ay, child," Miss Myra's voice grew AT that moment Betsy Sharpe interrupted her Aunt Myra, just as the tall angular woman was about to say that Roger Blessen, Betsy's fiance no less, was insane.

"You always been able to get rid of my boy friends, haven't you, Aunt Myra?" Betsy asked.

Maybe Myra Sharpe had been so used to having Betsy do exactly as she had expected Betsy to do that the words took her by surprise. But I could feel something for all the things I did was for your own good. Yes, I wanted you to give up Roger. I know you would soon forget him. But if you go shead and merry him, you'll regret it. You'll never be safe with him, Betsy. He should go back to the hospital where doctors may be able to do something for his mental condition." DANGER. It's real enough that over 20 state legislatures have thus far been stampeded into endorsing world government. They've been bombarded with letters and telegrams, causing them to believe a large segment of their active constituents wanted them to take such action. In fact a tiny but very active minority has brought all this about. I have the case of one woman living in Palm Springs, California, who sent out scores of letters and telegrams under phony names asking legislators to support world federalism. Multiply her activities by several thousand and you can guess how much mail lawmakers have been getting.

For the benefit of our awakened friends who think there is something new about tthis one-world business, I should like to give you some of its background. Once you know its history things begin to add up and you get a picture America. If you think some of our previous columns on world government have been a bit fantastic, after getting the history of this federalist you will agree that what I have said heretofore has been a masterpeice of understatement. The year 1902 saw the passing

of Rt. Hon. Cecil John Rhodes from our midst, but not his influence. Today we are reaping the whirlwind of that influence. The Rt. Hon. Mr. Rhodes was Britain's greatest industrialist and

Hon, Mr. Rhodes.

As is often the case with men who have conquered everything in sight and decide to take a rest, Mr. Rhodes, by some strange phychological process, decided he wanted world peace and began pouring out money for that purpose. His idea, of course, was that world peace would have to be maintained by force. Having already, helped bring most of the world into the British empire, he saw no reason the United States should not also be brought into proposed reforms at home. it. WRITTEN FOR NEA By EDWIN J. JORDAN, MD.

It is not surprising that people generally are quite confused about cortisone and ACTH since the medical profes-

sion itself has a hard time keep-ing up with the developments made on these two substances. It must be realized that hundreds of research

workers are investigating the properties and actions of these two exciting preparations, and although many facts have been uncovered about them, there is still a great deal which no one knows as yet. There are two tiny glands of

internal secretion lying next to the two kidneys which are called the adrenal glands. These glands manufacture a number of chemical substances or hormones which exert an enormous effect on the various functions of the body. One of these hormones, which has been obtained in pure form, has been

named cortisone.

Another tiny internal secretion gland lies in the brain and is called the pituitary. From this gland another chemical substance, called ACTH (adreno corticotrophic hormone), has been obtained. From the information so far available it appears that ACTH stimulates the adrenal glands to produce more cortisone. For this reason the action of both substances in the human body is somewhat similar, though there are differences.

Both cortisone and ACTH when given to human beings exert profound effects on various functions, and influence several diseases favorably or unfavorably. Both cause a dramatic improvement in rheumatoid arthritis, though the results have so far not proved lasting in most cases. Both cause the rapid disappearance of most of the symptoms of acute rheumatic fever, though their final effect in protecting the heart from the damaging effects of this disease will take a long time to determine. Cortisone and ACTH appear to be useful in a number of other diseases, such as lupus erythematosus, certain inflammatory diseases of the eye, and a number of other common and uncommon disorders of human beings.

> department ("sabotage" of foreign relations); or Sen. Jenner for spreading on the record Gen. Marshall's record of inadequacy and double dealing ("sabotage" of the defense department). We agree with Mr. Truman

when he says that the new law will accomplish little. This is not because it provisions, aside from the concentration camp section, might not be serviceable in willing hands, but because Mr. Truman won't use his new powers any more effectively than he has used those which he says he already has. His record makes that clear.

Take Off Ugly Fat With This Home Recipe

Here is an inexpensive home recipe for taking off ungainly weight and helping to bring back alluring curves and graceful slenderness. Just get from your druggist, four ounces of liquid Barcentrate. Add enough grapefruit juice to make a pint. Then just take two tablespoonsful twice a day. Wenderful results may be obtained quickly. Now you may slim down your figure and lose pounds of ugly fat without back breaking exercise or starvation diet. It's easy to make and easy to take. Contains nothing harmful. If the very first bottle doesn't show you the simple, easy way to lose bulky weight and help regain slender, more graceful curves, return the empty bottle and get your money back.

Don't Be Satisfied With Symptomatic Relief! It's Possible to

when due to lack of Vitamins B1, B2, Iron and Niacin in the system!

Just a Few of Thousands of Folks

With Such Deficiencies Who

A Marked Improvement Is Often Noticed Within a Few Days

If you've been suffering from cruel, stabbing aches and pains due to lack of Vitamins B1, B2, Iron and Niacin in your system—there's no need for you to be satisfied with symptomatic relief. Thanks to HADACOL it's possible to relieve the REAL and underlying cause of such distress due to these deficiencies. AND JUST LISTEN TO THIS! Continued use of this great HADA-COL helps prevent such miserable aches and pains from coming back! It sounds almost too good to be true, doesn't it? BUT IT IS TRUE and here is why . . .

How HADACOL Works

HADACOL not only supplies weak, deficient systems with extra quantities of Vitamins B₁, B₂, Iron and Niacin but also beneficial amounts of precious Calcium and Phosphorus-elements so vital to help maintain good health and to guard against such deficiency ailments.

Many people with such deficiencies—who have waited and hoped for relief for some time-are now able to live happy and comfortable lives again, thanks to HADACOL. A big improvement is often noticed within a few days' time.

You start getting that wonderful, wonderful HADACOL feeling everyone is talking about and you'll want to keep it. And chances are you will if you just take HADACOL faithfully.

Be Fair to Yourself

If you've been suffering pain in your arms, shoulders, legs, back or hands (due to deficiencies of Vitamins B_1 , B_2 , Iron and Niacin) you owe it to yourself to give HADACOL a fair and honest trial. Be fair to yourself! Why suffer so and be such a burden to yourself and family-when relief is at hand right at your drugstore.

Remember, HADACOL is not a quick-acting pill which gives symptomatic relief. HADACOL actually relieves the REAL cause of nagging aches and pains when due to such deficiencies. A trial-size bottle costs only
