### WOULD EXTEND TO ST. LOUIS AND DETROIT

### SPECIAL MESSAGE IS PLEA FOR PANHAN- DLE PROJECT

THE NEW PAMPA  
Fastest Growing City in  
Texas—Panhandle Oil  
And Wheat Center

### PAMPA TOPICS OF OUR CITY By O.E.H.

**Twinkles**  
Our number is so easy that we'll probably forget what it is for not trying to remember.

Don't forget that, even with dust-storms in the spring, the Panhandle has one of the most delightful climates in the west.

There may be a war by next fall, but with the Pampa Amarello game in the offing we won't have time to bother with it.

Nations' Business calls the Pampa territory "quiet." Another magazine writer jumps to conclusions, which is jumping much too far. He should try our traffic just one day.

**Americanism:** Tearing our hair in trying to catch one bandit while permitting conditions which produce five more just as bad.

Musting of the moment: Grape Nut ice cream is just about our favorite. . . . Cherry pie with coffee will do quite well. . . . Leave off the dill pickles. . . . Throw in a piece of well aged American cheese. . . . Include cornbread, buttermilk, and good old fat rural greens. . . . And tannica pudding will be fine when the cherry pie rips out.

### Brevitorials

THE SAFETY movement here has gone a long way. Scores of certificates have been given in first aid work. It seems that some of us who need it most have passed it by entirely. . . . Don't let these things hold a course for our benefit, citing that we've frozen our feet, fallen through a ceiling, and even made faces at Huey Long. . . . Just as soon as Gaston Foote is able, we're going to register and invite in several other preachers and professional men that we know.

**DON'T SELL THE** Panhandle short. Many are the times we've given that advice. We repeat it now. The soil of the plains is largely intact. Give us rain and we'll break out with the bluest corn crop the AAA will allow. . . . We are happy to predict 1 1/2 inches of rain within 40 days. We should have that much in April. We ought to have twice as much in May. . . . I see 5 inches of rain in May. . . . Our weather is inconsistent. Rainy storms will return. Crops will again cause us to worry about rain publicity.

Meanwhile, Gray county is producing a bumper crop of rain. . . . I wish to mention—utility companies, postal receipts, automobile sales, etc.—are definitely higher. . . . The Panhandle will come back agriculturally. Don't let the drought fool you.

AT THE SAME time, we're thoroughly convinced that we've farmed the plains in a very unwise manner. To break up the level soil and destroy its soil-binding covering without providing wind-breaks is we can see now nothing short of foolish. Our prevailing wind system has many advantages and few disadvantages. And, as long as we have protection, the possibilities for manipulation will be limited. By means of an order, regulatory bodies could wipe out an artificially created market shortage. . . . Criticism of the new pit will follow the first price break. It would be well for oil men to study the operation of the exchange and to understand its advantages before they start making wild accusations. We do not see that the pit has any more trouble than it should that it should not be blamed for troubles which existed before its establishment and, conceivably, may do so in the future.

**PAMPA HAS** many unemployables, measured by the requirements of contractors. At the same time, it's evident that the time is far distant when community will be able, alone, to support its unemployable and unemployables. The old Welfare Board at its best could not

### WIFE SHOT BY HER TORTURED HUSBAND DIES

### WOUNDS AND BURNS ON BODY OF AGED MAN AMAZE POLICE

KANSAS CITY, April 4. (AP)—The death of Herbert Hurd, 77 year old crossing watchman allegedly sought for himself came today to his wife, Nellie, 64.

Mrs. Hurd allegedly shot her husband by her husband yesterday afternoon when he claimed weeks of torture and confess attentions to a neighbor woman died without making a statement to police. City detectives Fred Greene and John Costello asserted Hurd alleged his wife tortured him with fire, a dagger and wire bindings over a period of weeks. He denied he had a fortune or that he was intimate with another woman.

"I was going to kill myself with the ice pick if she would let me get to the kitchen," Green quoted Hurd as telling him, "but she kept torturing me there in bed so I grabbed the gun and shot her."

Greene and Costello said murder charges against Hurd, now in General hospital because of the serious wounds and burns on his body, would be filed today.

They will continue questioning of neighbors, chief of whom is the woman named in a bizarre "confession" of infidelity signed by Hurd last Sunday night and witnessed by his wife and adopted daughter, Miss Nellie A. Hurd, 44. Miss Hurd was jailed last night as a material witness but released on bond to go to the bedside of her father-in-law.

The neighbor, questioned by the officers scoffed at the confession's allegations against her as did Hurd, who claimed he signed it as Mrs. Hurd stood pointing a pistol at his head.

Detectives rapped last night when Hurd stripped off his clothing disclosed the evidence of Mrs. Hurd's alleged infidelity. His story, city detectives Fred Greene and John Costello, said, probably was true.

### Electric Show Is Attended By Many Residents

Electric refrigeration attracted men, women and children to Pampa's first big refrigerator show today in the showroom of the Southwestern Public Service company.

The show will last through tomorrow night. The showroom is open until 9 p.m. daily. Carnations are being presented to women visitors. With hot weather approaching, Pampanas are definitely "refrigerator minded." Those who already have boxes are viewing the new model with interest.

American housewives have bought an increasing number of electric refrigerators during the depression and recovery years. The statistical picture is as follows: 1929—620,000, 1930—775,000, 1931—965,000, 1932—1,000,000, 1933—1,000,000, 1934—1,200,000.

In the meantime, aggressive manufacturing and sales organizations have improved efficiencies and reduced prices. The dealers who are sponsoring the show are:

Bert Curry Refrigeration Co., Frigidaire  
Pampa Hardware & Implement Co., Hamilton  
Pampa Glass and Paint Co., Cresley Shelvador  
Pampa Furniture Co., Norge  
Montgomery Ward Co., Ward's electric refrigerator  
Texas Furniture Co., Grunow.

# New Mexico Sheriff Killed In Riot

## Sees Revolt

NEW YORK, April 4. (AP)—Edward J. Reilly today received notice of his dismissal as chief of the defense counsel for Bruno Richard Hauptmann and said the action came "just when we were going to make application for a new trial based on new evidence."

Reilly, who headed the unsuccessful defense of the trial of the man charged with the kidnaping and murder of the Lindbergh baby, said the new evidence would be the testimony of several persons willing to say that they had seen a strange automobile loitering in the vicinity of the Lindbergh estate near Hopeville, N. J., for four days before the kidnaping of the infant on March 1, 1932.

Four men, Reilly said, were in the car, and Hauptmann was not one of them. The attorney said the license number of the machine was taken and showed the automobile had been stolen.

Further evidence, Reilly said, would be based on the testimony of Amandus Hochmuth, state's witness who testified during the trial of Hauptmann at Flemington, N. J., that he had seen the defendant in the vicinity of the Lindbergh estate the morning of March 1, 1932.

It was Reilly's bill for \$25,000 which climaxed months of discord between counsel and defendant, Mrs. Hauptmann said. She called it "exorbitant" and premature.

"The bill is for 13 weeks," said Reilly, "and I think it is reasonable." Hauptmann had leaned toward Fisher for some time, but his wife had insisted Reilly was all right, she said just before she was taken to a conference yesterday when she changed her mind yesterday, she answered.

### CONFERENCEES GET CENTENNIAL ACT

AUSTIN, April 4. (AP)—A bill to appropriate state aid for a Centennial celebration at Dallas was sent to a conference committee today by the house with instructions to its conferees to retain a house amendment allocating 15 per cent of the proceeds to payment of the state grant.

The motion to instruct the committee was adopted 83 to 46 over strenuous opposition by Centennial sponsors who said it would wreck the Centennial's financial structure.

The house amendment to liquidate the state appropriation was revised in the senate to give the state 50 per cent of the net profits. Representative Wilson Fox, Taylor said the senate's proposal meant nothing and that it gave no assurance the state would get back any of its money. Fox said he believed the state should be guaranteed return of part of its money.

LONDON, April 4. (AP)—A Daily Mail dispatch from Sydney, Australia, said today that Evangelina Booth, head of the Salvation Army, revealed that she reared three children as her own and described them as "the secret love of my life." She indignantly denied reports which appeared in an overseas newspaper, the dispatch said, attributing to her a statement that she longed for children of her own, had been in love several times, and that something always prevented her marriage.

Joe Duby of LePort transacted business here yesterday afternoon.

### HOUSE WOULD SUBMIT REPEAL AND STATE LIQUOR SYSTEM TO VOTERS ON AUGUST 24

House Is Now Considering Bill to Appropriate Funds For Centennial Event.

AUSTIN, April 4. (AP)—Texas representatives today returned to the senate a prohibition repeal bill with or without a state dispensary system.

### CHIEF COUNSEL IN HAUPTMANN CASE OUSTED

### REILLY DISMISSED BY ANNA IN MONEY SQUABBLE

NEW YORK, April 4. (AP)—Edward J. Reilly today received notice of his dismissal as chief of the defense counsel for Bruno Richard Hauptmann and said the action came "just when we were going to make application for a new trial based on new evidence."

Reilly, who headed the unsuccessful defense of the trial of the man charged with the kidnaping and murder of the Lindbergh baby, said the new evidence would be the testimony of several persons willing to say that they had seen a strange automobile loitering in the vicinity of the Lindbergh estate near Hopeville, N. J., for four days before the kidnaping of the infant on March 1, 1932.

Further evidence, Reilly said, would be based on the testimony of Amandus Hochmuth, state's witness who testified during the trial of Hauptmann at Flemington, N. J., that he had seen the defendant in the vicinity of the Lindbergh estate the morning of March 1, 1932.

It was Reilly's bill for \$25,000 which climaxed months of discord between counsel and defendant, Mrs. Hauptmann said. She called it "exorbitant" and premature.

"The bill is for 13 weeks," said Reilly, "and I think it is reasonable." Hauptmann had leaned toward Fisher for some time, but his wife had insisted Reilly was all right, she said just before she was taken to a conference yesterday when she changed her mind yesterday, she answered.

### RELIEF DIRECTOR ORDERS DRASTIC SLASH IN ROLLS

AUSTIN, April 4. (AP)—Texas relief officials, alarmed at the percentage of Texas population on relief rolls as contrast to declining funds, today ordered drastic reductions in case loads.

Case loads must come down at once, said Adam Johnson, state director, noting five counties had less than 5 per cent of their residents on relief, and only 14 others from 5 to 10 per cent. Twelve counties reported the ratio had increased to over 40 per cent.

Five counties with less than 5 per cent of residents on relief were Crockett, Kennedy, Lavaca, Reagan, and Winkler. Those in the 5 to 10 per cent bracket were Hudspeth, Terrell, Upton, Farmer, Hutchinson, Carson, Hidalgo, Cameron, Nueces, Bee, Karnes, Gonzales, Fayette and Fort Bend.

The 12 with more than 40 per cent of the population on relief were Loving, Yoakum, Cochran, Garza, Kent, Stoneking, King, Cottle, Titus, Cass, Llano, and Zapata.

A discussion of the status of farm families on relief rolls will be conducted in Amarillo at 10:30 o'clock tomorrow morning, when county administrators from 36 Panhandle counties gather for a meeting with state department heads.

The rural rehabilitation program will also be outlined. A round table discussion of conditions in various sections will be conducted. Mrs. W. H. Davis, Gray county administrator, will attend the conference.

WILL UPHELD  
BEAUMONT, April 4. (AP)—B. B. Johnson, county judge, today dismissed the contest of the will of the late M. F. Young, Beaumont oil magnate. The contestants, the mother and brother and sisters of the deceased millionaire, sought to share in the \$7,500,000 estate which was left by his will to his 14-year-old adopted daughter, Mildred.

### 5 Persons Wounded; 300 Take Part In Fight

GALLUP, N. M., April 4. (AP)—Sheriff M. R. Carmichael, and an unemployed coal miner were shot to death and five persons, including one woman, were wounded today in a street riot precipitated by a shouting crowd of more than 300.

Disorder flamed when the crowd rushed sheriff's deputies removing prisoners from a hearing in a justice of the peace court growing out of an eviction case.

The jobless man slain was identified as Ignacio Velarde, 37, a world war veteran.

Deputy Sheriff B. W. Roberts said either Velarde or another unemployed miner, Solomon L. Esquibel, 37, shot Sheriff Carmichael through the head and the deputy then opened fire and shot both Velarde and Esquibel.

Two other sheriff's deputies, Ed-ison L. (Bobcat) Wilson and Roy Bogges, were wounded in the fighting. Wilson suffered a bullet wound in the chest and Bogges was stabbed in the chest.

The rioting crowd gathered at a hearing proceeded in the court of Justice B. W. Bickel for three men on charges of breaking and entering a house from which one of the trio had been evicted. The three were Exequio Navarro, Victor Campos and Jenny Lavato.

The hearing was a preliminary one and as the officers and prisoners left the building on one of Gallup's main streets by a rear door the crowd ran around and charged.

### CONVICTS CHOP OFF FEET, LEGS AT TEXAS FARM

HOUSTON, April 4. (AP)—Charges that brutality of guards at the Retrievе state prison farm near Angleton drives prisoners to chop off their hands and legs rather than go into the fields and work will be investigated by the penitentiaries committee of the Texas house.

The committee is scheduled to leave Austin Friday on a tour which had been scheduled for some time, of the system.

Meanwhile, Ranger Captain Fred McDaniel was under orders from Governor James V. Allred to investigate conditions at the farm where only the most dangerous of prisoners are sent.

HOUSTON, April 4. (AP)—Manager Lee Simmons of the Texas prison system said there was nothing new about convicts chopping off their feet and otherwise mutilating themselves.

"They do it to get out of work," Simmons made the statement in answer to charges that prisoners at the Retrievе farm had mutilated themselves because of brutality of guards.

The charge was made by W. A. Boyett, prison board member, who wired Gov. James V. Allred that conditions were "disgraceful."

Gov. Allred yesterday instructed Ranger Captain Fred McDaniel to investigate conditions, and prison administration heads conducted their own inquiry.

### Pampans Asked To Provide Rooms For Visitors

Young folk of many counties will come to Pampa tomorrow for the district interscholastic league meet.

Local school officials today issued a plea for rooms to be offered to the visitors, free of cost to them, for Friday and Saturday nights. Many rooms will be needed Friday and a smaller number Saturday.

Pampa as the host city is expected to furnish the rooms. Pampans who can furnish one or more or both nights are asked to telephone the high school, No. 70, immediately.

### DISGRACEFUL,' CLAIMS BOYETT OF GUARD'S BRUTALITY

HOUSTON, April 4. (AP)—Charges that brutality of guards at the Retrievе state prison farm near Angleton drives prisoners to chop off their hands and legs rather than go into the fields and work will be investigated by the penitentiaries committee of the Texas house.

The committee is scheduled to leave Austin Friday on a tour which had been scheduled for some time, of the system.

Meanwhile, Ranger Captain Fred McDaniel was under orders from Governor James V. Allred to investigate conditions at the farm where only the most dangerous of prisoners are sent.

### RELIEF DIRECTOR ORDERS DRASTIC SLASH IN ROLLS

### ADVOCATES OF NORTH ROAD TO TALK WITH ELY

### DELEGATION WILL GO TO ABILENE ON FRIDAY

Highway enthusiasts seeking a road north across the Canadian river will go to Abilene tomorrow to have a conference with Judge W. R. Ely, member of the state highway commission.

The group will probably be County Judge J. A. Mead of Miami, Commissioner L. A. Maddox of Roberts county, two representatives from Peryton, and George Briggs, B. W. Rose, and Jim Collins of Pampa.

### CONVICTS CHOP OFF FEET, LEGS AT TEXAS FARM

HOUSTON, April 4. (AP)—Charges that brutality of guards at the Retrievе state prison farm near Angleton drives prisoners to chop off their hands and legs rather than go into the fields and work will be investigated by the penitentiaries committee of the Texas house.

### WOULD EXTEND TO ST. LOUIS AND DETROIT

AUSTIN, April 4. (AP)—The conservation and reclamation committee of the Texas house today voted a unanimous favorable report on a bill to establish a state corporation to construct and operate a giant pipe line from the Texas Panhandle to St. Louis and Detroit. The company would be authorized to receive a federal loan and grant of \$60,000,000, to construct the system.

AUSTIN, April 4. (AP)—Governor James V. Allred today sent a message to the Texas legislature urging early passage of a bill creating a state agency to apply for a federal loan to build a \$60,000,000 natural gas pipe line from the Panhandle to St. Louis and Detroit.

Submitting the bill for "emergency consideration," Allred said Texas had a "golden opportunity of being the builder of America's greatest project."

"I am convinced the proposal is self-liquidating," he said. "My confidence is based not upon idle speculation or hope but upon concrete engineering information."

"I cannot conceive of a plan yet proposed by any branch of the American government, whether state or federal, that offers the possibilities offered by this proposal. It preserves our natural resources, makes valuable the greatest gas reservoir in the world, provides useful employment for an army of the unemployed, provides permanent employment for 300 families, stimulates the basic steel industries to a greater extent than has been done since the beginning of the financial depression, promotes that democratic policy of bettering the social welfare of the people, and offers the state to realize without taxation a substantial financial profit from its natural gas, and finally offers to the state of Texas an opportunity to be the outstanding state in the American union in endeavoring to carry forward the policy of the American government in re-establishing a period of economic security."

Small To Handle Bill  
The governor said Senator Clint Small of Amarillo would handle the proposal in the senate and that the Panhandle delegation would be at an attempt to steer it through the house.

He said the project had been accorded an enthusiastic reception by the city of St. Louis and by the distributing company in Detroit, the city's largest, untouched natural gas markets in the United States.

"The plan has been discussed in detail and at length with some of the most eminent gas and legal authorities in the United States. Always without exception it has been pronounced fundamentally sound."

"Far reaching effects of this proposal are difficult to conceive. It is the estimate of engineers that the project will furnish 47,600,000 man hours of employment, outside the fabrication of 418,000 tons of steel. This means a veritable army of men now on the unemployment relief rolls will be put into useful and gainful employment. It means that steel mills will again hum with activity and that long deserted valleys will spring again into hopeful existence. It means that cities that have struggled along with artificial fuel manufactured at high prices will be the recipient of a natural resource of this state now going to waste, and receive at a low price that even the poor can pay, thus not only promoting his financial welfare but his social existence as well."

Worley Confident  
Members of the Panhandle had preparing for introduction of a bill to establish the Texas Gas Conservation corporation, a public agency, to negotiate the loan. Rep. Eugene Worley of Shamrock said assurances had been received that the corporation would be given a preferred place under the prospective huge public works program.

The company would receive a grant of \$18,000,000 and a loan of \$42,000,000 to construct the lines. Only the project itself would be given as security for the loan. After amortization of the loan profits would go to the state.

The corporation would be administered by a board of directors appointed by the governor. The first board would be appointed for two, four and six-year terms thereafter and with directors eligible for reappointment. The corporation would

### I Saw . . .

A letter T. D. Hobart recently received from Will Roberts who was the guest of Mr. Hobart on the JA ranch this last winter. Wrote the famed humorist: "Now I ought to be hung over a fence and chapped for not writing you sooner for the nice time, more than nice time. I only wish I could be there some time when they are working and get cut with 'em, and I will too. I wish those cows of yours would cut writing paper, I mean writing paper that's been written on. I could feed the whole JA herd on paper and ink. I hope to see you soon when the Palo Duro is swimming, cattle are as broad as Mae West, and we will all be happy." There was more in the letter which was personally typed by Will. Once or twice he forgot to shift the carriage and the typewriter keys jammed and stuck at the end of the line.

West Texas: Partly cloudy tonight and Friday; warmer in north and east portions tonight.

# CHURCH SOCIETY MEETINGS FEATURE YESTERDAY FOR WOMEN

## FOUR GROUPS OF CHRISTIAN COUNCIL MEET

MEMORIAL SERVICE IS CONDUCTED FOR LATE LEADER

Meeting jointly at First Christian church, groups one and two of the Women's Council had a business session and mission program. Mrs. H. H. Isbell presided.

Mmes. J. A. Berry and Billy Taylor of group two, Mmes. L. L. Allan and Lovelle of group one were hostesses. Mrs. R. G. Christopher gave the opening prayer and Mrs. Floyd Coffin conducted the devotional.

Program topics were discussed by Mmes. Dick Rhoades, Roy McMullen, Ivy Duncan, Isbell, and Christopher.

Refreshments were served to those on program and Mmes. A. A. The-man, Lee Ledrick, J. E. Meers, Ed Fritchler, J. M. Tate, Jesse Sowders, and O. A. Wagner of group one, Mmes. Sarah Parley, H. P. Schneider, Don Hurst, E. B. Thompson, H. D. Siskel, J. M. Sanders, L. L. Reese, Claude Lard, Earl Williams, S. E. Elkins, Louis Schlammer of group two.

Daughter Aids Hostess. Mrs. J. G. Gantz was assisted by her daughter, Miss Madeline, in entertaining group three at her home. Mrs. W. E. Speed presided and conducted the devotional. Mrs. W. O. Kinzer led the lesson on Forgiveness.

Refreshments were served to Mmes. W. L. Lynn, G. H. Brown, R. L. Allison, J. R. Moore, Charles Mundy, Tom Eckard, R. E. Abbott, Kinzer, Speed, and Mrs. D. E. Purinton of Nebraska.

New Leader Presides. A memorial service for the late leader of group 4, Mrs. H. C. Jones, was conducted by Mrs. A. L. Burge, general council president, when that group met at the home of Mrs. Glenn Potts with Mrs. Ward Potts as co-hostess.

Mrs. Emory Noblitt, new leader, was in charge of the business meeting and lesson. Mrs. C. F. Bastion presented the devotional, and the program was given by Mmes. Charles Stowell, Hancock, and B. C. Fahy.

Others present were Mmes. L. D. Blanchard and John Mullen, guests, and Mmes. Austin, Jack Wilkerson, Wellman, Shearer, Bob Siskel, Kuper, Shields, H. C. Schofield, Shelby Gantz, A. E. Twentier, and Ed Zmiony.

DKG Delegate to State Convention Goes to Houston. Mr. Sam Irwin left Tuesday night for Houston, to attend the state convention of Delta Kappa Gamma as delegate from the Pampa chapter. The state meetings convene Friday and Saturday.

Mr. Irwin went early to visit in the Houston schools this week. She is a teacher at Sam Houston school here, and a charter member of the local chapter of the national women's organization.

Hi-Lo Club and Guest Trio Play. Hi-Lo club and three extra guests were entertained by Mrs. J. G. Teeters at her home yesterday afternoon. Mmes. H. Downs, H. O. Simmons, and Sug Cobb were the visiting players.

Mrs. R. A. Meyers scored high and Mrs. C. C. Cockerill low for club members. Mrs. Downs received the traveling package, and Mrs. Simmons made high guest score.

Other players, Mmes. Roy Down, Homer Wallace, Tom Morris, George Alden, Doug Wilson, and Bill Dull. A salad course was served after the bridge games.

PICNIC ENJOYED. A picnic near Hoover was enjoyed yesterday evening by about 35 employees of Pampa theaters and their guests. A camp fire was built to heat winners, and supper was served after impromptu games.

WASH OUT 15 MILES OF KIDNEY TUBES. Win Back Pep... Vigor... Vim. Medical authorities agree that your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy.

If you have trouble with too frequent bladder passages with scanty amount of urine, burning and discomfort, the 15 MILES of kidney tubes need washing out. This danger signal may be the beginning of nagging backache, leg pains, loss of pep and energy, getting up night, swollen feet, and aches and pains in the back.

If kidneys don't empty 3 times a day and get rid of more than 8 pounds of waste matter, your body will take up these poisons causing serious trouble. Don't wait. Ask your druggist for DOAN'S PILLS... an old prescription... which has been used successfully by millions of kidney sufferers for over 50 years. They give happy relief and will help to wash out the 15 MILES of kidney tubes. Get DOAN'S PILLS at your druggist. © 1934, Foster-Milburn Co.

## Convention Plans Are Made

### Wheeler County League Meet Is Finished Monday

WHEELER, April 4.—In the inter-scholastic league meet held in Shamrock last Thursday, Friday, and Monday, Wheeler won third place in the county with a total score of 85 points as compared with the 140 points won by Shamrock and the 115 points won by Mobeetie. Wheeler won 14 first places, 12 second places, 8 third places, and 2 fourth. Last year Shamrock won first in the county, and the year before Wheeler won first.

Among those who were in Shamrock Friday night were Ruth Fayo, Garrison Estell Scott, Parlike Clay, Jannell Perryman, Helen Gilmore, Fay Fiske, Ruth Ewing, Lindsay McCasland, Charles Hix, J. B. Reynolds, and Dick Stanley.

Jackie St. Clair spent Thursday in Pampa visiting relative, and friends.

Mr. and Mrs. C. Campbell were in Wheeler Saturday on business.

Mrs. John Foye was in Shamrock on business Friday.

Mrs. V. E. St. Clair shopped in Amarillo Monday.

Ernest and Irene Mincher spent the week-end in Amarillo.

Panhandle Class Entertained Here. Members of the picture memory team of Panhandle that won first place in the Carson county inter-scholastic league meet last week were entertained by their teacher, Miss Virginia Pullington, and Mrs. Clara Holt, Pampa artist at the latter's apartment in the Hotel Adams yesterday. The children were shown a display of Mrs. Holt's paintings many of which were of New Mexico scenes, before refreshments were served.

After the party, the pupils and teacher were members of a theater party at the La Nora theater. The children were Mary Sue Jones, Virginia Bianco, David Cook, Billy Cowgenter, Weldon York, and Paul Lewis.

Mr. and Mrs. V. E. Fatheree left this morning for Chickasha, where they were called by the illness of Mrs. Fatheree's aunt.

### COMMITTEES ON MUSIC WEEK NAMED BY TREBLE CLEF

Preparations for attending the state convention of music clubs at San Angelo this week-end were made at the business meeting of Treble Clef club yesterday afternoon. Mrs. A. N. Dilley, club delegate, is already in San Angelo.

Members who will appear in a program skit Friday evening will leave tomorrow morning. They are Mmes. Frances Sturgeon, Alex Schneider, Harry Nelson, L. N. McCullough, H. C. Price, J. W. Garman, Walter Stein, and Miss Jimma Searcy.

Music week plans were also continued by the club, and Mrs. Garman was named general chairman of arrangements for the annual observance. Mmes. Ray Huling, Harry Leman, and Bob McCoy were appointed on a music week publicity committee.

Treble Clef club will give its annual open vesper program during the week and will also entertain with husbands' night. Behaviors of numbers for these programs is under way under direction of Mrs. Philip Wolfe, who conducted a short practice yesterday.

MRS. OSBORNE IS SURPRISED WITH SHOWER

Mrs. J. P. Osborne Jr. of Miami, the former Miss Ruth Reynolds of Pampa, was surprised with a shower at the home of her mother, Mrs. E. E. Reynolds, Tuesday afternoon. Mmes. F. M. Carter and J. F. Reynolds were hostesses.

Told that the gathering of guests meant a party for her mother's friends, the bride was taken completely by surprise when she was called to the room and presented with a lovely array of gifts.

These were inspected by the guests in an informal hour, which closed when a delicious plate lunch was served. Spring flowers in washed colors decorated the rooms.

Guests were the honoree and Mmes. J. P. Osborne Sr., E. E. Reynolds, R. B. Fisher, W. D. Benton, W. A. Scvolder, Grady Shepherd, W. B. Ferris, Edwin S. Vickers, E. L. Norman, Doshia Anderson of White Deer, Ruth McClure, Miss

Rebertha Montgomery, Ola Nellis, Angela Stump.

Gifts were sent by Messrs. and Mmes. Noel Reynolds, R. M. Bellamy, M. C. Overton Jr., H. L. Pollock, Frank Carter, R. C. Reynolds, W. E. Farley, Tom Smith, Sam Fenber, George Guthrie, Mmes. Violet Gher, Phoebe A. Worley, M. Saul, J. E. Murfee, Casey Followell, J. B. Massa, Jack Neaves, Evelyn Crawford, Minnie Mahan, B. E. Finley, Miss Zona Mae Combs, Albert and Dutton Reynolds, Albert Combs, Brent Fisher.

Mr. and Mrs. Osborne were married at Fort Worth last month, and are living on the Osborne ranch near Miami. Both are members of pioneer Panhandle families.

Mr. and Mrs. W. B. Hamilton of Amarillo were Pampa visitors yesterday.

### New Cake Recipe Given Women of Kingsmill Club

Making butter cakes was demonstrated by Miss Ruby Adams, county agent, to Kingsmill Home Demonstration club in an all-day meeting with Mrs. Chris Baer Tuesday. A covered dish luncheon was served at noon.

Altitude plays an important part in successful cake baking, Miss Adams said. Three cakes were made. Among the recipes given was the following for a new chocolate cake.

Four ounces or 1/2 lb. melted butter chocolate, 1/2 cup butter, 1 cup white sugar, 3 eggs, 2 1/2 cups cake flour, 1/2 tsp salt, 2 tsp baking powder, 1 tsp cinnamon, 1 cup milk, 1 tsp vanilla, 2 tsp lemon extract.

Break the chocolate into small pieces and melt over warm water. Cream butter, add sugar slowly, beating vigorously. Beat egg yolks until thick, add to sugar and butter mixture. Add the melted chocolate and mix well. Sift flour, salt, baking powder, and cinnamon. Add alternately with the milk and extract beginning and ending with flour mixture. Fold in egg whites. Bake in two 8-inch layer cake pans in moderate oven, 350 degrees, for about 30 minutes.

Two new members, Mrs. Roy Kretzmeier and Mrs. Bill Beard, were present as a visitor. Mrs. Dewey Lunford, members attending, were Mmes. Harold Baer, A. E. Twentier, N. B. Cude, C. T. Nicholson, W. S. Northcutt, E. R. Sunkel, Carl Baer, C. F. Bastion, Joe Brown, George L. Roberts, Miss Adams, and the hostess.

The marriage of Miss Bertha Quarles and John V. Stump, solemnized on March 24, was announced this week. They are at home here now.

The bride is the owner of a Pampa beauty shop, Mr. Stump was formerly of Pittsburgh, Pa. He was educated there and at St. Johns military academy of West Virginia.

## STUDY COURSE FOR EPISCOPAL WOMEN BEGUN

FIRST LESSON IN THE STUDY SERIES CONDUCTED

A new study course for the year started in the Women's Auxiliary of Episcopal church yesterday afternoon. Mrs. C. P. Buckler was leader of the first lesson, on missions in Japan.

She discussed missionary work of all denominations in Japan, especially that of the Episcopal church. The opening devotional was conducted by Mrs. Julian Barrett.

Several members turned in articles they have completed for next year's annual bazaar, and others received material for work.

Mrs. Frank Perry was hostess, and served refreshments to the members present.

### Recent Marriage Here Announced

The marriage of Miss Bertha Quarles and John V. Stump, solemnized on March 24, was announced this week. They are at home here now.

The bride is the owner of a Pampa beauty shop, Mr. Stump was formerly of Pittsburgh, Pa. He was educated there and at St. Johns military academy of West Virginia.

## Shocks Neighbors

A startling sight indeed, to see a bold copper goggling and gasping as he peered cautiously over a Hollywood hedge! It all seemed so foolish to Edyine Marcelle as she locked down from her tooth-stool, but she agreed to look up her sunshine back of a screen in the future, so the horrified neighbors could give their spyglasses a much-needed rest.

## Jelly Making Is Learned by Club

SKELLYTOWN, April 4.—Fruit juice for jelly should come to a boil before sugar is added, Miss Dalton Burleson, home demonstration agent, told Sunshine club members Tuesday in a meeting with Mrs. L. Feigenspan.

To determine the quantity of sugar needed, continued Miss Burleson, test the juice for pectin before making jelly. This test is made by pouring one tablespoon of boiling fruit juice into one tablespoon of denatured alcohol. Let the mixture stand a few minutes and if the pectin precipitates in a solid lump or in sheets equal proportions of sugar and juice should be used. If less pectin is indicated, less sugar should be used.

In fruits containing little pectin, such as cherries, rhubarb, strawberries, and peaches, the jelly maker may add apple juice to supply pectin, Miss Burleson said.

Refreshments were served to Miss Burleson; Mrs. John Nichols, a guest; Mmes. B. L. Barnes, W. S. Boyd, A. B. Corley, E. E. Crawford, E. Hatchell, E. R. Hawkins, J. C. Kennedy, L. M. Roberts, and J. C. Sims.

Mrs. Walter Wanner presented the financial report for the past year. Mrs. Charles Mullen made a report on the recent fashion-banquet served by the Auxiliary.

Mrs. E. C. Wilson was in charge of the lesson-hour, and conducted a pre-Easter study. Mmes. J. C. Richie and George Pflaue, hostesses for the afternoon, served refreshments to 29 members.

L. C. Vanderburg, Others who sent gifts for the shower were Mmes. Mary Scoggins, W. E. Napier, Harvey Beard.

The group also visited little Louise Allison, who is ill at Merton, during the afternoon.

Present were Rev. J. L. King, Mmes. King, Buzbee, Arthur Hall, C. Crane, Ben Walker, Travis White, Jack Ross, Myrtle Francon.

## NEW YEAR FOR PRESBYTERIAN GROUP STARTS

DELEGATE IS NAMED FOR MEETING NEXT WEEK

Starting a new year's program, women of Presbyterian Auxiliary met in the church annex yesterday, heard reports on work of last year and made plans for coming months.

Mrs. L. Burney Shell was elected delegate to the Presbyterian next week in Canyon. Members agreed to meet through the summer at 3 p. m. instead of 2:30, and to start the spiritual life group meetings at 2:30 instead of 2 p. m.

Mrs. Walter Wanner presented the financial report for the past year. Mrs. Charles Mullen made a report on the recent fashion-banquet served by the Auxiliary.

Mrs. E. C. Wilson was in charge of the lesson-hour, and conducted a pre-Easter study. Mmes. J. C. Richie and George Pflaue, hostesses for the afternoon, served refreshments to 29 members.

L. C. Vanderburg, Others who sent gifts for the shower were Mmes. Mary Scoggins, W. E. Napier, Harvey Beard.

The group also visited little Louise Allison, who is ill at Merton, during the afternoon.

Present were Rev. J. L. King, Mmes. King, Buzbee, Arthur Hall, C. Crane, Ben Walker, Travis White, Jack Ross, Myrtle Francon.

# VICTORIOUS STUDEBAKER

## offers a gigantic new value!

**ONLY** the new and greater Studebaker Corporation, operating on a parity 1935 basis with millions in new capital, no bank loans, no burdensome overhead and no excessive plant valuation can afford to offer you a deal like this.

If you've been shopping around you know that this Studebaker delivered price is the real bargain opportunity of the year. This enormously roomy sedan isn't just another car—it's a brand new 1935 Studebaker—a Champion—with incomparable Studebaker prestige and performance.

The sleekly streamlined body is steel reinforced by steel with no wood pillars or braces but steel welded to steel throughout even to the roof panels. And the brakes are the finest in the world—Studebaker's new compound hydraulics.

Come in and compare this Studebaker in every detail with other cars and then go out for a convincing trial drive.

**O. D. KERR MOTOR CO.**  
112 North Somerville Pampa

Your present car will be accepted as part payment—the balance in convenient monthly payments at very low rates.

# PENNEY'S

J. C. PENNEY COMPANY, Incorporated

**HEARTS AND A PLATE**  
 CHICAGO, (AP)—The way Earl Mayfield told the story it was like this:  
 "His wife's temper was all right except when she got too many hearts in a game of hearts."  
 "I threw a heart on her trick and she threw a plate on my head," he said in court during a divorce hearing against his wife, Mildred. He alleges cruelty.

**CHEAP PAINT...**  
*is entirely TOO EXPENSIVE*

Low-grade paint always costs far more in the long run than high-grade paint. That's because good paint—like Lowe Brothers High Standard—covers more surface to the gallon, retains its finish much longer, cuts down painters' time and looks better. Before you paint come in and get the facts about paint economy. We can save you money.

**Johnson Hardware Company**

**FRANCE HOPES TO FRIGHTEN ARMED REICH**

**UNITED FRONT WITH BRITAIN, ITALY SOUGHT**

BY RICHARD G. MASSOCK. (Copyright, 1935, by The Associated Press.)  
 PARIS, April 4 (AP)—High sources said today that France, while eager for a general European security pact to include Germany, hopes for a united front with Great Britain and Italy to "frighten" the Reich.  
 Foreign Minister Pierre Laval, it was disclosed, will seek to embody these two objectives in a program he will present at the conference of the powers at Stresa April 11.  
 The first point in his program, it was said, will be a clear-cut document signed by France, Great Britain, and Italy setting forth their determination to resist any threat to European peace.  
 The second objective, the high sources said, will be an understanding of essentials of a general European security pact to which Germany will be invited to adhere.  
 Failing to obtain an agreement on the general security pact, it is reliably stated Laval probably will seek mutual assistance agreements among France, Russia, and Czechoslovakia.  
 Officials indicated there would be little difference between such pacts and the pre-war military alliances "although the word alliance is no longer used in diplomatic language."  
 The French feel Captain Anthony Eden's visits in Eastern European capitals have shown that all European countries with the exception of Germany are generally agreed on the necessity of a show of unity designed to make Reichsfuehrer

Hitler hesitate before "going too far."  
 Although England is regarded in government circles as the only power undecided on what course to follow, French official circles hope the Stresa conference will help in ironing out her hesitancy.  
 Reports that France's military preparations were undertaken as a result of information obtained after the Berlin conversations of Sir John Simon, British foreign secretary, were officially denied. Authorities said the precautions were based entirely on general necessities produced by Germany's announcement of her determination to assume conscription.

**Unfinished Match Holds Interest in Houston Net Meet**

HOUSTON, April 4 (AP)—An unfinished match promised today to furnish the only upset of the fifth annual River Oaks tennis tournament.  
 Hal Surface of Kansas City, and former University of Texas netter, grabbed the first set of a third round match from Jake Hess of Houston, 9-7, and had a four game tie to lead in the second when darkness left the match unfinished until today.  
 Hess was seeded seventh in the tournament. All of the other matches ran true to form as Wilmer Allison, Betsy Grant, Berkeley Bell, Gilbert Hall, "Lefty" Bryan, Martin Suxby, and Wilbur Hess gained the quarter-final round.  
 IT'S ALL WET  
 WASHINGTON, (AP)—April showers bring May flowers" in southeastern United States and along the Pacific coast—but they just bring more rain during May in the rest of the country.  
 Government scientists cracked another popular belief today, when they said most of America gets more rain in May than in April.  
 The old saying works out right in Tennessee, Alabama, Mississippi and parts of Georgia, and in Washington, Oregon and California. In the rest of the country, it's all wet.

**Class Group Has Easter Luncheon**

An Easter luncheon was served to group three of First Baptist Dorcas class yesterday in the church dining room. Each member contributed a dish for the meal.  
 Tables were decorated with grass-covered mirrors where Easter chicks perched, and plate favors were colored candy rabbits.  
 Mrs. A. G. Post presided while class reports were given by Mrs. R. H. Routh, Mrs. J. A. Meek gave the closing prayer.  
 Mrs. Carl Smith was a guest, and other members present were Mrs. W. J. Turpin, W. F. Yeager, Virgil Hill, Fritz Waechter, Walter Kirby, Harold Giles, W. R. Bell, Dee Campbell, E. A. Davis, Cecil Lunsford, B. W. Rose, Bo Barrett, S. O. Garner.

**Russ Allen Talks On Gas Problem**

The various angles to the state gas controversy were discussed before the Rotary club yesterday by Russ Allen. He explained the problem of the legislators and told of the various interests and investments which it was necessary to consider when passing any legislation.  
 The program was designed to interest those connected with and interested in gas and oil in this territory. A number of oil company officials and employees were guests of the club members. The meeting was arranged by Bill Castleberry and Mel Davis.  
 Visiting Rotarians were H. M. Cantrell, S. E. Allison, Troy Newton, R. M. Hobby, T. D. Wiggins, H. S. Wilbur, Dr. E. H. Morris, and M. N. Davie of Canadian, and Alvin Hendricks of Littlefield.  
 Harry Phillips, high school assistant coach, was introduced as a new member.  
 Deputy Sheriff O. T. Lindsay of McLean was in Pampa yesterday afternoon.

**Flowers Will Be Given Women at Refrigerator Show**

All women of Pampa territory are invited to attend the electrical refrigeration show which opened at 9 o'clock this morning in the Southwestern Public Service company building.  
 The six Pampa dealers in electric refrigerators are sponsoring this show, and latest types of home refrigeration will be displayed. Each woman who attends this evening or tomorrow will be presented with a carnation, gift of the host dealers.

**Music of the Gay 'Nineties Is Sung In Current Movie**

"Gay Nineties" music, of especial interest to Pampa music circles this week because of the costume program to be presented by Treble Clef club members at the state music club convention tomorrow in San Angelo, is cleverly presented in a

one-reel film on La Nora theater program today.  
 Several songs that rose to popularity in the nineties and are still widely sung, are presented in this movie short by their composers. The setting is a dinner with the composers as honored guests and Pat Rooney as toastmaster.  
 Such songs as "There'll Be a Hot Time in the Old Town," "Sweet Rosie O'Grady," and "Has Anybody Here Seen Kelly," are on the novel program of the unusually entertaining short.

**Band Concert To Be Monday Night**

The annual concert of the Pampa handle band will be given at Pampa Monday night in the high school auditorium, under the direction of C. W. Beene.  
 Mr. Beene announced that Pampans are invited to attend. The program will be free. Mr. Beene's band is rated as one of the best in the Panhandle, and has won praise from Governor James V. Allred. A number of Mr. Beene's students in the past have won first prizes in the national band contests.

**Hoover Nine to Battle Hopkins**

The Hoover baseball team, working out every afternoon, will tangle with the Hopkins nine Sunday afternoon at 3 o'clock. Business Manager C. V. Fleming reported this morning. The game will be played at Hopkins.  
 First workout of the season for the Hoover team was called last Sunday. Daily practice has been the routine since. The team will play a couple of exhibition games away from home before officially opening the season in Hoover April 21, with the Hopkins nine Sunday afternoon at 3 o'clock. Business Manager C. V. Fleming reported this morning. The game will be played at Hopkins.  
 Claude V. McGowan of the post office staff is recovering from an attack of pneumonia in Worley hospital. His mother, Mrs. Ella

McGowan, and a sister, Mrs. Glen Chambers, both of York, Neb., are here.  
 Mrs. Dallas George of Miami was a shopper here today.

## Crime Smears San Antonio's Transient Camp

SAN ANTONIO, April 4. (AP)—A slaying led to officers discovering some startling facts about the San Antonio transient camp.

Found in it were an ex-convict, admitted slayer of Percy A. Calkins; two men wanted for burglary; an assortment of guns, dirks, blackjacks and other weapons; and an 11-year-old boy from Joplin, Mo. Sheriff Albert W. West Jr. ordered the arrest after James McAllister, admitted slayer of Calkins, a hot gun salesman, had been arrested in the bureau. He was taken to Edinburg, near where Calkins' body was found.

After finding a pistol and a sawed-off shotgun near McAllister's bed, Sheriff West ordered all occupants herded to the county jail.

About 350 of the transients were fingerprinted yesterday and their records were checked.

Pete Garcia, alias Alfonso Garcia, sent to prison from El Paso county, and who escaped July 5, 1933, admitted his identity after fingerprints revealed him as "wanted."

The Joplin youth gave his name as Charles Laughter. He was released to juvenile authorities and his father was notified.

**SHELLS IN PLAINVIEW**

**Free Vaccines For Needy Class Are Announced**

The State Hygienic laboratories, a division of the state health department, is now prepared to send and will furnish certain vaccines and medicines for indigent patients, according to an announcement from Rep. Eugene Worley of Austin. County and city health officers can make application for the medicines.

Typhoid vaccine for the immunization against typhoid fever; diphtheria toxin for the immunization against diphtheria; rabies vaccine for the prevention of rabies; Schick toxin for detection of children who are susceptible to diphtheria; silver nitrate to be used in newly born babies' eyes.

There are other big public health problems which are now confronting the state, one of which is typhus fever, is now being studied in the laboratory, and vaccine is now being prepared for the prevention of typhus fever, and I am in hopes that it will be released soon.

The laboratories are saving the counties and cities of the state by furnishing these biologics in excess of \$40,000 a year.

All city and county health officers are entitled to the vaccines for their indigent patients; also bacteriological and chemical laboratory tests are made on the indigents of the state without charge.

The state hygienic laboratory does not compete with private laboratories but furnishes these services to those who can not afford to pay for the same.

"It is my opinion that the state service will help many poor people who would otherwise suffer, and will undoubtedly save some lives," Mr. Worley said.

## Breck Walker's Nephew Killed

BRECKENRIDGE, April 4. (AP)—Carlton Walker, 40, nephew of Breck Walker, founder of Breckencridge, was killed today in an automobile collision en route to a ranch west of here.

Frank Disicelo, driver of the other machine which figured in the collision, was injured and taken to a hospital.

Walker was formerly vice president of the First National bank and manager of the Walker estate. The ranch to which he was going today covers 35,000 acres in Stephens, Throckmorton, and Shackelford counties.

Walker was reared in the Breck Walker home. Mrs. Breck Walker of Fort Worth was en route here and funeral arrangements were withheld pending her arrival.

**LEGISLATURE**  
(Continued from Page 7)

previously had approved an optional state monopoly plan, reversing an earlier stand for state sales. Neither mustered sufficient strength to indicate it would poll the necessary affirmative two-thirds majority needed to submit. The compromise, however, won its initial test, 115 to 28, a margin of 15 over the two-thirds plan, by which sale of liquor in unsealed packages or for consumption on premises would have been prohibited, also was a compromise, effected after proposals similar to those advanced in the house had been rejected.

Both branches were in agreement on the policy of local option.

Another proposed constitutional amendment, one favored by the house, was dealt a severe blow in the senate. It would exempt from all taxes, except school, \$3,000 value of homesteads, a class of property exempt from state taxes several years ago.

The amendment was passed to third reading, 15 to 14, but the majority was five short of the affirmative two-thirds needed. The senate also stripped from it a provision to authorize classification of property other than real, a power designed by the house for the legislature to exercise in raising new revenue for that lost by the exemption.

Alfred Bill Killed  
Chief opposition to the exemption centered in the senate to the probable depletion of income for smaller counties and municipalities.

## Half-Way Mark Sees Culbertson Bridge Lead Safe

NEW YORK, April 4. (AP)—The Sims-Culbertson bridge match reaches the half-way mark today with Ely and Josephine Culbertson on the long end of the score by 9,460 points.

This was their margin over Mr. and Mrs. P. Hal Sims at the end of 70 rubbers in the 150-rubber match that is supposed to decide the superiority of one or the other of their systems of bidding.

Honors in yesterday's play went to Hal and Dorothy Sims who made a net gain of 1,880 points and at one time had reduced their opponents' lead nearly 4,000. At the end of the 64th rubber, the Culbertsons' advantage was 12,920 points. Then the Simses swept through four rubbers and brought the difference down to 9,070, only to lose part of the gain on the next rubber.

The rubber score stands 39 to 31 in favor of the Culbertsons, with a total point score of 61,250 to 51,790. Among a large group of kibitzers at Crocker's club last night was Lieutenant Governor Lee Cantor of Arkansas. Culbertson invited him to sit at the bridge table with him and playfully remarked: "I would put you behind Mr. Sims, but you can't learn anything there."

"Well, Mr. Culbertson," said the lieutenant governor, "if you lose this match you can come down to Little Rock and be my publicity agent."

"I'll remember that," replied Culbertson. "Maybe I'll have to."

# Garner Leaves His 'Setting Hens' To See Senators Play

BY EDWARD J. NEIL  
Associated Press Staff Writer.

WASHINGTON, April 4 (AP)—Between his "setting hen" and the approach of the baseball season, Vice President John N. Garner, the ablest Texan, has plenty on his mind these days.

The "setting hens" are the conferees who are trying to hatch out the \$4,800,000 work-relief bill under Garner's prodding. Baseball has him bothered because he's a red hot supporter of the Washington club, and he fears that Clark Griffith bought a pig in a poke last winter when he got Bump Hadley from the Browns. Garner fears that Hadley's pitching arm isn't going to be any good any more.

The vice president though he shuns social activities, gets to bed nightly at 9 o'clock and rises with the dawn, is one of the easiest for visitors to see of all the personages in the capital. He's "home folks" to all the newsmen. He's a companionable man, even though he shuns a dress suit, and puts one on only when he has to—dinner at the White House.

**Unique Alibi.**

He has a unique method of saving his conscience for leaving the presiding chair in the senate to go to see the Senators play when they're in town.

"In the first place I kind of earn my money by going out there and parading with the boys when they want to raise flags and things, and rooting hard for them the rest of the time," he explains with a funny twinkle in the blue eyes that squint out at you from under his startlingly bushy white eyebrows.

"Then I always take two republicans and one democrat along with me, so that if any votes come up while I'm away, why the democrats have got a little the best of it. If I think the progressives, or the stand-patters are going to be voting against us that day, why I take a couple of them along instead of the republicans.

"You see, I don't vote in the senate unless there's a tie, so they give up two votes and we only lose one."

His two year-round recreations—poker and fishing—no longer provide him the sport they used to. He can't stand the long poker sessions any more—he's past 70 now—and a bit of a kink in his right shoulder

prevents him from tossing plugs with his old accuracy at the big and little mouth bass in the rivers and lakes down around his native Ovale, Texas.

"So I just row the boat, now," he says. "I get to see a lot more scenery that way, and I like that. That's one reason why I never did take much to salt water fishing. Not enough scenery around."

He's so amiable that after you've talked with him a while you can't help asking what he thought about that hilarious travesty on Washington politics, the Pulitzer prize musical comedy, "The I Sing," in which Victor Moore played the part of a vice president who was so out of things that he had to join a sight seeing party to get into his own offices. It might be a touchy subject, for Garner is widely recognized as a potent factor in the alignment of legislative forces under the present administration. But it isn't at all.

"I saw it as many times as I could," he chuckles. "I got to be real good friends with Moore. We swapped pictures and autographs, and I got a letter from him just the other day saying that he heard I was coming up to New York soon and inviting me to see his latest show. He's my favorite actor."

Garner, who has been in the government service for over 30 years, first as a representative, then as democratic leader and speaker of the house before his election to the vice presidency, expresses definite ideas about the obligations of a man to take office.

They tell a story of a new deal executive coming to Garner recently in behalf of a man he wanted to head an important governmental unit. The trouble was that the man under discussion felt that he could not sacrifice the income he made in private life for the salary the federal post paid. In other words he wanted more money.

Garner stormed over that.

"You go back," he told the big executive, "and you find you a fellow with a little patriotism, that's what we need today as much as brains or anything else. Find one who thinks his country is more important than the difference between his salary in private life and what the government can pay him. And if you can't find him, then this country really is in a hell of a fix."

## TALLEY WINS DISTRICT TWO GOLF TOURNEY

### BEATS SHAMROCK BOY BY ONE STROKE ON LOCAL COURSE

Buck Talley, Pampa's youthful golf ace, took first place in the District 2 Interscholastic league meet played over the Pampa Country club course yesterday afternoon. Talley had a close call, winning from Frank Mitchem of Shamrock by one stroke.

In taking first place against teams from Pampa, Shamrock and McLean, Talley carded a 70, one stroke under par. He went out in 35 strokes and returned in the same number.

Closely following Talley was Mitchem, little Shamrock sensation who played sparkling golf over a strange course to card a 71 or par for the course. He shot a 36 on the front nine and a 35 on the back nine.

Johnnie Austin, captain of the Pampa team and brother of Grover Austin, former high school champion and co-holder of the course record, turned in a card of 75 for fifth place on an alternate.

James Dougan of Shamrock turned in a 37 on the front nine holes and a 36 on the back nine for a 73 and fourth place. Red Watkins of Pampa turned in a card of 75 for fifth place on an alternate.

Other contestants were Jimmie Lyle, Charlie Stratton, Frank Kennedy, and Eugene Green, McLean; Eugene Berkley and A. D. Nichols, Shamrock; and Melvin Watkins, Pampa.

Following the tournament, Winston Savage presented Talley a gold medal, Mitchem a silver medal, and Austin a bronze medal.

Winners of the first four places

## ATHLETES TO ENTER TRACK MEET CHOSEN

### DISTRICT CHAMPIONS WILL BE NAMED TOMORROW

Pampa high school athletes who will compete in the district Interscholastic league meet here tomorrow were named by Coach Ochs Mitchell following trials in a number of events yesterday afternoon at Harvesters field.

The local think-tanks will compete against winning athletes of schools in 11 north Panhandle counties. The visiting contestants were selected through county competition, the four winning entries in each event being eligible to enter the district event. Winners in rural events will compete in a rural pentathlon program.

Preliminaries in a number of events will begin at 10:30 a. m. The finals will start promptly at 2:30 o'clock. No admission will be charged to any of the contests.

The Pampa Harvesters will be defending champions. Panhandle took second place last year. The Harvesters, Panhandle, Mobettie, Berger, Perryton, and Spearman are considered the strongest teams in the district.

Miss Kathleen Milam, coach of Wylie ball and girls' tennis, also selected her teams yesterday. B. G. Gordon, boys' tennis coach, named the boys who will compete for district honors following trials.

Part of the tennis matches will have to be staged in White Deer, there not being enough courts in Pampa. All local play will be at the high school. Play will begin at 10 o'clock tomorrow-morning and last through Saturday.

Volley ball, in the gymnasium, will begin at 1:30 o'clock tomorrow afternoon. Finals will be staged Saturday.

Pampa athletes and the events in which they will compete follow:

100-yard dash: Drake, Stewart, and Elkins.

Will go to Canyon for a regional tournament April 19 and 20. Judges of play yesterday were Jimmie Weir, F. D. Breedlove, Clarence Barrett, and Winston Savage.

220-yard dash: Hays, Drake, Haner or Elkins.

440-yard dash: John Mackie, Hays and Haner.

120-yard high hurdles: Ayer, Dunaway, and J. R. Green.

220-yard low hurdles: Stevens, McGuire, and Haner.

880-yard run: Ayer, Scott, and J. R. Green.

1 mile run: Boyington, Pierce, and Miller.

Relay: Hays, Haner, Dunaway, and Elkins.

High jump: Ayer, Oliver, and Scott.

Broad jump: Smith, Dunaway, and Stewart.

Pole vault: Dunaway and Watson.

Discus: Hartman, J. R. Green, and Haner.

Shot put: Green, Hartman, and Stewart.

Javelin: Dunaway, J. R. Green, and Smith.

Girls' tennis, singles: Dado Shields.

Girls' tennis, doubles: Flora Deen, Finley and Harriett Hunkapillar.

Boys' tennis, singles: Roy Webb.

Boys' tennis, doubles: Roy Webb and Tom Rose. (Fred McLaughlin, alternate.)

Volley ball: Elva Smith, LaRue Little, Evelyn Nash, Mildred McPhearson, Mary McColm, Bessie Bell Davis, Thelma Frazee, Jessie Ellis, Hilda Sublett.

## Gene Sarazen Holds Spot In Jones Tourney

AUGUSTA, Ga., April 4 (AP)—Gene Sarazen drew the attention of the betting fraternity today as the mighty guns of American golf were cocked for the second annual \$5,000 August national tournament. They call it Bobby Jones' tournament, for it is the outgrowth of an ideal cherished by the retired world's champion, but as the field moved into action in the 72-hole campaign, it was Sarazen who claimed the spotlight.

In betting circles, money was being loaded on the stocky club-wielder. He has been established a prime favorite. Quoted odds on Gene were 6 to 1, with Jones second choice at 8 to 1.

It would be a great show to see these two old rivals fighting down the stretch for the top prize of this brilliant tournament but the field seems a bit too fast for the great Bobby, who has been missing from the active ranks for five years and has lost the steadiness so essential to competition.

Altogether 66 of the country's noted campaigners were entered in the classic, including 58 professionals, nine amateurs and two so-called "business man" amateurs—Bobby Jones and Johnny Dawson of Chicago.

There were no less than six present titleholders on hand to fire for the coveted honor, headed by Olin Dutra, 1934 national open champion.

Sarazen and Tommy Armour play the first 18-hole round together, getting away at 10:30 a. m. (E. S. T.) today while the Jones match moves off at 1 p. m.

The opening round will be followed by 18-hole tours on Friday, Saturday and Sunday.

Dutra, coupled with Jimmy Thomson, the long-hitting Long Beach, Calif., professional, won a preliminary event yesterday, defeating several outstanding combinations in a Scotch foursome match. The winners turned in a card of 68, four under par.

John Cole of Fort Worth is transacting business in the city.

## SENSATIONAL VALUES... BUY NOW! 9th Anniversary Sale

In response to our opening advertisement in the Pampa Daily News yesterday we had more buyers in our store than any other time within the past six years. Every one of them was amazed at the values we are offering during our ninth Anniversary Sale. There must be a reason... you had better hurry so that you can share in the greatest values ever offered by any jeweler in this part of the country. And then—"You may use our liberal credit plan" . . . Buy Now—Pay Later!

**Chevrolet Trucks give maximum dependability, as well as maximum economy, because they're powered by VALVE-IN-HEAD SIX-CYLINDER ENGINES**

The most important consideration of all, in buying and operating trucks, is economy. Economy of first cost and operating cost. And the most economical trucks on the market today are—Chevrolet Trucks. They sell at the world's lowest prices. They give maximum operating economy, too, because they're powered by valve-in-head six-cylinder engines. And they will keep on saving you money, day after day and year after year, because Chevrolet builds so much extra quality and rugged reliability into them that their service is a carefree as their prices and operating costs are low. You get top economy when you buy Chevrolet Trucks, and that's exactly what you want in a truck—particularly today. Phone or visit your nearest Chevrolet dealer and get the right truck for your job at the world's lowest prices.

### Two Stabbed And Others Injured In Mill Battle

SAND SPRINGS, Okla., April 4 (AP)—Two men were stabbed and several others injured early today as strikers and workers fought at the Commander textile mill here.

The battle was brief and had ended before officers arrived but the opposing lines of men and women, armed with clubs and other weapons, still were standing in the road in front of the mills.

Those stabbed were Harve Bradford and Ed Bruton, strikers. They were not injured seriously. Most of the other injuries were cracked heads, received during the vicious exchange of blows when the union members attempted to keep a group of workers from entering the plant.

Will Knight, boss of the night shift, pleaded guilty in justice court to stabbing Bradford. He was released on \$1,000 bond.

The strike was called early today at a meeting of local No. 1840, United Textile Workers of America. Charges that the mill had violated a contract recently signed with the union were made by union members.

### DR. McMILLAN

(Continued from page 1)

ceived this morning, followed by the installation and ordination ceremony. Selection of the next meeting place was to close the convention. Children asked for the next meeting during yesterday's session.

Those from Pampa attending the banquet last night included the Rev. L. Burney Shell, pastor of the First Presbyterian church, George W. Briggs, C. H. Walker, Walt Warner, E. W. Voss, Harry Lyman, J. C. Ritchey, F. E. Leech, Leon Robinson, Harry Barnett, F. E. Smith, George Alden, H. K. Bunch, Brent Blonkvis, L. L. McCoin, Harry McEwen, Frank Prieuf, Charlie Mullen, Harry E. Hoare, R. F. Dirksen, and George Hart.

### Basketball Rule Changes Debated

CHICAGO, April 4 (AP)—College and high school basketball coaches emerged from their private huddles and committee meetings into the open today for a two-day debate on suggestions of rule changes in the game.

Every one of the 200 coaches, delegates to the National Association of Basketball Coaches, had definite ideas on the many proposed changes ranging from elimination of the center jump to 12-foot baskets. However, the general impression was that only one or two alterations would be recommended to the national rules committee, which meets in New York Sunday and Monday for definite action.

Probably the most important meeting on today's program was that of the referees and officials, who hoped to get a uniform interpretation of the rules. Because of the increase of inter-sectional games, a general uniformity of rules interpretation is a necessity.

### ALLRED

(Continued from page 1)

be charged with the specific duty of preventing gas wastage, with developing markets for domestic consumption of gas and with affording an equitable market for gas producers.

### SMITH WINS FOR TEXAS

SAN FRANCISCO, April 4 (AP)—Hard riding, straight shooting polo players from the Texas plains, led by Cecil Smith, and a picked team of Californians battle again next Sunday to break the tie of one game each. Smith turned in one of the most sensational performances seen on a polo field here when he scored ten goals yesterday to lead the Texans to a 13 to 11 triumph. California won 8 to 7 last Sunday.

In the dead of winter, great flocks of robins frequently descend on the town of Stecoah, N. C., where citizens make a practice of feeding them.

## MARKET BRIEFS

NEW YORK, April 4 (AP)—Stock market prices generally moved into higher territory today coincident with another brisk recovery in grains at Chicago. Cautious selectivity was the rule throughout, however, and scattered soft spots tended to restrict the advance. The close was fairly firm. Transfers approximated 530,000 shares.

GOSSIP HAS IT  
NEW YORK, April 4 (AP)—A Reno dispatch to the New York Daily News says that a half dozen members of the divorce colony are already to tell they have it straight from the household of George B. Thatcher that Princess Mdivani is expecting an heir.

### George Dunlap And Newcomer In Golf Meet

PINEHURST, N. C., April 4 (AP)—Quarter-finalists in the north and south amateur golf championship today included the defending champion and a newcomer to tournament play who eliminated two veterans in the first round.

The defending champion and former national amateur champion, George T. Dunlap Jr., took an easy 3 and 4 triumph over W. Stanton Barbour, New York, to enter the quarter-final round. His quarter-final opponent was Howard Tryon, Elmira, N. Y., conqueror of Tom Wooden, Atlantic City, 2 up in the second round.

The tournament dardhorse, Johnny Johnson, Lumberton, N. C., after eliminating Dick Chapman, Greenwich, Conn., last year's runner-up, advanced to the quarter-final round with a 5 to 2 victory over Ray McMullen, Byanispport, Mass. He was paired today with Morton McCarthy of Norfolk, Va. McCarthy eliminated H. J. Blue, Aberdeen, N. C., 4 and 3 in the second round.

Other quarter-final matches are brought together Ray Leubhan, Providence, R. I., the medalist, and

### BRIEFS FROM TRAINING CAMPS

ORLANDO, Fla., April 4 (AP)—The days when the Dodgers get themselves named the "Daffiness boys" because of such base running stunts as putting three runners on one base, seem to be over. Stanley Berger, new second-baseman for the Cleveland Indians, Berger has brushed away most of it, however, by hitting safely in eleven consecutive games.

GREENWOOD, Miss. (AP)—Regardless of the outcome of pre-season games, Bill Terry, New York Giants' manager, is seeing to it that his reserves get plenty of practice this spring. He has sent a full team of second stringers into every game, win or lose. He let the regular stay seven innings against Cleveland yesterday, the longest turn so far.

SAN ANTONIO, April 4 (AP)—A shake-up in the San Antonio division of the Texas transient bureau was announced today following the wholesale arrest of more than 500 transients for criminal investigation yesterday.

# NOW AUSTRIA PLUNGES INTO ARMS CONTEST

## FULL EQUALITY WITH OTHER NATIONS DECLARED

VIENNA, April 4. (AP)—Austria plunged unequivocally today into the European rearmament race.

A succinct communique, issued after Chancellor Kurt Schuschnigg met with his cabinet, gave notice to the world of the dismembered remnant of the old Austro-Hungarian dual monarchy would no longer be content with the tiny army of 30,000 men granted her under the treaty of St. Germain.

"The cabinet expressed the unanimous conception that the granting to Austria of full equality was a self-evident supposition," the statement said.

"The necessary procedure to increase the armed forces has been started," it added.

No indication was given of whether Austria planned to follow the lead of Germany in restoring conscription nor did the communique set forth the size of the army to which Austria feels herself entitled.

Simultaneously, there were abundant indications of a reawakening of the old-time military spirit. The regular army's crack honor regiment, a descendant of the historic palace guard, immediately went on guard duty before the Ballhausplatz, the government offices. The troops were resplendent in new, burnished helmets emblazoned with the double eagle of imperial days.

Announcement also was made that the army's annual spring parade of pre-war days would be revived at Vienna's Ringstrasse next Sunday. Some quarters interpreted the military display as a move to discourage anyone with the notion of opposing the rearmament program.

The cabinet appeared to be less concerned over the world reaction to its sudden move than it was over the attitude of the jealous private armies which owe allegiance to individuals as well as to the fatherland.

Among the most pressing questions were:

# MINERAL CONTENT OF NATIVE AND CULTIVATED PLANTS FOUND

What will the fascist heimwehr do? Will it consent to being eclipsed by a new national army? Will it conclude, as some of its leaders have already asserted, that the rearmament move is a scheme to allow its organization out of the picture?

Observers noted that the cabinet issued its pronouncement while Prince Ernst Von Starhemberg, the vice-chancellor and heimwehr leader, was out of the city. The government's move was regarded as drawing even more clearly the issue between Chancellor Schuschnigg's Catholic storm troops and the heimwehr.

The heimwehr (home guard), proud of its services in suppressing the socialists and resisting the Nazis, is still working industriously for the creation of a 100 per cent fascist state.

Austrian officials expect no great opposition abroad to the rebuilding of their army. The great powers in the past have encouraged the formation of the strong private forces, with Italy giving particular approval to the voluntary army system.

### THE HUNGRIER SEX

PHILADELPHIA, (AP)—University of Pennsylvania students approve of coeds as "dates" but regard them as "an invading menace" when it comes to eating in the Houston hall dining rooms.

The girls, complains the Pennsylvania student publication, are much too agile in beating men to the tables, and "take more time over their toast than a one-armed man eating shad."

The men want the coeds to eat in their own dining room—for women only—in Sargent hall. They refuse.

### HONEST

OMAHA, (AP)—Among the honest men in this world is George Mentis, a hat cleaner.

When he ripped the band off an old fedora out dropped a \$100 bill. He returned it to the owner.

Reward: \$2.50.

A copper vessel containing 11,000 silver coins of the eleventh century, including pieces from Germany, Saxony, Denmark, Italy, Persia and central Asia, was found buried in a forest near Lake Ladoga, U. S. S. R.

A study of the mineral content of native and cultivated plants in the Panhandle of Oklahoma was made recently by Harry A. Daniel, acting director of the experiment station, Goodwell, Oklahoma.

The total calcium and phosphorus content of these plants was compared in Panhandle Experiment Station Bulletin No. 56 to data secured from areas where mineral deficiencies in forage were responsible for certain diseases and abnormal development of livestock and the data obtained showed that many of the plants were deficient in phosphorus and that sorghum and grain were deficient in calcium.

In order to reduce the possible mineral deficiency in feeds, a mixture of forage was recommended. Legumes should be fed with forage sorghum or wheat straw. The former plants are high in minerals and the latter low.

Russian thistles and wild sunflowers were found to be higher in calcium and phosphorus than alfalfa grown in central Oklahoma. Tertiary beans, prickly pears, bear-grass and sage-brush were considerably higher in calcium than grama grass, but the prickly pears and sage-brush were lower in phosphorus than the grass. The plants were also analyzed for total nitrogen and the Russian thistles were found to be the highest in nitrogen and the bear grass the lowest of any of the weeds studied.

Samples of sorghum were collected from mature and immature plants, and the data obtained showed that the sorghum which did not make heads was higher in nitrogen

and phosphorus, while mature plants were higher in calcium. Data were also secured which show that badly burned plants were high in calcium and phosphorus.

Many victims of the black widow spider do not know they have been bitten until some time afterward, since the sensation is not specially painful.

A 10,000-watt sister station to the 75,000-watt transmitter XEFPN, near Piedras Negras, Mexico, is being constructed nearby at El Centinela plantation.

The black widow spider, so named because the female eats her mate, is found throughout the United States but is most plentiful in the southern half.

An oil well in Jefferson Davis parish, Louisiana, that accidentally became ignited, shot flames in the air that could be seen at night 50 miles away.

# WARD WEEK

When All America Goes Shopping

**Angora Mohair**  
2-Piece Suite Regularly \$69.95!  
**59.94**  
\$5 Down, \$6 Monthly, Small Carrying Charge

Save during Ward Week! Extra large davenport and high-back chair covered all over in 100% Angora mohair. Handsomely carved.

**Priscilla**  
Wards Regular 42c pr. Price is 49c  
Marquette of all combed yarns, cream or ecru. Fluffy 4-inch ruffles. Buy now!

**Marquette**  
Wards Regular 8c yd. Price is 10c  
Popular curtain yard goods at a Ward Week saving! 39 inches wide, in cream or ecru.

**Rayon Remnants**  
One to Ten Yard Lengths 21c yd.  
All rayon flat crepes, tafetas, sand crepes, satins. 36 to 39 inches in width.

**Turkish Towels**  
13c  
Regularly 15c! White pastel borders. Double thread weave. Bath size, 19x36 in.

**Axminster 9x12 Rugs**  
Regularly \$27.95  
**\$24.84**  
\$3 Down, \$4 Monthly, Small Carrying Charge

Copies of Persian and Chinese designs woven of imported rug wools. Finished with blue backs that won't show soil. Buy now—save more!

**Lighter Set**  
Wards Regular Price is 39c  
Combination ash tray and cigar lighter. Clamps to auto dash. A real convenience!  
**25c**

## A LAND TURNED UPSIDE DOWN

"Him upside down!" That's what the old Indian said as he alighted from his horse and replaced the "blue joint" sod behind the first plow he ever saw. After the terrific dust storms which have swept the west this spring, with increasing frequency and severity, we only wish that more of our forefathers had seen a prophecy in the old Redskin's remarks.

The thousands of tons of dust being spread like a pall of dew over the Eastern half of the United States tragically illustrate the basic agricultural mistake that was made when the plow first turned the poorer of the prairie sod and converted the wind-swept, grass-covered plains into huge wheat farms. Neither do we blame our predecessors, nor do we blame ourselves for letting the present generation find us laboring under these conditions. Ambitious planning, regardless of the diligence employed, embodies many mistakes, and gems of foresight contain tiny flaws of judgment which grow more dangerous with the passing years.

These same mistakes and flaws are necessarily inherited and borne by future generations. Merely because the craze for wheat caused the range to be cut up into farms, and the good sod turned under, there is no reason why the "rest of the world" should expect the farmers of today who justifiably inherited this tendency to immediately "reform," quit their wheat farming, and desert their investments just because they've made a mistake which the country at large encouraged. As a matter of fact they can't afford to give up their farming, nor can they humanly afford to reduce their efforts towards cultivating a commodity which has meant life-blood to them for generations without receiving national aid and cooperation.

Many farmers today will admit that a good grass country has been ruined where wheat cannot be successfully grown, and that the distressing problems of wheat surplus, production control plans, concomitant acreage rentals, and processing taxes are, to some degree, the results of this mad conversion to "golden grain." Yet, who could expect them to bear the burden of general correction of these evils alone? This administration's "planned economy" has conceived many schemes, some good, some bad, some far-fetched, some sane, towards emergency relief in many phases of life and industry. The almost unbelievable conditions existing today as a result of these dust storms, makes the tragedy of the future more realistic, more forceful than any hue and cry which the people who live in the country affected could put up. These very conditions, incidentally, should bring about the most thorough-going and immediate relief measure the government finds it possible to enact.

While the "shelter belt" which has been planned for this affected area sounds like a piper's dream in some respects, it can be made a success with the proper attention, and would be welcomed by the designated "tree belt." As an emergency measure however, it is worthless. More than five years would be required to give the trees even a start, and by that time many suspect that their greatest value would be to shade the camel caravans of the new American desert!

The only suggestion that seems practical, even with all its difficulties, is tying down the soil with grass or a wide variety of sorghums. Legumes, like lespedeza, would be ideal nurse crops while grass is getting another start. France faced the same problem many years ago on a wind-swept seacoast province, and after trying a tree-belt of maritime pine, ramparts of sand to protect the forestation, and other costly experimentation, a variety of grass that took hold with its roots (similar to Bermuda) was employed and the danger of wind destruction was definitely removed.

Instead of spending money for afforestation and the land it would require, and instead of sticking by some of the methods of crop production control, we believe it not only wise, but necessary that the government pay the land-owners to seed their acreage in grass and let it lay idle and untouched for three or four years. We further believe it behooves not only the government, but every land-owner, business and professional person, and citizen of the United States to do his share of urging immediate action on some plans of this sort before America finds it impossible even to give the land back to the Indians. We still admire, more profoundly than ever, the old Redskin who muttered in amazement: "Him upside down!"

## THE NEW DEAL IN WASHINGTON

BY RODNEY DUTCHER

NEA Service Staff Correspondent

WASHINGTON—One man drove senators into fits of hysterical laughter and another man, at another senate hearing, made men weep. Both incidents happened within a week and each was unique.

First I will tell you about William B. Shearer, famous as the "big bass drum" since he came to be credited with breaking up the 1927 Geneva naval arms conference on behalf of American battleship builders—a professional big navy super-patriot with a reputation for delivering the goods.

Shearer looks like a Prussian colonel of the big bad wolf type. He made you think of a pre-depression super-type of a high-pressure, rapid-fire, sweep-you-off-your-feet blue sky salesman such as never really existed except in one of your bad dreams.

Breezily, explosively, insistently, and with the self-assurance of rhinoceros cavorting through a daisy field, he virt became master of ceremonies and seldom allowed a senator to interrupt.

He boasted he knew "practically every captain and admiral in the U. S. navy and every Democrat in Washington." Often he was funny, as when solemnly explaining that in speaking to ex-secretaries of the navy, "We never say, 'How do you do, Mr. Ex-Secretary'; we always say 'How do you do, Mr. Secretary!'"

Shearer seemed preposterous, but the influence he had wielded—and perhaps still wields—in Washington seemed even more preposterous.

Italy indignant over new Abyssinian "incident" in which Italian subjects are robbed of 100 camels. But these reports are always exaggerated. Probably someone borrowed a cigaret.

It has been decided that the United States will continue a neighborly policy. Why not? Europe has been a true neighbor to us; at least in borrowing and forgetting to return.

## Dusting The Covers Of Texas History For THE TEXAS CENTENNIAL CELEBRATION OF 1936

Texas was progressing in good manners and right living as well as in governmental affairs. According to a story on the "morals of Houston" ladies could walk anywhere they chose without fear of being molested, or without having to witness brawls and disorder. Happily, "harmony and good order prevailed" everywhere.

Near Gonzales every one was interested in the new salt factory besorghum or wheat straw. The farmer of the new industry, and each day he proudly supervised the work that was going on. People came to him for advice about all sort of business matters, and he became an important character in the little village. His factory was located twelve miles west of town, near a small pond.

There was trouble at Bexar, however, with the bandit Leal and his gang of marauders. They were creating considerable disturbance in the southern part of the state, with their stealing and acts of misconduct. Captain Jack Hays and his Western Rangers were called to the rescue of the people. Forty miles coach had been stolen from one particular place, and Congress had finally passed a bill authorizing Hays to organize a body of men for southwestern defense. Necessary supplies were furnished by the government.

"We would advise all who have farms in the West to return without hesitation to their homes," the Houston Telegraph said, "as they may rest assured that they will be protected both in their persons and property, and will be enabled to plant and to gather the harvest in perfect security" with the coming of Jack Hays to their territory. Placing entire confidence in him and his ability to protect them from every danger, year after year he was their chief defender—he and his hearty group of brave men.

"In every section of the Republic the busy hum of industry resounds, and the citizens seem to vie with each other in prosecuting their various vocations and in developing the resources of the country." Their efforts were the direct cause for the development of the state to the prosperous state of the present time. Through the years of depression Texas has come forth with new visions and new ideals for the future. The Centennial celebrations in 1936 will personally not only the glorious past, but the more glorious hundred years that are to come.

threatened with suspension of work unless aided by the state. The committee almost unanimously recognized the justification for the plea but was afraid to set a precedent that might have a far-reaching effect. Committees agreed the junior colleges had relieved the state colleges of much enrollment but foresaw the time

AUSTIN, April 4. (AP)—Municipally operated junior colleges almost were successful in obtaining approval by the house appropriations committee of an allowance of \$20 per student to tide them over until better times. The committee directed a sub-group appointed to draft the educational appropriation bill to include municipal colleges. The committee recommended \$80,000 for each year of the next biennium to be distributed on the basis of enrollment but later voted 7 to 6 against it. In some instances the schools would have benefited as much as \$14,000. Rep. A. M. Alkin Jr. of Paris, leading the fight for the appropriation, asserted the junior colleges were taking a tremendous load off the state institutions of higher education and was the only group in the chain of tax supported schools that was not financed in part, at least, from the state treasury. Alkin represented many of them to be in need of money and

when the junior colleges, if once allowed a state appropriation, would be forever saddled on the treasury. They expressed fear the move would result in the junior colleges coming to the legislature again and demanding that their facilities be increased and that they be given a rank and support comparable to state teachers' colleges and senior institutions. It also would be a prime inducement to cities not operating junior colleges to establish them which would result in an ever increasing drain on the state, they argued.

The provision of house and senate bills under which the educational institutions would be given lump sum appropriations is likely to undergo a severe attack in both houses. The theory of the lump sum appropriation is that it will enable colleges to effect economies by permitting them to pay varied salaries to professors and instructors of equal rank but not on a par as to teaching ability or importance to the school.

College presidents appearing before the committee said fixation of salary schedules in the appropriation bills rendered it impossible to obtain instructors for lesser salaries. Under a lump sum arrangement new instructors would be paid less and promoted gradually with the difference applied to veteran professors and more valuable men. Rep. Harry N. Graves of Georgetown was the only congressman who voted against the lump sum.

# World's Fair Features To Be Seen At Ford Show Opening Here Friday

## Sound Film Tells of Trip at Chicago Exposition

A Ford show, which includes several features from the recent Chicago World's fair, will open tomorrow in Pampa at the Tom Rose used car show room, 111 North Ballard. The show is sponsored by Tom Rose, local Ford dealer, and other authorized Ford dealers of the Panhandle. It will be open from 1 to 5 and 7 to 11 p. m. daily through Saturday.

The World's fair exhibits, the sound film, and features are quite interesting, according to Tom Rose.

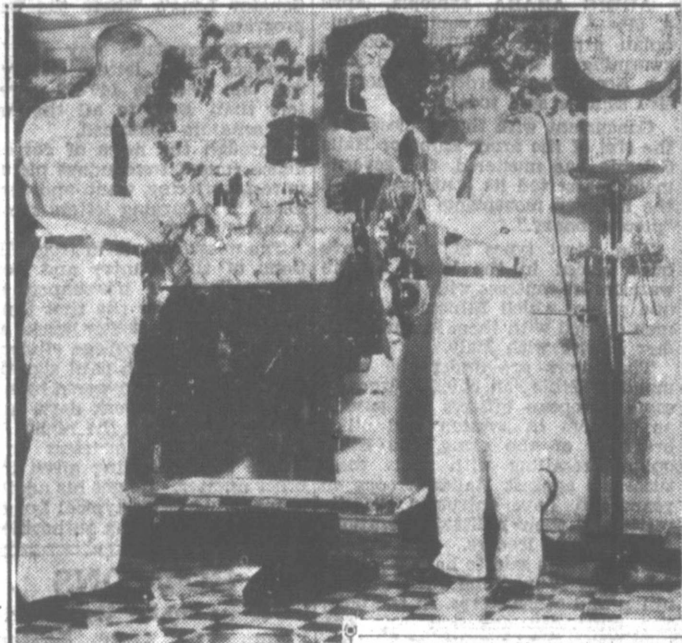

One of the features of the show is the sound film, "Ford at the World's Fair," which shows a complete trip through the World's fair, including practically every detail.

The Ford show comes to Pampa from Amarillo and Tulsa, Oklahoma, where it was attended by more than 30,000 visitors. Admission to the show in Pampa will be free, and a complete showing of Ford passenger cars and trucks will be brought here especially for the exhibit.

Above is the Ford that talks. Standing beside the car "with a mind and voice of its own" is Ray Parker, former RKO vaudeville performer and World's fair exhibitor of the Ford Motor company. The voice behind the scenes is Harry Green, technical engineer of the Ford organization. When told that Mae West likes the Ford, the car blushes and says: "That's the only time I over-heat."

Below is shown the motor assembly and dis-assembly crew at the Ford exhibit. Henry Bjeland, left, and O. E. Glover, of the World's fair crew are able to completely assemble a Ford V-8 motor in eight minutes and to tear it down in even less time. Charles Kessler, veteran of two Byrd polar expeditions, is in charge of the crew. A Ford show will open here tomorrow.

## AMERICA IS NOT STARTING A NAVAL RACE

### SWANSON POINTS OUT WE SANK NAVY AND GOT NO RESULTS

WASHINGTON, April 4. (AP)—"If a naval building race is started," says the 73-year-old boss of Uncle Sam's floating defenses, "it will be started by other nations, not by us."

This emphatic expression of American intention not to start the thing which many observers have feared might result if a new naval treaty is not reached to replace the one Japan has denounced effective December 31, 1936, comes from Secretary Claude A. Swanson.

Only yesterday the secretary made what many interpreted as a double gesture of friendliness toward Japan. He said American "naval craft" would pay a goodwill visit to Japanese ports in May. He also emphasized that the fleet maneuvers, which have drawn criticism, would be held in the North Pacific 2,000 miles away from any Japanese points.

He made known, too, that officials of the American navy see little objection to Germany's proposal for a 450,000-ton fleet.

Swanson emphasized that the building program under the Vinson act was decided on a year ago, before Japan denounced the Washington and London treaties, and before European nations began their heavy increases in military expenditures. The budget calls for a \$475,000,000 navy expenditure during the coming year, and Swanson indicated that the United States would not repeat certain concessions made at previous conferences.

"We made the world understand what disarmament by example was," he said. "We sank a good deal of tonnage—the navies of other nations grew despite that."

"We reached the conclusion that disarmament was a failure, and that a treaty navy was essential to our security."

Herbert Sivage of Mobeetie was in Wheeler Saturday.

## HEALTH SHOW TO BE HELD AT CLUB ROOM BY ICE COMPANY

The Pampa Ice Manufacturing company will hold a health show at the city hall club room Monday, Tuesday and Wednesday, April 8, 9 and 10.

Four shows will be given Monday, at 10:30 a. m., 1:30 p. m., 3:00 p. m. and 7:00 p. m. Three or four shows will be given also on Tuesday and Wednesday.

Moving pictures demonstrating ice refrigeration will be shown at each performance. The public is invited.

## Columnist Named Mayor of McLean

McLEAN, April 4.—D. A. Davis, president of the McLean Country club and McLean News columnist, was elected mayor in the quietest

Sparks was re-elected as marshal.

CANADIAN, April 4.—Clancy Fisher was re-elected mayor of Canadian Tuesday, receiving 437 votes to 293 for Knellenberg.

The vote for commissioner was as follows: Lindley 380, Lawrence 252, Humphrey 246, Davie 222, Isaacs 144.

**KILLED BY TRAIN**

LONGVIEW, April 4. (AP)—Lake Wesson, 20, of Sylacauga, Ala., was killed here today as he attempted to board a Missouri Pacific freight train. Wesson, Vinson Blackman, 20, and a third youth, whose name was not learned, were on their way from Alabama to the East Texas oil field seeking work.

Should oil beds become depleted, science might manufacture gasoline from lignite, says Dr. E. A. Gortner, chief of the division of agricultural biochemistry at University Farm, St. Paul, Minn.

**Have You STOMACH TROUBLE?**

If you're troubled with stomach distress, gas, and you need regular blood, Dr. Pierce's Golden Medical Discovery is a dependable vegetable Laxative. Read what R. L. Keadler of 807 W. 22nd St. Tulsa (Woods, Okla., said): "I used Dr. Pierce's Golden Medical Discovery with indigestion. After generally out of good food, I felt generally out of good food. After Dr. Pierce's Golden Medical Discovery gave me relief from my stomach trouble. After taking it I could eat without fear of distress." New size, tablets 50c., liquid \$1.00. Large size, tablets or liquid \$2.00. All druggists. Write to Dr. Pierce's Clinic, Buffalo, N. Y., for free medical advice.

See it at the **FORD Automobile Show**

Here's the Car Millions are talking about

OPENING PAMPA TOMORROW — FRIDAY

# FORD Automobile SHOW

TOM ROSE USED CAR BUILDING—1 TO 5 P. M. AND 7 TO 11 P. M.

**See the Big Ford Show**

Don't miss seeing this show—Ford 1935 V-8 passenger cars, commercial cars and trucks—you can see them all.

**Something Doing Every Minute**

Come prepared to stay—and enjoy yourself.

**Don't Fail To See . . .**

**THE HUMAN FORD**

This amazing car talks—it answers questions, tells time, reads numbers, blinks its headlights, argues, cracks jokes, and blows its horn, apparently without human direction. A mechanical marvel from the Ford Exposition at the World's Fair.

**FORD MOTOR ASSEMBLY CREW**

Two trained mechanics demonstrate the precision of Ford manufacture and the accessibility of the Ford motor by completely assembling a Ford motor in only 8 minutes; while a lecturer tells spectators how the various parts operate, another feature from the World's Fair.

**TALKING PICTURES**

Four different talking movies from the Ford Exposition at Chicago—free, at the used car show rooms.

**CUT-AWAY CHASSIS**

A Ford Automobile cut away so you can see all the features of the New 1935 Ford V-8 design and construction.

**ADMISSION FREE TO ALL**

**2 DAYS ONLY**

**FRIDAY AND SATURDAY**

1 to 5 and 7 to 11 P. M.  
Don't Miss It

**Refrigerator Demonstration**

Sat., April 6

See the new 1935 model Tri-Shelvard Refrigerator. 50 per cent more usable space at one-third less cost than the ordinary refrigerator.

THIS MUCH MORE IN A Shelvard

Around the world with a Crosley! A Radio for Every Home! At a price you can afford to pay!

**PAMPA GLASS & PAINT CO.**

# NIGHT AIR ATTACKS COULD NOT BE MENACE THEY WERE IN LAST WAR; DEFENSES MUCH IMPROVED

By HOWARD W. BLAKESLEE  
NEW YORK (AP) — Raiding planes riding to attack under cover of darkness will not be the same kind of menace they were in the World War.

The night air defenses available in 1918 were crude compared with the scientific eyes and ears developed in the last 15 years by the U. S. army and the Sperry Gyroscope company.

The ears will pick up planes 15 miles away; locate them exactly in the darkness as seven to eight miles; even distinguish the roar of a bomber from that of a decoy plane; and also allow corrections for wind and speed of planes.

The eyes, 60-inch reflecting mirrors with 800,000,000 candlepower beams will illuminate the planes before they come within the range of the defending guns. The lights pick up the flyers at about the mid-point between the spotting by the ears, or sound detectors, and the extreme gun range.

The progress of automotive transportation is summed up in the transport of these eyes and ears. They are built for travel with mobile anti-aircraft guns. They ride on trucks at 25 miles an hour and traverse any kind of ground where wheels do not sink.

They are compact enough for crowded military roads, to pass under bridges, through tunnels and to permit of rapid handling.

Even for defense of fixed objectives, such as cities, waterways, railway junctions and coast fortifications, the use of mobile searchlights, sound detectors and guns has advantages over non-mobile defenses.

Fast-traveling units permit flexibility in disposition of defenses and quick replacement of guns and lights out of commission. They minimize the danger of location and destruction by the enemy.

Planes have no defense. Muffling their engines would not help. For the propeller tips make as much noise as the engines. There is not even any appreciable diminution of the noise if the engines could be completely muffled.

The propeller tips alone are enough. Added to them is the noise from air rushing past struts and wings.

The ears are paired trumpet-shaped objects which look like loudspeakers. They are set 9 feet apart. At this distance they pick up the direction of sound, hence the direction of approaching planes.

Their mechanism includes pickups for all the main frequencies of sound produced by airships. In present bombing planes low toned sounds predominate. Smaller planes emit sounds of higher pitch.

"Eyes Follow Ears" As the ears of these military robots turn toward the attacking force, the searchlight beams turn synchronously with them. The lights turn much more accurately than human eyes can follow human ears.

Both eyes and ears are controlled on a single instrument board, the "comparator". It looks like the face of a giant bug, with two enormous eyes, and a small round mouth underneath.

These comparator eyes and mouth are dials, under control of one operator, moving the 800,000,000 candle-power lights to the points picked up by the sound detectors.

As much as 15,000,000 gallons of fuel oil may be burned in a single night in the "orange poles" of California to protect the citrus orchards from frost.

**Poison Dose Is Fatal to Farmer**  
THROCKMORTON, April 4. (P) —J. M. Thomas, 55, Throckmorton county farmer who was facing an indictment charging murder, died at his home 16 miles northeast of here yesterday from effects of poisoning.

He was found near death in the barn at his home and died without speaking. An empty bottle was found nearby.

Justice George Blacher of Throckmorton returned a coroner's verdict of suicide. The body was sent to Oney for funeral services.

## Scanning New Books

By MRS. JAMES TODD, Librarian. "WHATSOEVER" by Daniel Soot. The book, "Whatsoever" deals with a middle class of people on Texas farms. The Siddon farm was like many another Texas farm—even to including the mortgage. Gusste, the second daughter of the Widow Siddons was a young, vivacious, read-headed girl, who like many American girls of today was quite frank and outspoken, modern in every respect. She liked her gin and cigarettes.

The dashing young lothario who comes into the community posing as an oil man wins the heart of this young girl and almost wrecks her life. He was connected with a rope ring in Old Mexico and was using an old dilapidated farm house in the community as a hideout and a place to carry on his dastardly work.

One of the strong characters in the book is aunt Em, as you read "Whatsoever" you will learn to love the "modern aunt" Em of today, a person who understands the young people and their problems.

Some critics feel "Whatsoever" should not be placed on a library shelf or even in the home, "where it might fall into young and unthinking hands."

As a librarian, I feel it should be kept on the restricted shelf but feel as parents living in a modern age, we should read it, as the book is filled with the realities of life and as parents we are called upon to cope with some of the same conditions we find in this book. By reading it we will dust the cobwebs from our brain and go out into life determined to help our young people solve their problems.

"All things, whatsoever ye shall ask in prayer, believing ye shall receive."—Matthew 21:22. "Whatsoever" was not written for any specific time or place. It works now as well as ever.

THE VALIENT WIFE, by Margaret Wilson. "The Valient Wife" is a true story of a strong headed young captain of an American privateer and his young Quaker bride. Belinda, the wife, was lovely, willful and just eighteen. Mark Baldwin her husband, had sailed to fight the British in the war of 1812 between England and the States.

He is taken prisoner and shut up in the Dartmoor prison, and the beautiful Belinda goes to England to be near her husband. We see her in the farmers-market stalls near the gates of the Dartmoor prison yard. She seeks out the eyes of her husband as the French soldiers are stampeding for her eggs and butter.

Prison life had not been good to Mark Baldwin, but through Belinda's courageous spirit by smuggling in food and messages she keeps him alive and sane. It is a beautiful love story of two persons who defied the war and prison.

GREEN LIGHT, by Lloyd Douglas. "Green Light" is more complete in book form than it was in the magazine. Everyone who has read "Magnificent Obsession" will want to read this last book.

Dr. Newell Paige, a young surgeon who has ruined a brilliant career to

shoulder another's blame; Phyllis Dexter thought the man she loved was responsible for her mother's death.

Dr. Harcourt believes that love is a gift and hate a disease. These and many other characters are woven in and out through the story and help bring it to a happy ending. When the light turns green we know the road ahead is clear, and so in life man forges steadily ahead.

ISRAEL, by Hervey Allen. Critics consider this book one of the greatest biographies of our time. It is the biography of Edgar Allan Poe. By reading this book we are able to understand the life of Poe and can almost feel the innermost thoughts of his heart.

Poe's mother was an actress and died when she was 24 years old leaving him an orphan. It seemed that fate was always against him and life mistreated him; he was of a restless spirit, seeking adventure. Poe is the Anthony Adverse of literature, and anyone that has read Anthony Adverse need not be told to read "Israel."

## Ethiopian Army Swarms Toward Italian Borders

ADDIS ABABA, Ethiopia, April 4. (P)—A modern, equipped Ethiopian army of 100,000 men is swarming to the Eritrean and Italian Somaliland borders, authoritative sources said today.

Concurrent with this disclosure of the size of the army Emperor Haile Selassie has reiterated, the government reasserted its contention that the military movements are merely "precautionary."

The latest types of rifles have been placed in the hands of the warriors in contrast with the spears and sabers which Ethiopian tribesmen carried with them in their former battles with Italy.

The forces are under the command of Ethiopian chiefs. Although some European officers are serving as advisors in aviation and other branches of the army, the Ethiopians, recalling with pride their successes against Italian troops 40 years ago, have entrusted the direction of their military operations to their own leaders.

The army is said to have a plentiful supply of machine guns, ammunition and other stores. In the past, the important function of accumulating food supplies and transporting them to the troops was left in the hands of women. This primitive custom of warfare no longer exists so far as modern warfare is concerned.

The government has taken over the task of organizing the commissary and establishing lines of communication from the sources of supply to the advance posts. Under its direction provisions already have been accumulated at many strategic points.

## LONG LETTERS FAR OUTNUMBER ALL SENATORS

'Kingfish's' Letters Average 60,000 Per Week

WASHINGTON, April 4. (P)—From doctors and day laborers; pastors, housewives and mechanics; from school tots and graybeards who sign themselves "college professors," from many strata of national life, the healthy and sick, sincere folk and patronage-hunters, come the thousands on thousands of letters that Huey P. Long receives.

The senator will display for callers many letters praising his actions, proposing him for president and the like. Little is said around his office as to other condemning his course, or pooh-poohing any aspirations he entertains to enter the White House.

Of the laudatory communications, the range is from this one from Beverly Masters in Buffalo, Wyoming: "I think you are the best man in the world and we want to elect you president. I will do all I can for you I am four years old," to highly involved statistics from persons who want to add data to Senator Long's "share the wealth" program.

Long's associates say the mail averages 60,000 letters weekly and ran one week to 140,000 more letters than went to all the rest of the senators combined.

Through the mass of correspondence runs a tremendous picture of unrest, suffering, want, and earnestness. The begging letters are comparatively few.

The missives pour in from all sections of the country and Senator Long allowed a newspaperman to look at them for the first time today. In the past few weeks many have come from college students, a trend the Kingfish cauld significant.

Every letter is answered by a staff of 22 girls who work days, and 14 who labor most of the night. Long needs twice the quarters in the senate office building given to any other senator. He got his additional space only after a typical Long battle with the building authorities. He
