sive home-planning service Top o' Texas Realty Insurance to serve prospective home builders of Pampa and the surrounding area, has been announced by H. T. Hampton, who emphasized that the service has been set up with the needs of the individual home builder in mind.

At the office of Top o' Texas Realty and Insurance, Room 10, Duncan Bldg., is a complete library of dwelling plans, ranging from vacation cabins to the most advanced solar-type structures. Actually over a thousand designs are offered, but several basic requirements have controlled the planning of each.

For the most part traditional architectural styles have been maintained in developing the best in modern construction methods in the homes shown. and all have been individually designed for better living and practical economy by registered architects specializing in residential planning. There is an illustration of every house listed, together with floor plans, and in most in stances there are suggestions relative to materials for exterior construction.

Modular houses have been given special recognition and all plans are designed to meet FHA requirements. Hampton observed that anyone should be able to choose wisely from the varied ollection of home plans offered in the library.

Complementing the library feature offered by Top o' Realty and Insurance, is a "direct-by-mail" supplement service to builders furnished by a naional home planning institution. The supplement consists of planning kit, including a moag important building aids, miniature library of the type and size home in which the spective builder is interested and illustrations and floor plans of the particular design he may have selected. MINNEAPOLIS - Run - down homes, disorder and improper equipment were the prime mechanical forces that accounted for the 30,500 killed and 4,500,000 injured in home accidents last year, according to national statistic

Hazardous conditions existing in 51 percent of the nation's 43,000,000 homes that are 30 or more years old may aggravate the tragic toll this year, John E. Haines, vice-president of the Minneapolis - Honeywell Regulator Company, warned homeowners, Falls, burns, explosions and fires — common to over - age homes in need of repair or mod-ernization — were the most frequent types of accidents, he said, after studying a report of the national accident fatality toll.

Defective home heating equipment was seen as a double menace by the nationally known heating authority since it causes an average of 49,000 home fires annually resulting in heavy property damage and deaths. He advised homeowners to use the summer months when the heating system is inactive to check, repair and condition furnaces, chimneys and is divorcing Joe Cohen, a New flues. Braves Win 13-Inning Game; Lamesa Slugs Oilers Second Straight, 7-1

The pesky Lamesa Lobos, evidently not content with their third place standing in the West Texas-New Mexico League, moved another game toward the runner-up spot yesterday afternoon when they captured the second straight of a three-game series from the Pampa Oilers, 7-1, in Oiler Park.

. MANAGING a spare-time newspaper route is an experience which no really ambitious boy should miss. Leaders in every walk of life will tell you that along with a lad's training in home, school and church, it is a powerful force for developing basic qualities of success and good citizenship.

In a newspaper route, a teen-ager finds the ideal outlet for his constructive energies-with liberal rewards for a few hours' pleasant work each week. The extra money comes in handy for clothes, sports, hobbies, good times and SAVINGS!

Route work also teaches him modern methods of delivery, collection and selling-under an able business adviser. It teams him up with the most enterpresing young men in town-trains him to meet people, win friends and cultivate manly habits. What's more, it offers him many special incentives to succeed, both as a carriersalesman and as a useful young American.

AP Newsteatures Writer DAVID TAYLOR MARKE One thing that has helped parnts and children perhaps more than any other is giving a child the kind of time ne really needs. Time when he is the center of things. Time when you and he are alone together and when ere is chance for intimate talk

This is the time, says Dorothy W. Baruch, psychologist and consultant in child guidance, when many things can be done to bring out the "bad" feelings in acceptable ways.
"When this time is arranged

and set see that a child can count on it, he doesn't have to grab so much time and attention during other parts of the day," she writes in "How To Discipline Your Children," a pamphlet of Public Affairs Committee (New York, 20 cents). As examples Dr. Baruch cited

THE INFILTRATION DANGER

One of the ever-present dangers to American freedom is the mistaken belief among so many of our people that our freedom-giving institutions are too strong to become critically affected by infiltration of a few Communists or Socialists. The facts of history and our public laws. For ample, a common provision provides that whoever shall disclose to any person outside the union any secret of the union, shall be fined, suspended or expelled. The severity varies from one by Bridges. Bridges could gain any real crippling control over our institutions.

But actually that is one of the basic secrets of the radical zealots-small and relatively unnoticed in number, cunning in strategies, powerful in influence. The public is lulled into a false sense of security; and then one day the people awake to find their national institutions controlled by the once insignificant little handful. A reading of the classics of Communism or a study of the steps to power engineered by the English Fabian Socialists clearly shows that by their own designs these destroyers of individual freedom are never more than a handful compared to the population of the nations they sa-

THE CZECH DOWNFALL

Czechoslovakia is the classic example of the Communist technique of conquering through infiltration. The Russian-controlled Czech Commies poisoned President Eduard Benes' mind with the idea that a Socialist economic system could be operated within the framework of Czechoslovakia's freedom-giving national government. He helped establish "democratic Socialism" in his nation. The Moscow trained "Socialists" helped operate it. And a Communist cell infiltrated every Czech institution, gained powerful influence. One day they took absolute control and the people were powerless to resist.

The coming to power of the Fabian Socialists in Great Britain is still a better awakener for the millions of Americans who are so reluctant to be forewarned, "It could happen here!" Dr. Christopher Daniels, the distinguished British physician and business man now lecturing in America, makes the following provocative statement: "Any movement that can overwhelm England is capable of overwhelming any other nation in the world today,"

NEVER MENTIONED "SOCIALISM"

Of the 390 Socialist members in Parliament, 230 were members of the Fabian Society and 41 Fabians were in the Cabinet.

The counterpart of England's Fabian Society is now operating in America. There can be no question about the similarity of some of our "step by step" congressional measures and proposals and the ones which became the entering wedges for conversion Britain into a third rate, Socialist state. -why wouldn't housewives be interested? Sprangler went to see W. H Hoover, a harness maker, and

told him his idea. Together they began to experiment on a small, simple machine that could be used in homes. Out of these experiments came the Hoover Vacuum Cleaner.

That is only half the story. Hoover didn't say to himself-"I've got a goldmine" and sit back and wait for the world to come to him. Instead, he began to train salesmen on the art of selling the new device to housewives. Humanity always has to be sold anything new-no matter how good it is.

Nor was Hoover content to sit back and rest on his laurels as soon as he had a model that would work. A ceaseless and continuous research has gone on ever since to ma'e the machine ever better and better. BY HERSCHBERGER **Fight Looming** For Votes in South Carolina

COLUMBIA, S. C. - (P) A State's Rights champion openly snubbed by President Truman will try to unseat Sen. Olin D. Johnston in Tuesday's Democratic primary in South Carolina. And James F. Byrnes seeks a political comeback in the governor's race. Gov. J. Strom Thurmonds the 1948 State's Rights presidential candidate, vigorously denounced Johnston's record during a heated county-to-county eampaign tour. Both candidates spoke from the same platform and charges of "liar" were hurled. Fists were shaken in each

otner's face. Byrnes' three opponents heaped criticism upon the former secretary of state and Supreme Court justice. He ignored them and ran upon his record. The three are Thomas H. Pope of Newberry, speaker of state house of representatives; Lester L. Bates of Columbia, insurance executive: and Marcus A. Stone of Florence

and Dillon, a lumberman.
Party voters in this overwhelmingly Democratic state also will nominate four U. S. representatives, four state constitutional officers and scores of lesser office

holders. An estimated 500,000 voters are registered - about 73,000 of them Negroes. State Democratic DAYTON. Tenn. - (P) - The more than \$50 in a misdemeanor Chairman W. P. Baskin predicts
