergency session today to deal with the three-month-old longshoremen strike worried today whether any law it writes will reopen territorial ports.

Harry Bridges and local CIO longshoremen leaders have predicted government seizure of docks would spread the strike to mainland ports. They say seafaring unions would refuse to sail ships and West Coast longshoremen would not handle cargo.

The Hawaii Senate and House last night returned to agree on a seizure bill.

But they did not know what to do about the Bridges' threat.

Congress Appears Victor In Atom-Sharing Dispute

WASHINGTON (AP)—Congress members appeared today to have won a major victory in the hot dispute over their right to help decide whether atomic secrets are to be shared with other nations.

Lawmakers greeted with obvious satisfaction the presidential olive branch held out yesterday at a closed door meeting of State Department, military, atomic and Congressional policy makers.

Mr. Truman told the Senate-House Atomic Committee through Secretary of State Acheson that he feels any action on the sharing-atom issue must have the support of both Congress and the executive branch.

A vital factor in the question of sharing the secrets with Britain and Canada is the fact the United States is largely dependent on those countries for its supplies of uranium — the material that makes atomic weapons possible.

OPERATES ON SELF — Dr. George Balderston relaxes in bed in a Telluride, Colo., hospital shortly after removing his own appendix to test the reaction to local anaesthesia and to study post-operative effects. One day after the operation, Dr. Balderston was treating his patients. He said he had figured to prove people should "get back on their feet as soon as possible after surgery." (AP Wirephoto.)

Culberson Says Here That Shivers' Offer 'Ill-Advised'

Texas Railroad Commissioner Olin Culberson told a Rotary Club group here yesterday that Gov. Shivers' offer to compromise the federal issue with the federal government was "ill advised."

The commissioner made the statement in a forum following the address. He was asked if Shivers' offer had done any damage to Texas' case for tideland ownership. His reply was he didn't know just how much damage had been done, but he considered the offer "ill advised."

He stated the tidelands was an all-or-nothing affair. "Good Texans will be like good poker players," he said. "We will play our hand for all the pot. If we lose we will be good sports about it."

Culberson also stated he believed the greatest mistake Texas had made in the tidelands problem was trying to play "blocking back" for California.

"We should have minded our own business," he said. "We would be much better off now."

In speaking of conservation and future allowances for Texas, Culberson said the present generation had no right to gut resources. "Future generations have a share in these resources too," he said.

"But," he warned, "production can't be cut back too sharply. Every barrel we cut back," he declared, "will be replaced by foreign import." He also made this statement Tuesday at a luncheon given in his honor by the Railroad Commission.

One member of the forum yesterday asked about his stand against the use of sweet gas in the carbon black industry. "Manufacturers insist on using charcoal process which will yield three-fourths pound of carbon black," he explained, "instead of the furnace process that will yield eight pounds of black per thousand cubic feet of gas," he asserted.

He pointed out that there was 800 percent greater yield in the furnace method and 800 times less waste of natural resources.

Culberson left yesterday afternoon for Amarillo. He will then go to Dalhart for an address to-night and is scheduled for another address in Perryton tomorrow.

He will return to Austin following the Perryton address.

Talmadge Still Georgia's Ruler

ATLANTA (AP)—There is little doubt today that Herman Talmadge still is the political kingpin of Georgia.

Some politicians said privately that until now doubt of Gov. Talmadge's ability to act decisively and to maintain control of his followers has been one of the biggest political factors in the state.

It was the big "if" around Talmadge's tax program, a candidate apparently were building gubernatorial hopes.

Yesterday Talmadge emerged triumphant from a special legislative session which voted new taxes—\$20,500,000 worth.

The magic cry which gave Talmadge his tax program almost as he wrote it originally, was "the Governor wants this."

All that remains for the special session to do is to concur in a few amendments and approve an appropriations bill which gives the Governor wide latitude in saying how the new revenues will be spent.

We have Ping-Pong table tops with handles. Regulation size. Pan-handle Lumber Co., 420 W. Foster. Phone 1000.—adv.

Ex-Convict Killed in Gun Fight

A Pampa ex-convict, Pat Fisher, was fatally shot at 9:30 p. m. yesterday in the 400 block of W. Maple as he stood on the street between the Busy Bee Cafe and Newman's Barbershop.

Fisher died in the emergency room at Pampa Hospital while physicians there were examining his bullet-riddled body.

Slugs from a 32-20 pistol had ripped into his stomach, side and chest.

A few minutes after the shooting, O. J. (Waco) Woodley, 50, employed as a cook at the Owl Bar, surrendered to the Sheriff's Department, but refused to surrender to City Police.

Sheriff G. H. Kyle and a reporter this morning learned that Fisher, after being shot, ran through an alleyway between the cafe and barbershop, ran along the rear of the shop and then between the barbershop and the house of Hattie Fogel. Spurring blood spattered the walls of both buildings, indicating the dying man staggered wildly. The trail ended at the rear of the Pogue house where Fisher left a bloody handprint on the corner of the building. There he dropped and was picked up by Duengel-Carmichael ambulance men.

The shooting climaxed a long standing feud between Fisher and Woodley.

Fisher was sent to the penitentiary on April 2, 1948, after attempting to kill Woodley's wife with a shotgun. That was Fisher's second trip to Huntsville. In 1933 he was sentenced to 15 years for the strong-armed robbery of Ellis McNeill on May 15, 1931.

The same day Fisher robbed McNeill he shot and killed Clarence Wilson in McNeill's place. The case went to court, but no judgment was ever handed down.

Still later Fisher was indicted for another robbery and another assault with intent to murder. These two cases eventually were dismissed.

Kyle, this morning, said: "Fisher has been asking for this for a long time. When I took him to the pen, the last time, he told me he was going to kill Waco when he got back. He threatened also to kill a couple of the boys in 'The Flats too.'"

The sheriff added that Woodley had come to him on numerous occasions asking for help and protection from Fisher. When Fisher returned from prison about two and a half months ago, officers advised him to drop the feud and leave town.

Fisher, officers reported, moved to Berger, but he insisted on coming back to Pampa every day.

Fisher had a long petty police record as a troublemaker as well as a felony record.

Feeling in the Flats this morning was anything but high against Woodley as residents there appeared to be relieved of a heavy burden.

No bond had been set for Woodley this morning, but the case is expected to be handed over to District Attorney Tom Braly this afternoon.

No survivors of Fisher were available this morning at the Duengel-Carmichael Funeral Home where the body is being held pending further arrangements.

TRUMAN NAMES THREE

WASHINGTON (AP)—President Truman today nominated Daniel J. Cleary of Illinois, Mrs. Georgia L. Lusk of New Mexico and David N. Lewis of New York as members of the War Claims Commission. The positions pay \$12,000 a year.

Tangled Senate Gropes for Aid on Foreign Aid Bill

WASHINGTON (AP)—A confused Senate tangled in its own rules-groped for a way today to reach a vote on the big foreign aid bill.

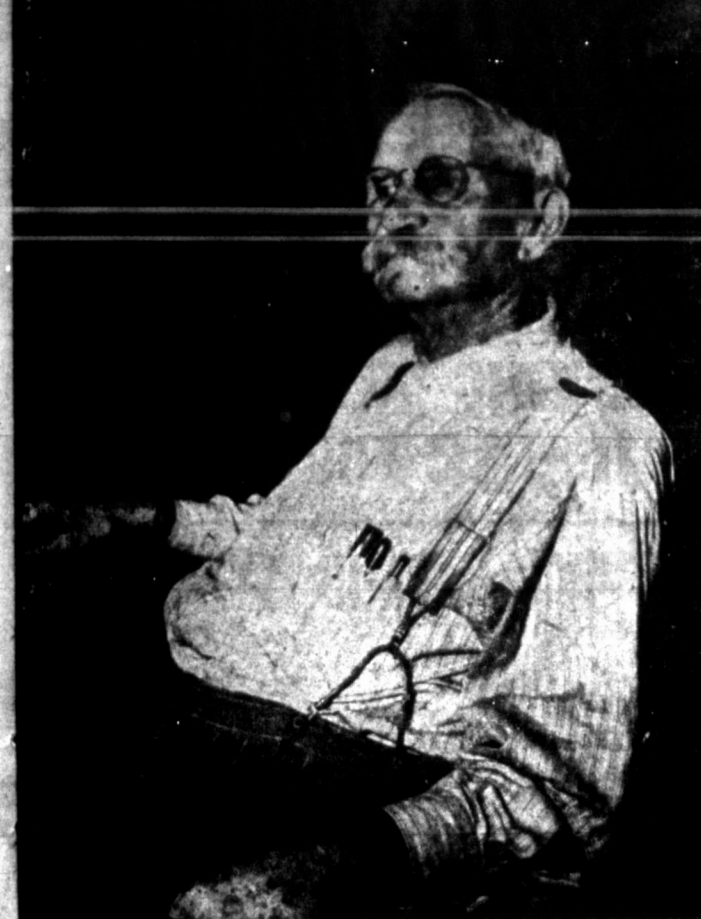

The whole vast issue was thrown back into the lap of the Senate Appropriations Committee late yesterday on a technical point, leaving the Senate just where it stood two weeks ago.

Chairman McKellar (D-Tenn) was expected to call the committee into extraordinary session today.

Some senators demanded the entire recovery program be re-opened.

The Economic Cooperative Administration already has committed most of its emergency funds, and the European Recovery Program may stop before the bill gets back on the Senate floor.

Briefly, here is what happened in the four hours of confusion which stalled the aid bill:

BOOKER M. D. SAYS HE'S DELIVERED 3,000 BABIES

By WES CAMPBELL
Pampa News Correspondent
BOOKER M. D. (Special) Dr. Ira T. Smith guesses he has delivered 3,000 babies in his time, although his old record is long since gone; but it is no guesswork that his family moved the first house here and his family was the first to live where this community is located.

Medical doctor, surgeon, collector of rare coins—that's Dr. Smith, who has an old clock which he allows no one else to wind.

Born in Sullivan County, Mo., in 1868, Dr. Smith is of Irish descent, even though he speaks with a German accent because he spent 13 years in a German settlement when his parents first came to this country.

He practiced medicine first in the Oklahoma Territory—10 years without a degree. It was on Feb. 18, 1908, that the State of Oklahoma allowed his certificate to practice medicine and surgery in that state.

Dr. Smith and his family moved to La Kemp in 1913, five years later coming to Booker. Later he studied medicine at Chicago.

He moved a drug store here in 1918 from La Kemp, and it was later destroyed by fire. He doesn't remember when he built the second one, but it is still standing. Residents miss the old clock which he kept in the store—because he took it with him years ago. Mrs. Smith died last fall, leaving only his four children—John of Amarillo, Bill of Woodward, Okla.; Mrs. Orvil Bohm of Darrouzet; and Mrs. Charles Sanders of Colwater, Kans.

At 81, Dr. Smith is still a contented man. (See BOOKER, Page 8)

Jury Frees Teen-Ager of Murder Charge

WAUKEGAN, Ill. (AP)—Joyce Schumaker, an 18-year-old blonde girl, was freed by a jury last night of charges of murdering her 52-year-old paramour.

There was an outburst of cheers from the courtroom crowd as the verdict was read. Many bobby soxers, former schoolmates of Joyce, were present.

"I was really worried until I heard the verdict," Joyce said. "I feel wonderful. It is a wonderful surprise. I have never stopped praying in four months."

Joyce was tried for the slaying of Carl Reeder, 53-year-old school clerk.

She said she was uncertain about her future. She said she may become a missionary or, perhaps, a professional softball player.

Her mother, Mrs. Edna Schumaker, said the family will leave Waukegan so her daughter can start life anew and finish high school.

The state had not asked for the death penalty or life imprisonment, asking only that Joyce be punished.

Defense Attorney Sidney H. Block, in his closing statement to the jury, termed Reeder a "moral degenerate, a big brute, a pure moral leper."

Joyce was an "emotional, happy-go-lucky kid of 16 before Reeder entered her life."

Joyce was on the witness stand for 2 1/2 hours yesterday. She contended that the shot which killed Reeder as they sat in his car on the Lake Michigan beach last April 4 was fired accidentally as they grappled for the gun. She admitted she had her finger on the trigger.

She testified she had sexual intercourse with Reeder. (See JURY, Page 8)

Gunman Dies Of Wounds

LOS ANGELES (AP)—Edward (Neddie) Herbert, henchman of gambler Mickey Cohen, died early today of shotgun wounds suffered July 20 at the hands of rival gangsters.

Herbert had been in a critical condition since the shooting. The slugs blasted his liver, spleen and kidneys. Cohen, a former movie bit actor, and a state-appointed bodyguard for the gambling boss, also were hit but are recovering.

Herbert had escaped 11 shots from gangsters only a month before as he was entering his apartment.

Former Pampan Buried in Kansas

Clarence W. Hill, 1104 N. Starkweather, has received word of the death of his uncle, Perry Post, former resident of Pampa.

Post and his sister, Mrs. Bell Dee, owned and operated the old Union Bakery here for a number of years.

They moved to Pampa from Tomkawa, Okla., during the boom years and lived here until they retired in 1938. The bakery was located where the McCauley Jewelry Store is now.

The interment was in Topeka, Kansas.

HORSEPLAY—A photographer flying over Gore Sound near Morehead City, N. C., came upon this strange sight of frolicking horses. It became a game of follow the stallion into the cool water when the temperature got too hot for the horses in their shoreline pastures. The semi-Wild stock is allowed to run free on the isolated banks but is rounded up each year so the yearlings may be branded by their owners.

The black bear may weigh as much as 800 pounds when full grown.

The jack rabbit is not a rabbit but a hare.

Wheat \$1.80

PORT WORTH LIVESTOCK
Cattle 1,400 calves 600, steady to weak. Common to medium steers and yearlings 15-20. Best cows 11-15.50. Good and choice fat calves 20-25.50. Common to medium calves 14-20. Stockers scarce.

Hogs 300, butchers steady to 25 cents higher. Sows and pigs unchanged. Top \$22. Good and choice 190 to 210 pound butchers 21-23.75. Good and choice 160 to 185 pounds 20-21.50. Sows 12.50-14 and feeder pigs 17-20.

KANSAS CITY LIVESTOCK
Cattle 500 calves 100, not enough steers or heifers to test market. Very slow, unevenly weak to 50 or more lower. Yearlings and killing calves steady. Few medium and good short fed. 18.50-24.00. Common and medium grade yearlings 15.50-20.00. Medium to good cows 15.00-16.00. Vealer top 21.

Hogs 1800, active, steady to 25 cents higher. Top 22.50. Good and choice 18.50-21.25. 22-25. 200-200 lb. 21.25-23. 200-215 lb. 20.25-21.50. Sows 25-30 higher. 14.50-19.50.

Problem: Who Gets Air Conditioner?

HOUSTON — (AP) — Lieut. H. A. Supple, head of the police gambling squad, confiscated a \$600 air conditioning unit while raiding a horse race bookie establishment last week.

Now he is trying to figure out just what to do with the unit.

Under Texas law, he says, it must be destroyed or placed in use in a public building.

So the big question around the police station is: "Who gets the unit?"

Supple is receiving many suggestions.

The only air conditioned service now in the building belongs to Police Chief B. W. Payne.

Man Waits 33 Years To Divorce Wife

LONDON — (AP) — William George Broderick lived only 12 days with his wife back in 1916. But he waited 33 years before going to court to divorce her on grounds of adultery.

The 37-year-old husband explained he hadn't been able to

Oldsters Win Right to Sit And Whittle

SWEETWATER — (AP) — Sweetwater's oldsters have won the right to go on sitting on their sidewalk benches, whittling and talking.

Recently property owners demanded that the city enforce ordinances against sidewalk obstruction. Some citizens suggested the oldsters might be more comfortable if their benches were moved to the Courthouse lawn, where there is some shade.

The old men, who have set up and enforced strict rules against spitting on the sidewalk, cutting on the walls, or obstructing traffic, went into action.

They hired an attorney and distributed a petition Tuesday night the petition, bearing 350 names, was submitted to the City Commission.

The commission ruled the old men can keep their benches at the corner of Highway 80 and Oak Street. In fact, the commissioners decided they'll amend the ordinances if necessary.

Galveston Runs 25 Years in Black

GALVESTON — (AP) — Galveston's city government now has operated a full quarter-century without using red ink.

Announcing this, City Auditor Frank A. Quin said he believes it is a record no other Texas city can equal.

Quin explained the record covers only the general fund and not bonded indebtedness.

A carefully planned budget, rigidly followed, enabled Galveston to stay in the black, he said.

Another factor is consistently high percentage of tax collections, averaging 96 percent. Quin attributed this to "wise assessments."

He said heavy assessments bring heavy defaulting and costly collection suits.

Snakes, owls and hawks prey upon young jack rabbits.

CONCILIATOR—Paul A. Porter, above, was nominated by President Truman to be U. S. representative on the Palestine Conciliation Commission. He succeeds Mark F. Ethridge, publisher of the Louisville, Ky., Courier-Journal. A Washington attorney, Porter was formerly head of OPA and chairman of Federal Communications Commission.

Texas Woman Tells Of Love Swindle

WYTHEVILLE, Va. — (AP) — A Texarkana, Tex., woman told Virginia State Police that she had been swindled out of \$2,800 after wooing her by mail.

The Texas woman wrote State Police Capt. Edward J. McDermott that Torrence told her he had lots of cattle and a big farm for them but no water. She said Torrence turned on the

village jail waiting trial on a charge that he swindled a Carroll County woman out of \$2,800 after wooing her by mail.

She said she has not heard from Torrence in some time.

The jack rabbit is one of the speediest of small mammals.

**AIR FORCE SQUADRON MAPS
HUGE AREA OF ARCTIC WASTES**

The formidable peaks of Mt. McKinley and adjacent wild terrain in Alaska mountain ranges which for years have defied exploration fall easy prey to the probing cameras of the U. S. Air Force 72nd Photo-Reconnaissance Squadron. Mt. McKinley, highest mountain on the North American continent, as it soars to 29,300 feet, is a familiar sight to the crews of the B-29 of the Squadron that travel back and forth over such areas to make overlapping photographs for much needed charts.

More than 260,000 square miles of Alaskan terrain has been photographed by the Squadron since its arrival in Alaska in 1946.

Here S/Sgt. R. H. McLeod, Seattle, Washington, passes E-17 camera to 7/Sgt. Lewis White, Salado, Texas. Magazines on cart (right) are fixed into position atop cameras after they are mounted. Each carries a 200-foot roll of film and rolls are easily changed in flight. As many as 30 loaded magazines are used on one mission. (U. S. Air Force Photo.)

**Writer Has Solution for
Long-Winded Congressmen**

By JAMES MARLOW
WASHINGTON — (AP) — These are the dog days in Washington, when the weather is hot enough to boil your shirt, and Congress is trying to finish up for the year and go home.

In spite of the heat, which is scorching the city like a blow torch, the old, slow, waltz-me-around-again, pulling and tugging among the congressmen never stops.

Of course, they have a nice place for it, air-conditioned, and their offices are cool so where they do their fussing and long-winded speechmaking is pleasant as spring.

After walking in out of the crushing summer sun and watching them operate in their unwrinkled lines, I figured I could speed up their unfinished business.

It would be easy. Just move them to some of the un-air-conditioned offices in Washington, turn them loose, and see how long it would take them to get done and go home.

Congress wants to get away by Sept. 1. There are a few things left to clear up. That is, of the things they want to clear up.

Gone now is all talk of some of the big programs that got so much attention earlier in this session. For example, a national compulsory health insurance program. Nothing will be done on that this year. Maybe next year. But it would be a sturdy character who'd bet that anything happens on it next year, either.

Then there's President Truman's civil rights program—the anti-poll tax bill, an anti-lynching bill, and the FEPC (the Fair Employment Practices Commission)—which held a big place in the news when this 81st Congress took over last January.

I can't see how any of it can be squeezed in, even for debate. Congress may try to put through a new minimum wage law—raising minimum pay for workers in interstate industry from 40 to 45 cents an hour—and it may act on these:

Widening social security and voting momentary Truman's program to arm Western Europe.

Meanwhile, though, there'll be plenty of news out of Congress. Congressmen will be holding hearings and issuing statements.

**The Carys
Take Pampa**

Mr. and Mrs. F. A. Cary have just returned from a two-month vacation in the Pacific Northwest with the notation that they prefer Pampa.

They took with them two nieces from Snyder, Tex.—the Misses Ann and Mary Alice Richardson.

In a note Cary says "Points of interest visited included Carlsbad Caverns, New Mexico Lava Beds, Grand Canyon, Los Angeles, San Juan Capistrano, Santa Catalina, Sequoia and Yosemite Parks, San Francisco, with its Chinatown; Reno, Nev., Columbia River, with a salmon fishing (no salmon), Seattle, Spokane, Lake Louise and Banff in Alberta, Canada; Glacier Park, Yellowstone Park, Salt Lake City, Denver, Santa Fe, and back by the Bottomless Lakes of Roswell, N.M."

He said the Northwest is fine for a vacation, but that he and his wife prefer Pampa.

"Arizona was too dry, Nevada too open, Los Angeles too big, San Francisco too crowded, Lake Louise too expensive, Salt Lake City too hot, and the mountain roads too winding. Just give the Carys Pampa, Texas."

**Girl Charges
Seven With Rape**

HOUSTON — (AP) — Police are hunting seven teen-aged boys whom a 14-year-old girl accused of rape.

The girl said the boys held her prisoner six hours. Two of them finally volunteered to take her home, she said, but instead took her to another place and raped her again.

She told police she was going to a drug store Tuesday night to buy ice cream for her hospitalized mother. A boy friend she met asked her to take a walk, she said. Two other boys joined them.

The boy friend and one of the other youths left her. The third dragged her to an isolated spot and raped her, she said. Six other boys came along and raped her, too, she said.

The girl said her screams could not be heard in the unpopulated section.

**Pickpocket Swallows
Watch He Lifted**

KOBE, Japan — (AP) — That ticking noise the doctor heard in Yukio Abe's stomach was genuine — it was a gold watch with a chain 12 inches long attached.

FBI said Abe swallowed it when they arrested him for pick-

EAST AND WEST MEET—This German beer garden is smack on the border of the French sector of Berlin and the Russian zone. In fact, the boundary runs right through the place, which means both east gold (east money) and west gold (west money) can be used. With six Soviet-backed marks going for one Westmark, patrons usually sit on the Russian side, like this family, and pay for their food and drink in Eastmarks.

**PREMIER SAYS RUSSIA COULD
DRIVE TO ENGLISH CHANNEL**

By DEWITT MACKENZIE
AP Foreign Affairs Analyst
Premier Antonio de Oliveira Salazar of Portugal advised his National Assembly Tuesday that under present conditions Russia could, if she wanted to, "carry her armies to a smashing march as far as the English Channel and the Pyrenees."

During his 20 years of dictatorship the 60-year-old Salazar has established the reputation of being one of the world's most astute rulers. He merits attention.

The Premier might have added, I believe, that while Russia may be capable of such a drive, she isn't likely to undertake it as things now stand. Still it's an uncomfortable fact that from the military standpoint she might be able to achieve it.

The Allied rearmament plan for Western Europe is based largely on the potential combat strength of the five nations comprising the Western European Union—Britain, France, Belgium, The Netherlands and Luxembourg. That totals about 1,600,000 men. They would hold the fort until American troops could be thrown into action.

As opposed to these forces, Russia is said to have a total of more than four million men, including 2,300,000 in the ground forces.

Such a superiority in manpower makes it clear why Premier Salazar thinks the Muscovites could reach the English Channel in a "smashing march." They might, but there is a powerful deterrent in the way of any such attempt, and it is this:

Russia is encountering grave

resistance to her domination of Eastern Europe from the peoples of the various satellite countries. With this being true, is Moscow likely to launch any military drive to overrun Western Europe? Such an offensive would be a wide-open invitation to the satellites to rise and strike for liberty. It would only be undertaken as an act of desperation.

There is no emergency at this juncture which warrants the supposition that the Soviet might try to march. However, this doesn't warrant any complacency on the part of the democracies.

Rice is becoming an important crop on the delta of the Rhone River.

**Organ Suggested
For Memorial**

CORSICANA — (AP) — A pipe organ in memory of the late Beauford H. Jester is the choice of a memorial committee at the First Methodist Church here.

The committee to handle funds for a proposed memorial was organized Tuesday night. Members unanimously chose a pipe organ to cost between \$25,000 and \$40,000 installed in the church as the memorial.

Several voluntary and unsolicited checks for a memorial have been received by Dr. Erwin F. Bohmfalk, pastor of the church.

Mr. Byrnes Has Troubled Notions

MR. JAMES FRANCIS BYRNES has been kicking around in government jobs for the past 50 years, has come to a decision to look him an inordinately long time to figure it out...

Where we will wind up, no one can tell. But it seems that the program seriously proposed would be adopted, there is doubt as to the individual, whether farmer, worker, manufacturer, lawyer or doctor, will soon be an economic slave pulling in the rear of the galley of the state.

It was Mr. Truman who made it secretary of state, and there is no rumor they'd fallen out of love. Yes, Mr. Byrnes put the bee directly on Mr. Truman in his speech the other day. He attacked the administration's farm price support program...

When the individual is left without the capacity to care for himself because taxation and manipulation has robbed him of his earned wealth, where will he turn but to the state? And where will the state turn but to increase its robbery and become all-powerful.

Washington by Peter Edson

WASHINGTON (NEA)—How much money is going to be saved for the taxpayer by reorganization of the federal government? There has been some loose mention of possible savings from \$1,000,000,000 to four billion dollars.

Fair Enough - Pegler

By WESTBROOK PEGLER (Copyright, 1949)

NEW YORK — This is a less emotional approach to a proposition which I consider very fair. The editorial treatment of General Harry H. Vaughan, of President Truman's staff, has been a wanton imposition on the privilege of a free press and more a discredit to journalism than to Vaughan. I am above offering for your consideration the fact that I have not been a sycophant at the Court of Harry Truman.

In a good many ways, Major General Harry Vaughan explains the failure of the Truman administration on the domestic front. With the very best intentions Truman has continuously tried to give this country progressive government. But he has not done so.

The trouble is that the two essentials of a successful progressive government are, first, ideas and second, ideas. You cannot very well progress unless you have some notion of where you want to go and why. And you cannot induce people to follow social change unless you can inspire them with an inner fire and excitement.

Down to here you have some laudatory, rhetorical flouncing by a naming essayist who holds Vaughan up to scorn for the fact that he calls the failure of Truman's administration without admitting to your consideration the fact that Truman himself detested those proposals which are falsely called "progressive."

By shipping American wealth abroad, we are strengthening the position of socialism which it presently exists. By the same program we are draining off American wealth to the point where the state becomes a welfare organization, to quote Mr. Byrnes.

that he figured the next president would be Tom Dewey.

When Alsop speaks of Vaughan's "peculiar talent for blunders" he offers no particulars. So that is intentional unrelieved smear, calculated to advance the Herald Tribune's pathetic effort to get one of the journalistic awards this year.

But what is bearing has Vaughan's talent for smoking-room stories on the failure of Truman, granting that he has failed? Who says Vaughan has such a talent? Are you willing to accept Alsop's word against Vaughan? Why? What is wrong with smoking-room stories, whatever they are? Does Alsop prefer ladies' room stories? Let's get some facts here.

Now we find this dear boy hedging. Alsop has been trying by insinuation to arouse suspicion that Vaughan had some crooked connection with a contract fixer named Hunt, who wheeled an autographed photograph of Vaughan and had it in his office to impress his clients.

At this point, not that it matters one way or another, I challenge this fellow to identify and locate five such offices, to state whose photographs hang in which ones and to quote the inscriptions.

The joke is that Colonel Hunt's picture gallery," he continues, referring to his pet's bunny mounted on a board with glaring eyes and gnashing fangs, was General Vaughan. Most often the photographs in such offices are mere bait for booby. If the average five percent delivers on his promises, it is not because of friendship with the great but merely because of his familiarity with the shabby by-ways of the government.

That is not reporting. It is not fair editorial comment. But it is typical of a strange campaign that tends to justify Truman's contempt for our press.

SAFE BURGLAR HOUSTON — (AP) — A safe in the concessions office at Buffalo Stadium was burglarized of about \$5,300 last night.

Steel coated with tar, an alloy of 15 percent tin and 85 percent lead, is used principally for automobile fuel tanks.

Compulsory Public Mis-Education

The Main-Spring of Stalinism And Enemy of Liberty

By ATTY. WILLIAM C. RING

INSTALLMENT NO. II It is as important to remember that the second oldest form of government in America was the New England theocracy of Jonathan Edwards and the Mathers whose pattern was the ancient Hebrew church-state. Compulsory education was implanted in America by a group whose migration for "religious freedom" and in remembrance against the conspiracy between King Charles and Bishop Laud was climaxed in the adoption of a theocracy which enslaved every citizen as a robot of its teachings or pillars of its faith.

To summarize, compulsory Public Education is not the child but the enemy of statehood without which no state could exist or ever have existed. In making that broad assertion, it will be presently noted in contrast that with "real" education, no state, as we know it, would be possible.

The founders of the Federal Constitution disagreed as to the necessity for a Bill of Rights. The Hamiltonian group regarded the national compact as an hour-glass which sufficient guarantees that none of the precepts of the proposed Bill of Rights would be abridged.

Public schools were unknown when our political ties were severed from the old order and the new order was being articulated in the Nation. From ancient times, children were taught in their homes or by private tutors or in private academies, colleges and universities.

Watching — The nationwide importance of the Murray demand for pensions, and of Chairman Daugherty's attitude, is that all major unions in key industries are watching the outcome of the steel controversy.

WILSON — (AP) — A safe in the concessions office at Buffalo Stadium was burglarized of about \$5,300 last night.

FOUR-DRAWER FILE The commission found that cost of the cabinet overhead for a year for each four-drawer file cabinet. Every time the contents of one file cabinet were transferred to cardboard cartons in the stacks of a central records office, the saving was \$27 a year.

The spotted skunk is often called the hydrophobia-skunk, but has not been proved to be more susceptible to hydrophobia than the common skunk or most other animals.

"Stalin Doesn't Want War"

National Whirligig

news behind the news

By RAY TUCKER WASHINGTON — CIO President Philip Murray's demands for \$150-a-month pensions and other "fringe benefits" in his current clash with the steel industry will have a strong and articulate champion in the man President Truman has chosen as chairman of the fact-finding committee charged with framing a basis for settlement.

Daugherty is an extremely "articulate" argumentator. "PARASITIC" — "If employers do neither of these things, containing Chairman Daugherty, referring to the choice between high wages enabling the worker to save enough for his old age or a pension system on retirement, they are parasitic, inasmuch as society must step in and pay for much of what the workers need. Not only does the state suffer from the ill-being of a large part of its workers."

PRICES — What Chairman Daugherty seems to say is this: The consumer will get it in the neck either way, including the workers. "If big and little steel" grant the pensions demands, they will pass the charge on to millions of consumers, including employees always, in the form of higher prices.

Gracie Says

By GRACIE ALLEN Yesterday I found myself reading my newspaper's financial pages because the family had the other sections, and I couldn't make out if business was at the doctor's or the lawyer's. People were asking questions like "Do you feel strong enough to take a good poke in the nose" and "Where will you be on the night of June 2, 1963?"

VERTICAL 1 Preserves 2 Scope

Success Secrets

By ELMER WHEELER

Booker T. Washington, who certainly made the most of what most portunities, once said, "If we shall do our level best every day, we will be surprised at the unexpected opportunities which will come to us."

When I came across the above quotation the other day, I thought about a fellow I knew back in 1932. He had lost his job, which paid him in the neighborhood of \$10,000 per year. He had plenty of personal assets. He was well-educated, had pleasing personality, and a "commanding appearance."

Opportunities don't come to people who sit and wait for them. You've got to be moving to stir them up. As Booker T. Washington said, they come unexpectedly to those who "do their level best every day."

Aug. 1 Deadline For Transfers

Any parent wishing to transfer his child from one district school to another must apply for transfer at the Office of Public Instruction in the Courthouse by Aug. 1. Huelyn Laycock, county superintendent, said yesterday.

SNYDER RETURNS WASHINGTON — (AP) — Secretary of the Treasury Snyder returned today from a three-week business trip to Europe and the Middle East.

ROCKETS TO 65 MILES NEW YORK — (AP) — Rockets fired from the deck of a U. S. Navy surface ship have roared up to altitudes of more than 65 miles and have provided data about cosmic ray intensity. Third Naval District headquarters said last night.

MOPSY Gladys Parker

ON BEING SELFISH (The Wall Street Journal) "Selfish interests" are causing President Truman no end of trouble.

He does not name these interests, but apparently they include all who advocate economies in the Government to balance the budget. A good many members of the Democratic-controlled 81st Congress are in this category.

Not so blindly selfish are they. It is their duty to support half the rest of the world for all eternity. They act as though they were entitled to be at least a fraction as selfish as the nations they are subsidizing.

Although the people of the United States used natural gas for lighting as far back as the early 1800s, it is only in the last 15 years that it has been extensively used in homes and industries.

The Nation's Press

ARTIFICIAL SCARES The Chicago Tribune

Secretary of State Acheson has made the amazing admission that he and other American spokesmen at the recent conference of foreign ministers in Paris had seriously considered working the American people into a state of "artificial alarm" in order to whip up sentiment in favor of the North Atlantic military pact and the New Deal foreign policy.

Nothing quite as scandalous as this confession on the part of Sen. Acheson has come up in the conduct of this nation's foreign policy since Mr. Roosevelt and former Secretary of State Cordell Hull were pursuing the course of secret diplomacy that provoked the Japanese attack on Pearl Harbor.

This is not to say, however, that there is anything new about this technique. Mr. Roosevelt used it for years. Some 39 declared "crises" or "emergencies" were counted in his regime from March 17, 1939, all with the intention of panicking or stampeding the people into doing exactly what Mr. Roosevelt wanted. The country for years under the New Deal has moved from one emergency to another, with never a respite, and this atmosphere of continual crises has been deliberately fomented for nothing but political reasons.

INDIFFERENT ATTITUDE (San Diego Union) Attorney General Tom Clark reflects the views of his superior when he tells the Senate Judiciary Committee that the strike situation in Hawaii offers no justification for governmental intervention.

CONSIDER that Mr. Byrnes has been in government since 60. He's been picked for a job in the Supreme Court and for a post of secretary of state. That should indicate a man of judgment and maturity of thought.

YEOMAN OF THE GUARD—Like a scene from one of Hollywood's own gangster movies is this dramatic photo of Dave Ogal, one of wounded gambling czar Mickey Cohen's body guards giving a sharp-eyed once-over to the corridor outside the Los Angeles hospital room where Cohen lies. Cohen was wounded in a gang ambush as he left a smart Hollywood restaurant. He is a key witness in a grand jury investigation of police vice tieups. Deputy Sheriff K. E. Irving, right, calmly eats his lunch. He's the official police guard, but Mickey Cohen's boys took no chances. They set up their own sentry system.

Poll Tax Bill An Annual Occurrence

By JAMES MARLOW
WASHINGTON — (AP) — Like the birds in the spring, the anti-poll tax bill comes back every year.
It attracts attention and then goes away, only to come back another day.
That's just about what will happen to the anti-poll tax bill passed by the House Tuesday.
It can't become law, unless the Senate also approves, and the Senate almost certainly won't do that this year.
Then the bill will bob up again next year. Four other times in recent anti-poll tax bills.
Each time it died in the Senate. It can always be passed in the House with ease because:
Northern Democrats and Republicans, on this issue anyway, join forces to swamp the Southern Democrats who fight the bill.
The Southern Democrats can be stopped cold in the House where there's a limit on debate.
It's a different story in the Senate where debate is unlimited each of 31 foods in general use.

and the Southerners, with a filibuster, can talk for weeks and jam up the whole Senate program for the year.
If anyone tries to bring up the House-passed bill in the Senate this year, which is unlikely, the Southerners seem a cinch to block it with a filibuster.
Congress wants to quit for 1949 by September. Between now and then the Senate will have its hands full with other things. A filibuster would wreck the schedule and the vacation hopes.
Yet, an anti-poll tax bill has been offered in Congress every year for the past 10 years. Votes have been filled with the testimony of hundreds of people who have trudged up to the Capitol to speak for or against the bills.
The poll tax problem has been argued so long that every time the bill comes up in the House for a vote, both sides say the same things they've been saying for years. It's like listening to a phonograph now.

Wholesale Price Index Shows Rise
NEW YORK — (AP) — The Dun & Bradstreet wholesale food price index this week advanced to \$5.73 from \$5.71 a week ago, and was 20.2 percent below the year-ago level of \$7.18.
The index represents the total cost at wholesale of a pound basket of 31 foods in general use.

State Crop Prospects Stay Good

AUSTIN — (AP) — Texas crop prospects continue good, the U.S. Department of Agriculture said Wednesday.
Soil moisture conditions were mostly favorable. A number of low rolling plains and Edwards Plateau counties, however, were needing rain, particularly for sorghums and pastures. Open weather favored harvest of sorghums, broomcorn and early peanuts in the south. Watermelons and cantaloups were available in volume.
Conditions favored rapid development of cotton and the crop remained in good condition. Ginning continued rapidly in the lower valley and harvest was underway in South Texas areas. Crops in the coastal bend were showing improvement following recent rains and active harvest was expected to start this week.
Boll worm infestations continued to cause concern in southern and southeastern counties and boll weevil populations were increasing in northern and eastern areas.
An unusually good corn crop was about matured and limited acreages of late corn were ben-

Red Troops Said Pouring Into China

CANTON, China — (AP) — A government spokesman estimated the Communists have plunged 400,000 to 500,000 troops into renewed fighting in Central China.
The spokesman, Gen. Teng Wen-yi, did not reveal Nationalist strength. He said there has been no big clash and government armies were intact.
"We are waiting," he told newsmen, "for the best time and place to deal the Communists a death blow."
Other Nationalist sources, however, acknowledged further Red advances into Hunan Province before Aug. 15.

(An Associated Press dispatch from Red-held Nanking reported the Communist high command ever, acknowledged further Red advances into Hunan Province before Aug. 15.)

From where I sit... by Joe Marsh

For The Ladies: A Diet That Really Works

We went out visiting the other night and the ladies were talking away about weight-reducing diets. One of them had a special "15-day Hollywood diet" guaranteed to slim her down fifteen pounds' worth. Another was living on bananas and skim milk!
I might have known the missus would get the bug, too, and sure enough the other day she asks me, "Joe, what kind of a diet do you think I ought to go on?"
"Mother," I say, "the only diet I would ever recommend to anyone is simply moderation. I wouldn't

trust any of those get-thin-quick diets. Simply cut down on desserts, bread, butter, sweets and fats—but when you do, even do your cutting down moderately."
From where I sit, moderation is the watchword. Moderation with food, with smoking or with the enjoyment of a friendly glass of temperate beer or ale. Actually, moderation adds to the enjoyment of just about anything.

Joe Marsh

Leaves From a Correspondent's Life Notebook

By HAL BOYLE
NEW YORK — (AP) — Mrs. Mamie Hohnacker is a real odd job lady.
She earns a living turning her hair different colors — as many as eight to ten times a day. So far as she knows she is unique in her field.
This chameleon-like existence is her own idea. She thought up the job of color rinse tester herself.

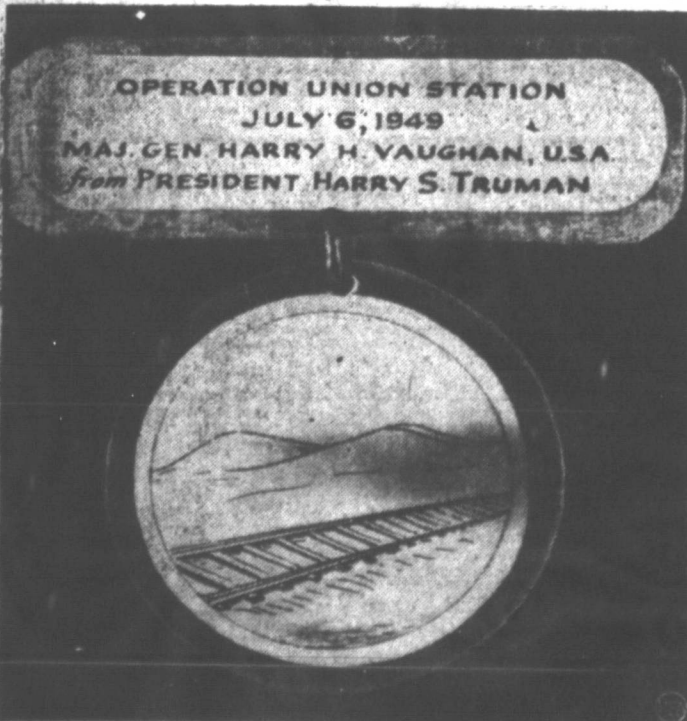

Five years ago she went to work as a technician in the Nestlé-Lamur laboratory at Meriden, Conn., which manufactures hair rinses. She was assigned to help mix colors.
Mrs. Hohnacker is something of a perfectionist. After a time she went to her boss and asked:
"How can we be absolutely sure we are getting the right shade in each color when we're just mixing chemicals? Why not test each vat of color rinse on real hair?"
It was pointed out to her that if different models were used the varying texture of their hair would make it difficult for the laboratory experts to maintain exact color standards.
"Then just use one girl," suggested Mr. Hohnacker.
"Who?"
"Well, I'll volunteer," she said hesitantly, hardly realizing what this would let her in for.
Since then she has tested some 5,000 vats of color. In each case she applies the rinse to her hair, submits the results to the critical gaze of a chemist, shampoos out that color — and goes on to the next. When a color is imperfect the vat goes down the drain — 300 gallons of it.
Getting the color perfect is important as an estimated 85 percent of American women use a color rinse regularly or occasionally. There are about ten standard colors in the trade.
Her work isn't without its social hazards. She has a habit of leaving on overnight the last color rinse tested during the day. But "one afternoon something went wrong and she emerged from the hair dryer to find her tresses a flaming green.
"There wasn't time to do anything," she said, "I had to leave immediately for a dinner engagement. So I marched out, hoping it wouldn't be too noticeable."
Shortly afterward, when she was at dinner, a man at the next table kept staring at her green hair. Then he called a policeman who came over and tactfully asked her if anything was wrong.
"No, I'm just a guinea pig," said Mrs. Hohnacker. It took a little talking by her companions then to assure the policeman she wasn't a fugitive from a psychiatric ward.

Race Track Sale Rumored

DALLAS — (AP) — The Times Herald said plans are being made for sale of Arlington Downs elaborate racing plant between Dallas and Fort Worth.
It was built in the 1930s when pari-mutuel betting was legal in Texas.
The newspaper said an official of the W. T. Waggoner Estate, which owns the property, acknowledged a deal is being "cooked up."
This official, the Times Herald said, pointed out that "no definite offer" has been received, but talks are on to form a syndicate to buy the Downs.
The price for the plant, including track, stables and polo field, is \$350,000, the Times Herald said, but just who is spearheading the move could not be determined.

In 1778, a huge iron chain 1,500 feet long was stretched across the Hudson River at West Point to prevent British gunboats from going up the river.
ed her if anything was wrong.
"No, I'm just a guinea pig," said Mrs. Hohnacker. It took a little talking by her companions then to assure the policeman she wasn't a fugitive from a psychiatric ward.

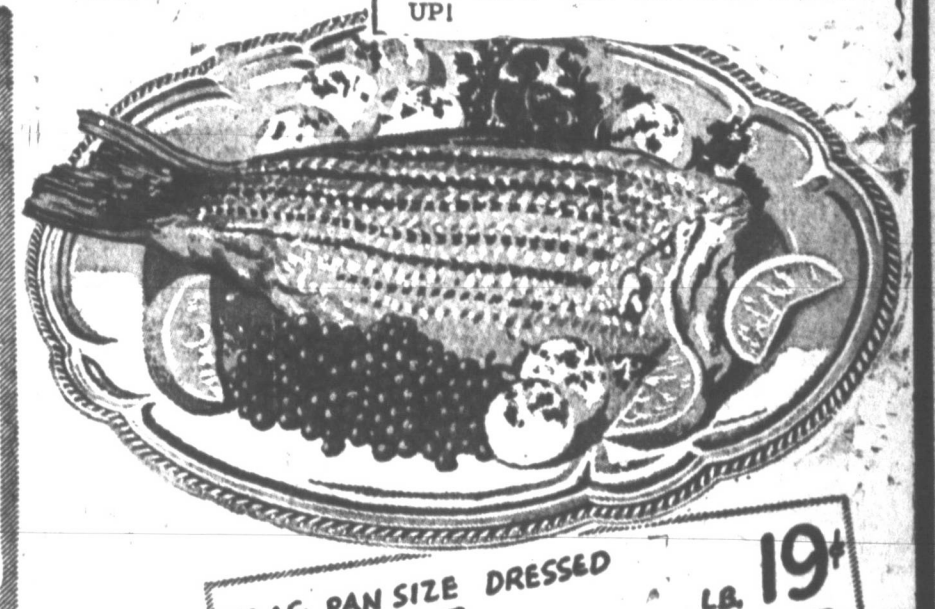

VAUGHAN GETS ANOTHER MEDAL—"In recognition of your courage and intrepidity over and beyond the call of duty, I hereby decorate you with the medal Operation Union Station." That's what President Truman reportedly said when he presented this fake medal to his military aide, Maj.-Gen. Harry Vaughan. The "operation" refers to Vaughan's brush with newsmen in Washington's Union Station upon his return from a three-week vacation cruise. (NEA—Apco photo from Newsweek.)

SOUTHWEST'S SHOPPING CENTER

NEIGHBORS KNUCKLE DOWN—After appealing repeatedly to the highway department to re-surface their street, the 21 families living on this St. Louis County, Mo., suburban street decided there was only one course of action. They would fix it themselves. They pooled the money and muscles necessary and dug in. Here, the men of the street, mostly young veterans, spread part of the 45 tons of rock they bought to fill in the gaping holes, which, they say, have broken auto springs and caused blowouts.

Scouts Put Knowledge To Practice

Wheeler Girl Scouts, who attended Camp Sullivan Tuesday and Wednesday, have put their camp learning into practice. Most of the girls may now be called "tree" Scouts.

Mrs. Coy Revious, one of the leaders who accompanied the Scouts, yesterday was looking for the Scouts when she discovered smoke coming from the Scout's tree house.

The Scouts selected about the largest tree in Wheeler and constructed a house in it. When Mrs. Revious finally caught up with them, they were frying hamburgers in their tree house.

Other leaders who accompanied the Scouts to Camp Sullivan were Mmes. Carroll Pettit, W. A. Goad, Jr., Paul Green, Buster Black, M. C. Burgess, K. E. Thornton and Miss Vendelle Starkey.

Scouts making the trip included Wanda Topper, Billie Owen, Wau-netta Burgess, Patsy Burgess, Barbara Ann Revious, Paula Green, Sharon Green, Mary Black, Janet Russ, Janet Bowerman, Janice Jaco, Pamela Anglin, Katherine Whitener, Nancy Lee, Donna Speck and Anne McCormick.

Britain's Dollar Shortage May Affect Cotton Growers

DALLAS — Secretary of Agriculture Charles F. Brannan said today the dropping dollar-balance of nations in the sterling bloc "could seriously disrupt the South's exports in cotton and tobacco."

He listed international trade, farm income, and the trend of the cotton carryover as elements "basic to the welfare and security of the cotton farmer."

Brannan's remarks were prepared for delivery this morning to the annual Cotton Research Congress. The meeting started yesterday and ends tomorrow.

He said farm purchasing power had been reduced through farm prices "falling faster and farther than non-farm prices."

He said the United States will begin the new cotton year next week with a carryover of about 5,500,000 bales.

"Well informed men in the cotton trade expect that domestic consumption and the export market in the coming year may amount to about thirteen million bales," Brannan said. "This Black, Janet Russ, Janet Bowerman, Janice Jaco, Pamela Anglin, Katherine Whitener, Nancy Lee, Donna Speck and Anne McCormick."

"A steadily rising carryover is a challenging trend. We cannot afford to undergo again the exhausting experience of another giant accumulation of cotton."

Reed Dunn, Jr., in a summary for delivery after Brannan spoke, said the primary problem in maintaining U.S. cotton exports will be increasing dollar purchasing power sufficient to permit continued purchases in this country. Dunn is director of the Foreign Trade Division of the National Cotton Council.

He listed these contributing factors:

"A prospect that 'largely because of our foreign recovery programs our exports may rise to around the 1935-1939 average of five and a third million bales.'"

"About four and three-quarter million bales shipped abroad during the crop year now coming to a close. A bettering of 'our own estimate that the export market would take about four million bales.'"

"The Chinese market for a half million bales is 'a doubtful area.' The British position in the American export market 'also must be considered dubious at this time.'"

"Great Britain's depleted dollar balance could turn the Lancashire mills to other countries for their supplies," Brannan said.

"However, if this happens, Western European nations now relying on foreign countries might be expected to acquire more American cotton for their spindles."

"The British experience illustrates again the fact that in the long run if we are going to export we shall also have to import in order for our foreign customers to acquire dollars for their purchases."

Brannan's place on the program was following a keynote speech by Burrill C. Jackson of Hillsboro, Tex., general chairman of the statewide Cotton Committee of Texas.

Pipeline Hearing Set for Aug. 15

WASHINGTON — (AP) — A Power Commission hearing will begin Aug. 15 on the application of the Arkansas Louisiana Gas Company of Shreveport for permission to lay 163 miles of 20-inch pipeline in Texas, Arkansas and Louisiana.

The company plans a 72-mile line with a capacity of 200 million cubic feet a day from Harrison County, Tex., to Columbia County, Ark., and 91 miles of line, with a daily delivery capacity of 140 million cubic feet from Columbia County to Perla, Ark.

Hopper Fight Gets Emergency Funds

WASHINGTON — (AP) — The House passed Wednesday a bill making an emergency allotment of \$1,500,000 to fight grasshoppers in Western and Midwestern states.

The House acted shortly after its Appropriations Committee recommended the move. The legislation now goes to the Senate.

The red wolf has recently been exterminated in the American Southeast.

Husbands! Wives! Want new Pep and Vim?

Tired Kidneys Often Bring Sleepless Nights

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent uric acid passages with stinging and burning with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 50 years. Doan's gives speedy relief and will help the 15 million of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Exile Returns To See Mexico

MEXICO CITY — (AP) — Ezequiel Padilla, defeated for the presidency in 1946, came home after three years of self-exile.

Several hundred friends cheered him as he stepped from his train delayed a day by a freight wreck.

Padilla, Mexican secretary for foreign affairs during the war, came with his wife and two children for a vacation but especially, he said, to revive his children's memories of their country. He said he is out of politics. In 1946, after a bitter campaign, Padilla was beaten for president by Miguel Aleman with a four-to-one vote.

The Padillas now live in Scarsdale, N. Y.

High TB Rate Laid To Ignorance

There is no more emphatic proof of the power of ignorance and carelessness to spread disease than is shown by continued ravages of tuberculosis. Dr. George W. Cox, state health officer, said.

In Gray County there are 25 cases of the disease discovered this summer, through the State Health Department's annual chest X-ray survey, out of the 6,500 county residents X-rayed.

"Tuberculosis is responsible for more deaths between the ages of 15 and 45 than any other disease," the health officer said.

Despite the knowledge of its cause, spread, and curative procedures, tuberculosis continues to be a grave health problem. Today it holds fifth place among the killing diseases in Texas.

"This exists even though the majority of tuberculosis patients could have their conditions arrested if they were recognized early and properly treated," he added.

He said treatment of the early recognized case is essential to recovery. It is of equal importance, from a public health viewpoint, that the spread of this "devastating infection" be prevented.

"When a diagnosis of active tuberculosis has been made, examination of all other members of the family should follow as a matter of course," he added. "Tuberculosis runs in families, not because of any special susceptibility, but because it is communicable and easily transmitted from one member of the family to others."

To reduce the number of deaths caused by tuberculosis, Dr. Cox urges periodic examinations of all adults. Included should be chest X-rays, frequent check-ups by physicians where active cases and their contacts are known, isolation or hospitalization of active cases, and a more intelligent application of hygienic living principles, he concluded.

Put your matches up high out of the reach of the small fry.

1884 Oversight Cause Confusion

DENNING, Tex. — (AP) — The people of this small East Texas community are going to ask the state to give them back their town.

They've just discovered they are trespassers on what they always thought was their own property.

Blamed for it all is an absent-minded citizen to whom the state granted a patent on a 177-acre plot back in 1884. He forgot to file the document. Officially, title never passed from the state to the individual.

About 150 residents live in this northern San Augustine County community. Many own or thought they did — the land on which they live.

The Orange Leader said their plight was disclosed by State Rep. Paul S. Wilson. He said a zealous abstract attorney discovered only recently that the patent never had been filed. Down through the years the oversight went unnoticed through numerous sales and resales of land.

Texas Trying New Scheme to Nip Delinquency at Roots

By DAVE CHEAVENS
AUSTIN — (AP) — A plan of youth development to pinch off juvenile delinquency at its roots has begun taking shape in Texas. The Executive Committee of the newly created Youth Development Council got down to work after the council's organization meeting Tuesday, facing these immediate major tasks: Hiring of two full-time professional workers. Handling mechanics of taking over the youth correctional institutions at Gatesville, Gainesville and Brady from the Board of

Do You Really Want to Take Off That Ugly Fat?

Recently there has been a number of new reducing preparations on the market, some of them based on the diet and vitamin "plan." It is obvious that vitamins will not reduce the body weight, so one must depend on diet to reduce. But it is also obvious that one cannot go on a strenuous diet over a protracted period, and any weight lost will be restored if the former eating habits are gone back to. So what to do? Well, here is a tip to you "overweight gals" who want to fight "the Battle of the Bulges" in a different way. Ask any well stocked Texas drugstore for four ounces of Barcetrane. Mix with 12 ounces of grapefruit juice and take two tablespoonsful twice a day. This preparation contains nothing harmful and the makers agree to refund your money on the very first bottle if it does not show you the way to lose ugly fat and help regain slender, more graceful curves. Barcetrane is low in cost and is not based on the diet and vitamin "plan." You need never know a hungry moment while reducing with Barcetrane.

Jap Socialist Studies Way Government Works in Europe

By DEWITT MACKENZIE
AP Foreign Affairs Analyst

I've just spent some time with one of the interesting visitors to New York — Tetsu Katayama, Japan's first Socialist premier who came to power in the country's first postwar election. He is out of office now and has been making an intensive study of socialism's progress in European countries in preparation for a fresh Socialist campaign in Japan.

Nippon's Socialist leader is a 62-year-old lawyer who was elected Premier in May, 1947, by an almost unanimous vote of the House of Representatives under the new Constitution. The people expected Katayama to perform an economic miracle. His government did win praise for its apparent sincerity in attacking the accumulated economic problems, but he couldn't deliver fast enough, and so fell after some ten months before a combined Conservative and Communist assault.

The former Premier said he had found that European Socialist governments were making good progress in rehabilitation. Some of them, however, were making the great mistake of trying to compromise with communism. He was emphatic in declaring that socialism and communism couldn't work together — that there could be no successful compromise. The Japanese Socialists, he said, would develop along their own lines, quite apart from the Communists.

Katayama said he believed that moral rehabilitation must be an integral part of Japan's recovery. He reminded me that he is a Christian, whereupon I asked him if he felt that the principles of the Sermon on the Mount could be applied in his country in view of the fact that most of its people belong to other religions. His conclusion was quick and interesting. He said that those great principles could be accepted by any religion, providing theological arguments were left out. In short, a person needn't subscribe to Christianity to be a believer in those principles.

Bentsen Asks Dam Power Plant

WASHINGTON — (AP) — A hydroelectric power plant in the proposed Falcon Dam on the Rio Grande would be authorized by a bill introduced by Rep. Bentsen (D-Texas) Tuesday. Congress already has appropriated about 10 million dollars for the dam but work has been delayed pending an agreement with Mexico on installation of the power unit. The measure carries out general provisions in the U.S.-Mexican water treaty, Bentsen said, as was submitted at the request of the State Department.

Under terms of the law, John Winters, director of the Department of Public Welfare, will also serve as executive secretary of the council. Kerr was appointed by Gov. Allan Shivers, who also under the law named the Methodist pastor chairman of the council. The Executive Committee also has before it the job of working out budgets for each of the correctional institutions, and handling other details of the transfer of their physical properties and employees. On Sept. 1, the council will begin receiving an average of 200

Compromise Oil Tidelands Bill Readied

WASHINGTON — (AP) — Speaker of the House Sam Rayburn says a tidelands compromise bill will be introduced at this session of Congress.

He made the statement yesterday, saying the only hitch left is Texas' claim that it owns its tidelands for a distance of three leagues — 10 and a half miles — off shore. (The Dallas News' Washington bureau quoted Texas Land Commissioner Bascom Giles as saying the bill to be presented will grant Texas' claim and that federal officials agreed to this provision.)

(However, The News said Rayburn was not so positive on that point. "Texas is going to contend, of course, that its ownership is three leagues out and they will try to get it in the bill," Rayburn said.)

The Texas Democrat said spokesmen for Texas, Louisiana and California will meet later this week with Atty. Gen. Tom Clark and Secretary of the Interior Julius Krug to work out exact terms of the compromise bill. It will split income from oil wells in the submerged offshore lands between the states and the federal government.

State spokesmen met with the federal officials for an hour and a half yesterday in Rayburn's office. It was a closed session. Rayburn said "substantial agreement" was reached on all

WELL, THAT'S WHAT IT SAID—The sign in front of this Los Angeles laundry is unmistakably clear. It says "Drive in Office." That's exactly what fireman Charles Lechler did when his truck missed a sharp turn. After climbing from the wreckage uninjured, Lechler surveys the damage—and the sign.

points except management of tidelands three miles off shore.

Rayburn said that, although Texas is still holding out for three leagues, the other parties agreed that within the three-mile limit the states should receive 62 and a half percent of all revenues from the submerged lands. From the three-mile point to the edge of the continental shelf, Rayburn said, the proceeds would be divided equally.

Texas claims ownership 10 leagues out because of the conditions under which it joined the Union as an independent republic in 1845.

He said Chairman O'Mahoney of the Senate Public Lands Committee probably would introduce the bill.

A rolling mill that rolled iron into desired shapes was patented by Henry Cort of England in 1783.

City to Act as Project Agent

HASKELL, Tex. — (AP) — Twenty-five communities interested in developing the seven million dollar Bob Baikin dam will be represented by the Haskell City Council.

The council voted unanimously Tuesday night to act as trustee and agent for them in the water supply project.

Burleson Asks Water Survey

WASHINGTON — (AP) — Rep. Burleson (D-Tex.) asked Reclamation Bureau officials to approve a request by the city of Abilene for a water project survey.

A reservoir is proposed on the Clear Fork of the Brazos to impound water for use by the city, Burleson said.

Army engineers have reported construction of a dam on the Clear Fork near Abilene would not be justified purely as a flood control measure.

Burleson told a reporter such a dam might be a sound financial undertaking, however, if municipal water supply benefits were considered along with flood control.

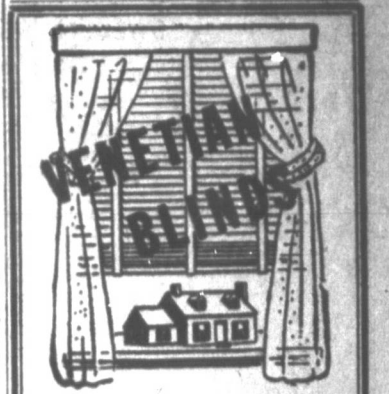

He said such a dual purpose project would be in line with Hoover Commission recommendations.

J. H. KELLEY, M. D. and F. W. KELLEY, M. D. announce the association of

RAYMOND M. HAMPTON, M. D. In the Practice of Surgery, Obstetrics and General Practice

Rose Bldg Office Phone 2480 Pampa, Texas

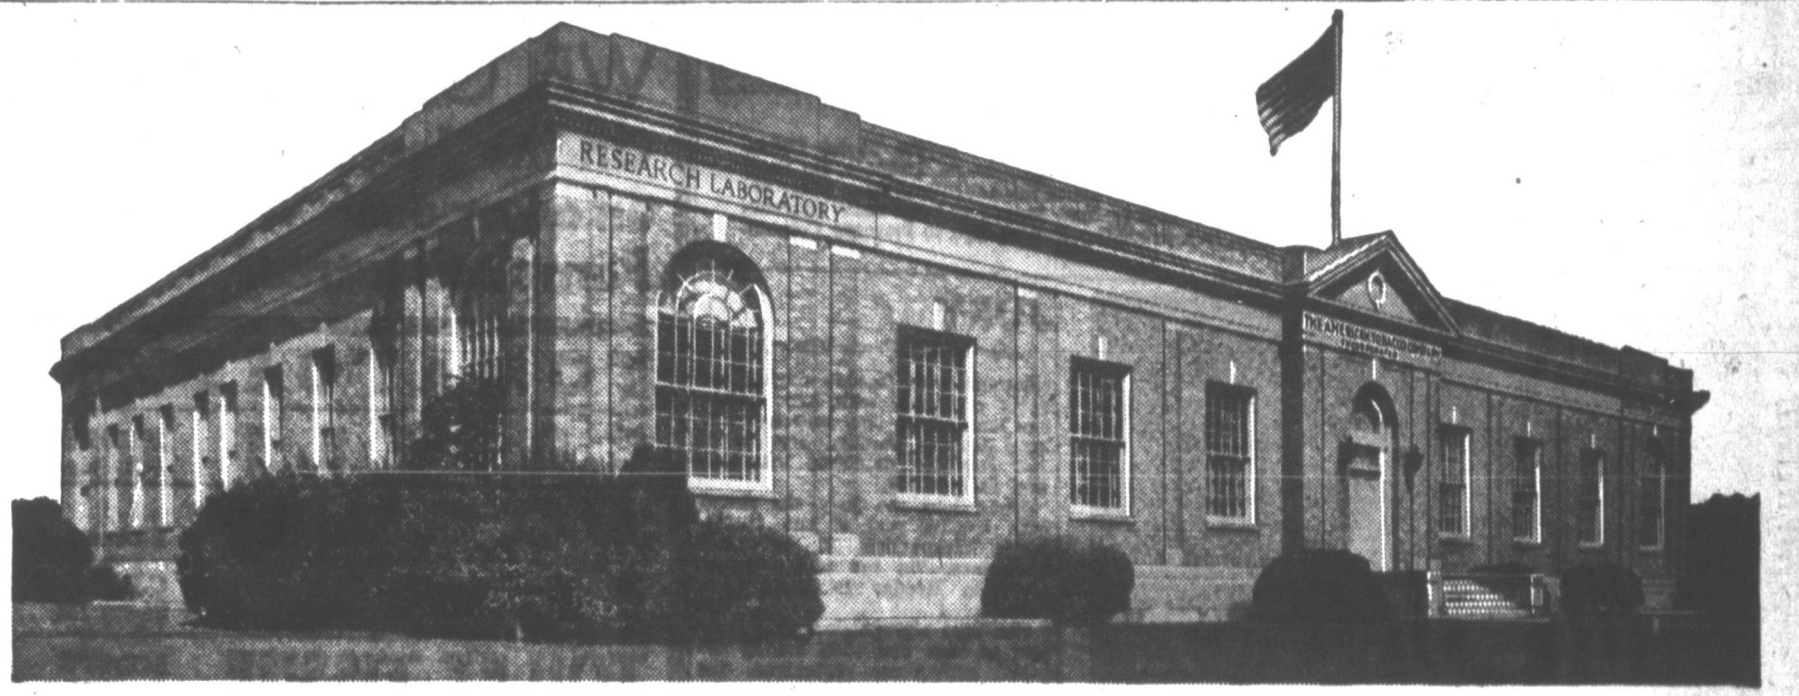

The communities had asked the council to be their agent. Mayor Courtney Hunt said a copy of the resolution accepting the job and a request for first water rights in the 17,000-acre watershed would be sent to the State Board of Water Engineers. The dam would be at the junction of the Double Mountain Fork and the Salt Fork of the Brazos River near Rule. Plans call for a reservoir about 300,000 acre-feet of water.

This is another big reason why we're sure LUCKY STRIKE MEANS FINE TOBACCO!

Tests made by America's largest cigarette research laboratory scientifically help Lucky Strike buyers select the fine tobacco that goes into Luckies!

YOU SEE HERE the largest and most complete laboratory of its kind operated by any cigarette manufacturer in America.

For many years Lucky Strike scientists have delved into cigarette research on an extensive scale. Out of this has grown an elaborate system of quality control. Every step in the making of Luckies—from before the tobacco is bought until the finished cigarette reaches you—comes under the laboratory's watchful eye.

As you read this, a constant stream of tobacco... samples from every tobacco-growing area... is flowing into the laboratory in Richmond, Virginia. These samples are scientifically analyzed, and reports of their quality go to the men who buy at auction for the makers of Lucky Strike.

Armed with this confidential, scientific information—and their own sound judgment—these men go after finer, lighter, milder tobacco. This fine tobacco—together with scientifically controlled manufacturing methods—is our assurance that there is no finer cigarette in the world today than Lucky Strike!

We know: LUCKIES PAY MORE for fine tobacco

(millions of dollars more than official parity prices)

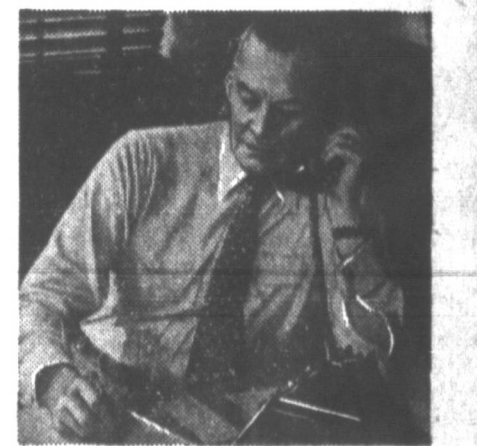

We are convinced: LUCKIES PAY MORE for cigarette research

This man knows where fine tobacco grows. Here is one of Lucky Strike's tobacco-buying supervisors gathering sample leaves from a curing barn. Such samples are obtained from every tobacco-growing area and sent to the laboratory for pre-market analysis. No wonder—L. S./M. F. T.—Lucky Strike means fine tobacco!

This scientist knows how to test tobacco. In our Tobacco Control Division, samples sent to the laboratory are subjected to scores of analyses to determine smoking quality. This vital testing, both before and after tobacco is purchased, has been conducted for years... still another guarantee that Lucky Strike means fine tobacco.

Reports received. The laboratory sends results of the analyses to the buying supervisors. This information helps the buyer go after finer, lighter, milder tobacco for Lucky Strike. Thus the judgment of the buyer at tobacco auctions is combined with modern science at the laboratory to assure you that Luckies are a finer, milder cigarette.

So, for your own real deep-down smoking enjoyment

Smoke a Lucky!

Lucky Strike's fine tobacco and constant research combine to give you a finer cigarette. Prove this to yourself. Buy a carton of Luckies today.

Western Russia. Map shows the seven republics, all comparative newcomers in the Soviet Union. Krenin is particularly concerned over scarcity of party members in agricultural districts. On most collective farms there is not a single Communist. In Latvia, only 1.6 of the collectives have party organizations. Moscow, said to fear that in any war there would be real danger of large-scale guerrilla activity against Soviet troops in these rural areas, is intensifying a campaign to increase Communist Party strength there.

Senate Act Final for Johnson

WASHINGTON — (AP) — The Senate Rules Committee yesterday had its final say in the Lyndon Johnson-Coke Stevenson senatorial election controversy. It upheld Johnson's election.

Turner L. Smith, committee counsel, said the action in the Texas case was final because no was filed.

formal general election contest. Former Governor Stevenson contested Johnson's victory in the 1948 Democratic runoff primary. He lost by 87 votes.

The committee reported that Stevenson did not follow the remedy provided by state laws when he failed to file suit in a Texas district court.

"Instead, he filed a suit in equity in a United States district court in Fort Worth, Tex., seeking to enjoin the election officials of the state from placing Johnson's name on the official ballot to be voted in the general election," the report said.

It added that a full recount would have been necessary for the committee to arrive at its own determination of the primary results.

This might have been accomplished, the committee said, if the rules subcommittee had impounded all ballot boxes or if Stevenson had filed a contest in a Texas district court.

It said the committee was informed that all or virtually all of the ballots in the 254 Texas counties have been destroyed.

Smith said the entire Senate would not need to act on the Stevenson matter because Stevenson did not file a formal complaint with the Senate. He filed only with the rules subcommittee on elections.

At San Antonio Josh H. Groce, attorney for Stevenson, said Stevenson had filed three petitions with the committee.

NO CIGAR? — Winston Churchill, without a cigar in sight, turns around to beam at friends as he boards a chartered plane at the Biggin Hill, Eng., airfield, Monday, for a flight to Italy. The wartime Prime Minister is on a private visit to that country. AP Wirephoto.

He said one petition was filed in October, that it contained certified copies of court records containing more than 1,000 pages from actions filed at Fort Worth, Corpus Christi, Dallas, San Diego and Zapata. He said at lot these showed irregularities in conduct of the election.

He found his animal not far away.

BOMBING DENIED — ATHENS — (AP) — The Greek Foreign Ministry said today Yugoslavia had protested that a Greek plane bombed a Yugoslav village near the Greek border 15 days ago and killed five civilians. The Greek air force said it had no plans in that area at that time.

Arlington Downs Said To Be on Sale Block

FORT WORTH — (AP) — Paul Waggoner, member of the family whose estate includes Arlington Downs, said reports of negotiations for its sale are "news to me."

The report appeared in the Dallas Times Herald yesterday in a story by sports editor Jere R. Hayes. It was denied by Glenn Turpin, Fort Worth manager of the W. T. Waggoner estate.

The story quoted an unidentified official in the offices of the Waggoner estate and said "It was understood that a \$250,000 price tag has been hung on the Downs plant."

The horse ranch consists of a track, stands, clubhouse, stables and a polo field. It is between Fort Worth and Dallas.

The account said that Tony Hulman, owner of the Indianapolis Speedway, "is known to be interested."

(In Indianapolis Hulman said that at present he definitely wasn't interested in buying any race track.)

Thief Abandons Horse He Can't Ride

DALLAS — (AP) — The horse thief couldn't even ride the horse after he stole the animal, J. F. Schuster reported to the Dallas County sheriff's department.

Schuster, who lives near Dallas said a thief cut a wire fence and led his horse through a pasture. Schuster followed tracks in the soft earth.

"It was plain to see," he said, "that the man had tried to mount the horse, but he couldn't even do that."

He found his animal not far away.

Race Driver Hurt

YAKIMA, Wash. — (AP) — a race driver, who was impaled by a broken fence railing Sunday, was reported "holding his own" possibly gaining, Wednesday, his fight for life. The man is Allen R. Hobson of Cornelius, Ore. Part of a lung was torn away and four ribs were fractured by the timber. It pierced his left side and had to be sawed off on both sides of his body.

SIGNS RECEIPT — Mrs. Georgia Neese Clark, first woman to become treasurer of the United States, signs a receipt to take custody of \$27,424,541,375.78 in paper money, silver, gold coins, and government securities in the treasurer's vaults. Watching her is Michael Sinder, who has been acting treasurer. (AP Wirephoto).

ALL IN DAY — Tommy Loy McCormack, 13 months old, poked his finger in a small oil can (left) and couldn't get it out. His grandmother, Mrs. Minnie McCormack, put a hole in the bottom of the can and poured in soapy water. The finger still didn't come loose. Then a doctor at Parkland Hospital, Dallas, cut the can with a pair of tin snips. Less than 10 sobs later, (right) Tommy was asleep on the grandmother's shoulder. (AP Wirephoto)

JURY

(Continued From Page One)

relations with Reeder during her early courtship with him, before she learned he was married. She said Reeder pursued her despite her repeated demands that they end their affair.

Joyce told the jury she drove with Reeder and a girl friend, Joyce Kirkpatrick, 17, to the lake front "to see if she could persuade Reeder to leave me alone."

She said she pointed an empty gun at him and then loaded the pistol with three cartridges. She said Reeder took the gun away from her and when Miss Kirkpatrick asked for it he returned it to Miss Kirkpatrick.

"I held the gun loosely in my hand," she testified. "He grabbed it and the gun faced my chest. Then it faced down toward my leg, then toward his body. I could feel the pressure of the gun on his body and the gun went off."

He thinks there was one time people would have fared better had they not been so friendly. A bunch of people went to church and shook hands with each other; the smallpox epidemic got a good start right there. Everyone in Booker had it.

The fruit I will remember longest about this disease is that everytime I see him he says "Good morning" even though it may be in the middle of the afternoon.

And he's the right kind of doctor, too. About sick people, he says "I've always tried to say something to encourage them."

Dr. Smith has plans for the anniversary celebration here Aug. 5-7. "I guess I'll get a pair of cowboy boots, throw away my pants and fasten my suspenders to the cowboy boots."

NEW (Continued From Page One)

possible to try for greater depths on the No. 2 Lips.

Rock pressure in the well was around 2,500 pounds compared to the 600-1,800 pounds reported on the Lips No. 1. However, the No. 2 is actually deeper than the discovery well.

Gulf's No. 1 Harbaugh, located three and a half miles due north, reported a flow of 4,150,000 cubic feet of gas and a show of distillate three weeks ago. The Harbaugh test was in the same zone as the Lips No. 2 and also through a five-eighths-inch choke.

Test on the Harbaugh was taken from 8,690 feet to 8,731 feet. Pay on the discovery well, Sinclair Lips No. 1, was around 8,000 feet for 400 barrels. This later dropped to 90 barrels.

At present, Gulf is drilling five wells and Huber, one in the Ochiltree, Hansford and Lipscomb County Anadarko Basin area.

UNION HEAD QUITS PHILADELPHIA — (AP) — Donald Henderson resigned as president of the CIO-Food, Tobacco, Agricultural and Allied Workers Union in a protest against signing the Taft-Hartley law's non-Communist affidavit. He urged, however, that the board comply with the act.

Race Never Written For Kentucky-Breds

LEXINGTON, Ky. — (NEA) — Now that the English have lifted the Jersey Act, John H. Clark says it's time some of our own states voided their versions of that bit of unfair legislation. By that, the young Lexington horseman means the laws requiring that a certain number of races be programmed for horses bred within the state. Clark is reminded of a time when an out-of-Kentucky breeder challenged the state's supremacy, and a Blue Grass native squelched him with, "My good man, never has there been a race written for Kentucky-bred horses."

Kentville Boss Is Actually Skipper

DURHAM, N. H. — (NEA) — Henry C. Swasey, for 29 years head coach of baseball at New Hampshire, claims to be the only seafaring manager in baseball. Skipper of the league-leading Kentville, Nova Scotia, Wildcats of the Central League, Swasey takes his team across the Bay of Fundy twice weekly in a one-masted schooner.

PHILADELPHIA — (AP) — Donald Henderson resigned as president of the CIO-Food, Tobacco, Agricultural and Allied Workers Union in a protest against signing the Taft-Hartley law's non-Communist affidavit. He urged, however, that the board comply with the act.

O. Henry's New York Still Can Be Seen for Ten Cents

By HAL BOYLE

NEW YORK — (AP) — So you're coming to visit New York this summer for the first time?

And you want to know whether anybody can come here and have fun on a small budget?

Brother, at least seven million of the people who live here will tell you "yes" — with some qualifications.

You can do it if you have a real curiosity to see and know as much as you can of this circus too big to put under canvas. But if your idea of heaven is to sip at gilded debaucheries in plush supper clubs night after night — why, better wait until your rich uncle dies.

The best things in New York — its wonderful window displays, its famous streets, its great stores, its history-crowded museums, its skyscrapers, its tremendous views — cost little or nothing to see. And the fabulous people are the best show of all — and free things best.

Go to Coney Island on a steaming Sunday and see humanity on the half shell. That is still the New York that O. Henry wrote about. And so is the Bowery and Chinatown — and the edge of Greenwich Village. Its best to see them at night, and the subway will take you to any of those places for a dime.

When you get off your train or bus, treat yourself to a cab ride to your hotel. If you don't know a good, clean reasonably-priced one, ask the hackie.

Even though your budget is tight you can still work it so that you eat at least once in a big-name restaurant, see a Broad-

way play and take in a fine concert.

Go to the restaurant at lunch. The prices are usually scaled lower — and you are just as likely to see a celebrity there.

Hit the theater boxoffices half an hour before curtain time. At all except the top musicals or "Death of a Salesman" you'll probably be able to pick up a pair of tickets.

If you're a music lover, you can listen to some of the world's best talent at evening concerts at Lewisohn Stadium. And the prices, tax paid, range from thirty cents to \$2. Major league baseball isn't too high.

Don't fall to go to the top of the Empire State Building. Take a trip through Rockefeller Center. See the Rockettes in the Radio City Music Hall. Ride the ferry to Staten Island and enjoy the greatest view and the longest over-water ride on the globe for a nickel.

But walking and gawking are the finest fun here if you are arches are strong. Stroll through the garment district any-weak day at noon; Wall Street, deserted on a Saturday afternoon; and Times Square on Saturday night, the biggest country town in America.

AMBASSADOR DIES
BUENOS AIRES — (AP) — Oscar Ibarra Garcia, 50, former Argentine ambassador to the United States, died last night.

BRITISH LAND TROOPS
HONG KONG — (AP) — A British transport today landed 700 troops to boost Hong Kong's defense garrison to approximately 13,000.

OUTSIDE JOB—Brought to light as the House Armed Services Committee worried over difficulties of building a home under a \$16,500 margin, is a low-cost home that housing expediter Tighe E. Wood has built and is ready to sell. The modern house, 15 by 38 feet, and half-acre lot are priced at \$6750. In a Washington suburb, the house is complete with hot-water heater, fully-equipped kitchen, a fireplace, and glass radiant heating. The wood-framed cottage has three rooms with redwood-siding exterior and plywood panelling inside.

THERE IS NO SANTA CLAUS—YOU PAY THE BILLS—Uncle Sam is spending a lot of money these days—in fact, more than he's taking in. And you're the guy who's paying for it through taxes. This map gives a breakdown of how much you and other tax-payers kicked into the federal kitty during 1948. The grand total collected for the year, \$42,302,864,000, is equivalent to the total wages of all persons working in factories and mines throughout the country.

REFUGE

By Mildred Crom and Harwood White

THE STORY: A wealthy widow, Mrs. Everson, who believes that a atomic war is impending and with it the destruction of civilization, has determined to become one of the survivors. She is fleeing to "a place of safety" in two gigantic trailers. In her party are the Marchese DeLancas, an exiled nobleman, her companion Lady, a disgraced movie star, her chauffeur, Victor, a well educated Philistine, her houseboy, and Mrs. Margaret Malone, a widow, her cook. Mrs. Malone, in her thirties, has been tempted to run away, but she finds herself staying with the party. She learns the Eversons are in love with Rudy, who wants only her money. The Marchese is in love with the fat, strongly interesting man who also believes that catastrophe is near. And near the Marchese has just asked Mrs. Malone if her late husband ever called her pretty. Mrs. Malone says that she never looks in a mirror any more. "You should," says the Marchese.

XV

THE Marchese began to play again, and Mrs. Malone, flushing, went into the kitchen. She trembled a little because no one called her pretty any more. Was it because she didn't want them to?

She leaned forward, now, and peered at her reflection in one of the polished aluminum pans that hung over the oven. She saw a woman in her late thirties, with a pert nose, a short upper lip, a pointed chin, hair dark brown and braided, gray eyes.

"Don't be a fool," she said aloud.

She prepared lunch with an almost violent efficiency. When the midday halt came, Victor explained that Mrs. Everson was having a tray with Rudy. Twenty minutes out for lunch.

"We are behind schedule," the Filigine said, "We must push it to make no time."

Another stop was made at sundown and again Victor set a tray for two, carrying it forward to the cab.

"She likes being alone with

him," Mrs. Malone said. "She hopes."

Victor shrugged.

"We drive all night tonight. So please make the coffee strong!"

They were in motion again when Mrs. Malone served the Marchese. He had dressed for dinner and was freshly brushed and shaved; she noticed a fragrance of eau de cologne. The candles wavered, the gardenias shivered, the robot record-changer substituted Bach for Prokofiev and Stravinsky for Elgar.

"You are an excellent cook, Malone."

"Thank you, sir."

With desert, a foaming prune whip, the Marchese drank a small glass of Benedictine and smoked a cigaret. Mrs. Malone noticed his hands; they were long-fingered, large, the wrists slender. Immaculate hands, strong and sensitive. He glanced up and caught her looking at him, and her heart jumped. He smiled but said nothing, and as she cleared the table, he seemed to have forgotten her. The comforting personal interest of the morning was lost. She felt alone again.

DURING the night, late, the trailers began to climb a steep mountain road. Mrs. Malone had lived at sea-level for so many years that the sudden altitude awakened her to a feeling of pressure and deafness in her ears.

She swallowed to overcome it, and conscious of a rapid pulse, got out of bed and went into the kitchen. The window was open; she sat beside it until dawn.

The deepening light disclosed that the trailers had reached the summit of a tumulous range. Below, another plain, pitted and scarred like the face of the moon, surged to the horizon.

The motors made a final noisy

★ IN HOLLYWOOD ★

BY ERSKINE JOHNSON NEA Staff Correspondent

HOLLYWOOD — (NEA) — There's an amusing coincidence to the remake of Milton Berle's only successful movie, "Tall, Dark and Handsome," just as he's returning to star in a Warner film. The remake is "Turned Up Tens," with Paul Douglas, Keenan Wynn and Jean Peters. Ever since Berle clicked on television, Keenan's father, veteran comedian Ed Wynn, has been screaming that Berle stole his style. Now, in the remake, Keenan is playing the role Berle created in the original.

Did you hear about the fellow who borrowed one of Jane Russell's sweaters for a masquerade party? He put it on backwards and went as a camel.

Elizabeth Taylor's friends are predicting she'll retire from the screen when she marries William Pawley in 1950. . . . Merle Oberon is ill in London and may undergo surgery. . . . Dinah Shore will be Jack Benny's first guest on his first TV show this fall.

New Hollywood saying indicating doubt: "Oh, that's a lot of Stromboli."

Howard Hill, the archer, will star in a full-length color film, "Africa the Beautiful." It's backed by Texas money. . . . Bob Taylor wants to do another prizefight story, "Come Out Fighting," which director Roy Rowland owns. **SHOOTING STAR:**

J. Carroll Naish's version of how Jack Warner "discovered" Humphrey Bogart has the town in stitches. Bogart, according to Naish, was working for a Los Angeles rodent exterminator company and was called to Warner's home, which was infested with rats.

Warner spied Bogart in the basement working an exterminator gun, immediately visualized him with a machine gun in his hand and hired him on the spot to play a gangster.

M-G-M just laid out \$50,000 to a Fox story analyst, Marge Decker and her collaborator, Barre Lyndon, for a Gable yarn, "To Please a Lady." It's about a lady columnist and an automobile race driver who graduates from mudguts to Indianapolis. . . . The prettier they are, the more they want to be mugged up on the screen. Jean Peters would like to do "Carmen" as the dirty, unkempt gypsy that she was. Genevieve is telling Fox she wants to play another role like she had in "Tobacco Road."

Jack Gilford claims a night club comedian can't afford to be too funny these days. A Hollywood talent scout might be in the audience and ruin his chances for television.

Akim Tamiroff is being paged for a Broadway revival of "The Bad Man." . . . The Lila Leeds quickie, "The Devil's Weed," has one sequence practically duplicating the arrest of Bob Mitchum in that Hollywood hunkology. . . . Judy Garland's latest film, "In the Good Old Summertime," was sneak-previewed the other night and there were plenty of cheers—and irony to her closing song number, "I Don't Care."

Jack Carson played godfather at the opening of director Ralph Ceder's Riverside restaurant, La-Chients. He broke a bottle of chili sauce over the front door.

Sorry to report that Clara Kimball Young, once a great silent star, is slowly losing her eyesight. Ironically, she was billed as "The Eyes" in the same manner as "The Legs" is billed today as "The Legs."

NO VISITORS "The Sunset Boulevard" set hasn't been bothered with visitors lately. They've been shooting scenes at the Los Angeles county morgue. . . . Howard Hughes is pulling a remake of "Scarface." Two casting switches coming up: Bob Ryan deserts character parts for a straight role with Joan Fontaine in "Bed of Roses" and Bill Williams plays his first villain role in "The Fighting Plainsman."

Dore Schary is talking about busting off some old Jean Harlow scripts for Marilyn Maxwell. . . . Peter Lind Hayes has his choice of three Broadway shows.

Frantic bids for film rights to Sidney Kingsley's Broadway hit, "Detective Story," has every studio in town blushing. Every studio turned down the story in movie script form. When he couldn't sell the yarn in Hollywood, Kingsley got mad and said, "I'll show 'em. I'll write it as a play." He did. As a movie script, Kingsley wanted \$75,000. As a hit play, the bidding is up to \$600,000. Bogart, Tracy and Dana Andrews all want to star in the movie version.

CABINET QUILTS

CAIRO — (AP) — The Egyptian Cabinet of Premier Ibrahim Abdel Iadi Pasha resigned today. (This dispatch gave no clear indication by the government resigned. Egypt still exercised censorship over both outgoing and incoming cables.)

THIEVES KILL YOUTH

NAPLES — (AP) — Giuseppe Surinno, 32, was shot to death yesterday by two masked robbers while trying to protect 200 lire (20 cents) he had made selling fruit.

"You'd be surprised how little we are bothered with salesmen since we have those retractable steps!"

Heiress to Keep Son

DEDHAM, Mass. — (AP) — One of the world's richest mothers, Woolworth heiress Barbara Hutton Troubetzkoi, has won her appeal to keep her only son with her for the rest of the summer.

Probate Court Judge Arthur W. Davis announced an agreement that permits 13-year-old Lance, son of Babs and the former Danish Count Haugwitz Reventlow, to stay in Europe until Sept. 7.

The agreement by attorneys for Babs and the tall, suntanned ex-nobleman, who was in court, came after affidavits were filed which declared that Babs is critically ill and in "very low morale."

It was a swim that brought the court contest over the summer keeping of the boy whose custody is shared during the year by the divorced couple under a court

Albino Mocking Bird Seen in Cemetery

CORSICANA — (AP) — An extremely rare albino mockingbird is flitting around Oakwood Cemetery.

The white bird with pink eyes was spotted by Supt. F. A. Bunch, soon after normally dark-hued parents hatched it.

Reventlow agreed that the boy should stay abroad after Babs' attorneys petitioned the court recently when the boy was about due to sail here to join his father.

But the day after that Reventlow told the court he wanted a new hearing because of reports that Babs was swimming daily at the swank Lido beach in Venice.

Signs Point to TCU

FORT WORTH — (NEA) — Texas Christian University fans, who believe in signs say everything points to TCU as Southwest Conference basketball champion next winter.

Here's how they figure it out: Coach Byron (Buster) Brannon will be in his sophomore season as head basketball coach. Last year his varsity team finished last and the freshmen were undefeated. That's happened once before.

When Brannon was a freshman at TCU in 1930 the basketball team he played on was undefeated and the varsity finished in the Southwest loop cellar.

The next year Brannon and his mates won the Horned Frogs' first conference cage crown.

Despite this coincidence, Brannon will need talent to survive a tough 24-game schedule which includes Missouri, Bradley, St. Louis and Wichita. Four of his starters will be from the freshman team.

Amputee Shepard Checks Bunt Attempts

WATERBURY, Conn. — (NEA) — Bert Shepard, who'll pitch for the leg-amputees at New York's Polo Grounds the night of July 26, reports that Colonial League ballers long ago gave up trying to bunt on him.

Shepard, who was with the Washington Americans for a spell, threw out four batters early in the season. He since has had no more than the average share of bunts.

Southpaw Shepard is also one USE T-4-L FOOT ATHLETE'S FOOT BECAUSE—

Leaves From a Correspondent's Life Notebook

By HAL BOYLE
NEW YORK — (AP) — People sometimes say:

"The only way you can get in the newspapers is to hold up a drugstore or elope with a movie star."

"So today I'd like to tell you the story of a simple heart—the story of 'Mrs. Van.' She is a fine old lady who never robbed a bank or ran against Harry Truman for President.

"But I've had a wonderful life," she said. It might not seem so to some people, but it does to her. She has a long Dutch name, but she is shy and asked me not to use it. So I'll just call her 'Mrs. Van'—as everybody does.

Mrs. Van is a practical nurse. She is white-headed and 63, but her skin is as fair as milk. I got to know her when she came to stay with a young neighbor couple expecting their second child. She would only accept 010 a week.

When the baby came, the young mother said:

"Do you know what Mrs. Van did with half of her first week's pay? She bought me flowers."

Money doesn't mean much anymore to Mrs. Van. But being helpful does.

She likes the younger generation—and disapproves of it.

"I don't think they can face life as de wiv," she said. "They don't have discipline. If I had lived as young girls do today I would never have been able to confront the problems I met with in my married life—no, never."

Mrs. Van was born in Holland and married a carpenter at 21. They had five children when he came to the United States. It was just at the time America entered the first world war, and for two years he couldn't send money back to his family.

"I had to move into an abandoned schoolhouse," said Mrs. Van. "We had no breakfast, and the children took a carrot or a turnip to school. For lunch we had potatoes, and I saved the peelings and cooked them for supper."

After the war she and the children came over, and the family settled in Pennsylvania. Later her husband spent five years in a mental institution before his death, and Mrs. Van had to support the family.

She is sturdily indifferent to the present plight of the world.

"I believe the Lord will have to come and settle it," said Mrs. Van. "And the way the world is going, I don't think it will be long."

EARNINGS UP

WASHINGTON — (AP) — Factory workers' average weekly earnings rose from \$52.86 in May to \$53.68 in June, the Labor Department's Bureau of Labor Statistics reported today.

WRITER'S MOTHER DIES

NEW YORK — (AP) — Mrs. Daisy Baum Stetehim, 79, mother of columnist Walter Lippman, died yesterday at a Saranac Lake, N. Y., hospital.

Unions Use T-H Law

WASHINGTON — (AP) — More and more, labor unions are making it plain that so long as they can't have the Taft-Hartley law repealed they intend to use it to the hilt.

Two long holdouts against submitting noncommunist oaths—required of a union's officers before it can use the National Labor Relations Board with its powers to help unions—have just decided to capitulate and sign the pledges.

They are the CIO Steelworkers headed by Philip Murray, also president of the CIO itself, and the CIO Food and Tobacco Workers, of which Donald Henderson has been president.

Henderson quit his job rather than sign the pledge that he is not a Communist. Immediately, the union appointed him its national administrative director. The change means that Henderson won't have to sign the oath for his union to qualify to do business with the NLRB. Only elected, and not appointed officers, must sign.

Murray, long recognized as anti-Communist, probably agreed to sign the oath so his union will be in a position to use the NLRB in its current wage-pension scrap with the steel industry.

New Federal Housing Rule Being Sought

WASHINGTON — (AP) — Federal housing officials pleaded with Congress to keep them from being hard-hearted landlords. Unless the rules are changed, they said, they must evict thousands of tenants — many of them veterans — at the end of this year. Raymond M. Foley, housing and home finance administrator, told a Senate banking subcommittee that a previous order by Congress to remove all temporary wartime government housing Jan. 1, 1950, would cause large-scale evictions and serious consequences to the municipalities and institutions where the housing is located. Instead, Foley proposed that the federal government turn over

these wartime temporary units to local communities, colleges, counties or states, and get out of the landlord business as fast as possible.

He suggested that local agencies repay only the land costs to the federal government on this temporary housing, with several years to pay.

Foley said Uncle Sam still has 467,000 units of government-owned wartime housing on hand, on which \$1,463,800.00 was spent. Most of the temporary rental housing, he explained, consists of converted barracks building or other war housing. Foley said these consist of 127,500 units located in all states and territories.

"The war housing is almost completely occupied and more than 80 percent of the tenants are veterans and servicemen," he said. For temporary housing remaining under federal ownership at the end of the year, Foley proposed that after next July 1 no vacancies be filled and all tenants be given a final notice to leave by July 1 of 1951.

How To False TEETH More Firmly in Place

Do your false teeth wobble and embarrass you when you eat, laugh or talk? Just sprinkle a little FASTEETH on your plates. This alkaline (nonacid) powder holds false teeth more firmly and more comfortably. No gummy, soapy, pasty taste or feeling. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH today at any drug store. (Adv.)

TV STATION SOUGHT

WASHINGTON — (AP) — Max Lutz, doing business as McAllen Television Co., McAllen, Tex., yesterday applied to the Communications Commission for a new commercial television station.

New Trial Sought For Watchman

CORRICANA — (AP) — A new trial will be asked Saturday for Frank Cumpston, former Blooming Grove nightwatchman convicted of murder without malice. Cumpston was found guilty last week in the shooting of John E. Barnett, 20, of Blooming Grove, who had been riding in a car before he was killed.

Charlie Kitchens of Blooming Grove pleaded guilty Tuesday to a charge of driving while intoxicated. He was indicted as the driver of the car Barnett was riding in. Kitchens was given a five-year suspended sentence. Cumpston drew a three-year sentence. The officer said he was trying to arrest Barnett and Kitchens.

Grand Jury Refuses To Indict Sheriff

CENTERVILLE, Tex. — (AP) — A grand jury reported it had refused to indict Sheriff Ben Lee of Leon County on a routine squeak suit up against the state of Tom Featherstone, 29. Featherstone was shot to death during a scuffle with the sheriff July 9. The grand jury questioned 35 witnesses.

Be it ever so humble, don't let it burn down.

Unusual Shmoo Created by Al Capp to Be Named in Contest

An unusual contest, based upon one of the favorite characters in Al Capp's famous "Li'l Abner" comic strip, which appears in this newspaper, gets underway this week.

Sponsored by a national soap company, the contest is being held to find a name for a very unusual Shmoo—a strange kind of household Shmoo which lays boxes and bars of soap instead of eggs and Grade A milk.

Fifty thousand dollars in prizes will be awarded to winners in the contest to name this new, household Shmoo. Details and information on how to enter the contest are included in an advertisement appearing in this newspaper today. Local grocers also have entry blanks.

According to the sponsors of the contest, there may be some Shmoo-naming hints appearing in the regular "Li'l Abner" strip between now and the close of the contest.

The winner of the grand prize will get \$20,000; and if he is a subscriber to The Pampa Daily News, he will receive \$1,000 extra. Entrants are advised that names for the unusual Shmoo can't have any letters in them which aren't in the words Duz, Dreft, Ivory Soap, Procter & Gamble brands sponsoring the contest.

Texas City Suit Defense Date Set

HOUSTON — (AP) — Government defense testimony in the 200 million dollar mass trial of Texas City disaster suits will begin Aug. 29.

Federal District Judge T. M. Kennerly set the date Tuesday after overruling a government motion for dismissal. Federal lawyers argued the plaintiffs did not offer enough evidence to justify continuance.

About 2,000 plaintiffs and about 300 suits are claiming the government is liable for damages suffered in the waterfront disaster April 16-17, 1947. Judge Kennerly arranged the mass trial to decide that point.

The plaintiffs started their case April 25 and ended it last week. Millipeds or "thousand legged worms" have developed many different species in moist "islands" in the deserts of the U. S. Southwest where they were isolated from other similar "islands."

Jack rabbits depend upon their speed for safety, rather than seeking refuge in holes.

FAIR QUEEN—Martha Mitchell reigns as Queen of Chicago's 1949 Railroad Fair. A member of the Cypress Gardens aquashow, Martha was voted prettiest girl employed at the exposition.

Minister Doubts Wisdom of Plan

LAREDO, Tex. — (AP) — Mexico's wartime foreign minister says the Marshall Plan may be dividing the world instead of uniting it.

Ezequiel Padilla told the Laredo Times that the Marshall Plan seems to be developing an ideology that is contrary to its purpose. He was on his way to Mexico for a short visit after three years of self-imposed exile.

Padilla said the sacrifices of the United States and "the great resources under the (Marshall) plan are being taken advantage of in a great part to create regional imperialistic systems in Africa and Asia, resulting in economic policy cartels, preferential systems and regional competition."

Rent Boosts Said Averaging 18 Percent

NEWARK, N.J. — (AP) — Approximately 142,000 families have had their rent boosted since the new rent control law became effective April 1. Housing Ex-

pediter Tige E. Woods said. The average boost was \$6.40 per month, or 18 percent, he told a meeting sponsored by the New Jersey Tenants' Council. Skunks are found only in the new world.

WMU Entertains GA's and Mothers With Mother and Daughter Tea

The WMU of the Central Baptist Church entertained the GA's and their mothers with a mother and daughter tea recently in the church.

Green and white color schemes were used in decorating the entertaining rooms. These colors are the GA colors.

Mrs. E. P. Sheriff, young people's leader, had charge of the program. She introduced Miss Mary Ann McPeak who sang, "I'd Rather Have Jesus."

The speaker of the evening was Mrs. Collins Webb of the Calvary Baptist Church. She spoke on "Star and Ideals."

Miss Mary Janis Silcott gave a report on the activities of the GA's.

Misses Carol Lamb and Gay Holtman presided at the register and Misses Helen Yeager and Sammie Jo Carson served refreshments.

Misses Treva Dean and Norma Sheriff ushered the mothers and daughters to their places.

Those attending were: Mrs. H. A. Holtman and Gay, Mrs. E. J. Overall and Betty, Mrs. H. L. Atkinson and Beverly, Mrs. L. C. Yeager and Helen, Mrs. Dean Cason and Sammie Jo, Mrs. E. P. Sheriff and Norma, Mrs. Frank Silcott and Mary Janis, Mrs. A. L. Sikes and Sheryl Sue, Mrs. L. C. Lamb and Carol, Mrs. A. H. McPeak and Mary Ann, Mrs. Harry Dean and Treva, Mrs. L. O. Roenfeldt and Joyce, Mrs. Collins Webb, Mrs. Melvin Hill, Mrs. Vera Koy, Sonia White, Mrs. Wayne Cobb, and Mrs. D. L. Stewart.

WSCS Has Christmas Fete In Chinese Garden Setting

The July Christmas party was held by the First Methodist WSCS in the garden of Mrs. Walter Purviance yesterday morning.

A Christmas tree, complete with the traditional stockings, was featured in the rustic setting. Ninety members were present.

Preceding the program, Mrs. P. W. Shottwell, president, conducted a short business meeting.

Mrs. H. R. VanSivke, program chairman, gave the welcoming address. She then presented Mrs. R. I. Davis who read the Christmas story from Luke II.

The Christmas stockings with the offerings were placed on the decorated tree.

Miss Esther Plank, daughter of Mr. and Mrs. E. E. Plank, spoke on Japan, emphasizing America's part in its future. Miss Plank, who has spent 22 months in this empire, stated that the Japanese people of today were looking toward America for things other than material values.

She stated that civil affairs is her main interest in Japan because she is engaged with the educational section. This involves working with the schools, and with woman organizations, labor women, the rural women, and promoting women's status in general.

She also emphasized that the women of Japan had a great influence on the welfare of the island. She added, "Our problem as American people is to understand and be tolerant and helpful."

Japanese garments and souvenirs were on display.

At the conclusion of Miss Plank's speech, the group sang "Silent Night."

The party was for the missions in China. In carrying out the theme, Chinese refreshments were served.

New York Appeals For Polio Nurses

NEW YORK —(P)— An appeal for special nurses to deal with a rising number of polio cases was issued Wednesday by Hospital Commissioner Marcus D. Kogel.

Dr. Kogel acted as 19 new polio cases were reported in an officially described "mild epidemic" in New York City. The Health Department put the number of cases since Jan. 1 at 247.

★ WE, THE WOMEN
BY RUTH MILLETT
NEA Staff Writer

"He tells me he loves me, but he always has an appreciative eye for a pretty girl," says a young wife who has been married three years.

"But if he loves me, why is he always so quick to notice other girls?" she asks.

Get it out of your head that your husband is different from other men. That's just normal behavior for a man — and marriage doesn't change it.

Some husbands are better than others about not seeming to notice other women when their wives are with them. But that doesn't mean they aren't aware of every pretty girl who crosses their path.

Men enjoy looking at pretty girls, and there's nothing a wife can do to change a man's nature. During the war years the men who were stuck off in lonely places collected pin-up pictures as a substitute for the pretty girls they were used to seeing on every street and in almost every office in America.

HE'S ONLY LOOKING
If you can make yourself regard the pretty girls who draw your husband's attention as just so many more pin-ups he likes to look at, you'll be happier.

After all, he probably hasn't the slightest intention of doing anything but looking.

And remember those pretty girls who draw his admiration have their own husbands or dates to think about. They probably aren't interested in your man, except perhaps momentarily.

If your husband is in love with you — and if he says he is you ought to take his word for it — he's perfectly safe.

A man's appreciation of pretty girls won't hurt his marriage. Not unless his wife makes something of it.

Sub Debs Have Meeting to Plan Next Rush Party

Miss Dolores McAdams was hostess to the Sub Deb Club when it met Tuesday evening to discuss plans for a rush party to be Thursday, August 4.

The party will be the second rush event for the club this season.

Pictures taken at a previous rush party were shown.

New sponsors were discussed with no decision being made.

Those attending were: Misses Phyllis Scheig, Barbara Scruggs, Ann Schwel, Donna Conley, Jean Hendricks, Merdella Roberts, Peggy Hukill, Sammie Frierson, Betty Howard, Mary Ellen Hawkins, Mary Jean Patton, and the hostess.

Junior Charmer

8490
11-18
By SUE BURNETT
A cleverly designed junior frock that gives the effect of a jumper with its crisp white sleeves and neckline treatment. Nice in dotted swiss for warm days—plaid cotton or soft woolen for cooler weather.

Pattern No. 8490 is a sew-rite perforated pattern for sizes 11, 12, 13, 14, 15 and 16. Size 12, short sleeves, 4 3/8 yards of 39-inch; 3 1/2 yard contrast.

For this pattern, send 25 cents, in COINS, your name, address, size desired, and the PATTERN NUMBER to Sue Burnett (Pampa News) 150 Ave. Americas, New York 19, N. Y.

Don't miss the new FASHION. The Fall and Winter Issue will delight you with its up-to-the-minute, easy to make frocks for all the family. Free gift pattern printed inside the book. 25 cents.

Steel pipes and tubes now are made in sizes ranging from hypodermic needles to pipes 180 inches or more in diameter.

Pi Mu Mothers Honor Families

The Mother Club of the Beta Rho Chapter of Pi Mu was hostess to its families and the chapter Tuesday evening in the home of Mrs. W. S. Brake, 606 N. Sumner.

Out-of-town guests included: Mr. and Mrs. O. Knowles and Sue and Oscar, and Miss Shirley Mason, all of Berger.

Others attending were: Mr. and Mrs. C. C. Matheny, Claudette and Ramona; Mr. and Mrs. Roy Williams and Ouida Jun; Mr. and Mrs. C. B. Lemons and Sheila; Mr. and Mrs. Floyd Barrett and Martha Lee; Mr. and Mrs. Ross Byars, James and Byron; Mrs. Lillian Zamora; Mrs. Ella Brake; Mr. and Mrs. W. H. Mathewes; Mrs. Willie Kruddast; Mrs. Lilly Hartsfield, and Miss Kay Stewart.

At 24, Andrew Carnegie was superintendent of the Pennsylvania Railroad's western division.

The first use of iron for rails was in the form of thin straps laid on top of wooden rails.

Andrew Carnegie came to America in his 18th year.

Reg. 12¢ Lb. → 8 1/2¢

Super Values Special! Your choice of 8, 10, 16, and 20 Penny sizes! Best quality... tough steel... sharp points that make hammering easy! Here's your chance to stock up at a seasonally low, money-saving price!

Clothespins—Package of 36
Regularly .29¢ → 17¢

You never have too many clothespins... stock-up NOW at this EXTRA-LOW sale price! Firm-holding, spring-type that work equally well on cotton or wire clotheslines! Smoothly finished to prevent snagging, tearing!

Left-handers Force Double Defeat On Oilers, 5-1, 2-1; Try Again Tonight

Main Halts Indians and Yanks in Fourth With 4 to 4 Score

NEW YORK — (AP) — A heavy windpump washed out the second and important three-game series between the league leading New York Yankees and runner-up Cleveland Indians Wednesday.

The teams were in a 4-4 deadlock when the downpour halted hostilities after four innings of play.

The Yankees got off to an early start in the first inning, but were held to a 1-0 lead by the Indians in the second and third innings.

More Schools Warned Of Sanitary Code

NEW CASTLE, N. H. (AP) — Assurance of more cooperation in enforcing the NCAA's "sanitary code" was given today by the National Association of Collegiate Commissioners.

With Gene Bearden back in his 1948 pitching form and Mike Garcia helping out, we should be set for the stretch drive," he said.

"And don't forget fellows like Al Benton, Satch Pajiga, Sam Zolack and Frank Pajiga. They're best in relief. That Benton especially, has been a life saver. He hasn't pitched a bad game for us yet."

The commissioners assured me they were eager to play a proper role in enforcing the "sanitary code" at the colleges they represent but no spotcases were discussed.

Houston told the commissioners earlier that several colleges will be notified of "non-compliance" with the "sanitary code" when the NCAA Compliance Committee meets in Chicago on Aug. 12.

In declining to name the colleges he said that "whatever action is taken by our committee must, under our regulations, be withheld until the NCAA meeting next January."

Ferrarese Gives 1 Hit, Fans 14 In Opener; Martin Hurls Tonight

Southpaw to death! That was the Pampa Oilers last night. And more of the same is due to face them in the final game of the series tonight. Last night the combined efforts of Don Ferrarese and Virgil Butler held the Oilers to a total of four hits over a fourteen-inning span, as the Dukes swept a twin bill on the Oilers, 5-1, and 2-1. Victims of the feeble Pampa stickwork were Roy Parker and George Payte.

Boudreau Looks For Another Big Three-Way Battle

NEW YORK — (AP) — Cleveland manager of the Cleveland Indians, Boudreau, foresees another slugging three-team battle down the wire for the American League pennant.

"I look for another terrific finish, with Cleveland, New York and Boston fighting it out just as dramatically as they did in 1948," Lou said yesterday after he watched the Yankees play the Indians at Yankee Stadium.

The shower finally forced umpires to call the second game of the important series with the Indians and Yankees tied 4-4 after four innings. "The Red Sox have power and are finally getting good pitching," the Cleveland manager added. "Their three young left-handers — Parnell, McDermott and Stobbs — are as good as any in the league right now."

"That McDermott should develop into one of the stars of the game," Boudreau said he was well satisfied with the condition of his own mound staff as he faced the challenge.

"With Gene Bearden back in his 1948 pitching form and Mike Garcia helping out, we should be set for the stretch drive," he said.

"And don't forget fellows like Al Benton, Satch Pajiga, Sam Zolack and Frank Pajiga. They're best in relief. That Benton especially, has been a life saver. He hasn't pitched a bad game for us yet."

Houston told the commissioners earlier that several colleges will be notified of "non-compliance" with the "sanitary code" when the NCAA Compliance Committee meets in Chicago on Aug. 12.

In declining to name the colleges he said that "whatever action is taken by our committee must, under our regulations, be withheld until the NCAA meeting next January."

Stenborg Hurls, Hits Hubs to Win Over Sox

LUBBOCK — (AP) — Big Walt Stenborg pitched and batted the Lubbock Hubbers to a 9 to 2 victory over the Amarillo Go Sox here last night, to even up the current series.

Stenborg drove in three runs with two singles and a double in four trips, while Al Duarte drove in three tallies with a single and double for a perfect night at the plate. Floyd Walker also took a hefty hand in the scoring, driving in a pair of runs and getting two doubles, two singles, in five trips.

Amarillo AB R H C: Duarte 2 1 2 4; Howard 4 0 1 2; Sullivan 2b 4 0 1 3; Haller 4 0 1 1; Prince 1b 4 2 1 3; Carr 4 0 0 1; Davis 4 0 1 1; Surma 3b 4 0 1 4; Davis 4 0 1 1; Jolin 1b 4 0 1 1; Miller 4 0 1 1; Lergino 4 0 0 2; Mills 4 1 0 0; Totals 32 2 39; Stenborg p 7 2 8.

National League Race Still Tight; Both Bums, Cards Win

Newcombe Hurls 7 to 3 Win Over Chi Cubs

CHICAGO — (AP) — Brooklyn's longest losing streak ended at long last Wednesday as the Dodgers routed the Chicago Cubs, 7-3.

Home runs by Gil Hodges and Bruce Edwards featured the 11-hit assault against Dutch Leonard, Warren Hacker and Emil Rieve.

Hodges broke a 1-1 tie with his 14th homer in the fourth. The Dodgers sewed up the game in seventh with a three-run drive on a walk, Gene Herman's triple, Duke Snider's double and another two-bagger by Hodges.

Don Newcombe started for the Dodgers. He became the ninth straight Dodger pitcher failing to get out of the jam by making the next three hitters fly into the dirt, causing three force plays at the plate.

Finally Sadowski got around to calling the pitch a strike, and Harper was apparently thrown out at first.

But after a rhabubar, Harper returned to the plate for another swing, and popped out in the seventh.

Cardinals and Munger Down Phillies 7 to 3

ST. LOUIS — (AP) — The St. Louis Cardinals took full advantage of Hank Borowy's wildness to push across three runs in each of the first two innings for a 7 to 3 victory over the Philadelphia Phillies last night.

Home runs by Gil Hodges and Bruce Edwards featured the 11-hit assault against Dutch Leonard, Warren Hacker and Emil Rieve.

Hodges broke a 1-1 tie with his 14th homer in the fourth. The Dodgers sewed up the game in seventh with a three-run drive on a walk, Gene Herman's triple, Duke Snider's double and another two-bagger by Hodges.

Don Newcombe started for the Dodgers. He became the ninth straight Dodger pitcher failing to get out of the jam by making the next three hitters fly into the dirt, causing three force plays at the plate.

ST. LOUIS — (AP) — The St. Louis Cardinals took full advantage of Hank Borowy's wildness to push across three runs in each of the first two innings for a 7 to 3 victory over the Philadelphia Phillies last night.

Home runs by Gil Hodges and Bruce Edwards featured the 11-hit assault against Dutch Leonard, Warren Hacker and Emil Rieve.

Hodges broke a 1-1 tie with his 14th homer in the fourth. The Dodgers sewed up the game in seventh with a three-run drive on a walk, Gene Herman's triple, Duke Snider's double and another two-bagger by Hodges.

Don Newcombe started for the Dodgers. He became the ninth straight Dodger pitcher failing to get out of the jam by making the next three hitters fly into the dirt, causing three force plays at the plate.

Finally Sadowski got around to calling the pitch a strike, and Harper was apparently thrown out at first.

But after a rhabubar, Harper returned to the plate for another swing, and popped out in the seventh.

Finally Sadowski got around to calling the pitch a strike, and Harper was apparently thrown out at first.

U.S.-Mexico May Sign Contract Labor Agreement

MEXICO CITY — (AP) — Mexican farm hands will be allowed to work in Texas this year, government sources say.

They reported yesterday a new migratory labor agreement taking effect off the black list might be signed by the United States and Mexico before the end of the week.

This would allow braceros to reach the United States in time for the cotton harvest.

To hire Mexican workers, Texas farmers will have to prove there is no discrimination in their areas and that there will be none elsewhere.

Mexico apparently agreed to return for a U. S. agreement contract for workers in the center of the country. U. S. farmers had wanted to hire border Mexicans to do their harvesting.

For several years, Mexico has had a black list of areas in Texas in some parts of the state where Mexican labor is discriminated against. Mexico has refused to let them return for work elsewhere in the state. U. S. spokesmen in its year's negotiations argued that a whole state should not be blacklisted because of discrimination in parts of it.

(At a meeting of Southwestern United States labor officials in Dallas yesterday, John F. Hilliard, regional representative of the U. S. Bureau of Employment Security, said Mexico must either raise its Texas blacklist or have a citizens barred from work in their states.)

sources said the new agreement will include "guarantees that the laborers shall not be the object of discrimination in the area for which they are contracted, and these guarantees shall be given by local authorities."

This means farmers may hire Mexican labor in any Texas county that can prove there is no discrimination within its borders and none will be practiced. It could even apply to smaller areas.

Mexico wanted its laborers hired from the center of the country because Mexico herself is suffering a shortage of harvest hands in the border area. U. S. farmers objected to this provision since they have to transport the workers from the place they sign the contracts to the place they work in the U. S.

U. S. farmers started using Mexican labor during the labor shortage of World War II. The peak immigration was nearly 60,000 men. Last year only about 20,000 were sent.

Other provisions of the new contract will be about the same as those in the old agreements. The Mexicans will receive the current wage in areas where they work and will be insured and will be guaranteed their return to their homes when the harvest ends.

Jack rabbits can leap at speeds of 30 to 35 miles an hour when frightened.

FLOATING WHEELS—The Sikorsky H-5H, the Air Force's first amphibious helicopter, hovers over the water off Bridgeport, Conn., during a flight test. The new wheel-float combination greatly increases the "copter's" utility as a rescue, search and liaison craft, allowing it to land practically anywhere. The blisters fore and aft of engine widen the fuselage so three litter patients can be carried.

Lefors Girl Rides at Seymour

June Bull, Lefors, one of the 14 entrants in the cowgirl sponsor contest which will be held in connection with the Top of Texas Rodeo and Horse Show, is representing the rodeo association at the Seymour, Tex. rodeo.

Miss Bull will ride "Prairie Dog."

The other 13 girls who have registered for Top of Texas contest are: Janet Ranson, Perryton; Ann Richards, Wellington; Billie Jean Hassell, Kirkland; Dora Waldrop, Amarillo; Mary Beth Wright, Pampa; Billie Burton, Pampa; Betty Rae Bullock, Shamrock; Dora Reeves, Pampa; Margaret Holt, Wheeler; Ida Ruth Cooper, Pampa; Delois Holland, Childress; Maurine Noland, Bueyeros, N. M.; and Roxie Keeler, Groom.

The cowgirl sponsor contest will be held twice a day each day of the Top of Texas Rodeo. To be eligible for the contest, the girls must be at least 16 years of age and have a sponsor. The contestants may be sponsored by a town, community or ranch, but not more than one girl may be sponsored by any organization.

First prize in the contest will be a hand-stamped saddle; second, riding costume; and third, boots. The entrance fee of \$5 will be added back for day money.

Sponsored cowgirls also have been requested to ride in the Top of Texas parade, which will be held at 4 p. m. next Wednesday.

Bill Creates Two Federal Judgeships

WASHINGTON — (AP) — The Senate completed Congressional action yesterday on a bill creating two federal judgeships in the Southern District of Texas.

One of the two is temporary. The measure, a companion already approved by House sets up 27 more federal and district judgeships.

Dallas Man Claims Gold

LITTLE ROCK, Ark. — (AP) — A Dallas, Tex., man has asserted that \$200,000 in gold coins reported buried in Arkansas belongs to him.

The man, W. U. Wilcox, telephoned Attorney General Ike Murry's office and requested that the state see to it that no one else removes the alleged treasure. He said the money was buried by his father, that he knows where it is hidden and that he will fly here this week to recover it.

Wilcox said he is related to Miss Helen Wilcox, Philadelphia attorney, who first mentioned the gold cache to state officials.

In reply to a request for information on Arkansas law pertaining to removal of buried treasure, the attorney general wrote Miss Wilcox asking for more details. In Philadelphia, she declined to give any information other than that she knows of the treasure and wants to remove it. Atty. Gen. Murry also said that a Charlotte, N. C., coin collector, Fred E. Tipton, had written him that he would pay twice the face value for gold coins in good condition.

"I still don't know what it's all about," Murry said. "If I knew where this treasure was buried, I'd be out there digging for it myself."

Power Plant Asked for Dam

WASHINGTON — (AP) — The State Department sent a request to the Senate yesterday asking authority to build a hydroelectric power plant in connection with the Falcon Dam on the Rio Grande.

The United States and Mexico would equally share the cost of the plant and share any power developed. Falcon Dam is one of three authorized under a 1944 treaty between the two nations. The State Department estimated the cost of the power plant at \$10,740,000. Its annual production was estimated at 200 million kilowatt hours of firm and 50 up 27 more federal and district million kilowatt hours of secondary power.

Diaper-Clad Rover Scares Family

NEW ORLEANS — (AP) — Diaper-clad Terry Kelly threw a scare into the Kelly household.

Terry, 2 1/2 years old, wandered away from home before other members of the family awakened.

His father, Harry Kelly, figures it must have been around 5:15 a.m. (CST) when Terry climbed on a footstool, unlocked the door and used a broom to unhook the front screen door.

Somewhere in his wanderings, Terry was picked up by a taxi-driver. The driver found a squad

car. Terry took a ride with the officers.

Meanwhile, back at the Kelly home, Terry's brother, Dorrance, 7, awakened to find Terry's bed empty.

Kelly jumped into his automobile and started a search of the neighborhood.

Five blocks from home he ran into a cabbie.

Sure, the cabbie had seen the boy — in fact, had given him a ride and turned him over to police.

The antelope jack rabbit lives chiefly in Mexico and a short distance north of the border.

He's Having More FUN, Too!

Entertainments and Sports Events Are Regular Features of Our Year-Round Program for Carrier-Boys!

BEING a newspaperboy is definitely not a case of "all work and no play!" Carrier-salesmen for this newspaper have their full share of fun and good times! Throughout the year, we provide a special program of sports, trips, shows, entertainments and other awards for all carriers who excel in serving their customers and increasing their routes. Thus, many a carrier enjoys prizes and thrills far beyond the reach of the lads who do not have newspaper routes.

Being a newspaperboy has its business benefits, too! It's the best way for an enterprising teen-ager to earn extra money, gain basic business experience, and speed up his savings program—all in return for a few hours of easy, spare-time service each week.

MERRY CHRISTMAS—Perspiring church women string Christmas lights on an evergreen tree in preparation for a midsummer Yuletide party at Kendallville, Ind. Methodist Church members thought Christmas is too commercialized in December so decided to hold their own celebration, stressing religious aspects, in July. The tree had to be set up indoors because too many bugs outside waited to join in on the festivities.

BACHELOR DAYS NUMBERED—Jimmy Stewart, long known as Hollywood's most-confirmed bachelor, is visited on the movie set by his bride-to-be, Gloria McLean. Stewart will wed the New York socialite some time in August when he finishes his current film assignment. Then it's off to Hawaii on a three-month honeymoon.

THE ICEMAN COMETH TO THE RESCUE—Ralph Bailey of a Ludlow, Mass., ice company makes a stop at an artificial pond each day and delivers a half ton of ice to the fish. So far, according to Al Fuller, who built the pond, the stunt has saved many fish from death in the tepid water. Young bathers on hand don't seem to object to lowering the temperature of the water either.

FUNNY BUSINESS BY HERSCHBERGER

"That's what I call nerve!"
 More than 20 million persons receive their mail from R.F.D. Hoop skirts once were supported by whalebone, which was expensive.
 Fire doesn't pay—ask the man who had one. Prevent a fire so you won't have to report a fire.

★ IN HOLLYWOOD ★

BY ERNLINE JOHNSON NEA Staff Correspondent

HOLLYWOOD—(NEA)— Exclusively Yours: Lana Turner has agreed to report to M-G-M early in August for her first film in almost two years. But the picture will not be any of the three recently announced for her. It's "A Life of Her Own" (which Lana seldom gets) and she'll age from 18 to a 45-year-old hotel maid.

The melody lingers on: When Fox re-issues Rita Hayworth's "My Gal Sal," the ads will read: "Rita Hayworth finds her prince charming in her most exciting romance" and "America's favorite princess of love as Sal—who inspired a nation's love song." Just about as subtle as a sailor on shore leave.

Ed East heard that Bette Davis may be starred in a western and cracked: "This I gotta see—Bette in an emotional scene chewing on a stirrup."

Odd that both Clark Gable and Mickey Rooney will play auto race drivers—Gable in "To Please a Lady" and Mickey in "The Big Wheel." I think the Mick fits the type better. At least he fits a midjet racer a lot better. \$84,000 questions: Are Ginger Rogers and Jack Briggs readying a news flash? Is Ava Gardner trying to be Nature Girl? She showed up barefooted at a local fur salon.

READY TO TRAVEL
 Joan Fontaine leaves for New York, Lisbon and Rome Aug. 3 to appear in background shots for Hal Wallis' "September." She'll do the picture and then return to Broadway for rehearsals on her stage play, "Hilda Crane." Joan surprised everyone at RKO by making 19 costume changes in an hour testing for "Bed of Roses." I chided her about not doing the same at Sal—who inspired a nation's home. "Oh, but I do," she said.

Clara Kimball Young phoned to deny that she's losing her eyesight. Says the report started because of a blood clot in one eye but that she's completely recovered.

BARBARA BURNS
 Barbara Stanwyck is burning over the re-issue of "Lady of Burlesque" — not one of her better films. Bob Ryan is trying to get RKO's approval to star in an air series based on the character he played in "The Setup."

Lon McCallister and Nancy Walker have discovered each other. Bol Lesser is so pleased with returns on Lee Barker's first Tarzan film, the next one will have a million dollar budget.

Bust-up of the Joanne Drury-John Ireland romance may be good news to Shelley Winters whom, everyone thought John would marry, but she won't try to rekindle the flame. She says: "It took me too long to get over it the last time."

Eddie Heyman's 1938 song hit, "They Say," is slated for a revival by eight record companies. Ben Gage is up for the male lead in the Broadway musical, "Miss America."

Pound Master Put On Police Patrol
 AMARILLO — (AP) — Amarillo is not going to the dogs, but the city pound master is on patrol duty now.

Police Chief Sid Harper put Pound Master Bob Paraley in uniform to get every available man on the job to check what the chief called a crime wave in Amarillo.

Work Starts on Belton Dam
 GALVESTON — (AP) — Work is underway on the \$22,800,000 Belton dam and reservoir near Temple.

Col. E. I. Davis, Galveston district engineer, announced yesterday the Hunter Construction Co. of Ada, Okla., began the job this week.

The Hunter company will build the first part of the earth embankment at an estimated cost of \$187,583. The entire project depends upon Congressional appropriation of additional funds.

The initial appropriation calls for an embankment 1,800 feet long and 80 feet high, containing about 800,000 cubic yards of earth.

The completed dam will be 5,100 feet long and will rise about 190 feet above the Leon River stream bed.

The vogue for hoop skirts was in full swing between 1860 and 1870.

Legion to Elect Officers Tonight
 Election of officers for the local post of the American Legion will be held at 7 p.m. today, O. L. Statton, commander, said this morning.

"All members are urged to attend," Statton said. "We plan to serve free coffee and doughnuts following the election and will have the whole thing finished before game time."

New officers, from the commander on down, will be elected tonight.

Olberson Arms of Vic Apathy

men comprise 29 percent of labor force of America and are entitled to all the privileges and responsibilities of citizenship, Olin Olberson, railroad commissioner told members of the W Club Tuesday night.

Olberson, guest speaker at the July social meeting of the organization, said women should participate equally with men in discharge of governmental duties.

Introduced by Mrs. W. F. Jorjensen, Olberson said the "dangerous 'ism'" in America, in his opinion, is "don't-care-ism."

He is interested in and affected by what happens in elections and in government, but we care to the extent that we care to fulfill the obligations of citizenship," he said.

Olberson's "don't-care-ism" regard to schools, schools and school elections, he said, is this "ism" which keeps able and responsible persons from serving in such capacities, sitting on juries, and performing simple obligations of citizenship.

In voting, Olberson was served to approximately 40 members of the club and guests at the close of address.

It was announced that the club picnic of the B&WV Club will be held Aug. 7 in Amarillo. Members who plan to attend have been asked to contact I. W. Howard or Mrs. E. E. Nutt.

Insurance Rates Said Too High

AUSTIN — (AP) — A Dallas insurance buyers consultant charged that a brief filed with the State Fire Insurance Commission that Texas home owners are paying excessive premiums for protection.

The consultant, Ralph Soape, requested reduction in rates on dwellings; reduction in the number of classifications and simplification of rating schedules. The brief was filed for study Monday at the board's annual hearing.

Soape had requested a hearing on his contention that in the past five years owners of dwellings in Texas have paid \$138,289,566 for insurance, 42 million dollars more than was necessary to cover the risk.

He charged that administrative practices of the insurance commission encourage uniform instead of competitive rates among insurers. "It is discrimination of the rank order to deny the insuring public of Texas the same leveling influence (competition) extended the insuring public in other states by the same companies doing business in Texas," he said.

"A recent example of the burden imposed upon dwelling owners springs from the statement a few weeks ago of the Dallas fire marshal that Dallas lost its fire record credit on account of the Neiman-Marcus (department store) loss," said Soape, continuing:

"It means that this loss in the mercantile class, is penalizing every dwelling owner in Dallas who insures his dwelling and household furniture and effects."

Soape criticized the "cross breeding" insurance rates for two different classifications such as dwellings and commercial establishments.

"As a matter of fact, the contributions of all Dallas dwelling owners on account of the Neiman-Marcus fire are not going to the purpose of paying for that loss, but are going largely to increase the profits of the insurance companies which insured the risk," declared Soape.

Legal Records

MARRIAGE LICENSES
John Robert Quick and Joyline Ann Callaway.
W. E. Couts and Carolyn Saggerman.

VALUATION TRANSFERS
P. O. Sanders and wife to E. E. Fullhart, Lot 12, Block 7, Talley.

Lynn Boyd and wife to D. L. Tucker, Lot 13, Block 9, Cook Adams.

ARE THEY KIDDING?—Candidates for the title of "Miss Washington" do their bit for traffic safety in the nation's capital during rush hour. But their warning went unheeded, as male passersby paid more attention to them than their sign. Even the cop at left stops watching the light to take a gander.
