Oath of Office Given Guill by Sam Rayburn

WASHINGTON - (AP) - Texas' first Republican congressman 19 years, Ben H. Guill of Pampa, was sworn in today as a member of the House. The 40-year-old real estate

broker fills a vacancy caused by

the appointment of Eugene

Worley, a Democrat, to a fed eral judgeship. Guill was presented to the by Republican Leader Joseph W. Martin, Jr., of Massachusetts and was given the oath by Speaker Sam Rayburn, a Texas Democrat.

Guill's term in the House rung until Jan. 3. when the victor in November's general

elections will take office Opposed by 10 Democrats in the May 6 special election, Guill emerged victor by polling slightly, more than 22 percent of the votes in the 28-county 18th Congressional District. He edged out Mrs. Altavene Clark, longattorney for the five-county Pam

QUESTION: When was the last perfect game pitched in the major leagues?

FANS WHO WITNESSED yesterday afternoon's Pampa-Amarillo contest at Oiler Park saw something that you probably wouldn't see anywhere else in organized baseball. It was also very disgusting to many of the fans as they have verbally indicated. They went out to see baseball, but the fight so aroused the tempers that the brand of ball was "Class Z" for

The condoning of the fight by the umpires is just asking for more such trouble if the players feel they can get away with it. Leaving both combatants in the game is another error. It was an invitation for more trouble which, fortunately, did not occur. In the major leagues at least one and possibly both would have been given the thumb. Under the conditions there could have been a serious spiking or somebody hit by a pitched ball.

Not only are some umpires blind to the calling of balls and strikes but they also apparently are blind to their duty on the field.

The Abilene Blue Sox lost most of their ball park during the big storm that hit that area Saturday night. All of the fences around the field were blown down, the grandstand partially wrecked and the field littered with rub-

This company was started by Dr. William Abbott, who worked his way through medical school sweeping floor, washing dishes, doing other odd jobs.

When he was through school, he opened a drug store and also practiced medicine. When a company that had been supplying him with a certain pharmaceutical went out of business, he decided to manufacture it himself. He put a \$5.00 ad in a medical journal and the now famous Abbott Laboratories had its beginning.

That first ad brought in a total of \$15 worth of orders. Last year, Abbott's total sales were more than \$67,000,000.

Council of Churches of Christ in America Almost Unbelievable I am indebted to the Bucyrus.

Ohio Ministerial Association for their presentation of nearly four columns as published in the Telegraph-Forum at Bucyrus, Ohio attempting to defend the Federal Council of Churches of Christ in America and to refute John T. Flynn's book. I am under obligamic Life, Basic Principles and Assumptions." This statement cil of Churches of Christ in America in September, 1948. The ministers say this is the official statement adopted by the responsible leaders. Then they say "One would have thought this ought to have been consulted (by John Flynn) as evidence of the considered opinion of the council' today." Then they quote from this official pamphlet. Among other things, this pamphlet says: The Church recognizes that

Christian faith and ethics do not provide guidance for all aspects of the problem of the economic oratories: -- "changing ideas -order; that there are technical elements in most controversial issues which call for special knowledge and experience.'

I am amazed that men profess to be Christians would make any such statement. Now, let's analyze this statement and see what it really means, The leaders of the Federal Council are saying in effect that the Eighth and Tenth Commandments and the Golden Rule do not provide guidance for all aspects of the problems of the economic order. A Christian would ask if they do not provide guidance for all aspects of the probleme of the economie order, what law, commandment, principle, rule does provide guidance for human relations in social and economic questions? This is the answer that no man who makes such a statement as the above, would dare attempt to answer. He would become embarrassed if he attempted it. The only inference is that some men must "provide guidance" that the Commandments and the Golden Rule do not provide. And of course those people who say that the Christian ethics do not provide guidance would naturally have to select themselves, since they are the ones who say that the Golden Rule and the Commandments are not a complete guide of the economic order. The man who says that they are complete, of course wouldn't claim that he had special knowledge and experience that would qualify him to stecide moral and conomic problems. It is hard to conceive how

They will not answer questions as to how they can be found out. The result would want the right and power to compel each individual in each case to comply with this or that wage or price or what enterprise should be undertaken in order to be in harmony with Christian eth-

If there was ever a group of men who had exalted themselves and set themselves over and above moral laws and even above Moses and Jesus Christ it is the 'responsible leaders' of the Federal Council of Churches of Christ in America. They should bow their heads in shame. They hide behond pulpits and pamphlets and use double talk and make vague statements that would lead our country away from the religion of Jesus Christ and the principles set forth in the Declaration of Independence and into a form of socialism. One wonders if they would have such men as Stalin and Lenin and Hitler, and Mussolini, and Harry Bridges and John Lewis or Franklin Roosevelt or Herbert Hoover or Governor Dewey or Governor Warren or President Truman as the men with "special knowledge and experience" to take care of technical elements of what they call
