Big Lead: Dan Smith is shown as he gains yardage in Friday night game with Olton. The Mules fell to the Mustangs 13-6.

Mules Fall to Olton

By COY GABBERT

Charles Elrod kicked off for Muleshoe against Olton. Olton blocked the kick about the 45. The ball bounced back to the Mule 30 where it was covered by Muleshoe. Twelve plays with four first brought the Mules to the Olton 4, where Scott Oliver went over. But a 15 yard penalty set the Mules back to the 19. Dan Smith carried from there to the 2 and Oliver again went over. This time the touchdown was good, but Joe Adams conversion kick was bad. The score was 6-0 Muleshoe.

Elrod kicked to the Olton 25 where Darrell Glover took the ball and returned it to the Olton 41. Eleven plays brought the Mustangs to the Mule 26 where they lost the ball on downs. Muleshoe ran one play before the first quarter ended. On fourth down after reaching their own 33, the Mules punted to the Olton 29. Olton's Joe

Priest returned to the 43 with the punt. Ten plays brought the Mustangs to the Mule 25 they again lost the ball on downs.

Fifteen plays of which eight were passes brought the Mules to the Olton 21. Then Olton's Joe Priest intercepted John Thompson's pass on the Olton 6 and ran to the 18. Making it to the 18 after a 15 yard penalty Olton punted to the Muleshoe 42. John Thompson threw three passes getting to the Olton 37. Then Richard Hall of Olton intercepted a pass on his 26 and ran back to the 35. Olton ran four plays getting to their 42 when the half ended with the score 6-0 in favor of Muleshoe.

Olton's Don Mitchell kicked to the Mule 15 to start the second half. Ransom Jones returned to the 20 for the Mules. Gaining 9 yards in three plays, Mules' Thompson punted to the Olton 29. Olton's Joe

Open House Underway At Plant X: Name Unchanged

Open house at Plant X began at 1 pm yesterday and continues today with visiting hours between 1 and 5 p.m. Refreshments are being served to visitors touring the gigantic station.

Southwestern Public Service Company's Plant X, located in Lamb County, near Earth, Texas, is the largest of 11 base-load electric generating stations with which the electric company provides service for its 45,000 square miles service area.

Plant X attracted nationwide attention before the first shovel of dirt was turned to begin its construction.

"X" was originally meant to serve only as a planning designation while the new facility was on the drawing boards of Southwestern's engineering department and during its construction it was planned to give the plant another name when it

actually went into service. However, the combination of Plant X, and the location near Earth, had too much attraction, and wherever Public Service Company people traveled in the United States, as soon as their identity was known, they were asked "What are you doing at Plant X, near Earth, these days?"

So, the name was never changed.

While the \$42,000,000 plant goes well beyond the stages of something that you might put together with a do-it-yourself kit, it is true to say that Plant X is a "home-made" generating station in that all of the engineering and design work was done by Southwestern Public Service.

Post Office Expands Service

Longer post office window hours, expanded delivery services and large scale extension of the ZIP-coded parcel post speed up are planned for Christmas. Postmaster General John A. Gronauski has advised the local Postmaster, Spencer Beavers.

Gronauski outlined to the Muleshoe postal head, three major new steps he has taken "for the best Christmas mail service the Postal Service has ever had."

1. Expanded post office window hours Dec. 5 to 26 as deemed necessary by the local postmaster.
2. A six-day week Dec. 7-31 for parcel post deliveries, instead of a five-day delivery.
3. Completion by Nov. 1 of Phase III of ZIP Code parcel handling at about 130 more sectional center post offices (strategically located mail massing points), providing faster delivery up to 24 hours or more for parcels with Zip Code.

In phase I and II, approximately 75 offices with receipts of \$5 million annually and above activated faster Zip Code sorting and dispatch by Sept. 1. The 130 in Phase III includes

offices with receipts of \$1 to \$5 million. In addition, many other sectional center offices with smaller receipts will have the program in operation by early December, in time to help speed delivery of Christmas gifts mailed with the ZIP Code.

Lubbock has been designated as a "sectional center office", of which Muleshoe will be a satellite office. Activation of the Lubbock Post Office as a Sectional Center Office is to begin Sept. 26th, to be completed in time to handle the flood of Christmas mails.

The Postmaster General told Beavers the Christmas plans are part of a nation wide program to bring postmasters into postal management as real partners in providing better mail service at all levels."

Texas United Fund Included in Muleshoe Area Drive

The Board of budget and admissions announced that the Texas United Fund has been included in this year's budget. By including this program, State organizations can also be added through the Muleshoe Area United Fund.

Roy Davis, Muleshoe Chamber of Commerce Manager is a member of the State Board of directors, and also served on the State Budget and Admissions Committee. Last year, Mrs. Inez Bobo and Marie White were honored by the State for their work in last year's campaign. Mr. and Mrs. Thurman White, accompanied by Roy Davis, attended the Texas United Fund meeting in Dallas, when Mrs. White received her honor.

The Texas organization provides a state admissions and budget committee to screen, review and budget state and national agencies, a task which is virtually impossible for local communities to do. The state committee is composed of local volunteers from every region and every size city in the state.

They also help organize local United Funds at the request of local communities, since 1961, the Texas United Fund has helped organize 156 local United Funds. Texas now has over 900 United funds, more than any other state.

Money raised by these local United Funds for local agencies has grown from less than 10 million dollars, ten years ago to more than 27 million dollars last year.

Some of the agencies aided through this state United Fund are:

American Hearing Society, through local member organizations in Texas, this society works exclusively in behalf of acoustically handicapped to prevent deafness, conserve hearing and rehabilitate the deaf and hard of hearing.

American Social Health Association, this association performs research, investigation and family life-education work with schools and the armed forces, with local and national agencies, local law enforcement and health departments in con-

County Judge Glen Williams is shown with Senator and Mrs. Ralph Yarborough, and County Democratic Chairman Harvey Bass, at the meeting held Friday afternoon at the Muleshoe State Bank.

Yarborough Labels Bush 'Revolving'

Senator Ralph Yarborough, while making the rounds to several West Texas towns, Friday, accused GOP opponent George Bush of "Revolving backwards" on issues basic to Texas economy.

Bush advocates "primitive" agricultural policies that would destroy the intelligent approach to agriculture that has taken generations to "build", Yarborough said repeatedly.

The Senator was greeted by more than 85 persons at the Meeting Room at the Muleshoe State Bank.

Traveling with him was his wife, Opal, and his assistant, Alex Dickie, Joe Bullock, President of the Young Democrats organized the meeting, along with County Judge Glen Williams and Mr. and Mrs. Leon Smith, Jr.

Defoliation Meeting Planned Wednesday

Proper defoliation is known to make far more efficient harvesting in some areas of Texas. Improper use of defoliant can be disastrous. A meeting to be conducted by Fred Elliott, Cotton Specialist, will thoroughly explore the subject of cotton defoliation as it applies to the Bailey County Area. These men are tops in their field and will show slides and given ex-

perimental facts and figures on this most important subject. This meeting is for the special benefit of four counties, Lamb, Farmer, Cochran and Bailey. We are indeed fortunate that this meeting will be in the Bailey County Electric Meeting Room. The time will be 2:00 p. m. on September 23rd. The public is cordially invited to attend.

FIRE SAFETY — The students of Muleshoe High school meet Thursday at assembly to view a program presented by the Bailey County Farm Bureau. Joe Smetana, Safety Director for the Bureau, Waco, presented this program. Shown above, Smetana, Ben Cockrill, Agency Manager, Ed Little, Bureau President, Joe Holmes, Field Representative from Tulia, Ralph Stevenson, High School principal, Earl Ladd, Sr., Fire Chief and Owen Jones Fire Marshall.

Students View Farm Bureau Fire Safety

Fires don't just happen — they are caused, Joe Smetana, Safety Director of the Texas Farm Bureau, pointed out in a graphic fire demonstration held Thursday at Muleshoe High School. He went on to name the three causes for most fires: "men, women and children."

In the 45-minute program Smetana used a variety of demonstration equipment and materials placed on tables 16 feet in length to dramatize seven basic facts about fire, its use, and control (1) what fire is; (2) how to control fire; (3) the fact that nothing is fire-proof; (4) kitchen fires and their control; (5) fuel vapors; (6) the power of petroleum

products; and (7) household wiring and overloaded electrical circuits.

Using a "fire triangle board" Smetana illustrated that fire is like a three legged stool — it can't work with one of the legs missing. The "legs" fire depends on are (1) fuel, (2) heat (3) air. He stated that in American homes these three things come together in deadly and destructive combination every 57 seconds — an average of 1,500 home fires every day, causing more than 5,000 deaths in home fires every year.

Creating quite a loud explosion from 1 single drop of gasoline, Smetana stated that one gallon of gasoline contains ap-

proximately 155,000 drops and under ideal conditions, could produce an explosion force equal to the power of at least 30 (See Students Page 5)

Dinner Given For Guest of TSTA

Muleshoe Classroom Teachers Association began the new school year with a public relations dinner, Monday, September 14 in the High School cafeteria, honoring administration, civic leaders, new teachers, and other guests.

Mrs. Jack Beddingfield, president for 1964 - 65 presided and introduced the guests. Approximately 110 were in attendance.

Mrs. Killingsworth, vice-president, introduced Mrs. Jewell Harris State Vice President of TSTA, who spoke on "Professional Partners - Responsibilities in Education."

Mrs. Harris inspired teachers to be loyal to their profession, dedicated to their work and definite in their goals and achievements. She stressed the fact that a teacher's responsibility lies in the lives of boys and girls because of that, the highest ideals must always be upheld.

Background music for the dinner was played by Susan Birdsong, Muleshoe High School Senior. Mrs. Inez Middlebrooks, Social Chairman and her committee had charge of decorating the tables and foods.

Next meeting for the Classroom Teachers will be Monday, October 5 at 4:10 in Jr. High. Our speaker will be Rep. Bill Clayton, Springlake.

Dale W. Vise At Naval School

SAN DIEGO, CALIF. (FHT-NC) - Dale W. Vise, fireman apprentice, USN, son of Mr. and Mrs. M. W. Vise of Route 3, Muleshoe, is attending Interior Communications Electrician School at the Service School Command, Naval Training Center, San Diego, Calif.

The school, one of 22 at the training center, teaches Navy-men basic theory and the operation and maintenance of interior communications equipment on board Navy ships.

As he progresses in the course, he will learn the use of electricians' hand tools and electrical testing equipment; the values of resistance, capacitance, inductance current and voltage in AC and DC circuits.

After graduation he will be expected to set up, maintain and repair public address systems, and test and repair such units as sound powered telephone circuits, gyro compasses and related equipment. The installation of telephones and switchboards, bell and buzzer systems are also his responsibility.

He must also be able to read and work from blueprints and wiring diagrams and prepare interior communications diagrams using standard designations for cables, wires terminal markings and circuit components.

SAVE LOW COST CATTLE FEED

SAVE CHAFF AND STRAW WITH THE **FOSTER BLOWER and DUMP WAGON**

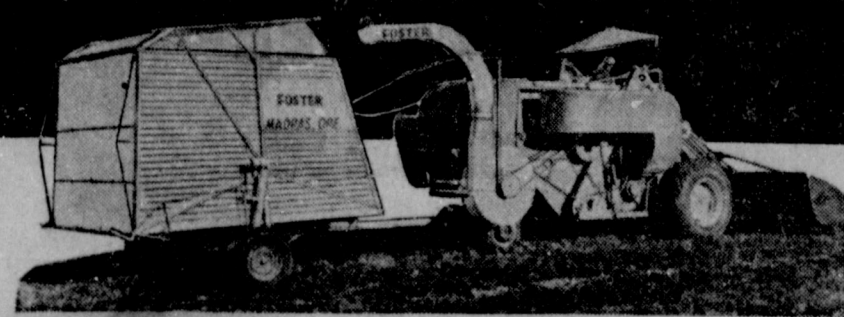

Cut your wintering cost this year by feeding chaff. Hundreds of farmers and ranchers are now wintering their herds on chaff for less than 10c a head a day.

The Foster Blower and Dump Wagon attaches to most popular combines and catches chaff only or both chaff and straw while harvesting. The solid dumps of chaff, or of chaff and straw,

saved with the Foster Blower and Dump Wagon can be fed right in the field or easily loaded on a truck with a buck rake and then moved to stack.

Right now you are wasting tons of chaff and straw without a Foster Blower and Dump Wagon on your combine. In nearly every case this amazing equipment will pay for itself in one year in savings made in your feed bill.

Olton 35. Going to the Mule 4 in four plays, Priest punted to the Muleshoe 6 for Olton. The Mules ran three plays and Thompson punted to his 35 where Priest took the ball back to the 33 for Olton. Seven plays put the Mustangs on the Mule 6. From there Hall went over for Olton. Mitchell kicked the conversion making the score 7-6 for Olton.

Mitchell kicked to the Muleshoe 14. Carl Calhoun took the ball, fumbled and recovered on the 15. Seven plays later, with the ball on the Mule 44 yard line, John Thompson punted and the ball rolled into the end zone. It was brought out to the 20. On the second play Hall fumbled and Stanley Black covered for Muleshoe on the Olton 27. On fourth down, Thompson punted to the 2 with Priest running the ball back to the Olton 41. The Mustangs then marched 59 yards in twelve plays with Dale DeBerry going over standing up. Mitchell's conversion kick was bad leaving the score 13-6 in favor of Olton.

Mitchell kicked to the Mule 22 where Ransom Jones returned to the 34 for Muleshoe. Thompson's fourth down punt rolled dead on the 9. Three plays later, DeBerry fumbled on his own 22. Eleven plays brought the Mules to the Olton 5 where they lost the ball on downs. Olton ran the remaining time out in one play. The game ended with the score 13-6 in favor of Olton.

sticks of dynamite. After demonstrating how fires can be caused by overloaded electrical circuits and improper fusing, Smetana pointed out that many fires of this type are blamed on faulty wiring. He suggested that "faulty thinking" is involved more often than "faulty wiring".

The demonstration, which was brought to the Muleshoe High School under the sponsorship of the Bailey County Farm Bureau, is part of a long-range fire prevention program now being conducted by the Texas Farm Bureau Safety Department.

Mrs. Vera Engleking, Publicity director for the Bailey County Farm Bureau made the arrangements for this presentation.

Guests at the High School Assembly were: Owen Jones, Fire Marshall, Earl Ladd Sr., Fire Chief, Joe Homes, Field Representative of the Farm Bureau, and Ed Little, President of Bailey County Farm Bureau.

lie Service Company's system engineering department. This fact, incidentally, was the first of a long list of "firsts" that are now credited to the huge generating station.

Prior to the building of Plant X, some plant additions had been designed and engineered by the company's own engineering department, but the first all-new generating facility to be designed and engineered at home, so to speak, was Plant X.

Since that time all of the company's new generating stations, and additions, have borne the home-made label. This results in additional economies through standardization of many design and engineering features, and is one of the reasons that electric rates have remained at 1951 levels, or lower, despite the many increases in the costs of production.

Today's Meditation

My Good Lord, we find it hard to pray for heaven. We cannot picture heaven. We cannot imagine what heaven is like. Help us to realize now what Heaven is like, so that we will pray for it and work for it every day of our lives. O, Lord often we have been away on trips, probably we were in places where we did not know anyone and sometimes we did not speak the language of the native people. It was so isolated, so lonely.

It was such a wonderful feeling to be home again, back on the streets we were so familiar with, back in our own home. Heaven is my home too, Lord, and we are all looking forward to it because we realize that to be home in heaven is a greater joy than anything we ever could experience after being away. Lord, please, see to it we get to our true home, heaven, safely. We like the company of good people at social affairs; we meet so many old friends there. And the people we meet even for the first time are so pleasant and friendly. These are moments when we realize what it must be like in heaven - just being with so many friends and so many wonderful people. Lord, we know that we are invited; but please make sure we don't miss the eternal party.

We realize that You, O Lord are infinitely greater than the greatest mind we have ever met, infinitely kinder than the kindest person, infinitely more loving than the most self-sacrificing lover. Anything we are, you are infinitely better, anything we do, you can do infinitely better. What a satisfying experience it would be to live with the most wonderful person in this world. Heaven will be more satisfying because we will be living with the infinitely wonderful God. Lord make me worthy of such a reward.

- SOUTHWESTERN PUBLIC SERVICE COMPANY'S LARGEST GENERATING STATION

During OPEN HOUSE, TODAY, 1:00 to 5:00 P.M

Mrs. Eva Smith of Olton learns about the use of closed circuit television from C. L. Seefeld, Plant X engineer.

Bob Drake, Plant X manager, explains the use of steam in the turbine-generator to Mrs. Eugene Matthews of Lubbock.

Mrs. Guy Merrell, from Clovis, watches as Lester Lambert plant operator, demonstrates the use of an electronic computer in the control room at Plant X.

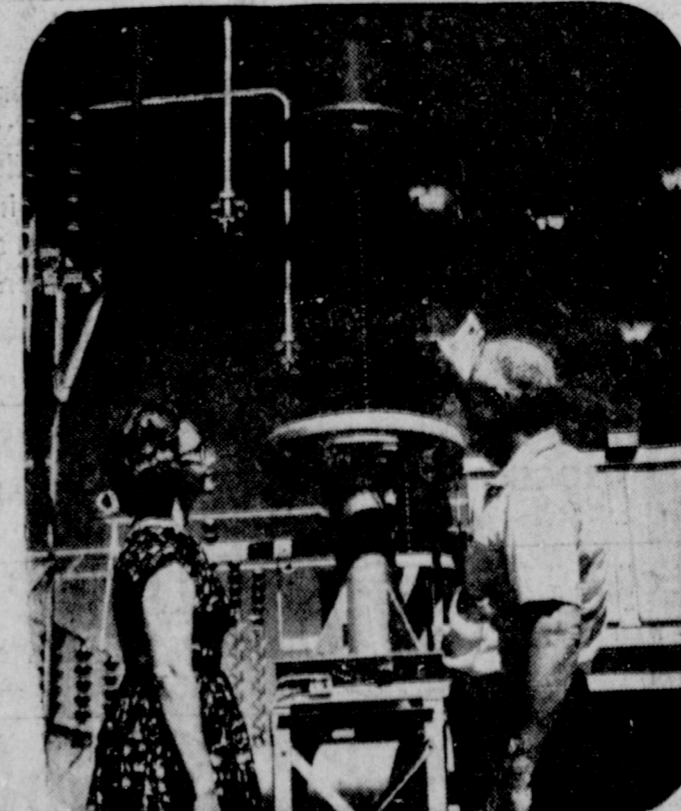

Be our guest this afternoon for a tour of Plant X, largest of Southwestern's 11 electric generating stations. You'll see the new 210,000 kilowatt generator that was put into operation just this summer. This unit, by itself, will generate almost 3 times as much power as was required by our entire system 22 years ago.

Plant X was made possible by voluntary investment of capital by individuals and organizations who, believing in the free enterprise system, had confidence in the growth of this area.

HOW TO GET TO PLANT X Plant X is located 4 miles south of Earth and 12 miles north of Amherst on Farm to Market Road 1055.

In the photo at right, Plant Manager Bob Drake points out the new air blast circuit breakers to Mrs. Gene Davis of Seminole.

Price Blasts Sugar Lobbyist Effort

FRIONA — At the Farmer County Kick-off Rally in Friona, Tuesday evening, Sept. 15) Bob Price, Republican Candidate for Congress, blasted President Lyndon Johnson for appointing a high-paid lobbyist for the cane sugar industry to coordinate his campaign in the 11 Western States.

Price identified the lobbyist as Irvin A. Hoff, executive director of the United States Cane Sugar Refiners Association. The GOP candidate said Hoff, in speeches around the Country, has called beet growers "Grady" although the cane industry has 70 per cent of the U. S. sugar market. He said Hoff has "worked consistently to get cutbacks in beet sugar acreage."

Hoff has said beet growers are "heavily subsidized." Price noted, although cane producers get the same protection under the same act. Hoff has also said beet sugar is "high cost" although it frequently underprices cane sugar at the supermarket.

The GOP aspirant said Hoff works full-time to keep Congress from amending the Sugar Act to give beet growers a larger share of the market. Also, the Democrats, under Agriculture Committee Chairman Rep. Harold Cooley (D. of N. C.), have kept 30 per cent of the U. S. market open to foreign production — a share which beet growers could fill if the Government would allow full beet production.

"It is obvious," Price declared, "that a GOP takeover in Washington — the Presidency and the House — is a vital need for beet growers if they are ever going to get a just share of the market." He said Hoff is a fund raiser for the Democrats in the East, where the cane industry is headquartered. "I say, let's raise a little Cain with the sugar industry — a little less cane and a lot more beets," Price stated.

Lazbuddie folks called on the Grand Jury Monday at Farwell were: E. A. Parham, T. L. Gleason, Fred Burch. Those called on the Petit Jury were: Carly Glover, J. W. Gammon, Hoyt Eubanks, E. T. Ford, Jim Roy Daniels, Wesley Barnes, Harvey Blackstone, C. W. Bradshaw, Claud Blackburn, Wayne Clark, Mrs. Dee Brown, Frank Hinkson, Mrs. E. E. Engleking, Mrs. Fin is Jennings, J. T. Mayfield and Roy Miller.

Shirley Anderson Elevator received their first load of maize early part of September. The load was brought in by Junior Davis and Terry Creitz, who farms five miles east of Lazbuddie. The maize was Texas 66 variety and according to Joe Moore, manager, the test, weight and moisture reading was good.

Yarborough In Washington

Dear Fellow Texan:

This week it was my privilege to be present in the White House and watch President Lyndon Johnson sign the Hill - Burton Hospital Act extension. I was there because of my capacity as ranking majority member of the public health subcommittee of the United States Senate.

Through this subcommittee we processed, supported, and expedited this bill called the Hospital and Medical Facilities Act of 1964. The bill extends the basic Hill - Burton Hospital Act for five years, and expands it into new fields to help with this tremendous health - care bill of the United States.

For example, the nation's annual health bill now exceeds \$35 billion a year. That is an average of \$746 a family a year or more than \$150 a person.

All in all the federal government spent \$6.6 billion on health care last year. That is about one-fourth of the nation's health care bill.

Now what does this Hospital and Medical Facilities Act of 1964 do? It expands the Hill-Burton program for five more years, and it wraps up a new program of long-term facilities for nursing care. And we've appropriated \$7 million a year to build 15,000 long-term care hospital beds annually.

In addition 30,000 beds will be constructed by private capital, giving us 45,000 more long-term

care beds per year - enough to represent his approval.

keep up with the population increases, obsolescence rate, and to reduce the deficit each year. There is a big deficit now in beds for the elderly in nursing homes. This legislative action will reduce the shortage.

VACATION'S OVER!

But the memory of travel and fun will be relived in the snapshots, color slides and movies you took. Film and photo supplies at WESTERN DRUG will capture the fun and beauty of fall as well.

The Sandhills Philosopher
Editor's note: The Sandhills Philosopher on his Johnson grass farm reports on a money saving idea in his letter this week.
Dear editor:
People are always talking about how the government ought to save money but practically nobody tells exactly how.
Well, I got to thinking the other day while I was trying to get my mind off attack of bills due the next day and this idea hit me. I know how the government can save around a billion dollars which I admit is a piddling sum but after all every little bit counts.
As I understand it, it'll cost at least a billion dollars to put a man on the moon, but there's place out in the state of Oregon called a nd which scientists surface of the moon, lava dust of
Here's a place where the country can save a billion dollars. Instead of sending some astronaut on the moon, send them to Oregon.

BULA NEWS

Captain and Mrs. Kenneth Thomas, children, Sue Ann and Kenny of Sherman Air Force Base, Clinton, Okla. visited the past week in the home of his uncle and family, Mr. and Mrs. W. T. Thomas and also in the D. C. Gruesendorf home.

Captain Thomas has recently been transferred to Sherman Air Force Base from Okla.

Mrs. A. M. McBee is in Beaumont to be with her daughter, Mrs. Perry Spell, who underwent surgery in a Beaumont hospital.

Mrs. Earl Shields and children, Roselyn and Keenan of Leila Lake visited the past week Jones.

Mr. and Mrs. John Backman returned Tuesday from a visit of several days with their daughter and family, Mr. and Mrs. Dudley Cash at Anthony, N.M.

Mrs. G. W. Casey and child - SH - Accent on Health. It's the unknown that frightens particularly if it is a disease with a long name like encephalitis.

In recent weeks the ominous sounding word - encephalitis - resounded across Texas. The reason: an encephalitis epidemic in the South Plains and Houston.

The epidemic is definitely on the decline, health officials reported, but many continue to be concerned.

One woman in a central Texas town, miles from the epidemic areas, refused to let her children go swimming, afraid that they might "catch" encephalitis.

Others, however, sought information about this little known disease. And they discovered that this terrible sounding name is a Greek derivative meaning "an inflammation of the brain."

Encephalitis - a virus disease - is not communicated from man to man, so far as scientists now know. The mosquito carries the virus from infected birds or small reptiles.

Not all persons bitten by mosquitoes become sick. Only a small percentage show signs of illness. Sometimes this may be so slight as to be passed off as a mild case of flu. Severe infections may be accompanied by high fever, stupor, mental confusion, coma, tremors and sometimes convulsions in infants. Some exhibit only a few

symptoms. There is no vaccine to prevent the disease in man, and there is no magic cure once a person is infected. The answer lies in preventive mosquito control. Mosquitoes breed, multiplying by the thousands, in puddles of standing water, small potholes, grassy edges of ponds and irrigation seepage areas. Eliminate these breeding places, destroy adult mosquitoes with recommended insecticides, check all screens on your home for holes or cracks and if you are outdoors during the evening - mosquito feeding time - wear protective clothing and insect repellent.

Rather than shrinking in fright of the disease with the strange name, join your efforts with those who are fighting encephalitis' vector - the mosquito.

gone. It's chaper, it's safter it can be done by j pon hom problem. Just keep thm out of bathtubs and thy'll b all right.

I know that some people are going to say you shouldn't throw cold water on-space exploration and that's not what I'm doing. Sure, space ought to be explored, but judging from host pictures the moon rocket sent back, it sure seems like going a long way to walk around in lava dust, when we've some gust as good right near in our own country.

Now that I have saved the country a billion dollars th next question is what to do with it, or maybe a better on is, where is it?

Yours faithfully,
