

# NEW BLUE SKY LAW PLANNED BY COMMITTEE

## STOCK FRAUDS WOULD BE ELIMINATED IN NEW LAW

AUSTIN, March 1. (AP)—A bill designed to repeal the present blue sky law and stop any fraudulent distribution of stocks and other securities in Texas was put under microscopic study today by a sub-committee of the house committee on state affairs.

The sub-committee composed of Representatives Bob Calvert of Hillsboro, W. W. King of Bronson and R. H. Good of Cooper was appointed after a hearing in which Secretary of State Gerald O. Mann said the existing blue sky law was wholly inadequate.

Governor James V. Allred in a special message to the legislature recently said Texas investors annually were cheated of millions of dollars by fly-by-night promoters and sellers of worthless stock without more value than the paper on which it was printed.

The bill provides that all sales of securities must be made by registered dealers and salesmen, except for certain exemptions, for licensing of such dealers and salesmen, and for revocation by the secretary of state of licenses on evidence of fraud or practices or other violations of the act.

Dealers would be required to keep in force a bond of \$10,000 for the protection of purchasers. Violations would be misdemeanors, punishable by a fine of not more than \$1,000 or imprisonment in jail for not more than a year, or both.

Edwin I. McKellar of Austin, a dealer in securities, while not criticizing the proposed bill as a whole, said he believed the present blue sky law was adequate for Texas needs and if intelligently enforced could cure existing evils in distribution of securities.

"The Texas blue sky law is one of the best in the United States," he said. "All that is necessary to stop frauds is to know the value that is behind any proposition, and do not need a law like the one proposed. It seems to assume that every man who sells securities is a crook."

He said that if the legislature really wanted to stop fraudulent practices it would reduce the commission now authorized sellers of stocks from 20 per cent to 10 per cent since shady salesmen wouldn't operate on the low margin.

The worship hours at 11 and 7:30. The pastor will preach each hour, in the morning on the subject, "The Person Without a Chance," and in the evening, "The Fast Young Man." Bible school meets at 9:45 and B. T. U. at 6:15. The church with a welcome.

**EVERYMAN'S BIBLE CLASS**  
Meeting at City Hall, 9:45 a. m. "Jesus, Rebekah, Scythians and Foretells His Death and Resurrection." We slumped Sunday, but had a good class. The visitor brought a helpful message. The regular teacher will speak Sunday with special opening features beginning at 9:45. We repeat our offer to men in fellowship, inspiration, and information. Class Officers.

**CHRISTIAN SCIENCE SERVICES**  
901 North Frost.  
"Christ Jesus" is the subject of the lesson-sermon which will be read in all Churches of Christ, Scientist, on Sunday, March 3.  
The golden text is: "As ye have therefore received Christ Jesus the Lord, so walk ye in him: For in him dwelleth all the fullness of the Godhead bodily." (Colossians 2:6, 9.)  
Among the citations which comprise the lesson-sermon is the following from the Bible: "Now when Jesus was risen... he appeared first to Mary Magdalene... Afterward he appeared unto the eleven... And he said unto them... these signs shall follow them that believe: In my name shall they cast out devils... if they drink any deadly thing, it shall not hurt them; they shall lay hands on the sick, and they shall recover." (Mark 16:7-18.)  
The lesson-sermon includes also the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The crucifixion of Jesus and his resurrection served to uplift faith to understand eternal life, even the ailment of Soul, Spirit, and the nothingness of matter" (page 497.)  
Sunday, 11 a. m. Sunday school, 9:30 a. m. Wednesday, 8 p. m. Reading room in church edifice open Monday, Wednesday, and Saturday, 1 to 4 p. m. The public is cordially invited to attend our services and use the reading room.

**HOLY SOULS CATHOLIC**

Evening worship, 7:30.  
Session meeting Monday night, 7:30.  
World Day of Prayer, Friday, 2:30, March 8.  
The public is most cordially invited to worship with us.  
"The Friendly Church." Watch us grow.

**THE "ANGLER WORM" TURNS**  
CAPE GIRARDEAU, Mo.—Dennis Seivaly, a road engineer, has no quarrel with progress—until it interferes with his fishing. Asserting population encroachments are virtually ruining the better fishing holes in this area, Seivaly inserted an advertisement in a newspaper seeking to buy five or ten acres of land. "I'm going to build my own lake," he said. "Then I'll have some place to fish."

The venom of the black widow spider is carried in a poison sac and injected through fangs.

# POLITICAL AND BUSINESS MEN'S VIEWPOINTS ON CURRENT OUTLOOK VARY SHARPLY

## G. O. P. LEADER SAYS CONFIDENCE IS LACKING

WASHINGTON, March 1. (AP)—Bertrand H. Snell, house minority leader, said today the recent adverse decisions in the courts on new deal legislation would "increase the nation's lack of confidence in the administration."  
In commenting to reporters on political and legislative developments, Snell assailed what he termed "organized propaganda" spread by Roosevelt leaders to get the country behind the president on the \$4,880,000 work relief bill dispute. He criticized the emergency legislation as "experimental and hasty" and said the administration was being "over-ballooned."  
The New Yorker, mentioned as a possible republican presidential candidate, hit the AAA's crop production policies with the statement that "we are importing wheat and other foods that ought to have been produced here."

NEW YORK, March 1. (AP)—Dun & Bradstreet in its weekly trade review said today there has developed "a more genuine realization of the soundness of basic conditions to support the expansion toward which all indicators now point."

"The lifting of the production level of manufacturing plants and a gradual decrease in the number of unemployed skilled workers provide unquestioned proof of an accelerated rate of activity," the review said.

"Prices on most grades of merchandise are considered to have passed definitely the low points, and advances in many items are scheduled for the immediate future." The retail trade the survey reported most divisions active with no gains of consequence indicated over the previous week.

On wholesale trade, it was reported, "while individual orders are running larger and trade generally is progressing at a satisfactory pace, the volume of business placed in wholesale markets was smaller than that recorded a week earlier. The lull is viewed as only temporary."

Much of the spring buying is yet to be completed.  
L. J. Ward of LeFors transacted business in Pampa Thursday morning.

## Crows Trapped in Big Spring Device

BIG SPRING, Mar. 1. (AP)—More than 1,000 crows have been trapped alive here by a device perfected by members of the Howard county chapter of the Game and Fish Protective association. These predatory birds, which are a menace to faro crops and destructive to the nests of game birds and their young, are being trapped by the association and held preparatory to a meeting of sportsmen at Big Spring March 2 and 3, when they will be released as live targets for trapshooters.

The crow trap was perfected at Big Spring and has proved so successful that duplicates are being constructed at different points throughout the state. It is reported to be a simple wire net device located in the section near here frequented by crows and baited with food which attracts them. Once in the trap the birds are held without physical injury. As many as 225 crows were reported to have been captured in one day.

A demonstration of the trap will be given at the state meeting of the association at Marlin early this spring.

Forest fires start and burn much more easily in stands of timber that have been killed by insects that eat the leaves and bore into the trunks.

# Schoolboy Rowe Off For Florida

EL DORADO, Ark., March 1. (AP) Lynwood (Schoolboy) Rowe of the Detroit Tigers expects a quick termination of his contract troubles after he reaches the club's Lakeland, Fla., spring training camp.  
Declaring himself in the best of condition, the Big Arkansas hurler left yesterday for Florida in response to a call from Detroit officials for an early arrival to talk over contract terms.

Insect pests that attack forest trees in large numbers are a great help to the spread of forest fires.

Pampa Teachers Will Compete In Groom Journey

The Pampa high school basketball team, without Odus Mitchell, will meet the Groom Independents at 9 o'clock tonight in the second round of the Groom Invitational tournament which opened last night with three fast games. Pampa draw the bye in the opening round of play.

PGA TOURNEY TO ADMIT 64 GOLF PLAYERS

CHANGES WILL BENEFIT VETERANS LIKE HAGEN

NEW YORK, March 1. (AP)—The professional's championship—one of golf's longest and toughest grinds—will admit 64 players instead of the customary 32 match play this year. The first two rounds of man-to-man conflict will be reduced from 36 to 18 holes.

Dutch Mantell Takes To Wife Ruth Franklin

The sports department of the Pampa Daily News this morning received an announcement of the marriage of Miss Ruth Franklin, daughter of Mr. and Mrs. J. C. Franklin, and Alfred 'Dutch' Mantell. The couple will be married after March 1 at 904 Prospect St., Amarillo.

Peace Sought In El Paso Strike

EL PASO, March 1. (AP)—Dr. Edwin A. Elliott, regional director, national labor relations board, today sought a peaceful settlement of the controversy between the El Paso Electric company and power department employees, who went back to work yesterday after a walk-out disrupted power and light service for 15 hours.

RANCHES

(Continued from page 1.) Up carefully it was obvious that he was built for racing. Old Sledgehammer's origin was something of a mystery. Ranch hands never figured out how he came to be in this part of the country, all they knew was that he came from a ranch down near Graham, Texas. But he was a born racer, and after the famed Panhandle race he was taken to Montana where he won several big money races and was sold for \$2,500, a big, very big price for race horses in those days.

Southwest Cage Race Will Close Friday And Saturday

THIS CURIOUS WORLD By William Ferguson. INSECTS NEVER GROW AFTER REACHING THE ADULT STAGE. THE HIPPOPOTAMUS HAS THE SECOND LARGEST MOUTH IN THE WORLD, YET EATS ONLY VEGETABLES! A FAT OCCURRING IN LARD HAS THE FOLLOWING FORMULA: C41H82O2

ONLY one animal in all the world—the whale—has a larger mouth than the hippopotamus. Yet, both these animals devour only small objects. The hippo eats reeds and river grasses, while the whale feeds on small crustaceans.

BORGER MAY ENTER STRONG TEAMS IN PROPOSED PLAINS BASEBALL LEAGUE IN SUMMER

Rumor Has It That Phillips May Yet Be Back With Powerful Ball Nine. Borger may have two strong baseball teams in the field this season if grapevine reports from that city are reliable. It is rumored that the Phillips '68' team will be back stronger than ever and in new uniforms.

bell conquests in many years, will be remodeled and lighted. Plans for the organization of a Panhandle senior league are scheduled to be advanced at a meeting in Borger Monday night. At that time it is hoped that the Borger situation can be clarified. Phillips at first announced that no team would represent that company this year. Ruber then stepped into the field. Later Phillips became interested and, since Phillips owns the Borger park, Ruber felt it would be impossible to enter the league without Phillips also entering.

RED SOX WILL OPEN SEASON WITH 2 ROOKIES IN INFIELD

By BILL KING Associated Press Sports Writer BOSTON, March 1.—The quarter-million or so that Tom Yawkey gave for Joe Cronin, his new playing manager, will probably mean that the Boston Red Sox will open the season with two rookies—abject promising ones—in the infield. If this happens, it will not be because Yawkey is unwilling to pay for experienced talent. He and Eddie Collins spent most of the winter trying to purchase a pair of tested infielders but every time they located players they liked, the owners quoted figures that made them squint.

game since in August of that season and, as a result, has a string of about 15 consecutive contests. He has been a consistent 300 hitter and last season made 221 hits, 37 doubles, 10 triples and 18 homers. This barrage enabled him to drive in 128 runs. His best day at bat gave him six for six, including a homer. Babe appears to have no opposition for the first base job but the Sox's second ranking rookie, Al Niemiec, former Holy Cross infielder, has to reckon with the veteran Bishop for the keystone assignment.

Methodists And Aggies May Not Play This Year

COLLEGE STATION, March 1. (AP)—Possibility that Texas A. and M. and Southern Methodist would not meet on the gridiron in 1935 appeared today after athletic department representatives of both schools failed to agree on a date for the game. The Methodists booked a game with the University of California at Los Angeles at the Californians' home mid on Nov. 11 and asked that the original Aggie-Mustang date be set up to Dec. 7, the only other open date on both schedules. It has originally been scheduled for Nov. 9.

Sammy Fuller To Battle Lou Ambers Tonight

NEW YORK, March 1. (AP)—Stubby Sammy Fuller, an old war-horse as fighters go, tackles the latest of lightweight sensations, young Lou Ambers of Hickman, N. Y., in a 12-round bout at Madison Square Garden tonight. Out of this match, if all goes well, will emerge a challenger acceptable to champion Barney Ross. Barney is under suspension in this state for refusing to defend his title against Ambers but all undoubtedly will be forgiven if he agrees to meet the winner some time during the summer, either here or in Chicago.

Speed King May Race This Week

DAYTONA BEACH, Fla., March 1. (AP)—Wind and water finally have switched to the side of Sir Malcolm Campbell, and there was every indication today the British speed king would be able to point the nose of his giant Bluebird at his own 272.108 mile an hour record, and tread his foot to the floor by week-end. There was even a slight possibility that Sir Malcolm, eager and keen now that the long wait is almost over, might make a test run today after "Wild Bill" Cummings, Indianapolis champion last year, takes his Daniel Craig Campbell to the beach for a shot at the 125-mile an hour record for that type motor set here almost two weeks ago by Dave Evans.

BABE RUTH MUST PROVE HE CAN MANAGE BOSTON BRAVES

BY BILL KING, Associated Press Sports Writer BOSTON, March 1.—The job of managing the Boston Braves is Babe Ruth's when and if he shows he can handle it. That was what the Babe heard from Charles F. Adams, first vice president and controlling stockholder of the Braves, at a dinner last night at which the home run king was welcomed back to Boston. Adams made it clear the Babe would not outrank Bill McKechnie, the present manager of the Braves, for he said that if Ruth succeeds to the managership McKechnie will become an executive of the club "with full power to represent the interest I control."

NO CHALLENGERS FOR HARMSWORTH SPEED BOAT CUP

DETROIT, March 1. (AP)—The Harmsworth trophy, bronze symbol of international speed boat supremacy, remains in the United States for another year without a challenge, but 1936 may find England, Italy and a new crop of American racers seeking the famous plaque. Capt. Shigeo Takahashi, commander of a Japanese liner at the age of 50 has completed his 100th crossing the Pacific ocean.

PEACE SOUGHT IN EL PASO STRIKE

EL PASO, March 1. (AP)—Dr. Edwin A. Elliott, regional director, national labor relations board, today sought a peaceful settlement of the controversy between the El Paso Electric company and power department employees, who went back to work yesterday after a walk-out disrupted power and light service for 15 hours. Dr. Elliott offered his services as a conciliator. M. C. Smith, company president, said the walkout is settled. The employees consent that negotiations should continue for an agreement on wages and on both sides of the union's demands for recognition, a closed shop, and wage scales. A committee of consideration, including Gov. Clyde Tingey of New Mexico, will meet to discuss the controversy, but with no power to make any binding recommendations on either the company or the employees.

# REDS SPREAD TERROR THRU CHINESE AREAS

## WHOLESALE KILLINGS AND ROBBERY ARE REPORTED

(Copyright, 1935, by The Associated Press)  
SIAM, Shensi, China, March 1.—A reign of terror, accompanied by wholesale executions and looting of towns marked the passage of 25,000 communist troops through south-west Shensi province during the last fortnight, missionary reports disclosed today.

The reds poured into the district from Northern Szechwan province, whence they were driven by the central Chiang Kai Shek's nationalist government forces.

Some 25 missionaries abandoned their posts to escape the menace and fled through ice and snow covered mountains in quest of sanctuary.

Only two of the fugitives, Miss R. V. Thompson of Nevada, Iowa, and Miss Alma R. Artibey of Chicago, were believed to be Americans.

A portion of the scattered Christian workers, many of whom carried their children in their arms as they abandoned their stations, has been accounted for. About one-half their number was reported to have reached Penhsiang to the westward and Ankang, and southeastern Shensi.

The Rev. and Mrs. S. C. French, Australian missionaries, believed to have been kidnaped by the invaders, were still unreported.

The group which reached Ankang fled by boat down the Han river. The fate and whereabouts of the others remain a mystery. Missionary quarters here fear some of them have fallen into the hands of the communists or have perished from cold or hunger.

A group of missionaries left here to enter the mountains in search of their missing associates, while Shao Li Tsu, provincial governor of Shensi, directed military authorities to afford them every assistance.

## Negro Attempts To Attack Girl; Mob Hunts Him

LINDEN, March 1. (AP)—An unnamed East Texas jail today held Blackie Jackson, 21, negro, accused of an attempted criminal attack on a 19-year-old Atlanta, Texas, high school girl.

Jackson, saved from the hands of a mob yesterday, was brought here from Atlanta and then transferred to another jail after Sheriff Charles Hardgrave was informed a mob had gathered at Atlanta.

The negro was arrested by City Marshal Homer Carter shortly after the attempted attack. Carter took the negro to the girl's home for identification and there encountered a crowd of 50 men—friends and relatives of the girl—who demanded custody of the negro.

Carter, keeping the windows of his automobile up and the doors locked, managed to elude the crowd and rushed his prisoner to Linden.

The negro admitted he attempted to attack the girl and said he had waited on the road where he encountered the two sisters for three hours before they passed afoot, en route home from school.

The girl told officers the negro choked her and that her 15-year-old sister grabbed a rock and beat off her attacker.

A crowd of about 150 men gathered at an Atlanta drug store later in the night and threats of mob action were heard. The gathering finally dispersed when it was learned Sheriff Hardgrave had taken the negro to another East Texas jail.

## Private Museum Of Wide Interest

DARROUZETT, Lipscomb Co., Mar. 1. (AP)—A private museum of antiques and paintings here is attracting widespread attention.

Gathered from the four corners of the earth, the collection is owned by Mrs. J. M. Mays and was left to her by her father and mother, both of whom were globe-trotters.

Among the antiques are representative dishes from almost every country, hat pins from many nations, an early Roman funeral urn, a German tankard, a Russian water server, bronze plaques, a picture of Goethe, and an Egyptian urn and serving tray picturing sacred cows and angels.

## Admiral Byrd to Talk on Plains

AMARILLO, March 1. (AP)—Rear Admiral Richard E. Byrd, en route home from his second Antarctic expedition, will present a series of lectures in West Texas next year.

Admiral Byrd's manager has asked W. C. Hawk of Amarillo to arrange a week's lecture tour for the explorer in this section for next February.

Lectures at the rate of two a day, will be given at Lubbock, El Paso, San Angelo, Wichita Falls, Amarillo and possibly other West Texas points. From 6,000 to 9,000 feet of motion picture film will be screened in connection with the talks and four or five members of the expedition will accompany Admiral Byrd. Joe Hill, a son of Dr. J. A. Hill, president of West Texas State Teachers college, Canyon, is with the Byrd expedition and will be greeted by his family upon his arrival in New York.

Have your shoes fitted at Kees & Thomas. (Adv.)

**JOHNSON STILL  
 A WITNESS IN  
 MELLON TRIAL**

**STOCKS SOLD IN '31  
 BOUGHT BACK TWO  
 YEARS LATER**

BY MAREN GRAHAM,  
 Associated Press Writer.  
 PITTSBURGH, March 1 (AP)—  
 The account between Andrew W.  
 Mellon and his daughter's Ascalot  
 company is balanced, reads the  
 testimony, but the government in-  
 sisted today on knowing more  
 about transactions which pre-  
 ceded the final settlement.

Back to his tedious pouring over  
 innumerable financial entries came  
 Howard M. Johnson for his eighth  
 day on the stand in Mellon's income  
 tax case before the tax board of  
 appeals.  
 Nearing the end of his cross-  
 examination by counsel for the bu-  
 reau of internal revenue, Johnson,  
 confidential secretary of the former  
 treasury secretary, was asked again  
 about a series of stock sales which  
 the government says were made  
 merely to establish tax losses for  
 Mellon.

The financier claims he really  
 should get a \$139,000 refund on his  
 income tax but the revenue bureau  
 argues he should be made to pay  
 \$3,089,000 more.

From a great pile of ledgers, F. R.  
 Shearer, bureau accountant, yester-  
 day drew out records that vari-  
 ous stocks sold by Mellon to Ascalot  
 in 1931 came back into his posses-  
 sion two years later through pur-  
 chase from Ascalot.

In a comparatively dull session,  
 Johnson told of a sale to Mellon in  
 1933 of 2,500 shares of Western Pub-  
 lic Service, and 429 shares of U. S.  
 Steel by Mellon. This stock, he said,  
 Mellon sold to Ascalot December,  
 1931, and at that time reported a  
 loss of \$70,712.50.

The secretary also testified that  
 Ascalot sold through a broker in  
 1933 some 4,600 shares of Southern  
 Pacific and left the \$9,166.25 obtain-  
 ed with Mellon. There had been a  
 depreciation of \$375,881.87 on the  
 stock but it was explained Ascalot  
 could not deduct the loss from its  
 income tax reports because its in-  
 come is from dividends and not tax-  
 able.

**CAPITOL  
 CHATTER**  
 BY CHARLES E. SIMONS

AUSTIN, Mar. 1 (AP)—The Texas  
 legislature has suspended, tempo-  
 rarily at least, a practice begun dur-  
 ing the last term of former Gov.  
 Miriam A. Ferguson by which the  
 power of appointment was virtually  
 taken from the hands of the chief  
 executive.

In setting up a state planning  
 board both Houses agreed to permit  
 Governor James V. Allred to con-  
 trol it. The house bill gave him  
 authority to name six members to  
 serve with the secretary of state, an  
 Allred appointee, while the senate  
 added the state highway engineer  
 and chairman of the board of water  
 engineers as ex-officio members.

The senate action came after a  
 stiff fight by a determined minority  
 who wished to deprive the governor  
 of absolute power to control ap-  
 pointments to the board. In fact,  
 Governor Allred's leaders in the  
 senate and his opponents exchanged  
 heated words before the execu-  
 tive was clothed with authority to  
 name a majority of the membership.

During the last legislature vir-  
 tually all proposed new boards car-  
 ried the split appointment provi-  
 sion. This was true of the Texas  
 relief commission, which was so  
 divided that it was unable to func-  
 tion smoothly and several of its  
 members asked to be relieved. In  
 the case of the relief commission  
 the governor appointed one and  
 served as ex-officio chairman with-  
 out a vote. Three each were named  
 by the lieutenant governor and  
 speaker of the house and two were  
 statutory and ex-officio members.

With the political complexities in-  
 volved many wondered how the  
 commission accomplished as much  
 as it did.

Realizing the ineffectiveness of  
 the commission, but still unwilling  
 to entrust relief administration to  
 the Ferguson administration, the  
 legislature thrust this duty as an  
 unsought obligation on the board  
 of control. Since then little criti-  
 cism has been heard of relief opera-  
 tions.

With one exception all bills to  
 establish new commissions intro-  
 duced at the current session have  
 provided for appointment of per-  
 sonnel by the governor.

The was true of the bills to estab-  
 lish a public utilities, civil service,  
 crime and other commissions. The  
 exception was Rep. Pat Dwyer's bill  
 to create a natural resources board  
 to take over the railroad commis-  
 sion's oil and gas conservation  
 duties. Dwyer would have the gov-  
 ernor, lieutenant governor, and  
 speaker each appoint one member.

# HIGH SCHOOL P-TA HAS AN EVENTFUL MEETING YESTERDAY

## DELEGATES TO DISTRICT MEET ARE ELECTED

### COUNTY SCHOOL HEAD TALQS OF PARENTS' OBLIGATIONS

National founders day was observed, a centennial tree was planted on high school campus; delegates to the district conference were elected; and a program was heard by members of High School Parent-Teacher association in an eventful meeting yesterday at the school building.

W. B. Weathered, county superintendent, was the speaker. His subject was Parents' Responsibility to Their Children and to the Public. Parents cannot expect the schools, churches, and Scout organizations to fully develop a child's character without help from home, he stressed, although the community owes these organizations to parents for assistance in developing good citizens.

Mrs. T. W. Sweetman and Mrs. W. D. Benton were elected delegates to the annual conference scheduled this month at Canyon. Mrs. J. B. Townsend, president, and the new president, to be elected this month, will also be delegates.

Entertainments was furnished by the Girls' Glee club, directed by Miss Josephine Cariker and accompanied by Pauline Stewart, and the Boys' Quartet, directed by Bob Smellege and accompanied by Margaret Carr.

Tea was served by the hostess committee, headed by Mrs. Frank Foster, and a silver offering was taken in observance of founders day.

Afterward, the group adjourned to the campus where Mrs. Claude Lard, president of the city Parent-Teacher council, planted the tree and named it in honor of Davy Crockett, Texas patriot.

## Miami News

MIAMI, March 1.—Jack Graham left last week for Kansas City, Mo., where he accepted a position with one of the Stetler hotels.

The senior class play, "Murdered Alibi," will be presented at the high school auditorium Friday evening.

Mrs. A. C. Doyle, formerly Mrs. Mary Yelverton of Miami and now of Fort Worth, has been dangerously ill in a hospital at Fort Worth. It is now reported improving with a good chance for recovery.

Mrs. Alice Davis of Dallas is visiting her cousin, Mrs. Rosa Corse, this week.

## SCOUT NEWS

Troop 22, Harold Lewis, Scribe Tests were proposed by several members of Troop 22, Hoover, at the last meeting, which was opened by John Bonds. Preparation for advancement was made by several members.

Those present at the meeting were Duane Turcotte, George Converse, H. J. Johnson, Cecil Lewis, Farrington Lewis, Harold Lewis, Abraham Lewis, John Bond, Jarrett Bond, Arch Lee Chesher, Robert Hogan, Leon Daugherty, J. T. Rogers, Fred Sloan, Junior Hogan, E. W. Hogan, Jr. Fathers present were E. W. Hogan Sr., J. M. Daugherty, B. C. Rogers, C. D. Turcotte and Fred Sloan.

## Bonus Hearing Is To Begin Monday

WASHINGTON, March 1 (AP)—Hearings began Monday on bills to pay off the \$2,100,000,000 bonus were ordered today by the house ways and means committee.

Chairman Doughton said he expected the hearings would last "about two days." Therefore, he added, there is a possibility that some bonus payment bill will be brought to a vote in the house next week.

The committee decided upon immediate hearings, Doughton explained, because legislators are drafting the security bill while the pending social security bill estimated it would "take them several days and maybe a week" to finish drafting the measure as it was tentatively amended by the committee.

## Texas Forests in Federal Purchase

WASHINGTON, March 1 (AP)—Purchase of 310,731 acres to be added to national forests at a cost of \$1,243,845 was announced today by the National Forest Reservation commission.

Most of the land approved is cut-over forest needing management looking toward a sustained yield plan. The forest service will take over administration of the areas as soon as purchases are completed. The purchase include the following Texas tracts: San Jacinto, 23,801 acres, \$214,209; and Davie Crockett, 141 acres, \$1,027.

Mrs. Fred Gordon and Mr. and Mrs. Fred Gordon, Jr., of Miami were visitors in Pampa yesterday.

Mr. and Mrs. T. D. Hobart were in Canadian yesterday.

## SOME OF WORKERS RESPONSIBLE FOR P-TA SUCCESS

Woodrow Wilson Parent-Teacher association, a number of whose officers and members are pictured in the above group in front of the school building, is bringing to a close another year of successful work. Supt. R. B. Fisher and Mrs. Annie Daniels, Woodrow Wilson principal, are in the front row, center of the picture. Mrs. W. B. Murphy at Mrs. Daniels' right, is president of the Parent-Teacher association, as she was last year. Mrs. Claude Lard, next in the row, is president of Pampa Parent-Teacher council. The uniformed girls are junior police.

## ANOTHER TEST OF NEW DEAL IS DUE SOON

### RAILROAD PENSIONS AT ISSUE IN NEXT APPEAL

WASHINGTON, March 1 (AP)—Government lawyers prepared for another important test of new deal powers today as the capital speculated on whether the supreme court would or would not continue to uphold Roosevelt policies by a 5 to 4 margin.

The extent of congress's right to regulate commerce will be argued before the high tribunal next week in the railroad retirement pension case.

Writers of much new deal legislation, including the national recovery act, sought to base it in whole or in part on the constitutional clause empowering congress to regulate interstate commerce. Opponents of some of the new laws insist congress, exceeded the latitude granted by the constitution.

A district of Columbia court has upheld the contention of major railroads that the pension act is invalid because it applies to all employees, including those not directly engaged in interstate commerce. Solicitor General J. Crawford Biggs, on the other hand, says he is confident the supreme court will sustain his theory that the act can cover all employees even though some may not run a train across a state line.

Observers will scan the court's opinion for a definition of the latitude of the commerce clause which might be indicative in the Weirton and other NRA cases. A federal judge at Wilmington, Del., held that the Weirton Steel company could not be compelled to observe section 7-A because it was not engaged in interstate commerce.

## 'Neighbor Night' Service Planned

Sunday night has been designated as "next door neighbor" night at the First Methodist church and the pastor, Rev. Gaston Foote will speak from the subject, "What Is Your Neighbor?"

All members of the church are requested to invite their next door neighbor to attend the service with them, provided their neighbors are not regular attendants at some other church.

Sunday morning Rev. Mr. Foote will speak from the subject, "The Second Mile."

## THREE MILLION CHINESE SAID TO BE NEARING STARVATION IN WORST FAMINE OF MANY YEARS

WUHU, ANHWEI, China, March 1 (AP)—Three million inhabitants of southern Anhwei province, scattered over an area of 6,000 square miles, were reported today to be starving to death in the worst famine this section of China has experienced in recent memory.

Missionary advices received here said the death list already is appalling and growing day by day. A succession of tragic events has afflicted this same district, starting with severe political upheavals last December and climaxing with the murders of the American missionaries, Mr. and Mrs. John C. Stam, following the pillage of Tsingteh.

The famine is the result of the almost unprecedented droughts which extended over virtually all China last summer.

A harrowing description of the conditions prevailing in the southern section of the province was contained in a letter written by George Birch, China inland mission worker of New Westminster, British Columbia, to Dr. Robert Brown of Chicago, superintendent of the American Wuhu general hospital.

It was this same hospital which received little Helen Priscilla Stam, the baby, rescued from an abandoned house in Tsingteh after the abduction of her parents.

Writing from Saunchemg in the famine area, Birch said: "A terrible famine engulfs us constraining me to write you for aid. Two-thirds of this area is without food and the remainder is approaching the same condition. Deaths are heavy."

Birch said budding crops have already been eaten rendering a continued famine certain. "It is distressing to walk the streets these days," he wrote, "with misery and death everywhere."

Birch said children were being sold for one Mexican dollar each at one year of age.

"Save the children is the big need which is possible for a few dollars each if only the funds were forthcoming," his letter concluded. Dr. Brown said his hospital would contribute to the relief administration if any funds could be raised.

county for several years. There is one other point to remember: rabbits greatly enjoy the beans and will riddle a small field if not curbed. Though the oil field people keep the rabbit population in control, the animals are still a factor to consider. The beans are planted about the same time as corn and grain sorghums, but are slightly more drought resistant than these crops. We're not advocating planting of soy beans, but we'd like to start an argument on the subject.

STATISTICIANS may not always serve a useful purpose, but they discover some interesting things.

For instance, if you think the largest item in the family budget—the average family, that is—is food, or clothing, or rent, or a similar item, you're wrong. Taxes are the largest item of expense carried by the American people, by a wide margin.

Food, the most vital of all necessities, costs the nation \$7,000,000,000 a year. Clothing takes \$3,600,000,000. Rent also takes \$3,600,000,000, and automobiles dent the national pocketbook to the extent of \$2,900,000,000.

The national tax bill, by comparison, is \$9,000,000,000—a billion and a half greater than the national food bill. These figures will come as a surprise to the average citizen, who thinks only of the sums of money he spends directly in the course of day by day living. What he should realize is that taxation now represents an exorbitant part of the cost of everything.

Mrs. W. Purviance is seriously ill at her home.

## TREE PLANTING HONORS TEXAS DAY IN SCHOOL

### CAMPUS PROGRAMS IN WARD SCHOOLS ARE GIVEN TODAY

Tree planting has been chosen by ward schools here to observe Texas day. Programs are being given this week-end to celebrate the 99th anniversary of state independence, which falls on Saturday.

A Sam Houston program was presented today at the school named for that Texas patriot. Scenes from Texas history made up a pageant, and talks explained why the school was named for Houston. A tree was planted on the campus.

Woodrow Wilson school had a campus program this morning and planted two trees. These were named to honor Supt. R. B. Fisher and the president for whom the school was named. Band music and a short program of songs and readings made up the program.

Trees were planted on E. M. Baker campus yesterday afternoon. An appropriate program is being given this afternoon.

Horace Mann school is having its Texas day program this afternoon, featured by a pageant, Texas Under Six Flags, and Texas songs by first grade pupils.

The program at Sam Houston school, directed by Miss Tilde Sessions, included these scenes: Indian Life in Texas by pupils of Mrs. Peddicord and Miss Maxam; March of Emigrants to Texas, by pupils of Mrs. Bradley and Miss Chapman; The Old San Antonio

## Starts List

Not a book agent, not even a demonstrator for a new sewing machine attachment, Mrs. J. H. Blythe, shown above, will knock at all the doors in Pampa this month, and she hopes that dogs will be called in and locks will be unfastened when she comes. Mrs. Blythe today is starting her annual task of taking the school census here. The information she will gather is of much importance to Pampa schools, for full enumeration of children of school age will assure the district of the largest possible apportionment of state school funds.

Music included a harmonica solo by Loudean McKay, accordion solo by Betty Ann Culbertson, violin solo by Ray Jackson, piano solo by Clara Mae Lenny and Patsy Gault. Mrs. L. K. Stout told why the school was named for Sam Houston.

## 130 WOMEN AT ZONE MEETING HEAR PROGRAM

### METHODIST CIRCLES ENTERTAIN THE VISITORS

Lunch was served to 130 visitors when the Ruth Anderson zone of Methodist Missionary societies met at First church here yesterday. An all-day program was presented.

The program theme was Growth. Mrs. C. T. Hunkapillar presided in the absence of Mrs. W. Purviance, district secretary, who was ill. After the devotional by Mrs. W. E. Bogan of McLean, Mrs. Hunkapillar welcomed the visitors and Mrs. Litchfield of Heald responded.

Mrs. Jim Porter of Wheeler was the principal speaker. She discussed Christian social relations, stressing the opportunities and duties of women in regard to world peace and local social problems.

All circles of the Missionary society here, including the McCullough-Harrah circles, acted as hostesses for the luncheon. The afternoon program opened with a devotional service by the Rev. Mr. Jones of LeFors, whose subject was Growth of Early Christianity.

Mrs. John Skelly played an organ solo, and a clever playlet was presented by Mmes. H. E. Nicholson and D. A. Hunt of Wheeler.

A cup for the largest attendance went to the society at Alameda, a newly organized group in this zone.

Snohomish county, Wash., has an annual rainfall of 160 inches.

## DRASTIC TAXATION HAS REBOUNDED

Texans have long felt that they were not getting a fair tax return from the huge sulphur industry, which was located almost exclusively in Texas. The industry certainly paid no such tax as the petroleum industry pays.

So, in 1931, the tax on sulphur was upped from 60 cents a ton to 75 cents. To the average citizen, this seemed only fair and not exorbitant. In 1931, the sulphur tax produced \$1,300,000. The next year, following the hike in the tax, the income was only \$435,000. The sulphur industry went over to Louisiana and doubtless was assured that that state would not place such a big tax. Accordingly, the industry built a \$14,000,000 plant in Louisiana.

Louisiana may have learned a lesson in taxing the carbon black industry out of the state. Senator Huey Long learned that, if he twisted the tail of the big oil companies, they could buy their oil in East Texas and starve the home industry. Actually, they began that habit when hot oil began to flow in East Texas.

We are not citing these as examples of right and justice, but as inevitable possibilities as long as this country is cut up into widely divergent states. . . . Either the states must through cooperation achieve more cooperation or the lines will be abolished. The same thing holds true for local units of government, of which we have far too many and too many that are non-cooperating.

## THE NEW DEAL IN WASHINGTON

BY RODNEY DUTCHER

NEA Service Staff Correspondent

WASHINGTON.—The Democratic congressman who gets a nice bright gold star for party regularity on his report card at the end of this session will be qualifying for the rara avis cage at the National Zoo.

Nearly everyone, especially in the Senate, belongs to some one of many groups opposed to the president on one issue or another.

If the groups ever get together on a single vote it would be just too bad for the administration. But they won't and probably can't, except on the bonus or perhaps partially on a labor issue.

Just the same, it's tough on F. D., who has had to do more personal lobbying than at any time before.

Strong personal economic convictions, group pressure from outside, hope of holding the administration up for patronage, and plain soreness at what is sometimes called White House high-handedness are chief factors motivating members of various blocs.

Mr. Roosevelt's well-known penchant for zigzagging from right to left and vice versa has acquired the speed of a fast game of shuttlecock.

That makes the senators dash in and out of the administration lines so often and rapidly that some of them, as well as most of the spectators, have gone dizzy.

Even new House members, about 100 of them, have formed a club and whisper boldly that they're "not rubber stamps."

It's important to remember, however, that "right" and "left" groups can fuse with the "center" easier than with each other. "Prevailing wage" advocates in the work relief fight would rather vote for Roosevelt's \$50 a month subsistence wage than a smaller cash dole and the cash dolers prefer the Roosevelt plan to anything more liberal.

NRA codes classify Washington as a southern city of less than 500,000 population and the local central labor union is sore on both counts. It demands classification of the capital as a northern city of 650,000 population on account of the suburbs and the New Deal influx—which would mean higher code wages. . . . Chief Justice Hughes put on his top hat after a big day's work and went to see "The Gondoliers," Gilbert and Sullivan. As he left the theater, a newsboy waved a paper under his nose and hollered "All about the big gold case!" Hughes smiled and clambered into his car.

One of the social lionesses gave a birthday party for Michael MacWhite, minister of the Irish Free State, and told her chef to fix up a swell cake. He did. The cake reached the table with a green inscription on the white icing as follows: "Happy Birthday—to the Minister of the Irish Sweepstakes." . . . Our thanks to Postmaster General Jim Farley, who has a substitute for the expression "off the record," which a correspondent hears in every other office in Washington. Farley says: "Dead in this room." . . . The Canadian legation has been going in for "brain trusters" ever since Premier Bennett decided to ballyhoo a "New Deal" for Canada, Minister Herridge is a brother-in-law of Bennett's and he has been pumping Secretary Wallace, Undersecretary Tugwell, Leon Henderson of NRA, and many others, to pass tips on to Ottawa.

It seems that almost all the naval authorities, who will never have to ride in a dirigible, are certain that dirigibles are safe.

Tennessee keeps on insisting by law that we can't be descended from monkeys, but some people in Louisiana are beginning to doubt this.

Indiana has almost decided to award a medal to a jailer in one of its cities. He checked over his prisoners the other morning and found that none of them had walked out during the night.

Some people always spoil things by trying to be different. A woman in Alabama is 106 years old and she didn't celebrate her birthday by taking her first plane ride and she can't read fine print without glasses.

The fact that the Hauptmann jurors came to a decision so quickly doesn't speak well for the hamburgers prepared for them by the jail warden's wife.

As soon as John D. Rockefeller hears that Andrew Mellon has a personal fortune of only \$95,000,000 John D. might offer Andrew a dime, if that will help.

Some of these share-the-wealth advocates might benefit by a little advice from Al Capone. He tried it and got 11 years.

Now that the Hauptmann case is over, there's a chance that the war in the Gran Chaco will be finished, too.

## Dusting The Covers Of Texas History For THE TEXAS CENTENNIAL CELEBRATION OF 1936

"Turn back! The Texans have whipped the Mexican army and the Mexicans are prisoners! No danger! No danger!" The courier waved his hat and hands in the air as he brought the joyful news to the runaways. The people could scarcely believe their ears. Danger over? Impossible! Yesterday they had heard the cannon shots in the direction of San Jacinto, and they knew their kinsmen were still fighting. But, the courier was telling the truth. The battle of San Jacinto had been fought—and won by the Texans. Families could return to their homes now, and start building anew from the ruins of war.

Carts and wagons turned in the trail and began the homeward journey. Over bays, down muddy roads, they slowly traveled. They passed Lynchburg, and came to the San Jacinto battlefield. Bodies of Mexicans were carried from the road. A gruesome sight was the many bodies lying around.

Writing her "Reminiscences," Mrs. Dilue Harris says that she and her sister were permitted to visit the battlefield and see some of the soldiers whom they knew. Mrs. Harris, then 11 years old, had lost her sunbonnet in the Trinity river, and would not think of going anywhere without something on her head. Her desire to go was so keen that she tied a table cloth over her head and went along with her sister.

"We could hear nothing but sad news," Mrs. Harris said. "San Felipe had been burned and dear old Harrisburg was in ashes. There was nothing left of the Stafford plantation but a crib with a thousand bushels of corn. The Mexicans turned the houses at the Point into a hospital."

Stafford's Point, a sort of little village-plantation, had been a main supply source for the people. It would take many months to rebuild the saw mill, sugar mill, cotton gin, grist mill, blacksmith shop, and the homes and negro quarters that had been burned.

In 1936 when Texas celebrates its Centennial, a multitude of tourists also will visit this battlefield, near Houston, which today is beautified into a state park.

## CAPITOL CHATTER

BY CHARLES E. SIMONS

AUSTIN, March 1. (AP)—Liquor questions which slumbered peacefully through the first six weeks of the regular session will come to the front in the Texas legislature next week when a house committee holds a public hearing on a resolution to submit repeal of constitutional prohibition.

Thus far there has been little agitation for or against what is regarded as one of the most controversial issues to confront the lawmakers. A few anti-prohibitionists became concerned at the delay and sought reasons therefor. They found the realists were holding off until they could work out a plan they believed would be suitable to a majority of the electorate and to determine if it would be best to submit a control bill with the constitutional amendment.

Although no definite decision has been reached, it is reported that friends of repeal tentatively have decided to submit the constitutional amendment on its merit, following submission with passage of a law that would become effective if, and when the amendment was adopted. The amendment would be submitted at a special election to be held possibly the last Saturday in August.

A similar procedure was followed by the last legislature submitting liberalization of the prohibition section to permit manufacture and sale of beer. The beer law became operative automatically after the amendment was approved.

Fear that submission of a control bill with the amendment might bind the legislature too tightly was purportedly the basis of the decision to let each stand alone.

Realists, however, recognize that chances for adoption of the amendment would be greatly enhanced if a strong control measure was assured in advance of the election. They figured a majority of the electorate would be unwilling to turn prohibition out of the fundamental law until they were informed on what would take its place.

While neither side of the prohibition problem has been vocal the prohibitionists are sure to demand that strict safeguards be thrown about the liquor traffic in event it is again legalized.

Tests made by the North Carolina department of agriculture show certain grades of cheap fertilizer contains 1,800 pounds of ordinary sand and only 320 pounds of plant food per ton.

Laxative So Many Like  
Old folks, young folks—thousands of them say they prefer Theodor's Black-Draught when they need a laxative. It does its work so well.

"I have used Theodor's Black-Draught in my family since 1885," writes Mr. Henson Temple, Smithdale, Miss. "We do not feel like we could keep house without Black-Draught. We are quite a good ways from town, and a good, simple medicine, like Black-Draught, is good to have on hand. All these years I have never changed because it gave satisfaction."
