

Strike Halts Cotton Belt

ST. LOUIS — (AP) — The strike by Missouri Pacific trainmen which completely halted operations of that line also has tied up service on the smaller Cotton Belt Railroad.

IN RUSSIAN SIGHTS—Marshal Tito of Yugoslavia, vacationing recently at Brioni Island in the Northern Adriatic Sea, inspected a high powered rifle during a visit of champion marksmen to his retreat. While Tito vacationed, Russia turned its political sights on Yugoslavia, stepping up the cold war. Tito returned to Belgrade in the face of new Soviet moves.

Hungary Blames Revolt Plot On Tito and American OSS

BUDAPEST, Hungary — (AP) — Hungary charged yesterday that Premier Marshal Tito's Yugoslav regime and the American OSS had backed an abortive revolt plot aimed at assassinating Hungarian Communist leaders and overthrowing the government.

The American and Yugoslav spy organizations helped Rajk in every respect, the indictment declared.

Flight of Santa Claus Set Dec. 2

The Flight of Santa Claus parade will open the Christmas season here Dec. 2, it was decided Friday at a meeting of the Retail Trade Committee of the Chamber of Commerce.

Steel Wage Increase Rejected

10 Cent Hour Insurance Is Suggested

WASHINGTON — (AP) — A presidential board rejected yesterday a fourth-round wage increase for one million CIO steelworkers threatening a nationwide strike. It recommended a pension-insurance "package" of 10 cents an hour.

Whether the fact-finding board's recommendations would avert the walkout scheduled Wednesday was not yet apparent. President Truman asked at least a 10-day extension of the existing truce.

The board said living costs have declined and the postwar race between them and wages has been called off by "economic forces."

A company-financed pension which, taken together with social security, would give workers \$100 a month at age 65; and a company-financed insurance system, the details to be worked out by collective bargaining.

Together these things would cost the industry up to 10 cents an hour per man, the board estimated.

The union had asked for a 30-cent package, including 12 1/2 cents an hour as a direct wage boost. Present wages average about \$1.85 an hour.

President Truman appealed to the union to postpone its walk-out at least another 10 days while the parties weighed the board's proposals.

CIO President Philip Murray said the union would answer Monday.

The Bethlehem Steel Co. said in a statement to Bethlehem, Pa., it was advising the President "that we will continue our plants (See WAGES, Page 11)

Top o' Texas Towns to Have Entries in Queen Contest

All Top o' Texas towns are being extended special invitations to sponsor girls in the Miss Top o' Texas Queen and Miss Top o' Texas Princess Contests, which will be held in connection with the second annual Top o' Texas Fair, Sept. 28 through Oct. 1.

Mrs. Dick Pepin, general chairman of the contests, said Mrs. Henry Ellis, accompanied by Mrs. Loyd Davies, went to Canadian and Miami Friday to extend invitations. They were assured by civic leaders of both towns that they will have representatives in both the Miss Top o' Texas Queen Contest, which is open to single girls between 17 and 25, and the Miss Top o' Texas Princess Contest, open to 16 and 17 year olds.

The queen and princess will be selected the night of Sept. 28 at recreation park. In case of rain, arrangements have been made to stage the contests at the Junior High School.

There will be no pre-sale of tickets, Mrs. Pepin said.

Mrs. Ellis, who is in charge of out-of-town entries and out-of-town entries and sponsors, and Mrs. Davies, who heads the princess division, will continue to visit neighboring towns tomorrow and Tuesday.

The Top o' Texas Princess Contest was opened so high school girls who are not yet 18 will have an opportunity to compete in both contests, but the Princess Contest will be completed at the fair when the winner is presented.

an expensive diamond-studded wrist watch.

The Top o' Texas Queen will receive an engraved statue and will be awarded an all-expense paid trip to the American Royal Livestock and Horse Show at Kansas City, Oct. 13, 14 and 15. Top o' Texas Queen will compete for the title of American Royal Queen while there.

Several local firms already have signified they will sponsor girls in the contest. All girls entered must be sponsored by some organization or business firm. Sponsors who don't have entries should contact Mrs. Ellis, it was said.

Deadline for both contests will be Sept. 24. Entry blanks printed in The News may be used by both divisions of entries. Further information may be obtained at the Chamber of Commerce office, City Hall.

Judges will select the Top o' Texas winner by using the following (See CONTEST, Page 11)

Directors to Coordinate Annual Fair

Plans for the second annual Top o' Texas Fair will be coordinated at 7:30 p.m. tomorrow in the Chamber of Commerce office when association directors, committee chairmen and division superintendents meet. H. B. Taylor, Jr., president, said.

Each committee has been formulating plans for the past month. The purpose of tomorrow's meeting will be to hear reports from all officials and see what still needs to be done, he continued.

Top o' Texas Fair Association directors include Ralph Thomas, Vic Joyner, Quentin Williams, H. H. Keashey, Clyde Caruth, Russell Kennedy, Joe Fischer, Mrs. Mary Anne Duke, Mrs. Charles Warmitski, Murray Seal.

W. D. Price, Paul Crossman, J. E. Kirby, Frank Carter, Milton Carpenter, L. L. Palmer, R. M. Samples, Clyde Magee, Pete Fields, E. F. Tubbs, Huey Laycock, Ellis Locke, D. U. Hardin, Crawford Atkinson, W. E. James and J. L. Swindle.

R. H. Nichols Will Speak

Ray H. Nichols, Vernon newspaper publisher and noted Methodist layman, will be the guest speaker at a banquet meeting of the First Methodist Men at the Fellowship Hall Wednesday night, 7:30.

Mr. Nichols is the conference lay leader, it was reported; and is also the lay leader of the Methodist Church throughout the world.

His subject will be "Know Your Work," as regards Methodist laymanship.

STEELED IN HIS HEART—James Dunlap, 11, of Montrose, Mo., has a sliver of steel lodged in the outside wall of his heart but he's going to have a Kansas City hospital soon as doctors think it has gone and will do no damage to the lad. It is believed to have lodged there while he was using a hammer. No operation is contemplated.

Kidnapped Child Back With Parents

PHILADELPHIA — (AP) — Blonde little Janie Franz, 4, safe and sound after a night with a strange man, told her Daddy: "I'll never go riding with a stranger again."

The man she said took her in his auto Friday from her Trenton, N.J., neighborhood was charged with kidnaping and indecent assault. He was docketed as Gerald A. Hutt, 35, of Bridgeport, Conn., and said he was a brush salesman estranged from his wife and two children.

Hutt waived extradition. He was taken to Trenton later for arraignment last night. Under New Jersey law, maximum punishment for kidnaping is life imprisonment.

Janie and her father, John Franz, Trenton truck driver, were reunited in a police station. The little girl sat on her Daddy's lap as he stroked her head. They spoke in whispers.

"I wouldn't take a million dollars for this moment," Franz said.

The little girl was reported missing late Friday. Playmates said a stranger took her into a battered car and drove away. She was found yesterday morning standing beside the Philadelphia-Trenton highway.

"Thank God, thank God," sobbed the mother when told her child was safe.

Franz asked his daughter why she went away with a stranger.

The child, who will be five in November, replied: "He called me over, Daddy, and said, 'do you want to take a ride with me?' I said no. He said, 'sure you want to take a ride,' and pulled me into the car."

Police said the unshaven, disheveled Hutt admitted taking the four-year-old child into his car and sleeping with her Friday night.

McLaughlin said Hutt told him he did not assault the girl but did undress her and molest her.

BULLETINS

General Reinstated

WASHINGTON — (AP) — One of two major generals suspended in the Senate's "five percent" probe is being retired, and the other restored to his command, the Army said yesterday.

Retired: Alden H. Waitt, 58, under suspension since July 16 as chief of the Army's Chemical Corps.

Restored: Herman Feldman, 57, quartermaster general of the Army. Suspended the same day as Waitt.

Secretary of the Army Gordon Gray spoke of "irregular actions" by Waitt and "errors of judgment" by Feldman.

Gray said both officers have devoted the major portion of their lives to the Army.

But, he said, he had decided it would not be to the best interests of the service to retain Waitt. He said talks with Feldman had convinced him there would be no further lapses of judgment by the quartermaster general, and he was "gratified" to be able to order him back to his old post.

Proof Questioned

BROWNWOOD — (AP) — A birth certificate sent here from Massachusetts is no proof that Sandra Peterson is only 17, District Attorney Ralton P. Haun said yesterday.

The certificate could be that of a sister "or other female relative," Haun said in announcing he is not accepting it as valid proof.

But the district attorney did not announce his next step against the comely young brunette from Somerville, Mass. She is accused of shooting Lewis J. Patterson, Brady, Texas, real estate salesman, and leaving his body in a ditch near Brady Aug. 25. Patterson had given Sandra, a girl companion a ride.

Texas juvenile law says a woman cannot be prosecuted for murder until she is 18. If the birth certificate sent here by Massachusetts authorities is the right one, Sandra won't be 18 until Dec. 11.

Output Swelling

WASHINGTON — (AP) — The nation's industrial output is swelling upward again after 10 months steady decline, the President's economic advisers reported yesterday.

They said August production jumped seven points above the (See BULLETINS, Page 11)

Polio Leaves No Mental Ills

By HOWARD W. BLAKESLEE

A Science Editor DENVER — Children who recover from polio, even if crippled, show no mental damage and only slight personality changes.

This result of several years study of Minnesota child polio victims was reported to the American Psychological Association Saturday by Dr. Dale B. Harris, Institute of Child Welfare, University of Minnesota.

He said that after these children had returned from hospitals, the mothers of two-thirds of them said the youngsters were more restless, irritable, impulsive and given to early fatigue.

But two years later, these same children when studied at school appeared to have recovered from all these distressing signs.

Canadian's Good Luck Continues

CANADIAN — (Special) — Canadian's fortune in the matter of fire loss continued to hold good this week.

A mislabeled jar of chemicals brought a full-fledged fire alarm Sunday afternoon, but only minor damage.

Chemistry teacher A. L. Cardinal was cleaning up the lab at the high school in preparation for Monday's classes and had opened a jar labeled "sodium" — a chemical which burns in water. The contents turned out to be white phosphorus which burns furiously when exposed to air. It did.

Cardinal recognized the chemical and hastily disposed of it in a lead-lined sink, then called the fire department.

The entire building soon filled with the gaseous, choking smoke, and firemen had to use gas masks to enter. Fortunately the chemical burned itself out in the sink with little damage except a smudge on the ceiling.

Thursday held a bad moment for Chief Carl Zybach when Attorney E. C. Fisher called him to help locate the source of smoke in the Tubb Building which houses Pinson's department store on the ground floor and several offices and apartments upstairs.

Zybach made a quick survey of the store then proceeded upstairs where he soon found a pan of clothes on the gas range in the apartment of Mrs. O. W. Morehead. There was no one home in the apartment. The burner had been left on and water in the pan had boiled drying the clothes to a crisp.

The Canadian volunteer firemen have their fingers crossed, for to date they have had no insured loss despite twenty or more alarms since last Jan. 1.

Men Held on Morals Charge

A man, who identified himself as Bill Woods of Oklahoma City, was being held over the weekend by the Sheriff's Department on a morals charge.

Woods was apprehended Friday night by Sheriff G. H. Skimmer and Deputy Louis Holmes near S. Cuyler following two complaints by residents that the man was exposing himself indecently.

Kyle and Holmes missed him on their first run, but nabbed him a few minutes later when the second call came in.

W. E. FOGLESONG, MIAMI COUNCILMAN, DIES SUDDENLY WHILE ON FISHING TRIP

Borger Host At Meeting

Around 110 persons attended a day-long meeting Saturday of the Panhandle Press Association at Borger, as guests of the Borger News-Herald and the Borger Chamber of Commerce.

After a lunch served by the Girl Scouts at the Scout Hall, the group went on conducted tours through the Plains Butadiene Plant and the U. S. Rubber Plant west of the city.

In the speaking program during the morning were Clyde Warwick, Canyon newspaperman; Van Stewart, Perryton newspaperman and president of the Texas Press Association; Vernon Sanford, executive secretary of the TPA; and C. T. Thomas, veteran printer and branch manager of Western Newspaper Union, Oklahoma City.

Nationalists See New Big Battle

CANTON, China — (AP) — High Nationalist sources have predicted a big battle in South-Central China in about a week with the fate of Canton hanging on the outcome.

They did not make clear whether they expected the Communists to attack or planned a counter-offensive of their own, but they exuded confidence about their ability to hold this provisional capital.

Some of the more optimistic officials predicted it might never be necessary to transfer the capital to Chungking, as has been planned.

In the past week the Nationalists have rep. defeat of nationalized Comm. forces on fronts 170 m north to 135 miles northeast of Canton.

MIAMI — (Special) — W. E. Fogleson, 56, member of the Miami City Council, dropped dead from a presumed heart attack at 4 p.m. Friday while on a fishing trip at Eagle Nest, N.M.

Roy Mathers, Miami businessman and retired rancher who accompanied Fogleson, said, "We were just walking back to our cabins in Eagle Nest, after we'd been fishing. He (Fogleson) was just strolling along, whistling, when he dropped over dead."

The two men left Miami Thursday noon.

Fogleson was serving his second term on the Miami City Council. He had been manager of the Miami Lumber Company since February, 1946; he was a member of the Methodist Church and was very active in civic and church affairs.

He was born and raised in Hooker, Okla., and was married to Miss Amanda Higdon in Oklahoma City in 1915. In 1929 he moved to Perryton as manager of the Wheat Growers Elevator, and held that position until 1938, when he became manager of the Perryton Lumber Company, a unit of the same firm that owns the Miami Lumber Co.

Besides his wife, he is survived by one son, John W. of Houston; by one daughter, Mrs. C. O. Willis, stationed with her husband at Barberous Point, Hawaii; two brothers, J. E. and Lloyd of Hooker; by four sisters, Mrs. Carl Holt of Guyton, Okla., Mrs. J. C.

It's Too Bad, She All But Had Fried Auto

INGLEWOOD, Calif. — (AP) — It all seems like a bad dream to Mrs. Agnes Marshall, but there's that hole in the wall. She said she was awakened by a crash, to find an automobile in her kitchen.

"I'll call the police," she said she told the dazed driver. But when she returned, the car was gone.

Former Pampa Teacher Seeks Post on State School Board

A former Pampa school teacher, John M. Harnly, Miami, Fla., is seeking a post on the newly-created State Board of Education.

Harnly will be opposed by Dick Bivins, prominent Amarilloan, for the state school board post from the 18th Congressional District.

Harnly taught mathematics in Pampa Junior High School during the 1942-43 school year and then taught the same subject in Pampa High School during the 1943-44 school year.

His experience with the school system was as driver of a school bus to president of the Keplinger Common School District Board. The district, however, was abolished this year when it became dormant under the Gilmer-Alkin Bill.

Rutledge Dies

YORK, Me. — (AP) — Supreme Court Justice Wiley Blount Rutledge, 58, died last night at York Village Hospital.

Death came to the big, soft-spoken jurist shortly after 7 p. m. (CST).

Victim of a cerebral hemorrhage, he had been in critical condition since being admitted to the little 22-room hospital, Aug. 27. He was stricken while driving to York from nearby Ogunquit where he and his family had been vacationing.

Shell-Phillips Trade Passes Rumor Stage, Becomes Fact

A Shell-Phillips trade-out, in effect some 40 Shell production employees, all of whom are to be absorbed by other Shell departments. This same announcement was made in regard to Phillips employees in and around Wichita Falls. No lay-offs are seen.

In a meeting held in Pampa, Friday, each Shell employee was told that the transfer had been settled and that the company would transfer all employees now with the Production Department to Phillips. The company has approximately 1000 barrels of oil production, a small portion of which is not to be included in the trade.

Local Man Reports Automobile Stolen

E. W. Fraizzell, 431 N. Warren, reported to City Police Friday that his car was stolen around 8:30 a.m. that day.

The car was described as a black 1937 Chevrolet sedan bearing 1949 Texas license tag AB 2172. Up until mid-afternoon Saturday the car had not been recovered, according to police.

Garbo May Make Film in France

ROME — (AP)— American Movie Producer Walter Wanger said Greta Garbo's next picture, her first in eight years, probably will be filmed entirely in France.

The film, tentatively titled "Friend and Lover," is from the romance "Duchess of Langeais" by Honoré Balzac. It will co-star Miss Garbo and British Actor James Mason. Filming is expected to begin later this month.

Strauss Mourners To Hear Masterpiece

MUNICH, Germany—(AP)—Music from his masterpiece, "Der Rosenkavalier," will be played Monday at the state funeral in Munich of Richard Strauss.

After cremation, the composer's ashes will be buried in the garden of his Alpine home at Garmisch, where he died Thursday.

In conformance with his wish, the Strauss family requested mourners to refrain from sending wreaths to his funeral, but to give the money instead to a fund for aged, needy musicians.

Thousands Go Home When Greek Reds Driven Out

KERAMIDI, Greece —(NEA)—The villagers of Keramidi have come back home. With the help of Economic Cooperation Administration's mission in Greece, the biggest single repatriation movement ever attempted in Greece was completed when 1700 natives were landed.

For almost a year and a half the 1700 had been refugees from the Greek civil war, living on government relief. They were typical of the 700,000 Greek men, women and children driven from their homes by Communist bandit activity during the past three years.

Now that the Greek Army has all but chased the Reds out of Greece, almost half that number have been returned to their native villages. By the end of 1949, officials hope, all but about 200,000 mostly from frontier areas, will be home.

Keramidi is one of 85 small villages in the mountainous Thessalian province of Central Greece. Communist bandits first attacked it in August, 1946, killing eight persons. The invaders ransacked the village, forced the people to work for them and executed three men for "collaboration with the monarcho-fascist army."

"For more than a year," explained Martin J. Berrigan, an ECA field representative from Red Hook, N.Y., "the bandits made sniping attacks and looting raids in the area. Finally, in March, 1948, the army evacuated the Keramidi villagers to welfare centers near Volos.

"They were put in empty schoolhouses, warehouses and tents. The Keramidi people were lucky. Other people lived in caves and under bridges."

They were given money—family heads got 15 cents a day—and some of the men were given work on the roads and rebuilding war-damaged houses. But there wasn't enough work to go around.

Then the Greek Army drove the Communists out of Keramidi, and the Greek Ministry of Welfare decided to repatriate the entire village.

The villagers jammed on two LCT's (Landing Craft, Tank) bringing their belongings with them. The only space left aboard was a narrow aisle running down the middle of the deck.

After the long, 16-hour trip from Volos, the LCT's ground ashore and the end gates were dropped. There was a rush to get off, but the honor went to two small boys holding puppies in their arms. Next was Antonis Velitios, a wiry, 43-year-old fisherman, dragging Bella, his two-year-old son.

Soon there was a long caravan on the centuries-old path over the mountains to Keramidi.

At the entrance to the village soldiers with sub-machine guns asked each person for identity papers. Then they were passed through a gate-like wall and were in the village limits.

One fear persisted—there were still scattered bands of bandits in the surrounding hills.

Even so, they were happier in Keramidi.

"I'm glad to be home, bandits or no bandits," said Mrs. Olympia Likou, a 64-year-old widow who makes a scanty living weaving for other villagers. "It's our home and I want to live in it. I had always thought life in Keramidi was too hard for a woman, but now I'm happy to be back."

Thief Breaks Elbow Benders

CHICAGO — (AP) — Jingle, jingle, little jar, now we wonder where you are.

So goes the lament of the Elbow Bender Regulars. They're steady customers at the Cycle Inn tavern. They tossed their loose pennies into a jar on the bar for almost a year. The coins piled up until there were about 3,000 of them. The Regulars figured it would be filled in a few more days. Then they'd have a free beer party.

But there will be no party. A thief walked off with the jar.

Japs Send First Sake Shipment

TOKYO — (AP) — The first shipment of sake, potent Japanese fermented rice drink, for the United States since Pearl Harbor left Friday night.

The freighter Andrew Jackson loaded 3,330 quarts at Kobe and Yokohama. Some of the sake will go to the Hawaiian Islands.

PONTIAC

Distinguished by a Beauty All Its Own!

There's an unmistakable stamp of distinction about the new Pontiac. It's a beauty from the front and it's a beauty from the rear!

Wherever you see its "Silver Streak" styling—in city traffic, on the highway, or silhouetted at the curb—you know immediately that it's a Pontiac and something very special among automobiles.

And Pontiac's performance is equally unmistakable—thanks to Pontiac's great power plants, the straight eight or the six, and to the amazing driving convenience of GM Hydra-Matic Drive.*

Even though Pontiac is in a class by itself for beauty, for performance and for dependability, it is still the lowest priced straight eight in America!

Why not come in soon and get the whole Pontiac story?

SAFE-T-NEW DRIVER VIEW! Pontiac's wide, optically curved windshield, plus wider windows and slimmer pillars all around, gives you a new driving horizon.

*Hydra-Matic Drive optional on all models at extra cost.

Where **Sixty Minutes**
Seem but **Half an Hour!**

Distance isn't the only thing which passes swiftly when you sit at the wheel of a 1949 Cadillac. So does time!

You rest your hand on the beautiful steering wheel and press your foot ever so lightly—against the obedient throttle... and you're off on a wonderful journey.

Your ride is free and easy and restful. You just sit—and relax—and enjoy the scenery—and the companionship of those about you. Conversation is

as easy as if you were sitting in your own drawing room—for the car is so quiet you can hear the soft ticking of the electric clock.

The labor of driving is almost nonexistent. The big powerful motor moves you in and out of traffic as if by automatic propulsion. Steering is little more than a response to your wish. Brakes are light to the touch and velvety-smooth in action.

You are as relaxed and care-free as the happy passengers around you.

For you do little more than the thinking—and the car does the rest. And then a familiar landmark looms in the distance. Can it be that you are there?

You look at the clock and you look at the speedometer—and, surely enough, the time and the distance have passed, and your journey is over.

Better come in and see for yourself that—when you sit at the wheel of a Cadillac—sixty minutes seem but half an hour!

Jumbo chicken, hot tamales, chili, hamburgers, hot dogs. Shady Nook, Letors Highway.*

Virgil Henshaw, son of Mrs. Roxie M. Henshaw, left this morning for Arlington, Texas, where he will enter school.

Mexican Farmers Are Visiting Texas

MEXICO CITY—(AP)—A group of Mexican farmers are on a three weeks trip to study farming and cattle breeding in Texas. While in Texas the party of 29 plans to study methods of artificial insemination for cattle breeding at Texas A&M College. They also will spend several days in Tyler at the Agricultural and Cattle Fair.

The Mexicans are visiting Texas at the invitation of a group of Tyler residents who visited Mexico last winter.

The sucker fish is native to only two parts of the world, North America and China. The Romans are generally believed to have been the world's first wearers of straw hats. Brazil's area exceeds that of the continental United States by about 280,000 square miles.

WANTED

"TOP OF THE BOTTLE ROBBER"

Elmer really should know better than to try to rob the cream from a bottle of Borden's Homo. It's like trying to steal a boy's freckles. It just can't be done, because the cream in Borden's Homo is broken up into tiny particles and distributed evenly from top to bottom. It tastes richer, digests easier. Every delicious sip tastes creamy rich like milk from the top of the bottle. The kids like Borden's Homogenized Milk better and so will you.

Harvesters Crush North Dallas Bulldogs in Opener, 40-0

Green and Gold Romp With Ease Over Big City Eleven

The eyes and mouths of the Pampa Harvester football coaches, Tom Tipps and A. R. Nooncaster, popped open with amazement Friday night as they saw their 1949 football team steamroller the much heavier North Dallas Bulldogs 40 to 0, just double the defeat they handed them last season.

The coaches used every boy on the bench, and all played brilliant ball against the impotent Bulldogs. Especially effective was the inexperience and lighter Pampa line, which held the visitors to a single first down and but 9 yards net gain. The pre-announced big city seatbacks were completely bottled up by the Harvester line and ends. The longest gain they could make was for seven yards.

The Green and Gold rolled at all, scoring in every period, the winning touchdown coming when the game was but 1:12 minutes left. By halftime the Harvesters had amassed last year's total of 40-0. Co-captain Pete Cooper scored twice for Pampa, halfback Jimmy Hayes twice, and Dale Peterson and Charley Smith once each. DeWey Cudney booted three extra points and Elmer Wilson one.

Longest run of the game was a 13-yard jaunt by Hayes midway through the first period, on an off-balance slant that saw beautiful openfield blocking by his teammates allow him to go all the way.

All of the backfield men that are coaching staff threw into the fray were running hard. Hayes, Charley Smith, Hugh Gracy all played off good yardage. Elmer Wilson, once he got past the line of scrimmage, dodged and weaved like a jackrabbit for steady gains.

Pampa hit paydirt early in the game, marching 68 yards after receiving the kickoff. Pete Cooper and Hayes did all of the all lunging during the march, Cooper going over from the 8, Wilson missed the extra point, Pampa 6, North Dallas 0.

After the kickoff, Dallas was forced to kick, Carroll Smith running it back to the Pampa 39, on the first play Hayes rumbled the way, 61 yards. Cudney converted, Pampa 13, North Dallas 0.

Pampa kicked off to Dallas to start the second half, but the visitors could make nothing and were forced to kick. Pampa ran all back to the Dallas 45, and another touchdown march made 2, Wilson raced 19 yards to hit for 7 and Carroll made it a first down on the next play went over, and Cudney the try for point. Pampa 20, North Dallas 0.

Pampa again held after the kickoff and Dallas kicked to the Pampa 38. Young and Cooper made 5 apiece and Charley Smith rumbled to midfield. Cooper picked up 10, Smith 5 and a penalty against Dallas made it first and

Scratch Hit Wins for Dodgers in Ninth

BROOKLYN — (AP) — The Brooklyn Dodgers edged the New York Giants 6-4, Saturday, scoring the winning run in the ninth on a ground ball that traveled less than 90 feet.

Gold Sox Take Second Straight

AMARILLO — (AP) — Jerry Folkman's theft of home in the seventh inning tied the score, upsetting Freddy Rodriguez's 8 in 0 in pitching progress, and Amarillo went on from there to thump Abilene 14-8 here Friday night, taking a two to nothing lead in the first-round Shaugnessy Playoff.

The teams continued the series last night at Abilene, where left-handed Will Roca was slated to pitch for the Blue Sox, righthanded Steve Lagomarsino for Amarillo.

U.S. Retains Wightman Trophy

PHILADELPHIA — (AP) — The United States retained the Wightman Tennis Cup for another year as Miss Doris Hart, of Jacksonville, Fla., defeated Mrs. Betty Hilton of England, 6-1, 6-3 in the opening match of the final day's program Saturday.

The Americans won the two singles and a doubles match yesterday. Miss Hart's victory making it four out of a possible seven.

Jack Weisenburger, who was virtually immune to injury in four years of Michigan football, has been sidelined twice this season playing baseball for the Denver Bears — an injured knee and a ditto thumb.

Musial's Homer Gives Cards Win

CINCINNATI — (AP) — Stan Musial hit a home run in the top of the ninth with two on and two out Saturday to give the St. Louis Cardinals a 6 to 5 victory over the Cincinnati Reds. The blow into the right-field bleachers enabled the Cards to protect their one-game lead in the National League championship.

The Reds rallied for one run in the last of the ninth and had the tying and winning markers on base when the game ended.

SHAMROCK — (Special) — The Shamrock Irishmen took the measure of the Wheeler Mustangs 14-0 here Friday night at Denver Field before a capacity crowd of some 2000 fans.

Quarterback Gilbert Stribling's pass over the goal line to right end Carroll Valentine from the Mustang's 13 early in the first quarter chalked up the first touchdown.

The second counter came early in the third period when Irish fullback, Don Lea, romped 22 yards around left end and went over standing up.

A fumble by Garland Parks, Wheeler left half, on his own 35, set up the first scoring drive for the Irish. Doyle Brown, Irish right tackle, recovered for Shamrock on the Wheeler 29.

Roger Skaggs, fleet-footed Irish back, picked up 9 off left tackle. Don Lea was thrown for a 4-yard loss, and McLemore went over the right side of the Mustang line for 7 yards and a first down. Skaggs gained more over center placing the ball on the Wheeler 13.

On the next play Stribling faded back and tossed a pass to Carroll Valentine behind the enemy goal line for the score. McLemore kicked the extra point. J. T. Johnson, fast-moving fullback for the Mustangs, electrified the crowd on the first kickoff of the second half with a 56 yard runback to the Irish 44. Roger Skaggs, the only man between Johnson and paydirt, made the tackle.

Then the Wheeler drive sputtered and the Irish took over on their own 40. Two consecutive first downs for the Irish featured by McLemore's 18 yard scamper took the ball to the Mustang 27, from which point Don Lea broke wide to the left and went over standing up. McLemore's extra point try was good.

The starting lineup: Shamrock — Ends, Dan Glover, Carrol Valentine tackles, Jimmy Culbertson, Doyle Brown; guards, Gene Hamill, Eugene Collinsworth; center, Billy York; backs, Gilbert Stribling, Robert Skaggs, Don Lea and Oliver McLemore.

Wheeler: End, Edgar Hubbard, Joe Mitchell; tackles, Doyle Walter, Henry Fund, guards, James Gaines, C. R. Bailey; center, George Hibbits; backs, Dick Pendleton, Garland Parks, J. T. Johnson, Maurice Pettit.

WINS TWO FEATURES NEW YORK (AP) — Jockey Hedley Woodhouse won feature races on successive days at two different tracks. He won with Mrs. Jan Burke's Ceara for a \$21.40 mutual at Jamaica and the next day won the \$25,000 Monmouth handicap at the New Jersey course when Three Rings returned \$15.80. The victory on Three Rings netted Woodhouse \$2,020.

SPORTS

Shamrock Jolts Wheeler; Phillips Mauls Panhandle

IRISHMEN MEASURE MUSTANGS, 14 TO 0

BLACKHAWKS SMOTHER PANTHERS, 44 TO 6

PHILLIPS BLINE OPENED HOLES FOR THE BACKS TO GO THROUGH THAT WOULD ACCOMMODATE A WAGON TRAIN, AND THEN ONCE MOVING — THE BACKS JUST WOULDN'T STOPPED.

Tommy Moore and Melvin Eldridge led the attack, and second stringer James Redick shredded his way 82 yards for the last tally on a 32-yard punt off the foot of Jimmy Naylor.

Moore opened the scoring, by making the first play from scrimmage, after the Hawks gained possession of the ball off tackle for a neat 60 yard gallop, outdistancing all Panther opposition.

On the next touchdown scored by the Hawks, Moore again was the man of the hour. Moore skirted left end for a mere 15 yards and paydirt. Melvin Eldridge try for extra point was no good.

Fleet footed little fullback the third score for Phillips, going over in a bruising sort of way from the three yard line. Panther's Cantrell's try for the extra point was short, so the score read 18-0.

Not satisfied with the score at 18-0, Eldridge broke loose and galloped around right end for thirty yards and another six points. Moore again tallied in the third quarter, this time limiting his scoring dash to 48 yards and paydirt. Cantrell went off tackle for the extra point.

Fanhand's lone score came in the fourth period of play against the Hawk second team. After making five consecutive first downs, fullback Roy Mitchell plunged over from the four yard line for the six points. Adcock's try for the extra point was blocked.

Phillips plays host to Wellington next Thursday night in Blackhawk Stadium. Wellington will bring a victory over the Perryton Rangers with them for their little tussle with Phillips.

Hereford Downs Fighting Tigers

McLEAN — (Special) — The Hereford High School griders drubbed the McLean Tigers here Friday night by an 18 to 0 score. Hereford was in command after the first five minutes of play.

Reynolds went over for the winners after five minutes of play following a 32 yard run by Kelly and a 30 yard pass play that set up the score. The extra point failed.

Late in the first half Forbes made a 47 yard run for Hereford that set up another score. Two touchdowns were called back by penalties and the ball was lost on downs before the score finally was pushed over when Christian outran the Tiger defense for 35 yards to score.

Hereford moved right down the field following the second half kickoff to make its final touchdown.

Rice Gridders Lose First Match of Year

HOUSTON — (AP) — Rice Institute's football team met its first defeat Friday — at the hands of a sneak thief.

Someone burglarized at least 13 of the players in the Rice South Hall dormitory to the tune of \$109 in cash and four watches.

Huge 1949 Cotton Crop Predicted

WASHINGTON — (AP) — The Agriculture Department Thursday forecast this year's cotton crop at 14,943,000 bales of 500 pounds gross weight.

This estimate is 138,000 bales more than the 14,805,000 bales predicted a month ago.

It compares with 14,868,000 bales produced last year and with a ten-year (1938-47) average of 11,306,000 bales.

In an accompanying report, the Census Bureau said 1,247,443 bales of the 1949 crop had been ginned prior to Sept. 1. This compared with 1,444,355 bales ginned to the same date last year.

The indicated crop is considerably larger than expected market demands. If it is borne out by the harvest, the government probably would impose rigid controls on next year's crop in a move to prevent a price-depressing surplus.

Controls might include both acreage planting allotments and marketing quotas. The latter would have to be approved by at least two-thirds of the growers voting in a referendum. No decision on a 1950 control program is expected, however, before early October.

If proposed, quotas probably would be submitted at a referendum Dec. 7.

Supplementing this year's crop will be a reserve of more than five million bales from previous crops.

The department reported the indicated yield of cotton per acre at 278.9 pounds, compared with 313.1 pounds last year and 254 for the ten-year average.

The condition of the crop as of Sept. 1 was reported at 74 percent of normal compared with 82 percent a year ago and 71 percent for the ten-year average.

The indicated area left for harvest was put at 25,907,000 acres, compared with 23,003,000 last year.

The percent abandonment, the acreage for harvest, condition of the crop on Sept. 1, the indicated yield per acre, and the production respectively, by states included:

Oklahoma 3.5; 1,158,000; 75; 170 and 410,000;

Texas 1; 10,296,000; 88; 233 and 5,000,000;

New Mexico 3.5; 312,000; 89; 477 and 310,000;

Ginnings by states to Sept. 1 this year and last, respectively, included:

Texas 972,566 and 797,490.

Some Company, Union Papers Hard to Read

By HOWARD W. BLAKESLEE
Associated Press Science Editor
DENVER — (AP) — Some company and national union newspapers write over the heads of their readers, when judged for ease of reading.

This report was made to the American Psychological Association by Dr. Edward T. Raney, of Wayne University, Detroit.

He studied a large auto corporation's house organs and the publications of the United Auto Workers, CIO, all going to the same employees.

He found the union papers even more high-brow on wording than the corporation's.

"The information was judged as hard, or very hard to read," he said, "when it was like the material found in a quality magazine, such as Harper's."

He rated the company papers as 65 percent hard to read and the union at 74 percent. He said the union papers covered a wider and more national field.

The ratings were based on test formulae of Dr. Rudolf Fleisch, New York psychologist. Dr. Raney said that under these formulae any sentence over 21 words long becomes more difficult to read. Likewise more difficult is more than 155 syllables per 100 words. Dr. Fleisch is a consultant for the Associated Press on readability of news.

Fishing Boat Snags 'Tin Fish'

CAMPBELTOWN, Scotland — (AP) — The fishing boat Nil Desperandum dropped its net in the Firth of Clyde and caught His Majesty's submarine Alcide.

The submarine was exercising submerged at 90 feet. It surfaced and the crew disentangled the net from the conning tower and periscope.

The skipper of the Nil Desperandum donated the fish in the net to the submarine crew.

Israel Cuts Down President's Salute

TEL AVIV — (AP) — The Argentine Embassy in the United States forwarded to Israel a request for information on how many gun salutes are fired here for Israeli President Weizman.

Actually the new state hasn't had time yet to work out a lot of these matters. But its protocol department set to work, drew up a code, and replied: "21 guns, as other states do for their presidents."

But the note added, confidentially, that in fact so far they've only been firing five guns — because of the war and munitions supply and all that. (And whether it's five or 21, it is the first time military censorship has passed the fact that Israel has that many guns.)

Navy Brings City Fathers Up to Date

EASTBOURNE, Eng. — (AP) — The U. S. Navy brought the city fathers up to date on American history.

Men of the destroyer Samuel B. Roberts gave Eastbourne a U. S. flag with 48 stars in it.

The one hoisted over the Town Hall when the ship arrived last week had only 48.

It was made some time before the admission of Oklahoma (1907), Arizona (1912), and New Mexico (1912) to the Union.

CHAPEL GIVEN

GEORGETOWN, Texas — (AP) — Work is expected to begin soon on a \$250,000 chapel which Mr. and Mrs. J. Perkins of Wichita Falls are giving to Southwestern University of Georgetown.

and 22,631,000 for the ten-year average.

The planted area abandoned this year was reported at 1.5 percent, compared with 1.1 percent last year and 1.9 for the ten-year average.

Production of American-Egyptian cotton was forecast at 4,600 bales, compared with 3,600 last year and 29,500 for the ten-year average.

The percent abandonment, the acreage for harvest, condition of the crop on Sept. 1, the indicated yield per acre, and the production respectively, by states included:

Oklahoma 3.5; 1,158,000; 75; 170 and 410,000;

Texas 1; 10,296,000; 88; 233 and 5,000,000;

New Mexico 3.5; 312,000; 89; 477 and 310,000;

Ginnings by states to Sept. 1 this year and last, respectively, included:

Texas 972,566 and 797,490.

Never Trust An Educated Mosquito

By HAL BOYLE
NEW YORK — (AP) — Once upon a time there was a great scientist named Dr. Alfonso Cortez.

No mind like his had ever entered the world before.

The day he was born he asked the nurse if he could borrow the hospital's microscope. He would not take his afternoon nap unless his mother sang him a lullaby from an algebra book.

By the time he was five he

could recite the Encyclopaedia Britannica from memory. He graduated from college at 7.

In time every branch of human knowledge was illuminated by his brilliance. His inventions enabled men to live forty years longer, drink all night without getting a hangover, get by on half-an-hour's sleep, and earn all they wanted by working one hour a day.

"There is still evil in the world," he said. "I must solve the problem of right and wrong."

So he went into his laboratory and stayed there for five years. Then he emerged. He summoned the world's leading statesmen, bankers, clergymen, industrial leaders, generals, admirals and educators to his laboratory. When they were all assembled, he walked into the room carrying a large box.

"Gentlemen," he said, "In this box I have 3,604,355 mosquitoes. I have bred, and cross-bred them

for five years to breed out their vicious instincts. I have read them the Bible, the Koran, the Talmud and passages from the philosophers. They have been taught not to sting anyone who is wholly good.

"See."

And with that he opened the box, and out swarmed the mosquitoes.

"Don't be alarmed," smiled Dr. Cortez. "They know right from wrong."

The mosquitoes began settling on his uneasy guests. For a moment there was a sudden silence, a vast squirming, and then—

"Ouch!"

"Ouch!!!"

The famous people, slapping at their faces, ran en masse from the laboratory.

Dr. Cortez looked sadly around his deserted laboratory.

"There must be some wholly

JUSTICE GOES 60-40
SINGAPORE — (AP) — A board of inquiry at the Singapore Marine Court has ruled that both the ships Richmond Hill (British) and the William Tilghman (American) were to be blamed for their collision about 20 miles from Singapore on April 19. The court distributed the blame 60-40 with the Richmond Hill getting the heavier share.

Rites Held for Pampan's Brother

SHAMROCK — (Special) — Mrs. Ode Cain was called to Paris Wednesday morning because of the death of her brother, A. B. Vernon.

Lynn, 65, died suddenly of a heart attack Wednesday. Funeral services were conducted Thursday afternoon in Paris. In addition to Mrs. Cain, survivors include two brothers, G. T. Lynn of Pampa and Ocie Lynn of the death of her brother, A. B. Vernon.

Farmer Repeats First Cotton Bale Delivery

SHAMROCK — (Special) — D. V. Brashears, who lives on the J. M. Tindall farm a half mile north of Twitty, brought the first bale of 1949 cotton to Shamrock Monday.

The bale arrived 19 days later than last year's initial load which was brought in by Henry Stimon on Aug. 17. That is believed to be the earliest a bale was ever ginned here.

The Tindall gin handled the 490-pound bale brought in by Brashears.

Brashears stated that the bale was pulled from about 17 or 18 acres of his 200-acre crop.

Bringing in the first bale is not a new experience for Brashears. He ginned the initial bale here in 1944 on Aug. 27.

The files of The Shamrock Texan show that prior to last year's Aug. 17 bale, the earliest bale ever ginned here was Aug. 22, 1946. It also was grown by Stimon.

Shamrock School Enrollment Up

SHAMROCK — (Special) — In spite of a decrease of 60 in the number of transfers, enrollment in the Shamrock public schools is greater by 21 students than on the corresponding date in 1948.

Total enrollment up to Tuesday night was 968 as compared with 937 last year, Supt. Elmer J. Moore announced.

High school enrollment is 267 as compared with last year's 253. In junior high, two of the three grades have increased; three of the five North Ward classes are larger; the kindergarten group shows an increase of six, while the Dunbar colored school enrollment is down three.

Railroad Installs Warning Signals

SHAMROCK — (Special) — Electrically operated warning signals, a long-needed safety precaution in Shamrock, are being installed on the Rock Island Railway at the intersections of Main and Wall.

Installation was started last week and will require another three or four weeks for completion.

Approximate cost of each unit is \$6,000. The railroad is bearing the expense of the signal on Wall, while the Texas State Highway Department is paying for the one on Main, which is also U. S. Highway 83.

The city of Shamrock is to place warning signs on Madden and later, when finances permit, install similar electric signals.

MASS TRANSPORTATION

Transit carriers in the United States carry 65,000,000 riders every weekday, equal to the combined populations of Canada and Great Britain.

Lefors

LEFORS — (Special) — The First Baptist Church is holding a two-week revival with the Rev. C. E. Hendricks of Cherokee, Okla., and E. E. Gibbs of Dallas in charge of the services and singing. The young people and the band meet at 7:30 p. m. daily, and services start at 8 p. m.

Mrs. R. A. DeGray is in the Worley Hospital recovering from an operation.

Members of the Methodist Church held their evening service and had a picnic supper at the Mordyan picnic grounds last Sunday evening. The young people had charge of the program. Robert Carr Vincent was program leader. Joe B. Pafford read the Scripture, Betty Scott gave the devotional, and Rebecca Breining read a poem.

Those attending college this fall from Lefors include: Joe Pafford, Bill Stafford, and Joe Gourley, Texas A&M; Berryman and Clell Breining, Patsy Johnson, Robert Carr Vincent, W. T. Cole, and Aubrey Turner, Texas Tech; C. H. Keeton, Joe Ogden, Bobby Hedrick, Freddie Newson, Tommy Jinks, and Dan Johnson, WTSU; Angie Davis and Betty Scott return to Texas State Teachers College at Denton; Robin Tibbets returns to McMurry; and Doyle Guthrie enters Hardin-Simmons.

Attorney Starts Shamrock Practice

SHAMROCK — (Special) — Guy Hardin, a 25-year-old recent graduate of Baylor University, has formed a partnership with M. Reynolds to practice law.

He received his LL.B. Degree at Baylor University August 18, 1949.

Hardin is married and has a three-year-old daughter. They are residing at 206 South Choctaw.

"My wife and I had started to Amarillo, and as we passed the new Legion home and drove down to Shamrock, we decided this was the place."

The partnership with the veteran Shamrock attorney was formed that same day.

Revival Begun At Kelton Church

SHAMROCK — (Special) — A revival meeting began Sunday night at the Kelton Methodist Church with Rev. P. E. Yarbrough of Rotan in charge.

Services are being held twice daily at 10:30 a.m. and 8:00 o'clock p.m. No closing date has been set.

The year 1928 was the second largest in the history of foreign financing in the United States.

Divorce Judgment Is Handed Down

A divorce judgment, in a case heard the previous week, was approved Friday afternoon by Judge Lewis M. Goodrich in 31st District Court here.

The decree divorced Carol Lee Cargill from Ada Bell Cargill on cruelty charges. The defendant, Mrs. Cargill, was given full custody of her daughter, but no support order was issued by the Court. They were married in December, 1947 and separated in December, 1948.

Also divorced late Friday was Lillie Bell Crow from William Dennis Crow on grounds of cruelty. They were married in August, 1940 and separated in July, 1947. A baliwag straw hat often costs \$200 in Manila.

CONTEST

(Continued from Page One) lowing table of rules: charm, personality, poise, carriage, personal beauty and magnetism, 40 percent; style, alertness of ensemble and effect, 40 percent; and culture, education, social attributes, accomplishments and talent, 20 percent.

Besides those already mentioned, the general committee for the queen contest is composed of Aubrey Jones and Gene Fathers, proprietors; Roscoe Willis and Mrs. Robert Vail, art; Mrs. Fred Thompson, tickets; Mrs. O. J. Payne, entries; J. L. Swindle and Ken Palmer, publicity.

HUNGARY

(Continued from Page One) Communist who was editor in chief of the trade union newspaper Nep Szava, and Paul Justus, former Communist member of Parliament. A similar purge marked the arrest of Rajk in June, a year after Tito's Yugoslav government was thrown out of the Communist Information Bureau (Cominform) on charges of deviating toward nationalism from the regular party line.

BULLETINS

(Continued from Page One) preceding month to notch the first gain since October, 1948, when the peak mark was reached and the long slump began. The economic council did not attempt any forecast of the future, but its findings followed on the heels of the Census Bureau's report that employment slumped to the highest point of the year in August while the number of jobless fell 406,000 below July's record total. These two developments were seized upon by government experts as indicating that the downward spiral in the nation's economy had been halted — provided that the unsettled labor situation does not bring forth a series of crippling strikes.

To Tap Wall Street

WASHINGTON — (AP) — The United States, Britain and Canada announced they would try to tap Wall Street and two big government banks for some of the dollars Britain needs to break its economic crisis. As stated officially, the three governments agreed to seek removal of obstacles to foreign investment of "private capital," and to encourage loan requests to the World Bank and the U.S. Export-Import Bank.

Man Fined in Two Courts

A Hereford man, M. W. Warner, late Friday morning was fined in two different courts for two different motor code violations. County Judge Bruce Parker first fined him \$100 and costs for driving while intoxicated. A few minutes later Justice of the Peace D. R. Henry fined him \$1 and costs for driving without a driver's license.

Warner was picked up Thursday by State Highway Patrolmen near McLean. After his Justice Court hearing Warner was taken to the County Jail and held pending payment of both fines. He was later released after making satisfactory arrangements with the Court to pay the fines.

Shortly after Warner's hearing the county attorney's office filed dismissals on four misdemeanor cases. They were: E. A. Weitz on charges of assault growing out of an argument with a youth who claimed he was hit on the head with a piece of concrete.

Margaret Samuels on a charge of selling liquor on a Sunday. J. C. Winborne on a charge of assault growing out of a fracas with a woman. Charles L. Vandover on a charge of maintaining a chicken broiler in a residential district. The case was on appeal from Corporation Court where a six-man jury found Vandover guilty and assessed his fine at \$10. All of the cases had been on file for several months.

WAGES

(Continued from Page One) in operation provide that the union will continue to work. Inland Steel announced at Chicago that it had agreed to the 10-day extension. But President Clarence B. Randall wired the President that the report should not be examined under threat of a strike. "If there is to be a strike at midnight, Tuesday, the orderly closing down of operations must commence not later than 4 p.m. Sunday," he added. Other companies delayed their replies to the President's request for an extension. The board's decision against a wage increase for the steel workers may prove a severe blow to unions in other industries, where demands of many unions have been soft-pedaled while Murray made his fight.

Only one word fits it — Wonderful!

YOU know how it usually is—slow and steady is the rule in automotive progress.

But every now and then it happens. Along comes a car that's new all over—like this one—and headlines sing the news.

Take the styling of it—fresh and smart and really exciting from its non-locking bumper-guard grilles to the jet-plane look of its fenders.

Take the outward size of it—handy in traffic, easy to garage, actually more room and a sweeter ride in fewer over-all inches.

Step inside—and stretch yourself in the biggest interiors ever found in a Buick Special, with a full twelve inches added to rear-seat hiproom.

Try the power of big 110 or 120 hp high-compression Fireball engines—sample the restful levelness of a ride that sets the standard for the industry.

Check controls—and note really big news: The luxury of Dynaflo Drive*—newest, simplest and smoothest of all modern transmissions—is optional equipment, available now at the lowest price level yet!

*Optional at extra cost.

When better automobiles are built BUICK will build them

Finally, look at the price tag. Measure its figures against others—and see if any car, even in the lowest-price field, gives you so much of what you want for each dollar you invest.

Tops in style, tops in room, tops in lift and life and traveling ease, a trip to your Buick dealer will show you this is wonderful in value too!

For the biggest buy of this year—and many a year to come—better go now and get your order in!

TEN-STRIKE!

Only Buick SPECIAL has all these Features:

- TRAFFIC-HANDY SIZE • MORE ROOM FOR THE MONEY • DYNAFLO DRIVE optional at extra cost • JET-LINE STYLING • NON-LOCKING BUMPER-GUARD GRILLES • HIGH-PRESSURE FIREBALL STRAIGHT-EIGHT ENGINE • COIL SPRINGING ALL AROUND • LOW-PRESSURE TIRES ON SAFETY-RIDE RIMS • GREATER VISIBILITY FORE AND AFT • SELF-LOCKING LUGGAGE LIDS • STEADY-RIDING TORQUE-TUBE DRIVE • THREE SMART MODELS WITH BODY BY FISHER

Basic Cause Of Malady Is Deep-Seated

By DEWITT MACKENZIE
AP Foreign Affairs Analyst

The cure of England's economic illness is a matter of guess-work, but there need be no doubt as to the basic cause of the malady: for it is deep-seated and had its inception long ago.

The fact is that Britain is suffering from an inherent weakness which was bound to result in an economic upheaval in due course.

What has happened is that two world wars have so speeded up events that this crisis has developed before its time. This knowledge won't be of much assistance to the doctors who now are holding the economic clinic in Washington, but it will have to be taken into consideration.

Suffice it to hark back to the beginning of this century. Britain was at the peak of her imperial greatness, boasting an empire upon which the sun never set.

Her economic status was as solid as the Rock of Gibraltar.

However, there was a weakness in this mighty structure. England in herself wasn't self-sufficient. Apart from coal she had little mineral wealth. She couldn't begin to feed herself, because she didn't have the acres, and so had to import a major portion of her foodstuffs. She lacked most of the raw materials for her manufactures.

How then did Britain achieve her industrial greatness. The answer: by the very simple expedient of importing raw materials from undeveloped countries, fabricating the materials, and then selling the manufactured products back to those countries.

The length of time this phenomenon could last depended, of course, on how long it took foreign countries to develop their own resources. There was no end in sight when World War I broke and changed the picture.

Overnight Britain found herself so occupied with making war that she no longer could act as merchant to foreign countries. Backward nations which had been dependent on England for wooden and cotton products, among others, suddenly found themselves cut off. They looked about to see what was happening to them and found that they were short on industries of their own. So they started in to remedy the defect and make themselves self-sufficient.

Thus Britain lost not only untold wealth as the result of war expenditures but her world markets started to slip away from her.

Then along came the Hitlerian catastrophe which reduced much of the world to a state of economic chaos. The nations involved have expended wealth they may never be able to replace, certainly not in our time. Britain has been hard hit.

Canyon Bad Place To Lose Cow

BYRCE NATIONAL PARK, Utah — (AP) — To the tourist Bryce Canyon is an amphitheater filled with pink formations resembling people, spires and minarets, castles and bridges.

To the first man to settle near its mouth, it was also something quite different. It was made a national park in 1928 and named after Ebenezer Bryce, a Mormon pioneer.

Asked for his reaction to the scenic spot, Bryce was reported to have agreed it had fantastic beauty and to have commented, "I remember it was a bad place to lose a cow."

Nature Excavates Canyon's Gorge

ZION NATIONAL PARK, Utah — (AP) — Nature is busy carving three million tons of rock and dirt out of Zion canyon each year.

That's the amount scientists estimate is eroded and carried away by the little Virgin river in the half-mile deep canyon. The gorge grows deeper each year, mainly because the stream has a rapid fall of 80 to 90 feet per mile.

Ring Solves Mystery Of Missing Man

SYDNEY — (AP) — Two men at Wyndham, Northwestern Australia, caught a 14-foot crocodile. In its stomach they found a man's gold signet ring with the initials "J. T."

Police remembered the mystery of John Thompson, a young refrigeration engineer. In July, 1948, he fell from a wharf at Wyndham. His body was never found. Police now know why.

Bridegroom Battles For Wedding Gifts

BANGKOK — (AP) — Nai Thong Korn, 23 was getting ready for his marriage next morning. He counted out \$300, looked over the valuables brought for the ceremony, and then he heard shots.

Bandits were attacking his home. He seized a shotgun, killed one of the attackers and kept firing until the bandits fled.

The next morning he was married.

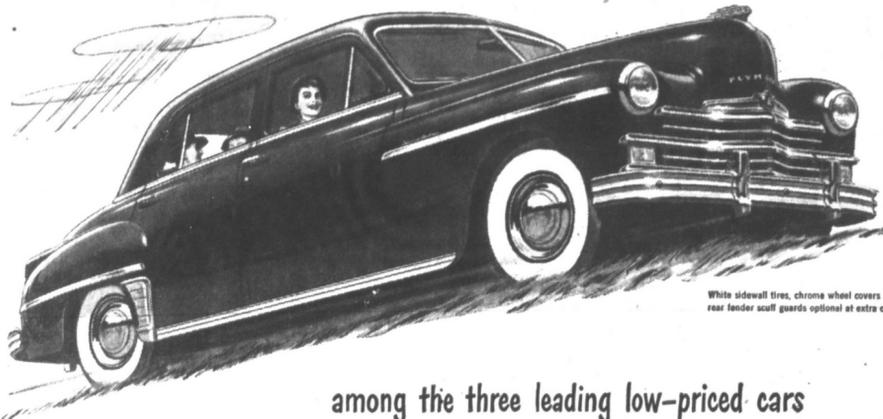

Report on Dallas Slaying Due Monday

DALLAS — (AP) — The report of a grand jury investigating the slaying of Carolyn Schofield, 20, last Friday in a downtown office building here is expected Monday.

Keith Lewis Petersen, 21, Southern Methodist University student, has been charged with murder. He told officers he killed the girl after she said she would marry another man.

What is believed to be the earliest reference to pearls is from a Chinese manuscript of 2,300 B.C.

highest compression engine

White sidewall tires, chrome wheel covers and rear fender scuff guards optional at extra cost.

among the three leading low-priced cars
Plymouth's got it!

COMPRESSION RATIOS

Low-priced Plymouth . . . 7.0 to 1
Low-priced car "A" . . . 6.8 to 1
Low-priced car "B" . . . 6.6 to 1

PLYMOUTH Division of CHRYSLER CORPORATION
Detroit 31, Michigan

Some cars squeeze a lot more power out of the gasoline they use than others. That's because of the difference between the compression ratios of the engines. The higher the ratio, the harder the fuel works.

With a 7.0 to 1 compression ratio — highest among the three leading low-priced cars — and newly designed intake manifold, the Plymouth engine burns gasoline at peak efficiency, gives top performance.

Plymouth is the only one of "all three" low-priced cars with the sensational new chrome compression rings. They reduce cylinder wall

scuffing, add thousands of miles to the life of the engine. Wider drainage slots in the new oil control rings make possible greater oil economy.

These are but a few of the new engine features in the great new Plymouth. These features work together to give you a car that performs brilliantly and delivers the thousands of trouble-free miles that mean lasting satisfaction.

Before you buy any car — at any price — be sure to visit your nearby Plymouth dealer. He'll gladly arrange a demonstration drive. Let the ride decide!

PLYMOUTH—the car that likes to be compared!

Mr. and Mrs. E. J. Kingsbury

Meribelle Hazard, E. J. Kingsbury United in Candlelight Ceremony

In an impressive home ceremony, Miss Meribelle Edith Hazard became the bride of Lt. (j. g.) Edward Joseph Kingsbury at 11 o'clock, September 3, with the Rev. E. Douglas Carver officiating. The bride is the daughter of Mrs. J. P. Heath, 318 East Foster, and the bridegroom is the son of Mr. and Mrs. E. J. Kingsbury, Sr., of Newport, Maine.

Vows were exchanged before a background of greenery and double candelabra banked with yellow baby chrysanthemums. Throughout the house bouquets of baby chrysanthemums, daisies, gladioli and asters harmonized with the interior decorations of the rooms.

(See HAZARD, Page 14)

Palaver de Pampa

THERE'S A TANG IN THE AIR, for it's the time of year to play football—and that always brings cool weather... it's not too soon for me... Last week I brought forth my saga, and it brought forth some comment: variously given out: to wit: she didn't write it; she stole it, etc. ... Why, I never... Anyway, here's the curtain going up on the second chapter of "Saga of the Olden Time," by M. E. Plagiarist.

Classes of Men

AMONG the Men were many husbands. They spent most of their time working at jobs they didn't like, to supply their wives with things they didn't need. Many of these were henpecked and spent the time they were not working, trying to get a Night Out With the Boys. The Men who were not Husbands were called Bachelors and were looked upon with great favor, especially by the Old Maids. Anything they did was considered Charming. They led happy lives being invited to parties and all sorts of social events, but had to be very careful to avoid Traps laid by Designing Women. Otherwise they would wind up in the sorry lot of Husbands... Now, that's the end of Chapter 2... Turn to this page next week for Chapter 3, entitled Transportation.

THE JUDGES for the Country Club bathing beauty revue had no small job on their hands with so many lovely teen-agers to select a winner from... It was a runoff between Patsy Miller, daughter of Mr. and Mrs. L. R. (Buck) Miller, and Merdella Roberts, daughter of Myrtle and Skeet Roberts... Merdella finally was chosen as "Miss Pampa Country Club"... The show that took my fancy was that of the little tots... there were 25 wee contestants displaying feminine charms and curves... masculine muscles and brawn... evidently they were all so cute and fetching that the judges gave up in despair, for there was no winner selected... American Royal, in Kansas City annual extravaganza that ingratiates many a lassie, is a good thing... we're so glad that Pampa has been recognized as one of the queen-contributing cities... but it's more than that, I hear—all the Top of Texas area will be included. Even though no one has definitely described that area, it must take in a number of towns in these parts... the "Princess Contest" is nice, too, because it will groom a number of the younger girls for next year's competition... Capable Sally Pepin is chairman of the Contest Committee.

PANORAMICALLY—The Bar N-J buzzing with activity this weekend, as Mud Baker entertains with a stag sales party... Don Conley has been busy for a week making preparations for the affair... Paul Slonaker, who has many friends in Pampa, will fly from California to be with the group... possessing two qualities is Johnnie Black, a high school miss; heard someone say she is as sweet as she is cute... Mr. and Mrs. Chet Loper of Powell, Wyo., formerly of Pampa, have been visiting in the home of Frank and Ruth Walker... Ruth left with them Friday to go to Madras, Ore., where she will assist her daughter... Saw Willie Parker looking especially pretty in a light blue tailored gabardine dress... who looks more attractive in crisp summer sun dresses than Helen Nelson... Two indispensable Sunday school teachers: Jessie Newberry and Virginia Green... in case you don't believe me, just ask one of their small admirers... The Ray Evanses are driving a new white Chevrolet Pontiac... Doc Pursley, president of the Chamber of Commerce in 1948, still retains his interest in that organization... It is no uncommon sight to see him ambling thru the offices leaving cheery greetings with the office force... And, speaking of the City Hall, everyone is interested in H. C. Coffee, who is ill... We're all looking for him back at the Railroad Commission soon.

THEY'RE OFF—The cars on the road between Pampa and Raton are busy as bees... and while they don't travel as straight as bees, they do have something over the horses at La Mesa Park; at least, they're getting where they're going... they have out a searching party for the horses I had my hunches on... Local people seen pressing their noses against the fence are Don and Theda Foster, Tom and Mary Lindsey, Charley and Mabel Ford, Harry Solnick, Abe Udashen, Kathryn Morris, Elmer and Lorraine Fite of Phillips, Lucille Stark, the former Lucille Bell of Pampa... If you're interested, here's a hot tip, practically from the horses' mouths: it's simpler to play Canasta... Ah, Canasta! That would be the game for me! Why, I bet I couldn't even assimilate the cards in me own little hands!

KNICK-KNACKS—From The News: At 102, a Virginia man says he has never had a doctor... Wouldn't you think he'd get sick of eating apples?... Read that a golfer's wife is suing for divorce. Hint to other golfers: Use the driver less and the spoon more often.

AN OCCASION in the never-never class of beauty was the all-pink wedding of Frances Jean Gilbert... the color scheme was carried throughout in pastel pinks with the exception of the bride's gown which was the traditional white.

NICE PEOPLE to know: Pinkey Sims, consistently pleasant... Lewis Chamberlain, whose sincerity is genuine... Gordie Bell Miller (Chamber of Commerce secretary), who is eager to help... Beth Lafferty, steady and friendly... Dorothy Teed, with an easy smile. I'VE got to take off now... see I'm working arithmetic again... and learning to spell "cat."

Stochastically,
PEG O' PAMPA

Gilbert-Spector Wedding Ceremony Is Performed In All Pink Setting in Amarillo's Crystal Room

In a pink bower, softly touched by candlelight, Miss Frances Jean Gilbert, daughter of Mr. and Mrs. Leon Gilbert of Pampa, became the bride of Myer Spector, son of Mr. and Mrs. T. Spector of Amarillo, Sunday evening, September 4, at 7 o'clock. Rabbi Arthur Blum read the double-ring ceremony in the Crystal Ballroom of the Herring Hotel in Amarillo.

Vows in the all-pink wedding were exchanged against a background of Woodwardia fronds, interspersed with wrought iron candelabra holding pink tapers. Pink chrysanthemums in white urns rested on white pedestals. Maiden Hair fern and pink mums. Single aisle candelabra, holding pink tapers were used, and were tied with pink satin ribbon and clusters of pink chrysanthemums. The canopy was decorated with garlands of

"Miss Ain't It a Shame" Wins Title At Country Club Bathing Revue

Miss Merdella Roberts

Three-Minute Talks Featured at Meeting Of Delphian Society

Mrs. J. F. Curtis, president of the Yucca Chapter of the Delphian Society, presided at a meeting in the City Club Room Thursday morning.

Mrs. John Adams was Seminar leader for the study, "On Being Human." Those presenting three minute extemporaneous talks were Mrs. W. R. Ballard, who discussed "Glimpses of Non Human Existence." Mrs. H. C. Berry on "Our Knowledge and Our Days." Mrs. Tom Braly, "Society and the Individual." Mrs. Joe Fisher, "Specialists and Their Fields." Mrs. Charles Ford, "Specialists in Art, Morals and Religion." Mrs. J. W. Garman, "Specialists and Ourselves," and Mrs. Knox Kinard on "Vision of the End." After each topic was presented, members engaged in a discussion period.

Following the study, a past president pin was presented to Mrs. Kinard, who served as president in 1948.

Ushering in the Fall Festivities of the Pampa Country Club was an array of beauties "just past carriage trade." Promenading in strictly "French designed beach togs" (designed to be future "Country-Clubbers") included Sandra Garman, Susan Ann Mitchell, Linda Kay Key, Cindy Keys Mac McMurry, Jane Leverich, Frank Alan Osborne, Julie Hofsess, Ann Hofsess, Richard Fatheree, Patsy Lou Holloway, John Holloway, Lou Ray Nation, Robin Vail, Julia Vail, and Diane Reid.

Reminiscing into the past, Mes. Raymond Reid, Jack Sullivan, Gene Fatheree, Ed Williams, Jim Nation, Eben D. Warner, Homer Cockery, George Hofsess, Macfield McDaniel, Clifford Braly, Johnny Barclay and Frank Kelley modeled gaily-ninety bathing costumes. Proving that the "good ole days" still go, Mrs. Eben D. Warner and Mrs. George Hofsess swam the length of the pool in their gay-ninety bathing costumes.

Climaxing the revue to the tune of "A Pretty Girl is Like a Melody," the following teen-agers paraded to compete for the cherished honor of "Miss Country Club." Merdella Roberts as "Miss Ain't It a Shame," Phoebe Carter as "Miss M.", Linda Frasier as "Miss Co-La-La," Phyllis Scheig as "Miss Smoothie," Greta Miller as "Miss Peaches 'n Cream," Marilyn Weiss as "Miss Baby Doll," Patsy Miller as "Miss Date Bait," Betty Joyce Scott as "Miss Boy's Delight," Donna Wilkenson as "Miss Oh You Kid," Pat Price as "Miss Slick Chick," Judy Smith as "Miss Bonnie Lass," Jackie Merchant as "Miss Gee Whizz," Harriet Schwartz as "Miss Easy on the Eye," Nickl Fraser as "Miss Whistle Bait," and Carol Culbertson as "Miss Wood-Whoo."

The coveted crown of Miss Country Club was won by Miss Merdella Roberts, daughter of Mr. and Mrs. Skeet Roberts.

Continuing the attractions of the day, Bob Graves, former swimmer and diving champion of Kansas State, thrilled the crowd with his expert technique. James Lewis, lifeguard of the Country Club, supervised the competitive swimming of the junior boys and their exhibitions. James Lewis also entertained the crowd with his comic exhibition. Concluding the day's agenda and entertainment a buffet supper was served and games were played in the dining room.

The committee directing the opening of the Fall season of the Pampa Country Club includes the following: chairman, Mr. and Mrs. Frank D. Smith, and committee members are Mr. and Mrs. Robert W. Curry, Mr. and Mrs. Robert P. Vail, Mr. and Mrs. Ed Weiss, Jr., Dr. and Mrs. Frank W. Kelley, and Dr. and Mrs. Julian M. Key.

These Chose Early Autumn

Miss Killian Is Bride of Paul L. Wills

Miss Norma Jean Killian, daughter of Mr. and Mrs. John E. Killian, 522 North Starkweather, became the bride of Cpl. Paul L. Wills, son of I. T. Wills, 933 East Barnard in the Killian home at 7:30 Saturday evening, Sept. 3. The Rev. Hal Upchurch, pastor of the Central Baptist Church, read the single-ring ceremony.

The bride was dressed in a brown crepe gown, with which she wore brown accessories and yellow and bronze chrysanthemums, as she and the bridegroom stood in an archway of the living room for the exchange of vows.

The bride's mother wore a gray linen dress and black accessories. Also witnessing the ceremony were the bridegroom's uncle and aunt, Mr. and Mrs. Walter Smith, Mr. and Mrs. T. A. Mastin, and Miss Julia Dawes.

Mrs. Wills is a graduate of the Pampa High School and has worked at Pampa Motor Freight for the past two years. Cpl. Wills also attended the Pampa schools and served three years in the Army.

Grand Array for ESA Style Show Next Sunday

The second annual style-fashion show, sponsored by Epsilon Sigma Alpha Sorority, will be presented Sunday, Sept. 18 at the Schneider Hotel.

The first ESA style show, given last year, attracted a great deal of attention, and this year's array promises to be even more interesting and exciting.

Proceeds from the show will go to fill a need long felt in Gray County, to purchase an audiometer for all children in the schools in Gray County. The audiometer is a device for testing the hearing ability. Doctors know that many children are retarded, not because of an inability to learn, but because they cannot hear all that is being said. Perhaps the defect is slight, but it is enough to hinder the child. The audiometer will enable the teacher to understand the child who cannot hear well and help him.

The ESA fashion show is a local affair, and local citizens feel that it is only fair that the proceeds remain in the county.

Men, women and children will be equally interested in the show this year, as they have all been remembered in the collection to be exhibited.

Pampa merchants have been assembling articles for this affair, and have entirely new stocks, not before shown, to exhibit on Sunday. Included in the showing will be clothing for all sizes and all ages, jewelry, shoes and accessories.

Mrs. Earl James O'Brient

Earl James O'Brient Takes Bride In Double-Ring Ceremony in Pampa First Presbyterian Church

The First Presbyterian Church was the setting Saturday evening, Sept. 3, for a double-ring ceremony in which Miss Marjorie Ann Roth of Massapequa, Long Island, became the bride of Earl James O'Brient, Jr., son of Mr. and Mrs. Earl J. O'Brient, 823 North Somerville. The bride is the daughter of Mr. and Mrs. George Roth.

Nuptials were exchanged in the sanctuary at 8 o'clock by candlelight, with Dr. Douglas Nelson officiating. The candle light, and "Clair de Lune," played softly by Mrs. H. A. Yoder during the ceremony, blended into a subtle background for the marriage rites. Mrs. Yoder also played organ selections as guests were being seated.

Two large baskets of gladioli and asters were backed by palms interspersed with candelabra. Pews on the bridal aisle were marked with single candelabra tied with white satin bows.

Miss Madeline Brunks of Forest Hills, New York, a sorority sister of the bride, was her only attendant. David O'Brient, brother of the bridegroom, was best man, and groomsmen were Frank Friauf, Billy Dixon, Tommy Joe Adkins and Dale Thut. Vivian Wilkinson and Charlotte Hendricks preceded the bride pair as candlelighters.

Entering on the arm of her father, who gave her in marriage, the bride was gowned in white satin and shadow lace. Her fingertip veil was caught by a band of soft maline, and she carried a bouquet of white gladioli showered with stephanotis and satin streamers.

Miss Brunks' gown was of blue taffeta with matching mitts, and she wore an off the face maline hat of the same shade. She carried a bouquet of rose colored gladioli encircled with blue net and satin ribbon. Candlelighters wore matching blue organdy dresses with rose colored flower bandeaus.

Ring bearer was Raymond Perry, Jr., cousin of the bridegroom. He was dressed in white and carried the rings on a white satin pillow. Mrs. Roth, mother of the bride, wore a gown of cedar crepe and lace, with a hat of matching and aqua feathers, and wore a bronze aster corsage. Mrs. O'Brient, the bridegroom's mother, was attired in a gray crepe gown with lace yoke. She wore a blue and purple velvet hat and a corsage of asters.

A reception honoring the bridal party was held following the ceremony, in the home of the bridegroom's parents. Arrangements of gladioli and asters were used throughout the house, and the table was laid with a silk and lace trimmed cloth and was centered with the tiered wedding cake. Silver candelabra with tall, tapering candles completed the appointments. Mrs. Gene French served the cake, assisted by Mrs. Joe Lipscomb, while Miss Mabel Jurick, New York City; Mrs. R. F. Perry and Miss Ruth Perry, Durham, N.C.; Mr. and Mrs. Raymond Perry, Greensboro, N.C.; Mrs. Yoder played piano selections during the receiving hour.

Mrs. O'Brient is a graduate of Pampa High School, and received her B.A. degree from Adelphi College, Long Island. She is a member of Kappa Kappa Gamma Sorority.

Mr. O'Brient is also a graduate of Pampa High, and serves two years in the Navy. He is a senior at the University of Texas, Austin, where he is a member of the Theta X Fraternity.

Out-of-town wedding guests were Miss Madeline Brunks of Forest Hills, N.Y., Miss Mabel Jurick, New York City; Mrs. R. F. Perry and Miss Ruth Perry, Durham, N.C.; Mr. and Mrs. Raymond Perry, Greensboro, N.C.; Mr. and Mrs. A. L. Patrick, Jr. of Garden City, Kansas, and Mr. and Mrs. Glenn Mordy and son, Burke, from Oklahoma.

Nuptial music was played by Mrs. Carver and included "Love's Old Sweet Song," "Beautiful Dreamer," "Oh Promise Me" and the traditional wedding marches. Only a few relatives and friends were present for the ceremony.

The young couple attended the Pampa schools and Mr. Fletcher has spent a year in the Army, and is now employed at the First National Bank.

Others witnessing the ceremony were the bride's sister and her husband, Mr. and Mrs. Robert Evans of Dumas, and the bridegroom's brother and his wife, Mr. and Mrs. Jack Stone of Pampa.

The newly married couple will live in Pampa.

Mr. and Mrs. L. J. Seitz Observe Golden Wedding

Mr. and Mrs. L. J. Seitz

Mr. and Mrs. L. J. Seitz celebrated their 50th wedding anniversary Sunday, September 4, at their home eight miles west of Mobeetie, with an open house and reception.

Friends and relatives registering during the day in the gold and white 50th anniversary guest book numbered 188. Daughters served the golden punch and angel food cake. A three-tiered wedding cake centered the lace-covered table.

The guests were met by Mr. and Mrs. Seitz. Mrs. Seitz wore a grey Romanian crepe dress. She wore a pearl necklace which was an anniversary gift from her husband.

Mr. and Mrs. Seitz were married at Illinois Bend, Montague County, Texas, at the home of her parents, Mr. and Mrs. O. C. Elliott on September 3, 1899, and came to Wheeler County in a covered wagon in the fall of 1900.

Mr. and Mrs. Seitz have 11 children, all of whom are living. There are six boys and five girls. They are Charlie, Monroe, Fayette, Irvin, Loy, of Mobeetie, and J. W. of Shamrock; Mrs. Anna Lewis, Mrs. Lottie Reynolds, and Mrs. Estelle Hodges of Pampa; Mrs. Nettie Lancaster of Mobeetie; and Mrs. Alta Morris of Turlock, California. All of the children except Mrs. Morris were present for the occasion. Mr. and Mrs. Seitz have thirty-two grandchildren and one great grandchild, Barbara Lewis.

There were eight persons present for this celebration who attended the wedding fifty years ago.

The Social Calendar

Groups 1 and 2 of the Pampa Art Club will meet for a study period at 2:30 this afternoon. The groups will meet at the home of Mrs. W. L. Heaker, 321 North Somerville.

The New Comer's Club will meet at 8 o'clock Monday evening in the Palm Room. Mrs. A. R. Edgmon will be hostess.

The Council of Clubs will meet at 9:30 Thursday morning in the City Club Room. All presidents and representatives have been urged to attend this meeting.

Joe T. Stone and Bride Live Here

Mr. and Mrs. Phil Corcoran of Mobeetie announce the marriage of their daughter, Pauline, to Joe T. Stone, son of Mr. and Mrs. J. T. Stone of Pampa, on Friday, September 2. They were married by the pastor of the Methodist Church of White Deer.

Martha Abbott of Mobeetie was bridesmaid, and best man was Don Reid of Pampa. Others witnessing the ceremony were the bride's sister and her husband, Mr. and Mrs. Robert Evans of Dumas, and the bridegroom's brother and his wife, Mr. and Mrs. Jack Stone of Pampa.

Bridesmaids in Pink
(Continued From Page 13)
Attending the bride as matron of honor was Mrs. Ted Shapiro of Amarillo, sister of the bridegroom, and her cousin, Miss Jerry Kaplan of Dallas, served as maid of honor. Bridesmaids were Betty Holmes, Brownfield; Evelyn Weinberg, Paris, Tenn.; Shirley Berg, Waterloo, Iowa, and Lenore Levinson of Wichita Falls. The five girls are former classmates of the bride at Stephens College, Columbia, Mo. They were dressed in identical gowns of slipper satin in primrose pink. Styled with high waists, puffed sleeves and bodices that crossed front, draped and tied in the back over satin skirts that billowed over pink crinoline, the gowns were designed to carry out the tradition of the French royal court during the First Empire period. On their heads they wore starched pink bonnets with fresh flowers. Their bouquets were cone-shaped, old fashioned Colonial bouquets of gardenias, sweetheart roses, pom pom mums, and pom asters with matching ribbon streamers.

The flower girl, Glenda Finkelstein of Pampa, wore a replica of the bridesmaid's gowns, and carried a satin basket covered with blue tulle, filled with rose petals. She wore a halo of pink sweetheart roses. Steven Lifter of Dallas, the ring bearer, was dressed in a navy suit, and carried a white pillow decorated with pink pom asters and mallow.

COFFEE LACE
The bride's mother wore an ankle length gown of cocoa brown lace and net over gray net and nylon tulle, fashioned with elbow length sleeves. With it she wore brown suede shoes and a hair with a dark Cattleya orchid. Mrs. Spector mother of the bridegroom, was dressed in a gray crepe dinner gown; and her corsage was a dark Hybrid orchid.

Mr. Spector was attended by his father as best man, and by Sam K. Boyles, Amarillo; Allen Antweil, Hobbs, N. M.; Ted Shapiro, Amarillo; Leroy Gilbert, Fort Worth, and Benny Peiz, Los Angeles, Calif. as groomsmen. Ushers were Stan Hichman, Del Bellflower and Hubert Finkelstein. Candlelighters were Samuel Gilbert and Sam Bernard Rosenberg, cousins of the bride.

Bob Gray furnished vocal music

with Miss Angela Duncan at the piano. Miss Duncan played "Jair de Lame," "Liebertraum," "Ah, Sweet Mystery of Life," and the traditional wedding marches.

TO NEW YORK
Mrs. Spector attended school in Fort Worth, and later in Pampa, where she was graduated from high school. She then went to Stephens College at Columbia, Mo. Mr. Spector attended Amarillo College and the University of Texas. He is a member of Sigma Alpha Mu Fraternity. After a honeymoon, the couple will live in Amarillo. For the wedding trip the couple went by plane to Kansas City, Chicago and New York City. When they left Mrs. Spector was wearing a brown gabardine suit, beaded with bronze beads. With it she wore a brown velvet poke bonnet, brown shoes and carried a brown beaded bag. Over the brown ensemble, Mrs. Spector wore a short white coat and carried white gloves. On her shoulder were pinned two white orchids.

After the ceremony, a reception was held in the Crystal Ball Room. Miss Rita Roberts of Plainview presided at the bride's book, where about 400 guests registered. The reception tables were decorated with pink chrysanthemums and lighted by pink candles.

On Saturday night, preceding the rehearsal dinner, Mr. and Mrs. Gilbert were host and hostess at a cocktail party, which was also held in the Crystal Ball Room. Approximately 100 guests were present.

Killian
(Continued From Page 13)
Germany with the United States Army.

The couple left Saturday night for a short wedding trip, after which they will live in Albuquerque, where Cpl. Willis is stationed.

WHITE AND YELLOW
At the reception which followed the ceremony, a handmade crocheted tablecloth covered the table, which was centered with an arrangement of white and yellow chrysanthemums. Mrs. James S. Silcott, the bride's sister, presided at the punch bowl and Mrs. T. A. Mastin served the wedding cake.

At a pre-nuptial shower in the home of Mrs. J. W. Crisler, a few days before the wedding, approximately 150 guests called. Yellow and white, the bride's chosen colors, were used in the decorations.

Hostesses for the fete were Mrs. J. W. Crisler, Mrs. T. A. Mastin, Mrs. Robert Hollis, Mrs.

Hazard
(Continued From Page 13)
Mrs. James W. Love of Lefors was matron of honor, and James Love served as best man.

The bride was attired in a dark green slipper satin suit, fashioned with a fitted bodice and full, hip length peplum topped a pencil slim skirt. Her accessories were of light bronze satin, and she carried a bouquet of balsam roses with gold and bronze tinted greenery.

The matron of honor wore a gown of pale blonde slipper satin, and with it she wore accessories of cocoa brown suede and satin. Her shoulder corsage was a red gamelia and yellow daisies.

For her daughter's wedding, Mrs. Heath wore a steel blue crepe dress with black patent accessories, and a corsage of blue carnations.

Mrs. Kingsbury was graduated from Pampa High School where she was a member of the capella choir, Harvester Band, Sub Deb Club, and of numerous musical organizations. She graduated from West Texas State College at Canyon, where she was active in the Madrigal Choir, the Buffalo Band, and the college orchestra. While in college, Mrs. Kingsbury was chosen for Who's Who in American Universities and Colleges, the most popular girl, and president of her senior class, and was also an outstanding member of Gamma Phi Sorority. She taught public school music in the Pampa Junior High School several years and was a member of B.G.K. before moving to Pensacola, Fla., where she has been teaching for the past two years.

Lt. Kingsbury was a 1945 graduate of the U. S. Naval Academy, Annapolis, Md. He has been attached to the Navy for 10 years, and recently completed advanced flight training at Corpus Christi, pending assignment to an advanced flying base. He has won several trophies in amateur golf meets throughout the states.

Mr. and Mrs. Kingsbury left for Pensacola, Fla., where he will receive a base assignment. The couple will then take a wedding trip to Newport, Maine, and Brooklyn, New York.

Guests attending the wedding included Mrs. Kingsbury's maternal grandmother, Mrs. Beulah Reed, Mr. and Mrs. Bruce Head, Mrs. H. A. Peoples, D. B. Shepard and J. P. Heath.

Bobbie Silcott, Mrs. Leo Braswell, Mrs. R. B. Brummett, Mrs. C. Nickolson, Mrs. Bertha Gattlin, Mrs. Emory Noblitt, Mrs. Sannie Sullivan and Miss Jeanne Hollis

Evelyn Tate Is Honored Guest at Farewell Party

A farewell party in the home of Mrs. H. O. Donham, 1126 Oklahoma Street, last Saturday night, honored Miss Evelyn Tate, who is leaving Pampa soon to attend the Assembly of God Bible School at Waxahachie.

Games were played throughout the evening, and music was furnished by the Assembly of God Boys' Quartette, which includes Nelson Kitchens, Max Robbins, R. F. McDonald and James Taylor, accompanied by Elmo Hudgins at the piano.

The group presented Miss Tate with a gray wardrobe suitcase as a going away gift. Refreshments

of ice cream, cake and pop were served by Mrs. Donham, assisted by Mrs. Elmo Hudgins and Mrs. Garrison.

Guests were Jimmie Gilmore, Patsy Cargill, Billy Rose, Dorene Ford, Wallace Bruce, Carolyn Donham, R. F. McDonald, Wanda Morris, Billy Sheats, Louise Rogers of Lubbock, Max Robbins, Nancy Wheeler, Ladon Sheats and Helen Wallace.

Elmita Davis, Nelson Kitchens, Beverly Mellagin, Ginger Green, Dal McLaughlin, David Hunter, C. L. Wallace, Mary Beth Wells,

Edith Taylor, Dolores Drake, Ramona Hudgins, Leon Taylor, James Cook, Tommy Watson, Dorothy Hughett, James Taylor, Tommy Allison, Mr. and Mrs. Hudgins and Mrs. Lillian Garrison.

New Plane Designed for Feeder Lines

HOUSTON — (AP) — A new airplane, developed especially for feeder airlines, features speed, safety and economy. You take your own luggage aboard and enjoy the quiet comforts and speed of larger, four-engine aircraft.

The increased operating efficiency of the new two-engine plane—the Douglas Super DC-3—was demonstrated this week to Pioneer Airlines.

Douglas says it's the safest airplane going. It even has bird-proof windshields, stainless steel engine nacelles and non-inflammable hydraulic fluid.

An 878-mile flight over Pioneer's route lopped off one hour and 8 minutes of normal trip time, showing a savings of 24.7 percent.

The sleek, twin-engine plane reduced Pioneer's ground operating time to two minutes. While the new crafts operating cost per airplane mile is essentially the same as the older DC-3, the passenger mile cost has been reduced materially. The fuselage of the plane was enlarged to accommodate more passengers and make them more comfortable.

Max Jacoby, chief pilot for Pioneer, flew the new plane over the line's route. The craft stopped at Bryan, Temple, Waco, Dallas, Fort Worth, Abilene, San Angelo, Austin.

Jacoby says it's the easiest transport plane to fly he ever saw. The cockpit is more comfortable and it is quieter than the older plane.

When you get on it, you just place your luggage in a rack near the door, and pick it up.

Jaycees Seek Artist for St. Pat Fete

SHAMROCK — (Special) — The Shamrock Junior Chamber of Commerce is sponsoring a contest when you leave.

A new cargo space, in the tail assembly, provides for efficient handling and provides for heavier loads.

to locate the most talented amateur artist in this area.

The organization is offering \$15 in cash prizes for the two best drawings which can be used to publicize Shamrock's St. Patrick's Day Celebration, March 17.

The Jaycees point out that originality will be the major factor in determining the winners.

One of the winning designs will be made into an engraving from which 12,000 decals will be printed to advertise the big fete.

The contest is open to the public and any one person may submit as many entries as he cares to. All entries will become the property of the Jaycees.

Prizes will be: \$10 for first place and \$5 for second place. All entries should be mailed to Harris B. Zeigler, Shamrock, secretary of the Shamrock Junior Chamber of Commerce. The contest closes at midnight, Monday, Sept. 19.

HOW TO PLAY CANASTA: 7 Wild Card Retains Value

By WILLIAM E. MCKINNEY
America's Card Authority.
Written for NEA Service

AFTER completing the draw in four-handed Canasta, a player may meld, if he is able and willing to do so, (he must meld if he draws the up-card of the pack).

Sequences are not melded in Canasta, only cards of the same rank; for example, three or more queens or three or more six-spots. Suits and sequences play no part in Canasta.

The initial legal meld of a side cannot be taken back into the requirements outlined in the scoring table.

After an initial legal meld has been made, a player in his proper turn may make any additional melds or add cards to melds previously made by his side.

A MELD of three or more cards always must have at least two

natural cards, and not more than three wild cards.

WILD CARDS: The four jokers and the eight deuces are wild. A joker or a deuce may be used to help you to lay down a meld. The value of a joker or a deuce does not change to the value of the card for which it is used. For example, if you put down two sevens and a joker, the joker counts 50 points, and not 5 points as each of the other sevens does.

Once a wild card is melded, it cannot be taken back into the hand by the substitution of a natural card. In other words, there is no trading for a wild card.

WILD cards may be used to make a meld or to add to a meld previously made. Any number of wild cards may be added to a completed Canasta, but no other meld may contain more than three wild cards. Deuces and jok-

ers cannot be melded by themselves.

MELDING OUT: A player melds out when he can legally get rid of the last card in his hand, either by discarding it, or making a meld, or playing it to a meld for his side.

CONCEALED HAND: An extra bonus of 100 points is given to a player who melds out with a concealed hand. To earn this bonus, he must meld all of his cards in one turn, not having previously melded any of his cards, nor can he play any of his cards on a meld previously made by his partner. (A concealed hand of course must not contain any red treys; they must be placed face up on the table at the player's first opportunity to play, and a card drawn from the stock pile to replace each red trey placed on the table.)

To go out with a concealed hand, either the player's partner must have previously melded a Canasta, or the concealed hand must contain a Canasta.

TOMORROW: Four-handed play concluded.

Doctor Gives Student Center To College

Dr. M. C. Overton, Sr., of Lubbock, has donated to the First Methodist Church of that city a proposed new Student Center to be located near Texas Tech.

The center will be used as an educational building for the Methodist youth of that school and for students of other denominations who wish to use, according to reports.

Dr. Overton is the father of Dr. M. C. Overton, Jr., well-known resident of Pampa.

The center will be erected on property deeded by Dr. Overton to the church a number of years ago, it was announced.

A similar student center is nearing completion at West Texas State College, Canyon, at a cost of \$35,000. The Dr. Orion Carter,

English Girl Scout Leader Asked Here

A busy year for the Pampa Girl Scout Association was planned Friday morning at the Executive Board meeting, Mrs. K. E. Thornton, executive, said yesterday.

Plans have been made Miss Janet Tobitt of England to come to Pampa in November to instruct leaders and committee women. Miss Tobitt is the author of several Girl Scout books including "Ditty Bag" and "Promenade All."

Mrs. Glenn Radcliff, Program Committee chairman, said she plans to serve coffee and rolls at the reorganizational meeting of the Leaders' Club at 9:30 a. m. Sept. 15 at the Girl Scout House. Troop activities for the forthcoming year will be planned then.

A. C. Troop, president of the association, announced an association meeting will be held at 3 p. m. Oct. 22 at Camp Sullivan. Former and present members of the association, all registered adult Scouters, Scouts and their parents will be invited to attend and participate in a tour of the

camp to show recent and needed improvements.

W. L. Franklin, White Deer representative, and Bill Owens, Wheeler representative, discussed the 1949 Girl Scout drive in their

towns. It was announced the advance gift phase will begin Oct. 17.

The final business transacted at the board meeting was the disbursement each day of the fair in the north exhibit building.

AVERAGE LENGTH LIFE IN U.S. IS 67 YEARS

NEW YORK—Average length of life in the United States is now about 67 years, or nearly double what it was at the time of the nation's founding, and 18 years more than at the beginning of this century. Only the Scandinavian countries, Australia, and New Zealand have as favorable an experience.

These are samplings from the great wealth of facts on longevity and its relations with sex, age, marital status, body build, occupation, family history, and medical record in Length of Life,

Monarchists Still Dream In Bavaria

MUNICH—(AP)—Diehard monarchists still dream of reviving a South German kingdom of Bavaria. Their king would be Crown Prince Rupprecht, 80-year-old son of Bavaria's last reigning king, Ludwig.

Ludwig lost his throne in 1918, along with all other royal German rulers in the postwar collapse of Kaiser Wilhelm's imperial Reich.

Since then Bavaria has been just another German state. Its governors were elected, not born into office. Its once rich and powerful monarch seemed to be only a dead relic of an age gone by—fit only for museums which its castles had become.

But the loyal followers of the throne continued to dream. They gave a convincing demonstration of this recently when Crown Prince Rupprecht celebrated his 80th birthday. Thousands of people from all over Bavaria turned out to pay him homage. Celebration turned into a series of truly royal receptions.

The monarchists made one big political attempt recently to realize their dreams. In the confusion of Germany's second defeat they sensed a chance to recoup what they had lost in the first world war. In 1946, they formed a political party. They called it the "Koenigspartei", or "king's party". Almost overnight 10,000 persons from the city of Munich alone rallied to the royal colors. All over Bavaria the movement spread.

U. S. military government soon stepped in and banned the party on the grounds that it had become a "playground for Fascist elements." Party or no party, however, the monarchist dream continued to smolder. Monarchists and monarchist sentiment emerged in several other parties. Strongest supporter of Bavarian monarchism now is the Bavarian Party, a minor but growing organization which exploits the traditional desire of Bavarians to be independent from all the rest of Germany.

authors trace and interpret the improvement in health and longevity from the earliest times to the present, with emphasis on the social and scientific influences which have brought about this progress.

The increase in our longevity, the authors indicate, was made possible not only by the rapid rise in our standard of living. Though not so evident, improved working conditions, better and more varied food, and plenty of fresh air and sunlight around our homes have given extra years of life to our people.

The authors deal with the problems of forecasting expectation of life. They foresee a further increase of five years in the average length of life in America by 1975, but point out that the chances of surviving beyond the century mark are not expected to be much greater. One hundred years to be about the limit of the natural human life span.

The influence of heredity upon longevity is studied. One case is mentioned of a person whose six parents and grandparents lived to a total of 599 years, and who was himself more than 90. In their discussion of the inheritance of longevity the authors conclude that, although a tendency toward long life is inherited, the inheritance factor is not as important as advances in medicine and standards of living.

Such factors as the relations of child mortality to age of parents, order of birth, pre and natal influences, and the Rh factor are scrutinized. In the discussion of body build a statistical and medical backing is supplied for the alarming diets so many persons try out periodically. Being greatly overweight, it is shown, seriously affects the expectation of life. Being markedly underweight is also a handicap, but not so bad a one.

After discussing some of the ad-

vances which have brought about the present long average lifetime in the United States, the authors turn their attention to the economic and social aspects of increasing longevity. With the population growing older, the pattern of family life is changing. As health measures are improved, more and more persons enter the years of old age in better physical condition. With continuing gains

in medical and social science, the number of normally active years of life will be increased. Instead, therefore, of becoming a burden on the younger working population for support and medical care, the old may well extend their productivity way beyond the present retirement age of 65.

Relentless and Unpredictable

Since 1928, the constant search for all the facts relating to the Dimes funds. Yet, today, there is more polio in more places in this country than at any other time in the nation's history.

It is expected that polio will have struck a total of 100,000 persons in the United States by the end of this year. That would be more than twice the number of cases that in the 1928 year in history—1936.

What is happening here in Gray County is the case all over the country. The number of holdover cases from 1936 that must still be treated at the National Foundation of Infantile Paralysis funds is taking all the cash gathered in the March of Dimes drives.

In New York City, where 2,000 patients were added during the first seven months of this year, I got more than half were patients stricken in previous years. This ratio in carry-over cases and costs, is similar throughout the country.

And now an emergency drive is underway all over the nation to raise \$11,000,000, and that's more money than was raised during the 1949 March of Dimes.

This fight against polio is a vast and unpredictable fight. It is a fight that takes a relentless course on the part of the nation and the willingness on the part of the people to keep plugging away their dimes and dollars.

It is a fight that needs the utmost of all of us. That is the reason we appeal to you in the name of those stricken by this disease that takes so very much money.

There are a few days left yet in this drive. If you have not already sent your contribution, do so today. Mail it to your post office, however it is, and it will go into the fund that will one day defeat polio.

Gracie Says

By GRACIE ALLEN
We returned to the U. S. from Paris by air and flying across the Atlantic certainly gives you an idea of how the world is changing. I predict that pretty soon here won't be any use for seats at all any more, and the ship will have the ocean all to herself.

There are some living things for whom months are measured in days. George got to brooding on the 31 days of sea, and said that men were a lot madder in the line of wooden ships. Not so long ago, he said, a New Bedford whaling captain would bid his good-bye, saying, "I don't want to see you again. I'll be back in three or four years." And now it's almost more than a husband can do to wangle a rest off with the boys.

I don't know about the Atlantic, but there it always has seemed to me that the Pacific Ocean. How could our own starlets get their start if they didn't have an ocean to toss by in a swim suit with a beach ball?

The thing that people fear the most is something they don't understand, and the one thing in business don't understand is foreign banking.

General of the Air Force H. H. (Happy) Arnold.

Washington.....by Peter Edson

WASHINGTON — (NEA) — Army Undersecretary Dan Kimball is playing golf on the 13th hole in the Westaway from the clubhouse when he was called to the phone by his office. The message was that his own assistant, Cedric Worth, had been revealed as the author of the unsigned letter that started the B-28 investigation.

Kimball walked back on the course and relayed the news to his partners in a threesome — Chief of Staff Gen. Hoyt Vandenberg. Up to the time Kimball had been shooting good golf, with a 46 on the first nine and only one over par to the 18 hole. But when he came back to finish the round, his partners started ribbing him so mercilessly about Worth, he says, that it upset his game. So he threw in his towel and walked back to the showers. Secretary of Defense General Vandenberg asked Kimball to resign.

"IS VAUGHAN THERE?" A government employee who had been away on vacation and did not know the news line back to town and inserted wand-in one of the Washington papers, offering to sell his seppite unit. The paper had already hit the streets when the actual jokers started calling by the end of the day his frantic secretary had 300 phone calls, and more than 200 of them by actual name, opened with statements like, "Let me talk to General Vaughan,

Fair Enough - Pegler

By WESTBROOK PEGLER (Copyright, 1949)

NEW YORK — The investigation of General Vaughan's affairs has been a long and arduous one, sanctified by the Hyde Park haunt and lesser members of the royal family.

The Republicans seemed to think they had struck paydirt in the incident of a California man who interceded for a convict client and, for innocent motives, gave a present for the Truman campaign.

The man who interceded for the convict client and, for innocent motives, gave a present for the Truman campaign, was General Vaughan.

The plan inference here is that General Vaughan's temper was so hot because the lawyer promised a campaign gift and, further, that the money came from the rascal's ill-gotten profits on black-market booze. This would be pleasantly scandalous.

But what say the other labor unions? Is it not possible that we think the worst of it as lawyers go to the books, let us look to the great examples.

Jimmy Roosevelt's eager rapacity expressed itself in many ways during the harvest year of 1936. Hand to be good to George Washington Hill, the president of American Tobacco, on a pilgrimage by paper and on a pilgrimage by Hill was a very important part of his business. But there came a time when the eagle of the dynasty got into the moving picture business.

This wasn't the time that Sam Goldwyn, that sterling aesthete and adroit, gave him a job at \$35,000 a year. The appointment of a young star named Jimmy Stewart in the role of a young man who had borrowed \$50,000 from a magnate who shall be nameless here because he later had to go to jail for trying to give the treasury.

Jimmy borrowed Stewart, produced a turkey which laid an egg and went short the \$50,000 on due day. There was no protest by the lender as there might have been had you been in his debt, as though you ever could have tagged him for \$50,000 in the first place. The note just lay there. It moldered. It got rancid. It gave off whiffs not altogether unlike the reek of graft in the highest office in the history of popular government.

This presently reached the not too delicate nose of a New York journalist who began to make roundabout inquiries. The inquiries presently reached the ear of the movie magnate. A letter to lighten the labor of a scribe of the truth, abruptly admitted that he had made the loan and that Jimmy had defaulted in the time old tradition of his clan. But, he said, Jimmy finally had come in and picked up his debt and the note was squared and gone.

Time passed and the patron of the eagle stood in need of a presidential pardon to restore to him the right to vote for "enlightened Democrats." The eagle's soul had gone to his father's and his mortal shell was carefully installed at Hyde Park as the cornerstone of the now rising family traffic in hot dogs, ice cream cones, parking (50 cents), postcards, peanuts and pennants. But Harry S. Truman recognized that a promise by the martyr, whose countless millions never could cease to mourn, was a solemn obligation on the party. And so, soon after Mr. Truman became president, the pardon is issued and the wretched victim of circumstances and a bum, a rapacious man of honor once again.

INTERNATIONAL SOLDIER American observers at Fontainebleau, France, report that Field Marshal Viscount Montgomery of Alamein, now chairman of the Brussels Treaty countries' Commander in Chiefs' Committee, has stopped flying the British flag on his staff car. The reason given is that "Monty" now considers himself an international soldier—not a Britisher. He is reported to feel that all the other Western European Union commanders should follow the same course.

EUROPE TO THE EUROPEANS While some members of Congress think that an American general should be in command in chief in Europe as it would control over North Atlantic Pact military assistance, U. S. defense officials are shying away from it. They reason that Europe must organize for its own defense. If an American is placed in command, then it is the British who would want to dump the whole problem on the United States, for full responsibility, and do nothing themselves.

PROBLEMS IN A NUTSHELL American-British financial negotiations in Washington boil down to this: The British want the United States to reduce tariffs, simplify customs regulations, buy more British goods, increase the raw materials stockpile program, cut down synthetic rubber production so as to buy more raw rubber, and provide more capital investment in the United King-

Before the Dishes Are Done

By BETTY KNOWLES HUNT THE "PURGE" IS UNAMERICAN

Where do you live? California? New Hampshire? Ohio? Wherever it is, are you an or your fellow citizen, ready to give up your right to freely choose your own representatives in Congress? If not, then you had better wake up, for this right is being gravely threatened by political and pressure-group forces from outside your state!

The prize example of this will take place in Ohio next year in the Robert A. Taft campaign. Ohio citizens have a perfect right to vote either for or against Senator Taft. That is strictly an Ohio privilege, granted to it by the Constitution of the United States! Whether President Truman, or CIO and AFL leaders, or East-coast "liberals" like Taft or not, against the point. They are not residents of Ohio. None of them has Ohio election, either through the right to dictate or control an Ohio election, either through threats, or coercion, or bribery, or money, or any other means. To do so is not only to repudiate the Constitution, it is also to show complete contempt for the people of Ohio.

If outside forces can invade a state and control its elections, then that state has ceased to be independent and sovereign, and its citizens have lost a major part of their American liberty. And if it can happen in Ohio, then it can happen everywhere else! Senator Taft has not been threatened by the citizens of Ohio. He has been threatened by the Federal Administration in Washington, and by national labor leaders from other states.

This fact makes him even more important than he already is, so important in fact, that this silly and sinister "purge" attempt may even boom him into the White House in 1952. One has only to remember what happened to the Attorney General, Tom C. E. Clegg, to "purge" Senators George Tydings and Gillette back in 1938. The people in those states so highly resented this arrogant Presidential attempt to dictate in their local affairs, that they promptly returned the Senators to Washington. Only recently, when outside labor leaders and New Deal "liberals" moved into Virginia to denounce Senator Byrd, the citizens of this state resoundingly rallied to the Senator's defense. Not only that, but they sign that Americans will insist upon their Constitutional right to elect whomever they choose, without dictation from outside.

Labor unionist, Victor Riesel, recently wrote of a secret junction confab between President Truman's assistant, Clark Clifford, and Jack Kroll, the CIO's Political Action chief, the purpose of which was to find out whether the President could back the CIO's candidate, a Mr. Murray Lincoln, for Governor. Later the word came back that Truman would, "That's all very cozy, except that Democratic leaders in Ohio have picked another candidate, Toledo's Mayor Michael J. Dennis. Not only that, but they question to ask just why a couple of "foreigners" like Jack Kroll and President Truman should presume to choose the Ohio Democratic candidate? Since when did this right cease to belong to Ohio Democrats?

If labor leaders insist that they can use union funds from all over the country to gang up on some candidate in a particular state, then they must logically concede that same right to every other pressure-group in America. The NAM has the equal right to use money from all its members to fight Senator Pepper or Senator Humphries. The AMA can solicit funds to fight Senators Murray or Dingell. Landlords, veterans, farmers can do the same. It's not a very pretty picture for a happy future, is it? But that's where we are heading.

You will note that I have not discussed Senator Taft as a man. That's another subject. What I'm thinking about is equal rights to use money from all its members to fight Senator Pepper or Senator Humphries. The AMA can solicit funds to fight Senators Murray or Dingell. Landlords, veterans, farmers can do the same. It's not a very pretty picture for a happy future, is it? But that's where we are heading.

As for a President of the United States personally attempting to "purge" a Congressman, I can only quote the Patron Saint of both Presidents Roosevelt and Truman, Thomas Jefferson. In a letter to President Washington in 1792, when he was Secretary of State, he wrote: "When I embarked in the government, it was with a determination to intermeddle not at all with the Legislature. As I never had the desire to influence the members of Congress, so neither did I have any other means than highly to risk by usurpation on what I considered the average I. Q. may have far-reaching influences upon the child's whole life.

From what I have seen, the only country in the world safe from communism is Russia. —Actor Clifton Webb

The Tower of Babel was 900 feet in height.

Health Talks

Prepared by the State Medical Association of Texas

What and why is the I. Q.? What is intelligence and why should the medical profession be interested in it?

I. Q. is the intelligence quotient of an individual, arrived at by dividing the mental age (from the score on the test) by the chronological age (computed in months). A person whose mental age is the same as his actual age will receive a score of 100.

To illustrate: A child of 7 years, which is 84 months, scores a mental age of 84. Dividing the mental age of the child by the actual age results in 1.00. The decimal is removed and the child is said to have an I. Q. of 100.

Another example: A 12-year-old child, 144 months, makes a mental score of 72. Dividing 72 (mental age) by 144 (chronological age) gives .50, or an I. Q. of 50.

When the I. Q. is less than 100, the child is considered mentally up to his age; when it exceeds 100, he is mentally above the average of children his actual age.

Who is an I. Q.? The group testing in schools serves as a large screen to gauge the mental level of the students. These mental tests are generally most reliable between the ages of 6 and 12 years and will drop up during the schooling of your child. They are far from perfect tests, serving merely as a tool for rough estimates. They are best used in interpretation of a student's real I. Q. by comparing the scores on tests given over a period of years.

There are many factors which might affect these mental tests. The examiner, the person giving the tests, in many cases might inspire the child to excel on one particular test; or might also have the opposite effect. The child might not be feeling up to par on the particular day of the test, which will affect his score; perhaps his father fussed at him over breakfast, or he was up late the night before—any of these would affect his mental alertness to the test. All these things must be con-

National Whirligig

news behind the news

By RAY TUCKER

WASHINGTON — Rules Chairman Adolph Sabath of Illinois blasted the Army Engineers Corps as the "most vicious lobby on Capitol Hill" at the very moment when this historic and Congressionally popular unit faces the most numerous and serious battles in its 125 years of existence.

Although it has defied successfully such tough fighters as Franklin D. Roosevelt and "Curmudgeon" Ickes, it was never so besieged by so many foes at one time, to wit:

(1) Although still standing on the sidelines, President Truman and National Defense Secretary E. A. Tamm may move against the corps. It has blocked Mr. Truman's proposed Missouri Valley Authority. For this session at least, the Corps has been a formidable boss as Mr. Johnson will permit it to run their affairs without any regard or responsibility for his views, as it always has in the past.

(2) The Hoover report on government reorganization urges that engineers be merged into a Bureau of Water Development and Use within the Interior Department, the corps' inveterate enemy except when they conspire together against outside invaders, as they did to defeat the MVA proposal.

PRIZE — (3) Senator Robert S. Kerr of Oklahoma has introduced legislation that would transfer the corps' construction of a vast project in eight Southern and Southwestern states to a United States Commission that would strip the corps of the authority it has exercised under the 1936 Flood Control Act.

(4) Even if these attacks fail, the Congressional inquiry into lobby activities inspired by Mr. Sabath may deprive the corps of its present civil functions, and restrict its engineering performances to strictly military assignments.

But the engineers struggle for a great and lucrative prize, as do their rival agencies within the government. Within the next

twenty years or so, it is estimated that at least \$40 billion will be spent in the development and control of natural resources, and any organization with that much money to spend throughout the country can continue to laugh at presidential and departmental poobahs.

RESERVES — The Engineers Corps has a host of reserves, however, for the current "cold war." Since there is hardly a creek too shallow for it to deepen, or a harbor too unimportant for it to improve, it can usually command handsome majorities in House and Senate.

Its unofficial sponsor and protector is the National Rivers and Harbors Congress, which consists of contractors, supply houses, manufacturers, civic organizations and other groups that benefit from engineering development. The head of this organization is Senator John J. McClellan of Arkansas, who also happens to be chairman of the Senate Committee on Executive Expenditures.

Its men in the field are excellent. They know and do their stuff when it comes to actual construction, although they profess slight interest in the broader and more fundamental problems affecting the nation's resources. Its officers at Washington are skilled manipulators in wangling appropriations.

CLASH — The immediate clash centers around development of the Arkansas, White and Red Rivers, involving such questions as flood control, navigation, power, irrigation, etc.

The area affects the eight states of Texas, Arkansas, Oklahoma, Mississippi, Louisiana, Missouri, Kansas and New Mexico. How the water, land, forests and power in this vast area are made to work for instead of against man means a great deal to this area.

The task was originally assigned to the Army Engineers, with the rate of completion dependent only on annual Congressional generosity with money. The Capitol Hill representatives of those states, although two deserted to the Dixiecrats last year, have been hounding Congress for larger appropriations at recent sessions.

AMBITION — How comes Senator Robert S. Kerr of Oklahoma has introduced legislation that would transfer the corps' construction of a vast project in eight Southern and Southwestern states to a United States Commission that would strip the corps of the authority it has exercised under the 1936 Flood Control Act.

Even if these attacks fail, the Congressional inquiry into lobby activities inspired by Mr. Sabath may deprive the corps of its present civil functions, and restrict its engineering performances to strictly military assignments.

But the engineers struggle for a great and lucrative prize, as do their rival agencies within the government. Within the next

The Pennant Stretch

By GORDON MARTIN

There's a quickening of pulses 'long most any city street, as the pennant-chasing baseball clubs turn on the final heat. For the time is growing short and there's a lot of things at stake, and it isn't just a matter of who gets a lucky break. It's a picture with a background that an artist can't quite sketch, 'cause there's joy and tears and heart-break when they hit the final stretch.

Then it is a baseball pitcher has to steady up his nerve, do his chukkin' under pressure and control that roundhouse curve. And the fielder has to watch his whip and never lose his touch, for he's playing now for keeps and has to have it in the clutch. If a slugger fails to hit those dazzling pitches as they come, he's the difference in the battle and a failure and a bum.

It's the same in all of baseball, from the majors right on down, to the smallest bunch of fans who glorify the bush league town. There is nothing so important as that battle for the flag, and it takes a lot of stuff to get that bunting in the bag. When you talk of things American, it's hard to see the beat of the baseball season windup when they're turning on the heat.

ator Robert S. Kerr, a brash and bumptious Senate freshman, with a demand that there be created a United States Commission to survey this project, and take charge of all future construction. In recent Capitol Hill clashes, the Oklahoma oil man has shown great partiality to the Interior Department, which would have a voice in his proposed commission.

Leading the Engineer Corps battalions is Senator Russell Long of Louisiana, who has many allies from other state delegations. Mr. Long contends that the engineers are now doing a good job, and that the Kerr survey would simply mean further delay. The Pennant senator submits figures aimed to show that the military operate much more economically than Interior.

The Long bloc also eyes the proposed Kerr agency as a multi-billion, political, pork barrel organization that would create thousands of jobs for an administration that has shown itself, in certain respects, unfriendly to the South. Mr. Kerr contends that the Army Engineers have become so strong, so arrogant, that "they make policy for Congress." He hopes to break their grip on Capitol Hill, which is an exalted ambition for a newcomer.

A tax reduction would mean a further increase in the size of the deficit and revenue loss would be felt not only in the year of the reduction but also in future years.

Robert L. Daughton (D.), North Carolina, chairman House Ways and Means Committee.

Letourneau, Inc. Directors Named

PEORIA, Ill. — (AP) — R. G. Letourneau, Inc., earth moving equipment firm, has announced election of C. Jared Ingersoll, Philadelphia, and J. A. Elkins, Houston, to the board.

Ingersoll also is a director of the Pennsylvania Railroad and Insurance Company of North America, and chairman of the Kansas City, Oklahoma and Gulf Railway.

Elkins is president of the City National Bank of Houston, and a senior partner in the Houston law firm of Vincent, Elkins, Weems and Francis.

Special Prosecutor Not Needed, DA Says

EDINBURG — (AP) — Hidalgo County District Attorney Jack Ross said Wednesday that there would be no special prosecutor in the murder trial of Esteban Garcia.

Garcia, prominent and wealthy Rio Grande Valley rancher, is charged in the June 3 gunnath death here of Mexican Brig. Gen. Heron Ramirez.

"There is no special prosecutor in any of our cases," Ross said. "I will accept a special prosecutor only in cases where a bunch of technical stuff is involved. . . . This is just a run of the mill case."

Buyers at Merchandise Show See Holiday Shopping Spree

By WILLIAM C. BARNARD
Associated Press Staff

The Christmas shopping season will see the biggest peacetime buying spree in years.

That's the opinion of leaders of the jewelry and assorted gifts industries—wholesalers and retailers. They're in Dallas this week in full strength. Thirty-five hundred buyers from retail stores in 10 states of the South and Southwest are looking over the lines of 1,700 manufacturers.

Exhibits run through two downtown hotels and overflow into two floors of a big office building. Buttonhole just any representative—wholesaler or retailer—ad you find him bursting with optimism.

"No doubt about it," H. W. (Wes) Johnson, president of Allied Exhibitors, Inc., said, "the Christmas season will be a real whopper. Retail stores are buying with marvelous enthusiasm. All talk of a recession has gone out the window, in my opinion."

The Allied Exhibitors are staging one week-long show, their 18th, and the Southwestern Merchandise Exhibitors, Inc. is giving its 28th Dallas gift show.

Fred Sanz, of Kansas City, who is directing the latter, said: "Conditions have changed tremendously since the first of the year and I am most enthusiastic. Buying at shows early this year was comparatively slow. Now, retail stores are really taking on the goods. But buyers are choosy and can afford to be. Products are far better and more varied than at any time since before the war."

Johnson of Los Angeles, said the Allied show is displaying the lines of 1,500 manufacturers.

"Business has been off," said he. "Retailers had been overstocked and they were afraid of the recession talk."

"Now," he added happily, "Business is getting better all the time and buying at this show is a brisk trade than I ever dreamed it would be."

Buyers from jewelry, hardware, furniture, department and specialty stores are attending the two shows.

Products run the gamut from jewelry, ceramics and bed lamps to luggage.

The exhibits reflect greatly increased imports from Germany and Japan.

Jerry Joki of Dallas, who wholesales jewelry cases and designs store displays, a veteran of 17 years in the business, said:

"The Southwest is the bright spot for the jewelry and gifts industry. I feel certain jewelry stores of the Southwest will have a bigger year than last."

"Quality has improved, prices have gone down. It is a buyer's market, whether the buyer is a

Who Means What by 'Statism'?

By DEWITT MACKENZIE
AP Foreign Affairs Analyst

These certainly are fast moving times. Frequently fixed ideas which we hold one day go up in

retailer store representative or a member of the buying public.

"And the whole tone of this business has improved. During the war years it was easy to sell—but a salesman couldn't conscientiously put his heart into selling. The goods didn't have the quality or the variety."

"Now, we've got both again—and we feel a devil of a lot better."

smoke with the morrow's dawn. What set your columnist off is the confusion that has arisen as a result of a new definition of the word "statism." Most of us were brought up on the definition which is given in my unabridged Webster:

"Belief in a state government, as in a republic, in contrast with belief in communism or a Soviet government."

Now, without much warning, we find this definition reversed by many folk, because of its comparatively recent usage in restricted but prominent circles. Some of our diplomats in Washington have been using it.

It would be interesting to know just when the "reverse English" was first put on the old definition. Faced with two definitions I turned to the dictionary department of Funk and Wagnalls for light. I was told that the new definition has indeed come into use

and that the house's "New College Standard Dictionary" defines statism as follows:

First meaning: "A theory of government which holds that the returns from group or individual enterprise are vested in the state, as in communism."

Secondary meaning: "Loosely, adherence to state sovereignty, as in a republic."

You can pay your money and take your choice. The trouble with two opposed definitions is that confusion must arise unless the context of the speech or article makes clear which definition is being employed.

And the only moral we can draw from this is that we shall be smart to make sure we understand what we use is made clear by our context. If we don't we're likely to find ourselves calling somebody out of his name without meaning it.

Contest Entrants May Improve Nature

ASBURY PARK, N. J. — (AP) — Falsies will be permitted for the Mrs. America contest this year.

That was the ruling today by Bert Nevins, director of the 11th annual Mrs. America contest which starts here Saturday.

The false problem first came up in nearby Atlantic City where the Miss America pageant currently is underway. The contest directors there, however, ruled out all devices to improve on nature.

SUCCESS FORMULA DECATUR, Ill. — (AP) — A possible formula for successful marriage was suggested today by Mr. and Mrs. B. L. Robinson, who observed their 66th wedding anniversary. Robinson gets the couple's breakfast every morning.

New Superintendent Of Home Is Named

CORSICANA — (AP) — M. M. Madison of Sweetwater has been named superintendent of the Odd Fellows Orphans Home here. His wife will be matron of the home. The couple was elected yesterday at a meeting of the Board of the Trustees.

Madison succeeds Conley Lovelace, who resigned to take charge of a boys ranch near Fort Worth.

DAMAGE ESTIMATED TOKYO — (AP) — Officials set damage to U. S. Army installations and vessels at the Yokohama port in the Aug. 31 typhoon at \$250,000.

Theodore Roosevelt once said, "In the White House you do not live; you are just Exhibit A."

14 CREWMEN MISSING HONG KONG

(AP) — Fourteen Chinese crewmen are missing from the British merchant ship Chasing which blew up and sank last night in Hong Kong harbor.

Little Change Noted in Week's Drilling Activity

First fall meeting of the API will be held Sept. 27 in the Palm Room of the City Hall. An interesting program on New well completion methods in the Panhandle is being worked up. Included in the program will be a discussion of the new hydraulic fracturing process developed by Stanolind and now licensed to Halliburton. The new process is used to increase the producing ability of old and new oil wells.

It would seem some parties are becoming tired of waiting on the tidelands controversy. It was reported last week that first commercial production from a well drilled offshore in the Texas tidelands was sighted in a Stanolind well off Galveston County.

The well was reported to have a flow of 49 barrels of condensate and 4,539,000 cubic feet of gas. Test was taken from perforations at 5,964 to 5,968 feet.

Meanwhile, a Plymouth Oil Co. spokesman asserts the "oil rich tidelands" aren't worth all this bickering. He said that since 1945 a total of 32 prospects have been drilled. Six of them resulted in oil discoveries, all in Louisiana waters. On the six discoveries, 25 development wells have been drilled, resulting in 15 producing wells, eight dry holes and three lost by blowouts. Of the other 16 prospects drilled, 17 were dry, eight were gas condensate discoveries and one was a dry gas discovery.

Two Magnolia employees were awarded 30-year service buttons Friday at a dinner given in their honor. The two were John F. Curtis and August Kuehl. The awards, gold lapel pins with diamond inset, were presented to the men by J. S. O'Brien, production superintendent for Magnolia. Two others received their pins recently. They were Vernon E. Moore and Clarence Hawkins. Both received 30 years awards.

Humble had three visiting firms in town Thursday. E. Franklin, public relations manager; H. G. Jones, division safety manager, were up from engineer and M. H. Luker, Humble Falls for the monthly Humble safety meeting.

Humble also honored a 30-year man. He was K. R. Dawson. Walter Dean, Humble production superintendent, made the presentation.

Roy Grove, Shellman, took off on a three-week visit to Kansas last week. The wife of Burt Castleberry, Shell pumpjack, underwent major surgery recently.

J. W. Swygart, Shell production superintendent, seems to be feeling better all along. He was back in the Shell office visiting, all of Thursday afternoon. He has been on sick leave since March.

Henry Coffey of the Commission office, is home again after spending several days in the hospital. George Lewis of Skelly, was also brought home from Worley Hospital.

Among the speakers at the United Nations conference on conservation and utilization of resources was Dr. A. I. Levorsen, dean of the School of Mineral Sciences of Stanford University. His assertion that the discovery of oil was under free competition was challenged by Manuel Rodriguez Augier, chief of Pemex, Mexican oil monopoly.

Operators Stake 18 Wells; Complete 12 for Oil, 2 Gas

Drilling activity in the Panhandle showed little change from the week ended Sept. 3. Operators staked 18 new locations and completed 12 new wells for oil and two for gas. This is compared with the 18 new locations and 13 completions—none for gas—the previous week.

Total increased potential for last week was 867 barrels of oil and 22,000 MCF of gas. This is a slight rise compared to the 786 barrels of oil and no gas reported for the preceding week.

Two wells were reported plugged last week, both wildcats. One was Gulf's Stump No. 1 in Ochiltree County and the other was the Honolulu Ponder No. 1 in Deaf Smith County.

Gray and Hutchinson Counties reported the same number of new locations last week. Both filed six. Carson County followed with four and Sherman and Wheeler Counties reported one each.

Hutchinson County led in number of new completions with eight new oil wells. Gray County filed three oil completions and one gas. Carson filed one new oil well while Wheeler filed one new gas completion.

Gas Proration Released for September

Sour gas proration schedule for the West Panhandle field has been released by the Railroad Commission for September. This is the monthly well allowables for natural gas wells and gas wells producing crude oil for the field.

According to the report filed by Clark Lloyd, chief engineer for the commission, the West Panhandle field has an allocation September of 61,790,590 MCF. The schedule actually shows an allowable of 61,402,267, but late reports raised this to the first figure. Difference between the two allocations will be made up in the October reports. The September allocation is below the 63,786,075 MCF allowable for August.

However total potential for the field is only 29,461,180 MCF or 47 percent below the commission allowable.

The allowables are to be applied to 682 producing sour gas wells in the field, four of which are gas wells producing crude oil. There is a total of 1,170 producing sweet gas wells with 21 producing companies represented.

Of the sour gas wells prorated 57 were located in Carson County, two in Gray County, 50 in Hartley County, 201 in Hutchinson County and 368 in Moore County. Of the four gas wells producing crude oil, one was in Gray County, one in Hutchinson County and two in Moore County.

Six wells in Hutchinson County with a potential of 7,685 MCF were exempt from the proration schedule. They were given a total proration of 188,000 MCF.

Esso Advances Gulf Heavy Oil

NEW YORK — (AP) — Esso Standard Oil Co. advanced its price of heavy fuel oil at Gulf points by 15 cents a barrel effective Saturday. The new price—\$1.50 a barrel—reflects the company's inability to cover requirements of residual fuel oil in the Gulf area at the old \$1.35 a barrel rate, an announcement said. This is the second increase in no. 6 oil after more than nine months of declining prices.

and in Mexico. Canada has encouraged the entry of private companies and is now confident of enormous additions to known reserves. Mexico's government is doing just the opposite and still hoping for miracles — and a U. S. loan.

Coronado Oil Co. J. S. Morse "West 90" No. 6, 924 feet from N and 330 feet from W lines Sec. 15, Blk. A-9, H&GN Survey, tested 187 barrels with total depth at 2,862 feet and top of pay at 2,746 feet.

S&M Oil Co. Worley No. 16, 230 feet from S and 99 feet from E lines Sec. 64, Blk. 3, I&GN Survey, tested 15 barrels of 43 gravity oil with top of pay at 3,100 feet and total depth at 3,219 feet.

S. Anisman Crank No. 8, 330 feet from S and 990 feet from W lines Sec. 163, Blk. 3, I&GN Survey, tested 20 barrels of 43 gravity oil with top of pay at 3,170 feet and total depth at 3,278 feet.

Oil & Gas News

Thomas Bill to Limit Foreign Imports Finding Backing From Representatives of Oil States

WASHINGTON — (AP) — A stiff curb on foreign oil imports was proposed Friday by Senator Thomas (D-Okla.). He offered it as an amendment to a bill reviving and extending the Reciprocal Trade Agreements law, already approved by the House.

Thomas' proposal to limit oil imports to 5 percent of domestic demands drew strong support from Senators representing oil producing states. One of those who said in advance that he would vote for the curb was Senator Connally (D-Tex.), chairman of the Foreign Relations Committee which approved the trade bill.

The domestic demand for petroleum now is about 5,000,000 barrels a day. Five percent of that is 250,000 barrels. Thomas said that imports now are running about 600,000 barrels a day.

But, if oil production in the United States is drastically curtailed, he argued, there would be little drilling or use of operating equipment. Then, he said, in event of an emergency in which oil could not be brought into the country, it would take a long time to reopen wells, drill new ones and attain high domestic production.

Use of oil shale, coal and farm products for production of liquid fuel has been advocated. The Senator said, a d experiments along this line should continue so that when domestic oil resources are exhausted fuels can be obtained from these sources.

Basin Reports

Clayton County, Oklahoma — Bay Parks No. 2, drilling ahead at around 4,740 feet.

Deaf Smith County — Honolulu Ponder No. 1, abandoned at 10,191 feet.

Hall County — Vandelin et al Chaudoin No. 1, shutdown at 5,309 feet fishing for stuck drillstem tester.

Lipscomb County — Gulf Portwell drilling below 13,500 feet.

Ogden County — Hooper Duke, WOC.

Ochiltree County — Gulf Harbaugh, latest drilled depth at 10,607 feet, now fishing for drillholes at around 4,888 feet.

Robert County — Sinclair Lips No. 2, well began blowing around 3 p.m. Wednesday and still blowing 3 p.m. Friday, showing 10 MCF of gas through 2 inch tubing. Operators performed 216 plugback to 8,780 and running pipe to 8,774 feet. Probably will perforate. Sinclair No. 3-C Lips, spudded Sept. 1, ran 16 inch to 489 feet and set with 650 sacks of cement, drilling ahead at around 2,800 feet.

Commission Sets Hearings On Allowable Designations

AUSTIN — (AP) — The Railroad Commission will conduct hearings Sept. 21 on applications by the Hiawatha Oil & Gas Co. for amendment to the net gas-oil ratio rule in four Duval County fields.

The fields are: Sweden field, Benavides east field, Longhorn south field, Vaello field.

Discovery allowable and new field designation applications will be heard by the commission as follows:

Sept. 20 — Cities Production Corp., to apply to the Yegua sand completion in its O'Brien Fee "E" well No. 4, South Liberty field, Liberty County.

Sept. 21 — Sam Maceo Oil Operators, to apply to its A. Bode well No. 2, Guadalupe County.

Also scheduled on Sept. 27, is a hearing on the application of Shell Oil Co., Inc., for amendment to field rules for the Bowers field, Montague County, to require a proration unit not to exceed 20 acres and a proration formula based 50 percent on acreage and 50 percent per well.

Discovery allowables and new field designations:

Sept. 27 — Application of Jack Grace Production Co., applying to the reservoir from which its H. W. Scaling and Cobb well No. 1 produces in Clay County.

Sept. 28 — Application of R. H. Abernethy and J. C. Means, for discovery allowable and new separate field designation for sands known as Nos. 1, 2, 4 and 5 Wilcox in the Copeland Creek field, Polk County.

Oct. 6 — Postponement of re-hearing of application by Shell Oil Co., Inc., originally set for Sept. 16, on J. R. Kirk by Shell No. 6, East White Point field, San Patricio County.

Indefinitely postponed — Application of J. M. Turkel applying to its J. B. Burns well No. 2 in Guadalupe County.

Other hearings:

Sept. 20 — Application for exceptions to the commission's flare gas order on ten wells in Goldsmith field, Ector County.

Sept. 22 — Application for exceptions to flare-gas order applying to 28 wells in the Slaughter field, in Cochran, Hookley and Terry counties.

Sept. 27 — Application of Sunray Oil Corp., for exemption from shut-down days on its Kata Whitehead "A" well No. 5, Pierce Junction field, Harris County.

Sept. 27 — Application of S. J. Ryan, trustee, for amendment to the proration formula now in effect to provide for a per well allocation of 80 percent credit, or at least 25 percent credit, in the Spanish Camp field, Wharton County.

Sept. 28 — Application of Sun Oil Co., for change in field classification for six wells from the Orient field, Pecos County, to the Pecos Valley field, in the same county.

FORTUNE FINALLY SMILES—Mrs. Mary Egging, 60-year-old widow of Sidney, Neb., beams as she displays royalty check for oil discovered on her 1,200-acre farm near Sidney. They were the first royalty checks ever paid for oil produced by a Western Nebraska well. Mrs. Egging's husband died in 1933 but she reared their ten children and managed to retain the farm despite the depression years. (AP Wirephoto)

Oil Business Shows Drop, Cuts, Change

Big business in the oil industry last week produced cuts, drops, changes in organization and one loss construction project.

Crude oil production of Gulf in the United States in the first half of 1949 was 12 percent lower than in the like period, according to J. F. Drake, chairman and S. A. Swensrud, president, in Gulf's semi-annual report. The company processed about eight million barrels of oil in the first six months of this year than in the like months of 1948.

Union Oil Co. reduced its posted price of heavy fuel oil 35 cents a barrel to \$1.25. Officials say the reduction was made in order that the company's posted price might accurately reflect fuel oil market conditions on the coast. The oil affected was "punker" oil, used primarily to power ships. No other California company has met the newly posted price.

Directors of Tennessee Gas Transmission Co. last week voted the proposed sale of additional preferred and common stock; ordered a common stock distribution to stockholders of one new share for each four old shares held and agreed on a policy of continuing the usual quarterly dividend payment of 35 cents a share on common stock.

Oilmen Working Overtime On Oil Import Statistics

HOUSTON — (AP) — Many oilmen are working overtime these days compiling statistics on foreign crude oil imports.

The U. S. Senate is reported to be nearing a vote on a proposed solution to the problem—limitation of imports to 5 percent of domestic crude production.

Some independent oilmen say the battle's outcome depends entirely on the success or failure of this quota system as advanced by Sen. Elmer Thomas (D-Okla.).

Requests for aid from other Washington sources, they point out, have met with blunt opposition or been sidetracked.

Thomas last week promised to seek an early Senate showdown on his plan to effect the limitation through an amendment to the Reciprocal Trade Agreements Act.

Three agencies have released reports the past 10 days comparing domestic production and foreign import trends:

1. Economics Advisory Committee of the Interstate Oil Compact Commission — Domestic output decline the first eight months of 1949 by a 414,000 barrelly daily average while imports climbed 117,000 barrels as compared with 1948.

2. Independent Petroleum Association of America — Imports during five summer months this year increased 25 percent, while United States producers ordered 12 percent cutbacks.

3. Texas Independent Producers and Royalty Owners Association — Foreign crude imports the first six months of 1949 displaced 91,911,000 barrel of domestic productive capacity.

The IPAA also reported that the domestic oil industry cut of 7000 payroll employees as drilling activities dropped 16 percent in recent months.

Thomas cited drops in oil prices, demand, drilling and employment as reasons why he hopes to see the Senate take quick action on his quota plan.

Middle East oil fields have been subjected to most of the imports criticism.

One industry spokesman, however, has warned the problem is much broader.

Frank M. Porter, Oklahoma City, chairman of the National Petroleum Council's committee to study petroleum imports, said: "Imports as we know them today is probably not the only problem of the domestic industry. In the near future, British, Canadian, and Mexican oil appear to be certain bidders for

American petroleum markets, as well as the foreign markets we have heretofore supplied."

Domestic production last week increased 44,150 barrels to a daily average of 4,761,500 barrels, compared to 4,531,450 a year earlier. A 60,400 barrel daily jump in Texas was responsible.

GOOD NEWS

Texas who have been leading the fight for state ownership of the tidelands had good news last week.

There were indications the state had its first tidelands commercial producer in Stanolind Oil and Gas Co. No. 1 State well 17 miles off Galveston Island.

On a two hour test the well flowed at a rate of 4,540,000 cubic feet of gas and 49 barrels of 54.6 gravity condensate daily.

Perforations were from 594 to 598 feet with total depth 11,017 feet. Texas has had numerous harbor and river mouth wells but no offshore, deep water producers.

Petroleum Engineer magazine this month says Mississippi oil wells are the deepest in the nation — averaging 7480 feet per well, compared to 4054 in Texas.

Mississippi wells also were said to have produced last year an average of 90 barrels a day, compared to 59 in Louisiana wells, 22 in Texas, and eight in Oklahoma.

Standard Oil Co. of California last week announced completion of the world's deepest producing oil well, the 15,800 foot No. 4 Murrish well in Kern County.

NEW PUMP GIVES 40-70% MORE WATER! Uses Less Electricity

VARIJET, F&W's new patented jet pump delivers up to 70% more water than conventional shallow well jet systems! F&W VARIJET meets extra farm and home needs without more motor H.P. and does it with less load on the motor. Gives longer life, more dependability. Every pump is tested for pressure and capacity. Fully guaranteed, backed by F&W's experience since 1866.

F&W VARIJET bullet pump

By Wesley Lewis

The Federal Communications Commission is wrecking the nation's favorite day dream. That's the dream where somebody calls you on the telephone and asks "When was the War of 1812?" ... and proceeds to give you the key to Ft. Knox for the right answer. The FCC is clamping down on radio giveaway programs ... so it looks as though we're going to have to make our fortunes the hard way. The program "Double or Nothing" will be reduced to "Nothing" and "Stop the Music" won't even get started. Now we'll be able to enjoy an evening away from home without wondering if we missed the jackpot call.

You won't miss the jackpot when you buy a 1950 Studebaker—it's a hit every time! You'll be driving the car of tomorrow today when you sit behind the wheel of a new Studebaker.

A newspaper headline reads: "Germans Told to Watch Their Step." That's a bit of advice that goes for the whole world.

And that's advice that goes for Labor Day driving too. WATCH YOUR STEP on crowded highways. And have a good time. All of us at LEWIS MOTORS, 211 North Ballard St. ... wish you the top of a very fine Labor Day Holiday. Phone 1716.

1—Card of Thanks

WE miss her in the place of prayer, and by the hearth-fire's light. We pause beside her bed to hear Once more her sweet "Good-night!"

There seems a shadow on the day, Her smile no longer cheers; A dimness on the stars of night, Like eyes that look through tears.

Alone unto our Father's will We thought, dear Mother, true; That He whose love exceedeth ours Hath taken home his child.

Fold her, O Father, in thine arms, And let her hear thy voice; A messenger of love between Our human hearts and thee.

MRS. D. B. BROWN We wish to express our sincere appreciation to those who were so helpful during our sorrow of the passing of our dear Mother and Wife. We especially wish to thank our friends for the beautiful floral offerings, Rev. Webb and wife for their kind help, and Dr. McKelvey for his kind care.

Funeral home for their services. Mr. and Mrs. J. S. Biles, Mr. and Mrs. Arha Shelton, Mr. and Mrs. P. G. Goodwin, Mr. and Mrs. J. M. Veatner, Grandchildren and Great-Grandchildren.

G. E. TERRILL Deep in our heart you are being remembered. Sweet happy memories today "round your name." True hearts that loved you with deepest affection. Always will love you in death just the same. We often sit and think of you, when we are alone. For memory is the only friend that friend can call its own.

Mrs. G. E. Terrill and family wish to thank their many friends, relatives and neighbors for their kind expressions of sympathy and for the beautiful floral offerings. We especially wish to thank Rev. H. E. Tyler for his comforting words during our late bereavement.

Mrs. G. E. Terrill and family.

TROUBLE -- TROUBLE

—Well were moved folks and I've sent Curly Boyd his money for the short time that it took him and his kinkoff and me to get the job done—I was a little up-set when Mr. Boyd sent me a statement so soon, as I figured he would wait until the end of the month—but it paid and now there's no hard feeling between me and him—I just hope every thing goes off as smooth when we get ready to move back.

Our new building is going up slower than I thought it would—seems like Shorby stark runs into something that he didn't anticipate every few hours, and of course that runs the building cost up—he also waits until 8 o'clock to come to work and wants to quit at 5, and that worries me—I can remember when I was contracting we started with the sun and worked with the moon—but that's been several years ago before they started this daylight saving time.

Here's a little oil dope and you can check on this five years from now and see if I'm not right—they'll find more oil on the south side of the Canadian River than they do on the north—the big production will be between the Clay County School land and Mendota—of course they'll be some more oil fields all through there, but I'm talking about big production.

—I ask Harry Kelley and Wess Carr to give me some free publicity over their radio program and they do—but what I can understand is why don't people ever give me NICE PUBLICITY—all I wanted them to do was just announce in a NICE WAY that we had moved our offices temporarily in order to enlarge our building that we had moved out of, but NO—now I may have a LAWSUIT on my hands.

—here's a little matter that mabe I ought not to say anything about; but since me and Jim Arndt and Fern Patterson the secretary have had a put up with it for a year, mabe I ought to mention it—you no Kirk got married just a year ago, and of course you no how newly weds take on for the first 12 months of their married life—well weve just gone through this down here at the office—now Roy's engaged and I no just what weve got to go through again—if there was some kind of work that I could do to make a living at outside of the office for the next 12 months dont think I wouldnt take it—no wonder my head shakes.

—dont forget us folks on this Real Estate business—me and Jim are really working—we dont expect to sell it all, but we do expect to sell the most—right now we need some good 2 bedroom houses in the north part of town—we could sell some good wheat land around Pampa.

When you read this go to Church—You'll feel better the rest of the day.
