Rumor Has It Phillips Trying To Buy Shell President Comes to Defense Of Aide in Senate Inquiry

By BUD ANDERSON
News Oil Editor

As yet, company officials have not confirmed reports that Phillips Petroleum Co. is to take over holdings of the Shell Oil Co. in this area.

Persistent rumor has been circulating in Pampa that Phillips was interested in Shell's producing leases in the Panhandle and was buying.

However, calls made to top officials of both companies in New York and Bartlesville have failed to verify these reports. In both instances, officials' only report was "No Comment."

Local observers seem to believe, nonetheless, an offer has been made. The extent, however, is not known. Several offers have been made in the past but all have been refused.

Observers also believe Shell refineries will not be affected and only the company's production is under discussion.

Shell has approximately 40 employees in the production department and about 15 to 20 leases in the area. Average production has been estimated at 2000 barrels daily.

Official hesitancy to confirm or deny the sell-out could be based on a desire to avoid undue hardships on Shell production personnel, some observers report. All would face transfer. Should the company releases its holdings to Phillips, Shell employees, it is believed, would be kept within the organization and transferred to company offices in other parts of the country. None would be released to Phillips, it was predicted.

It is generally thought a year sort of agreement would involve a trade-out between the two companies. It is unlikely a cash offer would be made or accepted, these observers contend.

TELLS OF PAYMENT—Milton R. Pollard, a Milwaukee insurance man, tells a Senate investigating Subcommittee in Washington that he paid John Maragon \$1,000 for trying to get a sugar rationing suspension order lifted in 1946. This led to a demand by Sen. Joseph R. McCarthy (R-Wis.) that Maragon, a key figure in the "five percent" inquiry, be indicted for perjury. (AP Wirephoto)

WASHINGTON (AP)—President Truman today asked the country to "suspend judgment" on Maj. Gen. Harry H. Vaughan until after his Army aide testified before the Senate five percent inquiry.

Mr. Truman, at a news conference, directed his request particularly to reporters and editors. He was sharply critical of what he called leaks from the committee and what he described as a tendency to build up the most critical testimony against Vaughan at closed hearings.

Mr. Truman made it clear at the outset that he did not intend to answer any questions concerning the inquiry.

Reporters thus were unable to ask him about a Republican demand that he oust Vaughan as coordinator of veterans affairs.

Senator McCarthy (R-Wis.) voiced the demand that Mr. Truman fire Vaughan from the veterans affairs post.

McCarthy added that as a Republican senator he does not feel he has the right to suggest that Vaughan be ousted from his other job as the President's Army aide.

The President read rapidly today from a prepared statement saying:

"At the outset, I want to say to you that I do not intend to answer any questions pertaining to the testimony that has been given before Senator Hoes's (D-N.C.) committee.

"General Vaughan has already said that he will go before the committee and make a full statement on all matters with which his name has been connected.

"I suggest, as the chairman of the committee has done, that you gentlemen and your editors in common fairness, suspend judgment on General Vaughan until he has been heard by the committee.

The President gave newsmen permission to quote his remarks. He asked during the hearing yesterday that senators withhold statements denouncing Vaughan. He spoke out after Sen. Arthur Mundt (R-S.D.) had called Vaughan, among other things, a "finagling bargainer."

The President made it abundantly clear that he does not approve of the way the hearings have been handled.

Vaughan's name has come up repeatedly at hearings of the committee which is looking into activities of so-called five percent persons who help in seeking out government contracts.

Everson was usually five percent. His name has come up in

connection with gifts of several home freezers, activities in behalf of a California race track seeking to get a building permit when materials were scarce, and efforts of a New Jersey molasses firm to get a permit for additional scarce sugar, after the company had been accused of violating a sugar rationing order in 1946.

Mr. Truman said "most of the favorable testimony" concerning Vaughan has been held behind closed doors while the unfavorable side has been produced at open hearings.

The hearings, he went on, have been behind closed doors "particularly if they were friendly to Vaughan."

He went on to say that much (See PRESIDENT, Page 3)

Local Cases At Plainview 'Satisfactory'

Pampa patients at the West Texas Polio Center at Plainview are all responding satisfactorily to treatment, personnel at the hospital said yesterday.

The condition of David Rhodes, eight, son of Mr. and Mrs. L. Z. Rhodes, Skellytown, who was admitted Monday for treatment of bulbar poliomyelitis, was about the same.

Pampa and Plainview are among the communities with the largest number of persons received at the clinic so far this year, it was reported from Plainview. Plainview admitted its tenth patient Tuesday, four-year-old Lewis Edward Dement.

Meanwhile, Pampa's eight cases are three less than were at the clinic at this same time last year. At this time last year Pampa had sent 11 cases to Plainview and neighboring towns had sent five patients through Pampa.

A total of 14 polio patients have been reported thus far this year in and around Pampa. A Lefors youth had a slight case during the middle of July, but was hospitalized for only a short time and was not sent to Plainview.

Joe Myrtle Shelton, 16, Mobeetie, son of Mr. and Mrs. Henry Shelton, was visiting his sister, Mrs. H. W. Phillips, 411 N. Hill, when his illness was diagnosed as encephalitis-type polio. He was admitted to Plainview July 19, but was returned to Mobeetie July 29.

Carol Ann McClelland, 14, Carolyn Sue Monks, nine, and Mattie Lee Wright, 13, all Pampa patients, have been returned from Plainview. Pampa children still at the clinic are: Linda Ouley, eight, George Admire, Jr., two. (See LOCAL, Page 6)

Experts Draw Proposal for Dollar Crisis

LONDON (AP)—A secret document outlining proposals for meeting the world dollar crisis has been drawn up by a committee of top British financial experts and goes before the cabinet next week.

It okayed, the four-part document will form basic British policy at next month's dollar-pound Washington conference, when Sir Stafford Cripps, British chancellor of the exchequer, and Foreign Secretary Ernest Bevin meet U.S. Treasury Secretary John W. Snyder and Canadian officials.

These officials will discuss the unbalanced trade between the U.S. dollar and British sterling areas which has left Britain desperately short of dollars.

Official sources said the four-part document comprises:

- 1—A study of the background and causes of the critical imbalance between the dollar and sterling areas.
- 2—A review of what each of the three governments has done to meet and redress that imbalance.
- 3—A close look at the situation as it exists now, underlining all the implications of a failure to agree on a solution.
- 4—A series of proposals aiming broadly at achieving some kind of world pattern which would allow a free flow of currencies between the dollar and non-dollar systems.

Informants said the British document attempts to prove that the dollar crisis is not British or American, but a global crisis.

Child Hit by Car, Injured

A six-year-old boy, Kenny Ray Powell, of the New Town Courts, was struck and seriously injured at 8:45 p. m. yesterday by an automobile as he was crossing the street at S. Barnes and McCullough.

The youngster was taken to Pampa Hospital by a Dukenek-Carmichael ambulance where physicians learned he had suffered a fracture of the lower jaw, numerous scratches and bruises. Doctors said this morning he was "getting along fairly nice today."

City Police said the car that struck the child was a 1942 Chevrolet sedan, driven by Dayton Everson, 108 1/2 N. Starkweather. Everson was traveling north when he ran into the boy. He told police he was meeting another car and the boy ran out from behind it. He added, in a statement to police, that he saw the child's head above his right front fender and slammed on his brakes and stopped as soon as he could.

Police charged Everson with defective brakes.

Kenny is the son of Mr. and Mrs. Claude C. Powell.

'Mental Hygiene, Child Guidance' To Be Discussed for Public Here

"Mental Hygiene and Child Guidance" will be discussed by Dr. Samuel R. Watson at 7:30 p. m. Tuesday in the Club Room, City Hall.

Sponsored by the Pampa Business and Professional Women's Club, the address will be open to the public.

Dr. Watson, assistant professor of psychiatry at the Washington Medical School, St. Louis, was born in Canada. He received his BA, MD and CM Degrees from the McGill University, Montreal, Canada.

After completing his work at McGill, he went to Yale University to take post graduate training in psychiatry. He has taught at Yale University Medical School and served overseas as a flight surgeon with the 8th Air Force during the past war.

When Washington University established a child guidance clinic last year, Dr. Watson was made director. He is a member of the American Association of Psychiatric Clinics for Children, which is primarily concerned with the emotional problems of children.

Dr. and Mrs. Watson and their two sons are spending the summer in Texas on a ranch near Quitaque. While in Texas they will visit Mrs. Watson's cousin, W. F. Sauls, Quitaque and Mrs. Watson's sister, Mrs. Fimis Jordan, Pampa.

Mrs. Watson is a psychiatric social worker. She received her AB Degree in the first graduating class at Texas Tech and her MS Degree at the Western Reserve University at Cleveland, Ohio.

At the present time Mrs. Watson is an instructor in the George Warren Brown School of Social Workers, Washington University, St. Louis.

Dr. Watson, experienced lecturer, was first invited to address the next meeting of the BPW Club. However, interest was shown throughout the city so the club decided to extend special invitations to the medical association, parents and teachers clubs and anyone else interested in child guidance.

HST Blames 'No Funds' On Congress

WASHINGTON (AP)—President Truman today blamed the predicted lifting of federal rent controls in one-third of the areas still having them on Congress' failure to provide sufficient appropriations.

Questioned at a news conference about Housing Expediter Tighe E. Woods' announcement yesterday that the rent controls will be lifted by Oct. 1, the President said Congress did not provide enough money to enforce the rent control law.

Woods called in his top lieutenants and regional officials to discuss the stepped-up plan.

Officials said a determined effort will be made to enforce controls first in so-called "borderline" areas—those where sufficient rental housing exists or soon will be available.

There was no immediate indication which regions they had in mind, and officials said such information will not be ready for several days.

Woods earlier had predicted that no community of more than 100,000 population will be affected.

"The cuts will be country wide, not concentrated in any one particular section," he said yesterday in announcing plans for the action.

Controls will be raised under provisions of the present federal rent act which expires next July. It empowers the housing expediter to lift ceilings but to slap them on again if rent gouging occurs.

Since April, when the law became effective, (See HST, Page 6)

Roy Rogers To Attend Boys' Rodeo

Roy Rogers and Dale Evans will attend the fifth annual Boys' Ranch Rodeo, scheduled for Sept. 4 at the Tri-State Fair Grounds, Amarillo, to help the rodeo boys and metal figures of the members of the Boys' Ranch.

The screen star cowboy and his wife have said they will be more than happy to attend the big event, but insist on paying their own expenses. Roy also will appear in a play, "Trigger," to be added as extra prize at the rodeo.

Older boys of the ranch will participate in bronc and steer riding, trick roping, trick riding, and ribbon roping. The younger boys will try a hand at calf riding on small yearling calves.

Because "Trigger" is on location, he will not appear with Roy and Dale. But even without the horse, Dale and Roy will be the feature attraction at the rodeo.

There will be both an afternoon and evening performance at the rodeo. Tickets are now on sale. The entire proceeds of the rodeo will go to Boys' Ranch.

British Get China Protest

CANTON (AP)—China protested today that British warships, displaying a bellicose attitude toward Nationalist naval units, had violated Chinese territorial waters.

The protest was handed to the British Embassy yesterday by the Chinese Foreign Office as these developments came swiftly in the Asian mainland war.

1. Foochow, big port opposite Formosa, fell to the Reds.

The Nationalists admitted withdrawing from the Miaoy islands, 210 miles east of Tientsin. The islands had been used by Nationalist naval units to blockade northern Communist-held ports.

Communist armies mounted a big offensive in Human Province.

4. Americans and other foreigners fled from Canton. The U.S. Consulate General expects to be closed by tomorrow.

Chinese index of protest warned Britain against repetition. It said the British destroyer Concord was sighted off the mouth of the Yangtze River in territorial waters on July 31. After dark, the destroyer moved into the mouth of the river, the mouth of the river, the mouth of the river.

The Concord that night kept a rendezvous with the British sloop Amethyst, which had been held on the Yangtze between Shanghai and Nanjing for months by Communist shore guns. The Amethyst escaped in a running fight down the wide river.

The Chinese note said that any British warship entering territorial waters must have the approval of the Nationalist government.

Full of Foochow was first announced by the official Central News Agency from Taipei, capital of Formosa.

State Near End of Testimony in Trial

DUMAS (AP)—The state was nearly finished today with its testimony in the trial of Lonnie Lee Nugent, 33, of Dumas, charged with the rape of a seven-year-old girl.

Yesterday the girl, her mother and an Amarillo physician testified. The girl said she was a victim of an attack on the night of June 6 at a local tourist camp.

Mrs. Izelle White, mother of the girl, testified that she (Mrs. White) had lived with Nugent two years and had had two children by him without ever having been married.

REBELS FLEE—The general staff announced today that 5,500 Communist guerrillas fled into Albania during the Greek army's victorious Vitsi campaign.

Truman Issued Order Giving Yugoslavia Permission to Buy American Steel Mill

WASHINGTON (AP)—President Truman today issued an order that the government grant Yugoslavia permission to buy an American steel mill.

He told a news conference that the National Security Council studied the matter and recommended letting Yugoslavia have the mill. Then, he said, he personally ordered that it be sent.

The move has provided Yugoslavia's Marshal Tito with reinforcements to carry on his fight with Moscow.

After months of consideration, the administration granted the Yugoslav government an export license which it needed before placing the order for the plant.

The American decision represents the strongest and riskiest move taken by the American government to help the Yugoslav dictator since he split with Moscow nearly 14 months ago. It also settled a long-standing argument between the National Defense and State Departments on whether shipment of a steel mill to Yugoslavia would endanger American security.

Officials had frowned on the idea.

The decision to go ahead foreshadowed possible approval of a loan to Yugoslavia from the World Bank, where the United States has a dominant voice.

Government officials who disclosed the approval of the Yugoslav plant request to a reporter said it was intended to help combat the tightening Russian-directed economic blockade of Yugoslavia.

Shipment of the steel mill, valued at \$3,000,000, would mark the first time since the war that the United States had deliberately sent "war potential" material to a Communist-run nation.

Poland and Czechoslovakia have been clamoring for American machinery and equipment for the

'No Strings to Aid' Acheson's Plea

WASHINGTON (AP)—The administration came out flatly today against tying strings to arms aid for Western Europe and against funds for non-Communist China.

The administration's stand was set forth in a letter from Secretary of State Acheson to Rep. Lodge (R-Conn.) as the House neared a vote on the \$1,450,000,000 arms program.

Major floor fights are expected over proposals to include 200 million dollars for China and to end the entire program next June 30 with the understanding that further aid will be granted only if recipient nations indicate a willingness to work together as a team for mutual defense.

Acheson wrote that the administration "is firmly convinced that further provisions of military assistance to the Chinese National government is impractical and unlikely to be effective."

Concerning curtailment of the European part of the program, he said:

"It is also the firm conviction of the executive branch that the solemn commitments undertaken by these European nations in joining with us in the North Atlantic Treaty provide a maximum of assurance that further common defense planning will progress as rapidly as can be desired."

He said holding up the arms program until the planning is completely perfected would serve "only to delay in improving the security of the area and to prolong the period during which \$1,450,000,000 to \$500,000,000 commensurate with our stated determination to do so."

As Acheson's letter was made public, Rep. Richards (D-SC) formally offered in the House his amendment to cut the amount of aid for Western Europe from \$1,450,000,000 to \$500,000,000. That is just half the amount (See ACHESON, Page 6)

Business Men Stocking Up On Fall Goods

WASHINGTON (AP)—Business loans appear definitely on the increase in volume. The gain is a sign that business men are stocking up on goods at last for fall and Christmas sales.

Finance officials here predicted today this uptrend will go on right up to Christmas.

The rejuvenating effects on the economy of increased inventory buying can be judged by the fact that the Commerce Department singled out a cutback in that buying as the prime cause of the 1949 dip in business.

A Federal Reserve Board report showing an 80 million dollar increase in loans to business men by leading city banks during the week ended Aug. 10 mirrored a virtually country-wide improvement.

All districts shared in the expansion except the Cleveland district, where there was a seven million dollar downturn and Boston, where the loan volume was unchanged.

The big gains were 38 million dollars in New York City and 20 million in the Kansas City district.

With business men ordering more goods to sell in turn to their customers, factories can be expected to step up operations and in some cases recall workers laid off when orders thinned or stopped.

Leon Keyserling of President Truman's Council of Economic Advisors said yesterday that the country will have to get back to and exceed 1948 production levels to be prosperous.

Declaring increased production is easy and that the No. 1 problem is to lift consumption to the levels of productive capacity, Keyserling told a war veterans' luncheon.

"In the next ten years we must find ways to absorb 80 to 100 billion dollars worth of additional goods unless we go on unemployment and increasing underutilization of our productive resources."

Without an expanding economy, he said, consumption ability will furnish incentives for a 1 percent annual increase in production without any help, Keyserling said.

Public Dances Are Called Off

COLORADO CITY (AP)—There'll be no more public dances at the local Legion Hut.

The Legion cancelled the money-raising dances after the Rev. J. Y. Bradford of nearby First Baptist Church, charged against empty beer cans, whiskey bottles cluttering the church lawn.

"The city had to send a truck to haul away the empty bottles which were strewn in the street," the minister said of a recent dance. "There were even bottles found in our church building itself."

He said he was not blaming Legionnaires, except as sponsors of the dances.

Colorado City is the county seat of Mitchell County, legally "dry" under local option laws long upheld by a strong majority.

After the Rev. Bradford's protest, Post Commander Walter E. Crabb announced "Effective immediately the Executive Board has cancelled all future public dances."

Lonely-Hearts Defendants Found Guilty

NEW YORK (AP)—Plump Martha Beck and Raymond Fernandez today were convicted of first-degree murder in the bludgeoning-strangulation slaying last Jan. 4 of Mrs. Janet Fay.

There was no recommendation of mercy. The verdict automatically carries a mandatory death penalty.

The jury returned its verdict in Bronx Supreme Court at 6:30 a. m. (CST) today, 12 hours and 34 minutes after it received the case last night.

The two defendants displayed no emotion when the verdict was announced by Fred D. Yob, jury foreman.

The jury had been kept deliberating all night at orders of the court. Shortly before dawn they asked permission to go to bed, but the judge, stating it would not be convenient to grant the request, sent the jury back.

Mrs. Beck, standing to the right of her attorney, Herbert E. Rosenberg, rested her fingers on the defense counsel table when the jury came in. Fernandez stood poker-faced.

After the verdict was announced, both defendants were instructed to sit down. Mrs. Beck stared at Rosenberg, and (See DEFENDANT, Page 6)

OIL NEWS: Oil Producers Seek Increase In Allowable

AUSTIN (AP)—The Railroad Commission is expected to cheer up Texas oil producers' royalty owners and the state treasurer today by increasing crude oil allowable production for the first time this year.

An increase of 80,000 to 125,000 barrels daily appears likely.

This anticipated action will be contrary to the U. S. Bureau of Mines forecast of smaller demand for Texas crude oil in September than in August. But it will be in line with purchasers' advance requests for more oil.

Commission members opened the statewide oil and gas production hearing at 9 a. m. today in the Baker Hotel at Mineral Wells.

The Bureau of Mines has forecast a demand of 2,130,000 barrels of Texas crude daily in September. Commission Chairman A. W. Williams today said that August's estimate last month, August was 2,150,000 barrels per day.

The current daily allowable, as of last Saturday, is 1,945,637 barrels.

Purchasers have told the commission that September requirements total 2,365,597 barrels each day. This is 48,066 barrels more per day than they asked for July and August, which were covered by a two-month order written in June.

Retention of the present 17-day statewide production schedule and 15 producing days in the East Texas field would result in an approximate increase of 50,000 barrels daily during the 30-day month of September.

Addition of one day on both the statewide and east Texas production schedules would boost crude oil output some 125,000 barrels per day.

Few Agencies Given Funds

WASHINGTON (AP)—A swift action on Capitol Hill pulled a number of big government agencies out of a financial hole today.

But nearly 30 billion dollars in operating funds that should have been voted six weeks ago still were snarled up in Congress. Sept. 15 is the new deadline for solving the tangle the third new deadline Congress has set since June 30.

Quick teamwork between Chairman Cannon (D-Mo) and McKeellar (D-Tenn.) of the House and Senate Appropriations Committee snatched government financial emergency late yesterday for a long list of government agencies which have been waiting for passage of their regular appropriations since the new fiscal year started July 1.

Cannon announced speed approval of a stopgap measure so about 40 government agencies can continue meeting payroll and other expenses.

Officially the Army, Navy, Air Force, Atomic Energy Commission, Veterans Administration, Interior Department and more than a score of other agencies ran out of money at midnight Monday.

Congress is supposed to get money bills for government agencies out of the way before the fiscal year starts.

The House, which originates all appropriations, did its work weeks ago but a stubborn and slow-moving economy drive in the Senate has bogged down six major money bills there.

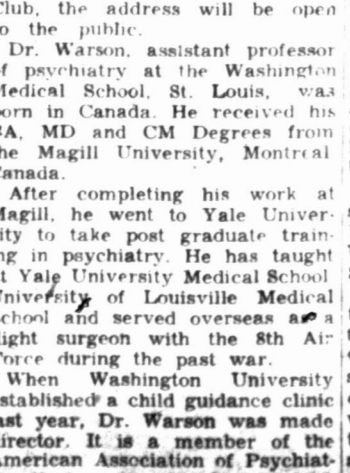

Negroes Ask End to Zoning Restrictions

BIRMINGHAM, Ala. (AP)—Birmingham Negroes appealed to the City Commission today to reconsider its past action and abolish racial zoning in this Deep South city.

The plea was drafted at a mass meeting of more than 2,000 Negroes.

WE HEARD . . .

A cry of distress from one of Gray County's newly married wheat farmers who is facing starvation. His bride refuses to cook for him until he brings home a short-haired puppy to keep her company during the day. John Johnson, the man in distress, lives nine miles south of Pampa on Highway 70. Anybody with a puppy can get in touch with a short-haired puppy by calling 905-F-11. He's willing to trade off a kitten on the pup to boot. Let's go Evinrude. See them at Lewis Hardware—adv.

STRENDERS—Hugh D. Gravitt (right), driver of the automobile which struck Margaret Mitchell in Atlanta, Ga., pauses with his attorney, A. L. Henson (left) before entering the city police station to surrender after learning of Miss Mitchell's death. Police Chief Herbert Jenkins said Gravitt, 29, was charged with murder and was being held without bond. (AP Wirephoto)

No Cut Seen in Vets Program

CLEVELAND (AP)—Federal Housing Expediter T. G. Woods pledged that "not one man" will be taken off the veterans housing program until the program is cleaned up.

Woods, speaking at the 28th national convention of the Disabled American Veterans, said that a slight in his budget left him with two alternatives: fire one-third of his employees, or decentralize a third of the areas under federal rent control.

He said he had decided on the latter course.

His budget, Woods said, had been cut from 26 million dollars to \$17,500,000.

Doctors Paged 'By the Numbers'

FORT WORTH (AP)—Fort Worth doctors just like the quarterback—are going to have to know their signals at football games.

Beginning Aug. 25, all physicians belonging to the Tarrant County Medical Society will be paged at public gatherings by number instead of name.

In letters sent to "Doctor 1" through "Doctor 427" inclusive, the society reminded the physicians to please memorize this number.

Lasts of doctors and their numbers have been furnished to all places where the public address system is used.

Generators Asked For Falcon Dam

WASHINGTON (AP)—Installation of power generating equipment at Falcon Dam on the lower Rio Grande in Texas was recommended by a House foreign affairs subcommittee.

It approved a bill sponsored by Rep. J. P. Cramer (D-Texas) to share the production cost and divide the power with Mexico. Mexico also shares in the cost of the dam, now under construction.

H. C. Herrick, of the Mexican Affairs Division of the State Department, told the committee the installations would cost \$12,658,000. He said power revenue would pay this cost within 40 or 50 years and contribute toward the cost of the dam.

Nation's Corn Nears Peak; Curback Set

WASHINGTON (AP)—The government could own enough corn a year from now to feed nearly a third of the nation's livestock a full year — if the latest official grain crop estimates are borne out by the harvest.

This prospect fed speculation today that the government will find it necessary to resort to production controls on the 1950 corn crop to prevent its being overwhelmed by a feed-grain surplus.

Leading to such speculation was an Agriculture Department crop report Friday. It said this year's corn crop now looks as if it will be only about 8,000,000 bushels (three percent) short of last year's record of 3,850,000,000 bushels. Some private forecasters and department grain experts had expected an even higher department estimate.

Nevertheless, the indicated crop, plus an estimated carryover of 800,000,000 bushels from last year, would provide a total corn supply of 4,338,000,000 bushels for the feeding season beginning Oct. 1. This is 1,158,000,000 bushels more than the department expects to be used domestically and exported.

The government already has more than 500,000,000 bushels tied up under the 1948 price support operations. In other words, this is grain farmers have no need or market for.

A year from now, the amount under price support operations could easily be anywhere from 800,000,000 to 1,000,000,000 bushels. Never before has the government had as much corn on its hand as it now holds, or is likely to hold a year from now. Its investment averages around \$1.46 a bushel.

AIRMAIL SPECIAL—Second Assistant Postmaster General Paul Aiken, left, loads the "first flight" mail on a model airplane built by Denny Davis, of San Diego, Calif., during National Model Meet at Olathe, Kansas. This was the first time airmail had been carried in a model plane. Flight time was four minutes and 10 seconds. One of the little "letters" went to President Truman, the rest mostly to stamp collectors.

Labor Looks Toward 1950 Elections

TORONTO (AP)—Plans for raising a million dollar fund for use in next year's elections were approved by the political section of the American Federation of Labor. The money is to be used to help elect men considered pro-labor and to defeat men marked anti-labor by the AFL.

The Administrative Council of Labor's League for Political Education, meeting with the quarterly session of the AFL Executive Council, approved the plans. The AFL Council members also sit on the League's council.

Joseph Keenan, AFL president, told a news conference the League would be shooting mainly for Senator Taft (R-Ohio), co-author of the Taft-Hartley Act. Other targets would be Senators Donnell (R-Mo.), Capehart (R-Ind.) and Millikin (R-Colo.).

CAMPAIGN SONG—"Memphis Blues," which started the "blues" fad, was written in 1909 by W. C. Handy as a campaign tune for E. C. Crump, of Memphis, according to the Encyclopedia Britannica.

Two Boys Killed by Old Hand Grenade

ROME (AP)—A group of boys went exploring Tuesday in an abandoned ammunition dump outside Rome.

They found a round, rusty ball of metal and had lots of fun rolling it about—until the hand grenade exploded.

Marcello Cimini, three and Natale Cordiali, five, were killed. Two others were injured.

DIVIDEND DECLARED

NO ROCKIN' CHAIR'S GOT HIM—Seventy-four-year-old William Holland arrives at Hoover Dam, near Las Vegas, Nev., after a 2800-mile trip on a bicycle from his home town of Owosso, Mich. "Can't stay long," he tells dam guide John Weston, right. "Got to get home by Oct. 1." During the past 60 years, Holland estimates he has traveled some 100,775 miles by bike.

ECA Funds Granted France to Buy Cotton
WASHINGTON — (AP) — The Economic Cooperation Administration today gave France an okay to buy 20 million dollars worth of cotton from United States suppliers under the Marshall Plan. The spending approval was contained in new recovery grants to eight European countries, Western Germany and Korea. The latest transactions bring total Marshall Plan authorizations to \$6,330,168,000. The additional aid to Korea boosts to \$34,021,000 funds for recovery there.

Passengers Relieved That Stork Failed
SAN FRANCISCO (AP) — Everybody who crossed the Pacific on the SS President Taft was relieved today except Taft, the expectant elephant. Captain W. S. Tyrrell said after the Taft docked Tuesday that he never had been bothered by such a worrisome case of pregnancy on his ship in 31 years at sea. The ship's arrival before the stork saved him the role of midwife to an elephant. Taft is being sent to Los Angeles. Trainer Noel Roosevelt said the blessed event may be a day or a month off, it's hard to tell. The Fiji Islands are made up of 250 separate islands.

FUNNY BUSINESS
BY HERSCHBERGER
Albania Protests Invasion of Greeks
LONDON — (AP) — Albania protested today to the United Nations — for the second time within a week — that Greek troops are invading her soil. Tirana radio said the latest complaint is that Athens troops killed five civilians when they poured more than 2,000 shells in-ton four frontier villages Sunday.

GREEK INVASIONS
LONDON — (AP) — Albania complained Saturday for the second time last week of large-scale Greek invasions of her frontier. A Tirana broadcast monitored here said an Albanian Ministry of Armed Forces communique announced the repulse of two Greek land and air attacks on Albanian territory yesterday.

48 SHIPS UNLOAD
ROME — (AP) — Forty-eight ships carrying Marshall Plan aid from the United States were unloaded in Italian ports last month. Coal (384,182 tons) and wheat (28,000 tons) headed the list of cargoes.

Jones Sets Up Scholarship Fund
ATLANTA (AP) — Georgia Tech announced Saturday Jesse H. Jones, Houston financier, has given the school a \$10,000 scholarship fund. Dr. Blake Van Leer, Tech president, said the former secretary of commerce set up the 10-year fund in honor of Gen. Lucius D. Clay of Georgia. Clay will be asked to nominate candidates to receive the scholarship benefit each year. Each grant is to consist of not less than \$200 a year nor more than \$500 in any academic year. One fourth of the average American's food consumption is composed wholly or in part of dairy products.

CHICAGO NOT SO WINDY
Although Chicago is called the "Windy City," it ranks behind New York City and Boston in average wind velocity.

MOST POPULAR MODELS
Model agencies report that their most popular female models average 5 feet 8 inches in height and weigh 112 pounds.

FALSE TEETH
That Loosen Need Not Embarrass
Many wearers of false teeth have suffered real embarrassment when their plates dropped, slipped or wobbled at just the wrong time. Do not let this happen to you. Sprinkle a little FASTEREETH alkaline (non-acid) powder on your plates. Hold false teeth more firmly so they feel more comfortable. Do not sour. Check "plate color" (dentist's breath). Get FASTEREETH at any drug store.

Soldier to Wed By Telephone
FORT WORTH — (AP) — A Fort Worth soldier plans to be married Saturday by telephone to a girl he hasn't seen in nearly two years. Pfc. Elmer Lee Wright flew here from his Tooele, Utah, base to get the license, the preacher and the telephone ready. The 21-year-old soldier said his sweetheart, Miss Leopoldine Ann Grubmuller, 24, will be waiting for the telephone to ring in Tandahut, Germany, where the couple met three years ago. After the telephone ceremony Wright will arrange for his bride to come to the United States.

UNUSUAL INSPIRATION
Samuel Clemens' literary career was started when a page from the story of Joan of Arc was blown in his path by a light breeze. As Mark Twain, Clemens wrote 23 books. Most popular of the group were Huckleberry Finn and Tom Sawyer.

HORSERADISH SAUCE 2 tablespoons lemon juice, 1 cup heavy cream, 2 tablespoons horseradish, 1/2 teaspoon salt, 1/4 cup chopped parsley. Whip cream then mix in horseradish, lemon juice, salt and finely chopped parsley. Chill and serve with cold roast beef.

DEVILED SAUCE 1/2 cup butter or margarine, 1/2 cup ketchup, 1/2 cup chopped onion, 1/2 teaspoon prepared mustard, 1/2 teaspoon Worcestershire sauce, 1/2 teaspoon chopped parsley, 1/2 teaspoon tarragon, 1/2 teaspoon onion.

Melt butter or margarine in saucepan. Cook garlic and onion in it for 5 minutes. Add remaining ingredients and bring to boiling point but do not boil. Superb with cold veal roast.

LIBERTY

By F. A. HARPER A Member of the Staff of Foundation for Economic Education

"INSTALLMENT XV THE EXTENT OF LOST LIBERTY"

A rough measurement of the encroachment on liberty is to be found, then, in the proportion of the product of a person's labor that is taken from him by force or threat of force, by government...

The present figure of 25 cents, even under present conditions of high employment and money incomes, is frightening enough...

The threat and danger embodied in a figure of 35 cents, or more, can be gleaned from a few comparisons...

Taxes as a percentage of national income, 1929-1930

USSR 29 Germany 25 France 21 United Kingdom 21

The power to tax is the power to destroy. The power to tax income becomes the power to destroy property...

When Cardinal Mindszenty was being condemned she quoted a "factual" informant to the effect that the Cardinal was an anti-Semite, a Fascist, the greatest opponent of the general welfare of the Hungarian people...

The source of her "factual" information about the martyr cardinal was George Seldes, a notorious anti-Catholic propagandist of the communist line...

The "Capitalist System," which Lenin wished to destroy, is based on the right to the product of one's own labor and on the right to save some of it as private property...

The private property that comes into being when a person spends less than his income, or consumes for purposes of his current living...

With his flair for heroics and dramatics, General MacArthur would sensationalize the F.A.R. Eastern problem in such a way that it might upset the political-diplomatic apparatus...

The Blessed Baby-Sitter

By GORDON MARTIN When they talk of great professions and the noble work that's done to improve our daily living...

It may be the baby-sitter of our modern social whirl is the counterpart of what we used to call the hired girl...

And sometimes she does the dishes or she tidies up the house, or perhaps she finds some time to do some sewing on a blouse...

Success Secrets IN HOLLYWOOD

By ELMER WHEELER Here is a story to be read by you containing that everything in human nature can be made to serve a constructive end...

"I've just visited the home of a fellow we will call Bill. Bill has about the nicest set-up anyone could want...

Yet when I asked Bill's wife the secret of his transformation, she said, "Bill became successful because he was a gambler and a spendthrift—and still is."

"When we were married I never nagged him," she said. "I never tried to reform him. But when the kids came along I thought it was time I had a heart to heart talk with Bill."

"If you're going to be a gambler—be one," she said, "but why be a sucker? When you put your money on a horse or a wheel you can't win. Instead of betting on a horse—why not bet on yourself? Why not put down your money and energy and thinking on Bill—to win? And if you want to place some more bets—why not put down a few dollars a week on our two kids? Bet them to win—by putting down some money at a teller's cage at the savings bank—so they can go to college. And if you want to spend every dime you earn—go ahead and be a spendthrift—but why not spend it for the things that really matter and the things you really want. Open another savings account and use it to buy peace of mind, security, maybe a down payment on a home of our own in the future. Use it to buy an opportunity to go in business for yourself a little later on." So Bill changed horses—and won.

Gracie Says SOUTHAMPTON — Everyone here talks like Ronald Colman and dresses like Barry Fitzgerald. But I didn't notice anybody dropping any sitches until George pinched his finger in a suitcase and then he dropped them all over the place.

I was rather hoping the King or Queen might run down and meet us, but George said they were probably up at the palace. I said I'd like to see the palace and he said the only difference between getting into the one in New York and the one in London was just a lot of influence. I guess he's right. If it hadn't been for an uncle of mine in a booking office, we probably never would have played the New York palace at all.

We are going to London by train and I suppose we'll be very late, as I understand the government runs the trains over here. If I was a government I'd never have a train run on time, remembering what happened to Mussolini.

A California thief stole nothing but cheese from a delicatessen. Was he man or mouse?

BRITISH READY AIR GIANT—Aircraft workers draw the double-decked hull of Britain's latest and fastest flying boat into a fitting hangar in Cowes, England. With a seating capacity of 105, the 140-ton craft will be capable of flying a non-stop service between London and New York at a speed of 380 mph. The hull alone is equivalent in weight to three-and-a-half Constellations.

Washington and Moscow Residents Would Like to Live a Long Time

By JAMES MARLOW
WASHINGTON — (AP) — It's a little bit like living in a dream.

Dressed for summer, men and women stroll the streets of Washington and Moscow, talking, looking in the shop windows. They'd like a little more money, maybe, and some more comforts and they'd like to live a long time.

Particularly, they'd like to live a long time. But somehow they've been caught up in something, an age-old something.

The conflict between people, ideas, desires, politics, economics, power.

And while they walk the streets, laughing in the sun, their officials are in buildings in Washington and Moscow, talking.

The officials, in uniforms or civilian clothes, are planning and they're talking of death, death that seems remote now, in the future, but still death.

What the officials in the Moscow buildings are saying the people on the streets there don't know. They're not told.

But jet fighters shoot overhead. And you can be sure the things the Moscow officials talk about are not much different from the things the Washington officials talk about.

There's the atomic bomb, which the Russians are trying to make or maybe have made. And here Air Force officials

tell a committee of Congress about the B-36 . . .

It can travel 8,000 miles, it can fly at 40,000 feet. In an over-cast at 400,000 feet jet fighters can't stop it, and it can carry atom bombs.

And the Russians are probably talking about what an atom bomb could do to Washington, or Paris, and they're probably talking about a plane like the B-36 that could carry the bomb overseas.

Only a short time ago they let loose a dazzling pack of jet planes over Moscow . . .

But the sun is shining. Death seems far away. And the men and women, dressed for summer, stroll the streets. Life is like a tiger in their blood. They hope it never is subdued.

Movie Credit Plan To Boost Attendance

HOLLYWOOD — (AP) — You may soon be able to step up to the boxoffice at the Bijou and say: "Charge it, please."

Yes, to crown such lures as free dishes, bank nights and popcorn, movie men have dreamed up new bait: boxoffice charge accounts.

The see - it - now - and - pay - later plan was hatched by the King brothers, a trio of Hollywood producers. They're offering it - free - as a tonic for ailing film profit.

WINS NOMINATION — Senator John S. Battle (above) won the Democratic nomination for Governor of Virginia over three opponents. The nomination is tantamount to election.

Ivory is supplied by the boar, hippopotamus and walrus, as well as the elephant.

New House Gives Owner Large Charge

PLYMOUTH, Eng. — (AP) — E. R. Hyatt stuck the key in the door of his new metal house and wham — he was jolted off the stoop. He picked himself up and tried a window. He went down again in a shower of sparks.

He peered into the kitchen and steam was pouring from a cold water faucet.

"Stand back!" he warned his wife and children. "This calls for an expert."

The local housing authority repair man disconnected the power line and inspected the place. He found a bare wire rubbing against the frame of the metal house — which should have blown a fuse, he said, but didn't because a clip holding the ground wire had worked loose.

The Hyatts decided to go to a hotel for a few days.

NINE-STATE VISION
At a height of 15 miles, an observer in a stratosphere balloon above Chicago could see nine states with the unaided eye: Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Kentucky, Ohio and Wisconsin.

Only at certain seasons is the hair of the ermine white.

The Real Will Rogers Has Become Overshadowed by Growing Legend

By BOB THOMAS
(EDITOR'S NOTE: Second of two articles on Will Rogers — man and legend. Today's concerns the man.)

HOLLYWOOD — (AP) — The real Will Rogers has become overshadowed by the legend that has grown in the 14 years following his death.

But the memory of America's "poet larrikin" remains fresh in the minds of those who worked with him in the movie industry.

"He wasn't an actor," says a writer. "He was something greater than that — a philosopher."

"He was a shrewd man under that shy exterior," says another.

"He knew people liked him folksy and plain, and he kept himself that way."

"He would stroll through the commissary and stop to chat with anyone," says another. "He always sat in the northwest corner of the place and Shirley Temple, Warner Baxter and Henry King had the other corners."

He was a millionaire who used to eat chili and raw onions for lunch. Lew Borzage, brother and assistant to Frank Borzage, who directed Will's first talkie, recalls how Irene Rich once asked Rogers to lay off the onions.

"We're doing a close scene this afternoon," she pleaded. That day he had a whole onion for lunch.

The studio built him a fancy Western dressing room, but he hardly set foot in it. He could often be seen sitting in his car on a studio street, hunt-and-pecking out his newspaper column.

"All I know is what I read in the papers," he said, and he read plenty of them to find news to comment on. He could recall an insignificant news item that had been printed months before.

"Like many comedians, he was not very funny when he wasn't

on," says an intimate. "He had a fabulous memory for gags, which made him seem like an ad libber. It's the same knack Bob Hope and Milton Berle have today."

Rogers disliked close-ups. "Give 'em to the girl," he'd say. "Nobody wants to look at this homely pan."

He could knock the famous, as when he said about President Coolidge: "I never knew a Vermont to do any tremendous amount of worrying on \$75,000 a year." But he never picked on anybody small. He liked to finish his pictures ahead of schedule, and he'd pay the day-by-day workers what they lost by finishing sooner.

At 4:30 in the afternoon, he'd begin twirling his larrikin nervously on the set. At five, nothing could keep him from heading for his canyon home and his family.

He once gave his secret of success as "gum and gumption." But to most of his countrymen it was because of his warm, human touch that sprang from the heart of the nation. And because of a humor such as that contained in a dispatch from the land that claimed him in death:

"The Governor of Alaska is a Democrat, but a gentleman. Eskimos are thicker here than rich men at a save-the-Constitution convention."

Mrs. Manry and her husband were hurrying home to Hornell, N.Y. Manry was discharged from the Army at Fort Bliss, Thursday.

Seven passengers came to Mrs. Manry's aid when it became evident the stork was gaining. She was moved into the women's lounge. The dining car steward opened the dining car and served coffee to the attendants.

Mrs. Manry was removed to a hospital here. She and the baby were described as "doing fair."

Eagle Gets Bird As Stork Wins Race

VAN HORN, Texas — (AP) — The stork beat the eagle Friday with the greatest of ease.

A 5-12-pound daughter was born to Mrs. Calvin Manry aboard the Texas & Pacific's streamlined "Eagle" passenger train between El Paso, and Van Horn.

Mrs. Manry and her husband were hurrying home to Hornell, N.Y. Manry was discharged from the Army at Fort Bliss, Thursday.

Seven passengers came to Mrs. Manry's aid when it became evident the stork was gaining. She was moved into the women's lounge. The dining car steward opened the dining car and served coffee to the attendants.

Mrs. Manry was removed to a hospital here. She and the baby were described as "doing fair."

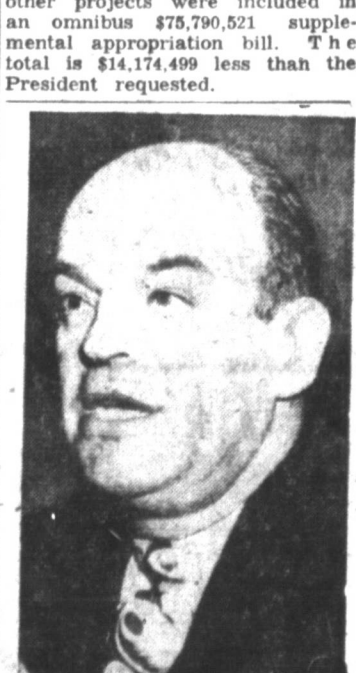

Committee Approves 'Voice' Appropriation

WASHINGTON — (AP) — The House Appropriations Committee has recommended more money for the "Voice of America" after hearing that the program is hurting the Russians "and hurting them badly."

It also approved funds to start work on a long-range guided missile proving ground in Florida and for loans for construction of farm housing.

Money for those and numerous other projects were included in an omnibus \$78,790,521 supplemental appropriation bill. The total is \$14,174,499 less than the President requested.

Probe Witness — Joseph Curran, president of the CIO National Maritime Union, is scheduled to testify in a closed hearing before the House Un-American Activities Committee in an investigation of the Hawaiian dock strike. Committee investigators said they are looking into the strike to find out whether it fits into a plan laid down in Moscow to seize world-wide control of shipping.

DEFENDANT

Continued from Page One
 Fernandez glared at the still standing defense lawyer.

The 19 men and two women of the jury had been in almost continuous deliberation — except for three trips to the courtroom during the night for instructions — since Supreme Court Justice Ferdinand Pecora completed his charges last night.

Mrs. Beck, 29, and Fernandez, 34, had no rest during the night. They were kept in cells in the detention pen in the courtroom. There were no cots, but they were reported to have dozed in chairs.

Fernandez and Mrs. Beck were convicted of slaying Mrs. Fay, 66, Albany, N.Y., widow, at Valley Stream, N.Y., in a scheme to fleece lonely women in mail romances.

The state charged that the killing was deliberate, and in his summation Edward Robinson, Jr., Nassau County, N.Y., assistant district attorney, told the jury the motive was "dead men tell no tales."

The defense contended Mrs. Beck was insane with jealousy at the time of the crime, and it also denied she struck hammer blows on the victim's head. The defense claimed Fernandez had no part in the slaying, and that he was not in the room when it was committed.

Justice Pecora, in a five-hour charge to the jury yesterday, referred to the admitted acts of sex perversion by the defendants, and told the jury that a defendant need not be present at a crime to be guilty of it.

In a statement allegedly made in Michigan, Mrs. Beck was quoted as saying Fernandez told her to hammer Mrs. Fay on the head, adding, "if you love me, you'll do it."

PRESIDENT

Continued from Page One
 of the unfavorable stories have resulted from "leaks" from within the committee.

Some of the newsmen took issue with the President, saying that virtually all the recent hearings have been public.

One woman reporter said she had covered many open hearings. Vaughan himself was present when Mr. Truman spoke. He stood behind a table — to the rear of the President's desk — between Rear Adm. Robert L. Dennison, Naval aide, and Brig. Gen. Robert B. Landry, Air Force aide.

Vaughan was absent last week when Mr. Truman defended the Army aide. The President took occasion then to tell reporters that Vaughan's absence was not due to any fear of the newsmen.

Senator Mundt told reporters meanwhile, that because of the way Vaughan has figured in the Senate investigation "I am inclined to think the President will have a new military aide eventually."

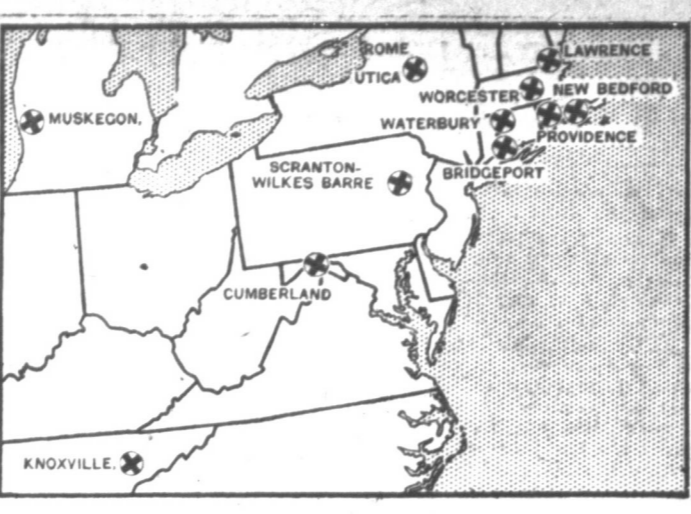

Mr. Truman said at his news conference a week ago that his opinion of Vaughan had not been changed as a result of testimony to the special Senate subcommittee. It is checking on whether improper influence has entered into the handling of government business.

Since Mr. Truman's remarks last week, Vaughan's name has continued to bob up every day at the inquiry. Yesterday the committee got testimony that Vaughan went to bat, unsuccessfully, in behalf of a New Jersey company accused of violating a sugar rationing order in 1946.

In that effort, the committee was told, he teamed up with John Maragon, former Kansas City shoe shine boy who came to know many federal officials by their first names. Vaughan Maragon has said, is his good friend.

The sugar deal prompted McCarthy to demand that Maragon be indicted for perjury. The senator spoke out after the committee developed testimony which members said showed that Maragon had lied under oath.

LAND IS FASTER
 Land and sea breezes are immediate vicinity that has been caused by differences in temperature between adjacent land and water areas. These differences are due to the fact that land areas take on heat and cool off with greater rapidity than do water areas.

AREAS "BLIGHTED" BY UNEMPLOYMENT—The U. S. government has named 11 areas, indicated by crosses on map, as emergency unemployment regions, and has ordered federal agencies to give these areas as many government contracts as possible to help get them back on their feet. These areas, according to a government survey, have 12 per cent of their labor force out of work. Other regions may be added as soon as full reports are in.

New Agreement Is 'Unworkable'

WASHINGTON — (AP) — Opposition to the new bracket agreement between the U. S. and Mexico for farm workers developed yesterday from Western farm operators.

Senator Anderson (D-NM), one of a group of congressmen who accompanied the farm delegation to see President Truman, said the August 1 agreement was "unworkable."

This agreement provides that labor recruited from Mexico must come from at least 200 miles south of the border, with the American employer paying the round-trip transportation.

Big farm operators in the Southwest need gangs of seasonal labor for harvesting various crops. Members of the delegation which included growers from California, Texas and Arizona said the agreement would be expensive.

ACHESON

Continued from Page One
 requested by President Truman.

Richards said the purpose of his proposal is to finance the plan until June 30 instead of until June 30, 1951, with the understanding the rest of the money would be provided if Congress is assured that Western Europe intends to fully cooperate in mutual defense plans.

The main fight on the bill is expected to be on the Richards amendment.

The bill's backers were confident they could defeat the amendment, although they admitted it would not be easy.

There is bipartisan support for the Richards proposal and bipartisan opposition to it.

The President has asked that the program cover initially a two-year period, with deliveries and obligations to continue until June 30, 1951.

By holding it to the shorter period, Richards told the House, Congress would make it clear to Western European nations that they won't get any more help unless they pull together as a team and forget "ancient jealousies and rivalries."

"What we will be saying," he explained, "is that we are ready now to go half-way with you. If you will go half-way with us, then we can go the rest of the way together."

Pampan Dies In Oklahoma

D. B. Gordon, about 85, died at 1:30 a. m. today in an Anadarko, Okla., hospital, friends of the family reported today.

The elder Gordon had been living with his son, B. G. Gordon, 427 Hill, since his wife died a little over two years ago. He had lived all his life around Fort Cobb, Okla. He had gone to Anadarko for a visit about 10 days ago, when he became ill and was taken to the hospital Monday.

Funeral services will be held at 2 p. m. tomorrow from the Church of Christ in Fort Cobb. In addition to his son, he is survived by two grandchildren.

VACUUM TROUBLE

During a tornado, it's usually the lack of air that causes trouble. As the funnel passes, it lowers outside air pressure so suddenly that buildings are torn apart as the air inside rushes out.

Anderson Keeps Reins Tight on Dam Legislation

AMARILLO — (AP) — Sen. Clinton Anderson (D-NM) said he isn't blocking the Canadian River Dam project in committee, but he intends to see that correct procedure is followed.

"I am simply insuring that the bill is presented in accordance with correct procedure," he told The Amarillo Globe-News in a long distance telephone conversation yesterday.

"You had wonderful luck with it in the House under the sponsorship of Reps. Gene Worley and George Mahon, but you can't expect that correct procedure will be ignored in the Senate."

He reminded The Globe-News that several hurdles were eliminated in the House handling of the measure. "In the first place the Bureau of Reclamation's report had not been submitted to the states of Oklahoma, Colorado or New Mexico for study. 'Moreover,' he said, "it was not cleared by the Bureau of the Budget."

"I have discussed this whole matter with your representative, Mr. Worley, and he understands thoroughly," Senator Anderson said. He added that the Texas Water Shed Project at Fort Sumner, N. M., for several years.

"However," he declared, "I do not intend to do that, but I am within my legal rights in the stand I am taking, and Mr. Worley understands it. I have to protect the interest of my own state and a measure of this nature cannot go off half-cocked."

Man is Booked On Second DWI

Albin J. Kovar, convicted here on March 15 of driving while intoxicated, was picked up again yesterday afternoon by City Police and booked on a like charge.

Police said Kovar drove over a curb at Browning and Gillespie at 3:30 p. m. yesterday shortly before cruiser car patrolmen apprehended him. His car was towed to the Culbertson Chevrolet garage.

On his previous conviction, Kovar drew a 30-day jail sentence from County Judge Bruce Parker. A formal charge of driving while intoxicated was registered in the county clerk's records this morning. Kovar was scheduled to come before Judge Parker this afternoon.

Tuesday afternoon Judge Parker imposed a \$100 fine on Ted Schneider for transporting without a license. Schneider was picked up by Constable Bill Langley.

Federal Aid Sought For Church Schools

PORTLAND, Ore. — (AP) — The Knights of Columbus convention was prepared today to adopt a firm policy of insisting on federal school aid to parochial pupils if such aid is given public schools.

Delegates were planning to write a stinging condemnation of the Barden bill now in Congress.

Army, Air Force Make Offers for New Enlistments

An examining team for Air Force cadet applicants will be in Amarillo Aug. 22 and 23, M-Sgt. Davis A. Brown, local recruiting officer announced today.

The examinations will be held in the Army recruiting office, 312 E. Fifth, Amarillo, Brown said.

Brown also announced that Reserves and Regular Army commissions are available to doctors, dentists, veterinarians, Army nurses, and to women medical specialists.

The Army Security Agency has 3-, 4-, 5-, and 6-year enlistments open for certain qualified men with prior service, the recruiting officer said.

Applicants for security duty must have an AGCT rating of 100 or above, and must have passed the Army's radio code test with a grade of 110 or above. They also must have acquired some specialized training in their prior tours of duty.

Direct assignment to the Army Engineers at Fort Riley, Kans., Man's first weapon in warfare was the slingshot.

and the Rev. Vernon Willard is his assistant.

are available to qualified men with prior service, Brown said.

In the Army's recruiting program, there is a one-year enlistment available for 18-year-olds, and a 21-month enlistment for men between 19 and 25 years old.

There are also certain choices of service open to men who sign up for 3-, 4-, 5-, and 6-year enlistments in the airborne service, engineers, armored cavalry, and field and coast artillery.

The same enlistment programs, except the 21-month plan, are open for Air Force recruits. In addition, there are openings in the aviation cadet program and in the Officer Candidate Schools for both men and women.

Further information may be obtained from Sgt. Brown at the recruiting office in the basement of the Pampa Post Office.

Higgins Sets Opening Date Of Fall Term

HIGGINS — (Special) — Superintendent Charles E. Gourley has announced that the Higgins schools will begin the fall semester Monday, Sept. 5.

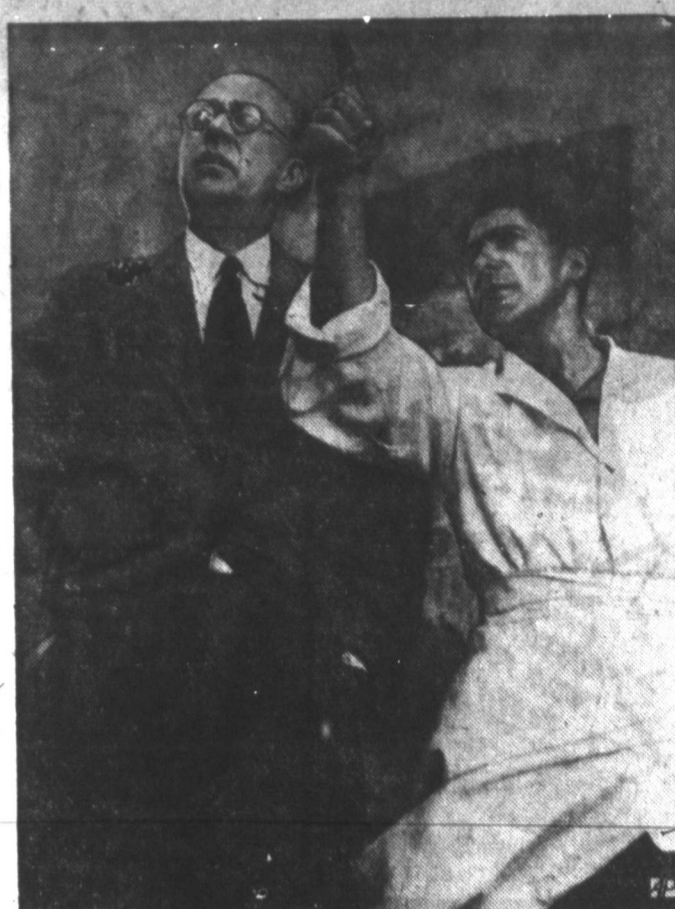

There will be two new teachers in the faculty this year: Mrs. Iris Nixon will teach the fifth and sixth grades, and Mrs. Lois Crane will be primary teacher.

Those returning this year are: Gourley, superintendent and coach; Max E. Hunter, High School principal and mathematics teacher; Gaines Gourley, elementary principal and eighth grade; Harold Mason, high school English and visual aids; John R. Shaw, commerce and history; Mrs. Louise Jenkins, home economics and science; Mrs. Vivian Keen, seventh grade; Mrs. Esther Barton, third and fourth grades; and Miss Marie Ferguson, second grade.

Lonnie Moser, custodian, has worked at the school building all summer, giving it a general cleaning, including sanding and finishing all floors. New tables have been added to the primary and science rooms, and new shades for the east side of the building and for the auditorium have been ordered. New hall screens for the playground side have also been installed.

Under the recently enacted Glimmer-Aikin school reorganization bill, the Coburn, Willow Creek, Camp Creek, and Prairie View districts have been added to the Higgins Independent School District. An election to equalize taxes over the district was held Aug. 8, and was carried 75 to 6.

A jackrabbit can run faster than a race horse. The former has been clocked at 45 mph while top race-horse speed is only 42.3 mph.

GERMAN JAILER IN ENGLAND — Prince Waldemar Zu Hohenlowe (left) ex-commandant of a German prison camp, is guest of George Wickenden on a holiday in Kent, England, to repay him for kindness to British war prisoners.

AN 'OSCAR' FROM A DUKE — Fay Compton receives from the Duke of Edinburgh the Ellen Terry Award for the outstanding British actress of 1948, at the Hotel Savoy, London.

Mrs. Adelia Casey is returning to her home in Champaign, Ill. after a two-week visit with her daughter and son-in-law, Mr. and Mrs. Chuck Inman and three children. Mrs. Casey is an assistant to the dean of men at the University of Illinois. Mrs. Inman's nephew, Donald Prather, accompanied Mrs. Casey on her trip.

Pampa Pastor Holds Revival

MOBEETIE — (Special) — A series of Gospel meetings at the Mobeetie Methodist Church began yesterday and will continue through Aug. 28.

The Rev. E. C. Armstrong, pastor of the Harrah Methodist Church in Pampa, is in charge and services are being held at 11 a. m. and 8 p. m. daily, the Rev. Vernon Willard, pastor, said.

Mr. and Mrs. W. R. Coward visited Mr. and Mrs. John Dunn Sunday. They went fishing in the afternoon and Mrs. Coward caught a 23-inch bass that weighed five and three-quarter pounds.

Construction is underway on an addition to the Mobeetie school. It will be a three-room stucco building and is being built on the north side of the High School campus.

One Moonshiner Out of Pocket

AUSTIN — (AP) — Minus one illicit still operator and two gallons of "moonshine," plus \$925.066 was the July report of the Texas Liquor Control Board released yesterday.

In seizing eight stills during July, inspectors picked up only seven persons connected with them. One man had apparently stepped out for a cup of coffee.

Two gallons of moonshine liquor, taken in the raids, were destroyed.

July revenues of the board totaled \$925,066.

MOBEETIE — (Special) — Six Mobeetie Boy Scouts who won places in a swimming meet at Wellington last Friday were guests of honor of the Mobeetie Lions Club Tuesday night.

The boys are Vernon Willard, Jimmie Coward, Clyde Patton, Bobby Galmore, Jerry Taylor, and Joe Van Zandt.

District Scout executive John Pound spoke on the aims and activities of the Explorer Scouts, and the local Scout Committee met after the meeting to discuss organizing an Explorer troop at Mobeetie.

Committee members are J. M. Hathaway, Jimmy Williamson, A. G. Caldwell, and L. D. McCauley. Boyd Beck is scoutmaster.

CANADIAN—(Special)—Miss Billie Condo, daughter of Mr. and Mrs. W. H. Condo of Canadian, has been entered by the Canadian Sub-Deb Club in Perryton's "Wheatheart of the Nation" Contest.

Miss Condo is the second entry from Canadian to be announced for the contest, which is a feature of Perryton's annual birthday celebration Aug. 19 and 20.

Miss Patrice McMeans, daughter of Mr. and Mrs. Paul McMeans, will represent the Canadian Chamber of Commerce.

Both girls are students in Canadian High School. Patrice is a Junior; and Billie will be a member of the Senior class this year. Both girls are members of the Canadian High School Band, and both are active in school affairs.

Billie is a member of the Canadian Sub-Deb Club, and of the local P.H.A. club. (Cut courtesy Canadian Record.)

Congressmen Sound Off in Record at Public Expense

By JAMES MARLOW

WASHINGTON—The appendix in the back of the Congressional Record is where a lot of congressmen get their say. For a congressman the appendix is a good place to let off steam.

The record itself, published every day, is the word record account of everything that happens on the floors of Congress.

But the stuff in the appendix is something that congressmen want to get into print and not something he said on the floor.

There he can insert a newsworthy item, editorial, that's plugging himself, something he's plugging himself, and he likes the support.

Or, he may stick in a speech by some friend of his.

Since the whole record is printed by the government every day Congress is in session, what gets into the appendix costs the taxpayers money.

As examples in the most recent record it came out Saturday and contains Friday's doings—here are a few things.

It opens with a statement by Senator Humphrey, Minnesota Democrat, who said:

"Mr. President, I ask unanimous consent to have printed in the appendix of the record a commencement address delivered by me at Dennington College, Bennington, Vt., on July 1, 1949."

No explanation was given for why the senator waited so long to get a July 1 speech printed in mid-August.

Anyway, there followed four columns on education, democracy, loyalty, and other things.

Then Senator Pepper, Florida Democrat, got a column and a half page into the appendix.

"This was a job by a columnist who revealed what it was like in the depression days under the Republicans."

Ex-Police Reporter Amazed At How Soon Old Cops Die

By JAMES MARLOW
WASHINGTON — (AP) — I covered a police beat on a newspaper for a great many years and I used to be amazed at what happened to a lot of old cops when they retired.

They didn't live long. A lot of them were too old to work the streets, and soft spots had been picked out for them in precinct stations.

Late at night I used to sit around, chewing the fat with them. They had wonderful stories to tell. There was something wonderful about them. It was this:

They were alive, sitting on a chair, talking, answering a telephone, directing detectives on a robbery, taking down notes from the cops who called in.

Death seemed so far away from each of them that I used to wonder about each in turn: will he ever die?

Then one day they'd retire. There'd be a little party, a couple of awkward speeches. The old men's eyes would glisten and then they'd be gone.

I wouldn't see them again. They had said they'd drop around to say hello. But they never came. And then one day I'd hear they were dead, maybe only a month or six months after they'd quit.

I never could be quite sure about what had happened.

Had they finally decided to re-

tire because they felt something inside them begin to weaken and slide down hill?

Or, was it the sudden change in their life-long routine of going to work every day, getting up at the same hour, going to bed at the same hour, that broke them physically?

I used to think that, if, when they retired, they had found something that really kept them busy they might have lived for years.

Maybe something like Loyal Order of Moose is trying to do will find an answer to some of these things. It's setting up a laboratory at Moosehaven Park, Fla.

A professor of psychology has been hired. He'll have a staff they'll try to find answers to the problem of how to use elderly people in American life.

Chemical to Turn Negroes White Seen

NEW YORK — (AP) — Walter White, prominent white-skinned Negro leader, said the color line may be ended by a chemical which sometimes turns skin from black to white.

White, secretary of the National Association for the Advancement of Colored People, made the prediction in an article in Look magazine.

The chemical now is dangerous to use, but White wrote "it's almost a certainty that a safe form... will be on sale within two to ten years."

Negroes then could have white or light skin if they wished, he said, and "the racial, social, economic, and political consequences would be tremendous."

White, 56 years old and estimated to be only 1-64 Negro, was married to a white woman on July 6 and they now are on a round-the-world trip. His bride is the former Poppy Cannon, 42, food editor of Mademoiselle magazine.

A New York skin specialist told the Associated Press that "nobody can turn white from using the drug at present," and attempts to change the color of Negro skin have not succeeded.

White said the chemical was discovered when some Negro and Mexican workers in a tannery shortly before the war found that their hands and arms were turning white.

Sprinklin' Sprinkler One of Those Things
OKLAHOMA CITY — (AP) — There's a sprinkling company's sprinkling system set off the alarm.

The sprinklers were sprinkling just fine. Water covered the floor. Only there wasn't any fire.

Explained the company's pipe-fitter, William W. Martin: "It's just one of those things that will happen now and then."

SHAMROCK WHEATHEART — Miss Charlotte Stephens will represent Shamrock in the "Wheatheart of the Nation" contest to be held in Perryton on Friday and Saturday at the annual celebration. Miss Stephens is the daughter of Mr. and Mrs. Frank Stephens of east of Shamrock. She is a sophomore student at West Texas State College and was a member of the Shamrock Irish Band in 1945-46-47. She is sponsored by the Shamrock Jaycees.

German Elections Called Rebirth of Defeated Nation

By DEWITT MACKENZIE
AP Foreign Affairs Analyst

The parliamentary elections in the American, British and French zones of Western Germany constitute a rebirth of that militarily defeated and partially dismembered (but far from despairing) nation.

The election of the 402-member federal Parliament has resulted in a heavy defeat for communism. It has paved the way for a conservative government if the parties of the right form a coalition. These are the parties that believe in free enterprise as opposed to socialistic nationalization and paternalism.

The new Germany is, of course, still deprived of the eastern portion which is occupied by Russia. There is no indication as to when,

if ever, the Russian Zone may be united to the Western state. Gone from the Reich also are all its former holdings east of the Oder and Western Neisse rivers, which have been absorbed by Poland and Russia.

However, I believe we are witnessing the revival of Germany as a power in continental Europe. She is the politico-economic keystone of Central Europe. She bids fair to be so again, for the Germans are a dynamic people.

This prospect has, of course, been causing anxiety among the nations which have suffered so grievously from German aggression. It is agreed among the Allies that the Reich must be kept mili-

tarily hamstringing to prevent any recurrence. Still, Allied statesmen are taking cognizance of the fact that the first world war was launched by the autocracy over which the Kaiser presided and that World War II was decreed by Hitler. Both wars were the product of dictatorship. The Allies hope that a new and democratic German government will hew to the ways of peace, and that the bitterness of many Germans over their defeat will disappear.

An indication of the trend is seen in the move to make Germany a member of the new 12-nation Council of Europe which now is meeting in Strasbourg. The council is a step towards the goal projected by prominent European statesmen, namely: a united Europe with member nations eventually erasing geographical boundaries and other existing bar-

riers, something on the order of the United States.

Britain's famous war-time Prime Minister, Winston Churchill, is said to be one of the leading exponents of German membership in the council, and intimates expect him to throw his great personal influence behind the drive. Still, much opposition is anticipated, especially from the British and French governments.

The remarkable thing about all this, of course, is that Germany should be considered at all for such a position, as well as a place in the Marshall Plan, in view of her transgressions.

In any event, the new German government will represent the voice of the people to an extent never before known in the Reich. Democracy would seem to be arriving in Germany.

Portugal is due east of New York City.

FBI Advised Not to Worry

WASHINGTON — (AP) — J. Edgar Hoover advised his FBI men and other law enforcement officers not to worry too much about public criticism "when their record is clean."

"Oftentimes, law enforcement agencies are placed in positions where, for the time being, they cannot defend themselves," the FBI director said. "When their record is clean, however, there is not too much cause for concern."

Hoover gave his views in a signed editorial in the "FBI Law Enforcement Bulletin," a monthly publication circulated privately among FBI personnel and other peace officers.

Aides, who gave the required permission for reproduction of the

Hoover statement, declined comment on the publication. However, there was little doubt that the editorial constituted Hoover's reply to criticism of the FBI growing out of the recent espionage trial of Judith Coplon, Justice Department employe convicted of taking official secrets from the files for the benefit of Russia.

Top-secret FBI reports which were read into the trial record at the demand of the defense attorney, created a furore.

Coat and Dress Duet in Color Harmony

New fall colors make matches between dresses and coats. Companion of the tri-colored Custer red, white and black jersey dress (left) is a boxy tweed coat of matching red. Republic blue coat and buckskin brown dress are color-paired (right) by bandings of blue at neckline, skirt yoke and dress cuffs.

By EPSIE KINAID
NEA Fashion Editor

NEW YORK — (NEA) — Dress and coat color will stage fights in public this fall, if one New York designer has his way. To avert this embarrassing situation, he creates ensembles of dresses, suits and coats for which colors — even several blended — can't clash.

The reason colors can't clash is because the designer has limited his range for particular harmonies. He has chosen each carefully from the Navajo sand paintings of the Southwest. Because the elected colors — prairie gold, scout green, republic blue and buckskin brown — have such close affinity for each other, they are almost completely interchangeable.

For that steady companionship between a dress and a coat, colors that link the two together by means of contrasting fabric tones make outstanding ensembles. Take the sheer worsted dress of buckskin brown for example, which is linked to a wool coat of republic blue by narrow bandings of matching blue which edge the neckline, yoke and sleeves of the dress.

Another coat and dress is identified as an ensemble by the bright bond of Custer red woolen. Blazing across the bodice of a dress of black wool jersey, yoked with white, is a stripe of Custer red, which is a color repeated in a short swagger coat of heavy wool tweed.

Mrs. L. Hand Honored With Pink, Blue Fete

The Shellytown Rebekah Lodge honored Mrs. L. E. Hand with a pink and blue shower at the lodge hall Monday evening. Favos were miniature baby shoes filled with candy drops. Attending were: Jerry Hanna, Pearl Gennett, Reba Cade, Lora Mae Mynort, Donna Crawford, Marjorie Huvall, Maggie Webb,

Rapstine-Smith Vows Are Exchanged in White Deer

Miss Scott Hosts Morning Bridge Group Yesterday

Miss Betty Joyce Scott entertained yesterday morning with a coffee party in her home, 1304 Mary Ellen.

The three tables were laid with white linen cloths and centered with table markers.

A mixed breakfast plate, consisting of minute breakfast rolls, cantaloupe, cherries, and apricots, and iced coffee, was served.

Miss Johnye Sue Hart was awarded the high score award in progressive bridge, and Miss Catherine McNamara, low.

Those attending were: Misses Margie Dixon, Johnye Sue Hart, Nicki Fraser, Hilda Burden, Donna Beagle, Anne Mosely, Pat Miller, Catherine McNamara, Donna Nenstiel, Lela Ward, Carol Culberson, Naneen Campbell, and the hostess.

Merten Club Has Pre-School Study

The Merten Home Demonstration Club was guest of Mrs. W. F. Gibson recently for a program on "Training the Pre-School Child."

Mrs. E. E. Seitz was in charge of the program. During the business meeting, a committee was appointed to help with the next program. It will be on "Outdoor Cookery." Those chosen were: Mmes. V. Smith, W. F. Gibson, and D. A. Caldwell.

Those present other than the mentioned were: Mmes. D. A. Rife, S. E. Waters, John Brandon, C. L. Cudney, and visitors, C. M. Taylor, J. E. Cudney, and Miss Susan Seitz, Sammie Waters and Joe Ed. Cudney.

Lillian Crawford, Pauline Deham, Leona Yell, Glennie Anderson, Faye Biggers, Fannie Coleman, Tommie Stone, Murie Nichols, Clara Young, Marlies Rhodes, and Mrs. Sam Green and Mrs. Lesher, mother of the honoree.

WHITE DEER — (Special) —

The marriage of Miss Emilene Rapstine, daughter of Mr. and Mrs. Emil Rapstine of White Deer, and Alan G. Smith, son of Mr. and Mrs. Clifton Smith of Corpus Christi, was solemnized Tuesday afternoon, August 9, in the rectory of the Sacred Heart Church in White Deer. The Rev. Peter Morsch read the double ring ceremony.

The mantel of the fireplace, before which the couple stood for the exchange of vows, was decorated with white tapers in a triple candelabra, flanked by bouquets of white gladioli.

Miss Joyce Hawkins, the bridesmaid, was attired in a black dress with black accessories and a corsage of pink carnations. James Click, a cousin of the bride, served as best man.

The bride, who was given in marriage by her father, wore a navy blue afternoon dress with matching accessories and a corsage of white rosebuds. For "something old," she wore a lavender which her mother had worn at her wedding, and for "something borrowed and blue," she wore blue gloves belonging to her aunt, Mrs. Ben Rapstine.

Mrs. Rapstine, mother of the bride, and Mrs. Smith, mother of the bridegroom, both wore navy blue with black accessories and corsages of gardenias.

Immediately after the ceremony, a reception honoring the bridal couple was held in the home of the bride's parents. A lace cloth over pink satin covered the serving table, which was centered with an arrangement of white gladioli and asters in a crystal bowl and white candles in crystal holders. The three-tiered wedding cake was decorated with pink rosebuds and white plastic wedding bells and lovebirds and topped with lovebirds holding double wedding rings.

Mrs. Leon Osborne presided at the punch bowl and Miss Hawkins served the wedding cake. The bride was graduated from White Deer High School, where she was a member of the trio, president of the National Thespian Society, and won honors in the state one-act play contest. She has attended Texas Technological College two years, majoring in speech.

After a short wedding trip, the couple will be at home in Lubbock, and Mr. Smith will enroll for his senior year at Texas Technological College, where he is majoring in engineering.

Miss Standlee Is Recent Bride of Truman Zybach

CANADIAN — (Special) — In a quiet ceremony read in the study of the Rev. M. B. Smith, pastor of the First Baptist Church at Wheeler, Miss Betty Jo Standlee of Gageby became the bride of Truman Zybach of Briscoe Sunday morning, August 7.

The bride is the daughter of Mr. and Mrs. Doyle Standlee of

Gageby and Mr. Zybach is the son of Mr. and Mrs. Clarence Zybach of Briscoe and the grandson of Mr. and Mrs. J. B. Zybach of 307 E. Kingsmill, Pampa.

Both were members of the Briscoe High School graduating class this spring.

Attending the young couple were Miss Imogene Reid of Wheeler and Bobby Zybach of Briscoe.

The bride was attired in a two-piece dress of brown faille, with a white carnation corsage. After a wedding trip to points in Texas, the couple will be at

Mrs. Corbin Honors

Mrs. Taylor Recently

When is a rate increase a good thing for telephone users?

THE RIGHT PRICE IS "the lowest possible price that will assure you of good quality." That's true of everything you buy, including telephone service.

So—answering the question above—a rate increase is a good thing for telephone users in Pampa when it is needed to protect the quality of their service.

The last time there was an increase in telephone rates in Pampa was more than 20 years ago. Rates established in 1928 have not increased, although the cost of most things—wages, taxes, supplies—has gone up.

Costs of furnishing telephone service in Pampa have gone up much faster than our income. Costs of furnishing service here are up 144 per cent since 1941, but our income is only 77 per cent higher. As a result, we are losing money on our operations here.

Telephone rates established in 1928 simply won't pay the cost of furnishing service in 1949.

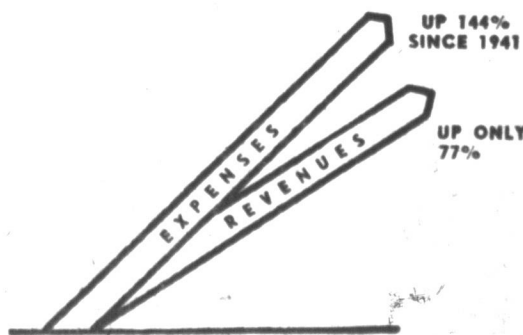

There's been a lot of work done and a lot of money spent to extend and improve service to telephone users in Pampa. We still have a big expansion program ahead of us. The money has to come largely from investors. They will furnish it only if they can be sure of a fair return, which our

present rates are simply too low to provide. A growing business, especially, has to earn a good return in order to attract the capital needed for growth.

THE WHOLE FUTURE of Pampa telephone service depends on raising rates enough to assure the financial stability of telephone operations here. We don't like to have to ask for a rate increase, but we believe that, in the light of the facts, you would want us to take this step to assure you of the kind of service you desire.

1928 TELEPHONE RATES WON'T WORK IN 1949

Chart shows how expenses are increasing faster than revenues.

SOUTHWESTERN BELL TELEPHONE COMPANY

Northern Sewing Club Holds Regular Meeting

Leaves From a Correspondent's Life Notebook

By HAL BOYLE
NEW YORK —(AP)— Guess what Noah took into his Ark—besides people—that also rode in the Mayflower and soled the Pilgrims. Beer!

Yes, sir, and beer also went to the South Pole with Rear Admiral Richard E. Byrd on his Antarctic expedition in 1939.

These and other little known facts about beer have been compiled by the United States Brewer's Foundation. They have been set forth in a little pamphlet designed to let the common man know what's behind the foam in his glass.

It shows that a gent who sidles up to the bar and says "pull one" isn't simply ordering a cooling drink. He's bending elbows with history.

When it says here, beer has marched step by step with man in "his upward march since the dawn of time. Beer is as old as farming and has played a cooling-bubbling role in war, science, cooking, medicine and the development of a hundred modern industries.

Here are a few facts uncovered by the industry's scholars: A Mesopotamian seal, baked in pottery and showing two workers at a brewery vat, proves beer was known 6,200 years ago.

When Christopher Columbus came to Central America in 1502, he found beer had traveled here before him. The Indians were escaping from the heat with "a sort of wine made of maize (corn), resembling English beer."

The phrase "mind your P's and Q's" is thought to have sprung from the old English tavern-keepers' custom of noting down customers orders — by pints and quarts.

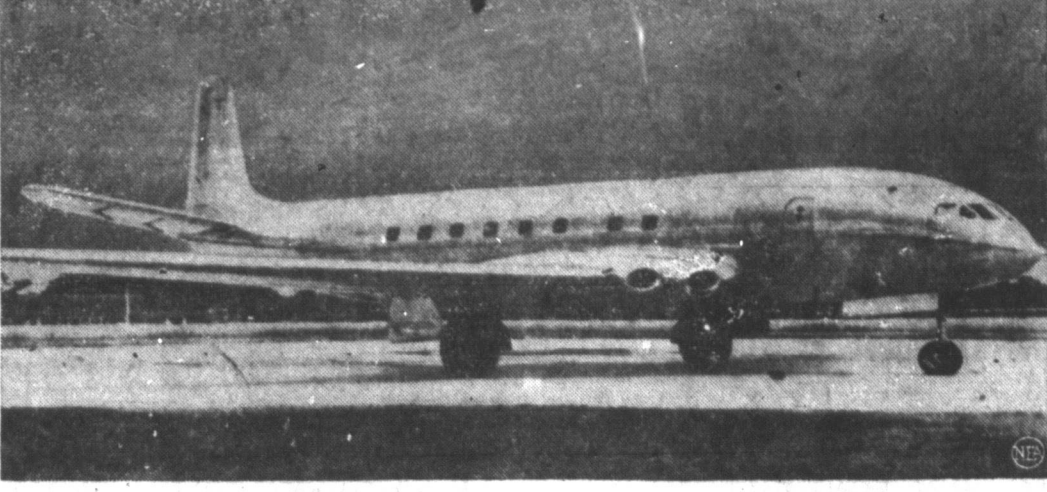

John Alden, who wooed and won Priscilla Mullen, got passage space on the Mayflower because he was a cooper and could repair the beer barrels aboard.

The first white child born in New York City, Jean Vigne, became a brewer in what is now Wall Street. William Penn, the Quaker, built a brewery next to his manor house.

Soldiers in the American Revolution drew a quart of beer each in their daily rations. When the supply ran short George Washington begged the Board of War in 1777 to rush the growler for more.

Washington himself drank beer. Other members of this early day "men of distinction" club were Samuel Adams, a brewer himself, Thomas Jefferson, Patrick Henry, Israel Putnam and James Madison.

Bids Opened for Dam Bond Issues
AUSTIN —(AP)—Directors of the Lower Colorado River Authority were in New York today to analyze three bids on the LCRA's \$17,700,000 dam-building bond issue.

WORLD'S FIRST JET AIRLINER—The first and only full jet airliner in the world is the Comet. Shown here on a runway in Hatfield, England, the plane will carry 36 passengers and a crew of four. Powered by four De Havilland "Ghost" jet engines, it will fly at 40,000 feet and is said to have a cruising speed of almost 500 mph. A trip from London to Sydney, Australia, will take only 36 hours.

Dog Story Beats All

By ED CREAUGH
NEW YORK —(AP)— These may be dog days but the dogs are dogging it.

There hasn't been a Grade A, all-dotted-up-with-pictures dog story in the papers since Hector was a pup.

And this (you should pardon the expression) is a doggone shame.

When I was breaking into the newspaper business, shortly after the Battle of Chickamauga, a wise if water-eyed old city editor told me:

"Bub, if you want people to read what you write, remember this: 'One weather story equals two society divorces, and one good dog story will beat any weather story that ever came down the pike.'"

This worthy man later died of a pickled liver, but his advice still seems sound to me.

The only trouble is, the dogs aren't cooperating. Cats get into the news. So do elephants and monkeys. Even fish are splashing their way into the headlines.

But dogs? Except for Popo, the wire-haired terrier, they've turned as camera-shy as a movie blonde with two black eyes.

You remember Popo. He showed up only last Sunday, swimming bravely in the general director of Ireland. He was nine miles off the Maine coast when a tuna fishing boat hauled him aboard, pretty well pooned.

Popo's story was that he had fallen off a yacht, but nobody believed him. Obviously, he was out for glory as a transatlantic swimmer. And it was good to know that one pup, in these decadent days, still had some sit-up-and-go.

Cats, now — they're performing all over the place. First there was that mouser aboard the British warship Amethyst. He got a real, honest-to-George military decoration for holding the rats at bay while the Amethyst was bottled up by the Chinese Reds.

Then there was Kiki. He went the Amethyst cat one better by getting bottled up himself. Came in on the liner Atlantic reeking of strong drink, with a look of unsteady dignity, hiccupping as he purred.

He Loves His Wife But He's Leaving

MEXICO CITY —(AP)— Diego Rivera, Mexico's left wing painter, said Friday he and his fifth wife will be divorced. He asserted he "adores" her.

Rivera, 62, said he would give his studio house and other property to his present wife, Frida Kahlo, 39, also an artist. Rivera will retain an Indian Temple he is building and which

he proposes to give to the Mexican people.

Rivera and Kahlo were married in 1929, separated for two years in 1939 and re-united in 1941.

The artist said he "adores" his wife but will leave her because he thinks his presence is bad for her health.

Canada Urged To Maintain Middle Way

LAKE Couchiching, Ont. — (AP) — External Affairs Minister L. B. Pearson said the government may have to accept a large measure of responsibility for economic direction "and even for control" if it is to prevent the conditions on which totalitarianism feeds.

He told the Canadian Institute of Public Affairs "we have had enough" of the calculated manipulations of communism in both national and international affairs and "it is time we put an end" to them.

His references to communism grew out of a plea for continued Canadian adherence to the middle way in political thinking.

"This middle ground is becoming more and more difficult to maintain," he warned. "The best defense against any totalitarianism," he said, "is to prevent or remove the conditions upon which it feeds."

"As far as the economic life of the nation is concerned, this means that the government may have to accept a large measure of responsibility for direction and even for control."

Home Freezer Only One of Many White House Gifts

WASHINGTON —(AP)— Gift for the White House? They come by the thousands every year and always have.

The home freezer presented by Mrs. Harry S. Truman in 1945 has had more publicity than most such gifts receive, because it was linked with the current Capitol Hill investigation of five percenters.

But actually it's only one of tens of thousands of presents that have poured in on the Trumans since they moved into the Executive Mansion.

For example, gifts from friends and admirers have made President Truman probably the best hatted man in the United States.

The gift hats range in retail value up to \$200. Americans have been following the custom of sending gifts to Presidents for more years than anyone can remember.

Those sent by other nations — and they include many of the more valuable ones, like diamond-studded daggers and priceless paintings — the President cannot keep because the Constitution forbids him to accept gifts from foreign governments. This government keeps them.

The \$5,000 bowling alley he received as a birthday present in

1946 from old friends in Missouri, will remain in the White House, like the swimming pool that was given to the late President Franklin D. Roosevelt.

The horseshoe-pitching court just outside Mr. Truman's office window is another gift that will serve future Presidents.

Lots of gifts, however, are strictly personal. Like the hat and upwards of 1,000 neckties with bowties predominating shirts, socks, and even suits.

BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

When disorder of kidney function permits poisonous matter to remain in your blood it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, tingling up nights, swelling, puffiness under eyes, headaches and dizziness. Frequent scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 50 years. Doan's Pills help flush out your kidneys and help your blood. Get Doan's Pills.

Jobless Vets Switch to State

AUSTIN —(AP)— A switch of veterans from the 22-20 club to Texas unemployment insurance accounted for a 14.7 percent increase in unemployment benefit claimants from mid-July to Aug. 11, the Texas Employment Commission reported today.

Applications totaled 33,547 on Aug. 11, compared to 29,236 in mid-July.

The TEC said the increase was probably due to discontinuance of readjustment allowance payments under the GI Bill of Rights. They ended on July 25 for veterans discharged before July 25, 1947, and many veterans moved over to start unemployment insurance, the report indicated.

Otherwise, claimants would have been fewer than in July.

Cotton Pickers Badly Needed

AUSTIN —(AP)— Cotton pickers are badly needed in the coastal bend area around Corpus Christi and Alice, the Texas Employment Commission reported.

A big cotton crop in the Rio Grande Valley is holding up migratory workers who usually follow the harvest up-state, the TEC explained.

Because of the large valley crop and the amount remaining to be picked there, harvesting of the coastal bend cotton has been thrown off schedule.

Oilers Move on to Clovis After 15-6 Loss Last Night

Albuquerque — (P) — The Albuquerque Dukes ganged up all over the Pampa Oilers in the special Frank Okrie Night game 15 to 6 before some 2400 fans here last night.

The win gave the Dukes the Oiler series two games to one.

Stub-fingered Gil Archuleta, who promised to pitch the benefit game for the polio-stricken Albuquerque shortstop, won the game although he returned in the sixth inning with a blister and a split finger.

Archuleta, ex-Duke moundsman, won 33 games for Albuquerque in 1946 and 1947. He since has been away from pro ranks. He yielded only three singles and one unearned run in his five inning pitching performance.

The Pampa Oilers will undoubtedly be happy to open up against the Clovis Pioneers tonight in Clovis. It will be the first of a two-game series. On the mound for Pampa it will be 1 1/2 hours.

Charley Bodin of lefty Johnny Martin. Whichever doesn't get the mound tonight will get the call tomorrow night. Then the Oilers return home Saturday night to face the Lubbock Huskies in the first of a two-game series. Roy Parker will be the likely starter when they get home, shooting for his twentieth of the season.

Last night's loss dropped the Oilers down into fifth place and only a game ahead of the sixth place Huskies. So it is most vital that the Oilers again pick up their winning ways if they hope to remain in the race for the playoff spot. Lamesa moves into Amarillo tonight while the Huskies will be retained by the Albuquerque Dukes.

The Dukes duked a starter George Payne for four singles and a triple by Hershel Martin to take 3 to 0 lead in the first inning. They made it 5 to 0 in the fourth when Cliff McClain hit a home run with Dick Dawson on base.

The Oilers scored their first run in the next inning on an error and a single by Ernie Velasquez.

The Dukes erupted four runs in the sixth inning on a walk, a pair of singles and doubles by Les Mulcahy and Virgil Butler. Butler relieved Archuleta in the top of the sixth.

The Dukes scored two more in the eighth inning on a walk, a pair of singles and doubles by Les Mulcahy and Virgil Butler. Butler relieved Archuleta in the top of the sixth.

The Oilers scored their first run in the next inning on an error and a single by Ernie Velasquez.

The Dukes erupted four runs in the sixth inning on a walk, a pair of singles and doubles by Les Mulcahy and Virgil Butler. Butler relieved Archuleta in the top of the sixth.

ROY 1 A CR 224 S.

This year's Pampa Harvester football team already promises to be a better defensive squad than last season's, if early tackling practice sessions mean anything. The boys went through what started to be a lengthy tackling drill with the coaches, but looking good that the period was limited to a ten-minute affair. The coaches were well pleased with the fight and enthusiasm shown by the boys.

Yesterday morning, and again this morning, several of the boys went through calisthenics and conditioning workouts. Four of the boys with educated toes, who will be called upon to provide that extra point that could mean victory, held a place kicking session. Little Elmer Wilson walked off with the honors, but looking good that the period was limited to a ten-minute affair. The coaches were well pleased with the fight and enthusiasm shown by the boys.

After an hour of specialized drills, the teams ran through several plays, working on their timing, pass defense and offense in a non-tackling scrimmage.

For only the third day of work the Green and Gold looked pretty good, though they have a long road ahead, yet.

Competition has begun already for one thing, the "Fightin' Heart Award." To be given annually to the boy who shows the most fight and interest throughout the entire season, in practice sessions as well as in games. The award was won last season by Pete Cooper, fiery little backfield man.

The team will again continue workouts at 8 o'clock tonight.

AMARILLO — (P) — Right-hander Eddie Jacobs made his pitching debut in the West Texas-New Mexico League a successful one here last night as the Amarillo Gold Sox won a 14-8 slugfest from the Abilene Blue Sox.

The victory gave the Sockers a clean sweep of the two-game series since they also took Tuesday night's opener, 17-7.

Over half of the total of 24 hits collected in the game were good for extra bases. There were seven home runs — four for Amarillo and the three for Amarillo — and the Gold Sox rapped five doubles and Abilene one.

The Oilers scored their five runs in the eighth inning on singles by Tooter Harper, Homer Matney, Virgil Richardson and a two-run triple by Os Engel.

The win gave the Dukes a four-game lead in the league.

Last night's game was the last visit to Albuquerque by the Oilers this season, and it left them with an unenviable record of only two victories in the games in the New Mexico city. Things aren't much brighter for them in Clovis. The Oilers have won only three of eight in that city, and have an overall record of only two victories against eight losses to the last place Pioneers this season thus far.

12:45 P. M. (5:45 p. m. CST Wednesday).

Earlier, it had been reported from Dover, on the English side of the channel, that fresh northerly winds had stirred up choppy seas in that area.

Dover headquarters for Shirley May France, 17-year-old hammett, Mass., high school girl, announced that in view of the roughening waters she would not attempt her channel swim this afternoon.

Shirley had planned to start the swim from Cap Gris Nez, France, to Dover this afternoon. She is in Calais.

Hubbers Sweep Three Games From Pioneers

CLOVIS — (P) — Lubbock's Hubbers swept a three-game series here last night trouncing the Clovis Pioneers 11-4 behind effective pitching of righthander Don Hensiek who was in command all the way in this final meeting between the two clubs.

WARREN'S WARMUP

By Warren Hass—News Sports Editor

QUESTION: What player holds the record for producing as a pinch hitter in one season?

SEVERAL OF THE MAJOR LEAGUE moguls have come up with some ideas of their own regarding the changing of certain rules in baseball. The game has gone along for all these years with comparatively few major rule changes. But, like the rest of the things in this world, could probably stand a little making over to keep up with the times. One of the major changes suggested, and one that will be introduced at the winter meeting next year, concerns the balk.

The St. Louis Cardinals recently had two runs wiped off the record because of a balk. With a man on base, Nippy Jones, Cardinal first baseman, homered into the leftfield stands. But the plate umpire called a balk on the pitcher, Adrian Zabala of the Giants, who failed to come to a complete stop while making his delivery. The ruling erased the home run and brought Jones back to bat, and he popped out.

Coch Luke Sewell of the Cincinnati Reds suggests that, like in football, the team that was offended by the play have a choice of whether or not they want to accept the penalty. The rule, as originally drawn up, was not meant to be injurious to the team offended, but to penalize the offending team. Situations have arisen, as in the Cardinals' case, where it has worked to the benefit of the wrong team.

The optional choice, in this case, would be a good idea, and probably, if introduced, will meet with the approval of the lawmakers. In any event, the situation is bound to be cleared up by some change in the rules.

ANOTHER IDEA that has been advanced is that the team rosters should be clipped from 25 to 21 players. The club owners want to do this to cut down on their expenses. But as a coverup they offer the idea that it will improve the game by lightening the races, improving play and aiding the weaker clubs.

From here it doesn't look like the plan would or should be accepted, and we can see no reason why it should be. To trim the squad by four players would mean that someone is going to be shipped back to the minors, and that someone will be the rookie. Many clubs are carrying a couple of rookies along just for the experience that they can gain by making the big time circuit with the club. A club could carry no "dead weight" because it would be too short-handed to carry a couple of players who are going along just for the ride and the experience.

One case, closest to the hearts of Pampa's, would probably be that of Warren Hacker with the Cubs. He is sticking with the Cubs this season to gather the necessary experience to make him a regular starter for the Chicago team next year. And he undoubtedly will be. But, say the Cubs were in the thick of the

Oilers Close in On Cats Again

By The Associated Press

The second-place Tulsa Oilers are within three and a half games of league-leading Fort Worth in the Texas Baseball League today after the San Antonio Missions edged the Cats 6-5 last night.

Tulsa split a doubleheader with the fifth-place Shreveport Sports. The Sports won the opener 10-4, the Oilers took the nightcap 4-3. The third-place Oklahoma City Indians whitewashed the last-place Beaumont Exporters 2-0.

Fourth-place Dallas bowed the seventh-place Houston Buffs 6-3. Four home runs accounted for all of San Antonio's runs in the victory over Fort Worth. Jake Jones hit a three-run homer in the first frame. Then Jones, Bill Martin and Joe Frazier hit successive circuit clouts in the eighth.

Oklahoma City's Preacher Dorsett served up three-hit ball to shut out Beaumont.

Ben Guntini smashed a three-run double in the fifth to give Dallas the win over Houston.

Les Burge drove in seven of Shreveport's ten runs in the opener. Four of the runs came on a grand-slam homer in the fourth. Russ Burns hit his 24th homer of the season in the eighth to give Tulsa the nightcap.

Oklahoma City 010 000 010-2 5 0
Beaumont 000 000 000-0 3 1

Kryz and Wrona; Sarni, Czaczewski (6), Bush (8) and Bentz.

Brownies Sweep Two Games From Tribe

ST. LOUIS (AP)—The St. Louis Browns took both ends of a twilight night doubleheader from the Cleveland Indians last night, 10 to 6 and 6 to 2, dropping the Indians to third place in the American League.

A three-run outburst by the Browns against Safshek Paige in the seventh inning brought the Browns from behind in the nightcap. They captured the first game with a four-run rally in the eighth to break a 6-6 tie.

USGA Head Slowed by Own Golf Rules

MINNEAPOLIS (AP)—Totten Peavey Heflinger, Minneapolis, is a vice president of the United States Golf Association. And as such he found himself a bit embarrassed.

He stepped up to the first tee at the Woodhill Course Tuesday, ready to start his attempt to qualify for the National Amateur Tournament. But he had to postpone his start.

The reason? He was going to use a ball outlawed just a day or so ago by the USGA as too heavy. Heflinger obtained a supply of acceptable balls but it didn't do him much good. He failed to qualify.

Women Golfers Tee Off in Lubbock Meet

LUBBOCK (AP)—Some of the Southwest's leading golfers were to tee off here today in the qualifying round of the annual Lubbock Country Club Invitational Golf Tournament.

A record field of more than 250 entrants was expected to play in the 18-hole medal round. Match play begins tomorrow.

SWC Meets No Opposition In 1949 Grid Ticket Sales

DALLAS (AP)—Ticket offices throughout the Southwest Conference are as busy as one-armed paper hangers with the heat. The advance sale of football tickets indicates a record attendance come fall. At least seven sell-outs were forecast.

Three schools willing to estimate what they will draw showed more than \$600,000. The other four declined to speculate.

The all-time record was 1,090,171 for 34 home games last year. It was the first time for the conference to go over the million mark.

Southern Methodist University alone expects to drag in 450,000 for its eight home games, all to be played in the Cotton Bowl, which seats 75,000.

Lester Jordan, Southern Methodist business manager of athletics, is tired of telling the folks there won't be any Notre Dame-Southern Methodist tickets. The only way they can see this game is to buy season tickets. It's the same way with the Texas game. Priority groups will take up all of them.

The University of Texas expects 240,000 attendance for five home games with the Rice game a sell-out of 65,500. Also, Texas already has sold its allotment for the Oklahoma-Texas game at Dallas.

Texas A&M predicts 122,000 for its four home games. There are no tickets left now for the Thanksgiving Day Game with the Texas, with 40,000 due to see that one. The Aggies think they'll set a new opening game record when they play Villanova Sept. 17. The record is 117,800, hung up in 1947, but 22,000 are expected for Villanova.

Arkansas would not predict on attendance but said the Texas game at Little Rock should be a sell-out of 35,000 and the Texas Christian and Texas A&M games at Fayetteville could be since the stadium there is smaller. It handles about 20,000.

Raylor still is filling ticket requests and won't be able to give an estimate until later.

Rice said the only game looming as a sell-out there was the Texas A&M tilt when 31,000 are expected. The advance sale of tickets is the best in the history of the school.

Texas Christian University officials said it was too early to predict on the season attendance and that because season tickets are being sold it could not be determined if any games would be sell-outs.

White Sox Gain Third Consecutive Shutout

CHICAGO (AP)—The Chicago White Sox scored the 11th straight shutout victory last night, edging Detroit, 1-0 before 20,919 persons. In winning his eighth game, third for Chicago, Mickey Haefner checked the Tigers on seven hits.

SPORTS AFIELD

By TED KESTING

I know of no better training for the hunter-rifleman than chuck shooting. Except for cross shooting, it requires more skill and better equipment than any other form of rifle shooting.

Chuck hunting is full of thrills, and a dead shot at fairly long range, after a good piece of stalking or spying, is quite an achievement.

The mark one has to shoot at is quite small. Often only the head is visible and this sport of all targets is equivalent to a 3 1/2-inch bull's eye. What the successful woodchuck needs is therefore, is a rifle, ammunition and equipment with which he can surely hit a 3 1/2-inch bull's eye at an estimated 200 yards the first shot.

Col. Townsend Whelen, well known arms and ammunition authority, says that first of all good binoculars are a must for

less wind drift, better accuracy, finding chucks. Since the development of the .22 Hornet cartridge, he has used that almost exclusively in a variety of rifles equipped with a 4-power scope with double micrometer target mounts.

He writes "I have found this type of mount very essential in long-range varmint shooting. You want to continually keep your rifle sighted to strike almost precisely 1 inch, or 1 1/2 inches above aim at 100 yards.

"I practically never miss a chuck up to 175 yards with my Hornet rifles when I can get a good, steady prone or sitting position, or get worked into a steady position along a stone wall, always aided by the gun sling. More often than not I make clean kills at 200 yards. Up to that distance, when the Hornet bullet enters the chest or abdominal cavities, it practically always kills the chuck dead in its tracks.

"Finally my friends persuaded me that I was out of date and that I ought to get a rifle for the .22-3000 R2 cartridge because I would have a much longer sure-hitting range, considerably

and a flatter trajectory. I found this to be true. In many respects I think it is the best of all the chuck cartridges. But the expense is much greater than for a Hornet. The rifle has to be custom-made and the ammunition has to be very carefully handloaded.

"There are two reasons why I am so partial to the .22 Hornet and the .22-3000 R2 cartridges for woodchuck shooting. First, the cartridges are so sm-2, and the report so light, that scarcely any farmer objects to their use. Second, the rifles have a practically unlimited accuracy life, and a pet rifle for either cartridge, tuned up to perfection, should last you almost a life-time.

"One year I used my .267 Roberts rifle for chuck, and it also did well, but it is quite a sausage machine in the way it blows up the little beast. The .22 long rifle, high-speed, hollow-point bullet will kill quickly only when it enters the brain, breaks the spinal column, or drives well into the center of the chest cavity of the chuck. Such a hit, even with a scope, cannot be assured by the best rifleman at over 75

WE'RE ALL SET. THIS YOUNG COUPLE HAVE TAKEN THE CABIN FOR A WEEK AND I'M IN SOLID WITH 'EM. WE'LL BE EATIN' SOON.

WE'LL BE HIDING OUT HERE FOR A WEEK, BABE, SO UNPACK.

NOW I'VE GOT TO SOFTEN UP POP SO HE'LL LOAN ME TOOLS AND I CAN FIX OUR DENTED FENDER BEFORE IT'S SPOTTED.

THE WAY TO GET THOSE TOOLS IS MAKE A FUSS OVER POP'S POOL, SO START POODIN' THE MUTT.

TRIX SURE GETS THE BREAKS!

Mickey Finn

MORRUCO HAS HIT A LONG FLY TO RIGHT! RED IS RACING OVER FOR IT!

PULLS IT DOWN-- AND WHIRLS TO MAKE THE THROW!

THE RUNNER ON THIRD, HAVING STARTED WITH THE CATCH, IS NOW HALF WAY TO THE PLATE!

BUT RED'S THROW IS PERFECT!-- AND SAWPITS WINS 2-1!!

Penny

WHITTLE'S COUSIN NAIL, FATHER!

THAT SO? WHAT FOR?

HE WAS A TELLER IN A BANK AND HE DISAPPEARED WITH SOME MONEY-- THEY CAUGHT HIM WHEN HIS CASH RAN OUT.

HE COULD HAVE STOLEN EVERYTHING IN THE VAULT, BUT HE ONLY TOOK ONE HUNDRED DOLLARS.

WHAT'D HE SAY WHEN THEY CAUGHT HIM?

HE SAID, 'IT JUST SHOWS THAT HONESTY DOESN'T PAY!'

Dodge Plymouth - Dodge Job-Rated Trucks

Miss J. looked elaborately casual. "Twenty thousand dollars," she said. "It's the most expensive handbag in the world. We've sold three just like it—one each in Memphis, Miami and Los Angeles."

"That dit it."

"Actually," she whispered. "It is Theresa Jacobson, who was a guarding the handbag, 'there are only 13,999 pearls. Therebody dropped it and one pearl fell off."

"But there are 20 carats of diamonds and 30 carats of rubies and the setting is pure palladium."

"Gosh," I said. "And the—ah—"

Coast Construction Walkout Averted

HOUSTON (AP) — AP of L rans workers last night voted to accept an arbitration offer and the action averted a strike which threatened to tie up more than 20 million dollars in Gulf Coast construction.

The offer to arbitrate the union's three-month wage dispute was made by the Gulf Coast Employers Construction Association.

Knobs in pine logs are almost imperishable, decaying much less rapidly than the log itself.

White Deer Realty

FOR SALE on pavement 50 ft. front, building 50 ft. back, nice living room, 2 bedroom home, home worth of furniture, living quarters are worth the price \$1500 for all W. Phone 1478.

FOR SALE by owner lovely new 5 room and 4 room one lot, rent on lot and live in other, priced right. 1221 N. Russell.

MR. THORNBLow finally had

the complete big Great Play. Melvyn Mobey had selected his cast — Pat was not among them; the sets had been constructed and painted and hammered together in what had formerly been the reception room; rehearsals had begun.

"Shall we go up and watch?" Gagnel asked Fritz when he stepped in one evening. "I promised Mother I'd stick around awhile and lend a helping hand if needed. Though I don't know what I could do to further the drama."

Fritz said, "I like to be useful. Besides, imagine the thrill of seeing art in the raw! I wouldn't miss it for anything."

Gagnel led the way to the third floor.

The theater was full of people, including all of the players, a few friends who acted as scene shifters, prop men and what-not; even the dogs and cats were present.

Fritz volunteered to test the stairs and while he walked gingerly on them, Barry dropped in from his home next door.

The stairs held Fritz's 180 pounds. They even permitted him to trip up daintily in the manner of a ballet danseuse, then to thump down heavily in imitation of the villain in the piece.

"Isn't he too cute?" Miss Pierce remarked ecstatically.

"LOG"-RHYTHM—"Miss Polo Duro"—vivacious Harriet Carter, 18, of Amarillo, Texas—conditions herself for "The Wheatheart of the Nation" beauty contest of Perryton, Texas, this month. Miss Carter is pictured of Palo Duro Canyon State Park, the Panhandle's natural wonder, which she will represent.

Demo Head Pioneer From Away Back

CORSICANA — (AP) — J. E. Wheat of Woodville has been appointed secretary of the Texas Democratic Executive Committee, John C. Calhoun, chairman, announced here Friday. Wheat succeeds Tom Tyson, of Corsicana, who died June 2. Calhoun said Wheat's appointment is subject to approval of the State Committee at its meeting in Lufkin on Oct. 1. Calhoun said Wheat's appointment was in line with Gov. Allan Shivers' wishes "but I heartily agree with the Governor."

Wheat is a lawyer in Woodville, Shivers' home town. He has been prominent in state Democratic politics and in 1944 served as an elector. He was a member of the State Executive Committee in 1944 and 1946. He also was a past member of the State Prison Board, having been appointed to the post by Coke Stevenson when he was governor.

Calhoun described Wheat as a "Democrat of outstanding ability and unquestionable party loyalty."

In Woodville, the 62-year-old Wheat said he hoped to be able to bring about party harmony in Texas.

"I'm particularly hopeful that the Democratic Party will work harmoniously together and we won't have any friction." The veteran Woodville attorney said the "thing that led me to accept this position was that I might be able to help heal party wounds."

He also said he was "very highly honored" that the leaders of the state party "saw fit to place such faith in me."

Wheat is a member of a pioneer Texas family. His grandfather, Josiah Wheat, homesteaded in what is now Tyler County in December, 1825. J. E. Wheat was born in a log cabin on a Tyler County farm near Chester community.

He was graduated from the University of Texas Law School in 1914 and has practiced law in Woodville ever since. He served two terms as county attorney from 1914 to 1918.

Wheat is chairman of the Board of Directors of the Federal Reserve Bank in Houston and a member of the Board of Directors of the East Texas Chamber of Commerce. He also is a member of the Trinity Natures Boy Scout Council for the Southeast Texas area.

Wheat was president of the Woodville School Board for 29 years — from 1920 until April of this year.

He has three children, James E. Wheat, a newspaper reporter in Houston; Josiah Wheat, a student at the University of Texas; and Ruth Wheat Steinbauer, of Austin.

Black Fly Found

BROWNSVILLE — (AP) — The dread black fly has been found closer to the Rio Grande Valley's citrus orchards than ever before. Dispatches from Monterrey said the pest has been found there in the gardens of Salomon Marcos, a merchant. This is about 125 miles from the Texas fruit area. Recently the Mexican Black Fly Committee ordered wholesale destruction of citrus trees in and around the city of Victoria, Mexico, when the pest was found there. Victoria is 196 miles from Brownsville.

WIE GENTS?—Robert Franz, three-year-old German boy, lost no time in getting on the long-distance phone after his arrival at LaGuardia Field, New York, from Berlin. He called his father-to-be, William Zylman, in Kalamazoo, Mich. The boy was accompanied to the U. S. by his mother, Mrs. Hildegard Franz, who is en route to Kalamazoo to marry Zylman, whom she knew in Germany before the war.

WYOMING'S WELLS
The state of Wyoming has drilled 11,000 producing fields in 18 of its 23 counties, and has produced more than 700,000,000 barrels of oil.

Trains Turn to Diesel Power

ENNIS — (AP) — Two more passenger trains on the Dallas-Houston run of the Texas and New Orleans railroad have gone to diesel power. The Night Owl from Houston and the Day Huster from Dallas used the new locomotives Tuesday. Diesels already are in use on the afternoon Sunbeam from Houston and the Night Owl from Dallas. They are to be installed soon on the last two Dallas-Houston trains, the Day Huster from Houston and the afternoon Sunbeam from Dallas.

Panhandle Press Regional Meeting Slated at Borger

The Panhandle Press Association will hold its 14 regular meeting of the 1949 year Sept. 15 at Borger, Paul Allingham, Amarillo, president, said. J. C. Phillips, publisher of the Borger News-Herald and past president of the association, will play host to publishers throughout the Panhandle of Texas and Oklahoma, Western Oklahoma and Eastern New Mexico. "Job Printing" will be the general theme of discussion, Allingham said. Registration will begin at 9:30 a. m. and the program will get underway at 10:30 a. m. After the noon luncheon a tour will be taken of one of the large industrial plants of Borger. The regional meeting will be conducted in much the same order as the ones last year at Perryton, Wellington and Conway. A different topic of discussion is used at each meeting.

Pope Permits Weddings

VATICAN CITY (AP) — A decree published by the Holy Office allows Roman Catholic priests to perform marriage ceremonies on Communists, if the Communists promise to raise any children of such unions in the Catholic faith. The Vatican newspaper, L'Osservatore Romano, said the decree would allow the marriage of a Communist to a Catholic, and also would permit marriage of two Communists who were not active in party affairs. It did not say how it would affect two active Communists who might want to be married by a Catholic priest. The recent decree published July 13 placed militant Communists in a special status of excommunication pronounced by the Pope. It had said that those who exposed themselves to the dangers of communism knowingly would risk punishment by the church. Excommunication involves the denial of the sacraments, of which matrimony is one.

Ex-Governor Speaks to Club

A former district governor of Rotary International, A. J. Smith, spoke on the fundamental and objectives of the worldwide organization at the Pampa Rotary Club during its weekly meeting in the Palm Room, City Hall.

Gas Travels through Natural Gas Pipelines from 10 to 20 miles an hour.

There are an estimated 3,000,000 miles of rural roads in the United States.

3 Drugs Promise Malaria Control

DALLAS — (AP) — A U. S. public health officer says three promising new malaria control drugs have emerged from a three-year experiment at Seagoville, south of here. The experiment involved female mosquitoes and 281 military prisoners at the Seagoville Federal Correctional Institution. Dr. C. A. Imboden, Jr., director of the tests said chloroquine, chloroguanide and pentamidine are the three drugs, out of 18 tested at the prison, which are promising.

Traffic Crowded

AUSTIN — (AP) — Traffic seem more crowded recently? The State Highway Department said there's reason. Some 2,283, 223 vehicles are registered, 200,000 more than a year ago.
