

COLD FRONT SLOWS DOWN, LOSES PUNCH

(By The Associated Press) The predicted first norther slowed down and lost its punch last night, the Weather Bureau said today. As it moved across West Texas today temperatures dropped, but no freezing was reported. Dalhart recorded 38 as the cold front passed. Amarillo had 42; Pampa had 48, El Paso 46 and Lubbock 55. Temperatures near freezing were predicted for the Panhandle tonight. Elsewhere readings were expected to be in the 40's and 50's, the Weather Bureau said. San Antonio and Texarkana reported overnight lows of 73, Houston 74 and Dallas 75. Highest reading was 94 at Laredo. The forecast for East Texas is for partly cloudy with scattered thundershowers in the northwest portion tonight and in the extreme east portion today. Colder readings are predicted in the northwest portion tonight and in the interior tomorrow. West Texas is expected to be partly cloudy with lower temperatures this afternoon and tonight. Lower temperatures are predicted near freezing in the Panhandle tonight. Tomorrow is expected to be partly cloudy and cool.

Yugoslavia Wins Seat in U.N. Council

NEW YORK (AP)—Yugoslavia won a seat in the United Nations Security Council today over the Soviet-sponsored Czechoslovakia. The action by the 59-nation General Assembly was a rebuff to the Cominform Soviet bloc. The vote on the second ballot was 29 to 25, with 10 abstentions. Thirty-nine votes were required for election. Yugoslavia thus squeezed by on the minimum number of votes needed.

The voting was by secret ballot. The United States supported Yugoslavia for the council seat now held by the Soviet Union. The seating changes Dec. 31. On the first ballot, Tito's regime got 37, Czechoslovakia 20, Afghanistan 1, Philippines 1. Russia's Andrei Y. Vishinsky took the floor immediately after the results were announced. The voting began after Vishinsky made a last-minute appeal to the assembly to defeat Yugoslavia. His remarks, however, were ruled out of order by Assembly President Carlos P. Romulo.

India and Ecuador were elected to the other two council seats to be vacated Dec. 31. Ballots were being distributed in the assembly when Vishinsky demanded the floor. He strode to the rostrum to make a technical argument that the seat belongs to Czechoslovakia by choice of the Soviet bloc. Assembly President Romulo quickly made his ruling that Vishinsky was out of order. No campaigning for candidates is permitted from the floor. Vishinsky's charge was: "Attempts are being made to distort the Soviet position in this matter." (See YUGOSLAVIA, Page 7)

CONGRESS GOES HOME FOR 75-DAY BREATHER

WASHINGTON (AP)—With a 75-day breather ahead, members of Congress went home today to listen to the voters' ideas about how to run the country. Behind them left, along with their accomplishments, an imposing array of issues settled only temporarily or not at all in a 189-day session of the Democratic-controlled Congress. But it had been a busy, if sometimes an acrimonious, session, and the lawmakers greeted adjournment joyfully on both sides of Capitol Hill. There was a some horseplay; there were a few notes of criticism. And there was a congratulatory message from President Truman to send the legislators on their way.

In the House chamber, three girls who work for Congressional committees serenaded the representatives with "The Eyes of Texas" and "Down by the Old Mill Stream." In the Senate, Senator Donnell (R-Mo.) slyly poked fun at Barkley for his reported romance with Mrs. Carleton S. Hadley, St. Louis widow. Barkley responded in kind. At Donnell's invitation to visit (See CONGRESS, Page 7)

Air Mail Will Be Inaugurated About Nov. 15

Pampa's first air mail flight will be inaugurated on segment four, air mail route 81 on or about Nov. 15, Postmaster W. B. Weathered announced today. The first scheduled flight of Central Airlines through Pampa will be Nov. 10. The Post Office Department has announced a special cachet stamp will be provided to apply a common design to all souvenir mail dispatched over the first regularly scheduled flight in each direction.

Patrons should be advised to address envelopes in such a way as to leave a clear two and one-half inch space to the left of the address for application of the cachet, F. L. Ehrhardt, Fort Worth, acting superintendent, said. Souvenir mail addressed for delivery to the local patrons will be flown on the first flights to a terminal office for back stamping and then returned to the Pampa Post Office for delivery. The postmaster said probably from 2,000 to 3,000 covers from collectors throughout the country will be received with the request that they be held for dispatch on the first flight when the service begins. The covers will be held back with accompanying communication until receipt of detailed instructions from the Post Office Department for their separation and routing. Specific instructions will be furnished following issuance of departmental schedules carrying the new service.

WE HEARD . . . The Post Office has received a new ton and one-half truck to replace its old half-ton 1930 relic. It got one other new truck about six months ago.

LONELY PICKET—A lone picket patrols the deserted sidewalk beside the Aluminum Company of America plant in Edgewater, N. J., as Alcoa closed 9 plants and 20,000 workers walked out over failure of pension negotiations.

Wheeler Residents Are Injured

WHEELER (Special)—Two auto accidents in the last two days have put two Wheeler residents in the hospital, but neither was badly hurt. B. M. Litton, pastor of the Church of Christ, was only slightly injured, but his car, a 1940 Plymouth was demolished in a collision on a country road near Wheeler.

Litton was driving east on the road and George Lamb, driving a 1949 Chevrolet pickup, was driving south. As they approached the intersection of the two roads, neither saw the other until too late to stop. The accident happened about 3 p. m. Tuesday. Litton was taken to the Wheeler Hospital by James Clepper, high school agriculture teacher, but he was released the next day. Mrs. Floyd Pennington is in the Wheeler Hospital suffering from a shock following her collision in the east part of town about 5 p. m. yesterday. Mrs. Pennington was driving west in her 1948 Plymouth and Mrs. Nile Patterson, with her two small children, was driving south in her 1936 Chevrolet when the two cars collided at an intersection. Mrs. Pennington's car was struck between the doors on one side and was turned over. She was taken to the hospital by Mrs. Clyde Johnson, who was passing near the accident.

FATALLY INJURED TAYLOR (AP)—An unidentified white man, about 40, was fatally injured near here yesterday when struck by a truck.

Charge Filed Against Texas Senator

VOL. 48—NO. 168 (20 PAGES) PAMPA, TEXAS, THURSDAY, OCTOBER 20, 1949

Panhandle Home Robbed Of \$20,000

PANHANDLE (Special)—Thieves took their time early last night to ransack the Julius Meeker Sr., home in Panhandle, getting away with \$10,000 in jewelry and an almost like amount in savings bonds. The Meekers left home early last night, locking all doors and windows. When they returned a few hours later they found the front door pried open and the house ransacked. Both Mrs. Meeker and her daughter lost all of their expensive jewelry, a considerable amount of cash and a large number of women's suits and dresses—all new. The Meekers told Panhandle reporters that they had not counted up "all of the missing items yet." The war bonds had a total value of over \$6,000. Other household items taken from the recently renovated Meeker home consisted of cooking utensils, silverware and smaller furnishings "enough to load a truck." However, officers declined to provide more detailed information on the case.

Local Union Rejects Move By President

HOUSTON (AP)—The Executive Board of a local CIO Oil Workers International Union rejected the firing of its two top officials by the national president. Twenty-four members of the local's 30-man Executive Board voted unanimously to keep President Billie Kieke and Secretary Arthur Hajecate in office. O. A. Knight, international president of the OIWI, wired Houston newspapers yesterday that Hajecate and Kieke were removed from office Tuesday night by the union's Executive Council, meeting in Denver. He said they were removed for "failure to see that conditions of the constitution and policies of the union were carried out."

Hajecate, as secretary, is executive head of Local 227. The local union is locked in a dispute with Mathieson Chemical Company. A Harris County grand jury is investigating disorders that occurred at the Mathieson plant this week. A number of arrests have been made. The company opened the plant Monday after closing it last August. It claimed operation was made impossible then by employees writing and filing "mass" (See LOCAL, Page 7)

Guatemala Flood Toll Nears 4,000

GUATEMALA, Guatemala (AP)—A Red Cross-U. S. Army relief mission today launched an aerial survey of Guatemala's mounting flood toll, already estimated at some 4,000 lives and \$50,000,000 in property destruction. Reports of widespread death and destruction resulting from two weeks of disastrous floods and rains continued to filter into this Central American capital. In one town, 1,000 children were reported homeless, many of their parents presumably dead. Coffee producers estimated at least 30 percent of their \$33,000,000 crop has been destroyed. Uncounted thousands of cattle in the rich Pacific Coast grazing belt were destroyed.

IN CONVENTION MIAMI BEACH, Fla. (AP)—Approximately 3,000 Jewish war veterans were here today for their 54th annual national convention.

WE SAW . . . That J. Ray Martin and the ESA Sorayty of Pampa received recognition in a Connecticut American Cancer Society magazine for their pushing of the cancer drive here through the sale of salvaged neck ties. Texas State cancer fund Campaign Director Clark Stuebel commended the local men and organization for their enterprise.

Mrs. L. N. Atchison, den mother of Cub Scout Den J, Pack 14, according to her Cub through the Fire Station yesterday. She said her Scouts are observing Fire Prevention throughout October. Good ideas for everyone.

The bridegroom is slated for discharge next Aug. 1; his fiancée, the following October.

Pilots Oppose Northwest Field as Permanent Port

The Pampa Pilot's Association presented an airport cost estimate, totalling \$85,000, to city and county officials and the Aviation Committee of the Chamber of Commerce this morning. It was their answer to a list of estimated costs for improving either the present airport or the auxiliary landing strip northwest of town as a permanent municipal port. The association, meeting last night at the Chicken Diner, 543 W. Brown, turned thumbs down on the northwest site, and unanimously favored development of the present port. The \$85,000 they figured as the maximum needed to purchase land that is under lease now and to fence it compares with \$209,626 estimated as necessary to improve the present port and \$113,500 for the northwest one. The aim of the Aviation Committee has been working on an airport improvement program for about three years, is to work out a program that will be acceptable to the public from the standpoint of investing public funds, and one that will provide for present and anticipated future airport needs. Fred Thompson, president of the Chamber of Commerce, said this morning. The conferees debated on the least amount necessary to either purchase the present port or to improve the auxiliary field, but they had arrived at no definite conclusions by press-time. The Aviation Committee, however, has gone on record as favoring the northwest field. A group representing the pilots met with city and county officials and the Aviation Committee last week and were given the cost estimates that were presented to the association last night. They also said that the Civil Aeronautics Authority will foot approximately one-third of the bill. Bert Howell, president of the association, said. The remainder of the funds would be sought in a county bond issue. Identical sums, totalling \$90,000, are included in both estimates for administration building, hangar, and apron and taxiways. But the pilots said that expenditure would not be necessary at the present airport. Some thought as little as \$45,000 would be needed, mainly for the purchase of land, since, Howell said, the CAA has approved the present airport as it is.

AIR FORCE SLASHES BACK—At left, Gen. Hoyt S. Vandenberg, U. S. Air Force chief of staff, leans on a committee table as he confers with Rep. Carl Vinson, chairman of the House Armed Services Committee during a hearing on unification. In center is Rep. Dewey Short. Later Air Force Secretary W. Stuart Symington testified before the same committee, right, by reading from a "police force" during which time a curious spectator, "Analysis of Another Anonymous Attack on the Air Force," during which time a curious spectator, Mrs. F. M. Gregg, of Upper Sandusky, Ohio, glanced over his shoulder for a better view of the book.

COLLINS SAYS ARMY NOT PLOTTING TO DENY MARINE CORPS ITS RIGHTS

WASHINGTON (AP)—Gen. J. Lawton Collins assured Congress today that the Army is not plotting to deny the famed Marine Corps its "right to fight." Collins, Army chief of staff, said "some of our Marine friends have misrepresented the Army's position." "We have no slightest purpose to impose the Army's will upon a sister service."

Collins testified before the House Armed Services Committee. The committee is getting now the counter arguments against Navy and Marine complaints that present defense policies are lopsided—that they over-emphasize the Air Force and strategic bombing while cutting down on the Navy and Marines. Collins was replying to testimony that the House group got on Monday from Gen. Clifton B. Cates, commandant of Marines. Cates had complained that apparently there was an intention among some high military policy planners to reduce his fighting corps to a "police force." Collins asked up where Gen. (See COLLINS, Page 7)

Glen Porter Rites Today

WHEELER (Special)—Funeral services for Glen Porter, 39, prominent Wheeler County rancher, were held at 3 p. m. today. The rites were held in the Methodist Church with the Rev. Darris L. Egger, pastor, officiating, assisted by the Rev. Hugh Hunt of Chillicothe, Texas. Burial, under the direction of the Kirk-Mason Funeral Home, was on the Porter Ranch at the site that Porter himself had chosen for his grave. Porter was found dead in bed at the ranch home eight miles north of Wheeler early Tuesday morning. He apparently died in his sleep from a heart attack. The Porter family has been in the county since about 1899, and Porter was operating the T-Bar Ranch founded by his late father. Porter is survived by his wife, Mrs. J. M. Porter of Wheeler; by three children, Glenda Ann, Jim, and Dwayne; by two sisters, Mrs. Cora Hyatt of Wheeler, and Mrs. J. H. Caperton of Shamrock; and by his mother, Mrs. J. M. Porter of Wheeler. His mother is author of the Panhandle history "Memory Cups of Panhandle Pioneers," published in 1945.

Texas Soldier to Wed Georgian

TOKYO (AP)—An Army private from Texas and a Georgian sergeant from Georgia are to be married—and settle down in Georgia. "There's nothing wrong with Texas," said PFC Robert E. Noble, Dallas. "We just decided we'd live in Georgia when we leave the service." He and Sgt. Montez Hardy of Williams, Ga., have set their wedding for Oct. 29 here. Noble, 26, met the 24-year-old war two years ago while her family was visiting in Texas. They didn't see each other again until about six months ago in Japan.

The bridegroom is slated for discharge next Aug. 1; his fiancée, the following October.

By use of long range direction-finders FCC agents localized the unlicensed broadcasts to a 100 mile area. Mobile direction finders went into the Panchman area and localized the section from which the broadcasts were originating. Sundry federal men entered the trustees cage at Panchman. Moody was summoned. "He saw the game was up," McKinney said. "Grinned, and I took us to his cpt. After we had required the two transmitters there, he took us to the little four by six guardhouse and pointed out the other one." Prison Supt. Marvin Wiggins told The Houston Post: "We had no idea whatever of Moody's radio activities until the federal men tipped us off three weeks ago."

The FCC men had been monitoring Moody's daily broadcasts for three weeks. He went on the air each morning at 5 o'clock and talked steadily to Pascagoula or

False Swearing Is Issue in Case

AUSTIN (AP)—A charge of false swearing in an affidavit was filed against Senator Lyndon B. Johnson (D-Tex) in Justice of the Peace P. L. Nairn's court here today. The charge was brought by Frank Hamer of Austin in connection with the election aftermath in Alice last year. Nairn set bond at \$500 and said he would transfer the case to the 98th District Court grand jury now in session. He said he would not issue a warrant until Johnson returns to Austin. Johnson is expected here in a few days. Hamer said the "false statement" was made in an affidavit filed in 126th District Court Sept. 19, 1948, in an injunction suit against U. S. senatorial candidate and former Gov. Coke Stevenson and a number of his supporters including Hamer. Hamer said he had been accused of going into Jim Wells County and "by threat and intimidation" attempting to have voting results changed. Hamer is a former Texas Ranger and at the time of the election squabble was privately employed as a guard over oil properties in Texas. District Attorney Bob Long said it will likely be next week before the grand jury considers the charge. A special grand jury at Alice last month returned no indictments after probing into the once-explosive issue of the Aug. 28, 1948, Democratic primary election at Alice. Former Gov. Stevenson was defeated in the primary for the Democratic nomination by Johnson by a margin of 87 votes. Johnson was elected in the general election in November and is now serving his term. Stevenson charges that 200 fraudulent votes were added to the total of Precinct 13 in Alice.

HST Appeals For Peace In Industry

WASHINGTON (AP)—President Truman suggested today that labor and management get together and settle the coal and steel strikes in the interest of themselves and the country. The President told a news conference he had no present plans for seizure of either industries and he still hopes that mediation will be successful. The sooner employers and employees come to a conclusion and go back to work, he said, the better it will be for the country and themselves. The twin strikes by Philip Murray's CIO Steelworkers and John L. Lewis' United Mine Workers have idled about a million men for almost three weeks. Mr. Truman was asked what he would do if mediation efforts by Conciliation Director Cyrus Ching fail to bring about a settlement. He replied he would cross that bridge when he comes to it. Coal negotiations between Lewis' miners and the soft coal operators are under way in West Virginia. Ching is meeting today with representatives of U. S. Steel Corporation in New York. The President said he was in continuous and close touch with the conciliation moves. Mr. Truman said in response to another question that he will plan to ask Congress for repeal of the Taft-Hartley Act. The 81st Congress thus far has refused to wipe out the 1947 labor law which Mr. Truman pledged to repeal. It was known that strike-stopping injunctions under the Taft-Hartley law and partial industry seizure under the military draft laws are being considered by the President's aides. There appeared nothing on (See HST, Page 7)

ADVISORY ECONOMIST QUILTS POST

WASHINGTON (AP)—President Truman was reported today combing through a list of candidates to take over the top spot on his Economic Advisory Council following the resignation of Dr. Edwin G. Nourse. Unless the President finds a successor to Nourse by Nov. 1, the role of ranking government economist will fall to Leon Keyserling, 41, a former New Deal lawyer who is now the council's vice chairman. A high official said it is considered almost certain, however, that Keyserling will not be the final appointee. There was mention, among other possibilities, of Winfield William Riefler, 52, Federal Reserve economist. The White House said no choice has been made. Another source, reporting that several persons have been sounded out, forecast privately that there may be difficulty in filling the top spot in view of past conflict within the three-man council. If Keyserling remains long in the acting chairmanship, some change in council policy seems certain. Nourse was generally rated the council's most "conservative" member; Keyserling is proud to have been among the earliest of the young men who rallied to the standard of Franklin D. Roosevelt. Nourse resigned, his associates say, because he felt the council should not mix in politics in such ways as promoting administration programs before Congress. This to Nourse was vital—while a President might have to temper his (See ADVISORY, Page 7)

Evidence in 20-Year-Old Case Missing

SAN ANTONIO (AP)—Evidence in the 20-year-old ambush slaying of a federal prohibition agent has vanished from the files, District Attorney William N. Hensley disclosed. He said yesterday that all that could be found in the files was the indictment and some statements in connection with the slaying of Charles Stevens, Gunn taken from some of the six persons rounded up at the time are missing. Hensley said many persons have had access to the files since the slaying Sept. 25, 1929. Lynn Stephens, 51, one of those indicted in the slaying, surrendered to Sheriff Owen Kilday Tuesday. He had vanished after Stevens was killed. One person was convicted in connection with the slaying. Joe Hobeck was given seven years but the verdict was reversed on appeal. Officers believed four men were in the ambush that cut down the prohibition officer eight miles from town on the Pleasanton Road. Federal Agents J. H. Haley and A. D. Fitzgerald of the alcohol tax unit, who were on the slaying scene after it happened, offered their help to Hensley and Chief Investigator Charles Bond. Pat Murphy, who was with Stevens when he was slain in the gun battle, will likely come to San Antonio to help, Haley said. Murphy is with the tax unit in Dallas. (See HST, Page 7)

Smithwick Seeks Bond

ALICE, Texas (AP)—Former Deputy Sheriff Sam Smithwick came into court here today to seek his release on bond at a habeas corpus hearing. Smithwick has been in jail since Radio Commentator W. H. (Bill) Mason was shot to death on July 29. His case was sent to Belton Bell County, for trial. Sheriff E. T. Ray of Belton County brought Smithwick here at 1:30 a. m. for today's hearing. Smithwick was represented by Henry Taylor and Byron Skelton, Temple attorneys, and H. M. Wilder, county judge of Live Oak County. District Attorney Sam Reams and County Attorney Homer E. Dean, Jr., appeared for the state. Reams and Dean opposed the granting of bond. The court room was fairly well filled.

Jittering Dancing Shifless Say Czechs

PRAGUE (AP)—Czechoslovakia's youth today was urged to wage war against jitterbug dancing because it allegedly led to a life of shiftlessness and crime. Ping pong, billiards and commenting on the pretty legs of girls also came in for acid comment as symbols of "so-called Western culture" and unworthy of the youth of a "people's democracy."

Trusty Originates Illegal Broadcasts From Inside Prison Walls for Four Years

HOUSTON (AP)—Three clandestine radio transmitters operated by a prisoner have been seized at the Mississippi Penitentiary at Parchman, Miss. Joe McKinney, Federal Communications Commission regional manager, said they were operated and localized the section from which the broadcasts were originating. Sundry federal men entered the trustees cage at Parchman. Moody was summoned. "He saw the game was up," McKinney said. "Grinned, and I took us to his cpt. After we had required the two transmitters there, he took us to the little four by six guardhouse and pointed out the other one." Prison Supt. Marvin Wiggins told The Houston Post: "We had no idea whatever of Moody's radio activities until the federal men tipped us off three weeks ago."

The FCC men had been monitoring Moody's daily broadcasts for three weeks. He went on the air each morning at 5 o'clock and talked steadily to Pascagoula or

Bucatunna until 7:30 a. m. His transmitter in the guardhouse enabled him to continue his broadcasts during his hours of duty there, McKinney said. As a trusty, Moody, now only 28, although he had been a prisoner for 19 years for his last offense, had many privileges. He was permitted to take correspondence courses in radio and became the prison radio mechanic and repairman. "He's a mighty smart fellow," Wiggins said. "We let him have various radio parts as elements of his training and he certainly made the most of them."

"When Wiggins found out what Moody was up to," McKinney said, "he certainly put a crimp in Moody's clemency plans. Any action that might have been taken was no longer in question. And we were informed that Moody will lose his trusty status and all his privileges," McKinney said. The penalty for unlicensed broadcasting is a maximum fine of \$10,000 and two years imprisonment.

THE WEATHER U. S. WEATHER BUREAU WEST TEXAS: Partly cloudy. Cooler this afternoon and tonight. Lowest temperatures near freezing in Panhandle tonight. Friday partly cloudy and cool. (See LOCAL, Page 7) OKLAHOMA: Occasional showers and thundershowers today, tonight and Friday, cooler northwest today and in northwest half of state tonight. Cooler on Friday, highs today 45-50 in Panhandle, lower in south. Low tonight near 40 in Panhandle, 45-55 southeast. 9:00 a. m. ... 49 11:00 a. m. ... 50 1:00 p. m. ... 51 3:00 p. m. ... 52 5:00 p. m. ... 48 7:00 a. m. ... 41 9:00 a. m. ... 45 11:00 a. m. ... 46 Hunting licenses at Lewis Edw.

Highways in Texas Are Giving Away

AUSTIN —(AP)—Highways built in Texas 20 years ago are beginning to crumble under the constant pounding of traffic.

It would be desirable to redesign most of the primary arteries and re-align most of them for safety.

It would cost several hundred million dollars to put Texas' main roads in first-class shape, but where's the money coming from? Those three assertions contain the meat of a recent statement issued here by Fred Wemple of Midland, chairman of the State Highway Commission.

He said highway planners are becoming increasingly concerned over the cost of maintaining state roads. That cost runs around 22 million dollars a year.

Most of the main routes through the state were built almost 20 years ago. The rate of their run-down increases every year. Wemple said, and the time is nearing when patching them up here and there will not help much.

Texas continues to lead the nation in the total mileage of roads built. The latest estimates call for 4,250 miles to be completed in 1949.

Elsewhere in the nation, there are only seven states that will build more than 1,000 miles of

road this year. North Carolina with 3,000 new miles should wind up next to Texas.

Each mile of new roads adds to the maintenance problem. "Although a large number of new roads are being built, we cannot be content with the highway situation in Texas," Wemple says.

The size of the state demands more road mileage than any other state. As we build more and more new roads, they are added to the list for maintenance.

"Unless some solution is found for the highway maintenance problem, we shall soon find that our worst roads are the heaviest traveled roads."

Wemple offered no immediate solution. He did say the financial condition of the state and nation was such that a general overhauling of the primary road system was impractical now.

The state highway program is chiefly dependent on the gasoline tax for basic revenue. The last Legislature supplemented farm to market road money with a direct allocation of the clearance fund.

State funds are also supplemented by local and federal money on specific types of projects, but the gasoline tax is still the major funder.

Wemple's statement aroused considerable speculation in the capital as to whether or not the next Legislature would be asked to find more money for roads.

Top U.S. Businessman Says National Cooperation Needed

By GAYNOR MADDOX

NEW YORK — (NEA) — Any foreign peoples, no matter how their government differs from ours, should be given a chance to study American techniques for conserving and using industrial resources.

That is the belief of Clarence Francis, board chairman of General Foods Corp. and an outstanding United Nations supporter among business leaders. He headed the American Citizens Committee of the recent UN conference at Lake Success on the conservation and use of world resources.

Some 535 scientists from 49 countries took part in the meeting. The committee's job was to put them into personal contact with American industrialists and conservation specialists with whom they might exchange information.

"We all live in the world together," said Francis. "If the United States helps the United Nations broaden out the productive and conservation thinking of the world, everybody's standard of living will go up."

"But we should avoid propaganda and use only facts. Our committee tried to help the scientists get a real picture of how our private enterprise system works. The visitors asked the questions and did the looking.

The United States produces more than one-half of the world's steel.

CLARENCE FRANCIS—The visitors asked the questions of Francis, board chairman of General Foods Corp., and head of the American Citizens Committee at the U. N. on the conservation and use of world resources.

What they learned must cause them to question much hostile propaganda against free enterprise.

Francis added that American businessmen who were in contact with the foreigners recognized the importance of listening to their visitors, too.

"I am convinced that our business leaders must be willing to work together with other countries despite their fear of other types of government, if the international standard of living and security is to be improved," he said.

The citizens committee arranged for small groups of visiting scientists to tour plants and other installations that would do to their understanding of American methods.

Francis said many of the foreigners voiced surprise at the frankness with which our technicians and executives answered questions.

"Anything we've got to show is yours to see," the visitors were told by Thomas J. Watson, president of International Business Machines, in a typical comment.

Francis, who was chairman of United Nations Week in October, 1948, said he undertook to lead the citizens committee at the behest of Secretary of Interior Julius A. Krug. The group had many well known industrialists and conservation experts in its membership. Its most notable representative was former President Herbert Hoover.

"I think the committee has shown in its limited way how American industry by sharing its know-how of conservation and utilization techniques can do something to help stabilize an alarmingly unstable world," Francis declared.

India's Minister On Whirlwind Tour

NEW YORK — (AP) — A six-day whirl of greetings, hand-shaking and sightseeing on his goodwill tour of America has India's Prime Minister Jawaharlal Nehru just a bit worn.

Grinning tiredly, he told a friend: "No one should have to see America for the first time." This is his first visit.

English Taught in Eight Weeks

ANN ARBOR, Mich. — (AP) — A sort of linguistic miracle is being accomplished here.

Young foreign students, with little or no background in English, are achieving a fluency in eight weeks that might take as long as two years elsewhere. This is being accomplished by the University of Michigan's English Language Institute.

"There's been as much advance in linguistic science in the last 15-20 years," Dr. Charles C. Fries, director, says, "as there has been in the field of physics and atomic research."

Dr. Fries says the whole program rests on determination of the differences between the foreign language and English. Different sentence structure, different pronunciation of the same letter and different meanings of the same word provide the working area. Intense effort is then applied to eliminate "trouble spots."

Proof of the system is that about two-thirds of the students are ready to hold their own in the English-speaking world after eight weeks. Each has a working

Engineer Gets TV 1,200 Miles Away

ST. CLOUD, Fla. — (AP) — Ray Charleston, radio engineer, doesn't worry about a lack of television sending stations in the South. He gets just about any kind of reception on his set here. He's logged the stations he connected with and they include just about every one

up to 1,200 miles away—except Miami. Miami has a 78-foot elevation above sea level, with a 60-foot lower. Reason for the reception here, he says, is tropospheric propagation, a high-powered way of saying that the sky wave of television is freakishly reflected in this particular spot.

Beethoven wrote some of his greatest music after becoming deaf.

"I trust, Madam, that you have Queen Bee pattern silverware—the kind you get with coupons from Gold Medal Flour."

Jeeves is right! And for a limited time only you can get from General Mills, beautiful Queen Bee pattern teaspoons in Onada Community Taper Plate. Send no money! Just mail postcard that comes in each 25 and 50 pound sack of Gold Medal "Kitchen-tested" Enriched Flour. (2 teaspoons for postcard from 50 pound sack—1 teaspoon for postcard from 25 pound sack.) Hurry! Get Gold Medal Flour and send for your Queen Bee pattern teaspoons today!

Graft Board Short Lived Is Held Up

BANGKOK—(AP)—The life of the 23-man committee set up to clean up corruption in the Thailand department of communications was brief, indeed. The anti-graft body hadn't even completed investigation of 30 alleged corruption cases presented to it when the Ministry of Communications advised the Cabinet Council the committee should be disbanded.

No official explanation was given for the request to end the anti-graft probe, but it was reported that expenses of the committee were running much higher than the money that could be saved.

In another government department, the Immigration Division, three officials were suspended following charges that they were involved in the issuance of immigration licenses to 200 Chinese and 29 Indians.

Accidents Are Leading Cause Of U.S. Deaths

CHICAGO—Are accidents now the leading cause of death in America?

In a sense — yes. That is the statement made in the 1949 edition of "Accident Facts," statistical yearbook of the National Safety Council.

In the usual working age span of 20 to 65, accidents claimed 1,750,000 work years; heart disease, 1,680,000; pneumonia, 1,110,000, and cancer, 1,040,000.

More actual deaths still are caused by heart disease, cancer and cerebral hemorrhage. But the report points out that such deaths usually befall older persons after their working lifetimes are ended.

Accidents take a greater toll of productive years than any one natural cause of death, according to a study by the American Medical Association.

Volcanoes Play Strange Tricks

AUCKLAND, New Zealand — (AP)—Seen and unseen volcanoes play strange tricks in the South Pacific. The latest stunt doubled the size of Matthew Island, a tiny spot on the Pacific 200 miles east of New Caledonia.

The change in Matthew Island was found by the New Zealand naval frigate Pukaki. Until recently, Matthew Island was 30 acres of land with a single volcanic peak. Now it has a second volcanic peak, 500 feet high, beside the first. It is 1200 yards long today and 800 yards across the widest spot.

The sides fall steeply to the sea. Crew of the Pukaki saw wisps of steam and smoke coming up from the rock, but there was no sign of volcanic action.

from the new peak. Matthew Island was discovered in 1788. No people live there, but countless sea birds make their homes on the island.

A cubic foot of gold weighs about 1,200 pounds.

WTSC Holds Area Classes

CANYON—(WTNS)—"The College Goes to the People" is a feature being rapidly expanded by West Texas State College. This is being accomplished through extension classes springing up in towns throughout the Panhandle taught by faculty members from the college.

Designed as educational services to the people of the Panhandle, six of these extension courses are now being taught. Most members of the classes are adults and nearly one-third are ex-students of West Texas State. Classes meet for two and a half hours once a week. College credit is given for each 18-week course.

Classes are being taught in Borger, Childress, McLean, Hedley, Dumas and Canadian.

Members of the white race have more hair on their heads than any other race.

UPSIDE-DOWN CAKE
Pineapple Upside-Down Cake
A McCall's Magazine Fail-Proof Recipe
3 tablespoons butter or margarine
1/2 cup brown sugar, finely packed
6 pineapple slices or 1 cup crushed and drained
Marshmallows
1/2 cup butter or margarine
1/2 cup sugar
Melt the 3 tablespoons butter or margarine with brown sugar in a heavy 9" skillet, then cool slightly. Place slices or drained pineapple in sugar mixture and dot with marshmallows. Start your oven at 350° or moderate.
Work butter or margarine and sugar together until creamy. Beat egg until light and mix into creamed sugar. Now sift flour, baking powder and salt together. Stir into butter-egg mixture alternately with milk and add vanilla extract.
Pour batter over pineapple-cherry design and bake 30 minutes. Here's a perfect fall dessert for 6, served with or without whipped cream.

DURMAN BLACK EYE PEAS

When you buy coffee it pays to be SIZE-WISE

Vacuum packing insures the freshness of coffee until the vacuum seal is opened. After that, air causes the coffee to begin losing freshness. Therefore, coffee should be purchased in a size container that will be used within a week. About 40 cups of coffee beverage, rich in flavor and aroma, as well as strength, can be obtained from a pound of coffee.... 10

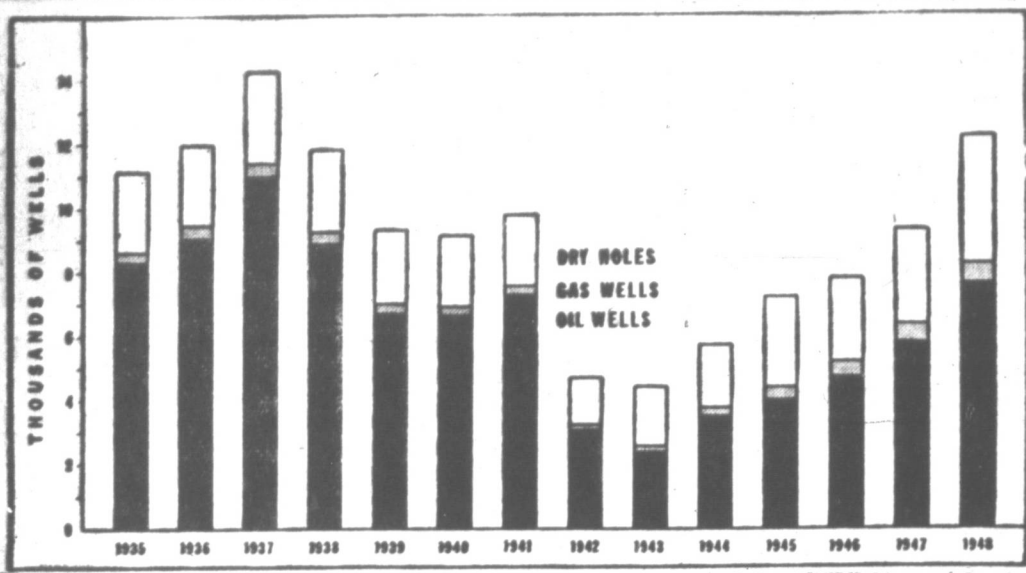

If your family uses a great deal of coffee, or you entertain often, it's **ECONOMY-WISE** to buy the two-pound **SIZE** of Hills Bros. Coffee.

If you average about six cups of coffee daily in your home, it's **WISE** to buy the one-pound **SIZE** of Hills Bros. Coffee.

If only two or three cups are made daily in your home, it's **WISE** to buy the half-pound **SIZE** of Hills Bros. Coffee.

Everybody likes Hills Bros. Coffee!

Oil & Gas News

The trend is up for more producing oil wells in Texas as a result of an increasing number of wells being drilled in the state, according to this chart, prepared by the Texas Mid-Continent Oil and Gas Association. More than 12,000 wells were drilled in 1948. This was a 32 percent increase over 1947 and current drilling rates are 16 percent higher than 1948.

Texas Reserves Maintained Despite Production Demand

This is the second in a series of reports prepared by the Mid-Continent Oil and Gas Association on the oil industry in Texas. Today's report concerns oil and gas reserves in the state.

By sinking 10,000 miles of holes—and millions of dollars in the petroleum industry has kept Texas reserves of oil and gas on the increase despite high production rates.

Drilling activity, one of the key factors in creation of wealth for the Texas economy, has been running full blast during 1949 as the state's oil and gas operators sought new oil reserves and developed known producing areas, according to Texas Mid-Continent Oil and Gas Association surveys.

Based on Railroad Commission reports, the Association's statistics show that as of Sept. 17, 9,549 wells had been completed in Texas as compared with 8,244 during the same period in 1948—a 16 percent increase.

Wildcat drilling, the expensive, high-risk effort to find oil in new areas of the state, showed 1,871 wildcat wells by Sept. 17. This was an increase of 241 percent over the 1,542 wells put down during the same 1948 period.

Fuller appreciation of the scope of the industry's current drilling effort is realized when it is pointed out that the 1949 pace is outstripping the records of 1948 when an estimated 52,746,000 feet—nearly 10,000 miles—of holes were drilled.

In 1948, the industry in Texas drilled 12,251 wells, the greatest number of any year in the state's oil history, with the exception of 1937. The over-all drilling effort in 1948 produced 7,619 oil wells, 542 gas wells and 5,090 dry holes. One out of every three wells drilled was a dry hole, a compilation of both development and wildcat wells indicates. Of 1948's drilling program, 2,285 were wildcat wells, according to the Railroad Commission, and

1,898 or 83.1 percent were dry holes.

Texas operators, during 1948, drilled 31 percent of all the wells drilled in the nation. An indication of the trends toward deeper drilling is indicated by the fact that 38 percent of the nation's footage drilled in 1948 was in Texas.

Although the average well depth in 1948 was 4,305 feet for holes drilled in Texas, there were 32 wells which at the year's end had reached points 12,000 feet or deeper. About 75 percent of the nation's deep wells were drilled in the Texas-Louisiana area, drilling trade publications point out.

Assuming a typical daily operating cost of \$2,000 per day as the cost of operation of the big rigs necessary for deep wells, it has been pointed out that in the relatively soft formations of the Gulf Coast Texas area, the deep wells cost more than \$316,000 each to drill. In some of the harder formations, such as encountered in parts of West Texas, costs are 50 to 150 percent greater.

FAIRBURY, Neb. — (AP) — On the Adolph Schierkolk farm near Fairbury a bird had a comb and wattles like a rooster. It also crowed. But its body resembled that of a hen and it was known to have laid eggs.

NEW YORK — (AP) — The Voice of America is broadcasting news of the conviction of 11 top American Communist leaders to nations throughout the world.

Congressman To Speak at TIPRO Meet

AUSTIN — Congressman Ed Gossett of Wichita Falls will be guest speaker at the dinner of the mid-year directors meeting of the Texas Independent Producers and Royalty Owners Association to be held in Abilene on Nov. 1. Approximately 200 TIPRO directors are expected to hear Congressman Gossett discuss, among other things, the need for a limitation on petroleum imports.

Ed Gossett

Rep. Gossett, a member of the House Judiciary Committee and a Subcommittee on Immigration, is the author of H. R. 6251, introduced Sept. 28, to limit oil imports to five percent of domestic demand. A similar provision, known as the Thomas Amendment, was defeated Sept. 15 by the Senate, largely because it was in the form of an amendment to the Reciprocal Trade Agreements Act and construed by some as an impairment of the Act.

The directors meeting will be held in the Wooten Hotel in Abilene with French M. Robertson serving as general chairman. At the morning business session directors will hear reports on Association activities. The afternoon session will consist largely of an open forum. TIPRO directors from every section of Texas are expected to be present.

Oil Said Insurance Against Cold Homes

CORPUS CHRISTI — The Texas oil industry has become the nation's best insurance against cold homes and inadequate transportation, an industry spokesman told members of the Corpus Christi Kiwanis Club here Wednesday.

Speaking on an "Oil Progress Week" program, Andrew M. Howsley of Albany, General Counsel for the Texas Mid-Continent Oil & Gas Association, cited as one evidence of progress the recent Railroad Commission report that oil and gas operators have found 328 new oil fields and 69 new gas fields during the first nine months of this year.

Measurement Hearings Set By Commission

AUSTIN — (AP) — The Railroad Commission yesterday scheduled hearings between Nov. 16 and Jan. 13 on variable factors affecting gas measurement in Texas oil and gas fields.

The hearings are in compliance with the state's new standard gas measurement law requiring gas in all fields to be measured in uniform manner. The full schedule of hearings: District 1, Southwest Texas—Nov. 16; District 2, Southwest Texas—Nov. 17-18; District 3, Gulf Coast—Nov. 22-23, 29, 30; District 4, Southwest Texas—Dec. 1-2, 6-9; District 5, East Central Texas—Dec. 13; District 6, East Texas—Dec. 14-16; District 7-B, West Central Texas—Dec. 20-21; District 7-C, West Central Texas—Dec. 22; District 8, West Texas—Jan. 3-4; District 9, North Texas—Jan. 10-11; District 10, Panhandle—Jan. 12-13.

Drivers Save Duck But Child Injured

ROCHESTER, N. Y. — (AP) — A white duck waddled onto a busy highway. Four cars piled up end-to-end. Three-year-old Linda Peters, riding in one of them, was slightly hurt. The duck got across without a ruffled feather.

Gulf Corp. Opens Prospecting Lab

PITTSBURGH — (AP) — Gulf Oil Corp. yesterday dedicated a million dollar laboratory it expects will reduce the risks and expense of prospecting for oil.

The new Leovy Laboratory at nearby Harmarville will have a huge vault to hold all oil field charts. Prospecting crews from all parts of the world will send their data there for interpretations and charting. S. A. Swenarud, Gulf president, paid tribute to the late Frank A. Leovy, former vice chairman of the Gulf board, for whom the laboratory was named.

Congressman Seeks Place on Table for Black-Eyed Peas

WASHINGTON — (AP) — Rep. Lindley Beekworth of Glade-water thinks there's no better eating than black-eyed peas, so he's been trying to persuade the armed forces to serve them.

As a result of his efforts the Navy is going to test the dish the latter part of October and early November in the general mess of a supply corps school at Bayonne, N. J.

And the Air Force has arranged to serve them during October at Randolph Field, San Antonio, to determine their "acceptability in airman field ration messes."

Army authorities replied that black-eyed peas were served whenever a demand arose for them, but that they were not stocked for regular use.

Beekworth inquired particularly about their use at Army centers in Southern and Southwestern states, where black-eyed peas are liked and eaten by the civilian population more than in any other part of the country. The reply was that they did not appear on the regular menus, although a check "indicated that occasionally" they were served.

Professor Traces Old Cultures

By DEWITT MACKENZIE
AP Foreign Affairs Analyst

One of the strange stories of our time has been unfolded by Dr. Lorenzo Dow Turner, Negro professor of English at Roosevelt College, Chicago, who has uncovered survivals of African culture among the quarter million Negroes inhabiting the Rice Islands off the coast of South Carolina and Georgia.

These Negroes are descendants of slaves who were brought to America at the time of the earliest settlements. Some of those living on the islands never have been on the mainland or seen a white man at close range. They speak a language which includes many words brought by their ancestors from the jungles of Africa.

Dr. Turner found that some of the words of the Rice Islands language had their origin in Liberia. He was particularly interested in this because in 1942 when I spent some time at Fisherman's Lake, Liberia, I was astonished to run into an American colloquialism dating back to slave days. It happened like this:

Just at the time of the American invasion of North Africa, Nov. 7, I started to fly from London to the Middle East. Because the flight normally would take us near the scene of the fighting, the plane was diverted to Liberia. I got hung up in Fisherman's Lake.

As you will recall, the state of Liberia grew out of the labor of the National Colonization Society of America, which was organized in 1816 to free American Negroes and colonize in Africa. Some 12,000 "American" Liberians now live in the republic and they are descendants of American slaves.

Well, I was tramping about among some native huts in the jungle when I came across a native woman sitting in front of her home and spoke to her. I really didn't expect to get an answer. Thinking that she wouldn't understand me, and was surprised when she replied, in good American. I stopped to chat with her and during the conversation she employed a very old U. S. colloquialism, which led me to ask her where she learned it.

"My great-grandparents were slaves in America," she replied, "and came here when the American settlement was made. I learned my English from them."

This woman, who was perhaps forty, never had been away from the jungle, but the language and customs of pre-Civil War days in

Yes, I remember that I owe you a dollar, Hysteria. Loan me another and I'll remember that I owe you two.

Ranges Said In Unusually Good Shape

AUSTIN — (AP) — Ranges over practically the entire state last week were continuing to supply abundant feed, the United States Department of Agriculture reported.

In the Trans-Pecos and Plains counties an unusually heavy growth was beginning to cure. Ranch men were rounding up calves preparatory to delivery in mid-October, USDA said. Torrential rains in coastal and East Texas slowed marketing of livestock in those areas.

Winter range feed supplies were described as more plentiful than they have been for many years. Most ranchmen expect to go through the winter without any supplemental feeding except cake. Range feed was reported at 88 percent of condition on Oct. 1, the highest reported for this season of the year since 1942. It is seven points above average.

Cattle and calves were said going into the winter in very good condition. Delivery weights were expected to be heavier than usual. Reported condition of cattle on Oct. 1 was 88 percent, four points above average.

Sheep and lambs were also reported going into winter carrying unusually good flesh. Condition was 88 percent on Oct. 1, highest since 1932 for this season of the year.

Malaria May Be Memory Soon

TYLER — (AP) — Malaria in East Texas may become an unpleasant memory within two years.

This week the U. S. Public Health Department assigned a malaria epidemiologist, Dr. M. H. Mires to combat malaria throughout the region. At present about 62 percent of all malaria cases in the United States are reported from East Texas.

Dr. Mires, who has just completed an assignment in malaria control in Mississippi, said he believes malaria can be wiped out in the next two years through the cooperation of city and county health officials and public education in mosquito-proofing and control.

The United States had been handed down to her.

Alexander the Great wept because he had no more worlds to conquer.

Ilse Koch Taken to New Prison

LANDSBERG, Germany — (AP) — Fat and frumpy Ilse Koch was whisked from an American prison to a German one to face her own countrymen's judgment of her deeds as the infamous mistress of Buchenwald.

Fears of American authorities that some of the 4,000 Jews in nearby displaced persons camps would stage a demonstration failed to materialize. The transfer from the American War Crimes Prison here to the Aichach Women's Prison Monday was carried out without incident.

Ilse, wife of the now-dead Buchenwald commandant, was unhappy about her forthcoming trial.

Ilse, 45, completed a four-year term in the American prison. Originally she was sentenced to life on charges growing out of a reign of sadism at the Buchenwald concentration camp. Later Gen. Lucius D. Clay, U. S. military governor, cut the term.

German authorities plan to complete their investigation of her case late this year and expect to bring her to trial at Augsburg early in 1950. They have charged her on five major counts, none of which involves the wanton shooting of 24 Jewish inmates of Buchenwald in 1941.

It is probable also that the charge that she made lamp shades out of the tattooed skins of Buchenwald prisoners will be aired again at the German trial. She denied the charge during her trial before a U. S. military court.

UNION PAYS STOCK
LOS ANGELES — (AP) — The Union Oil Co. has announced that it is paying \$22,400,000 in cash and 600,000 shares of common stock for the outstanding capital stock of the Los Nietos Co.

Someone to Love

By IRENE LONNEN ERNHART Copyright, 1949, NEA SERVICE, INC.

THE STORY: Jenny's marriage to Ted Duncan has been unhappy since the day they were wed. She has been so miserable that she has been thinking of leaving him. But she has found someone else to love. It is a story of love, hope, and the search for happiness.

TOD had been drinking quite a lot. He was very gay and effusive, especially when he saw Rick. He kept saying, "I had to work late. That's my story and I'm sticking to it. And if Jenny doesn't like it, you can hear her up."

Between the two of them they got him to bed, and as he drew off he was still muttering about Rick being the one to "love her and take care of her."

"I don't know what to say, Rick," Jenny whispered as they cleared off the table later. "Rick looked at her gravely. 'You don't have to say anything. I don't think Ted's happy!'"

The words tumbled over one another in her eagerness to make excuses. "He doesn't care too much for his job, and he's in debt, his mother's sick, and—well, things keep piling up. But I'm sure everything will be straightened out."

"Of course, Jenny." Jenny's eyes fell away from his. She related the paper napkin into a ball in her palm. "I'm especially ashamed of Ted for saying the things he did. He'll be ashamed too, tomorrow."

There was a queer look on Rick's face as he stared at her for an instant, as though he were about to say something. He didn't speak, but Jenny knew all at once that Ted was right, and Nina had been right. Jenny herself had been incredibly stupid and blind. Rick was in love with her!

Ted awakened the next morning bewildered and contrite. She was pouring his coffee when he came out all shamed and ready to go to the office. "I hope I wasn't too obnoxious last night, Jenny."

"You weren't." She tried to smile. "I remember saying something about—"

"Forget it," Jenny said. "All of it." She poured her own coffee and set the pot back on the stove. "I can't remember much what happened after I left the party."

"Party?" She dropped her spoon where it saucer. It made a loud clatter in the stillness. He gulped his coffee down and then looked at her. "You'll probably find out sooner or later anyway, so I might as well tell you. I went to a cocktail party at the Conover Agency. It was a special shindig for a client. A big shot."

Jenny felt a little numb. Or maybe she hadn't wakened up enough yet to grasp what he was saying. He stood up and reached for his hat, from the top of the icebox where someone had put it the night before. "We had quite a time. There were even reporters there and photographers. That's why I thought I might as well tell you. They might stop of play me up a little on account of my football career." He turned his hat over in his hands. "Why should I try to hide anything. After all, Liz invited you too."

"Oh—Liz." There was a long frigid pause. "I knew you couldn't go on account of the kids, and—"

"Go on. You knew I didn't have the proper clothes either, that if I went you'd be ashamed of me."

"Jenny, for heaven's sake, don't be so dramatic. If I'd have thought you cared about going we could have got a sitter and managed a new dress."

She stood unmoving listening to the slam of the front door after him, and then his footsteps going up the stairs. One of the babies wakened and began to cry. She moved toward the sound automatically.

So Liz had asked Ted to the party, and he had gone, without telling her anything about it at all. Tod phoned at 2 o'clock, his voice strained. "Jenny, I'm dazed sorry about last night, and about the things I said this morning too. It's been on my mind all day."

Mainly About People

Mr. and Mrs. M. P. Downs have returned home from Dallas where Mr. Downs was hospitalized for about two months. He is reported doing well at their home here.

Mr. and Mrs. Dudley Steele were called to Denver Tuesday morning by the illness of Mr. Steele's father, N. B. Steele, who died that afternoon. Funeral services are being held this afternoon.

Rummage sale, sponsored by Twentieth Century Club, Friday afternoon and Saturday at old White's Auto Store.

Chic Folsom, Junior at Texas Tech, is spending the day with his parents, Mr. and Mrs. E. J. Folsom, 422 Finley.

Truman Will Ask Congress For Tax Hike

WASHINGTON — (AP) — President Truman made it clear today he will ask for an increase in taxes at the next session of Congress.

He told a news conference, under questioning, that if anybody can tell him any way to avoid tax increases to meet the deficit, he'd like to be told.

Congress went home last night but will come back in January. Mr. Truman last January asked for \$4,000,000 more taxes, but did not get them. He dropped the demand during the summer because of the business turn-down that had set in.

The statement of new plans to seek a tax increase at the next session grew out of news conference questioning about the \$8,000,000,000 deficit which Mr. Truman said he had no plans to meet.

He blamed the deficit on the Republican-controlled 80th Congress which he said passed a rich man's tax reduction bill.

Told that Dr. Edwin G. Nourse, resigning chairman of the Economic Advisory Council, had said he was unhappy over deficit financing, The President said he was just as unhappy, as who isn't.

The President said he doesn't believe in deficit financing. But he commented that there is a flat charge of \$35,000,000 against the government and he has no recourse but to meet it the best way he can.

Then someone asked if he had any remedy which would involve a request for a revision of the tax structure.

He said it may require a raise in taxes and then went on to say he doesn't know of any other way to meet the deficit.

He said the deficit was brought about through no fault of the President.

Mr. Truman gave reporters permission to quote the following answer to the question as to whether he might request tax revision:

"Certainly, we've got to find money to run the government and that's all there is to it."

He said he would like to find the money some other way, and he wished somebody would tell him some other way.

Collins said he can guarantee that Army troops in Europe, the Far East and some right here at home are ready to fight "right now" if they have to.

CLINICAL CONFERENCE WICHITA FALLS — (AP) — Brig. Gen. Wallace Graham, President Truman's personal physician, spoke last night at the third annual fall clinical conference for North Texas and Southern Oklahoma doctors.

Maneuver Area of Camp Bowie Sold

BROWNWOOD — (AP) — Hay, Mac? Remember that maneuver area at Camp Bowie? It's all gone now. The last 5,812 acres of the original 19,000 were sold yesterday, to 22 veterans. They paid a total of \$114,408.

Naw, Mac, they weren't 22 crazy Texans. One of 'em was from Kansas City.

Age-Old Procedure Reversed by Teacher CHICAGO — (AP) — Principal Ralph R. Williams reversed the age-old procedure of the pupil bringing an apple to the teacher. Williams brought 30 bushels of apples to the 769 pupils of the Yale Elementary School.

Traffic Violators Get by Police DANVILLE, Ill. — (AP) — Danville police sergeants have been warned to give a second look at \$10 bills paid by traffic violators. A bank which checked funds deposited from traffic fines notified the Police Department it found a counterfeit \$10 Federal Reserve note.

Prince Philip on Tour With Navy LONDON — (AP) — Prince Philip kissed his wife and son goodbye Saturday and left for the sea again. The prince's family did not go to the airport to see Philip take off for Malta to rejoin the Mediterranean Fleet. He will be second in command of the Destroyer Chequers.

Christmas Parade Will Be Planned Heads of local clubs and civic organizations will meet at 7:30 p. m. today at the Palm Room, City Hall, to plan the 1949 Christmas parade. Paul Beisenherz, parade chairman, said.

Dick Knight of Wichita Float-Frame Company, Wichita Falls, will demonstrate the use of float-frames and the decoration of floats.

Persons interested in the Christmas parade have been invited to attend. The parade will be held Dec. 8.

Grover Cleveland Alexander holds the major league record for most games won in the first season — 28.

If the kiddies' feet Are wearing out your seat, Get covers from— **HALL and PINSON** 700 W. Foster Phone 235

Q—What part of the world was first called America?
A—The name America was first applied to South America, in honor of Amerigo Vespucci, who claimed its discovery. Although the name was at first given to South America only, it was soon applied to both continents.

Q—Is Turkey officially a Mohammedan country?
A—Liam is no longer recognized as the state religion, but

the vast majority of the Turkish population is Moslem.
Q—Does the president of the United States require a passport to visit a foreign country?
A—The president of the United States does not need a passport to visit a foreign country.

Q—How did the word pamphlet originate?
A—Its exact origin is uncertain. One popular theory is that the word pamphlet evolved, in a round-about way, from the Latin Pamphilus, the name of a 12th Century poem which was so widely circulated in leaflet form that the leaflets became

known as pamphlets, a diminutive of old French origin.
Q—Where is the mushroom-growing center in this country?
A—Thirty-two miles from Philadelphia, Pa., is Kennett Square, the greatest mushroom-growing center in the world.
Q—Is the earth the most powerful magnet that is known to exist?
A—The sun is a magnet that is many times more powerful than the earth.
Q—What action does juvenile court generally take against child offenders?
A—First offenders are usually released on probation, with the promise of good behavior. Pro-

vision officers of the offenders are carried out. If sentenced, child is sent to a reformatory or industrial school rather than a penitentiary.
Q—When was the longest recorded baseball game in the American League played?
A—The game between Philadelphia and Boston, Sept. 1, 1906, which lasted 24 innings; and the game between Detroit and Philadelphia, July 21, 1945, which lasted 24 innings and was called on account of darkness.
Q—How many monarchies still exist in Europe?
A—Six: Great Britain, Denmark, Greece, The Netherlands, Norway and Sweden.

Drilling Without Drills Makes Tooth Drilling Really Painless

SAN FRANCISCO — (AP) — You soon may have "painless" dentistry that really doesn't hurt—tooth drilling without drills.
 The millennium for tender-toothed dental patients may be reached within a year, the American Dental Association convention learned here.
 The new method involves a machine invented by Dr. R. B. Black, Corpus Christi, and perfected by the S. S. White Dental Manufacturing Company of Philadelphia.
 Instead of drilling, it uses a blast of carbon dioxide gas, shot at 75 pounds a square inch pressure through a nozzle only 18

thousandths of an inch in diameter. A finely ground abrasive, aluminum oxide, is carried against the tooth to be drilled by the high pressure gas and does the cutting finely and precisely. The benefits are lack of vibration, heat, or bone-conducted sound, all of which combine to produce the "hurt" in tooth drilling.
 The new machines now are being used by various dental schools and by the Navy Dental Center.

Building Program Approved for College

LUBBOCK — (AP) — Directors of Texas Technological College have approved a building program of \$3,325,000 in new buildings for the campus here.
 Stated for construction is a new home economics building, a new general engineering building, a music hall and a student union building.
 Two wings to the administration building costing \$650,000 are now under construction.
 In a brief homecoming session the board also allocated \$650,000 for various agriculture buildings and \$1,175,000 for a new science building and other smaller buildings to be built later.

White men cannot vote in Liberia.

PEDIATRICIANS DESIGN FIELDS OF RESEARCH IN CHILDREN'S DISEASES

Sixteen of the country's leading pediatricians serving on the medical governing board of the Playtex Park Research Institute, have designated seven fields of research in children's diseases and disorders as among the most urgently in need of expanded research according to Walter O. Heinze, president of International Latex Corporation, which sponsors the newly created pediatric institute.

A non-profit organization, the institute is the first research group devoting its efforts solely to research in the field of childhood and infant diseases and disorders. Following a full day meeting of the board in New York City, the fields of childhood paralysis, infant leukemia, cerebral palsy, rheumatic fever, premature birth, allergy and epilepsy were among those selected by the doctors on the board to be surveyed in an effort to determine the fields in which the institute would concentrate its research efforts.

Speaking about the urgent needs in the field of pediatric and child psychiatry, Dr. Milton J. E. Senn, who is director of the Yale Child Study Center pointed out that in the psychiatric field among pediatricians, there is the recognition of the increasing importance of focusing attention on the child, "not as someone who harbors an illness, whether physical or psychological, but a focusing on the child as a human being who is part time sick, but who for the most part is well."

Dr. Bret Ratner of New York University, who supervises an extensive experimental allergy clinic in Flower Hospital in New York, in discussing the needs in the field of allergy noted that 10 percent of the population suffer from one of the major allergies, namely, asthma, hay fever, eczema and hives, and estimated that approximately 80 percent suffer from minor allergies. "A study of the early gains of allergy in young children," Dr. Ratner stated, "might lead to the prevention of chronic asthmatics or hay fever or eczema sufferers in later life." Dr. Ratner noted that 50 percent of adult sufferers had their allergy since early childhood.

Dr. John F. Hubbard, head of the American Pediatric Society, outlined the needs in rheumatic fever, the disease which is the number one disease killer among children.

Dr. Sam Levine, in discussing the research needs on behalf of premature babies, pointed out that over 75 percent of the 120,000 infants that die each year are premature babies. "Funds for single projects," Dr. Levine stated, "I think, are very adequate . . . almost adequate enough at the present time . . . but funds

Women Fight Polygamy

BANGKOK — (AP) — How can Thai (Siamese) women be considered as having equality with men when the males are permitted to have more than one wife? So asked Nang Nantaka Suprabhatnand, former chairman of the Women's Law Association, amid the cheers of the Thai Women's Association.

The woman attorney said Thai women legally have equal rights but nature and tradition militate against attainment of this equality. She said it probably would be impossible to pass a law to change the marital situation, but it was fortunate that the cost of living these days obstructs most men from having more than one wife.

The law recognizes three types of Thai wives: legally registered, semi-wife and servant wife. Women have the right of divorce, she commented, but she did not favor use of this legal weapon except in extreme cases. Nang Nantaka also criticized the law that gives the husband power to handle his wife's property. She said women who had their own careers outside the home should be allowed to manage their own property.

Even Mountains Sacred No More

TOKYO — (AP) — There are no more mountains in Japan for men only. Five Japanese women have climbed mile-high Mount Omine in Nara Prefecture southwest of Tokyo.

Before the war, there were a lot of peaks where women mountain climbers were not allowed. Buddhist sects had built temples there and wouldn't allow women around. Came Japan's new Constitution after the war and a new day for Japanese women. They became as free as the men. And all the female mountain climbers took advantage of the new day.

They began scaling every mountain peak that had been out-of-bounds for them before. Omine was the last to be conquered.

289 Days of Paid Vacation—Most Nice

HENNEPIN, Okla. — (AP) — Postmaster R. D. L. Meeks doesn't know what to do.

Meeks entered the general store business here in 1904. It developed that the postmaster's job went with it.

Meeks has taken only nine days leave in 45 years. Now he's stuck — and how — with 289 days of accumulated paid vacation.

FISHERMAN GETS SNAKE
HELENA, Mont. — (AP) — James Cline went fishing, caught no fish and didn't want to return empty-handed. So when he saw a rattlesnake beside the trail as he headed home he lassoed it with his fish line, brought it to town and gave it to a carnival.

for long term projects and funds for pediatric education are much more limited in scope."

Dr. Sidney Farber, chairman of the Division of Laboratories and Research at the Boston Children's Medical Center, credited preventive medicine in general with reducing the number of deaths from causes other than cancer. In mentioning some of the more imminent needs in cancer, Dr. Farber stated that "approximately 80 percent would be safe today with the methods now available . . . if we could get all children with cancer under therapy early. There is very real need in what I call research and training of people in early recognition."

Cerebral palsy was described

originally conceived by A. N. Spaniel, chairman of the Board of International Latex Corporation, was not modeled after any existing medical research program but rather as a source of funds and energies which would help in the creation of a new direction in medical research, "a direction that has as its single purpose the greatest possible effort toward solving infant diseases and disorders."

Spaniel, in addressing the doctors, mentioned one of the reasons which motivated the formation of the institute, was the shocking number of rejections by the armed forces during the war. " . . . Because we do not concern ourselves sufficiently with the problems of the health of the infant, the child often grows up physically unwell instead of healthy, happy adult that would be an asset to the community and the nation."

Request for Brazos Water Held Up

MINERAL WELLS, Texas — (AP) — A proposal to obtain 90 million acre feet of Brazos River water was held up pending a survey of a proposed dam site.

A delegation seeking the water for Abilene said it would recommend that the city wait until the survey is completed before making further efforts to obtain water from the Clear Fork of the Brazos.

The group met Monday with the Brazos River Reclamation and Conservation District Board. Board engineers said the district is surveying a site near Nugent to determine whether

building a large dam there would be worthwhile from a financial standpoint. They estimated it would take three months to complete the survey.

The board said if Abilene's water supply becomes alarmingly low before the survey is complete, permission to take water from the Clear Fork would be granted.

Nugent is 12 miles north of Abilene.

The possibility of authorizing three other new dams on the Brazos was discussed. Two would be in Palo Pinto County at Inspiration Point and Turkey Creek. The third would be in Johnson County at Cordova Bend.

ENCAMPMENT OPENS
MIAMI BEACH, Fla. — (AP) — The Jewish war veterans opened their 54th annual national encampment Wednesday. About 4,000 expected to attend.

Aussie Reports Uranium Find

PERTH, Australia — (AP) — A prospector claims he has found large deposits of uranium ore in Western Australia. W. D. Millar says his find is 80 miles west of Marble Bar — hottest town in Australia, 1,240 miles northeast of Perth.

Millar told a reporter a local assay showed about 40 percent uranium content, which would make it the richest known deposit in Australia. Millar has applied to the Mines Department, Perth, for a 45-acre prospecting area. The site is in rough country near large known deposits of the mineral tantalite.

KIDNEYS MUST REMOVE EXCESS ACIDS

Help 15 Miles of Kidney Tubes Flush Out Poisonous Waste

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging headache, rheumatoid pain, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, backaches and dizziness. Frequent of scanty passages with smarting and burning with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 60 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Vast Pageant of Christ Story To Be Enacted at Palo Duro

CANYON — The Christ story beginning with Abraham and concluding with the birth of Christ will be presented each evening in Palo Duro Canyon State Park, Dec. 14-23.

The mammoth pageant, using more than 800 Panhandle people, is the largest spectacle ever attempted by Geller Productions. The outstanding Hollywood producers of indoor and outdoor pageants, the event is sponsored and endorsed by the Amarillo Ministerial Alliance.

Staged in eight scenes, the story will be portrayed on the rim of Palo Duro Canyon between El Coronado Lodge and the State Park gate.

The vast and sweeping canyon will be a cathedral-like backdrop for this event which has been titled "The Beginning of Glory—The Christ Story."

The production and story originated by John L. McCarty of Southwestern Public Relations Council will for the first time present in outdoor pageant form the background Bible stories leading to the coming of Christ. Most such stories, including the famous Passion Play, deal almost exclusively with the life of Christ.

The show will begin promptly at 7 o'clock each evening and will present a thirty-minute musical and song prelude. The eight scenes in pantomime and with narration are: "Abraham, the Friend of God," "Story of Moses, a Lawgiver," "David, the Shepherd King," "Solomon, the Wise and Foolish," "Through Elijah God is Praised Again," "Foretelling the Messiah," and "Jesus is Born in Bethlehem."

Rev. Galen Onstad, rector of St. Andrews Episcopal Church and president of the Amarillo Ministerial Alliance, heads a committee of five ministers in charge of approving the pageant scenes and publicizing the event.

Rev. Onstad said he and his committee were surprised and greatly pleased that Geller Productions showed such good taste in choosing Biblical scenes which not only have dramatic effect but give the Christ story its magnificent sweep.

Serving on the alliance committee with Rev. Onstad are Dr. Roy C. Snodgrass, pastor of First Christian Church, Amarillo, and former president of the International Council of the Disciples of Christ; Dr. Francis W. Pritchard, pastor of First Presbyterian Church, Amarillo; Dr. Ray

Rozelle, pastor First Baptist Church, Amarillo, and Dr. Neal W. Cannon, pastor Folk Street Methodist Church, Amarillo.

This committee has already reviewed a synopsis of the pageant and each of its eight scenes, and is wholehearted in its support of the portrayal planned. The committee will seek the cooperation of all Panhandle churches and schools in making the spectacle an annual event.

Geller Productions, producers of the pageant, has been working on the script and scenes for several months. Leon Drew, general manager of Geller, terms the production one of the most ambitious his organization has ever undertaken.

The opening scene of the pageant will be "Abraham, the Friend of God" and will be basically founded on the words Abraham declared God had addressed to him:

Get thee out of thy country, and from thy kindred, and from thy father's house, unto a land that I will show thee. And I will make of thee a great nation, and I will bless thee, and make thy name great, and thou shalt be a blessing. And I will bless them that bless thee, and curse him that curseth thee, and in thee shall all the families of the earth be blessed.

Aussie Mailmen Have Tough Job

SYDNEY — (AP) — Around 1,164 miles long is the postman's Meekatharra-Marble Bar circuit in the center of Western Australia. Length of some of the other 399 road mail routes in Western Australia's north are: Carnarvon-Yardie Creek, 564 miles; Leonora-Lawlers-Wiluna, 462 miles. Mail contractors in the area cover 2,276,130 miles a year — almost all rough bush tracks in some of the world's most sparsely populated country.

Only four years ago the postal authorities dispensed with pack horses in the North Kimberley area. In the monsoonal season these horses often had to fight through floods, plod through deep mud, swim swollen rivers. Mailmen might go 50 miles to deliver half a dozen letters. But air services have now taken such hazards out of mail deliveries in many parts of Australia's north.

City Rejects Battleship Power

PERTH, Australia — (AP) — Perth nearly got the old British battleship Royal Sovereign, 30,000 tons, to keep the city's lights burning. However, the cost was too great. Perth needs a new power station, and this will not be finished until next year. The city also has had trouble because of the Australian coal miners' strike. The price for the Royal Sovereign was \$565,000, plus \$228,000 for towing to Perth. The state government thought over the idea, then decided against it.

Poverty Worst of India's Ills

By DEWITT MACKENZIE

AP Foreign Affairs Analyst

When Indian Prime Minister Jawaharlal Nehru was asked by a small New York schoolgirl what his country's worst problem is, he replied without hesitation:

"Poverty. We must have food for our people."

India's greatest burden is stark hunger; due to poverty. The same can be said of her sister state of Pakistan with its population of 100 million. It is no exaggeration to say that the majority of the people in the vast Indian sub-continent always are hungry. And, of course, the plague of

hunger haunts China and other Oriental lands. The western world doesn't know the half of the trials of the East.

About 70 percent of the 400 million people in India and Pakistan are dependent on agriculture. The farmers struggle with antiquated methods on land which has been worn out through countless generations of tillage.

You find the farmers living in some 700,000 little villages of the Indian peninsula. That figure seems incredible but it is correct. And what villages? I have visited some of them and found conditions appalling.

The homes are little mud huts, which are fearfully dirty and have no sanitation. Cowdung, gathered by the women with their hands, is plastered on the outside walls of the huts to dry for fuel. Human beings and animals live pretty much together. There are few watches or clocks. The

members of the family probably go to bed in the dark because their only lights, if any, are open dishes with oil and wick, such as used for thousands of years.

Amidst all this awful squalor, death and birth do their rounds — and the one who dies is lucky.

And these poor people always are hungry. You can see it in their faces and starved bodies. Hosts of them have only one meal a day and that consists of gruel made from a little grain. Sometimes they get a bit of bread or vegetables. In many areas rice is the mainstay.

The average annual income of the Indian farmer has been estimated at about \$26.

Naturally conditions in the towns and cities are better, though there is much poverty and consequent under-nourishment among them.

Work Starts on Water Law Code

AUSTIN — (AP) — Work was underway today toward official study of the state's controversial water laws.

Senator Rogers Kelley of Edinburg was elected chairman of the legislative Water Code Committee empowered to make the study and recommend changes to the next Legislature.

Rep. Byron R. Tinsley of Greenville was named vice chairman and John D. McCall of Dallas

secretary. Kelley told the committee it faced "a devil of a hard job." He said he knew of no subject more highly controversial. Next meeting of the full committee was set for Nov. 14 in Austin.

EAT PLENTY AND TAKE OFF UGLY FAT

When you buy Barconate, you buy a preparation for taking off weight. You do not pay for any printed diet or for vitamins to fortify you against weakness while on a starvation diet. You need never know a hungry moment while taking this preparation. Barconate is the original grapefruit juice recipe for weight reduction.

Just go to your druggist and ask for four ounces of liquid Barconate. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. Then take just two tablespoonfuls twice a day. That's all there is to it.

If the very first bottle doesn't show you the simple, easy way to take off ugly fat, return the empty bottle for your money back.

Lost 55 pounds
Here is what Mrs. L. J. Bryant, P. O. Box 56, Whiteside, Texas, wrote us: "I want to tell you what Barconate has done for me. I weighed 225 pounds when I started taking it. I now weigh 170. I have taken my dress size down from size 50 to 44 and never felt better in my life and everybody tells me how much more I look than I did."

"I am still taking Barconate as I want to get my weight down to 145 or 135 pounds."

'Little People to Restore World' Dr. William Moore Tells AAUW

"It is each of us, the little people of the world, who will be instrumental in the return to the ideas of the 'Prince of Peace.'"

Dr. William Moore said in concluding his review of "Tomorrow the World," Tuesday night at an AAUW open meeting in the City Club Rooms.

Moore, director of dramatics at West Texas State College, ably set the scene and then read selected sections of the play, which deals with the de-Nazification of one German youth under the influence of American home life.

A "Neighborhood Conference" for the American Association of University Women members to be held Nov. 10 at Canyon was announced by Mrs. Raymond Salmon, president of the Pampa group. An afternoon meeting at 2 o'clock and an evening dinner meeting at 6 o'clock are to be held.

Announcement was also made that the Book Review Study Group will meet at 4:30 p. m. and 7:30 p. m. Nov. 9. The latter meeting will be held in the home of Mrs. Quentin Williams.

The Art Study Group will meet at 4 p. m. Monday in room 218 of the Junior High School for selection of the craft to be learned and to decide future meeting times.

The Recreation Group will meet Nov. 1 and the International Relations Group meets at 7:30 p. m. Tuesday at the City Library, City Hall.

Organization of the Interior Decorations Group is to be started in the near future, Mrs. Salmon said.

Miss Martha Thomas has had charge of Tuesday's program.

Teachers, Escorts Are Dinner Guests

ST. JOSEPH'S ASPIRIN FOR CHILDREN

Alaska Guests

Entertained at Forty-Two Party

HIGGINS (Special) — Mr. and Mrs. Charlie Goetsche entertained Monday night with a Forty-Two party honoring their house guests, Mr. and Mrs. Ollie Balderson of Anchorage, Alaska.

The Baldersons arrived Monday and will remain in Higgins until Friday, when they will go to Wichita, Kansas, to visit a sister of Mr. Balderson. They lived in Higgins many years ago, and Mr. Balderson was employed by E. M. Congdon and Company. Later, they moved to Denver, and in 1946 moved to Alaska, where he is employed by the government.

Those who attended the party were Mr. and Mrs. P. O. Boyd, Mr. and Mrs. J. B. Weis, Mr. and Mrs. A. Bissant, Mr. and Mrs. Alex Barton, Mr. and Mrs. Lloyd Bussard, Mr. and Mrs. B. C. Hurn, Mr. and Mrs. Hollis Cortelyou, Mr. and Mrs. Roy Landers, Mr. and Mrs. C. A. Slack, Mr. and Mrs. C. R. Patton, Mr. and Mrs. C. H. Hyde, Mr. and Mrs. J. Ray Wassell, Mrs. J. K. Mugg, Mrs. W. H. Black and Dr. J. J. Davis.

Lefors High School Has Library Club

LEFORS (Special) — A library club was organized in the Lefors High School recently.

Officers are Sheila Ross, president; La Fern McCathern, vice president; Peggy Starr, secretary; Eva Jo Tillman, treasurer; Clayda Rickman, reporter. Mrs. W. D. McCool is club sponsor.

Other club members are Willow Dean McAninch, Meredith Turner, Delona Priel, Shirley Teeters, Imogene McAninch, Jo Ann Staley, Carlene Carruth, Thelma Kimbley, Alta May Kimbley, Maxine Savage, Jacquelyn Chitwood, Barbara Robertson and Wanda Hixon.

Home, School Teamwork Topic Of P-TA Panel

A panel discussion on "Teamwork Between Home and School" with Harry Kelley as chairman, was a feature of the meeting of the B. M. Baker Parent-Teacher Association in the school cafeteria. There were 125 members present.

Mrs. Clifford Jones, taking the part of the home, stressed the importance of parents teaching children to respect their teachers. Mrs. J. M. Fitzgerald took the part of the school, and said it is important for teachers to know the parents of their children, and that parents should realize the importance of school, and not feel that it is just a place to put "Johnny" to keep him out of the way for several hours a day.

Also brought out was the fact that cooperation of homes, schools and churches is necessary for the betterment of a town, and even of the world.

Mrs. Collins Webb spoke on the Texas Congress Birthday, Oct. 19. Tribute was paid Mrs. Ella Caruthers Porter, founder of the Texas Congress.

Birthday cake was served by Mrs. D. L. Brown from a table laid with a white cloth and centered with a bouquet in blue and yellow, the P-TA colors.

Preceding the regular meeting, the Baker P-TA Executive Board met and made plans for the "Fun Meeting" to be held Friday, October 28.

Girls Scouts presented a "Pa-

Headboard Bed Focal Point of Bedroom Decor

Just as summer clothes lose their interest and appeal towards the end of the season, so also do home furnishings often seem uninteresting and in need of perking up. The homemaker with a yen to refurbish her bedrooms will find plenty of inspiration in the attractive headboard beds on display this fall.

They are ideal starters in giving drab bedrooms new faces.

First introduced as a decorator's item, these beds have steadily grown in popularity because they are so versatile and adaptable through variations in design and upholstery fabrics. They can be formal or casual, ornate or extremely simple, daintily feminine or strongly masculine, all ac-

ording to the personality and design of the individual.

Eighty-inch headboards which attach to twin beds, headboards with shelves, and others designed with either modern or traditional feeling, in both twin and double size, provide a wide choice. Recent newcomers are twin size headboards hinged together so they can be swung apart to fit at right angles to a corner table.

There is no limit to the materials used in headboards. They range from wood and leatherette to gingham and corduroy, to satin and taffeta, in an equally wide range of colors. Decorative detail is added to many models through tufting, trapunto and nailhead

embossed in interesting designs, will continue to be popular.

Headboard beds can also be slip-covered to suit the seasons. Thus the headboard upholstered in sophisticated emerald taffeta for winter might emerge in crisp, glazed chintz for summer.

Undoubtedly, one of the reasons for the vast popularity of headboard beds is their ability to provide the focal point of interest for the decorative theme to be emphasized. This gives unlimited opportunity for full play of individual decorative ideas and preferences.

Mount Etna is located in Sicily.

ording to the personality and design of the individual.

Eighty-inch headboards which attach to twin beds, headboards with shelves, and others designed with either modern or traditional feeling, in both twin and double size, provide a wide choice. Recent newcomers are twin size headboards hinged together so they can be swung apart to fit at right angles to a corner table.

There is no limit to the materials used in headboards. They range from wood and leatherette to gingham and corduroy, to satin and taffeta, in an equally wide range of colors. Decorative detail is added to many models through tufting, trapunto and nailhead

embossed in interesting designs, will continue to be popular.

Headboard beds can also be slip-covered to suit the seasons. Thus the headboard upholstered in sophisticated emerald taffeta for winter might emerge in crisp, glazed chintz for summer.

Undoubtedly, one of the reasons for the vast popularity of headboard beds is their ability to provide the focal point of interest for the decorative theme to be emphasized. This gives unlimited opportunity for full play of individual decorative ideas and preferences.

Mount Etna is located in Sicily.

Headboard Bed Focal Point of Bedroom Decor

Just as summer clothes lose their interest and appeal towards the end of the season, so also do home furnishings often seem uninteresting and in need of perking up. The homemaker with a yen to refurbish her bedrooms will find plenty of inspiration in the attractive headboard beds on display this fall.

They are ideal starters in giving drab bedrooms new faces.

First introduced as a decorator's item, these beds have steadily grown in popularity because they are so versatile and adaptable through variations in design and upholstery fabrics. They can be formal or casual, ornate or extremely simple, daintily feminine or strongly masculine, all ac-

ording to the personality and design of the individual.

BUDGET CHARGE LAY-AWAY

This girl's long lipstick doubles as a fountain pen (lower left). One end uncaps the ball-point pen, the other releases a lipstick.

By ALICIA HART
NEA Staff Writer

Ever have to write a note or message with the blunt end of a smearsy red lipstick? Because so many have is perhaps the reason for a lipstick that doubles as a fountain pen.

This functional idea is wrapped up in one long gilt lipstick. Uncap one end, and there is the usual lipstick. Uncap the other, and there's a ball-point fountain pen, which can deservedly be blessed by any woman who wants to free her purse of one extra gadget and

COLOR NOTE

Add a touch of color to your kitchen by leaving your teakettle and percolator on top of the range instead of storing them in cabinets.

Dutchy Doll

5004

By MRS. ANNE CABOT

Here is a colorful knitted Dutch costume for that certain little girl's favorite doll. Any fifteen inch doll will be considered real chic if she has this multicolored full skirt outfit with pert little Dutch cap in her wardrobe. So easy-to-make, as the dress is worked in simple garter stitch.

Pattern No. 5004 consists of complete knitting instructions for outfit for 15 inch size doll, stitch illustrations, and finishing directions.

BER to ANNE CABOT (Pampa) Send 20c in COINS, your name, address and the PATTERN NUMBER (Daily News) 1150 Ave. Americas, New York 19, N. Y.

Kathleen Mallory Circle to Adopt Sunbeam Band

The Kathleen Mallory Circle of Calvary Baptist Church voted to adopt the Sunbeam Band for the coming year at a meeting held in the home of Mrs. Clyde Prince on October 16.

The group also voted to remember each member's birthday by presenting her with a gift. Mrs. Thomas Fisher was elected Young People's secretary.

Those present were Mrs. R. O. Clements, Mrs. Charles McGahan, Mrs. M. E. Boyd, Mrs.

Fred Ennes, Mrs. Marie Haught, Mrs. Leo Davis and Mrs. B. F. Walker.

SHIRTWAIST STYLE

Some of the season's most fabulous evening gowns turn out to be separate blouses and skirts. Lilly Dache shows wide, spectacular skirts of slipper satin with cummerbund waistband and huge pockets, with which may be worn tops of varying formality. The fashion goes from the high-style collections down to the budget-priced group. Teenagers may buy a long skirt of faille or satin, and concoct a dozen dance outfits by switching blouses.

By trade, St. Paul was a tent-maker.

AUTUMN FRUIT FARE

Apples, pears, grapes and other fall fruits are fine for the lunch-box or for family desserts. Serve them raw, for nutrition and fresh good flavor. Be certain, however, that fresh fruits are washed thoroughly before they are eaten. A good way is to put them into a colander and place it under the water faucet. Spray thoroughly with lukewarm water. Drain and polish apples with a dry towel.

FAMILY FAVORITE

Hot or cold — baked apples are a universal family favorite for crisp Autumn days. Serve as a tasty garnish for a roast or save them for dessert. They are equally good for breakfast, too.

The Social Calendar

FRIDAY

A covered-dish supper will be given by the Eastern Star at Masonic Temple at 6:30 Friday evening.

The Entre Nous Club will meet Friday at 2 p.m. with Mrs. C. W. Bowers in Miami.

Worthwhile Home Demonstration Club will meet at 2 p.m. Friday in the home of Mrs. W. L. Rowntree, Sloan Oil Camp, west of town.

Bridal Shower For Mrs. Cubine

Mrs. Johnnie Cubine was guest of honor at a bridal shower Friday afternoon, hosted by Mrs. Jackie Walters and Mrs. Pat Flowers.

An autumn theme was carried out in decorations, and the hostesses presented the honoree with a bouquet of chrysanthemums. Games were played and cocoa, coffee and cake were served.

Those present were Mrs. Ellen Cubine, Mrs. Bill Cash, Mrs. I. Cubine, Mrs. C. J. Cash, Mrs. Owen Carter, Mrs. R. Phillips,

Mrs. Gene Blitley, Mrs. Ruth Ross, Mrs. Beulah Fressler, Mrs. Jerry Logue, and the hostess. Gifts were also received from several who could not be present.

FLANNELETTE SWANK

College girls are wearing separate skirts and shirts of dark printed cotton flannel this winter. It's practical because the garments may be tossed in with the regular laundry. Fireman red flannelette also is a favorite for dormitory robes and pajamas.

HOME DECORATOR TIP

A variety of new paints are on the market to make home refinishing of furniture easier. One gives a "bleached" look to unfinished wood in one coat.

WARREN'S WARMUP

By Warren Hass—News Sports Editor

QUESTION: Who is the only manager in the major leagues who has managed the same ball club three different times?

TONIGHT THE SENIOR HIGH SCHOOL GUERRILLAS tackle the Plainview Bullpups in a "B" team game at Harvester Park, starting at 8 o'clock, which incidentally, will be the starting time for the Harvester game Friday night, Jimmy Baines, sports editor of the "Little Harvester," the High School newspaper, has a column that was meant primarily for the students at the school, but that I feel carries a message for all the local football fans.

Baines writes: "While we are on the subject of the Guerrillas, I think it would be fitting to give them a boost. It seems as though Pampa fans have forgotten that there are two football teams in PHS.

"Of course, the underclassman squad does not have the pomp and color traditional in the sport. It doesn't have the marching bands and cheering crowds. But that is no reason why it shouldn't be just as big a part of our school life as the Harvester.

"The Guerrillas are those boys that will be carrying the load next year and in the years to come. Pampa High's pre-season rating next year will depend a great deal on the success of the "B" squad this year.

"A football player likes to feel as though he is fighting for a cause, and empty stands don't go far in giving him that feeling.

"Attend Guerrilla games and help build the team of tomorrow."

I think Jimmy has a fine point there, and I hope that there will be a lot of fans at Harvester Park tonight. Perhaps you don't think that these boys play good football. Don't be misled. Come out and see them play one, and you'll be back for every game. They play just as hard as the Harvester.

Charley Ely's broken leg hurts just as bad as an "A" stringer's would; and Jimmy Cook's torn shoulder is just as sore as a Harvester's would be.

Let's get out and back these boys up. "B" squads in other towns around here haven't been given much support, but that's no reason for Pampa to be backward. The Guerrillas are probably the only "B" team in the state to have all of its games broadcast. The radio station is backing them; let's have the fans show their approval of the boys. Get out there tonight.

WHILE I'M getting by today stealing from other papers, let me copy one more. I'm going to bypass Amarillo's papers because I don't want to get this page all wet from the tears being shed in advance. But here's what Choc Hutcheson, Lubbock columnist, has to say about the Harvester-Lubbock game of last weekend.

"The above explanation refers, of course, to Lubbock's 33-0 triumph over Pampa's hustling Harvester at Jones stadium Friday night. The Westerners would dip with a two-touchdown bulge in the scoring column, but only after a while of a battle that had Lubbock rosters gnawing their fingernails on several occasions.

"Speed was the factor that turned the tide in Lubbock's favor. Westerner backs broke into the clear and went for touchdowns.

Injury-Riddled Guerrillas Battle Plainview Tonight

The Pampa Guerrillas, without the services of four of their regular starters, will take the field at Harvester Park tonight against the Plainview Bullpups at 8 o'clock. Absent with injuries will be fullback Charley Ely, end Jimmy Cook, and halfback Derrill Wilson. Out due to illness will be quarterback Sid Mills. Mills came down with bronchitis Wednesday, leaving the Guerrillas coaches, Dwaine Lyon and Eustace Frizzell, with little time to find another signal-caller. Wilson aggravated a back injury yesterday.

The probable change will move Harold Smith, speedy halfback, to the "man under" post. Replacing him in the backfield will be another speedster, Billy Davis. Howard Musgrave will take one backfield post and Dick Murray the other. Spelling Cook at end will be 180-pound Don Burns.

The Guerrillas hold a 26-0 victory over the Bullpups in an earlier game played at Plainview. That followed that with victories over Borger and Childress before being victimized by Price College at Amarillo.

For the fans who cannot possibly make it out to Harvester Park for the game tonight it will be broadcast over station KPDN. The probable starting lineups: For Plainview: Ends, Don Baldwin and Wayne Taylor; tackles, Donald Kaylor and Joe Settles; guards, Billy Curry and Pat Bailey; center, Alva Lee Harrison; backfield, Roy Frazer, Skippy Galoway, Charles Harris and William Banks.

For the Guerrillas: Ends, Roy Pool and Ed Burns; tackles, Jesse Dykes and James Shelton; guards, Dick McPherson and Ed Langford; center, Tolle Hutcheson; backs, Harold Smith, Billy Davis, Dick Murray and Howard Musgrave.

The three Pampa touchdowns, incidentally, were the first scores against Lubbock's string in five games this season. One explanation of Lubbock's off-stride performance probably is that the Westerners were too intent on "humiliating" Pampa concentrate on playing sound football. The locals, you know, still were smarting from last year's 26-19 loss at Pampa, and they went into Friday night's tussle determined to gain revenge in full measure. But Coach Tom Tipps' scrappy Harvester, the fightingest team to visit here this year, had something to say about that.

And that is how the Lubbock sportswriters, fans and coaches feel about the Harvester. There isn't a team that the Green and Gold played this season that hasn't found them the scrappiest outfit they have met. Let's hope that there won't be a letdown against Lamesa. After being "up" for six straight weeks it is just possible that the boys might be apt to relax against Lamesa. But there will be no room for such. The Lobos bring an unbeaten record with them to Harvester Park. Any team with that kind of a slate is going to be tough.

ANSWER: Bucky Harris, who yesterday was again signed to Washington Senator managerial contract is the only major league manager to have three different terms at the head of one club.

Games Tonight Open Big Week
(By The Associated Press)
Four games tonight open one of the most important weekends of the season in Texas schoolboy football.

From top to bottom, the major divisions—the Interscholastic League and the City Conference and Class A—have conference games that count heavily in district championship races.

The Dallas District of the City Conference starts its title race tonight with favored Sunset meeting North Dallas. It is the last district of this division to swing into conference action.

Over the state there are 49 games this weekend with 30 of them counting in conference races. The feature tilt, however, is a battle at Wichita Falls between the Dallas district and Highland Park of Dallas tomorrow night. It matches undefeated, untied teams, both of which are ranked in the state's top ten.

Wichita Falls is a light favorite to win the game but Highland Park has come up strong in the past two weeks. It has one of the state's best defensive records.

Other games tonight send Amon Carter-Riverside against North Side in a Fort Worth City Conference District game, Jeff Davis against Austin in the Houston District and Limestone against San Antonio Tech in the San Antonio District.

Bonus Rule Fire Flames Anew
PHILADELPHIA — (AP) — Baseball's "nobles experiment" — the bonus rule — is under attack again. Conceived in 1946, nursed through 1947 and 1948, and subject of a minor operation in 1949, the law still is an eye-sore to many fan and minor league club owners.

The most outspoken critic of the rule is Bob Carpenter, president of the Philadelphia Phillies. The 33-year-old Philly boss has opposed the rule since its adoption by the major and minor leagues in Los Angeles in December, 1946. Since then he has led several unsuccessful fights for its repeal.

Despite these setbacks, Carpenter hasn't given up his battle. Even now he is trying to line up enough backers to force its elimination at the annual league meetings in December.

The bonus rule set up a special status for first year players if the salary, or other money advanced them, exceeded certain amounts. Originally these amounts varied for the majors and each classification in the minors.

However, an amendment was accepted last February that fixed the amount for the majors and the three higher class minors at \$6,000 with \$4,500 for Class A, and \$3,000 for other classes.

No bonus player could be optioned. If assigned outright, waivers had to be obtained and could not be withdrawn. The player could not be reacquired until a selection period had passed, and he was subject to unrestricted draft throughout his career unless unconditionally released. A later amendment permitted the optioning of a bonus player one time by a club acquiring him on waivers or through the draft.

Jack Heppinstall, a U. S. Olympic team trainer in 1948, is in his 35th year massaging the muscles of Michigan State athletes.

Walker Due to Miss Kentucky Tilt Saturday

By WILBUR MARTIN
Associated Press Staff
Southern Methodist University football players had a battle cry for the Kentucky game: "Win for Doak."

The players gathered in a secret meeting yesterday and full-back Dick McKissack reportedly told them they had to beat undefeated Kentucky in the Cotton Bowl Saturday "for Doak."

Doak Walker, the Mustangs' all-America quarterback, is in the hospital with the flu. He was taken there yesterday afternoon and his doctor said he was "very sick" though not "seriously sick."

Walker will miss the Kentucky game and may not be in shape for the game with the University of Texas Oct. 29.

While the loss of Walker staggered supporters of Southern Methodist, there was a note of gloom at least one other Southwestern Conference school.

There were also two denials that head coaches planned to quit. Rice coach Jess Neely said his team looked "very, very bad," in practice yesterday.

"I've never seen a team let down so much in a few days time," he declared.

Rice stomped Southern Methodist, 41-27, last week. It meets Texas this week-end. At the end of the season, an official of Southern Methodist University denied Matty Bell was stepping down.

Dr. E. D. Mouzon, chairman of the athletic council of Southern Methodist, labeled as "pure bunk" a report that Bell would quit and be succeeded by assistant coach H. N. (Rusty) Russell.

Charles Burton, sports columnist for the Dallas Morning News, had written that Meyer planned to quit after this season and that Abe Martin, an assistant TCU coach, would take over.

Bell tried several backfield combinations yesterday and what appointments he made to the No. 1 combination without Walker was made up of Frank Payne at quarterback; Kyle Rote and Johnny Champion, halfbacks, and McKissack fullback.

Rice scrubs, using Texas plays, was a good showing against the Owl regulars and caused Neely's woe.

Texas prepped on defense and on passing yesterday.

Arkansas, Texas Christian and Texas A&M also polished defense. Baylor went through a long workout.

Wheeler Battles Panhandle Friday
WHEELER — (Special) — The Mustangs are out for a few injuries from the game at Groom last week when they were defeated 20-7 in a hard fought game. Although the injuries are minor everyone will be ready to run in a toss-up ball game Friday night when they meet Panhandle here at Nichols Field. Panhandle was defeated 7-0 last week by Spearman who took Wheeler 18-6 a week before. So looking at the scores you can see that it should be a close game.

Panhandle also be out for revenge after suffering a defeat from Wheeler last year, 13-19, which kept them from being champions.

Undeclared Lamesa to Invade Harvester Park Friday at 8

The Pampa Harvester, bolstered by the return of a second string right halfback Dale Richers, returned to hard work yesterday afternoon in preparation for their weekend engagement with the undeclared Lamesa Golden Tornado.

Richerson, out with an infection in his leg, returned to the team yesterday and will be available Friday night to give Jimmy "Beaver" Hayes a rest when needed.

Yesterday's workout was spent primarily in running through Pampa plays and working on defensive line blocking against various Lamesa running and passing formations. The Lamesans are reported to use a lot of spread formations, which the Green and Gold haven't run into this season yet.

Game time tomorrow night has been moved up to 8 o'clock instead of the usual 8:30. This is the final night game of the season for the Harvester before they start playing for keeps in District 1-AA against the Golden Sandies Nov. 5.

Lamesa comes to town with a fast and hard-hitting squad. They have won five straight, downing Levelland 7-0; Seminole 20-0; Plainview fell 26-2; Big Spring was beaten 20-7; and they routed Quannah 33-0. Last weekend they had an off day while the Harvester fought a losing battle against the Lubbock Westerners.

The Tornadoes have been termed the "dark horse" of District 3-AA; the Harvester the same in District 1-AA. Sparring the whirlwind's attack is quarterback Bobby Hawkins. He is a younger brother of Texas Tech's signal-caller, Ernest Hawkins.

Assisting him with the running chores are Dick Echols, a small but speedy back, and Delbert Dickenson. Fullback Larry Lattimore rounds out the backfield quartet.

Leading the Lamesans on defense will be guard Jim Bob Boothe and center Bill Hart. Both are big, experienced boys who have been standouts all season long.

The Harvester are in good physical shape for this game. Absent will be only Charley Smith and Jimmy Parker, though Smith might see some limited action.

Sports Round-Up
By HUGH FULLERTON, JR.

NEW YORK — (AP) — Professional basketball, in which Maurice Podoloff says a guy only six-feet-two is called "shorty," hits the top tonight. . . . The Westchester Whirls, new version of the old Renaissance Club of Harlem, will unveil a seven-foot, seven-inch player in an exhibition against the New York Knickerbockers. . . . He's Ray Harris, an Atlantic City boy who hasn't had much experience but they say he isn't just a freak. . . . Maybe it was a horse racing "first" when they turned on the lights at Sportsmans Park the other day, but the track wasn't the first thing to get lit up in Cicero.

NOTE OF CAUTION
Before the recent North Carolina-South Carolina football game the Tar Heels took in a high school contest at Columbia, S. C. . . . They were almost entirely surrounded by enthusiastic alumni and fans, who kept talking about North Carolina victory by four touchdowns or more. . . . Finally Charlie Justice, who is interested in a coaching career, showed he's about ready for it. . . . Turning to Carl Snavely, Charlie remarked: "Let's get out of here, Coach. I don't know whether the new boys can stand this talk."

THE FROG BOMBERS—This trio will be shooting at putting T. C. U.'s 1949 passing total past the 1000-yard mark this week when the Frogs play host to Ole Miss, one of the top ten teams of the nation for 1948, at 8 o'clock Saturday night at T. C. U. Stadium. Already they have their credit more 1949 pass completions for T. C. U. (79) than for any other team in the nation. They are, left to right, Roy Bassinger of Hillsboro; Lindy Berry of Wichita Falls; and Dan Wilde of Graham. Currently ranked as the nation's No. 1 passer, a position he has held from opening week on, Berry has been the big gun in the Frog aerial attack, being responsible for 62 completions in 114 tosses for 825 yards gain and an average of 55.1. Bassinger and Wilde have four completions each to their credit, the former for 38 yards and the latter for 93, bringing the entire T. C. U. passing gain to date to 956 yards.

Soph Crop Full Of Good Passers

NEW YORK — (AP) — College football's growing air-mindedness is reflected in the new Sophomore crop, which features the deadliest collection of passing arms to come along in years. From coast-to-coast fledgling varsity stars are cutting fancy dices with their dead-eye heaving. Passers head the list of newcomers making a noticeable mark on the grid this fall. The callover of Sophomore flight specialists include a Harry Agganis, the lefthanded sniper from Boston University; Bob Zastrow of Navy, Vito Parilli of Kentucky, Don Logue of Arkansas and John Colaita of Wisconsin. Logue, Arkansas quarterback, is second in Southwest Conference scoring with 35 points. He has completed 17 of 44 passes for 218 yards and four touchdowns. Other outstanding Sophomores include: backs Byron Townsend, Texas, and Bob Smith, Texas A&M.

Women Golfers Vie In Arkansas Tourney

FORT SMITH, Ark. — (AP) — Sharp competition shaped up today for the eight quarterfinalists fighting for the 1948 Hardscrabble Women's Open Golf crown. Leading the pack were veteran Babe Zaharias and defending Champion Patty Berg of Minneapolis. Mrs. Zaharias, a former champion, won a berth in the quarterfinals by downing Mrs. Robert Johnson 9 and 7 in yesterday's first round play. Red-haired Miss Berg won her first round match over the 18-hole 6,495 yard Hardscrabble County Club course by defeating Mrs. Earl Rumbaugh of Oklahoma City 7 and 6. Arkansas Champion Betty Mackinnon of Texarkana advanced to the quarterfinals by defeating Mrs. Tom Lechty of Fort Smith 6-5. Another contender for the title is 15-year-old Martene Bauer of Los Angeles, runnerup in the recent Texas Open. Miss Bauer defeated Miss Ed Dell Wortz of Fort Smith 3 and 1. Finals will be played Saturday.

Birthplace of Fishermen Wrecked by Last Hurricane

By WILBUR MARTIN Associated Press Staff

If you read the story of the hurricane which blew into Texas two weeks ago you may have noticed that the South Pier at Port Aransas, Texas, was damaged. Pounding seas ripped out 200 feet of the old wooden structure and caused another 200 feet to buckle. If you've never been fishing at Port Aransas, the news didn't mean much. But if you have, you'll know that it was more than just a pier that plopped into the Gulf of Mexico. The South Pier is where fishermen are born — gulf fishermen.

Raiders Ready For Arizona

LUBBOCK — Greatly heartened by the return to form of fullback J. W. Thompson, Odessa, Coach Dell Morgan will send his Texas Tech Red Raiders against the Arizona Wildcats Saturday afternoon in Jones Stadium.

Thompson, injured most of the season, was tossed onto last week's game against Baylor and picked up 40 yards in four carries to send his total yardage to 106 and his average per try to 6.6 yards. Fullback Bud Conley, Quanah, continues to lead Raider ground gainers with 310 yards, with Earl Jackson, Phillips, as a third fullback with plenty of power. Arizona hasn't defeated Tech for the game, Saturday, since 1935, but Coach Morgan is looking for a major battle Saturday afternoon. In the series to date Tech has eight wins, a 7-7 tie, and one loss, Arizona taking the 1935 encounter 7-0. In points Tech is out front 175-56, with five shut-outs to its credits. Injuries have hampered the Raiders this fall but fans expect all players to be in shape for this weekend. Slightly hurt in the Baylor game were Tackle Jerrell Price, Brownfield; Ends Dick Pirtle, Lubbock, and Jack Davis, Littlefield; and Guard Dan Pursel, Gladewater. Halfback Walter Maloney, Roscoe, has been out of action most of the season with a bad ankle. A crowd of 12,000 is expected for the game, Saturday.

Culberson's Football Forecasts

By Pitts Smith

Even though undefeated teams and favorites continue to fall by the way side, our record through last week on all games carried in the weekly forecasts is 252 Winners, 64 Losers and 12 ties for an average of 80%.

TOP GAMES: KENTUCKY adding misery to SMU's troubles, NORTH CAROLINA over LSU and TEXAS outlasting Rice. MINNESOTA over crestfallen Michigan, PURDUE over Illinois and MICHIGAN ST. ganging-up on Penn. St. SOUTHERN CALIFORNIA on the rebound over Oregon, UCLA over Washington St. and WYOMING shelling Utah. PENN. in a close shave with Navy, BOSTON COLLEGE over Georgetown and CORNELL rolling by Princeton.

WEEKLY ROUNDUP: NOTRE DAME'S Irish making your Old Prognosticator like it. IVY WILLIAMSON'S Wisconsin Badgers coming back strong. BLAIR CHERRY'S Texas Longhorns proving they've got it. PAPPY WALDORF'S California Golden Bears looking more like Pacific Coast Champs. BERNIE BIERMAN'S Minnesota Gophers all but wrapping up the bacon in the Big Ten. CARL SNAVELY'S North Carolina Tarheels grinding along methodically. BOWDEN WYATT'S Wyoming Cowboys riding herd in the skyline country.

UT and NTS Track Teams Running Today

AUSTIN — (AP) — Cross country teams of the University of Texas and North Texas State College were to compete over a 2.7 miles course here this afternoon.

Runners for Texas in its first of the season were Dick Brooks of Lytle, captain, Tom Rogers of Childress, Don Sparks of Fort Worth, Lowell Hawkins, of Rockford, Ill., Walter Broemer and James Caruthers of San Antonio, and Neil Caldwell of Boiling.

Don Edwards and Ben Sparks led the North Texas team. The two schools will hold a return meet at Denton Friday.

Only three favorites out of the last 15 have emerged as football champions of the Southwest Conference.

100 Years - but No Change in Russia

"The Russian spirit consists in hatred of the individual and his absorption into the state to the advantage of despotism; for despotism as a regime, is a prerequisite to the establishment of world dominion. Unless we stand on guard we shall witness the infallible success of a man who will appear and summon the peoples of Europe to rise in the name of equality; who will offer to the masses protection against their own unruly natures and an equal turn at the common soup ladle."

Does that sound as if it had been written yesterday? It could have been, but wasn't. It was penned about a hundred years ago by a Russian observer named Emil Montegut.

Here is still another quotation: "The more I see of Russia the more I approve of the tsar's forbidding Russians to travel abroad and making access to Russia difficult for foreigners. The Russian political system could not stand out for 20 years against communication between Russia and the West."

These, with other quotations from long-dead observers of the Russian scene, appear in an article in "Foreign Affairs" by Lewis Galanter. Galanter uses them to support an interesting and credible thesis - that the Russian mind has changed little if at all in a century or more, and that dictatorship, whether it be exerted by an emperor or the Politburo, comes naturally to it.

However, the changes that history has brought have made the Russian outlook on the world infinitely more important to the other powers than it used to be. Swift transportation and communication have changed the plans. Chastly new weapons have been devised and are ready for use. According to the scientists and global military planners, it will soon be possible to wage intercontinental warfare with rockets and guided missiles and pilotless aircraft. As U.S. News article says, "At this time, all but three major U.S. cities lie within the range of suicide bombers from Russia."

In any event, the Russian mind has always been a mystery to the West, made up as it is of a strange mixture of European and Asiatic influences. How to deal with it remains the greatest world problem of the age.

These decoys you got with a News Want Ad are certainly long ones - this is the third one I've shot for a duck!"

Fair Enough - Pegler

By WESTBROOK PEGLER

(Copyright, 1949)

NEW YORK - The collapse of the English system of civil rights was caused by Tories or capitalists but by the labor unions. The English worker is chained to his job and may be put in jail for refusal to work at his assigned task even though it may call him far from home. The unions threw in with the Marxian socialists of the Labor Party, whose political faith is the same as that of the Russian Bolsheviks.

Meanwhile, the workers of the United States unwittingly and unwillingly are helping this Marxian government to make permanent the degradation of the British people. Our government's financial support of the adventurers and incompetents who thus got control of the British government by false pretenses, all that has kept it in power. So it follows that the American people, without knowing that we were doing so, have helped very materially to destroy the liberties of the breed who established the basis of our own liberties.

Whatever the emotional attitude of individual Americans toward the English, and many of us dislike them only for petty reasons, the fact cannot be scoffed away that the Marxian government, and our founding fathers copied, the limitation of the power of government over the people. Britons fought, bled and died to win these rights. That limitation was first waived in Britain during war emergencies with the understanding that this was a temporary accommodation. However, the people thus got accustomed to a more and more abject condition so, when the British Marxian government began to flounder, the people meekly accepted the renewal of the impositions in peace.

It should be observed that the American "labor" movement is violently defending the oppressors in Britain. Meanwhile, some Brits drag their heels and try to pull away from the labor government. But, as they do, the Marxians of the government party turn on them snarling. The government which they elected, however may clap them in jail and frustrate their efforts to recapture the workers' rights. Our own union bosses, learning nothing from this example, are still pushing, driving, dragging the American laborer toward the same socialism or communism.

The British labor government inched up to labor conscription. Had these brutal cynics said frankly to draft and "transport" labor they would have been turned down cold. Laying so close to Germany and Italy, the British had observed more sharply than the Americans that the "democratic majority" could not be trusted. They have observed in the politics of our own union racket, usually are not majorities at all but majorities of "those present" or majority votes of convention where the ruling gangsters pass upon the credentials of all delegates.

It would be easy to prove by facts that Mussolini and Hitler received their powers by the democratic process. We forget too easily that Mussolini and Hitler were popular. They would have been endorsed overwhelmingly in popular referenda just as David Dubinsky, John Lewis, Dan Tobin, Joe Morroschi and Bill Maloney, of our union rackets, are endorsed by "majorities" in their own countries.

After these British Marxists had taken power, they began to side up to labor conscription. They began by scolding an imaginary class of rascals, whom their newspaper stooges called "spivs," for refusing to take patriotic peace-time work. Americans recall dimly that word "spiv" not only for its exquisite banality as an example of English slang but because it meant a cult of loathsome parasites.

They sent us and we printed pictures of repulsive creatures to make the American reader despise the "spiv" and sympathize with the labor government's efforts to coerce him to do work it wanted him to do. Incompetent to do its job under freedom, this gang of mountebanks did not hesitate to inflame public anger against individuals who, for sheer selfishness if you insist, stood on their rights as Englishmen. More sensitive and more appetizing Englishmen submitted they had no belly for the scorn of their neighbors which would be fomented by the Labor government to send him far from home. The labor government matched each step in its own failure with a step toward the enslavement of labor. When the volume of manpower, thus driven from "non-essential" to "patriotic" work still fell short, conscription was adopted.

Common Ground

By R. C. HOLES

Unhindered Market Road to Peace

In the last issue I said that "Human Action" was a text book for peace. I believe if enough people read and understood this great book, we could have full employment and an ever increasing standard of living and peace. We can promote peace by example much better than we can by the sword. Government taxing one man to give to another or to loan to another to go into business or to keep government operated business going, is just a form of war. Robbery is nothing but a form of war. An unhindered market is a form of peace. Listen to what Dr. von Mises says:

In an unhindered market economy the capitalists and entrepreneurs cannot expect an advantage from bribing officials and politicians. On the other hand, the officials and politicians are not in a position to blackmail businessmen and to extort graft from them. In an interventionist country powerful pressure groups are inclined to secure for themselves the better privileges of the expense of weaker groups and individuals. Then the businessmen may deem it expedient to protect themselves against discriminatory acts on the part of the executive officers and the legislature by bribery.

Thus far, the minister of labor says, the power to put citizens in jail for refusing to bail him out of his failure has been used sparingly. But the fact remains that the Marxian government now has the power to starve a citizen who refuses to comply. Therefore, as John T. Flynn points out, it is seldom necessary to invoke the power to send him to jail.

And all this was done in the name of labor by the British union bosses aided by the bosses of American unions.

When a child is born with a twisted foot, the condition is called "club foot." There are several ideas as to the cause of this condition. It is usually a result of abnormal position of the foot inside the womb of the mother. Another is that it is caused by a failure to develop, probably before birth, possibly because of some inherited defect directly from the parents.

All parts of the foot are affected in a club foot. The deformed foot is usually smaller than the normal foot. The heel is especially likely to be smaller and underdeveloped. Frequently, the foot is so twisted that all of the weight is carried either on the ball of the foot or even on what would normally be the top of the foot. The tendons and bones of the foot are consequently out of line.

CONDITION GETS WORSE
If a club foot remains untreated the condition tends to become worse, largely because of the increased pressure from abnormal weight bearing. In the simpler varieties of club foot, however, the foot can usually be restored to normal or near normal by proper treatment. To get the best results, treatment should be begun early and continued for a long time.

QUESTION: If a child two years old has tuberculosis in the glands of his neck will he outgrow it?
ANSWER: Tuberculosis of the glands of the neck used to be much more common than it is now. If the diagnosis is made early and proper treatment started, the majority succeed in overcoming this condition.

Country Fair

By GORDON MARTIN

When important civic projects need an organizing hand, they proceed to choose a chairman to assume supreme command. Then he names his sub-committees and he plays the driver's role, and declares that nothing can prevent attainment of his goal. And he's interviewed and photographed and says no task he'll shirk, but he's got a second loopy who will really do the work.

Once the fanfare of beginning has been publicized at length, it's the plodding second loopy who has got to show his strength. He must raise a lot of money and he's got to set up shop, and must keep his workers going so the thing won't be a flop. He is always on the telephone with deals he has to swing, and he vows that when it's over he'll destroy that jangling thing.

Then he's got to plan a dinner while the chief rounds up the press and assumes a weary pose and sounds the final SOS. Comes the most important windup with the banquet hall bedecked, and the second loopy hasn't got a nerve that isn't wrecked. And the chief stands up and takes the bow, as flashbulbs catch his smirk, but nobody throws an orchid at the guy who did the work.

Big dramatic role for Robert Young in "Here Lies Love." He'll do an arching, battling a persecution complex. CBS and Eve Arden are on the verge of getting together to televise her radio show, "Our Miss Brooks."

Bob Hope is back on the air and the merry-go-round is going even faster. Bob is in films, radio and four other different kinds of businesses, but he still isn't satisfied. Now he wants to produce pictures - other stars' pictures. His deal with Bill Boyd for a Hopalong Cassidy in color is still cooking.

"I've got lots of time," Bob told me. "Look at Crosby. Keeps him busy just trying to spend his money. He just bought another \$75,000 home up in Idaho and he needs another home like I need another ride on a wooden horse." Hope says he won't try television for another year.

"Just waiting," he said, "for the charade fail to fade." Beginning of the end, Dept.: One of the monthly movie trade magazines now devotes an entire section to "How to Sell More Popcorn."

Ginger Rogers' ex, Jack Briggs, who now says he made a mistake by giving up his film career, is set for three roles at RKO. You'll see him first with Bob Mitchum and Charles Gardner in "Carriage Entrance."

Bob Cummings' name on that list of the 10-worst-dressed men in Hollywood was the worst picking of the year. Bob has been photographed in Hollywood in a \$200 suit which cost him \$250 apiece. Besides that, he was named, just a year ago, one of the 10 best-dressed men in Hollywood!

Guy Madison, Rory Calhoun, Rhonda Fleming and Johnny Agar teaming up for vaudeville dates. They'll be billed as "Selenick Stars of 1950."

Unfired drama - Pat O'Brien with a lump the size of a watermelon in his throat when 91-year-old James Goodfriend, an ex-Alabama slave, showed up at his home - to thank him for being nice to his grandson at a USO base during the war.

Ida Lupino has turned director for her second independent movie, "Never Fear." Other day she was shooting a scene in front of a Santa Monica real estate office and went in to explain the action to the owner. His secretary was alone.

"DOESN'T HURT A BIT" "All I want," Ida told the girl, "is for my leading man, Keefe Brasselle, to walk up as far as your door."

The secretary took a long, lingering look at Keefe, standing beside Ida, and replied: "As far as I'm concerned he can come right through the door. I'd love it."

M-G-M will have three comedy scripts ready for comic Danny Thomas when he returns from Chicago. After casting him in two serious roles, they're convinced now that he's a comic. Danny told 'em that in the first place.

National Whirligig

news behind the news

By RAY TUCKER

WASHINGTON - Although revolutionary changes in the nation's warming machine will not result overnight from the current Navy-Air Force controversy on Capitol Hill, even the extremists in both camps look for certain fundamental revisions when Congress frames the 1950-1951 military budget. They will come faster than they did when the late "Billy" Mitchell exploded his bomb beneath the brass and braided more than 20 years ago.

In general, the changes envisaged along these broad lines: (1) The theory that wars can be won overnight with a quick striking atomic air squadron of big bombers will disappear, and emphasis will be placed on smaller types, as well as in jet and guided missiles. Like the monstrous battleships of earlier years, the B-36 or any machine of that size will probably become a museum piece.

(2) The disputed Key West decision to restrict the Navy to purely tactical operations in the skies, protecting convoys, providing an umbrella for landings and deterring out hostile submarines, will be modified. There will be no such sharp division of assignment and responsibility. The lessons of Midway, where Naval aviators wrecked the Japanese fleet, will be recalled.

(3) As both Britain and Russia are doing now, the U.S. will spend more money on defensive equipment such as radar, searchlights and anti-aircraft guns. A start has been made on building such a listening wall, but screens are extremely costly, and Congress has been somewhat stingy in this field.

(4) The U.S. may have to pour out many billions in strengthening England, Japan, the Philippines, and possibly India, as outposts. An outer ring of a defensive and offensive nature may make Moscow think twice about bombing targets over here.

(5) Assuming that the "cold war" continues, the cost of such a program will be terrific, but the shift to less bulky weapons may permit some savings after the initial expense. However, recent expectations of cutting the overall military budget from fifteen to ten billions a year seem to have vanished.

PROPHECIES - Public and private economists' prophecies for the last quarter of 1949 and the first few months of 1950 reveal no general change in the business situation with respect to prices, wages, business activity etc. Despite a slight October sag due to strikes and resultant uncertainty, they anticipate no recession of any depth.

Prices may fall in some lines such as clothing and a few foods, but purchasing pressure based on an increased money supply will tend to hold them steady at their present level. Landlords and public utilities, whose charges remained fairly stable during and since the war, are now demanding their cut, and seem to be getting it.

Despite the outcomes of the steel and coal strikes, with the shutdown of some factories dependent on those and allied products, industrial employees may feel the pinch from loss of work and salary.

Even if they win higher wages and pensions, they will lose their gains in prices, and, of course, they derive no immediate benefit from welfare and pension grants, unless they fall sick or die.

MONEY - One factor disturbing the economists for its possible analyze the reasons for failure and adopt a positive program of action - or do you sulk at life, cut off your own nose to spite your face, like the small boy who will take his ball and ball and go home if he can't pitch?

Can you work with others harmoniously toward a common goal?

Do you have self-reliance or are you still looking for some "parent" to guarantee your security?

Do you hide your selfishness, self-centeredness, and egotism under a mask of extreme modesty, shyness, self-consciousness, extreme self-concern - or do you accept yourself as you are and make the most of it without either apologies or vanity?

Gracie Says

By GRACIE ALLEN

Conditions in England must be very bad indeed! A burglar has been caught in Buckingham Palace. I always thought it wasn't considered cricket for a chap to try and break into His Majesty's house. As the British in the movies like to say, it simply wasn't being done.

Of course, George VI, I guess, is one of the few monarchs left in the world who might be expected to have a little small change lying around. Most of the other once-crowned heads, if they heard a burglar was in the house, would get up and help him look.

Naturally, a king always has a lot of loot around the place he got as coronation gifts, but as this is usually anything from elephants to war canoes - it wouldn't interest a burglar who has to work for a living.

Fortunately, we don't have to worry about burglars in the White House. We always have one in there - if you believe the politicians of the party that happens to be out of office at the time.

In the old days, it was the class struggle and to hell with the boss. Now it is collaboration and concern about the industry.

David Dubinsky, head of International Ladies' Garment Workers' Union.

MOPSY Gladys Park

FORGOT ABOUT MY PART? IS YOUR DISCUSS MY FUTURE? WHAT ARE YOU DOING TOMORROW NIGHT?

DR. JAMES PSYCHIATRIST

7. Do you hide your selfishness, self-centeredness, and egotism under a mask of extreme modesty, shyness, self-consciousness, extreme self-concern - or do you accept yourself as you are and make the most of it without either apologies or vanity?

The Forgotten Man

By GORDON MARTIN

When important civic projects need an organizing hand, they proceed to choose a chairman to assume supreme command. Then he names his sub-committees and he plays the driver's role, and declares that nothing can prevent attainment of his goal. And he's interviewed and photographed and says no task he'll shirk, but he's got a second loopy who will really do the work.

Once the fanfare of beginning has been publicized at length, it's the plodding second loopy who has got to show his strength. He must raise a lot of money and he's got to set up shop, and must keep his workers going so the thing won't be a flop. He is always on the telephone with deals he has to swing, and he vows that when it's over he'll destroy that jangling thing.

Then he's got to plan a dinner while the chief rounds up the press and assumes a weary pose and sounds the final SOS. Comes the most important windup with the banquet hall bedecked, and the second loopy hasn't got a nerve that isn't wrecked. And the chief stands up and takes the bow, as flashbulbs catch his smirk, but nobody throws an orchid at the guy who did the work.

Big dramatic role for Robert Young in "Here Lies Love." He'll do an arching, battling a persecution complex. CBS and Eve Arden are on the verge of getting together to televise her radio show, "Our Miss Brooks."

Bob Hope is back on the air and the merry-go-round is going even faster. Bob is in films, radio and four other different kinds of businesses, but he still isn't satisfied. Now he wants to produce pictures - other stars' pictures. His deal with Bill Boyd for a Hopalong Cassidy in color is still cooking.

"I've got lots of time," Bob told me. "Look at Crosby. Keeps him busy just trying to spend his money. He just bought another \$75,000 home up in Idaho and he needs another home like I need another ride on a wooden horse." Hope says he won't try television for another year.

"Just waiting," he said, "for the charade fail to fade." Beginning of the end, Dept.: One of the monthly movie trade magazines now devotes an entire section to "How to Sell More Popcorn."

Ginger Rogers' ex, Jack Briggs, who now says he made a mistake by giving up his film career, is set for three roles at RKO. You'll see him first with Bob Mitchum and Charles Gardner in "Carriage Entrance."

Bob Cummings' name on that list of the 10-worst-dressed men in Hollywood was the worst picking of the year. Bob has been photographed in Hollywood in a \$200 suit which cost him \$250 apiece. Besides that, he was named, just a year ago, one of the 10 best-dressed men in Hollywood!

Guy Madison, Rory Calhoun, Rhonda Fleming and Johnny Agar teaming up for vaudeville dates. They'll be billed as "Selenick Stars of 1950."

Unfired drama - Pat O'Brien with a lump the size of a watermelon in his throat when 91-year-old James Goodfriend, an ex-Alabama slave, showed up at his home - to thank him for being nice to his grandson at a USO base during the war.

Ida Lupino has turned director for her second independent movie, "Never Fear." Other day she was shooting a scene in front of a Santa Monica real estate office and went in to explain the action to the owner. His secretary was alone.

"DOESN'T HURT A BIT" "All I want," Ida told the girl, "is for my leading man, Keefe Brasselle, to walk up as far as your door."

The secretary took a long, lingering look at Keefe, standing beside Ida, and replied: "As far as I'm concerned he can come right through the door. I'd love it."

M-G-M will have three comedy scripts ready for comic Danny Thomas when he returns from Chicago. After casting him in two serious roles, they're convinced now that he's a comic. Danny told 'em that in the first place.

IN HOLLYWOOD

BY ERSKINE JOHNSON NEA Staff Correspondent

HOLLYWOOD - (NEA) - Letter from Rome (from Hollywood press agent Harry Niemeyer): "Dear Erskine:

"It's surprising how much Italian is still spoken here despite the fact that Hollywood has taken over most of it for movie-making. Guides who meet the incoming trains now ask tourists if they want to see the Vatican, St. Peter's, the Coliseum or an American film company at work."

"Marta Toren, whom we've brought over to star in 'Deported' (plug), has bowled over the Italian press by her willingness to talk to anybody at any time. That's something new for the Romans.

"Most of the film colony here hangs out in front of the Excelsior Hotel where you can sit at sidewalk tables and eat a dish of spumoni while making side bets on who will be the next pedestrian to get hit by a Roman taxicab.

"If you think Hollywood drivers are bad, you should see the drivers here. None of them drive on the right or left side of the street - only in the middle. The one who finally has to give way is considered a fool, and he meets the fate worse than death of not being given permission to overcharge American tourists more than a thousand lire at a time.

SCRATCH FOUR HOURS: "Movie-making is hampered considerably by the lethargic habits of the Romans who knock off work at noon for a siesta and seldom get back to any serious business before four in the afternoon. During that time of the day call through to anyone. Best thing to do under the circumstances is to sit back and do as the Romans do.

"The hotels where the American film companies hang out here are modern to an extreme. There are no machines in the lobby, your bed (to save excessive rolling over) and an extension in the bathroom for added convenience.

"Food is plentiful and, at the better hotels, just about the same price as in New York or Hollywood. Scotch is plentiful, too, but bourbon is as scarce as a blue serge suit in a nudist camp.

"The most popular drink among the Americans here is Grappa and Coca Cola. The coke is left over from American Army supplies. The Grappa, I think, is left over from old pieces of an atomic bomb.

"You'll be happy to hear that the local cinema palaces have no popcorn machines in the lobby. However, they do have a bar where they sell Grappa. By the time the picture gets underway nobody cares how bad it is anyway.

"Newspapermen have a strange rule here. They can't go out to cover any assignment together. When we took Marta out to be

REPORT FROM EUROPE

In the list of this administration's contradictions, throw in the fact that Italy's money fluctuated during the transaction, giving Achaia Milan 11,000,000 lire profit above the original intention. Holders of the company's gold bonds - the same international bankers who get everything - took that gravy.

Says our informant: "Most of the socialist governments in Europe would have failed long ago by the will of their own people if we had not been supporting them. DeGaulle's party in France and Churchill's party in England - both free enterprise parties - would have been back in power long ago but for our aid to socialist governments."

Working Both Ends Against The Middle: Achaia's law firm, of which Alger Hiss' brother is still a member, is now negotiating loans, says our informant, promoted under the Marshall Plan. ECA, Arms for Europe, etc. These negotiations are conducted with our Western European allies and Communist Tito, and go as far as field as the new Communist government of China. Achaia has been made custodian of the \$78,000,000 for China, imported into the rearms Europe. They are pilfering Germany, for Achaia's appropriation was put

Success Secrets

By ELMER WHEELER

All of us have been asked when we were kids, "What are you going to be when you grow up?" But whether you're sixteen or sixty, it's still a good question to ask yourself. It has been my observation that a lot of failure in life is due to the fact that we just don't want to "grow up," but still approach life on a childish level.

All of us are guilty of infantile reactions from time to time. But an infant can't succeed in a man's world, not for a long time. This is the adult level as much of the time as we can. Here's a checklist that I have found helpful:

1. Do you get "irritated" easily by things you don't like? This is a childish reaction based on the assumption that the whole world, other people, circumstances in general, should defer to you. Much like a child who gets angry at a chair when he stubs his toe on it.

2. Do you give up easily? Do you fail to finish what you start? Do you quit when you experience the first difficulty? Are you crying when you endure hardship without giving up?

Close - Ups

REPORT FROM EUROPE

An example: A cartel named Alpine Montan bartered American steel to the Italian Acciaia Milan for cork, but Italy's money fluctuated during the transaction, giving Achaia Milan 11,000,000 lire profit above the original intention. Holders of the company's gold bonds - the same international bankers who get everything - took that gravy.

Says our informant: "Most of the socialist governments in Europe would have failed long ago by the will of their own people if we had not been supporting them. DeGaulle's party in France and Churchill's party in England - both free enterprise parties - would have been back in power long ago but for our aid to socialist governments."

Working Both Ends Against The Middle: Achaia's law firm, of which Alger Hiss' brother is still a member, is now negotiating loans, says our informant, promoted under the Marshall Plan. ECA, Arms for Europe, etc. These negotiations are conducted with our Western European allies and Communist Tito, and go as far as field as the new Communist government of China. Achaia has been made custodian of the \$78,000,000 for China, imported into the rearms Europe. They are pilfering Germany, for Achaia's appropriation was put

in by congressmen who wished to ship China Kai-shek against the Communist, but thanks to Tom Connally it has landed in the hands of our Chiang-hating, Communist-coddling State Department.

"Double Ten Day" (tenth day of the tenth month) used to be the proud holiday of China's nationalism. Now it is a day of mourning and of remembering how reformers who compromise with socialists, as did Sun Yat Sen, wreck a nation. If socialists take the United States, our Fourth of July will become a day of mourning - and even that may have to be done in secret.

Says our informant: "The administration is not only building up those who would destroy us, but making enemies of the self-reliant people in England, France and other countries who could be our friends."

The pay-off is - if Fulton Lewis' revelations are correct - that part of the commissions earned by Dean Achaia's law firm by negotiating loans of American money which he scares Congress into appropriating are being used to defray the trial expenses of Alger Hiss, who is suspected of betraying his country!

Policewoman Gets Left to Eye

SINGAPORE — (AP) — A 38-year-old woman vegetable seller earned the questionable distinction of being the first person in Singapore to give a member of this island's new woman police force a black eye. Lan Choon was sent to prison for six weeks for assault and was fined \$10 for hawking without a license.

Policewoman Miss Susi Gan was the chief witness against Lam. Wearing a definitely discolored left eye, Miss Gan said she tried to arrest the vegetable seller only to receive a sharp left to the eye. Miss Gan had to call a police constable to bring a semblance of order.

DUCK IN DRYDOCK—Injured while making a forced landing in Des Moines, Ia., this bandaged and battered duck got the very best of care at a local pet hospital. After taking 14 stitches in the duck's breast, the doc waves a bit of cotton to attract the patient's attention and then shoots a batch of penicillin into him. The luckless duck will be up and around again in no time.

Senator Satisfied With River Board

WASHINGTON — (AP) — Senator Kerr (D-Okla.) is satisfied for his plan for establishment of an Arkansas, White and Red River Valley commission to await Senate action next session, aides said. The commission would study and recommend plans for development of the three river basins. The plan is included in the omnibus rivers and harbors and flood control authorization bill. The Senate put off action on the measure until January.

Grasslands Said Ignored

DALLAS — (AP) — A research expert declared here that Texas agriculture is not keeping up with that of the rest of the nation. It could catch up, said Dr. Howard B. Sprague, by joining a revolution that has placed emphasis in the East on more grassland farming and a wider variety of livestock. Dr. Sprague is head of the Agricultural Research Division of the Texas Research Foundation. He said Texas has been too preoccupied with raising money crops like wheat and cotton, neglecting 110 million acres of grassland which could be rebuilt into productivity through livestock, pastures and chemicals. East Texas has listened to Texas' aggressive soil conservationist, and grassland type of farming have begun to pay off there, Dr. Sprague said. He added that the blacklands region, which raises little livestock now, and other areas should follow East Texas' example.

Family Boosts State Population

SAN ANTONIO — (AP) — Texas' population took a sudden jump Tuesday. Responsible are Mr. and Mrs. Alexander Joditz, formerly of Mikasewice, Poland, who arrived in San Antonio with their eight children. The displaced family has been since 1945 in Wildflecken DP camp, Germany. They are headed for Potest where Joditz will work at the Walter F. Lick Nursery.

Mexico Plans to Mint Small Silver Coins

MEXICO CITY — (AP) — Mexico, the world's greatest silver producing country, plans to renew minting small coins of silver. Ramon Beteta, secretary of the treasury, showed plans for the new fractional coinage to President Miguel Aleman. At present the smallest silver coin is one peso (11.5 cents U. S.). The new silver coins will be in 25 and 50 centavo values.

BEHEADING ROOM CHANGED MUNICH — (AP) — The Bavarian penitentiary of Stadelheim near Munich contains a room which even the guards dread. More than 1,100 persons were beheaded there during Hitler's Nazi rule. Now it is being cleaned and transformed into a motor repair shop.
