

# Here's Idea on How to Make Super Bomb

By FRANK CAREY  
WASHINGTON (AP) — "Heavy water" and a chemical compound used during the war to inflate observation balloons could conceivably be big factors in the nation's effort to produce a hydrogen "super bomb."

The other of these substances might conceivably figure in as a source of material for hydrogen bombs.

First, let's review a little chemistry on hydrogen, because it may mean more and more in your life from here on out: Hydrogen, by nature, is a gas and it exists in minute quantities in the air we breathe. But mostly it is found in combination with oxygen to form water.

Wherever hydrogen exists, it occurs in two forms called isotopes. One is regular hydrogen, the other is "heavy" hydrogen—also called "deuterium." They behave just the same chemically; the only difference between them is that one of the atoms is slightly heavier than the other. The light type is 5,000 times more prevalent than the heavy type.

Now, where does this possibly fit into the hydrogen bomb picture? From "heavy water," you can get "heavy hydrogen." And there's a theoretic equation which shows that if two atoms of "heavy hydrogen" (deuterium) were made to combine — or "fuse" — they would form helium, and release a great amount of nuclear (atomic) energy in the process. Release of this energy would be in the form of an explosion.

# Atomic Arms Race With Reds Picks Up With Bomb Building

By JOHN M. HIGHTOWER  
WASHINGTON (AP) — The United States is going ahead full blast on development of a hydrogen super bomb in an obvious effort to win the atomic race with Russia.

Only an agreement which would bar atomic weapons in all countries, including Russia, under a tight system of international controls can now banish this prospective weapon from American arsenals.

# Overwhelming Approval Set For Project

The State Department is reviewing American policy on international controls — reportedly including the possibility of a new approach to Russia — but whether any study will come of such studies remains to be seen.

The decision to go ahead with work on the hydrogen bomb, expected to be vastly more destructive than the original A-bomb, was announced by President Truman yesterday.

WASHINGTON (AP) — Congress gave overwhelming approval today to the decision to undertake the making of a hydrogen bomb, and put emphasis on speed in doing so.

# H-Bomb Plans Spur Atomic Control Talk

LONDON (AP) — President Truman's order to build a hydrogen super-bomb brought a wave of new pleas in Europe today for international control of atomic energy.

But Britain's government said there would be no hope of success in direct talks with Soviet Prime Minister Stalin.

Through much Capitol Hill comment ran the theme: we can't let Russia get ahead of us. No announcement by the chief executive in recent months has been hailed with such unanimity of approval as Mr. Truman's statement yesterday that he has directed the Atomic Energy Commission to proceed on the new weapon of destruction.

### Justice of Peace Back in Pampa

D. R. Henry, justice of the peace of Precinct 2, Place 2, has recovered from his recent illness and is back in Pampa. County Judge Bruce Parker said today.

Henry became ill while visiting his daughter, Mrs. Virgil Castle, and family in Perryton shortly after the first of the year and returned to Pampa yesterday.

Farrier held justice court during Henry's absence.

The average American hog renders 30 pounds of lard.

## Legislature Asked For Quick Action

AUSTIN — Gov. Allan Shivers today asked the Legislature for quick action on special temporary new taxes to relieve the "unthinkable" conditions in state hospitals and special schools.

At the same time he indicated he would open the way for discharging some present appropriations if the special session gets the hospital job done soon.

Shivers, in his first message to the Legislature since he became governor, said Texas is now reaping the bitter fruits of a long era of neglect of its unfortunate wards. He said the mental hospitals and special schools are "pitifully inadequate" and that all Texas is doing for the victims of tuberculosis is "giving them a place to live or, too often—to die."

"I can think of no other cause or purpose for which I would suggest the levying of additional taxes at this time," the governor told a joint session of the House and Senate on the second day of the special session.

Shivers first asked for a special, additional and temporary levy on such items as oil and gas, sulphur and whiskey, beer and wine, cosmetics and playing cards, automobiles and cigarettes, carbon black, radios and cement, insurance companies, telephone companies and utilities.

This would be applied on the emergency needs for support of state hospitals, special schools and youth correctional institutions, and to get a start on a building program.

Then he asked the lawmakers to give the same urgent consideration to the board's recommendation for a long-range build-

## Symington Hits Back At Commies

WACO — (AP) — Secretary of the Air Force Symington said today that Communist "dictators" now have "the world's largest ground army, air force and undersea fleet."

And he voiced a somber warning that Russia is capable of launching a surprise atomic attack "against which we have no sure defense" — on any part of the United States.

The Air Force secretary painted what he called a "bleak picture" in a speech prepared for delivery at Baylor University mid-term graduating exercises.

"Those who reiterate America must be destroyed," he said, "now have:

"1. A ground army greater in numbers than the combined armies of the United States and its allies.

"2. An air force whose strength in nearly all categories is now the largest in the world and growing relatively larger month by month.

"3. The world's largest submarine fleet; and an intensive submarine development and construction program."

The Air Force secretary expressed the belief that if any democracy attempted to maintain in peaceable and comparable regular armed force, "the free economy of that democracy would be wrecked."

"Here are three facts which every American should know," Symington said, "because this is the world we live in:

"(1) Behind the iron curtain there has been an atomic explosion.

"(2) Behind that curtain is the air equipment capable of delivering a surprise atomic attack against any part of the United States. (3) We have no sure defense against such an attack."

### DRIVE

(Continued From Page 1) numerous that they added up to the cost of the replacement. Costing the most, for minor repairs, are the city's two police cars and motorcycles.

The police repair bill is due, Pepin said; to the continuous use of cars prowling the alleys and unpatrolled streets in all kinds of weather, necessity of shifting gears frequently, and slow driving while on prowl duty.

City Engineer Ray Evans reported that 121 more street markings were completed in the city. Pepin was told to ask for prices on the present type of signs from the same company that was given the contract last year.

Payments to the following contractors were approved: W. R. Colville, curb and gutter runnings for street paving, \$3,277.24; G. E. McConnell, for water and sewer line ditching, \$194.70; Park-own Construction Co., final payment on removal of pipe and fittings from Dalhart Army Air Base, \$171.35; Brooks and Gardner for work on disposal plant, \$12,282.56; and Roberts and Meriman, consulting engineers on previous projects, \$15,054.45.

### H-BOMB

(Continued From Page 1) heads-up-an-attempt to reach an international agreement.

The Foreign Office reply said: "It would be presumptuous to suppose that personal contact at even the highest level would do anything but raise unduly the hopes for peace which have been so often and so cruelly disappointed in the past."

The reply said that, judging by their recent conduct, the Russians "have demonstrated by the Marxist theory of an inevitable clash between the two systems into which the world is divided."

### PROJECT

(Continued From Page 1) thority and because the decision itself is contrary to the recommendations of our country's most competent authorities. This epochal decision goes beyond the security of the United States; the security of mankind is also at stake."

Senator Ferguson (R-Mich) said that Mr. Truman was within his executive authority in ordering the AEC to proceed with the bomb. But, he added, the final decision on whether the bomb will be made is up to Congress for Congress must in the final analysis, provide the money.

### NORTH

(Continued From Page 1) communications; Celina and Frisco in Collin County; Guster in Grayson County; Honey Grove and Prosper in Fannin County. Earlier these small towns near Bonham, had been reported without power or telephones: Leonard, Terrell, Saylor, Ector, Dodd City and Windy, Ector. Denton was isolated from telephone communication. Farmersville had no telephones and power failed in some parts of the city. Bonham communicated with the outside world by short-wave radio and power had failed.

All telephone circuits were out to McKinney, Denton and Greenville.

There was no ice on streets at Fort Worth and Dallas — but trees and lines were coated thickly with ice and much tree damage was reported.

At mid-morning freezing rain was falling at Fort Worth, Dallas, Mineral Wells, Big Spring, Abilene, Midland and San Angelo and the Highway Patrol said the freezing rain extended over much of the remainder of the local area.

## Information Gathered on Break-In Trio

Bit by bit, police today were gathering more information on the three men captured early Sunday morning during a break-in at the Hogue-Mills Equipment Co. on W. Brown.

The information was coming via radio, telephone and visits by out-of-town officers — and not from the prisoners themselves.

Jessie Jamey Sepsus, the one with a three-term penitentiary record behind him, is wanted for at least five burglaries in the vicinity of Big Spring. Chief of Police John Wilkinson said none of the break-ins were in Big Spring, but in the immediate area.

Police, interested in the gray 1946 Ford sedan the men were driving Sunday, were able to trace it to a used car dealer in Snyder. The car, actually belonged to James Baxter, one of the trio, who has his payments up to date on it. Wilkinson added that police believe Baxter sold it, neglecting to return the license. Chief of Police John Wilkinson said none of the break-ins were in Big Spring, but in the immediate area.

### Friendship Fair Plans Are Made By Girl Scouts

Plans for the second annual Girl Scout Friendship Fair were made yesterday at a board meeting in the City Hall Palm Room.

Twenty-one Scouts attended. It was decided the fair will be held March 11 in the Junior High School Gymnasium.

This year's fair will be planned after last year's, when each troop represented a country, constructed booths and sold candy, novelties and crafts.

Mrs. H. F. McDonald, Jr., executive, said proceeds from the fair will be put in the Juliette Low Fund, and will be used to assist Girl Scouts and Girl Guides in foreign countries.

The representatives decided on the country their troops will represent and selected what they wished to sell. Each troop will have a doll in the costume of the country represented.

Scouts will spend February studying their particular country. February is international month, according to the National Girl Scout calendar.

Mrs. Annett Loftus, Program Committee chairman, has made plans for the construction of a platform in the gym for the folk dancers. The large crowd at the first fair prevented everyone from seeing the dancers.

### Former Resident Of Pampa Dies

Word has been received here of the death Sunday of B. W. Ford, long-time resident of Pampa. He died in Compton, Calif., where he had resided for 10 years.

Mr. Ford is survived by his wife, Parette; three sons, Melton of Dumas, Richard of Mobeetie, and Henry of Compton; six daughters, Mrs. J. W. Condo, Mrs. Rex Ford and Mrs. Day. Also all of Pampa, Mrs. Clytie Sullivan and Mrs. Lyla Treadway of California, and Mrs. Anna Reed of Washington; two brothers, Joe Ford of Pampa and Jeff Ford of Albuquerque; and the sister, Mrs. Pearl Davis of Clayton, N.M.

Services and burial will be at Compton tomorrow.

### Coal Case Goes Into Courts

WASHINGTON — (AP) — The government today argued to a federal court that current coal strikes and slow downs are unfair labor practices. It asked the court to order John L. Lewis and his miners to stop these tactics.

The case is that brought by Robert Denham, National Labor Relations Board counsel.

President Truman has said that Denham acted on his own, but had advised the White House of his intentions.

Mrs. Truman, since has moved into the coal situation on his own, but along far different lines. He asked yesterday for a 70-day truce while fact-finders look into the dispute that had disrupted production for months.

Neither Lewis, nor the operators had yet replied to Mr. Truman's proposal. He asked an answer by 4 p. m. (CST) Saturday.

### Chorus

(Continued From Page 1) group receiving the attention of Capt. Maurice Evans, who had charge of special service for the Mid-Pacific area. The chorus was detached from the regiment and made an independent unit under the command of Capt. de Paur.

After the war, the group decided to remain together professionally under De Paur's direction. During their second civilian concert tour last year, they set a record of 180 performances.

At their concluding concert in Morristown, N. J., in May, Fredrick C. Schang, president of Columbia Artists' Management, presented them with a silver pitcher in commemoration of their record-breaking season.

### Justice of Peace Back in Pampa

D. R. Henry, justice of the peace of Precinct 2, Place 2, has recovered from his recent illness and is back in Pampa. County Judge Bruce Parker said today.

Henry became ill while visiting his daughter, Mrs. Virgil Castle, and family in Perryton shortly after the first of the year and returned to Pampa yesterday.

Farrier held justice court during Henry's absence.

The average American hog renders 30 pounds of lard.

## Ranch Foreman Dick Randall Gets Mixed Up in Revue's Love Triangle

"Rusty" got eyes that sparkle bright at both Lucy Bell and Virginia. He seems to have gotten mixed in a love triangle, and does he have a fine time before he gets the gal of his dreams!

Rusty is ranch foreman of Ken Bennett's "Harmony Ranch," a three-act benefit comedy, which will be presented here Monday and Tuesday.

Dick Randall plays the part of Rusty, who becomes involved with Lucy Bell, (Helen Blocker) and Virginia, (Bunny Shelton). Serenading one of his fair ladies, Rusty sings, "Lucy Bell." But the cowboy of so many roles also sings, "Are You the Dream?" to his other heart-throb. Dick sang "Trail's End" in last year's Top o' Texas Revue. At that time he played the part of

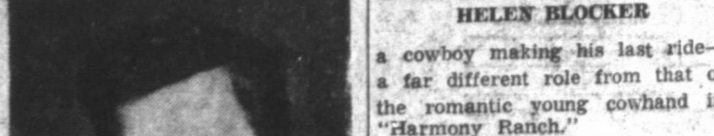

Helen Blocker

a cowboy making his last ride — a far different role from that of the romantic young cowboy in "Harmony Ranch."

Helen Blocker, High School Senior, will sing, "I'm a Stranger," one of the most melodious of Bennett's songs in this year's revue. She was featured as Carmenita last year and sang several solo selections.

As Lucy Bell, she "thickens the plot" of "Harmony Ranch" when she can't quite decide whether or not Rusty is "her man." She is a neighbor of the Smiths, owners of the ranch.

The revue is sponsored by the Kiwanis Club, and part of the proceeds will go into the club's underprivileged children's fund. Curtain time is 8 p.m.

DICK RANDALL

## True Meaning of Americanism Is Club Subject

"Americanism—the True Meaning," was the theme of the Jaycee's weekly meeting yesterday at noon. Ed Line, chairman of the club's "Americanism" Committee, explained how the meaning of Americanism has changed since its inception at the Continental Congress in 1776.

Early Americans, Thomas Jefferson, Patrick Henry, and the other great figures in American history, defined Americanism as a "flaming sword" and a great heritage. Today, Line explained, that heritage has simmered down to nothing but pride. A very interesting question presented by Line was: "Why can't we sell Americanism, the greatest heritage the world has ever known, to our neighbors to the South?"

After Line had explained his subject, he introduced Professor Coffee of the Government and Economics Department at West Texas State College, Canyon, a former instructor of Line.

Professor Coffee pointed out dangers to the American way of life, and dwelt strongly with the current "gimme" attitude of the American people toward their government.

Kirk Duncan gave a brief report on the Hoover Commission Report. The club was reminded of the regional and state convention dates by President Rusty Ward, and a stag party was announced for Thursday night to help pay expenses for the state convention.

A report of the Sports Committee stated that the plans for a boxing tournament had been slowed by inability to obtain a site in which to hold the fights, though a building had been located in which the fighters could train.

Writers must sign their names although they will not be printed without the writer's permission.

#### A HUSBAND DOESN'T WANT TO GO TO CHURCH

Dear Mrs. Friend: I have been married a year now and my husband has not been to church with me since the night we were married there.

He says that he would rather stay around the house Sundays than get dressed and go to church with me.

I feel that this attitude is very wrong and that he should go to church at least once a week. I feel that it is wrong not to go and I go anyhow but everyone always wonders why he isn't with me.

Do you think that I should do something about his attitude?

Worried Wife

Dear Worried Wife: What do you mean "do something about his attitude"?

What can you do if he won't go to church?

You can try to persuade him as I imagine you must have but if he refuses what then? You certainly can't make a grown man go to church if he doesn't want to.

If you should devise some means which would force him into going with you I imagine his resentment would upset the harmony of your home far more than your resentment at his refusal has done.

If church going is so important to you, you should have found out before your marriage whether your husband attended.

Having married him, knowing that he was not a church goer, you had better let well enough alone now.

Continue to go alone when you want to and occasionally if something special is being planned at your church, invite him to come if you think he might be interested.

However, whether he accepts or refuses, abide graciously by his decision. Don't let the issue upset the happiness of your marriage.

### Film, 'Stitch in Time,' Highlights HD Club Meetings on 'Safety'

"Safety" was the topic of Home Demonstration Club meetings during the past week. Mrs. Emil Urbanczyk led the program when the Hopkins club met. Speaking on the meeting subject, she said "A cautious man or woman is seldom injured except through momentary lack of concentration of thought, or in unusual circumstances which they cannot avoid." She said it is not true that all accident victims are children, that adults are frequently victims through recklessness or because they momentarily abandon ordinary precautions in this complicated, mechanical world. She added that most accidents in the home could be prevented if members of the family would make a safety rule.

The meeting was held in the home of Mrs. E. V. Brummett and was called to order by the president, Mrs. Joe Stone. Members answered roll call by giving "A near accident in my home."

Also present were Mrs. Paul Rice, Mrs. C. H. Bricey, Mrs. Vera Savage, Nell and Nancy Brummett. Refreshments were served.

The next meeting will be in the home of Mrs. W. E. Melton on Feb. 14.

"Safety in the Home" was the theme of the program when the Wayside Home Demonstration Club met in the home of Mrs. Homer Taylor.

A moving picture entitled "A Stitch in Time" was shown by Mrs. H. B. Taylor, Jr. Club members then discussed near accidents which they had experienced through carelessness in their homes.

Those present were Mrs. Wood Osborn, Mrs. Ernest Edwards, Mrs. H. B. Taylor, Jr., Mrs. I. Osborn, Mrs. Doyle Osborn, Mrs. Alvin Reeves, Mrs. Homer Taylor, Mrs. J. W. Condo and Mrs. Billie Taylor.

The next meeting will be in the home of Mrs. Billie Taylor on Feb. 10.

SKELLYTOWN The Skellytown Home Demonstration Club had a family style dinner in the home of Mrs. P. J. Boyd.

Miss Charlotte Tompkins played the part of host. She carved the meat and served the dinner in one course. Mrs. J. L. Burba was hostess, and served dessert and poured coffee. Mrs. W. H. Harris and Mrs. P. J. Boyd were big sisters, taking the place of maids. Miss Tompkins gave pointers as she worked.

Mrs. C. C. Coleman distributed yearbooks and collected THDA funds. Miss Tompkins discussed a tailoring school. It was decided that Mrs. E. E. Crawford and Mrs. J. T. Crawford will attend the Simplification Training School Feb. 10 to 17. It was also decided that Mrs. J. T. Crawford will write some articles on club activities for the district meeting for the THDA on April 27.

Dinner was served to Meses, J. L. Burba, J. T. Crawford, Iona Cornwell, G. H. McKinney, Hukins, C. C. Coleman, W. H. Harris, W. F. Adams, V. L. Hoff, A. M. Hepsley, L. N. Cahill, C. E. Clark, W. W. Jones, P. J. Boyd and Miss Charlotte Tompkins.

The next meeting will be in the home of Mrs. W. L. Aubert on Feb. 3. The program will be "Ceramics."

WORTHVILLE The Worthwhile Home Demonstration Club met in the home of Mrs. C. B. Chisum for a program on "Safety."

Roll call was answered with "A near accident in my home." Mrs. A. C. Crawford gave a demonstration on how to use the

# Oilers Buy Garland From Dallas Eagles

Bill Garland, ace lefthander of the 1946 Pampa Oiler mound staff, will return to the Oilers next season. This surprising announcement was made by Pampa owner R. L. Edmondson late yesterday afternoon after talking with officials of the Dallas Baseball Club of the Texas League. Garland went to Shreveport in the deal that sent Warren Hacker, youthful fireballer, on his way to the majors.

Garland, in his 1946 season with the Oilers, was the busiest pitcher of 264 innings during the regular season. He won 23 and lost 8 during that season, fanning 275 and walking 98. He faced 632 batters that year and gave up but 202 hits.

In the playoffs during 1946 Garland defeated Amarillo, 5-3, 8-5, and 4-1 to virtually defeat the Sox single handedly in the first round of the playoffs. In the final he defeated Lubbock on 5 hits in the game that clinched the title, as well as saving another game in a relief role. He downed Henderson in the

playoffs.

In 1947 Garland went to Shreveport and was sold to Dallas at the conclusion of the 1947 season. Dallas sent him to Texas in 1948 near the end of the season. Last season he pitched for Saginaw, Mich.

His record last season was 9 wins and 10 losses. But he was out of action and off his feet for a straight week due to an operation on one foot for removal of a growth. This inactivity caused him to become out of shape, but despite this fact he finished with an earned run average of 2.84 with a tail-end ball club.

Garland is a 27-year-old class man. He has good control, is a good trainer and a good boy on anybody's club.

Edmondson would not state how much he paid for Garland's contract, but it is rumored that it was well over the draft price.

Garland is currently making his home in Borger, but is going to move to Pampa to establish his residence as soon as he can locate a home.

### 'Most Improved Team' Tag Seems to Fit the Tigers

By FRANK ECK  
AP New Features Sports Editor

NEW YORK — One week before the 1949 baseball season ended, Casey Stengel was besieged by writers who sought his opinion on whether the Yankees or Red Sox would win the American League pennant. Stengel took off his cap, scratched his head and said:

"Hey, wait a minute, if this thing lasts much longer the Detroit Tigers will win it."

At that juncture the Tigers were in third place, 7 1/2 behind the deadlocked Yankees and Red Sox. It was impossible for them to win for Red Rolfe's Bengals had only four games left to play. The fourth place Cleveland Indians had seven left.

As far as Rolfe is concerned, everything happened in reverse the final week. The then freshman manager saw the Indians win all seven games while the Tigers lost their four, each to the Indians. Even one win for Detroit in that final week would have given the Tigers a tie for third place.

However, Stengel's opinion that the Tigers would be tough was shared by many. Now they are more than a dark horse team for 1950 because of two moves made during the winter. They obtained Gerry Priddy from the Browns and Dick Krywoski from the Yankees to open at first base — against right handed pitchers.

On paper, the Tigers represent the most improved team in the American League. As such they figure to be fighting for the pennant with the Yankees and Sox.

It probably will be Rolfe's intention to alternate Don Kolloway and Krywoski on first base, with Kolloway getting the call against southpaws. After Don was obtained from the White Sox last May he hit .294 in 126 games

for Detroit. He swings right handed.

The Tigers never did get much of a look at Krywoski. He played only four games against them in '49, getting but four blows in 14 efforts. But after being optioned by the Yankees to Oakland he batted .324 in 60 games. With the Yankees, Krywoski was used only against orthodox pitchers. In the event Krywoski, who will be only 25 on March 24, falls as a hitter, Paul Campbell (.278) can be moved in. The Tigers apparently are quitting on George Vico and his .190 mark for 67 games last season.

The addition of Priddy, obtained from the Browns for 100,000 and Pitcher Lou Kretlow, is Detroit's second baseman ever since Charley Gehringer hung up his spikes. Priddy fills the bill. He hit .290 and among his hits were 26 doubles, 4 triples and 11 homers.

Priddy, a good double play man who four seasons teamed with Phil Rizzuto, also figures to help Johnny Ligon, Detroit's 27-year-old shortstop. Ligon is heading for his third season and it could be his best.

The one bright spot in Detroit's infield is George Kell. The former Athletic third baseman nosed out Ted Williams for the American season with .349. By hitting that high, he moved his seven-year major league total from .297 to .305. He now has hit above .300 four straight years, pretty good for a fellow who less than two seasons ago had his wrist fractured by Vic Raschi and his jaw broken by a Joe DiMaggio bat.

The Tigers are long on pitching strength, have a good two-pitcher catching department in Aaron Robinson and Bob Swift and an outfield of Vic Wertz, Johnny Groh and Hoot Evers. That is one of baseball's best.

It should be an interesting season in Detroit.

# Harvesters Fall to Bulldogs Again; Amarillo Sandies Move in Friday

### Tight Defense Holds Pampa Offensive Well in Check

The Pampa Harvesters were all but eliminated from the District 1-AA basketball race last night as they dropped their second game of the season to the classy Borger Bulldogs. The final score was 43-33 as the Canines racked up their third conference win against one defeat, and also their twenty-fifth victory of the season against two losses.

The only outside chance for the Harvesters to still win the 1-AA title is to hand two losses to the Amarillo Sandies and have the Sandies bump off the Bulldogs in their next meeting in Borger. That would throw the race once again into a three-way tie and open the way for the Pampans in a playoff series, such as was held last season when a triple tie developed.

The Harvesters traded baskets on even terms with the Bulldogs through the first three periods of the ball game, but in the fourth quarter they simply ran out of gas, scoring but three points. Pampa held a first period lead of 11-9; trailed at halftime, 21-18; was behind 35-30 at the start of the fourth quarter.

A pressing defense, one that picked the Green and Golders up as they crossed the center line in the spacious Frank Phillips College Gymnasium and then hugged, them tight so they couldn't get a shot off, probably won the game for the Bulldogs. Pampa got but 22 shots from the field, hitting 13 of these, for a fine shooting percentage of 41 percent. Borger, on the other hand, fired 67 shots at the basket, and hit 28 percent. Inability at the free throw line was again costly to the Harvesters. They could hit but 7 of 18 gift tosses while Borger canned 5 of 9 attempts.

Friday night Pampa gets its final chance to stay in the 1-AA race. The powerful Amarillo Sandies, current district pacemakers, come to the Junior High Gymnasium. A loss to the Sandstorm would make it mathematically impossible for the Harvesters to draw into a triple tie for the lead at any time. There will be only a single game Friday night, starting at 8:15.

Pampa jumped out to an early 4-0 lead in baskets by Gallemore and Howard last night, but then saw the Bulldogs rap in 7 straight points to take over the lead. Clauch and Bond then put the Harvesters ahead as the clubs traded baskets right on through the entire first half. The halftime difference was due to a tip-in rebound shot by 6-4 Sixth Lane, Borger center, as the midway buzzer sounded.

Pampa came fighting back in the third quarter to knot the count at 23-23 after a minute and a half of play. And then the Harvesters went ahead momentarily, holding a 29-27 lead, but the final buzzer was ahead.

Borger got hot, and with all five of the Bulldogs hitting a bucket, pulled into a 39-30 lead before the Harvesters could scratch in the fourth period when Gallemore finally made a free throw after four and a half minutes of play. The final Pampa basket was a nice push shot by James Clauch in the final minutes of play.

Borger started a stalling game early in the fourth period. With six minutes left to play, and enjoying a 7-point lead, the Pack rolled the ball around in the middle of the court, refusing to shoot unless they had dead crisp shots. The Harvesters got wild and erratic, throwing the ball away two of the four times they got their hands on it after this.

The Pirates assumed this contract and tossed in \$15,000 more, most of which will go to Pettit. Stephani, however, will still have the movie, radio and video rights. Under the original contract, Pettit got \$10,000 for signing, a bonus of \$50,000 a three-year salary of \$18,000, \$5,200 for his father, \$1,500 for his attorney, 10 percent of screen profits — and even \$750 for honeymoon expenses if and when he marries.

Pettit won 73 games and lost but 13 in the last three years.

VICTORY SMILE—Polly Riley, Fort Worth, Texas, flashes a victory smile as she holds the winner's cup and the putter that beat Marlene Bauer of Midland, Texas, and 3 in the finals of the Helen Lee Doherty Women's Amateur Golf Tournament at Miami, Fla. (AP Wirephoto)

### White Deer Five Defeats Lefors Buc

WHITE DEER — (Special) — The White Deer Bucks grabbed a 37-22 victory here last night in the Lefors game. The Bucks led by the fine play of Charley Meadows, had too much for the Bucks from District 2-A.

Ingram and Freeman played fine ball for the winners, especially on corner shots. Freeman made 22-20, Ingram, 8-5.

For Lefors, the high point man was Bobby Burchfield, who got 12 counters. Cooper had 4 and Trusty 3.

In the girls game the White Deer Does led a thriller to the Canyon 27-25. The game was tied up at 35-35 when the final horn sounded, but Bill Rutherford led the Mustangs had two free throws coming, being fouled in the act of shooting as the horn blew.

He sunk both tosses to earn the victory.

Rutherford led the Mustang scorers with 12 points. Bailey and Smith each had 9 points for the Tigers.

In the girls' game, the McLean girls defeated the Claude girls, 47-41. Guidel was a high-point girl for the winners with 22, followed by Lively with 19. McAdams had 13 for Claude.

In the girls' B team game, the McLean team won 28-26, in another thriller. Bentley had 10 points to lead the winners' scoring.

Thursday night, tomorrow, the Tigers play the Lefors Pirates at Lefors.

BROTHER ACT—Stan Rojek (left), Pittsburgh Pirates shortstop, watches as his brother, Ted, shows him how he smothered a fire after dragging the unconscious Stan from his burning milk truck at North Yonawanda, N. Y. (AP Wirephoto)

### High School Pitcher Pettit Gets Record \$100,000 for Signing With Pittsburgh Club

LOS ANGELES — (AP) — Baseball's new bonus champion is 18-year-old pitcher Paul Pettit, who will get almost \$100,000 from the Pittsburgh Pirates.

In an unprecedented deal, Pirate general manager Roy Hamey agreed yesterday to fork out that sum for the six-foot, two-inch, 205-pound southpaw who amazed observers with his twirling for Narbonne High School and American Legion teams. He's pitched six no-hitters.

The hundred grand transaction with a Hollywood twist, topping the \$75,000 bonus given catcher Buddy House by Detroit and the \$50,000-plus which went to Johnny Antonelli of the Boston Braves, Dick Wakefield of Detroit, and one or two others, marks a new high price for a rookie.

What is young Pettit going to do with all that money? "Nothing," he laughed. "I can't touch it until I'm 21."

But his father, George Pettit, a Long Beach night watchman, and movie producer Frederick Stephani, the Prodigy's agent, will keep a careful eye on it.

Pettit will pitch for New Orleans in the double A Southern Association this year, Hamey said. As a bonus player he will have to be brought up to the Pirates in 1951.

The bidding for the lad was spirited, with the Brooklyn Dodgers and New York Yankees reported in the running.

Pettit himself won't get all the \$100,000 because of the unique contract he signed with Stephani before his recent graduation. Major league scouts, by law, couldn't contact Pettit until he was out of high school, but Stephani — unbound by restrictions — signed him to an \$85,000 movie, radio and television contract, which was approved in court.

The Pirates assumed this contract and tossed in \$15,000 more, most of which will go to Pettit. Stephani, however, will still have the movie, radio and video rights. Under the original contract, Pettit got \$10,000 for signing, a bonus of \$50,000 a three-year salary of \$18,000, \$5,200 for his father, \$1,500 for his attorney, 10 percent of screen profits — and even \$750 for honeymoon expenses if and when he marries.

Pettit won 73 games and lost but 13 in the last three years.

### Tyler JC Is Kentucky of Junior Teams

TYLER — (AP) — Over here they call Tyler the Kentucky of junior college basketball — or as they had rather put it: Kentucky is the Tyler Junior College of the four-year schools.

A gaudy record, including the national championship, has been hung up by the Apaches who boast 111 victories in 115 games since Floyd Wagstaff became the coach in December, 1946.

In the last two seasons the Apaches ran up their best record — 55 wins out of 57 games while scoring 3,997 points to 2,615 — an average of 70 to 46.

The defending National Junior College champions apparently are on their way to another great season record. They have won 17 straight since their string of wins was snapped at 35 in the current season opener.

Lon Morris of Jacksonville, Texas, turned the trick that time to join Southern Methodist University's Freshmen as the only two teams to beat Tyler since it lost in the national tournament at Springfield, Mo., March 27, 1948, to Compton, Calif., 67-66.

Wagstaff's teams, compiling those 111 victories in 115 trips to the court, have poured 7,298 points through the hoop while allowing their opponents 4,954.

Wagstaff is a balding, stocky master of the game who in 15 years of coaching high school and junior college basketball has a record of 387 victories against 81 defeats.

His Tyler Junior College teams have been the only basketball champions the tough Southwestern Junior College Conference has known and have been champions or runners-up in every tournament they have entered except one. That was the national 1948 tournament when the Apaches lost in the semifinals.

The Wildcats meet East Texas State, Lone Star Conference member, who has been a contender in the current season, at their home court, 82-82.

Butler, which had lost by 21 points to Notre Dame several weeks ago, turned the tables on the Irish, 63-57.

Miami (Ohio) upset Xavier, of Cincinnati, 60-59, on Carl Lusa's last minute field goal. Tulsa also upset Oklahoma City University, 33-29.

In the Southern Conference Wake Forest beat the Citadel, 82-43; Virginia Tech dumped Richmond, 71-51; and South Carolina whipped Davidson, 68-46.

Texas Christian took East Texas, 48-44, in the Southwest while St. Marys (Calif) licked Fresno State, 51-44 on the Pacific Coast.

### Holy Cross Still Wins

PITTSBURGH — (AP) — If Holy Cross wins the title this year, St. John's of the Red Crossmen deserve the number one national basketball ranking, he'll get no arguments from the man whose team is rated second.

"I'd like to believe that we're second best in the country," mused Duquesne hoop man enter Donny W. Butley Moore today. "But I won't dispute Holy Cross' right to the top spot."

The Dukes and Red Crossmen matched strides last night in their pace-setting whirl through the current season, both winning their 10th consecutive contest.

Shery's team whipped Springfield, 62-49, while Duquesne easily bested Baldwin - Wallace, 78-85.

Other nationally ranked teams had easy going last night.

St. Johns of Brooklyn, ranked fifth nationally, had an easy time against Manhattan, 82-52.

Butler, which had lost by 21 points to Notre Dame several weeks ago, turned the tables on the Irish, 63-57.

Miami (Ohio) upset Xavier, of Cincinnati, 60-59, on Carl Lusa's last minute field goal. Tulsa also upset Oklahoma City University, 33-29.

In the Southern Conference Wake Forest beat the Citadel, 82-43; Virginia Tech dumped Richmond, 71-51; and South Carolina whipped Davidson, 68-46.

Texas Christian took East Texas, 48-44, in the Southwest while St. Marys (Calif) licked Fresno State, 51-44 on the Pacific Coast.

### Yankees Open Finishing School for Young Talent

PHOENIX, Ariz. — (AP) — Professor Casey Stengel's finishing school for prospective New York Yankees hangs out the open sign here.

Perhaps the Yankee moguls figure that with other major league baseball clubs reticent to trade with the world champions, they'd better have some talent of their own ready to fill any holes.

In any event Professor Stengel, the jovial manager of the Yanks, lined up an impressive array of teaching talent. His students probably number some who in the not too distant future will grace the Yankees batting order.

George Weiss, vice president and general manager of the American League team, outlined the course of study during a visit here.

"We have picked a group of minor league players with future possibilities, players we feel need polishing in certain departments," said Weiss.

"We think Stengel and his aids can teach them a lot of baseball in the three weeks allotted," said Weiss. "They're going to get instruction in all phases of the game."

Most of the farmhands will be younger men — all from Yankee chain clubs from Class B to A-A.

Professor Stengel's faculty includes Coaches Bill Dickey, Jim (Milkman) Turner and Frank Crosetti. Manager Joe Kuhel of the Yankees' Class AA Kansas City club and scouts Bill Skiff, Joe Devine, Eddie Leshman and Johnny Neun.

The Yankee farmhands will get their instruction in the Phoenix Municipal stadium, the same ballpark where their big city rivals, the New York Giants, open spring training on March 1.

Coming to Phoenix also affords the Yankee masterminds a chance to become acquainted with the baseball setup here for in the spring of '50 the big Yankee team will make its base here while the Giants go to St. Petersburg, Fla., under a one-year agreement.

### Thumper Slated For \$100,000

BOSTON — (AP) — Very soon and in absolute privacy, general manager Joe Cronin will proffer Ted Williams a 1950 Boston Red Sox contract calling for at least \$100,000 in straight salary.

And the lanky slugger will sign himself on as one of the highest paid players in all baseball history about as casually as the average wage earner affixes his signature to a magazine subscription blank.

It may happen this very afternoon, down in one of Fenway Park's secluded recesses, even as Manager Joe McCarthy, aloft in the penthouse press quarters, discusses the club's 1950 plans with the baseball writers.

For a \$100,000 salary is nothing new to Williams. Last season, according to reliable reports, he drew down \$90,000 base pay and at least \$10,000 more on an attendance bonus. The Red Sox' 1949 total of 1,596,650 was a new club record.

Two of Michigan State's top hurlers, Horace Smith and Jesse Thomas, were left handers on the Spartan football team.

### AAC Gridders to Meet Four Champions

ABILENE — (AP) — Abilene Christian College's football team this year will play the champions of four conferences, head Coach Tom Cole said Saturday.

The Wildcats meet East Texas State, Lone Star Conference titlist, here Oct. 14; Midwestern (formerly Hardin), of the Gulf Coast Conference, in Wichita Falls, Oct. 28; Sul Ross, New Mexico Conference champion, in Midland Sept. 28; and McMurry, Texas Conference champion, at date to be decided later.

Abilene Christian will also play the other four members of the Texas Conference — Texas A&I, Austin, Howard Payne and Southwestern — and the University of Chattanooga at Chattanooga, Tenn., Sept. 29.

Intercollegiate ice hockey is making its bow in Michigan State's new indoor arena, seating 4,000. A dozen games will be played this winter.

### Sports Round-Up

By HUGH FULLERTON, JR.  
New York — (AP) — Two letters in the same mail — from a fairly small Southern college that would like to hit bigger times. We recently started intercollegiate boxing and it is going over big. Should you run across a good amateur heavyweight who's interested in college, tell him to write us — we pay tuition, room, board, books, laundry and ten bucks per month — all of it over the counter. The same holds true of basketball and football players. Heck, we know some fair pro fighters who'd be happy to clear that \$10 per, and they wouldn't demand books.

From an equally small Northeastern college with no big-time aspirations: "I am realizing for the first time how well we are succeeding in keeping sports within the bounds of an educational program. I was shocked to learn that the rumors on subsidization of athletes, which I had always discounted previously, are actually true." So-yez takes yer choice, but yez don't necessarily pay yer money.

### McLean Cagers Lose to Claude

McLEAN — (Special) — The McLean Tigers dropped a thriller to the Claude Mustangs here last night 37-25. The game was tied up at 35-35 when the final horn sounded, but Bill Rutherford led the Mustangs had two free throws coming, being fouled in the act of shooting as the horn blew.

He sunk both tosses to earn the victory.

Rutherford led the Mustang scorers with 12 points. Bailey and Smith each had 9 points for the Tigers.

In the girls' game, the McLean girls defeated the Claude girls, 47-41. Guidel was a high-point girl for the winners with 22, followed by Lively with 19. McAdams had 13 for Claude.

In the girls' B team game, the McLean team won 28-26, in another thriller. Bentley had 10 points to lead the winners' scoring.

Thursday night, tomorrow, the Tigers play the Lefors Pirates at Lefors.

### TCU Rally Nips East Texas 5

COMMERCE — (AP) — Texas Christian came from behind in the last 35 seconds last night to beat East Texas of the Lone Star Conference, 48-44.

The Frogs, tied with Texas for fifth place in the Southwest Conference, led at the half, 29-23. But seven minutes deep in the second half, East Texas went ahead, 35-34.

TCU, only Southwest Conference team active last night, tied it up five times after that, but with 35 seconds left the Lions led, 44-42.

Then Gene Schmid and John Campbell each scored a field goal and a free throw to win the game. Harvey Roman, with 21 points, sparked TCU.

### Snow Aids World Ski Championships

LAKE PLACID, N. Y. — (AP) — The 1950 World Ski Championships, plagued by unseasonable weather, opened today with a picturesque backdrop of new-fallen snow.

Twenty-four of the world's finest combined jumpers, athletes adept at both jumping and cross-country racing, vied in the first phase of their specialty — the jumps.

Friday they are scheduled to compete in the second part — the 18 kilometer (11 mile) cross country at Rumford, Me.

BUCKEYE AVALANCHE

CHAMPAIGN, Ill. — The 83-point Ohio State scored in Columbus was the greatest total any basketball team ever made against Illinois.

In 24 seasons, Ty Cobb compiled a lifetime batting average of .367.

# Nation's Production Rises: Kansas, Louisiana Tempo Up

**TULSA** — (AP) — The nation's daily average crude oil production during the week ended Jan. 28 slipped 310 barrels under the previous week's output, the Oil and Gas Journal reported yesterday.

Total daily average production for the week was 4,875,865 barrels.

The daily averages included: Louisiana, 530,120, down 745; New Mexico, 131,220, up 5; Oklahoma, 392,500, up 3,300; Texas, 1,923,150 up 800.

**WICHITA** — (Special) — Both new oil and new gas production increased during the week as compared to the previous week's figure.

Thirty four tests were finished as commercial wells producing 12,828 barrels of oil daily. Nine tests were completed as gasers for 78,585 MCF daily. For the previous week there were 29 new oil wells for 8,452 barrels and nine new gas wells for 71,061 MCF daily.

Rooks County, with four wells and 5,421 barrels of oil, led other counties in new production.

Eight new wildcats were listed

during the week. Dry hole completions totaled 28, seven more than were listed the previous seven-day period.

**BATON ROUGE** — (Special) — The Louisiana Conservation Commission will allow an increase in permissible oil production next month, the second this year.

The maximum allowable production for February was raised to 577,800 barrels daily, up 5,388 barrels daily over December.

Estimated crude oil production in the state next month will be placed at 541,000 barrels a day by S. L. Digby, commissioner of conservation. Present crude oil production in Louisiana averages 527,700 barrels a day.

South Louisiana fields next month will have an allowable of 447,007, an increase of 5,368 barrels a day over January. North Louisiana fields will be allowed a boost of 20 barrels a day to 150,303 barrels daily.

## Roth to Speak To Geologists In Amarillo

Robert Roth, well known among geologists in the area for his study in the Panhandle, will be speaker for a meeting of the Panhandle Geological Society Wednesday night.

Roth, district geologist for Humble in Wichita Falls, will discuss paleogeology of the Panhandle and of Texas. The discussion will follow dinner at 7 p. m. at the Herring Hotel, Amarillo.

The subject is from a paper the geologist presented at a recent meeting of the American Association of Petroleum Geologists, Mid-Continent region, in Oklahoma City.

Discussion will be accompanied by maps, charts and slides to illustrate the topic.

Generators with capacity of 424,000 kilowatts were installed by the U.S. Bureau of Reclamation in 1948.

## Refiners Begin Industry Study

**HOUSTON** — (Special) — Initial drive of the Independent Refiners Association of America has begun with the appointment of committees to conduct studies upon which the policy of the I.R.A.A. will be based, according to a statement made by association president Harry Leyendecker yesterday.

At a Tulsa meeting of the association the Board of Directors appointed committees to make studies of the various phases of petroleum industry activity in relationship to the function of the independent refiner.

Functions of these various committees will include study of: investigation of effects the loss of export markets and the importing of petroleum products are having on domestic supply; investigate the over-all economic status of the independent refiner and to study the principles generally used in establishing the value of crude oil, condensate and gas by the purchasing companies.

Also scheduled for study is the transportation phase of crude and finished products and the effect of rising taxes on all phases of the petroleum industry.

## RR Commission Issues Orders

**AUSTIN** — (AP) — The Railroad Commission yesterday issued orders exempting six wells in the Loveland field, Cochran and Hockley Counties, from its "flare-gas" conservation order of 1948.

Exempted were Magnolia Petroleum Co.'s Coble "D" wells Nos. 1, 2 and 3, Coble "F" wells No. 1, and Skelly Oil Co.'s J. S. Sylvester wells Nos. 1 and 2.

The commission also announced adoption of the following rules for the Ellenberger and Fusselman gas zones of the Benedum field, Regan and Upton Counties:

Spacing — 2,840,880; Ellenberger proration unit — 160 acres; Fusselman proration unit — 325 acres.

Hearing on the application of P. F. Rutherford, Heep Oil Corp. and Conroe Drilling Co. for dual completion and discovery rights for their Shelton et al "A" well No. 4, Victoria County, was set for Feb. 23.

The following rules were announced for the Santos field, Webb County:

Spacing, 440,220 feet; proration unit, 10 acres; allowable, based 50 percent on acreage, 50 percent on wells.

### MARCH OF DIMES WEAPONS AGAINST POLIO

- SECTION MICROSCOPE \$15,000
- ULTRA CENTRIFUGE \$10,000
- HOT PACK MACHINE \$300
- WHEEL CHAIR \$50
- RESPIRATOR \$1,500
- ONE POUND OF HOT PACKING MATERIAL \$1
- COST OF HOSPITAL SERVICE FOR 1 DAY \$13
- ISOLATION MASK 10¢
- COST OF A PHYSICAL THERAPIST OR NURSE PER DAY \$10
- PROFESSIONAL SCHOLARSHIPS AND FELLOWSHIPS \$150-\$6,000

**What Your Dimes Buy**

A glance at the chart gives a partial idea of the huge costs involved in fighting polio. Tremendous outlays for polio research, great expenditures for medical and professional education, together with skyrocketing costs for medical care caused by last year's record polio epidemics, have seriously reduced the resources of the National Foundation for Infantile Paralysis. Give to the 1950 March of Dimes

## Business Said Able to Care For Itself

**DALLAS** — (AP) — R. E. Clements of Amarillo, president of the Texas Manufacturers Association, said in an address here that business can take care of itself without government interference.

He spoke to the Dallas Chapter of the T.M.A.

Clements said business had a stake in the coming general elections and that "we must vote to put the right kind of men in office so we can have the right kind of government."

"At present, business doesn't know what Washington is going to do."

"If the planned economy boys take over this is what will happen," he said.

"Allocation of materials, Loans and government construction of new factories, resulting in more government competition.

Establishment of a National Production Council with regional subsidiaries to propose prices and wages.

Repeal of the Taft-Hartley Law would mean a "welfare state," Clements said.

Speaking of socialism, Clements said the solution depends on businessmen. "There has been too much of a tendency to lean on the federal government for aid."

Clements said people rush to protest government decisions after they have accepted government help.

"We are not getting something free — we must pay for it some way," he said.

## Car Industry Manufacture Tops Sales

**DETROIT** — (AP) — Although production has been hit by Chrysler strike, the auto industry again is producing cars faster than it is selling them.

This is indicated in most recent registration figures compared with estimates of factory output.

If seasonal trends are followed January new passenger car registrations will not top 370,000. Factory output for the month should be about 476,000. In December of last year car output totaled only 292,510 units, while sales are estimated to have exceeded 370,000.

The excess of sales over current output cut down the total stocks of unsold cars.

The Chrysler labor trouble will upset the industry's planning for top level output during the weeks immediately ahead. Before the Chrysler shutdown there was considerable talk about a January-through-March output of around 2,000,000 vehicles.

This schedule contemplated considerable overtime in the various assembly plants, but no a h u t t o w n s . Most sources were convinced the Chrysler strike would be averted at the last moment.

The Chrysler contribution to passenger output has been a sizable one, averaging in all divisions close to 8,000 units a day.

## Acting Couple Have Their First Child

**HOLLYWOOD** — (AP) — It's a boy for the Larry Parkses.

Mrs. Parks, better known as Betty Garrett, the actress, gave birth Thursday to seven pound, 14 ounce Garrett Christopher Parks. It was the first child for the couple, married five years.

The baby was a Caesarean delivery. Both mama and son doing fine, said the hospital.

Sea slugs brought \$1,000 a ton at Canton, China, before the war, says the National Geographic Society.

## Problem of Big Feet Is Given Thought

**NEW YORK** — (AP) — It is no joke having feet big enough to stamp out forest fires, and in pre-war days men with large kickers had real trouble finding shoes to fit them.

They got a little weary of being told, "Why don't you wear suitcases?" And they also got tired of paying \$40 to \$75 for custom built shoes — as few stores stocked anything beyond size 11 or 12.

Bernie Lazarus became aware of this problem while selling shoes to the Army during the war. He discovered about 3 percent of the troops had extra size feet.

"Why shouldn't someone cater to these forgotten men when peace comes?" he asked a supply major.

"It's a terrific idea," said the major.

So Bernie and two friends launched the King-Size Shoe Company in Brockton, Mass. They guaranteed to fit any gent with a flapper between sized 10 and 15.

The firm had 1,000 customers at the end of a year. By the close of 1949 it had 25,000 customers and better than a \$250,000 turnover.

Among the customers are a museum curator, a Broadway producer, Hollywood stars, and at least one governor.

"The governor is Big Jim Folsom of Alabama," said Lazarus. "But I can't tell you the names of the Hollywood actors. They want to keep it a secret."

He has found that many men are extremely sensitive about their over-size feet. In a self-conscious letters they refer to them as "my tender white kickers," "my teenie-weenies," or "my little tootsies."

Lazarus — he's a size 11 1/2 himself — has found even in specialty business it is commercially impracticable to stock shoes larger than size 16. But as a matter of sentiment he will try to shoe men with even "emperorsize" feet.

"The only man I wasn't able to do anything for was a famous wrestler," Bernie smiled. "He had a foot as wide as a table."

Bernie has no desire to solve the shoe problems of big-footed women.

"No thanks," he said, backing away at the thought. "We have our hands full now."

## Ceramics Open Field in Texas

**AUSTIN** — While most engineering fields now have more applicants than job opportunities, the reverse is true in ceramics, University of Texas Professor F. K. Petre says.

Petre, director of the University's Ceramics Engineering Department and the research laboratory in that work, declares: "The field is wide open in Texas at this time. Four of 18 department graduates of the last two years have organized and now own their ceramics manufacturing plants. Several others are near the top in management."

At present, there are no table ware or electrical porcelain industries in Texas, yet the raw materials, facilities, labor, and market are apparent in the state, he asserts.

## 'Woman' Weds Girlhood Chum

**YONKERS, N. Y.** — A young woman who became a man by surgery has been married — to a girlhood chum.

The recent marriage was disclosed by an authority who asked that no names be used.

The bridegroom, a slender, dark-haired young man, was known as "Joan" before a series of operations last spring at Yonkers Professional Hospital and as "John" afterward.

The bride is a New York elevator operator who was a close friend of "Joan" for some years before the operation.

"Joan" was an attractive, boyish-looking, 135-pounder who lived 23 years as a girl until a chance physical examination showed male characteristics were present.

Told of this, "Joan" said: "I'd rather be a man."

A two-week series of operations gave the girl her wish. In male clothing and with close-cropped hair, "Joan" went to Tennessee for a while but returned here last fall.

Doctors described him as a handsome young man who in all likelihood could become a father.

## Polytechnic Adds Petroleum Course

**TROY, N. Y.** — Rensselaer Polytechnic Institute announces the organization of its new Department of Fuel Resources. Effective Sept. 1950, courses of instruction and research will be offered to candidates for graduate and undergraduate degrees.

Subject matter covered in the new courses includes the occurrence, production and recovery of fuels of all types, petroleum and gas, coal, oil shale and fibrous materials. General studies in fuels will be embodied in courses of indoctrination.

## Socony Cuts Fuels

**NEW YORK** — (AP) — Socony-Vacuum Oil Co. yesterday trimmed retail and wholesale prices of No. 2 home heating oil and kerosene in the metropolitan areas of New York, Philadelphia, Boston, Portland, Me.; Providence, R. I., and scattered other sections of New England.

The retail cuts on home heating oil range from .1 to .4 of a cent a gallon, and on kerosene from .3 to .4 of a cent a gallon.

## LIGHTING — As you like it!

### EFFICIENT yet BEAUTIFUL too!

There is no question about it... the tag that says your lamp is CERTIFIED tells you that it's everything you'd want a lamp to be! You know it has met 105 rigid specifications for lighting efficiency... just as its tasteful design will meet the exacting requirements of your decorative motif. It will give from 50% to 100% more light with the same size bulb... and many times more pleasure from the glare-free warmth and color it brings into your home.

The next time you buy a lamp, see the wide selection of sizes, colors and styles in sight-saving CERTIFIED Lamps... be sure to look for the blue tag.

# End of a Chapter

By Edwin Rutt

Copyright 1950 by NEA SERVICE, INC.

**A**LICE PINE stopped her car 50 yards from the house. She wanted to gather first impressions of this place that might become her home for an indefinite period.

Of course, this was the house. Mrs. Halleck's letter had stated that it stood alone at the very end of Grovesnor Point. Well, this dwelling did. Beyond it Alice could see Long Island Sound, its blue surface laced with whitecaps by a strong May breeze.

That same breeze had made a partial confusion of Alice's amber hair. Now she tucked stray tendrils under her small hat and contemplated the home of Muriel Halleck, alias "Jo Palgrave."

The ground around it was generally flat, but receded from monotony by a series of interesting undulations. A sloping lawn on the Sound side ran down to a strip of beach. There were a number of shade trees and one magnificent weeping willow, green and gold in the afternoon sun. A neatly clipped hedge surrounded the house.

The place looked nice. But Alice, personally, would never have put up a squarish modernistic building here. The setting called for something older, more weathered, more on a cottage style perhaps.

But doubtless the Hallecks had substituted practically for the picturesque. And very sensible, if you lived in one place, the year around. This house, with its glass blocks and generous picture windows, looked as if it would be light, airy. And the interior was probably a decorator's dream.

Alice started her motor and turned into a wide gravel drive. As she braked, the front door opened.

The woman who emerged and hurried toward her was small, trim, smart-looking, though dressed in casual beige cardigan and slacks. Her hair was pale blonde, swept from a wide forehead. She had a reticent nose, lightly freckled at its bridge and a good firm chin.

And so this was Muriel Halleck, who wrote under the pen name of "Jo Palgrave." Alice had often seen her photographs in magazines.

"Miss Pine? It's so nice of you to come. I hope the drive wasn't tiresome."

"N-not at all." Alice's slight hesitation was involuntary. She had been a little startled by Muriel Halleck's eyes.

"They were enormous, and peculiar, so light a gray as to seem silvery. But tawny glints lurked in great black pupils like pin dots of fire. Alert, aware eyes, and the most arresting that Alice had ever seen."

She added: "I've been looking forward to coming. Your letter made it all sound so interesting."

Muriel Halleck smiled. "I hope you'll find it just that, if we can agree."

She's terribly alive, Alice thought. Bright and quick-moving, like her stories.

"Come along," Mrs. Halleck was saying. "I'm dying to explain everything."

Alice got out of the car and at once felt rather awkward. She stood five-seven in her stockings and had a tendency to stride. Whereas the woman at her elbow moved with the easy grace of a cat.

"What I'm getting at," Muriel said, "is that a writer needs a certain sympathy. I don't mean praise. I wouldn't have a yes-woman."

Some interest in writing. And things that are being published. In other words—Muriel's smile was frank—"I'm thinking of a person who'll be a little more than simply a stenographer."

"WHAT I'm getting at," Muriel said reflectively, "is that a writer needs a certain sympathy. I don't mean praise. I wouldn't have a yes-woman. But I can't bear the idea of someone who just did the work and was left completely cold by it."

"You mean that you don't want an automaton?"

The silvery eyes regarded her appreciatively. "That says it perfectly."

"Well," Alice said, "I can do the shorthand and typing. I'm not a writer, of course. But I love reading and I've always—oh, lived with books. I think I have some appreciation, Mrs. Halleck. I'm sure of it."

"Mind going over your back-ground again?"

"Not at all. There was school and college, as I explained. The war was on when I graduated from college. So I joined the W.A.C.s. And my—er, the man I was going to marry... well, he was killed in the Pacific."

She stopped, momentarily lost in bitter remembrance. Gil Farnum, black-browed, black-eyed, and an eternal laugh on his lips. Zeroed five of them, wheeling. It had taken five to..."

Mrs. Halleck's voice, suddenly soft, brought her out of it. "I understand, my dear."

"Well, after the war I took a job in a New York advertising agency. Rather a hectic job. And this winter it got me. A doctor advised a complete change. Unconsciously, Alice sat forward. "I want to be very clear, Mrs. Halleck. There's nothing actually wrong with me. I had a sort of breakdown, which I'm about over. And that—that's all. Except that I can't remember whether I told you my age—28."

(To Be Continued)

## Ghosts Want Same Privacy As People

By HAL BOYLE

**N**EW YORK — (AP) — There is a classic yarn of a jittery ghost who went to see a psychiatrist.

"Doc, you've got to do something for me quick — I'm a nervous wreck, complained the spook.

"And what are your symptoms?" asked the psychiatrist.

"I keep seeing people!" the ghost replied, biting its nails. And that is one of the big troubles with being a ghost. As soon as it sees people — and as soon as they see it — well, they just won't let a ghost alone. People give ghosts the creeps. They bother the life out of them.

A case in point is the ghost of a dear old lady named Mrs. Gladys Drury who died 18 years ago in a fine old Victorian home near Bristol, England.

The William Baber family moved into the house in 1937. One story said the ghost appeared after they opened a closet in which Mrs. Drury's trunks had been stored.

Baber said the ghost began appearing at 8 a. m. every morning and following members of the family around. Also, he said, she woke up the children.

So a young vicar of the Church of England was called in to exorcise poor Mrs. Drury's spectral figure by ancient rites.

Somehow this whole business seems grossly unfair. Shouldn't ghosts have equal rights with people?

The average ghost is much less trouble than the average weekend guest. It doesn't eat you out of house and home, it doesn't run up the electric light bill by reading late at night. It doesn't borrow money from you. All it wants to do is haunt the house in its own quiet way.

Take poor ghostly Mrs. Drury. Who was she hurting? What if she did pad around after the family at 8 a. m.? She was probably lonely from prowling the house all night by herself. Instead of having been nicer to borrow a ghost from some other haunted house to keep her company? They could play canasta by the light of the moon.

## Texas Highway Maps Now Ready

**AUSTIN** — Want to know the best route from Boca Chica to Texline?

Motorists may have the latest official Texas Highway map just for the asking.

D. C. Greer, state highway engineer, states that the 1950 map is the best ever published. Any-one desiring a free copy should contact the Texas Highway Department, Austin.

The new map has been brought up to date to show all of the recent changes in the principal highways of the state. Complete mileage tables are shown.

Twenty-five full color pictures show points of interest in Texas and along the Pan-American Highway in Mexico.

The Highway Department distributed 300,000 copies of the 1949 edition. An even larger demand for the new map is anticipated.

## Edna Wallace Hopper Takes Wall Street as Her Stage

NEW YORK — (NEA) — Edna Wallace Hopper, who won fame in "Floriadora," is now a Wall Street broker.

"There's a little ham in almost everybody in Wall Street," she says. "All that temperament, nerves and excitement! Sometimes I don't miss the theatre a bit."

Fox Edna Wallace Hopper, high finance is her fourth career. As an actress she was the toast of the Gay 90s. Later she ran a cosmetic business. Then she turned to lecturing, touring the country and appearing on the radio. Ten years ago, she turned to the stock market, and now trades in stocks and bonds (for herself) with a brokerage firm here.

Pretty good for a gal in her 80s, or thereabouts. Miss Hopper once started newspaper readers anxious by saying she wasn't going to grow old, ever. To back up her claim, she had three face-lifting operations. She may have aged a bit over the past 50 years or so, but she doesn't look anywhere near the octogenarian type, yet.

She won't admit her true age, of course. She smiles with pride and delight when the subject comes up, dismissing it with, "I have no age. They've had me all ages, even dead and buried. Nobody has been right. I wouldn't tell for the world. Just so they discuss it, I'm anything they say."

Whatever she actually is, she doesn't look it. She's a slim, trim 87-pounder, with bright blue eyes, short and wavy brown hair. She dresses up to the minute, walks with the sprightly step of a woman half her age (say 40) and laughs and talks like a teen-ager.

Miss Hopper turned to Wall Street after she quit the cosmetics business. "I've always had a flair for finance," she said, although admitting she learned a great deal from her second husband, broker A. O. Brown. She was also married to the late DeWolf Hopper.

Despite her self-acknowledged flair for finance, her first experience in "the street" was sorrowful. In a word, she was cleaned. That was in 1919 when she was—well, 30 years younger.

"I was just gambling," she recalls. "I thought it was a sure thing. I deserved what I got, because it was sheer gambling. Too many people blame Wall Street instead of themselves."

But, taking the bitter with the better, Miss Hopper says that being broke led to the "splendid careers that followed." She turned to lecturing, and found it "glamorous."

"I was any adjective you can think of—except mediocre," she says.

But 10 years ago, with lecturing and the cosmetics trade behind her, she went back to Wall Street.

"I remembered Wall Street and

## McKenney On Bridge

By WILLIAM E. MCKENNEY  
America's Card Authority  
Written for NEA Service  
Today's hand was taken from the national men's team-of-four contest. It was played by Fred Karpin of Washington, D. C., author of the Point Count System of Contract Bidding.

During the nationals Karpin was on the lookout for interesting hands for me and he pointed out a good lesson in this hand. Losing the first trick to the ace of diamonds meant that Fred, sitting South, had to take the rest of the tricks to make his contract of six no trump.

Should he take the club or the spade finesse? Of course, if he

Opening—4 30

took either and it failed his contract was set. However, as Fred pointed out, with eight spades in the two hands they might be divided 2-2 and you might have the good fortune to drop the queen of spades doubleton. Therefore, the correct line of play was to cash the ace and king of spades and if the queen did not drop then you would have the club finesse to fall back on. But, as you can see, the queen of spades did drop, so now he made five spade tricks, six heart tricks and a diamond trick. He never used his ace of clubs.

While the finesse plays a very important part in most bridge hands, too many players lose contracts that might otherwise be made by taking an unnecessary finesse. Take time to figure out the different angles and percentage plays of a hand and give yourself the benefit of every possibility in a hand.

## Labor Situation Being Studied

MCCLELLAN — (AP) — John W. Gibson, assistant secretary of labor, studied the lower Rio Grande Valley's labor situation Monday.

He said his visit had nothing to do with bracero (contract Mexican laborers) talks set for Washington Friday.

## Human Relations Meeting Planned

**AUSTIN** — The University of Texas College of Education will hold its third Human Relations

Work Conference June 6-7-16, Dean L. D. Haskew announced.

The National Conference of Christians and Jews has again allocated a \$2,000 grant for the conference.

from New York University. Forty Texas public school teachers will be selected to attend.

Methods of teaching human relations to children is to be the conference topic.

**Steelworkers May Strike at Garland**  
DALLAS — (AP) — CIO Steelworkers have voted to strike at the Emsco Derrick & Equipment Company at nearby Garland.

The employees have been working without a contract since Nov. 30.

No date for a strike was set, but Lee J. Metker, representative of the workers' union, said a strike is a "definite possibility."
