South Koreans Drive 30 Miles North

AID FOR CORRESPONDENT — William D. Blair, Jr., correspondent for the Baltimore Sun, lies on the ground after being wounded in South Korea. Shading his face from hot sun is Max Deator (left), Associated Press staff photographer. Eleven newsmen have been killed covering the Korean war. (AP WIREPHOTO)

Two Divisions Meet Little Opposition; Third Is Ready

TOKYO — (AP) — South Koreans ripped 30 miles into Soviet satellite Red Korea today almost unopposed. Nearly two divisions — about 20,000 solely Korean troops — made the advance while their United Nations allies remained south of Parallel 38. A third South Korean division was poised to jump across the artificial border.

Priority Order Due Tonight; Steel Price Up

WASHINGTON — (AP) — The National Production Authority tonight will issue a priority order for steel. The order will cover the 300,000,000 a year military preparedness program.

CORDELL HULL

Hull Calls for 'Double Alert'

By JOHN M. HIGHTOWER
WASHINGTON — (AP) — Former Secretary of State Cordell Hull called for a "double alert" against the dangers of Soviet aggression. In a birthday statement, the white-haired former cabinet officer praised the effectiveness of the United Nations in dealing with Red aggression in Korea, but he warned that "grave difficulties and dangers" still confront us on all sides.

German Police Halt Red Riot Attempts

DUESSELDORF, Germany — (AP) — West German police today claimed a decisive victory over Communists who attempted to turn yesterday into a bloody wave of riots and demonstrations. Police jailed more than 1,400 Red ringleaders and broke up every attempt they made to start riots in a score of cities. The day marked for bloodshed ended with nothing more serious than scattered fist fights and stone throwing. About 30 police were hurt in the skirmishes. Meanwhile, the people of Soviet-occupied Berlin received assistance yesterday from President Truman's continued aid to keep the city free. The president's message was delivered by Paul G. Hoffman, retiring chief of the Economic Cooperation Administration, in a speech at the opening of the German industrial fair in Berlin.

Reds Renew Blast at U.S.

LAKE SUCCESS — (AP) — Soviet Foreign Minister Andrei Vishinsky today said that the United States had "flung a challenge at the U. N. and international law" by ignoring a four-year power agreement in Korea. Addressing the general assembly of the United Nations, Vishinsky accused U. S. Chief Delegate Warren R. Austin of a "deliberate and wilful misrepresentation of the facts" in the Korean case. The Soviet foreign minister spoke during committee debate on an eight-nation resolution for the unification and rehabilitation of Korea under United Nations supervision.

Crime Panel Turns Sights on Chicago As Deaths Probed

CHICAGO — (AP) — With two gang-style killings heralding its coming, a U. S. Senate crime investigating committee turned its sights on Chicago today. George H. White, top committee investigator, arrived from Kansas City to hunt down and serve subpoenas on Chicago's reputed racket boss. The committee will start closed hearings Thursday. White, former head of the federal narcotics bureau, also is expected to delve into angles of the unsolved slaying of William J. Drury and possibly the killing of Marvin Bas. Drury, a former police lieutenant turned crime investigator, was killed by a sniper's bullet a week ago while a committee lawyer was trying to contact him for information on underworld activities. Bas, a lawyer, was slain by gunmen four hours later. Although the killings have not been linked, both Drury and Bas had offered to supply information on crime to John B. Babb, Republican candidate for sheriff of Cook (Chicago) County. White disclosed earlier in Kansas City that a subpoena has been issued for pretty Virginia Hill, girl friend of the slain gambler Benjamin (Bugsy) Siegel. She will be asked to testify before the committee. Siegel was shot to death in Miss Hill's Frank Beverly Hills Club, home in 1947. In addition to digging into (See CRIME PANEL, Page 2)

50,000 Electrical Workers Get Hike

PITTSBURGH — (AP) — Nearly 50,000 employees of Westinghouse Electric Corporation went to work today under a new one-year contract giving them a 10-cent hourly pay boost and improved pension benefits. The pact with the CIO International Union of Electrical Workers (IUE) expires Sept. 30, 1951. It can be reopened for wage talks after six months. The pay boost is retroactive to last September 18. Affected workers had been making an average \$12 an hour under the old contract. Negotiations are continuing with three other unions in Westinghouse which have another 50,000 workers. The CIO-IUE contract provides a pension guaranteeing a \$100 minimum, including social security, for workers retiring after 25 years of service. The company agrees to completely finance the pensions for workers earning less than \$4800 a year. Workers making more than \$4800 can obtain higher pensions by participating in a contributory plan.

Pampa Shrine Club Will Meet Tonight

The Pampa Shrine Club will hold its organizational meeting at 7 p. m. today in the KP Hall, 217 N. Nelson. The group will elect officers for the coming year and make plans for the year's entertainment. Food and refreshments will be served.

Garter Snake Makes Monkey of Bushman

CHICAGO — (AP) — Bushman, the gorilla who fears no man, escaped from his cage yesterday. A little garter snake finally chased him back inside. The glowing, barrel-cheated, 500-pound ape roamed through a corridor and monkey house kitchen for more than two hours. A dozen Lincoln Park policemen armed with rifles and shotguns stood guard inside the monkey house as keepers tried to coax Bushman back to his cage. Outside other policemen kept a Sunday crowd of 800 spectators at a safe distance. Only fragile (for Bushman) wire netting over the windows and wooden doors barred the big ape from the crowded park grounds outside. Edgar Robinson, who raised Bushman from infancy, tried to lead him back to the cage, but the animal bit his arm. Bushman ignored fruit and other food placed inside his cage as a lure. Finally keepers shoved a baby alligator through the kitchen window. Bushman retreated to the corridor but wouldn't go any farther. Then keepers pushed the two foot garter snake under the kitchen door leading to the corridor. Bushman couldn't take it. He hurried into his cage. The gorilla apparently pushed open a sliding door of his cage to escape.

British Laborites Seek to Convince Pacifist Members

MARGATE, England — (AP) — The ruling British Labor party embarked on a campaign today to convince its many pacifist members that rearmament against Russia now is vitally necessary to prevent war. Party Chairman Sam Watson, an officer in the National Union of Mineworkers, called for support of rearmament and conscription. Both now are being carried out by the socialist government, although they were for many years opposed by the party's pacifist wing in Parliament has threatened to rebel over these policies. "The history of the world is not a history of attack of the strong on the weak," Watson said in an address to the more than 1,500 delegates at the first session of the party's annual conference here. "Armed forces are required to defend all we have won in our long struggle for freedom," Watson argued. He expressed belief there will be another world war if the democratic western nations grow strong and act together. Calling for such collective security forces as are necessary to keep peace, he added: "We cannot preach collective security and complete disarmament at the same time."

Fire Destroys 11 Big Storage Tanks

PORT ARTHUR — (AP) — Eleven large oil and gas tanks had been destroyed and three still were burning today at the Texas Company's largest refinery and storage area. Massive columns of smoke and flame rose today from the plant area about two miles west of Port Arthur and 12 miles from the Gulf of Mexico. The blaze broke out about 1 a. m. yesterday and quickly was spread to other tanks by a stiff east wind. The Texas Company declined today to estimate its loss, but experienced observers said damage would run between a million and a half dollars. The spectacular blaze lit up the sky and countryside for miles around as trained Texas Company crews fought the blaze. The refinery itself, not far from the tank farm which caught fire, was not set afire, largely because of the favorable direction of the wind.

Sisk Services Slated Today

Funeral services for Herman Sisk, 37, who died in Wichita Falls Saturday morning, will be held today at 4 p. m. at the Central Baptist Church with the Rev. Hal Upchurch, pastor, officiating. Burial will be in Fairview Cemetery with Duenkel-Carmichael services at the home. Mr. Sisk moved to Pampa in 1942. He was in the Army Air Force for a period of four and one half years, two of which he served in India. He was employed by the Monarch Lumber Co. in Wichita Falls at the time of his death.

Governor Selects District Attorney

AUSTIN — (AP) — Gov. Allan Shivers today announced appointment of Alan B. Haley of Wichita Falls as district attorney for Wichita County. Haley fills the vacancy created by the recent resignation of Clyde Fillmore. Fillmore did not run for reelection and Haley, his assistant, is the Democratic nominee for the post to which he was appointed.

Police Charge Man in Early Morning Theft

Charges were filed today against Lionel Thomas Robertson in the theft of a 1941 model automobile about 2 a. m. today. A thirteen-year-old baby-sitter in a local hotel saw the car taken. She said she saw a man drive off in the car, belonging to Roy W. Johnson, 408 1-2 N. Front, shortly after Johnson and his wife left it in front of the hotel and entered a cafe. She said the man returned in little while and parked the car in the alley then started looking into other cars parked along the street. She told another resident of the hotel what happened and police were called.

Supreme Court Convenes For Momentous Session

WASHINGTON — (AP) — The Supreme Court reassembles today for a new term in which it faces momentous decisions affecting communism, race relations and other major national problems. At the forefront of attention is an appeal by 11 top U. S. Communist party leaders who were convicted in New York of conspiring to advocate violent overthrow of the government. They are asking the court to overturn by force or violence. They throw out their jail sentences and fines. They assert that: "There is no testimony in the record that during the entire period of the indictment any of the 11 personally taught or advocated that the government be overthrown by force or violence." The 1950-51 court term could bring also a final test of the new anti-Communist law passed by Congress over President Truman's veto. Some attorneys say such a test is likely to reach the court before adjournment time next June.

Double Celebration Slated by Governor

AUSTIN — (AP) — Gov. Allan Shivers has a double celebration scheduled for Thursday — his 43rd birthday and 13th wedding anniversary. He plans to observe both of them in Austin with his family. If it comes from a hardware store, we have it. Lewis-Hildreth.

Sister of Pampan Dies in Amarillo

Mrs. R. C. Stout, 55, of Amarillo, sister of Jerry Boston, Pampa businessman, died Sunday. Funeral services will be at 4 p. m. Tuesday at the Boswell Bros. chapel in Amarillo. She is survived by her mother, Mrs. J. R. Boston, Amarillo; her husband and two sons, Billy of Galveston and George of Amarillo; five brothers, Jerry of Pampa, P. T. of Shamrock, Bill of Goodnight and U. J. and Louis of Amarillo; and one sister, Mrs. Otto Meyers, Childress.

Communist Hugs Sack Remote Town

MANILA — (AP) — Two hundred Communist huckabaha killed two citizens army defense forces and sacked the remote town of San Narciso Saturday night, a report received by officials here said today.

Strike Vote Due Tomorrow

TAMPA, Fla. — (AP) — More than 4,000 Tampa cigar workers vote today on whether to strike in their demand for higher wages.

Wear Sapphire Ring

Screen Actress Patrice Wymore of Salina, Kan., wearing the six carat sapphire ring given her by her fiance, Actor Forrester Flynns, gives him an endearing smile as they pose in a Paris hotel. The sapphire of deep blue — matching the color of Miss Wymore's eyes — was crusted with baguette diamonds. No one would say how much it cost. The couple will be married in both civil and Protestant ceremonies in Monte Carlo, Oct. 23. (AP WIREPHOTO)

Family of Four Dies in Accident

THIBODAUX, La. (AP)—A family of four died yesterday when their automobile flipped over twice, landed in a canal and caught fire. Chief Deputy Sheriff Ed Ste-Marie said the car settled in about six feet of water. Part of the vehicle remained above water, caught fire and burned to the water's edge. He listed the dead as Thomas G. Bigelow, 62, structural iron contractor; his wife, 55, and their daughters, Toledo, 36, and Mildred, 25. All were from Miami, Fla.

HULL CALLS

(Continued from Page 1)

Roosevelt as the "father of the United Nations." Since then he has largely recovered his health and for many months has been able to receive friends regularly, and to leave his apartment in a Washington hotel almost daily for an automobile drive or a walk. Through conversations with government officials and through close attention to press and radio, he keeps in touch with daily developments in the world and particularly with the work of the United Nations which he played a large role in creating. In his birthday statement issued today, Hull said that "people everywhere should be highly gratified to observe that the United Nations has proved capable of acting effectively to oppose aggression." "Grave difficulties and dangers still confront us on all sides," he continued. "But I am certain that with time and patience, and with devotion and sacrifice on the part of the free nations, the United Nations will steadily grow in strength and capacity to fulfill its central function, the preservation of international peace and security." To this end, Hull said, every free country now needs more than ever before, informed, responsible and public spirited citizenry. "In the United States, he added, one great question is whether we can stand united and strong as we face the challenge of aggression and subversion," he added.

"Never before have we so desperately needed knowledge and understanding of foreign affairs by American men and women and constructive public discussions of the problems involved, but always in a spirit of true non-partisanship and with the national interest alone at heart." In discussing his statement with reporters, Hull endorsed the warning by President Truman and other administration leaders against any letdown in the American defense effort following victory in Korea.

30 MILES

(Continued from Page 1)

nationalist defense ministry spokesman, Gen. Chang Yi-ting, spoke.

"Choi cannot decide to do anything. It will all be decided for him in Moscow."

Although top U. N. commanders maintained silence, the South Korean drive across the border apparently had official sanction.

AP Correspondent Hal Boyle reported from the front that the order to cross was given by Lt. Gen. Walton H. Walker in a message dropped to the South Koreans through their division from a small plane.

Boyle reported the South Korean third division crossed the border 15 minutes before the first broadcast of MacArthur's surrender ultimatum at noon Sunday, Korean time (9 p.m. Saturday, CST).

The U. N. commander demanded surrender "at once" and immediate release of "all United Nations prisoners of war and civilian internees."

The alternative, MacArthur warned, is "further useless shedding of blood and destruction of property."

However, the steel industry was being eyed apprehensively by government officials concerned with inflation. Sharon Steel Corp., ninth biggest company, announced increases of \$5 to \$10 a ton on most of its products over the weekend.

Some smaller companies had boosted prices earlier, but the Sharon action aroused particular concern because it is a major supplier of auto metal. The increase could add \$25 to the cost of a car, trade sources said.

Steel industry wage negotiations just ahead heighten the possibility of price boosts through the industry, and lend emphasis to a growing mood within the Truman administration for establishing wage and price control machinery promptly.

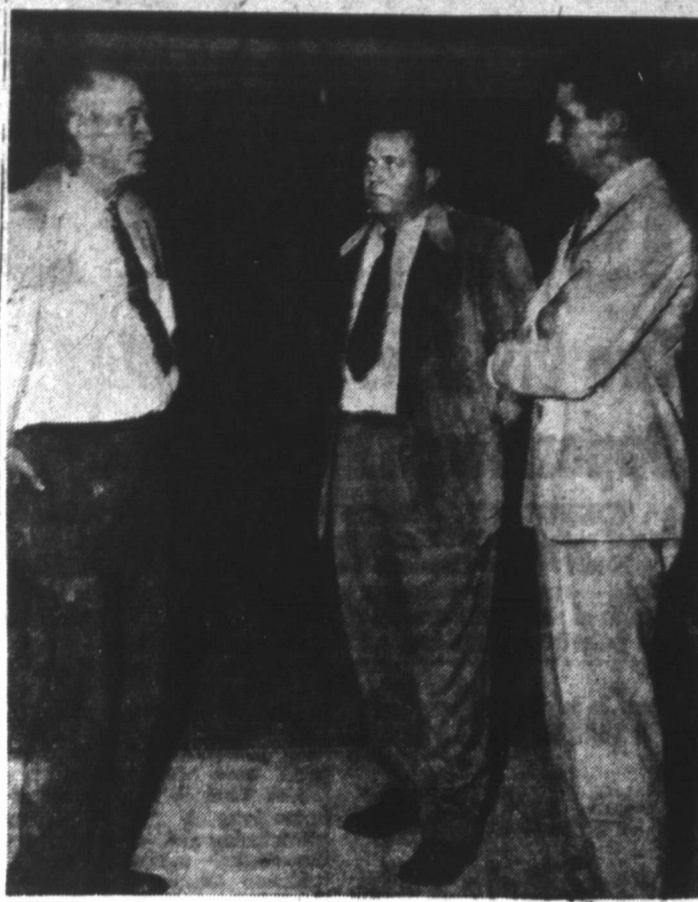

The president's council of economic advisers — cool to stand-by price-wage authority when the subject was debated in Congress — now is reported as believing that some action on this is "very urgent."

Wheat Poisoning Studies Explained at Kiwanis Meet

J. T. J. WORRELL, DR. CROOKSHANK AND CALLIHAM

Dr. Melvin Calliham and Dr. H. R. Crookshank, of Pan-Tech Farms, near Amarillo, presented a program on wheat poisoning at Kiwanis Club meeting Friday. The program included a commentary by both men and a film showing the actual symptoms and results of the condition. Dr. Calliham stated that in a normal year, about one million dollars worth of Panhandle cattle are lost due to wheat poisoning. The condition occurs most often in cows, especially those with young calves. The symptoms include a great deal of weakness, a wobbly condition in the legs, loss of equilibrium and muscular quivering. Often, it was pointed out, the only visible symptom is the cow's inability to stand on its legs. First signs of the poisoning may include a tendency to get extremely excited at the slightest noise. The speakers stressed the fact that up to now they have found no actual cause for wheat poisoning and are not even sure that the condition is caused by poisoning. They do believe, it was pointed out, that it is a deficiency rather than a toxic. Experiments on wheat poisoning are carried out by Crookshank and Calliham on Pan-Tech Farms, using rabbits instead of cows. Although the condition affects rabbits in much the same way it does cows, the men take every opportunity available to try out their experiments on cattle and to study the effects of the poisoning on them. It was suggested during the program, that ranchers who think their cattle might have wheat poisoning should contact Pan-Tech Farms at once and give specialists there a chance to study the stricken animals and to take a blood sample for further study. The speakers invited members of the Kiwanis Club to visit the farms either as a group or individually. The farms include about 320 acres of irrigated pasture land, laboratories and plantings of various crops which are being studied or being used in the study of animal and plant diseases. Dr. Crookshank and Dr. Calliham were presented by Foster Whaley, chairman of the agriculture committee. Team savory small sausage links with hominy grits for a delicious Sunday morning breakfast.

GERMANS

(Continued from Page 1)

make Sunday a bloody day of "national resistance" to the western allies and the West German government they sponsor.

The Communist had shipped in thousands of young fanatics, trained in troublemaking, from Soviet-occupied East Germany.

They tried to foment riots in the streets and squares of many cities from Hamburg to Munich. But they didn't get far against 100,000 well-organized German police.

Flying squads of armed police pounced on every small Red gathering so fast that agitators didn't even have time to distribute their leaflets of anti-western propaganda.

Some 900 would-be rioters were tossed into jail, joining 500 others who had been arrested as a precaution on Saturday.

The United States and France, which are not sponsors, were quick to support its provisions for formation of a strong U. N. commission to carry out a program to rehabilitate Korea as a whole, as it up as an independent nation, supervise elections, and see that U. N. troops leave the country as quickly as possible.

The plan also got quick support from Syria, Iraq, Peru, Cuba, Venezuela and Greece, as well as the sponsors of the resolution, The Philippines, Australia, Brazil, Cuba, The Netherlands, Norway, Pakistan and Britain.

The group questioned nearly two dozen Missourians in its investigation of interstate crime and possible link between the underworld and public officeholders.

organized crime, the Senate committee wants to look into such matters as "muscle persuasion." The city's Loop hotels have been asked to tell who supplies their liquor, bar supplies and some services.

The committee, headed by Senator Kefauver (D-Tenn) wound up its public hearings at Kansas City Saturday night. Kefauver said the committee had obtained "valuable and substantial information on how interstate crime operates."

Bell Home Demonstration Club Members to Tour Homes Tuesday

Plans were made for a tour of demonstrators at a recent meeting of the Bell Home Demonstration Club held in the home of Mrs. Henry Urbanczyk.

The tour will begin at 9:30 a. m. Tuesday, Oct. 2, at the home of Mrs. Henry Urbanczyk, yard demonstrator.

Bell HD officers for the coming year are Mrs. Emmett Osborne, president; Mrs. Henry Urbanczyk, vice president; Mrs. Lloyd Collis, secretary-treasurer; Mrs. Charles Warminski, parliamentarian; Mrs. Joe Keel, secretary representative; Mrs. Walter Noel, council alternates.

Mrs. Henry Urbanczyk started her demonstration on slimming exercises by saying "Don't say 'I'm too busy to reduce. My day is jam packed with work and I don't have time for rolling, bumping and bending exercises.' It is easy if it fits right into your daily schedule.

Washing windows, hanging pictures, dusting, reaching and stretching is good for rounded shoulders. Good posture while you work, stand, walk or sit is the key to a good figure.

Good exercise does not mean violent exercise, but regular exercise. A good, well balanced diet goes hand-in-hand with exercise," concluded Mrs. Urbanczyk.

Mrs. Mary Anne Duke, home demonstration agent, gave the demonstration on good use of the refrigerator and freezing unit.

Mrs. Duke said "Proper storage of left-overs in the refrigerator is as important as saving them to be eaten later. Use covered containers, plastic bags, or cartons to store food in the refrigerator. Meat should be removed from the heavy butcher paper and packed in light wax paper. It should be stored next to the freezing unit, or on the first shelf below the unit.

WE, THE WOMEN

By RUTH MELETT NEA Staff Writer

A lot of the proverbs Grandma lived by, Granddaughter has now changed around to suit her own convenience. And the new rules worked as well for Granddaughter as the old rules worked for Grandma.

"Feed the brute" has been changed to "Feed the brute's ego" — and the appeasement seems to work just as well as appeasement.

"Never put off till tomorrow what can be done today," has been twisted to, "Never do today what can be put off till tomorrow — and may eventually not have to be done at all."

Granddaughter has up and made nonsense of that old saw about a woman's work being never done.

Today the woman who can never catch up with her work can't console herself with that philosophy. She just has to admit she isn't as good a manager as she should be.

As for a woman's place being "in the home," well that's just a laugh to Granddaughter. She's revised that to read, "A woman's place is to keep in step with her husband and children and at the same time have some worthwhile and absorbing interests of her own."

MAN'S WORLD, PHOOEY! Grandma was convinced it was a man's world. But Granddaughter isn't at all sure she can't do whatever she wants and get whatever she wants out of life as she puts her mind to it.

Grandma was a firm believer in saving the best for company. Granddaughter is just as firm a believer in getting the good out of everything the family owns by letting the family enjoy the best.

China Patterns: Art to Live With

Margo Findlay, talented young designer of floral china patterns, fills in details of an apple-blossom sketch at her drawing board.

By ANNE LARSEN NEA Staff Writer LOS ANGELES — (NEA) — Because she believes art is something to be lived with every day, not an awesome thing to be admired from a distance in museums, Margo Findlay has made a new career out of household beauty.

Mrs. Findlay, who has been drawing and painting since childhood, now uses her talent for creating strikingly realistic designs for china.

She regards overglaze painting as a serious artistic medium, and proudly tucks her signature into the design of each new piece she does. She is best known for the naturalness of her floral patterns, which she executes with botanical accuracy.

She acquired this exactness during her Montana childhood, as the result of field trips with her father, a naturalist. Her earliest drawings grew out of an urge to preserve on paper the plants and animals she discovered on exploratory walks with him.

Her husband, too, she explains, is due a large share of credit for her current success. It was at his urging, after their marriage, that she turned in earnest to painting.

A versatile woman, Mrs. Findlay decided while in her teens that the lure of the stage was stronger than that of her drawing board. Ballet and vocal training, coupled with Little Theater experience, led her to New York and eventually to California.

There, while studying voice on a scholarship, she met her musician husband. She abandoned her Kilgus, Mrs. Leon Cook, Mrs. A. E. Marlow, Mrs. C. J. McNaughton, Mrs. C. W. Coffin and Mrs. Teresa Humphries.

Grace Friend

Dear Grace Friend, I came here last fall from another state. I've heard so much about the hospitality of this place but I haven't seen much of it.

Except for a few people I know, there isn't hardly any young people of my age that I know and I would certainly like to meet some nice people. I've had several dates, but they have not been to my liking.

I'm about 25 years old and would like to meet some nice folks my age and not more than five years older than I. I'm a fairly attractive person, weigh around 120 lbs., and am 5 ft. 4 1/2 inches tall.

I'm particular as to how I dress. I go to a Protestant church, and I enjoy dancing, movies, bowling, etc.

I would especially like to meet some nice fellows who want a good time and know how to treat a girl properly.

How can I meet these young people? I will appreciate any suggestions you can give me.

Lonesome

Dear Lonesome: The best way for you to meet congenial young people is to join a class in your church. I believe most Protestant churches have special clubs for young people your age. You may find agreeable friends in the group in your church.

The YWCA usually has clubs for young people, some of them in conjunction with the YMCA so that there can be both young men and women in them.

It always takes time to make a wide circle of acquaintances when you come to a new city so don't give up hope yet. You will find that in the natural course of events you will meet more and more people and eventually find your proper place in social activities.

What's RIGHT? You are being introduced and you sense that the person making the introduction is trying hard to remember your name.

WRONG: Stand silent, waiting for the person to either recall your name or admit not being able to remember it.

RIGHT: Supply your name quickly to keep the one making the introduction from being embarrassed.

Luncheon Meeting Opens the New Club Season for Varietas Members

A one o'clock luncheon in the home of Mrs. F. E. Imel was attended by members of the Varietas Study Club. Mrs. R. W. Lane and Mrs. Sherman White were co-hostesses. Invocation was by Mrs. J. G. Doggett.

The serving table was laid with a lace cloth and centered with an old fashioned figurine on a reflector. The figurine, which set the theme for the meeting as well as for the coming year, "Women of Today," was placed in a circle of pastel snapdragons.

Lunch was served buffet style with members finding their places by place cards. Each place card bore a tiny picture of the member who was to sit at that place.

The main centerpiece was repeated on each of the individual tables.

A corage was presented to the new club president, Mrs. C. L. McKinley.

Those present were Mrs. Henry H. Butler, Mrs. Loyce Caldwell, Mrs. J. G. Cargile, Mrs. J. G. Doggett, Mrs. H. P. Dozier, Mrs. S. C. Evans, Mrs. H. T. Hampton, Mrs. Lee Harrah, Mrs. E. J. Haslam, Mrs. F. E. Imel, Mrs. Dow King, Mrs. J. E. Kirchner and Mrs. R. W. Lane.

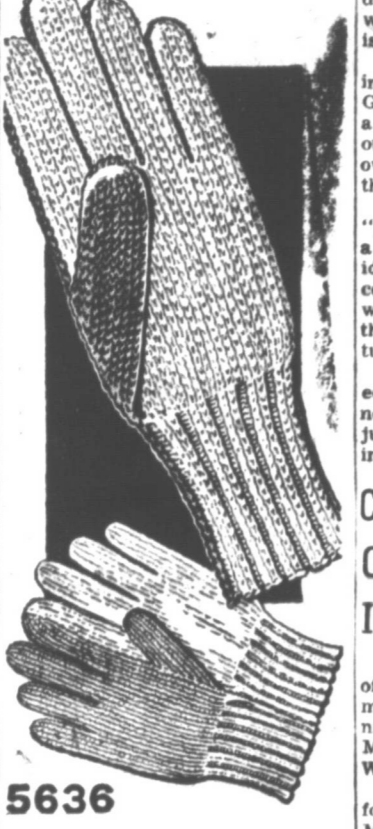

Mrs. Horace McBea, Mrs. C. L. McKinley, Mrs. J. C. Williams, Mrs. W. H. Moseley, Mrs. Ralph Thomas, Mrs. J. C. Vollmert, Mrs. Sherman White and Mrs. Frank Wilson.

Made on Two Needles

By MRS. ANNE CABOT The best fitting and easiest knitted gloves you could possibly find. The novice and the experienced knitter will both be pleased to find how easy it is to make gloves on ONE pair of straight needles. Gloves shown are made in 2 colors for smart contrast but would be equally smart in one color.

PATTERN No. 5636 consists of complete, accurate, easy-to-follow knitting instructions for Two Needle Gloves (in small, medium and large sizes); material requirements and stitch illustrations.

Send 20c in COINS, your name, address and the PATTERN NUMBER to ANNE CABOT (Pampa Daily News), 1185 Ave. Americas, New York 19, N.Y.

NEEDLEWORK FANS — Anne Cabot's BIG new ALBUM is here. Dozens of fascinating new designs, gifts, decorations and special features. PLUS 4 gift patterns and directions. 25 cents.

Fill celery stalks with a mixture of a deviled meat spread and cream cheese and serve watercress as a first course. Cut the filled stalks in small wedges if you like.

Here is Mrs. Blair's statement: "Before I started taking HADACOL I was nervous, underweight and had trouble sleeping. My food did not agree with me. Seemed like I was jumpy and irritable all the time. My back bothered me a lot and I couldn't sleep, and when I did dose off at night, I would wake up in the morning feeling like I hadn't had a drop of rest. My mother noticed how I looked and she suggested I take HADACOL. After a started taking HADACOL I began to notice a difference right away. Now I sleep well—my nerves are steady, my disposition is 100% better and I actually enjoy my food. Life certainly is wonderful—now that I am taking HADACOL.

Get the Wonderful HADACOL. Feeling Yes, do as thousands of other folks have done who have had trouble with indigestion, stomach disturbances (gas, heartburn, sour "risings") after meals, as well as that general run-down condition, if your system lacks Vitamins B-1, B-2, Iron, and Nicotin.

HADACOL is being recommended by many doctors. HADACOL is so amazingly successful because it acts directly to relieve the cause of your trouble when due to such deficiencies. That's the kind of product you want—the kind you should buy—the kind you should start taking immediately.

There is Only One HADACOL. Don't go through life suffering such fiendish torture from your stomach, when relief may be as close as hand as your nearest drugstore. Buy HADACOL today. Trial size bottle only \$1.25. Large family or hospital size, \$3.50. Retail substitutes. There is only one true and genuine HADACOL adv. (c) 1950, The LeBlanc Corporation.

Crusaders Class Of First Methodist Installs Officers

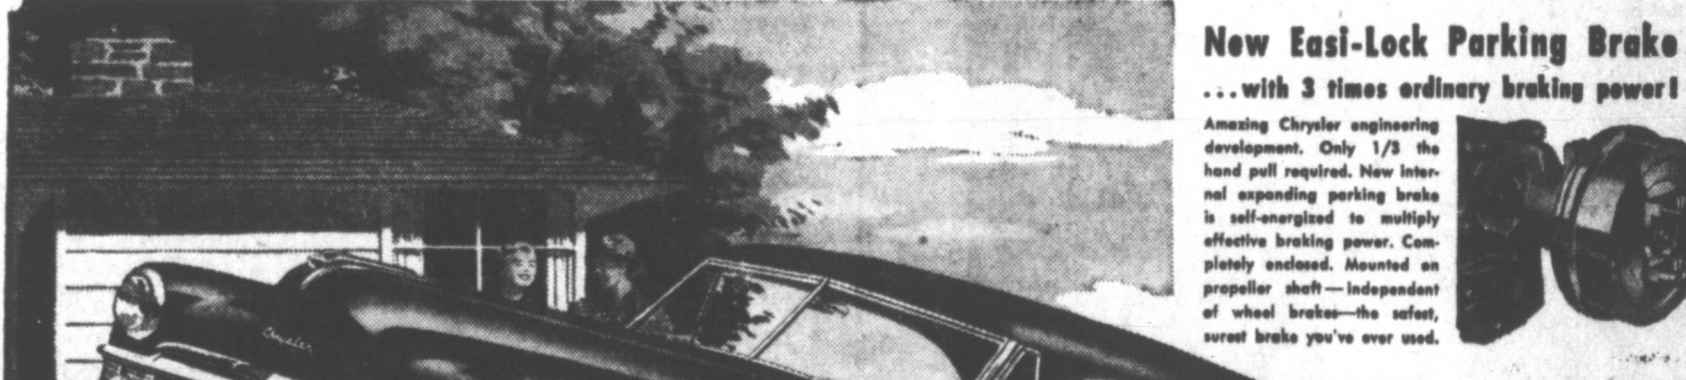

Members of the Crusaders Class of the First Methodist Church met in the church parlor Thursday night with Mrs. A. L. Smiley, Mrs. A. D. Prueitt and Mrs. Don Wilson as hostesses.

Mrs. Harold Wright installed the following newly elected officers: Mrs. Joe R. Donaldson, president; Mrs. Vernon Stuckey, vice president; Mrs. Don Wilson, secretary; Mrs. Wilson Howell, assistant secretary; Mrs. R. D. Wilkerson, reporter; Mrs. H. H. Boynton, teacher and Mrs. George Parks, assistant teacher.

Others present were Mrs. L. H. Bromert, Mrs. Raymond Johnson, Mrs. Leon Mohon, Mrs. C. J.

Holds Everything... on any hill!

No matter how steep the grade... you can park your Chrysler and it won't roll. With Chrysler's new "Easi-Lock" Parking Brake you have three times ordinary braking power. Yet only one-third the effort is required to pull it on with your finger tips. Nothing you've ever used equals its ease and sureness. No straining—yet once it's on, nothing can budge your car. It's just one more new advantage that puts Chrysler still further ahead in safety!

Chrysler Driving Advantages: Fluid Drive... automatic gear shifting with exclusive air control High Compression Spirite Engine... extra power at all speeds. Superlubricated parts for longer life. Chemically treated cylinder walls for greater wear! Waterproof Ignition System... prevents stalling in flood or storm. Full New Oil Filter keeps oil clean longer.

Chrysler Comfort Advantages: Chair Height Seats... no crouching on the floor... Functional Design... room for your head, legs, shoulders. Easy to enter and leave. Center-arm Steering... minimizes road shock, wheel lift. Rubber Body Mountings... Floating Power... eliminate vibration, help give softest, smoothest ride in history.

Chrysler Safety Advantages: "Easi-Lock" Hand Brake... holds car parked on any hill. Safety Rim Wheels... won't throw tires after blowouts at normal speeds. Constant Speed Windshield Wipers... electrically operated... won't slow down when you stop on gas. Lock Guard Hydraulic Brakes... exclusive balanced brake power, smoother stop, less pedal pressure.

1951 Balance Of Building Supplies Seen

WASHINGTON—(AP)—The supply of building materials will come into balance with requirements within a "slight" surplus, time and probably will exceed the demand next year, C. B. Sweet, president of the National Retail Lumber Dealers Association, stated today.

"While the defense production program will reduce the supply of building products which utilize steel, copper and other metals, the reduction in output will not be as great as the probable decline in demand, unless mobilization plans are accelerated well beyond present estimates," Sweet said.

"The production and supply of many other building products which do not involve strategic materials should be entirely ample next year, and there may be an oversupply in some lines."

"The government has indicated that it will encourage a large volume of building as it constantly can from now on, so that construction, which is the nation's largest non-agricultural industry, can continue to provide large-scale employment and help maintain the civilian economy."

"The defense program during the current fiscal year will not require more than about five billion board feet of lumber, including 3.5 billion feet for boxing and crating, according to the Department of Defense, and that is only about one-eighth of the probable production."

"In addition, defense production is not expected to take away from construction more than about 10 percent of the steel used this year. Thus, while there will be a fairly substantial surplus of building materials during the next year, the volume may well come up to the level of 1949, which was considered a highly satisfactory year in construction."

Hank's Readers Come to Aid Of Bob Taft--But No Crow

By HENRY McLEMORE

With the possible exception of a cold shower, three or four seconds of brisk setting-up exercises in front of an open window, and a telegram saying that an uncle has left you a half million dollars, I can think of nothing more bracing than a columnist's mail on a Monday morning.

Monday is usually the day I have my hair marcelled, but it was curled for me for free today just by the letters I received concerning a recent column I wrote about that Ohio playboy, Robert Taft. I simply wrote that I didn't like Mr. Taft. There must be millions of other Americans who don't like him, otherwise he would long ago have had the Republican nomination for president. But has everyone who expressed his dislike of Mr. Taft gotten the letters I have? My guess is no, although I don't know for sure.

Why is it that the American people pick on columnists? After all, we are just a group of men trying to make a living. The Muse doesn't drive me to the typewriter half as often as do landlords, grocery bills, girdles for the little woman and an occasional steak for the two of us. Why single out columnists to get their jobs? I wouldn't mind these letters so much if they came directly to me and I could dispose of them without any eyes put on my own seeing them. But the writers of these letters usually send them to the editors of the papers who know my strained circumstances and are gracious enough to buy my column to help me out.

I would like to consider, if you will grant me the time, a letter from L. A. Quinn, Counsellor at Law, 1625 K Street, N. W., Washington 6, D. C., who wrote to Mr. Ben McKelway, editor of the Washington Evening Star.

It starts this way: "Sir: Why in the name of God do you pay your money to a newspaper to publish readers such as I? I refer particularly to the thing which cluttered up the overseas mails or wire service from London agent Senator Taft, as published in your paper of September 21st."

Now, don't tell me that is calculated to make Mr. McKelway any more eager to have my column. Brother Quinn has planted a seed in Mr. McKelway's mind which might very well do me harm, should I am in no position to be doing anything to defend Brother Quinn has always been an exemplary citizen? Has he always volunteered to do the bar-becuing when the wind was from the wrong direction? Is he known to his intimates as the Mr. Quinn who turns down the white meat when he has first whack at the platter of chicken? I hazard a guess that he isn't all that perfect.

Just when I showed some signs of recovering from Mr. Quinn's sweet note, I opened a letter from Joe Bartlett, whose residence is at Lost Creek 2, West Virginia. Mr. Bartlett had this to say to me:

"For gosh sakes, man, stick to a subject you know something about. You owe Bob Taft an apology. I suggest you eat a little crow. It doesn't taste so bad and you will be a better man for it."

Why should a man stick to a subject he knows something about? I can imagine nothing duller. Bartlett doesn't know it, but I am just about finished writing a book on balloon ascension, a subject of which I am entirely ignorant. As for eating crow, I don't aim to. He says it doesn't taste so bad, but the three or four regular crow eaters I know have very few kind words for the dish. They are unanimous in the opinion that it tastes like crow.

Now to get back to Mr. Taft—the man to whom so many readers say I owe an apology—I herewith tender one. I apologize for not being able to write on two typewriters at the same time just how little I think of him. For those readers of mine who can read, I suggest that they look up the record of the gentleman from Ohio in the years just previous to World War II. If his is a record to be proud of, then I am six feet three inches tall, twenty-six years old, have a yearly income of a million dollars, and am deeply loved by Rita Hayworth, Princess Margaret, Lana Turner, and Betty Hutton.

I suppose these people who have written me about Taft don't like Marshall and MacArthur. As far as I am concerned, these letter writers will live a long and merry life before I write them, particularly since a stamp costs three cents.

Homemade Garage Bench Is Boon to Auto Tinkerer

For the automobile tinkerer, a 2 by 2-inch and 2 by 4-inch workbench in the garage is indispensable. This working surface, when complemented by a wall-hung tool board, may readily become the haven of the handcraft man who is adept not only at car tinkering but as an all-around home mechanic.

Such a workbench and tool board, designed especially for installation at the end or at the side of the garage, can be built by anyone handy with carpenter tools. Constructed on a frame of 2 by 2-inch and 2 by 4-inch lumber, the workbench is 4 feet long, has a working surface 3 feet wide and is 34 inches high.

Six Legs Support Bench

Six legs of 2 by 4-inch lumber form the legs of the narrow-width bench, the working surface of which has a 3-inch overhang on the front side. The 2 by 2's support the legs under the top and at a distance of 3-1/2 inches from the floor. The 1 by 2-inch lumber is used as a frame for a shelf midway between the floor and working surface.

Over the upper 2 by 2's, the home craftsman will lay 1 by 6-inch tongue and grooved boards. For the working surface he will use Masonite quarter-inch tempered hardboard because of its density and resistance to wear. The same material will form the sides of the workbench and the two doors which are constructed over a simple frame of 1 by 2-inch lumber. The doors may be fitted with hasp and lock.

Both the center shelf and a similar one laid on the lower 2 by 2's are sawed to size from a panel of Masonite quarter-inch tempered hardboard.

Suspended on the garage wall so the bottom is 6 inches above the working surface can be built an enclosed tool board which is 2 feet 8 inches high and the width of the bench.

Its sides are made from 1 by 6-inch lumber. The doors, which join in the center, and the back are made of Masonite quarter-inch tempered hardboard. The hardboard is attached to a frame of 1 by 2-inch lumber.

Tool holders, which may be made of dowels or shaped pieces of wood, should be fastened with screws to the board from the back before it is fastened to the wall. Tool board doors may be outfitted with a padlock. The inside of the doors may be used also for storage.

Pennsylvania Red Offices Unlocked

PITTSBURGH—(AP)—A padlock, which has closed the headquarters of the Communist party of Western Pennsylvania for more than two weeks, has been removed and the office opened up for business.

In a ruling Friday the supreme court of Pennsylvania overruled an Allegheny County court order and directed the padlock removed. The high tribunal said:

"There is no statute empowering a court of quarter sessions to padlock the premises because they happen to be occupied or used by persons accused of crime; and no such power inheres in the court otherwise."

The headquarters were ordered locked shortly after Steve Nelson, Western Pennsylvania Communist chairman, was arrested on a sedition charge.

The charge was brought by Judge M. A. Musmanno of the Allegheny County common pleas court, acting as a private citizen. Nelson now is free on \$10,000 bail.

Witness Afraid Women Jurors Talk Too Much

PHILADELPHIA—(AP)—A Phoenixville, Pa., man called to testify before a federal grand jury hasn't much faith in the ability of women to keep a secret but the judge has.

Clarence J. Malehorn refused to answer several questions before the jury. He told Federal Judge J. Cullen Ganey he didn't think he could trust the women on the panel to keep his testimony secret. They'll talk, he told the judge.

But Judge Ganey was in no mood for such nonsense. He ordered Malehorn to talk and answer the questions. The witness talked.

Malehorn is a partner in a Camden, N. J., wire communication service. He appeared before the special grand jury investigating gambling and rackets in the Philadelphia metropolitan area.

Benefit Payment Measure Is Signed

WASHINGTON—(AP)—President Truman Saturday signed a bill allowing the payment of benefits to the parents of deceased servicemen who were prisoners of war, without need to show dependency.

Arms Cost Hits Europe Workers

PARIS—(AP)—The cost of rearming against communism is hitting European workers a blow just as they were getting a taste of better times.

This makes it harder to put across the big aim of strengthening Western Europe.

Workers in only one country, West Germany, seem likely to gain from the program. West Germany is being asked to put more men to work at the things Germans do best—making steel and the raw stuff of armament.

In France, probably more than elsewhere, it promises harder times and perhaps serious political effects. Throughout Europe prices already have increased and many items have become scarce.

Simple Caution Prevents More Fires in Residences

By BOB SCHARFF
 Written for NEA Service

There is one chance in a hundred that there will be a fire in your home this year—one chance in twenty that you'll have a home fire during the next five years. But how can you protect your home against fires? It's simple—be careful.

Careless personal habits cause most fires. Thoughtless discarding of lighted matches and smoking materials alone is responsible for nearly 30 percent of all fires.

Use of gasoline or other inflammables for cleaning clothing, open fireplaces without fire screens, leaving matches where

children may reach them and that old bugaboo, smoking in bed, all take their toll in damage and lives.

One out of every four fires is caused by defective heating plants. A yearly check-up of the complete system, furnace to chimney, is essential.

All heating plants, pipes or appliances should be at least 18 inches away from any wall or burnable material. Heaters, including stoves, should be on insulated metal, cement or other incombustible bases.

Walls and stoves should be protected by asbestos sheeting or other insulating materials listed by Underwriters' Laboratories, Inc. Clean the chimney every year and repair it promptly when cracks or loose mortar appear. Never use a fire stove that gives more heat. Consult your heating man about increasing its efficiency safely. Empty hot ashes into metal containers—never into wooden boxes.

Another potential fire hazard is your electrical wiring and appliances. Constant watch should be made for deterioration of wiring and flexible appliance cords. In older houses have the wiring inspected by a licensed electrician. Be sure your fuses are of correct amperage for the circuits—15 amperes usually are right and don't tamper with the "safety valve."

Since the majority of home fires start in the basement, install a device there to warn you the minute a fire starts. Alarms can be had for \$5 to \$20. Fire extinguishers should be placed at the head of each stairway, in the kitchen and the garage. Remember fire extinguishers must be checked and refilled periodically.

Another frequent cause of fire is spontaneous combustion. The only protective remedy is to clean out accumulated junk and rubbish from basement to attic.

When a fire breaks out in a home, the first thing to do is get everyone out of the house. If there are any rooms in the house isolated from the stairways or other exits, these should be equipped with a chain ladder or even a rope tied to a radiator. Turn in an alarm after everyone is out of the house. Then turn your attention to bringing the fire under control. True, the first few minutes of a fire are the most important, but it is even

When BAD COLDS move in... VICK'S VAPORUB IN STEAM

Brings DEEP-ACTION relief from coughs, stuffiness with every single breath!

BOON TO MOTHERS!

Now... discover how millions of mothers relieve miseries of nagging colds this special way... with the very same Vicks VapoRub that brings such grand results when you rub it on.

It's so easy... so effective. Just put 2 good spoonfuls of VapoRub in a vaporizer or bowl of boiling water as directed in the package. Then... breathe in the soothing, medicated vapors. Every single breath carries VapoRub's famous combination of time-proved medications deep into cold-congested large bronchial tubes. Brings relief in a hurry!

To keep up the relief for hours, rub VapoRub on throat, back and chest, too.

The American Way

By GEORGE FECK

DISLOYAL, MINO. There are some Americans (thank God they constitute only a small minority of our total population) whose only thoughts in time of war is how many dollars they can make out of the suffering bloodshed and anguish which armed conflict inevitably visits upon mankind...

And also, unfortunately, there are some American wage-earners who, despite the grave emergency, are still obsessed with the ungodly idea of extracting the utmost farthing in wages for the least possible work done.

BOASTED--The senior Harriman once boasted, and in writing, that he had personally contributed more than \$200,000 to elect "Teddy" Roosevelt in 1904.

Success Secrets

By ELMER WHEELER

Make hay while the sun shines shines is an old success secret. But many successful people have the knack of making hay while the sun isn't shining--which I think is a better motto.

And also, unfortunately, there are some American wage-earners who, despite the grave emergency, are still obsessed with the ungodly idea of extracting the utmost farthing in wages for the least possible work done.

BOASTED--The senior Harriman once boasted, and in writing, that he had personally contributed more than \$200,000 to elect "Teddy" Roosevelt in 1904.

Thoughts

Look up and not down; look forward and not back; look out and not in; and lend a hand. --E. E. Hale.

All Civic Tournament Won By Kiwanis Club

Rotarians Fail in Bid To Keep Victory Plaque

Twenty-two Kiwanians battled wind, Rotarians, Jaycees and Lions Sunday afternoon, and after all the divots had been replaced, the Kiwanians walked off the links with the Pampa All Civic Golf championship title.

Perfect Records Trimmed to 31 in Class A Play

The list of undefeated, untied teams in Class A high school football has been trimmed to 31. More than a dozen perfect teams took the count last week and several had ties.

Most of the 220 schools in this division play in district races this week.

Biggest surprise last week was Wharton's scoreless tie with New Braunfels, rated Class A's best.

Unbeaten, untied clubs are Memphis, Littlefield, Kermitt, Manahans, Wink, Haskell, Crowell, Olney, Diamond Hill, Newcastle, Arlington, Mt. Pleasant, Mt. Vernon, Sulphur Springs, Hearne, Lavaca, Georgetown, Brenham, Giddings, Gonzales, Alvin, Lamarque, Vidor, West Columbia, Floresville, Robstown, Sinton, Mercedes, Pearsall and Uvalde.

Unbeaten but tied are Phillips, Shamrock, Abertonia, Henrietta, Mesquite, Pleasant Grove, Terrell, Hooks, Linden, Lampasas, Elgin, New Braunfels, Seguin, French (Beaumont), Wharton and Donna.

One of the top games this week matches Monahans and Wink in a district five contest.

Other top games include Seguin-Gonzales; Shamrock - Memphis; Birdville-Newcastle; Cicero-Ranger; Stamford - Haskell; Mesquite - Arlington; Lagrange-Brenham; Laporte - Alvin; Ft. Acres-Silbes; Pearsall - Karnes City; Mission-McAllen, and Pearsall-Crystal City.

Fans Pack Stadium To Watch SMU

By HAROLD V. RATLIFF. DALLAS — (AP) — Southern Methodist has become one of the greatest attractions in football — a team that can pack in more than a half-million fans a year.

But, says Matty Bell, one of the men instrumental in building the Mustangs into a contender, this is nothing new. SMU has had that kind of team and played that kind of schedule for years; it's just now cashing in because it has a suitable stadium.

Saturday, Southern Methodist beat Ohio State 32-27 in one of the nation's top games. More than 80,000 fans saw this thriller at Columbus, Ohio.

In two games this season the Methodists have played before almost 125,000. They bid fair to better last year's record of 540,000 — the second largest draw in the nation. Only Michigan beat it.

"We have played the football the fans want to see for years," said Bell, coach from 1935 until this year when he retired and became athletic director. "We have been arranging intersectional schedules since the twenties. But we have only the past few years had a stadium that would make possible big crowds, and also prove attractive enough to give us the kind of intersectional schedule we want."

The Cotton Bowl was used sparingly in 1948, more in 1949 and last year, when it was enlarged to 75,000 capacity, all home games were played there. The handbox stadium on the campus that strained to handle 25,000 now is only a practice field.

"We have been fortunate in getting great football players like Don Walker, Gil Johnson and Kyle Rote the past few years," Bell observed. "But we've always taken only high type boys. We have built a pride in football and in the traditions of playing best when the competition is strongest."

Bell was elated over what SMU did Saturday in beating Ohio State. "That was a fine football team," he said. "It was sounder defensively than Notre Dame was last year when they were No. 1 in the nation and defeated us 27-20."

He said he wouldn't be at all surprised if Southern Methodist is voted No. 1 in the nation. He indicated he figured that would be about right.

Hobbs Tourney Oct. 4

Johnny and Grover Austin, Jr. and left Monday for Hobbs, N. M., where they will enter the annual West Texas Pro-Amateur golf tournament. The golf shoot will start Oct. 4 and run through Oct. 8.

Pass Snagging Ponies Lead SW Conference

DALLAS — (AP) — A look at the Southwest Conference football statistics shows in less than a second why Southern Methodist now is the favorite for the championship.

It required just two games for the Methodists to convince most of the folks that they are not the Texas Longhorns should be put at the top.

Southern Methodist has two of the three leading passers, the three top pass-receivers and the best punter. Also, SMU's Kyle Rote is the best all-around offensive man. He has gained 870 yards rushing and passing.

The record of H. N. Russell, Jr., Johnny Champion and Bennie White as pass-snagging is amazing. Together they have caught 28 passes for 488 yards and six touchdowns in two games. White has snared the most throws with 11 but Russell has gained the most yardage, taking 10 for 173 and three touchdowns. Champion has caught seven for 38 yards. White's 11 have produced 137 yards.

Quarterbacks Meet Tonight at Eight

The Pampa Quarterback Club will meet at 8 o'clock tonight in the Palm Room at the city hall. Club President Dr. Donaldson contacted West Texas State College, and a movie of a West Texas game will be shown following the meeting.

Coch Tom Tippa will give a run down of Friday's game with Vernon. There will also be a scouting report of the Wichita Falls eleven, who the Harvesters play this Friday.

Club members can pick up their bus tickets to the Wichita Falls game at the meeting.

It reminds you too much of 1942 when the underdog St. Louis Cardinals upset the same Yankees and almost ran them out of the ball park. The Phils

Phils To Meet Yankees As Roberts Stops Bums

Sisler Raps Four Baser to Win Game

By JOE REICHER. PHILADELPHIA — (AP) — Their first pennant in 35 years safely stowed away, the Philadelphia Phillies today planned to shoot the works against the highly favored New York Yankees in the world series starting Wednesday.

Unless he has a change of heart, Manager Eddie Sawyer of the Phils will open with Robin Roberts, 4-1 conqueror of the Brooklyn Dodgers yesterday in the game that gave the Whiz Kids the National League flag. Roberts will be opposed by Alie Reynolds in a battle of right-handers.

Having clinched the American League pennant last Friday, the well-rested Yankees will rule 2-1 favorites over the tired Phils. Experts figure the Yanks have 100 much experience, deeper reserves strength and a stronger pitching than the youthful Whiz Kids.

Philly Manager Eddie Sawyer does not appear to be worried about the Yankees prowess. "We weren't figured to have a chance to beat Brooklyn for the pennant, were we?" He reminded.

"I haven't decided who will pitch the opener," the jubilant 40-year-old candidate for "Manager of the Year" added. "But I'd say that Roberts is a strong possibility."

After all, what was good enough for the Dodgers might be good enough for the Yankees. Rose-cheeked Robin undoubtedly pitched the greatest game of his life. However, he knew he was in a battle with Brooklyn's Don Newcombe. If Dick Sisler had hit that homer with two on in the top of the 9th, he might snap a 1-1 tie, the game might go on for yet.

The blow by Sisler, son of the immortal George who acts as Brooklyn's head scout, ended a Brooklyn "miracle" finish that for a time threatened to throw the race into another flat-footed last day tie. It gave Roberts his 20th victory of the year after the youngster had made five futile tries for it.

Although Roberts yielded but five hits to the Newcombs, he had to summon all his will and cunning to hold off a Brooklyn bases-loaded threat in the ninth that appeared destined to bring about the Phils' sixth straight defeat.

A year ago, 35,073, biggest of the year at Ebbets Field, went into the hysterics as Cal Abrams led off the last of the ninth with a walk and took second on a single by Pee Wee Reese.

That brought up Duke Snider, the best hitter on the club. With everyone expecting a bunt, Snider teed off and slashed a line single to center. Abrams attempted to score from second but Richie Ashburn made a one-handed scoop of the ball and threw the runner to the plate. The ball came at a good hop right into Stan Lopez's hands. Abrams didn't have a chance and was tagged standing up.

Then it was the Phils' turn. Eddie opened with a single to center. Snider teed off and blooped another single to center. Abrams attempted to sacrifice, bunted into a force play at third. That set the stage for Sisler's game-winning clout.

The Phils drew first blood, tallying a 1-0 lead in the sixth on three singles after two were out.

The Dodgers tied the score in their half on a freak homer by Reese. The four-bagger was a slicer which went drifting out into right field in lax fashion. It struck the screen at the point where it meets the fence beneath and wedged in there while frustrated Del Ennis looked up at it pleadingly.

In other final games of the National League season, the New York Giants defeated the Boston Braves, 5-1; Chicago edged St. Louis, 3-2 in 11 innings and the Pittsburgh Pirates and Cincinnati Reds divided a doubleheader. The Reds won the opener, 3-2, and the Pirates the nightcap 3-1.

The Boston Red Sox trounced a bunch of New York Yankees scores, 7-3; Cleveland downed Detroit, 7-5; Philadelphia beat Washington, 5-3; and Chicago and St. Louis divided a doubleheader. The White Sox won the opener, 4-5, and the Browns the finale, 10-9.

The Pampa News Want Ads Bring Results.

Didrikson Wins

WICHITA, Kas. — (AP) — The National Women's Open Golf meet was just another tournament for Babe Didrikson Zaharias. The great woman athlete breezed to the title yesterday with a 72-hole total of 291.

That was nine strokes better than her nearest competitor, amateur Betty Rawls of Austin, who had a 300.

Other top finishers included Marlene Bauer, Midland, 308.

Writer Picks Phils Over Yanks

NEW YORK — (AP) — Yankee home run power and superior pitching set up the American League champions as 2 to 5 favorites to whip the eager Philadelphia Whiz Kids in the world series opening Wednesday at Shibe Park.

Despite the odds stacked against the pitcher-poor Phils, the pick here goes to the underdogs from Philadelphia in six games with Jim Konstanty taking the bow. But put it down as a hunch. The figures don't back it up.

Everybody is feeling sorry for the Phils, who barely scraped home with the pennant by beating Brooklyn, 4-1, in 10 innings yesterday after blowing most of a big lead. That may be a total mistake.

It reminds you too much of 1942 when the underdog St. Louis Cardinals upset the same Yankees and almost ran them out of the ball park. The Phils

PAMPA NEWS, MONDAY, OCTOBER 2, 1950 - PAGE 7

Forward Pass Is Potent Weapon for Texas Teams

By WILBUR MARTIN. Associated Press Staff. They say Southwest Conference teams are "pass happy" and last week they were so right.

It was the forward pass that brought Southern Methodist, Baylor and Rice victory, and Texas, Texas A&M, and Arkansas found it a perfect balance for vicious running games.

There were some amazing individual performances last week, but the most amazing of all was that of Fred Benner.

Benner pitched four second half touchdowns passes to give Southern Methodist a 32-27 victory over Ohio State, and completed 19 of 34 attempts for 306 yards.

Vernon glass tossed four scoring passes as Rice smacked Santa Clara, 27-7, and Larry Isbell threw three touchdown heaves in Baylor's 44-7 victory over the University of Houston.

Texas mixed passing with vicious running by Byron Townsend in outscoring Purdue, 34-26. A&M did the same in beating Texas Tech, 34-13, and Arkansas in running over North Texas, 50-6.

Oklahoma A&M, roundly outplayed if you believe the statistics, dumped Texas, Christian, 13-7.

This week Texas Christian and Arkansas tick off conference competition, while Southern Methodist tackles Missouri; Baylor meets Mississippi State and Rice takes on Louisiana State. Texas is idle.

Southern Methodist trailed Ohio State, 24-7, halfway through the third period. Then Benner unlimbered his passing arm and stamped the Mustangs on a wild stampede that left 80,627 fans in the Columbus, Ohio, Stadium limp with excitement. The Mustangs gained 418 yards passing and ended with a minus seven yards on the ground.

Two of Texas' touchdowns came on passes. Arkansas scored two this way and Texas A&M three.

Biggest surprise was Oklahoma A&M's second straight victory over a conference team. Arkansas was the first to be upset by the Aggies.

Spartans Tagged Giant Killer by Sports Writers

NEW YORK — (AP) — The new giant killer of the Midwest, Michigan State, will have an opportunity to test its muscles against another sectional giant this coming Saturday when it takes on Maryland, a pre-season pick for high national honors, at East Lansing.

The Spartans produced the biggest upset of the past college football weakened by spilling mighty Michigan, 14-7. The previous Saturday they romped all over Oregon State.

Maryland Saturday gave a highly-touted Navy squad a 33 - 21 beating.

Notre Dame, recovering from a big scare after pulling out a 14-7 victory over aroused North Carolina Saturday, this week faces Purdue, which bowed to Texas, 34-26.

The week's top engagement in the deep South matches Louisiana State against Rice at Houston. Rice, defending champion in the Southwest Conference, humbled the Santa Clara Broncos, 27-7.

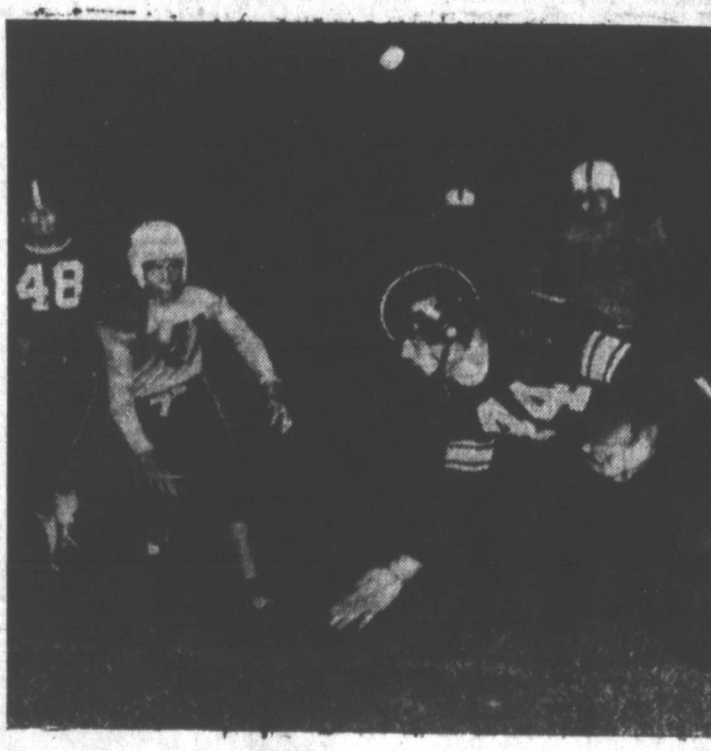

A Savings Plan that Grows with your child

Haven't you often thought... "If only my dad had bought me more life insurance when I was young?" Through the new Franklin JUNIOR INSURED SAVINGS PLAN you can make sure now that your child will never during his lifetime need to spend money for insurance protection. The pass book savings plan enables you to create an immediate estate for your child that grows with his responsibilities and then matures in cash at age 35.

Insurance protection triples at age 21 with no increase in deposit. Full return of all deposits plus face amount of contract if death occurs at any time from issuance of contract to age 35.

For details see JEFF D. BEARDEN PHONE 47 Ground Floor of Combs-Worley Bldg.

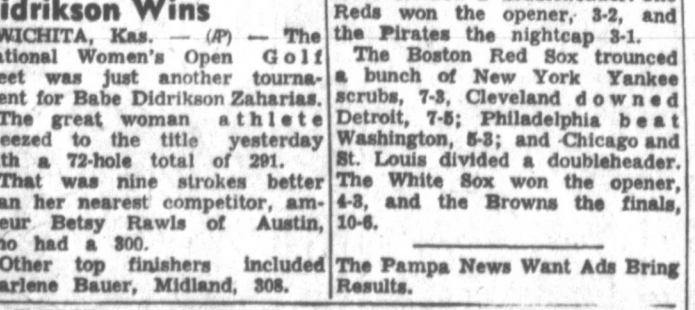

THE FRANKLIN LIFE INSURANCE CO. Springfield, Illinois One of the oldest and most respected names in America

Quarterback Sid Mills spills Virgil Patton, Vernon fullback, after a two-yard gain. Coming up fast to lend a hand is Harold Smith and Charles Broyles. Number 48 is Borchardt of Vernon. Pampa downs the Lions, 23-12, Friday night to rack up their third straight victory. The Harvesters are one of 14 undefeated Class AA teams in Texas. (News Photo and Engraving)

Didrikson Zaharias, 33, breezed to the title yesterday with a 72-hole total of 291. That was nine strokes better than her nearest competitor, amateur Betty Rawls of Austin, who had a 300. Other top finishers included Marlene Bauer, Midland, 308.

Howell Distributor For Fairbanks-Morse

Romack Makes Wise Choice for Popular South Cuyler Liquor-Beer Location

It's a far cry from the days of 1918 when a nation suddenly awakened to find itself dry. The surge of rum-running, bootlegging and general rebellion against the regulation of what men considered their natural right will long be remembered in the annals of the world. The return to a regulated industry solving the problems of spirits and kindred products has brought a real increase in revenue to the grain producers of the country.

A quick study of advertising during the past 17 years will give a fairly good indication of the importance of the liquor industry on the national scene. There are few states in the Union that do not benefit in extremely large measure from the results of the manufacture and sale of distilled spirits, liquors, wine and malt liquors. Although there is a wide variance in the regulations and controlling machinery of the several states, Mr. and Mrs. Average Citizen can obtain the necessary requisites for spending a convivial evening with friend and relative, without fear of reprisal or social death.

Few people of vision would attempt to condemn the modern maker of alcoholic spirits. The return of beer, ale and wine brought prosperity to more people than the vintner and the brewer. You can name your own industries without much cogitation; copper, steel, lacquers, malts, glass, wood, chemicals, on and on goes the list of beneficiaries of this great industry.

We're Proud
Of Our
Selection
As
Factory Dealer

On the local scene there are several vendors who have benefited from the return of nationwide liquor sales. Among them is the popular Owl Liquor establishment on South Cuyler. Although the business is quite young, Virgil Romack has succeeded in making his weight felt on the local business scene. Virgil runs a spotless establishment, intelligently supervised, and stocked with the finest products of the distiller's art.

Should you be a devotee of the cocktail and the mixed drink, you will find it an enjoyable trip to Owl Liquors to make the purchases you need for that important party of the week.

Pampa News advertising is an investment, not a cost.

Local Merchant Appointed to Handle Fairbanks-Morse Heater in Area

Bert A. Howell, 119 N. Ward, displays one of the famous Fairbanks-Morse heaters recently added to his illustrious line of heating, refrigeration and air-conditioning equipment. Howell is factory distributor for the Fairbanks-Morse heater line.

Walker Readies Trees for Winter

The sign of winter, written in the gradually changing hue of Pampa's lush foliage, is a warning that it's time to begin planning the conditioning of valuable trees and shrubbery for the winter season.

A good tree is like a sound looking horse. It takes a practiced eye to ascertain the actual condition of the object of inspection. It is never money wasted to call in a specialist to examine your trees and shrubs at regular intervals.

Don't wait another minute in putting in a call for Walker and Son to drop around and check the condition of your valuable trees. This reputable firm is prepared to do the necessary surgery on your trees, prepare them to avoid the infestations of termites and other insects damaging to trees.

Call Walker and Son, now!

Pampa News advertising is an investment, not a cost.

The announcement of the appointment of Bert A. Howell and Company as distributor for Fairbanks-Morse heaters may be a surprise to the general public. To those who know him, however, the news is no great surprise. Friends and customers of Howell's have long known that his progressive activities would attract the attention of a substantial, nationwide corporation and lead to an offer in a volume-class above that of dealer. It was typical of Bert Howell to accept the appointment without fanfare and set about establishing contacts in his territory.

The scope of the territory assigned to the Howell company by Fairbanks-Morse is fair indication of the magnitude of the job to be done. The new appointment involves 27 counties in Texas, 11 counties in Oklahoma and eight counties in New Mexico. Even casual observation would indicate that such an area would require considerably more than walking salesmen to keep the territory properly covered. It is an indication, the appointment, that the popular firm of Bert A. Howell and Company has come of age in the air-conditioning, refrigeration fields.

Most people, on mention of the Fairbanks-Morse name, are inclined to think only of scales. True, hardly a large farm or ranch of the great plains area was complete without its heavy-duty Fairbanks-Morse scales. Fairbanks-Morse probably saw more wheat weighed out at the farm on its way to market than any other company in the world.

Anderson Mattress Has Your Sleepy Head Problems Unnermost in Plans

Have a back ache? You have? What have you done toward providing some relief for the aching bones of the spinal column? If you're average, you've put a hot pack, a heating pad, a heat lamp or a plaster on it and tried to forget its gnawing pain. That is entirely the wrong approach. The pain in the back is nothing to be treated lightly.

Any competent medical practitioner will tell you that a painful back needs immediate attention. Don't be afraid to consult a doctor concerning back pains. Chances are that it will be discovered that you're sleeping on an inferior mattress. Don't laugh. It is an accepted fact that poor construction, inferior materials, packed and balled interior materials, worn spring and ticking in your mattress are capable of causing you more trouble than most accidents.

Pampa Ice Keeps Everyone Happy

How many times have you sat at home during a long evening and suddenly wished you had a big dish of ice cream to accompany that freshly baked cake in the cake box? If you're average, you usually start your wishing when everything in town is closed for the night. It's a darned perplexing situation, to be denied something as simple as ice cream.

You don't have to put up with such a situation. To the modern man there is a solution. With the inroads of 20th century engineering on the sanctity of the ancient ice cream freezer, the work of making ice cream has been reduced to a minimum. Today, all you have to do is purchase a freezer and attachment for your home-mixing appliance. Having obtained the freezer, it is a simple matter to keep a stock of manufactured ice on hand. With the two main problems solved, you'll never be without the wished-for ice cream.

Give Pampa Ice Manufacturing Company a call and let Carl Roundtree tell you all about the conveniences of modern ice usage.

condition, don't make a tragedy of the situation.

Pampa is very fortunate in having a branch of the Anderson Mattress factory right in its midst.

The small mattress factory has come in to its own during the past ten years. Many highly satisfied customers will testify to the excellence of the product manufactured by small-business-mattress manufacturers.

Anderson Mattress Factory is in a position to give you convenient service to Pampans. From any vantage point it is more convenient to have your mattress specialist in your own front yard.

Anderson features a high-grade renovation service that is second to none in the area. They are in a position to give you convenient and quick service at any time. Should you need a custom built mattress, a complete renovation, or a mattress of Anderson's own design, you'll be completely satisfied with your transaction.
