Yugoslavs Ask Small-Nation Mediator Body

NEW YORK (AP)—Yugoslavia asked the general assembly today to establish a permanent United Nations mediation commission of small powers to handle international disputes. In a companion resolution Yugoslavia also asked that every country becoming involved in hostilities shall within 24 hours proclaim its readiness to issue a cease-fire order and withdraw its armed forces from the disputed area.

The two proposals were brought in as the 59-nation assembly began the second week of its current session. The 12-nation mediation commission suggested by Yugoslavia would be composed of the six non-permanent members of the Security Council and six members elected by the assembly. The permanent members of the security council, the United States, Britain, France, Russia and China would not be eligible for membership.

Two Agreements Reached in Hobart Route 70 Dispute

Settlements with two additional property owners on the Hobart Street right-of-way were made by the city last week according to Dick Peplin, city manager. This leaves five property owners with which to settle, Peplin said. Last week, the city commission ordered Peplin to go ahead with final offers to the seven hold-out owners. Any lack of success would be met with court action — condemnation proceedings — against the property owners, the commission said.

Local Woman's Niece Killed

Mrs. Don Robinson, 620 N. Wells, has received word of the death of her niece, five-year-old Marcie Ann Derrick of Bovina. Marcie Ann, the daughter of Mr. and Mrs. Earl Derrick, was playing with her younger brother, Andy, 3, when the two got hold of a shotgun, which accidentally discharged, killing Marcie immediately. Andy was uninjured.

Federal Payroll Is Up 77,000

WASHINGTON (AP)—The government's civilian payroll increased nearly 77,000 during August to a total of 2,060,400, the Civil Service Commission said. The total includes employment in the executive branch of the government both in this country and overseas. The increase was attributed to the Defense Department and the selective service system, which added more than 80,000 civilian employees during August. There were offsetting reductions in other agencies, principally the post office and the Veterans Administration.

Reds' Newspaper Attacks Measure

LONDON (AP)—London's Communist "Daily Worker" called upon British liberals today to "kill the American anti-Communist bill" by flooding the White House with protests. "Let every progressive organization in Britain flood the White House with demands that the measure be withdrawn now," it said in a front page editorial. "If it comes from a hardware store, we have it. Lewis How.

Rescue of 16 Is Launched In Wilderness

HALIFAX, N. S. (AP)—Parachutists have been dropped to begin rescue operations for 16 United States airmen whose B-50 bomber crashed Thursday in Labrador wilderness, the Fort Pepperell Air Base reported today. The stricken bomber was discovered last night after being missing for three days, and a U. S. Air Force team immediately took steps to evacuate the men by helicopter. The helicopter will move the men to a nearby lake, where a Canadian amphibious plane will pick them up. The Royal Canadian Air Force said an RCAF Lancaster spotted the plane some 95 miles southwest of Goose Bay. The U. S. Air Force unit at Goose Bay began immediate preparations to evacuate the men and four passengers, missing on a routine flight from Goose Bay to Tucson, Arizona. All are military personnel. A helicopter is expected to make the tricky flight today to pick up the survivors and transfer them to the amphibious plane which will fly them to Goose Bay. It was presumed evacuation could be completed today, barring bad weather. Finding of the missing air giant climaxed a vast air search in the wilds of Labrador to the Arizona Desert. Scores of Canadian and American planes took part in the hunt. Smoke signals attracted the Lancaster to the area where the 16 survivors had been discovered. Signs on the rocky ground asked for food and supplies. No medical supplies were requested. Officials interpreted this as signifying no one was badly hurt. News of the discovery came over (See RESCUE, Page 2)

Rent Control Plan Given Top Priority

WASHINGTON (AP)—Federal rent control legislation today was given top priority with the House banking committee when Congress re-convenes on Nov. 27. Chairman Spence (D-Ky.) announced the committee probably will start hearings immediately after the fall congressional vacation. He said he expects to have a rent control bill ready for action by Congress this year. The present federal rent control program ends on Dec. 31 except in communities which specifically request its continuance for an additional six months. Housing Expediter Tighe E. Woods announced over the weekend that 104 communities with an aggregate population of about 7,000,000 and with 1,350,000 rental homes have taken such action. He said that since the present law took effect July 1 another 64 communities with 1,400,000 population and 260,000 rental units have thrown out federal controls. Spence told newsmen it is apparent that controls will have to be continued because of the war emergency. Whether a majority of the House and Senate would agree with him and pass a new law in the short session was open to question. Some House members tried to have a rent control provision included in the economic construction act which gave President Truman power to put ceilings on wages and prices, to impose rationing and take other steps to curb inflation. They argued at the time that controls on building materials will slow down home construction and make the housing problem more acute. Rent control advocates also claim that unless ceilings are continued, and possibly tightened, the families of men in military service may face serious hardships because of inability to pay higher rents out of a serviceman's pay. President Truman last April 21 asked Congress to keep the control program intact until June 30, 1951. But Congress voted a six months' extension, with another six at the option of local areas. "Until supply is near enough to demand so that the forces of competition will again operate effectively to protect the tenant, rent control should continue," Mr. Truman said. That was before the outbreak of hostilities in Korea. Since then competition for building materials has sharpened. The president advocated a policy (See RENT CONTROL, Page 2)

Burglars Are Taken For 200-Pound Ride

CHICAGO (AP)—Burglars sneaked into the Polk Street elevated railway station and carried off a 200-pound steel safe. If and when they got it open, they found that it was full of canceled transfers.

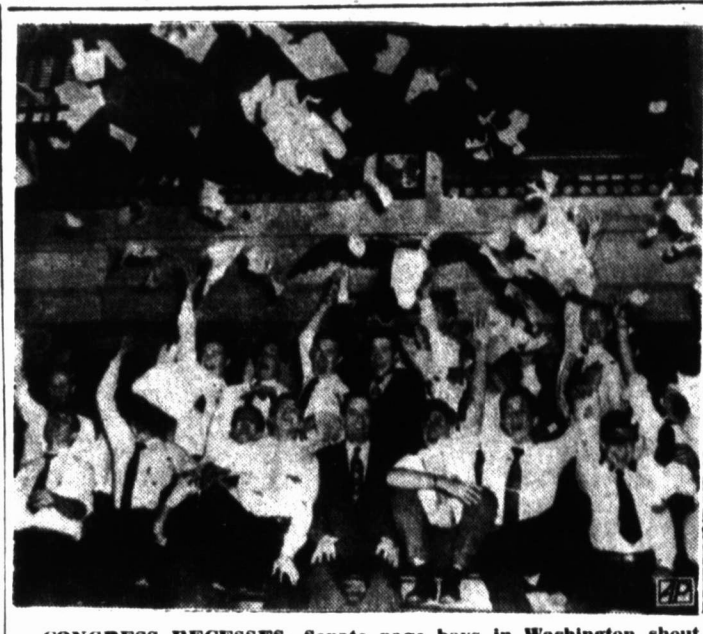

Airborne Force Arrives in Korea, But Role As Paratroopers Not Yet Assumed

By ELTON C. RAY AP Military Affairs Reporter WASHINGTON (AP)—The Army is beginning to draw up the core of its quick-striking mobile reserve, the airborne force, in massing strength for the all-out blow to annihilate the North Korean Communist enemy. How long that would take was still a question, Pentagon officers, while liking the look of the Korean picture, say it is too early to make predictions. American paratroopers showed up yesterday at Kimp'o airfield on the Seoul battlefield, and a few hours later were committed to action. On the basis of news reports, which said 150 plane loads of from 16 to 17 men each arrived at Kimp'o, an airborne regiment, slightly under full strength, appeared to have been sent in initially. These infantrymen — with wings came into battle in sedate fashion, riding in transport planes which landed on a friendly airstrip. There was no spectacular "airdrop" of men into enemy territory in a cloud of paratroopers. But also there is no reason why the paratroopers, used for the moment as regular foot soldiers, may not show up in the days ahead in the role for which they are trained — stabs behind the enemy line to establish airheads. Actually, in World War II airborne troops did about as much fighting in a ground force infantry role as they did by parachute or glider drops to the enemy's rear. One of the most famous actions was by an American airborne force was the holding of Bastogne, Belgium, — in which the 101st airborne division rolled into action on trucks and on foot. Early reports from Kimp'o accounted for about 2,500 men in the airborne outfit arriving there. The regular organizational strength of an airborne regiment is 3,376 men. Such a regiment normally is equipped with 42-inch mortars, 3.5-inch bazookas, 75 and 87 millimeter recoilless rifles and long-range anti-tank guns. This gives the present airborne regiment nearly double the firepower of the average World War II airborne regiment. It is customary to strengthen the regiment, as battle conditions dictate by attaching heavy artillery and tanks from ground forces in the area into which the airborne regiment moves. An airborne division usually consists of three regiments, with a supporting battalion of 105 millimeter howitzers. The news dispatches yesterday made no identification of the airborne unit arriving at Kimp'o. However, the Army presently has only two operating airborne divisions, the 82nd and 11th. The 82nd, with headquarters at Fort Bragg, N. C., was among the few divisions of the Army (See AIRBORNE, Page 2)

Allied Columns Fight Way Nearer Main Seoul Palace

Stars and Stripes Planted Two Miles From Duk Soo

TOKYO (AP)—Four allied columns fought deep into Seoul tonight on a grinding drive for Duk Soo palace and the nearby government building cluster. One U. S. Marine column that crossed the Han River Sunday first planted the Stars and Stripes in a southwest district height less than two miles from the palace. Then a seventh division doughboy column stormed over the Han in dawn mists Monday and fought to knock the Red Korean defenders off the commanding heights of South Mountain, a city park. Two other columns of American and South Korean marines stabbed into the capital from the west and north. AP Correspondent Don Whitehead, who crossed the Han last Wednesday with fifth regiment Marines and Sunday with first regiment Leathernecks, said grante-walled Duk Soo is considered the heart of the capital. The other government buildings are slightly to the north. While the four-pronged drive into the city pushed ahead, a U. S. first cavalry armored patrol sweeping up from the south sped into Chongju. This put them only 40 miles from the Inchon-Seoul beachhead. Its swift drive — 70 miles in four days — threatened soon to close the gap between the two fronts and seal tens of thousands of Red Koreans in the south. Allied forces scored sharp gains all along the southeastern front from Yongdok on the Sea of Japan to Chnju on the southwest. But allied commanders were throwing the greatest weight of manpower into the battle to secure symbolic Seoul. The Reds captured the South Korean capital three days after they invaded across Parallels 28 June 25 — just three months ago. The U. S. and South Korean infantrymen of the seventh division crossed the river from Yongdok to the bridgeless Han Sunday morning near Yongdok. It bit deep into the Tong Mak Sang district and threw mortar and artillery fire at Red defenders on South Mountain and the big Seoul army barracks nearby. Marines searched a jail in the southwest district, seeking 3,000 American prisoners reported in Seoul. But a South Korean underground operator said the Reds had removed them several days ago. Col. Lewis (Chester) Fuller's first regiment Marines, who had crossed the river from Yongdok, joined in the barrage from southwest city heights and the big Seoul army barracks nearby. Marines searched a jail in the southwest district, seeking 3,000 American prisoners reported in Seoul. But a South Korean underground operator said the Reds had removed them several days ago.

CONGRESS RECESSSES—Senate page boys in Washington shout and throw paper in the air to celebrate the recess of Congress until Nov. 27. Happy, too, is Sen. Hubert Humphrey (D-Minn.), center foreground, as he joins the boys' celebration. The recess was Saturday. (AP Wirephoto)

Louisiana Sheriff Contends Whistling Definitely Hoax

PARADIS, La. (AP)—Sheriff Leon Vial said he had more evidence today to support his contention that the mysterious whistling which frightened Jacquelyn Cadow, 12-year-old bride-to-be, in New Orleans last week, was a "hoax." The sheriff's statement came after Mrs. Clifford Cadow, the girl's mother, disputed his deduction that the reports were a hoax. "If it is an inside job, I don't know how it could be or why anyone would want to do it," the mother said. Vial added that he was winding up his investigation and expected to make a full statement, possibly by tonight. That, he said, would be the end — of the whistling. Meanwhile, preparations continued for the wedding next Sunday at nearby Taft, about 25 miles west of New Orleans, for Mrs. Cadow and Herbert Belmont, 26-year-old state trooper. The whistles around the Cadow home — which began as wolf calls last February — changed to mournful funeral dirges when Jacquelyn's engagement was announced two months ago. Mrs. Cadow said yesterday the whistles had not been heard for several nights now and her distraught daughter, who required medical attention last week, is feeling better.

Naval Academy Exams Stated Here Oct. 2

Rep. Ben Gull of Pampa has announced that, since the Navy has raised the quota for candidates to Annapolis naval academy, examinations will be held Oct. 2 for young men from the ages of 17 to 21 who wish to enter the academy. Examinations will be held in Amarillo, Pampa, Perryton and Childress. Youths from Letors, White Deer, McLean, Miami, and other towns in this area may take the examination in Pampa. Boys wishing to take the examination should contact either Jones Seltz, VFW commander, Frank Wilson, principal of high school, or Jack Graham, veterans service officer, for requirements. It is expected that the quota for the district will be about four men.

Air Force Lifts Enlistment Quota

Recruiting Sergeant Davis A. Brown announced today that the Air Force has lifted its monthly quota for enlistments. Up to this time there has been a limit on the number of enlistments for that branch of the service each month. Sgt. Brown stated that those boys whom he has had to turn down because of this quota being filled can now apply for enlistment at the recruiting office in their hometown.

Public School Pupil Cost Passes \$200

WASHINGTON (AP)—The average cost of sending a pupil to public school increased from \$88 in 1940 to \$206 last year, the U. S. Commerce Department reported yesterday. Texas spent an average of \$185 per pupil to rank 32nd among the states. Texas spent 224 percent of its total income on education.

Japanese Employes To Aid Americans

TOKYO (AP)—Japanese employees of the U. S. Far East Materiel Command have raised 200,000 yen (\$37) for comfort gifts to wounded Americans returned to the command's hospital. Brig. Gen. John P. Doyle approved the plan, which Japanese employees suggested.

Total Eclipse of Moon Due Tonight

NEW YORK (AP)—If it isn't cloudy tonight, go outside and watch the total eclipse of the moon. Weather permitting, it will be visible for all North America. The timetable (CST) runs like this: Moon enters earth's incomplete shadow (penumbra), 7:20 p. m.; moon enters complete shadow (umbra), 8:31 p. m.; total eclipse begins, 9:54 p. m.; mid-point, 10:17 p. m.; ends 10:40 p. m.; moon leaves umbra, 12:02 a. m.; leaves penumbra, 1:13 a. m. Astronomers say moon probably will be a deep coppery red during the total eclipse due to red rays of sunlight bent into the shadow by the earth's atmosphere. But if world cloud conditions are just right, the moon may get a complete blackout. In New York and other eastern cities that have been having a cold snap, some citizens can watch the eclipse from the cozy comfort of their armchairs. It will be televised.

Atlee Says 'No' To Leftwing Plan For National Vote

LONDON (AP)—Prime Minister Clement Atlee has replied with a firm "no" to demands raised in some sections of the Labor party for another general election this year. A source close to No. 10 Downing Street said nothing short of a parliamentary defeat for Atlee would bring elections in Britain before 1951. This informant said the final decision rests with the prime minister and Atlee prefers to hang on with his paper majority of seven in the House of Commons, particularly in view of the unsettled international situation. A group of leftwing labor supporters have been reported advocating an early election with the hope of improving Labor's majority. The Conservative opposition press has freely predicted an election this year. Party leaders said today they expected no disciplinary action against Labor member of Commons R. W. G. Mackay, who publicly accused the British government of sabotaging European cooperation by refusing to join in the Schuman coal-steel plan. Mackay made the attack in a searing political pamphlet called "Heads in the Sand." Mackay was a member of the British delegation to the recent Council of Europe meeting at Strasbourg. Observers said his attack may be the forerunner of a bitter intra-party struggle for power which is expected to flare up at the Labor party's annual congress opening at Margate on Oct. 3.

Civil Cases Set As Court Convenes

The 31st judicial district court set dates for the hearing of nine civil cases at the opening session of the September term here today. The weeks beginning Oct. 2 and Dec. 11 were designated by Judge Lewis Goodrich as jury weeks for this session. Four cases were set for the first week, with the other five set for December.

Truman Must Name Board To Enforce Law He Vetoes

WASHINGTON (AP)—President Truman faced today the ticklish political problem of naming a five-man board to fill a key role in enforcement of the new Communist control act he roundly denounced. Congressional enactment of the law over Mr. Truman's veto brought a prompt pledge to enforce it "vigorously" from Attorney General McGrath, who, like the president, had opposed it. But McGrath's Justice Department can take no action under one of the bill's major provisions that calling for registration of Communist organizations and their fronts — until establishment of a Subversive Activities Control Board (SACB). That board of five men — no more than three of whom can be from the same political party — must decide after a hearing whether or not an organization is required to register under the law. It will act upon complaints by the Justice Department. Government attorneys likely to be concerned with the enforcement problem said no consideration had been given so far to the possible personnel. The law was not put on the statute books until late Saturday when the Senate voted 57 to 40 to override Mr. Truman's strong veto, in which he used such words as "unworkable" and "hysterical." The House had voted to override by a 286 to 48 vote. Both votes were well over the required two-thirds majority. Only 10 Democratic senators voted to sustain the president's veto. The lone Senate Republican supporter of Mr. Truman, Senator Langer of North Dakota, had collapsed of exhaustion in the pre-dawn hours Saturday after presiding the bill for five and a half hours. Langer was one of the small group which forced the Senate to stay in session around the clock to reach a vote on the conference report. (See TRUMAN, Page 2)

Weekend Rainfall Totals 1.60 Inches

Pampa was washed by a total of 1.60 inches of rainfall over the weekend. The Saturday rainfall, which started early Saturday evening, amounted to .35 inch, according to the weather instruments at the KPDM transmitter. The Sunday night and Monday morning rains brought a total of 1.25 inches up to 10 a. m. this morning.

Ground-Air Games Started by Allies

SENNELAGER, Germany (AP)—Allied ground and air forces engaged in a vast practice battle today to find a defense — if there is one — against a theoretically superior air force. The ground-air conflict was the first major phase in autumn maneuvers which began yesterday. Tactics were based on allied military belief that any attack against Western Europe would be backed by an air fleet far larger than anything the westerners could at first put in the skies. POST CAPTURED—A dispatch from Shanghai said today Communist captured the frontier post of Dongkhie in Indo-China and taken the French garrison commander prisoner. When you think about a new heater or repairing the old one, remember Bert A. Howell & Co., 119 N. Ward. Phone 152 for speedy service.—adv.

ST. PAUL, Minn. (AP)—One federal narcotics agent was killed and another wounded in a Sunday morning raid on a downtown hotel here. Four men — one of them wounded in an exchange with the agents — were taken into custody. Killed by a bullet through the heart was Joseph Winberg, chief of the U. S. narcotics bureau for the northwest area. Joseph Winberg, 27, a narcotics agent, was shot through the side. John Wong, 50, is held under guard in a hospital. He was wounded five times. Doctors said both wounded men have a chance to recover. Bang, Winberg and a third agent, Virgil Magnuson, found Wong and three other men in a hotel room authorities said. Some were three other men were Magnuson to guard in suspicion of murder and as material witnesses. They gave their names as Jimmy Wong, 43, Mason City, Ia.; Leo Wong, 53, Minneapolis, and Yee Wong, 47, St. Paul. They said they were not related.

# Thompson Heads Popular Wholesale House

Mr. and Mrs. M. C. Thompson, daughters Catherine and Lavonda, pictured with company's service truck.

## Popular Local Resident Making Rapid Strides Toward Success in Business

Many stories of success have an interesting sidelight, or an outstanding picture of the age-old battle for recognition. Few of them, no matter how glamorous, offer the inspiration to be garnered from the success story of the hometown boy who set a goal and exerted prodigious effort to gain his desired ends. Such is the story of M. C. Thompson and his family.

The announcement of the establishment of the Thompson Wholesale Distributing Company was made without fanfare or hubbalooboo of any kind. M. C. Thompson decided he was ready to launch himself toward the attainment of a years-old dream and let no grass grow under his feet in accomplishing the task.

Now, Pampa has a full fledged new distributing company to augment an already flourishing Wholesale Business population and to increase the frequency of delivery of many items popular with the Grocery and Restaurant trade.

Those of you who carry the banner of "Pampa First" will be interested to know the background of M. C. Thompson and his family. M. C. Thompson, one of our Texans made his way to the Texas Panhandle and obtained employment in a Berger Grocery store. The reference to Berger isn't to be held in his disfavor, since he later saw the

## Shewmaker to Shoemaker Feeds All Shewmakers

For many years any pointed reference to the wear-frequency of a man's shoes has been subject of considerable ribald humor as to the person's livelihood or his method of locomotion for other purposes. For the most part the reference was usually made to that person who did a good bit of selling the friendly protection of insurance to the local populace.

The reference to insurance salesmen agents, underwriters or whatever may be their legal cognomen is an apt one when it applies to Pampa's popular, Otto Shewmaker. Otto and insurance have become synonymous in Pampa. Ask anyone you meet to name the prominent insurance vendors of the area. More than likely your answer will contain the name of Otto Shewmaker among those first mentioned, if not the very first.

Otto has been connected with the insurance business for more years than it is safe to mention. Suffice it to say that he has had sufficient experience in the insurance field to be competent and capable of handling any problems your insurance plan might offer. Rather than take anyone's word for the man's ability, you'd be better off to give Otto a call at 4333 and ask him to figure out a convenient and economical plan of insurance savings for you.

There may be some uninformed citizenry who will be inclined to dispute the fact that insurance represents a convenient and sound

### BERT A. HOWELL COMBINES PLEASURE AND BUSINESS ACTIVITY IN A YEAR-ROUND ROUTINE OF WHOLESOME LIVING

Some sage, at some time in the past, made a statement, "Variety is the spice of life." The mouthing of the wise one has carried quite a distance. At least it got as far as Pampa, if one is to observe the various activities of the Panhandle's leading air conditioning dealer, Bert A. Howell. If the words of the sage weren't causative, then the man is capable of such a statement in his own right.

The casual, even the experienced observer, would be inclined to doubt that the statement applies to Bert. But a closer scrutiny of this man's daily routine would quickly dispel any ideas to the contrary. Bert lives one of the most widely varied lives of anyone in Pampa. What is more, he makes a fair to middlin' success of it all.

From the sketchy information at hand, it seems that Bert spent a rather extended stretch in the business of renting, peddling, servicing and supervising boats and the users thereof at one of the local lakes. During this time he acquired a reputation for square dealing that is seldom, if ever questioned. Bert's knowledge of boats and motors is equal to his general ken of the outdoors, or vice-versa, that inspired Bert to enter his present field of endeavor. However, he has steady

light and moved to Pampa. After a long stretch of experience-gaining employment in Berger, Thompson came to Pampa and continued garnering the experience so necessary to operation of a wholesale establishment. The greater portion of his six years in Pampa were spent in learning the fine points of the wholesale distribution business.

Six months ago, M. C. scratched up a dollar or two, bought a truck, took on a line of merchandise and went into business for himself. With such a small amount of initial funds at his disposal, he set up his offices at home and rented temporary warehouse space. Violet, his wife, took on the duties of warehouse office manager, and general assistant in the firm.

Thompson's first line of merchandise, fortunately, was the highly popular JEWEL BRAND. It didn't take the public long to catch on to the JEWEL quality and the reasonable price of the products available. Now, Thompson Distributing Company has JEWEL products in a major portion of the grocery stores in Pampa and surrounding counties. Everyone is familiar with Jewel Potato Chips, Chili Tacos, Mex-Corn Chips and Cracklins. Thompson recently introduced a new Jewel name destined to be as popular as the rest of the Jewel line. The new product JEWEL WAFFLE CHIPS is one of the outstanding introductions in the chip field. You'll never get enough of them.

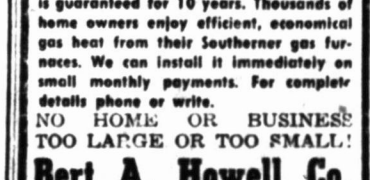

In addition to Jewel products, Thompson distributes Pioneer Cookies, Wunder Brand Shelled Pecans, Old London Cheese Slices, Whippen-Puffs, and a complete line of institutional supplies.

Whether you're in Pampa, LeFors, McLennan, Shamrock, Wheeler, Miami, Canadian, White Deer or Panhandle, you're likely to see the Thompson family truck. M.C. makes the territory once a week and is rapidly taking on more towns as he obtains the merchandise to satisfy demand.

If you're ever in the neighborhood of 1418 E. Francis, you'll see three of the reasons for Thompson's success. His two daughters, Lavonda & Catherine, and Mrs. Thompson carry considerable of the burden and responsibility of the Thompson Wholesale Distributing Company.

If you don't believe it, go ask him to explain the merits of a Frigidaire air conditioning system for your pet building project. You'll find him at 119 N. Ward.

Install this MODERN DESIGN GAS FURNACE without COSTLY ALTERATIONS

10-YEAR GUARANTEE  
This modern design forced air gas furnace can be quickly installed in attic or closet, under floor, ceiling or stairs, or on service porch. AGA approved for this type installation. Easily suspended from basement ceiling joists. Replaces the old conventional type furnace which takes up floor space.

The Harmon Southerner assures dependable gas heat and lasting satisfaction. It is guaranteed for 10 years. Thousands of home owners enjoy efficient, economical gas heat from their Southerner gas furnaces. We can install it immediately on small monthly payments. For complete details phone or write.

## What's Cookin' In Gray County HD Club Work

By MARY ANNE DUKE  
**GOLD STAR AWARD** — Margaret Baggerman, daughter of Mr. and Mrs. John Baggerman of the Grandview Community, will receive the 1950 Gold Star pin. This award is made annually by the Texas A & M College Extension Service to the most outstanding 4-H Club girl in each county.

Margaret was a member of the Pampa Jr. High 4-H Club during the 1949-50 school year. She is now in Pampa Sr. High.

Beginning her 4-H Club work in 1945 at the age of nine, Margaret's record shows that she baked muffins, cookies, pies and cakes for her family during the year. In fact she won a blue ribbon on a cake at the Gray County Home Demonstration Club and 4-H Club Exhibit that fall.

Her other projects that first year included a poultry project. She took care of 36 chickens. She helped clean house and wash dishes. In Margaret's record for 1945 she says, "Papa gave me \$40 for my work."

County Camp at Lake McClellan was a highlight for Margaret's first year in 4-H Club. In 1946 Margaret continued to bake cookies, cakes and pies, and assisted with the canning of meat, fruits and vegetables. According to the record, Margaret gathered 19 gallons of strawberries during the month of May, 1946, from

which strawberry preserves were made.

Margaret also learned to sew in 1946. She made one apron, one gown, one dress and a pair of pajamas for herself. The apron won second place in the County Exhibit in 1946.

In 1947, Margaret helped can and preserve the following products: 18 qts. peaches, 31 gallons strawberries, 1 1/2 gal. gooseberries, seven gals. cherries, three gal. apple preserves, seven qts. pickles, four qts. tomatoes and nine qts. tomato juice; three qts. watermelon preserves; 42 qts. peach butter, 34 half-gals. grapes, seven qts. plums, 25 qts. pears, four qts. pear preserves, 19 half-gals. kraut, 13 ho. 2 cans sweet potatoes.

She won blue ribbons at the Fair on the following: canned tomatoes, cookies and candy. She placed second on canned peaches, and a cake, and third on peach preserves.

In 1947 she made two dresses, a dickey, and a luncheon set. At the Fair she took blue ribbons on one of the dresses and on the best equipped sewing box; second on luncheon set, make-up kit, and third on the dickey. Margaret attended a three-day county camp and all other club meetings during the year.

In 1948 Margaret's 4-H record was as follows: baked 57 pies, 10 cakes, 33 dozen cookies, 26 dozen muffins, three dozen biscuits, and made fudge and divinity candy for the large family of which she is a member. Margaret won blue ribbons at the Fair on her fudge, and on the divinity; she placed second on cookies and cake.

Her canning record is as follows: 65 qts. plums and plum juice, 45 qts. beans, 35 qts. black-eyed peas, 33 qts. peach pickles, 24 qts. peach preserves, 95 qts. peaches, 55 qts. corn, 14 qts. grape juice, 22 qts. grapes, 28 gals. strawberries, and eight gals. gooseberries.

Her sewing record for 1948 is as follows: made one dress for herself, one luncheon set, one shoe bag, two laundry bags, and a pair of pillow protectors.

Margaret was chosen to attend district camp at Lake Marvin.

By 1949 Margaret was attending Pampa Jr. High school. This meant catching the bus early in the morning and getting home later in the afternoon. She managed

# Medical Auxiliary Adopts By-Laws At Borger Meeting

The Top 'o' Texas Medical Auxiliary adopted a constitution and by-laws at its regular monthly meeting Sept. 19 in the Business Men's Club, Borger. Mrs. Walter Purviance, president of Pampa, presided over the business meeting which was preceded by a dinner.

The Hutchinson County Medical Auxiliary acted as hostess for the group. Mrs. L. C. Hansen, vice president of the Hutchinson group, introduced two guests, Mrs. Theo C. Panos, Galveston, and Mrs. Beryl A. Miller, Phillips.

Members attending were Meses. M. C. Overton, Jr., Julian Key, M. McDaniel, Walter Purviance, J. R. Donaldson, P. A. Gates, Frank Kelley, Karl W. Pieratt, Calvin Jones, Edward Williams, all of Pampa; G. L. Kingle and O. B. Pearson, Perryton; L. C. Hansen, W. W. Brooks, W. G. Stephens, H. M. Hamra, Willard Smith, J. R. Robison, R. W. Bagwell, J. R. Doores and W. C. Barksdale, Borger.

The October meeting will be held in Pampa.

What do the Lockridges do on a cold, rainy evening when the dark is unusually dark and a wind whips tree branches about the corners of the house? Why they settle down with a good mystery, of course.

Cut white cake in small squares, frost on three sides, and roll in finely chopped roasted peanuts. Serve these peanut squares for tea or couple them with fruit sherbet for dessert at luncheon.

## Women of First Methodist Church Meet in Homes to Continue Study

All circles of the Women's Society of Christian Service continued the new study "We Seek Him Together" at meetings Wednesday.

Circle One met in the home of Mrs. H. F. Barnhart, with 17 members present. Also present was one guest, Mrs. Horace McBee. Mrs. Price Dozier presided over the business session. Mrs. Jordan led the study, assisted by Mrs. R. I. Davis. Mrs. Irvin Cole brought the devotional, assisted by Mrs. A. B. Caruth and Mrs. McBee. Mrs. Gates dismissed the group with prayer.

Circle Two met in the home of Mrs. W. H. Moseley. Mrs. Doyle Osborne presented Mrs. Moseley, an outgoing member, with a gift. Mrs. Carlton Nance was appointed chairman of a committee to make arrangements for a book review. Mrs. J. E. Kirchner had charge of the study and was assisted by Mrs. R. W. Lane, Mrs. Frank Wilson gave a discussion on music. There were 15 members present.

Circle Three convened in the church parlor with Mrs. W. G. Crowson as hostess. Mrs. H. R. Van Sickle presided over the short business session. Mrs. Walter Purviance presented the study children in Mission. Mrs. Lloyd Hicks had charge of the study period. She was

assisted by Mrs. Joe Donaldson, and Mrs. Kenneth Meaders. Rolls and coffee were served to 17 members.

Circle Seven met in the church parlor with Mrs. Veri Hagaman and Mrs. Joe Gordon as hostesses. There were 15 members present.

Mrs. Gordon, secretary of supplies, asked the group to take kindergarten supplies to the next meeting. Mrs. W. Purviance presented the devotional, which was taken from the 27th Psalm.

Mrs. H. H. Boynton offered a prayer and also conducted the business session. She discussed the project "Increase Your Dollar," and invited the group to meet with her on Oct. 6 to celebrate the closing of the project.

Mrs. Purviance, Mrs. Joe Tool, and Mrs. H. W. Goodner participated in the study.

The Circle will meet at 808 Twiford on Oct. 4, with Mrs. W. A. Hardy, Mrs. E. F. Hollingshead will be hostess.

Mrs. F. W. Shotwell's home was meeting place for 11 members of Circle Eight. One guest, Mrs. W. A. Ketzmeier, was also present. Four new members were introduced. They were Mrs. H. H. Wade, Mrs. Coy Ford, Mrs. Emma Phelps and Mrs. E. L. Harrol. Mrs. Knox Kinard presided over a short business session. The Circle voted to meet with

Circle Five and Six for the next meeting.

Mrs. Orion Carter presented the study and Mrs. J. B. Austin expained a children's worship center. A member dramatized a family worship, using music, scripture and meditations.

## Grace Friend...

**PROBLEM OF DIVORCE**  
 Dear Mrs. Friend:  
 My husband and I recently were divorced and since then he has seen our three children whenever he wished. I have wanted my little daughters to know their father and not feel any of the bitterness which often accompanies divorce. However the constant presence of my former husband is making it hard for me to get back on my feet and plan a new life. How can I solve this problem without taking my daughters away from the town where their father lives?

M. O. H.  
 Dear M. O. H. Why don't you arrange with the children's father for a specified time for his visits with them. For example, you might have them spend Saturday afternoons with him.

You can then plan your day around their absence and if you really don't want to see their father you can dress them and have them meet him elsewhere.

**COLUMBIANA'S ADDRESS**  
 Dear Mrs. Friend:  
 I am anxious to get the address of Mr. Pegler and also Mr. David Baxter. Can you tell me how I can secure them?

Mrs. B. S.  
 Dear Mrs. S.  
 Write to them in care of this paper.

aged well and was able to do the following things: baked 27 doz. cookies, 6 pies, and 26 doz. muffins for her family. For the home freezer she helped put in 95 qts. corn, 25 qts. beans, 20 qts. peaches and 15 qts. pears. She helped dress chickens for the locker and for the freezer.

In Margaret's own words she says, "I help with the family washing and housework and do all of my own ironing."

Margaret attended county camp at Lake McClellan.

In 1949 Margaret made two dresses for herself. She modeled a pink chambray in the county clothing revied and won a five-day trip to the annual 4-H Round-Up in the County College.

In 1950 Margaret's 4-H Club record is as follows: baked 73 doz. cookies, six cakes, nine doz. muffins, four doz. rolls, 12 doz. doughnuts, 13 doz. biscuits, seven puddings and made cornbread twice. Helped put the following food in the home freezer — 59 packages chili, 23 qts. peas and 36 qts. beans. She helped can 99 qts. green beans, 6 qts. black-eyed peas and made 90 qts. pear preserves and 12 qts. plum jelly.

Margaret made four dresses and four skirts for herself. She modeled a "best dress" with accessories in the County Clothing Review. Again she won the honor of a five-day, all expense paid, train trip to the A. & M. College Round-Up. According to Margaret, "It was a wonderful trip."

Some of the intangibles Margaret has picked up along the way include leadership ability, poise, charm, and the ability to get along with people.

Margaret may continue as a 4-H club girl for six more years — until her 21st birthday. Her greatest challenge in club work is what will she do in these six years.

# At the new rates STILL A REAL BARGAIN

- 5 THINGS YOU SHOULD KNOW ABOUT FIRST RATE INCREASE REQUESTED IN 22 YEARS**
1. Pampa will have modern dial telephone service within 24 months, if the new telephone rates are put in effect.
  2. Rates established in 1928 don't cover 1950 costs. The telephone company is furnishing service in Pampa at less than cost.
  3. New rates are essential to help offset today's higher cost of handling your calls.
  4. Even with the increase, telephone service still will be a bargain in terms of practically everything else you buy.
  5. And when you look at what you get for what you pay, telephone service is actually worth far more today than the small increase needed to keep it growing in value.

On the telephone above, you see what the new prices requested for telephone service in Pampa amount to for a full, 24-hours' service.

This would be the first increase in telephone rates here since 1928.

The increases are much less than the increases in prices of most other things you buy today. In fact, even at the new rates, telephone service would still take a smaller share of the average family's budget than before the war.

The few cents a day added to your bill will help to pay today's higher costs of handling your calls.

But those few cents are the necessary price of progress. They are essential to help offset losses which the telephone company is experiencing in Pampa—so we can move ahead with the \$2,122,600 telephone expansion program to bring dial telephone service to Pampa.

## Missions Squeeze Oilers, 1-0, to Take Series, 4-2

TULSA — (AP) — San Antonio's Missions were headed for Nashville, Tenn., today and the opening of the Dixie Series. Last night they edged Tulsa, 1-0, to win the Texas League championship series, four games to two. They'll play Nashville, winner of the Southern Association.

San Antonio finished fourth in the regular season, but Tulsa was first. In the first round of the playoffs Tulsa beat Fort Worth and San Antonio knocked off Beaumont, the first place club.

John Pavlick held Tulsa to three hits, one less than Jim Blackburn allowed the Missions.

Jim Dyck walked to open the fifth for San Antonio. Charles Grant singled and Danny Balch sacrificed both runners. Dyck scored on John Sullivan's long fly.

Plans for the Dixie Series were announced last night. The first two games will be at Nashville, starting Tuesday. The teams will travel Thursday and open in San Antonio Friday for the next three games, if that many are needed. If the final two games are played they will be in Nashville.

## Longhorn Playoffs All Even, 3 to 3

(By The Associated Press) — The final game of the Longhorn Baseball League's playoffs tonight will decide the 1950 champion.

Last night Odessa, first place winner in regular season play, beat Big Spring, 6-5, to square the best four of seven series, three games to three games.

Two runs in the eighth inning, off two hits, two sacrifices and an error won for Odessa. Lex Palmer's single brought home the winning tally.

Felix Gomez and Manny Juncos hit home runs for Big Spring.

## Skip Alexander Injured In Plane Crash; 3 Killed

EVANSVILLE, Ind. — (AP) — A civil air patrol plane crashed and burned in a railroad yard near here last night, killing three officers and seriously injuring Skip Alexander, top-flight professional golfer.

Neighbors found the 32-year-old Lexington, N. C., golfer crawling into a field, his clothes afire. At Deaconess Hospital, he was expected to recover.

At Sioux Falls, S.D., where the plane was based, the CAP listed the dead as:  
Col. James R. Barnett, 44, of Sioux Falls, commanding officer of the South Dakota wing of CAP. He was president of a roofing company and well known as a former band leader. He is survived by a widow and seven children.  
Lt. Oliver A. Singleton, 28, formerly of Van Buren, Ark., but a resident of Sioux Falls for the last year.  
Lt. Duane M. Reeves, 28, also of Sioux Falls and an employee of Barnett's roofing Co.  
Lt. Forrest Elliott, deputy wing commander of the South Dakota CAP, made the announcement and said the next of kin had been notified. He said the plane had left Sioux Falls at 2 p.m. Sunday on official business and that at the time of the crash it was enroute from Olathe, Kas., to Louisville. He said the plane was a T-7 twin engine five-place Beechcraft.

Alexander's left leg was broken above the ankle and he was burned on the hands, arms and

## Indians Edge Detroit, 2-1 On Boner

By RALPH RODEN  
AP Sports Writer

The 1950 American League pennant race is just about over but it will be remembered as long as baseball is played as the year that catcher Aaron Robinson pulled one of the most colossal "boners" in history.

Robinson's blunder gave the Cleveland Indians a 2-1 ten-inning victory over Detroit yesterday and practically erased the Tigers' pennant hopes.

The defeat dropped the second place Tigers 1 1/2 games behind the New York Yankees, who virtually knocked third place Boston out of contention by trouncing the Red Sox, 9-5.

New York needs only six victories out of its remaining eight games to clinch its second straight championship. If the Yankees win only four games the Tigers will have to win all of their seven to beat out the Bombers.

Robinson's "rock" came in one of the strangest games ever played. At game time in Cleveland it was so dark because of dust and smoke that the lights were turned on.

The astounding play occurred as follows:  
Bob Lemon tripled to start the Cleveland tenth. Tiger Manager Red Rolfe ordered Ted Gray intentionally to walk the next two batters to set up a force play at every base.

Larry Doby then popped to First Baseman Don Kolloway. Luke Easter followed with a grounder to Kolloway. Kolloway stepped on first to retire Easter and pegged to Robinson.

Robinson grabbed the throw and stomped on the plate while Lemon was starting his slide about eight to ten feet away. Umpire Bill Summers thought Lemon out, but the pitcher slid across the plate. Robinson, apparently thinking he still had a force play, made no attempt to dash at Summers and brought First Base Umpire Charley Berger along. When it was pointed out to Summers that Lemon had to be tagged in order to be declared out, Summers reversed his decision and called Lemon safe.

Lemon was the whole story. He stopped the Tigers on five hits to gain his 22nd victory and scored both runs. Lemon socked his sixth homer in the fourth drive in the first run of the game. Johnny Lipon tied it up in the seventh with his first homer of the year and that's how matters remained until the Robinson incident.

The Yankees had fairly easy sailing against the Red Sox before 66,924 fans at Yankee Stadium. They piled up a 6-1 lead in four innings for Vic Raschi who went all the way to post his 21st victory.

Two home runs by Ted Williams and another by Bobby Doerr accounted for half of the Red Sox hits. Raschi was in the Red Sox had a run home and the bases loaded with one out. Raschi parried the threat by getting Vern Stephens to fly out and Walt Dropto to ground out.

In remaining American League games the New York Senators tripped the Philadelphia Athletics, 3-1, and the St. Louis Browns dumped the Chicago White Sox twice, 5-0 and 8-1.

The Philadelphia Phillies lost ground in the National League race as they suffered a humiliating 11-0 defeat at the hands of the second place Brooklyn Dodgers. The Dodgers now trail by five games.

Erv Falick, young righthander, tamed the Phils on two hits and featured a game winning six run rally in the fifth inning with a grand slam homer. Falick held the Phils hitless until the eighth when Andy Seminick singled. Del Ennis doubled in the ninth for the Phils' final hit.

Three-run homers by Hank Thompson and Don Mueller paced the New York Giants to a 12-4 victory over the Boston Braves. Jim Hearn was the winner and 19 game winner Vern Bickford the loser.

In other National League games the Chicago Cubs trounced the St. Louis Cardinals, 9-3, and the Cincinnati Reds and Pittsburgh Pirates divided a doubleheader. The Reds won the opener, 7-1,

## Sports Round-Up

By HUGH FULLERTON, JR.  
NEW YORK — (AP) — This corner is straining along with Joe Louis to whip Ezzard Charles Wednesday night for the simple reason that they've been picturing Ezzard as a fighter who thinks. . . And you can hardly find a more thoughtful explanation than the one Ezzard gave for taking the fight: "I got to thinking that there was no sense in having an idol when it was costing me money. . . There's some question about how much Louis has slipped and whether looking good in training is the same as being good in the ring. . . But there's no doubt that Ezzard knows what his former idol has done in the past and that a guy with brains and imagination is just the one to remember those things at the crucial moment. . . Without implying that Ezzard is likely to scare easily, we have the idea that his thinking may lead him to be unduly cautious. . . Ray Arcel, who has packed eleven of Louis' fallen foes back to their corners, had the say on that. "You can't win running a way from Louis; you gotta punch."

Harry Combes, Illinois basketball coach, was beating on his players, big Red Fletcher, about his defensive rebounding. . . "You gotta get off your feet and control the ball after free throws," Combes explained excitedly. "When the ball comes off the ring, I want you to go up like this. . . Harry neglected to look up before his demonstration and he smacked his noggin against a steam pipe running across the ceiling. The impact sent Harry to his knees but didn't disturb his mental equilibrium. . . "See what I mean," he said, rubbing his head, "rebound if it kills you."

John Jachym says he's happy to have Eddy Rupp associated with his all-star baseball barnstorming jaunt because "maybe we can get Gussie Moran to coach at third base. . . Since Steve O'Neill took over the Red Sox, I don't think one third of his starting pitchers have gone the route. But the Soxers have a better record than anyone in the league for that time. . . Les Arries, Dumont network director, predicts that 20,000,000 people will see five Notre Dame football games on television. . . Dick Camilli and Gus Suhr, Jr., sons of the former National League stars, are in the new freshman class of the Chicago Catholic high school to turn out for Coach Patty Cottrell's ball team. Young Camilli is tabbed as a pitching "find" and Suhr is an infielder.

The guy who claimed Indiana U. has more Pennsylvanians than Fred Waring wasn't far wrong. The football squad, coached by Clyde Smith of New Eagle, Pa., has 48 lads from Clyde's home state. . . And the U. of Virginia is moaning about the loss of a fine tackle prospect to a military academy. The ranks of high state scholastic circles. . . "What's this country coming to," asks one Virginia fan, "when the No. 1 squad on the 'Sintul Seven' parade can't hold its own against a prep school?"

## Lone Star Teams Have Hard Time In Win Column

(By The Associated Press) — Lone Star Conference teams are barely able to keep their heads above water in the football campaign now entering its third week.

They have managed to win five of eight games from teams outside the conference.

In the only conference game played last night, Sam Houston 9-8.

Last week the LS boys took three out of five but the two they lost made the circuit look bad. East Texas State was soundly whipped by North Texas State of the Gulf Coast Conference 42-20 and Sul Ross was blasted 34-0 by Abilene Christian of the Texas Conference.

Sam Houston State edged Southwestern of the Texas Conference 8-7, Southwest Texas State eased by Independent University of Corpus Christi 13-12 and Stephen F. Austin went to Mexico City and trounced College of Mexico 49-0.

Stephen F. Austin is the only undefeated team left in the league.

Saturday Sam Houston State plays Independent University of Texas Baptist, Stephen F. Austin meets Southwestern, Southwest Texas State plays Texas A&I and the behind Ewell Blackwell and the arates the nightcap, 5-2.

# Dukes Outscore Lobos To Take Lead, 2 to 1

## Martin Hits 2 Home Runs As Albuquerque Wins, 8-6

LAMESA — (AP) — Albuquerque Dukes outscored the Lamesa Lobos 8 to 6 here Sunday to take a two games to one lead in the West Texas-New Mexico League championship series.

A rather light Sunday crowd of 1,859 fans, including Lamesa President Milton E. Price and Albuquerque owner Cy Fausset, watched the Dukes win their second straight at the expense of the Lobos.

Lefthander Bob Spence lasted the route for the winners, although he was touched for nine hits, including homers by Glen Selbo and Bill Ashley. Spence however, fanned five and walked only one, receiving good support from his mates.

The Dukes rapped Eulis Rosson, who has had little success in the playoffs since his opening win over the Pampa Oilers, and Israel Ten for 12 safeties, including three home runs. Manager Hershel Martin continued his heavy stick work, accounting for two of the homers, and rookie Jim Marshall slammed the other.

Rosson, charged with the loss, was relieved by Ten in the fourth.

Albuquerque grabbed a 3-0 lead in the second on a walk to Martin, Marshall's single and Jerry Folkman's double over Bill Capps head in leftfield that scored for Martin. Harry Bartolomei drew an intentional pass and Spence nullified the Lobo strategy by blooping a two-run double down the rightfield line.

The Dukes made it 5-0 in the third on successive homers by Martin and Marshall.

Lamesa broke the scoring ice in the fourth when Manager Jodie Beeler singled and Selbo rided a long fourmarter to dead centerfield. The Lobos narrowed the Duke margin to 5-4 in the sixth when Capps singled and scored on Selbo's second double of the afternoon. Selbo moved to third on Ashley's grounder and came in to score when Spence juggled Marshall's throw to first on the same play.

The Dukes pulled away again in the eighth with a final trio of tallies. Martin opened with his second home run of the day. Bartolomei walked, Spence singled and both were plated by Earl Harriman's line drive triple to right.

Ashley accounted for Lamesa's last two markers in the eighth when he belted a homer behind a single by Beeler.

Martin, who has collected three homers in two games here, and Selbo shared hitting honors for the afternoon with three hits each.

Both teams turned in consistently good defensive performances. The Lobos playing errorless ball and engineering the only two double plays of the day.

Monday night the two clubs meet in the final game of the year at Lobo Park. Even a light crowd will push Lamesa's attendance for the year to over the 100,000 mark. Lefthander Fred Beason will hurl for the Dukes and Righthander Vince Speranza, who shut out Pampa twice, will go for the Lobos.

## Boxing Warrior Fights Because Of Uncle Sam

NEW YORK — (AP) — On Wednesday night, in the glare of the lights at Yankee Stadium, one of the greatest ring warriors the world has seen will try at the age of 36 to win back the heavyweight championship.

In the long history of pugilism, no big man ever has regained the title he lost or surrendered. Joe Louis believes he will be the first. Ezzard Charles, the lean, black 29-year-old slasher from Cincinnati, is just as certain that Joe will fail.

Charles has held the world title, in the eyes of the National Boxing Association, since he outpointed Jersey Joe Walcott at Chicago on June 22, last year. He has defended it successfully three times, knocking out Gus Lenevich, Pat Valentino and Freddie Beshore.

Louis, full of age and with no valid challenger in sight, announced officially that he was coming back.

But it wasn't to be. A few months ago the word got around that Joe needed a rough \$200,000 to settle arrears on his income tax, and on Aug. 17 he announced officially that he was coming back.

To make the fight, the International Boxing Club had to promise the old champion 35 percent of the net receipts. Charles was glad to settle for 20 percent.

There probably will be close to \$300,000 in the house when three bell rings at 9 p.m. (CST) Wednesday.

## Gulf Conference Football Teams Face Tough Foes

(By The Associated Press) — Gulf Coast conference football teams all appear due for trimming this week.

Two University of Houston and North Texas State — smack at Southwest Conference teams. Houston U. plays Baylor at Waco and North Texas State journeys to Fayetteville to battle Arkansas.

Midwestern meets the razzle-dazzle boys of Austin College at Sherman and Trinity takes on Hardin-Simmons at Abilene.

Two of the four members won last week. Trinity licked Texas A. & I. of the Texas Conference 20-7 and North Texas State blasted East Texas State of the Lone Star Conference 42-20.

University of Houston made a dismal start, falling to St. Bonaventure of New York 29-14 while Midwestern took a 19-9 trimming from McMurry of the Texas Conference.

Of the four forms of sales tax, the retail sales tax is the most prevalent.

## Duck Shooters Start Nov. 3

(By The Associated Press) — Duck hunting starts in Texas this year on Nov. 3 and lasts until sunset Dec. 17.

Secretary of Interior Oscar Chapman announced the new rules for each of the four flyways in the United States.

Major change for Texas is the increase in the daily bag limit by one duck and in the possession limit by two ducks. You now can shoot five ducks a day and five geese. Your possession limit is ten ducks and five geese. If you're hunting coot, you can shoot ten a day and have in your possession ten.

# Sooner Camp Denies Charges Hurlled By Magazine Article

## Wilkinson Says Story Is Fiction

**NORMAN — (AP)** — A national magazine article claiming Oklahoma football is run by "700 millionaires" is strictly fiction, according to university officials and a former coach quoted by the magazine (True).

The fabulous story brought denials from Maryland Coach Jim Tatum, Sooner coach in 1946, and Oklahoma President George L. Cross, who also wrote an angry letter to Tatum concerning statements attributed to the mentor. The article written by Paul Gardner said the Touchdown Club's "700 millionaires" never touch a football, but they scored all the touchdowns for Oklahoma last year. It asserted the club has an extensive system through which it buys stars and delivers them to Coach Bud Wilkinson.

Wilkinson termed it "fiction"; Cross called the statements "lies"; and Tatum was "just as befuddled about it as he could be." The Maryland coach added: "I don't know where he got the information, but it's all wrong." He said he hardly remembered the writer, and only talked with him briefly.

Since Bud Wilkinson took over in 1947 Oklahoma has compiled an amazing record of 28 victories, three losses and one tie, and a current 21-game winning streak. In the midst of the furore a star freshman back, Billy Bledsoe, transferred from Oklahoma A&M to the Sooner camp over the weekend, saying he wasn't satisfied at A&M.

"I'm getting just what all the other football players are getting: \$55 a month, and \$42 of that has to go for room and board," remarked the young all-star from Cushing. Dr. C. B. McDonald, Oklahoma City dentist and a touchdown club member, said the touchdown club awards scholarships—strictly within the N.C.A.A. rules—and added: "Oklahoma under Bud Wilkinson is the cleanest in this part of the country."

Octopuses used jet propulsion in swimming long before man thought of the idea.

PRESIDENT G. L. CROSS

## Twenty-two Teams Undefeated in AA

**(By The Associated Press)** — Battles between Sherman and Highland Park (Dallas) and Lubbock and Sweetwater headline the Class AA Texas schoolboy football schedule driving through the first month of the season.

These games — at Sherman and Sweetwater Friday night—match four of the 22 undefeated teams left in this division of high school football.

Other important contests pair Temple with Baytown, Austin with Thomas Jefferson (San Antonio) and Bryan with Kerrville. Temple and Austin are unbeaten and untied and Bryan is undefeated although tied last week by Waco. Thomas Jefferson is one of the powers of the City Conference; Kerrville is the giant-killer — a team able to give mighty Port Arthur a tough defeat and to beat both Thomas Jefferson and another San Antonio mighty, Brackenridge. Baytown lost to Lamar (Houston) but bounced back to crush Milby (Houston) 47-0 last week.

The undefeated, untied list includes Pampa, Big Spring, Lamesa, Lubbock, Austin (El Paso), Sweetwater, Breckenridge, Sherman, Grand Prairie, Highland Park, Texasboro, Palestine, Fort Arthur, Freerport, Galena, Park Texas City, Corsicana, Temple, Austin, Ray (Corpus Christi), McAllen and San Benito.

Octopuses used jet propulsion in swimming long before man thought of the idea.

Sweetwater and Breckenridge pulled the big upset last week as they shot down Odessa 28-0 and Wichita Falls 18-0 respectively.

Other important results saw Abilene blasting Amarillo 40-6, Pampa running over El Paso High 59-5, San Angelo falling to Poly (Fort Worth) 28-6, Highland Park whipping P. S. C. H. (Fort Worth) 27-7, Galena Park upsetting Conroe 19-13, Corsicana smashing Crozer Tech (Dallas) 31-0 and Austin beating Arlington Heights (Fort Worth) 18-14. Port Arthur, rated No. 1 in the state, brushed over Capitol Hill of Oklahoma City, the champion of Oklahoma, 35-0.

## How Good Is Notre Dame?

**By HAROLD CLAASSEN**  
**NEW YORK — (AP)** — How good is Notre Dame's 1950 football team?

Coach Frank Leahy, seldom using words of less than three syllables, predicts the Notre Dame lads will lose three, perhaps four games this season. Sports editors and broadcasters numbering 125 from all parts of the country, say the Irish are the best in the country.

Just who is correct may be known by sundown Saturday. The South Bend team, unbeaten in 28 games during the past four years, opens its season against North Carolina in the Dixie Dynamite game at the University of Alabama in a night game Saturday. NC won from North Carolina State Saturday, 13 to 7.

Numerous other big time teams will be making their starts this weekend. There will be numerous conference battles on tap in Dixie, Auburn, spilled by Wofford, visits Vanderbilt, which won from Middle Tennessee, 47 to 0. Alabama is at Tulane and Tennessee has it out with Mississippi State. Kentucky is booked in a night game against Mississippi. The Wildcats blanked LSU, 14 to 0.

Richmond and Wake Forest are opponents in the Southern Conference as are Virginia Military and George Washington. West Virginia and Washington & Lee. The VMI Cadets caused some eye-brow lifting with a 25 to 19 upset of William & Mary Saturday. Duke, which bounced South Carolina 14 to 0, has Pittsburgh over for the day while the South Carolinians travel to Atlanta to meet Georgia Tech's Engineers.

Even though there aren't title games on tap in the midwest, there will be plenty of action. Iowa State, which whipped Colorado on two final period touchdowns, 14 to 7, is at Northwestern; Indiana meets Nebraska; Marquette comes to Wisconsin and Ohio State takes on the heavy burden of trying to stop Kyle Rote and his Southern Methodist chums. SMU mastered Georgia Tech, 33 to 13. Texas Christian, which nudged Kansas 14 to 7, comes north for an afternoon of bumps bruises with Oklahoma A & M. The

## NEW, MIRACLE ELECTRONIC EAR HIDES DEAFNESS

**CHICAGO, (Special)**—An amazing new electronic ear which hides deafness and transmits even whispers with startling clarity, has been revealed by a noted Chicago electronic scientist.

He disclosed that this miraculous new discovery has rendered old-style hearing aids obsolete almost overnight, and brings new hope to the 15 million persons in the United States who are hard of hearing. He reported that this electronic ear enables the deaf to hear without any button showing in the ear and without dangling battery wires. To acquaint the hard of hearing readers of this paper with this new miracle electronic ear which hides deafness, full details are described in a fascinating booklet, "New Discoveries to Help the Deaf Hear." It will be sent free in a plain wrapper to anyone who requests it. Address: Electronic Research Director, 1456 West 14th Street, 60609 Bellone Building, Chicago 8, Ill. A penny postcard will do. Adv.

## Walker Leads Lions to 10-7 Win Over Pitt

**NEW YORK — (AP)** — Greasy Neal can rest easy; there's plenty of pep left in his Philadelphia Eagles.

They proved it yesterday—even without their ace backs, Steve Van Buren and Bosh Pritchard—with a 45 to 7 romp over the Chicago Cardinals.

Van Buren was sidelined with a torn rib cartilage. Pritchard is out with an injured knee. The Chicago Bears lashed the San Francisco 49ers, 32 to 10. Green Bay's upset the Washington Redskins, 33-21.

Doak Walker, golden boy of the Detroit Lions, capped a brilliant performance with a 20-yard field goal in the last three minutes to give the Detroiters a 10 to 7 triumph over Pittsburgh's Steelers. Walker scored the Lions' first touchdown on an 11-yard pass from Bobby Layne. He then kicked the extra point, thus accounting for all of Detroit's scoring.

Cleveland beat Baltimore, 31 to 0.

## Parker Wins Star of Year

Roy Parker of the Pampa Oilers was named STAR OF THE YEAR of the WT-NM League in the first season of the "Star Plan," amassing a total of 18 daily stars during his busy campaign. He will receive the trophy in commemoration of his outstanding performance.

Aggies bounced Arkansas, 12 to 7. Santa Clara is at Rice, Purdue at Texas and Texas Tech at Texas A & M in other southwestern features.

## Football Race Tightens Up In Class A

**(By The Associated Press)** — Things are getting tough in Texas' Class A High School football race. Just 62 of the 219 teams sporting unbeaten records after three big weeks of play and four of these have been tied.

The Chicago Bears lashed the San Francisco 49ers, 32 to 10. Green Bay's upset the Washington Redskins, 33-21.

Doak Walker, golden boy of the Detroit Lions, capped a brilliant performance with a 20-yard field goal in the last three minutes to give the Detroiters a 10 to 7 triumph over Pittsburgh's Steelers. ## Steers Unhappy About Showing Against Tech

**By WILBUR MARTIN**  
**Associated Press Staff**  
They pay off on the scoreboard, but the University of Texas — ranked fifth in the nation in a pre-football season poll — isn't too happy about its first showing.

"Well," said ace sophomore halfback G.D. Dawson after the Longhorns' 28-14 victory over Texas Tech Saturday, "we certainly didn't look like the team folks thought we were." But he added a definite "yet."

The players didn't take anything away from Texas Tech. It was a great ball club they played, said Coach Blair Cherry. "What hurt us was our mistakes."

Bud Wilkinson, Oklahoma University's coach, didn't share the general feeling of disappointment over Texas' performance.

"That's a great ball club, he said of the team he was scouting. And "they were playing a great ball club," meaning that Texas Tech was so slouch and that anybody who thought so was all wet.

Wilkinson's Sooners meet Texas Oct. 14 in the Cotton Bowl at Dallas.

There was nothing surprising about the conference's individual star — Kyle Rote.

The big Southern Methodist halfback scored two touchdowns, passed for two more and gained 130 of SMU's 223 yards. The Mustang line, figured to be only so-so, held Georgia Tech to exactly 30 yards.

Rice, the seventh team, doesn't open until next week. There was nothing surprising about the conference's individual star — Kyle Rote.

## Mangrum Takes KC Golf Open By One Stroke

**KANSAS CITY — (AP)**—Pressure player Lloyd Mangrum of Chicago had the finese in the finish to win the \$15,000 Kansas City Open golf tournament yesterday.

Mangrum, who started the final round one stroke behind Ed (Porky) Oliver of Seattle, Wash., won the \$2,600 first money with a score of 271.

That was a stroke better than Oliver and Jack Burke, Sr., White Plains, N. Y., who each earned \$1,650.

The former U. S. open champion posted a 69, 17-strokes under par.

The population of Magdeburg, Germany, is about 340,000.

## Big Story Is Fight

**NEW YORK — (AP)** — Last January, in an exclusive poll conducted by the Associated Press, a majority of the nation's sports-writers voted the biggest story of 1950 would be the official return of Joe Louis to the ring.

This week Southern Methodist tackles Ohio State; Texas entertains Purdue; Texas A. & M. meets Texas Tech; Rice opens against Santa Clara; Baylor takes on the University of Houston; Texas Christian tries Oklahoma A. & M., and Arkansas gets a chance to rebound against North Texas State.

Wilkinson's Sooners meet Texas Oct. 14 in the Cotton Bowl at Dallas.

Cherry had one thing to be pleased about, his team's passing. Ben Tompkins completed eight out of 11 and Dan Fage's chunking was okay. The Steers rolled up 240 yards passing, but picked up only 132 on the ground. Texas Tech made 235 yards through Texas' veteran — 17 lettermen — line. And Jackson and Stuver gained it all.

Texas' speed, deception and power in crushing Georgia Tech, 33 - 13. Texas A. & M., for two years the circuit's whipping boy, socked Nevada, 48-18, and Texas Christian squeezed by Kansas, 14-7.

But an Oklahoma A. & M. series at two games each.

## Quarterback Club Meets Tonight

The Quarterback Club will meet at 8 o'clock tonight in the Palm Room in the City Hall. A film of the Harvesters-Eagle game will be shown following the meeting. Coach Tom Tipps will give a run-down of the Harvesters' 59-6 victory over the El Paso eleven. A scouting report of the Vernon grid team, Pampa's next foe, will also be given.

## Dixie Series Even

**CORPUS CHRISTI — (AP)** — Corpus Christi jumped into a two-run first-inning lead and built it into a 7-1 victory over Jacksonville Sunday night. The win squared the "Little Dixie" series at two games each.

Our Balloon Can Explode

Once upon a time a youngster handed his dad a toy balloon and asked him to blow it full of air. The old man huffed and puffed and got the balloon round and full, and he kept blowing.

In Washington there's a man blowing up a balloon that belongs to the American people. Up and down the land the people are complaining that the balloon's getting too big.

Here and there all over the globe today phony money is getting thicker and thicker and governments are trying to get rid of it.

That's true of our own administration in Washington. The New Dealers don't seem to know what they're doing from one hour to the next, any more than they know what's going to happen to our money values.

Washington is waiting for you, if you can rightly call what they're doing "waiting." It's written all over the place that they figure they're going to spend ourselves to death with inflated money.

Washington is waiting for you, if you can rightly call what they're doing "waiting." It's written all over the place that they figure they're going to spend ourselves to death with inflated money.

Fair Enough-Pegler

By WESTBROOK PEGLER

Mervyn Rathbone, a member of the Communist party and of the Communist party's secret political board in the National Executive Committee of the CIO, spent two weeks in the White House as guest of Eleanor Roosevelt in the summer of 1940.

Arriving in Washington, Rathbone drove into the White House grounds with the casual assurance of a southern cousin calling on kin-folks and settled down for a fortnight's sojourn.

Rathbone has quit the party since then and appears to have suffered privation in common with three other former Communists who testified in the latest Harry Bridges trial.

Although the A.C.A. was generally cooperative in the American Communications Association trial, Rathbone was not.

This incidental information is intended to indicate the attitude of the Communists in this unique episode. Rathbone's president and his family had been entertained for two weeks in the White House as the guest of the wife of President Franklin D. Roosevelt.

Here at home we have good reason to be doubly scared, for we're faced with the danger of ending up in a cloud of dust without even waiting for the end of a third world war.

War and we're liable to end up in a cloud of dust kicked up by a world-shattering economic explosion that would leave us as dead as if we lost the war.

THE COST OF BORROWING

If you ask a dirt farmer in Idaho what's the worst thing about being in debt he'll usually say, "Getting out of debt, of course." If you put the same question to the new GI home owner, he'll probably say, "The interest. It's killing me!"

Some of these latter effects of public debt are a little slower coming into clear vision, but there's nothing vague about the tax bill imposed upon all of us to pay interest on our present towering Federal government debt.

The Federal debt is approximately \$288,000,000,000. That's about \$4,900 for every employed person in the fiscal year which ended June 30, 1950.

The additional military expenditures totaling \$10,000,000,000 and upwards annually and the other proposed state-of-war outlays may be expected to boost the operating deficit to about \$10,000,000,000 a year in spite of the stiff increase in taxes.

So They Say... We know that our system of enterprise has worked. To make it work in the undeveloped areas is the challenge.

Taxation has the great advantages of keeping the need for direct controls to a minimum, and of avoiding an inflation later when controls are removed.

The battleship Missouri cost more than \$200,000,000 but with her budget of that figure my department could steam the tide of communism with a grass roots campaign of truth just as we did in Italy.

Who Has Contributed Most? I HAVE SENT MEN, PLANES, TANKS, ARTILLERY AND SHIPS TO KOREA.

I've sent soap, I've sent soap, I've sent soap. I've sent soap, I've sent soap, I've sent soap.

I SENT TO KOREA MORE TANKS, ARTILLERIES, GUNS, AMMUNITIONS THAN ANYBODY AND I GOT IT THERE FIRST!

National Whirligig

news behind the news

By RAY TUCKER... WASHINGTON — While the Army and Air Force will have to reopen and rebuild costly capments to house the 3,000,000-man defense force planned by Secretary Marshall, more than 200 buildings in a Missouri camp are being built at grain prices by the Commodity Credit Corporation in an utterly fantastic deal.

Although the transaction resulting in this vast hoarding of property and financial loss to the taxpayers may not fall within the jurisdiction of Senator Lyndon Johnson's revived "Truman Committee," fellow-members have called it to their attention as an example of government confusion and extravagance.

PROFIT — In its haste to get rid of World War II surplus and wind up its affairs, the War Assets Administration leased 163 buildings at Camp Crowder, Mo., to the Midwest Storage and Realty Company of Kansas City last September. The firm planned to use the space for storage of grain.

LOSS — War Assets also leased 43 additional warehouses at Camp Crowder to the V. M. Harris Grain Company of Scott City, Kansas. The annual rental for this property was \$18,700, a far higher figure per building than the Kansas City group paid.

REWARD — Although the White House will probably deny it, President Truman promised AFL-CIO labor leaders at their recent off-the-record dinner conference that he would fire Robert N. Denham as counsel of the National Labor Relations Board.

So They Say

We know that our system of enterprise has worked. To make it work in the undeveloped areas is the challenge.

Taxation has the great advantages of keeping the need for direct controls to a minimum, and of avoiding an inflation later when controls are removed.

The battleship Missouri cost more than \$200,000,000 but with her budget of that figure my department could steam the tide of communism with a grass roots campaign of truth just as we did in Italy.

The Doctor Says

WRITTEN FOR NEA BY EDWIN J. JORDAN, M.D.

There are a number of questions today, dealing with such varied subjects as shock treatments, stuttering, diabetes, leg cramps and the hyper-trophied prostate.

Excitement is universally considered to be undesirable for a child who stutters. Affection from the grandfather is fine and should be continued, but it would be well if it took a more quiet form, such as reading aloud or similar sedentary activity.

My brother served in the Army in World War II, and was given a medical discharge. The doctors claim that shock treatments would help him. I refused to sign for him because I don't know if these treatments are good.

I am a diabetic. My diet calls for two eggs at breakfast and a generous portion of meat at the two other meals.

Years ago my father used to watch the signs of the Zodiac closely and operated on farm animals only when the signs were favorable.

Dr. Jordan is unable to answer directly individual questions from readers. However, once a week, in this "Q & A" column he will answer the most interesting and the most frequently asked questions received during the week.

Success Secrets

By ELMER WHEELER

"The man who has not made mistakes is either a fool or a coward," said James J. Hill. "I have made many mistakes and I shall probably make a good many more; but I shall always learn something from them."

Life itself is a process of trial and error," said Alfred P. Sloan, "and those people who make no mistakes are those who make nothing." Sloan is Chairman of the Board of General Motors—one of the world's biggest businesses.

Here are some rules to make mistakes pay off: 1. Don't be afraid you'll make them. If you are too afraid of mistakes—you'll sit down and do nothing at all. Look upon life as Sloan says as a natural "process of trial and error."

Don't be ashamed to admit your mistakes once they're made—especially to yourself. Egotism makes it hard to admit a mistake. But as long as we feel this way about it—what we secretly believe is that WE are no bigger than our mistakes. To admit a mistake gracefully—even to yourself—you must feel that YOU are bigger than the mistake.

My brother served in the Army in World War II, and was given a medical discharge. The doctors claim that shock treatments would help him. I refused to sign for him because I don't know if these treatments are good.

**'Crawl Space' Important To Basement-less Houses**

By HENRY J. WINGATE, Nationally-Known Architectural Engineer

With the advent of the basement-less house, the term "crawl space" is a familiar one in the housing field, but few home-owners fully understand what it means or how damage to the house must be prevented in this type of construction.

Crawl space is that area beneath a building where there is no basement and the first floor is raised above the surface of the ground. The space may be only a foot or two, or several feet, in height. However, sufficient head-room should be provided so workmen can move about in the area, the purpose of which is to give access to plumbing, wiring and other equipment beneath the floor.

It is highly important that all crawl space be adequately ventilated to avoid moisture condensation beneath the house and resulting rotting of wood flooring or structural member. Moisture is extremely prevalent when the space is not ventilated, and the ventilator openings are not large enough. Cross-ventilation should be provided so that air can circulate freely.

Ventilator openings should measure 2 sq. ft. for each 100 ft. of building perimeter and they should not be screened by shrubbery.

To further avoid moisture accumulation beneath the house, the ground surface should be covered with roofing felt or cement.

**House With Unusual Charm**

Clever arrangement of vestibule, foyer and cross hall gives access to any part of the house while maintaining privacy of the other rooms. The plan packs into its 55' x 11' width 3 large bedrooms; spacious living and dining rooms; kitchen with eating space; garage, 2 baths, 11 closets. A full sweep of 24' from front to rear is achieved by eliminating dividing wall between 12'x14' living room and 11'x11' dining room. Each has picture-window. Living room has fireplace. 12'x11' kitchen has 2 windows, rear entrance. Front bedroom 10'4" x 11'4" has 2 closets, cross-ventilation. Adjoining bedroom 7'x10'4" also has 2 closets. Master bedroom has 3 closets, cross-ventilation, private bath. Horizontal and vertical siding combined with brick give charm to the house exterior. Shuttered windows, covered entrance porch and long architectural lines beautify it. Garage has storage space for garden tools, bicycles. Mineral wool insulation in walls and roof area prevents loss of heat in winter, makes house as much as 15 degrees cooler in summer. Insulation in wall between garage and house is a fire-safety measure. Expansion attic will accommodate 2 large bedrooms, bath, hall and closets.

**Casualty Report Finally Verified**

PEORIA, Ill. (AP) — For more than five years Mr. and Mrs. W. W. Johnston have clung to the hope that their son, Lt. William Harrison Johnston, naval aviation ordnance man, was reported missing in action while on a bombing mission in the Pacific. This week his parents were notified that the bodies of their son and four crewmates were found on a remote island in the Philippines.

**Israel Again Gets Foreign Newspapers**

TEL AVIV, Israel (AP) — Foreigners and Israelis who like to read American newspapers and periodicals are going to have that opportunity again. Importers have worked out a deal with the controller of foreign exchange to purchase a limited number of such publications. Imports were stopped in July after news-dealers reported the government failed to allocate foreign monies for purchases.

**Guarding Home Against Rust Especially Vital**

By BOB SCHARFF, Written for NEA Service

No home is safe from rust or as it is more formally known, corrosion. Now when metal parts are so expensive, it is especially important to guard your home against it. Proper care is easy and cheap.

Paint is your best rust preventive. While the wood framing of your house needs painting only every few years, exposed metal parts may require yearly painting or must have at least yearly inspection.

Flashing around dormers, soil pipe vents, chimney, and roof valleys should be closely inspected for signs of corrosion. Tin roofs, gutters and downspouts should also come in for careful scrutiny, too. But before painting, repair or replacement should come first.

After repairing and cleaning out of all loose debris, remove all rust, old paint and dirt with coarse sandpaper, wire brush and an old scrubbing brush. A rusted don't neglect any of those rusted corners and crevices. Then, prime all the exposed metal with a mixture of red lead and linseed oil (4 cups of dry red lead to 1 cup of raw linseed oil) or any of the good quality rust resisting paints on the market.

It is not necessary to thin paint intended for metal priming. A little paint goes a long way in painting on metal since there is no penetration. It must, however, be brushed on evenly and firmly to eliminate air that would interfere with good adhesion. Apply a second coat of primer on all sections that have been rusted.

Keep the lid on the paint can when not in use. Most metal priming paints dry rapidly or set hard in cans. If exposed to the air too long at a time and are thus wasted as they cannot be re-thinned for painting.

After metal priming paint is dry, apply ordinary house paint as the finishing coat in the same method as when painting exterior woodwork. Allow ample time between coats for drying.

Steel sash, especially in the basement, won't last long unless it is adequately protected. Paint both inside and outside. Coat the sash with a good metal paint or enamel once a year and you can be sure that rust will make no headway.

Also give your metal fences, metal garage doors, exposed piping and metal railings the same treatment. Paint all outside metal furniture before putting it away for the winter.

Soak in kerosene and brush with grease all garden and carpentry tools that are to be stored for long periods. A dip or bag of calcium chloride or similar moisture absorbing chemicals in every tool drawer or chest will stop rusting of your tools. These materials must be renewed frequently to make up the loss due to liquefaction.

Sometimes corrosion of metal water pipes or metal objects that are near water is greatly speeded by stray electric currents. If you have reason to suspect this type of corrosion in your basement, call the local utility company to check. The continuous conduction of even a small electric current corrodes some metals in a few months.

When it "lays down" call 550 and our thoroughly experienced, and adequately equipped organization will quickly, permanently restore your electric refrigerator to rendering NORMAL SERVICE. Dependable, and prompt service.

**Blazes Caused By Electricity Preventable**

One out of 10 fires which annually destroy 400,000 homes is due to overloaded circuits, defective electrical devices or misuse of appliances, say fire-prevention experts. Fire losses from electrical causes ranked fifth in the list of known causes of fires in 1949. Property loss by fire in the first 7 months of 1950 exceeds that of 1949 by \$21,698,000 or an increase of 5.4 percent.

To lessen the danger of damage or destruction of homes through fires due to electricity, the Construction Research Bureau, national clearing house for building information, makes these suggestions to home-owners:

Check lamp cords and extension cords. Replace worn or broken ones with new ones bearing the Underwriters' Laboratories tag. In a recent survey, 186 out of 755 fires of electrical origin were found to be due to defective cords.

Overloaded electrical circuits are a serious fire hazard. If fuses blow frequently, or if a wire is to be extended to garage or porch, call an experienced electrician. Inexpert electrical wiring by home handymen has caused many fires.

Water and electricity are a dangerous combination. Don't keep a radio in the bathroom, nor connect electrical appliance while in bath water.

In wiring, it is best to have each room in the house served by 2 electric circuits to avoid interruption if one is short-circuited. No circuit should have more than 12 outlets.

Avoid the danger of fire starting through a short-circuit by surrounding wiring with non-combustible mineral wool insulation. This meets specifications of the National Electrical Code.

Fire danger will be greatly reduced if hollow spaces in walls and above ceiling are filled with mineral wool insulation. Made of rock, slag, or sand, it cannot burn. According to the National Bureau of Standards it can hold back fire in an ordinary plaster for one hour. Since it is a non-conductor, it muffles sparks and prevents them from reaching nearby wood or other flammable materials.

Don't strand electrical cords or wires around a room. Running causes them to wear and fray. Cut off your electric iron at once when interrupted by telephone or door-bell. When you buy a new iron, get one with an automatic cut-off.

When purchasing any new electrical appliance, watch for the label of Underwriters' Laboratories, indicating it has been tested for fire-safety.

**Conscription Urged By Malaya Official**

IPON, Malaya (AP) — A call for conscription in Malaya to help meet the threat of communism in Asia was made by a member of the Perak council of state, Leong Yew Koh, warned the council of the Red menace to Indochina and Thailand which was "staring Malaya in the face," and stressed that Perak's northern frontier with Thailand was "almost unguarded."

"The Soviet has already blue-printed its conquest of Thailand and the Red menace is fast approaching our land," he declared. "We cannot survive a Communist occupation," he stated.

**Build a Greenhouse For Less Than \$50**

Easy To Follow Plan

You can grow flowers, lettuce and even tomatoes right through the winter season in this easily-constructed lean-to type greenhouse. Built against the south wall of a home, it consists of only three sides and a roof, and uses "Vimlite" Plastic Glazing instead of glass. Because it requires only standard lumber sizes and inexpensive glazing this attractive greenhouse can be built for under \$50—plus foundation.

Overall, it measures 5 feet wide by 9 feet long with sufficient head room for a tall person. Complete plans including detailed lumber list can be obtained free by writing to Celanese Corporation of America, Vinyl Department, 180 Madison Avenue, New York 16, N. Y.

## Brazil Population Nears 50 Million

**RIO DE JANEIRO (AP)—** Brazil has been counting noses and it seems that they will run close to 50,000,000.

The 1950 census count ended early in July but definite results will be known in a few more months. There is enough information on hand to estimate the country's population at near fifty million and to give first rank to Rio de Janeiro as the biggest city. The count for Rio is over 2,250,000.

Sao Paulo grew amazingly but it is still number two with 2,200,000. Recife, in the northeastern state of Pernambuco, is third with a dash over half a million. Porto Alegre, in southern Rio Grande, is fourth with 372,000.

Have a car that you'd like to sell. Do like hundreds of others, list it in the WANT AD section. Merely call Pampa 666, and ask for an ad-taker.

## RENT CONTROL

(Continued from Page 1)

By of "orderly decontrol" to keep pace with progress in providing housing units.

On the other hand, rent control opponents have argued that rents are the only item still under price control, and that a vast amount of housing has been built since the war.

At its peak in 1946, federal rent control covered more than 16,000,000 dwelling units. Early this year, decontrol programs had cut this number to 11,000,000, and the present estimate is that 8,000,000 units are under federal control.

Even in controlled areas, rent increases are permitted with the approval of the housing expediter. Increases averaging 18 percent were authorized last year for 900,000 controlled units.

## Canadian Woman Grows Citrus Fruit

**MINNEBOSA, Manitoba (AP)—**  
 The village of Newdale, 20 miles west of here, boasts a woman with an unusual hobby.

Mrs. Morris Lavery is a gardener of citrus fruits. Her tropical indoor garden consists of a four-foot orange tree which has so far produced two ripe, rich oranges, and a lemon tree which last year bore a gigantic lemon 11 inches in circumference.

## Wheelchair Revue Star Weds Veteran

**GLENDALE, Calif. (AP)—**  
 The leading lady of "Wheelchair Revue" and its paraplegic publicity man were married yesterday.

The bride is Miss Patti Brill, 25, of Santa Monica, and her husband is Hugo Fredlund, Jr., 27, of Los Angeles. The couple met while the paraplegic servicemen's revue was in rehearsal. It was successfully shown at Sawtelle Veterans Hospital here and may later tour the nation. Fredlund, a World War II ski trooper, was wounded during the Italian campaign.

"Wonderful" Describes the Way HADACOL has helped thousands of folks whose systems were deficient in Vitamins B-1, B-2, Iron, and Nicotin. HADACOL can give you help, too, if you will give HADACOL a chance. If you suffer from stomach distress, indigestion or anisomnia, constipation, aches and pains of neuritis or a general run-down condition, caused by such deficiencies, let HADACOL help you as it has helped others all over the country. Even hundreds of doctors are recommending HADACOL to their patients who are suffering from such deficiencies.

Give remarkable HADACOL a chance to help you. Remember, you have nothing to lose. HADACOL will make you feel great after the first few bottles you take, or your money will be refunded. Only \$1.25 for Trial Size. \$3.50—adv.

## TRUMAN

(Continued from Page 1)

traversal veto — the last item upon before the lawmakers shut up shop until Nov. 27.

Because of Mr. Truman's bitter opposition to the bill, the Senate can be expected to give careful scrutiny to the convictions of any of the five men he must now name to the Subversive Activities Control Board. They require Senate confirmation.

The situation is somewhat similar to that which confronted the president three years ago when he had to name a general counsel to the National Labor Relations Board to handle important duties under the Taft-Hartley Act, also passed over the president's veto.

He named Robert N. Denham, whose differences with the NLRB became increasingly pronounced until Mr. Truman several weeks ago asked for his resignation. Denham and the board disagreed over interpretation of the law.

As to enforcement of the new law, McGrath said he is setting up a special unit in the Justice Department's criminal division to handle prosecutions. He said he is asking the budget bureau to provide more funds to staff the new branch.

He did not say how many persons would be required; it appeared that it would take hundreds.

Other government attorneys said the new act presents complex enforcement problems. For a beginning, at least, some sort of selective enforcement will probably be attempted, some of them thought.

These attorneys, not wanting to be named, doubted that the department would move at once against all the 125-odd organizations described as Communist-controlled on the attorney general's subversive list.

They noted that the law requires the department to submit evidence to back its charges that organizations it wants to register are subversive, and to prove its case before the control board and the courts in hearings which may drag out for months.

## RESCUE

(Continued from Page 1)

er a shaky Air Force wireless service, muffled by static.

Cause of the crash remained undetermined. The plane had a gasoline supply to last 17 hours. Normally the flight from Goose Bay to Tucson would take 12 hours.

Officials had suspected all along that the plane was down not far from the start of its flight, since it had not reported to any station after its takeoff.

## GOES TO AUSTRIA

Walter J. Donnelly (above), Ambassador to Venezuela, was named by President Truman as sister and first U. S. civilian & h Commissioner to Austria.

## Former Official of Union Named Judge

**ORANGE, Texas (AP)—** Charlie Grooms, 42, former business manager for the pipelitters local union here, was sworn in yesterday as Orange County judge.

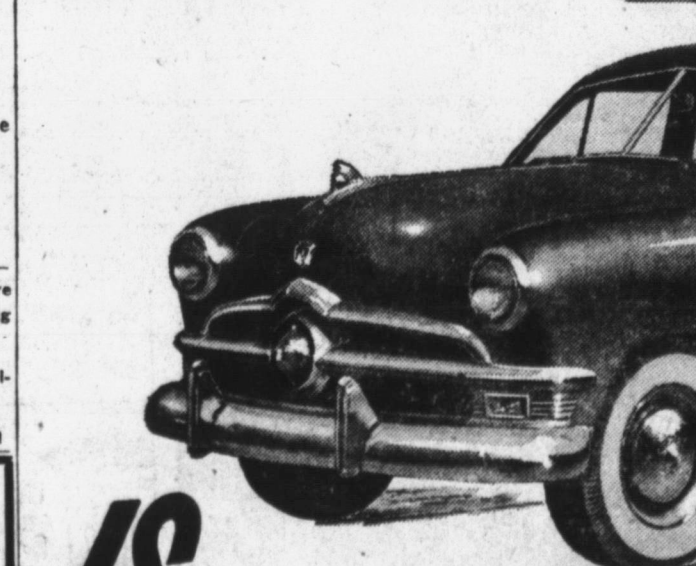

He succeeded Sid J. Caillavet, who resigned to become executive secretary of the Orange Chamber of Commerce.

Grooms was nominated for the judgeship in the Democratic primaries this year. His appointment to succeed Caillavet was by unanimous vote of the commissioners court.

## AIRBORNE

(Continued from Page 1)

at or near full strength when the Korean war started.

On the other hand, the 11th Airborne, whose home base is Camp Campbell, Ky., is a veteran of Far East service. It was, until about a year ago, part of the Japanese occupation army. Its officers and at least some of its enlisted personnel would be wise to the ways of the Orient.

The first assignment for the airborne unit which landed at Kimpoo airfield was to join in the hard house-to-house fighting for the capture of the big city of Seoul. For this, airborne troops are peculiarly adapted. Their training is nearer the commando type than any other Army unit.

In modern war, airborne forces usually begin their major operations in the late phases. Used strictly as airborne troops, they are of value not only in creating new "beachheads" to be held until the advancing ground front joins with them but in raid-type operations. They cut the enemy's communications lines, blow up bridges along which he might seek to retreat, prevent reinforcements from reaching him and generally help the progressive disorganization that develops as a counteroffensive begins to roll against him.

Should the United States decide to use this outfit in its designed airborne role, an adequate "airlift" is ready in the Far East.

The old, reliable workhorses of the Air Force, the C-47s, were used throughout World War II for dropping paratroopers. Quantities of the larger, four-engine C-54s are in the war zone. The Far East Air Force also has some of the planes designed especially for air transport of paratroopers

## British Printers Will Study U.S. Methods

**LONDON (AP)—** British printers are sending a delegation to the United States next year to study lithographic printing methods.

The visit has been arranged by the Anglo-American Council on Productivity, which was set up by the British and American governments. Its aim is to help the British learn some of America's industrial know-how.

The British Federation of Master Printers announced the appointment of Capt. Charles Birchall, chairman of Charles Birchall and Sons, Ltd., of Liverpool, as head of the delegation. Other members have not yet been appointed.

and weapons and vehicles dropped by parachute, C-54s and C-119s.
