

FOUR HARVESTERS PUT ON HOSPITAL LIST IN BONE-CRUSHING SCRIMMAGE

New Orleans Beats Bucs Four Out Of 6 Games To Capture Dixie Pennant

HER ELKINS AND MUMFORD OUT OF GAME

ANOTHER SCRIMMAGE IS TO BE HELD THIS AFTERNOON

A hard scrimmage yesterday afternoon at four harvesters on a hospital list but did not injure coaches' minds about another tough scrimmage this afternoon.

Two first string substitutes were the other casualties reported. Raymond Elkins, fleet little halfback, twisted an ankle and Lester Stephenson, end again hurt his old shoulder injury.

The Fort Worth attack is in the hands of Marion Pugh, 170-pound fullback who passes, punts and carries the ball equally well.

The Steers will arrive in Pampa early Friday morning, coming here by bus from Clarendon.

Officials for the game will be Bill Honey, (TCU) referee; Eddie Sain, (TCU) headlinesman; C. Turner (Baylor), umpire.

Tommy Cochran is Medalist in Dallas Tourney

DALLAS, Oct. 3 (AP)—First and second round matches were scheduled today in the tenth annual Dallas Country Club invitation tournament in which several of Texas' finest shot-makers are competing.

MAJOR CLUBS TAKE 8 MINOR LEAGUES ACES

LEROY HERMANN ADDED TO CINCINNATI REDS' STAFF

DETROIT, Oct. 3 (AP)—Major league baseball teams had a fair start today on the job of building up their clubs for next year's pennant race.

The Reds also drafted Henry Erickson of Louisville, who rapped the ball for a .264 average.

Vernon George Washington, who batted .367 for Indianapolis, was called in the draft by the White Sox.

Maple Leafs to Resume Series in Red Birds' Park

TORONTO, Oct. 3 (AP)—Organized baseball had departed from Toronto for the season today and with it went most of the Maple Leafs' hopes of winning the little world series.

SPECULATORS PRICE SEATS AT \$50 EACH

FRISCH HAS TROUBLE IN SELECTING

BY EDWARD J. NEIL, Associated Press Sports Writer. DETROIT, Oct. 3 (AP)—The roar of the faithful, still tingling over the greatest major league finish in years, died today in the hush before the break of the annual world series storm—the crash of the leveling Missouri twister from St. Louis the husky bulwarks of the Detroit Tigers.

It was the literal meeting of an irresistible Cardinal force that shattered the fading world champion Giants and the rest of the National league in one short final month.

Only two main problems remained for solution before game time at 12:30 p. m. (Central Standard Time).

This was the question of leading with his pitching ace, Jerome Herman (Dizzy) Dean, despite the fantastic Oklahoma right hander's lack of rest since shutting out Cincinnati twice in three days.

Cecil Smith Weds Old Family Scion

WADING RIVER, N. Y., Oct. 3 (AP)—Cecil Smith, one of the three ten-goal men of American polo, and Miss Mary Mulford Miller of Wading River, were married yesterday.

Arthur used a gilt hold to break, which made Mr. Mackie mad. The Irish-American roughed things for a while and drop-kicked Arthur into submission in eight minutes.

DEMO TACKET IN NOVEMBER TO LIST REDS

Four Parties Will Appear On Ballot, Including a Full Communist Slate

AUSTIN, Oct. 3 (AP)—The ballot to be used in the general election in Texas November 6 will list four parties with candidates: democratic, republican, socialist, and communist.

One of the last to get his name on the ballot was Alired, who, like all the other democratic nominees, is conceded election.

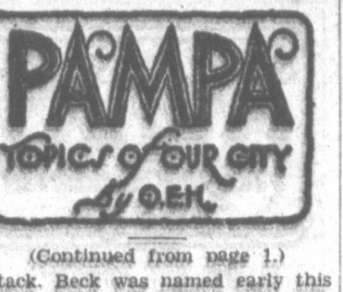

Secretary of State Heath certified names of all candidates to be elected by state-wide vote to the county election boards.

Democratic—James V. Allred of Wichita Falls; republican—D. E. Waggoner of Dallas; socialist—Geo. Chilton Edwards of Dallas; communist—Enoch Hardaway of Breckenridge.

Democratic—George H. Sheppard of Austin; republican—John W. Miller of Tyler; socialist—J. M. Jewell of Waco; communist—Raymond Bland of Breckenridge.

Democratic—John H. Sharp of Waxahatchie; republican—Tri F. Kennedy of Houston; socialist—Guy L. Smith of Port Lavaca.

Democratic—W. C. Morrow of Hillsboro; republican—S. E. Fish of Amarillo; socialist—Thomas B. Burns of Fort Worth.

THE LATE B. E. Finley, a good friend of The NEWS, often called attention of members of the staff to things of interest to us.

A hen is not supposed to have Much common sense or tact. Yet every time she lays an egg She cackles forth the fact.

The peacock spreads his tail and squawks. Pigs squeal and robins sing. And even serpents know enough To hiss before they sting.

MORAL—He who hesitates is lost.

Another reader suggested that many friends of Harley Sadler, the showman, did not know that his new tent was made of burlap.

What the railroads mean to the American people was well expressed in a recent statement by J. J. County of the Pennsylvania system.

Every person benefits when railroads prosper—every person feels the ill effects when they are depressed.

Blanton of Abilene; eighteenth, Marvin Jones of Amarillo; nineteenth, George Mahon of Colorado City; twentieth, Maury Maverick of San Antonio; twenty-first, Charles South of Coleman.

GALVESTON IS 5 TO 4 LOSER IN FINAL TILT

RAGGED GAME IS SEEN BY ONLY 1,217 OF FAITHFUL

NEW ORLEANS, Oct. 3 (AP)—New Orleans closed another successful baseball season here yesterday with the Southern Association and Dixie series pennants stuffed away in mothballs for flapsle flutterings next year.

The final contest was played in anything but championship caliber, however. The tilt was riddled with simple fielding errors, and wild pitching.

Denny Galehouse, young right-handed speed-baller, hit and tossed the Birds into the pennant as he did last year against San Antonio in the finale.

Other bright spots were some sappy fielding by Roy Hughes and Berger, at short and second, respectively.

WESTOVER MAY LEAD ARMY AIR BOMBERS CORPS

Foulois Is Shorn of Much Power in Shakeup

WASHINGTON, Oct. 3 (AP)—Brigadier General Oscar Westover was mentioned today as a possible choice to lead the army's air fighters under the direct command of General Douglas MacArthur, chief of the general staff.

Westover's name figured prominently in the aftermath of a drastic reorganization in which the office of chief of the air corps, now held by Major General Benjamin D. Foulois, was shorn of much of its power.

Foulois has been the target for many attacks by congressional critics who demanded that he be summarily dismissed. But it was said that the reorganization, announced late yesterday, was under consideration before the storm of controversy began to beat about Foulois' head.

The aim of the shakeup is declared as swifter mobilization of the aerial battlers in time of war. Besides transferring the command of the air corps from Foulois to MacArthur, the orders included 600 combat planes into a new fighting unit.

Stationed at flying fields all across the country, it would be ready to dash quickly to any part of the country's sky frontier. The officer in charge of this force, under MacArthur, will be stationed at Langley field, Va.

Foulois' only comment on the reorganization was: "This follows the contemplated plan. I have no comment to make."

Wild cotton is being exterminated because it harbors several insect pests dangerous to the commercial variety.

Dafoe's Dream Realized; Quintuplets Have Own Hospital

RE-DEAL OF NEW DEAL IMMINENT BELIEVES UNIVERSITY PROFESSOR

AUSTIN, Oct. 3 (AP)—An opportune time now exists for a re-deal of the "new deal," in the opinion of Dr. F. A. Buechel of the University of Texas bureau of business research.

In an analysis of business conditions and prospects, the business statistician said:

"During the last 10 days there has been a growing undercurrent of conviction that important changes in the dominant philosophy underlying the new deal are impending and soon will be announced.

"The same ultimate objective, that of promoting human welfare, will, of course, remain, but the methods of attaining this goal are expected to undergo fundamental modifications.

"The present would be an opportune time to introduce a new policy which would tend to hearten in-

dustrial leadership and ameliorate the class conflict between management and labor which has been raging for the past several months.

"Seasonal pick up in business normally begins at this time of the year, and it is probable that this year a rise of greater than average proportions could be developed since consumption in recent months is believed to have outstripped production and thus has tended to reduce stocks on hand.

"Improvement in the capital goods industries and building construction must first develop before it becomes certain that the long-awaited upward trend in business is definitely under way.

Because of previous disappointments and numerous false starts, these activities may be relatively slow in gaining momentum."

Dr. Buechel preceded his deductions with a summary of opinions of leading economists, all critical of the effects of the new deal. He quoted from Col. Leonard P. Ayres: "Economic principles tell how people have acted throughout recorded history when trying to protect or advance their material interests. Sound economic principles conform to the lessons of that history."

He quoted from Premier Mussolini's new paper, *Popolo D' Italia*, an editorial asserting President Roosevelt has failed to accomplish objectives of four principles he set up. "It is probable that the statements of Col. Ayres will be cast aside by the 'liberals' as a natural

Dedication ceremonies for the Dafoe hospital for the Dionne quintuplets, only one of its kind in the world, attracted a throng to the little town of Corbeil, Ont., and hundreds took advantage of the only chance they will be given to inspect the building, equipped with every modern device to safeguard the health of the famed infants. Here is shown a portion of the crowd entering the hospital, following the dedication program, at which Dr. Dafoe, the quintuplets' physician, and Canadian officials spoke. Many visitors from distant cities mingled with the townspeople as the institution was opened.

expression from one who is connected with a great financial institution," observed Dr. Buechel. "But similar indications of concern regarding the trend of public opinion and of economic and political events from men who until recently, at least, have been classed as 'liberals' can not so lightly be discarded."

Cobb Parts and Equipment Shop Is Opened Here

Supplies for the Cobb Parts and Equipment company which is opening at 114 South Frost street in the old Cullum & Son location are arriving and being placed in stock. The new business is owned and operated by J. D. Cobb.

A complete stock of factory duplicates and genuine replacement parts will be carried for all models and makes of automobiles and trucks.

Such lines as Perfect circle rings, Thompson products, United Motors service supplies, Borg-Warner gears and axles, DuPont paints, etc. will be featured.

Equipment is being installed to do electro plating on pistons which eliminates "stickiness" and reduces friction while allowing a closer fit. A cam grinding piston machine is also being installed.

Although the place is open for business now, announcement of a formal opening will be made within a few days when all of the supplies arrive.

5,000 Visitors Are Expected at Silver Jubilee

CANYON, Oct. 3.—In order to take care of the huge numbers of visitors expected for the Silver Jubilee, the West Texas State Teachers college is canvassing the town of Canyon, and has made arrangements for many rooms in Amarillo.

At least 5,000 visitors are expected for October 19 and 20, the anniversary celebration days, if the weather is fair. Professor L. F. Sheffy of the history department is chairman of the arrangements committee and Dr. Harris M. Cook head of the

HONEST THIEF!

NEW ORLEANS (AP)—An honest man has been found among those who steal bottles of milk from doorsteps.

Someone stole a quart of milk from Mrs. Charles H. Pescay's doorstep last week. Days later she found this note with a dime enclosed besides the missing bottle: "Here 10c for the bottle of milk I drank a while back. Sorry I did it but I was hungry. May God keep you all in health as I'm a follower of him. Amen."

"Why bless his soul," said Mrs. Pescay, "he didn't need to leave me that ten cents."

Unfavorable natural conditions were estimated to have caused a reduction of 23,000 tons in California's wine-grape crop this year, leaving the production at 443,000 tons.

JONES TO SEEK MONEY AID AT NEXT CONGRESS

Cattlemen in Capital Conferring With Solons

WASHINGTON, Oct. 3 (AP)—The next congress may be asked to aid the drought-hit cattle industry by cattlemen and their representatives in the house who now are seeking government purchase of 2,500,000 additional head by the farm administration.

Chairman Jones (D-Tex.) of the house agriculture committee, told reporters he "hoped" the administration would be able to find sufficient funds to continue cattle buying "on the scale needed without the necessity for action by congress."

While the Texan declined to amplify the statement, it was interpreted as notice that he would go before the house for more money, and for direct authorization for continuing the program, if the farm administration could not or would not provide the relief sought for the length of time cattlemen contend it is needed.

"The cattlemen are justifiably frantic," Jones said, adding: "There is no grass in important grazing sections of Texas, Oklahoma, Kansas and New Mexico, and the same situation is reported to obtain in parts of the northwest. Men are having to pay \$45 a ton for concentrated feeds and they say that simply cannot carry such a burden. Good cattle are going to die on the range unless something is done to take care of them."

Cattle raisers representatives who are here, asking that 2,500,000 head be bought above the number to be taken from the range in quotas expiring October 13 include F. E. McMillin of the American National Livestock Association, E. B. Spiller of the Texas and Southwestern Cattle Raisers Association, J. Taylor, Grover Hill and Julian Bivins, all leaders of the industry in the Texas Panhandle region.

They arranged renewed discussions with Chester Davis, AAA administrator.

It became known after their first conference yesterday that the administration has decided to extend indefinitely the purchase campaign provided officials are convinced their movement to provide feed for all drought areas will not be sufficient to assure against stock losses.

Direct government purchase of feed has not been ordered yet, but such a step may be taken if a current survey indicates it is necessary.

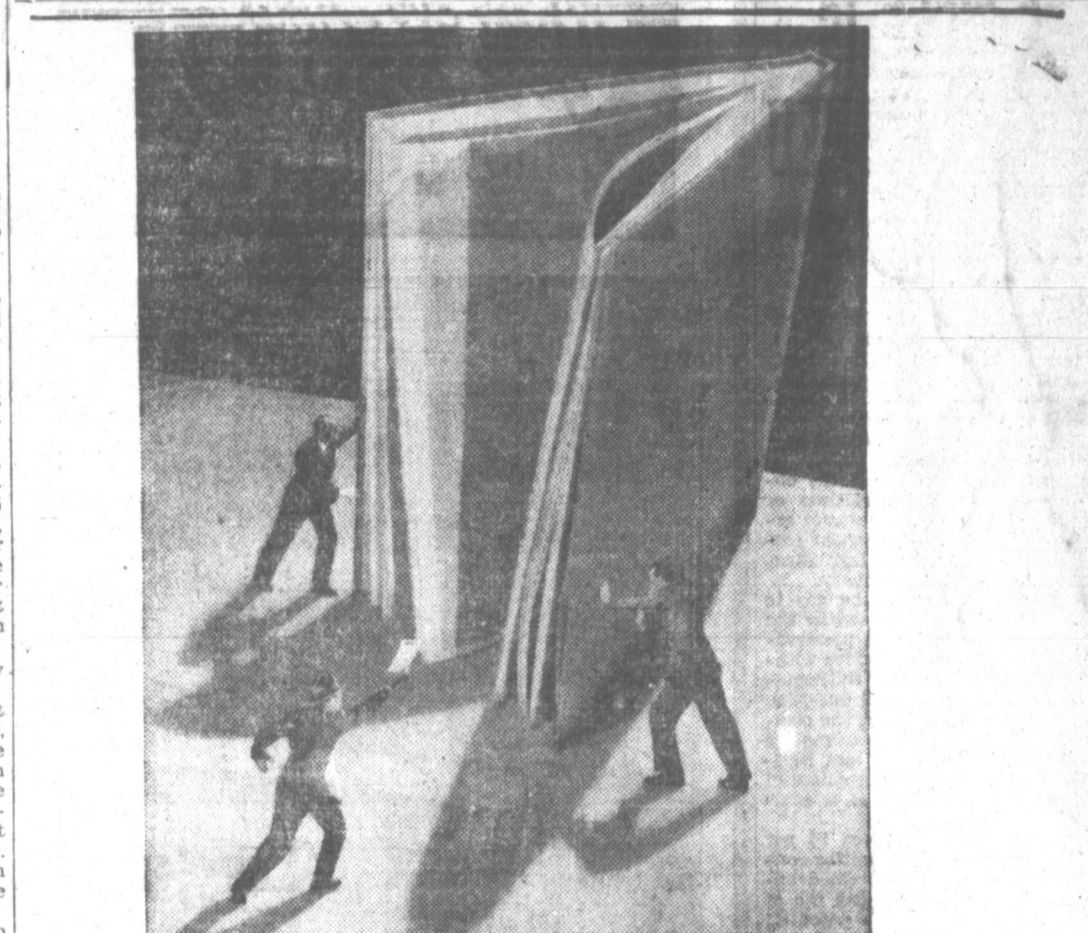

The world's production of diamonds in 1933 was approximately 3,775,000 carats, worth about \$14,100,000.

SOVIET HORSES GET A SIX-DAY WEEK

OMSK, Siberia (AP)—All horses in western Siberia are to enjoy a day of complete rest once a week hereafter. The communist party committee of this area has instituted a horse protection campaign and

decreed that beast as well as man shall have one free day in seven. Dobbins must also have two hours of rest each workday and at least six hours of undisturbed sleep. Sunbaths are to be provided for all horses during the hot months. No hostler is to care for more than 10 horses on state and collective farms.

Animals less than four and one-half years old are to be spared hard work. The eastern shoreline of Great Salt Lake has receded three miles and the level of the lake is 29 inches below the record low mark set in December, 1905.

YOU CAN BUY NEW LAMPS . . . BUT NOT NEW EYES

Children never think about their eyes. Unconsciously, they abuse them. Any lighting, good or bad, suits them as long as they can possibly see. They don't know the difference. They expect you, the parents, to know. You must accept the responsibility for protecting their eyes during early life, especially while their eyes are still growing.

Check the lighting in your home right now. You, as well as your child, will benefit from the safety and convenience of proper lighting.

Try the new Lamps which you will find at your dealers—you will find them best for reading and close visual work.

Light walls and ceilings help too. A little paint will work wonders.

And don't forget your own eyes. Give them enough light to keep them comfortable . . . Eyes are your most precious possession—protect them.

LEGISLATURE IS DUE TO ACT ON PANHANDLE GAS SITUATION

DISSIPATION OF FIELD IS THREATENED

ASK RECOMMENDATIONS BE ADOPTED IN JANUARY

AUSTIN, Oct. 3 (AP)—Dissipation of the world's largest gas field in the Texas Panhandle in five years, or preservation of the natural resource over a period of 75 years, was a question put before the Texas legislature by a senate investigating committee.

Legislation to accomplish the objectives of 10 recommendations of the committee likely will attract extensive attention at the regular session of the forty-fourth legislature, which convenes next January.

Restriction of use of the gas to light and fuel was suggested by the committee as a means of preservation. To obtain that objective without financially destroying independent operators who control one-fifth of the gas bearing acreage, the committee recommended laws to require ratable taking of gas "to meet legitimate demands," and allocation of markets among owners of a common pool.

Pipe line companies own 80 per cent of the field, the committee concluded. Independents obtained enactment of a law permitting use of one-fourth of each well's potential flow for other than light and fuel purposes on the plea pipe lines would not share the market, thus bottling them up.

Concise statistics on the magnitude of the field were assembled in the committee's preliminary report. It is 125 miles in length and from five to 40 miles wide through Wheeler, Gray, Carson, Hutchinson, Potter, Hartley, and Moore counties. It stretches across the Texas Panhandle from the Oklahoma boundary on the east to the New Mexico state line on the west.

Productive territory embraces 1,450,000 acres, of which 982,324 acres are capable of producing sweet gas and the remainder sour gas, which contains hydrogen sulphide rendering it unfit for light and fuel usage.

Originally the reservoir contained 20 trillion cubic feet of gas, of which four trillion have been withdrawn. Daily open flow capacity of all gas wells was estimated at 17,500,000,000 cubic feet, while daily production was estimated at 1,700,000,000 feet, nearly 1,000,000 feet of which the committee charged "is blown into the air each day."

Oil comes from many of the 2,820 wells in the field. The daily potential oil production was estimated at 165,574 barrels, but under proration it is restricted to 56,800 barrels.

Forty gasoline extraction plants have a daily capacity of 1,810,000,000 cubic feet and are connected to 338 gas wells and 1,217 oil wells. The gas content averages about one gallon of gasoline to each 3,000 cubic feet.

Nineteen pipe lines transport approximately 400,000,000 feet daily to Colorado, Nebraska, Iowa, Illinois, Missouri, and other states and to Texas cities and towns.

Carbon black plants in the field totaled 25 and had an estimated daily capacity of 592,000,000 cubic feet and a daily consumption of 443,485,000 feet.

Gas used for stripping yielded 60,076 tons per 1,000 cubic feet, the controller estimated, while the income from gas used for carbon black "was one-eighth of one cent additional to that which was stripped and then blown into the air."

The average price for gas used for light and fuel purposes was placed at two cents per 1,000 feet.

3 Army Airmen Fall to Death In California

MARCH FIELD, Calif., Oct. 3 (AP)—Treachorous mountain air currents which caused the crash of their giant bombing plane to collapse were blamed today for the deaths of three army aviators in the rugged mountain country near Bishop, Calif. A fourth man escaped death when he jumped with his parachute.

The dead: Capt. Robert E. Self, 39, commander of the 11th Bombardment Squadron. A graduate of the Army photography school at Langley Field, Va., he was a world war pilot. His home is listed as Worcester, Mass. He leaves a widow and two children.

Second Lieutenant Clifford L. Huffman, 25, Fort Collins, Colo. He was a 1932 graduate of the air school at Kelly Field, Texas. His widow lives at Riverside, Calif.

Private Leroy Hitchcock, 21, Bak-ersfield, Calif. He was trained at Chanute Field, Ill.

The lone survivor, cadet Fay W. Olmsted, Santa Barbara, Calif., bailed out of the disabled plane and landed near the edge of a cliff, barely escaping gliding over it.

The ship crashed yesterday afternoon during a massed practice flight of the 20 planes to the Yosemite valley region.

Seventy-eight men have been executed in the electric chair at the Kentucky state prison at Eddyville since it was installed 23 years ago.
