

Guill Enters Race As GOP Candidate

By HENRY S. GORDON
Pampa News Staff

Ben Guill, 40, of 1117 N. Russell, late last night announced he would enter the special congressional election May 6 as a Republican candidate.

Ben Guill

Worley Takes Judicial Oath

WASHINGTON (AP)—Eugene Worley, who resigned yesterday as a member of Congress after 10 years as representative of the Texas Panhandle district, took his place today as a justice of the U. S. Court of Customs and Patent Appeals.

More than 200 persons, including virtually every Texas member of Congress and their wives, witnessed the brief ceremony in which he donned judicial robes. The oath was administered by Chief Justice Marvin Jones of the Court of Claims. He was Judge Worley's predecessor in Congress. The ceremony opened with Chief Justice Finnis Garrett calling the Court of Customs and Patent Appeals into session. As soon as Worley promised to uphold the Constitution of the United States and to render justice "without regard to rich or poor," Justice Garrett recessed the court for three minutes so Worley could step behind the bench, put on his robes and then fill the vacant chair of the five-man tribunal.

The court resumed session momentarily and then was adjourned so Judge Worley could receive congratulations of his friends and relatives.

Among those on the front row were his wife and one of their three children, Gene, his mother, Mrs. Oliver Worley of Shamrock, Texas, and a sister, Mrs. J. J. Field of Washington.

Others present included Assoc. (See WORLEY, Page 6)

Bridges Is Convicted Of Perjury

SAN FRANCISCO (AP)—Harry Bridges was convicted today of perjury. He and his two defendants were likewise convicted on all three counts in the federal grand jury indictment.

SAN FRANCISCO (AP)—A federal court jury today went into its fifth day of deliberations on whether CIO longshore leader Harry Bridges and two aides lied to conceal his membership in the Communist Party. The weary, grim with some angry faces among their number, the eight men and four women recessed at 10:15 p.m. (PST) last night until 9 a.m. this morning. They deliberated then for approximately 28 hours since receiving the case last Friday.

The 48-year-old Bridges, a native of Australia, was accused of committing perjury when he claimed, at his naturalization hearing in 1945, that he never was a Communist. Henry Schmidt and J. R. Robertson, his associates in the union, and his naturalization witnesses, were accused of getting the perjury hearing and conspiring with Bridges to defraud the government.

Bridges acknowledged that he had associated with Communists, accepted their help when he needed it in his union battles, and upheld the right of Communists to belong to his union. But he denied flatly and repeatedly that he had ever joined the party.

FOREIGN SUBMARINE REPORTS CONFIRMED

SAN FRANCISCO (AP)—The Navy says foreign submarines "very probably" have been operating off the California coast.

A four-day search by surface and air craft produced only "inconclusive" results. But there wasn't much that could have been done about it since the strange submarines were in international waters near the destroyer Colahan, commander of the destroyer Colahan, returned yesterday from the search and reported having made contact twice through radar and sonar with objects he believed were submarines. Captain Holbrook is a former submarine officer.

After evaluating the captain's report, Rear Admiral R. I. Enstie, vice commander of the Western Sea Frontier, said the contacts made "very probably" were one or more foreign submarines on routine peacetime patrols.

At no time during the search was any submarine sighted, either by surface craft or from the air. Although investigation of sev-

Guill's action fully confirmed Saturday rumors that he would enter the race to succeed Judge Eugene Worley who today became an associate justice of the U. S. Court of Customs and Patent Appeals.

A Purple Heart Navy veteran, Guill was graduated from West Texas State College and taught in public schools at Pampa, Amarillo, Pampa, Hopkins and Amarillo. Within the past few years he became associated with the White Deer Land Co.

He will be the only Republican in the field of seven candidates.

In making his announcement, Guill said:

"I am running for Congress as a Republican because I am opposed to the overall policies of the present administration. The so-called Fair Deal is dishonestly sailing under the banner of the Democratic Party. The only honest method I know to fight the socialistic theories of the Santa Claus boys is to join the other team. I have no intention of trying to tell the people of the Panhandle that the Republican Party is all-virtuous and a sure cure for all our ills. It isn't. But I am convinced that the kind of Americanism in which I believe, and in which most of the citizens of the Panhandle believe, is better represented in Washington today by the leadership of the Republican Party."

Declaring himself an "independent politician," Guill played what he termed "wild-eyed government spending," and declared: "We can achieve greater efficiency in government and still reduce our income tax burden by cutting the deadwood out of our bureaucracy."

Referring to some of the campaign issues, he said: "I am unalterably opposed to socialized medicine, regardless of any brand, stamp, banner, name or other device that may be invented to make it appear otherwise."

"If elected, I will fight every effort to create an FEPC bill. I believe every employer should have the right to choose his own employer, and every employer should have the right to choose his own employees."

"I will if elected, defend the present labor-management laws in all their aspects except those particulars in which those laws should be changed so as to make them more effective. We must protect ourselves from a recurrence of any more shameful situations in which a man like John L. Lewis can openly defy the United States government and get away with it."

However, Guill added he would defend the labor laws which organize and bargain collectively and added he believed labor unions are now sufficiently mature to assume the same responsibilities of management. "If they should be made to incorporate so they can be held financially responsible for their actions, and they should be subjected to the same anti-trust laws as any other big business."

"I am not anti-labor. I have worked too hard all my life to be accused of any such bias. I am against the labor racketeers who have victimized the working man and have imperiled the authority of our nation by shackling private industry."

Guill said he believed the American farmer "is smart enough to work out his own destiny if we save his national economy," and said "I am against undue federal interference with the nation's agriculture production. I also feel we are merely deceiving ourselves if we say we can continue and increase support indefinitely and still maintain our national economy."

Guill concluded saying: "In short, I am against 'big government' centralized in Washington. I believe in states rights, and the sovereignty of our states. I favor a tougher and more coherent program toward Russia. Above all, I think it is high time that our federal government cuts out its mumbo-jumbo and double-talk and gets down to the brass tacks of preserving those (See GUILL, Page 6)

Air Strength Hike Within Present Budget Is Hinted

DRAG IT OUT—Two Highway Dept. maintenance trucks with graders hooked on are caught by the cameraman as they skid across the grassy lands south of Lefors where several sections of grass were burned off yesterday in a dangerous fire made more so by high winds. The men seraped trenches to stop the fires. Fighting the fire were Jesse Roberts and Milton Carpenter, using burlap bags; and on the graders, Haskell Smith, in charge, P. D. Strickland, C. B. Cummings and J. L. McEllan. Scores of other men fought the fire miles away. (News Photo and Engraving)

Russian Plane Raid Claimed

TAIPEI, Formosa (AP)—An air headquarters spokesman today said Russian-built planes which downed two Chinese Nationalist fighters undoubtedly were operated by Russians.

The spokesman said the planes "definitely were of Russian manufacture." And he added: "Judging from their technique, they most certainly were manned by Russians."

The Nationalist fighters were shot down Sunday during a raid on Red shipping in Hangchow Bay south of Shanghai.

That opposition, the first the Nationalists have encountered in the air in four years of civil war, was seen by many today as an ominous forerunner of Communist air attacks on Formosa.

It also led to belief the Reds will have air cover if they attempt an invasion of this Nationalist island.

But the new threat did not ground Nationalist planes.

Air headquarters said mosquito bombers attacked the Fochow Airport yesterday and also destroyed many of a flotilla of more than 100 Red junks nearby.

Mitchell bombers hit artillery positions on Red-held Taohua Island south of Chusan Island.

The communique indicated Communist planes still are holding out on Hsian, which the Reds invaded Saturday.

The air headquarters communique on the Russian planes said: "Two Chinese Air Force Mustangs were captured by the Reds on the morning of April 2."

The Nationalist fighter, it said, were making low-level strafing runs on Communist junks concentrated near Chapu on Hangchow bay for an amphibious assault on the Chusan Islands. This island group, about 100 miles southeast of Shanghai, is used by the Nationalists for air and naval bases.

The communique said one of the Nationalist pilots bailed out and returned safely to base.

Taipei newspapers splashed the communique, one carried a headline: "Russian Planes Openly Attack Ours."

The communique added: "According to an accurate intelligence report from the mainland, a large number of Russian planes had arrived at Hsian (Suchow), 160 miles north of Nanking."

The planes were reported to have come from the air base at Dairen, south Manchurian port."

Wild Prairie Fire Sweeps Wide Area

A wild grass fire, swept by high winds, the nucleus of prairie lands in dry weather, yesterday afternoon took section after section of grazing land south of Lefors between the Farm Road 291 and state Highway 153.

Pampa Fire Chief Ernest Winborne estimated about 25 sections were burned over.

Some cows and calves were reported burned, and farm buildings were threatened. Pampa and McLean Fire Department trucks helped protect some buildings.

The trucks used all their water, and then county equipment was used to haul in more.

The McLean truck was trapped and the tires were burned according to reports received here. It was reported the Wilson Boyd farm house was threatened, but the trucks rendered help.

Several sections of land were burned over. Reports were scattered and some conflicting. But most agreed that about 2-1/2 sections of land was burned over on the Hudgens Ranch, some on the "Cap" Pettit Ranch, Joe Willis Ranch, the Rip Barrett Ranch (leased from C. P. Pursley), the Bill Davis Ranch, Part of the grass on the Dow Ranch west of Willis was burned over, as was about a half section on a ranch east of Willis.

The fire was reported to have started along the Alaneed road (Farm Road 291) five miles south of Lefors. It burned to the McClain Creek, the south and was checked substantially on the north only by a change in the wind. Two bulldozers were used, and a considerable number of smaller pieces of equipment.

The fire started around 11:30 a.m. and was out by 6 p.m.

Hotel Survey Inquiries Being Mailed

Fred C. Burris, treasurer of the Hockenbury System Inc., Harrisburg, Pa., met with members of the Chamber of Commerce Public Improvements Committee last night to go over plans for a hotel survey.

Burris, who will conduct the survey, is preparing a questionnaire which is being mailed to 500 to 600 Pampans today and tomorrow. He said the contracts for the survey were consummated at last night's meeting.

Pampans receiving the questionnaire, who will represent a cross section, have been urged to fill out and return the questionnaires as soon as possible since it is one of the factors that will be used in determining local hotel needs, if any.

Burris will hold private interviews and investigations to develop further in the hotel question. He said information in the questionnaire and interviews will be kept confidential, so no one need be embarrassed by his answers.

Public improvements committee men present at last night's meeting were Jake Garman, chairman; Ivy Duncan, Crawford Atkinson, E. J. Dunigan, Bill Fraser, John O. Pitts, Floyd Imel, Francis C. Oden, Paul Carmichael, Lynn Boyd, G. S. "Pinky" Vineyard, and E. O. Wedgeworth. Members not present included Frank Culbertson, J. E. "Pat" Murphy and Frank Carter.

Johnson Says Eisenhower's Proposal May Be Adopted

WASHINGTON (AP)—The Defense Department today ordered new studies of its \$13,911,127,000 budget to determine whether more money should be asked for Air Force and naval planes.

Secretary Johnson said he has asked the joint chief of staff to re-examine the question.

He told a news conference he believes all of the military forces and equipment recommended by Gen. Dwight D. Eisenhower can be obtained within the present budget.

But Johnson said that if the joint chiefs recommended more money for modernized aircraft he will ask President Truman and the Budget Bureau for the funds.

Eisenhower, former Army chief of staff and now president of Columbia University, said last week that he thought an increase of \$500,000,000 at the outside should be made in the president's defense budget.

Testifying before a Senate appropriations subcommittee, Eisenhower recommended particularly the strengthening of the defense and more modern planes for the Air Force and the Navy.

The committee had called him before it because he had said in a recent speech that he feared defense spending was being cut too heavily.

Since Eisenhower gave his views, there has been a strong movement in Congress for more funds for the armed services.

Rep. Vinson (D-Ga.), chairman of the House Armed Services Committee, has called for \$88,289,211 more for warplanes to help meet what he called the threat of an atomic blitz.

Protesting that the administration's \$13,911,127,000 military program "will wither American air power on the vine," Vinson urged instead that air strength be increased promptly.

Vinson said in a speech that the president's budget for the fiscal year beginning in July does not assure adequate defense at a time when "the atomic blitz of tomorrow is a real, a genuine possibility." He added: "It is universally known today that Russia is building the largest air force in the world. What are they building it for? They are building it for use whenever they carefully-timed Pearl Harbor day comes around."

Previously Vinson has said he expects to sponsor several amendments to the bill authorizing military spending for the year beginning next July 1. In his speech, however, he brought up only the proposal for increasing air power.

The pending budget allots \$1,350,000,000 for Air Force procurement and \$650,000,000 for new planes for the Navy and Marines.

Vinson would give the air force an additional \$200,000,000 of \$1,550,000,000 for new planes, and the Navy an increase for the same purpose.

These increases Vinson said, are needed to maintain an up-to-date 48-group Air Force and a modern naval air arm.

A House military appropriations subcommittee reported recently that this country now has only (See JOHNSON, Page 6)

Chamber Drive's Report Coffee Site Is Changed

Chamber of Commerce "Hoss Race" membership teams have been asked to attend the first report coffee, which will be held at 10 a.m. tomorrow at the Court House Cafeteria Dining Room.

The "work hosses" will turn in the cards they have worked to determine which chief jobkey will have the honor of wearing the coveted hoss's collar until the next report coffee.

George Newberry, chief jobkey of the "Assault Team," was "demoted" at the kickoff breakfast yesterday with the collar for having the fewest "work hosses" in attendance.

Power Line Charge Fatal to Youth, 13

AKWOOD, Okla. (AP)—A power line accidentally hit a 13-year-old boy to electrocute here last night.

Jimmy Goulding, son of Mr. and Mrs. Felix Mathis, answered a service call from a drugstore which reported its phone on fire while his father was on another call. The couple operates the town's telephone exchange.

State Highway Patrol Trooper G. B. Shultz said the youth got the fatal charge when he picked up a wire from the telephone.

Firemen welcoming two brand new smoke masks today at the Fire Department. They have needed masks for a long time and are glad to receive them in time for the continuing grass fires.

Garden tools and rubber hose for your spring work. Lewis Hdw.

Connally Says Senate Won't Cite Officials

WASHINGTON (AP)—The Senate Communist investigation headed for a possible stalemate today, Senator Connally (D-Tex) predicted that the State Department is harboring Communists and is being influenced by Soviet spies, seemed balked at every turn.

A Senate foreign relations subcommittee investigating charges by Senator McCarthy (R-Wis) that the State Department is harboring Communists and is being influenced by Soviet spies, seemed balked at every turn.

It faced the necessity of obtaining a contempt citation which Connally said he doesn't believe the State Department stands little chance of getting — to reverse President Truman's decision against opening the confidential files.

Without much hope of success, it sought means of forcing McCarthy to make available six documents he turned over to the FBI in connection with his charges that Owen Lattimore, writer on Far Eastern affairs, was a Soviet agent in the State Department.

The subcommittee will give Lattimore, who already has denied McCarthy's charges, a chance to answer them formally in a hearing Thursday.

Connally said he doesn't believe the subcommittee, the full committee, which he heads, or the Senate will vote to cite for contempt Secretary of State Acheson, Attorney General McGrath or Harry Mitchell, head of the Civil Service Commission.

The three officials were instructed by President Truman not to let the subcommittee, headed by Senator Tydings (D-Md.), look at secret loyalty records.

Senator Brewster (R-Me) said that if no contempt proceedings are ordered, the Senate will be in the position of "backing down" on its vote to clothe the subcommittee with subpoena powers to get the files.

Tydings called the subcommittee together this afternoon to consider not only that problem but McCarthy's refusal to make his Lattimore case documents available.

Tydings conceded to reporters that the prospects of obtaining any evidence from either source now appear slim. He said the committee could undertake its own investigation of each of about 90 cases where McCarthy has subpoenaed.

(See CONNALLY, Page 6)

Industrial Salute Points To Gasoline

Gasoline plants in the Pampa area, being recognized today in the Pampa News industrial advertisement, have exerted a tremendous influence on the economic health and development of the territory.

Centered in one of the world's greatest gas fields, the gasoline plants have provided direct employment for a multitude of persons and indirectly have provided for other sources of employment in gas transmission systems, carbon black plants, and other related industries.

Shown today are plants representing Phillips Petroleum Co., Shell Oil Co., Cities Service Gas Co., Hays, Harrington and Marsh and Portland Gasoline Co.

In addition to processing of natural gas for use as fuel in this area, the industry extracts butane and propane from this valuable resource. Certain of the plants are also engaged in being prepared to supply gas under pressure for the two large-scale secondary recovery projects that have been initiated in the Pampa field. These secondary projects, which are West Pampa and the Watkins, utilize natural gas under pressure to provide a drive in recovering a greater percentage of oil from the field's older wells, than otherwise could have been expected.

"Chief Joekey" Ed Cleveland and his "Shoofly Team" of the Chamber of Commerce "Hoss Race" membership campaign is way out in front. The Shoofly's were best reported at the kickoff breakfast yesterday and the quarter horse seems to be holding its own among the race horses "Whisper," "Assault," "Ponder," "Seabiscuit" and "Man o' War."

Our Town Set Tonight

Curtain time for "Our Town" West Texas state college's production, will be at 8 p.m. today at the Junior High School Auditorium.

Two Pampa High School grad students will have parts in the road show. They are Bobby Tucker and Gene Garrison. The play is being directed by Bill Hutchinson, also a Pampa High Graduate.

Sponsored by the 29-30 Club, the production is one of WTSC's most successful. Its past performance is successful. The 29-30 Club will sponsor other WTSC plays. Bill Nells, president, said.

Proceeds from the play will go into 29-30 International's charitable fund.

BARBECUE TO BOOST ROGERS' CANDIDACY

The congressional campaign of Atty. Walter E. Rogers will get off into high gear at 5 p.m. Thursday at a barbecue at 10th S. Barnes given for him by Sheriff G. H. "Skinner" Kyle with peace officers of the district as guests.

In a series of other meetings some Pampa business and professional men have organized a "Rogers for Congress" club and plan district-wide tours to "sell" the candidate as "the best qualified man in the race," according to information received today.

The group will travel in teams of four to a car, distribute placards, literature and tell the voters in other counties about Rogers.

The lanky attorney told the group he is in a position now to devote his entire time to the campaign. Rogers' law practice, a spokesman for Rogers said, has been arranged to make this possible.

Rogers' campaign talks will be campaign.

FIRE-FIGHTER—Jesse Roberts, farmer and candidate for county commissioner, Pre-1944, wields a heavy hurlap sack to knock out flames in the fire yesterday which scorched range grass and undergrowth south of Lefors. (News Photo and Engraving)

That evening Jesus and His twelve disciples sat down to the Passover feast. It was their Last Supper. Jesus said that one of them had betrayed Him. The eleven innocent apostles

were shocked, and wondered who among them bore the guilt. And Judas that betrayed him, answering, said: Is it I, Rabbi? He saith to him: Thou hast said it. (Matt. 26:25)

After supper, Jesus and the disciples went to the Mount of Olives, where, in the garden of Gethsemane, Jesus prayed three times, while His disciples slept. Rise, let us go: behold he is at hand that will betray me. (Matt. 26:46)

It was Judas. Behind him were soldiers of the high priests. Judas made the agreed sign. And forthwith coming to Jesus, he said: Hail, Rabbi. And he kissed him. (Matt. 26:49)

Trend Toward Small Homes Magazine Says Brings Sadness to Writer

By HAL BOYLE
NEW YORK — (AP) — Families and houses are getting smaller today. Drive through the suburbs of any city and you can see many 8-to-12 room homes of 50 to 75 years ago standing boarded up and empty. Some have been turned into duplexes or triplexes. And still others are being torn down. I hate to see these fine old houses die. It is like watching a kindly elephant go down. Architecturally, with their sprawling porches and gingerbread wooden trim, they may have been monstrosities. But they had a virtue above ordinary art — they were lived in, and well-lived in, by sprawling happy families. Whatever they lacked in beauty as houses, they made up for in the love they held as homes.

hear what the neighbors are calling each other. And without getting maudlin about it, I sometimes feel sorry for these small families living in their small and sanitary houses. I guess this is progress, and you can't fight progress; but I can't for the life of me, see just what the progress amounts to.

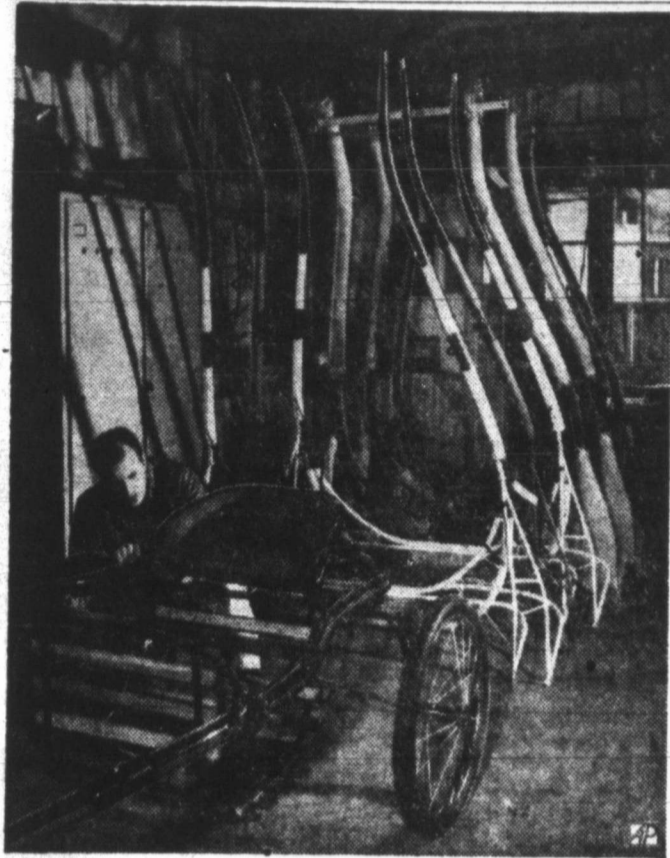

Navy Deserter Sentenced on Polygamy Charge

BOSTON — (AP) — A Navy deserter, who numbered two Texas women among his four wives, has been sentenced to two months in the state house of correction for polygamy. James D. Mason, 26, previously court-martialed by the Navy for desertion, received the state sentence yesterday. He has divorced both Texas women he married — but married two other women while the divorce from the second Texan was pending. Superior court testimony showed his wives to be: Ruby Smith of Greenville, Texas, whom he married in October, 1939. They were divorced May 13, 1946. He married Beulah Barclay of Denison, Texas, the same day. Their divorce became effective only last Friday. He was married to Ruth J. Olsen of Malden, Mass., Nov. 19, 1947, and to Juanita Fugate of Norfolk, Va., Sept. 4, 1948. Miss Olsen discovered he was married when she sought an allotment from his Navy pay and was informed of his Texas marriage. He pleaded guilty to marrying her illegally. His fourth wife screamed and collapsed when he was sentenced yesterday and said she would try to get work in Boston to be near him.

Magazine Says Navy Building Saucer Craft

WASHINGTON — (AP) — U. S. News and World Report says there is competent evidence that flying saucers are real aircraft of revolutionary design, developed in the United States. The weekly news magazine concludes that the Navy is doing the development. (The Navy, asked about such reports, said it built only one machine of the general saucer shape, a pistol engine aircraft, and it never flew. It said it never built a jet version.) Reporting what it calls the "real story" behind the writer of reports about such flying machines, the magazine says "engineers competent to appraise reports of reliable observers" have reached these conclusions: Flying saucers, seen by hundreds of competent observers over most parts of the U. S., are accepted as real. Evidence is that they are aircraft of a revolutionary type, a combination of helicopter and fast jet plane. "They conform to well known principles of aerodynamics. An early model of these saucers was built by U. S. engineers in 1942, achieved more than 100 successful test flights. That project was taken over by the Navy in wartime. Much more advanced models are now being built. "Just where present saucers are being built also is indicated by evidence now available."

Superior court testimony showed his wives to be: Ruby Smith of Greenville, Texas, whom he married in October, 1939. They were divorced May 13, 1946. He married Beulah Barclay of Denison, Texas, the same day. Their divorce became effective only last Friday. He was married to Ruth J. Olsen of Malden, Mass., Nov. 19, 1947, and to Juanita Fugate of Norfolk, Va., Sept. 4, 1948. Miss Olsen discovered he was married when she sought an allotment from his Navy pay and was informed of his Texas marriage. He pleaded guilty to marrying her illegally. His fourth wife screamed and collapsed when he was sentenced yesterday and said she would try to get work in Boston to be near him.

Valley Farmers Plowing Under Vegetable Crop

PROGRESO, Texas — (AP) — Good quality vegetables — by the hundreds of acres — are being plowed under in the Rio Grande Valley. Current market prices make them not worth harvesting. Total acreage being plowed under might conceivably reach 35,000. J. A. Oswalt, Hidalgo County agent, told the McAllen Monitor. He said, however, that plowing under three or four crops each year is not unusual in the Valley due to market variables including overplanting. Valley farmers were still unhappy, the Monitor reported. It said carrots, onions, beets, cabbage, collards and lettuce were among crops being plowed under. "When a farmer plants his vegetables he never knows what the market is going to be," said Oswalt. "But once the crops are in the ground, he's stuck with them and if the market is flooded with any one vegetable he may be out of luck on that crop." William Fitzpatrick plowed under 40 acres of onions and 30 acres of carrots. "If I harvest my onions and carrots," he said, "the price won't cover the cost of picking them and hauling them to market." N. W. Behner, farm bureau representative in Cameron County, said the vegetable deal has been one of the roughest in years. "We wonder if the mild winter in the northeast part of the

Fire Destroys Chocolate Eggs

PITTSBURGH — (AP) — Seven thousand one-pound chocolate Easter eggs went up in smoke last night. Confectioner Gus Paris could hardly move in the crowded kitchen at the rear of his store as he finished making a batch of the eggs. He looked proudly at his work and started to prepare some sugar filling for more eggs. A kettle slipped. The sugar caught fire. Eggs started to blaze. Paris was burned slightly trying to extinguish the flames before the fire department arrived. Fire Chief William H. Davis estimated the loss at \$4,000.

House Sold To Negro Is Damaged

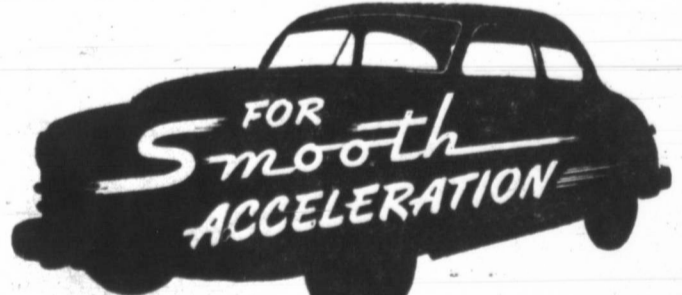

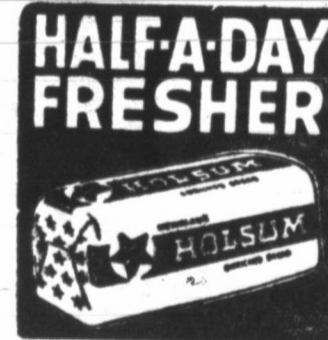

DALLAS — (AP) — A bomb last night heavily damaged a vacant two-story house in a white neighborhood, sold only hours earlier to a Negro. Police Lt. L. S. Reeves said a bomb had been thrown through a window or placed under the house. "I made the down payment and signed a mortgage for \$5,444 at seven percent interest," said Garland Mathis. "I intended to move into the house, but I don't know what I'll do now." The house is only three blocks from a section where a home occupied by a Negro family was damaged by a bomb explosion several weeks ago. No one was injured. Mrs. Jewel Harper said she had already given the key to the house to Mathis. She said she had evicted two white families from the house last Friday for non-payment of rent and decided to sell the house to Negroes. Neighbors told police that all the other houses in the South Dallas neighborhood were occupied by white families, some living in the block for as long as 25 years. An outside stairway of the house was damaged and inside floor joists and flooring were smashed. All the windows were shattered and doors were splintered. Windows of some nearby houses were broken.

Collegiate Press Speakers Named

DENTON — (AP) — Three Texas newspapermen will speak at the state convention of the Texas Intercollegiate Press Association here April 27-29. They are James F. Chambers, managing editor of the Dallas Times Herald, Phil North, assistant managing editor of the Fort Worth Star-Telegram, and Felix McKnight, assistant managing editor of the Dallas Morning News. Delegates from more than 20 colleges are expected to attend the convention, to be held on the North Texas State College Campus. N. W. Behner, farm bureau representative in Cameron County, said the vegetable deal has been one of the roughest in years. "We wonder if the mild winter in the northeast part of the

Value of Census to Business Disputed in Some Quarters

By SAM DAWSON
NEW YORK — (AP) — Business men are just as concerned with the current counting of noses as politicians. But they aren't united in their estimation of how accurate an economic picture the census takers are going to get. One view is that the three surveys now underway — population, housing and agriculture — will furnish businessmen "a veritable factual gold mine" for plotting sales campaigns and designing products, especially since it will reveal the distribution of income and the realignment of shopping areas. Another is that the census data on family income will "give a seriously distorted picture of the national market for commercial goods," and that businessmen had better stick to their own methods of ferreting out what their customers want and can or will pay for. Businessmen are paying an estimated \$30 million a year to professional but non-governmental samplers of the public's tastes and income. When Uncle Sam takes the census every ten years — ostensibly so he can redistribute the seats in the House of Representatives — he turns up a lot of facts that interest businessmen. This year he is also asking every fifth person about the family income. And here is where the dispute comes in. Today we have two views on that. Dr. Robert J. McFall, who directed the first gathering of income statistics for the Bureau of the Census in 1929, says the present plan won't work, and he lays the blame right at the door of the ladies. "Housewives cannot and will not report a true picture on either employment or income," says the doctor. Also he contends that "income figures grossly distort the market picture in favor of big cities." The other side of the picture is given by Dr. Vergil D. Reed, associated director of research for J. Walter Thompson Co., advertising agency. The income data being gathered from the housewives Dr. McFall distrusts will furnish "the most valuable economic index yet available by all geographic areas," Dr. Reed says. There are 1,186 4-H clubs in Utah with a total of 8,613 members and 1,965 volunteer leaders.

Kenny Fails To Take a Step, Balks Run Along

By KEN HEITZELMAN
Phillies' Left-Hander

Pitching for the Pirates against the Dodgers at Pittsburgh's Forbes field in 1941, I had everything under control for eight innings. Then Pee Wee Reese worked me for a base on balls to open the Brooklyn half of the ninth.

My fast ball was alive and sizzling, and I managed to strike out the next two batters. With two out and Reese still on first, I suddenly changed my strategy. Why, I'll never know.

I should have continued working on the batter, but shifted my attention to the runner. Reese, always dangerous on the bases, was the potential winning run. He worried me.

Reese was still taking a particularly long lead. A sign from the catcher, and I whipped the ball to first. But without taking the trouble to step directly toward that base.

So eager was I to catch Reese napping that I committed a balk. Reese was waved to second base.

On top of that, my balking cost me the winning run in position to score, was my Biggest Error in Baseball.

NEXT: Red Mungler of the Cardinals pitches low, and is nearly killed.

I've fashioned a few lubes before, and since I broke into the National League in 1939.

One was failing to concentrate on the hitter with two out, instead of trying to pick a baserunner off first base.

On top of that, my balking cost me the winning run in position to score, was my Biggest Error in Baseball.

LaMotta Better Polish French; Parisians Aim at His Crown

PHILADELPHIA — (AP) — Jake LaMotta better dust off his French dictionary — the boys from Paris are gunning for his middleweight crown.

The boys — better known as Robert Villemain and Laurent Dauthuille — registered impressive wins last night, one in Philadelphia and the other in Pittsburgh.

Villemain, who has made it known in French-of-course — that he intends to carry LaMotta's title back to Paris, took a unanimous 10-round decision from Philadelphia's Otis Graham.

Dauthuille, blond puncher who has been working out of Montreal since he came to his side of the Atlantic last year, kayoed Pittsburgh's Charley Affit in the ninth round of their scheduled 10-rounder.

Villemain, who weighed 158 1/2 to Graham's 156, gave the Philadelphia Negro a boxing lesson with his weaving, bobbing style. Only Villemain's lack of punching power kept the fight going the distance.

At the start, the Frenchman jabbed Graham all over the ring. Then, Villemain changed his attack, feinting Graham out of position and again before pounding him with both hands as he tried to recover.

Dauthuille showed the same sort of mastery over Affit, although the Pittsburgh middleweight displayed some form in rocking the Frenchman with a sharp left in the fourth round. Dauthuille came back stronger.

In addition, the home run gave Jackie the club lead with four. Cincinnati won the game, 6 to 5.

ATLANTA, Ga. — The Cincinnati Reds were homeward bound today — even though they have a lot of baseball ahead of them before they trot out on Crosley Field. They'll meet Atlanta of the Southern Association here tonight.

The Reds closed out their Florida training with a 6 to 5 victory yesterday over the New York Yankees but even that fancy finish didn't settle much for Manager Luke Sewell as far as a starting and regular lineup is concerned.

LAKELAND, Fla. — It looks now as though Hal Newhouser's mysterious arm trouble may prevent him from pitching the Detroit Tigers' American League opener.

The opener — against Cleveland April 18 this year — has the pitcher's private property in the past.

However, Manager Red Wolfe is figuring on Freddie Hutchinson or Art Houtteman. He says "it looks like one or the other."

WEST PALM BEACH, Fla. — There will be no dilly-dallying with pitchers who don't produce in games played by the Philadelphia Athletics this year, Manager Connie Mack said today.

"We are not going to be so patient this year with our pitchers," the 87-year-old manager said. "In the past it has been impossible for us to take a pitcher out of the game after he walked several men in succession because we would not have another pitcher to put in his place."

"This year things will be different. We still don't have as many pitchers as I would like, but I feel that the nine we will have all will prove themselves capable."

AUSTIN — Gus Zernial, whose bat is expected to help the Chicago White Sox gain an upper berth in the American League race, says his batting slump is ended.

Having been benched for several games, the big outfielder returned to the lineup with this observation: "Well, I finally found out the cure to my batting slump. I have been swinging too fast. When I waited for the ball to come to me I got good wood plus power."

NEW ORLEANS — The Pittsburgh Pirates' Bill Werle is moving into his second season with the Bucs and he doesn't give a hoot about major league baseball's traditional sophomore jinx. Werle says:

"I'm not worried about it. I feel I experienced a 'freshman jinx.' Seemed as though every time I was working, the Pirates went on a run famine.

"I feel I know my hitters pretty well now and have a good idea how to pitch to every batter. And another thing, it looks as though we might score more runs this season and that is a big help in beating any kind of a jinx."

Oilers Battle Vernon Dusters There Tonight; It's 'Homer Matney Night'

Tonight is "Homer Matney night" in Vernon, when the fans of Vernon will honor the fine Pampa Oiler outfielder. Matney is a native of that part of the state, having starred in High School athletics for the Lions in his younger days. The Oilers will face the Dusters of the Longhorn League in what will be the first night game of the year for the local club and only the second contest they will have played this season. Last Sunday they defeated Amarillo's Gold Sox 8-0 at Amarillo.

The Dusters handed the Ballinger Cajs two defeats last weekend, 8-2 and 13-5. One of these was an ace light affair. Game time tonight is 8 o'clock.

The starting lineup for tonight's game will be the same as started against Amarillo with the exception of the battery. Jim Martin, slugging catcher, had his tonsils removed yesterday morning and will be out of uniform for about a week. Starting in place tonight will be Jerry Squires, rookie receiver from Wichita, Kans.

Drawing the starting pitching assignment tonight will be George Payne, strong armed right-hander. He will be followed by lefthander Johnny Martin and righthander Ray Cassidy.

The rest of the lineup will see Bob Rose at second, Ernie Velasquez at shortstop, Matney in centerfield, Virgil Richardson at first base, Joe Fortin in rightfield, Don Ricketson at third base and Wally Dunkovich in leftfield.

Yesterday the Oilers held a brief workout and a long discussion period. The field had been watered down Sunday during the team's absence and hadn't dried off sufficiently to permit playing on the entire field. So just one round of batting practice was taken after the long discussion of signals and other matters.

Throwing batting practice yesterday were lefty Bill Garland and Merlin Hubbard. Hubbard was loosening up his arm after throwing three fine frames at Amarillo Sunday. Garland looked great while pitching almost 45 minutes of batting. He appeared well loosened up and had his whip arm pouring the ball through the middle.

The club's next game will be Thursday afternoon when it opens the home exhibition season by playing the Weatherford, Okla., Teachers here at 2:30.

Little SWC Track Meet This Week

CORPUS CHRISTI — (P) — Texas, Rice and Texas A&M meet here Saturday night in their annual "Little Southwest Conference" track and field meet.

The triangular meet always establishes the favorite for the conference championship because it is between the three teams that almost always finish one-two-three.

A tight fight between Texas A&M and Texas for first place is indicated with Rice doing better to settle the issue between the top two teams.

Texas boasts marked superiority in the sprints with all three schools strong in the field events and A&M tops in the distance races. Texas has the best 440-yard relay team but Rice is the kingpin of the mile relay.

Two special relay events have been added to the regular 16-event slate. They are between Corpus Christi, Galveston and Beaumont 440-yard and mile relay teams that have been scrapping it out in every meet.

In the Border Olympics, Oleander Relyas and Texas Relyas Corpus Christi, Beaumont and Galveston each won once in the sprint relay but Galveston won all three times in the mile relay.

Several records are due to fall. The mile relay mark of 3:19.3 is almost certain to be smashed by Rice and Texas A&M. Charley Parker of Texas should eclipse the record of 21.3 in the 220-yard dash.

Whether they decide to continue as a separate unit of the PGA under Schneider's guidance in revolt-like fashion remains to be seen.

Longhorns Lead SWC Baseball

(By The Associated Press) One of two leaders in the Southwest Conference baseball race right now is the University of Texas, and that sounds familiar.

Texas knocked off Texas Christian University twice last week in opening its 1949 season, 5-4, 5-4.

To Revolt or Not to Revolt Is Chief Question Before Top Golfers as PGA Fires Schneider

Revolt Won't Damage Colonial Golf Tournament

CHICAGO — (AP) — The Professionals' Golf Association awaited today the aftermath of its firing of George Schneider as tournament bureau manager. Open revolt of headline golfers from the parent organization may follow in the wake.

Schneider came to Chicago yesterday as a player-representative to meet with PGA officials including Joe Novak, president, Horton Smith, secretary, Tom Crane, executive secretary; Harry Moffatt of Toledo, treasurer and several members of the advisory tournament sponsors' group.

Schneider was fired outright at the close of the session, reportedly because he negotiated the signing of contracts for the summer tourney tour without complete PGA authorization. Officials said he was given a chance to resign. But apparently Schneider, a playing pro from Utah who was named bureau manager in 1946 succeeding Freddie Corcoran, stood his ground until being ousted "without reservation."

"At least the pressure is off," Schneider explained. "I am no longer an employee (at \$10,000 per year) of the PGA. I can now stand as representative of the tournament players. My dismissal is not a satisfactory answer to the player problems."

It is questionable today just how much force Schneider has behind him. The test is yet to come. As player-representative, he presumably is backed by a "governing body" of stars who seek legislative power of tournament golf through sponsorship contract signing, control of funds and other administrative functions now dictated by PGA delegates, consisting of country club pros representing 3 districts in the organization.

The playing group includes virtually all the title and money-winning big shots of the game—Sam Snead, Lloyd Mangrum, Ben Hogan, Cary Middlecoff, Clayton Hearner, Johnny Palmer and others.

Whether they decide to continue as a separate unit of the PGA under Schneider's guidance in revolt-like fashion remains to be seen.

WARREN'S WARMUP

By Warren Hesse—News Sports Editor

QUESTION: What is a "squeeze play"?

OILER CATCHER Jim Martin is resting comfortably in the hospital after having his tonsils removed yesterday morning. When looking in on him yesterday afternoon, we found him being a model patient, arguing with the nurses over taking his medicine but winding up doing as he was told. He will be out of uniform for about a week but should be ready to go again soon after the season gets started.

Tonight the Oilers go to Vernon to give Homer Matney, their glue-gloved centerfielder, a night in his home town. Matney went on down to the old home town yesterday afternoon, presumably to visit his family and friends. But more than likely he was out to boost a little business for Matney night.

The Texas Interscholastic League recently sent out a questionnaire to high school coaches of the state, asking five questions. The questions and the replies received were as follows:

1. Do you approve of the 19-year, 10-semester rule? Yes—714; No—234. This vote indicates that the coaches think that the additional year of eligibility would improve the athletic situation and allow a few more boys to participate in Interscholastic League sports activities. The negative votes probably came from the schools who had nothing to gain by the added year.

2. What percentage of your boys would be left out of athletics under the rule? Average answer—4.2 percent.

3. Do you favor spring football training for the Class A schools? (Only Class A coaches voting.) Yes—190; No—186. Last year Class A voted not to participate in spring football and it appears that not too many of the coaches have changed their minds by the slim margin in the voting. The coaches are pretty well divided on this point themselves.

4. Do you favor reclassification of high schools in the Interscholastic League? Yes—786; No—174. So, by a wide margin, the men who coach the athletic teams would favor having the schools reclassified and a different setup established, which is probably the most pressing problem confronting the league at the present time. The present setup may ruin athletics for some schools who just can't win a single sporting event because they are forced into a class too strong for the school.

5. Would you favor this type of classification? Schools with 1,000 or more students... A.A. Schools with 500 to 1,000 students... A. Schools with 200 to 500 students... A. Schools with less than 200 students... B.

Replies were as follows: Yes—385; No—382. So, despite the fact that the coaches wanted a change in the classification of the schools, the one that was offered wasn't satisfactory. Instead there was a strong written campaign on this issue that brought 316 similar replies out of the 582 negative votes. This is the way the writers want the setup:

Schools with 800 and up students... A.A.A. Schools with 400 to 800 students... A.A. Schools with 200 to 400 students... A. Schools with less than 200 students... B.

No City Conference. The fact that 316 coaches cast identical ballots in this written campaign would indicate that they were "coached" from somewhere.

Personally, it appears that the divisions selected by the coaches themselves look the best. Under the setup, the little schools that don't have the supply of boys with which to work wouldn't be caught playing a school two and a half times as large as would be possible in Class A under the league's proposed reclassification system. In the larger schools where the spread should be a range widest due to the fact that these

schools have more manpower from which to select their athletes and consequently should be able to cope with this spread easier than in the small schools.

This reclassification problem has been haunting the league for several years now and undoubtedly something will be done, possibly by the start of school next fall, but more likely not until the following season.

The above vote is not official in any respect. It was just a feeler questionnaire sent to coaches all over the state by the Interscholastic League to get an opinion of how the coaches felt on these subjects. I hope and feel that the 19-year, 10-semester rule will pass when voted upon. This will aid several boys at Pampa High School who currently will not be able to play in athletics their senior year because they will be too old.

ANSWER: A "squeeze play" is an attempt to score a runner from second or third by means of a bunt.

Solons Headed For Spring Drills

WASHINGTON — (AP) — About 20 congressmen who played in the Democratic-Republican baseball game here last summer are scheduled to leave for Florida next Monday for what is billed as a week of "spring practice." The trip will be under the invitation of Rep. Herlong (D-Fla.) during the Easter recess of the House. It will be a mixed gathering of Republicans and Democrats.

Senator Cain (R-Wash.) may represent the Senate on the trip. The itinerary outlined by Herlong doesn't leave much time for baseball practice. But Herlong said "the congressmen have worked hard this session and some Florida sunshine and orange juice won't do them any harm."

Advice to Diabetics

Beware of patent medicines advertised as cures or remedies for diabetes! They are not reliable. Diabetes was first recognized about 1552 B.C. This was about the time of Moses, or 200 years before the birth of King Tut. Ever since that time, at intervals, some promoter has come up with a cure. A dependable treatment for diabetes was discovered in 1921. It will not cure the disease, but it will enable the diabetic to live a normal life. The discovery is known as Insulin. Your doctor knows all about it. If he finds it necessary in your case, we can supply it in just the right strength.

Perkins Drug

TALKING IT OVER—Manager Grover Seltz said "You don't have to publish this in the paper, because everybody knows what our signals are anyway," and then he went on to tell the boys what signals would be used this season. The long discussion period was held yesterday morning at Oiler Park as the team waited for the hot sun to come out. (News Photo and Engraving)

Sports Round-Up

By HUGH FULLERTON, JR. NEW YORK — (AP) — Very Useful Reliable Source (a Mr. Useful citizen at times) pops up with the red hot rumor that the University of South Carolina and Clemson are due to feed the sting of the NCAA sanity code. . . Mr. Source says they've already been notified that they're not in compliance and at least one of them will reply that it doesn't intend to change. . . Stanley Harris, son of Manager Bucky of the Senators, is a member of the University of Virginia baseball squad and also is on the dean's list as a student. Like his pop, he's tabbed as a good brain and glove man but not so hot with the wood. . . Chuck Drazenovich, Penn State's new intercollegiate heavyweight champion, may wind up doing some blocking for his college teammate, Francis Rogel, on the Steelers. Chuck was drafted by Detroit but is looking for a trade to Pittsburgh and Francis is just waiting for Art Rooney's horses to win a few more races so Art will boost his salary offer.

THAT'S CHIVALRY, SON golfers on the pro circuit are getting a chuckle out of an incident at San Antonio when Capt. Andy Anderson, former Oklahoma U. golfer, turned up for a tournament. . . Andy, who can hit a mile but usually in the wrong direction, sprayed one into the gallery. . . An indignant spectator confronted him and asked: "Do you realize, sir, that you almost hit my wife?" . . . Anderson politely indicated Mrs. A., who was following him around, and replied: "There's my wife. Have a shot at her, sir."

MONDAY MATINEE — Times have changed here: Eddie "Aracero" rode two winners at the Jamaica opening and the fans didn't boo him. . . After the second, Eddie, who had been vacationing, gasped: "The chart note should read 'horse won easily, rider all out.'" . . . You may hear rumors because Hooks Mylin, a football coach without a team, turned up at Penn State the day the trustees were meeting to consider spraying out the things, the athletic situation. . . But while they were conferring, Hooks was watching the boxing tournament. . . Two leading candidates for the U. of Illinois golf team are Pete and Fred Fletcher. Their father, Ralph, is the coach.

DOTS ALL, BROTHERS — Did you know that when the Mississippi Southern and the Delta State basketball teams split their two regular-season games, the Mississippi Legislature passed a resolution requiring them to meet a third time for the "unofficial" state title? . . . The game had to be played in Jackson, the state capital, but there's no record that the legislators demanded free tickets. . . And Michigan State's Duff Daugherty insists he coached at one school where a football player came up with a set of grades including four F's and one D. His father promptly dressed him down for devoting all his time to one subject.

Jaycees Battle Wheeler Tonight — The Pampa Jaycees will play the Wheeler Jaycees tonight in a volleyball game at the Senior High School. The game is scheduled to start at 7:30. . . The Jaycees have been working out for the past two months. . . Anchoring the Pampa club will be Pinky Simms, Roy Taylor and Floyd Watson.

Borger Gassers Release Pampan — Jimmy Hyatt, Pampa High School graduate who reeled a trout with the Borger Gassers this spring, has been dropped from the roster, Borger baseball club officials said. . . Hyatt was an outfielder with the Pampa Harvesters, who tried for an infield position with the club. . . No reason for the action was given immediately. . . The annual shrimp catch in American waters is about 180,000,000 pounds a year.

Derby Hopefuls Test Tomorrow

NEW YORK — (AP) — The process of elimination for Kentucky Derby candidates in this sector begins tomorrow at Jamaica in the \$20,000 added, six furlong Experimental Handicap No. 1. Tom Gray's Oil Capitol, current Derby favorite at 7 to 2, and William Goetz's California flash, Your 'Host, already are in Louisville, where the big blue grass event will be run May 6. But numerous other stars will be tested at Jamaica tomorrow, as well as in the Experimental No. 2 at a mile and a sixteenth on April 15 and the Wood, same distance, April 22.

Heading the group now in New York are C. T. Chenery's Virginia-owned-and-bred Hill Prince and Robert J. Kleberg's Middlebrook, both stabled at Belmont Park. Hill Prince has been pointed for tomorrow's fixture and if Middlebrook goes, it will be their first clash. Neither has started this year. . . Other likely starters include Greentree's 1949 Belmont Futurity Winner, Cullotine, which made his sophomore bow Saturday at Jamaica by winning an overnight sprint (122). . . Alfred Vanderbilt's Bed o' Roses, juvenile filly gone last year (119). . . Brookmeade's More Sun (122) and Greek Ship (120). . . James Cox Brady's Casemate (116). . . Each January, John B. Camp-

bell, the Jockey Club's handicapper for all New York tracks, issues his Experimental weights for the new three-year-old crop, based on their juvenile form. This year's list finds Middlebrook on top with 126 pounds, followed by Hill Prince and Oil Capitol, bracketed at 124.

Applying Celebrates — SAN ANTONIO — (AP) — Luke Appling, a major league ball player for years and years and years, isn't as old as the 70 candles on his birthday cake yesterday made out. That was 42 candles too many.

His Chicago White Sox teammates gave the veteran infielder a huge cake on his birthday. Walter Pierce, another Sox celebrant, gave Appling a cake, too, but it only had one candle.

Television network programs are carried both by microwave relay and by special telephone cable known as coaxial.

Bauer used the gifted Marlene, just turned 16, as a come on for Alice, who is six and a half years older and didn't take to the game at first. The attention given Marlene spurred Alice on. The war put Bauer's Aberdeen course out of business in 1943, so he remodeled an old car and drove his little family to Long Beach, Calif., where he obtained employment in an aircraft works and conducted a driving range.

He was teaching at a North Hollywood driving range until more recently, when he decided to have the kids, as he calls them, play out of the oil center of Midland, Tex., halfway between Dallas and El Paso. He was the professional of movie stars, Ann Blythe and Robert

Father and Teacher of Famous Bauer Girls Played Golf for the First Time at Age of 30

By HARRY GRAYSON NEA Sports Editor

ORMOND BEACH, Fla.—(NEA)—David Bauer is a more unusual story than his phenomenal daughters, Marlene and Alice. Dave Bauer, a Russian immigrant, didn't know what golf was until he was 30.

Invited to play at Eureka, S. D., he was fascinated by the Royal and Ancient, read of the masters, applied engineering principles. The hotel and restaurant he was running became secondary, golf his life's work.

A year after his first round, he built a nine-hole course and was teaching. In 1936, Bauer, a balding, compactly-built little man of 54, sold his business in Eureka, and bought a course in Aberdeen, S.D.

Bauer raised his pretty daughters to be exactly what they are. He contends that a child can be taught to play with a golf club, baseball bat, tennis racket, or any piece of athletic equipment, in place of a toy. Bauer made a little driver for Marlene, and she was blocking traffic driving from the 10th tee of the Aberdeen layout when she was three and a half years old. "The tee was by the highway," he beams, proudly, "and people in passing cars stopped to see the little girl with the perfect swing. She hit the ball 40 yards into a circle seven feet in diameter."

Later Papa Bauer built Marlene a miniature five iron and putter.

Bauer used the gifted Marlene, just turned 16, as a come on for Alice, who is six and a half years older and didn't take to the game at first. The attention given Marlene spurred Alice on. The war put Bauer's Aberdeen course out of business in 1943, so he remodeled an old car and drove his little family to Long Beach, Calif., where he obtained employment in an aircraft works and conducted a driving range.

He was teaching at a North Hollywood driving range until more recently, when he decided to have the kids, as he calls them, play out of the oil center of Midland, Tex., halfway between Dallas and El Paso. He was the professional of movie stars, Ann Blythe and Robert

SWING SISTERS — Marlene, left, and Alice Bauer are golf's magnetic attraction.

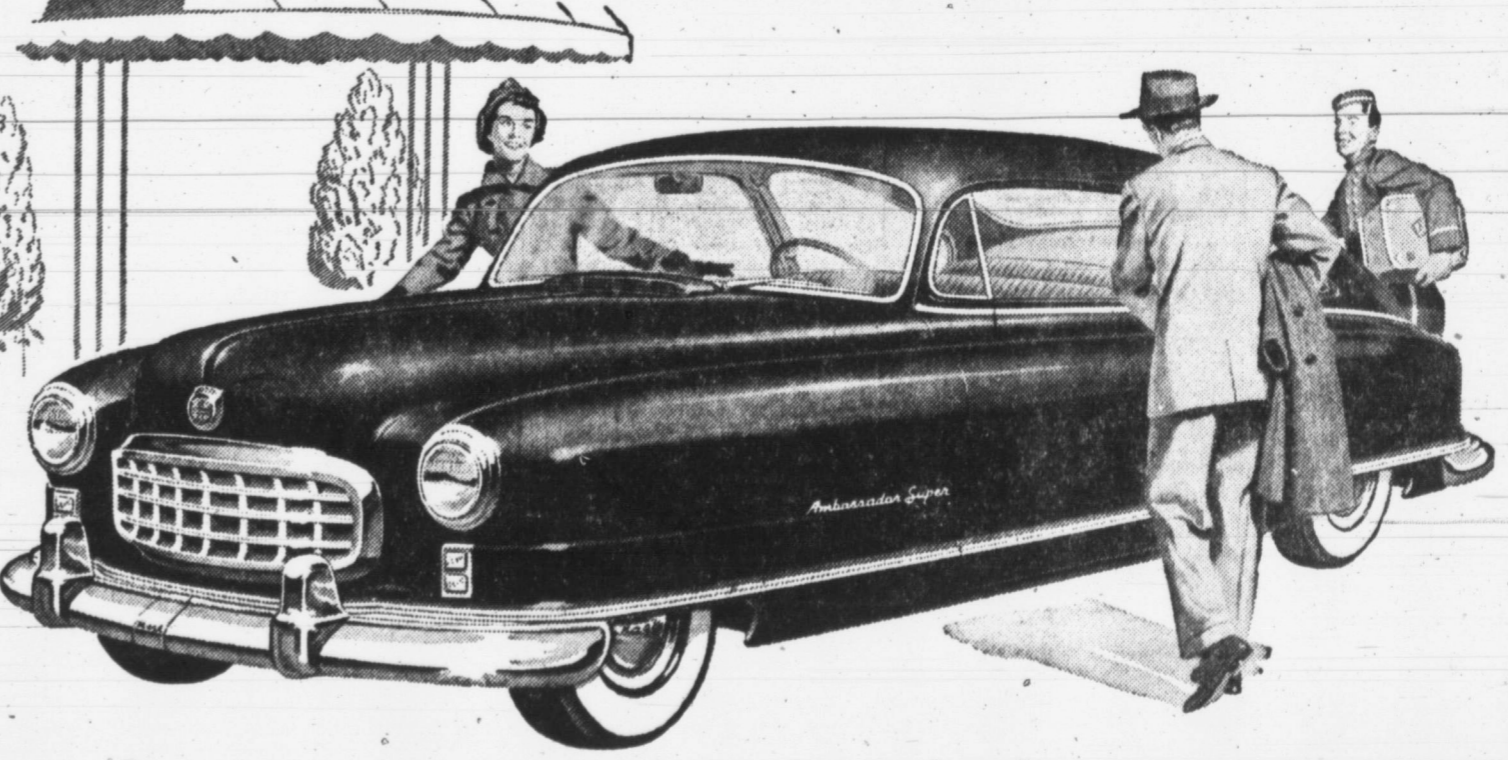

7-5 Bass Wins in Fishing Contest

DENISON — (AP) — Tom Steen, Jr., came off top winner in Lake Texoma's fishing contest. Steen's seven-pound, five-ounce black bass caught Saturday night gave the Denison fisherman the big prize. Another bass he caught, six pounds 12 ounces, shared second with Ed Malouf of Dallas. Crappie title went to E. F. Cherry of Dallas with a three-pound four ounce catch.

Naomi Brill of Oklahoma City led the women crappie anglers with a two-pound, 12-ounce fish. Mrs. H. H. White of Paris caught a two and one-half pounder.

About 120,000,000 pounds of crabs are caught in American waters each year.

You Can't Buy a Better Car Than a Nash Ambassador!

Not in any other fine car at any price can you get what a 1950 Nash Ambassador offers!

You can see it's one of the largest fine cars. Look inside! The Nash Sky-Lounge interior is a foot longer than most—with room for exclusive Twin Bed arrangement. Its luggage compartment is 28 1/2 cubic feet—double the luggage space of some fine cars!

Nash alone has Airflyte Construction—the welded body-and-frame that's double-rigid, free of squeaks and rattles. Drive it! Only Nash offers top High-Compression performance in a valve-in-head engine that uses regular gasoline*. No other, except the world's costliest imported car, has a 7-bearing, 100% counter-balanced crankshaft. No other—only Nash—has the streamlined design that ends wind roar. No other, the smoothness

and balance of an Airflyte ride . . . with all four wheels cradled by soft coil springs.

No other—only Nash—offers an Airliner Reclining Seat . . . plus the safety and comfort of Weather Eye Conditioned Air . . . plus the luxury of a curved, one-piece windshield.

Compare upholstery! Compare equipment! And, above all, compare price. You will find that America's Most Modern Fine Car, even in its finest Custom model, costs as much as a thousand dollars less than others. See your Nash dealer and get the thrill of an Ambassador ride. No other car will then content you!

Hydra-Matic Drive The best of all automatic transmissions, with exclusive Nash Selecto-Lift Starting, is available as an optional extra. There's no clutch, not even a starter button. Just lift a lever and go!

*In the recent Grand Canyon Economy Run, the 1950 Nash Ambassador averaged 26.4 miles a gallon, using regular gasoline.

THERE'S MUCH OF TOMORROW IN ALL NASH DOES TODAY

None Injured As Fast Train Is Derailed

CINCINNATI — (AP) — The "Powhatan Arrow," fast Norfolk and Western Railroad passenger train, was derailed at the east edge of Cincinnati last night but not a car overturned.

There were no serious injuries but approximately 25 passengers were shaken up.

The train was coming into Cincinnati from Norfolk, Va., when it left the tracks.

The locomotive and all five coaches jumped the rails and the front coach skidded to a stop only about six feet from a high embankment which led down to a stream.

Although the cars did not overturn there were a couple which were tipped at an angle. The locomotive and tender broke away from the rest of the train and came to a stop at least 75 feet ahead of the first coach. The accident tore up several hundred feet of Pennsylvania Railroad tracks.

The first ice plant in the U.S. was at New Orleans.

Philippines Cuts Pleasure Travel

MANILA — (AP) — The Philippines clamped down today on pleasure travel overseas in order to save dollars.

The Central Bank said foreign exchange may be taken out of the country by Filipinos and alien residents going abroad only for business purposes or to receive specialized medical treatment.

During the past month, bank officials said, travelers carried \$300,000 out of the islands, adding seriously to the drain on Philippine foreign exchange reserves.

Russia to Continue U.N. Meet Boycott

MOSCOW — (AP) — The Communist party newspaper Pravda made it clear today that Russia has no intention of ending her U.N. boycott as long as Chinese Kuomintang (Nationalist) representatives continue to sit in the United Nations.

The newspaper, in a dispatch from New York, declared the United Nations was in a state of "paralysis and desolation." It blamed the stalemate on the "Anglo-American bloc."

SPEAKER — Paul Cyr will address the Top o' Texas Knife and Fork Club at 7:30 p. m. today at the high school. He will speak on "Adventures of an American Spy." The "Cloak and Dagger" boy under "Wild Bill" Donovan, Cyr will describe his narrow squeaks in France, Germany and China during World War II.

Video May Combat Unwanted Orators

BOSTON — (AP) — Television may be used to combat the expanding of un-American doctrines, on Boston Common.

The city council figures that televised baseball and other events would take the play away from soap box orators.

They are now allowed to set forth their theories from Parkman Bandstand.

"A television program," Councilor Francis P. Tracey said, "would eliminate this condition in an effective and attractive American way."

Divorce Is Granted Jack Carson's Wife

LOS ANGELES — (AP) — Kay St. Germain, singer, has her freedom from comedian Jack Carson, plus \$50,000 cash and \$15,000 a year tax free, to boot.

Knights of Pythias Will Meet Tonight

Pampa Lodge 480, Knights of Pythias, will hold a special meeting at the Castle Hall tonight at 7:30. George Neef, chancellor commander, urges all members to be present.

Over 80,000 Donate Work to Uncle Sam

WASHINGTON — (AP) — The ranks of those who work without pay for Uncle Sam are increasing again.

The Civil Service Commission said that 82,311 persons are donating their services to the federal government.

This compares with a wartime peak of 334,000 in July, 1945, and a postwar low of less than 25,000 in 1947.

Workers giving their time include volunteers helping hospitalized veterans, clerks, advisers, etc., in the Selective Service system, weather observers, makers of public health reports and deputy game wardens.

KITIA GREEN BUGS—Parathion, an insecticide used by the Funk Aviation Co., Hominy, Okla., is sprayed on a portion of a wheat field on the Roy Tinsley farm, three miles east of Pampa on the Mobeetie Highway. The chemical proved to be almost 100 percent effective in killing green bugs, which are destroying Panhandle wheat crops. The use of parathion is recommended by Ralph Thomas, Gray County agent. (News Photo and Engraving)

JOHNSON

(Continued from Page 1)

from 44 to 46 modern groups. Unless additional money is made available, Vinson said the nation would have only 42 modern groups by 1956. And the present bill, he added, "leaves a deficiency in naval aircraft procurement of 1,349 planes."

Veteran of 36 years experience in military legislation in Congress, Vinson laded out caustic criticism and challenges — some left-handed praise.

His principal target was Secretary of Defense Johnson.

"The issue is clear cut," Vinson said. "It is whether the Congress will say what kind of defense the nation will have, or whether the creature of the Congress, the secretary of defense, Mr. Louis Johnson, will tell us what kind of defense he will let the Congress have."

Declaring that a vote for an additional \$200,000,000 for the Air Force means that Congress fulfills its "constitutional responsibility" to provide for the common defense, he added:

"A vote against it means that Johnson tells the Congress the character of defense he will let the nation have."

"I maintain that we must buy the defense the nation must have, regardless of cost. I say that enemy capabilities, not dollars, determine our defense needs."

Vinson said Johnson deserves commendation for his drive "to squeeze the fat out of public expenditure." But he added that "Mr. Johnson's economy scalpel has not only carved away some surface fat but has cut — deeply in some areas — into sinew and muscle of the armed services."

Vinson added it was an "open secret" in Washington that Johnson requested a considerably smaller budget for fiscal 1951 beginning July 1, than was decided upon by President Truman.

GUILL

(Continued from Page 1)

things that more than a million other Americans just like me fought for overseas."

A resident of the Panhandle for 31 years, Guill is married to the former Marjorie Buckler of Pampa. They have one child, 19 months old. Guill is a member of St. Matthews Protestant Episcopal Church, the American Legion, Veterans of Foreign Wars and a director of the Pampa Rotary Club.

CONNALLY

(Continued from Page 1)

plied names, but added that would be expensive and might take a long time.

One of the persons mentioned by McCarthy, Ambassador at Large Phillip Jessup, added yesterday to his previous denials of what the senator has had to say.

Jessup said it was a "misstatement of fact" for McCarthy to have said that Jessup was in charge of the American council of the Institute of Pacific Relations when the organization received donations described by the senator as Communist in origin.

McCarthy had demanded that Jessup explain the acceptance of \$2,500 donations in 1942 and 1943 from Frederick A. Vanderbilt Field, whom he called a Communist.

Jessup said the chairman of the council in those years was Dr. Robert Gordon Sproul, president of the University of California. Jessup said the men on the council "would never have accepted payments from Mr. Field or anyone for selling the Communist party line." Neither would I, if I had been in control.

WORLEY

ate Justices Tom Clark and Sherman Minton of the U. S. Supreme Court, U. S. Attorney General J. Howard McGrath, Judges Luther A. Johnson and Eugene Black of the U. S. Tax Court, both of whom formerly were Texas congressmen, Senator Anderson (D-NM), Texas Attorney General Price Daniel and two of his assistants, Dow Herd of Waco and Joe R. Greenhill of Houston.

Detachments of U. S. Marines formed part of Commodore Perry's expedition to Japan which opened the doors of the Mikado's realm in 1853-54 to commerce.

Collision Is Fatal To Wife of Soldier

BEAUMONT — Mrs. Edna Willis, 28, was killed near here last night when her car collided with a farm truck.

She was the wife of Staff Sgt. Legette Willis, stationed at Ellington Field near Houston but now taking a training course in Las Vegas, Nev.

Mrs. Willis' sister, Mrs. Edith Dempkowski of Vidor, was seriously injured.

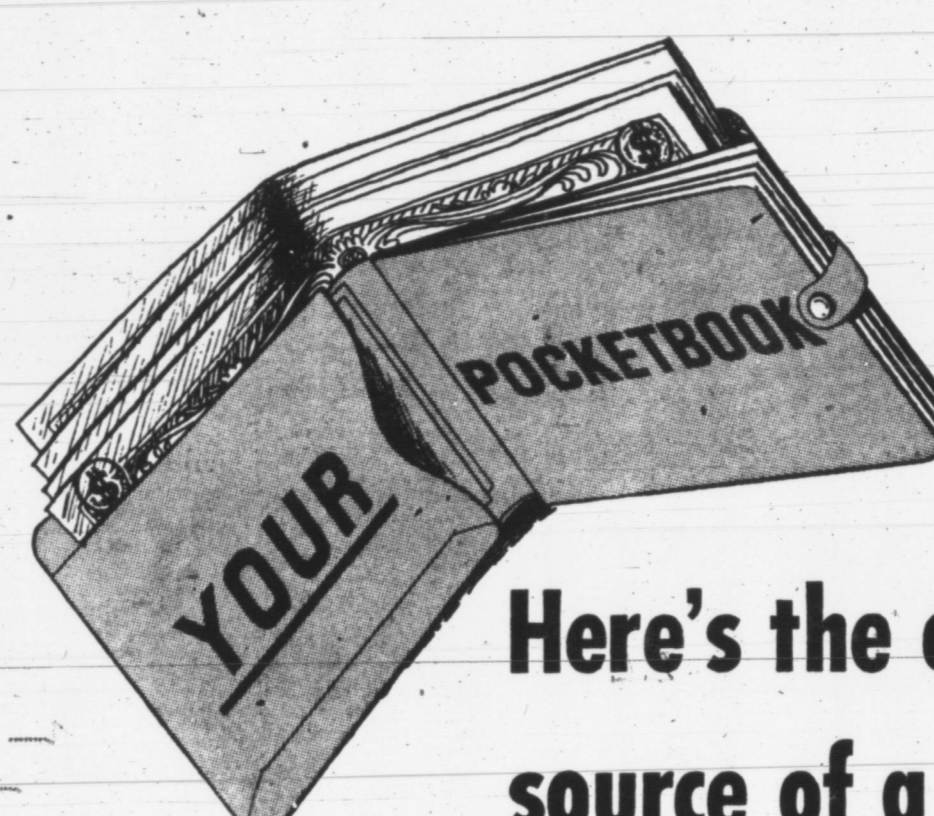

Western European Calorie Total Rises

WASHINGTON — (AP) — The Economic Cooperation Administration figures that the average Western European now eats at the rate of 2,800 calories daily.

The U.S. average is about 3,300. ECA said the European diet is heavy on the bread-and-potatoes side, with meats, fats and sugar still scarcer than they were before World War II.

Shipping Line Given Approval of Service

WASHINGTON — (AP) — The ICC's Bureau of Water Carriers has recommended giving Luckenbach Gulf Steamship Co. permission to add Pensacola, Fla., and Corpus Christi, as regular ports of call on its Pacific Coast-Gulf of Mexico service.

Here's the only possible source of a fourth-round increase in telephone wages

If telephone union leaders are successful in their campaign for a fourth-round increase in wages, the money to meet their demands must be reflected in your telephone bill.

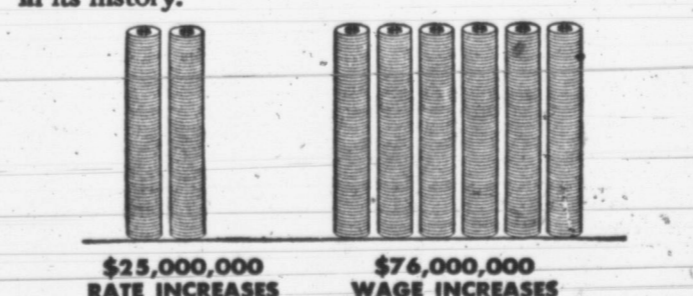

The company's position is this: It is in the public interest to pay fair and reasonable wages. It is not in the public interest to increase wages which are already fair and reasonable. If a wage increase were justified, the employees would be entitled to it even though it became necessary for the company to seek rate increases beyond those already needed.

There is simply no justification for a wage increase at this time. Wages and working conditions compare favorably with those in other jobs in the community that require similar skills and experience.

COST OF LIVING UP 66% Since Jan., 1941	BASIC TELEPHONE WAGE RATES UP 94% Since Jan., 1941
--	--

Basic wage rates have more than kept pace with the cost of living. They attract and hold the capable people it takes to give you good service. Employment turnover in the telephone company is less than half the average rate for all manufacturing industries.

But telephone rate increases in the company's territory lag far behind rising operating costs and have even failed by a wide margin to cover the current cost of wage increases granted during and since the war. This has been a big factor in pulling the company's rate of earnings down to the lowest level in its history.

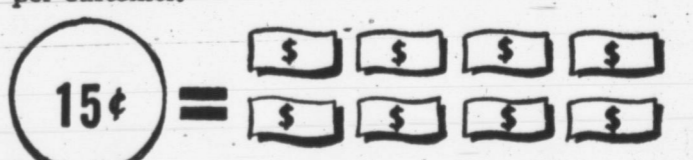

Yet we are faced today with the job of raising millions of dollars in new investment money to meet the growing telephone needs of the communities we serve. This we can hope to achieve only with the

prospect of improved earnings — which means that higher rates are already a necessity.

Any fourth-round wage increases would mean rate increases in addition to those now needed. Premium wages for telephone work — above community levels — would place an unnecessary burden on telephone customers.

An increase of one cent an hour would add one and a third million dollars a year to present telephone costs. Union leaders' demands for 15¢ an hour would add \$20,000,000 — an average of \$8 a year per customer.

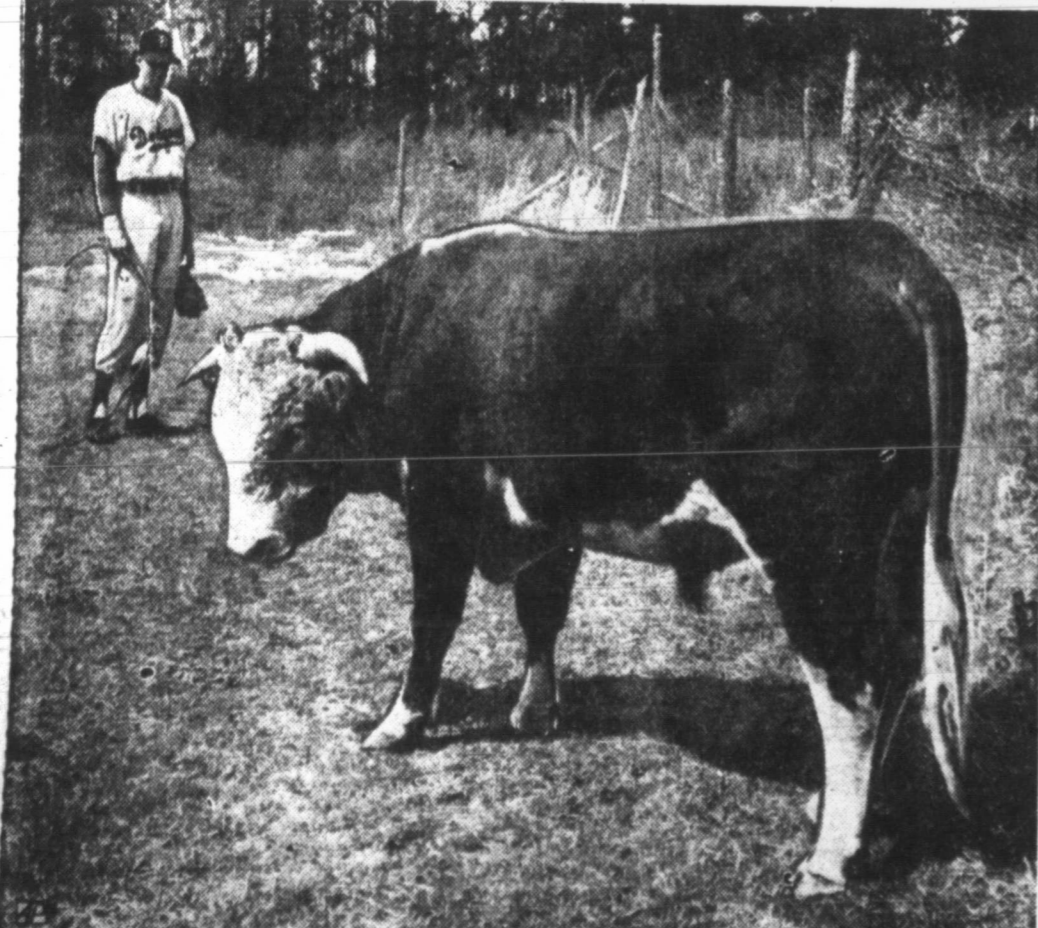

AN HOUR \$8 A YEAR PER CUSTOMER
To grant such an unwarranted wage increase would not be consistent with our obligation to furnish the best possible service at the lowest possible cost.

HOW DO THESE EARNINGS LOOK TO YOU?

The real test of telephone wages is how they compare with those paid in the same communities for jobs requiring similar skill and experience. Here are average weekly and annual earnings of telephone people.

FULLY EXPERIENCED PLANT CRAFTSMEN	\$75	\$3,915
(Such as Repairmen)	A Week	A Year
Plant craftsmen with five years' service: \$61 a week, or \$3,184 a year. One year's service: \$42 a week, or \$2,192 a year.		
FULLY EXPERIENCED OPERATORS	\$45	\$2,349
	A Week	A Year
Operators with five years' service: \$42 a week, or \$2,192 a year. One year's service: \$38 a week, or \$1,983 a year.		
FULLY EXPERIENCED BUSINESS OFFICE WOMEN	\$47	\$2,453
(Service Representatives)	A Week	A Year
Business Office women with five years' service: \$44 a week, or \$2,297 a year. One year's service: \$37 a week, or \$1,931 a year.		

The above figures include basic wages for a 40-hour week plus extra pay for overtime, night, Sunday, and holiday work.

Stubby's 1,000-Mile Journey Makes Mistress Happy

COLORADO SPRINGS — (AP) — The old sparkle is back in Della Shaw's eyes.

That's the only way the 15-year-old girl could show Stubby she was glad he's back home. She's been an invalid since birth and can't talk.

Maybe she's the reason the six-year-old mongrel dog trudged 1,000 miles from Illinois to come home. It took him a year and a half, but Stubby made it.

"We know she's happy," said the girl's grandfather, Harry McKinzie. "We can tell by the look on her face."

McKinzie, a grain buyer, his wife and granddaughter moved to Indianapolis in 1948. They stayed four months and decided to return here. Somewhere between Indianapolis and Decatur, Ill., on Sept. 22, Stubby jumped out of the moving truck. McKinzie missed him when he stopped at Decatur.

Stubby, who gets his name from his stub tail, was Della's pet. McKinzie asked the help of newspapers and the Decatur Humane Society. He returned once when the society thought it had found Stubby, but it was the wrong dog.

"We just couldn't buy another dog," he said. "We never lost hope he might show up."

Last week, as McKinzie walked past a house where he used to live, he saw Stubby sitting on the sidewalk. His footpads were swollen. He was bloated from hunger. His hide was disheveled and dirty. He hardly knew his master.

McKinzie shouted "Stubby," picked him up, and took him to the house where the family now lives.

Stubby is getting three cans of dog food a day and lots of sleep. "Pretty soon he'll be like his old self," McKinzie said, "but we have to watch him. Sometimes he tries to run back to our old house."

Sooner Town Blue Law Fuss Appeal Slated

OKLAHOMA CITY — (AP) — Disgruntled Bethany citizens are clamoring for a state supreme court fight to oust school officials who they claim force Nazarene doctrine on students.

District Judge Baker H. Melone dismissed the suit Friday as half of Bethany jammed the courtroom. He ruled the teaching of abstinence from alcohol and tobacco does not constitute religious instruction.

The suit, brought by a citizens committee headed by William E. Bleakley, charged violation of religious freedom guaranteed in the First and Fourteenth Amendments to the U.S. Constitution. It asked dismissal of the superintendent, principal and three teachers for permitting the alleged teachings.

Bleakley said Saturday the case definitely would be appealed to the state supreme court. He said the citizens committee members were strongly in favor of continuing the appeal. "They want to fight this thing through," he said.

A forbidden "coronation kiss" touched off the battle. For a kiss is not just a kiss in blue-lawed Bethany, a town of 2,500 10 miles west of here. It's the object of statutes which forbid the act in public.

Wearing of shorts in public and sale of beer and tobacco are also taboo. Most of Bethany's citizens are members of the Nazarene Church.

The religious dispute snowballed after Riddell Riggs planted a kiss on Queen Charlotte McLean at a high school basketball queen coronation Feb. 17.

The next day 30 students walked out, claiming they feared reprisals because of anti-kissing rules in the church and school. Six ring leaders were suspended for a short time.

Then irate parents took up the fight, seeking relief from alleged influence by the Nazarene Church.

In Friday's testimony Mrs. D. R. Close said she taught Loyal Temperance Legion classes after school. The LTL is a junior organization of the Women's Christian Temperance Union.

Mortician's 'Corpse' Very Much Alive

DAYTON, Ohio — (AP) — Guy Magetti, a funeral home operator, called police to report he had a "dead man" in his service car about whom he knew nothing.

When police arrived, Magetti pointed to a zipped-up rubber bag — the type in which morticians place corpses. It obviously contained a body. The officers opened the bag.

It didn't contain a corpse. For up sat Aaron E. Talley, 40, of Dayton, who blinked his eyes and asked: "Where am I?"

He was clad only in his underwear. His clothing was scattered in the garage in which the service car sat.

Police booked him on an intoxication charge.

But Magetti still was bewildered today; how, he wants to know, could a person crawl into such a bag and zip himself in? So far, his only explanations practical joking friends.

Pope Suffering Pain, Fatigue

VATICAN CITY — (AP) — Suffering from pains in his right leg and foot and from fatigue, Pope Pius XII took a rest from formal activities over the weekend.

Vatican sources noted the 74-year-old pope retired to his private apartment immediately after his general audience Saturday, instead of descending from his portable throne to mingle, as customary, with the Holy Year pilgrims.

The pope has been suffering from hardening of the arteries in his right leg for some time.

Acquitted Co-Ed Resumes Studies

HENNIKER, N.H. — (AP) — Carol Ann Paignt, 21, of Stamford, Conn., acquitted of murder in the mercy killing of her cancer-ridden father, returned to classes yesterday at New England College.

Miss Paignt was arrested last Sept. 22, after her father, Police Sgt. Carl W. Paignt, was shot in a Stamford hospital.

She was acquitted by reason of temporary insanity by a Bridgeport, Conn., jury on Feb. 7.

A forbidden "coronation kiss" touched off the battle. For a kiss is not just a kiss in blue-lawed Bethany, a town of 2,500 10 miles west of here. It's the object of statutes which forbid the act in public.

Wearing of shorts in public and sale of beer and tobacco are also taboo. Most of Bethany's citizens are members of the Nazarene Church.

In today's hand, before declarer could perfect the squeeze that enabled him to make his contract, it was necessary for him to transfer the squeeze from one opponent's hand to the other.

West now shifted to the ten of spades, which was won in dummy with the ace.

Declarer realized that his only chance to make the contract was to develop some type of squeeze. Up to this point the play seemed to indicate that the queen and jack of spades were in the East hand. West should hold the king of clubs to justify his opening bid.

If East held the jack of clubs, he might be squeezed between the spade and club suits; but the jack of clubs would have to be set up as the high card in the club suit, transferring the squeeze to East's hand.

Declarer played two rounds of trumps, ending in his own hand, then led the queen of clubs. West covered with the king and dummy's ace won. A heart was led from Dummy and declarer ran off all of his remaining trumps, discarding a low spade and the ten of clubs from dummy.

East was pressed for a discard on the last trump. To protect the queen-jack of spades, he discarded the jack of clubs, hoping that his partner held the nine; but declarer cashed the nine of clubs and claimed the last trick with dummy's king of spades.

HOLSUM

BRAND NEW!

1950 Mobilgas Special
Dynamic "FLYING HORSEPOWER!"

There's a new performance thrill with 1950 Mobilgas Special in the tank. Every drop of this super fuel is packed with eager action... engineered to meet the needs of modern "high compression" motors. It's the combined result of constant, scientific research and advanced refinery methods... a gasoline to enhance the luxury ride built into today's cars. 1950 Mobilgas delivers the smooth, even flow of power needed for today's effortless driving... makes you doubly proud of the car you bought. Yet good as this great gasoline is, we're continually trying to make it even better. Progress is constant in this industry of ours and Mobilgas Special is Continually New!

FLASH STARTS:
Designed to fire at the touch of the starter... motor comes to life with a smooth hum ready to go places... less wear and tear on battery, starter and motor itself.

SURGING POWER:
Swift, effortless acceleration with a smooth flow of abundant power wherever you need it.

Get America's Favorite
Mobilgas Special

at the Sign of the Flying Red Horse

AMAZING ECONOMY:
With 1950 Mobilgas Special, your motor is able to make the most of its fuel supply. Every drop packs a wallop of power.

Gene Worley and The New Deal

WHILE WE are running on this page today a letter from former Rep. Eugene Worley to his former constituents who do not indicate thereby that we approve of most of the things he has stood for in Washington.

Gracie Says

In Dallas a man reported to police that "a gyp failed to cure his limp when he breathed into his wallet while he held his hand on his chest but she did relieve the wallet of \$200."

Washington.....by Peter Edson

WASHINGTON.—(NEA)—In final analysis, the test of the Point IV program of technical assistance to underdeveloped countries is whether it is "good business" for the United States.

Purges Do Not Prove Any Weakness in Reds—Fisher

Stalin-worshippers everywhere are ballyhooing the single-alley, one-party Soviet election as convincing evidence of Communist solidarity.

Clearing House

Articles for this column are preferred to the 200 words or less in length. Longer articles may be printed.

Common Ground

The Foundation for Economic Education has issued a pamphlet giving a summary of Maxwell Anderson's introduction to his play "Knickerbocker Holiday" which was written by him in 1938.

PHaven's Sake, Trim The Wick

While they also urge creation of a far-reaching spy system similar to the Office of Strategic Services headed by "Wild Bill" Donovan during World War II.

National Whirligig

WASHINGTON — Top military and diplomatic officials here and abroad are imploping President Truman to carry the "cold war" into Russian territory by financing and organizing the same sort of subversive and underground movements overseas that Moscow has directed against the United States and its Western allies.

Census Bureau Forgives Habit Of Age-Cutting

CHICAGO — (AP) — Two conscience-stricken sisters called the Chicago census supervisor and confessed the fibbed to an enumerator about their ages.

The Album

In most every household you can find a most entrancing book, and it's one that both old and young will always like to look. It may have a leather binding or perhaps a cover plush, and some pictures that it holds may cause the older folks to blush.

The Doctor Says

THE problem of earning a living is a serious matter for those who have been crippled by illness or accident or were born with some physical handicap.

The Nation's Press

SCUTTLE T-H (Chicago Journal of Commerce) From the viewpoint of a man bent on scuttling the Taft-Hartley act by any means at his disposal, Mr. Truman adopted reasonable strategy by recommending that Congress abolish the office of National Labor Relations Board general counsel.

Mongolia, Russia
Use Ambassadors
 MOSCOW — (AP) — Growing importance in Soviet-Mongolian relations was seen today in the raising to full embassy status of the diplomatic missions in the capitals of the two countries. It was officially announced here today that Yuri Frikhodov, Soviet minister at Ulan Bator, Mongolia People's Republic (Outer Mongolia), was made ambassador as was Mongolia's minister to Moscow, N. Idamzhab.

Historic Bible Defaced Again

PHILADELPHIA — (AP) — Somebody has stolen a page from Betsy Ross' Bible. Vexil D. Weisgerber, curator of the Betsy Ross House, reported to police yesterday the page, bearing original records of the Betsy Ross family, was torn from the Bible, apparently during Sunday visiting hours. It is the second time this particular page has been missing. The curator said records show that the same page was "lost" from 1853 to 1897. After it was recovered, the bible was rebound to fit the page into its proper place. The Bible was displayed in a glass case in the house where Betsy Ross made the first U.S. Flag under commission by the Continental Congress. To reach the Bible, Weisgerber said, it was necessary to remove several screws from a brass edging. The glass in the case had been cracked, he added. On the page were listed the births, marriages and other data of Betsy Ross, written by her husband, John Claypole. Weisgerber said the page had great historic value, but would be difficult to sell and therefore would have little monetary value. The page, measuring about 10 by 12 inches, was removed from the middle of the Bible.

Real Estate Board Meets

The Pampa Real Estate Board, in its regular meeting yesterday at the Schneider Hotel, discussed new types of houses, new construction projects in Pampa, and Pampa's need for additional hotel space. Although organized about three years ago, the present board is relatively new in Pampa, having been reorganized three months ago. John L. Ketter is president; J. Wade Duncanson, vice president; and N. G. Elkins secretary-treasurer. The Board of Directors is composed of M. P. Downs, John L. Bradley, Ben Gull, H. T. Hampton, and Percy Williams. The membership committee includes Duncan, Gull and Hampton. Besides the officers and directors, members are Charles E. Ward, C. A. Jeter, C. P. Buckler, Harry Gordon, P. O. Sanders, C. H. Mundy, Mrs. H. B. Landrum and Mrs. Jessye Stroup. A membership drive is in progress and it was said that bankers, lumber yard operators, contractors and other persons with interest in real estate are eligible. The next meeting will be held Monday, April 17, in the Schneider Hotel dining room. The time and program will be announced at a later date.

Two Pampans In Play Cast

CANYON — Final casting of the Shakespearean comedy "Twelfth Night," has been completed at West Texas State and the play will be given May 8, 9 and 10. William A. Moore, director, has announced that this will be the most difficult play the speech department of the college has undertaken. Also, the costuming, lighting and scenery will be far superior to anything ever presented at the college. Some of the trimming and hats are being ordered from Italy and plans for a revolving stage underway. Moore said this may be the first time a revolving stage has been used in this section of the country.

Actor-Inventor Succumbs at 84

PASADENA, Calif. — (AP) — Death has taken Lawrence Holmes, 84, who as an inventor once worked with Thomas A. Edison and as an actor formerly appeared with Maurice Barrymore. Holmes invented a folding bed and an auxiliary lens to enlarge motion pictures. He worked with Edison in the development of a movie camera. As a young man, Holmes was a Shakespearean actor. After inventing the folding bed, he built 156 apartment houses in West Coast cities. Later he bought a 585-acre ranch near Riverside. He was born in Oslo, Norway.

O'Gorman Rites Held in Shamrock

SHAMROCK — (Special) — Funeral services were conducted this morning at St. Patrick's Church for Miss Florence Catherine O'Gorman, who died Monday after a long illness. Father Charles Knapp officiated and services were under the direction of Richardson Funeral Home. She is survived by her father, Thomas F. O'Gorman; five brothers, Tommy, Gerald, Edward, James and Walter, all of Shamrock; sister, Mrs. Mike Pomplio, Livermore, Calif. She was graduated from Shamrock High School and St. Mary's Academy, Amarillo.

ASTHMA

SUFFERERS FIND CURE FOR MISERY DUE TO ASTHMA ATTACKS. BUSHED HERE! New hope for relief from asthma symptoms is seen today in reports of success with a palliative formula which acts to relieve congestion. Men and women who formerly suffered with dread coughing, choking wheezing asthma, now find relief after using it. PROMETIN costs \$3, but considering results, this is not expensive, amounts to only a few pennies per dose. (Caution—use only as directed.) PROMETIN is sold with strict money-back guarantee by Berry's Pharmacy—Pampa, Mail Orders Filled.

Editor Jailed in Palestine

DAMASCUS, Syria — (AP) — Hashemite Jordan authorities have jailed a newspaper editor in Amman for reporting that demonstrators against the coming Jordan elections had been forced to start a 100-mile "death march" from Nabulus, in the Arab section of Palestine, to Amman. The story apparently had been strictly censored in Amman, but a copy of the newspaper, An-Nahla, reached here. The report of the arrest of the editor, Southi Bey Zeid Keyhani, was vouched for here by a well-informed source. According to An-Nahla about 1,500 persons in Nabulus demonstrated Friday against the Jordan elections to be held April 11 to elect a new parliament. Some shots were fired but no casualties were reported. Nabulus, in northern Palestine, is claimed by Jordan's King Abdullah as part of his realm. The newspaper gave this account: ringleaders of the demonstration were arrested. They were forced to march over the rugged route to Amman with their hands bound.

Square Dance Reservation Deadline Set

Tomorrow is the deadline for reservations for the Girl Scout sponsored square dance school, which will be instructed by Frank Ponce April 10-21. Mrs. H. F. McDonald, Jr., executive of the Pampa Girl Scout Association, said two classes will be taught every other day to accommodate more dancers. The first class will begin at 8 p.m. Monday at the Holy Souls Parish Hall and the other class will start at the same time Tuesday. Meanwhile, Mrs. McDonald said all Scout leaders, assistant leaders and committee mothers who are interested in taking Red Cross standard and advanced first aid courses should call the Scout office. Bob Baldwin will instruct the courses. The leaders will meet at 9:30 a.m. tomorrow at the Scout House to continue their seven-session outdoor training. Tomorrow's class will be centered around the one-pot meal.

Integration of Power Sources Asked by SPA

WASHINGTON — (AP) — Power from hydro-electric plants in the Southwest must be integrated with fuel-burning plant output to obtain maximum benefits, the Southwestern Power Administration says in its annual report. The integration, said the report, can be accomplished only by interchange contracts with private utilities, cooperatives, public bodies or industrial concerns having fuel burning generating equipment; by government purchase of power produced by others; government sale of its power to private utilities or construction of government steam plants. "It is believed the first method would be the most beneficial to the government, the companies and the customers of both systems," said the report. It added that additional transmission facilities will have to be built by the agency unless integration and interchange contracts can be worked out for use

Kellogg Cereal Heir Dies in California

CHULA VISTA, Calif. — (AP) — John L. Kellogg, 66, heir to a cereal fortune, died here yesterday of a cerebral hemorrhage. He was visiting a brother, Dr. Carl Kellogg. His father, William K. Kellogg, Palm Springs, said burial would be in Battle Creek, Mich. Revenue from sale of power by SPA from two completed dam totaled \$1,661,132 during the fiscal year ended last June 30. Norfolk Dam in Arkansas produced \$865,184 and Denison Dam in Texas, \$795,948.

A Salute To PAMPA'S GASOLINE PLANTS DURING TEXAS INDUSTRIAL WEEK

In a nation of people inclined to take the miracles of industry for granted the great contribution of the Petroleum Industry to progress cannot be over-emphasized. World War II and its almost insurmountable problems in logistics served to point out, in heroic mould, the ever-increasing importance of petroleum and its allied products in our national economy. "An Army moves on its stomach" was one of the cardinal-rule phrases of early military planning. Today, armies, industry, all phases of the American economy depend on petroleum products to keep the supplies moving and the 'stomach' supplied. The Automotive industry put the world on wheels. The Petroleum Industry is charged with

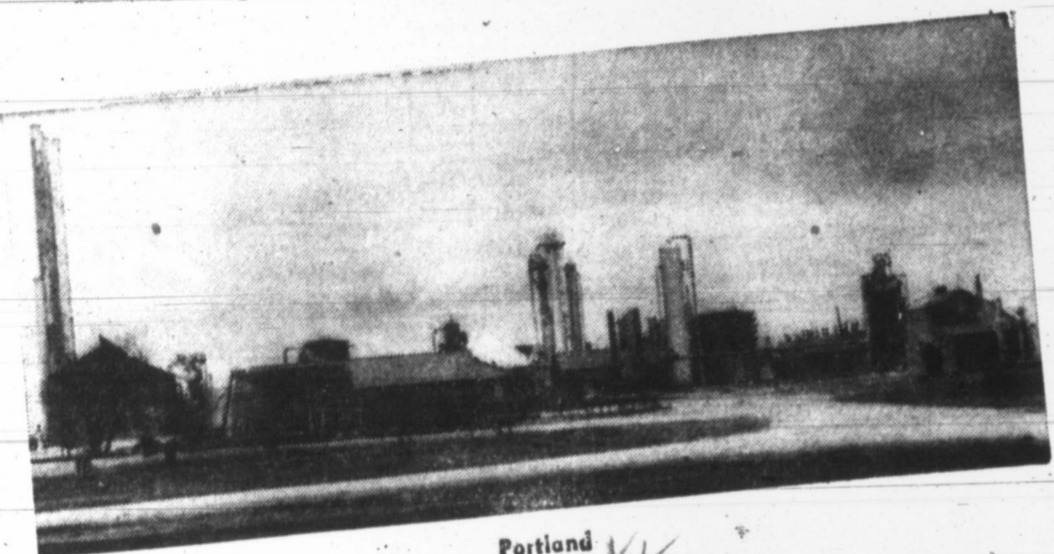

the overwhelming task of keeping the 'wheels' turning. A quick recheck of the conditions surrounding us is all we require to heighten our appreciation of the Petroleum industry and the part it plays in our daily lives. In the nation as a whole the word Petroleum is a magic word. In Pampa, the Petroleum plants take their place among the leaders in industry as a major contributors toward the \$38,974,000.00 annual payroll this area enjoys. A salute to the Petroleum industry during Texas Industrial Week is entirely fitting and proper.
