

Browder Says Reds Out of Department

WASHINGTON—(AP)—Earl Browder, former Communist party chief, told Senate investigators today that "to the best of my knowledge and belief" there are no Communists in the State Department.

Census Leader Says Estimate For Area High

Cities of the entire 18th Congressional District today faced the probability of being 20 percent smaller in population than optimistic estimates have been claiming.

This was revealed by Census Supervisor Walter S. Shaller in Amarillo today when he disclosed that the present trend over the district is falling 20 percent under local estimates by various cities' chambers of commerce.

Roughly, he said, the Census Bureau estimated the districts populated at 270,000 and based its enumerating work order on that figure. The Census Bureau, he added, expects to go over that figure somewhat but he declared the final tally would fall far short of the total estimated 260,000 chambers of commerce figures.

The 1940 census of the district disclosed the population figure running between 239,000 and 240,000. "In other words," Shaller said, "all of the author and the area in general will actually have a rough 80 percent of their hoped for or estimated population."

The situation, he said, exists for Amarillo as well as at other Panhandle towns and cities.

Connally Plan Pleases Chief

WASHINGTON—(AP)—President Truman today endorsed wholeheartedly a plan to set up eight Senate foreign relations subcommittees to help bring about "a true bi-partisan" foreign policy.

Mr. Truman said in a statement he hopes the House Foreign Affairs Committee will follow the proposed Senate pattern to help provide for a "free interchange" between the State Department and Congress.

The president's statement was issued after he held a White House conference with Secretary of State Acheson and Chairman Connally (D-Texas) of the Senate Foreign Relations Committee.

Connally is the author of the plan to set up eight subcommittees which would correspond with the organizational structure of the State Department.

The 30-minute White House meeting was another in a series of presidential moves to revamp and strengthen the bi-partisan foreign policy in the face of congressional criticism of the state department.

Accidental Shot Fatal to Girl, 3

PITTSFIELD, Mass.—(AP)—One of a young baby sitter's three boy friends accidentally killed a sleeping three-year-old child while playing with a shotgun last night.

Police Chief Thomas Calnan said the blast "nearly blew off the head of Jane Ellen Fowler as she lay in her crib."

The 15-year-old sitter and the three boys two of whom were 15 and the other 16, were held for questioning. No charges were placed against them. Their names were withheld.

The shotgun, the chief said, belonged to the baby's father, Linwood W. Fowler, a General Electric Company employe. Fowler was at work and his wife, a nurse, was on duty at St. Luke's Hospital.

Two Die, 3 Hurt In Wall Collapse

WELLSBURG, W. Va.—(AP)—High winds toppled part of a high wall of freshly laid concrete blocks yesterday, burying five workmen in a heap of rubble at its base. Two of them died, and the other three were injured critically.

Four of the workers were on a scaffold 42 feet high when a strong gust blew over the top six feet of the six-inch thick blocks forming the screen backing for a new drive-in theater.

The fifth was unfolding a truck at the foot of the wall.

SEKKS RED BAN (CANTERRA, Australia) (AP)—Prime Minister Robert G. Menzies introduced a bill in the House of Representatives today to outlaw the Communist party in Australia.

The committee also voted to continue the 20 percent tax on club dues, initiation fees, and safe deposit box leases.

The committee thus held the line at about \$274,000,000 in cuts of excises so far. But when it turns to the levies on travel tickets, freight and long distance telephone and telegraph the total may be boosted above \$1,000,000,000.

President Truman has proposed a \$655,000,000 limit on excise cuts and, unless the committee finds new revenue in other taxes to cover the excise loss, the bill may bump into a veto.

While approving continuation of

Defense Fund Pleas Dooms Economy Efforts in House

WRECKED CAR—The 1940 coach driven by Wayne Buaks, Wheeler, is shown shortly after it overturned on a curve east of Pampa, near the Country Club. Max Alexander, Wheeler, was slightly injured. Buaks and Barbara May, Pampa, were uninjured except for bruises. (News Photo Engraving)

Quick Okay for Additional Preparedness Money Seen

WASHINGTON—(AP)—The tensing international situation brought added force today to demands for new defense funds and extension of the draft law. It all but shelved the House economy drive.

In response to the request of Secretary of Defense Johnson, the House was resigned to vote an extra \$350,000,000 for military spending, most of it for airplanes.

And House leaders thought it likely that the members would have to vote on the question of keeping the draft law alive for two years beyond June 24, when it is scheduled to die.

Chairman Cannon (D-Mo) of the appropriations committee announced committee approval of an amendment that would hike the defense budget for the fiscal year beginning July 1 from the \$13,911,000,000 recommended last month by the committee to \$14,261,000,000.

The extra \$350,000,000 was approved after Johnson testified before a subcommittee yesterday. It would be split up this way: \$200,000,000 for the Air Force; \$100,000,000 for naval air; \$50,000,000 for conversion of warships and for the anti-submarine warfare program.

With Republicans joining Democrats in supporting the increases their addition to a \$29,000,000,000 omnibus appropriation bill perhaps late next week appeared certain.

There is a chance that an effort may be made to add even more, for the appropriations committee has recommended a \$203,000,000 cut in so-called non-defense military funds and Johnson withheld his public announcement of Horace S. Johnson, service station attendant, as a candidate.

Johnson filed for a place on the July 22 Democratic primary ballot several weeks ago, but withdrew his public announcement until today.

So far it is a two-man race, but possibilities exist that others may get in.

Johnson, a resident here for 36 years, faces veteran Sheriff G. H. "Skinner" Kyle, who has never had serious opposition for reelection.

The new candidate worked on farms and ranches as a boy in Gray County. He also spent some time raising cotton during the 20's and has been engaged in garage and service station work most of the time he has lived in Pampa. For several months he served as deputy under former Constable Earl Lewis who was defeated at the polls for reelection in 1948 by Constable Bill Langley, seeking his second term.

Johnson's formal announcement appears elsewhere in today's edition of The News.

In the meantime Pampa's two congressional candidates were continuing to hit the road and talking to the air waves in appeals for support on May 6.

Yesterday Rogers spoke at Turkey, Quitaque, Matador, Paducah, Childress and Tulia. Today he will be in Borger, Phillips and Bunnavista to speak before several groups. He will also be in Spearman for the city's celebration and rodeo tomorrow and will make another radio talk over KQNC at 6:15 p. m. tomorrow.

The Pampa attorney has been emphasizing that he "writes his own speeches" both for personal radio talks and transcribed talks.

At the same time Republican Ben Gull was also hitting the road.

By ARTHUR EDSON WASHINGTON (AP)—That serial number you G. I.'s wore during the war. Remember how the Army or the Navy or the Marines always said it was your own? And that they always gave a different one to every customer?

Well, it turns out there were some duplications after all. Matter of fact, a lot of them.

How many duplications, no one knows for sure.

The case of the duplicate serial numbers started to develop when the Veterans Administration (VA) began paying off special dividends on G. I. insurance.

One of those big machines that were in for a long, hard pull—and they have been.

The VA people say the duplication showed up more among officers than enlisted men. One error: the Army, Navy and Marines might each assign the same number. But there also were duplications within the services, and that went for enlisted men as well as officers, a VA spokesman said.

"I don't know why," said the VA man, "I guess they were busting them through the induction centers too fast."

Of the 21,000,000 checks to be distributed, around 1,000,000 have had to be hand processed. Some of these cropped up because of duplications, but there are other reasons.

The VA man gave this example: "I'll show you what you can run into."

"Suppose a guy enlists and takes out \$2,000 in insurance. Later on, he becomes an officer, and takes out \$8,000 more."

"Now suppose he missed a payment 'way back there. Well, we try to collect that first, but he says he paid it in time."

"Now to make this just dandy, suppose this guy has the same number some other guy has. It can get complicated."

By the way, if your name is Zywuskobskivich, your check also will be hand processed.

That's because the machine won't handle the card on anybody who has more than 15 letters in his last name.

Three Escape Serious Injury

Max Alexander, 18, of Wheeler, received a slight back injury and bruises yesterday when the automobile in which he was riding overturned east of Pampa near the Country Club. He was taken to Worley Hospital in a Duenkel-Carmichael ambulance.

Alexander and Barbara May, 18, Pampa, were passengers in a 1940 Ford coach driven by Wayne Buaks, 16, Wheeler, when the car overturned on a sharp curve near the home of Mr. and Mrs. Scott Hall yesterday.

Neither Buaks nor Miss May were seriously injured. Both suffered bruises.

Miss May is the daughter of Mr. and Mrs. Ruben May, 104 W. Craven.

Woman Injured Near Shamrock

SHAMROCK—(Special)—Mrs. Jack Staffela, Culver City, Calif., was treated for cuts and abrasions yesterday following an automobile accident west of Shamrock.

The car in which Mrs. Staffela and her husband were riding was involved in an accident on U. S. Highway 66 with a pickup truck driven by Sam McMurry of Shamrock. The Californians' car was in collision with McMurry's vehicle as it turned off the highway onto a farm to market road.

An ambulance from Richardson Funeral Home brought Mrs. Staffela to the Shamrock Hospital for emergency treatment. Staffela and McMurry were not injured.

Fort Worth Boy, 5, Saves Brother's Life

FORT WORTH—(AP)—Five-year-old David Moore dragged his two- and a half-year-old brother, Sammy, from a neighbor's fishpond last night, just in time to save his life.

Sammy was reaching for a celluloid rabbit which had fallen in the pool.

"I just saw Sammy's leg and grabbed for him," David said modestly.

David's yells for help brought neighbors who found Sammy covered with mud and not breathing. The boys' father successfully gave Sammy artificial respiration.

SHORTAGE WASHINGTON (AP)—The Office of Education said today the nation faces a serious shortage of engineers, starting in 1954, unless more college students train for the profession.

Second Candidate Seeks Sheriff Spot

As the special May 6 congressional election steadily increased in momentum, with little over a week for campaigning left, the Gray County sheriff's race broke into actual activity this morning with the public announcement of Horace S. Johnson, service station attendant, as a candidate.

Johnson filed for a place on the July 22 Democratic primary ballot several weeks ago, but withdrew his public announcement until today.

So far it is a two-man race, but possibilities exist that others may get in.

Johnson, a resident here for 36 years, faces veteran Sheriff G. H. "Skinner" Kyle, who has never had serious opposition for reelection.

The new candidate worked on farms and ranches as a boy in Gray County. He also spent some time raising cotton during the 20's and has been engaged in garage and service station work most of the time he has lived in Pampa. For several months he served as deputy under former Constable Earl Lewis who was defeated at the polls for reelection in 1948 by Constable Bill Langley, seeking his second term.

Johnson's formal announcement appears elsewhere in today's edition of The News.

EARL BROWDER No Communist

Senators Push Help for Spain

WASHINGTON—(AP)—A much-disputed proposal to let Spain share in this country's foreign aid programs comes up for a new test in the Senate today. There were predictions it might be approved.

Under an amendment sponsored by Senators McCarran (D-Nev) and Brewster (R-Me), the Franco government would be allowed to participate in the multi-billion dollar Marshall Plan.

Chairman Connally (D-Tex) of the foreign relations committee said McCarran "may have lined up enough votes to push this through."

Connally, floor manager for a \$3,272,500,000 foreign aid measure, refused to tell a reporter how he would vote.

But he said that before the test — set for this afternoon — he would make public a letter from the State Department opposing the amendment.

Senators have been trying to hurry final action on the big global aid measure, which has been before the Senate since April 14. But a final vote still doesn't appear likely before next week.

Among other things, the bill would extend the Marshall Plan another year at a cost of \$1,100,000,000.

Last year McCarran failed in an effort to attach a \$50,000,000 loan for Spain to the 1950 foreign aid bill. Since then the State Department has agreed to ask the Senate for a "free interchange" between the State Department and Congress.

The president's statement was issued after he held a White House conference with Secretary of State Acheson and Chairman Connally (D-Texas) of the Senate Foreign Relations Committee.

Connally is the author of the plan to set up eight subcommittees which would correspond with the organizational structure of the State Department.

The 30-minute White House meeting was another in a series of presidential moves to revamp and strengthen the bi-partisan foreign policy in the face of congressional criticism of the state department.

Now, Tito told Parliament, sumably the recent government "newest developments" — pre-change — in Greece promised that "from now on there will be possibilities to substantially improve the relations between our two countries."

Regarding Italy, whose claims to Trieste Yugoslavia has bitterly disputed, the premier said: "Yugoslavia considers that the present unsolved problems between the two countries should not be a reason for worsening of relations. The efforts from both sides for improvement of relations, for economic and other cooperation can contribute to an easier solution of disputed questions."

In his three-hour speech Tito laid down a foreign policy program promising friendly cooperation "on equal terms" with the West.

New York Students Storm City Offices NEW YORK—(AP)—Mounted police repulsed a boisterous band of high school students today as they tried to storm City Hall in protest against teachers' pay and curtailed school activities.

The students, about 150 strong, were mostly from Stuyvesant High School in Manhattan. Thousands of others were reported en route to City Hall from scores of other schools in the city.

Sentence Given In Jewel Theft

PERRYTON — Lloyd Edwin Roberts, 24, was given a two-year prison sentence here this morning by Judge Jack Allen in 84th District Court when he pleaded guilty to charges of theft of \$150,000 in diamonds, less than the Otis Burk drugstore.

Yesterday he was sentenced to five years, suspended, by a jury after he pleaded guilty to charges of burglary of the drug store.

The suspended sentence granted yesterday was automatically voided by his conviction and plea of guilty to the theft charges today. His term is expected to run from two to seven years at Huntsville, depending on his behavior there.

 committees that "the force of events" necessitating a hike in defense funds included:

The Soviet atomic explosion, the fall of China, the serious situation in Southeast Asia, the break in diplomatic relations with Bulgaria and deteriorating relations with other satellite countries, the Soviet assumption of control over the armed forces of Poland, Soviet naval expansion, the increased Soviet pressure in Germany, the recent attack on a naval aircraft in the Baltic and the recent Soviet demands relative to Trieste.

Rep. Taber (R-N.Y.), head of a Republican drive that once failed in cutting a billion dollars from the pending \$22,000,000,000 appropriation bill, told newsmen that chances for success appear dim in the light of changing world conditions.

He said he will still make a final effort, when the bill reaches the Senate, to get the appropriations bill connected with war preparations.

Rites Conducted For Boyles Child

Funeral services were held at 10 a. m. today for William L. Boyles, 4-year-old son of Mr. and Mrs. Walter L. Boyles of Pampa.

The child died at 11 a. m. yesterday at Highland General Hospital.

He is survived by his parents, his sister, Ann, 12 months, and his mother, Mrs. E. E. Boyles, of Pampa. His father, Walter L. Boyles, of Pampa, an auto and home owner, died last night.

Funeral services at Highland General Hospital were held at 10 a. m. today for William L. Boyles, 4-year-old son of Mr. and Mrs. Walter L. Boyles of Pampa.

"COME ALONG WITH ME, LUCILLE..." — In his merry Oldsmobile, vintage 1901, Russell Cornelison prepares to set out from Louisville, Ky., on a cross-continent jaunt to Los Angeles. His handlebar moustache and duster stem from the same period as the auto. Cornelison hopes to average ten miles an hour while traveling, making it to Los Angeles in about two months.

MARKETS Gems Valued At \$69,000 Are Missing

FORT WORTH LIVESTOCK — (AP) — Fort Worth, April 27.—(AP)—Cattle, hogs, sheep and poultry markets were active and steady here today. Cattle prices were 20¢ to 25¢ higher than last week. Hogs were 10¢ to 15¢ higher. Sheep were 5¢ to 10¢ higher. Poultry prices were 10¢ to 15¢ higher.

KANSAS CITY LIVESTOCK — (AP) — Kansas City, April 27.—(AP)—Cattle, hogs, sheep and poultry markets were active and steady here today. Cattle prices were 20¢ to 25¢ higher than last week. Hogs were 10¢ to 15¢ higher. Sheep were 5¢ to 10¢ higher. Poultry prices were 10¢ to 15¢ higher.

Grand Jurors Fail to Act In Will Case

LIPSCOMB — The Lipscomb County Grand Jury investigating the alleged Sebitt will fraud ceased until an indefinite date this morning without taking any action.

District Attorney Tom Braly said no bills of indictment had been made nor any clearances given. He said the jury would reconvene in "the immediate future" to continue its investigation.

There were no witnesses called before the jury today. To date only three of the eight charged with forgery have testified before the jury, Clyde Grim, and Mr. and Mrs. Ross Guthrie who found the "new" will of Mrs. Mattie Sebitt, leaving her estate to Vivian Guthrie, a nephew. Charges of forgery in the will were filed against eight including Oklahoma State Senator Orval Grim of Cheyenne, Okla.

No extradition proceedings have been taken against the charged persons residing outside the state, including Vivian Guthrie, alleged beneficiary under the "new" will.

Three Texans Are Held in Cattle Thefts

WICHITA FALLS — (AP) — Three Texans were in jail today on charges of cattle theft in three Texas counties. They have been indicted in one of the counties.

Two of the men are held in Durant, Okla., where they also are charged with attempted cattle theft in Bryan County, Okla. They are Norman Davenport, 23, and his brother, Chester, 25, both of Wichita Falls.

The third man is Alford Piers.

 advertising columns and air waves and is scheduled to speak today over KLYN from 6 to 6:15 p. m.

A KPND spokesman said a radio "Guill rally" Sunday will emanate from the local station and be piped through eight other Panhandle towns' stations. Billy Briggs and his XIT Boys will be the feature attraction on the program from 1:30 to 2:30 p. m.

The program, to be conducted at the Palm Room, City Hall, will be heard through the local station and through stations at Dumas, Dalhart, Amarillo, Borger, Hereford, Perryton, Shamrock and Childress.

Mrs. Altavene Clark, who has not seen reporters here, last night spoke over KPND explaining why her 17 years' absence from the Panhandle should qualify her as the district's representative in Washington. She praised herself for the years of service to the district, taking credit for pushing the Canadian River Dam and other federal projects such as Lake McClellan and farm legislation.

Although her Washington stay and appointments have been entirely during the New Deal administration, Mrs. Clark endeavored to reverse those ideologies by taking a full conservative platform, a stand she did not take when she first returned to open her campaign.

SENATORS

Actor Insists Men 'Dying' To Try New, Brighter Hues

HOLLYWOOD — (AP) — Paris and New York designers are getting a boost from Vincent Price in their campaign for brighter clothes for men. "Men are just dying to try new styles," says the lanky actor. "Just look around at all the shirts men are wearing. They're bursting for a chance to wear something different." Price is helping the drive along with his current role in "Kind of Woman." He plays a flamboyant movie star and his outfits include: A "fetching" dinner jacket of

old plaid with midnight blue trousers and a cummerbund. A hunting jacket with built-in cartridge holders and a suede patch for gun rest. A pure white gabardine suit and silk shirt with Barrymore (extra long) collar. A royal blue velvet smoking jacket with chartreuse trim, ver-

tically pleated shirt with crepe tie. "If men are ever going to rejuvenate their wardrobes, the time is now," the actor declared. "Why, until recently there hadn't been anything really new in men's clothes for 100 years." He recalled his college days when he picked out a brand new size 42 suit and proudly displayed it to his father. "Why, Son," said the elder Price, "that's the same suit I wore when I went to college." The largest open-pit iron mine is at Hibbing, Minn.

There's Nothing Like It, Says Writer Kissed by Lady-Lion

By HAL BOYLE
AUBURN, Wash. — (AP) — How can you have lived until you've been kissed by a vegetarian lioness? It beats being mugged by a mother-in-law all hollow. There's more natural affection in it. A lioness puts real feminine enthusiasm into her smooching. Or at least the only lioness who ever kissed me did. She is "Little Tyke," a tawny 350-pound lady lion owned by Georges and Margaret Westbeau. They operate Hidden Valley Ranch, a 200-acre experiment in good will between animals and human beings. "On this ranch nothing is afraid of anything else that lives here," said Westbeau, a former medical student who operates a deep freeze locker business. He and his wife have tried to create a small world of their own where fear has no place, a tiny oasis of love where the lamb can lie down at peace with the lion — and still hope to live on to a ripe old muttonhood. And so far they have succeeded. The big proof is Little Tyke herself. This summer she will be a full grown lioness of four years.

When I first heard about this lioness I decided I'd have to go call on her. "Georges and Little Tyke have gone for a walk — they'll be back any moment," said Mrs. Westbeau, a cheerful dark-haired woman who shares her husband's love of animals. And soon after that I saw a sight from the world of Biblical prophecy, Westbeau, carrying some sprigs of flowering wild currant, came strolling down the hills. And limping at his side — marked for life by her mother's jaws — was the lioness, looking like a big friendly Newfoundland dog. The prize chickens and peacocks took no alarm as the lioness padded past them. She nuzzled one of the two horses in the pasture. And later in the ranch guest house she frolicked with a pet coon, a toy terrier puppy, a cat and a young lamb. "Where there is no fear there is no savagery," said Westbeau. "Here the only discipline is the discipline of love and freedom. And there is no reason to kill as there is no hunger." Then he suggested I have a wrestling match with Little Tyke. The next thing I knew I was on the lawn, rolling around the grass under a 350-pound lioness, and my right arm was caught halfway to the elbow in the hot furnace of her mouth. "Don't jerk — she'll let go," said Westbeau. I began wondering how long it would take me to learn to type with just my left hand. Afterward she lay with her head in my lap. Before I left Little Tyke jumped in our car, and Georges suggested I put my arm around her. I did, feeling pretty much like I was trying to neck the dean of women at a college dance. And then she turned and gave me a great big kiss. What is the kiss of a lioness like? Well, it is like being shaved suddenly or having one side of your face scrubbed by a warm towel covered with wet sandpaper. One will last an ordinary man a lifetime. He doesn't feel much like kissing back.

Tech to Unveil Bust of Goethe
LUBBOCK — Two life-sized busts of Johann Wolfgang von Goethe, German author, will be unveiled at Texas Technological College May 8 to complete a year-long celebration honoring the Goethe bicentennial. The busts are the work of Tech students Robert P. Bilheimer, Walter junior, and W. E. Kuykendall. Lubbock senior. Bilheimer's work depicts Goethe at age 45, and Kuykendall's work was made from a portrait of Goethe when he was 63. Month Dettiker, Amarillo sophomore and secretary of the Leiderskrans German club, will unveil the busts in ceremonies scheduled for 7:30 p. m., May 8. Carter Wheelock, Lubbock graduate student, is to read a paper on Goethe's works which were completed from 1794 to 1812.

Saddle Maker Is Called Out At Night Just Like Doctor

By WILLIAM C. BARNARD
Associated Press Staff

"A saddle maker gets called out at night — just like a doctor," Carl Darr said earnestly. "Darr makes saddles at Paducah in Cottle County, up in the great ranching country of Northwest Texas."

"Just last night a cowboy got me out of bed. He drove in from the Pitchforks Ranch, 50 miles away, with a broken stirrup and had to get it fixed. Had to go to work this morning. Well, I came down and fixed it — like a doctor would a broken leg. I get lots of emergencies."

Darr, 47, a compact wiry man, toiled at his bench, making a pair of leather chaps for a cowboy, Bill Tippett, Tippett, six-foot-two, a powerful man of 36, was sitting right there, supervising.

"Been here all day waiting for these chaps," said Tippett, "and I'll have 'em in another 30 minutes. Come in here this morning and Carl just looked at me and started in. Didn't measure me or anything."

"This is the way these cowboys are," Darr chuckled. "They stay right with you while you do a job for 'em. One of 'em will come in and want a saddle. All right — he'll tell you exactly what kind of saddle he wants."

He'll tell you what kind of a saddle tree and whether he wants the leather flesh side out — for riding in brush — or flesh side in — which looks smoother but scratches up easier. He'll say whether he wants the leather hand-tooled and what kind of ornaments he wants, if any. He'll tell you, piece by piece, how he wants that saddle made, and then I'm danged if he won't sit on your knee a week until you get it made. Do you want these chaps fringed, Bill?"

"Fringe 'em," said Tippett. Darr, wearing a Stetson and boots, took a knife and began slicing the sides of the chaps to make the fringe.

Darr was raised in Hill County and cowboied for years on the Paducah Sixes ranch in the Paducah area.

"I liked to work with leather and got to making bull whips and watch bands for the other boys," he explained. "About 1944 I started out as a saddle maker."

Some children came into the shop and climbed into saddles that were parked on sawhorses. They started yipping and Darr's blue eyes lighted. "Ride 'em cowboy," he yelled.

Darr pads some saddles with sponge rubber. "Mostly these calf ropers want 'em fixed that way,"

Of course I could live on my husband's salary . . . but if he knew it, I'd have to stay home and work.

FRIENDSHIP WINS—Minnie the mother cat who lives at the railroad yards in Jersey City, N. J., evidently triumphed over her feline instincts in adopting this fearless mouse into her household. Shortly after Minnie gave birth to a litter of kittens, the wee mouse turned up and made itself at home.

JACOBY ON CANASTA

Freezing the Peck Is Inadvisable If Opponents Have Not Melded

By OSWALD JACOBY
Written for NEA Service

"It's really unbelievable," sighed Hard Luck Joe. "The things that happen to me shouldn't happen."

"To an alert player," I finished. Joe plunged right on. No force thus far discovered can stop him from telling a hard luck story to everybody he meets.

"I had a beautiful hand last night," he said, his face glowing in fond memory. "But I lost my shirt with it."

Joe was between me and the door, so I had to listen. "What went wrong?" I asked.

"Well, we had lots of melds down on the table, and our opponents didn't have any melds at all. I had a million cards in my hand — I'd just picked up the deck — and I figured I'd get the pack back very easily. Wouldn't you figure that way?"

"Sounds reasonable."

"The only trouble was that I wasn't absolutely sure which discards were safe," Joe continued. "I didn't want to give the pack away if I could help it. But I had four wild cards, and I was sure I could get the pack back again by the time I came to the end of my wild cards. So I played one of the stuns, freezing the pack."

I began to see what was coming. Joe spends half his time digging holes that he can fall into, and the other half complaining about his hard luck.

"Would you believe it?" Joe asked indignantly. "They played us safe for seven rounds — and then they got the pack after all. They went right out, and caught me with all those cards in my hand. I didn't even have a canasta."

By this time I had edged around him and had a clear road to the door. "Cheer up, old boy," I comforted him. "It couldn't happen to a nicer fellow." Before he could corner me again I had escaped.

Of course every experienced Canasta player has already seen what went wrong with Joe's game. He chose one of the worst possible times to freeze the pack.

FAMILY LIFE SUBJECT OF TALK AT ROTARY

Mrs. Eloise Johnson, of the Extension Service at Texas A&M College was speaker at Rotary Club yesterday. Mrs. Johnson spoke on Family Life.

Using drawings of the mythical "Tater" family, a typical rural family group, Mrs. Johnson explained the needs of the modern family necessary to proper growth and development.

The family was composed of Com N. Tater, the father, Aggy Tater, the mother, Spec Tater, the youngest child, Immy Tater, the four-year-old daughter, Irvy Tater, the 15-year-old daughter, and the oldest child, a son, Heat Tater. Then there was Meddy Tater, the wise old grandfather.

Through the medium of these

fictional characters, the speaker explained that family cooperation in work, play, and prayer, was necessary for the children to grow up to be good citizens.

She told the club that she had been to only one other Rotary Club which inspired her so much as did the Pampa Club. She commented briefly on her familiarity with the Rotary, and stated that her husband, who is in a veteran's hospital, is a former Rotarian.

Tom Rose reported that seven Rotarians and two Rotary-Anns attended the Monday session of the district Rotary convention in Amarillo, and that there were six Pampa representatives at the convention Tuesday.

Special guests included Ralph

SOUTHWEST'S SHOPPING CENTER

IT'S ALL IN THE FAMILY—John Antons of Portland, Ore., made a dramatic bid to try to stop his wife, Betty, from getting a divorce. Wearing a sign reading, "Betty Unfair to Johnny and Jimmy," he is seen following his wife home after picking her place of work. Jimmy is their two-year-old son. Antons offered \$100 reward to anyone who could bring him and his wife together.

Tragedy Hits Residence of Blind Veteran

DETROIT — (AP) — Tragedy menaced the home of blinded war veteran Earl Van Alstine last night. Van Alstine, 26, father of five, and a roomer were passing the time of day in the living room. The veteran's wife, Katherine, was shopping. Two sons, Sidney, 3, and Patrick, 2, were at play in the kitchen of the suburban Livonia home. Afterwards, firemen said the boys had poured gasoline on the pilot light of the gas-operated refrigerator. Van Alstine's roomer, J. R. Teeple, flung a blanket over

Texas Firm Ordered To Rehire Employees

WASHINGTON — (AP) — The Indianapolis Wire-Bound Box Company of Cleveland, Texas, has been ordered to offer to rehire several employees allegedly discharged discriminatorily. The order was issued yesterday by the National Labor Relations Board after it found the firm guilty of interference in union activity and discriminatory firing of union members. Sidney, with his hands held out, was burned on Patrick's clothes. The sightless father found the telephone, called firemen. Today he awaited physicians' word about Sidney. The boy, critically burned, had been aped to University Hospital at Ann Arbor. Patrick was less seriously injured. Three other children, Francis, 5, Robert, 4, and Gloria, four months, escaped injury. Van Alstine was blinded by shrapnel in Europe in 1944.

WHY STARVE TO TAKE OFF FAT?

When you buy Barconate, you buy a preparation for taking off weight. You do not pay for a printed diet. Barconate is not a vitamin tablet to fortify you against weakness while on a starvation diet. You need never know a hungry moment, while reducing with Barconate. It contains no harmful drugs, but does contain ingredients to make you feel better. Barconate when mixed with grapefruit juice does this: First, cuts down your desire for sweets and fatty foods, but you do not have to FORGE yourself. Barconate takes care of your DESIRE. Second, dehydrates and eliminates, so that water is carried away—almost like melting fat. At the same time you feel better, more peppy, more alive, but never starved or hungry. **NO STARVATION DIET** —I have taken lots of medicine but none to compare with Barconate. It's tops. Have lost 10 pounds in 2 weeks and no starvation diet. Signed, Mrs. J. E. Blahok, Route 1, Box 53, Cleveland, Texas. **LOST 24 POUNDS** —I am writing you just to say I think Barconate is a wonderful medicine. I have tried so many other things and all failed. I weighed 132 pounds when I started to take Barconate. I now weigh 108. Signed, Maul Marrow, Archer City, Texas.

Texas Tech Expansion Plan Allows for 12,000 Students

LUBBOCK — Texas Technological college's expansion program will permit the college to enroll 12,000 students in 1970, Pres. D. M. Wiggins reports. Dr. Wiggins says the plans have been worked out by administration authorities with the approval of the Board of Directors. Ello J. Urbanovsky, college landscape architect, has prepared the "master plan" which has been divided into four-year periods. When completed, the program would raise the evaluation of Tech's campus to approximately \$30,000,000. "This program will expand Tech in line with the needs of this region and the industries which serve it," Dr. Wiggins said. "As the petroleum industry grows, our department of petroleum engineering will grow—and all of our divisions will keep pace with their counterparts in industry, agriculture and the arts." Federal educational surveys indicate that college enrollment will reach new highs in the 1970 period because of the increased birth rate in the United States during 1940-45. Austria has 13 universities or institutions of university rank with a total enrollment of 35,000. South Dakota's Bad Lands are 5,200 square miles in area.

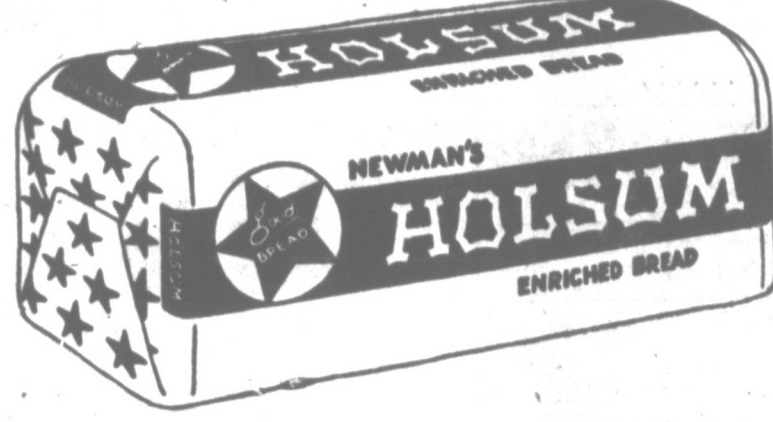

Missing Heir Judged Dead

PHILADELPHIA — (AP) — The Orphans' Court, calling off its eight-year search for a missing heir, has awarded his \$82,000 estate to four relatives. Judge Grover C. Ladner issued an order ending the commonwealth's hunt for Henry Homer, Jr. Homer has been missing since Jan. 26, 1942, when he walked out of a nursing home in suburban Devon with only eight cents and his father's watch in his possession. The missing heir, son of the late Henry Homer, Sr., former president of the Philadelphia Cricket Club and for many years Philadelphia representative of the American Telephone & Telegraph Co., became heir to a \$82,971 trust fund upon the death of his mother, Mrs. Elizabeth G. Homer. She directed that upon her son's death the income go to Homer's half sister and the principal to her three grandchildren. U. S. oil and gas wells now produce about two billion barrels of crude oil and six trillion cubic feet of gas, yearly.

Prisoner Wants Legal Vacation

BOSTON — (AP) — There'll be no summer vacation for Dominic Ciambelli, a former boxer, now other term on another count. He is serving a state prison sentence.

Ciambelli asked Federal Judge William T. McCarthy for a month's "vacation" when he concludes his current sentence in August and before he begins another term on another count. He is serving a state prison sentence.

TUBERCULOSIS VACCINATION PLAN GETS UNDERWAY IN GEORGIA CITY

COLUMBUS, Ga. — (AP) — If a vaccine called "BCG" will check tuberculosis in Japan and on an Indian reservation, why won't it work in a normal U. S. community?

It will, asserts one of the nation's top TB experts, Dr. Edward J. O'Brien of Detroit. "And," he added, "somebody has got to raise hell until this country wakes up to that fact. I guess I'm the guy to do it."

BCG isn't some new "miracle drug." And it's a preventive, not a cure. It's been kicking around since 1923 when it was developed by two French scientists, Calmette and Guerin. That's where it got its three-letter name. Bacillus of Calmette and Guerin.

The vaccine was shoved to the forefront again last week when Dr. O'Brien, president of the American Association of Thoracic Surgery, declared it could whip tuberculosis.

He said a nationwide vaccination drive could cut the annual TB death toll from 50,000 to 5,000.

Since 1946 the U. S. Public Health Service has been testing the effectiveness of BCG in a normal U. S. community. The Columbus area was picked because the local TB death rate is about the same as that of the nation: about 32 per 100,000.

Conclusive results won't be available for another three or four years, said Dr. George Comstock of the United States Public Health Service, who is in charge of the Columbus project.

The project here has resulted in 61,000 X-rays and 10,000 vaccinations with BCG. On the basis of this work, Dr. Comstock made these tentative reports:

BCG seems to work pretty well, particularly in areas with a high TB rate. This probably is because where one is frequently exposed to TB, the body develops its own booster shots to continue the BCG effectiveness.

BCG may not work in areas of low TB rate. It might be made effective in these low rate areas if booster shots of vaccine were given every few years.

At any rate, in the Columbus area fewer cases are being turned up than in pre-vaccination year, although exact figures are not yet available.

Since its discovery 27 years ago, more than 30,000,000 BCG vaccinations have been recorded without harmful effects.

Dr. Comstock recalled that when BCG was tested on an Indian reservation — a high rate area — 15 years ago, only about one-seventh as many TB cases were reported in the vaccinated group as in the non-vaccinated.

Dr. O'Brien said that Japan's compulsory BCG vaccination program cut that country's TB death rate from 21 per 100,000 in 1937-43 to 169 last year.

In Russia, every baby is vaccinated with BCG. Several European countries use it widely. Experiments in the United States over the past 10 years have shown favorable results.

Justices use a private basement entrance to the Supreme Court Building in Washington.

Tech to Open Department Of Psychology

LUBBOCK — Beginning with the fall semester of the 1950-51 scholastic year Texas Technological College will have a separate department of psychology. Pres. D. M. Wiggins has announced in past years, Tech has offered psychology courses through the department of education and psychology. Expanded services to the college's various divisions and the growth of psychology as a professional field were cited as reasons for the change. It will become effective next September.

Dr. Lehman C. Hutchins, associate professor of psychology, will head the new department. Dr. Agnes True and Dr. Albert Barnett also will serve on the departmental faculty, along with two other staff members not yet named.

Dr. Hutchins said the department would emphasize counseling and guidance, industrial and clinical psychology, and general theoretical psychology. New courses will include "Psychology for Engineers," "Personality Testing," and "Abnormal Psychology."

The new departmental set-up was approved by Tech's Board of Directors at the April 22 meeting.

In the Supreme Court Building in Washington, each of the justices is provided with a suite of three rooms — private office, secretary's office, bath and shower.

Voters Given Right to Vote For 12 Cents

NASHVILLE, Tenn. — (AP) — Eighty-six persons bought a plot of land in the city of Nashville for \$10, an average of less than 12 cents apiece.

Home owners in suburban communities, city and county employees, and business men were among the purchasers of the 38-foot lot which slants steeply up a rocky, refuge-strewn slope.

A state law requires that a resident of Davidson County to be eligible to vote in city elections must have owned property in the city at least a year before the election.

The next city election will be

in May, 1951. "This sort of thing has been going on for a long time and there is nothing illegal about it," City Attorney E. C. Tolley said yesterday after publication on the real estate transaction.

Report Card Worry Fatal

NEW YORK — (AP) — A traffic patrolman's son, worried about his high school report card, killed himself yesterday with his father's service revolver.

Police said 15-year-old Donald Finn shot himself in the temple. His mother, wife of Patrolman Timothy Finn, found the boy sprawled across his bed at home when she returned from work.

Police said the boy was worried that his report card, due yesterday, would not show passing grades.

DOG WATCH—Waiting for the dinner bell to ring is Sparky, a four-month-old cocker spaniel owned by Chester Zieminski of Willow Village, Mich. When the alarm clock rings, the key on the back winds up the string which lifts the lid on Sparky's chow. Zieminski, a GI student whose wife works, hatched up the scheme to feed the pup his midday meal when both are away. It will work until Sparky gets smart enough to push up the lid and eat whenever he feels like it.

McLean Lions Due Awards

Pink Boll Worm Being Wiped Out

SAN ANTONIO — (AP) — Arizona is free of the pest for the first time since 1937 and Oklahoma is free of the pest for the first time since 1927, an expert said here.

C. F. Curl, in charge of pink boll worm control work in Texas, said 66 counties in four southwestern states previously infested, had been cleared during the past year. He spoke to delegates to the Southern Plant Board annual conference meeting. The board is composed of chief entomologists and plant quarantine

Personal To Women With Nagging Backache

As we get older, stress and strain, over-exertion, excessive smoking or exposure to cold sometimes slows down kidney function. This may lead many folks to complain of nagging backache, loss of pep and energy, headaches and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to cold, dampness or dietary indiscretions.

If your discomforts are due to these causes, don't wait, try Doan's Pills, a mild diuretic. Used successfully by millions for over 66 years. While these symptoms may often subside occur, it's amazing how many times Doan's give happy relief—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

They were here for the funeral services of Mrs. Schaefer's brother-in-law, Donald Herring, who died as the result of burns received in the explosion of a grain elevator in Perryton, Monday.

McLean

McLEAN — (Special) — Bob Black, son of Mr. and Mrs. Bob Black of McLean, is on the mid-semester honor roll at McMurry College, Abilene.

LaWanda Shaddid, daughter of Mr. and Mrs. W. W. Shaddid and Patsy Ruth Rippy, daughter of Mr. and Mrs. Harold Rippy of Fort Worth, were on the mid-semester honor roll at North Texas State College at Denton. The Rippy's formerly lived in McLean.

Mr. and Mrs. Lester Campbell, Mrs. Luther Petty, and Miss Eunice Stratton attended the Tread Convention at Amarillo recently.

Mr. and Mrs. S. J. Dyer, Sr., have been informed that their daughter, Hazel and Arthur Bauer were married at El Centro, Calif., on April 8. They plan to remain in California where both are working.

Four Enlist in Air Force, Army

Four Pampa men have enlisted in the armed services, one in the U.S. Air Force, and three in the Infantry, according to Sgt. Davis A. Brown, of the local recruiting station.

William Frank Cole, 219 N. Ryder, enlisted in the Army with the rank of corporal and was shipped to Ft. Riley, Kans., to become a member of the 10th Infantry Division.

Norman William Fields, 321 S. Gray, enlisted as a private in the Army.

Walter Eugene Kingham, 1019 S. Clark, enlisted in the Air Force and will be shipped to San Antonio for 14 weeks of basic training at Lackland Air Base.

Eugene Warren Bynum, who formerly lived on the Wilcox Lease, enlisted in the Army and will be stationed in Ft. Ord, Calif., with the 4th Infantry Division.

American sleeping car passengers use about 65,000 gallons of liquid soap a year.

Damp Fields Slow Texas Farm Work

AUSTIN — (AP) — Wet fields brought work to a near standstill in most central, northern and coastal counties the past week, the U. S. Department of Agriculture reported.

While additional rains increased the excessive moisture supply in North Central Texas and from Austin south and east to the coast, the High Plains urgently needed more rain.

Limited field work was done late in the week on the better drained soils in eastern counties.

The previous week's rains in the High Plains were too light to improve wheat except in the Stratford, Dumas and Spearman area, USDA said.

Some wheat greened up in other High Plains areas but was mostly thin or spotted. Considerable acreage has been plowed

out or salvaged by grazing. Fair to good yields were in prospect for wheat and oats in North Central Texas. The corn outlook also improved, but warmer weather is needed.

Little cotton or sorghum has been planted except in South Texas, but rapid progress is anticipated as fields dry.

Nearly all non-irrigated commercial vegetable areas reported good moisture reserves, with field work stopped by rains over most of the south central and southern counties to the coastal bend and upper coastal counties during the weekend.

Renewed growth was made by range and pasture feed over the eastern half of the state and greening up was noted in some western, northwestern and extreme southern counties.

Broken Fishing Line Nearly Takes Life

COMPTON, Calif. — (AP) — Ernest Loscar nearly lost his life in a freak accident that occurred while he was reeling in a fish line. He had cast his line with a lead sinker on the end into the ocean. The sinker caught on some rocks. Loscar pulled hard—then harder. Suddenly the sinker let go, snapped back and hit him in the thigh, severing an artery.

A friend took him by auto to a hospital 25 miles away. Loscar was in serious condition from loss of blood on arrival, but responded to treatment.

There are more than 50 known species of deer, found almost all over the world except South Africa and Australia.

BABOONS MENACE
BAHR EL GHAZAL, Sudan—(AP)—Running a telephone system in this wild and remote part of Africa has its own little problems. Grass fires have been melting the wires on a new line, and baboons have been stealing the butterfly nuts securing the insulator arms to the poles.
 Plywood is used extensively in the construction of motion picture sets.
 Since stripping started at the open-pit iron mine in Hibbing, Minn., in 1935, more material has been taken from the pit than was originally excavated in building the Panama Canal.

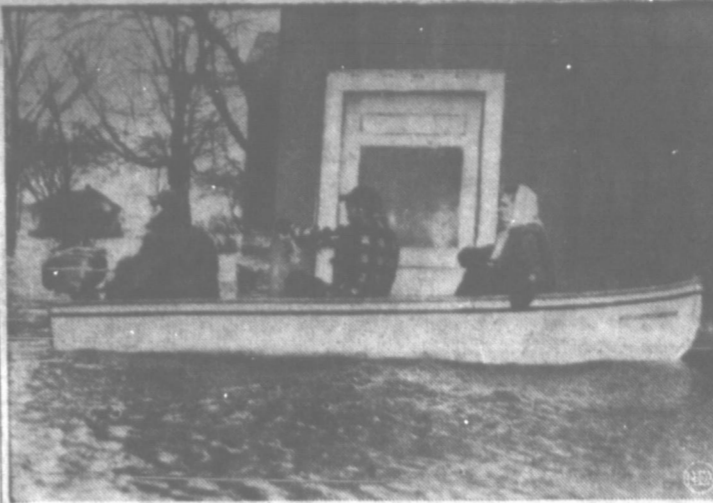

U.S. Apparently Producing Variety of A-Bomb Casings

By ELTON C. FAY

WASHINGTON — (AP)—The United States apparently is producing a variety of special bomb casings in which its new, immensely more powerful atomic explosives can be used against any type of enemy target.
 With such specialized containers or missiles, the atomic bomb ceases to be only a mass destruction weapon for a shot-gun style of attack on an industrial city. It could be used against particular and difficult targets such as underground fortifications and factories.
 A laconic phrase in the semi-annual report of Defense Secretary Johnson gives a significant hint. Says Johnson: "atomic weapons are no longer a small number of bombs of a single type and size to be used only strategically on a carefully selected target."

His reference appeared to be this: the only two atomic bombs used in wartime attacks were exploded in the air over Hiroshima and Nagasaki. Of the two bombs publicly demonstrated after that, in the Bikini test of 1946, one was airburst like those used on Japan. The other was fired underwater after long and careful preparation, impossible under war conditions. The bombs were used, as Johnson said, "only strategically."
 While neither the Defense Department nor Atomic Energy Commission is inclined to go beyond the cautiously phrased statement of Johnson, problems encountered in World War II and results of tests at Bikini and Eniwetok proving ground suggest here are some of the objectives of the atomic weapons:
 1. An A-bomb encased in a deep-penetration type jacket similar to the "fall boy" bomb developed in the closing days of the war. The function of this conventional explosive bomb was to bore deep into the earth before exploding. The objective was to produce an earth shock to crumble underground installations. The Allies never were able to solve the problem of attack on U-boat pens, tucked away along the coast under thick layers of earth and reinforced concrete. A deep-penetration atomic bomb may be the answer.
 The United States Air Force has been experimenting with dropping 2,000-pound bombs designed for conventional explosive

loads. The size of these bombs presumably equals or exceeds the standard atomic bomb casing.
 2. An atomic mine which can be pre-set to explode or be detonated by remote electronic control. Such a weapon may be dropped from a plane (as thousands of standard mines were during the war) or planted stealthily from a submarine steaming into an enemy harbor. At Bikini, the bomb exploded under water was lowered through the hull of a specially adapted vessel and exploded under the most careful laboratory conditions. The weapon in no way would have been useful in a wartime attack on an enemy port area or a fleet at sea.
 3. An atomic bomb designed to explode on impact with the ground or a few hundred feet above it if a proximity fuse is used and possibly with its force of explosion under some control (if Johnson's reference to "size" is taken literally). A weapon of this nature is tactical — for use against enemy forces. Dropped from the air or carried by guided missile, its logical targets would include heavy concentrations of troops on a beachhead or at a port of embarkation area. High defense officials already had let it be known that tactical use of the atomic bomb was under study.
 There seemed to be no suggestion in Johnson's comment on atomic weapons that he was referring to the projected hydrogen bomb.

EXTRA SPECIAL DELIVERY—Flood waters from the Tittabawassee River didn't keep William Horning, center, and his sister, Florence, from making the rounds with the Midland, Mich., Daily News. With motorboat operator Dee Olds, the teen-age couple is seen about to make a delivery—to a customer who wasn't home.

Eight Set Out On Journey to Hugu Canyon

LOS ANGELES — (AP)—Only 200 miles below the U. S.-Mexico border is a great crack in the earth known as Barranca de Cobre (Copper Canyon).
 Although never explored, it is believed to be deeper and wider than the Grand Canyon in Arizona.
 Vague reports from the area, one of the wildest and most isolated on the North American continent, say that here live real "cliff dwellers," last remnants of an ancient race of men.
 An expedition left Los Angeles today to explore this canyon of mystery. The Los Angeles County Museum and William J. Sheffer, ornithologist, are sponsoring the trip. Museum representatives on the expedition are Kenneth Stager, curator of ornithology and mammalogy, and Robert Aris, curator of history and anthropology.
 Sheffer has made many trips into the region but has never descended into the canyon. He hopes to find new species of tropical and semi-tropical birds.
 The great canyon, formed by the Urique River, has been reported to be 20 miles wide and some 7,000 feet deep. The point where the expedition hopes to enter it is near where the three Mexican states of Chihuahua, Sinaloa and Sonora come together.
 The route of the truck-borne expedition will be by way of Nogales, Ariz., Guaymas, Navajo and Alamos in Sonora. Near Alamos, on the Rancho Guiracoba, the eight-man party will transfer to horses and mules for the last 90 miles of the journey through the wilderness. Sheffer hopes to return to Los Angeles in about nine weeks.
 Sheffer, who said he and his brother, R. N. Sheffer, own the 1100-bird aviary at Salome, Ariz., has been trying for years to get to the canyon.
 Each time, disease, accidents or other misfortunes have kept him from reaching the goal. Nine years ago he had an expedition organized and ready to set out from the Guiracoba Ranch, 90 miles from the canyon. The day he was to start was Dec. 7, 1941. The trip was canceled.
 West probably will rise, since the central agency can charge whatever the traffic will bear.
 The creation, however artificial, of a ruble area is considered a psychological step in the cold war, just as the establishment a year ago of the Economic Council of Mutual Aid (ECMA) had been largely a propaganda move.
 The Eastern European states were bound together with the Soviet Union in the ECMA in a sort of reply to the West's European Recovery Program but with this difference: there apparently was no intention on the part of Russia to pump rubles into the economy of the other nations. Rather, it appeared that Russia actually would be on the receiving end.

Russia Seeking Suppression Of Dollar Bloc

VIENNA — (AP)—Russia is pressing a campaign to drive the dollar out of the business dealings of her satellites, informed western sources say. She is setting up a "ruble area," a rival of Britain's sterling bloc and the U. S. dollar zone.
 The anti-dollar measures are part of a long-range program the Soviets are ready to gain absolute control over the economic policies of the eastern bloc nations.
 Out the window will go present mutual aid treaties binding the eastern states together, and — gradually — unilateral trade pacts between Eastern European states and the West. Moscow thinks these give the satellites too much freedom to make deals on their own.
 Replacing them will be a central customs union controlled by the Kremlin, with payments funneled through an international payments bank in Moscow.
 Informed western sources say all trade will be figured in rubles. All east bloc currency will be pegged to that money. All prices will be quoted in rubles, Poland already quotes them that way. Other eastern nations are expected to follow suit soon.
 Most of the present treaties and trade agreements are calculated on the basis of the dollar. Russia's plans to change this have a psychological and propaganda aim. One western economist explains Russia's objective this way:
 "No matter how loudly Russia proclaims the inevitable collapse of capitalism, her arguments don't mean a thing while the people know their own currency and their own trade is pegged to the dollar.
 "The less the people hear about dollars, the easier it will be to convince them that the dollar is worthless."
 With the Moscow-dominated custom union calling the trade turn, the Soviet satellites — Poland, Czechoslovakia, Bulgaria, Romania, Albania, Hungary and East Germany — then no longer will be in competition among themselves for western markets. Prices for East bloc goods in the

WEST PROBABLY WILL RISE, since the central agency can charge whatever the traffic will bear.
 The creation, however artificial, of a ruble area is considered a psychological step in the cold war, just as the establishment a year ago of the Economic Council of Mutual Aid (ECMA) had been largely a propaganda move.
 The Eastern European states were bound together with the Soviet Union in the ECMA in a sort of reply to the West's European Recovery Program but with this difference: there apparently was no intention on the part of Russia to pump rubles into the economy of the other nations. Rather, it appeared that Russia actually would be on the receiving end.

Hungarian Council Leader's Resignation Told by Papers

BUDAPEST — (AP) — Budapest council papers today reported the resignation of Arpad Szakasits, chairman of Hungary's presidential council, who mentioned "health reasons" in his one-sentence letter of resignation, was president of the Communist-dominated Hungarian republic from Aug. 3, 1948, until the post was supplanted a year later by the residential council. He had headed the council since then. Published reports said the Hungarian People's Front of Independence would propose that Parliament elect Shandor Ronal as Szakasits' successor. Ronal is minister of foreign trade and a member of the politburo of the Hungarian Workers (Communist) Party.

Both Szakasits and Ronal were members of the Social Democratic Party until it merged with the Communists to form the workers party. Szakasits' letter of resignation, dated April 21, was addressed to the speaker of the Hungarian Parliament.

The Italian news agency Astra said last July that rumors were circulating in Vienna that Hungary's Communist-dominated government had arrested Szakasits. The following day the Hungarian foreign office termed the report "most ridiculous and unworthy of comment."

The announcement of Szakasits' resignation followed by only a day a cabinet shakeup in Czechoslovakia in which Dr. Alexei

Cepicka, militant Communist who led his government's fight against the Catholic church, became minister of defense. He succeeded Ludvik Svoboda, who became a vice premier and director of the state office of physical culture. Other cabinet switches were announced as a result of Cepicka's appointment.

Silent Film Star's Will Case Near End

LOS ANGELES — (AP) — The William S. Hart will trial is nearing an end after two months and 1,400,000 words of testimony.

A total of 468 exhibits have been submitted by both sides and 119 witnesses have appeared. William S. Hart, Jr., is seeking to break the will under which his father, silent film star, left most of his \$1,176,000 estate to the county for a memorial park.

Allies Keep Italian Pupils In the Dark

ROME — (AP) — World War II

What's that? Officially, Italy's postwar high school graduates have never heard of it. Nor, in the classroom, have they ever heard of Benito Mussolini. For the past years, in Italy's grammar schools and high schools, history has stopped in 1918. Allied Military Government placed a ban on secondary school

teaching of Fascist history and the events leading up to the war. The occupation authorities wanted to avoid "classroom controversies." They ordered references to Mussolini and fascism edited out of textbooks, sometimes with the rough expedient of paper and paste. The ban

has never been revoked, although Allied military rule ended with the Peace Treaty in 1947. An Education Ministry commission has been studying the problem of objective presentation in the classroom of the controversial Fascist era, but a spokesman said he does not know when they will finish the job.

TO DRINK MORE
TOKYO — (AP) — The Japanese government will allow breweries and distilleries to produce 22,000,000 more gallons of alcoholic drinks this fiscal year. Raw materials are more plentiful. Allowed production this current fiscal year is 94,000,000 gallons.

RETURNS GOOD
CHICAGO — (AP) — If somebody takes your car here, the chances are about 5 to 1 that you will get it back. The police department says 4,390 motor vehicles were stolen in Chicago in 1949 but all but 801 of them were recovered.

Yanks Trounce Sox Again; Bums Win

By JACK HAND Associated Press Sports Writer Paul Calvert, a \$10,000 hand-me-down, looks like the relief help Red Rolfe needs to make Detroit a sure fire pennant threat.

Calvert's sale to Detroit by Washington last winter was an obscure waiver deal. But it was a key move in Manager Ruffalo's 1950 plans.

Rolfe likes Calvert's low sinker. The manager's neat little book of past performances told a Calvert story that belied his 6-17 record and his 14 straight defeats in 1949.

Red knew he had the starting pitchers to match anything in the league. Virg Trucks, Art Houtteman, Ted Gray, Freddie Hutchinson and Hal Newhouse, until he came up with a sore arm. But then what?

"That's my problem," said Rolfe during spring training days at Lakeland, Fla. "If I can come up with a dependable relief man we'll be in pretty good shape. I hope Calvert will do it."

Calvert, a 31-year-old veteran with a history of arm trouble, may not be the ideal fireman. But he is determined. A few years back he bought his release from Toronto for \$1,500 so that he could pitch winter ball in Havana.

Last spring, a free agent, he sold himself to Clark Griffith, Griff and Calvert had a difference of opinion about salary. After the season Paul wrote the Washington owner, "Trade me or else," he said in effect. Griff was glad to oblige.

Calvert came along slowly in the spring exhibitions. By opening day he was ready. Rolfe used him three times in the first seven games as the Tigers surged to the league lead in a spurt start.

Against the St. Louis Browns yesterday, Calvert slipped through two hitless innings to earn an 8-6 decision in the tenth. It was the first game he'd won since last June 3 when he beat the same club with a nine-inning effort.

The Tigers, surging to their sixth win in seven starts, won in the tenth on a walk to Eddie Ligon and singles by George Kell and Pat Mullin.

For the second straight day, a New York Yankee pitcher went the route as Eddie Lopat struck the Boston Red Sox with eight hits, 10-2. The Yanks unloaded an 11-hit barrage including homers by Hank Bauer and Yogi Berra.

Parker Gains 2nd Win for Self and Team

The Pampa Oilers halted their second three-game losing streak of the young season at Abilene last night when little Roy Parker, ace lefthander, hurled a 9-8 victory over the Blue Sox. It was Parker's second win of the season, as well as the Oilers' second victory against six losses.

Tonight the clubs meet in the second game of the three-game series. Manager Grover Seitz was uncertain about his pitching selection for tonight but indicated that it might be Merlin Hubbard, or the new boy, Earl Doud, both righthanders. For the Blue Sox the probable starter will be Will Roca, a big lefthander.

The Oilers close out their road trip at Abilene tomorrow night and then return home for Saturday night and Sunday afternoon engagements with the Albuquerque Dukes, Monday and Tuesday games with Lamesa, and Wednesday, Thursday and Friday affairs with the Blue Sox before taking a two-day road trip.

It was a six-run sixth inning that broke up a 3-2 ball game and put the Oilers ahead to stay. It came at the expense of rookie righthander Lon Dunn, who up to that point had been sailing along on par with Parker, the only two runs off while 'nole came with two out.

Don Ricketson was the batting hero of the game last night with five straight hits in five trips. He picked up four singles and a three-run homer in the big sixth inning, his first of the year.

Pampa jumped into the lead last night in the fourth inning when Bill Hassey was safe on an error by the third baseman. Matney skied to centerfield, but Richardson doubled into left centerfield and Hassey came all the way around to score.

The Sox tied it up in half on a hit batsman, a fielder's choice, a single by Walt Sessi and a double by Ozzie Santa Cruz.

The Oilers moved ahead again in the fifth when Don Ricketson singled and went to third on an error by the leftfielder and a long fly by Parker scored Ricketson.

But the Sox bunched three straight hits in the fifth to take a 3-2 lead. Then came the big Oilers sixth inning, in which they scored six runs, all after two outs were out. Matney and Richardson were easy outs. Joe Fortin, Jim Martin and Ernie Velasquez all hit the first pitch right back through the box for singles. Fortin scoring. Don Ricketson then slammed a four-base wallop over the 344-foot leftfield fence, his first home run of the year, scoring behind Martin and Velasquez. It was Ricketson's third straight hit. Parker kept things going with a single to right field, Bobby Rose walked and Hassey was safe on an error to load the bags again. Matney, up for the second time, slammed out a single to score Parker and Rose and then Richardson bounced out to the first baseman Sessi to end the inning. But the Oilers took an 8-3 lead.

The Sox put a walk and a double together for one run in the seventh and then put on a mild flurry in the ninth, two hits, an error, a walk and a wild pitch accounting for the final two Sox runs.

CAMPANELLA SAFE, KERR SPIKED—Roy Campanella, Brooklyn Dodgers' catcher, slides safely at second as Braves shortstop Buddy Kerr is spiked in their inning of a game at Boston April 25. Kerr returned to the game later. Action started when Dodger pitcher Joe Hatton bunted and Braves Catcher Del Crandall made throw to Kerr. (AP Wirephoto)

Blue Grass Stakes Offers Derby Test

LEXINGTON, Ky. — (AP) — Eleven class sophomores figured to test their Kentucky Derby legs today in the semifinals for the \$100,000 classic and maybe lift their stock for the first leg of racing's 1950 triple crown.

There was a foreigner too—Big Ike—in the field of 12 named for the \$20,000 added 1-1/8 miles Blue Grass Stakes that ends Keeneland's spring meeting.

The Blue Grass — just one-eighth mile shorter than the Derby by route — and the Derby trial at Churchill Downs next Tuesday provide the last limbering up drills before the run for the roses a week from Saturday.

There's a \$28,500 pot of gold to be split in the Blue Grass and the winner gets a net \$21,300 after the fees are paid.

The three choices in pre-derby betting — Your Host, Hill Prince and Middleground — passed the Blue Grass but Oil Capitol, Navy Chief and Mr. Trouble were around to help provide the excitement.

Oil Capitol, Tom Gray's Oklahoma colt who captured the Flamingo but didn't show much in an allowance test at seven furlongs here last week, drew top weight of 126.

The same weight was put on Wisconsin Boy, winner of the Arlington Turfity last year by the Ladysmith, Wis., papermaker, W. M. Peavy.

Pros Prepare For Western

DALLAS — (AP) — Golf's crack shots who play for fun are moving into Dallas for the forty-eighth Western Amateur with storm signals lining the rugged course on which this tough tournament will be run over a week's stretch.

Those warnings are being thrown out by Texans, David (Spec) Goldman in particular. The ageless veteran is the sensation of the tune-up rounds. He shot 68 and 67 on consecutive days. His 67 — five under par — yesterday tied the record for the Dallas County Club's 6400-yard course.

Then there is Dale Morey, also of Dallas, who has won the Midwest Tournament and Shreveport Invitational. He shot a 70. And Jack Munger, who is almost as much a veteran as Goldman, laid down a 69 the day before.

The players from other states will start arriving today. Frank Stranahan, the Toledo muscle man who is defending champion, is due Saturday.

Four, and possibly, five Walker Cuppers will play in the tournament. They are Bruce McCormick of Los Angeles, Bill Campbell of Huntington, W. Va., recent winner of the North and South Tournament; Jim McHale of Philadelphia, and Stranahan.

There will be 174 in the tournament with 36-hole qualifying Monday and Tuesday and match play for the 64 low scorers starting Wednesday and extending through Sunday, May 7.

Lobos Defeat Hubs, 12-11, To Take Lead

LAMESA — (AP) — Rightfielder Danny Pinto lashed a two-run single with two out in the last half of the ninth inning here last night to give the Lamesa Lobos a 12 to 11 victory over the Lubbock Hubbers and move the Lobos into first place in the West Texas-New Mexico League.

It was the Lobos' fifth straight win and the first of the three-game series with the Hubbers, played before 1,904 delighted fans.

The Lobos staged a four-run rally in the final frame to overcome what looked like a safe game series with the Hubbers, played before 1,904 delighted fans.

The Lobos staged a four-run rally in the final frame to overcome what looked like a safe Lubbock lead. Bill Capps led off with a double and after Roman Loyko had grounded out and Jimmy Baker had popped out, Sam Shaw doubled to score Capps.

Israel Ten, the winning hurler, singled Shaw home, Pedro Santiago doubled Ten to third and Pinto unlimbered his game-winning drive. Marshall Epperson, who came in to pitch to the left-handed Santiago, was the losing hurler, although the winning blow came off Chris Haskins, former Lobo pitcher.

WARREN'S WARMUP

By Warren Rosen—Times Sports Editor

QUESTION: Who is Eugene Saraceni?

IT PAYS TO BE YANKEE. That's an old adage in baseball, and a check of the record books definitely bears out that saying, at least from a financial standpoint.

The Yankees have played in 16 World Series, winning 12 of them. This post-season play has meant a total of \$2,615,985 to the members of the team.

for the Yanks are higher, also. So, "it pays to be a Yankee."

Night baseball has definitely moved into the big leagues on a full scale. Since it was first tried by Larry McPhail in Cincinnati in the '20s every park but one has erected a floodlighting system for night contests.

The normal summer daytime weather in St. Louis is so terrifically hot that fans stay away from the ballpark in droves.

Says Fred Saigh, owner of the Cards: "We drew 1,430,068 fans last season, a new record for our parks. More than half of our fans were from out of town."

"I've talked to Marty Marion, Stan Musial and Emsy Slaughter and they all realize how big our payroll is."

While the majority of baseball players don't like to play a night game and then follow it up with a day affair the next afternoon, for the Cardinals that is almost a matter of course.

And just to show exactly how much more profitable it is to play in Yankee Stadium than elsewhere, in 29 seasons the Yanks have averaged \$2,833 apiece. Meanwhile the Philadelphia players averaged \$33.14 over the same period.

The big black board will be fully electric with the exception of the inning scores. It is very definitely one of the biggest improvements to the park in a long while.

ANSWER: Eugene Saraceni is the given name of the great golfer, Gene Sarazen.

Pioneers Clip Gold Sox, 8-4

AMARILLO (AP) — Joe Borrego, a southpaw who was just wild enough to be good, spun a four-hitter here last night to hurl the Clovis Pioneers to an 8-4 victory over Amarillo in the opening game of a three-game series.

Borrego walked eight batters, hit two and a couple of Gold Sox were awarded first on catcher's interference, but he was very tough with men on base.

The southpaw slanting of Paul Dean's hustling youngsters was supported by Pete Trabucco, a first baseman who started treating Amarillo like he did Albuquerque recently.

Trabucco plunked four singles and a homer during five turns of a perfect batting night against a trio of Amarillo pitchers, Dean Franks, Bob Zollicoffer, and Ed Norton.

Tom Callento, Sox centerfielder, solved Borrego safely twice, both being singles. Only other Amarillo safeties were a single by Doug Lewis and a double by Crawford Howard.

CLOVIS, Tex. — (AP) — Amarillo's first baseman, Pete Trabucco, hit a home run and a double in the first inning.

Trabucco hit a home run and a double in the first inning. He also had a single and a double in the second.

MY Biggest BONER

Schacht Beat Onslow Out of Flag But He Was Wrestled Out of Game

By AL SCHACHT Clown Prince of Baseball Providence was fighting Buffalo for the International League pennant in 1914.

I was pitching the first game of a double-header for Newark in Providence when I passed the Buffalo dugout en route to the showers.

"I started to pitch. He caught. They knocked me out of the box in the third inning."

"Now we're even," shouted Onslow, as I passed the Buffalo dugout en route to the showers.

I spent 17 years in the American League as a pitcher and coach. Continuing as a clown, this will be my 42nd year in organized baseball.

And wrestling Jack Onslow for 20 minutes before starting to pitch a game was My Biggest Boner in Baseball.

I weighed 130 pounds. He came in at 195.

Onslow came into our clubhouse before the game. "You beat us out of a pennant."

NTS Ends Tour ATHENS, Ga. — (AP) — The Southern Intercollegiate Golf Tournament in which 118 players are entered opened competition today.

The Southern will be decided over 72 holes of medal play — 18 today, 18 tomorrow and 36 Saturday.

Harvie Ward of Tarboro, N. C., representing the University of North Carolina, is playing in his first Southern and trying to break the jinx this tournament holds over national collegiate champions.

Besides Ward the main cast of the 1949 national is: national runner up Morris Williams of the University of Texas; NCAA medalist Arnold Palmer of Wake Forest who also was a semifinalist, and the NCAA championship team from North Texas State College.

North Texas' entries here are A. J. Triggs, Bill Turner, Don January, L. M. Crannell, Joe Conrad and Billy Maxwell.

Ten basketball season as the highest-scoring team in Conference history.

Eagles Start Cleaning Out

(By The Associated Press) Northern teams of the Texas League today start an eleven-day road trip that may give a tip on the top teams of the Class AA circuit.

The road trip starts amidst rumblings of a wholesale shakeup of the Dallas Eagles. Dick Burnett's fancy-priced entry now floundering in sixth place.

Some changes in the Eagles personnel were announced last night after they dropped to a half-game out of the cellar on a 5-4 loss to Tulsa.

In other games last night, Beaumont nudged Shreveport, 9-8, on Emil Tellingier's 11th-inning home run; San Antonio beat Houston, 3-1, and Oklahoma City blanked Fort Worth, 6-0.

Tellingier led off for Beaumont in the eleventh, took a 2-2 count off Harry Grubb, then smacked one 355 feet over the leftfield fence to win the game in fiction fashion.

Home runs helped San Antonio whip Houston. Charley Grant and Wes Hamner hit them. Jim Dickey of Houston hit a triple and scored when the throw in tapped him on the head and rolled into the dugout. He never stopped running.

Al Aber blanked Fort Worth on

Gassers Trim Dukes, 14-3

BORGER (AP) — Big Fred Parker scattered 12 hits in a 14-3 night win as he went the distance to pitch the Borger Gassers to a 14-3 win over the Albuquerque Dukes.

Meanwhile, Borger batters pounded out 15 hits, five of them doubles, to allow Parker to coast to the victory.

A ninth inning rhabarb brought about Bill Schambon, Albuquerque first baseman, ended in the entire Duke bench being removed from the dugout. Schambon was ejected from the game for the use of profane language by umpire Ross Belbeck. Schambon had been thumbed when the rest of the team followed to watch the remainder of the game from the stands, after continued remarks from the dugout.

Many Weapons

Marshall Andrews, military editor of the Washington Post and a veteran of both world wars, has written an important book, "Disaster Through A.I.R. Power," which has been published by Rinehart & Company. Not everyone will agree with its treatment of an extremely controversial subject—but it undoubtedly does more than any other work of its kind to dispel the dubious and dangerous theory that big bombers will assure us of victory should another war come.

In the book, Mr. Andrews makes this extremely important statement: "It is reasonably safe to make the dogmatic statement that the nation which ignores sea power can hope to win a modern war. It is Hitler's failure to give proper weight to sea power which led ultimately to his defeat. This is an historical fact which the dogmatic sea power men have totally overlooked. And failure to recognize it could lead this or any other nation to disaster."

Moreover, in these times, adequate seapower demands a truly balanced Navy or surface ships, submarines and, of first importance, carrier-based aviation. Some Air Force partisans obviously wish to reduce the strength of naval air to the vanishing point, and perhaps to even eliminate it entirely. Nothing could do more to cripple our naval defenses in the last war, and especially in the Pacific, the carriers were one of the most decisive weapons.

There are no "one-weapon" wars. The maximum possible development of all the services, sea, air and ground, is the only road to military security.

Dollar-Cutting

When you buy gasoline or fuel oil or some other petroleum product, what happens to your money? The annual report of Standard Oil of Indiana answers that question.

This company took in more than \$1,338,000,000 from its customers last year, including the taxes collected on behalf of government agencies. And here's how each one of those dollars was divided.

First, 27.7 cents went for raw materials, transportation and other purchases.

Next, 17.2 cents was paid in taxes.

Employees came into the picture then, receiving 16.4 cents in wages, salaries and other benefits.

Wear and tear on equipment accounted for 6 cents.

Out of that fast-moving dollar, 4.8 cents was retained for use in the business, so that it could keep up with the march of progress, meet the aggressive competition which is characteristic of the oil industry, and serve its customers well.

Finally, there was 2.9 cents left—less than 3 percent of the

INSIDE YOUR CONGRESS

By RALPH W. GWINN, Distinguished Member of Congress, Lecturer and Author

FREEDOM OF RELIGION THREATENED

Is religious freedom possible, if economic freedom is lost? Many Christians believe we can advocate compulsion in our economic life, and still keep our freedom in the religious realm. But how long will religious freedom last if we go socialist?

Perhaps you doubt that leaders of Christian religious groups advocate the use of force. If so, you should study the literature on social and economic action published by some of our church bodies. They openly reject economic freedom as anti-Christian. Adam Smith, who led the western world to the full enjoyment of economic freedom, is placed in the same category with Karl Marx, who sired the brutal force called Socialism, that is, Communism.

Whatever the members of our denominational groups may think, their spokesmen often publish statements that are masterpieces of Socialian dialectics. They say, "There can be no Christian sanction for one-sided support of either economic individualism or economic collectivism." This is the pose of neutrality, but it is neutrality as between the robber and his victim. They would destroy every economic gain that has made the people of this country freer and more kindly than the people of any other country. They argue for a "middle way," a clever trap which must bring forth the answer "Socialism."

Many of our clergymen, like many of our teachers, have been drawn into support of Socialism because they believed, without careful analysis, that it would benefit the wage-earners and the poor. For Socialism has the living of our generation, by advocating its dream, surrounded by subjective feelings that they were warmer, kinder, more generous, than other men. That dream lasted while the world was prosperous and peaceful, and governments could not interfere with themselves. The dream now has to face a cold reality—where the Socialist dreamers were able to get possession or control, and remake the world by force; their new world soon became one great concentration camp. Those who were poorer, the down-trodden were more cruelly trodden upon; the classes were more fiercer at war with each other. The ruling group could keep its privileges only by setting up a police State. The people worked at what and wherever they were told, at whatever wages and in whatever field of money was fixed by the State.

Suppose our Socialist ministers are successful in their efforts to bring about a "middle way" concentration camp for State control of income and wages. What will happen to our churches? I political leaders in government own or control all the income of the people, how long will our churches remain free? What will happen to men in the pulpit who dare to own a dollar. That went to the owners in dividends.

The point is clear. The tax collector and the workers fare alike when the State controls the money investments make industry possible.

Lindbergh Estate To Be Boys' Home

TRENTON, N. J. — (AP) — The country estate from which Col. Charles A. Lindbergh's baby was kidnaped is to become a correction home for delinquent boys, New Jersey officials announced.

The \$50,000 home and 400 surrounding acres in the rolling hills of Mercer and Hunterdon Counties were accepted by the state in 1941 as a gift from the world-famed pilot.

The estate was built by Lindbergh's father, the late Charles Lindbergh Sr., and was used by the family as a summer home.

The estate was built by Lindbergh's father, the late Charles Lindbergh Sr., and was used by the family as a summer home.

Washington.....by Peter Edson

WASHINGTON — (NEA) — Wisconsin Republican Sen. Joe McCarthy did a lot of good for himself in his address to the American Society of Newspaper Editors in Washington. ASNE is made up of about 600 working newspaper editors — men who direct editorial policy.

More than 500 of them were present for the annual Washington meeting and heard McCarthy talk. The impression they carried away with them will have important bearing on the editorials they write in the future on McCarthy's charges of communism in government.

McCarthy got heavy applause from the editors during and after his speech. A part of it was admiration for an ex-Marine who could keep swinging even after he had taken an awful lot of punishment in and out of Congress. But many of the editors who came to doubt were obviously impressed.

McCarthy has developed a good political fighting technique. He can revolve with the punch like a rooster on a weathervane. He attacks constantly. He keeps repeating his charges. Lattimore is the architect of our China policy. Acheson is incompetent. The Communist line shapes the thinking of our State Department.

He has an answer for everything. Most of the time it is not a direct answer. He ignores evidence that does not support his charges. When he is proved wrong about something he ignores it. The net effect is that he is convincing to a lot of people who want to believe in him.

Many of the newspaper editors in Washington were extremely critical of the Washington press corps. They said Washington correspondents were as wrong on McCarthy as they were on the

Common Ground

By R. C. BOILES

The Crime of Crimes

Benjamin Franklin contended that our country would end in despotism when the people become corrupt. Felix Morley in his new book "The Power in the People" says about the same thing in this statement: "If popular form deteriorates, as a result of such factors as alien influences, INTERNAL CORRUPTION or imperialistic expansion, it will become impossible to maintain more than the shell, if that, of constitutional government." So if we would retain the blessings of liberty it behooves us to come to know the primary causes of individuals becoming corrupt.

It seems that we cannot hope to reduce corruption, let alone not have it increase, so long as we send the youth of the land to come in contact with corrupt men in public "educational" institutions. Public education is as Rose Wilder Lane says "the primary tyrant," and as Isabel Paterson says "it is tyranny naked." When the youth of the land are obliged to come in contact with men directing institutions of this type, it is just natural for the youth to become corrupt as it is for apples to rot when they come in contact with rotten apples.

There are two kinds of people who direct public school institutions. There are those who are inexperienced and thoughtless, who do not know the difference between right and wrong and those who are interested in being subsidized by the government and receiving their pay on an involuntary basis. The latter type of men are not interested in rendering a service that people will voluntarily pay them for. They are not interested in fair competition; they are interested in getting Organized private educators are being driven out of existence by teachers who are subsidized by the state.

Would the teachers in tax supported schools contend that it would be fair competition to a milk producer to have the government furnish milk without charging in proportion to milk delivered? Would they contend it would be fair competition to a producer of clothes or a manufacturer of service to have the government go in competition with them and tax them to furnish the government service without direct cost?

Public education has been for years the leading form of subsidies. No wonder people grow up to believe in subsidies when they are grabbed in their formative period and taught by teachers to believe in subsidies and unfair competition and statism rather than by teachers who believe in an unhampered market.

Teachers in public school institutions are either of this type or else they have little ability to reason and have little courage and self reliance. They prefer to be on the public payroll where they are protected by tenure rather than work for a private organization where their pay is on a voluntary free competitive basis. Of course when any act is to be done that violates moral law that requires the initiating of force, only those people can be had to take such jobs who believe there is no moral law superior to the will of the majority, or that might makes right or those who have definite ideas of what is right and moral.

It is the crime of crimes to send youths to come in contact with these kinds of persons. So it is impossible to expect anything but these kinds of people to head tax supported educational institutions. You can no more get moral people to take this job than you could get a moral person to join with a gang, or to marry into a class of people who believe there is no law superior to the will of the majority or that might makes right as the only ones that become the heads and the leaders and get the best or most lucrative positions in these tax supported schools.

And these men always pose as being educators—as being leaders—as being humanitarians as loving justice and mercy, so as to completely fool the parents and cause them to send their children to them in the hope that their children can get an education in these institutions of corruption. In reality all their children can get from institutions of this kind is corruption and a little bit of training. But training that isn't backed by moral principles is not even good for those who are trained, let alone for their fellow men.

It is no wonder that we have long periods of unemployment, dishonest money, and one war after another, when the youth is so generally corrupted by coming in contact with men of the above type.

We are reaping exactly what we have been sowing for the last 75 years. If we want to corrupt the people of our country the best way is to send them to the schools where they believe in statism and socialism and compulsion and that might makes right and that the end justifies the means. Then they are always sure to become corrupt unless they come in contact, either in the home or church or some other association, with moral people who point out the errors of the assumptions on which tax supported schools are based.

It is because of the truth of the above statements that I have not been able to find any school teacher who for \$100 would attempt to harmonize and show how tax supported schools are in agreement with the Ten Commandments, the Golden Rule, or the Declaration of Independence.

With Th' Uke Coming Back

— THIS OUGHTA BE AN'Y YEAR! WHEN TH' UKE WAS ALL THE RAGE, DEARS BEFORE GODFREY, I WAS A DING-DONG DADDY ON TH' UKE!

National Whirligig

news behind the news

By RAY TUCKER

WASHINGTON — Democratic National Chairman William Boyle makes fewer speeches than his rival up the Avenue here, Guy Gabrielson, but the former Kansas City policeman has virtually insured Harry E. Truman's 1952 renomination through the recent alliances he has negotiated with the leaders of the big, state-city machines.

It is estimated that he already has approximately 400 delegates in the White House belt, with absolute certainty that he can pick up the additional 150 - odd necessary for renomination. As a further insurance, the federalized political organization plans - to prevent the emergence of any possible "pretender" to the crown.

The Truman - Boyle strategy makes it more likely that the national chairman can carry out his plan to "renominate Harry Truman without the aid of a single southern state."

With only a few exceptions, these bosses consist of men who have fought or connived their way to the top all simultaneously with the Missouri dynasty, and have therefore been beholden to it for patronage since the days of the dominant figures a suffer from no hangover allegiances to the Roosevelt faction as represented by the Americans for Democratic Action. Indeed, like Mr. Truman's own friends, they look down their noses at the Ed Crump machine in Memphis as painted Kefauver's demand for an investigation of national crime.

The young legislator gave the veteran politician his worst defeat in many years, and the Tennessee boss is not a forgiving individual.

The fever headlines Mr. Kefauver enjoys at Washington, the more pleased Mr. Crump will be, and his influential aidekick on Capitol Hill, Senator Kenneth McKellar, chairman of the Appropriations Committee.

PHONES — A Washington official high up in the atom-bomb setup has three phones at his home. The phone connecting him with Capitol Hill, White House, State and National Defense personnel working on this problem will be used only in an emergency. It is an ultra-secret affair.

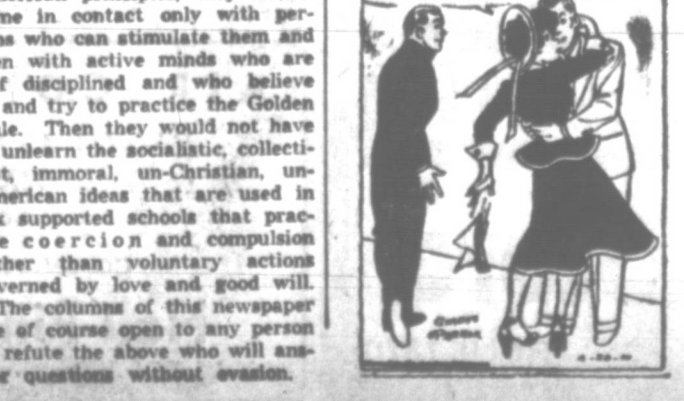

Recently, he tried to call his home on the two regular phones, but got no answer. In desperation he tried the white phone. Again, no answer. When he asked his wife why he couldn't get through on the atomic wire, she replied: "The carpenter we had here today used it to phone his office. The maids were on the other two lines!"

Frightened Workmen Given 'Bomb' Scare

ESSEX, MD. — (AP) — Workmen backed away in a hurry when the cylindrical object they uncovered while excavating for a housing project started to smoke. Police were called to keep the curious away.

One of the spectators was Maj. Allan C. Clark of the Air National Guard. He examined it from a distance. Then he walked up for a closer look. The "bomb" was a military sugar pot.

It's Your Money ... John Beck

AMERICAN MARKETS TAKE THE BAP: A DOUBLE SHUFFLE: When all the shuffling and reshuffling of world trade has shaped itself to the new currency values brought about by the devaluation of sterling, the whole picture will wear a "new look." It will not be a pleasing look to American business men or American taxpayers.

Exporting, for the hard-currency nations, is going to get rough. Whether we like it will make little difference: we will come face to face with the bald fact that our high-cost production will be unable to compete, article for article, in world markets.

Even before devaluation of sterling we were faced with tightening trade and falling exports, not only to sterling areas but to western hemisphere areas as well. In the first five months of this year our shipments to Argentina fell to less than \$53 million compared with \$232 million in the comparable period in 1948.

FOREIGN MARKETS GAIN: On the same basis with respect to time our exports to Brazil dropped 16 percent, to Uruguay 30 percent, and to Chile 15 percent. Simultaneously, Latin American trade with the sterling and other foreign areas mounted rapidly. During 1948 British trade with South America rose 48 percent over the previous year, and it was 230 percent greater than during 1938.

In the first four months of this year Brazil increased her trade with France by 400 percent compared with the like period in 1948. France sells Brazil automobiles, textile machinery, dyes, wool cloth and yarn cheaper than we can offer them. Brazil sells England oil seeds, cotton, sugar, tobacco, and coffee.

America has a surplus of all these things except coffee, but not at competitive prices. So we are gradually—maybe not so gradually—losing our South American markets. We cannot blame the South Americans when our prices hit them where it hurts, right in their pocketbooks.

FACTS EXCLUDE U.S.: Argentina has been making new trade pacts with other nations. England now sells crude petroleum to Argentina, and we do not—any more! From Finland, Argentina gets machinery and electrical equipment of various sorts, and crockery maybe not quite so good as ours but cheaper on a trade basis. France sells Argentina textiles—linen, silk, rayon, and cotton—and machinery such as printing and office equipment, automobiles, and diesel engines.

Monday, Argentina fell in line on devaluation—and how!—with a 46 percent slash of the peso compared with the 30.5 percent cut made by the sterling area. It now seems that other South American countries will be compelled to devalue their currencies in line with sterling, or in line with Argentina. If they do, it will tend to increase their European trade and put a further damper on American goods. It will make it more difficult for American business to hold what few markets it has left in South America.

BOYCOTTS START: Official boycotts of American goods have already started. The government of India announces: "There will be no further imports of food grains from dollar areas during the current year. Licenses will not be issued for goods (from hard-currency and dollar areas) when suitable substitutes are available, and it will have to be shown (where dollar purchases are authorized) that the articles or suitable substitutes, are not available from soft-currency countries."

The answer, the only answer we are likely to offer as a solution for this dilemma, will be greater subsidies, which is just a backward method of devaluing the dollar; just another government evasion of facing up to the real issues.

EXPOSURE FEARED: Little men's governments, the world over, fear exposure of their follies, their impractical planning, their inconsistencies, and the emptiness of their promises, which free markets so ruthlessly disclose.

But, in the end, there must come disillusionment through the bitter hardships resulting from false values in monies, services, commodities, and base metals. In time, men must learn that there is no substance in the offerings of cheap politicians who seek tenure by the pig-in-the-sky route.

WHAT IS LIBERTY? Our Founding Fathers had a very clear concept of liberty. It meant a minimum of temporal authority and a maximum of individual freedom. It meant equality before the law, a wide division of political power, and the voluntary society.

This concept of liberty had ancient roots. Its seeds were planted by Christ and Aristotle, by John Locke and John Milton, by Adam Smith and John Stuart Mill, and they bore fruit in our American Constitution and its Bill of Rights.

But this concept of liberty—individual, political, economic and social—has always had powerful enemies in the Authoritarians. We are wrong if we assume that all Authoritarians are evil. On the contrary, many of them are good and well-meaning. They merely have a totally different concept of liberty. They do not believe that free individuals can build a good society. They believe in building the good society first—and fitting individuals into it. That is how they justify their Authority, so that they can "promote public good" and increase "the general welfare."

These are the two basic ideological divisions in the worlds of both yesterday and today, although most people have never understood them. It should be obvious at last that Fascists and Communists are on the same Authoritarian side, and that all true "liberals" are equally opposed to both.

That is why the left-wing trades against such dictators as Franco and Peron are laughable, for actually they all share a common political and economic philosophy of totalitarianism. They all talk exactly the same language, make the same promises to the "proletariat" and the "shirless mass," and justify their authority in the name of "social justice." Lenin preached: "No amount of political freedom will satisfy the hungry masses." He is echoed by Oswald Molesley, the British Fascist: "Real freedom means good wages, short hours, security in employment, good homes, leisure and recreation with family and friends." Peron says: "The equality of the French revolution consisted in equal treatment of all persons, whereas present equality consists of an unequal treatment to compensate the differences." "Liberty will bestow fewer rights upon the individual to do as he sees fit, because liberty will increase the obligation to do whatever is best for the community."

Oleomargarine was invented in 1869 by a Frenchman to secure a prize offered by Napoleon III for a cheap and wholesome butter substitute.

PAMPA NEWS, THURSDAY APRIL 27, 1950 PAGE 17

Pampa Well Represented at Meeting Of Catholic Women in White Deer

Representing Pampa at the annual meeting of the Amarillo district of the Diocesan Council of Catholic Women last week were Mrs. Andrew McNamara, Pampa; Mrs. Tom Britton, "Social Service and Immigration," Mrs. George Herrmann; "Press and Publicity," Mrs. A. N. James; "Libraries and Literature," Mrs. Joe Shelton; "Shrines in the Home," Mrs. Joe Pavlovsky; and "Parish Organizations," Mrs. David Poundstone.

The council theme for the year, "The Lay Apostolate," was the theme of the program. Program was as follows: Opening hymn, "Come Holy Ghost"; Prayer for the Holy Year 1950 by His Holiness, Pope Pius XII; welcome address by the Rev. Peter Morsch, pastor of Sacred Heart Parish; district president's message, Mrs. Roy E. McKernan, Pampa; Roll Call; reading of minutes by Miss Anna Hibbets, Amarillo, district secretary; diocesan president's message by Mrs. Edmund Loerwald, Merford; special paper on the theme, "The Lay Apostolate," given by Mrs. A. Schlofman of Dalhart.

Concluding the morning's business were parish president's reports of activities and accomplishments of each parish during the past year. Luncheon was served by women of Sacred Heart parish.

Following luncheon the group was addressed by the Most Rev. Laurence J. Fitzsimon, Bishop of Amarillo. Bishop Fitzsimon talked to the group of his visit to some last year. He said one thing outstanding about Rome is the reflection there in many ways of each country in the world. One example of this he said was of the ceiling of the church St. Mary Major, which is covered in gold from one of the first shipments abroad of gold from this country. He cited many other examples found in the city. Another interesting point revealed by the Bishop was the origin of the architecture of today's Christian churches. The churches are patterned after the early Roman homes where Mass was said during the persecution of the early church. He brought to mind that even at that early time women played a great part in the church and often vied for the honor of offering their homes.

Reports were then given by Mrs. W. Garman, III (Pampa), and Mrs. Helen Omlor, Amarillo, of the Households of Martha organizations in their respective parishes.

Concluding reports for the day were those of the standing committees as follows: "Committee Cooperating with the Confraternity of Christian Doctrine," Mrs. Walter Rogers, Pampa; "Youth,"

Grace Friend

Readers of The Pampa News are invited to send their problems to Grace Friend. Letters not published in the columns will be answered personally provided a self-addressed stamped envelope is enclosed with the question. Writers must sign their names although they will not be printed without the writer's permission.

PARENTS OF RETROTHED GIRL ANNOUNCE ENGAGEMENT

Dear Grace Friend: I am soon going to announce my engagement to a young man who wants the public announcement made at a party his parents are going to give on their wedding anniversary.

My mother says that the announcement should come from the bride-elect's family.

What do you think? I thought that it might be all right if my parents are at the party too.

M.L.

Dear M. L.:

Your parents should announce your engagement first.

If you wish you may arrange to have your announcement in the newspapers the day of the party and then you and your fiancée may receive with his parents that evening at their party.

SEE HELPED HER SELF

Dear Grace Friend: I just simply must let you know of the results I have obtained through your advice. I wrote you about Dec. 21, 1949 asking you what you would suggest on television hips, that is, I gained right where I sit watching and eating mostly candy.

Everyone started calling me Hippo. Well, I started right in after receiving your letter to have a dish of carrot strips, celery strips and a few pieces of apple handy. Every time I had the urge to chew I grabbed some of the said, far from candy, vitamins.

Today, I can wear my too tight clothes and believe me, I have lost the name of Hippo.

Habit is a terrible thing when it is on the wrong side and with just a little good advice from one who knows right from wrong, the correction is easy, that is, if you really want to help yourself, it is up to the individual!

Who likes to be called Hippo? Not me, and never again.

May God bless you forever and many thanks.

Very Sincerely,
Mrs. E. H.

Dear Mrs. E. H.:

You have learned a valuable lesson when you know that success depends upon your desire to help yourself.

I'm glad that you have lost your television hips and I hope that your clothes fit better than ever. MUCH ADO ABOUT HAIR

Dear Grace:

What shall I do, cut my locks or leave them long?

My husband says to leave them alone but aren't men always like that?

I am tired of them long and want to try some short but suppose I get a haircut and then the style changes and I have to let my hair grow right out again? The price of vanity!

Vain Vicky

Dear Vicky:

Opinion differs on how long we are to have the short haircut with us but quite a few top-name hair stylists are already trying to persuade us to let our hair grow. Then there are a few who want it shorter than shoulder length but still not shingled while the remainder like it reminiscent of the twenties.

As to who will be right—your husbands seldom want their wives to change their hairdos but I, for one, like an occasional change in hair styles.

Why not shorten it without cropping it so that if you want to let it grow out it won't take so long a time.

Most stylists feel that the cropped look will be gone by the end of summer anyhow so a shorter haircut will make you feel smart and different and the growing out process will present less of a problem.

Coffee Given for Shamrock Club Members, Guests

SHAMROCK — (Special) — Members of the Shamrock Garden Club and their guests were entertained with a coffee at the home of Mrs. Earl Gobbie. Co-hostesses with Mrs. Gobbie were Mrs. T. H. Sonnenburg and Mrs. O. A. Robertson.

The entertaining rooms were decorated with garden flowers. The serving table was centered with an arrangement of red roses. Mrs. Temple Atkins poured.

For entertainment a style show was held, with various members of the group modeling sport and garden apparel. Women who served as models were: Mmes. Earl Gobbie, Vernon Carver, Virgil Agan, Dave Skidmore, J. B. Wright, M. E. Risk, R. A. Nichols, Sr., T. H. Sonnenburg, and J. H. Caperton.

Others attending were Mmes. Ben Parks, Scott McCall, Matt Lewis, Jack Montgomery, G. F. Geyer, Glenn LaDue, H. T. Fields, P. T. Boston, Flake George, R. T. Hill, Wm. Kyle, J. B. Zeigler, Tom Brown, S. M. Dunman, Charles Green, Frank Sanders, D. F. Spruill, T. D. Eland, Royce Lewis, B. A. Zeigler, Jack Kersh, Joel Sanders, Louis Hill, Seibert Worley, Tracy Tapp, P. B. Woodridge.

Mmes. Lonnie Burks, E. K. Bechtel, Bob Roach, A. R. Hugg, J. Byron Brown, John E. Harvey, Huey Cook, Bert Beienbough, J. B. Clark, and J. W. Goch.

A number of the piano students of Miss Doris Hedges are enrolled for the National Piano Playing Auditions to be held in Amarillo April 29 through May 5. Each year the National Guild of Piano Teachers sponsors auditions in more than 200 cities throughout the country with outstanding piano teachers as judges.

To qualify for enrollment, a student must memorize at least two pieces, and may enter as many as ten memorized pieces. The auditions are non-competitive, but students are given a goal to work for and concentra-

tion and constructive criticism are made on an individual basis. Students of all ages are allowed to enter the auditions.

Students enrolled are: Frances Bechtel, Kelta Boston, Charlene Badenheid, Maynette Derr, Carolyn Dodgen, Margaret D'Spain, Carol Ann Harvey, Julia Beth Holmes, Sandra LeBlanc, Connie Kay Lewis, Joy Beth Parks, Billy Ryan, Ann Scrivner, Linda Skidmore, Bonnie Ray Tilley, June West, Jo Ann Levine, Ila Carol Eldridge.

Ila Jean Byars, Carolyn Coburn, Allen Dodgen, Donnie Dodgen, Barbara Gelson, Jeanie Haggard, Mary Kay Holmes, Sharon LeBlanc, Christine Macina, Patsy Porter, Tommy Ryan, Martha Lou Setler, Sharon Stiles, Martha Ann Turnbow, Annette Whittle, and Linda Glissan.

Here's a New Dessert Treat

CHEESE BAVARIAN is a novel combination of cottage cheese, fruit and cream with a rye crumb crust.

By GAYNOR MADDOX NEA Staff Writer

Looking for a fresh-tasting spring dessert, easy to eat, lovely to look at? We've got it—a combination of two plentiful dairy foods, cottage cheese and cream, and canned cling peaches, also on the plentiful list.

Cheese Bavarian (Serves 8)

Two cups cottage cheese, 2 egg yolks, 3-4 cup sugar, 1-2 teaspoon salt, 1-2 cup milk, 1 package strawberry-flavored gelatin, 1 No. 1 can (2 cups) sliced cling peaches, 1-4 cup lemon juice, 1 tablespoon lemon rind, 2 egg whites, stiffly beaten, 1 cup cream, whipped.

Drain cottage cheese to remove excess moisture. Combine egg yolks, sugar, salt and milk; cook over boiling water until mixture thickens. Drain peaches and reserve for garnish. Heat 1-2 cup of the peach juice and dissolve gelatin in it. Add hot milk mixture, stir until blended. Blend in cottage cheese, lemon juice and

rind. Fold in egg white and whipped cream.

Transfer to deep six-inch mold (1 1/2-quart size). Top with rye crumb crust. Chill for at least two hours. When ready to serve dip mold in warm water and turn out on serving plate. Garnish, if desired, with toasted buttered rye wafer triangles, and a bit of cottage cheese. Surround with cling peach slices.

Rye Crumb Crust

One cup crisp wafer crumbs (about 15 wafers), 1-3 cup melted butter, 1-2 teaspoon cinnamon, 1-4 teaspoon nutmeg.

Mix ingredients together. Use with cottage cheese Bavarian.

Onions have many uses besides that of seasoning food. They're delicious stuffed and baked, boiled and creamed, or dipped in milk and seasoned flour and fried. Serve them often because they are plentiful and because they are excellent nutritional values to a family's diet.

Pink, Blue Shower Honors Mrs. Bullock

SHAMROCK — (Special) — Mrs. Pat Bullock was honored at a pink and blue shower recently, which was given at the Methodist Church in Lela. Members of the WCSS served as hostesses, with Mrs. Robert Trostie and Miss Nellie Jo Lowrey as co-hostesses. The honoree was the recipient of many useful and attractive gifts. Refreshments were served from a table centered with a bowl of snapdragons.

About 60 guests registered during the receiving hours.

Singing Convention To Be Held Sunday

An annual four-county singing convention will be held at the CIO Union Hall at 10 a.m. Sunday. A barbecue lunch will be served at noon. Mrs. J. E. White, secretary, invites everyone to attend and take a covered dish.

The group will sing at the Union Hall until noon. At 1:30 they will go to the Assembly of God Church, where they will sing until 4:30.

Regular Meeting Of Mobeetie P-TA

MOBEETIE — (Special) — The P-TA met Wednesday evening with Mrs. G. W. Harris in the chair. After a brief business session the grade school choral class sang three numbers.

C. E. Cook of McLean showed pictures of his recent trip around the world. The flight began at Amarillo and went from there to Chicago and on to New York. The foreign countries shown were Ireland, England, France, China, India, Africa, the Isle of Guam, and the Hawaiian Islands. J. A. Neese, grade school principal, said "Those pictures have taught more geography than I could teach in a month."

I DUNE FIGGERED OUT THAT BOODICIOUS RIDDLE, SNUFFY, "HE IS BUT HE AINT!" WHO ON AIRTH IS HE, SUT?

MY AUNT IS A AUNT BUT SHE AINT NO ANT BUT YORE AUNT AINT NO "HE"—SHE'S A "SHE"

BY JEEPERS!! SHE WEARS TH' BRITCHES IN HER FAMBLY!!

Alley Oop

IT IS A TIGER, A BABY TIGER!

WELL, FOR HEAVENS SAKE...

WHY YOU CUTE LIL RASCAL!

CARNIVAL

By DICK TURNER SIDE GLANCES By GALBRAITH

DRIVERS LICENSE EXAMINATIONS

E APTK PBAZO DANCAL APPROVAL

"Now say there's a woman driver in front of you doing this—what does she mean?"

"No eggs for sale, lady—my hens lay just for government storage!"

Mutt & Jeff

MUTTS READING UP ON PSYCHIATRY THESE DAYS! I THINK I'LL PLAY A LIL' JOKE ON HIM!

MUTT, I HAVE HERE ONE OF YOUR CIGARS-- I'M GONNA BREAK IT IN HALF!

AND I'M GONNA PUT HALF IN EACH EAR-- LIKE SO! NOW HAVE YOU A MATCH?

WHAT FOR?

I WANNA SEE IF YOU CAN SMOKE A CIGAR THROUGH MY HEAD!

HELLO-- IS THIS THE BOOBY HATCH?

NIX, MUTT! I WAS ONLY FOOLIN'!

Red Ryder

REMEMBER, LITTLE BEANER! I'M PLANNIN' TO TRAP A KILLER. FOLKS THINK I'M HURTY!

"ME SAWY, RED RYDER" YOU THINK I'M SOME NEIGHBOR, TRY TO KILL YOU WITH BOOM-BOXES!

AND YOU THINK I'M A KILLER WILL COME TO SEE HOW YOU FEEL IN A MINUTE? HERE COME NEIGHBORS!

GOOD! I KNOW EVERYBODY LISTENED IN ON TH' PHONE! TELL 'EM I'D LIKE TO LET ONE IN A TIME TO SEE ME? AS YOU STAY CLOSE BY WITH YOUR POINT AN' READY TO RIDE!

YOU'RE GOIN' TO YOU BETCHUM, BE MY PRIVATE RED RYDER, DETECTIVE! JUST LIKE MR. MISTER PINKERTON!

Vic Flint

I CAN'T FIGURE OUT WHY, BUT I BELIEVE THE PLAN TO KILL YOU IS TIED UP SOMEHOW WITH OUR GETTING MARRIED.

WHICH IS ANOTHER WAY OF SAYING THAT MY OLD PLAYMATE, CYNTHIA BAKER, MIGHT BE AT THE BOTTOM OF IT. JEALOUS OF HER, BOBBY?

DON'T LOOK NOW, BUT YOUR EGOCENTRIC SLIP IS SHOWING, ALEC STEEL! GUESS IT'S TIME I WAS GOING, DON'T BOTHER-- I CAN FIND MY OWN COAT.

Bugs Bunny

WHAT GAVE YOU TH' IDEA YOU WERE A PLUMBER... YAK!

ALL RIGHT, CICO, LAY OFF!

YOU'RE TH' ONLY PLUMBER I'VE SEEN WHO'S ALL THUMBS!

I'M WARNIN' YA, KID, LAY OFF!

YOU COULDN'T FIX A LEAKY FAUCET FOR ME!

WMM!

LIFE CAN BE BEAUTIFUL!

Priscilla's Pop

PRI-SILLA ALWAYS EATS HER CARROTS! WHY DON'T YOU?

LET ME HANDLE THIS, HAZEL!

IF YOU EAT YOUR CARROTS, CARLYLE, YOU'LL GET TO BE A BIG, STRONG MAN!

OH! THEN THERE'S NO SENSE IN ME EATING THEM!

HEAVEN KNOWS I TRY TO BE A GOOD FATHER!

OUR WAY By J. R. WILLIAMS OUR BOARDING HOUSE with Major Hoopie

THIS RIFLE'S BEEN HANDED DOWN FOR GENERATIONS IN GRAMP'S FAMILY! AFTER ITS LOADED YOU FOUR POWDER IN TO THAT FOLLOW AN' WHEN YOU PULL TH' TRIGGER THAT FLINT RUBS DOWN TH' STEEL AN' MAKES A SPARK GO DOWN TO TH' POWDER AN' TH' FIRE GOES DOWN INTO TH' POWDER IN TH' BARREL!

HOLY SMOKE! THEY HANDED THEIR SHOTS DOWN BY GENERATIONS, TOO DIDN'T THEY?

IT MIGHT BE CLEVER TACTICS, BURKE, IF YOU'D GO INTO THE HOUSE ALONE!—AFTER A GREETING YOU COULD ASK, "WHERE'S THAT GRAND OLD GENT, THE MAJOR?"—UM! WE MUST DEVISE A SIGNAL TO ADVISE ME IF THAT QUERY IS MET SUNNIN' OR WITH LIGHTNING BOLTS!

OKAY, MAJOR! IF SHE MEANS AND BRING A LITTLE WHEN I MENTION YOU I'LL JUST SIT TIGHT WITH A PAT HAND! BUT IF SHE RUNS A COLD EYE OVER THE BROOM, YOU'LL KNOW PRODUCE BECAUSE I'LL BE RIGHT OUT!

DEPLOY AS SKIRMISHERS, MEN!

FRECKLES

DIG ALL THIS HULLABALLOO! BUT A PRACTICE GAME!

DO YOU RECKON THE SILLY FILLIES THINK ANYBODY'S COMING TO THEIR DIZZY CLAM-BAKE?

BULLETIN BOARD

GIRLS! BIG RALLY! ENITE! EVERYBODY OUT TO CHEER FOR OUR TEAM!

YIPES! IT MAY BE PRACTICE FOR US, BUT THEY'RE OUT FOR BLOOD!

WOMEN OF SMOOZE (UNITE!)

BOYS WANT TO MATE WITH DOOM!

WOMEN WANT TO MATE WITH DOOM!

FUNNY BUSINESS BY HERSCHBERGER

"Thank heavens for Junior's skates!"

Blondie

WHAT'S THE NEWS DEAR?

H-M-M

LET'S SEE-- WHAT ELSE IS THERE TO READ AROUND THE HOUSE?

Wash Tubbs

YOU GOT HIM, EASY! BUT LOOK...

...THE PLACE IS CRAWLING WITH RATTLERS!

QUICK, NIKI-- WE GOTTA GET OUTA HERE!

BUT, EASY, THE LADDER-- IT'S GONE!

WE WON'T BE BOTHERED WITH THEM SNOOPERS NO MORE, JAKE!

Boots

OKAY, CISSY!

WELL, I'LL CERTAINLY HAND IT TO PUG!...

I'VE NEVER SEEN SUCH AN IMPROVEMENT IN DAVEY SINCE SHE TOOK OVER!

Bo

IN AN EFFORT TO BOLSTER UP JUNIOR'S WAVERING HOPE OF EVER FINDING BO, MR. GREEN TELLS HIM A TRUE STORY OF ANOTHER LOST DOG.

"SISSY" RUMMEL? NO, I NEVER HEARD OF HER, WHO IS SHE?

"SISSY" IS A BOSTON TERRIER THAT WAS LOST BY THE RUMMELS, WHO LIVE OUT IN LONG BEACH, CALIFORNIA. IT HAPPENED MONTHS AGO AND THEY HAVEN'T GIVEN UP LOOKING FOR HER.

THEY'RE NOT SITTING MOPING ABOUT IT. THEY'VE TRAVELED THOUSANDS OF MILES AND MORTGAGED THEIR HOME TO CARRY ON THE SEARCH.

HOW COME THEY HAVEN'T FOUND HER? INTEREST, I'LL TELL HIM MORE OF THIS STORY.

HM-M... I'VE AROUSED HIS INTEREST, I'LL TELL HIM MORE OF THIS STORY.

Mickey Finn

IT'S IN THE BAG, AS GOOD AS ELECTED THIS MINUTE!

YES! BUT DON'T FORGET-- YOU ARE NOT TO NOMINATE ME UNTIL AFTER HIPPELOPPER HAS BEEN NOMINATED!

THERE'S NO USE KIDDING ANY LONGER, HARRY! YOU'RE LICKED! RIGHT NOW! SMUGGLE IT AWAY FROM YOU WITH THAT SPEECH!

I REFUSE TO ADMIT IT! JUST MAKE SURE YOU LET HIM BE NOMINATED FIRST!

I HOPE YOU KNOW WHAT YOU'RE DOING?

I DO! THEY'RE ALL SEATED NOW! C'MON! AND DON'T STOP TO TALK TO ANYONE!

I NOW DECLARE THAT THE CONVENTION IS IN FINAL SESSION-- AND NOMINATIONS ARE IN ORDER!

Penny

IT'S LATE, WE REALLY MUST GO.

SO SOON, CAN'T YOU STAY A WHILE LONGER?

WELL, IF YOU INSIST.

LATER

WELL, THEY FINALLY LEFT. I WISH WHEN PEOPLE SAY THEY'RE GOING, THEY'D GO.

WELL, WE FINALLY GOT AWAY. I WISH WHEN YOU SAY YOU'RE GOING, PEOPLE WOULD LET YOU GO.

LORD IS THEIR LEADER—Twenty-five New England ministers, led by their bishop, John W. Lord, donned work clothes and gave a thorough spring cleaning, inside and out, to their Methodist Conference Center at North Andover, Mass. Seen working over some boulders are, left to right: Rev. Willard Arnold of Boston, Rev. John Collier of Webster and Bishop Lord.

DRINK LESS
 LONDON - (AP) - Beer-drinking Britons are drinking less beer nowadays. Latest figures show the country's production of the stuff dropped to 1,851,700 barrels a month. Analysts say the slump is due probably both to high beer prices—resulting from high taxes—and the growing popularity of entertainment found outside saloons.

Though its total border line is only 1800 miles, Austria is bounded by seven countries: Switzerland, Italy, Yugoslavia, Hungary, Czechoslovakia, Germany and Liechtenstein.

His production was started in China about 2800 B. C.

French Girls Leap at Chance To Jump Off 40-Foot Tower

PARIS — (NEA) — Five pretty girls turned up at Nohy airfield, outside Paris, the other evening to tackle difficult written and oral exams.

Then all five of them got up and jumped off a 40-foot tower. This was not out of desperation because they had failed. The jump was the last question on the exam and had to be answered five times — with full parachute equipment.

After that the girls were ready to go on with advanced training for enrollment in the Voluntary Air Parachutist Nurses' Group, branch of the Marquise Madeleine-Claire de Villeroy, probably the most air-minded woman in France.

The dynamic Marquise started flying when she was 11, which was sometime before World War I. She obtained her pilot's license in 1918, and ever since she has owned her own plane just as other women own a car. She has jumped more than 29 times, 200, which stirred up her interest in parachuting.

"Russia is the only country where women parachutists are trained seriously," she explained. "A few young Frenchwomen

were parachuted into the underground during the occupation and successfully accomplished dangerous missions. My aim is to prove that it's possible to train young women 'chutists for useful work, not only in wartime but in other emergencies."

The Marquise has no lack of candidates for her jumping nurses. She trained 50 in Lyons in the past year, and now is training 15 more in Paris. Many more than she can handle have applied, all of them white-collar workers such as secretaries, office workers and dressmakers. Age limits are 15 1/2 to 35.

Training starts with physical education, including judo. First jumps are from piled-up benches, then from the 40-foot tower. It takes between 12 and 15 months of night courses, three times a week, to pass the second-degree test, by which time the girls must have completed 30 jumps from tower and from plane, 15 with automatic control and 15 with retarded control.

So far, the Marquise has been devoting most of her private income to the project, but she'll have to find outside help to reach her goal of groups of 15 to 20 girls in every large town. It

Divorce Costs Heir \$300,000

LOS ANGELES — (AP) — Austin L. Adams, Jr., 27, dropped almost \$300,000 yesterday in obtaining a divorce from Betty Adams, 28, whom he married four years ago.

Adams inherited \$800,000 from his mother, Mrs. Helen Whitmore Adams, Middlebury, Conn. He testified his wife "stayed away from home too much without explanation."

Under terms of an agreement, Adams set up a \$100,000 trust for each of their two children and a \$75,000 fund for his wife. He also agreed to buy her a \$20,000 home and a \$2500 automobile. She was given custody of the children.

costs about \$600 a year to train each 'chutist, plus \$50 for jumping equipment. The girls provide their own uniforms, which the Marquise designed.

Veteran among the jumping nurses is Helene Sibert, 21-year-old Lyons secretary, who holds the rank of 1st sergeant of the group. She dismisses the 30 jumps to her credit this way:

"Once in a while we have to nurse bruises and bumps, but so far there have been no serious mishaps. Anyway, nothing could stop us."

DOG'S BEST FRIEND—"Denny," an Irish setter, got plenty of help when he fell through the ice in the Israel River at Lancaster, N. H. Firemen, who responded quickly to an emergency call, are seen in their successful rescue operation.

State Highway Engineers Shift

AUSTIN — (AP) — R. E. Killmer, State Highway Department district engineer at Beaumont, will become engineer-manager of the department's Dallas Expressways projects May 1.

The appointment was announced by State Highway Engineer D. C. Greer. Killmer succeeds Thomas E. Huffman who resigned the Dallas post after 31 years with the department to become highway manager of the Dallas Chamber of Commerce.

William E. Simmons, assistant district engineer at Beaumont, was appointed district engineer of the Beaumont district to succeed Killmer.

FOREHAND PUNCH COLLEGE PARK, Md. — Maryland's Andy Quattrocchi, who went to the final in the 130-pound class of the NCAA boxing tourney, has turned his athletic prowess to the Terps' tennis team.

Harvard President Warns Red-Hunters

BALTIMORE — (AP) — Dr. James B. Conant, president of Harvard University, suggests that schools keep from going overboard in trying to keep Communists off their faculties.

"To my mind," he told 2,000 educators and Harvard Club members, "the harm done by a few crypto-Communists on a faculty would be far less than the harm done by instituting a policy of relentless inquiry into the private life of every teacher."

Maryland has a law requiring all public employes, including school teachers, to sign loyalty oaths.

"Old at 40, 50, 60?" — Man, You're Crazy

Forget your age! Thousands are peppy at 70. Try "peppin' up" with Oxyres. Contains tonic for weak, rundown feeling due solely to body's lack of iron which many men and women call "old." Try Oxyres Tonic Tablets for pep, younger feeling, this very day. New "one acquisition" size only \$1.00. At all Drug Stores everywhere. In Pampa at Cretney Drug Store.

Radio Network Pact Reached In Mediation

NEW YORK — (AP) — Broadcast engineers and radio technicians who staged a brief sit-down demonstration "on the air" Monday made peace with two national networks yesterday after 32 hours of almost continuous negotiations.

The settlement was announced by Federal Mediator Walter A. Maggilo.

The networks are the National Broadcasting Company and the American Broadcasting Company.

The union is the Independent National Association of Broadcast Engineers and Technicians.

Exact terms of the settlement were not revealed, but Maggilo said the terms were satisfactory to both sides.

Aside from wages, one of the main points was the engineers' claim for more authority in producing radio shows.

Monday's sitdown, which lasted off and on for two hours, blanked out brief portions of several afternoon serial dramas, including "Stella Dallas" and "Backstage Wife." One NBC television show also was cancelled.

The union said merely that its men were "writing out their grievances."

The demonstration ended when both sides agreed to federal mediation.

Other points in the agreement covered seniority and union jurisdiction.

Maggilo said the union will recommend to its membership acceptance of an 18-month contract, effective May 1, and embodying the new terms.

The union has about 1,800 members in the two networks' radio and television stations from coast-to-coast.
