Armored Equipment Goes to Front

LIGHTHOUSE BURNS—A Canadian lighthouse about 10 miles east of Pelee Island in Lake Erie is shown as it was burning following an explosion of undetermined origin. A column of smoke rises from the white structure, completely surrounded by water. The Coast Guard at Toledo, Ohio, reported that two men were injured in the blast and were removed to Leamington, Ont. (AP Wirephoto)

Army Takes Over Rock Island Line

CHICAGO (AP)—The Army seized the Rock Island Railroad yesterday on orders of President Truman and a few hours later the first freight trains were operating. Striking switchmen were not involved in the train movements—first since the strike started 14 days ago.

Services Call For Volunteers

WASHINGTON (AP)—The Army and Navy urged their reservists yesterday to volunteer immediately for extended active service, especially those who are highly skilled in modern warfare.

The two services issued simultaneous statements asking members of the reserve to get back into uniform. The Army said enlisted reservists who volunteer will serve for a minimum of one year or for such longer period as may be required. The Navy set a six-month minimum but said volunteers could be guaranteed 12 months of active duty if they wanted it.

The Army announcement, while aimed specifically at enlisted reservists, called on medical reserve officers to "apply without delay" for active duty. The announcement added that "a volunteer recall program for a limited number of reserve officers will be announced shortly."

Army reservists will be recalled in their reserve ranks. The statement said these specialists are "most urgently needed" in radar, radio, tank and anti-aircraft artillery mechanics, electronics, heavy equipment operators, cryptograph technicians and engineer construction specialists.

The Navy said it needs these enlisted men and chief petty officers, sonar men, radar men, fire control men, electronics technicians, air control men, mine men, communications technicians and yeomen and photographers mates.

The sea arm also called for both aviation and non-aviation fliers below the rank of captain, as well as for officers in the supply, dental and civil engineer corps. It also is seeking commissioned medical reserve volunteers in the rank of commander and below plus a limited number in electronics, intelligence and communications.

The Air Force had announced previously its need for skilled reserve specialists, with enlisted reservists eligible for one, three, four or six year tours, or, in definite cases, for one year.

Red 'Peace' Feeler Reported as U. S. Raises MacArthur

WASHINGTON (AP)—President Truman yesterday named General Douglas MacArthur to the unprecedented post of supreme commander for United Nations forces fighting the Communists in Korea. The general was directed by the blue and white U. N. flag.

The action coincided with reports from Europe that Russia may be interested in trying to end the Korean clash, on condition that control your daily life. We'll go in the front door and open the record books and we'll let the truth shine on what's being done in your government.

Then he took his dig at the "influence" saying: "There has been a lot said in this campaign about some of the candidates having influence and know-how in Washington. That has been bragged about as a qualification for the office of congressman. In my opinion it is a disqualification for any public office holder. No American citizen is required to depend upon knowing somebody some trick or some influence in order to receive fair and honest treatment from the government."

He needed Mrs. Clark again by suggesting that "Maybe the candidate and the boys who are putting up the money will explain to the people what was being done with that influence know-how while our government benefits and burials were becoming infested with Communists or fellow-travelers. What was being done with influence and know-how when the people were being saddled with a public debt that staggers the imagination? What was being done with the influence and know-how when

It comes from a hardware store, we have it. Lewis How.

ON KOREAN FRONT LINE—Two unidentified U. S. soldiers load an anti-tank weapon as American continue action against the North Korean Communists somewhere in the front line. This picture was made by Associated Press Staff Photographer Charles Gorry. (AP Wirephoto)

4 CONVICTS TRY USING GOVERNOR AS HOSTAGE

MAQUETTE, Mich. (AP)—Four hardened convicts tried to use Gov. C. Meinen Williams as a hostage in a daring break from Marquette State Prison but were foiled by quick action of prison officials.

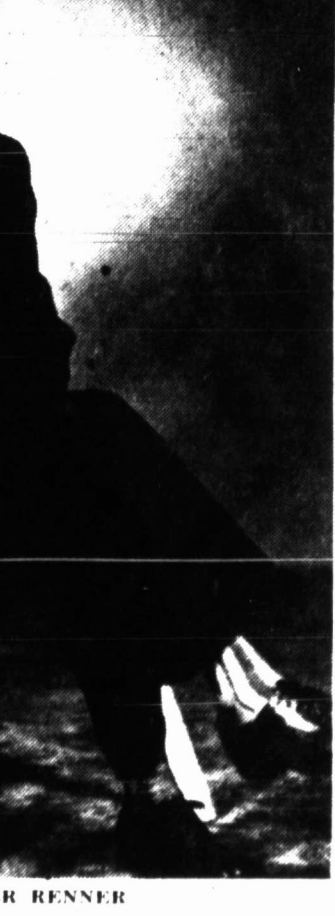

The governor was injured with a butcher knife but escaped unharmed. He was on a brief inspection visit to the prison.

State police Sgt. George Kerr, William Edgeward, suffered two minor stab wounds as he helped to aid the governor.

Kerr drew his gun and fired at the convict, Ralph Stearns, a convicted murderer from Detroit who held the knife. Stearns was wounded but not seriously.

Suicide Is Blamed On Draft Broadcasts

WESTMINSTER, Mass. (AP)—Nineteen-year-old Joseph L. Gaither, only four months out of the Air Force, spent Friday night listening to radio reports on the draft, then went to his bedroom and committed suicide with a pistol. Police Chief Tony Thompson said.

ADAM MILLER RENNER

Old-Timer Adam M. Renner Nears 98—Shoots for 100

MIAMI (Special)—Adam M. Renner will be 98 Tuesday, but he's already looking forward to that century mark. The good-natured Tennessee native was no youngster when he came to the Pampa home in 1906, but he is one of the few who have seen the area become one of the choice living spots of the state.

Few, too, can claim having lived in the State of Texas for 50 years. Mr. Renner came to the Pampa Star State when he was 10 years old, just four years after the end of Texas' decade as a republic.

Expansion Program Set for Schneider

An expansion and remodeling program costing approximately \$200,000 was announced yesterday for the Schneider Hotel in Pampa following completion of the hotel's sale to two Texas and Colorado cattlemen.

C. H. Weaver, La Junta, Colo., and Henry B. Casler, Amarillo, La Junta, completed the purchase of the property, and that Lester Speer would continue as manager.

The new owners, in announcing the purchase, said the hotel would continue to be operated by Southern Hotels, which has leased the property, and that the original building will be remodeled.

The annex, situated opposite the main building on 13th st., was constructed by such a man that the new owners will be obliged to see whether it could be done in another form of expansion undertaking.

At present, the hotel is being made up by Walter Jackson, general manager, and Lester Speer, general manager.

The announcement of the sale and expansion program came on the heels of a recent action by a board of commerce committee, headed by Lester Speer, to study the city's public improvement program.

The committee's public improvement program, which would include a new hotel group, would include a new hotel group, would include a new hotel group, would include a new hotel group.

Army Sending 'Important' Aid to Battle

TOKYO, Sunday (AP)—American armor is moving up "with important reinforcements" to the Chonan sector on the Korean western front but the Reds are still pushing south after capturing Chonan.

So far there have been no reports of the U. S. armor engaging the south-bound Communists, who had forced an American advance unit into hasty retreat.

An Army spokesman announced that American mechanized equipment had started forward.

Small American advance units ran into a North Korean pocket at Chonan and fell back late Friday and Saturday, leaving some wounded behind them.

The spokesman said no American units now are north of Chonan, 60 miles south of Seoul.

South Koreans on the American right flank were victorious in two engagements against the enemy, the spokesman said. He did not indicate the scale of the fighting, nor locate its position.

A lone North Korean plane flew deep into southern territory to drop eight bombs on Taegu, the spokesman said. Five of them were dud. Taegu is an important rail and communication center 70 miles southeast of Taejeon.

It was the first Red aircraft report in action in the past two and one-half days.

General MacArthur's communique, issued just before midnight Saturday, recorded an ominous buildup of North Korean invader troops and armor a farther back. The Reds were paced by 80 to 100 tanks.

American troops at the front, in light strength, about 40 miles south of Seoul, were setting up successive delaying positions, an Army spokesman said.

No major unit of the U. S. Army has been thrown into the fight.

The spokesman explained a major unit as larger than a battalion of 1,000 men.

The renewed Red push forced Americans to fall back rapidly from Chonan, 35 miles north of Taejeon.

Field headquarters reported 17 more North Korean tanks destroyed by South Korean and American forces. Dispositions of American tank losses at about 10, but there was no official basis for the count.

General MacArthur told of spotting 40 to 50 North Korean tanks (See ALMORÉD, Page 10)

Army Clamps Tight Restrictions on Many 'War' Plants

WASHINGTON (AP)—The Army clamped down yesterday on information about the future status of plants that might quickly be converted to production of military material, such information is now classified.

The term "classified" means that information is grouped in one of several categories, all of varying degrees of secrecy, but none of which permits public release.

Disclosure that the future status of many hundreds of manufacturing plants, some of which now are on an inactive basis, is "classified" came in response to inquiries about plans for the Longhorn Ordnance plant in Texas. The Army declined any information on the Longhorn plant.

Information on movements of troops, ships and a number of other military matters long has been on a "classified" basis. For example, such information such as movement and speed of planes never has been removed from the "classified" group since security bans were imposed during World War II.

AltaVene Clark's 'Influence' Claims Attacked by Rogers

By HENRY S. GORDON

The congressional race has at last fixed up.

At least between two major candidates, Walter E. Rogers and AltaVene Clark.

Rogers finally put the woman from Washington on the defensive, but a counter-attack flung by her only retitled the Pampa attorney's ammunition supply.

In his fourth weekly radio roundtable Friday night, Rogers opened a counter-offensive by "gladly pleading guilty to a charge of being a prosecuting attorney," saying what the country needed was more prosecuting attorneys in Congress who "know how to dig out the facts and truth concerning our government and its operation."

In a previous broadcast, Mrs. Clark deplored the fact that "there are too many attorneys in Congress now," but overlooked mentioning the fact that all of her 17 sons are attorneys.

"Pampa," the article stated, "has long invited industry to hang its hat on the Top o' Texas. . . and Texas Industrial Week was a welcome opportunity to salute the city's burgeoning industrial plants."

It was pointed out that members of the manufacturing development committee of the chamber of commerce had a four-phase program for the observance of the city's industrial plants.

"All in all," the article continued, "the Pampa observance was one worthy of the highest commendation."

"Next year," it concluded, "during the observance of the city's industrial plants, we will have a lot to say about the influence of the Pampa Chamber of Commerce."

Then he took his dig at the "influence" saying: "There has been a lot said in this campaign about some of the candidates having influence and know-how in Washington. That has been bragged about as a qualification for the office of congressman. In my opinion it is a disqualification for any public office holder. No American citizen is required to depend upon knowing somebody some trick or some influence in order to receive fair and honest treatment from the government."

He needed Mrs. Clark again by suggesting that "Maybe the candidate and the boys who are putting up the money will explain to the people what was being done with that influence know-how while our government benefits and burials were becoming infested with Communists or fellow-travelers. What was being done with influence and know-how when the people were being saddled with a public debt that staggers the imagination? What was being done with the influence and know-how when

It comes from a hardware store, we have it. Lewis How.

MIAMI (Special)—Adam M. Renner will be 98 Tuesday, but he's already looking forward to that century mark.

The good-natured Tennessee native was no youngster when he came to the Pampa home in 1906, but he is one of the few who have seen the area become one of the choice living spots of the state.

Hwy. 60 Users To Determine Route Choice

Harry O. Glasser, president of the U.S. 60 National Highway Association, has stated that he will leave the choice of an alternate routing of U.S. 60 in Oklahoma to the transcontinental users of the highway.

Glasser stated in a letter to all the chambers of commerce in cities and towns located on U.S. 60, that he will have nothing further to do with alternate or other markers in this area while he is finishing out his last year as president of the association.

In speaking of the proposed alternate routing of U.S. 60 through Shattuck, Gage, and Woodward, Okla., Glasser said "I intend to do everything possible to get both roads improved with the best possible black top at the earliest possible dates, and the transcontinental users of U.S. 60 will very quickly determine which route is preferable and will use the route or such choice accordingly."

"As soon as the two roads are completed," Glasser continued, "Rand McNally, AAA, Chicago Motor Club, Esso, Conoco, Magnolia, and other National Travel Agencies will tell the public which of the two routes has the better road bed alignment, the fewer traffic hazards, and the more desirable eating and overnight stopping accommodations."

The present route of U.S. Highway 60 goes through Arnett, Vici, and Fairview. The proposed alternate route would join the present highway at Orienta, Okla.

The proposed alternate route was discussed early in May at a meeting of the Highway 60 Association in Ponca City, Okla.

ROOT CARVER — School teacher Hugh J. Dorsett, of Jacksonville, Fla., who spends leisure time carving cypress tree roots into weird primitive heads, is shown at work on his hobby.

Wounded Mexican Charged in Deaths

REYNOSA, Mexico — (AP) — A wounded Mexican is charged here with the knife-slaying of three sleeping men in a cotton field south of Donna, Texas.

Assistant Police Chief Gustavo Villarreal identified the man as Jose Contreras, 31. He said Contreras was shot twice by Rio Bravo Police Chief Gregorie Garcia when he resisted arrest Thursday.

Villarreal said a group of men were sleeping in the cotton field when one of their number suddenly got up and began attacking his companions with a 12-inch knife.

Crater Lake, Ore., which is an unusual sapphire blue, lies in what was once a gigantic volcano and is 2,000 feet deep.

Had the route been approved, the final decision would have been left up to the Oklahoma State Highway Commission, Glasser concluded.

Blast Wrecks Dallas House

DALLAS — (AP) — A dynamite blast wrecked a frame house in South Dallas Friday night — the fourth time since February that a charge has damaged a house in an area of racial tension.

No one was injured. The neighborhood is one in which Negroes have begun to move into houses formerly occupied by whites.

A white family moved from the house June 5, and a sign was placed in the yard advertising the place for sale.

Police said the damage was heavier than in any of the other bombing incidents.

The last previous bombing occurred June 2. Since that time the neighborhood has been heavily patrolled.

First Purple Heart Received by Texan

TOKYO — (AP) — A 22-year-old Alice, Texas, sergeant yesterday received the first Purple Heart of the Korea war.

The medal was pinned on the hospital tunic of Sgt. Leroy Deans by Maj. Gen. Edgar Erskine Hume, chief surgeon of the Far East command, himself a thrice-wounded veteran.

Deans was wounded in the eye when a Han River bridge was blown up south of Seoul June 28. His citation said "as the direct result of an act of an enemy of the United States."

LAUGH THAT OFF

CHICAGO — (AP) — Just for laughs, George Switak, 17, joined a cooking class at the Carter H. Harrison Technical High School. The funny part about it was that he earned an "E" — for excellent.

'Get Tough' Plan Pays in Detroit

DETROIT — (AP) — If figures count for anything, Detroit's crackdown on speeding drivers is paying off.

In 60 days of a "get tough" policy 800 persons have been sent to jail.

Over the same period 23 persons were killed in traffic as compared to 34 for the previous 60 days.

"It looks good to me," said Traffic Judge John D. Watts. "But give us another six months and we'll really show some results."

The National Geographic Society says the skirt of the Greek national costume takes 40 yards of material.

Lowest one round score ever posted in the U. S. Open golf championship was the 64 shot by Lee Mackey, Jr., this spring.

Twelve pitchers have won 300 or more major league games in their careers.

Penn. State's baseball captain-elect is outfielder Bill Ondick of Muncie, Pa.

New School of Music Trains Chief, Two Firemen Musicians for Symphonies

By HILLEE WHEELOCK
PHILADELPHIA —(AP)—Symphony orchestra directors long have been uneasy about the diminishing number of well-trained string instrument players. In Philadelphia the New School of Music is striving to bolster the ranks. The project is no small one. There are 200 professional symphony orchestras in America, including 20 major ones. Each orchestra averages about 100 players, more than two-thirds of whom are string instrumentalists—violinists, cellists, viola and bass players. To fill the brass, woodwind and percussion sections is a simple matter—a few additions and the seat is filled. But Max Aronoff, founder of the New School of Music and himself one of the foremost viola players, cited the predicament of the director in a city which supports a major symphony orchestra. The director wanted one violinist. He had 1,500 violinists in the area from whom to choose. But not a single man could be found whom the director felt qualified to fill the post. Conductor Dimitri Mitropoulos sighed after a similar experience. "I had to take the less worse of all of them who didn't even know how to play their instruments!" Aronoff said part of the trouble begins with the aspiring musician. If he chooses a string instrument he sets out with eyes on the concert stage as a soloist. Only a handful make the grade. But more often Aronoff continued, he picks the trumpet or the clarinet over the fiddle. The training period is shorter, pay is higher on the average and opportunities to play in dance bands and radio orchestras are more plentiful. Symphony orchestras, Aronoff said, don't actually need a player of pronounced artistic individuality and temperament. He is useful only if he has these other more important qualities: 1. "A strong flexible sense of rhythm. This demands an all-around bow arm and well-controlled, rather than 'flashy' fingers." 2. "A keen ear for intonation and for fitting in with his and other sections of the orchestra." 3. "A knowledge of the orchestral repertoire that is more than a mere scraping acquaintance." To fill the bill the New School

Chief, Two Firemen Attending School

Fire Chief, J. E. Winborne, Capt. Albert Fuller and Al Ferguson, of the Pampa fire department, are attending the annual firemen's training school at Texas A&M College. The school will end July 14. Chief Winborne will take a fire marshal and arson investigation course while at the school. Fuller and Ferguson will attend an advanced course in fire fighting. According to Winborne, the State Fire Insurance Commission gives credit in the form of lower insurance rates to cities whose firemen successfully complete the course. For the fourth year in a row, Penn State will play nine football games in 1950.

Texan Invents Car Cooler Nearly Anyone Can Afford

By WILLIAM C. BARNARD (By The Associated Press)
A 27-year-old Texan, George A. McAllister, Jr., has invented an automobile air-conditioner—nearly any car owner can afford. McAllister, a mathematics instructor at Howard County Junior College, Big Spring, says he got the idea while crossing the Mojave Desert. "I began to wonder if there wasn't some practical way to cool that scorching wind that was coming into the car. After having broken two window glasses while using a window type cooler, I decided there must be some 'better way.'" McAllister's invention—an evaporative type cooler, is now being manufactured at Teague. Here's how it works: Two air scoops are attached over the openings of air ducts on each side of the radiator, behind the grill. In each scoop is a pad on which water is sprayed intermittently by action of a six-volt electric pump. The water comes from a six gallon water tank that is attached to the car beneath the front bumper by two flanges that hook over the bumper supports. When the hood of the car is closed, all this apparatus is concealed. "Forward movement of the car forces air into the air scoops," McAllister, a six-foot two-inch 200 pounder told us. "The air travels through the pads, where it is cooled, and then on into the interior of the car. By use of a special device, all water that is not evaporated is returned to the supply tank and used over again." A native of Commerce and a former Marine officer, McAllister said that when winter comes, you just leave the car cooler in place since it isn't in the way. "Besides," said he, "one feature is just as good in winter as in summer. Flick a switch and the electric pump will throw a generous spray of water on your windshield to clean it off." The coolers, named Northwind Kar Coolers, became available this week for Chevrolet. Later they'll be manufactured for other cars. Installed, they sell for \$62.50. Oh, yes—the car cooler will travel 200 miles on one tank of water. Ted Lyons pitched 21 seasons with the Chicago White Sox despite three years in service.

THEY ALWAYS LAND ON THEIR FEET?—Here's a feline hitchhiker who came down on something other than its own personal landing gear. "Slipstream," a 5-month-old kitten seen with its owner, pilot Art Horst, 30, manager of a Pennsylvania airport, creaked into the plane's wheel well at Millard Airport near Millersburg, Pa., and somehow escaped injury on a flight to Cook Cleland's Willoughby, O., Flying Field. Slipstream was found, shaky but unharmed, after the 300-mile ride.

THE LADIES WERE UNSHAKEN—Police officer D. F. Copley of Los Angeles assists two very stiff, slightly damaged young ladies from the scene of an accident. The young ladies, who happen to be undraped window mannekins, never lost their composure when the auto of Thomas McKnight careened onto the sidewalk and crashed through the glass window.

Strikes, Troubles Plaguing Once-Close Railway Unions

By CLARKE BEACH

WASHINGTON — Railroad labor is having more troubles than it used to — more strikes and less joint action among themselves in their dealings with the railroad owners. The Railway Labor Act, as amended in 1934, was followed by almost unbroken peace for 12 years. Then major strikes began in 1946. The worst strike year of all was 1949, when railroad employees were idle because of strikes 31 percent of their total working year.

Between 1935 and 1944, the annual total was less than .01 percent. The rail strike time-loss compares favorably with the total for all industries, in which working time lost through work stoppages in 1949 amounted to 59 percent. But the increasing strife is leading some of the carriers to say that the Railway Labor Act is now obsolete and should be replaced by entirely new legislation. Many of them are giving approval to Sen. Donnell's (R-Mo.) bill to outlaw railroad strikes and to compel carriers and labor to

submit unresolved disputes to arbitration.

Railroad labor is solidly opposed to the Donnell bill. It says the Railway Labor Act is workable as even and that the present unrest is temporary. The design of the Railway Labor Act is to delay strikes and to require cooling-off periods while the National Mediation Board examines the issues. If the board's findings are not accepted, the dispute is taken to the White House. The next step is the appointment of an emergency board by the president to see what it can do to bring peace. There have been times when the president himself has finally conducted the mediation procedure.

There is more and more of a tendency to force the White House to go through all these processes until the issues have been weighed by the highest authorities. By this tactic the unions are able to argue their cases on the highest governmental levels. The carriers, if constrained by the findings of the highest

authority to accept a settlement which is costly to them, are in a good position to demand that the Interstate Commerce Commission permit them to raise rates.

What the railroad unions want in the way of new legislation is a bill, now pending in Congress, to permit them to include the requirement for the union shop in their contracts. Present law forbids it.

Current railroad labor disputes concern chiefly the fight by the five operating unions for a 40-hour week. The non-operating unions—ticket clerks, etc.—got the 40-hour week last year. But most of the carriers have contended that it would be impracticable to shorten the present 48-hour week of the operating personnel. These comprise the conductors, trainmen, engineers, switchmen and the firemen and enginemen—all men who work with moving trains.

Traditionally these five groups have worked together in their negotiations with management. But lately they usually have been acting independently. The 18 non-operating unions also used to negotiate frequently as a unit, but they too are now split up. The reason for the lack of cohesion among them seems to be largely a matter of personalities among the top labor leaders. Some of them are old men, over 70, and many are nursing old grudges.

The railroad unions, organized mostly between 1885 and 1910, are among the oldest and richest unions in the country. They are variously called brotherhoods, orders, associations and unions. Some are in the CIO, some in the AFL, and some are independent. They started out as fraternal organizations, formed primarily to give death, pension and other benefits to their members. Their long history has produced many battle scars.

The National Geographic Society, says the University of Helmstedt, Germany, was founded in 1876 and operated until 1810.

Total Homeowners Growing in Nation

CHICAGO — (AP) — The United States Savings & Loan League reports that the number of families owning homes has increased three-and-a-half times from the 1900 total, while the nation's non-farm population rose about one-and-a-half times.

The best temperature for the storage of Irish potatoes is given as 40 degrees.

'Foul Smell' Not Red-Made; Just Odor for Natural Gas

MOLINE, Ill. — (AP) — A foul smell choked seven towns early yesterday, sending some residents into hysterics and raising fears of a Russian gas bombing.

But the culprit apparently was only a passing truck. The noxious odor crept through Moline, East Moline, Silvis and Rock Island, Ill., and then spread across the border into Muscatine, Bettendorf and Davenport, Ia.

No injuries were reported aside from upset stomachs. Some residents called police in hysterics. One man insisted to

Free Book on Arthritis And Rheumatism

Excelsior Springs, Mo., July 8 — So successful has a specialized system proven for treating rheumatism and arthritis that an amazing new book will be sent free to any reader of this paper who will write for it.

The book entitled "Rheumatism" fully explains why drugs and medicines give only temporary relief and fail to remove the causes of the trouble; explains how for over 31 years The Ball Clinic has helped thousands of rheumatic sufferers.

You incur no obligation in sending for this instructive book. It may be the means of saving you years of untold misery. Address your letter to The Ball Clinic, Dept. 2548, Excelsior Springs, Missouri, but be sure to write today.—adv.

Silvis police that "the Russians are flying over and gassing us." The evil-smelling fumes routed citizens from their beds and from taverns, almost forced the closing of two farm machinery factories, jammed police switchboards and kept firemen on a near-emergency basis.

An official of the Iowa-Illinois Gas and Electric Co., said the odor probably resulted from a leak in a tank of pentalarm being hauled through the area on a truck headed west. He said the truck was seen passing through Moline shortly before midnight, when the excitement began.

Pentalarm is an odorant used to inject a smell into natural gas, normally odorless, to permit detection of leaks. The official said the odor is not injurious but can cause nausea.

Hopeful Driver Found Hopeless

MISSOULA, Mont. — (AP) — George Mourar, driver examiner for the Montana highway patrol, reached his verdict in a hurry when a license applicant lost control of his auto and it jumped a curb while Mourar sat beside him on a test run. And he also catalogued the candidate swiftly. "That man," he said as he stepped from the stranded car, "is a pedestrian."

Former Pampa Resident Held For Burglary

A former Pampa man, believed to be about 24, has signed a statement before Oklahoma City officers concerning the burglarizing of Cretney Drug Store here the night of Monday, July 3.

Police Chief John Wilkinson said a complaint charging burglary has been filed against Walter Kenneth Hughes. However, he said it is doubtful Hughes will be returned to Texas since he has also signed a statement regarding car-theft in Oklahoma.

Cretney's Drug Store was burglarized of more than \$1,000 in merchandise, which included cameras, watches, liquor and other items.

Chief Wilkinson said about half the merchandise has been recovered in Oklahoma City.

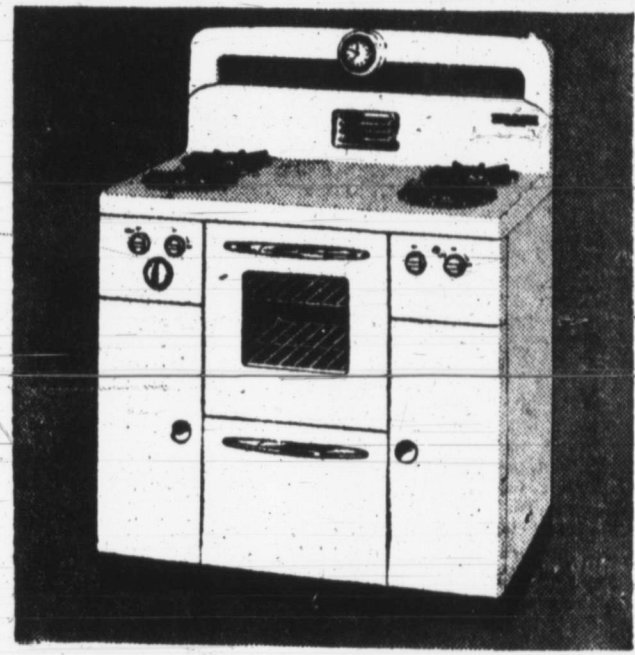

Entrance was obtained to the establishment by prying open the back door. Pampa police officers discovered the break-in early Tuesday, July 4.

Assistant Police Chief J. O. Dumas and Chief Deputy Sheriff Norvell Redwine were in Oklahoma City Saturday attempting to get authority to bring Hughes back to Pampa. They were also seeking another man believed to be a suspect in the Pampa drug store burglary.

Let's Talk Things Over With Gabby Garrison

The Oilers dropped one notch all the way along the line last week in standings, batting, and fielding. They engaged in a polite game of tag with the Lubbock Hubbers in dealing with the league lead, and going into last night's encounter, trailed the Hubs by one-half game. But the drop is explainable.

In overall club hitting, the Pampanos topped their percentage one point to .322, but allowed Albuquerque Dukes to slide in ahead of them with .324. The Dukes, in climbing to their lofty perch, also became the first team to win a series from the Oilers since May 23, when they won two out of three games from the Pampanos. The Borger Gassers, who are now straggling along in fourth place, and fighting to maintain that level, still kept their full head of batting steam and continued to hold the top spot with a .339 average. The league leading Hubbers are fifth with a .316 plate average.

But fielding, the Oilers dropped to fifth place, allowing the hustling Abilene Blue Sox to squeeze in ahead of them. The Blue Sox, still in the respectable seventh place position, nosed the Oilers by two percentage points, .943 to .941. Lubbock shined especially bright with a defensive showing of .953. They've bobbled only 13 times in 74 games, while the Pampanos have muffed 156 times in 71 games.

At the close of the first half play, here's what the Oiler records look like: They lead the league in number of runs scored, 631; home runs, 104; number of hits received, 470; and runs batted in, 561. Their pitching staff has been the most effective in the league, although they trail the Lubbock Hubber mound staff by .26 in earned runs. They've allowed the fewest number of earned runs, but have also pitched in the lowest number of games. They and the Hubbers have batted only seven times to also lead the league.

In strikes-out, the Oiler staff far outstrikes any other in the league with 434 whiffs to their credit. Roy Parker leads the individual strike-out kings with 138.

Roche Says Fusari No Risk For Sugar Ray's Ring Crown

By NED BROWN
NEA Special Correspondent
NEW YORK — (NEA) — Old Billy Roche, dean of deans in the boxing game, weighs in with his annual comment. This time his subject is Ray Robinson, generally conceded to be the best fighting man — pound for pound — in the business today. Ray is matched to defend his welterweight title against Charlie Fusari of Irvington, N.J., in a 15-round bout at Roosevelt Stadium, Jersey City, Aug. 7. Which title Ray will defend is specified, because, under our present-day screwy set-up, Mister Robinson is welterweight champion of the world everywhere, and middleweight champion in Pennsylvania. He gained the latter title by defeating Robert Villmain in Philadelphia last June 5; Villmain had previously beaten Jake LaMotta, champion everywhere except Pennsylvania, that state having "vacated" his title because he wouldn't fight Villmain with his championship at stake. Clear as mud, eh? Well, anyway, Robinson is putting his walter crown on the line, and all for sweet charity. Sugar Ray is to receive one dollar for his services, the rest of what would be his end going to the Runyon Cancer Fund. "That's a very laudable thing for Robinson to do," says the venerable Billy Roche. "But," he continued veering off on a tangent, "while I'm for freedom of the press, I ain't for license. And it seems to me the boys are going a little off the course when they headline that Robbie will risk his title against Fusari. "Whadda they mean, 'risk'? That Fusari is a nice, clean young feller, a clever boxer — as boxers go nowadays — but ain't rugged enough for that 'Sugar Baby.' "Another point on which I differ with the boxing writers is

Most Squabbles Are Settled In Plans for All-Star Game

By JERRY LISKA
CHICAGO — (AP) — The "Sauer" note was fixed and the intra-family squabbling over personnel in next Tuesday's All-Star game at Comiskey Park had mostly subsided today.

A "signals-over" ruling by Commissioner A. B. Chandler and some good, old American League fighting spirit yesterday settled most of the difficulty.

Furthermore, a sellout crowd of 49,000 was assured for the 17th midsummer baseball classic when mall demands yesterday gobbled up the remaining 1,200 bleacher seats.

Chandler, discovering that fan polls are not to be taken lightly, directed that Hank Sauer of the Chicago Cubs must start in the National League outfield.

That again left Burt Shotton, the National loop pilot, resigned but still grousing over the fact he has two starting left fielders and no center-fielder. Shotton thought that problem was fixed when Chandler okayed use of Brooklyn's Duke Snider instead of Sauer as a starter.

Sauer was the outfield choice of the nation's fan balloting, along with another left fielder, Pittsburgh's Ralph Kiner and right fielder Enos Slaughter of St. Louis.

From the American League came assurance by their respective pilots that pitchers Bob Lemon of the Cleveland Indians and Art Houtteman of the Detroit Tigers will be ready for All-Star game action even though they will pitch against each other Sunday at Detroit.

On the subject of Houtteman, manager Red Rolfe of the Tigers did an about-face after indicating the star right-hander wouldn't be available for the All-Star game after pitching Sunday.

Rolfe telegraphed American League president Will Harridge yesterday and said it all was a big misunderstanding. "I am anxious to see the American League defeat its National League rivals once again," wired Rolfe. "I feel sure that Casey Stengel (the American All-Star) has a right to use him. Art will again do a fine job. He can use my own judgment dictates."

When Tribe manager Lou Boudreau named Lemon as a Sunday starter, some observers also thought that was an All-Star game dodge. But Lou said there never was any doubt about Lemon's All-Star appearance.

"We often use him after he's had very little rest," said Boudreau, "and neither Bob nor I figure it will be much of a hardship for him to pitch Tuesday."

All of which left Al Rosen's absence from the American League squad as the main source of waning debate. The Cleveland third sacker was runner-up in the fan balloting to Detroit's George Kell, the only man selected for the position on Stengel's 25-man squad.

Stengel has admitted that Cleveland fans have reason to beef over Rosen's omission, but the Yankee strategist doesn't plan any change, squeezing in the Indian home run slugger unless an injury permits an opening.

If Shotton thinks he has a problem in deciding "who's in center" for his Nationals, there is a much bigger one in the basis of the American loop rivals.

Including Thursday night's games, the eight American League starters held a .334 to .316 composite batting edge over the eight National loop starters who also must play the first three innings.

Home run production is fairly even between the two starting arrays, the Americans leading, 99 to 96, but in runs batted in, the junior circuit holds a fat 460 to 379 bulge over the Nationals.

Louise Brough Gains Sweep In Lady Wimbledon Finals

By BEN PHILGAR
WIMBLEDON — (AP) — Louise Brough, the blonde from Beverly Hills, Calif., scored a tennis grand slam Saturday when she retained two of her all-around titles and shared another before an admiring throng of 20,000 on Wimbledon's ancient center court.

Miss Brough began her conquering afternoon by defeating Mrs. Margaret Osborne DuPont of Wilmington, Del., in the all-American women's singles final, 6-1, 3-6, 6-1. She had beaten her Delaware rival in the finals a year ago, too.

After a two and one-half hour break during which the Australian Mrs. Margaret Osborne DuPont retained two of her all-around titles and shared another before an admiring throng of 20,000 on Wimbledon's ancient center court.

Then following a 30-minute rest, Miss Brough and Eric Sturgess of South Africa defeated Mrs. Pat Todd of La Jolla, Calif., and Geoff Brown of Australia, 11-9, 1-6, 6-4 in the mixed-doubles final.

The Californian thus equalled her 1948 feat of winning everything she was eligible for. Louise virtually has owned Wimbledon since the war. She's gone to the finals in-singles four years out of five and won the division the last three. With Mrs. DuPont she's won the doubles four times out of five. With Tom Brown, then Jack Bromwich and now Sturgess she's shared in the mixed doubles crown the same number of times.

In the other title decided today Bromwich and Quist, defeated two Australians Brown and Billy Sidwell, 7-5, 3-6, 6-3, 3-6, 6-2, in the long drawn out men's doubles final.

Rudge Patty of Los Angeles tucked away the men's singles title yesterday with a decisive victory over Frank Sedgman of Australia.

This gave the Americans three and a half out of a possible five titles.

Gulf Coast Sets First Star Game In Port Arthur
PORT ARTHUR — (AP) — The Gulf Coast League's first All-Star game will be played in Sea Hawk Stadium in Port Arthur July 19.

League president Howard L. Green announced the site yesterday. A nine-day attendance contest among the six league members decided the site. Port Arthur won, averaging 1,703 paid admissions during the contest.

Other top attendance figures were Lake Charles, 1,653; Crowley, 1,561; and Galveston, 1,336. The game will send an all star squad from five teams against the club which is in first place through games of July 12. At present the Crowley Millers lead second-place Jacksonville by three and one-half games.

Lobos Win Nightcap From Abilene, Gain Split In Twin Bill

BILENE — (AP) — Lamesa's Lobos came back with murderous intent and smacked Abilene 12-4 in the nightcap to gain an even break in a doubleheader here Friday night and win the three-game series.

Abilene took the opener, 5-4, when Ralph Rahmes walloped a three-run homer in the sixth to bring the Blue Sox from behind. The blow scored Ozzie Santa Cruz and Rene Vega, who had singled.

Lamesa led all the way in the first game after accumulating two runs in the first inning on a walk, an infield single, an error and manager Jodie Beeler's payoff single. From then on, Freddie Rodriguez and John Petzer tangled in a fair pitching duel, the Blue Sox right hander giving up five hits and Abilene collecting only four off Petzer until the sixth.

Lamesa opened the second game with three runs off four singles, a walk and a sacrifice in the first inning, added two more in the second on Billy Capps' triple. The Lobos went wild in the fifth with a seven-hit attack, featuring Bob Dempsey's two-run homer.

Bob McChesney, playing his last home game for Abilene and being honored with a "McChesney Night," hit a two-run homer for Abilene in the fourth, and Manager Stubby Greer pounded a four-bagger in the fifth with none out.

General Atlas Leading Loop With Win Over Skelly, 5-3

The General Atlas independent men's softball team went into the league lead Friday night by downing Skelly-Schafer, 5-3, at Phillips. The triumph threw the General Atlas outfit one-half game ahead of the Skelly group, who must win their remaining game to earn a tie in first half play.

The winning team of the first half will play an All-Star team, chosen from the other five clubs, should Skelly win their make-up game, scheduled next week with the First Baptist, then another game with General Atlas would be necessitated to determine who would play the all-stars.

Second half play will begin on July 11, and the All-Star game is scheduled for July 18 in Oiler Park.

The first half standings are:
TEAM W L Pct. GB
Gen. Atlas 11 4 .733 0
Skelly 10 4 .714 1-2
1st Baptist 9 5 .643 1-1/2
Phillips 6 7 .462 4
Culbertson's 4 10 .286 6 1/2
20-30 Club 2 12 .143 8 1/2

Last night, Ken Browning blanked the Skelly team for the first four innings while he and his teammates jumped on Darrel Yeager for four runs in the first inning to gain an advantage they never relinquished. Browning allowed only three hits, but Yeager was victimized by eight General Atlas safeties.

THE LINE SCORE:
Skelly 000 120 0-3 3 2
Gen. Atlas 400 001 X-5 8 2

Lone Star Conference May Exclude Sul Ross
DALLAS — (AP) — Lone Star Conference officials were to decide Saturday whether Sul Ross College and East Texas State are eligible for next fall's football championship.

The two schools could not decide on the site of a game, so both scheduled other teams on the date designated. The conference constitution says that every school must play every other school in order to be eligible for the title.

Meet The Oilers

PITCHER

ROY PARKER

ROY PARKER, one of the greatest crowd-pleasers in the league, has performed in several positions. The stocky left hander has pitched, played outfield and first base. Last year, he won 23 games and was raked up 17 wins this year. Roy, who comes from Wichita, Kans., broke into baseball in 1946 with Durham, N. C. He went back to Wichita to play in 1947 before coming here. He was selected on the WT-NEA League All-Star team his first year in the circuit. He was sold to Shreveport at the close of last season, but wanted to come back here, since he has a winter job and his family likes it here. The 5' 7", 160 pounder has a wife and daughter and is 24 years old.

McCarley's JEWELRY STORE

House of Fine Diamonds, Watches and Silverware

In Hollywood

By ERSKINE JOHNSON
NEA Staff Correspondent

HOLLYWOOD — (NEA) — Exclusively Yours: It's all mangoes-and-cream between Carmen Miranda and her producer-hubby Dave Sebastian these days. Anybody who starts any talk about sour martial notes is going to get booted by one of the pacesetter's she wears on her turban.

Carmen whispered to me: "Ees wonderful weeth us. P,pple-talk too much een Hollywood. Every-body fights. You must fight!"

Still no another picture at MGM in the fall, then night club appearances throughout the country and bookings that will take her to London, Paris and Portugal in 1951.

Pals are advising Carmen to plump for the Bloody Carmen role when "South Pacific" is filmed, but she doesn't think she'll have more luck as a Duse than Zazu Pitts had.

"I made seck, seven thousand dollars a week een my night club set. Beautiful costumes, lotsa deep and zeeen. I gey'em joffing eyes, smoking beeg smoots. Everybody say look at her beeg seck. Ees wonderful. For I try be dramatic, then left at me. Why gamble?"

FUNNYMAN'S HILL

Sorry to repeat this, but one of the reasons for U's production sprint on "Abbott and Costello in the Foreign Legion" is Bud Abbott's serious illness... there's talk again at Columbia of turning Ben Gage into a singing cowboy... Jimmy Stewart winds up his helmy Edward P. Dowd role in "Harvey" and then goes into "Jackpot" at Fox. From crackpot to jackpot? There's an old "Duel in the Sun" poster on a sound stage wall at the Motion Picture Center. "Sun" has been crossed out and it now reads, more appropriately for Los Angeles: "Duel in the Smog."

A cartoon in the Christian Science Monitor shows a couple of kids passing a movie theater and one sighs:

"Gee, I haven't been to a movie in so long, I forgot what popcorn smells like."

Ralph Edwards, accepting his Golden Sprocket award from the California Apparel Creators as the best dressed man in California, quipped: "I understand I just missed out on Los. They would have given the award to Lassie but they couldn't find a place to sew on an inside later."

Ralph says he won't do kinescope for "truth or consequences" when it switches to TV in the fall. "It has to be on film," he says.... Casting switch: Marilyn Maxwell, who usually sports sultry gowns and lush hair-dos, is wearing blue jeans and plaid shirts for her role opposite Lew Ayres in "New Mexico."

Double feature coming up: "The Skipper" Surprised His Wife" with "Three Little Words."

"Illegal Bride" with a Las Vegas background plus Ginger Rogers, Jack Carson and Mercedes McCambridge, will be the second movie for Fidelity Pictures, Fidelity's first, "Woman on the Run" with Ann Sheridan, Dennis O'Keefe and Robert Keith, winds up this week. Keith, the one-time film writer turned actor, tells some fabulous stories about work in 1951 with Tom Mix on the stars' first talkie, "Destiny Rides Again."

Keith's story conferences were held at MEG's home, which was beautifully decorated in priceless antique French furniture. But on the furniture Mix gleefully tossed saddles and other western gear. Tom's favorite drink was brandy and champagne and after four or five nips, he invariably would announce to anyone present:

"I'm in the best physical condition of any star in Hollywood. Why? Because I've never taken a drink in my life."

TIME TOPIC
"The Private Life of Dr. Paul Goebbles" will be re-issued on the basis of Producer W. R. Frank's theory that the Russian situation has made the film more timely than ever. It was re-titled "Enemy of Women" for its original release when the public was anti-war movie minded.

It happened in San Francisco, where Fox was on location at the Curran Theater for scenes in "All About Eve." Bette Davis stood on stage calling for someone to rehearse her lines with her. People she called could not be found.

"Miss Davis," a crewman said, "Why don't you just ask is there an actor in the house?"

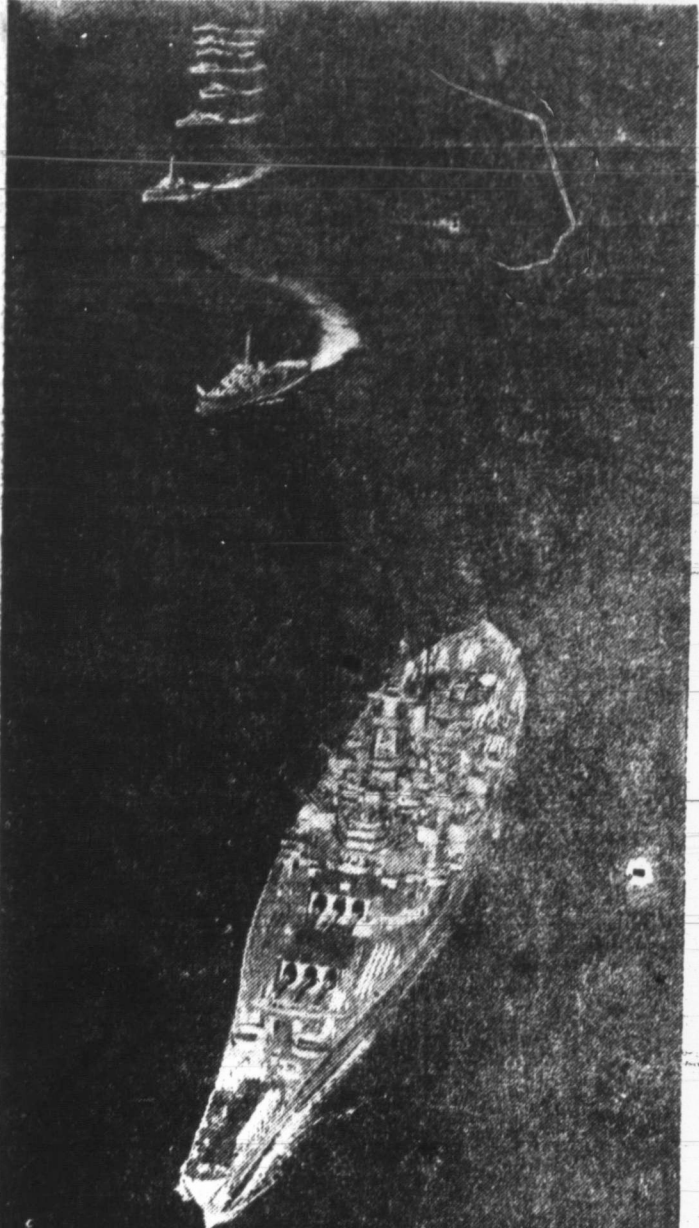

Bette considered this but countered: "Just what is an actor?"

"Sorry," the crewman said, "I can't answer that while I'm on salary."

Now that Producer Eddie Small finally has started production after 13 years of preparation, on "The Life of Valentino" with Tony Dexter, the swoon boy is coming back in celluloid flesh via TV. "The Eagle" and "Son of the Sheik" are playing the TV tubes.

The population of the Washington, D. C., metropolitan area is estimated by the Census Bureau at 1,402,000.

Mt. Cotopaxi, Ecuador, 19,244 feet high, is said by the National Geographic Society to be the world's highest active volcano.

TASK FORCE 86 GOES TO SEA—The battleship Missouri and accompanying destroyers comprising Task Force 86, execute turn as they leave New York carrying 1400 U.S. Naval Academy midshipmen and Navy ROTC trainees to Cristobal, C. Z.

JACOBY ON BRIDGE

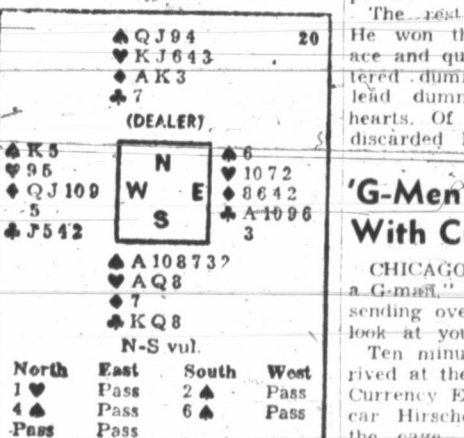

Misleading Discard Can Oftentimes Avert Defeat

By OSWALD JACOBY
Written for NEA Service

"You ought to have your head examined," said East angrily. Larceny Lou kept his eyes on the table. For a change his opponents were not growling at him but were bickering with each other. But they were quarreling as a result of a play that Lou had made, and he was sure that they would eventually get around to complaining about his heretofore methods of playing the game.

West had opened the queen of diamonds, and Lou had won with dummy's king. He had noted on first inspection of the dummy that he was missing the ace of

clubs and would probably be set if the trump finesse lost. Left to his own devices, West would surely return a club after winning his trump trick.

However, Lou saw a way to give himself a chance for the contract even if the trump

trump finesse lost. The idea was to induce West, if he were able to win a trump trick, to lead a club suit rather than clubs.

At the second trick, therefore, Lou cashed the ace of diamonds, discarding from his hand the right of hearts. He then led the queen of spades from dummy and let it ride for a finesse.

West won with the king of spades and reasoned that Lou had discarded his only heart. West reasoned that South must have eleven black cards, of which only six could be spades. If Lou had five clubs, he might need to ruff them in the dummy. West therefore returned a trump to reduce dummy's ruffing power.

The rest was easy for Lou. He won the trump, cashed the ace and queen of hearts, and entered dummy with a trump to lead dummy's three remaining hearts. Of these, of course, Lou discarded his clubs.

'G-Men' Make Off With Currency Haul

CHICAGO — (AP) — "This is a G-mail," the caller said. "We're sending over a couple of men to look at your books."

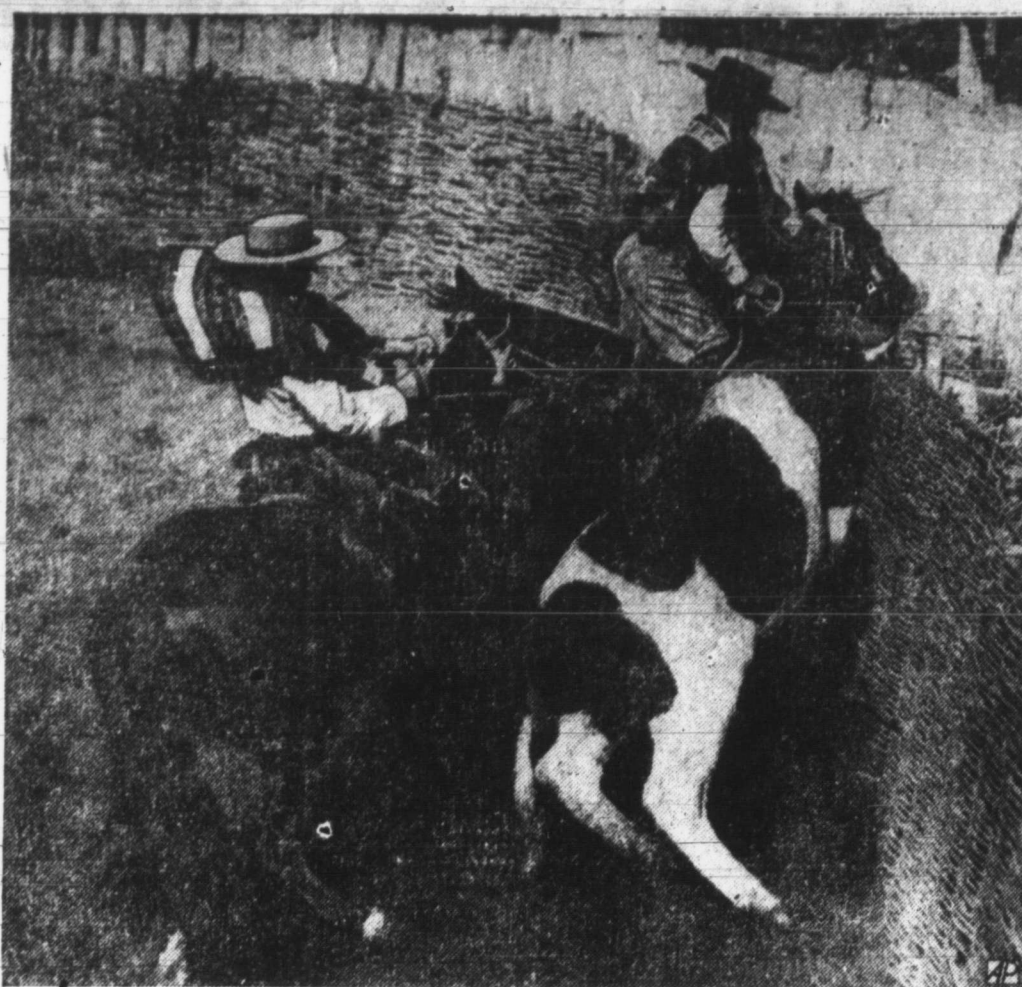

Ten minutes later two men arrived at the Sheridan Irving Park Currency Exchange Manager Oscar Hirschel, 67, let them into the cage, then asked for their identification. One man knocked him to the floor and the other tied him up. They took \$3,150 just delivered by armored car and \$1,794 from an open safe and fled in an automobile.

Buckwheat is raised commercially in 15 U.S. states.

For Sale!

The east stand at Harvester Park Football Field. This stand to be dismantled by the purchaser at his expense and material, including concrete foundation, to be removed from the premises by August 1, 1950. Small store room and toilet building are not to be moved.

MAIL BIDS TO PAMPA INDEPENDENT SCHOOL DISTRICT, BOX 920, PAMPA, TEXAS. OR LEAVE AT THE SCHOOL BUSINESS OFFICE IN CITY HALL ON OR BEFORE WEDNESDAY, JULY 12, 1950.

CHILEAN RODEO—A team of Chilean "huasos" or cowboys stops a running steer at a target on the stockade wall, forcing him to reverse his course in a rodeo at San Fernando.

Policeman, Firemen Given Stinging Job

PHILADELPHIA — (AP) — Mrs. Ethel Wertheim found bees in her trees.

She called city hall and Police Patrolman Karl Schwartz buzzed over. He couldn't reach the limb

Engine Co. 72. They came with a ladder, sawed off the limb as Schwartz gently lowered the hive to the street and carted the bees off to a New Jersey bee farm.

The Koreans aren't particularly fond of that trading, commodity G. Joe has found so useful in other lands — chewing gum, which they believe keeps them healthy.

If you call on them, they rarely offer you tea, as in Japan. They haul out tobacco. They use a pipe about a yard long.

The Koreans love meat, vegetables, red pepper, pickles, radishes and garlic. Butchers rate lowest in their social scale; scholars rank highest.

Boys used to wed at 11 or 12, girls at 14 or 15. But the custom of child marriage is slowly dying out. The husband swears his oath before a wooden wild goose he brings to the bride's home. When she goes to live with him in his parents' abode, she has to handle all the house cleaning chores. Her mother-in-law is the boss, and takes life easy from then on.

Rich men have more troubles with their relatives than a Hollywood producer. They must care for any impoverished member of the family, no matter how distant the kinship, and this often requires houses with 90 to 100 rooms.

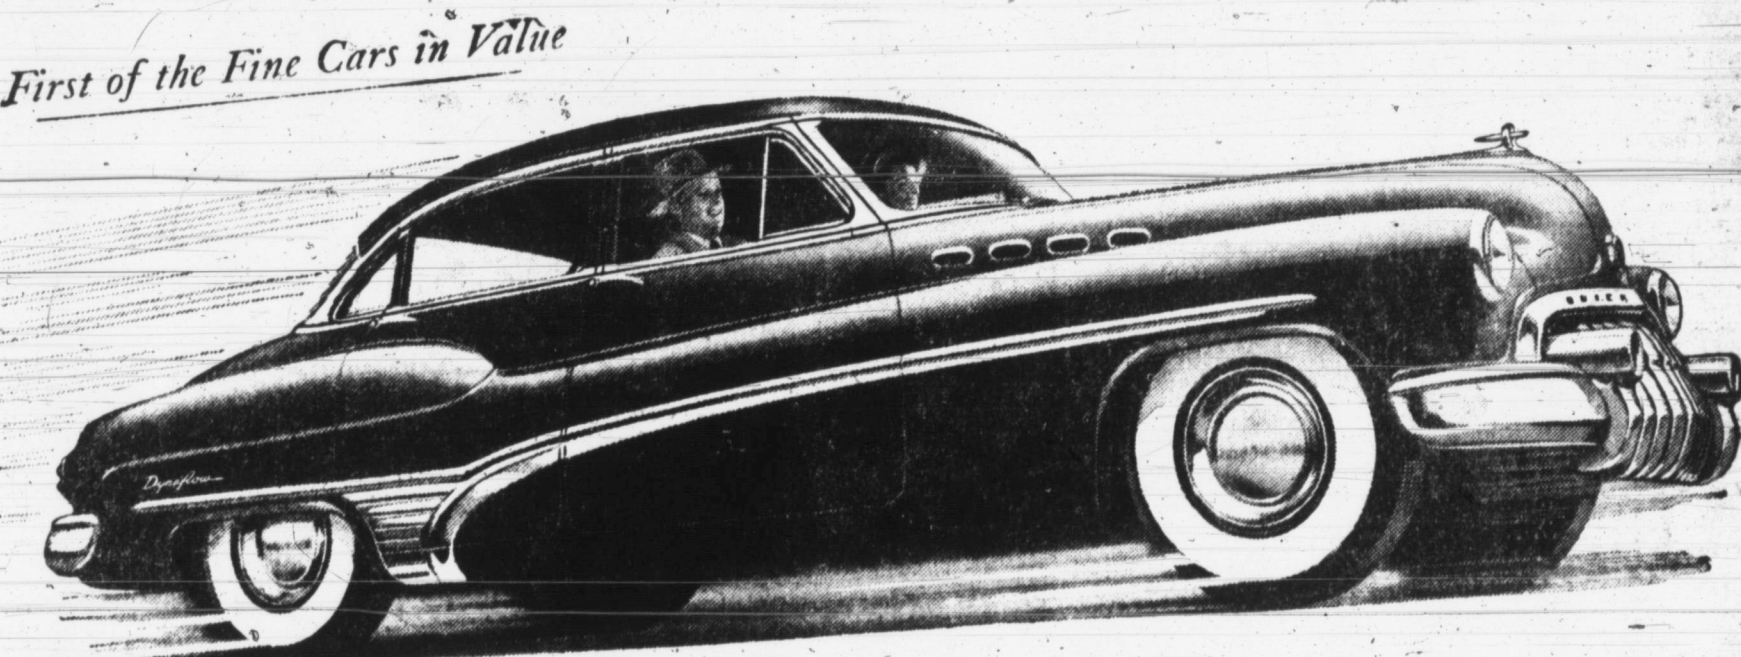

But the number of rooms is restricted also by his rank. A commoner can have up to 20. Most peasant dwellings are one-story, mud-walled buildings roofed with thatch or tile and heated by smoke pipes that spread from the hearth through the clay or stone floors. The carpets are oil paper.

The Korean religion is a mixture of nature worship, Buddhism and Confucianism. But the devil they fear is a demon-god called Tyansun. They put up wooden images of him around the countryside to appease his anger.

They bury their dead in caskets and hire women mourners to cry out their grief. A death in the family is announced by waving the late-lamented's clothing from the housetop.

Hundreds of chinchilla ranches are now stocked with the descendants of 11 chinchilla brought to the U.S. from the Andes in 1923.

The Census Bureau estimates District of Columbia population at 870,000.

First of the Fine Cars in Value

This one Telescopes your Timetable

Of course you recognize it. Who doesn't know that those four Ventiports, that graceful sweep of fender-chrome, mark ROADMASTER—best of all the Buicks, unquestioned "big buy" of the fine-car field? But have you tried it? Have you matched this sweet-stepping bonny against the tall hills, and the call of the straightaway? Ever toiled it across town—and seen how Dynaflo's quick surge and smooth take-off slip you through traffic with minimum of foot-motion and maximum of timesaving? Ever known the good feel of a light and easy wheel, swinging almost at a finger's touch—the soul-satisfying lift in a big 152-hp Fireball engine just waiting for the release your toe-pressure gives it? Ever sampled that famous Buick ride—steady, level, unperturbed, soft with the special gentleness of coil springs on all four wheels, sweetly restful in both front and rear seats? There's no reason, really, to wait longer for such satisfying experience. There's a Buick dealer near you. He delights in showing off ROADMASTER. He'll arrange—unless all his demonstration cars have been snatched away from him by eager buyers—to put you behind a ROADMASTER wheel. Why not see him now—to find out what's finest in today's fine cars, and how little it takes to buy one?

Only Buick has Dynaflo* and with it goes:

HIGHER-COMPRESSION Fireball valve-in-head power in three engines. (New F-263 engine in SUPER models) • NEW-PATTERN STYLING, with MULTI-GUARD fender, taper-through fenders, "double bubble" taillights • WIDE-ANGLE VISIBILITY, close-up road view both forward and back • TRAFFIC-HANDY SIZE, less overall length for easier parking and maneuvering, short turning radius • EXTRA-WIDE SEATS cradled between the axles • SOFT BUICK RIDE, from all-coil springing, Safety-Ride rims, low-pressure tires, ride-steadying torque-tube • WIDE ARRAY OF MODELS with Body by Fisher.

*Standard on ROADMASTER optional on other Buick models.

Ash, Finchum Get 5 Years For Burglary

Five-year prison sentences were handed Van Leach Finchum, 42, and Alvin J. Ash, 43, Friday afternoon by Judge Lewis M. Goodrich for the burglary of the Brumley Food Store on February 27.

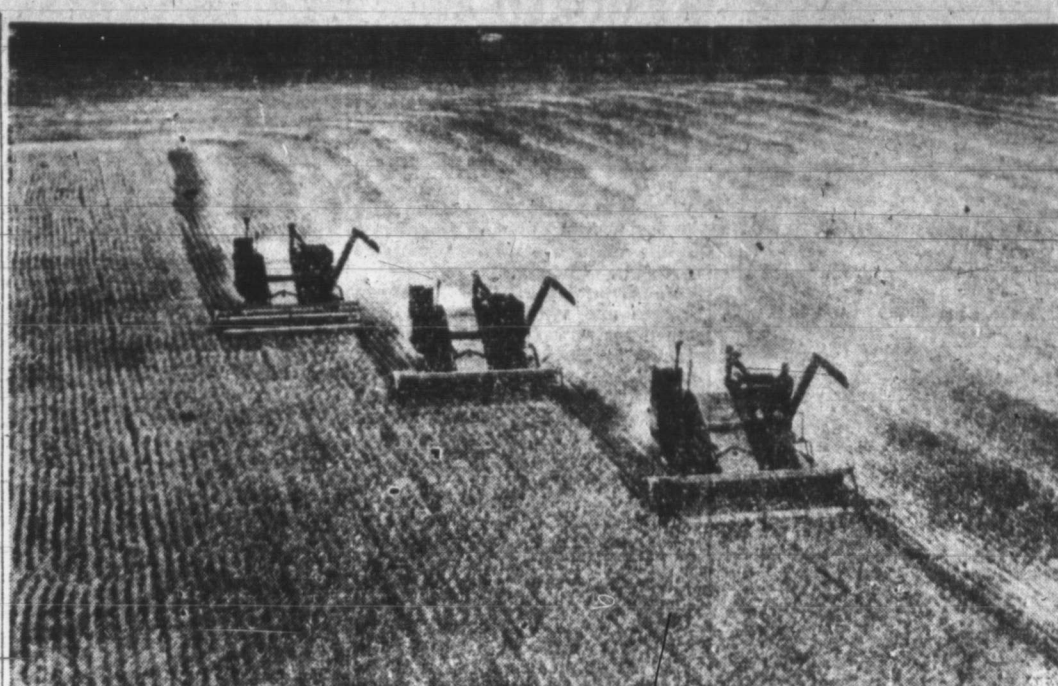

The two are now under a similar sentence for the burglary of the Trueblood Motor Co. at Canadian on April 16. Ash has served terms in the penitentiary for burglary. Finchum is also an ex-convict.

However, the Court decided on leniency and decreed that the sentences should run concurrently with the sentences handed them at Canadian last week. This means the two will serve both sentences at the same time instead of having them piled on top of each other. The Court also allowed them the time they spent in jail from April 16 to date.

Officers long suspected Ash and Finchum, but could not pin anything on them definitely. Neither would talk or admit any part of the Brumley burglary. But, after their sentences at Canadian both decided to talk, and admitted the grocery store burglary, stating they got \$800 in cash. They also stole a number of checks and notes which they later burned.

They were indicted Friday by the Gray County grand jury. The jury at the same time considered a total of six felony charges; returned four indictments; released one man on an auto theft charge by returning a no bill, and delayed action on Clive Davenport, charged with assault with intent to kill in the fatal shooting of Claude Vernon at the Davenport home the night of June 25.

Attempted burglary indictments were also returned against two other ex-convicts, Virgil Johnson, now in a federal penitentiary, and Carl Ash, brother of Alvin. For the attempted burglary of a drug store and a lumber yard in McLean on the night of January 14. The two got only a few tools at the lumber yard but bucked into a tear gas equipped safe combination knob at the drug store. Carl Ash is now in jail at Memphis awaiting trial on the burglary of a drugstore there. He also faces a four-year prison term from Plainview for a department store burglary there. Johnson was also indicted in the Plainview burglary. District Attorney Tom Braly said members of the grand jury would reconvene at an unspeci-

WHEAT HARVEST IN FULL SWING—Looking like three prehistoric monsters, these combines, owned by Joseph Bober of Minot, S. D., move through the 83-acre wheat field of C. O. Zile near Mitchell, Kans. The scene is a typical one throughout the Wheat Belt as farmers harvest their unexpectedly good crops, yielding 30 to 35 bushels an acre.

Sumerians Knew Euclid Theorem

BAGHDAD — (AP) — A Babylonian scientist discovered one of Euclid's theorems some 1,700 years before the father of geometry was born, asserts Taha Baqir, curator of the Iraqi Museum in Baghdad. The "most ancient mathematical text known to date" dated date to finish the Davenport case.

The Tel Harnai tablet, it has been found, outlines one of the basic theorems of geometry — an application of the principle of similarity of the two right-angled triangles obtained in drawing a perpendicular on the hypotenuse of a right-angled triangle. The Washington team of 1888 posted the lowest team batting average in history, .207.

Government Will Reopen 3 Synthetic Rubber Plants

WASHINGTON — (AP) — Three of the government's war-built synthetic rubber plants are being recalled to active service. Their mission: to add 88,000 tons to current U.S. synthetic output of 487,000 tons a year.

A recent sharp increase in natural rubber prices — now selling for around 31 cents a pound compared with 18.5 cents for synthetic — appeared to be behind the decision announced Friday.

Greater availability of the lower priced synthetic will help American manufacturers of tires and other products to hold down their costs and prices. They have emphasized no tire shortage is in prospect.

The action also will leave more natural rubber available for stockpiling by the government against an emergency need. Most natural rubber comes from the far Pacific, and the rubber industry has been urging action to protect U.S. supplies from "the spreading threat of communism" there.

The Reconstruction Finance Corporation, which manages the government-owned synthetic plants, said it is arranging for reactivation of three plants which have been in a standby status.

1. A plant at Port Neches, Texas, which can add 75,000 tons annually to current output of 425,000 tons a year of general purpose synthetic, used in making tires.
2. Another at Baton Rouge, La., which can add 13,000 tons a year to current annual output

Order Duplication Outbreak Feared By Auto Industry

By DAVID J. WILKIE
DETROIT — (AP) — The auto industry doesn't want to discourage anybody from ordering a new car but it doesn't relish the prospect of thousands of duplicated orders.
Duplicated orders and a run on used car lots appear to be a certainty in the months immediately ahead as a result of the current war situation. Many thousands of duplicated orders were placed with new car dealers in the early postwar months.
Some came from persons who wanted to get delivery as quickly as possible of only one car. Others came from persons who wanted to resell the cars at above list prices. In any case the order duplications gave the car maker and the dealer many headaches.
The industry has been delivering new automobiles at the rate of more than 400,000 a month for many months. The demand has been at the highest levels in the industry's experience. Yet there are relatively few cases of urgent need for new automobiles.

OLD-TIMER

(Continued from Page One)
There followed a long and active career as a farmer, well-digger, stock raiser, thrasher and mill worker, a career which ended only when Mr. Renner became blind about three years ago. Even his blindness, however, has failed to affect his cheerful outlook on life, his children say.
Mr. Renner's family came to Texas when he was two years old, settling in Red River County. Until he was 17, the family lived in various parts of Texas, Missouri and Arkansas.
After the death of his parents, Mr. Renner returned to Texas with his sister and brother-in-law, settling in Cook County. It was there he met and married Margaret Virginia Montgomery 74 years ago.
The couple lived in Montague County until 1896 when they moved to the Panhandle. The Renners had four children, all of whom are still living. They are Mrs. Mary Williams, Johnnie and Frewer Renner, all of Miami, and Mrs. Nettie Jans, Walters, Okla.
When Mrs. Renner died 14 years ago, Mr. Renner made his home with first son, then another of his children. Since his widow, Mrs. Williams, was widowed three years ago, he has made his permanent home with her.

Stalin Has Surprise Coming in His Mail

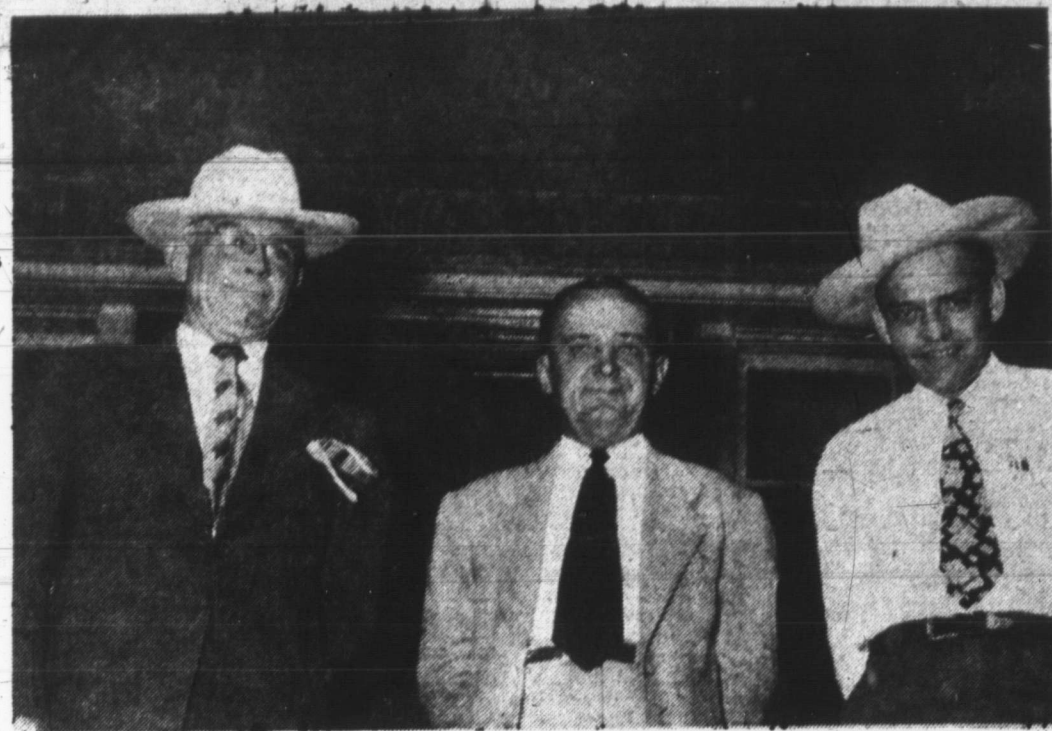

DALLAS — (AP) — About 200 U.S. Marine Corps air reservists left Dallas at dawn for Cherry Point, N.C., and two weeks of intensive training.
The kill-wearing elite troops of the Greek army are called Evzones.

The second annual Texas Industrial Week, it will take concentrated effort on the part of any community that wishes to improve the performance of this oil-producing, wheat-growing industrial city.
The article was written by Jay Rose, editor of Texas Industry magazine.

India May Reenact Old Fishing Rules

NEW DELHI, India — (AP) — The fishery laws of Assam, which dated back 2,500 years ago, may be adapted for use today. The director of the Zoological Survey of India has recommended reenactment of the laws, which were engraved on a stone pillar during Assam's reign. The director said the conservation laws were comprehensive and based on biological knowledge of the principal food fishes of India.

need for additional hotel facilities in Pampa.
Meanwhile, contractors in Borger are completing work on a modernist hotel long considered one of Borger's greatest needs. The Carbon Black City, smaller than Pampa at the turn of 1940, is shown by new census reports to have outstripped Pampa in growth, partly due to a broad building and improvement program undertaken by various Borger interests.

ALTAVENE

(Continued from Page One)
scarce commodities, goods and equipment belonging to the government were being destroyed. Could it be that some of the influence and know-how was being used to obtain scarce commodities and equipment for a favored few while the taxpayers were required to stand in line and wait their turn?
In the meantime LeRoy LaMaster was holding fast to his personalized campaign. Timmons was doing the same line, almost of campaigning but was not hitting the pro-labor points as strongly as he did in his first campaign. Mrs. Clark spent part of the weekend in Pampa, attending a pie supper Friday night and "meeting folks" on Saturday.

Israel Fights Child Marriage

JERUSALEM — (AP) — Israel's parliament is determined to break up "the evils of child marriage." Immigrants, particularly from oriental countries, who like to marry their daughters off early — sometimes at 11 or 12 years of age — are in for a lot of trouble.
The Knesset (parliament) approved legislation providing a maximum penalty of two years imprisonment and a fine of \$1,000 for anyone permitting, or aiding the marriage of any girl under 17 years of age. Parents, guardians and rabbis all are included in the law for punishment.

ARMORED

(Continued from Page 1)
and truck-drawn heavy artillery which looked like "Long Tom" 155 millimeter rifles north of Pyongyang, 14 miles north of Chonan.
Another 40 to 60 enemy tanks and more than 1,000 men were crossing the swollen Ansong river and heading toward Songhwan, on the main highway eight miles north of Chonan.
MacArthur said that "blown bridges and swollen streams continued to be the most serious obstacles to North Korean armored units."
MacArthur's communique said the North Korean offensive was "curtailed" Saturday, while massing in forward areas for a renewed offensive.
Later field dispatches indicated the Reds were pushing on south. Headquarters in Tokyo appeared most concerned about two big drives the enemy appears to be shaping up rapidly.
First, the communique said, was a distinct possibility of a wide envelopment attempting to cut the main north-south communications line, possibly in the Taegon area.
Second, a push down the isolated east coast toward Pusan, main U.S. supply port.
"Troop and tank concentrations in this area (east coast) which has been relatively quiet since the outbreak of the Korean war, (June 25) suggest that preparations are underway for a drive in the direction of Pusan. It also may mean a wide flanking envelopment of the main battle area to sever the important communications junction at Taegu" (about 65 miles southeast of Taegon)," the communique said.
The possibility of these two enveloping moves suggested a continued caution in committing major American ground and supporting units — including tanks — above the natural barrier of the Kum River.
The Kum cuts about midway between fallen Chonan and the southern strong point at Taegon. American Air Force and allied naval units were active.
Fighters hammered at Russian built tanks and trucks with "varying success." Many tanks were destroyed and damaged but the communique announced no totals.
Naval patrols kept a close guard on the east coast, where a second buildup of enemy strength was in progress. They fired at targets spotted by planes.
A large volume of American supplies continued to flow to Pusan.
MacArthur's headquarters mentioned unrest in North Korea for the first time. Reports that all Koreans were rallying to the invasion were denied.
The communique said there were "growing indications of unrest" which, if true, would provide mounting problems for the Reds.
Horticulturists recommend buying pecan trees three to five feet high.

FEELER

(Continued from Page One)
that the actual event occurred. But they noted that it could be (1) a hopeful opening, (2) a diplomatic cover to stall off the west with meaningless talk while the Korean fight goes on or (3) a device to raise false hopes in the world by hinting at peace without any intention to work for it.
The British foreign office, the State Department all declined comment. Britain and the United States have been reported keeping in close touch with each other on the whole Korean situation. The American government obviously has been informed of the Gromyko-Kelly conference.

ROCK ISLAND

(Continued from Page One)
vent operation of trains. It was the first picket line at Silvis during the 14-day strike.
John Curran of Davenport, Ia., treasurer of Switchmen's Local 133, said his local will not go back to work unless restrained by an injunction or ordered by union leaders.
But in Chicago, a union leader said: "we've just been hit over the head, but we say again that the Rock Island Railroad won't operate. The government must make a deal with the union first."
Officials of the 8,000 mile Rock Island railroad system that operates in the West and Midwest were waiting for a word from the Army before deciding on operations.
Glover appeared personally before the National Railway Mediation Board to tell them the union was refusing to work under the seizure order. Then he issued this statement to newsmen: "We have informed the secretary of the Army that the switchmen's Union of North America will restore full and complete service on the Chicago, Rock Island and Pacific Railroad Company when and if the government seizes the profits of that railroad as well as the labor of free men."
"The president has said the United States is not at war. Is the democratic president of a democratic country saying that no railroad union can conduct a legal strike in peace time?"
Coal and wood-burning stoves should be set on insulated metal pads.

Next Best Thing to a New Road!

YOU must understand, of course, that nothing in the world can take the place of a beautiful ribbon of improved highway — stretching so enticingly into the open country, and all but beseeching you to come for a ride!
But under the happiest auspices, you will have to do much of your driving, for years to come, down roads and highways that leave something to be desired — and how lucky you'll be if you ride them out in a 1950 Cadillac!
In recent years, Cadillac has carried out a tremendous program of research and improvement to achieve a finer "rough-road" ride. The development work has covered steering, springs, shock absorbers, frame, wheels, tires, shackles — and all the engineering problems involved.
In the 1950 Cadillacs, this great program has come to full fruition — and the results are simply a revelation. First, you get wonderful balance. The car "stays put" — and you have a reassuring feeling of stability, even when the going's uncommonly rough.
And your ride is amazingly level. You "float" over the bumps and the depressions, ever so gently. Only a road so bad that it deserves condemning can make itself obvious to either the driver or passengers.
And, of course, the remarkable quietness, of both body and chassis, shows up most dramatically on the roughest roads. For quality tells its finest story when the pressure is greatest.
Why not come in and get acquainted with this wonderful car? We'd be happy to see you any time.

Cadillac

Daniel Speaks on Tidelands Issue

SAN ANTONIO — (AP) — State Attorney General Price Daniel promised the State Bar of Texas convention here that there would never be a compromise in the tidelands issue.

In a speech yesterday, Daniel said there had been suggestions that Texas settle with the federal government for less than full title to the submerged lands.

"But for me the principles involved are more important than a share of oil and money, there should never be a compromise," he said.

HOW TO STORE EGGS
Eggs ought to be stored in the case with the little end down, reports the College of Agriculture here. In the big end of an egg there is an air sac. If this end is kept up, the sac stands less chance of being damaged.

NOTICE TO BIDDERS
Sealed proposals addressed to the Board of Trustees, Pampa Independent School District, Pampa, Texas, care of Mr. H. Rasmussen, Treasurer, will be received at the Business Office, Pampa Independent School District, City Hall, Pampa, Texas, until 2:30 p.m., Central Standard Time, July 26, 1950, covering alterations and additions to Horace Mann, Woodrow Wilson and Sam Houston Elementary Schools, Pampa, Texas. In accordance with plans and specifications prepared by Cantrell and Company, Architects, Inc., Pampa, Texas, at which time and place the proposals will be publicly opened and read aloud.

Copies of the plans, specifications and other Contract Documents are on file in the office of the Owner or Architects, and are open for public inspection. A set of such documents of each project may be obtained by qualified General Contractors from the Architects at their offices at the cost of Twenty-Five Dollars (\$25.00) per set. This deposit will be returned to each actual bidder upon return of drawings and specifications in good condition.

A cashier's check, certified check, or acceptable bidder's bond payable to A. C. Troup, Secretary, Pampa Independent School District, in amount of not less than five per cent (5%) of the largest possible bid must accompany the proposal submitted.

This is a "Public Works" project as defined in House Bill No. 54 of the 43rd Legislature and House Bill No. 315 of the 44th Legislature of the State of Texas and such is subject to the provisions of said House Bills. No provisions herein are intended to be in conflict with the provisions of said acts.

In accordance with the provisions of said House Bills, the Board of Trustees, Pampa Independent School District, has executed and set forth below, the wage rates, for each craft or type of workman or mechanic, needed to execute the work on the above named projects, now prevailing in the locality and the Contractor shall pay not less than these wage rates as set forth below for each craft or type of labor, workman, or mechanic employed, on this project.

Mechanic, Workman or type of Laborers	General Prevailing Hourly Rates
Asbestos Workers	\$2.37
Brick Layers	2.20
Cement Finishers	2.00
Carpenters, Journey-men	2.00
Electricians	2.125
Iron Workers, Structural	2.00
Iron Workers, Reinforcing	2.00
Laborers, Unskilled	1.50
Lathers, Metal	2.00
Mason Tenders	1.50
Mortar Mixers	1.50
Painters	2.00
Pipe Fitters	2.25
Plasterers	2.00
Plumbers	2.25
Hoist, Single Drum	2.00
Mixer, Operators, 14 cubic feet or less	2.00
Mixer, Operators, over 14 cubic feet	2.25
Tracing Machine Operator	2.25
Roofers	1.50
Sheet Metal Workers	2.00
Steam Fitters	2.25
Truck Drivers up to 1 1/2 tons	1.50

Rates are based on eight (8) hour day and forty (40) hour week. All overtime to be paid at the rate of one and one-half (1 1/2) times the hourly rate. Legal-holiday-work shall be paid at the regular governing rates.

SHIRLEY MAY AT WIMBLEDON—Shirley May France, right, 17-year-old American schoolgirl, chats with movie actor Caesar Romero and net star Nancy Chafee at the Wimbledon tennis championship matches. Romero is in England on a picture assignment. Shirley, training hard at Dover, England, hopes to complete the channel swim before her 18th birthday, Aug. 11.

'Subtle' Hollywood Always With Us, During War, Peace

By BOB THOMAS
HOLLYWOOD — (AP) — Let's take a look at this last week's Hollywood headlines.
 The movie news may look a bit pale beside the other events of the day. But war or peace, boom or bust, Hollywood is always with us. So here is how the recent headlines look to this armchair analyst (j.g.):
 "Studio picks up Betty Grable's option for another year."
 Now there's a newsy bit. It's like saying "President Truman renews lease on Fort Knox."
 "Bette Davis returns from Mexican divorce, denies she'll marry soon."
 That seems the right thing to do. Especially since her new romance, Gary Merrill, won't be free from his wife for a year. Mrs. Merrill got an old-fashioned California divorce, which takes all of 12 months to finalize.
 "Two thousand U.S. film theaters to close this year."
 Oh, television, so there is thy sting!
 "Lana Turner announces pregnancy early so co-workers won't think she's temperamental."
 Miss Turner apparently feared other workers would take it to heart if she had to leave the sets without explanation. Ah, for the old days when a woman announced her motherhood merely because she wanted the whole wide world to know.
 "Goldwyn and Korda drop their suits."
 We should be able to expect better showmanship from these two big producers.
 "Frank Sinatra and Ava Gardner have quiet dinner talk in London."
 And press announcements are released with every course. The idea of Frank and Ava having a quiet dinner is about as likely as Hollywood tossing a subrosa premiere.
 "Crooner Vic Damone arrives to start MGM contract."
 Bulk coal is often treated as fragile cargo because customers demand it be delivered in specific sizes and tough handling tends to break up the lumps.

Patriotic Veteran Really Means Well

HOUSTON — (AP) — Recruiting officers here appreciate the spirit of the World War II veteran who wrote that he would like to serve his country again. They had to decline the offer because of the man's present address: the Texas State penitentiary.

John Hotal, Cincinnati pitcher, hurt his arm in his first professional game with Albuquerque, N. M., in 1941, but came back to win 16 games that season. Read The News Classified Ads

Convict Is Full of Motions, Notions

UPPER MALLEGO — (AP) — Ronald Harris is back in a Maryland penitentiary cell after a brief trip as a lawyer. Harris was arrested last month for representing himself. He was charged with robbing a bank in 1947 and six years ago. He is now serving time for auto theft. The middle-aged convict threw a string of motions at Judge Charles C. Marbury — to dismiss the indictment, change the scene of the trial, subpoena witnesses from the pen and to represent himself.

Baby Rats Adopted By Kittenless Cat

COPENHAGEN — (AP) — Farmer Christian Harpoeth of Toender, South Jutland, found his cat nursing five well-fed young rats. Sometime ago its kittens had been drowned and since then the cat had hidden. When traced she was taking care of the rats. Now she is mourning the loss of her foster children who have been drowned, too. The judge dismissed all but the last. Asked if he had any more, Harris replied: "No, but I'll have some more if you don't worry about that. I like filling motions."

VA Urges Vets Use Care in Buying Homes

WASHINGTON — (AP) — Veterans Administrator Carl R. Gray, Jr., has told war veterans today to shop carefully before buying homes. "Now that the post-war housing shortage is easing off, yet veterans should make sure they will be satisfied with the quality and condition of the home and its equipment," Gray said. The advice came in the form of a letter attached to a new pamphlet, "To the Home-Buying Veteran," soon to be made available at VA offices.

Miss May Joy Kuykendall Becomes Bride of John Thomas Huffstettler; Rites Read in White Deer Church

WHITE DEER — (Special) — Miss May Joy Kuykendall, daughter of Mr. and Mrs. M. H. Kuykendall of Oak Ridge, Tenn., became the bride of John Thomas Huffstettler, son of Mr. and Mrs. Frank Huffstettler of Grants, N. M., Friday morning, June 30, in the Presbyterian Church here. Dr. William P. Lockwood, pastor of the Presbyterian Church in Grants, officiated at the double-ring ceremony.

The altar of the church was decorated with palms, white candles in tall candelabra, and baskets of white gladioli. Introducing the ceremony, Mrs. Leonard Gunderson, Amarillo, played Schubert's "Serenade," and Mrs. H. E. Alexander, Grants, sang D'Hardel's "Because." "Clair de Lune," played by Mrs. Gunderson, formed a soft musical background for the exchange of vows, and as the couple Alexander sang "The Lord's Prayer."

The candles were lighted by Gene Daniel, Amarillo, cousin of the bride. His sister, Miss Joy Louise Daniel, served as bridesmaid. She wore a formal dress of pink illusion over pink taffeta with matching Even's bonnet. Her bouquet, a cluster of pink carnations on an heirloom fan belonging to Mrs. Harry Edenhough, White Deer, was later removed and worn as a corsage.

Ray Gunderson, Grants, was best man and Al Kuykendall, brother of the bride, and Jackie Freeman, White Deer, served as ushers.

LACE OVER TAFFETA — Given in marriage by her father, the bride was attired in a bridal gown of rosepoint lace over white taffeta, with a fingertip veil of pink illusion attached to a French bonnet. On a white Bible, she carried a white orchid encircled with stephanotis, from which fell long streamers of white satin ribbons caught with stephanotis.

After the ceremony, a reception was held in the home of Mrs. R. A. Thompson. In the receiving line were the bride and bridegroom, their mothers, and Mrs. Louis Daniel, Amarillo, aunt of the bride. A bouquet of white gladioli, pink lily-of-the-valley and laciniae, flanked by candles in dainty flower-wreathed holders, formed the centerpiece for the refreshment table. Mrs. Harry Edenhough served the three-tiered cake and Miss Phyllis Shannon, White Deer, served punch. They were assisted by Miss Connie Green, Grants, and Miss Inamurie Rush, Kalamazoo, Mich.

The couple left immediately for a two-week trip to New Mexico and Colorado, after which they will be at home in Grants until they return to school at the University of Tennessee in September. For traveling the bride chose a cream and navy polka-dot dress with navy jacket and accessories.

Mrs. Huffstettler attended grade school in White Deer, where her father was a former superintendent of schools and still has farming interests. She is a graduate of the high school at Oak Ridge and of the University of Tennessee, where she will be assistant librarian next fall. She is a member of Pi Beta Phi.

Mrs. Huffstettler will return to the University of Tennessee this fall as a senior in the School of Engineering. He is a member of Phi Sigma Kappa and Scabbard and Blade, an honorary military fraternity.

Out-of-town guests at the wedding were Mr. and Mrs. Frank Huffstettler, Mr. and Mrs. H. E. Alexander, Dale, and Richard, Mr. and Mrs. D. L. McMillin, Miss Connie Green, Ray, Gunderson, and Dr. W. P. Lockwood, all of Grants, N. M.; Mrs. Tom Reatty, grandmother of the bridegroom, Albuquerque.

Mrs. Louis Daniel, Joy Louise, and Gene, Mrs. A. A. Holland, grandmother of the bride, Mr. and Mrs. Leonard Gunderson, and Mr. and Mrs. Charles Hall, all of Amarillo; Mrs. Frank I. Ried, Patsy, and Frank Dumas; Mrs. Guy H. Rush and Inamurie Rush, Kalamazoo, Mich.; Mrs. J. C. West, Mrs. W. E. Marshall, Mrs. Jack Harris, Mrs. Edwin Owen and Mrs. D'Spain.

KELLEVILLE — (Special) — Mrs. Harris D'Spain was hostess at the last meeting of the Lazy Daisy Club.

Present were Mrs. J. W. Gregory, Mrs. Orval Thompson, Mrs. Clarence Drum, Mrs. Archie Farner, Mrs. Bud Holmes, Mrs. E. C. West, Mrs. W. E. Marshall, Mrs. Jack Harris, Mrs. Edwin Owen and Mrs. D'Spain.

Miss Rosamond Allen, Chet L. Reeves, Jr., Are Married In Ceremony Read in First Methodist Church of Pampa

MRS. CHET REEVES, JR.

In a wedding ceremony read by Dr. Orion Carter in the First Methodist Church at 9 o'clock last Sunday morning, Miss Rosamond Allen became the bride of Chet L. Reeves, Jr. The bride is the daughter of Mr. and Mrs. Houston Allen, 639 North Faulkner, and the bridegroom is the son of Mr. and Mrs. Chet Reeves, Sr., of Childress.

For the exchange of vows the young couple stood before an arch of sweet peas and fern flanked by candelabra, all baskets of white gladioli and feverfew tied with blue satin bows, and palms.

The bride, entering on the arm of her father who gave her in marriage, wore an ankle-length gown of imported lace over nylon net and tulle. It was fashioned with a fitted bodice, high neckline, short sleeves and full skirt. Her shoulder-length veil fell from a halo headdress. She wore imported lace mitts and carried a bridal bouquet of yellow rosebuds, blue carnations and white feverfew arranged with blue net and white streamers.

The maid of honor, Miss Sharon Chapman, wore a dress of pale blue rayon organdy. It was fashioned after the bride's gown, with short sleeves and high neckline, and was ankle length. She wore a blue halo and white gloves, and carried a nosegay of white carnations and blue lace.

Mrs. Allen, mother of the bride, wore a navy blue dress with a small corsage of pink carnations at the throat. Her accessories were also pink. The bridegroom's mother, Mrs. Reeves, wore a navy and white dress with blue accessories. Her corsage was of white carnations.

At the organ, Tommy Higgs played the traditional wedding marches and also played organ selections preceding the ceremony. Miss Berenice Homer sang "A Sweet Mystery of Life" and "Because." Ushers were Orin Allen, Lubbock, brother of the bride, and Dick Reeves of Childress, brother of the bridegroom.

The bride was graduated from Pampa High School and attended West Texas State College last year. The bridegroom is a graduate of the Childress High School and served 27 months in the Naval Air Corps. He also attended WTSC last year.

The young couple will live in Canyon where Mr. Reeves will attend school.

Following the ceremony a reception was given for the bride and groom at the home of the bride's parents, Miss Nancy Brummett was at the guest register, both at the church and at the reception.

The three-tiered wedding cake, topped with an ornament of love birds and wedding rings, was served by Miss Sue Hart, Miss Nadine Pierce poured the coffee.

For the wedding trip to Oklahoma the bride changed to an aqua two-piece dress. With it she wore tan and brown accessories and a corsage of yellow rosebuds.

Out-of-town wedding guests at the bridegroom's mother, Childress; Dick Reeves, Mr. and Mrs. Fred Clark, Harold and Suzanne, also of Childress; Mrs. Roy Dean Philip, and Billy, and Mr. and Mrs. Orin Allen and Tommy Lubbock.

Mr. and Mrs. J. P. White, Quaque; Mr. and Mrs. L. W. Higgins, Doyl, Dearl and Houston Higgins, Dallas; Mrs. R. L. Higginbotham, Myrna and Nancy, Amarillo, and Capicola Wilson, New Orleans, La.

Miss Turner Is Bride Of Billy Cox

In a double-ring, home ceremony, read by J. P. Crenshaw, minister of the Church of Christ, Miss Beula Turner became the bride of Billy Cox on June 25. Vows were exchanged in the home of the bride's parents, Mr. and Mrs. Alvin B. Turner, of the Kingsmill Cabot Camp. The bridegroom is the son of Mr. and Mrs. Clyde Cox of Pampa.

Marriage vows were repeated in the Turner living room with a large window and white tapers in candelabra forming a background; floral arrangements in the bride's chosen colors of blue and white decorated the home.

The bride's sister, Miss Iola Turner lighted the candles, and a school friend, Miss Bonnie Grey, was maid of honor.

The bride's father gave her in marriage. She wore a street-length dress of white nylon fashioned with horizontal pleated bodice, and the full skirt was also made with horizontal pleats. The sleeves were short and the high neckline was set off by a small Peter Pan collar.

For something old she carried a handkerchief belonging to her grandmother, Mrs. W. J. Noblitt, and she wore a necklace borrowed from her mother. Her bridal bouquet of gardenias and blue streamers was carried on a white Bible.

The maid of honor wore a dress of blue crepe with white accessories and a corsage of white carnations.

The bride's mother was dressed in orchid printed silk with black accessories, and she wore a corsage of white daisies.

Mrs. Cox, mother of the bridegroom, wore a black crepe dress and black accessories, and she also wore a white daisy corsage.

For the trip to Amarillo the bride chose a dress of blue eyelid embroidery. She wore white accessories and gardenias.

Best man was Leon Howell of Pampa.

At the reception following the ceremony Mrs. Eugene Turner, sister-in-law of the bride, served the cake and another sister-in-law, Mrs. Melvin Turner, served the punch.

The wedding and reception were attended by relatives and a few close friends.

The couple will live in Pampa at 517 North Faulkner.

PRE-NUPTIAL COURTESIES — Among pre-nuptial courtesies extended Miss Beula Turner was a bridal shower in the home of Mrs. O. E. McDowell. Hostesses were Mrs. McDowell, Mrs. Robert Burns, Mrs. D. E. Roundtree, Mrs. T. C. Carter, Mrs. T. A. Buchanan, Mrs. H. A. Layne and Mrs. D. W. Coffman.

The honoree's colors of blue and white were carried out in the decorative scheme and in refreshments.

Misses Doris Davis, Gale Spencer and Mary Jo Coffman sang "I Love My 'Because'" and "I Love You Truly," and Miss Ervina McDowell played several piano selections during the afternoon.

Miss McDowell presented Miss Turner with a hand painted loose-leaf recipe notebook in which each guest wrote her favorite recipe.

After the gifts had been presented, canapés, cookies, mints and frosted pineapple punch were served. Favors were miniature bridal couples.

Those present were Mmes. M. G. Williams, Ruby Stovall, W. S. Wooten, Davis, J. L. Spencer, L. A. Barnes, Edgar Wood, J. C. Steward, W. E. Cobe, Bill S. Gorton, Merta Hodges, G. F. Alexander, Cluette Baker, Arvil Williams, Claudine Balch, E. G. Frasier and Clarence Kennedy.

Mmes. W. D. Varson, Ray Jones, Derrel Gogsett, Betty Gage, J. P. Crenshaw, A. C. Cox, J. R. Perkins, Clyde Cox, Eugene Turner, Alvin Turner and Velma Hile.

Misses Gale Spencer, Doris Davis, Mary Jo Coffman, Ervina McDowell, Mary Jo Steward, Edna Daughette, Berdie Derrick, Gloria Kennedy, Iola Turner, Norma Balch and Belle Steward. There were also 30 gifts sent by those who were unable to be present.

Mrs. W. E. Noblitt and Mrs. D. L. Tucker hosted a bridal shower for Miss Turner in the home of Mrs. Noblitt. They served blue and white cake and orange sherbet.

Guests were Mr. and Mrs. Ralph Cole, Mrs. Ernest Brown, Mrs. Gladys Glover, Mr. and Mrs. Gene Turner, Mr. and Mrs. Ivan Noblitt, Mr. and Mrs. Melvin Turner, Mr. and Mrs. Clayton Noblitt, Bill Cox, Mr. and Mrs. Alvin Turner, E. Noblitt, Misses Iola, Melva, Cara Sue and Tarry Turner.

Another bridal shower favoring Miss Beula Turner was given in the home of Mrs. Hugh Layne of the Kingsmill Cabot Camp. Individual two-tiered cakes topped with miniature bride couples were served with punch and salted almonds.

Those present were Mmes. Garland James, Jack Stafford, W. L. Marshall, Howard Coday, Mordecai Wainwright, Floyd Crow, George Dauner, John Rames, Holland, George Henderson, Horace Blackshear, Ernest Balls, Hest, Alvin Turner and Iola.

Other guests were Mrs. Henry Mayo and daughters, Virginia and Senora, Mrs. Melvin Turner and Mrs. Eugene Turner.

Many gifts were sent by those unable to attend.

Patricia Jo Burrow, Former Pampa, Becomes Bride of Wyatt B. Watson

A ceremony read in Walter Reed Chapel, Washington, D. C., on June 15, united in marriage Miss Patricia Jo Burrow and Wyatt Donald Watson. The ceremony was read by Chaplain James Hern of the United States Army.

The bride is the daughter of Major and Mrs. Joseph E. Burrow. The Burrows now live in Washington, D. C., and formerly lived at 1238 North Russell, Pampa, when Miss Burrow attended the Pampa High School. The bridegroom is the son of Mrs. Wyatt B. Watson of Brownwood, and the late Mr. Watson.

Matron of honor was Mrs. James Butler of Silver Spring, Md., and Miss Jan Knickerbocker of Midland was maid of honor. Bridesmaids were Miss Gene Shelley, Mt. Gretna, Pa., and Miss Fran Engler of Arlington, Va. Flower girls were Katie Thomson, Silver Spring, and Suzanne Thompson of Washington, D. C.

Best man was Joseph E. Burrow, Jr., of Washington, D. C., and John Fitzgerald, also of Washington, D. C., and James Butler, Silver Spring, ushered. Master John Claiborne of Dallas was junior usher.

The bride entered on the arm of her father, who gave her in marriage. She wore a street-length dress of white nylon fashioned with horizontal pleated bodice, and the full skirt was also made with horizontal pleats. The sleeves were short and the high neckline was set off by a small Peter Pan collar.

For something old she carried a handkerchief belonging to her grandmother, Mrs. W. J. Noblitt, and she wore a necklace borrowed from her mother. Her bridal bouquet of gardenias and blue streamers was carried on a white Bible.

Palaver de Pampa

A MOTHER'S PRAYER
Rain, rain, go away
Come again another day.
Then to the kiddies we can say,
"Go along outside to play!"

ALL THIS RAIN and stormy weather gave us the opportunity to find out what nice folks the Dick Walkers are. There ought to be more like 'em! As they went around picking up two by fours clustering their back yard after the "high wind" last week, they remarked, "Could have been a lot worse if it could have hit somebody's house." They had a lot of damage on their two places, but instead of lamenting over what the storm did, they were being grateful for the things it didn't do. One thing: the Walkers sure held open house last Sunday when people drove out to see the damage. With a lovely home like theirs I bet they didn't mind that a bit — they've just recently finished remodeling.

I DON'T KNOW WHY people are driving to Lake McClellan when it's been raining lakes right in their own front yards, but most any weekend you'll see groups on water skis zooming across the water. It looks like fun, but 'taint easy, so land lubber me just won't venture forth. There's one tall, blonde fellow who's getting pretty good. See him around town, but don't know his name — do you?

THAT PIE SUPPER Friday night was really a fine thing, not only for the lush pies, but for the opportunity it gave to meet the congressional candidates. Some of the Gray County home demonstration clubs were responsible for the occasion.

PANORAMICALLY: Homer Matney night was a sentimental occasion for sports fans. The H. H. Butlers should be arriving this week from Fossum Kingdom where they spent the last three weeks. Mrs. Raymond Harrah had two escorts when I spied her July 4th Eve. Mr. Harrah and Ray, Jr., who, by the way, is a favorite golf partner of young Dr. Hampton. Pert, pretty Patty Pepin (how's that for alliteration?) is always friendly. That's the kindest family dashing about town in that little orange Noak Commander. Don't know them. The Hugh Burdette home is a lovely place. I think the yard is one of the "best-dressed" in town. It's shady, too, and that's something here where trees don't "just grow" — we have to plant them and fret over them for years. It's more fun to wander about in that array of lamps at the Corner Drug in Letors. John Studer was in serious conversation coming down the post office steps the other morning. A couple on the corner of Gillespie and Francis working away on what appeared to be the frame of a boat. The Smiley Hendersons are a nice family. I saw them all riding around together the other evening. Bachelor Harry Kerbow has a real sporty red silk shirt with multi-colored figures on it. He's a busy 20-30 member. Who lives at 303 Starkweather where the O. H. Ingrums usually live? There's more building going on around here. The Zack Grifins are leaving for Tennessee. Traveling in a new Buick, too. Mrs. Ed Weiss is a pleasant visitor to social functions about town. The J. Hatchers' little daughter is brushing up on her riding technique. The Kid Pony Show is just around the month. She'll win another prize this year. I betcha! And thanks to Mrs. Jake Garman for backing me up on my stand on fans for the ladies. At least two of us are for their revival.

WHEN THE NEW B&PW president, Gladys Howard, gets back from that national convention in San Francisco, I hope I have the opportunity to talk with her. She has a marvellous knack of describing places she's been — makes me feel like I've been there, too! Long about Christmas time she was on a shopping spree in Denver and you should have heard her descriptions of the department store windows — the May Co., Denver Dry Goods, and on and on. If you're dying to get-out to the West Coast this summer, and can't, the next best thing is chatting with Gladys!

HEAR THAT Gene Finkbeiner, who holds a world of talent in his fingertips, is here for the summer from the New England Conservatory of Music. Too bad he wasn't here for the piano symphony, but maybe we'll get to hear him "in private." Friendly fellow.

A WEEK AGO the E. J. O'Briens' son and daughter-in-law visited here en route to their new home in the East. Young O'Brient was carrying his brand new sheepskin from the U. of T. Those two would have been a fine addition to the young married set. She's a very friendly and likeable person, a Kappa Kappa Gamma who likes Texas better than New York! Her parents, the George Roths, lived here during the war years, but are back in New York again. The young couple was honeymooning this time almost a year ago, and they sent this message home, "Having a wonderful time. Glad you're not here!"

IF YOU'RE TIRED of standing over a hot range these summer nights, drag out your chafin dish left over from college days and whip up a Welsh rarebit or something like scrambled eggs. I guarantee things will taste just as good as they did when cooked "on the sly" in a dorm room! It's cool cooking that way, too.

I'VE HEARD some wild accusations against people who carry pad and pencil about — everyone thinks they're spying for Peg. So as not to be suspicious, I better start carrying a typewriter in my purse. And you should never, never takes notes in public if you don't want to be accused of being PEG O' PAMPA.

Leading Business Woman Retires; Will Now Be 'Plain Housewife'

One of Pampa's leading business women will step out of the local industrial picture this week when Mrs. Myrtle Simmons Gilmore turns over her children's shop at 106 S. Cuyler to its new owner and becomes Mrs. Gilmore, housewife.

Myrtle Simmons, who started on the proverbial shoestring, has built a tiny shop into the largest exclusive children's shop in the Southwest in 12 years.

On May 20, 1949, Myrtle Simmons was married to Carl W. West, and it is there that Mrs. Gilmore expects to spend most of her time now, with the exception of trips here and her husband will take together.

Mrs. Gilmore was well acquainted with children's wear before she opened her own shop on March 1, 1948, having managed the children's department in Mitchell's Ready to Wear for five years. That store closed in 1938 and it was then when looking

MRS. GILMORE

about for another job, that she decided to open her own shop. Since she knew children's wear, she decided to handle it exclusively. A thorough knowledge of her field added to a shrewd business sense and great enthusiasm brought success to the owner.

Mrs. Gilmore first opened a children's shop at 111 South Ruston Building and remained there two years. She then moved to the present location on March 1, 1949. She credits her successful business to Pampa, and is deeply appreciative of her patrons who have come to depend on her shop for children's clothing needs. She also expressed the hope that they will remain faithful to her successor, Mrs. Charley Ford.

A great believer in Pampa and its future, Mrs. Gilmore is a member of the Methodist Church and has belonged to the local Business and Professional Women's Club for the past 10 years. She is also a member of the Zonta Club of Amarillo.

SARAH T. HUGHES, Dallas, district judge, was elected president of the National Federation of Business and Professional Women's Clubs at the national convention and election, held last week in San Francisco. Judge Hughes spoke in Pampa last fall on "Jury Service for Women."

Ice Cream Cake Is Easy to Make

Let's have an ice cream festival at your neighborhood store. Ask all the children to bring a devil's food ice cream cake with coffee cream sauce. It's easy to make. You can buy the ice cream now at your favorite super market as well as at your neighborhood store. Also all the fixings such as the packaged devil's food cake mix.

So let's plan our ice cream festival. Ask all the children to bring a devil's food ice cream cake. The dairy foods family contains protein, calcium and iron. Devil's Food Ice Cream Cake (Serves 6-8).

One quart vanilla ice cream (bulk), 1 package devil's food cake mix.

Place ice cream in freezing compartment of refrigerator until ready to use. Prepare cake mix according to the directions on the package. Bake in a buttered loaf pan 35 to 40 for 45 minutes. Allow cake to cool thoroughly. Cut into three layers.

Spread ice cream between the layers reserving enough ice cream to make four scoops for the top of cake. Place layers in freezing compartment of refrigerator about with the remaining ice cream.

When ice cream and cake have become firm, remove from refrigerator, place on serving tray and top with scoops of ice cream in a row down the center of cake. Serve immediately with Coffee Cream Sauce.

Coffee Cream Sauce (Makes about 3/4 cup sauce)

One cup light brown sugar, 1 tablespoon instant powdered coffee, 1/4 teaspoon salt, 1 teaspoon cornstarch, 2 tablespoons butter, 1/2 cup light cream, 1 teaspoon vanilla extract.

Mix sugar, coffee salt and cornstarch together. Add butter and cream and stir over low heat until

WCS Members Hear Report on General Assembly

Pictures of the General Assembly of the Methodist Women's Society of Christian Service were shown and discussed by Mrs. Kermit Lawson of Panhandle for a meeting of WCS in Fellowship Hall of the Pampa First Methodist Church Wednesday. The Assembly met in Cleveland, Ohio, April 18-21.

Mrs. Lawson said that the Assembly, which had as its theme "Christian Faith for a World Revolution," was beautifully carried out by a pageant, displays and speakers. She said there were about 200 missionaries present, as well as 779 delegates.

The meeting on Wednesday was opened with a song, "We've a Story to Tell," and the response reading on "Brotherly Love."

Mrs. Wilkinson introduced Mrs. Lawson to the group.

Circles Five, Six and Seven attended the meeting.

Frankie Jean Berry, Phillip Bynum Marry

A ceremony read in the Church of Christ, parsonage in Clarksburg, N. M., last Monday, united in marriage Miss Frankie Jean Berry and Phillip Bynum. The bride is the daughter of Mr. and Mrs. Frank Berry and the bridegroom is the son of Mr. and Mrs. J. E. Bynum.

Mr. Gilbert Wilson, attended the bride as maid of honor and Mrs. Berry, brother of the bride, was best man.

The bride was dressed in pale blue crepe with white accessories. Her carriage was of white carriages. Mrs. Wilson wore a navy blue dress and her accessories were also white.

Mr. and Mrs. Bynum live at 415 North Gray in Pampa.

Carolyn Kay Ford Has Birthday Party

Carolyn Kay Ford celebrated her 11th birthday Wednesday evening from 6 till 8 with a party in a row down the center of cake. Serve immediately with Coffee Cream Sauce.

Those present were Mrs. and Mrs. Evelyn Ford, parents of the honoree; her aunt, Mrs. Margaret Wallace; Jerry Ford, Darlene, Jan and Charles; Coffee; Kola; 1/2 cup light cream, 1 teaspoon vanilla extract.

Mix sugar, coffee salt and cornstarch together. Add butter and cream and stir over low heat until

Byars Family Holds Reunion

A family reunion was held at the home of Mr. and Mrs. Luther Byars at Clarendon on Sunday, July 2.

Basket lunches were brought and served buffet style.

Those present were: Mr. and Mrs. Cody Taylor and children and Mrs. Betty Kennard, Los Angeles; Mr. and Mrs. E. E. White, Denver; Mr. and Mrs. Charles Renning and daughter, Louviers, Colo.; W. R. Byars, Grandview, Tex.

Mr. and Mrs. M. M. Kennard, Mr. and Mrs. E. S. Byars and children, Mr. and Mrs. V. G. Byars and Kent, Mrs. Troy Davis and daughters, Mr. and Mrs. M. D. Kennard and children, and the Rev. and Mrs. Young Tucker, all of Lesley, Tex.

Mrs. Foy Young and daughters, Mrs. Kate Byars and Wyatt Byars, all of Memphis, Tex.; Mr. and Mrs. J. B. Byars and family, Lakeview. Mr. and Mrs. Lloyd Byars and daughters and Mr. and Mrs. Jimmie McKee and family, all of Amarillo; Mr. and Mrs. Frank Babcock and family, Grook; Phillip Bynum, Mr. and Mrs. Frank Berry and Jean, and Mr. and Mrs. Fern Bean, all of Pampa.

What's Cookin' In Gray County HD Club Work

Mr. and Mrs. O. W. Stapp of Alameda have completely refurnished their living room and also the bedroom of their nine-year-old daughter, Wanda.

SUMMER DESSERTS:

THREE FRUIT ICE - Make a syrup of 1 cup sugar and 1/2 cup water. Add the juice of 3 oranges and 2 lemons. Then add 2 bananas which have been mashed. Freeze. This amount will make five generous servings. If frozen in the mechanical refrigerator, remove when frozen nearly solid and beat until fluffy. Store in tray compartment of refrigerator.

Variations: Lemon juice, orange juice, grape juice, finely shredded pineapple with lemon juice, or peach pulp and lemon juice also make nice fruit ices. Just combine them with sugar and water syrup and freeze.

FROZEN LEMON TORTE - Crush 3/4 cup of vanilla wafers and line a greased refrigerator tray with one half of these. Beat 3 egg yolks well and combine with 1/4 cup lemon juice, grated rind of one lemon, 1-8 teaspoon salt, and 1/2 cup sugar. Cook in a double boiler until thick. Cool. Whip 1/2 cup of cream or chilled evaporated milk. If you use evaporated milk, it must be chilled until icy or it won't whip satisfactorily. Add the whipped cream with 3 stiffly beaten egg whites to the lemon mixture. Pour over the wafer crumbs and cover with the remaining crumbs. Freeze. Serve.

BERRY CUPS - A novel way to serve fresh berries is with cookies. Pretty scalloped cookie shell cups filled with fresh strawberries, blackberries, or dewberries and topped with whipped

cream makes a mighty good and appreciated dessert.

Just use your favorite rolled cookie dough to make the cups. The dough will be easier to roll if it is chilled. Roll out the dough to a thickness of about one-eighth inch, then cut the circles with a two-inch cookie cutter. Line greased three-inch muffin cups with four cookies each and overlap the edges of the cookies about half an inch. Place a small bit of dough in the bottom to cover the open space. Bake the shells in a moderate oven (350 to 375 degrees F.) for 10 to 15 minutes. Just before serving, fill the shells with fresh berries that have been lightly sweetened and top with whipped cream. This dessert is just as good as it sounds.

Have you ever tried filled cookies on the family or club members? They are easy to prepare. Roll the cookie dough pretty thin - about an eighth of an inch thick and cut with a two and one-half inch cookie cutter. Dot the center of the cookie with apple butter, preserves or your favorite jelly or jam. Next fold each cookie in half and spread the edges. Press a whole pecan or candied cherry into the spaled edge to make a pretty fastener. Bake the cookies on an ungreased baking sheet and in a moderate oven (350 to 375 degrees F.) for about 10 minutes. They are particularly good served with milk, iced coffee or tea.

Church Group Meets in McLean

McLEAN - (Special) - Mrs. C. E. Cortis was leader of a missionary program at a meeting of the Ladies' Auxiliary at the Presbyterian Church.

The meeting opened with the singing of the club theme song, followed with a prayer by Mrs. Haskell Smith. The devotional was given by Mrs. Finn Burland, who also presented a musical poem, accompanied at the piano by Mrs. Travis Stokes.

Mrs. Cortis gave a brief history of missionaries, and Mrs. George MacDonald discussed missionary names and prayer. Sue Glass and Darlene Shadid, accompanied by LaWanda Shadid, gave a vocal duet. Mrs. W. W. Shadid spoke

Menu in Israel Is Called Good

JERUSALEM - (AP) - Lord Boyd Orr, former director-general of the United Nations food and agricultural organization, thinks Israel has a "good menu."

He so told Dr. Dov Joseph, minister of supply and rationing, during a visit to Israel. Lord Boyd Orr examined the food lists prepared by the minister and said the present food rations were sufficient to maintain the health of the Israelis.

Israelis long have complained about a 7-ounce individual weekly meat ration and a steady diet of frozen fish, potatoes, carrots and peas. They also get some eggs.

More Jobs in Town City Managers Say

CHICAGO - (AP) - The number of men and women who work for cities in the U.S. has reached a record high.

The International City Managers Assoc. reports the total of such employes was 1,082,000 at the start of 1950 - a gain of 43,000 in one year. Payrolls have gone up, too. They totaled \$219,000,000, a gain of \$206,000,000 a month a year earlier.

Names Coined for Common Carrot

MOSCOW, Idaho - (AP) - The names they think up for carrots. You could conceivably ask for a hamburger or a steamroller and avoid up with a sample of rabbit fodder.

There are just two of the 350 variety names for carrots, reports a recent circular from the U.S. Department of Agriculture. Jim Kraus of the College of Agriculture here helped write the pamphlet which appears after some confusion has been reported among carrot growers and buyers about the right names for the different kinds. Other fancy names for carrots are orange ice, braunschweiger, airliner, stump, oxheart, and narrowshouldered.

Cleveland's 'Friendship Circuit Rider' Stirs Up Global Gabfest With 143,000 Kiddies

PEN FRIENDS MEET—After years of correspondence, these Cleveland World Friends' Club members and their opposite numbers from other countries got together in Cleveland. Left to right: Jerry Perlman, Cleveland; Hazel Gilmore, Canada; Ingrid Johansson, Sweden; Louise Faldt, Cleveland.

By RICHARD KLEINER
NEA Staff Correspondent
NEW YORK (NEA)—Take about 143,000 youngsters—writing letters back and forth to each other, and you're bound to stir up something. Margaret Johnson has done just that.

Mrs. Johnson is director of the Cleveland Press World Friends' Club. As such, she supervises the "pen friendships" of 58,000 Cleveland boys and girls between 10 and 20, and 85,000 foreign children in over 80 countries of the world.

She has just completed her second visit to Europe, where she saw at first hand the results of the global gabfest by mail. She visited in homes of her foreign correspondents, talked with teachers, exchanged notes with other letter-encouraging groups— and, incidentally, had a good time.

She found the correspondence with the United States is a big thing in the lives of many European youngsters, especially in these days of international tension.

"I think the World Friends' Club, and groups like it, is a great hope for peace," she said. "Everywhere I went they felt that this idea is much more important today than ever before." Education authorities in the American zone of Germany, for example, told Mrs. Johnson they consider her club vitally important. The exchange of letters with American youth, they said, affords the democratic philosophy far better than any other possible means.

During her trip — on which she visited France, Germany, Austria, Switzerland, the Netherlands, Denmark, Scotland, Northern Ireland and England — she wrote weekly letters back to Cleveland. These appeared in the club's once-a-week space in the Press, signed "Your Friendship Circuit Rider, Margaret Johnson."

She told of her meetings with pen friends of Clevelanders and their families. In her 50-odd visits in the homes of the youngsters, she was always welcomed with all the hospitality they could muster. Parents shared the joy of meeting the woman who had brought so much pleasure into the lives of their children.

In Belfast, for example, she visited with a girl who has been writing to a Cleveland girl for several years. The Irish child's father wanted to show his appreciation, but, as a taxi driver, he couldn't do much. The only thing he could do was to take Mrs. Johnson on a long drive up the coast of Ireland in his cab. They both enjoyed the outing.

The club was founded 13 years ago, as part of the boys and girls page of the Press. When the page was dropped, the club continued. It is run with loving care by Mrs. Johnson, an eager, motherly-looking woman. Her two daughters are enthusiastic club members, too.

When a youngster applies for membership, a yellow card is filled out at club headquarters. On the card goes all the vital

Frankie Ordered To Pay Support

SANTA MONICA, Calif. (AP)—Pending trial Sept. 8 of Nancy Sinatra's separate maintenance suit, her estranged husband, Frankie Sinatra, must pay her \$2,760 monthly for support of herself and three minor children.

Superior court also ordered Sinatra to pay \$4,500 in attorney fees in connection with the suit.

Frankie is in England, where Actress Ava Gardner is making a film.

In the Sequoia National Park there are 8,722 giant redwood trees more than 10 feet in diameter.

United States that they've come here for college.

One Dutch girl came to the United States under the quota, after years of reading glowing letters from her Cleveland correspondent. She stayed with her pen friend on her parents' farm near Cleveland and liked it so much that she got a job. Now she's married and very happy that she began by writing a letter.

Traffic Signal Plan Is Inaugurated by Fire Department

Pampa's new traffic signal lights, all set now where they will turn red when the fire department goes out on call, according to J. E. Winborne, fire chief.

Winborne stated that a push button control, located in the fire house, automatically puts all lights on red for a period of 70 seconds, giving fire trucks time to pass through downtown intersections. The main controls are located in the police station.

The chief said the fire station has no control over lights at such intersections as S. Cuyler and Brown, but that none is needed in those areas.

Winborne urged motorists to pull over as far to the right as possible when the fire sirens sound and the lights go on red, and to clear the intersections as soon as possible.

The star Sirius is 8.6 light years away.

Brady Installed As Commander Of Pythian Lodge

W. T. Brady was installed as chancellor commander in the installation of officers in the Pampa lodge 80 of Knights of Pythias.

Other officers installed in the special meeting at Castle hall were W. B. Neel, vice chancellor; James C. Hopkins, prelate; George Neef, master of works; Jack Back, treasurer; B. B. Altman, Jr., secretary; Roy Bennett, master of arms; M. E. Warden, inner guard; Carl Sexton, outer guard; with G. R. Fugate, A. L. Weathered, and Tony Smith as trustees.

George Neef is the outgoing chancellor commander.

James Culpepper, district deputy grand chancellor was installing officer, assisted by A. E. Weathered, lodge deputy, and Ray Barnard, all of Pampa.

Members of the lodge will meet next Thursday at 5:15 p.m. and leave from the hall at 5:30 p.m. to visit the Childress lodge.

Soviet Paper Calls Lie 'Abettor' of Aggression by U.S.

MOSCOW — The Latent Gazette yesterday blasted United Nations Secretary-General Trygve Lie as "an abettor of American aggression."

Assailing Lie for the recent Security Council call for aid to South Korea, the paper said: "After he donned the mask of an objective arbitrator, Trygve Lie travelled along European capitals on a peace mission."

worth after Trygve Lie's openly coming forth against peace and in defense of an aggressive war?" The paper described Lie's peace mission during which he conferred with Prime Minister Stalin here, as "no more than a maneuver designed to detract attention from the war venture prepared by the Americans in the Far East."

Two Die in Collision Of Truck and Car

FABENS — Mrs. Punita Irene Doyle, 60, and her daughter, Mrs. Vera Bankhead, 18, of Monahans died yesterday of injuries received in a truck-car collision near here.

HEAT'S ON—On the roof playground of St. Ignatius Loyola Day Nursery, New York, one of the Sisters of St. Dominic sprays children who came to cool off while their mothers are away at work. The nursery is one of 16 in the New York Archdiocese and is affiliated with New York Catholic Charities.

JACOBY ON CANASTA

A Meager Opening Meld Is Best

By OSWALD JACOBY
Written for NEA Service

"Here is a situation that puzzles me all the time," is the complaint of a reader in St. Paul, Minn. "I hold three tens, two nines, and two deuces — among other cards. It is the beginning of the game, and both sides need 50 points for the first meld. What is the better play, to meld the three tens and the two deuces — making it easier to get a canasta; or to meld three tens with one deuce and two nines with the other deuce, making it easier for partner to ask to one of the two melds?"

In general, neither is a good play. If nobody has melded, your best bet usually is to put nothing down at all. Wait until you can get the discard pile with your meld. This is particularly true if you have a couple of pairs among your other cards — especially pairs of low cards that count only 5 points each.

If you have some pairs of this kind, the chances are very good that one of those cards will be discarded to you very soon. Then you can take the discard pile at the same time that you make your initial meld.

If you have no low pairs, it may be wise to meld from your hand. However, the general principle of making the initial meld is to use as few cards as possible. Hence you would meld the three tens and only one deuce. Why use five cards for the meld if you can do it with only four?

The situation is quite different if the opponents have already melded and if they have control of the discard pile. Then you are interested in making a canasta quickly and melding out.

In this case you must remember what your partner has discarded and what he has failed to pick up from the discard pile. If he has discarded tens, you know that he has few tens left in his hand (if any); and likewise, if he has discarded nines, if a ten or a nine was discarded to him, and he failed to pick it up, you know he does not hold the matching cards.

Using this evidence as a guide, you should put down three tens and both deuces if you think that he probably has some tens. If you have reason to believe that he lacks tens, you should meld both deuces with the pair of nines.

If you have no evidence at all to go on, meld the three tens with both deuces. A five-card meld is wiser to a canasta than a four-card meld such as both nines with the two deuces.

The important thing is to know what you are aiming for. At the beginning of a hand you don't ordinarily plan to meld out in a

Labor Leadership?

Three men attempting to go to their jobs at the American Enka rayon plant near Morristown, Tenn. were shot down recently.

These men were shot down because a man named Philip Murray and a bunch of hoodlums he commands didn't want them to go to work.

In addition to shooting American citizens for trying to work, the CIO outlaws on strike at the American Enka plant sent a large force of gunfire into the plant.

That this nation tolerates such crimes as these is hard to believe. But the people do tolerate them.

Our lawmakers and administrators argue about such things as the Taft-Hartley law being tough on the labor union.

These labor czars have created a situation in this country whereby an honest workman either can't get a job or can't work at it.

The nation may be shocked by such crimes committed in the name of labor as those at Morristown and Lynch, Ky.

Free Your Buddies

President Truman has issued a full pardon to the Communists who had a long and noisome career in Massachusetts politics.

Fair Enough - Pegler

By WESTROK PEGLER

NEW YORK - In the memories of Ed Barrow for many years the business manager of the Yankees,

giving every exhibition game and winning the Brooklyn game, Dazzy Vance, a particular hammering in Atlanta.

Not that this column takes itself too seriously, being just an individual's opinions, but since we have discussed and argued the point of whether or not the U. S. is a Christian nation,

It worked out when America was allegedly "Christian" by initiative force and law. Democracy, unbridled majority rule without any minority rights,

Delaware (1797) - Blasphemy punished by sitting in the pillory for two hours, a ban on the forehead with the letter "B" and 39 lashes.

Maryland (1723) - Blasphemy punished by confiscation of property, the tongue bored through with a red-hot iron, the forehead branded and, for a third offense, death.

Massachusetts (1659) - Death penalty for Quakers. Whipping for Sunday-hunting; banishment for heresy (not agreeing with the established church); compulsory church attendance.

Virginia (1610) - Compulsory church attendance (at established church); death penalty for a third offense in failing to attend.

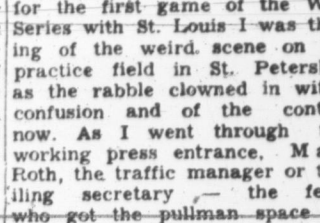

So They Say

The cost of failing to build a peaceful, prosperous world would be a third great war.

We Were Christian

The Canyon News this week carried a picture of a group of Panhandle residents visiting with the congressman, Ben Guill, in the nation's capital.

It is said that in the beginning (scholarly, isn't it?) women wore rings in their noses and men led them around by a rope fastened in the ring.

After a while, women's noses got sore and the men put the rings around their ankles. But pretty soon, men began to admire the way the lady's limbs and in order to increase and improve visibility, the rings were removed from the leg and placed on the arm.

The other day I overheard two kids talking and one said "Do you know what good, clean fun is?" The other answered, "No, what good is it?"

Opinions vary as to which is the longest word in the English language, but my nomination for that honor goes to the one that follows the statement "And now a word from our sponsor."

A lawyer was always lecturing his office boy, whether he needed it or not. One day he heard this conversation between the boy and the one employed next door:

FOR MEN ONLY: More than 161,000 Texas men are now receiving special treatments to arrest baldness or color their hair.

If the present trend continues, he says, hair coloring for men may be in the same casual class as hair tonic and shaving lotion.

National Whirligig

news behind the news

By RAY TUCKER

WASHINGTON - Dr. Francis E. Townsend, the 83-year-old pioneer of the movement for generous pensions for all the nation's aged,

make it impossible for beneficiaries to invest or build up a savings account of one kind or another.

He insists that the heaviest tax burden should fall on business and industry because, as he says, "My plan would make business men and those in industry the principal beneficiaries of a vast, increasing purchasing power."

VOTERS - Dr. Townsend may be pardoned if he figures that he has both parties in a hole and on the run on the issue of old age pensions and security.

Mr. Truman figures that if he favors the draft, that was before the United States Congress to continue the draft.

FOR MEN ONLY: More than 161,000 Texas men are now receiving special treatments to arrest baldness or color their hair.

If the present trend continues, he says, hair coloring for men may be in the same casual class as hair tonic and shaving lotion.

'Hassakake' Beats Old Way Of Saving Israel's Bathers

AP Newsfeatures
TEL AVIV, Israel — Down along the sandy stretches of Israel's Mediterranean shore there's a new trick in life-saving called "Hassakake."

It's credited with having saved the lives of 5,000 swimmers in the Tel Aviv area alone within the last 10 years. On the brilliant, warm, sunny days when thousands of Tel Avivians take to the water, as many as 25 bathers die each day.

"Hassakake," an Arabic derivative, might best be translated into "canoe."

One of the prime movers of the new life-saving system is broad-shouldered, tall, heavy-set Emil Avinery, 41. He was waterweight boxing champion of Palestine and the Near East from 1927 to 1934. Avinery and his friend, Joseph Weissman, have a crew of 14 lifeguards on duty every day. The waters around Tel Aviv and particularly nearby Jaffa have an exceptionally strong undercurrent.

When there's a cry of distress, Avinery and another lifeguard slam a surfboard — like banana-shaped small boat into the water. With double oars, they speed to the side of the drowning bather.

The swimmer is quickly pulled aboard the boat. It's about 17 feet long and four feet wide. Then while one lifeguard immediately gives the stricken swimmer artificial respiration, the other propels the boat to shore. Avinery says the usual method is for a lifeguard to swim out to the drowning person with a lifeline and the person then is pulled ashore. But, he says, many a half-drowned person dies by swallowing more water as he is pulled by a lifeline.

Avinery said during the war more than 400 Allied troops in Palestine were saved from drowning through the "Hassakake" system. He estimated that himself and Weissman had saved 2,000 bathers in 16 years.

Newspaperman Dies Of Heart Attack

HOUSTON — (AP) — Oscar Ollie Owens, 41, former city editor of the San Antonio Express, died here yesterday following a heart attack. He had been in ill health several months.

Owens began his newspaper career with the Beaumont Enterprise. Later worked for the San Antonio Evening News, the Houston Press, and in Lake Charles, La.

For the past few months he had lived in Houston.

Burial will be in Oakdale, La. Survivors include his parents, Mr. and Mrs. Sid Owens of Fisher, La.; seven sisters, Mrs. F. W. Burkhardt of Houston, Mrs. John Horocruk of Orange, Mrs. J. Jester of Elizabeth, Mrs. Jimmie Tupon and Mrs. J. H. Thompson of Lake Charles, Mrs. Ray Fiel of San Antonio, and Mrs. Rdy Hayes of Shreveport; and two brothers, Lon of Houston and Wayne of Fisher, La.

Statistics show that about twice as many persons are killed by firearms at home as while hunting.

TIPPY GREETING A GUEST—Mrs. Pat Todd, of La Jolla, Cal., makes friends with Lady Crossfield's dog, Tippy, as the American tennis star attends a charity party at Highgate, London.

Japan Police Force to Add More Reserves

TOKYO — (AP) — General MacArthur yesterday moved to protect his military rear by authorizing the Japanese to add a 75,000 man reserve to their police force and 8,000 to their coast guard.

It will bring Japan's total police force to 200,000 including 30,000 national police.

Authorization for the reserves was made in a letter to Japanese Prime Minister Shigeru Yoshida.

Japanese sources said the new reserve would be established directly under the government. They estimated recruiting and training would require at least three months.

MacArthur also authorized the National Maritime Safety Board — equivalent to a coast guard —

to add 8,000 men for a total of 18,000.

At present Japan has 95,000 metropolitan police which, with the national rural police force, total 125,000 men.

The rural police maintain order in smaller communities not served by the metropolitan force.

MacArthur's letter said that because of police efficiency "Japan stands out with a calmness and serenity which lends emphasis to the violence, confusion and disorder which exists in other nearby lands."

He said the reserves would insure this "favorable condition will continue unchallenged by lawless minorities."

Dalhart Votes On Issue of Bonds — Residents of Dalhart voted today on a \$700,000 bond issue.

The bonds would be used as follows: \$400,000 to buy the water production and distribution system of the Southwestern Public Service Co.; \$175,000 to improve the system; \$175,000 to improve the city-owned sewer system and \$40,000 for a swimming pool.

Senate-Side of Congress Now Holding Primary Oil Industry Legislation

Oil Shipments To Red China Being Stopped

WASHINGTON (AP)—American oil companies have pledged their help in a United States attempt to throttle oil shipments to Red China. The move is aimed at plugging any leaks of the strategic fuel to the Communist invaders of South Korea.

The State Department said the oil firms, which were not identified, had agreed to cut off supplies to the Chinese mainland. The government already had embargoed shipments from this country but some oil still was going to China from American sources overseas.

The United States also is taking other steps and seeking the help of other countries in tightening the embargo.

Britain, however, has refused to go along with a request to cut its shipments to China. A British foreign office spokesman, announcing this in London, said Britain takes the position that shipments by British oil companies now are "sufficient" only for civilian consumption in China.

State Department officials said aid for cooperation by the Netherlands will be the next step. Britain and the Netherlands are the largest suppliers of oil to the Chinese mainland.

Rulings on Imports, Taxes, Tidelands Face Committees

WASHINGTON (AP)—The oil industry will be watching the Senate side of the capitol the next two weeks.

The labor subcommittee headed by Senator Neely (D-W. Va.), which conducted hearings on the effects of oil imports, is scheduled to make its recommendations by July 15.

A recent injury has kept the West Virginia senator away from the capitol and delayed his committee's report. His group has concerned itself primarily with unemployment in coal mines, oil fields and related industries.

Cabot Moves Guymon Plant To Big Spring

Carl J. Wright, vice-president and general manager of General Atlas Carbon Co., announced today that the company's 2,150,000-gal. plant now located at Guyton, Okla., will be moved to near Big Spring, and converted from a gas furnace plant to an oil furnace plant. The moving operation will start immediately.

Mr. Wright said that it is expected that during the peak of construction the company will employ some 50 people, and that approximately 35 men will be required during operations.

The plant has been shut down at Guyton for over a year. Former employees will be utilized in both the construction and operation of the plant.

General Atlas Carbon Co.'s headquarters are at Pampa, where they have a large plant which produces both oil furnace black and gas furnace black.

Sherman County—Panhandle Eastern Pipe Line Co. No. 1, Cabot, Sec. 15, Blk. 3, T&NO, set retainer plug at 2,291 feet and preparing to perforate.

Phillips Pet. Co. No. 1, Blvms "Q", Sec. 30, Blk. 1-C, GH&H, cored 959 MCF gas with estimated one barrel hourly salt water.

Panhandle Eastern Pipe Line Co. No. 1-46 Blake, Sec. 46, Blk. 3-T, T&NO, waiting on cable tools.

Phillips No. 2, Willico, Sec. 15, Blk. 3-T, T&NO, still waiting on test.

Phillips No. 3, Willico, Sec. 15, Blk. 3-T, T&NO, on test swabbed 96 barrels of oil per day; packer set to 5,900 feet and operators used hydraulic with 18 barrels at 3,000 pounds pressure, we swabbed 24 barrels of oil in two hours.

Phillips No. 4—Willico, 1,789 feet from S and 1,962.8 feet from W lines of Sec. 15, Blk. 3-T, T&NO, location.

Oklahoma—Harper County—Superior Oil Co. No. 1, Blasted, C. NE, NE, 12-21n-22w, spudded, drilling at 296 feet.

Ellis County—Sunray-Barnsdall No. 1, Ralph Hanan, C. SE, NW, 1-19n-24w, drilling below 9,000 feet.

Three Exploration Department Moves Made by Sunray Corp.

TULSA—Sunray Oil Corp.'s exploration department announced today that it has moved its Tulsa office to the new building at 1000 North Main St. The Tulsa office will be supervised by Tulsa through the creation of three operating divisions under general direction of Don O. Chappell, vice president, manager of exploration and land departments. It was announced by E. A. Markley, formerly chief geologist with the former Barnsdall-Oil Co., will be senior division geologist and supervisor of exploration for West Texas, Abilene and North Texas districts.

Marion J. Moore, formerly Sunray district geologist, San Antonio, will be division geologist and supervisor of exploration for the South Texas, Texas Gulf Coast, Louisiana, and Mississippi districts.

Sherrill A. Shannon, formerly Sunray district geologist, Wichita, Kansas, will be division geologist and supervisor of exploration for Kansas-Oklahoma and the Rocky Mountain states.

Harold G. Picklesimer will be advanced to district geologist in the San Antonio district, succeeding Moore, and Ralph C. Bland, formerly Tulsa district geologist, will be Tulsa district geologist. Bland will be transferred to the Tulsa office as geologist. Karl F. Martin, Jr., formerly in the Tulsa office, has been transferred to Midland as scout.

Local Driller Hurt Seriously Thursday

Ralph Collingsworth, driller for C. P. Drilling Co., was seriously injured Thursday when he was crushed between two trucks.

Collingsworth was between the beds of the trucks unloading a tire.

Before he could move from between the two one of the trucks slipped back, pinning him. At first it was believed there was no injury, but upon examination at Highland General Hospital, it was found he was hemorrhaging internally. An operation was performed Friday.

A check at the hospital Saturday morning indicated he was doing better than had been expected though his condition is still considered serious.

IPAA Declares Sharp Increases in Imports of Residual Fuel Bringing Heavy Damage to U.S.

Sharp increases in the importation of the type of fuel oil known as "residual" has brought heavy damage to the domestic oil industry, including both production and refining, it is shown in a currently released survey of this subject prepared by the Independent Petroleum Assoc. of America.

In recent investigations by committees of Congress dealing with the effect of imported oil, considerable emphasis was given to the residual oil phase. This is the heavy fuel that is left over after the lighter products are removed in the refining process. It is used principally for power by ships.

The Associated Press reports that the government has tightened its export controls over aviation gasoline and has asked American companies not to sell to Chinese Communists, lest it be shipped on to Korean Reds.

But, the AP goes on to say, oil industry spokesmen deny that they have been ordered to step up production of aviation gasoline at the expense of automobile

Record Stocks Cleaned Out By Motorists

By MAX SKELTON
HOUSTON (AP)—Summer motorists have wiped out a record gasoline stocks peak that caused worry three months ago.

Gasoline storage last week totaled 114,139,000 barrels, only 139,000 above the same period of last year.

This means consumer demand, since April 1, has reduced stocks by 21,447,000 barrels while also burning the approximately 18,000,000 barrels refineries have turned out each week since then.

On April 1 storage reached 135,586,000 barrels, an all-time record high. The old peak record first was broken in mid-February. New records then were recorded on five consecutive weeks.

There was "fear" the market would be flooded. Price wars were predicted.

There also were charges the oil industry was meeting a demand for crude storage cutbacks by refining crude and transferring it into gasoline storage.

About all that happened before the heavy summer demand really got underway was a flurry of price adjustments.

By the time the 135,000,000 barrel peak rolled around, oilmen were saying 1950 gasoline demand already was 5 percent above 1949, that the trend would continue.

Demand now is estimated 10 percent greater than last summer. There is no worry now about the possibility of a surplus being on hand two months from now when the vacation season ends.

The crude oil situation is just as bright.

Production last week averaged 5,435,350 barrels daily. Another hike was expected for the week ending today in the new allowable increases became effective July 1 in Texas, Kansas and Louisiana.

July increases in these states approximate 80,000 barrels a day and should push domestic production past the 5,500,000 daily mark.

That will be within striking distance of the 6,650,000 "barrel" daily peak set in December 1948 before start of a 1949 demand slump knocked nearly 1,000,000 barrels daily off domestic output.

New warnings of possible danger ahead now are being received by the oil industry.

Domestic storage of kerosene and light and heavy fuel oil now totals 38,600,000 barrels below the winter comes.

The industry, he said, should remember the past two winters have been light and "there always will be a chance a cold winter will come along and require much more heating oil."

He also visualized a big increase in the number of homes and industries making use of heating oil next winter.

Factory shipments of heating installation in the first four months of this year were 70 percent higher than in 1949," he said.

Such seasonal problems have plagued the oil industry ever since heavy postwar demand and a severe winter combined to tax output and supply to capacity in 1947.

Despite these problems, however, the industry, immediately upon outbreak of the Korean war, advised Washington officials it is prepared to meet "any and all foreseeable military emergencies."

Frank M. Porter, president of the American Petroleum Institute, said domestic crude production can be stepped up immediately to meet "any and all foreseeable military emergencies" without delay or waste.

He said United States fields produced at a rate of 1,117,000 barrels daily less than their combined efficient productive capacity during the first three months of this year.

Texas Drilling Holds Fast Pace

AUSTIN (AP)—The fast pace of oil exploration is holding up in Texas.

Drilling applications to date total 8,571 compared with 8,608 in the same period of 1949. Oil well completions so far in 1950 total 5,434 compared with 4,551 last year, the Railroad Commission announced.

Of the completed oil wells, 295 were wildcats.

First Oil Marketed From Sutton County

SAN ANGELO (AP)—Sutton County oil was on the market yesterday.

J. K. Davis, of Casper, Wyo., and others yesterday marketed the first oil from the county south of here. The 800 barrels of oil was sold to Southwest Crude Oil Purchasing Co. and trucked to a refinery at San Angelo.

Phillips Honors 25-Year Workers

Three Phillips employees at Plains and Canadian plants near Borger will receive service awards this month in celebration of 25 years of continuous employment with Phillips Petroleum Co.

John E. Connell, Bunavista, was first employed by Phillips as connection man at Burbank, Okla. During his employment as engine repairman, helper, mechanic and shop foreman, he has worked at Phillips Plains plant.

Andy B. Robertson, Bunavista, started work with the company as a laborer at Wewoka, Okla. Since his employment in 1925, Robertson has worked as laborer, engineer, engine repairman and pump and turbine repairman, his present job at Plains plant.

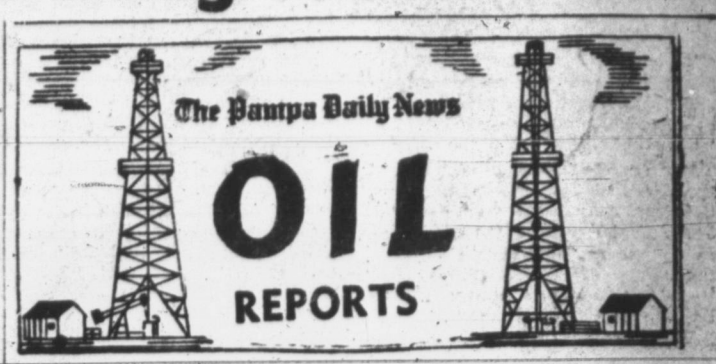

Frank J. Shoup, Borger, joined Phillips as a pipeline and Phillips pipe line and gasoline plant construction in Texas. In his 25 years with the company, Shoup has worked as a pipeline, truck driver, chemist, and chief operator. A chief operator since 1937, he has worked in that capacity at Carson and Johnson plants prior to his transfer to Canadian plant in 1949.

Activity Remains on Skids For Area During Past Week

Panhandle activity slipped again last week after a slight increase registered the last week in June. Number of new locations dropped to 12 from the previous week's 19. Report on completions show eight new oil wells finished in the area but no new gas wells or dry holes were filed.

A development well and Phillips' newly opened deep field in Sherman County was started by the company last week. The test is the No. 4 Willico in Sec. 15, Blk. 3-T, T&NO Survey.

Total increased potential for the past week was 654 barrels of oil, compared to 851 barrels recorded the week ended June 30. Current oil production is 21,562 barrels since Jan. 1, 1950.

Cotton Fibre Test Course Is Completed

AUSTIN — (AP) — The first course in using and instrumental cotton fiber tests has been completed at the University of Texas.

Machines have been developed in recent years to measure fiber length, length uniformity, strength, fineness, and maturity to a higher degree than is possible in manual classing. The instruments aid the classer in his work.

Turnout Light At Political Rally, Supper

Less than fifty voters turned out Friday night for a pie supper and political rally sponsored by the Hopkins, Grandview and Worthwhile home demonstration clubs in the Palm Room, city hall.

Although the room looked to be well filled, there were very few outsiders left after the number of members of the three clubs and the candidates were subtracted from the crowd of about 100. Most of the members and candidates brought their wives or husbands along to swell the crowd.

The candidates, evidently, aren't as flush this year as in previous campaign years when they bid as high as \$20 per pie or cake. Friday night's pie supper hit a high of \$6 on two pies. One of them bought by District Attorney Tom Braly, seeking reelection, the other by John V. Andrews, county Democratic chairman who is running for justice of the peace, Precinct 2, Place 2.

The only zip to the meeting was offered by congressional candidate Altavene Clark when she retorted to Mickey Ledrick's claim of fast action by Congressman Ben Gull in getting an appointment to the agriculture committee of the House. Mrs. Clark countered with the fact that Gull got on the committee because a vacancy existed on another committee that a Republican on the agriculture group wanted, leaving the way open for Gull.

Mrs. Clark and LeRoy LaMaster were the only congressional candidates present. Each spoke briefly. Mrs. Clark in her talk swore by "God's greenest sky" that she was not the "candidate of Washington, or a clique, or a few individuals" and said she was running on her own merits and "not the demerits of the other candidates." She reflected again on her long years of experience in Washington.

LaMaster was brief, saying that he felt he was qualified to hold the office because of his knowledge of agriculture from "the other end," meaning his life as a farmer and not from a committee standpoint in Washington. Walter Rogers sent a letter along with a \$3 bill for one pie. The letter explained his absence due to previously contracted radio time and pledged his faithful service in Congress, if elected. Ledrick spoke for Gull mostly with reference to the coming general election in November and listed four things Gull had done since his victory in May — "getting a million dollars worth of publicity for the Panhandle; becoming acquainted with some of the most powerful men in Washington; winning attention from

IT BROUGHT DOWN THE HOUSE—Firemen in Redwood City, Calif., look about the balcony of a theater where a movie called "The Gimpfinger" literally brought down the house. Several persons were injured when a large part of the ceiling collapsed. One woman jumped from the balcony and broke both legs.

Christ-Like Face Appears on Rock

LOS ANGELES — (AP) — A Christ-like face, a cross, and what appear to be other Biblical figures stand out, apparently by an accident of nature, on a rock owned by Miss Helen Barnhart, the slab of dolomite (a form of limestone), is three inches thick and about the size of a woman's handkerchief. Observers see in its ridges and depressions the face of Christ, a cross with seven steps leading up to it, an angel above the cross, an aveng-

ing angel, and the grief-stricken Mary beside the cross.

Miss Barnhart says the rock was found by her mother in 1910 on a farm near Weisington Springs, S. D. She said it was exhibited in the capitol at Pierre, S. D., for six years until she brought it here five years ago. John Chesbro of the New York Yankees pitched 45 complete games in 1904.

Divorces Are Given On Cruelty Charges

Four divorces were granted Friday in 31st District Court by Judge Lewis M. Goodrich, all on charges of cruelty.

Granted decrees were: Ida Ruth Cooper from Eugene Cooper. They were married in September, 1948, and separated in May, 1950. The plaintiff was awarded restoration of her maiden name, Taylor.

Juanita Oakley from J. C. Oakley. They were married in May, 1940, and separated in June, 1950. Plaintiff was awarded restoration of her maiden name, Collier.

Betty Jo Crouch from J. D. Crouch on a cross action. They were married in June, 1949, but no date of separation was given. Plaintiff was awarded custody of one minor child and a monthly support order of \$30.

Ruth Colleen Hulsey from Paul James Hulsey. They were married in June, 1949, and separated in February, 1950. The plaintiff was awarded restoration of her maiden name, McNutt.

Poland Denounces U.S. Sea Blockade

WARSAW, Poland — (AP) — Poland's foreign ministry announced it has rejected the U.S. sea blockade of North Korea after an aggression and new attack in the war the United States is waging against Korea.

Simultaneously the Polish press agency announced that the nation's ambassador to Peiping, Jan Burgin, had been instructed to open negotiations for an exchange of diplomatic representatives with the North Korean government.

A note condemning the American blockade was handed to U. S. Ambassador Waldemar Galtman, who left Warsaw enroute to Washington for a vacation.

The largest unfenced herds of buffalo are in the House-rock Valley, north of the Grand Canyon, in Arizona.

Educator Spends 83 of 90 Years In School Room

MURRAY, Ky. — (AP) — Eighty-three years is a long time to stay in school. But Dr. John Wesley Carr, president emeritus of Murray State College, who is 90 years old, has made that record.

He started to school Oct. 8, 1866, and has been in schools ever since. At the age of 17 he taught his first school — in Greene County, Indiana. Later he headed school systems in Anderson, Ind., Dayton, Ohio, and Bayonne, N.J. He was high school principal at Muncie and Bloomington, Ind., and in Philadelphia. After serving as state supervisor of high schools in Kentucky, 1922-23, Dr. Carr became the first president of Murray (Ky.) State College. He was president

British Laborites Decrease Majority

LONDON — (AP) — An appointment to Britain's high court has cut the Labor government's House of Commons majority, at least temporarily, to seven votes. The government now faces a by-election to fill the seat vacated by elevation of Terence N. Donovan, Laborite MP from Leicester, to the bench. Leicester is regarded as a safe Labor district.

Cincinnati Catcher John Prames hit .357 in his first year of pro baseball with Bristol, Va., of the Appalachian League in 1943.

1923-1926 and again 1933-1936. At other times he was dean and is now president emeritus. Still in a school room, he has his writing desk in the main reading room of the library, "with a group of the students ever with me."
