

PAMPAN TELLS STORY—Three survivors of the B-36 crash off British Columbia Monday tell of their experiences after their arrival at McChord Air Force Base, Wash. They are, left to right, Flight Engineer Ernest O. Cox, a first lieutenant of Pampa; Capt. Harold L. Barry, Hillsboro, Ill., the plane's pilot; and S/Sgt. Dick Thrasher, Chilton, Texas. About 12 of the crew's 17 men have been found. Hunt was continuing today for other survivors. (AP Wirephoto)

Lions Hear Discussion of Youth Development Council

The new Youth Development Council in Texas hopes to cut the population at Gainsville, Gatesville and Brady reformatories by 50 percent during the next two years.

Lewis Nordke, Amarillo news reporter and one of the six lay members of the council, told members of the Lions Club yesterday the council plans to examine all delinquents, mentally, physically and to check their backgrounds to see why they are delinquent.

When explaining the functions and objectives of the five-month-old council, Nordke, author of "The Cattle Empire," said there are 15 men and one woman on the board. Besides the six lay members there are eight automatic members. They are: the State Board of Corrections, the State Board of Juvenile Probation, the State Board of Prisoners, the State Board of Parole, the State Board of Pardons and Paroles, the State Board of Prisoners, the State Board of Parole, the State Board of Pardons and Paroles.

"When a parole law is passed, a delinquent should be turned over to the state to complete his term in the county rather than to the reformatory," Nordke said. "The council then makes a close check on the child to find out why he is delinquent. He said the new youth development law was put into effect Sept. 1, 1949, after the late Governor appointed a Code Commission to study the juvenile problems of the state.

"Much of the Texas youth law," he said, "was based on California's youth law. Texas youth program in the future will be centered around the cause of delinquency. If the cause can be found and eliminated, many of the delinquents will never have to go to a reformatory."

Fruit Damage Is Lighter in 1950

LOS ANGELES — The Chamber of Commerce reports that frost damage to citrus in January of this year was not as severe as a year ago but there was some loss in quantity and quality.

The Chamber's Agriculture Committee estimated that losses from the recent freeze ranged from 10 percent for Southern California.

The committee reported that grapefruit was hardest hit. There was a cut of 1,600 cars shipped compared with pre-freeze estimates of 9,800 cars, indicating a loss of more than 50 percent. California and Arizona shipped approximately 4,000 cars of oranges to fresh markets in January. This was about the same quantity as last year but 2,500 cars short of the five-year average.

CIO Purges Left-Wingers

WASHINGTON — The CIO's purge of left-wing unions charged with following every "twist and turn and zig and zag" of Communist policy — has been aimed at the United Public Workers, an organization of government employees.

The executive board, consisting of Mrs. L. E. Falkenburg, 716 N. Nelson, entered Highland General Hospital this morning to undergo surgery.

Mr. and Mrs. J. M. Patton, 622 E. Foster, left this morning for Baton Rouge, La., to visit their daughter, Mrs. F. S. Stafford, former Pampan.

Mr. and Mrs. V. R. Stuckey and children, 620 E. Foster, are visiting in Amarillo this afternoon.

Mrs. B. C. Paly and Mrs. Otto Patton are in Amarillo today.

of the heads of all CIO unions, voted Wednesday to toss out three unions — the Mine, Mill and Smelter Workers, the United Office and Professional Workers, and the food, tobacco and agricultural workers. Their membership totals about 80,000. The public workers has 30,000.

Action on the public workers was expected to be a mere formality.

With the expulsion of the public workers, the CIO will have amputated half of the unions it lists as left wing — once a powerful influence in the CIO.

Two unions, the United Electrical Workers and Farm Equipment Workers, were fired out of the CIO at its Cleveland convention in November.

They are Harry Bridges' longshoremen, the Marine Cooks and Stewards, Fishermen and Allied Workers, American Communication, United Furniture Workers, and fur and leather workers.

Harvesters vs. Sandies

Howard, Gallemore on All-District

JIMMY HOWARD, senior veteran forward and guard, was named today on the all-district 1-AAA team selected by coaches and sportswriters in the district. His fine ball-handling and sharp shooting made him a unanimous choice. He has scored 301 points so far this season and currently is the district's leading scorer.

Second Place At Stake as Season Closes

Three Pampa Harvesters close out their high school basketball careers tonight when the Harvesters conclude their 1949-50 basketball campaign against the Amarillo Sandies in Amarillo. The three hoopers who make their farewells tonight are Jimmy Howard, James Gallemore and Jack Sutton, a trio that will be missed greatly next year by Coach Clifton McNeely.

Gallemore and Howard were named today on the all-district 1-AAA first five, the only two Harvesters to be so honored. Both were unanimous choices of the men who picked the teams. Sutton was given honorable mention on the mythical star team.

In addition, Gallemore and Howard will be fighting for the district scoring crown tonight. Right now Howard is four points ahead of his teammate for that award, held the past two years by another Harvester, Derral Davis.

These two will definitely be in the starting lineup tonight. The other starters for the Harvesters will probably be Jack Sutton, Marvin Bond and James Claunch. This is the same quintet that went all the way last time against the Sandies. Bond and Claunch were honorable mention in the all-district team.

There is a possibility, however, that Coach McNeely may start Glen Tarpley at the center spot and shift Gallemore out to forward. Tarpley has been working at the post frequently this week and doing a fine job.

The starting lineup for the Sandies will be Gib Ford and Leon Doche at the forwards, Neal Carpenter at center, and Bobby Garner and Vern Irwin at the guards. These five boys also went all the way in the last Pampa-Amarillo contest. Ford is a member of the all-district team picked today. Irwin and Garner were named on the second five while Doche and Carpenter were given honorable mention.

So fans who witness tonight's contest will see ten players starting the game that were honored in some way on the all-district team.

The Harvesters will be shooting for their third straight basketball victory over the Sandies tonight. They defeated them in the playoffs at Canyon last season and then downed them again in the first encounter this season. In the two previous seasons that McNeely has coached the Harvesters he has defeated the Amarillos in the final meeting of a victory in the first meeting of the year. This time he gained and now has a chance to make it a clean sweep for the third season.

How he will go about it remains to be seen. In all probability he will again take the zone defense that he used the first time off the shelf and employ it again tonight. It worked very effectively in the first meeting after the Sandies had cooled off from the amazing percentage of shots they hit in the first half from far out on the court. The zone defense will lessen the advantage of height that the Sandies possess, and give the Harvesters a better chance on the backboards.

Tonight's game completes play in the district 1-AAA championship. The championship is already decided with the Berger Bulldog being the title holders. Tonight's game will decide the second place occupant. Both clubs currently sport 32 records in district play. Game time tonight will be 8 o'clock.

JACK SUTTON, senior guard, will be making his final appearance for the Pampa Harvesters tonight when they tackle the Golden Sandies in the Sports Arena in Amarillo. Sutton is a fine ball-handler, passer and rebound man. He has scored 97 points so far this season. He was given honorable mention on the all-district team announced today.

High-Scorers Unanimous Selections

Two Pampa Harvesters, Jimmy Howard and James Gallemore, were named today on the all-district 1-AAA team in a poll of sportswriters and coaches of the four member cities of the district. Both players were unanimous selections of the voters.

Two other players were also unanimous choices. They were Gib Ford, outstanding Amarillo forward, and Red "Hot" Hooper, Berger's sharpshooting red-headed forward. Hooper has scored 305 points in 27 games.

The fifth position on the first string was a tie between two more members of the district champions. They were guard Jimmy Brown and center Keith Lane, who both pulled down 9 points. Lane scored 201 points in 28 games for Berger this year.

Reserves on the team of ten men were Jackie Howton of Plainview, Earl Lammington of Berger and Vern Irwin and Bobby Garner of Amarillo. Irwin missed a first-five berth by one vote.

Those who voted in the poll were Coach T. G. Hull and sportswriter Jerry Sheridan of Amarillo; Coach William Banks of Plainview; Coach Tex Hanna and sports editor Bill McCorkle of Berger; Coach Clifton McNeely and sports editor Warren Hasse of Pampa.

Eight other members of the district team were given honorable mention in the poll. They were Marvin Bond, Jack Sutton and James Claunch of Pampa; Otis Rattiff and Wayne Taylor of Plainview; Leon Doche and Neal Carpenter of Amarillo; and Tommy McCord of Berger. Thus, the entire Pampa, Amarillo and Berger starting lineups were given some recognition.

The first six players named on the team are among leading scorers in the district. Most of them not only are good offensive players, but also defensively. Howard is leading the district scoring with 80 points, followed by Gallemore with 76. Ford is third with 70. Lane, having concluded his season, has 68. Hooper has 56 and Brown has 47. Brown is probably the finest defensive player on the starting lineup.

In the game that gave the Bulldogs the first district title in 18 years it was Brown who held Irwin to but 3 points after he had hit 26 in the previous meeting between the two teams.

Brown also deserves some sort of recognition for his fine play in the district. He is afflicted with a bad shoulder that slips out of the place quite frequently during a ball game. He merely calls time out, signals his coach what the trouble is, and then lays down with a bang. He is the absoluteist put back in joint. He then gets up and continues to play.

Two members of this all-district team are only juniors. They are from the Berger squad, Hooper and Lane. Those two have also been the big guns in the Berger attack all season and Coach Hanna won't be unhappy about their return.

Five members of the first ten players selected on the all-district list will face each other tonight at Amarillo when the Harvesters close their 1949-50 campaign against the Sandies in a battle for second place in the district. Gallemore has been named to the all-tournament teams in both tournaments that the Harvesters attend this season. They were the Howard Payne Invitational at Brownwood and the Childress Invitational.

Amarillo Boxers Victors in State Golden Gloves Tourney

FORT WORTH — (AP) — Golden Glove boxers made their way for the quarterfinals of the state championships here tonight with the Fort Worth Regional team holding the lead.

The quarterfinals are scheduled tomorrow and the semifinals and finals on Monday.

Andy Engleton, 32-year old former middleweight Golden Glove champion, led the Fort Worth team with a 1:24 knockout of Martin Johnson of Brownwood last night. That gave Fort Worth six points.

Amarillo, Houston and San Antonio are tied for second place with four points for each team.

State heavyweight Jim Hoff of Houston and Rice Institute got a decision over Clint Williams of Amarillo. Welterweight Roy Harris of Cut and Shoot won a decision over Kenneth Lyday of Paris.

In the top middleweight bout, Wallace Willard of House won a close decision from Jackie Woodruff of North Texas State College who is representing Dallas.

Dick Cole of Dallas, twice state flyweight champion, won an easy three-round decision over Odesa's Kenneth Nunley.

Other results included: Dickie Cole, 117, Dallas, defeated Kenneth Nunley, 118, Odessa (3).

Rafael Rodriguez, 119, Brownwood, scored TKO over Leon Palacio, 118, Amarillo (5) (cut ear).

Felix Baker, 118, Houston, knocked out Michael Lodise, 118, Waco (1).

O. Villardo Jaramillo, 125, San Antonio, defeated Clyde Gachter, 127, Wichita Falls (3).

Alfred Flores, 126, Bryan, defeated Albert Pacheco, 125, Lubbock (3).

Brantley Reese, 125, Austin, scored TKO over Lloyd Shirley, 125, Paris (2).

Clyde Daniels, 136, Fort Worth, won by default over Doyle Dobbs, 134, Abilene (3).

Ramon Perez, 135, El Paso, defeated Richard York, 135, Wichita Falls (3).

James McFadden, 135, Waco, scored TKO over Virgil Little, 132, Brownwood (3).

Bill Burkhardt, 147, Abilene, knocked out Jack Ferguson, 136, Tyler (4).

E. Villard, 146, Lubbock, defeated Fernando Ruiz, 146, Waco (3).

Robert Martinez, 145, Amarillo, scored TKO over Jimmy Dell-ganes, 146, Bryan (3).

Alfred Grice, 161, Beaumont, defeated Richard Lopez, 611, El Paso (3).

Harry Parish, 157, Austin, defeated George Reyna, 154, Waco (3).

James Wortham, 157, Amarillo, defeated Ronald Rhodes, 161, Abilene (3).

Bobby Jones, 170, Tyler, defeated Alex Guerrero, 166, El Paso (3).

J. Roy Henry, 163, Amarillo, defeated Dino Impolitti, 162, Austin (3).

Glen Shumake, 176, Waco, defeated Hugh Musselwhite, 170, Odessa (3).

Campbell Woodman, 175, Bryan, defeated Dan Williams, 175, Lubbock (3).

NEW YORK — (AP) — A successor to the celebrated "clubfoot comet," Assault, may be your host, a California-owned colt which is due to be prepred for the Kentucky Derby. Your host has a permanently twisted head and neck which give what is described as a "cockeyed look."

Owner William Goets claims he got that way as the result of an injury while he was a weanling, but there's a strong suspicion that he's just giving back amazed stares to people who are silly enough to bet on horses;

Michigan State will face its first Southwestern Conference opponent since 1934 when the Spartans meet Texas A&M during the 1952 football season.

West Texas Wins Over New Mexico

NEW YORK — (AP) — Looks as if Duquesne and Western Kentucky are just about "in" for the National Invitation College Basketball Tournament next month — Niagara, too, maybe.

Once-beaten Duquesne, ranked seventh in this week's Associated Press national poll, smashed sixth-ranked Long Island, 60-53, in Madison Square Garden last night.

Niagara upset City College of New York, 68-61. This strengthened Niagara's hopes for a bid to NIT, but the Selection Committee is reported leaning towards Canisius.

Murry (Ky.) State came from behind a 14-2 deficit to beat the New Britain (Conn.) Teachers, 62-58. Chicago Loyola also came from behind to sink Western Michigan, 85-71.

St. Michaels of Vermont won its first Vermont Conference championship in ten years by whipping Norwich, 63-30. West Texas trimmed New Mexico, 70-61, in the Border Conference.

Vanderbilt, ranked 20th, clung to the first place in the South-eastern conference by swamping Mississippi, 80-47. William and Mary spurted in the last 20 minutes to sink Washington and Lee, 70-57, in the Southern Conference.

Longview Franchise Released by Owners

LONGVIEW — (AP) — Stockholders of the Longview Baseball Club have released their franchise because the club has been a liability for two seasons.

The club finished first in the Class C East Texas League last year, drawing 63,103 admissions. The action was voted last night by stockholders after a check of records by Earl Hollandsworth, W. E. Johnson and E. C. Johnson, Sr.

Under league rules the fans of the city will have first chance on taking up the franchise. All players owned by the club will become free agents March 1 unless they are sold or the franchise is taken up.

Love Signs Pact To Coach Electra

LEFORS — (Special) — The much-mooted moving of the LeFors football coach, Coach Electra, to the Phillips High School building, was successful today when the LeFors football team, under the leadership of Coach Electra, secured a contract for a new football coach at LeFors.

Love played high school football at LeFors before going to West Texas State.

During the 1949 season that Love spent at LeFors the Pirates won 15 out of 16 and tied 1. They have a string of 13 straight district 2-A wins.

Twice the Pirates entered the state playoffs. In 1948 they lost a 14-0 tilt to the Phillips Blackhawks in a snow-covered field at Pampa. Then last fall they returned to face the Blackhawks in the district game and defeated them, 42-28. Then in the next round they were defeated by the state champion Lubbock Wildcats.

Electra, which up until this time has been in District 2-AAA, next season will drop into District 2-A. LeFors will head a three-man staff, the assistant to be determined. EARLY managers were that he will take his LeFors staff with him.

Reapers Defeat Phillips, 42-23

The Junior High School Reapers continued to set the pace as the highest scoring team in the Panhandle Junior High School Basketball League yesterday afternoon as they triumphed over the Phillips Junior High, 42-23.

In the B team game all the way their lead wasn't wide until the final period, during which time Coach Pernal Soggin ran in every boy on the bench.

The Reapers led 14-9 at the first period, 24-13 at halftime and 30-20 at the end of three quarters. The Reapers showed outstanding ability from the free throw line as they hit 13 of 22 attempted.

High point man was Buddy Coakrell, who hit 20. Freddie Woods added 7.

In the B team game the Pampa squad defeated the visitors 49-20. Ed Dudley scored 19 for the winners and Jimmy Bond added 12 more. At halftime the locals held a scant 13-15 lead.

The next game for the Reapers will be next Monday afternoon when they play West Texas Junior High of Canyon.

Alice Bauer, who is 22, and her partner, Clark Hardwick of Bel-Air, Calif., registered a mild upset by trimming Mrs. Betty Bush of Hammond, Ind., and her partner, Robert Sweeney, former British Amateur champion from London, 3 and 2.

The Marlene Bauer-Boardman team was a bit shaky at the start but got better as the game went along and turned three up, increasing their margin as the match progressed.

Alice Bauer and Hardwick held a two up lead at the turn with a 3-0. They had six one-punt greens on the front nine.

Among the spectators was a David Bauer, father of the two golfing sisters from Midland, Texas, who have figured prominently in Florida golf tournaments the past month. Papa Bauer observed his 55th birthday along with Marlene's 16th.

Pampa Boxers Defeat Panther Ringmen in Team Match, 8-4

The Pampa Boys Club boxing team hung up its initial victory last night when it defeated the Panther High School Panthers, 8-4, in the Panhandle Ring.

Earlier this season the local punchers lost to the LeFors Pirates, 8-4, at LeFors.

The fights last night were fast and close. There was but one scrap that was uneven, and in that one Delmar Cox of Pampa put Allen Kirk of Panther in a tie away in the first round. All of the other fights were hard decisions for the capable judges to pick a winner.

A good crowd was in attendance to back Coach Boyd Williams' Panther team, the squad that made such a fine showing for itself in the Berger District Golden Gloves tournament.

There was an exhibition fight between two Pampa featherweights, Dickie James and Carson Watt. The boys weighed in at 48 pounds and fought to a draw.

In the main fights the results were as follows:

83-pounds: Morris Moss, Panhandle, defeated Ronnie James, 74-pounds: Ed Hinshaw, Panhandle, defeated Frank Smith, 88-pounds: Jim Don Mitchell, Panhandle, defeated Claude Porterfield.

94-pounds: Billy Ed Cooper, Pampa, defeated Gary Reedy, 117-pounds: Tom White, Pampa, defeated Norman Bonner, 119-pounds: Bobby Williams, Pampa, defeated George Posey, 130-pounds: Jimmy Bennett, Pampa, defeated Hampton Butler.

Irish Boxers Trim Pirates

LEFORS — (Special) — The powerful Shamrock Irish boxing team trounced the LeFors Pirates at Shamrock last night, 8-2, in a team match. It was a night of fast fighting as the two amateur Schoolboy boxing teams tangled.

Two fights failed to go the regulation three-round distance.

In an exhibition fight two LeFors boys, Gordon Rutledge and Melvin Bigham, fought to a no-decision draw.

Results of the other fights were as follows:

55-pounds: Forrest Thompson (S) defeated Cecil Sanders (L) in the second round.

65-pounds: Leon Herrington (S) defeated Bob Tremble (S).

70-pounds: Don Burkhalter (S) defeated Don Maples (L).

83-pounds: Tom Christener (S) defeated Bill McCarty (L).

88-pounds: Paul Hall (S) defeated Fred Blackwell (L).

96-pounds: Ken Wood (S) defeated Bob Mayberry (L).

113-pounds: Jerry Pennington (S) defeated Dick Davis (L) in the second round.

144-pounds: Bob Newsome (L) defeated Paul Cooper (S).

120-pounds: Ed Carver (S) defeated Jim Welch (L).

139-pounds: Jimmy Pennington (S) defeated Friday Todd (L).

Steam, formed from moisture in the kernel, is what pops popcorn.

The next fights for the Pampa Boys Club team will be next Tuesday night when they go to Shamrock to face the Shamrock High School Irish boxing team, coached by H. Callan. Then on Friday of next week they go to Wellington to meet John Bray's Skyrocket mittmen.

WARREN'S WARMUP

By Warren Hesse—News Sports Editor

QUESTION: When did West Texas State College join the Border Conference?

CONGRATULATIONS ARE IN ORDER FOR James Galemore and Jimmy Howard, the scoring twins of the Pampa Harvesters, upon their selection to the District 1-AA all-district team. Both boys were unanimous choices of the coaches and writers who voted in the poll. The unanimous selection indicates the respect that all of the other district members had for these two fine athletes and young men.

Congratulations also to the other boys on the team who earned honorable mention in the poll. They were Jack Sutton, James Claunch and Marvin Bond. Sutton is a senior, Claunch a junior and Bond a sophomore.

Tonight you boys can get yourself some further honors. Go get a Sandie!

Saw many Pampa people over at Amarillo Wednesday night enjoying themselves at the professional tennis matches. The fans who witnessed that three and a half hours of court action saw some tennis that bordered on the spectacular at times.

Especially outstanding were the powerful games played by Jack Kramer and Pancho Gonzales. These two battled through one hour and 20 minutes of terrific play before Kramer finally won the first set, 13 games to 11. Both players held their own service through the first 22 games before Kramer was able to break through Gonzales' aching drives and take the 23rd game and then hold his own service, after a hard struggle, to take the first set.

The second set went to Kramer also, 6-4, as he gained the final game with four straight aces that left the crowd gasping.

Both Kramer and Gonzales, comparative youngsters to the game, constantly broke out in boyish smiles of enthusiasm at shots of theirs that caught the other off-balance and out of position.

In the first match, Frank Parker, long-time amateur champion from Milwaukee, showed the crowd one of the finest backhands it will ever be the pleasure of tennis fans to witness. Parker's backhand is not a soft shot. It is a power-laden, well-placed shot every time.

Pancho Segura, on the other side of the net in that match, outgrew the little volleyer, however, to take a three-set match, 4-6, 6-4, 7-5. Segura, fighting to overcome a disease that made him a near cripple while a baby, always played the game with a two-handed grip on the racket and he showed the crowd a lot of class with the unorthodox grip.

Parker plays with glasses, something else not too common in the tennis world. Both players were handicapped by a low ceiling in the Sports Arena which caught several of their long shots and turned them into points for the opponent. Parker showed an outstanding ability to get back and recover the long lob shots of Segura.

In the doubles match the fans were entertained with a bit of net play from both teams. Riggs and Kramer defeated Parker and Gonzales, 6-2, in the one set played. Riggs, his game rusty from inactivity, did offer his fine serve that went sizzling over the net.

In a bit of other shenanigans put on by the professionals, Gonzales volleyed a short while with Kramer, hitting the ball be-

Baseball 1950s Will Belong to Swifties; Success Spells Trends in Playing Styles

By HARRY GRAYSON NEA Sports Editor
NEW YORK (NEA)—Branch Rickey built the Cardinal organization with speed and has the Dodgers on top with the same prescription.

The first thing the president of the Brooklyn club looks for in a young prospect is ability to get over ground in a hurry. The arm comes next.

The kid will quickly eliminate himself if he can't hit, so why clutter up the place with a lot of fellows who can't move and throw?

The best pitching and the best hitting is no longer enough. Boston fans will testify to that after what happened to the Red Sox the past two campaigns. Success in baseball spells trends, so the 1950s will belong to the swifties.

This is to be especially true in the National League, where base-running and the one run is stressed to a much greater extent than in the American.

Mel Ott went out after the Giants belted no fewer than 22 home runs, yet wound up no higher than fourth in 1947. The Polo Grounders were rapidly getting nowhere in particular when Leo Durocher was imported in mid-season of '48, and the new pattern was cut when The Lip moved in.

Manager Durocher's kind of a ball club will lead off with the leg work of Thomson, Lockman, Dark and Thompson.

The Braves would appear to be adopting the old Giant methods in acquiring Sid Gordon and Marshall to join Elliott and Holmes, men who can't run a lick.

The Boston outfit has Earl Torgeson and another two or three who can move, however, and the purchase of Sam Jethroe from Montreal is strong evidence that Billy Southworth also has an eye on the speedometer. All Lead-Off Man Jethroe did was steal 89 bases in the International League, with opposing managers deliberately walking pitchers to head him off.

SPORTS AFIELD

By TED KESTING
Novice anglers are sometimes confused by all the debate on "What's the right size line." But they soon learn that the lighter the line, the farther and more effortlessly you can cast, and the fewer backlashes you will have.

Jason Lucas, one of our favorite angling authorities, lists the following points to consider when selecting a line to give the most ease in casting, and still assure you a reasonable chance of landing your fish.

In weed-free and snag-free water a veteran can easily handle the biggest bass on a line of 5-pound test or less. This is not for the beginner; but he can start with one of not over 12 pounds and work down to lighter line as he acquires skill.

In weeds or snags there isn't this difference between novice and initiate since both must horse in a fish before it tangles up. A 12-pound line will do in most places for one of very moderate skill. But in some southern water with dense, tough weeds and big bass, it may be necessary to go up to 20-pound test. Some recently developed 20-pound lines astonish the old-timers by their ability to cast even 3-ounce lures very nicely, even though they won't give the distance or ease of much lighter lines.

For muskies and large pike few veterans use lines over 20 pounds. It's a risk, but that's the fun of it. Where pike and muskies don't run very large, a 20-pound line should do even for the beginner.

The walleye isn't a particularly hard fighter, but he can snap a fairly strong line if he's permitted to hit the end of it head on. Most use about the same lines for walleyes that they would for bass, but a person who is inexperienced might do well to use somewhat heavier ones.

Too many anglers break lines because they fail to watch the end next to the plug, which should be cut off when it shows wear. They may be, in effect, fishing with a nine-pound line when they think they're using 20-pound.

Fishermen sometimes complain of having been sold rotten lines when the real trouble is varnish on their rod guides. This varnish can become very hard and develop sharp edges that scrape the line passing through. The cure is simple; merely scrape the varnish off carefully. Varnish remover might get on the stick or windings.

And while the Pirates have Stan Rokaj and Pete Castiglione, they are the one large contradiction, featuring Ralph Kiner, the greatest home-run manufacturer of our time.

But there aren't as many homerun swatters around a any more, so the game is to be speeded up as managers make necessity a virtue.

Cardinals do it from memory with Schoendienst, Diering, Musial and Slaughter. The Phillies get around, especially with Ashburn, Hamner and the new second baseman, Mike Goltz. Even the Cubs have the idea with Jeffcoat, Smalley, Pafko and two or three new hands, one of whom is First Baseman Preston Ward purchased from the Brooklyn organization.

The Reds will stand still, as per usual.

Successful College Coach's Life Marred by Phony Pro Wrestling
MOUNT VERNON, Ia. (AP)—Despite his tremendous success as coach of Cornell University, Paul K. Scott's life is marred by one bugaboo—wrestling—the professional variety, that is.

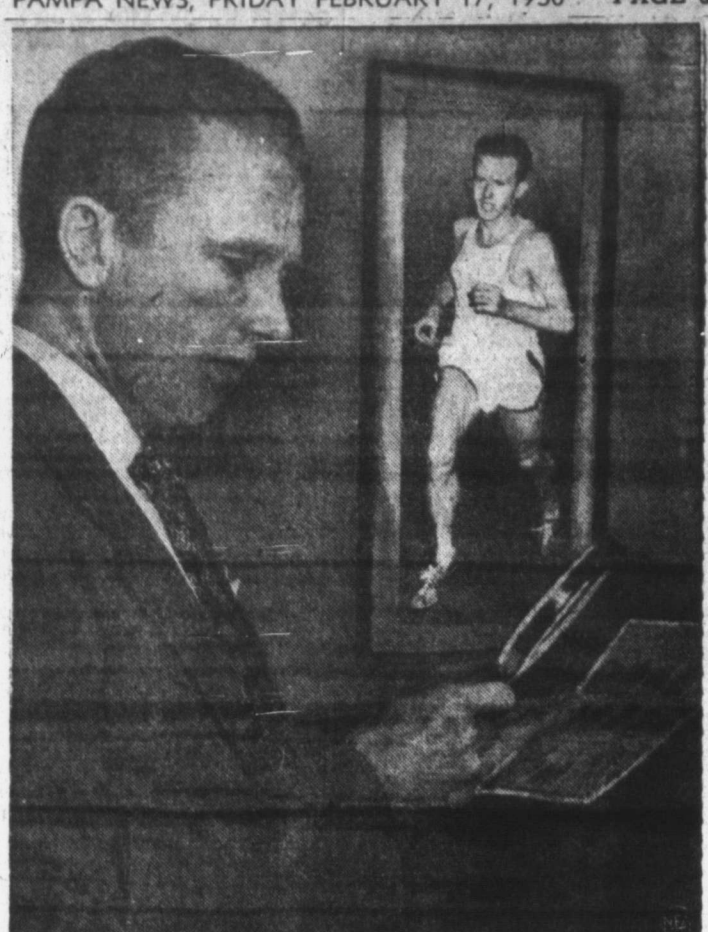

"The phony hero-villain in the straits in the pro game have given an erroneous and negative impression of the sport to the public," says Scott, who turns out one of the best teams in the nation year after year against schools mammoth by comparison.

"Professional wrestling compares to college wrestling, like bebop does to grand opera," Scott deplores the boom television has given the grogners.

"The one thing I have against the pro game is that people end up with the impression that college wrestling is the same—and nothing could be more wrong," he asserts.

"Amateur wrestling reveals the true fiber of an individual more than any other sport. A man is tested by tough personal combat against an opponent of equal size and comparable ability. It's a democratic sport. A man of any size and weight can participate, from the 121-pound class on up."

Hypnotist Put Taylor to Sleep; Got Job to Help Poor Brownies

NEW YORK (NEA)—Thees staggered into the Yankee Stadium, and Dr. Tracy's telephone rang.

"This is no gag, Doctor," said Charley DeWitt. "My brother, Bill, asked me to call you, take you to St. Louis for a conference. We believe you've got a good idea."

In St. Louis, Dr. Tracy was introduced to Zack Taylor and the DeWitt brothers' wives. He offered to show them how hypnosis worked, how it could be applied to ballplayers. All but President Bill DeWitt consented to the experiment. He refused to close his eyes. He had been in the dark all season. Enough had happened to the Browns already.

Charley DeWitt, Manager Taylor and the wives were asleep in a minute.

Taylor was first to awake. "This is wonderful," he said. "I certainly feel relaxed."

It was the first rest Taylor had all season.

"We could have used you in those 11-game losing streaks," he said.

Bill DeWitt required more convincing.

The trouble with the Browns is that they have been too sound asleep too long, but Dr. Tracy assured President DeWitt he had a code that would wake them up.

DeWitt wanted to know whether Dr. Tracy could hypnotize opposing pitchers. He pointed out that Ted Williams, Joe DiMaggio and some more could.

But Dr. Tracy said this wasn't necessary. All the Little Brownies' pitchers had to do was relax. Eddie Pellagrini didn't even need a bigger bat.

So Dr. David F. Tracy got the job.

He's a builder-upper, isn't he? And the Browns certainly need building up.

Scourge of the Hidden Taxes

In an editorial called "Those Hidden Taxes," the New York Herald-Tribune observes, "The citizen who grins and bears it each week when he takes note of deductions from his take-home pay, or who shrugs when he makes the quarterly payment on his income tax, has perhaps mercifully been spared a consciousness of the hidden taxes which fall upon him every day. The problem of tax reform, however, requires knowledge on the part of the citizens. It is to the advantage of the individual that he sees through the tax smoke screen which the experts have laid down—that he feel the pain of what has been devised to be painless."

It is a sure bet that not one citizen in ten thousand has any accurate idea of how deep hidden taxes cut into his pocket. For instance, on a \$10,000 house it was found that no less than 629 hidden taxes were involved in the construction, development of site and purchase financing. These taxes collected by the federal and state governments, from the architect, builder, banks, agents, insurance companies, contractor, manufacturers, jobbers and others.

Hidden taxes are not confined to big purchases like a house. The Tax Foundation found that 151 taxes applied to a loaf of bread. A woman's spring hat carried 150 taxes. A man's suit accounted for 138. A humble egg counted for 109.

No one knows the actual total of hidden taxes. Estimates indicate they may run as high as \$100 per family per year. And, of course, they come on top of all direct taxes. The magnitude of the latter is shown by the fact that in 1949 the average taxpayer worked one month for the federal government to pay the federal income tax alone.

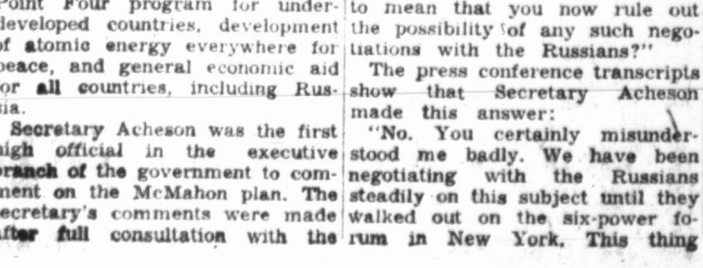

The federal government is the biggest tax-eater by far. It takes 71 cents of each tax dollar, while the states take 15 cents and local units 14 cents. By contrast, in 1932, the federal government took but 22 percent and in 1939, 39 percent.

What to do about this tremendous burden is a tough question. The Herald-Tribune says, "The overlapping of tax jurisdictions, the continuance of taxes which have outlived their original purpose, the crushing proportions of the tax burden, and the need to require the most careful study."

But the first step is to know, and the second is to be aroused."

INSTALLMENT TWENTY FOUR CHAPTER ELEVEN WAR UPON THE MIND

The British Fabian Socialists, like their Continental comrades, in their warfare upon the existing institutions fought on many fronts. But they recognized the fundamental importance of steering the minds of the masses and particularly of the young generation in the philosophy of socialism.

This great enterprise was carried on not as a debate between thinkers but rather in the form of a war upon established ideas. And this war consisted in taking over, as far as possible, the instruments of communication and of opinion in the hands of the American Socialists.

In the preceding chapter I have sought to give an example of this in the case of the churches. I selected that because it is the least known of these enterprises in revolutionary indoctrination. It is, however, only one example. The same determined effort has been made to get the use of the radio, the press, the editorial sanctuaries of book publishing houses, of the periodical press, of the labor unions and, of course, most important of all, of the schools in college administration, led by General Eisenhower, president of Columbia and Dr. Conant, president of Harvard, have declared emphatically against the use of Communist teachers in the colleges. It was high time. But it is a mistake to suppose that the Communist teacher is the only menace.

The Communist is banned on the ground that he is disloyal and will use his place on a faculty to promote Russian objectives. The Alumnus can be very dangerous in a government post where he may have access to government secrets. But this is not true in a college. The only harm he can do is to bring to the attention of the public the fact that the Communist is in the college. This is precisely what the Socialist professor can do—

with infinitely more effect because we have given him a coat of approval. He is a Communist. However, it is important that our people should understand the extent of the Communist and Socialist invasion in our colleges. The University of Chicago was shown to have on its faculties 60 persons who were members of various Communist fronts. One of these professors was a member of 12 Communist fronts. Another was a member of 14—

all organized by the Communist Party. The University of Wisconsin had 23 such "professors" and most Russia in America. Harvard turned up with 76 faculty members in these Red front organizations. One of them had joined 23 such "professors" and "lecturers." He is a teacher of history. What kind of history does he teach? Is he a teacher or a propagandist? There was an instructor of physics who was in 38 such Communist fronts.

One of these front organizations was called the Joint Anti-Fascist Refugee Committee. Its directors were a number of professors from Harvard, Boston University, Massachusetts Institute of Technology, Yale, Princeton, New York University, Stanford, and the University of California, and others. When Gerhart Eisler was indicted this committee raised \$8000 for him.

Communist have their own tactics. They have a right to have them. One is the Jefferson School for Social Science in New York. Another is the Samuel Adams School in Boston. You will find on the faculties of these schools and others who were also on the faculties of Harvard, Boston University, Smith College and New York University. In the Jefferson school these teachers are not so dangerous. They are properly labeled and they teach students who go to these schools to learn. They are not labeled and they get a crack at the minds of young men and women who are there to be educated and

In Hollywood

By ERSKINE JOHNSON NEA Staff Correspondent

HOLLYWOOD — (NEA) — If Harvey, the invisible rabbit, can have long conversations with Frank Fay and now Jimmy Stewart, was no reason why he should be lurching with Francis, a talking mule who attained stardom recently.

I spotted them at a table for two in the Hi cafe after Francis had left his waiter with the check—only to get it used in the next breath. They were in animated conversation and I listened in.

"Frankly, Harvey," the mule was saying, "learning to talk for the cinema was both easier and harder in itself. But talking to something that apparently isn't there is asperating. Why don't you emerge from that invisible dream world of yours and show yourself?"

"The high-pitched and bodacious voice which answered from the vacant chair also had a touch of irritability. "My agent told me to smart," said Harvey. "Too many animals already. 'What the moves need,' he went on, 'is an invisible rabbit.' And that was me."

"Who is your agent?" replied Francis in a half-hearted attempt to smother his jealousy. "This guy who has 10 per cent of nothing."

"Haze the history, Rusk, Raskin and O'Hare Office," answered Harvey. "He's a distant cousin of mine from the Kerry Patch section of St. Louis. He also has a right to be in the picture."

"Somebody should handle Lennie," said Francis peevishly. "Did you see him chewing up the scenery last night at the 'Frost' testimonial dinner for Leo the Lion?"

"That I did," said Harvey. "Leo's been around M-G-M so long he's beginning to look like one of the executives there."

"And so—moo—caw—" put in Francis. "Did you see that old yellow polo con? He's been wearing that for 20 years if he's worn it a day."

The rabbit and mule stopped being chatty long enough to order lunch. Francis, after fretting over the check, ordered some constabla benedict with a bale of hay on the side.

Fair Enough - Pegler

By WESTBROOK PEGLER (Copyright, 1950)

An unforeseen weakness in our form of government is keeping in power until the next election the party which put Soviet Russia in the dominant position which she occupies today and degraded the United States to secondary political and military status.

Dean Acheson, the secretary of state and friend and patron of Alger Hiss, whose conviction of perjury plainly implies treason in favor of this enemy, has now belatedly concluded that Russia is incapable of good faith and that we must prepare to meet force with force. It is not harsh judgment to say that Acheson shares the guilt of Roosevelt.

Truman and a whole cult of faithless men or, to put a gentler word on some of them, fools, who have finally confronted this one great and independent nation with a disaster that might be fatal. Acheson should be fired and the new Constitution which compels the nation to keep Truman in office now that disintegration is in progress.

A New York jury has choked his red herring down his throat in appalling. His pool-room remarks, his ring of traitors and in disparagement of conscientious patriots who had turned these vermin up was typical of the stupid flippancy which has passed for statesmanship since 1933.

Rude, uncouth and ignorant though he was in the words of Bernard M. Baruch, Truman still could have been loyal to his country had he not thought of the grimy prestige of his party and of the Roosevelt myth. To distract attention from these crimes against his own country, done by the Roosevelt combination of traitors, adventurers and preposterous Phi Beta Kappas, Truman campaigned on an evil list of fake issues that not one person in ten thousand had ever thought of. In the precious, wasted months since November, '48, he has continued to babble about "discrimination" about "taxes" in the South, and about the poll tax in a few states which have a right to regulate the franchise strictly as they like, except on the basis of race or sex. The state of New York can abolish election laws absolutely by raising the minimum voting age to 100 just as Georgia experimented by reducing her minimum to 18. The poll tax, granted them for fools. Meanwhile he was losing this nation's prestige and reducing her strength in the face of a rising power and hostility in Roosevelt's Russia.

Now that Russia has clinched with us like a fighter feeling out another, the Kremlin confidently knows from our flabby reaction that it is safe to move against us. In China, in French Indo-China, in Greece, in Western Europe, wherever Stalin elects, General Clay, after all this time, has continued to babble about "discrimination" about "taxes" in the South, and about the poll tax in a few states which have a right to regulate the franchise strictly as they like, except on the basis of race or sex. City Slicker

By GORDON MARTIN When McGinley went to visit at his brother's dairy farm, he expected to be happy in a world of rural charm. But he made his big mistake when others overheard him vow it was quite an easy task for any man to milk a cow. Then his friends declared he had to prove he knew the milking art, and with inward fear and doubt McGinley made his shaky start.

Armed with milking stool and pail, he chose a bossy black and white, and he hoped her placid eyes would mean she understood his plight. But McGinley took the post side to begin his milking chore, which of course, was new to him. He made her plenty sore. So she kicked away his stool and left him cussin' on the ground, and he wished he'd never claimed to be a milking man renowned.

Then he moved around to starboard and at last he made so bold as to stare Old Bossy down and grab himself a rigid hold. And he tugged and squeezed and pulled but not a drop of milk produced, so Old Bossy slapped him with her tail and in disgust yawned. Now McGinley still is known to brag but never does allow, that just any city slicker can go out and milk a cow.

He antagonized them in the first instance when, before he had even warned his official chair, he presumed to pass judgment on such a veteran as Admiral Louis E. Denfeld.

The new secretary of the Navy had not learned the bow from the stern of a ship before he fired the former Chief of Naval operations because he dared to express his honest views on the actual results of "unification" before a congressional committee.

Unlike Mr. Truman, Mr. Matthews did not serve an apprenticeship in modesty. He carries his "brass" into the social as well as the military world.

FIELD — To the embarrassment and amusement of Washington's ace radio commentators, Secretary Matthews expressed his chagrin rather violently when he found himself seated below a few other salts and other officials at the recent annual dinner for President Truman.

The new Naval recruit could not understand why James E. Webb, undersecretary of state, should be seated nearer to the president than he. Webb's position was shortstop, whereas Mr. M's was out in right field.

PROTOCOL — "I cannot understand such a discrimination," he protested. "I'm sorry," a radio reporter tried to explain, "but we submitted the head table assignments to the Protocol Division of the State Department in order that the seating arrangement would be correct."

"Oh!" snapped Mr. Matthews, "you mean that Webb decided where Webb would sit?" Mr. Matthews will be lucky if he is invited to next year's affair.

WASHINGTON — Although Francis P. Matthews is a relative newcomer to Washington, President Truman's fellow-Missourian has thrown his weight around so quickly and carelessly that he is extremely unpopular with his civilian colleagues in the Pentagon Building and with the top-flight officers of the armed services.

He antagonized them in the first instance when, before he had even warned his official chair, he presumed to pass judgment on such a veteran as Admiral Louis E. Denfeld.

Washington . . . by Peter Edson

WASHINGTON — (NEA) — President Truman's and Secretary of State Dean Acheson's recent press conference statements seem to have given the impression in some quarters that the door has now been slammed shut on all new negotiations with the Russians. But this isn't the picture at all. Secretary Acheson says it is a bad misunderstanding of the U. S. government's position on doing business with the Russians.

It was Connecticut Gen. Brien McMahon's now-famous speech proposing his five-year, \$50,000, 000,000 peace plan that started this. In it he said, "A fresh proposal for atomic peace as dramatic as it is sincere, impresses me as urgently desirable."

Secretary Acheson was the first high official in the executive branch of the government to comment on the McMahon plan. The secretary's comments were made after full consultation with the

By GRACIE ALLEN A Japanese astronomer claims the last month he observed "an explosion on Mars of such violence it could end all life on the planet." To me, that's just propaganda to persuade American tourists to visit Japan instead of Mars this summer.

Anyhow, you can't believe all you see through telescopes. Take my uncle, the life-guard — one day he focused his telescope on a battleship tattooed on an old man's stomach. Just then the old man got the hiccups. Each hiccup shook the battleship so violently that my uncle thought it was firing its guns. So he called the police and said our country was being attacked. Permanent Will Control Hair

This girl has a new protein permanent wave to help keep her short bob neatly curled.

NEA Newsfeatures
Keeping a short bob neat, shining and soft poses a problem for women who rely on permanent waves for their curls. Too-frequent permanents are apt to leave hair dry, dull and difficult to manage. Attempts to do without the permanent's help means trying to coax straight, fine hair into springy curls by the waving process, according to chemists who developed it. The process is said to infuse the protein into the hair shaft to counteract dryness.

Other benefits claimed by the developers are a longer-lasting wave, fewer split ends, less hair breakage and more elasticity. This often means curls which will look as soft and springy as natural ringlets and be as easy to brush into place.

Valentine Party For Maria Class

The Maria Class of the First Baptist Church was entertained recently with a Valentine party, in the home of Mrs. Don Glaxner. Group Three served as host.

Mrs. Marvel Rake was in charge of the program and Mrs. G. E. Farmer led a short business session. The devotion was by Mrs. W. W. Estes.

The class honored Mrs. H. B. Barker, Mrs. H. C. Downs, Mrs. Emmett Forrester and Mrs. A. L. Rigmore on their birthdays.

Mrs. H. M. Stokes closed the meeting with prayer.

Others present were Mrs. Earl H. Eaton, Mrs. G. E. Groninger, Mrs. J. R. Moss, Mrs. L. H. Anderson, Mrs. Hugh Ellis, Mrs. Willie Roland and Mrs. G. J. Epps.

Bell HD Club Studies 'Short Cuts in Sewing'; Social Slated for Saturday

The Bell Home Demonstration Club met in the home of Mrs. Conner O'Neal to study short cuts in sewing.

Each member answered roll call by telling how she stores her small sewing equipment. Several members brought exhibits, such as sewing boxes, spool racks with pin cushions and thimble holders attached.

"I have never had any special training in sewing and I learned a few simple methods the hard way," said Mrs. Charles Warminski as she introduced her discussion of short cuts in sewing.

"In the last few years I have learned several new methods that have helped me a great deal.

"Wear colors that you like and not colors that others think you should wear," said Mrs. Warminski. "If you like bright colors, then wear them and by all means study the styles and possibilities of alterations in buying ready made clothes. A few tucks here and a skirt pulled up there will tear style to pieces."

BEST EFFORTS PAY
"In making new garments or altering garments, put forth your best effort, as the results will more than pay for your time," she said.

The speaker went on to say "Never remove patterns from cut garments until all markings are completed as this saves much time when stitching is started. Pin-basting also saves time. Most machines allow for you to slowly stitch over pins. If it is necessary to baste sleeves, collars, or waist lines, use sock darning thread as it does not leave holes or marks when pressed and is easily removed." Mrs. Warminski showed a marker, using tailor's carbon and tailor's pencils for quickly marking darts, tucks, and notches in the cut garment.

She said for best results in putting skirts together, always stitch side seams from the bottom up. This helps prevent sagging.

USE ATTACHMENTS
"I only started this hem so you might see better how to use the shirring foot attachment that will prevent pleats in your hems," Mrs. Tom Anderson explained as she began her demonstration of blind stitching a hem on the machine.

"Here is a quick way," said Mrs. Anderson, "to iron or fit an all-around pleated garment. Take a heavy string with weights attached to each end and lay across the garment on the ironing board. This will hold pleats as you lay them, also you can press several pleats at one time.

IS IT TOO YOUNG TO MARRY?
Dear Mrs. Friend:
I am engaged to be married to a sailor who now is overseas. I want to quit school and marry him when he returns here next summer but my parents are objecting because they say I'm too young to marry.

Do you feel that they are being unfair about this?
I am sure that it is the right thing for me to do as I have been going with my fiancé over a year and we are very much in love.

Patry
Dear Patry:
Fifteen is awfully young to marry nowadays. And I am afraid that you will regret not finishing school. Why not have a long engagement and finish high school anyhow.

If you are still in love after that that you can be pretty sure that it will last.

If you have been going with your sailor for over a year I imagine that you haven't had much time to devote to getting to know other boys. As you get older, too, you may find that your taste changes.

As long as you are so young, why not heed your parents' wishes and finish high school before marrying. After all marriage lasts a very long time and the two of you will still have plenty of time together.

NICE MAN WITH A GOOD CAR
Dear Grace Friend:
I have been reading in your column where you help people with their problems.

I am a widow, my husband having been dead several years. I am very lonely and I am wondering if you know of a nice man between 35 and 40 years of age with whom I could keep company.

I would like him to have a car and go to church.

It seems that most of the men I know here who are unmarried drink and gamble.

I am 35 years old. I go to church and Sunday school and I keep good company and have lots of friends.

If you know of a nice man who has a home and car that I could keep company with, will you please let me know.

Dear F.:
At the moment I don't know of a man who fills your qualifications.

I can only suggest that you might meet a congenial man if you join a hobby club of some sort where you might meet people interested in the same things you are.

Aren't there any men in your church whom you can get to know might prove good companions?

Friendship Class Of First Baptist Has Valentine Tea

A Valentine tea in the home of Mrs. John Haggard, 1301 North Russell, was attended by members of the Friendship Class of the First Baptist Church, Mrs. Bonnie Rose and Mrs. R. L. Souter were assistant hostesses. The group also held a monthly business meeting.

The table was covered with a lace cloth and set with milk glass and matching centerpieces, which held red tapers. Centering the table was an oblong arrangement of red carnations and cedar, topped with a gleaming red heart and white arrow, carrying out the Valentine theme. Heart shaped red sandwiches, cake, cinnamon hearts and nuts were served. Mrs. B. W. Johnson, class teacher, poured tea.

Signing the register were Mrs. R. E. Anderson, Mrs. E. M. Baird, Mrs. E. L. Anderson, Mrs. Tom Duval, a guest; Mrs. L. E. Haggard, Mrs. A. A. Day, Mrs. L. E. Sloan, Mrs. H. M. Stokes, Mrs. C. H. Schulley, Mrs. B. V. Johnson and the hostesses.

The business session was called to order by the vice president, Mrs. Anderson, with Mrs. Tom Duval leading the opening prayer. Minutes of the preceding meeting were read by the secretary, Mrs. Ernest Baird, and officers' reports of work accomplished during the past month were read. Mrs. R. E. Visits to Holy Sites Slated for Early Summer

Visits to all the most important shrines of Christendom, including the four Patriarchal Basilicas of the Eternal City have been scheduled for the official Diocesan Holy Year Pilgrimage to Rome sponsored by Most Rev. Joseph P. Lynch, bishop of Dallas, and led personally by Rev. John M. Wiewell, diocesan director of the Holy Name Society. The prescribed rites will be performed at the Basilicas of St. Peter's, St. John Lateran, St. Mary Major and St. Paul's Outside-the-Walls. An audience with His Holiness Pope Pius XII is planned. The group leaves New York in the RMS Queen Mary June 23.

Travel arrangements have been completed by American Express-Catholic Travel League. Inquiries and reservations are now being received at American Express-Catholic Travel League at the Neiman-Marcus Travel Bureau, 1808 Commerce Street, Dallas.

The pilgrimage arrives in Paris on June 28. Visits are made to the historic shrines and monuments. Thence, the pilgrimage proceeds to Lourdes, where veneration is offered at the Shrine of Our Lady. Mass will be celebrated at the Miraculous Grotto

as president for the remainder of the year.

Mrs. H. M. Stokes presented a devotional, "Hearts and Love."

Christian Youth Council Collects Clothes for Needy

"Operations Clothes" sponsored by the Christian Youth Council of New Jersey under the chairmanship of Miss Leta Stuber, of Ridgewood, N. J., has resulted in the gathering of 60 tons of good used clothing into the storehouse of Church World Service during recent weeks, and in the raising of sufficient funds (8 cents per pound) to send them to needy places in Europe and Asia. Other groups of New Jersey youth, inspired by the CYC action, have also undertaken to duplicate "Operation Clothes" and are looking for other projects for the remainder of the winter.

"How can I best prepare myself to help my husband when he becomes a minister? This is the query being answered in Capital University, Columbus, Ohio, in the enrollment of more than 20 young women who are the wives of men now studying for the ministry of the Lutheran Church. The University now offers a special course of study for wives, growing out of needs felt by the members of the Married Seminars Club. Dean Edward C. Fend — a bachelor who is enthusiastic about the studies — A course on "Christian Doctrine and Ethics"; and other professors teach "Church Organization and Societies," and "Effective Sunday School Teaching."

Conservatives Are Favored in Britain

LONDON — (AP) — One of Britain's biggest betting commissions said the Conservatives are fast overhauling the Labor Party for the role of gambling favorites in the national election next Thursday. "They may even go to the post as equal choices — say 5 to 6 and take your pick," predicted the odds maker for Douglas Stuart, Ltd., a London book-making firm.

Christian Conduct: Ancient, Modern

By WILLIAM E. GILROY, D. D. Some acute problems of conduct and relationship soon arose among the early Christians. It is well to study them carefully, and the ways in which Saint Paul and other leaders in the church met them, for the same problems in some form or other have been present among church members in every generation since the church began, and they are still acute among Christians.

Some of these problems arose from human perverseness, or frailty, which the new experience had not conquered; others arose from the strength and intensity of the convictions of those who thought that all others ought to see things in the same way that they did, and act as they did. Such Christians were very critical, and even harsh in their judgments, when these others did not submit themselves to their demands.

The problems were many and varied, as they related to different persons and situations, as a careful reading of Paul's Epistles, as also of John's and Peter's will show. But three main problems were emphasized, two of which are still very evident in our own time.

The first arose from Jewish converts, who continued to observe certain rites and obligations of Judaism, and who thought that Gentile converts ought to come under the same rule. This meant virtually that one had to become a Jew to become a Christian, and against this Paul, an intense Jew, set himself with great firmness. It comes out in the controversy over circumcision, and other matters.

The second arose from the contacts of the church in the pagan cities in which the Christians lived. Meats that had been offered to idols was sold in the butcher shops, or in what corresponded to them in that day. Some Christians considered the idol as nothing, but the meat as good food, and ate it in good conscience. Others thought that to eat anything that had been offered to idols was an offense against their Christian

faith. There were other problems of conduct involving direct moral issues, as some thought, strangely, that they could be Christians and still engage in the licentious practices of their pagan environment. But the chief issue regarding Christian freedom arose about the meat offered to idols.

The third outstanding problem centered around social and economic status, just as such problems center today. Among these early Christians were some who were very poor, and some who apparently were quite rich. There were masters and there were slaves, and the New Testament book of Philemon discusses the problem about them. James had to rebuke those who had too much regard for the man with the gold ring (James 2:2). Other passages show how acute this problem of class, wealth, and poverty quickly became.

How did the church leaders meet these problems? First of all, by an insistence upon Christian love as the Christian's supreme obligation. John rebuked the disciples for their lack of brotherly love. Then, by an insistence that the Christians must observe Christ's command, "Judge not." And third, by an assertion of the rights of Christian conscience and freedom. It is a large subject, but what Paul has to say about it in his Epistles is still good doctrine, and good practical counsel for today.

Shamrock Church Women's Groups Hold Meetings

SHAMROCK — (Special) — Circle Two of the W.S.C.S. of the First Methodist Church, met in the home of Mrs. Ed R. Wallace recently.

Mrs. Jack Montgomery gave the devotional, and was also in charge of the lesson. The subject was "The United Church in Japan." Those taking part in the lesson discussion were: Mrs. Huey Cook, Mrs. J. F. Solomon, Mrs. C. L. Reavis and Mrs. W. J. Foster.

The next meeting will be held in the home of Mrs. W. J. Foster. Those present were: Mmes. J. F. Solomon, Huey Cook, C. L. Reavis, S. M. Dunnam, E. C. Hofmann, W. J. Foster, Jack Montgomery and H. T. Fields.

Miss Re Lummus was hostess to the Blanche Groves Circle of the First Baptist W.M.S. at her home on North Main Street.

Mrs. R. W. Shields was in charge of the business session, which opened with prayer led by Mrs. Martin Dwyer.

The Bible lesson was given by Mrs. L. T. Davis and Mrs. T. D. Bland led the closing prayer.

Following the program, refreshments were served. Mrs. Dean McMurry poured, and plate favors were corsages of red carnations.

Those attending were Mmes. George Braxton, T. D. Bland, Bill Wilson, L. T. Davis, R. W. Shields, Martin Dwyer, Van Buskirk, and Dean McMurry.

The W.M.S. of the First Baptist Church met recently for its Royal Service program. "How Christian Is America?" Mrs. Murray Davis presided over the business session.

Group singing was led by Mrs. Shields and Mrs. Raymond York led in prayer.

The program was presented by the Rex Ray Circle. Mrs. George Beatty gave the devotional and the lesson. Mrs. Martin Dwyer dis-

Services at Christian Science "Mind" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, February 19. The Golden Text is: "The Lord is exalted; for he dwelleth on high; he hath filled Zion with judgment and righteousness." The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "There can be but one Mind, because there is but one God; and if mortals claimed no other Mind and accepted no other, sin would be unknown" (page 469).

EVERYBODY IS CORDIALLY INVITED

JUVENILE DELINQUENCY BEGINS IN THE HOME

We hope these are not your boys

As Good Parents You Should:

- 1—Give the love and companionship so necessary to your child's welfare;
- 2—Attend church with your children;
- 3—Support personally the many fine organizations that provide recreation for boys and girls;
- 4—Devote some of your time to personal services in the activities that minister to the young;
- 5—Help spread good cheer and human understanding to families not as fortunate as your own.

Wise parents know that duty to their children is more than food, clothing and shelter.

They know that the home life needs to be more attractive to childhood: that wholesome recreation for their own boys and girls and their neighbor's children is the best way to prevent trouble and sorrow when the critical years are upon them.

Here under a streetlight these two pilfering youngsters are about to make the headlines and change the course of their future lives. They won't get away with this sort of thing for long, of course. How much better it would have been had they stayed at home in the first place.

It is possible, however, that the home is at fault. Home necessarily shapes a child's future. It's a definite responsibility on the part of each of us as parents to supply a happy home... an interesting home. It shouldn't be a difficult task to make companions of our children and to teach the good in life, and be good examples for them to follow.

It is time we brought these youngsters in off the streets and acquainted them with the attractiveness of happy home life.
