Have you seen Hoople's coffee pot? He has a swell idea that is now being unfolded on the comic page of The Pampa Daily News. The Major and his comic-page friends offer wholesome enjoyment, our service to the readers.

Band Forged Over Korea

SEOUL (AP)—The allies forged a steel band across North Korea's narrow waist today with the linkup of U. S. Tenth Corps forces from the east and Eighth Army elements from the west.

AP Correspondent William Jordan reported the linkup was made southeast of Tokchon, in north-central Korea. It came as Chinese Communists just north of the Manchurian border continued their ominous buildup of troops—now reported at some 300,000.

Other Chinese Red forces already in Korea, estimated at about 60,000, were withdrawing into the North Korea's wooded mountain fastness under constant lashing by allied air power.

U. S. planes hit ten Russian-built tanks and Red transport southeast of the border.

Bombers and jet fighters carrying half-ton bombs smashed at Red supply lines near and south of the Yalu river boundary of Communist Manchuria.

American and Red jet fighters engaged in two fighting chases near the major Red crossing point—the north-west border town of Sirujin. No losses on either side were reported.

U. S. jets destroyed eight enemy tanks and damaged two in Red territory south and southeast of Sirujin. Twenty-five trucks and other vehicles were destroyed and seven trucks damaged.

The puzzling hull in the ground action continued on its fifth day. There was only patrol action and minor skirmishing.

Inland from the east coast, the U. S. marines observed the 175th anniversary of the corps by rolling onto a plateau to within three miles of the vital Changjin power dam. It was a gain of six miles.

There was no opposition. Abandoned packs indicated the haste of the Chinese withdrawal.

A U. S. First Corps spokesman said the day's gains advanced—likewise unopposed—was registered by the South Korean Capital Division in the far north-east—an 11-mile thrust north of Kilchu.

That's about 75 miles south of the Manchurian border. Elsewhere across the peninsula, the allied line was 45 to 50 miles south of the touchy boundary. Before the Red counterattacks last week, the allies had shoved to the border at one point and 15 miles from it at another.

Big Business Closing Ranks For Tax Fight

WASHINGTON (AP)—An important section of big business closed ranks today against enactment of an excess profits tax.

The committee in a statement called the excess profits tax a broader of "inflationary waste and extravagance" which it said was "demoralizing to prudent management."

Acknowledging that business profits might mean their fair share of increased taxation, it suggested a "defense tax" increase in the level of corporate taxes and prevention of "undue profits" from defense contracts by "effective regulation and re-evaluation procedures."

Benzel's fund, author of the present income tax withholding plan, was one of those active in formation of the business group. Leonard Henderson, former OPA chief, is one of its consulting economists.

Rumel, in a separate statement, called the excess profits tax "un-equitable and inflationary," and said no excess profits tax "has ever been devised that will not do more harm than good."

This new attack added to growing doubts that any excess profits tax would be approved either at the "lame duck" session of Congress later this month, or by the 82nd Congress convening in January. Instead, informed tax experts feel the lawmakers may expedite straight-through increases in corporation tax rates.

POPPY DAY—Mrs. W. T. Braly, chairman of Buddy Poppy sales in Pampa, plus the first poppy to be sold on Caywood Atkinson. Buddy Poppies will be sold by Pampa Girl Scouts all day Saturday, in remembrance of World War I dead. (News Photo and Engraving)

Controls on Rents May Be Expanded

WASHINGTON (AP)—Legislation to strengthen and expand rent controls will be presented to Congress soon after it reconvenes later this month, a reliable administration source said today.

The spokesman, who asked that his name not be used, said the housing expediter's office has drawn a bill to:

1. Extend existing rent controls automatically from Dec. 31 to March 31, regardless of whether the local community or its governing body has voted to continue controls. Under present law all controls end Dec. 31, unless the citizens of the community or their governing body vote to extend them to June 30, 1951.
2. Give the housing expediter power to reimpose rent controls in communities where housing shortages have occurred because of large concentrations of population around military installations. The expediter now has no power to put controls in new areas.

Tighe E. Woods, the housing expediter, was understood to have given such legislation and sent it to President Truman. The President, with such revisions as he cares to make, may propose it to Congress when it reconvenes.

Approximately 8,000,000 rental dwelling units now are under rent ceilings. There were about 10,000,000 at the height of controls in 1946.

Some 600 communities with about 2,000,000 rental dwellings have voted to retain controls after Dec. 31, the housing expediter's office reported. These communities have a combined population of about 20,000,000.

The proposed bill to extend existing controls automatically would give the new Congress, convening in January, three months to survey the whole rental housing situation before the ceilings go off in many communities.

Woods' office said a survey now is being made to identify the communities around military installations where new controls would be imposed if Congress grants the expediter the power. A spokesman for Woods told a reporter the office is receiving numerous reports of tenant "gouging" where concentrations of population have become so acute because of the outbreak of the Korean war.

He reported that Col. James A. Murphy, the commanding officer at Camp Atterbury, Ind., has requested reimposition of controls there.

The Pennsylvania 28th National court ordered the patrol committee to issue a permit or to show cause Nov. 29 why not

Road Work Is Proceeding

Dirt work on State Highway 70 was within one and one-half miles of completion today while dirt work on the six-mile extension of FM 294, south of White Deer, got underway.

G. K. Reading, resident engineer, said this morning work on Highway 70 would be temporarily suspended until the 370-foot concrete and steel bridge, spanning Chicken Creek, is well under way.

Workmen this morning began pouring concrete pilings to be sunk in the creek bed. Work on the bridge would have started earlier except for a delay in the shipment of steel.

The 2.25-mile stretch between Pampa and Perryton, reaching to the south bank of the Canadian River, is expected to be completed by the end of January. The bridge will be the last piece of work to be finished.

South of White Deer, workmen started early this morning to build and grade a portion of the farm-to-market road leading from White Deer to Highway 66. Five miles of the road are already paved and the current project is a six-mile extension. Asphalt coating will be applied next summer.

Work on Highway 66 through McLean is expected to be completed sometime in December, Reading said, as he expressed doubt that workmen would be operating today due to the cold weather. A major portion of the operators on that job are from the warmer portions of the state.

Cohen Having Trouble Selling Automobile

LOS ANGELES (AP)—Apparently Mickey Cohen has not been able to sell the \$18,000 bullet-proof Cadillac he was arrested recently.

The gambler sued the California Highway Patrol Thursday seeking permission to use the car, which has stood in a garage since it was arrested several months ago.

Superior court ordered the patrol committee to issue a permit or to show cause Nov. 29 why not

Phone Strikers Begin 'Push Button' Battle

Picket Lines Withdrawn in Surprise Plan

NEW YORK (AP)—Striking telephone equipment workers abruptly withdrew picket lines from some exchanges across the country today in an apparent launching of a new "push button" strike tactic.

View of the strategy, as described by union spokesmen, was to employ surprise picketing concentrating lines in some places, not in others, and picketing on some days and not on other days.

The strike, called Thursday by the CIO Communications Workers of America to enforce demands for a "substantial boost" in wages from the Western Electric Co., slowed long distance service because operators refused to cross picket lines. Local service generally was not affected.

The union, which represents 17,000 Western Electric employees, rejected a company offer of about 11 cents an hour additional in wages. Present wages now average \$1.55 to \$1.62 an hour. The union has not disclosed its specific wage demands. Length of contract also is an issue.

First indication of the start of the strike technique came when pickets suddenly left telephone buildings in Dallas, Denver and Newark and other New Jersey cities. Pickets also failed to show up in Springfield, Mo., and other Missouri communities.

"We don't know what it means," said a Southwestern Bell Telephone official in Dallas. "We understand they will allow the other workers to be on the job today — and then maybe stop them again Saturday."

He called the plan a "war of nerves."

As part of the plan, union pickets called on Nov. 7 to picket offices in Dallas, Denver and Newark and other New Jersey cities. Pickets also failed to show up in Springfield, Mo., and other Missouri communities.

"We don't know what it means," said a Southwestern Bell Telephone official in Dallas. "We understand they will allow the other workers to be on the job today — and then maybe stop them again Saturday."

He called the plan a "war of nerves."

As part of the plan, union pickets called on Nov. 7 to picket offices in Dallas, Denver and Newark and other New Jersey cities. Pickets also failed to show up in Springfield, Mo., and other Missouri communities.

CHICAGO BOUND—This helicopter, hovering over Pampa's flying field Thursday afternoon, attracted quite a bit of attention when it stopped here to refuel. Pilot Bob Boughton and his copilot, E. W. Nelson, left Pampa after refueling Saturday bound for Chicago, Ill. They are taking their time and expect to complete their 2,500-mile trip Saturday. They have traveled via Mexico, Albuquerque, Tucson and Pampa and will fly through Kansas City and on to Chicago. They said at one time on the trip they had to set down at a roadside service station to refuel and another time landed in the court of an automobile model. (News Photo and Engraving)

U.S. Demands Swift Action On Red China Developments

LAKE SUCCESS (AP)—The United States is expected to call on the UN Security Council today to move "as rapidly as it can" to prevent Chinese Communist intervention in Korea from spreading the conflict.

With the backing of Britain and France, the American delegation will ask the council to go ahead with its discussion of the Korean case without waiting for the arrival of Chinese Communist representatives.

Russia already has served notice she will fight all considerations of the question until the Chinese Reds have been brought before the council and given a chance to answer the charges made against them by Gen. MacArthur, UN commander in Korea, and the American delegation.

Today's council meeting (scheduled for 3 p. m. EST) originally was called to consider the Palestine case. Addition of the Korean question is expected to set the stage for a lengthy argument over the agenda. Such a wrangle could prevent the council from coming to grips with the Korean question this afternoon.

The United States will try to prevent such a development. Porter McKee, spokesman for the American delegation, told reporters last night the council "must move ahead" and not allow the Chinese Communists to so time their arrival at Lake Success as to impede the council's work.

"The clear duty of the council is to do everything it can as rapidly as it can to prevent the conflict in Korea from spreading," McKee said.

Informants said Britain, France, and Ecuador had joined the United States in sponsorship of a Korean resolution to be put before the council. The proposal was understood to include these main points:

1. A demand for withdrawal of all Chinese Communist fighting beside the North Korean Reds.
2. A call on all nations to help the council.

Snow Flurries Hit Panhandle

By The Associated Press

Texas' second wintry blast in less than a week sent temperatures tumbling to freezing or below over half the state today — from Waco northward.

Snow flurries fell at Amarillo and Dalhart in the Panhandle during the night as both had their coldest weather of the season.

The mercury fell to eight degrees at Dalhart and 11 at Amarillo. Waco in Central Texas recorded 32 degrees.

The U. S. Weather Bureau forecast similar temperatures for the area tonight, with the freezing zone again extending deep into central Texas.

Skies were cloudy from Waco south and eastward, and partly cloudy to clear elsewhere. Only precipitation recorded in the past 24 hours were the light snowfalls in the Panhandle and a shower at Brownsville. Strong winds whipped the Texas coast today.

The only relief sighted was a prediction for somewhat warmer weather in the Panhandle Saturday afternoon.

The temperature never rose to above freezing at Dalhart Thursday. The upper Panhandle city recorded a high of 28 degrees — four degrees under the freezing mark.

This also was 59 degrees under the 87 maximum recorded at Brownsville.

Other overnight readings of freezing or below included Lubbock 20, Childress 22, Midland and Big Spring 23.

The forecast called for 8-16 degrees tonight in the Panhandle, 16-32 elsewhere in West Texas.

Jury Indicts Oscar Collazo

WASHINGTON (AP)—A federal grand jury today indicted Oscar Collazo, 37-year-old Puerto Rican, for murder in connection with the Nov. 1 attempt on President Truman's life.

The charge is based on the killing of Leslie Coffelt, 40, White House guard, when Collazo and Giuseppe Panzavola tried to shoot their way in to Blair House, the President's temporary residence.

Panzavola was killed "in the rain of bullets from guards which fell Collazo with wounds in the chest and shoulder."

Conviction of murder carries the possibility of a death sentence in the District of Columbia.

From the stories of eye-witnesses, there is some evidence that Panzavola actually shot Coffelt.

But under District of Columbia law when two or more persons engage in a felony and kill some one, all are considered equally guilty unless charges of murder, HEARINGS ANNOUNCED

WASHINGTON (AP)—The Senate Crime Investigating Committee has scheduled a series of western hearings next week in its search for new links in the national trail of racketeers and gamblers.

Taft Suggests Solon Session

CINCINNATI (AP)—A meeting of some of the newly elected members of the U. S. Senate in Washington, Nov. 27, was suggested Thursday by Sen. Robert A. Taft (R-Ohio).

The Ohio Republican, himself elected to a third term in Tuesday's voting, said, however, he did not have in mind a conference of all incumbent and newly elected Senate Republicans, at least not at this time.

Taft told newsmen:

"In talks with Kirkens (Everett M. Dirksen, Illinois Republican) and several other newly-elected members, I did suggest that they might drop into Washington at that time, if they chose, meet their new colleagues and talk things over."

Congress is scheduled to reconvene Nov. 27 unless President Truman calls it back sooner.

Indian Monarch Flies to Safety

NEW DELHI (AP)—The Indian foreign ministry announced today the refugee king of Nepal will arrive here Saturday in a special plane to be sent by the Indian government.

The King, Tribhuvan Bir Bikram, and his family will be guests of the Indian government.

The ministry said the Indian government is being kept abreast of the situation by informants in Katmandu, the Nepalese capital.

The 44-year-old Nepalese monarch took refuge in the Indian embassy at Katmandu on Monday and was replaced by his three-year-old grandson in a palace revolution engineered by Nepal's powerful prime minister.

The tiny state of Nepal lies between India and Tibet.

Al Lopez Is named Manager at Cleveland

CLEVELAND (AP)—Al Lopez, Indianapolis Indians manager for the past three years, today was named manager of the Cleveland Indians for the next two seasons.

The salary terms were said to be the highest ever paid a non-playing Cleveland pilot.

Body of Attempted Assassin Is Moved

SAN JUAN, Puerto Rico (AP)—The body of Griselio Torresola, killed in the Nov. 1 assassination attempt on President Truman, was brought to San Juan from New York today. Alfredo Platell, a brother-in-law, was the only relative at the airport to receive the body.

Canadian Dam Plan Talked

Strategy to be used in getting the Canadian River Dam bill on the Senate's consent calendar when Congress reconvenes was being discussed in the Herring Hotel, Amarillo, this morning between Sen. Lyndon Johnson and city officials from several of the Panhandle cities interested in the bill.

Mayor C. A. Huff and City Manager Dick Pepin left early this morning for the talks with Sen. Johnson, co-author of the bill.

The bill has already been approved by the House, okayed by the Senate Internal and Insular Affairs Committee, and the Bureau of the Budget, but has been held up at the consent level by Sen. Chavez, N.M.

If the bill fails to make the authorization grade with the 81st Congress it will have to start all over again with the 82nd Congress and go through the same mill — passage by the House, approval by the committee, Bureau of the Budget and finally the Senate. Only after authorization is granted can an appropriation be made by Congress for the \$38,000,000 project, most of which is to be repaid to the government by water sales to 11 Panhandle cities.

Other cities being represented at the meeting with Sen. Johnson are Amarillo, Lubbock, and Borger.

Hundreds Flee Western Fire

SAN BERNARDINO, Calif. (AP)—Hundreds fled their homes in the darkness today as a fire swept by 50-mile-an-hour winds threatened much of the city's northern residential sector.

Firemen said it was almost out after a six-hour fight.

At one point, police reported hundreds of homes burning, while pajama-clad residents of many of them women and children played garden hoses on roofs. But dawn came, only one home on a hilltop appeared a complete loss. A half-dozen others were badly damaged and spoils were badly damaged and spoils burns and charred paint showed on many more.

Sheriff's Office Reports Good News

"No news is good news," according to an old adage, and that is exactly the situation at the Gray County Sheriff's Dept.

The department has not received any complaints or admitted any prisoners for several days, according to Sheriff Kyle.

Deputy expressed the opinion that they would rather not be busy and have nothing to do than have one or several criminal cases.

"This is one office where we are happy to report that we aren't busy," said one of the deputies. "The busier we are, the more efficient sheriff's office we have. We like to think that our department is efficient, and therefore, we are happy to report that we have nothing to do."

American, Briton Given Nobel Prize

STOCKHOLM, Sweden (AP)—American novelist William Faulkner and British philosopher Bertrand Russell were awarded Nobel literary prizes today for 1949 and 1950.

The Swedish academy elected Faulkner, of Oxford, Miss., as winner of the 1949 prize — withheld last fall. This year's prize was given to 78-year-old Russell, internationally famed philosopher, mathematician and moralist.

The winners were selected from among more than 80 candidates. They will receive the awards from the new Swedish King, Gustaf VI, when the Nobel Foundation celebrates its 50th anniversary Dec. 10.

Select your Crystal, China and stoneware at Lewis Edw.—adv.

RUSHING THE SEASON—You might think it's a little early, but Santa Claus has to plan well in the future to take care of all his obligations on Dec. 25. At left above, "Santa," impersonated by Master Sgt. Morris Yurak at Mitchell Air Force Base, N. Y., loads a huge "Karton for Korea" with the help of pilots, Lt. Edward Snyder, center, and Capt. John Murray. At right, Mr. and Mrs. Santa Claus arrive by helicopter at Allentown, Pa., for their first appearance of the season "loaded to the rotors" with gifts for good little kiddies.

Audience Responds Readily To Singer Walter Cassel

By GEORGIA SMITH

It was an evening of music good music—Thursday night for members of the Pampa Community Concert Association when Walter Cassel, baritone master of song, was presented in the season's first concert.

Cassel (pronounced "Kas-lee") held a large audience at the sun for high school auditorium with a repertoire of solo vocal music which he knew better than any other man in Pampa. The song is like a skilled athlete's performance, and his solos were masterpieces of technique and artistry.

Opening his concert in a soft, silky mood, Cassel sang "Me, Myself and I," an English love song, arranged by H. Lane Williams. Two of his songs were from Mozart's "Don Giovanni" (The second of the selections by Verdi) and the "Song of the Dove" by Giuseppe Verdi. The English version of the song, sung last month in a Milwaukee opera house, was a very popular one. Cassel's rendition of the song was a masterpiece of interpretation. The number made a great impression on the audience. The song was an Irish love ballad by John D. Van der Bruggen and John D. Van der Bruggen. The song is called "The Weaver's Song." In the audience, the song was a masterpiece of interpretation. The number made a great impression on the audience.

CAP Holds Session For Organization

An organizational meeting was held last night by the local unit of the Civil Air Patrol, Ed Myatt, the commanding officer, presided at the meeting. Applications were processed and temporary officers appointed for the ensuing ninety days.

The Civil Air Patrol is an organized group of men and women who primarily hold the responsibility for search and rescue operations for missing aircraft, whether they be civil, military or commercial.

Membership is open to both men and women, and boys and girls in the high school group who are interested in learning about aviation, search and rescue work, disaster operations, first aid, meteorology, communications, and navigation.

PHONE STRIKE

In Springfield, Mo., a telephone official said a cable was cut today, entirely halting telephone and teletype service for the Springfield Newspapers, Inc., and radio station KGBX.

These developments came as a union source said a federal mediator session has been called here today — for the first time since start of the nationwide strike which has idled thousands and disrupted some service.

RED CHINA

(Continued from Page 1)

3. A request for the United Nations' Korean committee to consider urgently all questions connected with the North Korean frontier.

The third point is designed to take the wind out of any Chinese (Red) claims that they intervened in Korea because they feared invasion of Manchuria. Chinese Communist units took up the fight when MacArthur's troops approached the border hydroelectric system that serves Manchuria as well as Korea.

"It is true, that you may fool all of the people some of the time; you can even fool some of the people all of the time; but you can't fool all of the people all of the time."

"You were right, Mr. Lincoln," says Senator Dudley J. LeBlanc

20,000,000 bottles of HADACOL have been made and sold thus far in 1950. This is a record for any product but it is even more unusual when you consider that HADACOL is advertised in only 22 states.

Advertising has sold the first bottle of HADACOL to many folks; HADACOL is a very meritorious product and the results it has obtained have made possible the sale of these 20,000,000 bottles in 10 months.

Faith has been an important factor in the development of HADACOL — faith made possible its creation and the faith the American people have placed in my product has been responsible for its growth. I pledge to the American people that the faith they have placed in HADACOL will never be violated.

Truthfully,

DUDLEY J. LeBLANC, President

A City Dies as Superforts Let Down 600 Tons of Death

By HAL BOYLE
NORTH GOREA — (AP) — Ever see a city die?
In this age of power, and speed, the death can be as swift as it is terrible.
That was the way it was at Sinuju. Once it was a city of 300,000 lying on the Korean side of the Yalu River bordering Manchuria.
It was noon when the growling rumble of the approaching U. S. Superforts gave the first warning of doom.
By 12:30, 90 percent of this Communist nest lay in ruins. It was ripped and burned by more than 600 tons of fire bombs and high explosives.
My window for this awesome show was a plexiglass canopy of a training version of the F-80 Shooting Star jet.
It was piloted by Capt. William J. Evans, Norwich, Conn., aide to Maj. Gen. Earle E. Partridge, U. S. Fifth Air Force commander.
Flying between 500 and 600 miles an hour, this was what we saw:
The land lay wrinkled and brown. To me the whole situa-

tion seemed like a nightmare out of childhood.
Because there below me was a river that is named the Yalu — boundary between North Korea and Communist China's Manchuria. But it could also be called the Kaw.
The Kaw is a river that divides two states and two cities, but not two worlds. The Kaw is a mighty tributary of the Missouri River that separates Kansas City, Mo., from Kansas City, Kas.
The Kaw is a river I have known since birth. I still have a mother living on one side and a brother on the other side of the Kaw.
There may be relatives on either side of the Yalu too. We know there are two towns that reach and touch each other across the river there.
One is the openly enemy Korean city of Sinuju. The other is the peaceful, prosperous metropolis of Antung, a Manchurian city from which the enemy has by day flown Soviet-made airplanes across the border into combat against American fliers.
And by night over the bridge

that leads from Antung to Sinuju have come, American intelligence officers report, elements of perhaps six Chinese divisions.
We can attack Sinuju, but we cannot go on across the winding snake-like Yalu to attack Antung because it is Manchurian.
The fighters and bombers of the Far Eastern Air Forces observe that distinction as accurately as a surgeon who has to make a sudden, life-saving incision.
It was a delicate and demanding but very necessary thing that those bombers had to do. They swam slowly through flak to kill this town of Sinuju, the focus point for the enemy.
They had to stay within a narrow line to do it. They did it with the skill of any other artisan who knows his tools and his trade.
At 12:07 the first flight of B-26 Superforts let go with what they had brought. The bombs fell at the northeast edge of the city.
Flight by flight the bombers let go. Step by step the city below was destroyed.
The clay walls fell apart in the heat. The straw roofs burned. The wood flamed.
And the people died or fled.
A cypress tree standing at Tule, Mexico, is said to be the world's oldest living thing, with an estimated age of 4,000 years.

Pampan Hurt In Tank Blast

A Pampa man was seriously injured in a tank explosion at Camp Hood, Texas, early this week, according to the U. S. Army.
He is Wilbern Stevens, 20, 1018 S. Barnes, who is serving on active duty with the reserves.
Stevens, who is a son-in-law of Gray County Sheriff G. H. Kyle, was injured while operating a tank during maneuvers. He suffered severe powder burns about the face and the loss of a leg after the tank's 75 mm. cannon failed to function.
One Army lieutenant and another enlisted man were also injured in the explosion.
Sheriff Kyle and his wife returned from Camp Hood Wednesday after rushing to Stevens' bedside.
Stevens was called to active duty with the reserves Oct. 17. He is married.

Selective Service Calls 26 County Men for November

Twenty six Gray County men will be inducted into the armed forces Nov. 16 according to local draft officials. Still another group faces induction Dec. 8. The December quota has been estimated at 14 men.
There will be no calls for physical examinations, however, in November or December.
The two groups to be called for induction will be selected from the list of 60 men who took physicals in Amarillo Oct. 34.
A great many people are still inquiring, say local officials, on the procedure used to select men for the armed forces.
Every man, upon registering, receives a classification number. These numbers are filed in order, and the man is not called for a physical or induction until that number is brought up.

Work Advancing On Scout House

Remodeling of the Girl Scout House is progressing rapidly, according to Mrs. H. F. McDonald, Jr., council assistant.
Repairs and enlarging of the house will amount to about \$2000 worth of work and material. The foundation has been finished.
Ten feet of floor space will be added and new flooring will be laid throughout the old part of the building. Jeff Lard is contractor on the job.
The U. S. Navy operated almost 200 blimps on anti-submarine patrol during World War II, according to the Encyclopedia Britannica.

Scout Leaders Plan Troop Organization

Mrs. H. F. McDonald, Girl Scout executive, and Mrs. O. L. Slatton will visit in two elementary schools Monday with mothers of girls in the second grade to organize Brownie Troops.
The scout leaders will meet with the women in Sam Houston School at 9 a.m. and Woodrow Wilson at 2:30 p.m.
Those unable to attend the meetings may call the scout office before noon Monday, for information.
Surest way to increase a car's power, at the same time reducing gasoline consumption, is to have the valves ground.

Cub Pack Is Formed At Parent Meeting

Organization of a cub pack was the purpose of a meeting of parents held at Baker School this week.
Approximately 50 boys of Cub Scout age indicated they would like to be Cubs in a survey conducted previous to the meeting by E. R. Nuckols, principal.
Seven mothers volunteered to be den mothers. They were Mrs. George White, Mrs. B. B. Bennett, Mrs. A. W. Lunford, Mrs. A. L. Smiley, Mrs. K. L. Green, Mrs. J. B. Bradford, and Mrs. B. E. Tidwell. Fathers volunteering to serve on the pack committee were A. W. Lunford, K. L. Green, Alex Swann and Dan Rutman.
These groups will meet at the school Friday night Nov. 17 to receive training in their responsibilities as pack leaders.
All Lombardy poplar trees are males.

Ideological Battle Hits Little Nepal; Monarch Takes Refuge

By DEWITT MACKENZIE
AP Foreign Affairs Analyst

The ideological storm which is sweeping every nook and cranny of our globe finally has hit the most inaccessible spot — the tiny Himalayan kingdom of Nepal, which forms a gable in the towering "roof of the world."

Through long centuries, Nepal has remained a land of mystery — a kingdom which has been a mecca for the Hindu and Buddhist religions. Few Americans or Europeans ever have been permitted to visit this ancient link between Tibet on the north and India on the south.

Now Nepal suddenly has experienced a political upheaval, the exact nature of which still is obscure. The known facts are that the 44-year-old king, Tribhuvan Bir Bikram, has taken refuge in the Indian embassy in his capital.

The monarch's three-year-old grandson, Gyanendra, has been placed on the throne by the hereditary prime minister, Maharaja Mohun Shamsheer Jang Bahadur Rana, after a meeting of parliament and the nobles. Here it is important to note that the prime minister has been the real ruler of Nepal.

This prime minister, by the way, is the one who visited America a couple of years ago and was received by President Truman in Washington.

One of the known facts back of this upheaval is that the king had been under pressure to democratize his government, which was an autocracy of the feudal type — controlled by the prime minister, as previously mentioned. One report is that the advice came from India.

Naturally the question also arises whether Communist China's intervention in Tibet had anything to do with the Nepal situation. However, there appears to be no connection between the Red invasion of Tibet and the quick shift in the Nepal monarchy. Communist agents have been reported at work in Nepal, but whether they had a hand in the crisis is among the mysteries of the moment.

Nepal is about the size of Illinois, a land of towering mountains among which is Everest, highest in the world. The population is estimated at about 6,000,000 and it is made up largely of Mongolian hill tribes. They pursue simple farming and pastoral lives.

The country is intensely religious. Not only in the villages but along the mountain trails there are thousands of shrines and memorials — statues of monkey and elephant gods, temples to Hindu deities, and great Buddhist mounds surmounted by pyramids.

Cows are sacred animals, and there is a death penalty for killing one. Cattle are permitted to wander about the streets as they will. One sees similar things to the south of the Indian Peninsula. I often have seen cows mingling with the sidewalk crowds in a great city like Calcutta, and even wandering into stores. Nobody pays any attention to the animals.

However, Nepal's fame doesn't lie in her pastoral pursuits and religions. She is noted for her Gurkha troops, who are known the world over as fierce fighters. Gurkhas served with the British in several areas during the late world war.

Diplomatic relations between Washington and Nepal are, to say the least, odd. Our ambassador to India, Loy W. Henderson, has headquarters in New Delhi but he also is minister to Nepal. The Nepal ambassador to Britain, who lives in London, also is minister to the United States.

The progress of the political crisis in Nepal will be watched with special anxiety by India. If the development should take on a Red tinge, it would bring Chinese Communist activities closer to India — much too close for comfort.

SO YOU THINK YOU HAVE A HOUSING PROBLEM? — There's no day nursery in war-blasted Wonsan, Korea, to park junior while mama gets on with her task of rebuilding their wrecked home. So this Korean baby, strapped to its mother's back, gets a rough ride as she helps her companion saw up part of the house frame for rebuilding.

Henry Can Tell the Commies A Thing or Two About Tibet

By HENRY McLEMORE

If the Chinese Communists ally covered with Tibetan merchants, their wares stacked and spread around them.

There was no pushing them off into the lake, and they were perfectly capable of staying around for a week.

As a result of this persistence, we bought some of the most glorious junk that ever came out of Tibet or any other country.

Another thing about these crafty critters is that they are just about as great buyers as they are sellers. That is, if you'll sell for practically nothing.

Mrs. Percy Wood, wife of the Chicago Tribune correspondent, who was in Kashmir when we were, had a tiny gold filling come out of a tooth. Somehow, word of this accident got around the Tibetans and she and Percy practically had to leave Kashmir to get rid of the would-be buyers of this little nugget.

She finally swapped the gold filling for a brass bowl which the merchants swore up and down once was the property of the Dalai Lama.

The merchants insist that every item in their portable stores came originally from some temple, monastery, or palace. All you have to do to know that they are telling a whopping lie is examine the stuff. Some of the articles for sale are so obviously new that they would look fresh on a ten cent store counter.

The Chinese soldier is the worst paid in the world — something like 10 cents a month, I believe — but he won't have even that to spend in Tibet. My guess is that merchants already have gone out to meet the invaders. A little thing like artillery, or machine gun fire would be a godsend.

It was even worse in Kashmir, where we lived on a houseboat on Lake Dal. By the time we would wake up in the morning the decks of the houseboat and the flat-top roof would be littered in spite of the cries of warning and dragged out the Marine pilot who had collapsed by his fighter.

The pilot had just taken off from Kimpoo Air Field with a full load of bombs and ammunition for a combat strike when he noticed his plane was leaking oil. He crash landed and jumped out of the burning plane, managing to get several feet away before he collapsed.

PhM3-c Stalcup pulled the pilot up on his back and carried him out of danger. They made it just in time. A couple of seconds later the bombs exploded along with a number of rockets.

Stinson Speaks On Labor Act to Pampa Rotarians

"Labor unions, almost to a man, hate the Taft-Hartley Act, but are in favor, or like, some provisions," Reno Stinson, Cabot Carbon Co.'s employer-employee relations chief, told Pampa Rotarians Wednesday.

Stinson added, "when you interview them and ask if they believe or favor 'this or that' without saying it is part of the Taft-Hartley Act, they'll invariably say yes."

Stinson emphasized the law was designed primarily to cut the power of professional labor leaders over union members as well as to protect management from unfair labor practices.

not bother them as long as they had something to sell.

And they'll have something to sell, even if they have to stay up all night making rare "antiques."

Switch in Careers Valuable to Woman

SYDNEY — (AP) — A 50-year-old Sydney widow gave up a cosmetics factory to become a prospector—and struck it rich.

She is Mrs. Mildred Makinson, who has found a big wolfram deposit on the Tennant Creek goldfield in the Northern Territory.

Wolfram, used in making steel, is worth 1200 Australian pounds a ton. Mrs. Makinson is the only woman prospector on the Tennant Creek field. She knows how to handle pneumatic drill, and does many other jobs on her lease. She employs some miners who help with the heavy work.

After every election in the past he made a solemn vow to himself that in the future he wouldn't have to depend on politicians, each with an axe to grind, to tell him what the truth was.

After every election he had vowed to pay more attention to events between then and the next election, to read more, listen more, learn more, so he would know for himself.

Somehow it never quite worked out that way.

But this time he felt the course was charted no matter who had control of Congress and for a very simple reason:

America is in a position of trying to save its skin. And all Americans, no matter whether they're Democrats or Republicans, are going to have to work together to save the collective American skin.

That's because the Russians and communism are tough, ugly, and marching.

So, going back to work today, he knew that above everything else the new Congress coming here in January will have to work pretty much together and with the administration on foreign affairs.

He hoped they would.

He thought to himself, a little grimly: they'd better work together. If they don't and we lost, they won't be around long enough afterwards to play politics with themselves, the country, or me.

More than 9,000 trips from Boston to San Diego!

You'd have to go that far to equal the miles travelled in July, August and September by drivers on the 6-month, nationwide Ford Truck Economy Run!

Over 5000 Ford Truck drivers log 30 MILLION MILES DEMONSTRATING FORD TRUCK ECONOMY

Harvesters Battle Sandies Saturday

COACH A. E. NOONCASTER

BACK DE WEY CUDNEY

Sandies Hold Long Drills For Undefeated Champions

The war with Germany ended on Nov. 11, but no peace treaty has ever been signed between the Pampa Harvesters and Amarillo Sandies, and the two gridiron gladiators will battle it out at 2:30 Saturday afternoon in Memorial Stadium—on Armistice Day.

Weather could be an important factor when these two grid rivals open District 1 AA conference play. Pampa will be favored for the second time in 20 years, but the undefeated Harvesters lost a mud engagement to the Sandies, 2-0, in 1930, and Pampa was favored in that contest.

Coach Tom Tipps sent his gridsters through a two-hour workout Thursday afternoon. The team drilled one hour outside and one hour in the school gym. The Harvesters will hold a light workout today. Contact work was sidetracked this week, but it was a different story in the Sandstorm grid camp.

Coach Howard Lynch held rough scrimmage sessions on Monday, Tuesday and Wednesday. Tension mounts as the game draws near. I've never seen a Pampa-Amarillo football contest, but fans tell me it will be one I will long remember.

Pampa fans have already purchased 3,000 tickets to the game, not counting student sales. Approximately 400 duets were still on hand Thursday afternoon. The Harvesters will take a seven-game winning streak to Amarillo Saturday afternoon, and the Sandies will have a successful season if they defeat Pampa.

Coaches Tom Tipps and A. R. Nooncaster have brought their boys along at a steady pace. Before the season started, I predicted a 7-3 season record for Pampa. Nothing would please me more than see 'em make it number eight. The Harvesters have never won a game from the Sandies in Amarillo, but it is the time for the streak to end, if it ever is.

One of the best slide rules to use as a comparison between the two teams' strength is the Amarillo-Lubbock, and the Pampa-Lubbock games. The Harvesters edged the Westerners here 27-21, and Lubbock beat the Sandies at Lubbock, 20-0. Lubbock couldn't solve the Amarillo defense until late in the third quarter. Then they broke loose for three touchdowns, nothing two of them in the final period.

Lubbock scored two of its three touchdowns against Pampa in the first half. Therefore, it looks like Amarillo is capable of throwing up a stout defense despite the tramping they received from Abilene and Odessa.

The Harvesters are at full strength for the first time since the opening game. Pampa is capable of ending the victory drought at Amarillo. They have the fight and the experience to carry them through, but they'll have to play smart game against Coach Lynch's eleven to snap the Sandies.

Here's hoping Sunday's headline will read "Harvesters Sting Sandies," or just any type of headline as long as it isn't bordered in black.

Here we go again. I've changed my method in picking the Southwest Conference winners. Without the use of a parley card, here's Saturday's winner. If I flip a coin to select the winners:

Texas at Baylor: I've picked Baylor to lose the past three weekends. They should come through for me on the fourth try. Texas 27, Baylor 14.

Texas A&M at SMU: I picked the Aggies to win the Southwest Conference. Can't desert 'em now. Aggies 20, Mustangs 14.

Rice at Arkansas: The Porker coach has kicked two of his star players off the team for not attending classes. Arkansas will win by six grade points. Hogs 13, Owls 7.

Texas Christian: I can't miss this one. The Horned Frogs don't play.

Oklahoma at Kansas — The Sooners are ripe for an upset, but school loyalty forces me to pick Oklahoma by a narrow margin. Sooners 20, Kansas 14.

Lefors at McLean: I will take the Pirates in a very close game. Lefors 19, McLean 13.

Pampa at Amarillo — Harvesters by one touchdown: Pampa 20, Amarillo 13. Have my fingers crossed on this one.

PURSE PROTECTION — Rusty or clogged gutters and downspouts may allow water to cause expensive damage to a house. It is a wise measure to keep them clean and protected.

Amarillo Gridster Says They'll Rip Harvesters

AMARILLO — (Special) — Here's a warning to you Pampa Harvesters — "we're going to snap your winning streak Saturday." That was the opinion of Amarillo High School students and football players as they prepared for the Pampans.

One Sandie grid player summed it up this way: "We got fired up and beat Sherman, SMU put their mind to it and gave Notre Dame the game of their lives last year and Texas wouldn't take the experts' word last week about SMU. We're going to give lots of experts and lots of Pampa people a big surprise when Saturday rolls around."

Students changed their inter-ests from Shakespeare's lines to such rhymes as "The Harvesters were over sure; Our Sandies found a surefire cure!"

Yes, the Sandies figure to be on the long end of the score when the game is over with the Harvesters, and so do the students.

Buffaloes Bump Reapers, 20-19, In Loop Upset

The Horace Mann Buffaloes upset the Pampa Reapers, 20-19, in the feature game of the Panhandle Junior High School Athletic League Thursday in Amarillo.

Horace Mann took a 20-0 half-time lead and then fought off the Reapers the second half to knock Pampa into second place in the conference. Sam Houston is in first place with a 5-1 record.

Horace Mann scored one touchdown on a 35-yard run by Bully Reed, and crases of five yards each by Sammy Jones and Ray Myers added the other two. Jode McCarty ran over one point and Don Rogers kicked one.

Ed Dudley and King Gee got the Pampans back into the ball game the second half. Dudley notched two touchdowns and Gee added another one, but the Reapers were able to add only one extra point.

Few types of furniture are required to meet as high standards of craftsmanship in finish as pianos. The coatings which are used must provide enduring beauty and lasting protection.

Humane Society Lets Lobos Go Into West Point Arena

By WILL GRIMMLEY
NEW YORK — (AP) — If it were a prize fight, the authorities wouldn't allow it. But it's football, so harmless little New Mexico will take pugilist status tomorrow at mighty, top-ranking Army.

The odds makers refuse even to quote figures on this bantam-heavyweight match at West Point's Michie Stadium. Durley games and lost five by lopsided scores. Army, riding a 26-game unbeaten streak, has crushed six foes.

The spotlight, then, shifts from the No. 1 team in the country to the Middle West and Pacific Coast where titanic struggles are expected to clarify the Rose Bowl picture.

The headline attraction is at Berkeley, Calif., where the unbeaten, United Golden Bears of California clash with the single wing precisionists of UCLA.

Happy Waldorf's Californians have accumulated 21 straight victories in regular season play — punctuated by two Rose Bowl defeats — and are shooting for their third straight Pasadena bid. If they lick UCLA, they're almost sure to get it.

The Big Ten's representative in the Rose Bowl remains pretty much of a puzzle with Ohio State, recognized as the loop's outstanding team, ineligible to make a return trip west.

Wisconsin and Illinois are figured to have the inside track at the moment. The once-beaten Wisconsin Badgers play Ohio State at Columbus, Illinois meets Iowa at Iowa City.

The Midlands offer another top-flight game in the old grudge fight between Oklahoma and Kansas at Lawrence, with the Jayhawkers out to settle a score with the third-ranking Sooners.

Oklahoma, with a modern record winning streak of 27 games, is rated a 14-point favorite although Coach Bud Wilkinson says the team is at a "physical and psychological low."

The main trouble is expected in the unpredictable Southwest. Kentucky, fourth rated, plays Mississippi State at Starkville, Miss., and rules a 20-point choice because of the passing of Babe Parilli.

Texas, No. 5 and conqueror of Southern Methodist last week, tangles with Baylor at Waco, while SMU, which has yet to defeat California, tackles rugged Texas A&M at Dallas.

Southwesterners wouldn't be greatly surprised to see both Texas and SMU lose to their underdog neighbors.

Drummond, emerging as one of the powers of the East, puts its perfect record to little risk against Harvard, which has yet to win a game. The Tigers are No. 8.

Miami (Fla.) No. 9, goes after its seventh straight victory of the season against Louisville tonight at Miami, favored by three touchdowns. Illinois is the tenth team.

Bruin-Bear Game Is Top Gridiron Contest on WC

BERKELEY — (AP) — Championship standings and Rose Bowl chances will be at stake here tomorrow when the undefeated California Bears and the once-defeated University of California at Los Angeles Bruins clash in their all-important Coast Conference football classic.

It's the "game of the year" for the two powerful rivals. A capacity crowd of 81,000 is expected to watch the contest.

Traditional rivalry of the keener sort adds color to the annual encounter. The Bruins were once the "baby brothers" of the Bears. They've grown up long since. Under Henry "Red" Sanders, the former Vanderbilt coach, they have been downright formidable the past two years.

California, which goes into action tomorrow with the only unblemished record in or out of the conference, ranked 6th in this week's Associated Press national poll. UCLA 19th in the poll, has lost to Washington, 20-21, in the league, and 6-14 to Illinois.

Lynn (Pappy) Waldorf, who left comparative coaching security after twelve years at Northwestern for a job then known as "a coach's graveyard" at California, has become a "wonder man" here. Since his first team in 1947 lost to Southern California, 14-30, portly Pappy has produced two Rose Bowl clubs and hasn't dropped a conference game.

Hoople's Big Upset is Irish to Plaster Pitt

By MAJOR AMOS B. HOOPLE
Pusher for Willie Heston

Major Amos B. Hoople

EGAD! I have been saving one of my wildest upsets all season, and I am prepared to announce it now.

So, hold your hats everybody, here it is: Notre Dame to beat Pittsburgh by a score of 26 to 7.

Many a year has passed since the Panther invaded South Bend as a favorite over the Fighting Irish. Those were the days when the late Dr. Jock Sutherland produced powerful teams at Pitt.

One other upset is in the cards. You may be astounded when I tell you Virginia Military will defeat Georgia Tech, but that's how it is going to be, zillions of gentle readers.

Colgate over Cornell is my big one for the east. Now, go right ahead with the rest of the program:

Ohio State 20, Wisconsin 6

Sports Round-Up

By HUGH FULLERTON, JR.
NEW YORK — (AP) — The suggestion has been made in various quarters that someone in authority should "order" the Army football team to meet Ohio State, Oklahoma or some other mighty rival in the "President's Cup" or other post-season game.

Before anyone takes that too seriously, we'd like to point out that Army football players, like all other Cadets, have to spend the first three weeks of December passing a very difficult series of examinations. And there are a few matters in Korea and possibly elsewhere that they may be looking after in a year or so.

Things-are-tough-everywhere item: Larry Atkins, the Cleveland matchmaker has been around for a couple of weeks with \$60,000 in guarantees for the Cleveland News Christmas fund boxing show and still hasn't got the main bout set.

The Blackhawk are the only team to hold Shamrock to a tie this year, 13-13 at Denver field here Sept. 29. The Irish vanquished all eight other opponents, including Dalhart, Memphis and McLean, the toughest group.

Wellington has shown brilliantly at times, particularly in the 27-6 shellacking they gave the McLean Tigers about a month ago. This was by a wider margin than the Irish beat the Tiger crew. Wellington also held mighty Memphis to a 13-13 tie, losing on penetrations.

Doyle Ingram, Rocket back, is one of the better ball carriers in the 2-A loop, but the Rockets also have the Woods — Tommy and Seldon, good linemen and ends and a capable, balanced backfield.

After the Wellington set - to, the Irish will have a two-week rest before seeking a victory over the Phillips crew. They will need it, because several of the regulars — Don Lea, fullback, Dwayne Hager, tackle, Joe Douglas, tackle — and others have suffered painful injuries.

After some 30 years of operation, the National Hockey League finally has undertaken a program to develop competent officials. And chief referee Carl Vos points out that none of the five full-time men on this season's staff are former professional players.

National League Names Jethroe Rookie of Year

NEW YORK — (AP) — Sam Jethroe, fleet-footed centerfielder of the Boston Braves, reigned today as the National League's Rookie of the Year.

The speedy Negro flycatcher, who once outraced Olympic sprinter Barney Ewell, drew 11 of the 23 first place votes cast by a committee of the Baseball Writers Association. One writer failed to vote.

Second place went to young Bob Miller, snappy right-hander of the Philadelphia Phillies. Miller, who won eight straight games for the Phils before losing, polled five votes, one more than Pittsburgh's classy shortstop, Danny O'Connell.

Jethroe promised the home folk he'd hit .300. He failed by 27 points. But the people of East St. Louis have long since forgotten that promise. Jethroe has made up for it in many, many other ways.

For one, his 35 stolen bases led the league. And he pounded out 159 hits, 18 homers and drove across 58 runs. So his 273 batting average doesn't look too bad, after all.

SHINING ARMOR Aluminum paint is a mixture of finely divided aluminum particles, in flake form, which are combined with such a vehicle as thin varnish. Metallic flake paints are highly resistant to moisture and also aid in sealing in stains which might otherwise "bleed" into subsequent coats of paint of different color.

THE PIG HIP

Gridiron Wolves Force Cherry Out

AUSTIN — (AP) — The University of Texas is in the market for a new head football coach—the tenth since it became a member of the Southwest Conference in 1915. Blair Cherry, headman of the Longhorns for four seasons, will retire to the oil business when the current campaign runs its course.

Cherry said yesterday he would resign. He will become associated with his brother, Alton Cherry, of Dallas, who said he had been trying for five years to induce Blair to give up coaching.

But business reasons were not the sole factor in Cherry's retirement. He has tired of the gridiron wolves who have been after his scalp because he hasn't won a conference championship.

This year, however, he seems on the way to that title. Texas is the only undefeated team in the conference race with three games to go—Baylor at Waco tomorrow, then Texas Christian and Texas A&M.

Vernon Schuhardt, chairman of the University Athletic Council, said his group would have to now start thinking of a successor to Cherry. "We'll schedule a meeting just as soon as it seems desirable," he announced.

First names to enter conjecture were those of Ed Price, Texas line coach, and Eck Curtis, Longhorn backfield coach.

Cherry has three more years on his contract after this. He

Marusic Is Leading in Savannah Open

SAVANNAH, Ga. — (AP) — Milton Marusic of Alabama, N. Y., led the field in the \$10,000 Savannah Open Golf tournament today after er slamming out an opening round 64, eight under par.

Marusic was four strokes up on his nearest competitor—Bob Gajda of Detroit, Doug Ford of Briarcliff, N. Y., and Tommy Bolt of Durham, N. C. The three carded 68's.

Guerillas Play Yannigans Here
The powerful Amarillo Yannigans will invade Harvester Park at 2:30 this afternoon to engage the Pampa Guerrillas in a prelude to a big Pampa-Amarillo football weekend.

Amarillo has Pampa one game down. The Horace Mann eleven stopped the Reapers, 20-19, in an upset Thursday.

The Guerrillas are on a three-game winning streak, but they'll have to be at their best to stop the Yannigan crew. Amarillo has won six and lost one this season. The lone loss was administered by Canadian, 7-0.

The Vote Speaks For Itself

The fact that the total votes cast in the local congressional race established new records means something. Throughout the nation the voters went to the polls and voted for Truman and his administration how they felt by voting in a batch of new Republicans, and soundly sweeping to victory Mr. Republican, Robert A. Taft of Ohio, over the protests of Truman and the unions and the anti-communists they ran against Taft.

The Record

Just what is the matter with American medicine? Judging by those who are directing the bus and cry in favor of compulsory government health insurance — which is a polite term for political domination of the healing arts — medicine has woefully failed its obligation to the American people.

Washington.....by Peter Edson

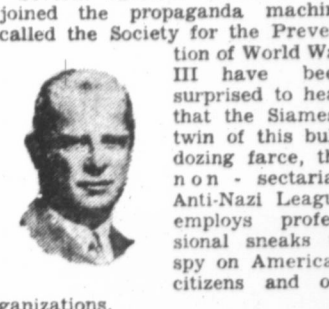

By PETER EDSON. NEA Washington Correspondent. WASHINGTON — (NEA) — The government's huge grain storage program is something that could stand a good fishy-eye inspection.

The Nation's Press

TO FEAR AND FEAR NOT

The last world-wide epidemic of influenza or "flu" occurred in 1917-1918 at the end of World War I. It caused more than half a million deaths in the United States alone, and millions more in other parts of the world. There was some reason to believe that it might appear again in a similar manner during World War II, but through luck rather than medical skill the world was spared at least for the time being.

Food Changes Mostly Down

By The Associated Press
Changes in retail food prices were mostly downward this week, but the reductions were small to make much impression on the family budget. Eggs were down two to five cents a dozen in most places as prices increased seasonally. Several nationally distributed brands of coffee were reduced to three cents a pound by processors who said they were paying less for green coffee. Beef items eased as much as a cent a pound in some large marketing areas. Several porks declined a few cents here there but the overall trend was about steady following last week's mark-downs.

Lamb and veal were mostly unchanged. Drying and broiling chickens edged one to four cents a pound lower in highly competitive chain stores and were headlined on the Agriculture Department's most-pleasurful foods list for this week, and marketing administration reported that about 50 percent more lightweight chickens will be available in retail poultry markets this month than during last November. Fresh produce items lower-priced in most places this week included Florida oranges, grapefruit, California grapes, pears, from Washington, Oregon and California; spinach, onions cranberries, cauliflower and artichokes.

U.S. Hotels Lose To Towel-Takers

NEW YORK — (AP) — Taking towels from hotels may be a joke to the taker but not to the hostelry owner. No matter what you pay for the room, if you take a towel, the hotel loses money on the transaction, reports owners. Most hotels pay \$2.50 per towel. The Hotel Edison here recently took an informal survey to discover if towel-taking was predominant among residents of any one section of the U.S. Owner Irvin Kramer reports that it can't be traced to any one part, but that "people from all over do it mostly for a gag. These same people wouldn't ever dream of sticking their hand in my pocket when I wasn't looking and taking out \$2.50," he moans.

JACOBY ON BRIDGE Little Cards Can Do Big Damage

By OSWALD JACOBY
Written for NEA Service
Can you imagine anything more worthless than West's four low hearts in today's hand? Keep your eye on those worthless cards and see what an important role they played. West opened the eight of clubs, East played the ten, and South won with the queen. Declarer considered going after the hearts at once but feared that the opponents would manage to get a heart, a spade, two diamonds, and a club before he could gather in nine tricks. At the second trick, therefore, South led a low diamond. West hopped up with his king at once to lead his remaining club. East

traced two tricks with the ace of spades and the last club. Now see what would have happened if West had carelessly discarded a couple of low hearts early in the hand. South would have been able to read the situation accurately at the end. He would have gone up with the ace of hearts, dropping the queen on the next trick. LEFT WITH POST ROCK ISLAND, Ill. — (AP) — Without a hitch in their plans, undiscovered thieves made away with a 100-pound antique hitch-post from the yard of Fred H. Mills' home in Rock Island.

Investigation of Custom Agent Set

SAN FRANCISCO — (AP) — Investigation of the activities of William J. Harmon, supervising customs agent at El Paso, has been ordered by Federal Judge Michael J. Roche. Judge Roche directed that the results of the probe be turned over to the grand jury as he closed a hearing Wednesday on a motion to dismiss narcotics charges against Yee Sing and Yee Fong, both of San Francisco. Judge Roche took the motion under advisement and continued the case until Dec. 11. Principal feature of the hearing has been Harmon's testimony that he and Francisco Yee, a Juarez, Mexico narcotics dealer, shipped opium to California to trap narcotics peddlers. He has asked that an investigation be undertaken at the conclusion of the hearing. Judge Roche, terming some of

the testimony "shocking in the extreme," concurred and ordered it undertaken by "the proper federal agency." Read The News Classified Ads

won with the club ace and returned the seven of clubs, but South correctly finessed the nine, holding the trick. A low heart was discarded from dummy on the third round of clubs. What did West discard on the third club? Certainly not one of those precious but microscopic hearts. West knew he wasn't going to need all five of his spades, so he discarded one of those. South led another low diamond, keeping the ace in his hand to retain an entry. East won with the jack of diamonds and returned another club. South winning with the king. West once more discarded a low spade, and dummy once more discarded a low heart. Now South laid down the ace of diamonds, and West for the third time discarded a low spade in order to preserve the four smallest hearts in the deck. When South followed with the ten and nine of diamonds, West discarded a fourth low spade and, finally, the deuce of hearts. East discarded the eight of spades and the seven of hearts. Dummy, naturally, parted with the deuce and queen of spades. At this point there were only four cards in each hand. Declarer knew that East held the ace of spades and the last club, hence at most two hearts. It would do him no good to lead a spade, for East would take the ace and then cash the club for the setting trick. South had to decide how to play the hearts to win three tricks. He realized that East might have unguarded the queen. Against that was the fact that East did not need the queen of hearts for an opening bid and that West had avoided a heart discard until the very last moment. Why had West so carefully saved his hearts? South naturally came to the conclusion that West had the queen of hearts, and he therefore tried the finesse of dummy's jack. That allowed East to win with the queen and set the con-

Calvary Baptist WMS Meets for Business Meeting, Luncheon

Mrs. Graham Reeves was in charge of the program at a meeting of the Women's Missionary Society of the Calvary Baptist Church Wednesday. The meeting included a luncheon and Royal Service program. There were 14 members and three visitors present.

Participating in the program were Mrs. J. M. Hill, Mrs. Henry Stephens, Mrs. Truett Stovall, Mrs. Andrew Fisher and Mrs. Floyd Haught.

Plans made at the business session included the purchase of six pairs of pajamas to be sent to the Buckner Orphans' Home and weekly visitation on Tuesday mornings in the interest of the WMS.

A pink and blue shower was given in the educational building of Calvary Baptist Church honoring Mrs. H. C. Blackshear.

Hostesses were Mrs. Frank Slaten, Mrs. Vera Fisher and Mrs. Andrew Fisher.

A yellow carnation corsage was presented to the honoree, and a yellow and blue color scheme was carried out in table coverings and flower arrangements. Mrs. Truett Stovall played lullabies as the guests arrived.

Refreshments were served to 14 women and two children. Gifts were sent by several who could not attend.

PAMPA NEWS, FRIDAY, NOVEMBER 10, 1950 PAGE 11

McCullough Methodist Still Has Four of Its Charter Members

In 1934, the First Methodist Church helped to organize two missions.

Mrs. Sam McCullough was the financial sponsor of what is now the McCullough Methodist Church, located at 1810 Alcock. The Rev. Lance Webb was the pastor for both the churches, which met every other Sunday. There were about 35 or 40 charter members of the mission.

Among these charter members were Mrs. E. N. Franklin, Mrs. Goldie McDaniels and Mr. and Mrs. Kit Autrey, and they still attend services at the McCullough church.

The Rev. E. H. Martin is the present minister of the church. Membership totals 331 and average Sunday School attendance is about 100. Carl Lam is the Sunday School superintendent and Mrs. E. H. Martin, music director.

Rev. Martin came to Pampa in 1947. Since he has been here, there have been 147 new members brought into the church. The pastor's salary and the benevolences have doubled.

C. E. Costner is chairman of the official board, which also includes Kit Autrey, B. B. Pettit, T. J. Rogers, Roy Jordan, W. R. Cullison, Carl Emerson, Chester Andrews, B. T. Clemens and L. M. Davis, treasurer.

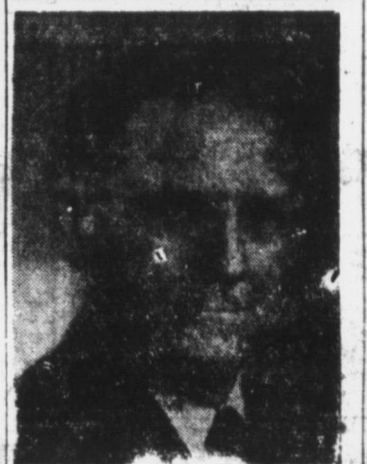

WMU Circles Hold Regular Sessions

All First Baptist Women's Missionary Union Circles held a joint meeting in the church parlor for the regular monthly session.

The executive board met at 1:30 p.m. with the vice president, Mrs. L. W. McGlothlin, presiding in the absence of the president.

The business meeting opened with prayer by Mrs. R. W. Stucker. The mission program was presented by the Blanche Groves Circle, with Mrs. George Vineyard in charge. Theme of the program was "Is There a Doctor in the House."

The program opened with a song, followed by the devotional by Mrs. F. E. Leech. Assisting with the program were Mrs. Bob Triplehorn, Mrs. Lee Moore, Mrs. D. A. Caldwell and Mrs. T. J. Worrell. There were 32 women attending.

PASTOR

Class, Mrs. Martin and Mrs. T. J. Rogers are overseers of this department. The Sunday School has a total of nine elected teachers.

The Women's Society of Christian Service is headed by Mrs. W. B. Cox. Nina Roberson is secretary and Mrs. Mary Taylor, vice president. This group meets each Wednesday afternoon at 2:30.

Rev. and Mrs. Martin have two sons, Deon, a ministerial student at McMurry College, and Ray, a junior in Pampa High School.

Rev. Martin completed his ministerial studies at Southern Methodist University in Dallas last summer. He is a native of Tennessee.

Methodist WSCS District Meeting Here November 20

Mrs. F. W. Shotwell announced that the district meeting of the Methodist Women's Society of Christian Service will be held in Pampa on Nov. 21 at a meeting of the Wesleyan Service Guild Monday night. The meeting was in the First Methodist Church parlor, and had as hostesses Mrs. Diamia Wood and Mrs. J. M. Turner.

Miss Inez Clubb, president, was in charge of the business session and appointed Mrs. Betty Wright to serve as the Guild representative on the WSCS executive board.

A devotional on "Duty" was given by Miss Lillian Mullmax and included the song "I Need Thee Every Hour" and a prayer. Mrs. Quentin Williams led the second lesson in the book, "We Seek Him Together."

Mrs. Wood and Mrs. Mildred Hill were also on the program. The hostesses served refreshments to the 17 members and guests present.

The next meeting will be in the church parlor on Nov. 20 with Mrs. Mildred Hill as hostess.

Though a man has all other perfections and wants discretion, he will be of no real consequence in the world. —Addison

CHRISTIAN SCIENCE

"Mortals and Immortals" is the subject of the Lesson - Sermon which will be read in all Churches of Christ, Scientist, on Sunday, November 12.

The Golden Text is: "As is the earthy, such are they also."

that are earthy; and as is the heavenly, such are they also that are heavenly" (I Corinthians 15:48).
The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Mortal man is the antipode of immortal man in origin, in existence, and in his relation to God" (page 219).

Examinations Set By Civil Service

The United States Civil Service Commission today announced an examination to fill social worker positions, which are located in hospitals and regional offices of the Veterans Administration in Washington, D. C., throughout the United States and Puerto Rico.

Full information and application forms may be secured from the commission's local secretary, C. W. Stowell at the postoffice.

Foxes appear to be a chief means of transmitting rabies, according to the Encyclopedia Britannica.

Nationalist China Wonders Where It Fits in the Puzzle

By DEWITT MACKENZIE
AP Foreign Affairs Analyst

What with all the debate about how to handle the warring Chinese Communists, it isn't surprising that Generalissimo Chiang Kai-Shek's Nationalist forces are wondering how they fit into the picture — if at all.

Chiang has some half million fighting men with him on the island. They are waiting for the day when fortune will give them a chance to invade the mainland and, with the guerrilla forces there, retake the country from the Reds. The way things stand, the "Gimo" has given his word to America not to attack the mainland, and as a quid pro quo the U. S. Seventh Fleet is preventing the Chinese Communists from invading Formosa.

The Nationalist premier recently stated there were 1,900,000 guerrillas on the mainland, pre-

Q. and A. You and Service

By DOUGLAS LARSEN
NEA Staff Correspondent

WASHINGTON — (NEA) — Q. My son enlisted in the Marines. Since then his father has become an invalid. Can I apply for an allotment? From whom?

A. Your son has to ask for an allotment for you.

Q. My husband was in the Navy as an enlisted man. When he got out he claims he did not sign up for any reserves. Is he in the reserves anyway, and subject to call?

A. No. No. A thousand times no.

Q. My son is in the reserves. But he is working his way through school as a boiler tender. I am deaf and not well. Will they take him?

A. If your son is a full-time student of some college or university he might get deferred from a call on that ground. Your health does not have much to do with the case.

Q. My son has terrible vision, chronic asthma and is very nervous. He joined the National Guard against my wishes and I was able to get him out. Will this keep him out of the draft?

A. In spite of the terrible state of health which you claim for your son, he seems to have been healthy enough to have gotten in the Guard. There's a good chance the Army would take him, too.

Q. My husband got a notice that he would be called to active duty in a few weeks. He quit his job but he has not yet been called and three months have gone by. Nobody else will hire him, knowing that he will be leaving soon. What can he do about it? They say his papers are being processed and he will be in soon.

Q. It's too bad but there isn't anything he can do about it. He just quit his job too soon.

Q. I know that they aren't sending dependents to the Pacific. Can I fly to Japan on my own to be with my husband who was just sent there?

A. Yes.

Neat round inner tube patches may be cut by merely following the edge of a coin with a knife.

Commies Sell Vienna Homes; Keeping Cash

VIENNA — (AP) — House-hungry Vienna is gaining something from communism. The real estate market in the Austrian capital has suddenly taken a turn for the better. Scores of houses and offices whose owners live in nearby Communist Hungary are being offered for sale.

Vienna newspapers report that Hungarian owners have been forced to turn over their rights to the Communist government, and the government now is selling all the property—and keeping the cash.

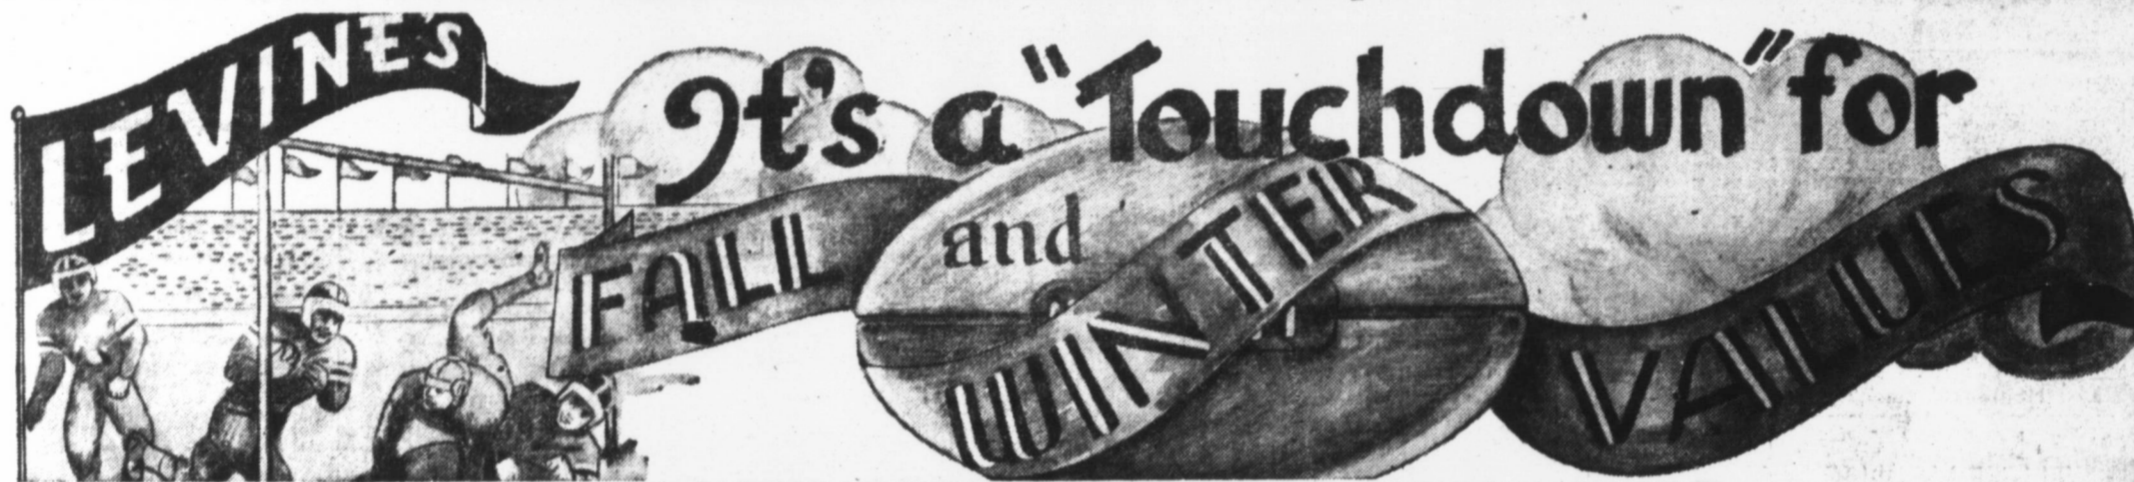

To The Voters of The 18th Congressional Dist.

It is with deep humility that I, my wife and children express our heartfelt appreciation to you for your efforts and support in the November elections.

Let us all work together for a greater Panhandle, a greater Texas and a greater America.

Sincerely
WALTER ROGERS
