Common Ground

"Pioneers of American Freedom'

I have just been reading a new book called "Pioneers of American oduction cided that there could not be anyone translator says about him: "Not since de Tocqueville, I dare say, and not even by his most import-ant work, Democracy in America, American Broad-casting is the propaganda spout they had learned anything new and not even by his most import-ant work, Democracy in America, has anyone, native or foreign, had such insight of America. For the general viewpoint, the first and final chapters are illuminating and tory from the beginning to the

present. The book is divided into two parts—the first part is under the heading of "American Radicals". Under American liberals he lists

. In the first chapter under Thomas Paine, the author quotes the Declaration of Independence and then follows it by saying:

"Upon this foundation, derived from Locke, was developed that concept of society so typical of liberalism which in doctrine reduced the authority of the state to a minimum. (We are discussing liberal-Therefore, "Author Meets the Critics" invited "some necessarial and a wondered objectives of many so-called liberal parties which have all too often flinneeds. The less this organic relation is disturbed by external influences the freer and happier will become the life of the individua!, -and this was for liberalism the measure of all things. Society creates her own equilibrium. Every mechanistic regulation hampers personal initiative and responsibility and endangers the natural bond that living together in society puts around mankind. Therefore, the state should be entrusted particularly with two tasks: 1. To protect within the community against permitted under any circumstances to interfere with the intellectual. religious and private lives of men. or to subject them to one common

Then he comments on "Common Sense" by 'Inomas Paine, government has departed so far from what the founding fathers and economically. intended it to be and since even now it is more tyrannical and arbitrary in many ways than it was under the British king that brought on the Revolution, I reproduce his quotations from the first two paragraphs of "Common Sense" which is applicable today:

"Some writers have so confoundnereas they are not ing our affections, the latter negathe other creates distinctions. The

Society in every state is a blessin its worst state an intolerable one; for when we suffer, or are exposed to the same miseries by a government which we might expect in a country without government our calamity is heightened by reflecting that we furnish the means by which we suffer. Government, like dress, is the badge of lost innocence: the palaces of kings essary to surrender up a part of his property to furnish means for the protection of the rest; and this he is induced to do by the same prudence which in every other case advises him out of two evils to WASHINGTON - (NEA) - committee will be depriving Sen- able to me, I know absolutely of choose the least. Grass Argument

By GORDON MALLATIN It's the time of year when men decide they'd better plant some grass, and they ponder over how to give their yard a lot of class. But the amateurs will quickly find the pros and cons are not agreed, on the kind of lawn that ordinary gardeners should seed. There are chaps who say that bluegrass is the best in all the land, and some others vow muda gets the greenest, lushest stand. Now the man who plugs for bluegrass says its

beauty is supreme, and that any other kind of grass is just an ugly dream. He's the one who gets the jitters when a butercup appears, and the thought of drouth will always serve to magthe man who grows bermuda laughs and says he never frets, at the chump who likes his bluegrass is the only one who sweats. Still another guy says clover is the only thing to use, and a mix-

ture of them all will cause some others to enthuse. So a fellow never knows the type of grass that he should plant, after hearing all the experts on the grasses rave and rant. And he thinks perhaps the way best improve the grassy scene, is to pave the yard with concrete which can then be painted green.

great many people have nervous breakdowns because they have

years, or may be ounded on guilt because he fears his success overshadows someone else such as a father or an older brother.

Such failure attitudes usually have veen instilled into us when we were children by unsuspecting teachers, parents, older children, When we displayed whatever talents we might have had, too often we were "squelched" by older chil-dren, ridiculed or laughed at by adults. Gradually we began to feel that the natural expression of our native talent and ability brought only ridicule and pain.

'We were "shamed" out of whatever native ability we might have had. We came to regard ourselves in an inferior role.

And once we accepted ourselves as inferior—then we would feel downright uncomfortable trying to live up to any other role. This concept of ourselves is the golden key that determines whether we have the success type personality or failure type personality. We can throw off the old infantile concept if we will only realize that while there was a big difference between us and adults-when we were children—this great gulf no longer exists.

College Revenue Loss Warning Is Issued

ies

The six flood control dams would be located as follows: 1. Bosque River, near Waco; 2. Proctor Dam, on the Leon River in Comanche County; 3. Youngsport Dam, near Belton, on the Lampasas River in Bell County; 4. San Gabriel, in the Lanesport aréa in Williamson County; 5. Ferguson Dam, near Bryan on the Navasota River; 6. Yegua Creek, near Somerville in Burleson County.

No cost estimates were immediately available.

The report is to be submitted to Congress, said Poage, with a notation from the president's budg-et bureau that it has no objection to submission of the document, but is against any appropriation of funds at this time for the proposed works. Poage observed that Congress

first must authorize the projects before they can be in line for appropriation of construction The report is based on a resolu-

tion adopted by Congress in 1937 asking for a comprehensive study of the entire Brazos River water shed to determine what projects would be advisable in the public

PLANS VS. FANCY

The opponents of the suggested school improvement program are hunting new ground for their stand. When confronted with FACTS AND FIGURES, their latest, is a new proposal, made by their spokesman in Radio Forum, Sunday afternoon, to build entirely new elementary schools, add assembly rooms to the four now operating, make repairs to heating and plumbing, increase to \$150,000 or \$160,000 the appropriation for the Negro school. The amazing thing is the statement that THEY can do all that for less cost than the program which the school board is submitting in the ELEC-TION OF SATURDAY, MARCH 18TH. Also remarkable, is THEIR statement that, if the present proposal is defeated, they will have another election ready in THIRTY DAYS, covering the elementary school situation as outlined. NO AU-THORITIES ARE QUOTED. The spokesman simply says, "I KNOW what I am talking about."

SIMPLE ARITHMETIC and good judgment may be applied:

Under the PROGRAM Submitted to Election

24 CLASSROOMS: Divided between BAKER, HORACE MANN, WOODROW WIL-SON, SAM HOUSTON, 4 Assembly rooms, one at each school. Enlarge Sam Houston Cafeteria.

Replace Heating and Plumbing Add REST ROMS & FOUNTAINS to existing Schools. Furniture and Equipment. Architects Estimate \$750,000.00

CARVER SCHOOL: 10 Room Brick Veneered School building ample to take care of the scholastics in this area (92 average attendance). GYMNASIUM-AUDITORIUM with sufficient capacity for their numbers. Furnished and Equipped to provide an accredited

High School. Architects Estimate 90,000.00 **BUS BARN AND SHOP:** First estimates on this Item were Further investigation of steel construction indicated this could

COMBINATION VOCATIONAL-EDUCATIONAL PHYSICAL-EDUCATION BOYS' GYMNASIUM: With 2,000 seating capacity, making possible a badly needed Vocational and Physical Education Program for the 1,000 students in our High School.

be reduced by half or more.

TOTAL ESTIMATE \$1,250,000.00

Recent Proposal by Opposition

TWO new 12 room schools. SIX Assembly Rooms.
TWO Additional Offices. TWO New Cafeterias. At Least one New Location for Site. ENLARGE SAM HOUSTON CAFETERIA (not mentioned). REPLACE HEATING & PLUMBING. ADD REST ROOMS & FOUNTAINS to existing schools. Furniture and Equipment.

An increase of approximately 75% in the total for this item.

BUS BARN AND SHOP: No particular difference in this Estimate.

No specific discussion or criticism of this part of the program was had. Certain of the opposition have said they heartily approved it. So we may assume, for the present, it is acceptable.

Frankly, it is hard to Estimate the Cost of this new proposal, for no definite-information is back of it. Conversation, guessing and Confusion isn't enough. But to carry through on the grandiose scale suggested would probably necessitate an issue of \$2,000,000.00, an impossible figure under our Tax Limit.

May we emphasize that the Estimates used by the School Board were made by a firm of Architects, with wide experience in the construction of some of the best buildings in this section. Inspection of other Schools, months of study and planning were necessary to arrive at the program they offer you, YOU CAN DEPEND ON THEM.

According to the Architects, to build ONE new School with Assembly rooms added to each of the present schools, and with the addition of six Class Rooms at Baker and also Sam Houston, with necessary renovation, will cost \$90,000.00 to \$100,000.00 more than the proposal made. But TWO new schools, SIX Assembly rooms, TWO new Cafeterias, TWO new Offices, NEW sites etc! He didn't think about making an Estimate for that!

TO SAY NOTHING OF THE ADDED ADMINISTRATIVE EXPENSE (PRINCIPALS, JANITORS, CAFETERIA OPER-ATORS) AT LEAST \$15,000 PER YEAR FOR TWO SCHOOLS.

That, also, leaves many questions to answer. For instance:

What will the sixth grade do? How can they attend the school closest to them? What about Baker School's two classes of fifth-graders that are crowded out, at present? Where will they go? Why more building at Carver School than needed at the present time?

You don't need a sharp pencil to see that this OPPOSITION PROPOSAL IS IMPOSSIBLE, IMPRACTICAL, DISCRIM-INATORY, and could not be followed without a substantial increase in the tax limit.

Intuition, guesswork, thirty-day preparation have no place in the handling of the taxpayer's dollar, nor in the welfare of the school children of our community.

Consider the FACT that a representative group of your fellow Citizens, Tax-Payers, Parents, Patrons of our Schools for years have given much time, effort and study to this problem, when others were doing nothing about it; and, it was worked out with the School Board.

Any School Building Program must be handled by your School Board. Are they not honest and experienced men? Won't invitations to bid on construction, involve the contractors in any program adopted, by Competitive Bids? HOW COULD ANYONE SERIOUSLY HOLD THAT SO MUCH MORE CAN BE HAD FOR SO MUCH LESS?

Do not be misled by the tactics of OBSTRUCTIONISTS whose real purpose is the prevention of any OVER-ALL SCHOOL PROGRAM.

In a test of streagth with the Interscholastic League, which next winter will sponsor girls basketball, the High School Girls League has more than 300 members lined up for 1951, McKamie said.

McKamie sent out application blanks to his members after the Interscholastic League had mailed out membership cards for its proposed girls organization.

There were 394 schools in McKamie's league this year and he says thus far reports show that only three of those schools will not participate in the present girls league next year.

"A number of superintendents have even suggested that the independent league also sponsor boys' basketball," McKamie said.

WHAT ABOUT YOUR CONGRESSMAN?

TO ALL THE PEOPLE OF THE 18TH CONGRESSIONAL DISTRICT

Here Is a Common Sense PLATFORM!

BOWLEGS: All the bowed legs in Texas are not on cowboys. A good many arched shanks are on persons who straddle political fences.

THE PLATFORM OF E. T. BURK, a candidate in the special election and the Democratic Primary for Congress, is different, and if you don't believe it, read on. If you want common-sense in government

E. T. BURK is a successful Amarillo businessman. For year, he operated the Amarillo Furniture Company and made many, many friends. He is a long-time Panhandle resident, a Methodist, an ordinary hard-working citizen.

E. T. BURK does not need the congressional office as a means fo making a living. He is not rich, but he has worked hard and saved his money. He does not seek a political career. He is paying all costs of his campaign for congress and is not shackled by any individual or group. Everybody can depend on him.

COMMON SENSE-Briefly, E. T. Burk's platform is COMMON SENSE in Government.

PEACE—Without international peace, nothing else counts. E. T. Burk pledges himself to work unceasingly for the promotion of peace. He is willing to devote the rest of his life to it. He believes strongly in preparedness and adequate national defense. He believes in a common-sense approach to the promotion of international understanding.

FARM PROBLEM—Agriculture is basic. It produces our food and fiber. E. T. Burk believes that the Congress should pass constructive, sound legislation to be administered by farmers.

LABOR—Common sense, fairness, understanding can do more than political maneuvering to bring industrial peace. Split legislation is bad.

GENERAL WELFARE—Everything a member of Congress does should be weighted carefully to determine whether it promotes the general welfare.

IN GENERAL—E. T. Burk is a Democrat of long standing. He believes in economic operation of government and in keeping down taxes. He believes in private enterprise. He wants the government close to the people, intimate, warm. He believes in good public schools and adquate pay for teachers, but always with administration in local hands.

DO YOU WANT common-sense in government? Do you want a congressman who is not seeking a paycheck or a political career? Do you want a congressman who is paying the freight and is not pledged to represent just a few but every citizen of the

50,000 Miles - No Wear!

7. Proved by Punishing Road Test! For 70 days, six brand-new cars roared over searing highways along the Mexican border . . . putting sensational new Conoco Super Motor Oil to one of the cruelest tests ever devised. After 50,000 miles of continuous driving, engines showed no wear of any consequence . . . in fact, an average of less than one one-thousandth of an inch on cylinders and crankshafts. Original factory polishing marks were still visible on piston rings!

Z. New-Car Mileage! Test engineers were astounded at the remarkable record of economy. Gasoline mileage for the last 5,000 miles of the run was as good as for the first 5,000 miles . . . actually there was an average difference for the fleet of only 4/100 of a mile per gallon. This punishing test . . . equal to 5 years' normal mileage . . . proved that Conoco Super Motor Oil-with proper crankcase drains and regular care—can keep your new car new.

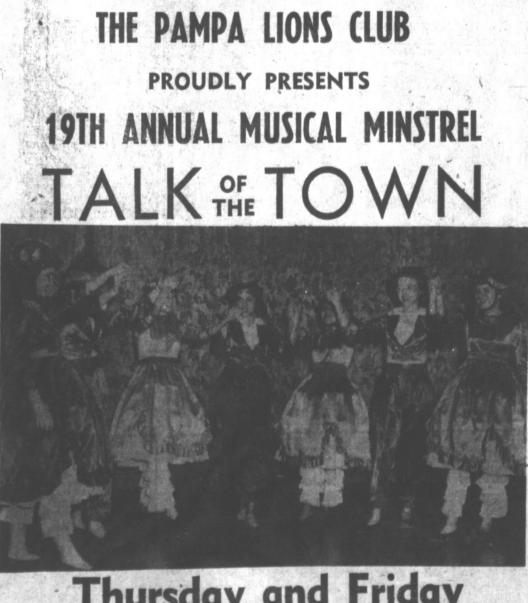

3. New-Car Power! Quicker Starts! Yes-Conoco Super Motor Oil's extra protection keeps that factory flash . . . that showroom smoothness . . . year after year! Conoco Super Motor Oil OIL-PLATES metal surfaces to make your engine last longer, perform better, use less gasoline and oil! Conoco Super Motor Oil virtually stops wear before it starts . . . keeps your engine

proved to be the great new modern wear-fighter!

EDWARD LEE BURCH

We wish to express our sincere appreciation to our many friends and neighbors for their acts of kindness extended us at the time of our grief, in the loss of our husband, father, son and brother, Edward Lee Burch.

We especially wish to thank Rev. Douglas Carver and members of First Baptist Church, Student body and teachers of Horace Mann and Jr. High School, Knights of Pythias Lodge and the Pythian Sisters. For the prayers, consoling words spoken to us, the beautiful sympathy shown in floral offerings, We are indeed grateful.

Mrs. Mary K. Burch and children EDWARD LEE BURCH Mrs. Mary K. Burch and children Mr. R. E. Burch Mr. Raymond Burch Mr. Eugene Burch

THE STORK: After Assles Palmer found her wealthy father with his skull crushed by a deak telephone in his library, police learn that her fance, the sculptor Paul Moody, had been in disfavor with the murder victim. Detective Pete Kelso also has found witnesses who saw Moody virtually forcing his way into the Palmer home a short time before the murder was discovered.

VIK . THE detective Pete Kelso grew amiable now. He asked the woman who had seen Paul Moody phoned his chief and told what visit the Palmer residence: "Did Kelso had learned. He strength-

out of the house again?"

"No, I didn't," the woman regretted. "I admit I was interested; but the telephone rang just then, and it was a friend of mine, and she's one of those gabbers—if you she's one of those gabbers—if you what I mean. She just ran along with him to pick up any the trouble of the clever enough to find a way to send the SID fingerpi t man along with him to pick up any the clever enough to find a way to get around. That's the trouble

"I know just what you mean," said Kelso. "Your name and address, please!" When he had recorded them, he again addressed his little public:

"Did anybody see this man Moody come out of the house?" of obscurity. They would have been glad and proud of even such when Dorton and Fleming revers' skill and watchfulness. The

Kelso hurried into the house, new assignment. sought out Detective Dorton, and told him of the recognition of Paul Moody by a number of people it a day. When he returned from himself failed to appear. Then he suggested that, in view of telephoning to his own chief, re- In fact, Stivers was already con-Moody's known quarrel with the porting what he had gleaned, and vinced he would find evidence of dead man, he ought to be looked asking permission to go on to Moody's flight as well as of his into before he could make a get- Moody's studio, he swept a last crime.

know what I mean. She just ran on and ON! When she finished finally, I had to go and lay down, if you."

"I know just what you mean,"

"I know just what y chief had been able to approve any build it so that a burglar can get of Kelso's actions, that it gave him into it, too, while nobody is pleasure to say:

There was a general murmur of negation and a shaking of regretful heads. The lives of most of the little throng were so drab and dull that they did not know their luck, did not value the happiness ing we never catch anybody. Step burly laugh of ridicule and some

NYLON TULLE, fragile looking yet sturdy and long wearing is shown in an exquisite ball gown by Kivinette, sequin and jewel

PICTURESQUE, historic,

scenic wall paper adds color and

warmth to gracious living. It

also helps create a luxurious at-

How many times have you wished that your living room wa two feet wider, your hallway a little larger and if only wall space in the bedroom was not so broken up?

nicon the man of sale

Unfortunately, the average Mrs. Homemaker cannot change sub-stantially the architecture of her apartment or home. But she can esort to decorating tips to minimize, her problems.

The use of wall paper is one of the easiest, most attractive and least expensive ways to alter your home. The proper wall paper can turn these defects in even the most difficult room into deccrating assets.

Most everyone has a hallway, but not all of us are lucky enough to have one large enough to accommodate ftuniture. That's n reason to fret. A scenic wall paper here will give dignity and poise to this small area as well as creating the illusion of added space. Smart strived papers in multed colors will also achieve

the same effect.

Because the rooms are small lighter tones and small patterns are best; they give a feeling of spaciousness and expanse. For an unusual effect, wall paper the hall area and three living room walls with a small geometric design, and on one of the end walls hang a colorful splashy floral.

Strangely enough, a room that-is too big can present a decorating headache too. Wall papers in deep, warm colors with bold de-signs done on a grand scale, will inject a feeling of warmth and cosiness to the largest room. The darker hues and heavier patte have a tendency to bring walls together.

Wall paper plays a very impo ant role in the decoration of your dining room, no matter what size, Since the main pieces of furniture in the room wood, it may very easily be cold and univiting. Often the chairs provide the only source of color. Therefore, timidity has no place n influencing the choice of wall overings for this room. Even though the area may be small, the wall paper should be dramatic

Multitude of Weaves Now on Market For Fabric Buyers

Spring 1950. Whether you sew them your self or buy your fashions ready-to-don, fabrics are awaiting you in the widest, brightest array in

years.
This Spring, predicts Abbot
Kimball's Fashion Newsletter,
will introduce a multitude of
weaves. Either new or put to

See scintillating fabric texture

in the rustic and reversible faces

on woolens, in the dimensional crepe weaves, on soft, very lightweight woolens, sheen and supply tricotines and pile fabrics.

Take heed of texture in the weave-conscious, surface-conscious cottons, the new piques, the three - dimensionally satin striped and satin-checked cham-brays. And let texture reflect in

its most exciting manner in everything you wear. This Spring, cues the News-letter, watch for the important return of many fabrics. Watch for the supple, soft crepes in rayon and pure silk. Watch for paper thin silk taffetas, chiffons, georgettes, in textured honan shantungs. And be at your loveliest in any one of these feminine-themed fabrics.

This Spring, take special note of the sheer fabric. Make note of the sheerness in newly lightweight woolens, in diaphanous cottons, silks and rayons, in Nylon. And note it in the many Spring's woolens and worsteds fibers combined to new fabrics, in your favorite Fabrics Depart-cotton and worsted, worsted and ment are as varied and interest-silk, in rayon and Nylon. Easter Harade of Vall

Check and double check, and what do you find? You find checks everywhere this Spring of

And with these checks, you discover colors that move in sharpness, brightness, in pastel tonality, clear and muted, that vary with the fabric.

For gay variation, Abbott Kimball's Fashion Newsletter reports the prominence of prints on white and light grounds, and newer yet, on eggshell and raffia grounds. Prints will abound with spaced patterns that create a third dimension, with patterns that are often Persian and Oriental in inspiration. And how are these checks, col-

ors and prints used? Your dresses are checked. Your suits are checked. Your coats are A SMART FABRIC in lined check gives fashion appeal to this handsome suit. It is made checked. Checks have tattersall effects on white grounds, as in "Tic-Tac" by Juilliard. They appear in "Checkerboard" checks, shepherd checks, small checks, large checks. Checks are bold. Checks are light. There are windowpane checks, district checks, houndstooth checks. Even fleece is

So lovely and harmonious are the colors of this Spring, that Juilliard has named their 1950 colors "Touchtones." In this beautifully musical group are reflections of the colors you will see and wear through Spring and Summer.

Spring breaks into print with stop-the-press motifs. In silk, nylon, cotton and rayon there are bolts filled with bright ideas. Colors are pinks, yellows, blues, both strong and subtle; light ground prints, tone-on-t on e

Delving into archives has proand charming "Southern Lady" by Verney; Seventh Century Egyptian tapestry prints by Bur-lington Mills. More genii prints spirited from Bagdad is the sorcery of Hafner. City scene sketches and abstract "blot" prints lend a sophisticated whimsy to Spring.

Printed sheers as gay as a butterfly's wing are featured by the yard and on the rack this

Rayon sheers are presented in the brilliant colors usually as-sociated with silk shantung. Such colors as electric blue, shocking pink and onion skin orange give an illusion of body to the delicate fabric. Other budget sheers appear expensive in dramatic brush stroke abstracts or detalied ink sketches. For those who prefer chiffon-type prints, there are pretty pastel flowers, dainty spaced geometrics and tiny precise checks.

Cellophane-crisp organdies with frosty etchings are favored for little girls' ice cream party dressed cuffs give a touch of fem-ininity to these gloves. Of suede and hand sewn.

Plain Light Bulb Saves Pig Litters

DES MOINES (A) - Researchers of the Iowa-Agriculture Experiment Station at Iowa State College say an ordinary 100-watt light bulb can prevent the loss of many early pigs during the cirtical first two weeks. The light bulb in a corner brooder, or an infra-red heat lamp, will help provide a warm, dry area for the litter to lie down and sleep. These lamps also will keep pigs from crowding the sow too close for heat.

BUDGET FURNITURE

Elegance with just the right amount of "dash" highlights the theme of men's hats for Spring

Whether it's new Spring shades, or the "weight-of-air" felt, or bright new colorful bands, you're looking for, you'll find all three features prominent in great amount this Spring, when you go to select your hat wardrobe.

Perhaps never before in the entire history of modern-day apparel have men's hats been designed to complement so well the cheerfulness of their "favorite" lady's" Spring wardrobe.

However, with all this, hat manufacturers have still kept in mind the prime interest of every male, COMFORT. Most notably in this aspect of the new Spring headwear is the introduction of narrow silk sweatbands, replacing

the leather ones. Some manufacturers have given their hats such names as "Free Weight," "Air Weight," etc., and rightfully so, because your new headpiece, in some instances will feel as though it really is light

as a cloud. Light shades of blue, grey and brown predominate the color scene, with such descriptive titles as "Totem Brown," "Lagoon," "Flaxen," "Sky Grey," "Silver Belly," "Fawn," and even a light yellow shade called appropriately, "Sunkist." To highlight these new shades, are bright, very wide bands. A new treatment along these lines, is a two-tone twisted band, about one and a half times as wide as your present hatband. Another Spring innovation is the introduction of brightly colordecided to become comfortable as past.

with a "brushed" or "hairy" fashions.

NYLON blended with worsted and mohair is being offered for men's wear this Spring.

Men Steal Fashion Spotlight;

Men's hats this Spring are And when he suffered the unbeatable."

But men's style habits are hard

to change, and the average Amer ican drifted back into his hardshell, hide-bound ways all over again. Not till last year was the first big dent made in his Summer clothing tastes. Today, the trend is overwhelmingly toward the light and comfortable.

During this 1950 season most of the menswear manufacturers will feature distinctively different, sheer dress shirtings. Fabrics that you'll hear a lot about come sunny skies are batiste, batiste madras, voile, skip dent, leno weave, lawn, scrim and handkerchief, These new fabrics have combined with style changes to revolution-

ize warm weather shirts for men. example, the semi sport model, which is a complete chapter of the shirt story in itself. At the office a man can now wear his semi-sport shirt buttoned and complete with tie. After hours he can wear the same shirt with the button open, with lightweight slacks and jac ket. Wearing a semi-sport, it'll be a matter of minutes for the 1950 business man to convert to the model of a man of leisure,

cool and handsomely garbed. After dark, the liberated man of 1950 will climb into really airconditioned pajamas. Crinkle crepes (sometimes known as seer sucker); ultrasheer cloth as light as a cigarette ash, called whispersheer; a number of brand-new rayon waves, all have been put to work in creating a variety of sleepwear that's tops in warm weather comfort. A Cockade print of modern designs is used as a drapery treatment in a contemporary room setting. The design is squares and circles, worked out in a brush stroke technique.

Movies and Magazines Cast Spell Over the Average American Home

The influence of various home tional groupings, and swivels. The magazines, movies with settings importance of television has ranging from the typical home to the lush mansions of the millionaires, has made home-makers more aware of their surroundings, given them hints on how to beautify their homes, and, finally, created a consumer demand for quality and beauty in home furnishings at prices within the average budget.

Shoppers now know what they sleeping.

Shoppers now know what they want, both in furniture styles and coverings, and, what's more, refuse to buy until they get it!

Sleeping.

It is perhaps paradoxical that even though more and more homemakers are doing their own plan-They have provided a challenge ning and decorating, interior deco-to manufacturers which has been rators continue to play an imadmirably met by a wider selec- portant role. ion of furnishings for 1950 than as heretofore been offered. Every period is well represented, and designers have outdone themselves Furniture Functional in presenting fabrics and coverings in every conceivable shade And Fashionable and pattern.

Perhaps the most outstanding highlight of the new furniture keynote of modern living. For showings is the Oriental influence. In furniture design, rugs, fabrics, lamps and bric-a-brac, the graceful lines and outstanding binations to suit every room, every colorings of the Orient contribute taste, every budget!

colorings of the Orient contribute forcibly to the American scene. Blending equally well with both modern and period furniture, the Oriental motif will be with us for many years to come.

Noteworthy among the new Spring showings are more canopy beds in the American and French Provincial groups; and more conversational-type occasional tables, sofas and chairs of Cape Cod influence.

Lydia Sprenger and H. R. Lummus Marry: Ceremony Read in California

nouncement has been made of the marriage of Miss Lydia Mrs. Sims Talks Sprenger of Glendale, Calif., daughter of Mr. and Mrs. John H. Sprenger of Denhoff, N. D., and H. Sprenger of Dennoit, N. D., and
Harold Ray Lummus, of Glendale,
Calif., son of the Rev. and Mrs.
James Lummus of Dumas, who
Mrs. Pinky Sims discussed are former Shamrock residents.

are former Shamrock residents.

Wedding vows were exchanged March 4, in the Chapel of Roses, Pasadena, Calif., with the Rev. Elliott Robinson, pastor of the First Baptist Church of Glendale, officiating. The nuptial space was decorated with white gladioli, white stock, palms and fern. Stanley Marsh, soloist, sang "Ah, Sweet Mystery of Life," "Because," and the Lord's Prayer. He was accompanied by Ethel Woolley, organist.

Mrs. Pinky Sims discussed "Homes in Other Countries" at a meeting of the Twentieth Century Allegro in the home of Mrs. Bill. Davis.

She told of socialist England and of how socialism is killing the pride of the English people. She also spoke of nationalist France and said that France is supporting a nation of parasites.

Mrs. Sims obtained her material on Germany from a German war bride in Pampa, Mrs. Jack Studebaker. She told of the invasion

KELLERVILLE — (Special) — KELLERVILLE — (Special)
Dicky Sligar, son of Mr. and Mrs. Margaret D'Spain, daughter

Perhaps this is out of your line but I can dream anyway— In another year or two my old-est child will probably be gone or married—I have four children and we have never had a vacation truly. We all love the beach and I

Don't you suppose somewhere there is someone who could furn-ish some sort of housing for us for the summer and let us work it out? I would be willing to do maid service or anything that would allow me some free time with my children. The boy does nice yard work and the oldest girl would like to get some fountain or waitress work. She has not worked except at child care as yet. I am also a good typiet but I'm nearly 40 and look it.

Hopefully E, W. B.

Dear Mrs. E. W. B. If you are so willing to work for summer at the beach I am sure that you will manage it. If I were you I would watch the housework adds which begin to appear in the spring for there are al-ways many people seeking help for the holidays at the beach. When one seems to meet with your requirements answer it and surely you will find the right place.

There nearly always are many sort areas, and I am sure that you son could find plenty of yard work

. Why not do a little planning ahead now and start a fund for a beach vacation. Get yourselves a bank and put in it any income from extra duties...such as 'the boy's yard work or the girl's baby sit-ting. You add what you can get for typing (Incidentally there is much typing to be done at home if you are interested) or for doing housework a few mornings a week. It might be easier to do it at home and save the money than to try to do it while you are on your vaca-

You'll be astonished at how much you can accumulate by summer

WEDDING ANNIVERSARIES Dear Mrs. Friend:

Will you tell me what the 56th edding anniversary is. My paients will celebrate theirs next month and I want to have the right theme for the party I am planning. The last I know is the 50th which is golden.

Mrs. J.

Dear Mrs. J. Wedding anniversaries are nam ed for each year to the 20th and then they are named every five years. The 25th is silver; the 30th, diamond: the 35th jade: the ruby; the 45th, sapphire; the 50th, olden; the 55th, emerald; the 60th diamond jubilee.

The above is the list, printed in the World Almanac for 1950.

SHEER WOOL is molded into a two-piece ensemble in this ver-

Comfortable Clothes

Are Choice of Men

Comfortable clothes that permit a man to "relax on all occasions" are the man's choice for Spring,

1950, according to the nation's fashion experts. Men have been demanding more

casual styling and color freedom in their clothes during the last couple of years and now they're really getting a full share of Yellow pants, maroon shirts

and even burgundy tweed sports jackets are among the many choices offered the male when he wishes to indulge his color fancy for Spring.

The Wool Bureau reports that new fabric ideas for men's we'r show a greater variety than for the past couple of seasons. New woolens and worsted fabrics favor all-over designs which contain more color and permit a wider choice of complementary acces-

Gabardine weaves continue strong with new effects in sheens iridescents and venetians. Shark-skins, glen plands, windowpane and houndstooth checks are still with us but their distinct pat-terns have been softened to give them a new look.

Business suit patterns feature everal new ideas and show a definite departure from traditional designs. Changes have been made in suit construction to give men the most possible comfort. Canvas coat fronts, shoulder padding and linings have all been reduced to a minimum in size and weight.

Single - breasted suits seem slated for new gains in popularity. And they'll be preferred in ant-ural shoulder styles.

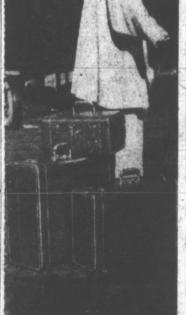

In sports jackets, shetland and shetland type wool fabrics are predominant. More models are cut in the three-button style and the majority have center-rear vents. Set-in flap pockets are first choice in the East. Patch pockets lead in the Middle and Vest Coast areas.

Leisure-time outfits combine the ultimate in comfort and practicality in easy-fitting light-weight all wool jackets, slacks and sports shirts. Stripped down in weight to make them more com-fortable than ever before, ,these outfits also attain a new lift in design through the use of the newer, brighter colors.

Sports shirts are expertly signed and tailored to suit the man who wants smart style as well as comfort in his sports wear. Because of the wide range of lighweight wool fabrics and color selections, plus being washable, sports shirts will have even more appeal in Spring, 1950.

Top coats are also being made Flaming red, Kelly green, rust, fortable" fabrics and styles.

a gleaming solitaire aquamarine. your shoulder blades.

Men, Watch for Collar Fit When Buying Shirt

Few things can be more annoying than a too-tight shirt collar. Perfect collar fit is also necessary if the shirt is to look its best. So, the next time you shop for shirts, watch out for that collar! And be sure, too, that the points lie flat and are equal in length. Don't forget, either, that the comfortable fit of a shirt is a prime requisite for happy wearing. To achieve absolutely proper fit, the yoke seams across the back should curve slightly down- of red, white and blue not ward. This takes up the stretch your shoulder muscles. What makes the jacket of your two-piece is the ideal oval, you can adopt a fairly extreme hair do successfully. Because you waves across the forehead. Avoid extremes in length. Wear your face is the ideal oval, you can adopt a fairly extreme hair do successfully. Because you waves across the forehead. Avoid the price of soft waves are curl in a soft fluff at the sides of the face.

If your face is the ideal oval, you can adopt a fairly extreme hair do successfully. Because you hair involves change-overs from the price of soft waves across the forehead. Avoid the price of soft waves across

in rayon blended fabrics that are as fresh and new as the season itself.

Springtime is print-time, by tradition and by popular choice, And this year brings an endless parade of bright young rayon and solids, in styles that are a traditional navy ground, or against the muted greys, belges and browns that are fashion favorites for Spring 1950.

You'll find these prints on a wide assortment of rayon fabrics, from smooth crepes to or is p taffetas to the sheerest of sheers, for rayon falses unusually good color with clear, well defined ones.

CHECKS EVERYWHERE

Tayon combines with nylon to form a fabric that's noted for gas helded for a print fine as the form a fabric that's noted for gas fabric that's noted for gas fabric that's noted for gas itself.

What makes the jacket of your favories ensemble depends entirely upon your own tastes and figure needs. For, this Spring figure needs, For, this Spring the illusion of length. Avoid bangs, because held the depends entirely upon your own tastes and figure needs, For, this Spring the illusion of length in they upon your hair close to your face creating the illusion of length. Avoid bangs, because held they can be briefest of boleros to the most elegant of fitted redingotes a coverup for your favorite print or solid-tone "every octated redingotes as a coverup for your favorite print or solid-tone "every octated redingotes as a coverup for your favorite print or solid-tone "every octated redingotes as a coverup for your favorite print or solid-tone "every octated redingotes as a coverup for your favorite print or solid-tone "every octated redingotes as a coverup for your favorite print or solid-tone "every octated redingotes as a coverup for your favorite print or solid-tone "every octated redingotes as a coverup for your favorite print or solid-tone "every octated redingotes as a coverup for your favorite print or solid-tone "every octated redingotes as a coverup for your favor Suiting fabrics are interesting this Spring, too, especially, the all-rayon, worsted-type fabrics that are being used in well-made, fully-lined, yet budget priced suits. The handsome fabric in these suits is made for long lighten in color than average and spring suits is made for long lighten in color than average and spring suits. red faille redingote provides chic topping for a bare-sleeved

priced suits. The handsome fabric in these suits is made for long wear and comfort, as well as good styling.

And on the subject of styling just one look at rayon suits will convince you that this is a big year for checks, from tiny flecked effects to big, bold, semi-plaids. Hound's-tooth checks, shepherd checks, clan checks, all the old favorites are here in abundance, looking new and smart in Spring-time shades of blue, rose, lavender and green. Stripes, plaids and solids are also popular, but the really "big" fashion in suitings this Spring is checks!

With Summer and Spring suits lighter in color than ever before, the new middle-shade ties a re designed as a two-way threat, to set the suits off to their greatest and verenable the neckpiece to lead a life of its own.

Big, brash bold patterns have lost none of their fashion sting, says the Men's Tie Foundation, but they'll be considerably more restrained, with smaller and nity atomic bomb bursts and bird's eye views of the siege of Bastogne, on ties, are gone.

Teen Footwear Is Like Mother's

Young teenagers will love Spring fashions designed for their crowded schedules which pack in everything from square roots to square dances.

Simplicity in design is the keynote this season: good, clean, youthful lines are dramatized by exciting dress fabrics in high fashion colors. Natural shoulders, dol-man sleeves, pleated or full skirts, collars and cuffs are a few of the features of the new dresses. The National Shoe Institute reports that shoes for the young teen age miss follow the trends for women. Strap treatments are popular in dress shoes. Straps around the ankle, across the instep and multiple strippings lend a delicate airy effect.

Pumps in the ballet pattern, with bows on the toes have wide open or neatly closed backs. Dressy flats are back as skirts become shorter; wedges will be popular with deep cut vamps and "V" throats

Patent leather will be as good in this age group as it will be for women; white, blue, red and green will be in popular demand for dress occasions.
BUCKLES AND STRAPS

For suits, shoes are low heeled spectator pumps, ghillie ties, strap types with welts, plain closed or valled toes. Crepe soles on multiple strap patterns. Loafers in colors with straps and buckles. Cherry wine, turf tan and red will complement the blues and browns which will be the first choices in the suit field. Elk finished leathers will prove a smart accessory for Spring suits. Playtime shoes have the gay straps girls love, center buckles, winding climbing straps, and the strip sandal winding climbing straps. Woven vamps on loaf-ers, the boot for school and square dancing, and the strip sandal are exciting additions to a young girl's shoe bag.

Why Not Take Spring Purse Cleaning

It's an established fact that the average woman's handbag weighs between ten and fifteen pounds. That's a lot of weight to carry around.

Check through the contents of your bag and see if you aren't toting at least five pounds worth of clutter. If you are, get rid of it. You can't keep a neat purse under such conditions. What to do about it?

There are billfolds with card compartments, and change purses, some with matching address book and pencil, others with key compartment or checkbook space. There are address and memo book combinations; key cases, loose leaf reminders and pocket secretaries and cigarette cases.

Bicycles Escape Law on Vehicles

DIJON - (AP) - When Claude Jacquemin, farm laborer, rode his bicycle home without a red rear light he really started some-thing. The policeman, who whistled at him in vain, hailed him into court as being in control of a vehicle which failed to stop. The magistrate, ruling that 'a bicycle is not a vehicle because it has no axle," released him.

The public prosectutor appealed against the decision and quemin found himself in the Appeal Court here, listening A FORWARD-MOVING elliptical sailor of pearly mauve straw is trimmed with a cluster of satin bows. a vehicle.
