

# Lattimore Insists Charges "Base, Contemptible"

WASHINGTON — (AP) — Owen Lattimore denounced as "base and contemptible lies" today the charge that he is a Russian spy and swore that he is not and never has been a Communist.

From the witness chair of a Senate committee, the 50-year-old Johns Hopkins professor said (A) he intends to talk with his lawyers about suing Senator McCarthy (R-Wis.) for making the accusations and (B) he hopes to be the "instrument" of McCarthy's resignation from the Senate.

Lattimore testified before a packed hearing room to the Senate foreign relations subcommittee investigating McCarthy's general charges that the State Department is infested with Communists and their friends.

Sitting with him was Mrs. Lattimore and his attorneys, Abe Fortas and Paul Porter.

Flood lights set up for movie and television cameras beat down on the witness and the Senate committee members flanked along a table across from him.

Spectators filled all the public seats and were lined three and four deep around the wall.

McCarthy was sitting behind the committee members. He is not a member of the committee, but asked yesterday for the right to cross-examine Lattimore. The committee denied him that privilege but said he could submit questions through committee members.

McCarthy told reporters he would not try to do that.

On next Thursday, the committee will sit to hear "mystery witnesses." McCarthy says he can produce to back up his charges against Lattimore. The senator says one of these can testify that Lattimore was or has been a Communist party member.

As for that charge, Lattimore earnestly told the senators: "I make to you on my solemn oath the following statement: "I am not and never have been a member of the Communist party. I have never been arrested." (See LATTIMORE, Page 2)

## Accused Man Threatens Legal Action

## Gubernatorial Field Left to Shivers, March

AUSTIN — (AP) — Just two active candidates were left in the gubernatorial race today.

Railroad Commissioner Olin Culberson, stricken with heart disease, withdrew yesterday on his doctor's advice.

That left Gov. Allan Shivers, seeking his first elective term, running only against Case March of Waco, former law professor who has been beaten twice for governor.

March has been campaigning steadily for more than a year. Shivers has not formally announced but he has been tagged as a certain candidate since he succeeded the late Beauford H. Jester as governor last July.

Attorney General Price Daniel has also been mentioned as a likely candidate for governor. He has been busy prosecuting Texas' claim to its tidelands and has said he would announce his political plans later.

There has also been talk that former governor W. Lee O'Daniel has been thinking of running again, but it has not been confirmed.

Culberson, 63-year-old, 204-pound states official went to Seton Hospital Tuesday thinking he was ill with the flu. Further examination showed he had suffered a heart attack described by his physician as slight.

The doctor nevertheless advised Culberson that a strenuous campaign for governor would endanger his life.

Gov. Shivers issued this statement yesterday at Stamford when he was advised of Culberson's withdrawal: "Of course I was surprised to hear of Judge Culberson's withdrawal. I hope that his condition will not prove to be serious, and I sincerely wish for him a speedy recovery."

Culberson had been under a heavy strain lately. His daughter, Mrs. Paul B. Wittman of Houston, has been seriously ill and Culberson has been spending considerable time at her bedside. He has also continued as railroad commissioner and filled a heavy speaking schedule.

HIGHWAY TALK—Harry Glasser, president of U. S. Highway 60 Association, Enid, Okla., third from left, is shown discussing improvements on the road for which the association is now working. During the dinner meeting at Schneider Hotel, last night, he also discussed a U. S. 60 convention to be held at Ponca City May 8. Shown listening to Glasser's talk are, left to right, E. O. Wedgeworth, manager, Pampa Chamber of Commerce; J. C. McWilliams, member Highway Committee C of C; (Glasser); Sherman White, also of Highway Committee; and J. L. Swindle, Publicity Committee chairman, C of C. (News Photo and Engraving)

## Senate Okays Hike In DP Entry Quota

WASHINGTON — (AP) — Legislation to let additional thousands of European refugees come to this country to make their homes passed the Senate just before last midnight.

The bill, liberalizing the 1949 displaced persons law by raising the number that can be admitted from 205,000 to 350,000, caps a long and bitter struggle in the Senate. Republicans and Democrats in almost equal numbers joined to pass it over, by a final vote of 88 to 15.

As passed after stormy session that lasted nearly 12 hours and set a new record on the number of roll call votes (20), it conforms in its essentials to a measure passed by the House last June.

The argument was largely over terms on which various members felt strongly — there was general agreement all along on the basic idea of admitting more refugees.

The Senate bill eliminates provisions of the 1948 act which President Truman assailed in his election campaign as discriminatory against Catholics and Jews. He repeatedly has prodded Congress for changes in the existing law.

Differences still remain to be ironed out with the House, but Senator Kilgore (D-WVa.), a leader in the fight for the legislation in the form that was approved last night.

## Politician, Underworld Leader Slain

KANSAS CITY — (AP) — Charles Binaggio and Charles Gargotta, recognized political and underworld chiefs, respectively, of Kansas City's northside, were shot to death early today in their political club here.

Police immediately began a minute investigation of gangland and political activities here in search for a clue to the double murder.

Binaggio, 41, whose political power as a Democratic factional leader here has grown rapidly in the last few years, was found slumped in a chair at a desk at the rear of the club room.

One shoulder was sprinkled with cigarette ashes. There was a pool of blood on the floor.

Gargotta's body was found near the front door where he had been brought down with a bullet in the head. He had a

## House Snags Housing Bill

WASHINGTON — (AP) — A bill to channel fresh billions into federal housing activities bumped into a possible delay today after senators and House members had spent nearly 12 straight hours writing it.

The House had laid plans to vote today for an Easter recess until April 18. The question was whether enough members would remain on hand to act on the bill — which is a compromise reached last night between House and Senate measures.

Among the provisions approved in yesterday's session, are these: 1. More liberal financing terms of veterans seeking homes. These included guarantees of veterans' loans up to \$7,500, or 60 percent of the mortgage, as compared with the present \$4,000 or 40 percent. The loans draw 4 percent interest.

2. Disposal of local housing authorities in 26 states and the District of Columbia of approximately 43,000 housing units of the so-called Lanham Act permanent housing projects.

3. \$2,000,000 for loans to colleges and universities to provide housing for students and faculty members.

4. \$250,000,000 for the Federal National Mortgage Association, the principal secondary mortgage market. The agency can use the funds only for the purchase of existing mortgages and make no future commitments.

## Norman Walker Dies in Hospital

Norman H. Walker, 37, died today at 3:45 a.m., in Highland General Hospital.

Walker was a veteran of World War II, having served in the Marshall Islands for about four years. After his discharge from the Army in 1945, he came to Pampa. His home was originally in Bivens, Texas.

At one time, he worked at Fairview Cemetery, and for the past two and one-half years, until his health failed, Feb. 22, Walker was employed by Cabot & Sons, Inc., where he and his wife, Dalton Glyn, his mother, Mrs. Mary Lou Reeves, all of Pampa, two sisters, Miss Isabelle Walker, Newlin, Texas, and Mrs. Lorene Walker, Pampa, and two brothers, Paul and Jewel of Pampa.

Funeral arrangements by Duenek-Carmichael are pending.

## Youths in New Mexico Trial Admit 3 Pampa Burglaries

Three Pampa burglaries were cracked yesterday when two Pampa boys signed statements in shotgun until he called for assistance from the highway patrol.

Highway patrolmen Monday contacted the local sheriff's office to learn if the boys were wanted in Pampa for any burglaries or questioning.

Late Monday Kyle and Chief Deputy Rufe Jordan went to Tucumcari and queried the boys. They came back with three statements on three different burglaries here by Frazier, Frazier implicated Gardner in each of the cases — Fox-Rig Lumber Co., Mar. 3; Bovard Supply Co., March 21 and J. C. Daniels Motor Co., March 24.

Frazier said he and Gardner and another boy, who is not implicated in the burglaries, went to a dance in Amarillo on the night of March 3. On their return the night watchman coming. The

## Missing Girl Calls Parents From Florida

HARRISBURG, Pa. — (AP) — A pretty 19-year-old Bryn Mawr College girl — missing since March 24 — has been located at Miami Beach, Fla.

Gertrude Colston Nauman telephoned her socially prominent parents, Mr. and Mrs. Spencer O. Nauman, at their Harrisburg home yesterday.

Nauman left for Florida immediately with the girl's uncle — Conway H. Olmstead of Chicago.

Free engineering service, heating and air conditioning, large or small homes, Bert A. Howell, 119 N. Ward, Ph. 152-547r.

## Timmons Favors Taft-Hartley Act Repeal, Will Propose Own Substitute If Elected

By HENRY S. GORDON  
News Political Reporter

Congressional candidate J. Blake Timmons, Amarillo legislator, would repeal the Taft-Hartley Act and substitute a bill of his own, if elected, he stated definitively in a prepared release of his platform today.

The candidate pictured the act as partly "fair and just, but parts of it are definitely discriminatory."

Also putting himself on record as advocating full parity farm price supports, in favor of REA, and claimed leadership in the state Legislature fight for permitting formation of telephone cooperatives.

In his platform, Timmons said he would run on his record in the Texas Legislature, saying, "the people best gauge what a man will do in the future by what he has done in the past."

In the past, Timmons is on record in the House as voting against a bill called the "Right to Work Bill."

As to what he would do in the future, Timmons said he would advocate a labor control act "similar to the Timmons Bill" which he submitted to the Texas Legislature known as House Bill 425 which was defeated 86 to 65.

This Timmons Bill would, through various devices, have nullified and emasculated all of the regulatory measures that are on the statute books of Texas. It would have repealed the Manford Act; Provisions; the O'Daniel Anti-Trust Act; the Public Employee Act; the Mass Picketing Act; the Anti-Checkoff Act; the Secondary Boycott Act; the Right to Work Act; the act bringing unions under Anti-Trust Law; the Public Utility Anti-Picketing Act.

However, Timmons said he was opposed to FEPC, calling it "another unnecessary bureau."

On federal aid to education he pictured it as "federal assistance in the vocational education field and an aid to over-taxed property owners through national aid to local public school building programs."

He declared, too, he was "vigorously opposed to a sales tax but that each person should be 'taxed in proportion to ability to pay.'"

He also advocated "full parity farm price supports" because, he said, farmers must be guaranteed cost of production plus a reasonable profit because the agriculture economy is in a more competitive market than the tariff protected industry which can hold through various devices, have

## Machine Shops Given Salute

LOOKING IT OVER—Robert E. Clements, president of the Texas Manufacturers Assn., and resident of Amarillo, is being informed by Hugh Burdette, center, about the Hughes Building going up at Kingsmill and Somerville. George S. Vineyard, president of the Pampa Chamber of Commerce and local dairy foods agent, looks on. Burdette is directly interested in the building as Cabot Companies general manager, for the building will house the general offices of the company in the Southwest. All three men spoke yesterday at the Rotary Club luncheon on the occasion of Texas Industrial Week. (News Photo and Engraving)

## Dulles Is Selected As Acheson Advisor

WASHINGTON — (AP) — The State Department said today John Foster Dulles, New York lawyer and foreign policy expert, had agreed to serve as consultant to Secretary of State Acheson.

A formal announcement said the Republican leader was asked to take the position by both President Truman and Acheson.

Only last night, Presidential Press Secretary Charles G. Ross denied reports that Mr. Truman proposed to name Dulles to a top policy post with the rank of ambassador at large.

The State Department today said Dulles "will advise Secretary Acheson on broad problems in the field of foreign affairs and on specific lines of action which this government should follow."

His work will not be confined to any specific area of the world. His broad background and wealth of experience qualify him for consideration of problems in Europe, the Far East and other areas of the world, as well as problems affecting the work of the United Nations.

"Mr. Dulles, whose cooperation has been extremely valuable to the department in the past, will assume his duties in about two weeks." (See DULLES, Page 2)

## Plans Shaped For Elaborate Opening Day

The Pampa Chamber of Commerce Spots Committee met yesterday afternoon with Doug Mills, new Oilier owner, and his manager, Grover Seitz, to lay plans for an elaborate opening day ceremony when the Oiliers open their home season on April 21. This season's program appears to be one of the most elaborate yet held.

Plans call for a parade at 5 o'clock that afternoon, starting from the Junior High School campus, invited to participate in the parade is the Pampa Harvester band. The Oiliers of 1950 will ride a huge float to the ball park in full uniform.

As a special event of the parade, all of the kids in Pampa have been invited to decorate their bicycles and enter them in the parade. The five decorating jobs judged the best will receive free passes to the opening day game with Lubbock.

At the ball park, Jim Arndt will serve as master of ceremonies for the pre-game festivities which will include a flag raising ceremony by the Boy Scouts and the throwing out of the first ball of the season by Mayor C. A. "Lefty" Huff with G. S. "Pinkey" Vineyard, president of the Chamber of Commerce, on the receiving end.

As a special attraction, Joe E. Brown, of Hollywood fame and more recently connected with the stage play "Harvey," has been invited to attend. Brown is a great baseball enthusiast, having played for several years and having a son that played ball until the war. A wire was sent to the actor yesterday inviting him to attend.

Ham Luna, who presided at the meeting in the absence of chairman Harold Miller, said that "We plan to make this season's opening the biggest and grandest opening yet."

Mills and Seitz both expressed their appreciation to the Chamber of Commerce for its interest in the club and its aid in making opening day a big success. Both expressed pleasure over the prospects for this season and promised the fans tops in baseball for Pampa.

The Sports Committee also agreed to send a sound car out to the neighboring communities on April 20 and 21 to remind the fans in those areas of the opening day ball game at hand. The season is in hand, the Chamber of Commerce will also distribute placards with the Oiliers' home and away schedule as was done last season.

## Labor Group Merger Talk Rises Again

WASHINGTON — (AP) — A possible merger of the AFL and CIO has suddenly become a serious topic of conversation in labor circles.

The reason: AFL President William Green's observation that the changes for such a move are "better today than they have been in the past six years."

Green was commenting on a proposal put forward by Philip Murray, president of the CIO.

Murray invited the AFL, John L. Lewis' United Mine Workers, the International Association of Machinists, and the railroad brotherhoods to join in a grand program of cooperation on legislative, political, and economic problems.

Once that is done, Murray said, the groups could work toward unification into a single organization of some 16,000,000 members. The AFL claims 8,000,000 on its rolls, the CIO 4,000,000 and the other organizations about 2,000,000 together.

Green and Murray have split in the past over how unification should be accomplished, and their differences still seemed to exist.

The AFL chief favors immediate consolidation — as contrasted with the step-by-step procedure suggested by Murray. Green made clear in an interview in New Orleans that he hasn't changed his mind.

"The interests of labor could best be served by the establishment of one strong, united organization," he said. "Anything less would be temporary."

But the 76-year-old labor leader said he will be ready to meet with Murray upon his return to Washington. Green was in Louisiana to attend a meeting of the State Federation of Labor.

## Pampa Girl To Be Soloist

Pianist June Gull of Pampa will be featured soloist in the Amarillo Youth Symphony's spring concert.

She was selected following try-outs in Amarillo which were judged by Dr. Clarence Barry Dean of Music at Oklahoma City University; William A. Harrod, conductor of the Lubbock Symphony Orchestra, and Tracy Silvester, music critic of the Daily Oklahoman and Times.

In winning the solo assignment, Miss Gull played the first movement of the Mendelssohn Concerto in G Minor. She defeated eight contestants in winning the senior division.

## Navy Probes Explosion of Mars Plane

PEARL HARBOR — (AP) — The Navy sought today to learn why a newly-mounted engine on its Marshall Mars' caught fire, causing an explosion that destroyed the giant 80-ton flying boat.

Seven crewmen who were taking the \$7,500,000 craft on a test run yesterday brought the ship to an emergency water landing and escaped minutes before 6,000 gallons of high octane gasoline exploded.

The Navy launched an inquiry to learn:

1. Why carbon dioxide extinguisher equipment failed to check quickly the fire in the newly-installed Number Three engine?

2. Why the wing tank cell of aviation gasoline exploded after the engine fire apparently was quelled?

A Navy source said pictures taken from a Navy helicopter show the fire apparently was put out several minutes before the explosion shattered the Marshall Mars. He did not elaborate.

The huge flying boat, holder of the world passenger cargo record of 301 persons and crew of seven, was developed engine trouble Tuesday. A new engine was installed and the crew took it out yesterday for a test run. Then it was scheduled to take 40 passengers to Alameda, Calif.

Fire broke out about one mile off Keelii Lagoon, the old clipping base between Honolulu and Pearl Harbor. The pilot nosed it around at 1,000 feet and brought it down

## Bette Davis' Mate Will Fight Divorce

HOLLYWOOD — (AP) — Bill Sherry, 35-year-old third husband of Bette Davis, says he will fight his wife's plans for divorce.

"I still love her," said the painter and ex-pugilist.

Miss Davis, 42, told Attorney Jerry Geisler to go ahead with a divorce suit after Sherry came involved in a disturbance Monday night at a studio birthday party for the actress to which he had not been invited.

## YOUTH

(Continued from Page 1)

turn Frazier and Gardner took the other two home, went to the Highway Cafe for sandwiches and coffee, then broke into the lumber yard office. There they tore open the bottom of the safe with the company's tools and took \$70. At the Boulevard Supply Co. on W. Atchison they were unable to locate a safe, Frazier said, but got \$11 from a cash drawer, a flashlight, batteries and tools. At the J. C. Daniels garage they climbed a telephone pole and got over the fence, then worked on the office safe for about three hours. Unable to open it, they broke the candy Coca Cola and cigarette machines, took radios, tools, bars, spotlights and other merchandise. They left near dawn after a second attempt on the safe failed.

Local authorities are awaiting outcome of the boys' trial today in Tucuman, before moving them back to Pampa.

## POLITICIAN

(Continued from Page 1)

clawed desperately at a venetian blind as he fell. Police said Gargotta obviously was trying to jump for it.

Both Binaggio and Gargotta had been shot four times in the head.

Robbery was dismissed immediately as a motive. Gargotta's clothing contained twenty \$100 bills, \$100 and in his billfold a large old-style one-dollar bill. Binaggio still wore his diamond-studded wrist watch and had \$24 in his pockets.

Police detectives expressed the belief the men probably were slain by out-of-town gangsters because "no one in Kansas City is tough enough or brave enough to pull such a job."

## DULLES

(Continued from Page 1)

weeks, after completing a brief vacation.

It was learned today that the Dulles appointment was worked out by Acheson and Senator Vandenberg (R-Mich.) after Mr. Truman had authorized Acheson about 10 days ago to take such action in an effort to restore real bipartisan partnership in foreign affairs.

The president, Acheson, and Vandenberg finally agreed on Dulles as the best man for the job within the past day or so.

Today's announcement made clear that although he will have top rank under Acheson and Undersecretary of State James W. Doolittle, he has not been given the formal title of ambassador at large. Nonetheless, it appeared that he will rank along with Ambassador Philip Jessup as one of the mainstays of Acheson in working out major foreign policy problems.

After Doolittle's denial last night of other presidential associates, a key West said Mr. Truman had not planned to include Dulles among the bipartisan foreign policy advisers because of Dulles' attacks on the administration during the New York senatorial campaign last year.

Dulles, who made an unusual trip to New York to raise the issue of "welfare state" and "statism" in his campaign speech.

Dulles was fighting in the New York election for the Senate seat to which he had been named by Gov. Thomas E. Dewey. Dulles was a foreign policy adviser to Dewey. He was one of the drafters of the United Nations charter, as well as a U. S. delegate to the General Assembly.

# NOSE-COUNT 'PARTY' SLATED ON SKID ROW

CHICAGO — (AP) — Inhabitants of Chicago's Skid Row aren't going to be missed by the census taker — and all because of an unusual surprise party.

The party will be held April 13 at the Salvation Army's Harbor Lights Mission on West Madison Street. The menu will be a favorite: coffee and doughnuts.

Here is how George H. Seward, Chicago census supervisor, plans to count the drifters with the cooperation of Salvation Army officials and city police:

On the assigned night the mission will open its doors wide to dispense coffee and doughnuts to all comers. But as the steaming mug is proffered, a census enumerator will snatch it away until a few questions are answered.

The interview completed, the guest will get a special badge to show he has been counted. Then he will be allowed to continue his drinking.

Every fifth person will be asked to answer such questions as "do you own a bathtub?" and "what was your income last year?"

The bathtub query is apt to stump a few. Most Madison Street lodging places sacrifice comfort for economy.

Given a nice spring evening, Seward expects a fine turnout.

## MACHINE

(Continued from Page 1)

around Pampa." He presented a similar picture Tuesday to the Junior Chamber of Commerce.

In Vineyard's address he pointed out there are now more than 40 manufacturers in Pampa. He said to have more we must not wait until they decide to come to Pampa — but we must go out and bring them in.

Other specially invited owners and executives at the Rotary Club meeting included Hugh Burdette, regional vice president of TMA, Reno, Stinson, Panhandle secretary of TMA, C. L. Woolley, O. M. Prigmore, R. A. Baker, J. P. Vail, D. C. Paulsen, H. J. Pickett, Cabot Company executives, Dan Glaxner, Columbian Carbon Company, R. H. Bradford, Phillips Gray Gasoline Plant, E. E. Traywick, Phillips north Gasoline Plant.

Dallas Bowsher, Skelly-Schafer Oil Company, C. A. Huff, Doctor Fepper Company, Clifton B. Estes, Pampa Baking Co., John A. Hoover, Marlow Machine Shop, M. A. Leith, Pampa Machine Company, Bob Watson, Morrison Starter Company, C. V. Wilkinson, Barnett-Wilkinson Elevator, Charlie Robinson, F. W. Panhandle Grain Company, C. P. Conover, Cities Service Oil Company, Charlie Powell, Cities Service Gasoline Plant, Troy Teel, Northern Natural Gasoline Shop, M. V. Ward, Ward's Cabinet Shop.

## LATTIMORE

(Continued from Page 1)

or associated with the Communist party.

McCarthy never believed in the principles of communism, nor subscribed to nor advocated the Communist or Soviet form of government either within the United States, in China, in the Far East, or anywhere in the world.

"I have never consciously or deliberately advocated or participated in promoting the cause of communism anywhere in the world."

When Lattimore spoke of McCarthy's voice was heavy with sarcasm. His face twitched with anger.

In a 10,000-word statement, Lattimore said McCarthy has violated his responsibility "by making the government of the United States an object of suspicion in the eyes of the anti-Communist world, and undoubtedly the laughing stock of the Communist governments."

He accused the senator of "instituting a reign of terror among officials and employees in the United States government, none of whom can be sure of safety from attack by the machine gun of irresponsible publicity in Joseph McCarthy's hands."

Even as Lattimore was replying, he was the target of sharp new criticism in Congress.

Senator Knowland (R-Calif.) asserted in a statement last night that Lattimore "consistently and insistently has played an important part in undermining the republic of China." Early this morning Knowland delivered a speech on the Senate floor, saying what he had written in the statement.

Lattimore, Knowland asserted, "bears a terrific responsibility to the people of the United States and the people of China, over four hundred million of whom are now in the orbit of international communism."

Knowland added that Lattimore "and others he influenced in the Far Eastern division of the State Department have made a mighty contribution to the debacle which has taken place in China and the Far East."

In the early European universities, the professors were hired by the students.

## TIMMONS

(Continued from Page 1)

production in line with demand."

He referred to himself as a small businessman who is opposed to the specialization of "any business or profession whose functions can be better performed by our traditional American system of free competitive enterprise. Specifically, I am opposed to socialized medicine or any program that would destroy the patient-doctor relationship."

Timmons, in closing, said he would visit over the district, "as often as humanly possible" during the campaign.

The goat is a ruminant animal closely related to the sheep.

# Chambers Said Free of Any Federal Action

WASHINGTON — (AP) — Any idea the government may have had for prosecuting Whittaker Chambers for perjury has been dropped, it was reported today.

The Justice Department, which once indicated that such a prosecution was possible, has made no further public statement. However, high officials say the matter is now closed, that no action against Chambers is contemplated.

Chambers' dispute with Alger Hiss over who told the truth before congressional committees and a federal grand jury about the alleged operations of a prewar Soviet spy ring in Washington made legal history during the last two years.

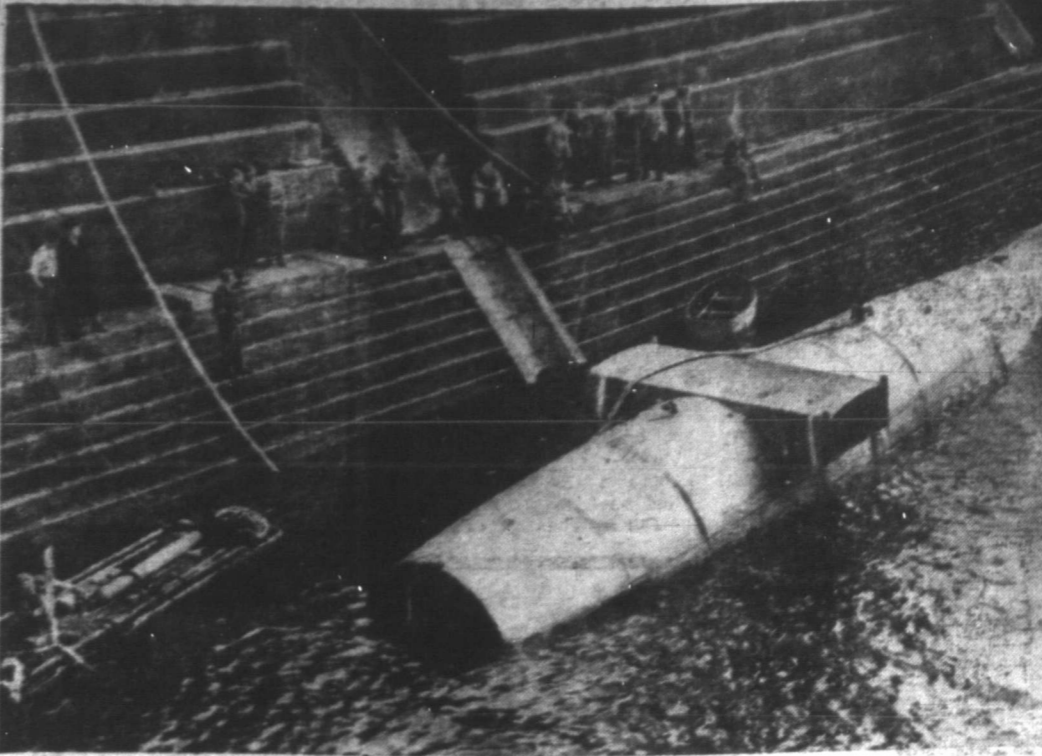

The dispute was climaxed by Hiss' conviction on perjury charges three months ago. The case was based on his denial before a grand jury in New York that he had ever passed State Department documents to Chambers. Hiss, a former high-ranking State Department official, was sentenced to five years, and has appealed.

Chambers, who said he once acted as a courier for the ring, asserted he got the papers from Hiss. However, in appearing as a chief prosecution witness, Chambers admitted that he had himself lied seven times before the same grand jury which indicted Hiss. He explained he did not want "to injure Mr. Hiss any more than necessary."

Justice officials say: Chambers was promised no immunity in appearing for the government. However, his evidence was regarded as having top value in bringing about the Hiss conviction. Hence the decision against prosecution.

Chambers resigned last year from a \$30,000 job as a senior editor of Time magazine. He is now living on his farm near Westminster, Md.

A \$75,000 damage action which Hiss filed against Chambers two years ago is still pending in the Baltimore courts.

DOWN TO THE SEA IN AIRSHIPS—Looking like a new-fangled gondola or the latest type submarine, a section of a British "Ambassador" passenger plane is put through its water tests at Southampton, Eng. Center area and fuselage of the planes are checked for soundness of construction. Twenty of the new airships are on their way to British airlines.

# SENATE

(Continued from Page 1)

proved, said he expected no difficulty in this.

On the final vote, 27 Democrats and 31 Republicans voted for passage. Opposed were 3 Democrats and 7 Republicans.

The bill would extend the present program for a year beyond June 30 and increase the number of refugees eligible for admission to this country from 200,000 to 350,000, including orphans and adopted children.

It also would wipe out requirements that 40 percent of the DP's admitted be from the Baltic states and 30 percent be farmers. It would advance the eligibility "cut-off" date from Dec. 22, 1945 to Jan. 1, 1949.

Together, these three changes erase the principal provisions that gave rise to the charges of religious and racial discrimination in the present law.

The cut-off date is the time by which refugees must have entered Germany, Austria or Italy to be eligible for consideration as displaced persons.

Ugo Carusi, chairman of the Displaced Persons Commission, which administers the program, told reporters that the bill is "fair and workable" and eliminates the major objections that were raised against the present law.

**HOW TO TAKE A NEWSPICTURE**—News photographers trample one another at the door of a U. S. marshal's van in New York to make pictures of Vincent Gigante on the way to prison after he and Judith Coplon had been convicted of espionage conspiracy.

### Mama Bruin Takes Family Calling on Wrong Neighbor

OAKLAND — (AP) — The next time Mama Bear takes her cubs calling on the neighbors she's going to find out first who the neighbors are.

A spur-of-the-moment visit at the Alameda zoo brought the discovery that the cost of that visit was one dead bear cub.

"Simba," 4-year-old male lion, greeted the trio of bears by sinking his teeth in a cub's throat, then choking the 150-pound intruder.

The mother and her other cub fled back to their cage.

During Tuesday night, the bear, "Mama," clawed loose a door-bolt in the bear cage at the Alameda County Zoological Gardens. The door opened into a back alley.

"Mama" was curious. So were her cubs, "Lucky" and "Jinx." Coming to another cage, the bears managed to pry loose an outside bar.

Shortly after midnight wild jungle cries were heard for a quarter of a mile around. The wife of Zoo Director Sidney Snow responded on the double.

"Simba was standing over the dead cub, Jim," said Mrs. Snow, black female, "and Mrs. Snow, black female, 'He apparently just killed her.'"

### Savings Bond Drive Start Set May 15

PHILADELPHIA — (AP) — The U.S. Treasury Department's 1950 nationwide savings bond sales campaign will be launched in Philadelphia May 15.

Symbol of the bond-selling campaign is the Liberty Bell housed on Independence Hall, the shrine of American liberty.

This historic American relic is being loaned to Independence Square in Independence Square in conjunction with start of the bond drive.

Treasury Secretary John Snyder will attend the ceremonies.

### Court Upholds Consolidation

AUSTIN — (AP) — Consolidation of Naruna Common School District No. 8 with the Burnet Independent School District was upheld in effect yesterday by the Third Court of Civil Appeals.

The Burnet County school board consolidated the two districts because the Naruna district had been dormant six years. The Naruna school board asked the district court to set aside the act of consolidation so Naruna citizens could vote on joining the Lampasas Independent School District. The district court refused the request.

Naruna district lies in both Lampasas and Burnet counties. Lampasas students had been attending the Lampasas school.

The tundra, a vast swampy plain bordering the Arctic Ocean, has been called Arctic desert.

There were about 6,800 ice plants in the U.S. in 1949, only four in 1949.

NEW YORK IN JAPAN—This view of one of the lower Manhattan ferry terminals and the skyline of New York is part of an exhibit at the American Fair in Osaka, Japan.

### Reds' Lawyers Lose Contempt Case Appeal

NEW YORK — (AP) — Contempt sentences imposed on lawyers who defended the 11 convicted Communist leaders have been upheld by the U.S. Circuit Court of Appeals in a 2-1 decision.

The sentences call for jail terms ranging from 30 days to six months for the six men, including Eugene Dennis, a Communist party official who acted as his own attorney.

### Central Requests Helicopter Route

FORT WORTH — (AP) — An application for permission to operate helicopter service in the Fort Worth-Dallas area has been filed with the Civil Aeronautics Board in Washington.

The applicant is Central Airlines, a feeder airline company now operating in Northern Texas, Oklahoma and Southern Kansas.

The route outlined in the application would include stops at the Fort Worth Municipal Airport, the main Fort Worth postoffice, the main Dallas post office, and Love Field in Dallas.

### Rooster in Jug Brings Charges

SCRANTON, Pa. — (AP) — Is it cruel to place a tiny rooster in a glass jug?

The Society for Prevention of Cruelty to Animals says it is. Judson F. Bush who did the placing says it is not.

Bush is a councilman in near-by Nicholson, Borough and owns a feed store. He said he placed the rooster in the five-gallon jug three weeks ago to advertise the fact that roosters or chickens can be raised on two pounds of feed up to an age of five or six weeks.

The rooster gets food and water by sticking its head out of a hole cut into the side of the jug he said.

Bush pleaded innocent to a charge of cruelty to a rooster at a hearing. He was freed in \$500 bail.

### Game Hunt Film Slated Tonight

Boy Scout Troop 14 will present a two-hour big game hunt film at 7:30 p. m. today at the Junior High School Auditorium.

The sound and color movie was made by Chuck Cook, McLean, last summer in Africa. Proceeds from the show will be put into a fund to buy a troop bus. Troop 14 is sponsored by the First Presbyterian Church.

### Gotham Critics Select Top Play

NEW YORK — (AP) — "The Member of the Wedding," by Carson McCullers, has been voted the best American stage play of the season by the New York Drama Critics Circle.

The play is a psychological study of a tomboyish 12-year-old Georgia girl who wants to be part of a wedding festivity.

The Critics Circle, made up of New York newspaper and magazine drama critics, also named T. S. Eliot's "The Cocktail Party" as the best foreign play.

"The Consul" by Gian Carlo Menotti was cited for special mention as the best musical.

The awards are to be presented Saturday.

### Census Taker Finds Job Pays Old Debts

LOGAN, W. Va. — (AP) — Census taker Amy Carper was about to leave a housewife she interviewed when the lady pressed \$5 into her hand.

"I can't accept that," said the surprised Mrs. Carper. "The government pays you, you know."

"You don't remember me, then?" the woman said. "I lived next to you 12 years ago at Omar, borrowed \$5 one day to buy milk and butter and forgot to pay you. Then we moved away. Well, here's your \$5."

TOTON, England — (AP) — The water tank at the railway depot here went dry. Engineers and firemen fished in the supply line and pulled out thirteen eels. They ate them for supper.

**Bartenders Protest Bar's Feminine Touch**

NEW YORK — (AP) — An AFL bartenders' union is picketing an Eighth Avenue bar and grill because it uses women bartenders.

The barmaids, in a sign hung in the window, protested: "Being females they will not accept us in the union." "We never will if we can help it," said a bartenders' union spokesman. "We don't discriminate against women, but we know it is not healthy for a woman to be behind the bar."

**You HAVE AN IMPORTANT DECISION TO MAKE !**

May 6, 1950

is an Important date

E. T. BURK for CONGRESS

The date of the special congressional election. It is important that YOU select a man who will represent YOU. And the way to be certain is to work for and vote for E. T. Burk because ---

- He is an ordinary citizen like you, a churchman, family man, community man.
- He has been in business in Amarillo more than 20 years, taking the ups and downs of competitive enterprise, serving customers from all walks of life. He has paid taxes to keep up schools, towns, counties, state.
- E. T. Burk believes in fairness, honesty, common sense.
- He is paying his own campaign expenses and is not tied by any individual or group. Big campaign contributions tie the hands of any person. E. T. Burk will not permit his hands to be tied by those who would try to take your rights. He doesn't seek a pay-check nor a political career.
- E. T. Burk believes in a sound farm program, in fair labor laws, and he opposes spite legislation. He believes strongly in fair, considerate treatment of our senior citizens.
- E. T. Burk is a common sense, ordinary citizen like you.
- E. T. Burk is the leading candidate in the congressional race. HE CAN WIN!
- The way to BE SURE, TO BE SAFE, TO HAVE REAL REPRESENTATION is to

**U.S. Farm Bureau's Militant Allan Kline Is Spotlited**

WASHINGTON — (NEA) — Allan Blair Kline, the tough, fighting president of the American Farm Bureau Federation, is the first farm leader in many years to zoom into real national prominence. That's mostly because of the militant leadership he has taken in the fight against the Brannan farm plan, a natural feel for good public relations and his eloquence in tossing out new ideas in defense of free enterprise.

There's probably not a personality quite like his on the national scene today. For instance, back in the depths of the depression, the bank was about to take away his worn-out Iowa farm, he was broke. His family was completely dispirited. But he talked the bank out of foreclosing with the argument that it wasn't moral.

Then he built a swimming pool and tennis court on his place, and bought some boxing gloves and some riding horses — on credit. Kline explains why he did these things:

"What all of us needed most was a boost in morale. I figured that some good recreation was the best remedy."

The unorthodox hunch paid off. The Kline farm became a county hangout and a clearing house for ideas on how to lick the hard times. Whenever the debates got too heated, the boxing gloves were used. But from those gab-fests came many of the ideas

which have made his farm today a \$40,000-a-year business.

People are still wondering what Kline is going to do next. Some say he's a natural for vice-presidential candidate. If Gen. Eisenhower runs, on the next Republican ticket. He's almost sure to take another term as head of the Farm Bureau. They swear he could be a senator from Iowa by saying the word. Another story makes him president of Iowa State College soon.

Kline is 54, but looks younger. He has an out-of-door handsomeness with lined, weatherbeaten features, a sharp, beaked nose, and a lot of coarse, greying, wavy brown hair. His stocky, fat-free frame and huge muscular hands are those of a real farmer.

Although his critics insist there's a lot of the actor in Kline, they also admit he usually gives a good performance. He is an extremely effective public speaker. His one-farmer-to-another way of talking has a powerful effect on rural audiences, but he can be as polished as an ambassador before a Senate committee.

His effectiveness as a farm spokesman is greatly enhanced by a broad background. He has traveled widely in Europe and around the U. S., and has an internationalist's point of view. He has served as an official of several big insurance firms which do business with farmers, and as a member of the Chicago Federal Reserve Bank Board.

The job of representing 1,325,

600 farm families isn't easy the way Kline likes to do it. There are just as many Democrats in the organization as there are Republicans, but he has always tried to handle his association with the Bureau in a fair manner. For instance, after campaigning hard for the job of president, he suddenly vanished on the day that the convention was to vote. After he had won, his furious backers found him and started to tell him off. He stopped them. "They knew who I was and what I stood for," he said. "I had said everything I wanted to say. I figured they could make up their mind about me after that without my being around."

Kline was born in Waterbury, Neb., attended Morningside College in Sioux City, Ia., and Iowa State College. He has two grown sons, one now running the farm, and a married daughter. His religion is Presbyterian. His big regret is that his job keeps him away from his farm and family too much.

**Easter Morning treat—rich coffee ring and rich, hot coffee**

Make it a gala breakfast on Easter morn... with this tempting coffee cake, and inviting cups of fragrant Hills Bros. Coffee. This is the coffee that pays off in pleasure, because you get uniform goodness in every pound. It's a blend of the world's finest coffees, and "Controlled Roasting," an exclusive Hills Bros. process, roasts the blend a little at a time—continuously—for flavor-perfection. Hills Bros. Coffee is vacuum-packed for utmost freshness.

**EASTER COFFEE RING**

1 package hot roll mix  
1/4 cup lukewarm water  
2 tablespoons melted shortening  
1 egg  
1/4 cup sifted confectioners' sugar  
1 tablespoon softened butter  
1/4 cup brown sugar, firmly packed  
1/4 teaspoon cinnamon  
1/4 cup seedless raisins

Sprinkle yeast from envelope in package of mix into lukewarm water; stir until dissolved. Add sugar, melted shortening, egg; beat well. Add contents of large package; stir until smooth. Grease top of dough, cover, and let rise in warm place until double in bulk. Cut dough several times with knife, turn onto floured board, knead about 30 strokes, roll into oblong about 12 by 7 inches. Spread with softened butter, sprinkle with brown sugar, cinnamon and raisins. Roll lengthwise, place on greased baking sheet, join ends to form ring. Cut ring with scissors in 2-inch slices almost to center, turning each slice so it lies partly on its side. Brush with melted shortening, let rise again until double in bulk. Bake in moderate oven (375° F.) 20 to 25 minutes until brown. Spread with confectioners' sugar moistened with 1 tablespoon hot milk.

Serve with Hills Bros. Coffee

# Lions, Tigers 'n Everything Thrill Circus Opener Throng

By JOHN RANDOLPH  
**NEW YORK** — A Brooklyn bobby-soxer walked up to the steel-barred circus cage and gripped her girl friend by the elbow. "Geeeee... lookit da koww-ger!"

Cougar or "kow-ger" (it was really a leopard), it was part of opening night for the "Greatest Show on Earth" at the traditional Manhattan premiere in Madison Square Garden.

Fresh from winter quarters in Florida, the Ringling Brothers and Barnum and Bailey Circus filled the big sports palace from basement sidehows to trapeze rigging lost among the roof girders.

More than 13,000 New Yorkers, who'll run to a circus as fast as any one else, flocked into the cavernous Garden last night to see what the "big one" has to offer this season.

After a month here, the show moves on to Boston, goes under canvas for the first time in Washington, and then zig-zags west to Denver and back to Miami for the November closing.

Nobody wants a circus to change much, and nobody will be disappointed. The 1950 model may have a high gloss polish, but it's still the same old circus.

It has clowns and cotton candy, fancy hats and souvenir canes — and plenty of that good, rich elephant smell that spells out circus for you with your eyes closed.

And those elephants, all 28 of them, will eat your peanuts as fast as ever.

The sword-swallowers and the fat lady are back. So are the tallest man and smallest midget. And there are lions 'n' tigers 'n' everything — including cas-

sovaries, hippopotami and gnus. Also present was the ghost of Gargantua The Great.

The famous gorilla, the top attraction for 13 years, died last November.

In a nice gesture, the circus placed his air-conditioned cage, empty now, at the very center of the sideshow. Old friends came as they always had, this time to mourn and look at Gargantua's placid widow, Toto.

They also stayed to see her two adopted babies, Gargantua II and Mlle. Toto. These little apes are in the play-pen stage, and have a big rubber ball and little red wagon to play with. The crowd felt a certain kinship. The gorillas were non-committal.

Upstairs, the 30 acts of the main show — 17 of them new — stepped off briskly but still stretched over three hours.

The high moment belonged to Harold Alzana, chief of the high wire Alzanas.

Whether he was playing to the crowd, or whether he suffered from opening night roughness, he had several partial slips 45 feet above the sawdust — and no net.

The last eight feet of his aerial bicycle ride with four girls stopped the crowd's breathing and brought an ominous warning to the cameramen over the loud-speaker — "no flashlights, please! no pictures!"

But he made it.

And the sigh was like a big wind.

## Little Change in National Deficit Seen

WASHINGTON — (AP) — Secretary of the Treasury Snyder said yesterday that tax revenues have fallen below expectations, but it will mean no marked change in the prospective \$5,500,000,000 deficit because spending also is being estimated.

Discussing the situation at a news conference shortly after release of complete government financial data for March, which showed revenue receipts down sharply, Snyder said:

1. The point of decline was in individual income tax payments outside of withholding — meaning those of farmers, doctors, lawyers, etc., and higher bracket salaried people.
2. Receipts from withholding taxes and from corporation income taxes lived up to expectations, although the corporate payments were below last year. This had been expected in view of lessened profits.
3. No change in the administration's tax proposals seems required since the budget deficit of spending over receipts — does not appear different from when the proposals were submitted to Congress.

Those proposals called for cutting excise taxes by \$650,000,000, getting that loss by plugging tax "loopholes," and then adding \$1,000,000,000 extra revenue from higher taxes on corporate incomes and on estates and gifts.

The treasury's final statement for March showed budget receipts for the first nine months of this fiscal year about 4.5 percent below last year, indicating a drop of \$1,000,000,000 or more below the \$37,800,000,000 receipts estimate.

Expenditures for the period also were off about 3 percent giving promise of falling below the \$43,300,000,000 estimate by about the same amount as receipts.

Beat a little prepared mustard into some currant jelly and serve with a slice of baked ham.

## Wind Erosion Damage Said Gaining Fast

FORT WORTH — (AP) — Continued drought and high winds have resulted in "sharp increases" in wind erosion damage to West Texas and Oklahoma cropland, the Soil Conservation Service said.

"Acreages suffering moderate to severe erosion in the western portions of Texas and Oklahoma widened by more than 400,000 acres in the past two weeks," reported Louis P. Merrill, regional SCS director.

"Of this the Texas areas suffering erosion damage increased from 195,000 two weeks ago to 496,300 acres," Merrill reported.

"The Oklahoma acreage in this category increased from 110,000 to 279,500 acres."

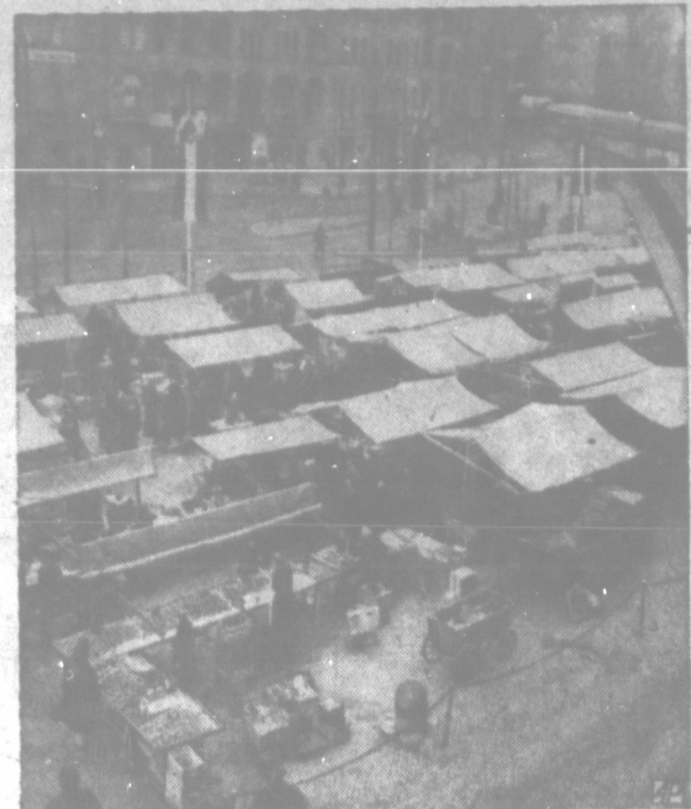

Besides the drought, which has killed the wheat cover, Merrill said insect damage and overgrazing are major factors.

"Unprotected cotton lands beginning to blow for the first time and over-grazed lands of sorghum stubble are also involved in the increasing hazard," Merrill said.

Despite this, Merrill said improved wheat and other winter cover crops in some areas of Texas as a result in a decline from 1,987,000 to 1,878,000 in the number of Texas acres "without sufficient plant and residue protection."

Unprotected Oklahoma acreage rose from 410,000 to 454,000.

Merrill said dust storms in the Lubbock and Lamesa areas in the past week were the most severe of the season. District Conservationist Marshall Howard at Lubbock reported severe wind erosion to small areas. District Conservationist Jesse D. Jenkins at Lamesa reported a sharp jump in acreage suffering moderate wind erosion damage. The Littlefield district conservationist, John A. Perrin, said 150,000 acres are suffering moderate damage from wind.

**CITY HALL MARKET**—Twice weekly a public market is set up outside West Berlin City Hall in Rudolf-Wilde Place. Market is decorated with flags honoring West German mayors.

Next time you make stewed tomatoes, add a little Worcester-shire sauce along with the salt and pepper for good flavor.

Nassau in the Bahama Islands was the base for ships running the Union blockade in the U. S. Civil War.

## Abilene Ministers Assail Grocers

Abilene — (AP) — Abilene ministers have taken a rap at grocery stores which stay open on Sunday. They suggest their congregation patronize those stores which close on the Sabbath.

The Abilene Ministerial Alliance adopted a resolution say-

ing in part: "The Abilene Ministerial Alliance wishes to commend publicly the owners and managers of the chain grocery stores and independent grocery stores of Abilene who have refused to open their stores on Sunday."

"This in the face of the practice of some of their competitors should not go unnoticed or unappreciated by a Christian com-

## Phillips Worker Group Gets Wage, Pension Plans Ready

Phillips Nationwide Council of Oil Workers Intl. Union (CIO) has adopted a comprehensive program for negotiation with Phillips Petroleum and Phillips Chemical companies for improved wages, working conditions and pensions. E. O. Pulliam, Pampa, council president, announced.

Pulliam said that delegates of Oil Workers Intl. Union locals in the Pacific Northwest, the Rocky Mountain area, the Mid-Continent area and the Gulf Coast formed the program in a two-day council meeting in Denver.

"Our objective is to obtain a decent pension plan and to raise the wages, working conditions and benefit plans of Phillips employees to the level prevailing in other companies in the oil industry," said Pulliam. "Benefiting from this program will be not only our own membership

## U.S. Materials Increase Food Output in Europe

WASHINGTON — (AP) — The Economic Cooperation Administration said yesterday that much of the mounting food production in Western Europe — estimated at some 10 percent above prewar levels — can be traced to use of American agricultural equipment bought with foreign aid funds.

During the two years of Marshall Plan operation ECA reported the United States has financed the purchase of more than \$175,000,000 worth of farm implements. Of this some \$164,000,000 has come from the United States with virtually all the rest from Canada.

France and its overseas territories were given the largest share of funds earmarked for farm equipment, approximately \$67,000,000. Great Britain received about \$34,000,000.

It is believed that the petrified forest of Arizona was once covered by a sea at which time the tissue of the trees was replaced by stone.

## THE EASTER STORY

Pilate thereupon released Barabbas and scourged Jesus and delivered Him to be crucified. Taking water he washed his hands before the people, saying: I am innocent of the blood of this just man; look ye to it. (Matt. 27:24)

His soldiers stripped Jesus and put a scarlet cloak on Him. They crowned Him with thorns and for a scepter put a reed in his hand. And bowing the knee before him, they mocked him, saying: Hail, king of the Jews. (Matt. 27:29)

## Jesus Is Mocked

Then they garbed Jesus in His own clothes and forced Him toward Calvary, carrying His cross. But its weight was too much. And going out, they found a man of Cyrene, named Simon: him they forced to take up his cross. (Matt. 27:32)

## Seemingly Carefree Oyster Not So Well Off, After All

By HAL BOYLE  
NEW YORK — (AP) — Oh for the life of an oyster! It sounds pretty good to a carefree man doesn't it — a serene career there on the quiet ocean floor, lulled by the waves, fretted by no mean ambitions, hurting nobody and free of all trouble?

That's the kind of life the oyster would like to enjoy too. He just wants to be nature's pacifist, a real isolationist, a true self-contained individualist.

The oyster never has to go to a psychiatrist to find out why he hates his parents because he never even knows who his parents were. And he doesn't want to.

At birth he is an invisible tadpole. He swims about for a few days seeing about as much of the world as the crew of the average submarine on patrol. Then he settles down to the sea bottom and fastens himself to the shell of an ancestor.

He is neither an employer nor a laborer. He owns nothing but a calcium hut and he builds it alone out of himself and the sea.

He lives in a big bed with thousands of other oysters. He is the perfect neighbor. He doesn't eat crackers in bed he doesn't gossip, criticize, brag or argue about religion.

The woes of matrimony?—not for him. He solves the problem of sex by being a lady oyster one year, a male the next.

All he wants to do is sit there and dream — and produce other little oysters. He sifts his food from the sea and it brings him all he needs.

Wouldn't you think a simple fellow like that warring on nobody, asking nothing of anybody, would live forever in happiness.

safety, peace and good health? Well, kiddies, he doesn't.

Safecrackers of the sea floor — little animal oyster drills — bore through his shell to get at his flesh. Starfish ambush him. Mud-worms waylay him. Even sponges tunnel into his bedroom. And as for health? Did you know that tiny sea parasites are always trying to swim through his doorway and give him kidney trouble? Yes kidney trouble.

And if he escapes all these neighborhood thugs there is still his greatest enemy — the arch-landlord, man. Man will guard him from other foes only to fatten the poor trusting bivalve for market.

This fascinating picture of the oyster's dilemma was given me by Royal Toner who owns about 700,000 bushels of oysters on a 6,000-acre sub-sea ranch off Long Island.

Toner has been interrupting oyster dreams for four decades. And he feels it hasn't only been profitable — it's been necessary. He says the oyster is too dangerous a fellow to let alone.

"They could cause more trouble than the atom bomb," he said. "Each female oyster has about 25,000,000 eggs at spawning time. Statisticians figure that if all the progeny of two oysters lived and multiplied for only five generations they'd make a mass as big as the earth itself. And where would we be?"

## Segregation Cases Under Advisement

WASHINGTON — (AP) — Three cases involving the question of racial segregation were taken under advisement late yesterday by the Supreme Court.

In all three actions the high tribunal is faced with the problem of whether to overrule a 54-year-old doctrine that "separate but equal" facilities for the races satisfy the 14th Amendment to the Constitution.

This amendment forbids any state to "deny to any person the equal protection of the laws."

The three cases now under study by the court were brought by Negroes:

1. Heman Marion Sweatt was denied admission to the white law school of the University of Texas. He refuses to register in a new law school set up for Negroes.
2. G. W. McLaurin says he is required to sit in a special classroom and must use special tables in the library and cafeteria at the University of Oklahoma.
3. Elmer W. Henderson, of Washington, D. C., protested against separate dining service for Negroes on railroad cars in the South.

There was no estimate as to when the court may rule on the issue.

## Worshippers Given Break by Police

PHILADELPHIA — (AP) — Good Friday worshippers may attend church in Philadelphia without fear of parking violation penalties.

Police Superintendent Howard P. Sutton issued instructions to "forego enforcement of parking regulations" in restricted areas from 1 to 3:30 p.m. Friday so that "citizens who desire may attend church services without the fear of penalty while they are in a place of worship."

Many Philadelphia churches have scheduled three-hour services from 12 noon to 3 p.m. Friday.

## Firemen Prove Handy In Absence of Fire

WASHINGTON — (AP) — Firemen are handy sometimes even when there's no fire.

Two passersby were impressed with the agility of a man they saw scaling a seven-foot fence, especially in view of the hour, 2:30 a.m. They called police. Eventually two scout cars, a paddy wagon and cruisers from the narcotics, safe and general assignment squads arrived.

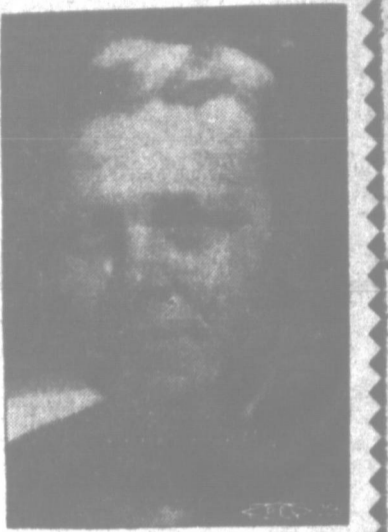

The man by this time was on the roof. Viewing the situation with some alarm, he leaped an airway and landed on another roof six feet away and six feet down. Firemen of No. 3 Truck Co. got to him.

## ELECT J. Blake Timmons as your CONGRESSMAN

Capable, honest, energetic and with courage to support his convictions.

Studied Government at West Texas State College.  
Studied Law at the University of Texas.  
More than four years in service, World War II.

## REPORTS ON TRENDS CLAIMED CONFLICTING

By SAM DAWSON

NEW YORK — (AP) — A hand-off of governmental and business agencies are out with reports on trends. A number of them offer explanations and opinions on the question that always preoccupies them: "Whether are we going?" Looking them all over, it would seem the answer is: in several directions.

Take the job picture as reported by the Census Bureau and interpreted by Commerce Secretary Sawyer. The bureau believes, from such reports as it gets, that unemployment dropped 861,000 in March, while employment increased 898,000. The labor force grows steadily, as the nation grows, and that is one of the reasons the gain in employment and the drop in unemployment are never exactly the same.

Secretary Sawyer is encouraged by the gain of employment to 57,551,000 and the drop in the number of the jobless to 4,123,000. He says this trend is a way from rising unemployment came sooner than he had expected, but he admits much of it may be due to the settlement of the coal strike and normal pick-up in seasonal industries.

But there's still another factor the secretary doesn't mention. Productivity is rising, too. New machines and methods mean that more goods are being produced with fewer man hours. That factor and the growing number in the labor force puts the problem to industry to find more and more jobs, through making and selling more and more goods.

Otherwise, unemployment will start rising again. Less encouraging than the drop in unemployment are some other government reports. Installment buying continues to rise. The Federal Reserve Board says it's now \$10.5 billion, a gain of \$2.5 billion in a year. People now owe \$3.3 billion on their automobiles alone. Some people say the national income can easily swing this much buying on the cuff, and that the proportion of credit to total sales is far from

dangerous. But others say that income and individual "liquid assets" are stabilized while installment buying goes on rising, and that can lead to danger.

The Securities and Exchange Commission reports that liquid savings last year came to 4.3 billion, unchanged from the year before. The SEC raises an eyebrow, however, at the fact that "the average American" saved only two percent of his net income in 1949, while in 1948 he was putting away six percent.

Bank statements out in New York may throw some light on this trend. Most of them show a drop in deposits. Income tax payments could account for a large part of that. Department store sales in New York are reported 2.5 percent lower this March than last, but for the nation as a whole the Federal Reserve Board reports sales running neck and neck with last year. Weather conditions have a lot to do with the variations. And department store sales and total retail sales are two different things.

The Labor and Commerce Departments report new construction put in place during the first quarter of 1950 hit a new record of \$4.4 billion, 18 percent higher than the first quarter last year. But against that comes the guess of SEC and the Commerce Department that industry will spend \$2 billion less this year than last for plant and equipment. The 1950 total is put at \$101 billion. Thus, the net gain in construction comes from home and public building, with industry falling behind. And this comes right back to the unemployment threat again—the prospect that the labor force may grow faster than the plants and jobs for it.

## Job Outlook Improvement Is Reported

WASHINGTON — (AP) — The nation's unemployment situation is showing improvement after sinking to its worst condition in eight years.

New Census Bureau figures show 861,000 fewer jobless in March than in February. The March total was 4,123,000 compared with an eight-year high of 4,984,000 in February.

Secretary of Commerce Sawyer, in announcing the new figures said they are encouraging and seem to mean an early start on an expected spring employment gain.

Employment rose nearly 600,000 from 56,953,000 in February to 57,551,000 in March but Sawyer was only cautiously optimistic, saying: "It is too early to say whether it reflects much more than the normal pick up in seasonal industries and the end of the coal dispute just prior to the March survey."

The Census Bureau based its March estimates on data collected March 11. A report from Director Robert C. Goodwin of the Labor Department's Bureau of Employment Security indicated further improvement later in March.

An appeal to employers to maintain full employment by creating new jobs and pushing new products was made here yesterday by Stanley Marcus, a leading Texas merchant. Marcus is executive vice president of the Neiman-Marcus department store in Dallas. "If business doesn't provide the constantly expanding economy that will provide jobs for all, then government will," Marcus told the American Retail Federation.

## Farmers Receive Price Increase

AUSTIN — (AP) — Further increase in prices paid to farmers for their products have been shown by the U. S. Department of Agriculture.

The mid-March index was up two points from the previous month. It reflected continued gains in prices of most meat animals, along with slight advances for cotton, wheat, barley, chickens and eggs.

There were declines in the prices of hogs and veal calves, but these were more than offset by gains in beef cattle, sheep and lambs.

## Water Pollution Fines Are \$1,550 in March

AUSTIN — (AP) — Water pollution convictions brought \$1,550 in fines last month, the game commission reported.

Two Norwegian and one British vessel were among the 11 ships penalized for releasing waste in coastal waters.

The twelfth pollution case, from Throckmorton County, involved release of salt water from an oil well into Bush Knob Creek.

U. S. TOYS FOR EUROPEAN CHILDREN — The Rev. Edward J. Carney, American Legion National Chaplain, presents a toy car to a Greek child in Frankfurt, Germany, during distribution of toys given by American youngsters to European children under Legion auspices.

## Mexico to Open Bracero Center

LAREDO — (AP) — A station for recruiting of Mexican braceros for work in the United States will open April 21 at Monterrey, Mexico.

Two processing centers on this side of the border — at Eagle Pass and El Paso, Texas — will close the day before the Monterrey station opens.

Arrangements for bracero contracting were disclosed here by C. D. Ochoa of the Texas Em-

ployment Commission and Lic. Horacio Teran Zozaya, third ranking officer of Mexico's Ministry of Gobernacion.

Teran said 1,500 men will be contracted within a period of two weeks at Monterrey for work in the southern part of the United States.

"We are trying to see that our workers go from such areas as have already harvested their crop so as not to damage Mexico's economy," said Teran.

In television a channel is the invisible path over which a station sends its signal.

## HALF-A-DAY FRESHER

## 'Biggest Tanker' Competition Set

NEW YORK — (AP) — Leading maritime nations are racing to turn out the biggest tanker, according to the American Merchant Marine Institute.

Prior to the war, the French had the largest, the Sheherazade. At 18,000 deadweight tons, she was considered mammoth, but today this size is only average. However, building in a French yard are a pair of new giants of 31,285 tons which will again place France at the lead in the race.

Liberia presently boasts the largest tankers afloat — 30,000 tons. But by mid-1950 the United States will take the lead temporarily with a trio of 30,350-ton giants to join several 28,000-tonners in active service. Panama and Honduras have 28,000-ton tankers. Vessels of 40,000 tons are now in the drafting stage.

The English sparrow was introduced into the United States in 1850, imported to free shade trees of destructive caterpillars — which, it turned out, it would not eat.

## Weather Report Is Sealed Right

SAN PEDRO, Calif. — (AP) — Sunny the seal is acquiring a reputation as a weather prophet among harbor workmen here. He's a reliable sun and a fog detector.

On foggy days harbor men keep an eye on Sunny. When the sleek, semi-tame beast pops out of the water to his favorite piling, they know that the sun is about to break through. He usually anticipates it by half an hour.

But if eye-smarting smog is in the air, Sunny refuses to leave the water, even for the lure of a sun bath. He just swims around, snapping up choice morsels: his human friends toss to him.

Engineers have worked it out so that two television stations operating on separate channels can use the same antenna tower. Call letters of amateur radio stations always include a number.

## Bitter Creek Is Okay for Sweetwater

SWEETWATER — (AP) — Sweetwater has plenty of water, the mayor of Sweetwater declares, and it's good, sweet water—even though most of it comes from Bitter Creek.

"The story got out that we were facing a shortage out here," said Mayor Bill Chennault, "that we were going to dig a well on the courthouse lawn."

"Now, that's all wrong. We did ask the county commissioners to conserve water, with summer coming on. One of them suggested—facetiously, I'm sure—that they dig a well on the lawn to supply the courthouse."

"The well water we get here is gyp water—it's full of minerals. It would kill every blade of grass it touched. And you can imagine how it would be for drinking."

"We've got clean, pure water—enough stored to last a year even if it didn't rain another drop in that time."

Sweetwater's water supply now comes from two lakes. They back up into Sweetwater Canyon and Bitter Creek Canyon. Most of the water comes from the Bitter Creek reservoir.

Furthermore, Sweetwater has plans for another lake, one it is building itself.

"No federal handouts for us," said Chennault. "To use an old rural aphorism—'we kill our own snakes.' We can take care of ourselves. When you get the federal government in helping you, there are too many strings attached."

Mayor Chennault said the contracts for the new lake would be let May 8. It will store 40,000 acre feet of water.

"We'll get it completed in about one and one-half years," Chennault said, "and then we'll be ready for the time when Sweetwater has a population of 75,000."

The proud town out on the plains now has a population of 18,000, but the mayor is quick to point out that it's grown 8,000 in the past ten years.

## Happy Is The Day When Backache Goes Away . . . .

As we get older, stress and strain, over-exertion, excessive smoking or exposure to cold sometimes slows down kidney function. This may lead many folks to complaints of aching backache, loss of energy, headaches and dizziness. Getting top night or frequent passages may result from minor bladder irritations due to cold, dampness or dietary indiscretions.

If these discomforts are due to these causes, don't wait, try Doan's Pills, a mild diuretic. Used successfully by millions for over 50 years. While these symptoms may often otherwise occur, it's amazing how fast these Doan's Pills bring relief—helps the 18 million of kidney tubes and filters flush out waste. Get Doan's Pills today!

**Frigidaire Reduces Air Cooler Prices**

DAYTON, Ohio — (AP) — W. F. Switzer, commercial sales manager of Frigidaire Division of General Motors, has announced 10 to 19 percent cuts in the suggested cash prices of window room air conditioning units.

He said a conditioner with a cooling effect equivalent to one ton of melting ice per day has a suggested cash price of \$419.75. A model with a cool-

ing effect of about one-half ton of melting ice per day has a suggested price of \$292.50, he added. He did not give prices of last year's comparable models.

The highest point in the Western Hemisphere is Mount Avonogua in Argentina — 22,834 feet above sea level.

The first food to be shipped by refrigerator car was eight tons of butter, from New York to Boston in 1851.

**Texas Plant Producing Large Pipe**

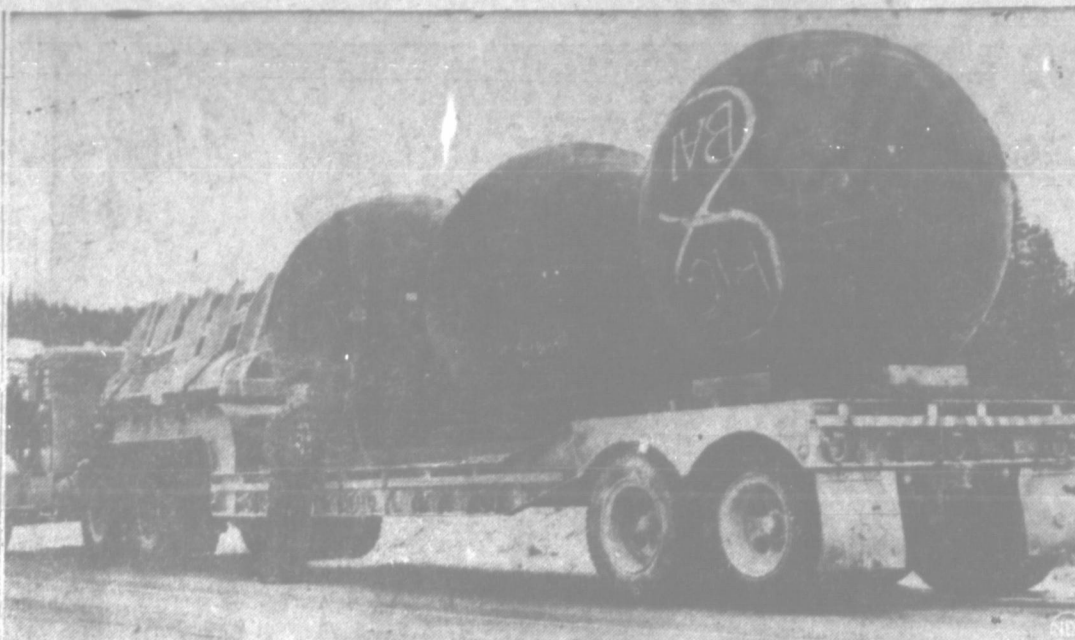

ORANGE — (AP) — Production of large diameter steel pipe for the nation's cross-country oil and gas pipelines has begun here.

About 50 miles of electric welded, 30-inch pipe can be turned out each month by Consolidated Western Steel Corporation's new large diameter pipe mill.

H. C. Cranfill, vice president in charge of administration for the U. S. Steel subsidiary, said final adjustments and testing of the heavy machinery and equipment was completed last week end. Finished pipe has begun entering the shipping yard.

The first trainload of pipe is expected to be ready for shipment Thursday afternoon.

Pending delivery of 40-foot presses for manufacture of 40-foot pipe, the pipe is being produced on 32-foot rolls. The first production is in 31-foot lengths. The pipe mill is housed in a massive steel building more than 500 feet long, converted and modified from facilities of the wartime naval shipyard purchased from the government, last year. High speed, assembly line production carries flat steel plate from the storage yard to the shipping yard as finished pipe.

**LAND CLEARERS GET "ON THE BALL"**—Giant 4 1/2-ton steel balls, eight feet in diameter, are trucked to the 25,000-acre site of the Hungry Horse, Mont., reservoir for use in a novel scheme of land-clearing. Big diesel dozers, hooked together with logging chains, will drag the heavy balls down steep hillsides to scrape off small trees and brush.

**WHERE IS CADET DICK COX? WEST POINT BAFFLED BY DISAPPEARANCE**

WEST POINT, N. Y. — (NEA) — At 6:18 p.m. on Saturday, Jan. 14, Cadet Richard Cox nodded goodbye to his roommate, who was leaving for dinner.

And sometime after that, Cadet Cox walked out of the room, too — into thin air. He had already signed out on the barracks register, but he didn't sign in again for the 11 p.m. curfew.

Since that Saturday night, the Army's Criminal Investigation Division and the FBI have joined in a manhunt as great as the one for Judge Crater. And like Judge Crater's searchers, they have found not a single trace of

the 22-year-old cadet.

His disappearance is peculiarly mysterious because of certain known facts: He was a good student, well-liked by his classmates, with no reason to desert the Army; he was a well-adjusted individual, happily in love with a childhood sweetheart; he had no known enemies; he had given no indication of an intention to run away; and there was George.

Dick Cox was born and brought up on a quiet, tree-shaded street in Mansfield, Ohio. His family still lives in the house where he was born. His home life was normal, his childhood was normal, he was normal.

In high school, he was a good athlete, playing on the football and baseball teams. He and his "steady" Betty Timmons went to all the dances. They planned to get married someday.

In 1947, Dick Cox enlisted in the Army. For six months, he served in Schweinfurt, Germany, where some of the enlisted men engaged in black marketing, he had remained aloof. The investigators found nothing in his Army career that might hint of impending revenge.

At West Point, he was a model cadet. He didn't strain against the rigid discipline, never violated the honor system, maintained scholastic marks which kept him in the top third of his class. Still no enemies, as far as could be learned, nor any reason for voluntary disappearance.

Then George entered the picture. The investigators aren't sure whether he has anything to do with the case or is just one of those coincidences that complicate matters.

But these are the facts: On Jan. 7, a man showed up at Cox's barracks. He asked if this was where Dick Cox lived. It was, said the cadet officer, but Dick was out.

"Tell him that George called," said the man. "George, his buddy in the Army overseas."

Cox returned later, and greeted a man — presumably George — like an old friend. They walked out together. The next day, a Sunday, the two were again seen together.

Dick mentioned the man to his roommates, Cadets Joseph Orschel and Deane Welch. Telling them he was a buddy in Germany. On Saturday, Jan. 14, Dick got a call from George. Later, he said he was annoyed with George, and didn't want to waste any more time with him.

But at 5:45, he signed out, telling Welch he was going to meet George for dinner at Thayer Hall, a hotel on the campus. No one who ate at Thayer that night remembers seeing Cox, with or without a companion.

No one has seen him since, although a gas station attendant in Mt. Gilead, O., thought a customer accompanied by a pretty girl was the missing cadet. But further questioning proved the identification was too sketchy to go on.

The provost marshal of West Point, Lt. Col. Edwin Howell, found that the possessions Cox left behind in his room seemed evidence of foul play. There was \$85 in money and his civilian clothing. Theorizing that Cox had been planning a vanishing act, would have taken his money and his civvies, Howell said that he felt Cox was dead.

But what could have been the motive? Authorities discredited robbery, again because the money in the room was mite evidence that he didn't have much money on his person. And there was nothing to indicate that romance or enmity entered the case.

On Feb. 25, the birthday of Cox's sister, investigators sat in the Cox living room in Mansfield. Never had he failed to call to wish her a happy birthday. They waited all day, all night for the phone to ring.

But it didn't. Its silence only emphasized the questions baffling his family and the authorities — where is DICK COX? What has happened to him?

**400 Homeless in Japanese Blaze**

TOKYO — (AP) — Fire damaged eight buildings in the business district and left 400 persons homeless last night at Atami, hot springs resort 65 miles southwest of Tokyo.

Damage was estimated at about \$500,000. Several U. S. Army resort hotels are operated there but all are some distance from the burned area.

**Drive Started To End Berlin Security Leaks**

BERLIN — (AP) — A drive to plug leaks on security matters within American official circles has been started by the U. S. high commission in Germany.

A team of security experts is tightening the control system at the Berlin headquarters now.

The drive was ordered after U. S. officials were puzzled as to how an occasional fact contained in a supposedly secret document turned up in the Soviet-licensed press. Eastern newspapers frequently spin out an isolated fact into a web of exaggerations.

All offices are being inspected to determine how documents with top secret value are filed, through whose hands they go, and whether they are properly destroyed once their value is ended.

Small safes with ordinary keys are ruled out. An old rule that German employes may not handle confidential documents is being impressed anew on all officials.

All German employes of the high commission have been screened as to their background, tendencies and political beliefs.

One authority said leakage of information may be a matter of carelessness rather than disloyalty. A German employe may accidentally see a classified document long enough to notice a fact or two, then talk about it with friends.

In the Frankfurt headquarters, a renewed drive to safeguard security was inspired by the recent trickery of a German. He posed as an American security officer

**Horse Loses Best Friend, Finally Dies**

PITTSBURGH — (AP) — For nearly a quarter of a century Jim and Capt. Inghor as work horses for the Allegheny County maintenance department at nearby South Park.

The two stablesmates were inseparable both in and out of harness.

Last November, Jim died of old age and Capt. became so listless park workers didn't have the heart to put the animal in harness with another horse.

A short time ago, the 29-year-old Belgian sorrel developed a form of paralysis and couldn't even be put out to pasture.

So, Dr. Albert Fear, county veterinarian, gave Capt. a hypodermic that ended the old horse's misery.

**RADIO TRUCKS**

WASHINGTON — (AP) — The Capital Transit Co. has installed radios in 18 of its snow fighting trucks — but not to amuse the drivers. The radios will be short-wave sets by which the company will direct the trucks here and there to dump sand.

and wandered through the place until a series of petty robberies led directly to him. He confessed.

# Navy Testing Laboratory Makes Arms Safe For Everybody but Those on Receiving End

By DOUGLAS LARSEN  
NEA Staff Correspondent  
WHITE OAK, Md. — (NEA) — The U. S. Navy is now making its weapons safe for everybody except the enemy.

Thousands of American men were killed by the malfunction of their own weapons during World War II. Additional thousands perished needlessly when the weapons they were given failed to function under unusual weather conditions.

To prevent just this thing the Navy has just put into operation a brand new weapons testing laboratory here.

In the last war, the vibration of trucks, ships and planes transporting ammunition caused many premature explosions and brought about many "duds." Sensitive timing devices and fuses broke down under such vibrations.

In the new lab, huge steel vibrating machines and electronic devices subject ordnance to every possible kind of vibration before it is sent to the field for actual use.

None of the tests in the new lab is made with actual explosives. The explosive testing is similar, but done in a nearby isolated area. The newest type of

testing, however, does show whether or not a particular weapon would explode under extreme conditions.

Another part of the new lab, called the "impact room," tests for the effect that accidental dropping has on a weapon. A tremendous steel hammer pounds on a mine fuse to determine just how much knocking about it can take before going off. Another machine simulates a sailor dropping a six-inch shell on a steel deck.

In the temperature and humidity section varied water and atmosphere conditions are duplicated in huge sea tanks and big chambers. A mine, for instance, is subjected to the extremes of temperature it would undergo if it were dropped from a plane flying extremely high into a warm sea.

Facilities in the temperature part of the lab range from equipment which duplicates North Pole weather to chambers which test the effect of humid, tropical heat on weapons.

The lab has tremendous air guns, one of which is 21 inches in diameter and capable of simulating jolts up to 24,000 times the force of gravity. These test,

among other things, what happens to a missile designed to hit a target under water when it hits the surface of the water.

The "water entry tank" apparatus provides pictures and details of what happens to different projectiles as they strike the surface of water at speeds faster than sound. It also shows just what happens to depth charges as they hit the surface of the sea.

Possibly the most amazing piece of equipment in the lab is a deep-water, pressure tank, eight feet in diameter, 30 feet long, and made of steel four inches thick. When it is put under pressure on a miniature sub or torpedo it simulates a depth of about one-half mile below the surface. At this intense pressure the tank expands the equivalent of four cubic feet.

Other unique gear includes a device which tests a torpedo striking the side of a ship, the pressure on a parachute as it snaps open in the drop, tanks that expose weapons to the equivalent of years' exposure to salt spray in a few days and a "tumble-drum" which subjects ammunition to the roll of a ship.

Indiana has about 51 miles frontage on Lake Michigan.

# Texas Drouth Slows Activity To Standstill

AUSTIN — (AP) — Farming was at a near standstill over all the state except East Texas last week. Dry soil was the cause, the United States Department of Agriculture reported.

Crop growth, planting and soil preparation were all locked in the drouth grip, USDA said.

Local weekend showers in a few central counties brought only partial relief in that favored area. Wheat continued to deteriorate with practically all areas badly in need of surface moisture. The situation was reported particularly critical in the High Plains where infestation of greenbugs remained heavy and where drying winds further depleted limited moisture supplies. Many irrigated fields were not responding as expected because of severe greenbug infestation.

USDA said rain was urgently needed to revive drying plants and warm weather was needed for propagation of parasitic insects to destroy the greenbugs.

Small grain in the northern blacklands was also suffering from lack of moisture. Prospects for South Texas oats remained poor. Drouth was retarding corn and sorghum planting in many areas. Most corn in South Texas, up to a stand, was making very little growth.

Drouth, high winds and the wide daily range in temperatures

# Katy Railroad Heads Elected

DALLAS — (AP) — Officers and directors of the Missouri-Kansas-Texas (Katy) railroad of Texas, were named yesterday.

Henry C. Beck of Dallas was elected as a new member of the board. Re-elected were James K. Beach, Tom E. Cochran, Fred F. Florence, R. J. Morfa, and Horace M. Warden, all of Dallas; J. S. Abercrombie and Eddy C. Scurlock, both of Houston; Arthur C. Beard, San Antonio; Arthur G. Hopkins, Sherman; Ben E. Keith and Kilgough K. Smith, both of Fort Worth; J. Clyde Lattis, Garland; George M. Walter, Waco, and Donald V. Fraser, St. Louis.

Officers elected were R. J. Morfa, Dallas, chairman of the board; D. V. Fraser, president; H. M. Warden, vice president and general manager; J. F. Hennessey, Jr., vice president-traffic; J. T. Mahaney, vice president-accounting and finance; Clyde West, treasurer; Wayne R. Howell, general counsel.

were hurting commercial vegetable crops.

Growth of green feed was at a standstill over much of the state and dry cured feed was getting short on many western ranges, USDA said.

In East Texas, moisture conditions were better. Corn and cotton planting made good progress. Pasture grasses were continuing to grow.

Thermometers frequently register 120 degrees Fahrenheit in Eritrea.

**BUDDHIST PRAYERS FOR LATTIMORE**—At his home in Baltimore, Md., the "Living Buddha" offers prayers in behalf of Owen Lattimore, expert on Far Eastern affairs, who was charged by Sen. Joseph McCarthy (R., Wis.) with being Russia's top agent in America. The prince of the Mongolian Buddhist Church, Dilowa Hittukhtu, says he is sure Lattimore, his long-time friend and benefactor, is innocent of McCarthy's charge.

### U.S. Tramp Shipping Seeks Aid to Keep From Sinking

NEW YORK (NEA)—America's tramp shipping industry, little more than three years old, is facing an early death unless the federal government comes to its rescue.

Virtually non-existent since the old clipper ship days, U.S. tramp shipping suddenly came to life at the end of World War II. Liberty and Victory ships built in great numbers for the war began carrying millions of tons of post-war freight and recovery materials to Europe and other continents.

At the peak in June, 1947, nearly 1500 tramp steamers employing 60,000 American seamen were engaged in this traffic. It was a far cry from pre-war times, when the one-third of U.S. commerce carried in tramps was transported entirely in foreign bottoms.

But the boom was short-lived. It had resulted largely from the fact that foreign countries devoted their first post-war efforts to restoring regular cargo liner service. Tramps, of course, kept to schedule but follow a chancy course from port to port, picking up what cargo they can.

Before long foreign nations returned to this trade. The United States actually helped them by selling them much surplus merchant marine tonnage so they could replace their wartime losses. They caught up quickly.

Today the American tramp shipping industry is down to 100 ships manned by 4000 men. Not all this shrinkage can be blamed on rising competition. Foreign trade as a whole is well below early post-war levels. But the

### Pioneer Preacher Sets Homecoming

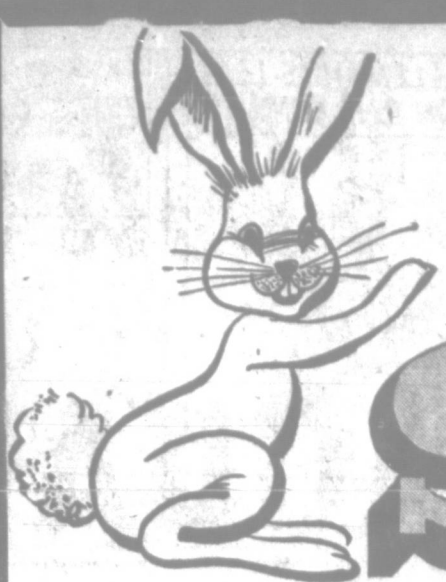

HUMBOLDT, Tenn. — (AP) — A globe-trotting minister returns Saturday to preach at nearby Brazil Baptist Church, where he delivered his first sermon 50 years ago.

He is Dr. M. E. Dodd, pastor of First Baptist Church at Shreveport, La., and former president of the Southern Baptist Convention.

He will preach at 11 a. m., the hour of his first sermon.

**TIERGARTEN REPLANTED**

BERLIN — (AP) — The city of Bremen shipped 35,000 oak and linden seedling trees to Berlin to replant the once-famed "Tiergarten" which was blackened by war and then denuded by freezing Berliners for firewood.

## Piano Pupils Meet For 'Workshop'

A group of intermediate piano pupils of Mrs. H. A. Yoder met in the home of Mr. and Mrs. John Harnly for a piano workshop.

The students played for each other, then discussed "what goes to make up good piano playing." Some of the pupils played several selections, then Mrs. Yoder conducted a short period of ear training in which the pupils practiced recognizing rhythms by hearing them.

Punch and cookies were served by the hostess. Those attending were Jessie Le Noel, Mary Brunnett, Carol Hughes, Marilyn Wells, Sarah Lou Harnly, Mrs. Joe Wells and Nora Mrs. O. L. Brummett and a guest, Mrs. W. Webb of Berger, Mrs. Dick Hughes and Mrs. Walter Noel.

## Layman's Viewpoint Is Studied by Holy Souls Parish Group

Mrs. J. W. Garman III reviewed an article "Lay Ancestries and Christian Doctrine" by the Rev. John E. Kelly at a luncheon meeting of the Parish Council of Holy Souls Church in the Parish Hall recently. Hostesses for the luncheon were Mrs. Roy McKernan, Mrs. H. W. Waddell, Mrs. J. W. Garman, Jr., and Mrs. Jerry Thomas.

The article reviewed stressed the importance of lay endeavors today to first know good and then teach it to others. From the article Mrs. Garman quoted: "Running into action without knowing, often results in a man, or a group, running in circles. We cannot do good until we are good."

At the business meeting Mrs. Lynn Boyd was elected to the hospitality committee of the council. She urged all members to visit the needy people in the parish. Mrs. J. P. Brown was elected to serve on the properties committee of the council.

The program was closed with a prayer led by the Rev. Otto Meyer.

### Legion Auxiliary Executive Board Has Call Meeting to Form Plans

The American Legion Auxiliary executive board met in called session Thursday night at the home of the president, Mrs. R. J. Kiser, in order that the regular meeting would not be necessary during Holy Week. The next regular meeting will be held on the third Thursday in April at the City Club Rooms.

A report was made on the recent rummage sale and 43 current members were reported on the roll. An announcement stated that the art classes of Miss Roy Riley will again compete for prizes in the annual poppy poster contest. First, second and third prizes of 5, 3 and 2 dollars will again be awarded the winners and all posters entered will be used by local merchants in their display windows before Memorial Day.

Money was allowed to buy evergreens for the memorial flower bed on Duncan Street. A committee will select and have erected a suitable memorial marker before Memorial Day. The executive board voted in favor of the community center project of the Council of Clubs.

Attention was called to the work of the American Legion on a national basis, stressing teaching children to pray and the power of Divine guidance. Posters and post cards using this theme will be ordered for use by the auxiliary.

Members were asked to save clean rags to donate to the hospitals for use in cleaning.

Committees were appointed and general plans made for the 38th district convention to be held in Pampa April 15-16. Detailed plans will be published when released by the committee chairman.

**SEWING CLUB HOSTESS**

**SKELLYTOWN** — (Special) — Madeline Parsons was hostess to the Northern Natural Sewing Club in her home recently.

## Entre Nous Club Will Meet Friday

Mrs. Guy Farrington entertains the Entre Nous Club in her home recently.

The house was decorated in green and white, with an arrangement of white carnations and greenery centering the dining table.

Mrs. Charles Beard sang, accompanied by Mrs. Don Walberg. Mrs. Ruth Spearman directed games and contests and Miss Nina Spearman gave a monologue, "The Back Seat Driver."

Angel food cake, ice cream and tea were served. Others present were Mrs. Norma Walberg, Mrs. C. A. Tignor, Mrs. Maye Skaggs, Mrs. Boyd Brown, Mrs. W. D. Stockstill, Mrs. Dave Turcotte, Mrs. C. C. Stockstill, Mrs. J. C. Farrington and guests, Mrs. Don Walberg, Mrs. Charles Beard, Mrs. Walton Osborne and Mrs. E. Johnston.

The next meeting will be Friday in the home of Mrs. Joe Lewis with Mrs. J. C. Farrington as hostess.

## Patricia Stuckey Feted With Party

Patricia Stuckey, daughter of Mr. and Mrs. Vernon Stuckey, was honored with a birthday party Sunday, March 19. She was three years of age on March 20.

Home movies were shown, and pictures were taken of the guests and of Patricia with her birthday cake and gifts. Ice cream and cake were served and each guest received favors of toy cars, balloons and candy Easter rabbits.

Guests were Martha Kay Price, Joy Ann and Gary Shultz, Paul Sheriff, Richard Palmer, Michael Sullins, Cathleen Dodd, Linda Joyce McDonald and Becky Palmer.

Also present were Mrs. J. M. Patton, Mrs. Richard Price, Mrs. C. L. Sullins, Mrs. B. B. Palmer, Mrs. H. F. McDonald, Mrs. Helen Kelley and Miss Mary Patton.

## Girl Complimented On Ninth Birthday

Marcia Lee McConnell was honored on her ninth birthday with a party, given by her mother, Mrs. G. E. McConnell, Jr., and her aunt, Mrs. C. W. Commandeer.

The guests played games with prizes going to Della Rightwell and Darwin Phillips. Gifts were opened by the honoree and refreshments of cake and ice cream were served.

Present were Nelda Lee Price, Norma Jean Vaughan, Bonnie Bryan, Mary Margaret Gray, Geraldine Mae Scott, Dottie Rightwell, Jerry Beth Hudman, Charles Sutterfield, Darwin Phillips, and Patricia Ann McConnell.

## Mobeetie 8th Graders Attend Skating Party

**MOBEETIE** — (Special) — Members of the eighth grade class attended a skating party at the Pampa rink Wednesday night. Those attending were Rosalene Hillbruner, Maurea Godwin, Jolene Robinson, Shirley Jo McCauley, Belle Willard, Joe Setz, Charles Worthington, Clarence Whittenberg, Clyde Patton, Nathan Lancaster, Joe Hathaway, Jerry Toler, Richard Ruff, and Bobby Hawley.

They were accompanied by their sponsor, Miss Charley Whitt, Madge Patterson, and room parents, Mr. and Mrs. Ebb Patton.

Sandwiches may be toasted in a skillet on top of the range. Just melt a little butter or margarine in the skillet and when it is hot toast the sandwich in it on both sides until golden brown.

## WE, THE WOMEN

Women vote two to one that a woman's life is harder than a man's, according to a recent Gallup poll.

If there had been such polls in great-grandma's day, the answer to that question would probably have been as overwhelmingly in favor of women having it tough.

For there are a few basic feminine beliefs that seem to change little with the times or the growing independence of women.

One is that belief that a woman's life is harder than a man's. Another is that "Mother knows best" when it comes to any matter concerning the children. Papa comes in handy for putting his foot down when Mama wants him to put it down. But most women are convinced they know better than their husbands where the children are concerned.

Still another theory that women have had about men for generations is that men are more susceptible to flattery than women. That's why women probably flatter on so thick. They know another woman could see through it — but they don't expect a man to.

## Games Entertain At Class Meeting

**ALANREED** — (Special) — The Seekers Class members of the Baptist Church here were entertained Saturday night with the monthly social. It was held in the Goldston home, northeast of town.

Games of canasta and 42 furnished the entertainment and sandwiches, cake and hot chocolate was served.

Those present were Mr. and Mrs. Cecil Carter and son, Jerry, Mr. and Mrs. Buddie Hill and sons, Murrel and Tommie Dee, Mr. and Mrs. Lester Carter, Mr. and Mrs. Laverne Goldston and children.

## Annual 'Senior Day' Celebrated in McLean

McLEAN — (Special) — The Senior Class celebrated its annual Senior Day March 31.

The class presented a short program in assembly Friday morning. The students impersonated drunkards, well-known people in McLean, wrestlers and faculty members.

Following the program the seniors and their sponsors, Bill Atler and Mrs. Jim Back worked at various jobs in town to raise money for use of the class.

In figuring out how much rice you will need to accompany a curried dish or stew, count on about one-quarter cup raw rice for each person.

## NEW STYLES NEW MODELS! Look Outside! Look Inside! You Can't Match a FRIGIDAIRE

### Husband Involved In Accident With Wrong Motorist

EFFINGHAM, Ill. — (AP) — The truck skidded as the driver failed in his attempt to avoid striking an auto at a street intersection. Joseph Passalacqua, the truck driver, unhurt, climbed out of his truck and rushed to the car to see if the woman driver — his wife — and their four year old son, Donald, were injured. Mrs. Passalacqua suffered bruises. Their son was cut on the forehead.

The truck and car were damaged. Passalacqua admitted the accident was his fault.

### Sailor's Pipe Dream Finally Comes True

SALT LAKE CITY — (AP) — A patient sailor dreamed while aboard ship during the war of owning a pipe organ. The navy man knew nothing of organ construction and never studied music. But in Salt Lake City and Ogden he found two pipe organs that had been discarded by theaters. They looked like heaps of torn junk.

For two years he repaired and assembled 2,000 pipes, thousands of electrical wires, 87 stops, 154 keys and other parts. Now he has an instrument valued at many thousands of dollars — and he's still improving it and adding effects.

Gracious Living Requires A Gracious Background Professional Interior Decorating Is The Answer

**R. J. "Ross" Willis**

722 W. KINGSMILL PHONE 1368-J OR 177-W

MAIL AND FEMALE—Pretty Lynn Carroll of Chicago, a front runner in the race for the title "Miss Stardust of 1950," stands beside a mailbox to show other pretty girls how to get into the contest. All you do, ladies, is mail a photo of yourself, giving height, bust, hip and waist measurements, to Post Office Box 65, Murray Hill Station, N. Y., before May 1st. The winner gets \$500 in cash, a trip to New York and a three-year contract as a model.

### Maryland Fights Adoption Racket

BALTIMORE — (AP) — Maryland is moving to tighten its adoption laws after investigators reported they uncovered a flourishing baby racket here.

Assasin Sodaro, assistant state attorney for Baltimore, told an interim fact-finding council of the legislature that the city is "a hotbed of black market activities in babies."

Haphazard placements, he said, often resulted in children being put into homes of persons mentally and physically unfit to care for them. Altogether, the volume of irregular adoptions here is "tremendous," the prosecutor declared.

Britain first claimed the Bahamas in 1827, but was unable to make good her claim for almost a century because the islands were held by pirates.

Ward spent Sunday with J. O. Ward.

Mr. and Mrs. Jack Porter, Mr. and Mrs. Doc Murphy and their families, spent the night with Mr. and Mrs. Pat Murphy of Lipscomb.

The official bird of Missouri and Idaho is the bluebird.

### Monthly Cramps

Now—A Tested Way to Real Relief Without Pain-Denuding Drugs

Men's welcome news for thousands of girls and women. Recent research indicates that cramps and pain of menstruation may be relieved by a special contraction of the uterine muscles. This contraction causes the blood to flow away from the uterus, and only the wonderful new fraction from cramps is away from the uterus. It is a natural action, free from cramping contractions, and your doctor for cramps today.

# WARREN'S WARMUP

By Warren Hesse—News Sports Editor

QUESTION: What three baseball leagues have an AAA classification?

TUESDAY NIGHT'S Oiler-Duster contest in Vernon pointed out the fact that the club doesn't have any pitching depth at the present time. The Class D Vernon club had little trouble rapping the efforts of Ray Cassidy and Joe Prucha, and Johnny Martin couldn't find the plate in his first pitching effort. The cold weather undoubtedly had quite a bit to do with the poor showing of the mound staff, as many of the fans even had

The first two games of the year have also indicated that there are some capable starting pitchers around this year. Parker and Payne both appear set to go. Merlin Hubbard looked great in his three-inning stint against the Gold Sox last Sunday and he should be headed for his best season. He will get a further trial this afternoon probably.

The other man counted upon as a starter and a 20-game winner for Pampa this season is lefty Bill Garland, who has been taking his time getting ready. He admittedly isn't a youngster any longer and consequently finds it harder to get ready to go. He is scheduled to get his first test this afternoon against Southwestern Teachers of Weatherford, Okla. He has looked good when he cut loose at batting practice sessions.

Manager of the Vernon club this season is none other than the famed jittery Joe Berry, who many fans will remember from his playing days around here and others will remember him when he was one of Connie Mack's dependables.

Berry, while he has aged, hasn't lost his nervousness. In the midst of the seven-run Duster rally Tuesday night he was up around home plate doing a small Indian war dance while talking to one hitter. He looked like a first class jitter bug as he bounced first on one foot and then the other.

It was a reunion for Berry and Oiler Manager Grover Seitz, who battled against each other years ago. Berry was still active in 1945, playing with Tulsa after a short stay at Los Angeles where he first backed out of the majors. While at Los Angeles he was given a "day" by the fans and by Bob Burns, another famous Arkansas.

Berry had great fun reminiscing about his days in the big leagues. He was one of the first pickoff artists. He had the pickoff play so well perfected with his shortstop and second baseman that often times he would catch the runner so flat footed off the bag that he would slip rather than peg to the infielder for the tag. He likes to tell about the time he did just that to Johnny Lindell, Yankee slugger, and how he almost did it to Lou Boudreau, Cleveland manager.

This season is Berry's first attempt at managing a baseball team. While he has spent over 25 years in the game, it has always been as a player. Last season he didn't work anywhere, remaining at home and growing a garden for the first time in 25 years.

So far, as a manager, you could say he has been very successful. In the first seven games the Dusters played this year he has seven victories to show, two of them over WT-NM League clubs, the Oilers and the Hubbers. His

## Pampa Boys Club Fighters Meet Broncos Here Monday

The Pampa Boys Club boxing team will fight its first home match of two to be held in Pampa this year when it faces the Clarendon Broncos at the Junior High Gymnasium next Monday evening. The bouts will start at 8 o'clock.

Last weekend the Clarendon team finished second in the District 2-A boxing tournament at Wellington.

In the earlier meeting this season the Pampa club came out on the long end of a 2-4 score.

The bouts were some of the fastest, closest and cleanest of the season, indicating that Pampa fans should get a lot of action Monday night.

Tickets for the fights are being sold by the board of directors of the Pampa Boys Club. They may be obtained from John Rankin, Cecil Colman, at Floyd Walker's, Jack Vaughn's, James Feed Store or from Ham Lina W. H. Cooper.

Price of the tickets is \$1.00 for reserved seats, 75 cents for general admission and 25 cents for students.

Eugene Cooper, former state Golden Gloves champion, will referee all of the matches.

## PGA Squabble Takes Back Seat as Masters Tees Off

AUGUSTA, Ga. — (AP) — The rumblings of ruckus on the PGA were merely murmurs today as the 14th playing of the Masters Golf Tournament began over the hills and greens of the Augusta National.

The scrambling within the PGA to get more power for touring golfers in running tournaments nearly overtook preparations for the Masters Tournament earlier this week. But the scrapping died down and verbal weapons were put in mothballs until a showdown meeting here Monday.

And in the place of that unpleasantness is the playing of the Masters — the top stop on goldfom's winter circuit. On Monday, maybe sooner, arguments are due between the unhappy stars and PGA officials, but until then the Masters is the thing to try to win.

Sam Snead is short man in the odds. It's three-to-one that the mountaineer from White Sulphur Springs, W. Va., won't successfully defend his crown. "I'm right nervous," Sammy says.

The field is 65, larger but probably not the strongest, in the history of the tournaments. Next to Snead in the odds at four-to-one are National Open Champion Cary Middlecoff and little Ben Hogan. Hogan hasn't won a Masters in seven tries. He played the best golf in practice rounds but good practice rounds mean little.

Johnny Palmer is given a five-to-one chance and Jimmy Demaret and Jack Burke, Jr., are chalked up at six-to-one. All former Masters winners are here except Craig Wood and Ralph Guldahl. Besides Snead the past champions are Claude Harmon, Herman Keiser, Byron Nelson, Demaret, Henry Pickard, Gene Sarazen and Horton Smith.

During the winter the touring pros wrecked par on nearly every stop from California to Florida

to North Carolina. They most likely won't continue here. The National winds and climbs 6,900 yards over the piney East Georgia hills in championship form. Par is 36-36-72.

Merriman Hitting For Cincinnati (By The Associated Press) The shift from grinding out yardage off tackle to banging yardage off major league fences may turn out all right yet for Cincinnati outfielder Lloyd Merriman.

Stanford's former backfield ace, scrapping for a regular center-field spot, had a great day yesterday. Considered a light hitter, Merriman smacked a three-run homer in Cincy's 16-5 victory over Macon. One was with the bases full.

Two New York pitchers hurled complete games. Larry Jansen of the Giants allowed Cleveland only four hits in New York's 8-2 victory. But watch out Joe Page; Allie Reynolds also lasted nine innings and he defeated the Cardinals, 8-4.

All last season Reynolds pitched only four complete games while winning 17, most of them with the help of relief pitcher Page.

Joe DiMaggio's legs gave out again. The great outfielder pulled a muscle in his calf while running to first but he is expected back in the lineup in a few days.

In the last few seasons the Chicago Cubs have come out on the wrong end of 22-12 scores. But not yesterday. They unloaded five homers, two by Andy Pafko, in walloping the St. Louis Browns.

YESTERDAY'S RESULTS New York (A) 8, Cleveland (N) 4. Detroit (A) 11, Macon (SAL) 9. New York (N) 8, Cleveland (A) 2. Beaumont (T) 7, Chicago (A) 2 (night). Brooklyn (N) 10, Dallas (TL) 6. Chicago (2) 2, St. Louis (A) 12. Cincinnati (N) 16, Atlanta (SA) 5. Threeport (TL) 8, Philadelphia (N) 2. Pittsburgh (N) 6, New Orleans (SA) 4. Mobile (SA) 12, Brooklyn "B" (N) 7 (night). Philadelphia (A) vs. West Palm Beach (train). Washington (A) vs. Kansas City (wet grounds).

Texas' Charley Parker is the only athlete whose name appears in both the State Interscholastic League (high school) and Southwest Conference track and field records. He holds the State schoolboy dash marks and was a member of the Longhorn quartet that set the SWC 440-yard relay record of 41.2.

Canton, China, lost 100,000 persons to plague in 1924.

WATCH THE BALL—Don Ricketson, husky Oiler third baseman, watches the ball, and the camera, as he prepares to scoop up a grounder during Oiler workouts. Ricketson is just now working an early soreness out of his throwing arm. (News Photo and Engraving)

## Hill Prince Is Winner of Experimental Run

NEW YORK — (AP) — The Kentucky Derby will be run a month from today, and as of now, Oil Capitol and Hill Prince stack up as the "big two."

Oil Capitol, Tom Gray's Flamingo Stakes winner, recently arrived on the Derby scene at Louisville from Hialeah, Fla., and began training in the role of a 7 to 2 favorite for the May 6 classic. Meanwhile, most lines had C. T. Cheney's Virginian, Hill Prince, at 6 to 1.

But the oddsmakers were busy today shuffling their quotations for the blue grass extravaganza and it wouldn't be surprising if they move Hill Prince right up there with Oil Capitol because of the way the Cheney charger won yesterday's Experimental Handicap No. 1 at Jamaica.

It was the tall bay's first 1950 start and verified his excellent form as a juvenile. He answered the only question that needed to be answered — that he is as good as he was last year.

Ace jockey Eddie Arcaro said just that after guiding the prince to a length and a quarter triumph in the six furlong test, supplementing his remark with, "and that is something."

The strapping son of the cup horse, Princequillo, ran one of his typical races, spotting many lengths to faster beginners, then coming on with a characteristic stretch kick in slop and rain. His time, 1:12, was good in such going. With Arcaro sitting still, the colt worked out a full mile in 1:40 flat.

At the end of the 1949 season, three colts were ranked closely at the top of the two-year-old crop — depending upon which expert opinion or poll you cared to accept. They were Hill Prince, Oil Capitol and Robert J. Kleberg's Middleground, a speed specialist which won Saratoga's Hopeful Stakes last August.

John B. Campbell, the Jockey Club's handicapper, placed Middleground at the top of his Experimental weights with 126 pounds, two above his assign-

ments to Oil Capitol and Hill Prince.

Middleground's ankles were subject to suspicion when he ended his 1949 racing but trainer Max Hirsch has denied there's anything wrong with 'em. He did not run the colt in yesterday's Experimental and said simply, "I don't know when I'll run him; I'll run him when he's ready."

## WTSC Buffaloes Looking Good in Spring Grid Work

CANYON — (WTNS) — West Texas State's 1950 Buffs are hard at it again this week as they move into the second week of spring football training.

Showing the steam and conditioning for mid-season play, the squad divided off into the Reds and Whites and played a full-length game with the Reds, piloted by Frank Wise, Coleman, and Lonnie Rice, Dimmitt, emerging victorious 24-18.

Leading the Whites were quarterback Gene Mayfield, Quittus and Joe Means, Phillips transfer from Texas Tech. Jimmy Billings, Brownfield, alternated with Means in quarterbacking his particular squad. All boys looked good and the passing antics of Wise and Rice were particularly impressive.

Linemen were fighting tooth and nail for every inch of ground and the big, beefy forwards were rugged for the opposition to crack. Showing up particularly good were ends Roy Lee Dunn, Borger, C. H. Keeton, Lefors; Toby Booth, Farwell; Marvin Smith, Perryton; and Bill Eudy, McLean. Shining at tackle posts were Donald Briggs, Shamrock; Bruce Womack, Floydada; Leon Chapman, Borger and John Poindexter, Baird.

Looming as great guard prospects are Oscar Ashley, Amarillo; Sam Raburn; Wellington; newcomers Phil Payne, Pampa and Jerry Bollen, Wellington; Regular guard J. D. Covington, Borger, was sidelined with a hip injury.

The center spot is being fought over by 5 outstanding "big boys." They are Deane Wright, Spur; Douglas Mahan, Quanah; Bob Kelley, Bovina; Don Patterson, Olton; and Bill Pevehouse, Newcastle.

Carrying the burden of the backfield chores were a raft of good ball carriers and blockers. Big Charlie Wright, Canyon, and Tom Airhart, Canyon, were plugging "up the gut" with terrific power. Little Bill Cross, Canadian, was running like a scared deer; Other backs displaying fine wares were Joe Ogden, Lefors; Walker Bateman, Plainview; Wayne Sullivan, Phillips; E. C. Seifert, Levelland; James Pendergraft, Darrousett; Jimmie Draper, Spur and Freddie Newsum, Lefors.

The first casualty of the spring workouts was scabbard R. C. Dalton, Borger sophomore. Dalton had consistently been a spectacular player during the seasons and was developing into the best broken field runner on the squad. However, he broke his right leg during the Friday scrimmage after loping 70 yards for one TD and was on a 65-yard romp when he was hit and injured.

The Buffs have 25 practice days allotted to them and the final spring clash is slated for May 17. Each week there will be a full game scrimmage and the next is scheduled for this afternoon, at 3:30 o'clock.

Gadget Eliminates Radio Commercials PHILADELPHIA — (AP) — Tired of listening to radio commercials? A University of Pennsylvania physicist has an answer for you. Dr. I. Clyde Cornog disclosed that he has developed what he calls an "advertiser killer." It is described in the American Journal of Physics.

With Dr. Cornog's electronic circuit gadget installed, you sit in your armchair, a switch by your hand. When you wish, you press a button and off goes the radio for a certain, predetermined, period of time, say a minute.

The University of Texas plays its 47th Southwest Conference baseball game in Austin on March 29 against TCU. The Longhorns' all-time record is 391 victories against only 84 losses, a winning percentage of .823.

The giraffe, attaining a height of 18 feet, is the tallest living animal.

## Why He's More Than Just Your "Paper Boy"

THE young man who makes it his business to bring this newspaper to your front door every day, is something more than the "paper boy" who serves your street. He is the "representative" of hundreds of newspaper men and women you never see.

Show his eagerness to deliver your newspaper swiftly and dependably day after day, symbolizes the spirit of our entire newspaper staff. Our reporters' efforts to gather all the really important news of the day... our cameramen's zeal to capture action pictures of headline events... our editors' determination to add the finest columns, cartoons, comics and other features your family always enjoys... and our mechanical and circulation departments' goal — to print and distribute all this news and entertainment at top speed.

Yes, although your carrier-boy is strictly in business for himself, he takes special pride in being the final link in the newspaper's service chain, and in striving to keep pace with our organization's constant efforts to serve you quicker and better.

### The Pampa Daily News

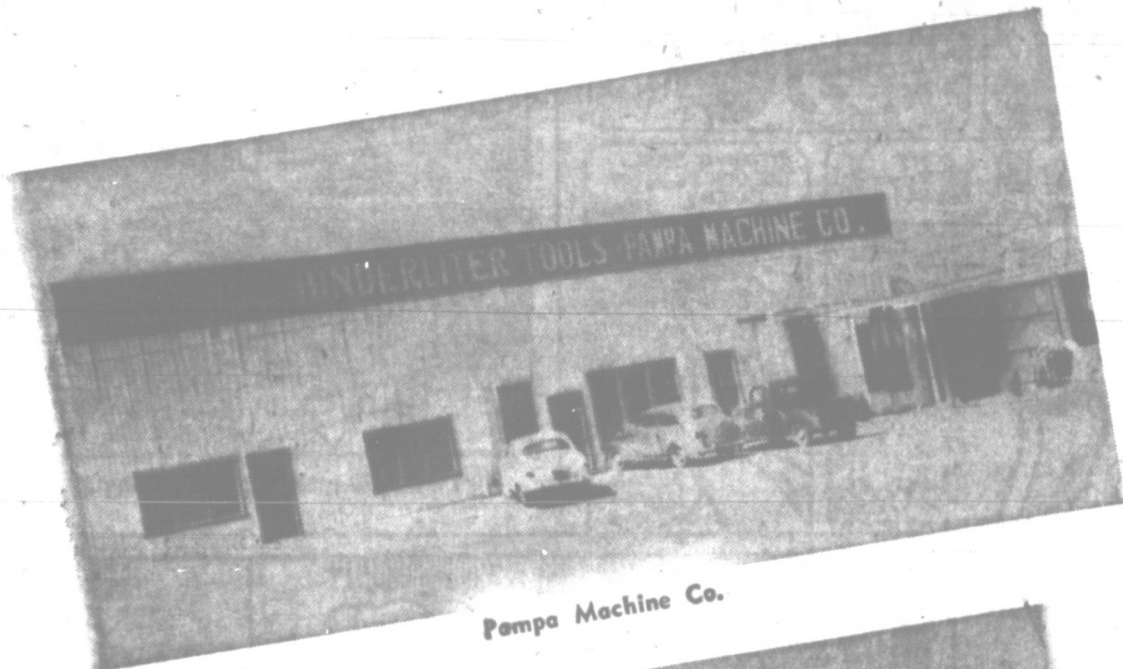

# A Salute

# To PAMPA'S MACHINE SHOPS

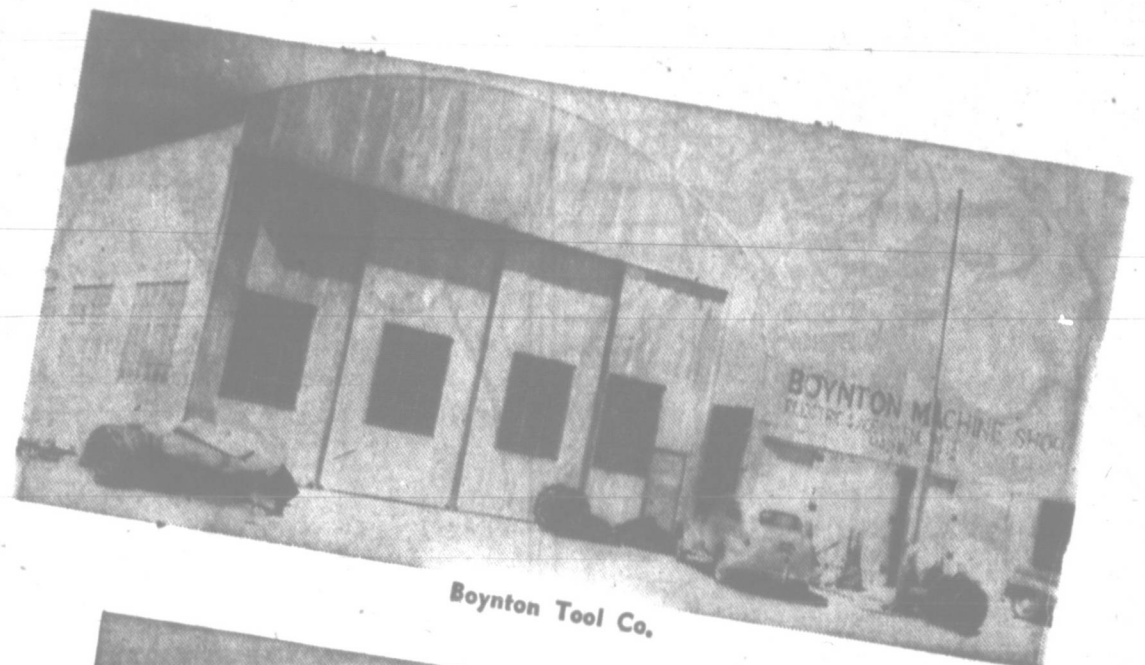

## DURING TEXAS INDUSTRIAL WEEK

In a city with its economy geared to the fruits of industry, the importance of the machine shop is sometimes de-emphasized. Ask any member of industry which of the links in the chain is the gearing point for all industry—the machine shop will be the answer. As the machine shop is dependent on industry, so is industry dependent on the machine shop. From the machine shop comes the vital

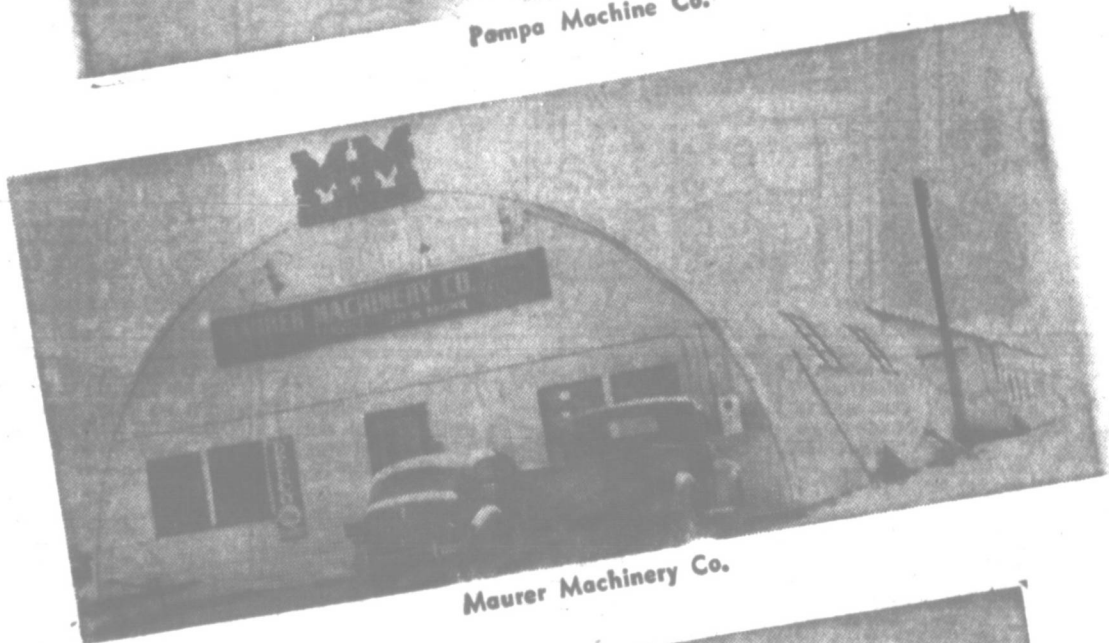

tools and dies, the precision gears, and the intricate parts needed before industry has wheels to turn. Our machine shop population looms high in the Pampa picture. Industry points with pardonable pride to the miracles worked in the machine shop; Pampa points even more graphically to the tremendous part the machine shops play in keeping Pampa in the vanguard of progress.

Soviet-Backed Smugglers Hit Germany Hard

FRANKFURT, Germany (AP) - Heavily-armed smuggling gangs from Communist Eastern Europe states are doing a huge black market business in Western Germany in a Soviet-sponsored effort to wear its economy, according to Western officials.

BRITISH CHIEF - Sir Brian Robertson

Police had to call for special reinforcements before they could find a slot machine they were sure was in a local restaurant.

Police Need Special Officer for 'Bandit'

EVANSVILLE, Ind. (AP) - Police had to call for special reinforcements before they could find a slot machine they were sure was in a local restaurant.

The report said a number of German customs officials have been killed in border area fights with the Communist smugglers. The smuggling strikes a critical blow at legitimate business in Western Germany as well as making it increasingly difficult for the West German government to finance its rehabilitation programs.

FROM NINE TO FIVE

NEW YORK (AP) - The sidewalks of New York which began going to sea when placed aboard the bridge of the Liberty ship Alfred E. Smith, are still popping up in the ports of the world, the American Merchant Marine Institute disclosed.

You've got to be smart to be as dumb as I am... and still hold a job.

FINGERPRINTS Don't Lie

THE STORY: Private detective Paul Moody, a young sculptor, of charges in the murder of Wendell Palmer, Moody's fiancee. Fingerprints on the fatal telephone used to bludgeon Palmer to death are claimed by police to be those of a woman named Gretel who had tried to blackmail Palmer.

Stivers waited while Queripel studied the enlargements of his own finger-prints. He watched while Queripel put alongside them the eight prints of Paul Moody's labeled "telephone base."

Stivers topped over into a chair. The whole structure of his faith was toppling. He stared at Queripel in a coma of helplessness. Queripel finished him off.
