Stabilization Steps Taken Tax Reallocation Is Approved

Allied Troops Close 5-Mile Gap in Lines

TOKYO, Sunday (AP)—Mud smeared allied troops sealed a five-mile, tank-torn Red breach in the North Korean front Saturday.

Closing of the gap between Yongchon and Kyongju eased the threat to Taegu from 50,000 North Korean Reds massing for a new thrust.

Fiercely attacking Communists paid dearly in lives and won Battle Mountain at the southern end of the line, two miles from five-gutted Haman and 37 air miles west of the main port of Pusan.

General MacArthur omitted his war summary early Sunday. This usually means a lack of developments.

Grounded for two days by rains, planes soared back into action Saturday. They concentrated on Reds massed northwest of Taegu.

The gap in the northern defense wall was snapped shut by South Korean troops driving east from Yongchon and American and South Korean forces moving west from Kyongju.

Yongchon, gateway city to Taegu, 20 miles westward, was recaptured by South Koreans Friday from the armored Reds who had held it briefly. The ousted Reds poured in artillery fire, the North Korean radio has claimed possession of Yongchon for two days.

Several groups of Reds were pocketed. A U.S. Eighth Army spokesman said the situation along the northern line late Saturday was "much improved."

In the south, the 25th division killed 1,500 of the 3,000 Reds who wrested Battle Mountain from them. It was the 13th time in three weeks the mountain had changed hands.

The Reds losses boosted their casualties for the week to more than 15,000 men on the southern front alone, and raised official U.S. estimates of Red losses on all fronts to 25,000 in a 48-day period. About 15 percent of their estimated 1,000,000 men.

First cavalry troops, defending Taegu on the north, stood their ground solidly against constant enemy pressure.

The Americans held high ridges seven miles north of Taegu. The enemy probed hard all along the line, apparently trying to keep the defenders off balance until reinforcements could be brought up.

Red strikes at the second division west of Yongchon and against the "fourth and last of the government based on the power of enslavement" and called it the "greatest challenge to freedom."

It was the last radio broadcast made by the Democratic nominee until sometime in October.

He said the fight against communism is not only the universal effort of every man, woman and child, but also the universal effort of every man, woman and child in the United States.

He said the fight against communism is not only the universal effort of every man, woman and child in the United States, but also the universal effort of every man, woman and child in the United States.

Gray County property taxpaying voters Saturday approved re-allocation of tax money by four votes more than a five to one margin as less than 325 people went to the polls, incomplete and unofficial returns revealed Saturday night. Only one of the 18 boxes was still unreported at that time.

The 17 boxes reporting gave the issue 294 votes while 50 voted against. By \$45, only 304 votes were reported. Box 18, the county's smallest, was unreported by that time.

Two of the 17 reporting boxes voted down the issue by the same vote, four against it and two approving it. They were voting Precincts 8, Hopkins School, and 11, Kingsmill store.

Precinct 13, Phillips Camp, held an election, but no voters came in to give the two election judges any work, the score there 0-0.

The largest vote in any one box was cast in the county's largest, Precinct 10, in the court house, where 40 votes were cast, 38 in favor of reallocation of taxes and two against. Precincts 1, Lefors; 3, Grandview; 4, Alameda; and 15, Carpenter's Union Hall, approved the issue unanimously.

Precinct 17, McLean tallied only one vote against the issue and 32 approving it.

Despite the publicity given the election and its cause, some voters still remained under the impression it would mean a tax increase. It will not mean a tax increase, but merely gives the county commissioners court authority to place money where it can be used instead of keeping it tied up in almost inactive funds.

To cast the 304 votes has cost the county at least \$550.40 for election clerk salaries, supplies and pencils. That cost does not include the price of the 7,500 ballots that had to be ordered according to law and the mileage (See TAX APPROVED, Page 2)

Steel Building Ordered for Hereford Show

C. E. Vincent, president of the Top of Texas Hereford Breeders Association announced Saturday morning that an order has been placed with the Link Tschudy Company, Amarillo, for a galvanized steel building which will house the Top of Texas Hereford Breeders Association show and sale.

The building will be 64 feet wide and 96 feet and 4 inches long and will be erected at Recreation Park.

"This building has long been contemplated by the Hereford breeders in this area," Vincent said. "We have always needed such a place to hold our show and sale."

Funds necessary for the building, approximately \$13,000, are being raised by members of the TOTHBA through personal contribution by members.

The building will be available for public use when not being used by the association, Vincent stated.

The action was taken following a statement by Link Tschudy to the effect that if the order was not placed now, the association stood a chance of not getting the building at all, due to the scarcity of building materials.

Construction on the foundation is expected to begin as soon as arrangements can be completed with the city as to location and other technical matters.

The Hereford breeders felt they "wanted to finance this building themselves," Vincent said, "in order that they might feel they had contributed something substantial to the development of the cattle industry in the Panhandle."

Paul Brown heads 1951 Dimes Drive. The appointment of Paul Brown as chairman of the 1951 March of Dimes drive has been approved by the board of directors of the Gray County chapter, National Foundation for Infantile Paralysis. The appointment and acceptance was made at a meeting of the directors Friday.

Brown is a member of the board of directors and has been active in the campaign for the past two years.

Bills totaling \$189.30 were approved for payment. These bills represented hospital and clinic accounts for Gray County patients in Plainview, Abilene and Dallas, plus clinic.

After the bills are paid, a balance of \$289.52 will remain in the treasury. This will make it necessary for the local group to obtain funds from the national foundation in order to pay September bills.

At the present time, Gray County has two polo victims in Plainview and the minimum cost of their treatment will be not less than \$100 each. One of the sweetest in from Pampa and the second, and most costly, is from McLean.

Gasoline blaze is extinguished. Firemen made a run late Saturday to Pitts Farm Equipment Company, 327 W. Brown, where they extinguished a gasoline fire. The fire started in the repair shop in back of the main office when a welding torch ignited gasoline that had leaked from a gasoline tank.

Congressman's Son Undergoes Operation. Two-year old Hugh Quill, son of Congressman and Mrs. Ben Quill, was reported as "doing nicely" Saturday following surgery at Highland General Hospital.

The little boy's illness kept his law-making dad in Pampa during the weekend and Monday.

Truman Says Controls May Appear Soon

WASHINGTON (AP)—President Truman Saturday night announced the creation of a stabilization agency to hold prices in check during the war emergency—or to impose price controls "when they are needed."

In a broadcast to the nation, Mr. Truman said defense costs will soar to a rate of \$30,000,000,000 annually by next July and inflation is inevitable "unless we do something about it."

"As for prices and wages," Mr. Truman said, "the government is not putting on mandatory ceilings at this time."

"But we will impose ceilings vigorously and promptly when the situation calls for them."

He called for new tax increases "as soon as possible" on top of a \$4,508,000,000 increase now nearing approval in Congress. The second boost, he said, should include an excess profit tax to curb war profiteering.

To set in motion a home-front economic mobilization, Mr. Truman issued an executive order designating agencies to enforce priorities, limit civilian goods output if necessary, lend money for defense plant expansion and allocate scarce materials.

He named the chairman of the National Security Resources Board, W. Stuart Symington, to coordinate the administration of these new powers, signed by him into law Friday.

Civilians were warned that some cutbacks will be made in the production of peacetime goods. The president said that while the nation's productive power is vast, it cannot be expanded fast enough to make all the military goods needed.

"Therefore," he said, "to the extent necessary, workers and plants will have to stop making some civilian goods and begin turning out military equipment."

The executive order handed the bulk of Mr. Truman's power to parcel out scarce materials to Secretary of Commerce Sawyer—except that he and other top officers must defer to Symington on major policy issues.

Symington was authorized to settle inter-agency disputes; press (See TRUMAN, Page 2)

County on USDA's Disaster Area List

WASHINGTON (AP)—The Agriculture Department has designated areas in Colorado, Texas and North Carolina where production-disaster loans may be obtained by farmers.

To be eligible for a loan, through the Farmers Home Administration, a grower must certify he has suffered an unusually heavy loss from a disaster and is unable to obtain credit from local private or cooperative sources.

The Texas counties, hit by a prolonged drought and insect infestation, are Armstrong, Baylor, Biscoe, Carson, Castro, Crosby, Dallam, DeWitt, Floyd, Gray, Hale, Hamford, Hartley, Hutchinson, Lamb, Lipscomb, Moore, Ochiltree, Oldham, Parker, Potter, Randall, Sherman and Swisher.

Houston Mayor To Run Again

HOUSTON (AP)—Oscar Holcombe, nine times mayor of Houston, filed Saturday as a candidate for reelection to the \$200,000-a-year post.

All eight of the current city councilmen also filed and posted their fees with M. W. Lee, secretary of the city Democratic committee.

Houston city primaries are to be held October 14, with the general election in November. J. M. Wren, Houston oilman and unsuccessful candidate for governor this summer, also announced Saturday he plans to run for mayor. He has until midnight Monday to post his filing fee.

Texas' General Fund Continues to Climb

AUSTIN (AP)—The general revenue fund's cash balance continues to climb. Comptroller Robert S. Calvert reported Saturday a net cash balance of \$31,749,687 as of Aug. 31, compared with \$29,612,084 on July 31.

McLean Youth Is Killed in Korea Fighting

MCLEAN (Special)—Marine Corps Pfc. Daniel Wid Flory, 20, is Gray County's first fighter to be killed in action on the Korean battlefield.

Mr. and Mrs. R. J. Flory, Saturday received official notice that Wid Daniel, two-year Marine Corps veteran, was killed in action "somewhere in Korea" on Sept. 3.

Young Daniel enlisted in the Marines in June, 1948. He is a graduate of his high school education. However, he attended courses offered by the Marine Corps at Alameda, California, and returned to McLean in June, 1949, to receive his diploma.

In July, he "shipped out" to Korea with the Marine first division, the original force sent to the Far East by the Corps. He landed in Korea August 2.

Besides his parents, he is survived by two sisters, Mrs. J. A. Wagon, Bandera, Texas, and Geraldine Flory, McLean.

116 Rescued From Cave-in in Scotland

116 men were rescued from a cave-in in Scotland Saturday. The cave-in occurred Thursday night when a tunnel collapsed into the interior of the mine. Ten miners are unaccounted for and are feared dead.

Eight miners escaped when thousands of tons of spongy earth, loosened by heavy rains, collapsed into the mine interior Thursday night.

When the mammoth cave-in sealed off the miners, 720 feet underground, rescuers dug and blasted a tunnel to them through a 30-foot wall from an old mine shaft.

But a pocket of black damp, an odorless, poisonous gas, lay at the base of the abandoned coal shaft and still blocked rescue. Masks then were used.

Texas High Court Judge's Rites Set

ATLANTA, Texas (AP)—Funeral services for Texas Supreme Court Justice Ralph Hicks Harvey will be held here today.

The 87-year-old judge died in a Texarkana hospital Friday night.

The late Governor Beauford Foster appointed Harvey to the Supreme Court in January 1949, after the resignation of Gordon Simpson. His term would have expired next January. He ran for nomination but was defeated in the July Democratic primary by Robert W. Calvert of Hillsboro.

When you think about a new heater or repairing the old one, remember Bert A. Howell & Co., 215 E. Ward, Phone 152, for speedy service—adv.

HERE IT COMES! THERE IT GOES! WHAT WAS IT?

Pampa is on the once-a-week route of Santa Fe's deluxe all-chair car train, El Captain, but there's no chance of catching it—or even jumping off it in Pampa.

El Captain is "hooked up solid" once a week to and from Los Angeles and Chicago. So the railroad, avoiding traffic on Santa Fe's busy southern route, sends El Captain over the faster southern route.

The train, after being tied at Los Angeles in Chicago, makes the run between the two cities in 39 and one-half hours. It's fast enough for a good fast train to catch or safe enough for a foolish one to jump off.

Rogers Turns Down Offers of Help By National Dems

Democratic congressional nominee, Walter Rogers revealed Saturday that he had rejected offers of campaign aid by the national Democratic party.

Rogers told The News that, not only had he refused financial aid, but he also had turned down an offer of "platform talk" and Vice President Alben W. Barkley, who is touring the country in a search of congressional candidates.

The Pampa said his refusal was in line with his determination "not to be obligated to any person or group."

Rogers won on the air for 15 weeks a Friday night over KENC, radio station in Lubbock, Texas, and call for immediate and constructive work to fight by Congress.

He described communism as the "fourth and last of the government based on the power of enslavement" and called it the "greatest challenge to freedom."

It was the last radio broadcast made by the Democratic nominee until sometime in October.

He said the fight against communism is not only the universal effort of every man, woman and child, but also the universal effort of every man, woman and child in the United States.

He said the fight against communism is not only the universal effort of every man, woman and child in the United States, but also the universal effort of every man, woman and child in the United States.

Extradition of Oklahoma State Senator in Sebitz Will Case Stalled by Sooner Jurist

Texas got a good look at Oklahoma justice last week when the battery of Grim's attorneys, Oklahoma succeeded in getting the time being his trial at Lipscomb on a forged indictment, returned in the Mattie Sebitz will case.

Two other men, L. B. Padgett and L. L. Thomas, fared just as good at habeas corpus hearing that was obviously cut and dried long before District Attorney Tom Braly got to Oklahoma.

Instead of having the habeas corpus proceeding held in their home counties, the three men went to Norman, Okla.—4 straight highway across the state from their homes—and submitted to arrest and hearing there.

Braly said Saturday that the case was full of peculiarities, one of the peculiarities being that Attorney Joe Smalley, who headed the battery of Grim's attorneys, was a former law partner of Justice Justin Hinchaw, who presided at the hearing and handed down the decision in favor of Grim. Smalley is also Democratic floor leader of the house of representatives in the Oklahoma legislature.

The Pampa D. A. charged he was unable to question his three witnesses because the judge held them to the exact date of Oct. 10. The indictment did not say exactly it was Oct. 10 that the crime was committed. Braly said, it said "on or about Oct. 10."

Rep. Guill Lashes Commies, Fellow Travelers in Talk

Republican Congressman Ben Guill wound up his four-day trek of the district Friday with a scathing denunciation of "communies, punks" and fellow travelers before a combined civic club meeting at Hereford.

Main targets of Guill's bombardment were Secretary of State Dean Acheson, John Service of the State Department, and Owen Lattimore.

He lashed all American Communists and fellow travelers as traitors to the United States, the over 100 people attending giving him a loud round of applause when he rose out with the "traitor" charge.

Guill spent most of last week visiting Childress, Memphis, Wetland, Peyton and Hereford. His talks were along the same lines.

He quoted mostly from congressional hearings and brought out the history of Acheson's law firm receiving a \$60,000 fee from Poland for representing that Communist-dominated country in obtaining a large loan from the United States.

He told the groups that he would not call Acheson "Service" and Lattimore "commies," but said their records do not indicate them to positions of trust in the government.

Charging that Communists are fighting the American way of life by "undermining" it, he urged a "policy at home, he proposed a time would prove Sen. McCarthy right, just as it has Martin Dies."

Guill remained at home Saturday evening on a night and personal affairs. He will return in Pampa until Tuesday when he speaks at Canyon at noon before (See GUILL, Page 2)

Burglars Hit 3 Business Firms On Same Alley

Three late Friday night burglaries, without moving from one alley.

Police reported Tex. Evans Bank Co., Newton Furniture Co. and National Supply Co. were broken into and all are on the same alley.

The only loss was \$11 taken from an open safe in National Supply's building. The burglars apparently were scared from the noise company and no loss was reported. Entrance into National Supply was made through a window on the west side while Newton's was broken into from the rear.

Gasoline Blaze Is Extinguished

Firemen made a run late Saturday to Pitts Farm Equipment Company, 327 W. Brown, where they extinguished a gasoline fire. The fire started in the repair shop in back of the main office when a welding torch ignited gasoline that had leaked from a gasoline tank.

**GOVERNOR**

(Continued from Page 1)  
 ernor's convention" and its chief purpose is to select a platform on which he runs against the republican nominee in the general election. It also selects the state committee which is supposed to be the governor's political right arm.  
 Shivers has let it be known politely but firmly that he wants this convention to be what it is supposed to be. He has tried to let leaders of both factions know in advance how he stands and what he wants.  
 He is expected to be a middle course between the two factions. He wants peace if it can be had by agreement. If not, he is prepared to fight for peace.  
 Shivers, commenting on a big city delegation contests that will furnish pre-convention scrap, said he wanted all legally-constituted delegations seated. He was willing for the existing executive committee and its credentials sub-committee to interpret what that means.  
 Stated for chairmanship of the credentials committee is Bascom Gist of Tyler, whose theory of loyalty holds that while good Democrats may not agree on all platform principles, they should fight it out within the party, then unite in support of its nominees.  
 This sub-committee meets Monday. It will listen to rival delegations from Houston, Fort Worth and Dallas, each claiming to represent at-home democracy.

**July Imports Close to Peak**

WASHINGTON — (AP) — The United States imported more foreign goods in July than in any month in history except December, 1948, the Commerce Department reported.  
 The department said shipments to this country total \$711,000,000 in July, before the Korean fighting provided new impetus to buying of strategic raw materials and other goods.  
 July imports were 29 percent above the monthly average last year. The \$711,000,000 total compared with \$685,600,000 in June and the record high of \$720,000,000 in December, 1948.  
 U. S. exports slumped meanwhile. The department reported an export figure of \$774,100,000 for July against \$876,500,000 for June, but added that even that did not "fully reflect the decline in July exports."  
 "The figures for July exports include approximately \$47,000,000 of mutual defense assistance program shipments which were excluded from June statistics," it explained.

 Allied planes got in 140 close support missions late Saturday.  
 The Australians lost their wing commander, L. T. Spence. He failed to pull his F-4 out of a steep dive over Red positions near Angang. His plane crashed and exploded.  
 Left Erickson of the AP 30 Eighth Army headquarters, said the main force of the most recent Red offensive against the northern wall had been spent. The Reds were keeping up their pressure there, however.  
 Lt. Gen. Walton H. Walker, Eighth Army commander, said the Red offensive which began Sept. 1 was the latest since the South Koreans invaded the south June 25.

**Storms Dying, But Area Is Watched**

MIAMI, Fla. — (AP) — "Hurricane week" ended Saturday with one storm dead, another dying, and an area of suspicion being watched far to the east.  
 The Atlantic hurricane which once was a terrifying giant with 160-mile winds spinning around its center was in its death throes some 700 miles east of Jacksonville. Its winds dropped off to 55 to 65 miles an hour.  
 Hurricane hunters and the weather bureau eyed a new area of suspicion in the Atlantic 1,000 miles east of Puerto Rico. A plane probed it without finding strong winds, but a careful eye will be kept on it for several days.  
 The National Park Service administrators 181 outdoor areas.

 scribe "policy and program directives" with the president's approval; keep tabs on the work of the other agencies; advise Mr. Truman on progress; and take such steps as they may feel are needed to coordinate domestic mobilization measures.  
 Besides Secretary Sawyer, these officials were named to wield the priority and allocations power:  
 Secretary of the Interior Chapman, for petroleum, power, gas and solid fuels.  
 Secretary of Agriculture Brannan, for food, farm equipment and fertilizer.  
 The Interstate Commerce Commission was assigned domestic transportation, storage and port facilities, but not air transport or coastal and overseas shipping, which are under Sawyer's supervision.  
 The executive order authorized the armed forces and other agencies to guarantee loans to war contractors for plant expansion and the financing of war contracts.  
 The Reconstruction Finance Corporation was directed to make loans for plant expansion and for boosting production of needed metals and minerals; while General Services Administrator Jess Larson was authorized to buy needed materials.  
 The president frowned upon any national attitude of "business as usual." He told the people that sacrifices must be made to expand production and head off the inflationary threat.  
 "This will require harder work and longer hours for everybody," he said. "It will mean additional jobs for women and older people."  
 He asked housewives and businessmen to exercise restraint in their purchases.  
 "For the consumer," he said, "the guiding principle must be:

**Cabot Free Movie Series Is Concluded**

Free movies through the courtesy of the Cabot Co. are over for 1950.  
 During the past summer the Cabot Co. has been providing free movies each Wednesday at the Lions Club park to an average audience of 254 a night.  
 The movies were made up of travelogues, comedies, educational features, sports, and some company shots. In all, Jimmie McCune, who ran the show each week, put on nine shows consisting of 46 films that took up a total of 25 hours and 10 minutes. The total attendance was 2,275 persons.  
 Through City Manager Dick Pepin, the city commission extended its thanks to the company and McCune for the entertainment.  
 The large outdoor screen, erected by the city, will be stored away until next summer when the free movies will be put on again. Transportation to move the 35 mm projection equipment around was furnished jointly by pickup trucks belonging to the Cabot Co. and the city park department.

**EXTRADITION**

(Continued from Page 1)  
 with them all day? They could drive over here in a matter of minutes. There were vacant spots in the day when nobody present at the hearing knew where they were.  
 "Only tried to prove where they were on that one day, esides we had two contentions; one that the crime was committed in Texas and the other that it was committed in Oklahoma. Under the uniform extradition laws, the act could have been done in Oklahoma which caused a crime in Texas and they could be extradited on that point," Braly said.  
 Continuing he added, "the conspiracy could have been done in Texas while the actual signing of the will could have been done in Oklahoma."  
 Braly charged further the judge flatly refused to consider those phases and handed down his decision in favor of Grim and his lawyer.  
 Braly said there still remain bringing the men back to Texas for trial and these would be taken up at a later date. He did not say when.  
 Judge Hinshaw goes out of office Jan. 1, having been defeated for re-election. Braly indicated he might take action after that date.  
 Also under indictment are Ross Guthrie, Vivian Guthrie and Clyde Grim, an uncle of the senator. All are under \$5,000 bond. Braly added he does not know when those three will go to trial and no plans have been made on that score so far.  
 buy only what you really need and can not do without."  
 If the housewife follows that rule, he promised, "there will be enough of the essentials—in fact, enough of almost everything—to go around."  
 For businessmen, he said, the operating rule should be: "do not pile up inventories; hold your prices down."  
 And for labor he set forth this guide:  
 "Do not ask for wage increases beyond what is needed to meet the rise in the cost of living."  
 The ribbon-tailed bird of paradise was virtually unknown until the airplane reached inland New Guinea.

## School Buses' Condition Good

Pampa Independent School District school buses have been declared in excellent condition, according to highway patrolmen. The buses were inspected Thursday afternoon by Patrolmen F. C. Wynn and E. J. Robertson for condition of brakes, lighting equipment, steering apparatus and other operating and safety equipment plus a driver inspection. He said a car or truck must stop, then proceed past the bus at a speed not greater than 10 miles per hour.

and were in better condition than at any other inspection. In connection with the inspection approval, the patrolmen warned motorists that all motor vehicles on the highway outside a business or residential area must stop when meeting or passing a school bus loading or discharging school children.

**FOR A DOG'S LIFE**—Cricket, a 4-year-old canine of uncertain origin and sharp curiosity, tries on, just for size, a plastic oxygen tent designed for dogs. The tent was one of many items on display at the annual convention of American Veterinarians at Miami Beach, Fla. Cricket's master, Walter Harrison, looks a bit uncertain about the whole idea.

## Communists' Try for World Domination Not 'Political'

By DEWITT MACKENZIE  
AP Foreign Affairs Analyst

There's one aspect of the cold war between the isms regarding which a lot of folk are making what could be a disastrous mistake. This is in harboring the belief that the argument is purely political. That's about as far off the beam as anybody could get. The Communist ideology comprises a way of life, dealing with every phase of human activity, from the cradle to the grave. It is a regimentation which aims at complete uniformity of ideological viewpoint by whole populations. It envisages world conversion, with Moscow as the seat of guidance. But, somebody asks, isn't that the work of generations? It certainly is — and all indications are that Russia so regards it. The Kremlin clearly is planning far beyond the time of Stalin or any of his captains. Jacob Malik, Soviet delegate to the U.N., has declared that the program will be carried out if it takes a hundred years. This fits in with the conclusion being drawn by Washington diplomats from the manner in which Moscow has dealt with the recent destruction of a Soviet bomber by U.N. forces over Korean waters. The Soviet procedure of dealing with the affair by note is taken as meaning that the Kremlin still wants to limit its conflict with America to diplomatic clashes over Korea. Since this also is the American aim, it encourages the belief that another major war isn't likely in the near future, though obviously there are dangers so long as open power-kegs are standing around. However, the drive for world communism will continue with increasing force. Therefore the question arises as to how this ideological crusade is to be met. It's no good pursuing the negative defense of merely arguing that communism is contrary to our way of life. The challenge must be met by demonstrating that the democratic ideology is what the world needs. This is particularly true as regards backward areas such as exist in many parts of Asia, where untold millions live and die in a poverty so dire that they never see the time when they are not hungry. Communism holds out an alluring picture to these underprivileged peoples, who are ready to grasp at anything which seems to offer relief. That picture may not be a true one — but it continues to win followers. How is democracy to meet this challenge of a communism which is deliberately designed not only to provide a complete way of life but to take the place of all religion, which it disavows? Ordinary political arguments certainly won't turn the trick. There is a growing feeling in the United States and many other countries of the democratic bloc that communism cannot successfully be challenged, unless the democratic ideology emphasizes the spiritual as well as the economic aspect of life. One often hears the remark that communism is a "religion." Of course it isn't in the generally accepted use of the term, since one of its chief aims is the destruction of religion, which it calls the dope of the masses. However, it does create a sort of idolatrous fanaticism by molding the young mind into the belief that unswerving loyalty and obedience to the Kremlin is

the sum and substance of life. There are many who feel that things spiritual have been too much neglected among the democracies, and that a revival should be made a vital part of the ideological battle. In any event, if democracy is to compete with communism it must present an ideology which in-

### Couple to Mark 71st Anniversary

LOS ANGELES — (AP) — It's a long way back for John and Lillian Duke to their wedding day in Edgerton, Mo., in 1879. They plan no special festivities in celebration of their 71st wedding anniversary Monday. Mrs. Duke said, "but we will remember lots of things."

Pliny, the Roman scholar, noted in A. D. 50 that early residents of the Netherlands protected their homes from the sea with crude mounds.

## Mainly About People

### Grid Outlook Explained at Kiwanis Meet

Tom Tipps, head coach of the Pampa Harvesters, was guest speaker at the Kiwanis Club Friday noon. Tipps spoke concerning the Harvesters football team and its chances in the 1950 season.

"There are no miracles in coaching," he said. "We believe that hard work, both by the coaches and by the players, pays dividends."

Tipps said that he had requested his boys to appear in September in the best possible physical condition. Despite the fact that they had no one to push them, Tipps said, "the boys showed up in pretty good condition."

"I can't tell you what kind of a team to expect this year," the coach stated, "but I know you can expect a team that you can be proud of."

"The first game of the season will be here with Hobbs, N. M., next Friday night. The game is being played at the request of the New Mexico team, who, according to the coach, "probably expects to build up its reputation at our expense."

It was revealed that officials this year are supposed to be very strict on illegal use of the hands and elbows. The rules have been amended so that touching an opponent in the face with the elbow calls for a penalty.

"Notre Dame is the number one team of the nation because the boys and their coaches work," Tipps said. "They are well organized and there are no wasted movements. They have a coach for every position and nothing overpleases those coaches. They are perfectionists."

"At least, they don't sit on their laurels and if we have any laurels, we won't sit on them either," Tipps concluded.

Howard Buckingham announced that the Pampa Kiwanis club has its eighth month of perfect attendance with the end of September.

Herman Watley, president requested all members to be present next Friday to have their pictures taken.

A railroad penetrated from the east African coast to the Killmanjaro mountain agricultural area in 1911.

### Earth Distortion by Eclipse Due Studies

LOS ANGELES — (AP) — Two U.C.L.A. scientific parties will attempt to measure the earth's distortion during a solar eclipse Tuesday from vantage points in Attu, Alaska, and Lake Tahoe, Calif.

The Attu party in the direct path of the eclipse, will be headed by Dr. John Pettit and Wesley Miller. Down by the Lake Tahoe party is under Dr. Louis E. Slichter, director of U.C.L.A.'s institute of geophysics.

"It is said to be the first attempt to record small distortions brought off by an eclipse. Sun and moon affect oceans, causing tides, but that they also may distort land surfaces as much as four feet is not generally known outside scientific circles."

DR. G. H. MILLER

Dr. G. H. Miller, Chiropractor, is a graduate of Palmer School of Chiropractic, Davenport, Iowa, where Chiropractic was discovered in 1895. Palmer teaches all subjects pertaining to the human body, anatomy, physiology, neurology, etc., as well as the science and art of Chiropractic. The minimum course contains 2350 full class hours, or 143 semester hours, which compares favorably with the 2163 to 2100 class hours, or 120 plus semester hours required by the University of Texas for a B. A. or B. S. degree. Dr. Miller holds a Texas State License issued by the Texas Board of Chiropractic Examiners. Dr. Miller also holds a post graduate certificate in advanced Specific Chiropractic and Commercial X-ray. He was a staff member of the Stapp Chiropractic Clinic for several months in Hereford. You may consult Dr. Miller with full confidence and the assurance that he is well trained in his profession as a Chiropractic specialist.

The Miller Chiropractic Clinic uses the latest scientific instruments for a complete chiropractic analysis and the modern Palmer method of spinal adjustments for the correction of spinal subluxations causing organic distress.

While the wide scope of Chiropractic is amazing the unformed, we do NOT recommend chiropractic as a CURE-ALL. Chiropractic is effective in those cases only where the cause is found to be defective in organic energization due to spinal misalignment (subluxation). Most all of our cases are those that had previously resisted ordinary methods of healing. Our examination is designed to eliminate those we can't help.

Clinic X-ray Department photo showing Dr. Miller making spinal X-rays to locate the cause of nerve interference found during the spinal Neurocolometer analysis. Any part of body or spine may be brought into clear view for examination. When the cause is located it can be corrected.

Case histories displayed here are from Chiropractic Clinics all over the United States. They are displayed here to show the extent of Chiropractic.

### A NEW TRUTH

History, ancient and modern, is bulging with the stories of shameful, hideous and actual persecution heaped upon the heads of those who dared to propound a new truth. Chiropractic is a NEW TRUTH about health. If Chiropractic was not filling a need it would have succumbed years ago to the pressure which continues against it. This new truth about health belongs to you, the people. Do not permit anyone to deny you the right to use it when you need and want it.

### HEART PALPITATIONS

CASE NO. 971: A single working girl, age 31, suffered with backache, constipation, irregular palpitation of the heart and constant nervous indigestion, irregularly with severe cramps, nervousness and headaches for a long time, although she had gone the usual round of doctors. She had become fearful that nothing would ever help her. In that state of mind she came to the clinic. The neurocolometer spinal analysis indicated nerve wave interference in the spine near the top of her neck as a possible cause of functional trouble. X-rays of the area disclosed subluxation of a vertebra. She recalled several falls that could have wrenched this vertebra from its normal position. Adjustments were begun. X-rays showed the vertebra in a correct position. She reported that all symptoms had vanished and that she was normal in all respects. Look at yourself in the mirror—is your neck straight, or is your head sitting level, or is your spine out of line?

### NERVOUSNESS

CASE NO. 1628 is a matron, age 24, who had an appendix operation and afterward began to develop nervous spells, grew worse, became fearful, had desire to run and scream; imagined dreadful things; had crying spells; couldn't sleep or eat; had nauseating spells, headaches; pressure-feeling in back

of head and neck, extending to top of head; was weak and trembling; was badly constipated; had rheumatic pains in her left hip and leg, and trouble at period time. She grew worse while under the usual professional care and finally came to the Chiropractic Clinic. A spinal Neurocolometer analysis revealed nerve wave interference and X-rays located the spinal subluxation causing the interference. Adjustments restored alignment and this patient when last seen, reported all nervous symptoms had disappeared and that she felt fine.

### PSYCHO-NEUROSI

CASE NO. 1484: Case discharged from Army with diagnosis of Psychoneurosis and arthritis came to the Chiropractic Clinic complaining of constant pain in all his joints, and especially his spine and neck; nervous shaky spells, absent minded, blank spells of forgetfulness, dizziness, blurred vision at times, terrible headaches lasting several days, and a feeling that everything was wrong, that something was wrong with his mind. Neurocolometer spinal analysis revealed defective energization and X-rays exposed vertebral subluxation causing the nerve interference and defective energization. After a few months of corrective adjustments the alignment was restored to normal, nerve interference removed, and the case reported feeling well and completely at ease and full of pep and vigor. He said the past was like a bad dream.

### SCIATIC RHEUMATISM

CASE NO. 2892: A man, age 35, came to the clinic complaining of pain in left leg, gas in stomach, a drowsy, dizzy-headed feeling, dull headaches, backache, nervous shaking in left side, and low blood pressure. A spinal Neurocolometer analysis and X-rays revealed a nerve interference. Adjustments were begun and in time he reported all symptoms gone and that he was feeling fine.

### LOW BLOOD PRESSURE

CASE NO. 2013: A young mother, age 32, after being treated three times a week for a year without results, came to the Chiropractic clinic complaining of a pressure feeling inside her head. "Feels like the top will blow out," she said. "It will titch and tingle, and then my entire back tingles" usually. Nose stops up all the time. Eyes burn and feel sore above them, and the back of my head and my neck feels sore. I feel tired all the time and have weak spells. Have frequent colds, dizzy spells, indigestion, gas, bloating, constipation and low blood pressure. "Generally speaking," she said, "I've been sick most of my life." The Neurocolometer spinal examination and X-ray located a spinal subluxation. It was corrected by adjustments. When the patient was discharged she said she felt perfectly well, full of life and vigor, and not a single complaint remained.

### HIGH BLOOD PRESSURE

CASE NO. 1894: A grandmother, age 63, although under the constant care of her doctor for eighteen months, was gradually growing worse. She had high blood pressure, heart attacks, dizziness, nervous indigestion, gas and bloating which caused heart distress and pains, gall bladder pains and tenderness, kidney trouble and pain, swollen ankles and hands, and for each of those conditions she has been taking something different, but gradually becoming to try the Chiropractic Clinic. Spinal Neurocolometer analysis and X-rays located the causative subluxation in the spine. Adjustments corrected the misaligned vertebrae, removed the interference to innervation of the vital organs. Upon discharge this lady reported that she was free of any symptoms of illness of any kind and was doing all her house work. Her own words were "I feel as though I had never been sick. I feel just grand, thanks to Chiropractic!"

### CHRONIC FATIGUE

CASE NO. 2381: A farmer, age 58, complained that for two years he had suffered with low back and leg pains that made his work doubly difficult, also, he felt tired all the time, increasingly nervous, worrying too much, sleeping badly, catching frequent colds. His blood pressure was 102. We made a spinal Neurocolometer analysis and X-rays, and located the spinal subluxation. Corrective adjustments brought about improved alignment and removed the nerve interference. At the end of the recommended time, he was discharged. Before departing he said he had no pain or discomfort of any kind and his blood pressure was normal.

### ARTHRITIS

CASE NO. 1416: A matron, age 32, came to the Clinic complaining that she had been suffering for five years with terrible pains along the spine between her shoulders, which had previously been diagnosed and treated as arthritis. She also complained of period headaches, cramping, low backache and low abdominal pains. The Neurocolometer spinal analysis indicated nerve interference, and X-rays revealed spinal vertebral misalignment causing the interference. She was discharged when alignment was restored and said she had no pain and which she felt completely well.

"NOW YOU PRESS THE MIDDLE VALVE DOWN..."—Tiny Nancy Aughinbaugh is very attentive to a lecture on "How to Milk a Cow" by "Professor" Norman Gage Lyster of Elk Grove, Calif. One purpose of the operation was the drawing of a sample of Rossie's milk for the dairy products competition at the California State Fair being held at Sacramento.

### Out-of-State Insurance Firms Return

AUSTIN — (AP) — Seven out-of-state insurance companies have returned to do business in Texas since 1947.

The latest was the Mutual Life Insurance Co. of New York, Chairman George E. Butler of the board of insurance commissioners announced.

It has been given a license to re-enter business in Texas and has paid taxes totalling \$211,000, covering the period during which it did not operate here. That amount represented the gross tax on life insurance premiums collected from its policy-holders in Texas.

The total of such back taxes paid since 1947 is \$1,560,871.33, Butler reported. Other companies which have come back are: New York Life Insurance Co.; Guardian Life of New York; Home Life Insurance Co. of New York; Union Mutual Life Insurance Co. of Portland, Maine; Metropolitan Life Insurance Co. of New York; Prudential Insurance Co. of America.

Mutual Life of N. Y. was one of the many eastern insurance companies that withdrew from Texas in 1907 when the Robertson insurance law was passed. That statute created a heated controversy. It required every domestic or foreign insurance company doing business in Texas to invest at least 75 percent of its Texas reserves in Texas securities.

Butler said Mutual Life of N. Y. will set up new agency offices in Dallas, Houston and San Antonio. It has about 8,000 policy holders in Texas who own \$20,000,000 of life insurance in force. It has invested more than \$70,000,000 in Texas properties in the mortgage loan field, Butler said.

### 'Cool Flames' May Result in Engine Knock

CHICAGO — (AP) — That knock in your auto engine may come from "cool flames," a feeble blue light given off by the chemical change when a fuel and air mixture is heated just before combustion, two scientists from the California Research Corp. scientists told the American Chemical Society.

Dr. H. R. Barusch and J. Q. Payne reported finding a relationship between cool flame behavior and the octane number of a gasoline. The octane number measures the tendency of a gasoline to resist knock.

Study of blue flames may lead to better anti-knock gasolines, they said, for "when cool flames are controlled the problems associated with knock will also be controlled."

Hyde Checks Amarillo on two Hits As Oilers Big Bats Boom, 7 to 1

Kramer Stops Borger, 15-4

BORGER (AP) - Pampa's Oilers swept a four game series from the Borger Gassers to end the season with a mark of seven victories against two setbacks at the hands of the Gassers.

The Oilers jumped ahead in the second inning with four runs and were never again checked.

The Gassers reeled off four double plays, but still they could not stem the stream of Pampa runs.

Rightfielder Roy Parker led off the second with a base on balls, and first baseman Virgil Richardson hit round trippers to aid Hyde's cause.

Centerfielder Roy Parker and first baseman Virgil Richardson hit round trippers to aid Hyde's cause.

Homer Matney covered third base like a stamp. Matney speared Jay Defini's grass cutter with a back handed stab and then threw a triple to Richardson for the play of the night.

The Oilers jumped out in front in the first frame. Deck Woldt worked Calloway for a walk, advanced to second on Johnny Jeandron's infield out. Parker then unloaded a triple to the center field wall to plate Woldt.

Dawson gained life on an error by Jim Littlejohn. Deck Woldt walked, Johnny Jeandron, walked, Parker gained life on an error by Homer Vega.

Only four extra base hits were scored in the tilt. All four were double runs by Dawson and one each by Eddie Carroll and Littlejohn.

Tudy Lorum, the starting hurler, was charged with the loss. He pitched 7 1/2 innings, allowing 15 runs, 11 hits and 10 earned runs.

Richardson, Parker Knock Home Runs to aid Pampans

Oiler Righthander Mack Hyde let the Amarillo Gold Sox down with two hits as his teammates jumped on Joe Calloway for ten bingles to score a 7 to 1 win.

Pampa meets the Gold Sox at 2:30 this afternoon at Oiler Park in the final game of the season.

Hyde retired 15 Gold Soxers in order, after walking Nelson Davis in the top of the second inning.

The big righthander walked two and struck out one in registering his tenth win of the season.

Centerfielder Roy Parker and first baseman Virgil Richardson hit round trippers to aid Hyde's cause.

Homer Matney covered third base like a stamp. Matney speared Jay Defini's grass cutter with a back handed stab and then threw a triple to Richardson for the play of the night.

SOONER COACH BUD WILKINSON. JIM WEATHERALL OF WHITE DEER, apparently got a good chuckle out of Gilstrap's column that Panhandle griders are drifting across the Oklahoma border.

Weatherall Tells Sooner Sports Editor Why He Picked Oklahoma

NORMAN, Okla. (Special) - "I didn't know anybody was interested in where my home is," grinned Jim. "My folks lived at Hooker, Okla. when I enrolled at Oklahoma. They lived at Hooker three years. Before I moved to White Deer, I went to grade school at Shidler, Okla. and also at Lee school in Oklahoma City."

Recently Gilstrap wrote a column belittling the quality of Oklahoma high school football. Texas schoolboys all star teams have never lost the Oil Bowl game at Wichita Falls, Texas. U. has licked Oklahoma U. at Dallas eight times in the last ten years.

Weatherall disagrees with Gilstrap's inference that it is unnatural for good football players from the Texas panhandle to want to go to school "across the border" at Oklahoma. A junior in the university school of business administration, Jim talks very articulately about the wide mutual interest between the two areas.

"Although Mr. Gilstrap writes as though the Texas-Oklahoma panhandle border was the Naktong river or the Chinese Wall, I'm sure he didn't mean it that way. Anybody living in the panhandle realizes the friendship and commerce that exists between Oklahoma and the Texas panhandle, and how much alike the two peoples are."

"Oklahoma is much closer to the panhandle than any Southwest Conference school. Amarillo is only 250 miles from the University of Oklahoma, as compared to 320 air miles from Fort Worth and Dallas, nearly 400 from Waco, 425 from Austin, 440 from College Station, 480 from Fayetteville and 620 from Houston. It's much easier for my folks to drive to Norman, Okla. and see our games than anywhere else."

"The two areas are linked up closely in wholesale trade. Nearly all the livestock in the panhandle moves straight east to Oklahoma City packing plants. Enid, Okla., is an important terminal for panhandle wheat. Farming and ranching conditions in the two areas are very similar. Oklahoma railroad rates are very favorable. The panhandle is full of Texas-born geologists and petroleum engineers who are Oklahoma graduates."

"I think Texas panhandle boys and girls go to college in nearby Oklahoma for the same reason Oklahoma panhandle students go to college in Kansas, Colorado and New Mexico - it's closer. And Texas panhandle students in large numbers are attending Oklahoma without being 'persecuted' by our Oklahoma football coaches. We had 766 Texas students at Oklahoma last year, most of them from the panhandle, but only nine football players from Texas. More Texas panhandle boys should be playing football at Oklahoma."

"There are 168 registered Sooner alumni living in Amarillo, 99 in Pampa, 77 in Borger and probably hundreds of other Oklahoma graduates in those cities with whom our university alumni office isn't in contact."

"Getting back to the Gilstrap column, I can't understand why Texas U. hasn't made a clean sweep over Oklahoma U. Like the Texas high school all star teams have made over the Oklahoma high schools."

Dukes Squeak Past Abilene

ALBUQUERQUE (AP) - Don Cantrell pitched the Albuquerque Dukes to an 8-7 West Texas-New Mexico League win Friday night over the Abilene Blue Sox, taking his 20th win against six losses.

Overell Heiress, Mate Make Up

LOS ANGELES (AP) - Louise Overell Cannon, 21-year-old heiress acquitted in 1947 of the murder of her parents in a yacht explosion, has made up with her ex-policeman husband, Robert Cannon, 20.

Their rift, he said, "was just a family argument; that's all there was to it."

"We'll probably start soon on a second honeymoon, going to Detroit," he added.

He said they have sold a cocktail lounge they bought last May. They were married a year ago.

Negro Officer Gets High Heroism Medal

WITH U. S. 25th DIVISION, Korea - (AP) - The second highest U. S. decoration - the Distinguished Service Cross - was awarded Saturday to a Negro lieutenant from Texas.

He was Lt. William D. Ware, Box 114, Winchester, Texas, platoon leader in a Negro infantry regiment, and now missing in action in Korea.

Ware, armed only with a rifle, covered the withdrawal of his men when they were attacked by waves of Reds from three sides. The last time he was seen, he was standing up alone still shooting at the advancing enemy.

Wholesale Prices Continue Climb

WASHINGTON (AP) - Retail food prices dropped about one percent in the last two weeks of August but some climbing wholesale prices may mean new retail advances later.

Despite a slight drop reported by the bureau of labor statistics, food prices in stores remained about one percent higher than before the Korean war.

The wholesale climb in the week ended last Tuesday was reported at 0.2 percent, 1.1 percent above four weeks ago and 9.3 percent above a year ago. Coffee reached a postwar wholesale high of 56.5 cents a pound.

# McLean Brands Whitefaces In Opening Grid Game, 12-0

McLEAN (Special) — In the opening game of the season the McLean Tigers chalked up a 12 to 0 victory over the Herford Whitefaces Friday night on Tiger Field.

It was McLean's game all the way with the Tigers scoring on both their touchdown chances, while Whitefaces were never closer than 30 yards to pay dirt. McLean scored first in the second quarter when Wayne Smith, halfback, recovered a fumble by Bill Engman, Herford back, on the Whiteface 22-yard line.

Quarterback Watson received the ball from Smith and reached the Herford 27-yard stripe in three plays. From there he plunged it over the double stripe to make the score 6-0. The try for extra point failed.

Late in the fourth quarter McLean took the pigskin after Herford punted out on the Tiger's 30, and in a sustained drive reached the Whiteface 12 yard line in 6 plays with Watson carrying the ball 4 times and J. N. Smith, Tiger half, logging twice.

Watson cashed in again on his drive through the middle, and the try for extra point failed. Statistics: First Downs: McLean 12; Herford 4.

Yds. Rushing: McLean 164; Herford 112.

Yds. Lost Rushing: McLean 11; Herford 20.

Punts: McLean 5 for 216 yards; Herford 3 for 90 yards.

Penalties: McLean 9 for 75 yards; Herford 7 for 45 yards.

Passes: McLean completed 1 out of 4 for 9 yards; Herford completed 1 out of 6 for 11 yards.

Opponents fumbles recovered: McLean 2; Herford 0.

## Coaches Meet To Make 1950 Grid Plans

WHITE DEER — (Special) — Administrators and coaches of District 1-B met at White Deer recently to make plans for the current football season. Chairman John Morris of Claude presided, with Supt. Ray Vineyard, White Deer, serving as secretary.

As matters of policy, the group voted to use three officials at each game, these officials to be paid a minimum of \$15.

It was agreed that each school would contribute \$7.50 for the purchase of a district trophy, and that the all-district team would be selected by the coaches of the district.

The district chairman was authorized to issue four scout passes to each member school.

It was also voted to grant free admission to the bands and pep squads of member schools, providing they enter as a group under the supervision of an authorized sponsor. Other free admissions are to be handled by each school as it sees fit.

All schools in the district were represented at the meeting. These include Canadian, Claude, Groom, Panhandle, Spearman, Stinnett, Vega, Wheeler, and White Deer.

## Low-Flying Firemen Should Raise Eyes

COLUMBUS, Ohio — (AP) — Firemen had to hunt for some time to find a house on fire on Columbus' East Side. They just weren't looking high enough. The "house" turned out to be a boy's tree shanty in a field near a busy intersection.

Firemen couldn't determine the cause of the blaze but said it was probably just one lad's way of saying farewell to summer vacation.

## WELCOME TEACHERS

WE'RE GLAD TO HAVE YOU BACK WITH US AGAIN

PAMPA, in our opinion, has as fine a group of teachers as will be found anywhere in any town or city in the State of Texas. We feel that our schools are efficiently managed and supervised. We further believe that our children have the very finest opportunity to receive a good high school education in our fully equipped and accredited modern high school.

Our school system in Pampa is worthy of every ounce of support we are capable of giving. We should boost it, take an interest in what is going on, and lend encouragement and co-operation wherever needed and whenever asked.

There should be no strife, no bickering, gossiping or knocking, but a continuous pulling together to the end that no school system anywhere will outdo ours. It can be done with the co-operation and support of every person in Pampa and community.

## Guerillas Opening Grid Contest Is With Lefors at Shaw Field

The Guerillas meet the Lefors Pirates at Shaw Field Sept. 22, and Coaches Dwaine Lyons and E. W. Frizzle have been cracking the gridiron whip to round the boys into shape before the opening game.

With only three days of practice under their belts, the Guerillas scrimmaged the White Deer football team Friday. No score was kept and the coaches pointed the mistakes out to their boys after each play.

The Guerillas consist mostly of sophomores with a few juniors sprinkled in. The roster includes: Jim Cox, Glenn Harris, James Prichard, Oscar Sargent, Joe Tynes, Reggie Mayo, Richard Radcliff, David Enloe, Billy Conklin, Jimmy Keel, Darrell Bozarth, Eugene Bonny, Bryon Clemens, Jimmy McDowell, Billy Phillips, Richard Qualls, Tommy Sells, Raymond Spence.

And Dick Frigmore, Bill Edwards, Walter Bird, Davey Cruzar, Monte Phillips, Jack Lampkin, Dale Kelley, James Wooley, Jim Kenner, James Sewell, Don Milligan, Darrell Godfrey, Sam Lockhart, Tommy Tinsley, Jack Traywick, G. W. Yeargan, Billy Green.

And Robert Kelley, Jerry Holt, Billy Cooper, Buzzy McDonald, Russell Haynes, Floyd Davenport, and Bill Ricker.

1950 schedule: Lefors, there; Sept. 28, Borger, there; Oct. 5, Wheeler, there; Oct. 12, Price College, Amarillo, here; Oct. 19, Plainview, there; Oct. 26, open; Nov. 2, open; Nov. 10, Amarillo, here; Nov. 16, Borger, here; Nov. 22, Plainview, here.

## Snead Grabs Six Stroke Lead in Golf Tournament

READING, Pa. — (AP) — Sammy Snead, who hasn't won a major golf tournament since May, seized home with a seemingly unbeatable 198 Saturday as he grabbed a six stroke lead at the three quarter mark of the \$15,000 Reading Open Golf Tournament.

The White Sulphur Springs, W. Va., star fashioned his record score with a second straight seven under par 65 to take a commanding lead over Jim Ferris, Australian-born San Francisco, who fired a 67 to pull into second place with 20.

Ted Kroll, New Hartford, N.Y., shotmaker who held the lead at 18 and 36 holes, fell apart, taking a four over par 76 that gave him a third round total of 28 and put him in fourth place in the tournament behind Ralph Blomquist, Glendale, Calif., and Glenn Teal, Jacksonville, Fla., who tied for third with 29.

Still hopeful at 209 were Lloyd Mangrum of Niles, Ill., who figured that 270 would take the tournament, and Bill Nary of Chino, Calif., Fred Haas, Jr., Claremont, Calif., fired a brilliant 66 to tie Johnny Palmer of Badin, N.C., at 210.

## League Prexy Resigns

CORPUS CHRISTI — (AP) — Rio Grande Valley Baseball League President Kelly Nemeck said he is resigning, effective in November.

## Sports Writers Put Finger On Longhorns

AUSTIN — (Special) — A Texas Parade poll of nine outstanding sports writers puts the finger upon the Texas Longhorns to win the 1950 Southwest Conference football championship.

Eight of the nine sports writers polled by the state monthly magazine for its September issue picked Blair Cherry's University of Texas hopefuls first and the ninth-placed them in second place. Rated behind the Longhorns in the special poll were: 2. Southern Methodist University - 3. Texas Christian University - 4. Arkansas - 5. Rice - 6. Texas A&M and 7. Baylor.

## Alanreed Softball Team Wins Playoffs

ALANREED — (Special) — The Alanreed softball team carried off the summer softball league title. They won their championship by winning three victories and no losses in the league play-offs.

The Alanreed team was managed by Buddy Hill. One of the players, J. D. Fish of Alanreed received a leg injury during one of the mid-season games, and on the last night a free will collection of \$61.82 was donated to Mr. Fish to help on doctors expenses.

The softball league is sponsored by the Lions Club. Read The News Classified Ads.

## Phillies Gain Tilt on Bums; Red Sox Win

By ED CORRIGAN NEW YORK — (AP) — Sal Maglie of the New York Giants stepped to the mound Saturday, and the Brooklyn Dodgers promptly rolled over and played dead, as the Giants won 2-0, for Maglie's fourth straight shutout, and 10th consecutive triumph.

The shutout tied the National League record, which is held jointly by Mordecai Brown, Grover Cleveland Alexander, Ed Reulbach and Bill Lee.

The defeat dropped the Dodgers 6-12 games behind the league-leading Philadelphia Phils, who whipped Boston, 7-6.

The American League race, however, remained a tight affair. The Detroit Tigers in first place, gained a half game on the second-place New York Yankees, who were rained out. The Bengals beat the Chicago White Sox, 7-0, behind the six-hit hurling of Art Houtteman. It was the 18 for the Tiger ace.

The Boston Red Sox, in third place recorded a double victory over the Philadelphia A's, 8-5, and 11-3, to gain a half game.

Frederic Roe of the Dodgers hurled a good game, good enough to win most of the time. But his two home run balls to Dark, one in the first and another in the sixth, before he was relieved by Dan Bankhead in the eighth, proved his undoing.

The Brooks' hope of overtaking the Phils received a serious setback when Second Baseman Jackie Robinson showed up with his left hand in a cast, as a result of tearing two ligaments in his thumb. He may be out the rest of the season.

In the only other National League day action, Cincinnati won a pair from the Chicago Cubs, 7-4, Pittsburgh and St. Louis had a twin-night double-header scheduled.

## Texas Colleges Open Gridiron Door This Week

(By The Associated Press) College football bursts into the scene with a rush this week in Texas.

Eight Junior Colleges and 17 Senior Colleges have games. Also, the earliest conference games on record will be played.

Sul Ross and San Houston State meet at Huntsville Saturday night in a Lone Star Conference game.

At the same time West Texas State will be clashing with Arizona State at Flagstaff at Amarillo and Hardin-Simmons will be meeting New Mexico A. & M. at Las Cruces, N. M., in Border Conference games.

But the feature will be North Texas State's battle with Kentucky at Lexington, Ky. Ambrose North Texas, a member of the Gulf Coast Conference, will be tackling a southern power in one of the country's top inter-sectional games.

The week's schedule: Thursday night — Wharton vs Cameron Aggie; Lawton Okla. vs Texas Southmost vs Texas A&I at Brownsville, Navarro vs Ikligore at Kilgore, Panola vs Paris at Paris.

Friday night — Agricultural School of Mexico vs Laredo at Laredo, Henderson County vs Arlington State at Arlington, Daniel Baker vs New Mexico Military Institute at Roswell, N. M.

Saturday night — Mexico City College vs Edinburg Regional at Edinburg, Cisco vs Tarrant State at Stephenville, Texas Western vs Cincinnati at Cincinnati, Sul Ross vs Sam Houston State at Huntsville, Abilene Christian vs Eastern New Mexico at Abilene, Southwestern University vs Texas State at San Marcos, East Texas Baptist vs Stephen F. Austin at Nacogdoches, Arizona State at Flagstaff vs West Texas State at Amarillo, North Texas State vs Kentucky at Lexington, East Texas State vs University of Corpus Christi at Corpus Christi, Hardin-Simmons vs New Mexico A. & M. at Las Cruces, N. M., Midwestern vs Southwestern Tech at Wichita Falls, Lamar vs Southeastern State at Beaumont.

## Fort Wayne Defeats Elk City in Finals

WICHITA, Kas. — (AP) — Fort Wayne retained its National Semipro Baseball Tournament title last night, received a \$10,000 first prize and headed for Japan.

The Indiana team beat the Elk City, Elks, 5 to 2, in the final game of the lengthy double-elimination tournament.

It was the fourth consecutive time Fort Wayne has won the championship.

In addition to the Indiana squad, three Elk City players and three Alpine, Tex., players are making the dummies trip. They are pitchers Dee Sanders, Leo Hatley and John Brechin of Elk City and catcher Bill Looney, outfielder Ray Van Cleef and shortstop Guy Wallace of Alpine.

Four fifths of the world's clothes come from Zanzibar and Pemba, islands off the East Africa coast.

# Pirates Make Boys Ranch Walk The Plank at Shaw Field, 40-0

## Rough Riders Fail to Dent Lefors Line

Coach Mack Winter's Lefors Pirates rode rough shod gridiron the Boys Ranch gridsters from Tascosa, Friday night at Shaw Field, 40 to 0.

The Class A BI District champions opened the touchdown gates in the second quarter and the Rough Riders couldn't close 'em.

Lefors fumbled the opening kickoff and Boys Ranch recovered on the Pirates' 29 yard line. In three plays, the Bucs forward wall pushed Tascosa back 29 yards. After a scoreless first quarter, Lefors came back to push across three touchdowns in the second period.

Halfback James McEntire cracked through the Rough Riders' left side, picked upblockers and scooted 52 yards for the first six points. Fullback Ray Dickerson jammed it over for the extra point.

Quarterback Billy Watson was the next Pirate to cross the double stripe mark. Watson hit pay dirt from 19 yards out on a fake reverse. Dickerson pushed it across for the extra point and Lefors led, 14-0.

Halfback Ray Timmons added his name to the scoring column by scampering 34 yards for the third TD, with three seconds left to play in the half. Dickerson failed to convert and Lefors led the field at halftime, leading 20-0.

Lefors took to the air lines to score their fourth six pointer. Watson hit end Jimmy Doom with an aerial flop on the 35 yard line, and Doom took it from there. Dickerson added six more points in the third period with a 20 yard run. Timmons bucked it over for the extra point.

The final touchdown for Lefors was made by Joe Martin, halfback. Martin cracked the left side of Tascosa's line from one yard out to wind up the night's scoring.

Lefors' forward wall completely dominated the game. The Rough Riders gained 13 yards rushing against the Orange and Black, while the Pirates rolled up 212 yards rushing.

Lefors starting lineup: Melvin Bigham, Gordon Rutledge, Edward Wiggins, Bob Clemmons, Jean Jennings, Russell Herrin, Jimmy Doom, Joe Martin, Ray Timmons, Ray Dickerson, Billy Watson.

Substitutes: Coberly, Pflug, McIntyre, Maples, Howard, Braly, Newsom, Briater, Morris, McKnight, Stokes, and Redes.

## Pampa, Lefors Gridsters Play With Buffalos

Three football players from the Pampa-Lefors area are in the thick of training at West Texas State College in preparation for their opening game with Arizona State next Saturday night in Amarillo Stadium.

Phil Payne, 185-pound guard from Pampa, has been showing up well for his position through the first 19 days of fall drill. Payne played for the Cameron Aggies before transferring to West Texas.

The two Lefors boys on the varsity are C. Keeton, 200-pound end, and Joe Ogden, 180-pound wingback. Keeton will probably get the nod as defensive starter at the end.

The three gridsters are among the varsity squad of 47 which many fans are rating as the team to beat at the 1950 Border Conference race.

Showing up well in the frosh workouts are Paul Boswell, and Pete Cooper. Ike Doom, star guard for Lefors last season, is rocking the dummies for the West Texas frosh. Doom weighs only 170 pounds.

## Fort Wayne Defeats Elk City in Finals

WICHITA, Kas. — (AP) — Fort Wayne retained its National Semipro Baseball Tournament title last night, received a \$10,000 first prize and headed for Japan.

The Indiana team beat the Elk City, Elks, 5 to 2, in the final game of the lengthy double-elimination tournament.

It was the fourth consecutive time Fort Wayne has won the championship.

In addition to the Indiana squad, three Elk City players and three Alpine, Tex., players are making the dummies trip. They are pitchers Dee Sanders, Leo Hatley and John Brechin of Elk City and catcher Bill Looney, outfielder Ray Van Cleef and shortstop Guy Wallace of Alpine.

Ray Timmons, Lefors halfback, gets away from Eddie Backer. Boys Ranch fullback, to reel off a 34-yard touchdown run with three seconds left to play in the first half. Left End Jimmy Doom, number 30, is coming in from the side to block out a rough rider. The man in the striped shirt is following the play just to make sure everything goes according to Howell. (News Photo and Engraving)

## Rice Rushes New Stadium for Fans

HOUSTON — (AP) — While 180,000 and last year attracted around - the - clock construction crews rush a new 70,000-seat stadium to completion, Rice Institute fans are buying more football tickets than ever before in history.

There are good prospects for capacity crowds for three of the Owl's six home games — Santa Clara on Sept. 30, Southern Methodist on Oct. 21 and Texas on Oct. 28.

This would mean 210,000 people would file into the new stadium on only three weekends. Six games in 1948 drew only 180,000.

## Star of Week

In the period ending September 2 the support for one WILCOY CASH MOORE of the Lubbock Hubbers was so conclusive he can lay undisputed claim to the title of PLAYER OF THE WEEK and, for the first time in several weeks, does not have to share honors with any one else.

### Outraged Texans Get Quick Apology From Erring Editor

KILGORE, Texas — (AP) — Boiling Texans may simmer down a bit — the president of Esquire says he's sorry his magazine mistook three Kilgore beauties for Oklahoma girls.

Kilgore residents started howling for the apology Friday after reading "Oklahoma OK" — a feature about University of Oklahoma football — in the October issue of Esquire. The article was illustrated by a picture of three Oklahoma girls identified as "good cheerleaders who typify the great Oklahoma spirit — plus."

But people in this East Texas city quickly spotted the girls as members of the Kilgore College Rangettes. They said the picture was taken when the Rangettes and the Ranger band put on a half-time show at the 1950 Sugar Bowl game between Oklahoma and Louisiana State.

"A gratuitous insult," Mayor Roy Laird called it. He directed and complimented the students of

### Fighting Chaplain To Finally Take Up First Military Duty

HARRISON, Ark. — (AP) — The Rev. Joe Lauro, who interrupted his studies for the priesthood to fly in combat for two allied nations in World War Two, is going back to war — this time as a chaplain.

Father Lauro, a native of Chicago, was a student at St. John's Seminary in Little Rock, when, early in 1941, he left and entered the Royal Canadian Air Force. Commissioned a flight lieutenant, he went to Europe and flew 68 missions over Germany and Italy.

After the United States entered the war, he resigned from the RAF and joined the U. S. Air Force. In command of a B-24 Kilgore College on having such pretty cheerleaders.

"Esquire should have known that such beautiful girls could only come from Texas."

### Rubber Output, Price Both Setting Records

WASHINGTON — (AP) — Rubber prices and world production of natural rubber are both setting records.

The Commerce Department reported that prices were at the highest level in 25 years and that production set a new record in July for the second straight month.

July production was estimated at 167,500 long tons, 10,000 more than in June.

From England he twice received the Distinguished Flying Cross, and from the United States the DFC and the Air Medal with five clusters.

After being mustered out of the U. S. Air Force with the rank of major, he returned to St. John's. He was ordained a priest last May, celebrated his first mass in St. Theodore's Church at Chicago, and was assigned to Catholic churches here and at Eureka Springs.

Yesterday he announced he would rejoin the armed forces as a chaplain.

### Pesky Mesquito Is Victim Of New Chemical Mixture

COLLEGE STATION — (AP) — One of Texas' toughest problems — how to kill mesquite — may have been cracked by research men at the Spur experiment station of Texas A&M College.

Spraying from an airplane with acid of 2,4,5-T ester has given remarkable results, a report by C. E. Fisher, Spur station superintendent, revealed.

Mesquite for many years gradually has been ruining some of Texas' best range lands. Grass will not grow under it, and the bare topsoil is washed away easily.

Since 1938 Fisher has tested 8,000 different chemical mixtures for killing mesquite. Results indicate that four chemicals give promise of controlling the plant. They are the ester and amine of 2,4,5-T and two other chemicals which have not yet been named.

Have Our Fighters Enough Supplies?

Our defense officials are being jumped on because U. S. troops in Korea had to begin fighting without tanks, tank-killing bazookas and other useful weapons. But that's not all they failed to provide the GIs.

They didn't tell them why they have to fight in Korea. They didn't tell them why they don't understand. Furthermore, not having been briefed on what makes a Korean tick, they're showing a lot of impatience and mistrust toward their allies.

Now reports come filtering back that many of our fighting men resent being thrown into a fight they don't understand. Furthermore, not having been briefed on what makes a Korean tick, they're showing a lot of impatience and mistrust toward their allies.

Since nationalism burns bright among Koreans as among all Asiatics, the natives don't like being shrugged off as a bunch of inferiors. They're beginning to cool off toward their would-be saviors, and in time they become actively hostile.

One can guess what the top military brass would say about this: "Nobody told us we'd ever have to fight in Korea." They've already said it to explain why they weren't set for the sort of war we're fighting there.

But that answer isn't good enough. A good many experienced judges declare we did a bad job of telling GIs in World War II why they had to fight in Europe.

Do our present-day soldiers have a real idea what they're supposed to be doing in occupied Germany, in Austria, Trieste, and Japan? They know their military duties of course. But they don't get much helpful talk on why they're thousands of miles from home.

On the basis of past performance, there's little reason to believe the GIs would have to be briefed any better if the military knew they were heading for Korea.

It looks like the military either doesn't know how to teach the political facts of life, or can't see their importance. Our soldiers in Korea might well be men from Mars for all they know of that country. And they could be forgiven for thinking Karl Marx, the father of communism, plays third base for the Cincinnati Reds.

It's too late to prevent the harm done by their lack of good guidance up to now. But since the top brass has at last turned attention to giving the GI some hardware to fight with, maybe they can devote the thought to telling him sensibly why he has to use the stuff.

Civilized Age

Ever so often we find ourselves thinking about how old we're getting.

Washington.....by Peter Edson

WASHINGTON — (NEA) — When Navy Secretary Francis P. Matthews made his famous speech at Boston, saying that the United States should be willing to achieve a world of peace, it was a world of peace, but they don't price of instituting a war to compel cooperation for peace, "people began wondering who had written it for him. The answer seems to be that he wrote it himself, and didn't tell anybody about it.

The secretary had been at his home in Omaha the week before he was to make the speech. He drafted it there. He came back to Washington, turned his copy over to the department of defense public relations office for copying and press releases then went on to Boston and delivered it.

The public relations reviewing officers didn't catch the importance of it, and let the wild ball roll right between their legs. They didn't even bother sending it in to Undersecretary of Defense Steve Early for review. It didn't even occur to them.

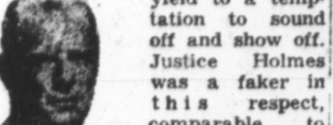

Michael James McDermott celebrated his 30th anniversary as an employe of the state department the other day. Known to every newspaperman who ever worked in Washington as "Mike," Mr. McDermott is in charge of state department press relations and quite frequently is the "state department spokesman" who hands out important news that you frequently read about in Washington dispatches. The way Mike got into the government service is not without interest. He was born in Peabody, Mass., of Irish immigrant parents, and was graduated from Peabody high school.

When the first world war broke out, his father called young Mike to the front. He told him that the United States had given the McDermotts everything they had and the chance to come up in the

Fair Enough - Pegler

By WESTBROOK PEGLER

NEW YORK — I realize that the dissenting, or minority opinions, of our courts are not law, and that majority opinions being law, and that some judges yield to a temptation to sound off and show off.

Justice Holmes was a faker in this respect, comparable to Henry L. Menck-en, who, being mischievous, has delighted to manipulate error and overwhelm sound reason with robust vulgarity. Holmes was a poseur, in love with his own shaggy intellectual grandeur, and, at best, an advocate of a rule of thought fundamentally as brutal as any of those that have cursed the world these last 25 years. He excited force and regarded man as a subject of force.

The late Frank Murphy — dissented to indulge his vanity, or concurred, in separate opinions, for the same reason. Like some Washington cosmic ideologians of the syndicate business, Justice Murphy was not too dignified to bring up his separate opinions for flattering discussion among his social set.

When the Ninth Circuit Court of Appeals, in the second Harry Bridges deportation case, decided against Bridges, holding that he was a Communist enemy of the United States and, therefore deportable, the C.I.O. turned out literature damning the court. The chief writ that was circulated across the country and particularly among wage - worker circles was an appeal to the courts, was a reprint of the minority opinion holding that the deportation was a dirty outrage. The foreword to this booklet was an official appeal to the court, written by or for Philip Murray, the president of the C.I.O. Murray cried that Bridges was an innocent martyr to the cause of labor.

Murray later threw Bridges out of his job as regional representative of the C.I.O. on the West Coast on the mere ground that Bridges was supporting a political candidate unpalatable to him and the C.I.O. Bridges supported Henry Wallace. Murray and the C.I.O. supported President Truman.

This disposal of Bridges was an outrageous violation by a union dictator of the political rights of an individual. Nevertheless, this was the official attitude of the C.I.O. in a flagrant case. It is cited to prove that even the

thing we look back — and it seems ages ago — to the days when the top of every flagpole was (enacted, marathon dancers grew bunions and men went over Niagara Falls in barrels.

Never again, said we, will we see such silly days. We're growing up.

Well, here we are 20 years later. In just the past few weeks a barrel, a soldier made 123 parachute jumps in one day. There are a few scattered flagpole sitters and one young fellow is living in a glass-topped steel tank under water — if you can call that living.

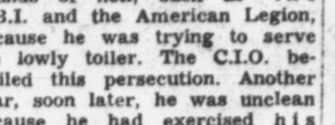

And the newest thing in this same age comes from a 38-year-old deep sea diver. He took a 14-mile walk under water on the East coast.

We should all be glad we're not living in those foolish days almost a quarter of a century ago. People surely did some silly things then, didn't they?

I WRITE AS I PLEASE

By DAVID BAXTER

Paul Nissen is an enterprising and highly competent newspaper advertising man. He is the type of citizen who thinks and knows how to ask constructive questions which require constructive answers. Recently he asked me two questions which really deserve some comment. The first one was, "Do you write on the public school issue in conformity with the ideas of the publishers of your column or do you believe what you write?" The second question was, "What concrete plan can you advance to supplant public schools with private ones?"

The answer to the first question is that I write as I please. I do not write anything that I do not personally believe in or believe to be wrong. If any publisher or editor were to order or advise me to "slant" stories to conform with his views I would tell him to go jump in the lake. When I talk about individual independence I mean it. If the time should come that I would have to become an intellectual prostitute or hack writer I would go into some other business. It is even likely that some of the papers which run this column do not always agree with viewpoints expressed but thus far not one of them has attempted to do any dictating. After all, it is generally recognized that a columnist's views are his own. There is only one qualification the papers I write for insist upon and that is that the columnist answer any and all questions on subjects he writes about. Under that ruling a writer must be pretty careful to have some documentation of what he says, or, if a mere opinion is expressed, to have some solid, logical arguments to back it up.

Regarding my comments on public schools, I'll have to honestly admit that I do not even know what some of the editors or publishers of papers this column appears in think about public schools. One publisher probably does agree with some of my views on schools because it happens that after a great deal of discussion and skirmishing, he proved his contentions and, quite some time ago, I was forced by facts and logic to agree with him that the principle of public "free compulsory (note the contradiction in terms right there) education" is not education at all, but training. Nor is it "free." Frankly, until my rude awakening, I had always taken public "education" for granted as an American institution. It had never occurred to me that the basic principle of collective force as manifested in the schools was all wrong.

Now about what to do if public schools were to be abolished. On the basis of even so great an educator as Dr. Robert M. Hutchins' opinion that public "education" is a failure, I think public schools, paid for by taxpayers under threat of penalties, should be abolished and a better, more American, more free system instituted. If public schools were to be eliminated tomorrow, what would we do? We must have facilities for educating and for training. Well, what do the Catholics do? What do Seventh-Day Adventists do? What do agnostics do? The former seem to get along all right sending their children to private schools. If agnostics don't like religious training they can always establish schools of their own choice, as for example, Cornell College. If small and great colleges and universities can operate efficiently and — by all means — with freedom, on a private basis, why in the world can't grade schools and high schools do likewise? We have no choice now. Everything's compulsory. If you want Godliness or morality as the foundation on which your child's education is to rest, that is just too bad. You send your children to the school you are told to send them to and have them taught what you are told to have them taught — or else. Besides, you go on paying for those schools all your life, long after your children have ceased using them, and thus you are paying for something which you receive no service in return. No private school would operate on such a forcible basis. After you've paid for your youngster's schooling and gotten your money's worth, you're through unless you voluntarily want to contribute more money. As it is now you can, be sure, send your kids to a private school but you haven't escaped the public monster. You're going to have to support it anyway and thus pay twice — once for your child's education and again through taxes for the forcible system. You don't have to pay school taxes, to be exact. You can forfeit your home or property.

Why, friends, if public "free compulsory (?) education" were to vanish tomorrow — or better yet, today — it would be one of the hardest blows ever struck at collectivism and initiative force. It would be one of the greatest steps toward actual realization of the Declaration of Independence.

increase government expenses by that much. Idea of re-investing this matured bond principal in new savings bonds can be supported by arguments that buyers of the new bonds would be compounding their interest.

So They Say

Today's fans don't mind that their idols are married. They did then (30 years ago). There were only six or seven stars. We were like people from Mars. The public had us on a pedestal. —Francis X. Bushman, early movie star.

National Whirligig

news behind the news

By RAY TUCKER

WASHINGTON — Our Korean experiences convince many Pentagon experts that the United States must reorganize, restrain and reorient all its defense forces, unless this country is to duplicate the mistakes the overconfident British made when they slaughtered their tried and tested, uniformed and veteranized fighting men against "colonials" in parade array on Bunker Hill.

Our initial setbacks, like those which the Japanese in early 1942 indicate we are wholly unprepared for the peculiar kind of warfare we may be forced to wage in the hard, difficult terrain of Indo-China, Burma, Malaya, Thailand and other sections of Asia and the Balkans.

LESSONS — While the fundamentals of "getting that fustiest with the mostest men," although today it is "power," remain the same, we must relearn some of the lessons George Washington tried to teach Braddock, a fine strategist of the classic, European school, near what is now Pittsburgh. Our men, for instance, still wear relatively heavy uniforms and carry backbreaking packs in the Far East's terrific heat, suffering from sunstroke as well as from enemy fire. Long ago the British shifted to shorts, T-shirts and a minimum of personal baggage in the same areas where we may be called upon to fight.

Our armies still require vast, snake-like supply trains and bases that are difficult to maintain, immobile and vulnerable to attack. For every man from five to eight in the rear areas, not counting the Chinese, there are 100 in the front. The North Koreans overwhelmed us at the start for the same reason.

Incidentally, Pentagon men point out that these observations apply to the British, French, Dutch and all our anti-Russian allies.

SUPPORT — Our lessons on aerial warfare are equally enlightening, even though we control the skies completely.

We have learned that there may be a limit to strategic and tactical speed because that means lack of maneuverability. We have found that we need more strafing fighter ships to support ground troops and artillery in the hills and valleys almost impassable.

Imagine a man under duress as to how his children shall be trained calling himself "independent." That is the principle we are striving for. Compulsory public training violates that principle. It violates the Declaration, it violates the great Christian ethic of the Golden Rule and it violates article 8 of the Ten Commandments, "Thou shalt not steal." If I force you to pay for services you are not getting or don't want, I am stealing from you.

If we had no public schools we would have no such controversies as has arisen over the Barden Bill, the rights of Catholics and other minorities, much less increasing governmental infiltration and supervision of the school system with attendant politics and terrific expense. You would simply get together with others in your community and establish local schools of your choice, hiring your teachers direct, or sending your children to any private school anywhere. Religious groups could keep up their parochial schools as at present and not have to worry about taxes for public "education." To top that, your expense would be less than it is now — by a very great margin.

What's wrong with that American approach to an American problem?

Tagalong

TAKE YOUR LIFE BROTHER WITH YOU OR NOBODY GOES NO PLACE!

Thoughts

For I delivered unto you first of all that which I also received, how that Christ died for our sins according to the scriptures. —I Cor. 15:3.

All things were made by him; and without him was not any thing made that was made. —John 1:3.

Specifications. Then came the "worry" of the proper container. Many were tried but none worked. He went to the Crown Can Company and together they worked out a container that worked like magic.

Now Louis has his 1 1/2 pound hand torch perfected. A can of fuel which costs a dollar will last for four hours. It gives heat up to 2,200 degrees and has been approved as safe by Fire Departments.

Don't cuss your worries. Solve them — and they'll make you a millionaire.

Success Secrets

By ELMER WHEELER

Worry can kill you — or make you rich.

Louis A. Falligant, president of Pressure Products Corp., is one of the ones who is in a fair way to becoming a millionaire — because of worry.

The Nation's Press

HOW TO MAKE A BOTTLENECK (The Wall Street Journal)

The planners' plans for administering the Government's new allocation powers are, as the Washington reports note, a bit fuzzy. But the Administration is giving a pretty clear lesson in how to manufacture bottlenecks.

To begin with, the President looks to Congress' demand for broader power to allocate materials before anyone had any idea what materials needed to be allocated where or, indeed, whether there was need for any allocation powers at all.

Since nobody knew what was not going to be allocated, everybody — from businessmen to housewives — concluded that what they needed might be allocated and so they all went on a buying spree. This promptly created some temporary shortages, or bottlenecks, where none existed before.

Then the officials, in order to allay alarm, began to say that this-or-that commodity would not be allocated "now" or "for the immediate future" — all managing to leave the impression that the absence of immediate controls on this particular commodity was only due to the fact that the officials hadn't gotten around to thinking about them yet.

As if all this didn't cause sufficient confusion, the Government agencies which have been exhorting us all against "grabbits" have started an inter-office feud to see which one can grab the biggest share of the control powers. There seems to be hardly a Government office left that hasn't put in its bid for a part of the supply.

Now there is not only dark doubt as to what the Government is going to allocate when, there is considerable bewilderment as to who is going to do the allocating how.

The user of copper, to seize upon just one example, does not know whether or when the planners will take a notion to clamp down on his supply. If they do, he does not know what agency he will have to deal with or what standards may be used in allocation. He may find himself snarled up with the Interior, Agriculture and Commerce Departments or the N.S.R. — or, as likely, all of them together, each with its own idea of what constitutes a "shortage" and how best to divide it up.

The amazing thing about all this, and the source of the general levelheadedness of the populace is that it produces only uncertainty and not complete chaos.

But the uncertainty is bad enough, because out of its growth a demand that is a hedge not against normal requirements but against the future whims of Government offices. So even where there was no shortage, one can be made soon enough; when better bottlenecks are made the bureaucrats will make them.

The Doctor Says

WRITTEN FOR ME BY EDWIN J. JORDAN, M.D.

The thyroid is a gland of internal secretion which lies in the front of the neck. It does not have a duct or passageway to empty its secretions and therefore the hormones which it manufactures go directly into the bloodstream.

When behaving normally, the thyroid produces just the right amount of secretion for the needs of the body. It helps to regulate the actions of other internal glands and also to keep the heart rate regular.

If the thyroid gland starts misbehaving it may produce too much secretion a secretion which is abnormal. The result is the development of a condition which is known as toxic goiter of which there are several kinds.

In a toxic goiter the thyroid becomes somewhat enlarged. The other symptoms vary but the most common besides enlargement are a rapid heart rate, bulging eyes, trembling of the hands, nervousness and loss of weight. Sometimes these symptoms alone are enough to make a diagnosis.

Almost always, however, doctors wish to have a metabolism test taken which measures more accurately the degree to which the thyroid is overactive. This is done early in the morning after eating. It is entirely painless. MUST BE DISCOVERED EARLY

Bid For A Smile

As if it wasn't bad enough with the perfume, United States manufacturers are giving ladies' stockings those tantalizing names. Maybe it is coming to pass that the men shoppers won't just drop into a ladies' hosiery shop anymore with a simple request for a pair of nylon. They will be asking for "Follow Me" or "Two Down Front."

Not all patients with toxic goiter can be successfully treated medically, however, and surgery will continue to be the best treatment for at least a number of patients for some time to come.

## Great Galveston Hurricane Occurred Just 50 Years Ago

GALVESTON — (AP) — Just a half century ago Friday, one of the world's greatest disasters struck this island city.

People still don't know exactly how great was the toll. Some say as many as 8,000 were killed. Other estimates drop as low as 5,001. Population before the storm struck was 30,000.

The staggering loss of life came from a hurricane accompanied by a tidal flood.

Property damage was estimated at \$50,000,000 back when a dollar bought a lot more than now. Great sections of the bustling port city were razed.

Today a great sea wall protects the city from a recurrence of the disaster.

The first warning of the hurricane came Saturday, Sept. 8, when winds increased. Before long, the wind had pushed water across the city and it was 14 feet deep in the streets. Houses crashed. Screams of terror and anguish were heard above the roar of the wind.

The wind blew at a steady 125 miles per hour with gusts up to an estimated 200 miles an hour.

Later, decaying bodies set up a great odor. Attempts were made at burial, but that was impossible. Some bodies were burned on great funeral pyres. Others were taken by boat and buried at sea. Bodies were still being found in the wreckage six weeks later.

The storm had destroyed about 3,800 houses. On the beachfront, 1,500 acres were a tangled wreckage. One 18-block section had been swept clean of houses.

Galveston feels secure now. A hurricane of even greater intensity hit the city in 1915 but because of the seawall's protection, not a life was lost.

**NEW RED CHIEF?**—Reports from Canton, the capital of Communist-occupied China, say that the next military chief in Manchuria might be Russian-trained Gen. Lin Piao, above, at present commander of the crack Fourth Field Army, Manchuria, which is adjacent to Korea, is of tremendous strategic importance in both the hot and cold wars.

## Price of Raw Materials, Finished Goods Still Rising

By SAM DAWSON

NEW YORK — (AP) — Prices of industrial raw materials and finished goods continue to push higher last week. Some hit or passed previous postwar highs.

The price increases will affect the cost of making the clothes you wear, the car you drive, the home appliances you want to buy. They will even raise the cost of handling, processing and packaging the food you eat.

In the last two days price hikes have been announced on: worsened cloth, zinc, copper products, talow and grease, steel scrap, tires and tubes, caustic soda, rayon viscose yarn, ethyl anti-knock for gasoline, floor coverings, roller bearings and rock bits.

The wholesale commodity price level, the bureau of labor statistics reports, is approaching the all-time high held for a time in the summer of 1948. In fact, the index of commodities other than farm products and foods has already gone beyond that peak to set a new postwar mark, thanks to the big push given it by advancing prices of building materials.

Food prices may ease as the harvest is garnered, but the march of industrial products to higher levels is likely to be maintained, as the cost of raw materials and higher wages is passed along.

Rubber companies are advancing the price of tires and tubes

which auto makers must buy to outfit the car they sell. Price hikes of 10 to 12 1-1 percent are being added to boosts of 8 to 12 1-2 percent ordered in the middle of July.

Caustic soda, used in the making of rayon, is going up 15 cents a hundred pounds, the second price advance this year. And American Viscose Corp. will raise prices of rayon viscose yarn by one to four cents a pound.

American Woolen Co., spurred by the 50 percent hike in the price of Australian wool, is raising the price of men's worsted fabrics for the third time since June 1. The increases total 80 cents to \$1 a yard. Suit makers, who will have to pay these new prices for fabrics next spring, will announce their own new prices soon.

Even the cost of using the air is going up. On the heels of the

increase in advertising rates in many magazines, a New York television station announces today that commercial advertising rates are going up 10 percent. This will hike the base evening hour rate from \$3,000 to \$3,300.

**FILL COOKY JAR**

To fill a cookie jar for after-school snacking for youngsters choose cookies with dried fruit, molasses, rolled oats or other cereals so that boys and girls get the excellent nutrients in these foods.

BEMUS POINT, N. Y. — (AP) — Retail liquor dealers reported a theft at their outing.

The loot: several cases of soda pop.

Tens of thousands of crossings of plants are sometimes required to produce a distinctive type.

## Estimate of Cotton Production Drops

WASHINGTON — (AP) — The Agriculture Department has forecast this year's cotton crop at 9,882,000 bales of 500 pounds gross weight.

This estimate is 426,000 bales less than the 10,308,000 bales forecast a month ago. It compares with 16,128,000 grown last year and with a ten year (1939-48) average of 11,599,000 bales.

Production is down from last year largely because of the effects of a government control program designed to prevent the accumulation of a burdensome surplus. But the government had not sought such a drop. Some farmers did not plant all they were entitled to under the program.

Nevertheless, reserves from past crops assure ample supplies of most grades and staple lengths until the 1951 crop is harvested.

In addition, the government today restored strict controls on exports of cotton.

In a report accompanying the crop forecast, the census bureau said 863,633 bales of 1950-crop cotton had been ginned prior to Sept. 1 compared with 1,247,576 bales to the same date last year and 1,444,355 two years ago.

## Court Orders Cugat To Continue Alimony

LOS ANGELES — (AP) — Xavier Cugat, the rumba man, must continue alimony payments of \$2,000 a month until his estranged wife's suit for separate maintenance comes to trial.

Superior Court rejected a plea from Cugat's attorney to set aside the alimony order, on the ground that the handleader had not been properly served with the suit of actress Lorraine Allen. The wife contends Cugat is deliberately staying on the road to avoid legal processes in her suit.

# Looking for a Money Saver?

## Better Buy Buick!

**YOU CAN SEE here how smart it is**—don't have to be told that it's the most quickly identified car on the road today.

You probably know that the engine under that broad bonnet is a Fireball straight-eight valve-in-head engine and a lively stepper in any company.

**FOUR-WAY FOREFRONT**—This rugged front end (1) sets the style note, (2) saves on repair costs—vertical bars are individually replaceable, (3) avoids "locking horns," (4) makes parking and garaging easier.

You can check the abundance of its room by the simple expedient of taking the family and trying out its spaciousness at the nearest Buick dealer's—and a very few minutes on the open road will satisfy you that all-coil springing, low-pressure tires and Buick's torque-tube drive really do produce a ride that is matchless for its soft comfort.

**BUT RIGHT NOW,** it may be that the money angle is the thing uppermost in your mind, and on that we'd like to make two points:

All our records go to show that this is the most economical Buick ever built. It is easy on gas, on oil, on tires, on upkeep.

And if you choose it with Dynaflow

Drive,\* it immediately eliminates all chance of friction-clutch repair and replacement—not to mention greatly reducing rear-axle and transmission maintenance.

Best of all, your initial outlay is a highly favorable one—whatever Buick you buy. For these brawny straight-eights—built rugged and solid for durable service—are priced at a level that makes them a standout buy in any price class.

Yes, better buy a Buick. Your dealer will be glad to demonstrate, glad to work out all the arithmetic of a deal. See him right away and get an order signed.

\*Standard on ROADMASTER, optional on extra cost on SUPER and SPECIAL models.

YOUR KEY TO GREATER VALUE

### Polio's Virus May Be Isolated in Spinal Cell Nucleus

NEW HAVEN, Conn. — (AP) — A Yale scientist has suggested that the mysterious virus which causes infantile paralysis may be manufactured in nuclei of cells in the spinal cord.

This new theory about the origin of the disease was advanced by Dr. Joseph L. Melnick in a report to the seventh congress of the International Society for Cell Biology.

Until now scientists had thought of the poliomyelitis virus as attacking only the cytoplasm of a cell but not the nucleus. (The cytoplasm corresponds to the white of an egg, and the nucleus to the yolk).

Dr. Melnick, associate professor of microbiology at the Yale school of medicine, said that he and his research assistant, Dr. Hohn E. Lacey, examined cells taken from the spinal cords of animals infected with polio.

They almost completely removed the virus from the cytoplasm by repeated washings with salt solutions of the same concentration as found in normal, healthy body cells.

Then they ruptured the nucleus

### Korea, Japan on Standard Time

TOKYO, Sunday — (AP) — The United Nations military machine turned back its clocks one hour Saturday midnight.

Daylight saving time ended in South Korea and Japan. It had not been adopted in North Korea.

The South Korean republic went on daylight time in April. Japan adopted the schedule at midnight June 6.

### Department Stores' Sales Continue Gain

DALLAS — (AP) — Department store sales in Texas' largest cities continue to boom, the Dallas Federal Reserve bank reported.

However, the increase for the week ending Sept. 2 was not as great as for some recent similar periods.

The bank gave these figures as compared with the same week a year ago: Dallas sales up 15 percent, Houston 13, Fort Worth 12 and San Antonio six.

Figures were higher for the four weeks ending Sept. 2 as compared with the same period a year ago: Fort Worth sales were up 23 percent, Dallas 21, San Antonio 20 and Houston 19.

With strong salt solutions, and found the virus present.

"This suggests," said Dr. Mel-

RED TARGET—Shown here is a view of the harbor at Pusan, South Korea, which is the object of the North Korean Communist all-out offensive. Since it is the main port of entry for both personnel and supplies, Pusan is of tremendous importance to the American and Allied forces now fighting to maintain a foothold in Korea.

### North Koreans Get News by Parachute

TOKYO — (AP) — United Nations forces are spraying Red Korean areas with "The Parachute News." It is a Korean language pamphlet that tells of U. N. progress in resisting Communist aggression.

Parachute News No. 11 says the North Koreans have lost the ground they won in their "biggest and perhaps last Communist offensive."

This is one of six items in the leaflet dropped to villagers and refugees behind U. N. lines. The leaflet carries a masthead design which includes both the Republic of Korea and U. N. flags.

A translation into English is summarized: "U. N. troops break Red offensive. Powerful U. N. counterattack again recaptured ground lost in biggest and perhaps last Communist offensive. Yongsan recaptured after temporary communist occupation."

The news is prepared by the military intelligence section, general staff psychological warfare branch.

### Crystal-Gazing Judge Foretells Dark Future

DETROIT — (AP) — Just as the crystal ball said, fortune teller Hazel Spurlock must either start a 100-day jail term or pay a \$90 fine.

She read the sentence in her own crystal ball after Recorder's Judge Joseph A. Gillis practiced a bit of practical sooth-saying.

For \$5, it was charged, Mrs. Spurlock's clients all got black futures but for an extra \$10 they got predictions of handsome husbands and families and fine homes.

Mrs. Spurlock's crystal ball was on the judge's desk. He fingered it, gazed into it for a while, then handed it back to the defendant, asking what she saw.

"It says \$90 or 100 days," gasped Mrs. Spurlock.

"So be it," said the judge. He had lettered the sentence on a piece of paper and pasted it on the ball.

### Elderly Woman Is Too Reckless

DETROIT — (AP) Traffic Judge John D. Watts' last word to Mrs. Florence Wilson, 64, was especially firm.

Mrs. Wilson, convicted of reckless driving, lost her driver's license for six months at the judge's order.

She had sideswiped two cars and police said she tried to elude arrest.

"But," she said, "I go to Florida every winter. Can't I have my license back to drive to Florida?"

"No, you cannot," Judge Watts replied, "and if it was not for your age I would send you to jail."

### Lefors Pep Squad Leaders Selected

LEFORS — (Special) — Miss Melba Joyce Hill has been selected by the Lefors Pirate pep squad as head cheer leader for the 1950-51 school year.

Miss Hill, a junior, will be assisted by Marie McPherson, freshman; Carlene Carruth, sophomore and Sherry Newson, senior.

Miss Norma Lee Lewis, a graduate of LHS, and H. L. McCarty were selected to sponsor the cheering section.

The pep squad is composed of all high school girls who are not in the band.

### Happy Holler Hall Captures Hearts of Correspondents

By DON WHITEHEAD (For HAL BOYLE)

KOREA — (AP) — It will be a sad day for United Nations news correspondents if the North Korean Reds ever capture Happy Holler Hall.

We have come to love this old clapnet of a building. It has housed us for weeks. It's the main base for most of our journeys to the front.

The rain slants through its broken windows. The bathroom facilities are crude, to say the least. And the fleas are with us to stay, despite DDT and other bug-killing wonders of modern science.

But it's home for the reporters of many nations. The warmth of friendship within its walls will be a memory that cannot be erased — even by the Reds.

Associated Press columnist and correspondent Hal Boyle gave Happy Holler Hall its name soon after we moved into the rambling, two-story frame building. The war was new then. A few of us patently old grads from World War II put cots in one room, promptly labeled the "Sheep Room." There we separated the sheep from the goats.

The goats were banned to the outer darkness of other rooms. Rules for the "Sheep Room" were simple: sleep in or goats. And if you don't like the bleating, get out!

Then Frank Conniff of the New York Journal American — an old sheep from World War II — had an inspiration. He proposed an "apology hour" from 8 a.m. to 9 a.m. daily. This has become the period for apologizing for all the insults of the night past.

This is the hour of penitence when wounded feelings must be soothed and outraged pride restored.

It should be a national institution — this apology hour.

In past weeks a former prime minister's son has been insulted in Happy Holler Hall. In turn, he has insulted some of his colleagues.

Distinguished British and American journalists have hurled angry words at each other — but apology hour has never failed to restore calm in Happy Holler Hall.

In a room with curtained windows, typewriters are pounded throughout the day and night. Correspondents shout over the telephone, dictating stories to Tokyo, while their competitors lounge nearby with ears bent to hear what is said.

Some one once commented that the last man on the telephone has the best story, because he has heard the reports of all of the others.

But Happy Holler Hall has two dictators. They are South Korean houseboys — Kim and You. They chide the newspapermen for untidiness. They police the room, take care of the laundry and

trousers disapprovingly at anyone using profane language.

Between chores, they study English diligently and keep a close and anxious watch on the progress of the war.

Kim and You look after the "sheep room" as though the correspondents were their special wards. When you return to the front, they rush out to greet you — their faces shining with pleasure.

Although several miles from the front, Happy Holler Hall has its exciting moments. There was the time a bomb dropped near the building; and the nights that Red shells lobbed over the house.

After nightfall, correspondents can sit on a little balcony and watch the fireworks of artillery, machinegun tracer bullets and flares against the distant dark hills.

In the harshness of the war, out of the trenches by Christ-Happy Holler Hall has been a lma.

### Phelps Resigns Borger Position

Wayne Phelps, former Pampa newspaper and radio man, has resigned as manager of Radio Station KRUZ in Borger. His resignation was effective Thursday.

Phelps, who moved to Borger in 1947 to assume management of the station, was active in Borger civic affairs and was one of the leaders in Borger's "Know Your Own Strength" week, to be held beginning Oct. 15.

Now taking a vacation, Phelps has not announced his future plans.

Succeeding him as manager of KRUZ is Jack Roberts, former assistant manager and a former sports editor of the Borger News-Herald.

zany but cheerful place where the heavy burden of the conflict can be shed, briefly at least. And the inhabitants all agree with the reporter who remarked: "We've got to get the boys out of the trenches by Christ-Happy Holler Hall has been a lma."

going up?

of course, Bentley's is going up!

and we speak not of high speed elevators being installed in the hughes building or of taking a trip via central airlines. we speak of where we are and where we're going, and, naturally, the answer is "up." many stores run in cycles, up and down they go ... riding the crest one year ... on the skirts the next ... heaven's knows a year ago even Bentley's looked a little seedy around the edges, but it didn't take long to get jeff lard to make us look neater and sweeter, going up? you bet we are, with room for more merchandise and a smart new shoe department we've hitched our wagon to a star and we're going no place but up, up, up. it's as plain as the nose on our pretty new face.

Miss Johnye Sue Hart and William J. Derington Repeat Wedding Vows in First Presbyterian Church

Miss Johnye Sue Hart, daughter of Mr. and Mrs. E. C. Hart, 1012 Twiford, and William J. Derington, son of Mr. and Mrs. P. W. Derington of Plainview, repeated wedding vows at eight o'clock Sunday evening, Sept. 1, in the First Presbyterian Church. Dr. Douglas E. Nelson, pastor, officiated at the double-ring candlelight ceremony.

Vows were exchanged against a background of lighted tapers in tall candelabra, placed in a setting of white gladioli, palms and other greenery.

At the organ, Mrs. H. A. Yoder played pre-nuptial selections, including "At Dawning," "O Promise Me" and "Always." Miss Pat Miller sang "Because." Mrs. Yoder played the traditional wedding marches, and she softly played "Clair de Lune" as the young couple repeated the nuptial vows.

The bride's maid of honor was Miss Roddie Wolverson of Denton, and best man was Harvey Meredith of Plainview. Ushers were Garland Smith, Plainview; Lamar Lively and James Hart, brother of the bride.

Entering on the arm of her father, who gave her in marriage, the bride was dressed in a white satin gown fashioned with a high neckline and Mandarin collar, and long fitted sleeves that ended in petal points at the hands. Tiny covered buttons closed the bodice from the neckline to the skirt. Her shoulder-length veil of illusion fell from a white satin cloche trimmed with white net and seed pearls.

Entwined in her bridal bouquet of stephanotis and white satin

streamers was a blue lace handkerchief, a high school graduation gift from a great-aunt. Mrs. J. W. Hogue of Brownfield. The maid of honor wore a gown of burgundy satin fashioned with full skirt and long, fitted bodice, and trimmed with burgundy lace. She wore matching mits and lace bolero, and carried a bouquet of bronze daisies. Her headdress was of daisies and net in the same shade of bronze.

The bride's mother wore a dress in forest green with black accessories and a corsage of tallisman roses. Tallisman roses also formed the corsage worn by the bridegroom's mother, who was dressed in autumn brown with green accessories.

The bride is a graduate of Pampa High School, and has attended North Texas State College, Denton, and West Texas State College, Canyon. Mr. Derington, a Plainview High School graduate, also has attended WTSC, where both will be students this year.

RECEPTION

Poore-Hardin Vows Exchanged in Miami Home

MIAMI — (Special) — Nuptial vows were exchanged by Miss Glenda Poore, daughter of Mr. and Mrs. Robert Poore of Miami, and Harry Earl Hardin, son of Mr. and Mrs. H. H. Hardin, also of Miami, in the home of the bridegroom's parents, Saturday evening, Sept. 2, at 6 o'clock.

The Rev. Hugh F. Blaylock, pastor of the Methodist Church, read the single-ring ceremony before a background of tall baskets of dahlias.

The bride chose for her wedding a navy blue dress of crepe with white accessories and a white carnation corsage. She carried a white Bible topped with a white gardenia, and adorned with white streamers of brocaded lace. She also observed the traditional something old, new, blue, borrowed and a penny in her shoe.

The maid of honor, Miss Eda Beth Gill, wore a green crepe suit and a white carnation corsage. Burl Bengel served as best man.

Mrs. Poore chose for her daughter's wedding a dress of navy crepe and wore a white carnation corsage. Mrs. Hardin's dress was blue and white dotted chiffon and her corsage was also white carnations.

Both Mr. and Mrs. Hardin have grown up in Miami and are graduates of Miami High School. They have been active in school and church activities.

After a brief wedding trip they will return to be at home in the postoffice apartments.

The bridegroom is employed at the H and H Grocery and Market.

In addition to the wedding party and the presence of the best man, Mrs. Hugh Blaylock was a guest.

The Pampa Daily News Women's Activities

PAMPA NEWS, SUNDAY, SEPTEMBER 10, 1950 PAGE 13

**BUSINESS IS BOOMING!** Not only were all those 3,809 school agents downtown this week but also their Mammas. After the teachers gave the kiddies their list of supplies, we followed the crowds to the stationer's and practically cleared his counter of pencils, zipper notebook they want. Buying a leather notebook is a serious proposition, but it's still funny to watch the way youngsters deliberate over the notebook they want. Buying a leather notebook is a serious proposition, and they try them all before they make a decision. (Kinda like we women do when we buy shoes).

**WHO?** On any big eventful day, you may go to her for advice. She'll show you a simple way. To achieve beauty at a low price. You could "trail-her" all the time. And hardly keep up the pace. But it wouldn't take long to find, there's always a smile on her face.

**PAMPA PANORAMA:** Big event this week was the Jean Haw and Charles R. Ware wedding, but I have yet to hear all the details. Mrs. Clyde Oswalt is a likeable person. Tommie Jeter is also a friend to all. Guess she has a lot more spare time now that See PEG Page 16

Couple Wed in Holy Souls Church; Plan to Make Their Home in Lubbock

In an informal ceremony in the rectory of Holy Souls Church, on Sept. 1, Miss Virginia Ella Johnson became the bride of Wayne Everet Reeve. The Rev. Otto Meyer read the single-ring rites.

The bride is the daughter of Mr. and Mrs. Thomas Johnson of Bristow, Okla., and the bridegroom is the son of Mr. and Mrs. George B. Reeve of McLean.

The bride wore a pink gabardine suit, white nylon blouse and brown accessories. Her bridal corsage was an orchid gladioli.

Mrs. Glen Darling was her sister's attendant. She wore a brown crepe dress with beige accessories and yellow gladioli. Mrs. Johnson, the bride's mother, wore a brown crepe dress with brown accessories and her corsage was yellow roses.

The reception, which followed the ceremony, was held in the home of Mr. and Mrs. C. R. Reeve, mother of the bridegroom, where Mr. and Mrs. Thomas Johnson were Mr. and Mrs. Thomas Johnson.

Skellytown Church Is Setting for Shipley-Meadows Double-Ring Vows

Against a background of white gladioli and palms, which banked the altar, Miss June Shipley of Amarillo became the bride of Doyle Meadows, also of Amarillo, at 3 o'clock Sunday, Sept. 3. The bride is the daughter of Mr. and Mrs. C. M. Shipley, and the bridegroom is the son of Mr. and Mrs. E. W. Meadows, both of Skellytown. The double-ring ceremony was read in the First Baptist Church of Skellytown by the Rev. M. O. Evans.

Given in marriage by her father, the bride wore a gray suit, trimmed in black velvet and black velvet pumps. Her off-the-face green suit was set off by black net was also of black velvet, and she carried a shower of white.

Jean Haw, C.R. Ware Wed

The First Christian Church of Pampa was the setting for the wedding of Jean Hill Haw and Charles R. Ware at 8 o'clock Thursday evening. The Rev. Henry H. Tyler read the double-ring ceremony by candlelight against a background of woodwardia fern, luscious leberly and large white chrysanthemums. Candelabra formed an improvised altar for the exchange of nuptial vows, and the aisle was marked with white lighted tapers and white chrysanthemums.

The bride is the sister of Mrs. B. F. Morris, Pampa, and the bridegroom is the son of Mr. and Mrs. Arthur H. Ware of Amarillo.

Mrs. Morris served as her sister's matron of honor, and wore a pale rose satin gown, ballerina-length, with a net yoke. She wore a matching fitted jacket and white satin Juliet cap and carried a bouquet of pale rose spider chrysanthemums.

Cornelius H. Ware served as his brother's best man. Ushers were B. F. Morris, James Harris Hill, brother of the bride; Irvin Wall, and George Ritter.

F. E. Imel gave the bride in marriage. She wore a ballerina-length gown of champagne chiffon fashioned with a Grecian neckline, and wore lace gloves and a Juliet cap in the same shade, and a brief satin cape in a darker shade of champagne. Her only jewelry was a single strand pearl necklace which belonged to her mother, and pearl earrings. She carried a white satin Bible and a colonial bouquet of pale green Cypripedium orchids. The Bible belonged to Mrs. Myron Marl, Jr.

Mrs. Ware, mother of the bridegroom, wore a navy blue lace dress with matching accessories and an orchid corsage. Her hat and gloves were also of a navy lace. Mrs. F. E. Imel wore midnight blue lace with a black velvet rhinestone trimmed hat and black gloves. She, too, wore an orchid corsage.

Mrs. May Foreman Carr, at the organ, played "I Love You Truly," "Indian Love Call" and "Always," and she softly played "O Promise Me" as a background for the nuptial vows.

Mrs. J. W. Garman, Jr., sang "Because" and "Ave Maria." The bride is a graduate of Pampa High School and attended West Texas State College, Canyon. Recently she has been employed at the Citizens Bank in Pampa.

Mr. Ware was graduated from Amarillo High School and attended Baylor University, and was in service three years. He is now associated with Herring and Ware Cattle Company.

After returning from a wedding trip to Colorado, the couple will be at home at Green Acres, Amarillo. For traveling the bride changed to a light weight wool two-piece dress in a taupe shade, and with it she wore light green accessories.

After the ceremony a reception was given at the Country Club, hosted by Mr. and Mrs. F. E. Imel. A white organdy cloth over blue satin covered the table, which was centered with an arrangement of white chrysanthemums. Blue candles in crystal holders added to the blue and white scheme, chosen colors of the bride. Table appointments were in crystal and silver.

Mrs. Guy LeMond served the cake and Mrs. Clyde Vanderberg Good scarecrows for garden or farm can be made by fastening strips of aluminum foil to a pole. Both the flutter and the glitter discourage birds.

Spread a bath towel in the bottom of the bathtub as a safety device when bathing your baby. It prevents his slipping and sliding, and leaves you free to devote your main attention to the bath routine.

Seated at the U-shaped table were Mr. and Mrs. J. W. Garman, Jr., Mr. and Mrs. Cornelius H. Ware, Mr. and Mrs. B. F. Morris, James Harris Hill, Mr. and Mrs. Walter Mount, Jr., all of Amarillo; Mr. and Mrs. J. E. Imel, Mr. and Mrs. John Forbus of Borger, and Mrs. Henry Tyler, Mr. Foreman Carr, the bridal couple and the host and hostess.

Among the out-of-town wedding guests were Bob Downs, Dallas; Mrs. Floreide Ware Vaughn, Charles T. Ware, R. C. Ware, Mr. and Mrs. Tol Ware, Mr. and Mrs. Cornelius Ware, Mrs. Kathleen Watson, Mrs. Lattrell Graham, Mrs. Irvin Wall, Don and Mrs. Don S. Marsolis, Mr. and Mrs. Don S. Marsolis, Jr., Mr. and Mrs. R. C. Cline, Mrs. L. K. Johnson, Jamie Slomp, Mr. and Mrs. J. W. Garman, III, Mr. and Mrs. F. E. Imel, Mr. and Mrs. John Forbus of Borger, and Mrs. Henry Tyler, Mr. Foreman Carr, the bridal couple and the host and hostess.

Betrothal of Ann Jordan Hobgood, Judson Edward Line Is Announced

The engagement and approaching marriage of Ann Jordan Hobgood to Judson Edward Line was announced at a breakfast hosted by Mrs. A. L. Jordan at the Schneider Hotel Saturday morning. The wedding will be solemnized in the First Methodist Church chapel on Oct. 6, with the Rev. Douglas Carver officiating.

The bride-elect is the daughter of Mr. and Mrs. A. L. Jordan of Channing, and Mr. Line is the son of Mrs. Lucy Line of Pampa and H. J. Line of Snyder.

The honoree's chosen colors of gold, green and white were used in table decorations. Centering the table was a white warch sup-poting three wedding bells. The Osborn, Mrs. J. W. Come, H. A. base was banked with yellow and white chrysanthemum corsages. Lively, Jr., Mrs. C. P. Farooq, Mrs. A. L. Jones, Mrs. Russ II G. West, Mrs. Rosemary Tinsley, Mrs. U. E. Hobgood of Amarillo, Miss Thelma Henalee, the honoree and the hostess.

**ENGAGED** — Mr. and Mrs. Bert Bundy, 905 East Murphy, announce the engagement and approaching marriage of their daughter, Ethel, to J. M. Poynor, Jr., son of the Rev. and Mrs. J. M. Poynor of Wewoka, Okla. Both are graduates of Wewoka High School. Miss Bundy was a member of the National Honor Society and is at present employed at the welfare office in Wewoka. Mr. Poynor was editor of the school yearbook, the school newspaper, was president of the Thespian Club and vice president of the Student Council in his senior year. In 1948 he was selected outstanding senior boy in speech. He is now attending the University of Oklahoma at Norman.

### HPLEY-MEADOWS

(Continued from Page 15)  
 carnation corsage.  
 Etheldreda Ross served as best man and ushers were Roy Lee West and Ernie Bill Torry.  
 Traditional wedding music was played by Miss Billy Joyce Adams at the piano, and Miss Margaret Moran sang "Because."  
 Candles were lighted by Dick Shipley, brother of the bride, and Charles Ray Meadows, brother of the bridegroom.  
 The bride's mother wore a black crepe dress with black accessories, and a corsage of pink gladioli. The bridegroom's mother was dressed in beige crepe and she wore black and pink accessories and pink gladioli.  
 The bride is a graduate of White Deer High School and attended Texas State College for Women, Denton, two years.

Mr. Meadows is the son of Justice J. White L. Meadows. Both are employed in Amarillo, where they will make their home at 414 Monroe.  
 At the reception which followed the ceremony, the bridegroom's sister, Miss Billy Meadows, presided at the bride's book. Mrs. V. L. Hoff and Mrs. T. C. Coffey served cake and punch.  
 One of the town guests included Miss Lahoma Page, Durant Okla. Mr. and Mrs. W. S. Shipley, Phillips; Mr. and Mrs. Mack Shipley, Friona; Mrs. G. T. Kibler, Fortales, N.M., and E. W. Kibler, Amarillo.  
 If a grease fire starts in your kitchen while you are cooking, cover the burning pan with a large flat cover, or smother the flame by sprinkling a pound of baking soda on it.

### What's Cookin' In Gray County 4-H Club Work

By MARY ANNE DUKE  
 MRS. GROVES REPORTS  
 Mrs. T. G. Groves, recreation leader for the Merten Home Demonstration Association Meeting in Big Spring, reported to her club, Tuesday.  
 "One of the chief forms of recreation at the state meeting was group singing. The 150 delegates sang many of the songs found in the official association songbook. We were urged to sing more at club affairs in the counties." Mrs. Groves continued, "It was a thrill to meet and talk with women from all parts of Texas the first night of the convention. We enjoyed the chuck wagon supper served at the amphitheater in the city park. We learned something at each program, but the talk given by Dr. L. D. Haskew, dean, College of Education, University of Texas, was the highlight of the meeting.  
 "Talking on the convention theme: Better Homes Make for a Better World, Dr. Haskew suggested the "Better" could be left out of this theme and let it read, "Homes Make the World."  
 "Dr. Haskew said that all the mechanical gadgets modern homemakers use today do not necessarily improve the mother's nerves, the father's grouch, nor the children's restlessness, and unless the time they save is really spent to better family life, or toward the enrichment of the personalities in the home, they are not Better Homes.  
 "Dr. Haskew concluded with the following suggestions for making a Better Home (1) warm love and respect for each member of the family; (2) a home that simplifies the good in life; (3) consideration for others—avoid self indulgence—the habit of me and I being above others; (4) a program of work and sharing a full life with others; (5) the most basic thing for Better Homes which brings the better World is to love and be loved. That feeling of being wanted gives security. This unselfish way of life makes the happy child, family and home."  
 4-H BETTER BAKE SHOW—Each 4-H Club girl entering the County 4-H Better Baking Contest is to bring 8 muffins and 8 biscuits made from Master Mix to the Ages' office by 10 a.m. Monday September 11. These products should be exhibited on paper plates covered with cellophane, foil or waxed paper. The name of the girl, her mailing address, the name of the 4-H Club and the parents' initials should be placed with each plate of products exhibited.  
 THE AGENT'S SCHEDULE—Monday, Sept. 11, Better Baking Contest, Pampa; Tuesday, Sept. 12, Hopkins Home Demonstration Club 2 p.m.; Wednesday, Sept. 13, Grandview Home Demonstration Club 2 p.m.; Thursday, Sept. 14, visiting demonstrators; Friday, Sept. 15, Shamrock judging at county fair; Saturday, Sept. 16, Amarillo plating District one; Educational Exhibit at Tri-State Fair.

### ★ WE, THE WOMEN

By RUTH MILLETT  
 NEA Staff Writer  
 The modern idea that we owe our children everything and they owe us nothing has contributed as much as anything to the lack of unity in the modern home. When every member of the family had certain responsibilities, from the youngest child on up,

there was a clear adventure in living.  
 But look in on the modern home today and what do you find? Mama not only cooks the meals, but she also sets the table, clears it off when the meal is finished, does the dishes, and only then joins the family circle. Maybe Papa lends a hand occasionally. But the children? Nothing doing.  
 They're in their rooms reading a comic book, listening to the radio, or in the living room looking at television when there are family chores to be done.  
 If they do take on an occasional job it is for pay, or because

Mama and Papa periodically decide they ought to help around the place a little and go on a one or two-day crusade to get them to do a few jobs.  
 But as for continuing responsibilities, today's youngsters just don't have any.  
 Junior gets a dog—and Mama takes care of him. Sis gets a room of her own, fixed up according to her taste, and then leaves it in a mess day after day for Mom to clean up.  
 Betty thinks she is old enough to date, but Mama is supposed to keep her clothes ready to wear. Joe wanders off to the drug store or takes the family car out

for the evening while Dad mows the lawn.  
 In family after family children don't have one single day-in-and-day-out responsibility they are expected to fulfill as part of their contribution to family living.  
 There's just one thing wrong with the idea of giving children everything and asking nothing in return. Nothing is exactly what the parents get.  
 Clothes which are excessively soiled should be spot-cleaned with a sudsy brush before they are tossed into the washing machine.

**What's RIGHT?**  
 You borrow some small thing, such as an egg or cup of sugar, from a neighbor.  
 WRONG: Don't bother to return it, figuring that the neighbor will borrow something from you some day and you'll be even.  
 RIGHT: Return anything you borrow, even when it is without much value.

### Party Reveals Engagement of Merdella Roberts

A come and go party from 7 to 9 Friday evening, announced the engagement and approaching marriage of Miss Merdella Roberts, daughter of Mr. and Mrs. Skeet Roberts, north of the city, to Bill Chapman, nephew of Mr. and Mrs. A. E. Hickman, 1601 N. Russell.  
 The ceremony will be solemnized by Dr. Douglas Nelson at 7 o'clock next Friday evening, in the First Presbyterian Church.  
 Approximately 40 guests were received during calling hours at the home of Miss Roberts' grandparents, Mr. and Mrs. Jim White, 721 N. Somerville, where the party was given.  
 A white and yellow color scheme was carried out, accented in the table decorations, which revealed the marriage plans.  
 A white linen cut work cloth covered the table, and the center arrangement was of yellow and white chrysanthemums. The announcement was made by white bells hanging from the chandelier over the table. Amid trimming of maline and stamatis tied in satin streamers, the white bells were imprinted in gold "Merdella and Bill, September 15."  
 Miss Roberts and other members of the house party wore corsages of yellow baby chrysanthemums.  
 Presiding at the refreshment table were Mrs. Ouida Thomas, who served the punch, and Mrs. C. W. Herndon, Panhandle, aunt of the honoree.

### Party Given for Two Little Girls

Mrs. Dave Warren, Jr., and Mrs. W. L. Campbell entertained last week in the country home of Mrs. Campbell with a going away party for their nieces and granddaughters, respectively, Joan Pendleton and Diana Dickerson, daughters of Mrs. Marcella Dickerson, who recently moved to Houston.  
 Children's movies provided entertainment and cake and ice cream were served.  
 Guests were Carol Triplehorn, Jane Carter, Kayleen Layne, Mary Lynn Griffith, Mickey Jo Beard, Karen Capps, Sandra Beard, Betty Sprinkle, Jan Whittle, Jonna Lee Whittle and Mary Joy Campbell.  
 Also present were Mrs. Teresa Humphreys, Mrs. Hugh Layne, Mrs. Oak Albee Whittle, Mrs. John F. Campbell, Mrs. Marcella Dickerson and the hostesses.

### Kappa Kappa Iota Plans Year's Work

Members of the executive board of Kappa Kappa Iota Sorority met Monday to make plans for the year's work.

Regular meetings will be held on the fourth Monday evening of each month in the City Club Room. A special meeting will be held Monday evening, Sept. 11, at 7:30 in the home of Mrs. Ben Ogden.

Members attending the board meeting were Misses E. G. Gordon, E. R. Nuckolls, Otto Mangold, Ben Ogden, J. L. Spencer, Kenneth Cable, and Miss Edna Daurer.

### Home Demonstration Club at Alanreed

ALANREED — (Special) — A new Home Demonstration Club has been formed at Alanreed by Mrs. Mary Anne Duke, county home demonstration agent.

The organization was set up with Mrs. Olin Stapp as president; Miss George McCracken, vice president; Mrs. Harriette Davis, secretary-treasurer; and Mrs. Lisa Turpin, reporter. The meeting was held in the home of Mrs. McCracken.

The first meeting of the club was held in the home of Mrs. Turpin.

### VEGETABLE PLATE

For a vegetable plate supper serve corn pudding, broiled tomatoes, spinach vinaigrette, and snap beans or broccoli. A supper menu such as this usually calls for a hearty desert such as gingerbread and applesauce.

### PEG OF PAMPA

(Continued from Page 15)

softball season is over... she played behind the plate on the lady All-Stars this summer... The men were having their playoffs this week... Mrs. J. D. Kinnison, a whiz with a needle, turns out lovely dresses—each a stunning creation... We noticed Mrs. O. W. Hampton back-to-school shopping... And who was the attractive woman in the pretty blue dress... liked her black hat and also the cameo brooch she was wearing... Wonder if Chester Farmer and L. W. McClothlin are bowling this year?... they were on the Industrial championship team last year... Pretty little Janice McWright is telling all her school chums about celebrating her birthday in Las Vegas... There's a bright blue roof that takes your eye in the 600 block of Somerville... very colorful... There's a steak house 80 miles to our west (Amarillo) that is really catching on fast... The Larry Fullers (of Lefors) stopped over here after returning from Dallas... Mr. and Mrs. Vernon Watkins made the trip with them... Mrs. Helen Butterfield is just the sweetest person... she seems to have a wide circle of friends... Mrs. R. I. Davis appears to be a fine worker in any organization to which she belongs.

WE HAVE TALKED of the way color has taken over in decorating—the color of the changing seasons—local color—and all that, but now we discover that color is creeping into weddings, a hitherto forbidden territory. Our young brides of this season are getting real daring with their chosen colors, and might I add, charmingly so! Once upon a time only the most delicate hues of blue, pink and yellow, etc., were used in weddings, but now anything goes! It's a sign of our time, and a good one, I think. When the Bruce Pratts' oldest started off this year's series of weddings, she decided upon bronze and copper as her colors, and since then there has been a never-ending list of weddings with the colors getting more exciting all the time. One pretty bride achieved a marvelous effect with her varying shades of green and dusty gold, and another employed toast and aqua for her bridal party. The only thing: sometimes the colors create a problem at the refreshment table—whenever heard of a bronze mint!

WHEN I GET to feeling too high and mighty in a spankin' new outfit, I always run into someone with a hat on just like mine! Then I don't feel nearly so good.

HAVEN'T HEARD anything lately of Mr. and Mrs. D. C. Riegel's daughter, who joined the WAAFS the last of July. Every day though we learn of some young man's being called, and there's an increasing number of the "older" reserves going back into uniform. Another noted educator this week advocated the drafting of women and if school hadn't started about now, I would have gladly shouldered arms and left Mr. Peg at home with our little "dependents." No, the children aren't that bad to have around—I'm just going to joke about this drafting business while I can.

THERE HAS BEEN a lot of talk pro and con on the Greek societies, and I won't commit myself here, but the high school "club" (the sorority forerunner) has had its share in the controversy, too. We see only the good side to these, and right now the girls are finishing up that season of friendly rivalry—rush. And honestly, these teen-agers come up with the cleverest party plans, which is one of the many, many good features of the high school sorority. They start early learning the social graces that it takes so long to acquire.

SEEMS LIKE THE more errors I make in this corner the more friends (?) I make. That is to say, when I slip up on some of my gossip there's most always a friendly correction in the mail, and for that I'm glad. Sometimes, though, I appear awfully "dumb," but when Mr. Peg says that's the best part of this column—nobody knows who's making all the mistakes because nobody knows PEG O' PAMPA.

### B & PW Members to Attend Picnic Today

Bea York was appointed vice president of the Business and Professional Women's Club at a board meeting in the City Club Room Tuesday evening. Mrs. York was appointed by the president, Gladys Howard, to fill the vacancy left by the resignation of Minnie Barnes. Hattie Holt was appointed to the post of social chairman and Elsie Gee was appointed club coordination chairman.

Lillian Jordan, chairman of the constitution and by-laws committee, gave a report of the revision as outlined by the national organization and amended to fit the local club.

A regular meeting of the local B & PW Club will be held in

### ECONOMICAL SALAD

To make an economical salad dressing mix a half teaspoon of dry mustard with a half teaspoon of salt and two teaspoons of sugar; add a dash of freshly ground pepper and a sprinkling of paprika. Mix these seasonings with a cup of undiluted evaporated milk; then add a tablespoon of vinegar gradually, stirring until thickened. Store in refrigerator. TEA CAKES

The City Club Room at 7:30 Tuesday evening. Topic of the meeting will be "Know Your Club."

Local B & PW members have been invited to the District Nine picnic in the southeast corner of Elwood Park at Amarillo at 3 o'clock this afternoon, and are to take a basket lunch.

Sweet nothings mean every thing on a moonlight night!

To clean the inside of your refrigerator, sprinkle a little baking soda on a clean damp cloth, and rub over the surface. FANCY FROSTING

"BABY" HIM AT HOME Call him "Baby" if you like—when just the two of you are together. But don't "Baby" him in front of other people.

To pep up an egg salad filling for sandwiches or stuffed tomatoes add a little vinegar, and prepared mustard along with the mayonnaise.

## Wool Buying Program Gets Federal Study

WASHINGTON — (AP) — Government agencies are considering a wool buying program in Australia and possibly other producing countries to see that defense and private industry needs are supplied. But no decisions have been made.

Representatives of several agencies have met frequently for more than a month to discuss various problems involved in the present wool situation, including that of keeping supply pipelines

filled for the next year or two, one official said.

World demand for wool currently exceeds its production. Under suggested plans, the government might buy wool as an intermediate agency to insure U.S. industry of its share of the available supply, purchasing on world markets and reselling to textile industries needing the fiber.

Private buyers, apprehensive because of the high price of

wool are fearing the market may drop suddenly after the Korean conflict, appear skeptical about bidding in the world market, the official said.

Senator O'Mahoney (D-Wyo.) told a reporter he hopes the budget bureau soon will ask Congress for funds for wool stockpiling purposes.

At the Agriculture Department, officials said that agency has made no request for a wool-buying appropriation and that if it

## Florida Citrus

LAKELAND, Fla. — (AP) — Almost complete reports show Florida's bumper citrus crop got by all right from the twisting hurricane which hammered so viciously at parts of the Gulf Coast.

Robert C. Evans, general manager of the Florida Citrus Commission, said he expected little damage from the high winds.

He said he had heard of no serious harm although the full report of the big blow was not in from all areas.

He reiterated what others said — that the rains which the hurricane brought along were much more valuable to growers than any harm the wind might have caused.

The hurricane whistled about Florida as the state was preparing to begin marketing its estimated 100,000,000-box citrus crop.

## Damage Is Light

serious harm although the full report of the big blow was not in from all areas.

He reiterated what others said — that the rains which the hurricane brought along were much more valuable to growers than any harm the wind might have caused.

The hurricane whistled about Florida as the state was preparing to begin marketing its estimated 100,000,000-box citrus crop.

## Berry Urges Call Of Guard, Reserves

AUSTIN — (AP) — Adjutant General K. L. Berry believes National Guard and reserve units should be called into federal service immediately.

He made the statement in a speech before the Kiwanis Club here.

Gen. Berry suggested universal military training be adopted and the tempo of selective service be stepped up. Berry is a veteran of World Wars I and II.

## Officer Seeking Peace of Mind In Texas Flag

AUSTIN — (AP) — A Texas flag is being hustled to an Air Force officer in Korea who says he can't have "peace of mind" without it.

Gov. Allan Shivers was told by the Associated Press that Lt. Col. C. H. Scott was writing him a letter, from somewhere in

Korea, asking for the flag. The governor said he would act "pronto-quick" — and "not wait for the letter."

AP Correspondent Bill Ross in Korea said Col. Scott had been restless ever since another officer, Maj. William H. Booth of Syracuse, N.Y., began flying a Confederate flag. Col. Scott, a former Texas newspaperman, then wrote Shivers:

"I request you, Gov. Shivers, to send me posthaste a Texas flag to fly over my head day and night."

# C.R. ANTHONY COMPANY

### Betty Norman Gets Cheer Leader Post

Miss Betty Norman was elected in the run-off election Friday for the senior girl cheer leader. Her competitor in the run-off was Eulalie Ellis.

Head cheer leader, elected last spring for the 1950-51 term, is Bob Allford.

The senior boy cheer leader is Dick Green; juniors are Linda Fraser and Sammy Gaffney; sophomore, Sue Stewart; and freshman, Gaye Nell Carter.

The group will have its first work-out with the student body Friday morning at 9:40 at the first pep rally of the year.

### Finance Drive Set for GSA

Ed Cleveland has been appointed as chairman of the finance drive for the Pampa Girl Scout Association.

He was appointed by Joe Wells, who is financial chairman of the board.

At a board meeting held last week, Cleveland was introduced to the group. The date for the finance drive has been set for Oct. 9 through 27.

Other business transacted at the board meeting included discussion of the new senior Scout uniforms.

Mrs. Glen Radloff, president of the Association, was in charge of the meeting.

### Girl Scouts Tour Amarillo in Final Season's Excursion

A summer excursion was made recently by eight members of Troop 19 of the Girl Scouts, led by Mrs. Burl Lewter, although the Scout season was closed.

The excursion consisted of an all-day tour of Amarillo. The group was also accompanied by Mrs. William Booth. This troop includes girls aged 13 and 14.

The girls made a tour of Mead's Bakery, where they saw all electric machines produce loaves of bread in 10 minutes time.

They were guided on a tour of the Amarillo Youth Center and had their lunch at Gem Lake. In the afternoon, the Scouts visited the San Jacinto School of Beauty, where they heard a lecture by Chester Martin, instructor. They were shown in this lecture how health and health habits are the main factors in a woman's beauty.

Following the lecture, the troop was guided through the Cunningham floral shop, where they were shown plant life and were presented with red roses.

Concluding the trip was a view of the city of Amarillo from the 10th story of one of the buildings.

### Matamoros Civic Projects Started

MEXICO CITY — (AP) — The national property ministry says the Matamoros civic betterment board is working on projects costing 6,000,000 pesos. These are financed by receipts from the Matamoros customs house.

Matamoros is a border town opposite Brownsville, Texas.

The projects include paving a new road from Matamoros to Washington Beach; new water and sewer piping on Sixth Avenue; Sixth Avenue paving costing 1,000,000 pesos; three schools costing 850,000 pesos and a sports field costing 1,000,000 pesos.

The peso is worth 11.37 U. S. cents.

### 196 Names Drawn For Jury Service Call Set Sept. 25

The Gray County 31st District Court jury commission Friday drew the names of 196 Gray County men for service on the grand jury and petit jury panels.

The grand jury panel, of 16 men and the first petit jury panel, of 45 men will be summoned by the sheriff's department to report for duty on Sept. 25, first day of the September term of district court.

The remaining three petit jury panels, of 45 men each, will be held until needed for jury service between then and January, the next term of 31st District Court.

Serving as jury commissioners for the September term are Frank Carter, Pampa; Boyd Reeves, McLean; Clifford Vincent, Lefors, and W. B. Eberting, Laketon.

### Dionne Quints Plan U. S. Trip

NEW YORK — (AP) — Those "five of a kind" — the Dionne quintuplets will make their first trip to the big city next month.

The Alfred E. Smith Memorial Foundation said the 16-year-old Canadian girls will appear at a dinner here in honor of the late New York state governor Oct. 19.

Proceeds of the dinner will go toward the cost of the newly-erected Alfred E. Smith Memorial Building at St. Vincent's Hospital.

### U. S. Polio Cases in Slight Increase

WASHINGTON — (AP) — There were 1,927 new cases of acute poliomyelitis last week, the public health service reported.

This was an increase of six-tenths of 1 percent over the preceding week and the fifteenth consecutive week of an increase.

However, it is the lowest percentage increase over the preceding week during this period, the service said in its weekly summary.

For the corresponding week a year ago, 2,193 new cases were reported. At that time, however, the disease had been on the decline for three weeks.

The cumulative total since the disease began increasing this year is 12,356 cases, compared with 22,809 for the corresponding period a year ago.

**NUMBER THREE?** — Patricia Wynore, 21-year-old actress who co-stars with Errol Flynn in one of his latest films, may soon become the much-married screen hero's third wife, according to an announcement by the girl's parents in Salina, Kan.

### Synthetic Topsoil Is Made From Sawdust, Group Told

By ALON L. BLAKESLEE  
 CHICAGO — (AP) — Sawdust can be turned into synthetic topsoil to grow bigger, greener vegetables, Dr. Eduard Farber of Washington, D.C., says.

Chemically treated, the sawdust becomes like humus, to nourish crops, he told the American Chemical Society.

Erosion robs the nation of millions of tons of precious topsoil annually. And lumbering piles up mountains of sawdust, estimated at 60 million tons a year, for which there are no great uses.

The new chemical process might help solve both problems, said Dr. Farber, of the Timber Engineering Co. Early tests with the sawdust topsoil have been promising, he said.

From 10 to 40 tons of converted sawdust were applied to an acre of soil. Seeds germinated sooner, and more of them germinated, he said.

"Leaves were bigger and greener, and the weights of produce like radishes, beets, onions and tomatoes were greater."

The sawdust is treated with mineral acids, at temperatures well over the boiling point of water, but not hot enough to char the cellulose materials in the sawdust, he explained.

The sawdust "forms humus-like substances by loss of water and some side reactions. We need products which act like humus to improve our soils."

This is just one of new chemical treatments being developed to make economic use of sawdust and other wood wastes from lumbering, Dr. Farber said. Present methods turn some waste wood products into furfural, a raw material for nylon and for resins, or into sugars or feed for animals.

Carl Kennedy will head the Pampa High School student body as president during the 1950-51 term. He was elected last spring by the student body.

Vice-president of the student body is Ed Langford, who was also elected in the spring.

Other members of the student council will be the 34 homeroom presidents, class officers and seven cheer leaders.

### Hope of Cancer Cure Is Keeping Scientist Busy

By ALTON L. BLAKESLEE  
 Associated Press Science Reporter  
 NEW BRUNSWICK, N. J. — At retirement age, Dr. Moses L. Crossley had a choice: To loaf and go sailing, or to take on more new work.

The choice was easy for a brilliant chemist who "can't imagine myself not working." So now he's doing a double job in cancer research, of making and testing drugs that may step or kill cancers.

Dr. Crossley, now 66, retired last fall as director of research of the American Cyanamid Co. and its subsidiary, Calco Chemical Co. His industrial career included developing drugs for arthritis, and some of the first real wonder

drugs, the sulfa family. It also covered a search for anti-cancer drugs.

Over the years Dr. Crossley and his staff made some 1,200 new chemicals that might carry a punch against cancer.

He has taken on a new job, as an honorary research specialist at Rutgers University's Bureau of Biological Research, headed by Dr. James B. Allison. Dr. Crossley directs the bureau's experiments in testing new chemicals.

One promising drug is TEM, nickname for triethyleniminostrazine. This is one of a family of drugs, the ethylene imines, developed from German-discovered

fund, and American Cyanamid.

Drugs are tested on rats, on cancers transplanted from other rats, and on other animals having cancer. So far TEM shows ability to decrease the size of certain transplanted cancers.

"Many compounds have shown some activity in retarding tumor growth in animals, but this mustn't be taken to mean that a cancer cure is in sight," Dr. Crossley said.

"It is possible that within the next 10 years we will know enough to control some types of cancer — but not necessarily all types. And whether, even then, we will be able to control cancer in all of its life stages is exceedingly doubtful."

The cancer work of the Bureau of Biological Research is supported by the American Cancer Society, Damon Runyon Memorial Fund, and American Cyanamid.

### Young North Korean Is Paul Buynon-ish

TOKYO — (AP) — Red China's Peiping radio is boasting of the exploits of a 19-year-old North Korean. He was credited — on the radio — with shooting down 13 American planes with an anti-aircraft gun.

The broadcast heard here asserted that Hong Myung Kook shot down "three or four enemy planes" single-handed after an attack by jets that killed or wounded all of his comrades.

It didn't say where, or under what circumstances, he shot down the others. It said Hong enlisted in the Red army last year after graduating from high school.

THE ONLY BALANCED LIPOID PREPARATION

**\$5 jar only \$3 per tin**

A beautiful skin is a young-looking skin. But it only looks young when well supplied with lipoids... the natural oils so abundant in a baby's skin.

Do you look older than you want to? Is your skin dry? Do you have any lines or wrinkles? Is there a hint, perhaps, of sagging or "crepiness" around the throat or temples? Have time, work, and worry, illness, too much sun and wind, robbed you of young-looking beauty? If that you need Oils of the Wilderness, the only correctly balanced lipoid beauty preparation.

Oils of the Wilderness can transform a tired, lined, fatigued-looking face into one which looks fresh and lovely.

POOF, WHAT'S A SOAKED RADIO! LET'S DINE WHERE THERE'S MUSIC TONIGHT. MOTHER, FATHER, D—DO YOU FEEL ALL RIGHT.

# Area Activity Rises Slightly; Test Set

## Drillers Stake 12, Final 17 For 421 Bbls.

Panhandle drilling activity began pulling itself back to normal last week after hitting a 1950 low in the week ended Sept. 1. Operators in the area staked 12 new locations last week, one of which was a 5,200-foot wildcat in Donley County to be drilled by Thomas W. Doswell.

Completions climbed to 17 and increased potentials moved up slightly to 421 barrels of oil and 44,600 MCF gas. Of the completions, 9 were oilers, seven were gasers and one a dry hole.

# Panhandle Activity Maintains Average

Drilling activity in the Panhandle field during August managed to make a legitimate showing despite two slow weeks, one of which dropped to the year's low with but eight new locations, six completions and an increased oil potential of 271 barrels.

Two good weeks and one average week helped to pull up totals to the 1950 average. Operators brought in 1,000 barrels plus in new oil potentials in the weeks ending August 12 and 26. Potentials totalled 780 barrels for the third week of August.

# Rig Activity Shows Decline

DALLAS — Despite increased activity of rotary tools in the Gulf Coast, Canada and Pacific Coast areas for the week of September 4, total oil well drilling operations showed a net decline of 19 rigs, it was reported to American Association of Oilwell Drilling Contractors by Hughes Tool Co. Operations were off the most in the Illinois Basin with a drop of 25 units.

For the week the total of 2,276 compares with 2,295 for the previous week, 2,280 a month ago and with 2,002 in the comparable week of 1949.

# Crude Production Climbing As U. S. Wells Set Records

HOUSTON — (AP) — United States wells are producing more crude oil than ever before in history.

Final figures for the week ending Friday should place the average daily output slightly below 6,000,000 barrels.

By MAX SKELTON

HOUSTON — (AP) — United States wells are producing more crude oil than ever before in history.

Final figures for the week ending Friday should place the average daily output slightly below 6,000,000 barrels.

Last week's output reached an all-time high of 5,759,630 barrels daily, 37,530 more than the previous monthly daily average record of 5,722,100 set in December, 1948.

Last week's operations received full benefit of a 202,836 barrels per day increase in the Texas allowances for September. This Texas hike figured in only two days of last week's record report but it boosted the state's output a record 2,056,000 barrels daily.

Very little of the record crude output is going into storage, either as crude or as refined products. Crude stocks for the week ending August 26, as reported by the Bureau of Mines, totaled 236,934,000 barrels, a decrease of 1,527,000 from the previous week.

The American Petroleum Institute last week placed stocks of the four principal refined products at 241,849,000 barrels, compared to the previous week's 238,160,000.

Light heating fuels took care of most of the refined stocks built, jumping 3,338,000 barrels. Kerosene storage rose 841,000 barrels.

Gasoline declined 230,000 and heavy heating fuel dropped 260,000.

The light fuels increase reflects industry preparations for the coming winter season. A few weeks ago some industry spokesmen warned against refineries waiting too long to build up stocks to meet winter demand from owners of oil heating equipment.

A combination of nature and a postwar trend toward conversion to oil heating installations has made it difficult the past three winters for the industry to anticipate light fuel demand.

The 1947-48 winter season was severe in the north and northeast and the oil industry received sharp criticism for spot shortages that developed. Most of the trouble was blamed on transportation snafus and laxity on the consumers to place advance orders.

Much of the criticism that winter came from congressmen. A year later the industry made a definite effort to see that sufficient stocks were on hand but nature messed things up by scheduling a very mild winter. Stocks climbed to alarming proportions.

This was one of the contributing factors to the sharp cutbacks on domestic crude output last year. It took considerable time to cut the stocks down to what the industry considered an efficient operating level. Last winter also was comparatively mild and did not eat deeply into storage.

Despite last week's increase light fuel stocks on September 2 totaled only 69,179,000 barrels, compared to a year earlier total of 75,430,000.

The September edition of World Oil, trade publication, estimates that September domestic crude output will approximate 5,800,000 barrels daily, compared to the nation's total producing ability of 6,763,377.

It also estimates that September output of all oils, including crude, lease condensate and natural gasoline, will approximate 6,332,000 barrels daily or 86.5 percent of indicated productive capacity of 7,321,677 barrels.

# Conoco Chief Uses Telephone Hookup

PONCA CITY, Okla., Sept. 9 — President L. F. McCollum of Continental Oil Company on Tuesday, Sept. 12, will address approximately 8,000 company employees in a coast-to-coast telephone hook-up that will be the largest ever provided by the Bell Telephone System, inaugurating Continental's seventy-fifth anniversary celebrations throughout the nation.

McCollum will speak at Ponca City on a telephone network connecting loud speakers at 36 points where employees are to be gathered, in groups, from New York to Los Angeles and from Butte, Mont., to the Gulf of Mexico.

The nation-wide address will precede a barbecue and groundbreaking ceremony for Continental's projected \$2,250,000 research laboratory at Ponca City where more than 6,000 persons are expected in attendance. The Ponca City event will launch a series of 43 regional and local celebrations to be held throughout the company's territory during September and October in observance of Continental's seventy-fifth anniversary.

# Arthur Godfrey Due Active Duty Tour

WASHINGTON — (AP) — Arthur Godfrey will spend the coming week on active duty at naval air stations at Pensacola, Fla., Corpus Christi, Texas, and Memphis, Tenn.

The radio and television actor has a reserve commission as lieutenant commander and has had considerable experience as a civilian pilot.

#### ANNOUNCEMENTS

### 1 Card of Thanks 1

MR. D. B. SHEPPARD  
Deep in our heart you are today remembered. Sweet happy memories cling round your name. True hearts that loved you with deep affection. Always will love you in death just the same. We often sit and think of you, when we are alone. For memory is the only friend, that friend can call it his own. We wish to express our sincere thanks and heartfelt appreciation to our many friends and neighbors for the kindnesses extended to us during our recent bereavement. In the loss of our dearest one, Mr. D. B. Sheppard. Especially do we thank the Rev. E. Douglas Carter for his service and comforting words. Virgil Hart for his song, the many people who helped to bear his body, The Dumas' class and the people who brought food and flowers, and the donors of beautiful floral offerings.  
Mrs. Beulah Reed  
Mr. and Mrs. Bruce Head  
Mr. and Mrs. H. A. Ponder  
Mr. and Mrs. C. C. Reed  
Mr. and Mrs. J. P. Heath.

"For He shall give His Angels charge over thee to keep thee in all thy ways."—Psalm 91-11.

"There's an open gate at the end of the road. Through which each must go alone. And there is a light we cannot see. Our Father claims His own."  
Beyond the gate our loved one finds happiness and rest. And there is comfort in the thought That a loving God knows best."  
FLOYD E. BILEY  
We take this means of extending our most sincere gratitude to our kind friends who did so much for us to help us bear our sorrow in the loss of our dear husband and brother, Floyd E. Biley. For the beautiful floral offerings, comforting messages, and to those who assisted in the last rites, we are indebted. God bless Mrs. Beulah E. Biley.  
Mr. and Mrs. Wallace Waterfall  
Mr. and Mrs. E. E. Biley and daughter, Charlene  
Mr. and Mrs. E. O. Biley  
Mr. and Mrs. Wallace Waterfall.

I cannot think of me as dead. I walk with me no more. Along the path of life I tread— They have but gone before.  
The Father's House is mansioned fair. Beyond my vision dim. All souls are happy there or there. Are living unto Him.  
And still their spirit ministry Within my heart hath place. As when on earth they walked with me, And met me face to face.  
Their lives are made forever mine; What they to me have been. Hath left hereafter its seal and sign. Engraven deep within.  
Mine are they by an ownership. Nor time nor death can free. For God hath said to Love to keep His own eternally.  
FORD A. DOYLE  
Words can never express to you our friends how much we appreciate all the many kindnesses you have bestowed on us in our grief. All we can say is thank you and God Bless You.  
P. H. Ford and family  
Mrs. Viola Ford and son  
Mr. and Mrs. H. B. Talley and family  
Angus G. Doyle and family.
